The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# NAMED OPTION-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special student at UW–Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Refer to the Graduate School: Advisor (https://policy.wisc.edu/library/UW-1232/) and Graduate School: Committees (Doctoral/Master's/MFA) (https://policy.wisc.edu/library/UW-1201/) policies.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)

- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## L&S POLICY FOR GRADUATE STUDENT ACADEMIC APPEALS

Graduate students have the right to appeal an academic decision related to an L&S graduate program if the student believes that the decision is inconsistent with published policy.

Academic decisions that may be appealed include:

- Dismissal from the graduate program
- Failure to pass a qualifying or preliminary examination
- Failure to achieve satisfactory academic progress
- Academic disciplinary action related to failure to meet professional conduct standards

Issues such as the following cannot be appealed using this process:

- A faculty member declining to serve as a graduate student's advisor.
- Decisions regarding the student's disciplinary knowledge, evaluation of the quality of work, or similar judgements. These are the domain of the department faculty.
- Course grades. These can be appealed instead using the L&S Policy for Grade Appeal (https://kb.wisc.edu/ls/22258/).
- Incidents of bias or hate, hostile and intimidating behavior (https://hr.wisc.edu/hib/), or discrimination (Title IX (https://compliance.wisc.edu/titleix/), Office of Compliance (https://compliance.wisc.edu/eo-complaint/formal-investigations/)). Direct these to the linked campus offices appropriate for the incident(s).

### Appeal Process for Graduate Students

A graduate student wishing to appeal an academic decision must follow the process in the order listed below. Note time limits within each step.

1. The student should first seek informal resolution, if possible, by discussing the concern with their academic advisor, the department's Director of Graduate Studies, and/or the department chair.
2. If the program has an appeal policy listed in their graduate program handbook, the student should follow the policy as written, including adhering to any indicated deadlines. In the absence of a specific departmental process, the chair or designee will be the reviewer and decision maker, and the student should submit a written appeal to the chair within 15 business days of the academic decision. The chair or designee will notify the student in writing of their decision.
3. If the departmental process upholds the original decision, the graduate student may next initiate an appeal to L&S. To do so, the student must submit a written appeal to the L&S Assistant Dean for Graduate Student Academic Affairs within 15 business days of notification of the department's decision.
    a. To the fullest extent possible, the written appeal should include, in a single document: a clear and concise statement of the academic decision being appealed, any relevant background on what led to the decision, the specific policies involved, the relief sought, any relevant documentation related to the departmental appeal, and the names and titles of any individuals contributing to or involved in the decision.
    b. The Assistant Dean will work with the Academic Associate Dean of the appropriate division to consider the appeal. They may seek additional information and/or meetings related to the case.
    c. The Assistant Dean and Academic Associate Dean will provide a written decision within 20 business days.
4. If L&S upholds the original decision, the graduate student may appeal to the Graduate School. More information can be found on their website: Grievances and Appeals (https://grad.wisc.edu/documents/grievances-and-appeals/) (see: Graduate School Appeal Process).

# PROFESSIONAL DEVELOPMENT

## PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

### PROGRAM INFORMATION

We offer a mass communication research colloquium, a teaching colloquium, and a professional development series of workshops for our graduate students, including sessions for academic and for industry and non-tenure track careers.

# MASS COMMUNICATIONS, DOCTORAL MINOR

A candidate for a doctoral degree in another area may earn a doctoral minor in Mass Communications in the School of Journalism and Mass Communication. Typically, the student will write a dissertation combining research in the major and minor fields. This minor is open to any doctoral students who seek to complement their main area of research with a thorough understanding of mass communication dynamics and how these dynamics affect society.

# ADMISSIONS

## ADMISSIONS

Contact the Graduate Program Manager (see contact information).

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any doctoral minor. To apply to this minor, log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. Select the information for the doctoral minor for which you are applying.

## REQUIREMENTS

# REQUIREMENTS

A minor in mass communications consists of at least 10 graduate credits in the School of Journalism and Mass Communication (https://guide.wisc.edu/courses/journ/) seminars and colloquia.

# MASS COMMUNICATIONS, PHD

The Mass Communications PhD is an interdisciplinary doctoral program offered by the School of Journalism and Mass Communication.

The program offers several internationally recognized areas of research and teaching excellence:

- civic and political communication
- health and environmental communications
- history of media institutions
- information technologies
- social networking and digital media
- processes and effects of mediated communication
- law and ethics of media
- international and inter-cultural communication
- public opinion
- science and risk communication
- social marketing
- journalism studies
- media ecologies
- race and media

Working closely with their major professor and committee, students draw from courses offered in departments across the campus to develop a plan of study in preparation for independent and original research in their areas of interest.

Previously, this program was jointly offered with the department of Life Sciences Communication, and as of Fall 2025 is accepting applications for their newly created Science Communication PhD. Please see their Guide page for more information.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements (https://grad.wisc.edu/apply/requirements/) *of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 15 |
| Spring Deadline | The program does not admit in the spring. |
| Summer Deadline | The program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required but may be considered if available. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

Applicants for this program are expected to have demonstrated an interest and background in communication research by having earned a thesis-based MA or MS degree in communication or other relevant disciplines. The admissions committee, however, may accept other evidence of suitable preparation.

Applicants must submit an online application, a statement of purpose, a supplementary question response, unofficial transcripts from all previously attended institutions, a CV, and three letters of recommendation. Letters of recommendation should come from people who can speak to the scholarly abilities of the applicant. International degree-seeking applicants must prove English proficiency using the Graduate School's requirements (https://grad.wisc.edu/apply/requirements/). Test scores must be furnished to the school before the application is considered complete.

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

Prospective students should see the program website (https://journalism.wisc.edu/graduate/financial-aid/) for funding information.

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 68 credits |
| Minimum Residence Credit Requirement | 35 credits |
| Minimum Graduate Coursework Requirement | 34 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.50 GPA required. |
| Other Grade Requirements | Courses in which the student earns a grade below B do not satisfy degree requirements, but they do count in the cumulative GPA. |
| Assessments and Examinations | Doctoral students must pass preliminary exams once coursework is completed. |
| Language Requirements | No language requirements. |
| Graduate School Breadth Requirement | Breadth is provided via interdisciplinary training (doctoral minor or graduate/professional certificate is not required). |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Colloquium** | | |
| JOURN 901 | Colloquium in Mass Communication | 1 |
| **Communication Perspectives** | | |
| Students are recommended to complete 3 courses from this area, such as these example courses. | | 9 |
| JOURN 801 | Mass Communication and the Individual | |
| JOURN 802 | Mass Communication and Society | |
| JOURN 803 | Mass Communication and Culture | |
| JOURN/ HISTORY 808 | Mass Communication History | |
| **Research Methods** | | |
| Students are recommended to complete at least 9 credits from this area, such as these example courses. | | 9 |
| JOURN 657 | Understanding Research Design & Statistics in Mass Communication | |
| JOURN 658 | Communication Research Methods | |
| JOURN/LSC 811 | Conceptualization and Design of Mass Communication Research | |
| JOURN 812 | Qualitative Communication Research Methods | |
| JOURN 813 | Practicum in Communication Research | |
| JOURN 818 | Computational Approaches to Communication Research | |
| **Communication Areas** | | |
| Students are recommended to complete 3 courses from this area, such as these example courses. | | 9 |
| JOURN 821 | Health Communication | |
| JOURN 822 | Global Communication | |
| JOURN/ ENVIR ST/ LSC 823 | Science and Environment Communication | |
| JOURN 824 | Race, Ethnicity and Media | |
| JOURN/LSC 825 | Law and Ethics of Communication and Media | |
| JOURN/LSC 826 | Journalism Theory | |
| JOURN/ GEN&WS 828 | Gender and Sexuality in Mass Communication | |
| JOURN/ POLI SCI 829 | Political Communication | |
| **Communication Specialities** | | |
| Students are recommended to complete 2 courses from this area, such as these example courses. | | 6 |
| JOURN/LSC 833 | Technology and Society | |
| JOURN 835 | News Framing and Social Protest Movements | |
| **Additional Coursework** | | |
| To satisfy the minimum credit requirement, students must complete additional Journalism and Mass Communication (JOURN) or other approved courses. See Electives below for some of the recommended options. | | 31 |

*Electives*

| | | |
|---|---|---|
| JOURN/L I S 677 | Concepts and Tools for Data Analysis and Visualization | |
| JOURN 880 | Topics in Mass Communication | |
| JOURN 902 | Graduate Teaching Colloquium | |
| JOURN 999 | Independent Research Problems | |
| *Research and Dissertation* | | |
| Students enroll in thesis credits during dissertation research to satisfy degree requirements. | | 3 |
| JOURN 990 | Thesis | |
| **Total Credits** | | **68** |

Additional requirements are detailed in the Academic Policies and Procedures Handbook for Graduate Work (https://journalism.wisc.edu/wp-content/blogs.dir/41/files/2024/06/Mass_Communications_PhD-Handbook_Revised2024.pdf) in the PhD program in Mass Communications.

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

In consultation with the student's advisor, and with program approval, students are allowed to transfer no more than 33 credits of graduate coursework from other institutions. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

With program approval, up to 7 credits numbered 600 and above from a UW–Madison undergraduate degree are allowed to count toward the degree. Credits earned at other institutions do not transfer. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

In consultation with the student's advisor and with program approval, students may be allowed to transfer professional credits completed at UW-Madison to this program, within constraints noted in the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

In consultation with the student's advisor and with program approval, students are allowed to transfer no more than 12 credits of coursework numbered 600 and above taken as a UW–Madison University Special student. However, these credits are not allowed to count toward the 50% graduate coursework minimum unless numbered 700 or above or are taken to meet the requirements of a capstone certificate and has the "Grad 50%" designation. Coursework taken ten years prior to admission to the doctoral program is not allowed to satisfy requirements.

## PROBATION

Doctoral students must do the following to maintain satisfactory progress:

1. Earn a minimum 3.5 cumulative GPA by the end of the second semester in residence and maintain that GPA for the duration of the degree program.
2. Remove grades of Incomplete in the semester following their occurrence. A course proposal cannot be approved until all incompletes are removed.
3. Complete preliminary exams within three to six months of completing coursework.
4. Maintain steady progress toward completion of degree, including final oral exam and deposit of dissertation. Full-time students can expect four to five years; completion will vary for part-time students.

## ADVISOR / COMMITTEE

Doctoral committees must include at least two members from outside the field of communications. At UW this includes the School of Journalism and Mass Communication, Department of Life Sciences Communication, and Communication Arts Department. Outside the UW, this includes scholars who have their tenure home in a mass communications department.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)

- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## L&S POLICY FOR GRADUATE STUDENT ACADEMIC APPEALS

Graduate students have the right to appeal an academic decision related to an L&S graduate program if the student believes that the decision is inconsistent with published policy.

Academic decisions that may be appealed include:

- Dismissal from the graduate program
- Failure to pass a qualifying or preliminary examination
- Failure to achieve satisfactory academic progress
- Academic disciplinary action related to failure to meet professional conduct standards

Issues such as the following cannot be appealed using this process:

- A faculty member declining to serve as a graduate student's advisor.
- Decisions regarding the student's disciplinary knowledge, evaluation of the quality of work, or similar judgements. These are the domain of the department faculty.
- Course grades. These can be appealed instead using the L&S Policy for Grade Appeal (https://kb.wisc.edu/ls/22258/).
- Incidents of bias or hate, hostile and intimidating behavior (https://hr.wisc.edu/hib/), or discrimination (Title IX (https://compliance.wisc.edu/titleix/), Office of Compliance (https://compliance.wisc.edu/eo-complaint/formal-investigations/)). Direct these to the linked campus offices appropriate for the incident(s).

### Appeal Process for Graduate Students

A graduate student wishing to appeal an academic decision must follow the process in the order listed below. Note time limits within each step.

1. The student should first seek informal resolution, if possible, by discussing the concern with their academic advisor, the department's Director of Graduate Studies, and/or the department chair.
2. If the program has an appeal policy listed in their graduate program handbook, the student should follow the policy as written, including adhering to any indicated deadlines. In the absence of a specific departmental process, the chair or designee will be the reviewer and decision maker, and the student should submit a written appeal to the chair within 15 business days of the academic decision. The chair or designee will notify the student in writing of their decision.
3. If the departmental process upholds the original decision, the graduate student may next initiate an appeal to L&S. To do so, the student must submit a written appeal to the L&S Assistant Dean for Graduate Student Academic Affairs within 15 business days of notification of the department's decision.
    a. To the fullest extent possible, the written appeal should include, in a single document: a clear and concise statement of the academic decision being appealed, any relevant background on what led to the decision, the specific policies involved, the relief sought, any relevant documentation related to the departmental appeal, and the names and titles of any individuals contributing to or involved in the decision.
    b. The Assistant Dean will work with the Academic Associate Dean of the appropriate division to consider the appeal. They may seek additional information and/or meetings related to the case.
    c. The Assistant Dean and Academic Associate Dean will provide a written decision within 20 business days.
4. If L&S upholds the original decision, the graduate student may appeal to the Graduate School. More information can be found on their website: Grievances and Appeals (https://grad.wisc.edu/documents/grievances-and-appeals/) (see: Graduate School Appeal Process).

# PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

## GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## PROGRAM RESOURCES

We offer a research colloquium (JOURN 901) during the academic year where faculty share their research findings and methods and engage students in lively conversations about how to conduct research. We offer a teaching colloquium (JOURN 902) that explores pedagogical principles and applications that prepare students for teaching careers. Teaching assistantships provide hands-on training.

Within our research groups and centers, graduate students work side by side with faculty and with each other, allowing the senior students to mentor younger students and for faculty to mentor students who are not their advisees. Our graduate students organize and host an annual day-long conference where they present their research in a series of panels, and they present their research at conferences around the world.

We offer a series of professional development workshops for graduate students with faculty and alumni panelists. The topics include: navigating the academic job market, exploring the non-academic job market, turning a paper into a presentation and how to find funding for research.

# LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Articulate research problems, potentials, and limits with respect to theory, knowledge, and practice within the field of study. Demonstrating comprehensive and intensive knowledge of the theories, concepts, frameworks, empirical findings, and controversies in the field.
2. Formulate ideas, concepts, designs, and/or techniques beyond the current boundaries of knowledge within the field of study. Demonstrating a comprehensive and intensive knowledge of appropriate and relevant research methods and analytical techniques.

3. Create research or scholarship that makes a substantive contribution to knowledge.
4. Demonstrate breadth within their learning experiences.
5. Advance contributions of the field of study to society.
6. Communicate complex ideas effectively.
7. Foster ethical and professional conduct.

# KINESIOLOGY

## DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

## DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/ PROFESSIONAL CERTIFICATES

- Athletic Training, MS (p. 1196)
- Kinesiology, Doctoral Minor (p. 1201)
- Kinesiology, MS (p. 1201)
- Kinesiology, PhD (p. 1231)
- Occupational Therapy, OTD (p. 1258)

# ATHLETIC TRAINING, MS

The Master's degree in Athletic Training is a professional program that provides rigorous and comprehensive preparation for students seeking a health care career in athletic training. Athletic trainers (ATs) are multi-skilled health care professionals who collaborate with physicians as part of the health care team to provide preventative services, emergency care, clinical diagnosis, therapeutic intervention and rehabilitation of injuries and medical condition. Athletic trainers provide health care in a variety of practice settings for people involved in all levels of physical activity. Practice environments include youth to professional sports, military and public service personnel, secondary schools, colleges, universities, performing arts, workers with physically demanding jobs, physician practice settings, and much more.

Prospective students should visit the program website (https://kinesiology.education.wisc.edu/AT/) for additional information on program outcomes and opportunities.

The program is accredited by the Commission on Accreditation of Athletic Training Education (https://caate.net/) and students are eligible to sit for the national Board of Certification exam (https://bocatc.org/) after successful completion of the MSAT program.

## ADMISSIONS

## ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | The program does not admit in the fall. |
| Spring Deadline | The program does not admit in the spring. |
| Summer Deadline | April 1 |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

## APPLICATION

- Applicants for the professional program in athletic training must complete the Athletic Training Central Application Service (ATCAS) application (https://atcas.liaisoncas.com/applicant-ux/#/login).
- Applicants for all graduate programs must complete a UW-Madison Graduate school application (https://grad.wisc.edu/apply/).
  - Early application consideration deadline is November 1.

### Admission Criteria and Prerequisite Courses

Admission to the MSAT (professional program in athletic training) requires:

- Bachelor's degree (or equivalent) from a regionally accredited school of higher education by the start of the program.
- Transcripts from each college, university, or technical college attended showing work completed and in progress.
- Observation of two Certified Athletic Trainers in different clinical practice settings. Refer to the MSAT Program website (https://kinesiology.education.wisc.edu/admissions-and-aid/athletic-training-admissions/) for forms and guidelines for required observation experiences.
- Minimum of three letters of recommendation.
- Personal statement responding to prompts provided on the graduate application.
- A grade of "C" or better in the following prerequisite courses or their equivalent:

**Required Prerequisite Courses: UW-Madison Course(s) or Comparable Coursework**

| Code | Title | Credits |
|---|---|---|
| ZOOLOGY/ BIOLOGY 101 | Animal Biology | 3-5 |

| | | |
|---|---|---|
| or ZOOLOGY/ BIOLOGY/ BOTANY 151 | Introductory Biology | |
| CHEM 103 | General Chemistry I | 4 |
| PHYSICS 103 | General Physics | 4 |
| PSYCH 210 | Basic Statistics for Psychology | 3 |
| or STAT 301 | Introduction to Statistical Methods | |
| or STAT 371 | Introductory Applied Statistics for the Life Sciences | |
| PSYCH 202 | Introduction to Psychology | 3-4 |
| ANAT&PHY 335 | Physiology [1] | 5 |
| ANAT&PHY 337 | Human Anatomy [1] | 3 |
| KINES 314 | Physiology of Exercise | 4 |

[1] If anatomy and physiology are taken as a combined course, two semesters are necessary to meet this requirement.

**Recommended Prerequisite Courses / UW-Madison or Comparable Coursework**

| Code | Title | Credits |
|---|---|---|
| NUTR SCI 132 | Nutrition Today | 3 |
| or NUTR SCI 332 | Human Nutritional Needs | |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirements | Detail |
|---|---|
| Minimum Credit Requirement | 58 credits |
| Minimum Residence Credit Requirement | 29 credits |
| Minimum Graduate Coursework Requirement | 58 credits must be graduate level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | No other grade requirements. |
| Assessments and Examinations | No formal examination required. |
| Language Requirements | No language requirements. |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Summer I** | | |
| KINES 570 | Anatomical Foundations in Athletic Training (Summer I) | 3 |
| KINES 571 | Emergency Procedures for Athletic Trainers | 2 |
| KINES 572 | Foundational Skills in Athletic Training | 1 |
| KINES 620 | Clinical Practicum in Athletic Training I | 2 |
| **Fall I** | | |
| KINES 621 | Clinical Practicum in Athletic Training II (Fall I) | 3 |
| KINES 650 | Foundations of Professional Practice in Athletic Training | 1 |
| KINES 651 | Public Health, Policy, and Practice | 3 |

| | | |
|---|---|---|
| KINES 652 | Evaluation and Therapeutic Interventions I | 4 |
| KINES 654 | Clinical Medicine in Athletic Training I | 3 |
| KINES 670 | Enhancing Performance and Wellness | 1 |
| **Spring I** | | |
| KINES 622 | Clinical Field Experience in Athletic Training I (Spring I) | 3 |
| KINES 650 | Foundations of Professional Practice in Athletic Training | 1 |
| KINES 653 | Evaluation and Therapeutic Interventions II | 4 |
| KINES 655 | Clinical Medicine in Athletic Training II | 3 |
| KINES 656 | Scientific Inquiry in Athletic Training | 3 |
| KINES 671 | Diagnostic Imaging in Athletic Training | 1 |
| **Summer II** | | |
| KINES 623 | Clinical Field Experience in Athletic Training II (Summer II ) | 3 |
| KINES 672 | Principles of Pharmacology for Athletic Trainers | 1 |
| **Fall II** | | |
| KINES 624 | Athletic Training Preceptorship I (Fall II) | 6 |
| KINES 657 | Role Transition and Professional Practice in Athletic Training | 1 |
| KINES 673 | Healthcare Informatics and Quality Improvement in Athletic Training | 1 |
| **Spring II** | | |
| KINES 625 | Athletic Training Preceptorship II (Spring II) | 7 |
| KINES 674 | Clinical Scholarship in Athletic Training | 1 |
| **Total Credits** | | **58** |

## POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program approval, students may transfer no more than 15 credits of graduate course work from other institutions. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

No credits from a UW-Madison or external undergraduate degree may transfer toward the MSAT degree.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

With program approval, students may transfer no more than 15 credits of coursework numbered 300 or above taken in UW-Madison University Special student status. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

1. Good standing (progressing according to standards; any funding guarantee remains in place).
2. Probation (not progressing according to standards but permitted to enroll; loss of funding guarantee; specific plan with dates and deadlines in place in regard to removal of probationary status).
3. Unsatisfactory progress (not progressing according to standards; not permitted to enroll, dismissal, leave of absence or change of advisor or program).

An overall GPA below 3.0 will place the student on academic probation. If a 3.0 GPA is not regained in the subsequent semester the student may be dismissed from the program or allowed to continue provisionally for one semester based on advisor appeal to the Graduate School.

## ADVISOR / COMMITTEE

The MSAT assigns an advisor to each student. MSAT students must complete one mandatory group advising meeting each semester. In addition, students must meet individually once per semester with an advisor to insure satisfactory progress toward their MSAT degree and to monitor clinical placement progress needs.

## CREDITS PER TERM ALLOWED

15 credits

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)

- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## School of Education Grievance Policy and Procedures

The following School of Education Student Grievance Policy and associated procedures are designed for use in response to individual student grievances regarding faculty or staff in the School of Education.

Any individual student who feels they have been treated unfairly by a School of Education faculty or staff member has the right to file a grievance about the treatment and receive a timely response addressing their concerns. Any student, undergraduate or graduate, may use these grievance procedures, except employees whose complaints are covered under other campus policies. The grievance may concern classroom treatment, mentoring or advising, program admission or continuation, course grades (study abroad grade complaints are handled through International Academic Programs (https://studyabroad.wisc.edu/)), or issues not covered by other campus policies or grievance procedures.

> For grievances regarding discrimination based on protected bases (https://compliance.wisc.edu/eo-complaint/) (i.e., race, color, national origin, sex, disability, age, etc.), contact the Office of Compliance (https://compliance.wisc.edu/eo-complaint/).
>
> For grievances or concerns regarding sexual harassment or sexual violence (including sexual assault, dating/domestic violence, stalking, and sexual exploitation), contact the Sexual Misconduct Resource and Response Program (https://compliance.wisc.edu/titleix/) within the Office of Compliance.
>
> For grievances that involve the behavior of a student, contact the Office of Student Conduct and Community Standards in the Dean of Students Office at https://conduct.students.wisc.edu/).

For grievances about, or directed at, faculty or staff in a School of Education department, unit, or program, students should follow these steps:

1. Students are strongly encouraged to first talk with the person against whom the concern is directed. Many issues can be settled informally at this level. If students are unable to resolve concerns directly or without additional support, step 2 or 3 should be pursued.
2. If unresolved after taking or considering step 1:
   a. If the concern is directed against a teaching assistant (TA), and the student is not satisfied, the student should contact the TA's supervisor, who is usually the course professor. The course professor will attempt to resolve the concern informally.
   b. If the concern involves a non-TA instructor, staff member, professor, academic department, or School of Education office or unit, the student should contact the chair of the department or the director of the office or unit, or their designee. The chair or director, or their designee, will attempt to resolve the concern informally. If the concern is about the department chair or office/unit director, the student should consult the School of Education Senior Associate Dean for guidance.
3. If the concern remains unresolved after step 2, the student may submit a formal grievance to the chair or director in writing within 30 business days[1] of the alleged unfair treatment. To the fullest extent possible, a formal written grievance shall contain a clear and concise statement of the issue(s) involved and the relief sought.
4. On receipt of a written grievance, the chair or director will notify the person at whom the grievance is directed with a copy of the written grievance. The person at whom the complaint is directed may submit a written response, which would be shared with the student.
5. On receipt of a written grievance, the chair or director will refer the matter to a department, office, or unit committee comprised of at least two members. The committee may be an existing committee or one constituted for this purpose. The committee, or delegates from the committee, may meet with the parties involved and/or review any material either party shares with the committee.
6. The committee will provide a written description of the facts of the grievance and communicate recommendations to the department chair or office/unit head regarding how the grievance should be handled.
7. The chair or director will offer to meet with the student who made the grievance and also will provide a written decision to the student, including a description of any related action taken by the committee, within 30 business days of receiving the formal grievance.

[1] For the purpose of this policy, business days refers to those days when the University Offices are open and shall not include weekends, university holidays, spring recess, or the period from the last day of exams of fall semester instruction to the first day of spring semester instruction. All time limits may be modified by mutual consent of the parties involved.

If the grievance concerns an undergraduate course grade, the decision of the department chair after reviewing the committee's recommendations is final.

Other types of grievances may be appealed using the following procedures:

1. Both the student who filed the grievance or the person at whom the grievance was directed, if unsatisfied with the decision of

the department, office or unit, have five (5) business days from receipt of the decision to contact the Senior Associate Dean, indicating the intention to appeal.

2. A written appeal must be filed with the Senior Associate Dean within 10 business days of the time the appealing party was notified of the initial resolution of the complaint.
3. On receipt of a written appeal, the Senior Associate Dean will convene a sub-committee of the School of Education's Academic Planning Council. This subcommittee may ask for additional information from the parties involved and/or may hold a meeting at which both parties will be asked to speak separately (i.e., not in the room at the same time).
4. The subcommittee will then make a written recommendation to the Dean of the School of Education, or their designee, who will render a decision. The dean or designee's written decision shall be made within 30 business days from the date when the written appeal was filed with the Senior Associate Dean. For undergraduate students, the dean or designee's decision is final.

Further appealing a School of Education decision – *graduate students only*

> Graduate students have the option to appeal decisions by the School of Education dean or designee by using the process detailed on the Graduate School's website (https://grad.wisc.edu/documents/grievances-and-appeals/).

Questions about these procedures can be directed to the School of Education Dean's Office, 377 Education Building, 1000 Bascom Mall, 608-262-1763.

n/a

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Understand the role of the athletic trainer within the broader health care system.
2. Demonstrate appropriate oral and written communication skills.
3. Develop and apply strategies to prevent the incidence and/or severity of injury and illnesses.
4. Demonstrate the clinical skills needed to appropriately diagnose patients for treatment and referral.
5. Apply clinical and decision-making skills to respond to acute injury and illness, including emergencies.
6. Assess patient status and develop treatment and rehabilitation that are consistent with contemporary disablement models.
7. Demonstrate clinical scholarship in the form of evidence appraisal and application to influence athletic training practice.
8. Maintain the highest standards of clinical practice by examining the quality of patient care through the use of patient outcomes.
9. Apply research methods to develop and evaluate clinical questions applicable to practice-based research environments while demonstrating an understanding of ethical research practice.

## ACCREDITATION

# ACCREDITATION

Commission on Accreditation of Athletic Training Education (https://caate.net/)

Accreditation status: Accredited. Next accreditation review: 2025–2026.

## CERTIFICATION/LICENSURE

# CERTIFICATION/LICENSURE

The program is accredited by the Commission on Accreditation of Athletic Training Education (https://caate.net/) and students are eligible to sit for the national Board of Certification exam (https://bocatc.org/) after successful completion of the MSAT program.

Currently, 49 states and the District of Columbia regulate the practice of athletic training. Individuals must be legally recognized by the appropriate state regulatory agency prior to practicing athletic training. The Board of Certification (BOC) exam is recognized by all athletic trainer state regulatory agencies to meet their exam requirement. Compliance with state regulatory requirements is mandatory and the only avenue to legal athletic training practice.

### PROFESSIONAL CERTIFICATION/LICENSURE DISCLOSURE (NC-SARA)

The United States Department of Education (via 34 CFR Part 668 (https://www.ecfr.gov/current/title-34/subtitle-B/chapter-VI/part-668/?toc=1)) requires institutions that provide distance education to disclose information for programs leading to professional certification or licensure. The expectation is that institutions will determine whether each applicable academic program meets state professional licensure requirements and provide a general disclosure of such on an official university website.

Professional licensure requirements vary from state-to-state and can change year-to-year; they are established in a variety of state statutes, regulations, rules, and policies; and they center on a range of educational requirements, including degree type, specialized accreditation, total credits, specific courses, and examinations.

UW-Madison has taken reasonable efforts to determine whether this program satisfies the educational requirements for certification/licensure in states where prospective and enrolled students are located and is disclosing that information as follows.

Disclaimer: This information is based on the most recent annual review of state agency certification/licensure data and is subject to change. All students are strongly encouraged to consult with the individual/office listed in the Contact Information box on this page and with the applicable state agency for specific information.

#### The requirements of this program meet certification/licensure requirements in the following states:

Alabama, Alaska, Arizona, Arkansas, Colorado, Connecticut, Delaware, Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, Wyoming, District of Columbia

#### The requirements of this program do not meet certification/licensure requirements in the following states:

Not applicable

Updated: 1 June 2026

# KINESIOLOGY, DOCTORAL MINOR

The Department of Kinesiology's mission is to research, teach and apply knowledge related to movement, exercise and human occupation, with the ultimate goal of enhancing human health, productivity and quality of life. The Department of Kinesiology offers graduate courses that reflect the breadth of the discipline, including biomechanics, exercise psychology, exercise physiology, motor control and behavior, physical activity epidemiology and occupational science. A minor from the Department of Kinesiology is tailored to each student's individual interests, career goals, needs and background. The learning goals for the doctoral minor are to demonstrate an understanding of the major current and past theories, research findings, methodologies and techniques in one or more of the broad areas of inquiry represented within the Department of Kinesiology.

## ADMISSIONS

## ADMISSIONS

Students interested in the Kinesiology doctoral minor should contact the Department of Kinesiology graduate studies chair early in their graduate program to ensure acceptance into and adequate mentoring in the doctoral minor. When students meet with the graduate studies chair, they will fill out a course plan. The department's graduate studies chair, the student's doctoral committee mentor, and the student must sign the course plan.

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any doctoral minor. To apply to this minor, log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. Select the information for the doctoral minor for which you are applying.

## REQUIREMENTS

## REQUIREMENTS

Student must complete 9 credits in the Kinesiology (KINES (https://guide.wisc.edu/courses/kines/)) subject listing and meet the following conditions:

- All credits must be in courses numbered 300 and above;
- At least 3 credits in courses numbered 700 and above;
- The student receives a satisfactory grade (C or above) for all credits;
- The grade point average (GPA) of the credits applied is at least 3.00.

# KINESIOLOGY, MS

The Department of Kinesiology's mission is to create, interpret, transmit, and apply knowledge related to movement, exercise, and human occupation with the ultimate goal of enhancing human health, productivity, and quality of life.

The MS degree in Kinesiology can be pursued through one of its named options. These named options are formal sub-majors documented on the transcript.

- Applied Exercise Science (p. 1203)
- Biomechanics (p. 1207)
- Exercise Physiology (p. 1211)
- Exercise Psychology (p. 1215)
- Motor Control and Behavior (p. 1219)
- Occupational Science (p. 1223)
- Physical Activity Epidemiology (p. 1227)

## ADMISSIONS

# ADMISSIONS

Students apply to the Master of Science in Kinesiology through one of the named options:

- Kinesiology: Applied Exercise Science, MS (p. 1203)
- Kinesiology: Motor Control and Behavior, MS (p. 1219)
- Kinesiology: Biomechanics, MS (p. 1207)
- Kinesiology: Exercise Psychology, MS (p. 1215)
- Kinesiology: Physical Activity Epidemiology, MS (p. 1227)
- Kinesiology: Exercise Physiology, MS (p. 1211)
- Kinesiology: Occupational Science, MS (p. 1223)

## FUNDING

# FUNDING

### GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

### PROGRAM RESOURCES

Prospective students should see the program website (https://kinesiology.education.wisc.edu/tuition-and-financial-support/#cost-of-study) for funding information.

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

### CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 15 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | See Named Options for policy information. |
| Other Grade Requirements | See Named Options for policy information. |
| Assessments and Examinations | See Named Options for policy information. |
| Language Requirements | No language requirements. |

### REQUIRED COURSES

Select a Named Option for courses required.

# NAMED OPTIONS

A named option is a formally documented sub-major within an academic major program. Named options appear on the transcript with degree conferral. Students pursuing the MS in Kinesiology must select one of the following named options:

View as listView as grid

- **KINESIOLOGY: APPLIED EXERCISE SCIENCE, MS (P. 1203)**
- **KINESIOLOGY: BIOMECHANICS, MS (P. 1207)**
- **KINESIOLOGY: EXERCISE PHYSIOLOGY, MS (P. 1211)**
- **KINESIOLOGY: EXERCISE PSYCHOLOGY, MS (P. 1215)**
- **KINESIOLOGY: MOTOR CONTROL AND BEHAVIOR, MS (P. 1219)**
- **KINESIOLOGY: OCCUPATIONAL SCIENCE, MS (P. 1223)**
- **KINESIOLOGY: PHYSICAL ACTIVITY EPIDEMIOLOGY, MS (P. 1227)**

## POLICIES

# POLICIES

Students should refer to one of the named options for policy information:

- Kinesiology: Applied Exercise Science, MS (p. 1203)
- Kinesiology: Motor Control and Behavior, MS (p. 1219)
- Kinesiology: Biomechanics, MS (p. 1207)
- Kinesiology: Exercise Psychology, MS (p. 1215)
- Kinesiology: Physical Activity Epidemiology, MS (p. 1227)
- Kinesiology: Exercise Physiology, MS (p. 1211)
- Kinesiology: Occupational Science, MS (p. 1223)

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Master fundamental knowledge in at least one of the broad areas of specialization represented in the Department of Kinesiology.
2. Demonstrate understanding of major current and past theories, research findings, methodologies, and techniques in their areas of specialization.
3. Identify sources and assemble evidence pertaining to questions or challenges in their area of specialization.
4. Select appropriate methodologies to conduct research, analyze, and interpret resulting data.
5. Communicate clearly in ways appropriate to their area of specialization.
6. Retrieve and examine scientific literature, evaluate evidence for and against hypotheses, and be able to discuss strengths and weaknesses in existing literature.
7. Recognize and apply principles of professional and ethical conduct.

# KINESIOLOGY: APPLIED EXERCISE SCIENCE, MS

This is a named option in the Kinesiology, MS (p. 1201). For more information, please see our program website (https://kinesiology.education.wisc.edu/academics/grad-program/).

The Applied Exercise Science named option of the Kinesiology MS is designed to provide broad, graduate-level training in Kinesiology for students who are not necessarily interested in a career doing research in the field. This degree supports and interest in coaching/teaching (team or individual), personal training, or fitness instructions. Students will take graduate-level courses that cover the breadth of the field of Kinesiology and will take additional electives from Kinesiology or from any departments across campus that the students see as fitting their personal educational goals. The degree also supplements the practice of physical therapy, athletic training, other allied health professions, or any individual purpose a student may have. Students can use elective credits, internships, and independent studies to customize their program to meet their needs and future career goals.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements (https://grad.wisc.edu/apply/requirements/) *of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 1 |
| Spring Deadline | September 1 |
| Summer Deadline | This program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

For admission, the Graduate School requires, as does the Kinesiology department, a minimum 3.0 GPA (on a 4.0=A scale) on the last 60 semester hours (or equivalent) of undergraduate coursework. An applicant must submit academic transcripts from each institution attended and a statement of reasons for graduate study. Please consult the Kinesiology website (https://kinesiology.education.wisc.edu/graduate-admissions/kinesiology-graduate-admissions/) for further details of these requirements and procedures.

## FUNDING

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# NAMED OPTION REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirements | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 15 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# NAMED OPTION-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program approval, students are allowed to transfer no more than 14 credits of graduate coursework from other institutions. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

No credits from an other institution or UW-Madison undergraduate degree are allowed to transfer toward the degree.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW-Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Refer to the Graduate School: Advisor (https://policy.wisc.edu/library/UW-1232/) and Graduate School: Committees (Doctoral/Master's/MFA) (https://policy.wisc.edu/library/UW-1201/) policies.

The program advisor is the Director of Graduate Studies.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

Within the Department, completion of required courses within two years of matriculation is considered satisfactory progress. See the Graduate Program Handbook link in Contact Information for more information.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

### School of Education Grievance Policy and Procedures

The following School of Education Student Grievance Policy and associated procedures are designed for use in response to individual student grievances regarding faculty or staff in the School of Education.

Any individual student who feels they have been treated unfairly by a School of Education faculty or staff member has the right to file a

grievance about the treatment and receive a timely response addressing their concerns. Any student, undergraduate or graduate, may use these grievance procedures, except employees whose complaints are covered under other campus policies. The grievance may concern classroom treatment, mentoring or advising, program admission or continuation, course grades (study abroad grade complaints are handled through International Academic Programs (https://studyabroad.wisc.edu/)), or issues not covered by other campus policies or grievance procedures.

For grievances regarding discrimination based on protected bases (https://compliance.wisc.edu/eo-complaint/) (i.e., race, color, national origin, sex, disability, age, etc.), contact the Office of Compliance (https://compliance.wisc.edu/eo-complaint/).

For grievances or concerns regarding sexual harassment or sexual violence (including sexual assault, dating/domestic violence, stalking, and sexual exploitation), contact the Sexual Misconduct Resource and Response Program (https://compliance.wisc.edu/titleix/) within the Office of Compliance.

For grievances that involve the behavior of a student, contact the Office of Student Conduct and Community Standards in the Dean of Students Office at https://conduct.students.wisc.edu/).

For grievances about, or directed at, faculty or staff in a School of Education department, unit, or program, students should follow these steps:

1. Students are strongly encouraged to first talk with the person against whom the concern is directed. Many issues can be settled informally at this level. If students are unable to resolve concerns directly or without additional support, step 2 or 3 should be pursued.
2. If unresolved after taking or considering step 1:
   a. If the concern is directed against a teaching assistant (TA), and the student is not satisfied, the student should contact the TA's supervisor, who is usually the course professor. The course professor will attempt to resolve the concern informally.
   b. If the concern involves a non-TA instructor, staff member, professor, academic department, or School of Education office or unit, the student should contact the chair of the department or the director of the office or unit, or their designee. The chair or director, or their designee, will attempt to resolve the concern informally. If the concern is about the department chair or office/unit director, the student should consult the School of Education Senior Associate Dean for guidance.
3. If the concern remains unresolved after step 2, the student may submit a formal grievance to the chair or director in writing within 30 business days[1] of the alleged unfair treatment. To the fullest extent possible, a formal written grievance shall contain a clear and concise statement of the issue(s) involved and the relief sought.
4. On receipt of a written grievance, the chair or director will notify the person at whom the grievance is directed with a copy of the written grievance. The person at whom the complaint is directed may submit a written response, which would be shared with the student.
5. On receipt of a written grievance, the chair or director will refer the matter to a department, office, or unit committee comprised of at least two members. The committee may be an existing committee or one constituted for this purpose. The committee, or delegates from the committee, may meet with the parties involved and/or review any material either party shares with the committee.
6. The committee will provide a written description of the facts of the grievance and communicate recommendations to the department chair or office/unit head regarding how the grievance should be handled.
7. The chair or director will offer to meet with the student who made the grievance and also will provide a written decision to the student, including a description of any related action taken by the committee, within 30 business days of receiving the formal grievance.

[1] For the purpose of this policy, business days refers to those days when the University Offices are open and shall not include weekends, university holidays, spring recess, or the period from the last day of exams of fall semester instruction to the first day of spring semester instruction. All time limits may be modified by mutual consent of the parties involved.

If the grievance concerns an undergraduate course grade, the decision of the department chair after reviewing the committee's recommendations is final.

Other types of grievances may be appealed using the following procedures:

1. Both the student who filed the grievance or the person at whom the grievance was directed, if unsatisfied with the decision of the department, office or unit, have five (5) business days from receipt of the decision to contact the Senior Associate Dean, indicating the intention to appeal.
2. A written appeal must be filed with the Senior Associate Dean within 10 business days of the time the appealing party was notified of the initial resolution of the complaint.
3. On receipt of a written appeal, the Senior Associate Dean will convene a sub-committee of the School of Education's Academic Planning Council. This subcommittee may ask for additional information from the parties involved and/or may hold a meeting at which both parties will be asked to speak separately (i.e., not in the room at the same time).
4. The subcommittee will then make a written recommendation to the Dean of the School of Education, or their designee, who will render a decision. The dean or designee's written decision shall be made within 30 business days from the date when the written appeal was filed with the Senior Associate Dean. For undergraduate students, the dean or designee's decision is final.

Further appealing a School of Education decision – *graduate students only*

Graduate students have the option to appeal decisions by the School of Education dean or designee by using the process detailed on the Graduate School's website (https://grad.wisc.edu/documents/grievances-and-appeals/).

Questions about these procedures can be directed to the School of Education Dean's Office, 377 Education Building, 1000 Bascom Mall, 608-262-1763.

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

# KINESIOLOGY: BIOMECHANICS, MS

This is a named option in the Kinesiology, MS (p. 1201) For more information, please see our program website (https://kinesiology.education.wisc.edu/academics/grad-program/).

Biomechanics is the application of mechanics to biological systems. Within the broad field of biomechanics, specific areas of study at UW–Madison include: tissue mechanics, neuro-muscular control, human performance, sports performance, injury, rehabilitation, and limb dynamics. The program equips students to apply the tools of engineering analysis to biological systems from the cellular to the whole-body level with career objectives in academia, health care, and sports science. Elective coursework within the program allows students to pursue individual interests such as physiological adaptations to mechanical stimuli or computer modeling. Students generally have the opportunity to teach during their training.

The MS degree is designed to provide the necessary foundation for participation in biomechanical or injury prevention research. Coursework in biomechanics, statistics, research methods, and motor control form the basis of the formal training. Graduates of the program may pursue additional educational training and enter clinical careers, industry, or biomedical research.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 1 |
| Spring Deadline | September 1 |
| Summer Deadline | This program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Every applicant whose native language is not English, or whose undergraduate instruction was not exclusively in English, must provide an English proficiency test score earned within two years of the anticipated term of enrollment. Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

For admission, the Graduate School requires, as does the Kinesiology department, a minimum 3.0 GPA (on a 4.0=A scale) on the last 60 semester hours (or equivalent) of undergraduate coursework. An applicant must submit academic transcripts from each institution attended and a statement of reasons for graduate study. If a professor in the area of interest agrees to serve as the prospective student's advisor, then the department's graduate office recommends the applicant for admission to the Graduate School. Please consult the Kinesiology website (https://kinesiology.education.wisc.edu/graduate-admissions/kinesiology-

graduate-admissions/) for further details of these requirements and procedures.

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# NAMED OPTION REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirements | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 15 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | n/a |
| Assessments and Examinations | Not required. |
| Language Requirements | No language requirements. |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Core** | | |
| KINES 618 | Biomechanics | 2 |
| KINES 951 | Seminar-Biomechanics | 2 |
| KINES 990 | Research or Thesis | 4 |
| KINES 900 | Seminar in Kinesiology [1] | 4 |
| **Statistics (to be chosen in consultation with advisor, example course listed)** | | **3-4** |
| STAT/ F&W ECOL 571 | Statistical Methods for Bioscience I | |
| **Suggested Elective Courses [2]** | | **14-15** |
| KINES 614 | Biological Factors Influencing Exercise Performance | |
| KINES 721 | Neural Basis for Movement | |
| **Total Credits** | | **30** |

1 All Kinesiology MS and PhD students are required to register for KINES 900 Seminar in Kinesiology for 1 credit each semester they are enrolled in the program, for a minimum of 4 credits.

2 Electives courses to meet the degree requirements are chosen in consultation with the advisor from this list or any other course numbered 300 or above on campus. Each candidate's program of formal course work and independent study is tailored in a personalized manner to accommodate the individual's research and career goals.

## POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# NAMED OPTION-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program approval, students are allowed to transfer no more than 14 credits of graduate coursework from other institutions. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

No credits from an other institution or UW-Madison undergraduate degree are allowed to transfer toward the degree.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Refer to the Graduate School: Advisor (https://policy.wisc.edu/library/UW-1232/) and Graduate School: Committees (Doctoral/Master's/MFA) (https://policy.wisc.edu/library/UW-1201/) policies.

Primary faculty mentor will be the main advisor. The Director of Graduate Studies and Graduate Program Manager will provide additional support and advising as needed.

## CREDITS PER TERM ALLOWED

15 credits

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

Within the Department, completion of required courses within two years of matriculation is considered satisfactory progress. See the Graduate Program Handbook link in Contact Information for more information.

  - Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

### School of Education Grievance Policy and Procedures

The following School of Education Student Grievance Policy and associated procedures are designed for use in response to individual student grievances regarding faculty or staff in the School of Education.

Any individual student who feels they have been treated unfairly by a School of Education faculty or staff member has the right to file a grievance about the treatment and receive a timely response addressing their concerns. Any student, undergraduate or graduate, may use these grievance procedures, except employees whose complaints are covered under other campus policies. The grievance may concern classroom treatment, mentoring or advising, program admission or continuation, course grades (study abroad grade complaints are handled through International Academic Programs (https://studyabroad.wisc.edu/)), or issues not covered by other campus policies or grievance procedures.

> For grievances regarding discrimination based on protected bases (https://compliance.wisc.edu/eo-complaint/) (i.e., race, color, national origin, sex, disability, age, etc.), contact the Office of Compliance (https://compliance.wisc.edu/eo-complaint/).
>
> For grievances or concerns regarding sexual harassment or sexual violence (including sexual assault, dating/domestic violence, stalking, and sexual exploitation), contact the Sexual Misconduct Resource and Response Program (https://compliance.wisc.edu/titleix/) within the Office of Compliance.
>
> For grievances that involve the behavior of a student, contact the Office of Student Conduct and Community Standards in the Dean of Students Office at https://conduct.students.wisc.edu/).

For grievances about, or directed at, faculty or staff in a School of Education department, unit, or program, students should follow these steps:

1. Students are strongly encouraged to first talk with the person against whom the concern is directed. Many issues can be settled informally at this level. If students are unable to resolve

concerns directly or without additional support, step 2 or 3 should be pursued.

2. If unresolved after taking or considering step 1:
   a. If the concern is directed against a teaching assistant (TA), and the student is not satisfied, the student should contact the TA's supervisor, who is usually the course professor. The course professor will attempt to resolve the concern informally.
   b. If the concern involves a non-TA instructor, staff member, professor, academic department, or School of Education office or unit, the student should contact the chair of the department or the director of the office or unit, or their designee. The chair or director, or their designee, will attempt to resolve the concern informally. If the concern is about the department chair or office/unit director, the student should consult the School of Education Senior Associate Dean for guidance.
3. If the concern remains unresolved after step 2, the student may submit a formal grievance to the chair or director in writing within 30 business days[1] of the alleged unfair treatment. To the fullest extent possible, a formal written grievance shall contain a clear and concise statement of the issue(s) involved and the relief sought.
4. On receipt of a written grievance, the chair or director will notify the person at whom the grievance is directed with a copy of the written grievance. The person at whom the complaint is directed may submit a written response, which would be shared with the student.
5. On receipt of a written grievance, the chair or director will refer the matter to a department, office, or unit committee comprised of at least two members. The committee may be an existing committee or one constituted for this purpose. The committee, or delegates from the committee, may meet with the parties involved and/or review any material either party shares with the committee.
6. The committee will provide a written description of the facts of the grievance and communicate recommendations to the department chair or office/unit head regarding how the grievance should be handled.
7. The chair or director will offer to meet with the student who made the grievance and also will provide a written decision to the student, including a description of any related action taken by the committee, within 30 business days of receiving the formal grievance.

[1] For the purpose of this policy, business days refers to those days when the University Offices are open and shall not include weekends, university holidays, spring recess, or the period from the last day of exams of fall semester instruction to the first day of spring semester instruction. All time limits may be modified by mutual consent of the parties involved.

If the grievance concerns an undergraduate course grade, the decision of the department chair after reviewing the committee's recommendations is final.

Other types of grievances may be appealed using the following procedures:

1. Both the student who filed the grievance or the person at whom the grievance was directed, if unsatisfied with the decision of the department, office or unit, have five (5) business days from receipt of the decision to contact the Senior Associate Dean, indicating the intention to appeal.
2. A written appeal must be filed with the Senior Associate Dean within 10 business days of the time the appealing party was notified of the initial resolution of the complaint.
3. On receipt of a written appeal, the Senior Associate Dean will convene a sub-committee of the School of Education's Academic Planning Council. This subcommittee may ask for additional information from the parties involved and/or may hold a meeting at which both parties will be asked to speak separately (i.e., not in the room at the same time).
4. The subcommittee will then make a written recommendation to the Dean of the School of Education, or their designee, who will render a decision. The dean or designee's written decision shall be made within 30 business days from the date when the written appeal was filed with the Senior Associate Dean. For undergraduate students, the dean or designee's decision is final.

Further appealing a School of Education decision – *graduate students only*

> Graduate students have the option to appeal decisions by the School of Education dean or designee by using the process detailed on the Graduate School's website (https://grad.wisc.edu/documents/grievances-and-appeals/).

Questions about these procedures can be directed to the School of Education Dean's Office, 377 Education Building, 1000 Bascom Mall, 608-262-1763.

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

# KINESIOLOGY: EXERCISE PHYSIOLOGY, MS

This is a named option in the Kinesiology, MS. (p. 1201) For more information, please see our program website (https://kinesiology.education.wisc.edu/academics/grad-program/).

Exercise Physiology is the study of the biological responses and adaptations to acute and chronic exercise. Research and graduate training at UW–Madison focuses on elucidating: 1) the physiological, biochemical, and molecular mechanisms underlying these processes; and 2) the influence of exercise on health and disease.

Dr. Diffee studies the regulation of contraction in skeletal and cardiac muscle and how this regulation is altered by perturbations such as exercise training, injury, or disease. Typical experiments involve measurement of contractile properties single skeletal muscle fibers and single cardiac myocytes and correlation of altered mechanical properties to changes in cell protein composition detected by biochemical and molecular biological techniques. Interaction with faculty and students from other departments (including Nutritional Sciences, Biochemistry, the School of Medicine, and the Institute on Aging) is encouraged by ongoing collaborative research efforts. The research of William Schrage's laboratory is focused on how blood flow is regulated in muscle and brain circulations. Specifically, Dr. Schrage is interested in how acute exercise or environmental stress like hypoxia influences blood flow and how this is impacted by obesity and metabolic syndrome. He measures blood flow using state-of-the-art technology including ultrasound and MRI. A key approach is to use pharmacologic tools to understand how blood flow is controlled, and how obesity changes which mechanisms change the ability to regulate blood flow under stress. Dr. Barnes focuses on how aging and exercise alter blood flow and blood pressure regulation. Her current projects focus on age-associated changes in cerebral blood flow, the sympathetic nervous system activity influences cerebral blood flow, and how these relate to the risk of cardiovascular disease and dementia.

The Exercise Physiology named option of the MS program is designed to provide the fundamental framework for understanding and conducting research in Exercise Physiology. In addition to coursework in Physiology, Statistics, and Research Methods, students pursue advanced study in Exercise Physiology. Many MS students have the opportunity to teach during their training. Graduates of the MS program often pursue further graduate training, usually in a PhD, MD or DO program. Other MS graduates immediately pursue a career in research, educational, or clinical settings.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 1 |
| Spring Deadline | September 1 |
| Summer Deadline | This program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Every applicant whose native language is not English, or whose undergraduate instruction was not exclusively in English, must provide an English proficiency test score earned within two years of the anticipated term of enrollment. Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

For admission, the Graduate School requires, as does the Kinesiology department, a minimum 3.0 GPA (on a 4.0=A scale) on the last 60 semester hours (or equivalent) of undergraduate coursework. An applicant must submit academic transcripts from each institution attended and a statement of reasons for graduate study. If a professor in the area of interest agrees to serve as the prospective student's advisor, then the department's graduate office recommends the applicant for admission to the Graduate School. Please consult the Kinesiology website (https://kinesiology.education.wisc.edu/graduate-admissions/kinesiology-graduate-admissions/) for further details of these requirements and procedures.

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# NAMED OPTION REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirements | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 15 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | n/a |
| Assessments and Examinations | Not required. |
| Language Requirements | No language requirements. |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Core** | | |
| KINES 773 | Cardiorespiratory Adaptions to Environment and Exercise | 3 |
| KINES 774 | Metabolic Responses to Exercise and Environmental Stress | 2 |
| STAT/F&W ECOL 571 | Statistical Methods for Bioscience I | 4 |
| KINES 900 | Seminar in Kinesiology [1] | 4 |
| KINES 953 | Human Biodynamics Seminar [2] | 1 |
| KINES 990 | Research or Thesis | 4 |
| KINES 991 | Research in Physical Activity-Theory and Design | 3 |
| **Suggested Electives** [3] | | **9** |
| ANAT&PHY 435 | Fundamentals of Human Physiology | |
| KINES 523 | Clinical Exercise Testing and Prescription for Health Professionals | |
| KINES 615 | Laboratory Techniques in Exercise Physiology | |
| **Total Credits** | | **30** |

1. All Kinesiology MS and PhD students are required to register for KINES 900 Seminar in Kinesiology for 1 credit each semester they are enrolled in the program, for a minimum of 4 credits.
2. Students should enroll in KINES 953 Human Biodynamics Seminar each time the course is offered.
3. Elective courses to meet the degree requirements are chosen in consultation with the advisor from this list or any other course numbered 300 or above on campus. Each candidate's program of formal course work and independent study is tailored in a personalized manner to accommodate the individual's research and career goals.

## POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# NAMED OPTION-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program approval, students are allowed to transfer no more than 14 credits of graduate coursework from other institutions. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

No credits from an other institution or UW-Madison undergraduate degree are allowed to transfer toward the degree.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Refer to the Graduate School: Advisor (https://policy.wisc.edu/library/UW-1232/) and Graduate School: Committees (Doctoral/Master's/MFA) (https://policy.wisc.edu/library/UW-1201/) policies.

Primary faculty mentor will be the main advisor. The Director of Graduate Studies and Graduate Program Manager will provide additional support and advising as needed.

## CREDITS PER TERM ALLOWED

15 credits

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

Within the Department, completion of required courses within two years of matriculation is considered satisfactory progress. See the Graduate Program Handbook link in Contact Information for more information.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)

  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
  - Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
  - Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
  - Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
  - Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
  - Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
  - Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
  - Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
  - Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

### School of Education Grievance Policy and Procedures

The following School of Education Student Grievance Policy and associated procedures are designed for use in response to individual student grievances regarding faculty or staff in the School of Education.

Any individual student who feels they have been treated unfairly by a School of Education faculty or staff member has the right to file a grievance about the treatment and receive a timely response addressing their concerns. Any student, undergraduate or graduate, may use these grievance procedures, except employees whose complaints are covered under other campus policies. The grievance may concern classroom treatment, mentoring or advising, program admission or continuation, course grades (study abroad grade complaints are handled through International Academic Programs (https://studyabroad.wisc.edu/)), or issues not covered by other campus policies or grievance procedures.

> For grievances regarding discrimination based on protected bases (https://compliance.wisc.edu/eo-complaint/) (i.e., race, color, national origin, sex, disability, age, etc.), contact the Office of Compliance (https://compliance.wisc.edu/eo-complaint/).
>
> For grievances or concerns regarding sexual harassment or sexual violence (including sexual assault, dating/domestic violence, stalking, and sexual exploitation), contact the Sexual Misconduct Resource and Response Program (https://compliance.wisc.edu/titleix/) within the Office of Compliance.
>
> For grievances that involve the behavior of a student, contact the Office of Student Conduct and Community Standards in the Dean of Students Office at https://conduct.students.wisc.edu/).

For grievances about, or directed at, faculty or staff in a School of Education department, unit, or program, students should follow these steps:

1. Students are strongly encouraged to first talk with the person against whom the concern is directed. Many issues can be settled informally at this level. If students are unable to resolve

concerns directly or without additional support, step 2 or 3 should be pursued.

2. If unresolved after taking or considering step 1:
   a. If the concern is directed against a teaching assistant (TA), and the student is not satisfied, the student should contact the TA's supervisor, who is usually the course professor. The course professor will attempt to resolve the concern informally.
   b. If the concern involves a non-TA instructor, staff member, professor, academic department, or School of Education office or unit, the student should contact the chair of the department or the director of the office or unit, or their designee. The chair or director, or their designee, will attempt to resolve the concern informally. If the concern is about the department chair or office/unit director, the student should consult the School of Education Senior Associate Dean for guidance.
3. If the concern remains unresolved after step 2, the student may submit a formal grievance to the chair or director in writing within 30 business days[1] of the alleged unfair treatment. To the fullest extent possible, a formal written grievance shall contain a clear and concise statement of the issue(s) involved and the relief sought.
4. On receipt of a written grievance, the chair or director will notify the person at whom the grievance is directed with a copy of the written grievance. The person at whom the complaint is directed may submit a written response, which would be shared with the student.
5. On receipt of a written grievance, the chair or director will refer the matter to a department, office, or unit committee comprised of at least two members. The committee may be an existing committee or one constituted for this purpose. The committee, or delegates from the committee, may meet with the parties involved and/or review any material either party shares with the committee.
6. The committee will provide a written description of the facts of the grievance and communicate recommendations to the department chair or office/unit head regarding how the grievance should be handled.
7. The chair or director will offer to meet with the student who made the grievance and also will provide a written decision to the student, including a description of any related action taken by the committee, within 30 business days of receiving the formal grievance.

[1] For the purpose of this policy, business days refers to those days when the University Offices are open and shall not include weekends, university holidays, spring recess, or the period from the last day of exams of fall semester instruction to the first day of spring semester instruction. All time limits may be modified by mutual consent of the parties involved.

If the grievance concerns an undergraduate course grade, the decision of the department chair after reviewing the committee's recommendations is final.

Other types of grievances may be appealed using the following procedures:

1. Both the student who filed the grievance or the person at whom the grievance was directed, if unsatisfied with the decision of the department, office or unit, have five (5) business days from receipt of the decision to contact the Senior Associate Dean, indicating the intention to appeal.
2. A written appeal must be filed with the Senior Associate Dean within 10 business days of the time the appealing party was notified of the initial resolution of the complaint.
3. On receipt of a written appeal, the Senior Associate Dean will convene a sub-committee of the School of Education's Academic Planning Council. This subcommittee may ask for additional information from the parties involved and/or may hold a meeting at which both parties will be asked to speak separately (i.e., not in the room at the same time).
4. The subcommittee will then make a written recommendation to the Dean of the School of Education, or their designee, who will render a decision. The dean or designee's written decision shall be made within 30 business days from the date when the written appeal was filed with the Senior Associate Dean. For undergraduate students, the dean or designee's decision is final.

Further appealing a School of Education decision – *graduate students only*

> Graduate students have the option to appeal decisions by the School of Education dean or designee by using the process detailed on the Graduate School's website (https://grad.wisc.edu/documents/grievances-and-appeals/).

Questions about these procedures can be directed to the School of Education Dean's Office, 377 Education Building, 1000 Bascom Mall, 608-262-1763.

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

# KINESIOLOGY: EXERCISE PSYCHOLOGY, MS

This is a named option in the Kinesiology, MS. (p. 1201)

For more information, please see our program website (https://kinesiology.education.wisc.edu/academics/grad-program/).

Exercise Psychology is the study of psychological responses and adaptations to acute and chronic physical activity. The graduate program at UW–Madison focuses on the psychobiological aspects of physical activity in both healthy and diseased populations. Research in the Exercise Psychology Laboratory has been generally concerned with quantifying the psychophysiological responses to exercise. Numerous behavioral methods have been used to determine affective and perceptual responses to exercise including the use of biofeedback, hypnosis, imagery, meditation, and traditional relaxation interventions such as autogenic training. More recently, the laboratory's focus has been on the psychophysiological aspects of pain, fatigue, and perceived exertion during and following exercise. These studies are being conducted in both healthy participants and patients with chronic pain and fatigue and are aimed at understanding the psychophysiological mechanisms that underlie the perceptual experience. Neuroimaging experiments using functional magnetic resonance imaging (fMRI) are also being conducted to determine neural responses related to pain, fatigue, and exercise.

Applicants for graduate study with specialization in exercise psychology are ordinarily only accepted where there is an interest in pursuing the PhD. Students in this area are trained in the theory and methods required for understanding the psychological and biological bases of behavior. Emphasis is placed upon the demonstration of competence in general psychology, exercise psychology, exercise science, statistics, and research design rather than completion of specific courses. Each candidate's program of formal coursework and independent study is tailored in a personalized manner to accommodate the individual's research and career goals.

This program is committed to providing graduate students with the best available training to prepare them for a variety of careers in academic, clinical, research, government, and other settings. Emphasis is on both extensive academic training in quantitative methods, kinesiology, and general psychology along with extensive research training in the area of exercise psychology. Students are expected to become creative scientists and to exhibit early and continuing commitment to research and scholarship. Most students have several publications in refereed journals to their credit before receiving their PhDs. While most of the graduates of this program are currently teaching and conducting research at the university level, some have elected to pursue clinical, administrative, and research careers in government, university, and commercial settings.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 1 |
| Spring Deadline | September 1 |
| Summer Deadline | This program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Every applicant whose native language is not English, or whose undergraduate instruction was not exclusively in English, must provide an English proficiency test score earned within two years of the anticipated term of enrollment. Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

For admission, the Graduate School requires, as does the Kinesiology department, a minimum 3.0 GPA (on a 4.0=A scale) on the last 60 semester hours (or equivalent) of undergraduate coursework. An applicant must submit academic transcripts from each institution attended and a statement of reasons for graduate study. If a professor in the area of interest agrees to serve as the prospective student's advisor, then the department's graduate office recommends the applicant for admission to the Graduate School. Please consult the Kinesiology website (https://kinesiology.education.wisc.edu/graduate-admissions/kinesiology-graduate-admissions/) for further details of these requirements and procedures.

## NAMED OPTION REQUIREMENTS

### MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

#### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

### CURRICULAR REQUIREMENTS

| Requirements | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 15 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | n/a |
| Assessments and Examinations | Not required. |
| Language Requirements | No language requirements. |

### REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Core** | | |
| KINES 900 | Seminar in Kinesiology [1] | 4 |
| KINES 990 | Research or Thesis | 4 |
| KINES 991 | Research in Physical Activity-Theory and Design | 3 |
| **Suggested Electives** | | **19** |
| There are no specific elective courses required of candidates in the Exercise Psychology named option. Electives courses to meet the degree requirements are chosen in consultation with the advisor. Each candidate's program of formal coursework and independent study is tailored in a personalized manner to accommodate the individual's research and career goals. | | |
| **Total Credits** | | **30** |

[1] All Kinesiology MS and PhD students are required to register for KINES 900 Seminar in Kinesiology for 1 credit each semester they are enrolled in the program, for a minimum of 4 credits.

# POLICIES

## GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

## NAMED OPTION-SPECIFIC POLICIES

### PRIOR COURSEWORK

#### Graduate Credits Earned at Other Institutions

With program approval, students are allowed to transfer no more than 14 credits of graduate coursework from other institutions. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

#### Undergraduate Credits Earned at Other Institutions or UW-Madison

No credits from an other institution or UW-Madison undergraduate degree are allowed to transfer toward the degree.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Refer to the Graduate School: Advisor (https://policy.wisc.edu/library/UW-1232/) and Graduate School: Committees (Doctoral/Master's/MFA) (https://policy.wisc.edu/library/UW-1201/) policies.

Primary faculty mentor will be the main advisor. The Director of Graduate Studies and Graduate Program Manager will provide additional support and advising as needed.

## CREDITS PER TERM ALLOWED

15 credits

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

Within the Department, completion of required courses within two years of matriculation is considered satisfactory progress. See the Graduate Program Handbook link in Contact Information for more information.

### School of Education Grievance Policy and Procedures

The following School of Education Student Grievance Policy and associated procedures are designed for use in response to individual student grievances regarding faculty or staff in the School of Education.

Any individual student who feels they have been treated unfairly by a School of Education faculty or staff member has the right to file a grievance about the treatment and receive a timely response addressing their concerns. Any student, undergraduate or graduate, may use these grievance procedures, except employees whose complaints are covered under other campus policies. The grievance may concern classroom treatment, mentoring or advising, program admission or continuation, course grades (study abroad grade complaints are handled through International Academic Programs (https://studyabroad.wisc.edu/)), or issues not covered by other campus policies or grievance procedures.

> For grievances regarding discrimination based on protected bases (https://compliance.wisc.edu/eo-complaint/) (i.e., race, color, national origin, sex, disability, age, etc.), contact the Office of Compliance (https://compliance.wisc.edu/eo-complaint/).
>
> For grievances or concerns regarding sexual harassment or sexual violence (including sexual assault, dating/domestic violence, stalking, and sexual exploitation), contact the Sexual Misconduct Resource and Response Program (https://compliance.wisc.edu/titleix/) within the Office of Compliance.
>
> For grievances that involve the behavior of a student, contact the Office of Student Conduct and Community Standards in the Dean of Students Office at https://conduct.students.wisc.edu/).

For grievances about, or directed at, faculty or staff in a School of Education department, unit, or program, students should follow these steps:

1. Students are strongly encouraged to first talk with the person against whom the concern is directed. Many issues can be settled informally at this level. If students are unable to resolve concerns directly or without additional support, step 2 or 3 should be pursued.
2. If unresolved after taking or considering step 1:
   a. If the concern is directed against a teaching assistant (TA), and the student is not satisfied, the student should contact the TA's supervisor, who is usually the course professor. The course professor will attempt to resolve the concern informally.
   b. If the concern involves a non-TA instructor, staff member, professor, academic department, or School of Education office or unit, the student should contact the chair of the department or the director of the office or unit, or their designee. The chair or director, or their designee, will attempt to resolve the concern informally. If the concern

is about the department chair or office/unit director, the student should consult the School of Education Senior Associate Dean for guidance.

3. If the concern remains unresolved after step 2, the student may submit a formal grievance to the chair or director in writing within 30 business days[1] of the alleged unfair treatment. To the fullest extent possible, a formal written grievance shall contain a clear and concise statement of the issue(s) involved and the relief sought.
4. On receipt of a written grievance, the chair or director will notify the person at whom the grievance is directed with a copy of the written grievance. The person at whom the complaint is directed may submit a written response, which would be shared with the student.
5. On receipt of a written grievance, the chair or director will refer the matter to a department, office, or unit committee comprised of at least two members. The committee may be an existing committee or one constituted for this purpose. The committee, or delegates from the committee, may meet with the parties involved and/or review any material either party shares with the committee.
6. The committee will provide a written description of the facts of the grievance and communicate recommendations to the department chair or office/unit head regarding how the grievance should be handled.
7. The chair or director will offer to meet with the student who made the grievance and also will provide a written decision to the student, including a description of any related action taken by the committee, within 30 business days of receiving the formal grievance.

[1] For the purpose of this policy, business days refers to those days when the University Offices are open and shall not include weekends, university holidays, spring recess, or the period from the last day of exams of fall semester instruction to the first day of spring semester instruction. All time limits may be modified by mutual consent of the parties involved.

If the grievance concerns an undergraduate course grade, the decision of the department chair after reviewing the committee's recommendations is final.

Other types of grievances may be appealed using the following procedures:

1. Both the student who filed the grievance or the person at whom the grievance was directed, if unsatisfied with the decision of the department, office or unit, have five (5) business days from receipt of the decision to contact the Senior Associate Dean, indicating the intention to appeal.
2. A written appeal must be filed with the Senior Associate Dean within 10 business days of the time the appealing party was notified of the initial resolution of the complaint.
3. On receipt of a written appeal, the Senior Associate Dean will convene a sub-committee of the School of Education's Academic Planning Council. This subcommittee may ask for additional information from the parties involved and/or may hold a meeting at which both parties will be asked to speak separately (i.e., not in the room at the same time).
4. The subcommittee will then make a written recommendation to the Dean of the School of Education, or their designee, who will render a decision. The dean or designee's written decision shall be made within 30 business days from the date when the written appeal was filed with the Senior Associate Dean. For undergraduate students, the dean or designee's decision is final.

Further appealing a School of Education decision – *graduate students only*

Graduate students have the option to appeal decisions by the School of Education dean or designee by using the process detailed on the Graduate School's website (https://grad.wisc.edu/documents/grievances-and-appeals/).

Questions about these procedures can be directed to the School of Education Dean's Office, 377 Education Building, 1000 Bascom Mall, 608-262-1763.

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

# KINESIOLOGY: MOTOR CONTROL AND BEHAVIOR, MS

This is a named option in the Kinesiology, MS. (p. 1201) For more information, please see our program website (https://kinesiology.education.wisc.edu/academics/grad-program/).

The graduate program in Motor Control and Behavior involves advanced study of the psychological and neurophysiological foundations of motor control, motor learning, motor development, and disorders of movement. The program emphasizes the development of a competent independent researcher and is designed to provide a thorough grounding in the area of motor performance, exposing the student to the underlying theoretical processes that influence the control, acquisition, and development of motor behavior. Students may focus specifically on control, learning, or developmental issues, or design their program to expose them to a broad range of study in motor behavior. The graduate student will work closely with their advisor in both formal and informal educational settings. The Motor Control and Behavior named option in the Kinesiology MS is designed toward 1) introducing the beginning graduate student to the field of Motor Control and Behavior, including the areas of the neural control of movement, motor learning, and motor development; and 2) preparing students for advanced PhD work.

Several laboratories (human, animal) are available for research in the area of Motor Control and Behavior. The Human Motor Behavior Laboratory (https://kinesiology.education.wisc.edu/research/motor-behavior-lab/) is an active research environment where faculty and students collaborate on projects aimed at gaining a better understanding of the planning and performance of simple and complex upper and lower limb activities in both natural and virtual environments. The Motor Systems Physiology Laboratory (https://kinesiology.education.wisc.edu/research/motor-systems-physiology-lab/) focuses on understanding the neural control of reaching to grasp, which is essential to primate motor behavior and strongly depends on cerebellar function. The Sensory Motor Integration Lab (SMIL) (https://kinesiology.education.wisc.edu/research/pickett-lab-smil/) focuses on improving the everyday lives of older adults through the implementation of physical activity interventions—delivered in-home via telehealth and through group classes held at community-based facilities.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 1 |
| Spring Deadline | September 1 |
| Summer Deadline | This program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Every applicant whose native language is not English, or whose undergraduate instruction was not exclusively in English, must provide an English proficiency test score earned within two years of the anticipated term of enrollment. Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

For admission, the Graduate School requires, as does the Kinesiology department, a minimum 3.0 GPA (on a 4.0=A scale) on the last 60 semester hours (or equivalent) of undergraduate coursework. An applicant must submit academic transcripts from each institution attended and a statement of reasons for graduate study. If a professor in the area of interest agrees to serve as the prospective student's advisor, then the department's graduate office recommends the applicant for admission to the Graduate School. Please consult the Kinesiology website (https://kinesiology.education.wisc.edu/graduate-admissions/kinesiology-graduate-admissions/) for further details of these requirements and procedures.

## FUNDING

# FUNDING

### GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

# REQUIREMENTS

## MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

## NAMED OPTION REQUIREMENTS

### MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

#### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

### CURRICULAR REQUIREMENTS

| Requirements | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 15 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | n/a |
| Assessments and Examinations | Not required. |
| Language Requirements | No language requirements. |

### REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Core** | | |
| KINES 900 | Seminar in Kinesiology [1] | 4 |
| KINES 990 | Research or Thesis | 4 |
| KINES 991 | Research in Physical Activity-Theory and Design | 3 |
| **Statistics courses (2 courses, chosen in consultation with advisor, example sequences below):** | | **6-8** |
| ED PSYCH 760 & ED PSYCH 761 | Statistical Methods Applied to Education I and Statistical Methods Applied to Education II | |
| STAT/ F&W ECOL 571 & STAT/ F&W ECOL 572 | Statistical Methods for Bioscience I and Statistical Methods for Bioscience II | |
| **Suggested Elective Courses [2]** | | **11-13** |
| KINES 713 | Neural Basis of Normal and Pathological Movement | |
| KINES 721 | Neural Basis for Movement | |
| KINES 861 | Principles of Motor Control and Learning | |
| KINES 951 | Seminar-Biomechanics | |
| KINES 961 | Seminar in Motor Control and Learning | |
| **Total Credits** | | **30** |

1 All Kinesiology MS and PhD students are required to register for KINES 900 Seminar in Kinesiology for 1 credit each semester they are enrolled in the program, for a minimum of 4 credits.

2 Elective courses to meet the degree requirements are chosen in consultation with the advisor from this list or any course numbered 300 or above on campus. Each candidate's program of formal course work and independent study is tailored in a personalized manner to accommodate the individual's research and career goals.

# POLICIES

## GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

## NAMED OPTION-SPECIFIC POLICIES

### PRIOR COURSEWORK

#### Graduate Credits Earned at Other Institutions

With program approval, students are allowed to transfer no more than 14 credits of graduate coursework from other institutions. Coursework earned

ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

No credits from an other institution or UW-Madison undergraduate degree are allowed to transfer toward the degree.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Refer to the Graduate School: Advisor (https://policy.wisc.edu/library/UW-1232/) and Graduate School: Committees (Doctoral/Master's/MFA) (https://policy.wisc.edu/library/UW-1201/) policies.

Primary faculty mentor will be the main advisor. The Director of Graduate Studies and Graduate Program Manager will provide additional support and advising as needed.

## CREDITS PER TERM ALLOWED

15 credits

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

Within the Department, completion of required courses within two years of matriculation is considered satisfactory progress. See the Graduate Program Handbook link in Contact Information for more information.

## GRIEVANCES AND APPEALS

  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

### School of Education Grievance Policy and Procedures

The following School of Education Student Grievance Policy and associated procedures are designed for use in response to individual student grievances regarding faculty or staff in the School of Education.

Any individual student who feels they have been treated unfairly by a School of Education faculty or staff member has the right to file a grievance about the treatment and receive a timely response addressing their concerns. Any student, undergraduate or graduate, may use these grievance procedures, except employees whose complaints are covered under other campus policies. The grievance may concern classroom treatment, mentoring or advising, program admission or continuation, course grades (study abroad grade complaints are handled through International Academic Programs (https://studyabroad.wisc.edu/)), or issues not covered by other campus policies or grievance procedures.

> For grievances regarding discrimination based on protected bases (https://compliance.wisc.edu/eo-complaint/) (i.e., race, color, national origin, sex, disability, age, etc.), contact the Office of Compliance (https://compliance.wisc.edu/eo-complaint/).
>
> For grievances or concerns regarding sexual harassment or sexual violence (including sexual assault, dating/domestic violence, stalking, and sexual exploitation), contact the Sexual Misconduct Resource and Response Program (https://compliance.wisc.edu/titleix/) within the Office of Compliance.
>
> For grievances that involve the behavior of a student, contact the Office of Student Conduct and Community Standards in the Dean of Students Office at https://conduct.students.wisc.edu/).

For grievances about, or directed at, faculty or staff in a School of Education department, unit, or program, students should follow these steps:

1. Students are strongly encouraged to first talk with the person against whom the concern is directed. Many issues can be settled informally at this level. If students are unable to resolve concerns directly or without additional support, step 2 or 3 should be pursued.
2. If unresolved after taking or considering step 1:
   a. If the concern is directed against a teaching assistant (TA), and the student is not satisfied, the student should contact the TA's supervisor, who is usually the course professor.

The course professor will attempt to resolve the concern informally.

b. If the concern involves a non-TA instructor, staff member, professor, academic department, or School of Education office or unit, the student should contact the chair of the department or the director of the office or unit, or their designee. The chair or director, or their designee, will attempt to resolve the concern informally. If the concern is about the department chair or office/unit director, the student should consult the School of Education Senior Associate Dean for guidance.

3. If the concern remains unresolved after step 2, the student may submit a formal grievance to the chair or director in writing within 30 business days[1] of the alleged unfair treatment. To the fullest extent possible, a formal written grievance shall contain a clear and concise statement of the issue(s) involved and the relief sought.
4. On receipt of a written grievance, the chair or director will notify the person at whom the grievance is directed with a copy of the written grievance. The person at whom the complaint is directed may submit a written response, which would be shared with the student.
5. On receipt of a written grievance, the chair or director will refer the matter to a department, office, or unit committee comprised of at least two members. The committee may be an existing committee or one constituted for this purpose. The committee, or delegates from the committee, may meet with the parties involved and/or review any material either party shares with the committee.
6. The committee will provide a written description of the facts of the grievance and communicate recommendations to the department chair or office/unit head regarding how the grievance should be handled.
7. The chair or director will offer to meet with the student who made the grievance and also will provide a written decision to the student, including a description of any related action taken by the committee, within 30 business days of receiving the formal grievance.

[1] For the purpose of this policy, business days refers to those days when the University Offices are open and shall not include weekends, university holidays, spring recess, or the period from the last day of exams of fall semester instruction to the first day of spring semester instruction. All time limits may be modified by mutual consent of the parties involved.

If the grievance concerns an undergraduate course grade, the decision of the department chair after reviewing the committee's recommendations is final.

Other types of grievances may be appealed using the following procedures:

1. Both the student who filed the grievance or the person at whom the grievance was directed, if unsatisfied with the decision of the department, office or unit, have five (5) business days from receipt of the decision to contact the Senior Associate Dean, indicating the intention to appeal.
2. A written appeal must be filed with the Senior Associate Dean within 10 business days of the time the appealing party was notified of the initial resolution of the complaint.
3. On receipt of a written appeal, the Senior Associate Dean will convene a sub-committee of the School of Education's Academic Planning Council. This subcommittee may ask for additional information from the parties involved and/or may hold a meeting at which both parties will be asked to speak separately (i.e., not in the room at the same time).
4. The subcommittee will then make a written recommendation to the Dean of the School of Education, or their designee, who will render a decision. The dean or designee's written decision shall be made within 30 business days from the date when the written appeal was filed with the Senior Associate Dean. For undergraduate students, the dean or designee's decision is final.

Further appealing a School of Education decision – *graduate students only*

Graduate students have the option to appeal decisions by the School of Education dean or designee by using the process detailed on the Graduate School's website (https://grad.wisc.edu/documents/grievances-and-appeals/).

Questions about these procedures can be directed to the School of Education Dean's Office, 377 Education Building, 1000 Bascom Mall, 608-262-1763.

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

# KINESIOLOGY: OCCUPATIONAL SCIENCE, MS

This is a named option in the Kinesiology, MS. (p. 1201) For more information, please see our program website (https://kinesiology.education.wisc.edu/academics/grad-program/).

As occupational scientists, our faculty and graduate students explore theories of occupational engagement and conduct research to expand the body of knowledge supporting the practice of occupational therapy. Occupational Science integrates theories and practices from the disciplines of anatomy, biomechanics, motor control, neuroscience, psychology, and sociology to enhance our understanding of how engagement in the activities of daily life promotes human health and well-being. The Occupational Science named option of the Kinesiology MS emphasizes the understanding of theories underlying occupational science. Students conduct research and develop advanced knowledge in a specific area of concentration within occupational science.

All faculty members have established laboratories for conducting research in Occupational Science, some of which are free-standing and others of which are located in research centers around campus. Opportunities abound for engaging in collaborative work with faculty from other disciplines such as kinesiology, biomedical engineering, psychology, nursing, population health, sociology, human ecology, special education, or rehabilitation psychology. A full list and description of the research labs, hosted by the Occupational Therapy Program, can be found on the department's research page (https://kinesiology.education.wisc.edu/research/).

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements (https://grad.wisc.edu/apply/requirements/) *of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 1 |
| Spring Deadline | September 1 |
| Summer Deadline | This program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Every applicant whose native language is not English, or whose undergraduate instruction was not exclusively in English, must provide an English proficiency test score earned within two years of the anticipated term of enrollment. Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

For admission, the Graduate School requires, as does the Kinesiology department, a minimum 3.0 GPA (on a 4.0=A scale) on the last 60 semester hours (or equivalent) of undergraduate coursework. An applicant must submit academic transcripts from each institution attended and a statement of reasons for graduate study. If a professor in the area of interest agrees to serve as the prospective student's advisor, then the department's graduate office recommends the applicant for admission to the Graduate School. Please consult the Kinesiology website (https://kinesiology.education.wisc.edu/graduate-admissions/kinesiology-graduate-admissions/) for further details of these requirements and procedures.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirements | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 15 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | n/a |
| Assessments and Examinations | Not required. |
| Language Requirements | No language requirements |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Core** | | |
| KINES 785 | Human Occupation and Health | 3 |
| KINES 885 | Seminar in Occupation and Health (minimum of 2 semesters required) [1] | 2 |
| KINES 991 | Research in Physical Activity-Theory and Design | 3 |
| KINES 900 | Seminar in Kinesiology [2] | 4 |
| KINES 990 | Research or Thesis | 4 |
| **Statistics (two courses required, chosen in consultation with advisor.) Example sequence below:** | | **6-8** |
| ED PSYCH 760 & ED PSYCH 761 | Statistical Methods Applied to Education I and Statistical Methods Applied to Education II | |
| **Electives [3]** | | **6-8** |
| Elective courses may be Kinesiology courses not chosen as required courses or courses in related fields (i.e. Psychology, Neuroscience). Students are strongly encouraged to select 2-3 courses in a concentration area. (Examples: Child & Family Studies, Global Health, Disability Studies, Public Health, Patient Advocacy) | | |
| **Total Credits** | | **30** |

1. Students are required to take KINES 885 a minimum of 2 times, for 1 credit each time.
2. All Kinesiology MS and PhD students are required to register for KINES 900 Seminar in Kinesiology for 1 credit each semester they are enrolled in the program, for a minimum of 4 credits.
3. Elective courses to meet the degree requirements are chosen in consultation with the advisor from this list or any other course numbered 300 or above on campus. Each candidate's program of formal course work and independent study is tailored in a personalized manner to accommodate the individual's research and career goals.

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# NAMED OPTION-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program approval, students are allowed to transfer no more than 14 credits of graduate coursework from other institutions. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

No credits from an other institution or UW–Madison undergraduate degree are allowed to transfer toward the degree.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Refer to the Graduate School: Advisor (https://policy.wisc.edu/library/UW-1232/) and Graduate School: Committees (Doctoral/Master's/MFA) (https://policy.wisc.edu/library/UW-1201/) policies.

Primary faculty mentor will be the main advisor. The Director of Graduate Studies and Graduate Program Manager will provide additional support and advising as needed.

## CREDITS PER TERM ALLOWED

15 credits

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

Within the Department, completion of required courses within two years of matriculation is considered satisfactory progress. See the Graduate Program Handbook link in Contact Information for more information.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

### School of Education Grievance Policy and Procedures

The following School of Education Student Grievance Policy and associated procedures are designed for use in response to individual student grievances regarding faculty or staff in the School of Education.

Any individual student who feels they have been treated unfairly by a School of Education faculty or staff member has the right to file a grievance about the treatment and receive a timely response addressing their concerns. Any student, undergraduate or graduate, may use these grievance procedures, except employees whose complaints are covered under other campus policies. The grievance may concern classroom treatment, mentoring or advising, program admission or continuation, course grades (study abroad grade complaints are handled through International Academic Programs (https://studyabroad.wisc.edu/)), or issues not covered by other campus policies or grievance procedures.

> For grievances regarding discrimination based on protected bases (https://compliance.wisc.edu/eo-complaint/) (i.e., race, color, national origin, sex, disability, age, etc.), contact the Office of Compliance (https://compliance.wisc.edu/eo-complaint/).
>
> For grievances or concerns regarding sexual harassment or sexual violence (including sexual assault, dating/domestic violence, stalking, and sexual exploitation), contact the Sexual Misconduct Resource and Response Program (https://compliance.wisc.edu/titleix/) within the Office of Compliance.
>
> For grievances that involve the behavior of a student, contact the Office of Student Conduct and Community Standards in the Dean of Students Office at https://conduct.students.wisc.edu/).

For grievances about, or directed at, faculty or staff in a School of Education department, unit, or program, students should follow these steps:

1. Students are strongly encouraged to first talk with the person against whom the concern is directed. Many issues can be settled informally at this level. If students are unable to resolve concerns directly or without additional support, step 2 or 3 should be pursued.
2. If unresolved after taking or considering step 1:
   a. If the concern is directed against a teaching assistant (TA), and the student is not satisfied, the student should contact the TA's supervisor, who is usually the course professor. The course professor will attempt to resolve the concern informally.
   b. If the concern involves a non-TA instructor, staff member, professor, academic department, or School of Education office or unit, the student should contact the chair of the department or the director of the office or unit, or their designee. The chair or director, or their designee, will attempt to resolve the concern informally. If the concern is about the department chair or office/unit director, the student should consult the School of Education Senior Associate Dean for guidance.
3. If the concern remains unresolved after step 2, the student may submit a formal grievance to the chair or director in writing within

30 business days[1] of the alleged unfair treatment. To the fullest extent possible, a formal written grievance shall contain a clear and concise statement of the issue(s) involved and the relief sought.

4. On receipt of a written grievance, the chair or director will notify the person at whom the grievance is directed with a copy of the written grievance. The person at whom the complaint is directed may submit a written response, which would be shared with the student.
5. On receipt of a written grievance, the chair or director will refer the matter to a department, office, or unit committee comprised of at least two members. The committee may be an existing committee or one constituted for this purpose. The committee, or delegates from the committee, may meet with the parties involved and/or review any material either party shares with the committee.
6. The committee will provide a written description of the facts of the grievance and communicate recommendations to the department chair or office/unit head regarding how the grievance should be handled.
7. The chair or director will offer to meet with the student who made the grievance and also will provide a written decision to the student, including a description of any related action taken by the committee, within 30 business days of receiving the formal grievance.

[1] For the purpose of this policy, business days refers to those days when the University Offices are open and shall not include weekends, university holidays, spring recess, or the period from the last day of exams of fall semester instruction to the first day of spring semester instruction. All time limits may be modified by mutual consent of the parties involved.

If the grievance concerns an undergraduate course grade, the decision of the department chair after reviewing the committee's recommendations is final.

Other types of grievances may be appealed using the following procedures:

1. Both the student who filed the grievance or the person at whom the grievance was directed, if unsatisfied with the decision of the department, office or unit, have five (5) business days from receipt of the decision to contact the Senior Associate Dean, indicating the intention to appeal.
2. A written appeal must be filed with the Senior Associate Dean within 10 business days of the time the appealing party was notified of the initial resolution of the complaint.
3. On receipt of a written appeal, the Senior Associate Dean will convene a sub-committee of the School of Education's Academic Planning Council. This subcommittee may ask for additional information from the parties involved and/or may hold a meeting at which both parties will be asked to speak separately (i.e., not in the room at the same time).
4. The subcommittee will then make a written recommendation to the Dean of the School of Education, or their designee, who will render a decision. The dean or designee's written decision shall be made within 30 business days from the date when the written appeal was filed with the Senior Associate Dean. For undergraduate students, the dean or designee's decision is final.

Further appealing a School of Education decision – *graduate students only*

Graduate students have the option to appeal decisions by the School of Education dean or designee by using the process detailed on the Graduate School's website (https://grad.wisc.edu/documents/grievances-and-appeals/).

Questions about these procedures can be directed to the School of Education Dean's Office, 377 Education Building, 1000 Bascom Mall, 608-262-1763.

# PROFESSIONAL DEVELOPMENT

## PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

# KINESIOLOGY: PHYSICAL ACTIVITY EPIDEMIOLOGY, MS

This is a named option in the Kinesiology, MS. (p. 1201) For more information, please see our program website (https://kinesiology.education.wisc.edu/academics/grad-program/).

Physical activity epidemiology deals with the frequency and patterns of physical activity in the population and the relationship between physical activity and health and disease. The named option in Physical Activity Epidemiology provides students with advanced study in physical activity measurement issues, study design, relationships of physical activity with specific health and disease states, and approaches to physical activity promotion. Graduate study in this area covers epidemiologic and statistical courses that provide background in population-level study design and analysis as well as electives related to physical activity and public health. The Physical Activity Epidemiology named option in the Kinesiology MS is designed to 1) introduce the beginning graduate student to population-based studies of physical activity and health and disease outcomes, and 2) prepare students for advanced PhD work.

Several laboratories conduct research in the area of Physical Activity Epidemiology. The Wisconsin Physical Activity Epidemiology Laboratory (https://www.lisacadmusbertram.com/) is run by Dr. Lisa Cadmus-Bertram. Research efforts in this laboratory focuses on physical activity measurement, the role of physical activity in chronic disease management, and the development and evaluation of technology-supported physical activity promotion interventions.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 1 |
| Spring Deadline | September 1 |
| Summer Deadline | This program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Every applicant whose native language is not English, or whose undergraduate instruction was not exclusively in English, must provide an English proficiency test score earned within two years of the anticipated term of enrollment. Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

For admission, the Graduate School requires, as does the Kinesiology department, a minimum 3.0 GPA (on a 4.0=A scale) on the last 60 semester hours (or equivalent) of undergraduate coursework. An applicant must submit academic transcripts from each institution attended and a statement of reasons for graduate study. If a professor in the area of interest agrees to serve as the prospective student's advisor, then the department's graduate office recommends the applicant for admission to the Graduate School. Please consult the Kinesiology website (https://kinesiology.education.wisc.edu/graduate-admissions/kinesiology-graduate-admissions/) for further details of these requirements and procedures.

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# NAMED OPTION REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirements | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 15 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | n/a |
| Assessments and Examinations | Not required. |
| Language Requirements | No language requirements. |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Core** | | |
| KINES/ POP HLTH 791 | Physical Activity Epidemiology | 3 |
| KINES/ POP HLTH 955 | Seminar - Physical Activity Epidemiology | 1 |

| POP HLTH 798 | Epidemiologic Methods | 3 |
| KINES 991 | Research in Physical Activity-Theory and Design | 3 |
| KINES 990 | Research or Thesis | 4 |
| KINES 900 | Seminar in Kinesiology [1] | 4 |
| **Statistics (two courses required)** | | |
| Complete a minimum of 6 credits. Examples provided, but courses are chosen in consultation with advisor. | | 6 |
| POP HLTH/ B M I 552 | Regression Methods for Population Health | |
| POP HLTH/ B M I 651 | Advanced Regression Methods for Population Health | |
| STAT/B M I 541 | Introduction to Biostatistics | |
| STAT/B M I 741 | Survival Analysis Theory and Methods | |
| CSCS 812 | Mixed-Methods in Community-Based Research | |
| **Suggested Electives [2]** | | |
| Complete a minimum of 3 credits. | | 3 |
| KINES 600 | Advanced Exercise Psychology | |
| CSCS 811 | Community-Based Research: Theory and Practice | |
| NURSING 702 | Health Promotion and Disease Prevention in Diverse Communities | |
| POP HLTH 750 | Cancer Epidemiology | |
| POP HLTH 784 | Public Health Surveillance and Analytics | |
| POP HLTH 794 | Biological Basis of Population Health | |
| POP HLTH 795 | Principles of Population Health Sciences | |
| STAT 303 | R for Statistics I | |
| STAT 304 | R for Statistics II | |
| STAT 433 | Data Science with R | |
| STAT/B M I 542 | Introduction to Clinical Trials I | |
| **Total Credits** | | **30** |

1 All Kinesiology MS and PhD students are required to register for KINES 900 Seminar in Kinesiology for 1 credit each semester they are enrolled in the program, for a minimum of 4 credits.

2 Elective courses to meet the degree requirements are chosen in consultation with the advisor from this list or any other course numbered 300 or above on campus. Each candidate's program of formal course work and independent study is tailored in a personalized manner to accommodate the individual's research and career goals.

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# NAMED OPTION-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program approval, students are allowed to transfer no more than 14 credits of graduate coursework from other institutions. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

No credits from an other institution or UW–Madison undergraduate degree are allowed to transfer toward the degree.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Refer to the Graduate School: Advisor (https://policy.wisc.edu/library/UW-1232/) and Graduate School: Committees (Doctoral/Master's/MFA) (https://policy.wisc.edu/library/UW-1201/) policies.

Primary faculty mentor will be the main advisor. The Director of Graduate Studies and Graduate Program Manager will provide additional support and advising as needed.

## CREDITS PER TERM ALLOWED

15 credits

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

Within the Department, completion of required courses within two years of matriculation is considered satisfactory progress. See the Graduate Program Handbook link in Contact Information for more information.

- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

### School of Education Grievance Policy and Procedures

The following School of Education Student Grievance Policy and associated procedures are designed for use in response to individual student grievances regarding faculty or staff in the School of Education.

Any individual student who feels they have been treated unfairly by a School of Education faculty or staff member has the right to file a grievance about the treatment and receive a timely response addressing their concerns. Any student, undergraduate or graduate, may use these grievance procedures, except employees whose complaints are covered under other campus policies. The grievance may concern classroom treatment, mentoring or advising, program admission or continuation, course grades (study abroad grade complaints are handled through International Academic Programs (https://studyabroad.wisc.edu/)), or issues not covered by other campus policies or grievance procedures.

> For grievances regarding discrimination based on protected bases (https://compliance.wisc.edu/eo-complaint/) (i.e., race, color, national origin, sex, disability, age, etc.), contact the Office of Compliance (https://compliance.wisc.edu/eo-complaint/).
>
> For grievances or concerns regarding sexual harassment or sexual violence (including sexual assault, dating/domestic violence, stalking, and sexual exploitation), contact the Sexual Misconduct Resource and Response Program (https://compliance.wisc.edu/titleix/) within the Office of Compliance.
>
> For grievances that involve the behavior of a student, contact the Office of Student Conduct and Community Standards in the Dean of Students Office at https://conduct.students.wisc.edu/).

For grievances about, or directed at, faculty or staff in a School of Education department, unit, or program, students should follow these steps:

1. Students are strongly encouraged to first talk with the person against whom the concern is directed. Many issues can be settled informally at this level. If students are unable to resolve concerns directly or without additional support, step 2 or 3 should be pursued.
2. If unresolved after taking or considering step 1:
   a. If the concern is directed against a teaching assistant (TA), and the student is not satisfied, the student should contact the TA's supervisor, who is usually the course professor. The course professor will attempt to resolve the concern informally.
   b. If the concern involves a non-TA instructor, staff member, professor, academic department, or School of Education office or unit, the student should contact the chair of the

department or the director of the office or unit, or their designee. The chair or director, or their designee, will attempt to resolve the concern informally. If the concern is about the department chair or office/unit director, the student should consult the School of Education Senior Associate Dean for guidance.

3. If the concern remains unresolved after step 2, the student may submit a formal grievance to the chair or director in writing within 30 business days[1] of the alleged unfair treatment. To the fullest extent possible, a formal written grievance shall contain a clear and concise statement of the issue(s) involved and the relief sought.
4. On receipt of a written grievance, the chair or director will notify the person at whom the grievance is directed with a copy of the written grievance. The person at whom the complaint is directed may submit a written response, which would be shared with the student.
5. On receipt of a written grievance, the chair or director will refer the matter to a department, office, or unit committee comprised of at least two members. The committee may be an existing committee or one constituted for this purpose. The committee, or delegates from the committee, may meet with the parties involved and/or review any material either party shares with the committee.
6. The committee will provide a written description of the facts of the grievance and communicate recommendations to the department chair or office/unit head regarding how the grievance should be handled.
7. The chair or director will offer to meet with the student who made the grievance and also will provide a written decision to the student, including a description of any related action taken by the committee, within 30 business days of receiving the formal grievance.

[1] For the purpose of this policy, business days refers to those days when the University Offices are open and shall not include weekends, university holidays, spring recess, or the period from the last day of exams of fall semester instruction to the first day of spring semester instruction. All time limits may be modified by mutual consent of the parties involved.

If the grievance concerns an undergraduate course grade, the decision of the department chair after reviewing the committee's recommendations is final.

Other types of grievances may be appealed using the following procedures:

1. Both the student who filed the grievance or the person at whom the grievance was directed, if unsatisfied with the decision of the department, office or unit, have five (5) business days from receipt of the decision to contact the Senior Associate Dean, indicating the intention to appeal.
2. A written appeal must be filed with the Senior Associate Dean within 10 business days of the time the appealing party was notified of the initial resolution of the complaint.
3. On receipt of a written appeal, the Senior Associate Dean will convene a sub-committee of the School of Education's Academic Planning Council. This subcommittee may ask for additional information from the parties involved and/or may hold a meeting at which both parties will be asked to speak separately (i.e., not in the room at the same time).
4. The subcommittee will then make a written recommendation to the Dean of the School of Education, or their designee, who will render a decision. The dean or designee's written decision shall be made within 30 business days from the date when the written appeal was filed with the Senior Associate Dean. For undergraduate students, the dean or designee's decision is final.

Further appealing a School of Education decision – *graduate students only*

Graduate students have the option to appeal decisions by the School of Education dean or designee by using the process detailed on the Graduate School's website (https://grad.wisc.edu/documents/grievances-and-appeals/).

Questions about these procedures can be directed to the School of Education Dean's Office, 377 Education Building, 1000 Bascom Mall, 608-262-1763.

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

# KINESIOLOGY, PHD

The Department of Kinesiology's mission is to create, interpret, transmit, and apply knowledge related to movement, exercise, and human occupation with the ultimate goal of enhancing human health, productivity, and quality of life.

The PhD degree in Kinesiology can be pursued through one of its named options. These named options are formal sub-majors documented on the transcript.

- Biomechanics (p. 1232)
- Exercise Physiology (p. 1236)
- Exercise Psychology (p. 1241)
- Motor Control and Behavior (p. 1245)
- Occupational Science (p. 1249)
- Physical Activity Epidemiology (p. 1254)

## ADMISSIONS

# ADMISSIONS

Students apply to the PhD in Kinesiology through one of the named options:

- Kinesiology: Physical Activity Epidemiology, PhD (p. 1254)
- Kinesiology: Exercise Physiology, PhD (p. 1236)
- Kinesiology: Exercise Psychology, PhD (p. 1241)
- Kinesiology: Occupational Science, PhD (p. 1249)
- Kinesiology: Biomechanics, PhD (p. 1232)
- Kinesiology: Motor Control and Behavior, PhD (p. 1245)

## FUNDING

# FUNDING

### GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

### PROGRAM RESOURCES

Prospective students should see the program website (https://kinesiology.education.wisc.edu/tuition-and-financial-support/) for funding information.

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

### CURRICULAR REQUIREMENTS

| Requirements | Detail |
|---|---|
| Minimum Credit Requirement | 51 credits |
| Minimum Residence Credit Requirement | 32 credits |
| Minimum Graduate Coursework Requirement | 26 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | See Named Options for policy information. |
| Other Grade Requirements | See Named Options for policy information. |
| Assessments and Examinations | See Named Options for policy information. |
| Language Requirements | No language requirements. |

# NAMED OPTIONS

A named option is a formally documented sub-major within an academic major program. Named options appear on the transcript with degree conferral. Students pursuing the PhD in Kinesiology must select one of the following named options:

View as listView as grid

- **KINESIOLOGY: BIOMECHANICS, PHD (P. 1232)**
- **KINESIOLOGY: EXERCISE PHYSIOLOGY, PHD (P. 1236)**
- **KINESIOLOGY: EXERCISE PSYCHOLOGY, PHD (P. 1241)**
- **KINESIOLOGY: MOTOR CONTROL AND BEHAVIOR, PHD (P. 1245)**
- **KINESIOLOGY: OCCUPATIONAL SCIENCE, PHD (P. 1249)**
- **KINESIOLOGY: PHYSICAL ACTIVITY EPIDEMIOLOGY, PHD (P. 1254)**

## POLICIES

# POLICIES

Students should refer to one of the named options for policy information:

- Kinesiology: Physical Activity Epidemiology, PhD (p. 1254)
- Kinesiology: Exercise Physiology, PhD (p. 1236)
- Kinesiology: Exercise Psychology, PhD (p. 1241)
- Kinesiology: Occupational Science, PhD (p. 1249)
- Kinesiology: Biomechanics, PhD (p. 1232)
- Kinesiology: Motor Control and Behavior, PhD (p. 1245)

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Demonstrate academic mastery in at least one of the broad areas of specialization represented in the Department of Kinesiology.
2. Demonstrate a broad understanding of major current and past theories, research findings, methodologies, and techniques in their area of specialization both orally and in writing.
3. Retrieve and examine scientific literature, evaluate evidence for and against hypotheses, identify knowledge gaps, strengths and weaknesses in existing literature, synthesize knowledge, and develop conclusions.
4. Formulate ideas, concepts, designs and/or techniques beyond the current boundaries of knowledge with their area of specialization.
5. Demonstrate a broad knowledge of the field of kinesiology extending beyond their area of specialization.
6. Develop and complete original research that makes a substantive contribution in advancing their area of specialization.
7. Develop testable hypotheses and predictions for their own realistic and feasible research projects.
8. Conduct independent research and analyze and interpret resulting data.
9. Clearly communicate their ideas in both oral and written form through the preparation and defense of a dissertation.
10. Foster ethical and professional conduct.
11. Use scientific rigor when designing experiments, collecting and analyzing data, interpreting and reporting results.

# KINESIOLOGY: BIOMECHANICS, PHD

This is a named option in the Kinesiology, PhD. (p. 1231) For more information, please see our program website (https://kinesiology.education.wisc.edu/academics/grad-program/).

Biomechanics is the application of mechanics to biological systems. Within the broad field of biomechanics, specific areas of study at UW–Madison include: tissue mechanics, neuro-muscular control, human performance, sports performance, injury, rehabilitation, and limb dynamics. The program equips students to apply the tools of engineering analysis to biological systems from the cellular to the whole-body level with career objectives in academia, health care, and sports science. Elective coursework within the program allows students to pursue individual interests such as physiological adaptations to mechanical stimuli or computer modeling. Students generally have the opportunity to teach during their training.

The PhD degree is designed to prepare students for independent research and teaching. Formal training includes coursework in some of the following areas: math, statistics, physiology, mechanics, biomechanics, motor control, injury biomechanics, and injury epidemiology. The wide range of courses offered at UW–Madison allows the student to tailor a curriculum that fits their individual interests. Students conduct independent research throughout their training which will be summarized in their dissertation. Presentations are also expected to be made at national scientific meetings and in peer-reviewed journals. Graduates generally pursue additional training (post-doctoral training) and go on to establish careers in academia or industrial settings.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 1 |
| Spring Deadline | September 1 |

| | |
|---|---|
| Summer Deadline | This program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Every applicant whose native language is not English, or whose undergraduate instruction was not exclusively in English, must provide an English proficiency test score earned within two years of the anticipated term of enrollment. Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

For admission, the Graduate School requires, as does the Kinesiology department, a minimum 3.0 GPA (on a 4.0=A scale) on the last 60 semester hours (or equivalent) of undergraduate coursework. An applicant must submit academic transcripts from each institution attended and a statement of reasons for graduate study. The statement should provide specific details on why the applicant names this named option. If a professor in the area of specialization agrees to serve as the prospective student's advisor, then the department's graduate office recommends the applicant for admission to the Graduate School. Please consult the Kinesiology website (https://kinesiology.education.wisc.edu/graduate-admissions/kinesiology-graduate-admissions/) for further details of these requirements and procedures.

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# NAMED OPTION REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirements | Detail |
|---|---|
| Minimum Credit Requirement | 51 credits |
| Minimum Residence Credit Requirement | 32 credits |
| Minimum Graduate Coursework Requirement | 26 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | n/a |
| Assessments and Examinations | PhD students must:<br><br>1. pass preliminary exams (http://grad.wisc.edu/acadpolicy/#preliminaryexaminations) administered by a three member faculty committee; and<br>2. successfully propose and defend a dissertation before a five-member committee. |
| Language Requirements | No language requirements. |
| Graduate School Breadth Requirement | A doctoral minor or graduate/professional certificate is not required due to the broad areas of inquiry within Kinesiology. To ensure the breadth of study requirement is achieved, students are required to complete a minimum of two graduate level courses (at least two credits each) in Kinesiology, outside of their named option coursework. |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Core** | | |
| KINES 618 | Biomechanics | 2 |

| | | |
|---|---|---|
| KINES 951 | Seminar-Biomechanics | 2 |
| KINES 900 | Seminar in Kinesiology [1] | 4 |
| KINES 990 | Research or Thesis | 4 |
| KINES 991 | Research in Physical Activity-Theory and Design | 3 |
| **Statistics** | | |
| Examples provided, but courses are chosen in consulation with advisor | | 3-4 |
| STAT/ F&W ECOL 571 | Statistical Methods for Bioscience I | |
| STAT 575 | Statistical Methods for Spatial Data | |
| ED PSYCH 760 | Statistical Methods Applied to Education I | |
| ED PSYCH 761 | Statistical Methods Applied to Education II | |
| **General Field Requirement** | | **4-6** |
| At least two graduate level courses of at least two credits each in Kinesiology, outside the Biomechanics area. The following courses will not be applied toward meeting the breadth requirement: KINES 699, 900, 990, 991, 999. [2] | | |
| **Suggested Electives (chosen in consultation with advisor)** | | |
| Students take as many electives as needed to reach the total credit minimum. | | 26-29 |
| KINES 614 | Biological Factors Influencing Exercise Performance | |
| KINES 721 | Neural Basis for Movement | |
| KINES 861 | Principles of Motor Control and Learning | |
| KINES 961 | Seminar in Motor Control and Learning | |
| **Total Credits** | | **51** |

[1] All Kinesiology MS and PhD students are required to register for KINES 900 Seminar in Kinesiology for 1 credit each semester they are enrolled in the program, for a minimum of 4 credits.

[2] Courses within the biomechanics area include KINES 618 Biomechanics and KINES 951 Seminar-Biomechanics

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# NAMED OPTION-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program approval, students are allowed to transfer no more than 18 credits of graduate coursework from other institutions. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

No credits from an other institution UW–Madison undergraduate degree are allowed to transfer toward the degree.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW-Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Refer to the Graduate School: Advisor (https://policy.wisc.edu/library/UW-1232/) and Graduate School: Committees (Doctoral/Master's/MFA) (https://policy.wisc.edu/library/UW-1201/) policies, except the dissertation committee must have a minimum of five members. .

PhD students work with two committees during their studies.

1. Preliminary exams Committee (three graduate faculty members)
2. Dissertation committee (five members)
   a. Proposal committee
   b. Defense committee

Ordinarily the proposal and defense committees have the same membership. Committee members are selected by the student in consultation with the faculty advisor.

## CREDITS PER TERM ALLOWED

15 credits

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

Within the Department, completion of required courses and passing preliminary exams within three years of starting the PhD program is considered satisfactory progress. See the Graduate Program Handbook link in Contact Information for more information.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## School of Education Grievance Policy and Procedures

The following School of Education Student Grievance Policy and associated procedures are designed for use in response to individual student grievances regarding faculty or staff in the School of Education.

Any individual student who feels they have been treated unfairly by a School of Education faculty or staff member has the right to file a grievance about the treatment and receive a timely response addressing their concerns. Any student, undergraduate or graduate, may use these grievance procedures, except employees whose complaints are covered under other campus policies. The grievance may concern classroom treatment, mentoring or advising, program admission or continuation, course grades (study abroad grade complaints are handled through International Academic Programs (https://studyabroad.wisc.edu/)), or issues not covered by other campus policies or grievance procedures.

> For grievances regarding discrimination based on protected bases (https://compliance.wisc.edu/eo-complaint/) (i.e., race, color, national origin, sex, disability, age, etc.), contact the Office of Compliance (https://compliance.wisc.edu/eo-complaint/).
>
> For grievances or concerns regarding sexual harassment or sexual violence (including sexual assault, dating/domestic violence, stalking, and sexual exploitation), contact the Sexual Misconduct Resource and Response Program (https://compliance.wisc.edu/titleix/) within the Office of Compliance.
>
> For grievances that involve the behavior of a student, contact the Office of Student Conduct and Community Standards in the Dean of Students Office at https://conduct.students.wisc.edu/).

For grievances about, or directed at, faculty or staff in a School of Education department, unit, or program, students should follow these steps:

1. Students are strongly encouraged to first talk with the person against whom the concern is directed. Many issues can be settled informally at this level. If students are unable to resolve concerns directly or without additional support, step 2 or 3 should be pursued.
2. If unresolved after taking or considering step 1:
   a. If the concern is directed against a teaching assistant (TA), and the student is not satisfied, the student should contact the TA's supervisor, who is usually the course professor. The course professor will attempt to resolve the concern informally.
   b. If the concern involves a non-TA instructor, staff member, professor, academic department, or School of Education office or unit, the student should contact the chair of the department or the director of the office or unit, or their designee. The chair or director, or their designee, will attempt to resolve the concern informally. If the concern is about the department chair or office/unit director, the student should consult the School of Education Senior Associate Dean for guidance.
3. If the concern remains unresolved after step 2, the student may submit a formal grievance to the chair or director in writing within 30 business days[1] of the alleged unfair treatment. To the fullest extent possible, a formal written grievance shall contain a clear and concise statement of the issue(s) involved and the relief sought.
4. On receipt of a written grievance, the chair or director will notify the person at whom the grievance is directed with a copy of the written grievance. The person at whom the complaint is directed may submit a written response, which would be shared with the student.
5. On receipt of a written grievance, the chair or director will refer the matter to a department, office, or unit committee comprised of at least two members. The committee may be an existing committee or one constituted for this purpose. The committee, or delegates from the committee, may meet with the parties involved and/or review any material either party shares with the committee.
6. The committee will provide a written description of the facts of the grievance and communicate recommendations to the department chair or office/unit head regarding how the grievance should be handled.
7. The chair or director will offer to meet with the student who made the grievance and also will provide a written decision to the student, including a description of any related action taken by the committee, within 30 business days of receiving the formal grievance.

[1] For the purpose of this policy, business days refers to those days when the University Offices are open and shall not include weekends, university holidays, spring recess, or the period from the last day of exams of fall semester instruction to the first day of spring semester

instruction. All time limits may be modified by mutual consent of the parties involved.

If the grievance concerns an undergraduate course grade, the decision of the department chair after reviewing the committee's recommendations is final.

Other types of grievances may be appealed using the following procedures:

1. Both the student who filed the grievance or the person at whom the grievance was directed, if unsatisfied with the decision of the department, office or unit, have five (5) business days from receipt of the decision to contact the Senior Associate Dean, indicating the intention to appeal.
2. A written appeal must be filed with the Senior Associate Dean within 10 business days of the time the appealing party was notified of the initial resolution of the complaint.
3. On receipt of a written appeal, the Senior Associate Dean will convene a sub-committee of the School of Education's Academic Planning Council. This subcommittee may ask for additional information from the parties involved and/or may hold a meeting at which both parties will be asked to speak separately (i.e., not in the room at the same time).
4. The subcommittee will then make a written recommendation to the Dean of the School of Education, or their designee, who will render a decision. The dean or designee's written decision shall be made within 30 business days from the date when the written appeal was filed with the Senior Associate Dean. For undergraduate students, the dean or designee's decision is final.

Further appealing a School of Education decision – *graduate students only*

> Graduate students have the option to appeal decisions by the School of Education dean or designee by using the process detailed on the Graduate School's website (https://grad.wisc.edu/documents/grievances-and-appeals/).

Questions about these procedures can be directed to the School of Education Dean's Office, 377 Education Building, 1000 Bascom Mall, 608-262-1763.

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

# KINESIOLOGY: EXERCISE PHYSIOLOGY, PHD

This is a named option in the Kinesiology, PhD. (p. 1231) For more information, please see our program website (https://kinesiology.education.wisc.edu/academics/grad-program/).

Exercise Physiology is the study of the biological responses and adaptations to acute and chronic exercise. Research and graduate training at UW–Madison focuses on elucidating: 1) the physiological, biochemical and molecular mechanisms underlying these processes; and 2) the influence of exercise on health and disease.

Dr. Barnes focuses on how aging and exercise alter blood flow and blood pressure regulation. Her current projects focus on age-associated changes in cerebral blood flow, the sympathetic nervous system activity influences cerebral blood flow, and how these relate to the risk of cardiovascular disease and dementia. Dr. Diffee studies the regulation of contraction in skeletal and cardiac muscle and how this regulation is altered by perturbations such as exercise training, injury, or disease. Typical experiments involve measurement of contractile properties single skeletal muscle fibers and single cardiac myocytes and correlation of altered mechanical properties to changes in cell protein composition detected by biochemical and molecular biological techniques. Interaction with faculty and students from other departments (including Nutritional Sciences, Biochemistry, the School of Medicine, and the Institute on Aging) is encouraged by ongoing collaborative research efforts. The research of William Schrage's laboratory is focused on how blood flow is regulated in muscle and brain circulations. Specifically, Dr. Schrage is interested in how acute exercise or environmental stress like hypoxia

influences blood flow and how this is impacted by obesity and metabolic syndrome. He measures blood flow using state-of-the-art technology including ultrasound and MRI. A key approach is to use pharmacologic tools to understand how blood flow is controlled, and how obesity changes which mechanisms change the ability to regulate blood flow under stress.

The Exercise Physiology named option of the PhD program is designed to prepare students for scholarly research and teaching. Students are prepared with advanced coursework in Exercise Physiology along with supporting coursework in Biochemistry, Physiology, Statistics, and other areas of Kinesiology (including Biomechanics, Motor Control and Behavior, and Sports Psychology). An important advantage of graduate study at UW–Madison is the exceptional selection of elective courses (>40 departments offer graduate courses in biological sciences). Minor coursework can be performed in Biochemistry, Nutritional Sciences, Physiology, Preventive Medicine, Cellular and Molecular Biology, Zoology, or other relevant fields. Students are intensively involved in conducting research throughout their graduate training and are expected to present research at national scientific meetings and publish their findings in peer-reviewed journals. Most PhD students have the opportunity to teach during their training. Graduates of the PhD program commonly pursue post-doctoral training and then establish independent research programs as university faculty members. Graduates occasionally pursue careers in industry or in clinical settings.

| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

For admission, the Graduate School requires, as does the Kinesiology department, a minimum 3.0 GPA (on a 4.0=A scale) on the last 60 semester hours (or equivalent) of undergraduate coursework. An applicant must submit academic transcripts from each institution attended and a statement of reasons for graduate study. The statement should provide specific details on why the applicant names this particular named option. If a professor in the area of specialization agrees to serve as the prospective student's advisor, then the department's graduate office recommends the applicant for admission to the Graduate School. Please consult the Kinesiology website (https://kinesiology.education.wisc.edu/graduate-admissions/kinesiology-graduate-admissions/) for further details of these requirements and procedures.

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# NAMED OPTION REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirements | Detail |
|---|---|
| Minimum Credit Requirement | 51 credits |
| Minimum Residence Credit Requirement | 32 credits |
| Minimum Graduate Coursework Requirement | 26 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | n/a |
| Assessments and Examinations | PhD students must:<br><br>1. pass preliminary exams (http://grad.wisc.edu/acadpolicy/#preliminaryexaminations) administered by a three member faculty committee; and<br>2. successfully propose and defend a dissertation before a five-member committee. |
| Language Requirements | No language requirements. |
| Graduate School Breadth Requirement | A doctoral minor or graduate/professional certificate is not required due to the broad areas of inquiry within Kinesiology. To ensure the breadth of study requirement is achieved, students are required to complete a minimum of two graduate level courses (at least two credits each) in Kinesiology, outside of their named option coursework. |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Core** | | |
| KINES 773 | Cardiorespiratory Adaptions to Environment and Exercise | 3 |
| KINES 774 | Metabolic Responses to Exercise and Environmental Stress | 2 |
| STAT/F&W ECOL 571 | Statistical Methods for Bioscience I | 4 |
| KINES 900 | Seminar in Kinesiology [1] | 4 |
| KINES 953 | Human Biodynamics Seminar [2] | 1 |
| KINES 990 | Research or Thesis | 4 |
| KINES 991 | Research in Physical Activity-Theory and Design | 3 |
| **General Field Requirement** | | **4-6** |
| At least two graduate level courses of at least two credits each in Kinesiology, outside the Exercise Physiology area. The following courses will not be applied toward meeting the breadth requirement KINES 699, 900, 990, 991, 999. [3] | | |
| **Electives (chosen from the list below or others in consultation with advisor)** | | |
| Students take as many electives as needed to reach the total credit minimum. | | 26-29 |
| KINES 615 | Laboratory Techniques in Exercise Physiology | |
| ANAT&PHY 435 | Fundamentals of Human Physiology | |
| KINES 523 | Clinical Exercise Testing and Prescription for Health Professionals | |
| **Total Credits** | | **51** |

1 All Kinesiology MS and PhD students are required to register for KINES 900 Seminar in Kinesiology for 1 credit each semester they are enrolled in the program, for a minimum of 4 credits.

2 Students should enroll in KINES 953 Human Biodynamics Seminar each time it is offered, for a minimum of 1 credit.

3 The courses within the Exercise Physiology area include:

- KINES 615 Laboratory Techniques in Exercise Physiology
- KINES 773 Cardiorespiratory Adaptions to Environment and Exercise
- KINES 774 Metabolic Responses to Exercise and Environmental Stress
- KINES 779 Human Muscle Function in Health and Disease
- KINES 953 Human Biodynamics Seminar

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# NAMED OPTION-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program approval, students are allowed to transfer no more than 18 credits of graduate coursework from other institutions. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

No credits from an other institution or UW–Madison undergraduate degree are allowed to transfer toward the degree.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW-Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Refer to the Graduate School: Advisor (https://policy.wisc.edu/library/UW-1232/) and Graduate School: Committees (Doctoral/Master's/MFA) (https://policy.wisc.edu/library/UW-1201/) policies, except the dissertation committee must have a minimum of five members.

PhD students work with two committees during their studies.

1. Preliminary exams Committee (three graduate faculty members)
2. Dissertation committee (five members)
    a. Proposal committee
    b. Defense committee

Ordinarily the proposal and defense committees have the same membership. Committee members are selected by the student in consultation with the faculty advisor.

## CREDITS PER TERM ALLOWED

15 credits

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

Within the Department, completion of required courses and passing preliminary exams within three years of starting the PhD program is considered satisfactory progress. See the Graduate Program Handbook link in Contact Information for more information.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)

    - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

### School of Education Grievance Policy and Procedures

The following School of Education Student Grievance Policy and associated procedures are designed for use in response to individual student grievances regarding faculty or staff in the School of Education.

Any individual student who feels they have been treated unfairly by a School of Education faculty or staff member has the right to file a grievance about the treatment and receive a timely response addressing their concerns. Any student, undergraduate or graduate, may use these grievance procedures, except employees whose complaints are covered under other campus policies. The grievance may concern classroom treatment, mentoring or advising, program admission or continuation, course grades (study abroad grade complaints are handled through International Academic Programs (https://studyabroad.wisc.edu/)), or issues not covered by other campus policies or grievance procedures.

> For grievances regarding discrimination based on protected bases (https://compliance.wisc.edu/eo-complaint/) (i.e., race, color, national origin, sex, disability, age, etc.), contact the Office of Compliance (https://compliance.wisc.edu/eo-complaint/).
>
> For grievances or concerns regarding sexual harassment or sexual violence (including sexual assault, dating/domestic violence, stalking, and sexual exploitation), contact the Sexual Misconduct Resource and Response Program (https://compliance.wisc.edu/titleix/) within the Office of Compliance.
>
> For grievances that involve the behavior of a student, contact the Office of Student Conduct and Community Standards in the Dean of Students Office at https://conduct.students.wisc.edu/).

For grievances about, or directed at, faculty or staff in a School of Education department, unit, or program, students should follow these steps:

1. Students are strongly encouraged to first talk with the person against whom the concern is directed. Many issues can be settled informally at this level. If students are unable to resolve concerns directly or without additional support, step 2 or 3 should be pursued.
2. If unresolved after taking or considering step 1:
    a. If the concern is directed against a teaching assistant (TA), and the student is not satisfied, the student should contact the TA's supervisor, who is usually the course professor.

The course professor will attempt to resolve the concern informally.

b. If the concern involves a non-TA instructor, staff member, professor, academic department, or School of Education office or unit, the student should contact the chair of the department or the director of the office or unit, or their designee. The chair or director, or their designee, will attempt to resolve the concern informally. If the concern is about the department chair or office/unit director, the student should consult the School of Education Senior Associate Dean for guidance.

3. If the concern remains unresolved after step 2, the student may submit a formal grievance to the chair or director in writing within 30 business days[1] of the alleged unfair treatment. To the fullest extent possible, a formal written grievance shall contain a clear and concise statement of the issue(s) involved and the relief sought.
4. On receipt of a written grievance, the chair or director will notify the person at whom the grievance is directed with a copy of the written grievance. The person at whom the complaint is directed may submit a written response, which would be shared with the student.
5. On receipt of a written grievance, the chair or director will refer the matter to a department, office, or unit committee comprised of at least two members. The committee may be an existing committee or one constituted for this purpose. The committee, or delegates from the committee, may meet with the parties involved and/or review any material either party shares with the committee.
6. The committee will provide a written description of the facts of the grievance and communicate recommendations to the department chair or office/unit head regarding how the grievance should be handled.
7. The chair or director will offer to meet with the student who made the grievance and also will provide a written decision to the student, including a description of any related action taken by the committee, within 30 business days of receiving the formal grievance.

[1] For the purpose of this policy, business days refers to those days when the University Offices are open and shall not include weekends, university holidays, spring recess, or the period from the last day of exams of fall semester instruction to the first day of spring semester instruction. All time limits may be modified by mutual consent of the parties involved.

If the grievance concerns an undergraduate course grade, the decision of the department chair after reviewing the committee's recommendations is final.

Other types of grievances may be appealed using the following procedures:

1. Both the student who filed the grievance or the person at whom the grievance was directed, if unsatisfied with the decision of the department, office or unit, have five (5) business days from receipt of the decision to contact the Senior Associate Dean, indicating the intention to appeal.
2. A written appeal must be filed with the Senior Associate Dean within 10 business days of the time the appealing party was notified of the initial resolution of the complaint.
3. On receipt of a written appeal, the Senior Associate Dean will convene a sub-committee of the School of Education's Academic Planning Council. This subcommittee may ask for additional information from the parties involved and/or may hold a meeting at which both parties will be asked to speak separately (i.e., not in the room at the same time).
4. The subcommittee will then make a written recommendation to the Dean of the School of Education, or their designee, who will render a decision. The dean or designee's written decision shall be made within 30 business days from the date when the written appeal was filed with the Senior Associate Dean. For undergraduate students, the dean or designee's decision is final.

Further appealing a School of Education decision – *graduate students only*

Graduate students have the option to appeal decisions by the School of Education dean or designee by using the process detailed on the Graduate School's website (https://grad.wisc.edu/documents/grievances-and-appeals/).

Questions about these procedures can be directed to the School of Education Dean's Office, 377 Education Building, 1000 Bascom Mall, 608-262-1763.

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

# KINESIOLOGY: EXERCISE PSYCHOLOGY, PHD

This is a named option in the Kinesiology, PhD. (p. 1231) For more information, please see our program website (https://kinesiology.education.wisc.edu/academics/grad-program/).

Exercise Psychology is the study of psychological responses and adaptations to acute and chronic physical activity. The graduate program at UW–Madison focuses on the psychobiological aspects of physical activity in both healthy and diseased populations. Research in the Exercise Psychology Laboratory has been generally concerned with quantifying the psychophysiological responses to exercise. Numerous behavioral methods have been used to determine affective and perceptual responses to exercise including the use of biofeedback, hypnosis, imagery, meditation, and traditional relaxation interventions such as autogenic training. More recently, the laboratory's focus has been on the psychophysiological aspects of pain, fatigue, and perceived exertion during and following exercise. These studies are being conducted in both healthy participants and patients with chronic pain and fatigue and are aimed at understanding the psychophysiological mechanisms that underlie the perceptual experience. Neuroimaging experiments using functional magnetic resonance imaging (fMRI) are also being conducted to determine neural responses related to pain, fatigue, and exercise.

Students in this area are trained in the theory and methods required for understanding the psychological and biological bases of behavior. Emphasis is placed upon the demonstration of competence in general psychology, exercise psychology, exercise science, statistics, and research design rather than completion of specific courses. Each candidate's program of formal coursework and independent study is tailored in a personalized manner to accommodate the individual's research and career goals.

This program is committed to providing graduate students with the best available training to prepare them for a variety of careers in academic, clinical, research, government, and other settings. Emphasis is on both extensive academic training in quantitative methods, kinesiology, and general psychology along with extensive research training in the area of exercise psychology. Students are expected to become creative scientists and to exhibit early and continuing commitment to research and scholarship. Most students have several publications in refereed journals to their credit before receiving their PhDs. While most of the graduates of this program are currently teaching and conducting research at the university level, some have elected to pursue clinical, administrative, and research careers in government, university, and commercial settings.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 1 |
| Spring Deadline | September 1 |
| Summer Deadline | The program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

For admission, the Graduate School requires, as does the Kinesiology department, a minimum 3.0 GPA (on a 4.0=A scale) on the last 60 semester hours (or equivalent) of undergraduate coursework. An applicant must submit academic transcripts from each institution attended and a statement of reasons for graduate study. The statement should provide specific details on why the applicant names this named option. If a professor in the area of specialization agrees to serve as the prospective student's advisor, then the department's graduate office recommends the applicant for admission to the Graduate School. Please consult the Kinesiology website (https://kinesiology.education.wisc.edu/graduate-admissions/kinesiology-graduate-admissions/) for further details of these requirements and procedures.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 51 credits |
| Minimum Residence Credit Requirement | 32 credits |
| Minimum Graduate Coursework Requirement | 26 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | n/a |
| Assessments and Examinations | PhD students must:<br>1. pass preliminary exams (http://grad.wisc.edu/acadpolicy/#preliminaryexaminations) administered by a three member faculty committee; and<br>2. successfully propose and defend a dissertation before a five-member committee. |
| Language Requirements | No language requirements. |
| Graduate School Breadth Requirement | A doctoral minor or graduate/professional certificate is not required due to the broad areas of inquiry within Kinesiology. To ensure the breadth of study requirement is achieved, students are required to complete a minimum of two graduate level courses (at least two credits each) in Kinesiology, outside of their named option coursework. |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Core** | | |
| KINES 900 | Seminar in Kinesiology [1] | 4 |
| KINES 990 | Research or Thesis | 4 |
| KINES 991 | Research in Physical Activity-Theory and Design | 3 |
| **General Field Requirement** | | **4-6** |
| At least two graduate level courses of at least two credits each in Kinesiology, at UW-Madison, outside of the Exercise Psychology area. The following courses will not be applied toward meeting the breadth requirement KINES 699, 900, 990, 991, 999. [2] | | |
| **Suggested Electives** | | |
| With the exception of the requirements above, no specific courses are required of candidates for the PhD in Kinesiology with specialization in Exercise Psychology. For the PhD, candidates must complete a minimum of 51 credits beyond the baccalaureate degree in accordance with Graduate School policy, but most students in the exercise psychology program elect to take additional credits beyond this minimum. Emphasis is placed on the demonstration of competence in general psychology, exercise psychology, exercise science, statistics and research design, rather than on completion of specific courses. Each candidate's program of formal coursework and independent study is tailored in a personalized manner to accommodate the individual's research and career goals. | | 34 |
| **Total Credits** | | **51** |

1 All Kinesiology MS and PhD students are required to register for KINES 900 Seminar in Kinesiology for 1 credit each semester they are enrolled in the program, for a minimum of 4 credits.

2 The courses within the Exercise Psychology area include:

- KINES 600 Advanced Exercise Psychology
- KINES 700 Psychological Effects of Exercise

POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. ### School of Education Grievance Policy and Procedures

The following School of Education Student Grievance Policy and associated procedures are designed for use in response to individual student grievances regarding faculty or staff in the School of Education.

Any individual student who feels they have been treated unfairly by a School of Education faculty or staff member has the right to file a grievance about the treatment and receive a timely response addressing their concerns. Any student, undergraduate or graduate, may use these grievance procedures, except employees whose complaints are covered under other campus policies. The grievance may concern classroom treatment, mentoring or advising, program admission or continuation,

course grades (study abroad grade complaints are handled through International Academic Programs (https://studyabroad.wisc.edu/)), or issues not covered by other campus policies or grievance procedures.

For grievances regarding discrimination based on protected bases (https://compliance.wisc.edu/eo-complaint/) (i.e., race, color, national origin, sex, disability, age, etc.), contact the Office of Compliance (https://compliance.wisc.edu/eo-complaint/).

For grievances or concerns regarding sexual harassment or sexual violence (including sexual assault, dating/domestic violence, stalking, and sexual exploitation), contact the Sexual Misconduct Resource and Response Program (https://compliance.wisc.edu/titleix/) within the Office of Compliance.

For grievances that involve the behavior of a student, contact the Office of Student Conduct and Community Standards in the Dean of Students Office at https://conduct.students.wisc.edu/).

For grievances about, or directed at, faculty or staff in a School of Education department, unit, or program, students should follow these steps:

1. Students are strongly encouraged to first talk with the person against whom the concern is directed. Many issues can be settled informally at this level. If students are unable to resolve concerns directly or without additional support, step 2 or 3 should be pursued.
2. If unresolved after taking or considering step 1:
   a. If the concern is directed against a teaching assistant (TA), and the student is not satisfied, the student should contact the TA's supervisor, who is usually the course professor. The course professor will attempt to resolve the concern informally.
   b. If the concern involves a non-TA instructor, staff member, professor, academic department, or School of Education office or unit, the student should contact the chair of the department or the director of the office or unit, or their designee. The chair or director, or their designee, will attempt to resolve the concern informally. If the concern is about the department chair or office/unit director, the student should consult the School of Education Senior Associate Dean for guidance.
3. If the concern remains unresolved after step 2, the student may submit a formal grievance to the chair or director in writing within 30 business days[1] of the alleged unfair treatment. To the fullest extent possible, a formal written grievance shall contain a clear and concise statement of the issue(s) involved and the relief sought.
4. On receipt of a written grievance, the chair or director will notify the person at whom the grievance is directed with a copy of the written grievance. The person at whom the complaint is directed may submit a written response, which would be shared with the student.
5. On receipt of a written grievance, the chair or director will refer the matter to a department, office, or unit committee comprised of at least two members. The committee may be an existing committee or one constituted for this purpose. The committee, or delegates from the committee, may meet with the parties involved and/or review any material either party shares with the committee.
6. The committee will provide a written description of the facts of the grievance and communicate recommendations to the department chair or office/unit head regarding how the grievance should be handled.
7. The chair or director will offer to meet with the student who made the grievance and also will provide a written decision to the student, including a description of any related action taken by the committee, within 30 business days of receiving the formal grievance.

[1] For the purpose of this policy, business days refers to those days when the University Offices are open and shall not include weekends, university holidays, spring recess, or the period from the last day of exams of fall semester instruction to the first day of spring semester instruction. All time limits may be modified by mutual consent of the parties involved.

If the grievance concerns an undergraduate course grade, the decision of the department chair after reviewing the committee's recommendations is final.

Other types of grievances may be appealed using the following procedures:

1. Both the student who filed the grievance or the person at whom the grievance was directed, if unsatisfied with the decision of the department, office or unit, have five (5) business days from receipt of the decision to contact the Senior Associate Dean, indicating the intention to appeal.
2. A written appeal must be filed with the Senior Associate Dean within 10 business days of the time the appealing party was notified of the initial resolution of the complaint.
3. On receipt of a written appeal, the Senior Associate Dean will convene a sub-committee of the School of Education's Academic Planning Council. This subcommittee may ask for additional information from the parties involved and/or may hold a meeting at which both parties will be asked to speak separately (i.e., not in the room at the same time).
4. The subcommittee will then make a written recommendation to the Dean of the School of Education, or their designee, who will render a decision. The dean or designee's written decision shall be made within 30 business days from the date when the written appeal was filed with the Senior Associate Dean. For undergraduate students, the dean or designee's decision is final.

Further appealing a School of Education decision – *graduate students only*

Graduate students have the option to appeal decisions by the School of Education dean or designee by using the process detailed on the Graduate School's website (https://grad.wisc.edu/documents/grievances-and-appeals/).

Questions about these procedures can be directed to the School of Education Dean's Office, 377 Education Building, 1000 Bascom Mall, 608-262-1763.

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

# KINESIOLOGY: MOTOR CONTROL AND BEHAVIOR, PHD

This is a named option in the Kinesiology, PhD. (p. 1231) For more information, please see our program website (https://kinesiology.education.wisc.edu/academics/grad-program/).

The graduate program in Motor Control and Behavior involves advanced study of the psychological and neurophysiological foundations of motor control, motor learning, motor development, and disorders of movement. The program emphasizes the development of a competent independent researcher and is designed to provide a thorough grounding in the area of motor performance, exposing the student to the underlying theoretical processes that influence the control, acquisition, and development of motor behavior. Students may focus specifically on control, learning, or developmental issues, or design their program to expose them to a broad range of study in motor behavior. The graduate student will work closely with his/her advisor in both formal and informal educational settings. Students entering the Motor Control and Behavior named option in the Kinesiology PhD should have a commitment to research in the motor control and behavior area. Within the first year, the graduate student is usually conducting research under close supervision. Students are encouraged to begin research early and to engage in it throughout their graduate career.

Several laboratories (human, animal) are available for research in the area of Motor Control and Behavior. The Human Motor Behavior Laboratory (https://kinesiology.education.wisc.edu/research/motor-behavior-lab/) is an active research environment where faculty and students collaborate on projects aimed at gaining a better understanding of the planning and performance of simple and complex upper and lower limb activities in both natural and virtual environments. The Motor Systems Physiology Laboratory (https://kinesiology.education.wisc.edu/research/motor-systems-physiology-lab/) focuses on understanding the neural control of reaching to grasp, which is essential to primate motor behavior and strongly depends on cerebellar function. The Sensory Motor Integration Lab (SMIL) (https://kinesiology.education.wisc.edu/research/pickett-lab-smil/) focuses on improving the everyday lives of older adults through the implementation of physical activity interventions—delivered in-home via telehealth and through group classes held at community-based facilities.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 1 |
| Spring Deadline | September 1 |
| Summer Deadline | This program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Every applicant whose native language is not English, or whose undergraduate instruction was not exclusively in English, must provide an English proficiency test score earned within two years of the anticipated term of enrollment. Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |

| | |
|---|---|
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

For admission, the Graduate School requires, as does the Kinesiology department, a minimum 3.0 GPA (on a 4.0=A scale) on the last 60 semester hours (or equivalent) of undergraduate coursework. An applicant must submit academic transcripts from each institution attended and a statement of reasons for graduate study. The statement should provide specific details on why the applicant names this named option. If a professor in the area of specialization agrees to serve as the prospective student's advisor, then the department's graduate office recommends the applicant for admission to the Graduate School. Please consult the Kinesiology website (https://kinesiology.education.wisc.edu/graduate-admissions/kinesiology-graduate-admissions/) for further details of these requirements and procedures.

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# NAMED OPTION REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirements | Detail |
|---|---|
| Minimum Credit Requirement | 51 credits |
| Minimum Residence Credit Requirement | 32 credits |
| Minimum Graduate Coursework Requirement | 26 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | n/a |
| Assessments and Examinations | PhD students must:<br><br>1. pass preliminary exams (http://grad.wisc.edu/acadpolicy/#preliminaryexaminations) administered by a three member faculty committee; and<br>2. successfully propose and defend a dissertation before a five-member committee. |
| Language Requirements | No language requirements. |
| Graduate School Breadth Requirement | A doctoral minor or graduate/professional certificate is not required due to the broad areas of inquiry within Kinesiology. To ensure the breadth of study requirement is achieved, students are required to complete a minimum of two graduate level courses (at least two credits each) in Kinesiology, outside of their named option coursework. |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Core** | | |
| KINES 900 | Seminar in Kinesiology [1] | 4 |
| KINES 990 | Research or Thesis | 4 |
| KINES 991 | Research in Physical Activity-Theory and Design | 3 |
| **Statistics (two courses required, chosen in consultation with advisor.) Suggested sequence:** | | **6-8** |
| ED PSYCH 760 & ED PSYCH 761 | Statistical Methods Applied to Education I and Statistical Methods Applied to Education II | |

| | | |
|---|---|---|
| STAT/ F&W ECOL 571 & STAT/ F&W ECOL 572 | Statistical Methods for Bioscience I and Statistical Methods for Bioscience II | |
| **General Field Requirement** | | **4-6** |
| At least two graduate level courses of at least two credits each in Kinesiology, at UW-Madison, outside of the Motor Control & Behavior area. The following courses will not be applied toward meeting the breadth requirement: KINES 699, 900, 990, 991, 999. [2] | | |
| **Suggested Elective Courses (chosen in consultation with advisor)** | | |
| Students take as many electives as needed to reach the total credit minimum. | | 26-30 |
| KINES 713 | Neural Basis of Normal and Pathological Movement | |
| KINES 721 | Neural Basis for Movement | |
| KINES 861 | Principles of Motor Control and Learning | |
| KINES 951 | Seminar-Biomechanics | |
| KINES 961 | Seminar in Motor Control and Learning | |
| **Total Credits** | | **51** |

[1] All Kinesiology MS and PhD students are required to register for KINES 900 Seminar in Kinesiology for 1 credit each semester they are enrolled in the program, for a minimum of 4 credits.

[2] The courses within the Motor Control and Behavior area include:

- KINES 713 Neural Basis of Normal and Pathological Movement
- KINES 721 Neural Basis for Movement
- KINES 861 Principles of Motor Control and Learning
- KINES 961 Seminar in Motor Control and Learning

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# NAMED OPTION-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program approval, students are allowed to transfer no more than 18 credits of graduate coursework from other institutions. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

No credits from an other institution or UW–Madison undergraduate degree are allowed to transfer toward the degree.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW-Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Refer to the Graduate School: Advisor (https://policy.wisc.edu/library/UW-1232/) and Graduate School: Committees (Doctoral/Master's/MFA) (https://policy.wisc.edu/library/UW-1201/) policies, except the dissertation committee must have a minimum of five members.

PhD students work with two committees during their studies.

1. Preliminary exams Committee (three graduate faculty members)
2. Dissertation committee (five members)
   a. Proposal committee
   b. Defense committee

Ordinarily the proposal and defense committees have the same membership. Committee members are selected by the student in consultation with the faculty advisor.

## CREDITS PER TERM ALLOWED

15 credits

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

Within the Department, completion of required courses and passing preliminary exams within three years of starting the PhD program is considered satisfactory progress. See the Graduate Program Handbook link in Contact Information for more information.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and

conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)

- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## School of Education Grievance Policy and Procedures

The following School of Education Student Grievance Policy and associated procedures are designed for use in response to individual student grievances regarding faculty or staff in the School of Education.

Any individual student who feels they have been treated unfairly by a School of Education faculty or staff member has the right to file a grievance about the treatment and receive a timely response addressing their concerns. Any student, undergraduate or graduate, may use these grievance procedures, except employees whose complaints are covered under other campus policies. The grievance may concern classroom treatment, mentoring or advising, program admission or continuation, course grades (study abroad grade complaints are handled through International Academic Programs (https://studyabroad.wisc.edu/)), or issues not covered by other campus policies or grievance procedures.

For grievances regarding discrimination based on protected bases (https://compliance.wisc.edu/eo-complaint/) (i.e., race, color, national origin, sex, disability, age, etc.), contact the Office of Compliance (https://compliance.wisc.edu/eo-complaint/).

For grievances or concerns regarding sexual harassment or sexual violence (including sexual assault, dating/domestic violence, stalking, and sexual exploitation), contact the Sexual Misconduct Resource and Response Program (https://compliance.wisc.edu/titleix/) within the Office of Compliance.

For grievances that involve the behavior of a student, contact the Office of Student Conduct and Community Standards in the Dean of Students Office at https://conduct.students.wisc.edu/).

For grievances about, or directed at, faculty or staff in a School of Education department, unit, or program, students should follow these steps:

1. Students are strongly encouraged to first talk with the person against whom the concern is directed. Many issues can be settled informally at this level. If students are unable to resolve concerns directly or without additional support, step 2 or 3 should be pursued.
2. If unresolved after taking or considering step 1:
   a. If the concern is directed against a teaching assistant (TA), and the student is not satisfied, the student should contact the TA's supervisor, who is usually the course professor. The course professor will attempt to resolve the concern informally.
   b. If the concern involves a non-TA instructor, staff member, professor, academic department, or School of Education office or unit, the student should contact the chair of the department or the director of the office or unit, or their designee. The chair or director, or their designee, will attempt to resolve the concern informally. If the concern is about the department chair or office/unit director, the student should consult the School of Education Senior Associate Dean for guidance.
3. If the concern remains unresolved after step 2, the student may submit a formal grievance to the chair or director in writing within 30 business days[1] of the alleged unfair treatment. To the fullest extent possible, a formal written grievance shall contain a clear and concise statement of the issue(s) involved and the relief sought.
4. On receipt of a written grievance, the chair or director will notify the person at whom the grievance is directed with a copy of the written grievance. The person at whom the complaint is directed may submit a written response, which would be shared with the student.
5. On receipt of a written grievance, the chair or director will refer the matter to a department, office, or unit committee comprised of at least two members. The committee may be an existing committee or one constituted for this purpose. The committee, or delegates from the committee, may meet with the parties involved and/or review any material either party shares with the committee.
6. The committee will provide a written description of the facts of the grievance and communicate recommendations to the department chair or office/unit head regarding how the grievance should be handled.
7. The chair or director will offer to meet with the student who made the grievance and also will provide a written decision to the student, including a description of any related action taken by the committee, within 30 business days of receiving the formal grievance.

[1] For the purpose of this policy, business days refers to those days when the University Offices are open and shall not include weekends, university holidays, spring recess, or the period from the last day of exams of fall semester instruction to the first day of spring semester instruction. All time limits may be modified by mutual consent of the parties involved.

If the grievance concerns an undergraduate course grade, the decision of the department chair after reviewing the committee's recommendations is final.

Other types of grievances may be appealed using the following procedures:

1. Both the student who filed the grievance or the person at whom the grievance was directed, if unsatisfied with the decision of the department, office or unit, have five (5) business days from

receipt of the decision to contact the Senior Associate Dean, indicating the intention to appeal.

2. A written appeal must be filed with the Senior Associate Dean within 10 business days of the time the appealing party was notified of the initial resolution of the complaint.
3. On receipt of a written appeal, the Senior Associate Dean will convene a sub-committee of the School of Education's Academic Planning Council. This subcommittee may ask for additional information from the parties involved and/or may hold a meeting at which both parties will be asked to speak separately (i.e., not in the room at the same time).
4. The subcommittee will then make a written recommendation to the Dean of the School of Education, or their designee, who will render a decision. The dean or designee's written decision shall be made within 30 business days from the date when the written appeal was filed with the Senior Associate Dean. For undergraduate students, the dean or designee's decision is final.

Further appealing a School of Education decision – *graduate students only*

> Graduate students have the option to appeal decisions by the School of Education dean or designee by using the process detailed on the Graduate School's website (https://grad.wisc.edu/documents/grievances-and-appeals/).

Questions about these procedures can be directed to the School of Education Dean's Office, 377 Education Building, 1000 Bascom Mall, 608-262-1763.

