ASIAN 641	History of Chinese Literature I	3
ASIAN 642	History of Chinese Literature II	3
ASIAN/ RELIG ST 650	Proseminar in Buddhist Thought	2-3

ASIAN 655	Ethnography in Asia	3
ASIAN 672	Studies in Chinese Fiction	3

- A two-semester Senior Honors Thesis in ASIAN 681 and ASIAN 682, for a total of 6 credits.

## FOOTNOTES

- <sup>1</sup> Students who test above 4th semester language must still complete a minimum of 32 credits in the major. These students may complete another language sequence or other coursework as approved by the advisor.
- <sup>2</sup> Intermediate and Advanced level major courses are upper-level.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Broad regional grounding: Understand the variation within and similarities across Asia with reference to historical and contemporary cultural connections (people, societies, languages, literatures, religions, and cultural genres).
2. Multidisciplinarity: Become familiar and proficient with multiple perspectives scholars use to study Asia and use them as resources in their own self-reflective thinking.
3. Depth of knowledge: Employ relevant theoretical and methodological approaches to arrive at informed understandings of key issues involving the environment, human rights, cultural practices, structures of power, etc. based on an understanding of the social and cultural ties within Asia as well as between Asia and the rest of the globe.
4. Analytical skills: Critically examine taken-for-granted notions and stereotypes and to inquire into the process of their construction. They will also be able to read, analyze and explain the significance of Asian texts and artifacts (literary, cultural, historical, and popular culture).
5. Language and cultural competence: Manage basic everyday communication needs in at least one Asian language; understand the

relationship between language and culture; and understand how to study a new language and culture and how to advance their proficiency as life-long learners.

Advanced Language Course (Optional)	3 Electives	8
ASIAN 681 or 691 (Optional)	3	
	<b>15</b>	<b>14</b>

**Total Credits 120**

## ADVISING AND CAREERS

### ADVISING AND CAREERS

#### ADVISING

If you like to plan, seeing your major advisor is very important; it can make the difference between fitting in general education and major requirements before you graduate. Many students also try to complete more than one major or certificate, and discussing how you might be able to reach this goal is another primary role of your major advisor. Advisors can speak to you about course content, which courses fit best with your interest areas, and what kinds of courses might work best with your learning style. Any and all of these discussions can occur during your advising appointment.

Rachel Weiss is the advisor for the undergraduate majors and certificates in the Department of Asian Languages and Cultures. She is happy to meet with students as they explore the degree options, prepare for study abroad, or advance through their four-year plans. Schedule an appointment in Starfish (<https://wisc.starfishsolutions.com/starfish-ops/dl/instructor/serviceCatalog.html?bookmark=connection/10715/schedule>).

#### L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

## PEOPLE

### PEOPLE

Please visit the Asian Languages & Cultures website (<https://alc.wisc.edu/people/>) for a complete list of faculty, instructional, and academic staff.

## WISCONSIN EXPERIENCE

### WISCONSIN EXPERIENCE

#### UNDERGRADUATE RESEARCH

Students in the Asian Languages and Cultures (ALC) department academic programs are encouraged to become engaged in undergraduate research. There are numerous programs (<https://teachlearn.provost.wisc.edu/initiatives-and-programs/undergraduate-research/>) that provide research opportunities for undergraduates at UW-Madison, including:

- Hilldale Undergraduate/Faculty Research Fellowships (<https://awards.advising.wisc.edu/all-scholarships/hilldale-undergraduatefaculty-research-fellowship/>)
- McNair Scholars (<http://grad.wisc.edu/mcnair/>)
- Summer Research Programs (<https://grad.wisc.edu/diversity/srop/>)
- Undergraduate Research Scholars (<https://urs.ls.wisc.edu/>)
- The Wisconsin Idea Undergraduate Fellowship Program (<https://morgridge.wisc.edu/students/wisconsin-idea-fellowships/>)

### WISCONSIN SUMMER LANGUAGE INSTITUTES

Each summer around 200 undergraduate students, graduate students, professionals, and others come to UW-Madison to study a language at the Wisconsin Intensive Summer Language Institutes (WISLI) (<https://wisli.wisc.edu/>). WISLI is host to five summer language institutes which offer high-quality courses in 30 less commonly taught languages:

Arabic, Persian, and Turkish Language Immersion Institute (APTLII)  
 Central Eurasian Studies Summer Institute (CESSI) (<https://cessi.wisc.edu/>)  
 South Asia Summer Language Institute (SASLI) (<https://sasli.wisc.edu/>)  
 Southeast Asian Studies Summer Institute (SEASSI) (<https://seassi.wisc.edu/>)

### STUDY ABROAD AND INTERNSHIPS

The University of Wisconsin-Madison is ranked #2 for semester-long study abroad participation among all US institutions, and #16 among all US universities and colleges for total students studying abroad, according to the 2018 Open Doors Report (<https://www.iie.org/en/Why-IIE/Announcements/2018/11/2018-11-13-Number-of-International-Students-Reaches-New-High/>). There are nearly 60 study abroad opportunities across Asia. Approved UW-Madison programs will allow students to receive resident credit while abroad. With pre-planning, students may also fulfill major requirements on academic programs abroad, however, careful planning and discussion with your advisor are key.

For more information about programs, application process, and fees, visit: International Academic Programs (<https://www.studyabroad.wisc.edu/>).

Students may also gain career and professional experience through various internship opportunities abroad. To review opportunities, application process, and fees, visit: International Internship Programs (<http://internships.international.wisc.edu/>).

## RESOURCES AND SCHOLARSHIPS

### RESOURCES AND SCHOLARSHIPS

#### CAMPUS RESOURCES

Foreign Language & Area Studies (FLAS) Fellowships (<https://flas.wisc.edu/>)

FLAS fellowships are funded by the US Department of Education and administered by UW-Madison's National Resource Centers to assist students in acquiring foreign language and either area or international studies competencies. FLAS awards are only available for specific languages (<https://flas.wisc.edu/Languages.htm>) and are contingent on federal funding. Please direct any questions to the FLAS Coordinator (<https://flas.wisc.edu/Languages.html>) of your chosen language.

Applicants must be U.S. citizens or permanent residents of the United States. Applications by students in professional fields are encouraged. Preference will be given to applicants with a high level of academic ability and with previous language training. Academic Year and Summer FLAS awards are **two separate competitions** requiring **two separate and complete applications**.

---

Scholarships@UW-Madison (<https://scholarships.wisc.edu/Scholarships/>)  
 This is the primary campus-wide portal for applicants, current students, and everyone looking for scholarship opportunities on campus.

---

Undergraduate Academic Awards Office (<https://awards.advising.wisc.edu/>)

We help UW-Madison undergraduates and recent graduates pursue nationally competitive scholarships (<https://awards.advising.wisc.edu/scholarships/nationally-competitive/>) and campus-wide awards (<https://awards.advising.wisc.edu/scholarships/campus-wide/>) for research, service, and leadership-activities at the heart of the Wisconsin Experience. We can help you:

- Find scholarship opportunities that match your goals and interests
- Navigate the scholarship application process
- Review scholarship essays
- Prepare for national scholarship interviews

Contact us (<https://awards.advising.wisc.edu/schedule-an-appointment/>) to schedule an appointment to discuss which opportunities are right for you.

### NATIONAL SCHOLARSHIPS

**Boren Scholarships** (<http://borenawards.org/>)

Campus Representative: Undergraduates with questions should contact Matt Geisler (mdgeisler@studyabroad.wisc.edu), Associate Director of International Academic Programs

These scholarships provide up to \$20,000 to U.S. undergraduate students to study abroad in areas of the world that are critical to U.S. interests and underrepresented in study abroad, including Africa, Asia, Central and Eastern Europe, Eurasia, Latin America, and the Middle East. The countries of Western Europe, Canada, Australia, and New Zealand are excluded. (Full list of preferred countries (<https://borenawards.org/eligible-programs/#countries>)) Additionally, all programs must include formal study of an appropriate foreign language. (Full list of preferred languages (<https://borenawards.org/eligible-programs/#languages>)). Undergraduates with questions about the Boren Scholarship should contact Matt Geisler (mdgeisler@studyabroad.wisc.edu), Associate Director of International Academic Programs.

---

### Critical Language Scholarship Program (<http://www.clscholarship.org/>)

Campus Representative: Mark Lilleleht, Assistant Director for Awards, at [awards@iris.wisc.edu](mailto:awards@iris.wisc.edu)

The Critical Language Scholarship (CLS) Program is part of the U.S. Department of State, Bureau of Educational and Cultural Affairs. It is a fully-funded overseas intensive language and cultural immersion program for American undergraduate and graduate students. With the goal of broadening the base of Americans studying and mastering critical languages and building relationships between the people of the United States and other countries, CLS provides opportunities to a diverse range of students from across the United States at every level of language learning.

The fourteen CLS languages are: Arabic, Azerbaijani, Bangla, Chinese, Hindi, Indonesian, Japanese, Korean, Persian, Punjabi, Russian, Swahili, Turkish, and Urdu.

The CLS Program seeks participants with diverse interests, from a wide variety of fields of study, backgrounds, and career paths, with the purpose of representing the full diversity of the United States. Thus, students from all academic disciplines, including business, engineering, law, medicine, science, social sciences, arts and humanities, are encouraged to apply.

---

### Gilman Scholarship Program

Campus Representative: Andy Quackenbush ([quackenbush@studyabroad.wisc.edu](mailto:quackenbush@studyabroad.wisc.edu)), Advisor, International Academic Programs

The Gilman Scholarship Program is an undergraduate grant program for U.S. citizens of limited financial means to enable them to study abroad, thereby internationalizing their outlook and better preparing them to assume significant roles in the increasingly global economy.

## ASIAN LANGUAGES AND CULTURES: EAST ASIAN STUDIES

The East Asian Studies named option offers a multidisciplinary range of courses that explore the diverse and vibrant cultures, arts, histories, political systems, and literatures of China, Japan, Korea, and Tibet. Students in the East Asian option can study Chinese, Japanese, Korean, or Tibetan language and linguistics; and explore Chinese ghost stories and classical Chinese literature or poetry; Korean cinema and pop culture; classical Japanese fiction; early modern comedic narratives, manga, anime, and counterculture. ALC faculty and instructors offering courses in this option include C. D'Etcheverry, A. Detwyler, N. Geyer, R. Huntington, A. Kern, H. Kim, B. Lim, J. Mori, T. Nakakubo, S. Ridgely, H. Zhang, W. Zhu.

To take advantage of the Department of Asian Languages and Cultures' many relationships with other departments and program units across campus, students may choose to double major or enhance their studies in ALC with one of the certificates offered at the university, such as the global health certificate, the certificate in health and the humanities, or those offered by the area studies centers: Center for East Asian Studies (<https://eastasia.wisc.edu/>); Center for South Asia (<https://southasia.wisc.edu/>); and Center for Southeast Asian Studies (<https://seasia.wisc.edu/>).

This major is interdisciplinary and offers a wealth of options. Careful planning and consultation with the ALC advisor is especially important.

## REQUIREMENTS

### REQUIREMENTS FOR THE EAST ASIAN OPTION

32 credits to include the Introductory and Residence and Quality of Work requirements of the general major, plus these requirements specific to the East Asian Option:

#### GATEWAY COURSE

Code	Title	Credits
<b>Required Course:</b>		
ASIAN 100	Gateway to Asia: Special Topics	3-4

#### REQUIRED LANGUAGE COURSES

Code	Title	Credits
<b>Complete Second Year East Asian Language Courses:</b>

## ASIAN LANGUAGES AND CULTURES: SOUTH ASIAN STUDIES

The South Asian Studies named option offers a multidisciplinary range of courses that explore the diverse and vibrant cultures, arts, histories, political systems, and literatures of Afghanistan, Bangladesh, Bhutan, India, Maldives, Nepal, Pakistan, Sri Lanka, and Tibet. Students in the South Asian option can study Hindi, Persian, Sanskrit, Tibetan, or Urdu language; and probe the roots of Yoga; methods of Buddhist philosophy and meditation; South Asian religion and politics in the past and present of the Indian subcontinent; and medical history in South Asia. ALC faculty and instructors offering courses in this option include F. Asif, G. Bühnemann, S. Beckham, A. Cerulli, S. Farsiu, J. Dunne, J. Khedup, N. Tiwari.

To take advantage of the Department of Asian Languages and Cultures' many relationships with other departments and program units across campus, students may choose to double major or enhance their studies in ALC with one of the certificates offered at the university, such as the global health certificate, the certificate in health and the humanities, or those offered by the area studies centers: Center for East Asian Studies (<https://eastasia.wisc.edu/>); Center for South Asia (<https://southasia.wisc.edu/>); and Center for Southeast Asian Studies (<https://seasia.wisc.edu/>).

This major is interdisciplinary and offers a wealth of options. Careful planning and consultation with the ALC advisor is especially important.

## REQUIREMENTS

ASIAN 699	Directed Study (must have permission from faculty)	2-3

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

#### First Year

Fall	Credits Spring	Credits

## ASIAN LANGUAGES AND CULTURES: SOUTHEAST ASIAN STUDIES

The Southeast Asian Studies named option offers a multidisciplinary range of courses that explore the diverse and vibrant cultures, arts, histories, political systems, and literatures of Brunei, Cambodia, Indonesia, Laos, Malaysia, Myanmar, Philippines, Singapore, Thailand, Timor-Leste, and Vietnam. Students in the Southeast Asian option can study Burmese, Filipino, Hmong, Indonesian, Khmer, Thai, and Vietnamese language; and probe Human rights in Thailand; explore literature of the region; and history and politics in Southeast Asia. ALC faculty and instructors offering courses in this option include E. Barnard, T. Haberkorn, C. Lee, J. Surasin, S. Suryani, H. Dinh, S. Zamar.

To take advantage of the Department of Asian Languages and Cultures' many relationships with other departments and program units across campus, students may choose to double major or enhance their studies in ALC with one of the certificates offered at the university, such as the global health certificate, the certificate in health and the humanities, or those offered by the area studies centers: Center for East Asian

Studies (<https://eastasia.wisc.edu/>); Center for South Asia (<https://southasia.wisc.edu/>); and Center for Southeast Asian Studies (<https://seasia.wisc.edu/>).

This major is interdisciplinary and offers a wealth of options. Careful planning and consultation with the ALC advisor is especially important.

## REQUIREMENTS

### REQUIREMENTS FOR THE SOUTHEAST ASIAN OPTION

32 credits to include the Introductory and Residence and Quality of Work requirements of the general major, plus these requirements specific to the Southeast Asian Option:

#### GATEWAY COURSE

Code	Title	Credits
<b>Required Course:</b>		
ASIAN 100	Gateway to Asia: Special Topics	3

#### REQUIRED LANGUAGE COURSES

Code	Title	Credits
<b>Complete Second Year Southeast Asian language courses:</b>		
ASIALANG 243 & ASIALANG 244	Third Semester Burmese and Fourth Semester Burmese	8
ASIALANG 229 & ASIALANG 230	Third Semester Thai and Fourth Semester Thai	8
ASIALANG 223 & ASIALANG 224	Third Semester Filipino and Fourth Semester Filipino	8
ASIALANG 225 & ASIALANG 226	Third Semester Hmong and Fourth Semester Hmong	8
ASIALANG 227 & ASIALANG 228	Third Semester Indonesian and Fourth Semester Indonesian	8
ASIALANG 245 & ASIALANG 246	Third Semester Khmer and Fourth Semester Khmer	8
ASIALANG 231 & ASIALANG 232	Third Semester Vietnamese and Fourth Semester Vietnamese	8

#### SOUTHEAST ASIAN STUDIES COURSES

Code	Title	Credits
<b>Complete six classes from the following course options (at least 16 credits):</b>		
ASIAN/GEOG/ HISTORY/POLI SCI/ SOC 244	Introduction to Southeast Asia: Vietnam to the Philippines	4

## ASIAN LANGUAGES AND CULTURES, BS

The 21st century has been called the "Asian Century": indeed, many of the world's most pressing issues cannot be understood without a grasp of the histories, cultures, and languages of Asia. Asia is home to over half of the world's population. China, Japan, and India are three of the world's top economies. For decades Asian countries have been leaders in global manufacturing, and Asian universities are renowned centers for literary studies and scientific innovation. Fifty percent of the declared nuclear-weapon states are also in the region. Simply put, Asia matters a great deal.

The Department of Asian Languages and Cultures offers a wide variety of courses on East, South, and Southeast Asia taught by faculty who are specialists in their regions and disciplines. Whether you are taking your first step toward learning about Asia or you bring some background experience, an ALC major will expand your ability to think and work across cultural and linguistic boundaries. Majors may opt to study Asia in a transnational and transhistorical perspective or in a more focused course of study by choosing one of our named options in East Asia, South Asia, and Southeast Asia.

To take advantage of the Department of Asian Languages and Cultures' many relationships with other departments and program units across campus, students may choose to double major or enhance their studies in ALC with one of the certificates offered at the university, such as the Certificate in Global Health, the Certificate in Health and the Humanities, or those offered by the area studies centers.

This major is interdisciplinary and offers a wealth of options. Careful planning and consultation with the ALC undergraduate advisor is especially important.

### EAST ASIA

The East Asian Studies named option offers a multidisciplinary range of courses that explore the diverse and vibrant cultures, arts, histories, political systems, and literatures of China, Japan, Korea and Tibet. Students in the East Asian option can study Chinese, Japanese, Korean or Tibetan language and linguistics; and explore Chinese ghost stories and classical Chinese literature or poetry; Korean cinema and pop culture; classical Japanese fiction; early modern comedic narratives, manga, anime, and counterculture.

## SOUTH ASIA

The South Asian Studies named option offers a multidisciplinary range of courses that explore the diverse and vibrant cultures, arts, histories, political systems, and literatures of Afghanistan, Bangladesh, Bhutan, India, Maldives, Nepal, Pakistan, Sri Lanka, and Tibet. Students in the South Asian option can study Hindi, Persian, Sanskrit, Tibetan, or Urdu language; the roots of Yoga; methods of Buddhist philosophy and meditation; South Asian religion and politics in the past and present of the Indian subcontinent; and medical history in South Asia.

## SOUTHEAST ASIA

The Southeast Asian Studies named option offers a multidisciplinary range of courses that explore the diverse and vibrant cultures, arts, histories, political systems, and literatures of Brunei, Cambodia, Indonesia, Laos, Malaysia, Myanmar, Philippines, Singapore, Thailand, Timor-Leste, and Vietnam. Students in the Southeast Asian option can study Burmese, Filipino, Hmong, Indonesian, Khmer, Thai, and Vietnamese language; Human rights in Thailand; literature of the region; and history and politics in Southeast Asia.

## HOW TO GET IN

### HOW TO GET IN PLACEMENT EXAM

The Asian Languages and Cultures department offers placement exams for students with prior language study or experience as a speaker of Chinese, Filipino, Hindi, Hmong, Indonesian, Japanese, Korean, Persian, Thai, Tibetan, Urdu, and Vietnamese. For more information, see the department's website (<https://alc.wisc.edu/languages/placement-tests-2/>).

### DECLARING THE MAJOR

Declaring the major is as easy as meeting with the undergraduate advisor, make an appointment to review requirements and discuss course plans on Starfish (<https://wisc.starfishsolutions.com/starfish-ops/dl/instructor/serviceCatalog.html?bookmark=connection/10715/schedule>).

Students may declare the major prior to completing the requisite language courses (1st and 2nd semester).

The Asian Languages and Cultures major has three named options. Students who intend to declare a named option may not be declared in a certificate program focused on the same region. Students may not combine the following programs:

- East Asian Studies named option and the Certificate in East Asian Studies
- South Asian Studies named option and the Certificate in South Asian Studies
- Southeast Asian Studies named option and the Certificate in Southeast Asian Studies

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

- |                   |  |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> <li>• Breadth—Humanities/Literature/Arts: 6 credits</li> <li>• Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth—Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul> |
|-------------------|--|

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

### COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

### BACHELOR OF SCIENCE DEGREE REQUIREMENTS

- |             |   |
|-------------|---|
| Mathematics | Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.   |
| Language    | Complete the third unit of a language other than English.   |
| LS Breadth  | Complete: <ul style="list-style-type: none"> <li>• 12 credits of Humanities, which must include at least 6 credits of Literature; and</li> <li>• 12 credits of Social Science; and</li> <li>• 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.</li> </ul> |

Liberal Arts and Science Coursework	Complete at least 108 credits.
Depth of Intermediate/Advanced Coursework	Complete at least 60 credits at the Intermediate or Advanced level.
Major	Declare and complete at least one major.
Total Credits	Complete at least 120 credits.
UW-Madison Experience	Complete both: <ul style="list-style-type: none"> <li>• 30 credits in residence, overall, and</li> <li>• 30 credits in residence after the 86th credit.</li> </ul>
Quality of Work	<ul style="list-style-type: none"> <li>• 2.000 in all coursework at UW-Madison</li> <li>• 2.000 in Intermediate/Advanced level coursework at UW-Madison</li> </ul>

## NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

Students must take 32 credits as follows:<sup>1</sup>

### GATEWAY COURSE

Code	Title	Credits
<b>Required course:</b>		
ASIAN 100	Gateway to Asia: Special Topics	3-4

### REQUIRED LANGUAGE COURSES

Code	Title	Credits
<b>Complete Third and Fourth Semester language courses:</b>		
<b>East Asian languages</b>

- A two-semester Senior Honors Thesis in ASIAN 681 and ASIAN 682, for a total of 6 credits.

will also be able to read, analyze and explain the significance of Asian texts and artifacts (literary, cultural, historical, and popular culture).

5. Language and cultural competence: Manage basic everyday communication needs in at least one Asian language; understand the relationship between language and culture; and understand how to study a new language and culture and how to advance their proficiency as life-long learners.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

## FOOTNOTES

- <sup>1</sup> Students who test above 4th semester language must still complete a minimum of 32 credits in the major. These students may complete another language sequence or other coursework as approved by the advisor.
- <sup>2</sup> Intermediate and Advanced level major courses are upper-level.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Broad regional grounding: Understand the variation within and similarities across Asia with reference to historical and contemporary cultural connections (people, societies, languages, literatures, religions, and cultural genres).
2. Multidisciplinary: Become familiar and proficient with multiple perspectives scholars use to study Asia and use them as resources in their own self-reflective thinking.
3. Depth of knowledge: Employ relevant theoretical and methodological approaches to arrive at informed understandings of key issues involving the environment, human rights, cultural practices, structures of power, etc. based on an understanding of the social and cultural ties within Asia as well as between Asia and the rest of the globe.
4. Analytical skills: Critically examine taken-for-granted notions and stereotypes and to inquire into the process of their construction. They

**Total Credits 120****ADVISING AND CAREERS****ADVISING AND CAREERS****ADVISING**

If you like to plan, seeing your major advisor is very important; it can make the difference between fitting in general education and major requirements before you graduate. Many students also try to complete more than one major or certificate, and discussing how you might be able to reach this goal is another primary role of your major advisor. Advisors can speak to you about course content, which courses fit best with your interest areas, and what kinds of courses might work best with your learning style. Any and all of these discussions can occur during your advising appointment.

Rachel Weiss is the advisor for the undergraduate majors and certificates in the Department of Asian Languages and Cultures. She is happy to meet with students as they explore the degree options, prepare for study abroad, or advance through their four-year plans. Schedule an appointment in Starfish (<https://wisc.starfishsolutions.com/starfish-ops/dl/instructor/serviceCatalog.html?bookmark=connection/10715/schedule>).

**L&S CAREER RESOURCES**

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:

- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

**PEOPLE****PEOPLE**

Please visit the Asian Languages & Cultures website (<https://alc.wisc.edu/people/>) for a complete list of faculty, instructional, and academic staff.

**WISCONSIN EXPERIENCE****WISCONSIN EXPERIENCE****UNDERGRADUATE RESEARCH**

Students in the ALC department academic programs are encouraged to become engaged in undergraduate research. There are numerous programs (<https://teachlearn.provost.wisc.edu/initiatives-and-programs/undergraduate-research/>) that provide research opportunities for undergraduates at UW-Madison, including:

- Hilldale Undergraduate/Faculty Research Fellowships (<https://awards.advising.wisc.edu/all-scholarships/hilldale-undergraduatefaculty-research-fellowship/>)
- McNair Scholars (<http://grad.wisc.edu/mcnair/>)
- Summer Research Programs (<https://grad.wisc.edu/diversity/srop/>)
- Undergraduate Research Scholars (<https://urs.ls.wisc.edu/>)
- The Wisconsin Idea Undergraduate Fellowship Program (<https://morgridge.wisc.edu/students/wisconsin-idea-fellowships/>)

**WISCONSIN SUMMER LANGUAGE INSTITUTES**

Each summer around 200 undergraduate students, graduate students, professionals, and others come to UW-Madison to study a language at the Wisconsin Intensive Summer Language Institutes (WISLI) (<https://wisli.wisc.edu/>). WISLI is host to five summer language institutes which offer high-quality courses in 30 less commonly taught languages:

Arabic, Persian, and Turkish Language Immersion Institute (APTLII)  
 Central Eurasian Studies Summer Institute (CESSI) (<https://cessi.wisc.edu/>)  
 South Asia Summer Language Institute (SASLI) (<https://sasli.wisc.edu/>)  
 Southeast Asian Studies Summer Institute (SEASSI) (<https://seassi.wisc.edu/>)

**STUDY ABROAD**

The University of Wisconsin-Madison is ranked #2 for semester-long study abroad participation among all U.S. institutions and #16 among all U.S. universities and colleges for total students studying abroad, according to the 2018 Open Doors Report (<https://www.iie.org/en/>)

Why-IIE/Announcements/2018/11/2018-11-13-Number-of-International-Students-Reaches-New-High/). There are nearly 60 study abroad opportunities across Asia. Approved UW–Madison programs will allow students to receive resident credit while abroad. With pre-planning, students may also fulfill major requirements on academic programs abroad; however, careful planning and discussion with your advisor are key. For more information about programs, application process, and fees, visit: International Academic Programs (<https://www.studyabroad.wisc.edu/>).

Students may also gain career and professional experience through various internship opportunities abroad. To review opportunities, application process, and fees, visit: International Internship Programs (<http://internships.international.wisc.edu/>).

## RESOURCES AND SCHOLARSHIPS

### RESOURCES AND SCHOLARSHIPS CAMPUS RESOURCES

Foreign Language & Area Studies (FLAS) Fellowships (<https://flas.wisc.edu/>)

Center for East Asian Studies FLAS Coordinator: Laurie Dennis, [ldennis@wisc.edu](mailto:ldennis@wisc.edu) ([ldennis@international.wisc.edu](mailto:ldennis@international.wisc.edu)), 325 Ingraham Hall

Center for South Asian FLAS Coordinator: Sarah Beckham, [associatedirector@southasia.wisc.edu](mailto:associatedirector@southasia.wisc.edu), 203 Ingraham

Center for Southeast Asian Studies FLAS Coordinator: Michael Cullinane, [mmcullin@wisc.edu](mailto:mmcullin@wisc.edu), ([mjstuden@wisc.edu](mailto:mjstuden@wisc.edu)) 207 Ingraham

FLAS fellowships are funded by the U.S. Department of Education and administered by the UW–Madison's National Resource Centers to assist students in acquiring foreign language and either area or international studies competencies. FLAS awards are only available for specific languages (<https://flas.wisc.edu/Languages.htm>), and are contingent on federal funding. Please direct any questions to the FLAS Coordinator (<https://flas.wisc.edu/Languages.html>) of your chosen language.

Applicants must be US citizens or permanent residents of the United States. Applications by students in professional fields are encouraged. Preference will be given to applicants with a high level of academic ability and with previous language training. Academic Year and Summer FLAS awards are **two separate competitions** requiring **two separate and complete applications**.

Scholarships@UW–Madison (<https://scholarships.wisc.edu/Scholarships/>) This is the primary campus-wide portal for applicants, current students, and everyone looking for scholarship opportunities on campus.

Undergraduate Academic Awards Office (<https://awards.advising.wisc.edu/>)

We help UW–Madison undergraduates and recent graduates pursue nationally competitive scholarships (<https://awards.advising.wisc.edu/scholarships/nationally-competitive/>) and campus-wide awards (<https://awards.advising.wisc.edu/scholarships/campus-wide/>) for research, service, and leadership–activities at the heart of the Wisconsin Experience. We can help you:

- Find scholarship opportunities that match your goals and interests
- Navigate the scholarship application process
- Review scholarship essays
- Prepare for national scholarship interviews

Contact us (<https://awards.advising.wisc.edu/schedule-an-appointment/>) to schedule an appointment to discuss which opportunities are right for you.

### NATIONAL SCHOLARSHIPS

#### Boren Scholarships (<http://borenawards.org/>)

Campus Representative: Undergraduates with questions should contact Matt Geisler ([mdgeisler@studyabroad.wisc.edu](mailto:mdgeisler@studyabroad.wisc.edu)), Associate Director of International Academic Programs

These scholarships provide up to \$20,000 to U.S. undergraduate students to study abroad in areas of the world that are critical to U.S. interests and underrepresented in study abroad, including Africa, Asia, Central and Eastern Europe, Eurasia, Latin America, and the Middle East. The countries of Western Europe, Canada, Australia, and New Zealand are excluded. (Full list of preferred countries (<https://borenawards.org/eligible-programs/#countries>)) Additionally, all programs must include formal study of an appropriate foreign language. (Full list of preferred languages (<https://borenawards.org/eligible-programs/#languages>)). Undergraduates with questions about the Boren Scholarship should contact Matt Geisler ([mdgeisler@studyabroad.wisc.edu](mailto:mdgeisler@studyabroad.wisc.edu)), Associate Director of International Academic Programs.

---

#### Critical Language Scholarship Program (<http://www.clscholarship.org/>)

Campus Representative: Mark Lilleleht, Assistant Director for Awards at [awards@iris.wisc.edu](mailto:awards@iris.wisc.edu)

The CLS program is part of the U.S. Department of State, Bureau of Educational and Cultural Affairs. It is a fully-funded overseas intensive language and cultural immersion program for American undergraduate and graduate students. With the goal of broadening the base of Americans studying and mastering critical languages and to build relationships between the people of the United States and other countries, CLS provides opportunities to a diverse range of students from across the United States at every level of language learning.

The fourteen CLS languages are: Arabic, Azerbaijani, Bangla, Chinese, Hindi, Indonesian, Japanese, Korean, Persian, Punjabi, Russian, Swahili, Turkish, and Urdu.

The CLS Program seeks participants with diverse interests, from a wide variety of fields of study, backgrounds, and career paths, with the purpose of representing the full diversity of the United States. Thus, students from all academic disciplines, including business, engineering, law, medicine, science, social sciences, arts and humanities, are encouraged to apply.

---

#### Gilman Scholarship Program

Campus Representative: Andy Quackenbush ([quackenbush@studyabroad.wisc.edu](mailto:quackenbush@studyabroad.wisc.edu)), Advisor, International Academic Programs

The Gilman Scholarship Program is an undergraduate grant program for U.S. citizens of limited financial means to enable them to study abroad,

thereby internationalizing their outlook and better preparing them to assume significant roles in the increasingly global economy.

## ASIAN LANGUAGES AND CULTURES: EAST ASIAN STUDIES

The East Asian Studies named option offers a multidisciplinary range of courses that explore the diverse and vibrant cultures, arts, histories, political systems, and literatures of China, Japan, Korea, and Tibet. Students in the East Asian option can study Chinese, Japanese, Korean, or Tibetan language and linguistics; and explore Chinese ghost stories and classical Chinese literature or poetry; Korean cinema and pop culture; classical Japanese fiction; early modern comedic narratives, manga, anime, and counterculture. ALC faculty and instructors offering courses in this option include C. D'Etcheverry, A. Detwyler, N. Geyer, R. Huntington, A. Kern, H. Kim, B. Lim, J. Mori, T. Nakakubo, S. Ridgely, H. Zhang, W. Zhu.

To take advantage of the Department of Asian Languages and Cultures' many relationships with other departments and program units across campus, students may choose to double major or enhance their studies in ALC with one of the certificates offered at the university, such as the global health certificate, the certificate in health and the humanities, or those offered by the area studies centers: Center for East Asian Studies (<https://eastasia.wisc.edu/>); Center for South Asia (<https://southasia.wisc.edu/>); and Center for Southeast Asian Studies (<https://seasia.wisc.edu/>).

This major is interdisciplinary and offers a wealth of options. Careful planning and consultation with the ALC advisor is especially important.

### REQUIREMENTS

## REQUIREMENTS FOR THE EAST ASIAN OPTION

32 credits to include the Introductory and Residence and Quality of Work requirements of the general major, plus these requirements specific to the East Asian Option:

### GATEWAY COURSE

Code	Title	Credits
<b>Required Course:</b>		
ASIAN 100	Gateway to Asia: Special Topics	3-4

### REQUIRED LANGUAGE COURSES

Code	Title	Credits
<b>Complete Second Year East Asian Language Courses:</b>		
ASIALANG 201 & ASIALANG 202	Third Semester Chinese and Fourth Semester Chinese	8
ASIALANG 203 & ASIALANG 204	Third Semester Japanese and Fourth Semester Japanese	8
ASIALANG 205 & ASIALANG 206	Third Semester Korean and Fourth Semester Korean	8

## EAST ASIAN STUDIES COURSE

Code	Title	Credits
<b>Complete one course from the following options (at least 3 credits):</b>		
ASIAN 203	Lost in Translation: Western Experience in Asia	3

# ASIAN LANGUAGES AND CULTURES: SOUTH ASIAN STUDIES

The South Asian Studies named option offers a multidisciplinary range of courses that explore the diverse and vibrant cultures, arts, histories, political systems, and literatures of Afghanistan, Bangladesh, Bhutan, India, Maldives, Nepal, Pakistan, Sri Lanka, and Tibet. Students in the South Asian option can study Hindi, Persian, Sanskrit, Tibetan, or Urdu language; and probe the roots of Yoga; methods of Buddhist philosophy and meditation; South Asian religion and politics in the past and present of the Indian subcontinent; and medical history in South Asia. ALC faculty and instructors offering courses in this option include F. Asif, G. Bühnemann, S. Beckham, A. Cerulli, S. Farsiu, J. Dunne, J. Khedup, N. Tiwari.

To take advantage of the Department of Asian Languages and Cultures' many relationships with other departments and program units across campus, students may choose to double major or enhance their studies in ALC with one of the certificates offered at the university, such as the global health certificate, the certificate in health and the humanities, or those offered by the area studies centers: Center for East Asian Studies (<https://eastasia.wisc.edu/>); Center for South Asia (<https://southasia.wisc.edu/>); and Center for Southeast Asian Studies (<https://seasia.wisc.edu/>).

This major is interdisciplinary and offers a wealth of options. Careful planning and consultation with the ALC advisor is especially important.

## REQUIREMENTS

### REQUIREMENTS FOR THE SOUTH ASIAN STUDIES OPTION

32 credits to include the Introductory and Residence and Quality of Work requirements of the general major, plus these requirements specific to the South Asian Option:

#### GATEWAY COURSE

Code	Title	Credits
<b>Required Course:</b>		
ASIAN 100	Gateway to Asia: Special Topics	3-4

#### REQUIRED LANGUAGE COURSES

Code	Title	Credits
<b>Complete Second Year South Asian Language Courses:</b>		
ASIALANG 233 & ASIALANG 234	Third Semester Hindi and Fourth Semester Hindi	8
ASIALANG 237 & ASIALANG 238	Third Semester Persian and Fourth Semester Persian	8
ASIALANG 235 & ASIALANG 236	Third Semester Modern Tibetan and Fourth Semester Modern Tibetan	8
ASIALANG 239 & ASIALANG 240	Third Semester Urdu and Fourth Semester Urdu	8
ASIALANG 241 & ASIALANG 242	Third Semester Sanskrit and Fourth Semester Sanskrit	8

#### SOUTH ASIAN STUDIES COURSES

Code	Title	Credits
<b>Complete 6 classes from the following course options (at least 16 credits):</b>		
ASIAN/RELIG ST 206	The Qur'an: Religious Scripture & Literature	3
ASIAN/RELIG ST 218	Health and Healing in South Asia	3-4
ASIAN/RELIG ST 236	Asia Enchanted: Ghosts, Gods, and Monsters	3
ASIAN 252	Contemporary Indian Society	3
ASIAN/HISTORY/RELIG ST 267	Asian Religions in Global Perspective	3-4
ASIAN 268	Tibetan Cultures and Traditions	3
ASIAN/RELIG ST 274	Religion in South Asia	3
ASIAN/RELIG ST 306	Hinduism	3
ASIAN/RELIG ST 307	A Survey of Tibetan Buddhism	3
ASIAN/HISTORY/RELIG ST 308	Introduction to Buddhism	3-4
ASIAN 311	Modern Indian Literatures	3
ASIAN/AFRICAN/RELIG ST 370	Islam: Religion and Culture	3-4

HISTORY/GNS 265	An Introduction to Central Asia: From the Silk Route to Afghanistan	3
HISTORY 450	Making of Modern South Asia	3-4
POLI SCI 370	Islam and Politics	3-4

## CAPSTONE COURSE

Code	Title	Credits
<b>Complete one course (at least 3 credits):</b>		
ASIAN/ RELIG ST 505	The Perfectible Body in Religions, Medicines, and Politics	3

ASIAN 600	Capstone Seminar in Asian Humanities	3
ASIAN/ ART HIST 621	Mapping, Making, and Representing Colonial Spaces	3
ASIAN 630	Proseminar: Studies in Cultures of Asia	3
ASIAN/ RELIG ST 650	Proseminar in Buddhist Thought	2-3
ASIAN 655	Ethnography in Asia	3
ASIAN 682	Senior Honors Thesis (must be enrolled in Honors in the Major)	3
ASIAN 692	Senior Thesis (must have permission from faculty)	3
ASIAN 699	Directed Study (must have permission from faculty)	2-3

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

## ASIAN LANGUAGES AND CULTURES: SOUTHEAST ASIAN STUDIES

The Southeast Asian Studies named option offers a multidisciplinary range of courses that explore the diverse and vibrant cultures, arts, histories, political systems, and literatures of Brunei, Cambodia, Indonesia, Laos, Malaysia, Myanmar, Philippines, Singapore, Thailand, Timor-Leste, and Vietnam. Students in the Southeast Asian option can study Burmese, Filipino, Hmong, Indonesian, Khmer, Thai, and Vietnamese language; and probe Human rights in Thailand; explore literature of the region; and history and politics in Southeast Asia. ALC faculty and instructors offering courses in this option include E. Barnard, T. Haberkorn, C. Lee, J. Surasin, S. Suryani, H. Dinh, S. Zamar.

To take advantage of the Department of Asian Languages and Cultures' many relationships with other departments and program units across campus, students may choose to double major or enhance their studies in ALC with one of the certificates offered at the university, such as the global health certificate, the certificate in health and the humanities, or those offered by the area studies centers: Center for East Asian

Studies (<https://eastasia.wisc.edu/>); Center for South Asia (<https://southasia.wisc.edu/>); and Center for Southeast Asian Studies (<https://seasia.wisc.edu/>).

This major is interdisciplinary and offers a wealth of options. Careful planning and consultation with the ALC advisor is especially important.

## REQUIREMENTS

### REQUIREMENTS FOR THE SOUTHEAST ASIAN OPTION

32 credits to include the Introductory and Residence and Quality of Work requirements of the general major, plus these requirements specific to the Southeast Asian Option:

## CHINESE PROFESSIONAL COMMUNICATION, CERTIFICATE

The Certificate in Chinese Professional Communication provides students with the opportunity to develop proficiency in Chinese while pursuing majors in other subjects across the university. It emphasizes the development of communication skills that are applicable to various professional contexts that students may encounter in their future careers.

The certificate is open to all undergraduate students (except for those majoring in Chinese). For more information about the Department of Asian Languages and Cultures see the department overview (p. 447).

## STUDY ABROAD

Students may receive residence credit for study abroad through a variety of different programs through UW-Madison's International Academic Programs (<https://studyabroad.wisc.edu/>). Currently study abroad is not offered in mainland China, many of our majors are electing to study abroad in Taiwan or Singapore, among other options in Europe, where Chinese is offered.

Students may also receive credit, or gain experience, through various internship opportunities abroad. Please contact International Internship Programs (<https://internships.international.wisc.edu/>) for details.

## HOW TO GET IN

### HOW TO GET IN PLACEMENT EXAM

The Asian Languages and Cultures department offers placement exams for students with prior language study or experience as a speaker of Chinese. For more information, see the department's website (<https://alc.wisc.edu/languages/placement-tests-2/>).

### DECLARING THE CERTIFICATE

Declaring the certificate is as easy as meeting with the undergraduate advisor and making an appointment to review requirements and discuss course plans on Starfish (<https://wisc.starfishsolutions.com/starfish-ops/dl/instructor/serviceCatalog.html?bookmark=connection/10715/>

schedule). Students may declare the certificate at any point in their language study.

Students declared in the Chinese major are not eligible to declare the Chinese Professional Communication certificate.

### Chinese Language Requisites

Code	Title	Credits
ASIALANG 101	First Semester Chinese	4
ASIALANG 102	Second Semester Chinese	4
ASIALANG 201	Third Semester Chinese	4
ASIALANG 202	Fourth Semester Chinese	4

POLI SCI 346	China in World Politics
SOC 225	Contemporary Chinese Society
THEATRE 526	The Theatres of China and Japan

**Total Credits****15**

## RESIDENCE AND QUALITY OF WORK

- Minimum 2.000 GPA on all certificate courses
- At least 8 certificate credits must be completed in residence

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Explain in the target language their academic and professional experiences, and articulate their career objectives, both in writing and speaking.
2. Manage basic everyday workplace (face-to-face, telephone, and email) communications in the target language (e.g., greeting, introducing oneself, making/changing appointments, making and receiving requests, obtaining permission, reporting, thanking, apologizing).
3. With preparation, deliver a clear, concise, and connected presentation in the target language, with the effective use of visual images, on a subject they researched through online resources and/or interviews.
4. Demonstrate an awareness of the significance of honorific and formulaic expressions and etiquette observed in the workplace within the target culture, which can be applied to their life-long learning.
5. Demonstrate an awareness of diverse cultural perspectives, which may influence business and other professional practices, and a disposition to approach unfamiliar contexts with an open mind.

## ADVISING AND CAREERS

### ADVISING AND CAREERS ADVISING

If you like to plan, seeing your major advisor is very important; it can make the difference between fitting in general education and major requirements before you graduate. Many students also try to complete more than one major or certificate, and discussing how you might be able to reach this goal is another primary role of your major advisor. Advisors can speak to you about course content, which courses fit best with your interest areas, and what kinds of courses might work best with your learning style. Any and all of these discussions can occur during your advising appointment.

Rachel Weiss is the advisor for the undergraduate majors and certificates in the Department of Asian Languages and Cultures. She is happy to meet with students as they explore the degree options, prepare for study abroad, or advance through their four-year plans. Schedule an appointment in Starfish (<https://wisc.starfishsolutions.com/starfish-ops/dl/instructor/serviceCatalog.html?bookmark=connection/10715/schedule>).

### L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

## PEOPLE

## PEOPLE

Please visit the Asian Languages & Cultures website (<https://alc.wisc.edu/people/>) for a complete list of faculty, instructional, and academic staff.

## WISCONSIN EXPERIENCE

## WISCONSIN EXPERIENCE

## UNDERGRADUATE RESEARCH

Students in the Asian Languages and Cultures (ALC) department academic programs are encouraged to become engaged in undergraduate research. There are numerous programs (<https://teachlearn.provost.wisc.edu/initiatives-and-programs/undergraduate-research/>) that provide research opportunities for undergraduates at UW-Madison, including:

- Hilldale Undergraduate/Faculty Research Fellowships (<https://awards.advising.wisc.edu/all-scholarships/hilldale-undergraduatefaculty-research-fellowship/>)
- McNair Scholars (<http://grad.wisc.edu/mcnair/>)
- Summer Research Programs (<https://grad.wisc.edu/diversity/srop/>)
- Undergraduate Research Scholars (<https://urs.ls.wisc.edu/>)
- The Wisconsin Idea Undergraduate Fellowship Program (<https://morgridge.wisc.edu/students/wisconsin-idea-fellowships/>)

## RESOURCES AND SCHOLARSHIPS

## RESOURCES AND SCHOLARSHIPS

## DEPARTMENT SCHOLARSHIPS

The Department of Asian Languages and Cultures has various scholarships to support meritorious students in our programs. Application information and deadlines (<https://alc.wisc.edu/undergraduate-studies/department-scholarships/>).

## Chinese Language Learners Bridge Fund

Chinese Major Alumni Jarrett Wiesolek (Class of 2011) and Ali Dibble (Class of 2012) launched the Bridge Fund in 2016. CLLBF is designed to award scholarships to students who are passionate about learning Chinese and building bridges between UW-Madison and China.

## Chou Kuo-p'ing Book Award

Several awards will be given each year to undergraduate students who are studying and will continue to study Chinese during the following semester. This award is made possible through a donation by Professor Emerita Chou Kuo-p'ing, the founder of the Chinese program here at the University of Wisconsin-Madison. Professor Chou, a dedicated teacher, devoted her entire career to teaching, promoting, and developing Chinese studies in Wisconsin. Professor Chou was very active during her teaching career and often helped financially disadvantaged students, especially those who excelled in their academic careers despite economic difficulties. Although this award is based mainly on the applicant's academic performance, special consideration is given to those who are financially disadvantaged in order to carry on this tradition.

## Ellen and William E. Fisher Scholarship

Ellen and William E. Fisher have provided funding for an annual scholarship to be awarded to an undergraduate student at UW-Madison who is studying the Chinese language. According to the terms of the gift agreement, the award is based on merit, therefore there is no application, but faculty will make a determination based on students progressing in the program. Mr. Fisher stipulated that the award must be made in the fall semester so that the recipient can use it in the Spring semester.

## Gwang-Tsai Chen Award

Professor Sabina Knight established this scholarship in honor of Gwang-Tsai (Arthur) Chen, Emeritus Professor of East Asian Languages and Literature at UW-Madison. The scholarship recognizes a rising undergraduate Chinese major. Student eligibility: must be a non-heritage language learner, freshman or sophomore standing, a GPA above 3.5.

## Lawrence Louey Merit Scholarship

The Lawrence Louey Merit Scholarship is an annual competition recognizing an undergraduate Chinese major in the Department of Asian Languages and Cultures. Eligibility: You must be a graduating senior with a GPA above 3.75 and have taken at least three years of Chinese. An application is required for consideration, including a brief career plan, as well as a research paper from one of your major field courses.

## CAMPUS RESOURCES

Foreign Language & Area Studies (FLAS) Fellowships (<https://flas.wisc.edu/>)

East Asian Studies FLAS Coordinator: Laurie Dennis, Assistant Director, [ldennis@wisc.edu](mailto:ldennis@wisc.edu) ([ldennis@international.wisc.edu](mailto:ldennis@international.wisc.edu)), 325 Ingraham Hall

FLAS fellowships are funded by the U.S. Department of Education and administered by UW-Madison's National Resource Centers to assist students in acquiring foreign language and either area or international studies competencies. FLAS awards are only available for specific languages (<https://flas.wisc.edu/Languages.htm>), and are contingent on federal funding. Please direct any questions to the FLAS Coordinator (<https://flas.wisc.edu/Languages.html>) of your chosen language.

Applicants must be U.S. citizens or permanent residents of the United States. Applications by students in professional fields are encouraged. Preference will be given to applicants with a high level of academic ability and with previous language training. Academic Year and Summer FLAS awards are **two separate competitions** requiring **two separate and complete applications**.

Scholarships@UW-Madison (<https://scholarships.wisc.edu/Scholarships/>)

This is the primary campus-wide portal for applicants, current students, and everyone looking for scholarship opportunities on campus.

Undergraduate Academic Awards Office (<https://awards.advising.wisc.edu/>)

We help UW-Madison undergraduates and recent graduates pursue nationally competitive scholarships (<https://awards.advising.wisc.edu/scholarships/nationally-competitive/>) and campus-wide awards (<https://awards.advising.wisc.edu/scholarships/campus-wide/>) for research, service, and leadership – activities at the heart of the Wisconsin Experience. We can help you:

- Find scholarship opportunities that match your goals and interests
- Navigate the scholarship application process

- Review scholarship essays
- Prepare for national scholarship interviews

Contact us (<https://awards.advising.wisc.edu/schedule-an-appointment/>) to schedule an appointment to discuss which opportunities are right for you.

## NATIONAL SCHOLARSHIPS

### Boren Scholarships (<https://borenawards.org/>)

Campus Representative: Undergraduates with questions should contact Matt Geisler ([mdgeisler@studyabroad.wisc.edu](mailto:mdgeisler@studyabroad.wisc.edu)), Associate Director of International Academic Programs

These scholarships provide up to \$20,000 to U.S. undergraduate students to study abroad in areas of the world that are critical to U.S. interests and underrepresented in study abroad, including Africa, Asia, Central & Eastern Europe, Eurasia, Latin America, and the Middle East. The countries of Western Europe, Canada, Australia, and New Zealand are excluded. (Full list of preferred countries (<https://borenawards.org/eligible-programs/#countries>)) Additionally, all programs must include formal study of an appropriate foreign language. (Full list of preferred languages (<https://borenawards.org/eligible-programs/#languages>)).

### Critical Language Scholarship Program (<http://www.clscholarship.org/>)

Campus Representative: Mark Lilleleht, Assistant Director for Awards at [awards@iris.wisc.edu](mailto:awards@iris.wisc.edu)

The CLS program is part of the U.S. Department of State, Bureau of Educational and Cultural Affairs. It is a fully-funded overseas intensive language and cultural immersion program for American undergraduate and graduate students. With the goal of broadening the base of Americans studying and mastering critical languages and to build relationships between the people of the United States and other countries, CLS provides opportunities to a diverse range of students from across the United States at every level of language learning.

The fourteen CLS languages are: Arabic, Azerbaijani, Bangla, Chinese, Hindi, Indonesian, Japanese, Korean, Persian, Punjabi, Russian, Swahili, Turkish, and Urdu.

The CLS Program seeks participants with diverse interests, from a wide variety of fields of study, backgrounds, and career paths, with the purpose of representing the full diversity of the United States. Thus, students from all academic disciplines, including business, engineering, law, medicine, science, social sciences, arts, and humanities are encouraged to apply.

### Gilman Scholarship Program (<https://www.iie.org/Programs/Gilman-Scholarship-Program/>)

Campus Representative: Andy Quackenbush ([quackenbush@studyabroad.wisc.edu](mailto:quackenbush@studyabroad.wisc.edu)), Advisor, International Academic Programs

The Gilman Scholarship Program is an undergraduate grant program for U.S. citizens of limited financial means to enable them to study abroad, thereby internationalizing their outlook and better preparing them to assume significant roles in the increasingly global economy.

## CHINESE, BA

The Chinese program offers students a range of courses and activities which impart an understanding of the culture and civilization of China. With the completion of three years of the language, students will be prepared to communicate effectively in written and spoken Chinese. Most

majors pursue advanced studies in Chinese linguistics or literature, while others combine an interest in China with a degree in business, education, engineering or journalism.

Visit our website (<https://alc.wisc.edu/undergraduate-studies/undergraduate-studies-in-chinese/>) for more information about the undergraduate studies in Chinese.

## STUDY ABROAD IN CHINA

Students may receive residence credit for study abroad through a variety of different programs through UW–Madison’s International Academic Programs (<https://www.studyabroad.wisc.edu/>). Currently study abroad is not offered in mainland China, many of our majors are electing to study abroad in Taiwan or Singapore, among other options in Europe, where Chinese is offered.

Students may also receive credit, or gain experience, through various internship opportunities abroad. Please contact International Internship Programs (<http://internships.international.wisc.edu/>) for details.

## STARTING COURSEWORK TOWARD THE MAJOR

Students may declare the Chinese major at any time. Before declaring the major, students may begin coursework to explore the language and fields of interest. Those students who have studied Chinese prior to coming to UW–Madison will have to take a placement test (<https://alc.wisc.edu/placement-tests/>) to determine the best class to enroll in on campus.

## HOW TO GET IN

### HOW TO GET IN PLACEMENT EXAM

The Asian Languages and Cultures department offers placement exams for students with prior language study or experience as a speaker of Chinese. For more information, see the department’s website (<https://alc.wisc.edu/languages/placement-tests-2/>).

### DECLARING THE MAJOR

Declaring the major is as easy as meeting with the undergraduate advisor, make an appointment to review requirements and discuss course plans on Starfish (<https://wisc.starfishsolutions.com/starfish-ops/dl/instructor/serviceCatalog.html?bookmark=connection/10715/schedule>).

Students declared in the Chinese Professional Communication certificate may not be declared in the Chinese major at the same time. Students who do wish to declare the Chinese major must first cancel their declaration in the Chinese Professional Communication certificate.

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic

values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

General Education	<ul style="list-style-type: none"> <li>Breadth–Humanities/Literature/Arts: 6 credits</li> <li>Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>Breadth–Social Studies: 3 credits</li> <li>Communication Part A Part B *</li> <li>Ethnic Studies *</li> <li>Quantitative Reasoning Part A Part B *</li> </ul>
-------------------	--

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

### BACHELOR OF ARTS DEGREE REQUIREMENTS

**Mathematics** Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.

**Language**

- Complete the fourth unit of a language other than English; OR
- Complete the third unit of a language and the second unit of an additional language other than English.

**LS Breadth**

- 12 credits of Humanities, which must include 6 credits of literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.

**Liberal Arts and Science Coursework** Complete at least 108 credits.

**Depth of Intermediate/Advanced work** Complete at least 60 credits at the intermediate or advanced level.

**Major** Declare and complete at least one major.

**Total Credits** Complete at least 120 credits.

**UW-Madison Experience**

- 30 credits in residence, overall; and
- 30 credits in residence after the 86th credit.

**Quality of Work**

- 2.000 in all coursework at UW-Madison
- 2.000 in Intermediate/Advanced level coursework at UW-Madison

## NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

Code	Title	Credits
<b>Chinese Language Requisites</b>		
ASIALANG 101	First Semester Chinese	4

## HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Chinese undergraduate advisor.

## HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 for all courses accepted in the major
- Complete the following coursework, with a grade of B or better:
  - ASIAN 699 or another Capstone course (see list above) of 3-4 credits (excluding ASIAN 682 or ASIAN 692) with the professor under whose guidance a student intends to write a thesis. This course must be taken before ASIAN 681.
  - A two-semester Senior Honors Thesis in ASIAN 681 and ASIAN 682, for a total of 6 credits.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Understand the content and cultural context of written texts and audiovisual materials with a large degree of independence, adapting style and speed of comprehension to different texts and purposes, and using appropriate reference sources selectively.
2. Spontaneously exchange ideas about various topics with relative ease.
3. State and support one's own opinion while acknowledging others' viewpoints.
4. Demonstrate an awareness of the importance of pragmatic, sociolinguistic, and rhetorical features of the target language.
5. Conduct library and/or internet-based research on topics relating to their particular interests and special fields of expertise, collecting and selecting relevant information using English and target language source materials.
6. Synthesize and critically evaluate source materials in both English and the target language.
7. Present (orally or in written language) their experiences and their introspection on these experiences in a coherent and effective manner.
8. Demonstrate cultural awareness across historical epochs.
9. Produce effective academic writing in English.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

#### First Year

Fall	Credits Spring	Credits
ASIAN 100 (Humanities)	3-4 ASIALANG 102	4
ASIALANG 101	4 ASIAN/HISTORY/ POLI SCI 255 (Humanities or Social Science)	3-4
Communication A	3 Quantitative Reasoning A	3-4
Biological Science Breadth	3-4 Science Breadth	3-4
<b>15</b>		<b>16</b>

#### Second Year

Fall	Credits Spring	Credits
ASIALANG 201	4 ASIALANG 202	4
ASIAN/RELIG ST 236 (Com B)	3 ASIAN/HISTORY 341 (Humanities or Social Science)	3-4

ASIAN 375	3 ASIAN 631	3
ASIAN 630	3 Electives	3-9
Elective	3-6	
<b>15</b>		<b>15</b>

**Total Credits 120****THREE-YEAR PLAN****THREE-YEAR PLAN**

This Sample Three-Year Plan is a tool to assist students and their advisor(s). Students should use it –along with their DARS report, the Degree Planner, and Course Search & Enroll tools – to make their own three-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests.

Three-year plans may vary considerably from student to student, depending on their individual preparation and circumstances. Students interested in graduating in three years should meet with an advisor as early as possible to discuss feasibility, appropriate course sequencing, post-graduation plans (careers, graduate school, etc.), and opportunities they might forgo in pursuit of a three-year graduation plan.

**DEPARTMENTAL EXPECTATIONS**

Students planning to graduate within three years with a Chinese major should enter the University with a minimum of 26 advanced standing credits, and have satisfied the following requirements with course credit or via placement examination:

- First year Chinese (ASIALANG 101 and ASIALANG 102) – All students are required to take a placement test in Chinese to assess their prior experience in the language. Students should register for a date (<https://alc.wisc.edu/languages/placement-tests-2/>) prior to their SOAR visit.
- Communication Part A
- Quantitative Reasoning Part A
- 6 combined credits of Biological, Natural, or Physical Science

**First Year**

Fall	Credits Spring	Credits
ASIALANG 201	4 ASIALANG 202	4
ASIAN/HISTORY/ POLI SCI 255	4 ASIAN/RELIG ST 236 (meets Communication B)	3
Quantitative Reasoning B	4 ASIAN/GEOG/ HISTORY/POLI SCI/ SOC 244 (meets Ethnic Studies requirement)	4
Biological Science Breadth	4 Physical Science Breadth	4
<b>16</b>		<b>15</b>

**Total Credits 31****SUMMER ONE [OPTIONAL]**

Summer terms present an opportunity for students to make progress toward remaining L&S Breadth and General Education Requirements. Other options for academic enrichment or career exploration might include study abroad (<https://studyabroad.wisc.edu/>) or international internships (<https://internships.international.wisc.edu/>).

## ADVISING AND CAREERS

### ADVISING AND CAREERS

#### ADVISING

If you like to plan, seeing your major advisor is very important; it can make the difference between fitting in general education and major requirements before you graduate. Many students also try to complete more than one major or certificate, and discussing how you might be able to reach this goal is another primary role of your major advisor. Advisors can speak to you about course content, which courses fit best with your interest areas, and what kinds of courses might work best with your learning style. Any and all of these discussions can occur during your advising appointment.

Rachel Weiss is the advisor for the undergraduate majors and certificates in the Department of Asian Languages and Cultures. She is happy to meet with students as they explore the degree options, prepare for study abroad, or advance through their four-year plans. Schedule an appointment in Starfish (<https://wisc.starfishsolutions.com/starfish-ops/dl/instructor/serviceCatalog.html?bookmark=connection/10715/schedule>).

#### L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences

- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

## PEOPLE

### PEOPLE

Please visit the Asian Languages & Cultures website (<https://alc.wisc.edu/people/>) for a complete list of faculty, instructional, and academic staff.

## WISCONSIN EXPERIENCE

### WISCONSIN EXPERIENCE

#### UNDERGRADUATE RESEARCH

Students in the Asian Languages and Cultures (ALC) department academic programs are encouraged to become engaged in undergraduate research. There are numerous programs (<https://teachlearn.provost.wisc.edu/initiatives-and-programs/undergraduate-research/>) that provide research opportunities for undergraduates at UW-Madison, including:

- Hilldale Undergraduate/Faculty Research Fellowships (<https://awards.advising.wisc.edu/all-scholarships/hilldale-undergraduatefaculty-research-fellowship/>)
- McNair Scholars (<http://grad.wisc.edu/mcnair/>)
- Summer Research Programs (<https://grad.wisc.edu/diversity/srop/>)
- Undergraduate Research Scholars (<https://urs.ls.wisc.edu/>)
- The Wisconsin Idea Undergraduate Fellowship Program (<https://morgridge.wisc.edu/students/wisconsin-idea-fellowships/>)

## RESOURCES AND SCHOLARSHIPS

### RESOURCES AND SCHOLARSHIPS

#### DEPARTMENT SCHOLARSHIPS

The Department of Asian Languages and Cultures has various scholarships to support meritorious students in our programs. Application information and deadlines (<https://alc.wisc.edu/undergraduate-studies/department-scholarships/>).

#### Chinese Language Learners Bridge Fund

Chinese Major Alumni Jarrett Wiesolek (Class of 2011) and Ali Dibble (Class of 2012) launched the Bridge Fund in 2016. CLLBF is designed to award scholarships to students who are passionate about learning Chinese and building bridges between UW-Madison and China.

#### Chou Kuo-p'ing Book Award

Several awards will be given each year to undergraduate students who are studying and will continue to study Chinese during the following semester. This award is made possible through a donation by Professor Emerita Chou Kuo-p'ing, the founder of the Chinese program here at the University of Wisconsin-Madison. Professor Chou, a dedicated teacher, devoted her entire career to teaching, promoting, and developing Chinese studies in Wisconsin. Professor Chou was very active during her

teaching career and often helped financially disadvantaged students, especially those who excelled in their academic careers despite economic difficulties. Although this award is based mainly on the applicant's academic performance, special consideration is given to those who are financially disadvantaged in order to carry on this tradition.

### Ellen and William E. Fisher Scholarship

Ellen and William E. Fisher have provided funding for an annual scholarship to be awarded to an undergraduate student at UW–Madison who is studying the Chinese language. According to the terms of the gift agreement, the award is based on merit, therefore there is no application, but faculty will make a determination based on students progressing in the program. Mr. Fisher stipulated that the award must be made in the fall semester so that the recipient can use it in the Spring semester.

### Gwang-Tsai Chen Award

Professor Sabina Knight established this scholarship in honor of Gwang-Tsai (Arthur) Chen, Emeritus Professor of East Asian Languages and Literature at UW–Madison. The scholarship recognizes a rising undergraduate Chinese major. Student eligibility: must be a non-heritage language learner, freshman or sophomore standing, a GPA above 3.5.

### Lawrence Louey Merit Scholarship

The Lawrence Louey Merit Scholarship is an annual competition recognizing an undergraduate Chinese major in the Department of Asian Languages and Cultures. Eligibility: You must be a graduating senior with a GPA above 3.75 and have taken at least three years of Chinese. An application is required for consideration, including a brief career plan, as well as a research paper from one of your major field courses.

## CAMPUS RESOURCES

### Foreign Language & Area Studies (FLAS) Fellowships (<https://flas.wisc.edu/>)

East Asian Studies FLAS Coordinator: Laurie Dennis, Assistant Director, [ldennis@wisc.edu](mailto:ldennis@wisc.edu) ([ldennis@international.wisc.edu](mailto:ldennis@international.wisc.edu)), 325 Ingraham Hall

FLAS fellowships are funded by the U.S. Department of Education and administered by UW–Madison's National Resource Centers to assist students in acquiring foreign language and either area or international studies competencies. FLAS awards are only available for specific languages (<https://flas.wisc.edu/Languages.htm>), and are contingent on federal funding. Please direct any questions to the FLAS Coordinator (<https://flas.wisc.edu/Languages.html>) of your chosen language.

Applicants must be U.S. citizens or permanent residents of the United States. Applications by students in professional fields are encouraged. Preference will be given to applicants with a high level of academic ability and with previous language training. Academic Year and Summer FLAS awards are **two separate competitions** requiring **two separate and complete applications**.

### Scholarships@UW–Madison (<https://scholarships.wisc.edu/Scholarships/>)

This is the primary campus-wide portal for applicants, current students, and everyone looking for scholarship opportunities on campus.

### Undergraduate Academic Awards Office (<https://awards.advising.wisc.edu/>)

We help UW–Madison undergraduates and recent graduates pursue nationally competitive scholarships (<https://awards.advising.wisc.edu/scholarships/nationally-competitive/>) and campus-wide awards (<https://awards.advising.wisc.edu/>

for research, service, and leadership – activities at the heart of the Wisconsin Experience. We can help you:

- Find scholarship opportunities that match your goals and interests
- Navigate the scholarship application process
- Review scholarship essays
- Prepare for national scholarship interviews

Contact us (<https://awards.advising.wisc.edu/schedule-an-appointment/>) to schedule an appointment to discuss which opportunities are right for you.

## NATIONAL SCHOLARSHIPS

### Boren Scholarships (<https://borenawards.org/>)

Campus Representative: Undergraduates with questions should contact Matt Geisler ([mdgeisler@studyabroad.wisc.edu](mailto:mdgeisler@studyabroad.wisc.edu)), Associate Director of International Academic Programs

These scholarships provide up to \$20,000 to U.S. undergraduate students to study abroad in areas of the world that are critical to U.S. interests and underrepresented in study abroad, including Africa, Asia, Central & Eastern Europe, Eurasia, Latin America, and the Middle East. The countries of Western Europe, Canada, Australia, and New Zealand are excluded. (Full list of preferred countries (<https://borenawards.org/eligible-programs/#countries>)) Additionally, all programs must include formal study of an appropriate foreign language. (Full list of preferred languages (<https://borenawards.org/eligible-programs/#languages>)).

### Critical Language Scholarship Program (<http://www.clscholarship.org/>)

Campus Representative: Mark Lilleleht, Assistant Director for Awards at [awards@iris.wisc.edu](mailto:awards@iris.wisc.edu)

The CLS program is part of the U.S. Department of State, Bureau of Educational and Cultural Affairs. It is a fully-funded overseas intensive language and cultural immersion program for American undergraduate and graduate students. With the goal of broadening the base of Americans studying and mastering critical languages and to build relationships between the people of the United States and other countries, CLS provides opportunities to a diverse range of students from across the United States at every level of language learning.

The fourteen CLS languages are: Arabic, Azerbaijani, Bangla, Chinese, Hindi, Indonesian, Japanese, Korean, Persian, Punjabi, Russian, Swahili, Turkish, and Urdu.

The CLS Program seeks participants with diverse interests, from a wide variety of fields of study, backgrounds, and career paths, with the purpose of representing the full diversity of the United States. Thus, students from all academic disciplines, including business, engineering, law, medicine, science, social sciences, arts, and humanities are encouraged to apply.

### Gilman Scholarship Program (<https://www.iie.org/Programs/Gilman-Scholarship-Program/>)

Campus Representative: Andy Quackenbush ([quackenbush@studyabroad.wisc.edu](mailto:quackenbush@studyabroad.wisc.edu)), Advisor, International Academic Programs

The Gilman Scholarship Program is an undergraduate grant program for U.S. citizens of limited financial means to enable them to study abroad, thereby internationalizing their outlook and better preparing them to assume significant roles in the increasingly global economy.

## CHINESE, BS

The Chinese program offers students a range of courses and activities which impart an understanding of the culture and civilization of China. With the completion of three years of the language, students will be prepared to communicate effectively in written and spoken Chinese. Most majors pursue advanced studies in Chinese linguistics or literature, while others combine an interest in China with a degree in business, education, engineering or journalism.

Visit our website (<https://alc.wisc.edu/undergraduate-studies/undergraduate-studies-in-chinese/>) for more information about the undergraduate studies in Chinese.

## STUDY ABROAD IN CHINA

Students may receive residence credit for study abroad through a variety of different programs through UW–Madison’s International Academic Programs (<https://www.studyabroad.wisc.edu/>). Currently study abroad is not offered in mainland China, many of our majors are electing to study abroad in Taiwan or Singapore, among other options in Europe, where Chinese is offered.

Students may also receive credit, or gain experience, through various internship opportunities abroad. Please contact International Internship Programs (<http://internships.international.wisc.edu/>) for details.

## STARTING COURSEWORK TOWARD THE MAJOR

Students may declare the Chinese major at any time. Before declaring the major, students may begin coursework to explore the language and fields of interest. Those students who have studied Chinese prior to coming to UW–Madison will have to take a placement test (<https://alc.wisc.edu/placement-tests/>) to determine the best class to enroll in on campus.

## HOW TO GET IN

### HOW TO GET IN PLACEMENT EXAM

The Asian Languages and Cultures department offers placement exams for students with prior language study or experience as a speaker of Chinese. For more information, see the department’s website (<https://alc.wisc.edu/languages/placement-tests-2/>).

### DECLARING THE MAJOR

Declaring the major is as easy as meeting with the undergraduate advisor, make an appointment to review requirements and discuss course plans on Starfish (<https://wisc.starfishsolutions.com/starfish-ops/dl/instructor/serviceCatalog.html?bookmark=connection/10715/schedule>).

Students declared in the Chinese Professional Communication certificate may not be declared in the Chinese major at the same time. Students who do wish to declare the Chinese major must first cancel their declaration in the Chinese Professional Communication certificate.

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

General Education	<ul style="list-style-type: none"> <li>• Breadth–Humanities/Literature/Arts: 6 credits</li> <li>• Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth–Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul>
-------------------	--

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

### COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

### BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.
Language	Complete the third unit of a language other than English.
LS Breadth	Complete: <ul style="list-style-type: none"> <li>• 12 credits of Humanities, which must include at least 6 credits of Literature; and</li> <li>• 12 credits of Social Science; and</li> <li>• 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.</li> </ul>

Liberal Arts and Science Coursework	Complete at least 108 credits.
Depth of Intermediate/Advanced Coursework	Complete at least 60 credits at the Intermediate or Advanced level.
Major	Declare and complete at least one major.
Total Credits	Complete at least 120 credits.
UW-Madison Experience	Complete both: <ul style="list-style-type: none"> <li>• 30 credits in residence, overall, and</li> <li>• 30 credits in residence after the 86th credit.</li> </ul>
Quality of Work	<ul style="list-style-type: none"> <li>• 2.000 in all coursework at UW-Madison</li> <li>• 2.000 in Intermediate/Advanced level coursework at UW-Madison</li> </ul>

## NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

Code	Title	Credits
<b>Chinese Language Requisites</b>		
ASIALANG 101	First Semester Chinese	4
ASIALANG 102	Second Semester Chinese	4

## HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Chinese undergraduate advisor.

### HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 for all courses accepted in the major
- Complete the following coursework, with a grade of B or better:
  - ASIAN 699 or another Capstone course (see list above) of 3-4 credits (excluding ASIAN 682 or ASIAN 692) with the professor under whose guidance a student intends to write a thesis. This course must be taken before ASIAN 681.
  - A two-semester Senior Honors Thesis in ASIAN 681 and ASIAN 682, for a total of 6 credits.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Understand the content and cultural context of written texts and audiovisual materials with a large degree of independence, adapting style and speed of comprehension to different texts and purposes, and using appropriate reference sources selectively.
2. Spontaneously exchange ideas about various topics with relative ease.
3. State and support one's own opinion while acknowledging others' viewpoints.
4. Demonstrate an awareness of the importance of pragmatic, sociolinguistic, and rhetorical features of the target language.
5. Conduct library and/or internet-based research on topics relating to their particular interests and special fields of expertise, collecting and selecting relevant information using English and target language source materials.
6. Synthesize and critically evaluate source materials in both English and the target language.
7. Present (orally or in written language) their experiences and their introspection on these experiences in a coherent and effective manner.
8. Demonstrate cultural awareness across historical epochs.
9. Produce effective academic writing in English.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

#### First Year

Fall	Credits Spring	Credits
ASIAN 100 (Humanities)	3-4 ASIALANG 102	4
ASIALANG 101	4 ASIAN/HISTORY/ POLI SCI 255 (Humanities or Social Science)	3-4
Communication A	3 Quantitative Reasoning A	3-4

Elective	3-6	
	<b>15</b>	<b>15</b>

**Total Credits 120**

## THREE-YEAR PLAN

### THREE-YEAR PLAN

This Sample Three-Year Plan is a tool to assist students and their advisor(s). Students should use it –along with their DARS report, the Degree Planner, and Course Search & Enroll tools – to make their own three-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests.

Three-year plans may vary considerably from student to student, depending on their individual preparation and circumstances. Students interested in graduating in three years should meet with an advisor as early as possible to discuss feasibility, appropriate course sequencing, post-graduation plans (careers, graduate school, etc.), and opportunities they might forgo in pursuit of a three-year graduation plan.

### DEPARTMENTAL EXPECTATIONS

Students planning to graduate within three years with a Chinese major should enter the University with a minimum of 26 advanced standing credits, and have satisfied the following requirements with course credit or via placement examination:

- First year Chinese (ASIALANG 101 and ASIALANG 102) – All students are required to take a placement test in Chinese to assess their prior experience in the language. Students should register for a date (<https://alc.wisc.edu/languages/placement-tests-2/>) prior to their SOAR visit.
- Communication Part A
- Quantitative Reasoning Part A
- 6 combined credits of Biological, Natural, or Physical Science

**First Year**

Fall	Credits Spring	Credits
ASIALANG 201	4 ASIALANG 202	4
ASIAN/HISTORY/ POLI SCI 255	4 ASIAN/RELIG ST 236 (meets Communication B)	3
Quantitative Reasoning B	4 ASIAN/GEOG/ HISTORY/POLI SCI/ SOC 244 (meets Ethnic Studies requirement)	4
Biological Science Breadth	4 Physical Science Breadth	4
	<b>16</b>	<b>15</b>

**Total Credits 31****SUMMER ONE [OPTIONAL]**

Summer terms present an opportunity for students to make progress toward remaining L&S Breadth and General Education Requirements. Other options for academic enrichment or career exploration might include study abroad (<https://studyabroad.wisc.edu/>) or international internships (<https://internships.international.wisc.edu/>).

**ADVISING AND CAREERS****ADVISING AND CAREERS****ADVISING**

If you like to plan, seeing your major advisor is very important; it can make the difference between fitting in general education and major requirements before you graduate. Many students also try to complete more than one major or certificate, and discussing how you might be able to reach this goal is another primary role of your major advisor. Advisors can speak to you about course content, which courses fit best with your interest areas, and what kinds of courses might work best with your learning style. Any and all of these discussions can occur during your advising appointment.

Rachel Weiss is the advisor for the undergraduate majors and certificates in the Department of Asian Languages and Cultures. She is happy to meet with students as they explore the degree options, prepare for study abroad, or advance through their four-year plans. Schedule an appointment in Starfish (<https://wisc.starfishsolutions.com/starfish-ops/dl/instructor/serviceCatalog.html?bookmark=connection/10715/schedule>).

**L&S CAREER RESOURCES**

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences

- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW–Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

## PEOPLE

### PEOPLE

Please visit the Asian Languages & Cultures website (<https://alc.wisc.edu/people/>) for a complete list of faculty, instructional, and academic staff.

## WISCONSIN EXPERIENCE

### WISCONSIN EXPERIENCE UNDERGRADUATE RESEARCH

Students in the ALC department academic programs are encouraged to become engaged in undergraduate research. There are numerous programs (<https://teachlearn.provost.wisc.edu/initiatives-and-programs/undergraduate-research/>) that provide research opportunities for undergraduates at UW–Madison, including:

- Hilldale Undergraduate/Faculty Research Fellowships (<https://awards.advising.wisc.edu/all-scholarships/hilldale-undergraduatefaculty-research-fellowship/>)
- McNair Scholars (<http://grad.wisc.edu/mcnair/>)
- Summer Research Programs (<https://grad.wisc.edu/diversity/srop/>)
- Undergraduate Research Scholars (<https://urs.ls.wisc.edu/>)
- The Wisconsin Idea Undergraduate Fellowship Program (<https://morgridge.wisc.edu/students/wisconsin-idea-fellowships/>)

## RESOURCES AND SCHOLARSHIPS

### RESOURCES AND SCHOLARSHIPS

#### DEPARTMENT SCHOLARSHIPS

The Department of Asian Languages and Cultures has various scholarships to support meritorious students in our programs. Application information and deadlines (<https://alc.wisc.edu/undergraduate-studies/departments-scholarships/>).

#### Chinese Language Learners Bridge Fund

Chinese Major Alumni Jarrett Wiesolek (Class of 2011) and Ali Dibble (Class of 2012) launched the Bridge Fund in 2016. CLLBF is designed to award scholarships to students who are passionate about learning Chinese and building bridges between UW–Madison and China.

#### Chou Kuo-p'ing Book Award

Several awards will be given each year to undergraduate students who are studying and will continue to study Chinese during the following semester. This award is made possible through a donation by Professor Emerita Chou Kuo-p'ing, the founder of the Chinese program here at the University of Wisconsin–Madison. Professor Chou, a dedicated teacher, devoted her entire career to teaching, promoting, and developing Chinese studies in Wisconsin. Professor Chou was very active during her teaching career and often helped financially disadvantaged students,

especially those who excelled in their academic careers despite economic difficulties. Although this award is based mainly on the applicant's academic performance, special consideration is given to those who are financially disadvantaged in order to carry on this tradition.

#### Ellen and William E. Fisher Scholarship

Ellen and William E. Fisher have provided funding for an annual scholarship to be awarded to an undergraduate student at UW–Madison who is studying the Chinese language. According to the terms of the gift agreement, the award is based on merit, therefore there is no application, but faculty will make a determination based on students progressing in the program. Mr. Fisher stipulated that the award must be made in the fall semester so that the recipient can use it in the Spring semester.

#### Gwang-Tsai Chen Award

Professor Sabina Knight established this scholarship in honor of Gwang-Tsai (Arthur) Chen, Emeritus Professor of East Asian Languages and Literature at UW–Madison. The scholarship recognizes a rising undergraduate Chinese major. Student eligibility: must be a non-heritage language learner, freshman or sophomore standing, a GPA above 3.5.

#### Lawrence Louey Merit Scholarship

The Lawrence Louey Merit Scholarship is an annual competition recognizing an undergraduate Chinese major in the Department of Asian Languages and Cultures. Eligibility: You must be a graduating senior with a GPA above 3.75 and have taken at least three years of Chinese. An application is required for consideration, including a brief career plan, as well as a research paper from one of your major field courses.

## CAMPUS RESOURCES

### Foreign Language & Area Studies (FLAS) Fellowships (<https://flas.wisc.edu/>)

East Asian Studies FLAS Coordinator: Laurie Dennis, Assistant Director, [ldennis@wisc.edu](mailto:ldennis@wisc.edu) ([ldennis@international.wisc.edu](mailto:ldennis@international.wisc.edu)), 325 Ingraham Hall

FLAS fellowships are funded by the U.S. Department of Education and administered by UW–Madison's National Resource Centers to assist students in acquiring foreign language and either area or international studies competencies. FLAS awards are only available for specific languages (<https://flas.wisc.edu/Languages.htm>), and are contingent on federal funding. Please direct any questions to the FLAS Coordinator (<https://flas.wisc.edu/Languages.html>) of your chosen language.

Applicants must be U.S. citizens or permanent residents of the United States. Applications by students in professional fields are encouraged. Preference will be given to applicants with a high level of academic ability and with previous language training. Academic Year and Summer FLAS awards are **two separate competitions** requiring **two separate and complete applications**.

### Scholarships@UW–Madison (<https://scholarships.wisc.edu/Scholarships/>)

This is the primary campus-wide portal for applicants, current students, and everyone looking for scholarship opportunities on campus.

### Undergraduate Academic Awards Office (<https://awards.advising.wisc.edu/>)

We help UW–Madison undergraduates and recent graduates pursue nationally competitive scholarships (<https://awards.advising.wisc.edu/scholarships/nationally-competitive/>) and campus-wide awards (<https://awards.advising.wisc.edu/>).

scholarships/campus-wide/) for research, service, and leadership – activities at the heart of the Wisconsin Experience. We can help you:

- Find scholarship opportunities that match your goals and interests
- Navigate the scholarship application process
- Review scholarship essays
- Prepare for national scholarship interviews

Contact us (<https://awards.advising.wisc.edu/schedule-an-appointment/>) to schedule an appointment to discuss which opportunities are right for you.

## NATIONAL SCHOLARSHIPS

### Boren Scholarships (<https://borenawards.org/>)

Campus Representative: Undergraduates with questions should contact Matt Geisler ([mdgeisler@studyabroad.wisc.edu](mailto:mdgeisler@studyabroad.wisc.edu)), Associate Director of International Academic Programs

These scholarships provide up to \$20,000 to U.S. undergraduate students to study abroad in areas of the world that are critical to U.S. interests and underrepresented in study abroad, including Africa, Asia, Central & Eastern Europe, Eurasia, Latin America, and the Middle East. The countries of Western Europe, Canada, Australia, and New Zealand are excluded. (Full list of preferred countries (<https://borenawards.org/eligible-programs/#countries>)) Additionally, all programs must include formal study of an appropriate foreign language. (Full list of preferred languages (<https://borenawards.org/eligible-programs/#languages>)).

### Critical Language Scholarship Program (<http://www.clscholarship.org/>)

Campus Representative: Mark Lilleleht, Assistant Director for Awards at [awards@iris.wisc.edu](mailto:awards@iris.wisc.edu)

The CLS program is part of the U.S. Department of State, Bureau of Educational and Cultural Affairs. It is a fully-funded overseas intensive language and cultural immersion program for American undergraduate and graduate students. With the goal of broadening the base of Americans studying and mastering critical languages and to build relationships between the people of the United States and other countries, CLS provides opportunities to a diverse range of students from across the United States at every level of language learning.

The fourteen CLS languages are: Arabic, Azerbaijani, Bangla, Chinese, Hindi, Indonesian, Japanese, Korean, Persian, Punjabi, Russian, Swahili, Turkish, and Urdu.

The CLS Program seeks participants with diverse interests, from a wide variety of fields of study, backgrounds, and career paths, with the purpose of representing the full diversity of the United States. Thus, students from all academic disciplines, including business, engineering, law, medicine, science, social sciences, arts, and humanities are encouraged to apply.

### Gilman Scholarship Program (<https://www.iie.org/Programs/Gilman-Scholarship-Program/>)

Campus Representative: Andy Quackenbush ([quackenbush@studyabroad.wisc.edu](mailto:quackenbush@studyabroad.wisc.edu)), Advisor, International Academic Programs

The Gilman Scholarship Program is an undergraduate grant program for U.S. citizens of limited financial means to enable them to study abroad, thereby internationalizing their outlook and better preparing them to assume significant roles in the increasingly global economy.

## JAPANESE PROFESSIONAL COMMUNICATION, CERTIFICATE

The certificate in Japanese professional communication provides students with the opportunity to develop proficiency in Japanese while pursuing majors in other subjects across the university. It emphasizes the development of communication skills that are applicable to various professional contexts that students may encounter in their future careers.

## STUDY ABROAD IN JAPAN

Students may receive residence credit for **study abroad** through a variety of different programs sponsored by the department. Please contact International Academic Programs (<https://www.studyabroad.wisc.edu/>) for details.

Students may also receive credit, or gain experience, through various **internship** opportunities abroad. Please contact International Internship Programs (<http://internships.international.wisc.edu/>) for details.

## HOW TO GET IN

### HOW TO GET IN PLACEMENT EXAM

The Asian Languages and Cultures department offers placement exams for students with prior language study or experience as a speaker of Japanese. For more information, see the department's website (<https://alc.wisc.edu/languages/placement-tests-2/>).

### DECLARING THE CERTIFICATE

Declaring the certificate is as easy as meeting with the undergraduate advisor, make an appointment to review requirements and discuss course plans on Starfish (<https://wisc.starfishsolutions.com/starfish-ops/dl/instructor/serviceCatalog.html?bookmark=connection/10715/schedule>).

Students declared in the Japanese major are not eligible to declare the Japanese Professional Communication certificate.

### Required Prerequisite Language Courses

Code	Title	Credits
ASIALANG 103	First Semester Japanese	4
<i>or</i>		
ASIALANG 113 & ASIALANG 114	First Semester Elementary Japanese and Second Semester Elementary Japanese	4
<i>and</i>		
ASIALANG 104	Second Semester Japanese	4
ASIALANG 203	Third Semester Japanese	4
ASIALANG 204	Fourth Semester Japanese	4

## REQUIREMENTS

### REQUIREMENTS

15 credits distributed as follows:

Code	Title	Credits
<b>Business Language Course</b>		
Required course:		
ASIALANG 377	Business Japanese Communication	3
<b>Advanced Japanese Language Courses</b>		<b>9</b>
Complete three courses, from:		
ASIALANG 303	Fifth Semester Japanese	
ASIALANG 375	Advanced Japanese: Solidifying the Foundations	
ASIALANG 376	Japanese Conversation	
ASIALANG 451	Advanced Readings in Japanese	
ASIALANG 452	Advanced Japanese through Audio-Visual Media	
<b>Japanese Studies Course</b>		<b>3</b>
ASIAN/ HISTORY 104	Introduction to East Asian History: Japan	
ASIAN/ RELIG ST 236	Asia Enchanted: Ghosts, Gods, and Monsters	
ASIAN 253	Japanese Popular Culture	
ASIAN 301	Social Studies Topics in East Asian Studies	
ASIAN/HISTORY/ POLI SCI 255	Introduction to East Asian Civilizations	
ASIAN 353	Lovers, Warriors and Monks: Survey of Japanese Literature	
ASIAN 354	Early Modern Japanese Literature	
ASIAN 355	Modern Japanese Literature	
ASIAN 358	Language in Japanese Society	
ASIAN 361	Love and Politics: The Tale of Genji	
ASIAN 367	Haiku	
ASIAN 373	Topics in Japanese: Study Abroad	
ASIAN 376	Manga	
ASIAN 378	Anime	
ASIAN 434	Introduction to Japanese Linguistics	
ASIAN/ HISTORY 454	Samurai: History and Image	
ASIAN/ HISTORY 456	Pearl Harbor & Hiroshima: Japan, the US & The Crisis in Asia	
ASIAN 533	Readings in Early Modern Japanese Literature	
ASIAN 563	Readings in Modern Japanese Literature	
ASIAN 573	Readings in Classical Japanese Literature	
ASIALANG 313	Classical Japanese	
ANTHRO 357	Introduction to the Anthropology of Japan	
ART HIST 475	Japanese Ceramics and Allied Arts	

LITTRANS 368 Modern Japanese Fiction

LITTRANS 373 Topics in Japanese Literature

**Total Credits**

**15**

### RESIDENCE AND QUALITY OF WORK

- Minimum 2.000 GPA on all certificate courses
- At least 8 certificate credits must be completed in residence

### CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Explain in the target language their academic and professional experiences, and articulate their career objectives, both in writing and speaking.
2. Manage basic everyday workplace (face-to-face, telephone, and email) communications in the target language (e.g., greeting, introducing oneself, making/changing appointments, making and receiving requests, obtaining permission, reporting, thanking, apologizing).
3. With preparation, deliver a clear, concise, and connected presentation in the target language, with the effective use of visual images, on a subject they researched through online resources and/or interviews.
4. Demonstrate an awareness of the significance of honorific and formulaic expressions and etiquette observed in the workplace within the target culture, which can be applied to their life-long learning.
5. Demonstrate an awareness of diverse cultural perspectives, which may influence business and other professional practices, and a disposition to approach unfamiliar contexts with an open mind.

## ADVISING AND CAREERS

### ADVISING AND CAREERS

#### ADVISING

If you like to plan, seeing your major advisor is very important; it can make the difference between fitting in general education and major requirements before you graduate. Many students also try to complete more than one major or certificate, and discussing how you might be able to reach this goal is another primary role of your major advisor. Advisors can speak to you about course content, which courses fit best with your interest areas, and what kinds of courses might work best with your learning style. Any and all of these discussions can occur during your advising appointment.

Rachel Weiss is the advisor for the undergraduate majors and certificates in the Department of Asian Languages and Cultures. She is happy to meet with students as they explore the degree options, prepare for study abroad, or advance through their four-year plans. Schedule an appointment in Starfish (<https://wisc.starfishsolutions.com/starfish->

ops/dl/instructor/serviceCatalog.html?bookmark=connection/10715/schedule).

## L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

## PEOPLE

### PEOPLE

Please visit the Asian Languages & Cultures website (<https://alc.wisc.edu/people/>) for a complete list of faculty, instructional, and academic staff.

## WISCONSIN EXPERIENCE

### WISCONSIN EXPERIENCE UNDERGRADUATE RESEARCH

Students in the ALC department academic programs are encouraged to become engaged in undergraduate research. There are numerous programs (<https://teachlearn.provost.wisc.edu/initiatives-and-programs/undergraduate-research/>) that provide research opportunities for undergraduates at UW-Madison, including:

- Hilldale Undergraduate/Faculty Research Fellowships (<https://awards.advising.wisc.edu/all-scholarships/hilldale-undergraduatefaculty-research-fellowship/>)
- McNair Scholars (<http://grad.wisc.edu/mcnair/>)
- Summer Research Programs (<https://grad.wisc.edu/diversity/srop/>)

- Undergraduate Research Scholars (<https://urs.ls.wisc.edu/>)
- The Wisconsin Idea Undergraduate Fellowship Program (<https://morgridge.wisc.edu/students/wisconsin-idea-fellowships/>)

## RESOURCES AND SCHOLARSHIPS

### RESOURCES AND SCHOLARSHIPS CAMPUS RESOURCES

#### Foreign Language & Area Studies (FLAS) Fellowships

East Asian Studies FLAS Coordinator: Laurie Dennis, Assistant Director, [ldennis@wisc.edu](mailto:ldennis@wisc.edu) ([ldennis@international.wisc.edu](mailto:ldennis@international.wisc.edu)), 325 Ingraham Hall

FLAS fellowships are funded by the U.S. Department of Education and administered by the UW's National Resource Centers to assist students in acquiring foreign language and either area or international studies competencies. FLAS awards are only available for specific languages (<https://flas.wisc.edu/Languages.htm>) and are contingent on federal funding. Please direct any questions to the FLAS Coordinator (<https://flas.wisc.edu/Languages.html>) of your chosen language.

Applicants must be U.S. citizens or permanent residents of the United States. Applications by students in professional fields are encouraged. Preference will be given to applicants with a high level of academic ability and with previous language training. Academic Year and Summer FLAS awards are **two separate competitions** requiring **two separate and complete applications**.

#### Scholarships@UW-Madison

This is the primary campus-wide portal for applicants, current students, and everyone looking for scholarship opportunities on campus.

#### Undergraduate Academic Awards Office (<https://awards.advising.wisc.edu/>)

We help UW-Madison undergraduates and recent graduates pursue nationally competitive scholarships (<https://awards.advising.wisc.edu/scholarships/nationally-competitive/>) and campus-wide awards (<https://awards.advising.wisc.edu/scholarships/campus-wide/>) for research, service, and leadership – activities at the heart of the Wisconsin Experience. We can help you:

- Find scholarship opportunities that match your goals and interests
- Navigate the scholarship application process
- Review scholarship essays
- Prepare for national scholarship interviews

Contact us (<https://awards.advising.wisc.edu/schedule-an-appointment/>) to schedule an appointment to discuss which opportunities are right for you.

### NATIONAL SCHOLARSHIPS

**Boren Scholarships (<http://borenawards.org/>)**

Campus Representative: Undergraduates with questions should contact Matt Geisler (mdgeisler@studyabroad.wisc.edu), Associate Director of International Academic Programs.

These scholarships provide up to \$20,000 to U.S. undergraduate students to study abroad in areas of the world that are critical to U.S. interests and underrepresented in study abroad, including Africa, Asia, Central & Eastern Europe, Eurasia, Latin America, and the Middle East. The countries of Western Europe, Canada, Australia, and New Zealand are excluded. Additionally, all programs must include formal study of an appropriate foreign language.

---

### Critical Language Scholarship Program (<http://www.clscholarship.org/>)

Campus Representative: Mark Lilleleht, Assistant Director for Awards at awards@iris.wisc.edu

The CLS program is part of the U.S. Department of State, Bureau of Educational and Cultural Affairs. It is a fully-funded overseas intensive language and cultural immersion program for American undergraduate and graduate students. With the goal of broadening the base of Americans studying and mastering critical languages and to build relationships between the people of the United States and other countries, CLS provides opportunities to a diverse range of students from across the United States at every level of language learning. The fourteen CLS languages are: Arabic, Azerbaijani, Bangla, Chinese, Hindi, Indonesian, Japanese, Korean, Persian, Punjabi, Russian, Swahili, Turkish, and Urdu.

The CLS Program seeks participants with diverse interests, from a wide variety of fields of study, backgrounds, and career paths, with the purpose of representing the full diversity of the United States. Thus, students from all academic disciplines, including business, engineering, law, medicine, science, social sciences, arts, and humanities are encouraged to apply.

---

### Gilman Scholarship Program

Campus Representative: Andy Quackenbush (quackenbush@studyabroad.wisc.edu)

The Gilman Scholarship Program is an undergraduate grant program for U.S. citizens of limited financial means to enable them to study abroad, thereby internationalizing their outlook and better preparing them to assume significant roles in the increasingly global economy.

## JAPANESE, BA

The Japanese program offers students a range of courses and activities that enhance students' intercultural and transcultural competencies. With the completion of the four basic years of the language, students will be prepared to handle various types of colloquial Japanese. Our majors pursue advanced studies in Japanese language or literature. It is also possible to combine an interest in Japan with a degree in business, engineering, history, or international studies.

Majors are urged to begin coursework early, ideally in the freshman or sophomore year. If, however, this is not possible, summer courses at UW–Madison or elsewhere are available which speed the student's progress.

Those who have previous Japanese study experience may enter advanced courses on the basis of department recommendation.

Visit our website (<https://alc.wisc.edu/undergraduate-studies/undergraduate-studies-in-japanese/>) for more information about undergraduate studies in Japanese.

## STUDY ABROAD IN JAPAN

Students may receive residence credit for **study abroad** through a variety of programs sponsored by the department. Please contact International Academic Programs (<https://www.studyabroad.wisc.edu/>) for details.

Students may also receive credit, or gain experience, through various **internship** opportunities abroad. Please contact International Internship Programs (<http://internships.international.wisc.edu/>) for details.

## STARTING COURSEWORK TOWARD THE MAJOR

Before declaring the major, students are urged to begin coursework early, ideally in the freshman or sophomore year. If, however, this is not possible, summer courses at UW–Madison or elsewhere are available which speed the student's progress. Those who have previous Japanese study experience may enter advanced courses on the basis of placement tests (<https://alc.wisc.edu/languages/placement-tests/>).

### HOW TO GET IN

## HOW TO GET IN PLACEMENT EXAM

The Asian Languages and Cultures department offers placement exams for students with prior language study or experience as a speaker of Japanese. For more information, see the department's website (<https://alc.wisc.edu/languages/placement-tests-2/>).

## DECLARING THE MAJOR

Students must meet with the undergraduate advisor to review the requirements and discuss course plans, make an appointment on Starfish. (<https://wisc.starfishsolutions.com/starfish-ops/dl/instructor/serviceCatalog.html?bookmark=connection/10715/schedule>)

Students may declare the major prior to completing the requisite language courses (1st and 2nd semester).

Students declared in the Japanese Professional Communication certificate may not be declared in the Japanese major at the same time. Students who do wish to declare the Japanese major must first cancel their declaration in the Japanese Professional Communication certificate.

### REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world.

Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

- General Education
- Breadth—Humanities/Literature/Arts: 6 credits
  - Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
  - Breadth—Social Studies: 3 credits
  - Communication Part A Part B \*
  - Ethnic Studies \*
  - Quantitative Reasoning Part A Part B \*

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

### BACHELOR OF ARTS DEGREE REQUIREMENTS

**Mathematics** Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.

**Language**

- Complete the fourth unit of a language other than English; OR
- Complete the third unit of a language and the second unit of an additional language other than English.

**LS Breadth**

- 12 credits of Humanities, which must include 6 credits of literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.

**Liberal Arts and Science Coursework** Complete at least 108 credits.

**Depth of Intermediate/Advanced work** Complete at least 60 credits at the intermediate or advanced level.

**Major** Declare and complete at least one major.

**Total Credits** Complete at least 120 credits.

**UW-Madison Experience**

- 30 credits in residence, overall; and
- 30 credits in residence after the 86th credit.

**Quality of Work**

- 2.000 in all coursework at UW-Madison
- 2.000 in Intermediate/Advanced level coursework at UW-Madison

## NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

Code	Title	Credits
<b>Japanese Language Requisites</b>		
<i>First Semester Japanese (complete one):</i>		4
ASIALANG 103	First Semester Japanese	
ASIALANG 113 & ASIALANG 114	First Semester Elementary Japanese and Second Semester Elementary Japanese	
<i>Followed by (complete all):</i>		
ASIALANG 104	Second Semester Japanese	4
ASIALANG 203	Third Semester Japanese	4
ASIALANG 204	Fourth Semester Japanese	4
<b>Required Japanese Language Course</b>		
ASIALANG 303	Fifth Semester Japanese	4
<b>Advanced Japanese Language Courses (complete 3 courses from the options below):</b>		9
ASIALANG 313	Classical Japanese	
ASIALANG 375	Advanced Japanese: Solidifying the Foundations	
ASIALANG 376	Japanese Conversation	
ASIALANG 377	Business Japanese Communication	
ASIALANG 451	Advanced Readings in Japanese	
ASIALANG 452	Advanced Japanese through Audio-Visual Media	
<b>Japanese Studies Courses</b>		
<i>Introductory Course (complete one):</i>		3
ASIAN 100	Gateway to Asia: Special Topics	
ASIAN/HISTORY 104	Introduction to East Asian History: Japan	
ASIAN 203	Lost in Translation: Western Experience in Asia	
ASIAN/RELIG ST 236	Asia Enchanted: Ghosts, Gods, and Monsters	
ASIAN 253	Japanese Popular Culture	
ASIAN/HISTORY/POLI SCI 255	Introduction to East Asian Civilizations	
ASIAN/HISTORY/RELIG ST 267	Asian Religions in Global Perspective	
ART HIST 203	Survey of Asian Art	

<i>Intermediate Courses (complete 3 courses from the options below):</i>		9
ASIAN 353	Lovers, Warriors and Monks: Survey of Japanese Literature	
ASIAN 354	Early Modern Japanese Literature	
ASIAN 355	Modern Japanese Literature	
ASIAN 357	Japanese Ghost Stories

LITTRANS 368	Modern Japanese Fiction	3
LITTRANS 373	Topics in Japanese Literature	3
<i>Capstone Course (complete one):</i>		3
ASIAN 533	Readings in Early Modern Japanese Literature	
ASIAN 563	Readings in Modern Japanese Literature	
ASIAN 573	Readings in Classical Japanese Literature	
ASIAN 682	Senior Honors Thesis	
ASIAN 692	Senior Thesis	
ASIAN 699	Directed Study	
<b>Total Credits</b>		<b>44</b>

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all major courses
- 2.000 GPA in 15 upper-level major credits, in residence
- 15 credits in the major, taken on campus

### Upper-level major courses in the major:

Code	Title	Credits
ASIAN 310	Introduction to Comics and Graphic Novels: Theory, History, Method	3
ASIAN 353	Lovers, Warriors and Monks: Survey of Japanese Literature	3
ASIAN 354	Early Modern Japanese Literature	3
ASIAN 355	Modern Japanese Literature	3
ASIAN 357	Japanese Ghost Stories	3
ASIAN 358	Language in Japanese Society	3
ASIAN 361	Love and Politics: The Tale of Genji	3
ASIAN 367	Haiku	3
ASIAN 373	Topics in Japanese: Study Abroad	1-6

## HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the undergraduate advisor.

### HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA for all courses accepted in the major
- Complete the following coursework, with a grade of B or better:
  - Either ASIAN 699 or other appropriate course of 3–4 credits with the major professor, under whose guidance a student intends to write a thesis. This course must be taken before ASIAN 681.
  - Complete a two-semester Senior Honors Thesis in ASIAN 681 and ASIAN 682, for a total of 6 credits.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Understand the content and cultural context of written texts and video materials with a large degree of independence, adapting style and speed of comprehension to different texts and purposes, and using appropriate reference sources selectively.
2. Spontaneously exchange ideas about various topics with relative ease.
3. State and support one's own opinion while acknowledging others' viewpoints.
4. Demonstrate an awareness of the importance of pragmatic, sociolinguistic, and rhetorical features of the target language.
5. Conduct library and/or internet-based research on topics relating to their particular interests and special fields of expertise, collecting and selecting relevant information using English and target language source materials.
6. Synthesize and critically evaluate source materials in both English and the target language.
7. Present (orally or in written language) their experiences and their introspection on these experiences in a coherent and effective manner.
8. Demonstrate cultural awareness across historical epochs.
9. Produce effective academic writing in English.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage

in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

#### First Year

Fall	Credits Spring	Credits
ASIALANG 103	4 ASIALANG 104	4
ASIAN 100	3-4 ASIAN/ASIAN AM/ HISTORY 246 (meets Ethnic Studies requirement)	4
Communication A	3 Quantitative Reasoning A	3-4
Biological Science Breadth	3 Science Breadth	3-4
Students beginning language study this term may start with: ASIALANG 113		
<b>14</b>		<b>15</b>

#### Second Year

Fall	Credits Spring	Credits
ASIALANG 203	4 ASIALANG 204 or 104	4
Or students continue with: ASIALANG 114	ASIAN/RELIG ST 236 (Communication B) ASIAN 253 (Humanities Breadth)	3 3
ASIAN/HISTORY/ POLI SCI 255 (Social Science Breadth)	3-4 ASIAN 355 (Literature Breadth)	3
ASIAN/HISTORY/ RELIG ST 267 (Humanities Breadth)	3-4 Physical Science Breadth	3-4
Quantitative Reasoning B	3-4	
<b>14</b>		<b>16</b>

#### Third Year

Fall	Credits Spring	Credits
ASIALANG 303 or 203	4 ASIALANG 304 or 204	4
ASIAN 376	3 ASIALANG 377	3
ASIAN 367 (Literature Breadth)	3 ASIAN 699	2-3

- The Wisconsin Idea Undergraduate Fellowship Program (<https://morgridge.wisc.edu/students/wisconsin-idea-fellowships/>)

## RESOURCES AND SCHOLARSHIPS

### RESOURCES AND SCHOLARSHIPS DEPARTMENT SCHOLARSHIPS

The Department of Asian Languages and Cultures has various scholarships to support meritorious students in our programs. Application information and deadlines (<https://alc.wisc.edu/undergraduate-studies/department-scholarships/>).

#### Cameron G. Keith Memorial Scholarship

This award is given annually to two undergraduate students studying Japanese. This award is announced during the fall semester, and eligible students may apply. The criteria are: Japanese major, junior or senior standing, cumulative GPA of 3.5 or above, currently taking Japanese, and plan to go into a Japanese-related profession. Cameron G. Keith was an East Asian Studies and Economics studies major at UW-Madison who studied abroad in Japan, and later in Nepal. In his memory, the Keith family established these funds in honor of his interest in the region.

### OTHER CAMPUS RESOURCES

#### Foreign Language & Area Studies (FLAS) Fellowships

East Asian Studies FLAS Coordinator: Laurie Dennis, Assistant Director, [ldennis@wisc.edu](mailto:ldennis@wisc.edu) ([ldennis@international.wisc.edu](mailto:ldennis@international.wisc.edu)), 325 Ingraham Hall

FLAS fellowships are funded by the U.S. Department of Education and administered by UW-Madison's National Resource Centers to assist students in acquiring foreign language and either area or international studies competencies. FLAS awards are only available for specific languages (<https://flas.wisc.edu/Languages.htm>) and are contingent on federal funding. Please direct any questions to the FLAS Coordinator (<https://flas.wisc.edu/Languages.html>) of your chosen language.

Applicants must be U.S. citizens or permanent residents of the United States. Applications by students in professional fields are encouraged. Preference will be given to applicants with a high level of academic ability and with previous language training. Academic Year and Summer FLAS

awards are **two separate competitions** requiring **two separate and complete applications**.

### Scholarships@UW-Madison (<https://scholarships.wisc.edu/Scholarships/>)

This is the primary campuswide portal for applicants, current students, and everyone looking for scholarship opportunities on campus.

### Undergraduate Academic Awards Office (<https://awards.advising.wisc.edu/>)

We help UW-Madison undergraduates and recent graduates pursue nationally competitive scholarships (<https://awards.advising.wisc.edu/scholarships/nationally-competitive/>) and campus-wide awards (<https://awards.advising.wisc.edu/scholarships/campus-wide/>) for research, service, and leadership – activities at the heart of the Wisconsin Experience. We can help you:

- Find scholarship opportunities that match your goals and interests
- Navigate the scholarship application process
- Review scholarship essays
- Prepare for national scholarship interviews

Contact us (<https://awards.advising.wisc.edu/schedule-an-appointment/>) to schedule an appointment to discuss which opportunities are right for you.

## NATIONAL SCHOLARSHIPS

### Boren Scholarships (<http://borenawards.org/>)

Campus Representative: Undergraduates with questions should contact Matt Geisler ([mdgeisler@studyabroad.wisc.edu](mailto:mdgeisler@studyabroad.wisc.edu)), Associate Director of International Academic Programs

These scholarships provide up to \$20,000 to U.S. undergraduate students to study abroad in areas of the world that are critical to U.S. interests and underrepresented in study abroad, including Africa, Asia, Central & Eastern Europe, Eurasia, Latin America, and the Middle East. The countries of Western Europe, Canada, Australia, and New Zealand are excluded. (Full list of preferred countries (<https://borenawards.org/eligible-programs/#countries>)) Additionally, all programs must include formal study of an appropriate foreign language. (Full list of preferred languages (<https://borenawards.org/eligible-programs/#languages>)).

### Critical Language Scholarship Program (<http://www.clscholarship.org/>)

Campus Representative: Mark Lilleleht, Assistant Director for Awards at [awards@iris.wisc.edu](mailto:awards@iris.wisc.edu)

The CLS program is part of the U.S. Department of State, Bureau of Educational and Cultural Affairs. It is a fully-funded overseas intensive language and cultural immersion program for American undergraduate and graduate students. With the goal of broadening the base of Americans studying and mastering critical languages and to build relationships between the people of the United States and other countries, CLS provides opportunities to a diverse range of students from across the United States at every level of language learning. The fourteen CLS languages are: Arabic, Azerbaijani, Bangla, Chinese, Hindi, Indonesian, Japanese, Korean, Persian, Punjabi, Russian, Swahili, Turkish, and Urdu.

The CLS Program seeks participants with diverse interests, from a wide variety of fields of study, backgrounds, and career paths, with the purpose of representing the full diversity of the United States. Thus, students from

all academic disciplines, including business, engineering, law, medicine, science, social sciences, arts, and humanities are encouraged to apply.

### Gilman Scholarship Program

Campus Representative: Andy Quackenbush ([quackenbush@studyabroad.wisc.edu](mailto:quackenbush@studyabroad.wisc.edu))

The Gilman Scholarship Program is an undergraduate grant program for U.S. citizens of limited financial means to enable them to study abroad, thereby internationalizing their outlook and better preparing them to assume significant roles in the increasingly global economy.

## JAPANESE, BS

The Japanese program offers students a range of courses and activities that enhance students' intercultural and transcultural competencies. With the completion of the four basic years of the language, students will be prepared to handle various types of colloquial Japanese. Our majors pursue advanced studies in Japanese language or literature. It is also possible to combine an interest in Japan with a degree in business, engineering, history, or international studies.

Majors are urged to begin coursework early, ideally in the freshman or sophomore year. If, however, this is not possible, summer courses at UW-Madison or elsewhere are available which speed the student's progress. Those who have previous Japanese study experience may enter advanced courses on the basis of department recommendation.

Visit our website (<https://alc.wisc.edu/undergraduate-studies/undergraduate-studies-in-japanese/>) for more information about undergraduate studies in Japanese.

## STUDY ABROAD IN JAPAN

Students may receive residence credit for **study abroad** through a variety of programs sponsored by the department. Please contact International Academic Programs (<https://www.studyabroad.wisc.edu/>) for details.

Students may also receive credit, or gain experience, through various **internship** opportunities abroad. Please contact International Internship Programs (<http://internships.international.wisc.edu/>) for details.

## STARTING COURSEWORK TOWARD THE MAJOR

Before declaring the major, students are urged to begin coursework early, ideally in the freshman or sophomore year. If, however, this is not possible, summer courses at UW-Madison or elsewhere are available which speed the student's progress. Those who have previous Japanese study experience may enter advanced courses on the basis of placement tests (<https://alc.wisc.edu/languages/placement-tests/>).

## HOW TO GET IN

### HOW TO GET IN PLACEMENT EXAM

The Asian Languages and Cultures department offers placement exams for students with prior language study or experience as a speaker of Japanese. For more information, see the department's website (<https://alc.wisc.edu/languages/placement-tests-2/>).

## DECLARING THE MAJOR

Students must meet with the undergraduate advisor to review the requirements and discuss course plans, make an appointment on Starfish. (<https://wisc.starfishsolutions.com/starfish-ops/dl/instructor/serviceCatalog.html?bookmark=connection/10715/schedule>)

Students may declare the major prior to completing the requisite language courses (1st and 2nd semester).

Students declared in the Japanese Professional Communication certificate may not be declared in the Japanese major at the same time. Students who do wish to declare the Japanese major must first cancel their declaration in the Japanese Professional Communication certificate.

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

- |                   |  |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> <li>• Breadth–Humanities/Literature/Arts: 6 credits</li> <li>• Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth–Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul> |
|-------------------|--|

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

### COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

### BACHELOR OF SCIENCE DEGREE REQUIREMENTS

**Mathematics** Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.

**Language** Complete the third unit of a language other than English.

**LS Breadth** Complete:

- 12 credits of Humanities, which must include at least 6 credits of Literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.

**Liberal Arts and Science Coursework** Complete at least 108 credits.

**Depth of Intermediate/Advanced Coursework** Complete at least 60 credits at the Intermediate or Advanced level.

**Major** Declare and complete at least one major.

**Total Credits** Complete at least 120 credits.

**UW–Madison Experience** Complete both:

- 30 credits in residence, overall, and
- 30 credits in residence after the 86th credit.

**Quality of Work**

- 2.000 in all coursework at UW–Madison
- 2.000 in Intermediate/Advanced level coursework at UW–Madison

### NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

### REQUIREMENTS FOR THE MAJOR

Code	Title	Credits
<b>Japanese Language Requisites</b>		
<i>First Semester Japanese (complete one):</i>		4
ASIALANG 103	First Semester Japanese	
ASIALANG 113 & ASIALANG 114	First Semester Elementary Japanese and Second Semester Elementary Japanese	
<i>Followed by (complete all):</i>		
ASIALANG 104	Second Semester Japanese	4
ASIALANG 203	Third Semester Japanese	4
ASIALANG 204	Fourth Semester Japanese	4
<b>Required Japanese Language Course</b>		
ASIALANG 303	Fifth Semester Japanese	4
<b>Advanced Japanese Language Courses (complete 3 courses from the options below):</b>		9
ASIALANG 313	Classical Japanese	

ASIALANG 375	Advanced Japanese: Solidifying the Foundations
ASIALANG 376	Japanese Conversation
ASIALANG 377	Business Japanese Communication
ASIALANG 451	Advanced Readings in Japanese
ASIALANG 452	Advanced Japanese through Audio-Visual Media

**Japanese Studies Courses**

*Introductory Course (complete one):* 3

ASIAN 100	Gateway to Asia: Special Topics
ASIAN/HISTORY 104	Introduction to East Asian History: Japan
ASIAN 203	Lost in Translation: Western Experience in Asia
ASIAN/RELIG ST 236	Asia Enchanted: Ghosts, Gods, and Monsters
ASIAN 253	Japanese Popular Culture
ASIAN/HISTORY/POLI SCI 255	Introduction to East Asian Civilizations
ASIAN/HISTORY/RELIG ST 267	Asian Religions in Global Perspective
ART HIST 203	Survey of Asian Art

*Intermediate Courses (complete 3 courses from the options below):* 9

ASIAN 353	Lovers, Warriors and Monks: Survey of Japanese Literature
ASIAN 354	Early Modern Japanese Literature
ASIAN 355	Modern Japanese Literature
ASIAN 357	Japanese Ghost Stories
ASIAN 358	Language in Japanese Society
ASIAN 361	Love and Politics: The Tale of Genji
ASIAN 367	Haiku
ASIAN 373	Topics in Japanese: Study Abroad
ASIAN 376	Manga
ASIAN 378	Anime
ASIAN 434	Introduction to Japanese Linguistics
ASIAN/HISTORY 454	Samurai: History and Image
ASIAN/HISTORY 456	Pearl Harbor & Hiroshima: Japan, the US & The Crisis in Asia
ASIALANG 313	Classical Japanese
ANTHRO 357	Introduction to the Anthropology of Japan
LITTRANS 373	Topics in Japanese Literature
LITTRANS 368	Modern Japanese Fiction

*Capstone Course (complete one):* 3

ASIAN 533	Readings in Early Modern Japanese Literature
ASIAN 563	Readings in Modern Japanese Literature
ASIAN 573	Readings in Classical Japanese Literature
ASIAN 682	Senior Honors Thesis
ASIAN 692	Senior Thesis

ASIAN 699	Directed Study
-----------	----------------

**Total Credits** 44

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all major courses
- 2.000 GPA in 15 upper-level major credits, in residence
- 15 credits in the major, taken on campus

**Upper-level major courses in the major:**

Code	Title	Credits
ASIAN 310	Introduction to Comics and Graphic Novels: Theory, History, Method	3
ASIAN 353	Lovers, Warriors and Monks: Survey of Japanese Literature	3
ASIAN 354	Early Modern Japanese Literature	3
ASIAN 355	Modern Japanese Literature	3
ASIAN 357	Japanese Ghost Stories	3
ASIAN 358	Language in Japanese Society	3
ASIAN 361	Love and Politics: The Tale of Genji	3
ASIAN 367	Haiku	3
ASIAN 373	Topics in Japanese: Study Abroad	1-6
ASIAN 376	Manga	3
ASIAN 378	Anime	3
ASIAN 434	Introduction to Japanese Linguistics	3
ASIAN/HISTORY 454	Samurai: History and Image	3-4
ASIAN/HISTORY 456	Pearl Harbor & Hiroshima: Japan, the US & The Crisis in Asia	3-4
ASIAN 533	Readings in Early Modern Japanese Literature	3
ASIAN 563	Readings in Modern Japanese Literature	3
ASIAN 573	Readings in Classical Japanese Literature	3
ASIAN 681	Senior Honors Thesis	3

LITTRANS 373	Topics in Japanese Literature	3

## HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the undergraduate advisor.

### HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA for all courses accepted in the major
- Complete the following coursework, with a grade of B or better:
  - Either ASIAN 699 or other appropriate course of 3–4 credits with the major professor, under whose guidance a student intends to write a thesis. This course must be taken before ASIAN 681.
  - Complete a two-semester Senior Honors Thesis in ASIAN 681 and ASIAN 682, for a total of 6 credits.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Understand the content and cultural context of written texts and video materials with a large degree of independence, adapting style and speed of comprehension to different texts and purposes, and using appropriate reference sources selectively.
2. Spontaneously exchange ideas about various topics with relative ease.
3. State and support one's own opinion while acknowledging others' viewpoints.
4. Demonstrate an awareness of the importance of pragmatic, sociolinguistic, and rhetorical features of the target language.
5. Conduct library and/or internet-based research on topics relating to their particular interests and special fields of expertise, collecting and selecting relevant information using English and target language source materials.

6. Synthesize and critically evaluate source materials in both English and the target language.
7. Present (orally or in written language) their experiences and their introspection on these experiences in a coherent and effective manner.
8. Demonstrate cultural awareness across historical epochs.
9. Produce effective academic writing in English.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

#### First Year

Fall	Credits Spring	Credits
ASIALANG 103	4 ASIALANG 104	4
ASIAN 100	3-4 ASIAN/ASIAN AM/ HISTORY 246 (meets Ethnic Studies requirement)	4
Communication A	3 Quantitative Reasoning A	3-4

Electives	3-7 Elective	3-4
	<b>16</b>	<b>13</b>

**Total Credits 120****ADVISING AND CAREERS****ADVISING AND CAREERS****ADVISING**

If you like to plan, seeing your major advisor is very important; it can make the difference between fitting in general education and major requirements before you graduate. Many students also try to complete more than one major or certificate, and discussing how you might be able to reach this goal is another primary role of your major advisor. Advisors can speak to you about course content, which courses fit best with your interest areas, and what kinds of courses might work best with your learning style. Any and all of these discussions can occur during your advising appointment.

Rachel Weiss is the advisor for the undergraduate majors and certificates in the Department of Asian Languages and Cultures. She is happy to meet with students as they explore the degree options, prepare for study abroad, or advance through their four-year plans. Schedule an appointment in Starfish (<https://wisc.starfishsolutions.com/starfish-ops/dl/instructor/serviceCatalog.html?bookmark=connection/10715/schedule>).

**L&S CAREER RESOURCES**

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

**PEOPLE****PEOPLE**

Please visit the Asian Languages & Cultures website (<https://alc.wisc.edu/people/>) for a complete list of faculty, instructional, and academic staff.

**WISCONSIN EXPERIENCE****WISCONSIN EXPERIENCE UNDERGRADUATE RESEARCH**

Students in the ALC department academic programs are encouraged to become engaged in undergraduate research. There are numerous programs (<https://teachlearn.provost.wisc.edu/initiatives-and-programs/undergraduate-research/>) that provide research opportunities for undergraduates at UW-Madison, including:

- Hilldale Undergraduate/Faculty Research Fellowships (<https://awards.advising.wisc.edu/all-scholarships/hilldale-undergraduatefaculty-research-fellowship/>)
- McNair Scholars (<http://grad.wisc.edu/mcnair/>)
- Summer Research Programs (<https://grad.wisc.edu/diversity/srop/>)
- Undergraduate Research Scholars (<https://urs.ls.wisc.edu/>)
- The Wisconsin Idea Undergraduate Fellowship Program (<https://morgridge.wisc.edu/students/wisconsin-idea-fellowships/>)

**RESOURCES AND SCHOLARSHIPS****RESOURCES AND SCHOLARSHIPS****DEPARTMENT SCHOLARSHIPS**

The Department of Asian Languages and Cultures has various scholarships to support meritorious students in our programs. Application information and deadlines (<https://alc.wisc.edu/undergraduate-studies/department-scholarships/>).

**Chinese Language Learners Bridge Fund**

Chinese Major Alumni Jarrett Wiesolek (Class of 2011) and Ali Dibble (Class of 2012) launched the Bridge Fund in 2016. CLLBF is

designed to award scholarships to students who are passionate about learning Chinese and building bridges between UW–Madison and China.

### Chou Kuo-p'ing Book Award

Several awards will be given each year to undergraduate students who are studying and will continue to study Chinese during the following semester. This award is made possible through a donation by Professor Emerita Chou Kuo-p'ing, the founder of the Chinese program here at the University of Wisconsin–Madison. Professor Chou, a dedicated teacher, devoted her entire career to teaching, promoting, and developing Chinese studies in Wisconsin. Professor Chou was very active during her teaching career and often helped financially disadvantaged students, especially those who excelled in their academic careers despite economic difficulties. Although this award is based mainly on the applicant's academic performance, special consideration is given to those who are financially disadvantaged in order to carry on this tradition.

### Ellen and William E. Fisher Scholarship

Ellen and William E. Fisher have provided funding for an annual scholarship to be awarded to an undergraduate student at UW–Madison who is studying the Chinese language. According to the terms of the gift agreement, the award is based on merit, therefore there is no application, but faculty will make a determination based on students progressing in the program. Mr. Fisher stipulated that the award must be made in the fall semester so that the recipient can use it in the Spring semester.

### Gwang-Tsai Chen Award

Professor Sabina Knight established this scholarship in honor of Gwang-Tsai (Arthur) Chen, Emeritus Professor of East Asian Languages and Literature at UW–Madison. The scholarship recognizes a rising undergraduate Chinese major. Student eligibility: must be a non-heritage language learner, freshman or sophomore standing, a GPA above 3.5.

### Lawrence Louey Merit Scholarship

The Lawrence Louey Merit Scholarship is an annual competition recognizing an undergraduate Chinese major in the Department of Asian Languages and Cultures. Eligibility: You must be a graduating senior with a GPA above 3.75 and have taken at least three years of Chinese. An application is required for consideration, including a brief career plan, as well as a research paper from one of your major field courses.

## CAMPUS RESOURCES

### Foreign Language & Area Studies (FLAS) Fellowships (<https://flas.wisc.edu/>)

East Asian Studies FLAS Coordinator: Laurie Dennis, Assistant Director, [ldennis@wisc.edu](mailto:ldennis@wisc.edu) ([ldennis@international.wisc.edu](mailto:ldennis@international.wisc.edu)), 325 Ingraham Hall

FLAS fellowships are funded by the U.S. Department of Education and administered by UW–Madison's National Resource Centers to assist students in acquiring foreign language and either area or international studies competencies. FLAS awards are only available for specific languages (<https://flas.wisc.edu/Languages.htm>), and are contingent on federal funding. Please direct any questions to the FLAS Coordinator (<https://flas.wisc.edu/Languages.html>) of your chosen language.

Applicants must be U.S. citizens or permanent residents of the United States. Applications by students in professional fields are encouraged. Preference will be given to applicants with a high level of academic ability and with previous language training. Academic Year and Summer FLAS awards are **two separate competitions** requiring **two separate and complete applications**.

### Scholarships@UW–Madison (<https://scholarships.wisc.edu/Scholarships/>)

This is the primary campus-wide portal for applicants, current students, and everyone looking for scholarship opportunities on campus.

### Undergraduate Academic Awards Office (<https://awards.advising.wisc.edu/>)

We help UW–Madison undergraduates and recent graduates pursue nationally competitive scholarships (<https://awards.advising.wisc.edu/scholarships/nationally-competitive/>) and campus-wide awards (<https://awards.advising.wisc.edu/scholarships/campus-wide/>) for research, service, and leadership – activities at the heart of the Wisconsin Experience. We can help you:

- Find scholarship opportunities that match your goals and interests
- Navigate the scholarship application process
- Review scholarship essays
- Prepare for national scholarship interviews

Contact us (<https://awards.advising.wisc.edu/schedule-an-appointment/>) to schedule an appointment to discuss which opportunities are right for you.

