Research in the department explores the interconnections across scales of biological organization, from molecular and cellular interactions to ecosystem-level studies, in both managed and natural systems, and from basic to applied research. Faculty members collaborate with colleagues in other departments in the College of Agricultural and Life Sciences, and beyond the college and university.

Graduate education in the Department of Entomology provides many opportunities for collaborative research. Faculty members participate in joint instructional programs with other departments on campus and with scientists at other universities, in federal and state agencies, and in industry. Because several entomology faculty members are also adjunct professors in zoology, forest and wildlife ecology, molecular and environmental toxicology, and other departments, they may serve as primary advisers to graduate students majoring in those fields. Opportunities exist to conduct research in a variety of distant tropical and temperate regions, to gain experience in classroom instruction and individual mentoring, and to participate in outreach activities such as addressing K–12 classes, naturalist groups, and commodity producers.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 1 |
| Spring Deadline | October 1 |
| Summer Deadline | December 1 |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

## APPLICATION

The Graduate School sets minimum requirements for admissions (https://grad.wisc.edu/admissions/requirements/). Academic program admission requirements are often more rigorous than those set by the Graduate School. Please check the program's website (https://entomology.wisc.edu/graduate-study/application-process/) for details.

### Application Materials and Checklist

Each applicant must complete the following:

- **Graduate School Application Form and Application Fee**
  - All applicants must complete the Graduate School's online application (https://grad.wisc.edu/apply/)
  - Submission of the application must be accompanied by the one-time application fee. See the Graduate School for FAQs (https://grad.wisc.edu/apply/) about application fee grants. Fee grants are only available through the conditions outlined here by the Graduate School (https://grad.wisc.edu/apply/fee-grant/). The Department of Entomology has limited fee grants to offer. Please contact the Graduate Program Manager to learn more.
- **Academic Transcript:** Within the online application, upload undergraduate transcript(s) and, if applicable, the previous graduate transcript. Unofficial copies of transcripts are required for review, but official copies are required for applicants recommended for admission. Please do not send transcripts or any other application materials to the Graduate School or the Department of Entomology unless requested. Review the requirements set by the Graduate School (https://grad.wisc.edu/apply/requirements/) for additional information about degrees/transcripts.
- **Statement of Purpose:** In the statement of purpose, applicants should explain why they want to pursue further education in Entomology at UW-Madison (see the Graduate School for more advice on how to structure a personal statement (https://grad.wisc.edu/apply/prepare/)).
- **Resume:** Upload your resume in your application.
- **Three Letters of Recommendation:** These letters are required from people who can accurately judge the applicant's academic and/or work performance. Letters of recommendation are submitted electronically to graduate programs through the online application. See the Graduate School for FAQs (https://grad.wisc.edu/apply/) regarding letters of recommendation. Letters of recommendation are due by the deadline listed above.
- **English Proficiency Score:** If applicable – refer to table above.

### Background Education

- Degree: Most applicants have a Bachelor of Science in a biological science discipline. Applicants with an undergraduate degree in other physical or natural sciences will be considered for admission. International applicants must have a degree comparable to a regionally accredited US bachelor's degree; biological, physical or natural sciences preferred.
- GPA: The minimum GPA to be reviewed by the admission committee is 3.0/4.0.

### Faculty Advisors

Applicants are strongly encouraged to reach out to program faculty before applying. Admittance depends on appropriate fit within a research lab and the faculty member's ability to fund a graduate student throughout their degree program.

## REENTRY ADMISSIONS

The program follows the Graduate School: Readmission (https://policy.wisc.edu/library/UW-1230/) policy. Applicants should contact the Graduate Program Manager with questions.

## CURRENTLY ENROLLED GRADUATE STUDENT ADMISSIONS

Current UW-Madison graduate students who wish to add or change program should contact the Graduate Program Manager with questions.

# FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

Additional information regarding funding for Entomology graduate students is available on the departmental website (https://entomology.wisc.edu/).

# REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 15 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | n/a |
| Assessments and Examinations | Students are required to hold a coursework certification meeting, submit certification paperwork, and hold a final defense exam. |
| Language Requirements | None. |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Core Course** | | |
| ENTOM/ ZOOLOGY 302 | Introduction to Entomology | 4 |
| **Core Categories** | | |
| Students must complete a total of 2 courses for a minimum of 6 credits. The courses must be from different categories. | | 6-8 |
| *Organismal* | | |
| ENTOM 331 | Taxonomy of Mature Insects | |
| ENTOM 344 | From Flowers to Food: Pollinator Ecology and Conservation | |
| ENTOM 432 | Taxonomy and Bionomics of Immature Insects | |
| ENTOM 450 | Basic and Applied Insect Ecology | |
| ENTOM/ BOTANY/ ZOOLOGY 473 | Plant-Insect Interactions | |
| ENTOM 490 | Biodiversity and Global Change | |
| ENTOM 701 | Advanced Taxonomy | |
| *Sub-organismal* | | |
| ENTOM 321 | Physiology of Insects | |
| ENTOM/ BOTANY/ PL PATH 505 | Plant-Microbe Interactions: Molecular and Ecological Aspects | |
| ENTOM/ GENETICS/ ZOOLOGY 624 | Molecular Ecology | |
| *Applied* | | |

| | | |
|---|---|---|
| ENTOM 344 | From Flowers to Food: Pollinator Ecology and Conservation | |
| ENTOM/M M & I/ PATH-BIO/ ZOOLOGY 350 | Parasitology | |
| ENTOM 351 | Principles of Economic Entomology | |
| ENTOM/ ZOOLOGY 371 | Medical Entomology: Biology of Vector and Vector-borne Diseases | |
| ENTOM 450 | Basic and Applied Insect Ecology | |
| ENTOM 490 | Biodiversity and Global Change | |
| **Seminars** | | |
| Students should select seminars in consultation with their advisor, which may include seminars from outside departments. | | 2 |
| ENTOM 801 | Colloquium | |
| ENTOM/ BOTANY/ F&W ECOL/ ZOOLOGY 821 | Foundations of Ecology | |
| ENTOM 901 | Seminar in Organismal Entomology | |
| or ENTOM 875 | Special Topics | |
| **Additional Credits** | | |
| Students must take additional credits, in consultation with their advisor, to reach a total of 30 credits. This may include ENTOM 990. | | 16-18 |
| **Total Credits** | | **30** |

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

Students may transfer up to 14 credits of graduate coursework earned at another institution. The use of prior coursework requires Advisory Committee and Academic Affairs Committee approval. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy. The use of prior coursework requires Advisory Committee and Academic Affairs Committee approval. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

With Advisory Committee and Academic Affairs Committee approval, the student may transfer up to 15 University Special student credits in fulfillment of the graduate degree credit requirements on occasion as an exception (on a case-by-case basis). UW–Madison coursework taken as a University Special student would not be applied toward the Minimum Graduate Coursework (50%) Requirement unless taken in coursework numbered 700 or above or as part of a capstone certificate. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Refer to the Graduate School: Advisor (https://policy.wisc.edu/library/UW-1232/) and Graduate School: Committees (Doctoral/Master's/MFA) (https://policy.wisc.edu/library/UW-1201/) policies.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)

- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

### College of Agricultural and Life Sciences: Grievance Policy

In the College of Agricultural and Life Sciences (CALS), any student who feels unfairly treated by a member of the CALS faculty or staff has the right to complain about the treatment and to receive a prompt hearing. Some complaints may arise from misunderstandings or communication breakdowns and be easily resolved; others may require formal action. Complaints may concern any matter of perceived unfairness.

To ensure a prompt and fair hearing of any complaint, and to protect the rights of both the person complaining and the person at whom the complaint is directed, the following procedures are used in the College of Agricultural and Life Sciences. Any student, undergraduate or graduate, may use these procedures, except employees whose complaints are covered under other campus policies.

1. The student should first talk with the person at whom the complaint is directed. Most issues can be settled at this level. Others may be resolved by established departmental procedures.
2. If the student is unsatisfied, and the complaint involves any unit outside CALS, the student should seek the advice of the dean or director of that unit to determine how to proceed.
   a. If the complaint involves an academic department in CALS the student should proceed in accordance with item 3 below.
   b. If the grievance involves a unit in CALS that is not an academic department, the student should proceed in accordance with item 4 below.
3. The student should contact the department's grievance advisor within 120 calendar days of the alleged unfair treatment. The departmental administrator can provide this person's name. The grievance advisor will attempt to resolve the problem informally within 10 working days of receiving the complaint, in discussions with the student and the person at whom the complaint is directed.
   a. If informal mediation fails, the student can submit the grievance in writing to the grievance advisor within 10 working days of the date the student is informed of the failure of the mediation attempt by the grievance advisor. The grievance advisor will provide a copy to the person at whom the grievance is directed.
   b. The grievance advisor will refer the complaint to a department committee that will obtain a written response from the person at whom the complaint is directed, providing a copy to the student. Either party may request a hearing before the committee. The grievance advisor will provide both parties a written decision within 20 working days from the date of receipt of the written complaint.
   c. If the grievance involves the department chairperson, the grievance advisor or a member of the grievance committee, these persons may not participate in the review.
   d. If not satisfied with departmental action, either party has 10 working days from the date of notification of the departmental committee action to file a written appeal to the CALS Equity and Diversity Committee. A subcommittee of this committee will make a preliminary judgement as to whether the case merits further investigation and review. If the subcommittee unanimously determines that the case does not merit further investigation and review, its decision is final. If one or more members of the subcommittee determine that the case does merit further investigation and review, the subcommittee will investigate and seek to resolve the dispute through mediation. If this mediation attempt fails, the subcommittee will bring the case to the full committee. The committee may seek additional information from the parties or hold a hearing. The committee will present a written recommendation to the dean who will provide a final decision within 20 working days of receipt of the committee recommendation.
4. If the alleged unfair treatment occurs in a CALS unit that is not an academic department, the student should, within 120 calendar days of the alleged incident, take his/her grievance directly to the Associate Dean of Academic Affairs. The dean will attempt to resolve the problem informally within 10 working days of receiving the complaint. If this mediation attempt does not succeed the student may file a written complaint with the dean who will refer it to the CALS Equity and Diversity Committee. The committee will seek a written response from the person at whom the complaint is directed, subsequently following other steps delineated in item 3d above.

### OTHER

n/a

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

### PROGRAM RESOURCES

Students in the Department of Entomology are strongly encourage to participate in student organization activities (https://entomology.wisc.edu/graduate-study/student-organizations/).

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Develop a broad knowledge base of entomology, inclusive of suborganismal, organismal, and applied entomology.
2. Knowledge of laboratory and/or field methodology.
3. Recognize relationships between structure and function at appropriate levels- molecular, cellular, organismal or ecological.
4. Explain and apply scientific methods including designing and conducting experiments and testing hypotheses.

# ENTOMOLOGY, PHD

The department is a diverse unit of researchers whose work spans the areas of suborganismal, organismal, and applied entomology. Research

programs of the faculty are broadly interdisciplinary employing cutting edge technology in all areas. Individual faculty web pages provide in-depth descriptions of the diversity of research in entomology.

**Suborganismal:** Research in the department focuses on insect physiology and population genetics. Areas of specialization include the molecular action of insect hormones and the insect/microbiome interface. Studies of gene flow utilize various molecular methods. Genomic data are used to understand adaptation, gene flow on landscapes, the genetic basis of phenotypes, and the phylogenetic relationships of insect species.

**Organismal:** Entomology faculty members are leaders in the areas of basic ecology of insects in a variety of natural and managed systems, such as forests, lakes, and agroecosystems. Studies in taxonomy, chemical ecology, spatial analysis, vector biology, behavioral ecology, and landscape ecology have strong representation in the department. Research examines how they affect crops and forests, influence ecosystem processes such as nutrient and carbon cycling and the "services" they provide in natural and managed ecosystems such as pollination and pest suppression.

**Applied/Extension:** Faculty in the department extend a long tradition of research on insects as they impact humans. Excellence in agricultural research continues in vegetable crops, field and forage crops, and the turf and ornamental "green industry" where work has continued to advance the application of integrated pest management in agricultural systems. Basic research conducted by faculty in cropping systems also has implications for pest management, conservation, bioenergy, and resource management. This research extends to global health issues focusing on arthropod-borne diseases and insects as a novel food source.

Research in the department explores the interconnections across scales of biological organization, from molecular and cellular interactions to ecosystem-level studies, in both managed and natural systems, and from basic to applied research. Faculty members collaborate with colleagues in other departments in the College of Agricultural and Life Sciences, and beyond the college and university.

Graduate education in the Department of Entomology provides many opportunities for collaborative research. Faculty members participate in joint instructional programs with other departments on campus and with scientists at other universities, in federal and state agencies, and in industry. Because several entomology faculty members are also adjunct professors in zoology, forest and wildlife ecology, molecular and environmental toxicology, and other departments, they may serve as primary advisers to graduate students majoring in those fields. Opportunities exist to conduct research in a variety of distant tropical and temperate regions, to gain experience in classroom instruction and individual mentoring, and to participate in outreach activities such as addressing K–12 classes, naturalist groups, and commodity producers.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 1 |
| Spring Deadline | October 1 |
| Summer Deadline | December 1 |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

## APPLICATION

The Graduate School sets minimum requirements for admissions (https://grad.wisc.edu/admissions/requirements/). Academic program admission requirements are often more rigorous than those set by the Graduate School. Please check the program's website (https://entomology.wisc.edu/graduate-study/application-process/) for details.

### Application Materials and Checklist

Each applicant must complete the following:

- **Graduate School Application Form and Application Fee**
  - All applicants must complete the Graduate School's online application (https://grad.wisc.edu/apply/)
  - Submission of the application must be accompanied by the one-time application fee. See the Graduate School for FAQs (https://grad.wisc.edu/apply/) about application fee grants. Fee grants are only available through the conditions outlined here by the Graduate School (https://grad.wisc.edu/apply/fee-grant/). The Department of Entomology has limited fee grants to offer. Please contact the Graduate Program Manager to learn more.
- **Academic Transcript:** Within the online application, upload undergraduate transcript(s) and, if applicable, the previous graduate transcript. Unofficial copies of transcripts are required for review, but official copies are required for applicants recommended for admission. Please do not send transcripts or any other application materials to the Graduate School or the Department of Entomology unless requested. Review the requirements set by the Graduate School (https://grad.wisc.edu/apply/requirements/) for additional information about degrees/transcripts.
- **Statement of Purpose:** In the statement of purpose, applicants should explain why they want to pursue further education in Entomology at UW-Madison (see the Graduate School for more advice on how to structure a personal statement (https://grad.wisc.edu/apply/prepare/)).
- **Resume:** Upload your resume in your application.
- **Three Letters of Recommendation:** These letters are required from people who can accurately judge the applicant's academic and/or work performance. Letters of recommendation are submitted electronically to graduate programs through the online application. See the Graduate School for FAQs (https://

grad.wisc.edu/apply/) regarding letters of recommendation. Letters of recommendation are due by the deadline listed above.

- **English Proficiency Score:** If applicable – refer to table above.

### Background Education

- Degree: Most applicants have a Bachelor of Science or Master of Science in a biological science discipline. Applicants with an undergraduate degree in other physical or natural sciences will be considered for admission. International applicants must have a degree comparable to a regionally accredited US bachelor's degree; biological, physical or natural sciences preferred.
- GPA: The minimum GPA to be reviewed by the admission committee is 3.0/4.0.

### Faculty Advisors

Applicants are strongly encouraged to reach out to program faculty before applying. Admittance depends on appropriate fit within a research lab and the faculty member's ability to fund a graduate student throughout their degree program.

### Reentry Admissions

The program follows the Graduate School: Readmission (https://policy.wisc.edu/library/UW-1230/) policy. Applicants should contact the Graduate Program Manager with questions.

### Currently Enrolled Graduate Student Admissions

Current UW-Madison graduate students who wish to add or change program should contact the Graduate Program Manager with questions.

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

### College of Agricultural and Life Sciences: Grievance Policy

In the College of Agricultural and Life Sciences (CALS), any student who feels unfairly treated by a member of the CALS faculty or staff has the right to complain about the treatment and to receive a prompt hearing. Some complaints may arise from misunderstandings or communication breakdowns and be easily resolved; others may require formal action. Complaints may concern any matter of perceived unfairness.

To ensure a prompt and fair hearing of any complaint, and to protect the rights of both the person complaining and the person at whom the complaint is directed, the following procedures are used in the College of Agricultural and Life Sciences. Any student, undergraduate or graduate, may use these procedures, except employees whose complaints are covered under other campus policies.

1. The student should first talk with the person at whom the complaint is directed. Most issues can be settled at this level. Others may be resolved by established departmental procedures.
2. If the student is unsatisfied, and the complaint involves any unit outside CALS, the student should seek the advice of the dean or director of that unit to determine how to proceed.
   a. If the complaint involves an academic department in CALS the student should proceed in accordance with item 3 below.
   b. If the grievance involves a unit in CALS that is not an academic department, the student should proceed in accordance with item 4 below.
3. The student should contact the department's grievance advisor within 120 calendar days of the alleged unfair treatment. The departmental administrator can provide this person's name. The grievance advisor will attempt to resolve the problem informally within 10 working days of receiving the complaint, in discussions with the student and the person at whom the complaint is directed.
   a. If informal mediation fails, the student can submit the grievance in writing to the grievance advisor within 10 working days of the date the student is informed of the failure of the mediation attempt by the grievance advisor. The grievance advisor will provide a copy to the person at whom the grievance is directed.
   b. The grievance advisor will refer the complaint to a department committee that will obtain a written response from the person at whom the complaint is directed, providing a copy to the student. Either party may request a hearing before the committee. The grievance advisor will provide both parties a written decision within 20 working days from the date of receipt of the written complaint.
   c. If the grievance involves the department chairperson, the grievance advisor or a member of the grievance committee, these persons may not participate in the review.
   d. If not satisfied with departmental action, either party has 10 working days from the date of notification of the departmental committee action to file a written appeal to the CALS Equity and Diversity Committee. A subcommittee of this committee will make a preliminary judgement as to whether the case merits further investigation and review. If the subcommittee unanimously determines that the case does not merit further investigation and review, its decision is final. If one or more members of the subcommittee determine that the case does merit further investigation and review, the subcommittee will investigate and seek to resolve the dispute through mediation. If this mediation attempt fails, the subcommittee will bring the case to the full committee. The committee may seek additional information from the parties or hold a hearing. The committee will present a written recommendation to the dean who will provide a final decision within 20 working days of receipt of the committee recommendation.
4. If the alleged unfair treatment occurs in a CALS unit that is not an academic department, the student should, within 120 calendar days of the alleged incident, take his/her grievance directly to the Associate Dean of Academic Affairs. The dean will attempt to resolve the problem informally within 10 working days of receiving the complaint. If this mediation attempt does not succeed the student may file a written complaint with the dean who will refer it to the CALS Equity and Diversity Committee. The committee will seek a written response from the person at whom the complaint is directed, subsequently following other steps delineated in item 3d above.

# BUSINESS: FINANCE, INVESTMENT, AND BANKING, MBA

**The Business: Finance, Investment, and Banking, MBA no longer admits new students after Fall 2026 and the program will be discontinued Fall 2029.** If you have any questions, please contact the department (see contact box).

Founded in 1900, the School of Business established one of the first five business programs in the nation. That entrepreneurial spirit remains strong.

As a student in the School of Business, you will find yourself inspired by peers, staff, alumni, business leaders, and world-renowned faculty who are focused, collaborative, and engaged in every aspect of the student experience. You will join a highly ranked program that equips you to meet both academic and career challenges. Employers value School of Business graduates because of the comprehensive preparation this learning environment provides. Graduates possess highly sought-after general management and specialized expertise in business.

Joining collaborative, inspiring, trustworthy, and progressive School of Business alumni, Business Badgers graduate prepared to lead their organizations to success and transform the world of business. Together Forward!

# NAMED OPTION IN APPLIED SECURITY ANALYSIS

The Wisconsin MBA in Business: Finance, Investment and Banking named option Applied Security Analysis Program (ASAP) at the School of Business was founded in 1970 by Professor Stephen L. Hawk. Over 700 students have graduated from the program. Each graduate enters the investment community with the unique educational experience of learning the investment business through hands-on management of real portfolios. Beginning with $100,000 in 1970, students now manage over $25 million in equities and fixed-income assets. The program is proud to be a pioneer among student-managed investment programs and a CFA® Program Partner. See the program website (https://business.wisc.edu/graduate/mba/full-time/specializations/applied-security-analysis/) for more information.

# NAMED OPTION IN CORPORATE FINANCE AND INVESTMENT BANKING

The Wisconsin MBA in Business: Finance, Investment and Banking named option in Corporate Finance and Investment Banking offers students a unique opportunity to gain practical experience working on meaningful corporate finance consulting engagements. Students work in teams on assigned finance projects for consulting firms, investment banks, public corporations, and private companies. The financial consulting engagements typically involve an analysis of a problem for the engagement sponsors in areas such as working capital management, evaluation of funding sources, valuation, cost of capital, capital expenditure decisions, acquisition analysis, and joint venture and strategic alliances. Additionally, students experience the "real world" of corporate finance through experiential learning opportunities in the Condon Speaker Series, mentoring and career treks. See the program website (https://business.wisc.edu/graduate/mba/full-time/specializations/finance-investment-banking/) for more information.

| Requirements | Detail |
|---|---|
| Fall Deadline | See program webpage: https://business.wisc.edu/graduate/mba/full-time/admissions (https://business.wisc.edu/graduate/mba/full-time/admissions/)/ |
| Spring Deadline | This program does not admit in the spring. |
| Summer Deadline | This program does not admit in the summer. |
| GRE (Graduate Record Examinations) | May be required in certain cases; consult program |
| English Proficiency Test | All applicants whose native language is not English must submit scores from the Test of English as a Foreign Language (TOEFL), the Pearson Test of English (PTE), or the Intensive English as a Second Language (IELTS). A minimum iBT TOEFL score of 100 or equivalent, computer-based PTE score of 73 or equivalent, or IELTS score of 7.5 or equivalent, obtained within two years of the intended start term, is required. International applicants who have completed a degree at an institution whose primary language of instruction was English may request a waiver of this requirement on the application. |
| Other Test(s) (e.g., GMAT, MCAT) | GMAT may be required in certain cases; consult program. |
| Letters of Recommendation Required | 1* |

* Submission of a second letter of recommendation is optional.

There are two pathways to an Business: Finance, Investment, and Banking: Applied Security Analysis Program degree.

1. If you have multiple years of work experience, you must apply to the School of Business MBA program and simultaneously to Business: Finance, Investment, and Banking: Applied Security Analysis Program; otherwise
2. You must apply to the Business: Finance, Investment, and Banking: Applied Security Analysis (p. 811) program directly and you will earn a Master of of Science in Finance, Investment, and Banking (MS) degree.

This page describes the admission process for the MBA degree.

Admission consideration for the MBA program requires a four-year undergraduate degree or the equivalent, in any discipline, from an accredited institution. The School of Business prefers a minimum of two years of professional work experience along with a strong undergraduate performance. In addition to academic credentials, a GMAT or GRE score, and work experience, personal achievements, motivation, communication skills (written and oral), and recommendation letters are all considered in the admission process at the master's and doctoral levels.

**Note:** The Graduate Management Admission Test (GMAT) or Graduate Record Examination (GRE) must have been taken within five years prior to receiving an offer of admission.

## HOW TO APPLY

Students interested in Business degrees do not apply through the Graduate School application system and should instead refer to the

School of Business Admissions page. (https://business.wisc.edu/graduate/mba/full-time/admissions/)

# NAMED OPTION REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 53 credits |
| Minimum Residence Credit Requirement | 47 credits |
| Minimum Graduate Coursework Requirement | 27 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Required Core Courses** | | |
| GEN BUS 704 | Data to Decisions | 2 |
| GEN BUS 710 | Ethics, Integrity and Society | 1 |
| GEN BUS 725 | Consulting Practicum | 1 |
| ACCT I S 700 | Financial Accounting | 2 |
| FINANCE 700 | Introduction to Financial Management | 2 |
| GEN BUS 732 | Economics for Managers | 2 |
| M H R 706 | Leading and Working in Teams | 1 |
| M H R 723 | Business Strategy | 2 |
| MARKETNG 700 | Marketing Management | 2 |
| OTM 700 | Operations and Supply Chain Management | 2 |
| **Required Specialization Courses** | | |
| FINANCE 635 | Business Valuation | 3 |
| FINANCE 645 | Introduction to Applied Security Analysis | 3 |
| FINANCE 646 | Introduction to Applied Portfolio Management | 3 |
| FINANCE 675 | Applied Security Analysis and Investment Management I | 5 |
| FINANCE 676 | Applied Security Analysis and Investment Management II | 4 |
| FINANCE 740 | Analysis of Fixed Income Securities | 3 |
| **Elective Courses** | | |
| See details provided below. | | 15 |
| **Total Credits** | | **53** |

### Approved Electives

- The electives must contain at least one International course. FINANCE/INTL BUS 745 satisfies this requirement.

- Two of the electives can be satisfied by any School of Business course without explicit approval (and one of these can be an international course that satisfies the international requirement).
- The remaining three electives must be selected from the following set:

| Code | Title | Credits |
|---|---|---|
| FINANCE 330 | Derivative Securities | 3 |
| FINANCE 410 | Bank Management | 3 |
| FINANCE 610 | Bank Simulation and Strategy | 3 |
| FINANCE 650 | Mergers and Acquisitions | 2-3 |
| FINANCE 725 | Corporation Finance Theory and Practice | 2-3 |
| FINANCE/ INTL BUS 745 | Multinational Business Finance [1] | 2-3 |
| FINANCE 757 | Entrepreneurial Finance [2] | 2-3 |
| ACCT I S 603 | Financial Statement Analysis | 3 |
| Any other ACCT I S course numbered 600 or higher. | | |
| Any other FINANCE course numbered 600 or higher. | | |

[1] FINANCE/INTL BUS 445 can be taken instead but the graduate version is recommended.

[2] FINANCE 457 can be taken instead but the graduate version is recommended.

Any changes to the elective requirements must be approved in advance by the Applied Security Analysis Program Academic Director.

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# NAMED OPTION-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program and department approval, students may transfer up to 6 credits of graduate coursework completed two years prior to admission at an AACSB accredited institution, in which a grade of B or better was earned.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

No credits from a UW-Madison or other institution undergraduate degree are allowed to transfer toward the degree.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW-Madison

No credits earned as a University Special Student at UW-Madison are allowed to transfer toward the degree.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Every graduate student is required to have an advisor. An advisor is a faculty member, or sometimes a committee, responsible for providing advice regarding graduate studies.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

***Any student who feels that they have been mistreated by a faculty or staff member has the right to lodge a complaint. Complaints may concern course grades, classroom treatment, program admission, or***

***other issues. To ensure a prompt and fair hearing of any complaint and to protect both the student's rights and the person at whom the complaint is addressed, the grievance procedures below are used in the School of Business.***

The person against whom the complaint is directed must be an employee of the School of Business. Any student or potential student may use these procedures unless other campus rules or contracts cover the complaint:

1. If the student feels comfortable/safe doing so, the student should first talk with the person against whom the grievance is directed. Most issues can be settled at this level. If the complaint is directed against a teaching assistant (TA) and the student is not satisfied after discussion of the grievance with the TA, the next step would be to talk to the TA's supervisor, who is usually the course professor. If the complaint is still not resolved satisfactorily, the student may continue to step 2.
2. If the complaint involves an academic department, the student should contact the chair of the department. The chair will attempt to resolve the problem informally. If this cannot be done to the student's satisfaction, the student may submit the grievance to the chair in writing. This must be done within 60 calendar days of the alleged unfair treatment.
    a. If the complaint does not involve an academic department, the procedure outlined in Step 4 below should be followed.
3. On receipt of a written complaint, the chair will refer the matter to a departmental committee, which will obtain a written response from the person at whom the complaint is directed. This response shall be shared with the person filing the grievance. The chair will provide a written decision within 30 days to the student on the action taken by the committee.
4. If either party is not satisfied with the decision, they have five working days from receipt of the decision to contact the dean's office (at the number below), indicating the intention to appeal. If the complaint does not involve an academic department in the school, the student must contact the dean's office within 60 calendar days of the alleged unfair treatment.
5. In either case, there will be an attempt to resolve the issue informally by the appropriate associate dean. If this cannot be done, the complaint can be filed in writing with the Office of the Dean. This must be done within 10 working days of the time the appealing party was notified that informal resolution was unsuccessful.
6. On receipt of such a written complaint, the Sr. Associate Dean for Faculty & Staff will convene a subcommittee of relevant stakeholders pending the nature of the issue. This subcommittee may ask for additional information from the parties involved and may hold a hearing at which both parties will be asked to speak separately. The subcommittee will then make a written recommendation to the dean of the School of Business who will render a decision. Unless a longer time is negotiated, this written decision shall be made within 20 working days from when the grievance was filed with the Office of the Dean.

*Questions about these procedures can be directed to the School of Business, Office of the Dean, 4339 Grainger, 975 University Avenue, 608-262-7867.*

*State law contains additional provisions regarding discrimination and harassment. Wisconsin Statutes 36.12 reads, in part: "No student may be denied admission to, participation in or the benefits of, or be discriminated against in any service, program, course or facility of the system or its institutions or center because of the student's race, color, creed, religion, sex, national origin, disability, ancestry, age, sexual orientation, pregnancy, marital status or parental status." In addition, the UW System prohibits discrimination based on gender identity or gender expression. Students have the right to file discrimination and harassment complaints with the Office of Compliance, 361 Bascom Hall, 608-265-6018, uwcomplianceoffice@wisc.edu.*

The Graduate School has procedures for students wishing to appeal a grievance decision at the school/college level. These policies are described in the Graduate School's Academic Policies and Procedures: https://grad.wisc.edu/documents/grievances-and-appeals/

### OTHER

Students are expected to be enrolled full-time for all semesters. Exceptions may be granted in the final semester.

|---|---|
| English Proficiency Test | All applicants whose native language is not English must submit scores from the Test of English as a Foreign Language (TOEFL), the Pearson Test of English (PTE), or the Intensive English as a Second Language (IELTS). A minimum iBT TOEFL score of 100 or equivalent, computer-based PTE score of 73 or equivalent, or IELTS score of 7.5 or equivalent, obtained within two years of the intended start term, is required. International applicants who have completed a degree at an institution whose primary language of instruction was English may request a waiver of this requirement on the application. |
| Other Test(s) (e.g., GMAT, MCAT) | GMAT may be required in certain cases; consult program. |
| Letters of Recommendation Required | 1* |

* Submission of a second letter of recommendation is optional.

Admission consideration for the MBA program requires a four-year undergraduate degree or the equivalent, in any discipline, from an accredited institution. The School of Business prefers a minimum of two years of professional work experience along with a strong undergraduate performance. In addition to academic credentials, a GMAT or GRE score, and work experience, personal achievements, motivation, communication skills (written and oral), and recommendation letters are all considered in the admission process at the master's and doctoral levels.

**Note:** The Graduate Management Admission Test (GMAT) or Graduate Record Examination (GRE) must have been taken within five years prior to receiving an offer of admission.

## HOW TO APPLY

Students interested in Business degrees do not apply through the Graduate School application system and should instead refer to the School of Business Admissions page. (https://business.wisc.edu/graduate/mba/full-time/admissions/)

| **Elective Courses** | | |
| Students must complete 18 credits of Elective Courses (refer to "Elective Courses: Approved Electives") | | 18 |
| **Total Credits** | | **53** |

### Elective Courses: Approved Electives

In addition to the required MBA core classes and the required Corporate Finance & Investment Banking specialization core classes, this degree allows students to select one or more areas of focus as they pursue their degree. These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript. The pathways are as follows:

- Corporate Finance Pathway
- Investment Banking Pathway
- Entrepreneurial Finance Pathway

Of the 18 elective credits required, one three-credit elective must be a Finance, Investment and Banking (FINANCE (https://guide.wisc.edu/courses/finance/)) course numbered above 300. Students are required to take 12 credits from the approved elective lists (Career Pathways or Other Recommended Electives) below.

The remaining electives can be a Finance, Investment and Banking (FINANCE (https://guide.wisc.edu/courses/finance/)) course numbered above 300 or any course numbered 600 and above from the Business School offerings. Other courses may be used as an elective with the approval of the Nicholas Center Director.

## POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# NAMED OPTION-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program and department approval, students may transfer up to 6 credits of graduate coursework completed two years prior to admission at an AACSB accredited institution, in which a grade of B or better was earned.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

No credits from a UW-Madison or other institution undergraduate degree are allowed to transfer toward the degree.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW-Madison

No credits earned as a University Special Student at UW-Madison are allowed to transfer toward the degree.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Every graduate student is required to have an advisor. An advisor is a faculty member, or sometimes a committee, responsible for providing advice regarding graduate studies.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

***Any student who feels that they have been mistreated by a faculty or staff member has the right to lodge a complaint. Complaints may concern course grades, classroom treatment, program admission, or***

***other issues. To ensure a prompt and fair hearing of any complaint and to protect both the student's rights and the person at whom the complaint is addressed, the grievance procedures below are used in the School of Business.***

The person against whom the complaint is directed must be an employee of the School of Business. Any student or potential student may use these procedures unless other campus rules or contracts cover the complaint:

1. If the student feels comfortable/safe doing so, the student should first talk with the person against whom the grievance is directed. Most issues can be settled at this level. If the complaint is directed against a teaching assistant (TA) and the student is not satisfied after discussion of the grievance with the TA, the next step would be to talk to the TA's supervisor, who is usually the course professor. If the complaint is still not resolved satisfactorily, the student may continue to step 2.
2. If the complaint involves an academic department, the student should contact the chair of the department. The chair will attempt to resolve the problem informally. If this cannot be done to the student's satisfaction, the student may submit the grievance to the chair in writing. This must be done within 60 calendar days of the alleged unfair treatment.
    a. If the complaint does not involve an academic department, the procedure outlined in Step 4 below should be followed.
3. On receipt of a written complaint, the chair will refer the matter to a departmental committee, which will obtain a written response from the person at whom the complaint is directed. This response shall be shared with the person filing the grievance. The chair will provide a written decision within 30 days to the student on the action taken by the committee.
4. If either party is not satisfied with the decision, they have five working days from receipt of the decision to contact the dean's office (at the number below), indicating the intention to appeal. If the complaint does not involve an academic department in the school, the student must contact the dean's office within 60 calendar days of the alleged unfair treatment.
5. In either case, there will be an attempt to resolve the issue informally by the appropriate associate dean. If this cannot be done, the complaint can be filed in writing with the Office of the Dean. This must be done within 10 working days of the time the appealing party was notified that informal resolution was unsuccessful.
6. On receipt of such a written complaint, the Sr. Associate Dean for Faculty & Staff will convene a subcommittee of relevant stakeholders pending the nature of the issue. This subcommittee may ask for additional information from the parties involved and may hold a hearing at which both parties will be asked to speak separately. The subcommittee will then make a written recommendation to the dean of the School of Business who will render a decision. Unless a longer time is negotiated, this written decision shall be made within 20 working days from when the grievance was filed with the Office of the Dean.

*Questions about these procedures can be directed to the School of Business, Office of the Dean, 4339 Grainger, 975 University Avenue, 608-262-7867.*

*State law contains additional provisions regarding discrimination and harassment. Wisconsin Statutes 36.12 reads, in part: "No student may be denied admission to, participation in or the benefits of, or be discriminated against in any service, program, course or facility of the system or its institutions or center because of the student's race, color, creed, religion, sex, national origin, disability, ancestry, age, sexual orientation, pregnancy, marital status or parental status." In addition, the UW System prohibits discrimination based on gender identity or gender expression. Students have the right to file discrimination and harassment complaints with the Office of Compliance, 361 Bascom Hall, 608-265-6018, uwcomplianceoffice@wisc.edu.*

The Graduate School has procedures for students wishing to appeal a grievance decision at the school/college level. These policies are described in the Graduate School's Academic Policies and Procedures: https://grad.wisc.edu/documents/grievances-and-appeals/

### OTHER

Students are expected to be enrolled full-time for all semesters. Exceptions may be granted in the final semester.

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

# BUSINESS: FINANCE, INVESTMENT, AND BANKING, MS

Founded in 1900, the School of Business established one of the first five business programs in the nation. That entrepreneurial spirit remains strong.

As a student in the School of Business, you will find yourself inspired by peers, staff, alumni, business leaders, and world-renowned faculty who are focused, collaborative, and engaged in every aspect of the student experience. You will join a highly ranked program that equips you to meet both academic and career challenges. Employers value School of Business graduates because of the comprehensive preparation this learning environment provides. Graduates possess highly sought-after general management and specialized expertise in business.

Joining collaborative, inspiring, trustworthy, and progressive WSB alumni, Business Badgers graduate prepared to lead their organizations to success and transform the world of business. Together Forward!

## ADMISSIONS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

### MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

#### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

### CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 24 credits |
| Minimum Graduate Coursework Requirement | 15 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | Students may be required to retake a course in which they receive a grade lower than a C. |
| Assessments and Examinations | No required assessments or examinations beyond course requirements. |
| Language Requirements | No language requirements. |

### REQUIRED COURSES

Select the Named Option (p. 810) for courses required.

# NAMED OPTIONS

A named option is a formally documented sub-major within an academic major program. Named options appear on the transcript with degree conferral. Students pursuing the MSB in Business: Finance, Investment and Banking must select one of the following named options:

View as listView as grid

- **BUSINESS: FINANCE, INVESTMENT, AND BANKING: APPLIED SECURITY ANALYSIS, MS (P. 811)**

## POLICIES

# POLICIES

Students should refer to the named option for policy information:

- Applied Security Analysis (p. 811)

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Develop the ability to assess the value of publicly traded equity and fixed income securities.
2. Articulate the common causes of mispriced securities, develop techniques to find these securities, and acquire insight as to how to evaluate the success of their process and decisions.

3. Develop the ability to build portfolios that are designed to produce consistent positive returns and/or outperform benchmarks without taking on significant absolute or incremental risk.
4. Develop the ability to communicate and collaborate effectively within an organization.
5. Understand the importance of ethical behavior within the industry and have an understanding of how to work through ethical dilemmas as they arise.

## ACCREDITATION

# ACCREDITATION

AACSB International—The Association to Advance Collegiate Schools of Business (http://www.aacsb.edu/)

Accreditation status: Accredited. Next accreditation review: 2026–2027.

# BUSINESS: FINANCE, INVESTMENT, AND BANKING: APPLIED SECURITY ANALYSIS, MS

This is a named option in the Business: Finance, Investment, and Banking, MS (p. 809). The Applied Security Analysis Program (ASAP) at the School of Business was founded in 1970 by Professor Stephen L. Hawk. Over 700 students have graduated from the program. Each graduate enters the investment community with the unique educational experience of learning the investment business through hands-on management of real portfolios. Beginning with $100,000 in 1970, students now manage over $17 million in equities and fixed-income assets. The program is proud to be a pioneer among student-managed investment programs and a CFA Program® Partner.

## ADMISSIONS

# ADMISSIONS

| Requirements | Detail |
|---|---|
| Fall Deadline | See Program webpage: https://admissions.wsb.wisc.edu/MSinFinance (https://admissions.wsb.wisc.edu/MSinFinance/) |
| Spring Deadline | This program does not admit in the spring. |
| Summer Deadline | This program does not admit in the summer. |
| GRE (Graduate Record Examinations) | May be required in certain cases; consult program. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | GMAT may substitute for GRE in cases in which it is required; consult program. |
| Letters of Recommendation Required | 0 |

Applications to the program are accepted at any time, with rolling windows of consideration. However, applications received during any academic year and prior to March 15 are given priority for entry into the program in the following fall semester. If you apply after March 15, you may be placed on a wait list.

The Business: Finance, Investment and Banking: Applied Security Analysis Program (ASAP) named option can be earned as an MS or MBA degree. This page describes the admission process for the MS degree. If you seek the MBA degree, please see the admissions information for the FT MBA (https://guide.wisc.edu/graduate/finance/business-finance-investment-banking-mba/business-finance-investment-banking-applied-security-analysis-mba/#admissionstext).

## APPLICATION REQUIREMENTS

If you are not applying as a current student at UW-Madison (p. 812), you must submit as a part of your application:

1. scores for either the GMAT or the GRE exam, or
2. evidence that you have passed the Level I Chartered Financial Analyst (CFA) exam.

### Prerequisites

All prerequisite courses are waived for applicants who have passed the CFA Exam. Otherwise, applicants must have completed courses equivalent to the required prerequisites and must submit for evaluation their transcripts of grades and documentation (course syllabi) describing the equivalent courses. The ASAP Academic Director will establish equivalencies. Credits earned by completing the prerequisites do not satisfy MS degree requirements. Six credits of undergraduate coursework (FINANCE 645 and FINANCE 646 ) may be applied towards the MS degree.

| Code | Title | Credits |
|---|---|---|
| **Completed Prior to Application** | | |
| FINANCE/ ECON 300 | Introduction to Finance | 3 |
| ACCT I S 100 | Introductory Financial Accounting | 3 |
| ECON 101 | Principles of Microeconomics | 4 |
| **Prior or Concurrent Enrollment Required for Application** | | |
| ACCT I S 301 | Financial Reporting I | 3 |
| GEN BUS 306 | Business Analytics I | 3 |
| **Must be Completed Prior to Starting MS Year** | | |
| FINANCE 305 | Financial Markets, Institutions and Economic Activity | 3 |
| or FINANCE 325 | Corporation Finance | |
| or FINANCE 330 | Derivative Securities | |
| FINANCE/ ECON 320 | Investment Theory | 3 |
| FINANCE 340 | Fixed Income Securities | 3 |
| or FINANCE 740 | Analysis of Fixed Income Securities | |
| FINANCE 635 | Business Valuation | 3 |

### Evaluation

As an applicant to the Business: Finance, Investment, and Banking: Applied Security Analysis Program, you will be evaluated on your academic credentials, work experience, personal achievements, motivation, both written and oral communication skills, your international exposure, letters of recommendation, and if you are not an undergraduate student at UW-Madison, your test scores. The application process will include an interview with program leadership.

Importantly, the Business: Finance, Investment, and Banking: Applied Security Analysis Program seeks individuals with a strong desire and commitment to learn the applied science of security analysis and portfolio management. You can demonstrate your commitment in your application in numerous ways. Some of these are to provide evidence of:

1. passage of the first-level Chartered Financial Analyst (CFA) exam,
2. a facility with applied financial modeling,
3. prior coursework in investments, security analysis, and financial accounting,
4. active participation in an investment club (such as the Capital Management Club at the UW-Madison),
5. experience as either an intern or full-time employee in an asset-management company, and/or
6. a desire and willingness to compete in activities such as competitive sports and games.

### University of Wisconsin-Madison Undergraduate Students

If you apply to the Business: Finance, Investment, and Banking: Applied Security Analysis Program as an undergraduate (UG) student at the University of Wisconsin-Madison, and are accepted to the program, you will complete your senior year, earning your undergraduate degree, and then complete a fifth year of study, earning the MS degree. You are not required to submit scores for graduate exams such as the GMAT or the GRE.

## HOW TO APPLY

Students interested in business degrees do not apply through the Graduate School application system and should instead refer to the School of Business Admissions page. (https://admissions.wsb.wisc.edu/MSinFinance/)

| FINANCE 330 | Derivative Securities | |
| FINANCE 410 | Bank Management | |
| Any FINANCE course numbered 600 or higher | | |
| Any ACCT I S course numbered 600 or higher | | |
| **Electives** | | |
| Any School of Business course or approved elective. Electives taken outside of the School of Business are allowed but must be approved in advance by the Applied Security Analysis Program Academic Director. | | 6 |
| **Total Credits** | | **30** |

[1] This course would need to be completed before the start of the program if you wanted to complete the degree in one year. Otherwise, this 30 credit program will require two years to complete due to the required sequencing of the courses.

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# NAMED OPTION-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

No credits of graduate coursework from other institutions is allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

Up to 6 credits from courses numbered 300 or above will be allowed to apply toward the minimum graduate degree credit requirement. Courses numbered 700 or above will be allowed to apply toward the minimum graduate coursework requirement. Coursework earned seven or more years prior to admission to a master's degree is not allowed to satisfy requirements. Credits earned at other institutions are not accepted.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

With program approval, students are allowed to transfer no more than 6 credits of coursework taken as a UW–Madison University Special student. Coursework earned seven or more years prior to admission to a master's degree is not allowed to satisfy requirements.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Every graduate student is required to have an advisor. An advisor is a faculty member, or sometimes a committee, responsible for providing advice regarding graduate studies.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)

- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

***Any student who feels that they have been mistreated by a faculty or staff member has the right to lodge a complaint. Complaints may concern course grades, classroom treatment, program admission, or other issues. To ensure a prompt and fair hearing of any complaint and to protect both the student's rights and the person at whom the complaint is addressed, the grievance procedures below are used in the School of Business.***

The person against whom the complaint is directed must be an employee of the School of Business. Any student or potential student may use these procedures unless other campus rules or contracts cover the complaint:

1. If the student feels comfortable/safe doing so, the student should first talk with the person against whom the grievance is directed. Most issues can be settled at this level. If the complaint is directed against a teaching assistant (TA) and the student is not satisfied after discussion of the grievance with the TA, the next step would be to talk to the TA's supervisor, who is usually the course professor. If the complaint is still not resolved satisfactorily, the student may continue to step 2.
2. If the complaint involves an academic department, the student should contact the chair of the department. The chair will attempt to resolve the problem informally. If this cannot be done to the student's satisfaction, the student may submit the grievance to the chair in writing. This must be done within 60 calendar days of the alleged unfair treatment.
    a. If the complaint does not involve an academic department, the procedure outlined in Step 4 below should be followed.
3. On receipt of a written complaint, the chair will refer the matter to a departmental committee, which will obtain a written response from the person at whom the complaint is directed. This response shall be shared with the person filing the grievance. The chair will provide a written decision within 30 days to the student on the action taken by the committee.
4. If either party is not satisfied with the decision, they have five working days from receipt of the decision to contact the dean's office (at the number below), indicating the intention to appeal. If the complaint does not involve an academic department in the school, the student must contact the dean's office within 60 calendar days of the alleged unfair treatment.
5. In either case, there will be an attempt to resolve the issue informally by the appropriate associate dean. If this cannot be done, the complaint can be filed in writing with the Office of the Dean. This must be done within 10 working days of the time the appealing party was notified that informal resolution was unsuccessful.
6. On receipt of such a written complaint, the Sr. Associate Dean for Faculty & Staff will convene a subcommittee of relevant stakeholders pending the nature of the issue. This subcommittee may ask for additional information from the parties involved and may hold a hearing at which both parties will be asked to speak separately. The subcommittee will then make a written recommendation to the dean of the School of Business who will render a decision. Unless a longer time is negotiated, this written decision shall be made within 20 working days from when the grievance was filed with the Office of the Dean.

*Questions about these procedures can be directed to the School of Business, Office of the Dean, 4339 Grainger, 975 University Avenue, 608-262-7867.*

*State law contains additional provisions regarding discrimination and harassment. Wisconsin Statutes 36.12 reads, in part: "No student may be denied admission to, participation in or the benefits of, or be discriminated against in any service, program, course or facility of the system or its institutions or center because of the student's race, color, creed, religion, sex, national origin, disability, ancestry, age, sexual orientation, pregnancy, marital status or parental status." In addition, the UW System prohibits discrimination based on gender identity or gender expression. Students have the right to file discrimination and harassment complaints with the Office of Compliance, 361 Bascom Hall, 608-265-6018, uwcomplianceoffice@wisc.edu.*

The Graduate School has procedures for students wishing to appeal a grievance decision at the school/college level. These policies are described in the Graduate School's Academic Policies and Procedures: https://grad.wisc.edu/documents/grievances-and-appeals/

### OTHER

Students must be enrolled full-time. Department-sponsored funding/assistantships are available on a competitive basis.

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

- Nutrition and Metabolism, MS (p. 827)
- Nutrition and Metabolism, PhD (p. 831)

# CLINICAL NUTRITION, MS

## THE HEALTHCARE SYSTEM IS CHANGING RAPIDLY

Health professions have increased educational standards beyond the bachelor's degree; in fact, the Commission on Dietetic Registration has increased the requirements to be eligible to take the Registration Exam for Dietitians to the completion of a master's degree beginning in 2024. To remain competitive in the field and obtain the advanced competencies and skills needed in the job market, completion of a master's degree is becoming essential.

## CURRICULUM OVERVIEW

The MS in Clinical Nutrition is focused on core nutrition, clinical nutrition, professional skills, and electives. This is advanced learning at its best and is ideal for people with a strong background in clinical nutrition, confidence working at the graduate level, and a commitment to become leaders in clinical nutrition and dietetics. The curriculum is designed to prepare students to translate research; recognize and formulate responses to evolving developments in clinical nutrition practice, policy, and research; and lead and manage professional teams to design nutrition-related services.

# ADMISSIONS

## ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | July 15* |
| Spring Deadline | November 1* |
| Summer Deadline | March 1* |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

* The Master of Science in Clinical Nutrition has a rolling admissions policy where applications will be considered after their respective deadlines. Domestic applicants should submit their applications no later than 4 weeks prior to the beginning of the intended term. Applications from international applicants must be submitted 6 weeks prior to the beginning of the intended term. This additional 2 weeks is required for international transcript and matriculation processing.

### GENERAL ADMISSION REQUIREMENTS

All applicants must:

- Have a bachelor's degree from an accredited college or university or its equivalent and a minimum grade point average of 3.00 on a 4.00 scale
- Completed Didactic Program in Dietetics **or** have completed the following prerequisite courses:
  - General Chemistry
    - CHEM 103 General Chemistry I and CHEM 104 General Chemistry II
  - Biological Sciences
    - ZOOLOGY/BIOLOGY 101 Animal Biology **and** ZOOLOGY/BIOLOGY 102 Animal Biology Laboratory **and** MICROBIO 101 General Microbiology **and** MICROBIO 102 General Microbiology Laboratory or
    - BIOLOGY/BOTANY/ZOOLOGY 151 Introductory Biology **and** MICROBIO 101 General Microbiology **and** MICROBIO 102 General Microbiology Laboratory
  - Organic Chemistry
    - CHEM 341 Elementary Organic Chemistry or
    - CHEM 343 Organic Chemistry I
  - Biochemistry
    - BIOCHEM 301 Survey of Biochemistry or
    - BIOCHEM 501 Introduction to Biochemistry or
    - BIOCHEM 507 General Biochemistry I **and** BIOCHEM 508 General Biochemistry II
  - Physiology
    - ANAT&PHY 335 Physiology
  - Statistics
    - STAT 371 Introductory Applied Statistics for the Life Sciences or
    - STAT 301 Introduction to Statistical Methods or
    - PSYCH 210 Basic Statistics for Psychology or
    - SOC/C&E SOC 360 Statistics for Sociologists I
  - Human Nutrition
    - NUTR SCI 332 Human Nutritional Needs
  - Clinical Nutrition
    - NUTR SCI 631 Clinical Nutrition I and NUTR SCI 632 Clinical Nutrition II

Please note, the program cannot complete a transcript review unless we receive a completed application. Applicants may check course equivalency to UW-Madison via Transferology (https://www.transferology.com/).

### APPLICATION PROCESS

Steps to apply are listed below:

1. Complete a **UW–Madison Graduate School Application**.
   a. The application includes:
      i. **Statement of Purpose.** Include a brief statement about your professional goals, and reasons for applying.
      ii. **Letters of Recommendation.** Three letters of recommendation are required. All letters of recommendation are submitted electronically through the admission application.
      iii. **Unofficial transcript**, submitted electronically into the application.
      iv. **Supplemental Application.** This component of the application asks applicants to identify the courses taken to fulfill the prerequisite coursework.
2. Be sure to closely follow the Steps to Apply for Graduate School (https://grad.wisc.edu/admissions/process/) and watch your application status page through MyUW (http://my.wisc.edu/) for missing checklist items or additional information.

For any questions or if you need additional information please go over the **Graduate Admissions FAQ (https://grad.wisc.edu/admissions/faq/)**, or send an email to the Graduate Coordinator (see the Contact Information box on this page).

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM INFORMATION

Students enrolled in this program are not eligible to receive tuition remission from graduate assistantship appointments at this institution.

Our program does offer scholarship opportunities.