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

# KINESIOLOGY: OCCUPATIONAL SCIENCE, PHD

This is a named option in the Kinesiology, PhD. (p. 1231) For more information, please see our program website (https://kinesiology.education.wisc.edu/academics/grad-program/).

As occupational scientists, our faculty and graduate students explore theories of occupational engagement and conduct research to expand the body of knowledge supporting the practice of occupational therapy. Occupational Science integrates theories and practices from the disciplines of anatomy, biomechanics, motor control, neuroscience, psychology, and sociology to enhance our understanding of how engagement in the activities of daily life promotes human health and well-being. The Occupational Science named option of the Kinesiology PhD prepares occupational therapists to serve as researchers and educators who are able to contribute to the understanding of the theoretical and empirical relationships between occupation, physiological health, and psychological well-being. Graduate students work closely with their advisors to pursue research on issues that expand upon the current theory in occupational therapy and life-span development.

All faculty members have established laboratories for conducting research in Occupational Science, some of which are free-standing and others of which are located in research centers around campus. Opportunities abound for engaging in collaborative work with faculty from other disciplines such as kinesiology, biomedical engineering, psychology, nursing, population health, sociology, human ecology, special education, or rehabilitation psychology. A full list and description of the research labs, hosted by the Occupational Therapy Program, can be found on the department's research page (https://kinesiology.education.wisc.edu/research/).

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 1 |
| Spring Deadline | September 1 |
| Summer Deadline | This program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirements | Detail |
|---|---|
| Minimum Credit Requirement | 51 credits |
| Minimum Residence Credit Requirement | 32 credits |
| Minimum Graduate Coursework Requirement | 26 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | n/a |
| Assessments and Examinations | PhD students must:<br>• pass preliminary exams (http://grad.wisc.edu/acadpolicy/#preliminaryexaminations) administered by a three member faculty committee; and<br>• successfully propose and defend a dissertation before a five-member committee. |
| Language Requirements | No language requirements. |

| | |
|---|---|
| Graduate School Breadth Requirement | A doctoral minor or graduate/professional certificate is not required due to the broad areas of inquiry within Kinesiology. To ensure the breadth of study requirement is achieved, students are required to complete a minimum of two graduate level courses (at least two credits each) in Kinesiology, outside of their named option coursework. |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Core** | | |
| Students must complete the following courses. | | |
| KINES 785 | Human Occupation and Health | 3 |
| KINES 885 | Seminar in Occupation and Health (minimum of 2 semesters required) | 2 |
| KINES 990 | Research or Thesis | 4 |
| KINES 900 | Seminar in Kinesiology [1] | 4 |
| **Research Content** | | |
| Students must complete 9 credits in Research Content, including the following course. | | 9 |
| KINES 991 | Research in Physical Activity-Theory and Design | |
| *Research Methods and Ethics (minimum of 6 credits)* | | |
| From the 9 credits of Research Content, students must complete at least 6 credits in Research Methods and Ethics. | | |
| **General Field Requirements** | | **4-6** |
| At least two graduate level courses of at least two credits each in Kinesiology, at UW-Madison, outside of Occupational Sciences area. The following courses will not be applied toward meeting the breadth requirement: KINES 699, 900, 990, 991, 999. See header below to learn which courses are in the Occupational Science area. | | |
| **Suggested Electives** | | |
| Students take as many electives as needed to reach the total credit minimum. Courses should be taken in a concentration area specific to research area. Suggestions may be the ICTR Clinical Trials, Global Health, Prevention Science, Aging, Lifespan Development, as well as others. | | 23-25 |
| **Total Credits** | | **51** |

[1] All Kinesiology MS and PhD students must register for KINES 900 Seminar in Kinesiology for 1 credit each semester they are enrolled in the program, for a minimum of 4 credits.

### Research Methods and Ethics Requirement

Examples of courses that fulfill this requirement include:

| Code | Title | Credits |
|---|---|---|
| **Ethics** | | |
| NURSING 802 | Ethics and the Responsible Conduct of Research | 1 |
| PATH-BIO/ COMP BIO 812 | Research Ethics and Career Development | 2 |
| **Methods** | | |
| ED PSYCH 760 | Statistical Methods Applied to Education I | 3 |
| ED PSYCH 761 | Statistical Methods Applied to Education II | 3 |

### General Field Requirements

The courses within the Occupational Sciences area include: KINES 785 Human Occupation and Health and KINES 885 Seminar in Occupation and Health.

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# NAMED OPTION-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program approval, students are allowed to transfer no more than 18 credits of graduate coursework from other institutions. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

No credits from other institutions or UW–Madison undergraduate degree are allowed to transfer toward the degree.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW-Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Refer to the Graduate School: Advisor (https://policy.wisc.edu/library/UW-1232/) and Graduate School: Committees (Doctoral/Master's/MFA) (https://policy.wisc.edu/library/UW-1201/) policies, except the dissertation committee must have a minimum of five members.

PhD students work with two (or three) committees during their studies.

1. Preliminary exams Committee (three graduate faculty members)
2. Dissertation committee (five members)

a. Proposal committee
b. Defense committee

Ordinarily the proposal and defense committees have the same membership. Committee members are selected by the student in consultation with the faculty advisor.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

Within the Department, completion of required courses and passing preliminary exams within three years of starting the PhD program is considered satisfactory progress. See the Graduate Program Handbook link in Contact Information for more information.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

### School of Education Grievance Policy and Procedures

The following School of Education Student Grievance Policy and associated procedures are designed for use in response to individual student grievances regarding faculty or staff in the School of Education.

Any individual student who feels they have been treated unfairly by a School of Education faculty or staff member has the right to file a grievance about the treatment and receive a timely response addressing their concerns. Any student, undergraduate or graduate, may use these grievance procedures, except employees whose complaints are covered under other campus policies. The grievance may concern classroom treatment, mentoring or advising, program admission or continuation, course grades (study abroad grade complaints are handled through International Academic Programs (https://studyabroad.wisc.edu/)), or issues not covered by other campus policies or grievance procedures.

For grievances regarding discrimination based on protected bases (https://compliance.wisc.edu/eo-complaint/) (i.e., race, color, national origin, sex, disability, age, etc.), contact the Office of Compliance (https://compliance.wisc.edu/eo-complaint/).

For grievances or concerns regarding sexual harassment or sexual violence (including sexual assault, dating/domestic violence, stalking, and sexual exploitation), contact the Sexual Misconduct Resource and Response Program (https://compliance.wisc.edu/titleix/) within the Office of Compliance.

For grievances that involve the behavior of a student, contact the Office of Student Conduct and Community Standards in the Dean of Students Office at https://conduct.students.wisc.edu/).

For grievances about, or directed at, faculty or staff in a School of Education department, unit, or program, students should follow these steps:

1. Students are strongly encouraged to first talk with the person against whom the concern is directed. Many issues can be settled informally at this level. If students are unable to resolve concerns directly or without additional support, step 2 or 3 should be pursued.
2. If unresolved after taking or considering step 1:
   a. If the concern is directed against a teaching assistant (TA), and the student is not satisfied, the student should contact the TA's supervisor, who is usually the course professor. The course professor will attempt to resolve the concern informally.
   b. If the concern involves a non-TA instructor, staff member, professor, academic department, or School of Education office or unit, the student should contact the chair of the department or the director of the office or unit, or their designee. The chair or director, or their designee, will attempt to resolve the concern informally. If the concern is about the department chair or office/unit director, the student should consult the School of Education Senior Associate Dean for guidance.
3. If the concern remains unresolved after step 2, the student may submit a formal grievance to the chair or director in writing within 30 business days[1] of the alleged unfair treatment. To the fullest extent possible, a formal written grievance shall contain a clear and concise statement of the issue(s) involved and the relief sought.
4. On receipt of a written grievance, the chair or director will notify the person at whom the grievance is directed with a copy of the written grievance. The person at whom the complaint is directed may submit a written response, which would be shared with the student.

5. On receipt of a written grievance, the chair or director will refer the matter to a department, office, or unit committee comprised of at least two members. The committee may be an existing committee or one constituted for this purpose. The committee, or delegates from the committee, may meet with the parties involved and/or review any material either party shares with the committee.
6. The committee will provide a written description of the facts of the grievance and communicate recommendations to the department chair or office/unit head regarding how the grievance should be handled.
7. The chair or director will offer to meet with the student who made the grievance and also will provide a written decision to the student, including a description of any related action taken by the committee, within 30 business days of receiving the formal grievance.

[1] For the purpose of this policy, business days refers to those days when the University Offices are open and shall not include weekends, university holidays, spring recess, or the period from the last day of exams of fall semester instruction to the first day of spring semester instruction. All time limits may be modified by mutual consent of the parties involved.

If the grievance concerns an undergraduate course grade, the decision of the department chair after reviewing the committee's recommendations is final.

Other types of grievances may be appealed using the following procedures:

1. Both the student who filed the grievance or the person at whom the grievance was directed, if unsatisfied with the decision of the department, office or unit, have five (5) business days from receipt of the decision to contact the Senior Associate Dean, indicating the intention to appeal.
2. A written appeal must be filed with the Senior Associate Dean within 10 business days of the time the appealing party was notified of the initial resolution of the complaint.
3. On receipt of a written appeal, the Senior Associate Dean will convene a sub-committee of the School of Education's Academic Planning Council. This subcommittee may ask for additional information from the parties involved and/or may hold a meeting at which both parties will be asked to speak separately (i.e., not in the room at the same time).
4. The subcommittee will then make a written recommendation to the Dean of the School of Education, or their designee, who will render a decision. The dean or designee's written decision shall be made within 30 business days from the date when the written appeal was filed with the Senior Associate Dean. For undergraduate students, the dean or designee's decision is final.

Further appealing a School of Education decision – *graduate students only*

Graduate students have the option to appeal decisions by the School of Education dean or designee by using the process detailed on the Graduate School's website (https://grad.wisc.edu/documents/grievances-and-appeals/).

Questions about these procedures can be directed to the School of Education Dean's Office, 377 Education Building, 1000 Bascom Mall, 608-262-1763.

# PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

## GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

# KINESIOLOGY: PHYSICAL ACTIVITY EPIDEMIOLOGY, PHD

This is a named option in the Kinesiology, PhD. (p. 1231) For more information, please see our program website (https://kinesiology.education.wisc.edu/academics/grad-program/).

Physical activity epidemiology deals with the frequency and patterns of physical activity in the population and the relationship between physical activity and health and disease. The named option in Physical Activity Epidemiology provides students with advanced study in physical activity measurement issues, study design, relationships of physical activity with specific health and disease states, and approaches to physical activity promotion. Graduate study in this area covers epidemiologic and statistical courses that provide background in population-level study design and analysis as well as electives related to physical activity and public health. The PhD degree is designed to prepare students for scholarly research and teaching in this area. Students obtaining a PhD will be expected to go on for post-doctoral work prior to establishing independent research programs. The flexible curriculum in this program area will be tailored to individual students, with courses selected from exercise psychology, biostatistics, epidemiology and population health, exercise physiology, biochemistry, nutrition, or other areas deemed to provide a solid grounding sufficient to understand and conduct research in this area.

Several laboratories conduct research in the area of Physical Activity Epidemiology. The Wisconsin Physical Activity Epidemiology Laboratory (https://www.lisacadmusbertram.com/) is run by Dr. Lisa Cadmus-Bertram. Research efforts in this laboratory focuses on physical activity measurement, the role of physical activity in chronic disease management, and the development and evaluation of technology-supported physical activity promotion interventions.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 1 |
| Spring Deadline | September 1 |
| Summer Deadline | This program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Every applicant whose native language is not English, or whose undergraduate instruction was not exclusively in English, must provide an English proficiency test score earned within two years of the anticipated term of enrollment. Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

For admission, the Graduate School requires, as does the Kinesiology department, a minimum 3.0 GPA (on a 4.0=A scale) on the last 60 semester hours (or equivalent) of undergraduate coursework. An applicant must submit academic transcripts from each institution attended and a statement of reasons for graduate study. The statement should provide specific details on why the applicant names this named option. If a professor in the area of specialization agrees to serve as the prospective student's advisor, then the department's graduate office recommends the applicant for admission to the Graduate School. Please consult the Kinesiology website (https://kinesiology.education.wisc.edu/graduate-admissions/kinesiology-graduate-admissions/) for further details of these requirements and procedures.

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# NAMED OPTION REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirements | Detail |
|---|---|
| Minimum Credit Requirement | 51 credits |
| Minimum Residence Credit Requirement | 32 credits |
| Minimum Graduate Coursework Requirement | 26 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | n/a |
| Assessments and Examinations | PhD students must:<br><br>1. pass preliminary exams (http://grad.wisc.edu/acadpolicy/#preliminaryexaminations) administered by a three member faculty committee; and<br>2. successfully propose and defend a dissertation before a five-member committee. |
| Language Requirements | No language requirements. |
| Graduate School Breadth Requirement | A doctoral minor or graduate/professional certificate is not required due to the broad areas of inquiry within Kinesiology. To ensure the breadth of study requirement is achieved, students are required to complete a minimum of two graduate level courses (at least two credits each) in Kinesiology, outside of their named option coursework. |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Core** | | |
| KINES/ POP HLTH 791 | Physical Activity Epidemiology | 3 |
| KINES/ POP HLTH 955 | Seminar - Physical Activity Epidemiology | 1 |
| POP HLTH/ SOC 797 | Introduction to Epidemiology | 3 |
| POP HLTH 798 | Epidemiologic Methods | 3 |
| KINES 900 | Seminar in Kinesiology [1] | 4 |
| KINES 990 | Research or Thesis | 4 |
| KINES 991 | Research in Physical Activity-Theory and Design | 3 |
| **Statistics** | | |
| Complete a minimum of 6 credits. Examples provided, but courses are chosen in consultation with advisor. | | 6 |
| POP HLTH/ B M I 551 | Introduction to Biostatistics for Population Health | |
| POP HLTH/ B M I 552 | Regression Methods for Population Health | |
| STAT/B M I 541 | Introduction to Biostatistics | |
| STAT/B M I 542 | Introduction to Clinical Trials I | |
| B M I/ POP HLTH 651 | Advanced Regression Methods for Population Health | |
| **General Field Requirements** | | **4-6** |
| At least two graduate level courses of at least two credits each in Kinesiology, outside the Physical Activity Epidemiology area. The following courses will not be applied toward meeting the breadth requirement: KINES 699, 900, 990, 991, 999. [2] | | |
| **Suggested Electives (chosen in consultation with advisor)** | | |
| Students take as many electives as needed to reach the total credit minimum. | | 18-20 |
| KINES 600 | Advanced Exercise Psychology | |

### School of Education Grievance Policy and Procedures

The following School of Education Student Grievance Policy and associated procedures are designed for use in response to individual student grievances regarding faculty or staff in the School of Education.

Any individual student who feels they have been treated unfairly by a School of Education faculty or staff member has the right to file a grievance about the treatment and receive a timely response addressing their concerns. Any student, undergraduate or graduate, may use these grievance procedures, except employees whose complaints are covered

under other campus policies. The grievance may concern classroom treatment, mentoring or advising, program admission or continuation, course grades (study abroad grade complaints are handled through International Academic Programs (https://studyabroad.wisc.edu/)), or issues not covered by other campus policies or grievance procedures.

For grievances regarding discrimination based on protected bases (https://compliance.wisc.edu/eo-complaint/) (i.e., race, color, national origin, sex, disability, age, etc.), contact the Office of Compliance (https://compliance.wisc.edu/eo-complaint/).

For grievances or concerns regarding sexual harassment or sexual violence (including sexual assault, dating/domestic violence, stalking, and sexual exploitation), contact the Sexual Misconduct Resource and Response Program (https://compliance.wisc.edu/titleix/) within the Office of Compliance.

For grievances that involve the behavior of a student, contact the Office of Student Conduct and Community Standards in the Dean of Students Office at https://conduct.students.wisc.edu/).

For grievances about, or directed at, faculty or staff in a School of Education department, unit, or program, students should follow these steps:

1. Students are strongly encouraged to first talk with the person against whom the concern is directed. Many issues can be settled informally at this level. If students are unable to resolve concerns directly or without additional support, step 2 or 3 should be pursued.
2. If unresolved after taking or considering step 1:
   a. If the concern is directed against a teaching assistant (TA), and the student is not satisfied, the student should contact the TA's supervisor, who is usually the course professor. The course professor will attempt to resolve the concern informally.
   b. If the concern involves a non-TA instructor, staff member, professor, academic department, or School of Education office or unit, the student should contact the chair of the department or the director of the office or unit, or their designee. The chair or director, or their designee, will attempt to resolve the concern informally. If the concern is about the department chair or office/unit director, the student should consult the School of Education Senior Associate Dean for guidance.
3. If the concern remains unresolved after step 2, the student may submit a formal grievance to the chair or director in writing within 30 business days[1] of the alleged unfair treatment. To the fullest extent possible, a formal written grievance shall contain a clear and concise statement of the issue(s) involved and the relief sought.
4. On receipt of a written grievance, the chair or director will notify the person at whom the grievance is directed with a copy of the written grievance. The person at whom the complaint is directed may submit a written response, which would be shared with the student.
5. On receipt of a written grievance, the chair or director will refer the matter to a department, office, or unit committee comprised of at least two members. The committee may be an existing committee or one constituted for this purpose. The committee, or delegates from the committee, may meet with the parties involved and/or review any material either party shares with the committee.
6. The committee will provide a written description of the facts of the grievance and communicate recommendations to the department chair or office/unit head regarding how the grievance should be handled.
7. The chair or director will offer to meet with the student who made the grievance and also will provide a written decision to the student, including a description of any related action taken by the committee, within 30 business days of receiving the formal grievance.

[1] For the purpose of this policy, business days refers to those days when the University Offices are open and shall not include weekends, university holidays, spring recess, or the period from the last day of exams of fall semester instruction to the first day of spring semester instruction. All time limits may be modified by mutual consent of the parties involved.

If the grievance concerns an undergraduate course grade, the decision of the department chair after reviewing the committee's recommendations is final.

Other types of grievances may be appealed using the following procedures:

1. Both the student who filed the grievance or the person at whom the grievance was directed, if unsatisfied with the decision of the department, office or unit, have five (5) business days from receipt of the decision to contact the Senior Associate Dean, indicating the intention to appeal.
2. A written appeal must be filed with the Senior Associate Dean within 10 business days of the time the appealing party was notified of the initial resolution of the complaint.
3. On receipt of a written appeal, the Senior Associate Dean will convene a sub-committee of the School of Education's Academic Planning Council. This subcommittee may ask for additional information from the parties involved and/or may hold a meeting at which both parties will be asked to speak separately (i.e., not in the room at the same time).
4. The subcommittee will then make a written recommendation to the Dean of the School of Education, or their designee, who will render a decision. The dean or designee's written decision shall be made within 30 business days from the date when the written appeal was filed with the Senior Associate Dean. For undergraduate students, the dean or designee's decision is final.

Further appealing a School of Education decision – *graduate students only*

Graduate students have the option to appeal decisions by the School of Education dean or designee by using the process detailed on the Graduate School's website (https://grad.wisc.edu/documents/grievances-and-appeals/).

Questions about these procedures can be directed to the School of Education Dean's Office, 377 Education Building, 1000 Bascom Mall, 608-262-1763.

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

# OCCUPATIONAL THERAPY, OTD

The occupational therapy program resides in the Department of Kinesiology (https://kinesiology.education.wisc.edu/) and offers an entry-level doctor of occupational therapy. The Occupational Therapy Doctorate (OTD) is a three-year, full-time program. Our cohort is an intimate 32 students who receive the individualized advising and support they need to develop into successful clinicians and leaders. The program includes the fundamentals of occupational therapy best practice with values emphasizing the importance of occupation, cultural responsiveness, ethical practice, interprofessional collaboration, and social justice. Our courses are organized into four main threads:

- Practice - Occupation-centered and evidence-based
- Research - Critical application and participation in clinically relevant research
- Leadership - Respectful advocacy, influence and transformation
- Wellness - Promoting health in self and others

Occupational therapists interested in pursuing advanced research training may also apply to the MS (p. 1201)/PhD (p. 1231) in Kinesiology with a specialization in Occupational Science. The purpose of the graduate program is to prepare clinicians, researchers, and teachers who possess a solid foundation in both the theoretical and applied aspects of the disciplines of occupational therapy and science.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | The program does not admit in the fall. |
| Spring Deadline | The program does not admit in the spring. |
| Summer Deadline | November 1 |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

Admission to the Occupational Therapy Doctorate program requires:

- Bachelor's degree (or equivalent) from a regionally accredited school of higher education by the start of the program
- Unofficial transcripts from all previous postsecondary studies are required. International academic records must be submitted in the original language and accompanied by an English translation. If an applicant is recommended for admission, the Graduate School will ask applicants to request official transcripts sent to the Graduate School from the undergraduate institution.
- Documentation of paid or volunteer experience in at least two different settings serving persons across the lifespan with physical, behavioral or mental health disabilities

- Direct observation of Registered Occupational Therapists, or Certified Occupational Therapy Assistants, providing services is highly recommended
- Personal statement responding to prompts provided on the graduate application
- At least a "C" or better in the following prerequisite courses or their equivalent:
  - Lifespan Development (6 credits)
  - Abnormal Psychology (3 credits)
  - Statistics (3 credits)
  - Human Physiology (3-5 credits WITH LAB)
  - Human Anatomy (3-5 credits)
  - Human Anatomy Lab (1-3 credits)

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM INFORMATION

Students enrolled in this program are not eligible to receive tuition remission from graduate assistantship appointments at this institution.

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| No | No | No | Yes | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 97 credits |
| Minimum Residence Credit Requirement | 85 credits |
| Minimum Graduate Coursework Requirement | All credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required.<br>Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | Students must earn a grade of C or better for all required professional courses. |
| Assessments and Examinations | Capstone project proposal and final product must be reviewed and approved by a capstone committee per Graduate School policy. |
| Language Requirements | No language requirements. |
| Graduate School Breadth Requirement | Breadth is provided via interprofessional training (doctoral minor or graduate/professional certificate are not required). |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Occupational-Centered Practice Thread** | | |
| OCC THER 630 | Clinical and Functional Anatomy for Occupational Therapists | 6 |
| OCC THER 640 | Applied Neuroanatomy for Allied Health Professionals | 3 |
| OCC THER 650 | Enabling Occupations: Introduction | 2 |
| OCC THER 651 | Clinical Conditions I | 1 |
| OCC THER 652 | Clinical Conditions II | 1 |
| OCC THER 662 | Level II Fieldwork A | 6 |
| OCC THER 664 | Level II Fieldwork B | 6 |
| OCC THER 722 | Enabling Occupations 1: Adult Focus | 4 |
| OCC THER 723 | Enabling Occupations 2: Adult Focus | 4 |
| OCC THER 724 | Enabling Occupations 3: Mental Health Across the Life Span | 3 |
| OCC THER 725 | Enabling Occupations 4: Pediatrics | 5 |

## Sample 3-Year Schedule

| Code | Title | Credits |
|---|---|---|
| **Summer 1** | | |
| Students must complete 9 credits from following courses. | | |
| OCC THER 630 | Clinical and Functional Anatomy for Occupational Therapists | 6 |
| OCC THER 650 | Enabling Occupations: Introduction | 2 |
| OCC THER 731 | Living Well: Wellness Promotion for Graduate Students | 1 |
| **Fall 1** | | |
| Students must complete 15 credits from the following courses. | | |
| OCC THER 640 | Applied Neuroanatomy for Allied Health Professionals | 3 |
| OCC THER 651 | Clinical Conditions I | 1 |
| OCC THER 710 | Professional and Leadership Skills 1: Foundations | 2 |
| OCC THER 722 | Enabling Occupations 1: Adult Focus | 4 |
| OCC THER 770 | Evidence Based Practice Lab Practicum | 2 |
| OCC THER 771 | Evidence Based Practice 1: Basics | 3 |
| **Spring 1** | | |
| Students must complete 14 credits from the following courses. | | |
| OCC THER 711 | Professional and Leadership Skills 2: Effective Interprofessional Relationships | 2 |
| OCC THER 723 | Enabling Occupations 2: Adult Focus | 4 |
| OCC THER 726 | Level 1 Fieldwork A: Adult Physical Disabilities | 1 |
| OCC THER 732 | Living Well: Designing Occupation-based Wellness Promotion | 2 |
| OCC THER 770 | Evidence Based Practice Lab Practicum | 2 |
| OCC THER 772 | Evidence Based Practice 2: Research Design, Methods, and Analysis | 3 |
| **Summer 2** | | |
| Students must complete 10 credits from the following courses. | | |
| OCC THER 652 | Clinical Conditions II | 1 |
| OCC THER 724 | Enabling Occupations 3: Mental Health Across the Life Span | 3 |
| OCC THER 727 | Level 1 Fieldwork B: Community-Based Mental Health | 1 |
| OCC THER 733 | Promoting Health and Wellness for Populations | 3 |
| OCC THER 814 | Communicating OT to Interprofessional Audiences | 2 |
| **Fall 2** | | |
| Students must complete 15 credits from the following courses. | | |
| OCC THER 725 | Enabling Occupations 4: Pediatrics | 5 |
| OCC THER 728 | Level 1 Fieldwork C: Pediatrics | 1 |
| OCC THER 770 | Evidence Based Practice Lab Practicum | 2 |
| OCC THER 773 | Evidence Based Practice 3: Research Translation | 3 |
| OCC THER 811 | Applied Leadership and Management in OT | 3 |
| OCC THER 821 | Case Synthesis 1 | 1 |
| **Spring 2** | | |
| Students must complete 7 credits from the following courses. | | |
| OCC THER 880 | Introduction to Capstone | 1 |
| OCC THER 662 | Level II Fieldwork A | 6 |

| | | |
|---|---|---|
| **Summer 3** | | |
| Students must complete 7 credits from the following courses. Students have the option to complete 2 optional elective credits. | | |
| OCC THER 664 | Level II Fieldwork B | 6 |
| **Fall 3** | | |
| Students must complete 12 credits from courses below. | | |
| OCC THER 734 | Living Well: Occupation-Based Interventions Promoting Health and Wellness | 2 |
| or KINES 785 | Human Occupation and Health | |
| OCC THER 712 | Professional and Leadership Skills 3: Management | 2 |
| OCC THER 812 | Current Trends Shaping Occupational Therapy Practice | 3 |
| OCC THER 822 | Case Synthesis 2 | 2 |
| OCC THER 881 | Capstone Project 1 | 3 |
| **Spring 3** | | |
| Students must complete 9 credits from the following courses. | | |
| OCC THER 882 | Capstone Project II | 3 |
| OCC THER 883 | Doctoral Experiential Component | 6 |
| **Total Credits** | | **97** |

### Other Policy

Students in this program may not take courses outside the prescribed curriculum without faculty advisor and program director approval. Students in this program cannot enroll concurrently in other undergraduate or graduate degree programs.

## POLICIES

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program approval, students may transfer up to 12 credits of graduate coursework from other institutions. Coursework should be less than five years old to be considered, additional justification and/or documentation are needed for coursework taken between five and ten years. Coursework more than ten years old will not be considered.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

No undergraduate coursework may transfer for Occupational Therapy Doctorate (OTD) requirements.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

With program approval, students may transfer no more than 9 credits of coursework numbered 300 or above taken as a UW–Madison University Special student. These credits are considered part of the total allowable credits available for a student to transfer. Coursework should be less than five years old to be considered; additional justification and/or documentation is needed for work taken between five and ten years. Coursework more than ten years old will not be considered.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Every graduate student is required to have an advisor to meet UW information management needs, and accordingly, and of its own volition, the department assigns an advisor to each student. The advisor is a graduate or clinical faculty member.

To ensure that students are making satisfactory progress toward a degree, the Graduate School expects them to meet with their advisor on a regular basis. The Occupational Therapy Doctorate Program Coordinator will advise students in the early stages of their studies until a permanent advisor is assigned. The advisor may also serve on the student's capstone project committee.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)

  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)

- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## School of Education Grievance Policy and Procedures

The following School of Education Student Grievance Policy and associated procedures are designed for use in response to individual student grievances regarding faculty or staff in the School of Education.

Any individual student who feels they have been treated unfairly by a School of Education faculty or staff member has the right to file a grievance about the treatment and receive a timely response addressing their concerns. Any student, undergraduate or graduate, may use these grievance procedures, except employees whose complaints are covered under other campus policies. The grievance may concern classroom treatment, mentoring or advising, program admission or continuation, course grades (study abroad grade complaints are handled through International Academic Programs (https://studyabroad.wisc.edu/)), or issues not covered by other campus policies or grievance procedures.

For grievances regarding discrimination based on protected bases (https://compliance.wisc.edu/eo-complaint/) (i.e., race, color, national origin, sex, disability, age, etc.), contact the Office of Compliance (https://compliance.wisc.edu/eo-complaint/).

For grievances or concerns regarding sexual harassment or sexual violence (including sexual assault, dating/domestic violence, stalking, and sexual exploitation), contact the Sexual Misconduct Resource and Response Program (https://compliance.wisc.edu/titleix/) within the Office of Compliance.

For grievances that involve the behavior of a student, contact the Office of Student Conduct and Community Standards in the Dean of Students Office at https://conduct.students.wisc.edu/).

For grievances about, or directed at, faculty or staff in a School of Education department, unit, or program, students should follow these steps:

1. Students are strongly encouraged to first talk with the person against whom the concern is directed. Many issues can be settled informally at this level. If students are unable to resolve concerns directly or without additional support, step 2 or 3 should be pursued.
2. If unresolved after taking or considering step 1:
   a. If the concern is directed against a teaching assistant (TA), and the student is not satisfied, the student should contact the TA's supervisor, who is usually the course professor. The course professor will attempt to resolve the concern informally.
   b. If the concern involves a non-TA instructor, staff member, professor, academic department, or School of Education office or unit, the student should contact the chair of the department or the director of the office or unit, or their designee. The chair or director, or their designee, will attempt to resolve the concern informally. If the concern is about the department chair or office/unit director, the student should consult the School of Education Senior Associate Dean for guidance.
3. If the concern remains unresolved after step 2, the student may submit a formal grievance to the chair or director in writing within 30 business days[1] of the alleged unfair treatment. To the fullest extent possible, a formal written grievance shall contain a clear and concise statement of the issue(s) involved and the relief sought.
4. On receipt of a written grievance, the chair or director will notify the person at whom the grievance is directed with a copy of the written grievance. The person at whom the complaint is directed may submit a written response, which would be shared with the student.
5. On receipt of a written grievance, the chair or director will refer the matter to a department, office, or unit committee comprised of at least two members. The committee may be an existing committee or one constituted for this purpose. The committee, or delegates from the committee, may meet with the parties involved and/or review any material either party shares with the committee.
6. The committee will provide a written description of the facts of the grievance and communicate recommendations to the department chair or office/unit head regarding how the grievance should be handled.
7. The chair or director will offer to meet with the student who made the grievance and also will provide a written decision to the student, including a description of any related action taken by the committee, within 30 business days of receiving the formal grievance.

[1] For the purpose of this policy, business days refers to those days when the University Offices are open and shall not include weekends, university holidays, spring recess, or the period from the last day of exams of fall semester instruction to the first day of spring semester instruction. All time limits may be modified by mutual consent of the parties involved.

If the grievance concerns an undergraduate course grade, the decision of the department chair after reviewing the committee's recommendations is final.

Other types of grievances may be appealed using the following procedures:

1. Both the student who filed the grievance or the person at whom the grievance was directed, if unsatisfied with the decision of the department, office or unit, have five (5) business days from receipt of the decision to contact the Senior Associate Dean, indicating the intention to appeal.

2. A written appeal must be filed with the Senior Associate Dean within 10 business days of the time the appealing party was notified of the initial resolution of the complaint.
3. On receipt of a written appeal, the Senior Associate Dean will convene a sub-committee of the School of Education's Academic Planning Council. This subcommittee may ask for additional information from the parties involved and/or may hold a meeting at which both parties will be asked to speak separately (i.e., not in the room at the same time).
4. The subcommittee will then make a written recommendation to the Dean of the School of Education, or their designee, who will render a decision. The dean or designee's written decision shall be made within 30 business days from the date when the written appeal was filed with the Senior Associate Dean. For undergraduate students, the dean or designee's decision is final.

Further appealing a School of Education decision – *graduate students only*

> Graduate students have the option to appeal decisions by the School of Education dean or designee by using the process detailed on the Graduate School's website (https://grad.wisc.edu/documents/grievances-and-appeals/).

Questions about these procedures can be directed to the School of Education Dean's Office, 377 Education Building, 1000 Bascom Mall, 608-262-1763.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Articulate and apply underlying occupation-based theories, concepts and techniques of occupational therapy intervention for a variety of contexts.
2. Formulate systems to gather, analyze and interpret data and present to a professional audience.
3. Demonstrate active involvement in professional development, leadership, and advocacy for the benefit of constituents and the profession.
4. Synthesize current knowledge, available evidence and responses to interventions to inform new approaches to practice problems.
5. Demonstrate commitment to healthy long-term professional growth through the creation, implementation, and monitoring of a career development plan including application of wellness and prevention strategies.

## ACCREDITATION

# ACCREDITATION

Accreditation Council for Occupational Therapy Education (ACOTE) (https://www.aota.org/Education-Careers/Accreditation.aspx)

Accreditation Status: Accredited. Next accreditation review: 2030.

## CERTIFICATION/LICENSURE

# CERTIFICATION/LICENSURE

National Board for Certification in Occupational Therapy (https://www.nbcot.org/en/)

To look up NBCOT pass rates for Occupational Therapy Programs: https://www.nbcot.org/en/Educators/Home#SchoolPerformance (https://www.nbcot.org/en/Educators/Home/#SchoolPerformance)

Licenses are awarded at the state level. Students in the program will become eligible for the licensure exam.

## PROFESSIONAL CERTIFICATION/LICENSURE DISCLOSURE (NC-SARA)

The United States Department of Education (via 34 CFR Part 668 (https://www.ecfr.gov/current/title-34/subtitle-B/chapter-VI/part-668/?toc=1)) requires institutions that provide distance education to disclose information for programs leading to professional certification or licensure. The expectation is that institutions will determine whether each applicable academic program meets state professional licensure requirements and provide a general disclosure of such on an official university website.

Professional licensure requirements vary from state-to-state and can change year-to-year; they are established in a variety of state statutes, regulations, rules, and policies; and they center on a range of educational requirements, including degree type, specialized accreditation, total credits, specific courses, and examinations.

UW-Madison has taken reasonable efforts to determine whether this program satisfies the educational requirements for certification/licensure in states where prospective and enrolled students are located and is disclosing that information as follows.

Disclaimer: This information is based on the most recent annual review of state agency certification/licensure data and is subject to change. All students are strongly encouraged to consult with the individual/office listed in the Contact Information box on this page and with the applicable state agency for specific information.

### The requirements of this program meet certification/licensure requirements in the following states:

Alabama, Alaska, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, Wyoming, District of Columbia; American Samoa, Guam, Northern Mariana Islands, Puerto Rico, U.S. Virgin Islands

### The requirements of this program do not meet certification/licensure requirements in the following states:

Not applicable

# LA FOLLETTE SCHOOL OF PUBLIC AFFAIRS

## DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

## DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/ PROFESSIONAL CERTIFICATES

- International Public Affairs, MIPA (p. 1264)
- Public Affairs, MPA (p. 1270)

# INTERNATIONAL PUBLIC AFFAIRS, MIPA

The Master of International Public Affairs (MIPA) Program provides education in public policy and global governance that prepares students from the United States and around the world to work in government, in businesses engaged with the global economy, for non-governmental organizations, or with consulting firms analyzing international policies.

The award-winning La Follette School faculty includes economists, political scientists, sociologists, and public affairs scholars who teach the skills and tools needed for a career in public affairs. They are experts in social policy, health policy and management, public administration, public policy analysis, environmental policy, poverty, and tax policy and government finance.

Beyond campus, the city of Madison, as the state capital, provides a wealth of opportunities for La Follette School students to participate in outreach and acquire practical experience as professional project assistants or interns with public and private entities. Students benefit from the strong relationships that La Follette School faculty have with these organizations, in keeping with the Wisconsin Idea of public service. This includes bringing together legislators, policymakers, and researchers to inform government decision-making for policies that make a positive impact on people's lives.

## INTERNATIONAL PUBLIC AFFAIRS DOUBLE DEGREES, DUAL DEGREES, AND CERTIFICATE PROGRAMS

Some students earn additional credentials while they work toward their public affairs degrees. Students must follow double-degree (https://grad.wisc.edu/acadpolicy/?policy=doubledegrees) and dual-degree (https://grad.wisc.edu/acadpolicy/?policy=dualdegreesgradprof) policies. The following combined degree and certificate programs are available, though students choose to embark on double and dual degrees and graduate certificates beyond those listed below:

- Law (Juris Doctorate)
- Master of Public Health
- Master of Science in Urban and Regional Planning
- Doctorate in Neuroscience
- Energy Analysis and Policy Certificate through the Nelson Institute in Environmental Studies
- Business, Environment, & Social Responsibility; Entrepreneurship; or Strategic Innovation offered through the School of Business.
- Area studies program certificates

## LAW AND INTERNATIONAL PUBLIC AFFAIRS (MIPA/JD)

Increasingly, careers in the federal, state, and local governments, as well as nonprofit organizations and private sector businesses require an understanding of public administration, policy analysis, and public affairs, as well as law. Many students choose to pursue the dual law and public affairs degree because of their interest in employment in government agencies, government relations law practice, or other policy-oriented firms and organizations.

For most students, the dual degree program will add about a year of study to the three years it takes to complete law school but will save approximately one year of study compared to doing the two programs separately. Students earn a Master of International Public Affairs degree and a Juris Doctor.

It is recommended that applicants apply for admission to both programs at the time of application.

## PUBLIC HEALTH AND INTERNATIONAL PUBLIC AFFAIRS (MIPA/MPH)

The La Follette School and the School of Medicine and Public Health offer education in public health policy, policy analysis, and global governance to address critical health and health policy issues in the United States and throughout the world.

The dual degree program takes three years to complete, including summers. Students earn a Master of International Public Affairs degree and a Master of Public Health degree.

It is recommended that applicants apply to both programs at the same time, though admitted students may apply to whichever degree program they are not yet in during their first year.

## NEUROSCIENCE AND INTERNATIONAL PUBLIC AFFAIRS (MIPA/PHD)

Advances in neuroscience have important policy implications for child welfare and education, community development, mental health and health care, bioethics and aging, environmental risks, and national security. The Neuroscience and Public Policy Program (NPP) courses prepare students to work in the growing array of domestic or international policy jobs involved in the management of science and its integration into policy analysis and design. Students become good scientists and effective communicators, managers, and advocates of good public policy.

This combined degree program typically takes five years to complete, including summers. Students earn a Master of International Public Affairs degree and a Doctor of Philosophy in Neuroscience. Degree requirements are completed in the first three years. The focus of the fourth year is on research and thesis development, as well as completion of the PhD Preliminary Exam. Students continue doing research and defend their thesis in the fifth year.

It is recommended that applicants apply for admission to both programs at the time of application.

## URBAN AND REGIONAL PLANNING AND INTERNATIONAL PUBLIC AFFAIRS (MIPA/MS IN URPL)

The La Follette School and the Department of Planning and Landscape Architecture offer education in planning, policymaking, and public affairs to address domestic and global environmental, housing, and transportation policy issues. This double degree takes three years to complete, including summers. Students earn a Master of International Public Affairs degree and a Master of Science in Urban and Regional Planning.

It is recommended that applicants apply to both programs at the same time, though admitted students may apply to whichever degree program they are not yet in during their first year.

# ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | January 1 |
| Spring Deadline | This program does not admit in the spring. |
| Summer Deadline | This program does not admit in the summer. |
| GRE (Graduate Record Examinations) | May be required in certain cases; consult program.* |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 2 |

* Applicants must either submit a GRE test score or quantitative essay. See 'Application Materials' below for more information.

## APPLICATION MATERIALS

All parts of the application are detailed on the La Follette School's Graduate Admissions Requirements page (https://lafollette.wisc.edu/

graduate/admissions/graduate-admissions-requirements/), including the statement of purpose prompts. They include:

- Resume / CV
- Statements of purpose prompts, word limits, and directions
- Two letters of recommendation
- Unofficial transcript showing a minimum GPA of 3.0 out of 4.0 (or equivalent)
- GRE test scores: applicants must either submit a GRE test score or quantitative essay
- Supplemental application including:
  - Prerequisite check
  - Applicants not submitting GRE test score must include a required quantitative essay addressing current or past academic, research or professional work requiring quantitative or analytic skill or experience and how it has prepared you for graduate study in public affairs

## PREREQUISITES

Prerequisites are expected to be completed at the time of application and include:

| Code | Title | Credits |
|---|---|---|
| **Introductory Microeconomics** | | |
| Complete one course | | |
| PUB AFFR 380 | Analytic Tools for Public Policy | |
| A A E 101 | Introduction to Agricultural and Applied Economics | |
| ECON 101 | Principles of Microeconomics | |
| ECON 111 | Principles of Economics-Accelerated Treatment | |
| POLI SCI 350 | International Political Economy | |
| **Introductory Macroeconomics** | | |
| Complete one course | | |
| ECON 102 | Principles of Macroeconomics | |
| ECON 111 | Principles of Economics-Accelerated Treatment | |
| POLI SCI 350 | International Political Economy | |
| **Introduction to Statistics or Calculus** | | |
| Complete one course | | |
| STAT 301 | Introduction to Statistical Methods | |
| STAT 371 | Introductory Applied Statistics for the Life Sciences | |
| MATH 211 | Survey of Calculus 1 | |
| MATH 221 | Calculus and Analytic Geometry 1 | |
| POLI SCI 270 | Political Data Science | |
| PSYCH 210 | Basic Statistics for Psychology | |
| SOC/ C&E SOC 360 | Statistics for Sociologists I | |
| **Introduction to Comparative Politics or International Relations** | | |
| Complete one course | | |
| POLI SCI 120 | Introduction to Comparative Politics | |
| POLI SCI 140 | Introduction to International Relations | |
| **Non-English or Study Abroad** | | |
| Three College Semesters of Non-English Language or One Year of Study Abroad | | |

The program may require admitted applicants to take the on-campus English as a Second Language Assessment Test (https://esl.wisc.edu/international-students/placement/) and register for any recommended English as a second language course(s) in the first semester of graduate study.

**The La Follette School of Public Affairs only admits for the fall semester.** The priority deadline for admission is listed above in the table. Applications are accepted after this date on a rolling admission basis, but there is no guarantee that space in the incoming class will be available.

**The final deadlines for applicants to apply during rolling admission are June 1 (international applicants) and August 1 (domestic applicants).**

**Note:** Accelerated students are not able to apply to the dual or double degree programs with the La Follette School because of the rigorous schedule of the coursework.

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

The La Follette School offers a limited number of fellowships and assistantships on a merit basis to select international public affairs applicants who submit all application materials by **January 1**. Financial need is considered for some scholarships, so domestic applicants are encouraged to submit a FAFSA (https://studentaid.gov/h/apply-for-aid/fafsa/) in December.

Please refer to the Funding and Financial Information (https://www.lafollette.wisc.edu/admissions/funding-financial-information/) section of the La Follette School website for more information (www.lafollette.wisc.edu).

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | Yes |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 42 credits |
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 21 credits must be completed in graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required.<br>Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | Students must earn a BC or above in all core curriculum coursework. A grade of C is the minimum grade permitted in elective courses that count toward a La Follette School degree. |
| Assessments and Examinations | n/a |
| Language Requirements | No language requirement. |

## REQUIRED COURSES

Students must complete 42 credits, including six core courses, a one-credit professional development seminar, plus eight elective courses. An internship can satisfy up to three elective credits. The program generally takes two years. See La Follette School website for detailed degree plans.

| Code | Title | Credits |
|---|---|---|
| **Core MIPA Courses** | | |
| Seven required courses are the foundation of the MIPA degree program. Students must complete the following: | | |
| PUB AFFR 800 | Public Affairs Professional Development Workshop | 1 |
| PUB AFFR 818 | Introduction to Statistical Methods for Public Policy Analysis | 3 |
| PUB AFFR 880 | Microeconomic Policy Analysis | 3 |
| PUB AFFR 850 | International Governance | 3 |
| PUB AFFR 854 | Macroeconomic Policy and International Financial Regulation | 3 |
| or PUB AFFR 856 | Trade, Competition, and Governance in a Global Economy | |
| PUB AFFR 873 | Introduction to Policy Analysis | 3 |
| PUB AFFR 860 | Workshop in International Public Affairs | 3 |
| **Recommended Electives in International Public Affairs** | | |
| Students build proficiency beyond the core requirements through elective courses that include but are not limited to: | | 23 |
| PUB AFFR 520 | Inequality, Race and Public Policy | |
| PUB AFFR 819 | Advanced Statistical Methods for Public Policy Analysis | |
| PUB AFFR 827 | Administrative Internship | |
| PUB AFFR/ POLI SCI 871 | Public Program Evaluation | |
| PUB AFFR/ A A E/ENVIR ST/ POP HLTH 881 | Benefit-Cost Analysis | |
| PUB AFFR 974 | Topics in Public Affairs | |
| **Regional Focus Fields** [1] | | |
| **Total Credits** | | **42** |

[1] Regional focus fields develop broad expertise in a geographic region by clustering courses, including language courses, across several disciplines, typically emphasizing courses in the social sciences. In building regional focus fields, MIPA students take advantage of the university's strong area studies centers, which include:

- African Studies (http://africa.wisc.edu)
- East Asian Studies (http://eastasia.wisc.edu/)
- European Studies (http://uw-madison-ces.org/)
- Latin American, Caribbean, and Iberian Studies (http://lacis.wisc.edu/)
- Middle East Studies (https://mideast.wisc.edu/)
- Russian, East European, and Central Asian Studies (http://creeca.wisc.edu/)
- South Asian Studies (http://southasia.wisc.edu/)
- Southeast Asian Studies (http://seasia.wisc.edu/)

## INTERNATIONAL PUBLIC AFFAIRS AND URBAN AND REGIONAL PLANNING (MIPA/ MS URPL)

The La Follette School of Public Affairs and the Department of Planning and Landscape Architecture offer a double degree Master of Science in

Urban and Regional Planning and a Master of International Public Affairs. Students completing the double degree must follow the double degree plan. The Department of Planning and Landscape Architecture requires 46 credits for the Master of Science in Urban and Regional Planning. The La Follette School requires 42 credits for the Master of International Public Affairs. Per UW-Madison's Graduate School: Double Degrees (https://policy.wisc.edu/library/UW-1205/) policy, an overlap of 25% of credits is permitted (11 credits can count toward both degrees). Students can graduate with both degrees by completing 77 credits in three years.

Graduate coordinators for both programs have sample curricular plans that they will share with prospective or current students to assist with successful completion of all degree requirements.

## POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program approval, students are allowed to transfer no more than 12 credits of graduate coursework from other institutions. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements. This work appears on a UW–Madison transcript as transfer credits into the Graduate career but does not count toward graduate career GPA.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

Students in the MIPA program may transfer up to 7 credits from their undergraduate career at UW-Madison toward the MIPA 42 degree credit total. Credits from other institutions are permitted to transfer, provided grades of B or higher are earned and credits relate to core coursework.

**Note**: Only students in the Accelerated MIPA pathway are permitted to transfer a maximum of 18 credits including graduate Public Affairs coursework completed during their undergraduate career at UW-Madison toward the MIPA 42 degree credit total.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

With program approval, students are allowed to transfer no more than 9 credits of coursework numbered 300 or above taken as a UW–Madison University Special student. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

## PROBATION

Students must make satisfactory progress in their La Follette School program and be in good standing, or they may be placed on probation. The La Follette School regularly reviews the records of students who earn grades with associated grade points of less than 3.00, e.g., BC, C, D, F or I in courses numbered 300 or above. This review may result in academic probation or a hold on future enrollment, and may lead to dismissal from the La Follette School.

Students must maintain a minimum cumulative GPA of 3.0 each semester/term of enrollment, including summer. Students whose cumulative GPA falls below this level will be placed on academic probation by the Graduate School. Students who do not obtain a subsequent term and cumulative GPA of 3.0 to come off probation may be dismissed from the program. Please also refer to the Graduate School Probation policy. (https://policy.wisc.edu/library/UW-1217/)

## ADVISOR / COMMITTEE

Every graduate student will have one faculty advisor in addition to one graduate program staff member assigned to support their academic progress.

## CREDITS PER TERM ALLOWED

Two-Year MIPA: Credit load by term varies. Students typically take 10 credits in their first semester in the program, increasing to 12 credits for the next two semesters so that they can plan a lighter load of 9 credits when in their final spring semester due to demands from their workshop course. Students need advisor approval to take 15 credits.

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)

- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## L&S POLICY FOR GRADUATE STUDENT ACADEMIC APPEALS

Graduate students have the right to appeal an academic decision related to an L&S graduate program if the student believes that the decision is inconsistent with published policy.

Academic decisions that may be appealed include:

- Dismissal from the graduate program
- Failure to pass a qualifying or preliminary examination
- Failure to achieve satisfactory academic progress
- Academic disciplinary action related to failure to meet professional conduct standards

Issues such as the following cannot be appealed using this process:

- A faculty member declining to serve as a graduate student's advisor.
- Decisions regarding the student's disciplinary knowledge, evaluation of the quality of work, or similar judgements. These are the domain of the department faculty.
- Course grades. These can be appealed instead using the L&S Policy for Grade Appeal (https://kb.wisc.edu/ls/22258/).
- Incidents of bias or hate, hostile and intimidating behavior (https://hr.wisc.edu/hib/), or discrimination (Title IX (https://compliance.wisc.edu/titleix/), Office of Compliance (https://compliance.wisc.edu/eo-complaint/formal-investigations/)). Direct these to the linked campus offices appropriate for the incident(s).

### Appeal Process for Graduate Students

A graduate student wishing to appeal an academic decision must follow the process in the order listed below. Note time limits within each step.

1. The student should first seek informal resolution, if possible, by discussing the concern with their academic advisor, the department's Director of Graduate Studies, and/or the department chair.
2. If the program has an appeal policy listed in their graduate program handbook, the student should follow the policy as written, including adhering to any indicated deadlines. In the absence of a specific departmental process, the chair or designee will be the reviewer and decision maker, and the student should submit a written appeal to the chair within 15 business days of the academic decision. The chair or designee will notify the student in writing of their decision.
3. If the departmental process upholds the original decision, the graduate student may next initiate an appeal to L&S. To do so, the student must submit a written appeal to the L&S Assistant Dean for Graduate Student Academic Affairs within 15 business days of notification of the department's decision.
    a. To the fullest extent possible, the written appeal should include, in a single document: a clear and concise statement of the academic decision being appealed, any relevant background on what led to the decision, the specific policies involved, the relief sought, any relevant documentation related to the departmental appeal, and the names and titles of any individuals contributing to or involved in the decision.
    b. The Assistant Dean will work with the Academic Associate Dean of the appropriate division to consider the appeal. They may seek additional information and/or meetings related to the case.
    c. The Assistant Dean and Academic Associate Dean will provide a written decision within 20 business days.
4. If L&S upholds the original decision, the graduate student may appeal to the Graduate School. More information can be found on their website: Grievances and Appeals (https://grad.wisc.edu/documents/grievances-and-appeals/) (see: Graduate School Appeal Process).

# PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

## GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## PROGRAM RESOURCES

### International Public Affairs Careers

Career development is an integral part of the La Follette School experience, and the La Follette School's graduate career outcomes (https://lafollette.wisc.edu/career-development/graduate-career-outcomes/) data show extremely high percentages of employment three to six months post-graduation. The La Follette School offers:

- Visits with local employers, as well as trips focused on local, regional, and federal careers
- Networking opportunities
- Career development seminars with public affairs professionals
- Connections with alumni mentors

The Director of Career and Employer Services works with students one-on-one to develop essential skills, such as interviewing, writing strong cover letters and resumes, and researching internships and permanent employment. During the first semester course PUB AFFR 800:  (https://lafollette.wisc.edu/course/pa-800-professional-development-workshop/)Professional Development Workshop (https://www.lafollette.wisc.edu/degree-programs/courses/pa-800-professional-development-workshop/), students also create an individual plan and portfolio that help them proactively move toward their academic and professional goals.

La Follette School alumni work in all levels of government, nonprofit organizations, and the private sector. Popular positions include policy analyst, consultant, executive director, research analyst, project manager, and government liaison. MIPA alumni have held positions with these agencies, organizations, and businesses:

- African Development Bank Group
- American Institutes for Research
- Bill & Melinda Gates Foundation
- Global Fund for Women
- Millenium Challenge Corporation

- Morgan Stanley International
- National Endowment for Democracy
- Peace Corps
- United Nations Development Programme
- U.S. Agency for International Development
- U.S. Central Intelligence Agency
- U.S. Department of Homeland Security
- U.S. Department of State

Please refer to the Career Hub (https://career.lafollette.wisc.edu/) on the La Follette School website for more information (https://lafollette.wisc.edu/).

## LEARNING OUTCOMES

## LEARNING OUTCOMES

1. (Knowledge) Students will demonstrate understanding of major current and past policy debates, research findings, and analytical methodologies in each of the following core areas: microeconomic policy analysis, macroeconomic policy analysis, quantitative tools for policy analysis, policy analysis, and international governance.
2. (Knowledge) Students will demonstrate critical thinking skills. They will retrieve and examine the policy literature and evaluate evidence for and against hypotheses, identify knowledge gaps, strengths and weaknesses in existing literature, synthesize knowledge, and develop conclusions.
3. (Applied research skills) Students will read, comprehend, and effectively summarize policy research and policy-relevant academic research.
4. (Applied research skills) Students will effectively summarize data for a general (nonacademic) or policy audience.
5. (Applied research skills) Students will demonstrate competency in methods of inferential statistics including those associated with multivariate regression models.
6. (Professional and ethical conduct) Students will identify and appropriately respond to scenarios involving the ethical and professional responsibilities of public administration.
7. (Professional and ethical conduct) Students will demonstrate the ability to maintain human subjects protections when designing studies, collecting data and reporting results.
8. (Professional and ethical conduct) Students will know and adhere to high levels of professional conduct, ethical decision-making and legal and regulatory compliance.
9. (Professional and ethical conduct) Students will demonstrate the ability to maintain fidelity to objective social science-based research methods.
10. (Communication) Students will communicate in clear written language: a real-world policy problem, relevant scholarly studies and practical applications, a policy-analytic method to investigate the problem, and client-oriented advice to mitigate the problem.
11. (Communication) Students will communicate substance of point 1 highly concisely and in language understandable to a non-specialist.
12. (Communication) Students will communicate substance of point 2 orally.
13. (Professional skills and career preparation) Students will develop effective job-seeking tools and utilize job-seeking techniques.
14. (Professional skills and career preparation) Students will complete high quality group projects, including demonstration of effective project management and teamwork.

# PUBLIC AFFAIRS, MPA

The Master of Public Affairs (MPA) Program provides education in public management and policy analysis that prepares students for careers in public policy and administration in government, private, and nonprofit sectors.

The award-winning La Follette School faculty includes economists, political scientists, sociologists, and public affairs scholars who teach the skills and tools needed for a career in public affairs. They are experts in social policy, health policy and management, public administration, public policy analysis, environmental policy, poverty, and tax policy and government finance.

Beyond campus, the city of Madison, as the state capital, provides a wealth of opportunities for La Follette School students to participate in outreach and acquire practical experience as professional project assistants or interns with public and private entities. Students benefit from the strong relationships that La Follette School faculty have with these organizations, in keeping with the Wisconsin Idea of public service. This includes bringing together legislators, policymakers, and researchers to inform government decision-making for policies that make a positive impact on people's lives.

## PUBLIC AFFAIRS DOUBLE DEGREES, DUAL DEGREES, AND CERTIFICATE PROGRAMS

Some students earn additional credentials while they work toward their public affairs degrees. Students must follow double degree (https://grad.wisc.edu/acadpolicy/?policy=doubledegrees) and dual degree (https://grad.wisc.edu/acadpolicy/?policy=dualdegreesgradprof) policies. The following combined degree and certificate programs are available, though students choose to embark on double and dual degrees and graduate certificates beyond those listed below:

- Law (Juris Doctorate)
- Master of Public Health
- Master of Science in Urban and Regional Planning
- Doctorate in Neuroscience
- Energy Analysis and Policy Certificate through the Nelson Institute in Environmental Studies
- Business, Environment, & Social Responsibility; Entrepreneurship; or Strategic Innovation offered through the School of Business.

### LAW AND PUBLIC AFFAIRS (MPA/JD)

Increasingly, careers in the federal, state, and local governments, as well as nonprofit organizations and private sector businesses, require an understanding of public administration, policy analysis, and public affairs, as well as law. Many students choose to pursue the dual law and public affairs degree because of their interest in employment in government agencies, government relations law practice, or other policy-oriented firms and organizations.

For most students, the dual degree program will add about a year of study to the three years it takes to complete law school but will save

approximately one year of study compared to doing the two programs separately. Students earn a Master of Public Affairs degree and a Juris Doctor.

It is recommended that applicants apply for admission to both programs at the time of application.

## PUBLIC HEALTH AND PUBLIC AFFAIRS (MPA/MPH)

The La Follette School and the School of Medicine and Public Health offer education in public health policy, policy analysis, and global governance to address critical health and health policy issues in the United States and throughout the world.

The dual degree program takes three years to complete, including summers. Students earn a Master of Public Affairs degree and a Master of Public Health degree.

It is recommended that applicants apply to both programs at the same time, though admitted students may apply to whichever degree program they are not yet in during their first year.

## NEUROSCIENCE AND PUBLIC AFFAIRS (MPA/PHD)

Advances in neuroscience have important policy implications for child welfare and education, community development, mental health and health care, bioethics and aging, environmental risks, and national security. The Neuroscience and Public Policy Program (NPP) courses prepare students to work in the growing array of domestic or international policy jobs involved in the management of science and its integration into policy analysis and design. Students become good scientists and effective communicators, managers, and advocates of good public policy.

This combined degree program typically takes five years to complete, including summers. Students earn a Master of Public Affairs degree and a Doctor of Philosophy in Neuroscience. Degree requirements are completed in the first three years. The focus of the fourth year is on research and thesis development, as well as completion of the PhD Preliminary Exam. Students continue doing research and defend their thesis in the fifth year.

It is recommended that applicants apply for admission to both programs at the time of application.

## URBAN AND REGIONAL PLANNING AND PUBLIC AFFAIRS (MPA/MS IN URPL)

The La Follette School and the Department of Planning and Landscape Architecture offer education in planning, policymaking, and public affairs to address domestic and global environmental, housing, and transportation policy issues. This double degree takes three years to complete, including summers. Students earn a Master of Public Affairs degree and a Master of Science in Urban and Regional Planning.

It is recommended that applicants apply to both programs at the same time, though admitted students may apply to whichever degree program they are not yet in during their first year.

# ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | January 1 |
| Spring Deadline | This program does not admit in the spring. |
| Summer Deadline | This program does not admit in the summer. |
| GRE (Graduate Record Examinations) | May be required in certain cases; consult program.* |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 2 |

* Applicants must either submit a GRE test score or quantitative essay. See 'Application Materials' below for more information.

## APPLICATION MATERIALS

All parts of the application are detailed on the La Follette School's Graduate Admissions Requirements page (https://lafollette.wisc.edu/graduate/admissions/graduate-admissions-requirements/), including the statement of purpose prompts. They include:

- Resume / CV
- Statement of purpose prompts, word limits, and directions
- Two letters of recommendation
- Unofficial transcript showing a minimum GPA of 3.0 out of 4.0 (or equivalent)
- GRE test scores: applicants must either submit a GRE test score or quantitative essay
- Supplemental application including:
  - Prerequisite check
  - Applicants not submitting GRE test score must include a required quantitative essay addressing current or past academic, research, or professional work requiring quantitative or analytic skill or experience and how it has prepared you for graduate study in public affairs

## PREREQUISITES

Prerequisites are expected to be completed at the time of application and include:

| Code | Title | Credits |
|---|---|---|
| **Introductory Microeconomics** | | |
| Complete one course | | |
| PUB AFFR 380 | Analytic Tools for Public Policy | |
| A A E 101 | Introduction to Agricultural and Applied Economics | |
| ECON 101 | Principles of Microeconomics | |
| ECON 111 | Principles of Economics-Accelerated Treatment | |
| POLI SCI 350 | International Political Economy | |
| **Introduction to Statistics or Calculus** | | |
| Complete one course | | |
| STAT 301 | Introduction to Statistical Methods | |
| STAT 371 | Introductory Applied Statistics for the Life Sciences | |
| MATH 211 | Survey of Calculus 1 | |
| MATH 221 | Calculus and Analytic Geometry 1 | |
| POLI SCI 270 | Political Data Science | |
| PSYCH 210 | Basic Statistics for Psychology | |
| SOC/ C&E SOC 360 | Statistics for Sociologists I | |
| **Introduction to American Government** | | |
| POLI SCI 104 | Introduction to American Politics and Government | |

The program may require admitted applicants to take the on-campus English as a Second Language Assessment Test (https://esl.wisc.edu/international-students/placement/) and register for any recommended English as a second language course(s) in the first semester of graduate study.

**The La Follette School of Public Affairs only admits for the fall semester.** The priority deadline for admission is listed above in the table. Applications are accepted after this date on a rolling admission basis, but there is no guarantee that space in the incoming class will be available.

**The final deadlines for applicants to apply during rolling admission are June 1 (international applicants) and August 1 (domestic applicants).**

**Note:** Accelerated students are not able to apply to the dual or double degree programs with the La Follette School because of the rigorous schedule of the coursework.

# FUNDING

## FUNDING

### GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

### PROGRAM RESOURCES

The La Follette School offers a limited number of fellowships, assistantships, and scholarships on a merit basis to select public affairs applicants who submit all application materials by **January 1**. Domestic applicants are encouraged to submit a FAFSA in December.

Please refer to the Funding and Financial Information (https://www.lafollette.wisc.edu/admissions/funding-financial-information/) section of the La Follette School website for more information (www.lafollette.wisc.edu).

# REQUIREMENTS

## MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

## MAJOR REQUIREMENTS

### MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | Yes |

#### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

### CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 42 credits |
| Minimum Residence Credit Requirement | 16 credits |

| | |
|---|---|
| Minimum Graduate Coursework Requirement | 21 credits must be completed in graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required.<br>Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | Students must earn a BC or above in all core curriculum coursework. A grade of C is the minimum grade permitted in elective courses that count toward a La Follette School degree. |
| Assessments and Examinations | n/a |
| Language Requirements | No language requirement. |

## REQUIRED COURSES

Students must complete 42 credits, including six core courses, a one-credit professional development seminar, plus eight elective courses. An internship can count for up to three elective credits. The program generally takes two years. See La Follette School website for detailed degree plans.

| Code | Title | Credits |
|---|---|---|
| **Core MPA Courses** | | |
| Seven required courses are the foundation of the MPA degree program. Students must complete the following: | | |
| PUB AFFR 800 | Public Affairs Professional Development Workshop | 1 |
| PUB AFFR 818 | Introduction to Statistical Methods for Public Policy Analysis | 3 |
| PUB AFFR/ POLI SCI/ URB R PL 874 | Policy-Making Process | 3 |
| PUB AFFR 880 | Microeconomic Policy Analysis | 3 |
| PUB AFFR 873 | Introduction to Policy Analysis | 3 |
| PUB AFFR/ POLI SCI/ URB R PL 878 | Public Management | 3 |
| PUB AFFR 869 | Workshop in Public Affairs | 3 |
| **Recommended Electives in Public Affairs** | | |
| Students build proficiency beyond the core requirements through elective courses that include but are not limited to: | | 23 |
| PUB AFFR 520 | Inequality, Race and Public Policy | |
| PUB AFFR 819 | Advanced Statistical Methods for Public Policy Analysis | |
| PUB AFFR 827 | Administrative Internship | |
| PUB AFFR/ POLI SCI 871 | Public Program Evaluation | |
| PUB AFFR/ A A E/ENVIR ST/ POP HLTH 881 | Benefit-Cost Analysis | |
| PUB AFFR 974 | Topics in Public Affairs | |
| **Total Credits** | | **42** |

## PUBLIC AFFAIRS AND URBAN AND REGIONAL PLANNING (MPA/MS URPL)

The La Follette School of Public Affairs and the Department of Planning and Landscape Architecture offer a double degree Master of Science in Urban and Regional Planning and a Master of Public Affairs. Students completing the double degree must follow the double degree plan. The Department of Planning and Landscape Architecture requires 46 credits for the Master of Science in Urban and Regional Planning. The La Follette School requires 42 credits for the Master of Public Affairs. Per UW-Madison's Graduate School: Double Degrees (https://policy.wisc.edu/library/UW-1205/) policy, an overlap of 25% of credits is permitted (11 credits can count toward both degrees). Students can graduate with both degrees by completing 77 credits in three years.

Graduate coordinators for both programs have sample curricular plans that they will share with prospective or current students to assist with successful completion of all degree requirements.

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program approval, students are allowed to transfer no more than 12 credits of graduate coursework from other institutions. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements. This work appears on a UW–Madison transcript as transfer credits into the Graduate career but does not count toward graduate career GPA.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

Students in the MPA program may transfer up to 7 credits from their undergraduate career at UW-Madison toward the MPA 42 degree credit total. Credits from other institutions are permitted to transfer, provided grades of B or higher are earned and credits relate to core coursework.

**Note**: Only students in the Accelerated MPA pathway are permitted to transfer a maximum of 18 credits including graduate Public Affairs coursework completed during their undergraduate career at UW-Madison towards the MPA 42 degree credit total.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

With program approval, students are allowed to transfer no more than 9 credits of coursework numbered 300 or above taken as a UW–Madison University Special student. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

## PROBATION

Students must make satisfactory progress in their La Follette School program and be in good standing, or they may be placed on probation. The La Follette School regularly reviews the records of students who earn grades with associated grade points of less than 3.00, e.g., BC, C, D, F or I in courses numbered 300 or above. This review may result in academic probation or a hold on future enrollment, and may lead to dismissal from the La Follette School.

Students must maintain a minimum cumulative GPA of 3.0 each semester/term of enrollment, including summer. Students whose cumulative GPA falls below this level will be placed on academic probation by the Graduate School. Students who do not obtain a subsequent term and cumulative GPA of 3.0 to come off probation may be dismissed from the program. Please also refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Every graduate student will have one faculty advisor in addition to one graduate program staff member assigned to support their academic progress.

## CREDITS PER TERM ALLOWED

Two-Year MPA: Credit load by term varies. Students typically take 10 credits in their first semester in the program, increasing to 12 credits for the next two semesters so that they can plan a lighter load of 9 credits when in their final spring semester due to demands from their workshop course. Students need advisor approval to take 15 credits.

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## L&S POLICY FOR GRADUATE STUDENT ACADEMIC APPEALS

Graduate students have the right to appeal an academic decision related to an L&S graduate program if the student believes that the decision is inconsistent with published policy.

Academic decisions that may be appealed include:

- Dismissal from the graduate program
- Failure to pass a qualifying or preliminary examination
- Failure to achieve satisfactory academic progress
- Academic disciplinary action related to failure to meet professional conduct standards

Issues such as the following cannot be appealed using this process:

- A faculty member declining to serve as a graduate student's advisor.
- Decisions regarding the student's disciplinary knowledge, evaluation of the quality of work, or similar judgements. These are the domain of the department faculty.
- Course grades. These can be appealed instead using the L&S Policy for Grade Appeal (https://kb.wisc.edu/ls/22258/).
- Incidents of bias or hate, hostile and intimidating behavior (https://hr.wisc.edu/hib/), or discrimination (Title IX (https://compliance.wisc.edu/titleix/), Office of Compliance (https://compliance.wisc.edu/eo-complaint/formal-investigations/)). Direct these to the linked campus offices appropriate for the incident(s).

### Appeal Process for Graduate Students

A graduate student wishing to appeal an academic decision must follow the process in the order listed below. Note time limits within each step.

1. The student should first seek informal resolution, if possible, by discussing the concern with their academic advisor, the department's Director of Graduate Studies, and/or the department chair.
2. If the program has an appeal policy listed in their graduate program handbook, the student should follow the policy as written, including adhering to any indicated deadlines. In the absence of a specific departmental process, the chair or designee will be the reviewer and decision maker, and the student should submit a written appeal to the chair within 15 business days of the academic decision. The chair or designee will notify the student in writing of their decision.
3. If the departmental process upholds the original decision, the graduate student may next initiate an appeal to L&S. To do so, the

student must submit a written appeal to the L&S Assistant Dean for Graduate Student Academic Affairs within 15 business days of notification of the department's decision.
   a. To the fullest extent possible, the written appeal should include, in a single document: a clear and concise statement of the academic decision being appealed, any relevant background on what led to the decision, the specific policies involved, the relief sought, any relevant documentation related to the departmental appeal, and the names and titles of any individuals contributing to or involved in the decision.
   b. The Assistant Dean will work with the Academic Associate Dean of the appropriate division to consider the appeal. They may seek additional information and/or meetings related to the case.
   c. The Assistant Dean and Academic Associate Dean will provide a written decision within 20 business days.
4. If L&S upholds the original decision, the graduate student may appeal to the Graduate School. More information can be found on their website: Grievances and Appeals (https://grad.wisc.edu/documents/grievances-and-appeals/) (see: Graduate School Appeal Process).

### OTHER

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

### PROGRAM RESOURCES

#### Public Affairs Careers

Career development is an integral part of the La Follette School experience, and the La Follette School's graduate career outcomes (https://lafollette.wisc.edu/career-development/graduate-career-outcomes/) data show extremely high percentages of employment three to six months post-graduation. The La Follette School offers:

- Visits with local employers, as well as trips focused on local, regional, and federal careers;
- Networking opportunities;
- Career development seminars with public affairs professionals; and
- Connections with alumni mentors.

The Director of Career and Employer Services works with students one-on-one to develop essential skills, such as interviewing, writing strong cover letters and resumes, and researching internships and permanent employment. During the first-semester course PUB AFFR 800: (https://lafollette.wisc.edu/course/pa-800-professional-development-workshop/)Professional Development Workshop (https://www.lafollette.wisc.edu/degree-programs/courses/pa-800-professional-development-workshop/), students also create an individual plan and portfolio that help them proactively move toward their academic and professional goals.

La Follette School alumni work in all levels of government, nonprofit organizations, and the private sector. Popular positions include policy analyst, consultant, executive director, research analyst, project manager, and government liaison. MPA alumni have held positions with these agencies, organizations, and businesses:

- Congressional Research Service
- Deloitte
- Federal Bureau of Investigation
- Guidehouse
- Invenergy LLC
- Kids Forward
- Mathematica Policy Research
- National Council on Crime and Delinquency
- U.S. Government Accountability Office
- U.S. Department of Transportation
- Wisconsin Department of Health Services
- Wisconsin Legislative Audit Bureau

Please refer to the Career Hub (https://career.lafollette.wisc.edu/) on the La Follette School website for more information (https://lafollette.wisc.edu/).

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. (Knowledge) Demonstrate understanding of major current and past policy debates, research findings, and analytical methodologies in each of the following core areas: microeconomic policy analysis, quantitative tools for policy analysis, policy analysis, the policymaking process, and public management.
2. (Knowledge) Demonstrate critical thinking skills. They will retrieve and examine the policy literature and evaluate evidence for and against hypotheses, identify knowledge gaps, strengths and weaknesses in existing literature, synthesize knowledge, and develop conclusions.
3. (Applied Research Skills) Read, comprehend, and effectively summarize policy research and policy-relevant academic research.
4. (Applied Research Skills) Effectively summarize data for a general (non-academic) or policy audience.
5. (Applied Research Skills) Demonstrate competency in methods of inferential statistics including those associated with multivariate regression models.
6. (Professional and Ethical Conduct) Identify and appropriately respond to scenarios involving the ethical and professional responsibilities of public administration.
7. (Professional and Ethical Conduct) Demonstrate the ability to maintain human subjects protections when designing studies, collecting data and reporting results.
8. (Professional and Ethical Conduct) Know and adhere to high levels of professional conduct, ethical decision-making and legal and regulatory compliance.
9. (Professional and Ethical Conduct) Demonstrate the ability to maintain fidelity to objective social science-based research methods.
10. (Communication) Communicate in clear written language: a real-world policy problem, relevant scholarly studies and practical applications, a policy-analytic method to investigate the problem, and client-oriented advice to mitigate the problem.
11. (Communication) Communicate substance of point 1 highly concisely and in language understandable to a non-specialist.
12. (Communication) Communicate substance of point 2 orally.

13. (Professional Skills and Career Preparation) Develop effective job-seeking tools and utilize job-seeking techniques.
14. (Professional Skills and Career Preparation) Complete high quality group projects, including demonstration of effective project management and teamwork.

# LANGUAGE INSTITUTE

## DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

## DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/ PROFESSIONAL CERTIFICATES

- Second Language Acquisition, Doctoral Minor (p. 1276)
- Second Language Acquisition, PhD (p. 1277)

# SECOND LANGUAGE ACQUISITION, DOCTORAL MINOR

The Option A minor in Second Language Acquisition (SLA) offers graduate students both a theoretical and a practical background in the increasingly important area of SLA. After completing the minor, students will be prepared to understand research in SLA and to develop teaching curricula based on principles of second language learning and teaching.

## ADMISSIONS

## ADMISSIONS

Students wishing to minor in Second Language Acquisition (SLA) should first contact the relevant SLA committee member (https://sla.wisc.edu/steering-committee/) in their department who will refer them to the SLA minor advisor. Students declaring the doctoral minor are required to meet with the minor advisor, before registering for courses.

Students without a background in linguistics and language pedagogy are encouraged to complete introductory linguistics and teaching methodology courses before starting the doctoral minor.

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any doctoral minor. To apply to this minor, log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. Select the information for the doctoral minor for which you are applying.

| SPANISH 815 | Seminar in Language: Modern Spanish [1] | 3 |

1 Topics courses. Students should see the Second Language Acquisition doctoral minor advisor for approval of topics appropriate for the minor.
2 Courses must be taken for a total of three credits, in one or multiple enrollments.
3 Second Language Acquisition advisor consent required.

### PRIOR COURSEWORK

Students may transfer up to three credits from prior graduate work toward the minor, upon approval.

# SECOND LANGUAGE ACQUISITION, PHD

Second language acquisition (SLA) is the systematic study of learning, using, and sometimes losing any form of language beyond the mother tongue. SLA is a burgeoning research field because today there are more people on the planet who use at least two languages than there are monolinguals. For individual learners and for every community in diaspora, second language acquisition is an experience that challenges their knowledge of language, their understanding of different cultures, and their personal identities. The experiences and challenges surrounding SLA are studied by scholars whose training is in a variety of fields—linguistics, psychology, sociology, education, anthropology, and communication arts—a variety that makes the study of SLA richly interdisciplinary.

The PhD Program in Second Language Acquisition at the University of Wisconsin–Madison is a rigorous interdisciplinary academic program that embodies the university's mission to foster the study of globally important issues. In their coursework, students in the program learn from and collaborate with experienced and distinguished faculty in many departments and, through their original dissertation research, students generate and contribute new knowledge to the field. Students develop a thorough understanding of the scope of SLA as a field of inquiry, and develop and refine research skills that will serve them as they define and pursue their own research agenda. A PhD in SLA opens the door to scholarly and professional careers as university faculty, directors of foreign language programs, educational policy makers, and multilingual specialists.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 15 |
| Spring Deadline | The program does not admit in the spring. |
| Summer Deadline | The program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

The PhD Program in Second Language Acquisition requires a master's degree in English, TESOL, English as a Second Language, a language other than English (LOTE), applied linguistics, linguistics, or education – and in specific cases (such as with a relevant undergraduate degree or graduate minor), in psychology.

The master's degree should prepare applicants for doctoral studies in a multidisciplinary field focused on how additional languages are acquired. Familiarity with the fundamentals of language study from a theoretical and empirical perspective is expected. Some knowledge of issues pertaining to language learning and teaching is preferred. Graduation requirements for our program require written and oral proficiency in English and another language.

In addition to the application, three letters of recommendation, and unofficial transcripts, applicants must submit the following:

- A Statement of Purpose for Doctoral Studies in Second Language Acquisition at UW-Madison
- Curriculum Vitae
- An academic writing sample
- Responses to the program's supplemental questions

Please refer to the Second Language Acquisition website (https://sla.wisc.edu/admissions/) for details about required application materials (https://sla.wisc.edu/how-to-apply/#application-materials-checklist) and submission methods. Additionally, general admission requirements stipulated by the graduate school (e.g., evidence of English proficiency for international students from some countries) apply.

the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

Students in the SLA program, depending on their qualifications, may receive financial support through several departments, programs, and institutes. Students with a background in foreign language or English teaching may work as graduate teaching assistants (TAs) in departments in which those languages are taught. Other students work as graduate project assistants (PA) for the Language Institute or other units on campus. In addition to these TA and PA positions, select SLA students receive university fellowships upon entry into the program or when working on their dissertations. If they meet the specific eligibility criteria, students may also compete, with the program's support, in other grant and fellowship competitions. Additional funding opportunities are included in the information for current students on the SLA website (https://sla.wisc.edu/content/funding-resources/).

# REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 51 credits |
| Minimum Residence Credit Requirement | 45 credits |
| Minimum Graduate Coursework Requirement | 26 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required.<br>Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | Incompletes must be resolved by the end of the next fall or spring term in which the student is enrolled. In addition, all incompletes must be resolved before students may take any portion of the preliminary examination. |
| Assessments and Examinations | Students must take preliminary exams within one semester of completing coursework.<br><br>The dissertation proposal must be approved by the student's dissertation proposal committee no later than one calendar year after the student becomes a dissertator.<br><br>The last step in completing the PhD in Second Language Acquisition is the successful defense of a doctoral thesis or dissertation, followed by its deposit with the Graduate School. |
| Language Requirements | Typically, the student must demonstrate an advanced level of academic oral and reading proficiency in two languages prior to taking preliminary exams. A plan for meeting this requirement is developed by the student and advisor during the student's first semester in the Program. The plan must be approved by the advisor and the Second Language Acquisition steering committee by the end of the first academic year. |
| Graduate School Breadth Requirement | Because of the broad, interdisciplinary nature of the Second Language Acquisition program course requirements, a doctoral minor or graduate/professional certificate is not required. A minor or certificate is optional, and, in some cases, may be strongly suggested. Students must submit a short statement (2-3 pages) at the end of their third semester, discussing how the courses that they have taken so far, as well as those that they plan to take in the future semester(s), inform their dissertation research and their envisioned career path. |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Core** | | |
| ENGL 318 | Second Language Acquisition | 3 |
| ENGL 711 | Research Methods in Applied Linguistics | 3 |
| **Quantitative Research Methods** | | |
| Students must complete one of the following pre-approved courses. | | 3 |
| ENGL 420 | Topics in English Language and Linguistics | |

| | | |
|---|---|---|
| ENGL 713 | Topics in Contemporary English Linguistics | |
| ED PSYCH 760 | Statistical Methods Applied to Education I | |
| ED PSYCH 761 | Statistical Methods Applied to Education II | |
| SOC/ C&E SOC 360 | Statistics for Sociologists I | |
| **Qualitative Research Methods** | | |
| Students must complete one of the following pre-approved courses. | | 3 |
| AFRICAN 926 | Seminar in Research Methods in African Cultural Studies | |
| CURRIC 714 | Research and Evaluation Paradigms in Curriculum and Instruction | |
| CURRIC 715 | Design of Research in Curriculum and Instruction | |
| CURRIC/ COUN PSY/ ED POL/ ED PSYCH/ELPA/ RP & SE 719 | Introduction to Qualitative Research | |
| CURRIC 916 | Smr: Special Topics in Research & Evaluation in Curriculum & Instruction | |
| ENGL 703 | Research Methods in Composition Studies | |
| **Electives** | | |
| Students choose courses in consultation with advisor. | | 30 |
| **Dissertation** | | |
| Students must complete at least 9 dissertation credits or three semesters. In most cases, students complete four or more semesters. Students enroll in credits in their advisor's department. Departmental authorization likely needed to register. With advisor approval, students may replace three dissertation credits with another three credits of a graduate course that directly support the dissertation. | | 9 |
| **Total Credits** | | **51** |

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program approval, students are allowed to transfer up to 6 credits of graduate coursework from other institutions. Coursework earned ten years or more prior to admission to the Second Language Acquistion Program is not allowed to satisfy requirements.

In addition, typically, students with prior graduate coursework at UW-Madison may only transfer up to 6 credits toward the Second Language Acquistion Program.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

Prior coursework from the undergraduate career may not be transfer.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

Prior coursework from the UW–Madison University Special student career may not transfer.

## PROBATION

Those students not meeting satisfactory progress requirements (found in the Graduate Program Handbook) may be put on probation for a semester.

## ADVISOR / COMMITTEE

Students are required to meet with their advisor at least once each semester to review their progress, select courses, and to discuss any outstanding issues or questions.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Students must submit plans for completing the emphasis requirement and the language requirement for approval by the steering committee within their first year of the program.

Students typically complete all of the coursework requirements within two years of enrolling in the Program. Students are required to complete all coursework and fulfill the language requirement before taking the preliminary examinations.

Students must take the preliminary examination within one semester of completing coursework.

Graduate School regulations require PhD candidates to defend their dissertation five years from the date of passing their preliminary examinations.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)

  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## L&S POLICY FOR GRADUATE STUDENT ACADEMIC APPEALS

Graduate students have the right to appeal an academic decision related to an L&S graduate program if the student believes that the decision is inconsistent with published policy.

Academic decisions that may be appealed include:

- Dismissal from the graduate program
- Failure to pass a qualifying or preliminary examination
- Failure to achieve satisfactory academic progress
- Academic disciplinary action related to failure to meet professional conduct standards

Issues such as the following cannot be appealed using this process:

- A faculty member declining to serve as a graduate student's advisor.
- Decisions regarding the student's disciplinary knowledge, evaluation of the quality of work, or similar judgements. These are the domain of the department faculty.
- Course grades. These can be appealed instead using the L&S Policy for Grade Appeal (https://kb.wisc.edu/ls/22258/).
- Incidents of bias or hate, hostile and intimidating behavior (https://hr.wisc.edu/hib/), or discrimination (Title IX (https://compliance.wisc.edu/titleix/), Office of Compliance (https://compliance.wisc.edu/eo-complaint/formal-investigations/)). Direct these to the linked campus offices appropriate for the incident(s).

### Appeal Process for Graduate Students

A graduate student wishing to appeal an academic decision must follow the process in the order listed below. Note time limits within each step.

1. The student should first seek informal resolution, if possible, by discussing the concern with their academic advisor, the department's Director of Graduate Studies, and/or the department chair.
2. If the program has an appeal policy listed in their graduate program handbook, the student should follow the policy as written, including adhering to any indicated deadlines. In the absence of a specific departmental process, the chair or designee will be the reviewer and decision maker, and the student should submit a written appeal to the chair within 15 business days of the academic decision. The chair or designee will notify the student in writing of their decision.
3. If the departmental process upholds the original decision, the graduate student may next initiate an appeal to L&S. To do so, the student must submit a written appeal to the L&S Assistant Dean for Graduate Student Academic Affairs within 15 business days of notification of the department's decision.
   a. To the fullest extent possible, the written appeal should include, in a single document: a clear and concise statement of the academic decision being appealed, any relevant background on what led to the decision, the specific policies involved, the relief sought, any relevant documentation related to the departmental appeal, and the names and titles of any individuals contributing to or involved in the decision.
   b. The Assistant Dean will work with the Academic Associate Dean of the appropriate division to consider the appeal. They may seek additional information and/or meetings related to the case.
   c. The Assistant Dean and Academic Associate Dean will provide a written decision within 20 business days.
4. If L&S upholds the original decision, the graduate student may appeal to the Graduate School. More information can be found on their website: Grievances and Appeals (https://grad.wisc.edu/documents/grievances-and-appeals/) (see: Graduate School Appeal Process).

## OTHER

Students in the Second Language Acquistion program are typically funded through campus teaching assistantships, project assistantships or through fellowships. Contact the program for more details.

# PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

## GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## PROGRAM RESOURCES

Students in the SLA program benefit from a variety of professional development opportunities organized by students, faculty, and staff. A speaker series offers students the chance to interact with top scholars in the field. In addition, the program organizes workshops in such topics as designing research, publishing, and preparing to go on the job market. An annual graduate student symposium, organized in partnership with students in related programs on campus and other institutions, allows students to gain professional experience organizing a conference and presenting their research before audiences of peers and faculty members from the three institutions and across the country. In addition, Summer Research Partnerships provide opportunities for core faculty and students

to work collaboratively on research projects. These collaborations have led to conference presentations and/or co-authored journal publications.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Demonstrate a strong overall understanding of the scope of the discipline of SLA (e.g., the theories on which research in the field is based; the types of questions that researchers in SLA address; and the variety of techniques used to answer these questions). Demonstrate an in-depth understanding of theories and research findings related to their focal areas of interest.
2. Develop an original research plan that advances a specific area of SLA. Retrieve, evaluate, and interpret academic publications, and use this information to identify a gap in the extant research and to develop theoretical frameworks and research designs for their own research projects. Learn to design realistic and feasible research projects and to prepare necessary protocols.
3. Collect data following relevant protocols and analyze/interpret the resulting data. Reflect on the procedures and results of their own projects to identify strengths, limitations, and implications.
4. Develop skills for disseminating their research in a variety of professional venues and domains through both presentations and manuscript preparation.
5. Participate in and communicate effectively as members of a professional community. Seek opportunities to engage in service to the program, the university and/or the wider community.

# LANGUAGE SCIENCES

## DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

# DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/ PROFESSIONAL CERTIFICATES

- Linguistics, Doctoral Minor (p. 1281)
- Linguistics, MA (p. 1281)
- Linguistics, PhD (p. 1284)

# LINGUISTICS, DOCTORAL MINOR

The doctoral minor in Linguistics is open to PhD students in other departments who wish to broaden their studies with exposure to formal training in linguistics.

Students may choose from a wide variety of courses in linguistic theory, historical linguistics, sociolinguistics, language documentation, and more, selected in consultation with the minor advisor.

## ADMISSIONS

# ADMISSIONS

The Linguistics PhD Minor advisor is the Director of Language Sciences. Students wishing to complete a doctoral minor in Linguistics must consult with the minor advisor before any coursework commences. Courses completed before consultation with the minor advisor may be deemed ineligible to count toward the doctoral minor.

The Linguistics PhD Minor authorization form details the approved course plan. This form must be signed by the minor advisor and the student's major advisor.

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any doctoral minor. To apply to this minor, log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. Select the Linguistics PhD Minor from the list to apply to the program. Upload the signed Linguistics PhD Minor authorization form as part of your application.

See the Language Sciences website (https://langsci.wisc.edu/ph-d-minor/) for more information and to download the minor authorization form.

## REQUIREMENTS

# REQUIREMENTS

The doctoral minor consists of 12 credits in Linguistics chosen in consultation with the Language Sciences Director, who is the minor advisor.

A doctoral minor program must be approved by the minor advisor before it commences. Students should make sure to consult with the minor advisor before taking any courses.

# LINGUISTICS, MA

The MA in linguistics is a non-admitting degree. Language Sciences admits students for the PhD degree in linguistics (p. 1284), and awards a master of arts degree to students in a UW–Madison PhD program upon the completion of the MA requirements. See the Linguistics PhD program entry for details on admission to the PhD program.

## ADMISSIONS

# ADMISSIONS

This master's program is offered for work leading to the PhD. Students may not apply directly for the master's, and should instead see the admissions information for the PhD (http://guide.wisc.edu/graduate/language-sciences/linguistics-phd/).

## FUNDING

# FUNDING

### GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

### PROGRAM RESOURCES

All students admitted to the PhD program are offered funding in the form of fellowships and teaching, research, or project assistantships. See the Linguistics PhD funding page for additional details.

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

### MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

#### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

### CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 24 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | n/a |
| Assessments and Examinations | Submit and defend one prelim paper by the end of the fourth semester. Contact the program for further details. |
| Language Requirements | Knowledge of two languages is required. One must be English. The language requirements can be satisfied in multiple ways and the program should be contacted directly for further details. |

### REQUIRED COURSES

All required courses are to be chosen from LINGUIS courses (https://guide.wisc.edu/courses/linguis/).

- four courses numbered 300-399
- two courses numbered 500-599
- LINGUIS 800 Research Methods and Materials
- one additional course numbered 500 or above (except 800)
- two additional approved courses

## POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

### PRIOR COURSEWORK

#### Graduate Credits Earned at Other Institutions

With program approval, students are allowed to transfer no more than 9 credits of graduate coursework from other institutions. Coursework earned ten years or more prior to admission to a master's or doctoral degree is not allowed to satisfy requirements.

#### Undergraduate Credits Earned at Other Institutions or UW-Madison

No credits from an undergraduate degree are allowed to transfer to fulfill the minimum degree credit requirement.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

With program approval, students are allowed to transfer no more than 9 credits of coursework numbered 300 or above taken as a UW–Madison Special student. However, these credits are not allowed to count toward the 50% graduate coursework minimum unless numbered 700 or above or are taken to meet the requirements of a capstone certificate and has the "Grad 50%" designation. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

## PROBATION

Probation is a warning to a student who is not making satisfactory progress in the Linguistics graduate program. Departmental probation for grades or failure to make satisfactory progress lasts for one academic year (two consecutive semesters), while probation for an unsatisfactory prelim paper or unfinished Incompletes lasts for one semester.

If a student on probation clears up the problem that led to probation within the time period allotted, nothing else happens, and the student can continue with the program.

If the student does not resolve the problem (e.g. raise the GPA or successfully complete a prelim), the student is dropped from the program at the end of the probationary period.

## ADVISOR / COMMITTEE

Every graduate student must have an official faculty advisor. New students are assigned to the program director by default. By the end of the first year, students must decide whom they would like to work with, and must ask that person if they are willing to serve as advisor. If the faculty member agrees, the student is responsible for having the faculty member sign the advisor agreement form, and for making sure that it is placed in the student's file. All permanent faculty members in the Language Sciences program (including affiliated faculty but excluding visiting faculty) may serve as advisors. Faculty from outside Language Sciences may not serve as official advisors, although they may co-chair committees.

Every faculty member has the right to refuse to become a student's advisor. Every graduate student has the right to choose any faculty member as advisor, so long as the faculty member agrees. Students should also feel free to change advisors at any time, without fear of offending a faculty member. If a student changes advisors, a new advisor agreement form must be signed and filed, and the previous advisor must be notified by the student in writing.

The advisor guides the student in the choice of appropriate courses, in the planning of prelims and the dissertation, in choosing prelim committees and the dissertation committee, and in other professional matters. Students are reminded, however, that the fulfillment of departmental requirements is ultimately the student's responsibility.

Each semester, the student must consult in person with the advisor about courses for the following semester. Registration is blocked until this is done and is only unblocked when the student turns in the relevant form to the department, signed by the advisor.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

The prelim paper must be completed by the end of the fourth semester.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)

- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## L&S POLICY FOR GRADUATE STUDENT ACADEMIC APPEALS

Graduate students have the right to appeal an academic decision related to an L&S graduate program if the student believes that the decision is inconsistent with published policy.

Academic decisions that may be appealed include:

- Dismissal from the graduate program
- Failure to pass a qualifying or preliminary examination
- Failure to achieve satisfactory academic progress
- Academic disciplinary action related to failure to meet professional conduct standards

Issues such as the following cannot be appealed using this process:

- A faculty member declining to serve as a graduate student's advisor.
- Decisions regarding the student's disciplinary knowledge, evaluation of the quality of work, or similar judgements. These are the domain of the department faculty.
- Course grades. These can be appealed instead using the L&S Policy for Grade Appeal (https://kb.wisc.edu/ls/22258/).
- Incidents of bias or hate, hostile and intimidating behavior (https://hr.wisc.edu/hib/), or discrimination (Title IX (https://compliance.wisc.edu/titleix/), Office of Compliance (https://compliance.wisc.edu/eo-complaint/formal-investigations/)). Direct these to the linked campus offices appropriate for the incident(s).

### Appeal Process for Graduate Students

A graduate student wishing to appeal an academic decision must follow the process in the order listed below. Note time limits within each step.

1. The student should first seek informal resolution, if possible, by discussing the concern with their academic advisor, the department's Director of Graduate Studies, and/or the department chair.
2. If the program has an appeal policy listed in their graduate program handbook, the student should follow the policy as written, including adhering to any indicated deadlines. In the absence of a specific departmental process, the chair or designee will be the reviewer and decision maker, and the student should submit a written appeal to the chair within 15 business days of the academic decision. The chair or designee will notify the student in writing of their decision.
3. If the departmental process upholds the original decision, the graduate student may next initiate an appeal to L&S. To do so, the student must submit a written appeal to the L&S Assistant Dean for Graduate Student Academic Affairs within 15 business days of notification of the department's decision.
    a. To the fullest extent possible, the written appeal should include, in a single document: a clear and concise statement of the academic decision being appealed, any relevant background on what led to the decision, the specific policies involved, the relief sought, any relevant documentation related to the departmental appeal, and the names and titles of any individuals contributing to or involved in the decision.
    b. The Assistant Dean will work with the Academic Associate Dean of the appropriate division to consider the appeal. They may seek additional information and/or meetings related to the case.
    c. The Assistant Dean and Academic Associate Dean will provide a written decision within 20 business days.
4. If L&S upholds the original decision, the graduate student may appeal to the Graduate School. More information can be found on their website: Grievances and Appeals (https://grad.wisc.edu/documents/grievances-and-appeals/) (see: Graduate School Appeal Process).

## OTHER

Full-time enrollment is assumed in order to satisfy requirements on satisfactory progress as defined in the graduate student handbook.

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Articulates, critiques, or elaborates the theories, research methods, and approaches to inquiry or schools of practice in the field of linguistics.
2. Identifies sources of data and assembles evidence pertaining to questions or challenges in the field of linguistics.
3. Demonstrates understanding of linguistics in a historical, social, or global context.
4. Selects and/or utilizes the most appropriate methodologies and practices.
5. Evaluates or synthesizes information pertaining to questions or challenges in the field of linguistics.
6. Communicates clearly in ways appropriate to the field of linguistics.
7. Recognizes and applies principles of ethical and professional conduct.

# LINGUISTICS, PHD

Language Sciences at UW–Madison is an interdisciplinary hub that houses the PhD program in Linguistics. Students in this program earn a master of arts degree along the way to the PhD—no stand-alone MA program is offered.

The Linguistics PhD program focuses on research in formal theories of language (encompassing cross-linguistic studies in syntax, phonology, and morphology) and the documentation and revitalization of American Indian languages. Our program combines strong theoretical groundwork with opportunities in a diverse range of experimental and innovative research methodologies. Participating faculty come from Language Sciences itself as well as from related cognitive science and language departments across campus. In addition to core areas of linguistic theory, our faculty have expertise in first and second language acquisition, psycholinguistics, historical linguistics, dialect studies, and the linguistics of particular languages or cultural areas, such as signed languages, Spanish and Latin American, East Asian, and Germanic. Students have access to courses, faculty advising, and research opportunities in all of these areas. Students work closely with their graduate advisors in establishing their own areas of specialization and in working out a coherent program within this larger framework.

The ideal candidate will have a Bachelor's degree in Linguistics, a language, or a related cognitive science, and a strong desire to use scientific methods of inquiry to push the boundaries of our understanding of how human language works.

Visit the Language Sciences Research page (https://langsci.wisc.edu/research/) for more information about the diverse linguistics research labs at UW–Madison.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements (https://grad.wisc.edu/apply/requirements/) *of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 23 |
| Spring Deadline | The program does not admit in the spring. |
| Summer Deadline | The program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Every applicant whose native language is not English, or whose undergraduate instruction was not exclusively in English, must provide an English proficiency test score earned within two years of the anticipated term of enrollment. Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/) |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

The department admits only students whose goal is the PhD degree in linguistics. Admission to the PhD program does not require an undergraduate degree in linguistics. Admission is based on the applicant's personal statement, three letters of recommendation, English proficiency scores if applicable, and transcripts of prior academic work. The personal statement is considered carefully to ensure that the applicant's goals are compatible with the program offered by the department.

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

All students admitted to the Linguistics PhD program are offered a full funding package, which typically consists of a fellowship for the first year, and some combination of teaching, project, or research assistantships in subsequent years. Students who enter the program with a Master's degree and relevant teaching experience may be eligible for teaching assistantships in the first year of graduate study. Fellowships and assistantships include tuition remission as well as a stipend, and access to benefits including health insurance.

### Fellowships

Fellowships are administered through the Graduate School, and all new applicants to the Linguistics PhD program are automatically considered, including both domestic and international applicants. Advanced Opportunity Fellowships are also available for students who are U.S. citizens or permanent residents.

### Teaching Assistantships

Language Sciences currently supports teaching assistantships for undergraduate courses such as LINGUIS 101 Human Language or LINGUIS 213 Topics in Sociolinguistics, usually awarded to graduate students after their first year of study. Our students frequently serve as teaching assistants in other departments as well, such as English or language departments, depending on the student's academic experience and particular skill set.

### Project and Research Assistantships

Students awarded a project or research assistantship work closely with a particular professor to aid in their research. The availability of these positions varies from year to year, and will typically be most appropriate for students who are more advanced in the program.

### Outside Grants and Scholarships

Graduate students may apply for their own funding directly as well, such as Foreign Languages & Areas Studies (FLAS) Fellowships (https://flas.wisc.edu/languages/) and National Science Foundation Grants (https://www.nsf.gov/funding/pgm_summ.jsp?pims_id=5408&org=SBE&sel_org=SBE&from=fund). These programs are most appropriate for students who are advanced in the program. The student's faculty advisor will work with the student to determine whether an outside grant is available that matches the student's research program.

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 54 credits |
| Minimum Residence Credit Requirement | 32 credits |
| Minimum Graduate Coursework Requirement | 42 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | Students must maintain a GPA of 3.67 in required Linguistics courses after the third semester. |
| Assessments and Examinations | Submit and defend on two prelim papers. One by the end of the fourth semester and the other by the end of the eighth semester. Contact the program for further details. |
| Language Requirements | Knowledge of three languages is required:<br>• English<br>• a non-Indo-European language or a modern Indic language<br>• Third language determined in consultation with the advisor according to the student's research goals.<br><br>Students must complete their language requirements before their second prelim exam. The language requirements can be satisfied in multiple ways and the program should be contacted directly for further details. |
| Graduate School Breadth Requirements | All doctoral students are required to complete a doctoral minor or graduate/professional certificate. Refer to the Graduate School: Breadth Requirement in Doctoral Training policy: https://policy.wisc.edu/library/UW-1200 (https://policy.wisc.edu/library/UW-1200/).<br><br>A 12-credit or more minor or graduate/professional certificate that is approved by the student's advisor is required. |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| LINGUIS 310 | Phonology | 3 |
| LINGUIS 322 | Morphology | 3 |
| LINGUIS 330 | Syntax | 3 |
| LINGUIS 340 | Semantics | 3 |
| LINGUIS 510 | Phonological Theories | 3 |
| LINGUIS 522 | Advanced Morphology | 3 |
| LINGUIS 530 | Syntactic Theories | 3 |
| LINGUIS 800 | Research Methods and Materials | 3 |
| **Seminars** | | |
| Take 3 seminars (must be 3 credits each) from the following (may repeat the same course number for credit): | | 9 |
| LINGUIS 977 | Seminar | |
| **Thesis** | | |
| Take at least 3 semesters of Thesis (must be 3 credits each) as a dissertator: | | 9 |
| LINGUIS 990 | Thesis | |
| **Breadth** | | **12** |
| **Total Credits** | | **54** |

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program approval, students are allowed to transfer no more than 9 credits of graduate coursework from other institutions. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

No credits from a UW–Madison undergraduate degree are allowed to transfer toward the degree.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

With program approval, students are allowed to transfer no more than 9 credits of coursework numbered 300 or above taken as a UW–Madison Special student. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

## PROBATION

Probation is a warning to a student who is not making satisfactory progress in the Linguistics graduate program. Departmental probation for grades or failure to make satisfactory progress lasts for one academic year (two consecutive semesters), while probation for an unsatisfactory prelim paper or unfinished Incompletes lasts for one semester.

If a student on probation clears up the problem that led to probation within the time period allotted, nothing else happens, and the student can continue with the program.

If the student does not resolve the problem (e.g., raise the GPA or successfully complete a prelim), the student is dropped from the program at the end of the probationary period.

## ADVISOR / COMMITTEE

Every graduate student must have an official faculty advisor. New students are assigned to the program director by default. By the end of the first year, students must decide whom they would like to work with and must ask that person if they are willing to serve as advisor. If the faculty member agrees, the student is responsible for having the faculty member sign the advisor agreement form, and for making sure that it is placed in the student's file. All permanent faculty members in the Language Sciences program (including affiliated faculty but excluding visiting faculty) may serve as advisors. Faculty from outside Language Sciences may not serve as official advisors, although they may co-chair committees.

Every faculty member has the right to refuse to become a student's advisor. Every graduate student has the right to choose any faculty member as advisor, so long as the faculty member agrees. Students should also feel free to change advisors at any time, without fear of offending a faculty member. If a student changes advisors, a new advisor agreement form must be signed and filed, and the previous advisor must be notified by the student in writing.

The advisor guides the student in the choice of appropriate courses, in the planning of prelims and the dissertation, in choosing prelim committees and the dissertation committee, and in other professional matters. Students are reminded, however, that the fulfillment of departmental requirements is ultimately the student's responsibility.

Each semester, the student must consult in person with the advisor about courses for the following semester. Registration is blocked until this is done and is only unblocked when the student turns in the relevant form to the department, signed by the advisor.

## CREDITS PER TERM ALLOWED

15 credits

## TIME LIMITS

The first prelim paper must be completed by the fourth semester, the second prelim paper must be completed by the eighth semester, all language and course requirements must be completed by the end of the semester in which the second prelim paper is defended, and a dissertation proposal must be submitted and defended within two weeks of the defense of the second prelim paper.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## L&S POLICY FOR GRADUATE STUDENT ACADEMIC APPEALS

Graduate students have the right to appeal an academic decision related to an L&S graduate program if the student believes that the decision is inconsistent with published policy.

Academic decisions that may be appealed include:

- Dismissal from the graduate program
- Failure to pass a qualifying or preliminary examination
- Failure to achieve satisfactory academic progress
- Academic disciplinary action related to failure to meet professional conduct standards

Issues such as the following cannot be appealed using this process:

- A faculty member declining to serve as a graduate student's advisor.
- Decisions regarding the student's disciplinary knowledge, evaluation of the quality of work, or similar judgements. These are the domain of the department faculty.
- Course grades. These can be appealed instead using the L&S Policy for Grade Appeal (https://kb.wisc.edu/ls/22258/).
- Incidents of bias or hate, hostile and intimidating behavior (https://hr.wisc.edu/hib/), or discrimination (Title IX (https://compliance.wisc.edu/titleix/), Office of Compliance (https://compliance.wisc.edu/eo-complaint/formal-investigations/)). Direct these to the linked campus offices appropriate for the incident(s).

### Appeal Process for Graduate Students

A graduate student wishing to appeal an academic decision must follow the process in the order listed below. Note time limits within each step.

1. The student should first seek informal resolution, if possible, by discussing the concern with their academic advisor, the department's Director of Graduate Studies, and/or the department chair.
2. If the program has an appeal policy listed in their graduate program handbook, the student should follow the policy as written, including adhering to any indicated deadlines. In the absence of a specific departmental process, the chair or designee will be the reviewer and decision maker, and the student should submit a written appeal to the chair within 15 business days of the academic decision. The chair or designee will notify the student in writing of their decision.
3. If the departmental process upholds the original decision, the graduate student may next initiate an appeal to L&S. To do so, the student must submit a written appeal to the L&S Assistant Dean for Graduate Student Academic Affairs within 15 business days of notification of the department's decision.
   a. To the fullest extent possible, the written appeal should include, in a single document: a clear and concise statement of the academic decision being appealed, any relevant background on what led to the decision, the specific policies involved, the relief sought, any relevant documentation related to the departmental appeal, and the names and titles of any individuals contributing to or involved in the decision.
   b. The Assistant Dean will work with the Academic Associate Dean of the appropriate division to consider the appeal. They may seek additional information and/or meetings related to the case.
   c. The Assistant Dean and Academic Associate Dean will provide a written decision within 20 business days.
4. If L&S upholds the original decision, the graduate student may appeal to the Graduate School. More information can be found on their website: Grievances and Appeals (https://grad.wisc.edu/documents/grievances-and-appeals/) (see: Graduate School Appeal Process).

### OTHER

Full-time enrollment is assumed in order to satisfy requirements on satisfactory progress as defined in the graduate student handbook.

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Articulates research problems, potentials, and limits with respect to theory, knowledge, or practice within the field of linguistics.
2. Formulates ideas, concepts, designs, and/or techniques beyond the current boundaries of knowledge within linguistics.
3. Creates research that makes a substantive contribution to the understanding of human language.
4. Demonstrates breadth within their learning experiences.
5. Advances contributions of the field of linguistics to society.
6. Communicates complex ideas in a clear and understandable manner.
7. Fosters ethical and professional conduct.

# LAW - SCHOOL-WIDE

## DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

# DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/ PROFESSIONAL CERTIFICATES

- Health Advocacy, Graduate/Professional Certificate (p. 1288)
- Law, Doctoral Minor (p. 1290)

# HEALTH ADVOCACY, GRADUATE/PROFESSIONAL CERTIFICATE

The Health Advocacy certificate program educates a diversity of learners interested in health advocacy. Students around the country come to learn critical health advocacy skills while helping patients navigate the complex health care system.

Students have the opportunity to collaborate with the Center for Patient Partnerships, a national resource for strengthening the consumer perspective in health care. We have graduate students from Law, Medicine, Pharmacy, Physician Assistant, Physical Therapy, Public Health,

Social Work, Gender and Women's Studies, Engineering, and others participating in our certificate program.

Additional opportunities are available in patient experience research and organizational and legislative policy advocacy through student-led "case to cause" projects.

Click on the Requirements tab on the right side navigation bar for general program requirements. Please email learning@cpp.wisc.edu to talk to an advisor.

## ADMISSIONS

# ADMISSIONS

All currently enrolled graduate and professional students at UW–Madison are eligible to pursue this certificate program. We do not require any health care knowledge/background.

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any graduate/professional certificate. To apply to this certificate, log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. Select the information for the certificate for which you are applying. Professional students in the careers of Law, Medicine, Pharmacy, and Veterinary cannot add the certificate in the Graduate Student Portal, and should contact the program for more information.

## REQUIREMENTS

# REQUIREMENTS

## REQUIRED COURSES

The certificate is a total of 12 credits, including 9 core credits and 3 elective credits.

| Code | Title | Credits |
|---|---|---|
| **Core** | | |
| Students must complete the following courses. | | |
| LAW/NURSING 768 | Health Justice Clinic (Topic: Applied Advocacy Experience Introduction) | 3 |
| LAW/NURSING 768 | Health Justice Clinic (Topic: Applied Advocacy Experience Advanced) | 3 |
| LAW 940 | Law and Contemporary Problems (Topic: Models of System Level Advocacy) | 3 |
| **Electives** | | |
| Students choose one course from the topics listed below. | | 3 |
| **Total Credits** | | **12** |

### Law, Regulation, and Ethics Electives

Courses in this area address fundamental substantive knowledge and critical thinking relevant to complex legal, regulatory, or ethical matters health advocates will face.

| Code | Title | Credits |
|---|---|---|
| LAW 744 | Administrative Law | 3 |
| LAW 825 | Insurance Law | 3-4 |
| LAW 913 | Mental Health Law | 2-3 |
| LAW 935 | Health Law | 2-3 |
| LAW 940 | Law and Contemporary Problems (Topic: Food & Drug Law) | 1-3 |
| LAW 940 | Law and Contemporary Problems (Topic: ERISA) | 1-3 |
| LAW 940 | Law and Contemporary Problems (Topic: Health Care Fraud and Abuse) | 1-3 |
| LAW 940 | Law and Contemporary Problems (Topic: Public Health Law) | 1-3 |
| MED HIST 559 | Topics in Ethics and History of Medicine | 3 |
| MED HIST 545 | Ethical and Regulatory Issues in Clinical Investigation | 1 |
| PHILOS/ MED HIST 558 | Ethical Issues in Health Care | 3 |

### Health Economics Electives

Courses in this elective area address fundamental substantive knowledge and critical thinking regarding health care financing and economics.

Students who choose this elective are required to discuss their course selection with a Certificate Advisor and the chosen course faculty

| Code | Title | Credits |
|---|---|---|
| POP HLTH 650 | Special Topics (Topic: Advanced Seminar in Health & Mental Health Economics) | 1-6 |
| PUB AFFR/ECON/ POP HLTH 548 | The Economics of Health Care | 3-4 |
| ECON/ POP HLTH 848 | Health Economics | 1-3 |

### Policy, Management, and Public Health Electives

Courses in this elective area address fundamental substantive knowledge and critical thinking regarding health policy, management, or public health issues.

| Code | Title | Credits |
|---|---|---|
| NURSING 703 | Health Care and Public Policy | 3 |
| NURSING 761 | Health Program Planning, Evaluation, and Quality Improvement | 3 |
| POP HLTH/ ENVIR ST 471 | Introduction to Environmental Health | 3 |
| POP HLTH 650 | Special Topics | 1-6 |
| PUBLHLTH 780 | Evidence-Based Decision-Making | 3 |
| SOC WORK 875 | Health, Aging, and Disability Policy and Services | 2 |

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Develop advocacy capacity that emphasizes patient empowerment.
2. Develop critical health advocacy competencies including communication, collaborative decision making, cultural humility, and ethics.

3. Experience the discipline of advocacy from a case-based perspective, and explore how various key advocacy roles can be useful in specific situations.
4. Gain familiarity with the U. S. health care delivery system and the systemic problems that give rise to the need for advocacy at the individual organizational and policy levels.

# LAW, DOCTORAL MINOR

A combination of Law School courses totaling 10 credits may be used to earn the doctoral minor in Law. While there are no required courses, it may be in the student's best interest to consider a combination of courses around a common theme. Prospective students may find the curricular resources available at this Law School website (https://law.wisc.edu/academics/curriculum/#specialized) particularly helpful - specifically the "Areas of Study Curriculum Guides" and "Curricular Concentrations."

Students may also find the full list of LAW (https://guide.wisc.edu/courses/law/) courses useful in their planning, though do note that most courses are offered on a rotating basis. Please consult the campus enrollment tool for current semester offerings or contact the Law School Registrar with any questions.

## ADMISSIONS

## ADMISSIONS

Only enrolled, non-dissertator PhD students can pursue a doctoral minor in Law. Besides the process explained below, there is no additional process for applying for this doctoral minor. The doctoral minor is not officially recorded on the student's transcript until it is completed and the doctoral degree is conferred.

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any doctoral minor. To apply to this minor, log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. Select the information for the doctoral minor for which you are applying.

## REQUIREMENTS

## REQUIREMENTS

### REQUIRED COURSES

Students must complete 10 credits. The minimum grade requirement is a weighted average of B (on the university, not Law School, grade scale).

When 10 Law (LAW (https://guide.wisc.edu/courses/law/)) credits for the law minor are complete, contact the Law Registrar (see contact box). The Law Registrar will verify courses, credits and grades and approve the doctoral minor.

### ENROLLMENT

To enroll in Law courses, select the desired course(s) and contact the instructor directly explaining the interest in the class and to request permission to enroll. Forward the instructor's permission to the Law Registrar (see contact box) and you will be notified when you may enroll in the course.

# LIFE SCIENCES COMMUNICATION

## DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

## DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

- Life Sciences Communication, Doctoral Minor (p. 1290)
- Life Sciences Communication, MS (p. 1291)
- Science Communication, Graduate/Professional Certificate (p. 1296)
- Science Communication, PhD (p. 1297)

# LIFE SCIENCES COMMUNICATION, DOCTORAL MINOR

The Life Sciences Communication Doctoral Minor is being renamed Science Communication Doctoral Minor. Students will be able to earn a Life Sciences Communication Doctoral Minor through the end of Summer 2027. Beginning in Fall 2027, the program awarded will be the Doctoral Minor in Science Communication.

The Department of Life Sciences Communication is a world leader in science communication research, education, and practice. The doctoral minor in Life Sciences Communication allows students enrolled in doctoral programs from the biological and physical sciences, as well as interested students from other social science and humanities departments, to supplement their existing doctoral coursework with a transcriptable minor in Life Sciences Communication.

A doctoral minor in Life Sciences Communication is particularly valuable for graduate students in the natural and physical sciences who are interested in the ethical, legal, and social implications of emerging technologies, or who want to build an intellectual foundation for a future career in policy or various mission agencies (e.g., AAAS policy fellowships) dealing with public understanding and communication of science. Many students from these fields routinely take classes in our department, and a doctoral minor allows them to get formal recognition for their doctoral-level work in this area.

More information may be found on the department website (https://lsc.wisc.edu/).

## ADMISSIONS

## ADMISSIONS

The doctoral minor in Life Sciences Communication is a course-based minor for students enrolled in other PhD programs who would like to

supplement their existing PhD coursework with a minor in science communication.

Students are strongly encouraged to contact the academic advising manager or Director of Graduate Studies (see Contact Information box on this page for emails) to discuss course planning.

Students are not allowed to earn both the doctoral minor in life sciences communication and science communication graduate/professional certificate.

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any doctoral minor. To apply to this minor, log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs (https://grad.wisc.edu/documents/change-program/). Select the information for the doctoral minor for which you are applying.

## REQUIREMENTS

# REQUIREMENTS

## GRADE REQUIREMENT

A minimum cumulative GPA of a 3.5 in doctoral minor coursework is required.

## REQUIRED COURSES

Courses must be numbered 300 or above with the "Grad 50%" designation. Contact the academic advising manager to discuss course selection for the minor.

| Code | Title | Credits |
|---|---|---|
| **Core** | | |
| Students must complete the following courses. | | |
| LSC 700 | Colloquium in Life Sciences Communication | 1 |
| LSC 720 | Introduction to Communication Theory and Research | 3 |
| or LSC 625 | Risk Communication | |
| or LSC/ENVIR ST/ JOURN 823 | Science and Environment Communication | |
| or LSC 902 | Public Opinion of Life Science Issues | |
| **Approved Electives** | | |
| Students must choose from the following courses. | | 6 |
| LSC 340 | Misinformation, Fake News, and Correcting False Beliefs about Science | |
| LSC 350 | Visualizing Science and Technology | |
| LSC 430 | Communicating Science with Narrative | |
| LSC 432 | Social Media for the Sciences | |
| LSC 435 | Brand Strategy for the Sciences | |
| LSC 440 | Digital Media and Science Communication | |
| LSC 450 | Documentary Photography for the Sciences | |
| LSC 460 | Social Media Analytics | |
| LSC 480 | Culturally Responsive Science Communication | |
| LSC 532 | Web Design for the Sciences | |
| LSC 560 | Scientific Writing | |
| LSC 561 | Writing Science for the Public | |
| LSC/COM ARTS/ JOURN 617 | Health Communication in the Information Age | |
| LSC 625 | Risk Communication | |
| LSC 660 | Data Analysis in Communications Research | |
| LSC/JOURN 811 | Conceptualization and Design of Mass Communication Research | |
| LSC/ENVIR ST/ JOURN 823 | Science and Environment Communication | |
| LSC 835 | Strategic Science Communication | |
| LSC 850 | Visual Science Communication | |
| LSC 875 | Special Topics | |
| LSC 902 | Public Opinion of Life Science Issues | |
| LSC 912 | Public Understanding of Politicized Science | |
| **Total Credits** | | **10** |

# LIFE SCIENCES COMMUNICATION, MS

The Life Sciences Communication MS is being renamed Science Communication MS. Students will be able to earn a Life Sciences Communication MS through the end of Summer 2027. Beginning in Fall 2027, the program awarded will be the Master of Science in Science Communication.

The Department of Life Sciences Communication is a world leader in science communication research, education, and practice. We offer a master's degree with the opportunity to pursue either a research/thesis pathway or professional course-based pathway.

The professional pathway is a course-based program that is designed to prepare students for professional careers in life sciences communication and related fields. Students in this pathway will not usually pursue a PhD program in the future. In fact, many doctoral programs (including Life Sciences Communication) do not accept a non-thesis master's as a criterion for admission to their PhD program.

Teaching and research in the department focus on science communication in the areas of emerging technologies, bioenergy, environment, agriculture, health, and food.

The MS in Life Sciences Communication graduate program provides advanced professional training in communication and preparation for communication research and teaching. Students in the professional pathway MS program are studying for careers in fields such as consulting, policy, journalism, strategic communication, marketing, and market research, particularly in science-related fields.

For more information on the types of research our faculty and students are doing, where our MS alumni are now, and additional details about the

program, please visit the Life Sciences Communication website (http://lsc.wisc.edu/).

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | February 15 |
| Spring Deadline | The program does not admit in the spring. |
| Summer Deadline | The program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required but may be considered if available. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

To complete your application, you must submit the following materials. These are evaluated collectively, but each plays a distinct role in helping us understand your qualifications, goals, and fit with the program.

1. **Statement of purpose:** Clearly explain the science communication skills, research, and/or experiences you will bring to the program. it serves as our first introduction to you as both a scholar and communicator Describe your academic and professional interests, your goals for graduate study and beyond, and how specific aspects of our program will help you achieve those goals. While there is no strict word or page limit, most strong statements are 2 to 3 pages long. Make it professional, clear, focused, and persuasive.
2. **Resume/Curriculum Vitae:** Detail your educational background, relevant coursework, work experience, publications, media or outreach work. Highlight experiences that illustrate knowledge and skills relevant to the program you are applying for.
3. **Three letters of recommendation**: Preferably from individuals such as advisors, professors, or supervisors who know you well and can attest specifically to your abilities and work ethic. Recommenders should be able to speak to your relevant experience (academic, professional, outreach) and your promise for growth. You will submit the recommenders' email addresses in the online application; they will receive instructions directly.
4. **Transcripts: PDF uploads of unofficial transcripts from all post-secondary institutions you attended.** If recommended for admission, you will be asked to provide **official transcripts.**
5. **Supplemental question:** We ask you to name two faculty members in the department with whom you would like to work. In your statement of purpose, explain briefly why you wish to work with them, and how their interests or projects align with your goals.

Applicants must meet the Graduate School's minimum requirements for admission (https://grad.wisc.edu/apply/requirements/). Materials include an online application, optional GRE scores, statement of purpose, unofficial transcripts from all previously attended institutions, a CV, and three letters of recommendation. Letters of recommendation should come from people who can speak to the scholarly abilities of the applicant. International degree-seeking applicants must prove English proficiency using the Graduate School's requirements (https://grad.wisc.edu/apply/requirements/). Unofficial test scores must be uploaded to the online application.

For more information, visit the Department of Life Sciences Communication website (https://lsc.wisc.edu/).

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

Financial support is available for graduate students in LSC. Historically, nearly all of our graduate students have been funded through assistantships – either in our department, working under the direction of one of our faculty members, or in one of numerous other departments and programs that regularly look to LSC to provide them with students with strong communication skills.

### Assistantships

Most graduate students who receive support serve as teaching, research, or project assistants. Assistantships are typically part-time positions that pay a monthly stipend. Additionally, positions that are 33% or more (based on a 40-hour work week) provide tuition remission for the student and make the student eligible for comprehensive health insurance coverage.

Graduate students in the Department of Life Sciences Communication will be eligible for full consideration for LSC teaching assistant positions if they are in good academic standing (two years for MS students, three years for PhD students). Preference is given to students who have not exceeded those limits, but all students in good standing are welcome to apply. Students pursuing double degrees will be evaluated on a case-by-case basis.

### Fellowships

The department nominates its most competitive graduate applicants for fellowship awards. University Fellowships are awarded through the Graduate School. The Social Science division offers a Two-Year

Recruitment Fellowship, which provides a stipend, tuition remission, fees, and eligibility for health insurance. The fellowship is awarded during the student's first year in the program and during the student's first year as a dissertator.

The department also nominates competitive graduate applicants for Graduate Research Scholars (GRS) Fellowships (https://grad.wisc.edu/funding/graduate-research-scholars/), which provide full tuition and funding to highly qualified underrepresented applicants.

The department also nominates current students for Wisconsin Distinguished Graduate Fellowships (WDGF) (https://research.wisc.edu/funding/wisconsin-distinguished-graduate-fellowship-administration-2022-23/), which are awarded by the College of Agricultural and Life Sciences.

### Financial Aid

Students who are U.S. citizens or Permanent Residents can apply for Federal Stafford Loans (subsidized and unsubsidized) and for Federal Work-Study through the Office of Student Financial Aid (OSFA (https://financialaid.wisc.edu/)). Eligibility is based on financial need. OSFA also offers information on the cost of attendance.

Short-term loans (https://doso.students.wisc.edu/services/crisis-loan/) are available on a limited basis. They are given only to assist in unanticipated emergency situations and must be repaid within the semester in which they are borrowed.

### Hourly Employment

Other employment opportunities are available both on campus and in the community. Student job opportunities can be found on the Student Job Center website (http://jobcenter.wisc.edu/).

### Travel and Professional Development Grants

Every student is encouraged to apply for the Graduate School's Student Research Grants Competition (https://grad.wisc.edu/funding/grants-competition/) (formerly known as the Vilas Travel Grants) each year. These grants are intended to support both Conference Presentation Funds and Research Travel Awards. It's critical that students plan to apply early and follow campus travel policies for transportation and travel.

Also, graduate students in LSC can apply for financial support from the department for travel to academic conferences. Students can apply for up to $1,000 for international travel and up to $500 for domestic travel. In order to be eligible for these awards, students need to fulfill all of the criteria. For more information, pay close attention to your student email.

### Scholarships

LSC also encourages students to apply annually for college and departmental scholarships through the Wisconsin Scholarship Hub (WiSH) (https://wisc.academicworks.com/users/sign_in/).

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 30 credits |
| Minimum Graduate Coursework Requirement | 15 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.50 GPA required. |
| Other Grade Requirements | Students must earn an AB or above in all coursework. Any courses with a grade lower than an AB will be factored into the GPA, but they will not be considered as meeting any degree requirements. |
| Assessments and Examinations | The research/thesis pathway requires a formal thesis and oral defense; the professional pathway requires a comprehensive report or course narrative, and presentation at the culmination of coursework. |
| Language Requirements | No language requirements. |

## REQUIRED COURSES

The MS offers two pathways students can follow: a thesis-pathway master's degree and a professional-pathway master's degree. These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not

appear in the Graduate School admissions application, and they will not appear on the transcript.

### Thesis-Based Pathway

The thesis-based master's degree requires 30 credits and a thesis based on original research. At least 4 credits must be Life Sciences Communication (LSC (https://guide.wisc.edu/courses/lsc/)) courses. Students may apply up to 6 credits of research (LSC 990) towards degree requirements.

### Professional Pathway

The professional pathway is a course-based master's degree that requires 30 credits and culminates in a course narrative report and presentation. Students in the professional pathway will usually not pursue a PhD program in the future. In fact, many doctoral programs (including LSC) do not accept a non-thesis master's as a criterion for admission to their PhD program. Students choose their pathway during the program application process.

| Code | Title | Credits |
|---|---|---|
| **Colloquium** | | |
| LSC 700 | Colloquium in Life Sciences Communication | 1 |
| **Science Communication Theory** | | |
| LSC 720 | Introduction to Communication Theory and Research | 3 |
| or LSC 902 | Public Opinion of Life Science Issues | |
| **Research Methods** | | |
| Students must complete at least 3 credits of research methods. Courses are to be selected in consultation with advisor. Examples of courses that may fulfill this requirement include the following: | | 3-4 |
| COM ARTS 762 | Communication Research Methods | |
| ED PSYCH/ COUN PSY/ CURRIC/ ED POL/ELPA/ RP & SE 719 | Introduction to Qualitative Research | |
| JOURN 658 | Communication Research Methods | |
| JOURN/LSC 811 | Conceptualization and Design of Mass Communication Research | |
| JOURN 812 | Qualitative Communication Research Methods | |
| SOC/ C&E SOC 750 | Research Methods in Sociology | |
| SOC 751 | Survey Methods for Social Research | |
| SOC 752 | Measurement and Questionnaires for Survey Research | |
| **Graduate Level Statistics** | | |
| Students must complete at least 3 credits of graduate level statistics. Course is to be selected in consultation with advisor. Examples of courses that may fulfill this requirement include the following: | | 3-4 |
| ED PSYCH 760 | Statistical Methods Applied to Education I | |
| ED PSYCH 761 | Statistical Methods Applied to Education II | |
| LSC 660 | Data Analysis in Communications Research | |
| SOC/ C&E SOC 360 | Statistics for Sociologists I | |
| SOC/ C&E SOC 361 | Statistics for Sociologists II | |
| **Electives Based on Academic & Career Goals** | | |
| Students must complete 20 credits of electives. Courses selected in consultation with your advisor to create a cohesive program of study. Thesis-pathway students may count up to 6 credits of LSC 990 Research toward their electives to reach the 30 credits required for the program. Students may count up to two colloquia (including LSC 700) toward the 30 credit requirement for the program | | 20 |
| **Total Credits** | | **30** |

Credits outside of the required coursework can include classes in science communication and other areas based on a student's academic and career goals. For example, a student wishing to become an environmental reporter might take courses in environmental studies. A student interested in health communication might take a nutrition or preventive medicine course. However, the complete program must have coherence and focus, and students should discuss all courses with their advisor prior to enrollment.

## POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

No credits from graduate work from other institutions are allowed to transfer.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

No credits from another institution or UW-Madison undergraduate degree are allowed to transfer.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

No credits earned as a professional student at UW-Madison are allowed to transfer.

### Credits Earned as a University Special Student at UW–Madison

No credits earned as a University Special student are allowed to transfer.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Refer to the Graduate School: Advisor (https://policy.wisc.edu/library/UW-1232/) and Graduate School: Committees (Doctoral/Master's/MFA) (https://policy.wisc.edu/library/UW-1201/) policies.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Students who pursue a thesis-pathway master's degree will have a limit of four semesters (including summers) during which they can enroll in LSC 990 Research credits. Students who have not defended their thesis at the end of the fourth semester in which they are enrolled in LSC 990 will be awarded a professional pathway master's degree, assuming they have completed all the requirements for the degree.

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

### Grievance Procedures

Students who feel that they have been treated unfairly have the right to a prompt hearing of their grievance. Such complaints may involve course grades, classroom treatment, various forms of harassment, or other issues. Any student or potential student may use these procedures except those graduate assistants whose complaint is covered by campus policies for teaching assistants.

Procedures for student grievances:

- The student should speak first with the person toward whom the grievance is directed. In most cases, grievances can be resolved at this level.
- If this conversation does not yield satisfactory results, the student should consult with the Director of Graduate Studies in the student's home department.
- Should a satisfactory resolution not be achieved at that level, the student should contact their program's Grievance Advisor to discuss the grievance. The Graduate Program Coordinator can provide students with the name of this faculty member, who facilitates problem resolution through informal channels. The Grievance Advisor is responsible for facilitating any complaints or issues of students. The Grievance Advisor first attempts to help students informally address the grievance prior to any formal complaint. Students are also encouraged to talk with their faculty advisors regarding concerns or difficulties if necessary. University resources for sexual harassment concerns can be found on the Office of Compliance website.
- If the issue is not resolved to the student's satisfaction the student can submit the grievance to the Grievance Advisor in writing, within 60 calendar days of the alleged unfair treatment.
- On receipt of a written complaint, a faculty committee will be convened by the Grievance Advisor to manage the grievance. The program faculty committee will obtain a written response from the person toward whom the complaint is directed. This response will be shared with the person filing the grievance.
- The faculty committee will determine a decision regarding the grievance. The Grievance Advisor will report on the action taken by the committee in writing to both the student and the party toward whom the complaint was directed within 15 working days from the date the complaint was received.
- At this point, if either party (the student or the person toward whom the grievance is directed) is unsatisfied with the decision of the faculty committee, the party may file a written appeal. Either party has 10 working days to file a written appeal to the College.
- Documentation of the grievance will be stored for at least 7 years. Significant grievances that set a precedent will be stored indefinitely.

The Graduate School has established policies governing student conduct, academic dishonesty, and sexual and racial harassment. The Graduate School also has procedures for students wishing to appeal a grievance decision made at the college level. These policies are described in the Academic Guidelines.

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Articulate research problems, potentials, and limits with respect to theory, knowledge, and practice within the field of study. Demonstrating knowledge of the theories, concepts, frameworks, empirical findings, and controversies in the field.
2. Identifies sources and assembles evidence pertaining to questions or challenges in the field of study.
3. Demonstrates understanding of the primary field of study in a historical, social, or global context.
4. Selects and/or utilizes the most appropriate methodologies, tools, and practices.
5. Evaluates or synthesizes information pertaining to questions or challenges in the field of study.
6. Communicates complex ideas effectively across different audiences.
7. Recognizes, fosters, and applies principles of ethical and professional conduct.

# SCIENCE COMMUNICATION, GRADUATE/PROFESSIONAL CERTIFICATE

The Department of Life Sciences Communication (LSC) is a world leader in science communication research, education, and practice. The Graduate Certificate in Science Communication allows students enrolled in any graduate or professional program at UW–Madison to supplement their existing graduate coursework with a transcriptable certificate in science communication. The certificate is appropriate not only for students in the physical sciences, biological sciences, and engineering fields but also for students in professional degree programs (law, veterinary medicine, etc.).

Graduate students interested in the ethical, legal, and social implications of emerging technologies, or who want to build an intellectual foundation for a future career in policy or various mission agencies (e.g., AAAS policy fellowships) dealing with public understanding and communication of science will find this certificate particularly valuable.

More information may be found on the department website (https://lsc.wisc.edu/).

## ADMISSIONS

# ADMISSIONS

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any graduate/professional certificate. To apply to this certificate, log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs (https://grad.wisc.edu/documents/change-program/). Select the information for the certificate for which you are applying.

This certificate is open to any UW-Madison student enrolled in a graduate level program outside of Life Sciences Communications (GRAD, LAW, MED, PHARM, VMED).

Professional students in the careers of Law, Medicine, Pharmacy, and Veterinary cannot add the certificate in the Graduate Student Portal, and should contact the program for more information.

Students are strongly encouraged to contact the academic advising manager or Director of Graduate Studies (see Contact Information box on this page for emails) to discuss course planning.

Students are not allowed to earn both the science communication graduate certificate and doctoral minor in life sciences communication.

## FUNDING

# FUNDING

### GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## REQUIREMENTS

# REQUIREMENTS

### GRADE REQUIREMENTS

Students must meet the following requirements:

- Maintain a minimum cumulative GPA of 3.5 or higher in all Life Sciences Communications courses;
- Enroll in courses numbered 300 or above with the "Grad 50%" designation.

### REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Core Courses** | | |
| Students must complete the following courses. | | |
| LSC 700 | Colloquium in Life Sciences Communication | 1 |
| LSC 720 | Introduction to Communication Theory and Research | 3 |

| | | |
|---|---|---|
| or LSC 625 | Risk Communication | |
| or LSC/ENVIR ST/ JOURN 823 | Science and Environment Communication | |
| or LSC 902 | Public Opinion of Life Science Issues | |
| **Electives** | | |
| Students must complete two courses from the approved courses: | | 6 |
| LSC 340 | Misinformation, Fake News, and Correcting False Beliefs about Science | |
| LSC 350 | Visualizing Science and Technology | |
| LSC 430 | Communicating Science with Narrative | |
| LSC 432 | Social Media for the Sciences | |
| LSC 435 | Brand Strategy for the Sciences | |
| LSC 440 | Digital Media and Science Communication | |
| LSC 450 | Documentary Photography for the Sciences | |
| LSC 460 | Social Media Analytics | |
| LSC 480 | Culturally Responsive Science Communication | |
| LSC 532 | Web Design for the Sciences | |
| LSC 560 | Scientific Writing | |
| LSC 561 | Writing Science for the Public | |
| LSC 625 | Risk Communication | |
| LSC 660 | Data Analysis in Communications Research | |
| LSC/JOURN 811 | Conceptualization and Design of Mass Communication Research | |

| LSC 835 | Strategic Science Communication | |
| LSC 850 | Visual Science Communication | |
| LSC 875 | Special Topics | |
| LSC 902 | Public Opinion of Life Science Issues | |
| LSC 912 | Public Understanding of Politicized Science | |
| **Total Credits** | | **10** |

### Prior Coursework

Credits earned from other institutions or an undergraduate degree at UW-Madison cannot be applied to certificate requirements.

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

## GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Communicate complex ideas effectively across different audiences, including underrepresented or particularly vulnerable audiences.
2. Select and utilize the most appropriate theories, methodologies, tools, and practices to communicate about science.
3. Collect relevant evidence designed to answer questions related to scientific challenges faced by industry, universities, and non-profits.
4. Discuss some of the ethical, legal, and social implications of science.

# SCIENCE COMMUNICATION, PHD

The Department of Life Sciences Communication (LSC) at the University of Wisconsin–Madison offers a PhD program that prepares students to become leaders in the field of science communication. As part of the College of Agricultural and Life Sciences, our department is at the forefront of both theoretical and applied research, focusing on how to effectively communicate complex scientific topics to diverse audiences. Our doctoral program equips students with cutting-edge knowledge and skills to address communication challenges in areas such as emerging technologies, public health, environment, agriculture, and biological sciences, all within a rapidly evolving media landscape. The program offers a flexible, customizable curriculum along with funded research and teaching opportunities, ensuring graduates are highly competitive in the job market. Our graduates have built successful careers in academia, industry, government, and nonprofit sectors, where they serve as key drivers in advancing the field of science communication and enhancing public engagement with science.

For more information on the types of research our faculty and students are doing, where our PhD alumni are now, and additional details about the program, please visit the Life Sciences Communication website (https://lsc.wisc.edu/).

## ADMISSIONS

# ADMISSIONS

UW–Madison is awaiting approval of this new academic program by the Student & Exchange Visitor Program (SEVP) before we are able to accept prospective F-1 students into this program or issue a Form I-20 for this program. International students may apply for this program but will only be considered for admission if or when the program is approved.

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 15 |
| Spring Deadline | The program does not admit in the spring. |
| Summer Deadline | The program does not admit in the summer. |
| GRE (Graduate Records Examinations) | Not required but may be considered if available. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

The application deadline for the Science Communication PhD program is December 15. LSC will consider late applications on a rolling basis until February 15th.

Successful applicants have a thesis-based master's degree in communication or related disciplines. However, the admissions committee may admit applicants with a demonstrated interest and background in communication research with evidence of suitable preparation.

To complete your application, you must submit the following materials. These are evaluated collectively, but each plays a distinct role in helping us understand your qualifications, goals, and fit with the program.

1. **Statement of purpose:** Clearly explain the science communication skills, research, and/or experiences you will bring to the program. it serves as our first introduction to you as both a scholar and communicator Describe your academic and professional interests, your goals for graduate study and beyond, and how specific aspects of our program will help you achieve those goals. While there is no strict word or page limit, most strong statements are 2 to 3 pages long. Make it professional, clear, focused, and persuasive.
2. **Resume/Curriculum Vitae:** Detail your educational background, relevant coursework, work experience, publications, media or outreach work. Highlight experiences that illustrate knowledge and skills relevant to the program you are applying for.
3. **Three letters of recommendation**: Preferably from individuals such as advisors, professors, or supervisors who know you well and can attest specifically to your abilities and work ethic. Recommenders should be able to speak to your relevant experience (academic, professional, outreach) and your promise for growth. You will submit the recommenders' email addresses in the online application; they will receive instructions directly.
4. **Transcripts: PDF uploads of unofficial transcripts from all post-secondary institutions you attended.** If recommended for admission, you will be asked to provide **official transcripts.**
5. **Supplemental question:** We ask you to name two faculty members in the department with whom you would like to work. In your statement of purpose, explain briefly why you wish to work with them, and how their interests or projects align with your goals.

Applicants must meet the Graduate School's minimum requirements for admission (https://grad.wisc.edu/apply/requirements/). Materials include an online application, optional GRE scores, statement of purpose, unofficial transcripts from all previously attended institutions, a CV, and three letters of recommendation. Letters of recommendation should come from people who can speak to the scholarly abilities of the applicant.

International degree-seeking applicants must prove English proficiency using the Graduate School's requirements (https://grad.wisc.edu/apply/requirements/). Unofficial test scores must be uploaded to the online application.

For more information, visit the Department of Life Sciences Communication website (https://lsc.wisc.edu/).

## FUNDING

# FUNDING

### GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

### PROGRAM RESOURCES

Graduate students in LSC have access to a variety of financial support options. Applicants are considered for funding as part of the admissions process. We offer a range of funding including graduate assistantships, fellowships and research scholarship awards. Historically, nearly all of our students have been funded through teaching, research, and project assistantships—either within the department under faculty supervision or through collaborations with other departments and programs that highly value the communication and research skills of LSC students. In addition, fellowships, scholarships, and funding for professional development and travel are available. For further details, please see the funding page on the LSC's website: https://lsc.wisc.edu/funding/.

## POLICIES

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program approval and in consultation with advisor, students may transfer up to 33 credits of graduate credits completed at another institution (earned post-baccalaureate). Credits earned ten or more years prior to admission to a doctoral degree are not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

With program approval, students may transfer up to 7 credits numbered 600 and above from the undergraduate career completed at UW–Madison. These credits are not allowed to count toward the 50% graduate coursework minimum unless numbered 700 or above from UW- Madison. Credits earned ten or more years prior to admission to a doctoral degree are not allowed to satisfy requirements. Students may not transfer undergraduate credits earned at other institutions.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

With program approval and in consultation with advisor, refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW-Madison

With program approval and in consultation with advisor, students may transfer up to 12 University Special student credits numbered 600 and above. However, these credits are not allowed to count toward the 50% graduate coursework minimum unless numbered 700 or above or are taken to meet the requirements of a capstone certificate and has the "Grad 50%" designation. Credits earned ten or more years prior to admission to a doctoral degree are not allowed to satisfy requirements.

## PROBATION

Doctoral students must do the following to maintain satisfactory progress:

- Earn a minimum 3.5 cumulative GPA by the end of the second semester in residence and maintain that GPA for the duration of the degree program.
- Remove grades of Incomplete in the semester following their occurrence.
  - A course proposal cannot be approved until all incompletes are removed.
- Complete preliminary exams within three to six months of completing coursework.
- Maintain steady progress toward completion of degree, including final oral exam and deposit of dissertation. Full-time students can expect four to five years; completion will vary for part-time students.

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Doctoral committees must include at least two members from outside the Department of Life Sciences Communication.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/).

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and

conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)

- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

### College of Agricultural and Life Sciences: Grievance Policy

In the College of Agricultural and Life Sciences (CALS), any student who feels unfairly treated by a member of the CALS faculty or staff has the right to complain about the treatment and to receive a prompt hearing. Some complaints may arise from misunderstandings or communication breakdowns and be easily resolved; others may require formal action. Complaints may concern any matter of perceived unfairness.

To ensure a prompt and fair hearing of any complaint, and to protect the rights of both the person complaining and the person at whom the complaint is directed, the following procedures are used in the College of Agricultural and Life Sciences. Any student, undergraduate or graduate, may use these procedures, except employees whose complaints are covered under other campus policies.

1. The student should first talk with the person at whom the complaint is directed. Most issues can be settled at this level. Others may be resolved by established departmental procedures.
2. If the student is unsatisfied, and the complaint involves any unit outside CALS, the student should seek the advice of the dean or director of that unit to determine how to proceed.
    a. If the complaint involves an academic department in CALS the student should proceed in accordance with item 3 below.
    b. If the grievance involves a unit in CALS that is not an academic department, the student should proceed in accordance with item 4 below.
3. The student should contact the department's grievance advisor within 120 calendar days of the alleged unfair treatment. The departmental administrator can provide this person's name. The grievance advisor will attempt to resolve the problem informally within 10 working days of receiving the complaint, in discussions with the student and the person at whom the complaint is directed.
    a. If informal mediation fails, the student can submit the grievance in writing to the grievance advisor within 10 working days of the date the student is informed of the failure of the mediation attempt by the grievance advisor. The grievance advisor will provide a copy to the person at whom the grievance is directed.
    b. The grievance advisor will refer the complaint to a department committee that will obtain a written response from the person at whom the complaint is directed, providing a copy to the student. Either party may request a hearing before the committee. The grievance advisor will provide both parties a written decision within 20 working days from the date of receipt of the written complaint.
    c. If the grievance involves the department chairperson, the grievance advisor or a member of the grievance committee, these persons may not participate in the review.
    d. If not satisfied with departmental action, either party has 10 working days from the date of notification of the departmental committee action to file a written appeal to the CALS Equity and Diversity Committee. A subcommittee of this committee will make a preliminary judgement as to whether the case merits further investigation and review. If the subcommittee unanimously determines that the case does not merit further investigation and review, its decision is final. If one or more members of the subcommittee determine that the case does merit further investigation and review, the subcommittee will investigate and seek to resolve the dispute through mediation. If this mediation attempt fails, the subcommittee will bring the case to the full committee. The committee may seek additional information from the parties or hold a hearing. The committee will present a written recommendation to the dean who will provide a final decision within 20 working days of receipt of the committee recommendation.
4. If the alleged unfair treatment occurs in a CALS unit that is not an academic department, the student should, within 120 calendar days of the alleged incident, take his/her grievance directly to the Associate Dean of Academic Affairs. The dean will attempt to resolve the problem informally within 10 working days of receiving the complaint. If this mediation attempt does not succeed the student may file a written complaint with the dean who will refer it to the CALS Equity and Diversity Committee. The committee will seek a written response from the person at whom the complaint is directed, subsequently following other steps delineated in item 3d above.

# PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

## GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## PROGRAM RESOURCES

LSC offers a wide range of resources to support graduate students' professional development. Students receive hands-on guidance not only from their advisor but also from other faculty members. At LSC, collaboration with multiple faculty members is encouraged to provide diverse teaching and research experiences.

Our colloquium (LSC 700 Colloquium in Life Sciences Communication) features cutting-edge research presentations from leading scholars, critical insights from science communication practitioners, and discussions on emerging trends in policy and nonprofit sectors. This platform helps

students build valuable connections with experts and potential employers in the field.

Graduate students also have access to research opportunities within faculty-led groups. Each semester, students participate in a professional development session with LSC faculty and alumni. These sessions cover topics such as navigating the academic job market, incorporating AI in the classroom, and exploring new frontiers in science communication research. Students also participate in curated professional development workshops and complete TA training if they take on teaching roles.

## LEARNING OUTCOMES

## LEARNING OUTCOMES

1. Articulate research problems, potentials, and limits with respect to theory, knowledge, or practice within science communication.
2. Formulate ideas, concepts, designs, and/or techniques beyond the current boundaries of knowledge within science communication.
3. Create research or scholarship that makes a substantive contribution.
4. Demonstrate breadth within their learning experiences.
5. Advance contributions of science communication to society.
6. Communicate complex ideas in a clear and understandable manner.
7. Apply ethical and professional conduct in research.