## NATIONAL SCHOLARSHIPS

### Boren Scholarships (<https://borenawards.org/>)

Campus Representative: Undergraduates with questions should contact Matt Geisler ([mdgeisler@studyabroad.wisc.edu](mailto:mdgeisler@studyabroad.wisc.edu)), Associate Director of International Academic Programs

These scholarships provide up to \$20,000 to U.S. undergraduate students to study abroad in areas of the world that are critical to U.S. interests and underrepresented in study abroad, including Africa, Asia, Central & Eastern Europe, Eurasia, Latin America, and the Middle East. The countries of Western Europe, Canada, Australia, and New Zealand are excluded. (Full list of preferred countries (<https://borenawards.org/eligible-programs/#countries>)) Additionally, all programs must include formal study of an appropriate foreign language. (Full list of preferred languages (<https://borenawards.org/eligible-programs/#languages>)).

### Critical Language Scholarship Program (<http://www.clscholarship.org/>)

Campus Representative: Mark Lilleleht, Assistant Director for Awards at [awards@iris.wisc.edu](mailto:awards@iris.wisc.edu)

The CLS program is part of the U.S. Department of State, Bureau of Educational and Cultural Affairs. It is a fully-funded overseas intensive language and cultural immersion program for American undergraduate and graduate students. With the goal of broadening the base of Americans studying and mastering critical languages and to build relationships between the people of the United States and other countries, CLS provides opportunities to a diverse range of students from across the United States at every level of language learning.

The fourteen CLS languages are: Arabic, Azerbaijani, Bangla, Chinese, Hindi, Indonesian, Japanese, Korean, Persian, Punjabi, Russian, Swahili, Turkish, and Urdu.

The CLS Program seeks participants with diverse interests, from a wide variety of fields of study, backgrounds, and career paths, with the purpose of representing the full diversity of the United States. Thus, students from all academic disciplines, including business, engineering, law, medicine, science, social sciences, arts, and humanities are encouraged to apply.

## Gilman Scholarship Program (<https://www.iie.org/Programs/Gilman-Scholarship-Program/>)

Campus Representative: Andy Quackenbush  
(quackenbush@studyabroad.wisc.edu), Advisor, International Academic Programs

The Gilman Scholarship Program is an undergraduate grant program for U.S. citizens of limited financial means to enable them to study abroad, thereby internationalizing their outlook and better preparing them to assume significant roles in the increasingly global economy.

## ASTRONOMY

Astronomy, the oldest of the sciences, originated in the human urge to understand the mysterious lights we see in the sky above us – the Sun, the Moon, the planets, and the stars. Over the centuries, new tools have become available to study these cosmic icons – telescopes that allow us to see further and fainter, detectors that are sensitive to electromagnetic signals at non-visible wavelengths, and satellites that can observe from outside the confines of the Earth's atmosphere. These tools have answered many questions, but raised even more. How did the Universe begin, and how did the stars and galaxies within it form? How will it end? Are there habitable planets around other stars – and has life emerged on these planets?

## CHOOSE TO BE AN ASTRONOMY-PHYSICS MAJOR

### WHY STUDY ASTRONOMY?

- Because it's fascinating: Astronomy speaks directly to our natural urge to better understand our place in the cosmos.
- Because it's challenging: Astronomy studies objects that are distant beyond simple conception.
- Because it's adaptable: Astronomy utilizes a broad set of transferable skills, from a foundation in logical and quantitative reasoning through to data analysis, programming, and visualization.

The UW-Madison Astronomy-Physics program builds on a foundation of classical and modern physics, to embark on a comprehensive study of the observable Universe at scales extending from planets and stars, through to galaxies and the cosmic web.

### A MAJOR IN ASTRONOMY-PHYSICS CAN...

- Prepare you for graduate studies for master's or doctoral degrees in experimental or theoretical Astronomy, Astrophysics or Physics.
- Prepare you for employment in industrial or governmental laboratories.
- Provide a broad background for further work in other sciences, such as materials sciences, aerospace, computer science, geophysics, meteorology, radiology, medicine, biophysics, engineering, and environmental studies.
- Provide a science-oriented liberal education. This training can be useful in some areas of business administration, public policy, law, or other fields where a basic knowledge of science is useful.
- Provide part of the preparation you need to teach Astronomy and Physics. To teach these subjects in high school, you will also take education courses to become certified. You will need a doctoral degree to become a college or university professor.

Students who intend to continue astronomy in a graduate program are strongly encouraged to get involved in research early. To learn

about research opportunities in the department, please meet with faculty advisors. Please consider applying for Research Experiences for Undergraduates (REU's) and if interested in department research, visit our webpage (<https://www.astro.wisc.edu/undergraduate-program/current-students/>) and reach out to individual faculty. On our webpage you will find our Undergraduate Student Handbook as well as some of the current research projects.

## OTHER PROGRAMS PHYSICS

Students interested in the Physics major should contact the Physics Department (p. 1270).

### EDUCATION-ASTRONOMY

A student working toward the Bachelor of Science-Education degree may major or minor in Astronomy-Physics. Interested students should contact the School of Education (p. 1535).

### MEDICAL PHYSICS

A suggested curriculum for students interested in graduate study in medical physics is available on the medical physics webpage (<https://www.medphysics.wisc.edu/graduate-program/admissions/#requirements>).

## DEGREES/MAJORS/CERTIFICATES

### DEGREES/MAJORS/ CERTIFICATES

- Astronomy-Physics, BA (p. 510)
- Astronomy-Physics, BS (p. 515)

## ASTRONOMY–PHYSICS, BA

Astronomy, the oldest of the sciences, originated in the human urge to understand the mysterious lights we see in the sky above us – the Sun, the Moon, the planets, and the stars. Over the centuries, new tools have become available to study these cosmic icons – telescopes that allow us to see further and fainter, detectors that are sensitive to electromagnetic signals at non-visible wavelengths, and satellites that can observe from outside the confines of the Earth’s atmosphere. These tools have answered many questions, but raised even more. How did the Universe begin, and how did the stars and galaxies within it form? How will it end? Are there habitable planets around other stars – and has life emerged on these planets?

## CHOOSE TO BE AN ASTRONOMY–PHYSICS MAJOR

### WHY STUDY ASTRONOMY?

- Because it’s fascinating: Astronomy speaks directly to our natural urge to better understand our place in the cosmos.
- Because it’s challenging: Astronomy studies objects that are distant beyond simple conception.
- Because it’s adaptable: Astronomy utilizes a broad set of transferable skills, from a foundation in logical and quantitative reasoning through to data analysis, programming, and visualization.

The UW–Madison Astronomy–Physics program builds on a foundation of classical and modern physics, to embark on a comprehensive study of the observable Universe at scales extending from planets and stars, through to galaxies and the cosmic web.

### A MAJOR IN ASTRONOMY–PHYSICS CAN...

- Prepare you for graduate studies for master’s or doctoral degrees in experimental or theoretical Astronomy, Astrophysics or Physics.
- Prepare you for employment in industrial or governmental laboratories.
- Provide a broad background for further work in other sciences, such as materials sciences, aerospace, computer science, geophysics, meteorology, radiology, medicine, biophysics, engineering, and environmental studies.
- Provide a science-oriented liberal education. This training can be useful in some areas of business administration, public policy, law, or other fields where a basic knowledge of science is useful.
- Provide part of the preparation you need to teach Astronomy and Physics. To teach these subjects in high school, you will also take education courses to become certified. You will need a doctoral degree to become a college or university professor.

Students who intend to continue astronomy in a graduate program are strongly encouraged to get involved in research early. To learn about research opportunities in the department, please meet with faculty advisors. Please consider applying for Research Experiences for Undergraduates (REU’s) and if interested in department research, visit

our webpage (<https://www.astro.wisc.edu/undergraduate-program/current-students/>) and reach out to individual faculty. On our webpage you will find our Undergraduate Student Handbook as well as some of the current research projects.

## OTHER PROGRAMS PHYSICS

Students interested in the Physics major should contact the Physics Department (p. 1270).

### EDUCATION–ASTRONOMY

A student working toward the Bachelor of Science–Education degree may major or minor in Astronomy–Physics. Interested students should contact the School of Education (p. 1535).

### MEDICAL PHYSICS

A suggested curriculum for students interested in graduate study in medical physics is available on the medical physics webpage (<https://www.medphysics.wisc.edu/graduate-program/admissions/#requirements>).

## HOW TO GET IN

### HOW TO GET IN

Students who wish to declare the Astronomy–Physics may do so after arriving at UW–Madison (students cannot declare this major as part of their UW–Madison admissions process).

Students are encouraged to declare their major as early as their first year. For pre-major and major advising, students should contact the undergraduate advisor or faculty advisors.

Astronomy–Physics Majors should get started on one of the Introductory Physics sequences as early as possible.

Introductory Physics sequences are:

Code	Title	Credits
Sequence 1: PHYSICS 247, 248, and 249		
Sequence 2: PHYSICS 201, 202, and 205		
Sequence 3: PHYSICS 207, 208, and 241		

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits
	• Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
	• Breadth—Social Studies: 3 credits
	• Communication Part A Part B *
	• Ethnic Studies *
	• Quantitative Reasoning Part A Part B *

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

### BACHELOR OF ARTS DEGREE REQUIREMENTS

**Mathematics** Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.

**Language**

- Complete the fourth unit of a language other than English; OR
- Complete the third unit of a language and the second unit of an additional language other than English.

**LS Breadth**

- 12 credits of Humanities, which must include 6 credits of literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.

**Liberal Arts and Science Coursework** Complete at least 108 credits.

**Depth of Intermediate/Advanced work** Complete at least 60 credits at the intermediate or advanced level.

**Major** Declare and complete at least one major.

**Total Credits** Complete at least 120 credits.

**UW-Madison Experience**

- 30 credits in residence, overall; and
- 30 credits in residence after the 86th credit.

**Quality of Work**

- 2.000 in all coursework at UW-Madison
- 2.000 in Intermediate/Advanced level coursework at UW-Madison

## NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

The major requires a minimum of 34 credits in the field of specialization, with at least 6 of these credits in ASTRON and at least 28 credits in PHYSICS.

### COURSE REQUIREMENTS FOR THE MAJOR ARE:

Code	Title	Credits
<b>Astronomy<sup>1</sup></b>		
<i>Complete at least two of the following:</i>		6
ASTRON 310	Stellar Astrophysics <sup>2</sup>	
ASTRON 320	The Interstellar Medium	
ASTRON 330	Galaxies <sup>2</sup>	
ASTRON 335	Cosmology <sup>2</sup>	
ASTRON 340	Solar System Astrophysics	
ASTRON 500	Techniques of Modern Observational Astrophysics <sup>2</sup>	
<b>Physics</b>		
<i>Complete one of the following sequences for Introductory Physics:<sup>3</sup></i>		28
<i>Sequence 1:</i>		
PHYSICS 247 & PHYSICS 248 & PHYSICS 249	A Modern Introduction to Physics and A Modern Introduction to Physics	
<i>Sequence 2:</i>		
PHYSICS 201 & PHYSICS 202 & PHYSICS 205	General Physics and General Physics and Modern Physics for Engineers	
<i>Sequence 3:</i>		
PHYSICS 207 & PHYSICS 208 & PHYSICS 241	General Physics and General Physics and Introduction to Modern Physics	
<i>Mechanics, Electromagnetic Fields, Thermal Physics (complete all):</i>		
PHYSICS 311	Mechanics	
PHYSICS 322	Electromagnetic Fields	
PHYSICS 415	Thermal Physics	
<i>Atomic Quantum Physics (complete either):</i>		
PHYSICS 448 & PHYSICS 449	Atomic and Quantum Physics and Atomic and Quantum Physics	
<i>or</i>		
PHYSICS 531	Introduction to Quantum Mechanics	

Complete one 300-level or higher laboratory course:

ASTRON 465	Observational Astronomy and Data Analysis
PHYSICS 307	Intermediate Laboratory–Mechanics and Modern Physics

Additional PHYSICS to reach minimum of 28 credits

**Total Credits**

**34**

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all ASTRON, all PHYSICS, and all major courses
- 2.000 GPA on 15 upper-level major credits in residence<sup>4</sup>
- 15 credits in ASTRON and PHYSICS, taken on campus

## HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Astronomy–Physics undergraduate advisor(s). Please plan your Senior Honors Thesis research project a year in advance.

## HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA for all ASTRON and PHYSICS courses, and all courses accepted in the major, at the 300 level or higher
- Complete the following coursework:
  - Four 300-level or higher ASTRON courses, with a 3.500 GPA (not including ASTRON 681 and ASTRON 682)
  - A two-semester Senior Honors Thesis in ASTRON 681 and ASTRON 682, with a grade of AB or better (for a total of 6 credits).

## FOOTNOTES

<sup>1</sup> ASTRON 103 and ASTRON 104 are not required for majors.

<sup>2</sup> ASTRON 310 is a prerequisite for ASTRON 330, ASTRON 335, and ASTRON 500.

<sup>3</sup> E M A 201, E M A 202, and M E 240 count toward the 28 credits of PHYSICS requirement. E M A 201 & E M A 202, or E M A 201 & M E 240 count as a first semester, introductory course (e.g., PHYSICS 247, PHYSICS 201, PHYSICS 207).

<sup>4</sup> ASTRON 300–699 and PHYSICS 300–699 are upper-level in the major.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Learn how astronomical observations are made and data are analyzed.
2. Become familiar with theories and observations of planets, stars, interstellar gas, galaxies, and structure of the Universe (cosmology).
3. Learn how to read and critically evaluate scientific literature.
4. Learn the basics of oral and written scientific communication.
5. Be trained in principles and standards of professional and ethical conduct.
6. Develop the skills to carry out a small independent research project. Learn to define the scope of the project, conduct an effective literature search, perform computations, and analyze data.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

#### First Year

Fall	Credits Spring	Credits
MATH 221 (QR-B)	5 MATH 222	4
Biological Science Breadth	3 Biological Science Breadth	3
Humanities Breadth	3 Social Science Breadth	3
Foreign Language (if needed)	4 Foreign Language (if needed)	4
	Communication A	2
	<b>15</b>	<b>16</b>

#### Second Year

Fall	Credits Spring	Credits
PHYSICS 247, 201, or 207	5 PHYSICS 248, 202, or 208	5
MATH 234	4 Literature Breadth	3

ASTRON 200	3 Social Science Breadth	4
Foreign Language (if needed)	4 MATH 320 <sup>1</sup>	3

**16** **15**

### Third Year

Fall	Credits Spring	Credits
PHYSICS 249, 205, or 241	4 PHYSICS 311	3
ASTRON 310	3 ASTRON 320 (or another ASTRON 300 level course)	3
MATH 321 <sup>2</sup>	3 MATH 322 <sup>2</sup>	3
Communication B	3 PHYSICS 322	3
	Literature Breadth	3

**13** **15**

### Fourth Year

Fall	Credits Spring	Credits
PHYSICS 448	3 Social Science Breadth	3
ASTRON 465	3 PHYSICS 449	3
Social Science Breadth	3 PHYSICS 415	3
Ethnic Studies	3 Humanities Breadth	3
Elective	3 Astronomy 300 Level OR Elective	3

**15** **15**

### Total Credits 120

<sup>1</sup> Alternatively, students may wish to consider MATH 319 and MATH 340.

<sup>2</sup> Students are encouraged to consider MATH 321 and MATH 322 for additional preparation prior to coursework completed in the fourth year of this plan.

It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

A good starting point to begin exploring possible careers is to enroll in PHYSICS 301 Physics Today. This course, offered in the spring semester, includes a weekly talk where a topic of local research is discussed by one of the physics faculty, astronomy faculty, or SuccessWorks.

## RECOMMENDED ADDITIONAL COURSES

### ASTRONOMY

It is recommended that students take ASTRON 200 at some point during the introductory physics sequence. This course serves as a good introductory basis for all areas of astronomy and will serve you well in your upper-level coursework. ASTRON 103/ASTRON 104 are not recommended for students planning to major in Astronomy-Physics.

### MATHEMATICS

Specific math courses are listed as prerequisites for your Physics and Astronomy courses. We also recommend a few other math courses to best prepare you for your upper-level coursework.

MATH 221 Calculus and Analytic Geometry 1: A prerequisite for ASTRON 200, PHYSICS 247, PHYSICS 207, and PHYSICS 201.

MATH 222 Calculus and Analytic Geometry 2: A prerequisite for PHYSICS 247 but can be taken concurrently.

MATH 234 Calculus--Functions of Several Variables: A prerequisite for PHYSICS 248 but can be taken concurrently. If you are not taking the PHYSICS 247/PHYSICS 248/PHYSICS 249 intro sequence, you will still need this course for PHYSICS 311 and PHYSICS 322.

MATH 319 Techniques in Ordinary Differential Equations: Techniques for solving and approximating solutions to ordinary differential equations.

MATH 340 Elementary Matrix and Linear Algebra: An introduction to linear algebra. This course is a bridge between concrete and abstract math. You are strongly advised to take MATH 319 and MATH 340, or MATH 320 before PHYSICS 311 and PHYSICS 322.

MATH 320 Linear Algebra and Differential Equations: This course combines topics from MATH 319 and MATH 340. It is adequate for the rest of the undergraduate curriculum but is not recommended for students planning to continue to graduate school. There is an accelerated honors section that thoroughly covers all of the material in MATH 319 and MATH 340. It is more challenging but is a good way to fit in both topics if you are unable to take MATH 319/MATH 340 before you take PHYSICS 311 or PHYSICS 322.

MATH 321 Applied Mathematical Analysis: Techniques for solving problems in the physical sciences, engineering, and applied mathematics, using advanced calculus and analytic function theory. For students interested in more abstract math, taking MATH 521 would be equivalent. It is recommended that MATH 321 be taken before PHYSICS 322 but especially before you take either PHYSICS 448 /PHYSICS 531. Note that this course is a significant time commitment.

A typical math sequence is: MATH 221, MATH 222, MATH 234, MATH 319, MATH 340, MATH 321.

## ADVISING AND CAREERS

### ADVISING AND CAREERS

We encourage students to meet major advisors as early as possible. The undergraduate advisor, Evan Heintz (via Starfish), can assist students with curriculum and course scheduling, career planning, academic concerns, and overall performance and strategies.

To declare the astronomy-physics major, **first** meet with the Undergraduate Advisor, Evan Heintz (eheintz@wisc.edu), who will then put you in contact with the Faculty Advisors: Professor Ke Zhang (ke.zhang@wisc.edu (townsend@astro.wisc.edu)) or Professor Snezana Stanimirovic, (sstanimi@astro.wisc.edu).

### ADVISING FOR SOAR STUDENTS

Email eheintz@wisc.edu if you have any questions. You may also use Starfish to schedule an appointment with him.

The Department of Astronomy encourages our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks at the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs.

Please consult with an advisor when choosing your Mathematics courses. We do not recommend the honors sequence (MATH 375/MATH 376) unless you are considering majoring in Math as well.

## COMPUTER AND DATA SCIENCE

Computers are fundamental to astronomical research. The most useful languages are Python followed by C or C++. The computer sciences department offers introductory courses. The Division of Information Technology (DoIT) also offers short courses to introduce programming.

COMP SCI 220 Data Science Programming I is a good starting point since Python is a commonly used language in Astronomy research. Students may then wish to continue to COMP SCI 320 Data Science Programming II.

Students interested in data science and machine learning are also recommended to take PHYSICS 361 Machine Learning in Physics.

## CHEMISTRY

A college course in physical or organic chemistry is useful for astronomy students. Physical chemistry is particularly valuable for those interested in the interstellar medium, comets, and planets.

## STATISTICS

A background in statistics is valuable, particularly for students interested in observational astronomy. STAT/MATH 309 Introduction to Probability and Mathematical Statistics I/STAT/MATH 310 Introduction to Probability and Mathematical Statistics II are suggested.

## L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW–Madison students

- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

## WISCONSIN EXPERIENCE

### WISCONSIN EXPERIENCE

#### THE ASTRONOMY CLUB

The Astronomy Club is a student organization for people interested in astronomy and related fields.

#### What does the Astronomy Club do?

The Astronomy Club organizes events such as seminars, tours, trips, and socials for its members. In addition to social events, they organize various events including a research symposium, REU and internship informational sessions, trips to observatories and labs, and even can help you start out doing some of your own astronomy research.

#### Why should you join the Astronomy Club?

By joining the Astronomy Club, you'll be meeting people who are just as enthusiastic as you are about the universe! Astronomy Club is a great way to find a community of people who can help you navigate through your time here at UW–Madison, whether you major in Astronomy–Physics or not.

## To Join

Email the club officers at [astronomyclubofficers@gmail.com](mailto:astronomyclubofficers@gmail.com) (<https://app.explore.wisc.edu/e/er/?s=1427524768&lid=70016&elqTrackId=5980893898010EBB99E1757357D1328C&elg=8cf7a7de1f61470381e7cfb172b62959&elqaid=43449&elqat=1>) to notify them of your interest. Then, just pay your annual dues to join.

## RESOURCES AND SCHOLARSHIPS

### RESOURCES AND SCHOLARSHIPS

Through the Physics Department, Astronomy-Physics majors may be eligible to receive a number of awards for undergraduate students each year. Many of these awards have been made possible through very generous donations by alumni and friends of the Department.

A list of all the undergraduate awards can be found on the physics website (<https://www.physics.wisc.edu/department/awards/apply/>).

## APPLICATION PROCESS

### Eligibility

- Must be enrolled as a full-time student at UW-Madison in both semesters of the Academic Year
- Must be an Astronomy-Physics (or Physics) major.

Applicants will be judged by the Student Awards Committee. You may apply for a specific award, but the Committee will consider all eligible applications for relevant awards. The Committee will review your transcript.

The call for applications is often sent out near the end of the fall semester with the deadline for applications often falling slightly after the beginning of the spring semester. The awards decisions will be made by the Awards Committee soon thereafter. Awardees will be notified and asked to attend the Physics Awards Banquet to be held at the end of the spring semester.

### To Apply

Once the call for applications has been sent out, each applicant is to submit the following (in PDF) by the deadline via WISH (<https://wisc.academicworks.com/>):

- Resume/CV
- Statement of current research/teaching activity and future plans as a physics major (one page)
- Letter of recommendation from a faculty or staff member (one page)
- Online application system will automatically prompt the letter writer to submit a letter
- If indicated below, a statement of need (one page)

## FOR MORE INFORMATION

Please visit the Department of Physics Awards webpage (<https://www.physics.wisc.edu/awards/>) or contact the Department of Physics at [info@physics.wisc.edu](mailto:info@physics.wisc.edu).

## ASTRONOMY-PHYSICS, BS

Astronomy, the oldest of the sciences, originated in the human urge to understand the mysterious lights we see in the sky above us – the Sun, the Moon, the planets, and the stars. Over the centuries, new tools have become available to study these cosmic icons – telescopes that allow us to see further and fainter, detectors that are sensitive to electromagnetic signals at non-visible wavelengths, and satellites that can observe from outside the confines of the Earth's atmosphere. These tools have answered many questions, but raised even more. How did the Universe begin, and how did the stars and galaxies within it form? How will it end? Are there habitable planets around other stars – and has life emerged on these planets?

## CHOOSE TO BE AN ASTRONOMY-PHYSICS MAJOR

### WHY STUDY ASTRONOMY?

- Because it's fascinating: Astronomy speaks directly to our natural urge to better understand our place in the cosmos.
- Because it's challenging: Astronomy studies objects that are distant beyond simple conception.
- Because it's adaptable: Astronomy utilizes a broad set of transferable skills, from a foundation in logical and quantitative reasoning through to data analysis, programming, and visualization.

The UW-Madison Astronomy-Physics program builds on a foundation of classical and modern physics, to embark on a comprehensive study of the observable Universe at scales extending from planets and stars, through to galaxies and the cosmic web.

### A MAJOR IN ASTRONOMY-PHYSICS CAN...

- Prepare you for graduate studies for master's or doctoral degrees in experimental or theoretical Astronomy, Astrophysics or Physics.
- Prepare you for employment in industrial or governmental laboratories.
- Provide a broad background for further work in other sciences, such as materials sciences, aerospace, computer science, geophysics, meteorology, radiology, medicine, biophysics, engineering, and environmental studies.
- Provide a science-oriented liberal education. This training can be useful in some areas of business administration, public policy, law, or other fields where a basic knowledge of science is useful.
- Provide part of the preparation you need to teach Astronomy and Physics. To teach these subjects in high school, you will also take education courses to become certified. You will need a doctoral degree to become a college or university professor.

Students who intend to continue astronomy in a graduate program are strongly encouraged to get involved in research early. To learn about research opportunities in the department, please meet with faculty advisors. Please consider applying for Research Experiences for Undergraduates (REU's) and if interested in department research, visit our webpage (<https://www.astro.wisc.edu/undergraduate-program/current-students/>) and reach out to individual faculty. On our webpage you will find our Undergraduate Student Handbook as well as some of the current research projects.

## OTHER PROGRAMS PHYSICS

Students interested in the Physics major should contact the Physics Department (p. 1270).

## EDUCATION–ASTRONOMY

A student working toward the Bachelor of Science–Education degree may major or minor in Astronomy–Physics. Interested students should contact the School of Education (p. 1535).

## MEDICAL PHYSICS

A suggested curriculum for students interested in graduate study in medical physics is available on the medical physics webpage (<https://www.medphysics.wisc.edu/graduate-program/admissions/#requirements>).

## HOW TO GET IN

### HOW TO GET IN

Students who wish to declare the Astronomy–Physics may do so after arriving at UW–Madison (students cannot declare this major as part of their UW–Madison admissions process).

Students are encouraged to declare their major as early as their first year. For pre–major and major advising, students should contact the undergraduate advisor or faculty advisors.

Astronomy–Physics Majors should get started on one of the Introductory Physics sequences as early as possible.

Introductory Physics sequences are:

Code	Title	Credits
Sequence 1: PHYSICS 247, 248, and 249		
Sequence 2: PHYSICS 201, 202, and 205		
Sequence 3: PHYSICS 207, 208, and 241		

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

General Education	<ul style="list-style-type: none"> <li>• Breadth–Humanities/Literature/Arts: 6 credits</li> <li>• Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth–Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul>
-------------------	--

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

### BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.
Language	Complete the third unit of a language other than English.
LS Breadth	Complete: <ul style="list-style-type: none"> <li>• 12 credits of Humanities, which must include at least 6 credits of Literature; and</li> <li>• 12 credits of Social Science; and</li> <li>• 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.</li> </ul>
Liberal Arts and Science Coursework	Complete at least 108 credits.
Depth of Intermediate/Advanced Coursework	Complete at least 60 credits at the Intermediate or Advanced level.
Major	Declare and complete at least one major.
Total Credits	Complete at least 120 credits.
UW–Madison Experience	Complete both: <ul style="list-style-type: none"> <li>• 30 credits in residence, overall, and</li> <li>• 30 credits in residence after the 86th credit.</li> </ul>
Quality of Work	<ul style="list-style-type: none"> <li>• 2.000 in all coursework at UW–Madison</li> <li>• 2.000 in Intermediate/Advanced level coursework at UW–Madison</li> </ul>

## NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

The major requires a minimum of 34 credits in the field of specialization, with at least 6 of these credits in ASTRON and at least 28 credits in PHYSICS.

## COURSE REQUIREMENTS FOR THE MAJOR ARE:

Code	Title	Credits
<b>Astronomy</b> <sup>1</sup>		
<i>Complete at least two of the following:</i>		6
ASTRON 310	Stellar Astrophysics <sup>2</sup>	
ASTRON 320	The Interstellar Medium	
ASTRON 330	Galaxies <sup>2</sup>	
ASTRON 335	Cosmology <sup>2</sup>	
ASTRON 340	Solar System Astrophysics	
ASTRON 500	Techniques of Modern Observational Astrophysics <sup>2</sup>	
<b>Physics</b>		
<i>Complete one of the following sequences for Introductory Physics:</i> <sup>3</sup>		28
<i>Sequence 1:</i>		
PHYSICS 247 & PHYSICS 248 & PHYSICS 249	A Modern Introduction to Physics and A Modern Introduction to Physics	
<i>Sequence 2:</i>		
PHYSICS 201 & PHYSICS 202 & PHYSICS 205	General Physics and General Physics and Modern Physics for Engineers	
<i>Sequence 3:</i>		
PHYSICS 207 & PHYSICS 208 & PHYSICS 241	General Physics and General Physics and Introduction to Modern Physics	
<i>Mechanics, Electromagnetic Fields, Thermal Physics (complete all):</i>		
PHYSICS 311	Mechanics	
PHYSICS 322	Electromagnetic Fields	
PHYSICS 415	Thermal Physics	
<i>Atomic Quantum Physics (complete either):</i>		
PHYSICS 448 & PHYSICS 449	Atomic and Quantum Physics and Atomic and Quantum Physics	
<i>or</i>		
PHYSICS 531	Introduction to Quantum Mechanics	
<i>Complete one 300-level or higher laboratory course:</i>		
ASTRON 465	Observational Astronomy and Data Analysis	

PHYSICS 307 Intermediate Laboratory-Mechanics and Modern Physics

*Additional PHYSICS to reach minimum of 28 credits*

**Total Credits**

**34**

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all ASTRON, all PHYSICS, and all major courses
- 2.000 GPA on 15 upper-level major credits in residence<sup>4</sup>
- 15 credits in ASTRON and PHYSICS, taken on campus

## HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Astronomy-Physics undergraduate advisor(s). Please plan your Senior Honors Thesis research project a year in advance.

## HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA for all ASTRON and PHYSICS courses, and all courses accepted in the major, at the 300 level or higher
- Complete the following coursework:
  - Four 300-level or higher ASTRON courses, with a 3.500 GPA (not including ASTRON 681 and ASTRON 682)
  - A two-semester Senior Honors Thesis in ASTRON 681 and ASTRON 682, with a grade of AB or better (for a total of 6 credits).

## FOOTNOTES

<sup>1</sup> ASTRON 103 and ASTRON 104 are not required for majors.

<sup>2</sup> ASTRON 310 is a prerequisite for ASTRON 330, ASTRON 335, and ASTRON 500.

<sup>3</sup> E M A 201, E M A 202, and M E 240 count toward the 28 credits of PHYSICS requirement. E M A 201 & E M A 202, or E M A 201 & M E 240 count as a first semester, introductory course (e.g., PHYSICS 247, PHYSICS 201, PHYSICS 207).

<sup>4</sup> ASTRON 300-699 and PHYSICS 300-699 are upper-level in the major.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Learn how astronomical observations are made and data are analyzed.
2. Become familiar with theories and observations of planets, stars, interstellar gas, galaxies, and structure of the Universe (cosmology).
3. Learn how to read and critically evaluate scientific literature.
4. Learn the basics of oral and written scientific communication.
5. Be trained in principles and standards of professional and ethical conduct.
6. Develop the skills to carry out a small independent research project. Learn to define the scope of the project, conduct an effective literature search, perform computations, and analyze data.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

#### First Year

Fall	Credits Spring	Credits
MATH 221 (QR-B)	5 MATH 222	4
Biological Science Breadth	3 Biological Science Breadth	3
Humanities Breadth	3 Social Science Breadth	3
Foreign Language (if needed)	4 Foreign Language (if needed)	4
	Communication A	2
	<b>15</b>	<b>16</b>

#### Second Year

Fall	Credits Spring	Credits
PHYSICS 247, 201, or 207	5 PHYSICS 248, 202, or 208	5
MATH 234	4 Literature Breadth	3
ASTRON 200	3 Social Science Breadth	4
Foreign Language (if needed)	4 MATH 320 <sup>1</sup>	3
	<b>16</b>	<b>15</b>

#### Third Year

Fall	Credits Spring	Credits
PHYSICS 249, 205, or 241	4 PHYSICS 311	3
ASTRON 310	3 ASTRON 320 (or another ASTRON 300 level course)	3
MATH 321 <sup>2</sup>	3 MATH 322 <sup>2</sup>	3
Communication B	3 PHYSICS 322 Literature Breadth	3
	<b>13</b>	<b>15</b>

#### Fourth Year

Fall	Credits Spring	Credits
PHYSICS 448	3 Social Science Breadth	3
ASTRON 465	3 PHYSICS 449	3
Social Science Breadth	3 PHYSICS 415	3
Ethnic Studies	3 Humanities Breadth	3
Elective	3 Astronomy 300 Level OR Elective	3
	<b>15</b>	<b>15</b>

#### Total Credits 120

<sup>1</sup> Alternatively, students may wish to consider MATH 319 and MATH 340.

<sup>2</sup> Students are encouraged to consider MATH 321 and MATH 322 for additional preparation prior to coursework completed in the fourth year of this plan.

## ADVISING AND CAREERS

### ADVISING AND CAREERS

We encourage students to meet major advisors as early as possible. The undergraduate advisor, Evan Heintz (via Starfish), can assist students with curriculum and course scheduling, career planning, academic concerns, and overall performance and strategies.

To declare the astronomy–physics major, **first** meet with the Undergraduate Advisor, Evan Heintz (eheintz@wisc.edu), who will then put you in contact with the Faculty Advisors: Professor Ke Zhang (ke.zhang@wisc.edu (townsend@astro.wisc.edu)) or Professor Snezana Stanimirovic, (sstanimi@astro.wisc.edu).

### ADVISING FOR SOAR STUDENTS

Email eheintz@wisc.edu if you have any questions. You may also use Starfish to schedule an appointment with him.

The Department of Astronomy encourages our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks at the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

A good starting point to begin exploring possible careers is to enroll in PHYSICS 301 Physics Today. This course, offered in the spring semester, includes a weekly talk where a topic of local research

is discussed by one of the physics faculty, astronomy faculty, or SuccessWorks.

## RECOMMENDED ADDITIONAL COURSES

### ASTRONOMY

It is recommended that students take ASTRON 200 at some point during the introductory physics sequence. This course serves as a good introductory basis for all areas of astronomy and will serve you well in your upper-level coursework. ASTRON 103/ASTRON 104 are not recommended for students planning to major in Astronomy-Physics.

### MATHEMATICS

Specific math courses are listed as prerequisites for your Physics and Astronomy courses. We also recommend a few other math courses to best prepare you for your upper-level coursework.

MATH 221 Calculus and Analytic Geometry 1: A prerequisite for ASTRON 200, PHYSICS 247, PHYSICS 207, and PHYSICS 201.

MATH 222 Calculus and Analytic Geometry 2: A prerequisite for PHYSICS 247 but can be taken concurrently.

MATH 234 Calculus--Functions of Several Variables: A prerequisite for PHYSICS 248 but can be taken concurrently. If you are not taking the PHYSICS 247/PHYSICS 248/PHYSICS 249 intro sequence, you will still need this course for PHYSICS 311 and PHYSICS 322.

MATH 319 Techniques in Ordinary Differential Equations: Techniques for solving and approximating solutions to ordinary differential equations.

MATH 340 Elementary Matrix and Linear Algebra: An introduction to linear algebra. This course is a bridge between concrete and abstract math. You are strongly advised to take MATH 319 and MATH 340, or MATH 320 before PHYSICS 311 and PHYSICS 322.

MATH 320 Linear Algebra and Differential Equations: This course combines topics from MATH 319 and MATH 340. It is adequate for the rest of the undergraduate curriculum but is not recommended for students planning to continue to graduate school. There is an accelerated honors section that thoroughly covers all of the material in MATH 319 and MATH 340. It is more challenging but is a good way to fit in both topics if you are unable to take MATH 319/MATH 340 before you take PHYSICS 311 or PHYSICS 322.

MATH 321 Applied Mathematical Analysis: Techniques for solving problems in the physical sciences, engineering, and applied mathematics, using advanced calculus and analytic function theory. For students interested in more abstract math, taking MATH 521 would be equivalent. It is recommended that MATH 321 be taken before PHYSICS 322 but especially before you take either PHYSICS 448 /PHYSICS 531. Note that this course is a significant time commitment.

A typical math sequence is: MATH 221, MATH 222, MATH 234, MATH 319, MATH 340, MATH 321.

Please consult with an advisor when choosing your Mathematics courses. We do not recommend the honors sequence (MATH 375/MATH 376) unless you are considering majoring in Math as well.

### COMPUTER AND DATA SCIENCE

Computers are fundamental to astronomical research. The most useful languages are Python followed by C or C++. The computer sciences

department offers introductory courses. The Division of Information Technology (DoIT) also offers short courses to introduce programming.

COMP SCI 220 Data Science Programming I is a good starting point since Python is a commonly used language in Astronomy research. Students may then wish to continue to COMP SCI 320 Data Science Programming II.

Students interested in data science and machine learning are also recommended to take PHYSICS 361 Machine Learning in Physics.

### CHEMISTRY

A college course in physical or organic chemistry is useful for astronomy students. Physical chemistry is particularly valuable for those interested in the interstellar medium, comets, and planets.

### STATISTICS

A background in statistics is valuable, particularly for students interested in observational astronomy. STAT/MATH 309 Introduction to Probability and Mathematical Statistics I/STAT/MATH 310 Introduction to Probability and Mathematical Statistics II are suggested.

### L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

## WISCONSIN EXPERIENCE

## WISCONSIN EXPERIENCE

## THE ASTRONOMY CLUB

The Astronomy Club is a student organization for people interested in astronomy and related fields.

## What does the Astronomy Club do?

The Astronomy Club organizes events such as seminars, tours, trips, and socials for its members. In addition to social events, they organize various events including a research symposium, REU and internship informational sessions, trips to observatories and labs, and even can help you start out doing some of your own astronomy research.

## Why should you join the Astronomy Club?

By joining the Astronomy Club, you'll be meeting people who are just as enthusiastic as you are about the universe! Astronomy Club is a great way to find a community of people who can help you navigate through your time here at UW-Madison, whether you major in Astronomy-Physics or not.

## To Join

Email the club officers at [astronomyclubofficers@gmail.com](mailto:astronomyclubofficers@gmail.com) (<https://app.explore.wisc.edu/e/er/?>

[s=1427524768&lid=70016&elqTrackId=5980893898010EBB99E1757357D1328C&el](https://www.physics.wisc.edu/department/awards/apply/) notify them of your interest. Then, just pay your annual dues to join.

## RESOURCES AND SCHOLARSHIPS

## RESOURCES AND SCHOLARSHIPS

Through the Physics Department, Astronomy-Physics majors may be eligible to receive a number of awards for undergraduate students each year. Many of these awards have been made possible through very generous donations by alumni and friends of the Department.

A list of all the undergraduate awards can be found on the physics website (<https://www.physics.wisc.edu/department/awards/apply/>).

## APPLICATION PROCESS

## Eligibility

- Must be enrolled as a full-time student at UW-Madison in both semesters of the Academic Year
- Must be an Astronomy-Physics (or Physics) major.

Applicants will be judged by the Student Awards Committee. You may apply for a specific award, but the Committee will consider all eligible applications for relevant awards. The Committee will review your transcript.

The call for applications is often sent out near the end of the fall semester with the deadline for applications often falling slightly after the beginning of the spring semester. The awards decisions will be made by the Awards Committee soon thereafter. Awardees will be notified and asked to attend the Physics Awards Banquet to be held at the end of the spring semester.

## To Apply

Once the call for applications has been sent out, each applicant is to submit the following (in PDF) by the deadline via WiSH (<https://wisc.academicworks.com/>):

- Resume/CV
- Statement of current research/teaching activity and future plans as a physics major (one page)
- Letter of recommendation from a faculty or staff member (one page)
- Online application system will automatically prompt the letter writer to submit a letter
- If indicated below, a statement of need (one page)

## FOR MORE INFORMATION

Please visit the Department of Physics Awards webpage (<https://www.physics.wisc.edu/awards/>) or contact the Department of Physics at [info@physics.wisc.edu](mailto:info@physics.wisc.edu).

## ATMOSPHERIC AND OCEANIC SCIENCES

The study of atmospheric and oceanic sciences includes all aspects of the atmosphere and physical oceanography, their mutual interaction, and

their interaction with space and the rest of the earth system. Although a primary goal is to understand the atmosphere and ocean for the purpose of predicting the weather, atmospheric and oceanic sciences embraces much more: motions at large, medium, and small scales; past, present, and future climates; air chemistry and quality; clouds and precipitation; and solar and terrestrial radiation. In many areas, new remote-sensing technology including satellites is used to provide circulation patterns at both global and local scales.

Many undergraduates take an elementary atmospheric and oceanic sciences course to meet part of their natural or physical science breadth requirements. Other students, who have had sufficient mathematics and physics preparation, take higher-level atmospheric and oceanic sciences courses to complement their major work in other fields of natural science. An atmospheric and oceanic sciences major receives a thorough introduction to the basic concepts and tools in the core courses, which cover the physics and dynamics of the atmosphere and ocean. An array of elective courses are offered in the senior year, with tracks in the areas of weather systems, earth/environmental science, and general and applied atmospheric and oceanic sciences. Elective groups are tailored individually. Some students will want preparation for careers in areas such as operational forecasting, environmental consulting, and broadcasting. Others will seek preparation for graduate work leading to a broader range of careers.

## DEGREES/MAJORS/CERTIFICATES

### DEGREES/MAJORS/ CERTIFICATES

- Atmospheric and Oceanic Sciences, BA (p. 521)
- Atmospheric and Oceanic Sciences, BS (p. 526)
- Environmental Sciences, BA (L&S) (p. 531)
- Environmental Sciences, BS (L&S) (p. 540)

## ATMOSPHERIC AND OCEANIC SCIENCES, BA

The study of atmospheric and oceanic sciences includes all aspects of the atmosphere and physical oceanography, their mutual interaction, and their interaction with space and the rest of the earth system. Although a primary goal is to understand the atmosphere and ocean for the purpose of predicting the weather, atmospheric and oceanic sciences embraces much more: motions at large, medium, and small scales; past, present, and future climates; air chemistry and quality; clouds and precipitation; and solar and terrestrial radiation. In many areas, new remote-sensing technology including satellites is used to provide circulation patterns at both global and local scales.

Many undergraduates take an elementary atmospheric and oceanic sciences course to meet part of their natural or physical science breadth requirements. Other students, who have had sufficient mathematics and physics preparation, take higher-level atmospheric and oceanic sciences courses to complement their major work in other fields of natural science. An atmospheric and oceanic sciences major receives a thorough introduction to the basic concepts and tools in the core courses, which cover the physics and dynamics of the atmosphere and ocean. An array of elective courses are offered in the senior year, with tracks in the areas of weather systems, earth/environmental science, and general and applied atmospheric and oceanic sciences. Elective groups are tailored individually. Some students will want preparation for careers in areas such as operational forecasting, environmental consulting, and broadcasting. Others will seek preparation for graduate work leading to a broader range of careers.

## HOW TO GET IN

### HOW TO GET IN

There are no admissions requirements for the major. Students wishing to declare the Atmospheric & Oceanic Sciences major should meet with the Undergraduate Academic Advising Manager listed in the Contact Box on the right sidebar of this page.

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

- General Education
- Breadth—Humanities/Literature/Arts: 6 credits
  - Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
  - Breadth—Social Studies: 3 credits
  - Communication Part A Part B \*
  - Ethnic Studies \*
  - Quantitative Reasoning Part A Part B \*

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

### BACHELOR OF ARTS DEGREE REQUIREMENTS

**Mathematics** Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.

**Language**

- Complete the fourth unit of a language other than English; OR
- Complete the third unit of a language and the second unit of an additional language other than English.

**LS Breadth**

- 12 credits of Humanities, which must include 6 credits of literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.

**Liberal Arts and Science Coursework** Complete at least 108 credits.

**Depth of Intermediate/Advanced work** Complete at least 60 credits at the intermediate or advanced level.

**Major** Declare and complete at least one major.

**Total Credits** Complete at least 120 credits.

**UW-Madison Experience**

- 30 credits in residence, overall; and
- 30 credits in residence after the 86th credit.

- Quality of Work
- 2.000 in all coursework at UW-Madison
  - 2.000 in Intermediate/Advanced level coursework at UW-Madison

## NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all ATM OCN and major courses
- 2.000 GPA on 15 upper-level credits in the major, taken in Residence. <sup>3</sup>
- 15 credits in ATM OCN, taken on campus

## HONORS IN THE MAJOR

Students may declare Honors in the Atmospheric and Oceanic Sciences Major in consultation with the Atmospheric and Oceanic Sciences undergraduate advisor.

## REQUIREMENTS

To earn Honors in the Major in Atmospheric and Oceanic Sciences, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.400 GPA for all ATM OCN courses, and all courses accepted in the major
- Complete the following additional coursework:
  - ATM OCN 610 or ATM OCN 611 and
  - ATM OCN 681 and ATM OCN 682 for a total of 6 credits

## FOOTNOTES

<sup>1</sup> Note that core sequence begins in the fall semester only.

<sup>2</sup> A maximum 2 credits of Electives may come from Internship or Directed Study courses.

<sup>3</sup> ATM OCN 300 through ATM OCN 699 are upper-level in the major.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Recognize and describe the fundamental principles and processes associated with the dynamics and thermodynamics of geophysical fluid flows, the basic physics of clouds, aerosols, and precipitation.
2. Recognize and describe the fundamental principles and processes associated with radiation and atmospheric and oceanic radiative transfer.
3. Demonstrate critical thinking skills by identifying a problem, identifying the required information to solve that problem; and formulating and interpreting solutions to that problem using appropriate analytical and/or computational techniques.
4. Apply diagnostic tools to analyses and numerical model output to diagnose, describe, and interpret the fundamental dynamical and thermodynamical processes at work in synoptic-scale, mesoscale, and large-scale weather systems and climate circulations.
5. Apply fundamental radiative transfer theory to interpret remotely-sensed observations of atmospheric and oceanic phenomena.
6. Design and conduct experiments and/or analyze data to test hypotheses in an area of atmospheric or climate sciences.
7. Demonstrate effective scientific communication skills through development and delivery of oral presentations (including poster presentations) and written reports and case studies.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that

## ADVISING AND CAREERS

### ADVISING AND CAREERS

#### GENERAL ADVISING

Any student interested in the Atmospheric and Oceanic Sciences or Environmental Sciences major should meet with the Undergraduate Academic Advising Manager listed in the Contact Box on the right sidebar of this page to discuss steps to complete the necessary prerequisite coursework for the major.

## CAREER ADVISING

The Department of Atmospheric and Oceanic Sciences encourages majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks at the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important that students are career ready at the time of graduation, and we are committed to your success.

## L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

 Zankowski, Hannah

# ATMOSPHERIC AND OCEANIC SCIENCES, BS

The study of atmospheric and oceanic sciences includes all aspects of the atmosphere and physical oceanography, their mutual interaction, and their interaction with space and the rest of the earth system. Although a primary goal is to understand the atmosphere and ocean for the purpose of predicting the weather, atmospheric and oceanic sciences embraces much more: motions at large, medium, and small scales; past, present, and future climates; air chemistry and quality; clouds and precipitation; and solar and terrestrial radiation. In many areas, new remote-sensing technology including satellites is used to provide circulation patterns at both global and local scales.

Many undergraduates take an elementary atmospheric and oceanic sciences course to meet part of their natural or physical science breadth requirements. Other students, who have had sufficient mathematics and physics preparation, take higher-level atmospheric and oceanic sciences courses to complement their major work in other fields of natural science. An atmospheric and oceanic sciences major receives a thorough introduction to the basic concepts and tools in the core courses, which cover the physics and dynamics of the atmosphere and ocean. An array of elective courses are offered in the senior year, with tracks in the areas of weather systems, earth/environmental science, and general and applied atmospheric and oceanic sciences. Elective groups are tailored individually. Some students will want preparation for careers in areas such as operational forecasting, environmental consulting, and broadcasting. Others will seek preparation for graduate work leading to a broader range of careers.

## HOW TO GET IN

### HOW TO GET IN

There are no admissions requirements for the major. Students wishing to declare the Atmospheric & Oceanic Sciences major should meet with the Undergraduate Academic Advising Manager listed in the Contact Box on the right sidebar of this page.

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for

living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

General Education	<ul style="list-style-type: none"> <li>• Breadth–Humanities/Literature/Arts: 6 credits</li> <li>• Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth–Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul>
-------------------	--

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

### BACHELOR OF SCIENCE DEGREE REQUIREMENTS

**Mathematics** Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.

**Language** Complete the third unit of a language other than English.

**LS Breadth** Complete:

- 12 credits of Humanities, which must include at least 6 credits of Literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.

**Liberal Arts and Science Coursework** Complete at least 108 credits.

**Depth of Intermediate/Advanced Coursework** Complete at least 60 credits at the Intermediate or Advanced level.

**Major** Declare and complete at least one major.

**Total Credits** Complete at least 120 credits.

**UW-Madison Experience** Complete both:

- 30 credits in residence, overall, and
- 30 credits in residence after the 86th credit.

**Quality of Work**

- 2.000 in all coursework at UW–Madison
- 2.000 in Intermediate/Advanced level coursework at UW–Madison

## NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

We partner with SuccessWorks at the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important that students are career ready at the time of graduation, and we are committed to your success.

## L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

Rowe, Angela  
Wagner, Till  
Zanowski, Hannah

## ENVIRONMENTAL SCIENCES, BA (L&S)

The Environmental Sciences major satisfies the growing demand among entry-level students for a rigorous, science-based program that promotes critical thinking and emphasizes environmental problem solving in service to society. The program is designed to prepare graduates who will be highly competitive for entry-level positions in nonprofit and private sectors, and for master's programs and doctoral research programs in environmental fields. Possible career paths include environmental monitoring, consulting, education, research, and planning, as well as natural resource management, ecology restoration, remediation, water and air quality assessment, sustainability practices, and more. Undergraduates in Environmental Sciences prepare for a variety of career and graduate school opportunities that require a strong background in the natural sciences. Foundational course work in the major includes calculus, biology, chemistry, and physics. Core and elective course work is fulfilled through diverse offerings from both the College of Agricultural and Life Sciences and the College of Letters & Science.

The Environmental Sciences major can be earned in either the College of Agricultural and Life Sciences (CALS) or the College of Letters & Science (L&S) under the bachelor of science (BS) or bachelor of arts (BA) degree program. An undergraduate BS degree is offered through both colleges. A BA option is offered through L&S only. Students are encouraged to review the degree requirements for both L&S and CALS and choose the college from which they would prefer to earn their degree; students may choose only one degree "home."

- In CALS, the major is housed in the Department of Soil and Environmental Sciences.
- In L&S, the major is housed in the Department of Atmospheric and Oceanic Sciences.

The major can be taken as a stand-alone or as a double major with a variety of other majors on campus, including Life Sciences Communication, Biology, Community & Environmental Sociology, Soil Science, foreign language/culture, and a number of other disciplines.

## HOW TO GET IN

## HOW TO GET IN

There are no admissions requirements for the major. Students wishing to declare the Environmental Sciences major in L&S should meet with the Undergraduate Academic Advising Manager listed in the Contact Box on the right sidebar of this page.

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

- |                   |  |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> <li>• Breadth–Humanities/Literature/Arts: 6 credits</li> <li>• Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth–Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul> |
|-------------------|--|

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

### COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

#### BACHELOR OF ARTS DEGREE REQUIREMENTS

**Mathematics** Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.

- |          |  |
|----------|--|
| Language | <ul style="list-style-type: none"> <li>• Complete the fourth unit of a language other than English; OR</li> <li>• Complete the third unit of a language and the second unit of an additional language other than English.</li> </ul> |
|----------|--|

- |            |  |
|------------|--|
| LS Breadth | <ul style="list-style-type: none"> <li>• 12 credits of Humanities, which must include 6 credits of literature; and</li> <li>• 12 credits of Social Science; and</li> <li>• 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.</li> </ul> |
|------------|--|

Liberal Arts and Science Coursework	Complete at least 108 credits.
Depth of Intermediate/Advanced work	Complete at least 60 credits at the intermediate or advanced level.
Major	Declare and complete at least one major.
Total Credits	Complete at least 120 credits.
UW-Madison Experience	<ul style="list-style-type: none"> <li>• 30 credits in residence, overall; and</li> <li>• 30 credits in residence after the 86th credit.</li> </ul>
Quality of Work	<ul style="list-style-type: none"> <li>• 2,000 in all coursework at UW–Madison</li> <li>• 2,000 in Intermediate/Advanced level coursework at UW–Madison</li> </ul>

### NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

### REQUIREMENTS FOR THE MAJOR

Students majoring in Environmental Sciences must complete a minimum of 58 credits (detailed below). Courses may not double count within the major (unless specifically noted otherwise), but courses counted toward the major requirements may also be used to satisfy a university requirement and/or a college requirement.

#### MATHEMATICS AND STATISTICS

Code	Title	Credits
Complete one of the following:		4-10
MATH 221	Calculus and Analytic Geometry 1 (Recommended)	
MATH 171 & MATH 217	Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II	
MATH 211	Survey of Calculus	
Complete one of the following:		3-4
STAT 240	Data Science Modeling I	
STAT 324	Introductory Applied Statistics for Engineers	
STAT 371	Introductory Applied Statistics for the Life Sciences	
<b>Total Credits</b>		<b>7-14</b>

**CHEMISTRY**

Code	Title	Credits
General Chemistry (complete one of the following):		5-10
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	
CHEM 109	Advanced General Chemistry	
CHEM 115 & CHEM 116	Chemical Principles I and Chemical Principles II	
Organic Chemistry (complete one of the following):		3
CHEM 341	Elementary Organic Chemistry	
CHEM 343	Organic Chemistry I	
<b>Total Credits</b>		<b>8-13</b>

**BIOLOGY**

Code	Title	Credits
Complete one of the following:		10
BIOLOGY/ BOTANY/ ZOOLOGY 151 & BIOLOGY/ BOTANY/ ZOOLOGY 152	Introductory Biology and Introductory Biology	
BOTANY/ BIOLOGY 130 & ZOOLOGY/ BIOLOGY 101 & ZOOLOGY/ BIOLOGY 102	General Botany and Animal Biology and Animal Biology Laboratory	
BIOCORE 381 & BIOCORE 382 & BIOCORE 383 & BIOCORE 384	Evolution, Ecology, and Genetics and Evolution, Ecology, and Genetics Laboratory and Cellular Biology and Cellular Biology Laboratory	
<b>Total Credits</b>		<b>10</b>

**PHYSICS**

Code	Title	Credits
Complete one of the following:		4-5
PHYSICS 207	General Physics (recommended)	
PHYSICS 201	General Physics	
PHYSICS 103	General Physics	
<b>Total Credits</b>		<b>4-5</b>

**MAJOR FOUNDATION**

Code	Title	Credits
Complete one of the following:		3
GEOSCI/ ENVIR ST 106	Environmental Geology	
SOIL SCI/ ENVIR ST/ GEOG 230	Soil: Ecosystem and Resource	
SOIL SCI 250	Introduction to Environmental Science	
<b>Total Credits</b>		<b>3</b>

**MAJOR CORE**

Complete at least one course and 3 credits from each of these following areas:

**Ecology**

Code	Title	Credits
AGRONOMY 300	Cropping Systems	3
AGRONOMY/ BOTANY/ SOIL SCI 370	Grassland Ecology	3
AGRONOMY/ DY SCI 471	Food Production Systems and Sustainability	3
BOTANY/ F&W ECOL 455	The Vegetation of Wisconsin	4
BOTANY/ F&W ECOL/ ZOOLOGY 460	General Ecology (Recommended)	4
ENTOM 450	Basic and Applied Insect Ecology	3
ENTOM 451	Basic and Applied Insect Ecology Laboratory	1
ENTOM/BOTANY/ ZOOLOGY 473	Plant-Insect Interactions	3
ENVIR ST/ ZOOLOGY 510	Ecology of Fishes	3
ENVIR ST/ ZOOLOGY 511	Ecology of Fishes Lab	2
F&W ECOL/ ENVIR ST/ ZOOLOGY 360	Extinction of Species	3
F&W ECOL 410	Principles of Silviculture	3
F&W ECOL/AN SCI/ ZOOLOGY 520	Ornithology	3
F&W ECOL/AN SCI/ ZOOLOGY 521	Birds of Southern Wisconsin	3
F&W ECOL 550	Forest Ecology	3
F&W ECOL 551	Forest Ecology Lab	1
F&W ECOL/ LAND ARC/ ZOOLOGY 565	Principles of Landscape Ecology	2
HORT 334	Greenhouse Cultivation	2
HORT 335	Greenhouse Cultivation Lab	1
LAND ARC/ ENVIR ST 361	Wetlands Ecology	3
LAND ARC/ ENVIR ST 581	Prescribed Fire: Ecology and Implementation	3
SOIL SCI/ PL PATH 323	Soil Biology	3
ZOOLOGY 304	Marine Biology	2
ZOOLOGY/ ENVIR ST 315	Limnology-Conservation of Aquatic Resources	2
ZOOLOGY 316	Laboratory for Limnology- Conservation of Aquatic Resources	2-3

**Physical Environment**

Code	Title	Credits
ATM OCN 310	Dynamics of the Atmosphere and Ocean I	3

ATM OCN/ ENVIR ST/ GEOG 322	Polar Regions and Their Importance in the Global Environment	3
ATM OCN/ GEOG 323	Science of Climate Change	3
ATM OCN/ ENVIR ST/GEOG/ GEOSCI 335	Climatic Environments of the Past	3
ATM OCN/ ENVIR ST 355	Introduction to Air Quality	3
ATM OCN 425	Global Climate Processes	3
ATM OCN/ ENVIR ST 520	Bioclimatology	3
ATM OCN/ ENVIR ST 535	Atmospheric Dispersion and Air Pollution	3
BSE 365	Measurements and Instrumentation for Biological Systems	3
BSE/ENVIR ST 367	Renewable Energy Systems	3
BSE 460	Biorefining: Energy and Products from Renewable Resources	3
CIV ENGR 320	Environmental Engineering	3
CIV ENGR 423	Air Pollution Effects, Measurement and Control	3
ENVIR ST/ POP HLTH 502	Air Pollution and Human Health	3

**MAJOR ELECTIVES**

Students may consult with their environmental sciences advisor regarding pathways to complete the major electives requirement. Students must complete 12 credits of electives either by:

1. distributing 12 credits across at least three categories;
2. focusing 12 credits in a single category.

**Distributed Electives**

Students choosing the Distributed Electives path must complete a total of **12 credits** of Environmental Sciences Electives from the categories below, including **at least one course** from **each** category(Ecology, Physical Environment, Geospatial Sciences).

**Ecology**

Code	Title	Credits
AGRONOMY 300	Cropping Systems	3
AGRONOMY/ BOTANY/ SOIL SCI 370	Grassland Ecology	3
AGRONOMY/ DY SCI 471	Food Production Systems and Sustainability	3
BOTANY/ F&W ECOL 455	The Vegetation of Wisconsin	4

HISTORY/ENVIR ST/ GEOG 469	The Making of the American Landscape	4
LSC 340	Misinformation, Fake News, and Correcting False Beliefs about Science	3
URB R PL/ ECON/ENVIR ST/ POLI SCI 449	Government and Natural Resources	3-4

<sup>1</sup> Students may consult their environmental sciences advisor regarding alternate ways to complete the major electives requirement.

## CAPSTONE <sup>2</sup>

Code	Title	Credits
AGRONOMY 500	Senior Capstone Experience	2
BOTANY/ENVIR ST/ F&W ECOL/ ZOOLOGY 651	Conservation Biology	3
CIV ENGR 515	Hydroclimatology for Water Resources Management	3
ENVIR ST/ SOIL SCI 575	Assessment of Environmental Impact	3
F&W ECOL/ A A E 652	Decision Methods for Natural Resource Managers	3
LAND ARC 668	Restoration Ecology	3

PL PATH 315	Plant Microbiomes	4
SOIL SCI 499	Soil Management	3

<sup>2</sup> Students may speak with their Environmental Sciences advisor about alternatives (e.g., courses, directed study, senior thesis) to complete the capstone. To be approved, the alternative must be taken for a minimum of 3 credits, clearly focused on environmental science, and approved by the Environmental Sciences Administrative Committee. Students must consult with their environmental sciences advisor and fill out all necessary paperwork before registering.

## RESIDENCE & QUALITY OF WORK

- 2.000 GPA in all major courses
- 2.000 GPA and 15 credits of upper level major courses taken in residence <sup>3</sup>
- 15 credits in the major taken on the UW–Madison campus

<sup>3</sup> Major courses numbered 300 through 699 are considered upper level.

## HONORS IN THE MAJOR

Honors in the Major is not available in Environmental Sciences.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Demonstrate understanding of Environmental Science fundamentals in the context of biology, chemistry, mathematics, statistics, and physics.
2. Demonstrate a quantitative and qualitative understanding of the ecological relationships (material and energetic) between organisms, both as individuals and in groups, and their biotic and abiotic environment. This may include processes influencing the distribution and abundance of organisms.

- Demonstrate a quantitative and qualitative understanding of the physical, largely abiotic, conditions (e.g. climate, water, soil, air, noise, greenspace, etc.) of the environment. The physical environment can include natural or managed settings such as urban environments.
- Demonstrate a quantitative and qualitative understanding of geospatial processes and information as it relates to the environment including how to collect, interpret, and analyze geospatial information regarding the features of the Earth's surface. These technologies may include geographic information systems (GIS), the global positioning system (GPS), digital maps, and satellite based remote sensing.
- Demonstrate a basic understanding of relationships that focus on the organization and implementation of laws, regulations, and other policy mechanisms concerning environmental issues and sustainability and their effect on society. This includes how human behaviors influences, and are also influenced by, the natural environment.
- Apply skills in critical thinking, problem identification and resolution of a complex environmental issues that require interdisciplinary solutions and team-based work.
- Articulate the role of environmental science in one or more focused areas of a specific environmental discipline (e.g. geology, soils, atmosphere, water, plants, animals).
- Demonstrate expertise in organizing and presenting (written and oral) scientific information to both lay and professional audiences.

## FOUR-YEAR PLAN

### SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it—along with their DARS report, the Degree Planner, and Course Search & Enroll tools—to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own four-year plan several times during college.

<b>First Year</b>

## ADVISING AND CAREERS

### ADVISING AND CAREERS

#### L&S ADVISING

Any student interested in the L&S Environmental Sciences major should meet with the Undergraduate Academic Advising Manager listed in the Contact Box on the right sidebar of this page to discuss steps to complete the necessary prerequisite coursework for the major.

#### CAREERS

A major in Environmental Sciences serves as excellent preparation for careers of great diversity, including environmental modeling, agricultural scientist, botanist, ecologist, park ranger, agricultural technician, air and water quality manager, environmental analyst, air pollution analyst, environmental consultant, environmental educator, GIS analyst, project manager, hazardous waste manager, hydrologist, environmental lawyer, soil conservation technician, and natural resource specialist. For more info about careers, please visit our website (<http://envirosci.wisc.edu/careers-internships/>).

#### L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or

graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

## PEOPLE

### PEOPLE PROGRAM COMMITTEE

Nick Balster, Professor, Department of Soil and Environmental Sciences (Co-Chair)

Ken Ferrier, Associate Professor, Department of Geoscience

Zac Freedman, Assistant Professor, Department of Soil and Environmental Sciences

Hazel M. Holden, Professor, Department of Biochemistry

Erin Silva, Associate Professor, Department of Plant Pathology

Daniel J. Vimont, Professor, Department of Atmospheric and Oceanic Sciences (Co-Chair)

### STAFF ADVISORS

Zach Wyman, Academic Advising Manager (CALs)

Sabrina Manero, Academic Advising Manager (L&S)

## ENVIRONMENTAL SCIENCES, BS (L&S)

The Environmental Sciences major satisfies the growing demand among entry-level students for a rigorous, science-based program that promotes critical thinking and emphasizes environmental problem solving in service to society. The program is designed to prepare graduates who will be highly competitive for entry-level positions in nonprofit and private sectors, and for master's programs and doctoral research programs in environmental fields. Possible career paths include environmental monitoring, consulting, education, research, and planning, as well as natural resource management, ecology restoration, remediation, water and air quality assessment, sustainability practices, and more. Undergraduates in Environmental Sciences prepare for a variety of career and graduate school opportunities that require a strong background in the natural sciences. Foundational course work in the major includes calculus, biology, chemistry, and physics. Core and elective course work is fulfilled through

diverse offerings from both the College of Agricultural and Life Sciences and the College of Letters & Science.

The Environmental Sciences major can be earned in either the College of Agricultural and Life Sciences (CALs) or the College of Letters & Science (L&S) under the bachelor of science (BS) or bachelor of arts (BA) degree program. An undergraduate BS degree is offered through both colleges. A BA option is offered through L&S only. Students are encouraged to review the degree requirements for both L&S and CALs and choose the college from which they would prefer to earn their degree; students may choose only one degree "home."

- In CALs, the major is housed in the Department of Soil and Environmental Sciences.
- In L&S, the major is housed in the Department of Atmospheric and Oceanic Sciences.

The major can be taken as a stand-alone or as a double major with a variety of other majors on campus, including Life Sciences Communication, Biology, Community & Environmental Sociology, Soil Science, foreign language/culture, and a number of other disciplines.

## HOW TO GET IN

### HOW TO GET IN

There are no admissions requirements for the major. Students wishing to declare the Environmental Sciences major in L&S should meet with the Undergraduate Academic Advising Manager listed in the Contact Box on the right sidebar of this page.

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

- General Education
- Breadth—Humanities/Literature/Arts: 6 credits
  - Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
  - Breadth—Social Studies: 3 credits
  - Communication Part A Part B \*
  - Ethnic Studies \*
  - Quantitative Reasoning Part A Part B \*

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

### BACHELOR OF SCIENCE DEGREE REQUIREMENTS

**Mathematics** Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.

**Language** Complete the third unit of a language other than English.

**LS Breadth** Complete:

- 12 credits of Humanities, which must include at least 6 credits of Literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.

**Liberal Arts and Science Coursework** Complete at least 108 credits.

**Depth of Intermediate/Advanced Coursework** Complete at least 60 credits at the Intermediate or Advanced level.

**Major** Declare and complete at least one major.

**Total Credits** Complete at least 120 credits.

**UW-Madison Experience** Complete both:

- 30 credits in residence, overall, and
- 30 credits in residence after the 86th credit.

**Quality of Work**

- 2.000 in all coursework at UW-Madison
- 2.000 in Intermediate/Advanced level coursework at UW-Madison

## NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

Students majoring in Environmental Sciences must complete a minimum of 58 credits (detailed below). Courses may not double count within the major (unless specifically noted otherwise), but courses counted toward the major requirements may also be used to satisfy a university requirement and/or a college requirement.

### MATHEMATICS AND STATISTICS

Code	Title	Credits
Complete one of the following:		4-10
MATH 221	Calculus and Analytic Geometry I (Recommended)	
MATH 171 & MATH 217	Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II	
MATH 211	Survey of Calculus	
Complete one of the following:		3-4
STAT 240	Data Science Modeling I	
STAT 324	Introductory Applied Statistics for Engineers	
STAT 371	Introductory Applied Statistics for the Life Sciences	
<b>Total Credits</b>		<b>7-14</b>

### CHEMISTRY

Code	Title	Credits
General Chemistry (complete one of the following):		5-10
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	
CHEM 109	Advanced General Chemistry	
CHEM 115 & CHEM 116	Chemical Principles I and Chemical Principles II	
Organic Chemistry (complete one of the following):		3
CHEM 341	Elementary Organic Chemistry	
CHEM 343	Organic Chemistry I	
<b>Total Credits</b>		<b>8-13</b>

### BIOLOGY

Code	Title	Credits
Complete one of the following:		10
BIOLOGY/ BOTANY/ ZOOLOGY 151 & BIOLOGY/ BOTANY/ ZOOLOGY 152	Introductory Biology and Introductory Biology	

BOTANY/ BIOLOGY 130 & ZOOLOGY/ BIOLOGY 101 & ZOOLOGY/ BIOLOGY 102	General Botany and Animal Biology and Animal Biology Laboratory	
BIOCORE 381 & BIOCORE 382 & BIOCORE 383 & BIOCORE 384	Evolution, Ecology, and Genetics and Evolution, Ecology, and Genetics Laboratory and Cellular Biology and Cellular Biology Laboratory	
<b>Total Credits</b>		<b>10</b>

## PHYSICS

Code	Title	Credits
Complete one of the following:		
PHYSICS 207	General Physics (recommended)	4-5
PHYSICS 201	General Physics	
PHYSICS 103	General Physics	
<b>Total Credits</b>		<b>4-5</b>

## MAJOR FOUNDATION

Code	Title	Credits
Complete one of the following:		
GEOSCI/ ENVIR ST 106	Environmental Geology	3
SOIL SCI/ ENVIR ST/ GEOG 230	Soil: Ecosystem and Resource	
SOIL SCI 250	Introduction to Environmental Science	
<b>Total Credits</b>		<b>3</b>

## MAJOR CORE

Complete at least one course and 3 credits from each of these following areas:

### Ecology

Code	Title	Credits
AGRONOMY 300	Cropping Systems	3
AGRONOMY/ BOTANY/ SOIL SCI 370	Grassland Ecology	3
AGRONOMY/ DY SCI 471	Food Production Systems and Sustainability	3
BOTANY/ F&W ECOL 455	The Vegetation of Wisconsin	4
BOTANY/ F&W ECOL/ ZOOLOGY 460	General Ecology (Recommended)	4
ENTOM 450	Basic and Applied Insect Ecology	3
ENTOM 451	Basic and Applied Insect Ecology Laboratory	1
ENTOM/BOTANY/ ZOOLOGY 473	Plant-Insect Interactions	3
ENVIR ST/ ZOOLOGY 510	Ecology of Fishes	3

ENVIR ST/ ZOOLOGY 511	Ecology of Fishes Lab	2
F&W ECOL/ ENVIR ST/ ZOOLOGY 360	Extinction of Species	3
F&W ECOL 410	Principles of Silviculture	3

## MAJOR ELECTIVES

Students may consult with their environmental sciences advisor regarding pathways to complete the major electives requirement. Students must complete 12 credits of electives either by:

1. distributing 12 credits across at least three categories;
2. focusing 12 credits in a single category.

## Distributed Electives

Students choosing the Distributed Electives path must complete a total of **12 credits** of Environmental Sciences Electives from the categories below, including **at least one course** from **each** category (Ecology, Physical Environment, Geospatial Sciences).

Ecology		
Code	Title	Credits
AGRONOMY 300	Cropping Systems	3
AGRONOMY/ BOTANY/ SOIL SCI 370	Grassland Ecology	3

<sup>1</sup> Students may consult their environmental sciences advisor regarding alternate ways to complete the major electives requirement.

## CAPSTONE <sup>2</sup>

Code	Title	Credits
AGRONOMY 500	Senior Capstone Experience	2
BOTANY/ENVIR ST/ F&W ECOL/ ZOOLOGY 651	Conservation Biology	3
CIV ENGR 515	Hydroclimatology for Water Resources Management	3
ENVIR ST/ SOIL SCI 575	Assessment of Environmental Impact	3
F&W ECOL/ A A E 652	Decision Methods for Natural Resource Managers	3
LAND ARC 668	Restoration Ecology	3
PL PATH 315	Plant Microbiomes	4
SOIL SCI 499	Soil Management	3

<sup>2</sup> Students may speak with their Environmental Sciences advisor about alternatives (e.g., courses, directed study, senior thesis) to complete the capstone. To be approved, the alternative must be taken for a minimum of 3 credits, clearly focused on environmental science, and approved by the Environmental Sciences Administrative Committee. Students must consult with their environmental sciences advisor and fill out all necessary paperwork before registering.

## RESIDENCE & QUALITY OF WORK

- 2.000 GPA in all major courses
- 2.000 GPA and 15 credits of upper level major courses taken in residence <sup>3</sup>
- 15 credits in the major taken on the UW–Madison campus

<sup>3</sup> Major courses numbered 300 through 699 are considered upper level.

## HONORS IN THE MAJOR

Honors in the Major is not available in Environmental Sciences.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Demonstrate understanding of Environmental Science fundamentals in the context of biology, chemistry, mathematics, statistics, and physics.
2. Demonstrate a quantitative and qualitative understanding of the ecological relationships (material and energetic) between organisms, both as individuals and in groups, and their biotic and abiotic environment. This may include processes influencing the distribution and abundance of organisms.
3. Demonstrate a quantitative and qualitative understanding of the physical, largely abiotic, conditions (e.g. climate, water, soil, air, noise, greenspace, etc.) of the environment. The physical environment can include natural or managed settings such as urban environments.
4. Demonstrate a quantitative and qualitative understanding of geospatial processes and information as it relates to the environment including how to collect, interpret, and analyze geospatial information regarding the features of the Earth's surface. These technologies may include geographic information systems (GIS), the global positioning system (GPS), digital maps, and satellite based remote sensing.
5. Demonstrate a basic understanding of relationships that focus on the organization and implementation of laws, regulations, and other policy mechanisms concerning environmental issues and sustainability and their effect on society. This includes how human behaviors influences, and are also influenced by, the natural environment.
6. Apply skills in critical thinking, problem identification and resolution of a complex environmental issues that require interdisciplinary solutions and team-based work.
7. Articulate the role of environmental science in one or more focused areas of a specific environmental discipline (e.g. geology, soils, atmosphere, water, plants, animals).
8. Demonstrate expertise in organizing and presenting (written and oral) scientific information to both lay and professional audiences.

## FOUR-YEAR PLAN

### SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it—along with their DARS report, the Degree Planner, and Course Search & Enroll tools—to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own four-year plan several times during college.

#### First Year

**Total Credits 120**

## ADVISING AND CAREERS

### ADVISING AND CAREERS

#### L&S ADVISING

Any student interested in the L&S Environmental Sciences major should meet with the Undergraduate Academic Advising Manager listed in the Contact Box on the right sidebar of this page to discuss steps to complete the necessary prerequisite coursework for the major.

#### CAREERS

A major in Environmental Sciences serves as excellent preparation for careers of great diversity, including environmental modeling, agricultural scientist, botanist, ecologist, park ranger, agricultural technician, air and water quality manager, environmental analyst, air pollution analyst, environmental consultant, environmental educator, GIS analyst, project manager, hazardous waste manager, hydrologist, environmental lawyer, soil conservation technician, and natural resource specialist. For more info about careers, please visit our website (<http://envirosci.wisc.edu/careers-internships/>).

#### L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

## PEOPLE

## PEOPLE

## BIOLOGY CORE CURRICULUM

## DEGREES/MAJORS/CERTIFICATES

- Biology Core Curriculum Honors, Certificate (p. 549)

## BIOLOGY CORE CURRICULUM HONORS, CERTIFICATE

Biology Core Curriculum (Biocore (<http://www.biocore.wisc.edu/>)) is an undergraduate Honors biology certificate program for students who are motivated to learn biology within a small community of students, peer mentors, and faculty instructors. The four-semester curriculum of lecture and laboratory courses provides an integrated foundation of knowledge and skills applicable to any area of bioscience.

Biocore is not a major but fulfills requirements (introductory to intermediate coursework, Honors, and Communication Part B) for a variety of biological science majors including those in the College of Agricultural and Life Sciences, College of Letters & Science, College of Engineering, and School of Pharmacy. See the Biocore website and video (<http://www.biocore.wisc.edu/about/>) to learn more.

Unique aspects of Biocore include:

- Small classes and high faculty/instructor contact
- Emphasis on research, problem solving, science reasoning, group learning, and communication
- Inclusive, collaborative community of students and faculty
- Peer mentoring, outreach, and directed study opportunities
- Biocore Honors certificate.<sup>1</sup>

<sup>1</sup> *Biology Core Curriculum Honors certificate* is available to students within the College of Agricultural and Life Sciences, the College of Engineering, the School of Human Ecology, the College of Letters & Science, and the School of Pharmacy. Students in the School of Business, the School of Education, and the School of Nursing are welcome to benefit from enrollment in the Biocore courses, but they are ineligible to earn the certificate. Students earn Honors course credit for each Biocore course and are eligible to earn a certificate upon completion of all four lecture courses and two of three lab courses with a grade of B or higher in all BIOCORE (<http://guide.wisc.edu/courses/biocore/>) courses and a 3.33 cumulative GPA.

## HOW TO GET IN

## HOW TO GET IN

Biocore is an application-based Honors program that starts in the fall. While any UW-Madison student admitted to Biocore can take courses and complete the program, only students in the College of Agricultural and Life Sciences, the College of Engineering, the School of Human Ecology, the College of Letters & Science, the School of Education, the School of Pharmacy and the School of Business will be eligible to have the certificate noted on their transcript.

Application options:

Applications are available through the Biocore website (<https://biocore.wisc.edu/biocore-admissions/>) starting in mid-December. Most students apply during the spring of freshman year and begin fall of sophomore year.

- Early application deadline on first Friday of January for notification prior to beginning of spring semester
- Regular application deadline in mid-March prior to April registration
- Rolling application review after March deadline right up to the start of fall classes

## PREREQUISITES

Please inquire about course equivalents.

Code	Title	Credits
<b>Introductory Chemistry</b>		
Complete one of the following:		5
CHEM 104	General Chemistry II	
CHEM 109	Advanced General Chemistry	
CHEM 115	Chemical Principles I	
<b>Total Credits</b>		<b>5</b>

## REQUIREMENTS

## REQUIREMENTS

Code	Title	Credits
<b>Complete the following lecture courses (in sequence):</b>		
BIOCORE 381	Evolution, Ecology, and Genetics	3
BIOCORE 383	Cellular Biology	3
BIOCORE 485	Principles of Physiology	3

BIOCORE 587	Biological Interactions	3
<b>Complete two of the following lab courses (in any order):</b>		<b>4</b>
BIOCORE 382	Evolution, Ecology, and Genetics Laboratory	
BIOCORE 384	Cellular Biology Laboratory	
BIOCORE 486	Principles of Physiology Laboratory	
<b>Total Credits</b>		<b>16</b>

## RESIDENCE AND QUALITY OF WORK

- Minimum 3.3000 University GPA
- Grade of B or better in all BIOCORE and courses used for the certificate

## CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

### LEARNING OUTCOMES

## LEARNING OUTCOMES

1. Demonstrate a learning mindset and intellectual curiosity for biology.
2. Demonstrate advanced level scientific reasoning and integration of biological concepts and processes – from molecules to the biosphere, across different forms of life, through space and time.
3. Generate novel scientific questions, formulate hypotheses, carry out experiments, and make logical conclusions based on evidence.
4. Demonstrate advanced scientific communication skills, oral and written, and the ability to translate their understanding to the broader community.
5. Actively engage in and practice group learning, collaboration, and teamwork.
6. Reach for and achieve high standards in the quality of learning.
7. Articulate the value of the Biocore Honors experience.

### ADVISING AND CAREERS

## ADVISING AND CAREERS

Some majors require students to complete the whole program, but others do not. **Check on your major requirements and with an academic advisor in your major.** Review sample four-year schedules (<https://biocore.wisc.edu/four-year-schedules/>) for how Biocore fits into many different bioscience majors. Students who plan to study abroad during their junior year can plan to start Biocore as sophomores and complete coursework as seniors.

For general academic and advising questions in Biocore, contact Heidi Horn, Biocore associate director, [hhorn@wisc.edu](mailto:hhorn@wisc.edu) or Diana Tapia Ramon, high impact practice facilitator [dtapia2@wisc.edu](mailto:dtapia2@wisc.edu).

For questions about the student experience, see Biocore Peer Advisors (<https://biocore.wisc.edu/biocore-peer-advisors/>) and contact [uwbiocore.peeradvisors@gmail.com](mailto:uwbiocore.peeradvisors@gmail.com).

### PEOPLE

## PEOPLE

Shelby O'Connor (faculty director)

Heidi Horn (associate director, teaching faculty)

Carol Borcherding (program manager)

Anna Kowalkowski (teaching faculty)

Seth McGee (lab instructor)

Diana Tapia Ramon (high impact practice facilitator)

Biocore faculty instructors come from departments and colleges across campus (College of Letters & Science, College of Agriculture and Life Sciences, School of Medicine and Public Health, College of Engineering) and bring with them different perspectives and disciplinary expertise on a whole range of topics and scales of biological organization from molecules to ecosystems. The curriculum permits students to attain a relatively high level of sophistication with complete flexibility of choice for subsequent major specialization.

## AFFILIATED FACULTY INSTRUCTORS

Bill Bement (Integrative Biology, L&S)

Erik Dent (Neuroscience, SMPH)

Irwin Goldman (Horticulture, CALS)

Anne Griep (Cell and Regenerative Biology, SMPH)

Jeff Hardin (Integrative Biology, L&S)

Laura Hernandez (Animal & Dairy Sciences, CALS)

Shelby O'Connor (Pathology, SMPH)

Han Wang (Integrative Biology, L&S)

Biocore Steering Committee: Elaine Alarid, Heidi Horn, Paul Bethke (chair), Anne Griep, Jeff Hardin, Anna Kowalkowski, Evelyn Howell, Shelby O'Connor

## WISCONSIN EXPERIENCE

### WISCONSIN EXPERIENCE

The Biocore Experience is aligned with the Wisconsin Experience, supporting students' development of knowledge, intellectual skills, and social responsibilities.

Biocore is an Honors biology program, a *community*, and a *curriculum* that challenges students to discover and reach their academic potential within an inclusive and supportive biology education program. The Biocore Honors community of highly motivated students works with dedicated faculty to extend opportunities for scientific research, communication, integrative learning, and collaboration in the context of a four-semester undergraduate biology curriculum.

### STUDENTS SAY:

"Biocore has helped me **think about science in a completely different way.**"

"I have never been so challenged, nor so **excited about learning**, as during my time in Biocore."

"Biocore taught me how to **think critically and how to question**. I learned to be part of a team and made some great friendships."

"Taking Biocore made other **advanced courses in biology/biochemistry/genetics so much easier** because I gained such solid background knowledge."

"Biocore has been my most valuable academic experience yet. It has helped me develop my **scientific writing skills, ability to problem solve as a member of a team, and to think like a scientist.**"

"The **great staff and teaching teams** are excellent -- they **really care** and invest a huge amount of time to benefit our learning."

See Biocore Experience video (<https://youtu.be/YavNVg7eXaA/>), recent Biocore Honors graduate profiles (<https://biocore.wisc.edu/biocore-graduates/>), and alumni profiles (<http://www.biocore.wisc.edu/alumni/>).

In addition to courses, Biocore offers co-curricular and leadership opportunities. Students are also able to engage in Biocore peer advising (<https://biocore.wisc.edu/biocore-peer-advisors/>), Biocore peer mentoring (<https://biocore.wisc.edu/biocore-peer-mentors/>), undergraduate TAs, as well as engage in directed study and research opportunities in the Biocore Prairie (<https://biocore.wisc.edu/biocore-prairie/>), go outside the classroom with Biocore Adventure Club, and in K-12 outreach through the Biocore Outreach Ambassadors (<https://biocore.wisc.edu/biocore-outreach-ambassadors/>).

## BOTANY

The Department of Botany provides an introduction to the living world: the diversity of its organisms; its historical origins through evolution; its principles of structure, function, and ecology; and its interactions, relationships, and effects on the nonliving world. Botany is the science of plants, algae, fungi, and bacteria—all living organisms except animals. Green plants and algae provide the photosynthetic energy for fueling all other life on earth and drive global water and carbon cycles. Fungi and bacteria are the fundamental recyclers of the earth.

The study of botany provides a broad background in the principles of modern biology and gives a solid foundation for careers in environmental studies, conservation biology, ecology, systematics, evolution, genetics, physiology, biotechnology, agriculture, and horticulture. Jobs requiring such preparation include teaching in secondary schools and colleges, research and development in industry and medicine, stewardship of our natural world through private and governmental programs, and research and teaching in academia.

Undergraduates interested in majoring in botany should take an introductory course or course sequence in their freshmen or sophomore years:

Code	Title	Credits
<b>Option A (strongly recommended)</b>		
BOTANY/ BIOLOGY 130	General Botany	5
With or without the following:		
ZOOLOGY/ BIOLOGY 101 & ZOOLOGY/ BIOLOGY 102	Animal Biology and Animal Biology Laboratory	5
<b>Option B (also appropriate)</b>		
BIOLOGY/BOTANY/ ZOOLOGY 151	Introductory Biology	5
BIOLOGY/BOTANY/ ZOOLOGY 152	Introductory Biology	5
<b>Option C (also appropriate)</b>		
Biology Core Curriculum		

The general undergraduate botany advisor will help guide students to a botany faculty member in their field of interest, who should be chosen as soon as possible—no later than the junior year. All botany faculty members serve as advisors for their special fields.

The department encourages undergraduates to participate in its activities. Volunteers are welcome in the herbarium and greenhouses. There are a few paid positions there and in many of the research laboratories as well.

## DEGREES/MAJORS/CERTIFICATES

### DEGREES/MAJORS/ CERTIFICATES

- Botany, BS (p. 556)
- Conservation Biology, BA (p. 560)
- Conservation Biology, BS (p. 567)

## PEOPLE

### PEOPLE

**Faculty:** See Botany (<https://botany.wisc.edu/botany-faculty/>).

## BOTANY, BA

The Department of Botany provides an introduction to the living world: the diversity of its organisms; its historical origins through evolution; its principles of structure, function, and ecology; and its interactions, relationships, and effects on the nonliving world. Botany is the science of plants, algae, fungi, and bacteria—all living organisms except animals. Green plants and algae provide the photosynthetic energy for fueling all other life on earth and drive global water and carbon cycles. Fungi and bacteria are the fundamental recyclers of the earth.

The study of botany provides a broad background in the principles of modern biology and gives a solid foundation for careers in environmental studies, conservation biology, ecology, systematics, evolution, genetics, physiology, biotechnology, agriculture, and horticulture. Jobs requiring such preparation include teaching in secondary schools and colleges, research and development in industry and medicine, stewardship of our natural world through private and governmental programs, and research and teaching in academia.

## HOW TO GET IN

### HOW TO GET IN

Prospective Botany majors should consult with the general undergraduate botany advisor by the beginning of the junior year to outline a course of study appropriate to the student's needs. Major Declaration may occur by meeting with the undergraduate advisor in the major.

To be accepted as a major in Botany, a student must have a grade point average of 2.500 for all science courses taken prior to declaration.

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

- |                   |  |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> <li>• Breadth—Humanities/Literature/Arts: 6 credits</li> <li>• Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth—Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul> |
|-------------------|--|

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

### COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

### BACHELOR OF ARTS DEGREE REQUIREMENTS

**Mathematics** Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.

- |                 |  |
|-----------------|--|
| <b>Language</b> | <ul style="list-style-type: none"> <li>• Complete the fourth unit of a language other than English; OR</li> <li>• Complete the third unit of a language and the second unit of an additional language other than English.</li> </ul> |
|-----------------|--|

LS Breadth	<ul style="list-style-type: none"> <li>• 12 credits of Humanities, which must include 6 credits of literature; and</li> <li>• 12 credits of Social Science; and</li> <li>• 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.</li> </ul>
------------	--

Liberal Arts and Science Coursework	Complete at least 108 credits.
Depth of Intermediate/Advanced work	Complete at least 60 credits at the intermediate or advanced level.
Major	Declare and complete at least one major.
Total Credits	Complete at least 120 credits.
UW-Madison Experience	<ul style="list-style-type: none"> <li>• 30 credits in residence, overall; and</li> <li>• 30 credits in residence after the 86th credit.</li> </ul>
Quality of Work	<ul style="list-style-type: none"> <li>• 2,000 in all coursework at UW-Madison</li> <li>• 2,000 in Intermediate/Advanced level coursework at UW-Madison</li> </ul>

## NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR MATH, CHEMISTRY, AND PHYSICS

Code	Title	Credits
<b>Statistics/Mathematics (One course from the following):<sup>1</sup></b>		<b>3</b>
STAT 301	Introduction to Statistical Methods	
STAT 324	Introductory Applied Statistics for Engineers	
STAT 371	Introductory Applied Statistics for the Life Sciences	
<b>General Chemistry (One of the following):<sup>2</sup></b>		<b>5-9</b>
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	
CHEM 115 & CHEM 116	Chemical Principles I and Chemical Principles II	
CHEM 109	Advanced General Chemistry	
<b>Organic Chemistry<sup>3</sup></b>		<b>3</b>
CHEM 341 or CHEM 343	Elementary Organic Chemistry or Organic Chemistry I	
<b>Physics (One course from the following):<sup>4</sup></b>		<b>3-5</b>
PHYSICS 115	Energy and Climate (preferred)	
PHYSICS 103	General Physics	
PHYSICS 104	General Physics	
PHYSICS 201	General Physics	
PHYSICS 202	General Physics	

PHYSICS 207	General Physics	
PHYSICS 208	General Physics	
PHYSICS 247	A Modern Introduction to Physics	
PHYSICS 248	A Modern Introduction to Physics	
PHYSICS 249	A Modern Introduction to Physics	
<b>Total Credits</b>		<b>14-20</b>

## BIOLOGY AND BOTANY REQUIREMENTS

30 credits from:

Code	Title	Credits
<b>Introductory Biology (Complete one option):</b>		<b>5-10</b>
<i>Option A, Recommended</i>		
BOTANY/ BIOLOGY 130	General Botany <sup>5</sup>	
<i>Option B: Introductory Biology</i>		
BOTANY/ BIOLOGY/ ZOOLOGY 151	Introductory Biology	
BOTANY/ BIOLOGY/ ZOOLOGY 152	Introductory Biology	
<i>Option C: BIOCORE</i>		
BIOCORE 381	Evolution, Ecology, and Genetics	
BIOCORE 382	Evolution, Ecology, and Genetics Laboratory	
BIOCORE 383	Cellular Biology	
BIOCORE 384	Cellular Biology Laboratory	
BIOCORE 485	Principles of Physiology	
<b>Code</b>		<b>Title</b>
<b>Botany Distribution - Five courses, to include at least one course in these areas:</b>		<b>15</b>
<i>Cell, Molecular, Physiology (1 course required):</i>		
BOTANY 300	Plant Anatomy	
	or BOTANY 500 Plant Physiology	
<i>Ecology (1 course required):</i>		
BOTANY/ F&W ECOL 455	The Vegetation of Wisconsin	
	or BOTANY/ F&W ECOL/ ZOOLOGY 460	
<i>Genetics, Evolution (1 course required):<sup>6</sup></i>		
BOTANY/ ANTHRO/ ZOOLOGY 410	Evolutionary Biology	
AGRONOMY/ HORT 338	Plant Breeding and Biotechnology	
GENETICS 466	Principles of Genetics <sup>2</sup>	
GENETICS 467	General Genetics 1	
GENETICS 468	General Genetics 2	
<i>Diversity</i>		
BOTANY 305	Plant Morphology and Evolution	
BOTANY 330	Algae	

BOTANY/ PL PATH 332	Fungi
BOTANY 400	Plant Systematics
BOTANY 401	Vascular Flora of Wisconsin
<i>Optionally, 1 of the 5 required courses may come from this list, or students may take a second course from any area listed above:</i>	
BOTANY/ GEOG 338	Environmental Biogeography
BOTANY/ AGRONOMY/ HORT 339	Plant Biotechnology: Principles and Techniques I
BOTANY/ AGRONOMY/ SOIL SCI 370	Grassland Ecology
BOTANY/ F&W ECOL 402	Dendrology: Woody Plant Identification and Ecology
BOTANY 403	Field Collections and Identification
BOTANY 422	Plant Geography
BOTANY/ ZOOLOGY 450	Midwestern Ecological Issues: A Case Study Approach
BOTANY/ ENTOM/ ZOOLOGY 473	Plant-Insect Interactions
BOTANY/ AMER IND/ ANTHRO 474	Ethnobotany
BOTANY/ ENTOM/ PL PATH 505	Plant-Microbe Interactions: Molecular and Ecological Aspects
BOTANY/ PL PATH 563	Phylogenetic Analysis of Molecular Data
BOTANY/ BIOCHEM 621	Plant Biochemistry
BOTANY/ ENVIR ST/ F&W ECOL/ ZOOLOGY 651	Conservation Biology
BIOCHEM 501	Introduction to Biochemistry
BIOCORE 486	Principles of Physiology Laboratory
BIOCORE 587	Biological Interactions
F&W ECOL 415	Tree Physiology
MICROBIO 303	Biology of Microorganisms
ZOOLOGY 570	Cell Biology

Code	Title	Credits
<b>Independent Research Experience—choose one:<sup>7</sup></b>		<b>3-6</b>
BOTANY 691 & BOTANY 692	Senior Thesis and Senior Thesis	4
BOTANY 681 & BOTANY 682	Senior Honors Thesis and Senior Honors Thesis	6
BOTANY 699	Directed Study	3-4

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all BOTANY and major courses
- 2.000 GPA on 15 upper-level major credits, taken in residence<sup>8</sup>
- 15 credits in BOTANY, taken on the UW–Madison campus

## HONORS IN THE MAJOR

Students may declare Honors in the Botany Major in consultation with the Botany undergraduate advisor.

### HONORS IN THE MAJOR IN BOTANY: REQUIREMENTS

To earn Honors in the Major in Botany, students must satisfy the requirements for the major (above) and the following additional requirements:

- 3.300 University GPA
- 3.400 GPA in all BOTANY and major courses
- Complete 12 Honors credits from coursework listed in the "Botany Distribution" requirements<sup>9</sup> or from Intermediate/Advanced Honors coursework in Biocore
- Conduct Senior Honors Thesis research in BOTANY 681 & BOTANY 682 for a total of 6 credits

## FOOTNOTES

<sup>1</sup> STAT 371, MATH 211, or MATH 221 are strongly recommended for students preparing for graduate school, as these usually are required for entry into post-undergraduate programs.

<sup>2</sup> CHEM 109 is the best option for chemistry if only one course is to be taken. However, for students who are preparing for graduate school, and depending on their post graduate goals (CHEM 103 & CHEM 104 OR CHEM 115 & CHEM 116) is strongly recommended as some graduate programs may require a sequence of organic chemistry courses.

<sup>3</sup> CHEM 341 is the best option for organic chemistry if only one course is to be taken. However, for students who are preparing for graduate school, the three-course organic chemistry sequence (CHEM 343, CHEM 344, & CHEM 345) is strongly recommended instead of CHEM 341, as some graduate programs may require a sequence of organic chemistry courses.

<sup>4</sup> PHYSICS 115 is the best choice if one course is to be taken. It is recommended that two semesters of PHYSICS be taken (PHYSICS 103-PHYSICS 104 or PHYSICS 201-PHYSICS 202 or PHYSICS 207-PHYSICS 208).

<sup>5</sup> In addition to BOTANY/BIOLOGY 130, ZOOLOGY/BIOLOGY 101 and/or ZOOLOGY/BIOLOGY 102 will count towards 30 credits of Botany major.

<sup>6</sup> Completion of the BIOCORE sequence also satisfies the Genetics, Evolution area (BIOCORE 381 & BIOCORE 382 & BIOCORE 383 & BIOCORE 384 & BIOCORE 486).

<sup>7</sup> Students nearing completion of the major should seek out research opportunities with their advisor or faculty supervisor, and register for their project at the end of the junior year.

<sup>8</sup> BOTANY 300–BOTANY 699 are considered upper-level in the major.

<sup>9</sup> Excluding BOTANY 681 and BOTANY 682.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Acquire and demonstrate foundational understanding of the basic properties of plant life from the subcellular to the ecosystem level of organization.
2. Acquire and demonstrate basic understanding in chemistry, physics, and mathematics to interpret biological phenomena.
3. Acquire and demonstrate detailed knowledge in at least five of these core areas of plant biology: Genetics, Physiology, Structural biology, Ecology, Systematics, Evolution, Cryptogamic biology.
4. Explore these core areas in the context of the laboratory and/or the field.
5. Engage in plant biology research (to include algae, photosynthetic bacteria, and fungi): develop hypotheses, acquire scientific information, and interpret results in the context of the historical scientific literature in one or more specialized botanical subdisciplines.
6. Develop an appreciation of communicating scientific information, especially in written form.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

This plan shown focuses on completing major requirements early enough to be able to pursue advanced interests later. It also includes additional research experiences beyond the minimum, since many students find it helpful to begin research earlier than their senior year. Students interested in graduate school would be advised to take additional courses in the biological, physical, and/or data science fields. Students seeking honors in the Major might want to consult the sample 4-year plans provided by the Biocore (<https://guide.wisc.edu/undergraduate/letters-science/biology-core-curriculum/biology-core-curriculum-honors-certificate/>) program

#### First Year

Fall	Credits Spring	Credits
General chemistry (choose one) <sup>1</sup>	4-5 CHEM 104 (or Elective)	5
CHEM 103 or 109 <sup>1</sup>	Introductory Biology First Semester (choose one)	5
Communications A (complete during your first year)	3 BOTANY/ BIOLOGY 130 or BIOLOGY 151	
MATH 221 <sup>2</sup>	5 Humanities Breadth	3
Language Requirement Course	3-4 Social Science Breadth	3
	<b>15</b>	<b>16</b>

#### Second Year

Fall	Credits Spring	Credits
CHEM 341 <sup>3</sup>	3 PHYSICS 115	3
Introductory Biology First Semester (choose one)	5 STAT 371	3
BIOLOGY/ ZOOLOGY 101 & BIOLOGY/ ZOOLOGY 102	BOTANY/AMER IND/ ANTHRO 474 (or an alternate Ethnic Studies course)	3-4
BIOLOGY/BOTANY/ ZOOLOGY 152	Botany Breadth (I/A)	4
Comm B (if not taking BIOLOGY 152) or Elective	3-4	
Social Science Breadth	3	
	<b>15</b>	<b>14</b>

#### Third Year

Fall	Credits Spring	Credits
BOTANY 499 (or Botany Breadth (I/A))	1-3 Botany Breadth (I/A) Course(s) or Elective(s)	9
Botany Breadth (I/A) Courses	6-7 Literature Breadth (I/A)	3
Humanities Breadth	3 I/A COMP SCI/MATH/ STAT Course (not needed if MATH 221 and STAT 371 taken)	3
Social Science Breadth	3	
	<b>15</b>	<b>15</b>

#### Fourth Year

Fall	Credits Spring	Credits
BOTANY 691	2-3 BOTANY 692	3

Botany Breadth (I/A) Course(s) or Elective(s)	9 Botany Breadth (I/A) Course(s) or Elective(s)	12
Literature Breadth	3	
	<b>15</b>	<b>15</b>

**Total Credits 120**

- <sup>1</sup> Chemistry sequence CHEM 103 & CHEM 104 recommended.
- <sup>2</sup> Or a different course in mathematics guided by placement testing.
- <sup>3</sup> Organic Chemistry full sequence (CHEM 343, CHEM 344, & CHEM 345) recommended, especially for students interested in molecular biology or biochemistry

## ADVISING AND CAREERS

### ADVISING AND CAREERS

#### ADVISING

Students can find information about declaring the major at declaration and advising (<https://botany.wisc.edu/undergraduate-study/declaration-and-advising/>).

The Department of Botany encourages our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks in the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

#### L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students

- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

## PEOPLE

### PEOPLE

**Faculty:** See Botany (<https://botany.wisc.edu/botany-faculty/>).

## BOTANY, BS

The Department of Botany provides an introduction to the living world: the diversity of its organisms; its historical origins through evolution; its principles of structure, function, and ecology; and its interactions, relationships, and effects on the nonliving world. Botany is the science of plants, algae, fungi, and bacteria—all living organisms except animals. Green plants and algae provide the photosynthetic energy for fueling all other life on earth and drive global water and carbon cycles. Fungi and bacteria are the fundamental recyclers of the earth.

The study of botany provides a broad background in the principles of modern biology and gives a solid foundation for careers in environmental studies, conservation biology, ecology, systematics, evolution, genetics, physiology, biotechnology, agriculture, and horticulture. Jobs requiring such preparation include teaching in secondary schools and colleges, research and development in industry and medicine, stewardship of our natural world through private and governmental programs, and research and teaching in academia.

## HOW TO GET IN

### HOW TO GET IN

Prospective Botany majors should consult with the general undergraduate botany advisor by the beginning of the junior year to outline a course of study appropriate to the student's needs. Major Declaration may occur by meeting with the undergraduate advisor in the major.

To be accepted as a major in Botany, a student must have a grade point average of 2.500 for all science courses taken prior to declaration.

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits
	• Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
	• Breadth—Social Studies: 3 credits
	• Communication Part A Part B *
	• Ethnic Studies *
	• Quantitative Reasoning Part A Part B *

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

### BACHELOR OF SCIENCE DEGREE REQUIREMENTS

**Mathematics** Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.

**Language** Complete the third unit of a language other than English.

**LS Breadth** Complete:

- 12 credits of Humanities, which must include at least 6 credits of Literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.

**Liberal Arts and Science Coursework** Complete at least 108 credits.

**Depth of Intermediate/Advanced Coursework** Complete at least 60 credits at the Intermediate or Advanced level.

**Major** Declare and complete at least one major.

**Total Credits** Complete at least 120 credits.

**UW-Madison Experience** Complete both:

- 30 credits in residence, overall, and
- 30 credits in residence after the 86th credit.

**Quality of Work**

- 2.000 in all coursework at UW-Madison
- 2.000 in Intermediate/Advanced level coursework at UW-Madison

## NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR MATH, CHEMISTRY, AND PHYSICS

Code	Title	Credits
<b>Statistics/Mathematics (One course from the following):<sup>1</sup></b>		<b>3</b>
STAT 301	Introduction to Statistical Methods	
STAT 324	Introductory Applied Statistics for Engineers	
STAT 371	Introductory Applied Statistics for the Life Sciences	
<b>General Chemistry (One of the following):<sup>2</sup></b>		<b>5-9</b>
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	
CHEM 115 & CHEM 116	Chemical Principles I and Chemical Principles II	
CHEM 109	Advanced General Chemistry	
<b>Organic Chemistry<sup>3</sup></b>		<b>3</b>
CHEM 341 or CHEM 343	Elementary Organic Chemistry or Organic Chemistry I	
<b>Physics (One course from the following):<sup>4</sup></b>		<b>3-5</b>
PHYSICS 115	Energy and Climate (preferred)	
PHYSICS 103	General Physics	
PHYSICS 104	General Physics	
PHYSICS 201	General Physics	
PHYSICS 202	General Physics	
PHYSICS 207	General Physics	
PHYSICS 208	General Physics	
PHYSICS 247	A Modern Introduction to Physics	
PHYSICS 248	A Modern Introduction to Physics	
PHYSICS 249	A Modern Introduction to Physics	
<b>Total Credits</b>		<b>14-20</b>

## BIOLOGY AND BOTANY REQUIREMENTS

30 credits from:

Code	Title	Credits
<b>Introductory Biology (Complete one option):</b>		<b>5-10</b>
<i>Option A, Recommended</i>		
BOTANY/ BIOLOGY 130	General Botany <sup>5</sup>	
<i>Option B: Introductory Biology</i>		
BOTANY/ BIOLOGY/ ZOOLOGY 151	Introductory Biology	
BOTANY/ BIOLOGY/ ZOOLOGY 152	Introductory Biology	
<i>Option C: BIOCORE</i>		

BIOCORE 381	Evolution, Ecology, and Genetics
BIOCORE 382	Evolution, Ecology, and Genetics Laboratory
BIOCORE 383	Cellular Biology
BIOCORE 384	Cellular Biology Laboratory
BIOCORE 485	Principles of Physiology

Code	Title	Credits
<b>Botany Distribution - Five courses, to include at least one course in these areas:</b>		<b>15</b>

*Cell, Molecular, Physiology (1 course required):*

BOTANY 300 Plant Anatomy  
or BOTANY 500 Plant Physiology

*Ecology (1 course required):*

BOTANY/  
F&W ECOL 455 The Vegetation of Wisconsin  
or BOTANY/  
F&W ECOL/  
ZOOLOGY 460 General Ecology

*Genetics, Evolution (1 course required):*<sup>6</sup>

BOTANY/  
ANTHRO/  
ZOOLOGY 410 Evolutionary Biology

AGRONOMY/  
HORT 338 Plant Breeding and Biotechnology

GENETICS 466 Principles of Genetics<sup>2</sup>

GENETICS 467 General Genetics 1

GENETICS 468 General Genetics 2

*Diversity*

BOTANY 305 Plant Morphology and Evolution

BOTANY 330 Algae

BOTANY/  
PL PATH 332 Fungi

BOTANY 400 Plant Systematics

BOTANY 401 Vascular Flora of Wisconsin

*Optionally, 1 of the 5 required courses may come from this list, or students may take a second course from any area listed above:*

BOTANY/  
GEOG 338 Environmental Biogeography

BOTANY/  
AGRONOMY/  
HORT 339 Plant Biotechnology: Principles and Techniques I

BOTANY/  
AGRONOMY/  
SOIL SCI 370 Grassland Ecology

BOTANY/  
F&W ECOL 402 Dendrology: Woody Plant Identification and Ecology

BOTANY 403 Field Collections and Identification

BOTANY 422 Plant Geography

BOTANY/  
ZOOLOGY 450 Midwestern Ecological Issues: A Case Study Approach

BOTANY/  
ENTOM/  
ZOOLOGY 473 Plant-Insect Interactions

BOTANY/  
AMER IND/  
ANTHRO 474 Ethnobotany

BOTANY/  
ENTOM/

BIOCHEM 501 Introduction to Biochemistry

BIOCORE 486 Principles of Physiology Laboratory

BIOCORE 587 Biological Interactions

F&W ECOL 415 Tree Physiology

MICROBIO 303 Biology of Microorganisms

ZOOLOGY 570 Cell Biology

Code	Title	Credits
<b>Independent Research Experience—choose one:</b> <sup>7</sup>		<b>3-6</b>
BOTANY 691 & BOTANY 692	Senior Thesis and Senior Thesis	4
BOTANY 681 & BOTANY 682	Senior Honors Thesis and Senior Honors Thesis	6
BOTANY 699	Directed Study	3-4

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all BOTANY and major courses
- 2.000 GPA on 15 upper-level major credits, taken in residence<sup>8</sup>
- 15 credits in BOTANY, taken on the UW–Madison campus

## HONORS IN THE MAJOR

Students may declare Honors in the Botany Major in consultation with the Botany undergraduate advisor.

### HONORS IN THE MAJOR IN BOTANY: REQUIREMENTS

To earn Honors in the Major in Botany, students must satisfy the requirements for the major (above) and the following additional requirements:

- 3.300 University GPA
- 3.400 GPA in all BOTANY and major courses
- Complete 12 Honors credits from coursework listed in the "Botany Distribution" requirements<sup>9</sup> or from Intermediate/Advanced Honors coursework in Biocore
- Conduct Senior Honors Thesis research in BOTANY 681 & BOTANY 682 for a total of 6 credits

## FOOTNOTES

- <sup>1</sup> STAT 371, MATH 211, or MATH 221 are strongly recommended for students preparing for graduate school, as these usually are required for entry into post-undergraduate programs.
- <sup>2</sup> CHEM 109 is the best option for chemistry if only one course is to be taken. However, for students who are preparing for graduate school, and depending on their post graduate goals (CHEM 103 & CHEM 104 OR CHEM 115 & CHEM 116) is strongly recommended as some graduate programs may require a sequence of organic chemistry courses.
- <sup>3</sup> CHEM 341 is the best option for organic chemistry if only one course is to be taken. However, for students who are preparing for graduate school, the three-course organic chemistry sequence (CHEM 343, CHEM 344, & CHEM 345) is strongly recommended instead of CHEM 341, as some graduate programs may require a sequence of organic chemistry courses.
- <sup>4</sup> PHYSICS 115 is the best choice if one course is to be taken. It is recommended that two semesters of PHYSICS be taken (PHYSICS 103-PHYSICS 104 or PHYSICS 201-PHYSICS 202 or PHYSICS 207-PHYSICS 208).
- <sup>5</sup> In addition to BOTANY/BIOLOGY 130, ZOOLOGY/BIOLOGY 101 and/or ZOOLOGY/BIOLOGY 102 will count towards 30 credits of Botany major.
- <sup>6</sup> Completion of the BIOCORE sequence also satisfies the Genetics, Evolution area (BIOCORE 381 & BIOCORE 382 & BIOCORE 383 & BIOCORE 384 & BIOCORE 385).
- <sup>7</sup> Students nearing completion of the major should seek out research opportunities with their advisor or faculty supervisor, and register for their project at the end of the junior year.
- <sup>8</sup> BOTANY 300–BOTANY 699 are considered upper-level in the major.
- <sup>9</sup> Excluding BOTANY 681 and BOTANY 682.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Acquire and demonstrate foundational understanding of the basic properties of plant life from the subcellular to the ecosystem level of organization.
2. Acquire and demonstrate basic understanding in chemistry, physics, and mathematics to interpret biological phenomena.
3. Acquire and demonstrate detailed knowledge in at least five of these core areas of plant biology: Genetics, Physiology, Structural biology, Ecology, Systematics, Evolution, Cryptogamic biology.
4. Explore these core areas in the context of the laboratory and/or the field.
5. Engage in plant biology research (to include algae, photosynthetic bacteria, and fungi): develop hypotheses, acquire scientific information, and interpret results in the context of the historical scientific literature in one or more specialized botanical subdisciplines.
6. Develop an appreciation of communicating scientific information, especially in written form.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

This plan shown focuses on completing major requirements early enough to be able to pursue advanced interests later. It also includes additional research experiences beyond the minimum, since many students find it helpful to begin research earlier than their senior year. Students interested in graduate school would be advised to take additional courses in the biological, physical, and/or data science fields. Students seeking honors in the Major might want to consult the sample 4-year plans provided by the Biocore (<https://guide.wisc.edu/undergraduate/letters-science/biology-core-curriculum/biology-core-curriculum-honors-certificate/>) program

#### First Year

**Total Credits 120**<sup>1</sup> Chemistry sequence CHEM 103 & CHEM 104 recommended.<sup>2</sup> Or a different course in mathematics guided by placement testing.<sup>3</sup> Organic Chemistry full sequence (CHEM 343, CHEM 344, & CHEM 345) recommended, especially for students interested in molecular biology or biochemistry

## ADVISING AND CAREERS

## ADVISING AND CAREERS

## ADVISING

Students can find information about declaring the major at declaration and advising (<https://botany.wisc.edu/undergraduate-study/declaration-and-advising/>).

The Department of Botany encourages our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks in the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

## L&amp;S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

## PEOPLE

## PEOPLE

**Faculty:** See Botany (<https://botany.wisc.edu/botany-faculty/>).

CONSERVATION BIOLOGY,  
BA

Conservation Biology is a science-based major designed to provide students broad training in biological, ecological, and related disciplines most relevant to conservation. The program emphasizes basic knowledge of natural history, whole organism biology, ecological interactions, and field biology. The major is characterized by flexibility with a broad range of opportunities allowing students to tailor the program to their interests. This major appeals to independent students capable of assembling a curriculum that takes maximum advantage of both strong background, diversity, and specialization, as well as the breadth available through an

L&S major. The program has a unique appeal to students passionate about conservation biology, from the social scientist to the theoretical ecologist, and empowers students to act as informed citizens of the natural world.

Former UW professors Aldo Leopold and Norman Fassett first initiated this major in the 1940s to prepare individuals for careers as game wardens, ranger naturalists, and museum workers. These opportunities continue and have expanded to include work in environmental education; land restoration and park management; endangered species research and recovery efforts; private conservation organizations and government agencies; and many more. The major is recommended for those seeking a liberal education in the intrinsic values of natural resources and those preparing for graduate study in the rapidly developing field of conservation biology.

## INTERNSHIP/FIELD EXPERIENCE

Students in the Conservation Biology major are encouraged to take field courses when possible (including suitable study abroad and field-based programs) and to gain additional experience via research, jobs, and internships. Students who wish to obtain academic credit for internships can consider Inter-LS 260: Internship in Liberal Arts and Sciences (<https://successworks.wisc.edu/ls-finding-an-internship/inter-260-internship-course/>) or arrange **in advance** to set up a Directed Study for research or internships with faculty to propose as elective credit in the major. Students pursuing funding for their experiences can refer to the SuccessWorks Summer Internship Scholarship (<https://successworks.wisc.edu/documents/summer-internship-scholarship-application-faq/>), study abroad resources for funding your experience (<https://studyabroad.wisc.edu/funding/>), and advising with the Office of Student Financial Aid (<https://financialaid.wisc.edu/services/>).

## HOW TO GET IN

### HOW TO GET IN

To declare the Conservation Biology major, students must make an appointment (<https://conservationbiology.ls.wisc.edu/requirements/#how-to-declare>) with the program's Academic Advising Manager.

If students are not currently in the College of Letters & Science (L&S), they must transfer into L&S before declaring. Students are welcome to meet with the Academic Advising Manager to discuss the major before transferring.

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

#### General Education

- Breadth—Humanities/Literature/Arts: 6 credits
- Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth—Social Studies: 3 credits
- Communication Part A Part B \*
- Ethnic Studies \*
- Quantitative Reasoning Part A Part B \*

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

### BACHELOR OF ARTS DEGREE REQUIREMENTS

**Mathematics** Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.

**Language**

- Complete the fourth unit of a language other than English; OR
- Complete the third unit of a language and the second unit of an additional language other than English.

**LS Breadth**

- 12 credits of Humanities, which must include 6 credits of literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.

**Liberal Arts and Science Coursework** Complete at least 108 credits.

**Depth of Intermediate/Advanced work** Complete at least 60 credits at the intermediate or advanced level.

**Major** Declare and complete at least one major.

**Total Credits** Complete at least 120 credits.

**UW-Madison Experience**

- 30 credits in residence, overall; and
- 30 credits in residence after the 86th credit.

Quality of Work	<ul style="list-style-type: none"> <li>• 2.000 in all coursework at UW–Madison</li> <li>• 2.000 in Intermediate/Advanced level coursework at UW–Madison</li> </ul>
-----------------	--

## NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

Conservation biology majors must take at least **50 credits** in the major. When selecting courses to meet major requirements, students are encouraged to meet with their Academic Advising Manager to discuss courses that align with their areas of academic interest.

### INTRODUCTORY COURSES

Code	Title	Credits
<b>Introductory Biology</b>		<b>10</b>

Complete one of the following options:

*Option 1:*

BIOLOGY/ ZOOLOGY 101	Animal Biology
BIOLOGY/ ZOOLOGY 102	Animal Biology Laboratory
BIOLOGY/ BOTANY 130	General Botany

*Option 2:*

BIOLOGY/ BOTANY/ ZOOLOGY 151	Introductory Biology
BIOLOGY/ BOTANY/ ZOOLOGY 152	Introductory Biology

*Option 3:*

Complete at least 10 credits from the following:

BIOCORE 381	Evolution, Ecology, and Genetics
BIOCORE 382	Evolution, Ecology, and Genetics Laboratory
BIOCORE 383	Cellular Biology
BIOCORE 384	Cellular Biology Laboratory
BIOCORE 485	Principles of Physiology
BIOCORE 486	Principles of Physiology Laboratory

<b>Chemistry</b>	<b>4-5</b>
------------------	------------

Complete one of the following:

CHEM 103	General Chemistry I
CHEM 108	Chemistry in Our World
CHEM 109	Advanced General Chemistry (for those who might take more chemistry)

<b>Physical Environment</b>	<b>3-5</b>
-----------------------------	------------

Complete one of the following:

ATM OCN/ GEOSCI 105	Survey of Oceanography
------------------------	------------------------

ENVIR ST/ GEOSCI 106	Environmental Geology
ENVIR ST/ GEOG 120	Introduction to the Earth System
ENVIR ST/ GEOG 127	Physical Systems of the Environment
GEOSCI 100	Introductory Geology: How the Earth Works

<b>Ecology and Evolution</b>	<b>6-7</b>
------------------------------	------------

Complete two of the following, each from a different category (students are encouraged to take courses in all three areas):

*Ecology:*

BOTANY/ F&W ECOL/ ZOOLOGY 460	General Ecology
-------------------------------------	-----------------

*Evolution:*

GEOSCI 110	Evolution and Extinction
or ANTHRO/ BOTANY/ ZOOLOGY 410	Evolutionary Biology

*Extinction:*

ENVIR ST/F&W ECOL/ZOOLOGY 360	Extinction of Species
-------------------------------------	-----------------------

<b>Statistics</b>	<b>3</b>
-------------------	----------

Complete one of the following:

STAT 240	Data Science Modeling I
STAT 301	Introduction to Statistical Methods
STAT 371	Introductory Applied Statistics for the Life Sciences

### SPECIES & FIELD BIOLOGY

Code	Title	Credits
------	-------	---------

Complete 12 credits from:

AGRONOMY/ BOTANY/ SOIL SCI 370	Grassland Ecology
ENTOM/ ZOOLOGY 371	Medical Entomology
AN SCI/ F&W ECOL/ ZOOLOGY 520	Ornithology
AN SCI/ F&W ECOL/ ZOOLOGY 521	Birds of Southern Wisconsin
ANTHRO 391	Bones for the Archaeologist
ANTHRO 420	Introduction to Primatological Research
ANTHRO 458	Primate Behavioral Ecology
ANTHRO 668	Primate Conservation
BOTANY 330	Algae
BOTANY/ PL PATH 332	Fungi
BOTANY/ PL PATH 333	Biology of the Fungi

BOTANY 400	Plant Systematics
BOTANY 401	Vascular Flora of Wisconsin
BOTANY/ F&W ECOL 402	Dendrology: Woody Plant Identification and Ecology
BOTANY 422	Plant Geography
BOTANY/ F&W ECOL 455	The Vegetation of Wisconsin
BOTANY/ ENTOM/ ZOOLOGY 473	Plant-Insect Interactions
ENTOM/ ZOOLOGY 302	Introduction to Entomology
ENTOM 331	Taxonomy of Mature Insects
ENTOM 432	Taxonomy and Bionomics of Immature Insects
ENTOM 468	Studies in Field Entomology
ENVIR ST/ ZOOLOGY 315	Limnology-Conservation of Aquatic Resources
ENVIR ST 375	Field Ecology Workshop
ENVIR ST/ ZOOLOGY 510	Ecology of Fishes
ENVIR ST/ ZOOLOGY 511	Ecology of Fishes Lab
F&W ECOL 306	Terrestrial Vertebrates: Life History and Ecology
F&W ECOL 401	Physiological Animal Ecology
F&W ECOL/ SURG SCI 548	Diseases of Wildlife
F&W ECOL 655	Animal Population Dynamics
GEOSCI/ ZOOLOGY 541	Paleobiology
GEOSCI/ ZOOLOGY 542	Invertebrate Paleontology
LAND ARC/ ENVIR ST 361	Wetlands Ecology
LAND ARC/ ENVIR ST 581	Prescribed Fire: Ecology and Implementation
MICROBIO 303	Biology of Microorganisms
MICROBIO 304	Biology of Microorganisms Laboratory
M M & I/ENTOM/ PATH-BIO/ ZOOLOGY 350	Parasitology
PSYCH 449	Animal Behavior <sup>1</sup>
or ZOOLOGY 42	Behavioral Ecology
PSYCH 450	Primate Psychology: Insights into Human Behavior
ZOOLOGY 303	Aquatic Invertebrate Biology
ZOOLOGY 304	Marine Biology
ZOOLOGY 320	Field Marine Biology
ZOOLOGY/ ENVIR ST 315	Limnology-Conservation of Aquatic Resources
ZOOLOGY 316	Laboratory for Limnology- Conservation of Aquatic Resources

ZOOLOGY 430 Comparative Anatomy of  
Vertebrates

## CONSERVATION BIOLOGY CLASS REQUIREMENT

BOTANY/ENVIR ST/F&W ECOL/ZOOLOGY 651 Conservation Biology

## ELECTIVES

Code	Title	Credits
<b>Social Science Electives</b>		
Complete at least one 3 credit course from Social Science elective list:		
A A E 101	Introduction to Agricultural and Applied Economics	
A A E/ ENVIR ST 244	The Environment and the Global Economy	
AMER IND/ GEOG 410	Critical Indigenous Ecological Knowledges	
BOTANY/ AMER IND/ ANTHRO 474	Ethnobotany	
C&E SOC/ SOC 140	Introduction to Community and Environmental Sociology	
C&E SOC/ F&W ECOL/ SOC 248	Environment, Natural Resources, and Society	
ECON 101	Principles of Microeconomics	
ECON/ENVIR ST/ POLI SCI/ URB R PL 449	Government and Natural Resources	
ENVIR ST/ GEOG 139	Global Environmental Issues	
ENVIR ST/ AMER IND 306	Indigenous Peoples and the Environment	
ENVIR ST/ GEOG 339	Environmental Conservation	
ENVIR ST/ PHILOS 441	Environmental Ethics	
ENVIR ST/GEOG/ HISTORY 460	American Environmental History	
ENVIR ST/GEOG/ HISTORY 469	The Making of the American Landscape	
GEOG 344	Changing Landscapes of the American West	
GEOG 359	Australia: Environment and Society	
GEOG 538	The Humid Tropics: Ecology, Subsistence, and Development	
LAND ARC 363	Earth Partnership: Restoration Education for Equity and Resilience	
<b>Electives to attain 50 credits in the major</b>		
AGRONOMY/ HORT 376	Tropical Horticultural Systems	
ANTHRO 405	Introduction to Museum Studies in Anthropology	
ATM OCN 100	Weather and Climate	
ATM OCN 101	Weather and Climate	

ATM OCN/ ENVIR ST 171	Global Change: Atmospheric Issues and Problems
BOTANY/ PL PATH 123	Plants, Parasites, and People
BOTANY/ ENVIR ST/ ZOOLOGY 260	Introductory Ecology
BOTANY 300	Plant Anatomy
BOTANY 305	Plant Morphology and Evolution
BOTANY/ ZOOLOGY 450	Midwestern Ecological Issues: A Case Study Approach
BOTANY/ ENTOM/ PL PATH 505	Plant-Microbe Interactions: Molecular and Ecological Aspects
C&E SOC/ ENVIR ST/ GEOG 434	People, Wildlife and Landscapes
ENTOM/ ENVIR ST 201	Insects and Human Culture—a Survey Course in Entomology
ENTOM/ ZOOLOGY 540	Theoretical Ecology
ENTOM 699	Special Problems
ENVIR ST/ILS 126	Principles of Environmental Science
ENVIR ST/GEOG/ SOIL SCI 230	Soil: Ecosystem and Resource
ENVIR ST 307	Literature of the Environment: Speaking for Nature
ENVIR ST/ SOIL SCI 324	Soils and Environmental Quality
ENVIR ST/ CIV ENGR/ GEOG 377	An Introduction to Geographic Information Systems
ENVIR ST/ POP HLTH 471	Introduction to Environmental Health
ENVIR ST/ F&W ECOL 515	Natural Resources Policy
ENVIR ST/ GEOG 537	Culture and Environment
ENVIR ST/ SOIL SCI 575	Assessment of Environmental Impact
F&W ECOL/ ZOOLOGY 335	Human/Animal Relationships: Biological and Philosophical Issues
F&W ECOL 375	Special Topics (Freshwater Conservation)
F&W ECOL 561	Wildlife Management Techniques
F&W ECOL/ LAND ARC/ ZOOLOGY 565	Principles of Landscape Ecology
F&W ECOL 699	Special Problems
GENETICS 466	Principles of Genetics
GENETICS 467	General Genetics 1
GEOG/ GEOSCI 420	Glacial and Pleistocene Geology
GEOSCI/ G L E 627	Hydrogeology
LAND ARC 211	Shaping the Built Environment

MICROBIO 101	General Microbiology
MICROBIO 102	General Microbiology Laboratory
PL PATH 300	Introduction to Plant Pathology
PL PATH 315	Plant Microbiomes
SOIL SCI 301	General Soil Science
ZOOLOGY 405	Introduction to Museum Studies in the Natural Sciences

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all major courses
- 2.000 GPA on 15 upper-level major credits, taken in residence<sup>2</sup>
- 15 credits in the major, taken on the UW–Madison campus

## HONORS IN THE MAJOR

Students may declare Honors in the Conservation Biology Major in consultation with the Conservation Biology undergraduate advisor.