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| No | No | Yes | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 15 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required.<br>Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | n/a |
| Assessments and Examinations | No formal examination is required. |
| Language Requirements | No language requirements. |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Core Nutrition Courses** | | |
| Students must complete the following courses. | | |
| NUTR SCI 660 | Human Energy Metabolism | 2 |
| NUTR SCI 661 | Micronutrients: Human Physiology and Disease | 3 |
| NUTR SCI 720 | Advanced Nutrition Assessment | 1 |
| NUTR SCI 653 | Clinical Nutrition Research | 3 |
| **Clinical Nutrition Courses** | | |
| Students must choose a minimum of 9 credits, maximum of 18 credits: | | 9-18 |
| NUTR SCI 650 | Advanced Clinical Nutrition: Critical Care and Nutrition Support | |

| | | |
|---|---|---|
| NUTR SCI 651 | Advanced Clinical Nutrition - Pediatrics | |
| NUTR SCI 652 | Advanced Nutrition Counseling and Education | |
| NUTR SCI 655 | Nutrition in Aging | |
| NUTR SCI 675 | Nutraceuticals for Healthcare Professionals | |
| NUTR SCI 711 | Personalized Nutrition: Genetics, Genomics, and Metagenomics | |
| NUTR SCI 721 | Nutrition Informatics | |
| NUTR SCI 662 | Advanced Community Nutrition | |
| NUTR SCI 726 | Nutritional Management of Gastrointestinal Disorders | |
| NUTR SCI 663 | Advanced Sports Nutrition | |
| NUTR SCI 875 | Special Topics (Topics: Nutrition and Aging, Nutraceuticals for Health Professionals, Nutritional Management of Gastrointestinal Disorders, or Sport Nutrition) | |
| **Professional Skills** | | |
| Students must complete a minimum of 3 credits from the following courses: | | 3 |
| E P D 605 | Fundamentals of Technical Project Management | |
| E P D 701 | Writing for Professionals | |
| E P D 702 | Professional Presentations | |
| E P D 704 | Organizational Communication and Problem Solving | |
| E P D 708 | Creating Breakthrough Innovations | |
| E P D 712 | Ethics for Professionals | |
| E P D/ACCT I S/ GEN BUS 781 | Financial and Business Acumen | |
| E P D/GEN BUS/ MARKETNG 782 | Marketing for Non-Marketing Professionals | |
| E P D/GEN BUS/ M H R 783 | Leading Teams | |
| E P D/GEN BUS/ M H R 785 | Effective Negotiation Strategies | |
| NURSING 772 | Leadership and Organizational Decision-Making in Health Care | |
| NUTR SCI 657 | Management in Dietetics | |
| **Elective Choices** | | |
| No elective credits are required, but if students are interested, a maximum of 9 credits may be taken. Students may choose additional Clinical Nutrition and/or Professional Skills course and/or choose from the elective options listed below. | | 0-9 |
| **Total Credits** | | **30** |

### Optional Electives

| Code | Title | Credits |
|---|---|---|
| NURSING/ PHM PRAC/ SOC WORK 746 | Interdisciplinary Care of Children with Special Health Care Needs | 3 |
| NURSING 702 | Health Promotion and Disease Prevention in Diverse Communities | 3 |
| LSC 560 | Scientific Writing | 3 |
| LSC 432 | Social Media for the Sciences | 3 |
| POP HLTH 795 | Principles of Population Health Sciences | 1-3 |
| POP HLTH/ SOC 797 | Introduction to Epidemiology | 3 |
| NUTR SCI 670 | Nutrition and Dietetics Practicum I | 3 |
| NUTR SCI 671 | Nutrition and Dietetics Practicum II | 3 |
| PUBLHLTH 710 | Introduction to Global Health: History, Current Issues, and Health Statistics | 2 |
| PUBLHLTH 711 | Global Public Health and Healthcare Systems: Organizations, Governance, Financing, and Workforce | 2 |
| PUBLHLTH 712 | Global Health: Infectious Diseases, One Health, and Prevention Strategies | 2 |
| PUBLHLTH 713 | Global Health: Non-communicable Diseases, Poverty, Environmental Health, and Food Security | 2 |
| NUTR SCI 991 | Research Nutrition | 1-12 |

### Other Policy

Students in this program may not take courses outside the prescribed curriculum without faculty advisor and program director approval. Students in this program cannot enroll concurrently in other undergraduate or graduate degree programs.

## POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program approval, students are allowed to transfer no more than 6 credits of graduate prior coursework from other institutions.

### Undergraduate Credits Earned at Other Institutions or UW-Madison*

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

*Mayo Clinic School of Health Sciences
With program approval, students may transfer up to six credits of undergraduate coursework, earned post-baccalaureate, from the Mayo Clinic Dietetic Internship program toward fulfillment of minimum graduate residence credit requirement. These credits cannot be counted toward the minimum graduate residence credit requirement. To request evaluation of prior coursework, a student will need to submit an official transcript

from the Mayo Clinic School of Health Sciences to the Graduate Program Manager.

No prior credit will be accepted if it was earned through supervised practice hours in a dietetic internship except those completed through the University of Wisconsin Hospital and Clinics (UWHC) and the Mayo Clinic Dietetic Internship.

### Credits Earned as a Professional Student at UW–Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

The final decision of accepting any prior coursework is up to the discretion of the MS in Clinical Nutrition Executive Committee.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Refer to the Graduate School: Advisor (https://policy.wisc.edu/library/UW-1232/) and Graduate School: Committees (Doctoral/Master's/MFA) (https://policy.wisc.edu/library/UW-1201/) policies.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

### College of Agricultural and Life Sciences: Grievance Policy

In the College of Agricultural and Life Sciences (CALS), any student who feels unfairly treated by a member of the CALS faculty or staff has the right to complain about the treatment and to receive a prompt hearing. Some complaints may arise from misunderstandings or communication breakdowns and be easily resolved; others may require formal action. Complaints may concern any matter of perceived unfairness.

To ensure a prompt and fair hearing of any complaint, and to protect the rights of both the person complaining and the person at whom the complaint is directed, the following procedures are used in the College of Agricultural and Life Sciences. Any student, undergraduate or graduate, may use these procedures, except employees whose complaints are covered under other campus policies.

1. The student should first talk with the person at whom the complaint is directed. Most issues can be settled at this level. Others may be resolved by established departmental procedures.
2. If the student is unsatisfied, and the complaint involves any unit outside CALS, the student should seek the advice of the dean or director of that unit to determine how to proceed.
   a. If the complaint involves an academic department in CALS the student should proceed in accordance with item 3 below.
   b. If the grievance involves a unit in CALS that is not an academic department, the student should proceed in accordance with item 4 below.
3. The student should contact the department's grievance advisor within 120 calendar days of the alleged unfair treatment. The departmental administrator can provide this person's name. The grievance advisor will attempt to resolve the problem informally within 10 working days of receiving the complaint, in discussions with the student and the person at whom the complaint is directed.
   a. If informal mediation fails, the student can submit the grievance in writing to the grievance advisor within 10 working days of the date the student is informed of the failure of the mediation attempt by the grievance advisor. The grievance advisor will provide a copy to the person at whom the grievance is directed.
   b. The grievance advisor will refer the complaint to a department committee that will obtain a written response from the person at whom the complaint is directed, providing a copy to the student. Either party may request a hearing before the committee. The grievance advisor will provide both parties a written decision within 20 working days from the date of receipt of the written complaint.

c. If the grievance involves the department chairperson, the grievance advisor or a member of the grievance committee, these persons may not participate in the review.
d. If not satisfied with departmental action, either party has 10 working days from the date of notification of the departmental committee action to file a written appeal to the CALS Equity and Diversity Committee. A subcommittee of this committee will make a preliminary judgement as to whether the case merits further investigation and review. If the subcommittee unanimously determines that the case does not merit further investigation and review, its decision is final. If one or more members of the subcommittee determine that the case does merit further investigation and review, the subcommittee will investigate and seek to resolve the dispute through mediation. If this mediation attempt fails, the subcommittee will bring the case to the full committee. The committee may seek additional information from the parties or hold a hearing. The committee will present a written recommendation to the dean who will provide a final decision within 20 working days of receipt of the committee recommendation.

4. If the alleged unfair treatment occurs in a CALS unit that is not an academic department, the student should, within 120 calendar days of the alleged incident, take his/her grievance directly to the Associate Dean of Academic Affairs. The dean will attempt to resolve the problem informally within 10 working days of receiving the complaint. If this mediation attempt does not succeed the student may file a written complaint with the dean who will refer it to the CALS Equity and Diversity Committee. The committee will seek a written response from the person at whom the complaint is directed, subsequently following other steps delineated in item 3d above.

### OTHER

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Articulate and integrate specialized knowledge in the field of advanced clinical nutrition - including energy metabolism, micronutrient requirements, and nutrigenomics needed to meet the challenges of future careers and opportunities.
2. Articulate and demonstrate advanced skills in nutritional assessment and nutritional care of patients with complicated disorders/diseases in a clinical or community setting.
3. Demonstrate advanced skills in nutrition counseling and education needed to precipitate behavior and cognitive change.
4. Formulate systems to gather, analyze and interpret data from a practice setting to develop appropriate protocols and care plans using the nutritional care process.
5. Formulate problem statements and writing research proposals using appropriate study design.
6. Demonstrate an ability to understand, interpret, evaluate, and design clinical nutrition research.
7. Demonstrate high level problem-solving, critical thinking, and use of informatics required in advanced clinical nutrition practice.
8. Demonstrate advanced professional skills in communication, information and project management, leadership, and ethics.

# FOOD SCIENCE, MS

The graduate program in the Department of Food and Nutritional Sciences ranks among the best of its kind in the United States. Strong faculty research groups exist in food chemistry, food engineering, food microbiology, and health. The master's track in these areas combines an array of in-depth courses with the use of advanced research methods for studying food properties: chemical, physical, physiological, and bioactive characteristics; material properties; microbial control and safety; sensory quality; procedures for the processing, storage, and preservation of foods.

Research areas in which the department has special expertise include chemical attributes of proteins, enzymes, lipids, flavors, bioactive components, and pigments; processes for crystallizing, separating, freezing, and drying; food safety (detection, control, and mechanistic action of pathogenic microorganisms, and undesirable chemicals in food); process optimization and validation of critical processing limits. Commodity foci include dairy products, confectionery products, fruits and vegetables, muscle foods, and fermented products.

Department spaces include Babcock Hall, a building with excellent facilities for instruction and research. Availability of appropriate instruments, equipment, and pilot-plant facilities enables research on the above topics to be conducted in a manner that has impact worldwide.

About 40–50 students from many countries are currently pursuing both the MS and PhD degrees in the areas mentioned above. This includes some graduate students working in programs associated with the Food Research Institute and closely allied departments.

Individuals obtaining advanced degrees in food science will find employment opportunities in academic instruction and research, government research or regulatory programs, and industrial research, development, or quality assurance. Historically, the department's placement record for graduating students has been very good.

## ADMISSIONS

| Fall Deadline | January 15 |
| Spring Deadline | September 1 |
| Summer Deadline | The program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

Admitted applicants must meet the Graduate School minimum requirements (https://grad.wisc.edu/apply/requirements/), including completion of a bachelor's degree which typically consists of a satisfactory undergraduate education in fields such as food science, dairy science, chemistry, most biological sciences (e.g., biochemistry, microbiology, nutrition), and engineering (especially chemical and agricultural).

Students will be recommended for admission to the Food Science graduate program if (1) a faculty graduate admission committee has determined the student's application meets all requirements, **and** (2) if a faculty member has funding available. Final admission is determined by the Graduate School.

The faculty graduate admission committee's recommendation for admission is made usually based on the review of the following:

- applicant's online application
- academic record (scanned PDF academic transcripts)
- English proficiency for international degree-seeking applicants. See Graduate School requirements (https://grad.wisc.edu/apply/requirements/) for more information
- recommendation letters (three)
- personal statement (reasons for graduate study) up to two pages double-spaced
- CV or resume
- applicant's particular research interest(s) as indicated in supplemental application

Applicants should contact faculty (https://foodsci.wisc.edu/personnel/faculty/) members directly (via email) to discuss research opportunities in their labs. Applicants must submit a formal application to UW-Madison before being considered for admission. The department cannot take any action regarding admission until the application is complete. We do not pre-screen applications, nor do we provide an informal assessment of qualifications based on volunteered documents from individuals prior to application.

Applicants interested in applying for the food science program should look closely at the website (http://www.foodsci.wisc.edu/grad_apply.php) for specific information about the admissions process.

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

We recommend that your application be complete by the application deadlines in order to be considered for funding. Financial assistance is sometimes available to qualified individuals in the form of research assistantships, teaching assistantships, or fellowships. Fellowships are granted to students meeting specific criteria and with outstanding academic records. Research assistantships are awarded by individual professors through funds available to their research programs. Funding is awarded on a competitive basis and renewed annually pending the student's satisfactory progress. (Teaching assistant positions in food science are available only to students who have already been enrolled for at least two semesters.)

Please be advised that you do not need to make a separate application for financial support as your admission application will also serve as an application for assistantships and fellowships.

Prospective students are encouraged to search and apply for **external funding sources** (scholarships and fellowships) on their own. (If faculty do not have funding or lab space available, they often do not accept new students into their labs.) Additionally, prospective students are encouraged to apply for graduate assistantship (teaching, research, or project) positions in other UW–Madison departments to potentially defray the costs of their studies. See Graduate School Funding pages (https://grad.wisc.edu/studentfunding/steps/) for more information.

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 15 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | n/a |
| Assessments and Examinations | Students are required to have a graduate program advisory committee (GPAC) meeting once each year to monitor progress toward their degree.<br><br>The presentation for the FOOD SCI 900 Seminar Advanced must be given a semester before or in the semester of the defense.<br><br>Master's students are required to defend their thesis after they have cleared their record of all Incomplete and Progress grades (other than research and thesis) and submit the final thesis online. |
| Language Requirements | Food science does not have a foreign language requirement. |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Graduate Seminar** | | |
| MS students must enroll in seminar for 1 credit each semester they are enrolled in the program. | | 4 |
| FOOD SCI 900 | Seminar Advanced | |
| **Food Science Coursework** | | |
| Students must complete two of the following courses: | | 6 |
| FOOD SCI 611 | Chemistry and Technology of Dairy Products | |
| FOOD SCI/ AN SCI 711 | Food Biochemistry | |
| FOOD SCI 725 | Advanced Food Microbiology | |
| **Research Ethics and Responsibility** | | |
| PATH-BIO/ COMP BIO 812 | Research Ethics and Career Development | 2 |
| or PATH 755 | Responsible Conduct in Research: Research Ethics, Rigor, Reproducibility and Transparency | |
| **Statistics** | | |
| Students must complete one of the following options: | | 4 |
| F&W ECOL/ STAT 571 | Statistical Methods for Bioscience I | |
| STAT/ F&W ECOL 572 | Statistical Methods for Bioscience II | |
| Or an alternative graduate-level course in statistics numbered 300 and above with the Grad 50% designation may be completed to fulfill this requirement with approval of the student's advisory committee. | | |
| **Electives** | | |
| Students take additional credits to reach the 30-credit minimum in consultation with their graduate program committee. These credits may include Research. | | 14 |
| **Total Credits** | | **30** |

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

Prior graduate-level coursework from other institutions may not transfer toward minimum credit requirements for the major, but may satisfy specific food science course requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

Prior coursework as an undergraduate student may not transfer toward minimum credit requirements for the major, but may satisfy specific food science course requirements.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW-Madison

Prior coursework taken as a University Special student may not transfer toward minimum credit requirements for the major, but may satisfy specific food science course requirements. In that case, students do not need to take the food science course requirement, but do need to choose, in consultation with their advisor, another course with at least the same number of credits.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Refer to the Graduate School: Advisor (https://policy.wisc.edu/library/UW-1232/) and Graduate School: Committees (Doctoral/Master's/MFA) (https://policy.wisc.edu/library/UW-1201/) policies.

The student's graduate program advisory committee (GPAC) also is involved in advising of the student in various stages of their studies to monitor and ensure they are making satisfactory progress toward a degree. The GPAC for a MS student consists of a minimum of 3 members of which one member must have a tenure home in the Department of Food and Nutritional Sciences. Within six months of starting the program, the GPAC is expected to have approved the course-taking.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

### College of Agricultural and Life Sciences: Grievance Policy

In the College of Agricultural and Life Sciences (CALS), any student who feels unfairly treated by a member of the CALS faculty or staff has the right to complain about the treatment and to receive a prompt hearing. Some complaints may arise from misunderstandings or communication breakdowns and be easily resolved; others may require formal action. Complaints may concern any matter of perceived unfairness.

To ensure a prompt and fair hearing of any complaint, and to protect the rights of both the person complaining and the person at whom the complaint is directed, the following procedures are used in the College of Agricultural and Life Sciences. Any student, undergraduate or graduate, may use these procedures, except employees whose complaints are covered under other campus policies.

1. The student should first talk with the person at whom the complaint is directed. Most issues can be settled at this level. Others may be resolved by established departmental procedures.
2. If the student is unsatisfied, and the complaint involves any unit outside CALS, the student should seek the advice of the dean or director of that unit to determine how to proceed.
   a. If the complaint involves an academic department in CALS the student should proceed in accordance with item 3 below.
   b. If the grievance involves a unit in CALS that is not an academic department, the student should proceed in accordance with item 4 below.
3. The student should contact the department's grievance advisor within 120 calendar days of the alleged unfair treatment. The departmental administrator can provide this person's name. The grievance advisor will attempt to resolve the problem informally within 10 working days of receiving the complaint, in discussions with the student and the person at whom the complaint is directed.
   a. If informal mediation fails, the student can submit the grievance in writing to the grievance advisor within 10 working days of the date the student is informed of the failure of the mediation attempt by the grievance advisor. The grievance advisor will provide a copy to the person at whom the grievance is directed.
   b. The grievance advisor will refer the complaint to a department committee that will obtain a written response from the person at whom the complaint is directed, providing a copy to the student. Either party may request a hearing before the committee. The grievance advisor will provide both parties a written decision within 20 working days from the date of receipt of the written complaint.
   c. If the grievance involves the department chairperson, the grievance advisor or a member of the grievance committee, these persons may not participate in the review.
   d. If not satisfied with departmental action, either party has 10 working days from the date of notification of the departmental

committee action to file a written appeal to the CALS Equity and Diversity Committee. A subcommittee of this committee will make a preliminary judgement as to whether the case merits further investigation and review. If the subcommittee unanimously determines that the case does not merit further investigation and review, its decision is final. If one or more members of the subcommittee determine that the case does merit further investigation and review, the subcommittee will investigate and seek to resolve the dispute through mediation. If this mediation attempt fails, the subcommittee will bring the case to the full committee. The committee may seek additional information from the parties or hold a hearing. The committee will present a written recommendation to the dean who will provide a final decision within 20 working days of receipt of the committee recommendation.

4. If the alleged unfair treatment occurs in a CALS unit that is not an academic department, the student should, within 120 calendar days of the alleged incident, take his/her grievance directly to the Associate Dean of Academic Affairs. The dean will attempt to resolve the problem informally within 10 working days of receiving the complaint. If this mediation attempt does not succeed the student may file a written complaint with the dean who will refer it to the CALS Equity and Diversity Committee. The committee will seek a written response from the person at whom the complaint is directed, subsequently following other steps delineated in item 3d above.

### OTHER

n/a

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Understands, articulates, critiques and elaborates core paradigms in Food Science.
2. Recognizes that life-long learning is critical for continued personal and professional development.
3. Complies with principles of ethical and professional conduct.
4. Sources and assembles evidence to address questions or identify gaps in knowledge in the field of food science.
5. Evaluates and synthesizes information to address technical challenges.
6. Selects research methods and practices appropriate to discovery activities.
7. Creates knowledge that contributes to the field of food science.
8. Clearly and effectively communicates technical information in oral and written formats.
9. Works effectively within a team.

# FOOD SCIENCE, PHD

The graduate program in the Department of Food and Nutritional Sciences ranks among the best of its kind in the United States. Strong faculty research groups exist in food chemistry, food engineering, food microbiology, and health. The PhD track in these areas combines an array of in-depth courses with the use of advanced research methods for studying food properties: chemical, physical, physiological, and bioactive characteristics; material properties; microbial control and safety; sensory quality; procedures for the processing, storage, and preservation of foods.

Research areas in which the department has special expertise include chemical attributes of proteins, enzymes, lipids, flavors, bioactive components, and pigments; processes for crystallizing, separating, freezing, and drying; food safety (detection, control, and mechanistic action of pathogenic microorganisms, and undesirable chemicals in food); process optimization and validation of critical processing limits. Commodity foci include dairy products, confectionery products, fruits and vegetables, muscle foods, and fermented products.

Department spaces include Babcock Hall, a building with excellent facilities for instruction and research. Availability of appropriate instruments, equipment, and pilot-plant facilities enables research on the above topics to be conducted in a manner that has impact worldwide.

About 40–50 students from many countries are currently pursuing both the MS and PhD degrees in the areas mentioned above. This includes some graduate students working in programs associated with the Food Research Institute and closely allied departments.

Individuals obtaining advanced degrees in food science will find employment opportunities in academic instruction and research, government research or regulatory programs, and industrial research, development, or quality assurance. Historically, the department's placement record for graduating students has been very good.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | January 15 |
| Spring Deadline | September 1 |
| Summer Deadline | This program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |

| | |
|---|---|
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

Admitted applicants must meet the Graduate School minimum requirements (https://grad.wisc.edu/admissions/requirements/), including completion of a bachelor's degree which typically consists of a satisfactory undergraduate education in fields such as food science, dairy science, chemistry, most biological sciences (e.g., biochemistry, microbiology, nutrition), and engineering (especially chemical and agricultural).

Students will be recommended for admission to the Food Science graduate program if (1) a faculty graduate admission committee has determined the student's application meets all requirements, **and** (2) if a faculty member has funding available. Final admission is determined by the Graduate School.

The faculty graduate admission committee's recommendation for admission is made usually based on the review of the following:

- applicant's online application (https://grad.wisc.edu/admissions/process/)
- academic record (scanned PDF academic transcripts)
- English proficiency for international degree-seeking applicants. See the Graduate School Requirements (https://grad.wisc.edu/apply/requirements/) for more information.
- recommendation letters (three)
- personal statement (reasons for graduate study) up to two pages double-spaced
- CV or resume
- applicant's particular research interest(s) as indicated in supplemental application

Applicants should contact faculty (https://foodsci.wisc.edu/personnel/faculty/) members directly (via email) to discuss research opportunities in their labs. Applicants must submit a formal application to UW-Madison before being considered for admission. The department cannot take any action regarding admission until the application is complete. We do not pre-screen applications, nor do we provide an informal assessment of qualification based on volunteered documents from individuals prior to application.

Applicants interested in applying for the food science program should look closely at the website (http://www.foodsci.wisc.edu/grad_apply.php) for specific information about the admissions process.

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

We recommend that your application be complete by the application deadlines in order to be considered for funding. Financial assistance is sometimes available to qualified individuals in the form of research assistantships, teaching assistantships, or fellowships. Fellowships are granted to students meeting specific criteria and with outstanding academic records. Research assistantships are awarded by individual professors through funds available to their research programs. Funding is awarded on a competitive basis and renewed annually pending the student's satisfactory progress. (Teaching assistant positions in food science are available primarily to students who have already been enrolled for at least two semesters.)

Please be advised that you do not need to make a separate application for financial support as your admission application will also serve as an application for assistantships and fellowships.

Prospective students are encouraged to search and apply for **external funding sources** (scholarships and fellowships) on their own. (If faculty do not have funding or lab space available, they often do not accept new students into their labs.) Additionally, prospective students are encouraged to apply for graduate assistantship (teaching, research, or project) positions in other UW–Madison departments to potentially defray the costs of their studies. See Graduate School Funding pages (https://grad.wisc.edu/studentfunding/steps/) for more information.

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

| LSC 430 | Communicating Science with Narrative | |
| LSC 560 | Scientific Writing | |
| **Breadth** | | **9** |
| **Electives** | | |
| Students complete courses with the Grad 50% designation, numbered 600 and above in food science and related disciplines to meet the 51-credit minimum requirement, selected in consultation with the student's graduate committee. | | 17 |
| **Total Credits** | | **51** |

# POLICIES

## GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs

may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

Prior coursework taken as an undergraduate student at other institutions or UW-Madison does not transfer in for credit, but may satisfy specific food science course requirements. In that case, students do not need to take the food science course requirement, but do need to choose, in consultation with their advisor, another course with at least the same number of credits.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

Prior coursework taken as a University Special student does not transfer in for credit, but may satisfy specific food science course requirements. In that case, students do not need to take the food science course requirement, but do need to choose, in consultation with their advisor, another course with at least the same number of credits.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Refer to the Graduate School: Advisor (https://policy.wisc.edu/library/UW-1232/) and Graduate School: Committees (Doctoral/Master's/MFA) (https://policy.wisc.edu/library/UW-1201/) policies.

The student's graduate program advisory committee (GPAC) also is involved in advising of the student in various stages of their studies to monitor and ensure they are making satisfactory progress toward a degree. For PhD candidates, the GPAC should consist of at least four members as detailed in the food science graduate student handbook. One member must have a tenure home in the Department of Food and Nutritional Sciences. The Graduate School requires that at least three committee members are designated as readers. Readers are committee members who commit themselves to closely reading, reviewing and approving the entire dissertation before it is deposited with the Graduate School.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

It is expected that students will complete all degree requirements in five years.

Dissertators cannot schedule their dissertation defense sooner than six months after the actual date of passing the preliminary examination.

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

### College of Agricultural and Life Sciences: Grievance Policy

In the College of Agricultural and Life Sciences (CALS), any student who feels unfairly treated by a member of the CALS faculty or staff has the right to complain about the treatment and to receive a prompt hearing. Some complaints may arise from misunderstandings or communication breakdowns and be easily resolved; others may require formal action. Complaints may concern any matter of perceived unfairness.

To ensure a prompt and fair hearing of any complaint, and to protect the rights of both the person complaining and the person at whom the complaint is directed, the following procedures are used in the College of Agricultural and Life Sciences. Any student, undergraduate or graduate, may use these procedures, except employees whose complaints are covered under other campus policies.

1. The student should first talk with the person at whom the complaint is directed. Most issues can be settled at this level. Others may be resolved by established departmental procedures.

2. If the student is unsatisfied, and the complaint involves any unit outside CALS, the student should seek the advice of the dean or director of that unit to determine how to proceed.
   a. If the complaint involves an academic department in CALS the student should proceed in accordance with item 3 below.
   b. If the grievance involves a unit in CALS that is not an academic department, the student should proceed in accordance with item 4 below.
3. The student should contact the department's grievance advisor within 120 calendar days of the alleged unfair treatment. The departmental administrator can provide this person's name. The grievance advisor will attempt to resolve the problem informally within 10 working days of receiving the complaint, in discussions with the student and the person at whom the complaint is directed.
   a. If informal mediation fails, the student can submit the grievance in writing to the grievance advisor within 10 working days of the date the student is informed of the failure of the mediation attempt by the grievance advisor. The grievance advisor will provide a copy to the person at whom the grievance is directed.
   b. The grievance advisor will refer the complaint to a department committee that will obtain a written response from the person at whom the complaint is directed, providing a copy to the student. Either party may request a hearing before the committee. The grievance advisor will provide both parties a written decision within 20 working days from the date of receipt of the written complaint.
   c. If the grievance involves the department chairperson, the grievance advisor or a member of the grievance committee, these persons may not participate in the review.
   d. If not satisfied with departmental action, either party has 10 working days from the date of notification of the departmental committee action to file a written appeal to the CALS Equity and Diversity Committee. A subcommittee of this committee will make a preliminary judgement as to whether the case merits further investigation and review. If the subcommittee unanimously determines that the case does not merit further investigation and review, its decision is final. If one or more members of the subcommittee determine that the case does merit further investigation and review, the subcommittee will investigate and seek to resolve the dispute through mediation. If this mediation attempt fails, the subcommittee will bring the case to the full committee. The committee may seek additional information from the parties or hold a hearing. The committee will present a written recommendation to the dean who will provide a final decision within 20 working days of receipt of the committee recommendation.
4. If the alleged unfair treatment occurs in a CALS unit that is not an academic department, the student should, within 120 calendar days of the alleged incident, take his/her grievance directly to the Associate Dean of Academic Affairs. The dean will attempt to resolve the problem informally within 10 working days of receiving the complaint. If this mediation attempt does not succeed the student may file a written complaint with the dean who will refer it to the CALS Equity and Diversity Committee. The committee will seek a written response from the person at whom the complaint is directed, subsequently following other steps delineated in item 3d above.

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Articulates potentials and limits of core paradigms in food science; formulates ideas and extrapolations beyond current boundaries of knowledge.
2. Develops breadth through competencies in minor field(s) of study.
3. Fosters ethical and professional conduct.
4. Critically evaluates evidence to articulate research questions and develop appropriate research hypotheses.
5. Formulates an effective experimental design and develops appropriate methodology to address problems in a systematic manner.
6. Creates knowledge that makes a substantive contribution to the field and articulates how society may benefit.
7. Communicates complex ideas in a succinct and understandable manner to diverse audiences.
8. Develops mentoring and teaching skills.

# NUTRITION AND METABOLISM, MS

## THE STUDENT EXPERIENCE

Modern nutrition is a multidisciplinary, integrative science, and the Nutrition and Metabolism graduate program has been developed to meet this diversity in approach and objective. It is the program's goal to provide graduate students interested in nutrition with an opportunity to obtain specialized training in a specific research area and also to obtain a general background in the science and practice of nutrition. The program is sufficiently flexible to allow students with a wide variety of undergraduate degrees to meet the background prerequisites. The program draws on the strengths of faculty in a number of the university's colleges and academic departments to enhance the instructional and research experience.

## LEARN THROUGH YOUR RESEARCH

The training objectives of the Nutrition and Metabolism graduate program are to provide students with an understanding of basic nutritional principles as they apply to humans, animals, and molecular models, to provide them with current knowledge in each area of emphasis, to make them aware of the integrative and multidisciplinary nature of nutrition research, and to direct them toward a successful career through the thesis and publications.

Throughout their graduate careers, Nutrition and Metabolism students partner with a faculty mentor for in-depth research and career guidance.

# BUILD COMMUNITY AND NETWORKS

The Nutrition and Metabolism graduate program offers opportunities to work with over 50 faculty members from 19 different departments at UW–Madison. The graduate faculty have well-developed, competitively-funded research programs and have been nationally recognized for their activities. They are active in national and international nutrition activities, and serve on editorial boards, as society officers, and as participants in numerous workshops and on advisory committees.

Network within your field(s) by attending international and national conferences and scientific meetings with professional development funds provided to accepted students.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 1* |
| Spring Deadline | This program does not admit in the spring. |
| Summer Deadline | This program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

* Applicants are strongly encouraged to contact faculty members in the program before submitting an application. Generally, after approval by the admissions committee, applicants are admitted directly into a faculty member's lab. Students are only directly admitted to the MS program if they have a mentor pre-arranged. Contact the program with questions.

## PREPARATORY COURSEWORK

Candidates for graduate study in nutrition and metabolism should have a strong background in mathematics, chemistry, biological sciences, medical sciences, or social sciences.

Specific prerequisites for the graduate program include the following:

- 2 semesters of general chemistry
- 2 semesters of biological sciences
- 1 semester of organic chemistry
- Biochemistry with an organic chemistry prerequisite
- 1 semester of statistics or calculus
- 1 semester of physiology

Applicants who have not completed all the requirements may be admitted, but deficiencies should be made up during the first year of graduate study.

All applicants must have a minimum grade point average of at least 3.0 (on a 4.0 scale), as well as three references, and a personal statement. Acceptance requires approval by the Department of Food and Nutritional Sciences and the Graduate School.

Applicants interested in the PhD degree should apply directly to the program. A master's degree is not required for entry.

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

Nutrition and Metabolism MS students receive an annual stipend, as well as tuition remission, paid by the lab they are directly admitted to. If incoming students are qualified for additional fellowships/funding, the graduate program coordinator will assist the accepted student with the application process.

The stipend appointment may take the form of research assistantships, teaching assistantships, or fellowships. Funding for MS students is guaranteed from the lab a student is directly admitted to, granted the student is making satisfactory academic and research progress.

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 15 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required.<br>Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | n/a |
| Assessments and Examinations | Students must complete either a research-based thesis or literature-based report that passes scholarly review. |
| Language Requirements | No language requirements. |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Core Courses** | | |
| With approval of their advisory committee, students may complete an alternative science communication course instead of NUTR SCI 745. | | |
| NUTR SCI 600 | Introductory Seminar in Nutrition | 1 |
| NUTR SCI 618 | Research Approaches in the Era of Precision Nutrition | 3 |
| NUTR SCI/ BIOCHEM 619 | Advanced Nutrition: Intermediary Metabolism of Macronutrients | 3 |
| NUTR SCI 931 | Seminar-Nutrition | 1 |
| NUTR SCI 745 | Grant Writing for Nutritional Sciences Research | 2 |
| NUTR SCI 799 | Practicum in Nutritional Sciences Teaching | 1-3 |
| **Research** | | |
| Typically, students complete a total of 12 credits of NUTR SCI 991 to meet the 30-credit minimum. Students generally enroll in a combination of coursework and research work to reach 12 credits. | | |
| NUTR SCI 991 | Research Nutrition | 1-12 |
| **Electives** | | |
| Students select 6 credits of elective courses numbered 300 and above with the Grad 50% designation, which may include additional statistics, biochemistry, and advanced topics courses as determined by the thesis committee. | | 6 |
| **Total Credits** | | **30** |

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With approval of the certification committee, students are allowed to transfer up to 14 credits of graduate coursework from other institutions. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special student at UW–Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

## PROBATION

The program requires a cumulative 3.0 GPA for all courses taken in the UW Graduate School. Grades in research (NUTR SCI 991) are not included in the calculation of the GPA. A student who does not maintain a 3.0 GPA can continue on probationary status for two semesters at the recommendation of the major professor. If, at that time, the student does not achieve a cumulative 3.0 GPA, they will be dropped from the program.

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Refer to the Graduate School: Advisor (https://policy.wisc.edu/library/UW-1232/) and Graduate School: Committees (Doctoral/Master's/MFA) (https://policy.wisc.edu/library/UW-1201/) policies.

## CREDITS PER TERM ALLOWED

12 credits: Fall and Spring semesters
2 credits: Per eight-week summer session

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

### College of Agricultural and Life Sciences: Grievance Policy

In the College of Agricultural and Life Sciences (CALS), any student who feels unfairly treated by a member of the CALS faculty or staff has the right to complain about the treatment and to receive a prompt hearing. Some complaints may arise from misunderstandings or communication breakdowns and be easily resolved; others may require formal action. Complaints may concern any matter of perceived unfairness.

To ensure a prompt and fair hearing of any complaint, and to protect the rights of both the person complaining and the person at whom the complaint is directed, the following procedures are used in the College of Agricultural and Life Sciences. Any student, undergraduate or graduate, may use these procedures, except employees whose complaints are covered under other campus policies.

1. The student should first talk with the person at whom the complaint is directed. Most issues can be settled at this level. Others may be resolved by established departmental procedures.
2. If the student is unsatisfied, and the complaint involves any unit outside CALS, the student should seek the advice of the dean or director of that unit to determine how to proceed.
   a. If the complaint involves an academic department in CALS the student should proceed in accordance with item 3 below.
   b. If the grievance involves a unit in CALS that is not an academic department, the student should proceed in accordance with item 4 below.
3. The student should contact the department's grievance advisor within 120 calendar days of the alleged unfair treatment. The departmental administrator can provide this person's name. The grievance advisor will attempt to resolve the problem informally within 10 working days of receiving the complaint, in discussions with the student and the person at whom the complaint is directed.
   a. If informal mediation fails, the student can submit the grievance in writing to the grievance advisor within 10 working days of the date the student is informed of the failure of the mediation attempt by the grievance advisor. The grievance advisor will provide a copy to the person at whom the grievance is directed.
   b. The grievance advisor will refer the complaint to a department committee that will obtain a written response from the person at whom the complaint is directed, providing a copy to the student. Either party may request a hearing before the committee. The grievance advisor will provide both parties a written decision within 20 working days from the date of receipt of the written complaint.
   c. If the grievance involves the department chairperson, the grievance advisor or a member of the grievance committee, these persons may not participate in the review.
   d. If not satisfied with departmental action, either party has 10 working days from the date of notification of the departmental committee action to file a written appeal to the CALS Equity and Diversity Committee. A subcommittee of this committee will make a preliminary judgement as to whether the case merits further investigation and review. If the subcommittee unanimously determines that the case does not merit further investigation and review, its decision is final. If one or more members of the subcommittee determine that the case does merit further investigation and review, the subcommittee will investigate and seek to resolve the dispute through mediation. If this mediation attempt fails, the subcommittee will bring the case to the full committee. The committee may seek additional information

from the parties or hold a hearing. The committee will present a written recommendation to the dean who will provide a final decision within 20 working days of receipt of the committee recommendation.

4. If the alleged unfair treatment occurs in a CALS unit that is not an academic department, the student should, within 120 calendar days of the alleged incident, take his/her grievance directly to the Associate Dean of Academic Affairs. The dean will attempt to resolve the problem informally within 10 working days of receiving the complaint. If this mediation attempt does not succeed the student may file a written complaint with the dean who will refer it to the CALS Equity and Diversity Committee. The committee will seek a written response from the person at whom the complaint is directed, subsequently following other steps delineated in item 3d above.

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Articulates, critiques, and elaborates the theories, research methods, and approaches to inquiry in nutrition and metabolism. Specific knowledge areas of focus include intermediary metabolism, functions and metabolism of vitamins and minerals, nutrition-related diseases such as obesity and diabetes, and fundamental principles of epidemiology and nutrition policy.
2. Identifies sources and assembles evidence pertaining to questions or challenges in nutrition and metabolism.
3. Selects and/or utilizes the most appropriate methodologies and practices.
4. Evaluates or synthesizes information pertaining to questions or challenges in nutrition and metabolism.
5. Communicates clearly in ways appropriate to the field of nutrition and metabolism. This includes the composition of primary research and review articles. Demonstrates competent communication in the form of oral and poster presentations.
6. Recognizes and applies principles of ethical and professional conduct.

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With approval of the certification committee, students are allowed to transfer up to 19 credits of graduate coursework from other institutions. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

## PROBATION

The program requires a cumulative 3.0 GPA for all courses taken in the UW Graduate School. Grades in research (NUTR SCI 991) are not included in the calculation of the GPA. A student who does not maintain a 3.0 GPA can continue on probationary status for two semesters at the recommendation of the major professor. If, at that time, the student does not achieve a cumulative 3.0 GPA, they will be dropped from the program.

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Every graduate student is required to have an advisor and a committee. PhD students must have a committee of at least four members. Students have time in their first year of study to build their committees. An advisor is a faculty member from the major department responsible for providing advice regarding graduate studies. An advisor generally serves as the thesis advisor. Students can be suspended from the Graduate School if they do not have an advisor. The Director of Graduate Studies will

be assigned as a student's advisor for the duration of their laboratory rotations.

To ensure that students are making satisfactory progress toward a degree, the Graduate School expects them to meet with their advisor and committee on a regular basis.

## CREDITS PER TERM ALLOWED

12 credits: fall and spring semesters
2 credits: per eight-week summer session

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

### College of Agricultural and Life Sciences: Grievance Policy

In the College of Agricultural and Life Sciences (CALS), any student who feels unfairly treated by a member of the CALS faculty or staff has the right to complain about the treatment and to receive a prompt hearing. Some complaints may arise from misunderstandings or communication breakdowns and be easily resolved; others may require formal action. Complaints may concern any matter of perceived unfairness.

To ensure a prompt and fair hearing of any complaint, and to protect the rights of both the person complaining and the person at whom the complaint is directed, the following procedures are used in the College of Agricultural and Life Sciences. Any student, undergraduate or graduate, may use these procedures, except employees whose complaints are covered under other campus policies.

1. The student should first talk with the person at whom the complaint is directed. Most issues can be settled at this level. Others may be resolved by established departmental procedures.
2. If the student is unsatisfied, and the complaint involves any unit outside CALS, the student should seek the advice of the dean or director of that unit to determine how to proceed.
   a. If the complaint involves an academic department in CALS the student should proceed in accordance with item 3 below.
   b. If the grievance involves a unit in CALS that is not an academic department, the student should proceed in accordance with item 4 below.
3. The student should contact the department's grievance advisor within 120 calendar days of the alleged unfair treatment. The departmental administrator can provide this person's name. The grievance advisor will attempt to resolve the problem informally within 10 working days of receiving the complaint, in discussions with the student and the person at whom the complaint is directed.
   a. If informal mediation fails, the student can submit the grievance in writing to the grievance advisor within 10 working days of the date the student is informed of the failure of the mediation attempt by the grievance advisor. The grievance advisor will provide a copy to the person at whom the grievance is directed.
   b. The grievance advisor will refer the complaint to a department committee that will obtain a written response from the person at whom the complaint is directed, providing a copy to the student. Either party may request a hearing before the committee. The grievance advisor will provide both parties a written decision within 20 working days from the date of receipt of the written complaint.
   c. If the grievance involves the department chairperson, the grievance advisor or a member of the grievance committee, these persons may not participate in the review.
   d. If not satisfied with departmental action, either party has 10 working days from the date of notification of the departmental committee action to file a written appeal to the CALS Equity and Diversity Committee. A subcommittee of this committee will make a preliminary judgement as to whether the case merits further investigation and review. If the subcommittee unanimously determines that the case does not merit further investigation and review, its decision is final. If one or more members of the subcommittee determine that the case does merit further investigation and review, the subcommittee will investigate and seek to resolve the dispute through mediation. If this mediation attempt fails, the subcommittee will bring the case to the full committee. The committee may seek additional information from the parties or hold a hearing. The committee will present a written recommendation to the dean who will provide a final decision within 20 working days of receipt of the committee recommendation.
4. If the alleged unfair treatment occurs in a CALS unit that is not an academic department, the student should, within 120 calendar days of the alleged incident, take his/her grievance directly to the Associate Dean of Academic Affairs. The dean will attempt to resolve the problem informally within 10 working days of receiving the complaint. If this mediation attempt does not succeed the student may file a

written complaint with the dean who will refer it to the CALS Equity and Diversity Committee. The committee will seek a written response from the person at whom the complaint is directed, subsequently following other steps delineated in item 3d above.

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Articulates research problems, potentials, and limits with respect to theory, knowledge, and practice in nutrition and metabolism. Specific knowledge areas of focus include intermediary metabolism, functions and metabolism of vitamins and minerals, nutrition-related diseases such as obesity and diabetes, and fundamental principles of epidemiology and nutrition policy.
2. Formulates ideas, concepts, designs, and/or techniques beyond the current boundaries of knowledge in nutrition and metabolism.
3. Creates original research and scholarship that makes a substantive contribution to nutrition and metabolism.
4. Demonstrates breadth of knowledge of nutrition and metabolism.
5. Advances contributions of the field of nutrition and metabolism to society.
6. Communicates complex ideas in a clear and understandable manner through both written and oral presentations.
7. Fosters and practices ethical and professional conduct.

## DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

# DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/ PROFESSIONAL CERTIFICATES

- Forestry, Doctoral Minor (p. 835)
- Forestry, MS (p. 835)
- Forestry, PhD (p. 839)
- Wildlife Ecology, Doctoral Minor (p. 844)
- Wildlife Ecology, MS (p. 844)
- Wildlife Ecology, PhD (p. 848)

# FORESTRY, DOCTORAL MINOR

## ADMISSIONS

# ADMISSIONS

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any doctoral minor. To apply to this minor, log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. Select the information for the doctoral minor.

## REQUIREMENTS

# REQUIREMENTS

The doctoral minor in Forestry is designed for students who wish to receive an Option A External Minor in Forestry to augment their PhD curriculum. This minor option is not available to students pursuing a PhD in Forestry.

Students who elect Forestry as a minor in their training for the doctorate will take at least 9 credits of courses. The courses will be determined by the student's interest after consultation with the Forestry Graduate Programs Chair.

# FORESTRY, MS

The Department of Forest and Wildlife Ecology offers graduate education and training in a number of areas leading to the master of science and/or the doctor of philosophy in forestry or wildlife ecology. The program takes pride in its outstanding research reputation and the success of graduates working throughout the world. The wildlife ecology program was founded by Aldo Leopold in 1939 and has maintained his vision and legacy of excellence in current research and graduate training activities. Leopold's career spanned two professions, forestry and wildlife conservation, so the program strives to maintain excellence in both fields.

Master's and doctoral work in forestry is offered in the following areas: forest ecology, silviculture, forest ecosystem analysis and management, landscape ecology and planning, forest stand dynamics, forest restoration ecology, tree physiology, remote sensing of forests and natural resources, natural resource policy, social forestry, forest management, ecosystem services, and economics of forests and natural resources.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum**

**requirements (https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 1 |
| Spring Deadline | September 1 |
| Summer Deadline | December 1 |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

Academic program admission requirements are often more rigorous than those set by the Graduate School. Please check the program's website (https://forestandwildlifeecology.wisc.edu/academics/21417982244_4e0823cb05_k/application-process/) for details.

Applicants are strongly encouraged to reach out to program faculty before applying. All applications are holistically reviewed by an admissions committee of faculty in the Forest and Wildlife Ecology department. Admittance includes an appropriate fit within a research lab and the faculty member's ability to fund a graduate student throughout their degree program.

## APPLICATION CHECKLIST

1. **Graduate School Application Form and Application Fee**
   a. All applicants must complete the Graduate School's online application (https://grad.wisc.edu/apply/).
2. **Supplementary Application**
   a. Applicants must submit the Forestry supplementary application, which will appear as part of the Graduate School's electronic application once the applicant selects Forestry.
3. **Resume or CV**
   a. Applicants must submit resume or CV electronically through the online application.
4. **Transcripts**
   a. All applicants must upload an unofficial transcript (non-encrypted) in a PDF format to their online application.
      i. If an applicant is recommended for admission, they will be asked to submit an official transcript to the Graduate School; official transcripts are not to be mailed to the department.
      ii. Any school listed must have a transcript uploaded, otherwise the application will not be complete.
   b. International academic records must be in the original language accompanied by an official English translation. Documents must be issued by the school with the official seal/stamp and an official signature.
   c. The Department of Forest and Wildlife Ecology requires all applicants to have a BA/BS degree from an accredited institution.
   d. A minimum undergraduate grade-point average of 3.0 (on a 4.0 scale) on the equivalent of the last 60 semester hours from the most recent bachelor's degree institution is required for regular admission. If an applicant has received a post-baccalaureate degree and the GPA for that degree is above a 3.0, then they may be admitted with full standing even if their undergraduate GPA does not meet the standards above.
5. **Statement of Purpose**
   a. This should describe the applicant's graduate program objectives and career focus. Applicants are strongly encouraged to describe past research experiences in their statement.
   b. The statement of purpose should be around two pages in length
6. **Three Letters of Recommendation**
   a. These letters are preferably from people acquainted with the applicant's academic, research and/or professional qualifications.
   b. Letters must be submitted online through the Graduate School's electronic format.
7. **Proof of English proficiency.**
   a. International degree seeking applicants must prove English proficiency. Refer to the Graduate School Requirements (https://grad.wisc.edu/apply/requirements/) page for more information.

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

Additional information regarding funding for Forest and Wildlife Ecology graduate students is available on the departmental website (https://forestandwildlifeecology.wisc.edu/academics/21417982244_4e0823cb05_k/current-employment-opportunities/).

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 15 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required.<br>Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | n/a |
| Assessments and Examinations | Students in the Forestry MS must complete certification paperwork to outline their coursework; and prepare, publicly present, and defend a thesis. |
| Language Requirements | None. |

## REQUIRED COURSES

In addition to the required courses below, Forestry MS students select appropriate graduate-level coursework in consultation with their advisor and a graduate advisory committee.

| Code | Title | Credits |
|---|---|---|
| **Bio-Statistics** | | |
| Complete one of the following: | | 2-4 |
| F&W ECOL/ ENTOM 711 | Multivariate Analysis of Ecological and Community Data | |
| F&W ECOL 850 | Demographic Methods in Wildlife Conservation | |
| STAT/ COMP SCI 471 | Introduction to Computational Statistics | |
| STAT/ F&W ECOL 571 | Statistical Methods for Bioscience I | |
| STAT/ F&W ECOL 572 | Statistical Methods for Bioscience II | |
| STAT 575 | Statistical Methods for Spatial Data | |
| STAT 609 | Mathematical Statistics I | |
| STAT 610 | Introduction to Statistical Inference | |
| STAT/B M I 741 | Survival Analysis Theory and Methods | |
| STAT/B M I 877 | Statistical Methods for Molecular Biology | |
| ECON 709 | Economic Statistics and Econometrics I | |
| ECON 710 | Economic Statistics and Econometrics II | |
| ED PSYCH 760 | Statistical Methods Applied to Education I | |
| ED PSYCH 761 | Statistical Methods Applied to Education II | |
| **Additional Coursework** | | |
| Students select appropriate graduate-level coursework in consultation with their advisor and a graduate advisory committee. This may include F&W ECOL 990. Students commonly take these additional courses. | | 28 |
| F&W ECOL 300 | Forest Measurements | |
| F&W ECOL 305 | Forest Operations | |
| ENVIR ST/G L E/ GEOG/GEOSCI/ LAND ARC 371 | Introduction to Environmental Remote Sensing | |

| ZOOLOGY/ BOTANY 879 | Advanced Landscape Ecology |
| **Total Credits** | **30** |

Additional information and forms related to program-specific courses is available in the program handbook.

## POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With MS committee approval and academic affairs committee approval, students are allowed to transfer no more than 14 credits of graduate coursework from other institutions. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Refer to the Graduate School: Advisor (https://policy.wisc.edu/library/UW-1232/) and Graduate School: Committees (Doctoral/Master's/MFA) (https://policy.wisc.edu/library/UW-1201/) policies.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

### College of Agricultural and Life Sciences: Grievance Policy

In the College of Agricultural and Life Sciences (CALS), any student who feels unfairly treated by a member of the CALS faculty or staff has the right to complain about the treatment and to receive a prompt hearing. Some complaints may arise from misunderstandings or communication breakdowns and be easily resolved; others may require formal action. Complaints may concern any matter of perceived unfairness.

To ensure a prompt and fair hearing of any complaint, and to protect the rights of both the person complaining and the person at whom the complaint is directed, the following procedures are used in the College of Agricultural and Life Sciences. Any student, undergraduate or graduate, may use these procedures, except employees whose complaints are covered under other campus policies.

1. The student should first talk with the person at whom the complaint is directed. Most issues can be settled at this level. Others may be resolved by established departmental procedures.
2. If the student is unsatisfied, and the complaint involves any unit outside CALS, the student should seek the advice of the dean or director of that unit to determine how to proceed.
    a. If the complaint involves an academic department in CALS the student should proceed in accordance with item 3 below.
    b. If the grievance involves a unit in CALS that is not an academic department, the student should proceed in accordance with item 4 below.
3. The student should contact the department's grievance advisor within 120 calendar days of the alleged unfair treatment. The departmental administrator can provide this person's name. The grievance advisor will attempt to resolve the problem informally within 10 working days of receiving the complaint, in discussions with the student and the person at whom the complaint is directed.
    a. If informal mediation fails, the student can submit the grievance in writing to the grievance advisor within 10 working days of the date the student is informed of the failure of the mediation attempt by the grievance advisor. The grievance advisor will provide a copy to the person at whom the grievance is directed.
    b. The grievance advisor will refer the complaint to a department committee that will obtain a written response from the person at whom the complaint is directed, providing a copy to the student. Either party may request a hearing before the committee. The grievance advisor will provide both parties a written decision within 20 working days from the date of receipt of the written complaint.
    c. If the grievance involves the department chairperson, the grievance advisor or a member of the grievance committee, these persons may not participate in the review.
    d. If not satisfied with departmental action, either party has 10 working days from the date of notification of the departmental committee action to file a written appeal to the CALS Equity and Diversity Committee. A subcommittee of this committee will make a preliminary judgement as to whether the case merits further investigation and review. If the subcommittee unanimously determines that the case does not merit further investigation and review, its decision is final. If one or more members of the subcommittee determine that the case does merit further investigation and review, the subcommittee will investigate and seek to resolve the dispute through mediation. If this mediation attempt fails, the subcommittee will bring the case to the full committee. The committee may seek additional information from the parties or hold a hearing. The committee will present a written recommendation to the dean who will provide a final decision within 20 working days of receipt of the committee recommendation.
4. If the alleged unfair treatment occurs in a CALS unit that is not an academic department, the student should, within 120 calendar days of the alleged incident, take his/her grievance directly to the Associate Dean of Academic Affairs. The dean will attempt to resolve the problem informally within 10 working days of receiving the complaint. If this mediation attempt does not succeed the student may file a written complaint with the dean who will refer it to the CALS Equity and Diversity Committee. The committee will seek a written response from the person at whom the complaint is directed, subsequently following other steps delineated in item 3d above.

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Articulates, critiques, and elaborates the theories, research methods, and approaches to inquiry in the field of forest science.
2. Identifies sources and assembles evidence pertaining to questions or challenges in the field of forest science.
3. Demonstrates understanding of the field of forest science in a historical, social, and global context.
4. Evaluates and synthesizes information pertaining to questions or challenges in the field of forest science.
5. Selects and utilizes the most appropriate methodologies and practices.
6. Communicates clearly in ways appropriate to the field of forest science.