# BUSINESS: ARTS AND CREATIVE ENTERPRISE LEADERSHIP, MA

The Master of Arts–Business: Arts and Creative Enterprise Leadership at the University of Wisconsin–Madison is a one-year program where students gain the knowledge, skills, and expertise to be an innovative arts administrator, nonprofit executive, or social entrepreneur. The business-focused curriculum utilizes hands-on learning and project work in the classroom, as well as applied field experiences in local arts organizations. Throughout the yearlong experience, students connect with and learn from real-world arts leaders and are part of a strong, close-knit community of alumni and arts practitioners.

The Arts and Creative Enterprise Leadership master's program is part of the Bolz Center for Arts Administration (https://business.wisc.edu/centers/bolz/)—one of the only arts-focused programs within a U.S. business school, giving students an edge as strategic leaders.

Please see the program website (https://business.wisc.edu/graduate/masters/arts-leadership/) for more information and application instructions.

## ADMISSIONS

## ADMISSIONS

| Requirements | Detail |
|---|---|
| Fall Deadline | See program webpage: https://business.wisc.edu/graduate/masters/arts-leadership/admissions (https://business.wisc.edu/graduate/masters/arts-leadership/admissions/)/ |
| Spring Deadline | This program does not admit in the spring. |
| Summer Deadline | This program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 0* |

* Submission of up to two letters of recommendation is optional.

The following will be required for admission to the Business: Arts and Creative Enterprise Leadership master's program:

- Undergraduate university degree, or expected completion of such a degree prior to starting the MA-Business program.
- Undergraduate transcript, GPA >= 3.0.
- Resume.
- Response to essay questions.
- An interview may be requested.

### HOW TO APPLY

Students interested in business degrees do not apply through the Graduate School application system and should instead refer to the School of Business Admissions page. (https://business.wisc.edu/graduate/masters/arts-leadership/admissions/)

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## BOLZ CENTER RESOURCES

The Master of Arts-Business: Arts and Creative Enterprise Leadership Program gives you the opportunity to earn a master's degree fusing business and cultural practice through arts administration coursework and applied learning opportunities. ## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | Yes |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 16 credits |

## POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program approval, students may transfer no more than 9 credits of graduate coursework from other institutions. Coursework earned seven or more years prior to admission to a master's degree is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

With program approval, students may transfer up to 7 credits from courses numbered 300 or above from UW-Madison or external institution of required or elective courses in fulfillment of the minimum degree credit requirement. However, these credits would not be allowed to count toward the 50% graduate coursework minimum unless taken as a course numbered 700 or above at UW-Madison or equivalent. Coursework earned seven or more years prior to admission to a master's degree is not allowed to satisfy requirements.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

With program approval, students may transfer no more than 9 credits of coursework numbered 700 or above taken as a UW–Madison University Special student. Coursework earned seven or more years prior to the master's degree is not allowed to satisfy requirements.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Refer to the Graduate School: Advisor (https://policy.wisc.edu/library/UW-1232/) policy.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

***Any student who feels that they have been mistreated by a faculty or staff member has the right to lodge a complaint. Complaints may concern course grades, classroom treatment, program admission, or other issues. To ensure a prompt and fair hearing of any complaint and to protect both the student's rights and the person at whom the complaint is addressed, the grievance procedures below are used in the School of Business.***

The person against whom the complaint is directed must be an employee of the School of Business. Any student or potential student may use these procedures unless other campus rules or contracts cover the complaint:

1. If the student feels comfortable/safe doing so, the student should first talk with the person against whom the grievance is directed. Most issues can be settled at this level. If the complaint is directed against a teaching assistant (TA) and the student is not satisfied after discussion of the grievance with the TA, the next step would be to talk to the TA's supervisor, who is usually the course professor. If the complaint is still not resolved satisfactorily, the student may continue to step 2.
2. If the complaint involves an academic department, the student should contact the chair of the department. The chair will attempt to resolve the problem informally. If this cannot be done to the student's satisfaction, the student may submit the grievance to the chair in writing. This must be done within 60 calendar days of the alleged unfair treatment.
    a. If the complaint does not involve an academic department, the procedure outlined in Step 4 below should be followed.
3. On receipt of a written complaint, the chair will refer the matter to a departmental committee, which will obtain a written response from the person at whom the complaint is directed. This response shall be shared with the person filing the grievance. The chair will provide a written decision within 30 days to the student on the action taken by the committee.
4. If either party is not satisfied with the decision, they have five working days from receipt of the decision to contact the dean's office (at the number below), indicating the intention to appeal. If the complaint does not involve an academic department in the school, the student must contact the dean's office within 60 calendar days of the alleged unfair treatment.
5. In either case, there will be an attempt to resolve the issue informally by the appropriate associate dean. If this cannot be done, the complaint can be filed in writing with the Office of the Dean. This must be done within 10 working days of the time the appealing party was notified that informal resolution was unsuccessful.
6. On receipt of such a written complaint, the Sr. Associate Dean for Faculty & Staff will convene a subcommittee of relevant stakeholders pending the nature of the issue. This subcommittee may ask for additional information from the parties involved and may hold a hearing at which both parties will be asked to speak separately. The subcommittee will then make a written recommendation to the dean of the School of Business who will render a decision. Unless a longer time is negotiated, this written decision shall be made within 20 working days from when the grievance was filed with the Office of the Dean.

*Questions about these procedures can be directed to the School of Business, Office of the Dean, 4339 Grainger, 975 University Avenue, 608-262-7867.*

*State law contains additional provisions regarding discrimination and harassment. Wisconsin Statutes 36.12 reads, in part: "No student may be denied admission to, participation in or the benefits of, or be discriminated against in any service, program, course or facility of the system or its institutions or center because of the student's race, color, creed, religion, sex, national origin, disability, ancestry, age, sexual orientation, pregnancy, marital status or parental status." In addition, the UW System prohibits discrimination based on gender identity or gender expression. Students have the right to file discrimination and harassment complaints with the Office of Compliance, 361 Bascom Hall, 608-265-6018, uwcomplianceoffice@wisc.edu.*

The Graduate School has procedures for students wishing to appeal a grievance decision at the school/college level. These policies are described in the Graduate School's Academic Policies and Procedures: https://grad.wisc.edu/documents/grievances-and-appeals/

### OTHER

Students must be enrolled full-time.

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

### BOLZ CENTER RESOURCES

Students have a multitude of opportunities to pursue professional development, both within the program, as well as across campus. A myriad of speakers and guests visit the center each year for convenings and seminars, and we host site visits where we visit these industry leaders in their home cities and organizations.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Explore and apply foundational knowledge in arts and business topics in non-profit and entrepreneurial contexts that include evidence-based decision-making, cultural sensitivity and artistic integrity.
2. Demonstrate knowledge of strategic frameworks and their use in mission-based organizations and agencies to interpret data and executive on evidence-based plans.
3. Lead and manage teams effectively in a variety of cross-sector cultural settings, using the tools of organizational analysis, community development and placemaking and program evaluation.
4. Engage in ethical decision-making that is sensitive to and informed by a diverse group of stakeholders, when developing and advancing plans of strategy, fund development, entrepreneurial action and evaluation.
5. Successfully share their ideas with a diverse set of constituents and stakeholders through group facilitation methodologies, as well as employing frameworks for informative, persuasive and inspired communications.
6. Build cross-sector professional networks by providing volunteer service to the field and working within and across arts/creative enterprises and/or relevant communities.

## ACCREDITATION

# ACCREDITATION

Accreditation status: Accredited. Next accreditation review: 2026–2027.

# BUSINESS: MANAGEMENT AND HUMAN RESOURCES, MBA

**The Business: Management and Human Resources, MBA no longer admits new students after Fall 2026 and the program will be discontinued Fall 2029.** If you have any questions, please contact the department (see contact box).

Founded in 1900, the School of Business established one of the first five business programs in the nation. That entrepreneurial spirit remains strong.

As a student in the School of Business, you will find yourself inspired by peers, staff, alumni, business leaders, and world-renowned faculty who are focused, collaborative, and engaged in every aspect of the student experience. You will join a highly ranked program that equips you to meet both academic and career challenges. Employers value School of Business graduates because of the comprehensive preparation this learning environment provides. Graduates possess highly sought-after general management and specialized expertise in business.

Joining collaborative, inspiring, trustworthy, and progressive School of Business alumni, Business Badgers graduate prepared to lead their organizations to success and transform the world of business. Together Forward!

## NAMED OPTION IN STRATEGIC HUMAN RESOURCES MANAGEMENT

The Wisconsin MBA in Business: Management and Human Resources named option in Strategic Human Resource Management (SHRM) produces leaders who are equipped with the necessary skills to change tomorrow. The curriculum combines expertise in human resources with the knowledge required to be a strategic business partner. Many of the functional areas of HR and core competencies are covered through academic courses and program activities outside the classroom. The combination of core MBA learning, specialized courses, applied learning opportunities, and human resources internships sets the Wisconsin SHRM program apart from its competitors. See the program website (https://business.wisc.edu/graduate/mba/full-time/specializations/human-resources/) for more information.

## NAMED OPTIONS

A named option is a formally documented sub-major within an academic major program. Named options appear on the transcript with degree conferral. Students pursuing the MBA in Business: Management and Human Resources must select one of the following named options:

View as listView as grid

- **BUSINESS: MANAGEMENT AND HUMAN RESOURCES: STRATEGIC HUMAN RESOURCE MANAGEMENT, MBA (P. 1307)**

## POLICIES

### POLICIES

Students should refer to the named options for policy information:

- Business: Management and Human Resources: Strategic Human Resource Management, MBA (p. 1307)

## PROFESSIONAL DEVELOPMENT

### PROFESSIONAL DEVELOPMENT

#### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

### LEARNING OUTCOMES

1. Articulate programmatic total rewards solutions that aligns with the organization's business and human resources strategy
2. Apply appropriate tactics in competitive and cooperative negotiations individually and as part of a negotiation team
3. Determine methods to effectively attract, evaluate, motivate, and retain diverse talent within the organization
4. Use appropriate quantitative and qualitative analysis and human resources substantive knowledge to support strategic human resources decisions.
5. Demonstrate effective communication and leadership skills to influence others and drive organizational change and effectiveness

## ACCREDITATION

### ACCREDITATION

AACSB International—The Association to Advance Collegiate Schools of Business (http://www.aacsb.edu/)

Accreditation status: Accredited. Next accreditation review: 2026-2027.

# BUSINESS: MANAGEMENT AND HUMAN RESOURCES: STRATEGIC HUMAN RESOURCE MANAGEMENT, MBA

**The Strategic Human Resource Management named option in the Business: Management and Human Resources, MBA no longer admits new students after Fall 2026 and the program will be discontinued Fall 2029.** If you have any questions, please contact the department (see contact box).

This is a named option in the Business: Management and Human Resources MBA. (p. 1306)

## ADMISSIONS

### ADMISSIONS

**The Strategic Human Resource Management named option in the Business: Management and Human Resources, MBA no longer admits new students after Fall 2026 and the program will be discontinued Fall 2029.** If you have any questions, please contact the department (see contact box).

| Requirements | Detail |
|---|---|
| Fall Deadline | See program webpage: https://business.wisc.edu/graduate/mba/full-time/admissions (https://business.wisc.edu/graduate/mba/full-time/admissions/)/ |
| Spring Deadline | This program does not admit in the spring. |
| Summer Deadline | This program does not admit in the summer. |
| GRE (Graduate Record Examinations) | May be required in certain cases; consult program. |
| English Proficiency Test | All applicants whose native language is not English must submit scores from the Test of English as a Foreign Language (TOEFL), the Pearson Test of English (PTE), or the Intensive English as a Second Language (IELTS). A minimum iBT TOEFL score of 100 or equivalent, computer-based PTE score of 73 or equivalent, or IELTS score of 7.5 or equivalent, obtained within two years of the intended start term, is required. International applicants who have completed a degree at an institution whose primary language of instruction was English may request a waiver of this requirement on the application. |
| Other Test(s) (e.g., GMAT, MCAT) | GMAT may be required in certain cases; consult program. |
| Letters of Recommendation Required | 1* |

* Submission of a second letter of recommendation is optional.

Admission consideration for the MBA program requires a four-year undergraduate degree or the equivalent, in any discipline, from an accredited institution. The School of Business prefers a minimum of two years of professional work experience along with a strong undergraduate performance. In addition to academic credentials, a GMAT or GRE score, and work experience, personal achievements, motivation, communication skills (written and oral), and recommendation letters are all considered in the admission process at the master's and doctoral levels.

**Note:** The Graduate Management Admission Test (GMAT) or Graduate Record Examination (GRE) must have been taken within five years prior to receiving an offer of admission.

### HOW TO APPLY

Students interested in Business degrees do not apply through the Graduate School application system and should instead refer to the School of Business Admissions page. (https://business.wisc.edu/graduate/mba/full-time/admissions/)

## FUNDING

# FUNDING

### GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

### PROGRAM RESOURCES

Learn about costs and financial assistance on the program website (https://business.wisc.edu/graduate/mba/full-time/tuition/).

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# NAMED OPTION REQUIREMENTS

### MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

#### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

### CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 52 credits |
| Minimum Residence Credit Requirement | 46 credits |
| Minimum Graduate Coursework Requirement | 26 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required.<br>Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | Students may be required to retake a course in which they receive a grade lower than a C. |
| Assessments and Examinations | No required assessments or examinations beyond course requirements. |
| Language Requirements | No language requirements. |

### REQUIRED COURSES

Any course with the Grad 50% course designation offered by the School of Business (including departments: ACCT I S, ACT SCI, FINANCE, GEN BUS, INFO SYS, INTL BUS, M H R, MARKETNG, OTM , REAL EST, or R M I) can be used to complete the required elective credits. Courses outside of the School of Business will be considered on a case-by-case basis. | | 9 |
| **Total Credits** | | **52** |

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# NAMED OPTION-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program and department approval, up to 6 credits of graduate coursework completed two years prior to admission at an AACSB accredited institution, in which a grade of B or better was earned, may transfer toward the degree.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

No credits from a UW–Madison or other institution undergraduate degree are allowed to transfer toward the degree.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

No credits earned as a University Special Student at UW-Madison are allowed to transfer toward the degree.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Refer to the Graduate School: Advisor (https://policy.wisc.edu/library/UW-1232/) policy.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

***Any student who feels that they have been mistreated by a faculty or staff member has the right to lodge a complaint. Complaints may concern course grades, classroom treatment, program admission, or other issues. To ensure a prompt and fair hearing of any complaint and to protect both the student's rights and the person at whom the complaint is addressed, the grievance procedures below are used in the School of Business.***

The person against whom the complaint is directed must be an employee of the School of Business. Any student or potential student may use these procedures unless other campus rules or contracts cover the complaint:

1. If the student feels comfortable/safe doing so, the student should first talk with the person against whom the grievance is directed. Most issues can be settled at this level. If the complaint is directed against a teaching assistant (TA) and the student is not satisfied after discussion of the grievance with the TA, the next step would be to talk to the TA's supervisor, who is usually the course professor. If the complaint is still not resolved satisfactorily, the student may continue to step 2.
2. If the complaint involves an academic department, the student should contact the chair of the department. The chair will attempt to resolve the problem informally. If this cannot be done to the student's satisfaction, the student may submit the grievance to the chair in writing. This must be done within 60 calendar days of the alleged unfair treatment.
    a. If the complaint does not involve an academic department, the procedure outlined in Step 4 below should be followed.
3. On receipt of a written complaint, the chair will refer the matter to a departmental committee, which will obtain a written response from the person at whom the complaint is directed. This response shall be shared with the person filing the grievance. The chair will provide a written decision within 30 days to the student on the action taken by the committee.
4. If either party is not satisfied with the decision, they have five working days from receipt of the decision to contact the dean's office (at the number below), indicating the intention to appeal. If the complaint does not involve an academic department in the school, the student must contact the dean's office within 60 calendar days of the alleged unfair treatment.
5. In either case, there will be an attempt to resolve the issue informally by the appropriate associate dean. If this cannot be done, the complaint can be filed in writing with the Office of the Dean. This must be done within 10 working days of the time the appealing party was notified that informal resolution was unsuccessful.
6. On receipt of such a written complaint, the Sr. Associate Dean for Faculty & Staff will convene a subcommittee of relevant stakeholders pending the nature of the issue. This subcommittee may ask for additional information from the parties involved and may hold a hearing at which both parties will be asked to speak separately. The subcommittee will then make a written recommendation to the dean of the School of Business who will render a decision. Unless a longer time is negotiated, this written decision shall be made within 20 working days from when the grievance was filed with the Office of the Dean.

*Questions about these procedures can be directed to the School of Business, Office of the Dean, 4339 Grainger, 975 University Avenue, 608-262-7867.*

*State law contains additional provisions regarding discrimination and harassment. Wisconsin Statutes 36.12 reads, in part: "No student may be denied admission to, participation in or the benefits of, or be discriminated against in any service, program, course or facility of the system or its institutions or center because of the student's race, color, creed, religion, sex, national origin, disability, ancestry, age, sexual orientation, pregnancy, marital status or parental status." In addition, the UW System prohibits discrimination based on gender identity or gender expression. Students have the right to file discrimination and harassment complaints with the Office of Compliance, 361 Bascom Hall, 608-265-6018, uwcomplianceoffice@wisc.edu.*

The Graduate School has procedures for students wishing to appeal a grievance decision at the school/college level. These policies are described in the Graduate School's Academic Policies and Procedures: https://grad.wisc.edu/documents/grievances-and-appeals/

### OTHER

Students are expected to be enrolled full-time for all semesters. Exceptions may be granted in the final semester.

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

# ENTREPRENEURSHIP, GRADUATE/PROFESSIONAL CERTIFICATE

The graduate/professional certificate in entrepreneurship seeks to provide entrepreneurial knowledge and skills to students who desire to launch a new organization, work more effectively in startup situations, or explore and better understand the factors that affect company formation and performance. The certificate is available to all UW–Madison graduate degree-seeking students (excluding University Special students).

A student who has completed this certificate will have good foundational skills in recognizing promising opportunities and building a new organization or venture to create social/economic value.

Interested students should see the Certificate in Entrepreneurship website (https://business.wisc.edu/graduate/certificates/entrepreneurship/) for specific information regarding declaration, change, withdrawal, and completion of the certificate. The Management and Human Resources Department will have the certificate noted on students' official university transcripts by the Office of the Registrar.

## ADMISSIONS

# ADMISSIONS

The certificate is open to graduate students in good academic standing. A graduate student is in good academic standing if they maintain a cumulative GPA of 3.00 or above for all graduate courses (excluding research).

Before beginning any coursework, applicants are recommended to consult with their faculty advisor (or, where appropriate, graduate program coordinator).

Note: While the application for declaring your certificate should be completed prior to enrolling in courses for the certificate, it must be completed prior to graduation. Your application automatically serves as

a declaration of your intent to pursue the certificate. This declaration becomes part of your academic record.

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any certificate. To apply to this certificate please log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. The certificate coordinator will review your application for admittance, and reach out to you if there are any further questions. Professional students in the careers of Law, Medicine, Pharmacy, and Veterinary cannot add the certificate in the Graduate Student Portal, and should contact the program for more information.

See the program website linked within the contact information box for details.

### Electives

Students may select approved, elective courses from a variety of schools and colleges across the university that address the ability to launch and lead new ventures. Approved courses develop and deepen students' capacity to:

- assess opportunities,
- analyze the structure of markets,
- develop new products,
- perform financial analysis,
- understand the consequences of entity types,
- use intellectual property strategically in dynamic markets,
- form effective teams, and
- formulate strategies for organizational growth.

Other courses help students better understand the role of entrepreneurial activity in economic growth and the achievement of societal goals.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Students will understand the different career paths in entrepreneurship.
2. Students will understand what makes an effective founding team for a new venture.
3. Students will understand critical legal issues in the management of an entrepreneurial firm.

4. Students will be able to write the central components of business plans including being able to apply critical financial and management accounting issues specific to the growing venture.
5. Students will understand key opportunities for minimizing risk and maximizing reward in new ventures.

# STRATEGIC INNOVATION: TECHNOLOGY, ORGANIZATIONS, AND SOCIETY, GRADUATE/ PROFESSIONAL CERTIFICATE

The graduate/professional certificate in strategic innovation seeks to provide knowledge and skills to students around the development of innovative products, services, and processes within an existing organization. The certificate is available to all UW–Madison graduate-degree-seeking students (excluding University Special students).

A student who has completed this certificate will have good foundational skills in areas ranging from market assessment, research and development, and product design to intellectual property strategy and portfolio management.

Interested students should see the Certificate in Strategic Innovation website (https://business.wisc.edu/graduate/certificates/strategic-innovation/) for specific information regarding declaration, change, withdrawal, or completion of the certificate. The Management and Human Resources Department will have the certificate noted on students' official university transcripts by the Office of the Registrar.

## ADMISSIONS

# ADMISSIONS

The certificate is open to graduate students that are in good academic standing. A graduate student is in good academic standing if they maintain a cumulative GPA of 3.00 or higher for all graduate courses (excluding research).

The certificate program offers foundational skills and knowledge appropriate for graduate students who anticipate working in dynamic organizations that depend on innovation to compete in the marketplace and/or use innovation to create value for society more broadly.

A student who has completed the certificate will be prepared to execute in-depth new product development plans for an existing organization or identify and evaluate innovation challenges in society.

Before beginning any coursework, students are recommended to consult with their faculty advisor (or, where appropriate, graduate program coordinator).

Note: While the application for declaring your certificate should be completed prior to enrolling in courses for the certificate, it must be completed prior to graduation. Your application automatically serves as a declaration of your intent to pursue the certificate. This declaration becomes part of your academic record.

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any certificate. To apply to this certificate please log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. Professional students in the careers of Law, Medicine, Pharmacy, and Veterinary cannot add the certificate in the Graduate Student Portal, and should contact the program for more information.

The certificate coordinator will review your application for admittance, and reach out to you if there are any further questions.

See the program website linked within the contact information for details.

### Electives

Students may select approved, elective courses from a variety of schools and colleges across the university that deepen students' capacity to:

- analyze new markets,
- manage research and product development processes in existing organizations,
- support organizational creativity,
- articulate innovative business models,
- identify and appropriate the value of intellectual property, and
- assess society-level innovation systems.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Students will be able to recognize, evaluate, select and implement business opportunities emerging from technological solutions.
2. Students will be able to manage technological and innovative processes based on the understanding of industry and market trends.
3. Students will be able to make business decisions in an emerging technology industry context.
4. Students will be able to evaluate competitive advantage (or lack there of) stemming from technology.
5. Students will be able to develop understanding of strategies that firms use to appropriate value from technology.

## DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

# DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/ PROFESSIONAL CERTIFICATES

- Business: Marketing, MBA (p. 1313)

# BUSINESS: MARKETING, MBA

**The Business: Marketing, MBA no longer admits new students after Fall 2026 and the program will be discontinued Fall 2029.** If you have any questions, please contact the department (see contact box).

Founded in 1900, the School of Business established one of the first five business programs in the nation. That entrepreneurial spirit remains strong.

As a student in the School of Business, you will find yourself inspired by peers, staff, alumni, business leaders, and world-renowned faculty who are focused, collaborative, and engaged in every aspect of the student experience. You will join a highly ranked program that equips you to meet both academic and career challenges. Employers value School of Business graduates because of the comprehensive preparation this learning environment provides. Graduates possess highly sought-after general management and specialized expertise in business.

Joining collaborative, inspiring, trustworthy, and progressive School of Business alumni, Business Badgers graduate prepared to lead their organizations to success and transform the world of business. See the program website (https://business.wisc.edu/graduate/mba/full-time/specializations/marketing/) for more information. Together Forward!

## ADMISSIONS

# ADMISSIONS

**The Business: Marketing, MBA no longer admits new students after Fall 2026 and the program will be discontinued Fall 2029.** If you have any questions, please contact the department (see contact box).

| Requirements | Detail |
|---|---|
| Fall Deadline | See program webpage: https://business.wisc.edu/graduate/mba/full-time/admissions (https://business.wisc.edu/graduate/mba/full-time/admissions/)/ |
| Spring Deadline | This program does not admit in the spring. |
| Summer Deadline | This program does not admit in the summer. |
| GRE (Graduate Record Examinations) | May be required in certain cases; consult program. |

| | |
|---|---|
| English Proficiency Test | All applicants whose native language is not English must submit scores from the Test of English as a Foreign Language (TOEFL), the Pearson Test of English (PTE), or the Intensive English as a Second Language (IELTS). A minimum iBT TOEFL score of 100 or equivalent, computer-based PTE score of 73 or equivalent, or IELTS score of 7.5 or equivalent, obtained within two years of the intended start term, is required. International applicants who have completed a degree at an institution whose primary language of instruction was English may request a waiver of this requirement on the application. |
| Other Test(s) (e.g., GMAT, MCAT) | GMAT may be required in certain cases; consult program. |
| Letters of Recommendation Required | 1* |

* Submission of a second letter of recommendation is optional.

Admission consideration for the MBA program requires a four-year undergraduate degree or the equivalent, in any discipline, from an accredited institution. The School of Business prefers a minimum of two years of professional work experience along with a strong undergraduate performance. In addition to academic credentials, a GMAT or GRE score, and work experience, personal achievements, motivation, communication skills (written and oral), and recommendation letters are all considered in the admission process at the master's and doctoral levels.

**Note**: The Graduate Management Admission Test (GMAT) or Graduate Record Examination (GRE) must have been taken within five years prior to receiving an offer of admission.

### HOW TO APPLY

Students interested in a Business: Marketing degree do not apply through the Graduate School application system and should instead refer to the School of Business Admissions page (https://business.wisc.edu/graduate/mba/full-time/admissions/).

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

### CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 54 credits |
| Minimum Residence Credit Requirement | 48 credits |
| Minimum Graduate Coursework Requirement | 27 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | Students may be required to retake a course in which they receive a grade lower than a C. |
| Assessments and Examinations | No required assessments or examinations beyond course requirements. |
| Language Requirements | No language requirements. |

### REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Core Courses** | | |
| ACCT I S 700 | Financial Accounting | 2 |
| FINANCE 700 | Introduction to Financial Management | 2 |
| GEN BUS 704 | Data to Decisions | 2 |
| GEN BUS 710 | Ethics, Integrity and Society | 1 |
| GEN BUS 725 | Consulting Practicum | 1 |
| GEN BUS 732 | Economics for Managers | 2 |
| M H R 706 | Leading and Working in Teams | 1 |
| M H R 723 | Business Strategy | 2 |
| MARKETNG 700 | Marketing Management | 2 |
| OTM 700 | Operations and Supply Chain Management | 2 |
| **Specialization Courses** | | |
| MARKETNG 710 | Marketing Research | 3 |
| MARKETNG 737 | New Product Innovation | 3 |
| MARKETNG 755 | Marketing in a Digital Age | 3 |
| MARKETNG 770 | Marketing Consulting Practicum | 4 |

| | | |
|---|---|---|
| MARKETNG 815 | Marketing Analytics | 3 |
| MARKETNG 840 | Current Topics in Marketing (take during the first three semesters of the program) | 3 |
| **Electives** | | |
| Any course numbered 700 or above offered by the School of Business (including departments: ACCT I S, ACT SCI, FINANCE, GEN BUS, INFO SYS, INTL BUS, M H R, MARKETNG, OTM , REAL EST, or R M I) can be used to complete the required elective credits. | | 18 |
| **Total Credits** | | **54** |

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program and department approval, students may transfer up to 6 credits of graduate coursework completed two years prior to admission at an AACSB accredited institution, in which a grade of B or better was earned.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

No credits from a UW–Madison or other institution undergraduate degree are allowed to count toward the degree.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

No credits earned as a University Special Student at UW-Madison are allowed to transfer toward the degree.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Refer to the Graduate School: Advisor (https://policy.wisc.edu/library/UW-1232/) policy.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

***Any student who feels that they have been mistreated by a faculty or staff member has the right to lodge a complaint. Complaints may concern course grades, classroom treatment, program admission, or other issues. To ensure a prompt and fair hearing of any complaint and to protect both the student's rights and the person at whom the complaint is addressed, the grievance procedures below are used in the School of Business.***

The person against whom the complaint is directed must be an employee of the School of Business. Any student or potential student may use these procedures unless other campus rules or contracts cover the complaint:

1. If the student feels comfortable/safe doing so, the student should first talk with the person against whom the grievance is directed. Most issues can be settled at this level. If the complaint is directed against a teaching assistant (TA) and the student is not satisfied after discussion of the grievance with the TA, the next step would be to talk to the TA's supervisor, who is usually the course professor. If the complaint is still not resolved satisfactorily, the student may continue to step 2.
2. If the complaint involves an academic department, the student should contact the chair of the department. The chair will attempt to

resolve the problem informally. If this cannot be done to the student's satisfaction, the student may submit the grievance to the chair in writing. This must be done within 60 calendar days of the alleged unfair treatment.
   a. If the complaint does not involve an academic department, the procedure outlined in Step 4 below should be followed.
3. On receipt of a written complaint, the chair will refer the matter to a departmental committee, which will obtain a written response from the person at whom the complaint is directed. This response shall be shared with the person filing the grievance. The chair will provide a written decision within 30 days to the student on the action taken by the committee.
4. If either party is not satisfied with the decision, they have five working days from receipt of the decision to contact the dean's office (at the number below), indicating the intention to appeal. If the complaint does not involve an academic department in the school, the student must contact the dean's office within 60 calendar days of the alleged unfair treatment.
5. In either case, there will be an attempt to resolve the issue informally by the appropriate associate dean. If this cannot be done, the complaint can be filed in writing with the Office of the Dean. This must be done within 10 working days of the time the appealing party was notified that informal resolution was unsuccessful.
6. On receipt of such a written complaint, the Sr. Associate Dean for Faculty & Staff will convene a subcommittee of relevant stakeholders pending the nature of the issue. This subcommittee may ask for additional information from the parties involved and may hold a hearing at which both parties will be asked to speak separately. The subcommittee will then make a written recommendation to the dean of the School of Business who will render a decision. Unless a longer time is negotiated, this written decision shall be made within 20 working days from when the grievance was filed with the Office of the Dean.

*Questions about these procedures can be directed to the School of Business, Office of the Dean, 4339 Grainger, 975 University Avenue, 608-262-7867.*

*State law contains additional provisions regarding discrimination and harassment. Wisconsin Statutes 36.12 reads, in part: "No student may be denied admission to, participation in or the benefits of, or be discriminated against in any service, program, course or facility of the system or its institutions or center because of the student's race, color, creed, religion, sex, national origin, disability, ancestry, age, sexual orientation, pregnancy, marital status or parental status." In addition, the UW System prohibits discrimination based on gender identity or gender expression. Students have the right to file discrimination and harassment complaints with the Office of Compliance, 361 Bascom Hall, 608-265-6018, uwcomplianceoffice@wisc.edu.*

The Graduate School has procedures for students wishing to appeal a grievance decision at the school/college level. These policies are described in the Graduate School's Academic Policies and Procedures: https://grad.wisc.edu/documents/grievances-and-appeals/

### OTHER

Students are expected to be enrolled full-time for all semesters. Exceptions may be granted in the final semester.

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Articulate core marketing strategy principles and how marketing drives value.
2. Apply analytical methods to organize and interpret data, generate consumer insights, and translate into effective marketing strategies.
3. Articulate specific marketing decisions (product, price, place/distribution, promotion) and their role in overall marketing strategies, and demonstrate how marketing decisions follow from choices with regard to segmentation and positioning.
4. Demonstrate effective communication and leadership skills to influence others and drive organizational change.

## ACCREDITATION

# ACCREDITATION

AACSB International—The Association to Advance Collegiate Schools of Business (http://www.aacsb.edu/)

Accreditation status: Accredited. Next accreditation review: 2026-2027.

# MATERIALS SCIENCE AND ENGINEERING

## DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

# DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

- Materials Science and Engineering, Doctoral Minor (p. 1317)
- Materials Science and Engineering, MS (p. 1317)
- Materials Science and Engineering, PhD (p. 1328)

# MATERIALS SCIENCE AND ENGINEERING, DOCTORAL MINOR

## ADMISSIONS

## ADMISSIONS

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any doctoral minor. To apply to this minor, log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. Select the information for the doctoral minor for which you are applying.

## REQUIREMENTS

## REQUIREMENTS

Students must complete at least nine credits in Materials Science and Engineering (M S & E) (https://guide.wisc.edu/courses/m_s_e/) and meet the following requirements:

1. Six credits must be numbered 400 or above;
2. Three credits must be numbered 700 or above;
3. Earn a B or better in doctoral minor courses.

### PRIOR COURSEWORK

Graduate coursework from other institutions cannot be used to satisfy coursework requirements.

# MATERIALS SCIENCE AND ENGINEERING, MS

The Department of Materials Science and Engineering offers two distinct master of science (MS) degree programs:

- Materials Science and Engineering MS, Research (p. 1323): traditional master's program culminating in a thesis for students wishing to conduct research during their program
- Materials Science and Engineering MS, Materials Engineering (p. 1319): accelerated, course-based master's program

## ABOUT MATERIALS SCIENCE AND ENGINEERING

Meeting many of the most critical challenges facing modern society requires advances in the materials that underpin new technologies. Examples include providing carbon-free and renewable energy, clean water, advanced medical treatments and devices, and sustainable materials manufacturing. New materials are also required for continued economic growth in areas as diverse as aerospace, computing, and sensors.

Materials scientists and engineers at UW–Madison work toward solutions to these problems via research in a wide variety of areas. Research areas include ceramics, computational material science; composites; corrosion; electrical, optical, magnetic materials; growth and synthesis; joining; materials for energy; metals; materials characterization and microscopy; nanomaterials; phase transformations; photonics; polymers and biomaterials; materials for nuclear energy; quantum computing; self-assembly; semiconductors; structural materials and mechanical properties; surfaces and interfaces; sustainability; thin films; and wear.

More broadly, the field of materials science and engineering is in the middle of a revolution in how we design and deploy new materials. The old way is by trial and error, which involves laboratory testing of hundreds or thousands of candidate materials, which is costly and can take decades to develop new materials and deploy them in practical technologies. The emerging new method leverages advances in computational materials science; materials databases, data science, and machine learning; and high throughput materials synthesis and characterization to achieve true design of materials. The goal is to develop and deploy new materials much more quickly and at a much lower cost than ever before. Materials design is a major theme of materials research on campus, organized around the areas of materials design via atomically controlled thin film systems, modular design of nanomaterials, and integrated experimental and computational materials engineering. Materials design and these themes cut across the research and application areas listed above.

Materials research extends across campus, well beyond the boundaries of the Department of Materials Science and Engineering, so graduate students in materials can pursue research with a large number of affiliate faculty. Faculty emphasize the cross-cutting, interdisciplinary nature of materials research, which is also reflected by the diverse undergraduate backgrounds of the student body, many of whom do not have undergraduate degrees in materials.

Materials research benefits from major campus facilities, including the Materials Science Center, the Wisconsin Microscopy and Characterization Center, Wisconsin Center for Applied Microelectronics, and the Soft Materials Laboratory. Research is supported by major centers, including the National Science Foundation Materials Research Science and Engineering Center and the Grainger Institute for Engineering.

Materials graduates from Wisconsin find long-term success in careers in private industry, national laboratories, and academia in the U.S. and around the world.

## ADMISSIONS

## ADMISSIONS

Students apply to the Master of Science in Materials Science and Engineering through one of the named options:

- Materials Engineering (p. 1319)
- Research (p. 1323)

## FUNDING

## FUNDING

### GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from

the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

### Financial Assistance

Please note that most funding is available for PhD students and there are limited resources for MS students. Financial assistance is not available for students enrolled in the named option in Materials Engineering (p. 1319).

Various types of financial assistance are available for graduate students, including research assistantships, teaching assistantships, fellowships, and special grants. Decisions regarding financial support are made on the basis of your graduate school application, and, for research assistantships, the matching of the interests or experience of the applicant to the research programs of individual faculty members.

### Research and Teaching Assistantships

Research assistantships (RAs) are available in any materials science area. These appointments are under the supervision of the major professor directing the research. Students interested in research assistantships in a particular area are encouraged to contact professors whose work is of special interest. The faculty's research interests are given in the Department of Materials Science and Engineering faculty directory. An RA permits the most rapid progress toward a degree. Research assistantships in materials science graduate students are comparable to similar stipends from other institutions. Information about stipends can be obtained from the Associate Chair of Graduate Studies.

Teaching assistantships involve teaching rather than research experience. They pay approximately the same as research assistantships. Teaching experience is especially desirable for students considering an academic career. The Department of Materials Science and Engineering supports a limited number of teaching assistantships.

### Fellowships

Fellowships supporting graduate education are also offered on a competitive basis by organizations such as the National Science Foundation (http://www.nsf.gov/), the Hertz Foundation (http://www.hertzfndn.org/), UW-Madison Graduate School (http://www.wisc.edu/grad/), the U.S. Department of Defense, and a number of industries and foundations. Because some of these fellowships have fall application deadlines, early application is necessary.

# REQUIREMENTS

## MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

## MAJOR REQUIREMENTS

### CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 15 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required.<br>Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | n/a |
| Assessments and Examinations | See Named Options for policy information. |
| Language Requirements | None. |

### REQUIRED COURSES

Select a Named Option (p. 1318) for courses required.

## NAMED OPTIONS

A named option is a formally documented sub-major within an academic major program. Named options appear on the transcript with degree conferral. Students pursuing the Master of Science in Materials Science and Engineering must select one of the following named options:

View as listView as grid

- **MATERIALS SCIENCE AND ENGINEERING: MATERIALS ENGINEERING, MS (P. 1319)**
- **MATERIALS SCIENCE AND ENGINEERING: RESEARCH, MS (P. 1323)**

# POLICIES

## POLICIES

Students should refer to one of the named options for policy information:

- Materials Engineering (p. 1319)
- Research (p. 1323)

# PROFESSIONAL DEVELOPMENT

## PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## PROGRAM RESOURCES

### Engineering Career Services

The Engineering Career Services (https://ecs.wisc.edu/) staff offer assistance to students searching or preparing for internships, co-ops, and jobs with well-recognized organizations.

### The Writing Center

The Writing Center (https://writing.wisc.edu/) is a campus-wide organization that provides free of charge, face-to-face and online consultations for students writing papers, reports, resumes, and applications.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Demonstrate a strong understanding of mathematical, scientific, and engineering principles in the field.
2. Demonstrate an ability to formulate, analyze, and solve advanced engineering problems.
3. Demonstrate creative, independent problem solving skills.
4. Apply the latest scientific and technological advancements, advanced techniques, and modern engineering tools to these problems.
5. Recognize and apply principles of ethical and professional conduct.

# MATERIALS SCIENCE AND ENGINEERING: MATERIALS ENGINEERING, MS

This is a non-thesis named option within the Materials Science and Engineering MS (p. 1317).

# IS THIS PROGRAM RIGHT FOR YOU?

As a student in the UW–Madison accelerated master's in materials engineering, you can choose from four focus areas. Taking the Nanomaterials and Nanoengineering path, you can develop a unique understanding of innovative applications such as nanomaterial synthesis, thin film deposition, polymeric materials, and crystallography. The Engineering Materials and Processes path offers in-depth knowledge of phase transformation, deformation, corrosion, and heat treatment, among others. The Semiconductor Materials and Manufacturing for Microelectronics path offers in-depth education on the microstructure, fabrication, and properties of electronic, optical, and magnetic materials and semiconductors. It aims to prepare students to make an impact in the semiconductor sector as it develops new materials and fabrication methods needed to create future generations of advanced computation, communications, quantum, and sensing devices. The Computation and Artificial Intelligence in Materials Engineering path provides materials engineers with the skills to utilize the transformative power of modern computational methods in materials discovery, synthesis, processing, and optimization. This path covers deep materials fundamentals combined with quantum simulation, molecular dynamics, and mesoscale methods, as well as integrating materials with the exploding world of machine learning (Generative AI, Transformers, Large Language Models, and more). All focus areas include techniques for X-ray scattering, atomistic modeling, molecular dynamics, and more.

If you have questions, please contact Materials Science and Engineering Graduate Admissions at msaegradadmission@engr.wisc.edu. Please see admission requirements on the Admissions tab.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 15 |
| Spring Deadline | The program does not admit in the spring. |
| Summer Deadline | December 15 |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 2 |

Applicants are expected to have a BS in the physical sciences or engineering. Undergraduate studies normally would include mathematics through differential equations, at least one year each of general physics and chemistry, a course in physical chemistry or modern physics, and an elementary course in properties of materials. Applicants may be admitted with deficiencies. These must be made up as soon as possible after entering the program.

## APPLICATION

Required application materials:

- Academic transcripts
- English proficiency scores, if applicable
- Two letters of recommendation
- Statement of purpose
- Resume

Admission to the University of Wisconsin–Madison Graduate School (http://grad.wisc.edu/) is a prerequisite for admission to study materials science. A minimum GPA of 3.0/4.0 is required. Admission is highly selective. Most admitted applicants have an undergraduate GPA above

3.5. However, full consideration will be given to all applicants meeting the UW–Madison Graduate School requirements.

Submit only the documents requested. Do not send documents to the Graduate School. All documents should be uploaded with your application.

Use the online application (https://grad.wisc.edu/apply/) to begin your application. If you have questions about the application or admissions process, e-mail msaegradadmission@engr.wisc.edu.

### INTERNATIONAL APPLICANTS

International degree-seeking applicants must prove English proficiency using the Graduate School's requirements (https://grad.wisc.edu/apply/requirements/).

### FEE GRANTS

The Graduate School offers a limited number of application fee grants (waives all or part of the application fee) that are available in a few specific circumstances. Further information is available on the "Applying for a Fee Grant (https://grad.wisc.edu/apply/fee-grant/)" page.

### QUESTIONS

Contact msaegradadmission@engr.wisc.edu.

## FUNDING

# FUNDING

### GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

### PROGRAM RESOURCES

Students enrolled in this program are not eligible to receive tuition remission from graduate assistantship appointments at this institution.

Financial assistance from the department is not available for the Master of Science named option program in Materials Engineering.

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# NAMED OPTION REQUIREMENTS

### MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | Yes |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

### CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 15 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required.<br>Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | n/a |
| Assessments and Examinations | No formal examination is required. |

| M S & E 448 | Crystallography and X-Ray Diffraction | 3 |
| M S & E 456 | Electronic, Optical, and Magnetic Properties of Materials [3] | 3 |
| M S & E 551 | Structure of Materials | 3 |
| M S & E 554 | Quantum Materials: Principles and Applications | 3 |
| M S & E 648 | Advanced X-ray Scattering Methods in Materials Science and Engineering | 3 |
| M S & E 660 | Mesoscale Modeling of Materials | 3 |
| M S & E 748 | Structural Analysis of Materials | 3 |
| M S & E 756 | Structure and Properties of Advanced Electronic Materials [3] | 3 |
| M S & E 760 | Molecular Modeling of Materials [3] | 3 |
| M S & E 699 | Independent Study [2] | 1-4 |
| E C E 549 | Integrated Circuit Fabrication Laboratory | 4 |

### Computation and Artificial Intelligence in Materials Engineering [1]

| Code | Title | Credits |
|---|---|---|
| **Required Courses:** | | |
| M S & E 561 | Machine Learning in Materials | 3 |
| M S & E 660 | Mesoscale Modeling of Materials | 3 |
| At least one course from the following two: [3] | | |
| M S & E 460 | Introduction to Computational Materials Science and Engineering | |
| M S & E 760 | Molecular Modeling of Materials | |
| **Electives:** | | |
| M S & E 401 | Special Topics in Materials Science and Engineering (Modern Alloy Design) | 3 |
| M S & E 401 | Special Topics in Materials Science and Engineering (Quantum Materials) | 3 |
| M S & E 456 | Electronic, Optical, and Magnetic Properties of Materials | 3 |
| M S & E 460 | Introduction to Computational Materials Science and Engineering [3] | 3 |
| M S & E 553 | Nanomaterials & Nanotechnology | 3 |
| M S & E 699 | Independent Study [2] | 1-4 |
| M S & E 756 | Structure and Properties of Advanced Electronic Materials | 3 |
| M S & E 760 | Molecular Modeling of Materials [3] | 3 |
| COMP SCI/E C E/ E M A/E P/M E 759 | High Performance Computing for Applications in Engineering | 3 |

### Footnotes

1. These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.
2. Students in this program may apply a maximum of 4 credits of M S & E 699 Independent Study to the degree, with advisor approval.
3. The same course may not satisfy more than one requirement. For example, if M S & E 456 Electronic, Optical, and Magnetic Properties of Materials is taken as a required course, it cannot also be used as an elective course.

### Other Policy

Students in this program may not take courses outside the prescribed curriculum without faculty advisor and program director approval. Students in this program cannot enroll concurrently in other undergraduate or graduate degree programs.

## POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# NAMED OPTION-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

Typically, no graduate work from other institutions may transfer for graduate program requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

Typically, no credits from undergraduate coursework may transfer for graduate program requirements. However, with program approval, students who received a Materials Science and Engineering BS at UW-Madison may transfer up to 7 credits from the Department of Materials Science and Engineering coursework numbered 300 or above toward the minimum credit requirement. Coursework numbered 700 or above may satisfy the minimum graduate coursework (50%) requirement. No credits can be counted toward the minimum graduate residence credit requirement.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

Typically, no UW-Madison University Special student credits may transfer for graduate program requirements. For questions about exceptions, contact the graduate coordinator.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Refer to the Graduate School: Advisor (https://policy.wisc.edu/library/UW-1232/) and Graduate School: Committees (Doctoral/Master's/MFA) (https://policy.wisc.edu/library/UW-1201/) policies.

## CREDITS PER TERM ALLOWED

15 credits; Suggested course credit allocation:

- Summer session: 4 credits
- Fall semester: 13 credits
- Spring semester: 13 credits

## TIME LIMITS

The Master of Science in Materials Science and Engineering: Materials Engineering, which is a named option program within the Department of Materials Science and Engineering, can be completed within 12 months and must be completed within 16 months.

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

### MS&E Grievance Procedures

Students who feel they have been unfairly treated or otherwise have a grievance related to the policies and procedures for graduate study in the Materials Science and Engineering Department may choose to submit a formal grievance to the department. Before taking this step, however, students are encouraged to discuss their grievance directly with the person or persons involved. Respectful, professional, direct communication can often reach a more satisfactory resolution to an issue more quickly than a formal grievance procedure.

To pursue a formal grievance, the student should submit a letter describing the issue in detail to the department Associate Chair of Graduate Studies within 60 days of the precipitating incident. (Should the grievance involve the Director of Graduate Studies, the letter should be submitted to the department Chair.) The Director (or Chair) will convene a committee of not fewer than three department faculty. The committee will obtain a written response from the person or persons who are the subject of the complaint. The committee will then decide a course of action in response to the grievance. The response from the subject of the complaint and the committee course of action will be communicated in writing to the student within 15 working days of submission of the grievance. The course of action will be implemented no later than 10 working days of the communication.

If the departmental procedure does not resolve the grievance, the student may appeal to the College of Engineering or the Graduate School.

The College grievance procedures are currently available at https://engineering.wisc.edu/report-an-incident/academic-grievances-and-complaints/, (http://www.engr.wisc.edu/current/current-students-how-to-file-a-grievance.html) and the Graduate School procedures are available at http://grad.wisc.edu/acadpolicy/. (http://grad.wisc.edu/acadpolicy/)

The Assistant Dean for Graduate Affairs (engr-dean-graduateaffairs@engr.wisc.edu) provides overall leadership for graduate education in the College of Engineering (CoE), and is a point of contact for graduate students who have concerns about education, mentoring, research, or other difficulties.

## OTHER

Students are strongly discouraged to pursue positions as Project Assistants, Teaching Assistants or Research Assistants during their time in this program, as the rigor and accelerated nature of this program may not accommodate those work time commitments. Students in this program will not receive the tuition remission that is typically part of the compensation package for a graduate assistantship.

# PROFESSIONAL DEVELOPMENT

## PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

### PROGRAM RESOURCES

#### Engineering Career Services

The Engineering Career Services (https://ecs.wisc.edu/) staff offer assistance to students searching or preparing for internships, co-ops, and jobs with well-recognized organizations.

#### The Writing Center

The Writing Center (https://writing.wisc.edu/) is a campus-wide organization that provides free of charge, face-to-face and online consultations for students writing papers, reports, resumes, and applications.

# MATERIALS SCIENCE AND ENGINEERING: RESEARCH, MS

This is a named option within the Materials Science and Engineering MS (p. 1317).

The Research named option in the Materials Science and Engineering MS is designed for students wishing to conduct research during their program. This program takes approximately two years to complete and a thesis is required.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 15 |
| Spring Deadline | September 1 |
| Summer Deadline | December 15 |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

Applicants are expected to have a BS in the physical sciences or engineering. Undergraduate studies normally would include mathematics through differential equations, at least one year each of general physics and chemistry, a course in physical chemistry or modern physics, and an elementary course in properties of materials. Applicants may be admitted with deficiencies. These must be made up as soon as possible after entering the program.

## APPLICATION

Required application materials:

- Academic transcripts (unofficial)
- English proficiency scores (https://grad.wisc.edu/apply/requirements/#english-proficiency), if applicable
- Three letters of recommendation
- Statement of purpose (https://grad.wisc.edu/apply/prepare/)
- Resume

Admission to the University of Wisconsin–Madison Graduate School (http://grad.wisc.edu/) is a prerequisite for admission to study materials science. A minimum GPA of 3.0/4.0 is required. Admission is highly selective. Most admitted applicants have an undergraduate GPA above 3.5. However, full consideration will be given to all applicants meeting the UW–Madison Graduate School requirements.

Use the online application (https://grad.wisc.edu/apply/) to begin your application. All documents should be uploaded with your application. To be considered for fellowships, all application materials are due by the fall deadline.

## INTERNATIONAL APPLICANTS

International degree-seeking applicants must prove English proficiency using the Graduate School's requirements (https://grad.wisc.edu/apply/requirements/).

## FEE GRANTS

The Graduate School offers a limited number of application fee grants (waives all or part of the application fee) that are available in a few specific circumstances. Further information is available on the "Applying for a Fee Grant (https://grad.wisc.edu/apply/fee-grant/)" page.

## QUESTIONS

If you have questions about the application or admissions process, contact msaegradadmission@engr.wisc.edu.

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

### Financial Assistance

Please note that most funding is available for PhD students and there are limited resources for MS students.

Various types of financial assistance are available for graduate students, including research assistantships, teaching assistantships, fellowships, and special grants. Decisions regarding financial support are made on the basis of your graduate school application, and, for research assistantships, the matching of the interests or experience of the applicant to the research programs of individual faculty members.

### Research and Teaching Assistantships

Research assistantships (RAs) are available in any materials science area. These appointments are under the supervision of the major professor directing the research. Students interested in research assistantships in a particular area are encouraged to contact professors whose work is of special interest. The faculty's research interests are given in the Department of Materials Science and Engineering faculty directory. An RA permits the most rapid progress toward a degree. Research assistantships in materials science graduate students are comparable to similar stipends from other institutions. Information about stipends can be obtained from the Associate Chair of Graduate Studies.

Teaching assistantships involve teaching rather than research experience. They pay approximately the same as research assistantships. Teaching experience is especially desirable for students considering an academic career. The Department of Materials Science and Engineering supports a limited number of teaching assistantships.

### Fellowships

Fellowships supporting graduate education are also offered on a competitive basis by organizations such as the National Science Foundation (http://www.nsf.gov/), the Hertz Foundation (http://www.hertzfndn.org/), UW-Madison Graduate School (http://www.wisc.edu/grad/), the U.S. Department of Defense, and a number of industries and foundations. Because some of these fellowships have fall application deadlines, early application is necessary.

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# NAMED OPTION REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 15 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required.<br>Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | n/a |
| Assessments and Examinations | Students must prepare and defend a master's thesis covering appropriate independent science or engineering research undertaken by the student. The format and procedures must conform to the Graduate School rules for a master's thesis, currently found at https://grad.wisc.edu/current-students/masters-guide (https://grad.wisc.edu/current-students/masters-guide/)/. The master's thesis should represent significant science or engineering research work and progress, but does not need to report a substantial new contribution to human knowledge. The thesis must be circulated to the committee at least two weeks before the defense. |
| Language Requirements | None. |

## REQUIRED COURSES

Before registering for the second semester, students must submit an advisor approved course plan to the graduate coordinator. Students are not restricted to this plan. Students and advisors are encouraged to update the course plan. Updated versions are not required to be submitted.

| Code | Title | Credits |
|---|---|---|
| **Materials Research Seminar** | | |
| Students must complete the following course for two consecutive semesters. | | 2 |
| M S & E 900 | Materials Research Seminar | |
| **Materials Core Courses** | | |
| Students must complete three core courses from the following list: | | 9 |
| M S & E 521 | Advanced Polymeric Materials | |
| M S & E 530 | Thermodynamics of Solids | |
| M S & E 551 | Structure of Materials | |
| M S & E 752 | Advanced Materials Science: Phase Transformations | |
| *Graduate-level Math Course* | | |
| Students may only apply one of the following as a Materials Core Course: | | |
| E P/E M A 547 | Engineering Analysis I | |
| CBE 660 | Intermediate Problems in Chemical Engineering | |
| MATH 703 | Methods of Applied Mathematics 1 | |
| MATH 704 | Methods of Applied Mathematics-2 | |
| PHYSICS 721 | Theoretical Physics-Electrodynamics | |
| **Materials Elective Courses** | | |
| Students must complete 6 credits from the "Materials Elective Courses" list. | | 6 |
| **Research** | | |
| Students must complete 13 credits of the following course. | | 13 |
| M S & E 790 | Master's Research or Thesis | |
| **Total Credits** | | **30** |

### Materials Elective Courses

The same course may not satisfy more than one requirement. For example, if M S & E 530 Thermodynamics of Solids is taken as a "Materials Core Course", it could not be used as a "Materials Elective Course". Only one mathematics course may fulfill a "Materials Core Course" or "Materials Elective Course". Refer to the "Policies" tab for information on how to enroll in a course outside of the list below.

| Code | Title | Credits |
|---|---|---|
| M S & E 401 | Special Topics in Materials Science and Engineering | 1-3 |
| M S & E/CHEM 421 | Polymeric Materials | 3 |
| M S & E/N E 423 | Nuclear Engineering Materials | 3 |
| M S & E/M E 431 | Metalcasting | 3 |
| M S & E/N E 433 | Principles of Corrosion | 3 |
| M S & E 434 | Introduction to Thin-Film Deposition Processes | 3 |
| M S & E 441 | Deformation of Solids | 3 |
| M S & E 448 | Crystallography and X-Ray Diffraction | 3 |
| M S & E 451 | Introduction to Ceramic Materials | 3 |
| M S & E 456 | Electronic, Optical, and Magnetic Properties of Materials | 3 |
| M S & E 460 | Introduction to Computational Materials Science and Engineering | 3 |
| M S & E/M E 462 | Welding Metallurgy | 3 |
| M S & E 463 | Materials for Elevated Temperature Service | 3 |
| M S & E 465 | Fundamentals of Heat Treatment | 3 |
| M S & E/CIV ENGR/ G L E/GEOSCI 474 | Rock Mechanics | 3 |
| M S & E 521 | Advanced Polymeric Materials | 3 |
| M S & E 525 | Inorganic Organic Hybrid Materials | 3 |
| M S & E 530 | Thermodynamics of Solids | 3 |
| M S & E/E M A 541 | Heterogeneous and Multiphase Materials | 3 |
| M S & E 550 | Materials Fundamentals | 3 |
| M S & E 551 | Structure of Materials | 3 |
| M S & E 553 | Nanomaterials & Nanotechnology | 3 |
| M S & E 554 | Quantum Materials: Principles and Applications | 3 |
| M S & E 561 | Machine Learning in Materials | 3 |
| M S & E 570 | Properties of Solid Surfaces | 3 |
| M S & E 648 | Advanced X-ray Scattering Methods in Materials Science and Engineering | 3 |
| M S & E 660 | Mesoscale Modeling of Materials | 3 |
| M S & E 748 | Structural Analysis of Materials | 3 |
| M S & E 750 | Imperfections and Mechanical Properties | 3 |
| M S & E 752 | Advanced Materials Science: Phase Transformations | 3 |
| M S & E 756 | Structure and Properties of Advanced Electronic Materials | 3 |
| M S & E 760 | Molecular Modeling of Materials | 3 |
| M S & E 803 | Special Topics in Materials Science | 1-3 |
| B M E 430 | Biological Interactions with Materials | 3 |
| B M E/M E 615 | Tissue Mechanics | 3 |
| BIOCHEM/ CHEM 704 | Chemical Biology | 3 |
| CBE 540 | Polymer Science and Technology | 3 |
| CHEM 652 | Chemistry of Inorganic Materials | 3 |
| CHEM 653 | Chemistry of Nanoscale Materials | 3 |
| CHEM 654 | Materials Chemistry of Polymers | 2-3 |
| CHEM 664 | Physical Chemistry of Macromolecules | 2-3 |
| CHEM 721 | Instrumental Analysis | 3-4 |
| E C E 745 | Solid State Electronics | 3 |
| GEOSCI 765 | Crystal Chemistry | 3 |
| PHYSICS 415 | Thermal Physics | 3 |
| PHYSICS 551 | Solid State Physics | 3 |
| PHYSICS 715 | Statistical Mechanics | 3 |
| PHYSICS 751 | Advanced Solid State Physics | 3 |

## POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# NAMED OPTION-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

Typically, no graduate work from other institutions may transfer in fulfillment of degree requirements. For questions about exceptions, contact the graduate coordinator.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

Typically, no credits from undergraduate coursework may transfer in fulfillment of degree requirements. For questions about exceptions, contact the graduate coordinator.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Typically, no credits earned as a professional student may transfer in fulfillment of degree requirements. For questions about exceptions, contact the graduate coordinator.

### Credits Earned as a University Special Student at UW–Madison

Typically, no University Special student credits may transfer in fulfillment of degree requirements. For questions about exceptions, contact the graduate coordinator.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

The Materials Science and Engineering graduate program is guided by expectations for the conduct of students and faculty that help to establish a safe, collegial, and productive environment facilitating scientific discovery and professional development. These expectations reflect professional guidelines provided by the UW-Madison College of Engineering and the UW-Madison Graduate School.

The specific expectations of the program are:

1. Intellectual and professional integrity
    a. Materials Science and Engineering graduate students and their faculty mentors are expected to show respect for the profession and for those working in it. Research activities will be conducted without plagiarism, with proper attribution of work with collaborators, and with respect for applicable professional ethical considerations, such as those associated with the involvement of human subjects.
2. Safe and environmentally responsible conduct of research
    a. Research in the Materials Science and Engineering graduate program is expected to be conducted with a high level of respect for the safety of the students, faculty, and other participants. Students and faculty must observe the requirements defined at the research group, department, college, and university for safe and environmentally responsible research. Faculty are expected to develop and maintain lab safety plans, to appoint a safety coordinator within their labs, and to advise students of the safety training required for work in their groups. Students are expected to seek and to obtain the required safety training, to remain up-to-date with required recurrent training, and to follow the safety guidelines at all times.
3. Professional research environment
    a. Students and faculty are expected to contribute to a collegial professional research environment, practicing mutual respect for all students, faculty, and staff. The Materials Science and Engineering department strives to create an environment free from harassment, bias, and hostile and intimidating behavior. Students supported by teaching assistant appointments are expected to balance the time commitments to research and teaching after consultation with their advisor and the faculty member responsible for the course to which they are assigned. These arrangements may evolve during the course of the student's MS Research program.
    b. These expectations include responsiveness to communications, including (as applicable) a regular schedule of meetings and response to electronic communication during defined working hours. Students and faculty are expected (as required) to participate in group meetings and individual or small-group collaborative meetings, and lab activities such as those associated with mentoring other students and maintaining a safe working environment. Students are not expected to provide personal assistance for faculty advisors or to perform other duties outside of their university research, teaching and service commitments.
    c. Students and faculty are expected to be aware of issues in implicit bias, sexual harassment, and ethical conduct of research.
4. Professional development and achievement in research
    a. Students are expected to develop and to maintain a set of research goals with the potential to lead to outputs such as research publications, the development of intellectual property, and scientific presentations. Research goals can include original research discoveries, contributions to the scientific literature, and other outputs as mutually agreed by the student and faculty advisor. These goals must be reached in agreement with the faculty mentors. Students are expected to conduct their research within the intellectual property guidelines associated with their source of financial support (e.g. the requirements of the Bayh-Dole act for federally supported research).
5. Ongoing clear communications about expectations and feedback on student progress
    a. Students and faculty will have regular communications about the progress that students are making towards their degree requirements and expectations for the conduct of research. Students can offer feedback about faculty using the College of Engineering's annual Graduate On-Line Assessment & Achievement Learning System (GOAALS) survey or through direct communication with the Materials Science and Engineering Chair, the Materials Science and Engineering Associate Chair for Graduate Studies, or the College of Engineering Assistant Dean for Graduate Studies. The Materials Science and Engineering department will include a discussion of these expectations as part of the required student orientation activities.
    b. Students can expect clear communications from faculty about their progress in the program, feedback on research and educational issues, and the progress towards the degree.

## ADVISOR / COMMITTEE

Refer to the Graduate School: Advisor (https://policy.wisc.edu/library/UW-1232/) and Graduate School: Committees (Doctoral/Master's/MFA) (https://policy.wisc.edu/library/UW-1201/) policies.

Students without an advisor at the end of their first year enrolled are in danger of failing to make adequate progress towards their degree. Students can be suspended from the Graduate School if they do not have an advisor.

The master's thesis defense committee consists of three faculty: the student's advisor and two other faculty members from Materials Science and Engineering (primary or affiliated with Materials Science and Engineering). Committee members must represent at least two different tenure homes. All members of the committee must be physically or virtually present for the exam.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

The master's degree is typically completed within three years.

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)

- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

### MS&E Grievance Procedures

Students who feel they have been unfairly treated or otherwise have a grievance related to the policies and procedures for graduate study in the Materials Science and Engineering Department may choose to submit a formal grievance to the department. Before taking this step, however, students are encouraged to discuss their grievance directly with the person or persons involved. Respectful, professional, direct communication can often reach a more satisfactory resolution to an issue more quickly than a formal grievance procedure.

To pursue a formal grievance, the student should submit a letter describing the issue in detail to the department Associate Chair of Graduate Studies within 60 days of the precipitating incident. (Should the grievance involve the Director of Graduate Studies, the letter should be submitted to the department Chair.) The Director (or Chair) will convene a committee of not fewer than three department faculty. The committee will obtain a written response from the person or persons who are the subject of the complaint. The committee will then decide a course of action in response to the grievance. The response from the subject of the complaint and the committee course of action will be communicated in writing to the student within 15 working days of submission of the grievance. The course of action will be implemented no later than 10 working days of the communication.

If the departmental procedure does not resolve the grievance, the student may appeal to the College of Engineering or the Graduate School. The College grievance procedures are currently available at https://engineering.wisc.edu/report-an-incident/academic-grievances-and-complaints/, (http://www.engr.wisc.edu/current/current-students-how-to-file-a-grievance.html) and the Graduate School procedures are available at http://grad.wisc.edu/acadpolicy/. (http://grad.wisc.edu/acadpolicy/)

The Assistant Dean for Graduate Affairs (engr-dean-graduateaffairs@engr.wisc.edu) provides overall leadership for graduate education in the College of Engineering (CoE), and is a point of contact for graduate students who have concerns about education, mentoring, research, or other difficulties.

## OTHER

### Materials Elective Course Request

Students or faculty may request a course be added to the "Materials Elective Courses" list by submitting a letter to the graduate coordinator. The request must include the course syllabus and explain why the course is a materials-centric course.

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

## GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## PROGRAM RESOURCES

### Engineering Career Services

The Engineering Career Services (https://ecs.wisc.edu/) staff offer assistance to students searching or preparing for internships, co-ops, and jobs with well-recognized organizations.

### The Writing Center

The Writing Center (https://writing.wisc.edu/) is a campus-wide organization that provides free of charge, face-to-face and online consultations for students writing papers, reports, resumes, and applications.

# MATERIALS SCIENCE AND ENGINEERING, PHD

Meeting many of the most critical challenges facing modern society requires advances in the materials that underpin new technologies. Examples include providing carbon-free and renewable energy, clean water, advanced medical treatments and devices, and sustainable materials manufacturing. New materials are also required for continued economic growth in areas as diverse as aerospace, computing, and sensors.

Materials scientists and engineers at UW–Madison work toward solutions to these problems via research in a wide variety of areas. Research areas include ceramics, computational material science; composites; corrosion; electrical, optical, magnetic materials; growth and synthesis; joining; materials for energy; metals; materials characterization and microscopy; nanomaterials; phase transformations; photonics; polymers and biomaterials; materials for nuclear energy; quantum computing; self-assembly; semiconductors; structural materials and mechanical properties; surfaces and interfaces; sustainability; thin films; and wear.

More broadly, the field of materials science and engineering is in the middle of a revolution in how we design and deploy new materials. The old way is by trial and error, which involves laboratory testing of hundreds or thousands of candidate materials, which is costly and can take decades to develop new materials and deploy them in practical technologies. The

emerging new method leverages advances in computational materials science; materials databases, data science, and machine learning; and high throughput materials synthesis and characterization to achieve true design of materials. The goal is to develop and deploy new materials much more quickly and at a much lower cost than ever before. Materials design is a major theme of materials research on campus, organized around the areas of materials design via atomically controlled thin film systems, modular design of nanomaterials, and integrated experimental and computational materials engineering. Materials design and these themes cut across the research and application areas listed above.

Materials research extends across campus, well beyond the boundaries of the Department of Materials Science and Engineering, so graduate students in materials can pursue research with a large number of affiliate faculty. Faculty emphasize the cross-cutting, interdisciplinary nature of materials research, which is also reflected by the diverse undergraduate backgrounds of the student body, many of whom do not have undergraduate degrees in materials.

Materials research benefits from major campus facilities, including the Materials Science Center, the Wisconsin Microscopy and Characterization Center, Wisconsin Center for Applied Microelectronics, and the Soft Materials Laboratory. Research is supported by major centers, including the National Science Foundation Materials Research Science and Engineering Center and the Grainger Institute for Engineering.

Materials graduates from Wisconsin find long-term success in careers in private industry, national laboratories, and academia in the U.S. and around the world.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 15 |
| Spring Deadline | September 1 |
| Summer Deadline | December 15 |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

Applicants normally are expected to have a BS in the physical sciences or engineering. Undergraduate studies normally would include mathematics through differential equations, at least one year each of general physics and chemistry, a course in physical chemistry or modern physics, and an elementary course in properties of materials. Applicants may be admitted with deficiencies. These must be made up as soon as possible after entering the program.

## APPLICATION

Required application materials:

- Academic transcripts (unofficial)
- English proficiency scores (https://grad.wisc.edu/apply/requirements/#english-proficiency), if applicable
- Three letters of recommendation
- Statement of purpose (https://grad.wisc.edu/apply/prepare/)
- Resume

A minimum GPA of 3.0/4.0 is required. Admission is highly selective. Most admitted applicants have an undergraduate GPA above 3.5. However, full consideration will be given to all applicants meeting the UW–Madison Graduate School requirements.

Use the online application (https://grad.wisc.edu/apply/) to begin your application. To be considered for fellowships, all application materials are due by the fall deadline.

## INTERNATIONAL APPLICANTS

International degree-seeking applicants must prove English proficiency using the Graduate School's requirements (https://grad.wisc.edu/apply/requirements/).

## FEE GRANTS

The Graduate School offers a limited number of application fee grants (covers of all or part of the application fee) that are available in a few specific circumstances. Further information is available here. (https://grad.wisc.edu/admissions/feegrants/)

## QUESTIONS

If you have questions about the application or admissions process, contact msaegradadmission@engr.wisc.edu.

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

### Financial Assistance

Various types of financial assistance are available for graduate students, including research assistantships, teaching assistantships, fellowships, and special grants. Decisions regarding financial support are made on the basis of your graduate school application, and, for research assistantships, the matching of the interests or experience of the applicant to the research programs of individual faculty members.

### Research and Teaching Assistantships

Research assistantships (RAs) are available in any materials science area. These appointments are under the supervision of the major professor directing the research. Students interested in research assistantships in a particular area are encouraged to contact professors whose work is of special interest. The faculty's research interests are given in the Department of Materials Science and Engineering faculty directory. An RA permits the most rapid progress toward a degree. Research assistantships in materials science graduate students are comparable to similar stipends from other institutions. Information about stipends can be obtained from the Associate Chair of Graduate Studies.

Teaching assistantships involve teaching rather than research experience. They pay approximately the same as research assistantships. Teaching experience is especially desirable for students considering an academic career. The Department of Materials Science and Engineering supports a limited number of teaching assistantships.

### Fellowships

Fellowships supporting graduate education are also offered on a competitive basis by organizations such as the National Science Foundation (http://www.nsf.gov/), the Hertz Foundation (http://www.hertzfndn.org/), UW-Madison Graduate School (http://www.wisc.edu/grad/), the U.S. Department of Defense, and a number of industries and foundations. Because some of these fellowships have fall application deadlines, early application is necessary.

# REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 51 credits |
| Minimum Residence Credit Requirement | 32 credits |
| Minimum Graduate Coursework Requirement | 26 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | n/a |

| | |
|---|---|
| Assessments and Examinations | Qualifying Exam<br>• Students must pass a qualifying exam in Materials Science and Engineering. The exam is an assessment of whether students have sufficient background in the areas of materials science and engineering relevant to their research to undertake graduate research. The exam consists of an oral examination covering two subjects, each with a committee of two faculty members. The exam must be attempted within 13 months of the start of the student's first semester enrolled. If the first attempt is not passed, a second attempt is required within four months.<br><br>Preliminary Exam<br>• Students must pass a preliminary exam / thesis proposal exam. The exam consists of a written document, a presentation, and an oral defense with the student's doctoral committee. The written document is a forward-looking proposal for a plan of research that merits awarding of a PhD. The presentation should mimic the report, focusing on proposing new research and summarizing research to date. This exam is typically undertaken by the end of the fourth semester enrolled and must be undertaken by the end of the fifth semester. If the first attempt is not passed, a second attempt is required within three months. Students may earn the Materials Science and Engineering master's degree the semester they pass their preliminary exam.<br><br>Doctoral Dissertation<br>• Students must prepare a doctoral dissertation, present it in a public seminar, defend it in closed examination by their doctoral committee, and deposit it with the Graduate School. The seminar describes the student's research resulting in significant new contributions to human knowledge in both a technical (science and engineering) and a broader societal context. It should be modeled after the hour-long departmental research seminars. In the closed session, the committee will question the student about the student's research, both as presented in the seminar and in the thesis, including topics such as technical details about past work, implications for the field and society as a whole, and possible future directions. The committee may pass the student, require revisions to the thesis, or not pass the student on the exam. |
| Language Requirements | None. |
| Graduate School Breadth Requirement | All doctoral students are required to complete a doctoral minor or graduate/professional certificate. Refer to the Graduate School: Breadth Requirement in Doctoral Training policy: https://policy.wisc.edu/library/UW-1200 (https://policy.wisc.edu/library/UW-1200/).<br><br>If students choose a distributed minor (Option B), they must select a topic or theme and three courses around that theme. At least one course must be graduate level (numbered 700 or above or has graduate course designation). There are no other restrictions on the course department or topic. |

## REQUIRED COURSES

All course requirements are subject to modification or substitution to better serve the research needs of the student. Refer to the "Policies (p. 1332)" tab for information on course substitutions.

Before registering for the second semester, students must submit an advisor approved course plan to the graduate coordinator. Students are not restricted to this plan. Students and advisors are encouraged to update the plan. Updated versions are not required to be submitted.

| Code | Title | Credits |
|---|---|---|
| **Materials Research Seminar** | | |
| Students must complete the following course for two consecutive semesters: | | 2 |
| M S & E 900 | Materials Research Seminar | |
| **Materials Core Courses** | | |
| Students must complete three core courses from the following list: | | 9 |
| M S & E 521 | Advanced Polymeric Materials | |
| M S & E 530 | Thermodynamics of Solids | |
| M S & E 551 | Structure of Materials | |
| M S & E 752 | Advanced Materials Science: Phase Transformations | |
| *Graduate-level Math Course* | | |
| Students may only apply one of the following as Materials Core Course: | | |
| E P/E M A 547 | Engineering Analysis I | |
| CBE 660 | Intermediate Problems in Chemical Engineering | |
| MATH 703 | Methods of Applied Mathematics 1 | |
| MATH 704 | Methods of Applied Mathematics-2 | |
| PHYSICS 721 | Theoretical Physics-Electrodynamics | |
| **Materials Elective Courses** | | |
| Students must complete 6 credits from the "Materials Elective Courses" list. | | 6 |
| **Additional Coursework and/or Research** | | |
| See guidance below table. | | 25 |
| **Breadth** | | |
| Complete doctoral minor or graduate/professional certificate. | | 9 |
| **Total Credits** | | **51** |

### Additional Coursework and/or Research Requirement

- Before earning the master's degree, students should register for M S & E 790 Master's Research or Thesis.
- After earning the master's degree, students should register for M S & E 890 Pre-Dissertator's Research.
- Once in dissertator status, students should register for M S & E 990 Research and Thesis.

### Materials Elective Courses

The same course may not satisfy more than one requirement. For example, if M S & E 530 Thermodynamics of Solids is taken as a "Materials Core Course", it could not be used as a "Materials Elective Course". Only one mathematics course may fulfill a "Materials Core Course" or "Materials Elective Course". Refer to the "Policies" tab for information on how to enroll in a course outside of the list below.

| Code | Title | Credits |
|---|---|---|
| M S & E 401 | Special Topics in Materials Science and Engineering | 1-3 |
| M S & E/CHEM 421 | Polymeric Materials | 3 |
| M S & E/N E 423 | Nuclear Engineering Materials | 3 |
| M S & E/M E 431 | Metalcasting | 3 |
| M S & E/N E 433 | Principles of Corrosion | 3 |
| M S & E 434 | Introduction to Thin-Film Deposition Processes | 3 |
| M S & E 441 | Deformation of Solids | 3 |
| M S & E 448 | Crystallography and X-Ray Diffraction | 3 |
| M S & E 451 | Introduction to Ceramic Materials | 3 |
| M S & E 456 | Electronic, Optical, and Magnetic Properties of Materials | 3 |
| M S & E 460 | Introduction to Computational Materials Science and Engineering | 3 |
| M S & E/M E 462 | Welding Metallurgy | 3 |
| M S & E 463 | Materials for Elevated Temperature Service | 3 |
| M S & E 465 | Fundamentals of Heat Treatment | 3 |
| M S & E/CIV ENGR/ G L E/GEOSCI 474 | Rock Mechanics | 3 |
| M S & E 521 | Advanced Polymeric Materials | 3 |
| M S & E 525 | Inorganic Organic Hybrid Materials | 3 |
| M S & E 530 | Thermodynamics of Solids | 3 |
| M S & E/E M A 541 | Heterogeneous and Multiphase Materials | 3 |
| M S & E 550 | Materials Fundamentals | 3 |
| M S & E 551 | Structure of Materials | 3 |
| M S & E 553 | Nanomaterials & Nanotechnology | 3 |
| M S & E 554 | Quantum Materials: Principles and Applications | 3 |
| M S & E 561 | Machine Learning in Materials | 3 |
| M S & E 570 | Properties of Solid Surfaces | 3 |
| M S & E 580 | Principles, Materials, and Devices of Batteries | 3 |
| M S & E 648 | Advanced X-ray Scattering Methods in Materials Science and Engineering | 3 |
| M S & E 660 | Mesoscale Modeling of Materials | 3 |
| M S & E 748 | Structural Analysis of Materials | 3 |
| M S & E 750 | Imperfections and Mechanical Properties | 3 |
| M S & E 752 | Advanced Materials Science: Phase Transformations | 3 |
| M S & E 756 | Structure and Properties of Advanced Electronic Materials | 3 |
| M S & E 760 | Molecular Modeling of Materials | 3 |
| M S & E 803 | Special Topics in Materials Science | 1-3 |
| B M E 430 | Biological Interactions with Materials | 3 |
| B M E/M E 615 | Tissue Mechanics | 3 |
| BIOCHEM/ CHEM 704 | Chemical Biology | 3 |
| CBE 540 | Polymer Science and Technology | 3 |
| CHEM 652 | Chemistry of Inorganic Materials | 3 |
| CHEM 653 | Chemistry of Nanoscale Materials | 3 |
| CHEM 654 | Materials Chemistry of Polymers | 2-3 |
| CHEM 664 | Physical Chemistry of Macromolecules | 2-3 |
| CHEM 721 | Instrumental Analysis | 3-4 |
| E C E 745 | Solid State Electronics | 3 |
| GEOSCI 765 | Crystal Chemistry | 3 |
| PHYSICS 415 | Thermal Physics | 3 |
| PHYSICS 551 | Solid State Physics | 3 |
| PHYSICS 715 | Statistical Mechanics | 3 |
| PHYSICS 751 | Advanced Solid State Physics | 3 |

## POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program approval, students may transfer up to 9 credits of graduate coursework from other institutions in fulfillment of the minimum graduate degree credit requirement and the minimum graduate coursework (50%) requirement. No credits from other institutions can be transferred for the minimum graduate residence credit requirement.

To request graduate credits from other institutions be allowed to transfer in fulfillment of degree requirements, the student should submit a request to the department graduate coordinator describing (1) the course from a previous institution; (2) the UW-Madison course equivalent; (3) the Materials Science and Engineering course requirement that will be satisfied. The request must include sufficient information to determine if the course(s) are equivalent. Typically, a syllabus listing the course

textbook and lecture topics is sufficient. A course catalog description is typically insufficient.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

Typically, no UW-Madison undergraduate credits may transfer in fulfillment of degree requirements. For questions about exceptions, contact the graduate coordinator.

Courses taken while enrolled as an undergraduate student at other institutions will not be considered for substitution. This includes courses at the graduate level taken while the student is enrolled as an undergraduate.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Typically, no professional student credits may transfer in fulfillment of degree requirements. For questions about exceptions, contact the graduate coordinator.

### Credits Earned as a University Special Student at UW–Madison

Typically, no University Special student credits may transfer in fulfillment of degree requirements. For questions about exceptions, contact the graduate coordinator.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

The Materials Science and Engineering graduate program is guided by expectations for the conduct of students and faculty that help to establish a safe, collegial, and productive environment facilitating scientific discovery and professional development. These expectations reflect professional guidelines provided by the UW-Madison College of Engineering and the UW-Madison Graduate School.

The specific expectations of the program are:

1. Intellectual and professional integrity
    a. Materials Science and Engineering graduate students and their faculty mentors are expected to show respect for the profession and for those working in it. Research activities will be conducted without plagiarism, with proper attribution of work with collaborators, and with respect for applicable professional ethical considerations, such as those associated with the involvement of human subjects.
2. Safe and environmentally responsible conduct of research
    a. Research in the Materials Science and Engineering graduate program is expected to be conducted with a high level of respect for the safety of the students, faculty, and other participants. Students and faculty must observe the requirements defined at the research group, department, college, and university for safe and environmentally responsible research. Faculty are expected to develop and maintain lab safety plans, to appoint a safety coordinator within their labs, and to advise students of the safety training required for work in their groups. Students are expected to seek and to obtain the required safety training, to remain up-to-date with required recurrent training, and to follow the safety guidelines at all times.
3. Professional research environment
    a. Students and faculty are expected to contribute to a collegial professional research environment, practicing mutual respect for all students, faculty, and staff. The Materials Science and Engineering department strives to create an environment free from harassment, bias, and hostile and intimidating behavior. Students supported by teaching assistant appointments are expected to balance the time commitments to research and teaching after consultation with their advisor and the faculty member responsible for the course to which they are assigned. These arrangements may evolve during the course of the student's PhD program.
    b. These expectations include responsiveness to communications, including (as applicable) a regular schedule of meetings and response to electronic communication during defined working hours. Students and faculty are expected (as required) to participate in group meetings and individual or small-group collaborative meetings, and lab activities such as those associated with mentoring other students and maintaining a safe working environment. Students are not expected to provide personal assistance for faculty advisors or to perform other duties outside of their university research, teaching and service commitments.
    c. Students and faculty are expected to be aware of issues in implicit bias, sexual harassment, and ethical conduct of research.
4. Professional development and achievement in research
    a. Students are expected to develop and to maintain a set of research goals with the potential to lead to outputs such as research publications, the development of intellectual property, and scientific presentations. Research goals can include original research discoveries, contributions to the scientific literature, and other outputs as mutually agreed by the student and faculty advisor. These goals must be reached in agreement with the faculty mentors. Students are expected to conduct their research within the intellectual property guidelines associated with their source of financial support (e.g. the requirements of the Bayh-Dole act for federally supported research).
5. Ongoing clear communications about expectations and feedback on student progress
    a. Students and faculty will have regular communications about the progress that students are making towards their degree requirements and expectations for the conduct of research. Students can offer feedback about faculty using the College of Engineering's annual Graduate On-Line Assessment & Achievement Learning System (GOAALS) survey or through direct communication with the Materials Science and Engineering Chair, the Materials Science and Engineering Associate Chair for Graduate Studies, or the College of Engineering Assistant Dean for Graduate Studies. The Materials Science and Engineering department will include a discussion of these expectations as part of the required student orientation activities.
    b. Students can expect clear communications from faculty about their progress in the program, feedback on research and educational issues, and the progress towards the degree.

## ADVISOR / COMMITTEE

Refer to the Graduate School: Advisor (https://policy.wisc.edu/library/UW-1232/) and Graduate School: Committees (Doctoral/Master's/MFA) (https://policy.wisc.edu/library/UW-1201/) policies.

Students without an advisor at the end of their first year enrolled are in danger of failing to make adequate progress towards their degree. Students can be suspended from the Graduate School if they do not have an advisor.

The doctoral committee consists of five faculty. It must include the student's advisor, at least three members from the Materials Science and Engineering department (may include affiliate faculty), and members with tenure homes in at least two different departments. Up to one member may be from any of the following categories, as approved by the department Associate Chair of Graduate Studies: academic staff (including emeritus faculty), visiting faculty, faculty from other institutions, scientists, research associates, and other individuals deemed qualified by the Associate Chair of Graduate Studies. All members of the committee must be physically or virtually present for the exam, unless an exception is granted by the department Associate Chair for Graduate Studies.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

The PhD is typically completed within six years.

Qualifying Exam: Students must attempt the qualifying exam within 13 months of the start of their first semester enrolled (summer sessions do not count for this rule). The qualifying exam will be offered within one month of when the semester starts. A student who fails one or more subjects on a first attempt must retake the exam within four months of the first attempt. The student may retake the failed subjects, or may switch to a different subject or subjects. Students who fail one or more qualifying exams in the second attempt may not continue PhD-level study in Materials Science and Engineering. They may elect to complete a master's degree in Materials Science and Engineering or they may leave the Materials Science and Engineering graduate program without a degree.

Preliminary Exam: Students must complete the preliminary exam by the end of the fifth semester enrolled. If the committee feels the proposal or presentation are inadequate, they can request revisions to the document or require the student to retake the preliminary exam. The retake must occur within three months of the first exam.

PhD Defense: A candidate for a doctoral degree who fails to take the final oral examination and deposit the dissertation within five years after passing the preliminary examination may be required to take another preliminary examination and to be admitted to candidacy a second time.

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

### MS&E Grievance Procedures

Students who feel they have been unfairly treated or otherwise have a grievance related to the policies and procedures for graduate study in the Materials Science and Engineering Department may choose to submit a formal grievance to the department. Before taking this step, however, students are encouraged to discuss their grievance directly with the person or persons involved. Respectful, professional, direct communication can often reach a more satisfactory resolution to an issue more quickly than a formal grievance procedure.

To pursue a formal grievance, the student should submit a letter describing the issue in detail to the department Associate Chair of Graduate Studies within 60 days of the precipitating incident. (Should the grievance involve the Director of Graduate Studies, the letter should be submitted to the department Chair.) The Director (or Chair) will convene a committee of not fewer than three department faculty. The committee will obtain a written response from the person or persons who are the subject of the complaint. The committee will then decide a course of action in response to the grievance. The response from the subject of the complaint and the committee course of action will be communicated in writing to the student within 15 working days of submission of the grievance. The course of action will be implemented no later than 10 working days of the communication.

If the departmental procedure does not resolve the grievance, the student may appeal to the College of Engineering or the Graduate School. The College grievance procedures are currently available at https://engineering.wisc.edu/report-an-incident/academic-grievances-and-complaints/, and the Graduate School procedures are available at http://grad.wisc.edu/acadpolicy/. (http://grad.wisc.edu/acadpolicy/)

The Assistant Dean for Graduate Affairs (engr-dean-graduateaffairs@engr.wisc.edu) provides overall leadership for graduate education in the College of Engineering (CoE), and is a point of contact for graduate students who have concerns about education, mentoring, research, or other difficulties.

## OTHER

### Course Substitution Request

To request an exception, submit a letter to the graduate coordinator signed by the student and advisor proposing a substitution. The letter must explain how the substitution better suits the student's needs,

especially as it pertains to their research. Course substitutions and other curriculum variances are decided by the department's director of graduate studies. These are subject to appeal to the department's Graduate Governance Committee and grievance procedure.

### Materials Elective Course Request

Students or faculty may request a course be added to the "Materials Elective Courses" list by submitting a letter to the graduate coordinator. The request must include the course syllabus and explain why the course is a materials-centric course.

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

## GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## PROGRAM RESOURCES

### Engineering Career Services

The Engineering Career Services (https://ecs.wisc.edu/) staff offer assistance to students searching or preparing for internships, co-ops, and jobs with well-recognized organizations.

### The Writing Center

The Writing Center (https://writing.wisc.edu/) is a campus-wide organization that provides free of charge, face-to-face and online consultations for students writing papers, reports, resumes, and applications.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Demonstrate an ability to synthesize knowledge from a subset of the biological, physical, and social sciences to help frame problems critical to the future of their discipline.
2. Conduct original research.
3. Demonstrate an ability to create new knowledge and communicate it to their peers.
4. Fosters ethical and professional conduct.

# MATHEMATICS

## DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

# DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/ PROFESSIONAL CERTIFICATES

- Applied and Computational Mathematics, MS (p. 1335)
- Mathematics, Doctoral Minor (p. 1339)
- Mathematics, MA (p. 1339)
- Mathematics, PhD (p. 1347)

# APPLIED AND COMPUTATIONAL MATHEMATICS, MS

The MS in Applied and Computational Mathematics provides students with a rigorous, modern training in applied and computational mathematics and in the mathematics of data. The program is targeted to students with an undergraduate degree in mathematics or other quantitative disciplines such as computer science, statistics, economics and engineering. Through foundational and advanced coursework, students gain a strong combination of quantitative and computational skills as well as data fluency, positioning them for careers in industry or for advanced studies. Students can satisfy the 30-credit requirement in 12 to 24 months, with accelerated paths supported by relevant summer course offerings. Graduates are well-prepared for roles in information technology, finance, engineering, research, and education – particularly within the rapidly growing sectors of machine learning and artificial intelligence – or to pursue a PhD in the mathematical, statistical, and computational sciences.

## ADMISSIONS

# ADMISSIONS

UW-Madison is awaiting approval of this new academic program by the Student & Exchange Visitor Program (SEVP) before we are able to accept prospective F-1 students into this program or issue a Form I-20 for this program. International students may apply for this program but will only be considered for admission if or when the program is approved.

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | March 15 |
| Spring Deadline | November 1 |
| Summer Deadline | This program does not admit for summer |
| GRE (Graduate Record Examinations) | Not required but may be considered if available. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission Policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/) |
| Other Test (s) (e.g., GMAT, MCAT) | The GRE subject test in Mathematics is not required but may be considered if available. |

| | |
|---|---|
| Letters of Recommendation | 3 |

The program is aimed at students with an undergraduate degree in mathematics or a related quantitative field. Prior coursework in multivariable calculus and linear algebra is required. Prior coursework in differential equations, probability, programming, and introduction to proofs is recommended.

## ADMISSIONS MATERIALS

- Three letters of recommendation
- Unofficial transcripts: If you are recommended for admission, the Graduate School will reach out to request official transcripts at that time.
- Mathematics coursework: In table format, list all undergraduate and graduate mathematics courses you have completed or are currently enrolled in. For each course, provide the following information: name of the school where it was taken, course number, title, description, textbooks used, and grade you received (for completed courses).
- Resume
- Statement of purpose: Explain your motivations for pursuing graduate studies, and convey how your interests/experiences/goals align with the program.

# FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

# REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | Yes |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirements | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 24 credits must be graduate-level coursework. Refer to the Graduate School's Minimum Graduate Coursework (50%) Requirement Policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/) |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement Policy:https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/) |
| Other Grade Requirements | None |
| Assessments and Examinations | None |
| Language Requirements | None |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Core** | | |
| Students must complete 18 credits from the following Core categories. At least 6 credits must be completed from each category. At least two courses must be numbered 700 or higher. | | |
| *Theory and Modeling* | | *6* |
| MATH 322 | Applied Mathematical Analysis 2: Partial Differential Equations | |
| MATH 415 | Applied Dynamical Systems, Chaos and Modeling | |
| MATH/I SY E/ OTM/STAT 632 | Introduction to Stochastic Processes | |
| MATH 703 | Methods of Applied Mathematics 1 | |
| MATH 704 | Methods of Applied Mathematics-2 | |
| *Computational Methods* | | *6* |
| MATH/ COMP SCI 513 | Numerical Linear Algebra | |
| MATH/ COMP SCI 514 | Numerical Analysis | |
| MATH/ COMP SCI 714 | Methods of Computational Mathematics I | |

| | | |
|---|---|---|
| MATH/ COMP SCI 715 | Methods of Computational Mathematics II | |
| MATH 717 | Stochastic Computational Methods | |
| *Mathematical Data Science* | | 6 |
| MATH 444 | Graphs and Networks in Data Science | |
| MATH 535 | Mathematical Methods in Data Science | |
| MATH 616 | Data-Driven Dynamical Systems, Stochastic Modeling and Prediction | |
| MATH 717 | Stochastic Computational Methods | |
| MATH 718 | Randomized Linear Algebra and Applications | |
| **Electives** | | |
| Students must complete at least 12 additional credits from the lists above or below. At most 6 credits can be taken from List B. At most one MATH course can be taken in coursework numbered 800-899. | | 12 |
| MATH/STAT 431 | Introduction to the Theory of Probability | |
| MATH 519 | Ordinary Differential Equations | |
| MATH 521 | Analysis I | |
| MATH 522 | Analysis II | |
| MATH 531 | Probability Theory | |
| MATH/B M I/ BIOCHEM/ BMOLCHEM 609 | Mathematical Methods for Systems Biology | |
| MATH 619 | Analysis of Partial Differential Equations | |
| MATH 623 | Complex Analysis | |
| MATH 627 | Introduction to Fourier Analysis | |
| MATH 629 | Introduction to Measure and Integration | |
| MATH 635 | An Introduction to Brownian Motion and Stochastic Calculus | |
| MATH 705 | Mathematical Fluid Dynamics | |
| MATH 716 | Ordinary Differential Equations | |
| MATH 719 | Partial Differential Equations | |
| MATH 720 | Partial Differential Equations | |
| MATH 721 | A First Course in Real Analysis | |
| MATH 722 | Complex Analysis | |
| MATH 725 | A Second Course in Real Analysis | |
| MATH/STAT 733 | Theory of Probability I | |
| MATH/STAT 734 | Theory of Probability II | |
| MATH 735 | Stochastic Analysis | |
| MATH 801 | Topics in Applied Mathematics | |
| MATH/E C E/ STAT 888 | Topics in Mathematical Data Science | |
| *List B* | | |
| COMP SCI 300 | Programming II | |
| COMP SCI 400 | Programming III | |
| COMP SCI/E C E/ I SY E 524 | Introduction to Optimization | |
| COMP SCI/I SY E/ MATH/STAT 726 | Nonlinear Optimization I | |
| COMP SCI/I SY E/ MATH 730 | Nonlinear Optimization II | |
| COMP SCI/ E C E 760 | Machine Learning | |
| COMP SCI/ E C E 761 | Mathematical Foundations of Machine Learning | |
| MATH/ COMP SCI/I SY E/ STAT 525 | Linear Optimization | |
| STAT 615 | Statistical Learning | |
| STAT/MATH 709 | Mathematical Statistics I | |
| STAT/MATH 710 | Mathematical Statistics II | |
| STAT 771 | Computational Statistics | |
| STAT/ECON/ GEN BUS 775 | Bayesian Statistics | |
| STAT 849 | Advanced Statistical Methods | |
| L I S 461 | Data and Algorithms: Ethics and Policy | |
| E C E 742 | Computational Methods in Electromagnetics | |
| E C E/COMP SCI/ E M A/E P/ M E 759 | High Performance Computing for Applications in Engineering | |
| **Total Credits** | | **30** |

### Other Policy

Students in this program may not take courses outside the prescribed curriculum without faculty advisor and program director approval. Students in this program cannot enroll concurrently in other undergraduate or graduate degree programs.

## POLICIES

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

Graduate coursework from other institutions will be evaluated on a case-by-case basis. With the approval of the director, students in the MS program may transfer no more than 7 credits of graduate coursework from other institutions. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW-Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR/COMMITTEE

Refer to the Graduate School: Advisor (https://policy.wisc.edu/library/UW-1232/) and Graduate School: Committees (Doctoral/Master's/MFA) (https://policy.wisc.edu/library/UW-1201/) policies.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## L&S POLICY FOR GRADUATE STUDENT ACADEMIC APPEALS

Graduate students have the right to appeal an academic decision related to an L&S graduate program if the student believes that the decision is inconsistent with published policy.

Academic decisions that may be appealed include:

- Dismissal from the graduate program
- Failure to pass a qualifying or preliminary examination
- Failure to achieve satisfactory academic progress
- Academic disciplinary action related to failure to meet professional conduct standards

Issues such as the following cannot be appealed using this process:

- A faculty member declining to serve as a graduate student's advisor.
- Decisions regarding the student's disciplinary knowledge, evaluation of the quality of work, or similar judgements. These are the domain of the department faculty.
- Course grades. These can be appealed instead using the L&S Policy for Grade Appeal (https://kb.wisc.edu/ls/22258/).
- Incidents of bias or hate, hostile and intimidating behavior (https://hr.wisc.edu/hib/), or discrimination (Title IX (https://compliance.wisc.edu/titleix/), Office of Compliance (https://compliance.wisc.edu/eo-complaint/formal-investigations/)). Direct these to the linked campus offices appropriate for the incident(s).

### Appeal Process for Graduate Students

A graduate student wishing to appeal an academic decision must follow the process in the order listed below. Note time limits within each step.

1. The student should first seek informal resolution, if possible, by discussing the concern with their academic advisor, the department's Director of Graduate Studies, and/or the department chair.
2. If the program has an appeal policy listed in their graduate program handbook, the student should follow the policy as written, including adhering to any indicated deadlines. In the absence of a specific departmental process, the chair or designee will be the reviewer and decision maker, and the student should submit a written appeal to the chair within 15 business days of the academic decision. The chair or designee will notify the student in writing of their decision.
3. If the departmental process upholds the original decision, the graduate student may next initiate an appeal to L&S. To do so, the student must submit a written appeal to the L&S Assistant Dean for Graduate Student Academic Affairs within 15 business days of notification of the department's decision.
   a. To the fullest extent possible, the written appeal should include, in a single document: a clear and concise statement of the academic decision being appealed, any relevant background on what led to the decision, the specific policies involved, the relief sought, any relevant documentation related to the departmental appeal, and the names and titles of any individuals contributing to or involved in the decision.
   b. The Assistant Dean will work with the Academic Associate Dean of the appropriate division to consider the appeal. They may seek additional information and/or meetings related to the case.

   c. The Assistant Dean and Academic Associate Dean will provide a written decision within 20 business days.
4. If L&S upholds the original decision, the graduate student may appeal to the Graduate School. More information can be found on their website: Grievances and Appeals (https://grad.wisc.edu/documents/grievances-and-appeals/) (see: Graduate School Appeal Process).

### OTHER

The Department of Mathematics cannot provide financial support for students in the MS in Applied and Computational Mathematics degree.

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Describe and analyze key concepts from a substantial body of mathematics presented in introductory graduate-level courses in mathematics.
2. Demonstrate knowledge of mathematical techniques used to solve problems motivated by applications.
3. Identify and implement strategies to solve problems using mathematical modeling, computational methods and/or data-driven approaches.
4. Communicate clearly in written and/or oral presentations.
5. Recognize and apply principles of ethical and professional conduct.

# MATHEMATICS, DOCTORAL MINOR

## ADMISSIONS

# ADMISSIONS

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any doctoral minor. To apply to this minor, log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. Select the information for the doctoral minor for which you are applying.

## REQUIREMENTS

# REQUIREMENTS

These are the requirements for a mathematics doctoral minor:

1. At least 12 graduate credits in mathematics (MATH) courses (https://guide.wisc.edu/courses/math/) that are approved by a math minor advisor. These courses must be taken as a graduate student. All courses must be completed with a grade of B or better. Graduate mathematics credits transferred from another university may be considered but prior approval by the math minor advisor is necessary.
2. At least 6 credits must be in math courses numbered 700 or above.
3. Only math courses numbered 500 and above can be applied for doctoral minor requirements in mathematics.

### THE PROCESS

1. Students should plan which courses they would like to use to meet the minor requirements. They can use this this form (https://uwmadison.app.box.com/s/z754hk68em3xq20zm89cd6qgrmw2unwn/) for planning the coursework. Students and the math minor advisor (https://math.wisc.edu/key-contacts/?wdt_search=minor) complete this form and students keep a copy of it. (Students can print a copy of the form and fill in some parts before the meeting.) Completion of the planning form is not required, but a completed form, signed by a math minor advisor, does offer a guarantee that the math department will accept the courses for a minor. The course program for a math minor must be approved by a math minor advisor at some point, but this approval could also be obtained after the courses have been taken.
2. Students will need a form signed by a math minor advisor certifying approval of their course selection for the math minor, and/or certifying completion of the minor requirements. The department may have forms for these purposes, or students can use the Graduate Minor in Mathematics Form (https://uwmadison.app.box.com/s/z754hk68em3xq20zm89cd6qgrmw2unwn/).
3. When everything is completed, students need to have the Graduate School warrant signed. The major department will request a warrant from the Graduate School. Students take the warrant to one of the math minor advisors for a signature and then take it back to the major department.

# MATHEMATICS, MA

PhD students in the math department and students enrolled in other UW–Madison PhD programs are eligible to earn an MA degree with the named option titled Foundations for Research (FR) (p. 1340).

The MA degree is available with the named option titled Foundations of Advanced Studies (FAS) (p. 1343). It is designed to strengthen the student's mathematics background and enhance the opportunities for applications to PhD programs and for employment as a mathematician in nonacademic environments.

## ADMISSIONS

# ADMISSIONS

Students apply to the Master of Arts in Mathematics through the named option or the PhD:

- The Foundations for Research (p. 1340) named option is offered for work leading to the PhD. Students may not apply directly for the master's, and should instead see the admissions information for the PhD (https://guide.wisc.edu/graduate/mathematics/mathematics-phd/#admissionstext).

- Foundations of Advanced Studies (https://guide.wisc.edu/graduate/mathematics/mathematics-ma/mathematics-foundations-advanced-studies-ma/)

## FUNDING

# FUNDING

### GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

### CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 30 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | See Named Options for policy information. |
| Assessments and Examinations | None. |
| Language Requirements | No language requirements. |

### REQUIRED COURSES

Select a Named Option (https://guide.wisc.edu/graduate/mathematics/mathematics-ma/#NamedOptions) for courses required.

# NAMED OPTIONS

A named option is a formally documented sub-major within an academic major program. Named options appear on the transcript with degree conferral. Students pursuing the Master of Arts in Mathematics must select one of the following named options:

View as listView as grid

- **MATHEMATICS: FOUNDATIONS FOR RESEARCH, MA (P. 1340)**
- **MATHEMATICS: FOUNDATIONS OF ADVANCED STUDIES, MA (P. 1343)**

## POLICIES

# POLICIES

Students should refer to one of the named options for policy information:

- Foundations for Research (p. 1340)

| **(iii) Electives (numbered 500 or above)** | | **6** |
| *Advanced Computer Science Course* | | |
| Students must complete an advanced computer science course which involves substantial programming. The advanced computer science requirement can be counted as an elective. Below is a list of advanced computer science courses. Other courses require prior approval of the director of graduate studies. This requirement is waived for Math PhD students, provided two qualifying exams have been passed. | | |
| COMP SCI 400 | Programming III | |
| COMP SCI 536 | Introduction to Programming Languages and Compilers | |
| COMP SCI 537 | Introduction to Operating Systems | |
| COMP SCI 564 | Database Management Systems: Design and Implementation | |
| COMP SCI 704 | Principles of Programming Languages | |
| COMP SCI/ MATH 714 | Methods of Computational Mathematics I | |
| COMP SCI/ MATH 715 | Methods of Computational Mathematics II | |
| COMP SCI/ I SY E 719 | Stochastic Programming | |
| COMP SCI/I SY E/ MATH 730 | Nonlinear Optimization II | |
| **Total Credits** | | **30** |

[1] The graduate advisor may also approve to have courses numbered 500-599 count for this requirement (but typically no introductory courses such as MATH 521 Analysis I, MATH 541 Modern Algebra 1 or MATH 551 Point-Set Topology).

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# NAMED OPTION-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

Students in the MA program are allowed to count no more than 14 credits of graduate coursework from other institutions. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special student at UW–Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

1. Good standing (progressing according to standards; any funding guarantee remains in place).
2. Probation (not progressing according to standards but permitted to enroll; loss of funding guarantee; specific plan with dates and deadlines in place in regard to removal of probationary status).
3. Unsatisfactory progress (not progressing according to standards; not permitted to enroll, dismissal, leave of absence or change of advisor or program).

## ADVISOR / COMMITTEE

Students are recommended to meet with an advisor.

## CREDITS PER TERM ALLOWED

15 credits

## TIME LIMITS

Students have two years to complete the degree. Extensions have to be approved by the program.

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)

- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## L&S POLICY FOR GRADUATE STUDENT ACADEMIC APPEALS

Graduate students have the right to appeal an academic decision related to an L&S graduate program if the student believes that the decision is inconsistent with published policy.

Academic decisions that may be appealed include:

- Dismissal from the graduate program
- Failure to pass a qualifying or preliminary examination
- Failure to achieve satisfactory academic progress
- Academic disciplinary action related to failure to meet professional conduct standards

Issues such as the following cannot be appealed using this process:

- A faculty member declining to serve as a graduate student's advisor.
- Decisions regarding the student's disciplinary knowledge, evaluation of the quality of work, or similar judgements. These are the domain of the department faculty.
- Course grades. These can be appealed instead using the L&S Policy for Grade Appeal (https://kb.wisc.edu/ls/22258/).
- Incidents of bias or hate, hostile and intimidating behavior (https://hr.wisc.edu/hib/), or discrimination (Title IX (https://compliance.wisc.edu/titleix/), Office of Compliance (https://compliance.wisc.edu/eo-complaint/formal-investigations/)). Direct these to the linked campus offices appropriate for the incident(s).

### Appeal Process for Graduate Students

A graduate student wishing to appeal an academic decision must follow the process in the order listed below. Note time limits within each step.

1. The student should first seek informal resolution, if possible, by discussing the concern with their academic advisor, the department's Director of Graduate Studies, and/or the department chair.
2. If the program has an appeal policy listed in their graduate program handbook, the student should follow the policy as written, including adhering to any indicated deadlines. In the absence of a specific departmental process, the chair or designee will be the reviewer and decision maker, and the student should submit a written appeal to the chair within 15 business days of the academic decision. The chair or designee will notify the student in writing of their decision.
3. If the departmental process upholds the original decision, the graduate student may next initiate an appeal to L&S. To do so, the student must submit a written appeal to the L&S Assistant Dean for Graduate Student Academic Affairs within 15 business days of notification of the department's decision.
   a. To the fullest extent possible, the written appeal should include, in a single document: a clear and concise statement of the academic decision being appealed, any relevant background on what led to the decision, the specific policies involved, the relief sought, any relevant documentation related to the departmental appeal, and the names and titles of any individuals contributing to or involved in the decision.
   b. The Assistant Dean will work with the Academic Associate Dean of the appropriate division to consider the appeal. They may seek additional information and/or meetings related to the case.
   c. The Assistant Dean and Academic Associate Dean will provide a written decision within 20 business days.
4. If L&S upholds the original decision, the graduate student may appeal to the Graduate School. More information can be found on their website: Grievances and Appeals (https://grad.wisc.edu/documents/grievances-and-appeals/) (see: Graduate School Appeal Process).

## PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

# MATHEMATICS: FOUNDATIONS OF ADVANCED STUDIES, MA

This is a named option within the Mathematics MA. It is designed to strengthen the student's mathematics background and enhance the opportunities for applications to PhD programs and for employment as a mathematician in nonacademic environments.

# ADMISSIONS

## ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | March 15 |
| Spring Deadline | November 1 |
| Summer Deadline | The program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required but may be considered if available. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | The GRE subject test in Mathematics is not required but may be considered if available. |
| Letters of Recommendation Required | 3 |

Admission is competitive. For more information about application to the MA program, see the department's admission website (https://math.wisc.edu/graduate/master-of-arts-foundation-of-studies/applying-for-ma-fas/).

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

The Department of Mathematics cannot provide financial support for the Master's–Foundations of Advanced Studies Degree program.

Students enrolled in this program are not eligible to receive tuition remission from graduate assistantship appointments at this institution.

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# NAMED OPTION REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | Yes |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 30 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | None. |
| Assessments and Examinations | None. |
| Language Requirements | No language requirements. |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Core** | | |
| These courses must be taken by all students, except when it is determined by the director of the program that equivalent courses were taken prior to entering the program. | | |
| MATH 522 | Analysis II | 3 |
| MATH 542 | Modern Algebra 2 | 3 |
| **Basic Electives:** | | |

| | | |
|---|---|---|
| FOUR courses numbered 500, numbered 600 and numbered 700 in Mathematics may be taken as basic elective courses, including up to three credits of MATH 698 or MATH 790. Excludes courses counted toward another requirement. Excludes MATH 607, MATH 681, MATH 682, MATH 691, MATH 692. | | 12 |
| MATH/ COMP SCI 513 | Numerical Linear Algebra | |
| MATH/ COMP SCI 514 | Numerical Analysis | |

| MATH 735 | Stochastic Analysis | |
| MATH 740 | Enumerative Combinatorics/ Symmetric Functions | |
| MATH 746 | Topics in Ring Theory | |
| MATH 747 | Lie Algebras | |
| MATH 748 | Algebraic Number Theory | |
| MATH 749 | Analytic Number Theory | |
| MATH 750 | Homological Algebra | |
| MATH 753 | Algebraic Topology I | |
| MATH 763 | Introduction to Algebraic Geometry | |
| MATH 764 | Introduction to Algebraic Geometry | |
| MATH 765 | Differential Geometry | |
| MATH 790 | Masters Thesis | |
| **Advanced Electives:** | | |
| FOUR courses numbered 700 or above in Mathematics listed below may be taken as advanced elective courses. | | 12 |
| MATH 703 | Methods of Applied Mathematics 1 | |
| MATH 704 | Methods of Applied Mathematics-2 | |
| MATH/ COMP SCI 714 | Methods of Computational Mathematics I | |
| MATH/ COMP SCI 715 | Methods of Computational Mathematics II | |
| MATH 719 | Partial Differential Equations | |
| MATH 717 | Stochastic Computational Methods | |
| MATH 720 | Partial Differential Equations | |
| MATH 721 | A First Course in Real Analysis | |
| MATH 722 | Complex Analysis | |
| MATH 725 | A Second Course in Real Analysis | |
| MATH/STAT 733 | Theory of Probability I | |
| MATH/STAT 734 | Theory of Probability II | |
| MATH 741 | Abstract Algebra | |
| MATH 742 | Abstract Algebra | |
| MATH 751 | Introductory Topology I | |
| MATH 752 | Introductory Topology II | |
| MATH 758 | Introduction to Ergodic Theory and Dynamics | |
| MATH 761 | Differentiable Manifolds | |
| MATH 770 | Foundations of Mathematics | |
| MATH 771 | Set Theory | |
| MATH 773 | Computability Theory | |
| **Total Credits** | | **30** |

Students in this program may not take courses outside the prescribed curriculum without faculty advisor and program director approval. Students in this program cannot enroll concurrently in other undergraduate or graduate degree programs.

## POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the

official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# NAMED OPTION-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

Students in the MA program may transfer no more than 14 credits of graduate coursework from other institutions. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Students are recommended to meet with an advisor.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Two years. Extensions have to be approved by the program.

Otherwise, refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## L&S POLICY FOR GRADUATE STUDENT ACADEMIC APPEALS

Graduate students have the right to appeal an academic decision related to an L&S graduate program if the student believes that the decision is inconsistent with published policy.

Academic decisions that may be appealed include:

- Dismissal from the graduate program
- Failure to pass a qualifying or preliminary examination
- Failure to achieve satisfactory academic progress
- Academic disciplinary action related to failure to meet professional conduct standards

Issues such as the following cannot be appealed using this process:

- A faculty member declining to serve as a graduate student's advisor.
- Decisions regarding the student's disciplinary knowledge, evaluation of the quality of work, or similar judgements. These are the domain of the department faculty.
- Course grades. These can be appealed instead using the L&S Policy for Grade Appeal (https://kb.wisc.edu/ls/22258/).
- Incidents of bias or hate, hostile and intimidating behavior (https://hr.wisc.edu/hib/), or discrimination (Title IX (https://compliance.wisc.edu/titleix/), Office of Compliance (https://compliance.wisc.edu/eo-complaint/formal-investigations/)). Direct these to the linked campus offices appropriate for the incident(s).

### Appeal Process for Graduate Students

A graduate student wishing to appeal an academic decision must follow the process in the order listed below. Note time limits within each step.

1. The student should first seek informal resolution, if possible, by discussing the concern with their academic advisor, the department's Director of Graduate Studies, and/or the department chair.
2. If the program has an appeal policy listed in their graduate program handbook, the student should follow the policy as written, including adhering to any indicated deadlines. In the absence of a specific departmental process, the chair or designee will be the reviewer and

decision maker, and the student should submit a written appeal to the chair within 15 business days of the academic decision. The chair or designee will notify the student in writing of their decision.

3. If the departmental process upholds the original decision, the graduate student may next initiate an appeal to L&S. To do so, the student must submit a written appeal to the L&S Assistant Dean for Graduate Student Academic Affairs within 15 business days of notification of the department's decision.
   a. To the fullest extent possible, the written appeal should include, in a single document: a clear and concise statement of the academic decision being appealed, any relevant background on what led to the decision, the specific policies involved, the relief sought, any relevant documentation related to the departmental appeal, and the names and titles of any individuals contributing to or involved in the decision.
   b. The Assistant Dean will work with the Academic Associate Dean of the appropriate division to consider the appeal. They may seek additional information and/or meetings related to the case.
   c. The Assistant Dean and Academic Associate Dean will provide a written decision within 20 business days.
4. If L&S upholds the original decision, the graduate student may appeal to the Graduate School. More information can be found on their website: Grievances and Appeals (https://grad.wisc.edu/documents/grievances-and-appeals/) (see: Graduate School Appeal Process).

### OTHER

The Department of Mathematics cannot provide financial support for students in the master's degree in Mathematics–Foundations of Advanced Studies program.

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

# MATHEMATICS, PHD

The department offers the doctor of philosophy degree with a major in mathematics and a master of arts degree in mathematics.

The PhD degree requires proficiency in basic and advanced graduate mathematics and the completion of a dissertation containing a significant piece of original research in some area of mathematics. The scope of the research program in mathematics is broad. The PhD specialty and dissertation may be in any area of mathematics, including but not limited to algebra, algebraic geometry, applied mathematics, combinatorics, computational mathematics, complex analysis, differential equations, differential geometry, dynamical systems, harmonic analysis, logic, mathematical biology, number theory, probability, and topology. A complete list of faculty and their areas of expertise is available through the department website (https://www.math.wisc.edu/graduate/).

Students in the PhD program also have the option to earn a master of arts degree (p. 1339).

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | January 1 |
| Spring Deadline | This program does not admit in the spring. |
| Summer Deadline | This program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not Required |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test (s)(e.g., GMAT, MCAT) | Math subject GRE required. |
| Letters of Recommendation Required | 3 |

Admission is competitive. Applicants to the PhD program are automatically considered for financial support.

### APPLICATION CHECKLIST

A complete application includes the following items:

1. Statement of purpose: Your essay should be a concise description of your reasons for choosing to study this field at the University of Wisconsin-Madison (not to exceed two pages). Please include your research interests and career goals as well as a description of your preparation for graduate study including relevant coursework, related employment, research experience, publications, presentations, awards, and honors. (samples (https://math.wisc.edu/graduate/prospective-phd/additional-application-information/))
2. Supplementary application:
   a. Coursework (different from transcript): In a list or table format, state all advanced mathematics courses you have completed, are currently enrolled in, or intend to take. For each course, give the name of the school where you took it, the course number, the title, description, books used, and the grade you received (for completed courses). If you have more than 20 courses, please include ONLY the most advanced courses. (sample (https://math.wisc.edu/graduate/prospective-phd/additional-application-information/))
3. CV/Resume: Your CV/resume should include your educational background as well as teaching and research experience, publications,

and accomplishments. (sample (https://math.wisc.edu/graduate/prospective-phd/additional-application-information/))

4. Unofficial transcripts: Unofficial transcripts from all previous postsecondary studies are required. International academic records must be submitted in the original language and accompanied by an English translation. If an applicant is recommended for admission, the Graduate School will ask applicants to request official transcripts sent to the Graduate School from the undergraduate institution.
5. Letters of recommendation: Three (3) letters of recommendation that address the question of mathematical promise. These letters should be from mathematics faculty, or other faculty familiar with the demands of graduate work in mathematics.

## BACKGROUND EDUCATION

Successful applicants have a bachelor's degree in mathematics/applied mathematics/statistics.

### Preparatory Coursework

| Code | Title | Credits |
|---|---|---|
| **Analysis I/II** [1] | | |
| Examples of courses (or equivalent): | | |
| MATH 521 | Analysis I | 3 |
| MATH 522 | Analysis II | 3 |
| **Algebra I/II** [1] | | |
| Examples of courses (or equivalent): | | |
| MATH 541 | Modern Algebra 1 | 3 |
| MATH 542 | Modern Algebra 2 | 3 |
| **Linear Algebra** | | |
| Example of course (or equivalent): | | |
| MATH 341 | Linear Algebra | 3 |
| **Electives** | | |
| Four electives among advanced undergrad or grad math courses. Incoming students usually, but not always, have some exposure to graduate level mathematics through graduate coursework, independent study, or research experience. This background often exceeds the minimum requirements for a math major. | | |

### Faculty Advisors

You do not need an advisor prior to applying. Incoming students are assigned academic advisors at the beginning of their programs. PhD students have until the end of their 6th semester to secure a dissertation advisor.

[1] Candidates with interest in Applied Math may have a different mathematics background, typically including coursework in ordinary and partial differential equations, and computational science with programming experience in Python, Matlab, or similar language. That coursework should be at a commensurately advanced undergraduate level.

# FUNDING

## FUNDING

### GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

### PROGRAM RESOURCES

Prospective students should see the program website for funding information (https://math.wisc.edu/ta-and-grader/).

# REQUIREMENTS

## MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

## MAJOR REQUIREMENTS

### MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

### CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 51 credits |
| Minimum Residence Credit Requirement | 32 credits |
| Minimum Graduate Coursework Requirement | 51 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |

| | |
|---|---|
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | No additional grade requirements. |
| Assessments and Examinations | Students are required to pass at least two qualifying exams. At least one qualifying exam must be passed by the beginning of the fourth semester (the spring semester of the second year). Both qualifying exams must be passed by the beginning of their sixth semester (the spring semester of the third year).<br><br>Students must pass a preliminary exam (specialty exam) by the end of the eighth semester (end of fourth year).<br><br>Students must satisfy all the requirements for dissertator status by the end of the eighth semester (end of fourth year). |
| Language Requirements | No language requirements. |
| Graduate School Breadth Requirement | All doctoral students are required to complete a doctoral minor or graduate/professional certificate. Refer to the Graduate School: Breadth Requirement in Doctoral Training policy: https://policy.wisc.edu/library/UW-1200 (https://policy.wisc.edu/library/UW-1200/). |

## REQUIRED COURSES

Students must take a total of 51 graduate credits or generally 17 courses. This includes courses in math and breadth. In the PhD program, math courses numbered above 700 are for graduate credit. Math courses below 700 must be approved by the academic advisor.

| Code | Title | Credits |
|---|---|---|
| **Area of Specialization** | | |
| Students complete coursework in an area of specialization; see sample courses below. | | 32 |
| **Seminar** | | |
| MATH 900 | Graduate Teaching Seminar | 1 |
| **Research Area Seminar** | | |
| Chosen in consultation in advisor, students complete 3 credits of seminar in their research area. | | 3 |
| MATH 921 | Seminar in Analysis | |
| MATH 941 | Seminar-Algebra | |
| MATH 951 | Seminar in Topology | |
| MATH 967 | Seminar in Number Theory | |
| MATH 975 | Seminar-The Foundations of Mathematics | |
| **Breadth** | | **9-12** |
| **Research** | | |
| Students complete the following course: | | 3-6 |
| MATH 990 | Reading and Research | |
| **Total Credits** | | **51** |

### Area of Specialization

There are six general and overlapping areas of specialization[1] within the department:

- Algebra, Algebraic Geometry, Combinatorics or Number theory
- Analysis and/or Differential Equations
- Probability
- Applied or Computational Mathematics
- Logic
- Geometry, Topology, and Dynamics

### Additional Area of Specialization: Mathematics Education [1]

The course requirement is the same as for the other specialties except that the required 51 credits should include 18 credits in courses related to mathematics education, and at least one of the courses must be on research techniques in education. The 18 credits may come (wholly or in part) from courses included in breadth.

There are many different paths that one may take to 51 credits while pursuing a PhD in Mathematics at Wisconsin. Below are a few possible paths in different subject areas. These are just possibilities, and are not meant to prescribe any particular path.

### Algebra, Algebraic Geometry, Combinatorics, or Number Theory [1]

Students may complete the following sequence of courses.

| Code | Title | Credits |
|---|---|---|
| MATH 741 | Abstract Algebra | 3 |
| MATH 742 | Abstract Algebra | 3 |
| MATH 747 | Lie Algebras | 3 |
| MATH 748 | Algebraic Number Theory | 3 |
| MATH 750 | Homological Algebra | 3 |
| MATH 751 | Introductory Topology I | 3 |
| MATH 752 | Introductory Topology II | 3 |
| MATH 761 | Differentiable Manifolds | 3 |
| MATH 763 | Introduction to Algebraic Geometry | 3 |
| MATH 764 | Introduction to Algebraic Geometry | 3 |
| MATH 843 | Representation Theory | 3 |
| MATH 844 | Arithmetic Geometry | 3 |
| MATH 845 | Class Field Theory | 3 |
| MATH 848 | Advanced Topics in Number Theory | 3 |
| MATH 851 | Topics in Geometric Topology | 3 |

### Analysis and/or Differential Equations[1]

Students may complete the following sequence of courses.

| Code | Title | Credits |
|---|---|---|
| MATH 719 | Partial Differential Equations | 3 |
| MATH 720 | Partial Differential Equations | 3 |
| MATH 721 | A First Course in Real Analysis | 3 |
| MATH 722 | Complex Analysis | 3 |
| MATH 725 | A Second Course in Real Analysis | 3 |

| | | |
|---|---|---|
| MATH 751 | Introductory Topology I | 3 |
| MATH 752 | Introductory Topology II | 3 |
| MATH 758 | Introduction to Ergodic Theory and Dynamics | 3 |
| MATH 761 | Differentiable Manifolds | 3 |
| MATH 821 | Advanced Topics in Real Analysis | 3 |
| MATH 823 | Advanced Topics in Complex Analysis | 3 |
| MATH 825 | Selected Topics in Functional Analysis | 3 |
| MATH 827 | Fourier Analysis | 3 |
| MATH 828 | Advanced Topics in Harmonic Analysis | 3 |
| MATH 900 | Graduate Teaching Seminar | 1 |
| MATH 921 | Seminar in Analysis | 1-3 |
| MATH 990 | Reading and Research | 1-3 |

## Probability [1]

Students may complete the following sequence of courses.

| Code | Title | Credits |
|---|---|---|
| MATH 718 | Randomized Linear Algebra and Applications | 3 |
| MATH/COMP SCI/ I SY E/STAT 726 | Nonlinear Optimization I | 3 |
| MATH/COMP SCI/ I SY E 730 | Nonlinear Optimization II | 3 |
| MATH/STAT 733 | Theory of Probability I | 3 |
| MATH/STAT 734 | Theory of Probability II | 3 |
| MATH 735 | Stochastic Analysis | 3 |
| MATH 741 | Abstract Algebra | 3 |
| MATH 742 | Abstract Algebra | 3 |
| MATH 751 | Introductory Topology I | 3 |
| MATH 752 | Introductory Topology II | 3 |
| MATH 758 | Introduction to Ergodic Theory and Dynamics | 3 |
| MATH 801 | Topics in Applied Mathematics | 3 |
| MATH/STAT 833 | Topics in the Theory of Probability | 3 |
| MATH/E C E/ STAT 888 | Topics in Mathematical Data Science | 1-3 |
| MATH 900 | Graduate Teaching Seminar | 1 |
| MATH 921 | Seminar in Analysis | 1-3 |
| MATH 990 | Reading and Research | 1-3 |

## Applied or Computational Mathematics [1]

Students may complete the following sequence of courses.

| Code | Title | Credits |
|---|---|---|
| MATH 703 | Methods of Applied Mathematics 1 | 3 |
| MATH 704 | Methods of Applied Mathematics-2 | 3 |
| MATH 705 | Mathematical Fluid Dynamics | 3 |
| MATH/STAT 709 | Mathematical Statistics I | 4 |
| MATH/ COMP SCI 714 | Methods of Computational Mathematics I | 3 |
| MATH/ COMP SCI 715 | Methods of Computational Mathematics II | 3 |
| MATH 717 | Stochastic Computational Methods | 3 |
| MATH 718 | Randomized Linear Algebra and Applications | 3 |
| MATH 719 | Partial Differential Equations | 3 |
| MATH 721 | A First Course in Real Analysis | 3 |
| MATH 722 | Complex Analysis | 3 |
| MATH 725 | A Second Course in Real Analysis | 3 |
| MATH 751 | Introductory Topology I | 3 |
| MATH 752 | Introductory Topology II | 3 |
| MATH 900 | Graduate Teaching Seminar | 1 |
| MATH 921 | Seminar in Analysis | 1-3 |
| MATH 990 | Reading and Research | 1-3 |

## Logic [1]

Students may complete the following sequence of courses.

| Code | Title | Credits |
|---|---|---|
| MATH 721 | A First Course in Real Analysis | 3 |
| MATH 725 | A Second Course in Real Analysis | 3 |
| MATH 740 | Enumerative Combinatorics/ Symmetric Functions | 3 |
| MATH 741 | Abstract Algebra | 3 |
| MATH 742 | Abstract Algebra | 3 |
| MATH 747 | Lie Algebras | 3 |
| MATH 751 | Introductory Topology I | 3 |
| MATH 752 | Introductory Topology II | 3 |
| MATH 763 | Introduction to Algebraic Geometry | 3 |
| MATH 770 | Foundations of Mathematics | 3 |
| MATH 771 | Set Theory | 3 |
| MATH 773 | Computability Theory | 3 |
| MATH 776 | Model Theory | 3 |
| MATH 873 | Advanced Topics in Foundations | 3 |
| MATH 900 | Graduate Teaching Seminar | 1 |
| MATH 975 | Seminar-The Foundations of Mathematics | 1-3 |
| MATH 990 | Reading and Research | 1-3 |

## Geometry, Topology, and Dynamics [1]

Students may complete the following sequence of courses.

| Code | Title | Credits |
|---|---|---|
| MATH 721 | A First Course in Real Analysis | 3 |
| MATH 722 | Complex Analysis | 3 |
| MATH 725 | A Second Course in Real Analysis | 3 |
| MATH 741 | Abstract Algebra | 3 |
| MATH 742 | Abstract Algebra | 3 |
| MATH 751 | Introductory Topology I | 3 |
| MATH 752 | Introductory Topology II | 3 |
| MATH 758 | Introduction to Ergodic Theory and Dynamics | 3 |
| MATH 761 | Differentiable Manifolds | 3 |
| MATH 765 | Differential Geometry | 3 |
| MATH 843 | Representation Theory | 3 |
| MATH 851 | Topics in Geometric Topology | 3 |
| MATH 853 | Topics in Algebraic Topology | 3 |

| | | |
|---|---|---|
| MATH 873 | Advanced Topics in Foundations | 3 |
| MATH 900 | Graduate Teaching Seminar | 1 |
| MATH 951 | Seminar in Topology | 1-3 |
| MATH 990 | Reading and Research | 1-3 |

### Footnotes

[1] These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program approval, students in the PhD program are allowed to transfer no more than 19 credits of graduate coursework from other institutions. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

No more than 7 credits from an undergraduate degree are allowed to transfer. Coursework must be at a graduate level and must request program approval. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

With program approval, refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

1. Good standing (progressing according to standards; any funding guarantee remains in place).
2. Probation (not progressing according to standards but permitted to enroll; loss of funding guarantee; specific plan with dates and deadlines in place in regard to removal of probationary status).
3. Unsatisfactory progress (not progressing according to standards; not permitted to enroll, dismissal, leave of absence or change of advisor or program).

## ADVISOR / COMMITTEE

Students who are not yet working with a dissertation advisor are required to meet semiannually with their academic advisor. All students must have a dissertation advisor by the end of the sixth semester.

## CREDITS PER TERM ALLOWED

15 credits. Minimum of 6 per semester, other than dissertators.

## TIME LIMITS

Students must complete all program requirements within eight years of beginning the program. Extensions have to be approved by the program.

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## L&S POLICY FOR GRADUATE STUDENT ACADEMIC APPEALS

Graduate students have the right to appeal an academic decision related to an L&S graduate program if the student believes that the decision is inconsistent with published policy.

Academic decisions that may be appealed include:

- Dismissal from the graduate program
- Failure to pass a qualifying or preliminary examination
- Failure to achieve satisfactory academic progress
- Academic disciplinary action related to failure to meet professional conduct standards

Issues such as the following cannot be appealed using this process:

- A faculty member declining to serve as a graduate student's advisor.
- Decisions regarding the student's disciplinary knowledge, evaluation of the quality of work, or similar judgements. These are the domain of the department faculty.
- Course grades. These can be appealed instead using the L&S Policy for Grade Appeal (https://kb.wisc.edu/ls/22258/).
- Incidents of bias or hate, hostile and intimidating behavior (https://hr.wisc.edu/hib/), or discrimination (Title IX (https://compliance.wisc.edu/titleix/), Office of Compliance (https://compliance.wisc.edu/eo-complaint/formal-investigations/)). Direct these to the linked campus offices appropriate for the incident(s).

### Appeal Process for Graduate Students

A graduate student wishing to appeal an academic decision must follow the process in the order listed below. Note time limits within each step.

1. The student should first seek informal resolution, if possible, by discussing the concern with their academic advisor, the department's Director of Graduate Studies, and/or the department chair.
2. If the program has an appeal policy listed in their graduate program handbook, the student should follow the policy as written, including adhering to any indicated deadlines. In the absence of a specific departmental process, the chair or designee will be the reviewer and decision maker, and the student should submit a written appeal to the chair within 15 business days of the academic decision. The chair or designee will notify the student in writing of their decision.
3. If the departmental process upholds the original decision, the graduate student may next initiate an appeal to L&S. To do so, the student must submit a written appeal to the L&S Assistant Dean for Graduate Student Academic Affairs within 15 business days of notification of the department's decision.
    a. To the fullest extent possible, the written appeal should include, in a single document: a clear and concise statement of the academic decision being appealed, any relevant background on what led to the decision, the specific policies involved, the relief sought, any relevant documentation related to the departmental appeal, and the names and titles of any individuals contributing to or involved in the decision.
    b. The Assistant Dean will work with the Academic Associate Dean of the appropriate division to consider the appeal. They may seek additional information and/or meetings related to the case.
    c. The Assistant Dean and Academic Associate Dean will provide a written decision within 20 business days.
4. If L&S upholds the original decision, the graduate student may appeal to the Graduate School. More information can be found on their website: Grievances and Appeals (https://grad.wisc.edu/documents/grievances-and-appeals/) (see: Graduate School Appeal Process).

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Learn a substantial body of mathematics in introductory and research level graduate courses in mathematics.
2. Complete a dissertation under the guidance of an advisor. The dissertation should make an original and substantive contribution to its subject matter.
3. Demonstrate breadth within the learning experiences.
4. Present research in seminar talks, conferences or publications.
5. Communicate complex ideas in a clear and understandable manner.
6. Foster ethical and professional conduct.

## DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

# DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/ PROFESSIONAL CERTIFICATES

- Music, Doctoral Minor (p. 1352)
- Music, MA (p. 1358)
- Music, PhD (p. 1362)
- Music: Education, MM (p. 1367)
- Music: Performance, DMA (p. 1372)
- Music: Performance, MM (p. 1385)

# MUSIC, DOCTORAL MINOR

## ADMISSIONS

# ADMISSIONS

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any doctoral minor. To apply to this minor, log in to MyUW, click on Graduate Student Portal, and then click on

Add/Change Programs. Select the information for the doctoral minor for which you are applying.

## REQUIREMENTS

# REQUIREMENTS

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any doctoral minor. To apply to this minor, log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. Select the information for the doctoral minor for which you are applying.

Doctoral students who are not music majors, but are seeking to pursue a doctoral minor in a music field, are encouraged to contact the Mead Witter School of Music graduate office for further information. The defined programs below are excellent models of minor plans for students from non-music programs.

Course credits taken in a minor plan of study will not satisfy requirements in the DMA major.

## REQUIRED COURSES

Below are outlines for the minor programs approved for students in PhD–music and DMA programs. Note that most of the plans restrict eligibility for students based upon major specialty. Exceptions to the stated requirements are extremely rare.

Students choose from the following curricular paths in the Music Doctoral Minor:

### Brass Instrument Performance Curricular Path [1]

This minor plan is not available to students completing a track in horn, trumpet, trombone, euphonium, or tuba performance.

| Code | Title | Credits |
|---|---|---|
| **Minor Performance Instrument** | | |
| Enroll in course corresponding to minor performance instrument: | | |
| *First semester* | | |
| Complete from the following: | | 4 |
| MUS PERF 417 | Advanced Horn | |
| MUS PERF 419 | Advanced Trumpet | |
| MUS PERF 421 | Advanced Trombone | |
| MUS PERF 423 | Advanced Euphonium | |
| MUS PERF 425 | Advanced Tuba | |
| *Second semester* | | |
| Complete from the following: | | 2 |
| MUS PERF 417 | Advanced Horn | |
| MUS PERF 419 | Advanced Trumpet | |
| MUS PERF 421 | Advanced Trombone | |
| MUS PERF 423 | Advanced Euphonium | |
| MUS PERF 425 | Advanced Tuba | |
| *Senior Recital* | | |
| MUS PERF 499 | Senior Recital | 2 |
| **Additional Coursework** | | |
| MUSIC 798 | Seminar-Instrumental Literature [2] | 2 |
| or MUSIC 799 | Independent Work | |
| *Elective* | | |
| Any 2 credits from the following: | | 2 |
| MUSIC 562 | Jazz Ensemble | |
| MUSIC 565 | Advanced Ensemble-Woodwind | |
| MUSIC 567 | Advanced Ensemble-Brass | |
| MUSIC 570 | University Symphony Orchestra | |
| MUSIC 573 | Contemporary Chamber Ensemble | |
| MUSIC 574 | Wind Ensemble | |
| **Total Credits** | | **12** |

1 These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

2 MUSIC 799 Independent Work is eligible to satisfy this requirement ONLY with prior approval by the minor professor.

### Choral Conducting Curricular Path [1]

This minor is not available to DMA students completing a track in conducting.

| Code | Title | Credits |
|---|---|---|
| MUSIC 553 | Advanced Conducting Seminar (taken twice) | 4 |
| MUSIC 541 | Seminar in Choral Literature (taken twice) | 4 |
| MUSIC 578 | Concert Choir (taken twice) | 2 |
| MUS PERF 499 | Senior Recital [2] | 2 |
| **Total Credits** | | **12** |

1 These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

2 For the recital the student must be the conductor of the choral ensemble or organization in the performance.

### Collaborative Piano Curricular Path [1]

This minor is not available to students completing a track in organ performance, piano performance, or piano pedagogy and performance.

| Code | Title | Credits |
|---|---|---|
| MUS PERF 542 | Masters Level Collaborative Piano | 2 |
| MUS PERF 542 | Masters Level Collaborative Piano | 2 |
| MUSIC 346 | Repertoire [2] | 2 |
| or MUSIC 792 | Seminar in Vocal Literature | |
| MUSIC 796 | Seminar in Duo Sonata Literature | 3 |
| MUS PERF 499 | Senior Recital (as accompanist) | 2 |
| Complete 2 credits from the following: | | 2 |
| MUSIC 466 | Diction for Singers | |
| MUSIC 513 | Survey of Opera | |
| MUSIC 557 | Opera Workshop | |
| MUSIC 569 | Advanced Ensemble-String | |
| MUSIC 573 | Contemporary Chamber Ensemble | |
| **Total Credits** | | **13** |

[1] These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.
[2] MUSIC 346 Repertoire topic must be Vocal Literature.

## Composition Curricular Path [1]

MUSIC 523 or its equivalent is a prerequisite for acceptance to this minor plan of study.

Two minor plans are possible. Consult with the minor professor.[2]

### Minor Plan I

| Code | Title | Credits |
|---|---|---|
| **Composition Applied Study** | | |
| MUS PERF 447 & MUS PERF 448 | Fourth Year Composition and Fourth Year Composition | 6 |
| MUSIC 927 | Seminar in Composition | 3 |
| MUSIC 927 | Seminar in Composition [3] | 3 |
| **Total Credits** | | **12** |

### Minor Plan II

| Code | Title | Credits |
|---|---|---|
| **Composition Applied Study** | | |
| MUS PERF 447 | Fourth Year Composition | 3 |
| MUS PERF 448 | Fourth Year Composition | 3 |
| MUS PERF 447 | Fourth Year Composition [4] | 3 |
| or MUS PERF 448 | Fourth Year Composition | |
| MUSIC 927 | Seminar in Composition | 3 |
| **Total Credits** | | **12** |

[1] These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.
[2] In both minor plans, MUSIC 799 Independent Work is available as an option for credit. However the Graduate School allows only up to 3 credits of Independent Work to count toward minor credits.
[3] MUSIC 927 Seminar in Composition may be taken twice (with different topics) or, with approval of the minor professor, MUSIC 799 Independent Work (3 credits) may substitute for one of the courses.
[4] If necessary, MUSIC 799 Independent Work (3 credits) may substitute for one of the semesters of applied composition study.

## Early Music Curricular Path [1]

| Code | Title | Credits |
|---|---|---|
| MUSIC 461 | Collegium Musicum (two semesters) [2] | 2 |
| Advanced Performance Practice Study | | 4 |
| May be satisfied with any MUS PERF course 401-440 and may include up to 2 credits MUSIC 799 | | |
| Remaining credits from the following courses: | | 6 |
| MUSIC 412 | Survey of Music in the Renaissance | |
| MUSIC 413 | Survey of Music in the Baroque Era | |
| MUSIC 461 | Collegium Musicum | |
| MUSIC 511 | Historical Performance Practices | |
| MUSIC 621 | Renaissance Polyphony | |
| MUSIC 622 | Baroque Counterpoint | |
| MUSIC 821 | Historical Music Theories 1 | |
| MUSIC 822 | Historical Music Theories 2 | |
| MUSIC 911 | Seminar in Musicology (Topic relevant to historically informed performance) | |
| **Total Credits** | | **12** |

[1] These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.
[2] Students must take MUSIC 461 twice, and may take it up to 3 times.

## Guitar Performance Curricular Path [1]

This minor is not available to students completing a track in violin, viola, violoncello, string bass, or harp performance.

| Code | Title | Credits |
|---|---|---|
| MUS PERF 440 | Advanced Guitar (2 semesters, 3 credits each semester) | 3 |
| MUS PERF 440 | Advanced Guitar | 3 |
| MUS PERF 499 | Senior Recital | 2 |
| MUSIC 572 & 572 | Advanced Ensemble-Classical Guitar and Advanced Ensemble-Classical Guitar (2 semesters) | 2 |
| AND any combination of 2 of the following courses: | | 2 |
| MUSIC 562 | Jazz Ensemble | |
| MUSIC 569 | Advanced Ensemble-String | |
| MUSIC 573 | Contemporary Chamber Ensemble | |
| MUSIC 799 | Independent Work (prior approval of minor professor required) | |
| **Total Credits** | | **12** |

[1] These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

## Harpsichord Performance Curricular Path [1]

This minor is not available to students completing a track in piano performance, piano performance and pedagogy, or collaborative piano. Students accepted into this minor plan must have sufficient prior study of harpsichord. An audition is required.

| Code | Title | Credits |
|---|---|---|
| MUS PERF 402 | Advanced Harpsichord | 4 |
| MUS PERF 402 | Advanced Harpsichord | 2 |
| MUSIC 461 & 461 | Collegium Musicum and Collegium Musicum [2] | 2 |
| MUSIC 511 | Historical Performance Practices [3] | 3 |
| or MUSIC 502 | Figured Bass and Basso Continuo | |
| MUS PERF 499 | Senior Recital | 2 |
| **Total Credits** | | **13** |

[1] These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.
[2] Two semesters are required.
[3] MUSIC 799 Independent Work may substitute for MUSIC 502 Figured Bass and Basso Continuo, with approval of minor professor.

## Musicology Curricular Path [1]

This minor is not available to students completing an Ethnomusicology track. Students with a minor in historical musicology write a minor field preliminary examination. Course credits in a minor DO NOT count for requirements in the major. A DMA student or PhD–music: music theory student must still meet the major requirements for courses in musicology.

| Code | Title | Credits |
|---|---|---|
| **Survey** | | |
| Complete three of the following courses (3 credits each) [2] | | 9 |
| MUSIC 411 | Survey of Music in the Middle Ages | |
| MUSIC 412 | Survey of Music in the Renaissance | |
| MUSIC 413 | Survey of Music in the Baroque Era | |
| MUSIC 414 | Survey of Music in the Classic Era | |
| MUSIC 415 | Survey of Music in the Romantic Era | |
| MUSIC 416 | Survey of Music in the Twentieth Century | |
| MUSIC 419 | Music in the United States | |
| MUSIC 511 | Historical Performance Practices | |
| MUSIC 513 | Survey of Opera | |
| **Elective** | | |
| Plus complete one of the following courses: | | 3 |
| MUSIC 821 | Historical Music Theories 1 | |
| MUSIC 822 | Historical Music Theories 2 | |
| MUSIC 911 | Seminar in Musicology | |
| MUSIC/ FOLKLORE 915 | Seminar in Ethnomusicology | |
| **Total Credits** | | **12** |

[1] These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.
[2] MUSIC 799 Independent Work and MUSIC 497 Special Topics in Music are eligible to satisfy this requirement ONLY with prior approval by the minor professor.

## Jazz Studies Curricular Path [1]

| Code | Title | Credits |
|---|---|---|
| **Required** | | |
| MUS PERF 499 | Senior Recital | 2 |
| **Electives** | | |
| Complete 10 additional credits from the following courses: | | 10 |
| MUSIC 331 | Jazz Improvisation | |
| MUSIC 332 | Jazz Improvisation | |
| MUS PERF 441 | Advanced Jazz Studio Instruction | |
| MUS PERF 457 | Jazz Composition and Arranging | |
| MUSIC 497 | Special Topics in Music (approved topics only) | |
| MUSIC 562 | Jazz Ensemble | |
| MUSIC 629 | Jazz Theory and Analysis | |
| **Total Credits** | | **12** |

[1] These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

## Music Theory Curricular Path [1]

Course credits in a minor DO NOT count for requirements in the major. A DMA student or PhD–music: musicology student must still meet the major requirements for courses in music theory.

| Code | Title | Credits |
|---|---|---|
| **Electives** | | |
| Complete courses selected from the following to total 12 credits: [2] | | 12 |
| MUSIC 621 | Renaissance Polyphony | |
| MUSIC 622 | Baroque Counterpoint | |
| MUSIC 623 | Form and Analysis | |
| MUSIC 624 | Form and Analysis II | |
| MUSIC 799 | Independent Work (approval by the minor professor required) | |
| MUSIC 821 | Historical Music Theories 1 | |
| MUSIC 822 | Historical Music Theories 2 | |
| MUSIC 823 | Schenkerian Analysis | |
| MUSIC 921 | Current Issues in Musical Thought 1 | |
| **Total Credits** | | **12** |

[1] These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.
[2] MUSIC 799 Independent Work and MUSIC 497 Special Topics in Music are eligible to satisfy this requirement ONLY with prior approval by the minor professor.

## Opera Production Curricular Path [1]

| Code | Title | Credits |
|---|---|---|
| **Required** | | |
| MUSIC 556 | University Opera (in directorial capacity) | 2 |
| MUSIC 556 | University Opera (taken twice, 2 credits each time) [2] | 4 |
| MUSIC 463 | Acting for Singers | 1 |
| **Project** | | |
| Complete a project in the minor field by completing: | | 2-3 |
| MUSIC 799 | Independent Work (with Director of opera) | |
| **Electives** | | |
| Remaining credits from the following courses: | | 2-3 |
| MUSIC 413 | Survey of Music in the Baroque Era | |
| MUSIC 414 | Survey of Music in the Classic Era | |

| | |
|---|---|
| MUSIC 415 | Survey of Music in the Romantic Era |

[1] These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

[2] With advisor approval, some students may use MUSIC 557 Opera Workshop (2 cr) in place of one instance of MUSIC 556 University Opera.