## HONORS IN THE CONSERVATION BIOLOGY MAJOR REQUIREMENTS

To earn Honors in the Major in Conservation Biology, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Complete at least 16 credits, taken for Honors, with a grade of B or better, in the conservation biology major, to include a two-semester Senior Honors Thesis in an appropriate department<sup>3</sup>

## FOOTNOTES

- <sup>1</sup> Students may NOT apply both ZOOLOGY 425 Behavioral Ecology and PSYCH 449 Animal Behavior in the conservation biology program.
- <sup>2</sup> Courses in the major numbered 300 through 699 are considered upper level.
- <sup>3</sup> Examples include Botany, Zoology, Environmental Studies; see the Conservation Biology advisor to verify that your thesis department will be acceptable.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Explain the basic concepts of ecology and evolution and how they underpin and apply to the science of conservation biology.
2. Understand and explain the scientific process as related to conservation biology, including the relevance of theories and how hypotheses are tested.
3. Recognize species within some particular group of organisms and explain key aspects of their ecology, phylogeny, and conservation needs.
4. Apply general ecological principles to assess and address conservation threats to particular species, communities, and ecosystems.
5. Investigate and communicate the connections between the biological and social sciences and humanities as they affect conservation programs and activities.
6. Identify, interpret, and communicate conservation ideas, needs and programs to others.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

The Conservation Biology road map is a tool to assist you and your advisor in planning your academic career. Use it along with your DARS report and the Course Guide/Schedule of Classes. Your specific program of study could, and probably will, look different. You should customize the road map to fit your unique path at UW-Madison. Consult with your advisor about the best path for you.

#### Freshman

Fall	Credits Spring	Credits

BOTANY/ENVIR ST/ F&W ECOL/ ZOOLOGY 651	3 Elective	4-5
	<b>14</b>	<b>16</b>

#### Total Credits 120

- 1 While most incoming freshman are required to complete coursework to fulfill the Communication A requirement, students may be exempted by approved college coursework while in high school, AP test scores, or placement testing. Students are expected to satisfy this requirement by the end of their first year of undergraduate study.
- 2 Students are expected to complete the Ethnic Studies requirement within the first 60 credits of undergraduate study.
- 3 There are three options for Introductory Biology -- please consult the Requirements page of this Guide for more information. The Communication B requirement can be fulfilled by completion of ZOOLOGY/BIOLOGY/BOTANY 152 or BIOCORE 381, BIOCORE 382, or BIOCORE 384 if you choose to take those courses for Introductory Biology.
- 4 INTER-LS 210 L&S Career Development: Taking Initiative is recommended, but not required for students pursuing the Conservation Biology major.

## ADVISING AND CAREERS

### ADVISING AND CAREERS

Students in the Conservation Biology major are assigned a professional academic advisor to provide assistance with major declarations, course selection, registration, DARS, L&S degree and major requirements, and

tracking progress toward graduation, as well as connecting students with important resources on campus. **Because the major is so broad and involves so much choice, it is important for students to meet early and regularly with their academic advisor.**

Students contemplating graduate work in a biological discipline are advised to take the following:

Code	Title	Credits
BIOLOGY/ BOTANY/ ZOOLOGY 151	Introductory Biology	
BIOLOGY/ BOTANY/ ZOOLOGY 152	Introductory Biology	
ANTHRO/ BOTANY/ ZOOLOGY 410	Evolutionary Biology	
BOTANY/ F&W ECOL/ ZOOLOGY 460	General Ecology	

Although not required for the major, such students are also encouraged to consider the following classes:

Code	Title	Credits
CHEM 104	General Chemistry II	
GENETICS 466	Principles of Genetics	
PHYSICS 103	General Physics	
PHYSICS 104	General Physics	
MATH 221	Calculus and Analytic Geometry I	

## L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences

- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

## PEOPLE

### PEOPLE

Committee of Advisors: Cameron (Botany, chair of major), Givnish (Botany), Hotchkiss (Botany/Environmental Studies), Ives (Zoology), Pigeon (Forest & Wildlife Ecology), Schoville (Entomology), Strier (Anthropology), Woodward (Botany).

## RESOURCES AND SCHOLARSHIPS

### RESOURCES AND SCHOLARSHIPS

#### ROLAND H & MAUDE M. BECKER SCHOLARSHIP

Established by Barbara B. Glass in 1988 in memory of her parents, the Roland & Maude Becker Scholarship (<https://conservationbiology.ls.wisc.edu/scholarships/>) provides financial assistance to students with a major in conservation biology. The scholarship is a one-time award to help support a conservation experience related to the major. A conservation experience may include an undergraduate research experience, internship experience, study abroad program, etc. Awards will be in the amount of \$500 and up to two awards will be awarded per academic year.

#### SUCCESSWORKS SUMMER INTERNSHIP SCHOLARSHIP

This scholarship (<https://careers.ls.wisc.edu/ls-finding-an-internship-money-for-your-internship/>) provides amounts ranging from \$2,000 to \$5,000 each to help students take advantage of and enable them to participate in a first time internship opportunity that is unpaid or provides a limited stipend.

#### HILLDALE UNDERGRADUATE/FACULTY RESEARCH FELLOWSHIP

The Hilldale Undergraduate/Faculty Research Fellowships (<https://awards.advising.wisc.edu/all-scholarships/hilldale-undergraduatefaculty-research-fellowship/>) support undergraduate research done in collaboration with UW-Madison faculty or research/instructional academic staff. Approximately 97-100 Hilldale awards are available each year. The student researcher receives \$3,000, and the faculty/staff research advisor receives \$1,000 to help offset research costs (e.g., supplies, faculty or student travel related to the project).

#### HOLSTROM ENVIRONMENTAL RESEARCH FELLOWSHIP

The Holstrom Environmental Research Fellowship (<https://awards.advising.wisc.edu/all-scholarships/holstrom-environmental-research-fellowship/>) supports undergraduate research done in collaboration with UW-Madison faculty or research/instructional academic staff. Research proposals must have an environmental focus, and applicants must have at least a junior standing at the time of application.

Apply spring semester to fund work on the project during the summer or the following academic year.

## UNDERGRADUATE SYMPOSIUM

The annual Undergraduate Symposium (<https://ugradsymposium.wisc.edu/>) showcases undergraduate creativity, achievement, research, service-learning and community-based research from all areas of study at UW–Madison including the humanities, fine arts, biological sciences, physical sciences, and social sciences. This past year nearly 700 students presented, displayed, or performed their work for members of the university, the surrounding community, family, and friends.

## WISCONSIN IDEA FELLOWSHIPS

Wisconsin Idea Fellowships (<https://morgridge.wisc.edu/students/wisconsin-idea-fellowships/>) are awarded annually to undergraduate student projects working toward solving a challenge identified along with local or global community partners. Fellowships are awarded to semester-long or year-long projects designed by an undergraduate student (or group of students) in collaboration with a community organization and a UW–Madison faculty or academic staff member.

## CONSERVATION BIOLOGY, BS

Conservation Biology is a science-based major designed to provide students broad training in biological, ecological, and related disciplines most relevant to conservation. The program emphasizes basic knowledge of natural history, whole organism biology, ecological interactions, and field biology. The major is characterized by flexibility with a broad range of opportunities allowing students to tailor the program to their interests. This major appeals to independent students capable of assembling a curriculum that takes maximum advantage of both strong background, diversity, and specialization, as well as the breadth available through an L&S major. The program has a unique appeal to students passionate about conservation biology, from the social scientist to the theoretical ecologist, and empowers students to act as informed citizens of the natural world.

Former UW professors Aldo Leopold and Norman Fassett first initiated this major in the 1940s to prepare individuals for careers as game wardens, ranger naturalists, and museum workers. These opportunities continue and have expanded to include work in environmental education; land restoration and park management; endangered species research and recovery efforts; private conservation organizations and government agencies; and many more. The major is recommended for those seeking a liberal education in the intrinsic values of natural resources and those preparing for graduate study in the rapidly developing field of conservation biology.

## INTERNSHIP/FIELD EXPERIENCE

Students in the Conservation Biology major are encouraged to take field courses when possible (including suitable study abroad and field-based programs) and to gain additional experience via research, jobs, and internships. Students who wish to obtain academic credit for internships can consider Inter-LS 260: Internship in Liberal Arts and Sciences (<https://successworks.wisc.edu/ls-finding-an-internship/inter-ls-260-internship-course/>) or arrange **in advance** to set up a Directed Study for research or internships with faculty to propose as elective credit in the major. Students pursuing funding for their experiences can refer to the SuccessWorks Summer Internship Scholarship (<https://>

[successworks.wisc.edu/documents/summer-internship-scholarship-application-faq/](https://successworks.wisc.edu/documents/summer-internship-scholarship-application-faq/)), study abroad resources for funding your experience (<https://studyabroad.wisc.edu/funding/>), and advising with the Office of Student Financial Aid (<https://financialaid.wisc.edu/services/>).

## HOW TO GET IN

### HOW TO GET IN

To declare the Conservation Biology major, students must make an appointment (<https://conservationbiology.ls.wisc.edu/requirements/#how-to-declare>) with the program's Academic Advising Manager.

If students are not currently in the College of Letters & Science (L&S), they must transfer into L&S before declaring. Students are welcome to meet with the Academic Advising Manager to discuss the major before transferring.

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

- |                   |  |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> <li>• Breadth–Humanities/Literature/Arts: 6 credits</li> <li>• Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth–Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul> |
|-------------------|--|

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

### COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

## BACHELOR OF SCIENCE DEGREE REQUIREMENTS

**Mathematics** Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.

**Language** Complete the third unit of a language other than English.

**LS Breadth** Complete:

- 12 credits of Humanities, which must include at least 6 credits of Literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.

**Liberal Arts and Science Coursework** Complete at least 108 credits.

**Depth of Intermediate/Advanced Coursework** Complete at least 60 credits at the Intermediate or Advanced level.

**Major** Declare and complete at least one major.

**Total Credits** Complete at least 120 credits.

**UW-Madison Experience** Complete both:

- 30 credits in residence, overall, and
- 30 credits in residence after the 86th credit.

**Quality of Work**

- 2.000 in all coursework at UW-Madison
- 2.000 in Intermediate/Advanced level coursework at UW-Madison

## NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

Conservation biology majors must take at least **50 credits** in the major. When selecting courses to meet major requirements, students are encouraged to meet with their Academic Advising Manager to discuss courses that align with their areas of academic interest.

## INTRODUCTORY COURSES

Code	Title	Credits
<b>Introductory Biology</b>		<b>10</b>

Complete one of the following options:

*Option 1:*

BIOLOGY/ ZOOLOGY 101	Animal Biology
-------------------------	----------------

BIOLOGY/ ZOOLOGY 102	Animal Biology Laboratory
-------------------------	---------------------------

BIOLOGY/ BOTANY 130	General Botany
------------------------	----------------

*Option 2:*

BIOLOGY/ BOTANY/ ZOOLOGY 151	Introductory Biology
------------------------------------	----------------------

BIOLOGY/ BOTANY/ ZOOLOGY 152	Introductory Biology
------------------------------------	----------------------

*Option 3:*

Complete at least 10 credits from the following:

BIOCORE 381	Evolution, Ecology, and Genetics
-------------	----------------------------------

BIOCORE 382	Evolution, Ecology, and Genetics Laboratory
-------------	---

BIOCORE 383	Cellular Biology
-------------	------------------

BIOCORE 384	Cellular Biology Laboratory
-------------	-----------------------------

BIOCORE 485	Principles of Physiology
-------------	--------------------------

BIOCORE 486	Principles of Physiology Laboratory
-------------	-------------------------------------

### Chemistry **4-5**

Complete one of the following:

CHEM 103	General Chemistry I
----------	---------------------

CHEM 108	Chemistry in Our World
----------	------------------------

CHEM 109	Advanced General Chemistry (for those who might take more chemistry)
----------	--

### Physical Environment **3-5**

Complete one of the following:

ATM OCN/ GEOSCI 105	Survey of Oceanography
------------------------	------------------------

ENVIR ST/ GEOSCI 106	Environmental Geology
-------------------------	-----------------------

ENVIR ST/ GEOG 120	Introduction to the Earth System
-----------------------	----------------------------------

ENVIR ST/ GEOG 127	Physical Systems of the Environment
-----------------------	-------------------------------------

GEOSCI 100	Introductory Geology: How the Earth Works
------------	---

### Ecology and Evolution **6-7**

Complete two of the following, each from a different category (students are encouraged to take courses in all three areas):

*Ecology:*

BOTANY/ F&W ECOL/ ZOOLOGY 460	General Ecology
-------------------------------------	-----------------

*Evolution:*

GEOSCI 110	Evolution and Extinction
------------	--------------------------

or ANTHRO/ BOTANY/ ZOOLOGY 410	Evolutionary Biology
--------------------------------------	----------------------

*Extinction:*

ENVIR ST/F&W ECOL/ZOOLOGY 360	Extinction of Species
-------------------------------------	-----------------------

### Statistics **3**

Complete one of the following:

STAT 240	Data Science Modeling I
----------	-------------------------

STAT 301	Introduction to Statistical Methods
----------	-------------------------------------

STAT 371	Introductory Applied Statistics for the Life Sciences
----------	---

**SPECIES & FIELD BIOLOGY**

**Code Title Credits**

Complete 12 credits from:

AGRONOMY/ BOTANY/ SOIL SCI 370	Grassland Ecology
ENTOM/ ZOOLOGY 371	Medical Entomology
AN SCI/ F&W ECOL/ ZOOLOGY 520	Ornithology
AN SCI/ F&W ECOL/ ZOOLOGY 521	Birds of Southern Wisconsin
ANTHRO 391	Bones for the Archaeologist
ANTHRO 420	Introduction to Primatological Research
ANTHRO 458	Primate Behavioral Ecology
ANTHRO 668	Primate Conservation
BOTANY 330	Algae
BOTANY/ PL PATH 332	Fungi
BOTANY/ PL PATH 333	Biology of the Fungi
BOTANY 400	Plant Systematics
BOTANY 401	Vascular Flora of Wisconsin
BOTANY/ F&W ECOL 402	Dendrology: Woody Plant Identification and Ecology
BOTANY 422	Plant Geography
BOTANY/ F&W ECOL 455	The Vegetation of Wisconsin
BOTANY/ ENTOM/ ZOOLOGY 473	Plant-Insect Interactions
ENTOM/ ZOOLOGY 302	Introduction to Entomology
ENTOM 331	Taxonomy of Mature Insects
ENTOM 432	Taxonomy and Bionomics of Immature Insects
ENTOM 468	Studies in Field Entomology
ENVIR ST/ ZOOLOGY 315	Limnology-Conservation of Aquatic Resources
ENVIR ST 375	Field Ecology Workshop
ENVIR ST/ ZOOLOGY 510	Ecology of Fishes
ENVIR ST/ ZOOLOGY 511	Ecology of Fishes Lab
F&W ECOL 306	Terrestrial Vertebrates: Life History and Ecology
F&W ECOL 401	Physiological Animal Ecology
F&W ECOL/ SURG SCI 548	Diseases of Wildlife
F&W ECOL 655	Animal Population Dynamics

GEOSCI/ ZOOLOGY 541	Paleobiology
GEOSCI/ ZOOLOGY 542	Invertebrate Paleontology
LAND ARC/ ENVIR ST 361	Wetlands Ecology
LAND ARC/ ENVIR ST 581	Prescribed Fire: Ecology and Implementation
MICROBIO 303	Biology of Microorganisms
MICROBIO 304	Biology of Microorganisms Laboratory
M M & I/ENTOM/ PATH-BIO/ ZOOLOGY 350	Parasitology
PSYCH 449	Animal Behavior <sup>1</sup> or ZOOLOGY 42 Behavioral Ecology
PSYCH 450	Primate Psychology: Insights into Human Behavior
ZOOLOGY 303	Aquatic Invertebrate Biology
ZOOLOGY 304	Marine Biology
ZOOLOGY 320	Field Marine Biology
ZOOLOGY/ ENVIR ST 315	Limnology-Conservation of Aquatic Resources
ZOOLOGY 316	Laboratory for Limnology-Conservation of Aquatic Resources
ZOOLOGY 430	Comparative Anatomy of Vertebrates

**CONSERVATION BIOLOGY CLASS REQUIREMENT**

BOTANY/ENVIR ST/F&W ECOL/ZOOLOGY 651 Conservation Biology

**ELECTIVES**

**Code Title Credits**

**Social Science Electives**

Complete at least one 3 credit course from Social Science elective list:

A A E 101	Introduction to Agricultural and Applied Economics
A A E/ ENVIR ST 244	The Environment and the Global Economy
AMER IND/ GEOG 410	Critical Indigenous Ecological Knowledges
BOTANY/ AMER IND/ ANTHRO 474	Ethnobotany
C&E SOC/ SOC 140	Introduction to Community and Environmental Sociology
C&E SOC/ F&W ECOL/ SOC 248	Environment, Natural Resources, and Society
ECON 101	Principles of Microeconomics
ECON/ENVIR ST/ POLI SCI/ URB R PL 449	Government and Natural Resources

ENVIR ST/ GEOG 139	Global Environmental Issues
ENVIR ST/ AMER IND 306	Indigenous Peoples and the Environment
ENVIR ST/ GEOG 339	Environmental Conservation
ENVIR ST/ PHILOS 441	Environmental Ethics
ENVIR ST/GEOG/ HISTORY 460	American Environmental History
ENVIR ST/GEOG/ HISTORY 469	The Making of the American Landscape
GEOG 344	Changing Landscapes of the American West
GEOG 359	Australia: Environment and Society
GEOG 538	The Humid Tropics: Ecology, Subsistence, and Development
LAND ARC 363	Earth Partnership: Restoration Education for Equity and Resilience
<b>Electives to attain 50 credits in the major</b>	
AGRONOMY/ HORT 376	Tropical Horticultural Systems
ANTHRO 405	Introduction to Museum Studies in Anthropology
ATM OCN 100	Weather and Climate
ATM OCN 101	Weather and Climate
ATM OCN/ ENVIR ST 171	Global Change: Atmospheric Issues and Problems
BOTANY/ PL PATH 123	Plants, Parasites, and People
BOTANY/ ENVIR ST/ ZOOLOGY 260	Introductory Ecology
BOTANY 300	Plant Anatomy
BOTANY 305	Plant Morphology and Evolution
BOTANY/ ZOOLOGY 450	Midwestern Ecological Issues: A Case Study Approach
BOTANY/ ENTOM/ PL PATH 505	Plant-Microbe Interactions: Molecular and Ecological Aspects
C&E SOC/ ENVIR ST/ GEOG 434	People, Wildlife and Landscapes
ENTOM/ ENVIR ST 201	Insects and Human Culture—a Survey Course in Entomology
ENTOM/ ZOOLOGY 540	Theoretical Ecology
ENTOM 699	Special Problems
ENVIR ST/ILS 126	Principles of Environmental Science
ENVIR ST/GEOG/ SOIL SCI 230	Soil: Ecosystem and Resource
ENVIR ST 307	Literature of the Environment: Speaking for Nature
ENVIR ST/ SOIL SCI 324	Soils and Environmental Quality

ENVIR ST/ CIV ENGR/ GEOG 377	An Introduction to Geographic Information Systems
ENVIR ST/ POP HLTH 471	Introduction to Environmental Health
ENVIR ST/ F&W ECOL 515	Natural Resources Policy
ENVIR ST/ GEOG 537	Culture and Environment
ENVIR ST/ SOIL SCI 575	Assessment of Environmental Impact
F&W ECOL/ ZOOLOGY 335	Human/Animal Relationships: Biological and Philosophical Issues
F&W ECOL 375	Special Topics (Freshwater Conservation)
F&W ECOL 561	Wildlife Management Techniques
F&W ECOL/ LAND ARC/ ZOOLOGY 565	Principles of Landscape Ecology
F&W ECOL 699	Special Problems
GENETICS 466	Principles of Genetics
GENETICS 467	General Genetics 1
GEOG/ GEOSCI 420	Glacial and Pleistocene Geology
GEOSCI/ G L E 627	Hydrogeology
LAND ARC 211	Shaping the Built Environment
MICROBIO 101	General Microbiology
MICROBIO 102	General Microbiology Laboratory
PL PATH 300	Introduction to Plant Pathology
PL PATH 315	Plant Microbiomes
SOIL SCI 301	General Soil Science
ZOOLOGY 405	Introduction to Museum Studies in the Natural Sciences

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all major courses
- 2.000 GPA on 15 upper-level major credits, taken in residence<sup>2</sup>
- 15 credits in the major, taken on the UW-Madison campus

## HONORS IN THE MAJOR

Students may declare Honors in the Conservation Biology Major in consultation with the Conservation Biology undergraduate advisor.

## HONORS IN THE CONSERVATION BIOLOGY MAJOR REQUIREMENTS

To earn Honors in the Major in Conservation Biology, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Complete at least 16 credits, taken for Honors, with a grade of B or better, in the conservation biology major, to include a two-semester Senior Honors Thesis in an appropriate department<sup>3</sup>

## FOOTNOTES

- <sup>1</sup> Students may NOT apply both ZOOLOGY 425 Behavioral Ecology and PSYCH 449 Animal Behavior in the conservation biology program.
- <sup>2</sup> Courses in the major numbered 300 through 699 are considered upper level.
- <sup>3</sup> Examples include Botany, Zoology, Environmental Studies; see the Conservation Biology advisor to verify that your thesis department will be acceptable.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Explain the basic concepts of ecology and evolution and how they underpin and apply to the science of conservation biology.
2. Understand and explain the scientific process as related to conservation biology, including the relevance of theories and how hypotheses are tested.
3. Recognize species within some particular group of organisms and explain key aspects of their ecology, phylogeny, and conservation needs.
4. Apply general ecological principles to assess and address conservation threats to particular species, communities, and ecosystems.
5. Investigate and communicate the connections between the biological and social sciences and humanities as they affect conservation programs and activities.
6. Identify, interpret, and communicate conservation ideas, needs and programs to others.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

The Conservation Biology road map is a tool to assist you and your advisor in planning your academic career. Use it along with your DARS report and the Course Guide/Schedule of Classes. Your specific program of study could, and probably will, look different. You should customize the road map to fit your unique path at UW–Madison. Consult with your advisor about the best path for you.

#### Freshman

Fall	Credits Spring	Credits
Communication A <sup>1</sup>	3 I/A COMP SCI or MATH (if required for the BS)	3-5
Quantitative Reasoning A	3-5 Ethnic Studies <sup>2</sup>	3
Foreign Language (if needed)	3-4 Social Science Breadth	3
CHEM 103	4 Elective	3
	<b>16</b>	<b>14</b>

#### Sophomore

Fall	Credits Spring	Credits

Elective	3-4 Elective	3-4
	<b>15</b>	<b>15</b>

#### Senior

Fall	Credits Spring	Credits
Ecology and Evolution	3-4 Species & Field Biology	3
Species & Field Biology	3 Elective credit in the major (if needed for 50 credits)	3-4

Humanities Breadth	3-4 Social Science Breadth	3-4
BOTANY/ENVIR ST/ F&W ECOL/ ZOOLOGY 651	3 Elective	4-5
<b>14</b>		<b>16</b>

**Total Credits 120**

- <sup>1</sup> While most incoming freshman are required to complete coursework to fulfill the Communication A requirement, students may be exempted by approved college coursework while in high school, AP test scores, or placement testing. Students are expected to satisfy this requirement by the end of their first year of undergraduate study.
- <sup>2</sup> Students are expected to complete the Ethnic Studies requirement within the first 60 credits of undergraduate study.
- <sup>3</sup> There are three options for Introductory Biology -- please consult the Requirements page of this Guide for more information. The Communication B requirement can be fulfilled by completion of ZOOLOGY/BIOLOGY/BOTANY 152 or BIOCORE 381, BIOCORE 382, or BIOCORE 384 if you choose to take those courses for Introductory Biology.
- <sup>4</sup> INTER-LS 210 L&S Career Development: Taking Initiative is recommended, but not required for students pursuing the Conservation Biology major.

## ADVISING AND CAREERS

### ADVISING AND CAREERS

Students in the Conservation Biology major are assigned a professional academic advisor to provide assistance with major declarations, course selection, registration, DARS, L&S degree and major requirements, and tracking progress toward graduation, as well as connecting students with important resources on campus. **Because the major is so broad and involves so much choice, it is important for students to meet early and regularly with their academic advisor.**

Students contemplating graduate work in a biological discipline are advised to take the following:

Code	Title	Credits
BIOLOGY/ BOTANY/ ZOOLOGY 151	Introductory Biology	
BIOLOGY/ BOTANY/ ZOOLOGY 152	Introductory Biology	
ANTHRO/ BOTANY/ ZOOLOGY 410	Evolutionary Biology	
BOTANY/ F&W ECOL/ ZOOLOGY 460	General Ecology	

Although not required for the major, such students are also encouraged to consider the following classes:

Code	Title	Credits
CHEM 104	General Chemistry II	
GENETICS 466	Principles of Genetics	

PHYSICS 103	General Physics
PHYSICS 104	General Physics
MATH 221	Calculus and Analytic Geometry 1

## L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

## PEOPLE

### PEOPLE

Committee of Advisors: Cameron (Botany, chair of major), Givnish (Botany), Hotchkiss (Botany/Environmental Studies), Ives (Zoology), Pigeon (Forest & Wildlife Ecology), Schoville (Entomology), Strier (Anthropology), Woodward (Botany).

## RESOURCES AND SCHOLARSHIPS

### RESOURCES AND SCHOLARSHIPS

#### ROLAND H & MAUDE M. BECKER SCHOLARSHIP

Established by Barbara B. Glass in 1988 in memory of her parents, the Roland & Maude Becker Scholarship (<https://conservationbiology.ls.wisc.edu/scholarships/>) provides financial assistance to students with a major in conservation biology. The scholarship is a one-time award to help support a conservation experience

related to the major. A conservation experience may include an undergraduate research experience, internship experience, study abroad program, etc. Awards will be in the amount of \$500 and up to two awards will be awarded per academic year.

## SUCCESSWORKS SUMMER INTERNSHIP SCHOLARSHIP

This scholarship (<https://careers.ls.wisc.edu/ls-finding-an-internship/money-for-your-internship/>) provides amounts ranging from \$2,000 to \$5,000 each to help students take advantage of and enable them to participate in a first time internship opportunity that is unpaid or provides a limited stipend.

## HILLDALE UNDERGRADUATE/FACULTY RESEARCH FELLOWSHIP

The Hilldale Undergraduate/Faculty Research Fellowships (<https://awards.advising.wisc.edu/all-scholarships/hilldale-undergraduatefaculty-research-fellowship/>) support undergraduate research done in collaboration with UW–Madison faculty or research/instructional academic staff. Approximately 97–100 Hilldale awards are available each year. The student researcher receives \$3,000, and the faculty/staff research advisor receives \$1,000 to help offset research costs (e.g., supplies, faculty or student travel related to the project).

## HOLSTROM ENVIRONMENTAL RESEARCH FELLOWSHIP

The Holstrom Environmental Research Fellowship (<https://awards.advising.wisc.edu/all-scholarships/holstrom-environmental-research-fellowship/>) supports undergraduate research done in collaboration with UW–Madison faculty or research/instructional academic staff. Research proposals must have an environmental focus, and applicants must have at least a junior standing at the time of application. Apply spring semester to fund work on the project during the summer or the following academic year.

## UNDERGRADUATE SYMPOSIUM

The annual Undergraduate Symposium (<https://ugradsymposium.wisc.edu/>) showcases undergraduate creativity, achievement, research, service-learning and community-based research from all areas of study at UW–Madison including the humanities, fine arts, biological sciences, physical sciences, and social sciences. This past year nearly 700 students presented, displayed, or performed their work for members of the university, the surrounding community, family, and friends.

## WISCONSIN IDEA FELLOWSHIPS

Wisconsin Idea Fellowships (<https://morgridge.wisc.edu/students/wisconsin-idea-fellowships/>) are awarded annually to undergraduate student projects working toward solving a challenge identified along with local or global community partners. Fellowships are awarded to semester-long or year-long projects designed by an undergraduate student (or group of students) in collaboration with a community organization and a UW–Madison faculty or academic staff member.

## CENTER FOR LAW, SOCIETY, AND JUSTICE

The Center for Law, Society, and Justice offers an undergraduate major in the College of Letters & Science. The program mission is to provide a liberal education across traditional disciplines, focusing on the theory

and operation of law and legal institutions. Courses in the legal studies major expose students to the many facets of law as a social phenomenon – its evolution, function, motivating ideas, and effects. The major is not intended as preparation for law school because the emphasis is on exploring broadly defined questions about law from a variety of perspectives, rather than on training for the profession. The legal studies major is, however, suitable for pre-law students.

The curriculum is designed around five themes, each of which is associated with a group of courses, and each of which incorporates comparative and historical approaches.

## THEME GROUP 1: LEGAL INSTITUTIONS

Institutions are at the core of social life. They govern our interactions, distribute power and resources, and influence how we make sense of the world. Courses in this theme group focus on those institutions involved in the creation and application of law. They explore such questions as how legal institutions evolve; how legal institutions help determine the shape of law – in doctrine and in action – and how and whether, in turn, legal institutions can be shaped to create different social outcomes. Institutions are central to the studies of society and politics throughout the disciplines, and courses in the group include perspectives from history, anthropology, sociology, political science, and political theory.

## THEME GROUP 2: PROCESSES OF LEGAL ORDER AND DISORDER

This theme examines the dynamics of order at the individual and societal levels. In the course of this examination, students are made aware of the political and social biases that can underlie definitions of "order." This theme should also allow students to address how social and political biases relate to divisions of class, race, and gender, and how the mechanisms of conflict resolution and order maintenance can be used to reinforce or challenge existing power structures.

## THEME GROUP 3: LAW AND SOCIAL FORCES

This theme group explores the intersection between law, social structures, and social movements. Courses in this group address social inequality, generally in the US context, grounded in ethno-racial, gender, and sexuality-based difference. At critical points, the struggle for equality has taken pointedly legal form, whether in the shape of campaigns for legislative change or recognition, or through the litigation of particular cases. Legal categories have informed social identities. Equally, changing social identities have pushed back on legal categories. Courses integrate broad social dynamics with the rise of organized social movements that use law as an arena in which to reassess social life and values.

## THEME GROUP 4: LAW AND CULTURE

This theme group introduces students to legal thought, institutions, and practices beyond mainstream or contemporary legal systems, specifically modern Euro-American legal cultures. Courses in this theme group present either culturally based challenges to mainstream modern legal systems or legal systems that are culturally or historically distinct from them. The comparative study of distinct legal traditions and movements forces us to reexamine the cultural presuppositions embedded in modern legal systems, revealing both good reasons for

defending mainstream Euro-American laws and arguments and models for changing or questioning prevailing systems. Courses examine historical developments in or affecting law, non-Western legal thought or traditions, and the effect of cultural institutions such as religion, literature, or media on law.

## THEME GROUP 5: LAW AND THEORY

Many theoretical and philosophical questions are articulated as propositions about law: its nature, sources, contents, and relations to other aspects of social life. While only some philosophers or social, political, or legal theorists work specifically in the area of "legal theory," almost all work in any of these areas contributes to our understanding of the sources and nature of law, legal institutions, and legal practices, and for many theorists, explicit discussions of law are central elements of their work. Courses in this theme group focus on the ways in which "law" is treated as a working concept or as a subject of study in theoretical works, and conversely on how understandings drawn from theoretical writings inform our own understanding of law in all its dimensions.

## DEGREES/MAJORS/CERTIFICATES

### DEGREES/MAJORS/CERTIFICATES

- Criminal Justice, Certificate (p. 574)
- Legal Studies, BA (p. 577)
- Legal Studies, BS (p. 584)

## CRIMINAL JUSTICE, CERTIFICATE

The Criminal Justice Certificate Program (CJCP) includes an interdisciplinary sequence of classes and an internship, for students interested in the American criminal and juvenile justice systems. Certificate students select courses in legal studies and from the departments of Sociology, Political Science, Social Work, Psychology, Gender and Women's Studies, Anthropology, History, Human Development and Family Studies, Rehabilitation Psychology, Integrated Liberal Studies, and Counseling Psychology. Students gain a broad understanding of the philosophy, theories, and operation of the adult and juvenile justice systems.

## HOW TO GET IN

### HOW TO GET IN

Any undergraduate regardless of major or college affiliation may earn this certificate. Students interested in earning a certificate in criminal justice must declare the certificate with the Criminal Justice advisor. Students are encouraged to declare the certificate as early as possible within their college careers. Field work/internship/research seminar courses require advanced planning and authorization by the administering program.

## REQUIREMENTS

### REQUIREMENTS

To earn a criminal justice certificate, a student must complete all requirements for a bachelor's degree, requirements of the declared major(s), and graduate from UW-Madison. In addition, students must take all required certificate courses for a letter grade versus pass/fail. It is not necessary to take classes in any particular sequence; however, individual courses may have prerequisites.

### REQUIREMENTS FOR THE CERTIFICATE

The certificate requires a minimum of six courses and a minimum of 14 credits. The courses must be distributed as follows:

Code	Title	Credits
Complete one course from each of the six defined Groups		
Of the six courses, one course should be related to race and justice studies.		

#### Group 1—Criminal Justice System

Code	Title	Credits
LEGAL ST/SOC 131	Criminal Justice in America	3-4

#### Group 2—Theories of Crime and Deviant Behavior

Code	Title	Credits
SOC 421	Processes of Deviant Behavior	3-4
SOC 441	Criminology	3-4
SOC 446	Juvenile Delinquency	3-4
PSYCH 510	Critical Issues in Child Psychopathology	4
PSYCH 526	The Criminal Mind: Forensic and Psychobiological Perspectives	4
SOC WORK 612	Psychopathology in Generalist Social Work Practice	2
SOC WORK 643	Social Work and Delinquency	2-3

#### Group 3—Crime and Justice/Operations of the Justice System

Code	Title	Credits
HISTORY/LEGAL ST 426	The History of Punishment	3-4
LEGAL ST/ GEN&WS/SOC 425	Crime, Gender and Justice	3
LEGAL ST 435	Civil Rights: Policing, Prisons, Voting, Housing, Employment	3
LEGAL ST/CHICLA/ SOC 440	Ethnicity, Race, and Justice	3-4
LEGAL ST/L I S 460	Surveillance, Privacy, and Police Powers	3
POLI SCI 314	Criminal Law and Justice	3-4
PSYCH 401	Psychology, Law, and Social Policy	3

#### Group 4—Broader Psycho/Socio/Economic Processes Related to Criminal Justice

Code	Title	Credits
AFROAMER/ GEN&WS 625	Gender, Race and the Civil Rights Movement	3

ANTHRO 448	Anthropology of Law	3
HISTORY/ ED POL 143	History of Race and Inequality in Urban America	3
HISTORY/LEGAL ST 459	Rule of Law: Philosophical and Historical Models	3-4
HDFS 474	Racial Ethnic Families in the U.S.	3
LEGAL ST/ RP & SE 135	Disability and the Criminal Justice System	3
LEGAL ST 400	Topics in Legal Studies and the Social Sciences	3-4
LEGAL ST 409	Human Rights in Law and Society	3
LEGAL ST/GEN&WS 422	Women and the Law	3
LEGAL ST/CHICLA/ SOC 443	Immigration, Crime, and Enforcement	3-4
LEGAL ST 444	Law in Action	3
LEGAL ST 450	Topics in Legal Studies and the Humanities	3
LEGAL ST/ HISTORY 477	History of Forensic Science	3
LEGAL ST/SOC 641	Sociology of Law	3-4
POLI SCI 412	The American Constitution: Rights and Civil Liberties	4
PSYCH 405	Adult Psychopathology	3-4
SOC/AMER IND/ C&E SOC 578	Poverty and Place	3
SOC 633	Social Stratification	3
SOC WORK 420	Poverty and Social Welfare	3
SOC WORK 453	Substance Use Disorders	3
SOC WORK 462	Child Welfare	3
SOC WORK 523	Family Violence	3
SOC WORK 627	Sex Trafficking and Sex Trading	2
SOC WORK 640	Diversity, Oppression and Social Justice in Social Work	3
SOC WORK 646	Child Abuse and Neglect	2

**Group 5–Ethnography–Internship Prep**

Code	Title	Credits
COM ARTS 371	Communication and Conflict Resolution	3
COM ARTS 373	Intercultural Communication & Rhetoric	3
COM ARTS 565	Communication and Interethnic Behavior	3
COUN PSY 225	Intersectionalities, Self Awareness, and Social Actions for Social Change	3
COUN PSY 237	Mental Health, Self-Awareness, and Social Justice: Working in Diverse Communities	3
COUN PSY 325	Seminar: Students Seeking Educational Equity and Diversity (SEED)	3-4
COUN PSY 650	Theory and Practice in Interviewing	3
COUN PSY 655	Clinical Communication Skills	3

HISTORY 300	History at Work: Professional Skills of the Major	1-2
INTER-HE 202	SoHE Career & Leadership Development	1
INTER-LS 210	L&S Career Development: Taking Initiative	1
INTER-LS 215	Communicating About Careers	3
POLI SCI 316	Careers in Political Science	1
SOC 205	Intercultural Dialogues	3
SOC WORK 441	Generalist Practice with Individuals, Families and Groups	3

**Group 6–Fieldwork/Internship/Research Seminar**

The primary internship course administered by our program is LEGAL ST/ SOC 694 The course requires a concurrent internship. To be eligible for the course, students complete a pre-internship placement process the semester prior to the internship. The pre-internship process begins with a required orientation.

The other listed internship and research opportunities are administered by other programs. Some may be limited to students who are declared in those specific programs. All require advance lead time and authorization for enrollment by the specific program.

Code	Title	Credits
CSCS 601	Internship	1-6
GEN&WS 660	Internship in Gender and Women's Studies	3
LEGAL ST 473	Health Impacts of Unmet Social Needs	3
LEGAL ST/SOC 694	Criminal Justice Field Observation	3
HDFS 592	Research Experience in Human Development and Family Studies	1-3
HDFS 601	Internship	1-8
POLI SCI 315	Legislative Internship	3
POLI SCI 402	Wisconsin in Washington Internship Course	4
PUB AFFR 327	Administrative Internship	3
RP & SE 630	Internship in Rehabilitation or Special Education	2-6
SOC 320	Research Practicum in Sociology	1-3
SOC WORK 400	Field Practice and Integrative Seminar I	2-6

**Race and Justice Studies**

At least one course in the certificate must have substantial content dealing with race and justice studies. For this requirement, a course can count both for purposes of meeting a Group requirement and the Race and Justice Studies requirement. The following courses fulfill the Race and Justice Studies requirement.

Code	Title	Credits
AFROAMER/ GEN&WS 625	Gender, Race and the Civil Rights Movement	3
HDFS 474	Racial Ethnic Families in the U.S.	3
LEGAL ST 435	Civil Rights: Policing, Prisons, Voting, Housing, Employment	3
LEGAL ST/CHICLA/ SOC 440	Ethnicity, Race, and Justice	3-4

LEGAL ST/CHICLA/ SOC 443	Immigration, Crime, and Enforcement	3-4
SOC WORK 420	Poverty and Social Welfare	3
SOC WORK 640	Diversity, Oppression and Social Justice in Social Work	3
SOC/AMER IND/ C&E SOC 578	Poverty and Place	3
SOC 633	Social Stratification	3

### Electives

Students can take additional courses from any category as needed to meet the 14 credit minimum.

## RESIDENCE AND QUALITY OF WORK

- At least 7 certificate credits must be completed in residence
- Minimum 2.000 GPA on all certificate courses.

## CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

### LEARNING OUTCOMES

## LEARNING OUTCOMES

1. To develop an appreciation for how the criminal justice system works and how it affects American society as a whole.
2. To develop and improve critical thinking and analytics in written and oral communication skills.
3. To develop an appreciation of mental health and substance abuse as they intersect with the criminal justice system.
4. To develop skills transferable to future professional, community and educational pursuits.

### ADVISING AND CAREERS

## ADVISING AND CAREERS

### ADVISING APPOINTMENTS: PLEASE SCHEDULE VIA STARFISH ([HTTPS://ADVISING.WISC.EDU/FACSTAFF/STARFISH/STARFISH-STUDENT-RESOURCES/](https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/))

1. Log in to your MyUW (<http://my.wisc.edu/>).
2. Open the **Starfish** app (if you do not see it, you can begin by searching for it in MyUW and adding it to your dashboard).
3. Within the Starfish app, select Martine Delannay or Micha Schwab and find an available date and time.

More help on using Starfish can be found here: <https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/>

If you are not a UW student, please email us at [cjcp@ssc.wisc.edu](mailto:cjcp@ssc.wisc.edu) to schedule a meeting.

## CAREERS

CJCP graduates have secured jobs in police departments, district attorneys' offices, public defenders' offices, juvenile group homes, adult halfway houses, public schools, and prisons. They have been involved in restitution programs, deferred prosecution alternatives, victim-witness projects, and home detention/electronic monitoring experiments. The options are numerous and interesting. Many CJCP students pursue a degree in law or attend graduate school in a related field.

SuccessWorks (<http://careers.ls.wisc.edu/>) at the College of Letters & Science provides students with a wide range of career-related services.

## L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

### WISCONSIN EXPERIENCE

## WISCONSIN EXPERIENCE

All students complete an intensive internship with an agency or organization related to the criminal and juvenile justice fields. Involvement in the CJCP provides a solid educational foundation in criminal justice. It introduces students to basic concepts about our justice system and the individuals it serves. It encourages exploration of critical issues facing the system today and fosters investigation into realistic solutions.

## LEGAL STUDIES, BA

Legal studies is an undergraduate major in the College of Letters & Science. The program's mission is to provide a liberal education across traditional disciplines, focusing on the theory and operation of law and legal institutions. The courses in the legal studies major expose students to the many facets of law as a social phenomenon – its evolution, function, motivating ideas, and effects. The major is not intended as preparation for law school because the emphasis is on exploring broadly defined questions about law from a variety of perspectives, rather than on training for the profession. The legal studies major is, however, suitable for pre-law students.

The curriculum is designed around the following five themes: Legal Institutions, Processes of Legal Order and Disorder, Law and Social Forces, Law and Culture, and Law and Theory.

### THEME GROUP 1: LEGAL INSTITUTIONS

Institutions are at the core of social life. They govern our interactions, distribute power and resources, and influence how we make sense of the world. Courses in this theme group focus on those institutions involved in the creation and application of law. They explore such questions as how legal institutions evolve; how legal institutions help determine the shape of law – in doctrine and in action – and how and whether, in turn, legal institutions can be shaped to create different social outcomes. Institutions are central to the studies of society and politics throughout the disciplines, and courses in the group include perspectives from history, anthropology, sociology, political science, and political theory.

### THEME GROUP 2: PROCESSES OF LEGAL ORDER AND DISORDER

This theme examines the dynamics of order at the individual and societal level. In the course of this examination, students are made aware of the political and social biases that can underlie definitions of "order." This theme should also allow students to address how social and political biases relate to divisions of class, race, and gender, and how the mechanisms of conflict resolution and order maintenance can be used to reinforce or challenge existing power structures.

### THEME GROUP 3: LAW AND SOCIAL FORCES

This theme group explores the intersection between law, social structures, and social movements. Courses in this group address social inequality, generally in the U.S. context, grounded in ethno-racial, gender, and sexuality-based difference. At critical points, the struggle for equality has taken pointedly legal form, whether in the shape of campaigns for legislative change or recognition, or through the litigation of particular cases. Legal categories have informed social identities. Equally, changing social identities have pushed back on legal categories. Courses integrate broad social dynamics with the rise of organized social movements that use law as an arena in which to reassess social life and values.

### THEME GROUP 4: LAW AND CULTURE

This theme group introduces students to legal thought, institutions, and practices beyond mainstream or contemporary legal systems,

specifically modern Euro-American legal cultures. Courses in this theme group present either culturally based challenges to mainstream modern legal systems or legal systems that are culturally or historically distinct from them. The comparative study of distinct legal traditions and movements forces us to reexamine the cultural presuppositions embedded in modern legal systems, revealing both good reasons for defending mainstream Euro-American laws and arguments and models for changing or questioning prevailing systems. Courses examine historical developments in or affecting law, non-Western legal thought or traditions, and the effect of cultural institutions such as religion, literature, or media on law.

### THEME GROUP 5: LAW AND THEORY

Many theoretical and philosophical questions are articulated as propositions about law: its nature, sources, contents, and relations to other aspects of social life. While only some philosophers or social, political, or legal theorists work specifically in the area of "legal theory," almost all work in any of these areas contributes to our understanding of the sources and nature of law, legal institutions, and legal practices, and for many theorists, explicit discussions of law are central elements of their work. Courses in this theme group focus on the ways in which "law" is treated as a working concept or as a subject of study in theoretical works, and conversely on how understandings drawn from theoretical writings inform our own understanding of law in all its dimensions.

## HOW TO GET IN

### HOW TO GET IN

#### REQUIREMENTS TO DECLARE THE MAJOR

Those wishing to declare the major should complete the first step to declaring legal studies form ([https://docs.google.com/forms/d/e/1FAIpQLSdpbAGckG9vVLYyc2-OSIfcZpxJLUmre0kxdojo5NmoBVLbag/viewform/?usp=sf\\_link](https://docs.google.com/forms/d/e/1FAIpQLSdpbAGckG9vVLYyc2-OSIfcZpxJLUmre0kxdojo5NmoBVLbag/viewform/?usp=sf_link)) or make an appointment with an advisor via StarFish (<https://wisc.starfishsolutions.com/starfish-ops/dl/instructor/serviceCatalog.html?bookmark=service/64448/schedule>).

**To declare the legal studies major, students must complete three (3) prerequisite courses with grades of C or better.** Students may be exempt from COMM-A by their English Placement score and from QR-A by their Math Placement score.

The three prerequisite courses consist of:

- a Communication A course;
- a Quantitative Reasoning A course; and
- one "Gateway Course" chosen from the list below.

#### Gateway Courses

Code	Title	Credits
Select one of the following:		
LEGAL ST/SOC 131	Criminal Justice in America	3-4
LEGAL ST/POLI SCI 217	Law, Politics and Society	

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

- |                   |  |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> <li>• Breadth–Humanities/Literature/Arts: 6 credits</li> <li>• Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth–Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul> |
|-------------------|--|

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

### COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

#### BACHELOR OF ARTS DEGREE REQUIREMENTS

**Mathematics** Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.

- |          |  |
|----------|--|
| Language | <ul style="list-style-type: none"> <li>• Complete the fourth unit of a language other than English; OR</li> <li>• Complete the third unit of a language and the second unit of an additional language other than English.</li> </ul> |
|----------|--|

- |            |  |
|------------|--|
| LS Breadth | <ul style="list-style-type: none"> <li>• 12 credits of Humanities, which must include 6 credits of literature; and</li> <li>• 12 credits of Social Science; and</li> <li>• 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.</li> </ul> |
|------------|--|

Liberal Arts and Science Coursework	Complete at least 108 credits.
Depth of Intermediate/Advanced work	Complete at least 60 credits at the intermediate or advanced level.
Major	Declare and complete at least one major.
Total Credits	Complete at least 120 credits.
UW–Madison Experience	<ul style="list-style-type: none"> <li>• 30 credits in residence, overall; and</li> <li>• 30 credits in residence after the 86th credit.</li> </ul>
Quality of Work	<ul style="list-style-type: none"> <li>• 2,000 in all coursework at UW–Madison</li> <li>• 2,000 in Intermediate/Advanced level coursework at UW–Madison</li> </ul>

### NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

### REQUIREMENTS FOR THE MAJOR

11 total courses in the following categories and a minimum of 33 credits.

#### THEME: LEGAL INSTITUTIONS

Two courses required from:

Code	Title	Credits
<i>Theme Group 1: Legal Institutions</i>		
ELPA/ED POL/ LEGAL ST 542	Law and Public Education	3
GEN BUS 301	Business Law	3
GEOG 307	International Migration, Health, and Human Rights	3
INTL ST 602	Topics in Politics and Policy in the Global Economy (Topic: The EU and the World)	3
LEGAL ST/ HISTORY 261	American Legal History to 1860	3
LEGAL ST/ HISTORY 262	American Legal History, 1860 to the Present	3
LEGAL ST 400	Topics in Legal Studies and the Social Sciences	3–4
LEGAL ST 409	Human Rights in Law and Society	3
LEGAL ST/SOC 415	The Legal Profession	3–4
LEGAL ST 444	Law in Action	3
LEGAL ST 450	Topics in Legal Studies and the Humanities	3–4

LEGAL ST/LAW/ SOC 641	Sociology of Law	3-4
POLI SCI 304	The Political Economy of Race in the United States	3-4
POLI SCI 311	United States Congress	3-4
POLI SCI 340	The European Union: Politics and Political Economy	3-4
POLI SCI 347	Terrorism	3
POLI SCI 349	Global Access to Justice	3
POLI SCI 354	International Institutions and World Order	3-4
POLI SCI 356	Principles of International Law	3-4
POLI SCI 405	State Government and Public Policy	3-4
POLI SCI 408	The American Presidency	3-4
POLI SCI 411	The American Constitution : Powers and Structures of Government	4
POLI SCI 412	The American Constitution: Rights and Civil Liberties	4
POLI SCI 414	The Supreme Court as a Political Institution	3
POLI SCI 417	The American Judicial System	3-4
POLI SCI/ PUB AFFR 419	Administrative Law	3-4
POLI SCI 432	Comparative Legal Institutions	3-4
POLI SCI/ INTL ST 434	The Politics of Human Rights	3-4
POLI SCI/ GEN&WS 435	Politics of Gender and Women's Rights in the Middle East	3
POLI SCI/ INTL ST 439	The Comparative Study of Genocide	3-4
POLI SCI 470	The First Amendment	3-4
POLI SCI 538	Politics and Policies in the European Union	3-4
POLI SCI 601	Proseminar: Topics in Political Science (Topic: Supreme Court)	3
POLI SCI 635	Comparative Politics of Sport	3-4
PUB AFFR 270	The Private and Public Sectors in Policymaking	3

**THEME DISTRIBUTION**

Four courses from at least three of the following Theme groups.

**Process of Legal Order and Disorder**

Code	Title	Credits
<i>Theme 2: Processes of Legal Order Disorder</i>		
COM ARTS 371	Communication and Conflict Resolution	3
HISTORY 344	The Age of the American Revolution, 1763-1789	3-4
INTL ST 601	Topics in Global Security (Topic: International Criminal Justice: Models Practice)	1-4
LEGAL ST/L I S 460	Surveillance, Privacy, and Police Powers	3
LEGAL ST/SOC 694	Criminal Justice Field Observation	2-3
POLI SCI 314	Criminal Law and Justice	3-4

PSYCH 526	The Criminal Mind: Forensic and Psychobiological Perspectives	4
PSYCH 601	Current Topics in Psychology (*Juv Delin)	3
R M I 615	Liability Risk Management	3
SOC 421	Processes of Deviant Behavior	3-4
SOC 441	Criminology	3-4
SOC 446	Juvenile Delinquency	3-4

**Law and Social Forces**

Code	Title	Credits
<i>Theme 3: Law Social Forces</i>		
AFROAMER 272	Race and American Politics from the New Deal to the New Right	3
AFROAMER/ GEN&WS 323	Gender, Race and Class: Women in U.S. History	3
AFROAMER/ GEN&WS 326	Race and Gender in Post-World War II U.S. Society	3
AFROAMER/ GEN&WS 625	Gender, Race and the Civil Rights Movement	3
AFROAMER 671	Selected Topics in Afro-American History (*Crim Blkns; Race Inprison)	3
AFROAMER 673	Selected Topics in Afro-American Society (*Race and Policing )	3
AMER IND 450	Issues in American Indian Studies (*Indigenous Rights *Nat Resources *Fed Ind Law *Ind Child Welfare)	3
ECON 522	Law and Economics	3-4

ENGL 182	Introduction to Literature for Honors (Topic: Doing Time)	3
ENGL 457	Topic in American Literature and Culture since 1900 (Topic: Law and Literature)	3
HISTORY 500	Reading Seminar in History (*Chinese Law)	3
ILS 371	Interdisciplinary Studies in the Arts and Humanities (*Books by Crooks)	3
LEGAL ST/ HISTORY 477	History of Forensic Science	3

LEGAL ST/ HISTORY 510	Legal Pluralism	3
LITTRANS 236	Bascom Course-In Translation (*Extreme Stories)	3
LITTRANS 324	Topics in Scandinavian Literature (*Criminal Utopias)	3-4

### Law and Theory

Code	Title	Credits
<i>Theme 5: Law Theory</i>		
HISTORY/ LEGAL ST 476	Medieval Law and Society	3
LEGAL ST 407	Jurisprudence and Social Issues	3
LEGAL ST/HISTORY 426	The History of Punishment	3-4
LEGAL ST/ HISTORY 459	Rule of Law: Philosophical and Historical Models	3-4
JOURN 563	Law of Mass Communication	4
MED HIST/ PHILOS 558	Ethical Issues in Health Care	3
PHILOS 304	Topics in Philosophy: Humanities (Philos and Criminal Punishment)	3-4
PHILOS 341	Contemporary Moral Issues	3-4
PHILOS/MED HIST/ AGRONOMY/C&E SOC 565	The Ethics of Modern Biotechnology	3

### METHODS AND RESEARCH

Two courses, one each from:

Code	Title	Credits
<b>Research Design</b>		
POLI SCI 170	Research Methods in Political Science	
POLI SCI/ JOURN/ URB R PL 373	Introduction to Survey Research	
PSYCH 225	Research Methods	
PUB AFFR 240	Evidence-Based Policy Making	
PUB AFFR 380	Analytic Tools for Public Policy	
SOC/ C&E SOC 357	Methods of Sociological Inquiry	
<b>Statistics</b>		
ECON 310	Statistics: Measurement in Economics	
GEN BUS 306	Business Analytics I	
PSYCH 210	Basic Statistics for Psychology	
SOC/ C&E SOC 360	Statistics for Sociologists I	
STAT 301	Introduction to Statistical Methods	
STAT 371	Introductory Applied Statistics for the Life Sciences	

## CORE PERSPECTIVES

Please note: Though some courses may appear in more than one Theme Group and/or Core Perspective, a single course will only satisfy one (and only one) requirement. Courses will not be double counted.

Code	Title	Credits
<b>One Core Perspective course:</b>		
LEGAL ST/ HISTORY 261	American Legal History to 1860	
LEGAL ST/ HISTORY 262	American Legal History, 1860 to the Present	
LEGAL ST 400	Topics in Legal Studies and the Social Sciences	
LEGAL ST 407	Jurisprudence and Social Issues	
LEGAL ST 409	Human Rights in Law and Society	
LEGAL ST/ GEN&WS/ SOC 425	Crime, Gender and Justice	
LEGAL ST/ HISTORY 426	The History of Punishment	
LEGAL ST 435	Civil Rights: Policing, Prisons, Voting, Housing, Employment	
LEGAL ST/ CHICLA/ SOC 440	Ethnicity, Race, and Justice	
LEGAL ST/ CHICLA/ SOC 443	Immigration, Crime, and Enforcement	
LEGAL ST 450	Topics in Legal Studies and the Humanities	
LEGAL ST/ HISTORY 459	Rule of Law: Philosophical and Historical Models	
LEGAL ST/ L I S 460	Surveillance, Privacy, and Police Powers	
LEGAL ST/ HISTORY 477	History of Forensic Science	
LEGAL ST/ HISTORY 510	Legal Pluralism

## GLOBAL LEGAL SYSTEMS

At least two courses in the major must have substantial content dealing with countries or cultures outside the United States, or with the international legal system. For this requirement, a course can count both for purposes of meeting the Distribution requirement above and the

Global Legal Systems requirement. The following courses fulfill the Global Legal Systems requirement:

Code	Title	Credits
<b>Two Global Legal Systems courses:</b>		
ANTHRO 350	Political Anthropology	3-4
ANTHRO 448	Anthropology of Law	3
ENGL 174	Literature and Social Justice (*Law and Literature)	3
ENGL 457	Topic in American Literature and Culture since 1900 (Topic: Law and Literature)	3
ENGL 548	Topic in Literature and Politics (*Guilt)	3
GEOG 307	International Migration, Health, and Human Rights	3
HISTORY 201	The Historian's Craft (Topic: Shanghai Life and Crime; Topic: Global History of Unpaid Labor; Topic: Global History of Human Rights)	3-4
HISTORY 500	Reading Seminar in History (Topic: Chinese Law)	3
INTL ST 401	Topics in Global Security (Topic: Human Rights in Global Context)	3-4
INTL ST 601	Topics in Global Security (Topic: International Criminal Justice)	1-4
INTL ST 602	Topics in Politics and Policy in the Global Economy (Topic: The EU and the World)	1-4
LEGAL ST/JEWISH/ RELIG ST 203	Jewish Law, Business, and Ethics	3
LEGAL ST 400	Topics in Legal Studies and the Social Sciences (Law, Sexuality and Society)	3-4
LEGAL ST 400	Topics in Legal Studies and the Social Sciences (Law, Justice and Climate Change)	3-4
LEGAL ST 409	Human Rights in Law and Society	3
LEGAL ST/SOC 425	Crime, Gender and Justice	3
LEGAL ST/HISTORY 426	The History of Punishment	3-4
LEGAL ST/ ENVIR ST/ HISTORY 430	Law and Environment: Historical and Contemporary Perspectives	3
LEGAL ST 450	Topics in Legal Studies and the Humanities (Topic: Criminal Justice and Popular Culture)	3-4
LEGAL ST 450	Topics in Legal Studies and the Humanities (Courts, Constitutionalism and Human Rights)	3-4
LEGAL ST/ HISTORY 459	Rule of Law: Philosophical and Historical Models	3-4
LEGAL ST/ HISTORY 476	Medieval Law and Society	3

LEGAL ST/ HISTORY 477	History of Forensic Science	3	LEGAL ST 435	Civil Rights: Policing, Prisons, Voting, Housing, Employment	3
LEGAL ST/HISTORY 510	Legal Pluralism	3	LEGAL ST/CHICLA/ SOC 440	Ethnicity, Race, and Justice	3-4
LEGAL ST 600	Special Topics in Legal Studies	1-3	LEGAL ST/CHICLA/ SOC 443	Immigration, Crime, and Enforcement	3-4
LITTRANS 236	Bascom Course-In Translation (Topic: Extreme Stories)	3	PUB AFFR 520	Inequality, Race and Public Policy	3
LITTRANS 324/ SCAND ST 436	Topics in Scandinavian Literature (Topic: Criminal Utopias)	3-4	SOC/ASIAN AM 220	Ethnic Movements in the United States	3-4
POLI SCI 340	The European Union: Politics and Political Economy	3-4			
POLI SCI 347	Terrorism	3			
POLI SCI 349	Global Access to Justice	3			
POLI SCI 354	International Institutions and World Order	3-4			
POLI SCI 356	Principles of International Law	3-4			
POLI SCI 401	Selected Topics in Political Science (Topic: Global Access to Justice)	3-4			
POLI SCI 432	Comparative Legal Institutions	3-4			
POLI SCI/ INTL ST 434	The Politics of Human Rights	3-4			
POLI SCI/ GEN&WS 435	Politics of Gender and Women's Rights in the Middle East	3			
POLI SCI/ INTL ST 439	The Comparative Study of Genocide	3-4			
POLI SCI 635	Comparative Politics of Sport	3-4			

## RACE AND JUSTICE STUDIES

At least one course in the major must have substantial content dealing with race and justice studies. For this requirement, a course can count both for purposes of meeting the Distribution requirement above and the Race and Justice Studies requirement. The following courses fulfill the Race and Justice Studies requirement.

Code	Title	Credits
AFROAMER 272	Race and American Politics from the New Deal to the New Right	3
AFROAMER/ GEN&WS 323	Gender, Race and Class: Women in U.S. History	3
AFROAMER/ GEN&WS 326	Race and Gender in Post-World War II U.S. Society	3
AFROAMER/ GEN&WS 625	Gender, Race and the Civil Rights Movement	3
AFROAMER/ HISTORY 628	History of the Civil Rights Movement in the United States	3
HISTORY/ ED POL 143	History of Race and Inequality in Urban America	3
HISTORY/ GEN&WS 315	Gender, Race and Colonialism	3
HISTORY/ AFROAMER 393	Slavery, Civil War, and Reconstruction, 1848-1877	3-4
HISTORY 403	Immigration and Assimilation in American History	3-4
LEGAL ST 400	Topics in Legal Studies and the Social Sciences (Topic: Criminal Injustice in America)	3-4

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all LEGAL ST and major courses
- 2.000 GPA on 15 upper-level major credits, taken in residence<sup>1</sup>
- 15 credits in LEGAL ST and courses for the major, taken on campus

## HONORS IN THE MAJOR

Students may apply for admission to Honors in the Legal Studies Major in consultation with the Legal Studies undergraduate advisor(s).

## HONORS IN THE LEGAL STUDIES MAJOR: ENTRANCE REQUIREMENTS

- Declaration of the legal studies major
- A 3.300 University GPA
- A 3.500 GPA for all LEGAL ST courses, and all courses accepted in the major
- Completion of or current enrollment in, for Honors credit, at least one course accepted in the major

## HONORS IN THE LEGAL STUDIES MAJOR: REQUIREMENTS

To earn Honors in the Major in Legal Studies, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA for all LEGAL ST courses, and all courses accepted in the major
- Complete the research design and statistics requirements for the regular major prior to enrollment in the Senior Honors Thesis (typically junior year)
- Complete 15 credits in the major, taken for Honors, earning a B or better grade in each course
- Complete a two-semester Senior Honors thesis in LEGAL ST 681 and LEGAL ST 682, for a total of 6 credits.

## FOOTNOTES

<sup>1</sup> Upper-level in the major includes all LEGAL ST and major courses that are designated Intermediate or Advanced level.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Analyze and articulate their own arguments about how social, political, and cultural phenomena shape law and legal systems.
2. Analyze and articulate their own arguments about the social, political, and cultural impacts of law at the societal and individual levels.
3. Demonstrate knowledge about how legal ideas and ideologies have changed over time and have shaped law and legal systems.
4. Demonstrate their abilities to find, interpret, and utilize resources relevant to law and society.
5. Demonstrate their abilities to analyze information, to write clearly and persuasively, and to construct original arguments.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

#### First Year

Fall	Credits Spring	Credits
Communication A (complete during the first year)	3 Ethnic Studies (complete within first 60 credits)	3

## ADVISING AND CAREERS

### ADVISING AND CAREERS

#### ADVISING APPOINTMENTS: PLEASE SCHEDULE VIA STARFISH ([HTTPS://ADVISING.WISC.EDU/FACSTAFF/STARFISH/STARFISH-STUDENT-RESOURCES/](https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/))

1. Log in to your MyUW (<http://my.wisc.edu/>)
2. Open the **Starfish** app (if you do not see it, you can begin by searching for it in MyUW and adding it to your dashboard)
3. Within the Starfish app, select Micha Schwab or Martine Delannay and find an available date and time

More help on using Starfish can be found here: <https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/>.

If you are not a UW student, please email us at [cjcp@ssc.wisc.edu](mailto:cjcp@ssc.wisc.edu) to schedule a meeting.

### L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

## LEGAL STUDIES, BS

Legal studies is an undergraduate major in the College of Letters & Science. The program's mission is to provide a liberal education across

traditional disciplines, focusing on the theory and operation of law and legal institutions. The courses in the legal studies major expose students to the many facets of law as a social phenomenon – its evolution, function, motivating ideas, and effects. The major is not intended as preparation for law school because the emphasis is on exploring broadly defined questions about law from a variety of perspectives, rather than on training for the profession. The legal studies major is, however, suitable for pre-law students.

The curriculum is designed around the following five themes: Legal Institutions, Processes of Legal Order and Disorder, Law and Social Forces, Law and Culture, and Law and Theory.

### THEME GROUP 1: LEGAL INSTITUTIONS

Institutions are at the core of social life. They govern our interactions, distribute power and resources, and influence how we make sense of the world. Courses in this theme group focus on those institutions involved in the creation and application of law. They explore such questions as how legal institutions evolve; how legal institutions help determine the shape of law – in doctrine and in action – and how and whether, in turn, legal institutions can be shaped to create different social outcomes. Institutions are central to the studies of society and politics throughout the disciplines, and courses in the group include perspectives from history, anthropology, sociology, political science, and political theory.

### THEME GROUP 2: PROCESSES OF LEGAL ORDER AND DISORDER

This theme examines the dynamics of order at the individual and societal level. In the course of this examination, students are made aware of the political and social biases that can underlie definitions of "order." This theme should also allow students to address how social and political biases relate to divisions of class, race, and gender, and how the mechanisms of conflict resolution and order maintenance can be used to reinforce or challenge existing power structures.

### THEME GROUP 3: LAW AND SOCIAL FORCES

This theme group explores the intersection between law, social structures, and social movements. Courses in this group address social inequality, generally in the U.S. context, grounded in ethno-racial, gender, and sexuality-based difference. At critical points, the struggle for equality has taken pointedly legal form, whether in the shape of campaigns for legislative change or recognition, or through the litigation of particular cases. Legal categories have informed social identities. Equally, changing social identities have pushed back on legal categories. Courses integrate broad social dynamics with the rise of organized social movements that use law as an arena in which to reassess social life and values.

### THEME GROUP 4: LAW AND CULTURE

This theme group introduces students to legal thought, institutions, and practices beyond mainstream or contemporary legal systems, specifically modern Euro-American legal cultures. Courses in this theme group present either culturally based challenges to mainstream modern legal systems or legal systems that are culturally or historically distinct from them. The comparative study of distinct legal traditions and movements forces us to reexamine the cultural presuppositions

embedded in modern legal systems, revealing both good reasons for defending mainstream Euro-American laws and arguments and models for changing or questioning prevailing systems. Courses examine historical developments in or affecting law, non-Western legal thought or traditions, and the effect of cultural institutions such as religion, literature, or media on law.

## THEME GROUP 5: LAW AND THEORY

Many theoretical and philosophical questions are articulated as propositions about law: its nature, sources, contents, and relations to other aspects of social life. While only some philosophers or social, political, or legal theorists work specifically in the area of "legal theory," almost all work in any of these areas contributes to our understanding of the sources and nature of law, legal institutions, and legal practices, and for many theorists, explicit discussions of law are central elements of their work. Courses in this theme group focus on the ways in which "law" is treated as a working concept or as a subject of study in theoretical works, and conversely on how understandings drawn from theoretical writings inform our own understanding of law in all its dimensions.

### HOW TO GET IN

## HOW TO GET IN REQUIREMENTS TO DECLARE THE MAJOR

Those wishing to declare the major should complete the first step to declaring legal studies form ([https://docs.google.com/forms/d/e/1FAIpQLSdpbAGckG9vVLYyc2-OSIfcZpxJLUmre0kxdojo5NmoBVLbag/viewform/?usp=sf\\_link](https://docs.google.com/forms/d/e/1FAIpQLSdpbAGckG9vVLYyc2-OSIfcZpxJLUmre0kxdojo5NmoBVLbag/viewform/?usp=sf_link)) or make an appointment with an advisor via StarFish (<https://wisc.starfishsolutions.com/starfish-ops/dl/instructor/serviceCatalog.html?bookmark=service/64448/schedule>).

**To declare the legal studies major, students must complete three (3) prerequisite courses with grades of C or better.** Students may be exempt from COMM-A by their English Placement score and from QR-A by their Math Placement score.

The three prerequisite courses consist of:

- a Communication A course;
- a Quantitative Reasoning A course; and
- one "Gateway Course" chosen from the list below.

### Gateway Courses

Code	Title	Credits
Select one of the following: 3-4		
LEGAL ST/SOC 131	Criminal Justice in America	
LEGAL ST/POLI SCI 217	Law, Politics and Society	

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

- |                   |  |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> <li>• Breadth–Humanities/Literature/Arts: 6 credits</li> <li>• Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth–Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul> |
|-------------------|--|

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

### COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

### BACHELOR OF SCIENCE DEGREE REQUIREMENTS

- |             |   |
|-------------|---|
| Mathematics | Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.   |
| Language    | Complete the third unit of a language other than English.   |
| LS Breadth  | Complete: <ul style="list-style-type: none"> <li>• 12 credits of Humanities, which must include at least 6 credits of Literature; and</li> <li>• 12 credits of Social Science; and</li> <li>• 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.</li> </ul> |

Liberal Arts and Science Coursework	Complete at least 108 credits.
Depth of Intermediate/Advanced Coursework	Complete at least 60 credits at the Intermediate or Advanced level.
Major	Declare and complete at least one major.
Total Credits	Complete at least 120 credits.
UW-Madison Experience	Complete both: <ul style="list-style-type: none"> <li>• 30 credits in residence, overall, and</li> <li>• 30 credits in residence after the 86th credit.</li> </ul>
Quality of Work	<ul style="list-style-type: none"> <li>• 2.000 in all coursework at UW-Madison</li> <li>• 2.000 in Intermediate/Advanced level coursework at UW-Madison</li> </ul>

## NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

11 total courses in the following categories and a minimum of 33 credits.

### THEME: LEGAL INSTITUTIONS

Two courses required from:

Code	Title	Credits
<i>Theme Group 1: Legal Institutions</i>		
ELPA/ED POL/LEGAL ST 542	Law and Public Education	3
GEN BUS 301	Business Law	3

STAT 371	Introductory Applied Statistics for the Life Sciences	

**CORE PERSPECTIVES**

Please note: Though some courses may appear in more than one Theme Group and/or Core Perspective, a single course will only satisfy one (and only one) requirement. Courses will not be double counted.

Code	Title	Credits
<b>One Core Perspective course:</b>		
LEGAL ST/ HISTORY 261	American Legal History to 1860	
LEGAL ST/ HISTORY 262	American Legal History, 1860 to the Present	

LEGAL ST 400	Topics in Legal Studies and the Social Sciences	
LEGAL ST 407	Jurisprudence and Social Issues	
LEGAL ST 409	Human Rights in Law and Society	
LEGAL ST/ GEN&WS/ SOC 425	Crime, Gender and Justice	
LEGAL ST/ HISTORY 426	The History of Punishment	
LEGAL ST 435	Civil Rights: Policing, Prisons, Voting, Housing, Employment	
LEGAL ST/ CHICLA/ SOC 440	Ethnicity, Race, and Justice	
LEGAL ST/ CHICLA/ SOC 443	Immigration, Crime, and Enforcement	
LEGAL ST 450	Topics in Legal Studies and the Humanities	
LEGAL ST/ HISTORY 459	Rule of Law: Philosophical and Historical Models	
LEGAL ST/ L I S 460	Surveillance, Privacy, and Police Powers	
LEGAL ST/ HISTORY 477	History of Forensic Science	
LEGAL ST/ HISTORY 510	Legal Pluralism	
LEGAL ST 600	Special Topics in Legal Studies	
LEGAL ST/SOC 641	Sociology of Law	

**Electives**

*Choose either a Senior Thesis...*

LEGAL ST 681 & LEGAL ST 682	Senior Honors Thesis and Senior Honors Thesis	
LEGAL ST 691 & LEGAL ST 692	Senior Thesis and Senior Thesis	
POLI SCI 681 & POLI SCI 682	Senior Honors Thesis and Senior Honors Thesis	

*... or two additional Theme courses from above*

**GLOBAL LEGAL SYSTEMS**

At least two courses in the major must have substantial content dealing with countries or cultures outside the United States, or with the international legal system. For this requirement, a course can count both for purposes of meeting the Distribution requirement above and the Global Legal Systems requirement. The following courses fulfill the Global Legal Systems requirement:

Code	Title	Credits
<b>Two Global Legal Systems courses:</b>		
ANTHRO 350	Political Anthropology	3-4
ANTHRO 448	Anthropology of Law	3
ENGL 174	Literature and Social Justice (*Law and Literature)	3
ENGL 457	Topic in American Literature and Culture since 1900 (Topic: Law and Literature)	3

ENGL 548	Topic in Literature and Politics (*Guilt)	3	POLI SCI 354	International Institutions and World Order	3-4
GEOG 307	International Migration, Health, and Human Rights	3	POLI SCI 356	Principles of International Law	3-4
HISTORY 201	The Historian's Craft (Topic: Shanghai Life and Crime; Topic: Global History of Unpaid Labor; Topic: Global History of Human Rights)	3-4	POLI SCI 401	Selected Topics in Political Science (Topic: Global Access to Justice)	3-4
HISTORY 500	Reading Seminar in History (Topic: Chinese Law)	3	POLI SCI 432	Comparative Legal Institutions	3-4
INTL ST 401	Topics in Global Security (Topic: Human Rights in Global Context)	3-4	POLI SCI/ INTL ST 434	The Politics of Human Rights	3-4
INTL ST 601	Topics in Global Security (Topic: International Criminal Justice)	1-4	POLI SCI/ GEN&WS 435	Politics of Gender and Women's Rights in the Middle East	3
INTL ST 602	Topics in Politics and Policy in the Global Economy (Topic: The EU and the World)	1-4	POLI SCI/ INTL ST 439	The Comparative Study of Genocide	3-4
LEGAL ST/JEWISH/ RELIG ST 203	Jewish Law, Business, and Ethics	3	POLI SCI 635	Comparative Politics of Sport	3-4
LEGAL ST 400	Topics in Legal Studies and the Social Sciences (Law, Sexuality and Society)	3-4	<b>RACE AND JUSTICE STUDIES</b>		
LEGAL ST 400	Topics in Legal Studies and the Social Sciences (Law, Justice and Climate Change)	3-4	At least one course in the major must have substantial content dealing with race and justice studies. For this requirement, a course can count both for purposes of meeting the Distribution requirement above and the Race and Justice Studies requirement. The following courses fulfill the Race and Justice Studies requirement.		
LEGAL ST 409	Human Rights in Law and Society	3	<b>Code</b>	<b>Title</b>	<b>Credits</b>
LEGAL ST/SOC 425	Crime, Gender and Justice	3	AFROAMER 272	Race and American Politics from the New Deal to the New Right	3
LEGAL ST/HISTORY 426	The History of Punishment	3-4	AFROAMER/ GEN&WS 323	Gender, Race and Class: Women in U.S. History	3
LEGAL ST/ ENVIR ST/ HISTORY 430	Law and Environment: Historical and Contemporary Perspectives	3	AFROAMER/ GEN&WS 326	Race and Gender in Post-World War II U.S. Society	3
LEGAL ST 450	Topics in Legal Studies and the Humanities (Topic: Criminal Justice and Popular Culture)	3-4	AFROAMER/ GEN&WS 625	Gender, Race and the Civil Rights Movement	3
LEGAL ST 450	Topics in Legal Studies and the Humanities (Courts, Constitutionalism and Human Rights)	3-4	AFROAMER/ HISTORY 628	History of the Civil Rights Movement in the United States	3
LEGAL ST/ HISTORY 459	Rule of Law: Philosophical and Historical Models	3-4	HISTORY/ ED POL 143	History of Race and Inequality in Urban America	3

POLI SCI 340	The European Union: Politics and Political Economy	3-4	LEGAL ST/CHICLA/ SOC 443	Immigration, Crime, and Enforcement	3-4
POLI SCI 347	Terrorism	3	PUB AFFR 520	Inequality, Race and Public Policy	3
POLI SCI 349	Global Access to Justice	3	SOC/ASIAN AM 220	Ethnic Movements in the United States	3-4

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all LEGAL ST and major courses
- 2.000 GPA on 15 upper-level major credits, taken in residence<sup>1</sup>
- 15 credits in LEGAL ST and courses for the major, taken on campus

## HONORS IN THE MAJOR

Students may apply for admission to Honors in the Legal Studies Major in consultation with the Legal Studies undergraduate advisor(s).

### HONORS IN THE LEGAL STUDIES MAJOR: ENTRANCE REQUIREMENTS

- Declaration of the legal studies major
- A 3.300 University GPA
- A 3.500 GPA for all LEGAL ST courses, and all courses accepted in the major
- Completion of or current enrollment in, for Honors credit, at least one course accepted in the major

### HONORS IN THE LEGAL STUDIES MAJOR: REQUIREMENTS

To earn Honors in the Major in Legal Studies, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA for all LEGAL ST courses, and all courses accepted in the major
- Complete the research design and statistics requirements for the regular major prior to enrollment in the Senior Honors Thesis (typically junior year)
- Complete 15 credits in the major, taken for Honors, earning a B or better grade in each course
- Complete a two-semester Senior Honors thesis in LEGAL ST 681 and LEGAL ST 682, for a total of 6 credits.

## FOOTNOTES

<sup>1</sup> Upper-level in the major includes all LEGAL ST and major courses that are designated Intermediate or Advanced level.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Analyze and articulate their own arguments about how social, political, and cultural phenomena shape law and legal systems.
2. Analyze and articulate their own arguments about the social, political, and cultural impacts of law at the societal and individual levels.
3. Demonstrate knowledge about how legal ideas and ideologies have changed over time and have shaped law and legal systems.
4. Demonstrate their abilities to find, interpret, and utilize resources relevant to law and society.
5. Demonstrate their abilities to analyze information, to write clearly and persuasively, and to construct original arguments.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

#### First Year

Fall	Credits Spring	Credits
Communication A (complete during the first year)	3 Ethnic Studies (complete within first 60 credits)	3
Quantitative Reasoning A (complete during the first year)	3 Humanities Breadth	3
Foreign Language (if needed)	3-4 Biological Science Breadth	3
LEGAL ST/SOC 131 or 217	3-4 Foreign Language (if needed for the BA)	3-4
First-Year Seminar (optional)	1 I/A COMP SCI, MATH, or STAT (if required for the BS)	3-4

**Second Year**

Fall	Credits Spring	Credits
Legal Studies Theme Course	3 Legal Studies Theme Course	3
Literature Breadth	3 Communication B	3-4
Statistics (also satisfies Quantitative Reasoning B)	3-4 Research Design requirement	3-4
Science Breadth	3 Physical Science Breadth	3
Elective	3 Elective	3
<b>15</b>		<b>15</b>

**Third Year**

Fall	Credits Spring	Credits
Legal Studies Theme Course	4 Legal Studies Theme Course	4
Legal Studies Theme Course (non US focus)	3 Legal Studies Theme Course (non US focus)	3
Literature Breadth	3 Humanities Breadth	3
Elective	3 Elective	3
Science Breadth	3 Elective	3
<b>16</b>		<b>16</b>

**Fourth Year**

Fall	Credits Spring	Credits
Additional Theme Course or First Semester Senior Thesis	3 Additional Theme Course or Second Semester Senior Thesis	3
Core Perspectives Course	3 Elective	3
Elective	3 Elective	3
Elective	3 Elective	3
Elective	3 Elective	3
<b>15</b>		<b>15</b>

**Total Credits 120****L&S CAREER RESOURCES**

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

**CHEMISTRY**

The mission of the Department of Chemistry is to conduct world-class, groundbreaking research in the chemical sciences while offering the highest quality of education to undergraduate students, graduate students, and postdoctoral associates. The department's leadership in research includes the traditional areas of physical, analytical, inorganic, and organic chemistry, and has rapidly evolved to encompass environmental chemistry, chemical biology, biophysical chemistry, soft and hard materials chemistry, and nanotechnology. The Department of Chemistry prides itself on its highly interactive, diverse, and collegial scientific environment. Our emphasis on collaboration connects us to colleagues across campus, around the country, and throughout the world.

The undergraduate chemistry major leads to a bachelor of science or a bachelor of arts degree awarded by the College of Letters & Science. The curriculum provides excellent preparation in chemistry, along with a wide breadth of liberal arts coursework. At the same time, the program provides significant opportunities for students to participate in scientific inquiry, within both laboratory courses and research laboratories. Students from other colleges within the university may pursue the chemistry major as an additional major. When pursuing a chemistry major, the undergraduate student must meet university general education requirements and breadth requirements of their own college, along with the specific requirements for the chemistry major.

**ADVISING AND CAREERS****ADVISING AND CAREERS****ADVISING APPOINTMENTS: PLEASE SCHEDULE VIA STARFISH ([HTTPS://ADVISING.WISC.EDU/FACSTAFF/STARFISH/STARFISH-STUDENT-RESOURCES/](https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/))**

1. Log in to your MyUW (<http://my.wisc.edu/>)
2. Open the **Starfish** app (if you do not see it, you can begin by searching for it in MyUW and adding it to your dashboard)
3. Within the Starfish app, select Micha Schwab or Martine Delannay and find an available date and time

More help on using Starfish can be found here: <https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/>.

If you are not a UW student, please email us at [cjcp@ssc.wisc.edu](mailto:cjcp@ssc.wisc.edu) to schedule a meeting.

The chemistry major provides students with the critical thinking and problem-solving skills necessary to be successful in a wide variety of careers in the chemical industries (e.g., consumer and agricultural products, materials, energy, petroleum, paper, food, etc.), as well as environmental, pharmaceutical, and other health-related sciences. Students are also well-prepared for graduate-level work in chemistry, chemical physics, biochemistry, biophysics, materials chemistry, and other related fields. Students who excel in undergraduate chemistry coursework are often able to obtain funding for their graduate work through teaching or research assistantships and fellowships. Combined with a master's program in secondary education, the major qualifies the student to teach chemistry in secondary schools. Chemistry majors have also been successful in a variety of professional programs where they have studied medicine, pharmacy, dentistry, veterinary medicine, business, or law.

## STUDENT SERVICES AND ADVISING

Barta, Cheri (Director of Undergraduate Research)  
Hamers, Jeanne (Undergraduate Chemistry Director)  
McCullough, Katie (Academic Advising Manager)

## RESOURCES AND SCHOLARSHIPS

### RESOURCES AND SCHOLARSHIPS ACADEMIC RESOURCES

A number of resources are available to students seeking assistance with their chemistry courses. Students are strongly encouraged to attend instructor and TA office hours or the Help Desk for the course.

The Chemistry Learning Center (CLC) (<https://clc.chem.wisc.edu/>) supports students in introductory chemistry courses (CHEM 103, CHEM 104, and CHEM 108) and in some sections of organic chemistry. The center welcomes as many students as possible but unfortunately does not have sufficient resources to support all students seeking help. The center is funded to work with specific groups of students, such as first-generation low-income students, underrepresented students, students on academic probation, students with disabilities, students who have trouble understanding English, new transfer students, recently returning veterans, and students at risk of failing the course. These are general guidelines and the center considers each student seeking assistance on a case-by-case basis, taking into account available program space. Program eligibility is usually determined by an interview with a staff member.

Further assistance may be sought from various tutoring services on campus, including the Greater University Tutoring Services (GUTS) (<http://www.guts.wisc.edu/>), University Housing Tutoring, and the College of Engineering Undergraduate Learning Center (ULC) (<https://www.engr.wisc.edu/academics/student-services/ulc/>). Alpha Chi Sigma (AXS) (<http://alphachisigmauw.com/>) is a co-ed professional chemistry fraternity that also offers tutoring. For students seeking more individualized tutoring, the Department of Chemistry maintains a list of private tutors (<https://chem.wisc.edu/academic-support/>) available for hire.

### SCHOLARSHIPS

Through the generosity of alumni and other friends of the department, the Department of Chemistry is able to offer scholarships and summer

research support. In 2023, the department awarded more than 40 scholarships totaling over \$191,000.

Any student who is a chemistry major or is conducting research with a chemistry faculty member is eligible to apply for the scholarships. Awards are based on both merit and financial need. Students may apply for academic year scholarships and/or summer research support. Learn more about chemistry scholarships (<https://chem.wisc.edu/scholarships-fellowships-awards/>) and how to apply.

## CHEMISTRY, BA

The mission of the Department of Chemistry is to conduct world-class, groundbreaking research in the chemical sciences while offering the highest quality of education to undergraduate students, graduate students, and postdoctoral associates. The department's leadership in research includes the traditional areas of physical, analytical, inorganic, and organic chemistry, and has rapidly evolved to encompass environmental chemistry, chemical biology, biophysical chemistry, soft and hard materials chemistry, and nanotechnology. The Department of Chemistry prides itself on its highly interactive, diverse, and collegial scientific environment. Our emphasis on collaboration connects us to colleagues across campus, around the country, and throughout the world.

The undergraduate chemistry major leads to a bachelor of science or a bachelor of arts degree awarded by the College of Letters & Science. The curriculum provides excellent preparation in chemistry, along with a wide breadth of liberal arts coursework. At the same time, the program provides significant opportunities for students to participate in scientific inquiry, within both laboratory courses and research laboratories. Students from other colleges within the university may pursue the chemistry major as an additional major. When pursuing a chemistry major, the undergraduate student must meet university general education requirements and breadth requirements of their own college, along with the specific requirements for the chemistry major.

The chemistry major provides students with the critical thinking and problem-solving skills necessary to be successful in a wide variety of careers in the chemical industries (e.g., consumer and agricultural products, materials, energy, petroleum, paper, food, etc.), as well as environmental, pharmaceutical, and other health-related sciences. Students are also well-prepared for graduate-level work in chemistry, chemical physics, biochemistry, biophysics, materials chemistry, and other related fields. Students who excel in undergraduate chemistry coursework are often able to obtain funding for their graduate work through teaching or research assistantships and fellowships. Combined with a master's program in secondary education, the major qualifies the student to teach chemistry in secondary schools. Chemistry majors have also been successful in a variety of professional programs where they have studied medicine, pharmacy, dentistry, veterinary medicine, business, or law.

## HOW TO GET IN

### HOW TO GET IN

Students may declare the chemistry major after they have completed General Chemistry (CHEM 104, CHEM 109, or CHEM 116). Transfer students may declare in their first semester at UW-Madison, if they have transfer credit for one of these courses. Students should schedule an appointment with the undergraduate chemistry advisor to declare and develop a course plan toward graduation. To better inform their decision,

undecided students who are exploring chemistry along with other majors are encouraged to take an additional chemistry course or two beyond General Chemistry before declaring. Any student interested in chemistry is welcome to schedule an appointment (<https://www.chem.wisc.edu/content/undergraduate-advising/>) with the advisor to further explore the major.

Students are advised to declare the major no later than the end of their second year. There are many advantages to declaring the chemistry major early, including access to chemistry advising, scholarships available to only majors, and announcements relevant to students studying the chemical sciences. Chemistry majors and chemistry undergraduate researchers also have access to the Undergraduate Study Lounge in the North Tower of the Chemistry building, a space designated specifically for their use. Students who have declared the major become a part of our chemistry community, enabling them to better connect with faculty, staff, and other chemistry majors.

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

General Education	<ul style="list-style-type: none"> <li>Breadth–Humanities/Literature/Arts: 6 credits</li> <li>Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>Breadth–Social Studies: 3 credits</li> <li>Communication Part A Part B *</li> <li>Ethnic Studies *</li> <li>Quantitative Reasoning Part A Part B *</li> </ul>
-------------------	--

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

### COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

### BACHELOR OF ARTS DEGREE REQUIREMENTS

**Mathematics** Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.

**Language**

- Complete the fourth unit of a language other than English; OR
- Complete the third unit of a language and the second unit of an additional language other than English.

**LS Breadth**

- 12 credits of Humanities, which must include 6 credits of literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.

**Liberal Arts and Science Coursework** Complete at least 108 credits.

**Depth of Intermediate/Advanced work** Complete at least 60 credits at the intermediate or advanced level.

**Major** Declare and complete at least one major.

**Total Credits** Complete at least 120 credits.

**UW–Madison Experience**

- 30 credits in residence, overall; and
- 30 credits in residence after the 86th credit.

**Quality of Work**

- 2,000 in all coursework at UW–Madison
- 2,000 in Intermediate/Advanced level coursework at UW–Madison

### NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

**Total Credits** 8**RESIDENCE AND QUALITY OF WORK**

- 2.000 GPA in all CHEM and major courses
- 2.000 GPA in at least 15 upper-level credits in the major in residence. Upper-level work includes CHEM 346, CHEM/ M S & E 421, CHEM/CBE 505, CHEM 509, CHEM 511, CHEM 512, CHEM 524, CHEM 547, CHEM 555, CHEM 561, CHEM 562, CHEM 563, CHEM 564, CHEM 575, CHEM 605, CHEM 629, CHEM 654, CHEM 665, CHEM 681, CHEM 682, CHEM 691, CHEM 692, CHEM 699, BIOCHEM 501, BIOCHEM 507, BIOCHEM 508, BIOCHEM/NUTR SCI 510, BIOCHEM 625, BIOCHEM 681, BIOCHEM 682, BIOCHEM 691, CHEM 692, BIOCHEM 699, CBE 310, CBE 440, CBE 540, CBE 547, CBE 599, and M S & E 330.
- 15 credits in CHEM, taken on the UW-Madison campus

**HONORS IN THE MAJOR**

Students may declare Honors in the Chemistry Major in consultation with the chemistry major advisor (<https://www.chem.wisc.edu/content/undergraduate-advising/>). To be admitted to the Honors Program in Chemistry, students must have declared a major in chemistry and achieved a 3.200 overall GPA. They must also have achieved a 3.200 GPA in all CHEM courses taken and courses accepted for the major.

## HONORS IN THE CHEMISTRY MAJOR REQUIREMENTS

To earn Honors in the Major in Chemistry, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 GPA for all CHEM courses and all major courses
- Complete an additional 3 credits, for a total of 8 credits, of advanced non-laboratory work. This requirement is met by the same credits and courses that are accepted for "Advanced Non-laboratory Work" in the regular major.
- Complete a two-semester Senior Honors Thesis in CHEM 681 Senior Honors Thesis and CHEM 682 Senior Honors Thesis, for a total of 6 credits.

## FOOTNOTES

- <sup>1</sup> Enrollment in CHEM 115 and CHEM 116 is by invitation only. Entering first-year students are invited to apply. Candidates are selected based on their high school record, placement test scores, and application responses.
- <sup>2</sup> CHEM 343 must be taken first, followed by CHEM 345. CHEM 344 may be taken concurrently with or after CHEM 345.
- <sup>3</sup> One credit from CHEM 116 counts towards the required 5 credits of Advanced Non-laboratory Coursework.
- <sup>4</sup> Only 2 of the 3 credits from CHEM 524 count towards Advanced Non-laboratory Coursework. The remaining 1 credit counts towards the Additional Laboratory Work requirement.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Identify, formulate and solve integrative problems using appropriate information and approaches.

2. Demonstrate an understanding of basic chemical transformations, including the ability to predict chemical reactivity and properties.
3. Recognize the relationship between structure, bonding and the properties of molecules and materials.
4. Model chemical systems and experimental data using relevant quantitative, mathematical and computational methods.
5. Design, conduct and analyze experiments safely and successfully.
6. Locate, evaluate and use information in the chemical literature.
7. Communicate chemical knowledge effectively through written reports, oral presentations and visual aids.
8. Work collaboratively with others, both chemists and those from other disciplines, to solve problems and create new knowledge.
9. Recognize how chemistry relates to contemporary issues in our society.
10. Understand professional and ethical responsibility.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

#### First Year

Fall	Credits Spring	Credits
CHEM 109 or 103 <sup>1</sup>	4-5 300-level Chemistry course OR	3-5
MATH 221	5 CHEM 104 (if needed) <sup>2</sup>	
Communications A (complete during first year)	3 MATH 222	4
Foreign Language (if required)	4 Ethnic Studies	3
	L&S Breadth	3
	<b>16</b>	<b>15</b>

#### Second Year

Fall	Credits Spring	Credits
CHEM 343 <sup>3</sup>	3 CHEM 345	3
PHYSICS 207	5 CHEM 344	2
L&S Breadth	3 PHYSICS 208	5
Communications B (consult with advisor about timing) <sup>4</sup>	3-4 Research (optional) <sup>5</sup>	1-3
	L&S Breadth	3
	<b>15</b>	<b>15</b>

**Third Year**

Fall	Credits Spring	Credits
CHEM 329 <sup>6</sup>	4 Physical Chemistry Part I <sup>7</sup>	3-4
MATH 234 (recommended, but not required))	4 CHEM 311	4
Research (optional) <sup>5</sup>	1-3 Advanced Non-laboratory Coursework <sup>8</sup>	3
L&S Breadth	3 Research (optional) <sup>5</sup>	1-3
INTER-LS 210 (optional)	1 L&S Breadth	3
	<b>14</b>	<b>15</b>

**Fourth Year**

Fall	Credits Spring	Credits
CHEM 562	3 CHEM 564	1
CHEM 563	1 Research or other Additional Lab Work <sup>10</sup>	1-3
Research or other Additional Lab Work <sup>9</sup>	1-3 Advanced Non-laboratory Coursework (if needed)	3
Advanced Non-laboratory Coursework	3 L&S Breadth	3
L&S Breadth	3 L&S Breadth	3
L&S Breadth	3 Elective <sup>11</sup>	3
	<b>15</b>	<b>15</b>

**Total Credits 120**

<sup>1</sup> CHEM 103 General Chemistry I/CHEM 104 General Chemistry II is a two-semester sequence in General Chemistry. Students with a strong high school chemistry background (usually two years) and placement into at least first semester calculus are eligible for CHEM 109 Advanced General Chemistry. CHEM 109 is an advanced, fast-paced option that covers General Chemistry in one semester. CHEM 109 is offered only in the fall semesters and an honors level section is available. An additional option is the CHEM 115 Chemical Principles I/CHEM 116 Chemical Principles II sequence, which is a small honors sequence for exceptionally well-prepared students. Enrollment in this sequence is by invitation only, and the two courses cover both general and analytical chemistry.

<sup>2</sup> Students who took CHEM 109 in their first semester will not need CHEM 104. Instead, they may proceed to the next level of chemistry courses sooner by taking CHEM 311 Chemistry Across the Periodic Table or CHEM 329 Fundamentals of Analytical Science or CHEM 343 Organic Chemistry I in the second semester of their first year. In this case, some subsequent chemistry courses may also be taken sooner than shown in this plan.

<sup>3</sup> Students must declare a major by the time they reach 86 credits. Students interested in chemistry may declare the major after completing general chemistry (CHEM 104, CHEM 109, or CHEM 116).

<sup>4</sup> Communications B can be satisfied later through a chemistry course, CHEM 346 Intermediate Organic Chemistry Laboratory, if taken for 2 credits. CHEM 346 will also count towards additional lab work needed for the chemistry major.

<sup>5</sup> Research can be taken for credit by enrolling in CHEM 299 Directed Study (for students with less than 54 earned credits) or CHEM 699 Directed Study (for students with 54 or more earned credits). CHEM 299 does not satisfy additional lab credits required for the major, while CHEM 699 does. Alternatively, research may be conducted as a

volunteer or for pay. Students must search for and be accepted into a research group before beginning research.

<sup>6</sup> According to L&S policy, students must complete at least 60 credits at the intermediate or advanced level.

<sup>7</sup> Options include CHEM 561 Physical Chemistry, CHEM 665 Biophysical Chemistry, CBE 310 Chemical Process Thermodynamics (only for students also majoring in Chemical & Biological Engineering), and M S & E 330 Thermodynamics of Materials (only for students also majoring in Materials Science & Engineering).

<sup>8</sup> Five advanced non-laboratory credits are required for the major. Please see the Requirements tab in the Guide for a list of courses that count towards this requirement.

<sup>9</sup> Three credits of additional lab work are required for the major. These credits can be satisfied by research (CHEM 699, for example) or by courses. Please see the Requirements tab in the Guide for a complete list of options. CHEM 346 is one option, and when taken for 2 credits also satisfies Comm-B. CHEM 346 is ONLY offered in FALL semester, with most students taking it in their fourth year. Students not planning to take CHEM 346 should plan to take their Comm-B earlier through one of their other required breadth courses.

<sup>10</sup> CHEM 524 Chemical Instrumentation and CHEM 512 Advanced Synthesis and Laboratory Techniques are options that are only offered in the spring semesters. CHEM 524 (3 credits) satisfies 1 additional lab work credit and 2 advanced non-laboratory credits.

<sup>11</sup> Please refer to the Requirements tab in Guide for additional College of Letters & Science Breadth and Degree requirements as well as Residence and Quality of Work requirements for the major.

**ADVISING AND CAREERS****ADVISING AND CAREERS****ADVISING**

The chemistry advisor provides advising for chemistry majors and prospective chemistry majors. Both appointments and drop-in hours are available. See Undergraduate Advising (<https://www.chem.wisc.edu/undergraduate-advising/>) on the Department of Chemistry website for more details.

The Chemistry website also provides information about introductory chemistry courses (<https://chem.wisc.edu/introductory-chemistry-courses-and-placement/>) and placement for continuing and new undergraduate students (<https://chem.wisc.edu/new-undergraduate-students/>) interested in taking a chemistry course. Students with enrollment and course access questions should visit the enrollment inquiries (<https://chem.wisc.edu/enrollment-inquiries/>) page. If further assistance is needed, students may visit the Undergraduate Chemistry Office (room 1351 Chemistry) during normal business hours, email ([undergrad@chem.wisc.edu](mailto:undergrad@chem.wisc.edu)), or call 608-263-2424.

Chemistry majors interested in getting involved in research should explore the undergraduate research (<https://undergradresearch.chem.wisc.edu/>) pages on the chemistry website. Students needing additional information may contact the undergraduate research director by email ([chem\\_ugr\\_research@chem.wisc.edu](mailto:chem_ugr_research@chem.wisc.edu)).

**COURSE SELECTION AND SEQUENCING**

The Requirements (<https://guide.wisc.edu/undergraduate/letters-science/chemistry/chemistry-bs/#requirementstext>) page provides the minimum requirements necessary for completing the chemistry major. This

section provides additional advisory information about course selection and sequencing.

- In addition to MATH 222 Calculus and Analytic Geometry 2, it is highly recommended that majors also take MATH 234 Calculus--Functions of Several Variables and MATH 320 Linear Algebra and Differential Equations. The extra math is especially helpful to students when they take the required physical chemistry courses.
- PHYSICS 207 / PHYSICS 208 is the preferred physics sequence for most chemistry majors, while PHYSICS 201 / PHYSICS 202 is recommended for engineering students. PHYSICS 247 / PHYSICS 248 is intended for students considering a major in physics, astronomy-physics, or AMEP (applied mathematics, engineering, and physics).
- Chemistry majors are strongly encouraged to take either CHEM 329 or CHEM 116 (as opposed to CHEM 327) to satisfy their analytical chemistry requirement, because research is an integral part of these two courses. Both CHEM 329 and CHEM 116 come with honors credit, but students do not need to be part of an honors program to enroll.
- Most chemistry majors take CHEM 561 or CHEM 665 for Physical Chemistry Part 1. Students also majoring in chemical and biological engineering take CBE 310 instead. M S & E 330 is recommended only for students also majoring in materials science and engineering.
- It is recommended that CHEM 563 be taken after Physical Chemistry Part I and that CHEM 564 be taken after CHEM 562. Especially strong students needing to complete physical chemistry in two semesters may take CHEM 563 concurrently with CHEM 561 (or CHEM 665) and CHEM 564 concurrently with CHEM 562.

## CAREER SERVICES

The chemistry major prepares graduates for a wide variety of careers in the chemical and related industries (e.g., consumer and agricultural products, materials, energy, petroleum, paper, and food), as well as environmental, pharmaceutical, and other health-related sciences. Combined with a master's program in secondary education, the major qualifies the student to teach chemistry in secondary schools. The major prepares students for graduate-level work in chemistry, chemical physics, biochemistry, biophysics, materials chemistry, and other related fields. Students who excel in undergraduate chemistry coursework are able to obtain funding for graduate studies in chemistry and related sciences through teaching or research assistantships and fellowships. Some chemistry major graduates go on to professional schools to study medicine, pharmacy, dentistry, veterinary medicine, business, or law.

Students are encouraged to begin their career planning early and to take advantage of the numerous resources offered by SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science (see below). Information about careers, internships, resumes, cover letters, job search strategies, interviewing, and graduate school preparation are all available through SuccessWorks. Students can also register for Handshake (<https://wisc.joinhandshake.com/login/>), an online resource for students to make connections with potential employers. Current career, research, and internship opportunities of specific interest to chemistry students can be found on the Career Services (<https://chem.wisc.edu/career-services/>) pages of the chemistry website.

## L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and

other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

## PEOPLE

 Hamers, Jeanne (Undergraduate Chemistry Director)  
 McCullough, Katie (Academic Advising Manager)

## WISCONSIN EXPERIENCE

## WISCONSIN EXPERIENCE RESEARCH

There are many research opportunities for undergraduates in the Department of Chemistry. When conducting research, students will have the opportunity to work alongside world-class faculty, staff, and graduate students to gain hands-on research experiences that will supplement their liberal arts education and prepare students for future careers. We have researchers involved in all the core areas of chemistry: analytical, chemical biology, chemical education, inorganic, materials, organic, physical, and theoretical. Many of our researchers conduct research across disciplines, including medicine, pharmacy, biology, engineering, energy, environmental sciences, and physics. Although preference is given to chemistry majors in good academic standing, any student interested in conducting chemistry research can seek out opportunities in our department. Students have the option of volunteering in a research lab or conducting research for course credit by enrolling in CHEM 299 Directed Study, CHEM 699 Directed Study, CHEM 681/CHEM 682 Senior Honors Thesis, or CHEM 691/CHEM 692 Senior Thesis. Students can also gain research experiences through the elective courses CHEM 260 Entering Research I, CHEM 261 Entering Research II, CHEM 346 Intermediate Organic Chemistry Laboratory, and CHEM 512 Advanced Synthesis and Laboratory Techniques as well as the required course CHEM 329 Fundamentals of Analytical Science. In some cases, experienced undergraduates may be paid to conduct research. For additional information about undergraduate research, including how to get involved, please visit the department's Undergraduate Research (<https://undergradresearch.chem.wisc.edu/>) page.

## STUDENT ORGANIZATIONS

A number of student organizations are available for students interested in the chemical sciences.

- Alpha Chi Sigma (AXS) (<http://alphachisigmauw.com/>) is a national, co-ed, professional chemistry organization that was founded at UW–Madison in 1902. The UW–Madison chapter has an active membership of about 40 students, both graduate and undergraduate. The organization also has two houses, at 619 and 621 North Lake Street, which house nearly half of the members. The houses are the primary locations for events like tutoring, chapter dinners, meetings, and social events.
- The UW–Madison student chapter of NOBCChE (<https://www.nobccche.org/>) (National Organization for the Professional Advancement of Black Chemists and Chemical Engineers) seeks to encourage students of color to pursue graduate and professional degrees in chemistry, chemical engineering, and other chemistry-related fields. Members participate in professional development through national conference presentations, networking, and community service activities.
- SACNAS (<https://win.wisc.edu/organization/sacnas/>) (the Society for the Advancement of Hispanics/Chicanos and Native Americans) is a society of scientists dedicated to fostering the success of Hispanic/Chicano and Native American scientists – from college students to professionals—to attain advanced degrees, careers, and positions of leadership in science.

The biochemistry course satisfies three of the five credits of advanced non-laboratory work required for the chemistry major, while two credits from CHEM 524 also count towards the advanced work. CHEM 346, CHEM 512, 1 credit of CHEM 524, CHEM 681/CHEM 682, and CHEM 691/CHEM 692 all count towards the three additional lab credits required for the major.

Note that neither CHEM 299 Directed Study nor CHEM 699 Directed Study can be used to satisfy the lab hours needed for ACS certification. However, CHEM 699 can be used to satisfy additional lab credits needed for the chemistry major.

## PROFESSIONAL CERTIFICATION/LICENSURE DISCLOSURE (NC-SARA)

The United States Department of Education (via 34 CFR Part 668 (<https://www.ecfr.gov/current/title-34/subtitle-B/chapter-VI/part-668/?toc=1>)) requires institutions that provide distance education to disclose information for programs leading to professional certification or licensure. The expectation is that institutions will determine whether each applicable academic program meets state professional licensure requirements and provide a general disclosure of such on an official university website.

Professional licensure requirements vary from state-to-state and can change year-to-year; they are established in a variety of state statutes, regulations, rules, and policies; and they center on a range of educational requirements, including degree type, specialized accreditation, total credits, specific courses, and examinations.

UW–Madison has taken reasonable efforts to determine whether this program satisfies the educational requirements for certification/licensure in states where prospective and enrolled students are located and is disclosing that information as follows.

Disclaimer: This information is based on the most recent annual review of state agency certification/licensure data and is subject to change. All students are strongly encouraged to consult with the individual/office listed in the Contact Information box on this page and with the applicable state agency for specific information.

### The requirements of this program meet certification/licensure requirements in the following states:

Wisconsin

### The requirements of this program do not meet certification/licensure requirements in the following states:

Not applicable

Updated: 1 June 2024

## RESOURCES AND SCHOLARSHIPS

### RESOURCES AND SCHOLARSHIPS ACADEMIC RESOURCES

A number of resources are available to students seeking assistance with their chemistry courses. Students are strongly encouraged to attend instructor and TA office hours or the Help Desk for the course.

The Chemistry Learning Center (CLC) (<https://clc.chem.wisc.edu/>) supports students in introductory chemistry courses (CHEM 103,

## CERTIFICATION/LICENSURE

### CERTIFICATION/LICENSURE ACS CERTIFIED DEGREE

The UW–Madison Department of Chemistry is approved by the American Chemical Society (ACS) to certify the degrees of graduating students who have completed the curriculum and professional training recommended by ACS for chemistry bachelor's degree graduates. Certification indicates that the student has completed rigorous course work that provides them with the skills needed for a successful career in science.

Students graduating with the chemistry major from UW–Madison already meet most of the requirements for ACS certification. They can obtain the certification by electing to take specific courses that satisfy both the requirements of the major and the ACS guidelines. Additional requirements for certification are:

- A course in biochemistry, satisfied by BIOCHEM 501 Introduction to Biochemistry or BIOCHEM 507 General Biochemistry I (3 credits). A course in chemical biology will also satisfy this requirement. For example, CHEM 575 Advanced Topics in Chemistry is often offered in the spring semesters with the topic "Chemical Biology" and will satisfy this requirement.
- At least 375 total laboratory hours, which can be satisfied by the combination of all the required core laboratory courses (in organic, inorganic, analytical and physical chemistry) plus one laboratory credit from any of the following courses: CHEM 346 Intermediate Organic Chemistry Laboratory, CHEM 512 Advanced Synthesis and Laboratory Techniques, CHEM 524 Chemical Instrumentation (3 credit course, but only one credit is a lab credit), CHEM 681/CHEM 682 Senior Honors Thesis, or CHEM 691/ CHEM 692 Senior Thesis.

CHEM 104, and CHEM 108) and in some sections of organic chemistry. The center welcomes as many students as possible but unfortunately does not have sufficient resources to support all students seeking help. The center is funded to work with specific groups of students, such as first-generation low-income students, underrepresented students, students on academic probation, students with disabilities, students who have trouble understanding English, new transfer students, recently returning veterans, and students at risk of failing the course. These are general guidelines and the center considers each student seeking assistance on a case-by-case basis, taking into account available program space. Program eligibility is usually determined by an interview with a staff member.

Further assistance may be sought from various tutoring services on campus, including the Greater University Tutoring Services (GUTS) (<http://www.guts.wisc.edu/>), University Housing Tutoring, and the College of Engineering Undergraduate Learning Center (ULC) (<https://www.engr.wisc.edu/academics/student-services/ulc/>). Alpha Chi Sigma (AXS) (<http://alphachisigmauw.com/>) is a co-ed professional chemistry fraternity that also offers tutoring. For students seeking more individualized tutoring, the Department of Chemistry maintains a list of private tutors (<https://chem.wisc.edu/academic-support/>) available for hire.

## SCHOLARSHIPS

Through the generosity of alumni and other friends of the department, the Department of Chemistry is able to offer scholarships and summer research support. In 2023, the department awarded more than 40 scholarships totaling over \$191,000.

Any student who is a chemistry major or is conducting research with a chemistry faculty member is eligible to apply for the scholarships. Awards are based on both merit and financial need. Students may apply for academic year scholarships and/or summer research support. Learn more about chemistry scholarships (<https://chem.wisc.edu/scholarships-fellowships-awards/>) and how to apply.

## CHEMISTRY, BS

The mission of the Department of Chemistry is to conduct world-class, groundbreaking research in the chemical sciences while offering the highest quality of education to undergraduate students, graduate students, and postdoctoral associates. The department's leadership in research includes the traditional areas of physical, analytical, inorganic, and organic chemistry, and has rapidly evolved to encompass environmental chemistry, chemical biology, biophysical chemistry, soft and hard materials chemistry, and nanotechnology. The Department of Chemistry prides itself on its highly interactive, diverse, and collegial scientific environment. Our emphasis on collaboration connects us to colleagues across campus, around the country, and throughout the world.

The undergraduate chemistry major leads to a bachelor of science or a bachelor of arts degree awarded by the College of Letters & Science. The curriculum provides excellent preparation in chemistry, along with a wide breadth of liberal arts coursework. At the same time, the program provides significant opportunities for students to participate in scientific inquiry, within both laboratory courses and research laboratories. Students from other colleges within the university may pursue the chemistry major as an additional major. When pursuing a chemistry major, the undergraduate student must meet university general education requirements and breadth requirements of their own college, along with the specific requirements for the chemistry major.

The chemistry major provides students with the critical thinking and problem-solving skills necessary to be successful in a wide variety of careers in the chemical industries (e.g., consumer and agricultural products, materials, energy, petroleum, paper, food, etc.), as well as environmental, pharmaceutical, and other health-related sciences. Students are also well-prepared for graduate-level work in chemistry, chemical physics, biochemistry, biophysics, materials chemistry, and other related fields. Students who excel in undergraduate chemistry coursework are often able to obtain funding for their graduate work through teaching or research assistantships and fellowships. Combined with a master's program in secondary education, the major qualifies the student to teach chemistry in secondary schools. Chemistry majors have also been successful in a variety of professional programs where they have studied medicine, pharmacy, dentistry, veterinary medicine, business, or law.

## HOW TO GET IN

### HOW TO GET IN

Students may declare the chemistry major after they have completed General Chemistry (CHEM 104, CHEM 109, or CHEM 116). Transfer students may declare in their first semester at UW-Madison, if they have transfer credit for one of these courses. Students should schedule an appointment with the undergraduate chemistry advisor to declare and develop a course plan toward graduation. To better inform their decision, undecided students who are exploring chemistry along with other majors are encouraged to take an additional chemistry course or two beyond General Chemistry before declaring. Any student interested in chemistry is welcome to schedule an appointment (<https://www.chem.wisc.edu/content/undergraduate-advising/>) with the advisor to further explore the major.

Students are advised to declare the major no later than the end of their second year. There are many advantages to declaring the chemistry major early, including access to chemistry advising, scholarships available to only majors, and announcements relevant to students studying the chemical sciences. Chemistry majors and chemistry undergraduate researchers also have access to the Undergraduate Study Lounge in the North Tower of the Chemistry building, a space designated specifically for their use. Students who have declared the major become a part of our chemistry community, enabling them to better connect with faculty, staff, and other chemistry majors.

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits
	• Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
	• Breadth—Social Studies: 3 credits
	• Communication Part A Part B *
	• Ethnic Studies *
	• Quantitative Reasoning Part A Part B *

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

### BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.
Language	Complete the third unit of a language other than English.
LS Breadth	Complete: <ul style="list-style-type: none"> <li>• 12 credits of Humanities, which must include at least 6 credits of Literature; and</li> <li>• 12 credits of Social Science; and</li> <li>• 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.</li> </ul>
Liberal Arts and Science Coursework	Complete at least 108 credits.
Depth of Intermediate/Advanced Coursework	Complete at least 60 credits at the Intermediate or Advanced level.
Major	Declare and complete at least one major.
Total Credits	Complete at least 120 credits.
UW-Madison Experience	Complete both: <ul style="list-style-type: none"> <li>• 30 credits in residence, overall, and</li> <li>• 30 credits in residence after the 86th credit.</li> </ul>
Quality of Work	<ul style="list-style-type: none"> <li>• 2.000 in all coursework at UW-Madison</li> <li>• 2.000 in Intermediate/Advanced level coursework at UW-Madison</li> </ul>

## NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR MATH & PHYSICS

Code	Title	Credits
<b>Mathematics (1 course)</b>		<b>4</b>
MATH 222	Calculus and Analytic Geometry 2	
<b>Physics</b>		<b>10</b>
<i>First Introductory Course (1 course)</i>		
PHYSICS 207	General Physics	
PHYSICS 201	General Physics	
PHYSICS 247	A Modern Introduction to Physics	
<i>Second Introductory Course (1 course)</i>		
PHYSICS 208	General Physics	
PHYSICS 202	General Physics	
PHYSICS 248	A Modern Introduction to Physics	
<b>Total Credits</b>		<b>14</b>

## CHEMISTRY CORE COURSES

Code	Title	Credits
<b>General Chemistry (1 course)</b>		<b>5</b>
CHEM 104	General Chemistry II	
CHEM 109	Advanced General Chemistry	
CHEM 115	Chemical Principles I <sup>1</sup>	
<b>Analytical Chemistry (1 course)</b>		<b>4-5</b>
CHEM 329	Fundamentals of Analytical Science	
CHEM 116	Chemical Principles II	
CHEM 327	Fundamentals of Analytical Science	
<b>Inorganic Chemistry (1 course)</b>		<b>4</b>
CHEM 311	Chemistry Across the Periodic Table	
<b>Organic Chemistry (3 courses) <sup>2</sup></b>		<b>8</b>
CHEM 343	Organic Chemistry I	
CHEM 345	Organic Chemistry II	
CHEM 344	Introductory Organic Chemistry Laboratory	
<b>Physical Chemistry</b>		<b>8-9</b>
<b>Part 1 (1 course)</b>		
CHEM 561	Physical Chemistry	
CHEM 665	Biophysical Chemistry	
CBE 310	Chemical Process Thermodynamics	
M S & E 330	Thermodynamics of Materials	
<b>Part 2 (1 course)</b>		
CHEM 562	Physical Chemistry	
<b>Part 3 (2 courses)</b>		
CHEM 563	Physical Chemistry Laboratory I	
CHEM 564	Physical Chemistry Laboratory II	
<b>Total Credits</b>		<b>29-31</b>

## ADVANCED CHEMISTRY AND LABORATORY

Code	Title	Credits
<b>Advanced Non-laboratory Coursework</b>		
		<b>5</b>
CHEM 116	Chemical Principles II (1 credit counts towards requirements) <sup>3</sup>	
CHEM/ M S & E 421	Polymeric Materials	
CHEM/CBE 505	Aspects of Industrial Chemistry and Business Fundamentals	
CHEM 509	Senior Seminar	
CHEM 511	Advanced Inorganic Chemistry	
CHEM 524	Chemical Instrumentation (2 credits count towards requirement) <sup>4</sup>	
CHEM 547	Advanced Organic Chemistry	
CHEM 555	Study Abroad in Advanced Chemistry	
CHEM 575	Advanced Topics in Chemistry	
CHEM 605	Spectrochemical Measurements	
CHEM 629	Atmospheric Chemical Mechanisms	
CHEM 654	Materials Chemistry of Polymers	
BIOCHEM 501 or BIOCHEM 50	Introduction to Biochemistry General Biochemistry I	
BIOCHEM 508	General Biochemistry II	
BIOCHEM/ NUTR SCI 510	Nutritional Biochemistry and Metabolism	
BIOCHEM 625	Mechanisms of Action of Vitamins and Minerals	
CBE 440	Chemical Engineering Materials	
CBE 540	Polymer Science and Technology	
CBE 547	Introduction to Colloid and Interface Science	
<b>Additional Laboratory Work</b>		
		<b>3</b>
CHEM 346	Intermediate Organic Chemistry Laboratory	
CHEM 512	Advanced Synthesis and Laboratory Techniques	
CHEM 524	Chemical Instrumentation (1 credit counts towards requirement) <sup>4</sup>	
CHEM 681 & CHEM 682	Senior Honors Thesis and Senior Honors Thesis	
CHEM 691 & CHEM 692	Senior Thesis and Senior Thesis	
CHEM 699	Directed Study	
BIOCHEM 681 & BIOCHEM 682	Senior Honors Thesis and Senior Honors Thesis	
BIOCHEM 691 & BIOCHEM 692	Senior Thesis and Senior Thesis	
BIOCHEM 699	Special Problems	
CBE 599	Special Problems	
<b>Total Credits</b>		<b>8</b>

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all CHEM and major courses
- 2.000 GPA in at least 15 upper-level credits in the major in residence. Upper-level work includes CHEM 346, CHEM/M S & E 421, CHEM/CBE 505, CHEM 509, CHEM 511, CHEM 512, CHEM 524, CHEM 547, CHEM 555, CHEM 561, CHEM 562, CHEM 563, CHEM 564, CHEM 575, CHEM 605, CHEM 629, CHEM 654, CHEM 665, CHEM 681, CHEM 682, CHEM 691, CHEM 692, CHEM 699, BIOCHEM 501, BIOCHEM 507, BIOCHEM 508, BIOCHEM/NUTR SCI 510, BIOCHEM 625, BIOCHEM 681, BIOCHEM 682, BIOCHEM 691, CHEM 692, BIOCHEM 699, CBE 310, CBE 440, CBE 540, CBE 547, CBE 599, and M S & E 330.
- 15 credits in CHEM, taken on the UW-Madison campus

## HONORS IN THE MAJOR

Students may declare Honors in the Chemistry Major in consultation with the chemistry major advisor (<https://www.chem.wisc.edu/content/undergraduate-advising/>). To be admitted to the Honors Program in Chemistry, students must have declared a major in chemistry and achieved a 3.200 overall GPA. They must also have achieved a 3.200 GPA in all CHEM courses taken and courses accepted for the major.

## HONORS IN THE CHEMISTRY MAJOR REQUIREMENTS

To earn Honors in the Major in Chemistry, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 GPA for all CHEM courses and all major courses
- Complete an additional 3 credits, for a total of 8 credits, of advanced non-laboratory work. This requirement is met by the same credits and courses that are accepted for "Advanced Non-laboratory Work" in the regular major.
- Complete a two-semester Senior Honors Thesis in CHEM 681 Senior Honors Thesis and CHEM 682 Senior Honors Thesis, for a total of 6 credits.