# FORESTRY, PHD

The Department of Forest and Wildlife Ecology offers graduate education and training in a number of areas leading to the master of science and/or the doctor of philosophy in forestry or wildlife ecology. The program takes pride in its outstanding research reputation and the success of graduates

working throughout the world. The wildlife ecology program was founded by Aldo Leopold in 1939 and has maintained his vision and legacy of excellence in current research and graduate training activities. Leopold's career spanned two professions, forestry and wildlife conservation, so the program strives to maintain excellence in both fields.

Master's and doctoral work in forestry is offered in the following areas: forest ecology, silviculture, forest ecosystem analysis and management, landscape ecology and planning, forest stand dynamics, forest restoration ecology, tree physiology, remote sensing of forests and natural resources, natural resource policy, social forestry, forest management, ecosystem services, and economics of forests and natural resources.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 1 |
| Spring Deadline | September 1 |
| Summer Deadline | December 1 |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

Academic program admission requirements are often more rigorous than those set by the Graduate School. Please check the program's website (https://forestandwildlifeecology.wisc.edu/academics/21417982244_4e0823cb05_k/application-process/) for details.

Applicants are strongly encouraged to reach out to program faculty before applying. All applications are holistically reviewed by an admissions committee of faculty in the Forest and Wildlife Ecology department. Admittance includes appropriate fit within a research lab and the faculty member's ability to fund a graduate student throughout their degree program.

## APPLICATION CHECKLIST

1. **Graduate School Application Form and Application Fee**
   a. All applicants must complete the Graduate School's online application (https://grad.wisc.edu/apply/).
2. **Supplementary Application**
   a. Applicants must submit the Forestry supplementary application, which will appear as part of the Graduate School's electronic application once the applicant selects Forestry.
3. **Resume or CV**
   a. Applicants must submit resume or CV electronically through the online application.
4. **Transcripts**
   a. All applicants must upload an unofficial transcript (non-encrypted) in a PDF format to their online application.
      i. If an applicant is recommended for admission, they will be asked to submit an official transcript to the Graduate School; official transcripts are not to be mailed to the department.
      ii. Any school listed must have a transcript uploaded, otherwise the application will not be complete.
   b. International academic records must be in the original language accompanied by an official English translation. Documents must be issued by the school with the official seal/stamp and an official signature.
   c. The Department of Forest and Wildlife Ecology requires all applicants to have a BA/BS degree from an accredited institution.
   d. A minimum undergraduate grade-point average of 3.0 (on a 4.0 scale) on the equivalent of the last 60 semester hours from the most recent bachelor's degree institution is required for regular admission. If an applicant has received a post-baccalaureate degree and the GPA for that degree is above a 3.0, then they may be admitted with full standing even if their undergraduate GPA does not meet the standards above.
5. **Statement of Purpose**
   a. This should describe the applicant's graduate program objectives and career focus. Applicants are strongly encouraged to describe past research experiences in their statement.
   b. The statement of purpose should be around two pages in length
6. **Three Letters of Recommendation**
   a. These letters are preferably from people acquainted with the applicant's academic, research and/or professional qualifications.
   b. Letters must be submitted online through the Graduate School's electronic format.
7. **Proof of English proficiency.**
   a. International degree seeking applicants must prove English proficiency. Refer to the Graduate School Requirements (https://grad.wisc.edu/apply/requirements/) page for more information.

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from

the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

Additional information regarding funding for Forest and Wildlife Ecology graduate students is available on the departmental website (https://forestandwildlifeecology.wisc.edu/academics/21417982244_4e0823cb05_k/current-employment-opportunities/).

# REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 51 credits |
| Minimum Residence Credit Requirement | 32 credits |
| Minimum Graduate Coursework Requirement | 26 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | n/a |
| Assessments and Examinations | Students in the Forestry PhD must complete certification paperwork to outline their coursework, pass an oral preliminary examination, and prepare, publicly present, and defend a dissertation. |
| Language Requirements | None. |
| Graduate School Breadth Requirement | All doctoral students are required to complete a doctoral minor or graduate/professional certificate. Refer to the Graduate School: Breadth Requirement in Doctoral Training policy: https://policy.wisc.edu/library/UW-1200 (https://policy.wisc.edu/library/UW-1200/). |

## REQUIRED COURSES

In addition to the requirements below, students select appropriate graduate-level coursework in consultation with their advisor and a graduate advisory committee.

| Code | Title | Credits |
|---|---|---|
| **Bio-Statistics** | | |
| Complete one of the following: | | 2-4 |
| F&W ECOL/ ENTOM 711 | Multivariate Analysis of Ecological and Community Data | |
| F&W ECOL 850 | Demographic Methods in Wildlife Conservation | |
| STAT/ COMP SCI 471 | Introduction to Computational Statistics | |
| STAT/ F&W ECOL 571 | Statistical Methods for Bioscience I | |
| STAT/ F&W ECOL 572 | Statistical Methods for Bioscience II | |
| STAT 575 | Statistical Methods for Spatial Data | |
| STAT 609 | Mathematical Statistics I | |
| STAT 610 | Introduction to Statistical Inference | |
| STAT/B M I 741 | Survival Analysis Theory and Methods | |
| STAT/B M I 877 | Statistical Methods for Molecular Biology | |
| ECON 709 | Economic Statistics and Econometrics I | |
| ECON 710 | Economic Statistics and Econometrics II | |
| ED PSYCH 760 | Statistical Methods Applied to Education I | |
| ED PSYCH 761 | Statistical Methods Applied to Education II | |
| **Graduate School Breadth** | | |
| In consultation with advisor, students will select the appropriate plan of coursework to meet this requirement. | | 9 |
| **Additional Coursework** | | |

| | | |
|---|---|---|
| Students complete additional coursework in consultation with their advisor and graduate advisory committee. This may include F&W ECOL 990. Common coursework includes the following: | | 40 |
| ENVIR ST/G L E/ GEOG/GEOSCI/ LAND ARC 371 | Introduction to Environmental Remote Sensing | |
| F&W ECOL 395 | Data and GIS Tools for Ecology | |
| F&W ECOL/ BOTANY 402 | Dendrology: Woody Plant Identification and Ecology | |
| F&W ECOL 410 | Silviculture: Applied Forest Ecology | |
| F&W ECOL 411 | Practices of Silviculture | |
| F&W ECOL/ A A E 430 | Decision Methods for Natural Resource Managers | |
| F&W ECOL/ SOIL SCI 451 | Environmental Biogeochemistry | |
| BOTANY 455 | The Vegetation of Wisconsin | |
| F&W ECOL 458 | Environmental Data Science | |
| F&W ECOL/ ENVIR ST 515 | Natural Resources Policy | |
| F&W ECOL/ BOTANY/ ENVIR ST/ ZOOLOGY 516 | Conservation Biology | |
| F&W ECOL/A A E/ ECON 531 | Natural Resource Economics | |
| F&W ECOL 550 | Forest Ecology | |
| F&W ECOL 551 | Forest Ecology Lab | |
| F&W ECOL/ ZOOLOGY 660 | Climate Change Ecology | |
| F&W ECOL/ BOTANY/ ENTOM/ ZOOLOGY 821 | Foundations of Ecology | |
| F&W ECOL 875 | Special Topics | |
| ZOOLOGY/ BOTANY 879 | Advanced Landscape Ecology | |
| ZOOLOGY/ AGROECOL/ ATM OCN/ BOTANY/ ENTOM/ ENVIR ST/ GEOG 953 | Introduction to Ecology Research at UW-Madison | |
| ZOOLOGY/ ATM OCN/ BOTANY/ ENVIR ST/GEOG/ GEOSCI 980 | Earth System Science Seminar | |
| F&W ECOL 990 | Research and Thesis | |
| **Total Credits** | | **51** |

Additional information and forms related to program-specific courses is available in the program handbook.

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Refer to the Graduate School: Advisor (https://policy.wisc.edu/library/UW-1232/) and Graduate School: Committees (Doctoral/Master's/MFA) (https://policy.wisc.edu/library/UW-1201/) policies.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

A candidate for a doctoral degree who fails to take the final oral examination and deposit the dissertation within five years after passing the preliminary examination may be required to take another preliminary examination and to be admitted to candidacy a second time.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

### College of Agricultural and Life Sciences: Grievance Policy

In the College of Agricultural and Life Sciences (CALS), any student who feels unfairly treated by a member of the CALS faculty or staff has the right to complain about the treatment and to receive a prompt hearing. Some complaints may arise from misunderstandings or communication breakdowns and be easily resolved; others may require formal action. Complaints may concern any matter of perceived unfairness.

To ensure a prompt and fair hearing of any complaint, and to protect the rights of both the person complaining and the person at whom the complaint is directed, the following procedures are used in the College of Agricultural and Life Sciences. Any student, undergraduate or graduate, may use these procedures, except employees whose complaints are covered under other campus policies.

1. The student should first talk with the person at whom the complaint is directed. Most issues can be settled at this level. Others may be resolved by established departmental procedures.
2. If the student is unsatisfied, and the complaint involves any unit outside CALS, the student should seek the advice of the dean or director of that unit to determine how to proceed.
   a. If the complaint involves an academic department in CALS the student should proceed in accordance with item 3 below.
   b. If the grievance involves a unit in CALS that is not an academic department, the student should proceed in accordance with item 4 below.
3. The student should contact the department's grievance advisor within 120 calendar days of the alleged unfair treatment. The departmental administrator can provide this person's name. The grievance advisor will attempt to resolve the problem informally within 10 working days of receiving the complaint, in discussions with the student and the person at whom the complaint is directed.
   a. If informal mediation fails, the student can submit the grievance in writing to the grievance advisor within 10 working days of the date the student is informed of the failure of the mediation attempt by the grievance advisor. The grievance advisor will provide a copy to the person at whom the grievance is directed.
   b. The grievance advisor will refer the complaint to a department committee that will obtain a written response from the person at whom the complaint is directed, providing a copy to the student. Either party may request a hearing before the committee. The grievance advisor will provide both parties a written decision within 20 working days from the date of receipt of the written complaint.
   c. If the grievance involves the department chairperson, the grievance advisor or a member of the grievance committee, these persons may not participate in the review.
   d. If not satisfied with departmental action, either party has 10 working days from the date of notification of the departmental committee action to file a written appeal to the CALS Equity and Diversity Committee. A subcommittee of this committee will make a preliminary judgement as to whether the case merits further investigation and review. If the subcommittee unanimously determines that the case does not merit further investigation and review, its decision is final. If one or more members of the subcommittee determine that the case does merit further investigation and review, the subcommittee will investigate and seek to resolve the dispute through mediation. If this mediation attempt fails, the subcommittee will bring the case to the full committee. The committee may seek additional information from the parties or hold a hearing. The committee will present a written recommendation to the dean who will provide a final decision within 20 working days of receipt of the committee recommendation.
4. If the alleged unfair treatment occurs in a CALS unit that is not an academic department, the student should, within 120 calendar days of the alleged incident, take his/her grievance directly to the Associate Dean of Academic Affairs. The dean will attempt to resolve the problem informally within 10 working days of receiving the complaint. If this mediation attempt does not succeed the student may file a written complaint with the dean who will refer it to the CALS Equity and Diversity Committee. The committee will seek a written response from the person at whom the complaint is directed, subsequently following other steps delineated in item 3d above.

## OTHER

n/a

# PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

## GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

## LEARNING OUTCOMES

1. Articulates research problems, potentials, and limits with respect to theory, knowledge, or practice within the field of forest science.
2. Formulates ideas, concepts, designs, and/or techniques beyond the current boundaries of knowledge within the field of forest science.
3. Demonstrates breadth within their learning experiences.
4. Advances contributions of the field of forest science to society.
5. Creates research and scholarship that makes a substantive contribution.
6. Communicates complex ideas in a clear and understandable manner.

# WILDLIFE ECOLOGY, DOCTORAL MINOR

Wildlife ecology involves the use of scientific methods to understand how the environment influences wildlife and their populations, as well as the application of ecological research to the management and conservation of wildlife. Wildlife science makes use of a broad range of disciplines including ecology, organismal biology, ecosystem science, genetics, physiology, evolution, and quantitative methods. Wildlife Ecology doctoral minors are expected to have a general understanding of wildlife natural history, the ecology of their populations, basic research methods for studying wildlife, and current problems in wildlife management and conservation.

## ADMISSIONS

## ADMISSIONS

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any doctoral minor. To apply to this minor, log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. Select the information for the doctoral minor.

Minor requirements will be discussed and agreed upon in your initial committee meeting.

The doctoral minor in Wildlife Ecology is designed for students who wish to receive an Option A External Minor in Wildlife Ecology to augment their PhD curriculum. This minor option is not available to students pursuing a PhD in Wildlife Ecology.

## REQUIREMENTS

## REQUIREMENTS

Students who elect Wildlife Ecology as a minor in their training for the doctorate will take at least 9 credits of courses. The courses will be determined by the student's interest after consultation with the Wildlife Ecology Graduate Programs Chair.

# WILDLIFE ECOLOGY, MS

The Department of Forest and Wildlife Ecology offers graduate education and training in a number of areas leading to the master of science and/or the doctor of philosophy degree in Wildlife Ecology. The department takes pride in its program's outstanding research reputation and the success of graduates working throughout the world. The Wildlife Ecology program was founded by Aldo Leopold in 1939, and the program has maintained his vision and legacy of excellence in our current research and graduate training activities.

Master's and doctoral work in wildlife ecology typically focus on areas of wildlife ecology that reflect the expertise of the faculty, including, but not limited to, behavioral ecology, physiological ecology, population dynamics, wildlife disease, community ecology, landscape ecology, wildlife management, wildlife-habitat linkages, molecular ecology, human dimensions, species distribution modeling, climate change, endangered species recovery, conservation biology, toxicology, and wildlife damage management.

The department is home to the U.S. Geological Survey, Wisconsin Cooperative Wildlife Research Unit. In this program, research in support of state and federal wildlife conservation programs is given priority.

In recent years, annual research support for the department's programs has averaged between $3 million to $4 million drawn from an array of federal, state, and conservation organizations and private donors. Competition for admission is very strong, and not every admissible student can or will be offered financial support. Graduate assistantships and/or fellowships may be available for a limited number of well-qualified students. Applicants are strongly encouraged to reach out to program faculty before applying. Admittance depends on appropriate fit within a research lab and the faculty member's ability to fund a graduate student throughout their degree program. Once admitted, students work closely with major professors and an advisory committee to develop a research program.

## ADMISSIONS

## ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 1 |
| Spring Deadline | September 1 |
| Summer Deadline | December 1 |
| GRE (Graduate Record Examinations) | Not required. |

| | |
|---|---|
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

Academic program admission requirements are often more rigorous than those set by the Graduate School. Applicants are encouraged to apply earlier than the dates listed above. Check the program's website (https://forestandwildlifeecology.wisc.edu/academics/21417982244_4e0823cb05_k/application-process/) for details about the admission process.

Applicants are strongly encouraged to reach out to program faculty before applying. All applications are holistically reviewed by an admissions committee of faculty in the Forest and Wildlife Ecology department. Admittance includes an appropriate fit within a research lab and the faculty member's ability to fund a graduate student throughout their degree program.

## APPLICATION CHECKLIST

1. **Graduate School Application Form and Application Fee**
   a. All applicants must complete the Graduate School's online application (https://grad.wisc.edu/apply/).
2. **Supplementary Application**
   a. Applicants must submit the Wildlife Ecology supplementary application, which will appear as part of the Graduate School's electronic application once the applicant selects Wildlife Ecology.
3. **Resume or CV**
   a. Applicants must submit resume or CV electronically through the online application.
4. **Transcripts**
   a. All applicants must upload an unofficial transcript (non-encrypted) in a PDF format to their online application.
      i. If an applicant is recommended for admission, they will be asked to submit an official transcript to the Graduate School; official transcripts are not to be mailed to the department.
      ii. Any school listed must have a transcript uploaded, otherwise the application will not be complete.
   b. International academic records must be in the original language accompanied by an official English translation. Documents must be issued by the school with the official seal/stamp and an official signature.
   c. The Department of Forest and Wildlife Ecology requires all applicants to have a BA/BS degree from an accredited institution.
   d. A minimum undergraduate grade-point average of 3.0 (on a 4.0 scale) on the equivalent of the last 60 semester hours from the most recent bachelor's degree institution is required for regular admission. If an applicant has received a post-baccalaureate degree and the GPA for that degree is above a 3.0, then they may be admitted with full standing even if their undergraduate GPA does not meet the standards above.
5. **Statement of Purpose**
   a. This should describe the applicant's graduate program objectives and career focus. Applicants are strongly encouraged to describe past research experiences in their statement.
   b. The statement of purpose should be around two pages in length
6. **Three Letters of Recommendation**
   a. These letters are preferably from people acquainted with the applicant's academic, research and/or professional qualifications.
   b. Letters must be submitted online through the Graduate School's electronic format.
7. **Proof of English proficiency.**
   a. International degree seeking applicants must prove English proficiency. Refer to the Graduate School Requirements (https://grad.wisc.edu/apply/requirements/) page for more information.

## PREREQUISITES

Individuals are expected to enter the program having taken a majority of the following coursework, but deficient courses may be taken while in the program in consultation with the student's Graduate Committee.

- One course in ecology, with population ecology/dynamics strongly recommended
- One course in conservation biology, wildlife management, natural resources policy, or human dimensions of natural resources
- One course in animal organismal biology (e.g., physiology, terrestrial vertebrates, ornithology)
- One course in genetics or evolution

Coursework used to fulfill the prerequisite courses listed above does not transfer in for fulfillment of degree requirements.

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With MS committee approval and Academic Affairs Committee approval, students are allowed to transfer no more than 14 credits of graduate coursework from other institutions. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

With MS committee approval and Academic Affairs Committee approval, students are allowed to transfer no more than 15 credits of coursework numbered 300 or above taken as a UW–Madison University Special student. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Every graduate student is required to have an advisor. To ensure that students are making satisfactory progress toward a degree, the Graduate School expects them to meet with their advisor on a regular basis.

An advisor generally serves as the thesis advisor. In many cases, an advisor is assigned to incoming students. Students can be suspended from the Graduate School if they do not have an advisor. An advisor is a faculty member, or sometimes a committee, from the major department responsible for providing advice regarding graduate studies.

A committee often accomplishes advising for the students in the early stages of their studies.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)

- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

### College of Agricultural and Life Sciences: Grievance Policy

In the College of Agricultural and Life Sciences (CALS), any student who feels unfairly treated by a member of the CALS faculty or staff has the right to complain about the treatment and to receive a prompt hearing. Some complaints may arise from misunderstandings or communication breakdowns and be easily resolved; others may require formal action. Complaints may concern any matter of perceived unfairness.

To ensure a prompt and fair hearing of any complaint, and to protect the rights of both the person complaining and the person at whom the complaint is directed, the following procedures are used in the College of Agricultural and Life Sciences. Any student, undergraduate or graduate, may use these procedures, except employees whose complaints are covered under other campus policies.

1. The student should first talk with the person at whom the complaint is directed. Most issues can be settled at this level. Others may be resolved by established departmental procedures.
2. If the student is unsatisfied, and the complaint involves any unit outside CALS, the student should seek the advice of the dean or director of that unit to determine how to proceed.
   a. If the complaint involves an academic department in CALS the student should proceed in accordance with item 3 below.
   b. If the grievance involves a unit in CALS that is not an academic department, the student should proceed in accordance with item 4 below.
3. The student should contact the department's grievance advisor within 120 calendar days of the alleged unfair treatment. The departmental administrator can provide this person's name. The grievance advisor will attempt to resolve the problem informally within 10 working days of

receiving the complaint, in discussions with the student and the person at whom the complaint is directed.

a. If informal mediation fails, the student can submit the grievance in writing to the grievance advisor within 10 working days of the date the student is informed of the failure of the mediation attempt by the grievance advisor. The grievance advisor will provide a copy to the person at whom the grievance is directed.
b. The grievance advisor will refer the complaint to a department committee that will obtain a written response from the person at whom the complaint is directed, providing a copy to the student. Either party may request a hearing before the committee. The grievance advisor will provide both parties a written decision within 20 working days from the date of receipt of the written complaint.
c. If the grievance involves the department chairperson, the grievance advisor or a member of the grievance committee, these persons may not participate in the review.
d. If not satisfied with departmental action, either party has 10 working days from the date of notification of the departmental committee action to file a written appeal to the CALS Equity and Diversity Committee. A subcommittee of this committee will make a preliminary judgement as to whether the case merits further investigation and review. If the subcommittee unanimously determines that the case does not merit further investigation and review, its decision is final. If one or more members of the subcommittee determine that the case does merit further investigation and review, the subcommittee will investigate and seek to resolve the dispute through mediation. If this mediation attempt fails, the subcommittee will bring the case to the full committee. The committee may seek additional information from the parties or hold a hearing. The committee will present a written recommendation to the dean who will provide a final decision within 20 working days of receipt of the committee recommendation.

4. If the alleged unfair treatment occurs in a CALS unit that is not an academic department, the student should, within 120 calendar days of the alleged incident, take his/her grievance directly to the Associate Dean of Academic Affairs. The dean will attempt to resolve the problem informally within 10 working days of receiving the complaint. If this mediation attempt does not succeed the student may file a written complaint with the dean who will refer it to the CALS Equity and Diversity Committee. The committee will seek a written response from the person at whom the complaint is directed, subsequently following other steps delineated in item 3d above.

### OTHER

Additional information for students in the Department of Forest and Wildlife Ecology can be found on the Graduate Programs page (https://forestandwildlifeecology.wisc.edu/academics/21417982244_4e0823cb05_k/application-process/) for the department.

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Articulates, critiques, and elaborates the theories, research methods, and approaches to inquiry and practice in the field of wildlife ecology and natural resource management.
2. Identifies sources and assembles evidence pertaining to questions or challenges in the field of wildlife ecology and natural resource management.
3. Demonstrates understanding of the field of wildlife ecology and natural resource management in a historical, social, and global context.
4. Evaluates and synthesizes information pertaining to questions or challenges in the field of wildlife ecology and natural resource management.
5. Communicates clearly in ways appropriate to the field of wildlife ecology and natural resource management.
6. Selects and utilizes the most appropriate methodologies and practices.

# WILDLIFE ECOLOGY, PHD

The Department of Forest and Wildlife Ecology offers graduate education and training in a number of areas leading to the master of science and/or the doctor of philosophy degree in Wildlife Ecology. The department takes pride in its program's outstanding research reputation and the success of graduates working throughout the world. The Wildlife Ecology program was founded by Aldo Leopold in 1939, and the program has maintained his vision and legacy of excellence in our current research and graduate training activities.

Master's and doctoral work in wildlife ecology typically focus on areas of wildlife ecology that reflect the expertise of the faculty, including, but not limited to, behavioral ecology, physiological ecology, population dynamics, wildlife disease, community ecology, landscape ecology, wildlife management, wildlife-habitat linkages, molecular ecology, human dimensions, species distribution modeling, climate change, endangered species recovery, conservation biology, toxicology, and wildlife damage management.

The department is home to the U.S. Geological Survey, Wisconsin Cooperative Wildlife Research Unit. In this program, research in support of state and federal wildlife conservation programs is given priority.

In recent years, annual research support for the department's programs has averaged between $3 million to $4 million drawn from an array of federal, state, and conservation organizations and private donors. Competition for admission is very strong, and not every admissible student can or will be offered financial support. Graduate assistantships and/or fellowships may be available for a limited number of well-qualified students. Applicants are strongly encouraged to reach out to program faculty before applying. Admittance depends on appropriate fit within a research lab and the faculty member’s ability to fund a graduate student throughout their degree program. Once admitted, students work closely with major professors and an advisory committee to develop a research program.

ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 1 |
| Spring Deadline | September 1 |
| Summer Deadline | December 1 |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

The Graduate School sets minimum requirements for admissions (https://grad.wisc.edu/admissions/requirements/). Academic program admission requirements are often more rigorous than those set by the Graduate School. Applicants are encouraged to apply earlier than the dates listed above. Check the program's website (https://forestandwildlifeecology.wisc.edu/academics/21417982244_4e0823cb05_k/application-process/) for details about the admissions process.

Applicants are strongly encouraged to reach out to program faculty before applying. All applications are holistically reviewed by an admissions committee of faculty in the Forest and Wildlife Ecology department. Admittance includes an appropriate fit within a research lab and the faculty member's ability to fund a graduate student throughout their degree program.

## APPLICATION CHECKLIST

1. **Graduate School Application Form and Application Fee**
   a. All applicants must complete the Graduate School's online application (https://grad.wisc.edu/apply/).
2. **Supplementary Application**
   a. Applicants must submit the Wildlife Ecology supplementary application, which will appear as part of the Graduate School's electronic application once the applicant selects Wildlife Ecology.
3. **Resume or CV**
   a. Applicants must submit resume or CV electronically through the online application.
4. **Transcripts**
   a. All applicants must upload an unofficial transcript (non-encrypted) in a PDF format to their online application.
      i. If an applicant is recommended for admission, they will be asked to submit an official transcript to the Graduate School; official transcripts are not to be mailed to the department.
      ii. Any school listed must have a transcript uploaded, otherwise the application will not be complete.
   b. International academic records must be in the original language accompanied by an official English translation. Documents must be issued by the school with the official seal/stamp and an official signature.
   c. The Department of Forest and Wildlife Ecology requires all applicants to have a BA/BS degree from an accredited institution.
   d. A minimum undergraduate grade-point average of 3.0 (on a 4.0 scale) on the equivalent of the last 60 semester hours from the most recent bachelor's degree institution is required for regular admission. If an applicant has received a post-baccalaureate degree and the GPA for that degree is above a 3.0, then they may be admitted with full standing even if their undergraduate GPA does not meet the standards above.
5. **Statement of Purpose**
   a. This should describe the applicant's graduate program objectives and career focus. Applicants are strongly encouraged to describe past research experiences in their statement.
   b. The statement of purpose should be around two pages in length
6. **Three Letters of Recommendation**
   a. These letters are preferably from people acquainted with the applicant's academic, research and/or professional qualifications.
   b. Letters must be submitted online through the Graduate School's electronic format.
7. **Proof of English proficiency.**
   a. International degree seeking applicants must prove English proficiency. Refer to the Graduate School Requirements (https://grad.wisc.edu/apply/requirements/) page for more information.

## PREREQUISITES

Individuals are expected to enter the program having taken a majority of the following coursework, but deficient courses may be taken while in the program in consultation with the student's Graduate Committee.

- One course in ecology, with population ecology/dynamics strongly recommended
- One course in conservation biology, wildlife management, natural resources policy, or human dimensions of natural resources
- One course in animal organismal biology (e.g., physiology, terrestrial vertebrates, ornithology)
- One course in genetics or evolution

Coursework used to fulfill the prerequisite courses listed above does not transfer in to meet degree requirements.

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

Additional information regarding funding for Forest and Wildlife Ecology graduate students is available on the departmental website (https://forestandwildlifeecology.wisc.edu/academics/21417982244_4e0823cb05_k/current-employment-opportunities/).

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 51 credits |
| Minimum Residence Credit Requirement | 32 credits |
| Minimum Graduate Coursework Requirement | 26 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | n/a |
| Assessments and Examinations | Wildlife Ecology PhD students must complete a public entrance seminar, coursework certification meeting and paperwork, a qualifying exam, a preliminary exam, an exit seminar, and a defense of the dissertation. |
| Language Requirements | None. |
| Graduate School Breadth Requirements | All doctoral students are required to complete a doctoral minor or graduate/professional certificate. Refer to the Graduate School: Breadth Requirement in Doctoral Training policy: https://policy.wisc.edu/library/UW-1200 (https://policy.wisc.edu/library/UW-1200/). |

## REQUIRED COURSES

Students must complete a total of 51 credits to meet graduation requirements.

| Code | Title | Credits |
|---|---|---|
| **Wildlife Fundamentals** | | |
| Complete one of the following: | | 2-3 |
| F&W ECOL 655 | Animal Population Dynamics | |
| F&W ECOL/ ZOOLOGY 660 | Climate Change Ecology | |
| F&W ECOL/ BOTANY/ ENTOM/ ZOOLOGY 821 | Foundations of Ecology | |
| F&W ECOL 850 | Demographic Methods in Wildlife Conservation | |
| **Bio-Statistics** | | |
| Complete one of the following: | | 2-4 |
| F&W ECOL/ ENTOM 711 | Multivariate Analysis of Ecological and Community Data | |
| F&W ECOL 850 | Demographic Methods in Wildlife Conservation | |
| STAT/ COMP SCI 471 | Introduction to Computational Statistics | |
| STAT/ F&W ECOL 571 | Statistical Methods for Bioscience I | |
| STAT/ F&W ECOL 572 | Statistical Methods for Bioscience II | |
| STAT 575 | Statistical Methods for Spatial Data | |
| STAT 609 | Mathematical Statistics I | |
| STAT 610 | Introduction to Statistical Inference | |

| | |
|---|---|
| STAT/B M I 741 | Survival Analysis Theory and Methods |
| STAT/B M I 877 | Statistical Methods for Molecular Biology |
| ECON 709 | Economic Statistics and Econometrics I |
| ECON 710 | Economic Statistics and Econometrics II |
| ED PSYCH 760 | Statistical Methods Applied to Education I |
| ED PSYCH 761 | Statistical Methods Applied to Education II |

**Graduate Seminars**

| | |
|---|---|
| Students must enroll in at least two graduate seminars. These should be selected in consultation with the major professor and the graduate committee. | 2 |

**Graduate School Breadth**

| | |
|---|---|
| In consultation with advisor, students will select the appropriate plan of coursework to meet this requirement. | 9 |

**Individual Course Plan**

| | |
|---|---|
| Remaining coursework will be determined in consultation with the student's graduate committee. This may include F&W ECOL 990. | 36 |
| **Total Credits** | **51** |

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Refer to the Graduate School: Advisor (https://policy.wisc.edu/library/UW-1232/) and Graduate School: Committees (Doctoral/Master's/MFA) (https://policy.wisc.edu/library/UW-1201/) policies.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

### College of Agricultural and Life Sciences: Grievance Policy

In the College of Agricultural and Life Sciences (CALS), any student who feels unfairly treated by a member of the CALS faculty or staff has the right to complain about the treatment and to receive a prompt hearing. Some complaints may arise from misunderstandings or communication

breakdowns and be easily resolved; others may require formal action. Complaints may concern any matter of perceived unfairness.

To ensure a prompt and fair hearing of any complaint, and to protect the rights of both the person complaining and the person at whom the complaint is directed, the following procedures are used in the College of Agricultural and Life Sciences. Any student, undergraduate or graduate, may use these procedures, except employees whose complaints are covered under other campus policies.

1. The student should first talk with the person at whom the complaint is directed. Most issues can be settled at this level. Others may be resolved by established departmental procedures.
2. If the student is unsatisfied, and the complaint involves any unit outside CALS, the student should seek the advice of the dean or director of that unit to determine how to proceed.
   a. If the complaint involves an academic department in CALS the student should proceed in accordance with item 3 below.
   b. If the grievance involves a unit in CALS that is not an academic department, the student should proceed in accordance with item 4 below.
3. The student should contact the department's grievance advisor within 120 calendar days of the alleged unfair treatment. The departmental administrator can provide this person's name. The grievance advisor will attempt to resolve the problem informally within 10 working days of receiving the complaint, in discussions with the student and the person at whom the complaint is directed.
   a. If informal mediation fails, the student can submit the grievance in writing to the grievance advisor within 10 working days of the date the student is informed of the failure of the mediation attempt by the grievance advisor. The grievance advisor will provide a copy to the person at whom the grievance is directed.
   b. The grievance advisor will refer the complaint to a department committee that will obtain a written response from the person at whom the complaint is directed, providing a copy to the student. Either party may request a hearing before the committee. The grievance advisor will provide both parties a written decision within 20 working days from the date of receipt of the written complaint.
   c. If the grievance involves the department chairperson, the grievance advisor or a member of the grievance committee, these persons may not participate in the review.
   d. If not satisfied with departmental action, either party has 10 working days from the date of notification of the departmental committee action to file a written appeal to the CALS Equity and Diversity Committee. A subcommittee of this committee will make a preliminary judgement as to whether the case merits further investigation and review. If the subcommittee unanimously determines that the case does not merit further investigation and review, its decision is final. If one or more members of the subcommittee determine that the case does merit further investigation and review, the subcommittee will investigate and seek to resolve the dispute through mediation. If this mediation attempt fails, the subcommittee will bring the case to the full committee. The committee may seek additional information from the parties or hold a hearing. The committee will present a written recommendation to the dean who will provide a final decision within 20 working days of receipt of the committee recommendation.
4. If the alleged unfair treatment occurs in a CALS unit that is not an academic department, the student should, within 120 calendar days of the alleged incident, take his/her grievance directly to the Associate Dean of Academic Affairs. The dean will attempt to resolve the problem informally within 10 working days of receiving the complaint. If this mediation attempt does not succeed the student may file a written complaint with the dean who will refer it to the CALS Equity and Diversity Committee. The committee will seek a written response from the person at whom the complaint is directed, subsequently following other steps delineated in item 3d above.

### OTHER

Additional information for students in the Department of Forest and Wildlife Ecology can be found on the Graduate Programs page (https://forestandwildlifeecology.wisc.edu/academics/21417982244_4e0823cb05_k/application-process/) for the department.

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Articulates research problems, potentials, and limits with respect to theory, knowledge, or practice within the field of wildlife ecology and natural resource management.
2. Formulates ideas, concepts, designs, and/or techniques beyond the current boundaries of knowledge within the field of wildlife ecology and natural resource management.
3. Demonstrates breadth within their learning experiences.
4. Advances contributions of the field of wildlife ecology and natural resource management to society.
5. Communicates complex ideas in a clear and understandable manner.
6. Creates research and scholarship that makes a substantive contribution.

# FRENCH AND ITALIAN

## DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

# DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/ PROFESSIONAL CERTIFICATES

- French, Doctoral Minor (p. 853)
- French, MA (p. 853)
- French, PhD (p. 860)
- Italian, Doctoral Minor (p. 867)

- Italian, MA (p. 867)
- Italian, PhD (p. 871)

# FRENCH, DOCTORAL MINOR

Our graduate program offers training for teaching and research in all areas of French and Francophone literature and literary history, in critical theory, film, gender and queer studies, romance philology, and foreign language pedagogy.

Learning outcomes:

- Analyze and interpret several theories, research methods, and approaches to inquiry in this discipline
- Demonstrate adequate proficiency in French to lead a well-informed discussion of literature and culture
- Communicate clearly and appropriately in both written and spoken French

## ADMISSIONS

## ADMISSIONS

To be accepted for graduate work in French toward the doctoral minor, a student should have completed the equivalent of no less than four semesters of college French, and be capable of completing courses numbered 300 or above.

Interested students should consult with the graduate coordinator and have the minor plan approved by the director of graduate studies.

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any doctoral minor. To apply to this minor, log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. Select the information for the doctoral minor for which you are applying.

## REQUIREMENTS

## REQUIREMENTS

A student must complete a minimum of 9 credits in advanced (numbered 300 or above) French literature, culture, language, and film, taught in French, including at least 3 credits numbered 500 or above. Neither FRENCH 391 French for Reading Knowledge nor any other course taught in English may satisfy requirements for the doctoral minor in French.

### TRANSFER OF CREDITS

Students may be given credit for graduate or advanced undergraduate (numbered 300 or above) courses in French literature taken at other universities, to be determined by the French Instructional Committee. No more than 3 such credits may be transferred.

# FRENCH, MA

The MA and PhD programs in French offer a first-rate faculty in all the areas of French and Francophone literature and culture. The program emphasizes broad coverage as well as specialization, and is organized so as to take advantage of the quality and range of the faculty. A Wisconsin PhD has the ability to teach not only a very focused topic of research, but also much of the French literary tradition.

Our graduate program offers training for teaching and research in all areas of French and Francophone literature and literary history, in critical theory, film, gender and queer studies, romance philology, and foreign language pedagogy. Our large and varied faculty teach graduate courses in all areas and at regular intervals. Consequently, students for the MA degree can fulfill course requirements in any given two-year period, and candidates for the PhD can complete course requirements for the PhD within two years of obtaining their MA. Our program is designed to allow well-qualified students to complete the MA in three semesters, and all other requirements for the PhD except the dissertation in four more semesters.

The French graduate program offers a wide array of courses and seminars each semester, providing a fairly even distribution across the various literary periods in most academic years. Courses typically meet two or three times a week and are quite broad in focus, generally exploring well-defined periods or genres, while seminars are held once a week for two hours and take up narrower topics in greater depth. Both the offerings and the requirements of the MA and PhD programs are designed to give students not only the tools necessary for specialization, but also an excellent knowledge of these extremely rich literary traditions.

Strong emphasis is placed on the practice of the language. French is the usual language of instruction in graduate courses and seminars. The department offers possibilities for international stay through exchange programs and further promotes the use of French through lectures, films, theater, and events at the French House.

The French PhD program has a fine job placement record. Its students' solid foundation in the French and Francophone literary tradition is increasingly rare among North American literature programs, as is the extensive training students receive in language pedagogy.

## ADMISSIONS

## ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 20 |
| Spring Deadline | The program does not admit in the spring. |
| Summer Deadline | The program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |

| | |
|---|---|
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

Applicants for the MA in French must submit all application materials by the fall application deadline.

The Graduate School sets minimum requirements for admissions (https://grad.wisc.edu/apply/requirements/).

## GRADUATE SCHOOL APPLICATION

Refer to the following links:

- Consult the Graduate School website for complete information about graduate education opportunities at UW–Madison. This site is especially helpful in understanding admissions requirements and developing a timeline for applying.

### Materials to Upload to the Online Application

- You will need to list three people who will write letters of recommendation (https://grad.wisc.edu/admissions/faq/) for you. They should be in faculty or permanent academic staff positions. Since the Graduate School will contact your recommenders directly via e-mail once you have completed your online application, you should be sure to contact each recommender at least a month prior to when the letter of recommendation is needed to let them know that they will be contacted directly by the Graduate School. If your referees are unable to upload your letter of recommendation to the online application, contact the graduate coordinator.
- Statement of purpose, preferably written in English
- CV
- Unofficial transcripts
- Submit the online Graduate School Application for Admission (https://grad.wisc.edu/apply/) and pay the application fee.
- GRE (http://www.gre.org/) (optional) institution code 1846 for UW–Madison
- English proficiency requirement for international degree-seeking applicants. See the Graduate School requirements (https://grad.wisc.edu/apply/requirements/) for more information.

### Supplemental Materials

- TA/Fellowship Application: To be considered for teaching assistantship or fellowship support, you must submit to the department a document listing all relevant experience since you began studying French. There is no specific application form—it is a document, much like a CV, that you put together yourself. Include travel, study, or residence abroad. For teaching experience, be specific about subject, level, actual classroom hours/week, and age of students. Indicate undergraduate and graduate honors, and how you would support yourself if UW was not able to offer support.
- Writing Sample (essay or paper in French—usually between 7 and 12 pages in length)
- List of French Literature and/or Civilization courses taken, and grades received.

## QUESTIONS

Contact the Graduate Coordinator.

# FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## OTHER RESOURCES

The Department of French & Italian is committed to providing full funding (https://grad.wisc.edu/funding/) to all graduate students. Students who accept our offer of admission therefore receive fellowships or assistantships that cover tuition and provide eligibility to enroll in excellent comprehensive health insurance (https://www.ohr.wisc.edu/benefits/health/#health-plans) and other benefits (https://www.ohr.wisc.edu/benefits/new-emp/grad.aspx#overview). Funding is guaranteed for a minimum of five years of study for students entering with a BA, and a minimum of four years for those entering with an MA. Moreover, it has been our departmental practice to continue to offer funding beyond guarantee as possible for students in good academic standing.

Teaching assistantships, the most common form of support in our department, offer the pedagogical experience and training necessary to be competitive on the academic job market. The teaching assignment is usually one course per semester, but double sections (two sections of the same course) can also be requested for an increased stipend, when available. While the guarantee of support means students in good standing will receive funding, the exact assignments are based on need, merit, and experience. Generally, a graduate student will, over the course of study, hold a variety of positions from French 101-204, which are available every semester. Students may also have the opportunity to teach more advanced courses, such as FRENCH 228 and FRENCH 271, depending on departmental need. For more information about our teaching assistantships, please visit our website (https://frit.wisc.edu/funding/).

There are also fellowships (https://grad.wisc.edu/funding/fellowships/) available from several sources on campus each year, including the Chancellor's Fellowship and Graduate Research Scholars fellowships. The department also offers a number of monetary awards every year, for academic performance and for teaching. Graduate students can also take advantage of our excellent exchange programs (https://frit.wisc.edu/content/exchange-programs/) during the course of their study.

# REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 18 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | No other grade requirements. |

| | |
|---|---|
| Assessments and Examinations | 1) Oral Proficiency in French: All students will be evaluated for oral proficiency during the first year. Non-native speakers will be assessed for oral proficiency in French through a collaborative process that includes class participation, oral presentations, meetings with advisors, teaching observations, and other relevant interactions throughout the semester. Additionally, faculty teaching first-semester courses will evaluate students' proficiency in class. If concerns arise based on these assessments, the Graduate Studies Committee will review the findings and make appropriate recommendations. First-year students who do not meet the minimum oral proficiency requirements may be required to take up to 6 credits of advanced French language or phonetics courses (for instance: FRENCH 311, FRENCH/ INTL BUS  313). All decisions are made on a case-by-case basis by the Graduate Studies Committee.<br><br>2) Comprehensive Exams: Students will have the choice between a written and oral examination, or an MA thesis and an oral defense.<br><br>Option 1: MA Examination:<br><br>Written Examination:<br>• The MA exam is usually taken by the end of the fourth semester of study, although taking it earlier is possible. It should be taken before the fifth semester of study. Academic probation will be considered if all requirements including the M.A. Exam are not completed by the beginning of the sixth semester. Given twice a year, it tests students' mastery of a broad range of texts fundamental to French and Francophone studies, along with their ability to analyze texts, answer questions, and present arguments. The reading list is posted on the program website : https://frit.wisc.edu/. To take the exam, students sign up with the Graduate Coordinator by April 30th for the August exam; for the January exam they must sign up with the Graduate Coordinator by the November break.<br>• Format: The written part of the MA exam lasts a total of 7 hours. In Part I (4 hours), students are given a choice of three questions within each of the three defined areas (Middle Ages - 16th - 17th; 18th - 19th; 20th - 21st - Francophone and Global French Studies). They must answer one question in each area. Students turn in their answers and take a one-hour break. In Part II (2 hours), students must choose one of three broad essay topics. Part I must be answered in French. Part II may be answered in English or in French.<br>• Use of Materials, Academic Misconduct: Students are not allowed any notes, documents, electronic files, or books (with the exception of a dictionary). MA exams can be handwritten, but if students prefer to use a computer, they should be aware that they are not allowed to consult any files or websites. As with all other methods of evaluating students' performance in the program, such as course assignments, the |

Department conforms to university regulations governing academic misconduct. Students should refer to the following university website to familiarize themselves with the definition of and the serious consequences of academic misconduct: https://conduct.students.wisc.edu/academic-integrity (https://conduct.students.wisc.edu/academic-integrity/)/.

Oral Examination:

- A student who fails the written part of the MA exam will not take the oral part. The oral usually takes place within a week after the written examination and is conducted entirely in French. It lasts about one hour. Forty-eight hours before the oral, the candidate will be told which three books from the M.A. list will be used for selections and for the oral exam. Three hours before the oral, the candidate will be given three short extracts from the MA Reading List, and they will inform the Graduate Coordinator which extract they will analyze. The candidate will prepare an analysis of this extract in a room reserved for this purpose. There they will not have access to a computer and access to any other electronic devices is not allowed. They will annotate the text or write notes by hand that may be brought to the exam, and may use a dictionary in the preparation of these notes. During the exam the candidate will give an analysis in French of the extract chosen, lasting approximately twenty minutes. This will be followed by 10-15 minutes of discussion of the student's analysis of the chosen extract, and then by a period of questions (lasting approximately 25 minutes). Some of these questions may pertain to the candidate's written exam, but others may involve other texts on the MA reading list, from other areas.
- Weak Passes, Failures: If a student fails the written part of the exam, they will not take the oral part. They will be able to retake the entire exam at the next exam session. A student who fails the oral part of the exam may be allowed to retake the oral exam one time, at the next exam session, if s/he wishes to be reconsidered for admission into the PhD program. In order to postpone the retake until a later session, the student must make a written request to the Graduate Studies Committee and have it approved.

Option 2: MA thesis and thesis defense

A master's thesis in French (40-60 pages, including notes and bibliography):

- A master's thesis is a piece of original scholarship written under the direction of a thesis advisor. Students who are interested in writing a master's thesis should begin thinking about possible topics early in their academic program. They should contact their prospective thesis advisor by the end of their first year so that they can work on their reading and thesis plan during their third semester and write/finalize their thesis during their fourth/last semester. A master's thesis project may be submitted for final approval only during fall and spring semesters—not in the summer.
- Students should submit a prospectus five months before the anticipated defense. The prospectus should establish the main lines of argument and organization for the thesis, and it should spell out the methodology. It should also include a timetable and a working bibliography of major and secondary sources. The prospectus needs to be approved by the thesis advisor.
- Once the prospectus is approved, students will choose a second and a third reader from the Department in consultation with their thesis advisor. The final thesis should be sent to the thesis advisor and the two readers at least three weeks before the scheduled defense.

Thesis defense:

- Students selecting the MA thesis option will take a 60-minute oral exam that will consist of a 15-minute presentation of their findings, followed by a question and answer period. The questions raised by the members of the thesis committee will focus on the thesis but may also address broader points such as the conceptual framework, methodology, theoretical approach, and socio-historical context that contribute to the definition and elaboration of the thesis topic.
- At the conclusion of the defense, the thesis may be approved in its current form or approved contingent on further revisions. If extensive revisions are required, the student will need to resubmit the thesis for final approval, and the MA thesis committee may request that the student do an additional thesis defense. If after revisions and a second defense the work is deemed insufficient for entry into the PhD program, the student will be awarded a terminal MA.

Language Requirements: No language requirements.

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Core** | | |
| Students must complete the following courses. | | |
| FRENCH 569 | Critical Approaches to Literature and Culture: French and Francophone Perspectives | 3 |
| FRENCH 750 | Research Laboratory I: Introduction to Graduate Research | 3 |
| FRENCH 820 | College Teaching of French | 3 |
| **Breadth Distribution Area Requirement** | | |
| Students must complete at least one course in the department in each of the following defined areas. Topics courses are used to satisfy the breadth distribution area requirement. These may satisfy any of the three distribution areas. Instructors will determine the distribution area. Topics courses may cover multiple areas. Courses spanning more than one area may only satisfy one of the distribution areas. [1] | | 21 |
| Area 1: Middle Ages - 16th - 17th centuries | | |

| | |
|---|---|
| Area 2: 18th - 19th centuries | |
| Area 3: 20th - 21st centuries - Francophone and Global French Studies | |
| **Total Credits** | **30** |

[1] FRENCH 567, FRENCH 568, FRENCH 672, FRENCH 947, and FRENCH 948 satisfy this requirement.

### Exchange Program Course Work

Please note that courses taken while graduate students are participating in one of our exchange programs abroad do not usually count toward the completion of departmental degree requirements, although exceptions may be considered if students can provide adequate documentation of their written work, and if the Graduate Studies Committee finds the work completed abroad to be comparable to a graduate course or seminar offered in our department.

### Academic and Teaching Portfolios

- Academic Portfolio: Starting in a student's second year of courses (third semester), the student will begin keeping a portfolio of work accomplished academically (actual contents will be explained in FRENCH 750 Research Laboratory I: Introduction to Graduate Research. Towards the end of each academic year the student will write a one-page self-evaluation that explains the portfolio accomplishments for the given year and sets goals for the year to come. The portfolio and self-evaluation will be evaluated by the student's advisor, who will provide the student with a written evaluation of progress. For students who are TAs, they begin a separate teaching portfolio in their first semester of study and maintain it as long as they have a TAship.
- Teaching Portfolio: A teaching portfolio will be first set up in FRENCH 820 College Teaching of French. Its purpose is to document French graduate students' growth as instructors of language, literature, and culture as they move through each stage of the program. Materials gathered from FRENCH 820 may include statements about students' teaching philosophy, other self-reflective materials, and may also draw upon other pertinent work from FRENCH 820 College Teaching of French. During the remaining semesters of the MA and post-MA for as long as students continue to teach as TAs, one short reflective statement per semester (during those terms during which the graduate student is teaching) will be added to the portfolio.

## POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program approval, students are allowed to transfer no more than 9 credits of graduate coursework from other institutions. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

No credits from an undergraduate degree are allowed to transfer toward the program's graduate degree requirements.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

With program approval, students are allowed to transfer no more than 9 credits of coursework numbered 300 or above taken as a UW–Madison University Special student. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Upon entering the department, students are each assigned a faculty advisor with whom they will work (in most cases) until they have completed all the requirements for the MA. Students who wish to change advisors should speak to the Director of Graduate Studies for French. Within two months of completing the requirements for the MA, students are requested to choose the Chair of their Prelims Committee, who may be but need not be the same as the originally assigned advisor; students' evolving research interests, among other factors, may warrant a change. The Chair of their Prelims Committee assists students with the process of preparing for the preliminary examination. Until the students complete the last preliminary examinations, they should work with their originally assigned advisor in regards to all matters other than the content and scope of the prelims (for instance: choice of classes, etc.). Upon completion of the preliminary exams, the chair of the student's dissertation proposal committee, to be set up by the student in consultation with faculty, usually becomes the advisor, but a change of director is also possible at that time.

Students consult their advisor at least three times a year: once in September to become acquainted and address any issues related to the start of the academic year; a second time later in the fall, before course registration for the spring, in order to discuss course selection; and a third time in the spring, before course selection for the fall. Students are encouraged to contact their advisor concerning any academic problems or issues that may arise, and to engage with their advisor on an ongoing basis about their own short- and long-term concerns, plans, and interests. Advisors will mentor their advisees as well as attending to administrative functions like course selection and requirements. Advisors will actively participate in the end-of-the-year assessment of all graduate students. Additional information and clarification about requirements can be obtained from the Director of Graduate Studies for French or the Graduate Coordinator.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Timely completion of MA requirements: The MA exam is usually taken by the end of the 4th semester of study, although earlier is possible. All requirements including the MA exam should be satisfied before the beginning of the 5th semester of graduate studies. Academic probation will be considered if all requirements including the MA exam are not completed by the beginning of the 6th semester.

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## L&S POLICY FOR GRADUATE STUDENT ACADEMIC APPEALS

Graduate students have the right to appeal an academic decision related to an L&S graduate program if the student believes that the decision is inconsistent with published policy.

Academic decisions that may be appealed include:

- Dismissal from the graduate program
- Failure to pass a qualifying or preliminary examination
- Failure to achieve satisfactory academic progress
- Academic disciplinary action related to failure to meet professional conduct standards

Issues such as the following cannot be appealed using this process:

- A faculty member declining to serve as a graduate student's advisor.
- Decisions regarding the student's disciplinary knowledge, evaluation of the quality of work, or similar judgements. These are the domain of the department faculty.
- Course grades. These can be appealed instead using the L&S Policy for Grade Appeal (https://kb.wisc.edu/ls/22258/).
- Incidents of bias or hate, hostile and intimidating behavior (https://hr.wisc.edu/hib/), or discrimination (Title IX (https://compliance.wisc.edu/titleix/), Office of Compliance (https://compliance.wisc.edu/eo-complaint/formal-investigations/)). Direct these to the linked campus offices appropriate for the incident(s).

### Appeal Process for Graduate Students

A graduate student wishing to appeal an academic decision must follow the process in the order listed below. Note time limits within each step.

1. The student should first seek informal resolution, if possible, by discussing the concern with their academic advisor, the department's Director of Graduate Studies, and/or the department chair.
2. If the program has an appeal policy listed in their graduate program handbook, the student should follow the policy as written, including adhering to any indicated deadlines. In the absence of a specific departmental process, the chair or designee will be the reviewer and decision maker, and the student should submit a written appeal to the chair within 15 business days of the academic decision. The chair or designee will notify the student in writing of their decision.
3. If the departmental process upholds the original decision, the graduate student may next initiate an appeal to L&S. To do so, the student must submit a written appeal to the L&S Assistant Dean for Graduate Student Academic Affairs within 15 business days of notification of the department's decision.
   a. To the fullest extent possible, the written appeal should include, in a single document: a clear and concise statement of the academic decision being appealed, any relevant background on what led to the decision, the specific policies involved, the relief sought, any relevant documentation related to the departmental appeal, and the names and titles of any individuals contributing to or involved in the decision.
   b. The Assistant Dean will work with the Academic Associate Dean of the appropriate division to consider the appeal. They may seek additional information and/or meetings related to the case.
   c. The Assistant Dean and Academic Associate Dean will provide a written decision within 20 business days.
4. If L&S upholds the original decision, the graduate student may appeal to the Graduate School. More information can be found on their website: Grievances and Appeals (https://grad.wisc.edu/documents/grievances-and-appeals/) (see: Graduate School Appeal Process).