## Opera/Voice Coaching Curricular Path [1]

This minor is available only to students in Piano Performance, Piano Performance and Pedagogy, Collaborative Piano, Conducting, or other track with approval of the Voice & Opera faculty. All courses are selected in consultation with the minor professor.

| Code | Title | Credits |
|---|---|---|
| **Required** | | |
| *Diction* | | |
| MUSIC 467 & MUSIC 468 | Language Diction for Singing I and Language Diction for Singing II [2] | 4 |
| MUSIC 556 | University Opera (rehearsal pianist) [3] | 2 |
| *Project in the Minor field* | | *2-3* |
| MUSIC 799 | Independent Work [4] | |
| **Electives** | | |
| Complete remaining credits from the following courses: | | 3-4 |
| MUS PERF 405 | Advanced Voice (audition and voice faculty approval required) | |
| MUSIC 414 | Survey of Music in the Classic Era | |
| MUSIC 419 | Music in the United States | |
| MUSIC 463 | Acting for Singers | |
| MUSIC 497 | Special Topics in Music (approved topics only) | |
| MUSIC 513 | Survey of Opera | |
| MUS PERF 542 | Masters Level Collaborative Piano | |
| MUSIC 556 | University Opera (rehearsal pianist, 2 credits maximum allowed) | |
| MUSIC 557 | Opera Workshop (2 credits maximum allowed) | |
| MUSIC 792 | Seminar in Vocal Literature | |
| MUSIC 911 | Seminar in Musicology (opera and vocal literature topics only) | |
| **Total Credits** | | **12** |

[1] These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

[2] With the approval of the minor professor, MUSIC 466 Diction for Singers may be eligible to fulfill this requirement.

[3] Enrollment in MUSIC 556 University Opera should be for 2 credits.

[4] This course is taken under the supervision of the director of opera.

## Instrumental Conducting [1]

This minor is not available to DMA students completing a track in conducting.

| Code | Title | Credits |
|---|---|---|
| **Required** | | |
| Complete the following for 2 semesters for 2 credits each: | | 4 |
| MUS PERF 532 | Advanced Conducting | |
| Complete twice: | | 2 |
| MUSIC 632 | Graduate Instrumental Conducting Laboratory | |
| **Electives** | | |
| Complete the remaining credits from the following courses: | | 6 |
| MUSIC 466 | Diction for Singers | |
| MUSIC 497 | Special Topics in Music (Aural Skills) | |
| MUSIC 497 | Special Topics in Music (Orchestration) | |
| MUSIC 497 | Special Topics in Music (Community Music Engagement) | |
| M H R/ INTEGART 632 | Introduction to Arts Entrepreneurship | |
| M H R/ INTEGART 636 | Entrepreneurship in Arts & Cultural Organizations | |
| With approval of Conducting advisor, other courses in the School of Music numbered 300 or above can satisfy these requirements. | | |
| **Total Credits** | | **12** |

[1] These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

## Piano Pedagogy Curricular Path [1]

This minor is not available to students completing a track in organ performance, piano performance, or collaborative piano.

| Code | Title | Credits |
|---|---|---|
| **Required** | | |
| MUS PERF 401 | Advanced Piano | 4 |
| MUSIC 799 | Independent Work (final project) [2] | 1 |
| **Electives** | | |
| Complete additional credits from the following: | | 7 |

| | | |
|---|---|---|
| MUSIC 551 | Class Piano Pedagogy | |
| MUSIC 560 | Practicum in Advanced Studio Teaching-Piano | |
| MUSIC 751 | Seminar in Piano Pedagogy | |
| DANCE 560 | Current Topics in Dance: Workshop (topic: Feldenkrais for the performing musician) [2] | |
| or MUSIC 497 | Special Topics in Music | |
| **Total Credits** | | **12** |

[1] These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

[2] If taking MUSIC 497 Special Topics in Music, select topic "Feldenkrais Workshop for Musicians."

## Piano Performance Curricular Path [1]

This minor is not available to students completing a track in organ performance, collaborative piano, or piano performance and pedagogy.

| Code | Title | Credits |
|---|---|---|
| **Required** | | |
| MUS PERF 401 | Advanced Piano | 4 |
| MUS PERF 401 | Advanced Piano | 2 |
| MUS PERF 499 | Senior Recital | 2 |
| **Electives** | | |
| Complete 4 credits selected from the following: | | 4 |
| MUSIC 551 | Class Piano Pedagogy | |
| MUSIC 560 | Practicum in Advanced Studio Teaching-Piano | |
| MUSIC 565 | Advanced Ensemble-Woodwind | |
| MUSIC 567 | Advanced Ensemble-Brass | |
| MUSIC 568 | Advanced Ensemble-Percussion | |
| MUSIC 569 | Advanced Ensemble-String | |
| MUSIC 791 | Seminar in Piano Literature | |
| MUSIC 799 | Independent Work (approval by minor professor required) | |
| **Total Credits** | | **12** |

[1] These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

## String Instrument Performance Curricular Path [1]

This minor is not available to students completing a track in violin, viola, violoncello, string bass, harp, or guitar performance.

| Code | Title | Credits |
|---|---|---|
| **Minor Performance Instrument** | | |
| Enroll in the course corresponding to the minor instrument: | | |
| *First semester* | | |
| Complete from the following: | | 4 |
| MUS PERF 431 | Advanced Violin | |
| MUS PERF 433 | Advanced Viola | |
| MUS PERF 435 | Advanced Cello | |
| MUS PERF 437 | Advanced Double Bass | |
| MUS PERF 439 | Advanced Harp | |
| *Second semester* | | |
| Complete from the following: | | 2 |
| MUS PERF 431 | Advanced Violin | |
| MUS PERF 433 | Advanced Viola | |
| MUS PERF 435 | Advanced Cello | |
| MUS PERF 437 | Advanced Double Bass | |
| MUS PERF 439 | Advanced Harp | |
| *Senior Recital* | | |
| MUS PERF 499 | Senior Recital | 2 |
| **Additional Coursework** | | |
| Complete one of the following courses: | | 2 |
| MUSIC 346 | Repertoire | |
| MUSIC 543 | Advanced String Pedagogy | |
| MUSIC 546 | String Literature | |
| MUSIC 799 | Independent Work [2] | |
| Complete any combination of the following: | | 2 |
| MUSIC 569 | Advanced Ensemble-String | |
| MUSIC 570 | University Symphony Orchestra | |
| **Total Credits** | | **12** |

[1] These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

[2] MUSIC 799 Independent Work may only be used to fulfill this requirement if the other course choices in this category are not available.

## Woodwind Instrument Performance Curricular Path [1]

This minor is not available to students completing a track in a woodwind instrument.

| Code | Title | Credits |
|---|---|---|
| **Minor Performance Instrument** | | |
| Enroll for the course number that corresponds to the minor instrument. | | |
| *First semester* | | |
| Complete from the following: | | 2 |
| MUS PERF 407 | Advanced Flute | |
| MUS PERF 409 | Advanced Oboe | |
| MUS PERF 411 | Advanced Clarinet | |
| MUS PERF 413 | Advanced Saxophone | |
| MUS PERF 415 | Advanced Bassoon | |
| *Second semester* | | |
| Complete from the following: | | 2 |
| MUS PERF 407 | Advanced Flute | |
| MUS PERF 409 | Advanced Oboe | |
| MUS PERF 411 | Advanced Clarinet | |
| MUS PERF 413 | Advanced Saxophone | |
| MUS PERF 415 | Advanced Bassoon | |
| *Senior Recital* | | |

| | | |
|---|---|---|
| MUS PERF 499 | Senior Recital | 2 |
| **Electives** | | |
| Complete additional courses selected from the following: | | 6 |
| MUSIC 562 | Jazz Ensemble | |
| MUSIC 565 | Advanced Ensemble-Woodwind | |
| MUSIC 570 | University Symphony Orchestra | |
| MUSIC 573 | Contemporary Chamber Ensemble | |
| MUSIC 574 | Wind Ensemble | |
| **Total Credits** | | **12** |

[1] These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

### Vocal Performance Curricular Path [1]

| Code | Title | Credits |
|---|---|---|
| MUS PERF 405 | Advanced Voice | 2 |
| MUS PERF 405 | Advanced Voice | 3 |
| MUSIC 749 | Seminar in Vocal Techniques | 2 |
| MUSIC 792 | Seminar in Vocal Literature | 3 |
| MUS PERF 499 | Senior Recital | 2 |
| **Total Credits** | | **12** |

[1] These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

# MUSIC, MA

The mission of the Mead Witter School of Music is:

- to provide a rich, integrated program of undergraduate and graduate education that promotes the highest levels of professional, creative, and scholarly development while challenging students to achieve their greatest potential;
- to cultivate an environment that inspires creativity, stimulates intellectual curiosity, and fosters critical thinking; and
- to serve the university community, the public, and the profession through performance, composition, scholarship, music education, outreach, and engagement.

The Mead Witter School of Music enriches students' educational experience by hosting guest artists and scholars for master classes, recitals, colloquia, seminars, and festivals. Its performing organizations and ensembles perform more than 350 recitals and concerts every year, making a significant contribution to the cultural life of the university and the wider Madison community.

## DEGREES AND MAJORS

The master of arts in music is offered with concentrations in the two areas of historical musicology and music theory.

A double master's degree with the Information School is also offered.

Each master's degree pathway varies slightly and may impose additional requirements. Details on the degrees are available through the Requirements tab. Contact the Mead Witter School of Music graduate office for further information about the MA degree.

The MA–music degree offers tracks in historical musicology and music theory. The appropriate faculty area appoints an advisor for each new student the first semester of enrollment. When the time comes for comprehensive examinations in the second year, an examination committee is formed. Upon completing the thesis, the student sits for an oral examination by the examination committee, consisting of members of the area faculty.

Mentoring of students is of prime importance to faculty members at Mead Witter School of Music. The faculty advisor and the director of graduate studies both guide the student's course planning. While each faculty member has a unique style of mentoring, every student can be assured of abundant time working closely with more than one mentor in addition to the advisor during the course of a UW–Madison degree program.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 1 |
| Spring Deadline | This program does not admit in the spring. |
| Summer Deadline | This program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not Required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/) |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

Applicants must have a bachelor's degree in music (or equivalent foundational coursework). The MA application will require two substantial samples of academic writing, preferably (but not mandatorily) on a topic in Musicology or Music Theory. In the Statement of Purpose, candidates should discuss their academic and professional goals as well as their qualifications to serve as a Teaching Assistant in the School of Music. No audition or interview is required for the MA application. For details of the

application process, please visit the Mead Witter School of Music graduate admissions website (http://www.music.wisc.edu/admissions/graduate/).

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

The Mead Witter School of Music offers teaching assistantships in music history, music theory, music education, piano, conducting, voice, and other performance areas. These positions offer tuition remission plus a salary and health care benefits. In addition, the musicology area awards the Leland Coon Wisconsin Musicology Fellowship to a select number of incoming candidates. Many students also take advantage of work-study opportunities on campus, and many are employed part-time in area musical organizations or business entities. Feel free to direct questions about any of these funding opportunities to the Graduate Program Manager, James Doing: gpm@music.wisc.edu

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 15 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.25 GPA required. |
| Other Grade Requirements | Grades below B cannot fulfill program requirements.<br><br>Mead Witter School of Music financial awards are suspended if a student is on probation for more than one semester.<br><br>A student's satisfactory progress is also in jeopardy should the Master's thesis be judged incomplete or deficient. Failure of one or more parts of the comprehensive examinations is also considered a lapse in satisfactory progress. |
| Assessments and Examinations | In addition to evaluations in individual classes, Mead Witter School of Music programs examine graduate students at defined points in their career.<br><br>For the MA, comprehensive examinations measure the candidate's range of musical knowledge in the field. |
| Language Requirements | Students in the Musicology pathway must demonstrate intermediate reading knowledge proficiency in one foreign language. The choice of language is flexible with advisor consent. It is recommended that candidates choose a language related to their MA research. See the Mead Witter School of Music Graduate Handbook for methods to satisfy the language proficiency. There is no language proficiency requirement for students in the Theory pathway. |

## REQUIRED COURSES

Direct any questions about the coursework or required proficiencies to the Mead Witter School of Music graduate program manager (see contact box).

### Musicology Pathway [1]

Entering students will take a short diagnostic examination in music history during the first week of classes to be used for advising purposes only.

| Code | Title | Credits |
|---|---|---|
| **Coursework in Musicology** | | |
| Complete from the following courses: | | 9 |
| MUSIC 411 | Survey of Music in the Middle Ages | |
| MUSIC 412 | Survey of Music in the Renaissance | |
| MUSIC 413 | Survey of Music in the Baroque Era | |
| MUSIC 414 | Survey of Music in the Classic Era | |
| MUSIC 415 | Survey of Music in the Romantic Era | |
| MUSIC 416 | Survey of Music in the Twentieth Century | |
| MUSIC 419 | Music in the United States | |
| MUSIC 511 | Historical Performance Practices | |
| MUSIC 513 | Survey of Opera | |
| MUSIC 821 | Historical Music Theories 1 | |
| MUSIC 822 | Historical Music Theories 2 | |
| **Musicology Seminars** | | |
| Complete seminar, taken twice for 3 credits each | | 6 |
| MUSIC 911 | Seminar in Musicology | |
| **Ethomusicology** | | |
| Complete from the following: | | 3 |
| MUSIC/ FOLKLORE 515 | Proseminar in Ethnomusicology | |
| MUSIC/ FOLKLORE 516 | Ethnographic Methods for Music and Sound | |
| **Research Methods** | | |
| MUSIC/L I S 619 | Music Research Methods and Materials | 3 |
| **Theory Proficiency** | | |
| Satisfied by completion of one graduate-level course taught by music theory faculty. Theory credits may be applied toward electives. Select from the following: [2] | | 3 |
| MUSIC 523 | Orchestration I | |
| MUSIC 621 | Renaissance Polyphony | |
| MUSIC 622 | Baroque Counterpoint | |
| MUSIC 623 | Form and Analysis | |
| MUSIC 624 | Form and Analysis II | |
| MUSIC 821 | Historical Music Theories 1 | |
| MUSIC 822 | Historical Music Theories 2 | |
| MUSIC 823 | Schenkerian Analysis | |
| MUSIC 921 | Current Issues in Musical Thought 1 | |
| MUSIC 927 | Seminar in Composition | |
| **Thesis** | | |
| The following courses may fulfill this requirement: [2] | | |
| MUSIC 990 | Masters Thesis (consult advisor for details) | 2 |
| **Electives** | | |
| Complete electives (numbered 300 or above) | | 4 |
| **Total Credits** | | **30** |

[1] These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

[2] Other courses do not fulfill this requirement unless specifically approved by the music theory and musicology faculty.

## Music Theory Pathway [1]

| Code | Title | Credits |
|---|---|---|
| **Courses in Music Theory and Composition** | | |
| Complete from the following. The first four courses are recommended. [2] | | 12 |
| MUSIC 821 | Historical Music Theories 1 | |
| MUSIC 822 | Historical Music Theories 2 | |
| MUSIC 823 | Schenkerian Analysis | |
| MUSIC 621 | Renaissance Polyphony | |
| MUSIC 622 | Baroque Counterpoint | |
| MUSIC 623 | Form and Analysis | |
| MUSIC 624 | Form and Analysis II | |
| MUSIC 921 | Current Issues in Musical Thought 1 | |
| MUSIC 927 | Seminar in Composition | |
| **Research Methods** | | |
| MUSIC/L I S 619 | Music Research Methods and Materials | 3 |
| **Musicology and/or Literature Courses** | | |
| Complete from the following courses: [3] | | 6 |
| MUSIC 411 | Survey of Music in the Middle Ages | |
| MUSIC 412 | Survey of Music in the Renaissance | |
| MUSIC 413 | Survey of Music in the Baroque Era | |
| MUSIC 414 | Survey of Music in the Classic Era | |
| MUSIC 415 | Survey of Music in the Romantic Era | |
| MUSIC 416 | Survey of Music in the Twentieth Century | |
| MUSIC 419 | Music in the United States | |
| MUSIC 511 | Historical Performance Practices | |
| MUSIC 513 | Survey of Opera | |
| MUSIC/ FOLKLORE 515 | Proseminar in Ethnomusicology | |
| MUSIC/ FOLKLORE 516 | Ethnographic Methods for Music and Sound | |
| MUSIC 911 | Seminar in Musicology | |
| MUSIC/ FOLKLORE 915 | Seminar in Ethnomusicology | |
| **Thesis** | | |
| Complete 4 credits of following: | | 4 |
| MUSIC 990 | Masters Thesis | |
| **Electives** | | |
| Complete coursework in the School of Music numbered 300 or above. These may include Music (MUSIC) and Music-Performance (MUS PERF) courses. | | 5 |
| **Total Credits** | | **30** |

[1] These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

[2] Other courses do not fulfill this requirement unless specifically approved by the music theory faculty.

[3] Other courses do not fulfill this requirement unless specifically approved by the musicology and music theory faculty.

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy. Students may transfer up to 9 credits with faculty approval. Additional credits may transfer with department curriculum committee approval.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy. Note that the Mead Witter School of Music faculty rarely approve these transfer requests.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special student at UW–Madison

The program allows up to 6 UW-Madison University Special Student credits to transfer. Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

## PROBATION

MA students who fail to make satisfactory progress in any of the four following areas: grades, course load, time limits, or exams, will be notified in writing by the director of graduate studies. At the end of the second semester of failing to make satisfactory progress the student is placed on probation effective the next semester. This action suspends financial aid (but does not affect loans or work-study). For details see Satisfactory Progress for Master's Students (https://kb.wisc.edu/mwsomkb/114465/).

## ADVISOR / COMMITTEE

All programs provide for faculty from several disciplines to follow the student's progress through the degree, provide mentorship along the way, and assess the student's success in reaching expected learning outcomes. Committee structures differ among degrees and majors. The principal advisor for most graduate students in the Mead Witter School of Music is generally referred to as the major professor.

In MA and PhD programs the advisor may not be the eventual thesis or dissertation advisor. In all programs the major professor is determined with the student's particular interests in mind. The director of graduate studies is also an advisor for all graduate students in Mead Witter School of Music programs. Students are expected to consult with the director of graduate studies at least once per semester to determine appropriate course plans. Consultation is mandatory in the semester before intended graduation.

MA students have a committee of three or more graduate faculty, including the major professor.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

MM and MA students not receiving university funding are expected to complete requirements and pass comprehensive examinations within seven years from the time of enrollment in the program. While graduate students may enroll on a part-time basis, this time constraint still applies.

All MM and MA students holding teaching assistant, project assistant, or fellowship appointments must complete requirements for the degree within four semesters (not counting summer sessions or thesis credits). If the appointment is more than 33.4% the expectation is to complete requirements in the sixth semester.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## L&S POLICY FOR GRADUATE STUDENT ACADEMIC APPEALS

Graduate students have the right to appeal an academic decision related to an L&S graduate program if the student believes that the decision is inconsistent with published policy.

Academic decisions that may be appealed include:

- Dismissal from the graduate program
- Failure to pass a qualifying or preliminary examination
- Failure to achieve satisfactory academic progress
- Academic disciplinary action related to failure to meet professional conduct standards

Issues such as the following cannot be appealed using this process:

- A faculty member declining to serve as a graduate student's advisor.
- Decisions regarding the student's disciplinary knowledge, evaluation of the quality of work, or similar judgements. These are the domain of the department faculty.
- Course grades. These can be appealed instead using the L&S Policy for Grade Appeal (https://kb.wisc.edu/ls/22258/).
- Incidents of bias or hate, hostile and intimidating behavior (https://hr.wisc.edu/hib/), or discrimination (Title IX (https://compliance.wisc.edu/titleix/), Office of Compliance (https://compliance.wisc.edu/eo-complaint/formal-investigations/)). Direct these to the linked campus offices appropriate for the incident(s).

### Appeal Process for Graduate Students

A graduate student wishing to appeal an academic decision must follow the process in the order listed below. Note time limits within each step.

1. The student should first seek informal resolution, if possible, by discussing the concern with their academic advisor, the department's Director of Graduate Studies, and/or the department chair.
2. If the program has an appeal policy listed in their graduate program handbook, the student should follow the policy as written, including adhering to any indicated deadlines. In the absence of a specific departmental process, the chair or designee will be the reviewer and decision maker, and the student should submit a written appeal to the chair within 15 business days of the academic decision. The chair or designee will notify the student in writing of their decision.
3. If the departmental process upholds the original decision, the graduate student may next initiate an appeal to L&S. To do so, the student must submit a written appeal to the L&S Assistant Dean for Graduate Student Academic Affairs within 15 business days of notification of the department's decision.
    a. To the fullest extent possible, the written appeal should include, in a single document: a clear and concise statement of the academic decision being appealed, any relevant background on what led to the decision, the specific policies involved, the relief sought, any relevant documentation related to the departmental appeal, and the names and titles of any individuals contributing to or involved in the decision.
    b. The Assistant Dean will work with the Academic Associate Dean of the appropriate division to consider the appeal. They may seek additional information and/or meetings related to the case.
    c. The Assistant Dean and Academic Associate Dean will provide a written decision within 20 business days.
4. If L&S upholds the original decision, the graduate student may appeal to the Graduate School. More information can be found on their website: Grievances and Appeals (https://grad.wisc.edu/documents/grievances-and-appeals/) (see: Graduate School Appeal Process).

# PROFESSIONAL DEVELOPMENT

## PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

### COLLEGE OF LETTERS AND SCIENCE RESOURCES

The College of Letters and Science's SuccessWorks (https://successworks.wisc.edu/) program can assist with professional development and with identifying opportunities.

# LEARNING OUTCOMES

## LEARNING OUTCOMES

1. Articulates and critiques the theories, research methods, and approaches to inquiry in music-related scholarship.
2. Identifies and employs a variety of sources and analytical approaches to inform discussion of topics in music.
3. Demonstrates knowledge of musical study in historical and cultural contexts.
4. Selects appropriate methodologies for research and discussion of musical topics.
5. Rationally evaluates and synthesizes information from both primary sources and secondary scholarship, posing original questions and offering fresh insight into musical topics.
6. Communicates clearly, both verbally and in writing, to colleagues in the field.
7. Recognizes and applies principles of ethical and professional conduct.

# ACCREDITATION

## ACCREDITATION

The University of Wisconsin-Madison is an accredited institutional member of the National Association of Schools of Music (https://nasm.arts-accredit.org/) (NASM) since 1966.

Accreditation status: Accredited. Next accreditation review: 2032-2033

# MUSIC, PHD

The mission of the Mead Witter School of Music is:

- to provide a rich, integrated program of undergraduate and graduate education that promotes the highest levels of professional, creative, and scholarly development while challenging students to achieve their greatest potential;

- to cultivate an environment that inspires creativity, stimulates intellectual curiosity, and fosters critical thinking; and
- to serve the university community, the public, and the profession through performance, composition, scholarship, music education, outreach, and engagement.

The Mead Witter School of Music enriches students' educational experience by hosting guest artists and scholars for master classes, recitals, colloquia, seminars, and festivals. Its performing organizations and ensembles perform more than 350 recitals and concerts every year, making a significant contribution to the cultural life of the university and the wider Madison community.

# DEGREES AND MAJORS

The PhD in music, a research degree, is offered in the two areas of historical musicology and music theory.

PhD degrees require significant work beyond the master's degree, including extensive independent work. Each degree pathway varies slightly. See the Course Lists available through the Requirements tab for details on each pathway. Contact the Mead Witter School of Music graduate office for further information about the PhD music degree.

The PhD–music program is suited to students who have proven their scholarly discipline, motivation, and ability to write fluently and cogently in the historical musicology or music theory fields. The principal outcome of the program is a dissertation that makes a significant contribution to the relevant major field. A minor field of study (p. 1352), required of all PhD–music students, assures breadth in a field of study outside the major specialty. Proficiency in foreign languages supports research in the major field.

Each PhD student benefits from the mentorship of multiple faculty members, whether from the student's own specialty or from other areas of scholarship or performance. An advisor is assigned upon the student's entering the program, and the musicology or music theory area faculty, as appropriate, participate in the preliminary examinations. The dissertation committee is designated with the student's particular research interests in mind. Through their guidance and support of the student through the degree program, faculty members offer multiple perspectives on the student's performance and research.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 1 |
| Spring Deadline | This program does not admit in the spring. |
| Summer Deadline | This program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not Required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/) |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

Applicants must have a bachelor's degree in music (or equivalent foundational coursework) plus a Master's degree in music (or consent of the faculty). The PhD application will require two substantial samples of academic writing, preferably (but not mandatorily) on a topic in Musicology or Music Theory. In the Statement of Purpose, candidates should discuss their academic and professional goals as well as their qualifications to serve as a Teaching Assistant in the School of Music. No audition or interview is required for the PhD application. For details of the application process, please visit the Mead Witter School of Music graduate admissions website (http://www.music.wisc.edu/admissions/graduate/).

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

The Mead Witter School of Music offers teaching assistantships in music history, music theory, music education, piano, conducting, voice, and other performance areas. These positions offer tuition remission plus a salary and health care benefits. The musicology area awards the Leland Coon Wisconsin Musicology Fellowship to a select number of incoming candidates. In addition, the Mead Witter School of Music nominates qualified applicants for Graduate School Fellowships. Many students also take advantage of work-study opportunities on campus, and many are employed part-time in area musical organizations or business entities. Feel free to direct questions about any of these funding opportunities to the Graduate Program Manager, James Doing: gpm@music.wisc.edu

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 51 credits |
| Minimum Residence Credit Requirement | 32 credits |
| Minimum Graduate Coursework Requirement | 26 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.25 GPA required. |
| Other Grade Requirements | Grades below B do not satisfy program requirements.<br><br>Mead Witter School of Music financial awards are suspended if a student is on probation for more than one semester.<br><br>A student's satisfactory progress is also in jeopardy should a major recital be judged incomplete or deficient. Failure of one or more parts of the comprehensive examinations is also considered a lapse in satisfactory progress. |
| Assessments and Examinations | In addition to evaluations in individual classes, School of Music programs examine graduate students at defined points in their career.<br>For doctoral students, preliminary examinations are tools to evaluate the student's currency and knowledge of the major field and the minor area of study, but also to determine the readiness to embark on the final stage of research. The first part of the Comprehensive Examination is written, and the second part is an oral exam attended by the student's committee members.<br><br>Once doctoral candidates have completed all their work, the oral defense is an opportunity for the dissertation committee to address the contributions made through the dissertation. No grades are reported on the transcript for these program-level examinations. |
| Language Requirements | The PhD requires proficiency at the intermediate level in two foreign languages. Foreign language proficiency assures that the student has the tools needed to pursue comprehensive research in the major field. Details can be found below. |
| Graduate School Breadth Requirement | All doctoral students are required to complete a doctoral minor or graduate/professional certificate. Refer to the Graduate School: Breadth Requirement in Doctoral Training policy: https://policy.wisc.edu/library/UW-1200 (https://policy.wisc.edu/library/UW-1200/).<br><br>Minors with coursework entirely within the School of Music total 9-12 credits. These distributed minors are narrowly defined to ensure the principle of breadth in relation to the major specialty. Option B or Distributed minors include study in two or more departments. |

## REQUIRED COURSES

Direct any questions about the coursework or required proficiencies to the Mead Witter School of Music graduate program manager (see contact box).

### Musicology Pathway [1]

| Code | Title | Credits |
|---|---|---|
| **Seminars** | | |
| Prior to the dissertation stage, a total of 21 credits must be taken from the seminar offerings in the School of Music. Courses beyond those listed, as well as courses outside the department, may also be taken with advisor approval. | | 21 |
| MUSIC 911 | Seminar in Musicology (taken every semester, in principle) | |
| MUSIC 821 | Historical Music Theories 1 | |
| MUSIC 822 | Historical Music Theories 2 | |
| MUSIC 921 | Current Issues in Musical Thought 1 | |
| MUSIC 925 | Form and Analysis Seminar | |
| MUSIC 927 | Seminar in Composition | |
| **Ethnomusicology** | | |
| Complete one of the following, or another course with advisor approval: | | 3 |
| MUSIC/ FOLKLORE 515 | Proseminar in Ethnomusicology | |

| | | |
|---|---|---|
| MUSIC/ FOLKLORE 516 | Ethnographic Methods for Music and Sound | |
| MUSIC/ FOLKLORE 915 | Seminar in Ethnomusicology | |
| **Other Required Course** | | |
| MUSIC/L I S 619 | Music Research Methods and Materials | 3 |
| **Breadth** | | |
| Minimum 9 credits in a field other than the major specialty. See the Doctoral Minors page or the Mead Witter School of Music Graduate Handbook for details. | | 9 |
| **Language Proficiency** | | |
| Intermediate-level proficiency is required in two foreign languages. While the choice of language is flexible (with advisor consent), it is recommended that candidates focus on languages related to their research. Each language requirement may be satisfied with: | | |
| Four semesters of undergraduate-level study (completed within five years prior to matriculation), earning a grade of B or better in the final semester OR | | |
| One semester of the following with a grade of B or better: | | |
| GERMAN 391 | German for Graduate Reading Knowledge I | |
| ITALIAN 301 | Italian for Reading Knowledge | |
| FRENCH 391 | French for Reading Knowledge | |
| OR satisfactory completion of an approved language reading examination at the intermediate level. | | |
| Consult with the area faculty or with the Mead Witter School of Music graduate office for further details. | | |
| **Electives** | | |
| To meet the minimum credit requirement of 51 credits, students take electives numbered 300 and above in any department in consultation with their advisor. | | 3 |
| **Dissertation** | | |
| After preliminary examinations, students complete a minimum of four Dissertator semesters, each semester consisting of 3 credits in the course: | | 12 |
| MUSIC 999 | PhD Diss/DMA Project | |
| **Total Credits** | | **51** |

[1] These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

### Music Theory Pathway [1]

| Code | Title | Credits |
|---|---|---|
| **Seminars and Independent Work** | | |
| Students must complete the following courses. | | |
| MUSIC 821 | Historical Music Theories 1 | 3 |
| MUSIC 822 | Historical Music Theories 2 | 3 |
| MUSIC 823 | Schenkerian Analysis | 3 |
| **Additional Courses** | | |
| Students must take 9 credits total, up to 6 credits (2 courses) of which can be from MUSIC 911. Two seminars may be in Musicology. | | 9 |
| MUSIC 911 | Seminar in Musicology | |
| MUSIC 921 | Current Issues in Musical Thought 1 | |
| MUSIC 927 | Seminar in Composition | |
| **Other Required course** | | |
| MUSIC/L I S 619 | Music Research Methods and Materials | 3 |
| **Breadth** | | |
| 9-12 credits in a field other than the major specialty. See the Doctoral Minors page or the Mead Witter School of Music Graduate Handbook for details. Minors outside of the School of Music and Option B or Distributed Minors are also available. | | 9-12 |
| **Language Proficiency** | | |
| Intermediate-level reading knowledge is required in two languages. Languages must be approved by the music theory area. The most common ways of meeting the language proficiency requirements are: | | |
| Four semesters of undergraduate-level study (completed within five years prior to matriculation), earning a grade of B or better in the final semester OR | | |
| One semester of the following: | | |
| GERMAN 391 | German for Graduate Reading Knowledge I | |
| FRENCH 391 | French for Reading Knowledge | |
| ITALIAN 301 | Italian for Reading Knowledge | |
| OR satisfactory completion of an approved language reading examination at the intermediate level. | | |
| Consult with the area faculty or with the Mead Witter School of Music graduate office for further details. | | |
| **Electives** | | |
| To meet the minimum credit requirement of 51 credits, students complete electives numbered 300 and up in any department in consultation with their advisor. | | 10-16 |
| **Dissertation** | | |
| After preliminary examinations, students complete 3 credits per term in the following course. | | 3-12 |
| MUSIC 999 | PhD Diss/DMA Project | |
| **Total Credits** | | **51** |

[1] These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

# POLICIES

## GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs

may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy. Students may transfer up to 9 credits with faculty approval. Additional credits may transfer with department curriculum committee approval.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy, but the Mead Witter School of Music faculty rarely approve these transfer requests.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

The program allows up to 6 credits of UW-Madison University Special Student credit to transfer. Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

## PROBATION

PhD students who fail to make satisfactory progress in any of the following four areas: grades, course load, time constraints, or exams, will be notified in writing by the director of graduate studies. At the end of the second semester of failing to make satisfactory progress the student is placed on probation effective the next semester. This action suspends financial aid (but does not affect loans or work-study). For details see Satisfactory Progress for Doctoral Students (https://kb.wisc.edu/mwsomkb/114465/).

## ADVISOR / COMMITTEE

All programs provide for faculty from several disciplines to follow the student's progress through the degree, provide mentorship along the way, and assess the student's success in reaching expected learning outcomes. Committee structures differ among degrees and majors. The principal advisor for most graduate students in Mead Witter School of Music is generally referred to as the major professor.

In PhD programs the advisor may not be the eventual thesis or dissertation advisor. In all programs the major professor is determined with the student's particular interests in mind. The director of graduate studies is also an advisor for all graduate students in Mead Witter School of Music programs. Students are expected to consult with the director of graduate studies at least once per semester to determine appropriate course plans. Consultation is mandatory in the semester before intended graduation.

PhD students have two committees: a four-member preliminary examination committee composed of the major professor, minor professor, and two others determined by the area; and a dissertation committee with four faculty including the major professor and a faculty member from a program other than the major. Three of these four members must be graduate faculty.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Graduate students in the PhD program are allowed a maximum of four calendar years from the date entering the program to complete all course work requirements and successfully pass the preliminary examinations. The candidate must complete the dissertation within five years after passing the preliminary examinations.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## L&S POLICY FOR GRADUATE STUDENT ACADEMIC APPEALS

Graduate students have the right to appeal an academic decision related to an L&S graduate program if the student believes that the decision is inconsistent with published policy.

Academic decisions that may be appealed include:

- Dismissal from the graduate program
- Failure to pass a qualifying or preliminary examination
- Failure to achieve satisfactory academic progress
- Academic disciplinary action related to failure to meet professional conduct standards

Issues such as the following cannot be appealed using this process:

- A faculty member declining to serve as a graduate student's advisor.
- Decisions regarding the student's disciplinary knowledge, evaluation of the quality of work, or similar judgements. These are the domain of the department faculty.
- Course grades. These can be appealed instead using the L&S Policy for Grade Appeal (https://kb.wisc.edu/ls/22258/).
- Incidents of bias or hate, hostile and intimidating behavior (https://hr.wisc.edu/hib/), or discrimination (Title IX (https://compliance.wisc.edu/titleix/), Office of Compliance (https://compliance.wisc.edu/eo-complaint/formal-investigations/)). Direct these to the linked campus offices appropriate for the incident(s).

### Appeal Process for Graduate Students

A graduate student wishing to appeal an academic decision must follow the process in the order listed below. Note time limits within each step.

1. The student should first seek informal resolution, if possible, by discussing the concern with their academic advisor, the department's Director of Graduate Studies, and/or the department chair.
2. If the program has an appeal policy listed in their graduate program handbook, the student should follow the policy as written, including adhering to any indicated deadlines. In the absence of a specific departmental process, the chair or designee will be the reviewer and decision maker, and the student should submit a written appeal to the chair within 15 business days of the academic decision. The chair or designee will notify the student in writing of their decision.
3. If the departmental process upholds the original decision, the graduate student may next initiate an appeal to L&S. To do so, the student must submit a written appeal to the L&S Assistant Dean for Graduate Student Academic Affairs within 15 business days of notification of the department's decision.
    a. To the fullest extent possible, the written appeal should include, in a single document: a clear and concise statement of the academic decision being appealed, any relevant background on what led to the decision, the specific policies involved, the relief sought, any relevant documentation related to the departmental appeal, and the names and titles of any individuals contributing to or involved in the decision.
    b. The Assistant Dean will work with the Academic Associate Dean of the appropriate division to consider the appeal. They may seek additional information and/or meetings related to the case.
    c. The Assistant Dean and Academic Associate Dean will provide a written decision within 20 business days.
4. If L&S upholds the original decision, the graduate student may appeal to the Graduate School. More information can be found on their website: Grievances and Appeals (https://grad.wisc.edu/documents/grievances-and-appeals/) (see: Graduate School Appeal Process).

# MUSIC: EDUCATION, MM

The mission of Mead Witter School of Music is:

- to provide a rich, integrated program of undergraduate and graduate education that promotes the highest levels of professional, creative, and scholarly development while challenging students to achieve their greatest potential;
- to cultivate an environment that inspires creativity, stimulates intellectual curiosity, and fosters critical thinking; and
- to serve the university community, the public, and the profession through performance, composition, scholarship, music education, outreach, and engagement.

Mead Witter School of Music enriches students' educational experience by hosting guest artists and scholars for master classes, recitals, colloquia, seminars, and festivals. Mead Witter School of Music organizations and ensembles perform more than 350 recitals and concerts every year, making a significant contribution to the cultural life of the university and the wider Madison community.

# THE MASTER OF MUSIC: EDUCATION PROGRAM

The master of music: education program is suited to those who wish to emphasize music content in advanced study of education. Those who wish to explore music education within the context of education at large should consider the curriculum and instruction MS program in the School of Education. A double master's degree with the Information School is also offered.

Contact the Mead Witter School of Music graduate office for further details about the MM–music education degree.

The MM–music education degree offers the opportunity for advanced study in the field of musical education. Upon enrollment in the program, one of the music education faculty members acts as advisor for the student. This is usually the major professor, who the faculty determine based upon a student's particular interests. The examination committee for comprehensive examinations in the second year is composed of the major professor along with two other faculty members.

Mentoring of students is of prime importance to faculty members at Mead Witter School of Music. The faculty advisor and the director of graduate studies both guide the student's course planning. While each faculty member has a unique style of mentoring, every student can be assured of abundant time working closely with more than one mentor in addition to the advisor during the course of a UW–Madison degree program.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 1 |
| Spring Deadline | The program does not admit in the spring. |
| Summer Deadline | December 1 |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/) |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

Applicants must have an undergraduate degree in Music Education (closely related areas will be considered) and some experience as a professional educator in pre K-12 and/or community music education settings, or else obtain the consent of the Music Education area faculty prior to applying. In the Statement of Purpose, candidates should discuss their academic and professional goals as well as their qualifications to serve as a Teaching Assistant in the School of Music. No audition or interview is required for the Music Education MM application. For details of the application process, please visit the Mead Witter School of Music graduate admissions website (http://www.music.wisc.edu/admissions/graduate/).

Direct any questions about the coursework or required proficiencies to the Mead Witter School of Music graduate program manager (see contact box).

| Code | Title | Credits |
|---|---|---|
| **Comprehensive Music Education** | | |
| Take MUSIC/CURRIC 945 plus two more courses from the following list: | | 9 |
| MUSIC/ CURRIC 944 | Thinking with Social Theory in Music Education | |
| MUSIC/ CURRIC 946 | Past Perspectives on Music Education | |
| MUSIC/ CURRIC 948 | Cultures of Improvisation | |
| CURRIC 947 | Current Issues in Music Education | |
| Other courses may be approved with the consent of your Major Professor, for example: | | |
| MUSIC 799 | Independent Work | |
| MUSIC 497 | Special Topics in Music | |
| **Area of Specialty** | | |
| Advisor approved courses numbered 300 and above. | | 5 |
| **Musicology and Theory** | | |
| Courses must be selected from the approved list published each semester. No transfers are permitted (these credits must be taken at UW-Madison). Must take one course in Musicology and one course in Theory. The third course may be either Musicology or Theory. | | 9 |
| *Musicology* | | |
| Eligible Musicology courses include: [1] | | |
| MUSIC 405 | Seminar: Cultural Study of Music | |
| MUSIC 411 | Survey of Music in the Middle Ages | |
| MUSIC 412 | Survey of Music in the Renaissance | |
| MUSIC 413 | Survey of Music in the Baroque Era | |
| MUSIC 414 | Survey of Music in the Classic Era | |
| MUSIC 415 | Survey of Music in the Romantic Era | |
| MUSIC 416 | Survey of Music in the Twentieth Century | |
| MUSIC 418 | Music and the City | |
| MUSIC 423 | Contemporary Issues in Popular Music Studies | |
| MUSIC 511 | Historical Performance Practices | |
| MUSIC 513 | Survey of Opera | |
| MUSIC/ FOLKLORE 515 | Proseminar in Ethnomusicology | |
| MUSIC/ FOLKLORE 516 | Ethnographic Methods for Music and Sound | |
| MUSIC 821 | Historical Music Theories 1 | |
| MUSIC 822 | Historical Music Theories 2 | |
| MUSIC 911 | Seminar in Musicology | |
| MUSIC/ FOLKLORE 915 | Seminar in Ethnomusicology | |
| *Music Theory* | | |
| Eligible Music Theory courses include: [2] | | |
| MUSIC 621 | Renaissance Polyphony | |

| | | |
|---|---|---|
| MUSIC 622 | Baroque Counterpoint | |
| MUSIC 623 | Form and Analysis | |
| MUSIC 624 | Form and Analysis II | |
| MUSIC 523 | Orchestration I | |
| MUSIC 821 | Historical Music Theories 1 | |
| MUSIC 822 | Historical Music Theories 2 | |
| MUSIC 823 | Schenkerian Analysis | |
| MUSIC 921 | Current Issues in Musical Thought 1 | |
| MUSIC 927 | Seminar in Composition | |
| **Final Project** | | |
| Complete the following course for 4 credits | | 4 |
| CURRIC 790 | Master's Project or Thesis | |
| **Electives** | | |
| Courses approved by advisor numbered 300 and above. May include courses outside the Mead Witter School of Music. | | 7 |
| **Total Credits** | | **34** |

[1] Other courses do not fulfill this requirement unless specifically approved by the Musicology faculty.

[2] Other courses do not fulfill this requirement unless specifically approved by the Music Theory faculty.

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy. Students may transfer up to 9 credits with faculty approval. Additional credits may transfer with department curriculum committee approval.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy. The Mead Witter School of Music faculty rarely approve these transfer requests.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

Some students may have completed coursework numbered 300 or above at UW–Madison as a University Special student. With program approval, coursework so taken may be considered to fulfill up to 6 credits of graduate program requirements.

## PROBATION

MM students who fail to make satisfactory progress in any of the four following areas: grades, course load, time limits, or exams, will be notified in writing by the Director of Graduate Study. At the end of the second semester of failing to make satisfactory progress the student is placed on probation effective the next semester. This action suspends financial aid (but does not affect loans or work-study). See details in the Satisfactory Progress for Master's Students (https://kb.wisc.edu/mwsomkb/114465/).

## ADVISOR / COMMITTEE

All programs provide for faculty from several disciplines to follow the student's progress through the degree, provide mentorship along the way, and assess the student's success in reaching expected learning outcomes.

Music Education students have a committee of three or more graduate faculty, including the major professor.

The principal advisor for most graduate students in the Mead Witter School of Music is generally referred to as the major professor. In all programs the major professor is determined with the student's particular interests in mind.

The Director of Graduate Studies is also an advisor for all graduate students in Mead Witter School of Music programs. Students are expected to consult with the Director of Graduate Studies at least once per semester to determine appropriate course plans. Consultation is mandatory in the semester before intended graduation.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

MM and MA students not receiving university funding are expected to complete requirements and pass comprehensive examinations within seven years from the time of enrollment in the program. While graduate students may enroll on a part-time basis, this time constraint still applies.

All MM and MA students holding teaching assistant, project assistant, or fellowship appointments must complete requirements for the degree within four semesters (not counting summer sessions or thesis credits). If the appointment is more than 33.4% the expectation is to complete requirements in the sixth semester.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)

- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## L&S POLICY FOR GRADUATE STUDENT ACADEMIC APPEALS

Graduate students have the right to appeal an academic decision related to an L&S graduate program if the student believes that the decision is inconsistent with published policy.

Academic decisions that may be appealed include:

- Dismissal from the graduate program
- Failure to pass a qualifying or preliminary examination
- Failure to achieve satisfactory academic progress
- Academic disciplinary action related to failure to meet professional conduct standards

Issues such as the following cannot be appealed using this process:

- A faculty member declining to serve as a graduate student's advisor.
- Decisions regarding the student's disciplinary knowledge, evaluation of the quality of work, or similar judgements. These are the domain of the department faculty.
- Course grades. These can be appealed instead using the L&S Policy for Grade Appeal (https://kb.wisc.edu/ls/22258/).
- Incidents of bias or hate, hostile and intimidating behavior (https://hr.wisc.edu/hib/), or discrimination (Title IX (https://compliance.wisc.edu/titleix/), Office of Compliance (https://compliance.wisc.edu/eo-complaint/formal-investigations/)). Direct these to the linked campus offices appropriate for the incident(s).

### Appeal Process for Graduate Students

A graduate student wishing to appeal an academic decision must follow the process in the order listed below. Note time limits within each step.

1. The student should first seek informal resolution, if possible, by discussing the concern with their academic advisor, the department's Director of Graduate Studies, and/or the department chair.
2. If the program has an appeal policy listed in their graduate program handbook, the student should follow the policy as written, including adhering to any indicated deadlines. In the absence of a specific departmental process, the chair or designee will be the reviewer and decision maker, and the student should submit a written appeal to the chair within 15 business days of the academic decision. The chair or designee will notify the student in writing of their decision.
3. If the departmental process upholds the original decision, the graduate student may next initiate an appeal to L&S. To do so, the student must submit a written appeal to the L&S Assistant Dean for Graduate Student Academic Affairs within 15 business days of notification of the department's decision.
    a. To the fullest extent possible, the written appeal should include, in a single document: a clear and concise statement of the academic decision being appealed, any relevant background on what led to the decision, the specific policies involved, the relief sought, any relevant documentation related to the departmental appeal, and the names and titles of any individuals contributing to or involved in the decision.
    b. The Assistant Dean will work with the Academic Associate Dean of the appropriate division to consider the appeal. They may seek additional information and/or meetings related to the case.
    c. The Assistant Dean and Academic Associate Dean will provide a written decision within 20 business days.
4. If L&S upholds the original decision, the graduate student may appeal to the Graduate School. More information can be found on their website: Grievances and Appeals (https://grad.wisc.edu/documents/grievances-and-appeals/) (see: Graduate School Appeal Process).

# PROFESSIONAL DEVELOPMENT

## PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

### COLLEGE OF LETTERS AND SCIENCE RESOURCES

The College of Letters and Science's SuccessWorks (https://successworks.wisc.edu/) program can assist with professional development and with identifying opportunities.

# LEARNING OUTCOMES

## LEARNING OUTCOMES

1. Communicates clearly in multiple modes, including written and verbal, a well-developed foundational understanding, scholarly and practically, of the field of music education as it currently exists.
2. Demonstrates understanding of music education from multiple perspectives, including but not limited to social, cultural, historical and musical perspectives.
3. Draws upon extensive understandings of music learning and teaching as socially situated and constructed in multiple ways, honoring human difference as a rich source of information and demonstrates this in coursework and final projects.

4. Understands and applies principles of ethical and professional conduct.
5. Respects colleagues and values contributions of others in both individual and collaborative endeavors.

## ACCREDITATION

# ACCREDITATION

The University of Wisconsin-Madison is an accredited institutional member of the National Association of Schools of Music (https://nasm.arts-accredit.org/) (NASM) since 1966.

Accreditation status: Accredited. Next accreditation review: 2032-2033

# MUSIC: PERFORMANCE, DMA

The mission of Mead Witter School of Music is:

- to provide a rich, integrated program of undergraduate and graduate education that promotes the highest levels of professional, creative, and scholarly development while challenging students to achieve their greatest potential;
- to cultivate an environment that inspires creativity, stimulates intellectual curiosity, and fosters critical thinking; and
- to serve the university community, the public, and the profession through performance, composition, scholarship, music education, outreach, and engagement.

Mead Witter School of Music enriches students' educational experience by hosting guest artists and scholars for master classes, recitals, colloquia, seminars, and festivals. Mead Witter School of Music organizations and ensembles perform more than 350 recitals and concerts every year, making a significant contribution to the cultural life of the university and the wider Madison community.

Mead Witter School of Music views its goals and objectives as complementary to those of the University of Wisconsin–Madison, which include "to provide an environment in which faculty and students can discover, examine critically, preserve and transmit the knowledge, wisdom and values that will help ensure the survival of the present and future generations with improvement in the quality of life."

Mead Witter School of Music is accredited by the National Association of Schools of Music (NASM), and has been an institutional member of NASM since 1966.

# THE DOCTOR OF MUSICAL ARTS DEGREE

The DMA (Doctor of Musical Arts) and the PhD are the highest degrees conferred by the Mead Witter School of Music. The DMA is granted for evidence of general proficiency and distinctive attainment in a specialized field of performance. The student's ability in independent investigation is demonstrated through a series of public recital performances and in a final project presenting original research and creative scholarship.

Every major pathway in the DMA program consists of course and proficiency requirements including a minor field of study outside the student's major performance specialty. In addition to this, the core of the degree program is the doctoral candidate's Doctoral Performance and Research. This is a body of performances and scholarship that is, as a whole, the candidate's significant contribution to the field of musical performance. Find a full list of available pathways in the Requirements (p. 1373).

The DMA degree requires significant work beyond the master's degree, including the extensive independent work described above. Each major pathway varies slightly. See the course lists available through the Requirements (p. 1373) tab for details.

DMA students have achieved a high level of artistry as a performing musician before beginning the program at Mead Witter School of Music. The curriculum is designed to challenge students, broaden their musical knowledge and experience, and foster their growth in accomplishing independent research as well as formulating a unique approach to musical performance. Coursework in musicology and music theory, study of pedagogy and literature, and close mentorship by a group of supportive faculty members all contribute toward deepening a DMA student's encounter with music. A minor field of study (p. 1352), required of all DMA students, assures breadth by ensuring work in a field of study outside the major specialty. Proficiency in a foreign language supports research in the major field.

All DMA curricula in the Mead Witter School of Music are built on a similar model: applied study in the field of major specialty, related courses in the major specialty, a variety of musicology and theory courses, a minor field of study, and proficiency in at least one foreign language. The tracks differ in details, such as the number and nature of recital performances. The core of the DMA program is doctoral performance and research, a body of work comprised of public performances (recorded and available to scholars and musicians) and a doctoral research project. The whole is the DMA candidate's contribution to the community of performers and scholars.

Each DMA student has a faculty committee, the doctoral performance and research committee. Mentoring, evaluating, and supporting the student through the degree program, this committee provides multiple perspectives on the student's performance and research. Advising is available through the major professor as well as through the director of graduate studies and the graduate office in the Mead Witter School of Music.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 1 |
| Spring Deadline | The program does not admit in the spring. |
| Summer Deadline | The program does not admit in the summer. |

| | |
|---|---|
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

Applicants must have a bachelor's degree in music (or equivalent foundational coursework) plus a Master's degree in music (or consent of the faculty). Admission to the DMA program requires a high level of performance ability as demonstrated in the audition, which in most cases is performed live on the UW-Madison campus, although there are options for a remote audition. The DMA application will require a portfolio of recordings to serve as audition prescreening, as well as a sample of academic writing, preferably (but not mandatorily) on a topic in Musicology or Music Theory. In the CV, candidates should include a complete list of repertoire they have mastered, conducted, or composed. In the Statement of Purpose, candidates should discuss their academic and professional goals as well as their qualifications to serve as a Teaching Assistant in the School of Music. For details of the application process, including repertoire requirements for the portfolio and full audition, please visit the Mead Witter School of Music graduate admissions website (http://www.music.wisc.edu/admissions/graduate/).

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

Through the generosity of Paul J. Collins, the Mead Witter School of Music is the recipient of a substantial fellowship fund which, in combination with the Graduate School and University Foundation, allows the school to offer multiple-year funding to the highest quality graduate students in performance. The Collins fellowships, along with the Lorna Wendt and Anonymous Fund Fellowships for Choral and Voice students, are offered as Wisconsin Distinguished Fellowships and provide full tuition and fees, a generous stipend, additional funds, and comprehensive health care. The top candidates of the audition season will be nominated for these opportunities. The Mead Witter School of Music offers teaching assistantships in music history, music theory, music education, piano, conducting, voice, and other performance areas. These positions offer tuition remission plus a salary and health care benefits. In addition, the Mead Witter School of Music nominates qualified applicants for Graduate School Fellowships. Many students also take advantage of work-study opportunities on campus, and many are employed part-time in area musical organizations or business entities. Feel free to direct questions about any of these funding opportunities to the Graduate Program Manager, James Doing: gpm@music.wisc.edu

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 51 credits |
| Minimum Residence Credit Requirement | 32 credits |
| Minimum Graduate Coursework Requirement | 26 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.25 GPA required. |

| | |
|---|---|
| Other Grade Requirements | Courses with grades below B cannot satisfy program requirements.<br><br>Mead Witter School of Music financial awards are suspended if a student is on probation for more than one semester.<br><br>A student's satisfactory progress is also in jeopardy should a major recital be judged incomplete or deficient. Failure of one or more parts of the comprehensive examinations is also considered a lapse in satisfactory progress. |
| Assessments and Examinations | In addition to evaluations in individual classes, Mead Witter School of Music programs examine graduate students at defined points in their career.<br><br>For doctoral students, preliminary examinations are tools to evaluate the student's currency and knowledge of the major field and the minor area of study, but also to determine the readiness to embark on the final stage of research. The first part of the Comprehensive Examination is written, and the second part is an oral exam attended by the student's committee members.<br><br>Once doctoral candidates have completed all their work, the oral defense is an opportunity for the dissertation (PhD) or DPRC (DMA) committee to address the contributions made through the dissertation (PhD) or the doctoral performance and research (DMA). No grades are reported on the transcript for these program-level examinations. A DMA project is also required (see details below). |
| Language Requirements | All School of Music doctoral programs require proficiency at the intermediate level in at least one foreign language. Foreign language proficiency assures that the student has the tools needed to pursue comprehensive research in the major field. Details on foreign language requirements and ways to fulfill proficiency expectations are outlined in the course lists available through the Requirements tab for each degree. This information is also available in the advising worksheets for each degree major pathway. |
| Graduate School Breadth Requirement | All doctoral students are required to complete a doctoral minor or graduate/professional certificate. Refer to the Graduate School: Breadth Requirement in Doctoral Training policy: https://policy.wisc.edu/library/UW-1200 (https://policy.wisc.edu/library/UW-1200/).<br><br>Minors with coursework entirely within the School of Music total 12 credits and are taken as Option B–distributed minors. These distributed minors are narrowly defined to ensure the principle of breadth in relation to the major specialty. |

## REQUIRED COURSES

The following chart outlines the course requirements for all of the available DMA in Music: Performance pathways. Direct any questions about the coursework or required proficiencies to the Mead Witter School of Music graduate program manager (see contact box).

### Brass Pathway [1]

| Code | Title | Credits |
|---|---|---|
| **Doctoral Level Applied Instrument Study** | | |
| 4 semesters, 4 credits each semester | | 16 |
| Select course corresponding to the major instrument: | | |
| MUS PERF 717 | Doctoral Level-Horn | |
| MUS PERF 719 | Doctoral Level-Trumpet | |
| MUS PERF 721 | Doctoral Level-Trombone | |
| MUS PERF 723 | Doctoral Level Euphonium | |
| MUS PERF 725 | Doctoral Level Tuba | |
| **Literature and Pedagogy** | | |
| Two courses required: | | 4 |
| MUSIC 540 | Advanced Pedagogy | |
| MUSIC 798 | Seminar-Instrumental Literature (topics course) | |
| **Reference and Research Materials** | | |
| MUSIC/L I S 619 | Music Research Methods and Materials | 3 |
| **Musicology and Music Theory Courses** | | |
| At least one course must be taken in Musicology and one in Music Theory. 9 credits must be earned at UW-Madison. | | 9 |
| For a summary of the courses eligible for this requirement refer to the last table on this page: DMA: Courses Qualifying for Musicology and Music Theory Requirement | | |
| **Breadth** | | |
| A minimum of 9 credits in a field other than the major specialty. See the Mead Witter School of Music Graduate Handbook for details. | | 9 |
| **Language Proficiency** | | |
| One foreign language at intermediate level reading knowledge. French or German preferred. See Mead Witter School of Music Graduate Handbook for details on meeting the Foreign Language Proficiency. | | |
| **Doctoral Performance and Research** | | |
| After preliminary examinations, continuous registration for exactly three research-related credits is required. This may include both degree recitals (MUS PERF 999) and Research (MUSIC 999). | | |
| *1. Recitals* | | *5* |
| MUS PERF 999 | DMA Recital | |
| Enroll for each recital as a 1-credit course. | | |
| 5 recitals are required: one solo recital, one chamber recital, one solo/chamber/combination recital, one concerto performance (preferably with orchestra), and one lecture recital. The lecture recital is usually scheduled after preliminary examinations. | | |
| *2. DMA Research Project* | | |
| MUSIC 999 | PhD Diss/DMA Project | |

| | |
|---|---|
| Although each DMA project will be unique, there are a number of criteria students should keep in mind while preparing their DMA projects: 1) The project should show a certain level of ambition and rigor, either in the size or scope of the creative work chosen (e.g., an opera, symphonic work, concerto, to name a few examples); 2) Although it may be based on pre-existing text, or other materials, the bulk of the project must be original creative work, done by the DMA candidate. 3) DMA candidates should discuss their project proposals fully with the major professor and with all members of their DPRC before starting their project. 4) Every DMA project will include a significant written portion presenting the goals, methodology, and results of the research. 5) Examples of successful DMA projects are available in Mills Music Library on the UW-Madison campus. | |
| **Additional Coursework** | |
| The remaining credits needed in order to meet the minimum 51 for the degree may be fulfilled by MUSIC 999 (while ABD) or by electives numbered 300 and above in any department, in consultation with the advisor. | 5 |
| **Total Credits** | **51** |

[1] These pathways are internal to the program and represent different pathways a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

## Choral Conducting Pathway [1]

| Code | Title | Credits |
|---|---|---|
| **Doctoral Level Conducting Applied Study** | | |
| 2 credits taken in second year of study | | |
| MUS PERF 732 | Doctoral Level Conducting | 2 |
| **Advanced Conducting Seminar** | | |
| 4 semesters required | | 8 |
| MUSIC 553 | Advanced Conducting Seminar | |
| **Seminar: Choral Literature** | | |
| 4 semesters required | | 8 |
| MUSIC 541 | Seminar in Choral Literature | |
| or MUSIC 542 | Choral Literature and Performance Practices of Today | |
| 4 semesters required | | 4 |
| MUSIC 578 | Concert Choir | |
| TAs may use MUSIC 577 Chorale or MUSIC 578 Concert Choir to fulfill this requirement. | | |
| **Reference and Research Materials** | | |
| MUSIC/L I S 619 | Music Research Methods and Materials | 3 |
| **Musicology and Music Theory Courses** | | |
| At least one course must be taken in Musicology and one in Music Theory. 9 credits must be earned at UW-Madison. | | 9 |
| For a summary of the courses eligible for this requirement refer to the last table on this page: DMA: Courses Qualifying for Musicology and Music Theory Requirement | | |
| **Breadth** | | |
| A minimum of 9 credits in a field other than the major specialty. See the Mead Witter School of Music Graduate Handbook for details. | | 9 |
| **Foreign Language Proficiency** | | |
| One foreign language at intermediate level reading knowledge. German or Latin preferred. See Mead Witter School of Music Graduate Handbook for details on meeting the Foreign Language Proficiency. | | |
| **Doctoral Performance and Research** | | |
| After preliminary examinations continuous registration for exactly three research-related credits is required. This may include both degree recitals (MUS PERF 999) and Research (MUSIC 999). | | |
| *1. Recitals* | | *5* |
| MUS PERF 999 | DMA Recital | |
| 5 recitals required: Recitals consist of literature and work with choral ensembles determined by Major Professor. After Prelims: Lecture Recital Performance (content based on Research Project topic) and Final Performance (content to be determined by Doctoral Performance and Research Committee, Major Professor, and student). One recital to be performed with an ad hoc ensemble. | | |
| *2. DMA Research Project* | | |
| MUSIC 999 | PhD Diss/DMA Project | |
| Although each DMA project will be unique, there are a number of criteria students should keep in mind while preparing their DMA projects: 1) The project should show a certain level of ambition and rigor, either in the size or scope of the creative work chosen (e.g., an opera, symphonic work, concerto, to name a few examples); 2) Although it may be based on pre-existing text, or other materials, the bulk of the project must be original creative work, done by the DMA candidate. 3) DMA candidates should discuss their project proposals fully with the major professor and with all members of their DPRC before starting their project. 4) Every DMA project will include a significant written portion presenting the goals, methodology, and results of the research. 5) Examples of successful DMA projects are available in Mills Music Library on the UW-Madison campus. | | |
| **Additional Coursework** | | |
| The remaining credits needed in order to meet the minimum 51 for the degree may be fulfilled by MUSIC 999 (while ABD) or by electives numbered 300 and above in any department, in consultation with the advisor. | | 3 |
| **Total Credits** | | **51** |

[1] These pathways are internal to the program and represent different pathways a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

## Collaborative Piano Pathway [1]

| Code | Title | Credits |
|---|---|---|
| **Doctoral Level Piano Accompanying Applied Study** | | |
| 4 semesters, 2 credits each semester | | 8 |
| MUS PERF 742 | Doctoral Level Collaborative Piano | |
| **Duo Sonata Seminar** | | |

| | | |
|---|---|---|
| MUSIC 796 | Seminar in Duo Sonata Literature | 3 |
| **Vocal Literature** | | |
| MUSIC 346 | Repertoire [2] | 2 |
| MUSIC 792 | Seminar in Vocal Literature | 3 |
| **Diction** | | |
| MUSIC 467 & MUSIC 468 | Language Diction for Singing I and Language Diction for Singing II | 4 |
| **Reference and Research Materials** | | |
| MUSIC/L I S 619 | Music Research Methods and Materials | 3 |
| **Musicology and Theory Courses** | | |
| At least one course must be taken in Musicology and one in Music Theory. 9 credits music be earned at UW-Madison. | | 9 |
| For a summary of the courses eligible for this requirement refer to the last table on this page: DMA: Courses Qualifying for Musicology and Music Theory Requirement. | | |
| **Breadth** | | |
| A minimum of 9 credits in a field other than the major specialty. See the Mead Witter School of Music Graduate Handbook for details. | | 9 |
| **Language Proficiency** | | |
| Prior to achieving dissertator status, every student must complete the equivalent of, or demonstrate proficiency equivalent to, one semester each of college-level study in Italian, French, and German, and the second semester of two of these three languages (a total of five semesters). The Collaborative Piano faculty reserve the right to determine the validity of the course curriculum or other means acceptable for completion of this requirement. This requirement will be monitored by the Major Professor. See Mead Witter School of Music Graduate Handbook for details on meeting the Foreign Language Proficiency. | | |
| **Doctoral Performance and Research** | | |
| After preliminary examinations continuous registration for exactly three research-related credits is required. This may include both degree recitals (MUS PERF 999) and Research (MUSIC 999). | | |
| This body of work, comprising degree recitals and the DMA Research Project, is the core of the DMA degree. | | |
| *1. Recitals* | | 6 |
| MUS PERF 999 | DMA Recital | |
| 6 recitals are required. These must include at least 1 vocal, 1 instrumental, with four recitals normally performed before preliminary examinations. After preliminary examinations recitals usually include 1 lecture-recital and 1 final recital (prepared independently). | | |
| Enroll for each recital as a separate 1-credit course. | | |
| *2. DMA Research Project* | | |
| MUSIC 999 | PhD Diss/DMA Project | |

Although each DMA project will be unique, there are a number of criteria students should keep in mind while preparing their DMA projects: 1) The project should show a certain level of ambition and rigor, either in the size or scope of the creative work chosen (e.g., an opera, symphonic work, concerto, to name a few examples); 2) Although it may be based on pre-existing text, or other materials, the bulk of the project must be original creative work, done by the DMA candidate. 3) DMA candidates should discuss their project proposals fully with the major professor and with all members of their DPRC before starting their project. 4) Every DMA project will include a significant written portion presenting the goals, methodology, and results of the research. 5) Examples of successful DMA projects are available in Mills Music Library on the UW-Madison campus.

| | | |
|---|---|---|
| **Additional Coursework** | | |
| The remaining credits needed in order to meet the minimum 51 for the degree may be fulfilled by MUSIC 999 (while ABD) or by electives numbered 300 and above in any department, in consultation with the advisor. | | 4 |
| **Total Credits** | | **51** |

[1] These pathways are internal to the program and represent different pathways a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

[2] May be waived with prior equivalent undergraduate or graduate study.

## Composition Pathway [1]

| Code | Title | Credits |
|---|---|---|
| **Doctoral Composition Applied Study** | | |
| 4 semesters, 3 credits each semester | | 12 |
| MUS PERF 747 | Doctoral Level Composition (taken 4 semesters) | |
| **Seminars in Composition** | | |
| The following courses qualify for this requirement: | | 6 |
| MUSIC 523 | Orchestration I | |
| MUSIC 927 | Seminar in Composition | |
| **Musicology** | | |
| The following courses qualify for this requirement: | | 6 |
| MUSIC 411 | Survey of Music in the Middle Ages | |
| MUSIC 412 | Survey of Music in the Renaissance | |
| MUSIC 413 | Survey of Music in the Baroque Era | |
| MUSIC 414 | Survey of Music in the Classic Era | |
| MUSIC 415 | Survey of Music in the Romantic Era | |
| MUSIC 416 | Survey of Music in the Twentieth Century | |
| MUSIC 419 | Music in the United States | |
| MUSIC 511 | Historical Performance Practices | |
| MUSIC 513 | Survey of Opera | |
| MUSIC 911 | Seminar in Musicology | |
| **Music Theory** | | |
| The following courses qualify for this requirement: | | 6 |
| MUSIC 623 | Form and Analysis | |
| MUSIC 624 | Form and Analysis II | |

| | | |
|---|---|---|
| MUSIC 821 | Historical Music Theories 1 | |
| MUSIC 822 | Historical Music Theories 2 | |
| MUSIC 823 | Schenkerian Analysis | |
| MUSIC 921 | Current Issues in Musical Thought 1 | |
| **Conducting** | | |
| Consult with advisor on course choices: | | 6 |
| MUS PERF 532 | Advanced Conducting | |
| MUSIC 553 | Advanced Conducting Seminar | |
| MUSIC 554 | Advanced Conducting | |
| **Research Methods and Materials** | | |
| MUSIC/L I S 619 | Music Research Methods and Materials | 3 |
| **Breadth** | | |
| A minimum of 9 credits in a field other than composition. See the Mead Witter School of Music Graduate Handbook for more information. | | 9 |
| **Foreign Language Proficiency** | | |
| One foreign language at intermediate level reading knowledge. French or German preferred. See Mead Witter School of Music Graduate Handbook for details on meeting the Foreign Language Proficiency. | | |
| **Doctoral Performance and Research** | | |
| After preliminary examinations continuous registration for exactly three research-related credits is required. This may include both degree recitals (MUS PERF 999) and Research (MUSIC 999). | | |
| *1. Lecture-recital* | | *1* |
| MUS PERF 999 | DMA Recital | |
| The lecture-recital (completed after prelims) must relate to the candidate's own work (not that of another composer). The work does not have to be related to the DMA Project. Must be an ensemble work for minimum 4 players. The candidate must either conduct or play in the piece. Mere narration of the piece is not permitted. | | |
| *2. DMA Composition Project* | | |
| MUSIC 999 | PhD Diss/DMA Project | |
| The DMA project will be an original composition showing a certain level of ambition and rigor, either in the size or scope of the creative work chosen, e.g. an opera, symphonic work, concerto, to name a few examples. Although it may be based on pre-existing text or other materials, the bulk of the project must be original creative work by the candidate. The project proposal (due no later than one semester in advance of the defense) should contain a thorough discussion of the composition to be undertaken, including the title, instrumentation, and duration of both individual movements and the piece as a whole, as well as compositional techniques and strategies to be used. | | |
| **Additional Coursework** | | |
| The remaining credits needed in order to meet the minimum 51 for the degree may be fulfilled by MUSIC 999 (while ABD) or by electives numbered 300 and above in any department, in consultation with the advisor. | | 2 |
| **Total Credits** | | **51** |

[1] These pathways are internal to the program and represent different pathways a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

## Orchestral Conducting Pathway [1]

| Code | Title | Credits |
|---|---|---|
| **Doctoral Level Conducting Applied Study** | | |
| 2 credits each semester | | 8 |
| MUS PERF 732 | Doctoral Level Conducting | |
| **Conducting Laboratory** | | |
| Taken for 1 credit, 4 times | | 4 |
| MUSIC 632 | Graduate Instrumental Conducting Laboratory | |
| **Choral Conducting** | | |
| MUSIC 553 | Advanced Conducting Seminar | 2 |
| **Reference and Research Materials** | | |
| MUSIC/L I S 619 | Music Research Methods and Materials | 3 |
| **Musicology and Music Theory Courses** | | |
| At least one course must be taken in Musicology and one in Music Theory. 9 credits must be earned at UW-Madison. | | 9 |
| For a summary of the courses eligible for this requirement refer to the last table on this page: DMA: Courses Qualifying for Musicology and Music Theory Requirement | | |
| **Breadth** | | |
| A minimum of 9 credits in a field other than the major specialty. See the Mead Witter School of Music Graduate Handbook for details. | | 9 |
| **Foreign Language Proficiency** | | |
| One foreign language at intermediate level reading knowledge. French or German preferred. See Mead Witter School of Music Graduate Handbook for details on meeting the Foreign Language Proficiency. | | |
| **Doctoral Performance and Research** | | |
| After preliminary examinations continuous registration for exactly three research-related credits is required. This may include both degree recitals (MUS PERF 999) and Research (MUSIC 999). | | |
| *1. Recitals* | | *5* |
| MUS PERF 999 | DMA Recital | |
| 5 recitals required. Major professor will advise on scheduling of recitals before or after preliminary examinations. | | |
| Enroll for each recital as a separate 1 credit course. | | |
| *2. DMA Research Project* | | |
| MUSIC 999 | PhD Diss/DMA Project | |

| | | |
|---|---|---|
| Although each DMA project will be unique, there are a number of criteria students should keep in mind while preparing their DMA projects: 1) The project should show a certain level of ambition and rigor, either in the size or scope of the creative work chosen (e.g., an opera, symphonic work, concerto, to name a few examples); 2) Although it may be based on pre-existing text, or other materials, the bulk of the project must be original creative work, done by the DMA candidate. 3) DMA candidates should discuss their project proposals fully with the major professor and with all members of their DPRC before starting their project. 4) Every DMA project will include a significant written portion presenting the goals, methodology, and results of the research. 5) Examples of successful DMA projects are available in Mills Music Library on the UW-Madison campus. | | |
| **Electives** | | |
| Advisor and Major Professor approved, from the following list: | | 9 |
| M H R/ INTEGART 632 | Introduction to Arts Entrepreneurship | |
| M H R/ INTEGART 636 | Entrepreneurship in Arts & Cultural Organizations | |
| M H R 773 | Seminar-Arts Administration | |
| M H R 774 | Seminar-Arts Administration | |
| M H R 744 | Nonprofit Governance & Board Membership | |
| MUSIC 466 | Diction for Singers | |
| MUSIC 497 | Special Topics in Music (Aural Skills ) | |
| MUSIC 608 | Music Community Engagement | |
| DANCE 699 | Independent Project (Taken for DANCE 157) | |
| THEATRE 619 | Special Topics in Theatre and Drama (Taken for THEATRE 150) | |
| Doctoral Level Applied Instrumental Lessons (course numbers and credits vary) | | |
| **Additional Coursework** | | |
| The remaining credits needed in order to meet the minimum 51 for the degree may be fulfilled by MUSIC 999 (while ABD) or by electives numbered 300 and above in any department, in consultation with the advisor. | | 2 |
| **Total Credits** | | **51** |

[1] These pathways are internal to the program and represent different pathways a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

## Percussion Pathway [1]

| Code | Title | Credits |
|---|---|---|
| **Doctoral Level Percussion Applied Study** | | |
| 4 semesters, 4 credits each semester | | 16 |
| MUS PERF 727 | Doctoral Level Percussion | |
| **Literature/Pedagogy** | | |
| MUSIC 550 | Percussion Literature | 2 |
| or MUSIC 540 | Advanced Pedagogy | |
| **Reference and Research Materials** | | |
| MUSIC/L I S 619 | Music Research Methods and Materials | 3 |
| **Musicology and Music Theory Courses** | | |
| At least one course must be taken in Musicology and one in Music Theory. 9 credits must be earned at UW-Madison. | | 9 |
| For a summary of the courses eligible for this requirement refer to the last table on this page: DMA: Courses Qualifying for Musicology and Music Theory Requirement | | |
| **Breadth** | | |
| A minimum of 9 credits in a field other than the major specialty. See the Mead Witter School of Music Graduate Handbook for details. | | 9 |
| **Language Proficiency** | | |
| One foreign language at intermediate level reading knowledge. French or German preferred. See Mead Witter School of Music Graduate Handbook for details on meeting the Foreign Language Proficiency. | | |
| **Doctoral Performance and Research** | | |
| After preliminary examinations continuous registration for exactly three research-related credits is required. This may include both degree recitals (MUS PERF 999) and Research (MUSIC 999). | | |
| This body of work, comprising degree recitals and the DMA Research Project, is the core of the DMA degree. | | |
| *1. Recitals* | | *5* |
| MUS PERF 999 | DMA Recital | |
| There are 5 required recitals: 1 solo recital, 2 solo or solo/chamber recitals (one of which may be a concerto performance), these three before preliminary examinations; after preliminary examinations, 1 lecture-recital and 1 solo recital. | | |
| Enroll for each recital as a separate 1-credit course. | | |
| *2. DMA Research Project* | | |
| MUSIC 999 | PhD Diss/DMA Project | |
| Although each DMA project will be unique, there are a number of criteria students should keep in mind while preparing their DMA projects: 1) The project should show a certain level of ambition and rigor, either in the size or scope of the creative work chosen (e.g., an opera, symphonic work, concerto, to name a few examples); 2) Although it may be based on pre-existing text, or other materials, the bulk of the project must be original creative work, done by the DMA candidate. 3) DMA candidates should discuss their project proposals fully with the major professor and with all members of their DPRC before starting their project. 4) Every DMA project will include a significant written portion presenting the goals, methodology, and results of the research. 5) Examples of successful DMA projects are available in Mills Music Library on the UW-Madison campus. | | |
| **Additional Coursework** | | |
| The remaining credits needed in order to meet the minimum 51 for the degree may be fulfilled by MUSIC 999 (while ABD) or by electives numbered 300 and above in any department, in consultation with the advisor. | | 7 |
| **Total Credits** | | **51** |

[1] These pathways are internal to the program and represent different pathways a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

## Piano Performance Pathway [1]

| Code | Title | Credits |
|---|---|---|
| **Doctoral Level Piano Performance Applied Study** | | |
| 4 semesters, 4 credits each semester | | 16 |
| MUS PERF 701 | Doctoral Level-Piano | |
| **Literature** | | |
| Chosen in consultation with advisor (courses are repeatable): | | 6 |
| MUSIC 791 | Seminar in Piano Literature | |
| MUSIC 796 | Seminar in Duo Sonata Literature | |
| **Reference and Research Materials** | | |
| MUSIC/L I S 619 | Music Research Methods and Materials | 3 |
| **Musicology and Music Theory Courses** | | |
| At least one course must be taken in Musicology and one in Music Theory. 9 credits must be earned at UW-Madison. | | 9 |
| For a summary of the courses eligible for this requirement refer to the last table on this page: DMA: Courses Qualifying for Musicology and Music Theory Requirement | | |
| **Breadth** | | |
| A minimum of 9 credits in a field other than the major specialty. See the Mead Witter School of Music Graduate Handbook for details. | | 9 |
| **Language Proficiency** | | |
| One foreign language at intermediate level reading knowledge. French or German preferred. See Mead Witter School of Music Graduate Handbook for details on meeting the Foreign Language Proficiency. | | |
| **Doctoral Performance and Research** | | |
| After preliminary examinations continuous registration for exactly three research-related credits is required. This may include both degree recitals (MUS PERF 999) and Research (MUSIC 999). | | |
| This body of work, comprising degree recitals and the DMA Research Project, is the core of the DMA degree. | | |
| *1. Recitals* | | 6 |
| MUS PERF 999 | DMA Recital | |
| There are six required recitals. Recital repertoire will be selected in consultation with the Major Professor and must include one concerto performance, one chamber recital, and one lecture recital. The lecture and final solo recitals are usually scheduled after preliminary exams. | | |
| Enroll for each recital as a separate 1-credit course. | | |
| *2. DMA Research Project* | | |
| MUSIC 999 | PhD Diss/DMA Project | |
| Although each DMA project will be unique, there are a number of criteria students should keep in mind while preparing their DMA projects: 1) The project should show a certain level of ambition and rigor, either in the size or scope of the creative work chosen (e.g., an opera, symphonic work, concerto, to name a few examples); 2) Although it may be based on pre-existing text, or other materials, the bulk of the project must be original creative work, done by the DMA candidate. 3) DMA candidates should discuss their project proposals fully with the major professor and with all members of their DPRC before starting their project. 4) Every DMA project will include a significant written portion presenting the goals, methodology, and results of the research. 5) Examples of successful DMA projects are available in Mills Music Library on the UW-Madison campus. | | |
| **Additional Coursework** | | |
| The remaining credits needed in order to meet the minimum 51 for the degree may be fulfilled by MUSIC 999 (while ABD) or by electives numbered 300 and above in any department, in consultation with the advisor. | | 2 |
| **Total Credits** | | **51** |

[1] These pathways are internal to the program and represent different pathways a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

## Piano Performance and Pedagogy Pathway [1]

| Code | Title | Credits |
|---|---|---|
| **Doctoral Level Piano Applied Study** | | |
| 2 semesters, 4 credits each semester | | 8 |
| MUS PERF 701 | Doctoral Level-Piano | |
| **Piano Pedagogy** | | |
| Select from the following courses: | | 9 |
| MUSIC 751 | Seminar in Piano Pedagogy | |
| MUSIC 551 | Class Piano Pedagogy | |
| MUSIC 799 | Independent Work [2] | |
| CURRIC/ MUSIC 946 | Past Perspectives on Music Education | |
| CURRIC 947 | Current Issues in Music Education | |
| **Practicum** | | |
| MUSIC 560 | Practicum in Advanced Studio Teaching-Piano | 1 |
| **Literature** | | |
| Select one of the following: | | 3 |
| MUSIC 791 | Seminar in Piano Literature | |
| MUSIC 796 | Seminar in Duo Sonata Literature | |
| **Reference and Research Materials** | | |
| MUSIC/L I S 619 | Music Research Methods and Materials | 3 |
| **Musicology and Music Theory Courses** | | |
| At least one course must be taken in Musicology and one in Music Theory. 9 credits must be earned at UW-Madison. | | 9 |

| | |
|---|---|
| For a summary of the courses eligible for this requirement refer to the last table on this page: DMA: Courses Qualifying for Historical Musicology and Music Theory Requirement | |
| **Breadth** | |
| A minimum of 9 credits in a field other than the major specialty. See the Mead Witter School of Music Graduate Handbook for details. | 9 |
| **Language Proficiency** | |
| One foreign language at intermediate level reading knowledge. French or German preferred. See Mead Witter School of Music Graduate Handbook for details on meeting the Foreign Language Proficiency. | |
| **Doctoral Performance and Research** | |
| After preliminary examinations continuous registration for exactly three research-related credits is required. This may include both degree recitals (MUS PERF 999) and Research (MUSIC 999). | |
| This body of work, comprising degree recitals and the DMA Research Project, is the core of the DMA degree. | |
| *1. Recitals* | *4* |
| MUS PERF 999 DMA Recital | |
| 4 recitals are required. At least half of all recital repertoire must be solo. The lecture-recital and 1 additional recital may be performed after preliminary examinations. | |
| Enroll for each recital as a separate 1-credit course. [3] | |
| *2. DMA Research Project* | |
| MUSIC 999 & MUSIC 752 PhD Diss/DMA Project and Piano Pedagogy Workshop [4] | |
| Although each DMA project will be unique, there are a number of criteria students should keep in mind while preparing their DMA projects: 1) The project should show a certain level of ambition and rigor, either in the size or scope of the creative work chosen (e.g., an opera, symphonic work, concerto, to name a few examples); 2) Although it may be based on pre-existing text, or other materials, the bulk of the project must be original creative work, done by the DMA candidate. 3) DMA candidates should discuss their project proposals fully with the major professor and with all members of their DPRC before starting their project. 4) Every DMA project will include a significant written portion presenting the goals, methodology, and results of the research. 5) Examples of successful DMA projects are available in Mills Music Library on the UW-Madison campus. | |
| **Additional Coursework** | |
| The remaining credits needed in order to meet the minimum 51 for the degree may be fulfilled by MUSIC 999 (while ABD) or by electives numbered 300 and above in any department, in consultation with the advisor. | 5 |
| **Total Credits** | **51** |

[1] These pathways are internal to the program and represent different pathways a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

[2] With the MUSIC 799 Independent Work option, additional credits may be comprised of DANCE 560 Current Topics in Dance: Workshop (topic: Feldenkrais for Performing Artists) or MUSIC 497 Special Topics in Music (topic: Teaching Music in the Private Studio).

[3] If collaborative repertoire is included in recitals, additional enrollment in MUS PERF 542 Masters Level Collaborative Piano or MUS PERF 742 Doctoral Level Collaborative Piano is recommended for that recital semester.

[4] This course is usually taken as part of research, after preliminary examinations.

## String Performance Pathway [1]

| Code | Title | Credits |
|---|---|---|
| **Doctoral Level Instrument Applied Study** | | |
| 4 semesters, 4 credits each semester | | 16 |
| Enroll for the course corresponding to the major instrument: | | |
| MUS PERF 731 | Doctoral Level-Violin | |
| MUS PERF 733 | Doctoral Level-Viola | |
| MUS PERF 735 | Doctoral Level-Cello | |
| MUS PERF 737 | Doctoral Level Double Bass | |
| MUS PERF 740 | Doctoral Level-Guitar | |
| **Reference and Research Materials** | | |
| MUSIC/L I S 619 | Music Research Methods and Materials | 3 |
| **Musicology and Music Theory Courses** | | |
| At least one course must be taken in Musicology and one in Music Theory. 9 credits must be earned at UW-Madison. | | 9 |
| For a summary of the courses eligible for this requirement refer to the last table on this page: DMA: Courses Qualifying for Musicology and Music Theory Requirement | | |
| **Breadth** | | |
| A minimum of 9 credits in a field other than the major specialty. See the Mead Witter School of Music Graduate Handbook for details. | | 9 |
| **Language Proficiency** | | |
| One foreign language at intermediate level reading knowledge. French or German preferred. See Mead Witter School of Music Graduate Handbook for details on meeting the Foreign Language Proficiency. | | |
| **Doctoral Performance and Research** | | |
| After preliminary examinations continuous registration for exactly three research-related credits is required. This may include both degree recitals (MUS PERF 999) and Research (MUSIC 999). | | |
| This body of work, comprising degree recitals and the DMA Research Project, is the core of the DMA degree. | | |
| *1. Recitals* | | *6* |
| MUS PERF 999 | DMA Recital | |
| 6 recitals are required: 1 sonata recital, 1 string chamber recital, 1 chamber music recital with piano, 1 concerto or unaccompanied recital, these before preliminary examinations; after preliminary examinations, 1 lecture-recital and 1 final solo recital. | | |
| Enroll for each recital as a separate 1-credit course. | | |
| *2. DMA Research Project* | | |
| MUSIC 999 | PhD Diss/DMA Project | |

Although each DMA project will be unique, there are a number of criteria students should keep in mind while preparing their DMA projects: 1) The project should show a certain level of ambition and rigor, either in the size or scope of the creative work chosen (e.g., an opera, symphonic work, concerto, to name a few examples); 2) Although it may be based on pre-existing text, or other materials, the bulk of the project must be original creative work, done by the DMA candidate. 3) DMA candidates should discuss their project proposals fully with the major professor and with all members of their DPRC before starting their project. 4) Every DMA project will include a significant written portion presenting the goals, methodology, and results of the research. 5) Examples of successful DMA projects are available in Mills Music Library on the UW-Madison campus.

| | |
|---|---|
| **Additional Coursework** | |
| The remaining credits needed in order to meet the minimum 51 for the degree may be fulfilled by MUSIC 999 (while ABD) or by electives numbered 300 and above in any department, in consultation with the advisor. | 8 |
| **Total Credits** | **51** |

[1] These pathways are internal to the program and represent different pathways a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

## Vocal Performance Pathway [1]

| Code | Title | Credits |
|---|---|---|
| **Doctoral Level Voice Applied Study** | | |
| 4 semesters, 4 credits each semester | | 16 |
| MUS PERF 705 | Doctoral Level-Voice | |
| **Other Courses in the Major** | | |
| MUSIC 792 | Seminar in Vocal Literature [2, 3] | 3 |
| MUSIC 749 | Seminar in Vocal Techniques [3] | 2 |
| MUSIC 467 & MUSIC 468 | Language Diction for Singing I and Language Diction for Singing II [3] | 4 |
| **Reference and Research Materials** | | |
| MUSIC/L I S 619 | Music Research Methods and Materials | 3 |
| **Musicology and Music Theory Courses** | | |
| At least one course must be taken in Musicology and one in Music Theory. 9 credits must be earned at UW-Madison. | | 9 |
| For a summary of the courses eligible for this requirement refer to the last table on this page: DMA: Courses Qualifying for Musicology and Music Theory Requirement | | |
| **Breadth** | | |
| A minimum of 9 credits in a field other than the major specialty. See the Mead Witter School of Music Graduate Handbook for details. | | 9 |
| **Language Proficiency** | | |
| Prior to achieving dissertator status every student in this curricular pathway must complete the equivalent of, or demonstrate proficiency equivalent to, one semester each of college-level study in Italian, French, and German plus the second semester of two of these three languages (a total of five units). | | |
| Consult the voice faculty and the director of graduate studies for information on ways in which the language proficiency requirement may be satisfied and certified by Mead Witter School of Music faculty or by other means. | | |
| **Recitals [4]** | | **5** |
| 5 recitals total, one credit of which may be a substantial opera or oratorio role, and two credits of which must include lecture recital and final solo recital. | | |
| MUS PERF 999 | DMA Recital | |
| **DMA Research Project** | | |
| MUSIC 999 | PhD Diss/DMA Project | |
| Although each DMA project will be unique, there are a number of criteria students should keep in mind while preparing their DMA projects: 1) The project should show a certain level of ambition and rigor, either in the size or scope of the creative work chosen (e.g., an opera, symphonic work, concerto, to name a few examples); 2) Although it may be based on pre-existing text, or other materials, the bulk of the project must be original creative work, done by the DMA candidate. 3) DMA candidates should discuss their project proposals fully with the major professor and with all members of their DPRC before starting their project. 4) Every DMA project will include a significant written portion presenting the goals, methodology, and results of the research. 5) Examples of successful DMA projects are available in Mills Music Library on the UW-Madison campus. | | |
| **Additional Coursework** | | |
| The stated requirements fulfill exactly 51 credits. In the event of proficiency waivers for diction or literature, any remaining credits needed in order to meet the minimum 51 for the degree may be fulfilled by MUSIC 999 (while ABD) or by electives numbered 300 and above in any department, in consultation with the advisor. | | |
| **Total Credits** | | **51** |

[1] These pathways are internal to the program and represent different pathways a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

[2] MUSIC 346 Repertoire or equivalent is a prerequisite for this course. Consult the graduate office or the voice faculty for information on the schedule for planned offerings of this course.

[3] Consult the graduate office or the voice faculty for information on the schedule for planned offerings of this course.

[4] Approval by the director of opera and voice area is required. For a major opera role, enroll in 2 credits; for a secondary opera role, enroll in 1 credit.

## Wind Conducting Pathway [1]

| Code | Title | Credits |
|---|---|---|
| **Doctoral Level Conducting Applied Study** | | |
| 4 semesters, 2 credits each semester | | 8 |
| MUS PERF 732 | Doctoral Level Conducting | |

| | | |
|---|---|---|
| **Conducting Laboratory** | | |
| Taken for 1 credit, 4 times | | 4 |
| MUSIC 632 | Graduate Instrumental Conducting Laboratory | |
| **Choral Conducting** | | |
| MUSIC 553 | Advanced Conducting Seminar | 2 |
| **Reference and Research Materials** | | |
| MUSIC/L I S 619 | Music Research Methods and Materials | 3 |
| **Musicology and Music Theory Courses** | | |
| At least one course must be taken in Musicology and one in Music Theory. 9 credits must be earned at UW-Madison. | | 9 |
| For a summary of the courses eligible for this requirement refer to the last table on this page: DMA: Courses Qualifying for Musicology and Music Theory Requirement | | |
| **Breadth** | | |
| A minimum of 9 credits in a field other than the major specialty. See the Mead Witter School of Music Graduate Handbook for details. | | 9 |
| **Language Study** | | |
| One foreign language at intermediate level reading knowledge. French or German preferred. See Mead Witter School of Music Graduate Handbook for details on meeting the Foreign Language Proficiency. | | |
| **Doctoral Performance and Research** | | |
| After preliminary examinations continuous registration for exactly three research-related credits is required. This may include both degree recitals (MUS PERF 999) and Research (MUSIC 999). | | |
| This body of work, comprising degree recitals and the DMA Research Project, is the core of the DMA degree. | | |
| *1. Recitals* | | *5* |
| MUS PERF 999 | DMA Recital | |
| 5 recitals are required. The major professor will set specific expectations and parameters for the recitals. 4 recitals are typically performed prior to preliminary examinations. | | |
| Enroll for each recital as a separate 1-credit course. | | |
| *2. DMA Research Project* | | |
| MUSIC 999 | PhD Diss/DMA Project | |
| Although each DMA project will be unique, there are a number of criteria students should keep in mind while preparing their DMA projects: 1) The project should show a certain level of ambition and rigor, either in the size or scope of the creative work chosen (e.g., an opera, symphonic work, concerto, to name a few examples); 2) Although it may be based on pre-existing text, or other materials, the bulk of the project must be original creative work, done by the DMA candidate. 3) DMA candidates should discuss their project proposals fully with the major professor and with all members of their DPRC before starting their project. 4) Every DMA project will include a significant written portion presenting the goals, methodology, and results of the research. 5) Examples of successful DMA projects are available in Mills Music Library on the UW-Madison campus. | | |
| **Electives** | | |
| Advisor and Major Professor approved, from the following list: | | 9 |
| M H R/ INTEGART 632 | Introduction to Arts Entrepreneurship | |
| M H R/ INTEGART 636 | Entrepreneurship in Arts & Cultural Organizations | |
| M H R 773 | Seminar-Arts Administration | |
| M H R 774 | Seminar-Arts Administration | |
| M H R 744 | Nonprofit Governance & Board Membership | |
| MUSIC 466 | Diction for Singers | |
| MUSIC 497 | Special Topics in Music (Aural Skills) | |
| DANCE 699 | Independent Project (Taken for DANCE 157) | |
| MUSIC 608 | Music Community Engagement | |
| THEATRE 619 | Special Topics in Theatre and Drama (Taken for THEATRE 150) | |
| Doctoral Level Applied Instrumental Lessons (course numbers and credits vary) | | |
| **Additional Coursework** | | |
| The remaining credits needed in order to meet the minimum 51 for the degree may be fulfilled by MUSIC 999 (while ABD) or by electives numbered 300 and above in any department, in consultation with the advisor. | | 2 |
| **Total Credits** | | **51** |

[1] These pathways are internal to the program and represent different pathways a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

## Woodwind Performance Pathway [1]

| Code | Title | Credits |
|---|---|---|
| **Doctoral Level Instrument Applied Study** | | |
| 4 semesters, 4 credits each semester | | 16 |
| Enroll for the course corresponding to the major instrument: | | |
| MUS PERF 707 | Doctoral Level-Flute | |
| MUS PERF 709 | Doctoral Level-Oboe | |
| MUS PERF 711 | Doctoral Level-Clarinet | |
| MUS PERF 713 | Doctoral Level-Saxophone | |
| MUS PERF 715 | Doctoral Level-Bassoon | |
| **Reference and Research Materials** | | |
| MUSIC/L I S 619 | Music Research Methods and Materials | 3 |
| **Musicology and Music Theory Courses** | | |
| At least one course must be taken in Musicology and one in Music Theory. 9 credits must be earned at UW-Madison. | | 9 |
| For a summary of the courses eligible for this requirement refer to the last table on this page: DMA: Courses Qualifying for Musicology and Music Theory Requirement | | |
| **Breadth** | | |
| A minimum of 9 credits in a field other than the major specialty. See the Mead Witter School of Music Graduate Handbook for details. | | 9 |

| | |
|---|---|
| **Language Proficiency** | |
| One foreign language at intermediate level reading knowledge. French or German preferred. See Mead Witter School of Music Graduate Handbook for details on meeting the Foreign Language Proficiency. | |
| **Doctoral Performance and Research** | |
| After preliminary examinations continuous registration for exactly three research-related credits is required. This may include both degree recitals (MUS PERF 999) and Research (MUSIC 999). | |
| This body of work, comprising degree recitals and the DMA Research Project, is the core of the DMA degree. | |
| *1. Recitals* | *5* |
| MUS PERF 999 DMA Recital | |
| 5 recitals are required: 1 solo recital, 2 ensemble performances in which the major woodwind instrument plays a prominent role, these before preliminary examinations; after preliminary examinations, 1 lecture-recital and 1 final solo recital. | |
| Enroll for each recital as a separate 1-credit course. | |
| *2. DMA Research Project* | |
| MUSIC 999 PhD Diss/DMA Project | |
| Although each DMA project will be unique, there are a number of criteria students should keep in mind while preparing their DMA projects: 1) The project should show a certain level of ambition and rigor, either in the size or scope of the creative work chosen (e.g., an opera, symphonic work, concerto, to name a few examples); 2) Although it may be based on pre-existing text, or other materials, the bulk of the project must be original creative work, done by the DMA candidate. 3) DMA candidates should discuss their project proposals fully with the major professor and with all members of their DPRC before starting their project. 4) Every DMA project will include a significant written portion presenting the goals, methodology, and results of the research. 5) Examples of successful DMA projects are available in Mills Music Library on the UW-Madison campus. | |
| **Additional Coursework** | |
| The remaining credits needed in order to meet the minimum 51 for the degree may be fulfilled by MUSIC 999 (while ABD) or by electives numbered 300 and above in any department, in consultation with the advisor. | 9 |
| **Total Credits** | **51** |

[1] These pathways are internal to the program and represent different pathways a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

## DMA Courses Qualifying for Musicology and Music Theory Requirements

For all DMA programs, 9 credits of Musicology and Music Theory courses are required. These courses must be taken at UW-Madison. Previous coursework at another institution cannot substitute for any part of this 9-credit requirement. Individual courses must be taken for the maximum number of credits (3 credits).

Some of the courses list below may also count toward alternative degree requirements (e.g. for the Composition pathway). In these cases, "double dipping" is not permitted, i.e. a course may *not* be counted for fulfillment of two different requirements.

| Code | Title | Credits |
|---|---|---|
| **Musicology Courses** | | |
| Eligible musicology courses include the following: | | |
| MUSIC 405 | Seminar: Cultural Study of Music | 3 |
| MUSIC 411 | Survey of Music in the Middle Ages | 3 |
| MUSIC 412 | Survey of Music in the Renaissance | 3 |
| MUSIC 413 | Survey of Music in the Baroque Era | 3 |
| MUSIC 414 | Survey of Music in the Classic Era | 3 |
| MUSIC 415 | Survey of Music in the Romantic Era | 3 |
| MUSIC 416 | Survey of Music in the Twentieth Century | 3 |
| MUSIC 419 | Music in the United States | 3 |
| MUSIC 511 | Historical Performance Practices | 3 |
| MUSIC 513 | Survey of Opera | 3 |
| MUSIC/ FOLKLORE 515 | Proseminar in Ethnomusicology | 3 |
| MUSIC/ FOLKLORE 516 | Ethnographic Methods for Music and Sound | 3 |
| MUSIC 821 | Historical Music Theories 1 | 3 |
| MUSIC 822 | Historical Music Theories 2 | 3 |
| MUSIC 911 | Seminar in Musicology | 3 |
| MUSIC/ FOLKLORE 915 | Seminar in Ethnomusicology | 3 |
| Other courses do not fulfill this requirement unless specifically approved by the musicology faculty. | | |
| **Music Theory Courses** | | |
| Eligible music theory courses include the following: | | |
| MUSIC 523 | Orchestration I | 3 |
| MUSIC 621 | Renaissance Polyphony | 3 |
| MUSIC 622 | Baroque Counterpoint | 3 |
| MUSIC 623 | Form and Analysis | 3 |
| MUSIC 624 | Form and Analysis II | 3 |
| MUSIC 629 | Jazz Theory and Analysis | 3 |
| MUSIC 821 | Historical Music Theories 1 | 3 |
| MUSIC 822 | Historical Music Theories 2 | 3 |
| MUSIC 823 | Schenkerian Analysis | 3 |
| MUSIC 921 | Current Issues in Musical Thought 1 | 3 |
| MUSIC 927 | Seminar in Composition | 3 |
| Other courses do not fulfill this requirement unless specifically approved by the music theory faculty. | | |
| **Third Course: Music Education Course Option** | | |
| For DMA students who have taken 1 musicology and 1 music theory course, there is an option to include, as the third course, one of the following music education courses: | | |
| CURRIC/ MUSIC 946 | Past Perspectives on Music Education | 3 |
| CURRIC 947 | Current Issues in Music Education | 3 |

## POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy. Students may transfer up to 9 credits with faculty approval. Additional credits may transfer with department curriculum committee approval.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy, but Mead Witter School of Music faculty rarely approve these transfer requests.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special student at UW–Madison

The program allows up to 6 credits of UW-Madison University Special student credit to transfer. Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

## PROBATION

DMA students who fail to make satisfactory progress in any of the following four areas: Grades, Course Load, Time Limits, or Exams will be notified in writing by the director of graduate studies. At the end of the second semester of failing to make satisfactory progress the student is placed on Probation effective the next semester. This action suspends financial aid (but does not affect loans or work-study). See details in the Satisfactory Progress for Doctoral Students (https://kb.wisc.edu/mwsomkb/114465/).

## ADVISOR / COMMITTEE

All programs provide for faculty from several disciplines to follow the student's progress through the degree, provide mentorship along the way, and assess the student's success in reaching expected learning outcomes.

DMA students have a doctoral performance and research committee. This group of four faculty follows the student's work throughout the degree work, evaluating degree recitals as well as the doctoral research project. The committee also serves as the examination committee. The DPRC is comprised of the major professor and at least three others, two of whom must be graduate faculty and one of whom must be from a program that is not the major.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Graduate students in DMA or PhD programs are allowed a maximum of four calendar years from the date entering the program to complete all course work requirements and successfully pass the preliminary examinations. The candidate must complete the dissertation (PhD) or doctoral performance and research (DMA) within five years after passing the preliminary examinations.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## L&S POLICY FOR GRADUATE STUDENT ACADEMIC APPEALS

Graduate students have the right to appeal an academic decision related to an L&S graduate program if the student believes that the decision is inconsistent with published policy.

Academic decisions that may be appealed include:

- Dismissal from the graduate program
- Failure to pass a qualifying or preliminary examination
- Failure to achieve satisfactory academic progress

- Academic disciplinary action related to failure to meet professional conduct standards

Issues such as the following cannot be appealed using this process:

- A faculty member declining to serve as a graduate student's advisor.
- Decisions regarding the student's disciplinary knowledge, evaluation of the quality of work, or similar judgements. These are the domain of the department faculty.
- Course grades. These can be appealed instead using the L&S Policy for Grade Appeal (https://kb.wisc.edu/ls/22258/).
- Incidents of bias or hate, hostile and intimidating behavior (https://hr.wisc.edu/hib/), or discrimination (Title IX (https://compliance.wisc.edu/titleix/), Office of Compliance (https://compliance.wisc.edu/eo-complaint/formal-investigations/)). Direct these to the linked campus offices appropriate for the incident(s).

### Appeal Process for Graduate Students

A graduate student wishing to appeal an academic decision must follow the process in the order listed below. Note time limits within each step.

1. The student should first seek informal resolution, if possible, by discussing the concern with their academic advisor, the department's Director of Graduate Studies, and/or the department chair.
2. If the program has an appeal policy listed in their graduate program handbook, the student should follow the policy as written, including adhering to any indicated deadlines. In the absence of a specific departmental process, the chair or designee will be the reviewer and decision maker, and the student should submit a written appeal to the chair within 15 business days of the academic decision. The chair or designee will notify the student in writing of their decision.
3. If the departmental process upholds the original decision, the graduate student may next initiate an appeal to L&S. To do so, the student must submit a written appeal to the L&S Assistant Dean for Graduate Student Academic Affairs within 15 business days of notification of the department's decision.
    a. To the fullest extent possible, the written appeal should include, in a single document: a clear and concise statement of the academic decision being appealed, any relevant background on what led to the decision, the specific policies involved, the relief sought, any relevant documentation related to the departmental appeal, and the names and titles of any individuals contributing to or involved in the decision.
    b. The Assistant Dean will work with the Academic Associate Dean of the appropriate division to consider the appeal. They may seek additional information and/or meetings related to the case.
    c. The Assistant Dean and Academic Associate Dean will provide a written decision within 20 business days.
4. If L&S upholds the original decision, the graduate student may appeal to the Graduate School. More information can be found on their website: Grievances and Appeals (https://grad.wisc.edu/documents/grievances-and-appeals/) (see: Graduate School Appeal Process).

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

## GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## COLLEGE OF LETTERS AND SCIENCE RESOURCES

The College of Letters and Science's SuccessWorks (https://successworks.wisc.edu/) program can assist with professional development and with identifying opportunities.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Produces public performances of cohesive programs of music in which original ideas are communicated clearly and energetically.
2. Creates compositions and/or performances that clearly reflect well-developed original musical ideas.
3. Applies deep knowledge of technique, style, and cultural contexts to performance or creation of music.
4. Effectively expresses ideas both verbally and in writing so as to foster understanding among colleagues.
5. Demonstrates breadth within learning experience in an area o study outside the principal field of performance or composition.
6. Fosters ethical and professional conduct both in individual creative work and in collaborative endeavors.

## ACCREDITATION

# ACCREDITATION

The University of Wisconsin-Madison is an accredited institutional member of the National Association of Schools of Music (https://nasm.arts-accredit.org/) (NASM) since 1966.

Accreditation status: Accredited. Next accreditation review: 2032-2033

# MUSIC: PERFORMANCE, MM

The mission of the Mead Witter School of Music is:

- to provide a rich, integrated program of undergraduate and graduate education that promotes the highest levels of professional, creative, and scholarly development while challenging students to achieve their greatest potential;
- to cultivate an environment that inspires creativity, stimulates intellectual curiosity, and fosters critical thinking; and
- to serve the university community, the public, and the profession through performance, composition, scholarship, music education, outreach, and engagement.

The Mead Witter School of Music enriches students' educational experience by hosting guest artists and scholars for master classes,

recitals, colloquia, seminars, and festivals. Its performing organizations and ensembles perform more than 350 recitals and concerts every year, making a significant contribution to the cultural life of the university and the wider Madison community.

Mead Witter School of Music views its goals and objectives as complementary to those of the University of Wisconsin–Madison, which include "to provide an environment in which faculty and students can discover, examine critically, preserve and transmit the knowledge, wisdom, and values that will help ensure the survival of the present and future generations with improvement in the quality of life."

The University of Wisconsin–Madison School of Music is accredited by the National Association of Schools of Music (NASM) and has been an institutional member of NASM since 1966.

# DEGREES AND MAJORS

The MM–Music: Performance degree offers tracks for many major specialties, instrumental and vocal. Each degree pathway varies slightly, and details are provided in the course lists available through the Requirements tab. Faculty members in the appropriate area designate a major professor for each new student the first semester of enrollment. Whenever possible the faculty strive to match the student with the major professor if the applicant to the program has indicated a preference.

Mentoring of students is of prime importance to faculty members at Mead Witter School of Music. The faculty advisor and the director of graduate studies both guide the student's course planning. While each faculty member has a unique style, every student can be assured of abundant time working closely with more than one mentor in addition to the advisor during the course of a UW–Madison degree program. Take some time to access the Overview tab and review the Mead Witter School of Music mission statement, as well as the information available through the Learning Outcomes tab. These offer a glimpse of the values shared among the faculty and staff.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 1 |
| Spring Deadline | The program does not admit in the spring. |
| Summer Deadline | The program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/) |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

## ADMISSION REQUIREMENTS FOR MM IN MUSIC: PERFORMANCE

Applicants must have a bachelor's degree in music (or equivalent foundational coursework). Admission to the program requires a high level of performance ability as demonstrated in the audition, which in most cases is performed live on the UW-Madison campus, although there are options for a remote audition. The application will require a portfolio of recordings to serve as audition prescreening. In the CV, candidates should include a complete list of repertoire they have mastered, conducted, or composed. In the Statement of Purpose, candidates should discuss their academic and professional goals as well as their qualifications to serve as a Teaching Assistant in the School of Music. For details of the application process, including repertoire requirements for the portfolio and full audition, please visit the Mead Witter School of Music graduate admissions website (http://www.music.wisc.edu/admissions/graduate/).

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

Through the generosity of Paul J. Collins, the Mead Witter School of Music is the recipient of a substantial fellowship fund which, in combination with the Graduate School and University Foundation, allows the school to offer multiple-year funding to the highest quality graduate students in performance. The Collins fellowships, along with the Lorna Wendt and Anonymous Fund Fellowships for Choral and Voice students, are offered as Wisconsin Distinguished Fellowships and provide full tuition and fees, a generous stipend, additional funds, and comprehensive health care. The top candidates of the audition season will be nominated for these opportunities. The Mead Witter School of Music offers teaching assistantships in music history, music theory, music education, piano, conducting, voice, and other performance areas. These positions offer tuition remission plus a salary and health care benefits. Many students also take advantage of work-study opportunities on campus, and many are employed part-time in area musical organizations or business entities. Feel free to direct questions about any of these funding opportunities to the Graduate Program Manager, James Doing: gpm@music.wisc.edu

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 34 credits |
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 17 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.25 GPA required. |
| Other Grade Requirements | Grades below B do not satisfy degree requirements.<br><br>Mead Witter School of Music financial awards are suspended if a student is on probation for more than one semester.<br><br>A student's satisfactory progress is also in jeopardy should a major recital be judged incomplete or deficient. Failure of one or more parts of the comprehensive examinations is also considered a lapse in satisfactory progress. |
| Assessments and Examinations | In addition to evaluations in individual classes, School of Music programs examine graduate students at defined points in their career.<br><br>For master's students, comprehensive examinations measure the candidate's range of musical knowledge in the major field. |
| Language Requirements | The Vocal Performance curricular path has language requirements detailed below. |

## REQUIRED COURSES

The following chart outlines the course requirements for all of the available MM in Music: Performance pathways. Direct any questions about the coursework or required proficiencies to the Mead Witter School of Music graduate program manager (see contact box).

### Brass Path [1]

| Code | Title | Credits |
|---|---|---|
| **Master's Level Brass Instrument Applied Study** | | |
| Complete the course corresponding to the major instrument for 2 semesters minimum and 4 credits each semester. | | 8 |
| MUS PERF 517 | Masters Level-Horn | |
| MUS PERF 519 | Masters Level-Trumpet | |
| MUS PERF 521 | Masters Level-Trombone | |
| MUS PERF 523 | Masters Level-Euphonium | |
| MUS PERF 525 | Masters Level-Tuba | |
| **Master's Recital** | | |
| Enroll in this course in place of Applied Study in the recital semester: | | 4 |
| MUS PERF 990 | Masters Recital | |
| **Small Ensemble** | | |
| Complete 2 credits from following: | | 2 |
| MUSIC 567 | Advanced Ensemble-Brass [2] | |
| MUSIC 573 | Contemporary Chamber Ensemble | |
| MUSIC 565 | Advanced Ensemble-Woodwind (horn majors only) | |
| MUSIC 562 | Jazz Ensemble | |
| **Large Performance Ensemble** | | |
| 2 semesters, 1 credit each; eligible courses include the following: | | 2 |
| MUSIC 570 | University Symphony Orchestra | |
| MUSIC 574 | Wind Ensemble | |
| MUSIC 576 | Concert Band | |
| **Pedagogy** | | |

| | | |
|---|---|---|
| MUSIC 540 | Advanced Pedagogy | 2 |
| **Musicology and Music Theory** | | |
| 9 credits must be earned at UW-Madison. | | 9 |
| *Musicology* | | |
| Eligible musicology courses include (other courses do not fulfill this requirement unless specifically approved by the musicology faculty): | | |
| MUSIC 405 | Seminar: Cultural Study of Music | |
| MUSIC 411 | Survey of Music in the Middle Ages | |
| MUSIC 412 | Survey of Music in the Renaissance | |
| MUSIC 413 | Survey of Music in the Baroque Era | |
| MUSIC 414 | Survey of Music in the Classic Era | |
| MUSIC 415 | Survey of Music in the Romantic Era | |
| MUSIC 416 | Survey of Music in the Twentieth Century | |
| MUSIC 419 | Music in the United States | |
| MUSIC 497 | Special Topics in Music (Subject to approval by Musicology/ Ethnomusicology area) | |
| MUSIC 511 | Historical Performance Practices | |
| MUSIC 513 | Survey of Opera | |
| MUSIC/ FOLKLORE 515 | Proseminar in Ethnomusicology | |
| MUSIC/ FOLKLORE 516 | Ethnographic Methods for Music and Sound | |
| MUSIC 821 | Historical Music Theories 1 | |
| MUSIC 822 | Historical Music Theories 2 | |
| MUSIC 911 | Seminar in Musicology | |
| MUSIC/ FOLKLORE 915 | Seminar in Ethnomusicology | |
| *Music Theory* | | |
| Eligible courses in music theory include (other courses do not fulfill this requirement unless specifically approved by the music theory faculty.): | | |
| MUSIC 497 | Special Topics in Music (Subject to approval by Music Theory area) | |
| MUSIC 523 | Orchestration I | |
| MUSIC 621 | Renaissance Polyphony | |
| MUSIC 622 | Baroque Counterpoint | |
| MUSIC 623 | Form and Analysis | |
| MUSIC 624 | Form and Analysis II | |
| MUSIC 629 | Jazz Theory and Analysis | |
| MUSIC 821 | Historical Music Theories 1 | |
| MUSIC 822 | Historical Music Theories 2 | |
| MUSIC 823 | Schenkerian Analysis | |
| MUSIC 921 | Current Issues in Musical Thought 1 | |
| MUSIC 927 | Seminar in Composition | |
| **Elective Courses** | | |
| With advisor approval, choose courses in any department numbered 300 or above. | | 7 |
| **Total Credits** | | **34** |

[1] These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

[2] Sections of this course that are eligible include: Brass Quintet, Horn Choir, Tuba Quartet/Ensemble, Trumpet Ensemble, Trombone Choir/ Quartet. Each ensemble may be taken for two semesters. Note that the courses MUSIC 573 Contemporary Chamber Ensemble and MUSIC 565 Advanced Ensemble-Woodwind may also fulfill this requirement. Other courses do not fulfill this requirement unless first approved by the Brass area faculty.

## Choral Conducting Path [1]

| Code | Title | Credits |
|---|---|---|
| **Conducting Applied Study** | | |
| 2 credits each semester of the following: | | 8 |
| MUSIC 553 | Advanced Conducting Seminar | |
| **Seminar in Choral Literature** | | |
| Complete 8 credits from the following: | | 8 |
| MUSIC 541 | Seminar in Choral Literature (2 credits per semester) | |
| MUSIC 542 | Choral Literature and Performance Practices of Today (2 credits per semester) | |
| **Concert Choir** | | |
| Complete 4 times for 1 credit each: | | 4 |
| MUSIC 578 | Concert Choir | |
| Teaching Assistants (TAs) working with the Concert Choir should enroll in the following as an alternative: | | |
| MUSIC 577 | Chorale | |
| **Recital** | | |
| Complete the following for 2 credits: | | 2 |
| MUS PERF 990 | Masters Recital | |
| **Music Reference and Research Materials** | | |
| MUSIC/L I S 619 | Music Research Methods and Materials | 3 |
| **Musicology and Music Theory** | | |
| At least one course must be taken in Musicology and one in Music Theory. 9 credits must be earned at UW-Madison | | 9 |
| *Musicology* | | |
| Eligible musicology courses include (other courses do not fulfill this requirement unless specifically approved by the musicology faculty): | | |
| MUSIC 405 | Seminar: Cultural Study of Music | |
| MUSIC 411 | Survey of Music in the Middle Ages | |
| MUSIC 412 | Survey of Music in the Renaissance | |
| MUSIC 413 | Survey of Music in the Baroque Era | |
| MUSIC 414 | Survey of Music in the Classic Era | |

## Collaborative Piano Path [1]

| Code | Title | Credits |
|---|---|---|
| **Applied Study** | | |
| 4 semesters minimum, 2 credits each semester: | | 8 |
| MUS PERF 542 | Masters Level Collaborative Piano | |
| **Recitals** | | |
| Two recitals (1 vocal, 1 instrumental; 1 credit each) | | 2 |
| MUS PERF 990 | Masters Recital | |
| **Duo Sonata** | | |
| MUSIC 796 | Seminar in Duo Sonata Literature | 3 |
| **Accompanying Emphasis** | | |
| Based on accompanying emphasis, complete from the following: | | 6 |
| *Vocal Accompanying* | | |
| MUSIC 467 | Language Diction for Singing I | |
| MUSIC 468 | Language Diction for Singing II | |
| MUSIC 557 | Opera Workshop | |
| *Instrumental Accompanying* | | |
| MUSIC 466 | Diction for Singers | |
| plus 1 semester from the following courses: | | |
| MUSIC 565 | Advanced Ensemble-Woodwind | |
| MUSIC 567 | Advanced Ensemble-Brass | |
| MUSIC 568 | Advanced Ensemble-Percussion | |
| MUSIC 569 | Advanced Ensemble-String | |
| **Vocal Literature** | | |
| Complete 2 credits from the following: | | 2 |
| MUSIC 346 | Repertoire (if no prior experience) | |
| or MUSIC 792 | Seminar in Vocal Literature | |
| **Musicology and Music Theory Courses** | | |
| At least one course must be taken in Musicology and one in Music Theory. 9 credits must be earned at UW-Madison. | | 9 |
| *Musicology* | | |
| Eligible musicology courses include the following (other courses do not fulfill this requirement unless specifically approved by the musicology faculty): | | |
| MUSIC 405 | Seminar: Cultural Study of Music | |
| MUSIC 411 | Survey of Music in the Middle Ages | |
| MUSIC 412 | Survey of Music in the Renaissance | |
| MUSIC 413 | Survey of Music in the Baroque Era | |
| MUSIC 414 | Survey of Music in the Classic Era | |
| MUSIC 415 | Survey of Music in the Romantic Era | |
| MUSIC 416 | Survey of Music in the Twentieth Century | |
| MUSIC 419 | Music in the United States | |
| MUSIC 497 | Special Topics in Music (Subject to approval by Musicology/ Ethnomusicology area) | |
| MUSIC 511 | Historical Performance Practices | |
| MUSIC 513 | Survey of Opera | |
| MUSIC/ FOLKLORE 515 | Proseminar in Ethnomusicology | |
| MUSIC/ FOLKLORE 516 | Ethnographic Methods for Music and Sound | |
| MUSIC 821 | Historical Music Theories 1 | |
| MUSIC 822 | Historical Music Theories 2 | |
| MUSIC 911 | Seminar in Musicology | |
| MUSIC/ FOLKLORE 915 | Seminar in Ethnomusicology | |
| *Music Theory* | | |
| Eligible music theory courses include the following (other courses do not fulfill this requirement unless specifically approved by the music theory faculty): | | |
| MUSIC 497 | Special Topics in Music (Subject to approval by Music Theory area) | |
| MUSIC 523 | Orchestration I | |
| MUSIC 621 | Renaissance Polyphony | |
| MUSIC 622 | Baroque Counterpoint | |
| MUSIC 623 | Form and Analysis | |
| MUSIC 624 | Form and Analysis II | |
| MUSIC 629 | Jazz Theory and Analysis | |
| MUSIC 821 | Historical Music Theories 1 | |
| MUSIC 822 | Historical Music Theories 2 | |
| MUSIC 823 | Schenkerian Analysis | |
| MUSIC 921 | Current Issues in Musical Thought 1 | |
| MUSIC 927 | Seminar in Composition | |
| **Elective courses** | | |

| | |
|---|---|
| With advisor approval, choose courses in any department numbered 300 or above. | 4 |
| **Total Credits** | **34** |

[1] These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

## Composition Path [1]

| Code | Title | Credits |
|---|---|---|
| **Composition Applied Study** | | |
| Complete 3 semesters minimum, 3 credits each semester | | 9 |
| MUS PERF 547 | Masters Level Composition | |
| **Thesis–Composition (Project)** | | |
| To be taken in the final semester of study, after three semesters of the above composition courses are completed. Attendance at Composition Master Class is required of composition majors enrolled in Master's Thesis. | | 3 |
| MUSIC 990 | Masters Thesis | |
| **Courses in Musicology** | | |
| Complete 6 credits; eligible musicology courses include (other courses do not fulfill this requirement unless specifically approved by the musicology faculty): | | 6 |
| MUSIC 411 | Survey of Music in the Middle Ages | |
| MUSIC 412 | Survey of Music in the Renaissance | |
| MUSIC 413 | Survey of Music in the Baroque Era | |
| MUSIC 414 | Survey of Music in the Classic Era | |
| MUSIC 415 | Survey of Music in the Romantic Era | |
| MUSIC 416 | Survey of Music in the Twentieth Century | |
| MUSIC 419 | Music in the United States | |
| MUSIC 497 | Special Topics in Music (Subject to approval by Musicology/ Ethnomusicology area) | |
| MUSIC 511 | Historical Performance Practices | |
| MUSIC 513 | Survey of Opera | |
| MUSIC/ FOLKLORE 515 | Proseminar in Ethnomusicology | |
| MUSIC/ FOLKLORE 516 | Ethnographic Methods for Music and Sound | |
| MUSIC 821 | Historical Music Theories 1 | |
| MUSIC 822 | Historical Music Theories 2 | |
| MUSIC 911 | Seminar in Musicology | |
| MUSIC/ FOLKLORE 915 | Seminar in Ethnomusicology | |
| **Courses in Music Theory** | | |
| Complete 6 credits; eligible music theory courses include the following (other courses do not fulfill this requirement unless specifically approved by the music theory faculty): | | 6 |
| MUSIC 497 | Special Topics in Music (Subject to approval by the Music Theory area) | |
| MUSIC 621 | Renaissance Polyphony | |
| MUSIC 622 | Baroque Counterpoint | |
| MUSIC 623 | Form and Analysis | |
| MUSIC 624 | Form and Analysis II | |
| MUSIC 629 | Jazz Theory and Analysis | |
| MUSIC 821 | Historical Music Theories 1 | |
| MUSIC 822 | Historical Music Theories 2 | |
| MUSIC 823 | Schenkerian Analysis | |
| MUSIC 921 | Current Issues in Musical Thought 1 | |
| **Composition Electives** | | |
| Complete 10 credits from following: [2] | | 10 |
| MUSIC 523 | Orchestration I | |
| MUSIC 927 | Seminar in Composition (topics course; may be repeated for credit) | |
| With advisor approval, choose composition-related courses numbered 300 or above. Other courses must be approved by Major Professor. | | |
| **Total Credits** | | **34** |

[1] These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

[2] Other courses may be eligible for this requirement, by approval of the major professor.

## Guitar Path [1]

| Code | Title | Credits |
|---|---|---|
| **Master's Level Guitar Applied Study** | | |
| 2 semesters, 4 credits each semester | | 8 |
| MUS PERF 540 | Masters Level-Guitar | |
| **Recital** | | |
| Enroll in this course in place of Master's Level Applied Study in the recital semester. | | 4 |
| MUS PERF 990 | Masters Recital | |
| **Ensemble** | | |
| Complete 2 semesters | | 2 |
| MUSIC 572 | Advanced Ensemble-Classical Guitar | |
| **Musicology and Music Theory Courses** | | |
| At least one course must be taken in Musicology and one in Music Theory. 9 credits must be earned at UW-Madison. | | 9 |
| *Musicology* | | |
| Eligible musicology courses include the following (other courses do not fulfill this requirement unless specifically approved by the musicology faculty): | | |
| MUSIC 405 | Seminar: Cultural Study of Music | |
| MUSIC 411 | Survey of Music in the Middle Ages | |
| MUSIC 412 | Survey of Music in the Renaissance | |
| MUSIC 413 | Survey of Music in the Baroque Era | |
| MUSIC 414 | Survey of Music in the Classic Era | |
| MUSIC 415 | Survey of Music in the Romantic Era | |
| MUSIC 416 | Survey of Music in the Twentieth Century | |
| MUSIC 419 | Music in the United States | |
| MUSIC 497 | Special Topics in Music (Subject to approval by Musicology/ Ethnomusicology area) | |

| | |
|---|---|
| MUSIC 511 | Historical Performance Practices |
| MUSIC 513 | Survey of Opera |
| MUSIC/ FOLKLORE 515 | Proseminar in Ethnomusicology |
| MUSIC/ FOLKLORE 516 | Ethnographic Methods for Music and Sound |
| MUSIC 821 | Historical Music Theories 1 |
| MUSIC 822 | Historical Music Theories 2 |
| MUSIC 911 | Seminar in Musicology |
| MUSIC/ FOLKLORE 915 | Seminar in Ethnomusicology |
| *Music Theory* | |
| Eligible music theory courses include the following (other courses do not fulfill this requirement unless specifically approved by the music theory faculty): | |
| MUSIC 497 | Special Topics in Music (Subject to approval by Music Theory area) |
| MUSIC 523 | Orchestration I |
| MUSIC 621 | Renaissance Polyphony |
| MUSIC 622 | Baroque Counterpoint |
| MUSIC 623 | Form and Analysis |
| MUSIC 624 | Form and Analysis II |
| MUSIC 629 | Jazz Theory and Analysis |
| MUSIC 821 | Historical Music Theories 1 |
| MUSIC 822 | Historical Music Theories 2 |
| MUSIC 823 | Schenkerian Analysis |
| MUSIC 921 | Current Issues in Musical Thought 1 |
| MUSIC 927 | Seminar in Composition |
| **Elective courses** | |
| With advisor approval, choose courses in any department numbered 300 or above. | 11 |
| **Total Credits** | **34** |

[1] These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

## Harp Path [1]

| Code | Title | Credits |
|---|---|---|
| **Applied Study** | | |
| Complete twice for 4 credits each | | 8 |
| MUS PERF 539 | Master's Level Harp | |
| **Recital** | | |
| Taken that semester instead of applied study: | | 4 |
| MUS PERF 990 | Masters Recital | |
| **Ensembles** | | |
| Complete 4 credits; must include minimum of 2 credits of Orchestra. | | 4 |
| MUSIC 570 | University Symphony Orchestra | |
| MUSIC 569 | Advanced Ensemble-String | |
| **Pedagogy** | | |
| MUSIC 751 | Seminar in Piano Pedagogy | 3 |
| **Musicology and Music Theory** | | |
| Three courses to include one course each in Musicology and one course in Music Theory; required from approved course list at UW-Madison only (no waivers). | | 9 |
| *Musicology* | | |
| MUSIC 405 | Seminar: Cultural Study of Music | |
| MUSIC 411 | Survey of Music in the Middle Ages | |
| MUSIC 412 | Survey of Music in the Renaissance | |
| MUSIC 413 | Survey of Music in the Baroque Era | |
| MUSIC 414 | Survey of Music in the Classic Era | |
| MUSIC 416 | Survey of Music in the Twentieth Century | |
| MUSIC 419 | Music in the United States | |
| MUSIC 497 | Special Topics in Music (Subject to approval of Musicology/ Ethnomusicology area) | |
| MUSIC 511 | Historical Performance Practices | |
| MUSIC 513 | Survey of Opera | |
| MUSIC/ FOLKLORE 515 | Proseminar in Ethnomusicology | |
| MUSIC/ FOLKLORE 516 | Ethnographic Methods for Music and Sound | |
| MUSIC 821 | Historical Music Theories 1 | |
| MUSIC 822 | Historical Music Theories 2 | |
| MUSIC 911 | Seminar in Musicology | |
| MUSIC/ FOLKLORE 915 | Seminar in Ethnomusicology | |
| MUSIC 921 | Current Issues in Musical Thought 1 | |
| *Music Theory* | | |
| MUSIC 497 | Special Topics in Music (Subject to approval of Music Theory area) | |
| MUSIC 523 | Orchestration I | |
| MUSIC 621 | Renaissance Polyphony | |
| MUSIC 622 | Baroque Counterpoint | |
| MUSIC 623 | Form and Analysis | |
| MUSIC 624 | Form and Analysis II | |
| MUSIC 629 | Jazz Theory and Analysis | |
| MUSIC 821 | Historical Music Theories 1 | |
| MUSIC 822 | Historical Music Theories 2 | |
| MUSIC 823 | Schenkerian Analysis | |
| MUSIC 921 | Current Issues in Musical Thought 1 | |
| MUSIC 927 | Seminar in Composition | |
| **Electives** | | |
| Numbered 300 and above, approved by Major Professor and Advisor. May include excess from above categories. | | 6 |
| **Total Credits** | | **34** |

[1] These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

## Jazz Path [1]

| Code | Title | Credits |
|---|---|---|
| **Jazz Applied Study** | | |
| 2 semesters, 4 credits each semester | | 8 |
| MUS PERF 541 | Masters Level Jazz Studio Instruction | |
| **Required Jazz Courses** | | |
| MUSIC 629 | Jazz Theory and Analysis | 3 |
| MUSIC 417 | Jazz Histories (does not satisfy the musicology requirement) | 3 |
| **Master's Recital** | | |
| 2 recitals, 2 credits each | | 4 |
| MUS PERF 990 | Masters Recital | |
| With the approval of the student's recital committee, a recording project, composition portfolio, or research paper may be substituted as a master's project by enrolling in the following course, in place of the second recital. | | |
| MUSIC 799 | Independent Work (taken for 2 credits) | |
| **Jazz Ensemble** | | |
| Complete 4 times for 1 credit each | | 4 |
| MUSIC 562 | Jazz Ensemble | |
| **Musicology and Music Theory Courses** | | |
| In addition to MUSIC 629, must take one course in Musicology. The second course may be either Musicology or Music Theory. | | 6 |
| *Musicology* | | |
| Eligible Musicology courses include the following (other courses do not fulfill this requirement unless specifically approved by the musicology faculty): | | |
| MUSIC 405 | Seminar: Cultural Study of Music | |
| MUSIC 411 | Survey of Music in the Middle Ages | |
| MUSIC 412 | Survey of Music in the Renaissance | |
| MUSIC 413 | Survey of Music in the Baroque Era | |
| MUSIC 414 | Survey of Music in the Classic Era | |
| MUSIC 415 | Survey of Music in the Romantic Era | |
| MUSIC 416 | Survey of Music in the Twentieth Century | |
| MUSIC 417 | Jazz Histories (Required to fulfill Musicology or elective) | |
| MUSIC 419 | Music in the United States | |
| MUSIC 497 | Special Topics in Music (Subject to the approval of Musicology and Ethnomusicology area) | |
| MUSIC 511 | Historical Performance Practices | |
| MUSIC 513 | Survey of Opera | |
| MUSIC/ FOLKLORE 515 | Proseminar in Ethnomusicology | |
| MUSIC/ FOLKLORE 516 | Ethnographic Methods for Music and Sound | |
| MUSIC 821 | Historical Music Theories 1 | |
| MUSIC 822 | Historical Music Theories 2 | |
| MUSIC 911 | Seminar in Musicology | |
| MUSIC/ FOLKLORE 915 | Seminar in Ethnomusicology | |
| MUSIC 921 | Current Issues in Musical Thought 1 | |
| *Music Theory* | | |
| Eligible Music Theory courses include (other courses do not fulfill this requirement unless specifically approved by the music theory faculty): | | |
| MUSIC 497 | Special Topics in Music (Subject to approval of Music Theory area) | |
| MUSIC 517 | Proseminar in Music Theory | |
| MUSIC 523 | Orchestration I | |
| MUSIC 621 | Renaissance Polyphony | |
| MUSIC 622 | Baroque Counterpoint | |
| MUSIC 623 | Form and Analysis | |
| MUSIC 624 | Form and Analysis II | |
| MUSIC 821 | Historical Music Theories 1 | |
| MUSIC 822 | Historical Music Theories 2 | |
| MUSIC 823 | Schenkerian Analysis | |
| MUSIC 921 | Current Issues in Musical Thought 1 | |
| MUSIC 927 | Seminar in Composition | |
| MUSIC 927 | Seminar in Composition | |
| **Electives** | | |
| Three courses chosen from the following or other courses approved by advisor and major professor. | | 6 |
| MUS PERF 457 | Jazz Composition and Arranging | |
| MUSIC 529 | Jazz Arranging | |
| MUSIC 531 | Advanced Jazz Improvisation | |
| **Total Credits** | | **34** |

[1] These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

## Orchestral Conducting Path [1]

| Code | Title | Credits |
|---|---|---|
| **Conducting Applied Study** | | |
| 4 semesters, 2 credits each | | 8 |
| MUS PERF 532 | Advanced Conducting | |
| **Conducting Laboratory** | | |
| Complete 4 times for 1 credit each | | 4 |
| MUSIC 632 | Graduate Instrumental Conducting Laboratory | |
| **Recital** | | |
| Complete 3 credits | | 3 |
| MUS PERF 990 | Masters Recital | |
| **Choral Ensemble** | | |
| Complete one of following for 1 credit | | 1 |
| MUSIC 578 | Concert Choir | |
| MUSIC 577 | Chorale | |
| **Musicology and Music Theory Courses** | | |
| At least one course must be taken in Musicology and one in Music Theory. 9 credits must be earned at UW-Madison. | | 9 |
| *Musicology* | | |

| | |
|---|---|
| Eligible musicology courses include (other courses do not fulfill this requirement unless specifically approved by the musicology faculty): | |
| MUSIC 405 | Seminar: Cultural Study of Music |
| MUSIC 411 | Survey of Music in the Middle Ages |
| MUSIC 412 | Survey of Music in the Renaissance |
| MUSIC 413 | Survey of Music in the Baroque Era |
| MUSIC 414 | Survey of Music in the Classic Era |
| MUSIC 415 | Survey of Music in the Romantic Era |
| MUSIC 416 | Survey of Music in the Twentieth Century |
| MUSIC 419 | Music in the United States |
| MUSIC 497 | Special Topics in Music (Subject to approval of Musicology/ Ethnomusicology area) |
| MUSIC 511 | Historical Performance Practices |
| MUSIC 513 | Survey of Opera |
| MUSIC/ FOLKLORE 515 | Proseminar in Ethnomusicology |
| MUSIC/ FOLKLORE 516 | Ethnographic Methods for Music and Sound |
| MUSIC 821 | Historical Music Theories 1 |
| MUSIC 822 | Historical Music Theories 2 |
| MUSIC 911 | Seminar in Musicology |
| MUSIC/ FOLKLORE 915 | Seminar in Ethnomusicology |
| *Music Theory* | |
| Eligible music theory courses include the following (other courses do not fulfill this requirement unless specifically approved by the music theory faculty): | |
| MUSIC 497 | Special Topics in Music (Subject to approval of Music Theory area) |
| MUSIC 523 | Orchestration I |
| MUSIC 621 | Renaissance Polyphony |
| MUSIC 622 | Baroque Counterpoint |
| MUSIC 623 | Form and Analysis |
| MUSIC 624 | Form and Analysis II |
| MUSIC 629 | Jazz Theory and Analysis |
| MUSIC 821 | Historical Music Theories 1 |
| MUSIC 822 | Historical Music Theories 2 |
| MUSIC 823 | Schenkerian Analysis |
| MUSIC 921 | Current Issues in Musical Thought 1 |
| MUSIC 927 | Seminar in Composition |
| **Elective courses** | |
| Complete 9 credits from following: | 9 |
| M H R/ INTEGART 632 | Introduction to Arts Entrepreneurship |
| M H R/ INTEGART 636 | Entrepreneurship in Arts & Cultural Organizations |
| M H R 773 | Seminar-Arts Administration |
| M H R 774 | Seminar-Arts Administration |
| M H R 744 | Nonprofit Governance & Board Membership |
| MUSIC 466 | Diction for Singers |
| MUSIC 497 | Special Topics in Music (Aural Skills) |
| MUSIC 608 | Music Community Engagement |
| DANCE 699 | Independent Project (Students attend DANCE 157 and have unique graduate-level projects and requirements) |
| THEATRE 619 | Special Topics in Theatre and Drama (Students attend THEATRE 150 and have unique graduate-level projects and requirements) |
| Master's Level Applied Instrumental Lessons (Course numbers and credits vary). With advisor approval, choose courses in any department numbered 300 or above. | |
| **Total Credits** | **34** |

[1] These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

## Percussion Path [1]

| Code | Title | Credits |
|---|---|---|
| **Master's Level Percussion Applied Study** | | |
| 2 semesters, 4 credits each semester | | 8 |
| MUS PERF 527 | Masters Level-Percussion | |
| **Recital** | | |
| Enroll in this course in place of Master's Level Applied Study in the recital semester. | | 4 |
| MUS PERF 990 | Masters Recital | |
| **Literature** | | |
| MUSIC 346 | Repertoire (taken once for 2 credits) | 2 |
| or MUSIC 550 | Percussion Literature | |
| **Ensemble** | | |
| 2 semesters required | | 2 |
| MUSIC 568 | Advanced Ensemble-Percussion [2] | |
| **Large Performance Ensemble** | | |
| 2 semesters required. Select from the following: | | 2 |
| MUSIC 570 | University Symphony Orchestra | |
| MUSIC 574 | Wind Ensemble | |
| MUSIC 576 | Concert Band | |
| **Musicology and Music Theory** | | |
| At least one course must be taken in Musicology and one in Music Theory. 9 credits must be earned at UW-Madison. | | 9 |
| *Musicology* | | |
| Eligible musicology courses include the following (other courses do not fulfill this requirement unless specifically approved by the musicology faculty): | | |
| MUSIC 405 | Seminar: Cultural Study of Music | |
| MUSIC 411 | Survey of Music in the Middle Ages | |
| MUSIC 412 | Survey of Music in the Renaissance | |
| MUSIC 413 | Survey of Music in the Baroque Era | |
| MUSIC 414 | Survey of Music in the Classic Era | |
| MUSIC 415 | Survey of Music in the Romantic Era | |

| | |
|---|---|
| MUSIC 416 | Survey of Music in the Twentieth Century |
| MUSIC 419 | Music in the United States |
| MUSIC 497 | Special Topics in Music (Subject to approval of Musicology/ Ethnomusicology faculty) |
| MUSIC 511 | Historical Performance Practices |
| MUSIC 513 | Survey of Opera |
| MUSIC/ FOLKLORE 515 | Proseminar in Ethnomusicology |
| MUSIC/ FOLKLORE 516 | Ethnographic Methods for Music and Sound |
| MUSIC 821 | Historical Music Theories 1 |
| MUSIC 822 | Historical Music Theories 2 |
| MUSIC 911 | Seminar in Musicology |

*Music Theory*

Eligible music theory courses include the following (Other courses do not fulfill this requirement unless specifically approved by the music theory faculty):

| | |
|---|---|
| MUSIC 497 | Special Topics in Music (Subject to approval of Music Theory faculty) |
| MUSIC 523 | Orchestration I |
| MUSIC 621 | Renaissance Polyphony |
| MUSIC 622 | Baroque Counterpoint |
| MUSIC 623 | Form and Analysis |
| MUSIC 624 | Form and Analysis II |
| MUSIC 629 | Jazz Theory and Analysis |
| MUSIC 821 | Historical Music Theories 1 |
| MUSIC 822 | Historical Music Theories 2 |
| MUSIC 823 | Schenkerian Analysis |
| MUSIC/ FOLKLORE 915 | Seminar in Ethnomusicology |
| MUSIC 927 | Seminar in Composition |

**Elective courses**

| | |
|---|---|
| With advisor approval, choose courses in any department numbered 300 or above. | 7 |
| **Total Credits** | **34** |

[1] These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

[2] With permission of the percussion faculty, other ensembles may substitute for MUSIC 568 Advanced Ensemble-Percussion.