## FOOTNOTES

- <sup>1</sup> Enrollment in CHEM 115 and CHEM 116 is by invitation only. Entering first-year students are invited to apply. Candidates are selected based on their high school record, placement test scores, and application responses.
- <sup>2</sup> CHEM 343 must be taken first, followed by CHEM 345. CHEM 344 may be taken concurrently with or after CHEM 345.
- <sup>3</sup> One credit from CHEM 116 counts towards the required 5 credits of Advanced Non-laboratory Coursework.
- <sup>4</sup> Only 2 of the 3 credits from CHEM 524 count towards Advanced Non-laboratory Coursework. The remaining 1 credit counts towards the Additional Laboratory Work requirement.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

### First Year

Fall	Credits Spring	Credits
CHEM 109 or 103 <sup>1</sup>	4-5 300-level Chemistry course OR	3-5
MATH 221	5 CHEM 104 (if needed) <sup>2</sup>	
Communications A (complete during first year)	3 MATH 222	4
Foreign Language (if required)	4 Ethnic Studies	3
	L&S Breadth	3
	<b>16</b>	<b>15</b>

### Second Year

Fall	Credits Spring	Credits
CHEM 343 <sup>3</sup>	3 CHEM 345	3
PHYSICS 207	5 CHEM 344	2
L&S Breadth	3 PHYSICS 208	5
Communications B (consult with advisor about timing) <sup>4</sup>	3-4 Research (optional) <sup>5</sup>	1-3
	L&S Breadth	3
	<b>15</b>	<b>15</b>

### Third Year

Fall	Credits Spring	Credits
CHEM 329 <sup>6</sup>	4 Physical Chemistry Part I <sup>7</sup>	3-4
MATH 234 (recommended, but not required)	4 CHEM 311	4
Research (optional) <sup>5</sup>	1-3 Advanced Non-laboratory Coursework <sup>8</sup>	3
L&S Breadth	3 Research (optional) <sup>5</sup>	1-3
INTER-LS 210 (optional)	1 L&S Breadth	3
	<b>14</b>	<b>15</b>

### Fourth Year

Fall	Credits Spring	Credits
CHEM 562	3 CHEM 564	1
CHEM 563	1 Research or other Additional Lab Work <sup>10</sup>	1-3
Research or other Additional Lab Work <sup>9</sup>	1-3 Advanced Non-laboratory Coursework (if needed)	3
Advanced Non-laboratory Coursework	3 L&S Breadth	3
L&S Breadth	3 L&S Breadth	3
L&S Breadth	3 Elective <sup>11</sup>	3
	<b>15</b>	<b>15</b>

### Total Credits 120

<sup>1</sup> CHEM 103 General Chemistry I/CHEM 104 General Chemistry II is a two-semester sequence in General Chemistry. Students with a strong high school chemistry background (usually two years) and placement

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Identify, formulate and solve integrative problems using appropriate information and approaches.
2. Demonstrate an understanding of basic chemical transformations, including the ability to predict chemical reactivity and properties.
3. Recognize the relationship between structure, bonding and the properties of molecules and materials.
4. Model chemical systems and experimental data using relevant quantitative, mathematical and computational methods.
5. Design, conduct and analyze experiments safely and successfully.
6. Locate, evaluate and use information in the chemical literature.
7. Communicate chemical knowledge effectively through written reports, oral presentations and visual aids.
8. Work collaboratively with others, both chemists and those from other disciplines, to solve problems and create new knowledge.
9. Recognize how chemistry relates to contemporary issues in our society.
10. Understand professional and ethical responsibility.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic

into at least first semester calculus are eligible for CHEM 109 Advanced General Chemistry. CHEM 109 is an advanced, fast-paced option that covers General Chemistry in one semester. CHEM 109 is offered only in the fall semesters and an honors level section is available. An additional option is the CHEM 115 Chemical Principles I/CHEM 116 Chemical Principles II sequence, which is a small honors sequence for exceptionally well-prepared students. Enrollment in this sequence is by invitation only, and the two courses cover both general and analytical chemistry.

- <sup>2</sup> Students who took CHEM 109 in their first semester will not need CHEM 104. Instead, they may proceed to the next level of chemistry courses sooner by taking CHEM 311 Chemistry Across the Periodic Table or CHEM 329 Fundamentals of Analytical Science or CHEM 343 Organic Chemistry I in the second semester of their first year. In this case, some subsequent chemistry courses may also be taken sooner than shown in this plan.
- <sup>3</sup> Students must declare a major by the time they reach 86 credits. Students interested in chemistry may declare the major after completing general chemistry (CHEM 104, CHEM 109, or CHEM 116).
- <sup>4</sup> Communications B can be satisfied later through a chemistry course, CHEM 346 Intermediate Organic Chemistry Laboratory, if taken for 2 credits. CHEM 346 will also count towards additional lab work needed for the chemistry major.
- <sup>5</sup> Research can be taken for credit by enrolling in CHEM 299 Directed Study (for students with less than 54 earned credits) or CHEM 699 Directed Study (for students with 54 or more earned credits). CHEM 299 does not satisfy additional lab credits required for the major, while CHEM 699 does. Alternatively, research may be conducted as a volunteer or for pay. Students must search for and be accepted into a research group before beginning research.
- <sup>6</sup> According to L&S policy, students must complete at least 60 credits at the intermediate or advanced level.
- <sup>7</sup> Options include CHEM 561 Physical Chemistry, CHEM 665 Biophysical Chemistry, CBE 310 Chemical Process Thermodynamics (only for students also majoring in Chemical & Biological Engineering), and M S & E 330 Thermodynamics of Materials (only for students also majoring in Materials Science & Engineering).
- <sup>8</sup> Five advanced non-laboratory credits are required for the major. Please see the Requirements tab in the Guide for a list of courses that count towards this requirement.
- <sup>9</sup> Three credits of additional lab work are required for the major. These credits can be satisfied by research (CHEM 699, for example) or by courses. Please see the Requirements tab in the Guide for a complete list of options. CHEM 346 is one option, and when taken for 2 credits also satisfies Comm-B. CHEM 346 is ONLY offered in FALL semester, with most students taking it in their fourth year. Students not planning to take CHEM 346 should plan to take their Comm-B earlier through one of their other required breadth courses.
- <sup>10</sup> CHEM 524 Chemical Instrumentation and CHEM 512 Advanced Synthesis and Laboratory Techniques are options that are only offered in the spring semesters. CHEM 524 (3 credits) satisfies 1 additional lab work credit and 2 advanced non-laboratory credits.

<sup>11</sup> Please refer to the Requirements tab in Guide for additional College of Letters & Science Breadth and Degree requirements as well as Residence and Quality of Work requirements for the major.

## ADVISING AND CAREERS

### ADVISING AND CAREERS

#### ADVISING

The chemistry advisor provides advising for chemistry majors and prospective chemistry majors. Both appointments and drop-in hours are available. See Undergraduate Advising (<https://www.chem.wisc.edu/undergraduate-advising/>) on the Department of Chemistry website for more details.

The Chemistry website also provides information about introductory chemistry courses (<https://chem.wisc.edu/introductory-chemistry-courses-and-placement/>) and placement for continuing and new undergraduate students (<https://chem.wisc.edu/new-undergraduate-students/>) interested in taking a chemistry course. Students with enrollment and course access questions should visit the enrollment inquiries (<https://chem.wisc.edu/enrollment-inquiries/>) page. If further assistance is needed, students may visit the Undergraduate Chemistry Office (room 1351 Chemistry) during normal business hours, email ([undergrad@chem.wisc.edu](mailto:undergrad@chem.wisc.edu)), or call 608-263-2424.

Chemistry majors interested in getting involved in research should explore the undergraduate research (<https://undergradresearch.chem.wisc.edu/>) pages on the chemistry website. Students needing additional information may contact the undergraduate research director by email ([chem\\_ugr\\_research@chem.wisc.edu](mailto:chem_ugr_research@chem.wisc.edu)).

#### COURSE SELECTION AND SEQUENCING

The Requirements (<https://guide.wisc.edu/undergraduate/letters-science/chemistry/chemistry-bs/#requirementstext>) page provides the minimum requirements necessary for completing the chemistry major. This section provides additional advisory information about course selection and sequencing.

- In addition to MATH 222 Calculus and Analytic Geometry 2, it is highly recommended that majors also take MATH 234 Calculus--Functions of Several Variables and MATH 320 Linear Algebra and Differential Equations. The extra math is especially helpful to students when they take the required physical chemistry courses.
- PHYSICS 207 / PHYSICS 208 is the preferred physics sequence for most chemistry majors, while PHYSICS 201 / PHYSICS 202 is recommended for engineering students. PHYSICS 247 / PHYSICS 248 is intended for students considering a major in physics, astronomy-physics, or AMEP (applied mathematics, engineering, and physics).
- Chemistry majors are strongly encouraged to take either CHEM 329 or CHEM 116 (as opposed to CHEM 327) to satisfy their analytical chemistry requirement, because research is an integral part of these two courses. Both CHEM 329 and CHEM 116 come with honors credit, but students do not need to be part of an honors program to enroll.
- Most chemistry majors take CHEM 561 or CHEM 665 for Physical Chemistry Part 1. Students also majoring in chemical and biological engineering take CBE 310 instead. M S & E 330 is recommended only for students also majoring in materials science and engineering.

- It is recommended that CHEM 563 be taken after Physical Chemistry Part I and that CHEM 564 be taken after CHEM 562. Especially strong students needing to complete physical chemistry in two semesters may take CHEM 563 concurrently with CHEM 561 (or CHEM 665) and CHEM 564 concurrently with CHEM 562.

## CAREER SERVICES

The chemistry major prepares graduates for a wide variety of careers in the chemical and related industries (e.g., consumer and agricultural products, materials, energy, petroleum, paper, and food), as well as environmental, pharmaceutical, and other health-related sciences. Combined with a master's program in secondary education, the major qualifies the student to teach chemistry in secondary schools. The major prepares students for graduate-level work in chemistry, chemical physics, biochemistry, biophysics, materials chemistry, and other related fields. Students who excel in undergraduate chemistry coursework are able to obtain funding for graduate studies in chemistry and related sciences through teaching or research assistantships and fellowships. Some chemistry major graduates go on to professional schools to study medicine, pharmacy, dentistry, veterinary medicine, business, or law.

Students are encouraged to begin their career planning early and to take advantage of the numerous resources offered by SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science (see below). Information about careers, internships, resumes, cover letters, job search strategies, interviewing, and graduate school preparation are all available through SuccessWorks. Students can also register for Handshake (<https://wisc.joinhandshake.com/login/>), an online resource for students to make connections with potential employers. Current career, research, and internship opportunities of specific interest to chemistry students can be found on the Career Services (<https://chem.wisc.edu/career-services/>) pages of the chemistry website.

## L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences

- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

## PEOPLE

### PEOPLE PROFESSORS

Berry, John  
 Bertram, Timothy  
 Blackwell, Helen (associate chair for graduate program)  
 Boydston, Andrew  
 Brunold, Thomas  
 Burstyn, Judith  
 Cavagnero, Silvia  
 Choi, Kyong-Shin  
 Coon, Joshua  
 Ediger, Mark  
 Fredrickson, Daniel (associate chair for research)  
 Garand, Etienne  
 Gellman, Samuel  
 Goldsmith, Randall

### ASSISTANT PROFESSORS

Buller, Andrew  
 Martell, Jeffrey  
 Pazicni, Samuel  
 Soley, Micheline  
 Stowe, Ryan  
 Todd, Zoe  
 Wang, Tina  
 Wickens, Zachary  
 Yang, Yang

### AFFILIATED PROFESSORS

Attie, Alan (Professor of Biochemistry)  
 Engle, Jonathan (Associate Professor of Medical Physics)

Feng, Dawei (Assistant Professor of Materials Science and Engineering)  
 Forest, Katrina (Professor of Bacteriology)  
 Ge, Ying (Professor of Cell and Regenerative Biology)  
 Gilbert, Pupa (Professor of Physics)  
 Golden, Jennifer (Associate Professor of Pharmacy)  
 Gong, Sarah (Professor of Biomedical Engineering)  
 Gopalan, Padma (Professor of Materials Science and Engineering)  
 Hoskins, Aaron (Associate Professor of Biochemistry)  
 Li, Lingjun (Professor of Pharmacy)  
 Lynn, David (Professor of Chemical and Biological Engineering)  
 Mecozzi, Sandro (Professor of Pharmacy)  
 Ping, Yuan (Associate Professor of Materials Science & Engineering)  
 Remucal, Christy (Associate Professor of Civil & Environmental Engineering)  
 Rienstra, Chad (Professor of Biochemistry)  
 Schreier, Marcel (Assistant Professor of Chemical and Biological Engineering)  
 Tang, Weiping (Professor of Pharmacy)  
 Van Lehn, Reid (Associate Professor of Chemical and Biological Engineering)  
 Weeks, Amy (Assistant Professor of Biochemistry)  
 Yesilkoy, Filiz (Assistant Professor of Biomedical Engineering)  
 Yu, Lian (Professor of Pharmacy)

## INSTRUCTIONAL STAFF

Anzovino, Mary Beth (Associate Director of Organic Chemistry Labs)  
 Bain, Rachel (Senior Instructional Technology Specialist)  
 Block, Stephen (Associate Director General Chemistry Labs)  
 Bowman, Matthew (Senior Lecturer)  
 Buchberger, Amanda (Associate Director Analytical Labs)  
 Doolittle, Pamela (Distinguished Analytical Chemistry Lab Director)  
 Esselman, Brian (Distinguished Associate Director Organic Chemistry Labs)  
 Gustin, Léa (Associate Director General Chemistry Labs)  
 Hill, Nicholas (Distinguished Director Organic Chemistry Labs)  
 Hooker, Paul (Senior Lecturer)  
 Lamont, Liana (General Chemistry Instructional Coordinator)  
 Maynard, James (Teaching, Learning, & Technology Specialist)  
 McClain, Robert (Analytical Chemistry Lab Director)  
 Schueneman, Susan (Senior Teaching Specialist)  
 Trate, Jaclyn (Instructional Innovator)  
 Weaver, Jeremy (Instructor & Curriculum Coordinator)  
 Wendt, Mark (Physical Chemistry Lab Director)  
 Wilkinson, Chad (Distinguished General & Inorganic Chem Lab Director)  
 Zelewski, Linda (Senior Lecturer)  
 Zhou, Jia (Undergraduate Instructor & Resource Dev Specialist)

 Zavala, Yashira (Instructor)

## STUDENT SERVICES AND ADVISING

Barta, Cheri (Director of Undergraduate Research)  
 Hamers, Jeanne (Undergraduate Chemistry Director)  
 McCullough, Katie (Academic Advising Manager)

## WISCONSIN EXPERIENCE

### WISCONSIN EXPERIENCE RESEARCH

There are many research opportunities for undergraduates in the Department of Chemistry. When conducting research, students will have the opportunity to work alongside world-class faculty, staff, and graduate students to gain hands-on research experiences that will supplement their liberal arts education and prepare students for future careers. We have researchers involved in all the core areas of chemistry: analytical, chemical biology, chemical education, inorganic, materials, organic, physical, and theoretical. Many of our researchers conduct research across disciplines, including medicine, pharmacy, biology, engineering, energy, environmental sciences, and physics. Although preference is given to chemistry majors in good academic standing, any student interested in conducting chemistry research can seek out opportunities in our department. Students have the option of volunteering in a research lab or conducting research for course credit by enrolling in CHEM 299 Directed Study, CHEM 699 Directed Study, CHEM 681/CHEM 682 Senior Honors Thesis, or CHEM 691/CHEM 692 Senior Thesis. Students can also gain research experiences through the elective courses CHEM 260 Entering Research I, CHEM 261 Entering Research II, CHEM 346 Intermediate Organic Chemistry Laboratory, and CHEM 512 Advanced Synthesis and Laboratory Techniques as well as the required course CHEM 329 Fundamentals of Analytical Science. In some cases, experienced undergraduates may be paid to conduct research. For additional information about undergraduate research, including how to get involved, please visit the department's Undergraduate Research (<https://undergradresearch.chem.wisc.edu/>) page.

### STUDENT ORGANIZATIONS

A number of student organizations are available for students interested in the chemical sciences.

- Alpha Chi Sigma (AXS) (<http://alphachisigmauw.com/>) is a national, co-ed, professional chemistry organization that was founded at UW-Madison in 1902. The UW-Madison chapter has an active membership of about 40 students, both graduate and undergraduate. The organization also has two houses, at 619 and 621 North Lake Street, which house nearly half of the members. The houses are the primary locations for events like tutoring, chapter dinners, meetings, and social events.
- The UW-Madison student chapter of NOBCChe (<https://www.nobcche.org/>) (National Organization for the Professional Advancement of Black Chemists and Chemical Engineers) seeks to encourage students of color to pursue graduate and professional degrees in chemistry, chemical engineering, and other chemistry-related fields. Members participate in professional development through national conference presentations, networking, and community service activities.
- SACNAS (<https://win.wisc.edu/organization/sacnas/>) (the Society for the Advancement of Hispanics/Chicanos and Native Americans) is a society of scientists dedicated to fostering the success of Hispanic/Chicano and Native American scientists – from college students to

professionals—to attain advanced degrees, careers, and positions of leadership in science.

## CERTIFICATION/LICENSURE

### CERTIFICATION/LICENSURE

#### ACS CERTIFIED DEGREE

The UW–Madison Department of Chemistry is approved by the American Chemical Society (ACS) to certify the degrees of graduating students who have completed the curriculum and professional training recommended by ACS for chemistry bachelor's degree graduates. Certification indicates that the student has completed rigorous course work that provides them with the skills needed for a successful career in science.

Students graduating with the chemistry major from UW–Madison already meet most of the requirements for ACS certification. They can obtain the certification by electing to take specific courses that satisfy both the requirements of the major and the ACS guidelines. Additional requirements for certification are:

- A course in biochemistry, satisfied by BIOCHEM 501 Introduction to Biochemistry or BIOCHEM 507 General Biochemistry I (3 credits). A course in chemical biology will also satisfy this requirement. For example, CHEM 575 Advanced Topics in Chemistry is often offered in the spring semesters with the topic "Chemical Biology" and will satisfy this requirement.
- At least 375 total laboratory hours, which can be satisfied by the combination of all the required core laboratory courses (in organic, inorganic, analytical and physical chemistry) plus one laboratory credit from any of the following courses: CHEM 346 Intermediate Organic Chemistry Laboratory, CHEM 512 Advanced Synthesis and Laboratory Techniques, CHEM 524 Chemical Instrumentation (3 credit course, but only one credit is a lab credit), CHEM 681/CHEM 682 Senior Honors Thesis, or CHEM 691/ CHEM 692 Senior Thesis.

The biochemistry course satisfies three of the five credits of advanced non-laboratory work required for the chemistry major, while two credits from CHEM 524 also count towards the advanced work. CHEM 346, CHEM 512, 1 credit of CHEM 524, CHEM 681/CHEM 682, and CHEM 691/CHEM 692 all count towards the three additional lab credits required for the major.

Note that neither CHEM 299 Directed Study nor CHEM 699 Directed Study can be used to satisfy the lab hours needed for ACS certification. However, CHEM 699 can be used to satisfy additional lab credits needed for the chemistry major.

#### PROFESSIONAL CERTIFICATION/LICENSURE DISCLOSURE (NC-SARA)

The United States Department of Education (via 34 CFR Part 668 (<https://www.ecfr.gov/current/title-34/subtitle-B/chapter-VI/part-668/?toc=1>)) requires institutions that provide distance education to disclose information for programs leading to professional certification or licensure. The expectation is that institutions will determine whether each applicable academic program meets state professional licensure requirements and provide a general disclosure of such on an official university website.

Professional licensure requirements vary from state-to-state and can change year-to-year; they are established in a variety of state statutes, regulations, rules, and policies; and they center on a range of educational

requirements, including degree type, specialized accreditation, total credits, specific courses, and examinations.

UW–Madison has taken reasonable efforts to determine whether this program satisfies the educational requirements for certification/licensure in states where prospective and enrolled students are located and is disclosing that information as follows.

Disclaimer: This information is based on the most recent annual review of state agency certification/licensure data and is subject to change. All students are strongly encouraged to consult with the individual/office listed in the Contact Information box on this page and with the applicable state agency for specific information.

#### The requirements of this program meet certification/licensure requirements in the following states:

Wisconsin

#### The requirements of this program do not meet certification/licensure requirements in the following states:

Not applicable

Updated: 1 June 2024

## RESOURCES AND SCHOLARSHIPS

### RESOURCES AND SCHOLARSHIPS

#### ACADEMIC RESOURCES

A number of resources are available to students seeking assistance with their chemistry courses. Students are strongly encouraged to attend instructor and TA office hours or the Help Desk for the course.

The Chemistry Learning Center (CLC) (<https://clc.chem.wisc.edu/>) supports students in introductory chemistry courses (CHEM 103, CHEM 104, and CHEM 108) and in some sections of organic chemistry. The center welcomes as many students as possible but unfortunately does not have sufficient resources to support all students seeking help. The center is funded to work with specific groups of students, such as first-generation low-income students, underrepresented students, students on academic probation, students with disabilities, students who have trouble understanding English, new transfer students, recently returning veterans, and students at risk of failing the course. These are general guidelines and the center considers each student seeking assistance on a case-by-case basis, taking into account available program space. Program eligibility is usually determined by an interview with a staff member.

Further assistance may be sought from various tutoring services on campus, including the Greater University Tutoring Services (GUTS) (<http://www.guts.wisc.edu/>), University Housing Tutoring, and the College of Engineering Undergraduate Learning Center (ULC) (<https://www.engr.wisc.edu/academics/student-services/ulc/>). Alpha Chi Sigma (AXS) (<http://alphachisigmauw.com/>) is a co-ed professional chemistry fraternity that also offers tutoring. For students seeking more individualized tutoring, the Department of Chemistry maintains a list of private tutors (<https://chem.wisc.edu/academic-support/>) available for hire.

## SCHOLARSHIPS

Through the generosity of alumni and other friends of the department, the Department of Chemistry is able to offer scholarships and summer research support. In 2023, the department awarded more than 40 scholarships totaling over \$191,000.

Any student who is a chemistry major or is conducting research with a chemistry faculty member is eligible to apply for the scholarships. Awards are based on both merit and financial need. Students may apply for academic year scholarships and/or summer research support. Learn more about chemistry scholarships (<https://chem.wisc.edu/scholarships-fellowships-awards/>) and how to apply.

## CHICANA/O AND LATINA/O STUDIES

The Chican@ and Latin@ Studies Program (CLS) offers a systematic and interdisciplinary analysis of Mexican- and Latin-American-origin people, cultures, and collectivities within the United States. The CLS certificate is designed to provide students with a broad knowledge base and the intellectual tools to understand the unity and diversity of U.S. Latin@ populations. The primary objective of the CLS program is to train students in the study of Chican@s and Latin@s, as well as to introduce them to the central questions, topics, and applications that have emerged in this field of inquiry.

CLS offers a variety of courses, some focusing on particular national-origin groups or specific academic disciplines, and others organized around comparative topics or issues. We welcome you to join our academic community of learners.

**Note:** The @ ending ("a" at the center of "o") offers a simultaneous presentation of both the feminine and masculine word endings of Chicana, Chicano, Latina, and Latino and allows readers/speakers to choose the form they prefer.

## DEGREES/MAJORS/CERTIFICATES

### DEGREES/MAJORS/CERTIFICATES

- Chicana/o and Latina/o Studies, BA (p. 609)
- Chicana/o and Latina/o Studies, BS (p. 614)
- Chicana/o and Latina/o Studies, Certificate (p. 618)

## PEOPLE

### PEOPLE

For a detailed list of faculty, please see the department website (<https://chicla.wisc.edu/chican-latin-studies-professors/>).

## CHICANA/O AND LATINA/O STUDIES, BA

The program in Chican@ and Latin@ Studies (CLS) offers a systematic and interdisciplinary analysis of Mexican- and Latin-American-origin

people, cultures, and collectivities within the United States. The CLS major and certificate are designed to provide students with a broad knowledge base and the intellectual tools to understand the unity and diversity of those people and cultures, both historically and in the contemporary period, as they explore the central questions and topics that have emerged in this interdisciplinary field. The CLS curriculum enables students to engage with the history, experience, arts, literature, cultural production, and social lives of communities of Latin American descent in the United States, developing their capacities for civic and community engagement as well as research, writing, and analytical skills. CLS graduates are equipped to include and engage with diverse perspectives as they pursue careers in such fields as education, social service, communications, publishing, business, journalism, agriculture, engineering, the arts, construction, and the health professions.

## HOW TO GET IN

### HOW TO GET IN

To declare the Chicana/o and Latina/o Studies (CLS) major, a student should set up an appointment with the CLS advisor. It is recommended that students declare the major as early as possible to plan the required coursework. There are no specific courses that must be completed before declaration.

Students declared in the Chicana/o and Latina/o Studies Certificate may not be declared in the Chicana/o and Latina/o Studies major at the same time. Students who do wish to declare this major must first cancel their declaration into the Chicana/o and Latina/o Studies Certificate.

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

- General Education
- Breadth—Humanities/Literature/Arts: 6 credits
  - Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
  - Breadth—Social Studies: 3 credits
  - Communication Part A Part B \*
  - Ethnic Studies \*
  - Quantitative Reasoning Part A Part B \*

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

### BACHELOR OF ARTS DEGREE REQUIREMENTS

**Mathematics** Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.

**Language**

- Complete the fourth unit of a language other than English; OR
- Complete the third unit of a language and the second unit of an additional language other than English.

**LS Breadth**

- 12 credits of Humanities, which must include 6 credits of literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.

**Liberal Arts and Science Coursework** Complete at least 108 credits.

**Depth of Intermediate/Advanced work** Complete at least 60 credits at the intermediate or advanced level.

**Major** Declare and complete at least one major.

**Total Credits** Complete at least 120 credits.

**UW-Madison Experience**

- 30 credits in residence, overall; and
- 30 credits in residence after the 86th credit.

- Quality of Work**
- 2.000 in all coursework at UW-Madison
  - 2.000 in Intermediate/Advanced level coursework at UW-Madison

## NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

The major requires a minimum of 30 credits and the specific requirements include:

Code	Title	Credits
<b>Introductory Course</b>		
CHICLA 201	Introduction to Chicana/o and Latina/o Studies	3
<b>Introductory Elective</b> <b>3</b>		
CHICLA/AFROAMER/AMER IND/ASIAN AM/FOLKLORE 102	Introduction to Comparative US Ethnic and American Indian Studies	
CHICLA/HISTORY 151	The North American West to 1850	
CHICLA/HISTORY 152	The United States West Since 1850	
CHICLA/HISTORY 153	Latina/Latino/Latinx History	
CHICLA 210	Chicana/o and Latina/o Cultural Studies	
CHICLA/SPANISH 215	Border and Migration Studies of Latinx America	
CHICLA/SPANISH 222	Introduction to Latinx Cultures	
CHICLA/POLI SCI 231	Politics in Multi-Cultural Societies	
CHICLA/GEN&WS/HISTORY 245	Chicana and Latina History	
CHICLA/HISTORY/LACIS/POLI SCI 268	The U.S. & Latin America from the Colonial Era to the Present: A Critical Survey	
CURRIC 240	Critical Aspects of Teaching, Schooling, and Education	
COUN PSY 225	Intersectionalities, Self Awareness, and Social Actions for Social Change	
COUN PSY 230	Race and the Developing Child	
<b>Cultures and Histories</b> <b>9</b>		
CHICLA 301	Chicana/o and Latina/o History	
CHICLA 328	Cultures and Histories Topics in Chicana/o & Latina/o Studies	

CHICLA/ COM ARTS 347	Race, Ethnicity, and Media
CHICLA/ HISTORY/LACIS/ POLI SCI 355	Labor in the Americas: US & Mexico in Comparative & Historical Perspective
CHICLA/ SPANISH 364	Survey of Latino and Latina Popular Culture
CHICLA/ ENGL 368	Chicana/o and Latina/o Literatures
CHICLA/ COM ARTS 419	Latino/as and Media
CHICLA/ HISTORY 435	Colony, Nation, and Minority: The Puerto Ricans' World
CHICLA/ ENGL 460	Black and Latinx in Literature and Visual Culture
CHICLA/ SPANISH 467	US Latino Literature
CHICLA/ SPANISH 469	Topics in Latinx Culture
CHICLA/ SPANISH 478	Border and Race Studies in Latin America
CHICLA 520	Latinx Digital Publics
CHICLA 699	Directed Study
HISTORY/ AFROAMER 347	The Caribbean and its Diasporas

**Individuals, Peoples, Societies****9**

CHICLA/ POLI SCI 302	Mexican-American Politics
CHICLA/ GEN&WS/ GEOG 308	Latinx Feminisms: Women's Lives, Work, and Activism
CHICLA 315	Racial Formation and Whiteness
CHICLA 330	Topics in Chicano/a Studies
CHICLA/ GEN&WS 332	Latinas: Self Identity and Social Change
CHICLA 334	
CHICLA/ HISTORY/ POLI SCI 422	Latino History and Politics
CHICLA/ LEGAL ST/ SOC 440	Ethnicity, Race, and Justice
CHICLA/ LEGAL ST/ SOC 443	Immigration, Crime, and Enforcement
CHICLA/ SOC 470	Sociodemographic Analysis of Mexican Migration
CHICLA/ LAND ARC 475	Latino Urbanism: Design and Engagement in the American City
CHICLA 501	Chican@ and Latin@ Social Movements in the U.S.
CHICLA 530	Advanced Topics in Chicana/o and Latina/o Studies
CHICLA 699	Directed Study
POLI SCI 304	The Political Economy of Race in the United States

**Serving Chicanx and Latinx Communities****6**

CHICLA/ CURRIC 306	Latinx Literacies
CHICLA/ CURRIC 321	Chicano/Latino Educational Justice
CHICLA 329	Education and Service Topics in Chicana/o & Latina/o Studies
CHICLA/ COUN PSY 331	Immigrant Health and Wellbeing
CHICLA/ COUN PSY 525	Dimensions of Latin@ Mental Health Services
CHICLA/ COUN PSY 590	Esperanza Community-Engaged Research with Latin@s
CHICLA 699	Directed Study
CURRIC 670	Theories of Bilingualism and Bilingual Literacy
CURRIC 676	Bilingualism and Bilingual Literacy in Schools
HDFS 474	Racial Ethnic Families in the U.S.

**Total Credits****30****RESIDENCE AND QUALITY OF WORK**

- 2.000 GPA in all CHICLA and major courses
- 2.000 GPA on at least 15 credits of upper-level work in the major, in residence. Upper-level in the major includes CHICLA courses numbered 300 and above and courses that count for the major that are designated as Intermediate or Advanced level.
- 15 credits in CHICLA taken in residence on the UW-Madison campus

**UNIVERSITY DEGREE REQUIREMENTS**

**Total Degree** To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

## LEARNING OUTCOMES

1. Identify and analyze core concepts, important social and political issues, and key artistic and cultural expressions related to Chicana/o and Latina/o life in the United States.
2. Discuss the histories of Chicanas/os and Latinas/os in the United States and their implications for contemporary problems of racialization, social stratification, colonialism, and oppression.
3. Describe the commonalities and differences among Chicanas/os and Latinas/os along lines of class, gender, race, sexuality, citizenship, and national origin, and evaluate Latinidad as a pan-ethnic category in the United States.
4. Analyze relations between Chicanas/os and Latinas/os in the United States and their countries of heritage from a transnational and transborder perspective.
5. Apply ideas from Chicana/o and Latina/o Studies to concrete problems through service-learning and community-based research, in a spirit of dialogue and reciprocal exchange informed by ethical and social justice principles.

## FOUR-YEAR PLAN

## FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

## First Year

Fall	Credits Spring	Credits
CHICLA 201	3 CHICLA introductory elective	3
Communication A	3 Biological Science Breadth	3
Quantitative Reasoning A	3-4 CHICLA major course 3 (Cultures and Histories)	3
Foreign Language	4 Elective	3
Elective	3 Elective	3
<b>16</b>		<b>15</b>

## Second Year

Fall	Credits Spring	Credits
CHICLA major course 4	3 CHICLA major course 5 (Serving Chicanx & Latinx Communities)	3
Quantitative Reasoning-B	3 Communication B (Communication B can be fulfilled with CHICLA 501 or 520)	3

INTER-LS 210 (elective)	1 Physical Science Breadth	3
Intermediate elective	3 Intermediate elective	3
Intermediate elective	3 Intermediate elective	3
<b>13</b>		<b>15</b>

## Third Year

Fall	Credits Spring	Credits
CHICLA major course 6 (Individuals, Peoples, Societies)	3 CHICLA major course 7 (Cultures and Histories)	3
I/A Comp Sci, Math or Stats (if required for BS)	3 CHICLA major course 8 (Serving Chicanx & Latinx Communities)	3

Advanced elective	4 Advanced elective	3
Advanced elective	3 Advanced elective	3
<b>16</b>		<b>15</b>

## Total Credits 120

## THREE-YEAR PLAN

## THREE-YEAR PLAN

This Sample Three-Year Plan is a tool to assist students and their advisor(s). Students should use it –along with their DARS report, the Degree Planner, and Course Search & Enroll tools – to make their own three-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests.

Three-year plans may vary considerably from student to student, depending on their individual preparation and circumstances. Students interested in graduating in three years should meet with an advisor as early as possible to discuss feasibility, appropriate course sequencing, post-graduation plans (careers, graduate school, etc.), and opportunities they might forgo in pursuit of a three-year graduation plan.

## DEPARTMENTAL EXPECTATIONS

A three-year degree is feasible for students with a variety of backgrounds and specific preparation. The plan assumes that students are coming to UW-Madison with approximately 27 credits from AP/IB or college transfer credits. Your plan may look different depending on the number of credits you bring in.

## First Year

Fall	Credits Spring	Credits
CHICLA 201	3 CHICLA Introductory Elective	3

Communication A	3 Biological Science Breadth	3
Quantitative Reasoning A	3-4 CHICLA Major Course 3 (Serving Chicanx and Latinx Communities)	3
Foreign Language	4 Elective	3

**Total Credits 93****ADVISING AND CAREERS****ADVISING AND CAREERS DEPARTMENTAL ADVISING**

Academic advising for the CLS major and certificate is available in the Student Advising Office, 307 Ingraham Hall. Prospective and current students must make an appointment with Advisor Rachele Eilers, [reilers@wisc.edu](mailto:reilers@wisc.edu), to discuss requirements, courses, and application to the major or certificate. CLS graduates have enjoyed great success in fields including the health professions, social service, education, law, journalism, business, the arts, politics, and government service.

**L&S CAREER RESOURCES**

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and

other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

**PEOPLE****PEOPLE CHICANA/O AND LATINA/O STUDIES (CLS) DIRECTOR**

Rubén Medina (Professor, Spanish and Portuguese)

**STAFF**

Rachele Eilers (Academic Advising Manager)

Peter Haney (Administrative Manager)

For a full list of CLS faculty and staff, please visit the Program's website (<https://chicla.wisc.edu/chican-latin-studies-professors/>).

**WISCONSIN EXPERIENCE****WISCONSIN EXPERIENCE**

The Chican@ & Latin@ Studies Program provides co-curricular support programs and opportunities for undergraduate research as part of the Wisconsin Experience (<https://provost.wisc.edu/wisconsin-experience/>), UW-Madison's vision for students' growth inside and outside the classroom. CLS majors at UW-Madison have a wide range of opportunities available to help them make the most of their major and carry the study of communities of Latin American descent into the broader community.

## CLS COMMUNITY GATHERINGS

Join us on Thursdays at noon (<https://chicla.wisc.edu/chican-and-latin-studies-community-events/>) for a workshop luncheon featuring speakers on topics of interest to undergraduate CLS students. The gatherings are a great place to learn about resources available on campus, make new friends, and create community.

## PASOS (PROMOTORES ACADÉMICOS SEMBRANDO, ORIENTANDO, Y SUPERANDO)

The PASOS program pairs CLS majors and certificate students interested in graduate school with graduate student mentors. PASOS mentors guide mentees as they explore whether graduate school is for them, work on their writing, develop resumes or CVs for future use, identify opportunities, and learn requirements to graduate schools and assess how those fit students' wants and needs. For more information, contact Advisor Rachelle Eilers

## WISCONSIN LATINX HISTORY COLLECTIVE

The CLS Program is the major UW–Madison partner for the Wisconsin Latinx History Collective (<https://storymaps.arcgis.com/stories/7a2f1e0a652d4d6e977e0df36ab027e2/>), an effort to document the history of communities of Latin American descent in Wisconsin. CLS faculty and students are interviewing members of those communities and collecting documents to be held in the Wisconsin Historical Society (<https://www.wisconsinhistory.org/>) (WHS) collection for future researchers. The Wisconsin Latinx History Collective has also embarked on a public humanities initiative to make these oral histories and documents more widely available through a digital platform. Many CLS classes offer the opportunity to participate in original research related to this project.

## LATINX STUDIES JOURNAL

The Latinx Studies Journal (<https://chicla.wisc.edu/latinx-studies-journal/>) (formerly *Concientización*) is an annual publication that highlights writing by CLS students. Students may submit original research papers, creative writing, art, and more.

## CHICANX AND LATINX STUDIES ONLINE

Students in CHICLA 520 ("Latinx Digital Publics") create digital projects for the Program's Web magazine, Chicanx and Latinx Studies Online (<https://chicanxlatinx.chicla.wisc.edu/>).

## RESOURCES AND SCHOLARSHIPS

### RESOURCES AND SCHOLARSHIPS

Undergraduates in the CLS Major or Certificate may apply for the Jesus Salas Academic Activist Scholarship and the Somos Student Development Award (<https://chicla.wisc.edu/financial-assistance/>). Conferred annually in the spring, the Salas Scholarship recognizes academic excellence and community leadership by outstanding CLS students. The Somos award supports internships, research projects, or other initiatives by undergraduates. Students pursuing the Somos award may wish to contact the Program at [chicla@letschi.wisc.edu](mailto:chicla@letschi.wisc.edu) to determine whether their initiatives and the expenses they propose are eligible. The Program encourages students to seek out other opportunities through the Wisconsin Scholarship Hub (<https://wisc.academicworks.com/>).

The Program has a library (<https://chicla.wisc.edu/student-resources/>) with a collection of books and videos on topics related to the field, as well

as an Academic Resource Center with computers and a printer that are available to students.

Students enrolled in the CLS Major or Certificate may participate in the Chican@ & Latin@ Studies Certificate Students Association (<https://win.wisc.edu/organization/cls/>) (ChiLaCSA). A list of related student organizations is available on the Program's website (<https://chicla.wisc.edu/824-2/>).

## CHICANA/O AND LATINA/O STUDIES, BS

The program in Chican@ and Latin@ Studies (CLS) offers a systematic and interdisciplinary analysis of Mexican- and Latin-American-origin people, cultures, and collectivities within the United States. The CLS major and certificate are designed to provide students with a broad knowledge base and the intellectual tools to understand the unity and diversity of those people and cultures, both historically and in the contemporary period, as they explore the central questions and topics that have emerged in this interdisciplinary field. The CLS curriculum enables students to engage with the history, experience, arts, literature, cultural production, and social lives of communities of Latin American descent in the United States, developing their capacities for civic and community engagement as well as research, writing, and analytical skills. CLS graduates are equipped to include and engage with diverse perspectives as they pursue careers in such fields as education, social service, communications, publishing, business, journalism, agriculture, engineering, the arts, construction, and the health professions.

## HOW TO GET IN

### HOW TO GET IN

To declare the Chicana/o and Latina/o Studies (CLS) major, a student should set up an appointment with the CLS advisor. It is recommended that students declare the major as early as possible to plan the required coursework. There are no specific courses that must be completed before declaration.

Students declared in the Chicana/o and Latina/o Studies Certificate may not be declared in the Chicana/o and Latina/o Studies major at the same time. Students who do wish to declare this major must first cancel their declaration into the Chicana/o and Latina/o Studies Certificate.

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed.

For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

General Education	<ul style="list-style-type: none"> <li>• Breadth—Humanities/Literature/Arts: 6 credits</li> <li>• Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth—Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul>
-------------------	--

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

### BACHELOR OF SCIENCE DEGREE REQUIREMENTS

**Mathematics** Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.

**Language** Complete the third unit of a language other than English.

**LS Breadth** Complete:

- 12 credits of Humanities, which must include at least 6 credits of Literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.

**Liberal Arts and Science Coursework** Complete at least 108 credits.

**Depth of Intermediate/Advanced Coursework** Complete at least 60 credits at the Intermediate or Advanced level.

**Major** Declare and complete at least one major.

**Total Credits** Complete at least 120 credits.

**UW-Madison Experience** Complete both:

- 30 credits in residence, overall, and
- 30 credits in residence after the 86th credit.

**Quality of Work**

- 2.000 in all coursework at UW-Madison
- 2.000 in Intermediate/Advanced level coursework at UW-Madison

## NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

The major requires a minimum of 30 credits and the specific requirements include:

Code	Title	Credits
<b>Introductory Course</b>		
CHICLA 201	Introduction to Chicana/o and Latina/o Studies	3
<b>Introductory Elective</b>		
<b>9</b>		
CHICLA/ AFROAMER/ AMER IND/ ASIAN AM/ FOLKLORE 102	Introduction to Comparative US Ethnic and American Indian Studies	
CHICLA/ HISTORY 151	The North American West to 1850	
CHICLA/ HISTORY 152	The United States West Since 1850	
CHICLA/ HISTORY 153	Latina/Latino/Latinx History	
CHICLA 210	Chicana/o and Latina/o Cultural Studies	
CHICLA/ SPANISH 215	Border and Migration Studies of Latinx America	
CHICLA/ SPANISH 222	Introduction to Latinx Cultures	
CHICLA/ POLI SCI 231	Politics in Multi-Cultural Societies	
CHICLA/ GEN&WS/ HISTORY 245	Chicana and Latina History	
CHICLA/ HISTORY/LACIS/ POLI SCI 268	The U.S. & Latin America from the Colonial Era to the Present: A Critical Survey	
CURRIC 240	Critical Aspects of Teaching, Schooling, and Education

CHICLA 330	Topics in Chicano/a Studies
CHICLA/ GEN&WS 332	Latinas: Self Identity and Social Change
CHICLA 334	
CHICLA/ HISTORY/ POLI SCI 422	Latino History and Politics
CHICLA/ LEGAL ST/ SOC 440	Ethnicity, Race, and Justice
CHICLA/ LEGAL ST/ SOC 443	Immigration, Crime, and Enforcement
CHICLA/ SOC 470	Sociodemographic Analysis of Mexican Migration
CHICLA/ LAND ARC 475	Latino Urbanism: Design and Engagement in the American City
CHICLA 501	Chican@ and Latin@ Social Movements in the U.S.
CHICLA 530	Advanced Topics in Chicana/o and Latina/o Studies
CHICLA 699	Directed Study
POLI SCI 304	The Political Economy of Race in the United States

**Serving Chicanx and Latinx Communities** 6

CHICLA/ CURRIC 306	Latinx Literacies
CHICLA/ CURRIC 321	Chicano/Latino Educational Justice

CHICLA 329	Education and Service Topics in Chicana/o & Latina/o Studies
CHICLA/ COUN PSY 331	Immigrant Health and Wellbeing
CHICLA/ COUN PSY 525	Dimensions of Latin@ Mental Health Services
CHICLA/ COUN PSY 590	Esperanza Community-Engaged Research with Latinas
CHICLA 699	Directed Study
CURRIC 670	Theories of Bilingualism and Bilingual Literacy
CURRIC 676	Bilingualism and Bilingual Literacy in Schools
HDFS 474	Racial Ethnic Families in the U.S.

**Total Credits** 30

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all CHICLA and major courses
- 2.000 GPA on at least 15 credits of upper-level work in the major, in residence. Upper-level in the major includes CHICLA courses numbered 300 and above and courses that count for the major that are designated as Intermediate or Advanced level.
- 15 credits in CHICLA taken in residence on the UW-Madison campus

## UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Identify and analyze core concepts, important social and political issues, and key artistic and cultural expressions related to Chicana/o and Latina/o life in the United States.
2. Discuss the histories of Chicanas/os and Latinas/os in the United States and their implications for contemporary problems of racialization, social stratification, colonialism, and oppression.

- Describe the commonalities and differences among Chicanas/os and Latinas/os along lines of class, gender, race, sexuality, citizenship, and national origin, and evaluate Latinidad as a pan-ethnic category in the United States.
- Analyze relations between Chicanas/os and Latinas/os in the United States and their countries of heritage from a transnational and transborder perspective.
- Apply ideas from Chicana/o and Latina/o Studies to concrete problems through service-learning and community-based research, in a spirit of dialogue and reciprocal exchange informed by ethical and social justice principles.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

#### First Year

Fall	Credits Spring	Credits
CHICLA 201	3 CHICLA introductory elective	3

Advanced elective	4 Advanced elective	3
Advanced elective	3 Advanced elective	3
<b>16</b>		<b>15</b>

**Total Credits 120**

## THREE-YEAR PLAN

### THREE-YEAR PLAN

This Sample Three-Year Plan is a tool to assist students and their advisor(s). Students should use it –along with their DARS report, the Degree Planner, and Course Search & Enroll tools – to make their own three-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests.

Three-year plans may vary considerably from student to student, depending on their individual preparation and circumstances. Students interested in graduating in three years should meet with an advisor as early as possible to discuss feasibility, appropriate course sequencing, post-graduation plans (careers, graduate school, etc.), and opportunities they might forgo in pursuit of a three-year graduation plan.

### DEPARTMENTAL EXPECTATIONS

A three-year degree is feasible for students with a variety of backgrounds and specific preparation. The plan assumes that students are coming to UW-Madison with approximately 27 credits from AP/IB or college transfer credits. Your plan may look different depending on the number of credits you bring in.

#### First Year

Fall	Credits Spring	Credits
CHICLA 201	3 CHICLA Introductory Elective	3
Communication A	3 Biological Science Breadth	3
Quantitative Reasoning A	3-4 CHICLA Major Course 3 (Serving Chicanx and Latinx Communities)	3

**Total Credits 93****ADVISING AND CAREERS****ADVISING AND CAREERS  
DEPARTMENTAL ADVISING**

Academic advising for the CLS major and certificate is available in the Student Advising Office, 307 Ingraham Hall. Prospective and current students must make an appointment with Advisor Rachelle Eilers, [reilers@wisc.edu](mailto:reilers@wisc.edu), to discuss requirements, courses, and application to the major or certificate. CLS graduates have enjoyed great success in fields including the health professions, social service, education, law, journalism, business, the arts, politics, and government service.

**L&S CAREER RESOURCES**

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or

graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

**PEOPLE****PEOPLE**

For a detailed list of faculty, please see the department website (<https://chicla.wisc.edu/chicana-latin-studies-professors/>).

**CHICANA/O AND LATINA/O  
STUDIES, CERTIFICATE**

The program in Chican@ and Latin@ Studies (CLS) offers a systematic and interdisciplinary analysis of Mexican- and Latin-American-origin people, cultures, and collectivities within the United States. The CLS certificate is designed to provide students with a broad knowledge base and the intellectual tools to understand the unity and diversity of US Latin@ populations. The primary objective of the CLS program is to train students in the study of Chican@s and Latin@s, as well as to introduce them to the central questions, topics, and applications that have emerged in this field of inquiry.

**HOW TO GET IN****HOW TO GET IN**

To declare, students should make an appointment with the program advisor to discuss requirements, courses, and application to the certificate.

Students declared in the Chicana/o and Latina/o Studies major are not eligible to declare the Chicana/o and Latina/o Studies certificate.

**REQUIREMENTS****REQUIREMENTS**

Completion of the certificate requires a minimum of **15 credits** in Chicana/o and Latina/o studies.<sup>1</sup>

Code	Title	Credits
<b>Complete one Introduction Course:</b>		
CHICLA 201	Introduction to Chicana/o and Latina/o Studies	3
<b>Complete at least one additional course from the following list:</b>		
CHICLA/ AFROAMER/ AMER IND/ ASIAN AM/ FOLKLORE 102	Introduction to Comparative US Ethnic and American Indian Studies

### PEOPLE

## PEOPLE

For a detailed list of faculty, please see the department website (<https://chicla.wisc.edu/chican-latin-studies-professors/>).

## CLASSICAL AND ANCIENT NEAR EASTERN STUDIES

The widespread influence of Greece and Rome upon our own modern society, the intrinsic attraction of ancient literature, civilization, and material culture, and the interdisciplinary nature of the discipline make classics a dynamic and popular field of study. Moreover, undergraduate training in classics demands an intellectual rigor that can prepare students for more advanced training in graduate school, supplement their studies in a variety of other disciplines in the humanities, sciences, and engineering, and help them gain admittance to professional programs in law and medicine.

To this end, the Department of Classical and Ancient Near Eastern Studies (CANES) offers three majors and a certificate, providing a number of options for students wishing to explore their interests in classical studies. The classical humanities major combines two semesters of language study with elective coursework in literature and culture of the ancient world. Students choose from a wide-variety of courses, including everything from CLASSICS 150 Ancient Greek and Roman Monsters to CLASSICS 308 Sex and Violence in the Ancient Near East. Students will

also find offerings in art, architecture, archaeology, gender studies, history, literature, philosophy, and politics.

Latin and ancient Greek are regularly offered and provide the foundation for modern English vocabulary, giving context and insight into the history of the words we use today. Class sizes are small, making the experience more personal and creating opportunities for meaningful learning outcomes.

The department offers the classical studies certificate as well. This 15-credit certificate is designed with maximum flexibility in mind! Coursework may be made up of literature and culture options only, or some combination of language coursework may be included.

For more information about any of these options, please contact the CANES department (<http://canes.wisc.edu/>).

## RESOURCES AND SCHOLARSHIPS

### RESOURCES AND SCHOLARSHIPS

### RESOURCES AND SCHOLARSHIPS SCHOLARSHIPS AND PRIZES

In addition to routinely nominating or recommending exemplary undergraduate majors for national, regional, local, and university awards, CANES offers the following opportunities for financial support to our majors annually:

#### Ruth M. Kuhlman Undergraduate Scholarship

Established in 1998 with a bequest from Myron George Kuhlman in memory of his wife, Ruth Miller Kuhlman (BS in Education '32), this is a monetary award for undergraduates to benefit and advance their studies within the field of classics. The total amount of the award may be up to \$2,500, and the award may not be granted every academic

year depending on the quality of entries and availability of funds. This competition is open to majors only. The call usually goes out in November and closes in February.

#### Gertrude E. Slaughter Summer Study Scholarship

A monetary award in memory of Gertrude E. Slaughter, author and widow of Professor Moses S. Slaughter 1896–1923, for undergraduate students to advance their studies at an accredited center such as the American School in Athens or the American Academy in Rome, to participate in study abroad, or to participate in an active archaeological field project. Awards will be in the amount of up to \$800. This competition is open to majors only. The call usually goes out in November and closes in February.

#### Logan Prize for Greek Translation

A monetary award in memory of Fellow of Classics, John Watson Logan (PhD '23), for the translation of a passage of ancient Greek. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on the quality of entries. This competition is open to all undergraduate students who have completed at least one semester of ancient Greek and is normally publicized in classes and to department majors in early April.

#### Pillinger Prize for Latin Translation

A monetary award in memory of Assistant Professor Hugh Edward Pillinger (1965–1970) for the translation of a passage in Latin. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on the quality of entries. This competition is open to all undergraduate students who have completed at least one semester of Latin and is normally publicized in classes and to department majors in early April.

## STUDY ABROAD

CANES offers two options for summer study: UW–Classics in Greece and UW–Classics in Italy.

Each three-week program is offered alternating summers and guided by a department faculty member; students may earn three credits taking Classics 568: Topics in Classical Literature.

To learn more, visit our website (<https://canes.wisc.edu/undergraduate-studies/study-abroad/>).

## CLASSICAL HUMANITIES, BA

The classical humanities major combines two semesters of language study with elective coursework that explores the literature, civilization, and culture of Greece, Rome, and the Ancient Near East. Students choose from a wide variety of courses, including everything from CLASSICS 150 Ancient Greek and Roman Monsters to CLASSICS 308 Sex and Violence in the Ancient Near East. Students will also find offerings in art, architecture, archaeology, gender studies, history, literature, philosophy, and politics. In addition to enhancing their language study, these subjects enable our majors to develop a more comprehensive understanding of the ancient world.

Latin and ancient Greek are regularly offered and provide the foundation for modern English vocabulary, giving context and insight into the history of the words we use today. Class sizes are small, making the experience more personal and creating opportunities for meaningful learning outcomes.

To support classical humanities majors as they pursue their educational goals, CANES provides annual scholarship opportunities. We also offer a summer study abroad program led by members of our faculty. Learn more under "Resources and Scholarships."

## HOW TO GET IN

### HOW TO GET IN DECLARING THE MAJOR

Declare the Classical Humanities major by contacting [advising@canes.wisc.edu](mailto:advising@canes.wisc.edu)

Students who declare the Classical Humanities major may not combine this major ("double major") with the Classics or Latin major starting Fall 2023. The major may also not be combined with the Certificate in Classical Studies at the Undergraduate Level.

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

General Education	• Breadth–Humanities/Literature/Arts: 6 credits
	• Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
	• Breadth–Social Studies: 3 credits
	• Communication Part A Part B *
	• Ethnic Studies *
	• Quantitative Reasoning Part A Part B *

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

### COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

### BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.
Language	<ul style="list-style-type: none"> <li>• Complete the fourth unit of a language other than English; OR</li> <li>• Complete the third unit of a language and the second unit of an additional language other than English.</li> </ul>
LS Breadth	<ul style="list-style-type: none"> <li>• 12 credits of Humanities, which must include 6 credits of literature; and</li> <li>• 12 credits of Social Science; and</li> <li>• 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.</li> </ul>
Liberal Arts and Science Coursework	Complete at least 108 credits.
Depth of Intermediate/Advanced work	Complete at least 60 credits at the intermediate or advanced level.
Major	Declare and complete at least one major.
Total Credits	Complete at least 120 credits.
UW–Madison Experience	<ul style="list-style-type: none"> <li>• 30 credits in residence, overall; and</li> <li>• 30 credits in residence after the 86th credit.</li> </ul>
Quality of Work	<ul style="list-style-type: none"> <li>• 2,000 in all coursework at UW–Madison</li> <li>• 2,000 in Intermediate/Advanced level coursework at UW–Madison</li> </ul>

### NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

### REQUIREMENTS FOR THE MAJOR

The Classical Humanities major consists of a combination of courses in ancient culture and classical languages. The major requirements are divided into three areas: Language, Literature and Culture, and Seminar.

The major requires a minimum of 28 credits and the specific requirements include:

#### LANGUAGE

Complete one of the following:

Code	Title	Credits
2 semesters of Greek		8 credits
GREEK 103 & GREEK 104	First Semester Ancient Greek and Second Semester Ancient Greek	
2 semesters of Latin		8 credits

LATIN 103 & LATIN 104	First Semester Latin and Second Semester Latin	
1 semester of accelerated Latin		4 credits
LATIN 391	Elementary Intensive Latin	
2 semesters of Biblical Hebrew		8 credits
HEBR-BIB 103 & HEBR-BIB 104	Elementary Biblical Hebrew, I and Elementary Biblical Hebrew, II	
1 semester of accelerated Biblical Hebrew		4 credits
HEBR-BIB 391	Intensive Elementary Biblical Hebrew	

## LITERATURE AND CULTURE

21 credits as follows:

Code	Title	Credits
<b>Intermediate/Advanced Literature and Culture</b>		<b>12</b>
CLASSICS/ ART HIST 300	The Art and Archaeology of Ancient Greece	
CLASSICS/ ART HIST 304	The Art and Archaeology of Ancient Rome	
CLASSICS 308	Sex and Violence in the Ancient Near East	
CLASSICS 315	Africana Approaches to Biblical Interpretation	
CLASSICS 320	The Greeks	
CLASSICS 321	The Egyptians: History, Society, and Literature	
CLASSICS 322	The Romans	
CLASSICS/ HEBR-BIB/ JEWISH/ LITTRANS/ RELIG ST 332	Prophets of the Bible

**Total Credits** **3**

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all CLASSICS, GREEK, HEBR-BIB, and LATIN courses and all other courses in the major
- 2.000 GPA in 15 upper-level major credits, taken in residence<sup>2</sup>
- 15 credits in CLASSICS, GREEK, and LATIN, taken on the UW-Madison campus

## HONORS IN THE MAJOR

Students may declare Honors in the Classical Humanities Major in consultation with the Classical Humanities undergraduate advisor.

### HONORS IN THE MAJOR IN CLASSICAL HUMANITIES: REQUIREMENTS

To earn Honors in the Major in Classical Humanities, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA in all CLASSICS, GREEK, HEBR-BIB, and LATIN courses, and all courses accepted in the major, at the upper-level
- Complete the following coursework:
  - 9 credits, taken for Honors, with a grade of B or better, from the list of Literature and Culture requirements above

- A two-semester Senior Honors Thesis in CLASSICS 681 and CLASSICS 682, for a total of 6 credits

## FOOTNOTES

- <sup>1</sup> CLASSICS 591 is typically offered every spring semester; it is normally taken senior year.
- <sup>2</sup> Courses at the Intermediate and Advanced levels are considered upper-level in this major.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Demonstrate knowledge of ancient Greek, Roman, and Near Eastern societies and cultures.
2. Demonstrate competence in the critical methodologies of textual and material analysis with a view to social and cultural interpretation.
3. Compare and critique ancient Greek, Roman, and Near Eastern societies and cultures to demonstrate intercultural competence and ethical reasoning.
4. Create new knowledge in ancient Greek, Roman, or Near Eastern studies.

## FOUR-YEAR PLAN

### SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it—along with their DARS report, the Degree Planner, and Course Search & Enroll tools—to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to

accommodate these experiences. Students will likely revise their own four-year plan several times during college.

First Year		
Fall	Credits Spring	Credits
LATIN 103 or GREEK 103	4 LATIN 104, GREEK 104, or LATIN 391 <sup>1</sup>	4
One CLASSICS or related course at Elementary level	3 One CLASSICS or related course at Elementary level	3
Communication Part A (complete during first year)	3 Quantitative Reasoning Part A (complete during first year)	4

**Total Credits 120**

<sup>1</sup> LATIN 391 Elementary Intensive Latin is an accelerated course equal to LATIN 103 First Semester Latin and LATIN 104 Second Semester Latin combined

<sup>2</sup> Fulfills Communication Part B & L&S Literature Breadth requirement

## ADVISING AND CAREERS

### ADVISING AND CAREERS ADVISING

If you like to plan, seeing your major advisor is very important; it can make the difference between fitting in *Ancient Greek and Roman Monsters* and *Sex and Violence in the Ancient Near East* before you graduate. Many students also try to complete more than one major or certificate, and discussing how you might be able to reach this goal is another primary role of your major advisor. Advisors can speak to you about course content, which courses fit best with your interest areas, and what kinds of courses might work best with your learning style. Any and all of these discussions can occur during your advising appointment.

In addition to discussing the major, advisors know a lot about:

- General Education requirements
- Breadth requirements
- Interpreting university policies and deadlines
- Connecting majors to careers
- Getting involved with campus organizations
- Finding volunteer and/or internship opportunities
- Talking about your challenges and difficulties
- Connecting with tutors
- Choosing a study abroad program
- Practicing for interviews
- Talking about graduate school
- Proofreading résumés and cover letters

### CAREERS

Humanities majors enable students to consider just about any type of career or educational pursuit. Our coursework builds the critical thinking and communication skills needed to succeed in careers ranging from politics and education to business and law.

Think about what you learn in a classroom setting as well as what you do each day to be a successful student; the skills you develop are equally important in the workplace:

- critical reading, reflection, and analysis
- expanded world view and exposure to new ideas/ways of thinking
- effective teamwork to advance a common project/purpose
- effective time-management and self-motivation to complete projects independently
- demonstrated writing proficiency in short and long essay format
- discussion and debate strategies
- proper research design and methodology
- broader knowledge of career and graduate-study options

One of the more significant skills CANES majors develop is language acquisition. Study of ancient Greek, Latin, or Biblical Hebrew sets you apart and demonstrates your willingness to explore and expand your understanding of history and culture. In addition, the study of ancient languages shows discipline and perseverance. Overall, you will have a wide variety of skills and talents to start you on the path to a rewarding career! Visit our Alumni page (<https://canes.wisc.edu/people/alumni/>) and our Career and Skill Development page (<https://canes.wisc.edu/>)

[undergraduate-studies/career-and-skill-development/](https://canes.wisc.edu/undergraduate-studies/career-and-skill-development/)) for more information.

### L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

## PEOPLE

### PEOPLE

Please visit the Classical and Ancient Near Eastern Studies website (<https://canes.wisc.edu/people/faculty-and-staff/>) for a complete list of faculty, instructional, and academic staff.

## RESOURCES AND SCHOLARSHIPS

### RESOURCES AND SCHOLARSHIPS SCHOLARSHIPS AND PRIZES

In addition to routinely nominating or recommending exemplary undergraduate majors for national, regional, local, and university awards, CANES offers the following opportunities for financial support to our majors annually:

#### Ruth M. Kuhlman Undergraduate Scholarship

Established in 1998 with a bequest from Myron George Kuhlman in memory of his wife, Ruth Miller Kuhlman (BS in Education '32), this is

a monetary award for undergraduates to benefit and advance their studies within the field of classics. The total amount of the award may be up to \$2,500, and the award may not be granted every academic year depending on the quality of entries and availability of funds. This competition is open to majors only. The call usually goes out in November and closes in February.

### Gertrude E. Slaughter Summer Study Scholarship

A monetary award in memory of Gertrude E. Slaughter, author and widow of Professor Moses S. Slaughter 1896–1923, for undergraduate students to advance their studies at an accredited center such as the American School in Athens or the American Academy in Rome, to participate in study abroad, or to participate in an active archaeological field project. Awards will be in the amount of up to \$800. This competition is open to majors only. The call usually goes out in November and closes in February.

### Logan Prize for Greek Translation

A monetary award in memory of Fellow of Classics, John Watson Logan (PhD '23), for the translation of a passage of ancient Greek. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on the quality of entries. This competition is open to all undergraduate students who have completed at least one semester of ancient Greek and is normally publicized in classes and to department majors in early April.

### Pillinger Prize for Latin Translation

A monetary award in memory of Assistant Professor Hugh Edward Pillinger (1965–1970) for the translation of a passage in Latin. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on the quality of entries. This competition is open to all undergraduate students who have completed at least one semester of Latin and is normally publicized in classes and to department majors in early April.

## STUDY ABROAD

CANES offers two options for summer study: UW–Classics in Greece and UW–Classics in Italy.

Each three-week program is offered alternating summers and guided by a department faculty member; students may earn three credits taking Classics 568: Topics in Classical Literature.

To learn more, visit our website (<https://canes.wisc.edu/undergraduate-studies/study-abroad/>).

## CLASSICAL HUMANITIES, BS

The classical humanities major combines two semesters of language study with elective coursework that explores the literature, civilization, and culture of Greece, Rome, and the Ancient Near East. Students choose from a wide variety of courses, including everything from CLASSICS 150 Ancient Greek and Roman Monsters to CLASSICS 308 Sex and Violence in the Ancient Near East. Students will also find offerings in art, architecture, archaeology, gender studies, history, literature, philosophy, and politics. In addition to enhancing their language study, these subjects enable our majors to develop a more comprehensive understanding of the ancient world.

Latin and ancient Greek are regularly offered and provide the foundation for modern English vocabulary, giving context and insight into the history of the words we use today. Class sizes are small, making the experience

more personal and creating opportunities for meaningful learning outcomes.

To support classical humanities majors as they pursue their educational goals, CANES provides annual scholarship opportunities. We also offer a summer study abroad program led by members of our faculty. Learn more under "Resources and Scholarships."

## HOW TO GET IN

### HOW TO GET IN DECLARING THE MAJOR

Declare the Classical Humanities major by contacting [advising@canes.wisc.edu](mailto:advising@canes.wisc.edu)

Students who declare the Classical Humanities major may not combine this major ("double major") with the Classics or Latin major starting Fall 2023. The major may also not be combined with the Certificate in Classical Studies at the Undergraduate Level.

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

- |                   |  |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> <li>• Breadth–Humanities/Literature/Arts: 6 credits</li> <li>• Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth–Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul> |
|-------------------|--|

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

### COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of

Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

## BACHELOR OF SCIENCE DEGREE REQUIREMENTS

**Mathematics** Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.

**Language** Complete the third unit of a language other than English.

**LS Breadth** Complete:

- 12 credits of Humanities, which must include at least 6 credits of Literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.

**Liberal Arts and Science Coursework** Complete at least 108 credits.

**Depth of Intermediate/Advanced Coursework** Complete at least 60 credits at the Intermediate or Advanced level.

**Major** Declare and complete at least one major.

**Total Credits** Complete at least 120 credits.

**UW-Madison Experience** Complete both:

- 30 credits in residence, overall, and
- 30 credits in residence after the 86th credit.

**Quality of Work**

- 2.000 in all coursework at UW-Madison
- 2.000 in Intermediate/Advanced level coursework at UW-Madison

## NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

The Classical Humanities major consists of a combination of courses in ancient culture and classical languages. The major requirements are divided into three areas: Language, Literature and Culture, and Seminar.

The major requires a minimum of 28 credits and the specific requirements include:

### LANGUAGE

Complete one of the following:

Code	Title	Credits
2 semesters of Greek		8 credits
GREEK 103 & GREEK 104	First Semester Ancient Greek and Second Semester Ancient Greek

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all CLASSICS, GREEK, HEBR-BIB, and LATIN courses and all other courses in the major
- 2.000 GPA in 15 upper-level major credits, taken in residence<sup>2</sup>
- 15 credits in CLASSICS, GREEK, and LATIN, taken on the UW-Madison campus

## HONORS IN THE MAJOR

Students may declare Honors in the Classical Humanities Major in consultation with the Classical Humanities undergraduate advisor.

### HONORS IN THE MAJOR IN CLASSICAL HUMANITIES: REQUIREMENTS

To earn Honors in the Major in Classical Humanities, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA in all CLASSICS, GREEK, HEBR-BIB, and LATIN courses, and all courses accepted in the major, at the upper-level
- Complete the following coursework:
  - 9 credits, taken for Honors, with a grade of B or better, from the list of Literature and Culture requirements above

- A two-semester Senior Honors Thesis in CLASSICS 681 and CLASSICS 682, for a total of 6 credits

## FOOTNOTES

- <sup>1</sup> CLASSICS 591 is typically offered every spring semester; it is normally taken senior year.
- <sup>2</sup> Courses at the Intermediate and Advanced levels are considered upper-level in this major.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Demonstrate knowledge of ancient Greek, Roman, and Near Eastern societies and cultures.
2. Demonstrate competence in the critical methodologies of textual and material analysis with a view to social and cultural interpretation.
3. Compare and critique ancient Greek, Roman, and Near Eastern societies and cultures to demonstrate intercultural competence and ethical reasoning.
4. Create new knowledge in ancient Greek, Roman, or Near Eastern studies.

## FOUR-YEAR PLAN

### SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it—along with their DARS report, the Degree Planner, and Course Search & Enroll tools—to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to

accommodate these experiences. Students will likely revise their own four-year plan several times during college.

### First Year

Fall	Credits Spring	Credits
LATIN 103 or GREEK 103	4 LATIN 104, GREEK 104, or LATIN 391 <sup>1</sup>	4

### Total Credits 120

<sup>1</sup> LATIN 391 Elementary Intensive Latin is an accelerated course equal to LATIN 103 First Semester Latin and LATIN 104 Second Semester Latin combined

<sup>2</sup> Fulfills Communication Part B & L&S Literature Breadth requirement

## ADVISING AND CAREERS

### ADVISING AND CAREERS ADVISING

If you like to plan, seeing your major advisor is very important; it can make the difference between fitting in *Ancient Greek and Roman Monsters* and *Sex and Violence in the Ancient Near East* before you graduate. Many students also try to complete more than one major or certificate, and discussing how you might be able to reach this goal is another primary role of your major advisor. Advisors can speak to you about course content, which courses fit best with your interest areas, and what kinds of courses might work best with your learning style. Any and all of these discussions can occur during your advising appointment.

In addition to discussing the major, advisors know a lot about:

- General Education requirements
- Breadth requirements
- Interpreting university policies and deadlines
- Connecting majors to careers
- Getting involved with campus organizations
- Finding volunteer and/or internship opportunities
- Talking about your challenges and difficulties
- Connecting with tutors
- Choosing a study abroad program
- Practicing for interviews
- Talking about graduate school
- Proofreading résumés and cover letters

### CAREERS

Humanities majors enable students to consider just about any type of career or educational pursuit. Our coursework builds the critical thinking and communication skills needed to succeed in careers ranging from politics and education to business and law.

Think about what you learn in a classroom setting as well as what you do each day to be a successful student; the skills you develop are equally important in the workplace:

- critical reading, reflection, and analysis
- expanded world view and exposure to new ideas/ways of thinking
- effective teamwork to advance a common project/purpose
- effective time-management and self-motivation to complete projects independently
- demonstrated writing proficiency in short and long essay format
- discussion and debate strategies
- proper research design and methodology
- broader knowledge of career and graduate-study options

One of the more significant skills CANES majors develop is language acquisition. Study of ancient Greek, Latin, or Biblical Hebrew sets you apart and demonstrates your willingness to explore and expand your understanding of history and culture. In addition, the study of ancient languages shows discipline and perseverance. Overall, you will have a wide variety of skills and talents to start you on the path to a rewarding career! Visit our Alumni page (<https://canes.wisc.edu/people/alumni/>) and our Career and Skill Development page (<https://canes.wisc.edu/>)

undergraduate-studies/career-and-skill-development/) for more information.

## L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

## PEOPLE

### PEOPLE

Please visit the Classical and Ancient Near Eastern Studies website (<https://canes.wisc.edu/people/faculty-and-staff/>) for a complete list of faculty, instructional, and academic staff.

## RESOURCES AND SCHOLARSHIPS

### RESOURCES AND SCHOLARSHIPS AND PRIZES

In addition to routinely nominating or recommending exemplary undergraduate majors for national, regional, local, and university awards, CANES offers the following opportunities for financial support to our majors annually:

#### Ruth M. Kuhlman Undergraduate Scholarship

Established in 1998 with a bequest from Myron George Kuhlman in memory of his wife, Ruth Miller Kuhlman (BS in Education '32), this is

a monetary award for undergraduates to benefit and advance their studies within the field of classics. The total amount of the award may be up to \$2,500, and the award may not be granted every academic year depending on the quality of entries and availability of funds. This competition is open to majors only. The call usually goes out in November and closes in February.

#### Gertrude E. Slaughter Summer Study Scholarship

A monetary award in memory of Gertrude E. Slaughter, author and widow of Professor Moses S. Slaughter 1896–1923, for undergraduate students to advance their studies at an accredited center such as the American School in Athens or the American Academy in Rome, to participate in study abroad, or to participate in an active archaeological field project. Awards will be in the amount of up to \$800. This competition is open to majors only. The call usually goes out in November and closes in February.

#### Logan Prize for Greek Translation

A monetary award in memory of Fellow of Classics, John Watson Logan (PhD '23), for the translation of a passage of ancient Greek. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on the quality of entries. This competition is open to all undergraduate students who have completed at least one semester of ancient Greek and is normally publicized in classes and to department majors in early April.

#### Pillinger Prize for Latin Translation

A monetary award in memory of Assistant Professor Hugh Edward Pillinger (1965–1970) for the translation of a passage in Latin. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on the quality of entries. This competition is open to all undergraduate students who have completed at least one semester of Latin and is normally publicized in classes and to department majors in early April.

## STUDY ABROAD

CANES offers two options for summer study: UW–Classics in Greece and UW–Classics in Italy.

Each three-week program is offered alternating summers and guided by a department faculty member; students may earn three credits taking Classics 568: Topics in Classical Literature.

To learn more, visit our website (<https://canes.wisc.edu/undergraduate-studies/study-abroad/>).

## CLASSICAL STUDIES, CERTIFICATE

The classical studies certificate is 15 credits and allows students to explore the literature, civilization, and culture of the ancient world. Students choose from a wide-variety of courses, including everything from CLASSICS 150 Ancient Greek and Roman Monsters to CLASSICS 308 Sex and Violence in the Ancient Near East. Students will also find offerings in art, architecture, archaeology, gender studies, history, literature, philosophy, and politics. Plus, we count language courses, too! Latin and ancient Greek are regularly offered and provide the foundation for modern English vocabulary, giving context and insight into the history of the words we use today. Class sizes are small, making the experience more personal and creating opportunities for meaningful learning outcomes.

This combination of flexibility and variety are special features making the certificate attractive to students, allowing students the ability to explore their individual interests on the way to developing a more comprehensive understanding of the ancient world.

Finally, in addition to completing requirements for the certificate, many of the courses fulfill *General Education* requirements, such as Communications Part B, and *Breadth* requirements, such as Humanities and Literature.

## HOW TO GET IN

### HOW TO GET IN

Declaring the classical studies certificate is as easy as meeting with the CANES advisor. Make an appointment using Starfish. (<https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/>)

*Please note:* Classical humanities majors are **not** allowed to declare the certificate.

## REQUIREMENTS

### REQUIREMENTS

The certificate is 15 credits comprised of the following:

Code	Title	Credits
<b>Intermediate/Advanced Literature and Culture</b>		<b>9</b>
CLASSICS/ ART HIST 300	The Art and Archaeology of Ancient Greece	
CLASSICS/ ART HIST 304	The Art and Archaeology of Ancient Rome

**Total Credits****15**

<sup>1</sup> Courses taken Pass/Fail do not count in the certificate.

## RESIDENCE AND QUALITY OF WORK

- Minimum 2.000 GPA in all courses approved for the certificate
- At least 8 credits in the certificate, taken in residence

## CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Demonstrate knowledge of ancient Greek, Roman, and Near Eastern societies and cultures.
2. Demonstrate competence in the critical methodologies of textual and material analysis with a view to social and cultural interpretation.
3. Compare and critique ancient Greek, Roman, and Near Eastern societies and cultures to demonstrate intercultural competence and ethical reasoning.

## ADVISING AND CAREERS

### ADVISING AND CAREERS

If you like to plan, seeing your advisor is very important; it can make the difference between fitting in *Ancient Greek and Roman Monsters* and *Sex and Violence in the Ancient Near East* before you graduate. Many students also try to complete more than one major or certificate, and discussing

how you might be able to reach this goal is another primary role of your major advisor. Advisors can speak to you about course content, which courses fit best with your interest areas, and what kinds of courses might work best with your learning style. Any and all of these discussions can occur during your advising appointment.

In addition to discussing the major, advisors know a lot about:

- General Education requirements
- Breadth requirements
- Interpreting university policies and deadlines
- Connecting majors to careers
- Getting involved with campus organizations
- Finding volunteer and/or internship opportunities
- Talking about your challenges and difficulties
- Connecting with tutors
- Choosing a study abroad program

## PEOPLE

### PEOPLE

Please visit the Classical and Ancient Near Eastern Studies website (<https://canes.wisc.edu/people/faculty-and-staff/>) for a complete list of faculty, instructional, and academic staff.

## CLASSICS, BA

**Admissions to the Classics, BA/BS have been suspended as of summer 2024 and will be discontinued as of summer 2028. If you have any questions, please contact the department.**

Please consult the Classical and Ancient Near Eastern Studies advisor with questions about the major in classics.

## HOW TO GET IN

### HOW TO GET IN

**Admissions to the Classics, BA/BS have been suspended as of summer 2024 and will be discontinued as of summer 2028. If you have any questions, please contact the department.**

### DECLARING THE MAJOR

For more information about the Classics major, contact [advising@canes.wisc.edu](mailto:advising@canes.wisc.edu)

Students who declare the Classics major may not combine this major ("double major") with the Classical Humanities major starting Fall 2023.

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

- |                   |  |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> <li>• Breadth–Humanities/Literature/Arts: 6 credits</li> <li>• Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth–Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul> |
|-------------------|--|

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

### COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

#### BACHELOR OF ARTS DEGREE REQUIREMENTS

**Mathematics** Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.

- |          |  |
|----------|--|
| Language | <ul style="list-style-type: none"> <li>• Complete the fourth unit of a language other than English; OR</li> <li>• Complete the third unit of a language and the second unit of an additional language other than English.</li> </ul> |
|----------|--|

- |            |  |
|------------|--|
| LS Breadth | <ul style="list-style-type: none"> <li>• 12 credits of Humanities, which must include 6 credits of literature; and</li> <li>• 12 credits of Social Science; and</li> <li>• 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.</li> </ul> |
|------------|--|

Liberal Arts and Science Coursework	Complete at least 108 credits.
Depth of Intermediate/Advanced work	Complete at least 60 credits at the intermediate or advanced level.
Major	Declare and complete at least one major.
Total Credits	Complete at least 120 credits.
UW-Madison Experience	<ul style="list-style-type: none"> <li>• 30 credits in residence, overall; and</li> <li>• 30 credits in residence after the 86th credit.</li> </ul>
Quality of Work	<ul style="list-style-type: none"> <li>• 2,000 in all coursework at UW–Madison</li> <li>• 2,000 in Intermediate/Advanced level coursework at UW–Madison</li> </ul>

### NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

### REQUIREMENTS FOR THE MAJOR

A major in Classics allows students to place primary emphasis on learning Greek or Latin, yet gain some language training in both. Whether the primary language of study is Greek or Latin, the major requires 23 credits and assumes students have taken the first two semesters of both languages prior to entering the major.

#### CLASSICS–LATIN EMPHASIS

Code	Title	Credits

<b>Total Credits</b>		<b>23</b>

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all CLASSICS and major courses
- 2.000 GPA in at least 15 credits of upper-level work in the major<sup>1</sup>
- 15 credits in CLASSICS, taken at UW–Madison

## HONORS IN THE MAJOR

Students may declare Honors in the Classics Major in consultation with the Classics undergraduate advisor.

### HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major in Classics, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA in upper-level work in the major
- Complete the following coursework, with a grade of B or better:
  - CLASSICS 591 and
  - Senior Honors Thesis (CLASSICS 681 & CLASSICS 682) for a 6 credits

## FOOTNOTES

<sup>1</sup>Courses at the Intermediate and Advanced levels are considered upper-level in this major.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Recognize, identify, and explain forms, syntax, and vocabulary of the classical and biblical languages.
2. Demonstrate close reading skills that emphasize accuracy and nuance in translation.
3. Demonstrate critical reading skills which emphasize textual analysis, interpretation, and evaluation.
4. Demonstrate competency with texts and authors from the classical and near eastern tradition.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

- Connecting majors to careers
- Getting involved with campus organizations
- Finding volunteer and/or internship opportunities
- Talking about your challenges and difficulties
- Connecting with tutors
- Choosing a study abroad program
- Practicing for interviews
- Talking about graduate school
- Proofreading résumés and cover letters

**CAREERS**

Humanities majors enable students to consider just about any type of career or educational pursuit. Our coursework builds the critical thinking and communication skills needed to succeed in careers ranging from politics and education to business and law.

Think about what you learn in a classroom setting as well as what you do each day to be a successful student; the skills you develop are equally important in the workplace:

- critical reading, reflection, and analysis
- expanded world view and exposure to new ideas/ways of thinking
- effective teamwork to advance a common project/purpose
- effective time-management and self-motivation to complete projects independently
- demonstrated writing proficiency in short and long essay format
- discussion and debate strategies
- proper research design and methodology
- broader knowledge of career and graduate-study options

One of the more significant skills CANES majors develop is language acquisition. Study of Greek, Latin, or Biblical Hebrew sets you apart and demonstrates your willingness to explore and expand your understanding of history and culture. In addition, the study of ancient languages shows discipline and perseverance. Overall, you will have a wide variety of skills and talents to start you on the path to a rewarding career! Visit our Alumni page (<https://canes.wisc.edu/people/alumni/>) and our Career and Skill Development page (<https://canes.wisc.edu/undergraduate-studies/career-and-skill-development/>) for more information.

**L&S CAREER RESOURCES**

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)

**ADVISING AND CAREERS****ADVISING AND CAREERS****ADVISING**

If you like to plan, seeing your major advisor is very important; it can make the difference between fitting in *Vergil* or *Homer* before you graduate. Many students also try to complete more than one major or certificate, and discussing how you might be able to reach this goal is another primary role of your major advisor. Advisors can speak to you about course content, which courses fit best with your interest areas, and what kinds of courses might work best with your learning style. Any and all of these discussions can occur during your advising appointment.

In addition to discussing the major, advisors know a lot about:

- General Education requirements
- Breadth requirements
- Interpreting university policies and deadlines

- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

## RESOURCES AND SCHOLARSHIPS

## RESOURCES AND SCHOLARSHIPS

### SCHOLARSHIPS AND PRIZES

In addition to routinely nominating or recommending exemplary undergraduate majors for national, regional, local, and university awards, CANES offers the following opportunities for financial support to our majors annually:

#### Ruth M. Kuhlman Undergraduate Scholarship

Established in 1998 with a bequest from Myron George Kuhlman in memory of his wife, Ruth Miller Kuhlman (BS in Education '32), this is a monetary award for undergraduates to benefit and advance their studies within the field of classics. The total amount of the award may be up to \$2,500, and the award may not be granted every academic year depending on the quality of entries and availability of funds. This competition is open to majors only. The call usually goes out in November and closes in February.

#### Gertrude E. Slaughter Summer Study Scholarship

A monetary award in memory of Gertrude E. Slaughter, author and widow of Professor Moses S. Slaughter 1896–1923, for undergraduate students to advance their studies at an accredited center such as the American School in Athens or the American Academy in Rome, to participate in study abroad, or to participate in an active archaeological field project. Awards will be in the amount of up to \$800. This competition is open to majors only. The call usually goes out in November and closes in February.

#### Logan Prize for Greek Translation

A monetary award in memory of Fellow of Classics, John Watson Logan (PhD '23), for the translation of a passage of ancient Greek. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on the quality of entries. This competition is open to all undergraduate students who

have completed at least one semester of ancient Greek and is normally publicized in classes and to department majors in early April.

#### Pillinger Prize for Latin Translation

A monetary award in memory of Assistant Professor Hugh Edward Pillinger (1965–1970) for the translation of a passage in Latin. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on the quality of entries. This competition is open to all undergraduate students who have completed at least one semester of Latin and is normally publicized in classes and to department majors in early April.

## STUDY ABROAD

CANES offers two options for summer study: UW–Classics in Greece and UW–Classics in Italy.

Each three-week program is offered alternating summers and guided by a department faculty member; students may earn three credits taking Classics 568: Topics in Classical Literature.

To learn more, visit our website (<https://canes.wisc.edu/undergraduate-studies/study-abroad/>).

## CLASSICS, BS

**Admissions to the Classics, BA/BS have been suspended as of summer 2024 and will be discontinued as of summer 2028. If you have any questions, please contact the department.**

Please consult the Classical and Ancient Near Eastern Studies advisor with questions about the major in classics.

## HOW TO GET IN

## HOW TO GET IN

**Admissions to the Classics, BA/BS have been suspended as of summer 2024 and will be discontinued as of summer 2028. If you have any questions, please contact the department.**

## DECLARING THE MAJOR

For more information about the Classics major, contact [advising@canes.wisc.edu](mailto:advising@canes.wisc.edu)

Students who declare the Classics major may not combine this major (“double major”) with the Classical Humanities major starting Fall 2023.

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed.

For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

General Education	<ul style="list-style-type: none"> <li>• Breadth—Humanities/Literature/Arts: 6 credits</li> <li>• Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth—Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul>
-------------------	--

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

### BACHELOR OF SCIENCE DEGREE REQUIREMENTS

**Mathematics** Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.

**Language** Complete the third unit of a language other than English.

**LS Breadth** Complete:

- 12 credits of Humanities, which must include at least 6 credits of Literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.

**Liberal Arts and Science Coursework** Complete at least 108 credits.

**Depth of Intermediate/Advanced Coursework** Complete at least 60 credits at the Intermediate or Advanced level.

**Major** Declare and complete at least one major.

**Total Credits** Complete at least 120 credits.

**UW-Madison Experience** Complete both:

- 30 credits in residence, overall, and
- 30 credits in residence after the 86th credit.

**Quality of Work**

- 2.000 in all coursework at UW–Madison
- 2.000 in Intermediate/Advanced level coursework at UW–Madison

## NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

A major in Classics allows students to place primary emphasis on learning Greek or Latin, yet gain some language training in both. Whether the primary language of study is Greek or Latin, the major requires 23 credits and assumes students have taken the first two semesters of both languages prior to entering the major.

### CLASSICS–LATIN EMPHASIS

Code	Title	Credits
<b>GREEK courses:</b>		
GREEK 305	Third Semester Ancient Greek	3
GREEK 306	Fourth Semester Ancient Greek	3
<b>LATIN courses:</b>

<b>LATIN courses:</b>		
LATIN 305	Third Semester Latin	4
LATIN 306	Fourth Semester Latin	4
<b>GREEK courses:</b>		
GREEK 305	Third Semester Ancient Greek	3
GREEK 306	Fourth Semester Ancient Greek	3
GREEK 401	Readings in Greek Literature	3
Two GREEK courses at the 500 level, select from:		6
GREEK 505	Elementary Prose Composition	
GREEK 510	Homer	
GREEK 511	Hesiod	
GREEK 512	Greek Lyric Poets	
GREEK 520	Greek Comedy	
GREEK 521	Greek Tragedy	

GREEK 530	Herodotus
GREEK 532	Thucydides
GREEK 551	Attic Orators
GREEK 560	Hellenistic Greek

**Total Credits** **23**

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all CLASSICS and major courses
- 2.000 GPA in at least 15 credits of upper-level work in the major<sup>1</sup>
- 15 credits in CLASSICS, taken at UW–Madison

## HONORS IN THE MAJOR

Students may declare Honors in the Classics Major in consultation with the Classics undergraduate advisor.

### HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major in Classics, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA in upper-level work in the major
- Complete the following coursework, with a grade of B or better:
  - CLASSICS 591 and
  - Senior Honors Thesis (CLASSICS 681 & CLASSICS 682) for a 6 credits

## FOOTNOTES

<sup>1</sup>Courses at the Intermediate and Advanced levels are considered upper-level in this major.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Recognize, identify, and explain forms, syntax, and vocabulary of the classical and biblical languages.
2. Demonstrate close reading skills that emphasize accuracy and nuance in translation.
3. Demonstrate critical reading skills which emphasize textual analysis, interpretation, and evaluation.
4. Demonstrate competency with texts and authors from the classical and near eastern tradition.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

### BACHELOR OF ARTS DEGREE REQUIREMENTS

**Mathematics** Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.

**Language**

- Complete the fourth unit of a language other than English; OR
- Complete the third unit of a language and the second unit of an additional language other than English.

**LS Breadth**

- 12 credits of Humanities, which must include 6 credits of literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.

**Liberal Arts and Science Coursework** Complete at least 108 credits.

**Depth of Intermediate/Advanced work** Complete at least 60 credits at the intermediate or advanced level.

**Major** Declare and complete at least one major.

**Total Credits** Complete at least 120 credits.

**UW-Madison Experience**

- 30 credits in residence, overall; and
- 30 credits in residence after the 86th credit.

**Quality of Work**

- 2.000 in all coursework at UW-Madison
- 2.000 in Intermediate/Advanced level coursework at UW-Madison

### NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

### REQUIREMENTS FOR THE MAJOR

The Latin major requires 26 total credits from below:

Code	Title	Credits
<b>Complete all of the following courses:</b>		
LATIN 305	Third Semester Latin	4

LATIN 306	Fourth Semester Latin	4
LATIN 401	Readings in Latin Literature	3

**Complete five courses from the following:** **15**

LATIN 505	Elementary Prose Composition	
LATIN 515	Vergil	
LATIN 519	Latin Poetry	
LATIN 520	Roman Drama	
LATIN 522	Roman Lyric Poetry	
LATIN 523	Roman Satire	
LATIN 524	Roman Novel	
LATIN 539	Latin Historical Writers	
LATIN 549	Latin Philosophical Writers	
LATIN 559	Latin Oratory	
LATIN/ MEDIEVAL 563	Mediaeval Latin	
LATIN 681	Honors Thesis	
LATIN 682	Senior Honors Thesis	
LATIN 691	Senior Thesis	
LATIN 692	Senior Thesis	

**Total Credits** **26**

### RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all LATIN and all major courses
- 2.000 GPA in 15 upper-level credits in Residence<sup>1</sup>
- 15 credits in LATIN, taken on campus

### HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the CANES undergraduate advisor.

### HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 in all major courses at the Intermediate or Advanced level
- Complete CLASSICS 591
- Complete a two-semester Senior Honors Thesis in CLASSICS 681 and CLASSICS 682, for a total of 6 credits.

### FOOTNOTES

<sup>1</sup> Courses at the Intermediate and Advanced levels are considered upper-level in this major.

### UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Recognize, identify, and explain forms, syntax, and vocabulary of the classical and biblical languages.
2. Demonstrate close reading skills that emphasize accuracy and nuance in translation.
3. Demonstrate critical reading skills which emphasize textual analysis, interpretation, and evaluation.
4. Demonstrate competency with texts and authors from the classical and near eastern tradition.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

#### First Year

Fall	Credits Spring	Credits
LATIN 103	4 LATIN 104	4
Communication Part A (complete during first year)	3 Quantitative Reasoning Part A (complete during first year)	3
Social Science Breadth	3 Ethnic Studies	3
Biological Science Breadth	3 Social Science Breadth	3
	Elective	2
	<b>13</b>	<b>15</b>

#### Second Year

Fall	Credits Spring	Credits
LATIN 305	4 LATIN 306	4
Communication Part B	3 Quantitative Reasoning Part B	3
Social Science Breadth	3 Social Science Breadth	3

Physical Science Breadth	3 Science Breadth	3
Elective	3 Elective	3
	<b>16</b>	<b>16</b>

#### Third Year

Fall	Credits Spring	Credits
LATIN 401	3 500-level LATIN course <sup>2</sup>	3
Science Breadth	3 500-level LATIN course <sup>2</sup>	3
Electives	9 Electives	9
	<b>15</b>	<b>15</b>

#### Fourth Year

Fall	Credits Spring	Credits
500-level LATIN course <sup>2</sup>	3 500-level LATIN course <sup>2</sup>	3
500-level LATIN course <sup>2</sup>	3 Electives	12
Electives	9	
	<b>15</b>	<b>15</b>

#### Total Credits 120

<sup>1</sup> Fulfills L&S Literature Breadth requirement.

<sup>2</sup> Except for LATIN 505 Elementary Prose Composition, all LATIN 500-level courses fulfill L&S Literature Breadth requirement.

## ADVISING AND CAREERS

### ADVISING AND CAREERS

If you like to plan, seeing your major advisor is very important; it can make the difference between fitting in *Vergil* or *Ovid* before you graduate. Many students also try to complete more than one major or certificate, and discussing how you might be able to reach this goal is another primary role of your major advisor. Advisors can speak to you about course content, which courses fit best with your interest areas, and what kinds of courses might work best with your learning style. Any and all of these discussions can occur during your advising appointment.

In addition to discussing the major, advisors know a lot about:

- General Education requirements
- Breadth requirements
- Interpreting university policies and deadlines
- Connecting majors to careers
- Getting involved with campus organizations
- Finding volunteer and/or internship opportunities
- Talking about your challenges and difficulties
- Connecting with tutors
- Choosing a study abroad program
- Practicing for interviews
- Talking about graduate school
- Proofreading résumés a

### CAREERS

Humanities majors enable students to consider just about any type of career or educational pursuit. Our coursework builds the critical thinking and communication skills needed to succeed in careers ranging from politics and education to business and law.

Think about what you learn in a classroom setting as well as what you do each day to be a successful student; the skills you develop are equally important in the workplace:

- critical reading, reflection, and analysis
- proper research design and methodology
- expanded world view and exposure to new ideas/ways of thinking
- effective teamwork to advance a common project/purpose
- effective time-management and self-motivation to complete projects independently
- demonstrated writing proficiency in short and long essay format
- discussion and debate strategies
- broader knowledge of career and graduate-study options

One of the more significant skills CANES majors develop is language acquisition. Study of Greek, Latin, or Biblical Hebrew sets you apart and demonstrates your willingness to explore and expand your understanding of history and culture. In addition, the study of ancient languages shows discipline and perseverance. Overall, you will have a wide variety of skills and talents to start you on the path to a rewarding career! Visit our Alumni page (<https://canes.wisc.edu/people/alumni/>) and our Career and Skill Development page (<https://canes.wisc.edu/undergraduate-studies/career-and-skill-development/>) for more information.

## L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

## PEOPLE

### PEOPLE

Please visit the Classical and Ancient Near Eastern Studies website (<https://canes.wisc.edu/people/faculty-and-staff/>) for a complete list of faculty, instructional, and academic staff.

## RESOURCES AND SCHOLARSHIPS

### RESOURCES AND SCHOLARSHIPS AND PRIZES

In addition to routinely nominating or recommending exemplary undergraduate majors for national, regional, local, and university awards, CANES offers the following opportunities for financial support to our majors annually:

#### Ruth M. Kuhlman Undergraduate Scholarship

Established in 1998 with a bequest from Myron George Kuhlman in memory of his wife, Ruth Miller Kuhlman (BS in Education '32), this is a monetary award for undergraduates to benefit and advance their studies within the field of classics. The total amount of the award may be up to \$2,500, and the award may not be granted every academic year depending on the quality of entries and availability of funds. This competition is open to majors only. The call usually goes out in November and closes in February.

#### Gertrude E. Slaughter Summer Study Scholarship

A monetary award in memory of Gertrude E. Slaughter, author and widow of Professor Moses S. Slaughter 1896-1923, for undergraduate students to advance their studies at an accredited center such as the American School in Athens or the American Academy in Rome, to participate in study abroad, or to participate in an active archaeological field project. Awards will be in the amount of up to \$800. This competition is open to majors only. The call usually goes out in November and closes in February.

#### Logan Prize for Greek Translation

A monetary award in memory of Fellow of Classics, John Watson Logan (PhD '23), for the translation of a passage of ancient Greek. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on the quality of entries. This competition is open to all undergraduate students who have completed at least one semester of ancient Greek and is normally publicized in classes and to department majors in early April.

#### Pillinger Prize for Latin Translation

A monetary award in memory of Assistant Professor Hugh Edward Pillinger (1965-1970) for the translation of a passage in Latin. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on the quality of entries. This competition is open to all undergraduate students who have completed at least one semester of Latin and is normally publicized in classes and to department majors in early April.

## STUDY ABROAD

CANES offers two options for summer study: UW-Classics in Greece and UW-Classics in Italy.

Each three-week program is offered alternating summers and guided by a department faculty member; students may earn three credits taking Classics 568: Topics in Classical Literature.

To learn more, visit our website (<https://canes.wisc.edu/undergraduate-studies/study-abroad/>).

## LATIN, BS

**Admissions to the Latin, BA/BS are suspended as of fall 2024 and will be discontinued as of fall 2028. If you have any questions, please contact the department.**

Please consult the Classical and Ancient Near Eastern Studies advisor with questions about the major in Latin.

## HOW TO GET IN

### HOW TO GET IN

**Admissions to the Latin, BA/BS are suspended as of fall 2024 and will be discontinued as of fall 2028. If you have any questions, please contact the department.**

### DECLARING THE MAJOR

For more information about the Latin major, contact [advising@canes.wisc.edu](mailto:advising@canes.wisc.edu)

Students who declare the Latin major may not combine this major (“double major”) with the Classical Humanities major starting Fall 2023.

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

#### General Education

- Breadth–Humanities/Literature/Arts: 6 credits
- Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth–Social Studies: 3 credits
- Communication Part A Part B \*
- Ethnic Studies \*
- Quantitative Reasoning Part A Part B \*

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

### BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.
Language	Complete the third unit of a language other than English.
LS Breadth	Complete: <ul style="list-style-type: none"> <li>• 12 credits of Humanities, which must include at least 6 credits of Literature; and</li> <li>• 12 credits of Social Science; and</li> <li>• 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.</li> </ul>
Liberal Arts and Science Coursework	Complete at least 108 credits.
Depth of Intermediate/Advanced Coursework	Complete at least 60 credits at the Intermediate or Advanced level.
Major	Declare and complete at least one major.
Total Credits	Complete at least 120 credits.
UW-Madison Experience	Complete both: <ul style="list-style-type: none"> <li>• 30 credits in residence, overall, and</li> <li>• 30 credits in residence after the 86th credit.</li> </ul>
Quality of Work	<ul style="list-style-type: none"> <li>• 2.000 in all coursework at UW–Madison</li> <li>• 2.000 in Intermediate/Advanced level coursework at UW–Madison</li> </ul>

## NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

The Latin major requires 26 total credits from below:

Code	Title	Credits
<b>Complete all of the following courses:</b>		
LATIN 305	Third Semester Latin	4
LATIN 306	Fourth Semester Latin	4
LATIN 401	Readings in Latin Literature	3
<b>Complete five courses from the following:</b>		<b>15</b>
LATIN 505	Elementary Prose Composition	
LATIN 515	Vergil	
LATIN 519	Latin Poetry	
LATIN 520	Roman Drama	
LATIN 522	Roman Lyric Poetry	
LATIN 523	Roman Satire	
LATIN 524	Roman Novel	
LATIN 539	Latin Historical Writers	
LATIN 549	Latin Philosophical Writers	
LATIN 559	Latin Oratory	
LATIN/ MEDIEVAL 563	Mediaeval Latin	
LATIN 681	Honors Thesis	
LATIN 682	Senior Honors Thesis	
LATIN 691	Senior Thesis	
LATIN 692	Senior Thesis	
<b>Total Credits</b>		<b>26</b>

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all LATIN and all major courses
- 2.000 GPA in 15 upper-level credits in Residence<sup>1</sup>
- 15 credits in LATIN, taken on campus

## HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the CANES undergraduate advisor.

### HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 in all major courses at the Intermediate or Advanced level
- Complete CLASSICS 591
- Complete a two-semester Senior Honors Thesis in CLASSICS 681 and CLASSICS 682, for a total of 6 credits.

## FOOTNOTES

<sup>1</sup> Courses at the Intermediate and Advanced levels are considered upper-level in this major.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Recognize, identify, and explain forms, syntax, and vocabulary of the classical and biblical languages.
2. Demonstrate close reading skills that emphasize accuracy and nuance in translation.
3. Demonstrate critical reading skills which emphasize textual analysis, interpretation, and evaluation.
4. Demonstrate competency with texts and authors from the classical and near eastern tradition.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

A monetary award in memory of Gertrude E. Slaughter, author and widow of Professor Moses S. Slaughter 1896-1923, for undergraduate students to advance their studies at an accredited center such as the American School in Athens or the American Academy in Rome, to participate in study abroad, or to participate in an active archaeological field project. Awards will be in the amount of up to \$800. This competition is open to majors only. The call usually goes out in November and closes in February.

#### Logan Prize for Greek Translation

A monetary award in memory of Fellow of Classics, John Watson Logan (PhD '23), for the translation of a passage of ancient Greek. The passage

will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on the quality of entries. This competition is open to all undergraduate students who have completed at least one semester of ancient Greek and is normally publicized in classes and to department majors in early April.

#### Pillinger Prize for Latin Translation

A monetary award in memory of Assistant Professor Hugh Edward Pillinger (1965-1970) for the translation of a passage in Latin. The passage will be selected each year by the chair of the Prize Committee and awards may not be granted every academic year depending on the quality of entries. This competition is open to all undergraduate students who have completed at least one semester of Latin and is normally publicized in classes and to department majors in early April.

### STUDY ABROAD

CANES offers two options for summer study: UW-Classics in Greece and UW-Classics in Italy.

Each three-week program is offered alternating summers and guided by a department faculty member; students may earn three credits taking Classics 568: Topics in Classical Literature.

To learn more, visit our website (<https://canes.wisc.edu/undergraduate-studies/study-abroad/>).

## COMMUNICATION ARTS

The communication arts major offers a liberal arts approach to studying communication. The value of the liberal arts approach is that students not only learn specific skills, they also gain a deep understanding of communication theory, history, research, and criticism. Majors learn to apply communication principles in different contexts and with a variety of different media. As a result, the communication arts major prepares students for a wide range of jobs and careers, including those that don't exist yet.

Courses in communication arts deal with a diverse range of communication-related topics and approach them from a variety of theoretical, practical, and aesthetic perspectives. The curriculum is designed to foster an understanding of communication processes, improve communication and digital literacy skills, and develop the capacity for critical appraisal and reflection.

The Department of Communication Arts offers two concentrations in the major:

1. **Communication Science and Rhetorical Studies:** Students explore the social, psychological, and practical aspects of communication and human behavior with a focus on public, mass, online, organizational, group, and interpersonal communication.
2. **Radio-Television-Film:** Students explore the history, theory, criticism, cultural uses, and production practices of television, film, radio, and digital media.

### DIGITAL CINEMA PRODUCTION CERTIFICATE

The digital cinema production certificate is tailored specifically for students interested in media creation, including film, television, documentary, and internet-based media. See the Digital Cinema

Production (p. 672) section in this Guide for requirements and course options.

## DIGITAL STUDIES CERTIFICATE

The digital studies certificate allows students seeking more experience with digital media and other technologies to select courses from across several departments, including communication arts, to create their own individualized digital curriculum. See the Digital Studies (p. 674) section in this Guide for requirements and course options.

## DEGREES/MAJORS/CERTIFICATES

### DEGREES/MAJORS/ CERTIFICATES

- Communication Arts, BA (p. 650)
- Communication Arts, BS (p. 661)
- Digital Cinema Production, Certificate (p. 672)
- Digital Studies, Certificate (p. 674)

## COMMUNICATION ARTS, BA

The communication arts major offers a liberal arts approach to studying communication. The value of the liberal arts approach is that students

not only learn specific skills, they also gain a deep understanding of communication theory, history, research, and criticism. Majors learn to apply communication principles in different contexts and with a variety of different media. As a result, the communication arts major prepares students for a wide range of jobs and careers, including those that don't exist yet.

Courses in communication arts deal with a diverse range of communication-related topics and approach them from a variety of theoretical, practical, and aesthetic perspectives. The curriculum is designed to foster an understanding of communication processes, improve communication and digital literacy skills, and develop the capacity for critical appraisal and reflection.

The Department of Communication Arts offers two options in the major:

1. **Communication Science and Rhetorical Studies:** Students explore the social, psychological, and practical aspects of communication and human behavior with a focus on public, mass, online, organizational, group, and interpersonal communication.
2. **Radio–Television–Film:** Students explore the history, theory, criticism, cultural uses, and production practices of television, film, radio, and digital media.

## HOW TO GET IN

### HOW TO GET IN DECLARING THE MAJOR

The Communication Arts major does not have an admission requirement. Students interested in pursuing the major are encouraged to meet with a Communication Arts academic advisor. Please see the Communication Arts website (<https://commarts.wisc.edu/undergraduate/declaring/>) for instructions on how to declare the major.

Students may declare only one option in the major: Communication Science and Rhetorical Studies or Radio-Television-Film.

Non-Letters & Science students will need permission from their school or college to pursue an additional major in Communication Arts.

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

- General Education
- Breadth—Humanities/Literature/Arts: 6 credits
  - Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
  - Breadth—Social Studies: 3 credits
  - Communication Part A Part B \*
  - Ethnic Studies \*
  - Quantitative Reasoning Part A Part B \*

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

### BACHELOR OF ARTS DEGREE REQUIREMENTS

**Mathematics** Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.

**Language**

- Complete the fourth unit of a language other than English; OR
- Complete the third unit of a language and the second unit of an additional language other than English.

**LS Breadth**

- 12 credits of Humanities, which must include 6 credits of literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.

**Liberal Arts and Science Coursework** Complete at least 108 credits.

**Depth of Intermediate/Advanced work** Complete at least 60 credits at the intermediate or advanced level.

**Major** Declare and complete at least one major.

**Total Credits** Complete at least 120 credits.

**UW-Madison Experience**

- 30 credits in residence, overall; and
- 30 credits in residence after the 86th credit.

- Quality of Work**
- 2.000 in all coursework at UW-Madison
  - 2.000 in Intermediate/Advanced level coursework at UW-Madison

## NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

Communication Arts offers two options within the major:

- Communication Science and Rhetorical Studies
- Radio–Television–Film

Students declare one of the two options and complete a minimum of 10 courses and at least 30 credits in the major. Please note that COM ARTS courses numbered below 200 as well as COM ARTS 605, COM ARTS 614, and COM ARTS 615 do not count in the major.

### STUDENTS MUST SELECT ONE OF THE FOLLOWING OPTIONS:

View as [list](#) [View as grid](#)

- **COMMUNICATION ARTS: COMMUNICATION SCIENCE AND RHETORICAL STUDIES (P. 654)**
- **COMMUNICATION ARTS: RADIO-TELEVISION-FILM (P. 658)**

## RESIDENCE AND QUALITY OF WORK

- Minimum 2.000 GPA in all COM ARTS and major courses
- Minimum 2.000 GPA on at least 15 credits of upper-level work in the COM ARTS major, in residence. (Upper-level in the COM ARTS major includes courses at the intermediate or advanced level).
- 15 credits of COM ARTS major courses (200-699) taken on the UW-Madison campus.

## HONORS IN THE MAJOR IN COMMUNICATION ARTS

Students may apply to pursue Honors in the Communication Arts major in consultation with a Communication Arts undergraduate advisor. To be accepted students must have:

- Completed the fundamentals course and the two core courses for their declared option and
- Earned a minimum 3.500 GPA in all COM ARTS courses

### HONORS IN THE COMMUNICATION ARTS MAJOR REQUIREMENTS

To earn Honors in the Major in Communication Arts, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Minimum 3.300 University GPA
- Minimum 3.500 GPA for all COM ARTS major courses
- Complete the requirements for the declared major option, to include:
  - All theory, history, criticism courses taken to meet the regular major requirements within the declared option must be numbered 400 or higher.
  - One additional theory, history, criticism course numbered 400 or higher.
  - Three theory, history and criticism courses must be completed on campus.
  - A two-semester senior honors thesis in COM ARTS 681 and COM ARTS 682, for a total of 6 credits.<sup>1</sup>

## FOOTNOTES

<sup>1</sup> Submission and approval of a Senior Honors Thesis Proposal is required prior to the term in which students enroll for COM ARTS 681 Senior Honors Thesis. See the Communication Arts undergraduate advisor for current process. Approval of the completed thesis by the thesis advisor and a second Communication Arts faculty member is required.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Explain core content in either of the two tracks: Communication Science and Rhetorical Studies or Radio-TV-Film.
2. Analyze communication from theoretical, historical, and critical perspectives.
3. Communicate effectively in writing, orally, or via the creation of media content.
4. Participate in communication practices that support diversity, equity, and inclusion for the historically marginalized.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

Please see any of the Named Options for a four-year plan.

## ADVISING AND CAREERS

### ADVISING AND CAREERS COMMUNICATION ARTS ACADEMIC ADVISING

Communication arts academic advisors (<https://commarts.wisc.edu/undergraduate/advising/>) assist students throughout their undergraduate studies. Please see the Communication Arts website (<https://commarts.wisc.edu/undergraduate/advising/>) for advising options.

#### Contact Information

Steffie Halverson, 6114 Vilas Hall, 608-262-2285, [advising@commarts.wisc.edu](mailto:advising@commarts.wisc.edu)

Mary Rossa, 6068 Vilas Hall, 608-262-0992, [advising@commarts.wisc.edu](mailto:advising@commarts.wisc.edu)

### COMMUNICATION ARTS COURSES

The Communication Arts Department offers a wide array of courses. All the courses listed in the Guide are not offered each semester. Please see Course Search and Enroll for current course offerings.

### CAREER ADVISING

The communication and media career advisor (<https://commarts.wisc.edu/undergraduate/careers/>) assists students with career preparation, such as exploring career options, learning internship and job search strategies, and writing resumes and cover letters.

#### Contact Information

Pam Garcia-Rivera, 5114 Vilas Hall, 608-890-1046, [pgarcia@wisc.edu](mailto:pgarcia@wisc.edu)

### CAREER EXPLORATION AND PREPARATION Gain Experience

The Department of Communication Arts encourages students to apply the knowledge and skills they attain through coursework to professional settings. Internships and part-time jobs at television networks, nonprofit organizations, talent agencies, magazines, radio stations, advertising agencies, production companies, government agencies, and other communication-related businesses help students gain work-related experience and explore career options. Advising emails and postings provide communication arts majors with information on opportunities across the country.

Communication arts offers a one-credit, online academic course to accompany a student's internship experience: COM ARTS 614 Field Experience in Communication and COM ARTS 615 Second Field Experience in Communication .

#### Attend Events

Throughout the academic year, students have the opportunity to participate in several communication-focused, career-related events.

### Communication Arts Alumni Careers at a Glance

After completing a liberal arts education with a communication arts major, communication arts alumni pursue a variety of careers. In a

recent survey, communication arts alumni were asked to provide and categorize their occupation. The results are available on the Department of Communication Arts website:

- Communication Science & Rhetorical Studies Alumni Careers (<https://commarts.wisc.edu/undergraduate/careers/>)
- Radio–Television–Film Alumni Careers (<https://commarts.wisc.edu/undergraduate/careers/>)

## L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) – a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW–Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

## PEOPLE

### PEOPLE

Please see the People (<https://commarts.wisc.edu/people/>) section of the Department of Communication Arts website for additional information.

### FACULTY

#### Communication Science and Rhetorical Studies

Robert Asen, Professor; Anirban Baishya, Assistant Professor; Robert Glenn Howard, Professor; Jenell Johnson, Professor; Marie–Louise Mares, Professor; Sara McKinnon, Professor; Zhongdang Pan, Professor; Allison Prash, Associate Professor; Catalina Toma, Professor; Lyn Van Swol, Professor; Lillie Williamson, Assistant Professor; Susan Zaeske, Professor

### Radio–Television–Film

Kelley Conway, Professor; Jonathan Gray, Professor; Aaron Greer, Associate Professor; Eric Hoyt, Professor; Derek Johnson, Professor; Jason Lopez, Assistant Professor; Lori Lopez, Professor; Darshana Mini, Assistant Professor; Jeremy Morris, Professor; Ben Singer, Associate Professor; Jeff Smith, Professor

## INSTRUCTIONAL STAFF

Craig Erpelding, Teaching Faculty II; Erik Gunneson, Teaching Faculty II; Sarah Jedd, Teaching Faculty III; Mary McCoy, Teaching Faculty II

## ACADEMIC ADVISING

Steffie Halverson, Academic Advisor; Mary Rossa, Academic Advising Manager

## CAREER ADVISING

Pam Garcia–Rivera, Career Development Manager

## WISCONSIN EXPERIENCE

### WISCONSIN EXPERIENCE STUDENT ORGANIZATIONS

UW–Madison offers many opportunities to get involved. Communication arts majors join student organizations across their areas of interest.

#### Department–Affiliated Organizations

- Communication Arts Student Association (CASA)
- Hollywood Badgers

See the Department of Communication Arts website for a sampling of other UW–Madison student organizations (<https://commarts.wisc.edu/undergraduate/student-orgs/>) that may be of interest to communication-focused students.

## STUDYING ABROAD

Communications arts majors are encouraged to look at study abroad programs and opportunities across the globe. Our students have studied in cities such as London, Rome, Tel Aviv, Prague, Galway, Sydney, Madrid, Bologna, Cape Town, Paris, Copenhagen, and Buenos Aires. When planning for their semester abroad, students should think beyond courses required for their major. Students are encouraged to take courses from a variety of subjects to satisfy requirements and elective credits for their degree.

## RESEARCH OPPORTUNITIES

Communication science research team members gain hands-on research experience. Undergraduate research assistants may learn to code and enter data, interview participants, gather and prepare research materials, run experiments, and perform other activities required to complete a research study. Reading and writing assignments related to the research activities are assigned throughout the semester. Opportunities to participate in a research team vary from semester to semester.

## RESOURCES AND SCHOLARSHIPS

### RESOURCES AND SCHOLARSHIPS

Students apply for scholarships online through Wisconsin Scholarship Hub (<https://wisc.academicworks.com/>). The Department of Communication Arts offers the following scholarships:

- **Scott M. Broetzmann Scholarship in Communication Arts**
- **Christopher Neal Heinlein Memorial Scholarships**
- **S. Nelson and Carmella M. Nelson Scholarship**
- **Charline M. Wackman Awards for Summer Session**
- **Charline M. Wackman Awards (Fall Term)**
- **Keith Harris Wyche Memorial Scholarship**

### SUMMER INTERNSHIP FUND

The **Communication Arts Department and Alumni Summer Internship Fund** helps Communication Arts majors participate in internships with businesses or non-profit organizations.

See the scholarship (<https://commarts.wisc.edu/undergraduate/scholarships/>) and internship fund (<https://commarts.wisc.edu/undergraduate/internship-fund/>) sections of the department website for additional details and opportunities.

## COMMUNICATION ARTS: COMMUNICATION SCIENCE AND RHETORICAL STUDIES

### REQUIREMENTS

### REQUIREMENTS FOR COMMUNICATION SCIENCE AND RHETORICAL STUDIES

A minimum of 10 courses and at least 30 credits are required for the major.<sup>1</sup>

## FOOTNOTES

<sup>1</sup> A course can be applied to only one requirement within the major.

<sup>2</sup> Excluding COM ARTS 605, COM ARTS 614 and COM ARTS 615.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

## FOOTNOTES

<sup>1</sup> A course can be applied to only one requirement within the major.

<sup>2</sup> Excluding COM ARTS 605, COM ARTS 614 and COM ARTS 615.

## FOUR-YEAR PLAN

### SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it—along with their DARS report, the Degree Planner, and Course Search & Enroll tools—to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own four-year plan several times during college.

#### First Year

## COMMUNICATION ARTS, BS

The communication arts major offers a liberal arts approach to studying communication. The value of the liberal arts approach is that students not only learn specific skills, they also gain a deep understanding of communication theory, history, research, and criticism. Majors learn to apply communication principles in different contexts and with a variety of different media. As a result, the communication arts major prepares students for a wide range of jobs and careers, including those that don't exist yet.

Courses in communication arts deal with a diverse range of communication-related topics and approach them from a variety of theoretical, practical, and aesthetic perspectives. The curriculum is designed to foster an understanding of communication processes, improve communication and digital literacy skills, and develop the capacity for critical appraisal and reflection.

The Department of Communication Arts offers two options in the major:

- 1. Communication Science and Rhetorical Studies:** Students explore the social, psychological, and practical aspects of communication and human behavior with a focus on public, mass, online, organizational, group, and interpersonal communication.
- 2. Radio–Television–Film:** Students explore the history, theory, criticism, cultural uses, and production practices of television, film, radio, and digital media.

## HOW TO GET IN

### HOW TO GET IN DECLARING THE MAJOR

The Communication Arts major does not have an admission requirement. Students interested in pursuing the major are encouraged to meet with a Communication Arts academic advisor. Please see the Communication Arts website (<https://commarts.wisc.edu/undergraduate/declaring/>) for instructions on how to declare the major.

Students may declare only one option in the major: Communication Science and Rhetorical Studies or Radio-Television-Film.

Non-Letters & Science students will need permission from their school or college to pursue an additional major in Communication Arts.

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

General Education	<ul style="list-style-type: none"> <li>• Breadth–Humanities/Literature/Arts: 6 credits</li> <li>• Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth–Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul>
-------------------	--

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

### COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

#### BACHELOR OF SCIENCE DEGREE REQUIREMENTS

**Mathematics** Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.

**Language** Complete the third unit of a language other than English.

**LS Breadth** Complete:

- 12 credits of Humanities, which must include at least 6 credits of Literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.

**Liberal Arts and Science Coursework** Complete at least 108 credits.

**Depth of Intermediate/Advanced Coursework** Complete at least 60 credits at the Intermediate or Advanced level.

**Major** Declare and complete at least one major.

**Total Credits** Complete at least 120 credits.

**UW–Madison Experience** Complete both:

- 30 credits in residence, overall, and
- 30 credits in residence after the 86th credit.

**Quality of Work**

- 2.000 in all coursework at UW–Madison
- 2.000 in Intermediate/Advanced level coursework at UW–Madison

### NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

### REQUIREMENTS FOR THE MAJOR

Communication Arts offers two options within the major:

- Communication Science and Rhetorical Studies
- Radio–Television–Film

Students declare one of the two options and complete a minimum of 10 courses and at least 30 credits in the major. Please note that COM ARTS courses numbered below 200 as well as COM ARTS 605, COM ARTS 614, and COM ARTS 615 do not count in the major.

#### STUDENTS MUST SELECT ONE OF THE FOLLOWING OPTIONS:

View as [listView](#) as [grid](#)

- **COMMUNICATION ARTS: COMMUNICATION SCIENCE AND RHETORICAL STUDIES (P. 654)**
- **COMMUNICATION ARTS: RADIO–TELEVISION–FILM (P. 658)**

### RESIDENCE AND QUALITY OF WORK

- Minimum 2.000 GPA in all COM ARTS and major courses
- Minimum 2.000 GPA on at least 15 credits of upper-level work in the COM ARTS major, in residence. (Upper-level in the COM ARTS major includes courses at the intermediate or advanced level).
- 15 credits of COM ARTS major courses (200–699) taken on the UW–Madison campus.

## HONORS IN THE MAJOR IN COMMUNICATION ARTS

Students may apply to pursue Honors in the Communication Arts major in consultation with a Communication Arts undergraduate advisor. To be accepted students must have:

- Completed the fundamentals course and the two core courses for their declared option and
- Earned a minimum 3.500 GPA in all COM ARTS courses

## HONORS IN THE COMMUNICATION ARTS MAJOR REQUIREMENTS

To earn Honors in the Major in Communication Arts, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Minimum 3.300 University GPA
- Minimum 3.500 GPA for all COM ARTS major courses
- Complete the requirements for the declared major option, to include:
  - All theory, history, criticism courses taken to meet the regular major requirements within the declared option must be numbered 400 or higher.
  - One additional theory, history, criticism course numbered 400 or higher.
  - Three theory, history and criticism courses must be completed on campus.
  - A two-semester senior honors thesis in COM ARTS 681 and COM ARTS 682, for a total of 6 credits.<sup>1</sup>

## FOOTNOTES

<sup>1</sup> Submission and approval of a Senior Honors Thesis Proposal is required prior to the term in which students enroll for COM ARTS 681 Senior Honors Thesis. See the Communication Arts undergraduate advisor for current process. Approval of the completed thesis by the thesis advisor and a second Communication Arts faculty member is required.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work**

Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Explain core content in either of the two tracks: Communication Science and Rhetorical Studies or Radio-TV-Film.
2. Analyze communication from theoretical, historical, and critical perspectives.
3. Communicate effectively in writing, orally, or via the creation of media content.
4. Participate in communication practices that support diversity, equity, and inclusion for the historically marginalized.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

Please see any of the Named Options for a four-year plan.

## ADVISING AND CAREERS

### ADVISING AND CAREERS COMMUNICATION ARTS ACADEMIC ADVISING

Communication arts academic advisors (<https://commarts.wisc.edu/undergraduate/advising/>) assist students throughout their undergraduate studies. Please see the Communication Arts website (<https://commarts.wisc.edu/undergraduate/advising/>) for advising options.

#### Contact Information

Steffie Halverson, 6114 Vilas Hall, 608-262-2285, [advising@commarts.wisc.edu](mailto:advising@commarts.wisc.edu)

Mary Rossa, 6068 Vilas Hall, 608-262-0992, [advising@commarts.wisc.edu](mailto:advising@commarts.wisc.edu)

### COMMUNICATION ARTS COURSES

The Communication Arts Department offers a wide array of courses. All the courses listed in the Guide are not offered each semester. Please see Course Search and Enroll for current course offerings.

### CAREER ADVISING

The communication and media career advisor (<https://commarts.wisc.edu/undergraduate/careers/>) assists students with career preparation, such as exploring career options, learning internship and job search strategies, and writing resumes and cover letters.

#### Contact Information

Pam Garcia-Rivera, 5114 Vilas Hall, 608-890-1046, [pgarcia@wisc.edu](mailto:pgarcia@wisc.edu)

### CAREER EXPLORATION AND PREPARATION

#### Gain Experience

The Department of Communication Arts encourages students to apply the knowledge and skills they attain through coursework to professional

settings. Internships and part-time jobs at television networks, nonprofit organizations, talent agencies, magazines, radio stations, advertising agencies, production companies, government agencies, and other communication-related businesses help students gain work-related experience and explore career options. Advising emails and postings provide communication arts majors with information on opportunities across the country.

Communication arts offers a one-credit, online academic course to accompany a student's internship experience: COM ARTS 614 Field Experience in Communication and COM ARTS 615 Second Field Experience in Communication .

### Attend Events

Throughout the academic year, students have the opportunity to participate in several communication-focused, career-related events.

### Communication Arts Alumni Careers at a Glance

After completing a liberal arts education with a communication arts major, communication arts alumni pursue a variety of careers. In a recent survey, communication arts alumni were asked to provide and categorize their occupation. The results are available on the Department of Communication Arts website:

- Communication Science & Rhetorical Studies Alumni Careers (<https://commarts.wisc.edu/undergraduate/careers/>)
- Radio-Television-Film Alumni Careers (<https://commarts.wisc.edu/undergraduate/careers/>)

### L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

## PEOPLE

### PEOPLE

Please see the People (<https://commarts.wisc.edu/people/>) section of the Department of Communication Arts website for additional information.

### FACULTY

#### Communication Science and Rhetorical Studies

Robert Asen, Professor; Anirban Baishya, Assistant Professor; Robert Glenn Howard, Professor; Jenell Johnson, Professor; Marie-Louise Mares, Professor; Sara McKinnon, Professor; Zhongdang Pan, Professor; Allison Prash, Associate Professor; Catalina Toma, Professor; Lyn Van Swol, Professor; Lillie Williamson, Assistant Professor; Susan Zaeske, Professor

#### Radio-Television-Film

Kelley Conway, Professor; Jonathan Gray, Professor; Aaron Greer, Associate Professor; Eric Hoyt, Professor; Derek Johnson, Professor; Jason Lopez, Assistant Professor; Lori Lopez, Professor; Darshana Mini, Assistant Professor; Jeremy Morris, Professor; Ben Singer, Associate Professor; Jeff Smith, Professor

### INSTRUCTIONAL STAFF

Craig Erpelding, Teaching Faculty II; Erik Gunneson, Teaching Faculty II; Sarah Jedd, Teaching Faculty III; Mary McCoy, Teaching Faculty II

### ACADEMIC ADVISING

Steffie Halverson, Academic Advisor; Mary Rossa, Academic Advising Manager

### CAREER ADVISING

Pam Garcia-Rivera, Career Development Manager

## WISCONSIN EXPERIENCE

### WISCONSIN EXPERIENCE

#### STUDENT ORGANIZATIONS

UW-Madison offers many opportunities to get involved. Communication arts majors join student organizations across their areas of interest.