## OTHER

Fellowships are available for high-ranking incoming students and dissertators. The department has a number of teaching assistantships which are granted on the basis of a candidate's previous academic record, knowledge of French, and seriousness of purpose in pursuing the PhD.

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

### PROGRAM RESOURCES

The Department of French and Italian hosts several professional development workshops for our students each semester. Workshops focus on academic and non-academic professional development. Previous workshop materials are available to all students in the department.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Show broad knowledge of French and Francophone literature and culture.
2. Master a broad range of texts fundamental to French and Francophone studies.
3. Demonstrate critical understanding of the major works in literature and the history of ideas that have been written in French from the Middle Ages up to the present.
4. Show the ability to analyze literary texts of various genres, and to formulate well-informed, interpretive arguments about them.
5. Identify, select, and retrieve primary and secondary sources pertaining to questions in French and Francophone literature.
6. Analyze and interpret the theories, research methods, and approaches to inquiry in this discipline.
7. Demonstrate adequate proficiency in French to lead a well-informed discussion of literature and culture.
8. Communicate clearly and appropriately in both written and spoken French
9. Demonstrate skills as teachers of the French language and French/Francophone culture at the college level: the ability to create level- and course-appropriate instructional objectives, activities, and assessments for teaching language, literature, and culture; the ability to use instructional technologies appropriately to enhance the teaching of language, literature, and culture; the capacity to incorporate insights from second language acquisition theory and current best practices in foreign language teaching into instruction.
10. Recognize and apply principles of ethical and professional conduct.

# FRENCH, PHD

The MA and PhD programs in French offer a first-rate faculty in all the areas of French and Francophone literature and culture. The program emphasizes broad coverage as well as specialization, and is organized so as to take advantage of the quality and range of the faculty. A Wisconsin PhD has the ability to teach not only a very focused topic of research, but also much of the French literary tradition.

The French graduate program offers a wide array of courses and seminars each semester, providing a fairly even distribution across the various literary periods in most academic years. Courses typically meet two or three times a week and are quite broad in focus, generally exploring well-defined periods or genres, while seminars are held once a week for two hours and take up narrower topics in greater depth. Both the offerings and the requirements of the MA and PhD programs are designed to give students not only the tools necessary for specialization, but also an excellent knowledge of these extremely rich literary traditions.

Strong emphasis is placed on the practice of the language. French is the usual language of instruction in graduate courses and seminars. The department offers possibilities for international stay through exchange programs and further promotes the use of French through lectures, films, theater, and events at the French House.

The French PhD program has a fine job placement record. Its students' solid foundation in the French and Francophone literary tradition is increasingly rare among North American literature programs, as is the extensive training students receive in language pedagogy.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 20 |
| Spring Deadline | The program does not admit in the spring. |
| Summer Deadline | The program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/) |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

Applicants for the PhD in French must submit all application materials by the fall application deadline.

The Graduate School sets minimum requirements for admission (https://grad.wisc.edu/admissions/requirements/).

## GRADUATE SCHOOL APPLICATION

Refer to the following links:

- Consult the Graduate School (http://www.wisc.edu/grad/) website for complete information about graduate education opportunities at UW–Madison. This site is especially helpful in understanding Admissions Requirements (http://grad.wisc.edu/admissions/requirements/) and developing a Timeline (http://grad.wisc.edu/admissions/process/) for application.

### Materials to Upload to the Online Application

- You will need to list three people who will write letters of recommendation (https://grad.wisc.edu/admissions/faq/) for you. They should be in faculty or permanent academic staff positions. Since the Graduate School will contact your recommenders directly via email once you have completed your online application, you should be sure to contact each recommender at least a month prior to when the letter of recommendation is needed to let them know that they will be contacted directly by the Graduate School. If your referees are unable to upload your letter of recommendation to the online application, the letters should be sent to the graduate coordinator.
- Statement of purpose, preferably written in English
- CV
- Unofficial transcripts
- Submit the online Graduate School Application for Admission (https://grad.wisc.edu/apply/) and pay the application fee.
- GRE (http://www.gre.org/) (optional) institution code 1846 for UW–Madison
- English proficiency for international degree-seeking applicants. See the Graduate School Requirements (https://grad.wisc.edu/apply/requirements/) for more information.

### Supplemental Materials

- TA/Fellowship Application: To be considered for teaching assistantship or fellowship support, you must submit to the department a document listing all relevant experience since you began studying French. **There is no specific application form—it is a document, much like a CV, that you put together yourself**. Include travel, study, or residence abroad. For teaching experience, be specific about subject, level, actual classroom hours/week, and age of students. Also indicate undergraduate and graduate honors, and how you would support yourself if UW was not able to offer support.
- Writing Sample (essay or paper in French—usually between 7 and 12 pages in length)
- List of French Literature and/or Civilization courses taken and grades received.

## QUESTIONS

Contact the Graduate Coordinator.

# FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

The Department of French & Italian is committed to providing full funding (https://grad.wisc.edu/funding/) to all graduate students. Students who accept our offer of admission therefore receive fellowships or assistantships that cover tuition and provide eligibility to enroll in excellent comprehensive health insurance (https://www.ohr.wisc.edu/benefits/health/#health-plans) and other benefits (https://www.ohr.wisc.edu/benefits/new-emp/grad.aspx#overview). Funding is guaranteed for a minimum of 5 years of study for students entering with a BA, and a minimum of 4 years for those entering with an MA. Moreover, it has been our departmental practice to continue to offer funding beyond guarantee as possible for students in good academic standing.

Teaching assistantships, the most common form of support in our department, offer the pedagogical experience and training necessary to be competitive on the academic job market. The teaching assignment is usually one course per semester, but double sections (two sections of the same course) can also be requested for an increased stipend, when available. While the guarantee of support means students in good standing will receive funding, the exact assignments are based on need, merit, and experience. Generally, a graduate student will, over the course of study, hold a variety of positions from French 101-204, which are available every semester. Students may also have the opportunity to teach more advanced courses, such as FRENCH 228 and FRENCH 271, depending on departmental need. For more information about our teaching assistantships, please visit our website (https://frit.wisc.edu/funding/).

There are also fellowships (https://grad.wisc.edu/funding/fellowships/) available from several sources on campus each year, including the Chancellor's Fellowship and Graduate Research Scholars fellowships are also available. The department also offers a number of monetary awards every year, for academic performance and for teaching. Graduate students can also take advantage of our excellent exchange programs (https://frit.wisc.edu/content/exchange-programs/) during the course of their study.

# REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business

schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 51 credits |
| Minimum Residence Credit Requirement | 32 credits |
| Minimum Graduate Coursework Requirement | 26 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | No other grade requirements. |

| | |
|---|---|
| Assessments and Examinations | 1) Oral Proficiency in French: All students will be evaluated for oral proficiency during the first year. Non-native speakers will be assessed for oral proficiency in French through a collaborative process that includes class participation, oral presentations, meetings with advisors, teaching observations, and other relevant interactions throughout the semester. Additionally, faculty teaching first-semester courses will evaluate students' proficiency in class. If concerns arise based on these assessments, the Graduate Studies Committee will review the findings and make appropriate recommendations First-year students who do not meet the minimum oral proficiency requirements may be required to take up to 6 credits of advanced French language or phonetics courses (for instance: FRENCH 311, FRENCH/ INTL BUS  313). All decisions are made on a case-by-case basis by the Graduate Studies Committee.<br><br>2) Qualifying Examination: For students entering with an MA from outside of UW-Madison. Instead of the MA examination, students are required to take a qualifying examination identical to the oral part of the MA examination. The qualifying exam will be held at the start of the second semester and administered by the Qualifying exam committee. Candidates who fail will be asked to take the regular MA exam that is administered by the Department at the next exam session or during their fourth semester of study.<br><br>3) Preliminary Exams<br>- Field Exam: The goals of the Field Exam are twofold: 1) to guide students toward a deeper knowledge and understanding of a minimum of one area (two maximum; if two, the two areas must be clearly connected to the rationale of the chosen topic of research) of French and Francophone studies than is afforded by the MA exam; and 2) to enable them to define and narrow their interests in preparation for the greater specialization required for the dissertation.<br>The exam is a forty-eight-hour open-book take-home exam. You will receive three sets of two questions.<br>Each of the sets will be based around a common theme suggested by the rubrics of your reading list. For each set, you will choose one of the two questions to answer - therefore answering three questions total. The questions will generally ask you to demonstrate knowledge of and synthesize the different literary and philosophical/ theoretical works of your list. All the questions should be given in French, and at least one of the three responses should be written in French; the other two may be in French or English. No formal bibliography or footnote apparatus is expected on the exam, although sources must be acknowledged and may be concisely cited and documented (author, title, page number). Students are expected to provide original responses to the questions drawing from their own ideas. It is forbidden to plagiarize others or one's own past work (self-plagiarism). There are no specific length requirements, but students typically write between 5 and 8 double-spaced pages per essay; it is not unusual for the length of essays to vary somewhat. The questions are sent to students by email; they may arrange to receive the questions at any time that is acceptable to the committee and should be sure to inform the graduate coordinator of this choice at the time the exam is scheduled. Students email their responses both to their exam committee chair and to the graduate coordinator by forty-eight hours after receiving the questions.<br>- Dissertation Proposal and Oral Exam: The goal of the exam is to evaluate students' ability to articulate the constituent elements of their dissertation topic coherently and convincingly; to test their awareness of various questions, problems, and limitations implied by their framing of their topic; and to assess their skill in defending original ideas in a well-informed and effective way. The exam may be in French or English, depending on the student's preference, but it is recommended that at least one question be asked and answered in French. Finally, the proposal should emphasize what the student brings to their chosen field that is new and exciting. Having already dealt with plenty of secondary/critical literature, the student should be able to identify what "gaps" there are in the respective field(s) and what their contribution might be. After passing their Field Exam, students choose a thesis advisor and form their dissertation committee; draft their dissertation proposal; and draw up a working bibliography. Students normally take the dissertation oral exam only after completing all other requirements, including the PhD minor and language requirements. Students are reminded that dissertator status is not granted until the beginning of the semester following the one in which all requirements have been fulfilled. As with the Field Exam, it is up to the advisor, in consultation with the student and the other two committee members, to decide on the exact deadline for the submission of the dissertation proposal and bibliography, but that date should not be later than one month before the exam itself. The precise scheduling of the oral exam is arranged by the student and committee in consultation with the graduate coordinator.<br><br>4) Dissertation and Dissertation Defense: Our French program expects the minimum length of the dissertation to be approximately 200 pages, not including bibliography and annexes. Dissertations may be written in English or French.<br>In the oral examination, students will first present an overview of how they came to their dissertation topic, how it evolved during the research and writing process, what challenges the topic posed and how those challenges were met, and how the dissertation fits into their broader interests. They will then be questioned by the committee about topics relating to the dissertation, including its conceptualization, contextualization, and content. |
| Language Requirements | PhD language requirements vary according to field chosen. |
| Graduate School Breadth Requirement | All doctoral students are required to complete a doctoral minor or graduate/professional certificate. Refer to the Graduate School: Breadth Requirement in Doctoral Training policy: https://policy.wisc.edu/library/UW-1200 (https://policy.wisc.edu/library/UW-1200/). |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Core** | | |
| Students must complete the following courses. | | |
| FRENCH 569 | Critical Approaches to Literature and Culture: French and Francophone Perspectives (must be taken in the first semester offered) | 3 |
| FRENCH 750 | Research Laboratory I: Introduction to Graduate Research | 3 |
| FRENCH 820 | College Teaching of French (before teaching in Department or concurrently in first semster of teaching) | 3 |
| FRENCH/ ITALIAN 821 | Issues in Methods of Teaching French and Italian (taken any time before dissertator status) | 1 |
| *Medieval Specialists* | | |
| Students writing a dissertation on the medieval period must take additional courses in philology and paleography, indicated by advisor. | | |
| **Breadth Distribution Area Requirement** | | |
| Students must complete at least 9 courses for breadth in the department, including at least two in each of the three areas of breadth. Topics courses are used to satisfy the breadth distribution requirement. These may satisfy any of the three distribution areas. Instructors will determine the distribution area. Topics courses may cover multiple areas. Courses spanning more than one area may only satisfy one of the distribution areas. [1] | | 27 |
| Area 1: Middle Ages - 16th - 17th centuries | | |
| Area 2: 18th - 19th centuries | | |
| Area 3: 20th - 21st centuries - Francophone and Global French Studies | | |
| **Breadth Requirement** | | |
| Students take 9 credits in either an external or distributed doctoral minor or a graduate/professional certificate. | | 9 |
| **Research** | | |
| FRENCH 901 | Seminar-Materials and Methods of Research | 3 |
| FRENCH 990 | Individual Research (Students enroll in credits of FRENCH 990 to reach the minimum credit requirement.) | 2 |
| **Total Credits** | | **51** |

[1] FRENCH 567, FRENCH 568, FRENCH 672, FRENCH 947 and FRENCH 948 satisfy this requirement.

### Dissertator Status

Students in dissertator status may register for 3 credits of FRENCH 901 in place of FRENCH 990 more than once.

### Research Seminar

FRENCH 901 Seminar-Materials and Methods of Research facilitates dissertation writing. The modalities of this course is decided by the instructor. Generally, the seminar will start with students' sharing and commenting on previously completed work on the dissertation. In the second half of the semester, students present one new chapter written in the course of the semester, also to be commented on by all of the members of the seminar. The seminar members will offer critiques and suggestions to each other, and the seminar leader will introduce research techniques tailored to the participants' dissertation projects. In preparing guidance for the individual dissertator, the seminar leader will be in close touch with the dissertation advisor.

## ACADEMIC PORTFOLIO

Starting in a student's second year of courses (third semester), the student will begin keeping a portfolio of work accomplished academically. (actual contents will be explained in FRENCH 750 Research Laboratory I: Introduction to Graduate Research). Towards the end of each academic year the student will write a one-page self-evaluation that explains the portfolio accomplishments for the given year and sets goals for the year to come. The portfolio and self-evaluation will be evaluated by the student's advisor, who will provide the student with a written evaluation of progress. For students who are TAs, they begin a separate teaching portfolio in their first semester of study and maintain it as long as they have a TAship.

## TEACHING PORTFOLIO

A teaching portfolio will be first set up in FRENCH 820 College Teaching of French. Its purpose is to document French graduate students' growth as instructors of language, literature, and culture as they move through each stage of the program. Materials gathered from FRENCH 820 may include statements about students' teaching philosophy, other self-reflective materials, and may also draw upon other pertinent work from FRENCH 820. During the remaining semesters for as long as students continue to teach as TAs, one short reflective statement per semester (during those terms during which the graduate student is teaching) will be added to the portfolio.

Students are required to collaborate once with a faculty member of their choice with regard to a non-TA taught undergraduate course the faculty member is teaching that semester. A list of undergraduate courses available for this collaboration will be communicated to students each semester by the Graduate Coordinator or the Director of graduate studies. The collaboration may be carried out as part of the work of FRENCH/ ITALIAN 821 Issues in Methods of Teaching French and Italian with the agreement of the instructor, or it may be undertaken independently.

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program approval, students are allowed to transfer no more than 9 credits of graduate coursework from other institutions. Coursework earned ten or more years prior to admission to a doctoral degree is not allowed to satisfy requirements.

Students may petition the Graduate Studies Committee for course equivalencies. A maximum of three graduate courses completed during an MA degree at other institutions may be requested. Proper documentation, including syllabi, transcripts, and written work, is necessary. Equivalencies are granted only if the committee believes the work completed to be comparable to graduate courses or seminars offered in the Department.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

No credits from an undergraduate degree are allowed to transfer toward the program's graduate degree requirements.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

With program approval, students are allowed to transfer no more than 9 credits of coursework numbered 300 or above taken as a UW–Madison University Special student. However, these credits are not allowed to count toward the 50% graduate coursework minimum unless numbered 700 or above or are taken to meet the requirements of a capstone certificate and has the "Grad 50%" designation. Coursework earned ten or more years prior to admission to a doctoral degree is not allowed to satisfy requirements.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Upon entering the department, students are each assigned a faculty advisor with whom they will work (in most cases) until they have completed all the requirements for the MA. Students who wish to change advisors should speak to the Director of Graduate Studies for French. Within two months of completing the requirements for the MA, students are requested to choose the Chair of their Prelims Committee, who may be but need not be the same as the originally assigned advisor; students' evolving research interests, among other factors, may warrant a change. The Chair of their Prelims Committee assists students with the process of preparing for the preliminary examination. Until the students complete the last preliminary examinations, they should work with their originally assigned advisor in regards to all matters other than the content and scope of the prelims (for instance: choice of classes, etc.). Upon completion of the preliminary exams, the chair of the student's dissertation proposal committee, to be set up by the student in consultation with faculty, usually becomes the advisor, but a change of director is also possible at that time.

Students consult their advisor at least three times a year: once in September to become acquainted and address any issues related to the start of the academic year; a second time later in the fall, before course registration for the spring, in order to discuss course selection; and a third time in the spring, before course selection for the fall. Students are encouraged to contact their advisor concerning any academic problems or issues that may arise, and to engage with their advisor on an ongoing basis about their own short- and long-term concerns, plans, and interests. Advisors will mentor their advisees as well as attending to administrative functions like course selection and requirements. Advisors will actively participate in the end-of-the-year assessment of all graduate students. Additional information and clarification about requirements can be obtained from the Director of Graduate Studies for French or the Graduate Coordinator.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Preliminary Examinations: The Field Exam is to be taken preferably two semesters, and definitely no later than five semesters, after completion of the MA. Academic probation will be considered if the Field Exam is not taken by the beginning of the sixth semester, after completion of the MA.

The Dissertation Proposal oral exam is to be taken within nine months of the successful completion of the Field Exam.

Foreign Language Requirement: Candidates must complete their foreign language reading requirement before being granted dissertator status.

PhD Breadth: Candidates must complete the PhD breadth requirement before being granted dissertator status.

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## L&S POLICY FOR GRADUATE STUDENT ACADEMIC APPEALS

Graduate students have the right to appeal an academic decision related to an L&S graduate program if the student believes that the decision is inconsistent with published policy.

Academic decisions that may be appealed include:

- Dismissal from the graduate program
- Failure to pass a qualifying or preliminary examination
- Failure to achieve satisfactory academic progress
- Academic disciplinary action related to failure to meet professional conduct standards

Issues such as the following cannot be appealed using this process:

- A faculty member declining to serve as a graduate student's advisor.
- Decisions regarding the student's disciplinary knowledge, evaluation of the quality of work, or similar judgements. These are the domain of the department faculty.
- Course grades. These can be appealed instead using the L&S Policy for Grade Appeal (https://kb.wisc.edu/ls/22258/).
- Incidents of bias or hate, hostile and intimidating behavior (https://hr.wisc.edu/hib/), or discrimination (Title IX (https://compliance.wisc.edu/titleix/), Office of Compliance (https://compliance.wisc.edu/eo-complaint/formal-investigations/)). Direct these to the linked campus offices appropriate for the incident(s).

### Appeal Process for Graduate Students

A graduate student wishing to appeal an academic decision must follow the process in the order listed below. Note time limits within each step.

1. The student should first seek informal resolution, if possible, by discussing the concern with their academic advisor, the department's Director of Graduate Studies, and/or the department chair.
2. If the program has an appeal policy listed in their graduate program handbook, the student should follow the policy as written, including adhering to any indicated deadlines. In the absence of a specific departmental process, the chair or designee will be the reviewer and decision maker, and the student should submit a written appeal to the chair within 15 business days of the academic decision. The chair or designee will notify the student in writing of their decision.
3. If the departmental process upholds the original decision, the graduate student may next initiate an appeal to L&S. To do so, the student must submit a written appeal to the L&S Assistant Dean for Graduate Student Academic Affairs within 15 business days of notification of the department's decision.
    a. To the fullest extent possible, the written appeal should include, in a single document: a clear and concise statement of the academic decision being appealed, any relevant background on what led to the decision, the specific policies involved, the relief sought, any relevant documentation related to the departmental appeal, and the names and titles of any individuals contributing to or involved in the decision.
    b. The Assistant Dean will work with the Academic Associate Dean of the appropriate division to consider the appeal. They may seek additional information and/or meetings related to the case.
    c. The Assistant Dean and Academic Associate Dean will provide a written decision within 20 business days.
4. If L&S upholds the original decision, the graduate student may appeal to the Graduate School. More information can be found on their website: Grievances and Appeals (https://grad.wisc.edu/documents/grievances-and-appeals/) (see: Graduate School Appeal Process).

### OTHER

Fellowships are available for high-ranking incoming students and dissertators. The department has a number of teaching assistantships which are granted on the basis of a candidate's previous academic record, knowledge of French, and seriousness of purpose in pursuing the PhD.

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

### PROGRAM RESOURCES

The Department of French and Italian hosts several professional development workshops for our students each semester. Workshops focus on academic and non-academic professional development. Previous workshop materials are available to all students in the department.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Demonstrate thorough knowledge and critical understanding of two areas of French and Francophone literature, and of the historical and social contexts that have influenced the works examined in their dissertation.
2. Show the ability to synthesize and define a field of inquiry in a persuasive, coherent, and original way.
3. Make effective use of research sources, tools, and strategies in the field of French and Francophone literature.
4. Demonstrate, in the writing of their Ph.D. dissertation, an originality of thinking and insight that reaches beyond the current boundaries of knowledge within the field of study.
5. Articulate awareness of various questions, problems, and limitations implied by their framing of their topic.
6. Contribute substantially to their area of specialization, and be able to engage in a dialogue with other experts in that area.
7. Communicate and defend complex ideas in a clear and understandable manner, in both French and English.
8. Be capable of applying their investigative skills to a variety of fields within French-speaking literature and cultures.
9. Show reading knowledge of a second foreign language pertinent to their research specialty (and, for specialists of Medieval and 16th-century French literature, a third foreign language).
10. Be prepared to be effective teachers of French/Francophone literature, culture, and language at the college and university levels.
11. Foster ethical and professional conduct.

# ITALIAN, DOCTORAL MINOR

## ADMISSIONS

## ADMISSIONS

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any doctoral minor. To apply to this minor, log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. Select the information for the doctoral minor for which you are applying.

## REQUIREMENTS

## REQUIREMENTS

Students must take a minimum of 12 credits in Italian literature, linguistics, or cinema numbered 400 or above (ITALIAN 340 Structures of Italian is allowed).

### PRIOR COURSEWORK

Students may be given credit for graduate or advanced undergraduate courses in Italian taken at other universities prior to enrollment at UW–Madison. No more than 6 such credits may be transferred.

# ITALIAN, MA

The Italian program offers the master of arts and PhD degrees. In most academic years, a wide array of courses and seminars is offered each semester to provide an even distribution across various literary periods. Courses typically meet two or three times a week and are broad in focus, generally exploring well-defined periods or genres. Seminars are held once a week for two hours and take up narrower topics in greater depth. Typical course offerings over a two- to three-year period cover all centuries of Italian literature and a wide variety of topics, including Italian culture, cinema, civilization, and linguistics. Strong emphasis is placed on the practice of the language; Italian is the usual language of instruction in graduate courses and seminars.

Graduate students gain a solid foundation not only in scholarship and criticism, but also in teaching. All admitted students receive guarantees of support. The standard offer to an incoming teaching assistant provides a guarantee of four or five years of support, depending on whether the student has already done graduate work elsewhere.

The department offers regular workshops designed to give students an overview of the job market and how to best prepare for it, making its placement record outstanding. As one of the largest Italian programs in North America, the department offers an unparalleled opportunity to study Italian literature, linguistics, and culture.

## ADMISSIONS

## ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 20 |
| Spring Deadline | The program does not admit in the spring. |
| Summer Deadline | The program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

**Note that if you have received only a bachelor's degree and intend to go on to our PhD program after completing your MA, please apply directly to the PhD program (p. 871).**

Applicants must submit all application materials by the fall application deadline.

### GRADUATE SCHOOL APPLICATION

Refer to the following links:

- Consult the Graduate School (https://grad.wisc.edu/) website for complete information about graduate education opportunities at UW–Madison. This site is especially helpful in understanding admissions requirements (http://grad.wisc.edu/admissions/requirements/) and developing a timeline (https://grad.wisc.edu/apply/) for application.

#### Materials

Upload the following to the online application:

- Three letters of recommendation (https://grad.wisc.edu/apply/#FAQ). Recommenders should be in faculty or permanent academic staff positions. Since the Graduate School will contact your recommenders directly via e-mail once you have completed your online application, you should be sure to contact each recommender at least a month prior to when the letter of recommendation is needed to let them know that they will be contacted directly by the Graduate School. If your referees are unable to upload your letter of recommendation to the online application, the letters should be sent to the Graduate Coordinator (email listed in contact information box).
- Statement of purpose, preferably written in English
- CV
- Unofficial transcripts
- Submit the online Graduate School application for admission (https://grad.wisc.edu/apply/) and pay the application fee.

- GRE (http://www.gre.org/) (not required) institution code 1846 for UW–Madison
- International degree-seeking applicants will need to provide English proficiency. See the Graduate School requirements (https://grad.wisc.edu/apply/requirements/) for specific information.

### Supplemental Materials

- TA/Fellowship Application: To be considered for teaching assistantship or fellowship support, you must submit to the department a document listing all relevant experience since you began studying Italian. **There is no specific application form—it is a document, much like a CV, that you put together yourself.** Include travel, study, or residence abroad. For teaching experience, be specific about subject, level, actual classroom hours/week, and age of students. Also indicate undergraduate and graduate honors, and how you would support yourself if UW was not able to offer support.
- Writing sample (essay or paper in Italian—usually between 7 and 12 pages in length)

## QUESTIONS

Contact graduate coordinator (email listed in contact information box).

# FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

The Department of French & Italian is committed to providing full funding (https://grad.wisc.edu/funding/) to all graduate students. Students who accept our offer of admission therefore receive fellowships or assistantships that cover tuition and provide eligibility to enroll in excellent comprehensive health insurance (https://www.ohr.wisc.edu/benefits/health/#health-plans) and other benefits (https://www.ohr.wisc.edu/benefits/new-emp/grad.aspx#overview). Funding is guaranteed for a minimum of 5 years of study for students entering with a BA, and a minimum of 4 years for those entering with an MA. Moreover, it has been our departmental practice to continue to offer funding beyond guarantee as possible for students in good academic standing.

Teaching assistantships, the most common form of support in our department, offer the pedagogical experience and training necessary to be competitive on the academic job market. The teaching assignment is usually one course per semester, but double sections (two sections of the same course) can also be requested for an increased stipend, when available. While the guarantee of support means students in good standing will receive funding, the exact assignments are based on need, merit, and experience. Generally, a graduate student will, over the course of study, hold a variety of positions from Italian 101-204, which are available every semester. Students may also have the opportunity to teach more advanced courses, such as ITALIAN 312 and ITALIAN 322, depending on departmental need. For more information about our teaching assistantships, please visit our website (https://frit.wisc.edu/funding/).

There are also fellowships (https://grad.wisc.edu/funding/fellowships/) available from several sources on campus each year, including the Chancellor's Fellowship and Graduate Research Scholars fellowships. The department also offers a number of monetary awards every year, for academic performance and for teaching.

# REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

## MODE OF INSTRUCTION DEFINITIONS

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 18 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.25 GPA required. |

| | |
|---|---|
| Other Grade Requirements | No other grade requirements. |
| Assessments and Examinations | Formal examination required. No thesis requirement. |
| Language Requirements | No language requirements. |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Methods** | | |
| The following course is required: | | |
| ITALIAN/ FRENCH 821 | Issues in Methods of Teaching French and Italian | 1 |
| **Italian** | | |
| Students must complete a minimum of 24 credits in Italian (ITALIAN) courses. Of these 24 credits, 12 must be in courses numbered above 500, and 6 must be seminar work. | | 24 |
| *Medieval: Duecento and Trecento* | | |
| ITALIAN/ MEDIEVAL/ RELIG ST 440 | Poverty, Ecology and the Arts: St. Francis of Assisi | |
| ITALIAN/ MEDIEVAL 659 | Dante's Divina Commedia | |
| ITALIAN/ MEDIEVAL 671 | The 13th Century | |
| *Mid Modern: Settecento to Ottocento* | | |
| ITALIAN 621 | The 18th Century | |
| ITALIAN 622 | The 18th Century | |
| ITALIAN 741 | The 17th Century and Arcadia | |
| *Additional Breadth Areas* | | |
| Three additional breadth areas are Renaissance: Quattrocento and Cinquecento, Early Modern: Seicento, and Modern: Novecento to the Present. Topics courses listed under the Flexible/Open-Area courses can fulfill these breadth areas. | | |
| *Flexible/Open-Area Courses* | | |
| The following topics courses may satisfy any of the 5 areas of breadth. Instructors will determine the area of breadth. | | |
| ITALIAN 450 | Special Topics in Italian Literature | |
| ITALIAN 452 | Special Topics in Italian Studies: Culture, Film, Language | |
| ITALIAN/ COM ARTS 460 | Italian Film | |
| ITALIAN 623 | Italian Theatre | |
| ITALIAN 631 | Features in Italian Literature | |
| ITALIAN 632 | Features in Italian Literature | |
| ITALIAN 636 | The Italian Novel | |
| ITALIAN 730 | Topics in Italian Literature and Culture | |
| ITALIAN 731 | Features in Italian Literature | |
| ITALIAN 732 | Features in Italian Literature | |
| ITALIAN 951 | Seminar-Studies in Italian Literature | |
| ITALIAN 952 | Seminar-Studies in Italian Literature | |
| **Electives** | | |
| Students take additional credits to reach the 30-credit minimum in consultation with their graduate advisor. | | 5 |
| **Total Credits** | | **30** |

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program approval, students are allowed to transfer no more than 6 credits of graduate coursework from other institutions. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

No credits from an undergraduate degree are allowed to transfer toward the program's graduate degree requirements.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

With program approval, students are allowed to transfer no more than 6 credits of coursework numbered 300 or above taken as a UW–Madison University Special student. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

All students are required to conduct a yearly progress report meeting with their advisor.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## L&S POLICY FOR GRADUATE STUDENT ACADEMIC APPEALS

Graduate students have the right to appeal an academic decision related to an L&S graduate program if the student believes that the decision is inconsistent with published policy.

Academic decisions that may be appealed include:

- Dismissal from the graduate program
- Failure to pass a qualifying or preliminary examination
- Failure to achieve satisfactory academic progress
- Academic disciplinary action related to failure to meet professional conduct standards

Issues such as the following cannot be appealed using this process:

- A faculty member declining to serve as a graduate student's advisor.
- Decisions regarding the student's disciplinary knowledge, evaluation of the quality of work, or similar judgements. These are the domain of the department faculty.
- Course grades. These can be appealed instead using the L&S Policy for Grade Appeal (https://kb.wisc.edu/ls/22258/).
- Incidents of bias or hate, hostile and intimidating behavior (https://hr.wisc.edu/hib/), or discrimination (Title IX (https://compliance.wisc.edu/titleix/), Office of Compliance (https://compliance.wisc.edu/eo-complaint/formal-investigations/)). Direct these to the linked campus offices appropriate for the incident(s).

### Appeal Process for Graduate Students

A graduate student wishing to appeal an academic decision must follow the process in the order listed below. Note time limits within each step.

1. The student should first seek informal resolution, if possible, by discussing the concern with their academic advisor, the department's Director of Graduate Studies, and/or the department chair.
2. If the program has an appeal policy listed in their graduate program handbook, the student should follow the policy as written, including adhering to any indicated deadlines. In the absence of a specific departmental process, the chair or designee will be the reviewer and decision maker, and the student should submit a written appeal to the chair within 15 business days of the academic decision. The chair or designee will notify the student in writing of their decision.
3. If the departmental process upholds the original decision, the graduate student may next initiate an appeal to L&S. To do so, the student must submit a written appeal to the L&S Assistant Dean for Graduate Student Academic Affairs within 15 business days of notification of the department's decision.
   a. To the fullest extent possible, the written appeal should include, in a single document: a clear and concise statement of the academic decision being appealed, any relevant background on what led to the decision, the specific policies involved, the relief sought, any relevant documentation related to the departmental appeal, and the names and titles of any individuals contributing to or involved in the decision.
   b. The Assistant Dean will work with the Academic Associate Dean of the appropriate division to consider the appeal. They may seek additional information and/or meetings related to the case.
   c. The Assistant Dean and Academic Associate Dean will provide a written decision within 20 business days.
4. If L&S upholds the original decision, the graduate student may appeal to the Graduate School. More information can be found on their website: Grievances and Appeals (https://grad.wisc.edu/documents/grievances-and-appeals/) (see: Graduate School Appeal Process).

## OTHER

In most cases, the department offers five-year guarantees of support (for students with no prior graduate work) and four-year guarantees of support (for students with prior graduate work) to incoming students. During this period of guaranteed support, students usually hold a fellowship or teaching assistantship. Decisions on support are made in February and offers are usually sent out in early March.

# PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

## GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## PROGRAM RESOURCES

The Department of French and Italian hosts several professional development workshops for our students each semester. Workshops

focus on academic and non-academic professional development. Previous workshop materials are available to all students in the department.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Demonstrate critical understanding of the major works of Italian literature and culture from the Middle Ages up to the present.
2. Lead a well-informed discussion of literature and culture utilizing an adequate proficiency of Italian.
3. Master methods of literary and cultural analysis in their specific areas of interest.
4. Examine literary texts of various genres and write competent critical and analytical essays
5. Lead a well-informed discussion of literature and culture utilizing an adequate proficiency of Italian.
6. Identify, select, and retrieve primary and secondary sources pertaining to questions in Italian literature and culture.
7. Recognizes and applies principles of ethical and professional conduct.
8. Create level- and course-appropriate instructional objectives, activities, and assessments for teaching language, literature, and culture.
9. Use instructional technologies appropriately to enhance the teaching of language, literature, and culture.
10. Incorporate insights from second language acquisition theory and current best practices in foreign language teaching into instruction.

# ITALIAN, PHD

The Italian program offers the master of arts and PhD degrees. In most academic years, a wide array of courses and seminars is offered each semester to provide an even distribution across various literary periods. Courses typically meet two or three times a week and are broad in focus, generally exploring well-defined periods or genres. Seminars are held once a week for two hours and take up narrower topics in greater depth. Typical course offerings over a two- to three-year period cover all centuries of Italian literature and a wide variety of topics, including Italian culture, cinema, civilization, and linguistics. Strong emphasis is placed on the practice of the language; Italian is the usual language of instruction in graduate courses and seminars.

Graduate students gain a solid foundation not only in scholarship and criticism, but also in teaching. All admitted students receive guarantees of support. The standard offer to an incoming teaching assistant provides a guarantee of four or five years of support, depending on whether the student has already done graduate work elsewhere.

The department offers regular workshops designed to give students an overview of the job market and how to best prepare for it, making its placement record outstanding. As one of the largest Italian programs in North America, the department offers an unparalleled opportunity to study Italian literature, linguistics, and culture.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 20 |
| Spring Deadline | The program does not admit in the spring. |
| Summer Deadline | The program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

## GRADUATE SCHOOL APPLICATION

Refer to the following links:

- Consult the Graduate School (http://www.wisc.edu/grad/) website for complete information about graduate education opportunities at UW–Madison. This site is especially helpful in understanding admissions requirements (http://grad.wisc.edu/admissions/requirements/) and developing a timeline (https://grad.wisc.edu/apply/)for application.

### Materials

Upload the following to the online application:

- Three letters of recommendation (https://grad.wisc.edu/apply/#FAQ). Recommenders should be in faculty or permanent academic staff positions. Since the Graduate School will contact your recommenders directly via e-mail once you have completed your online application, you should be sure to contact each recommender at least a month prior to when the letter of recommendation is needed to let them know that they will be contacted directly by the Graduate School. If your referees are unable to upload your letter of recommendation to the online application, the letters should be sent to the Graduate Coordinator (email listed in contact information box).
- Statement of purpose, preferably written in English
- CV
- Unofficial transcripts

- Submit the online Graduate School Application for Admission (https://grad.wisc.edu/apply/) and pay the application fee.
- GRE (http://www.gre.org/) (not required) institution code 1846 for UW–Madison
- International degree-seeking applicants will need to provide English proficiency. See the Graduate School requirements (https://grad.wisc.edu/apply/requirements/) for specific information.

### Supplemental Materials

- TA/Fellowship Application: To be considered for teaching assistantship or fellowship support, you must submit to the department a document listing all relevant experience since you began studying Italian. **There is no specific application form—it is a document, much like a CV, that you put together yourself.** Include travel, study, or residence abroad. For teaching experience, be specific about subject, level, actual classroom hours/week, and age of students. Also indicate undergraduate and graduate honors, and how you would support yourself if UW was not able to offer support.
- Writing sample (essay or paper in Italian—usually between 7 and 12 pages in length)

## QUESTIONS

Contact Graduate Coordinator (email listed in contact information box).

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

The Department of French & Italian is committed to providing full funding (https://grad.wisc.edu/funding/) to all graduate students. Students who accept our offer of admission therefore receive fellowships or assistantships that cover tuition and provide eligibility to enroll in excellent comprehensive health insurance (https://www.ohr.wisc.edu/benefits/health/#health-plans) and other benefits (https://www.ohr.wisc.edu/benefits/new-emp/grad.aspx#overview). Funding is guaranteed for a minimum of five years of study for students entering with a BA, and a minimum of four years for those entering with an MA. Moreover, it has been our departmental practice to continue to offer funding beyond guarantee as possible for students in good academic standing.

Teaching assistantships, the most common form of support in our department, offer the pedagogical experience and training necessary to be competitive on the academic job market. The teaching assignment is usually one course per semester, but double sections (two sections of the same course) can also be requested for an increased stipend, when available. While the guarantee of support means students in good standing will receive funding, the exact assignments are based on need, merit, and experience. Generally, a graduate student will, over the course of study, hold a variety of positions from Italian 101-204, which are available every semester. Students may also have the opportunity to teach more advanced courses, such as ITALIAN 312 and ITALIAN 322, depending on departmental need. For more information about our teaching assistantships, please visit our website (https://frit.wisc.edu/funding/).

There are also fellowships (https://grad.wisc.edu/funding/fellowships/) available from several sources on campus each year, including the Chancellor's Fellowship and Graduate Research Scholars fellowships. The department also offers a number of monetary awards every year, for academic performance and for teaching.

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 51 credits |
| Minimum Residence Credit Requirement | 32 credits |
| Minimum Graduate Coursework Requirement | 26 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.30 GPA required. |

| | |
|---|---|
| Other Grade Requirements | No other grade requirements. |
| Assessments and Examinations | Qualifying exam (if MA is from another institution); preliminary examinations; dissertation proposal; oral examination; dissertation; dissertation defense. Students without an MA degree in Italian from UW–Madison are required to pass the qualifying examination by the end of the second semester in the PhD program. It may be taken only once. |
| Language Requirements | Reading proficiency in two languages other than English and Italian. |
| Graduate School Breadth Requirement | All doctoral students are required to complete a doctoral minor or graduate/professional certificate. Refer to the Graduate School: Breadth Requirement in Doctoral Training policy: https://policy.wisc.edu/library/UW-1200 (https://policy.wisc.edu/library/UW-1200/). |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Methods** | | |
| The following course is required: | | |
| ITALIAN/ FRENCH 821 | Issues in Methods of Teaching French and Italian | 1 |
| **Seminar** | | |
| Students must complete a seminar in an area of Italian studies each semester until they have passed the preliminary examinations. In any given semester, this request may be waived upon approval by the associate chair for Italian. | | |
| ITALIAN 951 | Seminar-Studies in Italian Literature | |
| ITALIAN 952 | Seminar-Studies in Italian Literature | |
| **Italian** | | |
| Students must complete a minimum of 24 credits in Italian courses. Of these 24 credits, 12 must be in courses numbered above 500, and 6 must be seminar work. | | 24 |
| *Medieval: Duecento and Trecento* | | |
| ITALIAN/ MEDIEVAL/ RELIG ST 440 | Poverty, Ecology and the Arts: St. Francis of Assisi | |
| ITALIAN/ MEDIEVAL 659 | Dante's Divina Commedia | |
| ITALIAN/ MEDIEVAL 671 | The 13th Century | |
| *Mid Modern: Settecento to Ottocento* | | |
| ITALIAN 621 | The 18th Century | |
| ITALIAN 622 | The 18th Century | |
| ITALIAN 741 | The 17th Century and Arcadia | |
| *Additional Breadth Areas* | | |
| Three additional breadth areas are Renaissance: Quattrocento and Cinquecento, Early Modern: Seicento, and Modern: Novecento to the Present. Topics courses listed under the Flexible/Open-Area courses can fulfill these breadth areas. | | |
| *Flexible/Open-Area Courses* | | |
| The following topics courses may satisfy any of the 5 areas of breadth. Instructors will determine the area of breadth. | | |
| ITALIAN 450 | Special Topics in Italian Literature | |
| ITALIAN 452 | Special Topics in Italian Studies: Culture, Film, Language | |
| ITALIAN/ COM ARTS 460 | Italian Film | |
| ITALIAN 623 | Italian Theatre | |
| ITALIAN 631 | Features in Italian Literature | |
| ITALIAN 632 | Features in Italian Literature | |
| ITALIAN 636 | The Italian Novel | |
| ITALIAN 730 | Topics in Italian Literature and Culture | |
| ITALIAN 731 | Features in Italian Literature | |
| ITALIAN 732 | Features in Italian Literature | |
| ITALIAN 951 | Seminar-Studies in Italian Literature | |
| ITALIAN 952 | Seminar-Studies in Italian Literature | |
| **Breadth** | | |
| Students take 12 credits in either an external or distributed doctoral minor or a graduate/professional certificate. | | 12 |
| **Research** | | |
| Students complete the following to satisfy the minimum credit requirement. | | 14 |
| ITALIAN 990 | Individual Research | |
| **Total Credits** | | **51** |

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program approval, students are allowed to transfer no more than 6 credits of graduate coursework from other institutions. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

No credits from an undergraduate degree are allowed to transfer toward the program's graduate degree requirements.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

With program approval, students are allowed to transfer no more than 6 credits of coursework numbered 300 or above taken as a UW–Madison

University Special student. However, these credits are not allowed to count toward the 50% graduate coursework minimum unless numbered 700 or above or are taken to meet the requirements of a capstone certificate and has the "Grad 50%" designation. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

All students are required to conduct a yearly progress report meeting with their advisor.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## L&S POLICY FOR GRADUATE STUDENT ACADEMIC APPEALS

Graduate students have the right to appeal an academic decision related to an L&S graduate program if the student believes that the decision is inconsistent with published policy.

Academic decisions that may be appealed include:

- Dismissal from the graduate program
- Failure to pass a qualifying or preliminary examination
- Failure to achieve satisfactory academic progress
- Academic disciplinary action related to failure to meet professional conduct standards

Issues such as the following cannot be appealed using this process:

- A faculty member declining to serve as a graduate student's advisor.
- Decisions regarding the student's disciplinary knowledge, evaluation of the quality of work, or similar judgements. These are the domain of the department faculty.
- Course grades. These can be appealed instead using the L&S Policy for Grade Appeal (https://kb.wisc.edu/ls/22258/).
- Incidents of bias or hate, hostile and intimidating behavior (https://hr.wisc.edu/hib/), or discrimination (Title IX (https://compliance.wisc.edu/titleix/), Office of Compliance (https://compliance.wisc.edu/eo-complaint/formal-investigations/)). Direct these to the linked campus offices appropriate for the incident(s).

### Appeal Process for Graduate Students

A graduate student wishing to appeal an academic decision must follow the process in the order listed below. Note time limits within each step.

1. The student should first seek informal resolution, if possible, by discussing the concern with their academic advisor, the department's Director of Graduate Studies, and/or the department chair.
2. If the program has an appeal policy listed in their graduate program handbook, the student should follow the policy as written, including adhering to any indicated deadlines. In the absence of a specific departmental process, the chair or designee will be the reviewer and decision maker, and the student should submit a written appeal to the chair within 15 business days of the academic decision. The chair or designee will notify the student in writing of their decision.
3. If the departmental process upholds the original decision, the graduate student may next initiate an appeal to L&S. To do so, the student must submit a written appeal to the L&S Assistant Dean for Graduate Student Academic Affairs within 15 business days of notification of the department's decision.
   a. To the fullest extent possible, the written appeal should include, in a single document: a clear and concise statement of the academic decision being appealed, any relevant background on what led to the decision, the specific policies involved, the relief sought, any relevant documentation related to the departmental appeal, and the names and titles of any individuals contributing to or involved in the decision.
   b. The Assistant Dean will work with the Academic Associate Dean of the appropriate division to consider the appeal. They may seek additional information and/or meetings related to the case.
   c. The Assistant Dean and Academic Associate Dean will provide a written decision within 20 business days.
4. If L&S upholds the original decision, the graduate student may appeal to the Graduate School. More information can be found on their

website: Grievances and Appeals (https://grad.wisc.edu/documents/grievances-and-appeals/) (see: Graduate School Appeal Process).

### OTHER

In most cases, the department offers five-year guarantees of support (for students with no prior graduate work) and four-year guarantees of support (for students with prior graduate work) to incoming students. During this period of guaranteed support, students usually hold a fellowship or teaching assistantship. Decisions on support are made in February and offers are usually sent out in early March.

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

### PROGRAM RESOURCES

The Department of French and Italian hosts several professional development workshops for our students each semester. Workshops focus on academic and non-academic professional development. Previous workshop materials are available to all students in the department.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Demonstrate thorough knowledge and critical understanding of their area of specialization.
2. Synthesize and define a field of inquiry in a persuasive, coherent, and original way.
3. Make effective use of research sources, tools, and strategies in the field of Italian literature and culture.
4. Demonstrate, in the writing of their Ph.D. dissertation, an originality of thinking and insight that reaches beyond the current boundaries of knowledge within the field of study.
5. Articulate awareness of various questions, problems, and limitations implied by their framing of their topic.
6. Contribute substantially to their area of specialization, and engage in a dialogue with other experts in that area.
7. Fosters ethical and professional conduct.
8. Communicate and defend complex ideas in a clear and understandable manner, in both Italian and English.
9. Show reading knowledge of a second foreign language pertinent to their research specialty.
10. Be prepared to be effective teachers of Italian culture, and language at the college and university levels.

# GAYLORD NELSON INSTITUTE FOR ENVIRONMENTAL STUDIES

## DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

# DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/ PROFESSIONAL CERTIFICATES

- Culture, History and Environment, Doctoral Minor (p. 875)
- Culture, History and Environment, Graduate/Professional Certificate (p. 876)
- Energy Analysis and Policy, Graduate/Professional Certificate (p. 878)
- Environment and Resources, Doctoral Minor (p. 880)
- Environment and Resources, MS (p. 880)
- Environment and Resources, PhD (p. 887)
- Environmental Conservation, MS (p. 894)
- Sustainability, Graduate/Professional Certificate (p. 904)
- Water Resources Management, Doctoral Minor (p. 906)
- Water Resources Management, MS (p. 908)

# CULTURE, HISTORY AND ENVIRONMENT, DOCTORAL MINOR

The Center for Culture, History, and Environment (CHE) provides a home for faculty and graduate students from across campus to explore changing human-environment interactions across the broad sweep of history in an interdisciplinary setting. Graduate student involvement is at the core of CHE's mission, and graduate students from all disciplines are invited to take part in the full range of CHE's activities, events, scholarly collaborations, and professional development opportunities. CHE offers two main avenues for graduate student involvement: a non-curricular affiliation in the form of Graduate Student Associate status, and a curricular track in the form of the CHE Certificate or PhD Minor.

Eligibility: Any currently enrolled graduate student at UW–Madison at the PhD level and not pursuing any other minor field.

Benefits:

- Completed PhD minor will appear on transcript
- Demonstrates rigorous academic engagment with interdisciplinary environmental studies
- Ability to construct a tailored minor course of study that counts as an "Option A" minor program

## ADMISSIONS

# ADMISSIONS

To apply:

- Find a CHE faculty associate who is willing to serve as your CHE advisor.
- Complete the form available here (https://uwmadison.co1.qualtrics.com/jfe/form/SV_7WmbG4EG7c4mAPX/) and submit with an unofficial transcript.
- Apply through the UW-Madison Graduate Student Portal.

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any major/named option, doctoral minor, or graduate/professional certificate. To apply to this doctoral minor, please log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. The CHE curricular coordinator will review your application for admittance, and reach out to you if they have any further questions.

Admission process: CHE Curriculum Committee reviews applications on a rolling schedule.

## REQUIREMENTS

# REQUIREMENTS

Requirements:

- ENVIR ST 922 Historical and Cultural Methods in Environmental Research (also known as the "CHE methods seminar")
- 6-credit plan of study.
  Each CHE graduate student works with her/his/their CHE faculty advisor to design a tailored plan of study. The plan of study must be relevant to the student's chosen area of focus. The area of focus should be related to human dimensions of an environmental issue. Examples of areas of focus include (but are certainly not limited to): posthumanism and the human-wildlife interface; critical engagements with conservation science; feminist political ecology and/or ecofeminisms; history of indigenous landscapes and cultures in Central America; environmental justice and Latinx, Black, and/or other minoritized communities in the US; food insecurity and sovereignty; the literature and/or art of polluted spaces.
- Average GPA for coursework must be 3.00 or higher.

# CULTURE, HISTORY AND ENVIRONMENT, GRADUATE/PROFESSIONAL CERTIFICATE

The CHE certificate, administered by the Nelson Institute's Center for Culture, History, and Environment, captures the spirit of interdisciplinarity at the heart of CHE and the collaborations that have been forged across the Nelson Institute, the College of Letters & Science, and the College of Agricultural and Life Sciences. Departments, programs, and schools represented by CHE faculty and graduate students include American Indian Studies, Anthropology, Art History, Botany, Community and Environmental Sociology, English, Forest and Wildlife Ecology, Gender and Women's Studies, Geography, History, History of Science, Journalism and Mass Communication, Law, Landscape Architecture, Limnology, and Zoology.

The environmental challenges we face today arise as much from human actions as from natural processes. Only at our peril do we forget that nature, in all its myriad forms, is inextricably bound up with every aspect of human culture, economy, and politics. In attending to past environmental and cultural change, and in synthesizing diverse research methods and approaches drawn from across the full spectrum of humanities, natural sciences, and social sciences, the certificate in culture, history, and environment contributes in important ways to the understanding of past, present, and future environmental issues through interdisciplinary education and research.

Through the CHE Environmental History Colloquia, the annual Place-Based Workshops, and the Graduate Symposium, among other activities, CHE has created a lively, engaged community of faculty, graduate students, and others from a wide array of academic disciplines to investigate environmental and cultural change in the full sweep of human history. The CHE certificate considers applications from students in any graduate degree program at UW–Madison. By entering CHE early in their graduate studies and planning carefully, students often can select courses that satisfy both their degree program and CHE requirements.

CHE is not available as a stand-alone graduate degree. Master's and doctoral students who complete the requirements receive a certificate in CHE to supplement their graduate degree, or doctoral students can instead complete the program as an external minor. Doctoral students cannot claim CHE as both a certificate and an external minor; they must choose one or the other.

## ADMISSIONS

# ADMISSIONS

### APPLICATIONS

To apply:

1. Find a Culture, History and Environment faculty associate who is willing to serve as your advisor.
2. Complete the form available here (https://uwmadison.co1.qualtrics.com/jfe/form/SV_7WmbG4EG7c4mAPX/) and submit with an unofficial transcript.
3. Apply through the UW-Madison Graduate Student Portal.

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any graduate/professional certificate. To apply to this certificate, log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. Select the information for the certificate for which you are applying. Professional students in the careers of Law, Medicine, Pharmacy, and Veterinary cannot add the certificate in the Graduate Student Portal, and should contact the program for more information.

The certificate coordinator will review your application for admittance and reach out to you if they have any further questions.

## ADMISSIONS PROCESS

Culture, History and Environment Curriculum Committee reviews applications on a rolling schedule.

## REQUIREMENTS

# REQUIREMENTS

## REQUIRED COURSES

Students must complete 12 credits, including ENVIR ST 922 Historical and Cultural Methods in Environmental Research. Courses should represent a thematically coherent selection related to past environmental and cultural change and expose students to research approaches outside of their home discipline.