## Piano Performance Path [1]

| Code | Title | Credits |
|---|---|---|
| **Master's Level Piano Applied Study** | | |
| 2 semesters minimum, 4 credits each semester | | 8 |
| MUS PERF 501 | Masters Level-Piano | |
| **Recitals** | | |
| Enroll in these courses in place of Master's Level Piano in the recital semesters—there are two recitals. | | 8 |
| *For the Solo Recital:* | | |
| MUS PERF 990 | Masters Recital (solo recital, taken for 4 credits) | |
| *For the Chamber Music Recital:* | | |
| MUS PERF 990 | Masters Recital (taken for 2 credits) | |
| MUS PERF 542 | Masters Level Collaborative Piano (taken for 2 credits) | |
| **Piano Pedagogy** | | |
| Select from the following courses: | | 3 |
| MUSIC 551 | Class Piano Pedagogy | |
| MUSIC 751 | Seminar in Piano Pedagogy (topics course; may be repeated for credit) | |
| **Piano Literature** | | |
| Select from the following courses: | | 3 |
| MUSIC 791 | Seminar in Piano Literature | |
| MUSIC 346 | Repertoire | |
| MUSIC 796 | Seminar in Duo Sonata Literature | |
| **Musicology and Music Theory Courses** | | |
| At least one course must be taken in Musicology and one in Music Theory. 9 credits must be earned at UW-Madison. | | 9 |
| *Musicology* | | |
| Eligible musicology courses include the following (other courses do not fulfill this requirement unless specifically approved by the musicology faculty): | | |
| MUSIC 405 | Seminar: Cultural Study of Music | |
| MUSIC 411 | Survey of Music in the Middle Ages | |
| MUSIC 412 | Survey of Music in the Renaissance | |
| MUSIC 413 | Survey of Music in the Baroque Era | |
| MUSIC 414 | Survey of Music in the Classic Era | |
| MUSIC 415 | Survey of Music in the Romantic Era | |
| MUSIC 416 | Survey of Music in the Twentieth Century | |
| MUSIC 419 | Music in the United States | |
| MUSIC 497 | Special Topics in Music (Subject to approval of Musicology/ Ethnomusicology faculty) | |
| MUSIC 511 | Historical Performance Practices | |
| MUSIC 513 | Survey of Opera | |
| MUSIC/ FOLKLORE 515 | Proseminar in Ethnomusicology | |
| MUSIC/ FOLKLORE 516 | Ethnographic Methods for Music and Sound | |
| MUSIC 821 | Historical Music Theories 1 | |
| MUSIC 822 | Historical Music Theories 2 | |
| MUSIC 911 | Seminar in Musicology | |
| MUSIC/ FOLKLORE 915 | Seminar in Ethnomusicology | |
| *Music Theory* | | |
| Eligible music theory courses include the following (other courses do not fulfill this requirement unless specifically approved by the music theory faculty): | | |
| MUSIC 523 | Orchestration I | |
| MUSIC 497 | Special Topics in Music (Subject to approval of Music Theory faculty) | |
| MUSIC 629 | Jazz Theory and Analysis | |

| | | |
|---|---|---|
| MUSIC 621 | Renaissance Polyphony | |
| MUSIC 622 | Baroque Counterpoint | |
| MUSIC 623 | Form and Analysis | |
| MUSIC 624 | Form and Analysis II | |
| MUSIC 821 | Historical Music Theories 1 | |
| MUSIC 822 | Historical Music Theories 2 | |
| MUSIC 823 | Schenkerian Analysis | |
| MUSIC 921 | Current Issues in Musical Thought 1 | |
| MUSIC 927 | Seminar in Composition | |
| **Elective credits** | | |
| With advisor approval, choose courses in any department numbered 300 or above. | | 3 |
| **Total Credits** | | **34** |

## Piano Performance and Pedagogy Path [1]

| Code | Title | Credits |
|---|---|---|
| **Master's Level Piano Applied Study** | | |
| At least one semester of the following course (4 credits): | | 4 |
| MUS PERF 501 | Masters Level-Piano | |
| At least an additional 4 credits selected from the following: | | 4 |
| MUS PERF 501 | Masters Level-Piano | |
| MUS PERF 542 | Masters Level Collaborative Piano (2-credit course, may be repeated for a total of 4 credits) | |
| **Recital** | | |
| Enroll in this course in the recital semester instead of MUS PERF 501 or MUS PERF 542. | | 4 |
| MUS PERF 990 | Masters Recital | |
| **Pedagogy** | | |
| Complete 8 credits; any combination of the following courses: | | 8 |
| MUSIC 551 | Class Piano Pedagogy | |
| MUSIC 751 | Seminar in Piano Pedagogy | |
| MUSIC 752 | Piano Pedagogy Workshop | |
| DANCE 560 | Current Topics in Dance: Workshop (Feldenkrais for Performing Artists, 1 credit) | |
| CURRIC/ MUSIC 946 | Past Perspectives on Music Education | |
| CURRIC 947 | Current Issues in Music Education | |
| **Final Project** | | |
| MUSIC 799 | Independent Work | 1 |
| **Practicum** | | |
| MUSIC 560 | Practicum in Advanced Studio Teaching-Piano | 1 |
| **Piano Literature** | | |
| Complete 3 credits; select from the following: | | 3 |
| MUSIC 346 | Repertoire | |
| MUSIC 791 | Seminar in Piano Literature | |
| MUSIC 796 | Seminar in Duo Sonata Literature | |
| **Musicology and Music Theory** | | |
| At least one course must be taken in Musicology and one in Music Theory. 9 credits must be earned at UW-Madison. | | 9 |
| *Musicology* | | |
| Eligible musicology courses include the following (other courses do not fulfill this requirement unless specifically approved by the musicology faculty): | | |
| MUSIC 405 | Seminar: Cultural Study of Music | |
| MUSIC 411 | Survey of Music in the Middle Ages | |
| MUSIC 412 | Survey of Music in the Renaissance | |
| MUSIC 413 | Survey of Music in the Baroque Era | |
| MUSIC 414 | Survey of Music in the Classic Era | |
| MUSIC 415 | Survey of Music in the Romantic Era | |
| MUSIC 416 | Survey of Music in the Twentieth Century | |
| MUSIC 419 | Music in the United States | |
| MUSIC 511 | Historical Performance Practices | |
| MUSIC 513 | Survey of Opera | |
| MUSIC/ FOLKLORE 515 | Proseminar in Ethnomusicology | |
| MUSIC/ FOLKLORE 516 | Ethnographic Methods for Music and Sound | |
| MUSIC 821 | Historical Music Theories 1 | |
| MUSIC 822 | Historical Music Theories 2 | |
| MUSIC 911 | Seminar in Musicology | |
| MUSIC/ FOLKLORE 915 | Seminar in Ethnomusicology | |
| *Music Theory* | | |
| Eligible music theory courses include the following (other courses do not fulfill this requirement unless specifically approved by the music theory faculty): | | |
| MUSIC 523 | Orchestration I | |
| MUSIC 621 | Renaissance Polyphony | |
| MUSIC 622 | Baroque Counterpoint | |
| MUSIC 623 | Form and Analysis | |
| MUSIC 624 | Form and Analysis II | |
| MUSIC 821 | Historical Music Theories 1 | |
| MUSIC 822 | Historical Music Theories 2 | |
| MUSIC 823 | Schenkerian Analysis | |
| MUSIC 921 | Current Issues in Musical Thought 1 | |
| MUSIC 927 | Seminar in Composition | |
| **Total Credits** | | **34** |

## String Performance Path [1]

| Code | Title | Credits |
|---|---|---|
| **String Instrument Applied Study** | | |
| Enroll in the course corresponding to the major instrument. 2 semesters minimum, 4 credits each semester: | | 8 |

| | | |
|---|---|---|
| MUS PERF 531 | Masters Level-Violin | |
| MUS PERF 533 | Masters Level-Viola | |
| MUS PERF 535 | Masters Level-Cello | |
| MUS PERF 537 | Master's Level Double Bass | |
| **Recital** | | |
| Enroll in this course in place of Master's Level Applied Study in the recital semester. | | 4 |
| MUS PERF 990 | Masters Recital | |
| **Ensemble** | | |
| Choose from the following two courses; must include at least 2 credits of Symphony Orchestra. | | 4 |
| MUSIC 570 | University Symphony Orchestra | |
| MUSIC 569 | Advanced Ensemble-String | |
| **Pedagogy** | | |
| Complete 2 credits; select from the following courses: | | 2 |
| MUSIC 543 | Advanced String Pedagogy | |
| MUSIC 544 | Advanced String Pedagogy | |
| MUSIC 540 | Advanced Pedagogy (instrumental) | |
| DANCE 560 | Current Topics in Dance: Workshop (Feldenkrais for Performing Musicians) | |
| **Literature** | | |
| MUSIC 546 | String Literature | 2 |
| or MUSIC 796 | Seminar in Duo Sonata Literature | |
| **Musicology and Music Theory Courses** | | |
| At least one course must be taken in Musicology and one in Music Theory. 9 credits must be earned at UW-Madison. | | 9 |
| *Musicology* | | |
| Eligible musicology courses include the following (other courses do not fulfill this requirement unless specifically approved by the musicology faculty): | | |
| MUSIC 405 | Seminar: Cultural Study of Music | |
| MUSIC 411 | Survey of Music in the Middle Ages | |
| MUSIC 412 | Survey of Music in the Renaissance | |
| MUSIC 413 | Survey of Music in the Baroque Era | |
| MUSIC 414 | Survey of Music in the Classic Era | |
| MUSIC 415 | Survey of Music in the Romantic Era | |
| MUSIC 416 | Survey of Music in the Twentieth Century | |
| MUSIC 419 | Music in the United States | |
| MUSIC 497 | Special Topics in Music (Subject to approval of Musicology/ Ethnomusicology area) | |
| MUSIC 511 | Historical Performance Practices | |
| MUSIC 513 | Survey of Opera | |
| MUSIC/ FOLKLORE 515 | Proseminar in Ethnomusicology | |
| MUSIC/ FOLKLORE 516 | Ethnographic Methods for Music and Sound | |
| MUSIC 821 | Historical Music Theories 1 | |
| MUSIC 822 | Historical Music Theories 2 | |
| MUSIC 911 | Seminar in Musicology | |
| MUSIC/ FOLKLORE 915 | Seminar in Ethnomusicology | |
| *Music Theory* | | |
| Eligible music theory courses include the following (other courses do not fulfill this requirement unless specifically approved by the music theory faculty): | | |
| MUSIC 497 | Special Topics in Music (Subject to approval of Music Theory area) | |
| MUSIC 523 | Orchestration I | |
| MUSIC 621 | Renaissance Polyphony | |
| MUSIC 622 | Baroque Counterpoint | |
| MUSIC 623 | Form and Analysis | |
| MUSIC 624 | Form and Analysis II | |
| MUSIC 629 | Jazz Theory and Analysis | |
| MUSIC 821 | Historical Music Theories 1 | |
| MUSIC 822 | Historical Music Theories 2 | |
| MUSIC 823 | Schenkerian Analysis | |
| MUSIC 921 | Current Issues in Musical Thought 1 | |
| MUSIC 927 | Seminar in Composition | |
| **Elective courses** | | |
| With advisor approval, choose courses in any department numbered 300 or above. | | 5 |
| **Total Credits** | | **34** |

[1] These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

## Vocal Performance Path [1]

| Code | Title | Credits |
|---|---|---|
| **Master's Level Voice Applied Study** | | |
| 2 semesters minimum, 4 credits each semester | | 8 |
| MUS PERF 505 | Masters Level-Voice | |
| **Recital** | | |
| Enroll in this course in place of Master's Level Applied Study in the recital semester. | | 4 |
| MUS PERF 990 | Masters Recital | |
| **Advanced Diction [2]** | | |
| MUSIC 467 | Language Diction for Singing I [3] | 2 |
| MUSIC 468 | Language Diction for Singing II [3] | 2 |
| **Vocal Literature** | | |
| MUSIC 346 | Repertoire [4] | 2 |
| MUSIC 792 | Seminar in Vocal Literature [3] | 3 |
| **Vocal Pedagogy** | | |
| MUSIC 749 | Seminar in Vocal Techniques [3] | 2 |
| **Ensemble** | | |
| Complete 2 credits; select from the following courses: [5] | | 2 |
| MUSIC 461 | Collegium Musicum | |
| MUSIC 556 | University Opera | |
| MUSIC 578 | Concert Choir | |
| MUSIC 557 | Opera Workshop | |
| **Musicology and Music Theory Courses** | | |
| At least one course must be taken in Musicology and one in Music Theory. 9 credits must be earned at UW-Madison. | | 9 |
| *Musicology* | | |

| | |
|---|---|
| Eligible musicology courses include the following (other ensembles may be eligible for this requirement, with voice faculty approval): | |
| MUSIC 405 | Seminar: Cultural Study of Music |
| MUSIC 411 | Survey of Music in the Middle Ages |
| MUSIC 412 | Survey of Music in the Renaissance |
| MUSIC 413 | Survey of Music in the Baroque Era |
| MUSIC 414 | Survey of Music in the Classic Era |
| MUSIC 415 | Survey of Music in the Romantic Era |
| MUSIC 416 | Survey of Music in the Twentieth Century |
| MUSIC 419 | Music in the United States |
| MUSIC 497 | Special Topics in Music (Subject to approval of Musicology/ Ethnomusicology area) |
| MUSIC 511 | Historical Performance Practices |
| MUSIC 513 | Survey of Opera |
| MUSIC/ FOLKLORE 515 | Proseminar in Ethnomusicology |
| MUSIC/ FOLKLORE 516 | Ethnographic Methods for Music and Sound |
| MUSIC 821 | Historical Music Theories 1 |
| MUSIC 822 | Historical Music Theories 2 |
| MUSIC 911 | Seminar in Musicology |
| MUSIC/ FOLKLORE 915 | Seminar in Ethnomusicology |
| *Music Theory* | |
| Eligible music theory courses include the following (other courses do not fulfill this requirement unless specifically approved by the music theory faculty): | |
| MUSIC 497 | Special Topics in Music (Subject to approval of Music Theory faculty) |
| MUSIC 523 | Orchestration I |
| MUSIC 621 | Renaissance Polyphony |
| MUSIC 622 | Baroque Counterpoint |
| MUSIC 623 | Form and Analysis |
| MUSIC 624 | Form and Analysis II |
| MUSIC 629 | Jazz Theory and Analysis |
| MUSIC 821 | Historical Music Theories 1 |
| MUSIC 822 | Historical Music Theories 2 |
| MUSIC 823 | Schenkerian Analysis |
| MUSIC 921 | Current Issues in Musical Thought 1 |
| MUSIC 927 | Seminar in Composition |
| **Language Proficiency** | |
| Prior to graduation the voice and opera faculty must certify that a candidate has a level of proficiency in French, Italian, and German that is equivalent to successfully completing one semester of college-level coursework in all three languages plus a second of one of these languages (a total of four semesters of college-level study). The major professor in voice and the director of opera will determine proficiency through review of prior coursework and/or proficiency examination. | |
| Consult the voice faculty and the director of graduate studies for information on ways in which the language proficiency requirement may be satisfied. | |
| **Total Credits** | **34** |

1 These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

2 All or part of this requirement may be fulfilled, should the student's diction proficiency is satisfactory in certain languages. The voice faculty will review past diction study or administer a qualifying examination to determine proficiency.

3 Consult the graduate office or the voice faculty for information on the schedule for planned offerings of this course.

4 May be fulfilled with prior equivalent study (undergraduate or graduate).

5 Other ensembles may be eligible for this requirement, with voice faculty approval.

## Wind Conducting Path [1]

| Code | Title | Credits |
|---|---|---|
| **Conducting Applied Study** | | |
| 4 semesters, 2 credits each. The final semester of lessons will include a capstone project and presentation in studio class. | | 8 |
| MUS PERF 532 | Advanced Conducting | |
| **Recital** | | |
| MUS PERF 990 | Masters Recital (variable credit, may consist of one or more recitals) | 2 |
| **Conducting Laboratory** | | |
| 4 semesters required | | 4 |
| MUSIC 632 | Graduate Instrumental Conducting Laboratory | |
| **Wind Ensemble or Concert Band** | | |
| Select from the following; 2 semesters minimum required. | | 2 |
| MUSIC 574 | Wind Ensemble | |
| MUSIC 576 | Concert Band | |
| **Musicology and Music Theory** | | |
| Three courses, to include one course in Musicology and one course in Music Theory from approved course list. | | 9 |
| *Musicology* | | |
| Eligible musicology courses include (other courses do not fulfill this requirement unless specifically approved by the musicoloygy faculty): | | |
| MUSIC 405 | Seminar: Cultural Study of Music | |
| MUSIC 411 | Survey of Music in the Middle Ages | |
| MUSIC 412 | Survey of Music in the Renaissance | |
| MUSIC 413 | Survey of Music in the Baroque Era | |
| MUSIC 414 | Survey of Music in the Classic Era | |
| MUSIC 415 | Survey of Music in the Romantic Era | |
| MUSIC 416 | Survey of Music in the Twentieth Century | |
| MUSIC 419 | Music in the United States | |
| MUSIC 497 | Special Topics in Music (Subject to approval of Musicology/ Ethnomusicology area) | |

| | |
|---|---|
| MUSIC 511 | Historical Performance Practices |
| MUSIC 513 | Survey of Opera |
| MUSIC/ FOLKLORE 515 | Proseminar in Ethnomusicology |
| MUSIC/ FOLKLORE 516 | Ethnographic Methods for Music and Sound |
| MUSIC 821 | Historical Music Theories 1 |
| MUSIC 822 | Historical Music Theories 2 |
| MUSIC 911 | Seminar in Musicology |
| MUSIC/ FOLKLORE 915 | Seminar in Ethnomusicology |
| *Music Theory* | |
| Eligible music theory courses include the following (other courses do not fulfill this requirement unless specifically approved by the music theory faculty): | |
| MUSIC 497 | Special Topics in Music (Subject to approval of Music Theory area) |
| MUSIC 523 | Orchestration I |
| MUSIC 629 | Jazz Theory and Analysis |
| MUSIC 621 | Renaissance Polyphony |
| MUSIC 622 | Baroque Counterpoint |
| MUSIC 623 | Form and Analysis |
| MUSIC 624 | Form and Analysis II |
| MUSIC 821 | Historical Music Theories 1 |
| MUSIC 822 | Historical Music Theories 2 |
| MUSIC 823 | Schenkerian Analysis |
| MUSIC 921 | Current Issues in Musical Thought 1 |
| MUSIC 927 | Seminar in Composition |
| **Elective courses** | |
| Advisor and major professor approved, from the following list: | 9 |
| M H R/ INTEGART 632 | Introduction to Arts Entrepreneurship |
| M H R/ INTEGART 636 | Entrepreneurship in Arts & Cultural Organizations |
| M H R 773 | Seminar-Arts Administration |
| M H R 774 | Seminar-Arts Administration |
| M H R 744 | Nonprofit Governance & Board Membership |
| MUSIC 466 | Diction for Singers |
| MUSIC 497 | Special Topics in Music (Aural Skills, 1 credit) |
| MUSIC 608 | Music Community Engagement |
| DANCE 699 | Independent Project (Students attend DANCE 157 and have unique garduate-level projects and requirements.) |
| THEATRE 619 | Special Topics in Theatre and Drama (Students attend THEATRE 150 and have unique garduate-level projects and requirements.) |
| Master's Level Applied Instrumental Lessons (course numbers and credits vary). With advisor approval, courses in the School of Music numbered 300 or above. | |
| **Total Credits** | **34** |

[1] These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

## Woodwind Performance Path [1]

| Code | Title | Credits |
|---|---|---|
| **Master's Level Woodwind Instrument Applied Study** | | |
| Select the course corresponding to the major instrument; 2 semesters minimum, 4 credits each semester. | | 8 |
| MUS PERF 507 | Masters Level-Flute | |
| MUS PERF 509 | Masters Level-Oboe | |
| MUS PERF 511 | Masters Level-Clarinet | |
| MUS PERF 513 | Masters Level-Saxophone | |
| MUS PERF 515 | Masters Level-Bassoon | |
| **Recital** | | |
| Enroll for this course in place of Master's Level Applied Study in the recital semester. | | 4 |
| MUS PERF 990 | Masters Recital | |
| **Large Performance Ensemble** | | |
| Complete 2 credits from following: | | 2 |
| MUSIC 570 | University Symphony Orchestra | |
| MUSIC 574 | Wind Ensemble | |
| MUSIC 576 | Concert Band | |
| **Small Performance Ensemble** | | |
| Select from the following; 2 semesters required. | | 2 |
| MUSIC 565 | Advanced Ensemble-Woodwind | |
| **Musicology and Music Theory Courses** | | |
| At least one course must be taken in Musicology and one in Music Theory. 9 credits must be earned at UW-Madison. | | 9 |
| *Musicology* | | |
| Eligible musicology courses include the following (other courses do not fulfill this requirement unless specifically approved by the musicology faculty): | | |
| MUSIC 405 | Seminar: Cultural Study of Music | |
| MUSIC 411 | Survey of Music in the Middle Ages | |
| MUSIC 412 | Survey of Music in the Renaissance | |
| MUSIC 413 | Survey of Music in the Baroque Era | |
| MUSIC 414 | Survey of Music in the Classic Era | |
| MUSIC 415 | Survey of Music in the Romantic Era | |
| MUSIC 416 | Survey of Music in the Twentieth Century | |
| MUSIC 419 | Music in the United States | |
| MUSIC 497 | Special Topics in Music (Subject to approval of Musicology/ Ethnomusicology area) | |
| MUSIC 511 | Historical Performance Practices | |
| MUSIC 513 | Survey of Opera | |
| MUSIC/ FOLKLORE 515 | Proseminar in Ethnomusicology | |

| | | |
|---|---|---|
| MUSIC/ FOLKLORE 516 | Ethnographic Methods for Music and Sound | |
| MUSIC 821 | Historical Music Theories 1 | |
| MUSIC 822 | Historical Music Theories 2 | |
| MUSIC 911 | Seminar in Musicology | |
| MUSIC/ FOLKLORE 915 | Seminar in Ethnomusicology | |
| *Music Theory* | | |
| Eligible music theory courses include the following (Other courses do not fulfill this requirement unless specifically approved by the music theory faculty): | | |
| MUSIC 497 | Special Topics in Music (Subject to approval of Music Theory area) | |
| MUSIC 523 | Orchestration I | |
| MUSIC 621 | Renaissance Polyphony | |
| MUSIC 622 | Baroque Counterpoint | |
| MUSIC 623 | Form and Analysis | |
| MUSIC 624 | Form and Analysis II | |
| MUSIC 629 | Jazz Theory and Analysis | |
| MUSIC 823 | Schenkerian Analysis | |
| MUSIC 921 | Current Issues in Musical Thought 1 | |
| MUSIC 927 | Seminar in Composition | |
| **Elective courses** | | |
| With advisor approval, choose courses in any department numbered 300 or above. | | 9 |
| **Total Credits** | | **34** |

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy. Students may transfer up to 9 credits with faculty approval. Additional credits may transfer with department curriculum committee approval.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy. The Mead Witter School of Music faculty rarely approve these transfer requests.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special student at UW–Madison

The program allows up to 6 credits of UW-Madison University Special student credit to transfer. Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

## PROBATION

MM students who fail to make satisfactory progress in any of the four following areas: grades, course load, time limits, or exams, will be notified in writing by the director of graduate studies. At the end of the second semester of failing to make satisfactory progress the student is placed on probation effective the next semester. This action suspends financial aid (but does not affect loans or work-study). See details in the Satisfactory Progress for Master's Students (https://kb.wisc.edu/mwsomkb/114465/).

## ADVISOR / COMMITTEE

All programs provide for faculty from several disciplines to follow the student's progress through the degree, provide mentorship along the way, and assess the student's success in reaching expected learning outcomes. The principal advisor for most graduate students in the Mead Witter School of Music is generally referred to as the major professor. In all programs the major professor is determined with the student's particular interests in mind. In music performance programs, the faculty attempts, whenever possible. to assign the major professor based upon a student's request.

The director of graduate studies is also an advisor for all graduate students in Mead Witter School of Music programs. Students are expected to consult with the director of graduate studies at least once per semester to determine appropriate course plans. Consultation is mandatory in the semester before intended graduation.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

MM and MA students not receiving University funding are expected to complete requirements and pass comprehensive examinations within seven years from the time of enrollment in the program. While graduate students may enroll on a part-time basis, this time constraint still applies.

All MM and MA students holding teaching assistant, project assistant, or fellowship appointments must complete requirements for the degree within four semesters (not counting summer sessions or thesis credits). If the appointment is more than 33.4% the expectation is to complete requirements in the sixth semester.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## L&S POLICY FOR GRADUATE STUDENT ACADEMIC APPEALS

Graduate students have the right to appeal an academic decision related to an L&S graduate program if the student believes that the decision is inconsistent with published policy.

Academic decisions that may be appealed include:

- Dismissal from the graduate program
- Failure to pass a qualifying or preliminary examination
- Failure to achieve satisfactory academic progress
- Academic disciplinary action related to failure to meet professional conduct standards

Issues such as the following cannot be appealed using this process:

- A faculty member declining to serve as a graduate student's advisor.
- Decisions regarding the student's disciplinary knowledge, evaluation of the quality of work, or similar judgements. These are the domain of the department faculty.
- Course grades. These can be appealed instead using the L&S Policy for Grade Appeal (https://kb.wisc.edu/ls/22258/).
- Incidents of bias or hate, hostile and intimidating behavior (https://hr.wisc.edu/hib/), or discrimination (Title IX (https://compliance.wisc.edu/titleix/), Office of Compliance (https://compliance.wisc.edu/eo-complaint/formal-investigations/)). Direct these to the linked campus offices appropriate for the incident(s).

### Appeal Process for Graduate Students

A graduate student wishing to appeal an academic decision must follow the process in the order listed below. Note time limits within each step.

1. The student should first seek informal resolution, if possible, by discussing the concern with their academic advisor, the department's Director of Graduate Studies, and/or the department chair.
2. If the program has an appeal policy listed in their graduate program handbook, the student should follow the policy as written, including adhering to any indicated deadlines. In the absence of a specific departmental process, the chair or designee will be the reviewer and decision maker, and the student should submit a written appeal to the chair within 15 business days of the academic decision. The chair or designee will notify the student in writing of their decision.
3. If the departmental process upholds the original decision, the graduate student may next initiate an appeal to L&S. To do so, the student must submit a written appeal to the L&S Assistant Dean for Graduate Student Academic Affairs within 15 business days of notification of the department's decision.
   a. To the fullest extent possible, the written appeal should include, in a single document: a clear and concise statement of the academic decision being appealed, any relevant background on what led to the decision, the specific policies involved, the relief sought, any relevant documentation related to the departmental appeal, and the names and titles of any individuals contributing to or involved in the decision.
   b. The Assistant Dean will work with the Academic Associate Dean of the appropriate division to consider the appeal. They may seek additional information and/or meetings related to the case.
   c. The Assistant Dean and Academic Associate Dean will provide a written decision within 20 business days.
4. If L&S upholds the original decision, the graduate student may appeal to the Graduate School. More information can be found on their website: Grievances and Appeals (https://grad.wisc.edu/documents/grievances-and-appeals/) (see: Graduate School Appeal Process).

# PROFESSIONAL DEVELOPMENT

## PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

### COLLEGE OF LETTERS AND SCIENCE RESOURCES

The College of Letters and Science's SuccessWorks (https://successworks.wisc.edu/) program can assist with professional development and with identifying opportunities.

LEARNING OUTCOMES

## LEARNING OUTCOMES

1. Communicates well-developed musical ideas clearly and energetically in performance and, where applicable, in compositions.
2. Demonstrates knowledge of appropriate stylistic details in performance of music from a variety of historical periods and cultural origins.
3. Draws upon extensive understanding of a variety of musical cultures and historical periods for the preparation of a performance or a composition.
4. Selects the most appropriate methods of technique or notation to achieve the intended result in performance.
5. Shows ability to express, verbally and in writing, musical ideas and interpretive conclusions to peers and colleagues.
6. Recognizes and applies principles of ethical and professional conduct.
7. Respects colleagues and values contributions of others in collaborative endeavors.

ACCREDITATION

## ACCREDITATION

The University of Wisconsin-Madison is an accredited institutional member of the National Association of Schools of Music (https://nasm.arts-accredit.org/) (NASM) since 1966.

Accreditation status: Accredited. Next accreditation review: 2032-2033

## DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/ PROFESSIONAL CERTIFICATES

- Engineering Mechanics, Doctoral Minor (p. 1401)
- Engineering Mechanics, MS (p. 1402)
- Engineering Mechanics, PhD (p. 1414)
- Mechanical Engineering, Doctoral Minor (p. 1421)
- Mechanical Engineering, MS (p. 1421)
- Mechanical Engineering, PhD (p. 1436)

# ENGINEERING MECHANICS, DOCTORAL MINOR

ADMISSIONS

## ADMISSIONS

Students interested in earning the Engineering Mechanics doctoral minor should first contact the Engineering Mechanics Graduate Coordinator to learn the requirements, process, and complete the required paperwork.

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any doctoral minor. To apply to this minor, log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. Select the information for the doctoral minor.

REQUIREMENTS

## REQUIREMENTS

Students must fulfill the following requirements to earn a doctoral minor.

1. Earn a minimum of 10 credits in Engineering Mechanics (E M A (https://guide.wisc.edu/courses/e_m_a/)) courses, including 3 credits in courses numbered 700 or above.
   a. All courses used for the minor must be numbered 300 or above taken after a bachelor's degree has been completed.
   b. Ordinarily only one course (maximum of 3 credits) of independent study is allowed (E M A 599 Independent Study).
   c. Research and thesis courses may not satisfy minor requirements.
   d. No more than 5 credits completed five or more years prior to admission to the PhD major may satisfy minor requirements.
   e. Courses taken 10 or more years ago may not satisfy minor requirements.
   f. Courses taken pass/fail or for audit may not satisfy minor requirements.
   g. Courses with grades of S given in courses graded on a credit/no credit basis are acceptable.
2. Maintain a GPA of 3.0 for the minor.

### APPROVAL FORM

The minor program must be approved by the Department of Mechanical Engineering Associate Chair for Graduate Studies. The approval form is available from the College of Engineering: Department of Mechanical Engineering Intranet site (NetID required) here (https://intranet.engineering.wisc.edu/mechanical-engineering/current-student-resources/) or please contact Engineering Mechanics Graduate Coordinator (emgradadmission@engr.wisc.edu).

### ENGINEERING MECHANICS MS

A student who has earned an MS degree in Engineering Mechanics (and is currently in a different doctoral program) will be considered to have fulfilled the minor requirements.

### PRIOR COURSEWORK

Up to six credits of coursework completed at other institutions may transfer and be applied towards minor requirements.

# ENGINEERING MECHANICS, MS

The master of science and doctor of philosophy degrees in engineering mechanics are offered within a graduate program covering contemporary areas in both theoretical and applied mechanics. With the guidance of a major professor, a program can be designed to meet an individual student's needs and interests.

The Department of Mechanical Engineering offers two distinct master of science (MS) degree programs in Engineering Mechanics:

- Engineering Mechanics MS, Research (p. 1408) – traditional master's program culminating in a thesis for students with an undergraduate background in mechanics
- Engineering Mechanics MS, Aerospace Engineering Option (p. 1403) - an accelerated coursework-only program, where students will learn advanced mechanics topics pertaining to the aerospace field

## ADMISSIONS

## ADMISSIONS

Students apply to the Master of Science in Engineering Mechanics through one of the named options:

- Research (p. 1408)
- Aerospace Engineering (p. 1403)

## FUNDING

## FUNDING

### GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

### PROGRAM RESOURCES

Program specific funding information may be reviewed through one of the named options:

- Research (p. 1408)
- Aerospace Engineering (p. 1403)

## REQUIREMENTS

## MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

## MAJOR REQUIREMENTS

### CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 15 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required.<br>Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | Students must earn a C or above in all formal coursework.<br><br>Students may not have more than two incompletes on their record at any one time. |
| Assessments and Examinations | See Named Options for policy information. |
| Language Requirements | No language requirements. |

### REQUIRED COURSES

Select a Named Option (p. 1402) for courses required.

## NAMED OPTIONS

A named option is a formally documented sub-major within an academic major program. Named options appear on the transcript with degree conferral. Students pursuing the Master of Science in Engineering Mechanics must select one of the following named options:

View as listView as grid

- **ENGINEERING MECHANICS: AEROSPACE ENGINEERING, MS (P. 1403)**
- **ENGINEERING MECHANICS: RESEARCH, MS (P. 1408)**

## POLICIES

## POLICIES

Students should refer to one of the named options for policy information:

- Research (p. 1408)
- Aerospace Engineering (p. 1403)

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Demonstrate a strong understanding of mathematical, scientific, and engineering principles in the field.
2. Demonstrate an ability to formulate, analyze, and independently solve advanced engineering problems.
3. Apply the relevant scientific and technological advancements, techniques, and engineering tools to address these problems.
4. Recognize and apply principles of ethical and professional conduct.

# ENGINEERING MECHANICS: AEROSPACE ENGINEERING, MS

This is a named option within the Engineering Mechanics, MS (p. 1402).

The Aerospace Engineering named option of the Master of Science degree in Engineering Mechanics is an accelerated coursework-only program, where students will learn advanced mechanics topics pertaining to the aerospace field. The curriculum is structured around the areas of fluid and thermal sciences, rigid-body dynamics, structural dynamics, aerospace mechanics and materials, and computation. The Master of Science degree in Engineering Mechanics - Aerospace Engineering program is a rigorous masters-level program intended to be completed in 16 months.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements (https://grad.wisc.edu/apply/requirements/) *of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 15 |
| Spring Deadline | September 1 |
| Summer Deadline | This program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required.* |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3** |

* Submitted scores will not be used in admission decisions.

** Applicants earning a BS degree from UW-Madison are not required to obtain any letters of recommendation. Within the Graduate School application, in the letters of recommendation section, applicants must enter three contacts to submit the application. However, these contacts do not need to submit letters.

### APPLICANT CONSIDERATIONS

Applicants to our program should have the following:

1. **Degree**
   a. Bachelor of Science in engineering, mathematics, or physical science and an undergraduate record that indicates an ability to successfully pursue graduate study.
   b. International applicants must have a degree comparable to a regionally accredited US bachelor's degree. Review the Graduate School webpage (https://grad.wisc.edu/apply/requirements/) to learn more about comparable degrees by country.
2. **GPA**
   a. The minimum required GPA is 3.0/4.0 on the equivalent of the last 60 semester hours from the most recent bachelor's degree or a completed master's degree with a minimum of 3.0/4.0.

### APPLICATION MATERIALS

In addition to the items listed in the table above, a complete application includes the following uploaded to the online application. The submitted application and all application items are due by the deadline above.

1. **Unofficial Transcripts (PDF)**
   a. Most up-to-date unofficial transcript(s) from all previous higher education institutions, regardless of whether a degree was earned. Official transcripts are only requested of recommended applicants.
   b. International academic records must be in the original language accompanied by an official English translation. Review the minimum requirements link above to learn more.
2. **Statement of Purpose**
   a. In this document, applicants should explain why they want to pursue further education in Engineering Mechanics and specifically this program.
   b. The program does not have a required font, word limit, etc. However, we do recommend (not require) a maximum of 2 pages.
   c. See the Graduate School for more advice on how to structure a personal statement (https://grad.wisc.edu/apply/prepare/).
3. **Resume**

4. **Three Letters of Recommendation**
   a. These letters are required from people who can accurately reflect on the applicant's academics and/or work performance. It is highly recommended these letters be from faculty familiar with the applicant.
   b. Letters of recommendation are submitted electronically through the online application.
   c. See the Graduate School FAQs (https://grad.wisc.edu/apply/#FAQ) regarding letters of recommendation.
   d. See exception above for UW-Madison undergraduate students.
5. **Application Fee**
   a. Application submission must be accompanied by the application fee. See the Graduate School FAQs (https://grad.wisc.edu/apply/#FAQ) regarding fees.
   b. Fee grants are available through the conditions outlined here by the Graduate School (https://grad.wisc.edu/apply/fee-grant/).

## REENTRY ADMISSIONS

Review the Graduate School requirements for previously enrolled students (https://policy.wisc.edu/library/UW-1230/). Contact the Department of Mechanical Engineering Graduate Student Services (see Contact Box for link) with questions.

## CURRENTLY ENROLLED GRADUATE STUDENT ADMISSIONS

Students currently enrolled as graduate students at UW-Madison wishing to apply to this degree programs should contact the Department of Mechanical Engineering Graduate Student Services (see Contact Box for link) to inquire about the process and deadlines.

## QUESTIONS

Contact the Department of Mechanical Engineering Graduate Student Services (see Contact Box for link).

# FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM INFORMATION

Students enrolled in this program are not eligible to receive tuition remission from graduate assistantship appointments at this institution.

## ADDITIONAL RESOURCES

### Office of Student Financial Aid

For information regarding student financial aid, scholarships, and more, visit the Office of Student Financial Aid website (https://financialaid.wisc.edu/).

For information regarding international student funding and scholarships, visit the International Student Services website (https://iss.wisc.edu/students/new-students/funding-scholarships/).

# REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# NAMED OPTION REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | Yes |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 15 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required.<br>Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |

| | |
|---|---|
| Other Grade Requirements | Students must earn a C or above in all formal coursework.<br><br>Students may not have more than two incompletes on their record at any one time. |
| Assessments and Examinations | No formal examination required. |
| Language Requirements | No language requirements. |

## REQUIRED COURSES

This program requires a minimum of 30 credits, inclusive of the requirements in the course list below. Within the 30 credits, at least 27 credits must be formal credits. The remaining 3 credits may be formal credits or may be earned through co-op or independent study credits. (Formal credits are course offerings that are not seminar courses, thesis research courses, co-op/internship, or independent study courses.)

| Code | Title | Credits |
|---|---|---|
| **Graduate Seminar** | | |
| Two semesters of M E 903, successfully completed, are required. These should be taken during the first two semesters (Fall and Spring). | | 0 |
| M E 903 | Graduate Seminar | |
| M E 903 | Graduate Seminar | |
| **Engineering Analysis Course** | | |
| Select one: | | 3 |
| E M A/E P 547 | Engineering Analysis I | |
| or E M A/ E P 548 | Engineering Analysis II | |
| **Formal course numbered 700 and above** | | |
| Students must take at least one formal course (3 credits) in any Engineering Mechanics and Aerospace Engineering (E M A) course numbered 700 or greater. [1, 2] | | 3 |
| **Depth Requirement (Topical Areas)** | | |
| Students must complete at least two of the five topical areas below. To establish sufficient depth in aerospace sciences, the courses selected must involve completion of at least two of the five topical areas. Students should check the future course offerings plans when choosing, since not all courses are offered every year (and hence not all topical areas can be completed every year). | | 12 |
| **Additional Courses** | | |
| The additional courses required to meet the 30-credits minimum for completion of the degree must be selected from among the courses listed in the topical areas or elective course lists below. [3] | | 12 |
| **Total Credits** | | **30** |

1 Formal courses/credits are course offerings that are not seminar courses, thesis research courses, co-op/internship, or independent study courses.

2 Seminar, research, and co-op/independent courses (such as E M A 790 (https://guide.wisc.edu/search/?P=E%20M%20A%20790) Master's Research and Thesis, E M A 890 (https://guide.wisc.edu/search/?P=E%20M%20A%20890) Pre-Dissertator Research, E M A 990 (https://guide.wisc.edu/search/?P=E%20M%20A%20990) Research and Thesis, E M A 599 Independent Study and E M A 702 (https://guide.wisc.edu/search/?P=E%20M%20A%20702) Graduate Cooperative Education Program) are not eligible to satisfy this requirement.

3 With faculty advisor approval, a combined maximum of 3 credits may be satisfied through co-op/internship or independent study credits.

## TOPICAL AREAS

### Fluid and Thermal Sciences [1]

| Code | Title | Credits |
|---|---|---|
| E M A 421 | Aerodynamics [2] | 3 |
| Select one: | | 3 |
| E M A/M E 425 | Gasdynamics | |

| M E 770 | Advanced Experimental Instrumentation | 3 |
| M E 774 | Chem Kinetics of Combust Systems | 3 |

### Other Policy

Students in this program may not take courses outside the prescribed curriculum without faculty advisor and program director approval. Students in this program cannot enroll concurrently in other undergraduate or graduate degree programs.

## POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# NAMED OPTION-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With faculty advisor approval, students may transfer up to 6 credits of relevant coursework from a prior graduate program. Please review the Graduate Program Handbook (see contact box) for information about use and restrictions to this policy. Coursework earned ten or more years prior to admission is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

With faculty advisor approval, students may transfer a maximum of 7 credits from a UW-Madison undergraduate degree or an ABET-accredited undergraduate degree (from another institution). Only coursework that is applicable to the degree curriculum is eligible (based on UW-Madison course/course equivalency number). These credits will not be allowed to satisfy the minimum graduate coursework (50%) requirement unless taken in courses numbered 700 or above (UW-Madison course equivalent). No credits can be applied toward the minimum graduate residence credit requirement. Coursework earned ten or more years prior to admission is not allowed to satisfy requirements.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

With faculty advisor approval, students may transfer up to 15 credits of coursework taken as a UW–Madison University Special student toward the minimum credit requirement. Only coursework that is applicable to the degree curriculum is eligible. UW–Madison coursework taken as a University Special student would not be allowed to count toward the minimum graduate coursework (50%) requirement unless taken in courses numbered 700 or above or are taken to meet the requirements of a capstone certificate and has the "Grad 50%" designation. Coursework earned ten or more years prior to admission is not allowed to satisfy requirements.

## PROBATION

The Department of Mechanical Engineering graduate programs satisfactory academic progress policy may be reviewed in the Graduate Handbook (see Contact box for link).

## ADVISOR / COMMITTEE

Each student is required to meet with his or her advisor prior to registration every semester.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Students are expected to complete the Engineering Mechanics MS - Aerospace Engineering degree program in 16 months (i.e. Fall, Spring, Fall terms). Additional time may be granted with advisor approval.

## GRIEVANCES AND APPEALS

- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

### Department of Mechanical Engineering Grievance Procedures

If a student feels unfairly treated or aggrieved by faculty, staff, or another student, the University offers several avenues to resolve the grievance. Students' concerns about unfair treatment are best handled directly with the person responsible for the objectionable action. If the student is uncomfortable making direct contact with the individual(s) involved, they should contact the advisor or the person in charge of the unit where the action occurred (program or department chair, section chair, lab manager, etc.). Many departments and schools/colleges have established specific procedures for handling such situations; check their web pages and published handbooks for information. If such procedures exist at the local level, these should be investigated first. For more information see the Graduate School Academic Policies & Procedures: https://grad.wisc.edu/acadpolicy/?policy=grievancesandappeals. The Assistant Dean for Graduate Affairs (engr-dean-graduateaffairs@engr.wisc.edu) provides overall leadership for graduate education in the College of Engineering (CoE), and is a point of contact for graduate students who have concerns about education, mentoring, research, or other difficulties.

1. The student is encouraged to speak first with the person toward whom the grievance is directed to see if a situation can be resolved at this level.

2. Should a satisfactory resolution not be achieved, the student should contact the Associate Chair for Graduate Studies or the John Bollinger Chair of Mechanical Engineering (https://engineering.wisc.edu/departments/mechanical-engineering/people/) to discuss the grievance. The Associate Chair for Graduate Studies or Department Chair will facilitate problem resolution through informal channels and facilitate any complaints or issues of students. The first attempt is to help students informally address the grievance prior to any formal complaint. Students are also encouraged to talk with their faculty advisors regarding concerns or difficulties if necessary. University resources for sexual harassment, discrimination, disability accommodations, and other related concerns can be found on the UW Office of Compliance website (https://compliance.wisc.edu/). Other campus resources can be found above.

3. If the issue is not resolved to the student's satisfaction the student can submit the grievance to the Associate Chair for Graduate Studies in writing, within 60 calendar days of the alleged unfair treatment.

4. On receipt of a written complaint, a faculty committee will be convened by the Associate Chair for Graduate Studies to manage the grievance. The faculty committee will obtain a written response from the person toward whom the complaint is directed. This response will be shared with the person filing the grievance.

5. The faculty committee will determine a decision regarding the grievance. The Associate Chair for Graduate Studies will report on the action taken by the committee in writing to both the student and the party toward whom the complaint was directed within 15 working days from the date the complaint was received.

6. At this point, if either party (the student or the person toward whom the grievance is directed) is unsatisfied with the decision of the faculty committee, the party may file a written appeal. Either party has 10 working days to file a written appeal to the School/College.

7. Documentation of the grievance will be stored for at least 7 years. Significant grievances that set a precedent will be stored indefinitely.

The Graduate School has procedures for students wishing to appeal a grievance decision made at the school/college level. These policies are described in the Graduate School's Academic Policies & Procedures: https://grad.wisc.edu/acadpolicy/?policy=grievancesandappeals.

### OTHER

Students are strongly discouraged to pursue positions as Project Assistants, Teaching Assistants or Research Assistants during their time in this program, as the rigor and accelerated nature of this program may not accommodate those work time commitments. Students in this program will not receive the tuition remission that is typically part of the compensation package for a graduate assistantship.

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

# ENGINEERING MECHANICS: RESEARCH, MS

This is a named option within the Engineering Mechanics MS (p. 1402).

The master of science, research degree in engineering mechanics is offered within a graduate program covering contemporary areas in both theoretical and applied mechanics. With the guidance of a major professor, a program can be designed to meet an individual student's needs and interests.

This program is broadly structured into several main areas of instruction and research interests in fluid and solid mechanics: continuum mechanics, computational mechanics, dynamics and vibration, nanomechanics, and biomechanics. Related fields include civil and environmental engineering, chemical and biological engineering, electrical and computer engineering, materials science, mechanical engineering, nuclear engineering and engineering physics, physics, geological engineering and geology, mathematics, statistics, and computer science.

Current faculty research interests include contact mechanics, elastic instabilities, micromechanics, wave propagation, adhesion and friction, multi-scale and high-performance computational modeling, multi-physics mechanics and transport, biophysics, nanotechnology and nanomaterials, mechanics of soft materials, bio-inspired materials, polymer thin-films, renewable energy, and acoustic/elastic metamaterials.

Laboratories are well equipped for experimental testing and research; these include, atomic force microscopy, vibration testing, and other optical methods for experimental mechanics research. The department has access to collegewide facilities. The Wisconsin Laboratory for Structures and Materials Testing has facilities for testing large structures, fatigue and vibration labs, and complements the department's laboratories. The Nanoscale Imaging and Analysis Center provides state-of-the-art instrumentation, support facilities, and expert technical assistance for research and education in materials. Its facilities include scanning and transmission electron microscopes, image processing and analysis systems, surface and thin film characterization facilities, and x-ray diffraction facilities.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements (https://grad.wisc.edu/apply/requirements/) *of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 15 |
| Spring Deadline | September 1 |
| Summer Deadline | December 15 |
| GRE (Graduate Record Examinations) | Not required.* |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

* Submitted scores will not be used in admission decisions.

## APPLICANT CONSIDERATIONS

Applicants to our program should have the following:

1. **Degree**
   a. Bachelor of Science in engineering, mathematics, or physical science and an undergraduate record that indicates an ability to successfully pursue graduate study.
   b. International applicants must have a degree comparable to a regionally accredited US bachelor's degree. Review the Graduate School webpage (https://grad.wisc.edu/apply/requirements/) to learn more about comparable degrees by country.
2. **GPA**
   a. The minimum required GPA is 3.0/4.0 on the equivalent of the last 60 semester hours from the most recent bachelor's degree or a completed master's degree with a minimum of 3.0/4.0.
3. **Faculty Advisor**
   a. Applicants must seek out and secure their own faculty advisor as part of the application process. This may be done prior to, during, and/or after submission of the online application.
   b. To seek out a faculty advisor, review the department Research (https://engineering.wisc.edu/departments/mechanical-engineering/research/) and People (https://engineering.wisc.edu/departments/mechanical-engineering/people/)websites. Assistant Professors, Associate Professors, and Professors are eligible to be graduate advisors. *Please do not contact Emeritus faculty, lecturers, Research Scientists, or Faculty Associates.*
   c. You are encouraged to inquire about possible funding opportunities. (See Funding tab in the right-side column on this page for funding information.)
4. **Recommended Preparatory Courses**
   a. It is highly recommended applicants take courses that cover the same material as these UW-Madison courses before entering the program.
   b. Applicants may be admitted without having taken these courses, however, in such cases the applicant must inform their faculty advisor who will then help them select the correct courses to include the required background for the program.

| Code | Title | Credits |
|---|---|---|
| **Advanced Mathematics** | | **3** |
| MATH 319 | Techniques in Ordinary Differential Equations | |
| or MATH 320 | Linear Algebra and Differential Equations | |
| or MATH 321 | Applied Mathematical Analysis 1: Vector and Complex Calculus | |
| **Linear Algebra and Matrices** | | **3** |
| MATH 320 | Linear Algebra and Differential Equations | |
| or MATH 340 | Elementary Matrix and Linear Algebra | |
| **Mechanics of Materials** | | **3** |
| E M A 303 | Mechanics of Materials | |

| | | |
|---|---|---|
| **Dynamics** | | **3** |
| E M A 202 | Dynamics | |
| or PHYSICS 311 | Mechanics | |

## APPLICATION MATERIALS

In addition to the items listed in the table above, a complete application includes the following uploaded to the online application. The submitted application and all application items are due by the deadline above.

1. **Unofficial Transcripts (PDF)**
   a. Most up-to-date unofficial transcript(s) from all previous higher education institutions, regardless of whether a degree was earned. Official transcripts are only requested of recommended applicants.
   b. International academic records must be in the original language accompanied by an official English translation. Review the minimum requirements link above to learn more.
2. **Statement of Purpose**
   a. In this document, applicants should explain why they want to pursue further education in Engineering Mechanics, specifically this program, research interests, and which UW faculty they are interested in working with.
   b. The applicant must specifically state within this document which track they have chosen to follow in the curriculum: the thesis track or the non-thesis track.
   c. The program does not have a required font, word limit, etc. However, we do recommend (not require) a maximum of 2 pages.
   d. See the Graduate School for more advice on how to structure a personal statement (https://grad.wisc.edu/apply/prepare/).
3. **Resume**
4. **Three Letters of Recommendation**
   a. These letters are required from people who can accurately reflect on the applicant's academics and/or work performance. It is highly recommended these letters be from faculty familiar with the applicant.
   b. Letters of recommendation are submitted electronically through the online application.
   c. See the Graduate School FAQs (https://grad.wisc.edu/apply/#FAQ) regarding letters of recommendation.
5. **Application Fee**
   a. Application submission must be accompanied by the application fee. See the Graduate School FAQs (https://grad.wisc.edu/apply/#FAQ) regarding fees.
   b. Fee grants are available through the conditions outlined here by the Graduate School (https://grad.wisc.edu/apply/fee-grant/).

## REENTRY ADMISSIONS

Review the Graduate School requirements for previously enrolled students (https://policy.wisc.edu/library/UW-1230/). Contact the Department of Mechanical Engineering Graduate Student Services (see Contact Box for link) with questions.

## CURRENTLY ENROLLED GRADUATE STUDENT ADMISSIONS

Students currently enrolled as graduate students at UW-Madison wishing to apply to this degree programs should contact the Department of Mechanical Engineering Graduate Student Services (see Contact Box for link) to inquire about the process and deadlines.

## QUESTIONS

Contact the Department of Mechanical Engineering Graduate Student Services (see Contact Box for link).

# FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

There are three mechanisms for Graduate Student funding through the university for MS Engineering Mechanics: Research students:

1. Fellowships
2. Graduate assistantships: project assistantships, teaching assistantships, and research assistantships
3. Traineeships

Funding is awarded based on the qualifications of the student, the number of applicants, the amount of available funding, the number of continuing students receiving support, and the degree program a student is enrolled in. Fellowship and research assistantship funding is only considered for thesis-based MS students. You can apply for funding for research assistantships by contacting individual faculty members directly. Review our website (https://engineering.wisc.edu/departments/mechanical-engineering/people/) to look for faculty (only those listed with titles of assistant professor, associate professor, or professor can serve as graduate student advisors). Search for faculty who have research interests that align closely with your own by viewing faculty directory entries, visiting the faculty's website (linked from the directory page), and reviewing publications by the faculty member. After you have identified faculty with interests close to your own, you are encouraged to contact them by email to inquire regarding available research assistant positions. The admissions office does not know if a particular professor has research assistant positions available.

Students who apply to the MS Research program will be automatically considered for fellowship opportunities within the department. Admitted students will be eligible to apply for Teaching Assistantship positions. More information, including the application, will be available to students after admission is complete.

More information on graduate student funding is available from the UW-Madison Graduate School (https://grad.wisc.edu/funding/).

## ADDITIONAL RESOURCES

### Office of Student Financial Aid

For information regarding student financial aid, scholarships, and more, visit the Office of Student Financial Aid website (https://financialaid.wisc.edu/).

### International Student Services Funding and Scholarships

For information regarding international student funding and scholarships, visit the International Student Services website (https://iss.wisc.edu/students/new-students/funding-scholarships/).

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# NAMED OPTION REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 15 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required.<br>Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | Students must earn a C or above in all formal coursework.<br><br>Students may not have more than two incompletes on their record at any one time. |
| Assessments and Examinations | A thesis is not required for a master's degree in Engineering Mechanics. Credit for master's research (E M A 790) will be granted toward meeting the MS requirements only when a formal MS thesis is submitted and approved by the thesis committee. If submitting a MS thesis, a thesis Oral Defense is required. Candidates must pass an oral exam administered by a three-member committee, selected by the student's advisor. At least two of the committee members must be members of the UW-Madison Graduate Faculty. (For more information, see https://grad.wisc.edu/documents/committees (https://grad.wisc.edu/documents/committees/)/.) Typically, the student presents an overview of their thesis/research, and then the examiners ask questions in closed session. See the Graduate School's information https://grad.wisc.edu/current-students/masters-guide (https://grad.wisc.edu/current-students/masters-guide/)/ and note the requirement for an advisor approval page. |
| Language Requirements | No language requirements. |

## REQUIRED COURSES

The program requires 30 credits of technical coursework approved by the student's advisor. All courses must be numbered 500 or above, except for the 400-level courses identified in the pre-defined course lists. Technical coursework is defined as courses in Engineering departments, Physics, Math, Statistics, Computer Science, Medical Physics, and Chemistry. Other courses may be deemed appropriate by a student's faculty advisor.

| Code | Title | Credits |
|---|---|---|
| **Seminar Requirement** | | |
| Two terms of seminar, successfully completed, are required. These should be taken in the first two terms of enrollment. Passing/satisfactory grades are required for both terms. | | |
| M E 903 | Graduate Seminar (taken twice) | |
| **General** [1] | | |
| At least 15 credits must be taken in courses numbered 600 and above OR from the following list: | | 15 |
| E M A 422 | Aerodynamics Laboratory | |
| E M A 423 | Flight Dynamics and Control | |
| E M A/CIV ENGR/ M E 508 | Composite Materials | |
| E M A 519 | Fracture Mechanics | |
| E M A/M E 540 | Experimental Vibration and Dynamic System Analysis | |
| E M A/ M S & E 541 | Heterogeneous and Multiphase Materials | |
| E M A/E P 547 | Engineering Analysis I | |
| E M A/E P 548 | Engineering Analysis II | |
| E M A/M E 570 | Experimental Mechanics | |
| **Mathematics Requirements** [1] | | |

| | | |
|---|---|---|
| Students must take at least 3 credits (1 course) from the following list: | | 3 |
| E M A/E P 547 | Engineering Analysis I | |
| E M A/E P 548 | Engineering Analysis II | |
| MATH 519 | Ordinary Differential Equations | |
| MATH 521 | Analysis I | |
| MATH 522 | Analysis II | |
| MATH 540 | Linear Algebra II | |
| MATH 619 | Analysis of Partial Differential Equations | |
| MATH 623 | Complex Analysis | |
| MATH 703 | Methods of Applied Mathematics 1 | |
| MATH 704 | Methods of Applied Mathematics-2 | |
| MATH/ COMP SCI 714 | Methods of Computational Mathematics I | |
| MATH/ COMP SCI 715 | Methods of Computational Mathematics II | |

**Breadth Requirement** [1]

| | | |
|---|---|---|
| Five courses are required to complete the Breadth Requirement. Students must select two of the three area lists below (Solid Mechanics, Fluid Mechanics, Dynamic) and complete two courses in each of the two area lists. A fifth course must be completed and may be from any of the three area lists. Across the 5 courses, at least 3 courses must be identified with an *. | | |
| *Solid Mechanics* | | |
| E M A 406 | Aerospace Structures * | |
| E M A/CIV ENGR/ M E 508 | Composite Materials | |
| E M A 519 | Fracture Mechanics * | |
| E M A/ M S & E 541 | Heterogeneous and Multiphase Materials * | |
| E M A/M E 570 | Experimental Mechanics | |
| E M A 605 | Introduction to Finite Elements * | |
| E M A 611 | Advanced Mechanical Testing of Materials * | |
| E M A/E P 615 | Micro- and Nanoscale Mechanics * | |
| E M A 630 | Viscoelastic Solids * | |
| E M A 700 | Theory of Elasticity * | |
| E M A/M E 703 | Plasticity Theory and Physics | |
| E M A 705 | Advanced Topics in Finite Elements * | |
| E M A/M E 708 | Advanced Composite Materials | |
| E M A 710 | Mechanics of Continua | |
| E M A/M E 722 | Introduction to Polymer Rheology | |
| M E/B M E 516 | Finite Elements for Biological and Other Soft Materials | |
| M E 753 | Friction, Lubrication and Wear | |
| *Fluid Mechanics* | | |
| E M A 421 | Aerodynamics * | |
| E M A 426 | Aerospace Propulsion * | |
| E M A 710 | Mechanics of Continua | |
| M E 563 | Intermediate Fluid Dynamics * | |
| E M A/M E 425 | Gasdynamics * | |
| M E 573 | Computational Fluid Dynamics * | |
| M E 769 | Combustion Processes | |
| M E 770 | Advanced Experimental Instrumentation | |
| M E 774 | Chem Kinetics of Combust Systems | |
| M E/CIV ENGR/ E M A 775 | Turbulent Heat and Momentum Transfer | |
| MATH 705 | Mathematical Fluid Dynamics | |
| *Dynamics* | | |
| E M A 423 | Flight Dynamics and Control * | |
| E M A/M E 440 | Mechanical Vibrations | |
| E M A 442 | Advanced Dynamics * | |
| E M A 450 | Orbital Mechanics | |
| E M A/M E 540 | Experimental Vibration and Dynamic System Analysis * | |
| E M A 610 | Structural Finite Element Model Validation * | |
| E M A 642 | Satellite Dynamics * | |
| E M A 745 | Advanced Methods in Structural Dynamics * | |
| E M A 747 | Nonlinear and Random Mechanical Vibrations * | |
| M E/E C E 577 | Automatic Controls Laboratory | |
| M E 740 | Advanced Vibrations | |
| M E 747 | Advanced Computer Control of Machines and Processes | |
| or M E/ E C E 733 | Advanced Computer Control of Machines and Processes | |
| M E 748 | Optimum Design of Mechanical Elements and Systems | |

**Depth Requirement** [1]

| | | |
|---|---|---|
| At least 2 courses (6 credits) must be numbered 700 or above in mechanics, from the following list: | | 6 |
| Any E M A course except E M A 790, E M A 890, or E M A 990. | | |
| E M A 601 Special Topics courses may only be counted as course numbered 700 or above if designated as such by the instructor. | | |
| CBE 720 | Microhydrodynamics, Brownian Motion, and Complex Fluids | |
| CIV ENGR/ G L E 730 | Engineering Properties of Soils | |
| MATH 705 | Mathematical Fluid Dynamics | |
| M E 740 | Advanced Vibrations | |
| M E 746 | Dynamics of Controlled Systems | |
| or M E/ E C E 732 | Dynamics of Controlled Systems | |
| M E 747 | Advanced Computer Control of Machines and Processes | |
| M E 748 | Optimum Design of Mechanical Elements and Systems | |
| M E 751 | Advanced Computational Dynamics | |
| M E 753 | Friction, Lubrication and Wear | |
| M E 768 | Precision Measurements | |
| M E 769 | Combustion Processes | |

| | | |
|---|---|---|
| M E 770 | Advanced Experimental Instrumentation | |
| M E 774 | Chem Kinetics of Combust Systems | |
| M E/CIV ENGR/ E M A 775 | Turbulent Heat and Momentum Transfer | |
| **Independent Study** | | |
| At least 3 credits of the following course is required of all students. A maximum of 6 credits may be applied toward minimum degree requirements. | | 3-6 |
| E M A 599 | Independent Study | |
| **Thesis Credits** | | |
| Thesis credits are not required to meet minimum degree requirements. However, they may be used to satisfy degree requirements ONLY if a thesis is written and defended. Students utilizing thesis credits may use a maximum of 12 credits E M A 599 and E M A 790, combined, toward the minimum degree requirement. | | 0-9 |
| E M A 790 | Master's Research and Thesis | |
| **Additional Optional Seminar Credits** | | |
| A maximum of 3 seminar credits, as deemed appropriate by faculty advisor, may be applied to the minimum degree requirements. These optional seminar credits are in addition to the required two terms of M E 903 Graduate Seminar. | | 0-3 |
| **Total Credits** | | **30** |

[1] Courses used to satisfy the following degree requirements may overlap: General, Mathematics Requirement, Breadth Requirement, Depth Requirement.

### Pathway

Students must select to follow either the thesis pathway or the independent study pathway. These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

## POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# NAMED OPTION-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With faculty advisor approval, students may transfer up to 6 credits of relevant coursework from a prior graduate program. Review the Graduate Program Handbook (see contact box) for information about use and restrictions to this policy. Coursework earned ten or more years prior to admission is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

With faculty advisor approval, students may transfer a maximum of 7 credits from a UW-Madison undergraduate degree or an ABET-accredited undergraduate degree (from another institution). Only coursework that is applicable to the degree curriculum is eligible (based on UW-Madison course/course equivalency number). These credits will not be allowed to satisfy minimum graduate coursework (50%) requirement unless taken in courses numbered 700 or above (UW-Madison course equivalent). No credits can be applied toward the minimum graduate residence credit requirement. Coursework earned ten or more years prior to admission is not allowed to satisfy requirements.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

With faculty advisor approval, students may transfer up to 15 credits of coursework taken as a UW–Madison University Special student toward the minimum credit requirement. Only coursework that is applicable to the degree curriculum is eligible. UW–Madison coursework taken as a University Special student would not be allowed to count toward the minimum graduate coursework (50%) requirement unless taken in courses numbered 700 or above or are taken to meet the requirements of a capstone certificate and has the "Grad 50%" designation. Coursework earned ten or more years prior to admission is not allowed to satisfy requirements.

## PROBATION

The Department of Mechanical Engineering Graduate Committee academic progress policy may be reviewed in the Graduate Handbook (see Contact box for link).

## ADVISOR / COMMITTEE

Each student is required to meet with his or her advisor prior to registration every semester.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Students with a Bachelor of Science in Engineering Mechanics or equivalent typically take 3 semesters to complete the Master of Science. Students with non-Engineering Mechanics backgrounds typically take 4 semesters to complete the Master of Science if more than 27 credits are required.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)

- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

### Department of Mechanical Engineering Grievance Procedures

If a student feels unfairly treated or aggrieved by faculty, staff, or another student, the University offers several avenues to resolve the grievance. Students' concerns about unfair treatment are best handled directly with the person responsible for the objectionable action. If the student is uncomfortable making direct contact with the individual(s) involved, they should contact the advisor or the person in charge of the unit where the action occurred (program or department chair, section chair, lab manager, etc.). Many departments and schools/colleges have established specific procedures for handling such situations; check their web pages and published handbooks for information. If such procedures exist at the local level, these should be investigated first. For more information see the Graduate School Academic Policies & Procedures: https://grad.wisc.edu/acadpolicy/?policy=grievancesandappeals. The Assistant Dean for Graduate Affairs (engr-dean-graduateaffairs@engr.wisc.edu) provides overall leadership for graduate education in the College of Engineering (CoE), and is a point of contact for graduate students who have concerns about education, mentoring, research, or other difficulties.

1. The student is encouraged to speak first with the person toward whom the grievance is directed to see if a situation can be resolved at this level.

2. Should a satisfactory resolution not be achieved, the student should contact the Associate Chair for Graduate Studies or the John Bollinger Chair of Mechanical Engineering (https://engineering.wisc.edu/departments/mechanical-engineering/people/) to discuss the grievance. The Associate Chair for Graduate Studies or Department Chair will facilitate problem resolution through informal channels and facilitate any complaints or issues of students. The first attempt is to help students informally address the grievance prior to any formal complaint. Students are also encouraged to talk with their faculty advisors regarding concerns or difficulties if necessary. University resources for sexual harassment, discrimination, disability accommodations, and other related concerns can be found on the UW Office of Compliance website (https://compliance.wisc.edu/). Other campus resources can be found above.

3. If the issue is not resolved to the student's satisfaction the student can submit the grievance to the Associate Chair for Graduate Studies in writing, within 60 calendar days of the alleged unfair treatment.

4. On receipt of a written complaint, a faculty committee will be convened by the Associate Chair for Graduate Studies to manage the grievance. The faculty committee will obtain a written response from the person toward whom the complaint is directed. This response will be shared with the person filing the grievance.

5. The faculty committee will determine a decision regarding the grievance. The Associate Chair for Graduate Studies will report on the action taken by the committee in writing to both the student and the party toward whom the complaint was directed within 15 working days from the date the complaint was received.

6. At this point, if either party (the student or the person toward whom the grievance is directed) is unsatisfied with the decision of the faculty committee, the party may file a written appeal. Either party has 10 working days to file a written appeal to the School/College.

7. Documentation of the grievance will be stored for at least 7 years. Significant grievances that set a precedent will be stored indefinitely.

The Graduate School has procedures for students wishing to appeal a grievance decision made at the school/college level. These policies are described in the Graduate School's Academic Policies & Procedures: https://grad.wisc.edu/acadpolicy/?policy=grievancesandappeals.

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

# ENGINEERING MECHANICS, PHD

The doctor of philosophy degree in engineering mechanics is offered within a graduate program covering contemporary areas in both theoretical and applied mechanics. With the guidance of a major professor, a program can be designed to meet an individual student's needs and interests.

This program is broadly structured into several main areas of instruction and research interests in fluid and solid mechanics: continuum mechanics, computational mechanics, dynamics and vibration, nanomechanics, and

biomechanics. Related fields include civil and environmental engineering, chemical and biological engineering, electrical and computer engineering, materials science, mechanical engineering, nuclear engineering and engineering physics, physics, geological engineering and geology, mathematics, statistics, and computer science.

Current faculty research interests include contact mechanics, elastic instabilities, micromechanics, wave propagation, adhesion and friction, multi-scale and high-performance computational modeling, multi-physics mechanics and transport, biophysics, nanotechnology and nanomaterials, mechanics of soft materials, bio-inspired materials, polymer thin-films, renewable energy, and acoustic/elastic metamaterials.

Laboratories are well equipped for experimental testing and research; these include, atomic force microscopy, vibration testing, and other optical methods for experimental mechanics research. The department has access to collegewide facilities. The Wisconsin Laboratory for Structures and Materials Testing has facilities for testing large structures, fatigue and vibration labs, and complements the department's laboratories. The Nanoscale Imaging and Analysis Center provides state-of-the-art instrumentation, support facilities, and expert technical assistance for research and education in materials. Its facilities include scanning and transmission electron microscopes, image processing and analysis systems, surface and thin film characterization facilities, and x-ray diffraction facilities.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 15 |
| Spring Deadline | September 1 |
| Summer Deadline | December 15 |
| GRE (Graduate Record Examinations) | Not required.* |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

* Submitted scores will not be used in admission decisions.

## APPLICANT CONSIDERATIONS

Applicants to our program should have the following:

1. **Degree**
   a. Bachelor of Science in engineering, mathematics, or physical science and an undergraduate record that indicates an ability to successfully pursue graduate study.
   b. International applicants must have a degree comparable to a regionally accredited US bachelor's degree. Review the Graduate School webpage (https://grad.wisc.edu/apply/requirements/) to learn more about comparable degrees by country.
2. **GPA**
   a. The minimum required GPA is 3.0/4.0 on the equivalent of the last 60 semester hours from the most recent bachelor's degree or a completed master's degree with a minimum of 3.0/4.0.
3. **Faculty Advisor**
   a. Applicants must seek out and secure their own faculty advisor as part of the application process. This may be done prior to, during, and/or after submission of the online application.
   b. To seek out a faculty advisor, review the department Research (https://engineering.wisc.edu/departments/mechanical-engineering/research/) and People (https://engineering.wisc.edu/departments/mechanical-engineering/people/)websites. Assistant Professors, Associate Professors, and Professors are eligible to be graduate advisors. *Please do not contact Emeritus faculty, lecturers, Research Scientists, or Faculty Associates.*
   c. You are encouraged to inquire about possible funding opportunities. (See Funding tab in the right-side column on this page for funding information.)
4. **Recommended Preparatory Courses**
   a. It is highly recommended applicants take courses that cover the same material as these UW-Madison courses before entering the program.
   b. Applicants may be admitted without having taken these courses, however, in such cases the applicant must inform their faculty advisor who will then help them select the correct courses to include the required background for the program.

| Code | Title | Credits |
|---|---|---|
| **Advanced Mathematics** | | **3** |
| MATH 319 | Techniques in Ordinary Differential Equations | |
| or MATH 320 | Linear Algebra and Differential Equations | |
| or MATH 321 | Applied Mathematical Analysis 1: Vector and Complex Calculus | |
| **Linear Algebra and Matrices** | | **3** |
| MATH 320 | Linear Algebra and Differential Equations | |
| or MATH 340 | Elementary Matrix and Linear Algebra | |
| **Mechanics of Materials** | | **3** |
| E M A 303 | Mechanics of Materials | |
| **Dynamics** | | **3** |
| E M A 202 | Dynamics | |
| or PHYSICS 311 | Mechanics | |

## APPLICATION MATERIALS

In addition to the items listed in the table above, a complete application includes the following uploaded to the online application. The submitted application and all application items are due by the deadline above.

1. **Unofficial Transcripts (PDF)**
   a. Most up-to-date unofficial transcript(s) from all previous higher education institutions, regardless of whether a degree was earned. Official transcripts are only requested of recommended applicants.
   b. International academic records must be in the original language accompanied by an official English translation. Review the minimum requirements link above to learn more.
2. **Statement of Purpose**
   a. In this document, applicants should explain why they want to pursue further education in Engineering Mechanics, specifically this program, research interests, and which UW faculty they are interested in working with.
   b. The program does not have a required font, word limit, etc. However, we do recommend (not require) a maximum of 2 pages.
   c. See the Graduate School for more advice on how to structure a personal statement (https://grad.wisc.edu/apply/prepare/).
3. **Resume**
4. **Three Letters of Recommendation**
   a. These letters are required from people who can accurately reflect on the applicant's academics and/or work performance. It is highly recommended these letters be from faculty familiar with the applicant.
   b. Letters of recommendation are submitted electronically through the online application.
   c. See the Graduate School FAQs (https://grad.wisc.edu/apply/#FAQ) regarding letters of recommendation.
5. **Application Fee**
   a. Application submission must be accompanied by the application fee. See the Graduate School FAQs (https://grad.wisc.edu/apply/#FAQ) regarding fees.
   b. Fee grants are available through the conditions outlined here by the Graduate School (https://grad.wisc.edu/apply/fee-grant/).

## REENTRY ADMISSIONS

Review the Graduate School requirements for previously enrolled students (https://policy.wisc.edu/library/UW-1230/). Contact the Department of Mechanical Engineering Graduate Student Services (see Contact Box for link) with questions.

## CURRENTLY ENROLLED GRADUATE STUDENT ADMISSIONS

Students currently enrolled as graduate students at UW-Madison wishing to apply to this degree programs should contact the Department of Mechanical Engineering Graduate Student Services (see Contact Box for link) to inquire about the process and deadlines.

## QUESTIONS

Contact the Department of Mechanical Engineering Graduate Student Services (see Contact Box for link).

# FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

There are three mechanisms for Graduate Student funding through the university for Engineering Mechanics PhD students:

1. Fellowships
2. Graduate assistantships: project assistantships, teaching assistantships, and research assistantships
3. Traineeships

Funding is awarded based on the qualifications of the student, the number of applicants, the amount of available funding, the number of continuing students receiving support, and the degree program a student is enrolled in. You can apply for funding for research assistantships by contacting individual faculty members directly. Review our website (https://engineering.wisc.edu/departments/mechanical-engineering/people/) to look for faculty (only those listed with titles of assistant professor, associate professor, or professor can serve as graduate student advisors). Search for faculty who have research interests that align closely with your own by viewing faculty directory entries, visiting the faculty's website (linked from the directory page), and reviewing publications by the faculty member. After you have identified faculty with interests close to your own, you are encouraged to contact them by email to inquire regarding available research assistant positions. The admissions office does not know if a particular professor has research assistant positions available.

Students who apply to the PhD program will be automatically considered for fellowship opportunities within the department. Admitted students will be eligible to apply for Teaching Assistantship positions. More information, including the application, will be available to students after admission is complete.

More information on graduate student funding is available from the UW-Madison Graduate School (https://grad.wisc.edu/funding/).

## ADDITIONAL RESOURCES

### Office of Student Financial Aid

For information regarding student financial aid, scholarships, and more, visit the Office of Student Financial Aid website (https://financialaid.wisc.edu/).

### International Student Services Funding and Scholarships

For information regarding international student funding and scholarships, visit the International Student Services website (https://iss.wisc.edu/students/new-students/funding-scholarships/).

REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 60 credits |
| Minimum Residence Credit Requirement | 32 credits |
| Minimum Graduate Coursework Requirement | 30 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). In addition, at least 18 of the non-research credits must be in classes having the graduate-level designation. |
| Overall Graduate GPA Requirement | 3.00 GPA required.<br>Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | Students must earn a C or above in all formal coursework. Students may not have more than two Incompletes on their record at any one time. |
| Assessments and Examinations | PhD qualifying examination is required of all students.<br><br>After acceptance of the student's doctoral plan of study, the student must take an oral preliminary examination.<br><br>Final oral examination is required at the end of the thesis work. |
| Language Requirements | No language requirements. |
| Graduate School Breadth Requirement | All doctoral students are required to complete a doctoral minor or graduate/professional certificate. Refer to the Graduate School: Breadth Requirement in Doctoral Training policy: https://policy.wisc.edu/library/UW-1200 (https://policy.wisc.edu/library/UW-1200/).<br><br>Students should consult with advisor. |

## REQUIRED COURSES

At least 36 of the required 60 credits must be in classes satisfying the following: general requirements, mathematics requirements, breadth requirement, and depth requirement. All courses must be numbered 500 and above, except for the 400-level courses identified in the pre-defined course lists. It is acceptable for students who earned an MS degree in Engineering Mechanics at UW-Madison to use coursework completed while in the MS degree program to meet the requirements below.

| Code | Title | Credits |
|---|---|---|
| **Seminar Requirement** | | |
| Two terms of M E 903 are required and must be successfully completed. These should be taken in the first two terms of enrollment. | | 0 |
| M E 903 | Graduate Seminar (taken twice) | |
| **General Requirements** [1] | | |
| At least 21 credits must be in coursework numbered 600 and above OR from the following list: | | 21 |
| E M A 422 | Aerodynamics Laboratory | |
| E M A 423 | Flight Dynamics and Control | |
| E M A/CIV ENGR/ M E 508 | Composite Materials | |
| E M A 519 | Fracture Mechanics | |
| E M A/M E 540 | Experimental Vibration and Dynamic System Analysis | |
| E M A/ M S & E 541 | Heterogeneous and Multiphase Materials | |
| E M A/E P 547 | Engineering Analysis I | |
| E M A/E P 548 | Engineering Analysis II | |
| E M A/M E 570 | Experimental Mechanics | |
| **Mathematics Requirements** [1] | | |
| At least 6 credits (2 courses) must be in applied mathematics from the following list: | | 6 |
| E M A/E P 547 | Engineering Analysis I | |
| E M A/E P 548 | Engineering Analysis II | |
| MATH 519 | Ordinary Differential Equations | |
| MATH 521 | Analysis I | |

| | |
|---|---|
| MATH 522 | Analysis II |
| MATH 540 | Linear Algebra II |
| MATH 619 | Analysis of Partial Differential Equations |
| MATH 623 | Complex Analysis |
| MATH 703 | Methods of Applied Mathematics 1 |
| MATH 704 | Methods of Applied Mathematics-2 |
| MATH/ COMP SCI 714 | Methods of Computational Mathematics I |
| MATH/ COMP SCI 715 | Methods of Computational Mathematics II |

**Breadth Requirement** [1]

| | | |
|---|---|---|
| As part of their MS or PhD, students must complete courses from at least 2 of the 3 areas defined below (Solid Mechanics, Fluid Mechanics, Dynamics). For each of the 2 areas, the student must complete at least 2 courses. | | 12 |
| *Solid Mechanics* | | |
| E M A 406 | Aerospace Structures | |
| E M A/CIV ENGR/ M E 508 | Composite Materials | |
| E M A 519 | Fracture Mechanics | |
| E M A/ M S & E 541 | Heterogeneous and Multiphase Materials | |
| E M A/M E 570 | Experimental Mechanics | |
| E M A 605 | Introduction to Finite Elements | |
| E M A 611 | Advanced Mechanical Testing of Materials | |
| E M A/E P 615 | Micro- and Nanoscale Mechanics | |
| E M A 630 | Viscoelastic Solids | |
| E M A 700 | Theory of Elasticity | |
| E M A/M E 703 | Plasticity Theory and Physics | |
| E M A 705 | Advanced Topics in Finite Elements | |
| E M A/M E 708 | Advanced Composite Materials | |
| E M A/M E 722 | Introduction to Polymer Rheology | |
| E M A 710 | Mechanics of Continua | |
| M E/B M E 516 | Finite Elements for Biological and Other Soft Materials | |
| M E 753 | Friction, Lubrication and Wear | |
| *Fluid Mechanics* | | |
| E M A 421 | Aerodynamics | |
| E M A 423 | Flight Dynamics and Control | |
| E M A/M E 425 | Gasdynamics | |
| E M A 710 | Mechanics of Continua | |
| M E 563 | Intermediate Fluid Dynamics | |
| M E 573 | Computational Fluid Dynamics | |
| M E 769 | Combustion Processes | |
| M E 770 | Advanced Experimental Instrumentation | |
| M E 774 | Chem Kinetics of Combust Systems | |
| M E/CIV ENGR/ E M A 775 | Turbulent Heat and Momentum Transfer | |
| MATH 705 | Mathematical Fluid Dynamics | |
| *Dynamics* | | |
| E M A/M E 440 | Mechanical Vibrations | |
| E M A 442 | Advanced Dynamics | |
| E M A 450 | Orbital Mechanics | |
| E M A/M E 540 | Experimental Vibration and Dynamic System Analysis | |
| E M A 610 | Structural Finite Element Model Validation | |
| E M A 642 | Satellite Dynamics | |
| E M A 745 | Advanced Methods in Structural Dynamics | |
| E M A 747 | Nonlinear and Random Mechanical Vibrations | |
| M E/E C E 577 | Automatic Controls Laboratory | |
| M E 740 | Advanced Vibrations | |
| M E 747 | Advanced Computer Control of Machines and Processes | |
| or M E/ E C E 733 | Advanced Computer Control of Machines and Processes | |
| M E 748 | Optimum Design of Mechanical Elements and Systems | |

**Depth Requirement** [1]

| | | |
|---|---|---|
| At least 4 courses (12 credits) must be numbered 700 or above in mechanics, applied mathematics, or computer science. At least 2 of the courses (6 credits) must be from List 1 (below), and the remaining 2 courses (6 credits) may be from List 1 or List 2. | | 12 |
| *List 1* | | |
| Any E M A course except E M A 790, E M A 890, or E M A 990. | | |
| E M A 601 Special Topics courses may only be counted as numbered 700 or above if designated as such by the instructor. | | |
| CBE 720 | Microhydrodynamics, Brownian Motion, and Complex Fluids | |
| CIV ENGR/ G L E 730 | Engineering Properties of Soils | |
| MATH 705 | Mathematical Fluid Dynamics | |
| M E 740 | Advanced Vibrations | |
| M E 746 | Dynamics of Controlled Systems | |
| or M E/ E C E 732 | Dynamics of Controlled Systems | |
| M E 747 | Advanced Computer Control of Machines and Processes | |
| or M E/ E C E 733 | Advanced Computer Control of Machines and Processes | |
| M E 748 | Optimum Design of Mechanical Elements and Systems | |
| M E 751 | Advanced Computational Dynamics | |
| M E 753 | Friction, Lubrication and Wear | |
| M E 768 | Precision Measurements | |
| M E 769 | Combustion Processes | |
| M E 770 | Advanced Experimental Instrumentation | |
| M E 774 | Chem Kinetics of Combust Systems | |
| M E/CIV ENGR/ E M A 775 | Turbulent Heat and Momentum Transfer | |
| *List 2* | | |

| | |
|---|---|
| COMP SCI/ MATH 714 | Methods of Computational Mathematics I |
| COMP SCI/ MATH 715 | Methods of Computational Mathematics II |
| COMP SCI/ E C E 760 | Machine Learning |
| E C E 717 | Linear Systems |
| E C E/ COMP SCI 761 | Mathematical Foundations of Machine Learning |
| E C E/COMP SCI/ STAT 861 | Theoretical Foundations of Machine Learning |
| MATH 703 | Methods of Applied Mathematics 1 |
| MATH 704 | Methods of Applied Mathematics-2 |
| M E 718 | Modeling and Simulation in Polymer Processing |
| M E 758 | Solid Modeling |
| M E 761 | Topics in Thermodynamics |
| M E 764 | Advanced Heat Transfer I-Conduction |
| M S & E 748 | Structural Analysis of Materials |
| M S & E 750 | Imperfections and Mechanical Properties |
| M S & E 760 | Molecular Modeling of Materials |
| PHYSICS 711 | Theoretical Physics-Dynamics |
| PHYSICS 715 | Statistical Mechanics |
| PHYSICS 721 | Theoretical Physics-Electrodynamics |
| PHYSICS 731 | Quantum Mechanics |
| PHYSICS 732 | Quantum Mechanics |
| PHYSICS 751 | Advanced Solid State Physics |
| PHYSICS 801 | Special Topics in Theoretical Physics (when taught as Nanostructures in Science and Technology) |
| **Remaining Credits** [2] | |
| Remaining credits to reach minimum degree requirement. Courses must be approved by the student faculty advisor. | 9 |
| **Total Credits** | **60** |

1 Requirements may overlap. At least 36 of the required 60 credits must be in classes satisfying the following: general requirements, mathematics requirements, breadth requirement, and depth requirement. The remaining 24 credits may be satisfied by courses approved by the student faculty advisor and may include E M A 890 (https://guide.wisc.edu/search/?P=E%20M%20A%20890) and E M A 990 (https://guide.wisc.edu/search/?P=E%20M%20A%20990).

2 Up to 24 credits of E M A 890 (https://guide.wisc.edu/search/?P=E%20M%20A%20890) and E M A 990 (https://guide.wisc.edu/search/?P=E%20M%20A%20990) may be used to satisfy the minimum degree credit requirement.

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With faculty advisor and Department of Mechanical Engineering Graduate Committee approval, students may transfer up to 15 credits of prior graduate coursework that led to a relevant MS degree. Alternatively, with advisor and the Department of Mechanical Engineering Graduate Committee approval, students may use up to 6 credits of relevant coursework from a prior graduate program. Please review the Graduate Program Handbook (see contact box) for information about use and restrictions to this policy. Coursework earned ten or more years prior to admission is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

With faculty advisor approval, a maximum of 7 credits from a UW-Madison undergraduate degree or an ABET-accredited undergraduate degree (from an other institution) may be applied toward the minimum graduate degree credit requirement. Only coursework that is applicable to the degree curriculum is eligible (based on UW-Madison course/course equivalency number). These credits will not be allowed to count toward the Minimum Graduate Coursework (50%) Requirement unless taken in courses numbered 700 or above (UW-Madison course equivalent). No credits can be counted toward the minimum graduate residence credit requirement. Coursework earned ten or more years prior to admission is not allowed to satisfy requirements.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

With faculty advisor approval, students are allowed to transfer up to 15 credits of coursework taken as a UW–Madison University Special student toward the minimum graduate degree credit requirement. Only coursework that is applicable to the degree curriculum is eligible. UW–Madison coursework taken as a University Special student would not be allowed to count toward the minimum graduate coursework (50%) requirement unless taken in courses numbered 700 or above or are taken to meet the requirements of a capstone certificate and has the "Grad 50%" designation. Coursework earned ten or more years prior to admission is not allowed to satisfy requirements.

## PROBATION

The Department of Mechanical Engineering graduate programs satisfactory academic progress policy may be reviewed in the Graduate Handbook (see Contact box for link).

## ADVISOR / COMMITTEE

Each student is required to meet with their advisor prior to registration every semester.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Qualifying Exam: The written portion of the qualifying exam is offered twice a year, once in August/September and once in January, generally the week before classes start. The associated literature review presentation must be completed within the timing limits stated (see graduate handbook, contact box).

1. If you enter the PhD program directly without an MS or equivalent degree, you will first earn 30 graduate credits. Take your qualifying exam either the first or second time that it is offered after the semester in which you earn those 30 credits.
2. If you earn a UW–Madison Engineering Mechanics MS and immediately enter the PhD program in the following semester, take your qualifying exam either the first or second time it is offered after the semester in which you earned your MS.
3. If you enter the PhD program with an MS degree either from another department or institution, or are returning to UW–Madison with an MS degree after an absence, take the exam at the start of your third PhD semester

Preliminary Exam: PhD students must complete their preliminary exam within five years of passing their qualifying exam.

Dissertation Defense (oral thesis presentation): There must be at least nine (9) months between the preliminary exam and dissertation defense.

A candidate for a doctoral degree who fails to successfully complete the dissertation defense and deposit the dissertation within five years after passing the preliminary examination may be required to take another preliminary examination to be admitted to candidacy a second time.

Average Time to Degree: The average time to degree, beyond the bachelor degree, is 6 years.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

### Department of Mechanical Engineering Grievance Procedures

If a student feels unfairly treated or aggrieved by faculty, staff, or another student, the University offers several avenues to resolve the grievance. Students' concerns about unfair treatment are best handled directly with the person responsible for the objectionable action. If the student is uncomfortable making direct contact with the individual(s) involved, they should contact the advisor or the person in charge of the unit where the action occurred (program or department chair, section chair, lab manager, etc.). Many departments and schools/colleges have established specific procedures for handling such situations; check their web pages and published handbooks for information. If such procedures exist at the local level, these should be investigated first. For more information see the Graduate School Academic Policies & Procedures: https://grad.wisc.edu/acadpolicy/?policy=grievancesandappeals. The Assistant Dean for Graduate Affairs (engr-dean-graduateaffairs@engr.wisc.edu) provides overall leadership for graduate education in the College of Engineering (CoE), and is a point of contact for graduate students who have concerns about education, mentoring, research, or other difficulties.

1. The student is encouraged to speak first with the person toward whom the grievance is directed to see if a situation can be resolved at this level.

2. Should a satisfactory resolution not be achieved, the student should contact the Associate Chair for Graduate Studies or the John Bollinger Chair of Mechanical Engineering (https://engineering.wisc.edu/departments/mechanical-engineering/people/) to discuss the grievance. The Associate Chair for Graduate Studies or Department Chair will facilitate problem resolution through informal channels and facilitate any complaints or issues of students. The first attempt is to help students informally address the grievance prior to any formal complaint. Students are also encouraged to talk with their faculty advisors regarding concerns or difficulties if necessary. University resources for sexual harassment, discrimination, disability accommodations, and other related concerns can be found on the UW Office of Compliance website (https://compliance.wisc.edu/). Other campus resources can be found above.

3. If the issue is not resolved to the student's satisfaction the student can submit the grievance to the Associate Chair for Graduate Studies in writing, within 60 calendar days of the alleged unfair treatment.
4. On receipt of a written complaint, a faculty committee will be convened by the Associate Chair for Graduate Studies to manage the grievance. The faculty committee will obtain a written response from the person toward whom the complaint is directed. This response will be shared with the person filing the grievance.
5. The faculty committee will determine a decision regarding the grievance. The Associate Chair for Graduate Studies will report on the action taken by the committee in writing to both the student and the party toward whom the complaint was directed within 15 working days from the date the complaint was received.
6. At this point, if either party (the student or the person toward whom the grievance is directed) is unsatisfied with the decision of the faculty committee, the party may file a written appeal. Either party has 10 working days to file a written appeal to the School/College.
7. Documentation of the grievance will be stored for at least 7 years. Significant grievances that set a precedent will be stored indefinitely.

The Graduate School has procedures for students wishing to appeal a grievance decision made at the school/college level. These policies are described in the Graduate School's Academic Policies & Procedures: https://grad.wisc.edu/acadpolicy/?policy=grievancesandappeals.

### OTHER

n/a

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Demonstrate an extraordinary, deep understanding of mathematical, scientific, and engineering principles in the field.
2. Demonstrate an ability to formulate, analyze, and independently solve advanced engineering problems.
3. Apply the relevant scientific and technological advancements, techniques, and engineering tools to address these problems.
4. Recognize and apply principles of ethical and professional conduct.
5. Demonstrate an ability to synthesize knowledge from a subset of the biological, physical, and/or social sciences to help frame problems critical to the future of their discipline.
6. Demonstrate an ability to conduct original research and communicate it to their peers.

# MECHANICAL ENGINEERING, DOCTORAL MINOR

## ADMISSIONS

# ADMISSIONS

Students interested in the doctoral minor should first contact the Mechanical Engineering Graduate Coordinator to learn the requirements, process, and complete the required paperwork.

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any doctoral minor. To apply to this minor, log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. Select the information for the doctoral minor for which you are applying.

## REQUIREMENTS

# REQUIREMENTS

Students must complete the following requirements to earn a doctoral minor:

1. Complete at least nine credits in courses numbered 400 or above in Mechanical Engineering (M E (https://guide.wisc.edu/courses/m_e/)).
   a. Research, independent study and seminar courses may not satisfy requirements.
2. At least one course (three credits) must be numbered 700 or above in Mechanical Engineering (M E (https://guide.wisc.edu/courses/m_e/)).
3. Only one course may be cross-listed with the student's major department.
4. Earn a minimum grade of B or higher in all courses taken for the minor.
5. Grades of BC and below are not accepted.

### PRIOR COURSEWORK

Up to six credits of graduate credits earned at other institutions may satisfy requirements.

# MECHANICAL ENGINEERING, MS

The Department of Mechanical Engineering offers a number of master of science (MS) degree programs in Mechanical Engineering.

- MS Mechanical Engineering: Research (p. 1432)
- MS Mechanical Engineering: Accelerated Program (p. 1423)
- MS Mechanical Engineering: Modeling and Simulation in Mechanical Engineering (p. 1427)

The MS Mechanical Engineering degree with a named option in Research takes approximately two years to complete. This program has a significant research component giving students valuable hands-on research experience with mentoring by faculty in the Department of Mechanical Engineering. The MS Mechanical Engineering: Research program requires a written thesis and defense.

The MS Mechanical Engineering degree with named options in Accelerated Program and Modeling and Simulation in Mechanical Engineering each take approximately 16 months to complete. These programs include only coursework.

All students are mentored by the world-class faculty in the mechanical engineering department at UW–Madison. For a list of mechanical engineering faculty along with faculty research interests, please visit our faculty directory (https://engineering.wisc.edu/departments/mechanical-engineering/people/). For more information on research areas, see our page on research in Mechanical Engineering (https://www.engr.wisc.edu/department/mechanical-engineering/research-in-mechanical-engineering/).

## ADMISSIONS

# ADMISSIONS

Students apply to the MS in Mechanical Engineering through one of the named options:

- MS Mechanical Engineering: Research (p. 1432)
- MS Mechanical Engineering: Accelerated Program (p. 1423)
- MS Mechanical Engineering: Modeling and Simulation in Mechanical Engineering (http://guide.wisc.edu/graduate/mechanical-engineering/mechanical-engineering-ms/mechanical-engineering-modeling-simulation-mechanical-engineering-ms/) (suspended, will be discontinued)

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

### MS Research

There are three mechanisms for Graduate Student funding through the university for Mechanical Engineering MS Research students:

1. Fellowships
2. Graduate assistantships: project assistantships, teaching assistantships, and research assistantships
3. Traineeships

Funding is awarded based on the qualifications of the student, the number of applicants, the amount of available funding, the number of continuing students receiving support, and the degree program a student is enrolled in. Fellowship and research assistantship funding is only considered for thesis-based MS students. You can apply for funding for research assistantships by contacting individual faculty members directly. Please check our website (https://engineering.wisc.edu/departments/mechanical-engineering/people/) to look for faculty (only those listed with titles of assistant professor, associate professor, or professor can serve as graduate student advisors). Search for faculty who have research interests that align closely with your own by viewing faculty directory entries, visiting the faculty's website (linked from the directory page), and reviewing publications by the faculty member. Once you have identified faculty with interests close to your own, you are encouraged to contact them by email to inquire regarding available research assistant positions. The admissions office does not know if a particular professor has research assistant positions available.

Students who apply to the MS Research program will be automatically considered for fellowship opportunities within the department. Admitted students will be eligible to apply for Teaching Assistantship positions. More information, including the application, will be available to students after admission is complete.

### MS Accelerated Program and MS Modeling and Simulation in Mechanical Engineering

Students enrolled in the MS Mechanical Engineering named options: Accelerated Program and Modeling and Simulation in Mechanical Engineering are strongly discouraged to pursue positions as Project Assistants, Teaching Assistants or Research Assistants during their time in these programs, as the rigor and accelerated nature of these programs may not accommodate those work time commitments. Students in this program will not receive the tuition remission that is typically part of the compensation package for a graduate assistantship.

## ADDITIONAL RESOURCES

### Office of Student Financial Aid

For information regarding student financial aid, scholarships, and more, visit the Office of Student Financial Aid website (https://financialaid.wisc.edu/).

### International Student Services Funding and Scholarships

For information regarding international student funding and scholarships, visit the International Student Services website (https://iss.wisc.edu/students/new-students/funding-scholarships/).

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 15 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |

| | |
|---|---|
| Overall Graduate GPA Requirement | 3.00 GPA required.<br>Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | See Named Option for policy information. |
| Assessments and Examinations | See Named Option for policy information. |
| Language Requirements | No language requirements. |

### REQUIRED COURSES

Select a Named Option (p. 1423) for required courses.

## NAMED OPTIONS

A named option is a formally documented sub-major within an academic major program. Named options appear on the transcript with degree conferral.

View as listView as grid

- **MECHANICAL ENGINEERING: ACCELERATED PROGRAM, MS (P. 1423)**
- **MECHANICAL ENGINEERING: MODELING AND SIMULATION IN MECHANICAL ENGINEERING, MS (P. 1427)**
- **MECHANICAL ENGINEERING: RESEARCH, MS (P. 1432)**

## POLICIES

## POLICIES

Students should refer to one of the named options for policy information:

- MS Mechanical Engineering: Research (p. 1432)
- MS Mechanical Engineering: Accelerated Program (p. 1423)
- MS Mechanical Engineering: Modeling and Simulation in Mechanical Engineering (http://guide.wisc.edu/graduate/mechanical-engineering/mechanical-engineering-ms/mechanical-engineering-modeling-simulation-mechanical-engineering-ms/)

## PROFESSIONAL DEVELOPMENT

## PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

## LEARNING OUTCOMES

1. Demonstrate a strong understanding of mathematical, scientific, and engineering principles in the field.
2. Demonstrate an ability to formulate, analyze, and independently solve advanced engineering problems.
3. Apply the relevant scientific and technological advancements, techniques, and engineering tools to address these problems.
4. Recognize and apply principles of ethical and professional conduct.

# MECHANICAL ENGINEERING: ACCELERATED PROGRAM, MS

This is a named option within the Mechanical Engineering MS (p. 1421).

The Department of Mechanical Engineering offers a Master of Science (MS) degree in Mechanical Engineering with a named option in Accelerated Program. Graduate students may take coursework in the six Department of Mechanical Engineering emphasis areas: Advanced Manufacturing, Biomechanics, Computational Engineering and Design, Energy Systems, Fluid and Solid Mechanics, and Robotics, Controls and Sensing. The Accelerated Program takes approximately 16 months to complete. The Accelerated Program only includes coursework. Each student will be assigned an academic advisor, based on emphasis area, from the Department of Mechanical Engineering.

## ADMISSIONS

## ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 15 |
| Spring Deadline | September 1 |
| Summer Deadline | This program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not Required.* |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |

| | |
|---|---|
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3** |

* Submitted scores will not be used in admission decisions.

** Applicants earning a BS degree from UW-Madison are not required to obtain any letters of recommendation. Within the Graduate School application, in the letters of recommendation section, applicants must enter three contacts to submit the application. However, these contacts do not need to submit letters.

## APPLICANT CONSIDERATIONS

Applicants to our program should have the following:

1. **Degree**
   a. Bachelor of Science in Mechanical Engineering OR Bachelor of Science in any other engineering or physics and natural science discipline.
   b. International applicants must have a degree comparable to a regionally accredited US bachelor's degree. Review the Graduate School webpage (https://grad.wisc.edu/apply/requirements/) to learn more about comparable degrees by country.
2. **GPA**
   a. The Department of Mechanical Engineering prefers a 3.2/4.0 GPA.
   b. The minimum GPA to be reviewed by the admission committee is 3.0.

## APPLICATION MATERIALS

In addition to the items listed in the table above, a complete application includes the following uploaded to the online application. The submitted application and all application items are due by the deadline above.

1. **Unofficial Transcripts (PDF)**
   a. Most up-to-date unofficial transcript(s) from all previous higher education institutions, regardless of whether a degree was earned. Official transcripts are only requested of recommended applicants.
   b. International academic records must be in the original language accompanied by an official English translation. Review the minimum requirements link above to learn more.
2. **Statement of Purpose**
   a. In this document, applicants should explain why they want to pursue further education in Mechanical Engineering and specifically this program.
   b. The Department of Mechanical Engineering graduate program does not have a required font, word limit, etc. However, we do recommend (not require) a maximum of 2 pages.
   c. See the Graduate School for more advice on how to structure a personal statement (https://grad.wisc.edu/apply/prepare/).
3. **Resume**
4. **Three Letters of Recommendation**
   a. These letters are required from people who can accurately reflect on the applicant's academics and/or work performance.
   b. Letters of recommendation are submitted electronically through the online application.
   c. See the Graduate School FAQs (https://grad.wisc.edu/apply/#FAQ) regarding letters of recommendation.
   d. See exception above for UW-Madison undergraduate students.
5. **Application Fee**
   a. Application submission must be accompanied by the application fee. See the Graduate School FAQs (https://grad.wisc.edu/apply/#FAQ) regarding fees.
   b. Fee grants are available through the conditions outlined here by the Graduate School (https://grad.wisc.edu/apply/fee-grant/).

## REENTRY ADMISSIONS

Review the Graduate School requirements for previously enrolled students (https://policy.wisc.edu/library/UW-1230/). Contact the Department of Mechanical Engineering Graduate Student Services (see Contact Box for link) with questions.

## CURRENTLY ENROLLED GRADUATE STUDENT ADMISSIONS

Students currently enrolled as graduate students at UW-Madison wishing to apply to this degree programs should contact the Department of Mechanical Engineering Graduate Student Services (see Contact Box for link) to inquire about the process and deadlines.

## QUESTIONS

Contact the Department of Mechanical Engineering Graduate Student Services (see Contact Box for link).

# FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

Students enrolled in this program are not eligible to receive tuition remission from graduate assistantship appointments at this institution.

## ADDITIONAL RESOURCES

### Office of Student Financial Aid

For information regarding student financial aid, scholarships, and more, visit the Office of Student Financial Aid website (https://financialaid.wisc.edu/).

### International Student Services Funding and Scholarships

For information regarding international student funding and scholarships, visit the International Student Services website (https://iss.wisc.edu/students/new-students/funding-scholarships/).

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# NAMED OPTION REQUIREMENTS

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | Yes |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 15 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | Students must earn a C or above in all required coursework.<br><br>Students may not have any more than two incompletes on their record at any one time. |
| Assessments and Examinations | None. |
| Language Requirements | No language requirements. |

## REQUIRED COURSES

All courses for the Mechanical Engineering graduate program must be numbered 400 and above. Exception: Up to two courses (6 credits) numbered 300-399 in engineering, math, or the sciences taken at UW-Madison can also be used towards the formal course credit requirement. These courses can be from Mechanical Engineering (M E (https://guide.wisc.edu/courses/m_e/)) and/or Engineering Mechanics (E M A (https://guide.wisc.edu/courses/e_m_a/)) only if approved by the student's advisor and the Mechanical Engineering graduate committee. No thesis/research credits are permitted.

| Code | Title | Credits |
|---|---|---|
| **Graduate Seminar** | | |
| Two semesters of seminar, successfully completed, are required. These should be taken during the first two semesters (Fall and Spring). | | |
| M E 903 | Graduate Seminar (taken twice) | 0 |
| **Formal Credits Requirement** [1] | | |
| Complete the following requirements (requirements may overlap) | | 24 |
| Minimum 24 formal course credits | | |
| Minimum 15 formal credits in Mechanical Engineering (M E) courses taken at UW-Madison [2] | | |
| **Remaining Courses** | | |
| Minimum 6 credits from Formal Course Requirement (above) or following courses: | | 6 |
| M E 699 | Advanced Independent Study | |
| M E 702 | Graduate Cooperative Education Program | |
| Seminar Credits [3] | | |
| **Total Credits** | | **30** |

1. Formal credits/courses are any course offering that is not a seminar course, thesis/research course, independent study, co-op/internship, etc.
2. For a list of mechanical engineering courses numbered 400 and above, review Mechanical Engineering (M E (https://guide.wisc.edu/courses/m_e/)) offerings.
3. Maximum 3 credits of seminar coursework permitted within program/degree.

### Advisor Approval of Study Plan

The faculty advisor must always approve the courses a student takes in the MS program. Students should schedule an appointment with their advisor when selecting their courses. During the final semester, the faculty advisor will review the courses taken again and if approved, sign the warrant request form.

### Other Policy

Students in this program may not take courses outside the prescribed curriculum without faculty advisor and program director approval. Students in this program cannot enroll concurrently in other undergraduate or graduate degree programs.

## POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# NAMED OPTION-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With faculty advisor approval, students may transfer up to 12 credits of graduate coursework from other institutions toward the minimum credit requirement and the minimum graduate coursework (50%) requirement. No credits from other institutions can be counted toward the minimum graduate residence credit requirement. Coursework earned ten or more years prior to admission is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

With faculty advisor approval, students may transfer a maximum of 7 credits from a UW-Madison undergraduate degree or an ABET-accredited undergraduate degree (from another institution). Only coursework that is applicable to the degree curriculum is eligible (based on UW-Madison course/course equivalency number). These credits will not be allowed to satisfy the minimum graduate coursework (50%) requirement unless taken in courses numbered 700 or above (UW-Madison course equivalent). No credits can be applied toward the minimum graduate residence credit requirement. Coursework earned ten or more years prior to admission is not allowed to satisfy requirements.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special student at UW–Madison

With faculty advisor approval, students may transfer up to 15 credits of coursework taken as a UW–Madison University Special student toward the minimum credit requirement. Only coursework that is applicable to the degree curriculum is eligible. UW–Madison coursework taken as a University Special student would not be allowed to count toward the minimum graduate coursework (50%) requirement unless taken in courses numbered 700 or above or are taken to meet the requirements of a capstone certificate and has the "Grad 50%" designation. Coursework earned ten or more years prior to admission is not allowed to satisfy requirements.

## PROBATION

The Department of Mechanical Engineering graduate programs satisfactory academic progress policy may be reviewed in the Graduate Handbook (see Contact box for link).

## ADVISOR / COMMITTEE

All students will be assigned a mechanical engineering faculty advisor, based on emphasis area, who assists them in planning a course sequence that meets degrees requirements and who will discuss career objectives with the students.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Students are expected to complete the Mechanical Engineering MS - Accelerated Program degree program in 16 months (i.e. Fall, Spring, Fall terms). Additional time may be granted with advisor approval.

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

### Mechanical Engineering Grievance Procedures

If a student feels unfairly treated or aggrieved by faculty, staff, or another student, the University offers several avenues to resolve the grievance. Students' concerns about unfair treatment are best handled directly with the person responsible for the objectionable action. If the student is uncomfortable making direct contact with the individual(s) involved, they should contact the advisor or the person in charge of the unit where

the action occurred (program or department chair, section chair, lab manager, etc.). Many departments and schools/colleges have established specific procedures for handling such situations; check their web pages and published handbooks for information. If such procedures exist at the local level, these should be investigated first. For more information see the Graduate School Academic Policies & Procedures: https://grad.wisc.edu/acadpolicy/?policy=grievancesandappeals. The Assistant Dean for Graduate Affairs (engr-dean-graduateaffairs@engr.wisc.edu) provides overall leadership for graduate education in the College of Engineering (CoE), and is a point of contact for graduate students who have concerns about education, mentoring, research, or other difficulties.

1. The student is encouraged to speak first with the person toward whom the grievance is directed to see if a situation can be resolved at this level.
2. Should a satisfactory resolution not be achieved, the student should contact the Associate Chair for Graduate Studies or the John Bollinger Chair of Mechanical Engineering (https://engineering.wisc.edu/departments/mechanical-engineering/people/) to discuss the grievance. The Associate Chair for Graduate Studies or Department Chair will facilitate problem resolution through informal channels and facilitate any complaints or issues of students. The first attempt is to help students informally address the grievance prior to any formal complaint. Students are also encouraged to talk with their faculty advisors regarding concerns or difficulties if necessary. University resources for sexual harassment, discrimination, disability accommodations, and other related concerns can be found on the UW Office of Compliance website (https://compliance.wisc.edu/). Other campus resources can be found above.
3. If the issue is not resolved to the student's satisfaction the student can submit the grievance to the Associate Chair for Graduate Studies in writing, within 60 calendar days of the alleged unfair treatment.
4. On receipt of a written complaint, a faculty committee will be convened by the Associate Chair for Graduate Studies to manage the grievance. The faculty committee will obtain a written response from the person toward whom the complaint is directed. This response will be shared with the person filing the grievance.
5. The faculty committee will determine a decision regarding the grievance. The Associate Chair for Graduate Studies will report on the action taken by the committee in writing to both the student and the party toward whom the complaint was directed within 15 working days from the date the complaint was received.
6. At this point, if either party (the student or the person toward whom the grievance is directed) is unsatisfied with the decision of the faculty committee, the party may file a written appeal. Either party has 10 working days to file a written appeal to the School/College.
7. Documentation of the grievance will be stored for at least 7 years. Significant grievances that set a precedent will be stored indefinitely.

The Graduate School has procedures for students wishing to appeal a grievance decision made at the school/college level. These policies are described in the Graduate School's Academic Policies & Procedures: https://grad.wisc.edu/acadpolicy/?policy=grievancesandappeals.

### OTHER

Students are strongly discouraged to pursue positions as Project Assistants, Teaching Assistants or Research Assistants during their time in this program, as the rigor and accelerated nature of this program may not accommodate those work time commitments. Students in this program will not receive the tuition remission that is typically part of the compensation package for a graduate assistantship.

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

# MECHANICAL ENGINEERING: MODELING AND SIMULATION IN MECHANICAL ENGINEERING, MS

**The Modeling and Simulation named option in the Mechanical Engineering, MS no longer admits new students after Fall 2026 and the program will be discontinued Fall 2028.** If you have any questions, please contact the department (see contact box).

This is a named option within the Mechanical Engineering MS (p. 1421).

The Department of Mechanical Engineering MS named option Modeling and Simulation in Mechanical Engineering is an accelerated (16-month), coursework-only, on-campus degree program with a stated objective of endowing the student with computational engineering literacy and a strong modeling and simulation skillset. This degree program prepares individuals who are interested in mastering the use of computers for the end goal of solving challenging engineering problems via simulation.

## ADMISSIONS

# ADMISSIONS

**The Modeling and Simulation named option in the Mechanical Engineering, MS no longer admits new students after Fall 2026 and the program will be discontinued Fall 2028.** If you have any questions, please contact the department (see contact box).

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 15 |
| Spring Deadline | September 1 |
| Summer Deadline | This program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required.* |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3** |

* Submitted scores will not be used in admission decisions.

** Applicants earning a BS degree from UW-Madison are not required to obtain any letters of recommendation. Within the Graduate School application, in the letters of recommendation section, applicants must enter three contacts to submit the application. However, these contacts do not need to submit letters.

## APPLICANT CONSIDERATIONS

Applicants to our program should have the following:

1. **Degree**
   a. Bachelor of Science in Mechanical Engineering OR Bachelor of Science in any other engineering or physics and natural science discipline.
   b. International applicants must have a degree comparable to a regionally accredited US bachelor's degree. Review the Graduate School webpage (https://grad.wisc.edu/apply/requirements/) to learn more about comparable degrees by country.
2. **GPA**
   a. The Department of Mechanical Engineering prefers a 3.2/4.0 GPA.
   b. The minimum GPA to be reviewed by the admission committee is 3.0.

## APPLICATION MATERIALS

In addition to the items listed in the table above, a complete application includes the following uploaded to the online application. The submitted application and all application items are due by the deadline above.

1. **Unofficial Transcripts (PDF)**
   a. Most up-to-date unofficial transcript(s) from all previous higher education institutions, regardless of whether a degree was earned. Official transcripts are only requested of recommended applicants.
   b. International academic records must be in the original language accompanied by an official English translation.
2. **Statement of Purpose**
   a. In this document, applicants should explain why they want to pursue further education in Mechanical Engineering and specifically this program.
   b. The Department of Mechanical Engineering graduate program does not have a required font, word limit, etc. However, we do recommend (not require) a maximum of 2 pages.
   c. See the Graduate School for more advice on how to structure a personal statement (https://grad.wisc.edu/apply/prepare/).
3. **Resume**
4. **Three Letters of Recommendation**
   a. These letters are required from people who can accurately reflect on the applicant's academics and/or work performance.
   b. Letters of recommendation are submitted electronically through the online application.
   c. See the Graduate School FAQs (https://grad.wisc.edu/apply/#FAQ) regarding letters of recommendation.
   d. See exception above for UW-Madison undergraduate students.
5. **Application Fee**
   a. Application submission must be accompanied by the application fee. See the Graduate School FAQs (https://grad.wisc.edu/apply/#FAQ) regarding fees.
   b. Fee grants are available through the conditions outlined here by the Graduate School (https://grad.wisc.edu/apply/fee-grant/).

## REENTRY ADMISSIONS

Review the Graduate School requirements for previously enrolled students (https://policy.wisc.edu/library/UW-1230/). Contact the Department of Mechanical Engineering Graduate Student Services (see Contact Box for link) with questions.

## CURRENTLY ENROLLED GRADUATE STUDENT ADMISSIONS

Students currently enrolled as graduate students at UW-Madison wishing to apply to this degree programs should contact the Department of Mechanical Engineering Graduate Student Services (see Contact Box for link) to inquire about the process and deadlines.

## QUESTIONS

Contact the Department of Mechanical Engineering Graduate Student Services (see Contact Box for link).

# FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

Students enrolled in this program are not eligible to receive tuition remission from graduate assistantship appointments at this institution.

## ADDITIONAL RESOURCES

### Office of Student Financial Aid

For information regarding student financial aid, scholarships, and more, visit the Office of Student Financial Aid website (https://financialaid.wisc.edu/).

### International Student Services Funding and Scholarships

For information regarding international student funding and scholarships, visit the International Student Services website (https://iss.wisc.edu/students/new-students/funding-scholarships/).

# REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# NAMED OPTION REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | Yes |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 15 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required.<br>Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | Students must earn a C or above in all formal coursework.<br><br>Students may not have more than two incompletes on their record at any one time. |
| Assessments and Examinations | None. |
| Language Requirements | No language requirements. |

## REQUIRED COURSES

All courses for the Mechanical Engineering graduate program must be numbered 400 and above. Exception: Up to two courses (6 credits) numbered 300-399 in engineering, math, or the sciences taken at UW-Madison can also be used towards the formal course credit requirement. These courses can be from Mechanical Engineering (M E (https://guide.wisc.edu/courses/m_e/)) and/or Engineering Mechanics (E M A (https://guide.wisc.edu/courses/e_m_a/)) only if approved by the student's advisor and the Mechanical Engineering graduate committee. No thesis/research credits are permitted.

| Code | Title | Credits |
|---|---|---|
| **Graduate Seminar** | | |
| Two semesters of seminar, successfully completed, are required. These should be taken during the first two semesters (Fall and Spring). | | |
| M E 903 | Graduate Seminar (taken twice) | 0 |
| **Formal Credits Requirement** [1] | | |
| Complete the following requirements (requirements may overlap) | | 24 |
| Minimum 24 formal course credits | | |
| Minimum 15 formal credits in Mechanical Engineering (M E) taken at UW-Madison | | |
| Minimum 15 formal credits (5 courses) from the Core Courses list (below) | | |
| **Remaining Courses** | | |
| Minimum 6 credits from Formal Credits Requirement (above) or following courses: | | 6 |
| M E 699 | Advanced Independent Study | |
| M E 702 | Graduate Cooperative Education Program | |
| Seminar Credits [2] | | |
| **Total Credits** | | **30** |

1 Formal credits/courses are any course offering that is not a seminar course, thesis/research course, independent study, co-op/internship, etc.

2 Maximum 3 credits of seminar coursework permitted within program/degree.

### Core Courses List:

| Code | Title | Credits |
|---|---|---|
| A minimum of 5 courses (15 credits total) must be taken from the courses listed: | | |
| M E/E M A 440 | Mechanical Vibrations | |
| M E/E C E 441 | Kinematics, Dynamics, and Control of Robotic Manipulators | |

| | |
|---|---|
| M E 451 | Kinematics and Dynamics of Machine Systems |
| M E 459 | Computing Concepts for Applications in Engineering |
| M E 460 | Applied Thermal / Structural Finite Element Analysis |
| M E 468 | Computer Modeling and Simulation of Autonomous Vehicles and Robots |
| M E/B M E 516 | Finite Elements for Biological and Other Soft Materials |
| M E/COMP SCI/ E C E 532 | Matrix Methods in Machine Learning |
| M E 535 | Computer-Aided Geometric Design |
| M E 548 | Introduction to Design Optimization |
| M E 563 | Intermediate Fluid Dynamics |
| M E 564 | Heat Transfer |
| M E 573 | Computational Fluid Dynamics |
| M E 601 | Special Topics in Mechanical Engineering (Applied & Computational Math w/Engineering Apps) |
| M E 601 | Special Topics in Mechanical Engineering (AI in Mechanical Engineering) |
| M E 748 | Optimum Design of Mechanical Elements and Systems |
| M E 771 | Modeling and Design of Electrochemical Systems for Energy Storage and Sensing |
| M E 751 | Advanced Computational Dynamics |
| M E/COMP SCI/ E C E/E M A/ E P 759 | High Performance Computing for Applications in Engineering |
| M E 764 | Advanced Heat Transfer I-Conduction |
| M E 964 | Special Advanced Topics in Mechanical Engineering (Topic: "Sci Computing for Apps in Eng") |
| E M A 421 | Aerodynamics |
| E M A 422 | Aerodynamics Laboratory |
| E M A 605 | Introduction to Finite Elements |
| E M A 705 | Advanced Topics in Finite Elements |
| COMP SCI 412 | Introduction to Numerical Methods |
| COMP SCI/ MATH 513 | Numerical Linear Algebra |
| COMP SCI/ MATH 514 | Numerical Analysis |
| COMP SCI/E C E/ I SY E 524 | Introduction to Optimization |
| COMP SCI/E C E/ M E 539 | Introduction to Artificial Neural Networks |

### Advisor Approval of Study Plan

The faculty advisor must always approve the courses a student takes in the MS program. Students should schedule an appointment with their advisor when selecting their courses. During the final semester, the faculty advisor will review the courses taken again and if approved, sign the warrant request form.

### Other Policy

Students in this program may not take courses outside the prescribed curriculum without faculty advisor and program director approval. Students in this program cannot enroll concurrently in other undergraduate or graduate degree programs.

## POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# NAMED OPTION-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With faculty advisor approval, students may transfer up to 12 credits of graduate coursework from other institutions toward the minimum credit requirement and the minimum graduate coursework (50%) requirement. No credits from other institutions can be counted toward the minimum graduate residence credit requirement. Coursework earned ten or more years prior to admission is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

With faculty advisor approval, students may transfer a maximum of 7 credits from a UW-Madison undergraduate degree or an ABET-accredited undergraduate degree (from another institution). Only coursework that is applicable to the degree curriculum is eligible (based on UW-Madison course/course equivalency number). These credits will not be allowed to satisfy the minimum graduate coursework (50%) requirement unless taken in courses numbered 700 or above (UW-Madison course equivalent). No credits can be applied toward the minimum graduate residence credit requirement. Coursework earned ten or more years prior to admission is not allowed to satisfy requirements.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

With faculty advisor approval, students may transfer up to 15 credits of coursework taken as a UW–Madison Special student. Only coursework that is applicable to the degree curriculum is eligible. UW–Madison coursework taken as a University Special student would not be allowed to count toward the minimum graduate coursework (50%) requirement unless taken in courses numbered 700 or above or are taken to meet the requirements of a capstone certificate and has the "Grad 50%" designation. Coursework

earned ten or more years prior to admission is not allowed to satisfy requirements.

## PROBATION

The Department of Mechanical Engineering graduate programs satisfactory academic progress policy may be reviewed in the Graduate Handbook (see Contact box for link).

## ADVISOR / COMMITTEE

All students will be assigned a mechanical engineering faculty advisor who assists them in planning a course sequence that meets degrees requirements and who will discuss career objectives with the students.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Students are expected to complete the Mechanical Engineering MS - Modeling and Simulation in Mechanical Engineering degree program in 16 months (i.e. Fall, Spring, Fall terms). Additional time may be granted with advisor approval.

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

### Mechanical Engineering Grievance Procedures

If a student feels unfairly treated or aggrieved by faculty, staff, or another student, the University offers several avenues to resolve the grievance. Students' concerns about unfair treatment are best handled directly with the person responsible for the objectionable action. If the student is uncomfortable making direct contact with the individual(s) involved, they should contact the advisor or the person in charge of the unit where the action occurred (program or department chair, section chair, lab manager, etc.). Many departments and schools/colleges have established specific procedures for handling such situations; check their web pages and published handbooks for information. If such procedures exist at the local level, these should be investigated first. For more information see the Graduate School Academic Policies & Procedures: https://grad.wisc.edu/acadpolicy/?policy=grievancesandappeals. The Assistant Dean for Graduate Affairs (engr-dean-graduateaffairs@engr.wisc.edu) provides overall leadership for graduate education in the College of Engineering (CoE), and is a point of contact for graduate students who have concerns about education, mentoring, research, or other difficulties.

1. The student is encouraged to speak first with the person toward whom the grievance is directed to see if a situation can be resolved at this level.
2. Should a satisfactory resolution not be achieved, the student should contact the Associate Chair for Graduate Studies or the John Bollinger Chair of Mechanical Engineering (https://engineering.wisc.edu/departments/mechanical-engineering/people/) to discuss the grievance. The Associate Chair for Graduate Studies or Department Chair will facilitate problem resolution through informal channels and facilitate any complaints or issues of students. The first attempt is to help students informally address the grievance prior to any formal complaint. Students are also encouraged to talk with their faculty advisors regarding concerns or difficulties if necessary. University resources for sexual harassment, discrimination, disability accommodations, and other related concerns can be found on the UW Office of Compliance website (https://compliance.wisc.edu/). Other campus resources can be found above.
3. If the issue is not resolved to the student's satisfaction the student can submit the grievance to the Associate Chair for Graduate Studies in writing, within 60 calendar days of the alleged unfair treatment.
4. On receipt of a written complaint, a faculty committee will be convened by the Associate Chair for Graduate Studies to manage the grievance. The faculty committee will obtain a written response from the person toward whom the complaint is directed. This response will be shared with the person filing the grievance.
5. The faculty committee will determine a decision regarding the grievance. The Associate Chair for Graduate Studies will report on the action taken by the committee in writing to both the student and the party toward whom the complaint was directed within 15 working days from the date the complaint was received.
6. At this point, if either party (the student or the person toward whom the grievance is directed) is unsatisfied with the decision of the faculty committee, the party may file a written appeal. Either party has 10 working days to file a written appeal to the School/College.

7. Documentation of the grievance will be stored for at least 7 years. Significant grievances that set a precedent will be stored indefinitely.

The Graduate School has procedures for students wishing to appeal a grievance decision made at the school/college level. These policies are described in the Graduate School's Academic Policies & Procedures: https://grad.wisc.edu/acadpolicy/?policy=grievancesandappeals.

### OTHER

Students are strongly discouraged to pursue positions as Project Assistants, Teaching Assistants or Research Assistants during their time in this program, as the rigor and accelerated nature of this program may not accommodate those work time commitments. Students in this program will not receive the tuition remission that is typically part of the compensation package for a graduate assistantship.

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

# MECHANICAL ENGINEERING: RESEARCH, MS

This is a named option in the Mechanical Engineering MS (p. 1421).

The Department of Mechanical Engineering offers a Master of Science (MS) Mechanical Engineering degree with a named option in Research. The MS Mechanical Engineering: Research degree program takes approximately two years to complete. This program has a significant research component giving students valuable hands-on research experience. Broad research themes within the department include: biomechanics, computational engineering and design, energy systems, advanced manufacturing, mechanics, and robotics, controls and sensing. Excellent research facilities are available for specialized research within these broad areas for studies in: biomechanics, combustion, computational design, controls, cryogenics, dynamics and vibrations, fluid dynamics, fluid power, geometric modeling and prototyping, heat and mass transfer, internal combustion engines, laser diagnostics, manufacturing processes, mechanics, mechatronics, polymer and composites processing, powertrain control, robotics, solar energy, and more.

All students are mentored by the world-class faculty in the mechanical engineering department at UW–Madison. For a list of mechanical engineering faculty along with faculty research interests, please visit our faculty directory (https://engineering.wisc.edu/departments/mechanical-engineering/people/). For more information on research areas see our page on research in Mechanical Engineering (https://www.engr.wisc.edu/department/mechanical-engineering/research-in-mechanical-engineering/).

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 15 |
| Spring Deadline | September 1 |
| Summer Deadline | December 15 |
| GRE (Graduate Record Examinations) | Not Required.* |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

* Submitted scores will not be used in admission decisions.

### APPLICANT CONSIDERATIONS

Applicants to our program should have the following:

1. **Degree**
   a. Bachelor of Science in Mechanical Engineering OR Bachelor of Science in any other engineering or physics and natural science discipline.
   b. International applicants must have a degree comparable to a regionally accredited US bachelor's degree. Review the Graduate School webpage (https://grad.wisc.edu/apply/requirements/) to learn more about comparable degrees by country.
2. **GPA**
   a. The Department of Mechanical Engineering prefers a 3.2/4.0 GPA.
   b. The minimum GPA to be reviewed by the admission committee is 3.0.
3. **Faculty Advisor**
   a. Applicants must seek out and secure their own faculty advisor as part of the application process. This may be done prior to, during, and/or after submission of the online application.
   b. To seek out a faculty advisor, review the department Research (https://engineering.wisc.edu/departments/mechanical-engineering/research/) and People (https://engineering.wisc.edu/departments/mechanical-engineering/

people/)websites. Assistant Professors, Associate Professors, and Professors are eligible to be graduate advisors. *Please do not contact Emeritus faculty, lecturers, Research Scientists, or Faculty Associates.*

c. You are encouraged to inquire about possible funding opportunities. (See Funding tab in the right-side column on this page for funding information.)

## APPLICATION MATERIALS

In addition to the items listed in the table above, a complete application includes the following uploaded to the online application. The submitted application and all application items are due by the deadline above.

1. **Unofficial Transcripts (PDF)**
   a. Most up-to-date unofficial transcript(s) from all previous higher education institutions, regardless of whether a degree was earned. Official transcripts are only requested of recommended applicants.
   b. International academic records must be in the original language accompanied by an official English translation. Review the minimum requirements link above to learn more.
2. **Statement of Purpose**
   a. In this document, applicants should explain why they want to pursue further education in Mechanical Engineering, specifically this program and which UW faculty they are interested in doing research with.
   b. The Department of Mechanical Engineering graduate program does not have a required font, word limit, etc. However, we do recommend (not require) a maximum of 2 pages.
   c. See the Graduate School for more advice on how to structure a personal statement (https://grad.wisc.edu/apply/prepare/).
3. **Resume**
4. **Three Letters of Recommendation**
   a. These letters are required from people who can accurately reflect on the applicant's academics and/or work performance.
   b. Letters of recommendation are submitted electronically through the online application.
   c. See the Graduate School FAQs (https://grad.wisc.edu/apply/#FAQ) regarding letters of recommendation.
5. **Application Fee**
   a. Application submission must be accompanied by the application fee. See the Graduate School FAQs (https://grad.wisc.edu/apply/#FAQ) regarding fees.
   b. Fee grants are available through the conditions outlined here by the Graduate School (https://grad.wisc.edu/apply/fee-grant/).

## REENTRY ADMISSIONS

Review the Graduate School requirements for previously enrolled students (https://policy.wisc.edu/library/UW-1230/). Contact the Department of Mechanical Engineering Graduate Student Services (see Contact Box for link) with questions.

## CURRENTLY ENROLLED GRADUATE STUDENT ADMISSIONS

Students currently enrolled as graduate students at UW-Madison wishing to apply to this degree programs should contact the Department of Mechanical Engineering Graduate Student Services (see Contact Box for link) to inquire about the process and deadlines.

## QUESTIONS

Contact the Department of Mechanical Engineering Graduate Student Services (see Contact Box for link).

# FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

There are three mechanisms for Graduate Student funding through the university for MS Mechanical Engineering: Research students:

1. Fellowships
2. Graduate assistantships: project assistantships, teaching assistantships, and research assistantships
3. Traineeships

Funding is awarded based on the qualifications of the student, the number of applicants, the amount of available funding, the number of continuing students receiving support, and the degree program a student is enrolled in. Fellowship and research assistantship funding is only considered for thesis-based MS students. You can apply for funding for research assistantships by contacting individual faculty members directly. Review our website (https://engineering.wisc.edu/departments/mechanical-engineering/people/) to look for faculty (only those listed with titles of assistant professor, associate professor, or professor can serve as graduate student advisors). Search for faculty who have research interests (https://engineering.wisc.edu/departments/mechanical-engineering/research/) that align closely with your own by viewing faculty directory entries, visiting the faculty's website (linked from the directory page), and reviewing publications by the faculty member. After you have identified faculty with interests close to your own, you are encouraged to contact them by email to inquire regarding available research assistant positions. The admissions office does not know if a particular professor has research assistant positions available.

Students who apply to the MS Research program will be automatically considered for fellowship opportunities within the department. Admitted students will be eligible to apply for Teaching Assistantship positions. More information, including the application, will be available to students after admission is complete.

More information on graduate student funding is available from the UW-Madison Graduate School (https://grad.wisc.edu/funding/).

## ADDITIONAL RESOURCES

### Office of Student Financial Aid

For information regarding student financial aid, scholarships, and more, visit the Office of Student Financial Aid website (https://financialaid.wisc.edu/).

### International Student Services Funding and Scholarships

For information regarding international student funding and scholarships, visit the International Student Services website (https://iss.wisc.edu/students/new-students/funding-scholarships/).

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 15 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required.<br>Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | Students must earn a C or above in all formal coursework.<br><br>Students may not have more than two incompletes on their record at any one time. |
| Assessments and Examinations | The MS Mechanical Engineering: Research requires the student pass a formal thesis defense. |
| Language Requirements | No language requirements. |

## REQUIRED COURSES

All courses for the Mechanical Engineering graduate program must be numbered 400 and above. Exception: Up to one course (3 credits) numbered 300-399 in engineering, math, or the sciences taken at UW-Madison can also be used towards the formal course credit requirement. This course can be from Mechanical Engineering (M E (https://guide.wisc.edu/courses/m_e/)) and/or Engineering Mechanics (E M A (https://guide.wisc.edu/courses/e_m_a/)) only if approved by the student's advisor and the Mechanical Engineering graduate committee.

| Code | Title | Credits |
|---|---|---|
| **Seminar Requirement** | | |
| Two terms of seminar, successfully completed, are required. These should be taken in the first two terms of enrollment. Passing/satisfactory grades are required for both terms. | | |
| M E 903 | Graduate Seminar (taken twice) | 0 |
| **Research Credits Requirement** | | |
| Students complete at least 9 credits of the following: [1] | | 9 |
| M E 790 | Master's Research and Thesis | |
| **Formal Credits Requirement** [2] | | |
| Complete the following requirements (requirements may overlap) | | 18 |
| Minimum 9 formal credits in Mechanical Engineering (M E) and/or Engineering Mechanics (E M A), taken at UW-Madison | | |
| Minimum 3 formal course credits numbered 700 or higher | | |
| Remaining credits to get to 18 minimum | | |
| **Remaining Courses** | | |
| Course Options: | | 3 |
| Formal Course or Research Credits, as approved by faculty advisor | | |
| **Total Credits** | | **30** |

1. An overall grade of S is required. M E 890 and/or M E 990 may be used in place of, or addition to, M E 790.
2. Formal credits/courses are any course offering that is not a seminar course, thesis/research course, independent study, co-op/internship, etc.

### Advisor Approval of Study Plan

The faculty advisor must always approve the courses a student takes in the MS program. Students should schedule an appointment with their advisor when selecting their courses. During the final semester, the faculty advisor will review the courses taken again and if approved, sign the warrant request form.

POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# NAMED OPTION-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With faculty advisor approval, students may transfer up to 9 credits of previously earned graduate coursework from other institutions toward the minimum credit requirement and the minimum graduate coursework (50%) requirement. No credits from other institutions can be counted toward the minimum graduate residence credit requirement. Coursework earned ten or more years prior to admission is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW–Madison

With faculty advisor approval, students may transfer a maximum of 7 credits from a UW-Madison undergraduate degree or an ABET-accredited undergraduate degree (from another institution). Only coursework that is applicable to the degree curriculum is eligible (based on UW-Madison course/course equivalency number). These credits will not be allowed to satisfy the minimum graduate coursework (50%) requirement unless taken in courses numbered 700 or above (UW-Madison course equivalent). No credits can be applied toward the minimum graduate residence credit requirement. Coursework earned ten or more years prior to admission is not allowed to satisfy requirements.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

With faculty advisor approval, students may transfer up to 15 credits of coursework taken as a UW–Madison Special student toward the minimum credit requirement. Only coursework that is applicable to the degree curriculum is eligible. UW–Madison coursework taken as a University Special student would not be allowed to count toward the minimum graduate coursework (50%) requirement unless taken in courses numbered 700 or above or are taken to meet the requirements of a capstone certificate and has the "Grad 50%" designation. Coursework earned ten years or more prior to admission is not allowed to satisfy requirements.

## PROBATION

The Department of Mechanical Engineering graduate programs satisfactory academic progress policy may be reviewed in the Graduate Handbook (see Contact box for link).

## ADVISOR / COMMITTEE

All students are required to obtain a mechanical engineering faculty advisor who assists them in planning a course sequence that meets degrees requirements, mentors and supervises thesis research, and who will discuss career objectives with the students. The advisor should be a faculty member whose expertise and project/research interests match closely with those that the student intends to acquire.

A final thesis defense must be presented to a thesis committee of at least three members (but no more than five) consisting of the student's advisor who is the committee chair (who must be a member of the Mechanical Engineering faculty), one other graduate faculty or former graduate faculty up to one year after resignation or retirement, and one of the following: a third graduate faculty member, a retired faculty member with emeritus status, or a UW– Madison academic staff member who has been approved by the Mechanical Engineering executive committee.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

### Mechanical Engineering Grievance Procedures

If a student feels unfairly treated or aggrieved by faculty, staff, or another student, the University offers several avenues to resolve the grievance. Students' concerns about unfair treatment are best handled directly with the person responsible for the objectionable action. If the student is uncomfortable making direct contact with the individual(s) involved, they should contact the advisor or the person in charge of the unit where the action occurred (program or department chair, section chair, lab manager, etc.). Many departments and schools/colleges have established specific procedures for handling such situations; check their web pages and published handbooks for information. If such procedures exist at the local level, these should be investigated first. For more information see the Graduate School Academic Policies & Procedures: https://grad.wisc.edu/acadpolicy/?policy=grievancesandappeals. The Assistant Dean for Graduate Affairs (engr-dean-graduateaffairs@engr.wisc.edu) provides overall leadership for graduate education in the College of Engineering (CoE), and is a point of contact for graduate students who have concerns about education, mentoring, research, or other difficulties.

1. The student is encouraged to speak first with the person toward whom the grievance is directed to see if a situation can be resolved at this level.
2. Should a satisfactory resolution not be achieved, the student should contact the Associate Chair for Graduate Studies or the John Bollinger Chair of Mechanical Engineering (https://engineering.wisc.edu/departments/mechanical-engineering/people/) to discuss the grievance. The Associate Chair for Graduate Studies or Department Chair will facilitate problem resolution through informal channels and facilitate any complaints or issues of students. The first attempt is to help students informally address the grievance prior to any formal complaint. Students are also encouraged to talk with their faculty advisors regarding concerns or difficulties if necessary. University resources for sexual harassment, discrimination, disability accommodations, and other related concerns can be found on the UW Office of Compliance website (https://compliance.wisc.edu/). Other campus resources can be found above.
3. If the issue is not resolved to the student's satisfaction the student can submit the grievance to the Associate Chair for Graduate Studies in writing, within 60 calendar days of the alleged unfair treatment.
4. On receipt of a written complaint, a faculty committee will be convened by the Associate Chair for Graduate Studies to manage the grievance. The faculty committee will obtain a written response from the person toward whom the complaint is directed. This response will be shared with the person filing the grievance.
5. The faculty committee will determine a decision regarding the grievance. The Associate Chair for Graduate Studies will report on the action taken by the committee in writing to both the student and the party toward whom the complaint was directed within 15 working days from the date the complaint was received.
6. At this point, if either party (the student or the person toward whom the grievance is directed) is unsatisfied with the decision of the faculty committee, the party may file a written appeal. Either party has 10 working days to file a written appeal to the School/College.
7. Documentation of the grievance will be stored for at least 7 years. Significant grievances that set a precedent will be stored indefinitely.

The Graduate School has procedures for students wishing to appeal a grievance decision made at the school/college level. These policies are described in the Graduate School's Academic Policies & Procedures: https://grad.wisc.edu/acadpolicy/?policy=grievancesandappeals.

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

# MECHANICAL ENGINEERING, PHD

The doctoral program in the Department of Mechanical Engineering prepares students to perform independent research in areas of faculty expertise within the department. The PhD program in Mechanical Engineering is designed to train outstanding students for advanced work in industry, national labs, and academia through a combination of coursework and hands on research.

PhD students are mentored by faculty to become world-class researchers. The Department of Mechanical Engineering has a long history of excellence in graduate education. The department is consistently ranked in the top 20 in the United States for graduate programs in mechanical engineering. The department offers research opportunities in a large number of established and emerging research specializations. Broad research themes within the department include: advanced manufacturing, biomechanics, computational engineering and design, energy systems, fluid and solid mechanics, and robotics, controls and sensing. Excellent research facilities are available for specialized research within these broad areas for studies in: biomechanics, combustion, computational design, controls, cryogenics, dynamics and vibrations, fluid dynamics, fluid power, geometric modeling and prototyping, heat and mass transfer, internal combustion engines, laser diagnostics, manufacturing processes, mechanics, mechatronics, polymer and composites processing, powertrain control, robotics, solar energy, and more.

For a list of mechanical engineering faculty along with faculty research interests, please visit our faculty directory (https://engineering.wisc.edu/departments/mechanical-engineering/people/). For more information on research areas see our page on research in Mechanical Engineering (https://www.engr.wisc.edu/department/mechanical-engineering/research-in-mechanical-engineering/).

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed

admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 15 |
| Spring Deadline | September 1 |
| Summer Deadline | December 15 |
| GRE (Graduate Record Examinations) | Not Required.* |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

* Submitted scores will not be used in admission decisions.

## APPLICANT CONSIDERATIONS

Applicants to our program should have the following:

1. **Degree**
   a. Bachelor of Science in Mechanical Engineering OR Bachelor of Science in any other engineering or physics and natural science discipline.
   b. International applicants must have a degree comparable to a regionally accredited US bachelor's degree. Review the Graduate School webpage (https://grad.wisc.edu/apply/requirements/) to learn more about comparable degrees by country.
2. **GPA**
   a. The Department of Mechanical Engineering prefers a 3.2/4.0 GPA.
   b. The minimum GPA to be reviewed by the admission committee is 3.0.
3. **Faculty Advisor**
   a. Applicants must seek out and secure their own faculty advisor as part of the application process. This may be done prior to, during, and/or after submission of the online application.
   b. To seek out a faculty advisor, review the department Research (https://engineering.wisc.edu/departments/mechanical-engineering/research/) and People (https://engineering.wisc.edu/departments/mechanical-engineering/people/)websites. Assistant Professors, Associate Professors, and Professors are eligible to be graduate advisors. *Please do not contact Emeritus faculty, lecturers, Research Scientists, or Faculty Associates.*
   c. You are encouraged to inquire about possible funding opportunities. (See Funding tab in the right-side column on this page for funding information.)

## APPLICATION MATERIALS

In addition to the items listed in the table above, a complete application includes the following uploaded to the online application. The submitted application and all application items are due by the deadline above.

1. **Unofficial Transcripts (PDF)**
   a. Most up-to-date unofficial transcript(s) from all previous higher education institutions, regardless of whether a degree was earned. Official transcripts are only requested of recommended applicants.
   b. International academic records must be in the original language accompanied by an official English translation. Review the minimum requirements link above to learn more.
2. **Statement of Purpose**
   a. In this document, applicants should explain why they want to pursue further education in Mechanical Engineering, specifically this program and which UW faculty they are interested in doing research with.
   b. The Department of Mechanical Engineering graduate program does not have a required font, word limit, etc. However, we do recommend (not require) a maximum of 2 pages.
   c. See the Graduate School for more advice on how to structure a personal statement (https://grad.wisc.edu/apply/prepare/).
3. **Resume**
4. **Three Letters of Recommendation**
   a. These letters are required from people who can accurately reflect on the applicant's academics and/or work performance.
   b. Letters of recommendation are submitted electronically through the online application.
   c. See the Graduate School FAQs (https://grad.wisc.edu/apply/#faq) regarding letters of recommendation.
5. **Application Fee**
   a. Application submission must be accompanied by the application fee. See the Graduate School FAQs (https://grad.wisc.edu/apply/#faq) regarding fees.
   b. Fee grants are available through the conditions outlined here by the Graduate School (https://grad.wisc.edu/apply/fee-grant/).

## REENTRY ADMISSIONS

Review the Graduate School requirements for previously enrolled students (https://policy.wisc.edu/library/UW-1230/). Contact the Department of Mechanical Engineering Graduate Student Services (see Contact Box for link) with questions.

## CURRENTLY ENROLLED GRADUATE STUDENT ADMISSIONS

Students currently enrolled as graduate students at UW-Madison wishing to apply to this degree programs should contact the Department of Mechanical Engineering Graduate Student Services (see Contact Box for link) to inquire about the process and deadlines.

## QUESTIONS

Contact the Department of Mechanical Engineering Graduate Student Services (see Contact Box for link).

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

There are three mechanisms for Graduate Student funding through the university for Mechanical Engineering PhD students:

1. Fellowships
2. Graduate assistantships: project assistantships, teaching assistantships, and research assistantships
3. Traineeships

Funding is awarded based on the qualifications of the student, the number of applicants, the amount of available funding, and the number of continuing students receiving support. You can apply for funding for research assistantships by contacting individual faculty members directly. Review our website (https://engineering.wisc.edu/departments/mechanical-engineering/people/) to look for faculty (only those listed with titles of assistant professor, associate professor, or professor can serve as graduate student advisors). Search for faculty who have research interests (https://engineering.wisc.edu/departments/mechanical-engineering/research/) that align closely with your own by viewing faculty directory entries, visiting the faculty's website (linked from the directory page), and reviewing publications by the faculty member. After you have identified faculty with interests close to your own, you are encouraged to contact them by email to inquire regarding available research assistant positions. The admissions office does not know if a particular professor has research assistant positions available.

Students who apply to the department will be automatically considered for fellowship opportunities within the department. Admitted students will be eligible to apply for Teaching Assistantship positions. More information, including the application, will be available to students after admission is complete.

## ADDITIONAL RESOURCES

### Office of Student Financial Aid

For information regarding student financial aid, scholarships, and more, visit the Office of Student Financial Aid website (https://financialaid.wisc.edu/).

### International Student Services Funding and Scholarships

For information regarding international student funding and scholarships, visit the International Student Services website (https://iss.wisc.edu/students/new-students/funding-scholarships/).

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 60 credits |
| Minimum Residence Credit Requirement | 32 credits |
| Minimum Graduate Coursework Requirement | 30 credits must be graduate-level coursework. Details can be found in the Graduate School's Minimum Graduate Coursework (50%) Requirement Policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/) |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | Students must earn a C or above in all formal coursework. PhD candidates may not have any more than two Incompletes on their record at any one time. |
| Assessments and Examinations | The PhD candidate will need to pass a qualifying exam, preliminary exam, and a final defense in order to obtain a degree. |

| | |
|---|---|
| Language Requirements | No language requirements. |
| Graduate School Breadth Requirement | All doctoral students are required to complete a doctoral minor or graduate/professional certificate. Refer to the Graduate School: Breadth Requirement in Doctoral Training policy: https://policy.wisc.edu/library/UW-1200 (https://policy.wisc.edu/library/UW-1200/). |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Seminar Requirement** [1] | | |
| Two terms of seminar, successfully completed, are required. These should be completed in the first two terms of enrollment. [1] | | 0 |
| M E 903 | Graduate Seminar | |
| **Research Credits Requirement** | | |
| Students complete at least 24 credits of research. Course options include: [2] | | 24 |
| M E 790 | Master's Research and Thesis | |
| M E 890 | PhD Research and Thesis | |
| M E 990 | Dissertator Research and Thesis | |
| **Formal Credits Requirement** [3] | | |
| Complete the following requirements (requirements may overlap) [4] | | 36 |
| Minimum 9 credits (usually 3 courses) numbered 700 or above | | |
| Minimum 3 credits (usually 1 course) numbered 700 or above in Mechanical Engineering (M E) and/or Engineering Mechanics (E M A) taken at UW-Madison | | |
| Minimum 3 credits (1 course) math course from Math Requirement Course List (see below) | | |
| Remaining credits to get to 36 minimum [5] | | |
| **Total Credits** | | **60** |

1. If a UW-Madison Mechanical Engineering MS degree was completed with two successful terms of M E 903, then an additional two terms are not required.
2. An overall grade of S is required.
3. Formal credits/courses are any course offering that is not a seminar course, thesis/research course, independent study, co-op/internship, etc.
4. Students must complete a minimum of 36 credits of formal coursework inclusive of the requirements listed below.
5. Acceptable courses for remainder of the required 36 formal credits (this total includes the courses taken in the PhD breadth requirement) are formal courses numbered 400 and above.

### Math Requirement Course List

| Code | Title | Credits |
|---|---|---|
| M E 737 | Scientific Computing and Machine Learning for Engineering Applications | 3 |
| E P 476 | Introduction to Scientific Computing for Engineering Physics | 3 |
| E M A/E P 547 | Engineering Analysis I | 3 |
| E M A/E P 548 | Engineering Analysis II | 3 |
| MATH 321 | Applied Mathematical Analysis 1: Vector and Complex Calculus | 3 |
| MATH 322 | Applied Mathematical Analysis 2: Partial Differential Equations | 3 |
| Courses numbered 400 and above in Math Department | | |
| Courses numbered 400 and above in Statistics Department | | |
| Graduate "transfer credits" equivalent to the above | | |

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With faculty advisor and Department of Mechanical Engineering Graduate Committee approval, students are allowed to transfer up to 28 credits of graduate coursework from other institutions toward the minimum graduate degree credit requirement and the minimum graduate coursework (50%) requirement. No credits from other institutions can be counted toward the minimum graduate residence credit requirement. Coursework earned ten years or more prior to admission is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

With faculty advisor approval, students may transfer a maximum of 7 credits from a UW-Madison undergraduate degree or an ABET-accredited undergraduate degree (from another institution). Only coursework that is applicable to the degree curriculum is eligible (based on UW-Madison course/course equivalency number). These credits will not be allowed to satisfy the minimum graduate coursework (50%) requirement unless taken in courses numbered 700 or above (UW-Madison course equivalent). No credits can be applied toward the minimum graduate residence credit requirement. Coursework earned ten or more years prior to admission is not allowed to satisfy requirements.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

With faculty advisor and Department of Mechanical Engineering Graduate Committee approval, refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

## PROBATION

The Department of Mechanical Engineering Graduate Committee academic progress policy may be reviewed in the Graduate Handbook (see Contact box for link).

## ADVISOR / COMMITTEE

All students must have a mechanical engineering faculty advisor who assists them in planning a course sequence that meets degree requirements, who helps guide them and mentor them in their research, and who will discuss career objectives with the student.

A qualifying exam committee must include the student's mechanical engineering faculty advisor and two other mechanical engineering faculty members.

A preliminary exam committee must include the student's mechanical engineering faculty advisor and at least three other members who will also serve on the final oral defense committee.

A final dissertation oral exam (defense) must be presented to the dissertation committee of at least five members (but no more than eight) consisting of your advisor, who chairs the committee, three other graduate faculty or former graduate faculty up to one year after resignation or retirement, and one of the following: another graduate faculty, a retired faculty member with emeritus status, or a UW–Madison academic staff member who has been approved by the Mechanical Engineering executive committee. At least one faculty member on the committee must be from outside the Mechanical Engineering Department. Members of the committee from outside of Mechanical Engineering should be selected to have a background appropriate to evaluate the dissertation.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

### Qualifying Exam

The written portion of the qualifying exam is offered twice a year, once in August/September and once in January, generally the week before classes start. The associated literature review presentation must be completed within the timing limits stated (see graduate handbook, contact box).

1. If you enter the PhD program directly without an MS or equivalent degree, you will first earn 30 graduate credits. Take your qualifying exam either the first or second time that it is offered after the semester in which you earn those 30 credits.
2. If you earn a UW–Madison Mechanical Engineering MS and immediately enter the PhD program in the following semester, take your qualifying exam either the first or second time it is offered after the semester in which you earned your MS.
3. If you enter the PhD program with an MS degree either from another department or institution or are returning to UW–Madison with an MS degree after an absence, take the exam at the start of your third PhD semester.

### Preliminary Exam

PhD students must complete their preliminary exam within five years of passing their qualifying exam.

### Dissertation Defense (Oral Thesis Presentation)

There must be at least nine (9) months between the preliminary exam and dissertation defense.

A candidate for a doctoral degree who fails to successfully complete the dissertation defense and deposit the dissertation within five years after passing the preliminary examination may be required to take another preliminary examination to be admitted to candidacy a second time.

### Average Time to Degree

The average time to degree, beyond the bachelor degree, is 5 years.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

### Mechanical Engineering Grievance Procedures

If a student feels unfairly treated or aggrieved by faculty, staff, or another student, the University offers several avenues to resolve the grievance. Students' concerns about unfair treatment are best handled directly with the person responsible for the objectionable action. If the student is uncomfortable making direct contact with the individual(s) involved, they should contact the advisor or the person in charge of the unit where the action occurred (program or department chair, section chair, lab manager, etc.). Many departments and schools/colleges have established specific procedures for handling such situations; check their web pages and published handbooks for information. If such procedures exist at the local level, these should be investigated first. For more information see the Graduate School Academic Policies & Procedures: https://grad.wisc.edu/acadpolicy/?policy=grievancesandappeals. The Assistant Dean for Graduate Affairs (engr-dean-graduateaffairs@engr.wisc.edu) provides overall leadership for graduate education in the College of Engineering

(CoE), and is a point of contact for graduate students who have concerns about education, mentoring, research, or other difficulties.

1. The student is encouraged to speak first with the person toward whom the grievance is directed to see if a situation can be resolved at this level.
2. Should a satisfactory resolution not be achieved, the student should contact the Associate Chair for Graduate Studies or the John Bollinger Chair of Mechanical Engineering (https://engineering.wisc.edu/departments/mechanical-engineering/people/) to discuss the grievance. The Associate Chair for Graduate Studies or Department Chair will facilitate problem resolution through informal channels and facilitate any complaints or issues of students. The first attempt is to help students informally address the grievance prior to any formal complaint. Students are also encouraged to talk with their faculty advisors regarding concerns or difficulties if necessary. University resources for sexual harassment, discrimination, disability accommodations, and other related concerns can be found on the UW Office of Compliance website (https://compliance.wisc.edu/). Other campus resources can be found above.
3. If the issue is not resolved to the student's satisfaction the student can submit the grievance to the Associate Chair for Graduate Studies in writing, within 60 calendar days of the alleged unfair treatment.
4. On receipt of a written complaint, a faculty committee will be convened by the Associate Chair for Graduate Studies to manage the grievance. The faculty committee will obtain a written response from the person toward whom the complaint is directed. This response will be shared with the person filing the grievance.
5. The faculty committee will determine a decision regarding the grievance. The Associate Chair for Graduate Studies will report on the action taken by the committee in writing to both the student and the party toward whom the complaint was directed within 15 working days from the date the complaint was received.
6. At this point, if either party (the student or the person toward whom the grievance is directed) is unsatisfied with the decision of the faculty committee, the party may file a written appeal. Either party has 10 working days to file a written appeal to the School/College.
7. Documentation of the grievance will be stored for at least 7 years. Significant grievances that set a precedent will be stored indefinitely.