#### Department-Affiliated Organizations

- Communication Arts Student Association (CASA)
- Hollywood Badgers

See the Department of Communication Arts website for a sampling of other UW-Madison student organizations (<https://commarts.wisc.edu/undergraduate/student-orgs/>) that may be of interest to communication-focused students.

### STUDYING ABROAD

Communications arts majors are encouraged to look at study abroad programs and opportunities across the globe. Our students have studied in cities such as London, Rome, Tel Aviv, Prague, Galway, Sydney, Madrid, Bologna, Cape Town, Paris, Copenhagen, and Buenos Aires. When planning for their semester abroad, students should think beyond courses required for their major. Students are encouraged to take courses from

a variety of subjects to satisfy requirements and elective credits for their degree.

## RESEARCH OPPORTUNITIES

Communication science research team members gain hands-on research experience. Undergraduate research assistants may learn to code and enter data, interview participants, gather and prepare research materials, run experiments, and perform other activities required to complete a research study. Reading and writing assignments related to the research activities are assigned throughout the semester. Opportunities to participate in a research team vary from semester to semester.

## RESOURCES AND SCHOLARSHIPS

### RESOURCES AND SCHOLARSHIPS

Students apply for scholarships online through Wisconsin Scholarship Hub (<https://wisc.academicworks.com/>). The Department of Communication Arts offers the following scholarships:

- **Scott M. Broetzmann Scholarship in Communication Arts**
- **Christopher Neal Heinlein Memorial Scholarships**
- **S. Nelson and Carmella M. Nelson Scholarship**
- **Charline M. Wackman Awards for Summer Session**
- **Charline M. Wackman Awards (Fall Term)**
- **Keith Harris Wyche Memorial Scholarship**

### SUMMER INTERNSHIP FUND

**The Communication Arts Department and Alumni Summer Internship Fund** helps Communication Arts majors participate in internships with businesses or non-profit organizations.

See the scholarship (<https://commarts.wisc.edu/undergraduate/scholarships/>) and internship fund (<https://commarts.wisc.edu/undergraduate/internship-fund/>) sections of the department website for additional details and opportunities.

## COMMUNICATION ARTS: COMMUNICATION SCIENCE AND RHETORICAL STUDIES

### REQUIREMENTS

### REQUIREMENTS FOR COMMUNICATION SCIENCE AND RHETORICAL STUDIES

A minimum of 10 courses and at least 30 credits are required for the major.<sup>1</sup>

<sup>1</sup> A course can be applied to only one requirement within the major.

<sup>2</sup> Excluding COM ARTS 605, COM ARTS 614 and COM ARTS 615.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

<sup>2</sup> Excluding COM ARTS 605, COM ARTS 614 and COM ARTS 615.

## FOUR-YEAR PLAN

### SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it—along with their DARS report, the Degree Planner, and Course Search & Enroll tools—to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own four-year plan several times during college.

## DIGITAL CINEMA PRODUCTION, CERTIFICATE

Explore the fundamentals of storytelling through the digital cinema production certificate. Certificate students complete coursework in screenwriting, producing, directing, cinematography and sound, editing, and related fields. They master the aesthetic and technical tools of moving-image storytelling, learn creative decision making, employ collaborative work skills, and apply industry standards. The digital cinema production certificate is relevant to undergraduates across campus who are considering careers in film, television, documentary, and internet-based media.

## HOW TO GET IN

### HOW TO GET IN CERTIFICATE DECLARATION REQUIREMENTS

To be eligible to declare the certificate, students must

- complete COM ARTS 355 with a grade of B or higher;
- earn a grade of B or higher in their first attempt of one of the following courses:

Code	Title	Credits
COM ARTS 465	Editing and Post-production for Video and Film	4
COM ARTS 466	Writing for Television and Film	3

COM ARTS 467	Cinematography and Sound Recording	4
COM ARTS 468	Producing for Internet TV and Video	3
COM ARTS 609	Special Topics in Production	3
COM ARTS 651	Advanced Video Production and Direction	3

Eligible students should contact a Communication Arts advisor to declare the certificate.

## REQUIREMENTS

### REQUIREMENTS

Four courses and at least 13 credits are required.

Code	Title	Credits
COM ARTS 355	Introduction to Media Production	4
<b>Electives (complete three):</b>		<b>9</b>
COM ARTS 465	Editing and Post-production for Video and Film	
COM ARTS 466	Writing for Television and Film	
COM ARTS 467	Cinematography and Sound Recording	
COM ARTS 468	Producing for Internet TV and Video	
COM ARTS 609	Special Topics in Production	
COM ARTS 651	Advanced Video Production and Direction	
COM ARTS 659	Advanced Motion Picture Production Workshop	
<b>Total Credits</b>		<b>13</b>

### RESIDENCE & QUALITY OF WORK

- Minimum 2.000 GPA in all certificate courses.
- At least 7 certificate credits must be completed in residence.

### CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Demonstrate mastery of the aesthetic and technical tools of moving-image story telling.
2. Analyze story structure and illustrate how their creative decisions support their interpretation of story.
3. Employ collaborative work skills to perform in the role of leaders or members of production crews/groups.
4. Analyze the meaning, form, and process of cinematic work with the goal of providing honest, critical, and instructive feedback.

5. Reproduce and apply industry standard methods for media pre-production, production and post-production, and explain the rationale for these methods.

## ADVISING AND CAREERS

### ADVISING AND CAREERS ACADEMIC ADVISING

The Department of Communication Arts academic advisors (<https://commarts.wisc.edu/undergraduate/advising/>) serve as the advisors for the digital cinema production certificate. Contact an advisor to learn more about the certificate, discuss eligibility, declare, or review certificate requirements. Please see the Communication Arts website (<https://commarts.wisc.edu/undergraduate/advising/>) for advising options.

#### Contact Information

Steffie Halverson, 6114 Vilas Hall, 608-262-2285,  
advising@commarts.wisc.edu  
Mary Rossa, 6068 Vilas Hall, 608-262-0992,  
advising@commarts.wisc.edu

### CAREER ADVISING

The communications, arts & entertainment career community advisor (<https://careers.ls.wisc.edu/what-are-career-communities/communications-arts-and-entertainment/>) assists students with career preparation, such as exploring career options, strategies for the internship/job search, and networking opportunities.

### DIGITAL CINEMA PRODUCTION COURSES

The selection of courses varies by semester. Please check Course Search and Enroll for current offerings.

### CAREER EXPLORATION AND PREPARATION Gain Experience

The Department of Communication Arts encourages students to apply the knowledge and skills they attain through coursework to professional settings. Internships and part-time jobs at television networks, nonprofit organizations, talent agencies, magazines, radio stations, advertising agencies, production companies, government agencies, and other communication-related businesses help students gain work-related experience and explore career options. Emails and postings provide certificate students with information on opportunities across the country.

#### Attend Events

Throughout the academic year, students have the opportunity to participate in several communication-focused, career-related events.

#### Join a Student Organization

Learn more about the entertainment industry and career opportunities by joining the Hollywood Badgers, a Communication Arts Department-affiliated student organization.

### L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career

skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

## PEOPLE

### PEOPLE FACULTY

Aaron Greer, Associate Professor  
Eric Hoyt, Professor

### INSTRUCTIONAL STAFF

Craig Erpelding, Teaching Faculty II; Erik Gunneson, Teaching Faculty II

### ACADEMIC ADVISING

Steffie Halverson, Academic Advisor; Mary Rossa, Academic Advising Manager

### CAREER ADVISING

Communications, Arts & Entertainment Career Community Advisor (<https://careers.ls.wisc.edu/what-are-career-communities/communications-arts-and-entertainment/>)

## RESOURCES AND SCHOLARSHIPS

### RESOURCES AND SCHOLARSHIPS COMMUNICATION ARTS INSTRUCTIONAL MEDIA CENTER

The Instructional Media Center (<https://commarts.wisc.edu/imc/>) (IMC), located in 3160 Vilas Hall, provides state-of-the-art equipment for communication arts media-production courses. The IMC circulates industry-standard camera, lighting, grip, and sound equipment for use on set. The Hamel Family Digital Media Lab's 70 editing stations and the

department's two sound stages are also managed by the Instructional Media staff.

## DIGITAL STUDIES, CERTIFICATE

The Digital Studies Certificate helps students learn about digital culture and develop their skills in producing digital media content. Each student that completes the Digital Studies Certificate will be able to better recognize what digital communication tools can do and how to use them.

Digital cultures are about relationships between people and the digital tools they use. To better understand those relationships, Digital Studies students think about two big questions:

- What impact do digital technologies have on our lives?
- How can we use digital tools to make our world a better place?

Digital Studies students approach these questions from four different perspectives:

- Digital Practice - learning how to use digital tools to produce better digital content
- Digital Media - learning how to assess digital media to better understand digital cultures
- Digital Information - learning how we use and produce digital archives, databases, and other digital information tools
- Digital Forms - learning how design impacts the ways we interpret and produce digital content

Students who add the Digital Studies Certificate to their major(s) will be recognized as someone who can more quickly and more effectively use digital tools in any environment.

## HOW TO GET IN

### HOW TO GET IN DECLARING THE DIGITAL STUDIES CERTIFICATE

Students are eligible to declare the certificate at any point in their undergraduate career. They should declare it as early as possible to plan the required coursework. Students are encouraged to meet with the Digital Studies advisor (<https://digitalstudies.wisc.edu/undergraduate-certificate/advising/>) to discuss certificate requirements and ensure it fits with their academic and career goals. Students who are ready to declare the certificate now may complete this form ([https://uwmadison.co1.qualtrics.com/jfe/form/SV\\_8kLFLI3ADELQIn/](https://uwmadison.co1.qualtrics.com/jfe/form/SV_8kLFLI3ADELQIn/)).

## REQUIREMENTS

### REQUIREMENTS

The certificate requires a minimum of six courses and 16 credits. The courses must be distributed as follows:

### CORE COURSES

Choose one course from this list:

Code	Title	Credits
COM ARTS 200	Introduction to Digital Communication	3
JOURN 175	Media Fluency for the Digital Age	3
L I S 201	The Information Society	4

## DISTRIBUTION

Choose one course from each area (a unique course must be taken to satisfy each area):

### Digital Practice (P) Courses

Code	Title	Credits
ART 107	Introduction to Digital Forms	3
ART 309	Digital Art and Code	4
ART 409	Digital Fabrication Studio	4
ART 428	Digital Imaging Studio	4
ART 429	3D Digital Studio I	4
ART 528	Digital Interactive Studio	4
COM ARTS 155	Introduction to Digital Media Production	4
COM ARTS 355	Introduction to Media Production	4
COM ARTS 449	Sound Cultures: Podcasting and Music	3

## CAPSTONE

The Capstone cannot be completed until students are in their senior year and have completed or are enrolled in their final course of the certificate.

Code	Title	Credits
COM ARTS 605	Digital Studies Capstone	1

## RESIDENCE AND QUALITY OF WORK

- At least 9 Certificate credits in Residence
- Minimum 2.000 GPA in all Certificate courses

## CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. To understand key theories and concepts related to digital studies and the historical context surrounding the creation of digital technologies.
2. To gain familiarity with methods, concepts and tools needed to research and evaluate information related to digital studies.
3. To think critically about how digital technologies work and their impact on society.
4. To be able to create strategic communication content and self-expression using digital tools.
5. To understand the professional and ethical principles related to the field of digital studies.

## ADVISING AND CAREERS

### ADVISING AND CAREERS

#### ACADEMIC ADVISING

Connecting and working with the digital studies advisor as early as possible helps you create a meaningful course plan and stay on track as you complete the certificate requirements. The advisor is available to consult on a variety of topics including:

- Declaring the certificate
- Course selection
- Studying abroad
- Job and internship opportunities related to digital media
- Preparing for the job market after graduation.

Make an appointment to talk with the digital studies advisor through Starfish (<https://wisc.starfishsolutions.com/starfish-ops/dl/instructor/serviceCatalog.html?bookmark=connection/11236/schedule>).

## COURSE PLANNING

The list of digital studies courses found on the Requirements tab (<https://guide.wisc.edu/undergraduate/letters-science/communication-arts/digital-studies-certificate/#requirementstext>) is the comprehensive list of all courses that count toward the certificate. To find out which courses are offered during a specific term, please refer to the program's Courses (<https://digitalstudies.wisc.edu/undergraduate-certificate/requirements-courses/#tailor-your-courses>) webpage. More specific information related to the course offerings is also available there, including specific course prerequisites, limited enrollment course information, and application requirements.

## CAREER EXPLORATION AND ADVISING

### Career Advising

The communication and media career advisor (<https://journalism.wisc.edu/career-services/advising/>) assists students with career preparation, such as exploring career options, learning internship and job search strategies, and writing resumes and cover letters. Workshops, programs, and events, as well as guest speakers ranging from alumni to employers, are all available during the year as well.

### Digital Studies Alumni

Since 2012, over 1,000 students have graduated with a Digital Studies Certificate. Digital Studies alumni pursue a variety of careers after completing their undergraduate degree. To learn more about what our alumni are up to, visit the Alumni Profiles page (<https://digitalstudies.wisc.edu/alumni/alumni-profiles/>) to read about the work they are doing and how Digital Studies has impacted their paths.

## L&S CAREER RESOURCES

SuccessWorks at the College of Letters & Science helps students leverage the academic skills learned in their major, certificates, and liberal arts degree; explore and try out different career paths; participate in internships; prepare for the job search and/or graduate school applications; and network with professionals in the field (alumni and employers). In short, SuccessWorks helps students in the College of Letters & Science discover themselves, find opportunities, and develop the skills they need for success after graduation.

SuccessWorks can also assist students in career advising, résumé and cover letter writing, networking opportunities, and interview skills, as well as course offerings for undergraduates to begin their career exploration early in their undergraduate career.

Students should set up their profiles in Handshake (<https://careers.ls.wisc.edu/handshake/>) to take care of everything they need to explore career events, manage their campus interviews, and **apply to jobs and internships from 200,000+ employers around the country.**

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://careers.ls.wisc.edu/make-an-appointment/>)
- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit, targeted to first- and second-year students)—for more information, see Inter-LS 210: Career Development, Taking Initiative
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Com B General Education Requirement)
- Handshake (<https://careers.ls.wisc.edu/handshake/>)
- Learn how we're transforming career preparation: L&S Career Initiative (<http://ls.wisc.edu/lsci/>)

## PEOPLE

### PEOPLE

Please see the Digital Studies Certificate website (<https://digitalstudies.wisc.edu/people/>) for a list of certificate staff and committee members.

## WISCONSIN EXPERIENCE

### WISCONSIN EXPERIENCE

Students who pursue the Digital Studies Certificate have access to unique and exciting courses where they not only study digital culture but learn to be savvy users and producers of digital media that they can use in their professional lives. Examples of work that students produce include websites, videos, illustrations, posters, podcasts, and more. See examples of student work on our website (<https://digitalstudies.wisc.edu/student-showcase/>).

Digital Studies Certificate students also have access to networking and alumni events featuring careers in digital media, internship and job opportunities emailed directly to them, technology resources through the Instructional Media Center (<https://commarts.wisc.edu/imc/>), and design consulting services through DesignLab (<https://designlab.wisc.edu/>). Through advising, students receive tailored recommendations based on their interests and are encouraged to seek out ways to apply the knowledge they are learning in the classroom through involvement in student organizations, volunteering, and internships.

## COMMUNICATION SCIENCES AND DISORDERS

The major in communication sciences and disorders provides students with opportunities for study in the areas of speech-language pathology, audiology, and the normal aspects of speech, hearing, and language. Most students pursue this major because they hope to practice as licensed and/or certified clinicians in educational and medical-allied-health settings, assisting clients with communicative impairments arising from disease, trauma, predisposition, maladaptive learning, or unknown causes. Professional clinical practice follows completion of a master's degree in speech-language pathology (<http://guide.wisc.edu/graduate/communication-sciences-disorders/communication-sciences-disorders-ms/>), or a doctor of audiology degree (<http://guide.wisc.edu/graduate/communication-sciences-disorders/audiology-consortial-program-uw-stevens-point-aud/>), and involves evaluation and treatment based upon a firm theoretical understanding of normal processes of hearing, and of speech and language formulation, production, and perception. Some students pursue the undergraduate major as a foundation for a research career in speech, language or hearing sciences. Others pursue the major as a preliminary step toward advanced training in other professional fields (e.g., law, medicine, nursing, special education).

Students are urged to consult with an undergraduate academic advisor in the department as soon as they have decided to major in this field. Course sequencing in the major is not flexible. Certain courses are prerequisites to others. Many of the courses are offered only once a year. **To declare the major**, students must earn a grade point average of 3.000 or better for the three courses CS&D 201 Anatomy and Physiology of Speech

Production, CS&D 202 Hearing Science, and CS&D 240 Language Development in Children and Adolescents, the first time these courses are attempted. Prospective majors typically begin taking this three-course "gateway" sequence as sophomores. Major declaration forms may be obtained from an advisor after the gateway criterion has been satisfied, and should be returned to the advisor for processing.

The major in communication sciences and disorders can be completed through the College of Letters & Science, or through the School of Education (p. 1535). Students select one program to follow, and should be aware that the two programs differ somewhat in their requirements for the major. Moreover, each program (L&S and Education) has its own general liberal studies requirements involving, for example, sciences, math, foreign language, social studies, and humanities. Students should plan to complete many of these general requirements as well as some courses in communication sciences and disorders during their first and second years on this campus.

The department is accredited in speech–language pathology and in audiology by the Council on Academic Accreditation of the American Speech–Language–Hearing Association (ASHA). Therefore, academic courses and clinical practica in the Department of Communication Sciences and Disorders may be applied toward clinical certification by ASHA (speech language pathology or audiology), and toward state licensure.

## COMMUNICATION SCIENCES AND DISORDERS, BA

The major in communication sciences and disorders provides students with opportunities for study in the areas of speech–language pathology, audiology, and the normal aspects of speech, hearing, and language. Most

students pursue this major because they hope to work as a licensed and certified clinical speech–language pathologist or audiologist, assisting clients with communication impairments arising from acquired neurological conditions, developmental conditions, genetic conditions, or unknown causes. Professional clinical practice follows completion of a master's degree in speech–language pathology, or a doctor of audiology degree. Some students pursue the undergraduate major as a foundation for a research career in speech, language or hearing sciences. Others pursue the major as a preliminary step toward advanced training in other professional fields (e.g., medicine, nursing, special education), or as a liberal arts degree that could lead to a variety of different career paths through summer 2023 (speech–language pathology assistant, educational assistant, line therapist).

The major in communication sciences and disorders can be completed through the College of Letters & Science or through the School of Education. Students select one program to follow and should be aware that the two programs differ somewhat in their requirements. Moreover, each program (L&S and Education) has its own general liberal studies requirements. Students should plan to complete many of these general requirements as well as some courses in communication sciences and disorders during their first and second years on this campus.

The department is accredited in speech–language pathology and in audiology by the Council on Academic Accreditation of the American Speech–Language–Hearing Association (ASHA). Therefore, academic courses and clinical practica in the Department of Communication Sciences and Disorders may be applied toward clinical certification by ASHA (speech language pathology or audiology), and toward state licensure.

## HOW TO GET IN

### HOW TO GET IN

Students are urged to consult with an undergraduate academic advisor as soon as they have decided to major in this field. Course sequencing in the major is not flexible. Certain courses are prerequisites to others.

### DECLARING THE MAJOR

Students in the College of Letters and Science may declare a major in CS&D by sending an email to [undergrad@csd.wisc.edu](mailto:undergrad@csd.wisc.edu):

- State that you would like to declare a major in CS&D
- Include your full name and student ID number

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed.

For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

- General Education
- Breadth—Humanities/Literature/Arts: 6 credits
  - Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
  - Breadth—Social Studies: 3 credits
  - Communication Part A Part B \*
  - Ethnic Studies \*
  - Quantitative Reasoning Part A Part B \*

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

### BACHELOR OF ARTS DEGREE REQUIREMENTS

**Mathematics** Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.

**Language**

- Complete the fourth unit of a language other than English; OR
- Complete the third unit of a language and the second unit of an additional language other than English.

**LS Breadth**

- 12 credits of Humanities, which must include 6 credits of literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.

**Liberal Arts and Science Coursework** Complete at least 108 credits.

**Depth of Intermediate/Advanced work** Complete at least 60 credits at the intermediate or advanced level.

**Major** Declare and complete at least one major.

**Total Credits** Complete at least 120 credits.

**UW-Madison Experience**

- 30 credits in residence, overall; and
- 30 credits in residence after the 86th credit.

- Quality of Work**
- 2.000 in all coursework at UW–Madison
  - 2.000 in Intermediate/Advanced level coursework at UW–Madison

## NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR CS&D COURSES

11 courses and 33 credits from:

Code	Title	Credits
CS&D 120	Cultural and Linguistic Diversity in Communication Sciences and Disorders	3
CS&D 201	Anatomy and Physiology of Speech Production	3
CS&D 202	Hearing Science	3
CS&D 210	Neural Basis of Communication	3
CS&D 240	Language Development in Children and Adolescents	3
CS&D 303	Speech Acoustics and Perception	3
CS&D 315	Phonetics and Phonological Development	3
CS&D 318	Voice, Craniofacial, and Fluency Disorders	3
CS&D 320	Introduction to Audiology	3
CS&D 425	Auditory Rehabilitation	3
CS&D 440	Child Language Disorders, Assessment and Intervention	3
<b>Total Credits</b>		<b>33</b>

## COURSES IN RELATED AREAS

15 credits and one course from each of the following areas:

### Psychology

Code	Title	Credits
PSYCH 202	Introduction to Psychology	3-4
HDFS 262	Development of the Young Child	3
HDFS 263	Development from Adolescence to Old Age	3

### Statistics

Code	Title	Credits
STAT 301	Introduction to Statistical Methods	3
STAT 311	Introduction to Theory and Methods of Mathematical Statistics I	3
STAT 371	Introductory Applied Statistics for the Life Sciences	3
PSYCH 210	Basic Statistics for Psychology	3
SOC/C&E SOC 360	Statistics for Sociologists I	4

**Linguistics**

Code	Title	Credits
LINGUIS 101	Human Language	3
LINGUIS/ANTHRO/ FOLKLORE/ INTL ST 211	Global Language Issues	3
LINGUIS 303	Historical Linguistics	3
LINGUIS 237	Language in Wisconsin	3
LINGUIS/ AMER IND 371	Survey of North American Indian Languages	3
LINGUIS/ ANTHRO 430	Language and Culture	3-4
ENGL 214	The English Language	3
ENGL 314	Structure of English	3
ENGL 318	Second Language Acquisition	3
SPANISH 321	The Structure of Modern Spanish	3
SPANISH 331	Spanish Applied Linguistics	3
SPANISH 327	Introduction to Spanish Linguistics	3

**Biological Sciences in the Major**

Code	Title	Credits
ANTHRO 105	Principles of Biological Anthropology	3
ANTHRO/BOTANY/ ZOOLOGY 410	Evolutionary Biology	3
BIOCHEM 104	Molecules to Life and the Nature of Science <sup>1</sup>	3
BIOCORE 381	Evolution, Ecology, and Genetics	3
BIOLOGY/BOTANY/ ZOOLOGY 151	Introductory Biology	5
ZOOLOGY/ BIOLOGY 101	Animal Biology	3

**Physical Sciences in the Major**

Code	Title	Credits
BIOCHEM 104	Molecules to Life and the Nature of Science <sup>1</sup>	3
CHEM 103	General Chemistry I	4
CHEM 108	Chemistry in Our World	5
CHEM 109	Advanced General Chemistry	5
PHYSICS 103	General Physics	4
PHYSICS 107	The Ideas of Modern Physics	3
PHYSICS 109	Physics in the Arts	3

**ELECTIVES**

Code	Title	Credits
CS&D 110	Introduction to Communicative Disorders	3
CS&D 371	Pre-Clinical Observation of Children and Adults	3
CS&D 424	Sign Language I	2

**RESIDENCE AND QUALITY OF WORK**

- 2.000 GPA in all CS&D and major courses
- 2.000 GPA on 15 upper-level major credits, taken in residence<sup>2</sup>
- 15 credits in CS&D, taken on the UW-Madison campus

**HONORS IN THE MAJOR**

Students may declare Honors in the Communication Sciences and Disorders Major in consultation with the undergraduate advisor in that department.

**HONORS IN THE MAJOR REQUIREMENTS**

To earn Honors in the Major in Communications Sciences and Disorders, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 in all CS&D and major courses
- Complete the following courses for Honors earning a grade of B or better in each:

Code	Title	Credits
CS&D 481	Undergraduate Junior Honors	3
CS&D 681 & CS&D 682	Senior Honors Thesis and Senior Honors Thesis	6
2 of the following for Honors:		6
CS&D 303	Speech Acoustics and Perception	
CS&D 320	Introduction to Audiology	
CS&D 440	Child Language Disorders, Assessment and Intervention	
<b>Total Credits</b>		<b>15</b>

**FOOTNOTES**

<sup>1</sup> BIOCHEM 104 can meet either the "Biological Science in the Major" or the "Physical Science in the Major" requirement, but not both. Please note that this course will *not* meet students' L&S Physical Science breath *degree requirement*.

<sup>2</sup> These courses are considered upper level in the major: CS&D 303, CS&D 315, CS&D 318, CS&D 320, CS&D 371, CS&D 424, CS&D 425, CS&D 440, CS&D 699

**UNIVERSITY DEGREE REQUIREMENTS**

**Total Degree** To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Acquire a foundational understanding of basic anatomy and physiology of speech, language, and hearing.
2. Understand integrative neuroscience foundations of speech, language, and hearing.
3. Obtain basic knowledge in statistical sciences, linguistics, biological/physical sciences, social sciences, and humanities as related to Communication Sciences & Disorders.
4. Develop an understanding of speech, language, and hearing disorders and the relationship to foundational aspects of speech, language and hearing science.
5. Be prepared for graduate school and/or a career in Communication Sciences & Disorders and related areas.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

Please refer to the Requirements tab in Guide for additional College of Letters and Science Breadth and Degree Requirements as well as Residence and Quality of Work requirements for the major.

#### First Year

Fall	Credits Spring	Credits
CS&D 201	3 CS&D 202	3
Communication A	3 Ethnic Studies content area course	3
Quantitative Reasoning A	4 Foreign Language	4
Foreign Language	4 Psych content area course	3

Physical Science Content Area Course	3 Biological Science content area course	3
		<b>17</b>
		<b>16</b>

#### Second Year

Fall	Credits Spring	Credits

		<b>15</b>

**Total Credits 120**

## ADVISING AND CAREERS

### ADVISING AND CAREERS

CS&D advising services are focused on students who need to declare the major or who have already declared CS&D and need advising in the major.

A CS&D advisor can help with:

- Curricular planning and course access
- DARS interpretation
- Declaration of the major for L&S students
- Documentation of study abroad plans
- Identification, interpretation and application of most academic policies
- Major and degree requirements
- Exploration of interests in independent study and research
- Understanding the differences between paths to the major

**Students seeking to pursue graduate study in speech-language pathology or audiology** are urged to take CS&D 371 Pre-Clinical Observation of Children and Adults (3 cr) –to earn ASHA observation hours which are required for graduate school admission.

The American Speech-Language-Hearing Association (ASHA) Standard IV-A (<https://www.asha.org/Certification/Course-Content->

Areas-for-SLP-Standards/) requires that Communication Sciences and Disorders students planning on continuing to graduate school must complete undergraduate coursework in the following areas: Biological Sciences, Physical Sciences (either Chemistry or Physics), Statistics, and Social Sciences and Behavioral Sciences to be eligible for professional certification. If you have questions about this, please contact [undergrad@csd.wisc.edu](mailto:undergrad@csd.wisc.edu).

Director of Undergraduate Studies  
[undergrad@csd.wisc.edu](mailto:undergrad@csd.wisc.edu)

Please visit our website (<https://csd.wisc.edu/undergraduate.htm>) for details on weekly advising sessions.

## L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

Information about faculty and staff can be found on the department's website (<https://csd.wisc.edu/peopleofCSD.htm>).

## COMMUNICATION SCIENCES AND DISORDERS, BS

The major in communication sciences and disorders provides students with opportunities for study in the areas of speech-language pathology,

audiology, and the normal aspects of speech, hearing, and language. Most students pursue this major because they hope to work as a licensed and certified clinical speech-language pathologist or audiologist, assisting clients with communication impairments arising from acquired neurological conditions, developmental conditions, genetic conditions, or unknown causes. Professional clinical practice follows completion of a master's degree in speech-language pathology, or a doctor of audiology degree. Some students pursue the undergraduate major as a foundation for a research career in speech, language or hearing sciences. Others pursue the major as a preliminary step toward advanced training in other professional fields (e.g., medicine, nursing, special education), or as a liberal arts degree that could lead to a variety of different career paths through summer 2023 (speech-language pathology assistant, educational assistant, line therapist).

The major in communication sciences and disorders can be completed through the College of Letters & Science or through the School of Education. Students select one program to follow and should be aware that the two programs differ somewhat in their requirements. Moreover, each program (L&S and Education) has its own general liberal studies requirements. Students should plan to complete many of these general requirements as well as some courses in communication sciences and disorders during their first and second years on this campus.

The department is accredited in speech-language pathology and in audiology by the Council on Academic Accreditation of the American Speech-Language-Hearing Association (ASHA). Therefore, academic courses and clinical practica in the Department of Communication Sciences and Disorders may be applied toward clinical certification by ASHA (speech language pathology or audiology), and toward state licensure.

## HOW TO GET IN

### HOW TO GET IN

Students are urged to consult with an undergraduate academic advisor as soon as they have decided to major in this field. Course sequencing in the major is not flexible. Certain courses are prerequisites to others.

### DECLARING THE MAJOR

Students in the College of Letters and Science may declare a major in CS&D by sending an email to [undergrad@csd.wisc.edu](mailto:undergrad@csd.wisc.edu):

- State that you would like to declare a major in CS&D
- Include your full name and student ID number

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed.

For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

General Education	<ul style="list-style-type: none"> <li>• Breadth—Humanities/Literature/Arts: 6 credits</li> <li>• Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth—Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul>
-------------------	--

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

### BACHELOR OF SCIENCE DEGREE REQUIREMENTS

**Mathematics** Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.

**Language** Complete the third unit of a language other than English.

**LS Breadth** Complete:

- 12 credits of Humanities, which must include at least 6 credits of Literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.

**Liberal Arts and Science Coursework** Complete at least 108 credits.

**Depth of Intermediate/Advanced Coursework** Complete at least 60 credits at the Intermediate or Advanced level.

**Major** Declare and complete at least one major.

**Total Credits** Complete at least 120 credits.

**UW-Madison Experience** Complete both:

- 30 credits in residence, overall, and
- 30 credits in residence after the 86th credit.

**Quality of Work**

- 2.000 in all coursework at UW-Madison
- 2.000 in Intermediate/Advanced level coursework at UW-Madison

## NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR CS&D COURSES

11 courses and 33 credits from:

Code	Title	Credits
CS&D 120	Cultural and Linguistic Diversity in Communication Sciences and Disorders	3
CS&D 201	Anatomy and Physiology of Speech Production	3
CS&D 202	Hearing Science	3
CS&D 210	Neural Basis of Communication	3
CS&D 240	Language Development in Children and Adolescents	3
CS&D 303	Speech Acoustics and Perception	3
CS&D 315	Phonetics and Phonological Development	3
CS&D 318	Voice, Craniofacial, and Fluency Disorders	3
CS&D 320	Introduction to Audiology	3
CS&D 425	Auditory Rehabilitation	3
CS&D 440	Child Language Disorders, Assessment and Intervention	3
<b>Total Credits</b>		<b>33</b>

## COURSES IN RELATED AREAS

15 credits and one course from each of the following areas:

### Psychology

Code	Title	Credits
PSYCH 202	Introduction to Psychology	3-4
HDFS 262	Development of the Young Child	3
HDFS 263	Development from Adolescence to Old Age	3

### Statistics

Code	Title	Credits
STAT 301	Introduction to Statistical Methods	3
STAT 311	Introduction to Theory and Methods of Mathematical Statistics I	3
STAT 371	Introductory Applied Statistics for the Life Sciences	3
PSYCH 210	Basic Statistics for Psychology	3
SOC/C&E SOC 360	Statistics for Sociologists I	4

**Linguistics**

Code	Title	Credits
LINGUIS 101	Human Language	3
LINGUIS/ANTHRO/ FOLKLORE/ INTL ST 211	Global Language Issues	3
LINGUIS 303	Historical Linguistics	3
LINGUIS 237	Language in Wisconsin	3
LINGUIS/ AMER IND 371	Survey of North American Indian Languages	3
LINGUIS/ ANTHRO 430	Language and Culture	3-4
ENGL 214	The English Language	3
ENGL 314	Structure of English	3
ENGL 318	Second Language Acquisition	3
SPANISH 321	The Structure of Modern Spanish	3
SPANISH 331	Spanish Applied Linguistics	3
SPANISH 327	Introduction to Spanish Linguistics	3

**Biological Sciences in the Major**

Code	Title	Credits
ANTHRO 105	Principles of Biological Anthropology	3
ANTHRO/BOTANY/ ZOOLOGY 410	Evolutionary Biology	3
BIOCHEM 104	Molecules to Life and the Nature of Science <sup>1</sup>	3
BIOCORE 381	Evolution, Ecology, and Genetics	3
BIOLOGY/BOTANY/ ZOOLOGY 151	Introductory Biology	5
ZOOLOGY/ BIOLOGY 101	Animal Biology	3

**Physical Sciences in the Major**

Code	Title	Credits
BIOCHEM 104	Molecules to Life and the Nature of Science <sup>1</sup>	3
CHEM 103	General Chemistry I	4
CHEM 108	Chemistry in Our World	5
CHEM 109	Advanced General Chemistry	5
PHYSICS 103	General Physics	4
PHYSICS 107	The Ideas of Modern Physics	3
PHYSICS 109	Physics in the Arts	3

**ELECTIVES**

Code	Title	Credits
CS&D 110	Introduction to Communicative Disorders	3
CS&D 371	Pre-Clinical Observation of Children and Adults	3
CS&D 424	Sign Language I	2

**RESIDENCE AND QUALITY OF WORK**

- 2.000 GPA in all CS&D and major courses
- 2.000 GPA on 15 upper-level major credits, taken in residence<sup>2</sup>
- 15 credits in CS&D, taken on the UW-Madison campus

**HONORS IN THE MAJOR**

Students may declare Honors in the Communication Sciences and Disorders Major in consultation with the undergraduate advisor in that department.

**HONORS IN THE MAJOR REQUIREMENTS**

To earn Honors in the Major in Communications Sciences and Disorders, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 in all CS&D and major courses
- Complete the following courses for Honors earning a grade of B or better in each:

Code	Title	Credits
CS&D 481	Undergraduate Junior Honors	3
CS&D 681 & CS&D 682	Senior Honors Thesis and Senior Honors Thesis	6
2 of the following for Honors:		6
CS&D 303	Speech Acoustics and Perception	
CS&D 320	Introduction to Audiology	
CS&D 440	Child Language Disorders, Assessment and Intervention	
<b>Total Credits</b>		<b>15</b>

**FOOTNOTES**

<sup>1</sup> BIOCHEM 104 can meet either the "Biological Science in the Major" or the "Physical Science in the Major" requirement, but not both. Please note that this course will *not* meet students' L&S Physical Science breath *degree requirement*.

<sup>2</sup> These courses are considered upper level in the major: CS&D 303, CS&D 315, CS&D 318, CS&D 320, CS&D 371, CS&D 424, CS&D 425, CS&D 440, CS&D 699

**UNIVERSITY DEGREE REQUIREMENTS**

**Total Degree** To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Acquire a foundational understanding of basic anatomy and physiology of speech, language, and hearing.
2. Understand integrative neuroscience foundations of speech, language, and hearing.
3. Obtain basic knowledge in statistical sciences, linguistics, biological/physical sciences, social sciences, and humanities as related to Communication Sciences & Disorders.
4. Develop an understanding of speech, language, and hearing disorders and the relationship to foundational aspects of speech, language and hearing science.
5. Be prepared for graduate school and/or a career in Communication Sciences & Disorders and related areas.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

Please refer to the Requirements tab in Guide for additional College of Letters and Science Breadth and Degree Requirements as well as Residence and Quality of Work requirements for the major.

#### First Year

Fall	Credits Spring	Credits
CS&D 201	3 CS&D 202	3
Communication A	3 Ethnic Studies content area course	3
Quantitative Reasoning A	4 Foreign Language	4
Foreign Language	4 Psych content area course	3

Physical Science Content Area Course	3 Biological Science content area course	3
		<b>17</b>
		<b>16</b>

#### Second Year

Fall	Credits Spring	Credits
CS&D 240	3 CS&D 210	3
INTER-LS 210	1 Statistics content area course	3
Quantitative Reasoning B	4 Communication B	4
Literature Breadth	3 Literature Breadth	3
Electives	3 Electives	3
		<b>14</b>
		<b>16</b>

#### Third Year

Fall	Credits Spring	Credits
CS&D 303	3 CS&D 425	3
CS&D 320	3 CS&D 440	3
Linguistics content area course	3 Social Science Breadth	3
Humanities Breadth	3 Electives	6
		<b>12</b>
		<b>15</b>

#### Fourth Year

Fall	Credits Spring	Credits
CS&D 315	3 CS&D 371	3
Electives	12 CS&D 318	3
		9
		<b>15</b>
		<b>15</b>

**Total Credits 120**

## ADVISING AND CAREERS

### ADVISING AND CAREERS

CS&D advising services are focused on students who need to declare the major or who have already declared CS&D and need advising in the major.

A CS&D advisor can help with:

- Curricular planning and course access
- DARS interpretation
- Declaration of the major for L&S students
- Documentation of study abroad plans
- Identification, interpretation and application of most academic policies
- Major and degree requirements
- Exploration of interests in independent study and research
- Understanding the differences between paths to the major

**Students seeking to pursue graduate study in speech-language pathology or audiology** are urged to take CS&D 371 Pre-Clinical Observation of Children and Adults (3 cr) –to earn ASHA observation hours which are required for graduate school admission.

The American Speech-Language-Hearing Association (ASHA) Standard IV-A (<https://www.asha.org/Certification/Course-Content->

Areas-for-SLP-Standards/) requires that Communication Sciences and Disorders students planning on continuing to graduate school must complete undergraduate coursework in the following areas: Biological Sciences, Physical Sciences (either Chemistry or Physics), Statistics, and Social Sciences and Behavioral Sciences to be eligible for professional certification. If you have questions about this, please contact [undergrad@csd.wisc.edu](mailto:undergrad@csd.wisc.edu).

Director of Undergraduate Studies  
[undergrad@csd.wisc.edu](mailto:undergrad@csd.wisc.edu)

Please visit our website (<https://csd.wisc.edu/undergraduate.htm>) for details on weekly advising sessions.

## L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

## PEOPLE

### PEOPLE

Information about faculty and staff can be found on the department's website (<https://csd.wisc.edu/peopleofCSD.htm>).

## COMPUTER SCIENCES

Our graduates discover that **computer science (CS)** opens up a world of possibilities.

Computer scientists enjoy **exceptional career opportunities**, in settings ranging from large, established companies to adventurous new start-ups. They are also well qualified to pursue graduate study in a number of fields.

Our students are **creative, analytical problem-solvers**. This is a rich, collaborative and varied field that you will find challenging, no matter where your individual interests lie.

And there is more to CS than programming. While **software engineering** is an important skill, computer scientists also **work with robots** and other physical devices, **design hardware that runs faster** and more efficiently, and **apply machine learning techniques** to gain insight from large data sets—to name just a few examples.

Because CS has become highly **interconnected with medicine, business and many other fields**, it is a great fit with other interests you may have. You will enjoy a strong career outlook while having an **impact on society**.

## DEGREES/MAJORS/CERTIFICATES

### DEGREES/MAJORS/CERTIFICATES

## HOW TO GET IN

### HOW TO GET IN DECLARATION REQUIREMENTS

To declare the computer sciences major, students must meet the following requirements<sup>1</sup>:

- Completion of COMP SCI 300 and MATH 222
- Grade of BC or higher in one of these introductory programming courses, taken at UW-Madison: COMP SCI 300, COMP SCI/E C E 354 or COMP SCI 400
- 2.250 GPA or higher among the first completed attempts of these courses: COMP SCI 300 and MATH 222

<sup>1</sup> For purposes of computer sciences major declaration requirements, GPA is calculated with UW-Madison courses only and does include the first attempt of all eligible major declaration coursework completed at time of submitting major declaration request. Repeated coursework is not included.

If a student needs additional coursework to meet the 2.250 GPA requirement, COMP SCI/MATH 240, COMP SCI/E C E 354, and/or COMP SCI 400 Programming III may also be used.

Students having difficulties meeting the above requirements should schedule a meeting with a computer sciences advisor.

For instructions on declaring the major, see the Department of Computer Sciences website (<https://www.cs.wisc.edu/undergraduate/ba-bs-in-compsci/>).

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

- General Education
- Breadth–Humanities/Literature/Arts: 6 credits
  - Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
  - Breadth–Social Studies: 3 credits
  - Communication Part A Part B \*
  - Ethnic Studies \*
  - Quantitative Reasoning Part A Part B \*

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

### COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

#### BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.

Language

- Complete the fourth unit of a language other than English; OR
- Complete the third unit of a language and the second unit of an additional language other than English.

LS Breadth

- 12 credits of Humanities, which must include 6 credits of literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.

Liberal Arts and Science Coursework Complete at least 108 credits.

Depth of Intermediate/Advanced work Complete at least 60 credits at the intermediate or advanced level.

Major Declare and complete at least one major.

Total Credits Complete at least 120 credits.

UW-Madison Experience

- 30 credits in residence, overall; and
- 30 credits in residence after the 86th credit.

Quality of Work	<ul style="list-style-type: none"> <li>• 2.000 in all coursework at UW–Madison</li> <li>• 2.000 in Intermediate/Advanced level coursework at UW–Madison</li> </ul>
-----------------	--

## NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

Students must complete a minimum of 48 total credits as detailed below.

### BASIC COMPUTER SCIENCES

Code	Title	Credits
COMP SCI/ MATH 240	Introduction to Discrete Mathematics	3
COMP SCI/ E C E 252	Introduction to Computer Engineering	3
COMP SCI 300	Programming II	3
COMP SCI/ E C E 354	Machine Organization and Programming	3
COMP SCI 400	Programming III	3
<b>Total Credits</b>		<b>15</b>

### BASIC CALCULUS

Code	Title	Credits
<b>Complete one of these sequences:</b>		<b>9-14</b>
MATH 221 & MATH 222	Calculus and Analytic Geometry 1 and Calculus and Analytic Geometry 2	
MATH 171 & MATH 217 & MATH 222	Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II and Calculus and Analytic Geometry 2	
<b>Total Credits</b>		<b>9-14</b>

### ADDITIONAL MATHEMATICS

#### Linear Algebra

Code	Title	Credits
<b>Complete one:</b>		
MATH 320	Linear Algebra and Differential Equations	3
MATH 340	Elementary Matrix and Linear Algebra	3
MATH 341	Linear Algebra	3
MATH 375	Topics in Multi-Variable Calculus and Linear Algebra	5

### Probability or Statistics

Code	Title	Credits
<b>Complete one:</b>		
STAT/MATH 309	Introduction to Probability and Mathematical Statistics I	3
STAT 311	Introduction to Theory and Methods of Mathematical Statistics I	3
STAT 324	Introductory Applied Statistics for Engineers	3
MATH 331	Introductory Probability	3
STAT 333	Applied Regression Analysis	3
STAT 340	Data Science Modeling II	4
STAT 371	Introductory Applied Statistics for the Life Sciences	3
STAT/MATH 431	Introduction to the Theory of Probability	3
MATH 531	Probability Theory	3

### ADVANCED COMPUTER SCIENCE COURSES<sup>1</sup>

#### Theory of Computer Science

Code	Title	Credits
<b>Complete one:</b>		
COMP SCI 577	Introduction to Algorithms	3
COMP SCI 520	Introduction to Theory of Computing	

#### Software & Hardware

Code	Title	Credits
<b>Complete two:</b>		
COMP SCI 407	Foundations of Mobile Systems and Applications	
COMP SCI/ E C E 506	Software Engineering	
COMP SCI 536	Introduction to Programming Languages and Compilers	
	or COMP SCI 53 Introduction to the Theory and Design of Programming Languages	
COMP SCI 537	Introduction to Operating Systems	
COMP SCI 542	Introduction to Software Security	
COMP SCI 544	Introduction to Big Data Systems	
COMP SCI/ E C E 552	Introduction to Computer Architecture	
COMP SCI 564	Database Management Systems: Design and Implementation	
COMP SCI 620		
COMP SCI 640	Introduction to Computer Networks	
COMP SCI 642	Introduction to Information Security	

#### Applications

Code	Title	Credits
<b>Complete one:</b>		
COMP SCI 412	Introduction to Numerical Methods	3
COMP SCI/ I SY E/ MATH 425	Introduction to Combinatorial Optimization	
COMP SCI/ MATH 513	Numerical Linear Algebra	

COMP SCI/ MATH 514	Numerical Analysis
COMP SCI/E C E/ I SY E 524	Introduction to Optimization
COMP SCI/I SY E/ MATH/STAT 525	Linear Optimization
COMP SCI 534	Computational Photography
COMP SCI 540	Introduction to Artificial Intelligence
COMP SCI 559	Computer Graphics
COMP SCI 565	Introduction to Data Visualization
COMP SCI 566	Introduction to Computer Vision
COMP SCI 570	Introduction to Human-Computer Interaction
COMP SCI 571	Building User Interfaces

### Electives<sup>1</sup>

Code	Title	Credits
<b>Complete two:</b>		<b>6-8</b>
COMP SCI 407	Foundations of Mobile Systems and Applications	
COMP SCI 412	Introduction to Numerical Methods	
COMP SCI/I SY E/ MATH 425	Introduction to Combinatorial Optimization	
COMP SCI/E C E/ MATH 435	Introduction to Cryptography	
COMP SCI/ STAT 471	Introduction to Computational Statistics	
COMP SCI/ MATH/STAT 475	Introduction to Combinatorics	
COMP SCI/ E C E 506	Software Engineering	
COMP SCI/ MATH 513	Numerical Linear Algebra	
COMP SCI/ MATH 514	Numerical Analysis	
COMP SCI/DS/ I SY E 518	Wearable Technology	
COMP SCI 520	Introduction to Theory of Computing	
COMP SCI/E C E/ I SY E 524	Introduction to Optimization	
COMP SCI/I SY E/ MATH/STAT 525	Linear Optimization	
COMP SCI/ I SY E 526	Advanced Linear Programming	
COMP SCI/E C E/ M E 532	Matrix Methods in Machine Learning	
COMP SCI/ E C E 533	Image Processing	
COMP SCI 534	Computational Photography	
COMP SCI 536	Introduction to Programming Languages and Compilers	
COMP SCI 537	Introduction to Operating Systems	
COMP SCI 538	Introduction to the Theory and Design of Programming Languages	

COMP SCI/E C E/ M E 539	Introduction to Artificial Neural Networks
COMP SCI 540	Introduction to Artificial Intelligence
COMP SCI 541	Theory & Algorithms for Data Science
COMP SCI 542	Introduction to Software Security
COMP SCI 544	Introduction to Big Data Systems
COMP SCI/ E C E 552	Introduction to Computer Architecture
COMP SCI/I SY E/ M E 558	Introduction to Computational Geometry
COMP SCI 559	Computer Graphics
COMP SCI/ E C E 561	Probability and Information Theory in Machine Learning
COMP SCI 564	Database Management Systems: Design and Implementation
COMP SCI 565	Introduction to Data Visualization
COMP SCI/ B M I 567	Medical Image Analysis
COMP SCI 570	Introduction to Human-Computer Interaction
COMP SCI 571	Building User Interfaces
COMP SCI/ B M I 576	Introduction to Bioinformatics
COMP SCI 577	Introduction to Algorithms
COMP SCI/ DS 579	Virtual Reality
COMP SCI 620	
COMP SCI/ I SY E 635	Tools and Environments for Optimization
COMP SCI 640	Introduction to Computer Networks
COMP SCI 642	Introduction to Information Security
COMP SCI 639	Undergraduate Elective Topics in Computing

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all COMP SCI courses and courses counting toward the major
- 2.000 GPA on 15 upper-level credits, taken in residence<sup>2</sup>
- 15 credits in COMP SCI, taken on campus

## HONORS IN THE MAJOR

Students may declare Honors in the Computer Sciences Major in consultation with the Computer Sciences undergraduate coordinator(s). To earn Honors in the Major in Computer Sciences, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a minimum 3.300 University GPA
- Earn a minimum 3.500 GPA for all COMP SCI and major courses
- Complete one COMP SCI course numbered 500 through 699, taken for Honors with a grade of B or higher
- Complete COMP SCI 681 and COMP SCI 682 for a total of 6 credits.<sup>3</sup>

## FOOTNOTES

- <sup>1</sup> COMP SCI courses may only fulfill one COMP SCI major requirement area. For example, if you take a course for the COMP SCI Applications requirement, it cannot also apply to the COMP SCI Elective requirement.
- <sup>2</sup> COMP SCI courses numbered 400 through 699 count as Upper Level.
- <sup>3</sup> Senior Honors Thesis proposal must be approved by the thesis/project advisor and student must be declared as Honors in the Major before enrollment in COMP SCI 681. A final thesis or project must be completed before a final grade for COMP SCI 682 can be awarded.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Recognize and apply the core principles of Computing (abstractions and algorithms) to solve real-world problems.
2. Describe and apply the theoretical foundations of Computer Science (e.g., complexity analysis) in practical settings.
3. Demonstrate knowledge of key elements of computer systems, e.g., hardware, operating systems, networks.
4. Use fundamental and detailed knowledge, skills, and tools (e.g., specific algorithms, techniques methods, etc.) of computer science and develop the ability to acquire new knowledge, skills, and tools.
5. Design, implement, and evaluate software in multiple programming paradigms and languages.
6. Develop a substantial piece of software, and recognize the challenges of designing and developing software.
7. Exhibit technical (designing, implementing, and testing) and teamwork (communication, collaboration, and professional practice) skills in order to develop solutions as a computer science practitioner.
8. Can solve problems by applying a broad toolbox of knowledge and techniques.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

#### First Year

Fall	Credits Spring	Credits
COMP SCI 200	3 COMP SCI 300	3
MATH 221	5 MATH 222	4
Communications Part A	3 Ethnic Studies	3
First-Semester Language	4 Second Semester Language	4
<b>15</b>		<b>14</b>

#### Second Year

Fall	Credits Spring	Credits
COMP SCI 400	3 COMP SCI/E C E 354	3
COMP SCI/E C E 252	3 COMP SCI/MATH 240	3
Linear Algebra	3 INTER-LS 210 (Optional Career Development Course)	1
Third Semester Language	4 Communication Part B	3
Social Science Breadth	3 Fourth Semester Language	4
<b>16</b>		<b>14</b>

#### Third Year

Fall	Credits Spring	Credits
COMP SCI Theory (COMP SCI 577 recommended)	3-4 COMP SCI Software/Hardware	3-4
Probability or Statistics	3 COMP SCI Applications	3
COMP SCI 368 (Optional Programming Course)	1 Literature Breadth	3
Humanities Breadth	3 Biological Science Breadth	3
Social Science Breadth	3 Elective	3
Elective	3	
<b>16</b>		<b>15</b>

#### Fourth Year

Fall	Credits Spring	Credits
COMP SCI Software/Hardware	3-4 COMP SCI Elective	3
COMP SCI Elective	3 Physical Science Breadth	3
Humanities Breadth	3 Literature Breadth	3

Social Science Breadth	3 Social Science Breadth	3
Elective	3 Elective	3
	<b>15</b>	<b>15</b>

**Total Credits 120**

## ADVISING AND CAREERS

### ADVISING AND CAREERS

#### ADVISING

The undergraduate coordinators in the Department of Computer Sciences are ready to help students with questions about the major, L&S degree requirements and policy, and course selection. Information on academic advising for students interested or declared in the computer sciences major is posted on the Computer Sciences advising page (<https://www.cs.wisc.edu/undergraduate/undergraduate-advisors/>).

#### CAREERS

Demand for those with a computer sciences education is exceptionally strong. According to figures from the U.S. Bureau of Labor Statistics, the vast majority of growth in STEM (science, technology, engineering, and math) occupations through 2020 will occur within computing fields.

Computer sciences majors are encouraged to begin working on their career exploration and preparation soon after arriving on campus to explore different career paths, participate in co-ops or summer internships, prepare for the job search and/or graduate school applications, and network with professionals in the field.

**Department of Computer Sciences:** the department hosts one major career fair (<https://www.cs.wisc.edu/connect/job-fair/>) per year, in the fall, as well as other opportunities to connect with employers, such as technical talks and information sessions.

**SuccessWorks at the College of Letters & Science:** SuccessWorks offers two major career fairs per year, assists with resume writing and interviewing skills, and offers individual career advising appointments for L&S students.

**Engineering Career Services (ECS):** ECS offers two major career fairs per year, assists with resume writing and interviewing skills, and hosts workshops on the job search.

#### L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

## PEOPLE

### PEOPLE

Visit the CS website to view our department faculty (<https://www.cs.wisc.edu/people/faculty/>) and staff (<https://www.cs.wisc.edu/people/staff/>).

## RESOURCES AND SCHOLARSHIPS

### RESOURCES AND SCHOLARSHIPS

Visit Scholarships@UW-Madison (<https://scholarships.wisc.edu/Scholarships/>) to find UW-Madison scholarships and apply online.

Visit the scholarships page (<https://www.cs.wisc.edu/academics/scholarships/>) on the Department of Computer Sciences website for a compendium of opportunities available to students studying computer sciences.

## COMPUTER SCIENCES, BS

Our graduates discover that **computer science (CS)** opens up a world of possibilities.

Computer scientists enjoy **exceptional career opportunities**, in settings ranging from large, established companies to adventurous new start-ups. They are also well qualified to pursue graduate study in a number of fields.

Our students are **creative, analytical problem-solvers**. This is a rich, collaborative and varied field that you will find challenging, no matter where your individual interests lie.

And there is more to CS than programming. While **software engineering** is an important skill, computer scientists also **work with robots** and other physical devices, **design hardware that runs faster** and more efficiently, and **apply machine learning techniques** to gain insight from large data sets—to name just a few examples.

Because CS has become highly **interconnected with medicine, business and many other fields**, it is a great fit with other interests you

may have. You will enjoy a strong career outlook while having an **impact on society**.

## HOW TO GET IN

### HOW TO GET IN DECLARATION REQUIREMENTS

To declare the computer sciences major, students must meet the following requirements<sup>1</sup>:

- Completion of COMP SCI 300 and MATH 222
- Grade of BC or higher in one of these introductory programming courses, taken at UW-Madison: COMP SCI 300, COMP SCI/E C E 354 or COMP SCI 400
- 2.250 GPA or higher among the first completed attempts of these courses: COMP SCI 300 and MATH 222

<sup>1</sup> For purposes of computer sciences major declaration requirements, GPA is calculated with UW-Madison courses only and does include the first attempt of all eligible major declaration coursework completed at time of submitting major declaration request. Repeated coursework is not included.

If a student needs additional coursework to meet the 2.250 GPA requirement, COMP SCI/MATH 240, COMP SCI/E C E 354, and/or COMP SCI 400 Programming III may also be used.

Students having difficulties meeting the above requirements should schedule a meeting with a computer sciences advisor.

For instructions on declaring the major, see the Department of Computer Sciences website (<https://www.cs.wisc.edu/undergraduate/ba-bs-in-compsci/>).

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

General  
Education

- Breadth—Humanities/Literature/Arts: 6 credits
- Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth—Social Studies: 3 credits
- Communication Part A Part B \*
- Ethnic Studies \*
- Quantitative Reasoning Part A Part B \*

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

### COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

#### BACHELOR OF SCIENCE DEGREE REQUIREMENTS

**Mathematics** Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.

**Language** Complete the third unit of a language other than English.

**LS Breadth** Complete:

- 12 credits of Humanities, which must include at least 6 credits of Literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.

**Liberal Arts and Science Coursework** Complete at least 108 credits.

**Depth of Intermediate/Advanced Coursework** Complete at least 60 credits at the Intermediate or Advanced level.

**Major** Declare and complete at least one major.

**Total Credits** Complete at least 120 credits.

**UW-Madison Experience** Complete both:

- 30 credits in residence, overall, and
- 30 credits in residence after the 86th credit.

**Quality of Work**

- 2.000 in all coursework at UW–Madison
- 2.000 in Intermediate/Advanced level coursework at UW–Madison

## NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

Students must complete a minimum of 48 total credits as detailed below.

### BASIC COMPUTER SCIENCES

Code	Title	Credits
COMP SCI/ MATH 240	Introduction to Discrete Mathematics	3
COMP SCI/ E C E 252	Introduction to Computer Engineering	3
COMP SCI 300	Programming II	3
COMP SCI/ E C E 354	Machine Organization and Programming	3
COMP SCI 400	Programming III	3
<b>Total Credits</b>		<b>15</b>

### BASIC CALCULUS

Code	Title	Credits
<b>Complete one of these sequences:</b>		<b>9-14</b>
MATH 221 & MATH 222	Calculus and Analytic Geometry 1 and Calculus and Analytic Geometry 2	
MATH 171 & MATH 217 & MATH 222	Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II and Calculus and Analytic Geometry 2	
<b>Total Credits</b>		<b>9-14</b>

### ADDITIONAL MATHEMATICS

#### Linear Algebra

Code	Title	Credits
<b>Complete one:</b>		
MATH 320	Linear Algebra and Differential Equations	3
MATH 340	Elementary Matrix and Linear Algebra	3
MATH 341	Linear Algebra	3
MATH 375	Topics in Multi-Variable Calculus and Linear Algebra	5

#### Probability or Statistics

Code	Title	Credits
<b>Complete one:</b>		
STAT/MATH 309	Introduction to Probability and Mathematical Statistics I	3
STAT 311	Introduction to Theory and Methods of Mathematical Statistics I	3

STAT 324	Introductory Applied Statistics for Engineers	3
MATH 331	Introductory Probability	3
STAT 333	Applied Regression Analysis	3
STAT 340	Data Science Modeling II	4
STAT 371	Introductory Applied Statistics for the Life Sciences	3
STAT/MATH 431	Introduction to the Theory of Probability	3
MATH 531	Probability Theory	3

### ADVANCED COMPUTER SCIENCE COURSES<sup>1</sup>

#### Theory of Computer Science

Code	Title	Credits
<b>Complete one:</b>		<b>3</b>
COMP SCI 577	Introduction to Algorithms	
COMP SCI 520	Introduction to Theory of Computing	

#### Software & Hardware

Code	Title	Credits
<b>Complete two:</b>		<b>6-8</b>
COMP SCI 407	Foundations of Mobile Systems and Applications	
COMP SCI/ E C E 506	Software Engineering	
COMP SCI 536	Introduction to Programming Languages and Compilers	
or COMP SCI 531 Introduction to the Theory and Design of Programming Languages		
COMP SCI 537	Introduction to Operating Systems	
COMP SCI 542	Introduction to Software Security	
COMP SCI 544	Introduction to Big Data Systems	
COMP SCI/ E C E 552	Introduction to Computer Architecture	
COMP SCI 564	Database Management Systems: Design and Implementation	
COMP SCI 620		
COMP SCI 640	Introduction to Computer Networks	
COMP SCI 642	Introduction to Information Security	

#### Applications

Code	Title	Credits
<b>Complete one:</b>		<b>3</b>
COMP SCI 412	Introduction to Numerical Methods	
COMP SCI/I SY E/ MATH 425	Introduction to Combinatorial Optimization	
COMP SCI/ MATH 513	Numerical Linear Algebra	
COMP SCI/ MATH 514	Numerical Analysis	
COMP SCI/E C E/ I SY E 524	Introduction to Optimization	
COMP SCI/I SY E/ MATH/STAT 525	Linear Optimization	
COMP SCI 534	Computational Photography	

COMP SCI 540	Introduction to Artificial Intelligence
COMP SCI 559	Computer Graphics
COMP SCI 565	Introduction to Data Visualization
COMP SCI 566	Introduction to Computer Vision
COMP SCI 570	Introduction to Human-Computer Interaction
COMP SCI 571	Building User Interfaces

**Electives<sup>1</sup>**

<b>Code</b>	<b>Title</b>	<b>Credits</b>
<b>Complete two:</b>		<b>6-8</b>
COMP SCI 407	Foundations of Mobile Systems and Applications	
COMP SCI 412	Introduction to Numerical Methods	
COMP SCI/I SY E/ MATH 425	Introduction to Combinatorial Optimization	
COMP SCI/E C E/ MATH 435	Introduction to Cryptography	
COMP SCI/ STAT 471	Introduction to Computational Statistics	
COMP SCI/ MATH/STAT 475	Introduction to Combinatorics	
COMP SCI/ E C E 506	Software Engineering	
COMP SCI/ MATH 513	Numerical Linear Algebra	
COMP SCI/ MATH 514	Numerical Analysis	
COMP SCI/DS/ I SY E 518	Wearable Technology	
COMP SCI 520	Introduction to Theory of Computing	
COMP SCI/E C E/ I SY E 524	Introduction to Optimization	
COMP SCI/I SY E/ MATH/STAT 525	Linear Optimization	
COMP SCI/ I SY E 526	Advanced Linear Programming	
COMP SCI/E C E/ M E 532	Matrix Methods in Machine Learning	
COMP SCI/ E C E 533	Image Processing	
COMP SCI 534	Computational Photography	
COMP SCI 536	Introduction to Programming Languages and Compilers	
COMP SCI 537	Introduction to Operating Systems	
COMP SCI 538	Introduction to the Theory and Design of Programming Languages	
COMP SCI/E C E/ M E 539	Introduction to Artificial Neural Networks	
COMP SCI 540	Introduction to Artificial Intelligence	
COMP SCI 541	Theory & Algorithms for Data Science	
COMP SCI 542	Introduction to Software Security	
COMP SCI 544	Introduction to Big Data Systems	

COMP SCI/ E C E 552	Introduction to Computer Architecture
COMP SCI/I SY E/ M E 558	Introduction to Computational Geometry
COMP SCI 559	Computer Graphics
COMP SCI/ E C E 561	Probability and Information Theory in Machine Learning
COMP SCI 564	Database Management Systems: Design and Implementation
COMP SCI 565	Introduction to Data Visualization
COMP SCI/ B M I 567	Medical Image Analysis
COMP SCI 570	Introduction to Human-Computer Interaction
COMP SCI 571	Building User Interfaces
COMP SCI/ B M I 576	Introduction to Bioinformatics
COMP SCI 577	Introduction to Algorithms
COMP SCI/ DS 579	Virtual Reality
COMP SCI 620	
COMP SCI/ I SY E 635	Tools and Environments for Optimization
COMP SCI 640	Introduction to Computer Networks
COMP SCI 642	Introduction to Information Security
COMP SCI 639	Undergraduate Elective Topics in Computing

**RESIDENCE AND QUALITY OF WORK**

- 2.000 GPA in all COMP SCI courses and courses counting toward the major
- 2.000 GPA on 15 upper-level credits, taken in residence<sup>2</sup>
- 15 credits in COMP SCI, taken on campus

**HONORS IN THE MAJOR**

Students may declare Honors in the Computer Sciences Major in consultation with the Computer Sciences undergraduate coordinator(s). To earn Honors in the Major in Computer Sciences, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a minimum 3.300 University GPA
- Earn a minimum 3.500 GPA for all COMP SCI and major courses
- Complete one COMP SCI course numbered 500 through 699, taken for Honors with a grade of B or higher
- Complete COMP SCI 681 and COMP SCI 682 for a total of 6 credits.<sup>3</sup>

**FOOTNOTES**

- <sup>1</sup> COMP SCI courses may only fulfill one COMP SCI major requirement area. For example, if you take a course for the COMP SCI Applications requirement, it cannot also apply to the COMP SCI Elective requirement.
- <sup>2</sup> COMP SCI courses numbered 400 through 699 count as Upper Level.

<sup>3</sup> Senior Honors Thesis proposal must be approved by the thesis/project advisor and student must be declared as Honors in the Major before enrollment in COMP SCI 681. A final thesis or project must be completed before a final grade for COMP SCI 682 can be awarded.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Recognize and apply the core principles of Computing (abstractions and algorithms) to solve real-world problems.
2. Describe and apply the theoretical foundations of Computer Science (e.g., complexity analysis) in practical settings.
3. Demonstrate knowledge of key elements of computer systems, e.g., hardware, operating systems, networks.
4. Use fundamental and detailed knowledge, skills, and tools (e.g., specific algorithms, techniques methods, etc.) of computer science and develop the ability to acquire new knowledge, skills, and tools.
5. Design, implement, and evaluate software in multiple programming paradigms and languages.
6. Develop a substantial piece of software, and recognize the challenges of designing and developing software.
7. Exhibit technical (designing, implementing, and testing) and teamwork (communication, collaboration, and professional practice) skills in order to develop solutions as a computer science practitioner.
8. Can solve problems by applying a broad toolbox of knowledge and techniques.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

#### First Year

## ADVISING AND CAREERS

### ADVISING AND CAREERS

The undergraduate coordinators in the Department of Computer Sciences are ready to help students with questions about the major, L&S degree requirements and policy, and course selection. Information on academic advising for students interested or declared in the computer sciences major is posted on the Computer Sciences advising page (<https://www.cs.wisc.edu/undergraduate/undergraduate-advisors/>).

### CAREERS

Demand for those with a computer sciences education is exceptionally strong. According to figures from the U.S. Bureau of Labor Statistics, the vast majority of growth in STEM (science, technology, engineering, and math) occupations through 2020 will occur within computing fields.

Computer sciences majors are encouraged to begin working on their career exploration and preparation soon after arriving on campus to explore different career paths, participate in co-ops or summer internships, prepare for the job search and/or graduate school applications, and network with professionals in the field.

**Department of Computer Sciences:** the department hosts one major career fair (<https://www.cs.wisc.edu/connect/job-fair/>) per year, in the fall, as well as other opportunities to connect with employers, such as technical talks and information sessions.

**SuccessWorks at the College of Letters & Science:** SuccessWorks offers two major career fairs per year, assists with resume writing and interviewing skills, and offers individual career advising appointments for L&S students.

**Engineering Career Services (ECS):** ECS offers two major career fairs per year, assists with resume writing and interviewing skills, and hosts workshops on the job search.

## L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

## PEOPLE

### PEOPLE

Visit the CS website to view our department faculty (<https://www.cs.wisc.edu/people/faculty/>) and staff (<https://www.cs.wisc.edu/people/staff/>).

## RESOURCES AND SCHOLARSHIPS

### RESOURCES AND SCHOLARSHIPS

Visit Scholarships@UW-Madison (<https://scholarships.wisc.edu/Scholarships/>) to find UW-Madison scholarships and apply online.

Visit the scholarships page (<https://www.cs.wisc.edu/academics/scholarships/>) on the Department of Computer Sciences website for a compendium of opportunities available to students studying computer sciences.

## COMPUTER SCIENCES, CERTIFICATE

Regardless of your major, you can **enhance your career** with a background in computer sciences. The computer sciences certificate is designed to **deepen and validate your computing savvy** for your future career prospects and/or graduate school. Compared to a major in computer sciences, the certificate requires fewer courses and offers more **flexibility in course selection**.

## HOW TO GET IN

### HOW TO GET IN

All undergraduate, degree-seeking students are eligible to declare the computer sciences certificate, except for students majoring in Computer Sciences or Computer Engineering.

### DECLARATION REQUIREMENTS

To declare the computer sciences certificate, students must meet the following requirements:

- Completion of COMP SCI 300
- Grade of BC or higher in one of these introductory programming course, taken at UW-Madison: COMP SCI 300, COMP SCI/ E C E 354 or COMP SCI 400

Students having difficulties meeting the above requirements should schedule a meeting with a computer sciences advisor to discuss alternatives.

For instructions on declaring the certificate, see the Department of Computer Sciences website (<https://www.cs.wisc.edu/undergraduate/certificate-in-computer-sciences/>).

## REQUIREMENTS

### REQUIREMENTS

Five courses and at least 14 credits from: <sup>1</sup>

Code	Title	Credits
COMP SCI 300	Programming II	3
<b>Two courses numbered 400-679:</b>		<b>6-8</b>

COMP SCI 400	Programming III
COMP SCI 407	Foundations of Mobile Systems and Applications
COMP SCI 412	Introduction to Numerical Methods
COMP SCI/I SY E/ MATH 425	Introduction to Combinatorial Optimization
COMP SCI/E C E/ MATH 435	Introduction to Cryptography
COMP SCI/ STAT 471	Introduction to Computational Statistics
COMP SCI/ MATH/STAT 475	Introduction to Combinatorics
COMP SCI/ E C E 506	Software Engineering
COMP SCI/ MATH 513	Numerical Linear Algebra
COMP SCI/ MATH 514	Numerical Analysis
COMP SCI/DS/ I SY E 518	Wearable Technology
COMP SCI 520	Introduction to Theory of Computing
COMP SCI/E C E/ I SY E 524	Introduction to Optimization
COMP SCI/I SY E/ MATH/STAT 525	Linear Optimization
COMP SCI/ I SY E 526	Advanced Linear Programming
COMP SCI/E C E/ M E 532	Matrix Methods in Machine Learning
COMP SCI/ E C E 533	Image Processing
COMP SCI 534	Computational Photography
COMP SCI 536	Introduction to Programming Languages and Compilers
COMP SCI 537	Introduction to Operating Systems
COMP SCI 538	Introduction to the Theory and Design of Programming Languages
COMP SCI/E C E/ M E 539	Introduction to Artificial Neural Networks
COMP SCI 540	Introduction to Artificial Intelligence
COMP SCI 541	Theory & Algorithms for Data Science
COMP SCI 542	Introduction to Software Security
COMP SCI 544	Introduction to Big Data Systems
COMP SCI/ E C E 552	Introduction to Computer Architecture
COMP SCI/I SY E/ M E 558	Introduction to Computational Geometry
COMP SCI 559	Computer Graphics
COMP SCI/ E C E 561	Probability and Information Theory in Machine Learning
COMP SCI 564	Database Management Systems: Design and Implementation
COMP SCI 565	Introduction to Data Visualization
COMP SCI 566	Introduction to Computer Vision

COMP SCI/ B M I 567	Medical Image Analysis
COMP SCI 570	Introduction to Human-Computer Interaction
COMP SCI 571	Building User Interfaces
COMP SCI/ B M I 576	Introduction to Bioinformatics
COMP SCI 577	Introduction to Algorithms
COMP SCI/ DS 579	Virtual Reality
COMP SCI/ I SY E 635	Tools and Environments for Optimization
COMP SCI 640	Introduction to Computer Networks
COMP SCI 642	Introduction to Information Security
COMP SCI 639	Undergraduate Elective Topics in Computing
<b>Two additional courses, chosen from courses numbered 400-679 (above) or these:</b>	
COMP SCI/ MATH 240	Introduction to Discrete Mathematics
COMP SCI/ E C E 252	Introduction to Computer Engineering
COMP SCI 270	Fundamentals of Human-Computer Interaction
COMP SCI/ E C E 352	Digital System Fundamentals
COMP SCI 310	Problem Solving Using Computers
COMP SCI 320	Data Science Programming II
COMP SCI/ E C E 354	Machine Organization and Programming

**Total Credits** **14**

<sup>1</sup> Courses taken Pass/Fail do not meet requirements of the Certificate.

## RESIDENCE AND QUALITY OF WORK

- At least 7 Certificate credits must be completed in Residence
- Minimum 2.000 GPA on all COMP SCI and Certificate courses

## UNDERGRADUATE/SPECIAL STUDENT CERTIFICATE

This certificate is intended to be completed in the context of an undergraduate degree and for those seeking this certificate that is preferred. For students who have substantially completed this certificate at UW-Madison and may need one or two courses to complete the certificate, they may do so immediately after completion of the bachelor's degree by enrolling in the course as a University Special (nondegree) student. The certificate must be completed within a year of completion of the bachelor's degree. Students should keep in mind that University Special students have the last registration priority and that may limit availability of desired courses. Financial aid is not available when enrolled as a University Special student to complete an undergraduate certificate.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Recognize and apply the core principles of Computing (abstractions and algorithms) to solve real-world problems.
2. Use fundamental and detailed knowledge, skills, and tools (e.g., specific algorithms, techniques methods, etc.) of computer science and develop the ability to acquire new knowledge, skills, and tools.
3. Design, implement, and evaluate software in multiple programming paradigms and languages.
4. Can solve problems by applying a broad toolbox of knowledge and techniques.

## ADVISING AND CAREERS

### ADVISING AND CAREERS

#### ADVISING

The undergraduate coordinators in the Department of Computer Sciences are ready to help students with questions about the major, L&S degree requirements and policy, and course selection. Information on academic advising for students interested or declared in the computer sciences major is posted on the Computer Sciences advising page (<https://www.cs.wisc.edu/undergraduate/undergraduate-advisors/>).

#### L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students

- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

## PEOPLE

### PEOPLE

## ECONOMICS

A major in economics gives students a greater understanding of how people, businesses, and governments respond to their economic environments. Many of the issues that fill the newspapers – jobs, wages, taxes, the cost of living, inequality, pollution, poverty, and economic growth – are, in fundamental ways, economic issues. The daily decisions of businesses and consumers are largely economic. Economists seek to understand the decisions of businesses, consumers, and current economic issues by developing a systematic and thorough understanding of precisely how the economic system operates, including the mechanisms by which resources are allocated, prices determined, income redistributed, and economic growth promoted.

The analytical method of economics recognizes that various choices are open to a society in solving its economic problems. Students are often attracted to economics as a discipline precisely because they want to understand the decisions of people and businesses and to better understand and evaluate economic policy. To begin to approach these issues as an economist requires an understanding of economic theory, empirical methodology, and an understanding of the institutional details and advanced practice gained from intensive study of specific subfields of economics. Consequently, the undergraduate economics major is organized around a progression of courses that first provides a broad introduction to economics, then develops the theoretical tools that provide the foundation of modern economic thought, and finishes with advanced courses designed to provide greater in-depth knowledge of specific fields (such as labor markets, industrial organization, international economics, public finance, banking and finance, macroeconomics, microeconomics, and econometrics).

An economics major is valuable in the job market because the major is designed to train people to think analytically and clearly about a wide variety of issues. Economics graduates go on to pursue careers in a variety of fields including finance, data analytics, and public policy. An economics major is also good preparation for graduate work in a number of areas: business, law, public policy, economics, public administration, industrial relations, international relations, urban and regional planning, and environmental studies.

## ECONOMIC ANALYTICS, CERTIFICATE

The Department of Economics is happy to announce its Certificate in Economic Analytics. When analyzing data, economists use many of the same statistical tools as other disciplines. However, economists have a tradition of formally combining data analysis with economic models, giving a different perspective on data and how to think about data analysis. This certificate will introduce non-Economics majors to this economic approach to data analytics.

An economist's approach to data analysis has two distinguishing features. First, economists traditionally interpret observational data through the lens of an economic model. This often leads to an explicit derivation of the data-generating process, typically involving individual optimization. Second, economists tend to focus on identification and causal inference more than many other disciplines. This involves looking for combinations of data and empirical approaches that allow empirical relationships to be interpreted causally.

This certificate will introduce students to this perspective and these tools by teaching students a mix of microeconomic theory, statistics and econometrics, and hands-on experience analyzing real data.

## HOW TO GET IN

### HOW TO GET IN

There are no prerequisites to declaring the certificate; students are encouraged to declare as soon as they are comfortable. Declaration of

the certificate occurs via an online form, but students are encouraged to schedule a meeting with an Economics advisor.

Economics majors are not eligible to declare this certificate.

## REQUIREMENTS

### REQUIREMENTS

The certificate requires at least 14 credits, from:

Code	Title	Credits
<b>Complete one option from each category:</b>		
<i>Microeconomics (complete one course):</i>		3-4
ECON 301	Intermediate Microeconomic Theory	
ECON 311	Intermediate Microeconomic Theory - Advanced Treatment	
<i>Statistics (complete one option):</i>		4-8
ECON 310	Statistics: Measurement in Economics	
STAT 240 & STAT 340	Data Science Modeling I and Data Science Modeling II	
STAT 303 & STAT 333	R for Statistics I and Applied Regression Analysis	
<i>Econometrics (complete one course)</i>		4
ECON 400	Introduction to Applied Econometrics	
ECON 410	Introductory Econometrics	
<i>Data-Related Economics Elective (complete one course):</i>		3-4
ECON 460	Economic Forecasting	
ECON 570	Fundamentals of Data Analytics for Economists	
ECON 695	Topics in Economic Data Analysis	
<b>Total Credits</b>		<b>14</b>

## RESIDENCE AND QUALITY OF WORK

- Minimum 2.000 GPA on all certificate courses
- At least 7 credits must be taken in residence at UW-Madison

## CERTIFICATION COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. apply microeconomic models to understand and interpret individual behavior and market outcomes as the result of individual optimization
2. estimate the value of unknown parameters and test theories using formal hypothesis tests
3. summarize the conditions required for a statistical association to represent a causal relationship; evaluate the extent to which those

conditions hold in particular settings; interpret the results when those conditions don't hold

- download, clean, and analyze large economic datasets using modern statistical software

## ADVISING AND CAREERS

### ADVISING AND CAREERS

#### ACADEMIC ADVISING

If you are wondering how this certificate can fit into your academic plans or help with your career goals, be sure to meet with an advisor. Our academic advisors (<https://econ.wisc.edu/undergraduate/find-academic-advising/>) can help you create an academic plan and ensure you are making the most of your academic experience. Find us on the campus map ([https://www.map.wisc.edu/?initObj=bdg\\_SocSc&z=41.33&x=-0.158401&y=-0.09157](https://www.map.wisc.edu/?initObj=bdg_SocSc&z=41.33&x=-0.158401&y=-0.09157)).

Email: [econadvise@ssc.wisc.edu](mailto:econadvise@ssc.wisc.edu)  
Phone: 608-262-6925

#### ECONOMICS CAREER DEVELOPMENT OFFICE

The Economics Career Development Office (<https://econ.wisc.edu/careers/>) (ECDO) provides career advising to help economics students explore career options and search for jobs and internships including reviewing application materials (cover letter and resume). Career advisors work with students to develop an individualized job/internship strategy based on the student's background and career goals. Career advising is open to declared economics majors, anyone considering majoring in economics, or students pursuing the Economic Analytics certificate who would like economics-specific career advice. Set up an appointment (<https://econ.wisc.edu/careers/get-career-advice/>) or email your questions to [econcareers@ssc.wisc.edu](mailto:econcareers@ssc.wisc.edu).

#### L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

## ECONOMICS, BA

A major in economics gives students a greater understanding of how people, businesses, and governments respond to their economic environments. Many of the issues that fill the newspapers – jobs, wages, taxes, the cost of living, inequality, pollution, poverty, and economic growth – are, in fundamental ways, economic issues. The daily decisions of businesses and consumers are largely economic. Economists seek to understand the decisions of businesses, consumers, and current economic issues by developing a systematic and thorough understanding of precisely how the economic system operates, including the mechanisms by which resources are allocated, prices determined, income redistributed, and economic growth promoted.

The analytical method of economics recognizes that various choices are open to a society in solving its economic problems. Students are often attracted to economics as a discipline precisely because they want to understand the decisions of people and businesses and to better understand and evaluate economic policy. To begin to approach these issues as an economist requires an understanding of economic theory, empirical methodology, and an understanding of the institutional details and advanced practice gained from intensive study of specific subfields

of economics. Consequently, the undergraduate economics major is organized around a progression of courses that first provides a broad introduction to economics, then develops the theoretical tools that provide the foundation of modern economic thought, and finishes with advanced courses designed to provide greater in-depth knowledge of specific fields (such as labor markets, industrial organization, international economics, public finance, banking and finance, macroeconomics, microeconomics, and econometrics).

An economics major is valuable in the job market because the major is designed to train people to think analytically and clearly about a wide variety of issues. Economics graduates go on to pursue careers in a variety of fields including finance, data analytics, and public policy. An economics major is also good preparation for graduate work in a number of areas: business, law, public policy, economics, public administration, industrial relations, international relations, urban and regional planning, and environmental studies.

## HOW TO GET IN

### HOW TO GET IN DECLARING THE MAJOR

- Complete one calculus course, MATH 211, MATH 217, MATH 221 or MATH 222 (MATH 217, MATH 221 or MATH 222 for the Mathematical Emphasis option), and
- Complete any one ECON course (except ECON 100) at UW-Madison, and
- Achieve a 2.000 GPA in all ECON courses and major courses (i.e., calculus) at the time of declaration.

Students may not be declared in both the Economics major and the Certificate in Economic Analytics.

For instructions on how to declare the Economics major, visit <https://econ.wisc.edu/undergraduate/declaring-an-econ-major/>

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

- |                   |  |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> <li>• Breadth—Humanities/Literature/Arts: 6 credits</li> <li>• Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth—Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul> |
|-------------------|--|

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

### BACHELOR OF ARTS DEGREE REQUIREMENTS

**Mathematics** Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.

**Language**

- Complete the fourth unit of a language other than English; OR
- Complete the third unit of a language and the second unit of an additional language other than English.

**LS Breadth**

- 12 credits of Humanities, which must include 6 credits of literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.

**Liberal Arts and Science Coursework** Complete at least 108 credits.

**Depth of Intermediate/Advanced work** Complete at least 60 credits at the intermediate or advanced level.

**Major** Declare and complete at least one major.

**Total Credits** Complete at least 120 credits.

**UW-Madison Experience**

- 30 credits in residence, overall; and
- 30 credits in residence after the 86th credit.

Quality of Work	<ul style="list-style-type: none"> <li>• 2.000 in all coursework at UW–Madison</li> <li>• 2.000 in Intermediate/Advanced level coursework at UW–Madison</li> </ul>
-----------------	--

## NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

## OPTIONS IN THE MAJOR

The department offers two major options. Students may declare only one option and must complete all requirements including Residence and Quality of Work standards. Options are:

**Option A: Economics** provides a well-rounded major in economics that is valuable for employment following graduation, or subsequent graduate work in business, law, public policy, and related disciplines.

**Option B: Economics–Mathematical Emphasis** provides students with the mathematical and statistical background needed for in-depth study of the analytical aspects of economics. Its requirements are designed to prepare students for graduate study in economics and related fields, or for careers as professional economists in business or government. For specific Mathematical Emphasis requirements, see the section below (p. 705).

## REQUIREMENTS FOR THE ECONOMICS MAJOR

### MATH AND STATISTICS

Code	Title	Credits
<b>Mathematics (complete one):</b>		<b>5-10</b>
MATH 221	Calculus and Analytic Geometry I	
MATH 171 & MATH 217	Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II	
MATH 211 & MATH 213	Survey of Calculus and Calculus and Introduction to Differential Equations	
MATH 211 & ECON 205	Survey of Calculus and Quantitative Tools for Economics	
<b>Statistics (complete one):</b>		<b>3-4</b>
ECON 310	Statistics: Measurement in Economics (Recommended)	
ECON 400	Introduction to Applied Econometrics	
ECON 410	Introductory Econometrics	
MATH/STAT 309	Introduction to Probability and Mathematical Statistics I	
MATH/STAT 431	Introduction to the Theory of Probability	
STAT 311	Introduction to Theory and Methods of Mathematical Statistics I	

STAT 324 Introductory Applied Statistics for Engineers

STAT 340 Data Science Modeling II

**Total Credits** **8-14**

## ECONOMICS

30 credits to include:

Code	Title	Credits
<b>Microeconomics Macroeconomics (complete one):</b>		<b>4-8</b>
ECON 101 & ECON 102	Principles of Microeconomics and Principles of Macroeconomics	
ECON 111	Principles of Economics-Accelerated Treatment	
<b>Intermediate Theory (complete one):</b>		<b>6-8</b>
ECON 301 & ECON 302	Intermediate Microeconomic Theory and Intermediate Macroeconomic Theory	
ECON 311 & ECON 312	Intermediate Microeconomic Theory - Advanced Treatment and Intermediate Macroeconomic Theory - Advanced Treatment (Honors Econ )	
<b>Two Core ECON courses:<sup>1</sup></b>		<b>6-8</b>
ECON 400	Introduction to Applied Econometrics	
ECON 409	Study Abroad in Advanced Economics	
ECON 410	Introductory Econometrics	
ECON 435	The Financial System	
ECON 441	Analytical Public Finance	
ECON 442	Macroeconomic Policy	
ECON 448	Human Resources and Economic Growth	
ECON 450	Wages and the Labor Market	
ECON 451	The Economic Approach to Human Behavior	
ECON 455	Behavioral Economics	
ECON 458	Industrial Structure and Competitive Strategy	
ECON 460	Economic Forecasting	
ECON 461	International Macroeconomics	
ECON 464	International Trade	
ECON 467	International Industrial Organizations	
ECON 468	Industrial Organization and Imperfect Competition	
ECON 475	Economics of Growth	
ECON/ FINANCE 503	Markets with Frictions	
ECON 521	Game Theory and Economic Analysis	
ECON 522	Law and Economics	
ECON/R M I 530	Insuring Life's Risks: Health, Aging, and Policy	

ECON/ POP HLTH/ PUB AFFR 548	The Economics of Health Care
ECON 570	Fundamentals of Data Analytics for Economists
ECON 580	Honors Tutorial in Research Project Design
ECON 621	Markets and Models
ECON 623	Population Economics
ECON 661	Issues in International Macroeconomics
ECON 664	Issues in International Trade
ECON 666	Issues in International Finance
ECON 690	Topics in Economics
ECON 695	Topics in Economic Data Analysis
<b>Electives</b>	<b>6-14</b>
<i>Complete any Core econ course not used above or one of these courses:</i>	
ECON/ FINANCE 300	Introduction to Finance
ECON/ HIST SCI 305	Development of Economic Thought
ECON/A A E/ REAL EST/ URB R PL 306	The Real Estate Process

<b>Total Credits</b>	<b>30</b>

## REQUIREMENT FOR THE MATHEMATICAL EMPHASIS:

View as list View as grid

### • ECONOMICS: MATHEMATICAL EMPHASIS (P. 709)

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all ECON and major courses
- 2.000 GPA on 15 upper-level major credits taken in residence<sup>2</sup>
- 15 credits in ECON, taken on the UW–Madison campus

## HONORS IN THE ECONOMICS MAJOR

To participate in Honors in the Economics Major, students must be declared in the Mathematical Emphasis option. For further information, see the Mathematical Emphasis requirements (p. 709) and consult your Economics undergraduate advisor.

## FOOTNOTES

- <sup>1</sup> At least two core ECON courses must be taken in residence at UW–Madison, and not via transfer or a UW–Madison Study Abroad program.
- <sup>2</sup> Intermediate and Advanced level ECON courses are Upper Level in the major.

## UNIVERSITY DEGREE REQUIREMENTS

<b>Total Degree</b>	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
<b>Residency</b>	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Understand the fundamental concepts of economics and how those concepts apply to real world issues.
2. Construct and evaluate economic models, their assumptions, and conclusions.
3. Acquire a diverse set of skills and strategies in mathematical reasoning/statistical and computational techniques/deductive logic/problem solving.
4. Use mathematics/computational/statistical techniques to analyze real world situations and policies.
5. Use economic analysis to critically evaluate public policy proposals.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

#### Freshman

Fall	Credits Spring	Credits
Quantitative Reasoning A	4 ECON 101	4
Communication A	3 Ethnic Studies	3
Foreign Language	4 MATH 221	5
Physical Science Breadth	3 Foreign Language	4
	<b>14</b>	<b>16</b>

#### Sophomore

Fall	Credits Spring	Credits
ECON 102	4 ECON 301	4
Biological Science Breadth	3 ECON 310	4
Foreign Language	4 Humanities Breadth	4
Literature Breadth	3 Foreign Language	4
INTER-LS 210	1	
	<b>15</b>	<b>16</b>

#### Junior

Fall	Credits Spring	Credits
ECON 302	4 Econometrics (ECON 400 or 410)	4

Economics elective or core econ course	4 Humanities Breadth	3
Literature Breadth	3 Communication B	4
Science Breadth	4 Elective	3
	<b>15</b>	<b>14</b>

#### Senior

Fall	Credits Spring	Credits
Core econ course	4 Elective	4
Core course	4 Elective	4
Elective	3 Elective	4
Elective	4 Elective	3
	<b>15</b>	<b>15</b>

**Total Credits 120**

## THREE-YEAR PLAN

### THREE-YEAR PLAN

This Sample Three-Year Plan is a tool to assist students and their advisor(s). Students should use it –along with their DARS report, the Degree Planner, and Course Search & Enroll tools – to make their own three-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests.

Three-year plans may vary considerably from student to student, depending on their individual preparation and circumstances. Students interested in graduating in three years should meet with an advisor as early as possible to discuss feasibility, appropriate course sequencing, post-graduation plans (careers, graduate school, etc.), and opportunities they might forgo in pursuit of a three-year graduation plan.

### DEPARTMENTAL EXPECTATIONS

A three-year degree is feasible for students with a variety of backgrounds and specific preparation. Students planning to graduate within three years with an Economics major should consult with an advisor (<https://econ.wisc.edu/undergraduate/academic-advising/>) as soon as possible, and should ideally be entering the University with a minimum of 30 advanced standing credits, and have satisfied the following requirements with course credit or via placement examination:

- ECON 101 Principles of Microeconomics
- Communication Part A
- Quantitative Reasoning Part A
- Placement into MATH 221 Calculus and Analytic Geometry 1
- 3 credits of Literature, 3 credits of Biological Science
- 3-4 units of foreign language

Summer coursework is not required to finish in three years, but students planning to finish in three years will find it easier if they take either an intermediate theory course during Summer One or an advanced elective during Summer Two.

#### First Year

Fall	Credits Spring	Credits Summer	Credits
ECON 102	4 ECON 301	4 ECON 302	4
MATH 221	5 Communication B	4	

Literature Breadth	3 Biological Science Breadth	3
Physical Science Breadth	3 Elective (Intermediate or Advanced level)	4
	<b>15</b>	<b>15</b>

**Second Year**

Fall	Credits Spring	Credits Summer	Credits
ECON 310	4 ECON 400 or 410	4 Summer Internship (optional)	0

Core Econ Course or elective	3 Physical Science Breadth	3	
Ethnic Studies/ Humanities Breadth	4 Humanities Breadth	4	
Elective (Intermediate or Advanced level)	4 Intermediate or Advanced COMP SCI, MATH, or STAT (if BS) or Elective (Intermediate or Advanced level) (if BA)	4	
	<b>15</b>	<b>15</b>	<b>0</b>

**Third Year**

Fall	Credits Spring	Credits
Core econ Course	3 Electives (Intermediate or Advanced level)	12
Electives (Intermediate or Advanced level)	11	
	<b>14</b>	<b>12</b>

**Total Credits 90****ADVISING AND CAREERS****ADVISING AND CAREERS****ACADEMIC ADVISING**

Academic advising (<https://econ.wisc.edu/undergraduate/find-academic-advising/>), along with general information about the undergraduate major and coursework, is available in Room 7238 of the Social Science Building. Find us on the campus map ([http://www.map.wisc.edu/?initObj=bdg\\_SocSc&z=41.33&x=-0.158401&y=-0.09157](http://www.map.wisc.edu/?initObj=bdg_SocSc&z=41.33&x=-0.158401&y=-0.09157)).

Email: [econadvise@ssc.wisc.edu](mailto:econadvise@ssc.wisc.edu)

**ECONOMICS CAREER DEVELOPMENT OFFICE**

The Economics Career Development Office (<https://econ.wisc.edu/careers/>) (ECDO) provides career advising to help economics students explore career options and search for jobs and internships including reviewing application materials (cover letter and resume). Career advisors work with students to develop an individualized job/internship search

strategy based on the student's background and career goals. Career advising is open to declared economics majors or anyone considering majoring in economics who would like economics-specific career advice. Set up an appointment (<https://econ.wisc.edu/careers/get-career-advice/>) or email your questions to [econcareers@ssc.wisc.edu](mailto:econcareers@ssc.wisc.edu)

**PREPARATION FOR PHD PROGRAMS IN ECONOMICS**

Students interested in pursuing graduate study should pursue Option B (mathematical emphasis) and augment the standard curriculum with higher-level mathematics and statistics courses. These may include:

Code	Title	Credits
MATH/STAT 309	Introduction to Probability and Mathematical Statistics I	
MATH/STAT 310	Introduction to Probability and Mathematical Statistics II	
MATH 421	The Theory of Single Variable Calculus	
MATH/STAT 431	Introduction to the Theory of Probability	
MATH 521	Analysis I	
MATH 522	Analysis II	
MATH/ISYE/OTM/STAT 632	Introduction to Stochastic Processes	

It is important to consult early in the second year with the undergraduate advisor and/or the faculty member who directs the undergraduate program to design a plan of coursework.

**DIRECTED STUDY**

Directed Study (ECON 698, ECON 699) enables advanced students to pursue economic topics not covered in the regular course offerings. A student interested in Directed Study should prepare a research proposal and/or reading list; specific course requirements are arranged with an instructor who agrees to supervise the directed study project. Enrollment requires the consent of the instructor; a GPA of 3.00 or above in ECON; completion of the Intermediate economic theory courses (ECON 301 & ECON 302); at least one CORE ECON course.

Any undergraduate economics student considering a Directed Study should meet with an Undergraduate Academic Advising Economics advisor often for consultation.

**INTERNSHIPS**

Students can earn one credit for approved internships appropriate to the study of economics under course ECON 228. Students must enroll for ECON 228 in the same semester/session in which the internship is granted. Students should work a minimum of 100 hours per term. Prerequisites are declaration in the major economics major; a major GPA of 2.200 or higher; completion of at least four ECON courses at UW-Madison; completion of at least one Intermediate Theory course (ECON 301 & ECON 302); and departmental approval.

**L&S CAREER RESOURCES**

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

## PEOPLE

### PEOPLE FACULTY

- Aizawa, Naoki, Associate Professor  
Labor Economics, Health Economics, Public Economics
- Barwick, Panle, Professor  
Industrial Organization, Applied Microeconomics, Environmental Econometrics
- Bernard, Benjamin, Assistant Professor  
Game Theory, Microeconomic Theory, Financial Economics
- Boerma, Job, Assistant Professor

ECON/A A E/ ENVIR ST/ URB R PL 671	Energy Economics	

---

**Total Credits 30**

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all major and ECON courses
- 2.000 GPA on 15 upper-level major courses taken in residence<sup>2</sup>
- 15 credits in ECON, taken on the UW–Madison campus

## HONORS IN THE MAJOR REQUIREMENTS TO EARN HONORS IN THE ECONOMICS MAJOR

To earn Honors in the Major in Economics, students must be declared in and satisfy the requirements for the Economics–Mathematical Emphasis Option (above), **and** satisfy the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA for all ECON and major courses
- Complete the following courses, taken for Honors, with grades of B or better in each:

Code	Title	Credits
ECON 311 & ECON 312	Intermediate Microeconomic Theory – Advanced Treatment and Intermediate Macroeconomic Theory – Advanced Treatment	
ECON 580	Honors Tutorial in Research Project Design	

### Select one of the following capstone experiences:

ECON 581	Honors Thesis	
ECON 681 & ECON 682	Senior Honors Thesis and Senior Honors Thesis (Take for a total of 6 credits)	

## FOOTNOTES

- <sup>1</sup> At least two core ECON courses must be taken in residence at UW–Madison, and not via transfer or a UW–Madison Study Abroad program.
- <sup>2</sup> Intermediate and Advanced level ECON courses are Upper Level in the major.

## ECONOMICS, BS

A major in economics gives students a greater understanding of how people, businesses, and governments respond to their economic environments. Many of the issues that fill the newspapers – jobs, wages, taxes, the cost of living, inequality, pollution, poverty, and economic growth – are, in fundamental ways, economic issues. The daily decisions of businesses and consumers are largely economic. Economists seek to understand the decisions of businesses, consumers, and current economic issues by developing a systematic and thorough understanding of precisely how the economic system operates, including the mechanisms by which resources are allocated, prices determined, income redistributed, and economic growth promoted.

The analytical method of economics recognizes that various choices are open to a society in solving its economic problems. Students are often attracted to economics as a discipline precisely because they want

to understand the decisions of people and businesses and to better understand and evaluate economic policy. To begin to approach these issues as an economist requires an understanding of economic theory, empirical methodology, and an understanding of the institutional details and advanced practice gained from intensive study of specific subfields of economics. Consequently, the undergraduate economics major is organized around a progression of courses that first provides a broad introduction to economics, then develops the theoretical tools that provide the foundation of modern economic thought, and finishes with advanced courses designed to provide greater in–depth knowledge of specific fields (such as labor markets, industrial organization, international economics, public finance, banking and finance, macroeconomics, microeconomics, and econometrics).

An economics major is valuable in the job market because the major is designed to train people to think analytically and clearly about a wide variety of issues. Economics graduates go on to pursue careers in a variety of fields including finance, data analytics, and public policy. An economics major is also good preparation for graduate work in a number of areas: business, law, public policy, economics, public administration, industrial relations, international relations, urban and regional planning, and environmental studies.

## HOW TO GET IN

### HOW TO GET IN DECLARING THE MAJOR

- Complete one calculus course, MATH 211, MATH 217, MATH 221 or MATH 222 (MATH 217, MATH 221 or MATH 222 for the Mathematical Emphasis option), and
- Complete any one ECON course (except ECON 100) at UW–Madison, and
- Achieve a 2.000 GPA in all ECON courses and major courses (i.e., calculus) at the time of declaration.

Students may not be declared in both the Economics major and the Certificate in Economic Analytics.

For instructions on how to declare the Economics major, visit <https://econ.wisc.edu/undergraduate/declaring-an-econ-major/>

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

General Education	<ul style="list-style-type: none"> <li>• Breadth—Humanities/Literature/Arts: 6 credits</li> <li>• Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth—Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul>
-------------------	--

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

### BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.
Language	Complete the third unit of a language other than English.
LS Breadth	Complete: <ul style="list-style-type: none"> <li>• 12 credits of Humanities, which must include at least 6 credits of Literature; and</li> <li>• 12 credits of Social Science; and</li> <li>• 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.</li> </ul>
Liberal Arts and Science Coursework	Complete at least 108 credits.
Depth of Intermediate/Advanced Coursework	Complete at least 60 credits at the Intermediate or Advanced level.
Major	Declare and complete at least one major.
Total Credits	Complete at least 120 credits.
UW-Madison Experience	Complete both: <ul style="list-style-type: none"> <li>• 30 credits in residence, overall, and</li> <li>• 30 credits in residence after the 86th credit.</li> </ul>
Quality of Work	<ul style="list-style-type: none"> <li>• 2.000 in all coursework at UW–Madison</li> <li>• 2.000 in Intermediate/Advanced level coursework at UW–Madison</li> </ul>

## NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

## OPTIONS IN THE MAJOR

The department offers two major options. Students may declare only one option and must complete all requirements including Residence and Quality of Work standards. Options are:

**Option A: Economics** provides a well-rounded major in economics that is valuable for employment following graduation, or subsequent graduate work in business, law, public policy, and related disciplines.

**Option B: Economics—Mathematical Emphasis** provides students with the mathematical and statistical background needed for in-depth study of the analytical aspects of economics. Its requirements are designed to prepare students for graduate study in economics and related fields, or for careers as professional economists in business or government. For specific Mathematical Emphasis requirements, see the section below (p. 714).

## REQUIREMENTS FOR THE ECONOMICS MAJOR MATH AND STATISTICS

Code	Title	Credits
<b>Mathematics (complete one):</b>		<b>5-10</b>
MATH 221	Calculus and Analytic Geometry I	
MATH 171 & MATH 217	Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II	
MATH 211 & MATH 213	Survey of Calculus and Calculus and Introduction to Differential Equations	
MATH 211 & ECON 205	Survey of Calculus and Quantitative Tools for Economics	
<b>Statistics (complete one):</b>		<b>3-4</b>
ECON 310	Statistics: Measurement in Economics (Recommended)	
ECON 400	Introduction to Applied Econometrics	
ECON 410	Introductory Econometrics	
MATH/STAT 309	Introduction to Probability and Mathematical Statistics I	
MATH/STAT 431	Introduction to the Theory of Probability	
STAT 311	Introduction to Theory and Methods of Mathematical Statistics I	
STAT 324	Introductory Applied Statistics for Engineers	
STAT 340	Data Science Modeling II	
<b>Total Credits</b>		<b>8-14</b>

## ECONOMICS

30 credits to include:

Code	Title	Credits
<b>Microeconomics</b>		<b>4-8</b>
<b>Macroeconomics (complete one):</b>		
ECON 101 & ECON 102	Principles of Microeconomics and Principles of Macroeconomics	
ECON 111	Principles of Economics- Accelerated Treatment	
<b>Intermediate Theory (complete one):</b>		<b>6-8</b>
ECON 301 & ECON 302	Intermediate Microeconomic Theory and Intermediate Macroeconomic Theory	
ECON 311 & ECON 312	Intermediate Microeconomic Theory - Advanced Treatment and Intermediate Macroeconomic Theory - Advanced Treatment (Honors Econ )	
<b>Two Core ECON courses:<sup>1</sup></b>		<b>6-8</b>
ECON 400	Introduction to Applied Econometrics	
ECON 409	Study Abroad in Advanced Economics	
ECON 410	Introductory Econometrics	
ECON 435	The Financial System	
ECON 441	Analytical Public Finance	
ECON 442	Macroeconomic Policy	
ECON 448	Human Resources and Economic Growth	
ECON 450	Wages and the Labor Market	
ECON 451	The Economic Approach to Human Behavior	
ECON 455	Behavioral Economics	
ECON 458	Industrial Structure and Competitive Strategy	
ECON 460	Economic Forecasting	
ECON 461	International Macroeconomics	
ECON 464	International Trade	
ECON 467	International Industrial Organizations	
ECON 468	Industrial Organization and Imperfect Competition	
ECON 475	Economics of Growth	
ECON/ FINANCE 503	Markets with Frictions	
ECON 521	Game Theory and Economic Analysis	
ECON 522	Law and Economics	
ECON/R M I 530	Insuring Life's Risks: Health, Aging, and Policy	
ECON/ POP HLTH/ PUB AFFR 548	The Economics of Health Care	
ECON 570	Fundamentals of Data Analytics for Economists	

ECON 580	Honors Tutorial in Research Project Design	
ECON 621	Markets and Models	
ECON 623	Population Economics	
ECON 661	Issues in International Macroeconomics	
ECON 664	Issues in International Trade	
ECON 666	Issues in International Finance	
ECON 690	Topics in Economics	
ECON 695	Topics in Economic Data Analysis	
<b>Electives</b>		<b>6-14</b>
<i>Complete any Core econ course not used above or one of these courses:</i>		
ECON/ FINANCE 300	Introduction to Finance	
ECON/ HIST SCI 305	Development of Economic Thought	
ECON/A A E/ REAL EST/ URB R PL 306	The Real Estate Process	
ECON 309	Study Abroad in Intermediate Economics	
ECON 315	Data Visualization for Economists

**Total Credits** **30**

## REQUIREMENT FOR THE MATHEMATICAL EMPHASIS:

View as listView as grid

- **ECONOMICS: MATHEMATICAL EMPHASIS (P. 709)**

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all ECON and major courses
- 2.000 GPA on 15 upper-level major credits taken in residence<sup>2</sup>
- 15 credits in ECON, taken on the UW–Madison campus

## HONORS IN THE ECONOMICS MAJOR

To participate in Honors in the Economics Major, students must be declared in the Mathematical Emphasis option. For further information, see the Mathematical Emphasis requirements (p. 709) and consult your Economics undergraduate advisor.

## FOOTNOTES

<sup>1</sup> At least two core ECON courses must be taken in residence at UW–Madison, and not via transfer or a UW–Madison Study Abroad program.

<sup>2</sup> Intermediate and Advanced level ECON courses are Upper Level in the major.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Understand the fundamental concepts of economics and how those concepts apply to real world issues.
2. Construct and evaluate economic models, their assumptions, and conclusions.
3. Acquire a diverse set of skills and strategies in mathematical reasoning/statistical and computational techniques/deductive logic/problem solving.
4. Use mathematics/computational/statistical techniques to analyze real world situations and policies.
5. Use economic analysis to critically evaluate public policy proposals.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

#### Freshman

Fall	Credits Spring	Credits
Quantitative Reasoning A	4 ECON 101	4
Communication A	3 Ethnic Studies	3
Foreign Language	4 MATH 221	5
Physical Science Breadth	3 Foreign Language	4
	<b>14</b>	<b>16</b>

#### Sophomore

Fall	Credits Spring	Credits
ECON 102	4 ECON 301	4
Biological Science Breadth	3 ECON 310	4
Foreign Language	4 Humanities Breadth	4
Literature Breadth	3 Foreign Language	4
INTER-LS 210	1	
	<b>15</b>	<b>16</b>

#### Junior

Fall	Credits Spring	Credits
ECON 302	4 Econometrics (ECON 400 or 410)	4
Economics elective or core econ course	4 Humanities Breadth	3
Literature Breadth	3 Communication B	4
Science Breadth	4 Elective	3
	<b>15</b>	<b>14</b>

<b>Senior</b>			
<b>Fall</b>	<b>Credits Spring</b>		<b>Credits</b>
Core econ course	4 Elective		4
Core course	4 Elective		4
Elective	3 Elective		4
Elective	4 Elective		3
	<b>15</b>		<b>15</b>

**Total Credits 120**

## THREE-YEAR PLAN

### THREE-YEAR PLAN

This Sample Three-Year Plan is a tool to assist students and their advisor(s). Students should use it –along with their DARS report, the Degree Planner, and Course Search & Enroll tools – to make their own three-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests.

Three-year plans may vary considerably from student to student, depending on their individual preparation and circumstances. Students interested in graduating in three years should meet with an advisor as early as possible to discuss feasibility, appropriate course sequencing, post-graduation plans (careers, graduate school, etc.), and opportunities they might forgo in pursuit of a three-year graduation plan.

### DEPARTMENTAL EXPECTATIONS

A three-year degree is feasible for students with a variety of backgrounds and specific preparation. Students planning to graduate within three years with an Economics major should consult with an advisor (<https://econ.wisc.edu/undergraduate/academic-advising/>) as soon as possible, and should ideally be entering the University with a minimum of 30 advanced standing credits, and have satisfied the following requirements with course credit or via placement examination:

- ECON 101 Principles of Microeconomics
- Communication Part A
- Quantitative Reasoning Part A
- Placement into MATH 221 Calculus and Analytic Geometry 1
- 3 credits of Literature, 3 credits of Biological Science
- 3-4 units of foreign language

Summer coursework is not required to finish in three years, but students planning to finish in three years will find it easier if they take either an intermediate theory course during Summer One or an advanced elective during Summer Two.

<b>First Year</b>			
<b>Fall</b>	<b>Credits Spring</b>	<b>Credits Summer</b>	<b>Credits</b>
ECON 102	4 ECON 301	4 ECON 302	4
MATH 221	5 Communication B	4	
Literature Breadth	3 Biological Science Breadth	3	
Physical Science Breadth	3 Elective (Intermediate or Advanced level)	4	
	<b>15</b>	<b>15</b>	<b>4</b>

<b>Second Year</b>			
<b>Fall</b>	<b>Credits Spring</b>	<b>Credits Summer</b>	<b>Credits</b>
ECON 310	4 ECON 400 or 410	4 Summer Internship (optional)	0
Core Econ Course or elective	3 Physical Science Breadth	3	
Ethnic Studies/ Humanities Breadth	4 Humanities Breadth	4	
Elective (Intermediate or Advanced level)	4 Intermediate or Advanced COMP SCI, MATH, or STAT (if BS) or Elective (Intermediate or Advanced level) (if BA)	4	
	<b>15</b>	<b>15</b>	<b>0</b>

<b>Third Year</b>		
<b>Fall</b>	<b>Credits Spring</b>	<b>Credits</b>
Core econ Course	3 Electives (Intermediate or Advanced level)	12
Electives (Intermediate or Advanced level)	11	
	<b>14</b>	<b>12</b>

**Total Credits 90**

## ADVISING AND CAREERS

### ADVISING AND CAREERS ACADEMIC ADVISING

Academic advising (<https://econ.wisc.edu/undergraduate/find-academic-advising/>), along with general information about the undergraduate major and coursework, is available in Room 7238 of the Social Science Building. Find us on the campus map ([http://www.map.wisc.edu/?initObj=bdg\\_SocSc&z=41.33&x=-0.158401&y=-0.09157](http://www.map.wisc.edu/?initObj=bdg_SocSc&z=41.33&x=-0.158401&y=-0.09157)).

Email: [econadvise@ssc.wisc.edu](mailto:econadvise@ssc.wisc.edu)

### ECONOMICS CAREER DEVELOPMENT OFFICE

The Economics Career Development Office (<https://econ.wisc.edu/careers/>) (ECDO) provides career advising to help economics students explore career options and search for jobs and internships including reviewing application materials (cover letter and resume). Career advisors work with students to develop an individualized job/internship search strategy based on the student's background and career goals. Career advising is open to declared economics majors or anyone considering majoring in economics who would like economics-specific career advice. Set up an appointment (<https://econ.wisc.edu/careers/get-career-advice/>) or email your questions to [econcareers@ssc.wisc.edu](mailto:econcareers@ssc.wisc.edu)

## PREPARATION FOR PHD PROGRAMS IN ECONOMICS

Students interested in pursuing graduate study should pursue Option B (mathematical emphasis) and augment the standard curriculum with higher-level mathematics and statistics courses. These may include:

Code	Title	Credits
MATH/STAT 309	Introduction to Probability and Mathematical Statistics I	
MATH/STAT 310	Introduction to Probability and Mathematical Statistics II	
MATH 421	The Theory of Single Variable Calculus	
MATH/STAT 431	Introduction to the Theory of Probability	
MATH 521	Analysis I	
MATH 522	Analysis II	
MATH/ISYE/ OTM/STAT 632	Introduction to Stochastic Processes	

It is important to consult early in the second year with the undergraduate advisor and/or the faculty member who directs the undergraduate program to design a plan of coursework.

### DIRECTED STUDY

Directed Study (ECON 698, ECON 699) enables advanced students to pursue economic topics not covered in the regular course offerings. A student interested in Directed Study should prepare a research proposal and/or reading list; specific course requirements are arranged with an instructor who agrees to supervise the directed study project. Enrollment requires the consent of the instructor; a GPA of 3.00 or above in ECON; completion of the Intermediate economic theory courses (ECON 301 & ECON 302); at least one CORE ECON course.

Any undergraduate economics student considering a Directed Study should meet with an Undergraduate Academic Advising Economics advisor often for consultation.

### INTERNSHIPS

Students can earn one credit for approved internships appropriate to the study of economics under course ECON 228. Students must enroll for ECON 228 in the same semester/session in which the internship is granted. Students should work a minimum of 100 hours per term. Prerequisites are declaration in the major economics major; a major GPA of 2.200 or higher; completion of at least four ECON courses at UW-Madison; completion of at least one Intermediate Theory course (ECON 301 & ECON 302); and departmental approval.

### L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or

graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

## PEOPLE

### PEOPLE FACULTY

- Aizawa, Naoki, Associate Professor  
Labor Economics, Health Economics, Public Economics
- Barwick, Panle, Professor  
Industrial Organization, Applied Microeconomics, Environmental Econometrics
- Bernard, Benjamin, Assistant Professor  
Game Theory, Microeconomic Theory, Financial Economics
- Boerma, Job, Assistant Professor  
Macroeconomics, Public Finance
- Braxton, Carter, Assistant Professor  
Macroeconomics, Labor Economics, Consumer Finance
- Camboni, Matteo, Assistant Professor  
Microeconomic Theory, Economics of Organizations
- Chiang, Harold, Assistant Professor  
Econometrics
- Corbae, Dean, Professor  
Macroeconomics
- Coulibaly, Louphou, Assistant Professor  
International Finance and Macroeconomics, Monetary Economics
- Cox, Lydia, Assistant Professor  
International Trade and Macroeconomics
- Deneckere, Raymond, Professor  
Microeconomic Theory, Industrial Organization
- Engel, Charles, Professor  
International Economics, Macroeconomics
- Fu, Chao, Professor  
Labor Economics
- Gregory, Jesse, Associate Professor  
Labor Economics, Public Economics
- Agustin Gutierrez, Postdoctoral Fellow  
International trade, Macroeconomics, Labor Economics
- Hansen, Bruce, Professor

## Econometrics

- Hendricks, Kennan, Professor  
Industrial Organization
- Houde, Jean-Francois, Professor  
Industrial Organization
- Kang, Karam, Associate Professor  
Political Economy, Industrial Organization, Environmental Economics
- Kennan, John, Professor  
Labor Economics
- Kirpalani, Rishabh, Assistant Professor  
Macroeconomics, Public Finance, International Economics, Financial Economics
- Lentz, Rasmus, Professor  
Labor Economics, Macroeconomics, Microeconomics
- Magnolfi, Lorenzo, Assistant Professor  
Industrial Organization, Applied Microeconomics, Applied Econometrics
- Martellini, Paolo, Assistant Professor  
Macroeconomics, Labor Economics, Urban Economics
- Mommaerts, Corina, Assistant Professor  
Public Economics, Labor Economics
- O'Connell, Martin, Assistant Professor  
Public Economics, Industrial Organization
- Porter, Jack, Professor  
Econometrics
- Quint, Daniel, Associate Professor  
Microeconomic Theory, Industrial Organization
- Rojas-Ampuero, Fernanda, Assistant Professor  
Labor Economics
- Rostek, Marzena, Professor  
Microeconomic Theory, Market Design, Finance
- Ruhl, Kim, Professor  
International Economics
- Seshadri, Ananth, Professor  
Macroeconomics, Public Finance
- Shi, Xiaoxia, Professor  
Econometrics
- Smith, Jeffrey, Professor  
Labor Economics, Public Economics
- Smith, Lones, Professor  
Microeconomic Theory
- Sorensen, Alan, Professor  
Industrial Organization
- Sullivan, Christopher, Assistant Professor  
Industrial Organization, Applied Microeconomics
- Swanson, Ashley, Associate Professor  
Industrial Organization, Health Economics, Education Economics
- Taber, Christopher, Professor  
Labor Economics, Applied Econometrics, Public Economics
- Weretka, Marek, Associate Professor  
Economic Theory, Finance
- West, Kenneth, Professor  
Macroeconomics, Econometrics
- Williams, Noah, Professor  
Macroeconomics
- Wiswall, Matthew, Professor

Applied Microeconomics, Applied Econometrics, Labor Economics, Education and Demographic Economics

- Wright, Randall, Professor  
Macroeconomics, Finance
- Yata, Kohei, Assistant Professor  
Econometric Theory, Applied Econometrics

**AFFILIATED FACULTY**

- Chang, Briana  
Financial Intermediation, Information Frictions, Search and Matching Theory
- Chinn, Menzie
- Chung, Kevin  
Quantitative Marketing
- Montgomery, James  
Economic Sociology, Religion, General Social Theory, Demography and Ecology, Social Psychology and Microsociology
- Sarada  
Economics of Entrepreneurship and Innovation
- Schechter, Laura  
Development Economics, Behavioral and Experimental Economics, Risk Analysis
- Smeeding, Timothy  
Poverty, Intergenerational Mobility, Inequality, Wealth

**INSTRUCTIONAL STAFF**

- Alder, Simeon, Faculty Associate  
Macroeconomics, Growth and Development, Matching
- Chan, Stella, Lecturer
- Eudey, Gwen, Senior Lecturer  
Open Economy Macroeconomics
- Friedman, Matthew, Lecturer
- Glawtschew, Rebecca, Lecturer
- Hansen, David, Lecturer  
Development Economics and Labor Economics
- Hansen, Korinna, Senior Lecturer  
Applied Microeconomics, Health Economics
- Johnson, David, Senior Lecturer
- McKelvey, Christopher, Lecturer  
Development Economics
- Pac, Gregory, Senior Lecturer
- Rick, Steven, Senior Lecturer
- Trost, Steve, Lecturer

# ECONOMICS: MATHEMATICAL EMPHASIS

## REQUIREMENTS

### REQUIREMENTS FOR THE MATHEMATICAL EMPHASIS MATHEMATICS & STATISTICS

Code	Title	Credits
<b>Mathematics</b>		<b>15-16</b>
<i>Option 1—four courses:</i>		
MATH 221	Calculus and Analytic Geometry 1	
MATH 222	Calculus and Analytic Geometry 2	
MATH 234	Calculus--Functions of Several Variables	
MATH 320 or MATH 340	Linear Algebra and Differential Equations Elementary Matrix and Linear Algebra	
<i>Option 2—Honors sequence:</i>		
MATH 375	Topics in Multi-Variable Calculus and Linear Algebra	
MATH 376	Topics in Multi-Variable Calculus and Differential Equations	
<b>Statistics (1 course)</b>		<b>3</b>
ECON 310	Statistics: Measurement in Economics (Recommended)	
ECON 410	Introductory Econometrics	
MATH/STAT 431	Introduction to the Theory of Probability	
STAT/MATH 309	Introduction to Probability and Mathematical Statistics I	
STAT 311	Introduction to Theory and Methods of Mathematical Statistics I	
STAT 324	Introductory Applied Statistics for Engineers	
STAT 340	Data Science Modeling II	
<b>Total Credits</b>		<b>18-19</b>

## ECONOMICS

30 credits to include:

Code	Title	Credits
<b>Microeconomics</b>		<b>4-8</b>
<b>Macroeconomics (complete one):</b>		
ECON 101 & ECON 102	Principles of Microeconomics and Principles of Macroeconomics	
ECON 111	Principles of Economics--Accelerated Treatment	
<b>Intermediate Theory (complete one):</b>		<b>6-8</b>
ECON 301 & ECON 302	Intermediate Microeconomic Theory and Intermediate Macroeconomic Theory	

ECON 311 & ECON 312 Intermediate Microeconomic Theory - Advanced Treatment and Intermediate Macroeconomic Theory - Advanced Treatment (Honors Econ )

### Introductory Econometrics

ECON 410 Introductory Econometrics 4

### Three Core ECON courses: <sup>1</sup> 6-12

ECON 409	Study Abroad in Advanced Economics	
ECON 435	The Financial System	
ECON 441	Analytical Public Finance	
ECON 442	Macroeconomic Policy	
ECON 448	Human Resources and Economic Growth	
ECON 450	Wages and the Labor Market	
ECON 451	The Economic Approach to Human Behavior	
ECON 455	Behavioral Economics	
ECON 458	Industrial Structure and Competitive Strategy	
ECON 460	Economic Forecasting	
ECON 461	International Macroeconomics	
ECON 464	International Trade	
ECON 467	International Industrial Organizations	
ECON 468	Industrial Organization and Imperfect Competition	
ECON 475	Economics of Growth	
ECON/ FINANCE 503	Markets with Frictions	
ECON 521	Game Theory and Economic Analysis	
ECON 522	Law and Economics	
ECON/R M I 530	Insuring Life's Risks: Health, Aging, and Policy	
ECON/ POP HLTH/ PUB AFFR 548	The Economics of Health Care	
ECON 570	Fundamentals of Data Analytics for Economists	
ECON 580	Honors Tutorial in Research Project Design	
ECON 621	Markets and Models	
ECON 623	Population Economics	
ECON 661	Issues in International Macroeconomics	
ECON 664	Issues in International Trade	
ECON 666	Issues in International Finance	
ECON 690	Topics in Economics	
ECON 695	Topics in Economic Data Analysis	

### Electives 0-10

Complete any core ECON course (above) or one of these courses:

ECON/ FINANCE 300	Introduction to Finance
ECON/ HIST SCI 305	Development of Economic Thought
ECON/A A E/ REAL EST/ URB R PL 306	The Real Estate Process
ECON 309	Study Abroad in Intermediate Economics
ECON 315	Data Visualization for Economists
ECON/ FINANCE 320	Investment Theory
ECON 321	Sports Economics
ECON 330	Money and Banking
ECON/A A E/ ENVIR ST 343	Environmental Economics
ECON 355	The Economics of Growing-up and Getting Old
ECON 370	Economics of Poverty and Inequality
ECON/A A E 371	Energy, Resources and Economics
ECON 390	Contemporary Economic Issues
ECON/REAL EST/ URB R PL 420	Urban and Regional Economics
ECON/A A E 421	Economic Decision Analysis
ECON/ENVIR ST/ POLI SCI/ URB R PL 449	Government and Natural Resources
ECON/A A E/ INTL BUS 462	Latin American Economic Development
ECON 465	The American Economy to 1865
ECON/ HISTORY 466	The American Economy Since 1865
ECON/A A E 473	Economic Growth and Development in Southeast Asia
ECON/A A E 474	Economic Problems of Developing Areas
ECON/A A E 477	Agricultural and Economic Development in Africa
ECON/ PHILOS 524	Philosophy and Economics
ECON/A A E 526	Quantitative Methods in Agricultural and Applied Economics
ECON/A A E/ F&W ECOL 531	Natural Resource Economics
ECON/SOC 663	Population and Society
ECON/A A E/ ENVIR ST/ URB R PL 671	Energy Economics

**Total Credits****30**

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all major and ECON courses
- 2.000 GPA on 15 upper-level major courses taken in residence<sup>2</sup>
- 15 credits in ECON, taken on the UW–Madison campus

## HONORS IN THE MAJOR REQUIREMENTS TO EARN HONORS IN THE ECONOMICS MAJOR

To earn Honors in the Major in Economics, students must be declared in and satisfy the requirements for the Economics–Mathematical Emphasis Option (above), **and** satisfy the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA for all ECON and major courses
- Complete the following courses, taken for Honors, with grades of B or better in each:

Code	Title	Credits
ECON 311 & ECON 312	Intermediate Microeconomic Theory - Advanced Treatment and Intermediate Macroeconomic Theory - Advanced Treatment	
ECON 580	Honors Tutorial in Research Project Design	

### Select one of the following capstone experiences:

ECON 581	Honors Thesis
ECON 681 & ECON 682	Senior Honors Thesis and Senior Honors Thesis (Take for a total of 6 credits)

## FOOTNOTES

- <sup>1</sup> At least two core ECON courses must be taken in residence at UW–Madison, and not via transfer or a UW–Madison Study Abroad program.
- <sup>2</sup> Intermediate and Advanced level ECON courses are Upper Level in the major.