The plan of study must be relevant to the student's chosen area of focus and must be approved by the student's CHE faculty advisor. The area of focus should be related to human dimensions of an environmental issue, distinct from the focus of their major program. Examples of areas of focus include (but are certainly not limited to):

- posthumanism and the human-wildlife interface
- critical engagements with conservation science
- feminist political ecology and/or ecofeminisms
- history of indigenous landscapes and cultures in Central America
- environmental justice and Latinx, Black, and/or other minoritized communities in the US
- food insecurity and sovereignty
- the literature and/or art of polluted spaces

### Sample Courses

Below is a sample of courses that have been used as area of focus courses, but students are not limited to these courses when developing their plan of study.

| Code | Title | Credits |
|---|---|---|
| AGROECOL 701 | The Farm as Socio-Environmental Endeavor | 3 |
| AMER IND/ ENVIR ST 306 | Indigenous Peoples and the Environment | 3 |
| AMER IND/ ANTHRO/ BOTANY 474 | Ethnobotany | 3-4 |
| AMER IND/ GEOG 410 | Critical Indigenous Ecological Knowledges | 3 |
| C&E SOC/ENVIR ST/ SOC 540 | Sociology of International Development, Environment, and Sustainability | 3 |
| ENGL/ ENVIR ST 533 | Topic in Literature and the Environment (Topic: EcoPoetry) | 3 |
| ENGL 817 | Seminar-American Literature (Topic: Plantationocene) | 3 |
| ENGL 825 | Topics in Literature and the Environment (Topic: Queer Ecologies) | 3 |
| ENVIR ST 404 | Special Topics in Environmental Humanities (Topic: Race and Environmental Studies) | 1-3 |
| ENVIR ST/ GEOG 537 | Culture and Environment | 4 |
| ENVIR ST/ URB R PL 917 | Public Participation for Planning and Policy Making | 3 |
| FOLKLORE/ MUSIC 915 | Seminar in Ethnomusicology (Topic: Listening, Sound, Climate Change) | 3 |
| F&W ECOL 379 | Principles of Wildlife Management | 3 |
| F&W ECOL 875 | Special Topics (Politics & Policy of Environmental Change) | 1-4 |
| FRENCH 948 | Seminar: Literature Questions (Strange Ecologies) | 3 |
| GEN&WS 340 | Topics in LGBTQ Sexuality (Queering Ecofeminism & Environmental Racism) | 3 |
| GEN&WS 533 | Special Topics in Gender and Biology (Gender, Race, and Botany) | 3 |
| GEOG 501 | Space and Place: A Geography of Experience | 3 |
| GEOG 566 | History of Geographic Thought | 3 |
| GEOG 930 | Seminar in People-Environment Geography (Political Ecology of Environmental Change) | 2-3 |
| HISTORY/ENVIR ST/ GEOG 460 | American Environmental History | 4 |
| HISTORY/ ENVIR ST 465 | Global Environmental History | 3-4 |
| HISTORY 705 | Topics in Global History (Historical Political Ecology) | 3 |
| HIST SCI 909 | History of Biology and Medicine | 3 |
| INTER-HE 792 | Theories and Perspectives in Human Ecology | 1-2 |
| PLANTSCI 380 | Indigenous Foodways: Food and Seed Sovereignty | 2 |
| SOC/C&E SOC 948 | Seminar: Environmental Sociology | 3 |
| SOIL SCI/ AN SCI/DY SCI/ FOOD SCI 472 | Animal Agriculture and Global Sustainable Development | 1 |

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Gain knowledge of human dimensions of the environment, by learning about the diverse interests, experiences and meanings that different people have associated with the natural world.
2. Become familiar with different methodologies associated with the environmental humanities.
3. Deploy diverse methods - including and especially historical and cultural methods - to approach, interpret, and explain environmental change across space and/or time.

# ENERGY ANALYSIS AND POLICY, GRADUATE/ PROFESSIONAL CERTIFICATE

The Energy Analysis and Policy certificate (EAP) provides students with the opportunity to customize their graduate experience, adding energy training to any graduate degree program offered at the University of Wisconsin–Madison. Graduate students can complete the EAP certificate by selecting courses that meet both their degree and EAP requirements. As such, most students can add EAP onto a degree without any additional time or cost. PhD students may use the EAP certificate to fulfill their doctoral breadth requirement (https://policy.wisc.edu/library/UW-1200/), though in this case courses may not be double-counted for major requirements. Many prospects choose UW–Madison specifically to participate in the EAP program, while others join EAP upon learning about it after matriculation.

Since its formation in 1980, EAP has provided students with the skills and knowledge needed by professionals in government, energy companies, consulting firms, and other organizations. EAP draws students from across campus. Particularly large student groups from public policy, environmental studies, engineering, and urban planning pursue the certificate because of the program's interdisciplinary curriculum which considers a wide range of technical, economic, political, and social factors that shape energy policy formulation and decision-making.

## ADMISSIONS

# ADMISSIONS

Applicants may apply to the Energy Analysis and Policy certificate concurrently with their graduate school application or once matriculated at UW-Madison. Acceptance into the certificate is contingent on enrollment in a graduate degree program.

While there are no prerequisites, it is recommended applicants have completed at least one college-level course in each of the following five subject areas:

- physical science (physics or chemistry);
- natural science (biology, environmental, geology or atmospheric and oceanic);
- economics;
- social sciences or humanities (besides economics); and
- calculus or statistics.

## HOW TO APPLY

To declare the certificate, applicants must complete the online Energy Analysis and Policy (EAP) application form (https://go.wisc.edu/EAP-apply/), which includes the following elements:

1. Information on prior educational attainment
2. Information on degree program being pursued
3. A brief statement of interest in the program
4. For applicants to the Environment and Resources MS or PhD programs, the Energy Analysis and Policy certificate application provides a matching service with potential thesis advisors.

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any graduate/professional certificate. To apply to this certificate, log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. Select the information for the certificate for which you are applying. Select the information for the Energy Analysis and Policy certificate. Professional students in the careers of Law, Medicine, Pharmacy, and Veterinary cannot add the certificate in the Graduate Student Portal, and should contact the program for more information.

## DEADLINES

Applications may be submitted at any time, but applicants are encouraged to apply before the end of their first year in graduate school to ensure timely completion of certificate requirements. Students may take courses that meet certificate requirements prior to completing their application.

## REQUIREMENTS

# REQUIREMENTS

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Core** | | |
| Students must complete the following courses. | | |
| ENVIR ST/ PUB AFFR/ URB R PL 809 | Introduction to Energy Analysis and Policy | 3 |
| ENVIR ST/ PUB AFFR/ URB R PL 810 | Energy Analysis and Policy Capstone | 3 |
| ENVIR ST 909 | Professional Skills in Energy Analysis and Policy | 1 |
| **Energy Analysis** | | |
| Students must complete one of the following courses: | | 3 |
| A A E/ECON 371 | Energy, Resources and Economics | |
| A A E/ENVIR ST/ POP HLTH/ PUB AFFR 881 | Benefit-Cost Analysis | |
| AGROECOL/ ENVIR ST 724 | Agroecosystems and Global Change | |
| ENVIR ST/ A A E/ECON/ URB R PL 671 | Energy Economics | |
| BSE 460 | Biorefining: Energy and Products from Renewable Resources | |
| CBE 512 | Energy Technologies and Sustainability | |
| CBE 538 | Processes for the Production of Renewable Fuels and Chemicals from Biomass | |
| CIV ENGR/ G L E 421 | Environmental Sustainability Engineering | |
| CIV ENGR 423 | Air Pollution Effects, Measurement and Control | |

| | | |
|---|---|---|
| CIV ENGR 495 | Sustainable Building and Materials | |
| CIV ENGR 525 | Case Studies Exploring Infrastructure Sustainability and Climate Change | |
| CIV ENGR/ G L E 535 | Wind Energy Balance-of-Plant Design | |
| CIV ENGR 729 | Environmental Sustainability Tools | |
| E C E 356 | Electric Power Processing for Alternative Energy Systems | |
| E C E 427 | Electric Power Systems | |
| E C E 714 | Utility Application of Power Electronics | |
| E C E 723 | On-Line Control of Power Systems | |
| ENVIR ST/ BSE 367 | Renewable Energy Systems | |
| E P D 731 | Energy Efficiency in Buildings | |
| GEOSCI/ ENVIR ST 411 | Energy Resources | |
| M E 461 | Thermal Systems Modeling | |
| M E 469 | Internal Combustion Engines | |
| M E 472 | Energy, Sustainability, and Technology | |
| M E/N E 565 | Power Plant Technology | |
| M E/CBE 567 | Solar Energy Technology | |
| N E 571 | Economic and Environmental Aspects of Nuclear Energy | |
| **Energy Policy** | | |
| Students must complete one of the following courses: | | 3 |
| ENVIR ST/ GEOG 333 | Green Urbanism | |
| ENVIR ST 349 | Climate Change Governance | |
| ENVIR ST/ ATM OCN 355 | Introduction to Air Quality | |
| ENVIR ST/ GEOG 439 | US Environmental Policy and Regulation | |
| ENVIR ST/ POP HLTH 471 | Introduction to Environmental Health | |
| ENVIR ST/ POP HLTH 502 | Air Pollution and Human Health | |
| ENVIR ST/A A E/ CIV ENGR/ URB R PL 561 | Energy Markets | |
| ENVIR ST/ POP HLTH 739 | Climate Change, Human and Planetary Health [1] | |
| ENVIR ST/ POLI SCI/ PUB AFFR 866 | Global Environmental Governance | |
| GEOG/ ENVIR ST 331 | Energy Justice | |
| LAW 848 | Introduction to Environmental Law | |
| M H R 710 | Challenges & Solutions in Business Sustainability | |
| URB R PL 551 | Climate Action Planning: Sustainable Transportation | |
| **Total Credits** | | **13** |

[1] Because this is a 2-credit course, students selecting this course option are required to take an additional 1-credit course in consultation with the certificate coordinator.

### Course Categories

Courses in the Energy Analysis category involve quantitative analysis of the technical and economic factors that shape society's use of energy resources. Courses in the Energy Policy category involve the social, political, and environmental factors that underly decision-making around energy choices. Some courses listed in the Energy Analysis category may have some overlap with the Energy Policy category, and vice versa.

Students who wish to use a course for the opposite category that it is listed in should submit a written request to the Energy Analysis and Policy Academic Coordinator or Faculty Chair. Students should provide a course syllabus and a written justification for why the course should qualify for the other category in the context of their overall course of study, with the Energy Analysis and Policy Chair making the final decision on whether to accept the request.

The courses listed in the table are offered regularly. Other courses (with approval by the Energy Analysis and Policy faculty program committee) may fulfill one of the requirements (see note under Other Qualifying Courses).

### Other Qualifying Courses

Because the scheduling of the preceding courses is coordinated with the needs of their home departments, the program cannot guarantee specific courses will always be offered at specific times or rotations. Each semester, program faculty will consider other qualifying courses for the upcoming semester that fulfill one of the categories above. Once approved, the Energy Analysis and Policy Academic Coordinator will distribute a list of course offerings for the upcoming semester to students in the certificate.

### Course Substitutions

Students may propose course substitutions by contacting the Academic Coordinator or the Faculty Chair. The Energy Analysis and Policy Chair makes the final decision. Students should provide a course syllabus and a letter of endorsement from the faculty member teaching the course, preferably before the start of the course. The substitution proposal will be considered based upon the following criteria:

1. extent to which the course content is devoted to energy,
2. rigor of methodology applied to the course material and
3. context of the class with respect to the student's study plan.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Demonstrate an awareness of the variety of energy sources and energy conversion technologies and master the language and scientific basis required to engage in the analysis of energy topics.
2. Analyze and compare the sustainability of different energy sources/ technologies from the perspective of engineering, economics, environmental impacts, and security of supply.
3. Demonstrate an awareness of the socio-political institutions that govern the energy industry and the societal and social justice impacts of energy policies.

4. Prepare for energy-related career pathways in industry, government, academia, NGOs, regulatory agencies and energy consulting. Gain experience by participating in "real-life" projects for actual clients in multidisciplinary student groups.

# ENVIRONMENT AND RESOURCES, DOCTORAL MINOR

Environment and Resources is an interdisciplinary program intended to prepare its graduates to undertake scholarly or professional work that requires a breadth of vision sufficient to encompass the complexity of environmental issues. We seek to strengthen our students' ability to integrate across areas of knowledge so they can create, apply, and transfer world-class data, concepts, and skills about the environment and its sustainability in a flexible, interdisciplinary way to serve the people of the state, region, and world. As a program our learning objectives entail the following. Our students should gain: (1) familiarity with methods and concepts from a range of disciplines relevant to environmental issues and outcomes (interdisciplinarity); (2) a broad understanding of environmental issues and solutions (breadth requirement); (3) knowledge from a coherent and rigorous course of study related to the thesis topic (depth requirement); (4) familiarity with quantitative and qualitative methods and methods of data analysis and presentation appropriate to the study of the environment (measure and analysis requirement); (5) a capacity to integrate knowledge and to make original contributions that improve understanding of environmental problems; (6) the ability to communicate research findings and environmental information generally in writing and orally to a broad audience, including stakeholders and the general public (thesis and defense); and (7) an understanding of professional and ethical responsibility (literature review).

Those minoring in Environment and Resources are expected to present a rationale for how they will use their coursework and related activities to accomplish our objective of strengthening a student's ability to understand and be able to address environmental problems in an integrative, interdisciplinary way.

## ADMISSIONS

# ADMISSIONS

The Environment and Resources program chair administers the doctoral minor, with certain delegation oversight by the faculty executive program committee. The committee reviews and approves doctoral minor plans. Program staff in the Nelson Institute's Academic Programs Office maintains doctoral minor records.

### ADMISSIONS

Students must submit a form detailing the doctoral minor plan of study. Students must include the following information on the form:

1. list the coursework for the doctoral minor,
2. provide a title and brief (few sentences) description of the doctoral minor (e.g., water resources, remote sensing, energy analysis, public policy, environmental history), and
3. include the signature of the student's academic advisor indicating an endorsement of the proposed minor.

### Declaration

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any doctoral minor. To apply to this minor, log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. Select the information for the doctoral minor for which you are applying.

## REQUIREMENTS

# REQUIREMENTS

### REQUIRED COURSES

Students must complete 9 credits. Because of the breadth of environmental studies, a fixed sequence is not prescribed, since the appropriate selection of courses will be dictated in large part by the coursework in the major degree. However, students are required to select courses that collectively give them insight into an area that can be understood only by combining insights from multiple disciplines. In most cases this will build off of a student's major field of study. For example, a student majoring in a laboratory or physical science may wish to emphasize coursework in social sciences or humanities to give perspective on how natural science interfaces with social or humanistic concerns.

### Prior Coursework

Up to three credits may transfer from prior coursework taken at other institutions. Transcripts must be submitted to verify transfer credit.

# ENVIRONMENT AND RESOURCES, MS

Environment and Resources is a research program offering master's and PhD degrees based on the premise that solutions to environmental challenges require interdisciplinary approaches. Faculty and students are oriented to environmental problems rather than to disciplines. Students are encouraged to explore the specific area that interests them by drawing on the insights and methods of multiple disciplines. The focus is on gaining the knowledge needed to understand the intellectual context of their work and the skills necessary to conduct original research. The program fosters experimentation and innovation, not the mastering of a narrowly defined set of prepackaged competencies. The objective is to produce graduates who are prepared to function comfortably in the complex professional and social communities within which solutions to environmental problems must be found.

The program mandates interdisciplinarity through curriculum requirements, the structure of the student's faculty advisory committee, and the research endeavor. Students are required to take some courses in diverse disciplinary topics and other courses that are intended to strengthen problem-solving skills. A thesis (MS) or a dissertation (PhD) is required of all students. Each student's faculty advisory committee must consist of persons who collectively ensure interdisciplinary support and evaluation. Students can pursue interests over the full range of environmental studies from more of a physical or biological science research project to those emphasizing more of the social sciences or humanities including policy, environmental history, community action, or social justice. Students who feel a need to follow a more structured course of study may also pursue certificates in Culture, History, and Environment or Energy Analysis and Policy. Any bachelor's degree from an accredited institution may be acceptable.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 1 |
| Spring Deadline | October 15 |
| Summer Deadline | December 1 |
| GRE (Graduate Record Examinations) | Not required but may be considered if available. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

## DEADLINES

Application materials for Environment and Resources must be received by the fall deadline listed above for admission to the following summer session or fall semester and by the spring deadline listed above for admission to the following spring semester.

## APPLICATION CHECKLIST

In addition to the items listed in the table above, a complete application includes the following items:

1. Statement of Purpose
2. Resume/Curriculum Vitae
3. Transcript(s)

The GRE is recommended for those seeking university fellowship consideration.

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

In most cases, Environment and Resources is unable to guarantee any funding to students. However, many of our students obtain funding through other departments on campus, and we recommend that students contact faculty or departments directly if they have teaching or research skills in specific areas. Individual faculty members occasionally have their own sources of support for research or project assistants, though we strongly urge students not to depend on these as guaranteed sources of funding.

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 16 credits |

| | |
|---|---|
| Minimum Graduate Coursework Requirement | 15 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | Grades of BC or C may be counted toward program requirements if they are offset by equivalent AB or A grades in other courses. A 3.00 average must be maintained in the student's breadth categories as well as their individual program focus category. With the exception of research credits, a maximum of 2 credits graded S may be counted toward program requirements if approved by the student's thesis committee and the program chair. Courses that are audited or graded pass/fail or credit/no credit will not count toward program requirements. |
| Assessments and Examinations | All students must complete a program certification and a thesis. Students must pass a final thesis defense which constitutes the final examination. |
| Language Requirements | No language requirements. |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Breadth Requirements** | | |
| Category 1: Natural Science (see course list below) | | 6 |
| Category 2: Social Science & Humanities (see course list below) | | 6 |
| Category 3: Measurement & Analysis (see course list below) | | 6 |
| **Individual Program Focus & Research** | | **12** |
| **Total Credits** | | **30** |

### Category 1: Natural Science

Students choose any biological sciences and/or physical sciences courses in the 300–999 range. This course list is not meant to be all-inclusive. Students are not restricted to the courses listed here. This is a sample of appropriate courses for this category that are offered through various departments/programs. At least three credits must be from UW-Madison.

### Category 2: Social Science & Humanities

Students choose any social sciences and/or arts & humanities courses in the 300–999 range. This course list is not meant to be all-inclusive. Students are not restricted to the courses listed here. This is a sample of appropriate courses for this category that are offered through various departments/programs. At least three credits must be from UW-Madison.

### Category 3: Measurement & Analysis

Students choose any measurement/analysis/tools/methods courses in the 300–999 range. This course list is not meant to be all-inclusive. Students are not restricted to the courses listed here. This is a sample of appropriate courses for this category that are offered through various departments/programs. At least three credits must be from UW-Madison.

### Individual Program Focus & Research

Students choose any courses, in the 300–999 range, that pertain to their individual research and thesis endeavor. At least one graduate seminar (research or topical) is required, and up to six Research credits may be used toward this category. At least six credits must be from UW-Madison (not including Research credits).

### Category 1: Natural Science courses

## POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With thesis committee and program chair approval, students are allowed to transfer up to 15 credits of graduate coursework from other institutions. Students must have at least three UW-Madison credits in each of the three breadth categories, and at least six UW-Madison credits in the individual program focus category (not including Research credits). Coursework completed ten or more years prior to admission to the master's degree is not allowed to satisfy graduate degree or graduate coursework requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

No credits from another institution or UW–Madison undergraduate degree are allowed to transfer.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

1. Good standing (progressing according to standards; any funding guarantee remains in place).
2. Probation (not progressing according to standards but permitted to enroll; loss of funding guarantee; specific plan with dates and deadlines in place in regard to removal of probationary status).
3. Unsatisfactory progress (not progressing according to standards; not permitted to enroll, dismissal, leave of absence or change of advisor or program).

## ADVISOR / COMMITTEE

All students must assemble a three-member thesis committee that represents a minimum of two departments, preferably no later than their third semester in the program. To meet the interdisciplinary requirement the committee must include members tenured in one of the natural sciences divisions (Biological Sciences, Physical Sciences) and one of the social sciences divisions (Social Studies, Arts & Humanities). Two of the three committee members must be members of the Graduate Faculty. The third, subject to approval of the program chair, may be any qualified person, on or off campus, who holds at least a master's degree.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)

- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

This document was reviewed by the Graduate Student working group and approved by vote of Nelson Institute Governance with subsequent review by campus HR; please note that this was prior to the revision of GAPP by campus in 2019-20, as well as present and expected changes in 2020 after to Title IX, Office of the Dean of Students, etc.

## Preamble:

Any student who feels that they have been treated unfairly by a faculty or staff member has the right to seek redress and to receive a hearing of the grievance following these procedures. It applies only to grievances about those persons who are employees of the Nelson Institute, who teach for the Nelson Institute or otherwise are subject to administrative oversight by the Institute. The complaint may concern course grades, program admission, classroom treatment, hostile or intimidating behavior, or any other issue. Note that these procedures are for students bringing grievances to the Nelson Institute, they do not cover issues relating to the classroom behavior of students which must be referred to the Dean of Students.

The procedures outlined below are used in the Nelson Institute to ensure a prompt and fair hearing of complaints, and to protect the rights of both the student and the person at whom the complaint is directed. These policies describe formal procedures. A student is free to bypass these procedures if they do not wish for an Institute sanctioned resolution.

A complaint covered here may involve issues that either require or that would benefit from being directed to one of the campus programs or offices addressing complaints and grievances. See https://compliance.wisc.edu/ and https://compliance.wisc.edu/wp-content/uploads/sites/102/2018/09/Safe-Learning-and-Work-Guide.Fall_.FY19-Accessible.pdf (Accessed Oct. 2020). Please review the most recent information on Title IX on campus, as guidelines and contacts may change. Graduate students should review information at https://grad.wisc.edu/documents/grievances-and-appeals/ (Accessed Feb. 2019) Undergraduate students may wish to review information available in the undergraduate course catalog. There they will find this option presented: “For assistance in determining options, students can contact the on-call dean in the Dean of Students Office, 608-263-5700, Room 70 Bascom Hall, Monday– Friday, 8:30 a.m.–4:30 p.m.”

Also, students should know that academic administrators may be required to report instances of sexual harassment or violence in accordance with university policy and the Clery act. (See: http://uwpd.wisc.edu/crime-data/clery-act/ Accessed Oct. 2018).

State law contains additional provisions regarding discrimination and harassment. Wisconsin Statutes 36.12 reads, in part: "No student may be denied admission to, participation in or the benefits of, or be discriminated against in any service, program, course or facility of the system or its institutions or center because of the student's race, color, creed, religion, sex, national origin, disability, ancestry, age, sexual orientation, pregnancy, marital status or parental status." In addition, UW–System prohibits discrimination based on gender identity or gender expression. Students have the right to file discrimination and harassment complaints with the Office for Equity and Diversity.

Questions about Nelson Institute procedures can be directed to the Associate Dean for Research and Education.

## Procedures:

1. If possible, the student (complainant) should first talk with the person against whom the grievance is directed to advise them of their complaint and to determine if resolution is possible.
2. If the student is not satisfied, or if they do not feel comfortable addressing the person to whom the grievance is directed, they should ask to speak to the immediate supervisor of the person involved. If the complaint is directed against a teaching assistant, the student should talk to the TA's supervisor, who is usually the course professor. If the student grievance concerns a faculty or staff member in Nelson, the next formal step is for the student to meet with the Associate Dean for Research and Education. If the complaint is not resolved at this level, the student may continue to the next step (4).
3. It is recognized that a student may be reluctant to bring their grievance to the person against whom the complaint is directed, or to their supervisor, or to anyone else in the administrative hierarchy. In that case, the student should seek out a person who can guarantee confidentiality to the extent allowed by the law and university policy and provide non-judgmental advice as to appropriate next steps. Note that if criminal activity is involved confidentiality cannot be guaranteed. If a student does not know of any suitable person, they may approach any member of the Nelson Institute Academic Programs staff who will be able either to serve as a confidential discussant or who will be able to direct the student to someone who can assure confidentiality. Their role is to be that of Ombuds, meaning that they are not to take a position with respect to the validity of the grievance. Their role is to advise the student as to appropriate next steps.
4. To start a formal grievance process, the student must submit the grievance in writing to the Nelson Institute Associate Dean for Research and Education (hereafter Associate Dean) as soon as possible. An email for which receipt is acknowledged will be considered a written submission.
5. On receipt of the written complaint, the Associate Dean will acquaint themselves with the issues. This may involve face to face meetings or other means of establishing the facts in dispute. The Associate Dean will have the option of proposing a resolution. If the proposed resolution is accepted by parties directly involved, the matter will be considered settled at this level. Relevant documents will be archived by the Office of the Assistant Dean for Administration. At any point in the proceedings after the receipt and acknowledgement of the grievance by the Associate Dean, the complainant or the compliance will have the option of requesting that the matter be referred to an ad hoc committee. This request must be submitted in writing and acknowledged by the Associate Dean.

6. If the matter cannot be settled through the mediation of the Associate Dean, or if the Associate Dean has concluded that the case merits further attention, or if the complainant has requested that the matter be referred to an ad hoc committee an ad hoc committee will be appointed by the Dean of the Nelson Institute or their designee. The committee will consist of at least three members. Within 10 working days, the student will be allowed to revise the complaint or to add material to the complaint document to be provided to the committee. The complainant may request a change in committee membership, but the final decision on the committee will remain with the Dean. The committee may request a written response from the person toward whom the complaint is directed. This response shall be shared with the person filing the grievance. The ad hoc committee will meet to discuss the case. They are authorized to seek additional information if they feel it is necessary. They will convey their written decision regarding the case including any recommendations for remediation or mediation to the Associate Dean within 30 working days from the charge to the committee. The Associate Dean will provide a copy of the committee's written decision to the student regarding the case within 10 working days of receiving the committee's report; the Associate Dean will also confirm that the past record on file of any grievances regarding the parties involved has been investigated; and, the Associate Dean will provide the student a statement outlining the formal plan of steps that will be taken officially on the part of the Nelson Institute.
7. The complainant then has the option of taking their grievance to the university level. There are several options available. Consult websites referenced above.
8. The written documents relevant to the grievance will be archived in hard copy and electronic form as appropriate in a "Grievance Record" by the office of the Assistant Dean of Administration and will be maintained for a minimum of five years.
9. The cumulative record involving any of the parties to a grievance will be reviewed each time a formal grievance is presented as in Step 4, above, in order to determine whether the pattern of grievance, such as past filings, indicates any actions are warranted.

### OTHER

n/a

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Demonstrate master's level knowledge of interdisciplinary environmental studies.
2. Demonstrate master's level knowledge of a substantive area of environmental studies, adequate to undertake their M.S. thesis.
3. Demonstrate master's level knowledge of research methodology appropriate to their substantive area of focus and appropriate for preparing their M.S. thesis.
4. Demonstrate skill in synthesizing the above goals (1-3) through preparation of a master's thesis.

# ENVIRONMENT AND RESOURCES, PHD

Environment and Resources is a research program offering master's and PhD degrees based on the premise that solutions to environmental challenges require interdisciplinary approaches. Faculty and students are oriented to environmental problems rather than to disciplines. Students are encouraged to explore the specific area that interests them by drawing on the insights and methods of multiple disciplines. The focus is on gaining the knowledge needed to understand the intellectual context of their work and the skills necessary to conduct original research. The program fosters experimentation and innovation, not the mastering of a narrowly defined set of prepackaged competencies. The objective is to produce graduates who are prepared to function comfortably in the complex professional and social communities within which solutions to environmental problems must be found.

The program mandates interdisciplinarity through curriculum requirements, the structure of the student's faculty advisory committee, and the research endeavor. Students are required to take some courses in diverse disciplinary topics and other courses that are intended to strengthen problem-solving skills. A thesis (MS) or a dissertation (PhD) is required of all students. Each student's faculty advisory committee must consist of persons who collectively ensure interdisciplinary support and evaluation. Students can pursue interests over the full range of environmental studies from more of a physical or biological science research project to those emphasizing more of the social sciences or humanities including policy, environmental history, community action, or social justice. Students who feel a need to follow a more structured course of study may also pursue certificates in Culture, History, and Environment or Energy Analysis and Policy. Any bachelor's degree from an accredited institution may be acceptable.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 1 |
| Spring Deadline | October 15 |
| Summer Deadline | December 1 |

| | |
|---|---|
| GRE (Graduate Record Examinations) | Not required but may be considered if available. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

## DEADLINES

Application materials for Environment and Resources must be received by the deadline above for admission to the following summer session or fall semester and by the deadline above for admission to the following spring semester.

## APPLICATION CHECKLIST

In addition to the items listed in the table above, a complete application includes the following items:

1. Statement of Purpose
2. Resume/Curriculum Vitae
3. Transcript(s)

The GRE is recommended for those seeking university fellowship consideration.

# FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

In most cases, Environment and Resources is unable to guarantee any funding to students. However, many of our students obtain funding through other departments on campus, and we recommend that students contact faculty or departments directly if they have teaching or research skills in specific areas. Individual faculty members occasionally have their own sources of support for research or project assistants, though we strongly urge students not to depend on these as guaranteed sources of funding.

# REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 51 credits |
| Minimum Residence Credit Requirement | 32 credits |
| Minimum Graduate Coursework Requirement | 26 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required.<br>Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |

| | |
|---|---|
| Other Grade Requirements | Grades of BC or C may be counted toward program requirements if they are offset by equivalent AB or A grades in other courses. A 3.00 average must be maintained in the student's breadth categories as well as their individual program focus category. With the exception of research credits, a maximum of 2 credits graded S may be counted toward program requirements if approved by the student's dissertation committee and the program chair. Courses that are audited or graded pass/fail or credit/no credit will not count toward program requirements. |
| Assessments and Examinations | All students must complete an initial coursework proposal, preferably after their first year, as well as a final coursework proposal. Students must pass a qualifying examination, a preliminary examination, and a final dissertation defense which constitutes the final examination. |
| Language Requirements | No language requirements. |
| Graduate School Breadth Requirement | Due to the breadth and interdisciplinary nature of the program, Environment and Resources doctoral students are not required to pursue a doctoral minor or graduate/professional certificate. |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Breadth Requirements** | | |
| Category 1: Natural Science (see course list below) | | 9 |
| Category 2: Social Science & Humanities (see course list below) | | 9 |
| Category 3: Measurement & Analysis (see course list below) | | 9 |
| **Individual Program Focus & Research** | | **15** |
| **Additional Coursework and Seminars** | | |
| Students must also take at least two graduate seminars (research or topical) as well as a variable number of Research credits. Students may double count up to 9 credits with one of their breadth categories. At least six credits must be from UW-Madison (not including Research credits). | | 9 |
| **Total Credits** | | **51** |

### Category 1: Natural Science

Students choose any biological sciences and/or physical sciences courses in the 300–999 range. This course list is not meant to be all-inclusive. Students are not restricted to the courses listed here. This is a sample of appropriate courses for this category that are offered through various departments/programs. At least three credits must be from UW-Madison.

### Category 2: Social Science & Humanities

Students choose any social sciences and/or arts & humanities courses in the 300–999 range. This course list is not meant to be all-inclusive. Students are not restricted to the courses listed here. This is a sample of appropriate courses for this category that are offered through various departments/programs. At least three credits must be from UW-Madison.

### Category 3: Measurement & Analysis

Students choose any measurement/analysis/tools/methods courses in the 300–999 range. This course list is not meant to be all-inclusive. Students are not restricted to the courses listed here. This is a sample of appropriate courses for this category that are offered through various departments/programs. At least three credits must be from UW-Madison.

### Individual Program Focus & Research

Students choose any courses, in the 300–999 range, that pertain to their individual research and dissertation endeavor.

### Category 1: Natural Science courses

## POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy. Approval comes from the dissertation committee and program chair.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

No credits from another institution or UW–Madison undergraduate degree are allowed to transfer.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy. Approval comes from the dissertation committee and program chair.

### Credits Earned as a University Special Student at UW–Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy. Approval comes from the dissertation committee and program chair.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

All students must assemble a four-member dissertation committee that represents a minimum of three departments, preferably no later than their fourth semester in the program. To meet the interdisciplinary requirement the committee must include members tenured in one of the natural sciences divisions (Biological Sciences, Physical Sciences) and one of the social sciences divisions (Social Studies, Arts & Humanities). Three of the four committee members must be members of the Graduate Faculty. The fourth, subject to approval of the program chair, may be any qualified person, on or off campus, who holds a doctoral degree.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)

- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

This document was reviewed by the Graduate Student working group and approved by vote of Nelson Institute Governance with subsequent review by campus HR; please note that this was prior to the revision of GAPP by campus in 2019-20, as well as present and expected changes in 2020 after to Title IX, Office of the Dean of Students, etc.

## Preamble:

Any student who feels that they have been treated unfairly by a faculty or staff member has the right to seek redress and to receive a hearing of the grievance following these procedures. It applies only to grievances about those persons who are employees of the Nelson Institute, who teach for the Nelson Institute or otherwise are subject to administrative oversight by the Institute. The complaint may concern course grades, program admission, classroom treatment, hostile or intimidating behavior, or any other issue. Note that these procedures are for students bringing grievances to the Nelson Institute, they do not cover issues relating to the classroom behavior of students which must be referred to the Dean of Students.

The procedures outlined below are used in the Nelson Institute to ensure a prompt and fair hearing of complaints, and to protect the rights of both the student and the person at whom the complaint is directed. These policies describe formal procedures. A student is free to bypass these procedures if they do not wish for an Institute sanctioned resolution.

A complaint covered here may involve issues that either require or that would benefit from being directed to one of the campus programs or offices addressing complaints and grievances. See https://compliance.wisc.edu/ and https://compliance.wisc.edu/wp-content/uploads/sites/102/2018/09/Safe-Learning-and-Work-Guide.Fall_.FY19-Accessible.pdf (Accessed Oct. 2020). Please review the most recent information on Title IX on campus, as guidelines and contacts may change. Graduate students should review information at https://grad.wisc.edu/documents/grievances-and-appeals/ (Accessed Feb. 2019) Undergraduate students may wish to review information available in the undergraduate course catalog. There they will find this option presented: “For assistance in determining options, students can contact the on-call dean in the Dean of Students Office, 608-263-5700, Room 70 Bascom Hall, Monday– Friday, 8:30 a.m.–4:30 p.m.”

Also, students should know that academic administrators may be required to report instances of sexual harassment or violence in accordance with university policy and the Clery act. (See: http://uwpd.wisc.edu/crime-data/clery-act/ Accessed Oct. 2018).

State law contains additional provisions regarding discrimination and harassment. Wisconsin Statutes 36.12 reads, in part: "No student may be denied admission to, participation in or the benefits of, or be discriminated against in any service, program, course or facility of the system or its institutions or center because of the student's race, color, creed, religion, sex, national origin, disability, ancestry, age, sexual orientation, pregnancy, marital status or parental status." In addition, UW–System prohibits discrimination based on gender identity or gender expression. Students have the right to file discrimination and harassment complaints with the Office for Equity and Diversity.

Questions about Nelson Institute procedures can be directed to the Associate Dean for Research and Education.

## Procedures:

1. If possible, the student (complainant) should first talk with the person against whom the grievance is directed to advise them of their complaint and to determine if resolution is possible.
2. If the student is not satisfied, or if they do not feel comfortable addressing the person to whom the grievance is directed, they should ask to speak to the immediate supervisor of the person involved. If the complaint is directed against a teaching assistant, the student should talk to the TA's supervisor, who is usually the course professor. If the student grievance concerns a faculty or staff member in Nelson, the next formal step is for the student to meet with the Associate Dean for Research and Education. If the complaint is not resolved at this level, the student may continue to the next step (4).
3. It is recognized that a student may be reluctant to bring their grievance to the person against whom the complaint is directed, or to their supervisor, or to anyone else in the administrative hierarchy. In that case, the student should seek out a person who can guarantee confidentiality to the extent allowed by the law and university policy and provide non-judgmental advice as to appropriate next steps. Note that if criminal activity is involved confidentiality cannot be guaranteed. If a student does not know of any suitable person, they may approach any member of the Nelson Institute Academic Programs staff who will be able either to serve as a confidential discussant or who will be able to direct the student to someone who can assure confidentiality. Their role is to be that of Ombuds, meaning that they are not to take a position with respect to the validity of the grievance. Their role is to advise the student as to appropriate next steps.
4. To start a formal grievance process, the student must submit the grievance in writing to the Nelson Institute Associate Dean for Research and Education (hereafter Associate Dean) as soon as possible. An email for which receipt is acknowledged will be considered a written submission.
5. On receipt of the written complaint, the Associate Dean will acquaint themselves with the issues. This may involve face to face meetings or other means of establishing the facts in dispute. The Associate Dean will have the option of proposing a resolution. If the proposed resolution is accepted by parties directly involved, the matter will be considered settled at this level. Relevant documents will be archived by the Office of the Assistant Dean for Administration. At any point in the proceedings after the receipt and acknowledgement of the grievance by the Associate Dean, the complainant or the compliance will have the option of requesting that the matter be referred to an ad hoc committee. This request must be submitted in writing and acknowledged by the Associate Dean.
6. If the matter cannot be settled through the mediation of the Associate Dean, or if the Associate Dean has concluded that the case merits further attention, or if the complainant has requested that the matter be referred to an ad hoc committee an ad hoc committee will be appointed by the Dean of the Nelson Institute or their designee. The committee will consist of at least three members. Within 10 working days, the student

will be allowed to revise the complaint or to add material to the complaint document to be provided to the committee. The complainant may request a change in committee membership, but the final decision on the committee will remain with the Dean. The committee may request a written response from the person toward whom the complaint is directed. This response shall be shared with the person filing the grievance. The ad hoc committee will meet to discuss the case. They are authorized to seek additional information if they feel it is necessary. They will convey their written decision regarding the case including any recommendations for remediation or mediation to the Associate Dean within 30 working days from the charge to the committee. The Associate Dean will provide a copy of the committee's written decision to the student regarding the case within 10 working days of receiving the committee's report; the Associate Dean will also confirm that the past record on file of any grievances regarding the parties involved has been investigated; and, the Associate Dean will provide the student a statement outlining the formal plan of steps that will be taken officially on the part of the Nelson Institute.

7. The complainant then has the option of taking their grievance to the university level. There are several options available. Consult websites referenced above.
8. The written documents relevant to the grievance will be archived in hard copy and electronic form as appropriate in a "Grievance Record" by the office of the Assistant Dean of Administration and will be maintained for a minimum of five years.
9. The cumulative record involving any of the parties to a grievance will be reviewed each time a formal grievance is presented as in Step 4, above, in order to determine whether the pattern of grievance, such as past filings, indicates any actions are warranted.

n/a

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Demonstrate doctoral level knowledge of interdisciplinary environmental studies.
2. Demonstrate doctoral level knowledge of a substantive area of environmental studies, adequate to begin preparing their Ph.D. dissertation.
3. Demonstrate doctoral level knowledge of research methodology appropriate to their substantive area of focus.
4. Demonstrate skill in conducting academic research and scholarly inquiry that advances the interdisciplinary field of environmental studies.

# ENVIRONMENTAL CONSERVATION, MS

The Nelson Institute's professional programs offer environmental leadership training in areas of identified and emerging need across our sector, convening people and perspectives from around the world and equipping graduates with the necessary environmental knowledge to tackle their next career challenge. We have two professional master's programs. Within the Environmental Conservation master of science degree, students can select a named option in either Environmental Conservation (p. 896) or in Environmental Observation & Informatics (p. 900).

The curriculum in our professional programs is designed in close consultation with leaders in environmental practice to meet emerging global challenges and demands. The accelerated 15-month curriculum culminates in a final leadership project with a partner organization. Upon degree completion, graduates will receive an MS in Environmental Conservation with a named option in one of the above.

Learn more about:

- **ENVIRONMENTAL CONSERVATION NAMED OPTION (P. 896)**
- **ENVIRONMENTAL OBSERVATION & INFORMATICS NAMED OPTION (P. 900)**

## ADMISSIONS

# ADMISSIONS

Students apply to the Master of Science in Environmental Conservation through one of the named options:

- Environmental Conservation (p. 896)
- Environmental Observation and Informatics (p. 900)

## FUNDING

# FUNDING

### GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

### PROGRAM RESOURCES

Students enrolled in this program are not eligible to receive tuition remission from graduate assistantship appointments at this institution.

This applies to both the Environmental Conservation and the Environmental Observation & Informatics named options. We encourage all students to apply for our Environmental Conservation tuition assistance program and to seek additional sources of grants, scholarships, or loans.

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 32 credits |
| Minimum Residence Credit Requirement | 32 credits |
| Minimum Graduate Coursework Requirement | 16 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | See Named Options for policy information. |
| Assessments and Examinations | All students must submit a leadership placement proposal and work plan, complete a professional leadership experience (independent practice) of at least eight weeks, followed by a substantial written report or deliverable for their host organization, and an exit seminar presentation. |
| Language Requirements | No language requirements. |

## REQUIRED COURSES

Select a Named Option (p. 895) for courses required.

# NAMED OPTIONS

A named option is a formally documented sub-major within an academic major program. Named options appear on the transcript with degree conferral. Students pursuing the Master of Science in Environmental Conservation must select one of the following named options:

View as listView as grid

- **ENVIRONMENTAL CONSERVATION: ENVIRONMENTAL CONSERVATION, MS (P. 896)**
- **ENVIRONMENTAL CONSERVATION: ENVIRONMENTAL OBSERVATION AND INFORMATICS, MS (P. 900)**

## POLICIES

# POLICIES

Students should refer to one of the named options for policy information:

- Environmental Conservation (p. 896)
- Environmental Observation and Informatics (p. 900)

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

## GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Apply the principles of conservation science and sustainability to real world environmental problems. (Environmental Conservation Named Option)
2. Explain the interconnections between environmental conservation and human well-being, and identify social, economic, and institutional conditions that favor sustainability. (Environmental Conservation Named Option)
3. Conceptualize, strategize, design, and implement innovative environmental problem-solving techniques. (Environmental Conservation Named Option)
4. Demonstrate competence in core professional skills related to conservation practice, including: written, verbal, and visual communication; conflict resolution; interdisciplinary team building and problem definition; conservation planning; and program evaluation. (Environmental Conservation Named Option)
5. Recognize and apply principles of ethical and professional conduct in environmental conservation. (Environmental Conservation Named Option)
6. Apply the principles of conservation science and sustainability to real world environmental problems. (Environmental Observation and Informatics Named Option)
7. Explain the interconnections between environmental conservation and human well-being, and identify social, economic, and institutional conditions that favor sustainability. (Environmental Observation and Informatics Named Option)
8. Choose and apply the most appropriate and powerful platforms and technologies to address environmental challenges related to both human activities and natural dynamics. Interpret remotely-sensed earth observation data and apply those data to complex

environmental problems. (Environmental Observation and Informatics Named Option)

9. Construct models of environmental phenomena to better understand natural processes and human actions, to predict and project future outcomes and scenarios, and to quantitatively evaluate those scenarios to enable more informed management and policy decisions. Conduct robust statistical analyses to examine quantitative model output and distributed environmental data, and interpret resulting patterns and trends. (Environmental Observation and Informatics Named Option)
10. Drive strategic thinking to design and manage the use of observation technologies to advance policy and program direction, and engage with organization leadership. (Environmental Observation and Informatics Named Option)
11. Conceptualize, strategize, design, and implement innovative environmental problem-solving techniques. (Environmental Observation and Informatics Named Option)
12. Demonstrate competence in core professional skills related to earth observation practice including written, verbal, and visual communication; conflict resolution; interdisciplinary team building and problem definition; mission planning; and program evaluation. (Environmental Observation and Informatics Named Option)
13. Recognize and apply principles of ethical and professional conduct in environmental observation and informatics. (Environmental Observation and Informatics Named Option)

# ENVIRONMENTAL CONSERVATION: ENVIRONMENTAL CONSERVATION, MS

This is a named option in the Environmental Conservation MS. (p. 894)

The Environmental Conservation named option is a 15-month program that emphasizes practical, real-world conservation skills and leadership development to prepare students for a professional career. The program is designed for individuals at any stage of their career and have a passion for conservation, whether just starting their careers or looking to further develop their leadership and environmental management expertise.

With curricula in conservation planning, land use policy, and in professional skills such as applied GIS, conservation fundraising, protected area management, program evaluation, and strategic communications, students are better prepared to tackle complex challenges in a changing world. Students also engage directly with a range of conservation organizations and practitioners, helping to solve some of the most urgent challenges in biodiversity conservation and environmental protection.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | This program does not admit in the fall. |
| Spring Deadline | This program does not admit in the spring. |
| Summer Deadline | February 1 for international applicants; May 1 for domestic applicants |
| GRE (Graduate Record Examinations) | May be required in certain cases; consult program. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 2 |

## APPLICATION

Applications are accepted on a rolling basis. Applications are submitted online (https://grad.wisc.edu/apply/) through the UW-Madison Graduate School. Applicants will need to create a username and password to access the application system. For current or former UW students, this will be a new account that does not use your NetID. Prospective students who apply by the priority deadline will be informed of their admissions status by late January. Applicants received by the deadline are given preference for admissions purposes and tuition assistance.

Candidates with diverse professional and academic backgrounds are encouraged to apply. Applicants must have received a bachelor's degree from an accredited four-year institution with an undergraduate GPA of 3.0 or higher. Applicants with GPAs below 3.0 may be considered for admission under special circumstances. No additional prerequisite classes are required for this named option.

Complete applications will include all items below. For applicants who have a GPA below 3.0, the GRE is required. For those who have GPAs at 3.0 or above, GRE scores are not required for admission to this named option. Admissions decisions will be based on the entirety of each applicant's credentials.

1. Professional credentials/resume
2. Reasons for graduate study/statement of interest in this program or field
3. Two letters of professional recommendation; one letter from a current or former employer and one letter from a former university advisor are preferred.
4. Unofficial undergraduate transcripts, uploaded in the application.
5. Supplemental application (found in UW-Madison online application)
6. GRE scores (dependent on undergraduate GPA)

International degree-seeking applicants must prove English proficiency using the Graduate School's requirements (https://grad.wisc.edu/apply/requirements/).

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

Students enrolled in this program are not eligible to receive tuition remission from graduate assistantship appointments at this institution.

This applies to both the Environmental Conservation and the Environmental Observation & Informatics named options. We encourage all students to apply for our Environmental Conservation tuition assistance program and to seek additional sources of grants, scholarships, or loans.

For more funding information, visit the program's website: https://nelson.wisc.edu/graduate/professional-programs/costs-and-funding/

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# NAMED OPTION REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | Yes |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 32 credits |
| Minimum Residence Credit Requirement | 32 credits |
| Minimum Graduate Coursework Requirement | 16 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | n/a |
| Assessments and Examinations | All students must submit a leadership placement proposal and work plan, complete a professional leadership experience (independent practice) of at least eight weeks, followed by a substantial written report or deliverable for their host organization, and an exit seminar presentation. |
| Language Requirements | No language requirements. |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| ENVIR ST/ URB R PL 843 | Land Use Policy and Planning | 3 |
| ENVIR ST 951 | Conservation of Biodiversity | 3 |
| ENVIR ST 972 | Conservation Planning | 4 |

| ENVIR ST 979 | Environmental Conservation Professional Practice | 3 |
| ENVIR ST 999 | Advanced Independent Study | 4 |
| Electives in consultation with advisor. Most electives will be taken in ENVIR ST. Please check with program about electives outside of ENVIR ST. | | 6 |
| **Total Credits** | | **32** |

### Other Policy

Students in this program may not take courses outside the prescribed curriculum without faculty advisor and program director approval.

Students in this program cannot enroll concurrently in other undergraduate or graduate degree programs.

## POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# NAMED OPTION-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

No graduate credits earned at other institutions may transfer.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

No undergraduate credits earned at other institutions or UW-Madison may transfer.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

No credits earned as a professional student at UW-Madison may transfer.

### Credits Earned as a University Special student at UW–Madison

No credits earned as a University Special student at UW-Madison may transfer.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

The status of a student falls into one of the following three categories:

1. Good standing (progressing according to standards; any funding guarantee remains in place).
2. Probation (not progressing according to standards but permitted to enroll; loss of funding guarantee; specific plan with dates and deadlines in place in regard to removal of probationary status).
3. Unsatisfactory progress (not progressing according to standards; not permitted to enroll, dismissal, leave of absence or change of advisor or program).

## ADVISOR / COMMITTEE

Every student in the program will be required to have an advisor. Program staff will work with the student to identify an advisor during the spring semester. Once an advisor has been identified, the student is expected to maintain communication with their advisor to ensure they are making satisfactory progress toward their degree.

## CREDITS PER TERM ALLOWED

15 credits

## TIME LIMITS

If a student has been absent for a semester or more, they must file a new Graduate School application for admission and submit it with a new application fee.

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

This document was reviewed by the Graduate Student working group and approved by vote of Nelson Institute Governance with subsequent review by campus HR; please note that this was prior to the revision of GAPP by campus in 2019-20, as well as present and expected changes in 2020 after to Title IX, Office of the Dean of Students, etc.

### Preamble:

Any student who feels that they have been treated unfairly by a faculty or staff member has the right to seek redress and to receive a hearing of the grievance following these procedures. It applies only to grievances about those persons who are employees of the Nelson Institute, who teach for the Nelson Institute or otherwise are subject to administrative oversight by the Institute. The complaint may concern course grades, program admission, classroom treatment, hostile or intimidating behavior, or any other issue. Note that these procedures are for students bringing grievances to the Nelson Institute, they do not cover issues relating to the

classroom behavior of students which must be referred to the Dean of Students.

The procedures outlined below are used in the Nelson Institute to ensure a prompt and fair hearing of complaints, and to protect the rights of both the student and the person at whom the complaint is directed. These policies describe formal procedures. A student is free to bypass these procedures if they do not wish for an Institute sanctioned resolution.

A complaint covered here may involve issues that either require or that would benefit from being directed to one of the campus programs or offices addressing complaints and grievances. See https://compliance.wisc.edu/ and https://compliance.wisc.edu/wp-content/uploads/sites/102/2018/09/Safe-Learning-and-Work-Guide.Fall_.FY19-Accessible.pdf (Accessed Oct. 2020). Please review the most recent information on Title IX on campus, as guidelines and contacts may change. Graduate students should review information at https://grad.wisc.edu/documents/grievances-and-appeals/ (Accessed Feb. 2019) Undergraduate students may wish to review information available in the undergraduate course catalog. There they will find this option presented: "For assistance in determining options, students can contact the on-call dean in the Dean of Students Office, 608-263-5700, Room 70 Bascom Hall, Monday– Friday, 8:30 a.m.–4:30 p.m."

Also, students should know that academic administrators may be required to report instances of sexual harassment or violence in accordance with university policy and the Clery act. (See: http://uwpd.wisc.edu/crime-data/clery-act/ Accessed Oct. 2018).

State law contains additional provisions regarding discrimination and harassment. Wisconsin Statutes 36.12 reads, in part: "No student may be denied admission to, participation in or the benefits of, or be discriminated against in any service, program, course or facility of the system or its institutions or center because of the student's race, color, creed, religion, sex, national origin, disability, ancestry, age, sexual orientation, pregnancy, marital status or parental status." In addition, UW–System prohibits discrimination based on gender identity or gender expression. Students have the right to file discrimination and harassment complaints with the Office for Equity and Diversity.

Questions about Nelson Institute procedures can be directed to the Associate Dean for Research and Education.

## Procedures:

1. If possible, the student (complainant) should first talk with the person against whom the grievance is directed to advise them of their complaint and to determine if resolution is possible.
2. If the student is not satisfied, or if they do not feel comfortable addressing the person to whom the grievance is directed, they should ask to speak to the immediate supervisor of the person involved. If the complaint is directed against a teaching assistant, the student should talk to the TA's supervisor, who is usually the course professor. If the student grievance concerns a faculty or staff member in Nelson, the next formal step is for the student to meet with the Associate Dean for Research and Education. If the complaint is not resolved at this level, the student may continue to the next step (4).
3. It is recognized that a student may be reluctant to bring their grievance to the person against whom the complaint is directed, or to their supervisor, or to anyone else in the administrative hierarchy. In that case, the student should seek out a person who can guarantee confidentiality to the extent allowed by the law and university policy and provide non-judgmental advice as to appropriate next steps. Note that if criminal activity is involved confidentiality cannot be guaranteed. If a student does not know of any suitable person, they may approach any member of the Nelson Institute Academic Programs staff who will be able either to serve as a confidential discussant or who will be able to direct the student to someone who can assure confidentiality. Their role is to be that of Ombuds, meaning that they are not to take a position with respect to the validity of the grievance. Their role is to advise the student as to appropriate next steps.
4. To start a formal grievance process, the student must submit the grievance in writing to the Nelson Institute Associate Dean for Research and Education (hereafter Associate Dean) as soon as possible. An email for which receipt is acknowledged will be considered a written submission.
5. On receipt of the written complaint, the Associate Dean will acquaint themselves with the issues. This may involve face to face meetings or other means of establishing the facts in dispute. The Associate Dean will have the option of proposing a resolution. If the proposed resolution is accepted by parties directly involved, the matter will be considered settled at this level. Relevant documents will be archived by the Office of the Assistant Dean for Administration. At any point in the proceedings after the receipt and acknowledgement of the grievance by the Associate Dean, the complainant or the compliance will have the option of requesting that the matter be referred to an ad hoc committee. This request must be submitted in writing and acknowledged by the Associate Dean.
6. If the matter cannot be settled through the mediation of the Associate Dean, or if the Associate Dean has concluded that the case merits further attention, or if the complainant has requested that the matter be referred to an ad hoc committee an ad hoc committee will be appointed by the Dean of the Nelson Institute or their designee. The committee will consist of at least three members. Within 10 working days, the student will be allowed to revise the complaint or to add material to the complaint document to be provided to the committee. The complainant may request a change in committee membership, but the final decision on the committee will remain with the Dean. The committee may request a written response from the person toward whom the complaint is directed. This response shall be shared with the person filing the grievance. The ad hoc committee will meet to discuss the case. They are authorized to seek additional information if they feel it is necessary. They will convey their written decision regarding the case including any recommendations for remediation or mediation to the Associate Dean within 30 working days from the charge to the committee. The Associate Dean will provide a copy of the committee's written decision to the student regarding the case within 10 working days of receiving the committee's report; the Associate Dean will also confirm that the past record on file of any grievances regarding the parties involved has been investigated; and, the Associate Dean will provide the student a statement outlining the formal plan of steps that will be taken officially on the part of the Nelson Institute.
7. The complainant then has the option of taking their grievance to the university level. There are several options available. Consult websites referenced above.
8. The written documents relevant to the grievance will be archived in hard copy and electronic form as appropriate in a "Grievance Record" by the office of the Assistant Dean of Administration and will be maintained for a minimum of five years.