The Graduate School has procedures for students wishing to appeal a grievance decision made at the school/college level. These policies are described in the Graduate School's Academic Policies & Procedures: https://grad.wisc.edu/acadpolicy/?policy=grievancesandappeals.

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Demonstrate an extraordinary, deep understanding of mathematical, scientific, and engineering principles in the field.
2. Demonstrate an ability to formulate, analyze, and independently solve advanced engineering problems.
3. Apply the relevant scientific and technological advancements, techniques, and engineering tools to address these problems.
4. Recognize and apply principles of ethical and professional conduct.
5. Demonstrate an ability to synthesize knowledge from a subset of the biological, physical, and/or social sciences to help frame problems critical to the future of their discipline.
6. Demonstrate an ability to conduct original research and communicate it to their peers.

# MEDICAL PHYSICS

## DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

# DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

- Medical Physics, MS (p. 1441)
- Medical Physics, PhD (p. 1451)

# MEDICAL PHYSICS, MS

The Department of Medical Physics at UW–Madison's School of Medicine and Public Health is the first medical physics department in the United States and home to one of the top medical physics programs in North America. Achievement of the MS degree in this department reflects a strong education in the fundamental physics and engineering of diagnostic and therapeutic systems. Graduates are prepared for teaching and research positions in universities, national laboratories, and the medical and nuclear technology industries, as well as for admission into medical physics residency programs to become board-eligible for clinical medical physics positions.

Faculty in the department focus on discoveries in imaging and therapy systems that translate into new clinical techniques or the development of new products through industry collaboration and venture entrepreneurship. The department's faculty expertise spans fields such as x-ray physics, computed tomography (CT), magnetic resonance imaging (MRI), positron emission tomography (PET) imaging, biomagnetism, ultrasound, radiation dosimetry, radiation treatment planning, and radiobiology. Students benefit from a curriculum that provides in-depth training in these specialties, supported by access to sophisticated clinical and research resources. Collaborations with departments like Radiology,

Human Oncology, and Biomedical Engineering further enrich the training experience and foster an interdisciplinary approach to medical physics.

## ADMISSIONS

# ADMISSIONS

The Master of Science in Medical Physics has two named options. Students seeking a MS degree should apply to the Accelerated Program option. The Clinical/Research option is offered to students admitted to the PhD program. Students seeking a PhD should apply directly to the PhD program instead of the Clinical/Research option.

- Medical Physics: Accelerated Program, MS (p. 1443)

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

Please refer to the named options for information:

- Clinical/Research (https://guide.wisc.edu/graduate/medical-physics/medical-physics-ms/medical-physics-clinical-research-ms/)
- Accelerated Program (https://guide.wisc.edu/graduate/medical-physics/medical-physics-ms/medical-physics-accelerated-program-ms/)

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 16 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required.<br>Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | n/a |
| Assessments and Examinations | See named options for policy information. |
| Language Requirements | No language requirements. |

## REQUIRED COURSES

Select a named option for courses required.

# NAMED OPTIONS

A named option is a formally documented sub-major within an academic major program. Named options appear on the transcript with degree conferral. Students pursuing the Master of Science in Medical Physics must select one of the following named options:

View as listView as grid

- **MEDICAL PHYSICS: ACCELERATED PROGRAM, MS (P. 1443)**
- **MEDICAL PHYSICS: CLINICAL/RESEARCH, MS (P. 1447)**

## POLICIES

# POLICIES

Students should refer to one of the named options for policy information:

- Medical Physics: Accelerated Program, MS (p. 1443)
- Medical Physics: Clinical/Research, MS (p. 1447)

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

## GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Articulates, critiques, and/or elaborates theories, research methods, and approaches to inquiry in the field of medical physics in oral or written formats.

2. Evaluates and/or synthesizes information pertaining to questions or challenges in the field of medical physics.
3. Demonstrates ethical research and professional conduct.

## ACCREDITATION

# ACCREDITATION

Commission on Accreditation of Medical Physics Education Programs (CAMPEP) (http://www.campep.org)

Accreditation status: Accredited through June 30, 2028. Next accreditation review: Summer 2027.

# MEDICAL PHYSICS: ACCELERATED PROGRAM, MS

The Accelerated Program is a non-thesis option designed specifically for students seeking a terminal master's degree with the goal of becoming a board-certified clinical medical physicist. The degree follows our Commission on Accreditation of Medical Physics Education Programs (CAMPEP) accredited program coursework.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 1 |
| Spring Deadline | The program does not admit in the spring. |
| Summer Deadline | The program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

Admitted applicants entering the medical physics program must have acquired a strong foundation in basic physics and mathematics but are welcome to have come from a range of undergraduate majors in STEM. While a bachelor's degree in physics is considered the most common preparation, other physical science majors such as engineering, computer science, mathematics, chemistry, etc, are considered, as long as the candidate has coursework equivalent to a minor in physics. The minimum expected physics preparation is two introductory college physics courses, a modern physics course or individual courses covering electromagnetism, atomic structure, and quantum theory, and a total of three upper-level physics courses or equivalent. Additionally, applicants should be proficient in mathematics, including multi-variable calculus, differential equations, Fourier transforms, and linear algebra. Applicants who do not have the equivalent of a minor in physics may be admitted conditionally. If so, additional course work in physics must be taken.

For additional information about the application process, detailed information on required application materials, information on application fee waivers, and frequently asked questions, please refer to this webpage (https://medphysics.wisc.edu/graduate-program/admissions/#faq).

## APPLICATION CHECKLIST

- Three letters of recommendation (https://grad.wisc.edu/apply/#FAQ): These letters are required from teachers, scientists, or supervisors who can attest to the applicant's ability to be successful in graduate work. Letter writers should submit their letters electronically by the department's deadline.
- Statement of Purpose: In a statement not to exceed two pages, applicants should explain why they want to pursue graduate study in Medical Physics at the University of Wisconsin-Madison. Applicants should discuss career goals, and their preparation for graduate study, including relevant coursework, related employment, publications, presentations, awards, and honors.
- CV or resume: Upload your resume in your application. Please include any awards, scholarships, research experience, publications, and volunteer work.
- Academic transcript: Upload one copy of your transcript of all undergraduate and previous graduate work in your application. Unofficial copies of transcripts will be accepted for review. Official copies are required if an applicant is recommended for admission.
- Applicant data: Upload your completed Applicant Data Sheet (https://medphysics.wisc.edu/graduate-program/admissions/application/#applicant-data-sheet) to the application.
- Optional: Supplemental question (https://medphysics.wisc.edu/graduate-program/admissions/#how-do-i-apply)
- Submit the online Graduate School Application for Admission (https://grad.wisc.edu/apply/) and pay the application fee.
- English proficiency: Please see the Graduate School requirements (https://grad.wisc.edu/apply/requirements/) for specific information.

### Questions

Contact the Graduate Program Coordinator at admissions@medphysics.wisc.edu (https://guide.wisc.edu/graduate/medical-physics/medical-physics-ms/medical-physics-accelerated-program-ms/admissions@medphysics.wisc.edu)

## FOR VISITING INTERNATIONAL STUDENT PROGRAM (VISP) APPLICANTS

The following courses are taken as a VISP student in their undergraduate year at UW-Madison and are considered prerequisites. VISP applicants

must complete these courses to be admitted to the Medical Physics MS: Accelerated Program option.

| Code | Title | Credits |
|---|---|---|
| **First Semester (Fall) as Visiting Undergraduate Student** | | |
| MED PHYS/ B M E/H ONCOL/ PHYSICS 501 | Radiation Physics and Dosimetry | 3 |
| MED PHYS/ B M E 573 | Mathematical Methods in Medical Physics | 3 |
| MED PHYS 510 | Fundamentals of Cellular, Molecular, and Radiation Biology | 3 |
| Complete one of the following: | | 3 |
| 3 credits of elective Rad Labs (MED PHYS 662, MED PHYS 663, MED PHYS 664, MED PHYS 665, MED PHYS 666) | | |
| 2 credits of MED PHYS 671 (Topic: Anatomy and Physiology) and 1 credit of elective Rad Lab [1] | | |
| **Second Semester (Spring) as Visiting Undergraduate Student** | | |
| MED PHYS/ B M E 566 | Physics of Radiotherapy | 3 |
| MED PHYS/ B M E 580 | The Physics of Medical Imaging with Ionizing Radiation | 4 |
| Complete one of the following: | | 5 |
| MED PHYS 674 and 2 credits of elective Rad Lab [1] | | |
| MED PHYS/PHYSICS 688 and 1 credit of elective Rad Lab [1] | | |
| **Total Credits** | | **24** |

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. | MED PHYS/ B M E 566 | Physics of Radiotherapy | 3 |
| MED PHYS/ B M E 578 | Non-Ionizing Diagnostic Imaging | 4 |
| MED PHYS/ B M E 580 | The Physics of Medical Imaging with Ionizing Radiation | 4 |
| MED PHYS/N E 569 | Health Physics and Biological Effects | 3 |
| MED PHYS 671 | Selected Topics in Medical Physics (Topic: Anatomy and Physiology) | 2 |
| **Elective** | | |
| Select one of the following courses: | | 3 |
| MED PHYS 674 | Data Science in Medical Physics | |
| MED PHYS/ PHYSICS 688 | Radiation Production and Detection | |
| MED PHYS 679 | Radiation Physics Metrology | |
| MED PHYS 770 | Advanced Brachytherapy Physics | |
| MED PHYS 772 | Advanced Radiation Treatment Planning | |
| **Lab** | | |
| Select one of the following lab courses: | | 1 |
| MED PHYS 581 | Laboratory for Medical Imaging with Ionizing Radiation | |
| MED PHYS 662 | Rad Lab - Diagnostic Radiological Physics | |
| MED PHYS 663 | Rad Lab - Nuclear Medicine Physics | |
| MED PHYS 664 | Rad Lab - Health Physics | |
| MED PHYS 665 | Rad Lab - CT, MRI, and DSA Physics | |
| MED PHYS 666 | Rad Lab - Medical Ultrasound Physics | |
| **Total Credits** | | **30** |

### Other Policy

Students in this program may not take courses outside the prescribed curriculum without faculty advisor and program director approval. Students in this program cannot enroll concurrently in other undergraduate or graduate degree programs.

## POLICIES

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# NAMED OPTION-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special student at UW–Madison

With program approval, students are allowed to transfer no more than 14 credits of coursework numbered 500 or above taken as a UW-Madison Special student. However, these credits are not allowed to count toward the 50% graduate coursework minimum unless numbered 700 or above or are taken to meet the requirements of a capstone certificate and has the "Grad 50%" designation.

## PROBATION

For a graduate student in the Medical Physics Department to be making satisfactory progress, they must:

1. Obtain at least a 3.0 GPA in the most recent semester. Grades in all research courses and courses with grades of P, S, or U are excluded from the average. A student who fails to make satisfactory progress may be withdrawn from the department. In exceptional cases, the department chair may grant permission to continue for a specified probationary period.
2. Maintain a minimum cumulative GPA of 3.0 for all courses taken while in the Medical Physics program and for all Department of Medical Physics courses. All research courses and all courses with grades of P, S, or U are excluded from the average.

Any student who fails to meet the requirements of 1–2 above, will be placed on probation. Failure in the first semester of probation to obtain a 3.0 average for the semester and a cumulative GPA of at least 3.0 will result in termination unless the student's advisor requests and the

department and the Graduate School approves, continued enrollment. The particular courses which count toward the GPA in any probation semester must be approved in writing by the student's advisor and the Medical Physics Graduate Committee Chair in order for the work to count toward returning the student to good standing.

## ADVISOR/COMMITTEE

Students will be assigned an advisor by the beginning of the first semester of study.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

All MS degree course requirements should be completed by the end of the second year of study.

MS students who have been absent from the program for five or more consecutive years will not be able to use those courses before their absence for satisfying degree requirements.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

### Grievance Policy for Graduate Programs in the School of Medicine and Public Health

Any student in a School of Medicine and Public Health graduate program who feels that they have been treated unfairly in regards to educational decisions and/or outcomes or issues specific to the graduate program, including academic standing, progress to degree, professional activities, appropriate advising, and a program's community standards by a faculty member, staff member, postdoc, or student has the right to complain about the treatment and to receive a prompt hearing of the grievance following these grievance procedures. Any student who discusses, inquiries about, or participates in the grievance procedure may do so openly and shall not be subject to intimidation, discipline, or retaliation because of such activity. Each program's grievance advisor is listed on the "Research" tab of the SMPH intranet (https://intranet.med.wisc.edu/).

**Exclusions**

This policy does not apply to employment-related issues for Graduate Assistants in TA, PA and/or RA appointments. Graduate Assistants will utilize the Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/) (GAPP) grievance process to resolve employment-related issues.

This policy does not apply to instances when a graduate student wishes to report research misconduct. For such reports refer to the UW-Madison Policy for Reporting Research Misconduct for Graduate Students and Postdoctoral Research Associates (https://research.wisc.edu/kb-article/?id=84924).

**Requirements for Programs**

The School of Medicine and Public Health Office of Basic Research, Biotechnology and Graduate Studies requires that each graduate program designate a grievance advisor, who should be a tenured faculty member, and will request the name of the grievance advisor annually. The program director will serve as the alternate grievance advisor in the event that the grievance advisor is named in the grievance. The program must notify students of the grievance advisor, including posting the grievance advisor's name on the program's Guide page and handbook.

The grievance advisor or program director may be approached for possible grievances of all types. They will spearhead the grievance response process described below for issues specific to the graduate program, including but not limited to academic standing, progress to degree, professional activities, appropriate advising, and a program's community standards. They will ensure students are advised on reporting procedures for other types of possible grievances and are supported throughout the reporting process. Resources (https://grad.wisc.edu/current-students/#reporting-incidents) on identifying and reporting other issues have been compiled by the Graduate School.

**Procedures**

1. The student is advised to initiate a written record containing dates, times, persons, and description of activities, and to update this record while completing the procedures described below.
2. If the student is comfortable doing so, efforts should be made to resolve complaints informally between individuals before pursuing a formal grievance.
3. Should a satisfactory resolution not be achieved, the student should contact the program's grievance advisor or program director to discuss the complaint. The student may approach the grievance advisor or program director alone or with a UW-Madison faculty or staff member. The grievance advisor or

program director should keep a record of contacts with regards to possible grievances. The first attempt is to help the student informally address the complaint prior to pursuing a formal grievance. The student is also encouraged to talk with their faculty advisor regarding concerns or difficulties.

4. If the issue is not resolved to the student's satisfaction, the student may submit a formal grievance to the grievance advisor or program director in writing, within 60 calendar days from the date the grievant first became aware of, or should have become aware of with the exercise of reasonable diligence, the cause of the grievance. To the fullest extent possible, a grievance shall contain a clear and concise statement of the grievance and indicate the issue(s) involved, the relief sought, the date(s) the incident or violation took place, and any specific policy involved.
5. On receipt of a written grievance, the following steps will occur. The final step must be completed within 30 business days from the date the grievance was received. The program must store documentation of the grievance for seven years. Significant grievances that set a precedent may be stored indefinitely.
    a. The grievance advisor or program director will convene a faculty committee composed of at least three members to manage the grievance. Any faculty member involved in the grievance or who feels that they cannot be impartial may not participate in the committee. Committee composition should reflect diverse viewpoints within the program.
    b. The faculty committee, through the grievance advisor or program director, will obtain a written response from the person or persons toward whom the grievance is directed. The grievance advisor or program director will inform this person that their response will be shared with the student filing the grievance.
    c. The grievance advisor or program director will share the response with the student filing the grievance.
    d. The faculty committee will make a decision regarding the grievance. The committee's review shall be fair, impartial, and timely. The grievance advisor or program director will report on the action taken by the committee in writing to both the student and the person toward whom the grievance was directed.
6. If either party (the student or the person or persons toward whom the grievance is directed) is unsatisfied with the decision of the program's faculty committee, the party may file a written appeal to the SMPH senior associate dean for basic research, biotechnology and graduate studies within 10 business days from the date of notification of the program's faculty committee. The following steps will occur:
    a. The grievant will be notified in writing, within 5 business days of the written appeal, acknowledging receipt of the formal appeal and establishing a timeline for the review to be completed.
    b. The senior associate dean or their designee may request additional materials and/or arrange meetings with the grievant and/or others. If meetings occur, the senior associate dean or their designee will meet with both the grievant and the person or persons toward whom the grievance is directed.
    c. The senior associate dean or their designee will assemble an ad hoc committee of faculty from outside of the student's graduate program and ask them to prepare a written recommendation on whether to uphold or reverse the decision of the program on the student's initial grievance. The committee may request additional materials and/or arrange meetings with the grievant and/or others. If meetings occur, the committee will meet with both the grievant and the person or persons toward whom the grievance is directed.
    d. The senior associate dean or their designee will make a final decision within 20 business days of receipt of the committee's recommendation.
    e. The SMPH Office of Basic Research, Biotechnology, and Graduate Studies must store documentation of the grievance for seven years. Grievances that set a precedent may be stored indefinitely.
7. The student may file an appeal of the School of Medicine and Public Health decision with the Graduate School. See the Grievances and Appeals section of the Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/documents/grievances-and-appeals/).

**Time Limits**

Steps in the grievance procedures must be initiated and completed within the designated time periods except when modified by mutual consent. If the student fails to initiate the next step in the grievance procedure within the designated time period, the grievance will be considered resolved by the decision at the last completed step.

## OTHER

Students in the Medical Physics: Accelerated Program, MS are generally self funded.

# PROFESSIONAL DEVELOPMENT

## PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

# MEDICAL PHYSICS: CLINICAL/RESEARCH, MS

The Clinical/Research option is designed for students who matriculate into our PhD program and follow the Clinical Pathway. These students obtain a MS degree after they complete required coursework and pass the PhD qualifier examination. Students may alternatively exit our program with a MS degree and no PhD if they complete required coursework and either submit a MS thesis or pass the qualifier exam. This degree is Commission on Accreditation of Medical Physics Education Programs (CAMPEP) accredited.

## ADMISSIONS

# ADMISSIONS

This named option is offered for work leading to the PhD. Students may not apply to this option and should instead see the admissions information for the PhD (https://guide.wisc.edu/graduate/medical-physics/medical-physics-phd/).

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

The department typically supports students enrolled in the medical physics PhD program through department or university fellowships, research or teaching assistantships, or NIH training grant appointments. All awards include a comprehensive health insurance program and remission of tuition. The student is responsible for segregated fees.

## PROBATION

For a graduate student in the Medical Physics Department who is a research assistant, fellow or trainee, to be making satisfactory progress, he/she must:

1. Obtain at least a 3.0 GPA in the most recent semester. Grades in all research courses and courses with grades of P, S, or U are excluded from the average. A student who fails to make satisfactory progress may be withdrawn from the department. In exceptional cases, the department chair may grant permission to continue for a specified probationary period.
2. Maintain a minimum cumulative GPA of 3.0 for all courses taken while in the Medical Physics program and for all Department of Medical Physics courses. All research courses and all courses with grades of P, S, or U are excluded from the average.
3. Have taken the oral PhD qualifying examination by the end of the 2nd year of study. If a pass is not obtained on the first attempt, the second (and last) attempt to pass the qualifier examination must be made no later than the 4th semester.

Any student who fails to meet the requirements of 1–3 above, will be placed on probation. Failure in the first semester of probation to obtain a 3.0 average for the semester and a cumulative GPA of at least 3.0 will result in termination unless the student's advisor requests and the department and the Graduate School approves, continued enrollment. The particular courses which count toward the GPA in any probation semester must be approved in writing by the student's advisor and the Medical Physics Graduate Committee Chairman in order for the work to count toward returning the student to good standing.

## ADVISOR/COMMITTEE

Candidates must acquire a major professor/advisor by the beginning of the second semester of study.

Medical Physics students will form a Pre-Dissertator Mentoring Committee after matriculation into the program. The student will form this 3-member committee, comprised of two primary medical physics faculty members along with his/her research mentor, and meet with the committee once a year until the Preliminary Exam is completed successfully and the student becomes a dissertator.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

The qualifying examination should be taken by the end of the second year. All MS degree course requirements should be completed by the end of the second year of study.

MS students who have been absent from the program for five or more consecutive years will not be able to use those courses before their absence for satisfying degree requirements.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)

- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## Grievance Policy for Graduate Programs in the School of Medicine and Public Health

Any student in a School of Medicine and Public Health graduate program who feels that they have been treated unfairly in regards to educational decisions and/or outcomes or issues specific to the graduate program, including academic standing, progress to degree, professional activities, appropriate advising, and a program's community standards by a faculty member, staff member, postdoc, or student has the right to complain about the treatment and to receive a prompt hearing of the grievance following these grievance procedures. Any student who discusses, inquiries about, or participates in the grievance procedure may do so openly and shall not be subject to intimidation, discipline, or retaliation because of such activity. Each program's grievance advisor is listed on the "Research" tab of the SMPH intranet (https://intranet.med.wisc.edu/).

### Exclusions

This policy does not apply to employment-related issues for Graduate Assistants in TA, PA and/or RA appointments. Graduate Assistants will utilize the Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/) (GAPP) grievance process to resolve employment-related issues.

This policy does not apply to instances when a graduate student wishes to report research misconduct. For such reports refer to the UW-Madison Policy for Reporting Research Misconduct for Graduate Students and Postdoctoral Research Associates (https://research.wisc.edu/kb-article/?id=84924).

### Requirements for Programs

The School of Medicine and Public Health Office of Basic Research, Biotechnology and Graduate Studies requires that each graduate program designate a grievance advisor, who should be a tenured faculty member, and will request the name of the grievance advisor annually. The program director will serve as the alternate grievance advisor in the event that the grievance advisor is named in the grievance. The program must notify students of the grievance advisor, including posting the grievance advisor's name on the program's Guide page and handbook.

The grievance advisor or program director may be approached for possible grievances of all types. They will spearhead the grievance response process described below for issues specific to the graduate program, including but not limited to academic standing, progress to degree, professional activities, appropriate advising, and a program's community standards. They will ensure students are advised on reporting procedures for other types of possible grievances and are supported throughout the reporting process. Resources (https://grad.wisc.edu/current-students/#reporting-incidents) on identifying and reporting other issues have been compiled by the Graduate School.

### Procedures

1. The student is advised to initiate a written record containing dates, times, persons, and description of activities, and to update this record while completing the procedures described below.
2. If the student is comfortable doing so, efforts should be made to resolve complaints informally between individuals before pursuing a formal grievance.
3. Should a satisfactory resolution not be achieved, the student should contact the program's grievance advisor or program director to discuss the complaint. The student may approach the grievance advisor or program director alone or with a UW-Madison faculty or staff member. The grievance advisor or program director should keep a record of contacts with regards to possible grievances. The first attempt is to help the student informally address the complaint prior to pursuing a formal grievance. The student is also encouraged to talk with their faculty advisor regarding concerns or difficulties.
4. If the issue is not resolved to the student's satisfaction, the student may submit a formal grievance to the grievance advisor or program director in writing, within 60 calendar days from the date the grievant first became aware of, or should have become aware of with the exercise of reasonable diligence, the cause of the grievance. To the fullest extent possible, a grievance shall contain a clear and concise statement of the grievance and indicate the issue(s) involved, the relief sought, the date(s) the incident or violation took place, and any specific policy involved.
5. On receipt of a written grievance, the following steps will occur. The final step must be completed within 30 business days from the date the grievance was received. The program must store documentation of the grievance for seven years. Significant grievances that set a precedent may be stored indefinitely.
    a. The grievance advisor or program director will convene a faculty committee composed of at least three members to manage the grievance. Any faculty member involved in the grievance or who feels that they cannot be impartial may not participate in the committee. Committee composition should reflect diverse viewpoints within the program.
    b. The faculty committee, through the grievance advisor or program director, will obtain a written response from the person or persons toward whom the grievance is directed. The grievance advisor or program director will inform this person that their response will be shared with the student filing the grievance.
    c. The grievance advisor or program director will share the response with the student filing the grievance.
    d. The faculty committee will make a decision regarding the grievance. The committee's review shall be fair, impartial, and timely. The grievance advisor or program director will report on the action taken by the committee in writing to both the student and the person toward whom the grievance was directed.
6. If either party (the student or the person or persons toward whom the grievance is directed) is unsatisfied with the decision of the program's faculty committee, the party may file a written

appeal to the SMPH senior associate dean for basic research, biotechnology and graduate studies within 10 business days from the date of notification of the program's faculty committee. The following steps will occur:

a. The grievant will be notified in writing, within 5 business days of the written appeal, acknowledging receipt of the formal appeal and establishing a timeline for the review to be completed.
b. The senior associate dean or their designee may request additional materials and/or arrange meetings with the grievant and/or others. If meetings occur, the senior associate dean or their designee will meet with both the grievant and the person or persons toward whom the grievance is directed.
c. The senior associate dean or their designee will assemble an ad hoc committee of faculty from outside of the student's graduate program and ask them to prepare a written recommendation on whether to uphold or reverse the decision of the program on the student's initial grievance. The committee may request additional materials and/or arrange meetings with the grievant and/or others. If meetings occur, the committee will meet with both the grievant and the person or persons toward whom the grievance is directed.
d. The senior associate dean or their designee will make a final decision within 20 business days of receipt of the committee's recommendation.
e. The SMPH Office of Basic Research, Biotechnology, and Graduate Studies must store documentation of the grievance for seven years. Grievances that set a precedent may be stored indefinitely.

7. The student may file an appeal of the School of Medicine and Public Health decision with the Graduate School. See the Grievances and Appeals section of the Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/documents/grievances-and-appeals/).

**Time Limits**

Steps in the grievance procedures must be initiated and completed within the designated time periods except when modified by mutual consent. If the student fails to initiate the next step in the grievance procedure within the designated time period, the grievance will be considered resolved by the decision at the last completed step.

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

## GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

# MEDICAL PHYSICS, PHD

The Medical Physics, PhD program is a member of the **Interdisciplinary Biological and Health Sciences Consortium (IBHSC)**. The consortium fosters a collaborative environment for research and study in the biological and health sciences. Click here for more information on the IBHSC (https://www.med.wisc.edu/education/graduate-programs/biological-health-sciences-consortium/).

The Department of Medical Physics at UW–Madison's School of Medicine and Public Health is the first medical physics department in the United States and home to the largest group of medical physics doctoral students in the world. Achievement of the PhD degree in this department reflects strong scholarship and research in the physics and engineering of diagnostic and therapeutic systems. Graduates are prepared for teaching and research positions in universities, national laboratories, and the medical and nuclear technology industries, as well as for admission into medical physics residency programs to become board-eligible for clinical medical physics positions.

Faculty in the department focus on discoveries in imaging and therapy systems that translate into new clinical techniques or the development of new products through industry collaboration and venture entrepreneurship. The department's faculty expertise spans fields such as x-ray physics, computed tomography (CT), magnetic resonance imaging (MRI), positron emission tomography (PET) imaging, biomagnetism, ultrasound, radiation dosimetry, radiation treatment planning, and radiobiology. Students benefit from a curriculum that provides in-depth training in these specialties, supported by advanced resources, including the Medical Radiation Research Center and an Accredited Dosimetry Calibration Laboratory. Additional facilities, such as the PET radiotracer production unit and Small Animal Imaging Facility, along with clinical scanners from all major medical imaging modalities, offer unique research and clinical training opportunities.

Collaborations with departments like Radiology, Human Oncology, and Biomedical Engineering further enrich the training experience, providing access to sophisticated clinical resources and fostering interdisciplinary research. The program's comprehensive research focus prepares students to become leaders in medical physics, with many alumni pursuing impactful careers in academia, clinical practice, and industry.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 1 |
| Spring Deadline | The program does not admit in the spring. |

| | |
|---|---|
| Summer Deadline | The program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

Admitted applicants entering the medical physics program must have acquired a strong foundation in basic physics and mathematics but are welcome to have come from a range of undergraduate majors in STEM. While a bachelor's degree in physics is considered the most common preparation, other physical science majors such as engineering, computer science, mathematics, chemistry, etc, are considered, as long as the candidate has coursework equivalent to a minor in physics. The minimum expected physics preparation is two introductory college physics courses, a modern physics course or individual courses covering electromagnetism, atomic structure, and quantum theory, and a total of three upper-level physics courses or equivalent. Additionally, applicants should be proficient in mathematics, including multi-variable calculus, differential equations, Fourier transforms, and linear algebra. Research in medical physics touches on artificial intelligence, chemistry, nuclear engineering, and electrical engineering and so proficiency in one of these areas is considered positively. Exposure to organic chemistry, undergraduate biology, and physiology is advantageous. Applicants who do not have the equivalent of a minor in physics may be admitted conditionally. If so, additional course work in physics must be taken before the student can take the qualifying exam at the end of the 2nd year of study. The qualifying exam emphasizes the content of MED PHYS/B M E/H ONCOL/PHYSICS 501, MED PHYS/B M E 573, and MED PHYS 510.

Admissions decisions are made by a committee of faculty with expertise spanning the research areas of the department. For additional information about the application process, detailed information on required application materials, information on application fee waivers, and frequently asked questions, please refer to this webpage (https://medphysics.wisc.edu/graduate-program/admissions/#faq).

## APPLICATION CHECKLIST

- Three letters of recommendation (https://grad.wisc.edu/apply/#FAQ): These letters are required from teachers, scientists, or supervisors who can attest to the applicant's ability to be successful in graduate work. Letter writers should submit their letters electronically by the department's deadline.
- Statement of Purpose: In a statement not to exceed two pages, applicants should explain why they want to pursue graduate study in Medical Physics at the University of Wisconsin-Madison. Applicants should discuss career goals, and their preparation for graduate study, including relevant coursework, related employment, publications, presentations, awards, and honors.
- CV or resume: Upload your resume in your application. Please include any awards, scholarships, research experience, publications, and volunteer work.
- Academic transcript: Upload one copy of your transcript of all undergraduate and previous graduate work in your application. Unofficial copies of transcripts will be accepted for review. Official copies are required if an applicant is recommended for admission.
- Applicant data: Upload your completed Applicant Data Sheet (https://medphysics.wisc.edu/graduate-program/admissions/application/#applicant-data-sheet) to the application.
- Optional: Supplemental question
- Submit the online Graduate School Application for Admission (https://grad.wisc.edu/apply/) and pay the application fee.
- English proficiency: Please see the Graduate School requirements (https://grad.wisc.edu/apply/requirements/) for specific information.

### Questions

Contact the Graduate Program Coordinator at admissions@medphysics.wisc.edu (https://guide.wisc.edu/programadmin/1359/admissions@medphysics.wisc.edu)

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

The department typically supports students enrolled in the medical physics PhD program through department or university fellowships, research or teaching assistantships, or NIH training grant appointments. All awards include a comprehensive health insurance program and remission of tuition. The student is responsible for segregated fees.

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business

schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 54 credits |
| Minimum Residence Credit Requirement | 32 credits |
| Minimum Graduate Coursework Requirement | 32 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required.<br>Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | n/a |
| Assessments and Examinations | Candidates are expected to take the Oral Qualifying Examination by the end of the fourth semester of study, and to take the PhD Preliminary Examination by the end of the third year of study. Permission of the Department Chair is required if the PhD Preliminary Examination must be taken after the end of the third year. Defense of a dissertation is required within five years of successful completion of the PhD Preliminary Examination. |
| Language Requirements | No language requirements. |
| Graduate School Breadth Requirement | A doctoral minor or graduate/professional certificate is not required for students in the Medical Physics Graduate Program as graduate students enroll in sufficient breadth courses. However, a student can complete a minor or certificate offered by another graduate program at UW-Madison, if desired and with the approval of their advisor. Please see the Medical Physics Graduate Student Handbook (https://www.medphysics.wisc.edu/wp/graduate-program (https://www.medphysics.wisc.edu/wp/graduate-program/)/) for more information. |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Foundational** | | |
| MED PHYS/ B M E/H ONCOL/ PHYSICS 501 | Radiation Physics and Dosimetry [1] | 3 |
| MED PHYS/ B M E 573 | Mathematical Methods in Medical Physics [1] | 3 |
| MED PHYS 510 | Fundamentals of Cellular, Molecular, and Radiation Biology [1] | 3 |
| MED PHYS 701 | Ethics and the responsible conduct of research and practice of Medical Physics [1] | 1 |
| **Seminar** | | |
| Students must complete four semesters of seminar for 1 credit each. | | 4 |
| MED PHYS 900 | Journal Club and Seminar | |
| **Selected Pathway** | | |
| Students complete a Clinical or Interdisciplinary Pathway. Refer to the appropriate table below for course requirements. | | 25-26 |
| **Research** | | |
| Students must complete sufficient research credits to satisfy the minimum credit requirement. | | 14-15 |
| MED PHYS 990 | Research | |
| **Total Credits** | | **54** |

### Clinical Pathway [2]

This pathway is for students who may want to enter a medical physics residency program and obtain board certification following graduate study. Students complete all foundational coursework, clinical pathway coursework, and research credits. This pathway is Commission on Accreditation of Medical Physics Education Programs (CAMPEP) accredited.[1]

| Code | Title | Credits |
|---|---|---|
| **Basic Coursework** | | |
| MED PHYS/ B M E 566 | Physics of Radiotherapy [1] | 3 |
| MED PHYS/ B M E 578 | Non-Ionizing Diagnostic Imaging [1] | 4 |
| MED PHYS/ B M E 580 | The Physics of Medical Imaging with Ionizing Radiation [1] | 4 |
| MED PHYS 581 | Laboratory for Medical Imaging with Ionizing Radiation | 1 |
| MED PHYS/N E 569 | Health Physics and Biological Effects [1] | 3 |
| MED PHYS 671 | Selected Topics in Medical Physics (Topic: Anatomy and Physiology) [1] | 2 |
| **Advanced Coursework** | | |
| *MED PHYS courses numbered 600 and above* | | |
| In consultation with advisor/committee, students select 6 credits of MED PHYS courses numbered 600 and above. | | 6 |
| *Courses numbered 600 and above* | | |
| In consultation with advisor/committee, students select 3 credits of courses numbered 600 and above. | | 3 |
| **Total Credits** | | **26** |

1 Required for Commission on Accreditation of Medical Physics Education Programs (CAMPEP) Accreditation.

2 These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names

do not appear in the Graduate School admissions application, and they will not appear on the transcript.

### Interdisciplinary Pathway [2]

This pathway requires a majority of coursework to be completed in Medical Physics, but gives students the freedom to draw coursework from other departments to develop a curriculum tailored to their research area. Students pursuing non-clinical careers in academia, research, industry, business, or government may choose this pathway. Students complete all foundational coursework, interdisciplinary pathway coursework, and research credits. This pathway is not Commission on Accreditation of Medical Physics Education Programs (CAMPEP) accredited.

| Code | Title | Credits |
|---|---|---|
| **Elective Medical Physics Courses** | | |
| In consultation with advisor/committee, students select at least 10 credits of coursework in MED PHYS. | | 10 |
| **Elective Graduate Courses** | | |
| In consultation with advisor/committee, students select at least 15 credits of graduate-level coursework focused on their research, at the 500 level or above. This may include courses in MED PHYS. | | 15 |
| **Total Credits** | | **25** |

[2] These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

## PROBATION

For a graduate student in the Medical Physics Department who is a research assistant, fellow or trainee to be making satisfactory progress, they must:

1. Obtain at least a 3.0 GPA in the most recent semester. Grades in all research courses and courses with grades of P, F, S or U are excluded from the average. A student who fails to make satisfactory progress will be dropped from the department. In exceptional cases, the chairperson may grant permission to continue for a specified probationary period.
2. Maintain a minimum cumulative GPA of 3.0 for all courses taken while in the Medical Physics program and for all Department of Medical Physics courses. All research courses and all courses with grades of P, F, S or U are excluded from the average.
3. Have taken the qualifier examination by the end of the 2nd year of study. If a pass is not obtained on the first attempt, the second (and last) attempt to pass the qualifier examination must be made at one of the offered times within the next 6 months.

Any student, who fails to meet the requirements of 1-3 above, will be placed on probation. Failure in the first semester of probation to obtain a 3.0 average for the semester and a cumulative GPA of at least 3.0 will result in termination unless the student's advisor requests and the department and the Graduate School approves, continued enrollment. The particular courses which count toward the GPA in any probation semester must be approved in writing by the student's advisor and the Medical Physics Graduate Committee Chairman in order for the work to count toward returning the student to good standing.

## ADVISOR / COMMITTEE

Candidates must acquire a major professor/advisor by the beginning of the second semester of study.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

The oral PhD qualifying examination should be taken by the end of the 4th semester, and the PhD preliminary examination should be taken by the end of the third year of study. Permission of the graduate committee is required if the PhD preliminary examination must be taken after the end of the third year. Defense of a dissertation is required within five years of successful completion of the PhD preliminary examination.

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## Grievance Policy for Graduate Programs in the School of Medicine and Public Health

Any student in a School of Medicine and Public Health graduate program who feels that they have been treated unfairly in regards to educational decisions and/or outcomes or issues specific to the graduate program, including academic standing, progress to degree, professional activities, appropriate advising, and a program's community standards by a faculty member, staff member, postdoc, or student has the right to complain about the treatment and to receive a prompt hearing of the grievance following these grievance procedures. Any student who discusses, inquiries about, or participates in the grievance procedure may do so openly and shall not be subject to intimidation, discipline, or retaliation because of such activity. Each program's grievance advisor is listed on the "Research" tab of the SMPH intranet (https://intranet.med.wisc.edu/).

**Exclusions**

This policy does not apply to employment-related issues for Graduate Assistants in TA, PA and/or RA appointments. Graduate Assistants will utilize the Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/) (GAPP) grievance process to resolve employment-related issues.

This policy does not apply to instances when a graduate student wishes to report research misconduct. For such reports refer to the UW-Madison Policy for Reporting Research Misconduct for Graduate Students and Postdoctoral Research Associates (https://research.wisc.edu/kb-article/?id=84924).

**Requirements for Programs**

The School of Medicine and Public Health Office of Basic Research, Biotechnology and Graduate Studies requires that each graduate program designate a grievance advisor, who should be a tenured faculty member, and will request the name of the grievance advisor annually. The program director will serve as the alternate grievance advisor in the event that the grievance advisor is named in the grievance. The program must notify students of the grievance advisor, including posting the grievance advisor's name on the program's Guide page and handbook.

The grievance advisor or program director may be approached for possible grievances of all types. They will spearhead the grievance response process described below for issues specific to the graduate program, including but not limited to academic standing, progress to degree, professional activities, appropriate advising, and a program's community standards. They will ensure students are advised on reporting procedures for other types of possible grievances and are supported throughout the reporting process. Resources (https://grad.wisc.edu/current-students/#reporting-incidents) on identifying and reporting other issues have been compiled by the Graduate School.

**Procedures**

1. The student is advised to initiate a written record containing dates, times, persons, and description of activities, and to update this record while completing the procedures described below.
2. If the student is comfortable doing so, efforts should be made to resolve complaints informally between individuals before pursuing a formal grievance.
3. Should a satisfactory resolution not be achieved, the student should contact the program's grievance advisor or program director to discuss the complaint. The student may approach the grievance advisor or program director alone or with a UW-Madison faculty or staff member. The grievance advisor or program director should keep a record of contacts with regards to possible grievances. The first attempt is to help the student informally address the complaint prior to pursuing a formal grievance. The student is also encouraged to talk with their faculty advisor regarding concerns or difficulties.
4. If the issue is not resolved to the student's satisfaction, the student may submit a formal grievance to the grievance advisor or program director in writing, within 60 calendar days from the date the grievant first became aware of, or should have become aware of with the exercise of reasonable diligence, the cause of the grievance. To the fullest extent possible, a grievance shall contain a clear and concise statement of the grievance and indicate the issue(s) involved, the relief sought, the date(s) the incident or violation took place, and any specific policy involved.
5. On receipt of a written grievance, the following steps will occur. The final step must be completed within 30 business days from the date the grievance was received. The program must store documentation of the grievance for seven years. Significant grievances that set a precedent may be stored indefinitely.
    a. The grievance advisor or program director will convene a faculty committee composed of at least three members to manage the grievance. Any faculty member involved in the grievance or who feels that they cannot be impartial may not participate in the committee. Committee composition should reflect diverse viewpoints within the program.
    b. The faculty committee, through the grievance advisor or program director, will obtain a written response from the person or persons toward whom the grievance is directed. The grievance advisor or program director will

inform this person that their response will be shared with the student filing the grievance.

c. The grievance advisor or program director will share the response with the student filing the grievance.

d. The faculty committee will make a decision regarding the grievance. The committee's review shall be fair, impartial, and timely. The grievance advisor or program director will report on the action taken by the committee in writing to both the student and the person toward whom the grievance was directed.

6. If either party (the student or the person or persons toward whom the grievance is directed) is unsatisfied with the decision of the program's faculty committee, the party may file a written appeal to the SMPH senior associate dean for basic research, biotechnology and graduate studies within 10 business days from the date of notification of the program's faculty committee. The following steps will occur:
    a. The grievant will be notified in writing, within 5 business days of the written appeal, acknowledging receipt of the formal appeal and establishing a timeline for the review to be completed.
    b. The senior associate dean or their designee may request additional materials and/or arrange meetings with the grievant and/or others. If meetings occur, the senior associate dean or their designee will meet with both the grievant and the person or persons toward whom the grievance is directed.
    c. The senior associate dean or their designee will assemble an ad hoc committee of faculty from outside of the student's graduate program and ask them to prepare a written recommendation on whether to uphold or reverse the decision of the program on the student's initial grievance. The committee may request additional materials and/or arrange meetings with the grievant and/or others. If meetings occur, the committee will meet with both the grievant and the person or persons toward whom the grievance is directed.
    d. The senior associate dean or their designee will make a final decision within 20 business days of receipt of the committee's recommendation.
    e. The SMPH Office of Basic Research, Biotechnology, and Graduate Studies must store documentation of the grievance for seven years. Grievances that set a precedent may be stored indefinitely.
7. The student may file an appeal of the School of Medicine and Public Health decision with the Graduate School. See the Grievances and Appeals section of the Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/documents/grievances-and-appeals/).

**Time Limits**

Steps in the grievance procedures must be initiated and completed within the designated time periods except when modified by mutual consent. If the student fails to initiate the next step in the grievance procedure within the designated time period, the grievance will be considered resolved by the decision at the last completed step.

### OTHER

Most students are funded with research assistantships through the research programs of their advisors. A limited number of traineeships are available to advanced students in the UW Radiological Sciences Training Program for career training in cancer research. Other fellowships are also available to qualified students (e.g., AAPM, Cardiovascular and Neurological Sciences Training Programs, Advanced Opportunity Fellowship Program).

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Articulates research problems, potentials, and limits with respect to theory, knowledge, or practice within the field of medical physics.
2. Formulates ideas, concepts, designs, and/or techniques beyond the current boundaries of knowledge within the field of medical physics.
3. Creates research, scholarship, or performance that makes a substantive scientific contribution.
4. Demonstrates breadth and depth within their learning experiences.
5. Advances contributions of the field of medical physics to society through peer-reviewed journal publications.
6. Communicates complex ideas in a clear and understandable manner in both oral and written formats.
7. Demonstrates ethical research and professional conduct.

## ACCREDITATION

# ACCREDITATION

Commission on Accreditation of Medical Physics Education Programs (http://www.campep.org)

Accreditation status: Accredited through June 30, 2028. Next accreditation review: Summer 2027.

### CAMPEP Compliant Degree Requirements

Students must complete the courses indicated in the core and clinical pathway flagged with footnote 1 (p. 1452) to receive the letter of attestation from the Department of Medical Physics, per CAMPEP guidelines (https://www.campep.org/default.asp).

# APPLIED BIOINFORMATICS, GRADUATE/PROFESSIONAL CERTIFICATE

**The Certificate in Applied Bioinformatics no longer admits new students after Spring 2025 and the program will be discontinued Fall 2027. Students already admitted may only complete and be awarded this certificate through Summer 2027.** If you have any questions please contact the program or Universities of Wisconsin Online Collaboratives (https://uwex.wisconsin.edu/applied-biotechnology/#overview).

## ADMISSIONS

## ADMISSIONS

**The Certificate in Applied Bioinformatics no longer admits new students after Spring 2025 and the program will be discontinued Fall 2027. Students already admitted may only complete and be awarded this certificate through Summer 2027.** If you have any questions please contact the program or Universities of Wisconsin Online Collaboratives (https://uwex.wisconsin.edu/applied-biotechnology/#overview).

## FUNDING

## FUNDING

Students enrolled in the Graduate/Professional Certificate in Applied Bioinformatics as part of their MS in Applied Biotechnology Program are eligible for federal financial aid.
Students enrolled in the Graduate/Professional Certificate in Applied Bioinformatics program are not permitted to accept any research, project, or teaching assistantship positions that would waive tuition or provide tuition remission.

Students are encouraged to contact the Office of Student Financial Aid (https://financialaid.wisc.edu/) to discuss federal loan programs and other lending opportunities. Students should also reach out to their companies to ask about continuing education and professional development support.

## REQUIREMENTS

## REQUIREMENTS

Minimum Residence Credits: 12

All of the graduate/professional certificate credits must be earned "in residence" (which includes distance-delivered courses) at UW-Madison.

### GRADE REQUIREMENTS

- Students must earn a B (minimum GPA of 3.00) or above on all graduate/professional certificate coursework.
- Courses in which a student elects the pass/fail option will not count toward completion of requirements.

### REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| ABT 720 | Experimental Design and Analysis in Biotechnology | 3 |
| ABT 730 | Python for Bioinformatics | 3 |
| ABT 780 | Bioinformatic Inquiry | 3 |
| ABT 785 | Application of Bioinformatics | 3 |
| **Total Credits** | | **12** |

## POLICIES

## GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Demonstrate professional and scientific communication appropriate for biotechnology settings
2. Evaluate diverse analytical methods and technologies and their applications in bioinformatics
3. Demonstrate comprehensive understanding of organizational processes and product development pipelines and the data generated throughout

# APPLIED BIOTECHNOLOGY, MS

**The Applied Biotechnology, MS no longer admits new students after Spring 2025 and the program will be discontinued Fall 2027.** If you have any questions, please contact the department (see contact box).

The Applied Biotechnology, MS is available at other Universities of Wisconsin campuses. For more information, please see this website (https://uwex.wisconsin.edu/applied-biotechnology/).

If you are seeking the FACE-TO-FACE program, please see the MS in Biotechnology (https://guide.wisc.edu/graduate/cell-regenerative-biology/biotechnology-ms/) Program.

Not sure which program best fits your needs? Contact us to talk more. Call 608-262-9753 or email Bryan (bthusk@wisc.edu) or Michele (michele.smith@wisc.edu).

## ADMISSIONS

# ADMISSIONS

**The Applied Biotechnology, MS no longer admits new students after Spring 2025 and the program will be discontinued Fall 2027.** If you have any questions, please contact the department (see contact box).

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | July 15 |
| Spring Deadline | December 15 |
| Summer Deadline | April 15 |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Every applicant whose native language is not English, or whose undergraduate instruction was not exclusively in English, must provide an English proficiency test score earned within two years of the anticipated term of enrollment. Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 2 |

### APPLY TO THE GRADUATE SCHOOL

Apply to the Graduate School online and select the "Applied Biotechnology MS" program. This is the online-only degree program, see "Biotechnology, MS" program for the face-to-face degree.

### ADMISSIONS CRITERIA AND PREREQUISITE COURSEWORK

- Bachelor's degree from an accredited university with a minimum grade point average of 3.0.
- Prerequisite coursework: **two semesters college-level lab coursework in biological sciences and/or chemistry, all of which must have a lab component.**
  - To satisfy the prerequisite you must have completed either two semesters of biological sciences, two semesters of chemistry, or one semester each of biological sciences and chemistry.
- Professional resume or CV
- Unofficial transcripts.
  - Upon acceptance, official transcripts will be required by the Graduate School.
- Two letters of recommendation
- A one- or two-page statement of purpose that is specific to the MS in Applied Biotechnology online degree (uploaded via the Graduate School online application) that provides the following:
  - Summary of your professional and academic background
  - Concise description of your short- and long-term professional goals
  - Clear explanation of how the online MS in Applied Biotechnology degree will help you meet your goals.

### ADDITIONAL GRADUATE SCHOOL RESOURCES

- Graduate School Admission Frequently Asked Questions (https://grad.wisc.edu/apply/#FAQ)

- Graduate School Admission Requirements (https://grad.wisc.edu/admissions/requirements/)

If you have any questions about how to apply or about the status of your application, refer to the contact information box.

## APPLICATION DEADLINE

Applications are accepted year-round for the online MS in Applied Biotechnology Program. Students can begin in fall, spring or summer term. To guarantee consideration for a particular term, applications should be completed by the admissions deadlines listed above.

## ONLINE VERSUS FACE TO FACE

The "Applied Biotechnology MS" program is a fully online program. The "Biotechnology MS (p. 1462)" program is face to face. Not sure which Biotechnology program works best for you? Contact the program for more information.

# FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM INFORMATION

The MS in Applied Biotechnology Program does not offer any scholarships or financial aid.

Students enrolled in this program are not eligible to receive tuition remission from graduate assistantship appointments at this institution.

However, students may contact the Office of Student Financial Aid (https://financialaid.wisc.edu/) to discuss federal loan programs and other lending opportunities.

# REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| No | No | Yes | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 31 credits |
| Minimum Residence Credit | 31 credits |
| Minimum Graduate Coursework Requirement | 16 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | n/a |
| Assessments and Examinations | n/a |
| Language Requirements | n/a |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **The following core courses are required:** | | |
| ABT 700 | Principles of Biotechnology | 3 |
| ABT 705 | Ethics, Safety, and Regulatory Environments in Biotechnology | 3 |
| ABT 710 | Professional and Technical Communication in Biotechnology | 3 |
| ABT 715 | Techniques in Biotechnology | 3 |
| ABT 720 | Experimental Design and Analysis in Biotechnology | 3 |
| ABT 725 | Leadership in Organizations | 3 |
| ABT 789 | Pre-Capstone | 1 |
| ABT 790 | Capstone | 3 |

| | | |
|---|---|---|
| **Select a minimum of three classes from one or more of the following elective areas:** | | **9** |
| *Area 1: Quality Control and Validation* | | |
| ABT 735 | Quality Control and Validation | |
| ABT 740 | Regulatory Practice and Compliance | |
| ABT 745 | Industrial Applications in Regulatory Affairs | |
| *Area 2: Business and Management* | | |
| ABT 750 | Biotechnology Marketing and Entrepreneurship | |
| ABT 755 | Global Operations and Supply Chain Management | |
| ABT 760 | Quality and Project Management | |
| *Area 3: Research and Development* | | |
| ABT 765 | Assessing Innovation in Biotechnology | |
| ABT 770 | Product Development | |
| ABT 775 | Tools for Data Analysis | |
| **Total Credits** | | **31** |

Students in this program may not take courses outside the prescribed curriculum without faculty advisor and program director approval. Students in this program cannot enroll concurrently in other undergraduate or graduate degree programs.

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

No prior coursework from other institutions may be applied toward program requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

No prior coursework from another institution or the UW–Madison undergraduate career may be applied toward program requirements.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

No prior coursework from the UW-Madison Professional student career may be applied toward program requirements.

### Credits Earned as a University Special Student at UW–Madison

No prior coursework from the UW-Madison University Special student career may be applied toward program requirements.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Refer to the Graduate School: Advisor (https://policy.wisc.edu/library/UW-1232/) policy.

Students will be advised by MS in Applied Biotechnology Program staff.

## CREDITS PER TERM ALLOWED

15 credits

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

### Grievance Policy for Graduate Programs in the School of Medicine and Public Health

Any student in a School of Medicine and Public Health graduate program who feels that they have been treated unfairly in regards to educational decisions and/or outcomes or issues specific to the graduate program, including academic standing, progress to degree, professional activities, appropriate advising, and a program's community standards by a faculty member, staff member, postdoc, or student has the right to complain

about the treatment and to receive a prompt hearing of the grievance following these grievance procedures. Any student who discusses, inquiries about, or participates in the grievance procedure may do so openly and shall not be subject to intimidation, discipline, or retaliation because of such activity. Each program's grievance advisor is listed on the "Research" tab of the SMPH intranet (https://intranet.med.wisc.edu/).

**Exclusions**

This policy does not apply to employment-related issues for Graduate Assistants in TA, PA and/or RA appointments. Graduate Assistants will utilize the Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/) (GAPP) grievance process to resolve employment-related issues.

This policy does not apply to instances when a graduate student wishes to report research misconduct. For such reports refer to the UW-Madison Policy for Reporting Research Misconduct for Graduate Students and Postdoctoral Research Associates (https://research.wisc.edu/kb-article/?id=84924).

**Requirements for Programs**

The School of Medicine and Public Health Office of Basic Research, Biotechnology and Graduate Studies requires that each graduate program designate a grievance advisor, who should be a tenured faculty member, and will request the name of the grievance advisor annually. The program director will serve as the alternate grievance advisor in the event that the grievance advisor is named in the grievance. The program must notify students of the grievance advisor, including posting the grievance advisor's name on the program's Guide page and handbook.

The grievance advisor or program director may be approached for possible grievances of all types. They will spearhead the grievance response process described below for issues specific to the graduate program, including but not limited to academic standing, progress to degree, professional activities, appropriate advising, and a program's community standards. They will ensure students are advised on reporting procedures for other types of possible grievances and are supported throughout the reporting process. Resources (https://grad.wisc.edu/current-students/#reporting-incidents) on identifying and reporting other issues have been compiled by the Graduate School.

**Procedures**

1. The student is advised to initiate a written record containing dates, times, persons, and description of activities, and to update this record while completing the procedures described below.
2. If the student is comfortable doing so, efforts should be made to resolve complaints informally between individuals before pursuing a formal grievance.
3. Should a satisfactory resolution not be achieved, the student should contact the program's grievance advisor or program director to discuss the complaint. The student may approach the grievance advisor or program director alone or with a UW-Madison faculty or staff member. The grievance advisor or program director should keep a record of contacts with regards to possible grievances. The first attempt is to help the student informally address the complaint prior to pursuing a formal grievance. The student is also encouraged to talk with their faculty advisor regarding concerns or difficulties.
4. If the issue is not resolved to the student's satisfaction, the student may submit a formal grievance to the grievance advisor or program director in writing, within 60 calendar days from the date the grievant first became aware of, or should have become aware of with the exercise of reasonable diligence, the cause of the grievance. To the fullest extent possible, a grievance shall contain a clear and concise statement of the grievance and indicate the issue(s) involved, the relief sought, the date(s) the incident or violation took place, and any specific policy involved.
5. On receipt of a written grievance, the following steps will occur. The final step must be completed within 30 business days from the date the grievance was received. The program must store documentation of the grievance for seven years. Significant grievances that set a precedent may be stored indefinitely.
    a. The grievance advisor or program director will convene a faculty committee composed of at least three members to manage the grievance. Any faculty member involved in the grievance or who feels that they cannot be impartial may not participate in the committee. Committee composition should reflect diverse viewpoints within the program.
    b. The faculty committee, through the grievance advisor or program director, will obtain a written response from the person or persons toward whom the grievance is directed. The grievance advisor or program director will inform this person that their response will be shared with the student filing the grievance.
    c. The grievance advisor or program director will share the response with the student filing the grievance.
    d. The faculty committee will make a decision regarding the grievance. The committee's review shall be fair, impartial, and timely. The grievance advisor or program director will report on the action taken by the committee in writing to both the student and the person toward whom the grievance was directed.
6. If either party (the student or the person or persons toward whom the grievance is directed) is unsatisfied with the decision of the program's faculty committee, the party may file a written appeal to the SMPH senior associate dean for basic research, biotechnology and graduate studies within 10 business days from the date of notification of the program's faculty committee. The following steps will occur:
    a. The grievant will be notified in writing, within 5 business days of the written appeal, acknowledging receipt of the formal appeal and establishing a timeline for the review to be completed.
    b. The senior associate dean or their designee may request additional materials and/or arrange meetings with the grievant and/or others. If meetings occur, the senior associate dean or their designee will meet with both the grievant and the person or persons toward whom the grievance is directed.
    c. The senior associate dean or their designee will assemble an ad hoc committee of faculty from outside of the student's graduate program and ask them to prepare a written recommendation on whether to uphold or reverse the decision of the program on the student's initial grievance. The committee may request additional materials and/or arrange meetings with the grievant and/or others. If meetings occur, the committee will meet with both the grievant and

the person or persons toward whom the grievance is directed.

d. The senior associate dean or their designee will make a final decision within 20 business days of receipt of the committee's recommendation.

e. The SMPH Office of Basic Research, Biotechnology, and Graduate Studies must store documentation of the grievance for seven years. Grievances that set a precedent may be stored indefinitely.

7. The student may file an appeal of the School of Medicine and Public Health decision with the Graduate School. See the Grievances and Appeals section of the Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/documents/grievances-and-appeals/).

**Time Limits**

Steps in the grievance procedures must be initiated and completed within the designated time periods except when modified by mutual consent. If the student fails to initiate the next step in the grievance procedure within the designated time period, the grievance will be considered resolved by the decision at the last completed step.

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

## GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Demonstrate professional and scientific communication appropriate for biotechnology settings
2. Demonstrate comprehensive understanding of organizational processes and product development pipelines
3. Distinguish among diverse methods and technologies and their applications in biotechnology
4. Demonstrate strategic leadership and decision-making skills necessary in biotechnology
5. Appraise the current regulatory, quality control, and legal frameworks that impact biotechnology
6. Demonstrate professional and ethical behaviors that foster positive and productive interactions in diverse biotechnology settings

# BIOTECHNOLOGY, MS

The Master of Science (MS) in Biotechnology is designed for working professionals and provides students with an overarching view of modern biotechnology operations, addressing fundamental scientific and legal matters, innovative technologies, and complex business issues. Students thrive in a face-to-face environment rich in academic and industrial collaboration, leaving the program prepared to assume leadership roles in the biotechnology industry. Practical and results-oriented, this program provides the foundation necessary for succeeding and advancing in one of the fastest growing and most complex industries in the world. Top-rated UW–Madison faculty and talented business partners in Wisconsin combine their expertise to provide hands-on, problem-solving experiences while offering flexible schedules for students, including convenient weekend and evening courses.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | May 1 |
| Spring Deadline | The program does not admit in the spring. |
| Summer Deadline | The program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

## APPLY TO THE GRADUATE SCHOOL

Applications are submitted online only; paper copy applications are not available. Apply to the Graduate School online and select the "Biotechnology MS" program option:

### The Graduate School's Online Application (https://apply.grad.wisc.edu/)

The online application and application fee must be submitted electronically to the Graduate School before your application can be considered for admission.

The following materials must be uploaded to your Graduate School online application:

- Your professional resume
- Unofficial transcript(s) for your undergraduate degree institution(s) and unofficial transcripts from any post-undergraduate degrees (if applicable)

- Three letters of recommendation (initiated and processed online via the Graduate School online application)
- A one- or two-page Statement of Purpose (uploaded via the Graduate School online application) that provides the following:
  - A brief summary of your professional and academic background, a clear explanation of your short- and long-term professional goals, and a clear explanation of how the MS in Biotechnology degree will help you meet your career goals. (Please be specific to the MS in Biotechnology degree and its curriculum.)

### Additional Graduate School Resources

- Graduate School Admission Frequently Asked Questions (https://grad.wisc.edu/apply/#FAQ)
- Graduate School Admission Requirements (https://grad.wisc.edu/apply/requirements/)

If you have any questions about applying to the MS in Biotechnology Program (https://www.ms-biotech.wisc.edu) or about the status of your application, refer to the contact information box.

## APPLICATION DEADLINE

The program will review applications for fall semester until the cohort is full. Students will have the best opportunity for acceptance if they apply on or before May 1st. Strong and extremely well qualified domestic applicants should contact the program directly if applying as late as June or July. **The deadline for all international applicants is May 1st**. There is no admission for spring or summer terms.

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM INFORMATION

**The MS in Biotechnology Program does not offer any scholarships, direct funding, or financial aid.** Application fee waivers are not available.

Students enrolled in this program are not eligible to receive tuition remission from graduate assistantship appointments at this institution.

However, students may contact the Office of Student Financial Aid (https://financialaid.wisc.edu/) to discuss federal loan programs and other lending opportunities.

# REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | Yes | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 32 credits |
| Minimum Residence Credit Requirement | 32 credits |
| Minimum Graduate Coursework Requirement | 100% of credits applied toward the graduate degree credit requirement must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | None. |
| Assessments and Examinations | None. |
| Language Requirements | None. |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Year 1, Fall Semester** | | |
| BIOMDSCI 800 | Intellectual Property, Patents and Licensing | 2 |
| BIOMDSCI 801 | Biotechnology Regulation and Ethics | 2 |

| | | |
|---|---|---|
| BIOMDSCI 802 | Business of Biotechnology: Business Fundamentals | 2 |
| BIOMDSCI 803 | Molecular Technologies I: Diagnostic Testing | 2 |
| **Year 1, Spring Semester** | | |
| BIOMDSCI 810 | Biotechnology Operations | 4 |
| BIOMDSCI 812 | Project Management and Leadership | 2 |
| BIOMDSCI 813 | Molecular Technologies II: Biomanufacturing | 2 |
| **Year 2, Fall Semester** | | |
| BIOMDSCI 820 | Early Drug Discovery | 4 |
| BIOMDSCI 822 | Business of Biotechnology: Commercialization Pathways | 2 |
| BIOMDSCI 823 | Molecular Technologies III: Assay Development | 2 |
| **Year 2, Spring Semester** | | |
| BIOMDSCI 830 | Professional Development and Effective Management | 1 |
| BIOMDSCI 831 | Advanced Biotechnology: Global Perspectives | 3 |
| BIOMDSCI 832 | Business of Biotechnology: Corporate Strategy | 3 |
| BIOMDSCI 834 | Biotechnology Capstone | 1 |
| **Total Credits** | | **32** |

### Other Policy

Students in this program may not take courses outside the prescribed curriculum without faculty advisor and program director approval. Students in this program cannot enroll concurrently in other undergraduate or graduate degree programs.

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

No prior coursework from other institutions may be applied toward program requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

No prior coursework from an undergraduate career may be applied toward program requirements.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

No prior coursework taken as a Professional student may be applied toward program requirements.

### Credits Earned as a University Special student at UW–Madison

No prior coursework taken as a UW–Madison University Special student may be applied toward program requirements.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Every graduate student is required to have an advisor. To ensure that students are making satisfactory progress toward a degree, the Graduate School expects them to meet with their advisor on a regular basis.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)

- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## Grievance Policy for Graduate Programs in the School of Medicine and Public Health

Any student in a School of Medicine and Public Health graduate program who feels that they have been treated unfairly in regards to educational decisions and/or outcomes or issues specific to the graduate program, including academic standing, progress to degree, professional activities, appropriate advising, and a program's community standards by a faculty member, staff member, postdoc, or student has the right to complain about the treatment and to receive a prompt hearing of the grievance following these grievance procedures. Any student who discusses, inquiries about, or participates in the grievance procedure may do so openly and shall not be subject to intimidation, discipline, or retaliation because of such activity. Each program's grievance advisor is listed on the "Research" tab of the SMPH intranet (https://intranet.med.wisc.edu/).

**Exclusions**

This policy does not apply to employment-related issues for Graduate Assistants in TA, PA and/or RA appointments. Graduate Assistants will utilize the Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/) (GAPP) grievance process to resolve employment-related issues.

This policy does not apply to instances when a graduate student wishes to report research misconduct. For such reports refer to the UW-Madison Policy for Reporting Research Misconduct for Graduate Students and Postdoctoral Research Associates (https://research.wisc.edu/kb-article/?id=84924).

**Requirements for Programs**

The School of Medicine and Public Health Office of Basic Research, Biotechnology and Graduate Studies requires that each graduate program designate a grievance advisor, who should be a tenured faculty member, and will request the name of the grievance advisor annually. The program director will serve as the alternate grievance advisor in the event that the grievance advisor is named in the grievance. The program must notify students of the grievance advisor, including posting the grievance advisor's name on the program's Guide page and handbook.

The grievance advisor or program director may be approached for possible grievances of all types. They will spearhead the grievance response process described below for issues specific to the graduate program, including but not limited to academic standing, progress to degree, professional activities, appropriate advising, and a program's community standards. They will ensure students are advised on reporting procedures for other types of possible grievances and are supported throughout the reporting process. Resources (https://grad.wisc.edu/current-students/#reporting-incidents) on identifying and reporting other issues have been compiled by the Graduate School.

**Procedures**

1. The student is advised to initiate a written record containing dates, times, persons, and description of activities, and to update this record while completing the procedures described below.
2. If the student is comfortable doing so, efforts should be made to resolve complaints informally between individuals before pursuing a formal grievance.
3. Should a satisfactory resolution not be achieved, the student should contact the program's grievance advisor or program director to discuss the complaint. The student may approach the grievance advisor or program director alone or with a UW-Madison faculty or staff member. The grievance advisor or program director should keep a record of contacts with regards to possible grievances. The first attempt is to help the student informally address the complaint prior to pursuing a formal grievance. The student is also encouraged to talk with their faculty advisor regarding concerns or difficulties.
4. If the issue is not resolved to the student's satisfaction, the student may submit a formal grievance to the grievance advisor or program director in writing, within 60 calendar days from the date the grievant first became aware of, or should have become aware of with the exercise of reasonable diligence, the cause of the grievance. To the fullest extent possible, a grievance shall contain a clear and concise statement of the grievance and indicate the issue(s) involved, the relief sought, the date(s) the incident or violation took place, and any specific policy involved.
5. On receipt of a written grievance, the following steps will occur. The final step must be completed within 30 business days from the date the grievance was received. The program must store documentation of the grievance for seven years. Significant grievances that set a precedent may be stored indefinitely.
    a. The grievance advisor or program director will convene a faculty committee composed of at least three members to manage the grievance. Any faculty member involved in the grievance or who feels that they cannot be impartial may not participate in the committee. Committee composition should reflect diverse viewpoints within the program.
    b. The faculty committee, through the grievance advisor or program director, will obtain a written response from the person or persons toward whom the grievance is directed. The grievance advisor or program director will inform this person that their response will be shared with the student filing the grievance.
    c. The grievance advisor or program director will share the response with the student filing the grievance.
    d. The faculty committee will make a decision regarding the grievance. The committee's review shall be fair, impartial, and timely. The grievance advisor or program director will report on the action taken by the committee in writing to both the student and the person toward whom the grievance was directed.
6. If either party (the student or the person or persons toward whom the grievance is directed) is unsatisfied with the decision of the program's faculty committee, the party may file a written appeal to the SMPH senior associate dean for basic research, biotechnology and graduate studies within 10 business days from the date of notification of the program's faculty committee. The following steps will occur:
    a. The grievant will be notified in writing, within 5 business days of the written appeal, acknowledging receipt of the formal appeal and establishing a timeline for the review to be completed.
    b. The senior associate dean or their designee may request additional materials and/or arrange meetings with the grievant and/or others. If meetings occur, the senior associate dean or their designee will meet with both the grievant and the person or persons toward whom the grievance is directed.

c. The senior associate dean or their designee will assemble an ad hoc committee of faculty from outside of the student's graduate program and ask them to prepare a written recommendation on whether to uphold or reverse the decision of the program on the student's initial grievance. The committee may request additional materials and/or arrange meetings with the grievant and/or others. If meetings occur, the committee will meet with both the grievant and the person or persons toward whom the grievance is directed.
d. The senior associate dean or their designee will make a final decision within 20 business days of receipt of the committee's recommendation.
e. The SMPH Office of Basic Research, Biotechnology, and Graduate Studies must store documentation of the grievance for seven years. Grievances that set a precedent may be stored indefinitely.

7. The student may file an appeal of the School of Medicine and Public Health decision with the Graduate School. See the Grievances and Appeals section of the Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/documents/grievances-and-appeals/).

**Time Limits**

Steps in the grievance procedures must be initiated and completed within the designated time periods except when modified by mutual consent. If the student fails to initiate the next step in the grievance procedure within the designated time period, the grievance will be considered resolved by the decision at the last completed step.

## OTHER

The MS in Biotechnology Program does not offer any financial aid, and graduate students are not permitted to accept any research, project, or teaching assistantship positions that would waive tuition. Students with two or more years work experience after receiving their bachelor's degree are preferred for admission.

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Integrate core scientific, business, and legal principles to assess new biological discoveries and their potential development into commercial products for diverse biotechnology industries and applications.
2. Utilize science, policy, law, and business tenets to lead the development and commercialization of new and promising technologies.
3. Compare how regulations are developed and how they interact with science, business, and finance to influence the formation and growth of technology companies.
4. Implement the technical, sociological, and leadership skills necessary to successfully direct projects on a global scale.
5. Develop effective oral and written communication skills appropriate for the audience.
6. Evaluate modern biotechnology technologies through hands-on participation in the laboratory.
7. Research modern biotechnology technologies using peer-reviewed journals, databases, and global regulatory agency and legal documents.

# ENDOCRINOLOGY-REPRODUCTIVE PHYSIOLOGY, DOCTORAL MINOR

The Endocrinology - Reproductive Physiology (ERP) program at UW–Madison is an interdisciplinary endocrine program with a longstanding focus on reproduction. An ERP PhD minor provides students with a strong didactic foundation in endocrinology and reproductive physiology. It is appropriate for bioscience and health science graduate students with relevant interests. In addition to formal coursework, the ERP PhD minor requires 2 semesters of weekly ERP Seminar, which gives students the opportunity to cultivate presentation skills and get exposure to research by peers, faculty, and visiting scholars.

For more information about the ERP minor, refer to the graduate program manager (contact information appears in the sidebar.)

If you are interested in obtaining a distributed minor, you can work with your major department to confirm that the ERP courses you take will count.

## ADMISSIONS

# ADMISSIONS

Students interested in learning if the doctoral minor aligns with their research and career goals may contact the program coordinator. A doctoral minor must be completed before a student advances to dissertator status. Students should plan accordingly.

To apply, students must submit the doctoral minor form (https://erp.wiscweb.wisc.edu/wp-content/uploads/sites/407/2017/12/ERP-Minor_2017.doc) (support from the program advisor and proposed doctoral minor advisor is required.) There are no deadlines to submit the doctoral minor form.

Based on the information submitted, program directors will determine if an Endocrinology Reproductive Physiology doctoral minor is appropriate and feasible.

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any doctoral minor. To apply to this minor, log in to MyUW, click on Graduate Student Portal, and then click on

Add/Change Programs. Select the information for the doctoral minor for which you are applying.

## FUNDING

# FUNDING

The Endocrinology - Reproductive Physiology (ERP) program does not provide specific funding for the ERP doctoral minor.

## REQUIREMENTS

# REQUIREMENTS

| Code | Title | Credits |

### ENDOCRINOLOGY - REPRODUCTIVE PHYSIOLOGY ANNUAL SYMPOSIUM

- Required to attend annually
- Required to submit an abstract for a poster / oral presentation each year until degree completion

# ENDOCRINOLOGY-REPRODUCTIVE PHYSIOLOGY, MS

The Endocrinology - Reproductive Physiology MS program is quite small, admitting an average of 1 new student each year. Prior to enrollment, prospective MS students must take the initiative to forge a relationship with an Endocrinology - Reproductive Physiology (ERP) faculty mentor who agrees to fund their training. The ERP MS program is research-based, and requires a thesis defense. Typical time to graduation for ERP MS students is 2-3 years.

The Endocrinology - Reproductive Physiology program at UW–Madison is an interdisciplinary endocrine program with a longstanding focus on reproduction. Our faculty's research spans from disordered metabolism (such as hypertension, obesity and diabetes) to reproductive biology (such as sexual differentiation, fetal programming, pregnancy complications, and cancers of the reproductive tract.) We use a variety of multidisciplinary approaches in our research, from stem cells and cellular/molecular biology, to comparative physiology, to translational work in humans. We are able to provide such diversity in research opportunities thanks to the varied backgrounds of more than 50 faculty trainers, drawn from 15 departments across 5 schools and colleges.

In addition to exceptional research training, ERP prioritizes career development and mentoring, and provides robust support services to promote our students' success.

ERP implements a holistic approach to admissions. Both quantitative and qualitative measures are used to assess each applicant's unique attributes and potential to thrive in our graduate program. We recognize that quantitative measures of achievement alone do not predict success in graduate school.

The ERP MS program offers:

- A strong didactic foundation in endocrinology and reproductive physiology
- Cutting-edge research training by faculty in a variety of departments and research areas
- Weekly ERP Seminar and Annual ERP Research Symposia to cultivate presentation skills and expose students to research by peers, faculty, and visiting scholars
- Guaranteed funding through assistantships for the duration of training, given satisfactory progress, including:
  - Competitive stipend
  - Tuition remission
  - Generous health benefits (the same as faculty and staff)
- A vibrant and engaged community of fellow students
- Attentive and attuned program leadership invested in students' scholarly development, professional development, and overall well-being

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 1 |
| Spring Deadline | The program does not admit in the spring. |
| Summer Deadline | The program does not admit in the summer. |

| | |
|---|---|
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

Admission to the program is competitive. Potential applicants will have a major in the biological sciences or other relevant field, a minimum undergraduate GPA of 3.0/4.0, and appropriate preparatory courses in physiology, chemistry, biochemistry, biology, physics, calculus, statistics, organic chemistry, and/or genetics. Prior laboratory research experience is strongly recommended.

The application process includes the completion and submission of the online Graduate School application, payment of the application fee, submission of a personal statement for graduate study, receipt of English proficiency test scores (if applicable), receipt of three letters of recommendation, an unofficial transcript, and a current curriculum vitae.

Completed applications for entry are reviewed by a panel of faculty. Applicants who pass this first step will be invited for a campus visit to interview with faculty and learn more about the program.

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

Prior to enrollment, prospective MS students must take the initiative to forge a relationship with an Endocrinology - Reproductive Physiology (ERP) faculty mentor who agrees to fund their training. Once admitted, all ERP students are guaranteed funding provided they make satisfactory progress. Funding support includes a competitive stipend, full tuition remission, and generous health benefits.

Students are typically funded through research assistant appointments. Eligible students may also be funded through individual fellowships or training grants. While teaching is not an ERP requirement, some students become teaching assistants.

ERP students are encouraged to apply for external fellowships, travel awards and scholarships, with the support of their advisors. The process of applying for competitive awards is an invaluable learning experience and an accomplishment in itself, regardless of whether the application is successful.

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program approval, prior graduate coursework may satisfy requirements. Consult with the graduate program manager and director to determine if prior graduate coursework is relevant and can fulfill requirements. Students may transfer up to 7 credits. Credits earned ten or more years prior to admission to a doctoral degree are not allowed to satisfy requirements.

Students may satisfy course content requirements beyond the 7 credit transfer maximum with prior graduate coursework, but additional credits do not transfer. Such course substitutions must be discussed with the program director. Students must still fulfill the Graduate School's minimum credit requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

Occasionally, with program approval, students may satisfy course requirements with prior undergraduate coursework from UW-Madison or other institutions, but the associated credits do not transfer. Consult with the graduate program manager and director to determine if prior undergraduate coursework is relevant and can fulfill requirements. Undergraduate coursework completed ten or more years prior to admission to a doctoral degree are not allowed to satisfy requirements.

Such course substitutions must be discussed with the program director. Students must still fulfill the Graduate School's minimum credit requirements.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special student at UW–Madison

Occasionally, with program approval, students may satisfy course requirements with prior undergraduate coursework as a UW-Madison Special student. Consult with the graduate program manager and director to determine if prior coursework is relevant and can fulfill requirements. Students may transfer up to 7 total credits from graduate coursework earned as a Special student. Undergraduate courses taken as a Special student may satisfy course requirements, but the associated credits do not transfer. Credits earned ten or more years prior to a doctoral degree are not allowed to satisfy requirements.

Such course substitutions must be discussed with the program director. Students must still fulfill the Graduate School's minimum credit requirements.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Every graduate student is required to have an advisor. To ensure that students are making satisfactory progress toward a degree, the Graduate School expects them to meet with their advisor on a regular basis.

An advisor generally serves as the thesis advisor. In many cases, an advisor is assigned to incoming students. Students can be suspended from the Graduate School if they do not have an advisor. An advisor is a faculty member, or sometimes a committee, from the major department responsible for providing advice regarding graduate studies.

A committee often accomplishes advising for the students in the early stages of their studies.

## CREDITS PER TERM ALLOWED

12 credits

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)

- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

### Grievance Policy for Graduate Programs in the School of Medicine and Public Health

Any student in a School of Medicine and Public Health graduate program who feels that they have been treated unfairly in regards to educational decisions and/or outcomes or issues specific to the graduate program, including academic standing, progress to degree, professional activities, appropriate advising, and a program's community standards by a faculty member, staff member, postdoc, or student has the right to complain about the treatment and to receive a prompt hearing of the grievance following these grievance procedures. Any student who discusses, inquiries about, or participates in the grievance procedure may do so openly and shall not be subject to intimidation, discipline, or retaliation because of such activity. Each program's grievance advisor is listed on the "Research" tab of the SMPH intranet (https://intranet.med.wisc.edu/).

**Exclusions**

This policy does not apply to employment-related issues for Graduate Assistants in TA, PA and/or RA appointments. Graduate Assistants will utilize the Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/) (GAPP) grievance process to resolve employment-related issues.

This policy does not apply to instances when a graduate student wishes to report research misconduct. For such reports refer to the UW-Madison Policy for Reporting Research Misconduct for Graduate Students and Postdoctoral Research Associates (https://research.wisc.edu/kb-article/?id=84924).

**Requirements for Programs**

The School of Medicine and Public Health Office of Basic Research, Biotechnology and Graduate Studies requires that each graduate program designate a grievance advisor, who should be a tenured faculty member, and will request the name of the grievance advisor annually. The program director will serve as the alternate grievance advisor in the event that the grievance advisor is named in the grievance. The program must notify students of the grievance advisor, including posting the grievance advisor's name on the program's Guide page and handbook.

The grievance advisor or program director may be approached for possible grievances of all types. They will spearhead the grievance response process described below for issues specific to the graduate program, including but not limited to academic standing, progress to degree, professional activities, appropriate advising, and a program's community standards. They will ensure students are advised on reporting procedures for other types of possible grievances and are supported throughout the reporting process. Resources (https://grad.wisc.edu/current-students/#reporting-incidents) on identifying and reporting other issues have been compiled by the Graduate School.

**Procedures**

1. The student is advised to initiate a written record containing dates, times, persons, and description of activities, and to update this record while completing the procedures described below.
2. If the student is comfortable doing so, efforts should be made to resolve complaints informally between individuals before pursuing a formal grievance.
3. Should a satisfactory resolution not be achieved, the student should contact the program's grievance advisor or program director to discuss the complaint. The student may approach the grievance advisor or program director alone or with a UW-Madison faculty or staff member. The grievance advisor or program director should keep a record of contacts with regards to possible grievances. The first attempt is to help the student informally address the complaint prior to pursuing a formal grievance. The student is also encouraged to talk with their faculty advisor regarding concerns or difficulties.
4. If the issue is not resolved to the student's satisfaction, the student may submit a formal grievance to the grievance advisor or program director in writing, within 60 calendar days from the

date the grievant first became aware of, or should have become aware of with the exercise of reasonable diligence, the cause of the grievance. To the fullest extent possible, a grievance shall contain a clear and concise statement of the grievance and indicate the issue(s) involved, the relief sought, the date(s) the incident or violation took place, and any specific policy involved.

5. On receipt of a written grievance, the following steps will occur. The final step must be completed within 30 business days from the date the grievance was received. The program must store documentation of the grievance for seven years. Significant grievances that set a precedent may be stored indefinitely.
    a. The grievance advisor or program director will convene a faculty committee composed of at least three members to manage the grievance. Any faculty member involved in the grievance or who feels that they cannot be impartial may not participate in the committee. Committee composition should reflect diverse viewpoints within the program.
    b. The faculty committee, through the grievance advisor or program director, will obtain a written response from the person or persons toward whom the grievance is directed. The grievance advisor or program director will inform this person that their response will be shared with the student filing the grievance.
    c. The grievance advisor or program director will share the response with the student filing the grievance.
    d. The faculty committee will make a decision regarding the grievance. The committee's review shall be fair, impartial, and timely. The grievance advisor or program director will report on the action taken by the committee in writing to both the student and the person toward whom the grievance was directed.
6. If either party (the student or the person or persons toward whom the grievance is directed) is unsatisfied with the decision of the program's faculty committee, the party may file a written appeal to the SMPH senior associate dean for basic research, biotechnology and graduate studies within 10 business days from the date of notification of the program's faculty committee. The following steps will occur:
    a. The grievant will be notified in writing, within 5 business days of the written appeal, acknowledging receipt of the formal appeal and establishing a timeline for the review to be completed.
    b. The senior associate dean or their designee may request additional materials and/or arrange meetings with the grievant and/or others. If meetings occur, the senior associate dean or their designee will meet with both the grievant and the person or persons toward whom the grievance is directed.
    c. The senior associate dean or their designee will assemble an ad hoc committee of faculty from outside of the student's graduate program and ask them to prepare a written recommendation on whether to uphold or reverse the decision of the program on the student's initial grievance. The committee may request additional materials and/or arrange meetings with the grievant and/or others. If meetings occur, the committee will meet with both the grievant and the person or persons toward whom the grievance is directed.
    d. The senior associate dean or their designee will make a final decision within 20 business days of receipt of the committee's recommendation.
    e. The SMPH Office of Basic Research, Biotechnology, and Graduate Studies must store documentation of the grievance for seven years. Grievances that set a precedent may be stored indefinitely.
7. The student may file an appeal of the School of Medicine and Public Health decision with the Graduate School. See the Grievances and Appeals section of the Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/documents/grievances-and-appeals/).

**Time Limits**

Steps in the grievance procedures must be initiated and completed within the designated time periods except when modified by mutual consent. If the student fails to initiate the next step in the grievance procedure within the designated time period, the grievance will be considered resolved by the decision at the last completed step.

## OTHER

Most Endocrinology - Reproductive Physiology students are 100% funded through research assistantships and/or fellowships, which include tuition, health insurance, and a monthly stipend.

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Develop disciplinary knowledge (i.e., endocrinology, reproductive physiology, biochemical principles)
2. Critically assess research in discipline
3. Clearly articulate research findings
4. Develop responsible and ethical research practices
5. Develop confidence, independence, and identity as a researcher

# ENDOCRINOLOGY-REPRODUCTIVE PHYSIOLOGY, PHD

The Endocrinology-Reproductive Physiology, PhD program is a member of the **Interdisciplinary Biological and Health Sciences Consortium (IBHSC)**. The consortium fosters a collaborative environment for research and study in the biological and health sciences. Click here for more information on the IBHSC. (https://www.med.wisc.edu/education/graduate-programs/biological-health-sciences-consortium/)

The Endocrinology-Reproductive Physiology program at UW–Madison is an interdisciplinary endocrine program with a longstanding focus on reproduction. Our faculty's research spans from disordered metabolism (such as hypertension, obesity and diabetes) to reproductive biology (such as sexual differentiation, fetal programming, pregnancy complications, and cancers of the reproductive tract.) We use a variety of multidisciplinary approaches in our research, from stem cells and cellular/molecular biology, to comparative physiology, to translational work in humans. We are able to provide such diversity in research opportunities thanks to the varied backgrounds of more than 50 faculty trainers, drawn from 15 departments across 5 schools and colleges.

In addition to exceptional research training, ERP prioritizes career development and mentoring, and provides robust support services to promote our students' success.

ERP implements a holistic approach to admissions. Both quantitative and qualitative measures are used to assess each applicant's unique attributes and potential to thrive in our graduate program. We recognize that quantitative measures of achievement alone do not predict success in graduate school.

The ERP PhD program offers:

- A strong didactic foundation in endocrinology and reproductive physiology
- Cutting-edge research training by faculty in a variety of departments and research areas
- Weekly ERP Seminar and Annual ERP Research Symposia to cultivate presentation skills and expose students to research by peers, faculty, and visiting scholars
- Guaranteed funding through assistantships for the duration of training, given satisfactory progress, including:
  - Competitive stipend
  - Tuition remission
  - Generous health benefits (the same as faculty and staff)
- A vibrant and engaged community of fellow students
- Attentive and attuned program leadership invested in students' scholarly development, professional development, and overall well-being

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 1 |
| Spring Deadline | The program does not admit in the spring. |
| Summer Deadline | The program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

Admission to the program is competitive. Potential applicants will have a major in the biological sciences or other relevant field, a minimum undergraduate GPA of 3.0/4.0, and appropriate preparatory courses in physiology, chemistry, biochemistry, biology, physics, calculus, statistics, organic chemistry, and/or genetics. Prior laboratory research experience is strongly recommended.

The application process includes the completion and submission of the online Graduate School application, payment of the application fee, submission of a personal statement for graduate study, receipt of English proficiency test scores (if applicable), receipt of three letters of recommendation, unofficial transcripts, and a current curriculum vitae.

Completed applications for entry are reviewed by a panel of faculty. Applicants who pass this first step will be invited to a campus visit to interview with faculty and learn more about the program.

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

All Endocrinology - Reproductive Physiology (ERP) students are guaranteed funding provided they make satisfactory progress. Funding support includes a competitive stipend, full tuition remission, and generous health benefits.

Students are typically funded through research assistant appointments. Eligible students may also be funded through individual fellowships or training grants. While teaching is not an ERP requirement, some students become teaching assistants.

ERP students are encouraged to apply for external fellowships, travel awards and scholarships, with the support of their advisors. An ideal time to apply for external support is within six months of the preliminary exam. The process of applying for competitive awards is an invaluable learning experience and an accomplishment in itself, regardless of whether the application is successful.

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 51 credits |
| Minimum Residence Credit Requirement | 32 credits |
| Minimum Graduate Coursework Requirement | 26 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | n/a |
| Assessments and Examinations | Doctoral students are required to take a comprehensive preliminary/oral examination after they have cleared their record of all Incomplete and Progress grades (other than research and thesis). Deposit of the doctoral dissertation in the Graduate School is required. |
| Language Requirements | Contact the program for information on any language requirements. |
| Graduate School Breadth Requirement | Doctoral students are not required to complete a doctoral minor or graduate/professional certificate. |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Biostatistics** | | |
| Complete one of the following: | | 3-4 |
| AN SCI 865 | Design and Analysis of Biological Studies | |
| STAT/B M I 541 | Introduction to Biostatistics | |
| STAT/ F&W ECOL 571 | Statistical Methods for Bioscience I | |
| **Endocrinology Series** | | |
| OBS&GYN 710 | Reproductive Endocrine Physiology | 3 |
| OBS&GYN 800 | Concepts in Endocrinology and Reproductive Physiology | 3 |
| MEDICINE 720 | Endocrinology and Metabolism | 3 |
| **Professional Development** | | |
| OBS&GYN 955 | Responsible Conduct of Research for Biomedical Graduate Students | 2 |
| OBS&GYN 956 | Advanced Responsible Conduct of Research for Biomedical Students | 1 |
| **Program Seminar** | | |
| Students are required to enroll in this seminar each fall and spring semester. | | 8 |
| OBS&GYN/ AN SCI/ ZOOLOGY 954 | Seminar in Endocrinology-Reproductive Physiology | |
| **Required Elective** | | |
| Complete one of the following: | | 2-3 |
| M&ENVTOX 801 | Scientific Communication in Molecular & Environmental Toxicology | |
| OBS&GYN 711 | Advanced Reproductive Endocrine Physiology | |
| OBS&GYN 712 | Critical Thinking in Reproductive Endocrine Physiology | |
| AN SCI 875 | Special Topics | |
| **Additional Electives** | | |
| Electives are chosen in consultation with advisor and with committee approval. | | 0-6 |
| **Research Credits** | | |
| Students must take research credits every semester until they satisfy the minimum credit requirement. Credits will vary. | | 20-25 |
| **Total Credits** | | **51** |

## POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program approval, prior graduate coursework may satisfy requirements. Consult with the graduate program manager and director to determine if prior graduate coursework is relevant and can fulfill requirements. Students may transfer up to 7 credits. Credits earned ten or more years prior to admission to a doctoral degree are not allowed to satisfy requirements.

Students may satisfy course content requirements beyond the 7 credit transfer maximum with prior graduate coursework, but additional credits do not transfer. Such course substitutions must be discussed with the program director. Students must still fulfill the Graduate School's minimum credit requirements.

### Undergraduate Credits Earned at other Institutions or UW-Madison

Occasionally, with program approval, students may satisfy course requirements with prior undergraduate coursework from UW-Madison or other institutions, but the associated credits do not transfer. Consult with the graduate program manager and director to determine if prior undergraduate coursework is relevant and can fulfill requirements. Undergraduate coursework completed ten or more years prior to admission to a doctoral degree are not allowed to satisfy requirements.

Such course substitutions must be discussed with the program director. Students must still fulfill the Graduate School's minimum credit requirements.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special student at UW-Madison

Occasionally, with program approval, students may satisfy course requirements with prior coursework as a UW-Madison University Special student. Consult with the graduate program manager and director to determine if prior undergraduate coursework is relevant and can fulfill requirements. Students may transfer up to 7 total credits from graduate coursework earned as a Special student. Undergraduate courses taken as a University Special student may satisfy course requirements, but the associated credits do not transfer. Credits earned ten or more years prior to admission to a doctoral degree are not allowed to satisfy requirements.

Such course substitutions must be discussed with the program director. Students must still fulfill the Graduate School's minimum credit requirements.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Every graduate student is required to have an advisor. An advisor is a faculty member, or sometimes a committee, from the major department responsible for providing advice regarding graduate studies. An advisor generally serves as the thesis advisor. In many cases, an advisor is assigned to incoming students. Students can be suspended from the Graduate School if they do not have an advisor.

To ensure that students are making satisfactory progress toward a degree, the Graduate School expects them to meet with their advisor on a regular basis.

A committee often accomplishes advising for the students in the early stages of their studies.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)

- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## Grievance Policy for Graduate Programs in the School of Medicine and Public Health

Any student in a School of Medicine and Public Health graduate program who feels that they have been treated unfairly in regards to educational decisions and/or outcomes or issues specific to the graduate program, including academic standing, progress to degree, professional activities, appropriate advising, and a program's community standards by a faculty member, staff member, postdoc, or student has the right to complain about the treatment and to receive a prompt hearing of the grievance following these grievance procedures. Any student who discusses, inquiries about, or participates in the grievance procedure may do so openly and shall not be subject to intimidation, discipline, or retaliation because of such activity. Each program's grievance advisor is listed on the "Research" tab of the SMPH intranet (https://intranet.med.wisc.edu/).

### Exclusions

This policy does not apply to employment-related issues for Graduate Assistants in TA, PA and/or RA appointments. Graduate Assistants will utilize the Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/) (GAPP) grievance process to resolve employment-related issues.

This policy does not apply to instances when a graduate student wishes to report research misconduct. For such reports refer to the UW-Madison Policy for Reporting Research Misconduct for Graduate Students and Postdoctoral Research Associates (https://research.wisc.edu/kb-article/?id=84924).

### Requirements for Programs

The School of Medicine and Public Health Office of Basic Research, Biotechnology and Graduate Studies requires that each graduate program designate a grievance advisor, who should be a tenured faculty member, and will request the name of the grievance advisor annually. The program director will serve as the alternate grievance advisor in the event that the grievance advisor is named in the grievance. The program must notify students of the grievance advisor, including posting the grievance advisor's name on the program's Guide page and handbook.

The grievance advisor or program director may be approached for possible grievances of all types. They will spearhead the grievance response process described below for issues specific to the graduate program, including but not limited to academic standing, progress to degree, professional activities, appropriate advising, and a program's community standards. They will ensure students are advised on reporting procedures for other types of possible grievances and are supported throughout the reporting process. Resources (https://grad.wisc.edu/current-students/#reporting-incidents) on identifying and reporting other issues have been compiled by the Graduate School.

### Procedures

1. The student is advised to initiate a written record containing dates, times, persons, and description of activities, and to update this record while completing the procedures described below.
2. If the student is comfortable doing so, efforts should be made to resolve complaints informally between individuals before pursuing a formal grievance.
3. Should a satisfactory resolution not be achieved, the student should contact the program's grievance advisor or program director to discuss the complaint. The student may approach the grievance advisor or program director alone or with a UW-Madison faculty or staff member. The grievance advisor or program director should keep a record of contacts with regards to possible grievances. The first attempt is to help the student informally address the complaint prior to pursuing a formal grievance. The student is also encouraged to talk with their faculty advisor regarding concerns or difficulties.
4. If the issue is not resolved to the student's satisfaction, the student may submit a formal grievance to the grievance advisor or program director in writing, within 60 calendar days from the date the grievant first became aware of, or should have become aware of with the exercise of reasonable diligence, the cause of the grievance. To the fullest extent possible, a grievance shall contain a clear and concise statement of the grievance and indicate the issue(s) involved, the relief sought, the date(s) the incident or violation took place, and any specific policy involved.
5. On receipt of a written grievance, the following steps will occur. The final step must be completed within 30 business days from the date the grievance was received. The program must store documentation of the grievance for seven years. Significant grievances that set a precedent may be stored indefinitely.
    a. The grievance advisor or program director will convene a faculty committee composed of at least three members to manage the grievance. Any faculty member involved in the grievance or who feels that they cannot be impartial may not participate in the committee. Committee composition should reflect diverse viewpoints within the program.
    b. The faculty committee, through the grievance advisor or program director, will obtain a written response from the person or persons toward whom the grievance is directed. The grievance advisor or program director will inform this person that their response will be shared with the student filing the grievance.
    c. The grievance advisor or program director will share the response with the student filing the grievance.
    d. The faculty committee will make a decision regarding the grievance. The committee's review shall be fair, impartial, and timely. The grievance advisor or program director will report on the action taken by the committee in writing to both the student and the person toward whom the grievance was directed.
6. If either party (the student or the person or persons toward whom the grievance is directed) is unsatisfied with the decision of the program's faculty committee, the party may file a written appeal to the SMPH senior associate dean for basic research, biotechnology and graduate studies within 10 business days from the date of notification of the program's faculty committee. The following steps will occur:
    a. The grievant will be notified in writing, within 5 business days of the written appeal, acknowledging receipt of the formal appeal and establishing a timeline for the review to be completed.

b. The senior associate dean or their designee may request additional materials and/or arrange meetings with the grievant and/or others. If meetings occur, the senior associate dean or their designee will meet with both the grievant and the person or persons toward whom the grievance is directed.
c. The senior associate dean or their designee will assemble an ad hoc committee of faculty from outside of the student's graduate program and ask them to prepare a written recommendation on whether to uphold or reverse the decision of the program on the student's initial grievance. The committee may request additional materials and/or arrange meetings with the grievant and/or others. If meetings occur, the committee will meet with both the grievant and the person or persons toward whom the grievance is directed.
d. The senior associate dean or their designee will make a final decision within 20 business days of receipt of the committee's recommendation.
e. The SMPH Office of Basic Research, Biotechnology, and Graduate Studies must store documentation of the grievance for seven years. Grievances that set a precedent may be stored indefinitely.

7. The student may file an appeal of the School of Medicine and Public Health decision with the Graduate School. See the Grievances and Appeals section of the Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/documents/grievances-and-appeals/).

**Time Limits**

Steps in the grievance procedures must be initiated and completed within the designated time periods except when modified by mutual consent. If the student fails to initiate the next step in the grievance procedure within the designated time period, the grievance will be considered resolved by the decision at the last completed step.

### OTHER

Most Endocrinology - Reproductive Physiology students are 100% funded through research assistantships and/or fellowships, which include tuition, health insurance, and a monthly stipend.

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Develop disciplinary knowledge (i.e., endocrinology, reproductive physiology, biochemical principles)
2. Critically assess research in discipline
3. Clearly articulate research findings
4. Develop responsible and ethical research practices
5. Develop confidence, independence, and identity as a researcher

# GLOBAL HEALTH ONLINE, GRADUATE/PROFESSIONAL CERTIFICATE

The complex, existential problems challenging today's world — emerging infectious diseases and pandemics, food insecurity and starvation, climate change impacts on health, antimicrobial resistance, fundamental inequities in access to nutrition and healthcare — transcend national boundaries and require expertise and perspectives from across the biomedical, social, and physical sciences to achieve creative solutions. The UW–Madison Certificate in Global Health Online provides students with the knowledge and skills to address health challenges and disparities around the world. The largely asynchronous, online format provides maximum flexibility for students to complete the certificate effectively within the context of primary degree, work and/or family responsibilities.

## ADMISSIONS

# ADMISSIONS

As a graduate/professional certificate program, this certificate is intended for degree-seeking graduate and professional students who would like to add the certificate to their primary course of study.

The Certificate in Global Health Online accepts applications year-round.

- Applications are accepted through July 15 for fall.
- Applications are accepted through December 1 for spring.

In addition to the Certificate in Global Health Online application form (https://ogh.med.wisc.edu/graduate-professional-capstone-certificates-in-global-health-online/application-page-for-graduate-professional-certificate-in-global-health-online/), program applicants are required to submit a current resume and transcripts (unofficial accepted) from all post-secondary schools attended. Applicants who are currently enrolled in or have been accepted to a UW–Madison health sciences or graduate studies program may request to have copies of their transcripts sent from their program administrator to the School of Medicine and Public Health (SMPH) Office of Global Health.

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any graduate/professional certificate. To apply to this certificate, log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. Select the information for the certificate for which you are applying.

All **Professional students** (primarily health sciences students) will receive a declaration form upon admission to the program which will need to be signed by their dean/advisor and returned to the SMPH Office of Global Health.

Students who already have an undergraduate degree with a major in Global Health from UW-Madison are encouraged to contact the SMPH Office of Global Health to discuss options for advanced study. Please do not apply for the graduate/professional certificate.

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

Students currently enrolled in a full-time graduate/professional degree program at UW–Madison do not pay additional tuition for the certificate online coursework. However, responsibility for funding the global health field experience lies with the student. Depending on the site, nature, and duration of the experience, costs could range from $2,000 to $5,000, including program fees, travel, and in-country living expenses. In some cases, students may be permitted to increase their student financial aid package to help pay these expenses. For students participating in the faculty-led field courses, scholarships are available through the International Academic Programs (IAP)/Study Abroad office that manages these programs. Additionally, primary degree programs and/or student organizations may also have funds available to help support field experience costs.

## REQUIREMENTS

# REQUIREMENTS

## REQUIRED COURSES

Students must complete at least 11 credits, while in residence, and earn a minimum 3.0 GPA in required certificate coursework. Completed courses listed within the certificate curriculum, whether or not they meet a specific requirement, are included in the calculation of the GPA. Courses in which a student elects the pass/fail option do not satisfy requirements.

| Code | Title | Credits |
|---|---|---|
| **Core Course Requirements** | | |
| Students must complete the following courses. | | |
| PUBLHLTH 710 | Introduction to Global Health: History, Current Issues, and Health Statistics | 2 |
| PUBLHLTH 711 | Global Public Health and Healthcare Systems: Organizations, Governance, Financing, and Workforce | 2 |
| PUBLHLTH 712 | Global Health: Infectious Diseases, One Health, and Prevention Strategies | 2 |
| PUBLHLTH 713 | Global Health: Non-communicable Diseases, Poverty, Environmental Health, and Food Security | 2 |
| PUBLHLTH 714 | Global Health Field Work Fundamentals: Engagement, Ethics, Policy, and Methods | 2 |
| **Global Health Field Experience** | | |
| Students must complete one of the following courses. | | 1 |
| PUBLHLTH 716 | Study Abroad Global Health Field Experience | |
| or Independent Study | | |
| **Total Credits** | | **11** |

### Independent Study

For independent study field experiences, certificate students must prepare a proposal, to be reviewed and approved by their advisor and the Certificate Program Director, which describes project goals and objectives and outlines a tentative schedule of activities. Students must register for independent study credit in an appropriate school or department (a 699 course number in most health sciences and graduate departments). All students completing independent field experiences are required by the School of Medicine and Public Health (SMPH) to execute an affiliation agreement between the field site organization and the SMPH/University of Wisconsin–Madison. Upon completion of the independent field experience, all students must submit to the Certificate program office:

- A summary of reflections on the field course/experience. (This may take the form of a journal kept throughout the field course/experience, or if a journal was not kept, a template will be provided.);
- An instructor evaluation of the student;
- A reference-cited, academic paper/project report; and
- A site evaluation.

### Details on the Global Health Field Experience

A global health field experience/course is an academic credit-based learning experience in a setting relevant to global health. Field experiences/courses are generally carried out during the summer (less commonly within the normal academic calendar if they do not interfere with class attendance or completion of requirements for registered coursework). Students must be in good academic standing to participate in a global health field experience. One week of on-site learning is equivalent to 1 credit. While field experience credits may range from 1-6, **only one field experience credit may be applied toward the certificate requirements**.

Students may elect to complete either:

1. a faculty-led interdisciplinary group field course administered by the UW–Madison Office of International Academic Programs (i.e., PUBLHLTH 716 Study Abroad Global Health Field Experience), or
2. an independent study field experience at the site of their choice, with approval of an academic advisor and the certificate faculty program director (see independent study description above). Field experiences usually take place in a country outside the United States, but may also be carried out in the United States, working with international/under-served populations or addressing health issues that have global implications. Students may also work with international agencies, such as the United Nations, the World Health Organization, Centers for Disease Control and Prevention, or nongovernmental organizations.

For PUBLHLTH 716 faculty-led group courses (Thailand, Ecuador, India), students are required to apply to participate in the field course through the campus-wide Office of International Academic Programs and complete a country-specific orientation program. Upon satisfactory completion of the field course, students will receive credit for PUBLHLTH 716.

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

### PROGRAM RESOURCES

The Certificate in Global Health Online provides comprehensive student support and mentoring to maximize professional development for participating students. The programs coordinator will serve as the first line of student support for basic, procedural issues regarding the certificate program (e.g., access to the application portal, tracking of completed program requirements, monitoring of international travel requirements and paperwork, general questions). The faculty program director will serve as the primary advisor to students for issues regarding coursework as related to program requirements; global health content knowledge questions; advice, recommendations, and contacts for field projects; and, any student concerns regarding the program and academic/non-academic problems that may arise. All course faculty have extensive international field experience and will serve as equally important sources of information and personal contacts for students' field projects and mentoring for overall development of professional skills in global health. Additionally, they will share the role of advising students regarding academic issues specific to their own courses.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Exhibit the ability to describe and compare the health care systems in different areas of the world (such as: an understanding of pros and cons of systems, comparison to the U.S. system, and trends in the evolution of health care systems over time).
2. Demonstrate knowledge of the epidemiology of common global health concerns, both communicable and non-communicable (such as: differences between high/middle/low income countries and programs to mitigate the impacts of these health issues such as the Sustainable Development Goals).
3. Demonstrate the ability to integrate information from multiple perspectives into an assessment of a country/location's health status (such as: history, politics, culture, societal structure, economics, environmental sciences, health care system(s), health databases, disease epidemiology, human rights, human subjects protections).
4. Model ethical behavior in global health engagement (such as: appreciation of the bidirectional nature of learning and mutual benefits between stakeholders and learners, cultural humility and flexibility, recognition of the importance of program sustainability over time, openness to new information/ideas).
5. Demonstrate professionalism, effective communication, leadership, problem-solving, and collaboration across multiple health education disciplines and stakeholders in addressing a global health issue (including an understanding of One Health approaches).
6. Exhibit the ability for growth in one's approach to global health work through self-assessment and structured reflection (such as: personal biases and perspectives, views on equity and disparities, personal limitations).

# MOLECULAR AND CELLULAR PHARMACOLOGY, MS

The Molecular and Cellular Pharmacology (MCP) program, in cooperation with the Center for Training in Pharmacology and Drug Development (CTPDD), offers interdisciplinary graduate training in the field of molecular and cellular pharmacology. The primary emphasis is doctoral training in molecular biology, biochemistry, genetics, and cell biology with a focus on integrating these methodologies with modern pharmacology. Other related degree programs under the direction of program faculty are cellular and molecular biology, environmental toxicology, neuroscience, biomolecular chemistry, and genetics.

Pharmacology is the knowledge of the biochemical and physiological actions of drugs, which act on cellular signaling pathways. The molecular basis of cellular signaling and its control by various drugs is a major aspect of modern pharmacology and this aspect is emphasized in the Molecular and Cellular Pharmacology Training Program. The majority of signal transduction pathways still await discovery or at least a thorough molecular characterization. Members of our program employ the whole spectrum of modern biochemical, cell and molecular biological, physiological, and pharmacological methods in a basic research-oriented scientific environment to unravel the many unsolved mysteries underlying cellular regulation and signaling. Certain research initiatives have a translational component, with the goal of applying basic discoveries to developing new therapeutic modalities. Our program brings together an outstanding group of dedicated trainers with a focus on cellular signal transduction.

Graduates of the program will be well prepared for a career in basic biomedical sciences in academia, industry, and more. We provide a unique training experience for young scientists who want to elucidate basic principles of cellular signal pathways. Detailed knowledge of these pathways is the most important prerequisite for the discovery of new drugs and the treatment of diseases. The members of the Molecular and Cellular Pharmacology Training Program invite you to examine the educational and research opportunities described at this site and to consider joining this unique and exciting graduate program.

## ADMISSIONS

# ADMISSIONS

Students may not apply directly for the master's, and should instead see the admissions information for the PhD (https://guide.wisc.edu/graduate/medicine-public-health-school-wide/molecular-cellular-pharmacology-phd/#admissionstext).

## FUNDING

# FUNDING

### GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate

student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

# REQUIREMENTS

## MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

## MAJOR REQUIREMENTS

### MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

#### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

### CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 15 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | n/a |
| Assessments and Examinations | Contact the program for information on required assessments and examinations. |
| Language Requirements | Contact the program for information on any language requirements. |

### REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| PHMCOL-M 781 | Molecular and Cellular Principles in Pharmacology | 4 |
| PHMCOL-M 739 | Rigor, Reproducibility and Becoming an Effective Researcher | 1 |
| STAT/F&W ECOL 571 | Statistical Methods for Bioscience I | 4 |
| OBS&GYN 955 | Responsible Conduct of Research for Biomedical Graduate Students | 2 |
| **Research & Seminar** | | **16** |
| PHMCOL-M 901 | Seminar and Journal Club [1] | |
| PHMCOL-M 990 | Research [2] | |
| **Electives** | | **3** |
| Students must take a graduate-level 3-credit course, as approved by their faculty advisor. | | |
| **Total Credits** | | **30** |

[1] Students are required to take 1 credit of seminar each fall and spring semester during enrollment as a graduate student in the program.

[2] Students must take research credits every semester until they meet a minimum of 30 credits. Credits will vary.

# POLICIES

## GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

## MAJOR-SPECIFIC POLICIES

### PRIOR COURSEWORK

#### Graduate Credits Earned at Other Institutions

With program approval, students are allowed to transfer no more than 7 credits of graduate coursework from other institutions. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

#### Undergraduate Credits Earned at Other Institutions or UW-Madison

No credits from an other institution or UW–Madison undergraduate degree are allowed to count toward the degree.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

With program approval, students are allowed to transfer no more than 15 credits of coursework numbered 300 or above taken as a UW–Madison University Special student. Coursework earned ten or more years prior to admission to a master's is not allowed to satisfy requirements.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Every graduate student is required to have an advisor and committee. The advisor serves a dual role: first, to assist the student in acquiring the highest level of knowledge and competence in the field that is possible; and second, to chair the committee that will determine whether the student has performed acceptably at each of his/ her degree milestones. The chair or co-chair of the committee must be Graduate Faculty from the student's program. Advisors may assist in tracking the student's progress toward degree completion, assisting with course selection and academic planning, and helping students identify possible research mentors, committee members, and opportunities.

Master's thesis committees must have at least three members; two must be Graduate Faculty or former Graduate Faculty up to one year after resignation or retirement.

## CREDITS PER TERM ALLOWED

15 credits

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

### Grievance Policy for Graduate Programs in the School of Medicine and Public Health

Any student in a School of Medicine and Public Health graduate program who feels that they have been treated unfairly in regards to educational decisions and/or outcomes or issues specific to the graduate program, including academic standing, progress to degree, professional activities, appropriate advising, and a program's community standards by a faculty member, staff member, postdoc, or student has the right to complain about the treatment and to receive a prompt hearing of the grievance following these grievance procedures. Any student who discusses, inquiries about, or participates in the grievance procedure may do so openly and shall not be subject to intimidation, discipline, or retaliation because of such activity. Each program's grievance advisor is listed on the "Research" tab of the SMPH intranet (https://intranet.med.wisc.edu/).

#### Exclusions

This policy does not apply to employment-related issues for Graduate Assistants in TA, PA and/or RA appointments. Graduate Assistants will utilize the Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/) (GAPP) grievance process to resolve employment-related issues.

This policy does not apply to instances when a graduate student wishes to report research misconduct. For such reports refer to the UW-Madison Policy for Reporting Research Misconduct for Graduate Students and Postdoctoral Research Associates (https://research.wisc.edu/kb-article/?id=84924).

#### Requirements for Programs

The School of Medicine and Public Health Office of Basic Research, Biotechnology and Graduate Studies requires that each graduate program designate a grievance advisor, who should be a tenured faculty member, and will request the name of the grievance advisor annually. The program director will serve as the alternate grievance advisor in the event that the grievance advisor is named in the grievance. The program must notify students of the grievance advisor, including posting the grievance advisor's name on the program's Guide page and handbook.

The grievance advisor or program director may be approached for possible grievances of all types. They will spearhead the grievance response process described below for issues specific to the graduate program, including but not limited to academic standing, progress to degree, professional activities, appropriate advising, and a program's community standards. They will ensure students are advised on reporting procedures for other types of possible grievances and are supported throughout the reporting process. Resources (https://grad.wisc.edu/current-students/

#reporting-incidents) on identifying and reporting other issues have been compiled by the Graduate School.

**Procedures**

1. The student is advised to initiate a written record containing dates, times, persons, and description of activities, and to update this record while completing the procedures described below.
2. If the student is comfortable doing so, efforts should be made to resolve complaints informally between individuals before pursuing a formal grievance.
3. Should a satisfactory resolution not be achieved, the student should contact the program's grievance advisor or program director to discuss the complaint. The student may approach the grievance advisor or program director alone or with a UW-Madison faculty or staff member. The grievance advisor or program director should keep a record of contacts with regards to possible grievances. The first attempt is to help the student informally address the complaint prior to pursuing a formal grievance. The student is also encouraged to talk with their faculty advisor regarding concerns or difficulties.
4. If the issue is not resolved to the student's satisfaction, the student may submit a formal grievance to the grievance advisor or program director in writing, within 60 calendar days from the date the grievant first became aware of, or should have become aware of with the exercise of reasonable diligence, the cause of the grievance. To the fullest extent possible, a grievance shall contain a clear and concise statement of the grievance and indicate the issue(s) involved, the relief sought, the date(s) the incident or violation took place, and any specific policy involved.
5. On receipt of a written grievance, the following steps will occur. The final step must be completed within 30 business days from the date the grievance was received. The program must store documentation of the grievance for seven years. Significant grievances that set a precedent may be stored indefinitely.
    a. The grievance advisor or program director will convene a faculty committee composed of at least three members to manage the grievance. Any faculty member involved in the grievance or who feels that they cannot be impartial may not participate in the committee. Committee composition should reflect diverse viewpoints within the program.
    b. The faculty committee, through the grievance advisor or program director, will obtain a written response from the person or persons toward whom the grievance is directed. The grievance advisor or program director will inform this person that their response will be shared with the student filing the grievance.
    c. The grievance advisor or program director will share the response with the student filing the grievance.
    d. The faculty committee will make a decision regarding the grievance. The committee's review shall be fair, impartial, and timely. The grievance advisor or program director will report on the action taken by the committee in writing to both the student and the person toward whom the grievance was directed.
6. If either party (the student or the person or persons toward whom the grievance is directed) is unsatisfied with the decision of the program's faculty committee, the party may file a written appeal to the SMPH senior associate dean for basic research, biotechnology and graduate studies within 10 business days from the date of notification of the program's faculty committee. The following steps will occur:
    a. The grievant will be notified in writing, within 5 business days of the written appeal, acknowledging receipt of the formal appeal and establishing a timeline for the review to be completed.
    b. The senior associate dean or their designee may request additional materials and/or arrange meetings with the grievant and/or others. If meetings occur, the senior associate dean or their designee will meet with both the grievant and the person or persons toward whom the grievance is directed.
    c. The senior associate dean or their designee will assemble an ad hoc committee of faculty from outside of the student's graduate program and ask them to prepare a written recommendation on whether to uphold or reverse the decision of the program on the student's initial grievance. The committee may request additional materials and/or arrange meetings with the grievant and/or others. If meetings occur, the committee will meet with both the grievant and the person or persons toward whom the grievance is directed.
    d. The senior associate dean or their designee will make a final decision within 20 business days of receipt of the committee's recommendation.
    e. The SMPH Office of Basic Research, Biotechnology, and Graduate Studies must store documentation of the grievance for seven years. Grievances that set a precedent may be stored indefinitely.
7. The student may file an appeal of the School of Medicine and Public Health decision with the Graduate School. See the Grievances and Appeals section of the Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/documents/grievances-and-appeals/).

**Time Limits**

Steps in the grievance procedures must be initiated and completed within the designated time periods except when modified by mutual consent. If the student fails to initiate the next step in the grievance procedure within the designated time period, the grievance will be considered resolved by the decision at the last completed step.

## OTHER

All students in the Graduate Program in Molecular and Cellular Pharmacology receive competitive stipends to cover living expenses, tuition and fees from Graduate School Fellowships, NIH Training Grants, or research assistantships funded through the Graduate Program. Health insurance costs are partially covered by the university and provide the same coverage as for faculty and staff.

# PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

## GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## PROGRAM RESOURCES

The MCP Program and UW–Madison offer a wealth of resources intended to enrich graduate student studies and enhance professional skills. It is expected that students will take full advantage of the resources that best fit their needs and support their career goals. Since MCP alumni thrive in academia, industry, corporate, government, and non-profit arenas, we strive to be holistic and innovative in our approach to meeting the diverse professional development needs of our students. By actively participating in these professional development opportunities, students will build the skills needed to succeed academically at UW–Madison and to thrive professionally in their chosen career. For the most updated information, please visit: MCP Program Professional Development (https://molpharm.wisc.edu/career-development/).

## LEARNING OUTCOMES

## LEARNING OUTCOMES

1. Gain a broad understanding of the pharmacological principles that underlie all biological processes.
2. Become aware of the current limitations of the state of understanding of this discipline and the strategies that are required to advance the field of pharmacology.
3. Creates new approaches in research, scholarship, or performance that makes a substantive contribution.
4. Conduct independent research using a breadth of pharmacological processes.
5. Think critically to address research challenges using a broad range of the theories, research methods, and approaches to scientific inquiry.
6. Collaborate with investigators within the program, university, and beyond since current and future advances in pharmacological sciences demand interdisciplinary skills.
7. Fosters ethical and professional conduct in the sciences, including but not limited to: exposition of the scientific method; ethical design of experimental protocols; reproducibility in science; professional behavior in industrial, government, and academic settings; documentation of scientific results; communication to other scientists and the public; peer review; and confidentiality.
8. Communicates complex ideas in a clear and understandable manner.
9. Explore career development opportunities in industry, government, and academia to realize professional goals and paths.
10. Develop teaching and mentoring skills in both lecture and laboratory settings.

# MOLECULAR AND CELLULAR PHARMACOLOGY, PHD

The Molecular and Cellular Pharmacology, PhD program is a member of the **Interdisciplinary Biological and Health Sciences Consortium (IBHSC)**. The consortium fosters a collaborative environment for research and study in the biological and health sciences. Click here for more information on the IBHSC. (https://www.med.wisc.edu/education/graduate-programs/biological-health-sciences-consortium/)

The Molecular and Cellular Pharmacology (MCP) program, in cooperation with the Center for Training in Pharmacology and Drug Development (CTPDD), offers interdisciplinary graduate training in the field of molecular and cellular pharmacology. The primary emphasis is doctoral training in molecular biology, biochemistry, genetics, and cell biology with a focus on integrating these methodologies with modern pharmacology. Other related degree programs under the direction of program faculty are cellular and molecular biology, environmental toxicology, neuroscience, biomolecular chemistry, and genetics.

Pharmacology is the knowledge of the biochemical and physiological actions of drugs, which act on cellular signaling pathways. The molecular basis of cellular signaling and its control by various drugs is a major aspect of modern pharmacology and this aspect is emphasized in the Molecular and Cellular Pharmacology Training Program. The majority of signal transduction pathways still await discovery or at least a thorough molecular characterization. Members of our program employ the whole spectrum of modern biochemical, cell and molecular biological, physiological, and pharmacological methods in a basic research-oriented scientific environment to unravel the many unsolved mysteries underlying cellular regulation and signaling. Certain research initiatives have a translational component, with the goal of applying basic discoveries to developing new therapeutic modalities. Our program brings together an outstanding group of dedicated trainers with a focus on cellular signal transduction.

Graduates of the program will be well prepared for a career in basic biomedical sciences in academia, industry, and more. We provide a unique training experience for young scientists who want to elucidate basic principles of cellular signal pathways. Detailed knowledge of these pathways is the most important prerequisite for the discovery of new drugs and the treatment of diseases. The members of the Molecular and Cellular Pharmacology Training Program invite you to examine the educational and research opportunities described at this site, and to consider joining this unique and exciting graduate program.

## ADMISSIONS

## ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 1 |
| Spring Deadline | The program does not admit in the spring. |
| Summer Deadline | The program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |

| | |
|---|---|
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

The Graduate School sets minimum requirements for admissions (https://grad.wisc.edu/admissions/requirements/). Academic program admission requirements are often more rigorous than those set by the Graduate School.

Upload the following to the online application:

- **PDF transcripts.** Upload unofficial transcripts for all completed post-secondary coursework. Only electronic versions are accepted for initial screening; do not mail hard copies of transcripts. If recommended for admission, official transcripts will be requested.
- **Personal statement.** Your personal statement must detail your research interests and future career goals, why you chose to apply to the MCP program at UW-Madison, and previous research or research-related experience. Please address any inconsistencies or gaps in application materials, such as: low GPA during a specific semester, time off from school, career change, etc. You may include additional information about yourself regarding character, work ethic, etc.
- **CV or resume.** Your resume should highlight exemplary aspects of your background, including: educational training, honors and awards, authored publications, scientific presentations, and research or research-related experience (including name of PI and summary of work performed).
- **Three letters of recommendation.** Your letters should be written by people familiar with your research experience of academic background, such as research advisors or professors. More than three letters may be submitted. Do not submit copies of manuscripts: these are not circulated to the MCP admissions committee during the review process.

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

### Annual Stipend and Benefits

All students receive competitive stipends to cover living expenses. The benefits package also includes tuition remission and a choice of comprehensive health insurance plans which include medical, dental, and vision at a minimal cost. It is the same coverage offered to faculty and staff.

### Training Grants

Many of our graduate students are supported by NIH training grants. Prospective students must be nominated by the MCP Admissions Committee or by faculty mentors to receive training grant support from the MCP NIH T32 GM141013. Opportunities may also be available during the first semester of study, and students are encouraged to contact the MCP program for assistance with the nomination process.

### Fellowships

Some students are supported by University fellowships administered by the University's Office of Fellowships at the Graduate School. Prospective students must be nominated by the program, and awardees are chosen by the UW Fellowships Committee. Other extramural funding sources include NIH, NSF, DOD, DOE, AHA, PhRMA, and more. Students can receive application assistance from the program and the university.

Prospective students should check the MCP Program website (https://molpharm.wisc.edu/funding-available-to-mcp-students/) for the most updated funding information.

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program approval, students are allowed to transfer no more than 7 credits of graduate coursework from other institutions. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

No credits from another institution or UW–Madison undergraduate degree are allowed to count toward the degree.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special student at UW–Madison

With program approval, students are allowed to transfer no more than 15 credits of coursework numbered 300 or above taken as a UW–Madison University Special student. However, these credits are not allowed to count toward the 50% graduate coursework minimum unless numbered 700 or above or are taken to meet the requirements of a capstone certificate and has the "Grad 50%" designation. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Every graduate student is required to have an advisor and committee. The advisor serves a dual role: first, to assist the student in acquiring the highest level of knowledge and competence in the field that is possible; and second, to chair the committee that will determine whether the student has performed acceptably at each of his/her degree milestones. The chair or co-chair of the committee must be graduate faculty from the student's program. Advisors may assist in tracking the student's progress toward degree completion, assisting with course selection and academic planning, and helping students identify possible research mentors, committee members, and opportunities.

Minimum requirements for graduate committees are as follows:

- The chair or co-chair of the committee must be graduate faculty from the student's major program.
- The co-advisor/co-chair will be designated on dissertation documentation.
- Doctoral committees (PhD) must have at least four members, three of whom must be Molecular and Cellular Pharmacology graduate faculty or former graduate faculty up to one year after resignation or retirement. At least one of the members must be from outside of the student's major field.

- At least three committee members of all doctoral/final oral examination committees must be designated as readers.
- Doctoral degree recipients must acknowledge in the dissertation contributions received from other individuals, including co-authors of published work that appears in the document, such as in designing the research, executing the research, analyzing the data, interpreting the data/research, or writing, proofing, or copyediting the manuscript.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

A candidate for a doctoral degree who fails to take the final oral examination and deposit the dissertation within five years after passing the preliminary examination may by require to take another preliminary examination and to be admitted to candidacy a second time.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

### Grievance Policy for Graduate Programs in the School of Medicine and Public Health

Any student in a School of Medicine and Public Health graduate program who feels that they have been treated unfairly in regards to educational decisions and/or outcomes or issues specific to the graduate program, including academic standing, progress to degree, professional activities, appropriate advising, and a program's community standards by a faculty member, staff member, postdoc, or student has the right to complain about the treatment and to receive a prompt hearing of the grievance following these grievance procedures. Any student who discusses, inquiries about, or participates in the grievance procedure may do so openly and shall not be subject to intimidation, discipline, or retaliation because of such activity. Each program's grievance advisor is listed on the "Research" tab of the SMPH intranet (https://intranet.med.wisc.edu/).

**Exclusions**

This policy does not apply to employment-related issues for Graduate Assistants in TA, PA and/or RA appointments. Graduate Assistants will utilize the Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/) (GAPP) grievance process to resolve employment-related issues.

This policy does not apply to instances when a graduate student wishes to report research misconduct. For such reports refer to the UW-Madison Policy for Reporting Research Misconduct for Graduate Students and Postdoctoral Research Associates (https://research.wisc.edu/kb-article/?id=84924).

**Requirements for Programs**

The School of Medicine and Public Health Office of Basic Research, Biotechnology and Graduate Studies requires that each graduate program designate a grievance advisor, who should be a tenured faculty member, and will request the name of the grievance advisor annually. The program director will serve as the alternate grievance advisor in the event that the grievance advisor is named in the grievance. The program must notify students of the grievance advisor, including posting the grievance advisor's name on the program's Guide page and handbook.

The grievance advisor or program director may be approached for possible grievances of all types. They will spearhead the grievance response process described below for issues specific to the graduate program, including but not limited to academic standing, progress to degree, professional activities, appropriate advising, and a program's community standards. They will ensure students are advised on reporting procedures for other types of possible grievances and are supported throughout the reporting process. Resources (https://grad.wisc.edu/current-students/#reporting-incidents) on identifying and reporting other issues have been compiled by the Graduate School.

**Procedures**

1. The student is advised to initiate a written record containing dates, times, persons, and description of activities, and to update this record while completing the procedures described below.
2. If the student is comfortable doing so, efforts should be made to resolve complaints informally between individuals before pursuing a formal grievance.
3. Should a satisfactory resolution not be achieved, the student should contact the program's grievance advisor or program director to discuss the complaint. The student may approach the grievance advisor or program director alone or with a UW-Madison faculty or staff member. The grievance advisor or program director should keep a record of contacts with regards to possible grievances. The first attempt is to help the student informally address the complaint prior to pursuing a formal

grievance. The student is also encouraged to talk with their faculty advisor regarding concerns or difficulties.

4. If the issue is not resolved to the student's satisfaction, the student may submit a formal grievance to the grievance advisor or program director in writing, within 60 calendar days from the date the grievant first became aware of, or should have become aware of with the exercise of reasonable diligence, the cause of the grievance. To the fullest extent possible, a grievance shall contain a clear and concise statement of the grievance and indicate the issue(s) involved, the relief sought, the date(s) the incident or violation took place, and any specific policy involved.
5. On receipt of a written grievance, the following steps will occur. The final step must be completed within 30 business days from the date the grievance was received. The program must store documentation of the grievance for seven years. Significant grievances that set a precedent may be stored indefinitely.
    a. The grievance advisor or program director will convene a faculty committee composed of at least three members to manage the grievance. Any faculty member involved in the grievance or who feels that they cannot be impartial may not participate in the committee. Committee composition should reflect diverse viewpoints within the program.
    b. The faculty committee, through the grievance advisor or program director, will obtain a written response from the person or persons toward whom the grievance is directed. The grievance advisor or program director will inform this person that their response will be shared with the student filing the grievance.
    c. The grievance advisor or program director will share the response with the student filing the grievance.
    d. The faculty committee will make a decision regarding the grievance. The committee's review shall be fair, impartial, and timely. The grievance advisor or program director will report on the action taken by the committee in writing to both the student and the person toward whom the grievance was directed.
6. If either party (the student or the person or persons toward whom the grievance is directed) is unsatisfied with the decision of the program's faculty committee, the party may file a written appeal to the SMPH senior associate dean for basic research, biotechnology and graduate studies within 10 business days from the date of notification of the program's faculty committee. The following steps will occur:
    a. The grievant will be notified in writing, within 5 business days of the written appeal, acknowledging receipt of the formal appeal and establishing a timeline for the review to be completed.
    b. The senior associate dean or their designee may request additional materials and/or arrange meetings with the grievant and/or others. If meetings occur, the senior associate dean or their designee will meet with both the grievant and the person or persons toward whom the grievance is directed.
    c. The senior associate dean or their designee will assemble an ad hoc committee of faculty from outside of the student's graduate program and ask them to prepare a written recommendation on whether to uphold or reverse the decision of the program on the student's initial grievance. The committee may request additional materials and/or arrange meetings with the grievant and/or others. If meetings occur, the committee will meet with both the grievant and the person or persons toward whom the grievance is directed.
    d. The senior associate dean or their designee will make a final decision within 20 business days of receipt of the committee's recommendation.
    e. The SMPH Office of Basic Research, Biotechnology, and Graduate Studies must store documentation of the grievance for seven years. Grievances that set a precedent may be stored indefinitely.
7. The student may file an appeal of the School of Medicine and Public Health decision with the Graduate School. See the Grievances and Appeals section of the Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/documents/grievances-and-appeals/).

**Time Limits**

Steps in the grievance procedures must be initiated and completed within the designated time periods except when modified by mutual consent. If the student fails to initiate the next step in the grievance procedure within the designated time period, the grievance will be considered resolved by the decision at the last completed step.

## OTHER

All students in the Graduate Program in Molecular and Cellular Pharmacology receive competitive stipends to cover living expenses, tuition and fees from Graduate School Fellowships, NIH Training Grants, or research assistantships funded through the Graduate Program. Health insurance costs are partially covered by the university and provide the same coverage as for faculty and staff.

# PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

## GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## PROGRAM RESOURCES

The MCP Program and UW–Madison offer a wealth of resources intended to enrich graduate student studies and enhance professional skills. It is expected that students will take full advantage of the resources that best fit their needs and support their career goals. Since MCP alumni thrive in academia, industry, corporate, government, and non-profit arenas, we strive to be holistic and innovative in our approach to meeting the diverse professional development needs of our students. By actively participating in these professional development opportunities, students will build the skills needed to succeed academically at UW–Madison and to thrive professionally in their chosen careers. For the most updated information, please visit: MCP Program Professional Development (https://molpharm.wisc.edu/career-development/).

LEARNING OUTCOMES

## LEARNING OUTCOMES

1. Gain a broad understanding of the pharmacological principles that underlie all biological processes.
2. Become aware of the current limitations of the state of understanding of this discipline and the strategies that are required to advance the field of pharmacology.
3. Creates new approaches in research, scholarship, or performance that makes a substantive contribution.
4. Conduct independent research using a breadth of pharmacological processes.
5. Think critically to address research challenges using a broad range of the theories, research methods, and approaches to scientific inquiry.
6. Collaborate with investigators within the program, university, and beyond since current and future advances in pharmacological sciences demand interdisciplinary skills.
7. Fosters ethical and professional conduct in the sciences, including but not limited to: exposition of the scientific method; ethical design of experimental protocols; reproducibility in science; professional behavior in industrial, government, and academic settings; documentation of scientific results; communication to other scientists and the public; peer review; and confidentiality.
8. Communicates complex ideas in a clear and understandable manner.
9. Explore career development opportunities in industry, government, and academia to realize professional goals and paths.
10. Develop teaching and mentoring skills in both lecture and laboratory settings.

# MOLECULAR AND ENVIRONMENTAL TOXICOLOGY, DOCTORAL MINOR

ADMISSIONS

## ADMISSIONS

Doctoral minors are open to all students who are already members of a doctoral program. Students interested in a minor in Molecular and Environmental Toxicology are encouraged to contact the Graduate Program Manager.

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any doctoral minor. To apply to this minor, log into MyUW, click on the Graduate Student Portal, and then click on Add/Change Programs. Select the information for the doctoral minor for which you are applying.

REQUIREMENTS

## REQUIREMENTS

Students in other fields who elect to minor in Molecular and Environmental Toxicology must satisfactorily complete a total of 10 credits in the program. Satisfactory completion of the minor requires a B average or better in the selected courses.

### REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| M&ENVTOX/ ONCOLOGY/ PHM SCI/PHMCOL-M/POP HLTH 625 | Toxicology I | 3 |
| M&ENVTOX/PATH/ PHM SCI/PHMCOL-M/POP HLTH 626 | Toxicology II | 3 |
| M&ENVTOX/ CIV ENGR/ SOIL SCI 631 | Toxicants in the Environment: Sources, Distribution, Fate, & Effects | 3 |
| M&ENVTOX 699 | Special Problems | 1-3 |
| M&ENVTOX 800 | Seminar | 1 |

### ADVISOR / COMMITTEE

For the doctoral minor, at least one member of the student's research advisory committee must be affiliated with the Molecular & Environmental Toxicology Program.

# MOLECULAR AND ENVIRONMENTAL TOXICOLOGY, MS

Molecular and environmental toxicology is a multidisciplinary subject that involves the study of mechanisms of action of environmental toxicants on humans and other organisms and the behavior of these toxicants in the environment. The UW–Madison Molecular and Environmental Toxicology Center's graduate program provides students with expert knowledge in at least one specialty plus a broad understanding of other specialties that contribute to the resolution of environmental toxicology problems. The center is sponsored by the School of Medicine and Public Health as well as the College of Agricultural and Life Sciences, the School of Veterinary Medicine, and the School of Pharmacy. The center links researchers in numerous academic departments who are working on problems in this area.

An interdisciplinary graduate program leading to the doctor of philosophy or a master of science in molecular and environmental toxicology is offered by the center under the direction of an executive committee composed of faculty affiliated with the center. The program offers two general approaches: mechanisms of pathobiology of chemically induced disease and environmental activities of chemicals. Each approach is subdivided into focal areas including metabolic and genetic toxicology, neurotoxicology, and immunotoxicology; and ecotoxicology, bioremediation, and distribution and assessment of environmental chemicals. All students participate in a core curriculum that addresses these various areas and that is supplemented by other advanced,

specialized courses. Students perform research under the guidance of one of the center's graduate faculty members.

Recipients of graduate degrees in molecular and environmental toxicology pursue careers in governmental agencies (policymaking, regulations, standard setting, or research), private industry (e.g., hazardous waste management, occupational safety, consumer affairs, research and development, or regulatory compliance), and the academic community (teaching and research). The center office maintains specific information concerning career placements.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements (https://grad.wisc.edu/apply/requirements/) *of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 1 |
| Spring Deadline | The program does not admit in the spring. |
| Summer Deadline | The program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required but may be considered if available. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

To qualify for graduate study in molecular and environmental toxicology, applicants normally have a bachelor's degree in a biological or physical science, with at least a 3.0 GPA (on a 4.0 scale).

## PREREQUISITES

The following courses should be completed before entrance to the program:

- four semesters of chemistry, including at least one of organic (depending on the planned direction within the program, a semester of either analytical chemistry or biochemistry is highly recommended);
- one semester of math-based physics (a second semester is highly recommended); and
- three semesters of biology, including coverage of introductory genetics.
- One or more semesters of calculus is highly recommended.

If applicants have not taken one semester of statistics, biometrics, or an equivalent course, and one semester of biochemistry equivalent to the UW-Madison BIOCHEM 501 Introduction to Biochemistry course, then these courses must be taken as part of the program and will fulfill elective credit requirements for the major. Applicants with a limited number of deficiencies may be admitted, but must eliminate these deficiencies early in their graduate study.

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

The Molecular & Environmental Toxicology Program does not guarantee funding for incoming or continuing masters students. Master's students may be eligible for research assistantships, teaching assistantships, advanced opportunity fellowships for minority or disadvantaged students, or other funding opportunities. Students are encouraged to contact individual professors in their areas of interest to determine whether support is available for working in that lab.

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 15 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required.<br>Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | Students must receive either an A, AB, B, or S in their core courses (listed below) for them to satisfy program requirements. |
| Assessments and Examinations | Students on the non-thesis pathway will need to take more didactic credits to fulfill the 30 credit minimum requirement. The final examination for degree completion of the degree is a topic / literature review of toxicological relevance.<br><br>Students on the research / thesis pathway will be able to take 990 research credits to fulfill their 30 credit minimum requirement. The final examination for degree completion is the development of a masters thesis based on the research conducted. |
| Language Requirements | None. |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Toxicology Core Curriculum** | | |
| M&ENVTOX/ONCOLOGY/PHM SCI/PHMCOL-M/POP HLTH 625 | Toxicology I | 3 |
| M&ENVTOX/PATH/PHM SCI/PHMCOL-M/POP HLTH 626 | Toxicology II | 3 |
| OBS&GYN 955 | Responsible Conduct of Research for Biomedical Graduate Students | 2 |
| CIV ENGR 704 | Environmental Chemical Kinetics | 3 |
| M&ENVTOX 801 | Scientific Communication in Molecular & Environmental Toxicology | 2 |
| **Seminar** | | |
| Students are expected to enroll in this course every semester: | | 2-4 |
| M&ENVTOX 800 | Seminar | |
| **Additional Credits** | | |
| Students select courses numbered 300 or above in consultation with their advisory committee. Students completing the research/thesis path must take M&ENVTOX 990. | | 13-15 |
| **Total Credits** | | **30** |

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

Occasionally, and with program approval, prior coursework may satisfy elective credit requirements. Students may satisfy up to 7 credits of electives with prior coursework, but credits do not usually transfer. Consult with the graduate program manager and director to determine if prior coursework is relevant and can fulfill elective requirements. Credits earned ten or more years prior to admission to a master's degree are not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

Students may satisfy course requirements with prior coursework from UW-Madison, including POP HLTH/M&ENVTOX/ONCOLOGY/PHM SCI/PHMCOL-M 625 Toxicology I, POP HLTH/M&ENVTOX/PATH/PHM SCI/PHMCOL-M 626 Toxicology II , and SOIL SCI/CIV ENGR/M&ENVTOX 631 Toxicants in the Environment: Sources, Distribution, Fate, & Effects. Credits earned ten or more years prior to admission to a master's degree are not allowed to satisfy requirements. Prior undergraduate coursework from other institutions does not transfer.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special student at UW–Madison

Students may satisfy course requirements with prior coursework as a University Special student, including M&ENVTOX/ONCOLOGY/PHM SCI/PHMCOL-M/POP HLTH 625 Toxicology I, M&ENVTOX/PATH/PHM SCI/PHMCOL-M/POP HLTH 626 Toxicology II, and SOIL SCI/CIV ENGR/M&ENVTOX 631 Toxicants in the Environment: Sources, Distribution, Fate, & Effects. Credits earned ten or more years prior to admission to a master's degree are not allowed to satisfy requirements.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Refer to the Graduate School: Advisor (https://policy.wisc.edu/library/UW-1232/) and Graduate School: Committees (Doctoral/Master's/MFA) (https://policy.wisc.edu/library/UW-1201/) policies.

## CREDITS PER TERM ALLOWED

12 credits

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)

### Grievance Policy for Graduate Programs in the School of Medicine and Public Health

Any student in a School of Medicine and Public Health graduate program who feels that they have been treated unfairly in regards to educational decisions and/or outcomes or issues specific to the graduate program, including academic standing, progress to degree, professional activities, appropriate advising, and a program's community standards by a faculty member, staff member, postdoc, or student has the right to complain about the treatment and to receive a prompt hearing of the grievance following these grievance procedures. Any student who discusses, inquiries about, or participates in the grievance procedure may do so openly and shall not be subject to intimidation, discipline, or retaliation because of such activity. Each program's grievance advisor is listed on the "Research" tab of the SMPH intranet (https://intranet.med.wisc.edu/).

**Exclusions**

This policy does not apply to employment-related issues for Graduate Assistants in TA, PA and/or RA appointments. Graduate Assistants will utilize the Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/) (GAPP) grievance process to resolve employment-related issues.

This policy does not apply to instances when a graduate student wishes to report research misconduct. For such reports refer to the UW-Madison Policy for Reporting Research Misconduct for Graduate Students and Postdoctoral Research Associates (https://research.wisc.edu/kb-article/?id=84924).

**Requirements for Programs**

The School of Medicine and Public Health Office of Basic Research, Biotechnology and Graduate Studies requires that each graduate program designate a grievance advisor, who should be a tenured faculty member, and will request the name of the grievance advisor annually. The program director will serve as the alternate grievance advisor in the event that the grievance advisor is named in the grievance. The program must notify students of the grievance advisor, including posting the grievance advisor's name on the program's Guide page and handbook.

The grievance advisor or program director may be approached for possible grievances of all types. They will spearhead the grievance response process described below for issues specific to the graduate program, including but not limited to academic standing, progress to degree, professional activities, appropriate advising, and a program's community standards. They will ensure students are advised on reporting procedures for other types of possible grievances and are supported throughout the reporting process. Resources (https://grad.wisc.edu/current-students/#reporting-incidents) on identifying and reporting other issues have been compiled by the Graduate School.

**Procedures**

1. The student is advised to initiate a written record containing dates, times, persons, and description of activities, and to update this record while completing the procedures described below.
2. If the student is comfortable doing so, efforts should be made to resolve complaints informally between individuals before pursuing a formal grievance.
3. Should a satisfactory resolution not be achieved, the student should contact the program's grievance advisor or program director to discuss the complaint. The student may approach the grievance advisor or program director alone or with a UW-Madison faculty or staff member. The grievance advisor or program director should keep a record of contacts with regards to possible grievances. The first attempt is to help the student informally address the complaint prior to pursuing a formal grievance. The student is also encouraged to talk with their faculty advisor regarding concerns or difficulties.
4. If the issue is not resolved to the student's satisfaction, the student may submit a formal grievance to the grievance advisor or program director in writing, within 60 calendar days from the date the grievant first became aware of, or should have become aware of with the exercise of reasonable diligence, the cause of the grievance. To the fullest extent possible, a grievance

shall contain a clear and concise statement of the grievance and indicate the issue(s) involved, the relief sought, the date(s) the incident or violation took place, and any specific policy involved.

5. On receipt of a written grievance, the following steps will occur. The final step must be completed within 30 business days from the date the grievance was received. The program must store documentation of the grievance for seven years. Significant grievances that set a precedent may be stored indefinitely.
    a. The grievance advisor or program director will convene a faculty committee composed of at least three members to manage the grievance. Any faculty member involved in the grievance or who feels that they cannot be impartial may not participate in the committee. Committee composition should reflect diverse viewpoints within the program.
    b. The faculty committee, through the grievance advisor or program director, will obtain a written response from the person or persons toward whom the grievance is directed. The grievance advisor or program director will inform this person that their response will be shared with the student filing the grievance.
    c. The grievance advisor or program director will share the response with the student filing the grievance.
    d. The faculty committee will make a decision regarding the grievance. The committee's review shall be fair, impartial, and timely. The grievance advisor or program director will report on the action taken by the committee in writing to both the student and the person toward whom the grievance was directed.
6. If either party (the student or the person or persons toward whom the grievance is directed) is unsatisfied with the decision of the program's faculty committee, the party may file a written appeal to the SMPH senior associate dean for basic research, biotechnology and graduate studies within 10 business days from the date of notification of the program's faculty committee. The following steps will occur:
    a. The grievant will be notified in writing, within 5 business days of the written appeal, acknowledging receipt of the formal appeal and establishing a timeline for the review to be completed.
    b. The senior associate dean or their designee may request additional materials and/or arrange meetings with the grievant and/or others. If meetings occur, the senior associate dean or their designee will meet with both the grievant and the person or persons toward whom the grievance is directed.
    c. The senior associate dean or their designee will assemble an ad hoc committee of faculty from outside of the student's graduate program and ask them to prepare a written recommendation on whether to uphold or reverse the decision of the program on the student's initial grievance. The committee may request additional materials and/or arrange meetings with the grievant and/or others. If meetings occur, the committee will meet with both the grievant and the person or persons toward whom the grievance is directed.
    d. The senior associate dean or their designee will make a final decision within 20 business days of receipt of the committee's recommendation.
    e. The SMPH Office of Basic Research, Biotechnology, and Graduate Studies must store documentation of the grievance for seven years. Grievances that set a precedent may be stored indefinitely.
7. The student may file an appeal of the School of Medicine and Public Health decision with the Graduate School. See the Grievances and Appeals section of the Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/documents/grievances-and-appeals/).

**Time Limits**

Steps in the grievance procedures must be initiated and completed within the designated time periods except when modified by mutual consent. If the student fails to initiate the next step in the grievance procedure within the designated time period, the grievance will be considered resolved by the decision at the last completed step.

# PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

## PROGRAM RESOURCES

Professional development goes beyond what students do in the classroom and at the bench. It includes an array of skills and knowledge that are not often taught yet are vitally important to furthering one's career.

All students are required to complete the AAAS Individual Development Plan (http://myidp.sciencecareers.org/) following their first semester to identify strengths in their background, as well as areas where further professional development are recommended. In addition, the program encourages students to make use of the Graduate School's DiscoverPD resource (https://my.grad.wisc.edu/DiscoverPD/). Finally, students are able to track progress through annual committee meetings, at which time students and advisors are asked to complete an evaluation of progress and have a frank discussion about areas for improvement.

The Molecular & Environmental Toxicology Program currently recommends that students complete three units (hours/activities) per semester from the professional development areas of:

- Discipline-Specific Conceptual Knowledge
- Research Skill Development
- Communication Skills
- Professionalism
- Leadership & Management Skills
- Responsible Conduct of Research (Ethics)

The program is developing a database of resources that will be available on the program website.

## GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Demonstrate a didactic knowledgeof both molecular toxicology and environmental toxicology.
2. Understand that science and research is based on trust– trust between scientists and colleagues, trust between scientists and policy makers, trust between scientists and advisory boards, and trust between scientists and society.
3. Verbally communicate their science and do#so in a clear manner for a variety of audiences.

# MOLECULAR AND ENVIRONMENTAL TOXICOLOGY, PHD

The Molecular and Environmental Toxicology, PhD program is a member of the **Interdisciplinary Biological and Health Sciences Consortium (IBHSC)**. The consortium fosters a collaborative environment for research and study in the biological and health sciences. Click here for more information on the IBHSC. (https://www.med.wisc.edu/education/graduate-programs/biological-health-sciences-consortium/)

Molecular and environmental toxicology is a multidisciplinary subject that involves the study of mechanisms of action of environmental toxicants on humans and other organisms and the behavior of these toxicants in the environment. The UW–Madison Molecular and Environmental Toxicology Center's graduate program provides students with expert knowledge in at least one specialty plus a broad understanding of other specialties that contribute to the resolution of environmental toxicology problems. The center is sponsored by the School of Medicine and Public Health as well as the College of Agricultural and Life Sciences, the School of Veterinary Medicine, and the School of Pharmacy. The center links researchers in numerous academic departments who are working on problems in this area.

An interdisciplinary graduate program leading to the doctor of philosophy or a master of science in molecular and environmental toxicology is offered by the center under the direction of an executive committee composed of faculty affiliated with the center. The program offers two general approaches: mechanisms of pathobiology of chemically induced disease and environmental activities of chemicals. Each approach is subdivided into focal areas including metabolic and genetic toxicology, neurotoxicology, and immunotoxicology; and ecotoxicology, bioremediation, and distribution and assessment of environmental chemicals. All students participate in a core curriculum that addresses these various areas and that is supplemented by other advanced, specialized courses. Students perform research under the guidance of one of the center's graduate faculty members.

Recipients of graduate degrees in molecular and environmental toxicology pursue careers in governmental agencies (policymaking, regulations, standard setting, or research), private industry (e.g., hazardous waste management, occupational safety, consumer affairs, research and development, or regulatory compliance), and the academic community (teaching and research). The center office maintains specific information concerning career placements.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 1 |
| Spring Deadline | The program does not admit in the spring. |
| Summer Deadline | The program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required but may be considered if available. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

The Molecular & Environmental Toxicology Program's admission deadline is for consideration for matriculation in fall the following year (i.e., December 1, 2017 deadline for a fall 2018 matriculation).

To qualify for graduate study in Molecular and Environmental Toxicology, applicants normally have a bachelor's degree in a biological or physical science, with at least a 3.0 GPA (on a 4.0 scale).

## PREREQUISITES

The following courses should be completed before entrance to the program:

- four semesters of chemistry, including at least one of organic (depending on the planned direction within the program, a semester of either analytical chemistry or biochemistry is highly recommended);
- one semester of math-based physics (a second semester is highly recommended); and
- three semesters of biology, including coverage of introductory genetics.
- one or more semesters of calculus is highly recommended

If applicants have not taken one semester of statistics, biometrics, or an equivalent course, and one semester of biochemistry equivalent to the

UW–Madison BIOCHEM 501 Introduction to Biochemistry course, then these courses must be taken as part of the program and will fulfill elective credit requirements for the major.

Students with a limited number of deficiencies may be admitted, but must eliminate these deficiencies early in their graduate study. International degree-seeking applicants must prove English proficiency using the Graduate School's requirements (https://grad.wisc.edu/apply/requirements/).

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

Assuming sufficient progress to degree, financial aid is provided to all PhD students, usually in the form of grant-supported research assistantships, institutional fellowships, teaching assistantships, or advanced opportunity fellowships for minority or disadvantaged students. Students are encouraged to contact individual professors in their areas of interest to determine whether support is available for working in that lab. Students are funded by program dollars to do rotations during their first semester. After having settled on a lab, their research mentor will fund the student, either through research grants, program-available TA-ships, or other fellowships.

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 51 credits |
| Minimum Residence Credit Requirement | 32 credits |
| Minimum Graduate Coursework Requirement | 26 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | Students must receive either an A, AB, B, or S in their core courses (listed below) for them to count towards the program requirements. |
| Assessments and Examinations | Doctoral students are required to take a comprehensive preliminary/oral examination after they have cleared their record of all Incomplete and Progress grades (other than research and thesis). Deposit of the doctoral dissertation in the Graduate School is required. |
| Language Requirements | None. |
| Graduate School Breadth Requirement | Doctoral students are not required to complete a minor or graduate/professional certificate, but may do so if they wish. |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Toxicology Core Curriculum** | | |
| M&ENVTOX/ ONCOLOGY/ PHM SCI/PHMCOL-M/POP HLTH 625 | Toxicology I | 3 |
| M&ENVTOX/PATH/ PHM SCI/PHMCOL-M/POP HLTH 626 | Toxicology II | 3 |
| CIV ENGR 704 | Environmental Chemical Kinetics | 3 |
| OBS&GYN 955 | Responsible Conduct of Research for Biomedical Graduate Students | 2 |
| M&ENVTOX 801 | Scientific Communication in Molecular & Environmental Toxicology | 2 |

| | | |
|---|---|---|
| OBS&GYN 956 | Advanced Responsible Conduct of Research for Biomedical Students (following advancement to candidacy) | 1 |
| **Seminar** | | |
| Students are expected to enroll in this course every semester: | | 10-11 |
| M&ENVTOX 800 | Seminar | |
| **Electives** | | |
| Students complete 7 credits of courses numbered 300 or above in consultation with their advisory committee. | | 7 |
| **Research** | | |
| Students complete research credits to meet the minimum credit requirement. | | 20 |
| M&ENVTOX 990 | Research | |
| **Total Credits** | | **51** |

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

Occasionally, and with program approval, prior coursework may satisfy elective credit requirements. Students may satisfy up to 7 credits of electives with prior coursework, but credits do not usually transfer. Consult with the graduate program manager and director to determine if prior coursework is relevant and can fulfill elective requirements. Credits earned ten or more years prior to admission to a doctoral degree are not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

Students may satisfy course requirements with prior coursework from UW-Madison, including POP HLTH/M&ENVTOX/ONCOLOGY/PHM SCI/PHMCOL-M 625 Toxicology I, POP HLTH/M&ENVTOX/PATH/PHM SCI/PHMCOL-M 626 Toxicology II, and SOIL SCI/CIV ENGR/M&ENVTOX 631 Toxicants in the Environment: Sources, Distribution, Fate, & Effects. Credits earned ten or more years prior to admission to a doctoral degree are not allowed to satisfy requirements. Prior undergraduate coursework from other institutions does not transfer.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special student at UW-Madison

Students may satisfy course requirements with prior coursework as a University Special student, including POP HLTH/M&ENVTOX/ONCOLOGY/PHM SCI/PHMCOL-M 625 Toxicology I, POP HLTH/M&ENVTOX/PATH/PHM SCI/PHMCOL-M 626 Toxicology II, and SOIL SCI/CIV ENGR/M&ENVTOX 631 Toxicants in the Environment: Sources, Distribution, Fate, & Effects. Credits earned ten or more years prior to admission to a doctoral degree are not allowed to satisfy requirements.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Refer to the Graduate School: Advisor (https://policy.wisc.edu/library/UW-1232/) and Graduate School: Committees (Doctoral/Master's/MFA) (https://policy.wisc.edu/library/UW-1201/) policies, except that at least one of the committee members needs to be outside of the advisor's department and at least one of the committee members needs to be outside of the Molecular & Environmental Toxicology Program (this member can be one and the same).

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)

- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## Grievance Policy for Graduate Programs in the School of Medicine and Public Health

Any student in a School of Medicine and Public Health graduate program who feels that they have been treated unfairly in regards to educational decisions and/or outcomes or issues specific to the graduate program, including academic standing, progress to degree, professional activities, appropriate advising, and a program's community standards by a faculty member, staff member, postdoc, or student has the right to complain about the treatment and to receive a prompt hearing of the grievance following these grievance procedures. Any student who discusses, inquiries about, or participates in the grievance procedure may do so openly and shall not be subject to intimidation, discipline, or retaliation because of such activity. Each program's grievance advisor is listed on the "Research" tab of the SMPH intranet (https://intranet.med.wisc.edu/).

### Exclusions

This policy does not apply to employment-related issues for Graduate Assistants in TA, PA and/or RA appointments. Graduate Assistants will utilize the Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/) (GAPP) grievance process to resolve employment-related issues.

This policy does not apply to instances when a graduate student wishes to report research misconduct. For such reports refer to the UW-Madison Policy for Reporting Research Misconduct for Graduate Students and Postdoctoral Research Associates (https://research.wisc.edu/kb-article/?id=84924).

### Requirements for Programs

The School of Medicine and Public Health Office of Basic Research, Biotechnology and Graduate Studies requires that each graduate program designate a grievance advisor, who should be a tenured faculty member, and will request the name of the grievance advisor annually. The program director will serve as the alternate grievance advisor in the event that the grievance advisor is named in the grievance. The program must notify students of the grievance advisor, including posting the grievance advisor's name on the program's Guide page and handbook.

The grievance advisor or program director may be approached for possible grievances of all types. They will spearhead the grievance response process described below for issues specific to the graduate program, including but not limited to academic standing, progress to degree, professional activities, appropriate advising, and a program's community standards. They will ensure students are advised on reporting procedures for other types of possible grievances and are supported throughout the reporting process. Resources (https://grad.wisc.edu/current-students/#reporting-incidents) on identifying and reporting other issues have been compiled by the Graduate School.

### Procedures

1. The student is advised to initiate a written record containing dates, times, persons, and description of activities, and to update this record while completing the procedures described below.
2. If the student is comfortable doing so, efforts should be made to resolve complaints informally between individuals before pursuing a formal grievance.
3. Should a satisfactory resolution not be achieved, the student should contact the program's grievance advisor or program director to discuss the complaint. The student may approach the grievance advisor or program director alone or with a UW-Madison faculty or staff member. The grievance advisor or program director should keep a record of contacts with regards to possible grievances. The first attempt is to help the student informally address the complaint prior to pursuing a formal grievance. The student is also encouraged to talk with their faculty advisor regarding concerns or difficulties.
4. If the issue is not resolved to the student's satisfaction, the student may submit a formal grievance to the grievance advisor or program director in writing, within 60 calendar days from the date the grievant first became aware of, or should have become aware of with the exercise of reasonable diligence, the cause of the grievance. To the fullest extent possible, a grievance shall contain a clear and concise statement of the grievance and indicate the issue(s) involved, the relief sought, the date(s) the incident or violation took place, and any specific policy involved.
5. On receipt of a written grievance, the following steps will occur. The final step must be completed within 30 business days from the date the grievance was received. The program must store documentation of the grievance for seven years. Significant grievances that set a precedent may be stored indefinitely.
    a. The grievance advisor or program director will convene a faculty committee composed of at least three members to manage the grievance. Any faculty member involved in the grievance or who feels that they cannot be impartial may not participate in the committee. Committee composition should reflect diverse viewpoints within the program.
    b. The faculty committee, through the grievance advisor or program director, will obtain a written response from the person or persons toward whom the grievance is directed. The grievance advisor or program director will inform this person that their response will be shared with the student filing the grievance.
    c. The grievance advisor or program director will share the response with the student filing the grievance.
    d. The faculty committee will make a decision regarding the grievance. The committee's review shall be fair, impartial, and timely. The grievance advisor or program director will report on the action taken by the committee in writing to both the student and the person toward whom the grievance was directed.
6. If either party (the student or the person or persons toward whom the grievance is directed) is unsatisfied with the decision of the program's faculty committee, the party may file a written appeal to the SMPH senior associate dean for basic research, biotechnology and graduate studies within 10 business days from the date of notification of the program's faculty committee. The following steps will occur:
    a. The grievant will be notified in writing, within 5 business days of the written appeal, acknowledging receipt of the formal appeal and establishing a timeline for the review to be completed.

b. The senior associate dean or their designee may request additional materials and/or arrange meetings with the grievant and/or others. If meetings occur, the senior associate dean or their designee will meet with both the grievant and the person or persons toward whom the grievance is directed.
c. The senior associate dean or their designee will assemble an ad hoc committee of faculty from outside of the student's graduate program and ask them to prepare a written recommendation on whether to uphold or reverse the decision of the program on the student's initial grievance. The committee may request additional materials and/or arrange meetings with the grievant and/or others. If meetings occur, the committee will meet with both the grievant and the person or persons toward whom the grievance is directed.
d. The senior associate dean or their designee will make a final decision within 20 business days of receipt of the committee's recommendation.
e. The SMPH Office of Basic Research, Biotechnology, and Graduate Studies must store documentation of the grievance for seven years. Grievances that set a precedent may be stored indefinitely.

7. The student may file an appeal of the School of Medicine and Public Health decision with the Graduate School. See the Grievances and Appeals section of the Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/documents/grievances-and-appeals/).

**Time Limits**

Steps in the grievance procedures must be initiated and completed within the designated time periods except when modified by mutual consent. If the student fails to initiate the next step in the grievance procedure within the designated time period, the grievance will be considered resolved by the decision at the last completed step.

## OTHER

Students are funded by program dollars to do rotations during their first semester. After having settled on a lab, their research mentor will fund the student, either through research grants, program-available teaching assistantships, or other fellowships.

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

Professional development goes beyond what students do in the classroom and at the bench. It includes an array of skills and knowledge that are not often taught yet are vitally important to furthering one's career.

All students are required to complete the AAAS Individual Development Plan (http://myidp.sciencecareers.org/) following their first semester to identify strengths in their background, as well as areas where further professional development are recommended. In addition, the program encourages students to make use of the Graduate School's DiscoverPD resource (https://my.grad.wisc.edu/DiscoverPD/). Finally, students are able to track progress through annual committee meetings, at which time students and advisors are asked to complete an evaluation of progress and have a frank discussion about areas for improvement.

The Molecular & Environmental Toxicology Program currently recommends that students complete three units (hours/activities) per semester from the professional development areas of:

- Discipline-Specific Conceptual Knowledge
- Research Skill Development
- Communication Skills
- Professionalism
- Leadership & Management Skills
- Responsible Conduct of Research (Ethics)

The program is developing a database of resources that will be available on the program website.

## GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Teach science, engaging audiences and helping them to learn.
2. Demonstrate a didactic knowledge of both molecular toxicology and environmental toxicology.
3. Design future experiments and present them as a proposal, which contains background information, experimental processes, and account for any set-backs.
4. Write for a proper audience, revising and responding to reviewers as appropriate.
5. Verbally communicate their science and do-so in a clear manner for a variety of audiences.
6. Understand that science and research is based on trust - trust between scientists and colleagues, trust between scientists and policy makers, trust between scientists and advisory boards, and trust between scientists and society.

# NEUROSCIENCE, DOCTORAL MINOR

Neuroscience as a discipline is at a vital juncture. Groundbreaking advances such as mapping of the human genome, development of advanced molecular, genetic, and imaging technologies, and novel integrative approaches have expanded knowledge about the workings of the brain as never before. With this increased understanding, neuroscientists now envision significant treatments for numerous diseases, including neurodegenerative diseases, psychiatric illnesses, and developmental and emotional disorders. The doctoral minor in neuroscience is both interdepartmental and interdisciplinary. The course curriculum draws on expertise from faculty who are spread across over 22 departments on campus.

A doctoral minor in neuroscience will be of interest to doctoral students who are interested in augmenting the discipline to their research. The minor emphasizes the core sequence of cell and molecular neuroscience and systems neuroscience as well as a midlevel graduate course in one of the two areas: cell/molecular/developmental or systems/behavior.

## ADMISSIONS

# ADMISSIONS

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any doctoral minor. To apply to this minor, log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. Select the information for the doctoral minor for which you are applying.

Once the requirements are complete, please return the completed PhD Minor in Neuroscience Form (https://ntp.wiscweb.wisc.edu/wp-content/uploads/sites/81/2017/03/PhD_Minor_Form.pdf) to the Neuroscience Training Program office for signature by the program director.

## REQUIREMENTS

# REQUIREMENTS

## GRADE REQUIREMENT

Students must earn a 3.0 grade point average (GPA) for all required courses to earn the doctoral minor.

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Core** | | |
| Students must complete the following courses. | | |
| NTP/ NEURODPT 610 | Cellular and Molecular Neuroscience | 4 |
| NTP/NEURODPT/ PSYCH 611 | Systems Neuroscience | 4 |
| **Electives** | | |
| Students must select a mid-level course from the lists below. | | 1-3 |
| **Total Credits** | | **9** |

### Electives

#### Cellular/Molecular/Developmental Approved Mid-level Courses

| Code | Title | Credits |
|---|---|---|
| B M E/MED PHYS/ PHMCOL-M/PHYSICS/ RADIOL 619 | Microscopy of Life | 3 |
| NEURODPT/ ZOOLOGY 765 | Developmental Neuroscience | 3 |
| NTP 675 | Special Topics (Molecular Mechanisms of Brain Damage) | 2 |
| NTP 675 | Special Topics (Reproductive Neuroendocrinology) | 1-3 |
| NEUROL 735 | Neurobiology of Disease | 2 |
| ZOOLOGY 604 | Computer-based Gene and Disease/Disorder Research Lab | 2 |

#### Systems/Behavioral/Computational Approved Mid-level Courses

| Code | Title | Credits |
|---|---|---|
| B M E 601 | Special Topics in Biomedical Engineering (Problem-Based Learning in Clinical Neuroengineering Seminar) | 2 |
| CS&D 850 | Hearing Science I: Basic Acoustics and Psychoacoustics | 3 |
| COMP SCI/B M I/ PSYCH 841 | Computational Cognitive Science | 3 |
| KINES 713 | Neural Basis of Normal and Pathological Movement | 3 |
| KINES 721 | Neural Basis for Movement | 3 |
| KINES 861 | Principles of Motor Control and Learning | 3 |
| MED PHYS 651 | Methods for Neuroimaging Research | 3 |
| NTP 677 | Basic Sleep Mechanisms and Sleep Disorders: from Neurobiology to Sleep Medicine | 3 |
| NTP 675 | Special Topics (Neuroethology) | 2 |
| NTP 675 | Special Topics (Brain Mapping in Health and Disease: Applications) | 3 |
| PSYCH 720 | Essentials of Cognitive Neuroscience | 3 |
| PSYCH 711 | Current Topics in Psychology (Cognitive Neuroscience of Attention and Memory) | 2-3 |
| PSYCH 711 | Current Topics in Psychology (Introduction to Neural Network Modeling of Cognition) | 2-3 |
| PSYCH 733 | Perceptual and Cognitive Sciences (Perceptual Systems Analysis) [1] | 2 |
| PSYCH 733 | Perceptual and Cognitive Sciences (Cognitive Neuroscience of Reading and Dyslexia) [1] | 2 |
| PSYCH 733 | Perceptual and Cognitive Sciences (Knotty Problems in Psycholinguistics) [1] | 2 |
| PSYCH 918 | Seminar-General Psychology (Visual Perception) | 1-3 |
| PSYCH 954 | Seminar-Physiological Psychology (Neuropharmacology) | 3 |

[1] Two PSYCH 733 courses (8 weeks each) must be taken to meet the midlevel systems requirement.

# NEUROSCIENCE, MS

The Neuroscience Training Program (NTP) was established in 1971. Currently, it comprises more than 80 faculty members whose research interests range from molecular neurobiology to integrative systems. The program is designed to prepare students for careers in research and teaching. On average the number of students in the program is approximately 55. The program is best suited for students who are independent and wish to take a direct role in determining their graduate

education. Training leads to the PhD degree in neuroscience or the MD/PhD degree in cooperation with the School of Medicine and Public Health.

The doctoral program of each graduate student in the training program is tailored to meet individual needs. Each student's program is supervised by an advisory committee of faculty members selected by the student in consultation with the major professor. During the first year, students complete three laboratory rotations.

The central forum for intellectual exchange in the program is a neuroscience seminar, which meets weekly and is attended by neuroscience students and faculty. During an academic year, members of the program choose topics in current neuroscience research for consideration. Topics are reviewed intensively in study groups supervised by faculty sponsors. Critical summaries of each topic are then presented by students to participants in the seminar as a series of lectures and discussions. Each three- to four-week topic session concludes with a lecture by an outside invited speaker who is well-known for his or her research in the topic area. In the course of every three- to four-year period, most of the major research areas in neuroscience are reviewed in the neuroscience seminar; consequently, students become familiar with the breadth of contemporary neuroscience.

The average time taken by students to complete the PhD degree is five years. The program prepares students for careers primarily in research and teaching in universities and colleges and careers outside of academia. Of the more than 200 students who have earned the PhD degree in the program, more than 95% have careers in biomedical science.

# NEUROSCIENCE & PUBLIC POLICY PROGRAM

The Neuroscience & Public Policy Program (N&PP) offers three integrated degree pathways with the cooperation of the Neuroscience Training Program, the La Follette School of Public Affairs, and the University of Wisconsin–Madison Law School. The N&PP is based on two strongly held beliefs: first, that sound science and technology policy and law are essential for the well-being of societies; second, that a step toward ensuring such policy is to train future scientists in the making of public policy or the law and prepare them to participate in bringing science and society closer together.

The program offers students the opportunity to earn a PhD degree in neuroscience as well as a master of public affairs (MPA), a master of international public affairs (MIPA), or juris doctorate (JD). In each of the degree tracks, the program brings together faculty from neuroscience, public policy, bioethics, sociology, law, and other related fields to train research neuroscientists who will be qualified to help shape public policy or the law. The cross-disciplinary training combines didactic and laboratory research training in neuroscience with a classroom-based and hands-on education in public policy or the law.

For more information about the double and dual degree tracks offered through the neuroscience and public policy program, including admissions and program requirements, please visit the program website (https://npp.wisc.edu/).

## ADMISSIONS

# ADMISSIONS

Students may not apply directly for the master's degree, and should instead see the admissions information for the PhD. (p. 1503)

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

Each student receives a stipend that covers tuition, fees, living costs, and health insurance and is guaranteed for five years if progress is satisfactory. Financial support is provided from the program's NIH training grant, fellowships, and faculty research grants. Limited support is available for international students.

Our program also works with students to submit proposals for fellowships. For more information on those funding opportunities please visit our website (https://ntp.neuroscience.wisc.edu/ntp-resources/).

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 15 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | n/a |
| Assessments and Examinations | Submit a manuscript suitable for publication or the equivalent of part two of the preliminary exam to their advisory committee for approval. Approval should occur once the student has presented either option at their advisory committee meeting. |
| Language Requirements | No language requirements. |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Core Courses** | | |
| NTP/ NEURODPT 610 | Cellular and Molecular Neuroscience | 4 |
| NTP/NEURODPT/ PSYCH 611 | Systems Neuroscience | 4 |
| NTP 700 | Professional Development for Biomedical Graduate Students | 1 |
| NTP 701 | Experimental Design and Statistical Methodology | 1 |
| **One Mid-level Molecular/Cellular/Developmental Neuroscience Course** | | |
| Complete at least 1 credit from following: | | 1-4 |
| B M E/ MED PHYS/ PHMCOL-M/PHYSICS/ RADIOL 619 | Microscopy of Life | |
| NEUROL 735 | Neurobiology of Disease | |
| NTP 675 | Special Topics | |
| NEURODPT 629 | Molecular and Cellular Mechanisms of Memory | |
| NEURODPT/ ZOOLOGY 765 | Developmental Neuroscience | |
| PHMCOL-M 781 | Molecular and Cellular Principles in Pharmacology | |
| ZOOLOGY 604 | Computer-based Gene and Disease/Disorder Research Lab | |
| **One Mid-level Systems/Behavioral Neuroscience Course** | | |
| Complete at least 1 credit from following: | | 1-4 |
| B M E 601 | Special Topics in Biomedical Engineering | |
| CS&D 850 | Hearing Science I: Basic Acoustics and Psychoacoustics | |
| COMP SCI/B M I/ PSYCH 841 | Computational Cognitive Science | |
| KINES 713 | Neural Basis of Normal and Pathological Movement | |
| KINES 721 | Neural Basis for Movement | |
| KINES 861 | Principles of Motor Control and Learning | |
| NTP 677 | Basic Sleep Mechanisms and Sleep Disorders: from Neurobiology to Sleep Medicine | |
| NTP 675 | Special Topics | |
| MED PHYS 651 | Methods for Neuroimaging Research | |
| PSYCH 711 | Current Topics in Psychology [1] | |
| PSYCH 733 | Perceptual and Cognitive Sciences [2] | |
| PSYCH 954 | Seminar-Physiological Psychology | |
| PSYCH 918 | Seminar-General Psychology | |
| **Seminar** | | |
| Students in our program are expected to be enrolled in the following seminar every Fall/Spring semester; complete 4 credits. | | 4 |
| NTP 900 | Neuroscience Seminar: Current Topics in Neurobiology | |
| **Research Credits** | | |
| Complete at least 8 credits of the following research course: [3] | | 8 |
| NTP 990 | Research and Thesis | |
| **Additional Coursework** | | |
| Complete other advanced courses or additional research credits as recommended by the advisory committee to meet the minimum credit requirement. | | 6 |
| **Total Credits** | | **30** |

[1] PSYCH 711 is a special topics course. The following topics under this course listing are approved to take and will count as a midlevel:
- Cognitive Neuroscience of Attention and Memory
- Introduction to Neural Network Modeling of Cognition

[2] Two PSYCH 733 courses (8 weeks each) must be taken to meet the Mid-level Systems/Behavioral Neuroscience requirement. The following course topics are approved:
- Cognitive Neuroscience of Reading and Dyslexia
- Knotty Problems in Psycholinguistics

[3] Students in our program are expected to be enrolled in NTP 990 every Fall/Spring/Summer semester. When students enroll in NTP 990, they should plan to enroll for the appropriate number of credits to reach the minimum required credits each semester to have full-time student status. See "Credits Per Term Allowed" policy (p. 1506) for further information on full-time registration.

## POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program approval, credits from former graduate institutions may be allowed to transfer. Coursework earned ten years or more prior to admission to a master's or doctoral degree is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

With program approval, up to 7 credits from graduate level courses (numbered 500 or above and with the "Grad 50%" designation) taken as an undergraduate at UW–Madison or another institution may be allowed to transfer. Coursework earned ten years or more prior to admission to a master's or doctoral degree is not allowed to satisfy requirements.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

With program approval, up to 15 credits in coursework numbered 500 or above taken as a UW–Madison University Special student may be allowed to transfer. However, these credits are not allowed to count toward the 50% graduate coursework minimum unless numbered 700 or above or are taken to meet the requirements of a capstone certificate and has the "Grad 50%" designation. Coursework earned ten years or more prior to admission to a master's or doctoral degree is not allowed to satisfy requirements.

## PROBATION

Failure to pass the preliminary examination before the start of the spring semester of the third year will result in being placed on probation. Two consecutive semesters of enrollment on probation precludes continuation in the program.

## ADVISOR / COMMITTEE

An advisory committee of five or more tenure-track or tenured faculty members will oversee your graduate education. During the first year, before an advisory committee has been formed and a major professor selected, the First-Year Advisory Committee will serve as your advisor. The First-Year Advisory Committee will help you select courses, laboratory rotations, and your major professor, and they can assist you with other issues that may arise during the first year.

After you have chosen a lab, your major professor will help you in choosing the other members of your advisory committee. Choose this committee carefully, taking time to discuss potential members with faculty and other students. Selection of a major professor and the additional four members of the advisory committee should be completed by the end of March of the first year. At least five members of the committee must be tenure-track or tenured professors at UW–Madison. At least three members of the committee should be members of the program. To ensure that advisory committees reflect a broad perspective, at least three different areas of neuroscience or approaches to neuroscience must be represented on the committee. Examples of different areas include behavior/cognition, development, synaptic transmission/membrane excitability. Examples of different approaches include electrophysiology, genetic/model organisms, biochemistry/pharmacology, human brain imaging, stem cells. The student is responsible for describing how the proposed committee represents at least three areas/approaches. The composition of each student's advisory committee will be reviewed and must be approved by the First-Year Advisory Committee. All changes to the makeup of your advisory committee, must be approved by the First-Year Advisory Committee. Neuroscience and Public Policy students are required to have at least one member of the Neuroscience and Public Policy Steering Committee represented on their thesis advisory committee.

In order to have your committee approved you must fill out and turn in the Neuroscience Training Program Advisory Committee Approval Form (https://ntp.wiscweb.wisc.edu/wp-content/uploads/sites/81/2017/02/NTP-ADVISORY-COMMITTEE-APPROVAL-FORM.doc) which is found on the Neuroscience Training Program website (https://ntp.neuroscience.wisc.edu/forms/). After you return the form to the NTP office, the First-Year Advisory Committee will review your proposed committee and approve your committee or make suggestions for additional members to ensure a broad perspective.

The advisory committee will meet with you once each semester before you become a dissertator (during the first four or five academic semesters) and once each year after you become a dissertator to review your progress. At least four members of the committee must be present at each meeting. Your major professor chairs the advisory committee and will write a report (https://ntp.wiscweb.wisc.edu/wp-content/uploads/sites/81/2017/10/Advisory-Committee-Report-12.12.14.doc) that summarizes each meeting. You should review each report and discuss it with your major professor. Every report must be signed by you and your major professor and becomes part of your permanent record. The summary reports are used by the steering committee, program faculty, and director to monitor progress. If you believe the report does not describe your progress accurately or is in error in some other respect, you should bring these concerns to the attention of your major professor immediately. If a satisfactory resolution cannot be achieved, you should inform the First-Year Advisory Committee, which will assist you in deciding whether to ask for a review by the steering committee. The First-Year Advisory Committee can handle any issues or problems that arise after the first year and are not resolved by your advisory committee. An Advisory Committee Report form

(https://ntp.wiscweb.wisc.edu/wp-content/uploads/sites/81/2017/10/Advisory-Committee-Report-12.12.14.doc) is shown in the appendix of the Handbook (https://ntp.neuroscience.wisc.edu/handbook/) and can be found on the Neuroscience Training Program website (https://ntp.neuroscience.wisc.edu/forms/).

Once a committee is formed you are required to have a committee meeting every semester until you become a dissertator. As a dissertator you are required to have one meeting per year until your thesis defense.

For each meeting you have there is a required form you must fill out to find those forms see this link (https://ntp.neuroscience.wisc.edu/forms/).

## CREDITS PER TERM ALLOWED

Full-time registration is required of all students in the program during the fall and spring semesters. The Graduate School considers full-time registration for students who are not dissertators (please see below) to be 8–15 graduate-level credits (numbered 300 and above, no audits or pass-fail) during each of the fall and spring semesters. Though the maximum number of credits is 15, we strongly encourage students to enroll for a maximum of 12 credits. In the summer, students in the program who are not dissertators may register for 2 credits during the 8-week summer session, which is not considered full-time registration. If you decide to register for 2 research credits, you are responsible for knowing about other obligations that may be affected by part-time registration in the summer, such as visa regulations or those of certain funding agencies that may require continuous full-time registration for the calendar year (see Graduate School Academic Guidelines for additional caveats). You are eligible to become a dissertator after you have passed the program's preliminary examination and have met the Graduate School's residency requirements.

## TIME LIMITS

The final dissertation must be completed by the end of the fifth academic year. If the dissertation is not completed by the end of the summer following the sixth academic year, the student's advisory committee must meet with the steering committee to present a written statement explaining why the dissertation has not been completed.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

### Grievance Policy for Graduate Programs in the School of Medicine and Public Health

Any student in a School of Medicine and Public Health graduate program who feels that they have been treated unfairly in regards to educational decisions and/or outcomes or issues specific to the graduate program, including academic standing, progress to degree, professional activities, appropriate advising, and a program's community standards by a faculty member, staff member, postdoc, or student has the right to complain about the treatment and to receive a prompt hearing of the grievance following these grievance procedures. Any student who discusses, inquiries about, or participates in the grievance procedure may do so openly and shall not be subject to intimidation, discipline, or retaliation because of such activity. Each program's grievance advisor is listed on the "Research" tab of the SMPH intranet (https://intranet.med.wisc.edu/).

**Exclusions**

This policy does not apply to employment-related issues for Graduate Assistants in TA, PA and/or RA appointments. Graduate Assistants will utilize the Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/) (GAPP) grievance process to resolve employment-related issues.

This policy does not apply to instances when a graduate student wishes to report research misconduct. For such reports refer to the UW-Madison Policy for Reporting Research Misconduct for Graduate Students and Postdoctoral Research Associates (https://research.wisc.edu/kb-article/?id=84924).

**Requirements for Programs**

The School of Medicine and Public Health Office of Basic Research, Biotechnology and Graduate Studies requires that each graduate program designate a grievance advisor, who should be a tenured faculty member, and will request the name of the grievance advisor annually. The program director will serve as the alternate grievance advisor in the event that the grievance advisor is named in the grievance. The program must notify students of the grievance advisor, including posting the grievance advisor's name on the program's Guide page and handbook.

The grievance advisor or program director may be approached for possible grievances of all types. They will spearhead the grievance response process described below for issues specific to the graduate program, including but not limited to academic standing, progress to degree, professional activities, appropriate advising, and a program's community standards. They will ensure students are advised on reporting procedures for other types of possible grievances and are supported throughout the reporting process. Resources (https://grad.wisc.edu/current-students/

#reporting-incidents) on identifying and reporting other issues have been compiled by the Graduate School.

**Procedures**

1. The student is advised to initiate a written record containing dates, times, persons, and description of activities, and to update this record while completing the procedures described below.
2. If the student is comfortable doing so, efforts should be made to resolve complaints informally between individuals before pursuing a formal grievance.
3. Should a satisfactory resolution not be achieved, the student should contact the program's grievance advisor or program director to discuss the complaint. The student may approach the grievance advisor or program director alone or with a UW-Madison faculty or staff member. The grievance advisor or program director should keep a record of contacts with regards to possible grievances. The first attempt is to help the student informally address the complaint prior to pursuing a formal grievance. The student is also encouraged to talk with their faculty advisor regarding concerns or difficulties.
4. If the issue is not resolved to the student's satisfaction, the student may submit a formal grievance to the grievance advisor or program director in writing, within 60 calendar days from the date the grievant first became aware of, or should have become aware of with the exercise of reasonable diligence, the cause of the grievance. To the fullest extent possible, a grievance shall contain a clear and concise statement of the grievance and indicate the issue(s) involved, the relief sought, the date(s) the incident or violation took place, and any specific policy involved.
5. On receipt of a written grievance, the following steps will occur. The final step must be completed within 30 business days from the date the grievance was received. The program must store documentation of the grievance for seven years. Significant grievances that set a precedent may be stored indefinitely.
    a. The grievance advisor or program director will convene a faculty committee composed of at least three members to manage the grievance. Any faculty member involved in the grievance or who feels that they cannot be impartial may not participate in the committee. Committee composition should reflect diverse viewpoints within the program.
    b. The faculty committee, through the grievance advisor or program director, will obtain a written response from the person or persons toward whom the grievance is directed. The grievance advisor or program director will inform this person that their response will be shared with the student filing the grievance.
    c. The grievance advisor or program director will share the response with the student filing the grievance.
    d. The faculty committee will make a decision regarding the grievance. The committee's review shall be fair, impartial, and timely. The grievance advisor or program director will report on the action taken by the committee in writing to both the student and the person toward whom the grievance was directed.
6. If either party (the student or the person or persons toward whom the grievance is directed) is unsatisfied with the decision of the program's faculty committee, the party may file a written appeal to the SMPH senior associate dean for basic research, biotechnology and graduate studies within 10 business days from the date of notification of the program's faculty committee. The following steps will occur:
    a. The grievant will be notified in writing, within 5 business days of the written appeal, acknowledging receipt of the formal appeal and establishing a timeline for the review to be completed.
    b. The senior associate dean or their designee may request additional materials and/or arrange meetings with the grievant and/or others. If meetings occur, the senior associate dean or their designee will meet with both the grievant and the person or persons toward whom the grievance is directed.
    c. The senior associate dean or their designee will assemble an ad hoc committee of faculty from outside of the student's graduate program and ask them to prepare a written recommendation on whether to uphold or reverse the decision of the program on the student's initial grievance. The committee may request additional materials and/or arrange meetings with the grievant and/or others. If meetings occur, the committee will meet with both the grievant and the person or persons toward whom the grievance is directed.
    d. The senior associate dean or their designee will make a final decision within 20 business days of receipt of the committee's recommendation.
    e. The SMPH Office of Basic Research, Biotechnology, and Graduate Studies must store documentation of the grievance for seven years. Grievances that set a precedent may be stored indefinitely.
7. The student may file an appeal of the School of Medicine and Public Health decision with the Graduate School. See the Grievances and Appeals section of the Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/documents/grievances-and-appeals/).

**Time Limits**

Steps in the grievance procedures must be initiated and completed within the designated time periods except when modified by mutual consent. If the student fails to initiate the next step in the grievance procedure within the designated time period, the grievance will be considered resolved by the decision at the last completed step.

## OTHER

All admitted students are funded and receive a stipend. The stipend rate is set by the program.

# PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

## GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. (Knowledge and Skills) Develop the knowledge base necessary for a career as an independent, professional scientist.
2. (Professional and Ethical Conduct) Receive training in responsible conduct of research, and will learn and foster principles of ethical and professional conduct.

# NEUROSCIENCE, PHD

The Neuroscience, PhD program is a member of the **Interdisciplinary Biological and Health Sciences Consortium (IBHSC)**. The consortium fosters a collaborative environment for research and study in the biological and health sciences. Click here for more information on the IBHSC. (https://www.med.wisc.edu/education/graduate-programs/biological-health-sciences-consortium/)

The Neuroscience Training Program (NTP) was established in 1971. Currently, it comprises more than 80 faculty members whose research interests range from molecular neurobiology to integrative systems. The program is designed to prepare students for careers in research and teaching. On average the number of students in the program is approximately 55. The program is best suited for students who are independent and wish to take a direct role in determining their graduate education. Training leads to the PhD degree in neuroscience or the MD/PhD degree in cooperation with the School of Medicine and Public Health.

The doctoral program of each graduate student in the training program is tailored to meet individual needs. Each student's program is supervised by an advisory committee of faculty members selected by the student in consultation with the major professor. During the first year, students complete three laboratory rotations.

The central forum for intellectual exchange in the program is a neuroscience seminar, which meets weekly and is attended by neuroscience students and faculty. During an academic year, members of the program choose topics in current neuroscience research for consideration. Topics are reviewed intensively in study groups supervised by faculty sponsors. Critical summaries of each topic are then presented by students to participants in the seminar as a series of lectures and discussions. Each three- to four-week topic session concludes with a lecture by an outside invited speaker who is well-known for his or her research in the topic area. In the course of every three- to four-year period, most of the major research areas in neuroscience are reviewed in the neuroscience seminar; consequently, students become familiar with the breadth of contemporary neuroscience.

The average time taken by students to complete the PhD degree is five years. The program prepares students for careers primarily in research and teaching in universities and colleges and careers outside of academia. Of the more than 200 students who have earned the PhD degree in the program, more than 95% have careers in biomedical science.

# NEUROSCIENCE & PUBLIC POLICY PROGRAM

The Neuroscience & Public Policy Program (N&PP) offers three integrated degree pathways with the cooperation of the Neuroscience Training Program, the La Follette School of Public Affairs, and the University of Wisconsin–Madison Law School. The N&PP is based on two strongly held beliefs: first, that sound science and technology policy and law are essential for the well-being of societies; second, that a step toward ensuring such policy is to train future scientists in the making of public policy or the law and prepare them to participate in bringing science and society closer together.

The program offers students the opportunity to earn a PhD degree in neuroscience as well as a master of public affairs (MPA), a master of international public affairs (MIPA), or juris doctorate (JD). In each of the degree tracks, the program brings together faculty from neuroscience, public policy, bioethics, sociology, law, and other related fields to train research neuroscientists who will be qualified to help shape public policy or the law. The cross-disciplinary training combines didactic and laboratory research training in neuroscience with a classroom-based and hands-on education in public policy or the law.

For more information about the double and dual degree tracks offered through the neuroscience and public policy program, including admissions and program requirements, please visit the program website (https://npp.wisc.edu/).

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 1 |
| Spring Deadline | The program does not admit in the spring. |
| Summer Deadline | The program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

The Graduate School sets minimum requirements for admissions (https://grad.wisc.edu/admissions/requirements/). Academic program admission requirements are often more rigorous than those set by the Graduate School.

Requirements to apply:

- **Course Prerequisites**. It is recommended that applicants have taken college-level courses in mathematics, chemistry, physics, and biology. A competitive applicant usually will have prior research experience.
- **Degree.** A bachelor's degree from a regionally accredited US institution or comparable degree from an international institution is required.
- **Transcripts.** Transcripts must be uploaded in the online application from each institution that you have attended (undergraduate and graduate), even if no degree was received. Unofficial transcripts are accepted for the application process but upon recommendation for admission to the program, official transcripts are required.
- **Three Letters of Recommendation.** Letters should be from persons familiar with an applicant's academic and research abilities. *Late letters are not accepted.*
- **Grade Point Average.** A minimum undergraduate grade-point average (GPA) of 3.00 on the equivalent of the last 60 semester hours (approximately two years of work) or a master's degree with a minimum cumulative GPA of 3.00 is required.
- **Statement of Purpose.** Please describe your research experience in 2 pages or less. Strong applicants are able to demonstrate an understanding not only of research techniques and methods but also the underlying hypotheses, significance, and larger purpose of the research in which they have been engaged.
- **Personal Statement.** Please describe your future research interests and goals for graduate school and beyond in 2 pages or less. Strong applicants are able to provide a clear motivation for seeking graduate training in neuroscience, and in particular the UW NTP, and how their research interests align with the strengths of this program.
- **GRE.** The Graduate Record Exam (GRE) is not required. Students may submit GRE scores as part of their application which will be taken under consideration by the Neuroscience Admissions Committee.
- **English Proficiency.** The TOEFL is required for applicants who have not completed two semesters of colleges instruction in English or whose university's official language of instruction was not English. On the TOEFL registration form, use code number 1846 for "institution." *If TOEFL scores are not received by December 1st, the application will not be reviewed.*
- **Resume or CV.** A resume or CV is required and must be uploaded in the online application.
- **Application Fee.** UW-Madison charges a non-refundable $75 application fee that must be paid by credit card (MasterCard or Visa) or debit/ATM card in the online application system. In addition to the $75 application fee, non U.S. citizens will be charged a $6.00 international document processing fee. Both fees will be processed during the submission process. There are limited application fee grants available. Check out the UW-Madison Graduate School's resources (https://grad.wisc.edu/apply/fee-grant/).

## FUNDING

# FUNDING

### GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

### PROGRAM RESOURCES

Each student receives a stipend that covers tuition, fees, living costs, and health insurance and is guaranteed for five years if progress is satisfactory. Financial support is provided from the Program's NIH training grant, fellowships, and faculty research grants. Limited support is available for international students.

Our program also works with students to submit proposals for fellowships. For more information on those funding opportunities please visit our website (https://ntp.neuroscience.wisc.edu/ntp-resources/).

## REQUIREMENTS

|---|---|---|---|---|
| Yes | No | No | No | No |

#### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

### CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 51 credits |
| Minimum Residence Credit Requirement | 32 credits |

| | |
|---|---|
| Minimum Graduate Coursework Requirement | 26 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | n/a |
| Assessments and Examinations | Candidates must meet with their advisory committee once per semester until they become a dissertator and then once per year thereafter.<br><br>The preliminary examination consists of two papers: a dissertation proposal, and a critical research paper unrelated to the proposal. The preliminary examination should be completed by the end of the second summer of graduate study. Students who fail one or both parts of the preliminary examination may retake the examination within two months. Failure to pass the examination the second time will result in dismissal from the program.<br><br>The final dissertation must be submitted to the advisory committee and an oral defense of the thesis must be given. The thesis defense consists of a public presentation of the thesis followed by a closed meeting with the advisory committee. Deposit of the doctoral dissertation in the Graduate School is required. |
| Language Requirements | No language requirements. |
| Graduate School Breadth Requirement | Completion of a doctoral minor or graduate/professional certificate is not required of students in the NTP doctoral program. |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Core Courses** | | |
| NTP/ NEURODPT 610 | Cellular and Molecular Neuroscience | 4 |
| NTP/NEURODPT/ PSYCH 611 | Systems Neuroscience | 4 |
| NTP 700 | Professional Development for Biomedical Graduate Students | 1 |
| NTP 701 | Experimental Design and Statistical Methodology | 1 |
| **One Mid-level Molecular/Cellular/Developmental Neuroscience Course** | | |
| Complete at least 1 credit from following: | | 1-4 |
| B M E/ MED PHYS/ PHMCOL-M/PHYSICS/ RADIOL 619 | Microscopy of Life | |
| NEUROL 735 | Neurobiology of Disease | |
| NEURODPT 629 | Molecular and Cellular Mechanisms of Memory | |
| NEURODPT/ ZOOLOGY 765 | Developmental Neuroscience | |
| NTP 675 | Special Topics | |
| PHMCOL-M 781 | Molecular and Cellular Principles in Pharmacology | |
| ZOOLOGY 604 | Computer-based Gene and Disease/Disorder Research Lab | |
| **One Mid-level Systems/Behavioral Neuroscience Course** | | |
| Complete at least 1 credit from following: | | 1-4 |
| B M E 601 | Special Topics in Biomedical Engineering | |
| CS&D 850 | Hearing Science I: Basic Acoustics and Psychoacoustics | |
| COMP SCI/B M I/ PSYCH 841 | Computational Cognitive Science | |
| KINES 713 | Neural Basis of Normal and Pathological Movement | |
| KINES 721 | Neural Basis for Movement | |
| KINES 861 | Principles of Motor Control and Learning | |
| NTP 677 | Basic Sleep Mechanisms and Sleep Disorders: from Neurobiology to Sleep Medicine | |
| NTP 675 | Special Topics | |
| MED PHYS 651 | Methods for Neuroimaging Research | |
| PSYCH 711 | Current Topics in Psychology [1] | |
| PSYCH 733 | Perceptual and Cognitive Sciences [2] | |
| PSYCH 954 | Seminar-Physiological Psychology | |
| PSYCH 918 | Seminar-General Psychology | |
| **Seminar** | | |
| Students in our program are expected to be enrolled in the following seminar every Fall/Spring semester; complete 10 credits. | | 10 |
| NTP 900 | Neuroscience Seminar: Current Topics in Neurobiology | |
| **Research Credits** | | |
| Complete at least 15 credits of the following research course: [3] | | 15-18 |
| NTP 990 | Research and Thesis | |
| **Additional Coursework** | | |
| Complete other advanced courses or additional research credits as recommended by the advisory committee to meet minimum credit requirements. | | 11-14 |
| **Total Credits** | | **51** |

[1] PSYCH 711 is a special topics course. The following topics under this course listing are approved to take and will count as a midlevel:

- Cognitive Neuroscience of Attention and Memory
- Introduction to Neural Network Modeling of Cognition

[2] Two PSYCH 733 courses (8 weeks each) must be taken to meet the Mid-level Systems/Behavioral Neuroscience requirement. The following course topics are approved:
- Cognitive Neuroscience of Reading and Dyslexia
- Knotty Problems in Psycholinguistics

[3] Students in our program are expected to be enrolled in NTP 990 every Fall/Spring/Summer semester. When students enroll in NTP 990, they should plan to enroll for the appropriate number of credits to reach the minimum required credits each semester to have full-time student status. See "Credits Per Term Allowed" policy (p. 1506) for further information on full-time registration.

## POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program approval, credits from former graduate institutions may be allowed to transfer. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

With program approval, up to 7 credits from graduate-level courses (numbered 500 or above and with the "Grad 50%" designation) taken as an undergraduate at UW–Madison or another institution may be allowed to transfer. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special student at UW–Madison

With program approval, up to 15 credits of coursework numbered 500 or above taken as a UW–Madison University Special student may be allowed to transfer. However, these credits are not allowed to count toward the 50% graduate coursework minimum unless numbered 700 or above or are taken to meet the requirements of a capstone certificate and has the "Grad 50%" designation. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

## PROBATION

Failure to pass the preliminary examination before the start of the spring semester of the third year will result in being placed on probation. Two consecutive semesters of enrollment on probation precludes continuation in the program.

## ADVISOR / COMMITTEE

An advisory committee of five or more tenure-track or tenured faculty members will oversee your graduate education. During the first year, before an advisory committee has been formed and a major professor selected, the First-Year Advisory Committee will serve as your advisor. The First-Year Advisory Committee will help you select courses, laboratory rotations, and your major professor, and they can assist you with other issues that may arise during the first year.

After you have chosen a lab, your major professor will help you in choosing the other members of your advisory committee. Choose this committee carefully, taking time to discuss potential members with faculty and other students. Selection of a major professor and the additional four members of the advisory committee should be completed by the end of March of the first year. At least five members of the committee must be tenure-track or tenured professors at UW–Madison. At least three members of the committee should be members of the program. To ensure that advisory committees reflect a broad perspective, at least three different areas of neuroscience or approaches to neuroscience must be represented on the committee. Examples of different areas include behavior/cognition, development, synaptic transmission/membrane excitability. Examples of different approaches include electrophysiology, genetic/model organisms, biochemistry/pharmacology, human brain imaging, stem cells. The student is responsible for describing how the proposed committee represents at least three areas/approaches. The composition of each student's advisory committee will be reviewed and must be approved by the First-Year Advisory Committee. All changes to the makeup of your advisory committee, must be approved by the First-Year Advisory Committee. Neuroscience and Public Policy students are required to have at least one member of the Neuroscience and Public Policy Steering Committee represented on their thesis advisory committee.

In order to have your committee approved you must fill out and turn in the Neuroscience Training Program Advisory Committee Approval Form (https://ntp.wiscweb.wisc.edu/wp-content/uploads/sites/81/2017/02/NTP-ADVISORY-COMMITTEE-APPROVAL-FORM.doc) which is found on the Neuroscience Training Program website (https://ntp.neuroscience.wisc.edu/forms/). After you return the form to the Neuroscience Training Program office, the First-Year Advisory Committee will review your proposed committee and approve your committee or make suggestions for additional members to ensure a broad perspective.

The advisory committee will meet with you once each semester before you become a dissertator (during the first four or five academic semesters) and once each year after you become a dissertator to review your progress. At least four members of the committee must be present at each meeting. Your major professor chairs the advisory committee and will write a report (https://ntp.wiscweb.wisc.edu/wp-content/uploads/sites/81/2017/10/Advisory-Committee-Report-12.12.14.doc) that summarizes each meeting. You should review each report and discuss it with your major professor. Every report must be signed by you and your major professor and becomes part of your permanent record. The summary reports are used by the steering committee, program faculty, and director to monitor progress. If you believe the report does not describe your progress accurately or is in error in some other respect, you should bring these concerns to the attention of your major professor immediately. If a satisfactory resolution cannot be achieved, you should inform the First-Year Advisory Committee, which will assist you in deciding whether to ask for a review by the steering committee. The First-Year

Advisory Committee can handle any issues or problems that arise after the first year and are not resolved by your advisory committee. An Advisory Committee Report form (https://ntp.wiscweb.wisc.edu/wp-content/uploads/sites/81/2017/10/Advisory-Committee-Report-12.12.14.doc) is shown in the appendix of the Handbook (https://ntp.wiscweb.wisc.edu/handbook/) and can be found on the Neuroscience Training Program website (https://ntp.neuroscience.wisc.edu/forms/).

Once a committee is formed you are required to have a committee meeting every semester until you become a dissertator. As a dissertator you are required to have one meeting per year until your thesis defense.

For each meeting you have there is a required form you must fill out to find those forms see this link (https://ntp.neuroscience.wisc.edu/forms/).

## CREDITS PER TERM ALLOWED

Full-time registration is required of all students in the program during the fall and spring semesters. The Graduate School considers full-time registration for students who are not dissertators (please see below) to be 8–15 graduate-level credits (numbered 300 and above, no audits or pass-fail) during each of the fall and spring semesters. Though the maximum number of credits is 15, we strongly encourage students to enroll for a maximum of 12 credits. In the summer, students in the program who are not dissertators may register for 2 credits during the 8-week summer session, which is not considered full-time registration. If you decide to register for 2 research credits, you are responsible for knowing about other obligations that may be affected by part-time registration in the summer, such as visa regulations or those of certain funding agencies that may require continuous full-time registration for the calendar year (see Graduate School Academic Guidelines for additional caveats). You are eligible to become a dissertator after you have passed the program's preliminary examination and have met the Graduate School's residency requirements.

## TIME LIMITS

The final dissertation must be completed by the end of the fifth academic year. If the dissertation is not completed by the end of the summer following the sixth academic year, the student's advisory committee must meet with the steering committee to present a written statement explaining why the dissertation has not been completed.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

### Grievance Policy for Graduate Programs in the School of Medicine and Public Health

Any student in a School of Medicine and Public Health graduate program who feels that they have been treated unfairly in regards to educational decisions and/or outcomes or issues specific to the graduate program, including academic standing, progress to degree, professional activities, appropriate advising, and a program's community standards by a faculty member, staff member, postdoc, or student has the right to complain about the treatment and to receive a prompt hearing of the grievance following these grievance procedures. Any student who discusses, inquiries about, or participates in the grievance procedure may do so openly and shall not be subject to intimidation, discipline, or retaliation because of such activity. Each program's grievance advisor is listed on the "Research" tab of the SMPH intranet (https://intranet.med.wisc.edu/).

**Exclusions**

This policy does not apply to employment-related issues for Graduate Assistants in TA, PA and/or RA appointments. Graduate Assistants will utilize the Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/) (GAPP) grievance process to resolve employment-related issues.

This policy does not apply to instances when a graduate student wishes to report research misconduct. For such reports refer to the UW-Madison Policy for Reporting Research Misconduct for Graduate Students and Postdoctoral Research Associates (https://research.wisc.edu/kb-article/?id=84924).

**Requirements for Programs**

The School of Medicine and Public Health Office of Basic Research, Biotechnology and Graduate Studies requires that each graduate program designate a grievance advisor, who should be a tenured faculty member, and will request the name of the grievance advisor annually. The program director will serve as the alternate grievance advisor in the event that the grievance advisor is named in the grievance. The program must notify students of the grievance advisor, including posting the grievance advisor's name on the program's Guide page and handbook.

The grievance advisor or program director may be approached for possible grievances of all types. They will spearhead the grievance response process described below for issues specific to the graduate program, including but not limited to academic standing, progress to degree, professional activities, appropriate advising, and a program's community standards. They will ensure students are advised on reporting procedures

for other types of possible grievances and are supported throughout the reporting process. Resources (https://grad.wisc.edu/current-students/#reporting-incidents) on identifying and reporting other issues have been compiled by the Graduate School.

**Procedures**

1. The student is advised to initiate a written record containing dates, times, persons, and description of activities, and to update this record while completing the procedures described below.
2. If the student is comfortable doing so, efforts should be made to resolve complaints informally between individuals before pursuing a formal grievance.
3. Should a satisfactory resolution not be achieved, the student should contact the program's grievance advisor or program director to discuss the complaint. The student may approach the grievance advisor or program director alone or with a UW-Madison faculty or staff member. The grievance advisor or program director should keep a record of contacts with regards to possible grievances. The first attempt is to help the student informally address the complaint prior to pursuing a formal grievance. The student is also encouraged to talk with their faculty advisor regarding concerns or difficulties.
4. If the issue is not resolved to the student's satisfaction, the student may submit a formal grievance to the grievance advisor or program director in writing, within 60 calendar days from the date the grievant first became aware of, or should have become aware of with the exercise of reasonable diligence, the cause of the grievance. To the fullest extent possible, a grievance shall contain a clear and concise statement of the grievance and indicate the issue(s) involved, the relief sought, the date(s) the incident or violation took place, and any specific policy involved.
5. On receipt of a written grievance, the following steps will occur. The final step must be completed within 30 business days from the date the grievance was received. The program must store documentation of the grievance for seven years. Significant grievances that set a precedent may be stored indefinitely.
    a. The grievance advisor or program director will convene a faculty committee composed of at least three members to manage the grievance. Any faculty member involved in the grievance or who feels that they cannot be impartial may not participate in the committee. Committee composition should reflect diverse viewpoints within the program.
    b. The faculty committee, through the grievance advisor or program director, will obtain a written response from the person or persons toward whom the grievance is directed. The grievance advisor or program director will inform this person that their response will be shared with the student filing the grievance.
    c. The grievance advisor or program director will share the response with the student filing the grievance.
    d. The faculty committee will make a decision regarding the grievance. The committee's review shall be fair, impartial, and timely. The grievance advisor or program director will report on the action taken by the committee in writing to both the student and the person toward whom the grievance was directed.
6. If either party (the student or the person or persons toward whom the grievance is directed) is unsatisfied with the decision of the program's faculty committee, the party may file a written appeal to the SMPH senior associate dean for basic research, biotechnology and graduate studies within 10 business days from the date of notification of the program's faculty committee. The following steps will occur:
    a. The grievant will be notified in writing, within 5 business days of the written appeal, acknowledging receipt of the formal appeal and establishing a timeline for the review to be completed.
    b. The senior associate dean or their designee may request additional materials and/or arrange meetings with the grievant and/or others. If meetings occur, the senior associate dean or their designee will meet with both the grievant and the person or persons toward whom the grievance is directed.
    c. The senior associate dean or their designee will assemble an ad hoc committee of faculty from outside of the student's graduate program and ask them to prepare a written recommendation on whether to uphold or reverse the decision of the program on the student's initial grievance. The committee may request additional materials and/or arrange meetings with the grievant and/or others. If meetings occur, the committee will meet with both the grievant and the person or persons toward whom the grievance is directed.
    d. The senior associate dean or their designee will make a final decision within 20 business days of receipt of the committee's recommendation.
    e. The SMPH Office of Basic Research, Biotechnology, and Graduate Studies must store documentation of the grievance for seven years. Grievances that set a precedent may be stored indefinitely.
7. The student may file an appeal of the School of Medicine and Public Health decision with the Graduate School. See the Grievances and Appeals section of the Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/documents/grievances-and-appeals/).

**Time Limits**

Steps in the grievance procedures must be initiated and completed within the designated time periods except when modified by mutual consent. If the student fails to initiate the next step in the grievance procedure within the designated time period, the grievance will be considered resolved by the decision at the last completed step.

## OTHER

# PROFESSIONAL DEVELOPMENT

## PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. (Knowledge) Develop the knowledge base necessary for a career as an independent, professional scientist.
2. (Research) Develop and complete original research that advances their specific area of neuroscience.
3. (Communication) Learn to effectively communicate to diverse audiences through writing, oral presentations, and discussions.
4. (Teaching) Learn teaching and mentoring skills necessary for future scientific careers.
5. (Professional and Ethical Conduct) Receive training in responsible conduct of research, and will learn and foster principles of ethical and professional conduct.
6. (Career Preparation) Provided with diverse training that will prepare them for a range of flexible and sustainable careers (e.g., academia, industry, government, science policy and administration, science commerce, science writing, law, and science education and outreach at all levels).

# NUCLEAR ENGINEERING AND ENGINEERING PHYSICS

## DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

# DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/ PROFESSIONAL CERTIFICATES

- Nuclear Engineering and Engineering Physics, MS (p. 1509)
- Nuclear Engineering and Engineering Physics, PhD (p. 1514)
- Nuclear Engineering, Doctoral Minor (p. 1520)

# NUCLEAR ENGINEERING AND ENGINEERING PHYSICS, MS

A broad program of instruction and research is offered in the principles of the interaction of radiation with matter and their applications, and in several areas of engineering physics. The program has strong engineering and applied science components. It emphasizes several areas of activity, including the research, design, development, and deployment of fission reactors; fusion engineering; plasma physics; radiation damage to materials; and large-scale computing in engineering science.

The master's degree may be pursued as a terminal degree in the fission area and in various engineering physics areas, but it is not generally recommended as a final degree in fusion research; students interested in fusion should plan to pursue the PhD degree. About 40 percent of the current graduate students hold undergraduate degrees in nuclear engineering, about 40 percent in physics, and about 20 percent in other disciplines such as mechanical engineering, electrical engineering, mathematics, chemistry, and materials science.

The department is considered to have one of the top five nuclear engineering programs in the nation over the last 40 years. It incorporates several research organizations including the Wisconsin Institute of Nuclear Systems, the Pegasus Toroidal Experiment Program, the Fusion Technology Institute, the University of Wisconsin Nuclear Reactor, the University of Wisconsin Ion Beam Laboratory, and the Center for Plasma Theory and Computation.

Research may be performed in areas including next generation fission reactor engineering; fluid and heat transfer modeling for transient analysis; reactor monitoring and diagnostics; fuel cycle analysis; magnetic confinement fusion reactor engineering, including the physics of burning plasmas, plasma-wall interactions, neutron transport, tritium breeding, radiation damage, and liquid-metal heat transfer; experimental and theoretical studies of plasmas including radio frequency heating, magnetic confinement, plasma instabilities, and plasma diagnostics; superconducting magnets and cryogenics; and theoretical and experimental studies of the degradation (corrosion, stresses, irradiation) to materials in fission and fusion reactors.

The department places considerable emphasis on establishing research teams or group research, as well as traditional research activity by individual faculty members and their students. The groups frequently involve faculty, scientific staff, and graduate students from several departments, adding a strong interdisciplinary flavor to the research.

Students sometimes perform thesis work at national laboratories such as Argonne National Laboratory, Idaho National Laboratory, Princeton Plasma Physics Laboratory, and Los Alamos National Laboratory and at international research facilities such as the Max-Planck Institute for Plasma Physics.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 15 |
| Spring Deadline | September 1 |
| Summer Deadline | December 15 |
| GRE (Graduate Record Examinations) | Not required but may be considered if available.* |

| | |
|---|---|
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

* GRE scores are optional. Applicants may submit GRE scores, but are not required to do so. Applications without scores are not placed at a disadvantage. However, received scores will be considered as part of our holistic evaluation of applications.

## APPLICANT CONSIDERATIONS

Applicants to our program should have the following:

1. **Degree**
   a. Bachelor of Science in engineering, mathematics, or physical science and an undergraduate record that indicates an ability to successfully pursue graduate study.
   b. International applicants must have a degree comparable to a regionally accredited US bachelor's degree. Review the Graduate School webpage (https://grad.wisc.edu/apply/requirements/) to learn more about comparable degrees by country.
2. **GPA**
   a. The minimum required GPA is 3.0/4.0 on the equivalent of the last 60 semester hours from the most recent bachelor's degree or a completed master's degree with a minimum of 3.0/4.0.
3. **Faculty Advisor**
   a. Applicants who intend to complete a thesis are encouraged to seek out a faculty advisor as part of the application process. This may be done prior to, during, and/or after submission of the online application. *(This is not a requirement.)*
   b. To seek out a faculty advisor, review the department Research (https://engineering.wisc.edu/departments/nuclear-engineering-engineering-physics/research/) and People (https://engineering.wisc.edu/departments/nuclear-engineering-engineering-physics/people/)websites. Assistant Professors, Associate Professors, and Professors are eligible to be graduate advisors. *Please do not contact Emeritus faculty, lecturers, Research Scientists, or Faculty Associates.*
   c. You are encouraged to inquire about possible funding opportunities. (See Funding tab in the right-side column on this page for funding information.)
   d. Applicants who intend to do a course-only degree may also seek out a faculty advisor and alternatively, they may be assigned a faculty advisor after admission.
4. **Recommended Preparatory Courses**
   a. It is highly recommended applicants take courses that cover the same material as these UW-Madison courses before entering the program.
   b. Applicants may be admitted without having taken these courses, however, in such cases the applicant must inform their faculty advisor who will then help them select the correct courses to include the required background for the program.

| Code | Title | Credits |
|---|---|---|
| **Differential Equations** | | |
| MATH 319 | Techniques in Ordinary Differential Equations | 3 |

| M S & E 350 | Introduction to Materials Science | 3 |
| or M S & E 351 | Materials Science-Structure and Property Relations in Solids | |
| **Heat Transfer or Fluid Mechanics** | | |
| CBE 320 | Introductory Transport Phenomena | 4 |
| **Mechanics** | | |
| PHYSICS 311 | Mechanics | 3 |
| or E M A 202 | Dynamics | |

## APPLICATION MATERIALS

In addition to the items listed in the table above, a complete application includes the following uploaded to the online application. The submitted application and all application items are due by the deadline above.

1. **Unofficial Transcripts (PDF)**
   a. Most up-to-date unofficial transcript(s) from all previous higher education institutions, regardless of whether a degree was earned. Official transcripts are only requested of recommended applicants.
   b. International academic records must be in the original language accompanied by an official English translation. Review the minimum requirements link above to learn more.
2. **Statement of Purpose:** The University of Wisconsin-Madison Graduate School and the Department of Nuclear Engineering & Engineering Physics have the following guidelines for the Statement of Purpose:
   a. Are you interested in pursuing the thesis or non-thesis pathway of this Master of Science program?
   b. Be specific about your interest and knowledge particular to this program:
      - Have you read an article by one or more faculty members?
      - Has your advisor specifically directed you to this program?
      - Do you have other ties to this program and/or school?
   c. Pick out the pertinent facts about your academic and professional interests that make you a good fit with the program and institution to which you are applying. (A statement of purpose is not a place to list everything you have done.)
   d. Describe research experiences regardless of whether they are related to your current interests.
   e. Being self-motivated, curiosity-driven, and goal-oriented are important qualities for aspiring PhDs in Nuclear Engineering and Engineering Physics. To provide evidence of these qualities, you may write about relevant experiences you have had.

f. Perseverance and the ability to overcome adversity are also important. Again, discuss relevant experiences you may have to provide evidence.
g. Mention extra-curricular achievements to illustrate additional dimensions of your personality.
h. Explain (briefly) any incongruity in your application material, such as a low semester grade.
i. Our page limit is two and a half pages, but there is no obligation to write a long statement.
j. For more information from the Graduate School, please review their webpage (https://grad.wisc.edu/apply/prepare/).

3. **Resume**
4. **Three Letters of Recommendation**
   a. These letters are required from people who can accurately reflect on the applicant's academics and/or work performance. It is highly recommended these letters be from faculty familiar with the applicant.
   b. Letters of recommendation are submitted electronically through the online application.
   c. See the Graduate School FAQs (https://grad.wisc.edu/apply/#FAQ) regarding letters of recommendation.
5. **GRE Scores**
   a. GRE scores are optional. Applicants may submit GRE scores, but are not required to do so. Applications without scores are not placed at a disadvantage. However, received scores will be considered as part of our holistic evaluation of applications.
6. **Application Fee**
   a. Application submission must be accompanied by the application fee. See the Graduate School FAQs (https://grad.wisc.edu/apply/#FAQ) regarding fees.
   b. Fee grants are available through the conditions outlined here by the Graduate School (https://grad.wisc.edu/apply/fee-grant/).

## REENTRY ADMISSIONS

Review the Graduate School requirements for previously enrolled students (https://policy.wisc.edu/library/UW-1230/). Contact the Department of Nuclear Engineering and Engineering Physics Graduate Student Services (see Contact Box for link) with questions.

## CURRENTLY ENROLLED GRADUATE STUDENT ADMISSIONS

Students currently enrolled as graduate students at UW-Madison wishing to apply to this degree programs should contact the Department of Nuclear Engineering and Engineering Physics Graduate Student Services (see Contact Box for link) to inquire about the process and deadlines.

## QUESTIONS

Contact the Department of Nuclear Engineering and Engineering Physics Graduate Student Services (see Contact Box for link).

# FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

Admission and funding are separate decisions. Not all admitted students are offered support. International applicants must secure a research assistantship, teaching assistantship, fellowship, or independent funding before admission is final. The funding for research assistantships comes from faculty research grants. Each professor decides on his or her own research assistantship offers. Funded students are expected to maintain full-time enrollment. See the program website (https://engineering.wisc.edu/blog/explore-nuclear-engineering-and-engineering-physics-faculty-advisors-and-research/) for additional information on current research activities.

## ADDITIONAL RESOURCES

### International Student Services Funding and Scholarships

For information regarding International Student Funding and Scholarships, visit the International Student Services website (https://iss.wisc.edu/students/new-students/funding-scholarships/).

# REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 15 credits must be graduate-level coursework from nuclear engineering, math, physics, chemistry, computer science, or any other engineering department except E P D. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required.<br>Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | Grades of D received in any course will not be counted as satisfying degree requirements. These grades will, however, be counted in the graduate GPA. Pass/fail grades are not counted toward degree requirements. A minimum 3.0 GPA is required. |
| Assessments and Examinations | Students who complete the thesis pathway must successfully write a thesis and defend it orally in front of a three-member committee (at least two must be members of the UW-Madison Graduate Faculty). |
| Language Requirements | No language requirements. |

## REQUIRED COURSES

Unless specified, all courses must be numbered 400 or above in appropriate technical areas. Appropriate technical areas are: Engineering departments (except Engineering and Professional Development), Physics, Math, Statistics, Computer Science, Medical Physics, and Chemistry. Other courses may be deemed appropriate by a student's faculty advisor.

| Code | Title | Credits |
|---|---|---|
| **Nuclear Engineering Course Requirement [1]** | | |
| The following courses are co-requisites. These courses or those with similar material content, must be taken prior to, or during, the course of study. Students who have taken courses with a similar material content to the co-requisites listed below, must contact the NEEP Associate Chair of Graduate Studies for approval of the specific course(s). | | |
| N E 427 | Nuclear Instrumentation Laboratory | 2 |
| N E 428 | Nuclear Reactor Laboratory | 2-3 |
| or N E 526 | Laboratory Course in Plasmas | |
| N E 408 | Ionizing Radiation | 3-4 |
| or N E/ MED PHYS 569 | Health Physics and Biological Effects | |
| **Pathways [2]** | | |
| Students will select and complete either the thesis pathway or the non-thesis pathway (see pathways below). | | |

### Thesis Pathway [2]

| Code | Title | Credits |
|---|---|---|
| **Nuclear Engineering (N E) Technical Course Requirement [1]** | | |
| Complete minimum 8 credits N E technical courses numbered 400 or above [3] | | 8 |
| **Advanced Technical Course Requirement [1]** | | |
| Complete minimum 9 credits technical courses numbered 500 or above | | 9 |
| **Remaining Credits** | | |
| Complete additional appropriate technical electives, research credits, independent study credits, and/or seminar credits as approved by faculty advisor. | | |
| *Research Credits* | | |
| Maximum of 12 credits permitted to count toward degree requirement | | 0-12 |
| N E 790 | Master's Research and Thesis | |
| *Independent Study Credits* | | |
| Only one course (maximum 3 credits) of independent study, such as the following, is allowed. | | 0-3 |
| N E 699 | Advanced Independent Study | |
| *Seminar Credits* | | |
| Maximum 3 credits of seminar is permitted. | | 0-3 |

### Non-Thesis Pathway [2]

Note N E 790 Master's Research and Thesis may not be used to satisfy non-thesis pathway requirements.

| Code | Title | Credits |
|---|---|---|
| **Nuclear Engineering Technical Course Requirement [1]** | | |
| Complete minimum 15 credits N E technical courses numbered 400 or above [3] | | 15 |
| **Advanced Technical Course Requirement [1]** | | |
| Complete minimum 12 credits technical courses numbered 500 or above | | 12 |
| **Remaining Credits** | | |
| Complete additional appropriate technical electives, independent study credits, and/or seminar credits as approved by faculty advisor. | | |
| *Independent Study Credits* | | |
| Only one course (maximum 3 credits) of independent study, such as the following, is allowed. | | 0-3 |
| N E 699 | Advanced Independent Study | |
| *Seminar Credits* | | |
| Maximum 3 credits of seminar is permitted. | | 0-3 |

### Footnotes

1. Courses used to satisfy the following three degree requirements may overlap: Nuclear Engineering (N E) Technical Course Requirement, Advanced Technical Course Requirement, and Nuclear Engineering Course Requirement.
2. These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.
3. Courses in Engineering Physics (E P (https://guide.wisc.edu/graduate/nuclear-engineering-engineering-physics/nuclear-engineering-

engineering-physics-ms/courses/e_p/)) or Engineering Mechanics (E M A (https://guide.wisc.edu/courses/e_m_a/)) do not satisfy requirement.

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With advisor and Nuclear Engineering and Engineering Physics Graduate Studies Committee Chair approval, students may transfer up to 6 credits of relevant coursework from a prior graduate program. Review the Graduate Program Handbook (see contact box) for information about use and restrictions to this policy. Coursework earned ten or more years prior to admission is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

- **Undergraduate credits from UW-Madison**: With faculty approval, students who have received their undergraduate degree from UW–Madison may apply up to 7 credits of coursework numbered 400 or above toward the minimum graduate degree credit requirement. This work will not be allowed to count toward the 50% graduate coursework minimum unless taken in courses numbered 700 or above. No credits can be counted toward the minimum graduate residence credit requirement. Coursework earned ten or more years prior to admission is not allowed to satisfy requirements.
- **Undergraduate credits from other institutions**: With faculty advisor and Graduate Studies Committee Chair approval, students who have received an ABET-accredited undergraduate degree (not including UW–Madison) may be eligible to apply up to 7 credits of their undergraduate coursework toward the minimum graduate degree credit requirement. No credits can be counted toward the minimum graduate residence credit requirement, nor the minimum graduate coursework (50%) requirement. Coursework earned ten or more years prior to admission is not allowed to satisfy requirements.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

The Nuclear Engineering and Engineering Physics MS program does not accept prior credits from UW-Madison Professional programs.

### Credits Earned as a University Special student at UW–Madison

With program approval, students are allowed to transfer up to 15 credits of coursework numbered 400 or above taken as a UW–Madison University Special student toward the minimum graduate degree credit requirement. UW–Madison coursework taken as a University Special student would not be allowed to count toward the 50% graduate coursework minimum unless taken in courses numbered 700 or above or are taken to meet the requirements of a capstone certificate and has the "Grad 50%" designation. Coursework earned ten or more years prior to admission to a master's is not allowed to satisfy requirements.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Each student is required to meet with his or her advisor prior to registration every semester. Refer to the Graduate School: Advisor (https://policy.wisc.edu/library/UW-1232/) policy.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Candidates must pass an oral defense if the thesis pathway is chosen. Students have two attempts to pass this examination with at least one month elapsing between attempts. Candidates in the non-thesis pathway do not have an oral examination.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

### Nuclear Engineering & Engineering Physics Grievance Procedures

Students who feel that they have been treated unfairly have the right to a prompt hearing of their grievance. Such complaints may involve course grades, classroom treatment, advising, various forms of harassment, or other issues. Any student or potential student may use these procedures.

- The student should speak first with the person toward whom the grievance is directed. In most cases, grievances can be resolved at this level.
- Should a satisfactory resolution not be achieved, the student should contact the program's Grievance Advisor to discuss the grievance. The Graduate Student Coordinator can provide students with the name of this faculty member, who facilitates problem resolution through informal channels. The Grievance Advisor is responsible for facilitating any complaints or issues of students. The Grievance Advisor first attempts to help students informally address the grievance prior to any formal complaint. Students are also encouraged to talk with their faculty advisors regarding concerns or difficulties if necessary. University resources for sexual harassment concerns can be found on the UW Office of Compliance website (https://compliance.wisc.edu/).
- If the issue is not resolved to the student's satisfaction, the student can submit the grievance to the Grievance Advisor in writing, within 60 calendar days of the alleged unfair treatment.
- On receipt of a written complaint, a faculty committee will be convened by the Grievance Advisor to manage the grievance. The program faculty committee will obtain a written response from the person toward whom the complaint is directed. The response will be shared with the person filing the grievance.
- The faculty committee will determine a decision regarding the grievance. The Grievance Advisor will report on the action taken by the committee in writing to both the student and the party toward whom the complaint was directed within 15 working days from the date the complaint was received.
- At this point, if either party (the student or the person toward whom the grievance is directed) is unsatisfied with the decision of the faculty committee, the party may file a written appeal. Either party has 10 working days to file a written appeal to the College of Engineering.

The Assistant Dean for Graduate Affairs (engr-dean-graduateaffairs@engr.wisc.edu) provides overall leadership for graduate education in the College of Engineering (CoE) and is a point of contact for graduate students who have concerns about education, mentoring, research, or other difficulties.

The Graduate School has procedures for students wishing to appeal a grievance decision made at the college level. These policies are described in the Academic Policies and Procedures at https://grad.wisc.edu/academic-policies/.

## OTHER

n/a

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

## GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Demonstrate a strong understanding of mathematical, scientific, and engineering principles in the field.
2. Demonstrate an ability to formulate, analyze, and independently solve advanced engineering problems.
3. Apply the relevant scientific and technological advancements, techniques, and engineering tools to address these problems.
4. Recognize and apply principles of ethical and professional conduct.

# NUCLEAR ENGINEERING AND ENGINEERING PHYSICS, PHD

A broad program of instruction and research is offered in the principles of the interaction of radiation with matter and their applications, and in several areas of engineering physics. The program has strong engineering and applied science components. It emphasizes several areas of activity, including the research, design, development, and deployment of fission reactors; fusion engineering; plasma physics; radiation damage to materials; and large-scale computing in engineering science.

The master's degree may be pursued as a terminal degree in the fission area and in various engineering physics areas, but it is not generally recommended as a final degree in fusion research; students interested in fusion should plan to pursue the PhD degree. About 40 percent of the current graduate students hold undergraduate degrees in nuclear engineering, about 40 percent in physics, and about 20 percent in other disciplines such as mechanical engineering, electrical engineering, mathematics, chemistry, and materials science.

The department is considered to have one of the top five nuclear engineering programs in the nation over the last 40 years. It incorporates several research organizations including the Wisconsin Institute of Nuclear Systems, the Pegasus Toroidal Experiment Program, the Fusion Technology Institute, the University of Wisconsin Nuclear Reactor, the University of Wisconsin Ion Beam Laboratory, and the Center for Plasma Theory and Computation.

Research may be performed in areas including next generation fission reactor engineering; fluid and heat transfer modeling for transient analysis; reactor monitoring and diagnostics; fuel cycle analysis; magnetic confinement fusion reactor engineering, including the physics of burning plasmas, plasma-wall interactions, neutron transport, tritium breeding, radiation damage, and liquid-metal heat transfer; experimental and theoretical studies of plasmas including radio frequency heating,

magnetic confinement, plasma instabilities, and plasma diagnostics; superconducting magnets and cryogenics; and theoretical and experimental studies of the degradation (corrosion, stresses, irradiation) to materials in fission and fusion reactors.

The department places considerable emphasis on establishing research teams or group research, as well as traditional research activity by individual faculty members and their students. The groups frequently involve faculty, scientific staff, and graduate students from several departments, adding a strong interdisciplinary flavor to the research.

Students sometimes perform thesis work at national laboratories such as Argonne National Laboratory, Idaho National Laboratory, Princeton Plasma Physics Laboratory, and Los Alamos National Laboratory and at international research facilities such as the Max-Planck Institute for Plasma Physics.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 15 |
| Spring Deadline | September 1 |
| Summer Deadline | December 15 |
| GRE (Graduate Record Examinations) | Not required but may be considered if available.* |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

* GRE scores are optional. Applicants may submit GRE scores, but are not required to do so. Applications without scores are not placed at a disadvantage. However, received scores will be considered as part of our holistic evaluation of applications.

## APPLICANT CONSIDERATIONS

Applicants to our program should have the following:

1. **Degree**
   a. Bachelor of Science in engineering, mathematics, or physical science and an undergraduate record that indicates an ability to successfully pursue graduate study.
   b. International applicants must have a degree comparable to a regionally accredited US bachelor's degree. Review the Graduate School webpage (https://grad.wisc.edu/apply/requirements/) to learn more about comparable degrees by country.
2. **GPA**
   a. The minimum required GPA is 3.0/4.0 on the equivalent of the last 60 semester hours from the most recent bachelor's degree or a completed master's degree with a minimum of 3.0/4.0.
3. **Faculty Advisor**
   a. Applicants are encouraged to seek out a faculty advisor as part of the application process. This may be done prior to, during, and/or after submission of the online application. *(This is not a requirement.)*
   b. To seek out a faculty advisor, review the department Research (https://engineering.wisc.edu/departments/nuclear-engineering-engineering-physics/research/) and People (https://engineering.wisc.edu/departments/nuclear-engineering-engineering-physics/people/)websites. Assistant Professors, Associate Professors, and Professors are eligible to be graduate advisors. *Please do not contact Emeritus faculty, lecturers, Research Scientists, or Faculty Associates.*
   c. You are encouraged to inquire about possible funding opportunities. (See Funding tab in the right-side column on this page for funding information.)
4. **Recommended Preparatory Courses**
   a. It is highly recommended applicants take courses that cover the same material as these UW-Madison courses before entering the program.
   b. Applicants may be admitted without having taken these courses, however, in such cases the applicant must inform their faculty advisor who will then help them select the correct courses to include the required background for the program.

| Code | Title | Credits |
|---|---|---|
| **Differential Equations** | | |
| MATH 319 | Techniques in Ordinary Differential Equations | 3 |
| or MATH 320 | Linear Algebra and Differential Equations | |
| **Advanced Mathematics** | | |
| MATH 321 | Applied Mathematical Analysis 1: Vector and Complex Calculus | 3 |
| **Nuclear Physics** | | |
| N E 305 | Fundamentals of Nuclear Engineering | 3 |
| **Materials Science, Metallurgy, or Solid-State Physics** | | |
| M S & E 350 | Introduction to Materials Science | 3 |
| or M S & E 351 | Materials Science-Structure and Property Relations in Solids | |
| **Heat Transfer or Fluid Mechanics** | | |
| CBE 320 | Introductory Transport Phenomena | 4 |
| **Mechanics** | | |
| PHYSICS 311 | Mechanics | 3 |
| or E M A 202 | Dynamics | |

## APPLICATION MATERIALS

In addition to the items listed in the table above, a complete application includes the following uploaded to the online application. The submitted application and all application items are due by the deadline above.

1. **Unofficial Transcripts (PDF)**
   a. Most up-to-date unofficial transcript(s) from all previous higher education institutions, regardless of whether a degree was earned. Official transcripts are only requested of recommended applicants.
   b. International academic records must be in the original language accompanied by an official English translation. Review the minimum requirements link above to learn more.
2. **Statement of Purpose:** The University of Wisconsin-Madison Graduate School and the Department of Nuclear Engineering & Engineering Physics have the following guidelines for the Statement of Purpose:
   a. Be specific about your interest and knowledge particular to this program:
   b. • Have you read an article by one or more faculty members?
      • Has your advisor specifically directed you to this program?
      • Do you have other ties to this program and/or school?
   c. Pick out the pertinent facts about your academic and professional interests that make you a good fit with the program and institution to which you are applying. (A statement of purpose is not a place to list everything you have done.)
   d. Describe research experiences regardless of whether they are related to your current interests.
   e. Being self-motivated, curiosity-driven, and goal-oriented are important qualities for aspiring PhDs in Nuclear Engineering and Engineering Physics. To provide evidence of these qualities, you may write about relevant experiences you have had.
   f. Perseverance and the ability to overcome adversity are also important. Again, discuss relevant experiences you may have to provide evidence.
   g. Mention extra-curricular achievements to illustrate additional dimensions of your personality.
   h. Explain (briefly) any incongruity in your application material, such as a low semester grade.
   i. Our page limit is two and a half pages, but there is no obligation to write a long statement.
   j. For more information from the Graduate School, please review their webpage (https://grad.wisc.edu/apply/prepare/).
3. **Resume**
4. **Three Letters of Recommendation**
   a. These letters are required from people who can accurately reflect on the applicant's academics and/or work performance. It is highly recommended these letters be from faculty familiar with the applicant.
   b. Letters of recommendation are submitted electronically through the online application.
   c. See the Graduate School FAQs (https://grad.wisc.edu/apply/#FAQ) regarding letters of recommendation.
5. **GRE Scores**
   a. GRE scores are optional. Applicants may submit GRE scores, but are not required to do so. Applications without scores are not placed at a disadvantage. However, received scores will be considered as part of our holistic evaluation of applications.
6. **Application Fee**
   a. Application submission must be accompanied by the application fee. See the Graduate School FAQs (https://grad.wisc.edu/apply/#FAQ) regarding fees.
   b. Fee grants are available through the conditions outlined here by the Graduate School (https://grad.wisc.edu/apply/fee-grant/).

## REENTRY ADMISSIONS

Review the Graduate School requirements for previously enrolled students (https://policy.wisc.edu/library/UW-1230/). Contact the Department of Nuclear Engineering and Engineering Physics Graduate Student Services (see Contact Box for link) with questions.

## CURRENTLY ENROLLED GRADUATE STUDENT ADMISSIONS

Students currently enrolled as graduate students at UW-Madison wishing to apply to this degree programs should contact the Department of Nuclear Engineering and Engineering Physics Graduate Student Services (see Contact Box for link) to inquire about the process and deadlines.

## QUESTIONS

Contact the Department of Nuclear Engineering and Engineering Physics Graduate Student Services (see Contact Box for link).

# FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

Offers of financial support from the Department, College and University are in the form of research assistantships, teaching assistantships and fellowships. The funding for research assistantships comes from faculty research grants. Each professor decides on their own research assistantship offers. International applicants must secure a research assistantship, teaching assistantship, project assistantship, fellowship or independent funding before admission is final. Financial support is dependent on availability of funds and students maintaining satisfactory academic progress towards their degree.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 51 credits approved by the student's faculty advisor |
| Minimum Residence Credit Requirement | 32 credits |
| Minimum Graduate Coursework Requirement | 26 credits must be in graduate-level coursework from nuclear engineering, math, physics, chemistry, computer science, or any other engineering department except E P D. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required.<br>Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | Grades of D received in any course will not be counted as satisfying degree requirements. These grades will, however, be counted in the graduate GPA. Pass/fail grades are not counted toward degree requirements. A minimum 3.0 GPA is required. |
| Assessments and Examinations | PhD qualifying examination is required of all students.<br><br>After acceptance of the student's doctoral plan of study, the student must take an oral preliminary examination.<br><br>Final oral examination is required at the end of the thesis work. |
| Language Requirements | No language requirements. |
| Graduate School Breadth Requirement | All doctoral students are required to complete a doctoral breadth requirement. In consultation with, and approval by, the graduate faculty advisor/department, students should select one of the following options:<br><br>1. Option A (External Minor): Fulfillment of this minor requires approval of the doctoral minor program. This minor must be outside of the student's doctoral major program. These courses may also be counted toward the Research Focus Area requirement when the courses directly support the PhD research.<br><br>2. Option B (Distributed Minor): Fulfillment of this minor requires a minimum of 9 credits, level 400 and above, from two or more departments selected for their relevance to a particular area of concentration.<br>- If the minor coursework includes N E coursework, then the minor courses may NOT count toward the Research Focus Area requirement. Students must briefly justify how the N E coursework counted toward this breadth requirement differ from those in their Research Focus Area requirement.<br>- If the minor coursework does not include N E coursework, then the minor courses may count toward the Research Focus Area requirement. This path is intended for multidisciplinary PhD's where breadth is essentially built into the thesis topic.<br><br>3. Option C (Graduate/Professional Certificate): Requires successful completion of a graduate/professional certificate in a program outside of the student's doctoral major program. |

## REQUIRED COURSES

Unless specified, all courses must be numbered 400 or above in appropriate technical areas. Appropriate technical areas are: Engineering departments (except Engineering and Professional Development), Physics, Math, Statistics, Computer Science, Medical Physics, and Chemistry. Other courses may be deemed appropriate by a student's faculty advisor. (This policy does not apply to courses satisfied by the research focus coursework).

| Code | Title | Credits |
|---|---|---|
| **Seminar Requirement (two semesters)** | | |
| PhD students must enroll in, and successfully pass, E P 920 and/or N E/E C E/PHYSICS 922 for a minimum of two semesters prior to passing the PhD Preliminary Exam. | | 0 |

| | |
|---|---|
| E P 920 | Engineering Physics Graduate Seminar |
| N E/E C E/ PHYSICS 922 | Seminar in Plasma Physics |

**Lecture Coursework** [1]

| | |
|---|---|
| Complete all requirements (courses used to meet these requirements may overlap): | 36 |
| Nuclear Engineering Courses [2] | |
| Core Area Course Requirement (4 courses): Students must complete one course in each area; courses must be numbered 400 and above and selected in consultation with faculty advisor. Refer to Core Areas Course List for options. [3] | |
| Complete minimum 18 credits of appropriate technical coursework numbered 500 and above from any department and approved by faculty advisor [4] | |
| Complete minimum 9 credits of appropriate technical coursework numbered 700 and above from any department and approved by faculty advisor [4] | |
| Complete minimum 24 credits of Research Focus coursework directly related to the student's research (explanation on how courses contribute to research and faculty advisor approval required) [5] | |

**Remaining Credits**

| | |
|---|---|
| Complete any combination of the following: | 15 |
| N E 890 Pre-Dissertator's Research | |
| N E 990 Research and Thesis | |
| Additional courses from the Lecture and Seminar Coursework above | |

**Total Credits** **51**

1 Graduate School Breadth Requirement courses may be eligible to count toward the 36 credit Lecture and Seminar Coursework requirement (see Graduate School Breadth Requirement above).

2 The following courses, or courses with similar material content, must be taken prior to or during the course of study:

- N E 427 Nuclear Instrumentation Laboratory; AND
- N E 428 Nuclear Reactor Laboratory OR N E 526 Laboratory Course in Plasmas; AND
- N E 408 Ionizing Radiation OR N E/MED PHYS 569 Health Physics and Biological Effects.

Students who have taken courses with a similar material content, must contact the NEEP Associate Chair of Graduate Studies for approval of the specific course(s).
These Nuclear Engineering Courses will count toward the Research Focus Area.

3 The four core areas are Fission Reactors, Plasma Physics and Fusion, Materials, and Engineering Mathematics and Computation.

4 Research courses such as N E 790 Master's Research and Thesis, N E 890 Pre-Dissertator's Research, N E 990 Research and Thesis, and Independent Study Courses such as N E 699 Advanced Independent Study and N E 999 Advanced Independent Study may not be used to satisfy this requirement.

5 Non-technical coursework is not required within the degree. However, with faculty advisor approval, students may choose a maximum of 6 credits of non-technical coursework to satisfy credits within the 24 credits of Research Focus Requirement and/or the Graduate School Breadth Requirement.

### Core Areas Course List

These courses are examples that would meet the requirement and are not meant to be a restricted list of possible courses. The candidate is required to complete one course in each of the following areas:

| Code | Title | Credits |
|---|---|---|
| **Fission Reactors** | | |
| N E 405 | Nuclear Reactor Theory | 3 |
| N E 408 | Ionizing Radiation | 3 |
| N E 411 | Nuclear Reactor Engineering | 3 |
| N E/MED PHYS 506 | Monte Carlo Radiation Transport | 3 |
| N E/M E 520 | Two-Phase Flow and Heat Transfer | 3 |
| N E 550 | Advanced Nuclear Power Engineering | 3 |
| N E 555 | Nuclear Reactor Dynamics | 3 |
| N E/M E 565 | Power Plant Technology | 3 |
| N E/I SY E 574 | Methods for Probabilistic Risk Analysis of Nuclear Power Plants | 3 |
| **Plasma Physics & Fusion** | | |
| N E/E C E/ PHYSICS 525 | Introduction to Plasmas | 3 |
| N E/E C E/ PHYSICS 527 | Plasma Confinement and Heating | 3 |
| N E/E C E 528 | Plasma Processing and Technology | 3 |
| N E 536 | Feasibility of Fusion Power Plants based on Controlled Nuclear Fusion | 3 |
| **Materials** | | |
| N E/M S & E 423 | Nuclear Engineering Materials | 3 |
| N E 541 | Radiation Damage in Metals | 3 |
| PHYSICS 551 | Solid State Physics | 3 |
| **Engineering Mathematics & Computation** | | |
| E P/E M A 547 | Engineering Analysis I | 3 |
| E P/E M A 548 | Engineering Analysis II | 3 |
| COMP SCI/ MATH 513 | Numerical Linear Algebra | 3 |
| COMP SCI/ MATH 514 | Numerical Analysis | 3 |
| MATH 703 | Methods of Applied Mathematics 1 | 3 |

## POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With faculty advisor and Nuclear Engineering and Engineering Physics Graduate Studies Committee Chair approval, students may transfer up to 15 credits of prior graduate coursework that led to a relevant MS degree. Alternatively, with faculty advisor and Nuclear Engineering and Engineering Physics Graduate Studies Committee Chair approval, students may transfer up to 6 credits of relevant coursework from a prior graduate program. Review the Graduate Program Handbook (see contact box) for information about use and restrictions to this policy. Coursework earned ten or more years prior to admission is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

- Undergraduate credits from UW-Madison: With faculty approval, students who have received their undergraduate degree from UW–Madison may transfer up to 7 credits of coursework numbered 400 or above toward the minimum graduate degree credit requirement. This work would not be allowed to count toward the 50% graduate coursework minimum unless taken in courses numbered 700 or above. No credits can be counted toward the minimum graduate residence credit requirement. Coursework earned ten or more years prior to admission is not allowed to satisfy requirements.
- Undergraduate credits from other institutions: With faculty advisor and Graduate Studies Committee Chair approval, students who have received an ABET-accredited undergraduate degree (not including UW–Madison) may be eligible to transfer up to 7 credits of their undergraduate coursework toward the minimum graduate degree credit requirement. No credits can be counted toward the minimum graduate residence credit requirement, nor the minimum graduate coursework (50%) requirement. Coursework earned ten or more years prior to admission is not allowed to satisfy requirements.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

The Nuclear Engineering and Engineering Physics PhD program does not accept prior credits from the UW-Madison Professional programs.

### Credits Earned as a University Special student at UW–Madison

With program approval, students are allowed to transfer up to 15 credits of coursework numbered 400 or above taken as a UW–Madison Special student toward the minimum graduate degree credit requirement. UW–Madison coursework taken as a University Special student would not be allowed to count toward the 50% graduate coursework minimum unless taken in courses numbered 700 or above or are taken to meet the requirements of a capstone certificate and has the "Grad 50%" designation. Coursework earned ten or more years prior to admission is not allowed to satisfy requirements.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Each student is required to meet with his or her advisor prior to registration every semester.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

The PhD qualifying examination should be first taken in the third or fourth semester (see graduate handbook in the contact box for more information).

Students must submit the doctoral plan of study one month before the end of the semester following the one in which the qualifying exam is passed.

Candidates are expected to pass the PhD preliminary examination no later than the end of the third year of graduate study, or by the end of the second regular semester following the one in which the PhD qualifying examination was passed, whichever is later. A candidate who fails to take the preliminary examination within four years of passing the qualifying examination must retake the qualifying examination.

An oral examination on the findings of the PhD research is required at the end of the thesis work. The candidate must apply for a warrant from the Graduate School through the student services office at least three weeks before the exam. The final oral examination must be taken within five years of passing the preliminary examination.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

### Nuclear Engineering & Engineering Physics Grievance Procedures

Students who feel that they have been treated unfairly have the right to a prompt hearing of their grievance. Such complaints may involve course grades, classroom treatment, advising, various forms of harassment, or other issues. Any student or potential student may use these procedures.

- The student should speak first with the person toward whom the grievance is directed. In most cases, grievances can be resolved at this level.
- Should a satisfactory resolution not be achieved, the student should contact the program's Grievance Advisor to discuss the grievance. The Graduate Student Coordinator can provide students with the name of this faculty member, who facilitates problem resolution through informal channels. The Grievance Advisor is responsible for facilitating any complaints or issues of students. The Grievance Advisor first attempts to help students informally address the grievance prior to any formal complaint. Students are also encouraged to talk with their faculty advisors regarding concerns or difficulties if necessary. University resources for sexual harassment concerns can be found on the UW Office of Equity and Diversity website.
- If the issue is not resolved to the student's satisfaction, the student can submit the grievance to the Grievance Advisor in writing, within 60 calendar days of the alleged unfair treatment.
- On receipt of a written complaint, a faculty committee will be convened by the Grievance Advisor to manage the grievance. The program faculty committee will obtain a written response from the person toward whom the complaint is directed. The response will be shared with the person filing the grievance.
- The faculty committee will determine a decision regarding the grievance. The Grievance Advisor will report on the action taken by the committee in writing to both the student and the party toward whom the complaint was directed within 15 working days from the date the complaint was received.
- At this point, if either party (the student or the person toward whom the grievance is directed) is unsatisfied with the decision of the faculty committee, the party may file a written appeal. Either party has 10 working days to file a written appeal to the College of Engineering.

The Assistant Dean for Graduate Affairs (engr-dean-graduateaffairs@engr.wisc.edu) provides overall leadership for graduate education in the College of Engineering (CoE) and is a point of contact for graduate students who have concerns about education, mentoring, research, or other difficulties.

The Graduate School has procedures for students wishing to appeal a grievance decision made at the college level. These policies are described in the Academic Policies and Procedures at https://grad.wisc.edu/academic-policies/.

## OTHER

n/a

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

## GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Demonstrate an extraordinary, deep understanding of mathematical, scientific, and engineering principles in the field
2. Demonstrate an ability to formulate, analyze, and independently solve advanced engineering problems
3. Apply the relevant scientific and technological advancements, techniques, and engineering tools to address these problems
4. Recognize and apply principles of ethical and professional conduct
5. Demonstrate an ability to synthesize knowledge from a subset of the biological, physical, and/or social sciences to help frame problems critical to the future of their discipline
6. Demonstrate an ability to conduct original research and communicate it to their peers

# NUCLEAR ENGINEERING, DOCTORAL MINOR

## ADMISSIONS

# ADMISSIONS

Students interested in earning the Nuclear Engineering Doctoral minor should contact the Nuclear Engineering & Engineering Physics Graduate Coordinator (neepgradadmission@engr.wisc.edu) to learn the requirements, process, and complete the required paperwork.

Also, all Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any doctoral minor. To apply to this minor, log in to MyUW (https://my.wisc.edu), click on Graduate Student Portal, and then click on Add/Change Programs. Select the information for the doctoral minor for which you are applying.

## REQUIREMENTS

# REQUIREMENTS

## REQUIRED COURSES

Students must complete at least 10 credits or four Nuclear Engineering (N E (https://guide.wisc.edu/courses/n_e/)) courses numbered 400 or above, chosen in consultation with advisor. The plan of study must meet the following requirements:

1. Courses must be completed after the bachelor's degree;
2. Up to one course (maximum of three credits) of independent study (N E 699 Advanced Independent Study, N E 999 Advanced Independent Study) may satisfy minor requirements;
3. Research and thesis courses may not satisfy minor requirements;
4. Courses taken pass/fail or for audit may not be used.
5. Courses with grades of S given in courses graded on a credit/no credit basis are acceptable.
6. A GPA of 3.0 must be maintained for the minor;
7. No more than five credits completed five or more years prior to admission to the doctoral major may be used. Courses taken 10 or more years ago may not be used.

### Prior Coursework

A maximum of 6 credits may be transferred from other institutions to satisfy the minor requirements.

# NURSING - SCHOOL-WIDE

## DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

# DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/ PROFESSIONAL CERTIFICATES

- Nursing Practice, DNP (p. 1521)
- Nursing, Doctoral Minor (p. 1560)
- Nursing, MS (p. 1561)
- Nursing, PhD (p. 1565)
- Teaching and Learning in Healthcare Professions, Graduate/ Professional Certificate (p. 1570)

# NURSING PRACTICE, DNP

The School of Nursing Doctor of Nursing Practice (DNP) program prepares nurses for roles as advanced practice nurses (clinical nurse specialists or nurse practitioners) and leaders in the field. The DNP program features a combination of formal coursework, clinical practice, practica experiences, and scholarly inquiry.

Students in the DNP program choose from the following named options (tracks):

- Adult/Gerontology Acute Care Nurse Practitioner (p. 1523) (Hybrid course delivery)
- Adult/Gerontology Clinical Nurse Specialist (p. 1529) (Hybrid course delivery)
- Adult/Gerontology Primary Care Nurse Practitioner (p. 1534) (Hybrid course delivery)
- Pediatric Primary Care Nurse Practitioner (p. 1540) (Hybrid course delivery)
- Population Health Nursing (p. 1545) (Online course delivery)
- Psychiatric Mental Health Nurse Practitioner (p. 1550) (Hybrid course delivery)
- Systems Leadership and Innovation (p. 1555) (Online course delivery)

The program is available for nurses with a baccalaureate degree in nursing (post-BS option) and nurses with a master's degree in Nursing or relevant area (post-MS option). Students who have a master's degree in Nursing and are licensed as an advanced practice nurse, must select a named option (listed above) and choose a tailored course plan in one of the following areas:

- Educational Leadership
- Expert Practice
- Leadership

Those interested in advancing nursing education may pursue the Nurse Educator Certificate (https://guide.wisc.edu/graduate/nursing-school-wide/nurse-educator-graduate-professional-certificate/).

## ADMISSIONS

# ADMISSIONS

Students apply to the Doctor of Nursing Practice through one of the named options:

- Adult/Gerontology Acute Care Nurse Practitioner (p. 1523)
- Adult/Gerontology Clinical Nurse Specialist (p. 1529)
- Adult/Gerontology Primary Care Nurse Practitioner (p. 1534)
- Pediatric Primary Care Nurse Practitioner (p. 1540)
- Population Health Nursing (p. 1545)
- Psychiatric Mental Health Nurse Practitioner (p. 1550)
- Systems Leadership and Innovation (p. 1555)

## FUNDING

# FUNDING

### GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

### PROGRAM RESOURCES

Prospective students should see the program website for funding information. (https://nursing.wisc.edu/financial-support/)

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | See Named Options below for policy information. |
| Minimum Residence Credit Requirement | 32 credits |
| Minimum Graduate Coursework Requirement | Half of degree coursework must be completed graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | A student may not receive more than one grade below a B (or a U grade) in any 12 month period. |
| Assessments and Examinations | Students must complete a scholarly project, which represents the culmination of a student's doctoral education. This project is a paper of publishable quality. Students must deliver an oral presentation to faculty, students, and the community. |
| Language Requirements | No language requirements. |
| Graduate School Breadth Requirement | DNP students are not required to complete a doctoral minor or graduate/professional certificate. |

## REQUIRED COURSES

Select a Named Option (p. ) for required courses.

# NAMED OPTIONS

A named option is a formally documented sub-major within an academic major program. Named options appear on the transcript with degree conferral. Students pursuing the Doctor of Nursing Practice must select one of the named options:

View as listView as grid

- **NURSING PRACTICE: ADULT/GERONTOLOGY ACUTE CARE NURSE PRACTITIONER, DNP (P. 1523)**
- **NURSING PRACTICE: ADULT/GERONTOLOGY CLINICAL NURSE SPECIALIST, DNP (P. 1529)**
- **NURSING PRACTICE: ADULT/GERONTOLOGY PRIMARY CARE NURSE PRACTITIONER, DNP (P. 1534)**
- **NURSING PRACTICE: PEDIATRIC PRIMARY CARE NURSE PRACTITIONER (P. 1540)**
- **NURSING PRACTICE: POPULATION HEALTH NURSING, DNP (P. 1545)**
- **NURSING PRACTICE: PSYCHIATRIC MENTAL HEALTH NURSE PRACTITIONER, DNP (P. 1550)**
- **NURSING PRACTICE: SYSTEMS LEADERSHIP AND INNOVATION, DNP (P. 1555)**

## POLICIES

# POLICIES

Students should refer to one of the named options for policy information:

- Adult/Gerontology Acute Care Nurse Practitioner (p. 1523)
- Adult/Gerontology Clinical Nurse Specialist (p. 1529)
- Adult/Gerontology Primary Care Nurse Practitioner (p. 1534)
- Pediatric Primary Care Nurse Practitioner (p. 1540)
- Population Health Nursing (p. 1545)
- Psychiatric Mental Health Nurse Practitioner (p. 1550)
- Systems Leadership and Innovation (p. 1555)

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

## GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## PROGRAM RESOURCES

Career advising, funding, and professional development opportunities are shared with all students by a member of the School of Nursing Academic Affairs staff. Information on these support services can be found on the Student Site (https://students.nursing.wisc.edu/career-advising/career/).

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Approach advanced practice nursing through the lens of nursing knowledge, with consideration of theory, interprofessional practice, the holistic patient, student, community, and/or system needs.
2. Demonstrate the ability to provide effective care within complex environments that is advanced, individualized, evidence based, holistic, just and compassionate.
3. Collaborate to create health opportunities through policy, advocacy, and data-driven changes, with a focus on improving health through prevention, preparedness, and addressing health equity with a local, regional, national and global perspective.
4. Utilize theory, analytics, synthesis of evidence, and translation of science to drive best practices to improve and transform health equity and health care through nursing scholarship.
5. Employ emerging principles of quality, safety, and improvement science guided by interprofessional collaboration and clinical scholarship to health practice, systems, and policy.
6. Participate within interprofessional, collaborative teams through the development, implementation and evaluation of strategies to improve outcomes.
7. Create equitable and sustainable innovations within systems guided by policy and evidence-based frameworks to enhance patient experiences, access to care, reduced costs, workforce well-being, and improved health outcomes.
8. Leverage current and emerging technologies and informatics to monitor health, identify needs, evaluate care outcomes, and advocate for system improvements.
9. Maintain a professional nursing identity grounded in integrity, accountability, and ethical practice to foster trust and high-quality, person-centered care.
10. Engage in self-reflection, development of skill and knowledge building to support a spirit of inquiry, lifelong learning, personal well-being, and the capacity for leadership.

## ACCREDITATION

# ACCREDITATION

The Doctor of Nursing Practice program at the University of Wisconsin - Madison is accredited by the Commission on Collegiate Nursing Education (http://www.ccneaccreditation.org). (http://www.ccneaccreditation.org/)

## CERTIFICATION/LICENSURE

# CERTIFICATION/LICENSURE

In addition to earning a doctoral degree, post-BS graduates of the nurse practitioner and clinical nurse specialist options are prepared to sit for professional nursing certification examinations (https://students.nursing.wisc.edu/graduate-advising/licensure-certification/) upon successful completion of the program.

## PROFESSIONAL CERTIFICATION/LICENSURE DISCLOSURE (NC-SARA)

The United States Department of Education (via 34 CFR Part 668 (https://www.ecfr.gov/current/title-34/subtitle-B/chapter-VI/part-668/?toc=1)) requires institutions that provide distance education to disclose information for programs leading to professional certification or licensure. The expectation is that institutions will determine whether each applicable academic program meets state professional licensure requirements and provide a general disclosure of such on an official university website.

Professional licensure requirements vary from state-to-state and can change year-to-year; they are established in a variety of state statutes, regulations, rules, and policies; and they center on a range of educational requirements, including degree type, specialized accreditation, total credits, specific courses, and examinations.

UW-Madison has taken reasonable efforts to determine whether this program satisfies the educational requirements for certification/licensure in states where prospective and enrolled students are located and is disclosing that information as follows.

Disclaimer: This information is based on the most recent annual review of state agency certification/licensure data and is subject to change. All students are strongly encouraged to consult with the individual/office listed in the Contact Information box on this page and with the applicable state agency for specific information.

### The requirements of this program meet certification/licensure in the following states:

Alabama, Alaska, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, Ohio, Oregon, Pennsylvania, Washington, Wisconsin, District of Columbia, Guam, Northern Mariana Islands, U.S. Virgin Islands

### The requirements of this program do not meet certification/licensure in the following states:

Not applicable

Updated: 1 June 2026

# NURSING PRACTICE: ADULT/GERONTOLOGY ACUTE CARE NURSE PRACTITIONER, DNP

This is a named option with the Nursing Practice, DNP (p. 1521).

- The Adult Gerontology Acute Care DNP program focuses on caring for adult and older adult patients with complex acute and/or acute on chronic illness in settings such as hospitals, ICU's, emergency rooms, surgery, specialty care, and urgent care centers.
- Clinical Placement Coordinators organize clinical experience opportunities at nationally ranked including level one academic trauma centers, acute and critical care hospitals, community hospitals, and critical access centers.

- This program provides opportunities to engage with impactful, acute care-driven scholarly projects to enhance the care of the student's chosen patient population/interest.
- Adult-Gerontology Acute Care students are also presented with the opportunity to complete the Global Health Certificate Program and/or the Healthcare Educator Certificate Program, which complements the curriculum and sets graduates up to succeed in a teaching career.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 1 |
| Spring Deadline | This program does not admit in the spring. |
| Summer Deadline | This program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/) and the Doctor of Nursing Practice's higher requirements:<br>• TOEFL (iBT): 100<br>• IELTS: 8<br>• Duolingo English Test: 130 |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

## ADDITIONAL ADMISSION REQUIREMENTS:

- Graduation from an accredited baccalaureate program in nursing or master's degree from an accredited nursing program (if applicable)
- One year of professional nursing experience
- Minimum GPA requirements:
  - 3.0 in the last 60 baccalaureate credits and/or
  - 3.5 in master's degree credits (if completed master's degree)
- Grade of B or better in an approved graduate level statistics course within the last 5 years. (Note: The course does not need to be taken before applying, but must be successfully completed prior to the start of the fall term.)
- Unencumbered Wisconsin RN license (by the program start)
- Certification as an advanced practice nurse (if applicable)
- Application essay (see School of Nursing website (https://nursing.wisc.edu/graduate-programs/dnp/#to-apply) for specific criteria)
- Curriculum vitae or resume
- CGFNS Certification (for international applicants only)

With program approval, applicants without an APN master's degree (i.e., nurse education) may apply prior coursework toward degree requirements.

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# NAMED OPTION REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| No | No | No | Yes | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 68 credits |
| Minimum Residence Credit Requirement | 32 credits |
| Minimum Graduate Coursework Requirement | 34 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |

| | |
|---|---|
| Other Grade Requirements | A student may not receive more than one grade below a B (or a U grade) in any 12 month period. |
| Assessments and Examinations | Students must complete a scholarly project, which represents the culmination of a student's doctoral education. This project is a paper of publishable quality. Students must deliver an oral presentation to faculty, students, and the community. |
| Language Requirements | No language requirements. |
| Graduate School Breadth Requirement | DNP students are not required to complete a doctoral minor or graduate/professional certificate. |

## REQUIRED COURSES

For students with a master's degree in nursing, a personalized program plan will be developed and some of the following courses may be satisfied with previous master's coursework.

| Code | Title | Credits |
|---|---|---|
| NURSING 601 | Advanced Health Assessment | 3 |
| NURSING 605 | Pharmacotherapeutics for Advanced Practice Nurses | 3 |
| NURSING 702 | Health Promotion and Disease Prevention in Diverse Communities | 3 |
| NURSING 703 | Health Care and Public Policy | 3 |
| NURSING 704 | Leadership in Advanced Practice Nursing I | 3 |
| NURSING 706 | Nursing Research | 3 |
| NURSING 708 | Ethics for Advanced Practice in Health Care | 2 |
| NURSING 722 | Advanced Practice Nursing Theory: Adults and Older Adults | 3 |
| NURSING 726 | Foundations for APN Clinical Practice I | 3 |
| NURSING 727 | Foundations for APN Clinical Practice II | 3 |
| NURSING 728 | Advanced Practice Clinical Application and Role Development I | 3 |
| NURSING 729 | Advanced Practice Clinical Application and Role Development II | 3 |
| NURSING 761 | Health Program Planning, Evaluation, and Quality Improvement | 3 |
| NURSING 764 | Nursing and Health Informatics | 3 |
| NURSING 772 | Leadership and Organizational Decision-Making in Health Care | 3 |
| NURSING 806 | Evaluation and Application of Evidence-Based Practice | 3 |
| NURSING 811 | Advanced Pathophysiology | 3 |
| NURSING 826 | Foundations for APN Clinical Practice III | 3 |
| NURSING 828 | Clinical Leadership III | 3 |
| NURSING 829 | Clinical Leadership IV | 3 |
| NURSING 906 | Scholarly Project [1] | 6 |
| Nursing Elective | | 3 |
| **Total Credits** | | **68** |

[1] Six total credits required; 10 credit maximum. Taken for two credits per term (other credit amounts allowed only via faculty approval).

## Three-Year Program Plan

**First Year**

| Fall | Credits | Spring | Credits | Summer | Credits |
|---|---|---|---|---|---|
| NURSING 704 | 3 | NURSING 601 | 3 | NURSING 708 | 2 |

## POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# NAMED OPTION-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program approval, students are allowed to transfer graduate coursework from other institutions. Graduate work should be less than five years old to be considered; additional justification and/or documentation are needed for work taken between five and ten years. Coursework more than ten years old will not be considered unless students are board certified advanced practice nurses (APN) and have continuous practice as an APN.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

No undergraduate coursework will be allowed to transfer toward DNP requirements.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

With program approval, students are allowed to transfer no more than 9 credits of coursework numbered 300 or above taken as a University Special student. These credits are considered part of the total allowable credits available for a student to transfer. Coursework should be less than five years old to be considered; additional justification and/or documentation is needed for work taken between five and ten years. Coursework more than ten years old will not be considered.

## PROBATION

Students meeting any of the following conditions will be placed on Academic Probation and will receive written notice of their status:

1. Achieving less than a 3.0 GPA in a term (fall, spring, or summer).
   a. If a student is already on Academic Probation based on the prior term GPA and
      i. The term GPA for the next term of enrollment is below a 3.0, the student will be dropped from the DNP program.
      ii. The term GPA for the next term of enrollment is a 3.0 or higher, the student will be returned to good academic standing.
2. Earning a cumulative GPA less than a 3.0.
   a. A student has two (2) semesters to raise their cumulative GPA above 3.0 or the student will be dropped from the DNP program.
   b. Once the cumulative GPA returns to at least a 3.0, the student will be returned to good academic standing.
3. Earning one grade below a B or one Unsatisfactory (U) grade.
   a. A student must repeat a required nursing course if a grade below a B or a U is earned.
   b. The student will be eligible to retake the course at the next available offering; if the course is a prerequisite for another course, the student cannot progress into the subsequent course until a

grade of B or higher is earned. The program's Leave of Absence policy may be triggered if the student does not have a fall or spring term enrollment.

c. If the grade below a B is in a clinical course, the student must petition to be eligible to retake the clinical course and the timing of the subsequent enrollment will be based upon availability of clinical resources.

d. A student cannot repeat more than one course and a course may not be repeated more than once.
   i. A dropped course and/or coursework for which a student enrolls and then withdraws from the term counts as a course enrollment. Therefore, if a student drops/withdraws from a course, their next enrollment in that course is considered a repeated enrollment. (A course transcripted with a DR/WD notation per the Office of the Registrar's enrollment deadline calendar applies to this policy.)

e. A student will be returned to good academic standing once the course is repeated and a grade of at least a B (or Satisfactory) is earned.

A student placed on Academic Probation for any reason must meet with their respective DNP Population Lead and faculty advisor to devise a written action plan to be submitted to the DNP Program Director and the Associate Dean for Academic Affairs. (Note: If the Population Lead is also the faculty advisor, the student will meet with their Population Lead/advisor and a second Population Lead.)

## ADVISOR / COMMITTEE

Within the DNP Program, each student will have an assigned faculty advisor as well as an assigned academic advisor, which is the Graduate Advising Manager. Below are descriptions of these advising roles in addition to other faculty and staff that work to advise students. Descriptions of advising roles can be found on the Student Site (https://students.nursing.wisc.edu/graduate-advising/grad/).

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Post–BS: Students must complete the requirements within six years of admission. Upon the advisor's recommendation, the associate dean for academic programs may grant a one-year extension.

Post–MS: Students must complete the requirements within four years of admission to the program. Upon the advisor's recommendation, the associate dean for academic programs may grant a one-year extension.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## STUDENT APPEALS, PETITIONS, AND GRIEVANCE PROCEDURES

### Section One: Appeals

Appeals are limited to requests to continue in the curriculum after being dropped from the program and/or course grade appeals.

#### Drop Appeals

Any undergraduate or graduate student who feels they should not have been dropped from the program has the right to file an appeal. The appeals procedure is available for students to provide additional information regarding their circumstances which have contributed to their dropped status. The appeal procedure is described below. Throughout the appeal process, the student (hereby referred to as appellant) may be accompanied by a support person.

#### Course Grade Appeals

A student who believes a grade received in a Nursing course was an error or not consistent with guidelines outlined in the syllabus or campus standards has the right to appeal the grade.

The student should first speak with the course faculty member in an effort to resolve the issue informally. This must be done within 10 business days of the grade posted to the students record. During this informal process both student and faculty may consult with the Associate or Assistant Deans for Academic Affairs to seek resolution of the issue.

If the student remains dissatisfied with the grade, the student has the option to initiate the formal appeal procedure. To do this, the student (hereby referred to as appellant) must submit the appeal, as outlined below.

#### Filing Appeal

1. The student must submit a petition for special consideration (https://uwmadison.co1.qualtrics.com/jfe/form/SV_07Y6YZUOYXJnQ2O/) form to the Assistant Dean for Academic Affairs within 10 business days of notification of academic status or grade posting. The appeal must include:
   a. Precise grounds on which the appeal is based.
   b. Circumstances associated with the need to appeal.

   c. Arguments supporting the appeal.
   d. Description of proposed remedial actions to be taken to improve the student's academic performance.
   e. The appellant may also submit letters of support from persons knowledgeable about the appellant's current and/or past academic work and/or other matters related to the appellant's academic performance. Any such letters must be submitted to the Assistant Dean via email by the same deadline.
2. Within 15 business days after receiving the appeal, the Assistant Dean for Academic Affairs shall arrange for a committee meeting. The committee may request additional information from the appellant and/or request them to appear before the committee. The appellant may bring a support person to the appeal meeting and must notify the Assistant Dean for Academic affairs at least three business days prior to the meeting. The appellant's chosen support person is limited to providing advice and support to the appellant.
3. Within 60 calendar days after the committee receives the appeal from the Assistant Dean for Academic Affairs, the committee shall send a written report of the committee's recommendations to the Assistant Dean for Academic Affairs.
4. The Assistant Dean for Academic Affairs will consider the committee's recommendation and issue a decision on the appeal. The decision will be communicated by email to the student within 10 business days after the receipt of the committee's recommendation.
5. If the appeal is granted, the Assistant Dean for Academic Affairs will discuss with the appellant any stipulations (binding) and recommendations (non-binding) for continuation in the program.
6. If a student chooses to appeal the decision, the appeal will be directed to the Associate Dean for Academic Affairs. The student must submit a written appeal, by email, to the Associate Dean within 10 business days upon being sent the decision from the Assistant Dean for Academic Affairs. The written document must include specific justifications regarding the grounds of the appeal, which are limited to:
   a. School policies were incorrectly applied;
   b. Decision is contrary to state or federal law;
   c. Proper appeal procedures were not followed; or
   d. Unfounded, arbitrary, or irrelevant assumptions of fact regarding the appellant's performance were made by the Appeals Committee. Appellant must also identify the specific aspects of the decision that they believe meet the criteria cited as a basis for appeal.

The Assistant Dean for Academic Affairs will provide the Associate Dean for Academic Affairs with a copy of the initial grievance, the committee's recommendation, and the Assistant Dean for Academic Affairs's decision. No new information relevant to the grievance may be introduced to or considered by the Associate Dean for Academic Affairs. The Associate Dean for Academic Affairs shall notify the student and the committee of the decision in writing within 30 business days. The Associate Dean's decision is final.

## Section Two: Petitions

If a student in the School of Nursing wishes to request an exception to a School of Nursing academic policy or regulation they should first consult their academic advisor. Then, the student must formally submit their request using the Petition for Special Consideration (https://uwmadison.co1.qualtrics.com/jfe/form/SV_07Y6YZUOYXJnQ2O/) form. Exception requests could be related to academics (i.e. dropping a course or withdrawing after the deadline etc), clinicals/compliance (i.e. waiver for specific compliance requirement), or admission to one of the School of Nursing's academic programs.

Exceptions to established policies, regulations, and/or program requirements should be rare and will be considered on an individual case by case basis. They will be reviewed by the School of Nursing's Academic Affairs office.

## Section Three: Grievances

The following School of Nursing Student Grievance Policy and associated procedures are designed for use in response to individual student grievances regarding faculty or staff in the School of Nursing.

Any individual student who feels they have been treated unfairly by a School of Nursing faculty or staff member has the right to file a grievance and receive a timely response addressing their concerns. Any student, undergraduate or graduate, may use these grievance procedures, except student employees whose complaints are covered under other campus policies. The grievance procedure is available to resolve student concerns regarding inequitable treatment that have not been satisfactorily resolved through the informal resolution process or where the student believes that informal resolution would not be productive. The grievance procedure is described below. Throughout the grievance process, the student may be accompanied by a support person. The use of this grievance procedure shall not prevent the student from seeking redress through another administrative or legal process.

For grievances regarding discrimination based on protected bases (i.e., race, color, national origin, sex, disability, age, etc.), contact the Office of Compliance (https://compliance.wisc.edu/eo-complaint/).

For grievances or concerns regarding sexual harassment or sexual violence (including sexual assault, dating/domestic violence, stalking and sexual exploitation), contact the Sexual Misconduct Resource and Response Program within the Office of Compliance (https://compliance.wisc.edu/titleix/).

For grievances that involve the behavior of a student, contact the Office of Student Conduct and Community Standards in the Dean of Students Office at https://conduct.students.wisc.edu/.

For grievances about, or directed at, faculty or staff in the School of Nursing, students should follow these steps:

### Informal Resolution

Any student in the School of Nursing who believes they have been treated inequitably is encouraged to resolve the matter informally. The student should first talk with the person or group at whom the grievance is directed in an attempt to resolve the issue informally. The student may contact the Associate Dean for Academic Affairs for assistance in resolving the matter informally. If students are unable to resolve concerns directly or without additional support, please see step two.

### Formal Grievance Procedure

1. Any student in the School of Nursing who has attempted to informally resolve a grievance but has been unsuccessful, may submit a formal grievance to the Associate Dean for Academic Affairs.
2. The student must submit a written grievance by email to the Associate Dean for Academic Affairs within 20 business days of the alleged unfair treatment. To the fullest extent possible, a formal written grievance needs to contain a clear and concise statement of the issue(s) involved as well as the relief sought.
3. Within 30 business days after receiving the grievance, the Associate Dean for Academic Affairs shall arrange for a committee meeting.

The committee may request a written response from the person or group at whom the grievance is directed, may ask for additional information from any or all parties involved, may request that the parties involved appear before the committee, and/or may take other steps in attempting to resolve the grievance.

4. Within 60 calendar days after the committee receives the grievance from the Associate Dean for Academic Affairs, the committee shall send a written report of the committee's recommendations to the Associate Dean for Academic Affairs.
5. The Associate Dean for Academic Affairs will consider the committee's recommendation and issue a decision on the grievance. The decision will be communicated by email to the student within 10 business days after the receipt of the committee's recommendation.
6. If a student chooses to appeal the decision, the appeal will be directed to the Dean of the School of Nursing. The student must submit a written appeal, by email, to the Dean within 10 business days upon being sent the decision from the Associate Dean for Academic Affairs. The written document must include specific justifications regarding the grounds of the appeal. The Associate Dean for Academic Affairs will provide the Dean with a copy of the initial grievance, the committee's recommendation, and the Associate Dean for Academic Affairs's decision. No new information relevant to the grievance may be introduced to or considered by the Dean. The Dean shall notify the student and the committee of the decision in writing within 30 business days. The Dean's decision is final.

## OTHER

n/a

# NURSING PRACTICE: ADULT/GERONTOLOGY CLINICAL NURSE SPECIALIST, DNP

This is a named option with the Nursing Practice, DNP (p. 1521).

- The Adult-Gerontologic Clinical Nurse Specialist (AG-CNS) DNP track focuses on managing care of specialty patient populations, supporting nurses in providing best-evidence based care, and leading change at the organization/system level to improve patient outcomes.
- The Adult-Gerontologic Clinical Nurse Specialist program positions graduates to excel as clinical leaders working with adult patients in a multitude of clinical settings across the care continuum.
- Clinical Placement Coordinators organize clinical experience opportunities state based on students' interests.
- Adult-Gerontologic Clinical Nurse Specialist students are also presented with the opportunity to complete the Global Health Certificate Program and/or the Nurse Educator Certificate Program which complements the curriculum and sets graduates up to succeed in a teaching career.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements (https://grad.wisc.edu/apply/requirements/) *of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 1 |
| Spring Deadline | This program does not admit in the spring. |
| Summer Deadline | This program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/) and the Doctor of Nursing Practice's higher requirements:<br>• TOEFL (iBT): 100<br>• IELTS: 8<br>• Duolingo English Test: 130 |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

## ADDITIONAL ADMISSION REQUIREMENTS:

- Graduation from an accredited baccalaureate program in nursing or master's degree from an accredited nursing program (if applicable)
- One year of professional nursing experience
- Minimum GPA requirements:
  - 3.0 in the last 60 baccalaureate credits and/or
  - 3.5 in master's degree credits (if completed master's degree)
- Grade of B or better in an approved graduate level statistics course within the last 5 years. (Note: The course does not need to be taken before applying, but must be successfully completed prior to the start of the fall term.)
- Unencumbered Wisconsin RN license (by the program start)
- Certification as an advanced practice nurse (if applicable)
- Application essay (see School of Nursing website (https://nursing.wisc.edu/graduate-programs/dnp/#to-apply) for specific criteria)
- Curriculum vitae or resume
- CGFNS Certification (for international applicants only)

With program approval, applicants without an APN master's degree (i.e., nurse education) may apply prior coursework toward degree requirements.

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# NAMED OPTION REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| No | No | No | Yes | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 68 credits |
| Minimum Residence Credit Requirement | 32 credits |
| Minimum Graduate Coursework Requirement | 34 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | A student may not receive more than one grade below a B (or a U grade) in any 12 month period. |
| Assessments and Examinations | Students must complete a scholarly project, which represents the culmination of a student's doctoral education. This project is a paper of publishable quality. Students must deliver an oral presentation to faculty, students, and the community. |
| Language Requirements | No language requirements. |
| Graduate School Breadth Requirement | DNP students are not required to complete a doctoral minor or graduate/professional certificate. |

## REQUIRED COURSES

For students with a master's degree in nursing, a personalized program plan will be developed and some of the following courses may be satisfied with previous master's coursework.

| Code | Title | Credits |
|---|---|---|
| NURSING 601 | Advanced Health Assessment | 3 |
| NURSING 605 | Pharmacotherapeutics for Advanced Practice Nurses | 3 |
| NURSING 702 | Health Promotion and Disease Prevention in Diverse Communities | 3 |
| NURSING 703 | Health Care and Public Policy | 3 |
| NURSING 704 | Leadership in Advanced Practice Nursing I | 3 |
| NURSING 706 | Nursing Research | 3 |
| NURSING 708 | Ethics for Advanced Practice in Health Care | 2 |
| NURSING 722 | Advanced Practice Nursing Theory: Adults and Older Adults | 3 |
| NURSING 726 | Foundations for APN Clinical Practice I | 3 |
| NURSING 727 | Foundations for APN Clinical Practice II | 3 |
| NURSING 728 | Advanced Practice Clinical Application and Role Development I | 3 |
| NURSING 729 | Advanced Practice Clinical Application and Role Development II | 3 |
| NURSING 761 | Health Program Planning, Evaluation, and Quality Improvement | 3 |
| NURSING 764 | Nursing and Health Informatics | 3 |
| NURSING 772 | Leadership and Organizational Decision-Making in Health Care | 3 |
| NURSING 806 | Evaluation and Application of Evidence-Based Practice | 3 |
| NURSING 811 | Advanced Pathophysiology | 3 |
| NURSING 826 | Foundations for APN Clinical Practice III | 3 |
| NURSING 828 | Clinical Leadership III | 3 |
| NURSING 829 | Clinical Leadership IV | 3 |
| NURSING 906 | Scholarly Project [1] | 6 |
| Nursing Elective | | 3 |
| **Total Credits** | | **68** |

[1] Six total credits required; 10 credit maximum. Taken for two credits per term (other credit amounts allowed only via faculty approval).

## POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# NAMED OPTION-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program approval, students are allowed to transfer graduate coursework from other institutions. Graduate work should be less than five years old to be considered; additional justification and/or documentation are needed for work taken between five and ten years. Coursework

more than ten years old will not be considered unless students are board certified advanced practice nurses (APN) and have continuous practice as an APN.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

No undergraduate coursework will be allowed to transfer toward DNP requirements.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

With program approval, students are allowed to transfer no more than 9 credits of coursework numbered 300 or above taken as a University Special student. These credits are considered part of the total allowable credits available for a student to transfer. Coursework should be less than five years old to be considered; additional justification and/or documentation is needed for work taken between five and ten years. Coursework more than ten years old will not be considered.

## PROBATION

Students meeting any of the following conditions will be placed on Academic Probation and will receive written notice of their status:

1. Achieving less than a 3.0 GPA in a term (fall, spring, or summer).
   a. If a student is already on Academic Probation based on the prior term GPA and
      i. The term GPA for the next term of enrollment is below a 3.0, the student will be dropped from the DNP program.
      ii. The term GPA for the next term of enrollment is a 3.0 or higher, the student will be returned to good academic standing.
2. Earning a cumulative GPA less than a 3.0.
   a. A student has two (2) semesters to raise their cumulative GPA above 3.0 or the student will be dropped from the DNP program.
   b. Once the cumulative GPA returns to at least a 3.0, the student will be returned to good academic standing.
3. Earning one grade below a B or one Unsatisfactory (U) grade.
   a. A student must repeat a required nursing course if a grade below a B or a U is earned.
   b. The student will be eligible to retake the course at the next available offering; if the course is a prerequisite for another course, the student cannot progress into the subsequent course until a grade of B or higher is earned. The program's Leave of Absence policy may be triggered if the student does not have a fall or spring term enrollment.
   c. If the grade below a B is in a clinical course, the student must petition to be eligible to retake the clinical course and the timing of the subsequent enrollment will be based upon availability of clinical resources.
   d. A student cannot repeat more than one course and a course may not be repeated more than once.
      i. A dropped course and/or coursework for which a student enrolls and then withdraws from the term counts as a course enrollment. Therefore, if a student drops/withdraws from a course, their next enrollment in that course is considered a repeated enrollment. (A course transcripted with a DR/WD notation per the Office of the Registrar's enrollment deadline calendar applies to this policy.)
   e. A student will be returned to good academic standing once the course is repeated and a grade of at least a B (or Satisfactory) is earned.

A student placed on Academic Probation for any reason must meet with their respective DNP Population Lead and faculty advisor to devise a written action plan to be submitted to the DNP Program Director and the Associate Dean for Academic Affairs. (Note: If the Population Lead is also the faculty advisor, the student will meet with their Population Lead/advisor and a second Population Lead.)

## ADVISOR / COMMITTEE

Within the DNP Program, each student will have an assigned faculty advisor as well as an assigned academic advisor, which is the Graduate Advising Manager. Below are descriptions of these advising roles in addition to other faculty and staff that work to advise students. Descriptions of advising roles can be found on the Student Site (https://students.nursing.wisc.edu/graduate-advising/grad/).

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Post–BS: Students must complete the requirements within six years of admission. Upon the advisor's recommendation, the associate dean for academic programs may grant a one-year extension.

Post–MS: Students must complete the requirements within four years of admission to the program. Upon the advisor's recommendation, the associate dean for academic programs may grant a one-year extension.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)

- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

# STUDENT APPEALS, PETITIONS, AND GRIEVANCE PROCEDURES

## Section One: Appeals

Appeals are limited to requests to continue in the curriculum after being dropped from the program and/or course grade appeals.

### Drop Appeals

Any undergraduate or graduate student who feels they should not have been dropped from the program has the right to file an appeal. The appeals procedure is available for students to provide additional information regarding their circumstances which have contributed to their dropped status. The appeal procedure is described below. Throughout the appeal process, the student (hereby referred to as appellant) may be accompanied by a support person.

### Course Grade Appeals

A student who believes a grade received in a Nursing course was an error or not consistent with guidelines outlined in the syllabus or campus standards has the right to appeal the grade.

The student should first speak with the course faculty member in an effort to resolve the issue informally. This must be done within 10 business days of the grade posted to the students record. During this informal process both student and faculty may consult with the Associate or Assistant Deans for Academic Affairs to seek resolution of the issue.

If the student remains dissatisfied with the grade, the student has the option to initiate the formal appeal procedure. To do this, the student (hereby referred to as appellant) must submit the appeal, as outlined below.

### Filing Appeal

1. The student must submit a petition for special consideration (https://uwmadison.co1.qualtrics.com/jfe/form/SV_07Y6YZUOYXJnQ2O/) form to the Assistant Dean for Academic Affairs within 10 business days of notification of academic status or grade posting. The appeal must include:
   a. Precise grounds on which the appeal is based.
   b. Circumstances associated with the need to appeal.
   c. Arguments supporting the appeal.
   d. Description of proposed remedial actions to be taken to improve the student's academic performance.
   e. The appellant may also submit letters of support from persons knowledgeable about the appellant's current and/or past academic work and/or other matters related to the appellant's academic performance. Any such letters must be submitted to the Assistant Dean via email by the same deadline.
2. Within 15 business days after receiving the appeal, the Assistant Dean for Academic Affairs shall arrange for a committee meeting. The committee may request additional information from the appellant and/or request them to appear before the committee. The appellant may bring a support person to the appeal meeting and must notify the Assistant Dean for Academic affairs at least three business days prior to the meeting. The appellant's chosen support person is limited to providing advice and support to the appellant.
3. Within 60 calendar days after the committee receives the appeal from the Assistant Dean for Academic Affairs, the committee shall send a written report of the committee's recommendations to the Assistant Dean for Academic Affairs.
4. The Assistant Dean for Academic Affairs will consider the committee's recommendation and issue a decision on the appeal. The decision will be communicated by email to the student within 10 business days after the receipt of the committee's recommendation.
5. If the appeal is granted, the Assistant Dean for Academic Affairs will discuss with the appellant any stipulations (binding) and recommendations (non-binding) for continuation in the program.
6. If a student chooses to appeal the decision, the appeal will be directed to the Associate Dean for Academic Affairs. The student must submit a written appeal, by email, to the Associate Dean within 10 business days upon being sent the decision from the Assistant Dean for Academic Affairs. The written document must include specific justifications regarding the grounds of the appeal, which are limited to:
   a. School policies were incorrectly applied;
   b. Decision is contrary to state or federal law;
   c. Proper appeal procedures were not followed; or
   d. Unfounded, arbitrary, or irrelevant assumptions of fact regarding the appellant's performance were made by the Appeals Committee. Appellant must also identify the specific aspects of the decision that they believe meet the criteria cited as a basis for appeal.

The Assistant Dean for Academic Affairs will provide the Associate Dean for Academic Affairs with a copy of the initial grievance, the committee's recommendation, and the Assistant Dean for Academic Affairs's decision. No new information relevant to the grievance may be introduced to or considered by the Associate Dean for Academic Affairs. The Associate Dean for Academic Affairs shall notify the student and the committee of the decision in writing within 30 business days. The Associate Dean's decision is final.

## Section Two: Petitions

If a student in the School of Nursing wishes to request an exception to a School of Nursing academic policy or regulation they should first consult their academic advisor. Then, the student must formally submit their request using the Petition for Special Consideration (https://uwmadison.co1.qualtrics.com/jfe/form/SV_07Y6YZUOYXJnQ2O/) form. Exception requests could be related to academics (i.e. dropping a course or withdrawing after the deadline etc), clinicals/compliance (i.e. waiver for specific compliance requirement), or admission to one of the School of Nursing's academic programs.

Exceptions to established policies, regulations, and/or program requirements should be rare and will be considered on an individual case by case basis. They will be reviewed by the School of Nursing's Academic Affairs office.

## Section Three: Grievances

The following School of Nursing Student Grievance Policy and associated procedures are designed for use in response to individual student grievances regarding faculty or staff in the School of Nursing.

Any individual student who feels they have been treated unfairly by a School of Nursing faculty or staff member has the right to file a grievance

and receive a timely response addressing their concerns. Any student, undergraduate or graduate, may use these grievance procedures, except student employees whose complaints are covered under other campus policies. The grievance procedure is available to resolve student concerns regarding inequitable treatment that have not been satisfactorily resolved through the informal resolution process or where the student believes that informal resolution would not be productive. The grievance procedure is described below. Throughout the grievance process, the student may be accompanied by a support person. The use of this grievance procedure shall not prevent the student from seeking redress through another administrative or legal process.

For grievances regarding discrimination based on protected bases (i.e., race, color, national origin, sex, disability, age, etc.), contact the Office of Compliance (https://compliance.wisc.edu/eo-complaint/).

For grievances or concerns regarding sexual harassment or sexual violence (including sexual assault, dating/domestic violence, stalking and sexual exploitation), contact the Sexual Misconduct Resource and Response Program within the Office of Compliance (https://compliance.wisc.edu/titleix/).

For grievances that involve the behavior of a student, contact the Office of Student Conduct and Community Standards in the Dean of Students Office at https://conduct.students.wisc.edu/.

For grievances about, or directed at, faculty or staff in the School of Nursing, students should follow these steps:

### Informal Resolution

Any student in the School of Nursing who believes they have been treated inequitably is encouraged to resolve the matter informally. The student should first talk with the person or group at whom the grievance is directed in an attempt to resolve the issue informally. The student may contact the Associate Dean for Academic Affairs for assistance in resolving the matter informally. If students are unable to resolve concerns directly or without additional support, please see step two.

### Formal Grievance Procedure

1. Any student in the School of Nursing who has attempted to informally resolve a grievance but has been unsuccessful, may submit a formal grievance to the Associate Dean for Academic Affairs.
2. The student must submit a written grievance by email to the Associate Dean for Academic Affairs within 20 business days of the alleged unfair treatment. To the fullest extent possible, a formal written grievance needs to contain a clear and concise statement of the issue(s) involved as well as the relief sought.
3. Within 30 business days after receiving the grievance, the Associate Dean for Academic Affairs shall arrange for a committee meeting. The committee may request a written response from the person or group at whom the grievance is directed, may ask for additional information from any or all parties involved, may request that the parties involved appear before the committee, and/or may take other steps in attempting to resolve the grievance.
4. Within 60 calendar days after the committee receives the grievance from the Associate Dean for Academic Affairs, the committee shall send a written report of the committee's recommendations to the Associate Dean for Academic Affairs.
5. The Associate Dean for Academic Affairs will consider the committee's recommendation and issue a decision on the grievance. The decision will be communicated by email to the student within 10 business days after the receipt of the committee's recommendation.
6. If a student chooses to appeal the decision, the appeal will be directed to the Dean of the School of Nursing. The student must submit a written appeal, by email, to the Dean within 10 business days upon being sent the decision from the Associate Dean for Academic Affairs. The written document must include specific justifications regarding the grounds of the appeal. The Associate Dean for Academic Affairs will provide the Dean with a copy of the initial grievance, the committee's recommendation, and the Associate Dean for Academic Affairs's decision. No new information relevant to the grievance may be introduced to or considered by the Dean. The Dean shall notify the student and the committee of the decision in writing within 30 business days. The Dean's decision is final.

## OTHER

n/a

# NURSING PRACTICE: ADULT/GERONTOLOGY PRIMARY CARE NURSE PRACTITIONER, DNP

This is a named option with the Nursing Practice, DNP (p. 1521).

- The Adult Gerontology Primary Care Nurse Practitioner DNP track focuses on holistic patient centered care for individuals from age 13 through the lifespan. This includes training in health promotion, disease prevention, and the treatment of acute and chronic conditions.
- Clinical Placement Coordinators organize clinical experience opportunities at a variety of settings in internal medicine and specialty practice such as in academic healthcare systems, national healthcare systems, college health clinics, correctional facilities, long term care, community health, urgent care, and homecare.
- Adult Gerontology Primary Care Nurse Practitioner students are also presented with the opportunity to complete the Global Health Certificate Program and/or the Nurse Educator Certificate Program which complements the curriculum and sets graduates up to succeed in a teaching career.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 1 |
| Spring Deadline | This program does not admit in the spring. |
| Summer Deadline | This program does not admit in the summer. |

| | |
|---|---|
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/) and meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/#english-proficiency) and the Doctor of Nursing Practice's higher requirements:<br>• TOEFL (iBT): 100<br>• IELTS: 8<br>• Duolingo English Test: 130 |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

## ADDITIONAL ADMISSION REQUIREMENTS:

- Graduation from an accredited baccalaureate program in nursing or master's degree from an accredited nursing program (if applicable)
- One year of professional nursing experience
- Minimum GPA requirements:
  - 3.0 in the last 60 baccalaureate credits and/or
  - 3.5 in master's degree credits (if completed master's degree)
- Grade of B or better in an approved graduate level statistics course within the last 5 years. (Note: The course does not need to be taken before applying, but must be successfully completed prior to the start of the fall term.)
- Unencumbered Wisconsin RN license (by the program start)
- Certification as an advanced practice nurse (if applicable)
- Application essay (see School of Nursing website (https://nursing.wisc.edu/graduate-programs/dnp/#to-apply) for specific criteria)
- Curriculum vitae or resume
- CGFNS Certification (for international applicants only)

With program approval, applicants without an APN master's degree (i.e., nurse education) may apply prior coursework toward degree requirements,

# REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# NAMED OPTION REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| No | No | No | Yes | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 68 credits |
| Minimum Residence Credit Requirement | 32 credits |
| Minimum Graduate Coursework Requirement | 34 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | A student may not receive more than one grade below a B (or a U grade) in any 12 month period. |
| Assessments and Examinations | Students must complete a scholarly project, which represents the culmination of a student's doctoral education. This project is a paper of publishable quality. Students must deliver an oral presentation to faculty, students, and the community. |
| Language Requirements | No language requirements. |
| Graduate School Breadth Requirement | DNP students are not required to complete a doctoral minor or graduate/professional certificate. |

## REQUIRED COURSES

For students with a master's degree in nursing, a personalized program plan will be developed and some of the following courses may be satisfied with previous master's coursework.

| Code | Title | Credits |
|---|---|---|
| NURSING 601 | Advanced Health Assessment | 3 |
| NURSING 605 | Pharmacotherapeutics for Advanced Practice Nurses | 3 |

| | | |
|---|---|---|
| NURSING 702 | Health Promotion and Disease Prevention in Diverse Communities | 3 |
| NURSING 703 | Health Care and Public Policy | 3 |
| NURSING 704 | Leadership in Advanced Practice Nursing I | 3 |
| NURSING 706 | Nursing Research | 3 |
| NURSING 708 | Ethics for Advanced Practice in Health Care | 2 |
| NURSING 722 | Advanced Practice Nursing Theory: Adults and Older Adults | 3 |
| NURSING 726 | Foundations for APN Clinical Practice I | 3 |
| NURSING 727 | Foundations for APN Clinical Practice II | 3 |
| NURSING 728 | Advanced Practice Clinical Application and Role Development I | 3 |
| NURSING 729 | Advanced Practice Clinical Application and Role Development II | 3 |
| NURSING 761 | Health Program Planning, Evaluation, and Quality Improvement | 3 |
| NURSING 764 | Nursing and Health Informatics | 3 |
| NURSING 772 | Leadership and Organizational Decision-Making in Health Care | 3 |
| NURSING 806 | Evaluation and Application of Evidence-Based Practice | 3 |
| NURSING 811 | Advanced Pathophysiology | 3 |
| NURSING 826 | Foundations for APN Clinical Practice III | 3 |
| NURSING 828 | Clinical Leadership III | 3 |
| NURSING 829 | Clinical Leadership IV | 3 |
| NURSING 906 | Scholarly Project [1] | 6 |
| Elective | | 3 |
| **Total Credits** | | **68** |

[1] Six total credits required; 10 credit maximum. Taken for two credits per term (other credit amounts allowed only via faculty approval).