## ENGLISH

The English major teaches students to appreciate and use the English language and literature effectively for critical thinking, effective communication, citizenship, and career success. English majors build strong writing skills and engage in high-level critical and analytical thinking. They encounter enriching, enduring, experimental, and complex works of literature. And they grapple with perspectives far distant from their own, examining their deepest values. Instructors introduce students to a wide range of genres and cultural perspectives, and pay close attention to all aspects of student thinking and writing, from logic and evidence to originality and style. Fostering communication skills, stimulating creativity, developing cultural sensitivity, and sharpening analytical abilities, the English major prepares students for a broad range of careers.

English majors choose one of three tracks: the general major (which emphasizes literary and cultural studies), creative writing, or language

and linguistics. All majors take a core curriculum that introduces them to a range of approaches to literature and language, including courses in literary and cultural history. Students who opt for the general major build on core courses with intermediate and advanced classes that focus on texts from across a range of periods and places, investigating literature and culture using multiple methods and approaches. Students pursuing the emphasis on creative writing take the core curriculum with a sequence of creative writing workshops. Students wishing to emphasize language and linguistics choose options in grammar, the history of the English language, phonology, and language acquisition.

## TEACHING MAJOR

Those who wish to prepare for teaching careers at the secondary level should complete the undergraduate English major and then apply for a teaching certificate or graduate education program. For further information, students should make an appointment with the undergraduate advisor in English or the graduate advisor in curriculum and instruction.

### DEGREES/MAJORS/CERTIFICATES

## DEGREES/MAJORS/ CERTIFICATES

- English, BA (p. 720)
- English, BS (p. 728)
- Teaching English to Speakers of Other Languages, Certificate (p. 736)

### PEOPLE

## PEOPLE

Professors: Auerbach, Barry, Bearden, Begam, Bernard-Donals, Bow, Britland, Castronovo, A. Dharwadker, V. Dharwadker, Foys, Guyer, Hill, Johnson, Kercheval, Nguyen, Olaniyan, Ortiz-Robles, Purnell, Raimy, Sherrard-Johnson, Shreve, Wanner, M. Young, Yu, Zimmerman

Associate Professors: Allewaert, Calhoun, Cooper, Druschke, Fawaz, Neyrat, Olson, Samuels, Trotter, Vareschi, Wells, Zwick

Assistant Professors: Amine, Cho, Egoro, Fecu, Grunewald, Huang, Lagman

### RESOURCES AND SCHOLARSHIPS

## RESOURCES AND SCHOLARSHIPS WRITING CENTER

The Writing Center (<https://writing.wisc.edu>), located in 6171 Helen C. White Hall, offers free individualized help with writing. Students are welcome to come to the center for help with writing assignments in almost any course. In half-hour tutorials, instructors help students clarify and organize ideas and offer advice about revising a draft. The center also offers short-term classes on various facets of writing, including classes on writing about literature, writing research papers, writing book reviews,

writing essay exams, and on many other topics. The Writing Center also has a computer lab.

To make an appointment, students should call 608-263-1992 or stop by when the center is open. During busy times of the semester, the center often is booked several days in advance, so students should plan ahead. For complete information about the center, including hours, schedules for writing assistance in the Multicultural Student Center and residence halls, extensive handouts about writing, and information about the Undergraduate Writing Fellows program, see the center website (<https://writing.wisc.edu>).

## ENGLISH, BA

The English major teaches students to appreciate and use the English language and literature effectively for critical thinking, effective communication, citizenship, and career success. English majors build strong writing skills and engage in high-level critical and analytical thinking. They encounter enriching, enduring, experimental, and complex works of literature. And they grapple with perspectives far distant from their own, examining their deepest values. Instructors introduce students to a wide range of genres and cultural perspectives, and pay close attention to all aspects of student thinking and writing, from logic and evidence to originality and style. Fostering communication skills, stimulating creativity, developing cultural sensitivity, and sharpening analytical abilities, the English major prepares students for a broad range of careers.

English majors choose one of three tracks: the general major (which emphasizes literary and cultural studies), creative writing, or language and linguistics. All majors take a core curriculum that introduces them to a range of approaches to literature and language, including courses in literary and cultural history. Students who opt for the general major build on core courses with intermediate and advanced classes that focus on texts from across a range of periods and places, investigating literature and culture using multiple methods and approaches. Students pursuing the emphasis on creative writing take the core curriculum with a sequence of creative writing workshops. Students wishing to emphasize language and linguistics choose options in grammar, the history of the English language, phonology, and language acquisition.

Those who wish to prepare for teaching careers at the secondary level should complete the undergraduate English major and then apply for a teaching certificate or graduate education program. For further information, students should make an appointment with the undergraduate advisor in English or the graduate advisor in curriculum and instruction.

### HOW TO GET IN

## HOW TO GET IN

There are no admission requirements for the major. Students interested in declaring the major should schedule an appointment with the undergraduate academic advisor listed in the Contact Box on the right sidebar of this page.

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

- |                   |  |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> <li>• Breadth–Humanities/Literature/Arts: 6 credits</li> <li>• Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth–Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul> |
|-------------------|--|

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

### COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

#### BACHELOR OF ARTS DEGREE REQUIREMENTS

**Mathematics** Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.

- |          |  |
|----------|--|
| Language | <ul style="list-style-type: none"> <li>• Complete the fourth unit of a language other than English; OR</li> <li>• Complete the third unit of a language and the second unit of an additional language other than English.</li> </ul> |
|----------|--|

- |            |  |
|------------|--|
| LS Breadth | <ul style="list-style-type: none"> <li>• 12 credits of Humanities, which must include 6 credits of literature; and</li> <li>• 12 credits of Social Science; and</li> <li>• 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.</li> </ul> |
|------------|--|

Liberal Arts and Science Coursework	Complete at least 108 credits.
Depth of Intermediate/Advanced work	Complete at least 60 credits at the intermediate or advanced level.
Major	Declare and complete at least one major.
Total Credits	Complete at least 120 credits.
UW-Madison Experience	<ul style="list-style-type: none"> <li>• 30 credits in residence, overall; and</li> <li>• 30 credits in residence after the 86th credit.</li> </ul>
Quality of Work	<ul style="list-style-type: none"> <li>• 2,000 in all coursework at UW–Madison</li> <li>• 2,000 in Intermediate/Advanced level coursework at UW–Madison</li> </ul>

### NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

### REQUIREMENTS FOR THE MAJOR

30 credits in intermediate- and advanced-level ENGL courses numbered 204 and higher, excluding ENGL 207 and ENGL 236.

#### ENGLISH (LITERATURE)

Code	Title	Credits
<b>Survey of Literature</b>		
ENGL 241	Literature and Culture I: to the 18th Century	3
ENGL 242	Literature and Culture II: from the 18th Century to the Present	3
<b>American Literature (1 course)</b>		<b>3</b>

ENGL 438	Topic in Eighteenth-Century Literature and Culture
ENGL/ MEDIEVAL 520	Old English
ENGL/ MEDIEVAL 521	Advanced Old English Literature
ENGL 543	Discourses of Disability, Antiquity to 1800
ENGL 546	Topic in Travel Writing before 1800
<b>Seminar</b>	
ENGL 245	Seminar in the Major 3
<b>Language or Composition &amp; Rhetoric (1 course) 3</b>	
ENGL 204	Studies in Writing, Rhetoric, and Literacy
ENGL 214	The English Language
ENGL 304	History and Theory of Rhetoric and Writing Studies
ENGL 400	Advanced Composition
ENGL/ GEN&WS 401	Race, Sex, and Texts (How to do things with writing)
ENGL 403	Seminar on Tutoring Writing Across the Curriculum
ENGL 505	Topics in Composition and Rhetoric
<b>Electives 9</b>	
any course from ENGL 204–699, excluding ENGL 207 and ENGL 236	

**Total Credits 30**

## NAMED OPTIONS

Students may complete a named option, instead of the traditional English major. These are formally printed on the transcript.

View as listView as grid

- **ENGLISH: EMPHASIS ON CREATIVE WRITING (P. 725)**
- **ENGLISH: ENGLISH LANGUAGE AND LINGUISTICS (P. 726)**

## RESIDENCE AND QUALITY OF WORK

2.000 GPA in all ENGL courses and all major courses

2.000 GPA on at least 15 credits of upper-level work in the major, taken in residence<sup>1</sup>

15 credits in ENGL, taken on the UW–Madison campus

<sup>1</sup> Intermediate and Advanced level ENGL courses are considered upper level in the major.

## HONORS IN THE MAJOR

Students may declare Honors in the English major with permission of the major advisor. All English majors, including those declared in either named option, are eligible to complete Honors in the major.

## HONORS IN THE ENGLISH MAJOR REQUIREMENTS

To earn Honors in the Major in English, students must satisfy both the requirements for the major and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA in all ENGL courses and all major courses
- Complete 12 credits, taken for Honors, with a grade of B or better to include:
  - ENGL 245 and
  - Either:
    - a two-semester Senior Honors Thesis in ENGL 681 and ENGL 682 for a total of 6 credits, or
    - a senior Honors project that includes ENGL 680 and one other 3-credit I/A ENGL course taken for Honors OR
    - ENGL 695 and one other ENGL Creative Writing Workshop taken for Honors

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. (History of literature and language) To demonstrate knowledge of major forms, techniques, social conditions, values, and genres that have shaped the history of English literature and language.
2. (Critical thinking) To be able to discern and integrate divergent and contradictory perspectives, identify and question assumptions, and assess evidence and methods.
3. (Creativity) To generate original ideas and texts, experimenting and taking risks, solving problems, and answering questions in a range of genres and media.
4. (Critical writing) To write original, coherent, and compelling arguments that push beyond summary to analysis and independent and critical thinking in clear prose that meets expectations for grammatical correctness.

5. (Citizenship) To develop empathy by learning about the experiences of others, and to gain an understanding of how we participate in communities (including the classroom) and the public sphere.

## FOUR-YEAR PLAN

### SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it—along with their DARS report, the Degree Planner, and Course Search & Enroll tools—to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own four-year plan several times during college.

#### First Year

Fall	Credits Spring	Credits
Communication A (complete during your first year)	3 Ethnic Studies	3
Quantitative Reasoning A (complete during your first year)	3 Foreign Language (if required)	4
Foreign Language	4 Social Science Breadth	3
Social Science Breadth	4 Physical Science Breadth	3
	Elective	3

Elective	3 Elective	3
<b>15</b>		<b>15</b>

**Total Credits 120**

## FOOTNOTES

<sup>1</sup> Students must declare a major before 86 credits.

<sup>2</sup> See your major advisor if you want to declare English/Creative Writing, Honors in the English major, or plan to study abroad.

Please refer to the Requirements tab in Guide for additional College of Letters & Science Breadth and Degree Requirements as well as Residence and Quality of Work requirements for the major.

## THREE-YEAR PLAN

### SAMPLE THREE-YEAR PLAN

This Sample Three-Year Plan is a tool to assist students and their advisor(s). Students should use it –along with their DARS report, the Degree Planner, and Course Search & Enroll tools – to make their own three-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests.

Three-year plans may vary considerably from student to student, depending on their individual preparation and circumstances. Students interested in graduating in three years should meet with an advisor as early as possible to discuss feasibility, appropriate course sequencing, post-graduation plans (careers, graduate school, etc.), and opportunities they might forgo in pursuit of a three-year graduation plan.

### DEPARTMENTAL EXPECTATIONS

Students planning to graduate within three years with an English major should enter the University with a minimum of 30 advanced standing credits, and have satisfied the following requirements with course credit or via placement examination:

- Communication Part A
- Quantitative Reasoning Part A
- 18 combined credits of Humanities, Social Science, and Natural Science coursework
- 3-4 units of foreign language

#### First Year

Fall	Credits Spring	Credits
Ethnic Studies	3 ENGL 201 or 207 (meets Communication B)	3
Literature Breadth	3 ENGL 241 or 242	3
Science Breadth	3 Physical Science Breadth	3
Social Science Breadth	3 Social Science Breadth	3
Foreign Language (if interested in retroactive credit or to reach 4 units) or Elective	3 Elective	3
<b>15</b>		<b>15</b>

#### Second Year

Fall	Credits Spring	Credits
ENGL 241 or 242	3 Pre-1800 Literature course	3
ENGL 245	3 ENGL Elective	3
English Language or Composition & Rhetoric course	3 Social Science Breadth or Elective (Intermediate or Advanced level)	3
Quantitative Reasoning B (if BA) or Elective (if BS)	3 Intermediate or Advanced COMP SCI, MATH, or STAT (if BS) or Elective (Intermediate or Advanced level) (if BA)	3
Social Science Breadth	3 Elective (Intermediate or Advanced level)	3
<b>15</b>		<b>15</b>

#### Third Year

Fall	Credits Spring	Credits
American Literature course	3 ENGL Elective	3
Pre-1800 Literature course	3 ENGL Elective	3
Biological Science Breadth	3 Intermediate or Advanced COMP SCI, MATH, or STAT (if BS) or Elective (Intermediate or Advanced level) (if BA)	3
Science Breadth or Elective	3 Electives (Intermediate or Advanced level)	6
Elective (Intermediate or Advanced level)	3	
<b>15</b>		<b>15</b>

**Total Credits 90**

## ADVISING AND CAREERS

### ADVISING AND CAREERS ACADEMIC ADVISING

The English department supports majors and prospective majors by offering a comprehensive advising team based on your personal interests. You will find us on the 7th floor of the Helen C. White Building (<https://map.wisc.edu/s/6nfnztsa/>) next to Memorial Union. Our team is here to support students holistically as they navigate their time at UW. To meet our advisors, visit our undergraduate advising page (<https://english.wisc.edu/undergraduate/undergraduate-advising/>) for more information, including how to schedule an appointment.

### CAREERS AND INTERNSHIP ADVISOR

#### Career & Internship Coordinator

[careers@english.wisc.edu](mailto:careers@english.wisc.edu) (Career & Internship Coordinator [careers@english.wisc.edu](mailto:careers@english.wisc.edu))

7195E Helen C. White, 600 North Park Street

English Career Advising (<https://english.wisc.edu/undergraduate/undergraduate-advising/>)

The English Department encourages our majors to begin working on their career exploration and preparation soon after declaring the major. Our

career advisor also partners with SuccessWorks at the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to their success.

## L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

writing essay exams, and on many other topics. The Writing Center also has a computer lab.

To make an appointment, students should call 608-263-1992 or stop by when the center is open. During busy times of the semester, the center often is booked several days in advance, so students should plan ahead. For complete information about the center, including hours, schedules for writing assistance in the Multicultural Student Center and residence halls, extensive handouts about writing, and information about the Undergraduate Writing Fellows program, see the center website (<https://writing.wisc.edu/>).

## SCHOLARSHIPS AND WRITING PRIZES

The English Department is proud to offer numerous forms of support for its undergraduate students and to recognize exceptional accomplishments in various forms of academic and creative work. You can find information about scholarships, prizes, and grants specifically designated for declared English majors on our website (<https://english.wisc.edu/undergraduate/apply-for-scholarships/>). Typically, these prizes and scholarships are awarded in the spring semester. Applications need to be submitted online, via the Wisconsin Scholarship Hub (WISH) (<https://wisc.academicworks.com/>).

# ENGLISH: EMPHASIS ON CREATIVE WRITING

## REQUIREMENTS

## REQUIREMENTS

### ENGLISH, CREATIVE WRITING OPTION

NOTE: This is a formal Option and will appear on the transcript.

L&S undergraduates with a particular interest in creative writing may combine a background in literature with a concentration of courses in fiction or poetry writing. The major requirements are distributed as follows:

Code	Title	Credits
<b>Survey of Literature</b>		
ENGL 241	Literature and Culture I: to the 18th Century	3
ENGL 242	Literature and Culture II: from the 18th Century to the Present	3
<b>American Literature (1 course)</b>		
ENGL/ LITTRANS 223	Vladimir Nabokov: Russian and American Writings	
ENGL 243	American Literary Cultures	
ENGL/ AMER IND 246	Literature by American Indian Women	
ENGL/ GEN&WS 248	Women in Ethnic American Literature	
ENGL/ ASIAN AM 270	A Survey of Asian American Literature	
ENGL 357	Major American Poets	
ENGL 361	Modern and Contemporary American Literature	

## PEOPLE

## PEOPLE

Please visit the English Department website (<https://english.wisc.edu/teaching-faculty/>) for a complete list of faculty, instructional, and academic staff.

## RESOURCES AND SCHOLARSHIPS

## RESOURCES AND SCHOLARSHIPS WRITING CENTER

The Writing Center (<https://writing.wisc.edu/>), located in 6171 Helen C. White Hall, offers free individualized help with writing. Students are welcome to come to the center for help with writing assignments in almost any course. In half-hour tutorials, instructors help students clarify and organize ideas and offer advice about revising a draft. The center also offers short-term classes on various facets of writing, including classes on writing about literature, writing research papers, writing book reviews,

ENGL/ CHICLA 368	Chicana/o and Latina/o Literatures	
ENGL 374	African and African Diaspora Literature and Culture

ENGL 699	Directed Study
<b>Total Credits</b>	<b>30</b>

## ENGLISH, BS

The English major teaches students to appreciate and use the English language and literature effectively for critical thinking, effective communication, citizenship, and career success. English majors build strong writing skills and engage in high-level critical and analytical thinking. They encounter enriching, enduring, experimental, and complex works of literature. And they grapple with perspectives far distant from their own, examining their deepest values. Instructors introduce students to a wide range of genres and cultural perspectives, and pay close attention to all aspects of student thinking and writing, from logic and evidence to originality and style. Fostering communication skills, stimulating creativity, developing cultural sensitivity, and sharpening analytical abilities, the English major prepares students for a broad range of careers.

English majors choose one of three tracks: the general major (which emphasizes literary and cultural studies), creative writing, or language and linguistics. All majors take a core curriculum that introduces them to a range of approaches to literature and language, including courses in literary and cultural history. Students who opt for the general major build on core courses with intermediate and advanced classes that focus on texts from across a range of periods and places, investigating literature and culture using multiple methods and approaches. Students pursuing the emphasis on creative writing take the core curriculum with a sequence of creative writing workshops. Students wishing to emphasize language and linguistics choose options in grammar, the history of the English language, phonology, and language acquisition.

## TEACHING MAJOR

Those who wish to prepare for teaching careers at the secondary level should complete the undergraduate English major and then apply for a teaching certificate or graduate education program. For further information, students should make an appointment with the undergraduate advisor in English or the graduate advisor in curriculum and instruction.

## HOW TO GET IN

## HOW TO GET IN

There are no admission requirements for the major. Students interested in declaring the major should schedule an appointment with the undergraduate academic advisor listed in the Contact Box on the right sidebar of this page.

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core

of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

General Education	• Breadth–Humanities/Literature/Arts: 6 credits
	• Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
	• Breadth–Social Studies: 3 credits
	• Communication Part A Part B *
	• Ethnic Studies *
	• Quantitative Reasoning Part A Part B *

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

### BACHELOR OF SCIENCE DEGREE REQUIREMENTS

**Mathematics** Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.

**Language** Complete the third unit of a language other than English.

**LS Breadth** Complete:

- 12 credits of Humanities, which must include at least 6 credits of Literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.

**Liberal Arts and Science Coursework** Complete at least 108 credits.

**Depth of Intermediate/Advanced Coursework** Complete at least 60 credits at the Intermediate or Advanced level.

**Major** Declare and complete at least one major.

**Total Credits** Complete at least 120 credits.

<b>UW–Madison Experience</b>	Complete both:
	• 30 credits in residence, overall, and
	• 30 credits in residence after the 86th credit.
<b>Quality of Work</b>	• 2.000 in all coursework at UW–Madison
	• 2.000 in Intermediate/Advanced level coursework at UW–Madison

## NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

30 credits in intermediate- and advanced-level ENGL courses numbered 204 and higher, excluding ENGL 207 and ENGL 236.

### ENGLISH (LITERATURE)

Code	Title	Credits
<b>Survey of Literature</b>		
ENGL 241	Literature and Culture I: to the 18th Century	3
ENGL 242	Literature and Culture II: from the 18th Century to the Present	3

ENGL/ GEN&WS 401	Race, Sex, and Texts (How to do things with writing)
ENGL 403	Seminar on Tutoring Writing Across the Curriculum
ENGL 505	Topics in Composition and Rhetoric
<b>Electives 9</b>	
any course from ENGL 204-699, excluding ENGL 207 and ENGL 236	
<b>Total Credits 30</b>	

## NAMED OPTIONS

Students may complete a named option, instead of the traditional English major. These are formally printed on the transcript.

View as listView as grid

- **ENGLISH: EMPHASIS ON CREATIVE WRITING (P. 725)**
- **ENGLISH: ENGLISH LANGUAGE AND LINGUISTICS (P. 726)**

## RESIDENCE AND QUALITY OF WORK

2.000 GPA in all ENGL courses and all major courses

2.000 GPA on at least 15 credits of upper-level work in the major, taken in residence<sup>1</sup>

15 credits in ENGL, taken on the UW-Madison campus

<sup>1</sup> Intermediate and Advanced level ENGL courses are considered upper level in the major.

## HONORS IN THE MAJOR

Students may declare Honors in the English major with permission of the major advisor. All English majors, including those declared in either named option, are eligible to complete Honors in the major.

## HONORS IN THE ENGLISH MAJOR REQUIREMENTS

To earn Honors in the Major in English, students must satisfy both the requirements for the major and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA in all ENGL courses and all major courses
- Complete 12 credits, taken for Honors, with a grade of B or better to include:
  - ENGL 245 and
  - Either:
    - a two-semester Senior Honors Thesis in ENGL 681 and ENGL 682 for a total of 6 credits, or
    - a senior Honors project that includes ENGL 680 and one other 3-credit I/A ENGL course taken for Honors OR

- ENGL 695 and one other ENGL Creative Writing Workshop taken for Honors

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. (History of literature and language) To demonstrate knowledge of major forms, techniques, social conditions, values, and genres that have shaped the history of English literature and language.
2. (Critical thinking) To be able to discern and integrate divergent and contradictory perspectives, identify and question assumptions, and assess evidence and methods.
3. (Creativity) To generate original ideas and texts, experimenting and taking risks, solving problems, and answering questions in a range of genres and media.
4. (Critical writing) To write original, coherent, and compelling arguments that push beyond summary to analysis and independent and critical thinking in clear prose that meets expectations for grammatical correctness.
5. (Citizenship) To develop empathy by learning about the experiences of others, and to gain an understanding of how we participate in communities (including the classroom) and the public sphere.

## FOUR-YEAR PLAN

### SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it—along with their DARS report, the Degree Planner, and Course Search & Enroll tools—to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own four-year plan several times during college.

#### First Year

Fall	Credits Spring	Credits
Communication A (complete during your first year)	3 Ethnic Studies	3
Quantitative Reasoning A (complete during your first year)	3 Foreign Language (if required)	4
Foreign Language	4 Social Science Breadth	3
Social Science Breadth	4 Physical Science Breadth Elective	3 3
	<b>14</b>	<b>16</b>

#### Second Year

Elective	3 Elective	3
Elective	3 Elective	3
Elective	3 Elective	3
	<b>15</b>	<b>15</b>

**Total Credits 120**

### FOOTNOTES

<sup>1</sup> Students must declare a major before 86 credits.

<sup>2</sup> See your major advisor if you want to declare English/Creative Writing, Honors in the English major, or plan to study abroad.

Please refer to the Requirements tab in Guide for additional College of Letters & Science Breadth and Degree Requirements as well as Residence and Quality of Work requirements for the major.

## THREE-YEAR PLAN

### SAMPLE THREE-YEAR PLAN

This Sample Three-Year Plan is a tool to assist students and their advisor(s). Students should use it –along with their DARS report, the Degree Planner, and Course Search & Enroll tools – to make their own three-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests.

Three-year plans may vary considerably from student to student, depending on their individual preparation and circumstances. Students interested in graduating in three years should meet with an advisor as early as possible to discuss feasibility, appropriate course sequencing, post-graduation plans (careers, graduate school, etc.), and opportunities they might forgo in pursuit of a three-year graduation plan.

### DEPARTMENTAL EXPECTATIONS

Students planning to graduate within three years with an English major should enter the University with a minimum of 30 advanced standing credits, and have satisfied the following requirements with course credit or via placement examination:

- Communication Part A
- Quantitative Reasoning Part A
- 18 combined credits of Humanities, Social Science, and Natural Science coursework
- 3-4 units of foreign language

#### First Year

Fall	Credits Spring	Credits
Ethnic Studies	3 ENGL 201 or 207 (meets Communication B)	3
Literature Breadth	3 ENGL 241 or 242	3
Science Breadth	3 Physical Science Breadth	3
Social Science Breadth	3 Social Science Breadth	3
Foreign Language (if interested in retroactive credit or to reach 4 units) or Elective	3 Elective	3
<b>15</b>		<b>15</b>

#### Second Year

Fall	Credits Spring	Credits
ENGL 241 or 242	3 Pre-1800 Literature course	3

Biological Science Breadth	3 Intermediate or Advanced COMP SCI, MATH, or STAT (if BS) or Elective (Intermediate or Advanced level) (if BA)	3
Science Breadth or Elective	3 Electives (Intermediate or Advanced level)	6
Elective (Intermediate or Advanced level)	3	
<b>15</b>		<b>15</b>
<b>Total Credits 90</b>		

## ADVISING AND CAREERS

### ADVISING AND CAREERS ACADEMIC ADVISING

The English department supports majors and prospective majors by offering a comprehensive advising team based on your personal interests. You will find us on the 7th floor of the Helen C. White Building (<https://map.wisc.edu/s/6nfnztsa/>) next to Memorial Union. Our team is here to support students holistically as they navigate their time at UW. To meet our advisors, visit our undergraduate advising page (<https://english.wisc.edu/undergraduate/undergraduate-advising/>) for more information, including how to schedule an appointment.

### CAREERS AND INTERNSHIP ADVISOR

#### Career & Internship Coordinator

[careers@english.wisc.edu](mailto:careers@english.wisc.edu) (Career & Internship Coordinator  
[careers@english.wisc.edu](mailto:careers@english.wisc.edu))  
7195E Helen C. White, 600 North Park Street  
English Career Advising (<https://english.wisc.edu/undergraduate/undergraduate-advising/>)

The English Department encourages our majors to begin working on their career exploration and preparation soon after declaring the major. Our career advisor also partners with SuccessWorks at the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to their success.

### L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

## PEOPLE

### PEOPLE

Professors: Auerbach, Barry, Bearden, Begam, Bernard-Donals, Bow, Britland, Castronovo, A. Dharwadker, V. Dharwadker, Foy, Guyer, Hill, Johnson, Kercheval, Nguyen, Olaniyan, Ortiz-Robles, Purnell, Raimy, Sherrard-Johnson, Shreve, Wanner, M. Young, Yu, Zimmerman

Associate Professors: Allewaert, Calhoun, Cooper, Druschke, Fawaz, Neyrat, Olson, Samuels, Trotter, Vareschi, Wells, Zweck

Assistant Professors: Amine, Cho, Egoro, Fecu, Grunewald, Huang, Lagman

## RESOURCES AND SCHOLARSHIPS

### RESOURCES AND SCHOLARSHIPS WRITING CENTER

The Writing Center (<https://writing.wisc.edu/>), located in 6171 Helen C. White Hall, offers free individualized help with writing. Students are welcome to come to the center for help with writing assignments in almost any course. In half-hour tutorials, instructors help students clarify and organize ideas and offer advice about revising a draft. The center also offers short-term classes on various facets of writing, including classes on writing about literature, writing research papers, writing book reviews, writing essay exams, and on many other topics. The Writing Center also has a computer lab.

To make an appointment, students should call 608-263-1992 or stop by when the center is open. During busy times of the semester, the center often is booked several days in advance, so students should plan ahead. For complete information about the center, including hours, schedules for writing assistance in the Multicultural Student Center and residence halls, extensive handouts about writing, and information about the

Undergraduate Writing Fellows program, see the center website (<https://writing.wisc.edu/>).

## ENGLISH: EMPHASIS ON CREATIVE WRITING

### REQUIREMENTS

### REQUIREMENTS

#### ENGLISH, CREATIVE WRITING OPTION

NOTE: This is a formal Option and will appear on the transcript.

L&S undergraduates with a particular interest in creative writing may combine a background in literature with a concentration of courses in fiction or poetry writing. The major requirements are distributed as follows:

Code	Title	Credits
<b>Survey of Literature</b>		
ENGL 241	Literature and Culture I: to the 18th Century	3
ENGL 242	Literature and Culture II: from the 18th Century to the Present	3
<b>American Literature (1 course)</b>		<b>3</b>
ENGL/ LITTRANS 223	Vladimir Nabokov: Russian and American Writings	
ENGL 243	American Literary Cultures	
ENGL/ AMER IND 246	Literature by American Indian Women	
ENGL/ GEN&WS 248	Women in Ethnic American Literature	
ENGL/ ASIAN AM 270	A Survey of Asian American Literature	
ENGL 357	Major American Poets	
ENGL 361	Modern and Contemporary American Literature	
ENGL/ CHICLA 368	Chicana/o and Latina/o Literatures	
ENGL 374	African and African Diaspora Literature and Culture	
ENGL 455	A Study of an Outstanding Figure or Figures in American Literature	
ENGL 456	Topic in Nineteenth-Century American Literature and Culture	
ENGL 457	Topic in American Literature and Culture since 1900	
ENGL 458	Major American Writer or Writers	
ENGL 459	Three American Novelists	
ENGL 461	Topics in Ethnic and Multicultural Literature	
ENGL/ASIAN AM/ GEN&WS 463	Race and Sexuality in American Literature	
ENGL/ASIAN AM/ GEN&WS 464	Asian American Women Writers	

ENGL/ ASIAN AM 465	Asian American Poetry
ENGL 474	Topic in Contemporary Literature
ENGL/ GEN&WS 545	Feminist Theory and Women's Writing in English
ENGL/ JEWISH 593	Literature of Jewish Identity in America
ENGL/ AFROAMER 672	Selected Topics in Afro-American Literature

**Seminar (1 course)**

ENGL 245	Seminar in the Major	3
----------	----------------------	---

**Language or Composition Rhetoric (1 course) 3**

ENGL 204	Studies in Writing, Rhetoric, and Literacy
ENGL 214	The English Language
ENGL 304	History and Theory of Rhetoric and Writing Studies
ENGL 400	Advanced Composition
ENGL 403	Seminar on Tutoring Writing Across the Curriculum
ENGL 505	Topics in Composition and Rhetoric

**Creative Writing Workshops (3 courses) <sup>2</sup> 9**

ENGL 307	Creative Writing: Fiction and Poetry Workshop
ENGL 407	Creative Writing: Nonfiction Workshop
ENGL 408	Creative Writing: Fiction Workshop
ENGL 409	Creative Writing: Poetry Workshop

## TEACHING ENGLISH TO SPEAKERS OF OTHER LANGUAGES, CERTIFICATE

A certificate in teaching English to speakers of other languages (TESOL) is available to undergraduate students who wish to teach English as a foreign or second language, normally in positions abroad. Native English speakers must have the equivalent of four college-level semesters of one language, including its spoken form. For non-native English speakers, English is the foreign language. Non-native English speakers must have a score of at least 50 on the Test of Spoken English (TSE) or SPEAK and or 26 on the iBT speaking section and a TOEFL score of 100 on the iBT or 600 on the paper version. A score of 84 on the MELAB or 7 on the IELTS can be substituted for the TOEFL. Students must maintain a GPA of 3.000 based on all courses except for the TESOL Workshops, which are graded pass/fail.

### HOW TO GET IN

#### HOW TO GET IN

Fill out the online application and submit to the ESL office. Students should apply as early as possible (after the sophomore year if they are undergraduates) to allow enough time to complete the requirements.

Download the **Undergraduate Application**.

Academic requirements for the program are:

**For Undergraduates:** Enrollment in any one of the required certificate courses and a degree program at UW–Madison.

Native English speakers must show completion of four college-level semesters of one language (prior to or completed concurrently with certificate coursework).

Nonnative English speakers are required to show English language proficiency in the following ways:

- A minimum score of 50 on TSE or SPEAK or an iBy score of 26 on the speaking section of the TOEFL
- A minimum score of 100 on the TOEFL iBT or 600 on the paper-based version of the TOEFL or 7 on the IELTS (International English Language Testing System) can be substituted for the TOEFL.

### REQUIREMENTS

#### REQUIREMENTS FOR THE CERTIFICATE

**15 credits of course work include:**

Code	Title	Credits
Foundation Courses		
ENGL 314	Structure of English	3
ENGL 415	Introduction to TESOL Methods	3
Second Language Acquisition and Teaching Courses		
ENGL 318	Second Language Acquisition	3

ENGL 515	Techniques and Materials for TESOL	3
Students must take 3 credits of TESOL Workshops.		3
ENGL 613	TESOL: Pedagogical Grammar I	
ENGL 614	TESOL: Pedagogical Grammar II	
ENGL 615	TESOL: Teaching Listening and Speaking	
ENGL 616	TESOL: Teaching of Reading	
ENGL 617	TESOL: Teaching of Writing	
ENGL 618	TESOL: Teaching Pronunciation	

**Total Credits** **15**

## RESIDENCE AND QUALITY OF WORK

- Minimum 3.000 GPA in all courses approved for the certificate
- At least 8 certificate credits must be completed in residence

## UNDERGRADUATE/SPECIAL STUDENT CERTIFICATES

This certificate may be completed within the context of an undergraduate degree or as a Special student after an undergraduate degree has been awarded from any institution. The certificate may be completed in its entirety while enrolled as a Special student. Candidates are encouraged to contact the certificate coordinator to discuss course enrollment and the sequencing of certificate requirements.

### LEARNING OUTCOMES

## LEARNING OUTCOMES

1. Demonstrate knowledge in the historical trends in the field, the theoretical underpinnings and the role of English in society and as an international language.
2. Become familiar with the sound and grammatical systems of English.
3. Understand and apply basic principles in the teaching of reading, writing, listening and speaking.
4. Understand the principles of second language acquisition.
5. Construct and execute well-crafted lesson plans.

### ADVISING AND CAREERS

## ADVISING AND CAREERS

Undergraduate and graduate students who are interested in the TESOL Certificate Program can reach out to asktesol@english.wisc.edu for general advising issues.

For current certificate students, please email Joseph Nosek, TESOL Program Advisor, at joseph.nosek@wisc.edu or Vivian Ye, TESOL Program Coordinator, at jye83@wisc.edu.

## L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and

other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

### PEOPLE

## PEOPLE

Joseph Nosek (ESL Director, TESOL Certificate Advisor)

Andrea Poulos (ENG 515 Instructor)

Juliet Huynh (ENG 313/318 Instructor)

## ENVIRONMENTAL STUDIES

### DEGREES/MAJORS/CERTIFICATES

- Environmental Studies Major (p. 737)

## ENVIRONMENTAL STUDIES MAJOR

## WHY CHOOSE AN ENVIRONMENTAL STUDIES MAJOR?

The Gaylord Nelson Institute for Environmental Studies is one of the world's leading institutions for environmental studies and is the administrative home for the major. The major offers a robust and interdisciplinary curriculum that spans all contemporary disciplines that

touch upon the environment. The curriculum includes biological sciences, physical sciences, and social sciences, as well as humanities, history, health, and modern culture.

The environmental studies major, offered by the College of Letters & Science and administered by the Nelson Institute for Environmental Studies, provides unique opportunities for undergraduate students to broaden their studies through interdisciplinary coursework related to the environment. **The major must always be completed in tandem with a second major.** This requirement is unique to the environmental studies major and allows undergraduates the opportunity to both broaden and deepen the focus of their other major with a perspective on the environment that spans a wide range of topics and involves varying depths of application.

The major includes experiential learning opportunities via the capstone course and the field requirement and encourages global interaction through study or internships abroad. With numerous travel abroad possibilities and ongoing access to a large selection of extracurricular events, graduates have countless combinations available to them. The outcome is a solid academic foundation in the study of the environment and access to a network of multidisciplinary problem-solving colleagues.

In today's world, the program prepares students to address modern challenges using interdisciplinary problem-solving approaches, applying both an understanding of, and practical experience beyond, a single academic discipline. Employers purposefully seek individuals with interdisciplinary and international preparation, and environmental studies students are ready to meet that need.

Click here to see a complete list of faculty and staff affiliated with the Nelson Institute (<http://nelson.wisc.edu/people/>).

The Nelson Institute also offers two undergraduate certificates:

Environmental Studies Certificate (p. 1440)  
Sustainability Certificate (p. 1447)

## HOW TO GET IN

### HOW TO GET IN DECLARING THE MAJOR

Students interested in declaring the Environmental Studies major should request a major declaration appointment. Information about declaring the major can be found at undergraduate advising (<https://nelson.wisc.edu/undergraduate/advising.php>).

Students who earn the Environmental Studies major may not also earn the Environmental Studies Certificate.

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world.

Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

- |                   |  |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> <li>• Breadth—Humanities/Literature/Arts: 6 credits</li> <li>• Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth—Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul> |
|-------------------|--|

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## SCHOOL/COLLEGE REQUIREMENTS

The Environmental Studies major is always paired with another major. Please refer to the School/College degree requirements of the other major to learn about degree requirements or consult an advisor.

### REQUIREMENTS FOR THE MAJOR

The environmental studies major provides students with an academically rigorous course sequence that encompasses introductory through advanced understandings of the interdisciplinary field of environmental studies. Students must have a declared primary major, and are allowed to apply a portion of course work from that major for the environmental studies major, making it possible to complete their degree within four years.

- **30 credits in the major as defined below.**
- Declare and complete a primary major. **Students must have a primary major declared before reaching senior standing (86 credits) or the environmental studies major may be canceled.**
- At least 15 credits taken for the environmental studies major must be distinct, and not also meeting minimum requirements in another major.
- Students outside the College of Letters & Science may have to meet additional overlap requirements.

### FOUNDATION (12 CREDITS)

**One course from each of the following four areas.** Courses applied to Foundation cannot also be used in Theme or Capstone.

#### Environmental Humanities (3 credits)

Code	Title	Credits
ENVIR ST 113	Environmental Studies: Environmental Humanities	3
ENVIR ST/HIST SCI/HISTORY 125	Green Screen: Environmental Perspectives through Film	3
ENVIR ST/ART HIST/ GEOG/HISTORY/ LAND ARC 239	Making the American Landscape	3-4

ENVIR ST/ RELIG ST 270	The Environment: Religion & Ethics	3-4
HISTORY/ENVIR ST/ GEOG 460	American Environmental History	4
ENVIR ST/ HISTORY 465	Global Environmental History	3-4
ENVIR ST/ CLASSICS 488	Greeks, Romans and the Natural Environment	3

### Environmental Social Science (3 credits)

Code	Title	Credits
ENVIR ST 112	Environmental Studies: Social Science Perspectives	3
ENVIR ST/ GEOG 139	Global Environmental Issues	3
ENVIR ST/A A E 244	The Environment and the Global Economy	4
ENVIR ST/ GEOG 339	Environmental Conservation	4
C&E SOC/SOC 140	Introduction to Community and Environmental Sociology	4
C&E SOC/ F&W ECOL/ SOC 248	Environment, Natural Resources, and Society	3

### Environmental Physical Science (3 credits)

Code	Title	Credits
ENVIR ST/ GEOSCI 106	Environmental Geology	3
ENVIR ST/ GEOG 120	Introduction to the Earth System	3
ENVIR ST/ILS 126	Principles of Environmental Science	4
ENVIR ST/GEOG 127	Physical Systems of the Environment	4
ENVIR ST/GEOG/ SOIL SCI 230	Soil: Ecosystem and Resource	3
ENVIR ST/ILS 255	Introduction to Sustainability Science	4

**BEYOND THE CLASSROOM EXPERIENCE**

The Beyond the Classroom experience in the Environmental Studies major can be met in one of the following ways:

- A course from the list below. Courses used to meet the Beyond the Classroom experience requirement may also be used in other areas of the curriculum.
- Participation in an environmental study abroad program where 50% or more of the contact hours are in an out-of-doors situation (see your advisor)
- Participation in an environmental internship or similar experience where 50% or more of the contact hours are in an out-of-doors situation (field form summary **must** be submitted)

Beyond the Classroom experiences are expected to include one or more of the following: data gathering, reflective out-of-classroom experience, practical application, performance/creation related to environment, outdoor experiences, community engagement/service. The Beyond the Classroom experience gives students practice in an outward-facing application of environmental studies and sustainability.

accommodate these experiences. Students will likely revise their own four-year plan several times during college.

### CAPSTONE REQUIREMENT (3 CREDITS)

3 credits from:

Code	Title	Credits
A A E/ F&W ECOL 652	Decision Methods for Natural Resource Managers	3
ENVIR ST/ SOIL SCI 575	Assessment of Environmental Impact	3
ENVIR ST 600	Environmental Studies Capstone	3

### RESIDENCE & QUALITY OF WORK IN THE MAJOR

- 2.000 GPA in all ENVIR ST courses and courses in the major
- 2.000 GPA on 15 upper-level major credits, taken in Residence. Intermediate and Advanced level courses in the major are considered upper level.
- 15 credits in ENVIR ST or in the major, taken on campus (at UW-Madison)

### HONORS IN THE MAJOR

Honors in the Major is not available in Environmental Studies.

### LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Explain the social and historical processes that impact current environments and sustainability issues. Interpret the meanings, values, and systems that are created, shaped, and revealed as humans interact with and modify the environments they inhabit.
2. Explain systemic and ecological processes and fundamental principles of environmental sciences relating to humanity’s key environmental challenges of the past, present, and future.
3. Analyze and respond to questions in environment and sustainability by applying interdisciplinary approaches that integrate multiple perspectives, including those from a coordinate major.
4. Recognize through critical thinking a diversity of viewpoints, ethical commitments, and disciplinary approaches to environmental and sustainability concerns across various scales from the local to the global.
5. Demonstrate excellent reading, writing, communication, and research skills, both individually and in interdisciplinary teams.

### FOUR-YEAR PLAN

### SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it—along with their DARS report, the Degree Planner, and Course Search & Enroll tools—to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to

### ADVISING AND CAREERS

### ADVISING AND CAREERS

The environmental studies major (<https://nelson.wisc.edu/undergraduate/environmental-studies-major/>) offers unique opportunities for undergraduate students to broaden their studies through interdisciplinary coursework related to the environment. See undergraduate advising

(<https://nelson.wisc.edu/undergraduate/advising/>) for more information about declaring the major or certificate.

Environmental studies students are represented in majors all across campus and in most undergraduate schools and colleges. Environmental studies majors should utilize the career office for their home school as appropriate. All students, not just L&S students, can also benefit from SuccessWorks at the College of Letters & Science.

We encourage our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks to help you leverage the academic skills learned in your major and liberal arts degree, explore and try out different career paths, participate in internships, prepare for the job search and/or graduate school applications, and network with professionals in the field (alumni and employers).

Letters & Science graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

## L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

## FRENCH AND ITALIAN

Our undergraduate programs in French (<https://frit.wisc.edu/undergraduate-programs-in-french/>) and Italian (<https://frit.wisc.edu/undergraduate-programs-in-italian/>) feature an array of courses in language, literature, culture, professional communication, and film.

Available to speakers at all levels and based in the humanist tradition, our courses are designed to help students develop proficiency in the language, deepen their knowledge of the literature and culture of the places where that language is spoken, and become more marketable for jobs, graduate and professional programs, and a myriad forms of service, both public and private.

## PLACEMENT TEST

Students who have prior language experience in French or Italian should take a placement test. For French, please refer to Testing and Evaluation Services (<https://exams.wisc.edu/placement/uw-madison-students.php>) to register for the placement test. For Italian, please contact the undergraduate advisor (<https://frit.wisc.edu/faculty-french-and-italian/>) for more information about the Informal Italian placement test.

## STUDY ABROAD

For information about study abroad programs, see International Academic Programs (<https://studyabroad.wisc.edu>) and programs in the student's school or college.

## RESOURCES AND SCHOLARSHIPS

### RESOURCES AND SCHOLARSHIPS

#### FRENCH HOUSE

La Maison Française (<http://uwfrenchhouse.org/>), a francophone (French-speaking) residence hall and cultural center, is managed by the Department of French and Italian. Residence is open to UW–Madison students with the equivalent of a fourth-semester level of French. At least two native French graduate students reside in the house, aiding in conversation and facilitating the use of French. Most residents are Americans: prospective teachers of French, French majors, and students in other disciplines who want to speak French on a daily basis. Applications should be made well in advance. More information is available on the French House website (<https://uwfrenchhouse.org/>).

The French House is open to the public for Wednesday dinner and Friday lunch during the academic year.

#### CLUBS AND OTHER ACTIVITIES

##### French

The French Club (<https://win.wisc.edu/organization/frenchclub/>) is a registered student organization run by students involved in the French program and open to any and all UW community members who have an interest in French language and culture. Club members are encouraged to organize and participate in cultural events on campus and in the community. Undergraduates are welcome at scholarly talks and department events on an array of subjects (see department website (<https://www.frit.wisc.edu/>) and the French House website (<http://uwfrenchhouse.org/>) for event details).

##### Italian

The Italian Club (<https://win.wisc.edu/organization/italianclub/>) is a registered student organization run by students involved in the Italian program and open to any and all UW community members who have an interest in Italian culture. Club members are encouraged to organize and participate in cultural events on campus and in the community, including our annual *Cena italiana* in the Spring. Members of the Italian Club and Italian Ambassadors also organize the *Circolo della bella lingua*, a regular language meet-up geared toward allowing students of all levels to practice their Italian speaking in an informal setting. Finally, the *Cineteca Italiana* (<https://www.facebook.com/UWCineteca/?fref=ts>) organizes weekly screenings of Italian films. Find us on the Italian Club Facebook Page (<https://www.facebook.com/groups/28276254670/>)! Undergraduates are also welcome at scholarly talks and department events on an array of subjects (see department website (<https://www.frit.wisc.edu/>) for event details).

## FRENCH, BA

The French program at UW–Madison offers students opportunities for cultural and literary learning about the French-speaking world through dynamic, in-class experiences and extracurricular components such as the French House, an immersion residence hall and cultural center, and with French and Francophone cultural events in and around Madison.

Students intending to major in French or complete the certificate enter the program at the appropriate level depending on their language

proficiency. If you have previous experience in the French language, please refer to Testing and Evaluation Services (<https://exams.wisc.edu/placement/uw-madison-students.php>) to register for the placement test.

The majority of UW–Madison French majors or certificate students complete their requirements through a combination of courses taken on campus and abroad with a UW–Madison-sponsored program.

Students have the option to take a class for Honors at almost all levels. For more information, please see the department website and/or consult the undergraduate advisor (<https://frit.wisc.edu/faculty-french-and-italian/>).

For information on teacher training in French, see the School of Education (p. 1535) section in the *Guide*.

For courses in French literature in translation, see the Literature in Translation (<http://guide.wisc.edu/courses/littrans/>) course listing.

## HOW TO GET IN

### HOW TO GET IN

Students can declare a French major at any time. For more information, please see the department website (<https://frit.wisc.edu/>) and/or consult the undergraduate advisor (<https://frit.wisc.edu/faculty-french-and-italian/>).

Students declared in the French certificate may not be declared in the French major at the same time. Students who do wish to declare this major must first cancel their declaration in the certificate.

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

- General Education
- Breadth—Humanities/Literature/Arts: 6 credits
  - Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
  - Breadth—Social Studies: 3 credits
  - Communication Part A Part B \*
  - Ethnic Studies \*
  - Quantitative Reasoning Part A Part B \*

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

### BACHELOR OF ARTS DEGREE REQUIREMENTS

**Mathematics** Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.

**Language**

- Complete the fourth unit of a language other than English; OR
- Complete the third unit of a language and the second unit of an additional language other than English.

**LS Breadth**

- 12 credits of Humanities, which must include 6 credits of literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.

**Liberal Arts and Science Coursework** Complete at least 108 credits.

**Depth of Intermediate/Advanced work** Complete at least 60 credits at the intermediate or advanced level.

**Major** Declare and complete at least one major.

**Total Credits** Complete at least 120 credits.

**UW-Madison Experience**

- 30 credits in residence, overall; and
- 30 credits in residence after the 86th credit.

- Quality of Work
- 2.000 in all coursework at UW-Madison
  - 2.000 in Intermediate/Advanced level coursework at UW-Madison

## NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR INTRODUCTORY COURSE (PREREQUISITE)

Code	Title	Credits
FRENCH 228	Intermediate Language and Culture	3-4

### TOTAL CREDITS

To complete the French major, **24 credits** are needed beyond the introductory course (prerequisite). Please note that only one course taught in English may count towards the French Major.<sup>4</sup>

## REQUIRED COURSES IN FRENCH/FRANCOPHONE LITERATURE AND CULTURE

Complete the Required Courses:

Code	Title	Credits
FRENCH 271	Literature, Comics, and Film in French	3-4
FRENCH 321	Medieval and Early Modern French Literature <sup>5</sup>	3
FRENCH 322	Modern French and Francophone Literature <sup>5</sup>	3
FRENCH 347 or FRENCH 451	Medieval and Early Modern Culture <sup>5</sup> Medieval, Renaissance, and Early Modern Studies	3

## FRENCH/FRANCOPHONE LITERATURE AND/OR CULTURE COURSE NUMBERED 400 OR ABOVE

Complete One course from:

Code	Title	Credits
FRENCH 420	Topics in French: Study Abroad	1-6
FRENCH 430	Readings in Medieval and Renaissance Literature	3
FRENCH 431	Readings in Early Modern Literature	3

FRENCH/INTL BUS 314	Contemporary Issues in Business, Government and NGOs	3
FRENCH 325	Visual Culture in French/Francophone Studies	3
FRENCH 345	French Fashion and Literature from the Middle Ages to Today <sup>4</sup>	3
FRENCH 347	Medieval and Early Modern Culture <sup>5</sup>	3
FRENCH 348	Modernity Studies	3
FRENCH 350	Applied French Language Studies	1-3
FRENCH 672	Topics in Literature and Culture	3
FRENCH 681	Senior Honors Thesis	3
FRENCH 682	Senior Honors Thesis	3
FRENCH 691	Thesis	2
FRENCH 692	Thesis	2
LITTRANS 209	Masterpieces of French Literature and Culture <sup>4</sup>	3-4
LITTRANS 249	Literature in Translation: Nineteenth-Century French Masterpieces <sup>4</sup>	3
LITTRANS 268	French Women Writers from the Middle Ages to the Nineteenth Century <sup>4</sup>	3

LITTRANS 302	What is Life? Biological Life in Literature and Culture <sup>4</sup>	3-4
LITTRANS 303	Topics in French Literature and Culture <sup>4</sup>	3-4

## LANGUAGE COURSE NUMBERED 300 OR ABOVE

Complete One course from:

Code	Title	Credits
FRENCH 311	Advanced Composition and Speaking	3
FRENCH 312	Advanced Writing Workshop	3
FRENCH/ INTL BUS 313	Professional Communication and Culture in the Francophone World	3
FRENCH/ INTL BUS 314	Contemporary Issues in Business, Government and NGOs	3
FRENCH 316	Study Abroad: Advanced French Language	2-6
FRENCH 350	Applied French Language Studies	1-3
FRENCH 590	Introduction to Phonetics	3

## ADDITIONAL FRENCH COURSEWORK TO REACH 24 CREDITS

As Needed:

Many French majors will need additional elective credit to reach the 24-credit minimum requirement. Depending on the courses taken from the lists above to meet the other French major requirements, some students may need one or more additional elective course(s) to reach this 24-credit minimum. Courses in French numbered 211–699 are eligible electives.

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all FRENCH and major courses
- 2.000 GPA on at least 15 credits of upper-level work in the major, taken in residence<sup>1</sup>
- 15 credits in FRENCH taken on campus at UW–Madison

## HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with a French undergraduate advisor.

### HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA for all FRENCH courses and all courses counting in the major
- Complete at least 8 credits, taken for Honors, beyond FRENCH 271<sup>2</sup>
- Complete a two-semester Senior Honors Thesis in FRENCH 681 and FRENCH 682, for a total of 6 credits<sup>3</sup>

## FOOTNOTES

<sup>1</sup> FRENCH 300 and higher are considered upper-level in the major.

- <sup>2</sup> Study abroad in France or in another French-speaking country is highly recommended, and the 8 credits taken for Honors can be fulfilled through French courses taken abroad at the appropriate level.
- <sup>3</sup> In certain circumstances (particularly when the student is an Honors candidate in two or more departments), two courses in literature or cultural studies numbered 500–599 or 600–699 may be substituted for the Senior Honors Thesis.
- <sup>4</sup> Only one course taught in English may count toward the French Major.
- <sup>5</sup> FRENCH 321, FRENCH 322, FRENCH 347 are rarely given as course equivalents for courses taken abroad. Students majoring in French who do not take these courses prior to studying abroad and who do not receive these equivalents from courses abroad, will need to take them upon their return.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Demonstrate that they understand and can analyze literary and non-literary texts in French representing a broad spectrum of topics, time periods, and geographical regions (interpretive communication).
2. Express themselves effectively in spoken and written French to inform, persuade, and narrate for different audiences of listeners, viewers, or readers (presentational communication).
3. Express themselves effectively in spoken and written French to share information, reactions, and opinions related to a broad spectrum of topics and texts (interpersonal communication).
4. Recognize and explain cultural artifacts, practices, and perspectives of the French-speaking world including how these cultural elements relate to literary and non-literary texts in French (cultural knowledge).
5. Demonstrate a good degree of understanding of lexical, grammatical, syntactic, and stylistic features of the French language (linguistic knowledge).
6. Demonstrate awareness of difference and diversity by comparing and contrasting culturally situated beliefs, behaviors, and norms of the French-speaking world with those found in their own culture (cross-cultural awareness).

7. Engage in a sustained fashion with the French language, its users, and cultural artifacts in and beyond the classroom, e.g., in their own community, virtual communities, and study abroad (engagement with the French language and culture).

## FOUR-YEAR PLAN

### SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it—along with their DARS report, the Degree Planner, and Course Search & Enroll tools—to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own four-year plan several times during college.

## ADVISING AND CAREERS

### ADVISING AND CAREERS

The Department of French and Italian encourages our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks at the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

### L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

### ADVISING RESOURCES

- For information on language proficiency, language placement, retro credits and/or declaring the French Major, please see the French and Italian department website (<https://frit.wisc.edu/undergraduate-programs-in-french/>).
- For advising on the French Major or Certificate, please contact the undergraduate advisor (<https://frit.wisc.edu/faculty-french-and-italian/>).
- For language and international directions advising, please contact the International Directions Advisor in the Language Institute (<http://languages.wisc.edu/languageadvising/>).

Senior Lecturer Miernowska

## RESOURCES AND SCHOLARSHIPS

## RESOURCES AND SCHOLARSHIPS

## FRENCH HOUSE

La Maison Française (<http://uwfrenchhouse.org/>), a francophone (French-speaking) residence hall and cultural center, is managed by the Department of French and Italian. Residence is open to UW–Madison students with the equivalent of a fourth-semester level of French. At least two native French graduate students reside in the house, aiding in conversation and facilitating the use of French. Most residents are Americans: prospective teachers of French, French majors, and students in other disciplines who want to speak French on a daily basis. Applications should be made well in advance. More information is available at [uwfrenchhouse.org](http://uwfrenchhouse.org).

The French House is open to the public for Wednesday dinner and Friday lunch during the academic year.

## CLUBS AND ACTIVITIES

## French

The French Club (<https://win.wisc.edu/organization/frenchclub/>) is a registered student organization run by students involved in the French program and open to any and all UW community members who have an interest in French language and culture. Club members are encouraged to organize and participate in cultural events on campus and in the community. Undergraduates are welcome at scholarly talks and department events on an array of subjects (see department website (<https://www.frit.wisc.edu/>) and the French House website (<http://uwfrenchhouse.org/>) for event details).

## FRENCH, BS

The French program at UW–Madison offers students opportunities for cultural and literary learning about the French-speaking world through dynamic, in-class experiences and extracurricular components such as the French House, an immersion residence hall and cultural center, and with French and Francophone cultural events in and around Madison.

Students intending to major in French or complete the certificate enter the program at the appropriate level depending on their language proficiency. If you have previous experience in the French language, please refer to Testing and Evaluation Services (<https://exams.wisc.edu/placement/uw-madison-students.php>) to register for the placement test.

The majority of UW–Madison French majors or certificate students complete their requirements through a combination of courses taken on campus and abroad with a UW–Madison-sponsored program.

Students have the option to take a class for Honors at almost all levels. For more information, please see the department website and/or consult the undergraduate advisor (<https://frit.wisc.edu/faculty-french-and-italian/>).

For information on teacher training in French, see the School of Education (p. 1535) section in the *Guide*.

For courses in French literature in translation, see the Literature in Translation (<http://guide.wisc.edu/courses/littrans/>) course listing.

## HOW TO GET IN

## HOW TO GET IN

Students can declare a French major at any time. For more information, please see the department website (<https://frit.wisc.edu/>) and/or consult the undergraduate advisor (<https://frit.wisc.edu/faculty-french-and-italian/>).

Students declared in the French certificate may not be declared in the French major at the same time. Students who do wish to declare this major must first cancel their declaration in the certificate.

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

General Education	<ul style="list-style-type: none"> <li>• Breadth—Humanities/Literature/Arts: 6 credits</li> <li>• Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth—Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul>
-------------------	--

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

### BACHELOR OF SCIENCE DEGREE REQUIREMENTS

**Mathematics** Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.

**Language** Complete the third unit of a language other than English.

**LS Breadth** Complete:  
 • 12 credits of Humanities, which must include at least 6 credits of Literature; and  
 • 12 credits of Social Science; and  
 • 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.

**Liberal Arts and Science Coursework** Complete at least 108 credits.

**Depth of Intermediate/Advanced Coursework** Complete at least 60 credits at the Intermediate or Advanced level.

**Major** Declare and complete at least one major.

**Total Credits** Complete at least 120 credits.

**UW-Madison Experience** Complete both:  
 • 30 credits in residence, overall, and  
 • 30 credits in residence after the 86th credit.

**Quality of Work**  
 • 2.000 in all coursework at UW-Madison  
 • 2.000 in Intermediate/Advanced level coursework at UW-Madison

### NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

### REQUIREMENTS FOR THE MAJOR INTRODUCTORY COURSE (PREREQUISITE)

Code	Title	Credits
FRENCH 228	Intermediate Language and Culture	3-4

### TOTAL CREDITS

To complete the French major, **24 credits** are needed beyond the introductory course (prerequisite). Please note that only one course taught in English may count towards the French Major.<sup>4</sup>

### REQUIRED COURSES IN FRENCH/FRANCOPHONE LITERATURE AND CULTURE

Complete the Required Courses:

Code	Title	Credits
FRENCH 271	Literature, Comics, and Film in French	3-4
FRENCH 321	Medieval and Early Modern French Literature <sup>5</sup>	3
FRENCH 322	Modern French and Francophone Literature <sup>5</sup>	3
FRENCH 347 or FRENCH 451	Medieval and Early Modern Culture <sup>5</sup> Medieval, Renaissance, and Early Modern Studies	3

### FRENCH/FRANCOPHONE LITERATURE AND/OR CULTURE COURSE NUMBERED 400 OR ABOVE

Complete One course from:

Code	Title	Credits
FRENCH 420	Topics in French: Study Abroad	1-6
FRENCH 430	Readings in Medieval and Renaissance Literature	3
FRENCH 431	Readings in Early Modern Literature	3
FRENCH 449	Francophone Modernity Studies	3
FRENCH 451	Medieval, Renaissance, and Early Modern Studies	3
FRENCH 461	French/Francophone Literary Studies Across the Centuries	3
FRENCH 462	French/Francophone Cultural Studies Across the Centuries	3
FRENCH 464	Literature and Medicine in French-Speaking Cultures	3
FRENCH 465	French/Francophone Film	3
FRENCH 467	Aspects of Contemporary French Literature	3
FRENCH 567	Undergraduate Seminar in French/Francophone Literary Studies	3
FRENCH 568	Undergraduate Seminar in French/Francophone Cultural Studies	3
FRENCH 569	Critical Approaches to Literature and Culture: French and Francophone Perspectives	3
FRENCH 626	Critical Approaches to French Literature	3
FRENCH 630	The Age of Reason	3
FRENCH 631	17th-Century French Literature	3
FRENCH 633	The 17th-Century Novel	3
FRENCH 636	The French Novel: 1850-1900	3
FRENCH 637	19th-Century French Literature	3
FRENCH 639	17th-Century Literature	3
FRENCH 645	16th-Century French Literature	3
FRENCH 647	The 20th-Century French Novel	3
FRENCH 653	French and Francophone Cinema	3
FRENCH 665	Introduction to Francophone Studies	3

FRENCH 672	Topics in Literature and Culture	3
FRENCH 681	Senior Honors Thesis	3
FRENCH 682	Senior Honors Thesis	3
FRENCH 691	Thesis	2
FRENCH 692	Thesis	2

## ADDITIONAL FRENCH/FRANCOPHONE LITERATURE AND/OR CULTURE COURSE

Complete One course from:

Code	Title	Credits
FRENCH 211	French Literary and Interdisciplinary Studies <sup>4</sup>	3-4
FRENCH/AFRICAN 216	Modern and Contemporary Francophone Topics <sup>4</sup>	3
FRENCH 248	Ethnic Studies in the French/Francophone World(s) <sup>4</sup>	3
FRENCH 285	Rebellious Women <sup>4</sup>	3-4
FRENCH 288	Doctors without Borders (Médecins Sans Frontières) <sup>4</sup>	3

LITTRANS 268	French Women Writers from the Middle Ages to the Nineteenth Century <sup>4</sup>	3
LITTRANS 302	What is Life? Biological Life in Literature and Culture <sup>4</sup>	3-4
LITTRANS 303	Topics in French Literature and Culture <sup>4</sup>	3-4

## LANGUAGE COURSE NUMBERED 300 OR ABOVE

Complete One course from:

Code	Title	Credits
FRENCH 311	Advanced Composition and Speaking	3
FRENCH 312	Advanced Writing Workshop	3
FRENCH/INTL BUS 313	Professional Communication and Culture in the Francophone World	3
FRENCH/INTL BUS 314	Contemporary Issues in Business, Government and NGOs	3
FRENCH 316	Study Abroad: Advanced French Language	2-6
FRENCH 350	Applied French Language Studies	1-3
FRENCH 590	Introduction to Phonetics	3

## ADDITIONAL FRENCH COURSEWORK TO REACH 24 CREDITS

As Needed:

Many French majors will need additional elective credit to reach the 24-credit minimum requirement. Depending on the courses taken from the lists above to meet the other French major requirements, some students may need one or more additional elective course(s) to reach this 24-credit minimum. Courses in French numbered 211–699 are eligible electives.

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all FRENCH and major courses
- 2.000 GPA on at least 15 credits of upper-level work in the major, taken in residence<sup>1</sup>
- 15 credits in FRENCH taken on campus at UW–Madison

## HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with a French undergraduate advisor.

### HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA for all FRENCH courses and all courses counting in the major
- Complete at least 8 credits, taken for Honors, beyond FRENCH 271<sup>2</sup>
- Complete a two-semester Senior Honors Thesis in FRENCH 681 and FRENCH 682, for a total of 6 credits<sup>3</sup>

## FOOTNOTES

<sup>1</sup> FRENCH 300 and higher are considered upper-level in the major.

<sup>2</sup> Study abroad in France or in another French-speaking country is highly recommended, and the 8 credits taken for Honors can be fulfilled through French courses taken abroad at the appropriate level.

<sup>3</sup> In certain circumstances (particularly when the student is an Honors candidate in two or more departments), two courses in literature or cultural studies numbered 500–599 or 600–699 may be substituted for the Senior Honors Thesis.

<sup>4</sup> Only one course taught in English may count toward the French Major.

<sup>5</sup> FRENCH 321, FRENCH 322, FRENCH 347 are rarely given as course equivalents for courses taken abroad. Students majoring in French who do not take these courses prior to studying abroad and who do not receive these equivalents from courses abroad, will need to take them upon their return.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Demonstrate that they understand and can analyze literary and non-literary texts in French representing a broad spectrum of topics, time periods, and geographical regions (interpretive communication).
2. Express themselves effectively in spoken and written French to inform, persuade, and narrate for different audiences of listeners, viewers, or readers (presentational communication).
3. Express themselves effectively in spoken and written French to share information, reactions, and opinions related to a broad spectrum of topics and texts (interpersonal communication).
4. Recognize and explain cultural artifacts, practices, and perspectives of the French-speaking world including how these cultural elements relate to literary and non-literary texts in French (cultural knowledge).

Please contact the undergraduate advisor (<https://frit.wisc.edu/faculty-french-and-italian/>) for more information about French activities.

## FRENCH, CERTIFICATE

The undergraduate certificate in French offers students the opportunity to develop their proficiency in French language and their knowledge of literature and culture in the French-speaking world, thereby complementing their major(s) in other subjects across the university. It also strengthens the applications of students who intend to pursue careers or graduate study in areas where French is useful. The certificate is open to all undergraduate students.

### HOW TO GET IN

## HOW TO GET IN

Students can declare a French certificate at any time. For more information, please see the department website (<https://frit.wisc.edu/>) and/or consult the undergraduate advisor (<https://frit.wisc.edu/faculty-french-and-italian/>).

Students declared in the French major are not eligible to declare the French certificate. Students who do wish to declare this certificate must first cancel their declaration in the major.

### REQUIREMENTS

## REQUIREMENTS

The undergraduate certificate in French requires 15 credits of French coursework (or 5 courses). Retroactive credits may not be applied toward the certificate.

**Total Credits****15**

## RESIDENCE AND QUALITY OF WORK

- At least 9 credits of the certificate must be taken on campus. At least 12 credits of the certificate must be taken in residence. (UW–Madison approved study abroad programs are considered in residence but are not on campus.)
- Students must maintain a 2.000 cumulative GPA in all courses required for the certificate.

## CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. (Interpretive communication) Demonstrate that they understand and can analyze of literary and non-literary texts in French representing a variety of topics, time periods, and geographical regions.
2. (Presentational communication) Express themselves effectively in spoken and written French to inform, persuade, and narrate for different audiences of listeners, viewers, or readers.
3. (Interpersonal communication) Express themselves effectively in spoken and written French to share information, reactions, and opinions related to a variety of topics and texts.
4. (Cultural knowledge) Recognize and explain cultural artifacts, practices, and perspectives of the French-speaking world.
5. (Linguistic knowledge) Demonstrate a good degree of understanding of lexical, grammatical, syntactic, and stylistic features of the French language.
6. (Cross-cultural awareness) Demonstrate awareness of difference and diversity by comparing and contrasting culturally situated beliefs, behaviors, and norms of the French-speaking world with their own.
7. (Engagement with the French language and culture) Engage in a sustained fashion with the French language, its users, and cultural artifacts in and beyond the classroom, e.g., in their own community, virtual communities, and study abroad.

## ADVISING AND CAREERS

### ADVISING AND CAREERS

- For information on language proficiency, language placement, retro credits, and/or declaring the French Certificate, please see the French and Italian department website (<https://frit.wisc.edu/undergraduate-programs-in-french/>).

- For advising on the French Major or Certificate, please contact the undergraduate advisor (<https://frit.wisc.edu/faculty-french-and-italian/>).
- For language and international directions advising, please contact the International Directions Advisor in the Language Institute (<http://languages.wisc.edu/languageadvising/>).

## L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

Senior Lecturer Miernowska

## ITALIAN, BA

The Italian program at UW–Madison offers students opportunities for growth in the language and for increased cultural fluency through dynamic, in-class learning experiences and multiple extracurricular components such as the Italian Club (<https://www.facebook.com/>)

groups/28276254670/), Circolo della bella lingua (a regular language meet-up geared toward allowing students of all levels to practice their Italian speaking in an informal setting) and Cineteca Italiana (<https://www.facebook.com/UWCineteca/?fref=ts>), which organizes weekly screenings of Italian films.

Students intending to major in Italian or complete the certificate enter the program at the appropriate level depending on their language proficiency. If you have previous experience in the Italian language, please contact the undergraduate advisor (<https://frit.wisc.edu/faculty-french-and-italian/>) for more information about the Informal Italian placement test.

The majority of UW–Madison Italian majors and certificate students complete their requirements through a combination of courses taken on campus and abroad with a UW–Madison study abroad program.

Students have the option to take a class for Honors at almost all levels. For more information, please see the department website and/or consult the undergraduate advisor (<https://frit.wisc.edu/faculty-french-and-italian/>).

For information on teacher training in Italian, see the School of Education (p. 1535) section in this *Guide*.

For courses in Italian literature in translation, see the Literature in Translation (<http://guide.wisc.edu/courses/littrans/>) course listing.

## HOW TO GET IN

### HOW TO GET IN

Students can declare an Italian major at any time. For more information, please see the department website (<https://frit.wisc.edu/>) and/or consult the undergraduate advisor (<https://frit.wisc.edu/faculty-french-and-italian/>).

Students declared in the Certificate in Italian may not be declared in the Italian major at the same time. Students who do wish to declare this major must first cancel their declaration in the certificate.

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

- General Education
- Breadth–Humanities/Literature/Arts: 6 credits
  - Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
  - Breadth–Social Studies: 3 credits
  - Communication Part A Part B \*
  - Ethnic Studies \*
  - Quantitative Reasoning Part A Part B \*

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

### BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.

Language

- Complete the fourth unit of a language other than English; OR
- Complete the third unit of a language and the second unit of an additional language other than English.

LS Breadth

- 12 credits of Humanities, which must include 6 credits of literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.

Liberal Arts and Science Coursework Complete at least 108 credits.

Depth of Intermediate/Advanced work Complete at least 60 credits at the intermediate or advanced level.

Major Declare and complete at least one major.

Total Credits Complete at least 120 credits.

UW–Madison Experience

- 30 credits in residence, overall; and
- 30 credits in residence after the 86th credit.

Quality of Work	<ul style="list-style-type: none"> <li>• 2.000 in all coursework at UW–Madison</li> <li>• 2.000 in Intermediate/Advanced level coursework at UW–Madison</li> </ul>
-----------------	--

## NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

Italian majors must complete 24 credits beyond ITALIAN 204. Please note that Literature in Translation (LITTRANS) courses cannot be counted toward the major.

The 24 credits required for the Italian major will be distributed as follows:

Code	Title	Credits
<b>Required Core Courses (complete all):</b>		
ITALIAN 230	Modern Italian Culture	3
ITALIAN 311	Advanced Italian Language	3
ITALIAN 312	Writing Workshop	3
ITALIAN 321	Studies in Italian Literature and Culture I	3
ITALIAN 322	Studies in Italian Literature and Culture II	3
<b>Major electives:</b>		<b>9</b>
ITALIAN 340	Structures of Italian	
ITALIAN/ILS 350	Rome: Lust for Glory	
ITALIAN/ILS/ LITTRANS/ POLI SCI 365	Machiavelli and His World	
ITALIAN 420	Topics in Italian: Study Abroad	
ITALIAN/ FRENCH/ PORTUG/ SPANISH 429	Introduction to the Romance Languages	
ITALIAN 450	Special Topics in Italian Literature	
ITALIAN 452	Special Topics in Italian Studies: Culture, Film, Language	
ITALIAN/ COM ARTS 460	Italian Film	
ITALIAN 601	The 19th Century	
ITALIAN 621 & ITALIAN 622	The 18th Century and The 18th Century	
ITALIAN 623	Italian Theatre	
ITALIAN 631 & ITALIAN 632	Features in Italian Literature and Features in Italian Literature	
ITALIAN 636	The Italian Novel	
ITALIAN 651	The Renaissance	
ITALIAN/ MEDIEVAL 659	Dante's Divina Commedia	
ITALIAN/ MEDIEVAL 671	The 13th Century	
ITALIAN 681	Senior Honors Thesis	

ITALIAN 682	Senior Honors Thesis
ITALIAN 691	Senior Thesis
ITALIAN 692	Senior Thesis
ITALIAN 698	Directed Study
ITALIAN 699	Directed Study
<b>Total Credits</b>	<b>24</b>

## RESIDENCY AND QUALITY OF WORK

- 2.000 GPA in all ITALIAN and major courses
- 2.000 GPA on at least 15 credits of upper-level work in the major, in residence: (ITALIAN 300 and higher are considered upper-level in the major)
- 15 credits in ITALIAN taken on campus at UW–Madison

## HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Italian undergraduate advisor.

### HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA for all ITALIAN courses and courses counting toward the major
- Complete at least 15 credits, taken for Honors, beyond ITALIAN 204, earning individual grades of B or better in each course. Of these 15 credits, 6 must come from completing a two-semester Senior Honors Thesis in ITALIAN 681 and ITALIAN 682.<sup>1</sup>

<sup>1</sup> Students may be allowed to substitute two semesters of literature course work at the 600 level for the Senior Honors Thesis. See the undergraduate advisor in Italian.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

## LEARNING OUTCOMES

1. Demonstrate that they understand and can analyze literary and non-literary texts in Italian representing a broad spectrum of topics, time periods, and geographical regions (interpretive communication).
2. Express themselves effectively in spoken and written Italian to inform, persuade, and narrate for different audiences of listeners, viewers, or readers (presentational communication).
3. Express themselves effectively in spoken and written Italian to share information, reactions, and opinions related to a broad spectrum of topics and texts (interpersonal communication).
4. Recognize and explain cultural artifacts, practices, and perspectives of the Italian-speaking world including how these cultural elements relate to literary and non-literary texts in Italian (cultural knowledge).
5. Demonstrate a good degree of understanding of lexical, grammatical, syntactic, and stylistic features of the Italian language (linguistic knowledge).
6. Demonstrate awareness of difference and diversity by comparing and contrasting culturally situated beliefs, behaviors, and norms of the Italian-speaking world with those found in their own culture (cross-cultural awareness).
7. Engage in a sustained fashion with the Italian language, its users, and cultural artifacts in and beyond the classroom, e.g., in their own community, virtual communities, and study abroad (engagement with the Italian language and culture).

## FOUR-YEAR PLAN

## SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it—along with their DARS report, the Degree Planner, and Course Search & Enroll tools—to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own four-year plan several times during college.

## ADVISING AND CAREERS

## ADVISING AND CAREERS

Information about academic advising for the major can be found at undergraduate advising for French & Italian (<https://frit.wisc.edu/academic-advising/>).

The Department of French and Italian encourages our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks at the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

## L&amp;S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

## RESOURCES AND SCHOLARSHIPS

### RESOURCES AND SCHOLARSHIPS

#### CLUBS AND OTHER ACTIVITIES

##### Italian

The Italian Club (<https://www.facebook.com/groups/28276254670/>) is a registered student organization run by students involved in the Italian program and open to any and all UW community members who have an interest in Italian culture. Club members are encouraged to organize and participate in cultural events on campus and in the community, including our annual *Cena italiana* in the spring. Members of the Italian Club and Italian Ambassadors also organize the *Circolo della bella lingua*, a regular language meet-up geared toward allowing students of all levels to practice their Italian speaking in an informal setting. Finally, the *Cineteca Italiana* (<https://www.facebook.com/UWCineteca/?fref=ts>) organizes weekly screenings of Italian films. Undergraduates are also welcome at scholarly talks and department events on an array of subjects (see department website (<https://www.frit.wisc.edu/>) for event details).

## ITALIAN, BS

The Italian program at UW-Madison offers students opportunities for growth in the language and for increased cultural fluency through dynamic, in-class learning experiences and multiple extracurricular components such as the Italian Club (<https://www.facebook.com/groups/28276254670/>), *Circolo della bella lingua* (a regular language meet-up geared toward allowing students of all levels to practice their Italian speaking in an informal setting) and *Cineteca Italiana* (<https://www.facebook.com/UWCineteca/?fref=ts>), which organizes weekly screenings of Italian films.

Students intending to major in Italian or complete the certificate enter the program at the appropriate level depending on their language proficiency. Information about academic advising for the major can be found at undergraduate advising for French & Italian (<https://frit.wisc.edu/academic-advising/>).

The Department of French and Italian encourages our majors to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks at the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important to us that our students are career ready at the time of graduation, and we are committed to your success.

**L&S CAREER RESOURCES**

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:

- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

**ADVISING RESOURCES**

- For information on language proficiency, language placement, retrocredits and/or declaring the Italian Major, please see the French and Italian department website (<https://frit.wisc.edu/undergraduate-programs-in-italian/>).
- For advising on the Italian Major or Certificate, please contact the undergraduate advisor (<https://frit.wisc.edu/faculty-french-and-italian/>).
- For language and international directions advising, please contact the International Directions Advisor in the Language Institute (<http://languages.wisc.edu/languageadvising/>).

**RESOURCES AND SCHOLARSHIPS****RESOURCES AND SCHOLARSHIPS****CLUBS AND OTHER ACTIVITIES****Italian**

The Italian Club (<https://www.facebook.com/groups/28276254670/>) is a registered student organization run by students involved in the Italian program and open to any and all UW community members who have an interest in Italian culture. Club members are encouraged to organize and participate in cultural events on campus and in the community, including our annual Cena italiana in the Spring. Members of the Italian Club and Italian Ambassadors also organize the Circolo della bella lingua, a regular language meet-up geared toward allowing students of all levels to practice their Italian speaking in an informal setting. Finally, the Cineteca Italiana (<https://www.facebook.com/UWCineteca/?fref=ts>) organizes weekly screenings of Italian films. Undergraduates are also welcome at scholarly talks and department events on an array of subjects (see department website (<https://www.frit.wisc.edu/>) for event details).

# ITALIAN, CERTIFICATE

The undergraduate certificate in Italian offers students the opportunity to develop their proficiency in Italian language and their knowledge of literature and culture in the Italian-speaking world. Advanced courses (300 and 400 level) will allow students to build on the foundation developed in 200-level courses by choosing from a range of courses in Italian literature, linguistics, cinema, culture, and professional communication. The certificate also strengthens the applications of students who intend to pursue careers or graduate study in areas where Italian is useful. The undergraduate certificate in Italian is open to all undergraduate students.

## HOW TO GET IN

### HOW TO GET IN

Students can declare an Italian certificate at any time. For more information, please see the department website (<https://frit.wisc.edu/>) and/or consult the undergraduate advisor (<https://frit.wisc.edu/faculty-french-and-italian/>).

Students declared in the Italian major are not eligible to declare the Certificate in Italian.

## REQUIREMENTS

### REQUIREMENTS

5 courses and 15 credits, to include: <sup>1</sup>

Code	Title	Credits
<b>Foundation (two courses):</b>		<b>6</b>
ITALIAN 311	Advanced Italian Language	
ITALIAN 312	Writing Workshop

or LITTRANS/ MEDIEVAL 255	Black Death and Medieval Life Through Boccaccio's Decameron
or LITTRANS 26	Italy and the Invention of America: from Columbus to World War II
or LITTRANS 41	In Translation: Special Topics in Italian Literature

**Total Credits**

**15**

### RESIDENCE AND QUALITY OF WORK

- 9 credits taken on the UW-Madison campus
- 2.000 GPA on all certificate courses

<sup>1</sup> Courses taken pass/fail are not eligible for the certificate.

<sup>2</sup> Only one LITTRANS course may count in the certificate.

### CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

- (Interpretive communication) Demonstrate that they understand and can analyze of literary and nonliterary texts in Italian representing a variety of topics, time periods, and geographical regions.
- (Presentational communication) Express themselves effectively in spoken and written Italian to inform, persuade, and narrate for different audiences of listeners, viewers, or readers.
- (Interpersonal communication) Express themselves effectively in spoken and written Italian to share information, reactions, and opinions related to a variety of topics and texts.
- (Cultural knowledge) Recognize and explain cultural artifacts, practices, and perspectives of the Italian-speaking world.
- (Linguistic knowledge) Demonstrate a good degree of understanding of lexical, grammatical, syntactic, and stylistic features of the Italian language.
- (Cross-cultural awareness) Demonstrate awareness of difference and diversity by comparing and contrasting culturally situated beliefs, behaviors, and norms of the Italian-speaking world with their own.
- (Engagement with the Italian language and culture) Engage in a sustained fashion with the Italian language, its users, and cultural artifacts in and beyond the classroom, e.g., in their own community, virtual communities, and study abroad.

## GENDER AND WOMEN'S STUDIES

The Gender and Women's Studies (GWS) curriculum provides a platform for students to study how equity and social justice are connected to gender, sexuality, and identity. Gender and Women's Studies students explore the field through traditional disciplines, such as literature, history, anthropology, sociology, public health, education, law, biology, psychology, political science, and the visual arts. Students in our courses (<https://public.enroll.wisc.edu/search/?term=0000&subject=963>) develop strong analytical and communication skills through classroom discussion, writing, and independent projects. Undergraduates in our programs can pursue research skills through thesis writing, as well as professional development opportunities through career workshops with alumni and in our internship program. As a result, graduates from our programs apply a critical lens in fields like health and public policy, social justice and advocacy, reproductive justice, non-profit administration, clinical medicine, software development, communications, and media production.

At the undergraduate level, the Department of Gender and Women's Studies offers a variety of programs. Students can declare the Gender and Women's Studies major (p. 767) and/or certificates, or minors, in Gender and Women's Studies or LGBTQ+ Studies. The Gender and Women's Studies certificate (p. 783) and the LGBTQ+ Studies certificate (p. 786) are both 5-course, 15-credit programs.

For more information about the department, including course listings, undergraduate advising, sample syllabi, and faculty bios, students can visit the GWS website (<http://www.gws.wisc.edu>).

## GENDER AND WOMEN'S STUDIES, BA

The Gender and Women's Studies (GWS) curriculum provides a platform for students to study how equity and social justice are connected to gender, sexuality, and identity. Gender and Women's Studies students explore the field through traditional disciplines, such as literature, history,

anthropology, sociology, public health, education, law, biology, psychology, political science, and the visual arts. Students in our courses (<https://public.enroll.wisc.edu/search/?term=0000&subject=963>) develop strong analytical and communication skills through classroom discussion, writing, and independent projects. Undergraduates in our programs can pursue research skills through thesis writing, as well as professional development opportunities through career workshops with alumni and in our internship program. As a result, graduates from our programs apply a critical lens in fields like health and public policy, social justice and advocacy, reproductive justice, non-profit administration, clinical medicine, software development, communications, and media production.

At the undergraduate level, the Department of Gender and Women's Studies offers a variety of programs. Students can declare the Gender and Women's Studies major (p. 767) and/or certificates, or minors, in Gender and Women's Studies or LGBTQ+ Studies. The Gender and Women's Studies certificate (p. 783) and the LGBTQ+ Studies certificate (p. 786) are both 5-course, 15-credit programs.

For more information about the department, including course listings, undergraduate advising, sample syllabi, and faculty bios, students can visit the GWS website (<http://www.gws.wisc.edu>).

## HOW TO GET IN

### HOW TO GET IN DECLARATION

Intent to pursue the major can be declared by meeting with the undergraduate advisor (<https://gws.wisc.edu/undergraduate/undergraduate-advising/>) in Gender and Women's Studies and completing this online declaration form ([https://uwmadison.co1.qualtrics.com/jfe/form/SV\\_7TFo8TzXGAcPdOt/](https://uwmadison.co1.qualtrics.com/jfe/form/SV_7TFo8TzXGAcPdOt/)). Declaring the major as early as possible allows students to best align major coursework with their interests.

Students declared in the Certificate in Gender and Women's Studies at the Undergraduate Level may not be declared in the Gender and Women's Studies major at the same time. Students who do wish to declare this major must first cancel their declaration in the certificate.

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

#### General Education

- Breadth—Humanities/Literature/Arts: 6 credits
- Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth—Social Studies: 3 credits
- Communication Part A Part B \*
- Ethnic Studies \*
- Quantitative Reasoning Part A Part B \*

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

### BACHELOR OF ARTS DEGREE REQUIREMENTS

**Mathematics** Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.

**Language**

- Complete the fourth unit of a language other than English; OR
- Complete the third unit of a language and the second unit of an additional language other than English.

**LS Breadth**

- 12 credits of Humanities, which must include 6 credits of literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.

**Liberal Arts and Science Coursework** Complete at least 108 credits.

**Depth of Intermediate/Advanced work** Complete at least 60 credits at the intermediate or advanced level.

**Major** Declare and complete at least one major.

**Total Credits** Complete at least 120 credits.

**UW-Madison Experience**

- 30 credits in residence, overall; and
- 30 credits in residence after the 86th credit.

- Quality of Work
- 2.000 in all coursework at UW–Madison
  - 2.000 in Intermediate/Advanced level coursework at UW–Madison

### NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

### REQUIREMENTS FOR THE MAJOR

Majors in Gender and Women’s Studies are required to take foundational work in GEN&WS courses reflecting each of four approaches to knowledge (humanities, social science, theory, and biological or health sciences), one course from three of four issue areas (sexuality, disability and embodiment, race/ethnicity, and global), and a capstone seminar or thesis.

All majors complete a minimum of 30 credits in GEN&WS including: <sup>1</sup>

#### INTRODUCTORY GEN&WS

Code	Title	Credits
GEN&WS 101	Gender, Women, and Cultural Representation <sup>2</sup>	3
or GEN&WS 102	Gender, Women, and Society in Global Perspective	
GEN&WS 103	Gender, Women, Bodies, and Health	3
<b>Total Credits</b>		<b>6</b>

#### APPROACHES <sup>3</sup>

1 course from each area:

##### Biology and Health

Explore health as both a physiological and a socio#cultural experience, and recognize ways in which gender and other axes of social inequality influence health. Develop critical tools to place the medical field, scientific research, and public health and policy organizations into social contexts, and recognize how these institutions both can reflect and perpetuate dominant ideologies. Learn about feminist approaches to, and histories of, science, medicine, and health activism.

Code	Title	Credits
GEN&WS 104	Gender, Sexuality, and Global Health	3
GEN&WS 523	Framing Fatness: Gender, Size, Constructing Health	3
GEN&WS 524	Race, Gender, Health, and Medicine	3
GEN&WS 525	Gender and Global Health in Critical Perspective	3
GEN&WS 527	The Environment of the Womb: Epigenetics and Parent/Child Health	3
GEN&WS 528	Sexuality and Science	3
GEN&WS 529	The Science and Politics of Reproductive Health	3
GEN&WS 530	Biology and Gender	3
GEN&WS/HIST SCI/ MED HIST 531	Women and Health in American History	3

GEN&WS/HIST SCI/ MED HIST 532	The History of the (American) Body	3
GEN&WS 533	Special Topics in Gender and Biology	3
GEN&WS 534	Gender, Sexuality, and Reproduction: Public Health Perspectives	3
GEN&WS/ INTL ST 535	Women’s Global Health and Human Rights	3
GEN&WS 536	Queering Sexuality Education	3
GEN&WS/ HIST SCI 537	Childbirth in the United States	3
GEN&WS 538	Special Topics in LGBTQ+ Health	3
GEN&WS 539	Special Topics in Gender and Health	3

#### Humanities

Engage with humanities-based theories, content areas, and methodologies as they relate to gender and women’s studies. These include, but are not limited to, critical text analysis, discourse analysis, historical approaches and archival work, media studies, ethnography, and digital humanities. (GEN&WS courses with H, L or Z designations)

<b>Total Credits</b>		<b>3-6</b>

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all GEN&WS and major courses
- 2.000 GPA on 15 upper-level major credits, taken in Residence <sup>5</sup>
- 15 credits in GEN&WS, taken on the UW-Madison campus

## FOOTNOTES

<sup>1</sup> A maximum of three courses designated as elementary level may apply in the major, overall. Directed study courses typically do not count toward the minimum credits required in the major.

- <sup>2</sup> GEN&WS 101 and GEN&WS 102 cannot both count toward the coursework required in the Gender and Women's Studies major. Students must choose one of these courses.
- <sup>3</sup> A single course may apply to both an Approach and an Issue Area. However, a single course may not apply to more than one Approach or to more than one Issue Area.
- <sup>4</sup> Students interested in the doing research in Gender & Women's Studies will develop a thesis topic in consultation with a member of the faculty. The senior thesis course sequence (GEN&WS 691-GEN&WS 692 or GEN&WS 681-GEN&WS 682) serves as the capstone requirement for the major. In this case, the student may still count GEN&WS 640 as an elective in the major.
- <sup>5</sup> Courses in GEN&WS with Intermediate or Advanced level designation are considered upper level in the major.

## HONORS IN THE MAJOR

To declare Honors in the Major in Gender and Women's Studies, students must submit a letter of application to the undergraduate advisor prior to enrollment in GEN&WS 681. The letter should include:

- A list of all planned and declared degrees, major and certificate programs
- Area(s) of research interest within gender and women's studies and ideas for an Senior Honors Thesis
- A letter from a faculty member agreeing to supervise the thesis project

## HONORS IN THE GENDER AND WOMEN'S STUDIES MAJOR REQUIREMENTS

To earn Honors in the Major in Gender and Women's Studies, students must satisfy the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA for all GEN&WS courses
- Complete at least 2 GEN&WS courses totaling 6 or more credits for Honors and earn grades of B or higher
- Complete GEN&WS 681 and GEN&WS 682 for a total of 6 credits.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.

Quality of Work Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## ADVISING AND CAREERS

### ADVISING AND CAREERS

#### ADVISING

Working with your advisor helps you create a meaningful course plan as you complete your degree, major and/or certificate requirements. The undergraduate advisor (<https://gws.wisc.edu/undergraduate/undergraduate-advising/>) is available to consult on a variety of topics, including declaring the major and/or certificate, course selection and building a four-year plan, study abroad, volunteer and internship opportunities on campus and in the community, applying to graduate programs, and preparing for the job market after graduation.

#### Internship Program in Gender and Women's Studies

Applied learning through professional experiences in gender and women's studies provides an opportunity for students to connect academic knowledge with community-based practice. Recognizing the power and importance of experiential and community-based learning, the Department of Gender and Women's Studies proudly offers local and global internship opportunities. In the internship program, students work

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Knowledge of core concepts of gender and women's studies, including: gender, intersectionality, feminist theory, epistemology, class, race/ethnicity, global processes, sexuality, disability & embodiment, health and science, and contemporary and historical issues.
2. Intellectual and practical skills relating to gender and women's studies, including: problem solving, research and inquiry, interdisciplinarity, critical thinking, writing, oral communication, collaboration, creativity, and career skills.
3. Personal and social responsibility anchored through active involvement with diverse communities and real-world challenges. This category may include things like developing critical self and social awareness, applying ethical frameworks, learning through engaged practices.
4. Integrative learning demonstrated through the application of knowledge, skills and responsibilities to new settings and complex problems. This category may be acquired through advanced accomplishment and/or the application beyond the Gender & Women's Studies classroom to, for example, one's life, to activist project, and/or to non-Gender & Women's Studies academic coursework.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

#### First Year

Fall	Credits Spring	Credits
Communication-A, complete during the first year	3 Ethnic Studies, complete in your first 60 credits	3
Quantitative Reasoning-A, complete during the first year	3 Foreign Language, if required	4
Foreign Language, if required	4 GEN&WS 103	3
GEN&WS 102	3 L&S Breadth	3

with organizations to apply their coursework in gender and women's studies to specific issues in the community. The accompanying three-credit internship seminar offers a venue for students to engage deeply in feminist-based work and reflection while thinking critically about how to participate as feminists in activism and professional settings.

### Career Development in Gender and Women's Studies

The Department of Gender and Women's Studies is committed to helping our students articulate how skills and concepts learned in the classroom can be cultivated in professional settings. As reflected in our Learning Outcomes, (<https://womensstudies.wiscweb.wisc.edu/wp-content/uploads/sites/249/2017/09/GWSLearningOutcomes.pdf>) students in gender and women's studies develop important transferable skills in written and oral communication, critical thinking, problem solving, and collaboration, as well as critical self and social awareness. The department continues to expand career development opportunities for our students as we work with our alumni to offer workshops, panels, and networking opportunities. Contact the undergraduate advisor (<https://gws.wisc.edu/undergraduate/undergraduate-advising/>) to learn more about career development opportunities in Gender & Women's Studies.

### L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

## PEOPLE

### PEOPLE

#### FACULTY & STAFF

GWS Faculty (<https://gws.wisc.edu/people/faculty-lecturer-directory/>)

GWS Staff (<https://gws.wisc.edu/people/staff/>)

## GENDER AND WOMEN'S STUDIES, BS

The Gender and Women's Studies (GWS) curriculum provides a platform for students to study how equity and social justice are connected to gender, sexuality, and identity. Gender and Women's Studies students explore the field through traditional disciplines, such as literature, history, anthropology, sociology, public health, education, law, biology, psychology, political science, and the visual arts. Students in our courses (<https://public.enroll.wisc.edu/search/?term=0000&subject=963>) develop strong analytical and communication skills through classroom discussion, writing, and independent projects. Undergraduates in our programs can pursue research skills through thesis writing, as well as professional development opportunities through career workshops with alumni and in our internship program. As a result, graduates from our programs apply a critical lens in fields like health and public policy, social justice and advocacy, reproductive justice, non-profit administration, clinical medicine, software development, communications, and media production.

At the undergraduate level, the Department of Gender and Women's Studies offers a variety of programs. Students can declare the Gender and Women's Studies major (p. 767) and/or certificates, or minors, in Gender and Women's Studies or LGBTQ+ Studies. The Gender and Women's Studies certificate (p. 783) and the LGBTQ+ Studies certificate (p. 786) are both 5-course, 15-credit programs.

For more information about the department, including course listings, undergraduate advising, sample syllabi, and faculty bios, students can visit the GWS website (<http://www.gws.wisc.edu>).

## HOW TO GET IN

### HOW TO GET IN DECLARATION

Intent to pursue the major can be declared by meeting with the undergraduate advisor (<https://gws.wisc.edu/undergraduate/undergraduate-advising/>) in Gender and Women's Studies and completing this online declaration form ([https://uwmadison.co1.qualtrics.com/jfe/form/SV\\_7TFo8TzXGAcPdOt/](https://uwmadison.co1.qualtrics.com/jfe/form/SV_7TFo8TzXGAcPdOt/)). Declaring the major as early as possible allows students to best align major coursework with their interests.

Students declared in the Certificate in Gender and Women's Studies at the Undergraduate Level may not be declared in the Gender and Women's Studies major at the same time. Students who do wish to declare this major must first cancel their declaration in the certificate.

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

- |                   |  |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> <li>• Breadth–Humanities/Literature/Arts: 6 credits</li> <li>• Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth–Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul> |
|-------------------|--|

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

### COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

#### BACHELOR OF SCIENCE DEGREE REQUIREMENTS

- |             |   |
|-------------|---|
| Mathematics | Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.   |
| Language    | Complete the third unit of a language other than English.   |
| LS Breadth  | Complete: <ul style="list-style-type: none"> <li>• 12 credits of Humanities, which must include at least 6 credits of Literature; and</li> <li>• 12 credits of Social Science; and</li> <li>• 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.</li> </ul> |

Liberal Arts and Science Coursework	Complete at least 108 credits.
Depth of Intermediate/Advanced Coursework	Complete at least 60 credits at the Intermediate or Advanced level.
Major	Declare and complete at least one major.
Total Credits	Complete at least 120 credits.
UW–Madison Experience	Complete both: <ul style="list-style-type: none"> <li>• 30 credits in residence, overall, and</li> <li>• 30 credits in residence after the 86th credit.</li> </ul>
Quality of Work	<ul style="list-style-type: none"> <li>• 2.000 in all coursework at UW–Madison</li> <li>• 2.000 in Intermediate/Advanced level coursework at UW–Madison</li> </ul>

### NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

### REQUIREMENTS FOR THE MAJOR

Majors in Gender and Women's Studies are required to take foundational work in GEN&WS courses reflecting each of four approaches to knowledge (humanities, social science, theory, and biological or health sciences), one course from three of four issue areas (sexuality, disability and embodiment, race/ethnicity, and global), and a capstone seminar or thesis.

All majors complete a minimum of 30 credits in GEN&WS including:<sup>1</sup>

#### INTRODUCTORY GEN&WS

Code	Title	Credits
GEN&WS 101	Gender, Women, and Cultural Representation <sup>2</sup>	3
or GEN&WS 102	Gender, Women, and Society in Global Perspective	
GEN&WS 103	Gender, Women, Bodies, and Health	3
<b>Total Credits</b>		<b>6</b>

#### APPROACHES<sup>3</sup>

1 course from each area:

##### Biology and Health

Explore health as both a physiological and a socio#cultural experience, and recognize ways in which gender and other axes of social inequality influence health. Develop critical tools to place the medical field, scientific research, and public health and policy organizations into social contexts, and recognize how these institutions both can reflect and perpetuate dominant ideologies. Learn about feminist approaches to, and histories of, science, medicine, and health activism.

Code	Title	Credits
GEN&WS 104	Gender, Sexuality, and Global Health	3
GEN&WS 523	Framing Fatness: Gender, Size, Constructing Health	3

GEN&WS 691 & GEN&WS 692	Senior Thesis I and Senior Thesis II	
<b>Total Credits</b>		<b>3-6</b>

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all GEN&WS and major courses
- 2.000 GPA on 15 upper-level major credits, taken in Residence<sup>5</sup>
- 15 credits in GEN&WS, taken on the UW-Madison campus

## FOOTNOTES

- <sup>1</sup> A maximum of three courses designated as elementary level may apply in the major, overall. Directed study courses typically do not count toward the minimum credits required in the major.
- <sup>2</sup> GEN&WS 101 and GEN&WS 102 cannot both count toward the coursework required in the Gender and Women's Studies major. Students must choose one of these courses.
- <sup>3</sup> A single course may apply to both an Approach and an Issue Area. However, a single course may not apply to more than one Approach or to more than one Issue Area.
- <sup>4</sup> Students interested in the doing research in Gender & Women's Studies will develop a thesis topic in consultation with a member of the faculty. The senior thesis course sequence (GEN&WS 691-GEN&WS 692 or GEN&WS 681-GEN&WS 682) serves as the capstone requirement for the major. In this case, the student may still count GEN&WS 640 as an elective in the major.
- <sup>5</sup> Courses in GEN&WS with Intermediate or Advanced level designation are considered upper level in the major.

## HONORS IN THE MAJOR

To declare Honors in the Major in Gender and Women's Studies, students must submit a letter of application to the undergraduate advisor prior to enrollment in GEN&WS 681. The letter should include:

- A list of all planned and declared degrees, major and certificate programs
- Area(s) of research interest within gender and women's studies and ideas for an Senior Honors Thesis
- A letter from a faculty member agreeing to supervise the thesis project

## HONORS IN THE GENDER AND WOMEN'S STUDIES MAJOR REQUIREMENTS

To earn Honors in the Major in Gender and Women's Studies, students must satisfy the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA for all GEN&WS courses
- Complete at least 2 GEN&WS courses totaling 6 or more credits for Honors and earn grades of B or higher
- Complete GEN&WS 681 and GEN&WS 682 for a total of 6 credits.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Knowledge of core concepts of gender and women's studies, including: gender, intersectionality, feminist theory, epistemology, class, race/ethnicity, global processes, sexuality, disability & embodiment, health and science, and contemporary and historical issues.
2. Intellectual and practical skills relating to gender and women's studies, including: problem solving, research and inquiry, interdisciplinarity, critical thinking, writing, oral communication, collaboration, creativity, and career skills.
3. Personal and social responsibility anchored through active involvement with diverse communities and real-world challenges. This category may include things like developing critical self and social awareness, applying ethical frameworks, learning through engaged practices.
4. Integrative learning demonstrated through the application of knowledge, skills and responsibilities to new settings and complex problems. This category may be acquired through advanced accomplishment and/or the application beyond the Gender & Women's Studies classroom to, for example, one's life, to activist project, and/or to non-Gender & Women's Studies academic coursework.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic

advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

## ADVISING AND CAREERS

### ADVISING AND CAREERS ADVISING

Working with your advisor helps you create a meaningful course plan as you complete your degree, major and/or certificate requirements. The undergraduate advisor (<https://gws.wisc.edu/undergraduate/undergraduate-advising/>) is available to consult on a variety of topics, including declaring the major and/or certificate, course selection and building a four-year plan, study abroad, volunteer and internship opportunities on campus and in the community, applying to graduate programs, and preparing for the job market after graduation.

#### Internship Program in Gender and Women's Studies

Applied learning through professional experiences in gender and women's studies provides an opportunity for students to connect academic knowledge with community-based practice. Recognizing the power and importance of experiential and community-based learning, the Department of Gender and Women's Studies proudly offers local and global internship opportunities. In the internship program, students work with organizations to apply their coursework in gender and women's studies to specific issues in the community. The accompanying three-credit internship seminar offers a venue for students to engage deeply in feminist-based work and reflection while thinking critically about how to participate as feminists in activism and professional settings.

#### Career Development in Gender and Women's Studies

The Department of Gender and Women's Studies is committed to helping our students articulate how skills and concepts learned in the classroom can be cultivated in professional settings. As reflected in our Learning Outcomes, (<https://womensstudies.wiscweb.wisc.edu/wp-content/uploads/sites/249/2017/09/GWSLearningOutcomes.pdf>) students in gender and women's studies develop important transferable skills in written and oral communication, critical thinking, problem solving, and collaboration, as well as critical self and social awareness. The department continues to expand career development opportunities for our students as we work with our alumni to offer workshops, panels, and networking opportunities. Contact the undergraduate advisor (<https://gws.wisc.edu/undergraduate/undergraduate-advising/>) to learn more about career development opportunities in Gender & Women's Studies.

### L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

## REQUIREMENTS

### PEOPLE FACULTY & STAFF

GWS Faculty (<https://gws.wisc.edu/people/faculty-lecturer-directory/>)

GWS Staff (<https://gws.wisc.edu/people/staff/>)

## GENDER AND WOMEN'S STUDIES, CERTIFICATE

The Gender and Women's Studies (GWS) curriculum provides a platform for students to study how equity and social justice are connected to gender, sexuality, and identity. Gender and Women's Studies students explore the field through traditional disciplines, such as literature, history, anthropology, sociology, public health, education, law, biology, psychology, political science, and the visual arts.

The certificate program requires 15 credits of coursework in gender and women's studies. Students can tailor the certificate to reflect their interests, complement their major or plan for graduate or professional school.

## HOW TO GET IN

### HOW TO GET IN

Intent to pursue the certificate can be declared by meeting with the Department of Gender and Women's Studies undergraduate advisor (<https://gws.wisc.edu/undergraduate/undergraduate-advising/>) or completing this online declaration form ([https://uwmadison.co1.qualtrics.com/jfe/form/SV\\_74d4sq1dVIGCYjX/?Q\\_JFE=qdg](https://uwmadison.co1.qualtrics.com/jfe/form/SV_74d4sq1dVIGCYjX/?Q_JFE=qdg)). Declaring the certificate as early as possible allows students to best align certificate coursework with their interests.

Students declared in the Gender and Women's Studies major are not eligible to declare the Certificate in Gender and Women's Studies at the Undergraduate Level.

### ELECTIVES

Code	Title	Credits
Additional courses in GENWS to reach 15 credits for the certificate		6
<b>Total Credits</b>		<b>6</b>

### FOOTNOTES

- <sup>1</sup> Students cannot take courses pass/fail for credit in the certificate.
- <sup>2</sup> Students may not take both GEN&WS 101 and GEN&WS 102 for the certificate.

### RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all certificate credits
- 9 credits at the intermediate or advanced level
- 8 credits in residence

### UNDERGRADUATE/SPECIAL STUDENT CERTIFICATES

This certificate may be completed within the context of an undergraduate degree or as a Special student after an undergraduate degree has been awarded from any institution. The certificate may be completed in its entirety while enrolled as a Special student. Candidates are encouraged to contact the certificate coordinator to discuss course enrollment and the sequencing of certificate requirements.

### LEARNING OUTCOMES

#### LEARNING OUTCOMES

1. Demonstrate interdisciplinary understanding of core concepts and debates in Gender and Women's Studies.
2. Demonstrate the practical skills related to Gender and Women's Studies, such as critical thinking and analysis, inquiry, and written and oral communication.
3. Understand the interdisciplinary nature of Gender and Women's Studies research and connect this scholarship to the institutions that shape everyday life.
4. Develop Gender and Women's Studies knowledge, skills, and social engagement and demonstrate how these ideas can be applied to new settings, ideas, and understandings.

### ADVISING AND CAREERS

#### ADVISING AND CAREERS

Connecting and working with the undergraduate advisor in Gender and Women's Studies as early as possible helps you create a meaningful course plan and stay on track as you complete the certificate requirements.

The undergraduate advisor (<https://gws.wisc.edu/undergraduate/undergraduate-advising/>) is available to consult on a variety of topics, including declaring the certificate, course selection, study abroad, volunteer and internship opportunities on campus and in the community, applying to graduate programs, and preparing for the job market after graduation.

## L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

## PEOPLE

### PEOPLE

GWS Faculty (<https://gws.wisc.edu/people/faculty-lecturer-directory/>)

GWS Staff (<https://gws.wisc.edu/people/staff/>)

## LGBTQ+ STUDIES, CERTIFICATE

The LGBTQ+ Studies Certificate Program, housed administratively in the Department of Gender and Women's Studies, is a campus-wide program open to students in any major. Courses that count toward this interdisciplinary certificate come from a wide range of fields including literature, history, sociology, medical history, as well as from gender and women's studies, which is in itself an interdisciplinary field. This

certificate can complement many other programs and plans across campus, including, but not limited to gender and women's studies. New courses are added to the program each semester.

## HOW TO GET IN

### HOW TO GET IN

Intent to pursue the certificate can be declared by meeting with the undergraduate advisor (<https://gws.wisc.edu/undergraduate/undergraduate-advising/>) and completing the declaration form ([https://uwmadison.co1.qualtrics.com/jfe/form/SV\\_etf8mvBhIRq826F/](https://uwmadison.co1.qualtrics.com/jfe/form/SV_etf8mvBhIRq826F/)). Declaring the certificate as early as possible allows students to best align certificate coursework with their interests.

## REQUIREMENTS

### REQUIREMENTS

15 credits as follows:<sup>1</sup>

Code	Title	Credits
<b>Introduction to LGBTQ+ Studies</b>		<b>3-4</b>
GEN&WS/ SOC 200	Introduction to Lesbian, Gay, Bisexual, Transgender and Queer+ Studies	
<b>Social Science Course in LGBTQ+ Studies</b>		<b>3</b>
COM ARTS/ GEN&WS 418	Gender, Sexuality, and the Media	
COUN PSY 200	LGBTQ+ People and Mental Health Equity	
COUN PSY 332	Gender and Queer Issues in Psychology	
GEN&WS 280	Honors Seminar: Studies in Gender, Sex, and Sexuality	
GEN&WS 320	Special Topics in Gender, Women and Society (Queer)	
GEN&WS 320	Special Topics in Gender, Women and Society (Sexuality)	
GEN&WS 344	Bi/Pan/Asexuality: Community & Representation	
GEN&WS 340	Topics in LGBTQ Sexuality	
GEN&WS 446	Queer of Color Critique	
GEN&WS 449	Special Topics in Feminist Theory	
GEN&WS 536	Queering Sexuality Education	
GEN&WS 538	Special Topics in LGBTQ+ Health	
GEN&WS 539	Special Topics in Gender and Health (Queer)	
GEN&WS 539	Special Topics in Gender and Health (LGBTQ+)	
HISTORY 275	Topics in LGBT History <sup>2</sup>	
HISTORY/ GEN&WS 354	Women and Gender in the U.S. Since 1870	
SOC WORK 639	Gay, Lesbian, Bisexual, and Transgender (GLBT) Individuals and Social Welfare	

#### Humanities Course in LGBTQ+ Studies

**3**

ASIAN AM/ENGL/ GEN&WS 463	Race and Sexuality in American Literature
GEN&WS/ ENGL 350	Special Topics in Gender & Literature ((Queer))
CLASSICS/ GEN&WS 351	Women and Gender in the Classical World
CLASSICS/ GEN&WS 361	Sex and Power in Greece and Rome
ENGL 171	Literature, Gender, and Sexuality
FOLKLORE/ GEN&WS 468	Feminism, Folklore and Comparative Literature
GEN&WS 310	Special Topics in Gender, Women and the Humanities (Queer)
GEN&WS 340	Topics in LGBTQ Sexuality
GEN&WS 342	Transgender Studies
GEN&WS 343	Queer Bodies
GEN&WS/ HISTORY 346	Trans/Gender in Historical Perspective
GEN&WS 410	Special Topics in Gender and Visual Culture (Queer)

GEN&WS/ HIST SCI/ MED HIST 532	The History of the (American) Body
HISTORY 275	Topics in LGBT History
HISTORY/ GEN&WS 346	Trans/Gender in Historical Perspective
HISTORY/ GEN&WS 519	Sexuality, Modernity and Social Change
SCAND ST/ GEN&WS/ LITTRANS 438	Sexual Politics in Scandinavia
THEATRE/ GEN&WS 415	Introduction to Contemporary Feminist Theatre and Criticism
<b>Electives in LGBTQ+ Studies (Humanities, Social Science, or other listed below)</b>	<b>6</b>
GEN&WS 533	Special Topics in Gender and Biology (Queer)
GEN&WS 533	Special Topics in Gender and Biology (LGBTQ+)

**Total Credits** **15**

<sup>1</sup> No more than two Elementary level courses, including GEN&WS/ SOC 200, can count for the LGBTQ+ Studies certificate. Courses taken on a pass/fail basis will not satisfy certificate requirements.

<sup>2</sup> Topics courses, such as HISTORY 275 and GEN&WS 340, may be taught with a number of different LGBTQ+ Studies topics and therefore may be taken more than once, so long as the topic is different.

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all GEN&WS courses and all certificate courses
- 8 certificate credits In Residence

## CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Demonstrate interdisciplinary understanding of core concepts and debates in LGBTQ+ Studies.
2. Demonstrate the practical skills related to LGBTQ+ Studies, such as critical thinking and analysis, inquiry, and written and oral communication.
3. Understand the interdisciplinary nature of LGBTQ+ Studies research, and connect this scholarship to the institutions that shape everyday life.
4. Develop LGBTQ+ Studies knowledge, skills, and social engagement and demonstrate how these ideas can be applied to new settings, ideas, and understandings.

## ADVISING AND CAREERS

### ADVISING AND CAREERS

Connecting and working with the undergraduate advisor in LGBTQ+ studies as early as possible helps you create a meaningful course plan and stay on track as you complete the certificate requirements.

The undergraduate advisor (<https://gws.wisc.edu/undergraduate/undergraduate-advising/>) is available to consult on a variety of topics, including declaring the certificate, course selection, study abroad, volunteer and internship opportunities on campus and in the community, applying to graduate programs, and preparing for the job market after graduation.

### L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or

graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

## PEOPLE

### PEOPLE

**LGBTQ+ Studies Program Faculty** (<https://gws.wisc.edu/people/lgbtqstudiesprogramfaculty/>)

Academic Advisor: Lachrista Greco (<https://gws.wisc.edu/staff/greco-lachrista/>)

Curricular Planning: Nina Valeo Cooke (<https://gws.wisc.edu/staff/valeo-nina/>)

## GEOGRAPHY

Geography studies the interaction between people and their environments including the ways in which the people, the environments, and the interactions all vary from place to place over the earth. Because it is concerned with the character of people and their cultures on the one hand, and with the character of the earth's surface and its resources on the other, it is both a social and a natural science. Being broad and integrative, geography provides an appropriate foundation for a liberal education. It also provides a base for employment in public or private agencies, both domestic and international, concerned with environmental management, locational analysis or planning (urban, regional, land use).

Cartography/GIS, also known more broadly as geographic information science, studies and develops digital technology and the theory behind this technology to help people work with geographic information. This broad area interfaces with work from the physical and social sciences. It is a field devoted to the acquisition, management, analysis, visualization, and representation of geospatial data. It is a relatively new discipline that incorporates geography, cartography, spatial analysis, and related fields such as geovisualization, geodesy, geocomputation, cognition, and computer science. At the present time professionals trained in geographic information science are very much in demand by federal agencies, state and local governments, and private firms.

The student desiring a limited introduction to the field of geography may select any introductory course in cultural or physical geography. Students with special interests in any of a number of fields outside of

geography, such as history, political science, economics, anthropology, sociology, meteorology, geology, etc., will find useful background courses in geography. The student desiring a limited introduction to the field of GIScience may select either GEOG 170 Our Digital Globe: An Overview of GIScience and its Technology or GEOG 370 Introduction to Cartography or GEOG/CIV ENGR/ENVIR ST 377 An Introduction to Geographic Information Systems. Students in landscape architecture, urban and regional planning, civil and environmental engineering, medical illustration, or the environmental sciences may find GIScience a useful addition to their major course of study.

Department course offerings are listed in five major groups:

1. Physical Geography: Earth Systems and Environmental Processes
2. People-Environment Interaction
3. Human Geography
4. Area Studies and Global Systems
5. Cartography and Geographic Information Science

Courses in groups 1 and 5 are counted as physical science; those in groups 2 (except GEOG/ENVIR ST/SOIL SCI 230 Soil: Ecosystem and Resource and BOTANY 240 Plants and Humans), 3, and 4 are counted as social science.

## CARTOGRAPHY AND GEOGRAPHIC INFORMATION SYSTEMS, BA

People often ask, "So you're a cartographer? Hasn't everything already been mapped?" No, cartographers are not explorers charting frontiers in an ancient time; we are artists, community organizers, data scientists, visual storytellers, and full-stack web developers. In an era of massive data sets and location-based apps, maps and geospatial data have never been more important, and the UW-Madison Cartography and GIS major covers the conceptual foundations and technical skills needed to harness maps and geospatial data to solve society's most pressing problems. Courses range from graphic design and web mapping to big data analytics and mobile app development, with all courses having an important

laboratory component to work with industry-standard cartography and GIS technology. So, yes, everywhere has been mapped in some form, but in a dynamic world driven by information and technology, cartographers and GIS scientists are needed more now than ever to help us understand our changing planet.

## HOW TO GET IN

### HOW TO GET IN

Exploring the field of geographic information science at UW–Madison is easy. Interested students are strongly encouraged to take introductory courses in the field. The Department of Geography offers four intro courses in geographic information science:

- GEOG 170 Our Digital Globe: An Overview of GIScience and its Technology;
- GEOG 370 Introduction to Cartography;
- GEOG/ENVIR ST/F&W ECOL/G L E/GEOSCI/LAND ARC 371 Introduction to Environmental Remote Sensing; and
- GEOG/CIV ENGR/ENVIR ST 377 An Introduction to Geographic Information Systems

Students who intend to declare their major as Cartography and Geographic Information Systems need to schedule an appointment with the geography undergraduate advisor.

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

- General Education
- Breadth–Humanities/Literature/Arts: 6 credits
  - Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
  - Breadth–Social Studies: 3 credits
  - Communication Part A Part B \*
  - Ethnic Studies \*
  - Quantitative Reasoning Part A Part B \*

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

### BACHELOR OF ARTS DEGREE REQUIREMENTS

**Mathematics** Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.

<b>Language</b>	<ul style="list-style-type: none"> <li>• Complete the fourth unit of a language other than English; OR</li> <li>• Complete the third unit of a language and the second unit of an additional language other than English.</li> </ul>
-----------------	--

<b>LS Breadth</b>	<ul style="list-style-type: none"> <li>• 12 credits of Humanities, which must include 6 credits of literature; and</li> <li>• 12 credits of Social Science; and</li> <li>• 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.</li> </ul>
-------------------	--

<b>Liberal Arts and Science Coursework</b>	Complete at least 108 credits.
--	--------------------------------

<b>Depth of Intermediate/Advanced work</b>	Complete at least 60 credits at the intermediate or advanced level.
--	---

<b>Major</b>	Declare and complete at least one major.
--------------	--

<b>Total Credits</b>	Complete at least 120 credits.
----------------------	--------------------------------

<b>UW-Madison Experience</b>	<ul style="list-style-type: none"> <li>• 30 credits in residence, overall; and</li> <li>• 30 credits in residence after the 86th credit.</li> </ul>
------------------------------	---

<b>Quality of Work</b>	<ul style="list-style-type: none"> <li>• 2.000 in all coursework at UW–Madison</li> <li>• 2.000 in Intermediate/Advanced level coursework at UW–Madison</li> </ul>
------------------------	--

### NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

### REQUIREMENTS FOR THE MAJOR BREADTH

3 courses, 1 each from these areas:

Code	Title	Credits
<b>Human Geography (1 course)</b>		<b>3</b>
GEOG 101	Introduction to Human Geography	
GEOG 104	Introduction to Human Geography	
GEOG/ART HIST/ ENVIR ST/ HISTORY/ LAND ARC 239	Making the American Landscape	
GEOG 300	Weird Geographies	
GEOG 301	Revolutions and Social Change	
GEOG 302	Economic Geography: Locational Behavior	
GEOG/ URB R PL 305	Introduction to the City	
GEOG 307	International Migration, Health, and Human Rights	
GEOG/CHICLA/ GEN&WS 308	Latinx Feminisms: Women's Lives, Work, and Activism	
GEOG/ INTL ST 311	The Global Game: Soccer, Politics, and Identity	
GEOG/ INTL ST 315	Universal Basic Income: The Politics Behind a Global Movement	
GEOG 318	Introduction to Geopolitics	
GEOG 340	World Regions in Global Context	
GEOG 342	Geography of Wisconsin	
GEOG 355	Africa, South of the Sahara	
GEOG 358	Human Geography of Southeast Asia	
GEOG/ AMER IND 410	Critical Indigenous Ecological Knowledges	
GEOG 501	Space and Place: A Geography of Experience	
GEOG/ URB R PL 503	Researching the City: Qualitative Strategies	
GEOG/ GEN&WS 504	Feminist Geography: Theoretical Approaches	
GEOG/ URB R PL 505	Urban Spatial Patterns and Theories	
GEOG 507	Waste Geographies: Politics, People, and Infrastructures	
GEOG 510	Economic Geography	
GEOG 511	Critical Social Theory	
GEOG/ GEN&WS 514	Feminist Geography: Methodological Approaches	
GEOG 518	Power, Place, Identity	
GEOG 566	History of Geographic Thought	
<b>People-Environment (1 course)</b>		<b>3</b>
GEOG/ ENVIR ST 139	Global Environmental Issues	
GEOG/ART HIST/ ENVIR ST/ HISTORY/ LAND ARC 239	Making the American Landscape	
GEOG/ ENVIR ST 309	People, Land and Food: Comparative Study of Agriculture Systems	
GEOG/ ATM OCN/ ENVIR ST 332	Global Warming: Science and Impacts	
GEOG/ ENVIR ST 333	Green Urbanism	
GEOG/ ENVIR ST 337	Nature, Power and Society	
GEOG/ BOTANY 338	Environmental Biogeography	
GEOG/ ENVIR ST 339	Environmental Conservation	
GEOG 340	World Regions in Global Context	
GEOG 344	Changing Landscapes of the American West	
GEOG/ AMER IND/ ENVIR ST 345	Caring for Nature in Native North America	
GEOG 359	Australia: Environment and Society	
GEOG/ AMER IND 410	Critical Indigenous Ecological Knowledges	
GEOG/C&E SOC/ ENVIR ST 434	People, Wildlife and Landscapes	
GEOG/ ENVIR ST 439	US Environmental Policy and Regulation	
GEOG/ENVIR ST/ HISTORY 460	American Environmental History	
GEOG/ SOIL SCI 526	Human Transformations of Earth Surface Processes	
GEOG/ ENVIR ST 534	Environmental Governance: Markets, States and Nature	
GEOG/ ENVIR ST 537	Culture and Environment	
GEOG 538	The Humid Tropics: Ecology, Subsistence, and Development	
GEOG/ ENVIR ST 557	Development and Environment in Southeast Asia	
<b>Physical Geography (1 course)</b>		<b>3</b>
GEOG/ ENVIR ST 120	Introduction to the Earth System	
GEOG/ ENVIR ST 127	Physical Systems of the Environment	
GEOG/ GEOSCI 320	Geomorphology	
GEOG/ ATM OCN/ ENVIR ST 322	Polar Regions and Their Importance in the Global Environment	
GEOG 329	Landforms and Landscapes of North America	
GEOG/ ATM OCN/ ENVIR ST 332	Global Warming: Science and Impacts	
GEOG/ ATM OCN/ ENVIR ST/ GEOSCI 335	Climatic Environments of the Past	
GEOG/ BOTANY 338	Environmental Biogeography	

GEOG 342	Geography of Wisconsin	
GEOG 344	Changing Landscapes of the American West	
GEOG/ GEOSCI 420	Glacial and Pleistocene Geology	
GEOG 523	Advanced Paleoecology: Species Responses to Past Environmental Change	
GEOG/ SOIL SCI 525	Soil Geomorphology	
GEOG/ SOIL SCI 526	Human Transformations of Earth Surface Processes	
<b>Total Credits</b>		<b>9</b>

## SKILLS, TECHNIQUES & METHODOLOGY

Code	Title	Credits
<b>Core Cartography/GIS</b>		
GEOG 370	Introduction to Cartography	4
GEOG/ENVIR ST/ F&W ECOL/ GLE/GEOSCI/ LAND ARC 371 or GEOG 379	Introduction to Environmental Remote Sensing Geospatial Technologies: Drones, Sensors, and Applications	3
GEOG/CIV ENGR/ ENVIR ST 377	An Introduction to Geographic Information Systems	4
GEOG 378	Introduction to Geocomputing	4
<b>Quantitative Methods (1 course)</b>		<b>3-4</b>
GEOG 560	Advanced Quantitative Methods	
STAT 301	Introduction to Statistical Methods	
STAT 324	Introductory Applied Statistics for Engineers	
STAT 371	Introductory Applied Statistics for the Life Sciences	
<b>Mathematics Proficiency</b>		<b>6</b>
<i>Complete one of the following by Placement or by completing the course</i>		
MATH 112 & MATH 113	Algebra and Trigonometry	
MATH 114	Algebra and Trigonometry	
<b>Total Credits</b>		<b>24-25</b>

## DEPTH

Code	Title	Credits
<b>Two courses</b>		
GEOG/ENVIR ST/ LAND ARC/ URB R PL 532	Applications of Geographic Information Systems in Planning	
GEOG 572	Graphic Design in Cartography	
GEOG 573	Advanced Geocomputing and Geospatial Big Data Analytics	
GEOG 574	Geospatial Database Design and Development	
GEOG 575	Interactive Cartography & Geovisualization	

GEOG 576	Geospatial Web and Mobile Programming	
GEOG 578	GIS Applications	
GEOG 579	GIS and Spatial Analysis	
<b>Total Credits</b>		<b>7-8</b>

## CAPSTONE

Code	Title	Credits
<b>Complete one of:</b>		
GEOG 565	Colloquium for Undergraduate Majors	
GEOG 681 & GEOG 682	Senior Honors Thesis and Senior Honors Thesis	
GEOG 691 & GEOG 692	Senior Thesis and Senior Thesis	
<b>Total Credits</b>		<b>3-6</b>

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in GEOG and major courses
- 2.000 GPA on 15 upper-level credits, taken in residence<sup>2</sup>
- 15 credits in GEOG, taken on the UW-Madison campus

<sup>2</sup> GEOG courses designated Intermediate/Advanced are upper level in this major.