9. The cumulative record involving any of the parties to a grievance will be reviewed each time a formal grievance is presented as in Step 4, above, in order to determine whether the pattern of grievance, such as past filings, indicates any actions are warranted.

### OTHER

Because of the immersive nature of our program, with condensed time on campus and remote experiences, Environmental Conservation students are only eligible for campus appointments that total 30% time or less, or hourly work. We encourage all students to apply for our Environmental Conservation program tuition assistance, and to seek additional sources of grants, scholarships, or loans. Students in the Environmental Conservation program are not permitted to seek dual degrees or take courses outside of the listed required coursework.

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

For more information about professional development and careers with the degree, visit the program's website: https://nelson.wisc.edu/graduate/professional-programs/careers/

# ENVIRONMENTAL CONSERVATION: ENVIRONMENTAL OBSERVATION AND INFORMATICS, MS

This is a named option in the Environmental Conservation MS. (p. 894)

The Environmental Observation and Informatics (EOI) named option is a 15-month program that combines cutting-edge Earth observation technologies, remote sensing, and big data analytics to prepare students for a professional career.

The EOI named option is designed for individuals at any stage of their career who have a passion for conservation, technology, or analytics, whether they are just starting out their careers or looking to expand their technical, analytical, and leadership expertise. The EOI program will focus on the following skills:

1. Remote sensing and technology integration: Learn how to choose and use the best tools and technologies such as LiDAR, drones (UAVs), cloud platforms, social media, and crowd-sourced data.
2. Modeling and analysis: Create models to better understand natural events and impact of human actions, forecast future scenarios, and use data analysis to identify trends that inform better decision-making in policy and management.
3. Innovative leadership: Develop the strategic skills to design and lead the use of observation technologies in advancing policies, guiding programs, and making informed decisions.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | This program does not admit in the fall. |
| Spring Deadline | This program does not admit in the spring. |
| Summer Deadline | February 1 for international applicants; May 1 for domestic applicants |
| GRE (Graduate Record Examinations) | May be required in certain cases; consult program. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 2 |

### APPLICATION

Individuals with diverse professional and academic backgrounds are encouraged to apply. Applicants must have received a bachelor's degree from an accredited four-year institution with an undergraduate GPA of 3.0 or higher. Applicants with GPAs below 3.0 may be considered for admissions under special circumstances. Because introductory GIS is not taught in this program, applicants should have introductory GIS skills prior to the start of the program. This experience can be demonstrated through course work, professional experience, a portfolio (in the supplemental application), or a GIS certificate/degree. If an applicant does not have this experience, they should state this in their letter of interest and explain how, if accepted, introductory skills will be developed before the start of the program.

Complete applications will include all items below. Admissions decisions will be based on the entirety of each applicant's credentials.

1. Resume or CV
2. Statement of interest
3. Two letters of recommendation (submitted via the online application)
4. Unofficial undergraduate transcript (official transcript will be requested if recommended for admission)

5. Supplemental application and professional portfolio (see text below for more information)
6. English proficiency test scores. International degree-seeking applicants must prove English proficiency using the Graduate School's requirements (https://grad.wisc.edu/apply/requirements/).
7. GRE (dependent on undergraduate major and GPA)

As part of the online supplemental application, applicants will submit a portfolio that showcases their quantitative or GIS experience. The portfolio should consist of documents that will help assess each applicant's proficiency and readiness for the program. Examples of these documents can include; maps developed in a GIS software or through remote sensing image analysis, figures from analysis and reports, selected slides from professional presentations, or copies of certificates, awards, and completed trainings.

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

Students enrolled in this program are not eligible to receive tuition remission from graduate assistantship appointments at this institution.

This applies to both the Environmental Conservation and the Environmental Observation & Informatics named options. We encourage all students to apply for our Environmental Conservation tuition assistance program and to seek additional sources of grants, scholarships, or loans.

For more funding information, visit the program's website: https://nelson.wisc.edu/graduate/professional-programs/costs-and-funding/

### Other Policy

Students in this program may not take courses outside the prescribed curriculum without faculty advisor and program director approval. Students in this program cannot enroll concurrently in other undergraduate or graduate degree programs.

## POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# NAMED OPTION-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

No graduate credits earned at other institutions may transfer.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

No undergraduate credits earned at other institutions or UW-Madison may transfer.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

No credits earned as a professional student at UW-Madison may transfer.

### Credits Earned as a University Special student at UW–Madison

No credits earned as a University Special student at UW-Madison may transfer.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

The status of a student falls into one of the following three categories:

1. Good standing (progressing according to standards; any funding guarantee remains in place).
2. Probation (not progressing according to standards but permitted to enroll; loss of funding guarantee; specific plan with dates and deadlines in place in regard to removal of probationary status).
3. Unsatisfactory progress (not progressing according to standards; not permitted to enroll, dismissal, leave of absence or change of advisor or program).

## ADVISOR / COMMITTEE

Every student in the program will be required to have an advisor. Program staff will work with the student to identify an advisor during the spring semester. Once an advisor has been identified, the student is expected to maintain communication with their advisor to ensure they are making satisfactory progress toward their degree.

## CREDITS PER TERM ALLOWED

15 credits

## TIME LIMITS

If a student has been absent for a semester or more, they must file a new Graduate School application for admission and submit it with a new application fee.

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)

- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

This document was reviewed by the Graduate Student working group and approved by vote of Nelson Institute Governance with subsequent review by campus HR; please note that this was prior to the revision of GAPP by campus in 2019-20, as well as present and expected changes in 2020 after to Title IX, Office of the Dean of Students, etc.

## Preamble:

Any student who feels that they have been treated unfairly by a faculty or staff member has the right to seek redress and to receive a hearing of the grievance following these procedures. It applies only to grievances about those persons who are employees of the Nelson Institute, who teach for the Nelson Institute or otherwise are subject to administrative oversight by the Institute. The complaint may concern course grades, program admission, classroom treatment, hostile or intimidating behavior, or any other issue. Note that these procedures are for students bringing grievances to the Nelson Institute, they do not cover issues relating to the classroom behavior of students which must be referred to the Dean of Students.

The procedures outlined below are used in the Nelson Institute to ensure a prompt and fair hearing of complaints, and to protect the rights of both the student and the person at whom the complaint is directed. These policies describe formal procedures. A student is free to bypass these procedures if they do not wish for an Institute sanctioned resolution.

A complaint covered here may involve issues that either require or that would benefit from being directed to one of the campus programs or offices addressing complaints and grievances. See https://compliance.wisc.edu/ and https://compliance.wisc.edu/wp-content/uploads/sites/102/2018/09/Safe-Learning-and-Work-Guide.Fall_.FY19-Accessible.pdf (Accessed Oct. 2020). Please review the most recent information on Title IX on campus, as guidelines and contacts may change. Graduate students should review information at https://grad.wisc.edu/documents/grievances-and-appeals/ (Accessed Feb. 2019) Undergraduate students may wish to review information available in the undergraduate course catalog. There they will find this option presented: “For assistance in determining options, students can contact the on-call dean in the Dean of Students Office, 608-263-5700, Room 70 Bascom Hall, Monday– Friday, 8:30 a.m.–4:30 p.m.”

Also, students should know that academic administrators may be required to report instances of sexual harassment or violence in accordance with university policy and the Clery act. (See: http://uwpd.wisc.edu/crime-data/clery-act/ Accessed Oct. 2018).

State law contains additional provisions regarding discrimination and harassment. Wisconsin Statutes 36.12 reads, in part: "No student may be denied admission to, participation in or the benefits of, or be discriminated against in any service, program, course or facility of the system or its institutions or center because of the student's race, color, creed, religion, sex, national origin, disability, ancestry, age, sexual orientation, pregnancy, marital status or parental status." In addition, UW–System prohibits discrimination based on gender identity or gender expression. Students have the right to file discrimination and harassment complaints with the Office for Equity and Diversity.

Questions about Nelson Institute procedures can be directed to the Associate Dean for Research and Education.

## Procedures:

1. If possible, the student (complainant) should first talk with the person against whom the grievance is directed to advise them of their complaint and to determine if resolution is possible.
2. If the student is not satisfied, or if they do not feel comfortable addressing the person to whom the grievance is directed, they should ask to speak to the immediate supervisor of the person involved. If the complaint is directed against a teaching assistant, the student should talk to the TA's supervisor, who is usually the course professor. If the student grievance concerns a faculty or staff member in Nelson, the next formal step is for the student to meet with the Associate Dean for Research and Education. If the complaint is not resolved at this level, the student may continue to the next step (4).
3. It is recognized that a student may be reluctant to bring their grievance to the person against whom the complaint is directed, or to their supervisor, or to anyone else in the administrative hierarchy. In that case, the student should seek out a person who can guarantee confidentiality to the extent allowed by the law and university policy and provide non-judgmental advice as to appropriate next steps. Note that if criminal activity is involved confidentiality cannot be guaranteed. If a student does not know of any suitable person, they may approach any member of the Nelson Institute Academic Programs staff who will be able either to serve as a confidential discussant or who will be able to direct the student to someone who can assure confidentiality. Their role is to be that of Ombuds, meaning that they are not to take a position with respect to the validity of the grievance. Their role is to advise the student as to appropriate next steps.
4. To start a formal grievance process, the student must submit the grievance in writing to the Nelson Institute Associate Dean for Research and Education (hereafter Associate Dean) as soon as possible. An email for which receipt is acknowledged will be considered a written submission.
5. On receipt of the written complaint, the Associate Dean will acquaint themselves with the issues. This may involve face to face meetings or other means of establishing the facts in dispute. The Associate Dean will have the option of proposing a resolution. If the proposed resolution is accepted by parties directly involved, the matter will be considered settled at this level. Relevant documents will be archived by the Office of the Assistant Dean for Administration. At any point in the proceedings after the receipt and acknowledgement of the grievance by the Associate Dean, the complainant or the compliance will have the option of requesting that the matter be referred to an ad hoc committee. This request must be submitted in writing and acknowledged by the Associate Dean.
6. If the matter cannot be settled through the mediation of the Associate Dean, or if the Associate Dean has concluded that the case merits further attention, or if the complainant has requested that the matter be referred to an ad hoc committee an ad hoc committee will be appointed by the Dean of the Nelson Institute or their designee. The committee will consist of at least three members. Within 10 working days, the student will be allowed to revise the complaint or to add material to the

complaint document to be provided to the committee. The complainant may request a change in committee membership, but the final decision on the committee will remain with the Dean. The committee may request a written response from the person toward whom the complaint is directed. This response shall be shared with the person filing the grievance. The ad hoc committee will meet to discuss the case. They are authorized to seek additional information if they feel it is necessary. They will convey their written decision regarding the case including any recommendations for remediation or mediation to the Associate Dean within 30 working days from the charge to the committee. The Associate Dean will provide a copy of the committee's written decision to the student regarding the case within 10 working days of receiving the committee's report; the Associate Dean will also confirm that the past record on file of any grievances regarding the parties involved has been investigated; and, the Associate Dean will provide the student a statement outlining the formal plan of steps that will be taken officially on the part of the Nelson Institute.

7. The complainant then has the option of taking their grievance to the university level. There are several options available. Consult websites referenced above.
8. The written documents relevant to the grievance will be archived in hard copy and electronic form as appropriate in a "Grievance Record" by the office of the Assistant Dean of Administration and will be maintained for a minimum of five years.
9. The cumulative record involving any of the parties to a grievance will be reviewed each time a formal grievance is presented as in Step 4, above, in order to determine whether the pattern of grievance, such as past filings, indicates any actions are warranted.

### OTHER

Because of the immersive nature of our program, with condensed time on campus and remote experiences, Environmental Observation and Informatics students are only eligible for campus appointments that total 30% time or less, or hourly work. We encourage all students to apply for our Environmental Observation and Informatics program scholarship, and to seek additional sources of grants, scholarships, or loans. Students in the Environmental Observation and Informatics program are not permitted to seek dual degrees or take courses outside of the listed required coursework.

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

For more information about professional development and careers with the degree, visit the program's website: https://nelson.wisc.edu/graduate/professional-programs/careers/

# SUSTAINABILITY, GRADUATE/PROFESSIONAL CERTIFICATE

The graduate certificate in sustainability provides students with the opportunity to customize their graduate experience, adding sustainability training to any graduate degree program offered at the University of Wisconsin–Madison. Graduate students can complete the sustainability certificate by selecting courses that meet both their degree and Sustainability requirements. As such, most students can add the sustainability certificate on to a degree without any additional time or cost. PhD students may use the sustainability certificate to fulfill their doctoral breadth requirement (https://policy.wisc.edu/library/UW-1200/), though in this case courses may not be double-counted for major requirements.

The certificate's interdisciplinary curriculum considers environmental, economic, and social factors of sustainability. Through coursework and co-curricular activities focused on solving sustainability challenges across the state, students deepen their understanding of the complexities and solutions involved in addressing today's most pressing challenges. Students may wish to add this certificate as they prepare for a sustainability-related career pathway in industry, academia, NGOs, government agencies, or consulting. The certificate includes coursework across three thematic areas:

1. Economics & Development (Economy)
2. Systems Analysis, Planning & Engineering (Systems)
3. Environmental Policy, Health & Social Studies (Environment, Culture and Society)

## ADMISSIONS

# ADMISSIONS

The Sustainability certificate welcomes applications from students in any graduate degree program at UW-Madison that allows students to pursue a certificate. Students may apply to the certificate program concurrently with their graduate school application or once they have matriculated at UW-Madison. Acceptance into the certificate program is contingent on enrollment in a graduate degree program.

### HOW TO APPLY

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any graduate/professional certificate. To apply to this certificate, log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. Select the information for the certificate for which you are applying. Professional students in the careers of Law, Medicine, Pharmacy, and Veterinary cannot add the certificate in the Graduate Student Portal, and should contact the program for more information.

Complete the online Certificate in Sustainability application form (https://uwmadison.co1.qualtrics.com/jfe/form/SV_56VqQxNbZMEg2XA/), which includes the following elements:

1. Information on prior educational attainment
2. Information on degree program being pursued
3. A brief statement of interest in the Sustainability certificate

## DEADLINES

Applications may be submitted at any time, but applicants are encouraged to apply before the end of their first year in graduate school to ensure timely completion of certificate requirements.

### LIMITATIONS

Students also pursuing the Certificate in Business, Environment, and Social Responsibility (p. 281) can overlap a maximum of 6 credits between the two certificates.

## LEARNING OUTCOMES

## LEARNING OUTCOMES

1. Demonstrate an awareness of the three paradigms (environment, economy, and society) of sustainability, in a systems context.
2. Apply the three paradigms of sustainability to an interdisciplinary real world project.
3. Prepare for a sustainability-related career pathway in industry, academia, NGO's, agencies, and consulting.

# WATER RESOURCES MANAGEMENT, DOCTORAL MINOR

Any student enrolled in a University of Wisconsin–Madison doctoral program can pursue a doctoral minor in Water Resources Management. Meeting the increasing human demand for water while ensuring its future availability and quality is a significant societal challenge. The Water Resources Management (WRM) program prepares students to face the complexities of managing this critical natural resource. Students complete coursework that integrates the biological and physical sciences (which identify and measure problems) with engineering (which provides technological alternatives), law, and the social sciences (which assess needs and potential for institutional response). Each WRM student gains breadth in relevant planning and management areas while developing depth in an area specialty. WRM students participate in a summer group practicum workshop with a water resources management focus.

## ADMISSIONS

## ADMISSIONS

Students interested in a doctoral minor should consult the chair of the Water Resources Management graduate program

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any doctoral minor. To apply to this minor, log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. Select the information for the doctoral minor for which you are applying.

## REQUIREMENTS

## REQUIREMENTS

### GRADE REQUIREMENT

Students must earn a B or better in courses used to satisfy doctoral minor requirements.

### REQUIRED COURSES

Students select courses in consultation with their doctoral minor advisor and departmental advisor.

| Code | Title | Credits |
|---|---|---|
| **Practicum** | | |
| Students must complete the following courses. | | |
| CIV ENGR/ ENVIR ST/ URB R PL 718 | Water Resources Management Practicum Planning Seminar II | 2 |
| CIV ENGR/ ENVIR ST/ URB R PL 719 | Water Resources Management Summer Practicum | 4 |
| **Breadth** | | |
| Students must complete two courses numbered 300 or above from the categories below. The course lists below are not meant to be all-inclusive, and students are not restricted to the courses listed here. This is a sample of appropriate courses for these categories that are offered through various departments/programs. Breadth courses should complement the doctoral major and academic background as well as address any gaps in training within the curriculum breadth categories. | | 5 |

# WATER RESOURCES MANAGEMENT, MS

The Water Resources Management (WRM) program is an interdisciplinary graduate program leading to a master of science (MS) degree in water resources management. The program addresses the complex, interdisciplinary aspects of managing water resources by helping students integrate the biological and physical sciences (which identify and assess problems) with engineering (which defines technological alternatives) as well as law and the social sciences (which assess needs and potential for institutional response). Through the WRM program, a student gains breadth in relevant planning and management areas while developing depth in an area specialty.

The water resources management degree is designed to prepare students for employment as water resources management professionals. Rather than conduct individual research projects, WRM students participate in a group practicum workshop with a water resources management focus. Students who wish to add individual research credentials to their records frequently arrange to complete a second, simultaneous master's program in one of the university's traditional departments. Those interested primarily in individual research may wish to consider the Nelson Institute's Environment and Resources program as an alternative. The WRM program does not offer a doctoral degree.

Any person who attended an accredited institution and earned an undergraduate degree there in the biological sciences, earth sciences, economics, education, engineering, history, journalism, landscape architecture, law, mathematics, physical science, political science, urban and regional planning, or other relevant field may apply for admission to the WRM program.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements (https://grad.wisc.edu/apply/requirements/) *of the***

***Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | January 15 |
| Spring Deadline | October 15 |
| Summer Deadline | January 15 |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

## DEADLINES

Application materials for Water Resources Management must be received by the fall deadline for admission to the following summer session or fall semester and by the spring deadline for admission to the following spring semester.

## APPLICATION CHECKLIST

In addition to the items listed in the table above, a complete application includes the following items:

1. Statement of Purpose
2. Resume/Curriculum Vitae
3. Transcript(s)

# FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

In most cases, Water Resources Management is unable to guarantee any funding to students. However, many of our students obtain funding through other departments on campus, and we recommend that students contact faculty or departments directly if they have teaching skills in specific areas. Individual faculty members occasionally have their own sources of support for project assistants, though we strongly urge students not to depend on these as guaranteed sources of funding.

# REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 45 credits |
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 23 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |

| | |
|---|---|
| Other Grade Requirements | Grades of BC or C are not typically accepted toward program requirements unless the grade is allowed by the student's faculty advisory committee and the program chair. Grades of BC and C may not be used in the area specialty category. A maximum of 3 credits graded S may be counted toward program requirements if approved by the student's faculty advisory committee and the program chair. Courses that are audited or graded pass/fail or credit/no credit will not count toward program requirements. |
| Assessments and Examinations | All students must hold an evaluation and guidance conference with their faculty advisory committee, preferably no later than their third semester in the program. |
| Language Requirements | No language requirements. |

## REQUIRED COURSES

| Category C: Analytical & Design Tools in Water Resources (see course list below) | | 6 |
| **Area of Specialty** | | |
| Students choose courses, in the 300–999 range, in a cohesive area of study pertaining to their intended career path. This is coursework required for completion of the degree. At least nine credits must be from UW-Madison. | | 15 |
| **Interdisciplinary Group Practicum** | | |
| ENVIR ST/ CIV ENGR/ URB R PL 718 | Water Resources Management Practicum Planning Seminar II | 2 |
| ENVIR ST/ CIV ENGR/ URB R PL 719 | Water Resources Management Summer Practicum | 4 |
| **Total Credits** | | **45** |

### Category A: Natural Science & Technology

Students choose any biological sciences and/or physical sciences courses in the 300–999 range. This course list is not meant to be all-inclusive. Students are not restricted to the courses listed here. This is a sample of appropriate courses for this category that are offered through various departments/programs. At least three credits must be from UW-Madison.

### Category B: Water Resources Institutions & Public Decision-Making Processes

Students choose any social sciences and/or arts & humanities courses in the 300–999 range. This course list is not meant to be all-inclusive. Students are not restricted to the courses listed here. This is a sample of appropriate courses for this category that are offered through various departments/programs. At least three credits must be from UW-Madison.

### Category C: Analytical & Design Tools in Water Resources

Students choose any measurement/analysis/tools/methods courses in the 300–999 range. This course list is not meant to be all-inclusive. Students are not restricted to the courses listed here. This is a sample of appropriate courses for this category that are offered through various departments/programs. At least three credits must be from UW-Madison.

## POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With faculty advisory committee and program chair approval, students are allowed to transfer up to 15 credits of graduate coursework from other institutions. Students must have at least three UW-Madison credits in each of the three breadth categories, and at least nine UW-Madison credits in the Area of Specialty category. Coursework completed ten or more years prior to admission to the program is not allowed to satisfy graduate degree or graduate coursework requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

No credits from another institution or UW–Madison undergraduate degree are allowed to count toward the program.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

All students must assemble a three-member advisory committee that represents a minimum of two departments, preferably no later than their second semester in the program. To meet the interdisciplinary requirement the committee must include members tenured in one of the natural sciences divisions (Biological Sciences, Physical Sciences) and one of the social sciences divisions (Social Studies, Arts & Humanities).

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)

- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

This document was reviewed by the Graduate Student working group and approved by vote of Nelson Institute Governance with subsequent review by campus HR; please note that this was prior to the revision of GAPP by campus in 2019-20, as well as present and expected changes in 2020 after to Title IX, Office of the Dean of Students, etc.

## Preamble:

Any student who feels that they have been treated unfairly by a faculty or staff member has the right to seek redress and to receive a hearing of the grievance following these procedures. It applies only to grievances about those persons who are employees of the Nelson Institute, who teach for the Nelson Institute or otherwise are subject to administrative oversight by the Institute. The complaint may concern course grades, program admission, classroom treatment, hostile or intimidating behavior, or any other issue. Note that these procedures are for students bringing grievances to the Nelson Institute, they do not cover issues relating to the classroom behavior of students which must be referred to the Dean of Students.

The procedures outlined below are used in the Nelson Institute to ensure a prompt and fair hearing of complaints, and to protect the rights of both the student and the person at whom the complaint is directed. These policies describe formal procedures. A student is free to bypass these procedures if they do not wish for an Institute sanctioned resolution.

A complaint covered here may involve issues that either require or that would benefit from being directed to one of the campus programs or offices addressing complaints and grievances. See https://compliance.wisc.edu/ and https://compliance.wisc.edu/wp-content/uploads/sites/102/2018/09/Safe-Learning-and-Work-Guide.Fall_.FY19-Accessible.pdf (Accessed Oct. 2020). Please review the most recent information on Title IX on campus, as guidelines and contacts may change. Graduate students should review information at https://grad.wisc.edu/documents/grievances-and-appeals/ (Accessed Feb. 2019) Undergraduate students may wish to review information available in the undergraduate course catalog. There they will find this option presented: “For assistance in determining options, students can contact the on-call dean in the Dean of Students Office, 608-263-5700, Room 70 Bascom Hall, Monday– Friday, 8:30 a.m.–4:30 p.m.”

Also, students should know that academic administrators may be required to report instances of sexual harassment or violence in accordance with university policy and the Clery act. (See: http://uwpd.wisc.edu/crime-data/clery-act/ Accessed Oct. 2018).

State law contains additional provisions regarding discrimination and harassment. Wisconsin Statutes 36.12 reads, in part: "No student may be denied admission to, participation in or the benefits of, or be discriminated against in any service, program, course or facility of the system or its institutions or center because of the student's race, color, creed, religion, sex, national origin, disability, ancestry, age, sexual orientation, pregnancy, marital status or parental status." In addition, UW–System prohibits discrimination based on gender identity or gender expression. Students have the right to file discrimination and harassment complaints with the Office for Equity and Diversity.

Questions about Nelson Institute procedures can be directed to the Associate Dean for Research and Education.

## Procedures:

1. If possible, the student (complainant) should first talk with the person against whom the grievance is directed to advise them of their complaint and to determine if resolution is possible.
2. If the student is not satisfied, or if they do not feel comfortable addressing the person to whom the grievance is directed, they should ask to speak to the immediate supervisor of the person involved. If the complaint is directed against a teaching assistant, the student should talk to the TA's supervisor, who is usually the course professor. If the student grievance concerns a faculty or staff member in Nelson, the next formal step is for the student to meet with the Associate Dean for Research and Education. If the complaint is not resolved at this level, the student may continue to the next step (4).
3. It is recognized that a student may be reluctant to bring their grievance to the person against whom the complaint is directed, or to their supervisor, or to anyone else in the administrative hierarchy. In that case, the student should seek out a person who can guarantee confidentiality to the extent allowed by the law and university policy and provide non-judgmental advice as to appropriate next steps. Note that if criminal activity is involved confidentiality cannot be guaranteed. If a student does not know of any suitable person, they may approach any member of the Nelson Institute Academic Programs staff who will be able either to serve as a confidential discussant or who will be able to direct the student to someone who can assure confidentiality. Their role is to be that of Ombuds, meaning that they are not to take a position with respect to the validity of the grievance. Their role is to advise the student as to appropriate next steps.
4. To start a formal grievance process, the student must submit the grievance in writing to the Nelson Institute Associate Dean for Research and Education (hereafter Associate Dean) as soon as possible. An email for which receipt is acknowledged will be considered a written submission.
5. On receipt of the written complaint, the Associate Dean will acquaint themselves with the issues. This may involve face to face meetings or other means of establishing the facts in dispute. The Associate Dean will have the option of proposing a resolution. If the proposed resolution is accepted by parties directly involved, the matter will be considered settled at this

level. Relevant documents will be archived by the Office of the Assistant Dean for Administration. At any point in the proceedings after the receipt and acknowledgement of the grievance by the Associate Dean, the complainant or the compliance will have the option of requesting that the matter be referred to an ad hoc committee. This request must be submitted in writing and acknowledged by the Associate Dean.

6. If the matter cannot be settled through the mediation of the Associate Dean, or if the Associate Dean has concluded that the case merits further attention, or if the complainant has requested that the matter be referred to an ad hoc committee an ad hoc committee will be appointed by the Dean of the Nelson Institute or their designee. The committee will consist of at least three members. Within 10 working days, the student will be allowed to revise the complaint or to add material to the complaint document to be provided to the committee. The complainant may request a change in committee membership, but the final decision on the committee will remain with the Dean. The committee may request a written response from the person toward whom the complaint is directed. This response shall be shared with the person filing the grievance. The ad hoc committee will meet to discuss the case. They are authorized to seek additional information if they feel it is necessary. They will convey their written decision regarding the case including any recommendations for remediation or mediation to the Associate Dean within 30 working days from the charge to the committee. The Associate Dean will provide a copy of the committee's written decision to the student regarding the case within 10 working days of receiving the committee's report; the Associate Dean will also confirm that the past record on file of any grievances regarding the parties involved has been investigated; and, the Associate Dean will provide the student a statement outlining the formal plan of steps that will be taken officially on the part of the Nelson Institute.
7. The complainant then has the option of taking their grievance to the university level. There are several options available. Consult websites referenced above.
8. The written documents relevant to the grievance will be archived in hard copy and electronic form as appropriate in a "Grievance Record" by the office of the Assistant Dean of Administration and will be maintained for a minimum of five years.
9. The cumulative record involving any of the parties to a grievance will be reviewed each time a formal grievance is presented as in Step 4, above, in order to determine whether the pattern of grievance, such as past filings, indicates any actions are warranted.

n/a

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Expand their knowledge of the physical, chemical, biological, and social sciences and learn how to apply this knowledge to the management of water resources.
2. Understand water resource decision-making at governance levels from local to national.
3. Use a wide range of analytical tools to sustainably manage water resources.
4. Participate in as well as lead interdisciplinary teams.
5. Orally and in writing communicate to stakeholders the findings and recommendations of interdisciplinary projects.
6. Have an understanding of professional and ethical responsibility.

# GENDER AND WOMEN'S STUDIES

## DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

# DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/ PROFESSIONAL CERTIFICATES

- Gender and Women's Studies, Doctoral Minor (p. 914)
- Gender and Women's Studies, Graduate/Professional Certificate (p. 915)
- Gender and Women's Studies, MA (p. 916)
- Gender and Women's Studies, PhD (p. 919)

# GENDER AND WOMEN'S STUDIES, DOCTORAL MINOR

**The Gender and Women's Studies doctoral minor no longer admits new students after Spring 2026 and the program will be discontinued Fall 2031.** Students already admitted may only complete and be awarded this minor through Summer 2031. If you have any questions, please contact the department.

## ADMISSIONS

# ADMISSIONS

**The Gender and Women's Studies doctoral minor no longer admits new students after Spring 2026 and the program will be discontinued Fall 2031.** Students already admitted may only complete and be awarded this minor through Summer 2031. If you have any questions, please contact the department.

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any doctoral minor or graduate/professional certificate. To apply to this minor, log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. Select the information for the doctoral minor for which you are applying.

Graduate students who have additional questions on the doctoral minor in Gender and Women's Studies should contact the Graduate Program Manager (https://gws.wisc.edu/graduate/graduate-advising/) in the Department of Gender and Women's Studies.

## REQUIREMENTS

### REQUIREMENTS

A student may earn a doctoral minor in Gender and Women's Studies with 9 credits, if all 9 credits are in exclusively graduate GEN&WS (https://guide.wisc.edu/courses/gen_ws/) courses numbered 700 and above. Alternatively, a student may earn the minor with 12 credits if these are courses numbered 300 and above and identified as designed for graduate work with the graduate designation. One course must be GEN&WS 800 Research Methods in Gender & Women's Studies. Students are expected to achieve a B or better in all courses used for the minor. Directed study courses do not count toward the minor. Students may not use colloquia courses toward requirements of the doctoral minor. Transferred credits are discouraged, but may be allowed with approval of the Director of Graduate Studies. If a student is pursuing two doctoral minors, no more than one course shall overlap between the Gender and Women's Studies minor and the other minor.

# GENDER AND WOMEN'S STUDIES, GRADUATE/PROFESSIONAL CERTIFICATE

Aimed at students enrolled in PhD, MA, and professional degree programs, the Graduate Certificate in Gender & Women's Studies provides recipients with critical expertise that they can apply in a variety of fields. The requirement of two foundational courses offers grounding in the major concepts, theories, and methodological approaches related to women, gender, and/or sexuality. This foundation provides students with the necessary theoretical tools to research and teach about gender and its relationship with other socially meaningful categories such as class, race, ethnicity, disability, and sexuality in a variety of contexts. Taking an additional course further allows students to deepen their knowledge of women, gender and/or sexuality studies in a specific area or areas.

All Graduate Certificate students have the opportunity to tailor their study to areas related to their future career or research ambitions within and beyond the academy.
For more information, including steps to notify the department of certificate completion, please visit the GWS Graduate Programs website (https://gws.wisc.edu/graduate-programs/).

## ADMISSIONS

### ADMISSIONS

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any graduate/professional certificate. To apply to this certificate, log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. Select the information for the certificate for which you are applying. Professional students in the careers of Law, Medicine, Pharmacy, and Veterinary cannot add the certificate in the Graduate Student Portal, and should contact the program for more information.

Graduate students who have additional questions on the Gender and Women's Studies certificate at the graduate level should contact the Graduate Program Manager (https://gws.wisc.edu/graduate/graduate-advising/)in the Department of Gender and Women's Studies.

## REQUIREMENTS

### REQUIREMENTS

#### GRADE REQUIREMENT

A 3.0 grade point average (GPA) is the minimum for courses satisfying requirements. All courses must be taken for a letter grade (no pass/fail courses).

#### REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Core** | | |
| GEN&WS 800 | Research Methods in Gender & Women's Studies | 3 |
| **First Elective** | | |
| Students must complete one of the following courses: | | 3 |
| GEN&WS 810 | Gender and Women's Studies: The Emergence and Transformation of a Field | |
| GEN&WS 830 | Contemporary Theorizing in Gender and Women's Studies | |
| **Second Elective** | | |
| Students must complete one of the following options: | | 3 |
| Gender and Women's Studies (GEN&WS) course numbered 700 and above | | |
| Gender and Women's Studies (GEN&WS) course numbered 300 and above with the "Grad 50%" designation | | |
| **Total Credits** | | **9** |

#### Additional Program Information

- Enrollment in a graduate or professional program at the University of Wisconsin–Madison.
- Directed study (GEN&WS 699 , GEN&WS 799 , GEN&WS 999 ) and colloquia courses may not satisfy certificate requirements.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Demonstrate interdisciplinary understanding of major theories, methods, and debates in Gender and Women's Studies.
2. Demonstrate the practical skills related to Gender and Women's Studies, such as critical thinking and intersectional analysis, critical literature review; research methods, and written and oral communication.
3. Understand the interdisciplinary nature of Gender and Women's Studies and the ways these relate to theoretical and methodological shifts in the field as well as to the institutions that shape everyday life.
4. Develop Gender and Women's Studies knowledge, skills, and social engagement and demonstrate how these ideas can be applied to new settings, ideas, and understandings.

# GENDER AND WOMEN'S STUDIES, MA

Effective fall 2023, the Gender and Women's Studies no longer offers a stand-alone MA program.

## ADMISSIONS

# ADMISSIONS

This master's program is offered for work leading to the PhD. Students may not apply directly for the master's. If you are interested in applying for the PhD program, please see admissions information here (p. 919).

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

We offer TA positions to new MA students, including tuition remission, stipend, and health insurance. We award new students at least two semesters of guaranteed funding and sometimes offer additional positions. Availability of positions may be different for international students; eligibility is determined at admission. There are a limited number of TA positions, so do not count on these as support for the entire two years of study. We encourage students to apply for positions elsewhere on campus.

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 21 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required.<br>Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | n/a |

| | |
|---|---|
| Assessments and Examinations | To earn the MA degree, students must complete a thesis or exam. Refer to https://gws.wisc.edu/ma-requirements (https://gws.wisc.edu/ma-requirements/)/ for detailed information.<br>• Thesis Project: Students enroll in GEN&WS 790 and complete a thesis. Students must receive approval for thesis from committee. Students will defend the thesis in front of the committee.<br>• Exam: Students must complete a culminating MA exam to demonstrate a general understanding of the field and an interdisciplinary substantive field. Each field will be based on a reading list of roughly 25 books, 75 articles, or their equivalent, constructed in collaboration with the student's permanent advisor and an additional faculty examiner. |
| Language Requirements | No language requirements. |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Departmental Courses** | | **15** |
| Students must complete at least 15 credits of courses in the department of Gender and Women's Studies. Students select courses in consultation with advisor. The following courses are recommendations to fulfill this requirement. | | |
| GEN&WS 800 | Research Methods in Gender & Women's Studies | |
| GEN&WS 810 | Gender and Women's Studies: The Emergence and Transformation of a Field | |
| GEN&WS 830 | Contemporary Theorizing in Gender and Women's Studies | |
| *Thesis* | | |
| Students are recommended to complete the following course if they are writing a thesis to meet degree requirements. A maximum of 3 credits may fulfill the departmental courses requirement. | | |
| GEN&WS 790 | Research & Thesis: Master's and Professional Level | |
| **Additional Coursework** | | **15** |
| Students must complete additional coursework to meet the minimum credit requirement. Students may apply up to 6 credits of GEN&WS 790, GEN&WS 799, GEN&WS 990, GEN&WS 999 and other departments' independent study courses toward the minimum credit requirement. | | |
| **Total Credits** | | **30** |

## INDEPENDENT STUDY

Students will be allowed to take independent/directed-study credits that do not fulfill the degree minimum requirement, if they wish.

Special circumstances or requests for additional independent/directed-study credits to fulfill minimum requirements must be approved in advance by the Director of Graduate Studies and the advisor.

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special student at UW–Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Refer to the Graduate School: Advisor (https://policy.wisc.edu/library/UW-1232/) and Graduate School: Committees (Doctoral/Master's/MFA) (https://policy.wisc.edu/library/UW-1201/) policies.

## CREDITS PER TERM ALLOWED

Students in the MA program are expected to carry 6 credits per semester. They may carry up to 12 although we do not encourage more than 9. Students who would like to carry fewer than 6 credits must apply in writing to the Director of Graduate Study for a waiver of this requirement and are not eligible to work as teaching assistants.

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)

- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## L&S POLICY FOR GRADUATE STUDENT ACADEMIC APPEALS

Graduate students have the right to appeal an academic decision related to an L&S graduate program if the student believes that the decision is inconsistent with published policy.

Academic decisions that may be appealed include:

- Dismissal from the graduate program
- Failure to pass a qualifying or preliminary examination
- Failure to achieve satisfactory academic progress
- Academic disciplinary action related to failure to meet professional conduct standards

Issues such as the following cannot be appealed using this process:

- A faculty member declining to serve as a graduate student's advisor.
- Decisions regarding the student's disciplinary knowledge, evaluation of the quality of work, or similar judgements. These are the domain of the department faculty.
- Course grades. These can be appealed instead using the L&S Policy for Grade Appeal (https://kb.wisc.edu/ls/22258/).
- Incidents of bias or hate, hostile and intimidating behavior (https://hr.wisc.edu/hib/), or discrimination (Title IX (https://compliance.wisc.edu/titleix/), Office of Compliance (https://compliance.wisc.edu/eo-complaint/formal-investigations/)). Direct these to the linked campus offices appropriate for the incident(s).

### Appeal Process for Graduate Students

A graduate student wishing to appeal an academic decision must follow the process in the order listed below. Note time limits within each step.

1. The student should first seek informal resolution, if possible, by discussing the concern with their academic advisor, the department's Director of Graduate Studies, and/or the department chair.
2. If the program has an appeal policy listed in their graduate program handbook, the student should follow the policy as written, including adhering to any indicated deadlines. In the absence of a specific departmental process, the chair or designee will be the reviewer and decision maker, and the student should submit a written appeal to the chair within 15 business days of the academic decision. The chair or designee will notify the student in writing of their decision.
3. If the departmental process upholds the original decision, the graduate student may next initiate an appeal to L&S. To do so, the student must submit a written appeal to the L&S Assistant Dean for Graduate Student Academic Affairs within 15 business days of notification of the department's decision.
   a. To the fullest extent possible, the written appeal should include, in a single document: a clear and concise statement of the academic decision being appealed, any relevant background on what led to the decision, the specific policies involved, the relief sought, any relevant documentation related to the departmental appeal, and the names and titles of any individuals contributing to or involved in the decision.
   b. The Assistant Dean will work with the Academic Associate Dean of the appropriate division to consider the appeal. They may seek additional information and/or meetings related to the case.
   c. The Assistant Dean and Academic Associate Dean will provide a written decision within 20 business days.
4. If L&S upholds the original decision, the graduate student may appeal to the Graduate School. More information can be found on their website: Grievances and Appeals (https://grad.wisc.edu/documents/grievances-and-appeals/) (see: Graduate School Appeal Process).

## OTHER

# PROFESSIONAL DEVELOPMENT

## PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

# LEARNING OUTCOMES

## LEARNING OUTCOMES

1. Demonstrate the ability to read, understand, and critique the major concepts and theories related to feminism, women, and gender, and apply these critical perspectives across disciplines.
2. Understanding of historical and contemporary agency by people across a spectrum of gender and the ways this agency has shaped lives in various geographic settings.

3. Demonstrate the ability to analyze the intersections between gender and other socially meaningful categories, such as race, class, gender identity, ethnicity, disability, nation, religion, and sexuality, and to explain how gender functions as a social institution.
4. Demonstrate the ability to conduct interdisciplinary feminist analysis that (1) includes a critical literature review, (2) selects appropriate research methodologies, and (3) proposes an appropriate research design to collect, analyze, interpret, and present findings.
5. Develop and utilize strong cultural competencies (e.g., sensitivity to race/ethnicity/gender/disability/sexual orientation issues) to allow them to enter into various cultural, social, economic, civic, academic, and workplace settings.
6. Acknowledge and engage in ethical courses of action in research and collaborative practice.

# GENDER AND WOMEN'S STUDIES, PHD

The PhD in Gender and Women's Studies provides advanced training in feminist gender analysis for students from a variety of academic backgrounds and career plans. The degree engages the multidisciplinary perspectives associated with gender studies and women's studies: queer studies, transgender studies, sexuality studies, race and ethnicity studies, disability studies, area and global studies, cultural studies, and postcolonial and transnational studies.

This interdisciplinary program is supported by the active engagement of 20 faculty members (and another dozen faculty affiliates). The program of study connects to "traditional" disciplinary study, and encourages students to:

- engage with wide-ranging and multi-disciplinary feminist theory and research;
- explore research on gender around the globe and how gender intersects with local and national identities, as well as how gender intersects with other social categories such as race/ethnicity, nationality, sexuality, class, caste, and religion;
- develop expertise in a disciplinary or interdisciplinary concentration outside Gender and Women's Studies; and
- engage with a variety of disciplinary and interdisciplinary methods including, for example, fieldwork, ethnography, critical analysis, and archival, statistical, experimental, and meta-analytic methods.

The PhD curriculum in Gender and Women's Studies draws from the strengths of course offerings in the department, as well as from methods and course offerings in other fields and departments. Some courses investigate these topics at the global level whereas others focus on the local, regional or national levels. The curriculum ensures an overarching transnational and cross-cultural framework.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements (https://grad.wisc.edu/apply/requirements/) *of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 1 |
| Spring Deadline | The program does not admit in the spring. |
| Summer Deadline | The program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

## APPLICATION MATERIALS

The following materials are required to be submitted:

1. One (1) copy of unofficial transcripts or academic records from each institution attended. International academic records must be in the original language and accompanied by an official English translation.
2. International degree-seeking applicants must prove English proficiency (https://grad.wisc.edu/apply/requirements/#english-proficiency).
3. Three (3) letters of recommendation. At least two of the letters should come from academic sources. These letters must be submitted online. See the Graduate School's web link (https://grad.wisc.edu/apply/) for frequently asked questions.
4. Statement of reasons why you wish to pursue the PhD Degree in Gender and Women's Studies (2–3 pages). In their personal statements, applicants should explicitly articulate their academic interests and goals, describe how a PhD in Gender and Women's Studies complements those intellectual goals, and explain how the faculty and the program at UW–Madison are especially well matched with the applicant's interests.
5. Curriculum vitae.
6. Writing sample (10-20 pages, no more than 25 pages).

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further

funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

The Department of Gender and Women's Studies guarantees five years of funding for
PhD students. This five-year funding timeline applies or is in effect whether funding
comes from GWS or another unit on campus. Each student accepted into the PhD
program in Gender & Women's Studies will be given guaranteed funding (salary and
tuition remission) at the 50% level, conditional on the student remaining in good
standing. This guarantee refers to the 9-months of the academic year.

# REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirements | Detail |
|---|---|
| Minimum Credit Requirement | 51 credits |
| Minimum Residence Credit Requirement | 42 credits |
| Minimum Graduate Coursework Requirement | 26 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | n/a |
| Assessments and Examinations | Doctoral students must successfully pass a written preliminary examination by the end of Fall semester of their fourth year in the program. Upon passing the preliminary exam, the student advances to dissertator status.<br><br>Doctoral students must submit a written dissertation proposal and defend the proposal at a meeting of their four-person faculty dissertation committee by the end of Fall semester of their fifth year in the program. |
| Language Requirements | n/a |
| Graduate School Breadth Requirement | All doctoral students are required to complete a doctoral minor or graduate/professional certificate. Refer to the Graduate School: Breadth Requirement in Doctoral Training policy: https://policy.wisc.edu/library/UW-1200 (https://policy.wisc.edu/library/UW-1200/). |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Core GEN&WS Courses** | | |
| GEN&WS 800 | Research Methods in Gender & Women's Studies | 3 |
| GEN&WS 810 | Gender and Women's Studies: The Emergence and Transformation of a Field | 3 |
| GEN&WS 830 | Contemporary Theorizing in Gender and Women's Studies | 3 |
| GEN&WS 840 | Pedagogy in Gender and Women's Studies | 3 |
| **Professional Seminar** | | |
| Students must complete 4-credits of the following course in a fall semester and a spring semester, ideally in their first year of the PhD program. | | |
| GEN&WS 860 | Proseminar in Gender and Women's Studies | 4 |
| **Advanced Electives** | | |
| Students must complete 3 elective courses. This requirement may be satisfied with the following courses. Other graduate-level seminars in or cross-listed with Gender and Women's Studies (GEN&WS) may also be applied. With advisor(s) and Director of Graduate Studies approval, other graduate-level seminars with a substantial focus on topics related to Gender and Women's Studies may be used to satisfy this requirement. | | 9 |

| | |
|---|---|
| GEN&WS/ ENGL 737 | Feminist Theory and Criticism |
| GEN&WS/ CURRIC 760 | Sex/Gender-Related Issues in Curriculum and Instruction |
| GEN&WS/ ED POL/ PUB AFFR 805 | Gender Issues in International Educational Policy |
| GEN&WS/ JOURN 828 | Gender and Sexuality in Mass Communication |
| GEN&WS/ C&E SOC/ SOC 904 | Sociological Perspectives on Gender |
| GEN&WS 925 | Seminar: Topics in Gender and Global Perspectives/Issues |
| GEN&WS/ ANTHRO 920 | Anthropology of Gender |
| GEN&WS 930 | Seminar: Topics in Feminist Theory |
| GEN&WS/ PSYCH 932 | Psychology of Women and Gender |
| GEN&WS/ POLI SCI 933 | Feminist Political Theory |
| GEN&WS/ HISTORY 938 | History of Sexuality |
| GEN&WS 950 | Seminar: Topics in Gender and Women's Studies |
| GEN&WS 960 | Seminar: Topics in Gender and Health |
| GEN&WS 970 | Seminar: Topics in Gender and Disability |
| **Research and Dissertation** | |
| Students must complete at least 6 credits of the following course: | 6 |
| GEN&WS 990 | Research & Thesis |
| **Additional Coursework** | |
| Students will complete this requirement in additional Gender and Women Studies (GEN&WS) or other approved coursework. | 5 |
| **Breadth Requirement/Concentration** | |
| Students are required to meet the Graduate School requirement for breadth, either through a doctoral minor or graduate/professional certificate. GWS PhD students meet this requirement through our 15-credit concentration. Students must submit a written plan for their concentration and have it approved by their advisor and the Graduate Committee by the end of Fall semester of their second year in the program. No more than two advanced elective courses may be counted toward their concentration. At least 50% of the credits for the concentration must numbered 700 or above. | 15 |
| **Total Credits** | **51** |

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

Students may transfer up to 9 credits earned at another institution. Transfer credits will be determined in consultation with the student's committee chair/faculty advisor and the Director of Graduate Studies (DGS), who will review relevant syllabi. Please note that not transfer credits will be used to satisfy core Gender and Women Studies (GEN&WS) courses. Credits earned ten or more years prior to admission to a doctoral degree are not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

No undergraduate credits earned at other institutions or UW-Madison are allowed to transfer.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Students may transfer professional credits completed at UW-Madison. Transfer credits will be determined in consultation with the student's committee chair/faculty advisor and the Director of Graduate Studies (DGS), who will review relevant syllabi. Please note that not transfer credits will be used to satisfy core Gender and Women Studies (GEN&WS) courses. Credits earned ten or more years prior to admission to a doctoral degree are not allowed to satisfy requirements.

### Credits Earned as a University Special student at UW–Madison

No credits earned as a University Special student at UW-Madison are allowed to transfer.

*Note: Based on approval, a total of 9 credits of prior coursework may transfer.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

The student will be paired with a faculty advisor when they enter the program, based on the area of interest they indicate in their application for admission. The student may later change their advisor. By the beginning of the second semester of their first year, the student must form a three-person faculty advisory committee consisting of the advisor and two other faculty members.

Refer to the Graduate School: Committees (Doctoral/Master's/MFA) (https://policy.wisc.edu/library/UW-1201/) policy.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## L&S POLICY FOR GRADUATE STUDENT ACADEMIC APPEALS

Graduate students have the right to appeal an academic decision related to an L&S graduate program if the student believes that the decision is inconsistent with published policy.

Academic decisions that may be appealed include:

- Dismissal from the graduate program
- Failure to pass a qualifying or preliminary examination
- Failure to achieve satisfactory academic progress
- Academic disciplinary action related to failure to meet professional conduct standards

Issues such as the following cannot be appealed using this process:

- A faculty member declining to serve as a graduate student's advisor.
- Decisions regarding the student's disciplinary knowledge, evaluation of the quality of work, or similar judgements. These are the domain of the department faculty.
- Course grades. These can be appealed instead using the L&S Policy for Grade Appeal (https://kb.wisc.edu/ls/22258/).
- Incidents of bias or hate, hostile and intimidating behavior (https://hr.wisc.edu/hib/), or discrimination (Title IX (https://compliance.wisc.edu/titleix/), Office of Compliance (https://compliance.wisc.edu/eo-complaint/formal-investigations/)). Direct these to the linked campus offices appropriate for the incident(s).

### Appeal Process for Graduate Students

A graduate student wishing to appeal an academic decision must follow the process in the order listed below. Note time limits within each step.

1. The student should first seek informal resolution, if possible, by discussing the concern with their academic advisor, the department's Director of Graduate Studies, and/or the department chair.
2. If the program has an appeal policy listed in their graduate program handbook, the student should follow the policy as written, including adhering to any indicated deadlines. In the absence of a specific departmental process, the chair or designee will be the reviewer and decision maker, and the student should submit a written appeal to the chair within 15 business days of the academic decision. The chair or designee will notify the student in writing of their decision.
3. If the departmental process upholds the original decision, the graduate student may next initiate an appeal to L&S. To do so, the student must submit a written appeal to the L&S Assistant Dean for Graduate Student Academic Affairs within 15 business days of notification of the department's decision.
   a. To the fullest extent possible, the written appeal should include, in a single document: a clear and concise statement of the academic decision being appealed, any relevant background on what led to the decision, the specific policies involved, the relief sought, any relevant documentation related to the departmental appeal, and the names and titles of any individuals contributing to or involved in the decision.
   b. The Assistant Dean will work with the Academic Associate Dean of the appropriate division to consider the appeal. They may seek additional information and/or meetings related to the case.
   c. The Assistant Dean and Academic Associate Dean will provide a written decision within 20 business days.
4. If L&S upholds the original decision, the graduate student may appeal to the Graduate School. More information can be found on their website: Grievances and Appeals (https://grad.wisc.edu/documents/grievances-and-appeals/) (see: Graduate School Appeal Process).

# PROFESSIONAL DEVELOPMENT

## PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Demonstrate a broad understanding of major theories, methods, and scholarship in gender and women's studies.
2. Develop significant research questions that will advance the contributions of GWS scholarship to society; create individualized research programs that match their specific interests and goals, and that harness the tools from their concentration.
3. Acquire the analytical tools to apply gender and women's studies in a range of academic and non-academic careers.
4. Demonstrate ethical and professional conduct in research and teaching and with colleagues.

# GENETICS

## DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

# DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/ PROFESSIONAL CERTIFICATES

- Genetics, MS (p. 923)
- Genetics, PhD (p. 926)

# GENETICS, MS

Graduate training in genetics emphasizes study and research leading to a PhD degree in genetics. A master's degree in medical genetics with specialized training in genetic counseling is also available. For more information on a master's degree in genetic counseling, see Genetic Counseling (https://guide.wisc.edu/medicine/medicine-public-health-school-wide/genetic-counselor-studies-mgcs/).