## Three-Year Program Plan

**First Year**

| Fall | Credits | Spring | Credits | Summer | Credits |
|---|---|---|---|---|---|
| NURSING 704 | | 3 NURSING 601 | | 3 NURSING 708 | 2 |

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# NAMED OPTION-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program approval, students are allowed to transfer graduate coursework from other institutions. Graduate work should be less than five years old to be considered; additional justification and/or documentation are needed for work taken between five and ten years. Coursework more than ten years old will not be considered unless students are board certified advanced practice nurses (APN) and have continuous practice as an APN.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

No undergraduate coursework will be allowed to transfer toward DNP requirements.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

With program approval, students are allowed to transfer no more than 9 credits of coursework numbered 300 or above taken as a University Special student. These credits are considered part of the total allowable credits available for a student to transfer. Coursework should be less than five years old to be considered; additional justification and/or documentation is needed for work taken between five and ten years. Coursework more than ten years old will not be considered.

## PROBATION

Students meeting any of the following conditions will be placed on Academic Probation and will receive written notice of their status:

1. Achieving less than a 3.0 GPA in a term (fall, spring, or summer).
   a. If a student is already on Academic Probation based on the prior term GPA and
      i. The term GPA for the next term of enrollment is below a 3.0, the student will be dropped from the DNP program.
      ii. The term GPA for the next term of enrollment is a 3.0 or higher, the student will be returned to good academic standing.
2. Earning a cumulative GPA less than a 3.0.
   a. A student has two (2) semesters to raise their cumulative GPA above 3.0 or the student will be dropped from the DNP program.
   b. Once the cumulative GPA returns to at least a 3.0, the student will be returned to good academic standing.
3. Earning one grade below a B or one Unsatisfactory (U) grade.
   a. A student must repeat a required nursing course if a grade below a B or a U is earned.
   b. The student will be eligible to retake the course at the next available offering; if the course is a prerequisite for another course, the student cannot progress into the subsequent course until a grade of B or higher is earned. The program's Leave of Absence policy may be triggered if the student does not have a fall or spring term enrollment.
   c. If the grade below a B is in a clinical course, the student must petition to be eligible to retake the clinical course and the timing of the subsequent enrollment will be based upon availability of clinical resources.
   d. A student cannot repeat more than one course and a course may not be repeated more than once.
      i. A dropped course and/or coursework for which a student enrolls and then withdraws from the term counts as a course enrollment. Therefore, if a student drops/withdraws from a course, their next enrollment in that course is considered a repeated enrollment. (A course transcripted with a DR/WD notation per the Office of the Registrar's enrollment deadline calendar applies to this policy.)
   e. A student will be returned to good academic standing once the course is repeated and a grade of at least a B (or Satisfactory) is earned.

A student placed on Academic Probation for any reason must meet with their respective DNP Population Lead and faculty advisor to devise a written action plan to be submitted to the DNP Program Director and the Associate Dean for Academic Affairs. (Note: If the Population Lead is also the faculty advisor, the student will meet with their Population Lead/advisor and a second Population Lead.)

## ADVISOR / COMMITTEE

Within the DNP Program, each student will have an assigned faculty advisor as well as an assigned academic advisor, which is the Graduate Advising Manager. Below are descriptions of these advising roles in addition to other faculty and staff that work to advise students. Descriptions of advising roles can be found on the Student Site (https://students.nursing.wisc.edu/graduate-advising/grad/).

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Post–BS: Students must complete the requirements within six years of admission. Upon the advisor's recommendation, the associate dean for academic programs may grant a one-year extension.

Post–MS: Students must complete the requirements within four years of admission to the program. Upon the advisor's recommendation, the associate dean for academic programs may grant a one-year extension.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## STUDENT APPEALS, PETITIONS, AND GRIEVANCE PROCEDURES

### Section One: Appeals

Appeals are limited to requests to continue in the curriculum after being dropped from the program and/or course grade appeals.

#### Drop Appeals

Any undergraduate or graduate student who feels they should not have been dropped from the program has the right to file an appeal. The appeals procedure is available for students to provide additional information regarding their circumstances which have contributed to their dropped status. The appeal procedure is described below. Throughout the appeal process, the student (hereby referred to as appellant) may be accompanied by a support person.

#### Course Grade Appeals

A student who believes a grade received in a Nursing course was an error or not consistent with guidelines outlined in the syllabus or campus standards has the right to appeal the grade.

The student should first speak with the course faculty member in an effort to resolve the issue informally. This must be done within 10 business days of the grade posted to the students record. During this informal process both student and faculty may consult with the Associate or Assistant Deans for Academic Affairs to seek resolution of the issue.

If the student remains dissatisfied with the grade, the student has the option to initiate the formal appeal procedure. To do this, the student (hereby referred to as appellant) must submit the appeal, as outlined below.

#### Filing Appeal

1. The student must submit a petition for special consideration (https://uwmadison.co1.qualtrics.com/jfe/form/SV_07Y6YZUOYXJnQ2O/) form to the Assistant Dean for Academic Affairs within 10 business days of notification of academic status or grade posting. The appeal must include:
   a. Precise grounds on which the appeal is based.
   b. Circumstances associated with the need to appeal.
   c. Arguments supporting the appeal.
   d. Description of proposed remedial actions to be taken to improve the student's academic performance.
   e. The appellant may also submit letters of support from persons knowledgeable about the appellant's current and/or past academic work and/or other matters related to the appellant's academic performance. Any such letters must be submitted to the Assistant Dean via email by the same deadline.
2. Within 15 business days after receiving the appeal, the Assistant Dean for Academic Affairs shall arrange for a committee meeting. The committee may request additional information from the appellant and/or request them to appear before the committee. The appellant may bring a support person to the appeal meeting and must notify the Assistant Dean for Academic affairs at least three business days prior to the meeting. The appellant's chosen support person is limited to providing advice and support to the appellant.
3. Within 60 calendar days after the committee receives the appeal from the Assistant Dean for Academic Affairs, the committee shall send a written report of the committee's recommendations to the Assistant Dean for Academic Affairs.
4. The Assistant Dean for Academic Affairs will consider the committee's recommendation and issue a decision on the appeal. The decision will

be communicated by email to the student within 10 business days after the receipt of the committee's recommendation.

5. If the appeal is granted, the Assistant Dean for Academic Affairs will discuss with the appellant any stipulations (binding) and recommendations (non-binding) for continuation in the program.
6. If a student chooses to appeal the decision, the appeal will be directed to the Associate Dean for Academic Affairs. The student must submit a written appeal, by email, to the Associate Dean within 10 business days upon being sent the decision from the Assistant Dean for Academic Affairs. The written document must include specific justifications regarding the grounds of the appeal, which are limited to:
   a. School policies were incorrectly applied;
   b. Decision is contrary to state or federal law;
   c. Proper appeal procedures were not followed; or
   d. Unfounded, arbitrary, or irrelevant assumptions of fact regarding the appellant's performance were made by the Appeals Committee. Appellant must also identify the specific aspects of the decision that they believe meet the criteria cited as a basis for appeal.

The Assistant Dean for Academic Affairs will provide the Associate Dean for Academic Affairs with a copy of the initial grievance, the committee's recommendation, and the Assistant Dean for Academic Affairs's decision. No new information relevant to the grievance may be introduced to or considered by the Associate Dean for Academic Affairs. The Associate Dean for Academic Affairs shall notify the student and the committee of the decision in writing within 30 business days. The Associate Dean's decision is final.

## Section Two: Petitions

If a student in the School of Nursing wishes to request an exception to a School of Nursing academic policy or regulation they should first consult their academic advisor. Then, the student must formally submit their request using the Petition for Special Consideration (https://uwmadison.co1.qualtrics.com/jfe/form/SV_07Y6YZUOYXJnQ2O/) form. Exception requests could be related to academics (i.e. dropping a course or withdrawing after the deadline etc), clinicals/compliance (i.e. waiver for specific compliance requirement), or admission to one of the School of Nursing's academic programs.

Exceptions to established policies, regulations, and/or program requirements should be rare and will be considered on an individual case by case basis. They will be reviewed by the School of Nursing's Academic Affairs office.

## Section Three: Grievances

The following School of Nursing Student Grievance Policy and associated procedures are designed for use in response to individual student grievances regarding faculty or staff in the School of Nursing.

Any individual student who feels they have been treated unfairly by a School of Nursing faculty or staff member has the right to file a grievance and receive a timely response addressing their concerns. Any student, undergraduate or graduate, may use these grievance procedures, except student employees whose complaints are covered under other campus policies. The grievance procedure is available to resolve student concerns regarding inequitable treatment that have not been satisfactorily resolved through the informal resolution process or where the student believes that informal resolution would not be productive. The grievance procedure is described below. Throughout the grievance process, the student may be accompanied by a support person. The use of this grievance procedure shall not prevent the student from seeking redress through another administrative or legal process.

For grievances regarding discrimination based on protected bases (i.e., race, color, national origin, sex, disability, age, etc.), contact the Office of Compliance (https://compliance.wisc.edu/eo-complaint/).

For grievances or concerns regarding sexual harassment or sexual violence (including sexual assault, dating/domestic violence, stalking and sexual exploitation), contact the Sexual Misconduct Resource and Response Program within the Office of Compliance (https://compliance.wisc.edu/titleix/).

For grievances that involve the behavior of a student, contact the Office of Student Conduct and Community Standards in the Dean of Students Office at https://conduct.students.wisc.edu/.

For grievances about, or directed at, faculty or staff in the School of Nursing, students should follow these steps:

### Informal Resolution

Any student in the School of Nursing who believes they have been treated inequitably is encouraged to resolve the matter informally. The student should first talk with the person or group at whom the grievance is directed in an attempt to resolve the issue informally. The student may contact the Associate Dean for Academic Affairs for assistance in resolving the matter informally. If students are unable to resolve concerns directly or without additional support, please see step two.

### Formal Grievance Procedure

1. Any student in the School of Nursing who has attempted to informally resolve a grievance but has been unsuccessful, may submit a formal grievance to the Associate Dean for Academic Affairs.
2. The student must submit a written grievance by email to the Associate Dean for Academic Affairs within 20 business days of the alleged unfair treatment. To the fullest extent possible, a formal written grievance needs to contain a clear and concise statement of the issue(s) involved as well as the relief sought.
3. Within 30 business days after receiving the grievance, the Associate Dean for Academic Affairs shall arrange for a committee meeting. The committee may request a written response from the person or group at whom the grievance is directed, may ask for additional information from any or all parties involved, may request that the parties involved appear before the committee, and/or may take other steps in attempting to resolve the grievance.
4. Within 60 calendar days after the committee receives the grievance from the Associate Dean for Academic Affairs, the committee shall send a written report of the committee's recommendations to the Associate Dean for Academic Affairs.
5. The Associate Dean for Academic Affairs will consider the committee's recommendation and issue a decision on the grievance. The decision will be communicated by email to the student within 10 business days after the receipt of the committee's recommendation.
6. If a student chooses to appeal the decision, the appeal will be directed to the Dean of the School of Nursing. The student must submit a written appeal, by email, to the Dean within 10 business days upon being sent the decision from the Associate Dean for Academic Affairs. The written document must include specific justifications regarding the grounds of the appeal. The Associate Dean for Academic Affairs will provide the Dean with a copy of the initial grievance, the committee's recommendation, and the Associate Dean for Academic Affairs's decision. No new information relevant to the grievance may be introduced to or considered by the Dean. The Dean shall notify

the student and the committee of the decision in writing within 30 business days. The Dean's decision is final.

### OTHER

n/a

# NURSING PRACTICE: PEDIATRIC PRIMARY CARE NURSE PRACTITIONER

This is a named option with the Nursing Practice, DNP (p. 1521).

- The Pediatric Primary Care DNP program focuses on patient care from birth to 21 years old in settings like primary care, specialty care, and school-based health care.
- Clinical Placement Coordinators organize clinical experience opportunities at multiple locations across the state, including urban and rural primary care, specialty care and Wisconsin Children's hospitals.
- As part of the program, Pediatric Primary Care students receive the opportunity to apply for the UW–Madison LEND (Leadership Education in Neurodevelopmental Disabilities and Related Disabilities) Fellowship.
- Most Pediatric Primary Care students also graduate with at least one published journal article.
- Pediatric Primary Care students are also presented with the opportunity to complete the Global Health Certificate Program and/or the Nurse Educator Certificate Program which complements the curriculum and sets graduates up to succeed in a teaching career.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 1 |
| Spring Deadline | This program does not admit in the spring. |
| Summer Deadline | This program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/) and the Doctor of Nursing Practice's higher requirements:<br>• TOEFL (iBT): 100<br>• IELTS: 8<br>• Duolingo English Test: 130 |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

### ADDITIONAL ADMISSION REQUIREMENTS:

- Graduation from an accredited baccalaureate program in nursing or master's degree from an accredited nursing program (if applicable)
- One year of professional nursing experience
- Minimum GPA requirements:
  - 3.0 in the last 60 baccalaureate credits and/or
  - 3.5 in master's degree credits (if completed master's degree)
- Grade of B or better in an approved graduate level statistics course within the last 5 years. (Note: The course does not need to be taken before applying, but must be successfully completed prior to the start of the fall term.)
- Unencumbered Wisconsin RN license (by the program start)
- Certification as an advanced practice nurse (if applicable)
- Application essay (see School of Nursing website (https://nursing.wisc.edu/graduate-programs/dnp/#to-apply) for specific criteria)
- Curriculum vitae or resume
- CGFNS Certification (for international applicants only)

With program approval, applicants without an APN master's degree (i.e., nurse education) may apply prior coursework toward degree requirements.

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# NAMED OPTION REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| No | No | No | Yes | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business

schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 68 credits |
| Minimum Residence Credit Requirement | 32 credits |
| Minimum Graduate Coursework Requirement | 34 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | A student may not receive more than one grade below a B (or a U grade) in any 12 month period. |
| Assessments and Examinations | Students must complete a scholarly project, which represents the culmination of a student's doctoral education. This project is a paper of publishable quality. Students must deliver an oral presentation to faculty, students, and the community. |
| Language Requirements | No language requirements. |
| Graduate School Breadth Requirement | DNP students are not required to complete a doctoral minor or graduate/professional certificate. |

## REQUIRED COURSES

For students with a master's degree in nursing, a personalized program plan will be developed and some of the following courses may be satisfied with previous master's coursework.

| Code | Title | Credits |
|---|---|---|
| NURSING 601 | Advanced Health Assessment | 3 |
| NURSING 605 | Pharmacotherapeutics for Advanced Practice Nurses | 3 |
| NURSING 702 | Health Promotion and Disease Prevention in Diverse Communities | 3 |
| NURSING 703 | Health Care and Public Policy | 3 |
| NURSING 704 | Leadership in Advanced Practice Nursing I | 3 |
| NURSING 706 | Nursing Research | 3 |
| NURSING 708 | Ethics for Advanced Practice in Health Care | 2 |
| NURSING 726 | Foundations for APN Clinical Practice I | 3 |
| NURSING 727 | Foundations for APN Clinical Practice II | 3 |
| NURSING 728 | Advanced Practice Clinical Application and Role Development I | 3 |
| NURSING 729 | Advanced Practice Clinical Application and Role Development II | 3 |
| NURSING 741 | Advanced Practice Nursing Theory: Family Process & Child Development | 3 |
| NURSING 761 | Health Program Planning, Evaluation, and Quality Improvement | 3 |
| NURSING 764 | Nursing and Health Informatics | 3 |
| NURSING 772 | Leadership and Organizational Decision-Making in Health Care | 3 |
| NURSING 806 | Evaluation and Application of Evidence-Based Practice | 3 |
| NURSING 811 | Advanced Pathophysiology | 3 |
| NURSING 826 | Foundations for APN Clinical Practice III | 3 |
| NURSING 828 | Clinical Leadership III | 3 |
| NURSING 829 | Clinical Leadership IV | 3 |
| NURSING 906 | Scholarly Project [1] | 6 |
| Elective | | 3 |
| **Total Credits** | | **68** |

[1] Six total credits required; 10 credit maximum. Taken for two credits per term (other credit amounts allowed only via faculty approval).

### Three-Year Program Plan

**First Year**

| Fall | Credits | Spring | Credits | Summer | Credits |
|---|---|---|---|---|---|
| NURSING 704 | 3 | NURSING 601 | 3 | NURSING 708 | 2 |
| NURSING 706 | 3 | NURSING 605 | 3 | NURSING 764 | 3 |
| NURSING 741 | 3 | NURSING 703 | 3 | | |
| NURSING 811 | 3 | NURSING 806 | 3 | | |
| | **12** | | **12** | | **5** |

**Second Year**

| Fall | Credits | Spring | Credits | Summer | Credits |
|---|---|---|---|---|---|
| NURSING 702 | 3 | NURSING 727 | 3 | NURSING 772 | 3 |

## POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# NAMED OPTION-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program approval, students are allowed to transfer graduate coursework from other institutions. Graduate work should be less than five years old to be considered; additional justification and/or documentation are needed for work taken between five and ten years. Coursework more than ten years old will not be considered unless students are board certified advanced practice nurses (APN) and have continuous practice as an APN.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

No undergraduate coursework will be allowed to transfer toward DNP requirements.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

With program approval, students are allowed to transfer no more than 9 credits of coursework numbered 300 or above taken as a University Special student. These credits are considered part of the total allowable credits available for a student to transfer. Coursework should be less than five years old to be considered; additional justification and/or

documentation is needed for work taken between five and ten years. Coursework more than ten years old will not be considered.

## PROBATION

Students meeting any of the following conditions will be placed on Academic Probation and will receive written notice of their status:

1. Achieving less than a 3.0 GPA in a term (fall, spring, or summer).
   a. If a student is already on Academic Probation based on the prior term GPA and
      i. The term GPA for the next term of enrollment is below a 3.0, the student will be dropped from the DNP program.
      ii. The term GPA for the next term of enrollment is a 3.0 or higher, the student will be returned to good academic standing.
2. Earning a cumulative GPA less than a 3.0.
   a. A student has two (2) semesters to raise their cumulative GPA above 3.0 or the student will be dropped from the DNP program.
   b. Once the cumulative GPA returns to at least a 3.0, the student will be returned to good academic standing.
3. Earning one grade below a B or one Unsatisfactory (U) grade.
   a. A student must repeat a required nursing course if a grade below a B or a U is earned.
   b. The student will be eligible to retake the course at the next available offering; if the course is a prerequisite for another course, the student cannot progress into the subsequent course until a grade of B or higher is earned. The program's Leave of Absence policy may be triggered if the student does not have a fall or spring term enrollment.
   c. If the grade below a B is in a clinical course, the student must petition to be eligible to retake the clinical course and the timing of the subsequent enrollment will be based upon availability of clinical resources.
   d. A student cannot repeat more than one course and a course may not be repeated more than once.
      i. A dropped course and/or coursework for which a student enrolls and then withdraws from the term counts as a course enrollment. Therefore, if a student drops/withdraws from a course, their next enrollment in that course is considered a repeated enrollment. (A course transcripted with a DR/WD notation per the Office of the Registrar's enrollment deadline calendar applies to this policy.)
   e. A student will be returned to good academic standing once the course is repeated and a grade of at least a B (or Satisfactory) is earned.

A student placed on Academic Probation for any reason must meet with their respective DNP Population Lead and faculty advisor to devise a written action plan to be submitted to the DNP Program Director and the Associate Dean for Academic Affairs. (Note: If the Population Lead is also the faculty advisor, the student will meet with their Population Lead/advisor and a second Population Lead.)

## ADVISOR / COMMITTEE

Within the DNP Program, each student will have an assigned faculty advisor as well as an assigned academic advisor, which is the Graduate Advising Manager. Below are descriptions of these advising roles in addition to other faculty and staff that work to advise students. Descriptions of advising roles can be found on the Student Site (https://students.nursing.wisc.edu/graduate-advising/grad/).

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Post–BS: Students must complete the requirements within six years of admission. Upon the advisor's recommendation, the associate dean for academic programs may grant a one-year extension.

Post–MS: Students must complete the requirements within four years of admission to the program. Upon the advisor's recommendation, the associate dean for academic programs may grant a one-year extension.

## GRIEVANCES AND APPEALS

- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## STUDENT APPEALS, PETITIONS, AND GRIEVANCE PROCEDURES

### Section One: Appeals

Appeals are limited to requests to continue in the curriculum after being dropped from the program and/or course grade appeals.

#### Drop Appeals

Any undergraduate or graduate student who feels they should not have been dropped from the program has the right to file an appeal. The appeals procedure is available for students to provide additional information regarding their circumstances which have contributed to their dropped status. The appeal procedure is described below. Throughout

the appeal process, the student (hereby referred to as appellant) may be accompanied by a support person.

### Course Grade Appeals

A student who believes a grade received in a Nursing course was an error or not consistent with guidelines outlined in the syllabus or campus standards has the right to appeal the grade.

The student should first speak with the course faculty member in an effort to resolve the issue informally. This must be done within 10 business days of the grade posted to the students record. During this informal process both student and faculty may consult with the Associate or Assistant Deans for Academic Affairs to seek resolution of the issue.

If the student remains dissatisfied with the grade, the student has the option to initiate the formal appeal procedure. To do this, the student (hereby referred to as appellant) must submit the appeal, as outlined below.

### Filing Appeal

1. The student must submit a petition for special consideration (https://uwmadison.co1.qualtrics.com/jfe/form/SV_07Y6YZUOYXJnQ2O/) form to the Assistant Dean for Academic Affairs within 10 business days of notification of academic status or grade posting. The appeal must include:
    a. Precise grounds on which the appeal is based.
    b. Circumstances associated with the need to appeal.
    c. Arguments supporting the appeal.
    d. Description of proposed remedial actions to be taken to improve the student's academic performance.
    e. The appellant may also submit letters of support from persons knowledgeable about the appellant's current and/or past academic work and/or other matters related to the appellant's academic performance. Any such letters must be submitted to the Assistant Dean via email by the same deadline.
2. Within 15 business days after receiving the appeal, the Assistant Dean for Academic Affairs shall arrange for a committee meeting. The committee may request additional information from the appellant and/or request them to appear before the committee. The appellant may bring a support person to the appeal meeting and must notify the Assistant Dean for Academic affairs at least three business days prior to the meeting. The appellant's chosen support person is limited to providing advice and support to the appellant.
3. Within 60 calendar days after the committee receives the appeal from the Assistant Dean for Academic Affairs, the committee shall send a written report of the committee's recommendations to the Assistant Dean for Academic Affairs.
4. The Assistant Dean for Academic Affairs will consider the committee's recommendation and issue a decision on the appeal. The decision will be communicated by email to the student within 10 business days after the receipt of the committee's recommendation.
5. If the appeal is granted, the Assistant Dean for Academic Affairs will discuss with the appellant any stipulations (binding) and recommendations (non-binding) for continuation in the program.
6. If a student chooses to appeal the decision, the appeal will be directed to the Associate Dean for Academic Affairs. The student must submit a written appeal, by email, to the Associate Dean within 10 business days upon being sent the decision from the Assistant Dean for Academic Affairs. The written document must include specific justifications regarding the grounds of the appeal, which are limited to:
    a. School policies were incorrectly applied;
    b. Decision is contrary to state or federal law;
    c. Proper appeal procedures were not followed; or
    d. Unfounded, arbitrary, or irrelevant assumptions of fact regarding the appellant's performance were made by the Appeals Committee. Appellant must also identify the specific aspects of the decision that they believe meet the criteria cited as a basis for appeal.

The Assistant Dean for Academic Affairs will provide the Associate Dean for Academic Affairs with a copy of the initial grievance, the committee's recommendation, and the Assistant Dean for Academic Affairs's decision. No new information relevant to the grievance may be introduced to or considered by the Associate Dean for Academic Affairs. The Associate Dean for Academic Affairs shall notify the student and the committee of the decision in writing within 30 business days. The Associate Dean's decision is final.

## Section Two: Petitions

If a student in the School of Nursing wishes to request an exception to a School of Nursing academic policy or regulation they should first consult their academic advisor. Then, the student must formally submit their request using the Petition for Special Consideration (https://uwmadison.co1.qualtrics.com/jfe/form/SV_07Y6YZUOYXJnQ2O/) form. Exception requests could be related to academics (i.e. dropping a course or withdrawing after the deadline etc), clinicals/compliance (i.e. waiver for specific compliance requirement), or admission to one of the School of Nursing's academic programs.

Exceptions to established policies, regulations, and/or program requirements should be rare and will be considered on an individual case by case basis. They will be reviewed by the School of Nursing's Academic Affairs office.

## Section Three: Grievances

The following School of Nursing Student Grievance Policy and associated procedures are designed for use in response to individual student grievances regarding faculty or staff in the School of Nursing.

Any individual student who feels they have been treated unfairly by a School of Nursing faculty or staff member has the right to file a grievance and receive a timely response addressing their concerns. Any student, undergraduate or graduate, may use these grievance procedures, except student employees whose complaints are covered under other campus policies. The grievance procedure is available to resolve student concerns regarding inequitable treatment that have not been satisfactorily resolved through the informal resolution process or where the student believes that informal resolution would not be productive. The grievance procedure is described below. Throughout the grievance process, the student may be accompanied by a support person. The use of this grievance procedure shall not prevent the student from seeking redress through another administrative or legal process.

For grievances regarding discrimination based on protected bases (i.e., race, color, national origin, sex, disability, age, etc.), contact the Office of Compliance (https://compliance.wisc.edu/eo-complaint/).

For grievances or concerns regarding sexual harassment or sexual violence (including sexual assault, dating/domestic violence, stalking and sexual exploitation), contact the Sexual Misconduct Resource and Response Program within the Office of Compliance (https://compliance.wisc.edu/titleix/).

For grievances that involve the behavior of a student, contact the Office of Student Conduct and Community Standards in the Dean of Students Office at https://conduct.students.wisc.edu/.

For grievances about, or directed at, faculty or staff in the School of Nursing, students should follow these steps:

### Informal Resolution

Any student in the School of Nursing who believes they have been treated inequitably is encouraged to resolve the matter informally. The student should first talk with the person or group at whom the grievance is directed in an attempt to resolve the issue informally. The student may contact the Associate Dean for Academic Affairs for assistance in resolving the matter informally. If students are unable to resolve concerns directly or without additional support, please see step two.

### Formal Grievance Procedure

1. Any student in the School of Nursing who has attempted to informally resolve a grievance but has been unsuccessful, may submit a formal grievance to the Associate Dean for Academic Affairs.
2. The student must submit a written grievance by email to the Associate Dean for Academic Affairs within 20 business days of the alleged unfair treatment. To the fullest extent possible, a formal written grievance needs to contain a clear and concise statement of the issue(s) involved as well as the relief sought.
3. Within 30 business days after receiving the grievance, the Associate Dean for Academic Affairs shall arrange for a committee meeting. The committee may request a written response from the person or group at whom the grievance is directed, may ask for additional information from any or all parties involved, may request that the parties involved appear before the committee, and/or may take other steps in attempting to resolve the grievance.
4. Within 60 calendar days after the committee receives the grievance from the Associate Dean for Academic Affairs, the committee shall send a written report of the committee's recommendations to the Associate Dean for Academic Affairs.
5. The Associate Dean for Academic Affairs will consider the committee's recommendation and issue a decision on the grievance. The decision will be communicated by email to the student within 10 business days after the receipt of the committee's recommendation.
6. If a student chooses to appeal the decision, the appeal will be directed to the Dean of the School of Nursing. The student must submit a written appeal, by email, to the Dean within 10 business days upon being sent the decision from the Associate Dean for Academic Affairs. The written document must include specific justifications regarding the grounds of the appeal. The Associate Dean for Academic Affairs will provide the Dean with a copy of the initial grievance, the committee's recommendation, and the Associate Dean for Academic Affairs's decision. No new information relevant to the grievance may be introduced to or considered by the Dean. The Dean shall notify the student and the committee of the decision in writing within 30 business days. The Dean's decision is final.

# NURSING PRACTICE: POPULATION HEALTH NURSING, DNP

This is a named option with the Nursing Practice, DNP (p. 1521).

- The Advanced Practice Population Health DNP Track focuses on preparing students to provide the bridge between epidemiological data and the individual/family lived experience of health and illnesses, improve the health of communities by conduction of population and systems assessments, driving equitable distribution of health and health care resources, assure individual and community resilience to mitigate the impact of health risks related to environmental and planetary climate threats, activate equitable policies and solutions to health problems for populations by applying principles of social justice, and to use system-level methods to communicate public health information, influence behavior and improve health for varying audiences.
- Population Health students are also presented the opportunity to complete the Global Health Certificate Program and/or the Nurse Educator Certificate Program which complements the curriculum and sets graduates up to succeed in a teaching career.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 1 |
| Spring Deadline | This program does not admit in the spring. |
| Summer Deadline | This program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/) and the Doctor of Nursing Practice's higher requirements:<br>• TOEFL (iBT): 100<br>• IELTS: 8<br>• Duolingo English Test: 130 |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |

| | |
|---|---|
| Letters of Recommendation Required | 3 |

## ADDITIONAL ADMISSION REQUIREMENTS:

- Graduation from an accredited baccalaureate program in nursing or master's degree from an accredited nursing, public health, or other health-related program (if applicable)
- One year of experience in nursing, public health, or a health-related field
- Minimum GPA requirements:
  - 3.0 in the last 60 baccalaureate credits and/or
  - 3.5 in master's degree credits (if completed master's degree)
- Grade of B or better in an approved graduate level statistics course within the last 5 years. (Note: The course does not need to be taken before applying, but must be successfully completed prior to the start of the fall term.)
- Unencumbered Wisconsin RN license (by the program start)
- Certification as an advanced practice nurse (if applicable)
- Application essay (see School of Nursing website (https://nursing.wisc.edu/graduate-programs/dnp/#to-apply) for specific criteria)
- Curriculum vitae or resume
- CGFNS Certification (for international applicants only)

# REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# NAMED OPTION REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| No | No | Yes | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 58 credits |
| Minimum Residence Credit Requirement | 32 credits |
| Minimum Graduate Coursework Requirement | 29 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required.<br>Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | A student may not receive more than one grade below a B (or a U grade) in any 12 month period. |
| Assessments and Examinations | Students must complete a scholarly project, which represents the culmination of a student's doctoral education. This project is a paper of publishable quality. Students must deliver an oral presentation to faculty, students, and the community. |
| Language Requirements | No language requirements. |
| Graduate School Breadth Requirement | DNP students are not required to complete a doctoral minor or graduate/professional certificate. |

## REQUIRED COURSES

For students with a master's degree in nursing, a personalized program plan will be developed and some of the following courses may be satisfied with previous master's coursework.

| Code | Title | Credits |
|---|---|---|
| B M I 573 | Foundations of Data-Driven Healthcare | 3 |
| NURSING 702 | Health Promotion and Disease Prevention in Diverse Communities | 3 |
| NURSING 703 | Health Care and Public Policy | 3 |
| NURSING 706 | Nursing Research | 3 |
| NURSING 709 | Leadership Foundations: The Discipline of Nursing | 2 |
| NURSING 714 | Advanced Health Systems Leadership and Innovation | 3 |
| NURSING 715 | Evaluation of Health Informatics Solutions | 3 |
| NURSING 720 | Population Health Practicum I: Working in the Aggregate | 3 |
| NURSING 721 | Population Health Practicum II: Community Action and Collective Impact | 3 |
| NURSING 723 | Population Health Theory and Methods Seminar I: Contemporary Issues & Population Health Ethics | 2 |

| | | |
|---|---|---|
| NURSING 724 | Pop Health Theory & Methods Seminar II: Interdis Practice, Collective Impact & Coalition Building | 2 |
| NURSING 725 | Population Health Theory and Methods Seminar III: Emerging Issues and Specialized Roles | 2 |
| NURSING 730 | Critical Social Theories in Population Health | 2 |
| NURSING 761 | Health Program Planning, Evaluation, and Quality Improvement | 3 |
| NURSING 772 | Leadership and Organizational Decision-Making in Health Care | 3 |
| NURSING 806 | Evaluation and Application of Evidence-Based Practice | 3 |
| NURSING 830 | Leadership, Role Development, and Resource Stewardship Practicum | 3 |
| NURSING 847 | Health Policy Practicum | 3 |
| NURSING 906 | Scholarly Project [1] | 6 |
| POP HLTH/ SOC 797 | Introduction to Epidemiology | 3 |
| **Total Credits** | | **58** |

[1] Six total credits required; 10 credit maximum. Taken for two credits per term (other credit amounts allowed only via faculty approval).

Students in this program may not take courses outside the prescribed curriculum without faculty advisor and program director approval. Students in this program cannot enroll concurrently in other undergraduate or graduate degree programs.

### Three-Year Program Plan

**First Year**

| Fall | Credits Spring | Credits Summer | Credits |
|---|---|---|---|
| NURSING 706 | 3 B M I 573 | 3 NURSING 702 | 3 |
| NURSING 709 | 2 NURSING 703 | 3 NURSING 772 | 3 |
| NURSING 730 | 2 NURSING 806 | 3 | |
| POP HLTH/ SOC 797 | 3 | | |
| | **10** | **9** | **6** |

**Second Year**

| Fall | Credits Spring | Credits Summer | Credits |
|---|---|---|---|

| | **8** | **8** | **2** |

**Third Year**

| Fall | Credits Spring | Credits |
|---|---|---|
| NURSING 725 | 2 NURSING 714 | 3 |
| NURSING 847 | 3 NURSING 830 | 3 |
| NURSING 906 | 2 NURSING 906 | 2 |
| | **7** | **8** |

**Total Credits 58**

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# NAMED OPTION-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program approval, students are allowed to transfer graduate coursework from other institutions. Graduate work should be less than five years old to be considered; additional justification and/or documentation are needed for work taken between five and ten years. Coursework more than ten years old will not be considered unless students are board certified advanced practice nurses (APN) and have continuous practice as an APN.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

No undergraduate coursework will be allowed to transfer toward DNP requirements.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

With program approval, students are allowed to transfer no more than 9 credits of coursework numbered 300 or above taken as a University Special student. These credits are considered part of the total allowable credits available for a student to transfer. Coursework should be less than five years old to be considered; additional justification and/or documentation is needed for work taken between five and ten years. Coursework more than ten years old will not be considered.

## PROBATION

Students meeting any of the following conditions will be placed on Academic Probation and will receive written notice of their status:

1. Achieving less than a 3.0 GPA in a term (fall, spring, or summer).
   a. If a student is already on Academic Probation based on the prior term GPA and
      i. The term GPA for the next term of enrollment is below a 3.0, the student will be dropped from the DNP program.
      ii. The term GPA for the next term of enrollment is a 3.0 or higher, the student will be returned to good academic standing.
2. Earning a cumulative GPA less than a 3.0.
   a. A student has two (2) semesters to raise their cumulative GPA above 3.0 or the student will be dropped from the DNP program.

   b. Once the cumulative GPA returns to at least a 3.0, the student will be returned to good academic standing.
3. Earning one grade below a B or one Unsatisfactory (U) grade.
   a. A student must repeat a required nursing course if a grade below a B or a U is earned.
   b. The student will be eligible to retake the course at the next available offering; if the course is a prerequisite for another course, the student cannot progress into the subsequent course until a grade of B or higher is earned. The program's Leave of Absence policy may be triggered if the student does not have a fall or spring term enrollment.
   c. If the grade below a B is in a clinical course, the student must petition to be eligible to retake the clinical course and the timing of the subsequent enrollment will be based upon availability of clinical resources.
   d. A student cannot repeat more than one course and a course may not be repeated more than once.
      i. A dropped course and/or coursework for which a student enrolls and then withdraws from the term counts as a course enrollment. Therefore, if a student drops/withdraws from a course, their next enrollment in that course is considered a repeated enrollment. (A course transcripted with a DR/WD notation per the Office of the Registrar's enrollment deadline calendar applies to this policy.)
   e. A student will be returned to good academic standing once the course is repeated and a grade of at least a B (or Satisfactory) is earned.

A student placed on Academic Probation for any reason must meet with their respective DNP Population Lead and faculty advisor to devise a written action plan to be submitted to the DNP Program Director and the Associate Dean for Academic Affairs. (Note: If the Population Lead is also the faculty advisor, the student will meet with their Population Lead/advisor and a second Population Lead.)

## ADVISOR / COMMITTEE

Within the DNP Program, each student will have an assigned faculty advisor as well as an assigned academic advisor, which is the Graduate Advising Manager. Below are descriptions of these advising roles in addition to other faculty and staff that work to advise students. Descriptions of advising roles can be found on the Student Site (https://students.nursing.wisc.edu/graduate-advising/grad/).

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Post–BS: Students must complete the requirements within six years of admission. Upon the advisor's recommendation, the associate dean for academic programs may grant a one-year extension.

Post–MS: Students must complete the requirements within four years of admission to the program. Upon the advisor's recommendation, the associate dean for academic programs may grant a one-year extension.

  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## STUDENT APPEALS, PETITIONS, AND GRIEVANCE PROCEDURES

### Section One: Appeals

Appeals are limited to requests to continue in the curriculum after being dropped from the program and/or course grade appeals.

#### Drop Appeals

Any undergraduate or graduate student who feels they should not have been dropped from the program has the right to file an appeal. The appeals procedure is available for students to provide additional information regarding their circumstances which have contributed to their dropped status. The appeal procedure is described below. Throughout the appeal process, the student (hereby referred to as appellant) may be accompanied by a support person.

#### Course Grade Appeals

A student who believes a grade received in a Nursing course was an error or not consistent with guidelines outlined in the syllabus or campus standards has the right to appeal the grade.

The student should first speak with the course faculty member in an effort to resolve the issue informally. This must be done within 10 business days of the grade posted to the students record. During this informal process both student and faculty may consult with the Associate or Assistant Deans for Academic Affairs to seek resolution of the issue.

If the student remains dissatisfied with the grade, the student has the option to initiate the formal appeal procedure. To do this, the student (hereby referred to as appellant) must submit the appeal, as outlined below.

### Filing Appeal

1. The student must submit a petition for special consideration (https://uwmadison.co1.qualtrics.com/jfe/form/SV_07Y6YZUOYXJnQ2O/) form to the Assistant Dean for Academic Affairs within 10 business days of notification of academic status or grade posting. The appeal must include:
   a. Precise grounds on which the appeal is based.
   b. Circumstances associated with the need to appeal.
   c. Arguments supporting the appeal.
   d. Description of proposed remedial actions to be taken to improve the student's academic performance.
   e. The appellant may also submit letters of support from persons knowledgeable about the appellant's current and/or past academic work and/or other matters related to the appellant's academic performance. Any such letters must be submitted to the Assistant Dean via email by the same deadline.
2. Within 15 business days after receiving the appeal, the Assistant Dean for Academic Affairs shall arrange for a committee meeting. The committee may request additional information from the appellant and/or request them to appear before the committee. The appellant may bring a support person to the appeal meeting and must notify the Assistant Dean for Academic affairs at least three business days prior to the meeting. The appellant's chosen support person is limited to providing advice and support to the appellant.
3. Within 60 calendar days after the committee receives the appeal from the Assistant Dean for Academic Affairs, the committee shall send a written report of the committee's recommendations to the Assistant Dean for Academic Affairs.
4. The Assistant Dean for Academic Affairs will consider the committee's recommendation and issue a decision on the appeal. The decision will be communicated by email to the student within 10 business days after the receipt of the committee's recommendation.
5. If the appeal is granted, the Assistant Dean for Academic Affairs will discuss with the appellant any stipulations (binding) and recommendations (non-binding) for continuation in the program.
6. If a student chooses to appeal the decision, the appeal will be directed to the Associate Dean for Academic Affairs. The student must submit a written appeal, by email, to the Associate Dean within 10 business days upon being sent the decision from the Assistant Dean for Academic Affairs. The written document must include specific justifications regarding the grounds of the appeal, which are limited to:
   a. School policies were incorrectly applied;
   b. Decision is contrary to state or federal law;
   c. Proper appeal procedures were not followed; or
   d. Unfounded, arbitrary, or irrelevant assumptions of fact regarding the appellant's performance were made by the Appeals Committee. Appellant must also identify the specific aspects of the decision that they believe meet the criteria cited as a basis for appeal.

The Assistant Dean for Academic Affairs will provide the Associate Dean for Academic Affairs with a copy of the initial grievance, the committee's recommendation, and the Assistant Dean for Academic Affairs's decision. No new information relevant to the grievance may be introduced to or considered by the Associate Dean for Academic Affairs. The Associate Dean for Academic Affairs shall notify the student and the committee of the decision in writing within 30 business days. The Associate Dean's decision is final.

## Section Two: Petitions

If a student in the School of Nursing wishes to request an exception to a School of Nursing academic policy or regulation they should first consult their academic advisor. Then, the student must formally submit their request using the Petition for Special Consideration (https://uwmadison.co1.qualtrics.com/jfe/form/SV_07Y6YZUOYXJnQ2O/) form. Exception requests could be related to academics (i.e. dropping a course or withdrawing after the deadline etc), clinicals/compliance (i.e. waiver for specific compliance requirement), or admission to one of the School of Nursing's academic programs.

Exceptions to established policies, regulations, and/or program requirements should be rare and will be considered on an individual case by case basis. They will be reviewed by the School of Nursing's Academic Affairs office.

## Section Three: Grievances

The following School of Nursing Student Grievance Policy and associated procedures are designed for use in response to individual student grievances regarding faculty or staff in the School of Nursing.

Any individual student who feels they have been treated unfairly by a School of Nursing faculty or staff member has the right to file a grievance and receive a timely response addressing their concerns. Any student, undergraduate or graduate, may use these grievance procedures, except student employees whose complaints are covered under other campus policies. The grievance procedure is available to resolve student concerns regarding inequitable treatment that have not been satisfactorily resolved through the informal resolution process or where the student believes that informal resolution would not be productive. The grievance procedure is described below. Throughout the grievance process, the student may be accompanied by a support person. The use of this grievance procedure shall not prevent the student from seeking redress through another administrative or legal process.

For grievances regarding discrimination based on protected bases (i.e., race, color, national origin, sex, disability, age, etc.), contact the Office of Compliance (https://compliance.wisc.edu/eo-complaint/).

For grievances or concerns regarding sexual harassment or sexual violence (including sexual assault, dating/domestic violence, stalking and sexual exploitation), contact the Sexual Misconduct Resource and Response Program within the Office of Compliance (https://compliance.wisc.edu/titleix/).

For grievances that involve the behavior of a student, contact the Office of Student Conduct and Community Standards in the Dean of Students Office at https://conduct.students.wisc.edu/.

For grievances about, or directed at, faculty or staff in the School of Nursing, students should follow these steps:

### Informal Resolution

Any student in the School of Nursing who believes they have been treated inequitably is encouraged to resolve the matter informally. The student should first talk with the person or group at whom the grievance is directed in an attempt to resolve the issue informally. The student may contact the Associate Dean for Academic Affairs for assistance in resolving the matter informally. If students are unable to resolve concerns directly or without additional support, please see step two.

**Formal Grievance Procedure**

1. Any student in the School of Nursing who has attempted to informally resolve a grievance but has been unsuccessful, may submit a formal grievance to the Associate Dean for Academic Affairs.
2. The student must submit a written grievance by email to the Associate Dean for Academic Affairs within 20 business days of the alleged unfair treatment. To the fullest extent possible, a formal written grievance needs to contain a clear and concise statement of the issue(s) involved as well as the relief sought.
3. Within 30 business days after receiving the grievance, the Associate Dean for Academic Affairs shall arrange for a committee meeting. The committee may request a written response from the person or group at whom the grievance is directed, may ask for additional information from any or all parties involved, may request that the parties involved appear before the committee, and/or may take other steps in attempting to resolve the grievance.
4. Within 60 calendar days after the committee receives the grievance from the Associate Dean for Academic Affairs, the committee shall send a written report of the committee's recommendations to the Associate Dean for Academic Affairs.
5. The Associate Dean for Academic Affairs will consider the committee's recommendation and issue a decision on the grievance. The decision will be communicated by email to the student within 10 business days after the receipt of the committee's recommendation.
6. If a student chooses to appeal the decision, the appeal will be directed to the Dean of the School of Nursing. The student must submit a written appeal, by email, to the Dean within 10 business days upon being sent the decision from the Associate Dean for Academic Affairs. The written document must include specific justifications regarding the grounds of the appeal. The Associate Dean for Academic Affairs will provide the Dean with a copy of the initial grievance, the committee's recommendation, and the Associate Dean for Academic Affairs's decision. No new information relevant to the grievance may be introduced to or considered by the Dean. The Dean shall notify the student and the committee of the decision in writing within 30 business days. The Dean's decision is final.

## OTHER

# NURSING PRACTICE: PSYCHIATRIC MENTAL HEALTH NURSE PRACTITIONER, DNP

This is a named option with the Nursing Practice, DNP (p. 1521).

- The Psychiatric Mental Health DNP program focuses on caring for people who live with mental health symptoms across the lifespan. The program is based on a foundation of social justice and strives to close the gap in mental health care shortage areas.
- Clinical Placement Coordinators organize clinical experience opportunities at multiple locations across the state, thereby presenting students with the opportunity to learn from a diverse group of preceptors in a wide array of practice settings.
- Graduates of the Psychiatric Mental Health DNP program go on to serve in a wide array of healthcare settings, such as community mental health centers, inpatient psychiatric units, outpatient mental health clinics, correctional facilities, Indian Health Services, schools, and much more.
- As part of the program, Psychiatric Mental Health students receive the opportunity to apply for the UW–Madison LEND (Leadership Education in Neurodevelopmental Disabilities and Related Disabilities) Fellowship and to the School of Medicine and Public Health's Infant, Early Childhood, and Mental Health Capstone Certificate program.
- UW–Madison PMH DNP alumni hold a 100% first time ANCC Board Certification pass rate.
- Psychiatric Mental Health students are also presented with the opportunity to complete the Global Health Certificate Program and/or the Nurse Educator Certificate Program which complements the curriculum and sets graduates up to succeed in a teaching career.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 1 |
| Spring Deadline | This program does not admit in the spring. |
| Summer Deadline | This program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/) and the Doctor of Nursing Practice's higher requirements:<br>• TOEFL (iBT): 100<br>• IELTS: 8<br>• Duolingo English Test: 130 |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

## ADDITIONAL ADMISSION REQUIREMENTS:

- Graduation from an accredited baccalaureate program in nursing or master's degree from an accredited nursing program (if applicable)
- One year of professional nursing experience
- Minimum GPA requirements:

- 3.0 in the last 60 baccalaureate credits and/or
- 3.5 in master's degree credits (if completed master's degree)

- Grade of B or better in an approved graduate level statistics course within the last 5 years. (Note: The course does not need to be taken before applying, but must be successfully completed prior to the start of the fall term.)
- Unencumbered Wisconsin RN license (by the program start)
- Certification as an advanced practice nurse (if applicable)
- Application essay (see School of Nursing website (https://nursing.wisc.edu/graduate-programs/dnp/#to-apply) for specific criteria)
- Curriculum vitae or resume
- CGFNS Certification (for international applicants only)

With program approval, applicants without an APN master's degree (i.e., nurse education) may apply prior coursework toward degree requirements.

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# NAMED OPTION REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| No | No | No | Yes | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 68 credits |
| Minimum Residence Credit Requirement | 32 credits |
| Minimum Graduate Coursework Requirement | 34 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | A student may not receive more than one grade below a B (or a U grade) in any 12 month period. |
| Assessments and Examinations | Students must complete a scholarly project, which represents the culmination of a student's doctoral education. This project is a paper of publishable quality. Students must deliver an oral presentation to faculty, students, and the community. |
| Language Requirements | No language requirements. |
| Graduate School Breadth Requirement | DNP students are not required to complete a doctoral minor or graduate/professional certificate. |

## REQUIRED COURSES

For students with a master's degree in nursing, a personalized program plan will be developed and some of the following courses may be satisfied with previous master's coursework.

| Code | Title | Credits |
|---|---|---|
| NURSING 601 | Advanced Health Assessment | 3 |
| NURSING 605 | Pharmacotherapeutics for Advanced Practice Nurses | 3 |
| NURSING 702 | Health Promotion and Disease Prevention in Diverse Communities | 3 |
| NURSING 703 | Health Care and Public Policy | 3 |
| NURSING 704 | Leadership in Advanced Practice Nursing I | 3 |
| NURSING 706 | Nursing Research | 3 |
| NURSING 708 | Ethics for Advanced Practice in Health Care | 2 |
| NURSING 726 | Foundations for APN Clinical Practice I | 3 |
| NURSING 727 | Foundations for APN Clinical Practice II | 3 |
| NURSING 728 | Advanced Practice Clinical Application and Role Development I | 3 |
| NURSING 729 | Advanced Practice Clinical Application and Role Development II | 3 |
| NURSING 751 | Advanced Practice Nursing Theory: Psychiatric Mental Health | 3 |
| NURSING 761 | Health Program Planning, Evaluation, and Quality Improvement | 3 |
| NURSING 764 | Nursing and Health Informatics | 3 |

| | | |
|---|---|---|
| NURSING 772 | Leadership and Organizational Decision-Making in Health Care | 3 |
| NURSING 806 | Evaluation and Application of Evidence-Based Practice | 3 |
| NURSING 811 | Advanced Pathophysiology | 3 |
| NURSING 826 | Foundations for APN Clinical Practice III | 3 |
| NURSING 828 | Clinical Leadership III | 3 |
| NURSING 829 | Clinical Leadership IV | 3 |
| NURSING 906 | Scholarly Project [1] | 6 |
| Elective | | 3 |
| **Total Credits** | | **68** |

[1] Six total credits required; 10 credit maximum. Taken for two credits per term (other credit amounts allowed only via faculty approval).

## Three-Year Program Plan

**First Year**

| Fall | Credits Spring | Credits Summer | Credits |
|---|---|---|---|
| NURSING 704 | 3 NURSING 601 | 3 NURSING 708 | 2 |
| NURSING 706 | 3 NURSING 605 | 3 NURSING 764 | 3 |
| NURSING 751 | 3 NURSING 703 | 3 | |
| NURSING 811 | 3 NURSING 806 | 3 | |
| | **12** | **12** | **5** |

**Second Year**

| Fall | Credits Spring | Credits Summer | Credits |
|---|---|---|---|
| NURSING 702 | 3 NURSING 727 | 3 NURSING 772 | 3 |
| NURSING 726 | 3 NURSING 729 | 3 NURSING 906 | 2 |
| NURSING 728 | 3 NURSING 761 | 3 | |
| | **9** | **9** | **5** |

**Third Year**

| Fall | Credits Spring | Credits |
|---|---|---|
| NURSING 826 | 3 NURSING 829 | 3 |
| NURSING 828 | 3 NURSING 906 | 2 |
| NURSING 906 | 2 Elective (can be taken any term)[1] | 3 |
| | **8** | **8** |

**Total Credits 68**

[1] See pre-approved elective options. Additional options may be approved by program director.

## Four-Year Program Plan

**First Year**

| Fall | Credits Spring | Credits Summer | Credits |
|---|---|---|---|
| NURSING 704 | 3 NURSING 703 | 3 NURSING 708 | 2 |
| NURSING 706 | 3 NURSING 806 | 3 | |
| NURSING 751 | 3 Elective (can be taken any term)[1] | 3 | |
| | **9** | **9** | **2** |

**Second Year**

| Fall | Credits Spring | Credits Summer | Credits |
|---|---|---|---|
| NURSING 702 | 3 NURSING 601 | 3 NURSING 764 | 3 |
| NURSING 811 | 3 NURSING 605 | 3 | |
| | **6** | **6** | **3** |

**Third Year**

| Fall | Credits Spring | Credits Summer | Credits |
|---|---|---|---|
| NURSING 726 | 3 NURSING 727 | 3 NURSING 772 | 3 |
| NURSING 728 | 3 NURSING 729 | 3 NURSING 906 | 2 |
| | NURSING 761 | 3 | |

| PUBLHLTH 780 | Evidence-Based Decision-Making | 3 |
| SOC WORK 875 | Health, Aging, and Disability Policy and Services | 2 |

POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# NAMED OPTION-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program approval, students are allowed to transfer graduate coursework from other institutions. Graduate work should be less than five years old to be considered; additional justification and/or documentation are needed for work taken between five and ten years. Coursework more than ten years old will not be considered unless students are board certified advanced practice nurses (APN) and have continuous practice as an APN.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

No undergraduate coursework will be allowed to transfer toward DNP requirements.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

With program approval, students are allowed to transfer no more than 9 credits of coursework numbered 300 or above taken as a University Special student. These credits are considered part of the total allowable credits available for a student to transfer. Coursework should be less than five years old to be considered; additional justification and/or documentation is needed for work taken between five and ten years. Coursework more than ten years old will not be considered.

## PROBATION

Students meeting any of the following conditions will be placed on Academic Probation and will receive written notice of their status:

1. Achieving less than a 3.0 GPA in a term (fall, spring, or summer).
   a. If a student is already on Academic Probation based on the prior term GPA and
      i. The term GPA for the next term of enrollment is below a 3.0, the student will be dropped from the DNP program.
      ii. The term GPA for the next term of enrollment is a 3.0 or higher, the student will be returned to good academic standing.
2. Earning a cumulative GPA less than a 3.0.
   a. A student has two (2) semesters to raise their cumulative GPA above 3.0 or the student will be dropped from the DNP program.
   b. Once the cumulative GPA returns to at least a 3.0, the student will be returned to good academic standing.
3. Earning one grade below a B or one Unsatisfactory (U) grade.
   a. A student must repeat a required nursing course if a grade below a B or a U is earned.
   b. The student will be eligible to retake the course at the next available offering; if the course is a prerequisite for another course, the student cannot progress into the subsequent course until a grade of B or higher is earned. The program's Leave of Absence policy may be triggered if the student does not have a fall or spring term enrollment.
   c. If the grade below a B is in a clinical course, the student must petition to be eligible to retake the clinical course and the timing of the subsequent enrollment will be based upon availability of clinical resources.
   d. A student cannot repeat more than one course and a course may not be repeated more than once.
      i. A dropped course and/or coursework for which a student enrolls and then withdraws from the term counts as a course enrollment. Therefore, if a student drops/withdraws from a course, their next enrollment in that course is considered a repeated enrollment. (A course transcripted with a DR/WD notation per the Office of the Registrar's enrollment deadline calendar applies to this policy.)
   e. A student will be returned to good academic standing once the course is repeated and a grade of at least a B (or Satisfactory) is earned.

A student placed on Academic Probation for any reason must meet with their respective DNP Population Lead and faculty advisor to devise a written action plan to be submitted to the DNP Program Director and the Associate Dean for Academic Affairs. (Note: If the Population Lead is also the faculty advisor, the student will meet with their Population Lead/advisor and a second Population Lead.)

## ADVISOR / COMMITTEE

Within the DNP Program, each student will have an assigned faculty advisor as well as an assigned academic advisor, which is the Graduate Advising Manager. Below are descriptions of these advising roles in addition to other faculty and staff that work to advise students. Descriptions of advising roles can be found on the Student Site (https://students.nursing.wisc.edu/graduate-advising/grad/).

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Post–BS: Students must complete the requirements within six years of admission. Upon the advisor's recommendation, the associate dean for academic programs may grant a one-year extension.

Post–MS: Students must complete the requirements within four years of admission to the program. Upon the advisor's recommendation, the associate dean for academic programs may grant a one-year extension.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)

- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

# STUDENT APPEALS, PETITIONS, AND GRIEVANCE PROCEDURES

## Section One: Appeals

Appeals are limited to requests to continue in the curriculum after being dropped from the program and/or course grade appeals.

### Drop Appeals

Any undergraduate or graduate student who feels they should not have been dropped from the program has the right to file an appeal. The appeals procedure is available for students to provide additional information regarding their circumstances which have contributed to their dropped status. The appeal procedure is described below. Throughout the appeal process, the student (hereby referred to as appellant) may be accompanied by a support person.

### Course Grade Appeals

A student who believes a grade received in a Nursing course was an error or not consistent with guidelines outlined in the syllabus or campus standards has the right to appeal the grade.

The student should first speak with the course faculty member in an effort to resolve the issue informally. This must be done within 10 business days of the grade posted to the students record. During this informal process both student and faculty may consult with the Associate or Assistant Deans for Academic Affairs to seek resolution of the issue.

If the student remains dissatisfied with the grade, the student has the option to initiate the formal appeal procedure. To do this, the student (hereby referred to as appellant) must submit the appeal, as outlined below.

### Filing Appeal

1. The student must submit a petition for special consideration (https://uwmadison.co1.qualtrics.com/jfe/form/SV_07Y6YZUOYXJnQ2O/) form to the Assistant Dean for Academic Affairs within 10 business days of notification of academic status or grade posting. The appeal must include:
   a. Precise grounds on which the appeal is based.
   b. Circumstances associated with the need to appeal.
   c. Arguments supporting the appeal.
   d. Description of proposed remedial actions to be taken to improve the student's academic performance.
   e. The appellant may also submit letters of support from persons knowledgeable about the appellant's current and/or past academic work and/or other matters related to the appellant's academic performance. Any such letters must be submitted to the Assistant Dean via email by the same deadline.
2. Within 15 business days after receiving the appeal, the Assistant Dean for Academic Affairs shall arrange for a committee meeting. The committee may request additional information from the appellant and/or request them to appear before the committee. The appellant may bring a support person to the appeal meeting and must notify the Assistant Dean for Academic affairs at least three business days prior to the meeting. The appellant's chosen support person is limited to providing advice and support to the appellant.
3. Within 60 calendar days after the committee receives the appeal from the Assistant Dean for Academic Affairs, the committee shall send a written report of the committee's recommendations to the Assistant Dean for Academic Affairs.
4. The Assistant Dean for Academic Affairs will consider the committee's recommendation and issue a decision on the appeal. The decision will be communicated by email to the student within 10 business days after the receipt of the committee's recommendation.
5. If the appeal is granted, the Assistant Dean for Academic Affairs will discuss with the appellant any stipulations (binding) and recommendations (non-binding) for continuation in the program.
6. If a student chooses to appeal the decision, the appeal will be directed to the Associate Dean for Academic Affairs. The student must submit a written appeal, by email, to the Associate Dean within 10 business days upon being sent the decision from the Assistant Dean for Academic Affairs. The written document must include specific justifications regarding the grounds of the appeal, which are limited to:
   a. School policies were incorrectly applied;
   b. Decision is contrary to state or federal law;
   c. Proper appeal procedures were not followed; or
   d. Unfounded, arbitrary, or irrelevant assumptions of fact regarding the appellant's performance were made by the Appeals Committee. Appellant must also identify the specific aspects of the decision that they believe meet the criteria cited as a basis for appeal.

The Assistant Dean for Academic Affairs will provide the Associate Dean for Academic Affairs with a copy of the initial grievance, the committee's recommendation, and the Assistant Dean for Academic Affairs's decision. No new information relevant to the grievance may be introduced to or considered by the Associate Dean for Academic Affairs. The Associate Dean for Academic Affairs shall notify the student and the committee of the decision in writing within 30 business days. The Associate Dean's decision is final.

### Section Two: Petitions

If a student in the School of Nursing wishes to request an exception to a School of Nursing academic policy or regulation they should first consult their academic advisor. Then, the student must formally submit their request using the Petition for Special Consideration (https://uwmadison.co1.qualtrics.com/jfe/form/SV_07Y6YZUOYXJnQ2O/) form. Exception requests could be related to academics (i.e. dropping a course or withdrawing after the deadline etc), clinicals/compliance (i.e. waiver for specific compliance requirement), or admission to one of the School of Nursing's academic programs.

Exceptions to established policies, regulations, and/or program requirements should be rare and will be considered on an individual case by case basis. They will be reviewed by the School of Nursing's Academic Affairs office.

### Section Three: Grievances

The following School of Nursing Student Grievance Policy and associated procedures are designed for use in response to individual student grievances regarding faculty or staff in the School of Nursing.

Any individual student who feels they have been treated unfairly by a School of Nursing faculty or staff member has the right to file a grievance and receive a timely response addressing their concerns. Any student, undergraduate or graduate, may use these grievance procedures, except student employees whose complaints are covered under other campus policies. The grievance procedure is available to resolve student concerns regarding inequitable treatment that have not been satisfactorily resolved through the informal resolution process or where the student believes that informal resolution would not be productive. The grievance procedure is described below. Throughout the grievance process, the student may be accompanied by a support person. The use of this grievance procedure shall not prevent the student from seeking redress through another administrative or legal process.

For grievances regarding discrimination based on protected bases (i.e., race, color, national origin, sex, disability, age, etc.), contact the Office of Compliance (https://compliance.wisc.edu/eo-complaint/).

For grievances or concerns regarding sexual harassment or sexual violence (including sexual assault, dating/domestic violence, stalking and sexual exploitation), contact the Sexual Misconduct Resource and Response Program within the Office of Compliance (https://compliance.wisc.edu/titleix/).

For grievances that involve the behavior of a student, contact the Office of Student Conduct and Community Standards in the Dean of Students Office at https://conduct.students.wisc.edu/.

For grievances about, or directed at, faculty or staff in the School of Nursing, students should follow these steps:

#### Informal Resolution

Any student in the School of Nursing who believes they have been treated inequitably is encouraged to resolve the matter informally. The student should first talk with the person or group at whom the grievance is directed in an attempt to resolve the issue informally. The student may contact the Associate Dean for Academic Affairs for assistance in resolving the matter informally. If students are unable to resolve concerns directly or without additional support, please see step two.

#### Formal Grievance Procedure

1. Any student in the School of Nursing who has attempted to informally resolve a grievance but has been unsuccessful, may submit a formal grievance to the Associate Dean for Academic Affairs.
2. The student must submit a written grievance by email to the Associate Dean for Academic Affairs within 20 business days of the alleged unfair treatment. To the fullest extent possible, a formal written grievance needs to contain a clear and concise statement of the issue(s) involved as well as the relief sought.
3. Within 30 business days after receiving the grievance, the Associate Dean for Academic Affairs shall arrange for a committee meeting. The committee may request a written response from the person or group at whom the grievance is directed, may ask for additional information from any or all parties involved, may request that the parties involved appear before the committee, and/or may take other steps in attempting to resolve the grievance.
4. Within 60 calendar days after the committee receives the grievance from the Associate Dean for Academic Affairs, the committee shall send a written report of the committee's recommendations to the Associate Dean for Academic Affairs.
5. The Associate Dean for Academic Affairs will consider the committee's recommendation and issue a decision on the grievance. The decision will be communicated by email to the student within 10 business days after the receipt of the committee's recommendation.
6. If a student chooses to appeal the decision, the appeal will be directed to the Dean of the School of Nursing. The student must submit a written appeal, by email, to the Dean within 10 business days upon being sent the decision from the Associate Dean for Academic Affairs. The written document must include specific justifications regarding the grounds of the appeal. The Associate Dean for Academic Affairs will provide the Dean with a copy of the initial grievance, the committee's recommendation, and the Associate Dean for Academic Affairs's decision. No new information relevant to the grievance may be introduced to or considered by the Dean. The Dean shall notify the student and the committee of the decision in writing within 30 business days. The Dean's decision is final.

# NURSING PRACTICE: SYSTEMS LEADERSHIP AND INNOVATION, DNP

This is a named option with the Nursing Practice, DNP (p. 1521).

- The Systems Leadership & Innovation (SLI) DNP track is an online program available to students across the country. In this track, students develop, implement, and evaluate new practice approaches informing improved systems of care based on nursing, business, engineering, and interprofessional science and collaboration.
- Clinical Placement Coordinators organize practicum placements (in-person and/or virtual) based on several considerations including individual students' interest and personal goals. These opportunities offer a wide array of leadership, policy, and networking opportunities in placements at local, state, and national levels.
- Systems Leadership & Innovation students have access to innovation resources and consultation at the University of Wisconsin–Madison.

- The SLI program also informs preparation for several available board certifications that are not required but encouraged post-graduation.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 1 |
| Spring Deadline | This program does not admit in the spring. |
| Summer Deadline | This program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/) and the Doctor of Nursing Practice's higher requirements:<br>• TOEFL (iBT): 100<br>• IELTS: 8<br>• Duolingo English Test: 130 |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

## ADDITIONAL ADMISSION REQUIREMENTS:

- Graduation from an accredited baccalaureate program in nursing or master's degree from an accredited nursing, public health, or other health-related program (if applicable)
- One year of experience in nursing, public health, or a health-related field
- Minimum GPA requirements:
  - 3.0 in the last 60 baccalaureate credits and/or
  - 3.5 in master's degree credits (if completed master's degree)
- Grade of B or better in an approved graduate level statistics course within the last 5 years. (Note: The course does not need to be taken before applying, but must be successfully completed prior to the start of the fall term.)
- Unencumbered Wisconsin RN license (by the program start)
- Certification as an advanced practice nurse (if applicable)
- Application essay (see School of Nursing website (https://nursing.wisc.edu/graduate-programs/dnp/#to-apply) for specific criteria)
- Curriculum vitae or resume
- CGFNS Certification (for international applicants only)

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# NAMED OPTION REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| No | No | Yes | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 58 credits |
| Minimum Residence Credit Requirement | 32 credits |
| Minimum Graduate Coursework Requirement | 29 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required.<br>Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | A student may not receive more than one grade below a B (or a U grade) in any 12 month period. |

| | |
|---|---|
| Assessments and Examinations | Students must complete a scholarly project, which represents the culmination of a student's doctoral education. This project is a paper of publishable quality. Students must deliver an oral presentation to faculty, students, and the community. |
| Language Requirements | No language requirements. |
| Graduate School Breadth Requirement | DNP students are not required to complete a doctoral minor or graduate/professional certificate. |

## REQUIRED COURSES

For students with a master's degree in nursing, a personalized program plan will be developed and some of the following courses may be satisfied with previous master's coursework.

| Code | Title | Credits |
|---|---|---|
| B M I 573 | Foundations of Data-Driven Healthcare | 3 |
| I SY E 557 | Human Factors Engineering for Healthcare Systems | 3 |
| NURSING 703 | Health Care and Public Policy | 3 |
| NURSING 706 | Nursing Research | 3 |
| NURSING 708 | Ethics for Advanced Practice in Health Care | 2 |
| NURSING 709 | Leadership Foundations: The Discipline of Nursing | 2 |
| NURSING 711 | Business Concepts in Healthcare | 3 |
| NURSING 712 | Health Systems Leadership and Innovation Practicum I | 3 |
| NURSING 713 | Health Systems Leadership and Innovation Practicum II | 3 |
| NURSING 714 | Advanced Health Systems Leadership and Innovation | 3 |
| NURSING 715 | Evaluation of Health Informatics Solutions | 3 |
| NURSING 761 | Health Program Planning, Evaluation, and Quality Improvement | 3 |
| NURSING 772 | Leadership and Organizational Decision-Making in Health Care | 3 |
| NURSING 806 | Evaluation and Application of Evidence-Based Practice | 3 |
| NURSING 830 | Leadership, Role Development, and Resource Stewardship Practicum | 3 |
| NURSING 847 | Health Policy Practicum | 3 |
| NURSING 906 | Scholarly Project [1] | 6 |
| POP HLTH/ SOC 797 | Introduction to Epidemiology | 3 |
| Elective | | 3 |
| **Total Credits** | | **58** |

[1] Six total credits required; 10 credit maximum. Taken for two credits per term (other credit amounts allowed only via faculty approval).

Students in this program may not take courses outside the prescribed curriculum without faculty advisor and program director approval. Students in this program cannot enroll concurrently in other undergraduate or graduate degree programs.

### Three-Year Program Plan

**First Year**

| Fall | Credits Spring | Credits Summer | Credits |
|---|---|---|---|
| NURSING 706 | 3 B M I 573 | 3 NURSING 708 | 2 |
| NURSING 709 | 2 NURSING 703 | 3 NURSING 772 | 3 |
| NURSING 715 | 3 NURSING 806 | 3 | |
| POP HLTH/ SOC 797 | 3 | | |
| | **11** | **9** | **5** |

**Second Year**

| Fall | Credits Spring | Credits Summer | Credits |
|---|---|---|---|
| I SY E 557 | 3 NURSING 713 | 3 NURSING 906 | 2 |
| NURSING 711 | 3 NURSING 714 | 3 | |

| POP HLTH 915 | International Health Systems and Policy | 2 |
| SOC WORK 875 | Health, Aging, and Disability Policy and Services | 2 |

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# NAMED OPTION-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program approval, students are allowed to transfer graduate coursework from other institutions. Graduate work should be less than five years old to be considered; additional justification and/or documentation are needed for work taken between five and ten years. Coursework more than ten years old will not be considered unless students are board certified advanced practice nurses (APN) and have continuous practice as an APN.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

No undergraduate coursework will be allowed to transfer toward DNP requirements.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

With program approval, students are allowed to transfer no more than 9 credits of coursework numbered 300 or above taken as a University Special student. These credits are considered part of the total allowable credits available for a student to transfer. Coursework should be less than five years old to be considered; additional justification and/or documentation is needed for work taken between five and ten years. Coursework more than ten years old will not be considered.

## PROBATION

Students meeting any of the following conditions will be placed on Academic Probation and will receive written notice of their status:

1. Achieving less than a 3.0 GPA in a term (fall, spring, or summer).
   a. If a student is already on Academic Probation based on the prior term GPA and
      i. The term GPA for the next term of enrollment is below a 3.0, the student will be dropped from the DNP program.
      ii. The term GPA for the next term of enrollment is a 3.0 or higher, the student will be returned to good academic standing.
2. Earning a cumulative GPA less than a 3.0.
   a. A student has two (2) semesters to raise their cumulative GPA above 3.0 or the student will be dropped from the DNP program.
   b. Once the cumulative GPA returns to at least a 3.0, the student will be returned to good academic standing.
3. Earning one grade below a B or one Unsatisfactory (U) grade.
   a. A student must repeat a required nursing course if a grade below a B or a U is earned.
   b. The student will be eligible to retake the course at the next available offering; if the course is a prerequisite for another course, the student cannot progress into the subsequent course until a grade of B or higher is earned. The program's Leave of Absence policy may be triggered if the student does not have a fall or spring term enrollment.
   c. If the grade below a B is in a clinical course, the student must petition to be eligible to retake the clinical course and the timing of the subsequent enrollment will be based upon availability of clinical resources.
   d. A student cannot repeat more than one course and a course may not be repeated more than once.
      i. A dropped course and/or coursework for which a student enrolls and then withdraws from the term counts as a course enrollment. Therefore, if a student drops/withdraws from a course, their next enrollment in that course is considered a repeated enrollment. (A course transcripted with a DR/WD notation per the Office of the Registrar's enrollment deadline calendar applies to this policy.)
   e. A student will be returned to good academic standing once the course is repeated and a grade of at least a B (or Satisfactory) is earned.

A student placed on Academic Probation for any reason must meet with their respective DNP Population Lead and faculty advisor to devise a written action plan to be submitted to the DNP Program Director and the Associate Dean for Academic Affairs. (Note: If the Population Lead is also the faculty advisor, the student will meet with their Population Lead/advisor and a second Population Lead.)

## ADVISOR / COMMITTEE

Within the DNP Program, each student will have an assigned faculty advisor as well as an assigned academic advisor, which is the Graduate Advising Manager. Below are descriptions of these advising roles in addition to other faculty and staff that work to advise students. Descriptions of advising roles can be found on the Student Site (https://students.nursing.wisc.edu/graduate-advising/grad/).

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Post–BS: Students must complete the requirements within six years of admission. Upon the advisor's recommendation, the associate dean for academic programs may grant a one-year extension.

Post–MS: Students must complete the requirements within four years of admission to the program. Upon the advisor's recommendation, the associate dean for academic programs may grant a one-year extension.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## STUDENT APPEALS, PETITIONS, AND GRIEVANCE PROCEDURES

### Section One: Appeals

Appeals are limited to requests to continue in the curriculum after being dropped from the program and/or course grade appeals.

#### Drop Appeals

Any undergraduate or graduate student who feels they should not have been dropped from the program has the right to file an appeal. The appeals procedure is available for students to provide additional information regarding their circumstances which have contributed to their dropped status. The appeal procedure is described below. Throughout the appeal process, the student (hereby referred to as appellant) may be accompanied by a support person.

#### Course Grade Appeals

A student who believes a grade received in a Nursing course was an error or not consistent with guidelines outlined in the syllabus or campus standards has the right to appeal the grade.

The student should first speak with the course faculty member in an effort to resolve the issue informally. This must be done within 10 business days of the grade posted to the students record. During this informal process both student and faculty may consult with the Associate or Assistant Deans for Academic Affairs to seek resolution of the issue.

If the student remains dissatisfied with the grade, the student has the option to initiate the formal appeal procedure. To do this, the student (hereby referred to as appellant) must submit the appeal, as outlined below.

#### Filing Appeal

1. The student must submit a petition for special consideration (https://uwmadison.co1.qualtrics.com/jfe/form/SV_07Y6YZUOYXJnQ2O/) form to the Assistant Dean for Academic Affairs within 10 business days of notification of academic status or grade posting. The appeal must include:
   a. Precise grounds on which the appeal is based.
   b. Circumstances associated with the need to appeal.
   c. Arguments supporting the appeal.
   d. Description of proposed remedial actions to be taken to improve the student's academic performance.
   e. The appellant may also submit letters of support from persons knowledgeable about the appellant's current and/or past academic work and/or other matters related to the appellant's academic performance. Any such letters must be submitted to the Assistant Dean via email by the same deadline.
2. Within 15 business days after receiving the appeal, the Assistant Dean for Academic Affairs shall arrange for a committee meeting. The committee may request additional information from the appellant and/or request them to appear before the committee. The appellant may bring a support person to the appeal meeting and must notify the Assistant Dean for Academic affairs at least three business days prior to the meeting. The appellant's chosen support person is limited to providing advice and support to the appellant.
3. Within 60 calendar days after the committee receives the appeal from the Assistant Dean for Academic Affairs, the committee shall send a written report of the committee's recommendations to the Assistant Dean for Academic Affairs.
4. The Assistant Dean for Academic Affairs will consider the committee's recommendation and issue a decision on the appeal. The decision will be communicated by email to the student within 10 business days after the receipt of the committee's recommendation.
5. If the appeal is granted, the Assistant Dean for Academic Affairs will discuss with the appellant any stipulations (binding) and recommendations (non-binding) for continuation in the program.
6. If a student chooses to appeal the decision, the appeal will be directed to the Associate Dean for Academic Affairs. The student must submit a written appeal, by email, to the Associate Dean within 10 business days upon being sent the decision from the Assistant Dean for Academic Affairs. The written document must include specific justifications regarding the grounds of the appeal, which are limited to:
   a. School policies were incorrectly applied;
   b. Decision is contrary to state or federal law;
   c. Proper appeal procedures were not followed; or
   d. Unfounded, arbitrary, or irrelevant assumptions of fact regarding the appellant's performance were made by the Appeals Committee. Appellant must also identify the specific aspects of the decision that they believe meet the criteria cited as a basis for appeal.

The Assistant Dean for Academic Affairs will provide the Associate Dean for Academic Affairs with a copy of the initial grievance, the committee's recommendation, and the Assistant Dean for Academic Affairs's decision. No new information relevant to the grievance may be introduced to or considered by the Associate Dean for Academic Affairs. The Associate Dean for Academic Affairs shall notify the student and the committee of the decision in writing within 30 business days. The Associate Dean's decision is final.

### Section Two: Petitions

If a student in the School of Nursing wishes to request an exception to a School of Nursing academic policy or regulation they should first consult their academic advisor. Then, the student must formally submit their request using the Petition for Special Consideration (https://uwmadison.co1.qualtrics.com/jfe/form/SV_07Y6YZUOYXJnQ2O/) form. Exception requests could be related to academics (i.e. dropping a course or withdrawing after the deadline etc), clinicals/compliance (i.e. waiver for specific compliance requirement), or admission to one of the School of Nursing's academic programs.

Exceptions to established policies, regulations, and/or program requirements should be rare and will be considered on an individual case by case basis. They will be reviewed by the School of Nursing's Academic Affairs office.

### Section Three: Grievances

The following School of Nursing Student Grievance Policy and associated procedures are designed for use in response to individual student grievances regarding faculty or staff in the School of Nursing.

Any individual student who feels they have been treated unfairly by a School of Nursing faculty or staff member has the right to file a grievance and receive a timely response addressing their concerns. Any student, undergraduate or graduate, may use these grievance procedures, except student employees whose complaints are covered under other campus policies. The grievance procedure is available to resolve student concerns regarding inequitable treatment that have not been satisfactorily resolved through the informal resolution process or where the student believes that informal resolution would not be productive. The grievance procedure is described below. Throughout the grievance process, the student may be accompanied by a support person. The use of this grievance procedure shall not prevent the student from seeking redress through another administrative or legal process.

For grievances regarding discrimination based on protected bases (i.e., race, color, national origin, sex, disability, age, etc.), contact the Office of Compliance (https://compliance.wisc.edu/eo-complaint/).

For grievances or concerns regarding sexual harassment or sexual violence (including sexual assault, dating/domestic violence, stalking and sexual exploitation), contact the Sexual Misconduct Resource and Response Program within the Office of Compliance (https://compliance.wisc.edu/titleix/).

For grievances that involve the behavior of a student, contact the Office of Student Conduct and Community Standards in the Dean of Students Office at https://conduct.students.wisc.edu/.

For grievances about, or directed at, faculty or staff in the School of Nursing, students should follow these steps:

#### Informal Resolution

Any student in the School of Nursing who believes they have been treated inequitably is encouraged to resolve the matter informally. The student should first talk with the person or group at whom the grievance is directed in an attempt to resolve the issue informally. The student may contact the Associate Dean for Academic Affairs for assistance in resolving the matter informally. If students are unable to resolve concerns directly or without additional support, please see step two.

#### Formal Grievance Procedure

1. Any student in the School of Nursing who has attempted to informally resolve a grievance but has been unsuccessful, may submit a formal grievance to the Associate Dean for Academic Affairs.
2. The student must submit a written grievance by email to the Associate Dean for Academic Affairs within 20 business days of the alleged unfair treatment. To the fullest extent possible, a formal written grievance needs to contain a clear and concise statement of the issue(s) involved as well as the relief sought.
3. Within 30 business days after receiving the grievance, the Associate Dean for Academic Affairs shall arrange for a committee meeting. The committee may request a written response from the person or group at whom the grievance is directed, may ask for additional information from any or all parties involved, may request that the parties involved appear before the committee, and/or may take other steps in attempting to resolve the grievance.
4. Within 60 calendar days after the committee receives the grievance from the Associate Dean for Academic Affairs, the committee shall send a written report of the committee's recommendations to the Associate Dean for Academic Affairs.
5. The Associate Dean for Academic Affairs will consider the committee's recommendation and issue a decision on the grievance. The decision will be communicated by email to the student within 10 business days after the receipt of the committee's recommendation.
6. If a student chooses to appeal the decision, the appeal will be directed to the Dean of the School of Nursing. The student must submit a written appeal, by email, to the Dean within 10 business days upon being sent the decision from the Associate Dean for Academic Affairs. The written document must include specific justifications regarding the grounds of the appeal. The Associate Dean for Academic Affairs will provide the Dean with a copy of the initial grievance, the committee's recommendation, and the Associate Dean for Academic Affairs's decision. No new information relevant to the grievance may be introduced to or considered by the Dean. The Dean shall notify the student and the committee of the decision in writing within 30 business days. The Dean's decision is final.

## OTHER

n/a

# NURSING, DOCTORAL MINOR

The doctoral minor in nursing provides training to support the development of investigators with an interest in health science. Three minor options are available:

1. Patient & Family Centered Research
2. Qualitative Methods in Health Research
3. Individualized minor, with foci and courses selected by the student and nursing faculty advisor

## ADMISSIONS

# ADMISSIONS

All graduate students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any doctoral minor.

To apply to the Nursing doctoral minor, please log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. Select the information for the Nursing doctoral minor. The graduate program committee will review your application for admittance.

Students may review faculty biosketches in advance of submitting their applications and are welcome to email faculty members of interest to discuss their research. If a faculty member agrees to be the student's minor advisor, the student can indicate this on their application. If the student has not selected a faculty member in advance, the graduate program committee will identify and assign a minor advisor from the Nursing faculty. The student and minor advisor will both sign the graduate minor approval form and submit it to the Graduate Advising Manager.

Graduate minors should be approved using the process outlined above before students complete more than 2 courses intended to satisfy minor requirements.

## REQUIREMENTS

# REQUIREMENTS

## GRADE REQUIREMENT

A grade of B or better in each course is required.

## REQUIRED COURSES

At least 9 credits in nursing courses are required for all nursing doctoral minors.

Students may choose to focus their coursework in one of two pathways: Patient & Family Centered Research or Qualitative Methods in Health Research. These pathways are internal to the program and represent different curricular paths a student can follow to earn this minor.

### Patient & Family Centered Research

| Code | Title | Credits |
|---|---|---|
| **Required Courses** | | |
| NURSING 805 | Measurement in Health Research | 3 |
| NURSING 818 | Patient-centered Research | 3 |
| **Electives** | | |
| Select a minimum of 3 credits | | 3 |
| NURSING 590 | Contemporary Practices in Nursing | |
| NURSING 799 | Independent Study | |
| NURSING 816 | Proseminar in Nursing Research | |
| **Total Credits** | | **9** |

### Qualitative Methods in Health Research

| Code | Title | Credits |
|---|---|---|
| **Required Courses** | | |
| NURSING 590 | Contemporary Practices in Nursing | 2 |
| NURSING 804 | Qualitative Design and Methods | 3 |
| **Electives** | | |
| Selected a minimum of 4 credits | | 4 |
| NURSING 590 | Contemporary Practices in Nursing | |
| NURSING 799 | Independent Study | |
| NURSING 807 | Grounded Theory Research | |
| **Total Credits** | | **9** |

# NURSING, MS

The School of Nursing is no longer admitting students to the MS program or the MS/MPH dual degree program. The MS program for advanced practice has transitioned to the Doctor of Nursing Practice (DNP) degree (p. 1521).

## ADMISSIONS

# ADMISSIONS

This master's program is offered for work leading to the PhD. Students may not apply directly for the master's and should instead see the admissions information for the PhD (p. 1565).

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business

schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 36 credits |
| Minimum Residence Credit Requirement | 27 credits |
| Minimum Graduate Coursework Requirement | 18 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | No other grade requirements. |
| Assessments and Examinations | No formal examination required. |
| Language Requirements | No language requirements. |

## REQUIRED COURSES

Students may earn an MS in Nursing on the way to the PhD in Nursing (p. 1565). All coursework must be numbered 300 and above.

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program approval, students are allowed to transfer up to 9 credits of graduate coursework from other institutions. Graduate coursework should be less than ten years old to be considered; additional justification and/or documentation are needed for coursework taken between five and ten years. Coursework ten or more years prior to admission to the program will not be considered.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

No credits from other institutions or UW–Madison undergraduate degree are allowed to transfer toward the degree.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

With program approval, students are allowed to transfer no more than 6 credits of coursework numbered 300 or above taken as a University Special student. These credits are considered part of the total allowable credits available for a student to transfer. Coursework should be less than ten years old to be considered; additional justification and/or documentation is needed for coursework taken between five and ten years. Coursework ten or more years prior to admission to the program will not be considered.

## PROBATION

A semester GPA below 3.0 will result in the student being placed on academic probation. If a semester GPA of 3.0 is not attained during the subsequent semester of full time enrollment (or 12 credits of enrollment if enrolled part-time) the student may be dismissed from the program or allowed to continue for one additional semester based on advisor appeal to the Graduate School.

## ADVISOR / COMMITTEE

Student progression is reviewed annually.

## CREDITS PER TERM ALLOWED

15 credits

## TIME LIMITS

Requirements for the degree must be completed within five years of admission.

- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

# STUDENT APPEALS, PETITIONS, AND GRIEVANCE PROCEDURES

## Section One: Appeals

Appeals are limited to requests to continue in the curriculum after being dropped from the program and/or course grade appeals.

### Drop Appeals

Any undergraduate or graduate student who feels they should not have been dropped from the program has the right to file an appeal. The appeals procedure is available for students to provide additional information regarding their circumstances which have contributed to their dropped status. The appeal procedure is described below. Throughout the appeal process, the student (hereby referred to as appellant) may be accompanied by a support person.

### Course Grade Appeals

A student who believes a grade received in a Nursing course was an error or not consistent with guidelines outlined in the syllabus or campus standards has the right to appeal the grade.

The student should first speak with the course faculty member in an effort to resolve the issue informally. This must be done within 10 business days of the grade posted to the students record. During this informal process both student and faculty may consult with the Associate or Assistant Deans for Academic Affairs to seek resolution of the issue.

If the student remains dissatisfied with the grade, the student has the option to initiate the formal appeal procedure. To do this, the student (hereby referred to as appellant) must submit the appeal, as outlined below.

### Filing Appeal

1. The student must submit a petition for special consideration (https://uwmadison.co1.qualtrics.com/jfe/form/SV_07Y6YZUOYXJnQ2O/) form to the Assistant Dean for Academic Affairs within 10 business days of notification of academic status or grade posting. The appeal must include:
   a. Precise grounds on which the appeal is based.
   b. Circumstances associated with the need to appeal.
   c. Arguments supporting the appeal.
   d. Description of proposed remedial actions to be taken to improve the student's academic performance.
   e. The appellant may also submit letters of support from persons knowledgeable about the appellant's current and/or past academic work and/or other matters related to the appellant's academic performance. Any such letters must be submitted to the Assistant Dean via email by the same deadline.
2. Within 15 business days after receiving the appeal, the Assistant Dean for Academic Affairs shall arrange for a committee meeting. The committee may request additional information from the appellant and/or request them to appear before the committee. The appellant may bring a support person to the appeal meeting and must notify the Assistant Dean for Academic affairs at least three business days prior to the meeting. The appellant's chosen support person is limited to providing advice and support to the appellant.
3. Within 60 calendar days after the committee receives the appeal from the Assistant Dean for Academic Affairs, the committee shall send a written report of the committee's recommendations to the Assistant Dean for Academic Affairs.
4. The Assistant Dean for Academic Affairs will consider the committee's recommendation and issue a decision on the appeal. The decision will be communicated by email to the student within 10 business days after the receipt of the committee's recommendation.
5. If the appeal is granted, the Assistant Dean for Academic Affairs will discuss with the appellant any stipulations (binding) and recommendations (non-binding) for continuation in the program.
6. If a student chooses to appeal the decision, the appeal will be directed to the Associate Dean for Academic Affairs. The student must submit a written appeal, by email, to the Associate Dean within 10 business days upon being sent the decision from the Assistant Dean for Academic Affairs. The written document must include specific justifications regarding the grounds of the appeal, which are limited to:
   a. School policies were incorrectly applied;
   b. Decision is contrary to state or federal law;
   c. Proper appeal procedures were not followed; or
   d. Unfounded, arbitrary, or irrelevant assumptions of fact regarding the appellant's performance were made by the Appeals Committee. Appellant must also identify the specific aspects of the decision that they believe meet the criteria cited as a basis for appeal.

The Assistant Dean for Academic Affairs will provide the Associate Dean for Academic Affairs with a copy of the initial grievance, the committee's recommendation, and the Assistant Dean for Academic Affairs's decision. No new information relevant to the grievance may be introduced to or considered by the Associate Dean for Academic Affairs. The Associate Dean for Academic Affairs shall notify the student and the committee of the decision in writing within 30 business days. The Associate Dean's decision is final.

## Section Two: Petitions

If a student in the School of Nursing wishes to request an exception to a School of Nursing academic policy or regulation they should first consult their academic advisor. Then, the student must formally submit their request using the Petition for Special Consideration (https://uwmadison.co1.qualtrics.com/jfe/form/SV_07Y6YZUOYXJnQ2O/) form. Exception requests could be related to academics (i.e. dropping a course or withdrawing after the deadline etc), clinicals/compliance (i.e. waiver for specific compliance requirement), or admission to one of the School of Nursing's academic programs.

Exceptions to established policies, regulations, and/or program requirements should be rare and will be considered on an individual case by case basis. They will be reviewed by the School of Nursing's Academic Affairs office.

### Section Three: Grievances

The following School of Nursing Student Grievance Policy and associated procedures are designed for use in response to individual student grievances regarding faculty or staff in the School of Nursing.

Any individual student who feels they have been treated unfairly by a School of Nursing faculty or staff member has the right to file a grievance and receive a timely response addressing their concerns. Any student, undergraduate or graduate, may use these grievance procedures, except student employees whose complaints are covered under other campus policies. The grievance procedure is available to resolve student concerns regarding inequitable treatment that have not been satisfactorily resolved through the informal resolution process or where the student believes that informal resolution would not be productive. The grievance procedure is described below. Throughout the grievance process, the student may be accompanied by a support person. The use of this grievance procedure shall not prevent the student from seeking redress through another administrative or legal process.

For grievances regarding discrimination based on protected bases (i.e., race, color, national origin, sex, disability, age, etc.), contact the Office of Compliance (https://compliance.wisc.edu/eo-complaint/).

For grievances or concerns regarding sexual harassment or sexual violence (including sexual assault, dating/domestic violence, stalking and sexual exploitation), contact the Sexual Misconduct Resource and Response Program within the Office of Compliance (https://compliance.wisc.edu/titleix/).

For grievances that involve the behavior of a student, contact the Office of Student Conduct and Community Standards in the Dean of Students Office at https://conduct.students.wisc.edu/.

For grievances about, or directed at, faculty or staff in the School of Nursing, students should follow these steps:

#### Informal Resolution

Any student in the School of Nursing who believes they have been treated inequitably is encouraged to resolve the matter informally. The student should first talk with the person or group at whom the grievance is directed in an attempt to resolve the issue informally. The student may contact the Associate Dean for Academic Affairs for assistance in resolving the matter informally. If students are unable to resolve concerns directly or without additional support, please see step two.

#### Formal Grievance Procedure

1. Any student in the School of Nursing who has attempted to informally resolve a grievance but has been unsuccessful, may submit a formal grievance to the Associate Dean for Academic Affairs.
2. The student must submit a written grievance by email to the Associate Dean for Academic Affairs within 20 business days of the alleged unfair treatment. To the fullest extent possible, a formal written grievance needs to contain a clear and concise statement of the issue(s) involved as well as the relief sought.
3. Within 30 business days after receiving the grievance, the Associate Dean for Academic Affairs shall arrange for a committee meeting. The committee may request a written response from the person or group at whom the grievance is directed, may ask for additional information from any or all parties involved, may request that the parties involved appear before the committee, and/or may take other steps in attempting to resolve the grievance.
4. Within 60 calendar days after the committee receives the grievance from the Associate Dean for Academic Affairs, the committee shall send a written report of the committee's recommendations to the Associate Dean for Academic Affairs.
5. The Associate Dean for Academic Affairs will consider the committee's recommendation and issue a decision on the grievance. The decision will be communicated by email to the student within 10 business days after the receipt of the committee's recommendation.
6. If a student chooses to appeal the decision, the appeal will be directed to the Dean of the School of Nursing. The student must submit a written appeal, by email, to the Dean within 10 business days upon being sent the decision from the Associate Dean for Academic Affairs. The written document must include specific justifications regarding the grounds of the appeal. The Associate Dean for Academic Affairs will provide the Dean with a copy of the initial grievance, the committee's recommendation, and the Associate Dean for Academic Affairs's decision. No new information relevant to the grievance may be introduced to or considered by the Dean. The Dean shall notify the student and the committee of the decision in writing within 30 business days. The Dean's decision is final.

Students should contact the department chair or program director with questions about grievances.

## OTHER

The School of Nursing makes a strong commitment to funding students admitted into the PhD program who are enrolled full-time. Sources of funding include extramural, campus, and internal School of Nursing funding. The majority of funding decisions are made in the Spring for the following academic year. Continuing and newly admitted students are encouraged to apply for funding.

# PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

## GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## PROGRAM RESOURCES

Career advising, funding, and professional development opportunities are shared with all students by a member of the School of Nursing Academic Affairs staff. Information on these support services can be found on the Student Site (https://students.nursing.wisc.edu/career-advising/career/).

# LEARNING OUTCOMES

# LEARNING OUTCOMES

1. (Background for Practice from Sciences and Humanities) Recognizes that the master's-prepared nurse integrates scientific findings from nursing, biopsychosocial fields, genetics, public health, quality improvement, and organizational sciences for the continual improvement of nursing care across diverse settings.
2. (Organizational and Systems Leadership) Recognizes that organizational and systems leadership are critical to the promotion

of high quality and safe patient care. Leadership skills are needed that emphasize ethical and critical decision making, effective working relationships, and a systems-perspective.

3. (Quality Improvement and Safety) Recognizes that a master's-prepared nurse must be articulate in the methods, tools, performance measures, and standards related to quality, as well as prepared to apply quality principles within an organization.
4. (Translating and Integrating Scholarship into Practice) Recognizes that the master's-prepared nurse applies research outcomes within the practice setting, resolves practice problems, works as a change agent, and disseminates results.
5. (Informatics and Healthcare Technologies) Recognizes that the master's-prepared nurse uses patient-care technologies to deliver and enhance care and uses communication technologies to integrate and coordinate care.
6. (Health Policy and Advocacy) Recognizes that the master's-prepared nurse is able to intervene at the system level through the policy development process and to employ advocacy strategies to influence health and health care.
7. (Interprofessional Collaboration for Improving Patient and Population Health Outcomes) Recognizes that the master's-prepared nurse, as a member and leader of interprofessional teams, communicates, collaborates, and consults with other health professionals to manage and coordinate care.
8. (Ethical Practice) Recognizes and applies principles of ethical and professional conduct.
9. (Master's-Level Nursing Practice) Recognizes that nursing practice, at the master's level, is broadly defined as any form of nursing intervention that influences healthcare outcomes for individuals, populations, or systems. Master's-level nursing graduates must have an advanced level of understanding of nursing and relevant sciences as well as the ability to integrate this knowledge into practice. Nursing practice interventions include both direct and indirect care components.
10. (Clinical Prevention and Population Health for Improving Health) Recognizes that the master's-prepared nurse applies and integrates broad, organizational, client-centered, and culturally appropriate concepts in the planning, delivery, management, and evaluation of evidence-based clinical prevention and population care and services to individuals, families, and aggregates/identified populations.

# NURSING, PHD

The School of Nursing offers a program leading to the doctor of philosophy degree. The school also has a unique early entry PhD program to bridge or accelerate progression to the PhD level for undergraduate nursing students. Postdoctoral training opportunities are also available.

Nursing faculty members are well prepared for their roles as scholars, clinicians, and teachers. Many have postdoctoral experience in nursing and related disciplines. They have wide-ranging clinical expertise foundational to their experiences with doctoral students. Many faculty have been awarded prestigious federal and private research and training awards and are well known for their expertise in university, local, national, and international communities. Our faculty have a wide variety of research interests. Areas of particular strength and depth include the following:

- Aging
- Chronic illness & symptom management
- Care of children & families
- Health systems & care delivery

World-renowned facilities for clinical practice and research are available in and around Madison. These include University of Wisconsin Hospital and Clinics, American Family Children's Hospital, UW Carbone Cancer Center, and William S. Middleton Memorial Veterans Hospital; hospitals and clinics in urban and rural settings; nursing homes; and public health agencies. The university's location in Wisconsin's capital offers opportunities for involvement in state government and policymaking.

Signe Skott Cooper Hall, the School of Nursing's new facility, features state-of-the-art classrooms, simulation labs, meeting and research facilities, and social gathering spaces in an environment dedicated to the health and wellness of students, faculty, staff, and the communities and populations served. Adjacent to Cooper Hall, the Health Sciences Learning Center (HSLC) brings together students in nursing, medicine, and pharmacy, and includes the Ebling Library and University Book Store.

## EARLY ENTRY PHD OPTION

The early-entry PhD option is designed for undergraduate students who are interested in research as a career and the PhD as a goal. With the assistance of a faculty advisory committee, early entry students plan an individualized program of study and research, drawing on existing undergraduate and graduate courses in nursing and related disciplines. Two degrees are awarded to students who complete this option: bachelor of science in nursing (BS), granted by the School of Nursing, and doctor of philosophy (PhD), granted by the Graduate School.

## DOCTOR OF PHILOSOPHY DEGREE

The purpose of the PhD program is to prepare researchers to develop, evaluate, and disseminate new knowledge in nursing and health science. The program is characterized by early and continuous training in research through a close mentoring relationship with faculty, a strong scientific base in nursing, and supporting courses in a related (i.e., minor) discipline. Graduates with a research doctorate are prepared to assume positions as faculty as well as research scientists and research directors in a variety of educational, clinical, and governmental settings.

The program is designed to be completed in four years of full-time study. Students may be accepted into the PhD program either post-baccalaureate or post-master's. Students are encouraged to enroll full-time. If part-time study is necessary, a minimum of six credits per semester is required. In collaboration with the faculty mentor(s), students plan a course of study that constitutes a unified program and fulfills the program requirements.

## ADMISSIONS

## ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched

the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 1 |
| Spring Deadline | This program does not admit in the spring. |
| Summer Deadline | This program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

## ADMISSION REQUIREMENTS

Admission requirements for the PhD program are:

- Bachelor's degree from an accredited program in nursing or master's degree from an accredited nursing program (if applicable)
- Minimum GPA requirements (on a 4.0 scale):
  - 3.0 in the last 60 baccalaureate credits on most recent baccalaureate degree and/or
  - 3.5 in master's degree credits (if completed master's degree)
- Original official transcripts will be required by the Graduate School if a department recommends applicant for admission.
- Three academic references from individuals who can speak to your scholarly activities, research capabilities and potential for success in the doctoral program
- Two examples of scholarly work that are related to nursing or health
- Personal Statement, your reasons for seeking a PhD in nursing
- Curriculum vitae or resume

# FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

Several forms of financial aid are available for graduate students in the School of Nursing. These include fellowships, traineeships, scholarships, research, project and teaching assistantships, and loans. Most graduate assistantships cover the cost of tuition and provide a monthly stipend. Awards are made in the spring or early summer for the following academic year. Full-time PhD students receive priority for teaching and research assistantships administered by the School of Nursing. Students in the PhD program have also been successful in competing for federal National Research Service Awards (NRSA) which are individual predoctoral fellowships.

Doctoral students who are preparing to be full-time faculty in nursing programs are also eligible for the Nurse Faculty Loan Program (NFLP). These loans, supported by the federal government, are available to cover tuition and other educational expenses. When graduates become full-time faculty members, up to 85% of the NFLP loan will be canceled over a four-year period.

# REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 58 credits |
| Minimum Residence Credit Requirement | 32 credits |
| Minimum Graduate Coursework Requirement | 29 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |

| | |
|---|---|
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | A student may not receive more than one grade below a B (or a U grade) in any 12 month period. |
| Assessments and Examinations | To be eligible for the comprehensive candidacy examination, candidates must have completed all formal coursework requirements. |
| Language Requirements | No language requirements. |
| Graduate School Breadth Requirement | All doctoral students are required to complete a doctoral minor or graduate/professional certificate. Refer to the Graduate School: Breadth Requirement in Doctoral Training policy: https://policy.wisc.edu/library/UW-1200 (https://policy.wisc.edu/library/UW-1200/). |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Core** | | |
| NURSING 703 | Health Care and Public Policy | 3 |
| NURSING/ MEDICINE/ POP HLTH 705 | Seminar in Interdisciplinary Clinical Research Evidence | 2 |
| NURSING 706 | Nursing Research | 3 |
| NURSING 800 | Health Equity in Nursing and Health Research | 2 |
| NURSING 801 | Theory in Nursing Research | 2 |
| NURSING 802 | Ethics and the Responsible Conduct of Research | 1 |
| NURSING 803 | Quantitative Design and Methods | 4 |
| NURSING 804 | Qualitative Design and Methods | 3 |
| NURSING 815 | Knowledge Development in Nursing | 3 |
| *Proseminar* | | |
| Students complete the following course four times, over the first four semesters of the first two years of the program (each for 1 credit). | | 4 |
| NURSING 816 | Proseminar in Nursing Research | |
| **Advanced Methods/Statistics** | | |
| Students complete 6 credits in consultation with their advisor from the options below: | | 6 |
| ED PSYCH 760 & ED PSYCH 761 | Statistical Methods Applied to Education I and Statistical Methods Applied to Education II | |
| ED PSYCH 762 | Introduction to the Design of Educational Experiments | |
| ED PSYCH 763 | Regression Models in Education | |
| ED PSYCH/ ELPA 822 | Introduction to Quantitative Inquiry in Education | |
| ED PSYCH 946 | Advanced Assessment and Intervention Techniques | |
| ED PSYCH 964 | Hierarchical Linear Modeling | |
| B M I/STAT 541 | Introduction to Biostatistics | |
| B M I/STAT 542 | Introduction to Clinical Trials I | |
| B M I 544 | Introduction to Clinical and Healthcare Research II | |
| B M I/STAT 641 | Statistical Methods for Clinical Trials | |
| B M I/STAT 642 | Statistical Methods for Epidemiology | |
| POP HLTH/ B M I 551 | Introduction to Biostatistics for Population Health | |
| POP HLTH/ B M I 552 | Regression Methods for Population Health | |
| POP HLTH/ B M I 651 | Advanced Regression Methods for Population Health | |
| STAT 601 | Statistical Methods I | |
| STAT 849 | Advanced Statistical Methods | |
| **Electives in Nursing Science** | | |
| Students complete 6 credits in consultation with their advisor from the options below: | | 6 |
| NURSING 590 | Contemporary Practices in Nursing | |
| NURSING 785 | Foundations of Curriculum Development and Evaluation for Healthcare Professions | |
| NURSING 786 | Teaching and Learning Strategies for the Classroom and Online Environments in Healthcare Professions | |
| NURSING 787 | Teaching and Learning in Healthcare Professions Practicum | |
| NURSING 805 | Measurement in Health Research | |
| NURSING 818 | Patient-centered Research | |
| NURSING 819 | Clinical Field Practicum - Research in Health Care Settings | |
| NURSING 847 | Health Policy Practicum | |
| ED PSYCH/ HDFS/NURSING/ SOC WORK 880 | Prevention Science | |
| **Breadth** | | **9** |
| **Guided Research** | | |
| Students complete guided research, including independent study. Students are expected to take at least 1 credit of Independent Study and participate in their faculty mentor's research group (or another research group agreed upon with the mentor) each semester. | | 10 |
| **Total Credits** | | **58** |

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program approval, students may apply prior coursework toward program course requirements. The credits from this work will not appear on a UW-Madison transcript as transfer credits into the Graduate career. Coursework more than ten years old will not be considered.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

No undergraduate coursework will be allowed to transfer toward PhD requirements.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

With program approval, students may transfer no more than 9 credits of coursework numbered 300 or above taken as a University Special student. These credits are considered part of the total allowable credits available for a student to transfer. Coursework more than ten years old will not be considered.

## PROBATION

A semester GPA below 3.0 will result in the student being placed on academic probation. If a student has not returned to satisfactory progress by the determined deadline, a decision about whether the student will be permitted to continue will be made by the Graduate Programs Committee (or appropriate subcommittee) with input from the student's advisor.

## ADVISOR / COMMITTEE

PhD students complete an annual progression review which includes a written review from the advisor. This is submitted to the PhD Subcommittee of the GPC. The Subcommittee reviews the student CVs and advisor comments to gain an overall sense of student progression in the program. Comments from the Subcommittee regarding progression are then sent to the advisor who shares the result of the review with the student.

Refer to the Graduate School: Committees (Doctoral/Master's/MFA) (https://policy.wisc.edu/library/UW-1201/) policy.

The student and major professor should work together to identify dissertation advisory committee members with appropriate breadth and depth of knowledge. In addition to the minimum Graduate School requirements for the dissertation committees, the School of Nursing has additional expectations for committee membership:

1. At least 2 members will be from the School of Nursing faculty.
2. In general, all committee members will serve as readers. However, in line with the Graduate School: Committees (Doctoral/Master's/MFA) (https://policy.wisc.edu/library/UW-1201/) policy, the chair may designate 1 of the 4 members of the committee as a non-reader.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## STUDENT APPEALS, PETITIONS, AND GRIEVANCE PROCEDURES

### Section One: Appeals

Appeals are limited to requests to continue in the curriculum after being dropped from the program and/or course grade appeals.

#### Drop Appeals

Any undergraduate or graduate student who feels they should not have been dropped from the program has the right to file an appeal. The appeals procedure is available for students to provide additional information regarding their circumstances which have contributed to their dropped status. The appeal procedure is described below. Throughout the appeal process, the student (hereby referred to as appellant) may be accompanied by a support person.

### Course Grade Appeals

A student who believes a grade received in a Nursing course was an error or not consistent with guidelines outlined in the syllabus or campus standards has the right to appeal the grade.

The student should first speak with the course faculty member in an effort to resolve the issue informally. This must be done within 10 business days of the grade posted to the students record. During this informal process both student and faculty may consult with the Associate or Assistant Deans for Academic Affairs to seek resolution of the issue.

If the student remains dissatisfied with the grade, the student has the option to initiate the formal appeal procedure. To do this, the student (hereby referred to as appellant) must submit the appeal, as outlined below.

### Filing Appeal

1. The student must submit a petition for special consideration (https://uwmadison.co1.qualtrics.com/jfe/form/SV_07Y6YZUOYXJnQ2O/) form to the Assistant Dean for Academic Affairs within 10 business days of notification of academic status or grade posting. The appeal must include:
   a. Precise grounds on which the appeal is based.
   b. Circumstances associated with the need to appeal.
   c. Arguments supporting the appeal.
   d. Description of proposed remedial actions to be taken to improve the student's academic performance.
   e. The appellant may also submit letters of support from persons knowledgeable about the appellant's current and/or past academic work and/or other matters related to the appellant's academic performance. Any such letters must be submitted to the Assistant Dean via email by the same deadline.
2. Within 15 business days after receiving the appeal, the Assistant Dean for Academic Affairs shall arrange for a committee meeting. The committee may request additional information from the appellant and/or request them to appear before the committee. The appellant may bring a support person to the appeal meeting and must notify the Assistant Dean for Academic affairs at least three business days prior to the meeting. The appellant's chosen support person is limited to providing advice and support to the appellant.
3. Within 60 calendar days after the committee receives the appeal from the Assistant Dean for Academic Affairs, the committee shall send a written report of the committee's recommendations to the Assistant Dean for Academic Affairs.
4. The Assistant Dean for Academic Affairs will consider the committee's recommendation and issue a decision on the appeal. The decision will be communicated by email to the student within 10 business days after the receipt of the committee's recommendation.
5. If the appeal is granted, the Assistant Dean for Academic Affairs will discuss with the appellant any stipulations (binding) and recommendations (non-binding) for continuation in the program.
6. If a student chooses to appeal the decision, the appeal will be directed to the Associate Dean for Academic Affairs. The student must submit a written appeal, by email, to the Associate Dean within 10 business days upon being sent the decision from the Assistant Dean for Academic Affairs. The written document must include specific justifications regarding the grounds of the appeal, which are limited to:
   a. School policies were incorrectly applied;
   b. Decision is contrary to state or federal law;
   c. Proper appeal procedures were not followed; or
   d. Unfounded, arbitrary, or irrelevant assumptions of fact regarding the appellant's performance were made by the Appeals Committee. Appellant must also identify the specific aspects of the decision that they believe meet the criteria cited as a basis for appeal.

The Assistant Dean for Academic Affairs will provide the Associate Dean for Academic Affairs with a copy of the initial grievance, the committee's recommendation, and the Assistant Dean for Academic Affairs's decision. No new information relevant to the grievance may be introduced to or considered by the Associate Dean for Academic Affairs. The Associate Dean for Academic Affairs shall notify the student and the committee of the decision in writing within 30 business days. The Associate Dean's decision is final.

## Section Two: Petitions

If a student in the School of Nursing wishes to request an exception to a School of Nursing academic policy or regulation they should first consult their academic advisor. Then, the student must formally submit their request using the Petition for Special Consideration (https://uwmadison.co1.qualtrics.com/jfe/form/SV_07Y6YZUOYXJnQ2O/) form. Exception requests could be related to academics (i.e. dropping a course or withdrawing after the deadline etc), clinicals/compliance (i.e. waiver for specific compliance requirement), or admission to one of the School of Nursing's academic programs.

Exceptions to established policies, regulations, and/or program requirements should be rare and will be considered on an individual case by case basis. They will be reviewed by the School of Nursing's Academic Affairs office.

## Section Three: Grievances

The following School of Nursing Student Grievance Policy and associated procedures are designed for use in response to individual student grievances regarding faculty or staff in the School of Nursing.

Any individual student who feels they have been treated unfairly by a School of Nursing faculty or staff member has the right to file a grievance and receive a timely response addressing their concerns. Any student, undergraduate or graduate, may use these grievance procedures, except student employees whose complaints are covered under other campus policies. The grievance procedure is available to resolve student concerns regarding inequitable treatment that have not been satisfactorily resolved through the informal resolution process or where the student believes that informal resolution would not be productive. The grievance procedure is described below. Throughout the grievance process, the student may be accompanied by a support person. The use of this grievance procedure shall not prevent the student from seeking redress through another administrative or legal process.

For grievances regarding discrimination based on protected bases (i.e., race, color, national origin, sex, disability, age, etc.), contact the Office of Compliance (https://compliance.wisc.edu/eo-complaint/).

For grievances or concerns regarding sexual harassment or sexual violence (including sexual assault, dating/domestic violence, stalking and sexual exploitation), contact the Sexual Misconduct Resource and Response Program within the Office of Compliance (https://compliance.wisc.edu/titleix/).

For grievances that involve the behavior of a student, contact the Office of Student Conduct and Community Standards in the Dean of Students Office at https://conduct.students.wisc.edu/.

For grievances about, or directed at, faculty or staff in the School of Nursing, students should follow these steps:

**Informal Resolution**
Any student in the School of Nursing who believes they have been treated inequitably is encouraged to resolve the matter informally. The student should first talk with the person or group at whom the grievance is directed in an attempt to resolve the issue informally. The student may contact the Associate Dean for Academic Affairs for assistance in resolving the matter informally. If students are unable to resolve concerns directly or without additional support, please see step two.

**Formal Grievance Procedure**

1. Any student in the School of Nursing who has attempted to informally resolve a grievance but has been unsuccessful, may submit a formal grievance to the Associate Dean for Academic Affairs.
2. The student must submit a written grievance by email to the Associate Dean for Academic Affairs within 20 business days of the alleged unfair treatment. To the fullest extent possible, a formal written grievance needs to contain a clear and concise statement of the issue(s) involved as well as the relief sought.
3. Within 30 business days after receiving the grievance, the Associate Dean for Academic Affairs shall arrange for a committee meeting. The committee may request a written response from the person or group at whom the grievance is directed, may ask for additional information from any or all parties involved, may request that the parties involved appear before the committee, and/or may take other steps in attempting to resolve the grievance.
4. Within 60 calendar days after the committee receives the grievance from the Associate Dean for Academic Affairs, the committee shall send a written report of the committee's recommendations to the Associate Dean for Academic Affairs.
5. The Associate Dean for Academic Affairs will consider the committee's recommendation and issue a decision on the grievance. The decision will be communicated by email to the student within 10 business days after the receipt of the committee's recommendation.
6. If a student chooses to appeal the decision, the appeal will be directed to the Dean of the School of Nursing. The student must submit a written appeal, by email, to the Dean within 10 business days upon being sent the decision from the Associate Dean for Academic Affairs. The written document must include specific justifications regarding the grounds of the appeal. The Associate Dean for Academic Affairs will provide the Dean with a copy of the initial grievance, the committee's recommendation, and the Associate Dean for Academic Affairs's decision. No new information relevant to the grievance may be introduced to or considered by the Dean. The Dean shall notify the student and the committee of the decision in writing within 30 business days. The Dean's decision is final.

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

### PROGRAM RESOURCES

Career advising, funding, and professional development opportunities are shared with all students by a member of the School of Nursing Academic Affairs staff. Information on these support services can be found on the Student Site (https://students.nursing.wisc.edu/career-advising/career/).

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Master in-depth knowledge in a substantive area of nursing.
2. Articulate research problems, potentials, and limits with respect to nursing theory, knowledge, and practice.
3. Formulate new ideas, concepts, designs, and/or techniques based on critical evaluation of knowledge in nursing and other relevant disciplines.
4. Assume leadership in the creation of original research that makes a substantive contribution to health.
5. Integrate structural and social determinants of health equity in nursing scholarship.
6. Demonstrate breadth in learning experiences through intra- and cross-disciplinary study, and integration of research, teaching, mentoring, service to the profession, and/or other career roles.
7. Negotiate and work successfully with interprofessional teams.
8. Develop and disseminate nursing knowledge to meet the health needs of local, national, and global populations.
9. Communicate complex research findings and implications in a clear and understandable manner to lay and professional audiences.
10. Demonstrate knowledge of professional obligations, codes of ethics, and institutional policies and procedures that guide nursing scholarship.
11. Demonstrate the capacity to identify ethical issues, seek guidance from appropriate resources and adhere to ethical principles and professional norms in the resolution of moral dilemmas.

# TEACHING AND LEARNING IN HEALTHCARE PROFESSIONS, GRADUATE/PROFESSIONAL CERTIFICATE

Those who complete the certificate are recognized for their specialized skills, knowledge, and abilities in the nurse educator role. The certification of nurse educators provides a means for faculty members to demonstrate their expertise in the science of nursing education. Obtaining the certificate signifies a commitment to professional development and to continuously improve the methods of teaching needed in the field of nursing.

Students who complete the certificate are eligible to sit for the National League for Nursing (NLN) Certified Nurse Educator Examination. NLN recognizes the nurse educator role as a specialty area of practice.

This program offers two pathways:

1. Nurse Educator Certificate Program for students currently enrolled in a nursing doctoral program (DNP (p. 1521) or PhD (p. 1565))
2. Nurse Educator Capstone Certificate Program for master's- or doctoral-prepared nurses who are not currently enrolled in a nursing doctoral program

## ADMISSIONS

# ADMISSIONS

### TIMELINE

Students are admitted to the certificate to begin in the spring session only. The important dates are:

- Application Opens: Early September
- Application Deadline: November 1.
  - All materials (including transcripts) must be received by the deadline.
- Review of Applications: November
- Notification of Decision: Early December

### APPLICATION PROCESS

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any graduate/professional certificate. To apply to this certificate, log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. Select the information for the certificate for which you are applying. Professional students in the careers of Law, Medicine, Pharmacy, and Veterinary cannot add the certificate in the Graduate Student Portal, and should contact the program for more information.

### ELIGIBILITY

To be eligible to complete the Teaching & Learning in Healthcare Professions Certificate, students must enrolled in a graduate program.

## REQUIREMENTS

# REQUIREMENTS

The certificate is a 9-credit program of study that includes graduate-level foundational and practicum work. Students must complete any three of four courses which cover the foundation of teaching/learning and curriculum in healthcare education, with an emphasis on evidence-based teaching.

The curriculum and requirements for the Teaching & Learning in Healthcare Professions Certificate are prescribed. Few exceptions or course substitutions are permitted. Exceptions must be approved by the certificate program director.

### REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| Students must complete any three of the following courses: | | 9 |
| NURSING 784 | Teaching and Learning Strategies for Clinical and Simulation Environments in Healthcare Professions | |
| NURSING 785 | Foundations of Curriculum Development and Evaluation for Healthcare Professions | |
| NURSING 786 | Teaching and Learning Strategies for the Classroom and Online Environments in Healthcare Professions | |
| NURSING 787 | Teaching and Learning in Healthcare Professions Practicum | |
| **Total Credits** | | **9** |

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Demonstrate the ability to design, analyze, and evaluate curricula by applying foundational knowledge of curriculum development processes, components, and frameworks within healthcare professions education.
2. Assess and integrate current trends, professional and societal issues, and evidence-based practices into curriculum design and delivery to ensure relevance and impact in healthcare education.
3. Compare and contrast traditional and innovative program structures at undergraduate and graduate levels, analyzing their implications for healthcare practice and educational outcomes.
4. Apply selected teaching and learning theories, utilizing active learning strategies, interprofessional education, and educational technologies to foster student engagement and success in diverse student populations.
5. Construct and implement plans for assessing individual and aggregate student learning outcomes, ensuring alignment with program objectives and fostering continuous improvement.
6. Create inclusive learning environments that address diverse student needs, promote equity, and foster a supportive atmosphere.
7. Engage in ongoing professional development by leveraging feedback, reflective practices, current research, and best practices to enhance teaching effectiveness and educational leadership.

## CERTIFICATION/LICENSURE

# CERTIFICATION/LICENSURE

Graduates of the Teaching & Learning in Healthcare Professions Certificate who are Registered Nurses may be eligible to sit for the National League for Nursing (NLN) Certified Nurse Educator examination.

Eligibility requirements are as follows:

- Documentation of an unencumbered nursing license.
- Doctoral degree in nursing and nine or more credits of graduate-level education courses.

# ONCOLOGY

## DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

## DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/ PROFESSIONAL CERTIFICATES

- Cancer Biology, MS (p. 1572)
- Cancer Biology, PhD (p. 1576)

# CANCER BIOLOGY, MS

The graduate program in cancer biology offers a course of study and research leading to the PhD degree. Although a master's degree is offered under special circumstances, students are not admitted for a master's degree.

The Cancer Biology Graduate Program was established at the McArdle Laboratory for Cancer Research in 1940 as the first graduate program in the United States to offer a degree in basic cancer research. The program now includes more than 50 faculty trainers from multiple departments including Oncology, Medicine, Human Oncology, Cell and Regenerative Biology, Medical Microbiology and Immunology, and others. This interdepartmental structure offers students remarkably diverse training opportunities that span the entire breadth of cancer biology research from haploid or diploid genetics, viral and chemical carcinogenesis, eukaryotic cell and molecular biology, virology, molecular toxicology, and whole-animal carcinogenesis. Through the graduate curriculum, students are introduced to the body of knowledge that has been derived directly from experiments on the induction, properties, and therapy of cancer, and receive the necessary background to conduct independent research.

Curriculum requirements are designed to be flexible, providing a maximal opportunity for specialization within this multidisciplinary field. Students learn through core and elective courses; by participation in seminars, conferences, and journal clubs related to their specific areas of expertise; and most important, from their research advisors. Students who join the program select research advisors after conducting a minimum of three month-long rotations in different laboratories during the first semester. After choosing an advisor, students will also create an advisory committee of five faculty members who will provide guidance throughout the process of earning the PhD degree. The average time to complete the PhD is 5.5 years. The program prepares students for careers in teaching and research in academia, government, and industry.

## ADMISSIONS

# ADMISSIONS

This master's program is offered for work leading to the PhD. Students may not apply directly for the master's and should instead see the admissions information for the PhD. (p. 1576)

## FUNDING

# FUNDING

### GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

### MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

#### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

### CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 16 credits |

| | |
|---|---|
| Minimum Graduate Coursework Requirement | 15 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | Students must earn a B or above in all required Core Courses, otherwise the course must be repeated. |
| Assessments and Examinations | Thesis track: requires a formal thesis.<br><br>Non-thesis track: no formal examination required. |
| Language Requirements | No language requirements. |

## REQUIRED COURSES

The curriculum for Cancer Biology is designed to introduce you to research related to the induction, properties, and therapy of cancer and to ensure that you have the necessary background in one or more areas of related, fundamental science to enable you to do original research. Courses are drawn from the Department of Oncology as well as various related departments, including Bacteriology, Biochemistry, Biomolecular Chemistry, Chemistry, Genetics, Human Oncology, Medical Microbiology and Immunology, Pathology and Laboratory Medicine, and Pharmacology.

The Graduate School at UW-Madison requires PhD students to complete a minimum of 51 credits in order to obtain a PhD Degree. These credits are fulfilled via core curriculum courses, 990 research, and electives. Courses numbered below 300, audit, and pass/fail do not satisfy the credit minimum requirement. It is suggested that you take approximately 2 courses per semester with the remaining credits being 990 research. All courses must be completed by the end of your second year, before completing the Preliminary Exam.

| Code | Title | Credits |
|---|---|---|
| **Core Courses** | | |
| ONCOLOGY/ M M & I/ PL PATH 640 | General Virology-Multiplication of Viruses | 3 |
| ONCOLOGY 703 | Carcinogenesis and Tumor Cell Biology | 3 |
| MED HIST 950 | Responsible Conduct of Research | 1 |
| ONCOLOGY 725 | Readings in Cancer Biology | 2 |
| ONCOLOGY 735 | Grant Writing in Cancer Biology | 2 |
| ONCOLOGY 901 | Seminar (presentation) | 1 |
| **Research Credits** | | |
| Complete 12 credits of following: | | 12 |
| ONCOLOGY 990 | Research [1] | |
| **Quantitative Requirement** | | |
| B M I/STAT 541 | Introduction to Biostatistics | 3 |
| or ONCOLOGY 778 | Bioinformatics for Biologists | |
| **Electives** | | |
| Students may select electives in consultation with their advisor. These courses should be numbered 500 and above. The list below provides some examples of commonly taken courses. | | 3-6 |
| **Total Credits** | | **30** |

[1] Students will enroll in up to 12 credits per semester as pre-dissertators (only 2 credits during the summer term).

### Seminar

Beginning in your second year, you will be required to give an annual, formal presentation in the Cancer Biology Student/Postdoc Seminar Series. **Attendance at this seminar series is required**.

In addition, you are expected to attend the Cancer Biology Seminar throughout your graduate career. The schedule is posted on the McArdle website (https://mcardle.wisc.edu/seminar-schedules/).

### Suggested Electives

| Code | Title | Credits |
|---|---|---|
| BIOCHEM 601 | Protein and Enzyme Structure and Function | 2 |
| BIOCHEM/ GENETICS/ MICROBIO 612 | Prokaryotic Molecular Biology | 3 |
| PATH-BIO/ M M & I 528 | Immunology | 3 |
| M M & I 740 | Mechanisms of Microbial Pathogenesis | 3 |
| PATH 803 | Pathogenesis of Major Human Diseases | 3 |
| BIOCHEM/ GENETICS/ MD GENET 620 | Eukaryotic Molecular Biology | 3 |
| BIOCHEM 625 | Mechanisms of Action of Vitamins and Minerals | 2 |
| CRB 640 | Fundamentals of Stem Cell and Regenerative Biology | 3 |
| CRB 650 | Molecular and Cellular Organogenesis | 3 |
| CRB/MEDICINE 701 | Cell Signaling and Human Disease | 1 |
| B M E 520 | Stem Cell Bioengineering | 3 |
| CBE/B M E 783 | Design of Biological Molecules | 3 |
| PATH 750 | Cellular and Molecular Biology/ Pathology | 2 |
| M M & I/PATH-BIO 750 | Host-Parasite Relationships in Vertebrate Viral Disease | 3 |

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs

may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program approval, students may transfer no more than 9 credits of graduate coursework from other institutions. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

With program approval, students may transfer no more than 7 credits numbered 300 or above from a UW–Madison undergraduate degree, or the equivalent from other institutions.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

With program approval, students may transfer no more than 15 credits of coursework numbered 300 or above taken as a UW–Madison University Special student. However, these credits are not allowed to count toward the 50% graduate coursework minimum unless numbered 700 or above or are taken to meet the requirements of a capstone certificate and has the "Grad 50%" designation. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

## PROBATION

A semester GPA below 3.0 or an incomplete grade (I) will result in the student being placed on academic probation. If a semester GPA of 3.0 is not attained or the Incomplete grade is not cleared during the subsequent semester of full- time enrollment, the student may be dismissed from the program or allowed to continue for 1 additional semester based on advisor appeal to the Graduate School.

## ADVISOR / COMMITTEE

All students are required to have an advisor. Students must create a certification committee (advisor plus four additional faculty members) by the end of their first year. After passing their preliminary examination, students are required to conduct a progress report meeting with their certification committee each year. Failure to do so may result in a hold being placed on the student's registration.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

All doctoral students must pass their preliminary examination by the end of their second year (August 31). Under special circumstances, a one-semester extension may be granted when justified in writing by the student and advisor.

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

### Grievance Policy for Graduate Programs in the School of Medicine and Public Health

Any student in a School of Medicine and Public Health graduate program who feels that they have been treated unfairly in regards to educational decisions and/or outcomes or issues specific to the graduate program, including academic standing, progress to degree, professional activities, appropriate advising, and a program's community standards by a faculty member, staff member, postdoc, or student has the right to complain about the treatment and to receive a prompt hearing of the grievance following these grievance procedures. Any student who discusses, inquiries about, or participates in the grievance procedure may do so openly and shall not be subject to intimidation, discipline, or retaliation because of such activity. Each program's grievance advisor is listed on the "Research" tab of the SMPH intranet (https://intranet.med.wisc.edu/).

**Exclusions**

This policy does not apply to employment-related issues for Graduate Assistants in TA, PA and/or RA appointments. Graduate Assistants will utilize the Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/) (GAPP) grievance process to resolve employment-related issues.

This policy does not apply to instances when a graduate student wishes to report research misconduct. For such reports refer to the UW-Madison Policy for Reporting Research Misconduct for Graduate Students and

Postdoctoral Research Associates (https://research.wisc.edu/kb-article/?id=84924).

**Requirements for Programs**

The School of Medicine and Public Health Office of Basic Research, Biotechnology and Graduate Studies requires that each graduate program designate a grievance advisor, who should be a tenured faculty member, and will request the name of the grievance advisor annually. The program director will serve as the alternate grievance advisor in the event that the grievance advisor is named in the grievance. The program must notify students of the grievance advisor, including posting the grievance advisor's name on the program's Guide page and handbook.

The grievance advisor or program director may be approached for possible grievances of all types. They will spearhead the grievance response process described below for issues specific to the graduate program, including but not limited to academic standing, progress to degree, professional activities, appropriate advising, and a program's community standards. They will ensure students are advised on reporting procedures for other types of possible grievances and are supported throughout the reporting process. Resources (https://grad.wisc.edu/current-students/#reporting-incidents) on identifying and reporting other issues have been compiled by the Graduate School.

**Procedures**

1. The student is advised to initiate a written record containing dates, times, persons, and description of activities, and to update this record while completing the procedures described below.
2. If the student is comfortable doing so, efforts should be made to resolve complaints informally between individuals before pursuing a formal grievance.
3. Should a satisfactory resolution not be achieved, the student should contact the program's grievance advisor or program director to discuss the complaint. The student may approach the grievance advisor or program director alone or with a UW-Madison faculty or staff member. The grievance advisor or program director should keep a record of contacts with regards to possible grievances. The first attempt is to help the student informally address the complaint prior to pursuing a formal grievance. The student is also encouraged to talk with their faculty advisor regarding concerns or difficulties.
4. If the issue is not resolved to the student's satisfaction, the student may submit a formal grievance to the grievance advisor or program director in writing, within 60 calendar days from the date the grievant first became aware of, or should have become aware of with the exercise of reasonable diligence, the cause of the grievance. To the fullest extent possible, a grievance shall contain a clear and concise statement of the grievance and indicate the issue(s) involved, the relief sought, the date(s) the incident or violation took place, and any specific policy involved.
5. On receipt of a written grievance, the following steps will occur. The final step must be completed within 30 business days from the date the grievance was received. The program must store documentation of the grievance for seven years. Significant grievances that set a precedent may be stored indefinitely.
    a. The grievance advisor or program director will convene a faculty committee composed of at least three members to manage the grievance. Any faculty member involved in the grievance or who feels that they cannot be impartial may not participate in the committee. Committee composition should reflect diverse viewpoints within the program.
    b. The faculty committee, through the grievance advisor or program director, will obtain a written response from the person or persons toward whom the grievance is directed. The grievance advisor or program director will inform this person that their response will be shared with the student filing the grievance.
    c. The grievance advisor or program director will share the response with the student filing the grievance.
    d. The faculty committee will make a decision regarding the grievance. The committee's review shall be fair, impartial, and timely. The grievance advisor or program director will report on the action taken by the committee in writing to both the student and the person toward whom the grievance was directed.
6. If either party (the student or the person or persons toward whom the grievance is directed) is unsatisfied with the decision of the program's faculty committee, the party may file a written appeal to the SMPH senior associate dean for basic research, biotechnology and graduate studies within 10 business days from the date of notification of the program's faculty committee. The following steps will occur:
    a. The grievant will be notified in writing, within 5 business days of the written appeal, acknowledging receipt of the formal appeal and establishing a timeline for the review to be completed.
    b. The senior associate dean or their designee may request additional materials and/or arrange meetings with the grievant and/or others. If meetings occur, the senior associate dean or their designee will meet with both the grievant and the person or persons toward whom the grievance is directed.
    c. The senior associate dean or their designee will assemble an ad hoc committee of faculty from outside of the student's graduate program and ask them to prepare a written recommendation on whether to uphold or reverse the decision of the program on the student's initial grievance. The committee may request additional materials and/or arrange meetings with the grievant and/or others. If meetings occur, the committee will meet with both the grievant and the person or persons toward whom the grievance is directed.
    d. The senior associate dean or their designee will make a final decision within 20 business days of receipt of the committee's recommendation.
    e. The SMPH Office of Basic Research, Biotechnology, and Graduate Studies must store documentation of the grievance for seven years. Grievances that set a precedent may be stored indefinitely.
7. The student may file an appeal of the School of Medicine and Public Health decision with the Graduate School. See the Grievances and Appeals section of the Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/documents/grievances-and-appeals/).

**Time Limits**

Steps in the grievance procedures must be initiated and completed within the designated time periods except when modified by mutual consent. If

the student fails to initiate the next step in the grievance procedure within the designated time period, the grievance will be considered resolved by the decision at the last completed step.

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Articulates research problems, potentials, and limits with respect to their research and how it relates to the field of cancer biology.
2. Formulates novel ideas, concepts/hypotheses, designs experiments to test the hypotheses, and shows proficiency in the necessary techniques to carry out their dissertation research.
3. Creates and carries out scholarly research that asks a novel and important biological question and makes a substantive contribution to the field of cancer research.
4. Demonstrates the breadth of their knowledge through thoughtful and creative design of their research and their ability to answer questions from varied audiences.
5. Advances contributions in cancer biology to society through publication, presentations at national and international meetings, and various outreach activities.
6. Communicates complex ideas in a clear and understandable manner both in their oral and written presentations.
7. Fosters ethical and professional conduct in all aspects related to their development as a scientist.

# CANCER BIOLOGY, PHD

The Cancer Biology, PhD program is a member of the **Interdisciplinary Biological and Health Sciences Consortium (IBHSC)**. The consortium fosters a collaborative environment for research and study in the biological and health sciences. Click here for more information on the IBHSC. (https://www.med.wisc.edu/education/graduate-programs/biological-health-sciences-consortium/)

The graduate program in cancer biology offers a course of study and research leading to the PhD degree. Although a master's degree is offered under special circumstances, students are not admitted for a master's degree.

The Cancer Biology Graduate Program was established at the McArdle Laboratory for Cancer Research in 1940 as the first graduate program in the United States to offer a degree in basic cancer research. The program now includes more than 50 faculty trainers from multiple departments including Oncology, Medicine, Human Oncology, Cell and Regenerative Biology, Medical Microbiology and Immunology, and others. This interdepartmental structure offers students remarkably diverse training opportunities that span the entire breadth of cancer biology research from haploid or diploid genetics, viral and chemical carcinogenesis, eukaryotic cell and molecular biology, virology, molecular toxicology, and whole-animal carcinogenesis. Through the graduate curriculum, students are introduced to the body of knowledge that has been derived directly from experiments on the induction, properties, and therapy of cancer, and receive the necessary background to conduct independent research.

Curriculum requirements are designed to be flexible, providing a maximal opportunity for specialization within this multidisciplinary field. Students learn through core and elective courses; by participation in seminars, conferences, and journal clubs related to their specific areas of expertise; and most important, from their research advisors. Students who join the program select research advisors after conducting a minimum of three month-long rotations in different laboratories during the first semester. After choosing an advisor, students will also create an advisory committee of five faculty members who will provide guidance throughout the process of earning the PhD degree. The average time to complete the PhD is 5.5 years. The program prepares students for careers in teaching and research in academia, government, and industry.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | November 15 |
| Spring Deadline | The program does not admit in the spring. |
| Summer Deadline | This program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

Students seeking admission to the program must complete a bachelor's degree in biology, biochemistry, chemistry, molecular biology, or a related area from an accredited college or university and should have a grade point average of at least 3.0 (on a 4.0 scale). The background of the applicant should include basic courses in these areas as well as several advanced courses in chemistry, microbiology, biochemistry, genetics,

physiology, and molecular biology. Prior laboratory research experience is highly desirable.

Applicants must submit a completed online application, personal statement (reasons for graduate study), unofficial college transcripts, updated CV/resume (highlighting laboratory experience), and three letters of recommendation.

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

The program is committed to ensuring continuing financial support for all cancer biology PhD students in good standing. Financial support includes a competitive stipend and tuition remission. All graduate students are also eligible for comprehensive health insurance. PhD students are supported from a variety of different sources including research assistantships from faculty research grants, fellowships, and NIH training grants. There is no teaching requirement for cancer biology students; however, many opportunities exist on campus for those who wish to gain teaching experience.

Students are admitted into the Cancer Biology Program as a Research Assistant (RA) unless they have received a fellowship or training grant. Find more information here (https://cancerbiotraininggrant.mcardle.wisc.edu/).

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 51 credits |
| Minimum Residence Credit Requirement | 32 credits |
| Minimum Graduate Coursework Requirement | 26 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | Students must earn a B or above in all required Core Courses, otherwise the course must be repeated. |
| Assessments and Examinations | All doctoral students must pass an oral preliminary examination. All requirements for a doctoral degree, except for the dissertation, must be completed at this time.<br><br>Six months before the final oral defense, all doctoral students must present a semifinal dissertation proposal to their committee for approval.<br><br>All doctoral students must pass a final oral defense of their doctoral dissertation and subsequently deposit the dissertation in the Graduate School. |
| Language Requirements | No language requirements. |

| | |
|---|---|
| Graduate School Breadth Requirement | The Cancer Biology Program does not require students to complete a doctoral minor or graduate/professional certificate; however, the option is available to those who wish to do so. Acceptance of the minor or certificate requires the approval of the Advisor and respective department in which the minor or certificate is administered.<br><br>If you wish to complete a minor or certificate, you must inform the Program Coordinator of your minor option selection by the end of the first year. The minor or certificate must be approved by your Certification Committee and must be completed along with the major course requirements by the end of your second year. Please note that breadth coursework may count towards the elective course requirements. |

## REQUIRED COURSES

The curriculum for Cancer Biology is designed to introduce you to research related to the induction, properties, and therapy of cancer and to ensure that you have the necessary background in one or more areas of related, fundamental science to enable you to do original research. Courses are drawn from the Department of Oncology as well as various related departments, including Bacteriology, Biochemistry, Biomolecular Chemistry, Chemistry, Genetics, Human Oncology, Medical Microbiology and Immunology, Pathology and Laboratory Medicine, and Pharmacology.

The Graduate School at UW-Madison requires PhD students to complete a minimum of 51 credits in order to obtain a PhD Degree. These credits are fulfilled via core curriculum courses, 990 research, and electives. Courses numbered below 300, audit, and pass/fail do not satisfy the minimum requirement. It is suggested that you take approximately 2 courses per semester with the remaining credits being 990 research. All courses must be completed by the end of your second year, before completing the Preliminary Exam.

| Code | Title | Credits |
|---|---|---|
| **Core Courses** | | |
| ONCOLOGY/ M M & I/ PL PATH 640 | General Virology-Multiplication of Viruses | 3 |
| ONCOLOGY 703 | Carcinogenesis and Tumor Cell Biology | 3 |
| MED HIST 950 | Responsible Conduct of Research | 1 |
| ONCOLOGY 725 | Readings in Cancer Biology | 2 |
| ONCOLOGY 735 | Grant Writing in Cancer Biology | 2 |
| ONCOLOGY 901 | Seminar (presentation) [1] | 1 |
| **Research Credits** | | **minimum 28** |
| ONCOLOGY 990 | Research [2] | |
| **Quantitative Requirement** | | |
| B M I/STAT 541 | Introduction to Biostatistics | 3 |
| or ONCOLOGY 778 | Bioinformatics for Biologists | |
| **Electives (two courses) [3]** | | **3-6** |
| **Total Credits** | | **51** |

1 Beginning in your second year, you will be required to give an annual, formal presentation in the Cancer Biology Student/Postdoc Seminar Series. **Attendance at this seminar series is required**.

In addition, you are expected to attend the Cancer Biology Seminar throughout your graduate career. The schedule is posted on the McArdle website (https://mcardle.wisc.edu/seminar-schedules/).

2 Students will enroll in up to 12 credits per semester as pre-dissertators (only 2 credits during the summer term).

3 Students must select electives in consultation with their advisor. These courses should be numbered 500 and above. The list below provides some examples of commonly taken courses.

### Suggested Electives

| Code | Title | Credits |
|---|---|---|
| BIOCHEM 601 | Protein and Enzyme Structure and Function | 2 |
| BIOCHEM/ GENETICS/ MICROBIO 612 | Prokaryotic Molecular Biology | 3 |
| PATH-BIO/ M M & I 528 | Immunology | 3 |
| M M & I 740 | Mechanisms of Microbial Pathogenesis | 3 |
| PATH 803 | Pathogenesis of Major Human Diseases | 3 |
| BIOCHEM/ GENETICS/ MD GENET 620 | Eukaryotic Molecular Biology | 3 |
| BIOCHEM 625 | Mechanisms of Action of Vitamins and Minerals | 2 |
| CRB 640 | Fundamentals of Stem Cell and Regenerative Biology | 3 |
| CRB 650 | Molecular and Cellular Organogenesis | 3 |
| CRB/MEDICINE 701 | Cell Signaling and Human Disease | 1 |
| B M E 520 | Stem Cell Bioengineering | 3 |
| CBE/B M E 783 | Design of Biological Molecules | 3 |
| PATH 750 | Cellular and Molecular Biology/ Pathology | 2 |
| M M & I/PATH-BIO 750 | Host-Parasite Relationships in Vertebrate Viral Disease | 3 |

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program approval, students may transfer no more than 9 credits of graduate coursework from other institutions. Coursework earned ten or

more years prior to admission to a doctoral degree is not allowed to satisfy requirements.

### Undergraduate Credits Earned at other Institutions or UW-Madison

With program approval, students may transfer no more than 7 credits numbered 300 or above from a UW–Madison undergraduate degree, or the equivalent from other institutions.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW-Madison

With program approval, students may transfer no more than 15 credits of coursework numbered 300 or above taken as a UW–Madison Special student. Coursework earned ten or more years prior to admission to a doctoral degree is not allowed to satisfy requirements.

## PROBATION

A semester GPA below 3.0 or an incomplete grade (I) will result in the student being placed on academic probation. If a semester GPA of 3.0 is not attained or the Incomplete grade is not cleared during the subsequent semester of full- time enrollment, the student may be dismissed from the program or allowed to continue for 1 additional semester based on advisor appeal to the Graduate School.

## ADVISOR / COMMITTEE

All students are required to have an advisor. Students must create a certification committee (advisor plus four additional faculty members) by the end of their first year. After passing their preliminary examination, students are required to conduct a progress report meeting with their certification committee each year. Failure to do so may result in a hold being placed on the student's registration.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

All doctoral students must pass their preliminary examination by the end of their second year (August 31). Under special circumstances, a one-semester extension may be granted when justified in writing by the student and advisor.

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

### Grievance Policy for Graduate Programs in the School of Medicine and Public Health

Any student in a School of Medicine and Public Health graduate program who feels that they have been treated unfairly in regards to educational decisions and/or outcomes or issues specific to the graduate program, including academic standing, progress to degree, professional activities, appropriate advising, and a program's community standards by a faculty member, staff member, postdoc, or student has the right to complain about the treatment and to receive a prompt hearing of the grievance following these grievance procedures. Any student who discusses, inquiries about, or participates in the grievance procedure may do so openly and shall not be subject to intimidation, discipline, or retaliation because of such activity. Each program's grievance advisor is listed on the "Research" tab of the SMPH intranet (https://intranet.med.wisc.edu/).

#### Exclusions

This policy does not apply to employment-related issues for Graduate Assistants in TA, PA and/or RA appointments. Graduate Assistants will utilize the Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/) (GAPP) grievance process to resolve employment-related issues.

This policy does not apply to instances when a graduate student wishes to report research misconduct. For such reports refer to the UW-Madison Policy for Reporting Research Misconduct for Graduate Students and Postdoctoral Research Associates (https://research.wisc.edu/kb-article/?id=84924).

#### Requirements for Programs

The School of Medicine and Public Health Office of Basic Research, Biotechnology and Graduate Studies requires that each graduate program designate a grievance advisor, who should be a tenured faculty member, and will request the name of the grievance advisor annually. The program director will serve as the alternate grievance advisor in the event that the grievance advisor is named in the grievance. The program must

notify students of the grievance advisor, including posting the grievance advisor's name on the program's Guide page and handbook.

The grievance advisor or program director may be approached for possible grievances of all types. They will spearhead the grievance response process described below for issues specific to the graduate program, including but not limited to academic standing, progress to degree, professional activities, appropriate advising, and a program's community standards. They will ensure students are advised on reporting procedures for other types of possible grievances and are supported throughout the reporting process. Resources (https://grad.wisc.edu/current-students/#reporting-incidents) on identifying and reporting other issues have been compiled by the Graduate School.

**Procedures**

1. The student is advised to initiate a written record containing dates, times, persons, and description of activities, and to update this record while completing the procedures described below.
2. If the student is comfortable doing so, efforts should be made to resolve complaints informally between individuals before pursuing a formal grievance.
3. Should a satisfactory resolution not be achieved, the student should contact the program's grievance advisor or program director to discuss the complaint. The student may approach the grievance advisor or program director alone or with a UW-Madison faculty or staff member. The grievance advisor or program director should keep a record of contacts with regards to possible grievances. The first attempt is to help the student informally address the complaint prior to pursuing a formal grievance. The student is also encouraged to talk with their faculty advisor regarding concerns or difficulties.
4. If the issue is not resolved to the student's satisfaction, the student may submit a formal grievance to the grievance advisor or program director in writing, within 60 calendar days from the date the grievant first became aware of, or should have become aware of with the exercise of reasonable diligence, the cause of the grievance. To the fullest extent possible, a grievance shall contain a clear and concise statement of the grievance and indicate the issue(s) involved, the relief sought, the date(s) the incident or violation took place, and any specific policy involved.