## HONORS IN THE MAJOR

Students may declare Honors in the Cartography and GIS Major in consultation with the Geography undergraduate advisor.

## HONORS IN THE CARTOGRAPHY AND GEOGRAPHIC INFORMATION SYSTEMS MAJOR REQUIREMENTS

To earn Honors in the Major in Cartography and Geographic Information Systems, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 GPA for all GEOG courses, and all courses accepted in the major
- Complete GEOG 578: GIS Applications with a grade of B or better
- Complete at least one advanced-level course OR 6 credits of honors credits in the major at the 300 level or above
- Complete a two-semester Senior Honors Thesis in GEOG 681 Senior Honors Thesis and GEOG 682 Senior Honors Thesis, a piece of original research composition, for a total of 6 credits.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Apply cartographic design principles and visual storytelling to transform geospatial data into actionable insights.
2. Apply appropriate technologies and methods, including geographic information systems (GIS) and informed geodatabase design, to analyze qualitative and quantitative geospatial data.
3. Use appropriate geographic concepts, methods, and technologies to interpret the dynamic interactions among human and natural characteristics of place and space.
4. Combine geospatial theories, methodologies, and project management strategies to design and conduct ethical cartographic and geographic research and development.
5. Utilize appropriate GIS-based spatial decision tools to inform discussions of social, economic, and environmental issues that confront policymakers and citizens.
6. Discuss complex geospatial data, concepts, and technologies using written, oral, and visual forms of communication appropriate for technical, non-technical, and community-based audiences.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

First Year		
Fall	Credits Spring	Credits
MATH 112	3 MATH 113	3
Communication A	3 Ethnic Studies	4
Foreign Language	4 Foreign Language	4
Humanities Breadth	3 Literature Breadth	3
Elective	2	
	<b>15</b>	<b>14</b>

Second Year		
Fall	Credits Spring	Credits
STAT 301	3 GEOG/CIV ENGR/ ENVIR ST 377	4
GEOG 370	4 Communication B	4
INTER-LS 210	1 Biological Science Breadth	3
Literature Breadth	3 Elective	4
Elective	4	
	<b>15</b>	<b>15</b>

Third Year		
Fall	Credits Spring	Credits
GEOG 378	4 500-level Cartography/ GIS Elective	4
Major course: Human Geography	3-4 Biological Science Breadth	3
Electives	9 Humanities Breadth	3
	Major course: People- Environment Geography	3-4
	<b>16</b>	<b>14</b>

Fourth Year		
Fall	Credits Spring	Credits
GEOG/ENVIR ST/ F&W ECOL/G L E/ GEOSCI/LAND ARC 371	3 500-level Cartography/ GIS Elective	4
Major course: Physical Geography	4 Electives	12
GEOG 565	3	
Electives	5	
	<b>15</b>	<b>16</b>

**Total Credits 120**

## ADVISING AND CAREERS

### ADVISING AND CAREERS

#### ADVISING

Students with questions about the major, courses, and careers are encouraged to contact the geography undergraduate advisor, Joel Gruley, at [jgruley@wisc.edu](mailto:jgruley@wisc.edu).

#### CAREERS

Cartography and GIS is a booming profession, but remains one of the biggest secrets on campus because of the limited treatment of geography in K-12 education. The Department of Labor reported that there were 425,000 U.S. residents working in the geospatial industry (<http://www.esri.com/news/arcnews/summer12articles/strengthening-the-gis-profession.html>) in 2010, and the National Research Council estimates this could exceed 2 million by 2020. Cartography and GIS recently was rated the #1 profession in engineering, in part due to its extremely low unemployment rate (less than 1% of students with degrees!), strong future growth of the job market, and relatively low stress rating. Our alumni work in local, national, and international government positions, as well as in private industry, including firms such as Apple, Google, Facebook, and Uber, and media outlets such as *National Geographic*, *The New York Times*, and *The Wall Street Journal*.

## L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

## PEOPLE

### PEOPLE

#### GEOGRAPHY FACULTY AND STAFF

Faculty (<https://geography.wisc.edu/people/faculty/>)

Staff (<https://geography.wisc.edu/people/staff/#staff>)

## CARTOGRAPHY AND GEOGRAPHIC INFORMATION SYSTEMS, BS

People often ask, "So you're a cartographer? Hasn't everything already been mapped?" No, cartographers are not explorers charting frontiers in an ancient time; we are artists, community organizers, data scientists, visual storytellers, and full-stack web developers. In an era of massive data sets and location-based apps, maps and geospatial data have never been more important, and the UW-Madison Cartography and GIS major covers the conceptual foundations and technical skills needed to harness maps and geospatial data to solve society's most pressing problems. Courses range from graphic design and web mapping to big data analytics and mobile app development, with all courses having an important laboratory component to work with industry-standard cartography and

GIS technology. So, yes, everywhere has been mapped in some form, but in a dynamic world driven by information and technology, cartographers and GIS scientists are needed more now than ever to help us understand our changing planet.

## HOW TO GET IN

### HOW TO GET IN

Exploring the field of geographic information science at UW-Madison is easy. Interested students are strongly encouraged to take introductory courses in the field. The Department of Geography offers four intro courses in geographic information science:

- GEOG 170 Our Digital Globe: An Overview of GIScience and its Technology;
- GEOG 370 Introduction to Cartography;
- GEOG/ENVIR ST/F&W ECOL/G L E/GEOSCI/LAND ARC 371 Introduction to Environmental Remote Sensing; and
- GEOG/CIV ENGR/ENVIR ST 377 An Introduction to Geographic Information Systems

Students who intend to declare their major as Cartography and Geographic Information Systems need to schedule an appointment with the geography undergraduate advisor.

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

- |                   |  |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> <li>• Breadth-Humanities/Literature/Arts: 6 credits</li> <li>• Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth-Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul> |
|-------------------|--|

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

### BACHELOR OF SCIENCE DEGREE REQUIREMENTS

**Mathematics** Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.

**Language** Complete the third unit of a language other than English.

**LS Breadth** Complete:

- 12 credits of Humanities, which must include at least 6 credits of Literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.

**Liberal Arts and Science Coursework** Complete at least 108 credits.

**Depth of Intermediate/Advanced Coursework** Complete at least 60 credits at the Intermediate or Advanced level.

**Major** Declare and complete at least one major.

**Total Credits** Complete at least 120 credits.

**UW-Madison Experience** Complete both:

- 30 credits in residence, overall, and
- 30 credits in residence after the 86th credit.

**Quality of Work**

- 2.000 in all coursework at UW-Madison
- 2.000 in Intermediate/Advanced level coursework at UW-Madison

### NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

### REQUIREMENTS FOR THE MAJOR BREADTH

3 courses, 1 each from these areas:

Code	Title	Credits
<b>Human Geography (1 course)</b>		<b>3</b>
GEOG 101	Introduction to Human Geography	
GEOG 104	Introduction to Human Geography	

GEOG/ART HIST/ ENVIR ST/ HISTORY/ LAND ARC 239 Making the American Landscape

GEOG 300 Weird Geographies

GEOG 301 Revolutions and Social Change

GEOG 302 Economic Geography: Locational Behavior

GEOG/ URB R PL 305 Introduction to the City

GEOG 307 International Migration, Health, and Human Rights

GEOG/CHICLA/ GEN&WS 308 Latinx Feminisms: Women's Lives, Work, and Activism

GEOG/ INTL ST 311 The Global Game: Soccer, Politics, and Identity

GEOG/ INTL ST 315 Universal Basic Income: The Politics Behind a Global Movement

GEOG 318 Introduction to Geopolitics

GEOG 340 World Regions in Global Context

GEOG 342 Geography of Wisconsin

GEOG 355 Africa, South of the Sahara

GEOG 358 Human Geography of Southeast Asia

GEOG/ AMER IND 410 Critical Indigenous Ecological Knowledges

GEOG 501 Space and Place: A Geography of Experience

GEOG/ URB R PL 503 Researching the City: Qualitative Strategies

GEOG/ GEN&WS 504 Feminist Geography: Theoretical Approaches

GEOG/ URB R PL 505 Urban Spatial Patterns and Theories

GEOG 507 Waste Geographies: Politics, People, and Infrastructures

GEOG 510 Economic Geography

GEOG 511 Critical Social Theory

GEOG/ GEN&WS 514 Feminist Geography: Methodological Approaches

GEOG 518 Power, Place, Identity

GEOG 566 History of Geographic Thought

#### People-Environment (1 course)

**3**

GEOG/ ENVIR ST 139 Global Environmental Issues

GEOG/ART HIST/ ENVIR ST/ HISTORY/ LAND ARC 239 Making the American Landscape

GEOG/ ENVIR ST 309 People, Land and Food: Comparative Study of Agriculture Systems

GEOG/ ATM OCN/ ENVIR ST 332 Global Warming: Science and Impacts

GEOG/ ENVIR ST 333	Green Urbanism
GEOG/ ENVIR ST 337	Nature, Power and Society
GEOG/ BOTANY 338	Environmental Biogeography
GEOG/ ENVIR ST 339	Environmental Conservation
GEOG 340	World Regions in Global Context
GEOG 344	Changing Landscapes of the American West
GEOG/ AMER IND/ ENVIR ST 345	Caring for Nature in Native North America
GEOG 359	Australia: Environment and Society
GEOG/ AMER IND 410	Critical Indigenous Ecological Knowledges
GEOG/C&E SOC/ ENVIR ST 434	People, Wildlife and Landscapes
GEOG/ ENVIR ST 439	US Environmental Policy and Regulation
GEOG/ENVIR ST/ HISTORY 460	American Environmental History
GEOG/ SOIL SCI 526	Human Transformations of Earth Surface Processes
GEOG/ ENVIR ST 534	Environmental Governance: Markets, States and Nature
GEOG/ ENVIR ST 537	Culture and Environment
GEOG 538	The Humid Tropics: Ecology, Subsistence, and Development
GEOG/ ENVIR ST 557	Development and Environment in Southeast Asia

**Physical Geography (1 course) 3**

GEOG/ ENVIR ST 120	Introduction to the Earth System
GEOG/ ENVIR ST 127	Physical Systems of the Environment
GEOG/ GEOSCI 320	Geomorphology
GEOG/ ATM OCN/ ENVIR ST 322	Polar Regions and Their Importance in the Global Environment
GEOG 329	Landforms and Landscapes of North America
GEOG/ ATM OCN/ ENVIR ST 332	Global Warming: Science and Impacts
GEOG/ ATM OCN/ ENVIR ST/ GEOSCI 335	Climatic Environments of the Past
GEOG/ BOTANY 338	Environmental Biogeography
GEOG 342	Geography of Wisconsin
GEOG 344	Changing Landscapes of the American West

GEOG/ GEOSCI 420	Glacial and Pleistocene Geology
GEOG 523	Advanced Paleoecology: Species Responses to Past Environmental Change
GEOG/ SOIL SCI 525	Soil Geomorphology
GEOG/ SOIL SCI 526	Human Transformations of Earth Surface Processes

**Total Credits 9**

**SKILLS, TECHNIQUES & METHODOLOGY**

Code	Title	Credits
<b>Core Cartography/GIS</b>		
GEOG 370	Introduction to Cartography	4
GEOG/ENVIR ST/ F&W ECOL/ G L E/GEOSCI/ LAND ARC 371	Introduction to Environmental Remote Sensing	3
or GEOG 379	Geospatial Technologies: Drones, Sensors, and Applications	
GEOG/CIV ENGR/ ENVIR ST 377	An Introduction to Geographic Information Systems	4
GEOG 378	Introduction to Geocomputing	4

**Quantitative Methods (1 course) 3-4**

GEOG 560	Advanced Quantitative Methods
STAT 301	Introduction to Statistical Methods
STAT 324	Introductory Applied Statistics for Engineers
STAT 371	Introductory Applied Statistics for the Life Sciences

**Mathematics Proficiency 6**

*Complete one of the following by Placement or by completing the course*

MATH 112	Algebra
& MATH 113	and Trigonometry
MATH 114	Algebra and Trigonometry

**Total Credits 24-25**

**DEPTH**

Code	Title	Credits
<b>Two courses 7-8</b>		
GEOG/ENVIR ST/ LAND ARC/ URB R PL 532	Applications of Geographic Information Systems in Planning	
GEOG 572	Graphic Design in Cartography	
GEOG 573	Advanced Geocomputing and Geospatial Big Data Analytics	
GEOG 574	Geospatial Database Design and Development	
GEOG 575	Interactive Cartography & Geovisualization	
GEOG 576	Geospatial Web and Mobile Programming	
GEOG 578	GIS Applications	

GEOG 579	GIS and Spatial Analysis	
<b>Total Credits</b>		<b>7-8</b>
<b>CAPSTONE</b>		
<b>Code</b>	<b>Title</b>	<b>Credits</b>
<b>Complete one of:</b>		<b>3-6</b>
GEOG 565	Colloquium for Undergraduate Majors	
GEOG 681 & GEOG 682	Senior Honors Thesis and Senior Honors Thesis	
GEOG 691 & GEOG 692	Senior Thesis and Senior Thesis	
<b>Total Credits</b>		<b>3-6</b>

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in GEOG and major courses
- 2.000 GPA on 15 upper-level credits, taken in residence<sup>2</sup>
- 15 credits in GEOG, taken on the UW–Madison campus

<sup>2</sup> GEOG courses designated Intermediate/Advanced are upper level in this major.

## HONORS IN THE MAJOR

Students may declare Honors in the Cartography and GIS Major in consultation with the Geography undergraduate advisor.

### HONORS IN THE CARTOGRAPHY AND GEOGRAPHIC INFORMATION SYSTEMS MAJOR REQUIREMENTS

To earn Honors in the Major in Cartography and Geographic Information Systems, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 GPA for all GEOG courses, and all courses accepted in the major
- Complete GEOG 578: GIS Applications with a grade of B or better
- Complete at least one advanced-level course OR 6 credits of honors credits in the major at the 300 level or above
- Complete a two-semester Senior Honors Thesis in GEOG 681 Senior Honors Thesis and GEOG 682 Senior Honors Thesis, a piece of original research composition, for a total of 6 credits.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Apply cartographic design principles and visual storytelling to transform geospatial data into actionable insights.
2. Apply appropriate technologies and methods, including geographic information systems (GIS) and informed geodatabase design, to analyze qualitative and quantitative geospatial data.
3. Use appropriate geographic concepts, methods, and technologies to interpret the dynamic interactions among human and natural characteristics of place and space.
4. Combine geospatial theories, methodologies, and project management strategies to design and conduct ethical cartographic and geographic research and development.
5. Utilize appropriate GIS-based spatial decision tools to inform discussions of social, economic, and environmental issues that confront policymakers and citizens.
6. Discuss complex geospatial data, concepts, and technologies using written, oral, and visual forms of communication appropriate for technical, non-technical, and community-based audiences.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

#### First Year

Fall	Credits Spring	Credits
MATH 112	3 MATH 113	3
Communication A	3 Ethnic Studies	4
Foreign Language	4 Foreign Language	4
Humanities Breadth	3 Literature Breadth	3
Elective	2	
	<b>15</b>	<b>14</b>

**Second Year**

Fall	Credits Spring	Credits
STAT 301	3 GEOG/CIV ENGR/ ENVR ST 377	4

<b>15</b>		<b>16</b>

**Total Credits 120**

**ADVISING AND CAREERS**

**ADVISING AND CAREERS**

**ADVISING**

Students with questions about the major, courses, and careers are encouraged to contact the geography undergraduate advisor, Joel Gruley, at [jgruley@wisc.edu](mailto:jgruley@wisc.edu).

**CAREERS**

Cartography and GIS is a booming profession, but remains one of the biggest secrets on campus because of the limited treatment of geography in K-12 education. The Department of Labor reported that there were 425,000 U.S. residents working in the geospatial industry (<http://www.esri.com/news/arcnews/summer12articles/strengthening-the-gis-profession.html>) in 2010, and the National Research Council estimates this could exceed 2 million by 2020. Cartography and GIS recently was rated the #1 profession in engineering, in part due to its extremely low unemployment rate (less than 1% of students with degrees!), strong future growth of the job market, and relatively low stress rating. Our alumni work in local, national, and international government positions, as well as in private industry, including firms such as Apple, Google, Facebook, and Uber, and media outlets such as *National Geographic*, *The New York Times*, and *The Wall Street Journal*.

**L&S CAREER RESOURCES**

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

**PEOPLE**

**PEOPLE GEOGRAPHY FACULTY AND STAFF**

Faculty (<https://geography.wisc.edu/people/faculty/>)

Staff (<https://geography.wisc.edu/people/staff/#staff>)

**GEOGRAPHY, BA**

Are you passionate about environmental sustainability? Are you curious about what a socially just world might look like? Do you find physical landscapes inspiring? Are you interested in the analysis and visualization of data? Are you intrigued by the diversity of people and places around the world? Do you find the social life of cities fascinating? Are you kept up at night wondering why some places are rich while others are poor? If you answered “yes” to any of these questions, but especially more than one, Geography could be a great fit for you. Geography is especially ideal for individuals who have a wide range of interests spanning the natural sciences, humanities, social sciences, and data sciences.

Geography is an interdisciplinary field that seeks to understand patterns and interrelationships on Earth. These range from humans' relationships with the environment and the interactions of earth systems to the social worlds and built environments that different societies build to mapping

and spatial analysis of big data. It is a rich and vibrant discipline that is essential to understanding the world and many of its problems. Geography thus offers a unique lens through which to illuminate the intertwined places, societies, and ecologies that comprise our diverse world.

## HOW TO GET IN

### HOW TO GET IN

Exploring the field of geography at UW–Madison is easy. Interested students are strongly encouraged to take introductory courses in the field. The Department of Geography offers four intro courses, each of which surveys one of the four major subareas that comprise the discipline:

1. human geography;
2. people–environment geography;
3. physical geography; and
4. cartography and geographic information science.

The four intro classes are:

- GEOG 101 Introduction to Human Geography;
- GEOG/ENVIR ST 120 Introduction to the Earth System;
- GEOG/ENVIR ST 139 Global Environmental Issues; and
- GEOG 170 Our Digital Globe: An Overview of GIScience and its Technology (online).

Students who intend to declare their major in geography must schedule an appointment with the geography undergraduate advisor.

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

General Education

- Breadth–Humanities/Literature/Arts: 6 credits
- Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth–Social Studies: 3 credits
- Communication Part A Part B \*
- Ethnic Studies \*
- Quantitative Reasoning Part A Part B \*

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

### COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

#### BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.
Language	<ul style="list-style-type: none"> <li>• Complete the fourth unit of a language other than English; OR</li> <li>• Complete the third unit of a language and the second unit of an additional language other than English.</li> </ul>
LS Breadth	<ul style="list-style-type: none"> <li>• 12 credits of Humanities, which must include 6 credits of literature; and</li> <li>• 12 credits of Social Science; and</li> <li>• 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.</li> </ul>
Liberal Arts and Science Coursework	Complete at least 108 credits.
Depth of Intermediate/Advanced work	Complete at least 60 credits at the intermediate or advanced level.
Major	Declare and complete at least one major.
Total Credits	Complete at least 120 credits.
UW–Madison Experience	<ul style="list-style-type: none"> <li>• 30 credits in residence, overall; and</li> <li>• 30 credits in residence after the 86th credit.</li> </ul>

- Quality of Work
- 2.000 in all coursework at UW–Madison
  - 2.000 in Intermediate/Advanced level coursework at UW–Madison

## NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

Students must declare one of the major options (p. 800) below, complete Core Requirements common to each option, and also the specific requirements for their declared option.

### CORE REQUIREMENTS

30 credits the major, to include these core requirements:

#### Breadth

3 courses, 1 each from these areas:

Code	Title	Credits
<b>Human Geography (1 course)</b>		<b>3</b>
GEOG 101	Introduction to Human Geography	
GEOG 104	Introduction to Human Geography	
GEOG/ART HIST/ ENVIR ST/ HISTORY/ LAND ARC 239	Making the American Landscape	
GEOG 300	Weird Geographies	
GEOG 301	Revolutions and Social Change	
GEOG 302	Economic Geography: Locational Behavior	
GEOG/ URB R PL 305	Introduction to the City	
GEOG 307	International Migration, Health, and Human Rights	
GEOG/CHICLA/ GEN&WS 308	Latinx Feminisms: Women's Lives, Work, and Activism	
GEOG/ INTL ST 311	The Global Game: Soccer, Politics, and Identity	
GEOG/ INTL ST 315	Universal Basic Income: The Politics Behind a Global Movement	
GEOG 318	Introduction to Geopolitics	
GEOG 340	World Regions in Global Context	
GEOG 342	Geography of Wisconsin	
GEOG 355	Africa, South of the Sahara	
GEOG 358	Human Geography of Southeast Asia	
GEOG/ AMER IND 410	Critical Indigenous Ecological Knowledges	
GEOG 501	Space and Place: A Geography of Experience	
GEOG/ URB R PL 503	Researching the City: Qualitative Strategies	

GEOG/ GEN&WS 504	Feminist Geography: Theoretical Approaches
GEOG/ URB R PL 505	Urban Spatial Patterns and Theories
GEOG 507	Waste Geographies: Politics, People, and Infrastructures
GEOG 510	Economic Geography
GEOG 511	Critical Social Theory
GEOG/ GEN&WS 514	Feminist Geography: Methodological Approaches
GEOG 518	Power, Place, Identity
GEOG 566	History of Geographic Thought

#### People-Environment (1 course) 3

GEOG/ ENVIR ST 139	Global Environmental Issues
GEOG/ART HIST/ ENVIR ST/ HISTORY/ LAND ARC 239	Making the American Landscape
GEOG/ ENVIR ST 309	People, Land and Food: Comparative Study of Agriculture Systems
GEOG/ ATM OCN/ ENVIR ST 332	Global Warming: Science and Impacts
GEOG/ ENVIR ST 333	Green Urbanism
GEOG/ ENVIR ST 337	Nature, Power and Society
GEOG/ BOTANY 338	Environmental Biogeography

**Total Credits 9**

### Capstone

Code	Title	Credits
<b>Complete one of:</b>		<b>3-6</b>
GEOG 565	Colloquium for Undergraduate Majors	
GEOG 681 & GEOG 682	Senior Honors Thesis and Senior Honors Thesis	
GEOG 691 & GEOG 692	Senior Thesis and Senior Thesis	

**Total Credits 3-6**

## MAJOR OPTIONS

Declare one of these major options:

View as listView as grid

- **GEOGRAPHY: HUMAN GEOGRAPHY (P. 802)**
- **GEOGRAPHY: PEOPLE-ENVIRONMENT GEOGRAPHY (P. 803)**
- **GEOGRAPHY: PHYSICAL GEOGRAPHY: EARTH SYSTEMS AND ENVIRONMENTAL PROCESSES (P. 803)**

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in GEOG and major courses
- 2.000 GPA on 15 upper-level credits, taken in residence<sup>1</sup>
- 15 credits in GEOG, taken on the UW–Madison campus

<sup>1</sup> GEOG courses designated Intermediate/Advanced are upper level in this major.

## HONORS IN THE MAJOR

Students may declare Honors in the Geography Major in consultation with the Geography undergraduate advisor.

### HONORS IN THE MAJOR REQUIREMENTS

To earn a BA or BS with Honors in the Major in Geography students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA in all GEOG courses and major courses
- At least 1 Advanced level major course or 6 credits in major courses numbered 300 and higher, taken for Honors
- Complete a two-semester Senior Honors Thesis (GEOG 681 & GEOG 682) for a total of 6 credits.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Explain patterns and relationships that result from human societal dynamics, Earth systems processes, and the interaction of these dynamics and processes at a range of spatial and temporal scales.
2. Analyze the interdependencies within and among human societal dynamics, people and environment relations, and Earth systems.
3. Employ appropriate theories, methodologies, technologies, and ethical frameworks to design and conduct research, and analyze and assess research findings.
4. Critically interpret theoretical texts and empirical materials from a wide range of sources using appropriate ethical practices, theories, methods, and GIS tools from the humanities, social sciences, and Earth systems sciences.
5. Apply geographic concepts, information, approaches, and technologies to inform community-engaged discussions, policy debates, and public and private sector planning efforts about the Earth, people and environment relations, and human geographies.
6. Present complex geographic concepts and information using written, oral, and visual forms of communication effective for disciplinary, interdisciplinary, and general public audiences.

## FOUR-YEAR PLAN

### SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it—along with their DARS report, the Degree Planner, and Course Search & Enroll tools—to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own four-year plan several times during college.

#### First Year

Fall	Credits Spring	Credits
Communication A	3 Ethnic Studies (e.g., GEOG 305)	3

## ADVISING AND CAREERS

### ADVISING AND CAREERS

#### ADVISING

Students with questions about the major, courses, and careers are encouraged to contact the geography undergraduate advisor, Joel Gruley, at [jgruley@wisc.edu](mailto:jgruley@wisc.edu).

#### CAREERS

Given its interdisciplinary nature, Geography prepares students for employment in a wide variety of fields spanning the public, private, and nonprofit sectors, both domestically and abroad. Fields where geographers commonly find employment include, but are not limited to: ecological restoration; urban planning; economic development; human rights; corporate sustainability; immigration advocacy and refugee resettlement; environmental consulting; social movements and community organization; national security; data analysis and visualization; risk assessment; public health; journalism; diplomacy; transportation; sustainable agrifood systems. Moreover, geographers trained in Geographical Information Systems (GIS) and cartography are in high demand from governments, businesses, and nonprofits for their spatial data analysis and visualization skills.

#### L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

## GEOGRAPHY, BS

Are you passionate about environmental sustainability? Are you curious about what a socially just world might look like? Do you find physical landscapes inspiring? Are you interested in the analysis and visualization of data? Are you intrigued by the diversity of people and places around the world? Do you find the social life of cities fascinating? Are you kept up at night wondering why some places are rich while others are poor? If you answered “yes” to any of these questions, but especially more than one, Geography could be a great fit for you. Geography is especially ideal for individuals who have a wide range of interests spanning the natural sciences, humanities, social sciences, and data sciences.

Geography is an interdisciplinary field that seeks to understand patterns and interrelationships on Earth. These range from humans' relationships with the environment and the interactions of earth systems to the social worlds and built environments that different societies build to mapping and spatial analysis of big data. It is a rich and vibrant discipline that is essential to understanding the world and many of its problems. Geography thus offers a unique lens through which to illuminate the intertwined places, societies, and ecologies that comprise our diverse world.

## HOW TO GET IN

### HOW TO GET IN

Exploring the field of geography at UW–Madison is easy. Interested students are strongly encouraged to take introductory courses in the field. The Department of Geography offers four intro courses, each of which surveys one of the four major subareas that comprise the discipline:

1. human geography;
2. people–environment geography;
3. physical geography; and
4. cartography and geographic information science.

The four intro classes are:

- GEOG 101 Introduction to Human Geography;
- GEOG/ENVR ST 120 Introduction to the Earth System;
- GEOG/ENVR ST 139 Global Environmental Issues; and
- GEOG 170 Our Digital Globe: An Overview of GIScience and its Technology (online).

Students who intend to declare their major in geography must schedule an appointment with the geography undergraduate advisor.

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

General Education	<ul style="list-style-type: none"> <li>• Breadth–Humanities/Literature/Arts: 6 credits</li> <li>• Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth–Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul>
-------------------	--

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

### COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

#### BACHELOR OF SCIENCE DEGREE REQUIREMENTS

**Mathematics** Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.

**Language** Complete the third unit of a language other than English.

**LS Breadth** Complete:

- 12 credits of Humanities, which must include at least 6 credits of Literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.

**Liberal Arts and Science Coursework** Complete at least 108 credits.

**Depth of Intermediate/Advanced Coursework** Complete at least 60 credits at the Intermediate or Advanced level.

**Major** Declare and complete at least one major.

**Total Credits** Complete at least 120 credits.

**UW-Madison Experience** Complete both:

- 30 credits in residence, overall, and
- 30 credits in residence after the 86th credit.

**Quality of Work** • 2.000 in all coursework at UW–Madison

• 2.000 in Intermediate/Advanced level coursework at UW–Madison

### NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

### REQUIREMENTS FOR THE MAJOR

Students must declare one of the major options (p. 807) below, complete Core Requirements common to each option, and also the specific requirements for their declared option.

#### CORE REQUIREMENTS

30 credits the major, to include these core requirements:

##### Breadth

3 courses, 1 each from these areas:

Code	Title	Credits
<b>Human Geography (1 course)</b>		<b>3</b>
GEOG 101	Introduction to Human Geography

## MAJOR OPTIONS

Declare one of these major options:

View as listView as grid

- **GEOGRAPHY: HUMAN GEOGRAPHY (P. 802)**
- **GEOGRAPHY: PEOPLE-ENVIRONMENT GEOGRAPHY (P. 803)**
- **GEOGRAPHY: PHYSICAL GEOGRAPHY: EARTH SYSTEMS AND ENVIRONMENTAL PROCESSES (P. 803)**

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in GEOG and major courses
- 2.000 GPA on 15 upper-level credits, taken in residence <sup>1</sup>
- 15 credits in GEOG, taken on the UW–Madison campus

<sup>1</sup> GEOG courses designated Intermediate/Advanced are upper level in this major.

## HONORS IN THE MAJOR

Students may declare Honors in the Geography Major in consultation with the Geography undergraduate advisor.

### HONORS IN THE MAJOR REQUIREMENTS

To earn a BA or BS with Honors in the Major in Geography students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA in all GEOG courses and major courses
- At least 1 Advanced level major course or 6 credits in major courses numbered 300 and higher, taken for Honors
- Complete a two-semester Senior Honors Thesis (GEOG 681 & GEOG 682) for a total of 6 credits.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Explain patterns and relationships that result from human societal dynamics, Earth systems processes, and the interaction of these dynamics and processes at a range of spatial and temporal scales.
2. Analyze the interdependencies within and among human societal dynamics, people and environment relations, and Earth systems.
3. Employ appropriate theories, methodologies, technologies, and ethical frameworks to design and conduct research, and analyze and assess research findings.
4. Critically interpret theoretical texts and empirical materials from a wide range of sources using appropriate ethical practices, theories, methods, and GIS tools from the humanities, social sciences, and Earth systems sciences.
5. Apply geographic concepts, information, approaches, and technologies to inform community-engaged discussions, policy debates, and public and private sector planning efforts about the Earth, people and environment relations, and human geographies.
6. Present complex geographic concepts and information using written, oral, and visual forms of communication effective for disciplinary, interdisciplinary, and general public audiences.

## FOUR-YEAR PLAN

### SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it—along with their DARS report, the Degree Planner, and Course Search & Enroll tools—to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own four-year plan several times during college.

## ADVISING AND CAREERS

### ADVISING AND CAREERS ADVISING

Students with questions about the major, courses, and careers are encouraged to contact the geography undergraduate advisor, Joel Gruley, at [jgruley@wisc.edu](mailto:jgruley@wisc.edu).

### CAREERS

Given its interdisciplinary nature, Geography prepares students for employment in a wide variety of fields spanning the public, private, and nonprofit sectors, both domestically and abroad. Fields where geographers commonly find employment include, but are not limited to: ecological restoration; urban planning; economic development; human rights; corporate sustainability; immigration advocacy and refugee resettlement; environmental consulting; social movements and community organization; national security; data analysis and visualization; risk assessment; public health; journalism; diplomacy; transportation; sustainable agrifood systems. Moreover, geographers

trained in Geographical Information Systems (GIS) and cartography are in high demand from governments, businesses, and nonprofits for their spatial data analysis and visualization skills.

### L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

## GEOSCIENCE

The interdisciplinary department of Geoscience offers an undergraduate degree in geology and geophysics, with graduate degrees offered in both disciplines.

The Geology and Geophysics major offers unusual opportunities to integrate knowledge and technology from chemistry, biology, physics, engineering, space science, and other disciplines to understand processes that have shaped the Earth, its environments, and the life that it has sustained over billions of years. Geoscientists provide insight on surface and groundwater resources and how to protect and preserve them. They probe the causes and potential risks associated with natural hazards including earthquakes, volcanoes, floods, hurricanes, landslides, climate change, and sea level rise. Sustainable exploration and extraction of key mineral resources needed to build and power a resilient and green society depends on well-trained geoscientists. To explore Earth history, develop materials and energy resources, and take the pulse of a dynamic planet, geoscientists use an extraordinary array of tools including satellites to measure changes of Earth's surface, sensitive instruments to detect seismic waves for exploring resources underground, cutting-edge instrumentation to measure the composition of minerals and rocks at

microscopic scales, and computational approaches to assemble and interrogate enormous sets of data acquired from rocks and fossils across the globe.

Geology students have a strong interest in the natural environment as it is today and as it has developed over the past 4.5 billion years. The Department of Geoscience challenges students to develop skills in sequential thought, inductive reasoning, and three-dimensional perception. Moreover, students who concentrate in geophysics learn basic physical laws and processes involving gravity, magnetism, heat flow, and seismic wave propagation within Earth. Opportunities also include learning how satellite-based measurements, and computational approaches, are used to measure and monitor geothermal resources, volcanic activity, earthquakes, and groundwater movement.

Geology and Geophysics students prepare for careers in hydrogeology, energy, mining, engineering, and education. Students are exceptionally well-prepared for graduate studies in a broad array of geoscience fields.

## CAREERS

More than half of all professional geologists and geophysicists work in hydrogeology, engineering geology, technical consulting, mining, or energy resource industries. The need for energy, environmental protection, and responsible land and resource management is expected to spur future demand for geoscientists. Geoscientists will be involved in discovering and developing next-generation energy and mineral resources\*. Such careers involve an unusual breadth of training and personal adaptability, and the MS degree is generally required. About one-fifth of all geoscientists work in state and federal geological surveys or research activities. These positions largely involve problems in geologic mapping, mineral resources, groundwater, and engineering. Geophysics offers opportunities in earthquake studies, seismic verification of nuclear test bans, and rock characterization techniques for waste disposal and groundwater modeling. Many geology students continue on to obtain a PhD degree and become faculty members at colleges or universities. A geology and geophysics major is also appropriate for those interested in careers in elementary or secondary education, environmental policy, or environmental law. Faculty advisors can provide additional information on career opportunities.

\*U.S. Bureau of Labor Statistics, November, 2022

The College of Letters & Science encourages majors to begin working on their career exploration and preparation soon after arriving on campus. Our department partners with SuccessWorks at the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important that students are career ready at the time of graduation, and we are committed to their success.

## PREPARATION FOR GRADUATE STUDY

An advanced degree is normally required for professional activity in geological and geophysical sciences; the student who contemplates such a degree should satisfy both department and graduate school requirements for admission to graduate study.

Minimum requirements for admission to graduate work in geology or geophysics at most universities in the United States, including the University of Wisconsin-Madison, are:

1. A bachelor's degree in geology/geophysics or a related science
2. One year of college chemistry (one year high school plus CHEM 109 Advanced General Chemistry recommended)
3. One year of college physics (PHYSICS 207 General Physics–PHYSICS 208 General Physics recommended)
4. One year of calculus (MATH 221 Calculus and Analytic Geometry 1–MATH 222 Calculus and Analytic Geometry 2 recommended)
5. A summer field-mapping course equivalent to GEOSCI 459 Field Geology (Park City, Utah)

## GEOLOGY AND GEOPHYSICS, BA

The interdisciplinary department of Geoscience offers an undergraduate degree in geology and geophysics, with graduate degrees offered in both disciplines.

The Geology and Geophysics major offers unusual opportunities to integrate knowledge and technology from chemistry, biology, physics, engineering, space science, and other disciplines to understand processes that have shaped the Earth, its environments, and the life that it has sustained over billions of years. Geoscientists provide insight on surface and groundwater resources and how to protect and preserve them. They probe the causes and potential risks associated with natural hazards including earthquakes, volcanoes, floods, hurricanes, landslides, climate change, and sea level rise. Sustainable exploration and extraction of key mineral resources needed to build and power a resilient and green society depends on well-trained geoscientists. To explore Earth history, develop materials and energy resources, and to take the pulse of a dynamic planet, geoscientists use an extraordinary array of tools, including satellites to measure changes of Earth's surface, sensitive instruments to detect seismic waves for exploring resources underground, cutting-edge instrumentation to measure the composition of minerals and rocks at microscopic scales, and computational approaches to assemble and interrogate enormous sets of data acquired from rocks and fossils across the globe.

Geology students have a strong interest in the natural environment as it is today and as it has developed over the past 4.5 billion years. The Department of Geoscience challenges students to develop skills

in sequential thought, inductive reasoning, and three-dimensional perception. Moreover, students who concentrate in geophysics learn basic physical laws and processes involving gravity, magnetism, heat flow, and seismic wave propagation within Earth. Opportunities also include learning how satellite-based measurements, and computational approaches, are used to measure and monitor geothermal resources, volcanic activity, earthquakes, and groundwater movement.

Geology and Geophysics students prepare for careers in hydrogeology, energy, mining, engineering, and education. Students are exceptionally well-prepared for graduate studies in a broad array of geoscience fields.

## HOW TO GET IN

### HOW TO GET IN

There are no admissions requirements for the major. Students wishing to declare the Geology & Geophysics major should meet with the Undergraduate Academic Advising Manager listed in the Contact Box on the right sidebar of this page.

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

- |                   |  |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> <li>• Breadth–Humanities/Literature/Arts: 6 credits</li> <li>• Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth–Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul> |
|-------------------|--|

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of

Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

## BACHELOR OF ARTS DEGREE REQUIREMENTS

**Mathematics** Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.

**Language**

- Complete the fourth unit of a language other than English; OR
- Complete the third unit of a language and the second unit of an additional language other than English.

**LS Breadth**

- 12 credits of Humanities, which must include 6 credits of literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.

**Liberal Arts and Science Coursework** Complete at least 108 credits.

**Depth of Intermediate/Advanced work** Complete at least 60 credits at the intermediate or advanced level.

**Major** Declare and complete at least one major.

**Total Credits** Complete at least 120 credits.

**UW-Madison Experience**

- 30 credits in residence, overall; and
- 30 credits in residence after the 86th credit.

**Quality of Work**

- 2.000 in all coursework at UW-Madison
- 2.000 in Intermediate/Advanced level coursework at UW-Madison

## NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

Prospective majors are strongly encouraged to seek assistance from a faculty advisor in order to choose courses appropriate to their interests and career plans. Advisors can also assist students in choosing a pathway that is appropriate for their interests and career goals.

## BACKGROUND REQUIREMENTS

Code	Title	Credits
<b>Calculus (complete one sequence):</b>		
MATH 221 & MATH 222	Calculus and Analytic Geometry 1 and Calculus and Analytic Geometry 2	9-14

MATH 171 & MATH 217 & MATH 222

Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II and Calculus and Analytic Geometry 2

### Chemistry (complete one sequence) 5-10

CHEM 109	Advanced General Chemistry
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II
CHEM 115 & CHEM 116	Chemical Principles I and Chemical Principles II

### Physics (complete one course from each group): 10-11

PHYSICS 207	General Physics
or PHYSICS 201	General Physics
or PHYSICS 247A	Modern Introduction to Physics
PHYSICS 208	General Physics
or PHYSICS 202	General Physics
or PHYSICS 248A	Modern Introduction to Physics

*Geophysics and Engineering Geology Pathway option (complete all):*

E M A 201 & E M A 202	Statics and Dynamics
PHYSICS 208	General Physics
or PHYSICS 202	General Physics
or PHYSICS 248A	Modern Introduction to Physics

**Total Credits 24-35**

Electives 3-5

**Total Credits** **17-19**<sup>1</sup> Except GEOSCI 331.**General Geology Pathway**

Code	Title	Credits
Any GEOSCI 300-699 <sup>1</sup>		17
<b>Total Credits</b>		<b>17</b>

<sup>1</sup> Except GEOSCI 331.**RESIDENCE AND QUALITY OF WORK**

- 2.000 GPA in all GEOSCI and major courses
- 2.000 on 15 upper-level major credits, taken in residence<sup>1</sup>
- 15 credits in GEOSCI, taken on campus

<sup>1</sup> GEOSCI 300-699, excluding GEOSCI 331, are considered Upper Level in the Major**HONORS IN THE MAJOR**

Students may declare Honors in the Geology and Geophysics Major in consultation with the departmental undergraduate advisor.

**HONORS IN THE MAJOR: GEOLOGY AND GEOPHYSICS: REQUIREMENTS**

To earn Honors in the Geology and Geophysics Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.400 GPA in all GEOSCI and major courses
- Complete GEOSCI 681 and GEOSCI 682, for a total of 6 credits, with a grade of B or better.

**UNIVERSITY DEGREE REQUIREMENTS**

**Total Degree** To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Acquire quantitative and spatial reasoning skills and the ability to apply those skills to problems in geoscience.
2. Be able to explicate key biological, chemical and physical Earth structures, processes, the interactions between them, and the roles that they play in determining the state of the Earth system.
3. Utilize geological observations and measurements to solve problems involving the timing of geological events in Earth history.
4. Combine data and lab/field-based observations into a novel synthesis and/or description/model of how Earth systems operate.
5. Be able to critique published scientific data, results, and interpretations thereof, as well as identify and assess related work in the scientific literature.
6. Be able to effectively communicate scientific concepts, methods, and results.

## FOUR-YEAR PLAN

### SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it—along with their DARS report, the Degree Planner, and Course Search & Enroll tools—to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own four-year plan several times during college.

#### First Year

## ADVISING AND CAREERS

### ADVISING AND CAREERS

#### ADVISING

Any student interested in the Geology & Geophysics major should meet with the Undergraduate Academic Advising Manager listed in the Contact Box on the right sidebar of this page to discuss steps to complete the necessary coursework for the major.

#### CAREERS

More than half of all professional geologists and geophysicists work in hydrogeology, engineering geology, technical consulting, mining, or energy resource industries. The need for energy, environmental protection, and responsible land and resource management is expected to spur future demand for geoscientists. Geoscientists will be involved in discovering and developing next-generation energy and mineral resources\*. Such careers involve an unusual breadth of training and personal adaptability, and the MS degree is generally required. About one-fifth of all geoscientists work in state and federal geological surveys or research activities. These positions largely involve problems in geologic mapping, mineral resources, groundwater, and engineering. Geophysics offers opportunities in earthquake studies, seismic verification of nuclear test bans, and rock characterization techniques for waste disposal and groundwater modeling. Many geology students continue on to obtain a PhD degree and become faculty members at colleges or universities. A geology and geophysics major is also appropriate for those interested in careers in elementary or secondary education, environmental policy, or environmental law. Faculty advisors can provide additional information on career opportunities.

\*U.S. Bureau of Labor Statistics, November, 2022

The College of Letters & Science encourages majors to begin working on their career exploration and preparation soon after arriving on campus. Our department partners with SuccessWorks at the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs. It is important that students are career ready at the time of graduation, and we are committed to their success.

#### L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and

other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

## PEOPLE

### PEOPLE

Professors Dutton, Feigl, Goodwin, Kelly, Meyers, Peters, Roden, Singer, Tikoff, Xu

Associate Professors Cardiff, Ferrier, Marcott, Zoet

Assistant Professors Bauer, Bonamici, Golos, Haseloff, Marroquin, Nghiem, Zahasky

## GEOLOGY AND GEOPHYSICS, BS

The interdisciplinary department of Geoscience offers an undergraduate degree in geology and geophysics, with graduate degrees offered in both disciplines.

The Geology and Geophysics major offers unusual opportunities to integrate knowledge and technology from chemistry, biology, physics, engineering, space science, and other disciplines to understand processes that have shaped the Earth, its environments, and the life that it has sustained over billions of years. Geoscientists provide insight on surface and groundwater resources and how to protect and preserve them. They probe the causes and potential risks associated with natural hazards including earthquakes, volcanoes, floods, hurricanes, landslides, climate change, and sea level rise. Sustainable exploration and extraction of key mineral resources needed to build and power a resilient and green society depends on well-trained geoscientists. To explore Earth history,

develop materials and energy resources, and take the pulse of a dynamic planet, geoscientists use an extraordinary array of tools, including satellites to measure changes of Earth's surface, sensitive instruments to detect seismic waves for exploring resources underground, cutting-edge instrumentation to measure the composition of minerals and rocks at microscopic scales, and computational approaches to assemble and interrogate enormous sets of data acquired from rocks and fossils across the globe.

Geology students have a strong interest in the natural environment as it is today and as it has developed over the past 4.5 billion years. The Department of Geoscience challenges students to develop skills in sequential thought, inductive reasoning, and three-dimensional perception. Moreover, students who concentrate in geophysics learn basic physical laws and processes involving gravity, magnetism, heat flow, and seismic wave propagation within Earth. Opportunities also include learning how satellite-based measurements, and computational approaches, are used to measure and monitor geothermal resources, volcanic activity, earthquakes, and groundwater movement.

Geology and Geophysics students prepare for careers in hydrogeology, energy, mining, engineering, and education. Students are exceptionally well-prepared for graduate studies in a broad array of geoscience fields.

## HOW TO GET IN

### HOW TO GET IN

There are no admissions requirements for the major. Students wishing to declare the Geology & Geophysics major should meet with the Undergraduate Academic Advising Manager listed in the Contact Box on the right sidebar of this page.

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

- General Education
- Breadth—Humanities/Literature/Arts: 6 credits
  - Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
  - Breadth—Social Studies: 3 credits
  - Communication Part A Part B \*
  - Ethnic Studies \*
  - Quantitative Reasoning Part A Part B \*

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

### BACHELOR OF SCIENCE DEGREE REQUIREMENTS

**Mathematics** Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.

**Language** Complete the third unit of a language other than English.

**LS Breadth** Complete:

- 12 credits of Humanities, which must include at least 6 credits of Literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.

**Liberal Arts and Science Coursework** Complete at least 108 credits.

**Depth of Intermediate/Advanced Coursework** Complete at least 60 credits at the Intermediate or Advanced level.

**Major** Declare and complete at least one major.

**Total Credits** Complete at least 120 credits.

**UW-Madison Experience** Complete both:

- 30 credits in residence, overall, and
- 30 credits in residence after the 86th credit.

**Quality of Work**

- 2.000 in all coursework at UW-Madison
- 2.000 in Intermediate/Advanced level coursework at UW-Madison

## NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

Prospective majors are strongly encouraged to seek assistance from a faculty advisor in order to choose courses appropriate to their interests and career plans. Advisors can also assist students in choosing a pathway that is appropriate for their interests and career goals.

### BACKGROUND REQUIREMENTS

Code	Title	Credits
<b>Calculus (complete one sequence):</b>		<b>9-14</b>
MATH 221 & MATH 222	Calculus and Analytic Geometry 1 and Calculus and Analytic Geometry 2	
MATH 171 & MATH 217 & MATH 222	Calculus with Algebra and Trigonometry I and Calculus with Algebra and Trigonometry II and Calculus and Analytic Geometry 2	
<b>Chemistry (complete one sequence)</b>		<b>5-10</b>
CHEM 109	Advanced General Chemistry	
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	
CHEM 115 & CHEM 116	Chemical Principles I and Chemical Principles II	
<b>Physics (complete one course from each group):</b>		<b>10-11</b>
PHYSICS 207	General Physics	
or PHYSICS 201	General Physics	
or PHYSICS 247A	Modern Introduction to Physics	
PHYSICS 208	General Physics	
or PHYSICS 202	General Physics	
or PHYSICS 248A	Modern Introduction to Physics	
<i>Geophysics and Engineering Geology Pathway option (complete all):</i>		
E M A 201 & E M A 202	Statics and Dynamics	
PHYSICS 208	General Physics	
or PHYSICS 202	General Physics	
or PHYSICS 248A	Modern Introduction to Physics	
<b>Total Credits</b>		<b>24-35</b>

### GEOLOGY & GEOPHYSICS CORE COURSEWORK

Code	Title	Credits
<b>Complete all of the following:</b>		
GEOSCI 100	Introductory Geology: How the Earth Works	3
or GEOSCI/ ENVIR ST 106	Environmental Geology	

GEOSCI 202	Introduction to Geologic Structures	4
GEOSCI 204	Geologic Evolution of the Earth	4
GEOSCI/G L E 360	Principles of Mineralogy	3
GEOSCI/G L E 370	Elementary Petrology	3
<b>Total Credits</b>		<b>17</b>

## GEOLOGY & GEOPHYSICS PATHWAYS

Complete one of the following:

### Geology Pathway

Code	Title	Credits
GEOSCI/G L E 350	Introduction to Geophysics: The Dynamic Earth	3
GEOSCI 375	Principles of Geochemistry	3
GEOSCI 430	Sedimentology and Stratigraphy	3
GEOSCI/G L E 455	Structural Geology	4
4 credits of GEOSCI 300-699 <sup>1</sup>		4
<b>Total Credits</b>		<b>17</b>

<sup>1</sup> Except GEOSCI 331.

### Geophysics and Engineering Geology Pathway

Code	Title	Credits
GEOSCI/G L E 431	Sedimentary & Stratigraphy Lab	1
GEOSCI/G L E 455	Structural Geology	4
GEOSCI/G L E 474	Rock Mechanics	3
or GEOSCI/ G L E 350	Introduction to Geophysics: The Dynamic Earth	
GEOSCI/G L E 594	Introduction to Applied Geophysics	3
GEOSCI/G L E 595	Field Methods in Applied and Engineering Geophysics	1
GEOSCI/G L E 627	Hydrogeology	3-4
or GEOSCI/ G L E 350	Introduction to Geophysics: The Dynamic Earth	
E M A 303	Mechanics of Materials	3
or M E 306	Mechanics of Materials	
or PHYSICS 311	Mechanics	
or PHYSICS 322	Electromagnetic Fields	
MATH 234	Calculus--Functions of Several Variables	3-4
or MATH 319	Techniques in Ordinary Differential Equations	
or MATH 320	Linear Algebra and Differential Equations	
or MATH 340	Elementary Matrix and Linear Algebra	
<b>Total Credits</b>		<b>21-23</b>

### Environmental Geoscience Pathway

Code	Title	Credits
GEOSCI/GEOG 320	Geomorphology	3-4
or GEOSCI/ GEOG 420	Glacial and Pleistocene Geology	
or GEOSCI 430	Sedimentology and Stratigraphy	
or GEOSCI/ G L E 627	Hydrogeology	
GEOSCI 375	Principles of Geochemistry	3

or GEOSCI 610	Geochronology, Timescales, and Rates of Geologic Processes	
or GEOSCI/ G L E 629	Contaminant Hydrogeology	
GEOSCI 304	Geobiology	3
or GEOSCI/ ZOOLOGY 541	Paleobiology	
or GEOSCI/ ZOOLOGY 542	Invertebrate Paleontology	
GEOSCI/ ENVIR ST 411	Energy Resources	3-4
or GEOSCI/ G L E 455	Structural Geology	
or GEOSCI 515	Principles of Economic Geology	
or GEOSCI/ G L E 594	Introduction to Applied Geophysics	
Electives		3-5
<b>Total Credits</b>		<b>17-19</b>

<sup>1</sup> Except GEOSCI 331.

### General Geology Pathway

Code	Title	Credits
Any GEOSCI 300-699 <sup>1</sup>		17
<b>Total Credits</b>		<b>17</b>

<sup>1</sup> Except GEOSCI 331.

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all GEOSCI and major courses
- 2.000 on 15 upper-level major credits, taken in residence<sup>1</sup>
- 15 credits in GEOSCI, taken on campus

<sup>1</sup> GEOSCI 300-699, excluding GEOSCI 331, are considered Upper Level in the Major

## HONORS IN THE MAJOR

Students may declare Honors in the Geology and Geophysics Major in consultation with the departmental undergraduate advisor.

### HONORS IN THE MAJOR: GEOLOGY AND GEOPHYSICS: REQUIREMENTS

To earn Honors in the Geology and Geophysics Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.400 GPA in all GEOSCI and major courses
- Complete GEOSCI 681 and GEOSCI 682, for a total of 6 credits, with a grade of B or better.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Acquire quantitative and spatial reasoning skills and the ability to apply those skills to problems in geoscience.
2. Be able to explicate key biological, chemical and physical Earth structures, processes, the interactions between them, and the roles that they play in determining the state of the Earth system.
3. Utilize geological observations and measurements to solve problems involving the timing of geological events in Earth history.
4. Combine data and lab/field-based observations into a novel synthesis and/or description/model of how Earth systems operate.
5. Be able to critique published scientific data, results, and interpretations thereof, as well as identify and assess related work in the scientific literature.
6. Be able to effectively communicate scientific concepts, methods, and results.

## FOUR-YEAR PLAN

### SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it—along with their DARS report, the Degree Planner, and Course Search & Enroll tools—to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own four-year plan several times during college.

#### First Year

Fall	Credits Spring	Credits

## PEOPLE

### PEOPLE

Professors Dutton, Feigl, Goodwin, Kelly, Meyers, Peters, Roden, Singer, Tikoff, Xu

Associate Professors Cardiff, Ferrier, Marcott, Zoet

Assistant Professors Bauer, Bonamici, Golos, Haseloff, Marroquin, Nghiem, Zahasky

## GERMAN, NORDIC, AND SLAVIC

The Department of German, Nordic, and Slavic is home to undergraduate programs in German (p. 820), Scandinavian Studies (p. 821), Russian (p. 821), and Polish (p. 821), as well as certificates in the Folklore program (p. 821), Slavic Studies (p. 821), and Languages and Cultures of Northern Europe (p. 821). The department offers courses in the languages, linguistics, literatures, and cultures of these areas, both in the target languages and in translation. GNS provides instruction in more than a dozen languages, including Czech, Danish, Dutch, Finnish, German, Kazakh, Norwegian, Old Norse, Polish, Russian, Swedish, Turkish, Ukrainian, and Yiddish.

## GERMAN PROGRAM

The German program affords students the opportunity to begin or continue their study of German and/or Dutch.

Knowledge of German provides access to a culture that for more than a millennium has been central to the history, economy, arts, and sciences not just of Europe but of Western civilization as a whole. In the contemporary world, German-speaking countries have Europe's strongest economies and are playing an increasingly important role in world affairs. More Americans claim German ethnicity than any other, and German-speaking immigrants and their descendants have had an enduring impact on the history and culture of the United States. UW-Madison has been a leader in the field of German studies for more than a century. The university's libraries are remarkable for the depth and breadth of their German-language holdings.

Knowledge of Dutch provides access to a culture that has been an important force in world history since the Middle Ages. The language of more than 20 million inhabitants of the Netherlands and Flanders (Dutch-speaking Belgium), Dutch is also spoken in Suriname and the Netherlands Antilles. It is also an important second language in Indonesia. As major economic powers, Belgium and the Netherlands play a leading role in shaping the European Union. World-class research in the sciences and humanities is conducted at Dutch and Belgian universities, and both countries can boast of a cultural life in which art, music, and theater are all flourishing.

## OPPORTUNITIES FOR GERMAN AND DUTCH STUDENTS

In addition to choosing from courses in culture, literature, linguistics, and German-American studies, German students can practice the language in various settings on campus, including the Stockwerk Deutsch (<http://gns.wisc.edu/stockwerk-deutsch/>) Language House, which is located in Adams Hall. Other opportunities include the German Club, Kaffeestunde, and Stammtisch. There is also a Dutch Table for students of Dutch. Many German and Dutch students participate on semester- or year-long study abroad programs in Germany, Austria, and the Netherlands administered through International Academic Programs (<http://www.studyabroad.wisc.edu/>), the School of Business, the College of Engineering, and the College of Agriculture and Life Sciences. The International Internship Program (<http://internships.international.wisc.edu/>) also connects UW-Madison students to a wide range of internships in German- and Dutch-speaking Europe.

---

## SCANDINAVIAN STUDIES (NORDIC)

The Scandinavian Studies Program provides the opportunity to learn a Scandinavian language or Finnish (modern Icelandic only occasionally). The literature, folklore, and culture of the Nordic countries are taught both in the original languages and in English translation. Partly in cooperation with other departments, courses in Scandinavian area studies are offered (history, social institutions, geography, art, archaeology). Students who major in the field may continue graduate studies toward an MA in Scandinavian philology, literature, or area studies, and toward a PhD in Scandinavian literature, philology, or folklore.

The program strongly encourages a junior-year abroad in a Nordic country; several exchange programs are available. Students who transfer to this university after a year abroad should contact the undergraduate advisor as early as possible to schedule a placement test.

## LANGUAGES AND CULTURES OF NORTHERN EUROPE

The Languages and Cultures of Northern Europe certificate offers an opportunity to study the many diverse linguistic, cultural, and religious communities that have become part of Northern Europe as a result of international migration and pan-European economic integration. Students earning the certificate have maximum flexibility of choice in the culture they wish to study in depth, or if they want to take a comparative approach over the region. The certificate maps intellectually a complex and fascinating region of contemporary Europe – one which is marked not only by longstanding national cultures but also by an increasingly diverse and mobile populace.

If students wish, students may include language study in Dutch, Swedish, Norwegian, Danish, Finnish, or Yiddish as part of their course choices.

---

## RUSSIAN

Courses in Russian are designed to meet the needs of students who begin to study the language in college as well as those who began to study

the language in high school. With a major in Russian, you will be able to converse with ease in most common situations at work, school, social events, and everyday duties, as well as read and write at an advanced level.

## RUSSIAN FLAGSHIP PROGRAM

The Russian Flagship Program offers students of any major the opportunity to achieve a professional level of competence in Russian. Students apply to the program directly. Residential and study abroad requirements, course options, and scholarship information are posted at Russian Flagship (<http://www.russianflagship.wisc.edu/>). To obtain more information about the Russian Flagship Program, students should make an appointment with a Russian Flagship advisor. (<https://russianflagship.wisc.edu/advising/>)

## POLISH

Polish is the most commonly spoken Slavic language of the European Union and the second largest Slavic language in the world, with over 50 million users across the globe. Poland has a unique and vibrant culture shaped by a millennium of artistic and intellectual innovation and struggles for political, social, and cultural independence. The country survived two world wars and half a century of communist rule to emerge as a regional leader in East-Central Europe, the fastest-growing economy in the E.U., and home to one of the most dynamic cultural scenes in the world. It is also a key NATO and U.S. ally in Europe. Polish diaspora is among the world's largest, with major concentrations in the U.S., Canada, the U.K., Germany, and France.

The Polish major offers courses in the Polish language, literature, culture, politics, and one of the most intricate, fascinating histories in Europe, providing the knowledge and skills for successful careers in business, politics, diplomacy, arts, translation, international law, environmental science, journalism, national security, tourism, and cultural services.

## SLAVIC STUDIES CERTIFICATE

In the Slavic Studies Certificate, students have the opportunity to pair strong language training in Russian, Polish, or Czech with a contextual, integrative regional view to complement their studies in political science, international studies, business, history, or many other areas. Students gain a critically informed appreciation and understanding of the complex, interwoven nature of the region's historical trajectories, politics, literature, and culture, with the flexibility to choose to focus on the area or culture of their special interest or take a comparative approach to the region as a whole. Topics include revolution and power, trauma and the politics of memory, the immigrant experience, adventure, folklore, the politics of laughter, and science fiction.

Are you of Czech, Polish, or Russian heritage – or do you just have a fascination with the region of the world in which these languages are spoken? Can you imagine using any of these languages in your future career or research? Discover the world that has survived the horrors of two world wars, given birth to some of the most powerful dissident movements in modern history, and inspired the world with its art, film, literature, and political thought.

---

## FOLKLORE CERTIFICATE

The Folklore Certificate provides opportunities to explore the importance of everyday expressive culture – such as storytelling, sacred traditions, art, music, foodways, and festivals – to better appreciate human diversity, as

well as understand the challenges of living together as local community members and citizens of the world. Students will gain fresh perspectives on race, ethnicity, gender, sexuality, and class. They will come to recognize the artfulness in everyday life and community-based creativity in a global economy. Students will learn to navigate cultural communication and conflict within and across religious, geographic, and ethnic divides.

Folklore courses are taught partly in cooperation with other departments and are cross-listed with classes in Gender and Women's Studies, Anthropology Religious Studies, Art, Communications, Dance, African American Studies, Scandinavian Studies, and many others.

Students who earn a certificate in the field may work in museums, the business sector, archives, publishing, or many other areas.

## DEGREES/MAJORS/CERTIFICATES

### DEGREES/MAJORS/ CERTIFICATES

## EAST CENTRAL EUROPEAN LANGUAGES, LITERATURES, AND CULTURES, CERTIFICATE

**Admissions to the East Central European Languages, Literatures, and Cultures Certificate have been suspended as of fall 2023 and will be discontinued as of fall 2027. If you have any questions, please contact the department.**

**Please see the new Slavic Studies Certificate (<https://guide.wisc.edu/undergraduate/letters-science/german-nordic-slavic/slavic-studies-certificate/>) for more information.**

Explore the crossroads of Europe with courses designed to give you the linguistic-cultural skills for successful academic, business, political, diplomatic, and analytical careers centered on the continent's most economically dynamic, strategically important, and culturally rich region. Discover the world that has survived the horrors of two world wars, given birth to some of the most powerful dissident movements in modern history, and inspired the world with its art, film, literature, and political thought.

Are you fascinated with East-Central Europe? Do you want to learn Polish or Czech? Do you want to hear more about the professional opportunities that study of the region can offer you? **The Certificate in East Central European Languages, Literatures, and Cultures (ECELLC)** is your gateway!

- Only 15 credits required to complete;
- Excellent study abroad and scholarship opportunities;
- A rich set of course offerings that includes language instruction, as well as theme-based classes on topics such as popular culture and cultural history, (post-)communism, the immigrant experience in America, dissidence, film, the politics of laughter, and science-fiction.

## HOW TO GET IN

### HOW TO GET IN

**Admissions to the East Central European Languages, Literatures, and Cultures Certificate have been suspended as of fall 2023 and will be discontinued as of fall 2027. If you have any questions, please contact the department.**

Please see the new Slavic Studies Certificate (<https://guide.wisc.edu/undergraduate/letters-science/german-nordic-slavic/slavic-studies-certificate/>) for more information.

## REQUIREMENTS

### REQUIREMENTS

In order to receive the certificate in East Central European languages, literature, and cultures, students are required to complete a minimum of **15 credits total**.

Code	Title	Credits
<b>Part 1</b>		
Select one of the following options:		6-8
SLAVIC 217 & SLAVIC 218	Third Semester Czech and Fourth Semester Czech	
SLAVIC 207 & SLAVIC 208	Third Semester Polish and Fourth Semester Polish <sup>1</sup>	
<b>Part 2</b>		
Select three courses from the following:		9
LITTRANS 207	Slavic Science Fiction through Literature and Film	
LITTRANS 208	The Writings of Vaclav Havel: Critique of Modern Society	
LITTRANS/ SLAVIC 215	Love and Death: Introduction to Polish Literature & Culture	
LITTRANS 218	Polish Literature in Translation: Late 19th and 20th Centuries	
LITTRANS 241	Literatures and Cultures of Eastern Europe	
LITTRANS 247	Topics in Slavic Literatures in Translation	
LITTRANS/ FOLKLORE 327	Vampires	
LITTRANS 454	History of Serbian and Croatian Literature	
LITTRANS 471	Polish Literature (in Translation), Middle Ages to 1863	
LITTRANS 473	Polish Literature (in Translation) since 1863	
SLAVIC 231	History and Ethics on Film: Polish Cinema	
SLAVIC 242	Literatures and Cultures of Eastern Europe	
SLAVIC 245	Topics in Slavic Literatures	
SLAVIC/GEOG/ HISTORY/ POLI SCI 254	Eastern Europe: An Interdisciplinary Survey	
SLAVIC 307	Study Abroad in Poland	
SLAVIC 308	Polish Culture and Area Studies on Study Abroad	
SLAVIC/ LITTRANS 361	Living at the End of Times: Contemporary Polish Literature and Culture	

SLAVIC/  
FOLKLORE 444 Slavic and East European Folklore

**Total Credits**

**15**

<sup>1</sup> Students can satisfy this requirement by completing any two courses in Polish language beyond the second semester, including: SLAVIC 207 Third Semester Polish, SLAVIC 208 Fourth Semester Polish, SLAVIC 277 Third Year Polish I, SLAVIC 278 Third Year Polish II, SLAVIC 331 Fourth Year Polish I, and SLAVIC 332 Fourth Year Polish II.

### RESIDENCE AND QUALITY OF WORK

- At least 8 credits must be earned in residence.
- Students must earn a cumulative 2.000 GPA on required certificate coursework.

### CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

### LEARNING OUTCOMES

#### LEARNING OUTCOMES

1. Minimally acquire intermediate proficiency in an East Central European Language (Czech, Polish, or SerboCroatian).
2. Develop and apply writing skills and oral communications skills appropriate to Liberal Arts education in the context of Slavic studies to the literatures and cultures of the region.
3. Develop and apply critical-thinking skills inherent in the Liberal Arts tradition to the literature and culture of the region.
4. Analyze and interpret cultural products of the region (i.e. works of literature, films, etc.) in themselves and in the context of specific historical and cultural conditions.

### ADVISING AND CAREERS

#### ADVISING AND CAREERS

Language placement tests are advised for any student with previous knowledge or experience with Polish or Czech. The test consists of a one-on-one appointment with a professor, with written, oral, and reading comprehension components.

Placement Advisors for the languages represented by the certificate are:

- David Danaher (dsdanaher@wisc.edu) for Czech
- Łukasz Wodzyński (lukasz.wodzynski@wisc.edu) for Polish

For other undergraduate concerns or to declare the certificate, please contact our undergraduate advisor:

Joanna Schuth, Undergraduate Advisor  
jschuth@wisc.edu (undergrad@gns.wisc.edu)  
836 Van Hise Hall

Make an appointment through Starfish (<https://wisc.starfishsolutions.com/starfish-ops/dl/instructor/serviceCatalog.html?bookmark=connection/25714/schedule>)

## L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

## FOLKLORE, CERTIFICATE

Folklore is the discovery and understanding of everyday human culture – the patterns of ideas, behavior, music, dance, foodways, rituals, crafts,

traditions, beliefs, lore, and customs of the everyday people that define our world.

Folklore is a discipline which crosses cultural borders and ethnic boundaries. It seeks to define the place of cultures and ethnicities within the family of humankind as well as examine and document how they intersect and influence each other. It builds bridges of understanding and is critical to our appreciation of how the world works, and how we use traditional knowledge to meet new challenges.

Folklore students will gain fresh perspectives on the ethnic, regional, occupational, gender, and other identities of individuals in specific communities. Students gain knowledge and experience in cultural backgrounds, collection techniques, fieldwork and research, theoretical analysis, and text comprehension and writing.

Folklore touches on every aspect of human life: health and illness, cultural diversity, social and political movements, superstition and fears, the movement of information and disinformation, trends and memes, family and home life, educational systems, entertainment and creative arts, politics and government, fashion and design, gender and sexuality, events and festivals, and more.

Training in Folklore and folklorist practices is useful in careers in the arts, public history, preservation, and museum stewardship, but also in health and medicine, social work, education, law, politics and intelligence, psychology, anthropology, marketing, the non-profit sector, journalism, gaming, international business, tourism, and much more.

## HOW TO GET IN

### HOW TO GET IN

Students must make an appointment with or email the undergraduate advisor to declare the certificate.

## REQUIREMENTS

### REQUIREMENTS

A total of 12 credits to complete the Certificate, to include:<sup>1</sup>

#### CATEGORY A: BASICS, FIELDWORK, DOCUMENTING, AND PRESERVING

One course and three credits are required, from:

Code	Title	Credits
FOLKLORE 100	Introduction to Folklore	3

## GERMAN, BA

### OVERVIEW

The German program affords students the opportunity to begin or continue their study of German and/or Dutch.

### GERMAN

Knowledge of German provides access to a culture that for more than a millennium has been central to the history, economy, arts, and sciences not just of Europe but of Western civilization as a whole. In the contemporary world, German-speaking countries have Europe's strongest economies and are playing an increasingly important role in world affairs. More Americans claim German ethnicity than any other, and German-speaking immigrants and their descendants have had an enduring impact on the history and culture of the United States. UW–Madison has been a leader in the field of German studies for more than a century. The university's libraries are remarkable for the depth and breadth of their German-language holdings.

### DUTCH

Knowledge of Dutch provides access to a culture that has been an important force in world history since the Middle Ages. The language of more than 20 million inhabitants of the Netherlands and Flanders (Dutch-speaking Belgium), Dutch is also spoken in Suriname and the Netherlands Antilles. It is also an important second language in Indonesia. As major economic powers, Belgium and the Netherlands play a leading role in shaping the European Union. World-class research in the sciences and humanities is conducted at Dutch and Belgian universities, and both countries can boast of a cultural life in which art, music, and theater are all flourishing.

### STUDY ABROAD

The German program works closely with International Academic Programs (<http://www.studyabroad.wisc.edu/>) to provide a range of opportunities for study in Germany and the Netherlands, for majors and non-majors alike. The program also cooperates with the School of Business, which maintains study abroad programs in Germany and Austria open to all qualified undergraduates, not just business majors. Finally, the College of Engineering and the College of Agriculture and Life Sciences offer study abroad programs in Germany for qualified students in these colleges.

### OTHER OPPORTUNITIES FOR GERMAN STUDENTS

UW–Madison students interested in international internships should visit the website of the International Internship Program (<http://internships.international.wisc.edu/>).

The German-language immersion dormitory, Stockwerk Deutsch (<http://gns.wisc.edu/stockwerk-deutsch/>), is located in Richardson House in Adams Hall, one of the Lakeshore residence halls. Undergraduate students live and speak German together with a resident native speaker of German. Contact the German program for applications and details.

Other regular student activities include film screenings and lectures as well as informal, conversation-oriented Kaffeestunde, Stammtisch, Dutch Table, and the German Club. For additional information, contact the German program.

### OFFERINGS IN DUTCH STUDIES

Course offerings in Dutch include five semesters of language instruction as well as courses in the literature and culture of the Low Countries. Courses in Dutch language satisfy the L&S foreign language requirement, while courses in Dutch literature and culture carry literature and humanities credits, respectively. Dutch literature is also offered under Literature in Translation.

A major in Dutch studies is not yet established at UW–Madison, but interested students are encouraged to pursue an individual major in the field. In addition to the study of language, literature, and culture, this could entail coursework in art history, geography, history, sociology, and so on. Courses taken in the study abroad program in Utrecht can also be applied to an individual major in Dutch studies.

### HOW TO GET IN

#### HOW TO GET IN DECLARING THE MAJOR

Students who have completed the prerequisite coursework may declare the German major at any time by consulting with the German program's undergraduate advisor.

Students declared in the German certificate may not be declared in the German major at the same time. Students who do wish to declare this major must first cancel their declaration in the certificate.

#### Prerequisites for the Major in German

A total of 9 credits of language coursework at the third-year (post-204, "2xx") level is required for the German major. Third-year German language courses (GERMAN 249, GERMAN 258, GERMAN 262, GERMAN 285) are not sequenced; they may be taken in any order and/or simultaneously.

Complete one of the following two groups of prerequisite courses:

Code	Title	Credits
<b>Group 1:</b>		
GERMAN 249 & GERMAN 258 & GERMAN 262	Intermediate German - Speaking and Listening and Intermediate German-Reading and Intermediate German-Writing	9
<b>Group 2:</b>		
GERMAN 249 & GERMAN 285	Intermediate German - Speaking and Listening and Intermediate Intensive (Honors) German: Language, Culture, Texts	9

### REQUIREMENTS

#### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world.

Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

General Education	<ul style="list-style-type: none"> <li>• Breadth–Humanities/Literature/Arts: 6 credits</li> <li>• Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth–Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul>
-------------------	--

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

### BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.
Language	<ul style="list-style-type: none"> <li>• Complete the fourth unit of a language other than English; OR</li> <li>• Complete the third unit of a language and the second unit of an additional language other than English.</li> </ul>
LS Breadth	<ul style="list-style-type: none"> <li>• 12 credits of Humanities, which must include 6 credits of literature; and</li> <li>• 12 credits of Social Science; and</li> <li>• 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.</li> </ul>
Liberal Arts and Science Coursework	Complete at least 108 credits.
Depth of Intermediate/Advanced work	Complete at least 60 credits at the intermediate or advanced level.
Major	Declare and complete at least one major.
Total Credits	Complete at least 120 credits.

UW-Madison Experience	<ul style="list-style-type: none"> <li>• 30 credits in residence, overall; and</li> <li>• 30 credits in residence after the 86th credit.</li> </ul>
Quality of Work	<ul style="list-style-type: none"> <li>• 2,000 in all coursework at UW-Madison</li> <li>• 2,000 in Intermediate/Advanced level coursework at UW-Madison</li> </ul>

## NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

27 credits in the major, as follows:

Code	Title	Credits
<b>Required Courses</b>		<b>6</b>
GERMAN 337	Advanced Composition & Conversation	
GERMAN 676	Advanced Seminar in German Studies <sup>1</sup>	
	or GERMAN 677 Seminar in German Culture Studies	
<b>Electives<sup>1</sup></b>		<b>21</b>
GERMAN 305	Literatur des 20. und 21. Jahrhunderts	
GERMAN 351	Introduction to German Linguistics	
GERMAN 352	Topics in German Linguistics	
GERMAN 362	Topics in German Literature	
GERMAN 367	Study Abroad in German Literature	
GERMAN 368	Study Abroad in German Culture	
GERMAN 369	Study Abroad in German Linguistics	
GERMAN 372	Topics in German Culture	
GERMAN 385	Honors Seminar in German Literature	
GERMAN 411	Kultur des 20. und 21. Jahrhunderts	
GERMAN 612	German Literary Movements Since 1750	
GERMAN 625	Letterkunde der Lage Landen	
GERMAN 632	A Theme in German Literature	
GERMAN 644	Theory and Practice of German Drama	
GERMAN 645	Cultuurkunde der Lage Landen	
GERMAN 650	History of the German Language	
GERMAN/MEDIEVAL 651	Introduction to Middle High German	
GERMAN/COM ARTS 655	German Film	
GERMAN 677	Seminar in German Culture Studies	
GERMAN 681	Senior Honors Thesis–First Semester	
GERMAN 682	Senior Honors Thesis–Second Semester	

GERMAN 683	Senior Honors Seminar in German Literature
GERMAN 698	Directed Study
GERMAN 699	Directed Study

**Total Credits** **27**

## COGNATE COURSES AS ELECTIVES

Up to 9 cognate course credits may count as electives within the German major. These are courses with German-related subject matter that are taught in English, either in the German program or in other departments. Cognate courses taken in the German program may be at the Elementary, Intermediate, or Advanced levels; those taken in other departments must be at the Advanced level only. Any questions about which courses may be counted as cognate courses may be directed to the undergraduate advisor. Currently the cognate list includes:

Code	Title	Credits
GERMAN 236	Bascom Course	
GERMAN 245	Topics in Dutch Life and Culture	
GERMAN 264	Culture in 20th Century Berlin	
GERMAN 266	Topics in German and/or Yiddish Culture	
GERMAN 267	Yiddish Song and the Jewish Experience

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all GERMAN courses and all major courses
- 2.000 GPA on 15 upper-level major credits, taken in residence<sup>2</sup>
- 15 credits in GERMAN, taken on campus

## HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the German undergraduate advisor.

## HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 in all Advanced-level GERMAN courses
- Complete 29 total Advanced-level credits in German, 20 of which must be taken for Honors, to include:

Code	Title	Credits
GERMAN 337	Advanced Composition & Conversation (for honors credit)	3
GERMAN 676	Advanced Seminar in German Studies (for honors credit)	3
GERMAN 677	Seminar in German Culture Studies	3
GERMAN 681 & GERMAN 682	Senior Honors Thesis-First Semester and Senior Honors Thesis-Second Semester	6

## FOOTNOTES

<sup>1</sup> At least 3 of these credits must be taken on the UW-Madison campus (not through Study Abroad).

<sup>2</sup> GERMAN courses numbered 300-699 are upper-level in the major, except: GERMAN 311, GERMAN 312, GERMAN 313, GERMAN 314, GERMAN 325, GERMAN 335, GERMAN 377, GERMAN 378, GERMAN 379, GERMAN 391, GERMAN 392, GERMAN 401, GERMAN 402, GERMAN 403, GERMAN 404, GERMAN 445, and any Dutch topic course.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

Students considering a major in German should consult with the undergraduate advisor for German early to discuss how to complete their degree in four academic years.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Demonstrate communication skills in German and integrate these skills to effectively exchange and evaluate ideas in written and spoken German. Recognize, interpret, and apply structural, pragmatic, sociolinguistic, and stylistic features of written and spoken German and how they influence meaning, in order to share information and persuade, inform, or narrate for different audiences.
2. Interpret and comprehend written, visual, and auditory texts in German representing a broad spectrum of genres, topics, time periods, and geographical regions. Recognize social, cultural, and linguistic diversity in spoken and written language. Identify key idea, features, or themes of texts in a variety of genres and forms.
3. Recognize and explain products, practices, and perspectives of the German-speaking world and the cultural, historical, social, and political context in which they were created. Demonstrate awareness of similarities, differences, and diversity by contrasting culturally situated beliefs and behaviors of the German-speaking world with those found in their own culture. Develop breadth and depth of cross-cultural knowledge and competence.
4. Formulate ideas, plan, and conduct research on themes related to course topics and students' particular interests. Collect and select relevant and credible sources in German (critical thinking and research). Formulate argumentative claims and support those claims using appropriate examples. Evaluate the strengths and weaknesses of different ideas.
5. Apply principles of ethical and professional conduct in each course and at all levels of instruction, thereby upholding the core values of academic integrity (personal responsibility and accountability).
6. Engage with the German language and its users in and beyond the classroom, e.g. in their own community, virtual communities, or through immersion experiences at home or abroad in order to participate in local and global multilingual communities (engagement in the community).

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that

## ADVISING AND CAREERS

### ADVISING AND CAREERS

For advising questions related to the German major, contact the GNS+ Undergraduate Advisor:

Joanna Schuth, Undergraduate Advisor  
jschuth@wisc.edu (mllouden@wisc.edu)  
836 Van Hise Hall  
Make an appointment through Starfish (<https://wisc.starfishsolutions.com/starfish-ops/>)

Language placement tests are advised for any student with previous knowledge or experience with German or Dutch. The German test is proctored through the University Placement Test program; more information is available here: <https://exams.wisc.edu/placement/>

The placement test for Dutch is a one-on-one appointment with a professor, with written, oral, and reading comprehension components. The Placement Advisor for Dutch is Jolanda Vanderwal Taylor. Please contact the undergraduate advisor to request placement.

Any questions regarding placement in German or Dutch may be directed to the undergraduate placement advisors for these programs:

Jeanne M. Schueller, German Language Program Coordinator and Undergraduate German Placement Advisor  
jmschuel@wisc.edu  
866 Van Hise Hall

Jolanda Vanderwal Taylor, Undergraduate Dutch Placement Advisor  
jvtaylor@wisc.edu  
608-262-5790  
832 Van Hise Hall

For advising on careers related to German, Dutch, and other languages, refer to:

Lydia Odegard  
Language Directions Specialist  
Language Institute (<https://languageinstitute.wisc.edu/staff/odegard-lydia/>)

### L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)

- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

## GERMAN, BS

### OVERVIEW

The German program affords students the opportunity to begin or continue their study of German and/or Dutch.

### GERMAN

Knowledge of German provides access to a culture that for more than a millennium has been central to the history, economy, arts, and sciences not

just of Europe but of Western civilization as a whole. In the contemporary world, German-speaking countries have Europe's strongest economies and are playing an increasingly important role in world affairs. More Americans claim German ethnicity than any other, and German-speaking immigrants and their descendants have had an enduring impact on the history and culture of the United States. UW–Madison has been a leader in the field of German studies for more than a century. The university's libraries are remarkable for the depth and breadth of their German-language holdings.

## DUTCH

Knowledge of Dutch provides access to a culture that has been an important force in world history since the Middle Ages. The language of more than 20 million inhabitants of the Netherlands and Flanders (Dutch-speaking Belgium), Dutch is also spoken in Suriname and the Netherlands Antilles. It is also an important second language in Indonesia. As major economic powers, Belgium and the Netherlands play a leading role in shaping the European Union. World-class research in the sciences and humanities is conducted at Dutch and Belgian universities, and both countries can boast of a cultural life in which art, music, and theater are all flourishing.

## STUDY ABROAD

The German program works closely with International Academic Programs (<http://www.studyabroad.wisc.edu/>) to provide a range of opportunities for study in Germany and the Netherlands, for majors and non-majors alike. The program also cooperates with the School of Business, which maintains study abroad programs in Germany and Austria open to all qualified undergraduates, not just business majors. Finally, the College of Engineering and the College of Agriculture and Life Sciences offer study abroad programs in Germany for qualified students in these colleges.

## OTHER OPPORTUNITIES FOR GERMAN STUDENTS

UW–Madison students interested in international internships should visit the website of the International Internship Program (<http://internships.international.wisc.edu/>).

The German-language immersion dormitory, Stockwerk Deutsch (<http://gns.wisc.edu/stockwerk-deutsch/>), is located in Richardson House in Adams Hall, one of the Lakeshore residence halls. Undergraduate students live and speak German together with a resident native speaker of German. Contact the German program for applications and details.

Other regular student activities include film screenings and lectures as well as informal, conversation-oriented Kaffeestunde, Stammtisch, Dutch Table, and the German Club. For additional information, contact the German program.

## OFFERINGS IN DUTCH STUDIES

Course offerings in Dutch include five semesters of language instruction as well as courses in the literature and culture of the Low Countries. Courses in Dutch language satisfy the L&S foreign language requirement, while courses in Dutch literature and culture carry literature and humanities credits, respectively. Dutch literature is also offered under Literature in Translation.

A major in Dutch studies is not yet established at UW–Madison, but interested students are encouraged to pursue an individual major in the field. In addition to the study of language, literature, and culture, this could entail coursework in art history, geography, history, sociology, and so on.

Courses taken in the study abroad program in Utrecht can also be applied to an individual major in Dutch studies.

## HOW TO GET IN

### HOW TO GET IN DECLARING THE MAJOR

Students who have completed the prerequisite coursework may declare the German major at any time by consulting with the German program's undergraduate advisor.

Students declared in the German certificate may not be declared in the German major at the same time. Students who do wish to declare this major must first cancel their declaration in the certificate.

### Prerequisites for the Major in German

A total of 9 credits of language coursework at the third-year (post-204, "2xx") level is required for the German major. Third-year German language courses (GERMAN 249, GERMAN 258, GERMAN 262, GERMAN 285) are not sequenced; they may be taken in any order and/or simultaneously.

Complete one of the following two groups of prerequisite courses:

Code	Title	Credits
<b>Group 1:</b>		
GERMAN 249 & GERMAN 258 & GERMAN 262	Intermediate German - Speaking and Listening and Intermediate German-Reading and Intermediate German-Writing	9
<b>Group 2:</b>		
GERMAN 249 & GERMAN 285	Intermediate German - Speaking and Listening and Intermediate Intensive (Honors) German: Language, Culture, Texts	9

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

General Education	<ul style="list-style-type: none"> <li>• Breadth—Humanities/Literature/Arts: 6 credits</li> <li>• Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth—Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul>
-------------------	--

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

### BACHELOR OF SCIENCE DEGREE REQUIREMENTS

**Mathematics** Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.

**Language** Complete the third unit of a language other than English.

**LS Breadth** Complete:

- 12 credits of Humanities, which must include at least 6 credits of Literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.

**Liberal Arts and Science Coursework** Complete at least 108 credits.

**Depth of Intermediate/Advanced Coursework** Complete at least 60 credits at the Intermediate or Advanced level.

**Major** Declare and complete at least one major.

**Total Credits** Complete at least 120 credits.

**UW-Madison Experience** Complete both:

- 30 credits in residence, overall, and
- 30 credits in residence after the 86th credit.

**Quality of Work**

- 2.000 in all coursework at UW-Madison
- 2.000 in Intermediate/Advanced level coursework at UW-Madison

## NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

27 credits in the major, as follows:

Code	Title	Credits
<b>Required Courses</b>		<b>6</b>
GERMAN 337	Advanced Composition & Conversation	
GERMAN 676	Advanced Seminar in German Studies <sup>1</sup>	
	or GERMAN 677 Seminar in German Culture Studies	
<b>Electives<sup>1</sup></b>		<b>21</b>
GERMAN 305	Literatur des 20. und 21. Jahrhunderts	
GERMAN 351	Introduction to German Linguistics	
GERMAN 352	Topics in German Linguistics	
GERMAN 362	Topics in German Literature	
GERMAN 367	Study Abroad in German Literature	
GERMAN 368	Study Abroad in German Culture	
GERMAN 369	Study Abroad in German Linguistics	
GERMAN 372	Topics in German Culture	
GERMAN 385	Honors Seminar in German Literature	
GERMAN 411	Kultur des 20. und 21. Jahrhunderts	
GERMAN 612	German Literary Movements Since 1750	
GERMAN 625	Letterkunde der Lage Landen	
GERMAN 632	A Theme in German Literature	
GERMAN 644	Theory and Practice of German Drama	
GERMAN 645	Cultuurkunde der Lage Landen	
GERMAN 650	History of the German Language	
GERMAN/MEDIEVAL 651	Introduction to Middle High German	
GERMAN/COM ARTS 655	German Film	
GERMAN 677	Seminar in German Culture Studies	
GERMAN 681	Senior Honors Thesis—First Semester	
GERMAN 682	Senior Honors Thesis—Second Semester	
GERMAN 683	Senior Honors Seminar in German Literature	
GERMAN 698	Directed Study	
GERMAN 699	Directed Study	
<b>Total Credits</b>		<b>27</b>

## COGNATE COURSES AS ELECTIVES

Up to 9 cognate course credits may count as electives within the German major. These are courses with German-related subject matter that are taught in English, either in the German program or in other departments. Cognate courses taken in the German program may be at the Elementary, Intermediate, or Advanced levels; those taken in other departments must be at the Advanced level only. Any questions about which courses may be counted as cognate courses may be directed to the undergraduate advisor. Currently the cognate list includes:

Code	Title	Credits
GERMAN 236	Bascom Course	
GERMAN 245	Topics in Dutch Life and Culture	
GERMAN 264	Culture in 20th Century Berlin	
GERMAN 266	Topics in German and/or Yiddish Culture	
GERMAN 267	Yiddish Song and the Jewish Experience	
GERMAN/ JEWISH/ LITTRANS 269	Yiddish Literature and Culture in Europe	
GERMAN 272	Nazi Culture	
GERMAN 275	Kafka and the Kafkaesque	
GERMAN/ LITTRANS 276	Special Topics in German and World Literature/s	
GERMAN 278	Topics in German Culture	
GERMAN/ JEWISH/ LITTRANS 279	Yiddish Literature and Culture in America	
GERMAN/ LITTRANS 280	From Grimm to Gryffindor: German Fairytales (Re)imagined	
GERMAN 325	Topics in Dutch Literature	
GERMAN 445	Topics in Dutch Culture	
GERMAN/ JEWISH 510	German-Jewish Culture Since the 18th Century	
GERMAN 560	Topics in German Studies	
GERMAN 625	Letterkunde der Lage Landen	
GERMAN 645	Cultuurkunde der Lage Landen	
GERMAN/ MEDIEVAL 651	Introduction to Middle High German	
GEN&WS/ LITTRANS 270	German Women Writers in Translation	
GNS 375	Philosophy, Theory, Criticism	
HISTORY/ JEWISH 310	The Holocaust	
HISTORY/ ENVIR ST 328	Environmental History of Europe	
HISTORY 359	History of Europe Since 1945	
HISTORY 410	History of Germany, 1871 to the Present	
JEWISH/ PHILOS 442	Moral Philosophy and the Holocaust	
JEWISH/ ENGL 539	Jewish Literatures in Diaspora	
RELIG ST 406	The Amish	

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all GERMAN courses and all major courses
- 2.000 GPA on 15 upper-level major credits, taken in residence<sup>2</sup>
- 15 credits in GERMAN, taken on campus

## HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the German undergraduate advisor.

## HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 in all Advanced-level GERMAN courses
- Complete 29 total Advanced-level credits in German, 20 of which must be taken for Honors, to include:

Code	Title	Credits
GERMAN 337	Advanced Composition & Conversation (for honors credit)	3
GERMAN 676	Advanced Seminar in German Studies (for honors credit)	3
GERMAN 677	Seminar in German Culture Studies	3
GERMAN 681 & GERMAN 682	Senior Honors Thesis-First Semester and Senior Honors Thesis-Second Semester	6

## FOOTNOTES

<sup>1</sup> At least 3 of these credits must be taken on the UW-Madison campus (not through Study Abroad).

<sup>2</sup> GERMAN courses numbered 300-699 are upper-level in the major, except: GERMAN 311, GERMAN 312, GERMAN 313, GERMAN 314, GERMAN 325, GERMAN 335, GERMAN 377, GERMAN 378, GERMAN 379, GERMAN 391, GERMAN 392, GERMAN 401, GERMAN 402, GERMAN 403, GERMAN 404, GERMAN 445, and any Dutch topic course.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

Students considering a major in German should consult with the undergraduate advisor for German early to discuss how to complete their degree in four academic years.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Demonstrate communication skills in German and integrate these skills to effectively exchange and evaluate ideas in written and spoken German. Recognize, interpret, and apply structural, pragmatic, sociolinguistic, and stylistic features of written and spoken German and how they influence meaning, in order to share information and persuade, inform, or narrate for different audiences.
2. Interpret and comprehend written, visual, and auditory texts in German representing a broad spectrum of genres, topics, time periods, and geographical regions. Recognize social, cultural, and linguistic diversity in spoken and written language. Identify key idea, features, or themes of texts in a variety of genres and forms.
3. Recognize and explain products, practices, and perspectives of the German-speaking world and the cultural, historical, social, and political context in which they were created. Demonstrate awareness of similarities, differences, and diversity by contrasting culturally situated beliefs and behaviors of the German-speaking world with those found in their own culture. Develop breadth and depth of cross-cultural knowledge and competence.
4. Formulate ideas, plan, and conduct research on themes related to course topics and students' particular interests. Collect and select relevant and credible sources in German (critical thinking and research). Formulate argumentative claims and support those claims using appropriate examples. Evaluate the strengths and weaknesses of different ideas.
5. Apply principles of ethical and professional conduct in each course and at all levels of instruction, thereby upholding the core values of academic integrity (personal responsibility and accountability).
6. Engage with the German language and its users in and beyond the classroom, e.g. in their own community, virtual communities, or through immersion experiences at home or abroad in order to participate in local and global multilingual communities (engagement in the community).

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

## GERMAN, CERTIFICATE

The Certificate in German, the first language certificate offered at UW-Madison, offers students the opportunity to develop proficiency in the language by requiring that all courses taken to fulfill it must be at the intermediate and advanced levels and taught in German. It complements major(s) in other subjects across the university and strengthens the applications of students who intend to pursue careers or graduate study in areas where knowledge of German is useful. The Certificate in German is open to all undergraduate students and University Special students who may already have earned degrees.

## HOW TO GET IN

### HOW TO GET IN

To declare the Certificate in German, email or make an appointment with the undergraduate advisor for the program.

Students declared in the German major are not eligible to declare the Certificate in German.

## REQUIREMENTS

### REQUIREMENTS

The certificate requires 15 total credits, 9 credits in Intermediate German and 6 credits in Advanced German courses.

### INTERMEDIATE GERMAN

Complete one of the following sequences:

Code	Title	Credits
GERMAN 249 & GERMAN 258 & GERMAN 262	Intermediate German - Speaking and Listening and Intermediate German-Reading and Intermediate German-Writing	9
GERMAN 249 & GERMAN 285	Intermediate German - Speaking and Listening and Intermediate Intensive (Honors) German: Language, Culture, Texts	9

### ADVANCED GERMAN

Complete at least two courses:

Code	Title	Credits
GERMAN 305	Literatur des 20. und 21. Jahrhunderts	3-4
GERMAN 337	Advanced Composition & Conversation	3-4
GERMAN 351	Introduction to German Linguistics	3-4
GERMAN 352	Topics in German Linguistics	3-4
GERMAN 362	Topics in German Literature	3-4
GERMAN 367	Study Abroad in German Literature	2-5
GERMAN 368	Study Abroad in German Culture	2-5
GERMAN 369	Study Abroad in German Linguistics	2-5
GERMAN 372	Topics in German Culture	3-4
GERMAN 385	Honors Seminar in German Literature	3
GERMAN 411	Kultur des 20. und 21. Jahrhunderts	3-4

## RESIDENCE AND QUALITY OF WORK

- Minimum 2.000 GPA on all courses eligible for the certificate
- At least 8 certificate credits must be completed in residence

Pass/fail courses do not apply to the certificate.

## UNDERGRADUATE/SPECIAL STUDENT CERTIFICATES

This certificate may be completed within the context of an undergraduate degree or as a Special student after an undergraduate degree has been awarded from any institution. The certificate may be completed in its entirety while enrolled as a Special student. Candidates are encouraged to contact the certificate coordinator to discuss course enrollment and the sequencing of certificate requirements.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. to promote German proficiency in all major skill areas: speaking, listening, reading, and writing.
2. to foster a deeper understanding of the cultures of the German-speaking world through courses taught in German.

## ADVISING AND CAREERS

### ADVISING AND CAREERS

For advising questions related to the German certificate, contact the GNS + Undergraduate Advisor:

Joanna Schuth, Undergraduate Advisor  
jschuth@wisc.edu (mllouden@wisc.edu)  
836 Van Hise Hall  
Make an appointment through Starfish (<https://wisc.starfishsolutions.com/starfish-ops/>)

Language placement tests are advised for any student with previous knowledge or experience with German. The German test is proctored through the University Placement Test program; more information is available here: <https://exams.wisc.edu/placement/>.

If you have questions about your placement test score, please contact the Undergraduate Advisor or the Placement Advisor:

Jeanne M. Schueller, German Language Program Coordinator and Placement Advisor  
jmschuel@wisc.edu  
866 Van Hise Hall

For advising on careers related to German, contact the Language Institute (<https://languageinstitute.wisc.edu/>).

### L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

## LANGUAGES AND CULTURES OF NORTHERN EUROPE, CERTIFICATE

The Languages and Cultures of Northern Europe certificate offers an opportunity to study the many diverse linguistic, cultural, and religious communities that have become part of Northern Europe as a result of international migration and pan-European economic integration. Students earning the certificate have maximum flexibility of choice in the culture they wish to study in depth, or if they want to take a comparative approach over the region. The certificate maps intellectually a complex and fascinating region of contemporary Europe – one which is marked not only by longstanding national cultures but also by an increasingly diverse and mobile populace.

If students wish, students may include language study in Dutch, Swedish, Norwegian, Danish, Finnish, or Yiddish as part of their course choices.

## HOW TO GET IN

### HOW TO GET IN

Students should contact the undergraduate advisor by email or make an appointment to declare the certificate.

## REQUIREMENTS

### REQUIREMENTS

The certificate requires a minimum of five courses and 18 credits. The courses must be distributed as follows:

Code	Title	Credits
<b>Colonialism, Diversity, Indigeneity, Migration</b> <sup>1</sup>		<b>3</b>
<i>Complete at least one course and three credits:</i>		
FOLKLORE/ SCAND ST 440	Scandinavian American Folklore	
SCAND ST 439	Nordic Filmmakers	
GERMAN/ JEWISH/ LITTRANS 269	Yiddish Literature and Culture in Europe	
LITTRANS 334	In Translation: The Art of Isak Dinesen/Karen Blixen	
or SCAND ST 439	The Art of Isak Dinesen/Karen Blixen

or SCAND ST 42	The Drama of August Strindberg	SCAND ST 401	Contemporary Scandinavian Languages
		SCAND ST 421	Advanced Topics in Nordic Studies
		SCAND ST 426	Kierkegaard and Scandinavian Literature

SCAND ST/ MEDIEVAL 430	The Vikings
SCAND ST 450	Scandinavian Decadence in its European Context

**Total Credits****18**

<sup>1</sup> Courses in the Colonialism, Diversity, Indigeneity, and Migration list may each only count once for the certificate.

## RESIDENCE AND QUALITY OF WORK

- At least 9 certificate credits must be completed in residence
- Minimum 2.000 GPA on all certificate courses.
- Courses taken pass/fail may not apply to the certificate.

## CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

### LEARNING OUTCOMES

## LEARNING OUTCOMES

1. Recognize and understand language, literary, and/or cultural phenomena as they pertain to Northern Europe and put them into context.
2. Recognize shifting geographic, cultural, ethnic/racial, and/or language factors in the Northern European region over time.
3. Demonstrate an understanding of major approaches, concepts and current research findings concerning the Northern European region.
4. Synthesize information, engage in discussion and research, and argue persuasively about key topics in the Northern European region.
5. Identify and distinguish between different types of sources used in the study of the Northern European region.
6. Integrate learned ideas and perspectives with broader social, cultural, and/or environmental contexts.

### ADVISING AND CAREERS

## ADVISING AND CAREERS

For advising and placement, please contact our undergraduate advisor:

Joanna Schuth, Undergraduate Advisor  
jschuth@wisc.edu (undergrad@gns.wisc.edu)  
608-262-2090  
836 Van Hise  
Make an appointment through Starfish (<https://wisc.starfishsolutions.com/starfish-ops/>)

Students who transfer to UW with previous language experience should contact the undergraduate advisor as early as possible to schedule a placement test.

**Students should see the advisor during the semester before their last semester.** Prospective students are urged to consult the undergraduate advisor about the program at the first possible opportunity.

For additional career advising, please contact:

Lydia Odegard  
Language Directions Specialist  
Language Institute (<https://languageinstitute.wisc.edu/staff/odegard-lydia/>)

## L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. ## POLISH, BA

Polish is the most commonly spoken Slavic language of the European Union and the second largest Slavic language in the world, with over 50 million users across the globe. Poland has a unique and vibrant culture shaped by a millennium of artistic and intellectual innovation and struggles for political, social, and cultural independence. The country survived two world wars and half a century of communist rule to emerge as a regional leader in East-Central Europe, the fastest-growing economy in the EU, and home to one of the most dynamic cultural scenes in the world. It is also a key NATO and U.S. ally in Europe. Polish diaspora is among the world's largest, with major concentrations in the U.S., Canada, the UK, Germany, and France.

The Polish major offers courses in the Polish language, literature, culture, politics, and one of the most intricate, fascinating histories in Europe, providing the knowledge and skills for successful careers in business, politics, diplomacy, arts, translation, international law, environmental science, journalism, national security, tourism, and cultural services.

## HOW TO GET IN

## HOW TO GET IN

To declare a major in Polish, students should make an appointment with or email the undergraduate advisor.

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed.

For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

General Education	<ul style="list-style-type: none"> <li>• Breadth—Humanities/Literature/Arts: 6 credits</li> <li>• Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth—Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul>
-------------------	--

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

## BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.

Language	<ul style="list-style-type: none"> <li>• Complete the fourth unit of a language other than English; OR</li> <li>• Complete the third unit of a language and the second unit of an additional language other than English.</li> </ul>
----------	--

LS Breadth	<ul style="list-style-type: none"> <li>• 12 credits of Humanities, which must include 6 credits of literature; and</li> <li>• 12 credits of Social Science; and</li> <li>• 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.</li> </ul>
------------	--

Liberal Arts and Science Coursework	Complete at least 108 credits.
-------------------------------------	--------------------------------

Depth of Intermediate/Advanced work	Complete at least 60 credits at the intermediate or advanced level.
-------------------------------------	---

Major	Declare and complete at least one major.
-------	--

Total Credits	Complete at least 120 credits.
---------------	--------------------------------

UW-Madison Experience	<ul style="list-style-type: none"> <li>• 30 credits in residence, overall; and</li> <li>• 30 credits in residence after the 86th credit.</li> </ul>
-----------------------	---

Quality of Work	<ul style="list-style-type: none"> <li>• 2.000 in all coursework at UW–Madison</li> <li>• 2.000 in Intermediate/Advanced level coursework at UW–Madison</li> </ul>
-----------------	--

## NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

The Polish major requires study of the Polish language, Polish literature in translation, Polish literature in the original language, as well as culture and area studies, as detailed below:

Code	Title	Credits
<b>Polish Language (complete two courses):</b>		<b>6</b>
SLAVIC 277	Third Year Polish I

POLI SCI 340	The European Union: Politics and Political Economy	
POLI SCI 659	Politics and Society: Contemporary Eastern Europe	
<b>Total Credits</b>		<b>21</b>

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all major courses
- 2.000 GPA on at least 15 credits of upper-level work in the major, in residence
- 15 credits in the major taken on the UW–Madison campus

### Upper-Level Courses in the Major:

Code	Title	Credits
SLAVIC 277	Third Year Polish I	3
SLAVIC 278	Third Year Polish II	3
SLAVIC 307	Study Abroad in Poland	1-4
SLAVIC 308	Polish Culture and Area Studies on Study Abroad	1-4
SLAVIC 331	Fourth Year Polish I	3
SLAVIC 332	Fourth Year Polish II	3
SLAVIC/ LITTRANS 357	Intermediate Special Topics in Slavic Languages and Literatures	3
SLAVIC/ LITTRANS 361	Living at the End of Times: Contemporary Polish Literature and Culture	3
SLAVIC/ FOLKLORE 444	Slavic and East European Folklore	3
SLAVIC/ LITTRANS 467	Advanced Special Topics in Slavic Languages and Literatures	3
HISTORY 425	History of Poland and the Baltic Area	3-4

LITTRANS/ FOLKLORE 327	Vampires	3
POLI SCI 340	The European Union: Politics and Political Economy	3-4
POLI SCI 659	Politics and Society: Contemporary Eastern Europe	3-4

## HONORS IN THE MAJOR

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA for all SLAVIC courses and all courses counting in the major
- Complete a two-semester Senior Honors Thesis in SLAVIC 681 and SLAVIC 682, for a total of 6 credits
- 9 credits from the following list:

Code	Title	Credits
SLAVIC 277	Third Year Polish I	3
SLAVIC 278	Third Year Polish II	3
SLAVIC 331	Fourth Year Polish I	3
SLAVIC 332	Fourth Year Polish II	3
SLAVIC/ LITTRANS 361	Living at the End of Times: Contemporary Polish Literature and Culture	3
SLAVIC/ LITTRANS 357	Intermediate Special Topics in Slavic Languages and Literatures	3
SLAVIC/ LITTRANS 467	Advanced Special Topics in Slavic Languages and Literatures	3

## FOOTNOTES

<sup>1</sup> SLAVIC 231 may only count within one requirement for the major.

## UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. (Polish language proficiency) Develop speaking, listening, writing, and reading skills and integrate these skills to communicate in Polish in a variety of social situations.
2. Develop and apply writing skills and oral communication skills appropriate to liberal arts education in the context of Slavic studies.
3. Develop and apply critical thinking skills inherent in the liberal arts tradition in the context of Slavic studies.
4. Analyze and interpret works of literature in themselves and in the context of specific historical and cultural conditions.
5. Demonstrate insight into Polish culture and civilization and apply this knowledge across disciplines such as history, political science, the arts, geography, business, economics, sociology, the sciences, gender studies, philosophy, law, folklore.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

Krzysztof Borowski

**POLISH, BS**

Polish is the most commonly spoken Slavic language of the European Union and the second largest Slavic language in the world, with over 50 million users across the globe. Poland has a unique and vibrant culture shaped by a millennium of artistic and intellectual innovation and struggles for political, social, and cultural independence. The country survived two world wars and half a century of communist rule to emerge as a regional leader in East-Central Europe, the fastest-growing economy in the EU, and home to one of the most dynamic cultural scenes in the world. It is also a key NATO and U.S. ally in Europe. Polish diaspora is among the world's largest, with major concentrations in the U.S., Canada, the UK, Germany, and France.

The Polish major offers courses in the Polish language, literature, culture, politics, and one of the most intricate, fascinating histories in Europe, providing the knowledge and skills for successful careers in business, politics, diplomacy, arts, translation, international law, environmental science, journalism, national security, tourism, and cultural services.

## HOW TO GET IN

### HOW TO GET IN

To declare a major in Polish, students should make an appointment with or email the undergraduate advisor.

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

General Education	<ul style="list-style-type: none"> <li>• Breadth–Humanities/Literature/Arts: 6 credits</li> <li>• Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth–Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul>
-------------------	--

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

### COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

#### BACHELOR OF SCIENCE DEGREE REQUIREMENTS

**Mathematics** Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.

**Language** Complete the third unit of a language other than English.

**LS Breadth** Complete:

- 12 credits of Humanities, which must include at least 6 credits of Literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.

Liberal Arts and Science Coursework	Complete at least 108 credits.
Depth of Advanced Coursework	Complete at least 60 credits at the Intermediate/Advanced level.
Major	Declare and complete at least one major.
Total Credits	Complete at least 120 credits.
UW–Madison Experience	Complete both: <ul style="list-style-type: none"> <li>• 30 credits in residence, overall, and</li> <li>• 30 credits in residence after the 86th credit.</li> </ul>
Quality of Work	<ul style="list-style-type: none"> <li>• 2.000 in all coursework at UW–Madison</li> <li>• 2.000 in Intermediate/Advanced level coursework at UW–Madison</li> </ul>

### NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

### REQUIREMENTS FOR THE MAJOR

The Polish major requires study of the Polish language, Polish literature in translation, Polish literature in the original language, as well as culture and area studies, as detailed below:

Code	Title	Credits
<b>Polish Language (complete two courses):</b>		<b>6</b>
SLAVIC 277	Third Year Polish I	
SLAVIC 278	Third Year Polish II	
<b>Polish Literature and Culture (complete both):</b>		
SLAVIC/ LITTRANS 215	Love and Death: Introduction to Polish Literature & Culture	3
SLAVIC/ LITTRANS 361	Living at the End of Times: Contemporary Polish Literature and Culture	3
<b>Additional Course in Polish Language or Literature/Culture (complete one):</b>		<b>3</b>
SLAVIC 331	Fourth Year Polish I	
SLAVIC 332	Fourth Year Polish II	
SLAVIC 231	History and Ethics on Film: Polish Cinema <sup>1</sup>	
<b>Polish Literature and Culture Area Studies from:</b>		<b>6</b>
SLAVIC 231	History and Ethics on Film: Polish Cinema <sup>1</sup>	
SLAVIC 242	Literatures and Cultures of Eastern Europe	

SLAVIC 246	Escaping Utopia: Cultures after Communism
SLAVIC 245	Topics in Slavic Literatures
SLAVIC/GEOG/ HISTORY/ POLI SCI 254	Eastern Europe: An Interdisciplinary Survey
SLAVIC 285	Slavic Culture in Context: An Honors Course
SLAVIC 299	Directed Study
SLAVIC 307	Study Abroad in Poland
SLAVIC 308	Polish Culture and Area Studies on Study Abroad
SLAVIC/ LITTRANS 357	Intermediate Special Topics in Slavic Languages and Literatures
SLAVIC/ FOLKLORE 444	Slavic and East European Folklore
SLAVIC/ LITTRANS 467	Advanced Special Topics in Slavic Languages and Literatures
SLAVIC 470	History of Polish Literature until 1863
SLAVIC 472	History of Polish Literature after 1863
HISTORY 270	Eastern Europe since 1900
HISTORY 425	History of Poland and the Baltic Area
LITTRANS 207	Slavic Science Fiction through Literature and Film
LITTRANS 218	Polish Literature in Translation: Late 19th and 20th Centuries
LITTRANS 229	Representation of the Jew in Eastern European Cultures
LITTRANS 241	Literatures and Cultures of Eastern Europe
LITTRANS 247	Topics in Slavic Literatures in Translation
LITTRANS/ SLAVIC 357	Intermediate Special Topics in Slavic Languages and Literatures
LITTRANS/ SLAVIC 467	Advanced Special Topics in Slavic Languages and Literatures
LITTRANS 473	Polish Literature (in Translation) since 1863
POLI SCI 340	The European Union: Politics and Political Economy
POLI SCI 659	Politics and Society: Contemporary Eastern Europe

**Total Credits** **21**

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all major courses
- 2.000 GPA on at least 15 credits of upper-level work in the major, in residence
- 15 credits in the major taken on the UW–Madison campus

## Upper-Level Courses in the Major:

Code	Title	Credits
SLAVIC 277	Third Year Polish I	3
SLAVIC 278	Third Year Polish II	3
SLAVIC 307	Study Abroad in Poland	1-4
SLAVIC 308	Polish Culture and Area Studies on Study Abroad	1-4
SLAVIC 331	Fourth Year Polish I	3
SLAVIC 332	Fourth Year Polish II	3
SLAVIC/ LITTRANS 357	Intermediate Special Topics in Slavic Languages and Literatures	3
SLAVIC/ LITTRANS 361	Living at the End of Times: Contemporary Polish Literature and Culture	3
SLAVIC/ FOLKLORE 444	Slavic and East European Folklore	3
SLAVIC/ LITTRANS 467	Advanced Special Topics in Slavic Languages and Literatures	3
HISTORY 425	History of Poland and the Baltic Area	3-4
LITTRANS/ FOLKLORE 327	Vampires	3
POLI SCI 340	The European Union: Politics and Political Economy	3-4
POLI SCI 659	Politics and Society: Contemporary Eastern Europe	3-4

## HONORS IN THE MAJOR

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA for all SLAVIC courses and all courses counting in the major
- Complete a two-semester Senior Honors Thesis in SLAVIC 681 and SLAVIC 682, for a total of 6 credits
- 9 credits from the following list:

Code	Title	Credits
SLAVIC 277	Third Year Polish I	3
SLAVIC 278	Third Year Polish II	3
SLAVIC 331	Fourth Year Polish I	3
SLAVIC 332	Fourth Year Polish II	3
SLAVIC/ LITTRANS 361	Living at the End of Times: Contemporary Polish Literature and Culture	3
SLAVIC/ LITTRANS 357	Intermediate Special Topics in Slavic Languages and Literatures	3
SLAVIC/ LITTRANS 467	Advanced Special Topics in Slavic Languages and Literatures	3

## FOOTNOTES

<sup>1</sup> SLAVIC 231 may only count within one requirement for the major.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. (Polish language proficiency) Develop speaking, listening, writing, and reading skills and integrate these skills to communicate in Polish in a variety of social situations.
2. Develop and apply writing skills and oral communication skills appropriate to liberal arts education in the context of Slavic studies.
3. Develop and apply critical thinking skills inherent in the liberal arts tradition in the context of Slavic studies.
4. Analyze and interpret works of literature in themselves and in the context of specific historical and cultural conditions.
5. Demonstrate insight into Polish culture and civilization and apply this knowledge across disciplines such as history, political science, the arts, geography, business, economics, sociology, the sciences, gender studies, philosophy, law, folklore.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

#### First Year

## RUSSIAN, BA

Russian is a National Security Education Program Critical Language. Students in the Russian major not only learn the language but become familiar with the treasure of Russian cultural heritage in literature, visual art, theater, and music.

The Russian major is designed to meet the needs of students who begin to study the language in college as well as those who began to study the language in high school. With a major in Russian, you will be able to converse with ease in most common situations at work, school, social events, and everyday duties, as well as read and write at an advanced level. In addition, you will gain an appreciation and understanding of Russian culture and politics, past and present, and the literary and artistic traditions that Russian society holds dear.

## HOW TO GET IN

### HOW TO GET IN

To declare a major in Russian, students should make an appointment with or email the Russian undergraduate advisor.

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. ## ADVISING AND CAREERS

### ADVISING AND CAREERS

Language placement tests are advised for any student with previous knowledge or experience with Russian. The test consists of a one-on-one appointment with a professor, with written, oral, and reading comprehension components.

These tests may admit a student to a more advanced course, but give no credit toward graduation. L&S Retro Credit Policy (<https://kb.wisc.edu/lspage.php?id=23736>).

The Placement Advisor for Russian is Anna Tumarkin. Please contact the Undergraduate Advisor to request placement.

Students might also want to consider the Russian Flagship program, a federally-funded intensive language learning program open to students of all majors. The Flagship program is a separate application and students can complete it in addition to the Russian major or may complete it alongside another major entirely.

For other undergraduate concerns or to declare the major, please contact our undergraduate coordinator:

Joanna Schuth, Undergraduate Advisor  
jschuth@wisc.edu  
836 Van Hise Hall  
Make an appointment through Starfish (<https://wisc.starfishsolutions.com/starfish-ops/>)

For career advising, please connect with:

Lydia Odegard  
Language Directions Specialist  
Language Institute (<https://languageinstitute.wisc.edu/staff/odegard-lydia/>)

### L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

#### First Year

Fall	Credits Spring	Credits
SLAVIC 101	4 SLAVIC 102	4

## RUSSIAN, BS

Russian is a National Security Education Program Critical Language. Students in the Russian major not only learn the language but become familiar with the treasure of Russian cultural heritage in literature, visual art, theater, and music.

The Russian major is designed to meet the needs of students who begin to study the language in college as well as those who began to study the language in high school. With a major in Russian, you will be able to converse with ease in most common situations at work, school, social events, and everyday duties, as well as read and write at an advanced level. In addition, you will gain an appreciation and understanding of Russian culture and politics, past and present, and the literary and artistic traditions that Russian society holds dear.

## HOW TO GET IN

### HOW TO GET IN

To declare a major in Russian, students should make an appointment with or email the Russian undergraduate advisor.

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

General Education	<ul style="list-style-type: none"> <li>• Breadth–Humanities/Literature/Arts: 6 credits</li> <li>• Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth–Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul>
-------------------	--

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

### COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

### BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.

Language Complete the third unit of a language other than English.

LS Breadth	Complete: <ul style="list-style-type: none"> <li>• 12 credits of Humanities, which must include at least 6 credits of Literature; and</li> <li>• 12 credits of Social Science; and</li> <li>• 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.</li> </ul>
------------	---

Liberal Arts and Science Coursework Complete at least 108 credits.

Depth of Intermediate/Advanced Coursework Complete at least 60 credits at the Intermediate or Advanced level.

Advanced Coursework

Major Declare and complete at least one major.

Total Credits Complete at least 120 credits.

UW-Madison Experience Complete both:

- 30 credits in residence, overall, and
- 30 credits in residence after the 86th credit.

Quality of Work

- 2.000 in all coursework at UW-Madison
- 2.000 in Intermediate/Advanced level coursework at UW-Madison

## NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

Code	Title	Credits
<b>Russian Language:</b>		<b>15</b>
SLAVIC 275 & SLAVIC 276 or SLAVIC 279	Third Year Russian I and Third Year Russian II Intensive Third Year Russian

**34**

## RESIDENCE AND QUALITY OF WORK

- Minimum 2.000 GPA in all major courses
- Minimum 2.000 GPA on at least 15 credits of upper-level work in the major, in residence
- At least 15 credits in the major, taken on campus

## UPPER-LEVEL COURSES IN THE MAJOR

The following courses are upper-level in the Russian major:

Code	Title	Credits
SLAVIC 275	Third Year Russian I	
SLAVIC 276	Third Year Russian II	
SLAVIC 309	Russian Area Studies on Study Abroad	
SLAVIC 310	Topics in Russian: Study Abroad	
SLAVIC 315	Russian Language and Culture I	
SLAVIC 316	Russian Language and Culture II	
SLAVIC 321	Fourth Year Russian I	
SLAVIC 322	Fourth Year Russian II	
SLAVIC 440	Soviet Literature	
SLAVIC/ FOLKLORE 444	Slavic and East European Folklore	
SLAVIC 465	Advanced Readings in Russian Literature & Culture	
SLAVIC 555	Advanced Russian Listening & Speaking	
SLAVIC 560	Capstone Seminar in Russian Literature and Culture	
SLAVIC 681	Senior Honors Thesis	
SLAVIC 682	Senior Honors Thesis	
SLAVIC 699	Directed Study	
LITTRANS/ GEN&WS 205	Women in Russian Literature in Translation	
LITTRANS 220	Chekhov: The Drama of Modern Life	
LITTRANS 221	Russia's Greatest Enigma: Nikolai Gogol	
LITTRANS 222	Dostoevsky in Translation	
LITTRANS/ ENGL 223	Vladimir Nabokov: Russian and American Writings	
LITTRANS 224	Tolstoy in Translation	

## HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Russian advisor.

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA in all courses in the major
- Complete 18 credits in the major taken for Honors, taken on campus, with grades of B or better in the following:
  - SLAVIC 275, SLAVIC 276, SLAVIC 315, SLAVIC 316, SLAVIC 321 and SLAVIC 465 or SLAVIC 560

- Complete a Senior Thesis in SLAVIC 681 and SLAVIC 682 for at least 6 credits

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. (Russian language proficiency) Develop speaking, listening, writing, and reading skills and integrate these skills to communicate in Russian in a variety of social situations.
2. Develop and apply writing skills and oral communication skills appropriate to liberal arts education in the context of Slavic studies.
3. Develop and apply critical thinking skills inherent in the liberal arts tradition in the context of Slavic studies.
4. Analyze and interpret works of literature in themselves and in the context of specific historical and cultural conditions.
5. Demonstrate insight into Russian culture and civilization and apply this knowledge across disciplines such as history, political science, the arts, geography, business, economics, sociology, the sciences, gender studies, philosophy, law, folklore.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. **Total Credits 120****ADVISING AND CAREERS****ADVISING AND CAREERS**

Language placement tests are advised for any student with previous knowledge or experience with Russian. The test consists of a one-on-one appointment with a professor, with written, oral, and reading comprehension components.

These tests may admit a student to a more advanced course, but give no credit toward graduation. L&S Retro Credit Policy (<https://kb.wisc.edu/lspage.php?id=23736>).

The Placement Advisor for Russian is Anna Tumarkin. Please contact the Undergraduate Advisor to request placement.

[Students might also want to consider the Russian Flagship program, a federally-funded intensive language learning program open to students of all majors. The Flagship program is a separate application and students can complete it in addition to the Russian major or may complete it alongside another major entirely.](#)

For other undergraduate concerns or to declare the major, please contact our undergraduate coordinator:

Joanna Schuth, Undergraduate Advisor  
jschuth@wisc.edu  
836 Van Hise Hall  
Make an appointment through Starfish (<https://wisc.starfishsolutions.com/starfish-ops/>)

For career advising, please connect with:

Lydia Odegard  
Language Directions Specialist  
Language Institute (<https://languageinstitute.wisc.edu/staff/odegard-lydia/>)

**L&S CAREER RESOURCES**

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

## SCANDINAVIAN STUDIES, BA

The Scandinavian Studies major provides the opportunity to learn the literature, folklore, history, and culture of the Nordic countries in the original languages and in English translation. Partly in cooperation with other departments, we offer courses in Scandinavian language, history, culture, social institutions, gender and women's studies, arts, myths, and folklore.