# LABORATORY OF GENETICS

The Laboratory of Genetics is the oldest and one of the finest centers of genetics in the nation. It is highly regarded for its research contributions in the areas of disease genetics (https://genetics.wisc.edu/disease-biology/), cell biology (https://genetics.wisc.edu/cell-biology/), neurogenetics (https://genetics.wisc.edu/neuro-and-behavioral-genetics/), developmental genetics (https://genetics.wisc.edu/development/), gene expression (https://genetics.wisc.edu/gene-expression/), genomics (https://genetics.wisc.edu/genomics-and-proteomics/), evolutionary and population genetics (https://genetics.wisc.edu/evolutionary-and-population-genetics/), and computational biology (https://genetics.wisc.edu/computational-systems-and-synthetic-biology/). The laboratory consists of two departments: Genetics, in the College of Agricultural and Life Sciences; and Medical Genetics, in the School of Medicine and Public Health. Although administratively distinct, these two departments function as one at both the faculty and student levels.

## ADMISSIONS

# ADMISSIONS

This MS is offered for work leading to the PhD. Students may not apply directly for the master's, and should instead see the admissions information for the PhD (p. 926).

A master's degree in medical genetics with specialized training in genetic counseling is also available. For more information on Genetic Counselor Studies MGCS, see Genetic Counselor Studies (https://guide.wisc.edu/medicine/medicine-public-health-school-wide/genetic-counselor-studies-mgcs/).

| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 32 credits |
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 16 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | n/a |
| Assessments and Examinations | At the end of their coursework, student's complete an oral thesis proposal defense examination (prelim) that judges their broad knowledge in genetics, their knowledge of their chosen research area, and their ability to synthesize knowledge to design rigorous research approaches. This prelim should be completed by August 31 of the student's second year in the program. |
| Language Requirements | No language requirement. |

## REQUIRED COURSES

Students may earn an MS in Genetics on the way to the PhD in Genetics (p. 926) under certain circumstances. Contact the Genetics graduate program manager for more information.

| Code | Title | Credits |
|---|---|---|
| **Core** | | |
| GENETICS 701 | Advanced Genetics | 2 |
| GENETICS 702 | Advanced Genetics II | 3 |
| GENETICS 707 | Frontiers in Genetics Research | 1 |
| GENETICS 708 | Methods and Logic in Genetic Analysis | 3 |
| GENETICS 805 | Professional Development and Responsible Conduct of Genetics Research | 1 |
| GENETICS 807 | Quantitative Research and Rigor in Genetics | 2 |
| GENETICS 808 | From Genes to Grants: Writing Winning Research Proposals in Genetics | 2 |
| **Elective** | | |
| Complete one (1) GENETICS course with the "Grad 50%" designation for a minimum of two (2) credits. This may include special topics courses. Students wishing to take a course outside of the GENETICS subject offerings may petition the Graduate Program Committee. | | 2-4 |
| **Additional Coursework** | | |
| To meet the 32-credit requirement, students must complete additional coursework from the following. | | 11-16 |
| *Research* | | |
| Research (990) credits may be applied towards degree requirements. Students will register for research credits in the home department of their faculty advisor. | | |
| GENETICS 990 | Research | |
| *Specialized Electives* | | |
| GENETICS 705 is required for students funded through a training grant, and optional for other students in their first year. | | |
| Students may also need to complete specialized elective coursework at the discretion of their thesis committee. | | |
| **Total Credits** | | **32** |

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

For well-prepared advanced students, the program may accept prior graduate coursework from other institutions toward the minimum credit requirement and minimum graduate coursework (50%) requirement. The minimum graduate residence credit requirement can be satisfied only with courses taken as a graduate student at UW–Madison. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Every graduate student is required to have an advisor. To ensure that students are making satisfactory progress toward a degree, the Graduate School expects them to meet with their advisor on a regular basis.

An advisor generally serves as the thesis advisor. In many cases, an advisor is assigned to incoming students. Students can be suspended from the Graduate School if they do not have an advisor. An advisor is a faculty member, or sometimes a committee, from the major department responsible for providing advice regarding graduate studies.

A committee often accomplishes advising for the students in the early stages of their studies.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

### College of Agricultural and Life Sciences: Grievance Policy

In the College of Agricultural and Life Sciences (CALS), any student who feels unfairly treated by a member of the CALS faculty or staff has the right to complain about the treatment and to receive a prompt hearing. Some complaints may arise from misunderstandings or communication breakdowns and be easily resolved; others may require formal action. Complaints may concern any matter of perceived unfairness.

To ensure a prompt and fair hearing of any complaint, and to protect the rights of both the person complaining and the person at whom the complaint is directed, the following procedures are used in the College of Agricultural and Life Sciences. Any student, undergraduate or graduate, may use these procedures, except employees whose complaints are covered under other campus policies.

1. The student should first talk with the person at whom the complaint is directed. Most issues can be settled at this level. Others may be resolved by established departmental procedures.
2. If the student is unsatisfied, and the complaint involves any unit outside CALS, the student should seek the advice of the dean or director of that unit to determine how to proceed.
   a. If the complaint involves an academic department in CALS the student should proceed in accordance with item 3 below.
   b. If the grievance involves a unit in CALS that is not an academic department, the student should proceed in accordance with item 4 below.
3. The student should contact the department's grievance advisor within 120 calendar days of the alleged unfair treatment. The departmental administrator can provide this person's name. The grievance advisor will attempt to resolve the problem informally within 10 working days of receiving the complaint, in discussions with the student and the person at whom the complaint is directed.
   a. If informal mediation fails, the student can submit the grievance in writing to the grievance advisor within 10 working days of the date the student is informed of the failure of the mediation attempt by the grievance advisor. The grievance advisor will provide a copy to the person at whom the grievance is directed.
   b. The grievance advisor will refer the complaint to a department committee that will obtain a written response from the person at whom the complaint is directed, providing a copy to the student. Either party may request a hearing before the committee. The grievance advisor will provide both parties a written decision within 20 working days from the date of receipt of the written complaint.
   c. If the grievance involves the department chairperson, the grievance advisor or a member of the grievance committee, these persons may not participate in the review.
   d. If not satisfied with departmental action, either party has 10 working days from the date of notification of the departmental committee action to file a written appeal to the CALS Equity and Diversity Committee. A subcommittee of this committee will make a preliminary judgement as to whether the case merits further investigation and review. If the subcommittee unanimously determines that the case does not merit further investigation and review, its decision is final. If one or more members of the subcommittee determine that the case does merit further investigation and review, the subcommittee will investigate and

seek to resolve the dispute through mediation. If this mediation attempt fails, the subcommittee will bring the case to the full committee. The committee may seek additional information from the parties or hold a hearing. The committee will present a written recommendation to the dean who will provide a final decision within 20 working days of receipt of the committee recommendation.

4. If the alleged unfair treatment occurs in a CALS unit that is not an academic department, the student should, within 120 calendar days of the alleged incident, take his/her grievance directly to the Associate Dean of Academic Affairs. The dean will attempt to resolve the problem informally within 10 working days of receiving the complaint. If this mediation attempt does not succeed the student may file a written complaint with the dean who will refer it to the CALS Equity and Diversity Committee. The committee will seek a written response from the person at whom the complaint is directed, subsequently following other steps delineated in item 3d above.

n/a

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Display a broad understanding of classical and modern genetic and genomic principles that underlie all biological processes.
2. Articulate research problems, potentials, limits, and strategies to advance the field of genetics and genomics.
3. Conduct rigorous scientific research that advances the field of genetics and/or applies genetic research approaches in multidisciplinary frameworks to address fundamental questions in biology.
4. Apply knowledge from various disciplines through multidisciplinary coursework, collaborative projects, and research activities.
5. Advance contributions of genetics and genomics research to society through publications, presentations, teaching, mentoring and outreach.
6. Develop transferable skills in critical thinking, problem solving, leadership, mentorship and written and oral communication to diverse audiences, including scientists, graduate and undergraduate students, and the wider community.
7. Exhibit and foster conduct that is professional, ethical, collaborative, and inclusive.
8. Formulate strategies to explore diverse career paths and achieve individual professional development goals for students who have completed an advanced degree in genetics.

# GENETICS, PHD

Graduate training in genetics emphasizes study and research leading to a PhD degree in genetics.

The goal of the genetics graduate training program is to train the next generation of professional geneticists. This includes selecting the most promising university graduates for admission to the program and training those students in the methods and logic of genetic analysis. Such analyses are increasingly important in contemporary biological and biomedical research. The curriculum includes:

1. Coursework on the principles of genetics and on the methods of genetic and genomic analyses, and
2. Original research in a specialized area, which culminates in the writing and defense of a doctoral thesis.

The strength of genetics research at Wisconsin derives in large part from the Laboratory of Genetics, but state-of-the-art genetics research is conducted in many campus departments and centers. Mentoring faculty of the genetics PhD program includes over 80 mentors selected from 22 campus departments and schools based on the strength of their scholarly genetics research. A key feature of the mentors is that they conduct genetic research, using any number of tools, and can therefore provide students with a solid foundation of genetic knowledge and experiences. The genetics research pursued on campus provides an exceptional community.

Genetics PhD students choose one of the mentoring faculty as the graduate thesis advisor and mentor. Genetics graduate students spend time during the first semester of graduate school rotating in the laboratories of three or four faculty mentors, selected by the student. Following rotations, a graduate thesis advisor is chosen by mutual consent of both student and mentor. Students are expected to acquire a broad and fundamental knowledge of genetics during their coursework, after which they conduct independent scholarly research based on individual interests and under the guidance and mentoring of the thesis advisor. Formal coursework requirements are modest, and independent study that includes original research is of paramount importance in the program. Students choose an individualized thesis advisory committee that approves formal coursework and provides scientific and career development advice throughout a student's graduate career.

# LABORATORY OF GENETICS

The Laboratory of Genetics is the oldest and one of the finest centers of genetics in the nation. It is highly regarded for its research contributions in the areas of disease genetics (https://genetics.wisc.edu/disease-biology/), cell biology (https://genetics.wisc.edu/cell-biology/), neurogenetics (https://genetics.wisc.edu/neuro-and-behavioral-genetics/), developmental genetics (https://genetics.wisc.edu/development/), gene expression (https://genetics.wisc.edu/gene-expression/), genomics (https://genetics.wisc.edu/genomics-and-proteomics/), evolutionary and population genetics (https://genetics.wisc.edu/evolutionary-and-population-genetics/), and computational biology (https://genetics.wisc.edu/computational-systems-and-synthetic-biology/). The laboratory consists of two departments: Genetics, in the College of Agricultural and Life Sciences; and Medical Genetics, in the School of Medicine and Public Health. Although administratively distinct, these two departments function as one at both the faculty and student levels.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 1 |
| Spring Deadline | The program does not admit in the spring. |
| Summer Deadline | The program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required but may be considered if available. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | The GRE Biology or related subject test is not required, but applicants may provide scores if available. |
| Letters of Recommendation Required | 3 |

Applicants in genetics choose to attend UW-Madison because of their commitment to the discipline of genetics and because of Wisconsin's strength in that area. For admission to graduate study in genetics, the applicant should have earned a grade point average of 3.0 or better and completed a BS or BA degree from an accredited college or university. There are no specific requirements in supporting fields, but applicants are encouraged to acquire adequate background in mathematics, physics, and biology. There is no formal language requirement for the PhD in genetics. Undergraduate research experience is also strongly recommended in order to be competitive.

Admission to the genetics PhD program is highly competitive. A committee of the Laboratory of Genetics reviews applications each fall, invites meritorious applicants for personal interviews each January and February, and accepts approximately 15 percent of the total applications received. An application for admission consists of:

1. resume,
2. personal statement that discusses the reasons for pursuing a genetics PhD,
3. transcript of undergraduate college or university coursework,
4. three or more letters of recommendation,
5. report, if appropriate, of scores received on English proficiency exams, and
6. any other information or documentation that would help the admissions committee evaluate an applicant's potential for success in graduate study.

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

Genetics PhD students making satisfactory academic progress are funded through research assistantships, fellowships and traineeships, and teaching assistantships. Funding includes a stipend, health care benefits, and tuition costs. Prospective students should see the program website (https://genetics.wisc.edu/prospective-ph-d-students-2-2-2/) for funding information. The Genetics PhD Program is supported by an NIH T32 Institutional National Research Service Award.

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

For well-prepared advanced students, the program may accept prior graduate coursework from other institutions toward the minimum credit requirement and minimum graduate coursework (50%) requirement. The minimum graduate residence credit requirement can be satisfied only with courses taken as a graduate student at UW–Madison. Coursework earned ten or more years prior to admission to a doctoral degree is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

When students have identified a major professor and joined their lab, that professor will assume the duties of their advisor. At that time students will form a PhD Advisory Committee consisting of three to five faculty members (ultimately it must be five) three of whom must be Genetics trainers, including two members of the Laboratory of Genetics faculty, and one minor advisor, if needed. One member must also be from a different department (all 5 cannot be Genetics faculty members). The PhD Advisory Committee should be established no later than the end of the second semester. Under normal circumstances, the committee membership will remain in effect for the entire tenure of the student's graduate career.

The PhD Advisory Committee will advise the student with regard to major and minor requirements. It will also act as their Prelim Examination Committee and as the Final Oral PhD Examination Committee. After the advisor, this committee is the primary monitoring instrument to assure satisfactory progress toward degree. The PhD Advisory Committee will meet with the student at least once per year. During these annual meetings anticipated timelines for progress of the thesis project will be discussed and concrete guidance will be given about completing the thesis. The student will complete an annual committee meeting form each year during the meeting. The annual meeting will address the assessment of the student's progress and outline any suggestions or recommendations, in addition to verifying the discussion of the student's Individualized Development Plan (https://grad.wisc.edu/pd/idp/).

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

### College of Agricultural and Life Sciences: Grievance Policy

In the College of Agricultural and Life Sciences (CALS), any student who feels unfairly treated by a member of the CALS faculty or staff has the right to complain about the treatment and to receive a prompt hearing. Some complaints may arise from misunderstandings or communication breakdowns and be easily resolved; others may require formal action. Complaints may concern any matter of perceived unfairness.

To ensure a prompt and fair hearing of any complaint, and to protect the rights of both the person complaining and the person at whom the complaint is directed, the following procedures are used in the College of Agricultural and Life Sciences. Any student, undergraduate or graduate, may use these procedures, except employees whose complaints are covered under other campus policies.

1. The student should first talk with the person at whom the complaint is directed. Most issues can be settled at this level. Others may be resolved by established departmental procedures.
2. If the student is unsatisfied, and the complaint involves any unit outside CALS, the student should seek the advice of the dean or director of that unit to determine how to proceed.
   a. If the complaint involves an academic department in CALS the student should proceed in accordance with item 3 below.
   b. If the grievance involves a unit in CALS that is not an academic department, the student should proceed in accordance with item 4 below.
3. The student should contact the department's grievance advisor within 120 calendar days of the alleged unfair treatment. The departmental administrator can provide this person's name. The grievance advisor will attempt to resolve the problem informally within 10 working days of receiving the complaint, in discussions with the student and the person at whom the complaint is directed.
   a. If informal mediation fails, the student can submit the grievance in writing to the grievance advisor within 10 working days of the date the student is informed of the failure of the mediation attempt by

the grievance advisor. The grievance advisor will provide a copy to the person at whom the grievance is directed.

b. The grievance advisor will refer the complaint to a department committee that will obtain a written response from the person at whom the complaint is directed, providing a copy to the student. Either party may request a hearing before the committee. The grievance advisor will provide both parties a written decision within 20 working days from the date of receipt of the written complaint.

c. If the grievance involves the department chairperson, the grievance advisor or a member of the grievance committee, these persons may not participate in the review.

d. If not satisfied with departmental action, either party has 10 working days from the date of notification of the departmental committee action to file a written appeal to the CALS Equity and Diversity Committee. A subcommittee of this committee will make a preliminary judgement as to whether the case merits further investigation and review. If the subcommittee unanimously determines that the case does not merit further investigation and review, its decision is final. If one or more members of the subcommittee determine that the case does merit further investigation and review, the subcommittee will investigate and seek to resolve the dispute through mediation. If this mediation attempt fails, the subcommittee will bring the case to the full committee. The committee may seek additional information from the parties or hold a hearing. The committee will present a written recommendation to the dean who will provide a final decision within 20 working days of receipt of the committee recommendation.

4. If the alleged unfair treatment occurs in a CALS unit that is not an academic department, the student should, within 120 calendar days of the alleged incident, take his/her grievance directly to the Associate Dean of Academic Affairs. The dean will attempt to resolve the problem informally within 10 working days of receiving the complaint. If this mediation attempt does not succeed the student may file a written complaint with the dean who will refer it to the CALS Equity and Diversity Committee. The committee will seek a written response from the person at whom the complaint is directed, subsequently following other steps delineated in item 3d above.

3. Conduct rigorous scientific research that advances the field of genetics and/or applies genetic research approaches in multidisciplinary frameworks to address fundamental questions in biology.
4. Apply knowledge from various disciplines through multidisciplinary coursework, collaborative projects, and research activities.
5. Advance contributions of genetics and genomics research to society through publications, presentations, teaching mentoring and outreach.
6. Develop transferable skills in critical thinking, problem solving, leadership, mentorship and written and oral communication to diverse audiences, including scientists, graduate and undergraduate students, and the wider community.
7. Exhibit and foster conduct that is professional, ethical, collaborative, and inclusive.
8. Formulate strategies to explore diverse career paths and achieve individual professional development goals for students who have completed an advanced degree in genetics.

# GEOGRAPHY

## DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

# DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/ PROFESSIONAL CERTIFICATES

- Cartography and Geographic Information Systems, Doctoral Minor (p. 930)
- Cartography and Geographic Information Systems, MS (p. 931)
- Geography, Doctoral Minor (p. 942)
- Geography, MS (p. 942)
- Geography, PhD (p. 946)

# CARTOGRAPHY AND GEOGRAPHIC INFORMATION SYSTEMS, DOCTORAL MINOR

Geographic information science (GIScience) addresses the fundamental issues surrounding the use of computer technology to help people work with geographic information. GIScience is a field devoted to the acquisition, representation, management, analysis, and visualization of geospatial data. It is a relatively new discipline that incorporates geography, cartography, spatial analysis, computer science and other related fields, including geodesy, cognition, statistics, and mathematics. As an academic discipline, GIScience is concerned with both theoretical and applied issues relating to the creation, analysis, and visualization of spatiotemporal information. It is inherently interdisciplinary in both its methods and applications. Here at UW–Madison, we are committed to the integration of GIScience with substantive geographic questions.

## ADMISSIONS

# ADMISSIONS

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any doctoral minor. To apply to this minor, log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. Select the information for the doctoral minor for which you are applying.

For more information, contact the Graduate Program Director.

## REQUIREMENTS

# REQUIREMENTS

All students pursuing a concentrated minor in Cartography and Geographic Information Systems are required to connect with a faculty member with whom they can work to establish a reasonable course list to complete 9 credits in the department (https://guide.wisc.edu/courses/geog/). That faculty member will, ultimately, be responsible for signing off on completion of the minor. Students interested in the Cartography and Geographic Information Systems minor are encouraged to explore the department's faculty pages (https://geography.wisc.edu/people/faculty/) and contact one or more faculty with shared research interests.

# CARTOGRAPHY AND GEOGRAPHIC INFORMATION SYSTEMS, MS

The Department of Geography offers a thesis-based master of science in Cartography and Geographic Information Systems, titled Thesis (p. 938). In addition, it offers two professional non-thesis options in the Cartography and Geographic Information Systems MS titled: GIS Development (p. 935) (online program) and Accelerated/ Non-Thesis (p. 932) (in-residence program).

Information about facilities, supporting faculty and staff, and program requirements for all graduate programs in the department can be found in the Geography (p. 930) listing in this catalog.

The MS (Thesis) in Cartography and Geographic Information Systems provides a broad foundation in the theory and application of mapping and geographic information sciences. Students who earn the MS (Thesis) degree are prepared to continue on for the PhD in geography or for positions in government agencies, planning organizations, environmental agencies, nongovernmental organizations, and private industry.

## ADMISSIONS

# ADMISSIONS

Students apply to the Master of Science in Cartography and Geographic Information Systems through one of the named options:

- Accelerated/Non-Thesis, MS (p. 932)
- GIS Development, MS (p. 935) (suspended summer 2025, discontinued fall 2027)
- Thesis (p. 938), MS (p. 938)

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

See "How Does Funding Work?" at the Geography Master's FAQ (https://geography.wisc.edu/graduate/graduate-programs-faq/).

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 15 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | n/a |
| Assessments and Examinations | See Named Options for information. |
| Language Requirements | No language requirement. |

### REQUIRED COURSES

Select a Named Option (https://guide.wisc.edu/graduate/geography/cartography-geographic-information-systems-ms/#NamedOptions) for courses required.

## NAMED OPTIONS

A named option is a formally documented sub-major within an academic major program. Named options appear on the transcript with degree conferral. Students pursuing the Master of Science in Cartography and Geographic Information Systems must select one of the following named options:

View as listView as grid

- **CARTOGRAPHY AND GEOGRAPHIC INFORMATION SYSTEMS: ACCELERATED/NON-THESIS, MS (P. 932)**
- **CARTOGRAPHY AND GEOGRAPHIC INFORMATION SYSTEMS: GIS DEVELOPMENT, MS (P. 935)**
- **CARTOGRAPHY AND GEOGRAPHIC INFORMATION SYSTEMS: THESIS, MS (P. 938)**

## POLICIES

## POLICIES

Students should refer to one of the named options for policy information:

- Accelerated/Non-Thesis, MS (p. 932)
- GIS Development, MS (p. 935) (suspended summer 2025, discontinued fall 2027)
- Thesis (p. 938), MS (p. 938)

## PROFESSIONAL DEVELOPMENT

## PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

## LEARNING OUTCOMES

1. Articulates, critiques, or elaborates the concepts, theories, methods, and/or approaches to design and inquiry in Cartography and GIScience.
2. Identifies sources, assembles evidence, and/or builds justification for addressing questions or challenges in Cartography and GIScience.
3. Demonstrates understanding of Cartography and GIScience in a historical, social, global, and/or technological context.
4. Selects and/or utilizes the most appropriate methods, technological solutions, and practices to address challenges in Cartography and GIScience.
5. Analyzes, synthesizes, and evaluates information pertaining to questions or challenges in Cartography and GIScience for addressing broad questions in Geography and related fields.
6. Communicates clearly in written, verbal, and visual ways appropriate to Cartography and GIScience.
7. Demonstrates state-of-the-art technical skills in Cartography and GIScience.
8. Recognizes and applies principles of ethical and professional conduct expected in Cartography and GIScience.

# CARTOGRAPHY AND GEOGRAPHIC INFORMATION SYSTEMS: ACCELERATED/NON-THESIS, MS

This is a named option within the Cartography/GIS MS (p. 931).

This accelerated master's program provides a broad foundation in the theory and application of mapping and geographic information sciences. Graduates of this program will be well prepared for positions as GIS analysts in government agencies, planning organizations, environmental agencies, nongovernmental organizations, and private industry. Completion of this accelerated program does not include a thesis. Learn more. (https://geography.wisc.edu/gis/accelerated-non-thesis-masters-in-cartography-gis/)

## ADMISSIONS

## ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements (https://grad.wisc.edu/apply/requirements/) *of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | April 1 for international applicants; June 1 for domestic applicants |
| Spring Deadline | August 1 for international applicants; October 1 for domestic applicants |
| Summer Deadline | The program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |

| | |
|---|---|
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 2 |

Academic program admission requirements are often more rigorous than those set by the Graduate School. Please check the program's website (https://geography.wisc.edu/gis/accelerated-non-thesis-masters-in-cartography-gis-application-information/) for details on how to apply.

This program accepts applications for the fall and spring semesters.

For admission into the Cartography and GIS Accelerated/non-thesis Master's degree program, applicants should have a GPA of 3.0 or above, and should have completed one undergraduate course in statistical methods. Applicants that do not meet the GPA and course requirement may still be admitted and should reach out to the program manager to discuss options. The application requires a resume, unofficial transcripts, contact information for two professional or academic references, a statement of interest, and proof of English proficiency (international students only). The Graduate School Application is completed online by selecting the following program and paying the application fee: Cartography & Geographic Information Systems MS – Accelerated/Non-Thesis.

# NAMED OPTION REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | Yes |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 15 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | n/a |
| Assessments and Examinations | No formal examination is required. |
| Language Requirements | No language requirement. |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Core** | | |
| GEOG 370 | Introduction to Cartography | 4 |
| GEOG/CIV ENGR/ ENVIR ST 377 | An Introduction to Geographic Information Systems | 4 |
| GEOG 378 | Introduction to Geocomputing | 4 |

| | | |
|---|---|---|
| GEOG 778 | Practicum in GIS Development | 4 |
| **Electives** | | |
| Choose four of the following: | | 14-16 |
| GEOG 560 | Advanced Quantitative Methods | |
| GEOG 572 | Graphic Design in Cartography | |
| GEOG 573 | Advanced Geocomputing and Geospatial Big Data Analytics | |
| GEOG 574 | Geospatial Database Design and Development | |
| GEOG 575 | Interactive Cartography & Geovisualization | |
| GEOG 576 | Geospatial Web and Mobile Programming | |
| GEOG 578 | GIS Applications | |
| GEOG 579 | GIS and Spatial Analysis | |
| GEOG 675 | Special Topics in Geography | |
| **Total Credits** | | **30** |

Students in this program may not take courses outside the prescribed curriculum without faculty advisor and program director approval. Students in this program cannot enroll concurrently in other undergraduate or graduate degree programs.

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# NAMED OPTION-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program approval, students are allowed to transfer no more than 7 credits of graduate coursework from other institutions. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

With program approval, students are allowed to transfer no more than 7 credits of undergraduate graduate coursework from other institutions or UW-Madison. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

With program approval, students are allowed to transfer no more than 14 credits of graduate coursework as defined above taken as a University Special student. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

## PROBATION

The Department of Geography expects graduate students to progress through a sequence of benchmarks within prescribed time periods. These benchmarks constitute a reasonable rate of accomplishment for full-time students holding teaching or research appointments. The department recognizes that individual circumstances vary, and not all students progressing toward their academic goals will hit the benchmarks exactly. Thus a student's progress is considered unsatisfactory only after a period of time elapses following an unmet benchmark. A student not making satisfactory progress is placed on probation. For detailed information about these benchmarks and triggers for probationary status, please see the department's Criteria for Satisfactory Progress.

## ADVISOR / COMMITTEE

All students are required to conduct a progress report each semester with the program director or manager. Failure to do so will result in a hold being place on the student's registration.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

For program-specific time limits, please see Probation Policy above.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)

- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## L&S POLICY FOR GRADUATE STUDENT ACADEMIC APPEALS

Graduate students have the right to appeal an academic decision related to an L&S graduate program if the student believes that the decision is inconsistent with published policy.

Academic decisions that may be appealed include:

- Dismissal from the graduate program
- Failure to pass a qualifying or preliminary examination
- Failure to achieve satisfactory academic progress
- Academic disciplinary action related to failure to meet professional conduct standards

Issues such as the following cannot be appealed using this process:

- A faculty member declining to serve as a graduate student's advisor.
- Decisions regarding the student's disciplinary knowledge, evaluation of the quality of work, or similar judgements. These are the domain of the department faculty.
- Course grades. These can be appealed instead using the L&S Policy for Grade Appeal (https://kb.wisc.edu/ls/22258/).
- Incidents of bias or hate, hostile and intimidating behavior (https://hr.wisc.edu/hib/), or discrimination (Title IX (https://compliance.wisc.edu/titleix/), Office of Compliance (https://compliance.wisc.edu/eo-complaint/formal-investigations/)). Direct these to the linked campus offices appropriate for the incident(s).

### Appeal Process for Graduate Students

A graduate student wishing to appeal an academic decision must follow the process in the order listed below. Note time limits within each step.

1. The student should first seek informal resolution, if possible, by discussing the concern with their academic advisor, the department's Director of Graduate Studies, and/or the department chair.
2. If the program has an appeal policy listed in their graduate program handbook, the student should follow the policy as written, including adhering to any indicated deadlines. In the absence of a specific departmental process, the chair or designee will be the reviewer and decision maker, and the student should submit a written appeal to the chair within 15 business days of the academic decision. The chair or designee will notify the student in writing of their decision.
3. If the departmental process upholds the original decision, the graduate student may next initiate an appeal to L&S. To do so, the student must submit a written appeal to the L&S Assistant Dean for Graduate Student Academic Affairs within 15 business days of notification of the department's decision.
   a. To the fullest extent possible, the written appeal should include, in a single document: a clear and concise statement of the academic decision being appealed, any relevant background on what led to the decision, the specific policies involved, the relief sought, any relevant documentation related to the departmental appeal, and the names and titles of any individuals contributing to or involved in the decision.
   b. The Assistant Dean will work with the Academic Associate Dean of the appropriate division to consider the appeal. They may seek additional information and/or meetings related to the case.
   c. The Assistant Dean and Academic Associate Dean will provide a written decision within 20 business days.
4. If L&S upholds the original decision, the graduate student may appeal to the Graduate School. More information can be found on their website: Grievances and Appeals (https://grad.wisc.edu/documents/grievances-and-appeals/) (see: Graduate School Appeal Process).

## L&S POLICY FOR GRADUATE STUDENT ACADEMIC APPEALS

Graduate students have the right to appeal an academic decision related to an L&S graduate program if the student believes that the decision is inconsistent with published policy.

Academic decisions that may be appealed include:

- Dismissal from the graduate program
- Failure to pass a qualifying or preliminary examination
- Failure to achieve satisfactory academic progress
- Academic disciplinary action related to failure to meet professional conduct standards

Issues such as the following cannot be appealed using this process:

- A faculty member declining to serve as a graduate student's advisor.
- Decisions regarding the student's disciplinary knowledge, evaluation of the quality of work, or similar judgements. These are the domain of the department faculty.
- Course grades. These can be appealed instead using the L&S Policy for Grade Appeal (https://kb.wisc.edu/ls/22258/).
- Incidents of bias or hate, hostile and intimidating behavior (https://hr.wisc.edu/hib/), or discrimination (Title IX (https://compliance.wisc.edu/titleix/), Office of Compliance (https://compliance.wisc.edu/eo-complaint/formal-investigations/)). Direct these to the linked campus offices appropriate for the incident(s).

### Appeal Process for Graduate Students

A graduate student wishing to appeal an academic decision must follow the process in the order listed below. Note time limits within each step.

1. The student should first seek informal resolution, if possible, by discussing the concern with their academic advisor, the department's Director of Graduate Studies, and/or the department chair.
2. If the program has an appeal policy listed in their graduate program handbook, the student should follow the policy as written, including adhering to any indicated deadlines. In the absence of a specific departmental process, the chair or designee will be the reviewer and decision maker, and the student should submit a written appeal to the chair within 15 business days of the academic decision. The chair or designee will notify the student in writing of their decision.
3. If the departmental process upholds the original decision, the graduate student may next initiate an appeal to L&S. To do so, the student must submit a written appeal to the L&S Assistant Dean for Graduate Student Academic Affairs within 15 business days of notification of the department's decision.
    a. To the fullest extent possible, the written appeal should include, in a single document: a clear and concise statement of the academic decision being appealed, any relevant background on what led to the decision, the specific policies involved, the relief sought, any relevant documentation related to the departmental appeal, and the names and titles of any individuals contributing to or involved in the decision.
    b. The Assistant Dean will work with the Academic Associate Dean of the appropriate division to consider the appeal. They may seek additional information and/or meetings related to the case.
    c. The Assistant Dean and Academic Associate Dean will provide a written decision within 20 business days.
4. If L&S upholds the original decision, the graduate student may appeal to the Graduate School. More information can be found on their website: Grievances and Appeals (https://grad.wisc.edu/documents/grievances-and-appeals/) (see: Graduate School Appeal Process).

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

# CARTOGRAPHY AND GEOGRAPHIC INFORMATION SYSTEMS: THESIS, MS

This is a named option within the Cartographic and Geographic Information Systems MS (p. 931).

The Department of Geography offers a thesis-based master of science in Cartography and Geographic Information Systems, titled Thesis (p. 938). In addition, it offers two professional non-thesis options in the Cartography and Geographic Information Systems MS titled: GIS Development (p. 935) (online program) and Accelerated/ Non-Thesis (p. 932) (in-residence program).

Information about facilities, supporting faculty and staff, and program requirements for all graduate programs in the department can be found in the Geography (p. 930) listing in this catalog.

The MS (Thesis) in Cartography and Geographic Information Systems provides a broad foundation in the theory and application of mapping and geographic information sciences. Students who earn the MS (Thesis) degree are prepared to continue on for the PhD in geography or for positions in government agencies, planning organizations, environmental agencies, nongovernmental organizations, and private industry.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 15 |
| Spring Deadline | The program does not admit in the spring. |
| Summer Deadline | The program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

## BREADTH REQUIREMENTS

This program requires students to have taken coursework in several areas of Cartography to show breadth of knowledge in the field. Most admitted applicants have completed the coursework for the breadth requirements prior to entering the program. Applicants must have completed the equivalent of one undergraduate-level course in quantitative methods, two courses in mathematics or statistics, and two intermediate or advanced geography courses. Admitted applicants who begin the program lacking one or more of the breadth courses are expected to complete such coursework during the master's program. Courses taken for breadth can also be used to fulfill degree requirements.

## GRADUATE SCHOOL APPLICATION

If your primary sub-area specialization is Earth Systems Geography, Human Geography or People/Environment Geography, you will need to apply to the Geography MS.

Refer to the following links:

- Consult the Graduate School Admissions website (https://grad.wisc.edu/apply/) for information about applying to the UW-Madison Graduate School, including general admissions requirements (https://grad.wisc.edu/apply/requirements/).
- Consult the Geography Department website (https://geography.wisc.edu/research-graduate-programs/prospective-graduate-students/) for additional information about the program and the application process.

### Materials

Upload the following to the online application:

- Three letters of recommendation (https://grad.wisc.edu/apply/#FAQ). Once you have entered the recommenders information in the application, each recommender will receive an electronic invitation to submit a letter through the application system. Be sure to contact each recommender ahead of time to let them know that they will be receiving a request for a letter of recommendation from the application system.
- Statement of purpose. For more information, check out our guidelines for writing a statement of purpose on our prospective student site (https://geography.wisc.edu/research-graduate-programs/prospective-graduate-students/#admissions-and-application-information).
- CV
- Unofficial transcripts
- International degree-seeking applicants will need to demonstrate English proficiency. See the Graduate School requirements (https://grad.wisc.edu/apply/requirements/) for specific information.
- The online application to the Cartography/GIS MS-Thesis program includes a "supplemental application" in which you are asked to identify faculty with whom you wish to work.
- Submit the online Graduate School Application for Admission (https://grad.wisc.edu/apply/) and pay the application fee.

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

See "How Does Funding Work?" at the Geography Master's FAQ (https://geography.wisc.edu/graduate/graduate-programs-faq/).

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# NAMED OPTION REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 15 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required.<br>Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | n/a |
| Assessments and Examinations | A formal thesis is required. |
| Language Requirements | No language requirement. |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Core** | | |
| GEOG 765 & GEOG 766 | Geographical Inquiry and Analysis: An Introduction and Geographical Inquiry and Analysis: Techniques | 4 |
| GEOG 370 | Introduction to Cartography | 4 |

| GEOG 576 | Geospatial Web and Mobile Programming | |
| GEOG 578 | GIS Applications | |
| GEOG 579 | GIS and Spatial Analysis | |
| **Additional Coursework** | | |
| Students take courses numbered 300 and up in consultation with their advisor to meet the 30 credit minimum. | | 4 |
| **Total Credits** | | **30** |

[1] GEOG 970 must be taken for 3 credits.

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# NAMED OPTION-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program approval, students are allowed to transfer no more than 6 credits of graduate coursework from other institutions. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

No credits from an undergraduate degree are allowed to transfer toward the degree.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

With program approval, students are allowed to transfer no more than 6 credits of graduate coursework as defined above taken as a University Special student. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

## PROBATION

The Department of Geography expects graduate students to progress through a sequence of benchmarks within prescribed time periods. These benchmarks constitute a reasonable rate of accomplishment for full-time students holding teaching or research appointments. The department recognizes that individual circumstances vary, and not all students progressing toward their academic goals will hit the benchmarks exactly. Thus, a student's progress is considered unsatisfactory only after a period of time elapses following an unmet benchmark. A student not making satisfactory progress is placed on probation. For detailed information about these benchmarks and triggers for probationary status, please see the department's Criteria for Satisfactory Progress (https://geography.wisc.edu/research-graduate-programs/current-graduate-students/).

## ADVISOR / COMMITTEE

The chair (or co-chair) of a master's student's committee is the student's advisor. This individual must be graduate faculty in Geography or affiliated with Geography. The committee must have at least three members, two of whom must be graduate faculty (or former graduate faculty up to one year after resignation/retirement). Two of the three members must be affiliated with the Geography Department. The third member may be a qualified individual from within or outside UW-Madison. Inclusion of committee members who are not UW-Madison graduate faculty must be approved by the student's advisor.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## L&S POLICY FOR GRADUATE STUDENT ACADEMIC APPEALS

Graduate students have the right to appeal an academic decision related to an L&S graduate program if the student believes that the decision is inconsistent with published policy.

Academic decisions that may be appealed include:

- Dismissal from the graduate program
- Failure to pass a qualifying or preliminary examination
- Failure to achieve satisfactory academic progress
- Academic disciplinary action related to failure to meet professional conduct standards

Issues such as the following cannot be appealed using this process:

- A faculty member declining to serve as a graduate student's advisor.
- Decisions regarding the student's disciplinary knowledge, evaluation of the quality of work, or similar judgements. These are the domain of the department faculty.
- Course grades. These can be appealed instead using the L&S Policy for Grade Appeal (https://kb.wisc.edu/ls/22258/).
- Incidents of bias or hate, hostile and intimidating behavior (https://hr.wisc.edu/hib/), or discrimination (Title IX (https://compliance.wisc.edu/titleix/), Office of Compliance (https://compliance.wisc.edu/eo-complaint/formal-investigations/)). Direct these to the linked campus offices appropriate for the incident(s).

### Appeal Process for Graduate Students

A graduate student wishing to appeal an academic decision must follow the process in the order listed below. Note time limits within each step.

1. The student should first seek informal resolution, if possible, by discussing the concern with their academic advisor, the department's Director of Graduate Studies, and/or the department chair.
2. If the program has an appeal policy listed in their graduate program handbook, the student should follow the policy as written, including adhering to any indicated deadlines. In the absence of a specific departmental process, the chair or designee will be the reviewer and

decision maker, and the student should submit a written appeal to the chair within 15 business days of the academic decision. The chair or designee will notify the student in writing of their decision.

3. If the departmental process upholds the original decision, the graduate student may next initiate an appeal to L&S. To do so, the student must submit a written appeal to the L&S Assistant Dean for Graduate Student Academic Affairs within 15 business days of notification of the department's decision.
   a. To the fullest extent possible, the written appeal should include, in a single document: a clear and concise statement of the academic decision being appealed, any relevant background on what led to the decision, the specific policies involved, the relief sought, any relevant documentation related to the departmental appeal, and the names and titles of any individuals contributing to or involved in the decision.
   b. The Assistant Dean will work with the Academic Associate Dean of the appropriate division to consider the appeal. They may seek additional information and/or meetings related to the case.
   c. The Assistant Dean and Academic Associate Dean will provide a written decision within 20 business days.
4. If L&S upholds the original decision, the graduate student may appeal to the Graduate School. More information can be found on their website: Grievances and Appeals (https://grad.wisc.edu/documents/grievances-and-appeals/) (see: Graduate School Appeal Process).

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

# GEOGRAPHY, DOCTORAL MINOR

Geography studies the interaction between people and their environments, including the ways in which the people, the environments, and the interactions all vary from place to place over the earth. Because it is concerned with the character of people and their cultures on the one hand, and with the character of the earth's surface and its resources on the other, geography is both a social and a natural science. The UW–Madison geography program is organized into four major thematic areas: physical geography and earth system science, people-environmental studies, cartography and GIS, and human geography. There is intentional overlap among the thematic areas and many of our faculty work across subfields (e.g., teach courses in both human and people-environment).

## ADMISSIONS

# ADMISSIONS

For more information, contact the Graduate Program Director.

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any doctoral minor. To apply to this minor, log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. Select the information for the doctoral minor for which you are applying.

## REQUIREMENTS

# REQUIREMENTS

All students pursuing a concentrated minor in Geography are required to connect with a faculty member with whom they can work to establish a reasonable course list to complete 9 credits in the department (https://guide.wisc.edu/courses/geog/). That faculty member will, ultimately, be responsible for signing off on completion of the minor. Students interested in the Geography minor are encouraged to explore the department's faculty pages (https://geography.wisc.edu/people/faculty/) and contact faculty members with shared research interests.

# GEOGRAPHY, MS

The Department of Geography is a leader in the field of geography and offers exceptional opportunities for graduate education. The department has been consistently rated as one of the best in the country and for over 100 years has been the training ground for generations of geographers. The department's strength is reflected in its ability to attract top-caliber students, compete for significant research funding, and publish foundational scholarly work. The department maintains strength across the full spectrum of subfields within the discipline and is organized into four major thematic areas: physical geography and earth system science, people and environment, human geography, and cartography/GIS.

Department faculty and graduate students represent a diverse community within which a wide range of perspectives, approaches, and research strategies are accommodated. The faculty has long been recognized nationally and internationally for outstanding contributions to geography and beyond. Many graduate students have gone on to prominence within government, industry, and academia, and some of the most influential names in geography received their training in Madison.

The department offers two masters of science in geography (thesis option): a master of science in geography and a master of science in cartography and geographic information systems.

Graduate students at the MS level are expected to acquire a broad foundation in geography in addition to specializing in one or more areas of concentration. Students who earn the MS (Thesis) degree are prepared to continue on for the PhD or for positions in government agencies, planning organizations, environmental agencies, nongovernmental organizations, and private industry.

The department takes in roughly 10–15 new graduate students each year. In recent years, about half of all incoming graduate students have completed an undergraduate major in a subject other than geography.

# FACILITIES

Housed in historic Science Hall, the Department of Geography offers exceptional facilities for advanced study in geography, cartography, and GIS. The department maintains the University Cartographic Laboratory, the Arthur Robinson Map and Air Photo Library, a computer lab, several computer classrooms, and laboratory facilities specializing

in biogeography, biogeochemistry, paleoecology, geomorphology, and soil research. In addition, the building houses the Wisconsin State Cartographer's Office, the History of Cartography Project, and the Gaylord Nelson Institute for Environmental Studies.

Graduate students may supplement their work in the geography department with study in other departments of the university, and there are frequent opportunities for advanced work in interdepartmental seminars. The location of the state capital at Madison makes possible easy contact with state agencies and some federal agencies.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 15 |
| Spring Deadline | The program does not admit in the spring. |
| Summer Deadline | The program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

## BREADTH REQUIREMENTS

This program requires admitted applicants to have taken coursework in several areas of Geography to show breadth of knowledge in the field. Most admitted applicants have completed the coursework for the breadth requirements prior to entering the program. Admitted applicants must have completed the equivalent of one undergraduate-level course in each subarea (Earth Systems Geography, Human Geography, People-Environment Geography, Cartography/GIS). Admitted applicants who begin the program lacking one or more of the breadth courses are expected to complete such coursework during the master's program. Courses taken for breadth can also be used to fulfill degree requirements.

## GRADUATE SCHOOL APPLICATION

If the applicant's primary sub-area specialization is Cartography/GIS, please apply to the Cartography and GIS MS-Thesis program, not the Geography MS program.

Refer to the following links:

- Consult the Graduate School Admissions website (https://grad.wisc.edu/apply/) for information about applying to the UW-Madison Graduate School, including general admissions requirements (https://grad.wisc.edu/apply/requirements/).
- Please see the Geography Department web pages for prospective graduate students (https://geography.wisc.edu/research-graduate-programs/prospective-graduate-students/) for additional details about the program and the application process.

### Materials

Upload the following to the online application:

- Three letters of recommendation (https://grad.wisc.edu/apply/#FAQ). The Graduate School will contact recommenders directly via e-mail once applicant enters information in the application. Be sure to contact each recommender ahead of time to let them know that they will be contacted directly by the Graduate School.
- Statement of purpose. For more information, check out our guidelines for writing a statement of purpose on our prospective student site (https://geography.wisc.edu/research-graduate-programs/prospective-graduate-students/#admissions-and-application-information).
- CV
- Unofficial transcripts
- International degree-seeking applicants will need to demonstrate English proficiency. See the Graduate School requirements (https://grad.wisc.edu/apply/requirements/) for specific information.
- The online application to the Geography MS includes a "supplemental application" in which applicants are asked to identify primary sub-area specialization (Earth Systems Geography, Human Geography, People/Environment Geography). Applicants may also identify faculty with whom they wish to work, as well as three areas of (topical and/or geographic) interest.
- Submit the online Graduate School Application for Admission (https://grad.wisc.edu/apply/) and pay the application fee.

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. # POLICIES

## GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

## MAJOR-SPECIFIC POLICIES

### PRIOR COURSEWORK

#### Graduate Credits Earned at Other Institutions

With program approval, students are allowed to transfer no more than 6 credits of graduate coursework from other institutions. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

#### Undergraduate Credits Earned at Other Institutions or UW-Madison

No credits from an undergraduate degree are allowed to transfer toward the degree.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

With program approval, students are allowed to transfer no more than 6 credits of graduate coursework as defined above taken as a UW–Madison Special student. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

## PROBATION

The Department of Geography expects graduate students to progress through a sequence of benchmarks within prescribed time periods. These benchmarks constitute a reasonable rate of accomplishment for full-time students holding teaching or research appointments. The department recognizes that individual circumstances vary, and not all students progressing toward their academic goals will hit the benchmarks exactly. Thus a student's progress is considered unsatisfactory only after a period of time elapses following an unmet benchmark. A student not making satisfactory progress is placed on probation. For detailed information about these benchmarks and triggers for probationary status, see the department's Criteria for Satisfactory Progress (https://geography.wisc.edu/wp-content/uploads/2017/05/Criteria-for-Satisfactory-Progress.pdf).

## ADVISOR / COMMITTEE

The chair (or co-chair) of a master's student's committee is the student's advisor. This individual must be graduate faculty in Geography or affiliated with Geography. The committee must have at least three members, two of whom must be graduate faculty (or former graduate faculty up to one year after resignation/retirement). Two of the three members must be affiliated with the Geography Department. The third member may be a qualified individual from within or outside UW-Madison. Inclusion of committee members who are not UW-Madison graduate faculty must be approved by the student's advisor.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

For program-specific time limits, please see Probation Policy above. Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## L&S POLICY FOR GRADUATE STUDENT ACADEMIC APPEALS

Graduate students have the right to appeal an academic decision related to an L&S graduate program if the student believes that the decision is inconsistent with published policy.

Academic decisions that may be appealed include:

- Dismissal from the graduate program
- Failure to pass a qualifying or preliminary examination
- Failure to achieve satisfactory academic progress
- Academic disciplinary action related to failure to meet professional conduct standards

Issues such as the following cannot be appealed using this process:

- A faculty member declining to serve as a graduate student's advisor.
- Decisions regarding the student's disciplinary knowledge, evaluation of the quality of work, or similar judgements. These are the domain of the department faculty.
- Course grades. These can be appealed instead using the L&S Policy for Grade Appeal (https://kb.wisc.edu/ls/22258/).
- Incidents of bias or hate, hostile and intimidating behavior (https://hr.wisc.edu/hib/), or discrimination (Title IX (https://compliance.wisc.edu/titleix/), Office of Compliance (https://compliance.wisc.edu/eo-complaint/formal-investigations/)). Direct these to the linked campus offices appropriate for the incident(s).

### Appeal Process for Graduate Students

A graduate student wishing to appeal an academic decision must follow the process in the order listed below. Note time limits within each step.

1. The student should first seek informal resolution, if possible, by discussing the concern with their academic advisor, the department's Director of Graduate Studies, and/or the department chair.
2. If the program has an appeal policy listed in their graduate program handbook, the student should follow the policy as written, including adhering to any indicated deadlines. In the absence of a specific departmental process, the chair or designee will be the reviewer and

decision maker, and the student should submit a written appeal to the chair within 15 business days of the academic decision. The chair or designee will notify the student in writing of their decision.

3. If the departmental process upholds the original decision, the graduate student may next initiate an appeal to L&S. To do so, the student must submit a written appeal to the L&S Assistant Dean for Graduate Student Academic Affairs within 15 business days of notification of the department's decision.
   a. To the fullest extent possible, the written appeal should include, in a single document: a clear and concise statement of the academic decision being appealed, any relevant background on what led to the decision, the specific policies involved, the relief sought, any relevant documentation related to the departmental appeal, and the names and titles of any individuals contributing to or involved in the decision.
   b. The Assistant Dean will work with the Academic Associate Dean of the appropriate division to consider the appeal. They may seek additional information and/or meetings related to the case.
   c. The Assistant Dean and Academic Associate Dean will provide a written decision within 20 business days.
4. If L&S upholds the original decision, the graduate student may appeal to the Graduate School. More information can be found on their website: Grievances and Appeals (https://grad.wisc.edu/documents/grievances-and-appeals/) (see: Graduate School Appeal Process).

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Articulates, critiques, or elaborates the concepts, theories, methods, and/or approaches to design and inquiry in Geography.
2. Identifies sources, assembles evidence, and/or builds justification for addressing questions or challenges in Geography.
3. Demonstrates understanding of Geography in a historical, social, global, and/or technological context.
4. Selects and/or utilizes the most appropriate methods, technological solutions, and practices to address challenges in Geography.
5. Analyzes, synthesizes, and evaluates information pertaining to questions or challenges in Geography and related fields.
6. Communicates clearly in written, verbal, and visual ways appropriate to Geography.
7. Demonstrates state-of-the-art technical skills relevant to future careers.
8. Recognizes and applies principles of ethical and professional conduct expected in Geography.

# GEOGRAPHY, PHD

The Department of Geography is a leader in the field of geography and offers exceptional opportunities for graduate education. The department has been consistently rated as one of the best in the country and for more than 100 years has been the training ground for generations of geographers. The department's strength is reflected in its ability to attract top-caliber students, compete for significant research funding, and publish foundational scholarly work. The department maintains strength across the full spectrum of subfields within the discipline and is organized into four major thematic areas: physical geography and earth system science, people and environment, human geography, and cartography/GIS.

Department faculty and graduate students represent a diverse community within which a wide range of perspectives, approaches, and research strategies are accommodated. The faculty has long been recognized nationally and internationally for outstanding contributions to geography and beyond. Many graduate students have gone on to prominence within government, industry, and academia and some of the most influential names in geography received their training in Madison.

The PhD degree is founded primarily upon specialized advanced training and research. Students may specialize in a single subdisciplinary area or a combination of areas and are expected to engage in research leading to a dissertation that makes an original and significant contribution to geographic knowledge and ideas.

The department takes in roughly 10–15 new graduate students each year. In recent years, about half of all incoming graduate students have completed an undergraduate major in a subject other than geography.

# FACILITIES

Housed in historic Science Hall, the Department of Geography offers exceptional facilities for advanced study in geography, cartography, and GIS. The department maintains the University Cartographic Laboratory, the Arthur Robinson Map and Air Photo Library, a computer lab, several computer classrooms, and laboratory facilities specializing in biogeography, biogeochemistry, paleoecology, geomorphology, and soil research. In addition, the building houses the Wisconsin State Cartographer's Office, the History of Cartography Project, and the Gaylord Nelson Institute for Environmental Studies.

Graduate students may supplement their work in the geography department with study in other departments of the university, and there are frequent opportunities for advanced work in interdepartmental seminars. The location of the state capital at Madison makes possible easy contact with state agencies, and some federal agencies.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched

the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 15 |
| Spring Deadline | This program does not admit in the spring. |
| Summer Deadline | This program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

## BREADTH REQUIREMENTS

Applicants must complete the equivalent of one undergraduate-level course in each subarea (Earth Systems Geography, Human Geography, People-Environment Geography, Cartography/GIS). Courses taken for breadth can also be used to fulfill major degree requirements. Most admitted applicants complete this coursework for breadth requirements prior to entering the program. Admitted applicants who begin the program lacking one or more of the breadth courses are expected to complete such coursework by the end of the second semester in the program.

## GRADUATE SCHOOL APPLICATION

Applicants must have, or be in process of completing, a master's degree in order to apply directly to the Geography PhD program. Applicants with Bachelor's degrees should apply to the Geography MS or Cartography/GIS MS-Thesis program and indicate their intent to continue to the Geography PhD.

Refer to the following links:

- Consult the Graduate School Admissions website (https://grad.wisc.edu/apply/) for information about applying to the UW-Madison Graduate School, including general admissions requirements (https://grad.wisc.edu/apply/requirements/).
- Please see the Geography Department web pages for prospective graduate students (https://geography.wisc.edu/research-graduate-programs/prospective-graduate-students/) for additional detail about the program and the application process.