Students also may continue graduate studies toward an MA in Scandinavian philology, literature, or area studies, and toward a PhD in Scandinavian literature, philology, or folklore.

The program strongly encourages a junior year abroad in a Nordic country; several exchange programs in Sweden, Norway, Denmark, and elsewhere are available.

Students may apply to Norden House, a residential language immersion program for UW students studying Norwegian, Danish, or Swedish, housed in Adams Residence Hall.

Scholars who major in the field are equipped for careers in the countries that are the world leaders in gender equity, societal welfare, and 21st-century business practices, as well as a range of careers including education, law, international trade, translation, civil service, non-profits, the arts, linguistics, literature, environmental sciences, conservation, diplomacy, and more.

## HOW TO GET IN

## HOW TO GET IN

Student interested in pursuing an undergraduate major in Scandinavian studies should contact the advisor by email or make an appointment through Starfish.

Students declared in the Scandinavian Studies certificate may not be declared in the Scandinavian Studies major at the same time. Students who do wish to declare this major must first cancel their declaration in the certificate.

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

- |                   |  |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> <li>• Breadth–Humanities/Literature/Arts: 6 credits</li> <li>• Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth–Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul> |
|-------------------|--|

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

## BACHELOR OF ARTS DEGREE REQUIREMENTS

**Mathematics** Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.

**Language**

- Complete the fourth unit of a language other than English; OR
- Complete the third unit of a language and the second unit of an additional language other than English.

**LS Breadth**

- 12 credits of Humanities, which must include 6 credits of literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.

**Liberal Arts and Science Coursework** Complete at least 108 credits.

**Depth of Intermediate/Advanced work** Complete at least 60 credits at the intermediate or advanced level.

**Major** Declare and complete at least one major.

**Total Credits** Complete at least 120 credits.

**UW-Madison Experience**

- 30 credits in residence, overall; and
- 30 credits in residence after the 86th credit.

**Quality of Work**

- 2,000 in all coursework at UW-Madison
- 2,000 in Intermediate/Advanced level coursework at UW-Madison

## NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

**Total Credits****21****RESIDENCE AND QUALITY OF WORK**

- 2.000 GPA in all SCAND ST and all major courses
- 2.000 GPA on at least 15 credits of upper-level work in the major<sup>1</sup>
- 15 credits in SCAND ST, taken on campus

<sup>1</sup> SCAND ST/LITTRANS 320 to SCAND ST 699 are considered upper level in the major.

**HONORS IN THE MAJOR**

Students may declare Honors in the Major in consultation with the Scandinavian Studies advisor(s).

**HONORS IN THE MAJOR REQUIREMENTS**

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 in all SCAND ST and all major courses
- Complete at least 8 Honors credits from courses numbered SCAND ST 373 and higher
- Complete either SCAND ST 634 or SCAND ST 635 with a grade of B or better
- Complete a two-semester Senior Honors Thesis in SCAND ST 681 and SCAND ST 682, for a total of 6 credits.

**UNIVERSITY DEGREE REQUIREMENTS**

**Total Degree** To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

**LEARNING OUTCOMES****LEARNING OUTCOMES**

1. Develop speaking, listening, writing, and reading skills and integrate these skills to communicate in the target language (Danish, Norwegian, Swedish) including familiarity with the other two in a variety of social situations.
2. Recognize shifting geographic, cultural, ethnic/racial, and/or language factors in the Nordic region over time.
3. Demonstrate an understanding of major scholarly approaches, concepts and current research findings concerning the Nordic region.
4. Synthesize information, engage in discussion and research, and argue persuasively about key topics in the Nordic region.

- Identify and analyze literary texts, films, and other cultural products, using both primary and secondary sources, used in the study of the Nordic region.
- Integrate learned ideas and perspectives with broader social, cultural, and/or environmental contexts.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

#### Freshman

Fall	Credits Spring	Credits
SCAND ST 101, 111, or 121	4 SCAND ST 102, 112, or 122	4
SCAND ST 476	4 SCAND ST/ FOLKLORE 443 (meets Ethnic Studies requirement)	4

#### Total Credits 120

<sup>1</sup> Transfer credit will vary based on courses completed while abroad.

## ADVISING AND CAREERS

### ADVISING AND CAREERS

For advising and placement, please contact our undergraduate advisor:

Joanna Schuth, Undergraduate Advisor  
 jschuth@wisc.edu (undergrad@gns.wisc.edu)  
 836 Van Hise Hall  
 Make an appointment through Starfish (<https://wisc.starfishsolutions.com/starfish-ops/>)

Students who transfer to UW after a year abroad should contact the undergraduate advisor as early as possible to schedule a placement test.

**Note:** SCAND ST 302 (<https://guide.wisc.edu/search/?P=SCAND%20ST%20302>) Intensive Finnish II satisfies the third semester of the Finnish language sequence for the purpose of meeting the College of Letters & Science foreign language requirement.

**Majors should see the advisor during the semester before their last semester.** Prospective majors are urged to consult the undergraduate advisor about their program at the first possible opportunity.

For additional career advising, please contact:

Lydia Odegard  
 Language Directions Specialist  
 Language Institute (<https://languageinstitute.wisc.edu/staff/odegard-lydia/>)

### L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

## SCANDINAVIAN STUDIES, BS

The Scandinavian Studies major provides the opportunity to learn the literature, folklore, history, and culture of the Nordic countries in the original languages and in English translation. Partly in cooperation with other departments, we offer courses in Scandinavian language, history, culture, social institutions, gender and women's studies, arts, myths, and folklore.

Students also may continue graduate studies toward an MA in Scandinavian philology, literature, or area studies, and toward a PhD in Scandinavian literature, philology, or folklore.

The program strongly encourages a junior year abroad in a Nordic country; several exchange programs in Sweden, Norway, Denmark, and elsewhere are available.

Students may apply to Norden House, a residential language immersion program for UW students studying Norwegian, Danish, or Swedish, housed in Adams Residence Hall.

Scholars who major in the field are equipped for careers in the countries that are the world leaders in gender equity, societal welfare, and 21st-century business practices, as well as a range of careers including education, law, international trade, translation, civil service, non-profits, the arts, linguistics, literature, environmental sciences, conservation, diplomacy, and more.

## HOW TO GET IN

### HOW TO GET IN

Student interested in pursuing an undergraduate major in Scandinavian studies should contact the advisor by email or make an appointment through Starfish.

Students declared in the Scandinavian Studies certificate may not be declared in the Scandinavian Studies major at the same time. Students who do wish to declare this major must first cancel their declaration in the certificate.

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

- |                   |  |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> <li>• Breadth-Humanities/Literature/Arts: 6 credits</li> <li>• Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth-Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul> |
|-------------------|--|

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

### BACHELOR OF SCIENCE DEGREE REQUIREMENTS

**Mathematics** Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.

**Language** Complete the third unit of a language other than English.

**LS Breadth** Complete:

- 12 credits of Humanities, which must include at least 6 credits of Literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.

**Liberal Arts and Science Coursework** Complete at least 108 credits.

**Depth of Intermediate/Advanced Coursework** Complete at least 60 credits at the Intermediate or Advanced level.

**Major** Declare and complete at least one major.

**Total Credits** Complete at least 120 credits.

**UW-Madison Experience** Complete both:

- 30 credits in residence, overall, and
- 30 credits in residence after the 86th credit.

**Quality of Work**

- 2.000 in all coursework at UW-Madison
- 2.000 in Intermediate/Advanced level coursework at UW-Madison

### NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

### REQUIREMENTS FOR THE MAJOR

Code	Title	Credits
<b>Language (complete one):</b>		<b>3-4</b>
SCAND ST 251	Readings in Norwegian Literature

SCAND ST 520	Special Topics
SCAND ST 634	Survey of Scandinavian Literature: 1500-1800
SCAND ST 635	Survey of Scandinavian Literature: 1800-1890
LITTRANS 274	In Translation: Masterpieces of Scandinavian Literature-the 20th Century
LITTRANS 275	In Translation: The Tales of Hans Christian Andersen

**Total Credits** **21**

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all SCAND ST and all major courses

- 2.000 GPA on at least 15 credits of upper-level work in the major<sup>1</sup>

- 15 credits in SCAND ST, taken on campus

<sup>1</sup> SCAND ST/LITTRANS 320 to SCAND ST 699 are considered upper level in the major.

## HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Scandinavian Studies advisor(s).

## HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 in all SCAND ST and all major courses
- Complete at least 8 Honors credits from courses numbered SCAND ST 373 and higher
- Complete either SCAND ST 634 or SCAND ST 635 with a grade of B or better
- Complete a two-semester Senior Honors Thesis in SCAND ST 681 and SCAND ST 682, for a total of 6 credits.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

## LEARNING OUTCOMES

1. Develop speaking, listening, writing, and reading skills and integrate these skills to communicate in the target language (Danish, Norwegian, Swedish) including familiarity with the other two in a variety of social situations.
2. Recognize shifting geographic, cultural, ethnic/racial, and/or language factors in the Nordic region over time.

3. Demonstrate an understanding of major scholarly approaches, concepts and current research findings concerning the Nordic region.
4. Synthesize information, engage in discussion and research, and argue persuasively about key topics in the Nordic region.
5. Identify and analyze literary texts, films, and other cultural products, using both primary and secondary sources, used in the study of the Nordic region.
6. Integrate learned ideas and perspectives with broader social, cultural, and/or environmental contexts.

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

## RESIDENCE AND QUALITY OF WORK

- At least a 2.000 GPA is required among all courses eligible for the certificate.
- At least 9 credits must be taken in residence. A UW-Madison-sponsored study abroad program applies as in-residence credit.

## CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

### LEARNING OUTCOMES

## LEARNING OUTCOMES

1. Demonstrate understanding in a global context in a field of study covering literature, history, area studies, folklore, or philology classes.
2. Select and utilize the most appropriate methods of study and inquiry within the content of the classes taken.
3. Evaluate and respond to information pertaining to the classes taken, showing clear analytical and critical thinking skills.
4. Communicate clearly in appropriate ways in the classes taken.
5. Recognize and apply principles of ethical and professional conduct.

### ADVISING AND CAREERS

## ADVISING AND CAREERS

For advising and placement, please contact our undergraduate advisor:

Joanna Schuth, Undergraduate Advisor  
jschuth@wisc.edu (undergrad@gns.wisc.edu)  
836 Van Hise Hall  
Make an appointment through Starfish (<https://wisc.starfishsolutions.com/starfish-ops/>)

Students who transfer to UW after a year abroad should contact the undergraduate advisor as early as possible to schedule a placement test.

**Note:** SCAND ST 302 (<https://guide.wisc.edu/search/?P=SCAND%20ST%20302>) Intensive Finnish II satisfies the third semester of the Finnish language sequence for the purpose of meeting the College of Letters & Science foreign language requirement.

**Majors should see the advisor during the semester before their last semester.** Prospective majors are urged to consult the undergraduate advisor about their program at the first possible opportunity.

For additional career advising, please contact:

Lydia Odegard  
Language Directions Specialist  
Language Institute (<https://languageinstitute.wisc.edu/staff/odegard-lydia/>)

## L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

## SLAVIC STUDIES, CERTIFICATE

In the Slavic Studies Certificate, students have the opportunity to pair a strong language study of Russian, Polish, Czech, or Ukrainian with a contextual, integrative regional view to complement their studies in political science, international studies, business, history, or many other areas. Students gain a critically informed appreciation and understanding of the complex, interwoven nature of the region's historical trajectories, politics, literature, and culture, with the flexibility to choose to focus on the area or culture of their special interest or take a comparative approach to the region as a whole.

### HOW TO GET IN

## HOW TO GET IN

Students may declare the certificate by contacting the academic advisor.

Students declared in the Russian or Polish majors are not eligible to declare the Slavic Studies certificate. Students declared in the Certificate in Russian, East European and Central Asian Studies at the Undergraduate Level are not eligible to declare the Slavic Studies certificate.

### REQUIREMENTS

## REQUIREMENTS

The Slavic Studies Certificate consists of 19 credits from the following requirements:

Code	Title	Credits
<b>Languages:</b>		
<i>Complete one sequence:</i>		6
SLAVIC 203 & SLAVIC 204	Third Semester Russian and Fourth Semester Russian	
SLAVIC 117 & SLAVIC 118	Intensive Second Year Russian and Intensive Second Year Russian	
SLAVIC 207 & SLAVIC 208	Third Semester Polish and Fourth Semester Polish	
SLAVIC 217 & SLAVIC 218	Third Semester Czech and Fourth Semester Czech	
SLAVIC 275 & SLAVIC 276	Third Year Russian I and Third Year Russian II	
SLAVIC 277 & SLAVIC 278	Third Year Polish I and Third Year Polish II	
SLAVIC 331 & SLAVIC 332	Fourth Year Polish I and Fourth Year Polish II	
SLAVIC 321 & SLAVIC 322	Fourth Year Russian I and Fourth Year Russian II	
SLAVIC 321 & SLAVIC 465	Fourth Year Russian I and Advanced Readings in Russian Literature & Culture	
<b>Survey Courses - complete one:</b>		4

SLAVIC/GEOG/  
HISTORY/  
POLI SCI 253

Russia: An Interdisciplinary Survey

SLAVIC/GEOG/  
HISTORY/  
POLI SCI 254

Eastern Europe: An Interdisciplinary  
Survey

### Comparative Studies Courses - complete one: 3

LITTRANS 207

Slavic Science Fiction through  
Literature and Film

SLAVIC/  
LITTRANS 238

Literature and Revolution

SLAVIC 239

Performance and Power

SLAVIC/  
FOLKLORE 444

Slavic and East European Folklore

### Additional coursework from any Survey or Comparative Studies course listed above, or: 6

SLAVIC 231

History and Ethics on Film: Polish  
Cinema

SLAVIC/

LITTRANS/ SLAVIC 467	Advanced Special Topics in Slavic Languages and Literatures
LITTRANS 471	Polish Literature (in Translation), Middle Ages to 1863
LITTRANS 473	Polish Literature (in Translation) since 1863

**Total Credits**

**19**

## RESIDENCE AND QUALITY OF WORK

- At least 10 certificate credits must be completed in residence.
- Minimum 2.000 GPA on all certificate courses.

## CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

### LEARNING OUTCOMES

## LEARNING OUTCOMES

1. Acquire intermediate proficiency in a Slavic language (Czech, Polish, or Russian).
2. Analyze and interpret cultural products of the region (i.e., works of literature, film, etc.) in themselves and in the context of specific historical and cultural conditions.
3. Develop and apply writing skills and oral communication skills appropriate to Liberal Arts education in the context of Slavic Studies to the literatures and cultures of the region.
4. Develop and apply critical-thinking skills inherent in the Liberal Arts tradition to the literature and culture of the region.
5. Demonstrate an understanding of major approaches, concepts, and current research findings concerning the Slavic region.

## HISTORY

3211 Mosse Humanities Building, 455 N. Park St., Madison, WI 53706;  
608-263-1800; [history.wisc.edu](https://history.wisc.edu/) (<https://history.wisc.edu/>)

### WHY STUDY HISTORY AT UW–MADISON?

History is so much more than memorizing names and dates. Are you interested in technology? Religion? The environment? Human rights? If you have a question, history can help you find an answer.

The history major at UW–Madison is a great option for people who are interested in studying (<https://history.wisc.edu/undergraduate-program/history-careers/why-history/>) *change*. History asks, “How did the world get to be this way?” and “What factors might influence where the world is heading now?” Studying history helps us understand and grapple with complex questions and dilemmas by examining how the past has shaped – and continues to shape – global, national, and local relationships between societies and people. The skills that history majors develop are used in a wide range of careers (<https://history.wisc.edu/undergraduate-program/history-careers/>) and prepare students for graduate or professional study in fields such as law, business, medicine, public policy, and much more.

History majors who are unsure of their careers can get great advice from our engaged alumni, who serve as career mentors, and by taking HISTORY 300 (<https://history.wisc.edu/courses/undergraduate-courses/history-300-301/>) History at Work: Professional Skills of the Major (see the Advising and Careers (<https://guide.wisc.edu/undergraduate/letters-science/history/history-ba/#advisingandcareerstext>) tab for more information).

The history major can also be combined with any other major in the College of Letters & Science (L&S), anything from astronomy (<http://guide.wisc.edu/undergraduate/letters-science/astronomy/>) to zoology (<https://guide.wisc.edu/undergraduate/letters-science/integrative-biology/zoology-bs/>). Majors that students most frequently pair with history are economics (<http://guide.wisc.edu/undergraduate/letters-science/economics/>), English (<http://guide.wisc.edu/undergraduate/letters-science/english/>), environmental studies (<http://guide.wisc.edu/undergraduate/letters-science/environmental-studies/environmental-studies-major/>), journalism (<http://guide.wisc.edu/undergraduate/letters-science/journalism-mass-communication/>), and political science (<http://guide.wisc.edu/undergraduate/letters-science/political-science/>). History majors can also choose to add certificates in L&S or from outside the college, such as certificates in business (<http://guide.wisc.edu/undergraduate/business/school-wide/business-certificate/>) or education and educational services (<http://guide.wisc.edu/undergraduate/education/educational-psychology/education-educational-services-certificate/>). In addition to these, some of the most common certificates for history majors are currently criminal justice (<http://guide.wisc.edu/undergraduate/letters-science/center-law-society-justice/criminal-justice-certificate/>), global health (<http://guide.wisc.edu/undergraduate/agricultural-life-sciences/nutritional-sciences/global-health-certificate/>), European studies (<http://guide.wisc.edu/undergraduate/letters-science/institute-regional-international-studies/european-certificate/>), and digital studies (<http://guide.wisc.edu/undergraduate/letters-science/communication-arts/digital-studies-certificate/>). The history advising team is happy to discuss ways for you to make your intellectual and career goals work as part of a four-year plan (<https://>

[guide.wisc.edu/undergraduate/letters-science/history/history-ba/#fouryearplante](https://guide.wisc.edu/undergraduate/letters-science/history/history-ba/#fouryearplante)).

The history advising team is happy to discuss ways for you to make your intellectual and career goals work as part of a four-year plan (<https://guide.wisc.edu/undergraduate/letters-science/history/history-ba/#fouryearplante>).

## HOW TO GET IN

### HOW TO GET IN

Students interested in declaring a History major should fill out the History major/Certificate Declaration Form (<https://history.wisc.edu/undergraduate-program/declaring-the-history-major-or-certificate/>). There are no prerequisites for declaring a History major, and students are encouraged to declare as soon as they feel comfortable doing so. All students are strongly encouraged to make an advising appointment after declaring and are also welcome to meet with an advisor before declaring. More information about advising and the major is available on the undergraduate section (<https://history.wisc.edu/undergraduate-program/>) of the department website.

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world.

Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

- General Education
- Breadth—Humanities/Literature/Arts: 6 credits
  - Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
  - Breadth—Social Studies: 3 credits
  - Communication Part A Part B \*
  - Ethnic Studies \*
  - Quantitative Reasoning Part A Part B \*

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

### BACHELOR OF ARTS DEGREE REQUIREMENTS

**Mathematics** Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.

**Language**

- Complete the fourth unit of a language other than English; OR
- Complete the third unit of a language and the second unit of an additional language other than English.

**LS Breadth**

- 12 credits of Humanities, which must include 6 credits of literature; and
- 12 credits of Social Science; and
- 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.

**Liberal Arts and Science Coursework** Complete at least 108 credits.

**Depth of Intermediate/Advanced work** Complete at least 60 credits at the intermediate or advanced level.

**Major** Declare and complete at least one major.

**Total Credits** Complete at least 120 credits.

**UW-Madison Experience**

- 30 credits in residence, overall; and
- 30 credits in residence after the 86th credit.

**Quality of Work**

- 2.000 in all coursework at UW-Madison
- 2.000 in Intermediate/Advanced level coursework at UW-Madison

## NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

Students may use courses from History and History of Science to meet the requirements of the History major.<sup>1</sup> A minimum of 30 credits in the major is required, including:

### CHRONOLOGICAL BREADTH:

History majors must complete at least one course that deals with the history of Europe and/or the Mediterranean before C.E. 1500 or with the history of Africa or Asia before these areas fell heavily under European influence.

### Chronological Breadth Courses

## NOTES ON HISTORY BREADTH REQUIREMENTS

- Breadth courses may be taken in any order.
- Chronological Breadth courses may also count toward a Geographic Breadth category.
- Some courses qualify for more than one Geographic Breadth area, but a course may only count for one Geographic Breadth category for the purposes of meeting the requirement.
- Topics courses (HISTORY 200, HISTORY 201, HISTORY 221, HISTORY 223, HISTORY 225, HISTORY 227, HISTORY 229, HISTORY 271, HISTORY 272, HISTORY 273, HISTORY 280, HISTORY 283, HIST SCI 286, HIST SCI 350 & HISTORY 500) may count for Geographic and/or Chronological Breadth. For topics courses, see the course notes for current breadth information.
- The following courses **may not be used** for breadth in the major: HISTORY 199, HIST SCI 555, HISTORY 600, HISTORY 680, HISTORY 681, HIST SCI 681, HISTORY 682, HIST SCI 682, HISTORY 690, HISTORY 691, HIST SCI 699.

## HISTORY WRITING AND RESEARCH SEQUENCE:

History majors must complete both of the following:

- Students are encouraged to complete one of HISTORY 201 The Historian's Craft or HIST SCI 211 The Historian's Craft: Science, Medicine, and Technology as early as possible.
- HISTORY 600 Advanced Seminar in History or HIST SCI 555 Undergraduate Seminar in History of Science, to be taken after satisfactory completion of either HISTORY 201 or HIST SCI 211. Enrolling in a HISTORY 600 or HIST SCI 555 seminar requires instructor consent. Available seminars can be found on the history department website (<https://history.wisc.edu/history600-seminars/>).

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in HISTORY/HISTORY of SCIENCE and all other major courses
- 2.000 GPA on 15 upper-level major credits in residence<sup>2</sup>
- 15 credits HISTORY and/or HISTORY of SCIENCE taken on campus

## HONORS IN THE MAJOR

Students may declare Honors in the History Major in consultation with the History undergraduate advisor.

## HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major in History, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall University GPA
- Earn a 3.500 GPA in all HISTORY and HISTORY of SCIENCE courses and all other major courses
- Complete at least 36 total credits in HISTORY and HISTORY of SCIENCE coursework, 21 of which must be upper-level credits in residence<sup>2</sup>
- Complete at least 15 Honors credits in HISTORY or HISTORY of SCIENCE coursework
- Complete a two-semester Senior Honors Thesis, a piece of original work of approximately forty pages, in

either HISTORY 681–HISTORY 682 or HIST SCI 681–HIST SCI 682, taken in conjunction with the HISTORY 680 Honors Thesis Colloquium both semesters. The thesis must be approved by instructors in both the thesis and colloquium courses.

## FOOTNOTES

- <sup>1</sup> ILS 201 and ILS 202 may also be used to complete the requirements of the History major, including the requirements for Honors in the Major.
- <sup>2</sup> Major courses with Intermediate or Advanced Level are counted as Upper-Level in the History Major.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree.** To receive a bachelor's degree from UW–Madison students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Find and interpret diverse evidence to explain complex changes over time
2. Communicate effectively to a variety of audiences in writing and speech
3. Use an understanding of many perspectives to work with people and solve complex problems
4. Seek to understand differing views and ways of being in the world
5. Identify the skills developed in the study of history and articulate their applicability to a variety of professional and intellectual endeavors

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage

in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

**First Year**

Fall	Credits Spring	Credits
History Breadth <sup>1</sup>	4 History course for the Ethnic Studies Requirement (complete within 1st 60 credits) <sup>2</sup>	4
Communication Part A (Complete during your first year)	3 Biological Science Breadth <sup>3</sup>	3
Quantitative Reasoning Part A (complete during your first year)	3 Literature Breadth	3
Foreign Language (if necessary)	4 Elective or Course for Second Major <sup>4</sup>	4
	<b>14</b>	<b>14</b>

**Second Year**

Fall	Credits Spring	Credits
HISTORY 201 (counts toward Communication Part B) <sup>5</sup>	4 History Breadth	4
HIST SCI 211 (may be taken instead of History 201)	History Elective	3
Quantitative Reasoning Part B (I/A Comp Sci, Math, or Stats if required for the BS)	3 Physical Science Breadth	3
History Elective or Course for Second Major	3 Elective or Course for Second Major	3
Elective or Course for Second Major	3 Elective or Course for Second Major	3
Elective or Course for Second Major	3	
	<b>16</b>	<b>16</b>

**Third Year**

Fall	Credits Spring	Credits
Declare the Major (before 86 credits)*	History Breadth	4
History Breadth	3 HISTORY 301 (optional)	1
HISTORY 300 <sup>6</sup>	2 Science Breadth	3
I/A Comp Sci, Math, or Stats (if required for the BS)	3 Elective or Course for Second Major	3
Literature Breadth	3 Elective or Course for Second Major	3
Elective or Course for Second Major	4	
	<b>15</b>	<b>14</b>

**Fourth Year**

Fall	Credits Spring	Credits
Complete Remaining L&S Requirements**	History Elective	4
HISTORY 600 <sup>7</sup>	3 Science Breadth	3

HIST SCI 555 (may be taken instead of History 600)	Elective or Course for Second Major	3
Elective or Course for Second Major	4 Elective or Course for Second Major	3
Elective or Course for Second Major	4 Elective or Course for Second Major	3
Elective or Course for Second Major	4	
	<b>15</b>	<b>16</b>

**Total Credits 120**

<sup>1</sup> The History Breadth requirements are very flexible. History majors must complete Chronological Breadth (one course) and take at least one course from four of the eight Geographical Breadth categories. A single course may count toward both Chronological and Geographic Breadth, if appropriate. (For example, a course on Ancient Rome would count toward Chronological Breadth and European History.) HISTORY 201 may also count toward History Breadth requirements.

<sup>2</sup> Some examples of History courses that count toward the Ethnic Studies Requirement are: HISTORY/CHICLA 152 The United States West Since 1850, HISTORY/ASIAN AM 160 Asian American History: Movement and Dislocation, & HISTORY/JEWISH 213 Jews and American Pop. Culture.

<sup>3</sup> Some L&S Breadth requirements will be satisfied with History coursework. History classes will complete the additional Humanities Breadth credits (the Humanities credits that are not Literature) and may also complete Social Science Breadth.

<sup>4</sup> History is a flexible major and can be combined with a wide range of other majors and certificates. We encourage students to be thoughtful in how they approach their elective credits, whether that means pursuing an additional major or creating an individual plan of study that draws from multiple disciplines.

<sup>5</sup> HISTORY 201 The Historian's Craft or HIST SCI 211 The Historian's Craft: Science, Medicine, and Technology may be taken as soon as you have completed the Communication A requirement. Students should try to complete the Historian's Craft by the end of the second year.

<sup>6</sup> History offers two optional careers courses that expose students to, and prepare them for, the wide range of careers pursued by history majors: HISTORY 300 & HISTORY 301. History at Work: Professional Skills of the Major (HISTORY 300) connects students to History alumni in different fields and helps develop essential career skills related to the value of the major. History at Work: History Internship Seminar (HISTORY 301) allows students to receive credit toward their major requirements for work associated with an internship.

<sup>7</sup> HISTORY 600 or HIST SCI 555 may be taken at any point after a student has completed either HISTORY 201 The Historian's Craft or HIST SCI 211 The Historian's Craft: Science, Medicine, and Technology. History 600s and History of Science 555 are offered on a variety of topics every semester and they provide students with the rich experience of a small, faculty-led seminar. They may be taken for credit more than once as long as the topics are different.

\* Students must declare a major by the time they reach 86 credits.

\*\*Please refer to the Requirements tab in Guide for College of Letters & Science Breadth and Degree Requirements as well as Residence and Quality of Work requirements for the major.

## THREE-YEAR PLAN

### THREE-YEAR PLAN

This Sample Three-Year Plan is a tool to assist students and their advisor(s). Students should use it –along with their DARS report, the Degree Planner, and Course Search & Enroll tools – to make their own three-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests.

Three-year plans may vary considerably from student to student, depending on their individual preparation and circumstances. Students interested in graduating in three years should meet with an advisor as early as possible to discuss feasibility, appropriate course sequencing, post-graduation plans (careers, graduate school, etc.), and opportunities they might forgo in pursuit of a three-year graduation plan.

### DEPARTMENTAL EXPECTATIONS

Students planning to graduate within three years with a History major should enter the University with a minimum of 18 advanced standing credits, and have satisfied the following requirements with course credit or via placement examination:

- Communication Part A
- Quantitative Reasoning Part A
- 18 combined credits of Humanities, Social Science, Natural Science, or elective coursework
- 4 units of foreign language

This plan also assumes that History major coursework at UW-Madison will satisfy 6 credits of Humanities breadth (the Humanities credits that are not Literature) and 9 credits of Social Science breadth. Most History majors pursue the BA in History, but it is also possible to complete the BS and History major requirements in three years.

This plan assumes that students will complete a total of 9 credits over three summers. Summer is an opportunity to make progress toward various requirements. UW-Madison's summer course offerings include a large number of online courses, which give students more flexibility for their summer schedules. For students on an accelerated path, summer is also great time to study abroad.

#### First Year

Fall	Credits Spring	Credits Summer	Credits
History Breadth <sup>1</sup>	4 HISTORY course with the Ethnic Studies designation (complete within 1st 60 credits) <sup>3</sup>	4 Elective or Course for Second Major	3
History Breadth	4 Elective or Course for Second Major <sup>4</sup>	4	

Biological Science Breadth	3 Quantitative Reasoning Part B (Intermediate or Advanced COMP SCI, MATH, or STAT if BS)	3	
Foreign Language (if pursuing retroactive credit) <sup>2</sup>	4 Literature Breadth	3	
	HISTORY 300 (optional or Elective) <sup>5</sup>	2	
		<b>15</b>	<b>16</b>

#### Second Year

Fall	Credits Spring	Credits Summer	Credits
HISTORY 201	4 History Breadth	4 Elective (Intermediate or Advanced level) or Course for Second Major	3
HIST SCI 211 (may be taken instead of History 201)	History Breadth or Elective	4	
Social Science Breadth	3 Physical Science Breadth	4	
Intermediate or Advanced COMP SCI, MATH, or STAT (if BS)	3 Elective (Intermediate or Advanced level) or Course for Second Major	4	
Elective or Course for Second Major	4		
HISTORY 301 (optional or Elective)	1		
		<b>15</b>	<b>16</b>

#### Third Year

Fall	Credits Spring	Credits Summer	Credits
HISTORY 600 <sup>6</sup>	3 History Elective	3 Elective (Intermediate or Advanced level) or Course for Second Major	3
HIST SCI 555 (may be taken instead of History 600)	Literature Breadth	3	
Science Breadth	4 Science Breadth	3	

Electives (Intermediate or Advanced level) or Courses for Second Major	8 Electives (Intermediate or Advanced level) or Courses for Second Major	7
	<b>15</b>	<b>16</b>
		<b>3</b>

**Total Credits 102**

- <sup>1</sup> The History Breadth requirements are very flexible. Students should refer to the Requirements page for the History major for details on approved overlap between types of breadth in the major.
- <sup>2</sup> Even though students with 4 units of foreign language do not need to complete additional foreign language coursework, UW-Madison's retroactive credit policy (<https://kb.wisc.edu/lis/23736/>) can be very helpful for those pursuing an early graduation.
- <sup>3</sup> Some examples of History courses that count toward the Ethnic Studies Requirement are: HISTORY/CHICLA 152, ASIAN AM/HISTORY 160, & JEWISH/HISTORY 213.
- <sup>4</sup> History is a flexible major and can be combined with a wide range of other majors and certificates. For students hoping to double major and graduate early, it is especially important to work closely with academic advisors in both majors. We encourage all students to be thoughtful in how they approach their elective credits, whether that means pursuing an additional major or creating an individual plan of study that draws from multiple disciplines.
- <sup>5</sup> History offers two optional careers courses that expose students to, and prepare them for, the wide range of careers pursued by history majors: HISTORY 300 & HISTORY 301. History at Work: Professional Skills of the Major (HISTORY 300) connects students to History alumni in different fields and helps develop essential career skills related to the value of the major. History at Work: History Internship Seminar (HISTORY 301) allows students to receive credit toward their major requirements for work associated with an internship.
- <sup>6</sup> HISTORY 600 or HIST SCI 555 may be taken at any point after a student has completed either HISTORY 201 The Historian's Craft or HIST SCI 211 The Historian's Craft: Science, Medicine, and Technology. History 600s and History of Science 555 are offered on a variety of topics every semester; each course provides students with the rich experience of a small, faculty-led seminar. These seminars may be taken for credit more than once as long as the topics are different. Students who choose to pursue Honors in the History major should complete HISTORY 600 or HIST SCI 555 in Year Two so that they can write a Senior honors thesis in Year Three.

The history major can also be combined with any other major in the College of Letters & Science (L&S), anything from astronomy (<http://guide.wisc.edu/undergraduate/letters-science/astronomy/>) to zoology (<https://guide.wisc.edu/undergraduate/letters-science/integrative-biology/zoology-bs/>). Majors that students most frequently pair with history are economics (<http://guide.wisc.edu/undergraduate/letters-science/economics/>), English (<http://guide.wisc.edu/undergraduate/letters-science/english/>), environmental studies (<http://guide.wisc.edu/undergraduate/letters-science/environmental-studies/environmental-studies-major/>), journalism (<http://guide.wisc.edu/undergraduate/letters-science/journalism-mass-communication/>), and political science (<http://guide.wisc.edu/undergraduate/letters-science/political-science/>). History majors can also choose to add certificates in L&S or from outside the college, such as certificates in business (<http://guide.wisc.edu/undergraduate/business/school-wide/business-certificate/>) or education and educational services (<http://guide.wisc.edu/undergraduate/education/educational-psychology/education-educational-services-certificate/>). In addition to these, some of the most common certificates for history majors are currently criminal justice (<http://guide.wisc.edu/undergraduate/letters-science/center-law-society-justice/criminal-justice-certificate/>), global health (<http://guide.wisc.edu/undergraduate/agricultural-life-sciences/nutritional-sciences/global-health-certificate/>), European studies (<http://guide.wisc.edu/undergraduate/letters-science/institute-regional-international-studies/european-certificate/>), and digital studies (<http://guide.wisc.edu/undergraduate/letters-science/communication-arts/digital-studies-certificate/>). The history advising team is happy to discuss ways for you to make your intellectual and career goals work as part of a four-year plan (<https://guide.wisc.edu/undergraduate/letters-science/history/history-ba/#fouryearplantext>).

**Honors in the Major**

The Honors in the Major track in history is intended for students who are eager to experience the excitement of original historical research and who wish to graduate with the best possible undergraduate training in this discipline. Honors in the Major is especially appropriate for students who are considering graduate work in history or who want an especially advanced training in research, reasoning, and writing skills useful to a wide range of career choices. Students in this track write a thesis in their senior year based on their own original historical research. Visit our website (<https://history.wisc.edu/undergraduate-program/undergraduate-declaring/honors-in-the-history-major/>) for more information on the thesis process and the requirements for Honors in the History Major.

**CAREER ADVISING**

History is a rigorous but flexible major, and history majors are known for being excellent communicators and savvy researchers. Historians are experts in synthesizing disparate pieces of evidence into coherent, persuasive arguments. The real world is filled with disparate facts and incomplete sets of data, so this is a real-world skill that history alumni utilize throughout their entire careers. The department's career advisor, Christina Matta (<https://history.wisc.edu/people/matta-christina/>), helps history majors map out future career plans and connects students to a variety of resources on campus and beyond, including history alumni who volunteer as career mentors (see below for more information).

Alumni of the history department have enjoyed careers in medical research and practice; broadcast and print media; sports management; museums, archives, and libraries; finance and business, and community service and nonprofit organizations – as well as law, academia, and many other fields. The history major provides excellent preparation for the study of law, but our students also go on to study medicine and many other graduate fields.

**ADVISING AND CAREERS****ADVISING AND CAREERS****ACADEMIC ADVISING**

Students who are declared or interested in the history major have numerous advising resources available to them. The history advising team is comprised of professional and peer advisors who are excited to talk with students about everything from academic planning to professional development for future careers. Information on the history advising team and how to contact an advisor can be found on our website (<https://history.wisc.edu/undergraduate-program/undergraduate-advising/>). You can set up an appointment with one of our advisors by using the History Department Starfish (<https://wisc.starfishsolutions.com/starfish-ops/dl/instructor/serviceCatalog.html?bookmark=service/64599>) page.

The centers for Pre-Law Advising (<https://prelaw.wisc.edu/>) and Pre-Health Advising (<https://prehealth.wisc.edu/>) are especially helpful resources on campus for students interested in those areas of study.

### History Careers Course: "History at Work"

History 300 (History at Work - Professional Skills of the Major) (<https://history.wisc.edu/courses/undergraduate-courses/history-300-301/>) is a course intended to help history majors understand how their history degree applies to the world of work. Students explore how their history skills relate to the needs of professional employers and are guided in the process of finding and obtaining professional internships and jobs. In this course, history majors can polish their written and oral communication skills in forms appropriate for professional situations and learn from the experiences of guest speakers from a variety of fields.

### Internships

The Department of History recognizes the importance of internships in helping students develop professional skills and explore potential career paths. Positions can vary depending on availability and students' interests, but recent sponsors have included the Wisconsin State Historical Museum, the University of Wisconsin Archives, offices of elected officials in the Wisconsin State Legislature and United States Congress, the Milwaukee Brewers, and Community Shares of Wisconsin – just to name a few! History majors can also get academic credit in conjunction with an internship by taking History 301: History at Work - History Internship Seminar (<https://history.wisc.edu/courses/undergraduate-courses/history-300-301/>).

### Alumni Mentoring

Like internships, networking can be a valuable tool in opening professional doors and learning more about the professional value of the history major.

The department often matches students with alumni mentors drawn from our Board of Visitors (<https://history.wisc.edu/alumni-and-friends/board-of-visitors/>) and other graduates who can help them get started building a professional network, answer questions about a specific field, provide guidance in applying for jobs or preparing for interviews, and provide general career advice.

Students interested in participating in an internship or talking with an alumni mentor should meet with Christina Matta, the department's undergraduate career advisor, to discuss their interests and possible career goals.

### L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)

- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

## PEOPLE

### PEOPLE

Professors Boswell, Callaci, Cheng, Dennis, Enke, Hall, Hansen, Haynes, Hirsch, Houck, Hsia, Kantrowitz, Keller, Kim (Charles), Kinzley, Kleijwegt, Kodesh, Lapina, Lederer, McCoy, Michels, Mitman, Murthy, Neville, Plummer, Ratner-Rosenhagen, Reese, Shoemaker, Sweet, Taylor, Thal, Ussishkin, Wandel, Young

Associate Professors Chamedes, Ciancia, Gómez, Hennessy, Iber, Kim (Monica), Nelson, Stolz

Assistant Professors Balto, Banerjee, Bloch, Brown, Durham, Esseissah, Fernandez, Glotzer, Hayes, Hope, Kennedy, Kuby, Landress, Martoccio, Meléndez-Badillo, Ramírez, Suarez, Useche, Villeneuve, Whiting, Williford

Teaching Associates Carlsson, Cullinane, Keyser, Rider

## WISCONSIN EXPERIENCE

### HISTORY: THE WISCONSIN EXPERIENCE

The history department is committed to integrating undergraduate historical study into the Wisconsin Experience (<https://provost.wisc.edu/wisconsin-experience/>), UW-Madison's vision for students' growth inside and outside the classroom. History majors at UW-Madison have a wide range of opportunities available to help them make the most of their major and carry the study of the past beyond the boundaries of the classroom.

### OPPORTUNITIES FOR HISTORY MAJORS

#### ARCHIVE

ARCHIVE (<https://uarchive.wordpress.com/>) is an award-winning journal of historical work published annually by the UW-Madison chapter of Phi Alpha Theta. See ARCHIVE's website to view past volumes and find out how you could be published.

#### Phi Alpha Theta

Phi Alpha Theta (<https://history.wisc.edu/undergraduate-program/academic-opportunities-student-life/phi-alpha-theta/>) is a national history honors society whose purpose is to promote the study of history and to bring students, teachers, and writers of history together in intellectual and social ways. See the UW-Madison chapter's page for more information.

## Language and Regional/International Studies

History classes and faculty are at the center of UW–Madison’s remarkable collection of resource centers for area studies. IRIS (<https://iris.wisc.edu/>) is the umbrella organization for UW–Madison’s eight area studies programs. Students interested in these areas can combine their history major with a major in international studies (<http://www.ismajor.wisc.edu/>) or any of the area studies majors and/or certificates. UW–Madison also has one of the largest selections of language instruction (<https://languages.wisc.edu/>) in the United States.

## Study Abroad

History is a great major for students interested in studying abroad (<https://studyabroad.wisc.edu/academics/major-advising-pages-maps/history/>) due to its flexibility and because History courses are available in most study abroad programs. The History Department encourages study abroad, and our advising team is happy to help students ensure that they are meeting degree requirements while studying abroad.

## Wisconsin Historical Society

Scholars and researchers from all over the country (and the world) come to the Wisconsin Historical Society (<https://www.wisconsinhistory.org/>) (WHS) to do historical research. History majors at UW–Madison simply walk across the street to make use of this world-class institution. The collections of the WHS are an amazing resource for history majors and are utilized by a wide range of our courses. History majors can also develop internships related to the WHS collections and programs. Students who are interested in the history of film and television often double major in communication arts (<http://guide.wisc.edu/undergraduate/letters-science/communication-arts/>) and get involved with the Wisconsin Center for Film and Theater Research (<http://wcfr.commarts.wisc.edu/>).

## Center for Campus History

The University of Wisconsin–Madison’s Rebecca M. Blank Center for Campus History (<https://campushistory.wisc.edu/>) is an ongoing effort to uncover and give voice to those who experienced, challenged, and overcame prejudice on campus. Undergraduate students have been involved with the center since its inception as the Public History Project in 2019, working as researchers conducting both archival research and oral history interviews with former students, faculty, and staff.

## Public Humanities Exchange for Undergraduates (HEX-U)

The Public Humanities Exchange for Undergraduates (<https://humanities.wisc.edu/public-humanities/exchange/>) (HEX-U) is a high-impact program for undergraduate students at UW–Madison who wish to make meaningful connections between their humanities scholarship and the needs of the local community through new models of social engagement. The program provides training in community partnership, mentoring during project design and implementation, and project funding to small cohorts of undergraduate scholars as they plan and implement creative community projects in partnership with Dane County organizations.

## The Nonviolence Project

The Nonviolence Project (<https://thenonviolenceproject.wisc.edu/>) is a comprehensive repository that educates and informs readers on the impact of nonviolent protests all over the world. From environmental issues to racial equality, the project showcases how nonviolence has been used to address many different issues by prominent world leaders and activists. The project aims to answer how and why nonviolence has been an effective socio-political tactic across different cultural, geographical, and political landscapes throughout history. The Nonviolence Project

employs undergraduate student interns as researchers to help grow the repository of sources and present information to a broad audience.

## Wisconsin 101: Our History in Objects

Wisconsin 101: Our History in Objects (<https://wi101.wisc.edu/>) is a collaborative public history project created through a partnership between the University of Wisconsin–Madison History Department, the Wisconsin Historical Society, and Wisconsin Public Radio’s Wisconsin Life program. At its core, this project invites non-professional historians to profile objects from their daily lives and write short histories that contextualize those objects within local history, regional historical trends, and even international change. Wisconsin 101 provides valuable internship opportunities for undergraduate students throughout the state of Wisconsin. These internships offer experience for students interested in public humanities, material culture, local history, writing, and educational outreach or editing.

## RESOURCES AND SCHOLARSHIPS

### RESOURCES AND SCHOLARSHIPS THE HISTORY LAB

The History Lab is a resource center for undergraduate students studying, researching, and writing about the past. It is staffed by talented and experienced graduate students from the Department of History, and UW–Madison is one of only a handful of universities in the U.S. to have this kind of history-specific writing support.

Through individual and group tutoring, the lab focuses on honing students’ abilities to form suitable topics, conduct research, develop arguments and thesis statements, cite evidence properly, and write using an effective process. The lab is also equipped to support challenges faced by English-language learners.

For more information or to make an appointment, see the History Lab website. (<https://history.wisc.edu/undergraduate-program/the-history-lab/>)

### RESEARCH FELLOWSHIPS AND SCHOLARSHIPS

The Department of History is committed to supporting undergraduate achievement and encourages applications for the 13 different scholarships and research fellowships made possible by the generosity of its donors. Scholarships range from \$500 to \$5,000 and are awarded annually to outstanding History majors. Research fellowships range from \$1,000 to \$6,000 and allow undergraduates to pursue in-depth historical research under the guidance of History faculty. These awards help defray research costs such as supplies and travel expenses or pay for living expenses to allow students time to craft their papers and conduct research in UW Libraries.

Detailed instructions on how to apply can be found on the Department of History website (<https://history.wisc.edu/undergraduate-program/academic-opportunities-student-life/scholarships-awards-and-prizes/>). Applications need to be submitted online, via the Wisconsin Scholarship Hub (WISH) (<https://wisc.academicworks.com/>).

### UNDERGRADUATE WRITING PRIZES

The history department offers over 15 different prizes designed to reward a broad range of undergraduate writing – from Senior Theses to digital

and public history projects to specialized essays in American Indian History and LGBTQ+ History. The prizes are made possible thanks to the tremendous generosity of our alumni and former members of our faculty. The history department expresses its gratitude for their support in recognizing the achievements of our undergraduates.

Detailed instructions on how to apply can be found on the Department of History website (<https://history.wisc.edu/undergraduate-program/academic-opportunities-student-life/scholarships-awards-and-prizes/>). Applications need to be submitted online via the Wisconsin Scholarship Hub (WISH) (<https://wisc.academicworks.com/>).

## HISTORY, BS

3211 Mosse Humanities Building, 455 N. Park St., Madison, WI 53706; 608-263-1800; [history.wisc.edu](https://history.wisc.edu) (<https://history.wisc.edu/>)

### WHY STUDY HISTORY AT UW-MADISON?

History is so much more than memorizing names and dates. Are you interested in technology? Religion? The environment? Human rights? If you have a question, history can help you find an answer.

The history major at UW-Madison is a great option for people who are interested in studying (<https://history.wisc.edu/undergraduate-program/history-careers/why-history/>) *change*. History asks, “How did the world get to be this way?” and “What factors might influence where the world is heading now?” Studying history helps us understand and grapple with complex questions and dilemmas by examining how the past has shaped – and continues to shape – global, national, and local relationships between societies and people. The skills that history majors develop are used in a wide range of careers (<https://history.wisc.edu/undergraduate-program/history-careers/>) and prepare students for graduate or professional study in fields such as law, business, medicine, public policy, and much more.

History majors who are unsure of their careers can get great advice from our engaged alumni, who serve as career mentors, and by taking HISTORY 300 (<https://history.wisc.edu/courses/undergraduate-courses/history-300-301/>) History at Work: Professional Skills of the Major (see the Advising and Careers (<https://guide.wisc.edu/undergraduate/letters-science/history/history-ba/#advisingandcareerstext>) tab for more information).

The history major can also be combined with any other major in the College of Letters & Science (L&S), anything from astronomy (<http://guide.wisc.edu/undergraduate/letters-science/astronomy/>) to zoology (<https://guide.wisc.edu/undergraduate/letters-science/integrative-biology/zoology-bs/>). Majors that students most frequently pair with history are economics (<http://guide.wisc.edu/undergraduate/letters-science/economics/>), English (<http://guide.wisc.edu/undergraduate/letters-science/english/>), environmental studies (<http://guide.wisc.edu/undergraduate/letters-science/environmental-studies/environmental-studies-major/>), journalism (<http://guide.wisc.edu/undergraduate/letters-science/journalism-mass-communication/>), and political science (<http://guide.wisc.edu/undergraduate/letters-science/political-science/>). History majors can also choose to add certificates in L&S or from outside the college, such as certificates in business (<http://guide.wisc.edu/undergraduate/business/school-wide/business-certificate/>) or education and educational services (<http://guide.wisc.edu/undergraduate/education/educational-psychology/education-educational-services-certificate/>). In addition to these, some of the most common certificates

for history majors are currently criminal justice (<http://guide.wisc.edu/undergraduate/letters-science/center-law-society-justice/criminal-justice-certificate/>), global health (<http://guide.wisc.edu/undergraduate/agricultural-life-sciences/nutritional-sciences/global-health-certificate/>), European studies (<http://guide.wisc.edu/undergraduate/letters-science/institute-regional-international-studies/european-certificate/>), and digital studies (<http://guide.wisc.edu/undergraduate/letters-science/communication-arts/digital-studies-certificate/>). The history advising team is happy to discuss ways for you to make your intellectual and career goals work as part of a four-year plan (<https://guide.wisc.edu/undergraduate/letters-science/history/history-ba/#fouryearplante>).

## HOW TO GET IN

### HOW TO GET IN

Students interested in declaring a History major should fill out the History major/Certificate Declaration Form (<https://history.wisc.edu/undergraduate-program/declaring-the-history-major-or-certificate/>). There are no prerequisites for declaring a History major, and students are encouraged to declare as soon as they feel comfortable doing so. All students are strongly encouraged to make an advising appointment after declaring and are also welcome to meet with an advisor before declaring. More information about advising and the major is available on the undergraduate section (<https://history.wisc.edu/undergraduate-program/>) of the department website.

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

- |                   |  |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> <li>• Breadth—Humanities/Literature/Arts: 6 credits</li> <li>• Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth—Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul> |
|-------------------|--|

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

### BACHELOR OF SCIENCE DEGREE REQUIREMENTS

**Mathematics** Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.

**Language** Complete the third unit of a language other than English.

**LS Breadth** Complete:  
 • 12 credits of Humanities, which must include at least 6 credits of Literature; and  
 • 12 credits of Social Science; and  
 • 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.

**Liberal Arts and Science Coursework** Complete at least 108 credits.

**Depth of Intermediate/Advanced Coursework** Complete at least 60 credits at the Intermediate or Advanced level.

**Major** Declare and complete at least one major.

**Total Credits** Complete at least 120 credits.

**UW-Madison Experience** Complete both:  
 • 30 credits in residence, overall, and  
 • 30 credits in residence after the 86th credit.

**Quality of Work**  
 • 2.000 in all coursework at UW-Madison  
 • 2.000 in Intermediate/Advanced level coursework at UW-Madison

### NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

### REQUIREMENTS FOR THE MAJOR

Students may use courses from History and History of Science to meet the requirements of the History major.<sup>1</sup> A minimum of 30 credits in the major is required, including:

#### CHRONOLOGICAL BREADTH:

History majors must complete at least one course that deals with the history of Europe and/or the Mediterranean before C.E. 1500 or with the

history of Africa or Asia before these areas fell heavily under European influence.

#### Chronological Breadth Courses

Code	Title	Credits
HISTORY/ CLASSICS 110	The Ancient Mediterranean	4
HISTORY/ MEDIEVAL/ RELIG ST 112	The World of Late Antiquity (200-900 C.E.)	4

## GEOGRAPHIC BREADTH:

At minimum, history majors must complete one course from four of the eight geographic breadth categories.

### Geographic Breadth: European History Courses

Code	Title	Credits
HISTORY/ CLASSICS 110	The Ancient Mediterranean	4
HISTORY 115	Medieval Europe 410-1500	4
HISTORY 119	Europe and the World, 1400-1815	4
HISTORY 120	Europe and the Modern World 1815 to the Present	4
HISTORY 123	English History: England to 1688	3-4
HISTORY 124	British History: 1688 to the Present	4
HIST SCI 201	The Origins of Scientific Thought	3
ILS 201	Western Culture: Science, Technology, Philosophy I	3
HISTORY 201	The Historian's Craft (1945)	3-4

HISTORY 403	Immigration and Assimilation in American History	3-4			

## NOTES ON HISTORY BREADTH REQUIREMENTS

- Breadth courses may be taken in any order.
- Chronological Breadth courses may also count toward a Geographic Breadth category.
- Some courses qualify for more than one Geographic Breadth area, but a course may only count for one Geographic Breadth category for the purposes of meeting the requirement.
- Topics courses (HISTORY 200, HISTORY 201, HISTORY 221, HISTORY 223, HISTORY 225, HIST SCI 280, HISTORY 283, HIST SCI 286, HIST SCI 350 & HISTORY 500) may count for Geographic and/or Chronological Breadth. For topics courses, see the course notes for current breadth information.
- The following courses **may not be used** for breadth in the major: HISTORY 199, HIST SCI 555, HISTORY 600, HISTORY 680, HISTORY 681, HIST SCI 699.

## HISTORY WRITING AND RESEARCH SEQUENCE:

History majors must complete both of the following:

- Students are encouraged to complete one of HISTORY 201 The Historian's Craft or HIST SCI 211 The Historian's Craft: Science, Medicine, and Technology as early as possible.
- HISTORY 600 Advanced Seminar in History or HIST SCI 555 Undergraduate Seminar in History of Science, to be taken after satisfactory completion of either HISTORY 201 or HIST SCI 211. Enrolling in a HISTORY 600 or HIST SCI 555 seminar requires instructor consent. Available seminars can be found on the history department website (<https://history.wisc.edu/history600-seminars/>).

## RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in HISTORY/HISTORY of SCIENCE and all other major courses
- 2.000 GPA on 15 upper-level major credits in residence<sup>2</sup>
- 15 credits HISTORY and/or HISTORY of SCIENCE taken on campus

## HONORS IN THE MAJOR

Students may declare Honors in the History Major in consultation with the History undergraduate advisor.

### HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major in History, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall University GPA
- Earn a 3.500 GPA in all HISTORY and HISTORY of SCIENCE courses and all other major courses
- Complete at least 36 total credits in HISTORY and HISTORY of SCIENCE coursework, 21 of which must be upper-level credits in residence<sup>2</sup>
- Complete at least 15 Honors credits in HISTORY or HISTORY of SCIENCE coursework
- Complete a two-semester Senior Honors Thesis, a piece of original work of approximately forty pages, in either HISTORY 681-HISTORY 682 or HIST SCI 681-HIST SCI 682, taken in conjunction with the HISTORY 680 Honors Thesis Colloquium both semesters. The thesis must be approved by instructors in both the thesis and colloquium courses.

## FOOTNOTES

<sup>1</sup> ILS 201 and ILS 202 may also be used to complete the requirements of the History major, including the requirements for Honors in the Major.

<sup>2</sup> Major courses with Intermediate or Advanced Level are counted as upper-level in the History major.

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Find and interpret diverse evidence to explain complex changes over time
2. Communicate effectively to a variety of audiences in writing and speech
3. Use an understanding of many perspectives to work with people and solve complex problems
4. Seek to understand differing views and ways of being in the world
5. Identify the skills developed in the study of history and articulate their applicability to a variety of professional and intellectual endeavors

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

#### First Year

Fall	Credits Spring	Credits
History Breadth <sup>1</sup>	4 History course for the Ethnic Studies Requirement (complete within 1st 60 credits) <sup>2</sup>	4

Communication Part A (Complete during your first year)	3 Biological Science Breadth <sup>3</sup>	3
Quantitative Reasoning Part A (complete during your first year)	3 Literature Breadth	3
Foreign Language (if necessary)	4 Elective or Course for Second Major <sup>4</sup>	4
	<b>14</b>	<b>14</b>

**Second Year**

Fall	Credits Spring	Credits
HISTORY 201 (counts toward Communication Part B) <sup>5</sup>	4 History Breadth	4
HIST SCI 211 (may be taken instead of History 201)	History Elective	3
Quantitative Reasoning Part B (I/A Comp Sci, Math, or Stats if required for the BS)	3 Physical Science Breadth	3
History Elective or Course for Second Major	3 Elective or Course for Second Major	3
Elective or Course for Second Major	3 Elective or Course for Second Major	3
Elective or Course for Second Major	3	
	<b>16</b>	<b>16</b>

**Third Year**

Fall	Credits Spring	Credits
Declare the Major (before 86 credits)*	History Breadth	4
History Breadth	3 HISTORY 301 (optional)	1
HISTORY 300 <sup>6</sup>	2 Science Breadth	3
I/A Comp Sci, Math, or Stats (if required for the BS)	3 Elective or Course for Second Major	3
Literature Breadth	3 Elective or Course for Second Major	3
Elective or Course for Second Major	4	
	<b>15</b>	<b>14</b>

**Fourth Year**

Fall	Credits Spring	Credits
Complete Remaining L&S Requirements**	History Elective	4
HISTORY 600 <sup>7</sup>	3 Science Breadth	3
HIST SCI 555 (may be taken instead of History 600)	Elective or Course for Second Major	3
Elective or Course for Second Major	4 Elective or Course for Second Major	3
Elective or Course for Second Major	4 Elective or Course for Second Major	3

Elective or Course for Second Major	4
	<b>15</b>
	<b>16</b>

**Total Credits 120**

<sup>1</sup> The History Breadth requirements are very flexible. History majors must complete Chronological Breadth (one course) and take at least one course from four of the eight Geographical Breadth categories. A single course may count toward both Chronological and Geographic Breadth, if appropriate. (For example, a course on Ancient Rome would count toward Chronological Breadth and European History.) HISTORY 201 may also count toward History Breadth requirements.

<sup>2</sup> Some examples of History courses that count toward the Ethnic Studies Requirement are: HISTORY/CHICLA 152 The United States West Since 1850, HISTORY/ASIAN AM 160 Asian American History: Movement and Dislocation, & HISTORY/JEWISH 213 Jews and American Pop. Culture.

<sup>3</sup> Some L&S Breadth requirements will be satisfied with History coursework. History classes will complete the additional Humanities Breadth credits (the Humanities credits that are not Literature) and may also complete Social Science Breadth.

<sup>4</sup> History is a flexible major and can be combined with a wide range of other majors and certificates. We encourage students to be thoughtful in how they approach their elective credits, whether that means pursuing an additional major or creating an individual plan of study that draws from multiple disciplines.

<sup>5</sup> HISTORY 201 The Historian's Craft or HIST SCI 211 The Historian's Craft: Science, Medicine, and Technology may be taken as soon as you have completed the Communication A requirement. Students should try to complete the Historian's Craft by the end of the second year.

<sup>6</sup> History offers two optional careers courses that expose students to, and prepare them for, the wide range of careers pursued by history majors: HISTORY 300 & HISTORY 301. History at Work: Professional Skills of the Major (HISTORY 300) connects students to History alumni in different fields and helps develop essential career skills related to the value of the major. History at Work: History Internship Seminar (HISTORY 301) allows students to receive credit toward their major requirements for work associated with an internship.

<sup>7</sup> HISTORY 600 or HIST SCI 555 may be taken at any point after a student has completed either HISTORY 201 The Historian's Craft or HIST SCI 211 The Historian's Craft: Science, Medicine, and Technology. History 600s and History of Science 555 are offered on a variety of topics every semester and they provide students with the rich experience of a small, faculty-led seminar. They may be taken for credit more than once as long as the topics are different.

\* Students must declare a major by the time they reach 86 credits.

\*\*Please refer to the Requirements tab in Guide for College of Letters & Science Breadth and Degree Requirements as well as Residence and Quality of Work requirements for the major.

**THREE-YEAR PLAN****THREE-YEAR PLAN**

This Sample Three-Year Plan is a tool to assist students and their advisor(s). Students should use it –along with their DARS report, the Degree Planner, and Course Search & Enroll tools – to make their own

three-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests.

Three-year plans may vary considerably from student to student, depending on their individual preparation and circumstances. Students interested in graduating in three years should meet with an advisor as early as possible to discuss feasibility, appropriate course sequencing, post-graduation plans (careers, graduate school, etc.), and opportunities they might forgo in pursuit of a three-year graduation plan.

### DEPARTMENTAL EXPECTATIONS

Students planning to graduate within three years with a History major should enter the University with a minimum of 18 advanced standing credits, and have satisfied the following requirements with course credit or via placement examination:

- Communication Part A
- Quantitative Reasoning Part A
- 18 combined credits of Humanities, Social Science, Natural Science, or elective coursework
- 4 units of foreign language

This plan also assumes that History major coursework at UW-Madison will satisfy 6 credits of Humanities breadth (the Humanities credits that are not Literature) and 9 credits of Social Science breadth. Most History majors pursue the BA in History, but it is also possible to complete the BS and History major requirements in three years.

This plan assumes that students will complete a total of 9 credits over three summers. Summer is an opportunity to make progress toward various requirements. UW-Madison’s summer course offerings include a large number of online courses, which give students more flexibility for their summer schedules. For students on an accelerated path, summer is also great time to study abroad.

#### First Year

Fall	Credits Spring	Credits Summer	Credits
History Breadth <sup>1</sup>	4 HISTORY course with the Ethnic Studies designation (complete within 1st 60 credits) <sup>3</sup>	4 Elective or Course for Second Major	3
History Breadth	4 Elective or Course for Second Major <sup>4</sup>	4	
Biological Science Breadth	3 Quantitative Reasoning Part B (Intermediate or Advanced COMP SCI, MATH, or STAT if BS)	3	
Foreign Language (if pursuing retroactive credit) <sup>2</sup>	4 Literature Breadth	3	

	15	16	3
HISTORY 300 (optional or Elective) <sup>5</sup>			2
<b>Second Year</b>			
Fall	Credits Spring	Credits Summer	Credits
HISTORY 201	4 History Breadth	4 Elective (Intermediate or Advanced level) or Course for Second Major	3
HIST SCI 211 (may be taken instead of History 201)	History Breadth or Elective	4	
Social Science Breadth	3 Physical Science Breadth	4	
Intermediate or Advanced COMP SCI, MATH, or STAT (if BS)	3 Elective (Intermediate or Advanced level) or Course for Second Major	4	
Elective or Course for Second Major	4		
HISTORY 301 (optional or Elective)	1		
<b>Third Year</b>			
Fall	Credits Spring	Credits Summer	Credits
HISTORY 600 <sup>6</sup>	3 History Elective	3 Elective (Intermediate or Advanced level) or Course for Second Major	3
HIST SCI 555 (may be taken instead of History 600)	Literature Breadth	3	
Science Breadth	4 Science Breadth	3	
Electives (Intermediate or Advanced level) or Courses for Second Major	8 Electives (Intermediate or Advanced level) or Courses for Second Major	7	
<b>Total Credits 102</b>			

<sup>1</sup> The History Breadth requirements are very flexible. Students should refer to the Requirements page for the History major for details on approved overlap between types of breadth in the major.

<sup>2</sup> Even though students with 4 units of foreign language do not need to complete additional foreign language coursework, UW-Madison’s retroactive credit policy (<https://kb.wisc.edu/lis/23736/>) can be very helpful for those pursuing an early graduation.

<sup>3</sup> Some examples of History courses that count toward the Ethnic Studies Requirement are: HISTORY/CHICLA 152, ASIAN AM/HISTORY 160, & JEWISH/HISTORY 213.

<sup>4</sup> History is a flexible major and can be combined with a wide range of other majors and certificates. For students hoping to double major and graduate early, it is especially important to work closely with academic advisors in both majors. We encourage all students to be thoughtful in how they approach their elective credits, whether that means pursuing an additional major or creating an individual plan of study that draws from multiple disciplines.

<sup>5</sup> History offers two optional careers courses that expose students to, and prepare them for, the wide range of careers pursued by history majors: HISTORY 300 & HISTORY 301. History at Work: Professional Skills of the Major (HISTORY 300) connects students to History alumni in different fields and helps develop essential career skills related to the value of the major. History at Work: History Internship Seminar (HISTORY 301) allows students to receive credit toward their major requirements for work associated with an internship.

<sup>6</sup> HISTORY 600 or HIST SCI 555 may be taken at any point after a student has completed either HISTORY 201 The Historian's Craft or HIST SCI 211 The Historian's Craft: Science, Medicine, and Technology. History 600s and History of Science 555 are offered on a variety of topics every semester; each course provides students with the rich experience of a small, faculty-led seminar. These seminars may be taken for credit more than once as long as the topics are different. Students who choose to pursue Honors in the History major should complete HISTORY 600 or HIST SCI 555 in Year Two so that they can write a Senior honors thesis in Year Three.

education/educational-psychology/education-educational-services-certificate/). In addition to these, some of the most common certificates for history majors are currently criminal justice (<http://guide.wisc.edu/undergraduate/letters-science/center-law-society-justice/criminal-justice-certificate/>), global health (<http://guide.wisc.edu/undergraduate/agricultural-life-sciences/nutritional-sciences/global-health-certificate/>), European studies (<http://guide.wisc.edu/undergraduate/letters-science/institute-regional-international-studies/european-certificate/>), and digital studies (<http://guide.wisc.edu/undergraduate/letters-science/communication-arts/digital-studies-certificate/>). The history advising team is happy to discuss ways for you to make your intellectual and career goals work as part of a four-year plan (<https://guide.wisc.edu/undergraduate/letters-science/history/history-ba/#fouryearplantext>).

### Honors in the Major

The Honors in the Major track in history is intended for students who are eager to experience the excitement of original historical research and who wish to graduate with the best possible undergraduate training in this discipline. Honors in the Major is especially appropriate for students who are considering graduate work in history or who want an especially advanced training in research, reasoning, and writing skills useful to a wide range of career choices. Students in this track write a thesis in their senior year based on their own original historical research. Visit our website (<https://history.wisc.edu/undergraduate-program/undergraduate-declaring/honors-in-the-history-major/>) for more information on the thesis process and the requirements for Honors in the History Major.

### CAREER ADVISING

History is a rigorous but flexible major, and history majors are known for being excellent communicators and savvy researchers. Historians are experts in synthesizing disparate pieces of evidence into coherent, persuasive arguments. The real world is filled with disparate facts and incomplete sets of data, so this is a real-world skill that history alumni utilize throughout their entire careers. The department's career advisor, Christina Matta (<https://history.wisc.edu/people/matta-christina/>), helps history majors map out future career plans and connects students to a variety of resources on campus and beyond, including history alumni who volunteer as career mentors (see below for more information).

Alumni of the history department have enjoyed careers in medical research and practice; broadcast and print media; sports management; museums, archives, and libraries; finance and business, and community service and nonprofit organizations – as well as law, academia, and many other fields. The history major provides excellent preparation for the study of law, but our students also go on to study medicine and many other graduate fields. The centers for Pre-Law Advising (<https://prelaw.wisc.edu/>) and Pre-Health Advising (<https://prehealth.wisc.edu/>) are especially helpful resources on campus for students interested in those areas of study.

### History Careers Course: "History at Work"

History 300 (History at Work - Professional Skills of the Major) (<https://history.wisc.edu/courses/undergraduate-courses/history-300-301/>) is a course intended to help history majors understand how their history degree applies to the world of work. Students explore how their history skills relate to the needs of professional employers and are guided in the process of finding and obtaining professional internships and jobs. In this course, history majors can polish their written and oral communication skills in forms appropriate for professional situations and learn from the experiences of guest speakers from a variety of fields.

## ADVISING AND CAREERS

### ADVISING AND CAREERS ACADEMIC ADVISING

Students who are declared or interested in the history major have numerous advising resources available to them. The history advising team is comprised of professional and peer advisors who are excited to talk with students about everything from academic planning to professional development for future careers. Information on the history advising team and how to contact an advisor can be found on our website (<https://history.wisc.edu/undergraduate-program/undergraduate-advising/>). You can set up an appointment with one of our advisors by using the History Department Starfish (<https://wisc.starfishsolutions.com/starfish-ops/dl/instructor/serviceCatalog.html?bookmark=service/64599>) page.

The history major can also be combined with any other major in the College of Letters & Science (L&S), anything from astronomy (<http://guide.wisc.edu/undergraduate/letters-science/astronomy/>) to zoology (<https://guide.wisc.edu/undergraduate/letters-science/integrative-biology/zoology-bs/>). Majors that students most frequently pair with history are economics (<http://guide.wisc.edu/undergraduate/letters-science/economics/>), English (<http://guide.wisc.edu/undergraduate/letters-science/english/>), environmental studies (<http://guide.wisc.edu/undergraduate/letters-science/environmental-studies/environmental-studies-major/>), journalism (<http://guide.wisc.edu/undergraduate/letters-science/journalism-mass-communication/>), and political science (<http://guide.wisc.edu/undergraduate/letters-science/political-science/>). History majors can also choose to add certificates in L&S or from outside the college, such as certificates in business (<http://guide.wisc.edu/undergraduate/business/school-wide/business-certificate/>) or education and educational services (<http://guide.wisc.edu/undergraduate/>

## Internships

The Department of History recognizes the importance of internships in helping students develop professional skills and explore potential career paths. Positions can vary depending on availability and students' interests, but recent sponsors have included the Wisconsin State Historical Museum, the University of Wisconsin Archives, offices of elected officials in the Wisconsin State Legislature and United States Congress, the Milwaukee Brewers, and Community Shares of Wisconsin – just to name a few! History majors can also get academic credit in conjunction with an internship by taking History 301: History at Work - History Internship Seminar (<https://history.wisc.edu/courses/undergraduate-courses/history-300-301/>).

## Alumni Mentoring

Like internships, networking can be a valuable tool in opening professional doors and learning more about the professional value of the history major.

The department often matches students with alumni mentors drawn from our Board of Visitors (<https://history.wisc.edu/alumni-and-friends/board-of-visitors/>) and other graduates who can help them get started building a professional network, answer questions about a specific field, provide guidance in applying for jobs or preparing for interviews, and provide general career advice.

Students interested in participating in an internship or talking with an alumni mentor should meet with Christina Matta, the department's undergraduate career advisor, to discuss their interests and possible career goals.

## L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) – a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

## PEOPLE

### PEOPLE

Professors Boswell, Callaci, Cheng, Dennis, Enke, Hall, Hansen, Haynes, Hirsch, Houck, Hsia, Kantrowitz, Keller, Kim (Charles), Kinzley, Kleijwegt, Kodesh, Lapina, Lederer, McCoy, Michels, Mitman, Murthy, Neville, Plummer, Ratner-Rosenhagen, Reese, Shoemaker, Sweet, Taylor, Thal, Ussishkin, Wandel, Young

Associate Professors Chamedes, Ciancia, Gómez, Hennessy, Iber, Kim (Monica), Nelson, Stolz

Assistant Professors Balto, Banerjee, Bloch, Brown, Durham, Esseissah, Fernandez, Glotzer, Hayes, Hope, Kennedy, Kuby, Landress, Martocchio, Meléndez-Badillo, Ramírez, Suarez, Useche, Villeneuve, Whiting, Williford

Teaching Associates Carlsson, Cullinane, Keyser, Rider

## WISCONSIN EXPERIENCE

### HISTORY: THE WISCONSIN EXPERIENCE

The history department is committed to integrating undergraduate historical study into the Wisconsin Experience (<https://provost.wisc.edu/wisconsin-experience/>), UW-Madison's vision for students' growth inside and outside the classroom. History majors at UW-Madison have a wide range of opportunities available to help them make the most of their major and carry the study of the past beyond the boundaries of the classroom.

### OPPORTUNITIES FOR HISTORY MAJORS

#### ARCHIVE

ARCHIVE (<https://uarchive.wordpress.com/>) is an award-winning journal of historical work published annually by the UW-Madison chapter of Phi Alpha Theta. See ARCHIVE's website to view past volumes and find out how you could be published.

#### Phi Alpha Theta

Phi Alpha Theta (<https://history.wisc.edu/undergraduate-program/academic-opportunities-student-life/phi-alpha-theta/>) is a national history honors society whose purpose is to promote the study of history and to bring students, teachers, and writers of history together in intellectual and social ways. See the UW-Madison chapter's page for more information.

#### Language and Regional/International Studies

History classes and faculty are at the center of UW-Madison's remarkable collection of resource centers for area studies. IRIS (<https://iris.wisc.edu/>) is the umbrella organization for UW-Madison's eight area studies programs. Students interested in these areas can combine their history major with a major in international studies (<http://www.ismajor.wisc.edu/>) or any of the area studies majors and/or certificates. UW-Madison also has one of the largest selections of language instruction (<https://languages.wisc.edu/>) in the United States.

#### Study Abroad

History is a great major for students interested in studying abroad (<https://studyabroad.wisc.edu/academics/major-advising-pages-maps/history/>) due to its flexibility and because History courses are available in most

study abroad programs. The History Department encourages study abroad, and our advising team is happy to help students ensure that they are meeting degree requirements while studying abroad.

### Wisconsin Historical Society

Scholars and researchers from all over the country (and the world) come to the Wisconsin Historical Society (<https://www.wisconsinhistory.org/>) (WHS) to do historical research. History majors at UW–Madison simply walk across the street to make use of this world-class institution. The collections of the WHS are an amazing resource for history majors and are utilized by a wide range of our courses. History majors can also develop internships related to the WHS collections and programs. Students who are interested in the history of film and television often double major in communication arts (<http://guide.wisc.edu/undergraduate/letters-science/communication-arts/>) and get involved with the Wisconsin Center for Film and Theater Research (<http://wcfr.commarts.wisc.edu/>).

### Center for Campus History

The University of Wisconsin–Madison’s Rebecca M. Blank Center for Campus History (<https://campushistory.wisc.edu/>) is an ongoing effort to uncover and give voice to those who experienced, challenged, and overcame prejudice on campus. Undergraduate students have been involved with the center since its inception as the Public History Project in 2019, working as researchers conducting both archival research and oral history interviews with former students, faculty, and staff.

### Public Humanities Exchange for Undergraduates (HEX-U)

The Public Humanities Exchange for Undergraduates (<https://humanities.wisc.edu/public-humanities/exchange/>) (HEX-U) is a high-impact program for undergraduate students at UW–Madison who wish to make meaningful connections between their humanities scholarship and the needs of the local community through new models of social engagement. The program provides training in community partnership, mentoring during project design and implementation, and project funding to small cohorts of undergraduate scholars as they plan and implement creative community projects in partnership with Dane County organizations.

### The Nonviolence Project

The Nonviolence Project (<https://thenonviolenceproject.wisc.edu/>) is a comprehensive repository that educates and informs readers on the impact of nonviolent protests all over the world. From environmental issues to racial equality, the project showcases how nonviolence has been used to address many different issues by prominent world leaders and activists. The project aims to answer how and why nonviolence has been an effective socio-political tactic across different cultural, geographical, and political landscapes throughout history. The Nonviolence Project employs undergraduate student interns as researchers to help grow the repository of sources and present information to a broad audience.

### Wisconsin 101: Our History in Objects

Wisconsin 101: Our History in Objects (<https://wi101.wisc.edu/>) is a collaborative public history project created through a partnership between the University of Wisconsin–Madison History Department, the Wisconsin Historical Society, and Wisconsin Public Radio’s Wisconsin Life program. At its core, this project invites non-professional historians to profile objects from their daily lives and write short histories that contextualize those objects within local history, regional historical trends, and even international change. Wisconsin 101 provides valuable internship opportunities for undergraduate students throughout the state of Wisconsin. These internships offer experience for students interested in

public humanities, material culture, local history, writing, and educational outreach or editing.

## RESOURCES AND SCHOLARSHIPS

### RESOURCES AND SCHOLARSHIPS THE HISTORY LAB

The History Lab is a resource center for undergraduate students studying, researching, and writing about the past. It is staffed by talented and experienced graduate students from the Department of History, and UW–Madison is one of only a handful of universities in the U.S. to have this kind of history-specific writing support.

Through individual and group tutoring, the lab focuses on honing students’ abilities to form suitable topics, conduct research, develop arguments and thesis statements, cite evidence properly, and write using an effective process. The lab is also equipped to support challenges faced by English-language learners.

For more information or to make an appointment, see the History Lab website. (<https://history.wisc.edu/undergraduate-program/the-history-lab/>)

### RESEARCH FELLOWSHIPS AND SCHOLARSHIPS

The Department of History is committed to supporting undergraduate achievement and encourages applications for the 13 different scholarships and research fellowships made possible by the generosity of its donors. Scholarships range from \$500 to \$5,000 and are awarded annually to outstanding History majors. Research fellowships range from \$1,000 to \$6,000 and allow undergraduates to pursue in-depth historical research under the guidance of History faculty. These awards help defray research costs such as supplies and travel expenses or pay for living expenses to allow students time to craft their papers and conduct research in UW Libraries.

Detailed instructions on how to apply can be found on the Department of History website (<https://history.wisc.edu/undergraduate-program/academic-opportunities-student-life/scholarships-awards-and-prizes/>). Applications need to be submitted online, via the Wisconsin Scholarship Hub (WISH) (<https://wisc.academicworks.com/>).

### UNDERGRADUATE WRITING PRIZES

The history department offers over 15 different prizes designed to reward a broad range of undergraduate writing – from Senior Theses to digital and public history projects to specialized essays in American Indian History and LGBTQ+ History. The prizes are made possible thanks to the tremendous generosity of our alumni and former members of our faculty. The history department expresses its gratitude for their support in recognizing the achievements of our undergraduates.

Detailed instructions on how to apply can be found on the Department of History website (<https://history.wisc.edu/undergraduate-program/academic-opportunities-student-life/scholarships-awards-and-prizes/>). Applications need to be submitted online via the Wisconsin Scholarship Hub (WISH) (<https://wisc.academicworks.com/>).

## HISTORY, CERTIFICATE

### WHY STUDY HISTORY AT UW-MADISON?

History is so much more than memorizing names and dates. Are you interested in technology? Religion? The environment? Human rights? If you have a question, History can help you find an answer.

The certificate in history at UW-Madison is a great option for people who are interested in studying (<https://history.wisc.edu/undergraduate-program/history-careers/why-history/>)change (<https://history.wisc.edu/undergraduate-program/history-careers/why-history/>). History asks, "How did the world get to be this way?" and "What factors might influence where the world is heading now?" Studying history helps us understand and grapple with complex questions and dilemmas by examining how the past has shaped – and continues to shape – global, national, and local relationships between societies and people. The skills that history students develop are used in a wide range of careers (<https://history.wisc.edu/undergraduate-program/history-careers/>) and prepare students for graduate or professional study in fields such as law, business, medicine, public policy, and much more.

The certificate in history requires five courses, which may be taken from both *History* and *History of Science* and may include one AP or Transfer course (see the Requirements tab on the right for more details). Students can explore the certificate by taking History or History of Science courses that also count toward other degree requirements such as Ethnic Studies, Humanities and Social Science Breadth, and Com-B (HIST 201: The Historian's Craft). The certificate in history pairs well with any major in L&S and helps to provide historical context to many areas of study. This context can deepen and enhance understanding of your major and how your area of study fits into today's world.

Please email the undergraduate program team ([undergraduateprogram@history.wisc.edu](mailto:undergraduateprogram@history.wisc.edu)) with any questions about the certificate in history. You can also set up an appointment with one of our advisors by using the History Department Starfish (<https://wisc.starfishsolutions.com/starfish-ops/dl/instructor/serviceCatalog.html?bookmark=service/64599>) page.

### HOW TO GET IN

### HOW TO GET IN

There are no prerequisites for declaring the History Certificate, and students are encouraged to declare as soon as they feel comfortable doing so. Students in all UW-Madison schools and colleges may declare the History Certificate. To declare, students should fill out the History Major/Certificate Declaration Form (<https://history.wisc.edu/undergraduate-program/declaring-the-history-major-or-certificate/>). All students are strongly encouraged to make an advising appointment after declaring and are also welcome to meet with an advisor before declaring. More information about advising and the certificate is available on the undergraduate section (<https://history.wisc.edu/undergraduate-program/>) of the History Department website. History Majors are not eligible to declare the History Certificate.

## REQUIREMENTS

### REQUIREMENTS

Students may use courses from HISTORY and HIST SCI to meet the requirements of the History certificate. The certificate requires 15 total credits/5 courses, including:

Code	Title	Credits
<b>History Research and Writing Course (complete one):</b>		<b>3</b>
HISTORY 201	The Historian's Craft	
HIST SCI 211	The Historian's Craft: Science, Medicine, and Technology	
(HISTORY 201 or HIST SCI 211 should be completed before the Capstone)		
<b>Elective Coursework</b>		
Any undergraduate courses in HISTORY or HIST SCI may be used to count toward the elective coursework requirement, as well as the following: ILS 201, ILS 202. Students are strongly encouraged to meet with an academic advisor or faculty mentor to select a group of courses that fits well with their interests and fulfills their academic or career goals.		
One Intermediate or Advanced HISTORY or HIST SCI course		3
Two additional courses in HISTORY or HIST SCI at any level		6
<b>Capstone Course</b>		<b>3</b>
<i>Complete at least one of the following:</i>		
HISTORY 401	Public History Workshop	
HISTORY 500	Reading Seminar in History	
HIST SCI 555	Undergraduate Seminar in History of Science	
HISTORY 600	Advanced Seminar in History	
<b>Total Credits</b>		<b>15</b>

### RESIDENCE & QUALITY OF WORK

- At least 12 certificate credits must be completed in residence.
- Minimum 2.000 GPA on all certificate courses.

### NOTES

Up to 3 credits awarded for approved examinations (e.g. AP or IB) or a transfer course may count toward elective coursework. The 12-credit residence requirement is meant to encourage students to engage with UW-Madison faculty and advisors and to choose their elective coursework intentionally. Ideally, these courses will complement their major or be related to other intellectual or career interests.

### CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Pose a historical question and explain its academic and public implications.
2. Present original and coherent findings through clearly written, persuasive arguments and narratives.
3. Examine the context in which primary sources were created, search for chronological and other relationships among them, and assess the sources in light of that knowledge.
4. Identify primary sources available to engage the historical problem under investigation.
5. Use appropriate research procedures and finding aids to find the secondary resources in history and other disciplines available to answer a historical question.
6. Use appropriate presentation formats and platforms to share information with academic and/or public audiences.

## ADVISING AND CAREERS

### ADVISING AND CAREERS

#### ACADEMIC ADVISING

Students who are declared or interested in the history certificate have numerous advising resources available to them. The history advising team is comprised of professional and peer advisors who are excited to talk with students about everything from academic planning to professional development for future careers. Information on the history advising team and how to contact an advisor can be found on our website. You can set up an appointment with one of our advisors by using the History Department Starfish (<https://wisc.starfishsolutions.com/starfish-ops/dl/instructor/serviceCatalog.html?bookmark=service/64599>)page.

#### CAREER ADVISING

History is a rigorous but flexible certificate, and history students are known for being excellent communicators and savvy researchers. Historians are experts in synthesizing disparate pieces of evidence into coherent, persuasive arguments. The real world is filled with disparate facts and incomplete sets of data, so this is a real-world skill that history alumni utilize throughout their entire careers. The department's career advisor, Christina Matta, helps history students map out future career plans and connects students to a variety of resources on campus and beyond, including history alumni who volunteer as career mentors (see below for more information).

Alumni of the history department have enjoyed careers in medical research and practice; broadcast and print media; sports management; museums, archives, and libraries; finance and business, and community service and nonprofit organizations – as well as law, academia, and many other fields. History provides excellent preparation for the study of law, but our students also go on to study medicine and many other graduate fields. The centers for Pre-Law Advising and Pre-Health Advising are especially helpful resources on campus for students interested in those areas of study.

### HISTORY CAREERS COURSE: “HISTORY AT WORK”

HISTORY 300 History at Work: Professional Skills of the Major is a course intended to help history students understand how their academic studies apply to the world of work. Students explore how their history skills relate to the needs of professional employers and are guided in the process of finding and obtaining professional internships and jobs. In this course, history students can polish their written and oral communication skills in forms appropriate for professional situations and learn from the experiences of guest speakers from a variety of fields.

#### INTERNSHIPS

The Department of History recognizes the importance of internships in helping students develop professional skills and explore potential career paths. Positions can vary depending on availability and students' interests, but recent sponsors have included the Wisconsin State Historical Museum, the University of Wisconsin Archives, offices of elected officials in the Wisconsin State Legislature and United States Congress, the Milwaukee Brewers, and Community Shares of Wisconsin – just to name a few! History certificate students can also get academic credit in conjunction with an internship by taking HISTORY 301 History at Work: History Internship Seminar.

#### ALUMNI MENTORING

Like internships, networking can be a valuable tool in opening professional doors and learning more about the professional value of the history certificate. The department often matches students with alumni mentors drawn from our Board of Visitors and other graduates who can help them get started building a professional network, answer questions about a specific field, provide guidance in applying for jobs or preparing for interviews, and provide general career advice.

Students interested in participating in an internship or talking with an alumni mentor should meet with Christina Matta, the department's undergraduate career advisor, to discuss their interests and possible career goals.

#### L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) – a great idea for first- and second-year students:

- INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
- INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)

- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

## PEOPLE

### PEOPLE

Professors Boswell, Callaci, Cheng, Dennis, Enke, Hall, Hansen, Haynes, Hirsch, Houck, Hsia, Kantrowitz, Keller, Kim (Charles), Kinzley, Kleijwegt, Kodesh, Lapina, Lederer, McCoy, Michels, Mitman, Murthy, Neville, Plummer, Ratner-Rosenhagen, Reese, Shoemaker, Sweet, Taylor, Thal, Ussishkin, Wandel, Young

Associate Professors Chamedes, Ciancia, Gómez, Hennessy, Iber, Kim (Monica), Nelson, Stolz

Assistant Professors Balto, Banerjee, Bloch, Brown, Durham, Esseissah, Fernandez, Glotzer, Hayes, Hope, Kennedy, Kuby, Landress, Martoccio, Meléndez-Badillo, Ramírez, Suarez, Useche, Villeneuve, Whiting, Williford

Teaching Associates Carlsson, Cullinane, Keyser, Rider

## WISCONSIN EXPERIENCE

### HISTORY: THE WISCONSIN EXPERIENCE

The history department is committed to integrating undergraduate historical study into the Wisconsin Experience, UW-Madison's vision for students' growth inside and outside the classroom. History students at UW-Madison have a wide range of opportunities available to help them make the most of their history coursework and carry the study of the past beyond the boundaries of the classroom.

### OPPORTUNITIES FOR HISTORY STUDENTS

#### ARCHIVE

*ARCHIVE* is an award-winning journal of historical work published annually by the UW-Madison chapter of Phi Alpha Theta. See *ARCHIVE*'s website to view past volumes and find out how you could be published.

#### Phi Alpha Theta

Phi Alpha Theta is a national history honors society whose purpose is to promote the study of history and to bring students, teachers, and writers of history together in intellectual and social ways. See the UW-Madison chapter's page for more information.

#### Language and Regional/International Studies

History classes and faculty are at the center of UW-Madison's remarkable collection of resource centers for area studies. IRIS is the umbrella

organization for UW-Madison's eight area studies programs. Students interested in these areas can combine their history certificate with a major in international studies or any of the area studies majors and/or certificates. UW-Madison also has one of the largest selections of language instruction in the United States.

#### Study Abroad

History is a great certificate for students interested in studying abroad due to its flexibility and because History courses are available in most study abroad programs. The History Department encourages study abroad, and our advising team is happy to help students ensure that they are meeting degree requirements while studying abroad.

#### Wisconsin Historical Society

**Scholars and researchers from all over the country (and the world) come to the Wisconsin Historical Society (WHS) to do historical research. History students at UW-Madison simply walk across the street to make use of this world-class institution. The collections of the WHS are an amazing resource for our students and are utilized by a wide range of our courses. History students can also develop internships related to the WHS collections and programs. Students who are interested in the history of film and television often explore, or major in, communication arts and can also get involved with the Wisconsin Center for Film and Theater Research.**

#### Center for Campus History

**The University of Wisconsin-Madison's Rebecca M. Blank Center for Campus History (<https://campushistory.wisc.edu/>) is an ongoing effort to uncover and give voice to those who experienced, challenged, and overcame prejudice on campus. Undergraduate students have been involved with the center since its inception as the Public History Project in 2019, working as researchers conducting both archival research and oral history interviews with former students, faculty, and staff.**

#### Public Humanities Exchange for Undergraduates (HEX-U)

**The Public Humanities Exchange for Undergraduates (<https://humanities.wisc.edu/public-humanities/exchange/>) (HEX-U) is a high-impact program for undergraduate students at UW-Madison who wish to make meaningful connections between their humanities scholarship and the needs of the local community through new models of social engagement. The program provides training in community partnership, mentoring during project design and implementation, and project funding to small cohorts of undergraduate scholars as they plan and implement creative community projects in partnership with Dane County organizations.**

#### The Nonviolence Project

**The Nonviolence Project (<https://thenonviolenceproject.wisc.edu/>) is a comprehensive repository that educates and informs readers on the impact of nonviolent protests all over the world. From environmental issues to racial equality, the project showcases how nonviolence has been used to address many different issues by prominent world leaders and activists. The project aims to answer how and why nonviolence has been an effective socio-political tactic across different cultural, geographical, and political landscapes throughout history. The Nonviolence Project employs undergraduate student interns as researchers to help grow the repository of sources and present information to a broad audience.**

## Wisconsin 101: Our History in Objects

**Wisconsin 101: Our History in Objects (<https://wi101.wisc.edu/>) is a collaborative public history project created through a partnership between the University of Wisconsin–Madison History Department, the Wisconsin Historical Society, and Wisconsin Public Radio’s Wisconsin Life program. At its core, this project invites non-professional historians to profile objects from their daily lives and write short histories that contextualize those objects within local history, regional historical trends, and even international change. Wisconsin 101 provides valuable internship opportunities for undergraduate students throughout the state of Wisconsin. These internships offer experience for students interested in public humanities, material culture, local history, writing, and educational outreach or editing.**

Detailed instructions on how to apply can be found on the Department of History website. Applications need to be submitted online, via the Wisconsin Scholarship Hub (WISH).

## MEDIEVAL STUDIES, CERTIFICATE

Medieval Studies offers students interdisciplinary perspectives on the history and culture of Europe and the Mediterranean rim between ca. 300-1500. Courses spanning 18 departments allow students to explore the medieval world from the standpoints of art, visual and material culture, history, law, languages and literature, music, philosophy, religious studies, and the history of science and medicine. The certificate in Medieval Studies is designed to encourage the pursuit of interdisciplinary work across several departments.

The Middle Ages was a dynamic period of transcontinental trade and travel that fostered cultural, technological, and scientific interactions among the kingdoms and city states of Western Europe, the Byzantine (East Roman) Empire, and the Islamic caliphates that eventually encompassed much of Spain, north Africa, and the Middle East. It is also known that the Norse (Vikings) established settlements in North America as early as ca. 1000, some 500 years before Columbus.

In Western Europe, the Middle Ages laid the foundations of constitutional government and modern nation-states, instituted a system of trial by jury, and developed the first universities along with the concept of a liberal arts curriculum (encompassing both arts and sciences). The period also saw the development of English, Germanic, Scandinavian, and romance languages (Italian, French, Spanish, Portuguese, Romanian), which by the end of the fourteenth century came to eclipse Latin as vehicles for secular poetry and prose. Further east, Greek dominated the territory of the Byzantine Empire, while the foundation of the Kyivan Rus coincided with the development of Cyrillic script used by many Slavic and non-Slavic languages. The Islamic world saw the wide diffusion of Arabic languages and literature, including scientific works which served to mediate knowledge of Greek natural philosophy and medical science to Western Europe.

Other significant cultural developments include the development of the codex, or book, often with elaborate programs of visual imagery and diagrams, the innovation of musical notation and early forms of polyphony, the application of optical science to urban planning and of one-point perspective to painting (especially in Italy), and the refinement of structural engineering that led to the soaring light-filled architecture of Gothic cathedrals in Western Europe and the expansive centralized domed spaces of the Byzantine Empire and related Orthodox states, as well as the Islamic world.

The program's focus is embodied in the interdisciplinary courses devoted to the history and culture of the Middle Ages that are regularly offered across campus by participating departments and programs. The program cross-lists many of these courses, helps to publicize courses with medieval subject matter that are not permanently cross-listed, and offers opportunities for students to undertake independent study projects with participating faculty members. It also regularly organizes public programming on specific themes with the support of the Anonymous Fund, the Center for the Humanities, the Institute for Research in the Humanities, and affiliated departments and programs.

## RESOURCES AND SCHOLARSHIPS

### RESOURCES AND SCHOLARSHIPS THE HISTORY LAB

The History Lab is a resource center for undergraduate students studying, researching, and writing about the past. It is staffed by talented and experienced graduate students from the Department of History, and UW–Madison is one of only a handful of universities in the U.S. to have this kind of history-specific writing support.

Through individual and group tutoring, the lab focuses on honing students' abilities to form suitable topics, conduct research, develop arguments and thesis statements, cite evidence properly, and write using an effective process. The lab is also equipped to support challenges faced by English-language learners.

For more information or to make an appointment, see the History Lab website.

### RESEARCH FELLOWSHIPS AND SCHOLARSHIPS

The Department of History is committed to supporting undergraduate achievement and encourages applications for the various scholarships and research fellowships made possible by the generosity of its donors. Scholarships are designed to reward outstanding History students and are awarded annually. Research fellowships allow undergraduates to pursue in-depth historical research under the guidance of History faculty. These awards help defray research costs such as supplies and travel expenses or pay for living expenses to allow students time to craft their papers and conduct research in UW Libraries.

Detailed instructions on how to apply can be found on the Department of History website. Applications need to be submitted online, via the Wisconsin Scholarship Hub (WISH).

### UNDERGRADUATE WRITING PRIZES

The history department offers over fifteen different prizes designed to reward a broad range of undergraduate writing – from Senior Theses to digital and public history projects to specialized essays in American Indian History and LGBTQ+ History. The prizes are made possible thanks to the tremendous generosity of our alumni and former members of our faculty. The history department expresses its gratitude for their support in recognizing the achievements of our undergraduates.

In addition to departments and programs that regularly offer courses counting towards the Medieval Studies certificate—including Art History, CANES (Classical and Near Eastern Studies), English, French and Italian, Integrated Liberal Studies, German/Nordic/Slavic+ (including Folklore and Scandinavian Studies), History, History of Medicine, History of Science, Jewish Studies, Religious Studies, and Spanish and Portuguese—the following departments and programs occasionally offer courses on medieval topics: African Studies, Asian Languages and Culture, Music, Philosophy, and Political Science.

Like a minor, the certificate documents a student's pursuit of a rigorous course of study in addition to the major(s). It attests to ambitious intellectual goals as well as the ability to imagine historical problems in transnational and transcultural perspectives. As a credential, it demonstrates a capacity for comparative critical thinking and analysis, skills that appeal to a wide range of potential employers.

## HOW TO GET IN

## HOW TO GET IN

Students interested in working toward the certificate should contact the director of Medieval Studies as early in their degree program as possible. The director serves as the undergraduate advisor for all students pursuing the certificate. For further information see the Medieval Studies website (<http://www.medievalstudies.wisc.edu/>).

## REQUIREMENTS

## REQUIREMENTS

The certificate requires the completion of **five courses (15 credits)** in the medieval area, according to the following distributional requirements.

Students interested in working toward the certificate should contact the director of Medieval Studies as early in their degree program as possible. The director serves as the undergraduate advisor for all students pursuing the certificate. For further information see the Medieval Studies website (<http://www.medievalstudies.wisc.edu/>).

## RESIDENCE AND QUALITY OF WORK

- At least 8 certificate credits must be completed in residence.
- Minimum 2.000 GPA on all certificate courses.

## CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

### LEARNING OUTCOMES

## LEARNING OUTCOMES

1. Historical knowledge: Acquire knowledge of historical events, social structures, cultural productions, and/or scientific innovation from c. 300-1500; develop an understanding of the relationship between these and present-day institutions, forms of artistic expression, geopolitical problems, and environmental and social concerns.
2. Interdisciplinary perspective: Approach problems in the study of the past using sources and methods drawn from more than one traditionally defined academic discipline; achieve an understanding of the inherently interdisciplinary nature of medieval studies.
3. Primary research: Encounter and analyze primary sources—including but not limited to historical documents, religious writings, scientific treatises, literary texts, works of visual art and architecture, material culture, performance texts, and music—to reach an understanding of significant aspects of medieval culture and demonstrate that understanding in an applied format.
4. Critical thinking: Discern and synthesize different perspectives on the Middle Ages; identify and question assumptions about the medieval era; assess evidence and/or evaluate methods for understanding the complexities of the past.

### ADVISING AND CAREERS

## ADVISING AND CAREERS

Students can obtain advising for the certificate by contacting the director of medieval studies. The director serves as the undergraduate advisor for all students pursuing the certificate. For further information see the Medieval Studies website (<https://medievalstudies.wisc.edu/certificate/>).

### L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)

- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

## INFORMATION

Information Science (iSci) majors study concepts and examine issues at the nexus of people, data, information, and computing. Majors gain the knowledge and skills to create data-driven technologies and to make them work for real communities. Information Science focuses on the ethical, cultural, and social factors in design and use of information technology-based and data-driven systems. Majors become adept in the creation, management, retrieval, and curation of data and information. The major emphasizes designing systems that foster well-being and support the public good.

### DEGREES/MAJORS/CERTIFICATES

## DEGREES/MAJORS/CERTIFICATES

- Information Science, BA (p. 903)
- Information Science, BS (p. 908)

### PEOPLE

## PEOPLE

Please visit the iSchool Website (<https://ischool.wisc.edu/people/faculty-staff-affiliate-emeriti/>) for a complete list of faculty, instructional, and academic staff.

## INFORMATION SCIENCE, BA

Information Science (iSci) majors study concepts and examine issues at the nexus of people, data, information, and computing. Majors gain the knowledge and skills to create data-driven technologies and to make them work for real communities. Information Science focuses on the ethical, cultural, and social factors in design and use of information technology-based and data-driven systems. Majors become adept in the creation, management, retrieval, and curation of data and information. The major emphasizes designing systems that foster well-being and support the public good.

## HOW TO GET IN

### HOW TO GET IN

Students must have a 2.000 GPA on coursework counting in the major, and a 2.000 GPA on any upper-level work in the major completed prior to declaration. No specific coursework must be completed to declare. For students below a 2.000 GPA, please contact [iSciadvising@ischool.wisc.edu](mailto:iSciadvising@ischool.wisc.edu) to discuss options and a path to declaring the Information Science major.

It is recommended that students declare the major as early as possible to plan for required coursework. First semester students without a calculated GPA are eligible to declare. For instructions on declaring the Information Science major, please see the I (<https://ischool.wisc.edu/programs/undergraduates/>)nformation Science webpage (<https://ischool.wisc.edu/programs/information-science-major/>).

## REQUIREMENTS

### UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin–Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

- |                   |  |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> <li>• Breadth–Humanities/Literature/Arts: 6 credits</li> <li>• Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth–Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul> |
|-------------------|--|

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

### COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of

Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

### BACHELOR OF ARTS DEGREE REQUIREMENTS

**Mathematics** Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.

<b>Language</b>	<ul style="list-style-type: none"> <li>• Complete the fourth unit of a language other than English; OR</li> <li>• Complete the third unit of a language and the second unit of an additional language other than English.</li> </ul>
-----------------	--

<b>LS Breadth</b>	<ul style="list-style-type: none"> <li>• 12 credits of Humanities, which must include 6 credits of literature; and</li> <li>• 12 credits of Social Science; and</li> <li>• 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.</li> </ul>
-------------------	--

<b>Liberal Arts and Science Coursework</b>	Complete at least 108 credits.
--	--------------------------------

<b>Depth of Intermediate/Advanced work</b>	Complete at least 60 credits at the intermediate or advanced level.
--	---

<b>Major</b>	Declare and complete at least one major.
--------------	--

<b>Total Credits</b>	Complete at least 120 credits.
----------------------	--------------------------------

<b>UW–Madison Experience</b>	<ul style="list-style-type: none"> <li>• 30 credits in residence, overall; and</li> <li>• 30 credits in residence after the 86th credit.</li> </ul>
------------------------------	---

<b>Quality of Work</b>	<ul style="list-style-type: none"> <li>• 2.000 in all coursework at UW–Madison</li> <li>• 2.000 in Intermediate/Advanced level coursework at UW–Madison</li> </ul>
------------------------	--

### NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

### REQUIREMENTS FOR THE MAJOR

Students must complete a minimum of 30 total credits as detailed below.

#### CORE INFORMATION SCIENCE COURSEWORK

Complete 21 credits of Core Information Science Coursework from these options:

- L I S courses in the Breadth Coursework lists (counts for both Core and Breadth)
- Additional Core L I S Coursework
- COMP SCI 570 (counts for both Core and Breadth)

## Breadth Coursework

Complete one course and at least 3 credits from each category. Non-L I S courses completed in each category satisfy breadth and count towards the Approved Electives.

### Ethics, Computing & Society

Code	Title	Credits
L I S 201	The Information Society	4
L I S 202	Informational Divides and Differences in a Multicultural Society	3
L I S 220	Digital Footprints: Privacy and Technology	3
L I S 461	Data and Algorithms: Ethics and Policy	3-4
L I S/LEGAL ST 460	Surveillance, Privacy, and Police Powers	3
L I S 500	Code and Power	3
L I S/LEGAL ST 663	Introduction to Cyberlaw	3

### Computational Techniques and Tools

Code	Title	Credits
L I S 351	Introduction to Digital Information	3
L I S 472		
L I S 501	Introduction to Text Mining	3
COMP SCI/L I S 102	Introduction to Computing	3
COMP SCI 220	Data Science Programming I	4
COMP SCI 200	Programming I	3
COMP SCI 300	Programming II	3
COMP SCI 368	Learning a Programming Language	1
STAT 433	Data Science with R (Complete one course at least 3 credits)	3

### Principles of Information and Data Science

Code	Title	Credits
L I S 440	Navigating the Data Revolution: Concepts of Data & Information Science	3
L I S 464	Applied Database Design	3
STAT 240	Data Science Modeling I	4

### Designing for Human Computer Interaction

Code	Title	Credits
L I S 470	Interaction Design Studio	3
COMP SCI 570	Introduction to Human-Computer Interaction	4
I S Y E/PSYCH 349	Introduction to Human Factors	3
L I S 646	Introduction to Info Architecture and Interaction Design for the Web	3

### Communicating Digitally

Code	Title	Credits
L I S 407	Data Storytelling with Visualization	3
L I S 350	History and Future of Books	3
COM ARTS 200	Introduction to Digital Communication	3

## Additional Core L I S Coursework

Code	Title	Credits
L I S 301	Information Literacies in Online Spaces	3
L I S 340	Topics in Information Studies - Social Aspects	3
L I S 341	Topics in Information Studies - Technological Aspects	1-3
L I S/AFRICAN/COM ARTS 444	Technology and Development in Africa and Beyond	3
L I S 510	Human Factors in Information Security	3
L I S/NURSING/OCC THER 517	Digital Health: Information and Technologies Supporting Consumers and Patients	3
L I S/LEGAL ST 645	Intellectual Freedom	3

## CAREER/COMMUNITY/INTERNSHIP COURSEWORK

Complete 1-6 credits in a hands-on learning course. No more than 6 credits may be counted towards this requirement. Some courses may have additional prerequisites to enroll.

Code	Title	Credits
INTER-LS 210	L&S Career Development: Taking Initiative	1
INTER-LS 215	Communicating About Careers	3
INTER-LS/INTER-AG 250	Undergraduate Research Experience	1-3
INTER-LS 260	Internship in the Liberal Arts and Sciences	1
DS 601	Internship	1-8
INTL ST 322	Washington DC Semester in International Affairs Internship Seminar	4
INTL ST 523	International Internship	1-3
INTL ST 622	Washington DC Sem in International Affairs Seminar	4

## UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW-Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW-Madison. "In residence" means on the UW-Madison campus with an undergraduate degree classification. "In residence" credit also includes UW-Madison courses offered in distance or online formats and credits earned in UW-Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Demonstrate understanding of ways in which the policies, ethics, and values associated with information systems can affect society
2. Demonstrate understanding of the relationships between information, cognition, and human social activity
3. Apply design principles and information science concepts to improve information systems and solve problems
4. Apply introductory data analysis and data quality management approaches and communicate results
5. Apply computational tools to accomplish goals and meet human needs
6. Communicate well in oral, written, and visual forms

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

## ADVISING AND CAREERS

### ADVISING AND CAREERS

Looking for Information Science advising?

Students who are interested in information science academic advising for the major should visit the Information School website (<https://ischool.wisc.edu/programs/undergraduates/>) or contact the advisor by email at [iSciAdvising@ischool.wisc.edu](mailto:iSciAdvising@ischool.wisc.edu).

### L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career

skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)
  - INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

## PEOPLE

## PEOPLE

Please visit the iSchool Website for a complete list of faculty, instructional, and academic staff.

## RESOURCES AND SCHOLARSHIPS

## RESOURCES AND SCHOLARSHIPS

Visit Scholarships@UW-Madison (<https://scholarships.wisc.edu/Scholarships/>) to find UW-Madison scholarships and apply online.

Visit the scholarships page on the Information School website for a compendium of opportunities available to students studying information sciences.

## INFORMATION SCIENCE, BS

Information Science (iSci) majors study concepts and examine issues at the nexus of people, data, information, and computing. Majors gain the knowledge and skills to create data-driven technologies and to make them work for real communities. Information Science focuses on the ethical, cultural, and social factors in design and use of information technology-based and data-driven systems. Majors become adept in the creation, management, retrieval, and curation of data and information. The major emphasizes designing systems that foster well-being and support the public good.

## HOW TO GET IN

## HOW TO GET IN

Students must have a 2.000 GPA on coursework counting in the major, and a 2.000 GPA on any upper-level work in the major completed prior to declaration. No specific coursework must be completed to declare. For students below a 2.000 GPA, please contact [iSciadvising@ischool.wisc.edu](mailto:iSciadvising@ischool.wisc.edu) to discuss options and a path to declaring the Information Science major.

It is recommended that students declare the major as early as possible to plan for required coursework. First semester students without a calculated GPA are eligible to declare. For instructions on declaring the Information Science major, please see the I (<https://ischool.wisc.edu/programs/undergraduates/>)nformation Science webpage (<https://ischool.wisc.edu/programs/information-science-major/>).

## REQUIREMENTS

## UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 31) section of the *Guide*.

- |                   |  |
|-------------------|--|
| General Education | <ul style="list-style-type: none"> <li>• Breadth-Humanities/Literature/Arts: 6 credits</li> <li>• Breadth-Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits</li> <li>• Breadth-Social Studies: 3 credits</li> <li>• Communication Part A Part B *</li> <li>• Ethnic Studies *</li> <li>• Quantitative Reasoning Part A Part B *</li> </ul> |
|-------------------|--|

\* The mortarboard symbol appears before the title of any course that fulfills one of the Communication Part A or Part B, Ethnic Studies, or Quantitative Reasoning Part A or Part B requirements.

## COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of

Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

## BACHELOR OF SCIENCE DEGREE REQUIREMENTS

**Mathematics** Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.

**Language** Complete the third unit of a language other than English.

**LS Breadth** Complete:  
 • 12 credits of Humanities, which must include at least 6 credits of Literature; and  
 • 12 credits of Social Science; and  
 • 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.

**Liberal Arts and Science Coursework** Complete at least 108 credits.

**Depth of Intermediate/Advanced Coursework** Complete at least 60 credits at the Intermediate or Advanced level.

**Major** Declare and complete at least one major.

**Total Credits** Complete at least 120 credits.

**UW-Madison Experience** Complete both:  
 • 30 credits in residence, overall, and  
 • 30 credits in residence after the 86th credit.

**Quality of Work**  
 • 2.000 in all coursework at UW-Madison  
 • 2.000 in Intermediate/Advanced level coursework at UW-Madison

## NON-L&S STUDENTS PURSUING AN L&S MAJOR

Non-L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

## REQUIREMENTS FOR THE MAJOR

Students must complete a minimum of 30 total credits as detailed below.

### CORE INFORMATION SCIENCE COURSEWORK

Complete 21 credits of Core Information Science Coursework from these options:

- L I S courses in the Breadth Coursework lists (counts for both Core and Breadth)
- Additional Core L I S Coursework
- COMP SCI 570 (counts for both Core and Breadth)

### Breadth Coursework

Complete one course and at least 3 credits from each category. Non-L I S courses completed in each category satisfy breadth and count towards the Approved Electives.

### Ethics, Computing & Society

Code	Title	Credits
L I S 201	The Information Society	4
L I S 202	Informational Divides and Differences in a Multicultural Society	3
L I S 220	Digital Footprints: Privacy and Technology	3
L I S 461	Data and Algorithms: Ethics and Policy	3-4
L I S/LEGAL ST 460	Surveillance, Privacy, and Police Powers	3
L I S 500	Code and Power	3
L I S/LEGAL ST 663	Introduction to Cyberlaw	3

### Computational Techniques and Tools

Code	Title	Credits
L I S 351	Introduction to Digital Information	3
L I S 472		
L I S 501	Introduction to Text Mining	3
COMP SCI/L I S 102	Introduction to Computing	3
COMP SCI 220	Data Science Programming I	4
COMP SCI 200	Programming I	3
COMP SCI 300	Programming II	3
COMP SCI 368	Learning a Programming Language	1
STAT 433	Data Science with R (Complete one course at least 3 credits)	3

### Principles of Information and Data Science

Code	Title	Credits
L I S 440	Navigating the Data Revolution: Concepts of Data & Information Science	3
L I S 464	Applied Database Design	3
STAT 240	Data Science Modeling I	4

### Designing for Human Computer Interaction

Code	Title	Credits
L I S 470	Interaction Design Studio	3
COMP SCI 570	Introduction to Human-Computer Interaction	4
I S Y E/PSYCH 349	Introduction to Human Factors	3
L I S 646	Introduction to Info Architecture and Interaction Design for the Web	3

### Communicating Digitally

Code	Title	Credits
L I S 407	Data Storytelling with Visualization	3
L I S 350	History and Future of Books	3
COM ARTS 200	Introduction to Digital Communication	3

### Additional Core L I S Coursework

Code	Title	Credits
L I S 301	Information Literacies in Online Spaces	3

L I S 340	Topics in Information Studies - Social Aspects	3	COM ARTS 155	Introduction to Digital Media Production	4
L I S 341	Topics in Information Studies - Technological Aspects	1-3	COM ARTS 345	Online Communication and Personal Relationships	3
L I S/AFRICAN/ COM ARTS 444	Technology and Development in Africa and Beyond	3	COM ARTS 346	Critical Internet Studies	3
L I S 510	Human Factors in Information Security	3	COM ARTS 478	Rhetoric and Power on the Internet	3
L I S/NURSING/ OCC THER 517	Digital Health: Information and Technologies Supporting Consumers and Patients	3	COM ARTS 509	Digital Media and Political Communication	3
L I S/LEGAL ST 645	Intellectual Freedom	3	COM ARTS 577	Dynamics of Online Relationships	3

## CAREER/COMMUNITY/INTERNSHIP COURSEWORK

Complete 1-6 credits in a hands-on learning course. No more than 6 credits may be counted towards this requirement. Some courses may have additional requisites to enroll.

Code	Title	Credits	Code	Title	Credits
INTER-LS 210	L&S Career Development: Taking Initiative	1	COMP SCI/ E C E 252	Introduction to Computer Engineering	3

## UNIVERSITY DEGREE REQUIREMENTS

**Total Degree** To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.

**Residency** Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.

**Quality of Work** Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Demonstrate understanding of ways in which the policies, ethics, and values associated with information systems can affect society

2. Demonstrate understanding of the relationships between information, cognition, and human social activity
3. Apply design principles and information science concepts to improve information systems and solve problems
4. Apply introductory data analysis and data quality management approaches and communicate results
5. Apply computational tools to accomplish goals and meet human needs
6. Communicate well in oral, written, and visual forms

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

## AFRICAN STUDIES, CERTIFICATE

The African Studies Program (<https://africa.wisc.edu/>) supports research, teaching, and outreach at the University of Wisconsin–Madison, bringing together scholars in multiple disciplines, students, teachers, and community partners to consider all aspects of land and life in Africa. The African Studies Program is a U.S. Department of Education Title VI National Resource Center for Africa, a unit in The International Division, and a member of the campus consortium of internationally oriented programs known as the Institute for Regional and International Studies (<http://iris.wisc.edu/>).

The program was established in 1961 by an interdisciplinary team of internationally respected scholars including Jan Vasina, Philip Curtin, Frederick Simoons, and Aristrde Zolberg. The center continues to enjoy a reputation for excellence, having awarded more degrees to Africa specialists than any other American university. No other university boasts such a depth and range of expertise in Africanist scholarship. Over 70 affiliated faculty offer more than 100 courses in 35 departments around campus. The Department of African Cultural Studies offers students an opportunity to study a number of African languages including Arabic, Hausa, Swahili, Yoruba, Wolof, and Zulu, as well as options for self-directed study of less-commonly taught languages.

Undergraduates from any department can benefit from access to our programs and top-ranked faculty by completing a certificate in African studies. The certificate is highly interdisciplinary and welcomes students with backgrounds in the humanities, social sciences, business, health, agriculture, or the environment. What unites certificate students is a shared interest in the people, places, and stories of the continent of Africa.

A certificate in African Studies indicates that a student has acquired an interdisciplinary knowledge about the African continent, its histories, its stories, and its people. African studies alumni serve in a number of important leadership positions in both the private and public sectors. Former students have gone on to serve as ambassadors, presidential advisors, and leaders of investment firms and Washington think tanks. Many undergraduate certificate holders launch their internationally oriented careers by joining the Peace Corps after graduation.

### HOW TO GET IN

## HOW TO GET IN

Students interested in declaring the undergraduate certificate should contact the African Studies Program undergraduate advisor ([advising@africa.wisc.edu](mailto:advising@africa.wisc.edu)).

<sup>1</sup> No more than two courses from any one SUBJECT may count toward the certificate. A cross-listed course may count in either—but not both—SUBJECTs in which it is cross-listed.

## RESIDENCE AND QUALITY OF WORK

- Minimum 2.000 GPA on all certificate courses
- At least 8 certificate credits must be completed in residence

## CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. (Historical Grounding) understanding the historical, political, and cultural forces and conditions that have given rise to the unity and diversity in the region today.
2. (Multi-disciplinarity) analyzing contemporary political, economic, and cultural realities in the region from at least two disciplinary perspectives, ideally including humanities, social sciences and sometimes natural science approaches.
3. (Depth of knowledge) mastering at the undergraduate generalist level a particular facet of life in the region by taking courses on a particular sub-region or country, or by studying a regional language, or by taking at least two courses on the region in one discipline.

## ADVISING AND CAREERS

### ADVISING AND CAREERS

We require that students visit with the advisor at least once per semester. Advising for the certificate is run by the African Studies Program advisor, Aleia Ingulli McCord, [advising@africa.wisc.edu](mailto:advising@africa.wisc.edu), who can assist you in developing your plan of study for the certificate, track progress toward the certificate, explore study abroad and international internship options, and begin the career exploration process. We offer walk-in advising, advising workshops, and scheduled appointments.

We strongly encourage students to enroll in Africa: An Introductory Survey (AFRICAN/AFROAMER/ANTHRO/GEOG/HISTORY/POLI SCI/ SOC 277), to study an African language, and to study abroad on the continent.

### L&S CAREER RESOURCES

Every L&S major opens a world of possibilities. SuccessWorks (<https://successworks.wisc.edu/>) at the College of Letters & Science helps students turn the academic skills learned in their major, certificates, and other coursework into fulfilling lives after graduation, whether that means jobs, public service, graduate school or other career pursuits.

In addition to providing basic support like resume reviews and interview practice, SuccessWorks offers ways to explore interests and build career skills from their very first semester/term at UW all the way through graduation and beyond.

Students can explore careers in one-on-one advising, try out different career paths, complete internships, prepare for the job search and/or graduate school applications, and connect with supportive alumni and even employers in the fields that inspire them.

- SuccessWorks (<https://careers.ls.wisc.edu/>)
- Set up a career advising appointment (<https://successworks.wisc.edu/make-an-appointment/>)
- Enroll in a Career Course (<https://successworks.wisc.edu/career-courses/>) - a great idea for first- and second-year students:
  - INTER-LS 210 L&S Career Development: Taking Initiative (1 credit)
  - INTER-LS 215 Communicating About Careers (3 credits, fulfills Comm B General Education Requirement)
- Learn about internships and internship funding (<https://successworks.wisc.edu/finding-a-job-or-internship/>)

- INTER-LS 260 Internship in the Liberal Arts and Sciences
- Activate your Handshake account (<https://successworks.wisc.edu/handshake/>) to apply for jobs and internships from 200,000+ employers recruiting UW-Madison students
- Learn about the impact SuccessWorks has on students' lives (<https://successworks.wisc.edu/about/mission/>)

## WISCONSIN EXPERIENCE

### WISCONSIN EXPERIENCE

As a regional center within the Institute for Regional and International Studies (<https://iris.wisc.edu/>), we support and enhance international and global awareness in our student communities and inspire informed thinking about the complexities of our world. We encourage our students to connect to international networks and our regional communities through our program's lecture series, film screenings, and varied outreach events and activities. We encourage our students to study abroad, do international internships, learn foreign languages, and expect them to gain an interdisciplinary grounding in global and regional affairs. We provide resources and expertise on our world area to students, and prospective students, and more broadly to K-12 teachers and students, postsecondary educators and graduate students, businesses, the media, the military, the community at large, and anyone else who is interested.

## RESOURCES AND SCHOLARSHIPS

### RESOURCES AND SCHOLARSHIPS

Information about funding through the African Studies Program is available on our website ([http://africa.wisc.edu/?page\\_id=28](http://africa.wisc.edu/?page_id=28)). We also encourage our students to explore funding options available through

the Institute for Regional and International Studies (IRIS) Awards Office (<https://iris.wisc.edu/funding/>).

## EAST ASIAN STUDIES, CERTIFICATE

### CERTIFICATE IN EAST ASIAN STUDIES

The undergraduate certificate in East Asian studies is offered by the Center for East Asian Studies (<https://eastasia.wisc.edu/>) (CEAS) and is available to students working toward a baccalaureate degree in any of the University of Wisconsin-Madison schools and colleges, and to University Special students. This certificate meets the needs of students choosing to focus on the East Asian region (China, Korea, Japan, and Tibet) within their primary major, but not wishing to commit to the rigorous language study required by the relevant majors in the Department of Asian Languages and Cultures.

Students select coursework reflecting their interests from myriad classes offered through many university departments and can work toward a variety of undergraduate majors. Upon earning the certificate, this emphasis is noted on the student's transcript. The certificate is of value to students wishing to demonstrate their knowledge of the East Asian region either to potential employers or to graduate schools.

### ABOUT CEAS

CEAS began in 1962 as the East Asian Studies program, building on more than 60 years of research and teaching on China, Japan, and Korea at UW-Madison. Over the years it has grown from fewer than a dozen faculty members teaching 30 graduate-level courses to more than 70 faculty members teaching nearly 300 courses at both undergraduate and graduate levels.

CEAS is the focal point connecting East Asia to the University of Wisconsin-Madison. One of UW-Madison's eight federally funded National Resource Centers, CEAS is dedicated to all aspects of research, education, and outreach related to China, Japan, and Korea.

Students interested in more specialized study of the languages and literatures of East Asia, South Asia, or Southeast Asia should see the Department of Asian Languages and Cultures, the Center for South Asia, or the Center for Southeast Asian Studies; those interested in study of languages and cultures of Central Asia should see the Center for Russian, East European, and Central Asian Studies. All questions pertaining to East Asian studies at UW-Madison should be addressed to the Center for East Asian Studies (see box at right).

## HOW TO GET IN

### HOW TO GET IN

Students interested in declaring the East Asian Studies certificate should contact the advisor for the program.

Students declared in the Asian Languages and Cultures: East Asian Studies BA/BS/MAJ are not eligible to declare the East Asian Studies certificate.

## REQUIREMENTS

### REQUIREMENTS

Complete 21 credits representing at least three Subjects, from: <sup>1</sup>

Code	Title	Credits
<b>Core Course</b>		
HISTORY/ASIAN/ POLI SCI 255	Introduction to East Asian Civilizations	3-4
<b>Additional Certificate Requirements</b>		
Complete at least three courses numbered 300 or above from the Certificate Courses list		9
Complete 9 credits of additional electives from the Certificate Courses list		9
<b>Total Credits</b>		<b>21</b>

### FOOTNOTE

<sup>1</sup> A maximum 12 credits of East Asian language may apply.

## RESIDENCE AND QUALITY OF WORK

- Minimum 2.000 GPA on all certificate courses
- At least 11 certificate credits must be completed in residence

## UNDERGRADUATE/SPECIAL STUDENT CERTIFICATES

This certificate is intended to be completed in the context of an undergraduate degree and for those seeking this certificate that is preferred. For students who have substantially completed this certificate at UW-Madison and may need one or two courses to complete the certificate, they may do so immediately after completion of the bachelor's degree by enrolling in the course as a University Special (nondegree) student. The certificate must be completed within a year of completion of the bachelor's degree. Students should keep in mind that University Special students have the last registration priority and that may limit

availability of desired courses. Financial aid is not available when enrolled as a University Special student to complete an undergraduate certificate.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. (Historical Grounding) understanding the historical, political, and cultural forces and conditions that have given rise to the unity and diversity in the region today.
2. (Multi-disciplinarity) analyzing contemporary political, economic, and cultural realities in the region from at least two disciplinary perspectives, ideally including humanities, social sciences and sometimes natural science approaches.
3. (Depth of Knowledge) mastering at the undergraduate generalist level a particular facet of life in the region by taking courses on a particular sub-region or country, or by studying a regional language, or by taking at least two courses on the region in one discipline.

## ADVISING AND CAREERS

### ADVISING AND CAREERS