### Materials

Upload the following to the online application:

- Three letters of recommendation (https://grad.wisc.edu/apply/#FAQ). The Graduate school will contact recommenders directly via e-mail once applicant enters information in the application. Be sure to contact each recommender ahead of time to let them know that they will be contacted directly by the Graduate School.
- Statement of purpose. For more information, check out our guidelines for writing a statement of purpose on our prospective student site (https://geography.wisc.edu/research-graduate-programs/prospective-graduate-students/#admissions-and-application-information).
- CV
- Unofficial transcripts
- International degree-seeking applicants will need to demonstrate English proficiency. See the Graduate School requirements (https://grad.wisc.edu/apply/requirements/) for specific information.
- The online application to the Geography PhD includes a "supplemental application" in which applicants are asked to identify primary sub-area specialization (Cartography/GIS, Earth Systems Geography, Human Geography, People/Environment Geography). Applicants may also identify faculty with whom they wish to work, as well as three areas of (topical and/or geographic) interest.
- Submit the online Graduate School Application for Admission (https://grad.wisc.edu/apply/) and pay the application fee.

# FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

See "How Does Funding Work?" at the Geography Master's FAQ (https://geography.wisc.edu/graduate/graduate-programs-faq/).

# REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 51 credits |
| Minimum Residence Credit Requirement | 32 credits |
| Minimum Graduate Coursework Requirement | 26 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required.<br>Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | No other grade requirements. |
| Assessments and Examinations | Students must pass a general and specific qualifying exam. Students must orally defend dissertation proposal before a dissertation committee. |
| Language Requirements | Competence in a non-English language can be used to fulfill skills requirement. |
| Graduate School Breadth Requirement | All doctoral students are required to complete a doctoral minor or graduate/professional certificate. Refer to the Graduate School: Breadth Requirement in Doctoral Training policy: https://policy.wisc.edu/library/UW-1200 (https://policy.wisc.edu/library/UW-1200/).<br><br>Students who choose to complete the Culture, History and Environment doctoral minor can use no more than one Geography course for the minor and that course must be outside of the student's primary subarea of study. |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Core** | | |
| Students must complete the following course. | | |
| GEOG 765 | Geographical Inquiry and Analysis: An Introduction | 1 |
| **Seminars** | | |
| Students must complete two (3-credit) courses numbered 900 or above geography seminars with two different core or affiliate Geography faculty members. Students cannot use seminars completed as an MS student towards this requirement. See seminar options below. | | 6 |
| **Skills Coursework** | | |
| In consultation with advisor, students must complete 6 credits of intermediate or advanced courses numbered 300 or above. Any coursework completed as a graduate student can be used. Typically, students fulfill this requirement by completing one of the following four options. Credits earned as independent study (999) or research (990) cannot be used to satisfy this requirement. | | 6 |
| *Language Competence* | | |
| Students may demonstrate competency through an oral assessment administered by a faculty member or instructor from the relevant language department OR complete the appropriate language coursework as selected in consultation with advisor. | | |
| *Quantitative Skills* | | |
| In consultation with advisor, students select and complete quantitative skills courses that are intermediate or advanced courses numbered 300 and above. | | |
| *Qualitative Skills* | | |
| In consultation with advisor, students select and complete qualitative skills courses that are intermediate or advanced courses numbered 300 and above. | | |
| *Combination of Quantitative and Qualitative Skills* | | |
| In consultation with advisor, students select and complete quantitative and qualitative skills courses that are intermediate or advanced courses numbered 300 and above. | | |
| **Additional Coursework** | | |
| In consultation with advisor, students must complete coursework to reach the minimum 51 credit requirement. This coursework is chosen to complement a student's research area. | | 38 |
| **Total Credits** | | **51** |

### Geography Seminars

| Code | Title | Credits |
|---|---|---|
| GEOG 900 | Seminar in Geography | 1-3 |
| GEOG 901 | Seminar in Cultural Geography | 2-3 |
| GEOG 918 | Seminar in Political Geography | 2-3 |
| GEOG 920 | Seminar in Physical Geography | 1-3 |
| GEOG 930 | Seminar in People-Environment Geography | 2-3 |
| GEOG 970 | Seminar in Geographic Information Science | 1-3 |

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program approval, students are allowed to transfer no more than 9 credits of graduate coursework from other institutions. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

No credits from an undergraduate degree are allowed to transfer toward the degree.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

With program approval, students are allowed to transfer no more than 9 credits of graduate-level coursework taken as a UW–Madison University Special student. Coursework earned ten year or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

## PROBATION

The Department of Geography expects graduate students to progress through a sequence of benchmarks within prescribed time periods. These benchmarks constitute a reasonable rate of accomplishment for full-time students holding teaching or research appointments. The department recognizes that individual circumstances vary, and not all students progressing toward their academic goals will hit the benchmarks exactly. Thus a student's progress is considered unsatisfactory only after a period of time elapses following an unmet benchmark. A student not making satisfactory progress is placed on probation. For detailed information about these benchmarks and triggers for probationary status, see the department's Criteria for Satisfactory Progress (https://geography.wisc.edu/wp-content/uploads/2017/05/Criteria-for-Satisfactory-Progress.pdf).

## ADVISOR / COMMITTEE

The chair (or co-chair) of a doctoral student's Dissertation Committee is the student's Advisor. This individual must be UW-Madison graduate faculty in Geography or affiliated with Geography. The committee must have at least 4 members, all designated as "readers" (responsible for reading the entire dissertation). The committee must have members from at least 2 University of Wisconsin-Madison graduate programs. Three members must be UW-Madison graduate faculty (or former graduate faculty up to one year after resignation/retirement). At least 2 members must be from UW-Madison Geography or affiliated with UW-Madison Geography. At least one committee member must be from outside the major field of study. The fourth member and any additional members can be UW-Madison graduate faculty (or former graduate faculty up to one year after resignation/retirement) or qualified individuals from within or outside UW-Madison. Inclusion of committee members who are not UW-Madison graduate faculty must be approved by the student's Advisor. Students can add a fifth committee member, who can serve as "non-reader" (not responsible for reading the entire dissertation, able to provide input on specific areas of expertise).

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## L&S POLICY FOR GRADUATE STUDENT ACADEMIC APPEALS

Graduate students have the right to appeal an academic decision related to an L&S graduate program if the student believes that the decision is inconsistent with published policy.

Academic decisions that may be appealed include:

- Dismissal from the graduate program
- Failure to pass a qualifying or preliminary examination
- Failure to achieve satisfactory academic progress
- Academic disciplinary action related to failure to meet professional conduct standards

Issues such as the following cannot be appealed using this process:

- A faculty member declining to serve as a graduate student's advisor.
- Decisions regarding the student's disciplinary knowledge, evaluation of the quality of work, or similar judgements. These are the domain of the department faculty.
- Course grades. These can be appealed instead using the L&S Policy for Grade Appeal (https://kb.wisc.edu/ls/22258/).
- Incidents of bias or hate, hostile and intimidating behavior (https://hr.wisc.edu/hib/), or discrimination (Title IX (https://compliance.wisc.edu/titleix/), Office of Compliance (https://compliance.wisc.edu/eo-complaint/formal-investigations/)). Direct these to the linked campus offices appropriate for the incident(s).

### Appeal Process for Graduate Students

A graduate student wishing to appeal an academic decision must follow the process in the order listed below. Note time limits within each step.

1. The student should first seek informal resolution, if possible, by discussing the concern with their academic advisor, the department's Director of Graduate Studies, and/or the department chair.
2. If the program has an appeal policy listed in their graduate program handbook, the student should follow the policy as written, including adhering to any indicated deadlines. In the absence of a specific departmental process, the chair or designee will be the reviewer and decision maker, and the student should submit a written appeal to the chair within 15 business days of the academic decision. The chair or designee will notify the student in writing of their decision.
3. If the departmental process upholds the original decision, the graduate student may next initiate an appeal to L&S. To do so, the student must submit a written appeal to the L&S Assistant Dean for Graduate Student Academic Affairs within 15 business days of notification of the department's decision.
   a. To the fullest extent possible, the written appeal should include, in a single document: a clear and concise statement of the academic decision being appealed, any relevant background on what led to the decision, the specific policies involved, the relief sought, any relevant documentation related to the departmental appeal, and the names and titles of any individuals contributing to or involved in the decision.
   b. The Assistant Dean will work with the Academic Associate Dean of the appropriate division to consider the appeal. They may seek additional information and/or meetings related to the case.
   c. The Assistant Dean and Academic Associate Dean will provide a written decision within 20 business days.
4. If L&S upholds the original decision, the graduate student may appeal to the Graduate School. More information can be found on their website: Grievances and Appeals (https://grad.wisc.edu/documents/grievances-and-appeals/) (see: Graduate School Appeal Process).

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Articulates research problems, potentials, and limits with respect to theory, knowledge, or practice within geography.
2. Formulates ideas, concepts, designs, and/or techniques beyond the current boundaries of knowledge within geography.
3. Creates research, scholarship, or performance that makes a substantive contribution.
4. Demonstrates breadth within their learning experiences.
5. Advances contributions of geography to society.
6. Communicates complex ideas in a clear and understandable manner.
7. Fosters ethical and professional conduct.

# GEOSCIENCE

## DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

# DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

- Geoscience, MS (p. 950)
- Geoscience, PhD (p. 953)

# GEOSCIENCE, MS

The Department of Geoscience provides opportunity for advanced study leading to the master of science and the doctor of philosophy degrees. Broad research interests and numerous fields of specialization among the members of the faculty provide research opportunities in all major fields of earth science including geochemistry, geophysics, hydrogeology, microbial geoscience, mineralogy, nano-geoscience, paleontology, paleoclimatology/paleooceanography, petrology, quaternary geology, sedimentology, structural geology, and tectonics.

The graduate student is expected to acquire a broad foundation in geoscience and in the supporting sciences before specializing. Courses are selected by the student in consultation with a three-member guidance and evaluation committee. Individual research and scholarship is required in all graduate work. It is expected that the candidate for an advanced degree will make original contributions, develop new ideas, and complete a dissertation suitable for publication in a peer-reviewed journal, book, or report. Students may also obtain a joint master's degree in geoscience and water resources management if approved by both programs and the Graduate School.

The department maintains a variety of cutting-edge laboratories in Lewis G. Weeks Hall for the Geological Sciences. Strong connections also exist between the geoscience and geological engineering programs. Library and research facilities are available for advanced work in all important branches

of the science. Geological survey offices in the Madison area, both state and federal, provide opportunities for cooperation with Survey geologists and the use of Survey facilities.

The program prepares students for teaching and research in academic positions, research work in state and federal organizations, and research and development in industry. The department coordinates interviews with potential employers several times during the year and maintains information on career placement. Students are actively involved in teaching and research programs and other scholarly activities of the department.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | January 4 |
| Spring Deadline | The program does not admit in the spring. |
| Summer Deadline | The program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

Graduate students may enter the degree program with a bachelor's degree in geology or a related earth science, or some other field relevant to the intended field of specialization. In addition to meeting the minimum admission requirements of the Graduate School, candidates must have had one year each of college chemistry, physics, and calculus. Graduate students in paleobiology are allowed to substitute statistics courses for the calculus requirement. A student entering the program with an undergraduate degree in geology is expected to have completed a 6–8 credit course in geologic field mapping.

Applicants will not normally be admitted with deficiencies in more than two one-semester courses in the required cognate subjects (for example, a prospective student could be missing one semester of physics and one semester of calculus). Such deficiencies should be removed within the first year of graduate study. A deficiency in field geology normally must be removed before commencing graduate study. Promising students with excessive deficiencies may be advised to take courses as a Special student before becoming eligible to enter graduate studies. They cannot, however, receive financial aid while a Special student.

Applicants seeking admissions in spring and summer must contact the program.

## FUNDING

# FUNDING

### GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

### PROGRAM RESOURCES

Financial assistance sufficient to meet the ordinary expenses of graduate school is available to qualified students in the form of fellowships and teaching or research assistantships. Prospective students should contact the department for information on available financial aid.

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program approval, students are allowed to transfer no more than 14 credits of graduate coursework from other institutions. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Refer to the Graduate School: Advisor (https://policy.wisc.edu/library/UW-1232/) and Graduate School: Committees (Doctoral/Master's/MFA) (https://policy.wisc.edu/library/UW-1201/) policies.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)

- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## L&S POLICY FOR GRADUATE STUDENT ACADEMIC APPEALS

Graduate students have the right to appeal an academic decision related to an L&S graduate program if the student believes that the decision is inconsistent with published policy.

Academic decisions that may be appealed include:

- Dismissal from the graduate program
- Failure to pass a qualifying or preliminary examination
- Failure to achieve satisfactory academic progress
- Academic disciplinary action related to failure to meet professional conduct standards

Issues such as the following cannot be appealed using this process:

- A faculty member declining to serve as a graduate student's advisor.
- Decisions regarding the student's disciplinary knowledge, evaluation of the quality of work, or similar judgements. These are the domain of the department faculty.
- Course grades. These can be appealed instead using the L&S Policy for Grade Appeal (https://kb.wisc.edu/ls/22258/).
- Incidents of bias or hate, hostile and intimidating behavior (https://hr.wisc.edu/hib/), or discrimination (Title IX (https://compliance.wisc.edu/titleix/), Office of Compliance (https://compliance.wisc.edu/eo-complaint/formal-investigations/)). Direct these to the linked campus offices appropriate for the incident(s).

### Appeal Process for Graduate Students

A graduate student wishing to appeal an academic decision must follow the process in the order listed below. Note time limits within each step.

1. The student should first seek informal resolution, if possible, by discussing the concern with their academic advisor, the department's Director of Graduate Studies, and/or the department chair.
2. If the program has an appeal policy listed in their graduate program handbook, the student should follow the policy as written, including adhering to any indicated deadlines. In the absence of a specific departmental process, the chair or designee will be the reviewer and decision maker, and the student should submit a written appeal to the chair within 15 business days of the academic decision. The chair or designee will notify the student in writing of their decision.
3. If the departmental process upholds the original decision, the graduate student may next initiate an appeal to L&S. To do so, the student must submit a written appeal to the L&S Assistant Dean for Graduate Student Academic Affairs within 15 business days of notification of the department's decision.
   a. To the fullest extent possible, the written appeal should include, in a single document: a clear and concise statement of the academic decision being appealed, any relevant background on what led to the decision, the specific policies involved, the relief sought, any relevant documentation related to the departmental appeal, and the names and titles of any individuals contributing to or involved in the decision.
   b. The Assistant Dean will work with the Academic Associate Dean of the appropriate division to consider the appeal. They may seek additional information and/or meetings related to the case.
   c. The Assistant Dean and Academic Associate Dean will provide a written decision within 20 business days.
4. If L&S upholds the original decision, the graduate student may appeal to the Graduate School. More information can be found on their website: Grievances and Appeals (https://grad.wisc.edu/documents/grievances-and-appeals/) (see: Graduate School Appeal Process).

## OTHER

Qualified prospective students are considered for financial support in the form of graduate assistantships or fellowships at the same time they are considered for admission.

# PROFESSIONAL DEVELOPMENT

## PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

# LEARNING OUTCOMES

## LEARNING OUTCOMES

1. Articulates, critiques, or elaborates the scientific theories, scientific hypotheses, research methods, and approaches to inquiry or schools of practice in geoscience.
2. Identifies sources and assembles evidence pertaining to questions or challenges in geoscience.
3. Demonstrates understanding of geoscience in historical, social, or global context.
4. Selects and/or utilizes the most appropriate methodologies and practices.
5. Evaluates or synthesizes information pertaining to questions or challenges in geoscience.
6. Communicates clearly in ways appropriate to the geological sciences.
7. Recognizes and applies principles of ethical and professional conduct.

# GEOSCIENCE, PHD

The Department of Geoscience provides opportunity for advanced study leading to the master of science and the doctor of philosophy degrees. Broad research interests and numerous fields of specialization among the members of the faculty provide research opportunities in all major fields of earth science including geochemistry, geophysics, hydrogeology, microbial geoscience, mineralogy, nano-geoscience, paleontology, paleoclimatology/paleooceanography, petrology, quaternary geology, sedimentology, structural geology, and tectonics.

The graduate student is expected to acquire a broad foundation in geoscience and in the supporting sciences before specializing. Courses are selected by the student in consultation with a three-member guidance and evaluation committee. Individual research and scholarship is required in all graduate work. It is expected that the candidate for an advanced degree will make original contributions, develop new ideas, and complete a dissertation suitable for publication in a peer-reviewed journal, book, or report. Students may also obtain a joint master's degree in geoscience and water resources management if approved by both programs and the Graduate School.

The department maintains a variety of cutting-edge laboratories in Lewis G. Weeks Hall for the Geological Sciences. Strong connections also exist between the geoscience and geological engineering programs. Library and research facilities are available for advanced work in all important branches of the science. Geological survey offices in the Madison area, both state and federal, provide opportunities for cooperation with Survey geologists and the use of Survey facilities.

The program prepares students for teaching and research in academic positions, research work in state and federal organizations, and research and development in industry. The department coordinates interviews with potential employers several times during the year and maintains information on career placement. Students are actively involved in teaching and research programs and other scholarly activities of the department.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements (https://grad.wisc.edu/apply/requirements/) *of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | January 4 |
| Spring Deadline | The program does not admit in the spring. |
| Summer Deadline | The program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

Graduate students may enter the degree program with a bachelor's degree in geology or a related earth science, or some other field relevant to the intended field of specialization. In addition to meeting the minimum admission requirements of the Graduate School, candidates must have had one year each of college chemistry, physics, and calculus. Graduate students in paleobiology are allowed to substitute statistics courses for the calculus requirement. A student entering the program with an undergraduate degree in geology is expected to have completed a 6–8 credit course in geologic field mapping.

Applicants will not normally be admitted with deficiencies in more than two one-semester courses in the required cognate subjects (for example, a prospective student could be missing one semester of physics and one semester of calculus). Such deficiencies should be removed within the first year of graduate study. A deficiency in field geology normally must be removed before commencing graduate study. Promising students with excessive deficiencies may be advised to take courses as a University Special student before becoming eligible to enter graduate studies. They cannot, however, receive financial aid while a University Special student.

Applicants seeking admissions in spring and summer must contact the program.

## FUNDING

# FUNDING

### GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

### PROGRAM RESOURCES

Financial assistance sufficient to meet the ordinary expenses of graduate school is available to qualified students in the form of fellowships and teaching or research assistantships. Prospective students should contact the department for information on available financial aid.

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

### MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 51 credits |
| Minimum Residence Credit Requirement | 32 credits |
| Minimum Graduate Coursework Requirement | 26 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | n/a |
| Assessments and Examinations | Doctoral students are required to take a comprehensive preliminary/oral examination after they have cleared their record of all Incomplete and Progress grades (other than research and thesis). Deposit of the doctoral dissertation in the Graduate School is required. |
| Language Requirements | No language requirements. |
| Graduate School Breadth Requirement | All doctoral students are required to complete a doctoral minor or graduate/professional certificate. Refer to the Graduate School: Breadth Requirement in Doctoral Training policy: https://policy.wisc.edu/library/UW-1200 (https://policy.wisc.edu/library/UW-1200/). |

## REQUIRED COURSES

Courses are selected by the student in consultation with a three-member Guidance and Evaluation Committee.

| Code | Title | Credits |
|---|---|---|
| **Coursework** | | |
| Courses are selected by the student in consultation with a three-member Guidance and Evaluation Committee. | | 1-42 |
| **Breadth** | | |
| The student must successfully complete a minor program selected for its relevance to their specialty. The purpose of the minor is to give breadth to a Ph.D. major. A minimum of 9 credits is required. | | 9 |
| **Research** | | |
| Students may complete sufficient credits of Geosci 990 to reach the 51-credit minimum. | | 1-42 |
| GEOSCI 990 | Research | |
| **Total Credits** | | **51** |

## L&S POLICY FOR GRADUATE STUDENT ACADEMIC APPEALS

Graduate students have the right to appeal an academic decision related to an L&S graduate program if the student believes that the decision is inconsistent with published policy.

Academic decisions that may be appealed include:

- Dismissal from the graduate program
- Failure to pass a qualifying or preliminary examination
- Failure to achieve satisfactory academic progress
- Academic disciplinary action related to failure to meet professional conduct standards

Issues such as the following cannot be appealed using this process:

- A faculty member declining to serve as a graduate student's advisor.
- Decisions regarding the student's disciplinary knowledge, evaluation of the quality of work, or similar judgements. These are the domain of the department faculty.
- Course grades. These can be appealed instead using the L&S Policy for Grade Appeal (https://kb.wisc.edu/ls/22258/).
- Incidents of bias or hate, hostile and intimidating behavior (https://hr.wisc.edu/hib/), or discrimination (Title IX (https://compliance.wisc.edu/titleix/), Office of Compliance (https://compliance.wisc.edu/eo-complaint/formal-investigations/)). Direct these to the linked campus offices appropriate for the incident(s).

### Appeal Process for Graduate Students

A graduate student wishing to appeal an academic decision must follow the process in the order listed below. Note time limits within each step.

1. The student should first seek informal resolution, if possible, by discussing the concern with their academic advisor, the department's Director of Graduate Studies, and/or the department chair.
2. If the program has an appeal policy listed in their graduate program handbook, the student should follow the policy as written, including adhering to any indicated deadlines. In the absence of a specific departmental process, the chair or designee will be the reviewer and decision maker, and the student should submit a written appeal to the chair within 15 business days of the academic decision. The chair or designee will notify the student in writing of their decision.
3. If the departmental process upholds the original decision, the graduate student may next initiate an appeal to L&S. To do so, the student must submit a written appeal to the L&S Assistant Dean for Graduate Student Academic Affairs within 15 business days of notification of the department's decision.
   a. To the fullest extent possible, the written appeal should include, in a single document: a clear and concise statement of the academic decision being appealed, any relevant background on what led to the decision, the specific policies involved, the relief sought, any relevant documentation related to the departmental appeal, and the names and titles of any individuals contributing to or involved in the decision.
   b. The Assistant Dean will work with the Academic Associate Dean of the appropriate division to consider the appeal. They may seek additional information and/or meetings related to the case.
   c. The Assistant Dean and Academic Associate Dean will provide a written decision within 20 business days.
4. If L&S upholds the original decision, the graduate student may appeal to the Graduate School. More information can be found on their website: Grievances and Appeals (https://grad.wisc.edu/documents/grievances-and-appeals/) (see: Graduate School Appeal Process).

## OTHER

Qualified prospective students are considered for financial support in the form of graduate assistantships or fellowships at the same time they are considered for admission.

# PROFESSIONAL DEVELOPMENT

## PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

LEARNING OUTCOMES

## LEARNING OUTCOMES

1. Formulates and plans original research.
2. Formulates scientific hypotheses, ideas, concepts, designs, and/or techniques beyond the current boundaries of knowledge within geoscience.
3. Creates research and scholarship that makes a substantive contribution.
4. Demonstrates breadth within their learning experiences, gaining a broad awareness of the status of contemporary research beyond the student's area of specialization.
5. Advances contributions of geoscience to society.
6. Communicates complex ideas in a clear and understandable manner, including the ability to engage and communicate with research professionals in geoscience.
7. Fosters ethical and professional conduct.

## REQUIREMENTS

Students must complete 9 credits, including three graduate-level courses with at least two courses numbered 600 or above in German (GERMAN (https://guide.wisc.edu/courses/german/)).

Students should have the minor plan approved by the Graduate Director.

# GERMAN, MA

The graduate program in German is recognized internationally for its comprehensive coverage of German studies and the thorough preparation of candidates for its graduate degrees. The German program is consistently among the most highly rated in the country and is near the top of the list of North American institutions in number of total graduate degrees granted in German. Graduates teach in colleges and universities

across the country and around the world, affirming the department's reputation and significance.

The department is the home of the quarterly Monatshefte (https://uwpress.wisc.edu/journals/journals/m.html), founded in 1899 and one of the leading peer-reviewed international scholarly journals in the field of German literature and culture. The Journal of Germanic Linguistics, journal of the Society for Germanic Linguistics, is also produced in the department. In addition, the department provides an editorial home for Diachronica (https://benjamins.com/catalog/dia/), an international journal covering all aspects of historical and comparative linguistics. The Max Kade Institute (http://mki.wisc.edu/) for German-American Studies, founded in 1983, is an international center for research on German-American history, language, and culture. Its research and outreach missions aim to provide better understanding of how German-speaking immigrants to this country helped shape their new environment and how they have been shaped by it. The Center for German and European Studies (http://daadcenter.wisc.edu/) (CGES), one of a handful of DAAD-sponsored centers in the U.S., is helping educate a new generation of experts on Germany and the new Europe across a wide variety of disciplines. It supports collaborative research and teaching of interdisciplinary and graduate seminars, and provides fellowships for graduate students interested in German and European studies.

The department offers a broadly inclusive and flexible curriculum in the entire range of medieval through contemporary literature and culture, a full spectrum of linguistics and philology, and a program in Dutch language, literature, and culture. The program is unsurpassed in comprehensive representation of the entire field of the study of German through individual faculty members' specializations and research publications, including: early modern and medieval studies; film and media studies; multicultural literature and cosmopolitanism; Gegenwartsliteratur; literary and cultural theory; Holocaust studies; poetics, stylistics, and narratology; 18th-century studies; literature in its sociocultural context; literary and cultural theory; Dutch literature and linguistics; historical and synchronic linguistics; applied linguistics, second language acquisition, and foreign language education. Offerings include interdisciplinary areas such as literature and other arts (especially image/text, visual culture, and literature/music), German-Americana, literature and philosophy, and German–Jewish relations.

Graduate students are encouraged to pursue inter- and multidisciplinary work beyond the Department of German in such areas as art history, communication arts/cinema, comparative literature, history, linguistics, musicology, Scandinavian studies, visual studies, and women and gender studies. The department cooperates closely with the interdepartmental programs in European studies, Medieval studies, Jewish studies, and Second Language Acquisition.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | January 2 |
| Spring Deadline | This program does not admit in the spring. |
| Summer Deadline | This program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required but may be considered if available. |
| English Proficiency Test | Every applicant whose native language is not English, or whose undergraduate instruction was not exclusively in English, must provide an English proficiency test score earned within two years of the anticipated term of enrollment. Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

Applicants are expected to demonstrate a strong record of prior and potential academic achievement in addition to excellent German language skills. Applicants with a BA in German must have a cumulative undergraduate GPA of at least 3.0 (on a 4.0 scale) on the equivalent of the last 60 semester credits and a GPA of at least 3.50 in German courses beyond the second-year level. Applicants with an MA in German must have a GPA in graduate work of at least 3.7 on a 4.0 scale. In special cases, applicants who do not fulfill the above expectations may be admitted on probation.

All applicants must submit unofficial transcripts of all university course work (or equivalents, including study abroad), list of courses in progress, Graduate Record Exam (GRE) scores (if submitted, scores should be no older than five years), a personal statement explaining the reasons for graduate study, a current CV or resume, a writing sample in German (5–15 pages), and three letters of recommendation that evaluate previous study and potential for graduate study.

Applicants should contact the department early in the fall if they wish additional information. Visits to the UW–Madison campus are welcomed by faculty and graduate students.

Reentry applicants will need to contact the program before applying for admission.

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Core** | | |
| GERMAN 650 | History of the German Language | 3 |
| GERMAN 720 | College Teaching of German | 1 |
| GERMAN 722 | Theory of Teaching German | 2 |
| **Survey of German Literature** | | **3** |
| Students must select one of the following options to complete 3 credits in the survey of German literature. | | |
| GERMAN 612 | German Literary Movements Since 1750 | |
| Or, select other surveys of German literature as approved by the advisor. | | |
| **German Electives** | | **15** |
| In consultation with advisor, students select courses numbered 500 and above in GERMAN. GNS 700 may fulfill 3 credits of this requirement. | | |
| GNS 700 | Graduate Seminar in Professional Development | |
| **Outside Electives** | | **6** |

| | |
|---|---|
| Students must complete 6 credits outside of the department. Courses are chosen in consultation with advisor. | |
| **Total Credits** | **30** |

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

Students are generally not allowed to transfer graduate coursework from other institutions. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

With program approval, students may transfer up to 7 credits of coursework numbered 600 or above taken as a UW-Madison undergraduate. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

With program approval, students may transfer up to 15 credits of coursework numbered 600 or above taken as a UW–Madison University Special student. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

## PROBATION

Students admitted on probation must maintain a GPA of at least 3.50 in graduate work done during each of their first two full-time semesters or the equivalent at this university, otherwise they will be dropped from the program. After performing satisfactorily during the probation period, students are expected to perform as well as students granted admission in full standing.

Current students should refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

All incoming MA candidates are advised by the department graduate advisor (DGA) during the first year of study. MA candidates are expected to select (by mutual consent) their individual graduate advisor during the third semester of coursework. The individual graduate advisor is likely to be chair of the MA examination committee, the PhD preliminary examination committee, and the dissertation committee.

## CREDITS PER TERM ALLOWED

15 credits

## TIME LIMITS

The MA examination must be completed by the end of the fourth semester in the German program.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## L&S POLICY FOR GRADUATE STUDENT ACADEMIC APPEALS

Graduate students have the right to appeal an academic decision related to an L&S graduate program if the student believes that the decision is inconsistent with published policy.

Academic decisions that may be appealed include:

- Dismissal from the graduate program
- Failure to pass a qualifying or preliminary examination
- Failure to achieve satisfactory academic progress
- Academic disciplinary action related to failure to meet professional conduct standards

Issues such as the following cannot be appealed using this process:

- A faculty member declining to serve as a graduate student's advisor.
- Decisions regarding the student's disciplinary knowledge, evaluation of the quality of work, or similar judgements. These are the domain of the department faculty.
- Course grades. These can be appealed instead using the L&S Policy for Grade Appeal (https://kb.wisc.edu/ls/22258/).
- Incidents of bias or hate, hostile and intimidating behavior (https://hr.wisc.edu/hib/), or discrimination (Title IX (https://compliance.wisc.edu/titleix/), Office of Compliance (https://compliance.wisc.edu/eo-complaint/formal-investigations/)). Direct these to the linked campus offices appropriate for the incident(s).

### Appeal Process for Graduate Students

A graduate student wishing to appeal an academic decision must follow the process in the order listed below. Note time limits within each step.

1. The student should first seek informal resolution, if possible, by discussing the concern with their academic advisor, the department's Director of Graduate Studies, and/or the department chair.
2. If the program has an appeal policy listed in their graduate program handbook, the student should follow the policy as written, including adhering to any indicated deadlines. In the absence of a specific departmental process, the chair or designee will be the reviewer and decision maker, and the student should submit a written appeal to the chair within 15 business days of the academic decision. The chair or designee will notify the student in writing of their decision.
3. If the departmental process upholds the original decision, the graduate student may next initiate an appeal to L&S. To do so, the student must submit a written appeal to the L&S Assistant Dean for Graduate Student Academic Affairs within 15 business days of notification of the department's decision.
    a. To the fullest extent possible, the written appeal should include, in a single document: a clear and concise statement of the academic decision being appealed, any relevant background on what led to the decision, the specific policies involved, the relief sought, any relevant documentation related to the departmental appeal, and the names and titles of any individuals contributing to or involved in the decision.
    b. The Assistant Dean will work with the Academic Associate Dean of the appropriate division to consider the appeal. They may seek additional information and/or meetings related to the case.
    c. The Assistant Dean and Academic Associate Dean will provide a written decision within 20 business days.
4. If L&S upholds the original decision, the graduate student may appeal to the Graduate School. More information can be found on their website: Grievances and Appeals (https://grad.wisc.edu/documents/grievances-and-appeals/) (see: Graduate School Appeal Process).

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Selects and/or utilizes the most appropriate methodologies and practices.
2. Evaluates or synthesizes information pertaining to questions or challenges in the field of study.
3. Communicates clearly in ways appropriate to the field of study.
4. Recognizes and practices principles of effective foreign language teaching.
5. Recognizes and applies principles of ethical and professional conduct.
6. Articulates, critiques, or elaborates the theories, research methods, and approaches to inquiry or schools of practice in the field of study.
7. Identifies sources and assembles evidence pertaining to questions or challenges in the field of study.
8. Demonstrates understanding of the primary field of study in a historical, social or global context.

# GERMAN, PHD

The graduate program in German is recognized internationally for its comprehensive coverage of German studies and the thorough preparation of candidates for its graduate degrees. The German program is consistently among the most highly rated in the country and is near the top of the list of North American institutions in number of total graduate degrees granted in German. Graduates teach in colleges and universities across the country and around the world, affirming the department's reputation and significance.

The department is the home of the quarterly Monatshefte (https://uwpress.wisc.edu/journals/journals/m.html), founded in 1899 and one of the leading peer-reviewed international scholarly journals in the field of German literature and culture. The Journal of Germanic Linguistics, journal of the Society for Germanic Linguistics, is also produced in the department. In addition, the department provides an editorial home for Diachronica (https://benjamins.com/catalog/dia/), an international journal covering all aspects of historical and comparative linguistics. The Max Kade Institute (http://mki.wisc.edu/) for German-American Studies, founded in 1983, is an international center for research on German-American history, language, and culture. Its research and outreach missions aim to provide better understanding of how German-speaking immigrants to this country helped shape their new environment and how they have been shaped by it. The Center for German and European Studies (http://daadcenter.wisc.edu/) (CGES), one of a handful of DAAD-sponsored centers in the U.S., is helping educate a new generation of experts on Germany and the new Europe across a wide variety of disciplines. It supports collaborative research and teaching

of interdisciplinary and graduate seminars, and provides fellowships for graduate students interested in German and European studies.

The department offers a broadly inclusive and flexible curriculum in the entire range of medieval through contemporary literature and culture, a full spectrum of linguistics and philology, and a program in Dutch language, literature, and culture. The program is unsurpassed in comprehensive representation of the entire field of the study of German through individual faculty members' specializations and research publications, including: early modern and medieval studies; film and media studies; multicultural literature and cosmopolitanism; Gegenwartsliteratur; literary and cultural theory; Holocaust studies; poetics, stylistics, and narratology; 18th-century studies; literature in its sociocultural context; literary and cultural theory; Dutch literature and linguistics; historical and synchronic linguistics; applied linguistics, second language acquisition, and foreign language education. Offerings include interdisciplinary areas such as literature and other arts (especially image/text, visual culture, and literature/music), German-Americana, literature and philosophy, and German–Jewish relations.

Graduate students are encouraged to pursue inter- and multidisciplinary work beyond the Department of German in such areas as art history, communication arts/cinema, comparative literature, history, linguistics, musicology, Scandinavian studies, visual studies, and women and gender studies. The department cooperates closely with the interdepartmental programs in European studies, medieval studies, Jewish studies, and second language acquisition.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | January 2 |
| Spring Deadline | This program does not admit in the spring. |
| Summer Deadline | This program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required but may be considered if available. |
| English Proficiency Test | Every applicant whose native language is not English, or whose undergraduate instruction was not exclusively in English, must provide an English proficiency test score earned within two years of the anticipated term of enrollment. Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

Applicants are expected to demonstrate a strong record of prior and potential academic achievement in addition to excellent German language skills. Applicants with a BA in German must have a cumulative undergraduate GPA of at least 3.0 (on a 4.0 scale) on the equivalent of the last 60 semester credits and a GPA of at least 3.50 in German courses beyond the second-year level. Applicants with an MA in German must have a GPA in graduate work of at least 3.7 on a 4.0 scale. In special cases, applicants who do not fulfill the above expectations may be admitted on probation.

All applicants must submit unofficial transcripts of all university course work (or equivalents, including study abroad), list of courses in progress, Graduate Record Exam (GRE) scores (if submitted, scores should be no older than five years), a personal statement explaining the reasons for graduate study, a current CV or resume, a writing sample in German (5–15 pages), and three letters of recommendation that evaluate previous study and potential for graduate study. If applying for a teaching assistantship, a ten-minute recording with a sample of the applicant's spoken English.

Applicants should contact the department early in the fall if they wish additional information. Visits to the UW–Madison campus are welcomed by faculty and graduate students.

Reentry applicants will need to contact the program before applying for admission.

## FUNDING

# FUNDING

### GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

### PROGRAM RESOURCES

Find information about funding on the program website (https://gns.wisc.edu/german-graduate-program/#financial-support).

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 51 credits |
| Minimum Residence Credit Requirement | 32 credits |
| Minimum Graduate Coursework Requirement | 26 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.5 GPA required for courses taken in the department; 3.00 GPA for work done in the minor. |
| Other Grade Requirements | If a student's GPA falls below 3.50 in any given semester, the cumulative average by the end of the following full-time semester must be 3.50.<br><br>The grade of C is considered unsatisfactory in the Department of German, Nordic, and Slavic: it is not counted in fulfilling the course requirements and may not be offset by a grade of A or AB in another course.<br><br>An incomplete received in the fall semester must be removed by the end of the following summer session. An incomplete received in the spring semester must be removed by the end of the following fall semester. An incomplete received in the summer session must be removed within six months. Failure to meet these deadlines constitutes unsatisfactory progress. |
| Assessments and Examinations | All students must demonstrate German language proficiency (if German is not their first language) by passing the Goethe Institut C1 exam or presenting a clearly equivalent certification of proficiency before taking their prelims.<br><br>At least one substantial course contribution written in German is required each year during the entire period of a student's graduate coursework. This might be a paper or a lengthy take-home examination. If a student is taking only courses outside the department in a given year, the requirement will be waived for that year.<br><br>An oral preliminary examination and a dissertation proposal must be completed after all required PhD coursework. |
| Language Requirements | In addition to German, students must demonstrate reading knowledge in a second foreign language, equivalent to at least four semesters of college work in that language, before proceeding to the preliminary examination. |
| Graduate School Breadth Requirement | All doctoral students are required to complete a doctoral minor or graduate/professional certificate. Refer to the Graduate School: Breadth Requirement in Doctoral Training policy: https://policy.wisc.edu/library/UW-1200 (https://policy.wisc.edu/library/UW-1200/). |

## REQUIRED COURSES

| Code | Title | Credits |

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

Students are allowed to transfer no more than 13 credits of prior graduate coursework from other institutions if applicable to program requirements. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

No credits from a UW–Madison undergraduate degree are allowed to count toward the PhD degree.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

With program approval, students are allowed to transfer no more than 15 credits of coursework numbered 600 or above taken as a UW–Madison University Special student. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

## PROBATION

Students admitted on probation must maintain a GPA of at least 3.50 in graduate work done during each of their first two full-time semesters or the equivalent at this university, otherwise they will be dropped from the program. After performing satisfactorily during the probation period, students are expected to perform as well as students granted admission in full standing.

Current students should refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Students joining the program with an MA degree will either be advised by the department graduate advisor (DGA) and choose their individual advisor before the end of their second semester of coursework in consultation with the department graduate advisor (DGA) or be assigned an individual advisor when they enter the program. The individual advisor will be the chair of the PhD preliminary examination committee and the dissertation committee.

## CREDITS PER TERM ALLOWED

15 credits

## TIME LIMITS

PhD candidates should take the two-hour oral preliminary examination no sooner than upon completion of the second semester of the PhD coursework and may take it no later than three weeks after the beginning of the fifth full-time semester (or its equivalent) after the MA.

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## L&S POLICY FOR GRADUATE STUDENT ACADEMIC APPEALS

Graduate students have the right to appeal an academic decision related to an L&S graduate program if the student believes that the decision is inconsistent with published policy.

Academic decisions that may be appealed include:

- Dismissal from the graduate program
- Failure to pass a qualifying or preliminary examination
- Failure to achieve satisfactory academic progress
- Academic disciplinary action related to failure to meet professional conduct standards

Issues such as the following cannot be appealed using this process:

- A faculty member declining to serve as a graduate student's advisor.
- Decisions regarding the student's disciplinary knowledge, evaluation of the quality of work, or similar judgements. These are the domain of the department faculty.
- Course grades. These can be appealed instead using the L&S Policy for Grade Appeal (https://kb.wisc.edu/ls/22258/).
- Incidents of bias or hate, hostile and intimidating behavior (https://hr.wisc.edu/hib/), or discrimination (Title IX (https://compliance.wisc.edu/titleix/), Office of Compliance (https://compliance.wisc.edu/eo-complaint/formal-investigations/)). Direct these to the linked campus offices appropriate for the incident(s).

### Appeal Process for Graduate Students

A graduate student wishing to appeal an academic decision must follow the process in the order listed below. Note time limits within each step.

1. The student should first seek informal resolution, if possible, by discussing the concern with their academic advisor, the department's Director of Graduate Studies, and/or the department chair.
2. If the program has an appeal policy listed in their graduate program handbook, the student should follow the policy as written, including adhering to any indicated deadlines. In the absence of a specific departmental process, the chair or designee will be the reviewer and decision maker, and the student should submit a written appeal to the chair within 15 business days of the academic decision. The chair or designee will notify the student in writing of their decision.
3. If the departmental process upholds the original decision, the graduate student may next initiate an appeal to L&S. To do so, the student must submit a written appeal to the L&S Assistant Dean for Graduate Student Academic Affairs within 15 business days of notification of the department's decision.
    a. To the fullest extent possible, the written appeal should include, in a single document: a clear and concise statement of the academic decision being appealed, any relevant background on what led to the decision, the specific policies involved, the relief sought, any relevant documentation related to the departmental appeal, and the names and titles of any individuals contributing to or involved in the decision.
    b. The Assistant Dean will work with the Academic Associate Dean of the appropriate division to consider the appeal. They may seek additional information and/or meetings related to the case.
    c. The Assistant Dean and Academic Associate Dean will provide a written decision within 20 business days.
4. If L&S upholds the original decision, the graduate student may appeal to the Graduate School. More information can be found on their website: Grievances and Appeals (https://grad.wisc.edu/documents/grievances-and-appeals/) (see: Graduate School Appeal Process).

# SCANDINAVIAN STUDIES, DOCTORAL MINOR

## ADMISSIONS

## ADMISSIONS

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any doctoral minor. To apply to this minor, log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. Select the information for the doctoral minor for which you are applying.

A prospective minor in Scandinavian Studies must have a program approved in advance by the graduate advisor, and is urged to discuss the entire doctoral minor with this advisor at the earliest possible opportunity.

## REQUIREMENTS

## REQUIREMENTS

Students are required to complete at least 12 credits in Scandinavian Studies (SCAND ST (https://guide.wisc.edu/courses/scand_st/)) at the graduate level, and reading proficiency in one Scandinavian language (including old or modern Icelandic) or in Finnish or Sámi.

# SCANDINAVIAN STUDIES, MA

Candidates for the master of arts in Scandinavian studies will specialize in one of the following three fields: literary and cultural studies, philology, or area studies.

Scandinavian studies is in the oldest such program in the Americas, tracing its roots to 1875. Department faculty have received numerous awards and other marks of recognition for their teaching and scholarship. The department offers the master of arts and the doctor of philosophy in Scandinavian studies. A doctoral minor is also available. The program offers the possibility to attain a broad education in Scandinavian culture that has proven to be extremely useful in students' professional careers. Students will become well-versed in theory and methodology as well as in cultural history. The department possesses particular strengths in Scandinavian literature and film, Old Norse philology, and Nordic folklore. Within these broader categories, students may pursue interests in such topics as mythology, Sámi studies, saints' lives, modernism, sagas, gender studies, immigration studies, national identity—to name only a few. Languages offered in the department include Danish, Finnish, Icelandic, Norwegian, Sámi, and Swedish. The department has an excellent record of placing its PhD graduates in good positions in the field.

## ADMISSIONS

## ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | January 2 |
| Spring Deadline | This program does not admit in the spring. |
| Summer Deadline | This program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required but may be considered if available. |

| | |
|---|---|
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

Applicants should have a BA degree from an accredited institution in a field of humanities or social studies. Applicants are expected to have preparation equivalent to an undergraduate major in Scandinavian Studies at UW–Madison and should preferably either have taken three years of a Scandinavian language or must demonstrate (by examination) equivalent competence in one Scandinavian language or Finnish. A GPA of 3.25 (on a 4.0 scale) is required for admission; students with a GPA below 3.25 but above 3.00 may be considered for admission on probation. A writing sample (in English or a Scandinavian language) is required.

Reentry students need to contact the program before applying for admission to terms outside of the fall term.

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

The department has a number of scholarships, fellowships, teaching assistantships, and readerships at its disposal and makes a serious effort to provide qualified students with adequate financial assistance and teaching experience throughout their graduate careers.

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 15 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.25 GPA required. |
| Other Grade Requirements | n/a |
| Assessments and Examinations | All MA pathways require a comprehensive written and oral examination and offer a thesis option. |
| Language Requirements | All pathways require an advanced competency in a modern Scandinavian language. If the modern Scandinavian Language is Finnish or Icelandic, a working knowledge of Norwegian, Swedish, or Danish is required.<br><br>For all pathways a minimal competency in German or another research language approved by the department is required.<br><br>The philology pathway requires two semesters of Old Norse. For the literature pathway a competency in Old Norse is encouraged. |

## REQUIRED COURSES

Each pathway has specific course requirements to be met.

## Literary and Cultural Studies Pathway [1]

| Code | Title | Credits |
|---|---|---|
| **Core** | | |
| SCAND ST 401 | Contemporary Scandinavian Languages | 3 |
| Select one of the following: | | 3-4 |
| SCAND ST/ MEDIEVAL 407 | Introductory Old Norse | |
| SCAND ST/ MEDIEVAL 430 | The Vikings | |
| SCAND ST/ LITTRANS 435 | The Sagas of Icelanders in English Translation | |
| Select one of the following: | | 3 |
| SCAND ST/ HISTORY 431 | History of Scandinavia to 1815 | |
| SCAND ST/ HISTORY 432 | History of Scandinavia Since 1815 | |
| SCAND ST/ HISTORY 577 | Contemporary Scandinavia: Politics and History | |
| Select one of the following, depending on individual circumstances and determined in consultation with the graduate advisor: | | 3 |
| SCAND ST 634 | Survey of Scandinavian Literature: 1500-1800 | |
| SCAND ST 635 | Survey of Scandinavian Literature: 1800-1890 | |
| SCAND ST 901 | Seminar in Special Topics [2] | |
| **Professional Development:** | | **3** |
| GNS 700 | Graduate Seminar in Professional Development | |
| **Electives:** | | **14-15** |
| Students consult with their advisor to select courses numbered 300 and above. Recommended courses may be found below. | | |
| Recommended courses: | | |
| SCAND ST 419 | Scandinavian Children's Literature | |
| SCAND ST 422 | The Drama of Henrik Ibsen | |
| SCAND ST 424 | Nineteenth-Century Scandinavian Fiction | |
| SCAND ST 426 | Kierkegaard and Scandinavian Literature | |
| SCAND ST 427 | Contemporary Scandinavian Literature | |
| SCAND ST/ LITTRANS 428 | Memory and Literature from Proust to Knausgard | |
| SCAND ST 434 | The Art of Isak Dinesen/Karen Blixen | |
| SCAND ST/ FOLKLORE/ MEDIEVAL 446 | Celtic-Scandinavian Cultural Interrelations | |
| SCAND ST 450 | Scandinavian Decadence in its European Context | |
| **Total Credits** | | **30** |

[1] These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

[2] Students must take SCAND ST/HISTORY 577 and SCAND ST 901 for 3 credits to count toward these requirements.

## Philology Pathway [1]

| Code | Title | Credits |
|---|---|---|
| The following are departmental guidelines for a philology specialization, though ultimately everything must be approved by the graduate advisor. | | |
| **Core** | | |
| SCAND ST 401 | Contemporary Scandinavian Languages | 3 |
| SCAND ST/ MEDIEVAL 407 & SCAND ST/ MEDIEVAL 408 | Introductory Old Norse and Intermediate Old Norse | 6 |
| SCAND ST 410 | Introduction to Scandinavian Linguistics | 3 |
| Select one of the following: | | |
| SCAND ST 415 | History of the Scandinavian Languages II: Standard Languages | 3 |
| or SCAND ST 510 | Topics in Scandinavian Linguistics | |
| Select one of the following: | | |
| SCAND ST/ MEDIEVAL 409 | Survey of Old Norse-Icelandic Literature | 3 |
| **Professional Development** | | **3** |
| GNS 700 | Graduate Seminar in Professional Development | |
| **Electives** | | **9** |
| Students consult with their advisor to select courses numbered 300 and above. Recommended courses may be found below. | | |
| Recommended Courses: | | |
| SCAND ST/ LITTRANS 435 | The Sagas of Icelanders in English Translation | |
| SCAND ST/ FOLKLORE/ MEDIEVAL 446 | Celtic-Scandinavian Cultural Interrelations | |
| GERMAN/ MEDIEVAL 755 | Old Germanic Languages | |
| ENGL/ MEDIEVAL 520 | Old English | |
| ENGL 417 | History of the English Language | |
| ENGL/HISTORY/ RELIG ST 360 | Early Medieval England | |
| **Total Credits** | | **30** |

[1] These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

### Area Studies Pathway [1]

| Code | Title | Credits |
|---|---|---|
| **Select one of the following:** | | **3** |
| 1. One Seminar in the student's emphasis area. | | |
| SCAND ST 901 | Seminar in Special Topics | |
| 2. A thesis of ca. 40-50 pages on a topic agreed upon by the student and advisor. | | |
| SCAND ST 799 | Independent Study | |
| **Required Courses:** | | |
| One course in Scandinavian literature or literary history. | | 3-4 |
| SCAND ST 401 | Contemporary Scandinavian Languages | 3 |
| **Professional Development:** | | **3** |
| GNS 700 | Graduate Seminar in Professional Development | |
| **Electives:** | | **17-18** |
| Students consult with their advisor to select courses numbered 300 and above. Recommended courses may be found below. | | |
| Recommended courses: | | |
| SCAND ST/ HISTORY 431 | History of Scandinavia to 1815 | |
| SCAND ST/ HISTORY 432 | History of Scandinavia Since 1815 | |
| SCAND ST/ LITTRANS 435 | The Sagas of Icelanders in English Translation | |
| SCAND ST/ FOLKLORE 440 | Scandinavian American Folklore | |
| SCAND ST/ FOLKLORE 443 | Sami Culture, Yesterday and Today | |
| SCAND ST/ MEDIEVAL 444 | Kalevala and Finnish Folk-Lore | |
| SCAND ST/ FOLKLORE/ MEDIEVAL 446 | Celtic-Scandinavian Cultural Interrelations | |
| Possible courses of interest: | | |
| FOLKLORE 320 | Folklore of Wisconsin | |
| FOLKLORE/ RELIG ST 326 | The Supernatural in the Modern World | |
| FOLKLORE 460 | Folk Epics | |
| FOLKLORE/ COM ARTS 522 | Digital Storytelling for Social Media | |
| FOLKLORE 540 | Local Culture and Identity in the Upper Midwest | |
| ART HIST 364 | History of American Art: Art, Material Culture, and Constructions of Identity, 1607-present | |
| ART HIST 601 | Introduction to Museum Studies I | |
| ENGL/HISTORY/ RELIG ST 360 | Early Medieval England | |
| ENGL/ MEDIEVAL 427 | Chaucer's Canterbury Tales | |
| GEOG 342 | Geography of Wisconsin | |
| GERMAN 650 | History of the German Language | |
| GERMAN/ MEDIEVAL 651 | Introduction to Middle High German | |
| GERMAN/ MEDIEVAL 755 | Old Germanic Languages | |
| HISTORY 359 | History of Europe Since 1945 | |
| HISTORY/ SCAND ST 577 | Contemporary Scandinavia: Politics and History | |
| LAND ARC 677 | Cultural Resource Preservation and Landscape History | |
| LAND ARC/ ANTHRO/ ART HIST/DS/ HISTORY 764 | Dimensions of Material Culture | |
| RELIG ST/ FOLKLORE 352 | Shamanism | |
| **Total Credits** | | **30** |

## POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program approval, students are allowed to transfer no more than 9 credits of graduate coursework from other institutions. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

With program approval, students are allowed to transfer no more than 9 credits of coursework numbered 300 or above taken as a University Special student. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

In order to encourage progress toward the degree and to determine the status of a student's program, the department requests an annual activities report from all continuing students to be submitted by the end of January. In the case of first-year students, this report will, of course, only cover work done during the fall semester. A copy of this report will be placed in the student's permanent file. Students are expected to consult regularly on their progress with their advisor.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## L&S POLICY FOR GRADUATE STUDENT ACADEMIC APPEALS

Graduate students have the right to appeal an academic decision related to an L&S graduate program if the student believes that the decision is inconsistent with published policy.

Academic decisions that may be appealed include:

- Dismissal from the graduate program
- Failure to pass a qualifying or preliminary examination
- Failure to achieve satisfactory academic progress
- Academic disciplinary action related to failure to meet professional conduct standards

Issues such as the following cannot be appealed using this process:

- A faculty member declining to serve as a graduate student's advisor.
- Decisions regarding the student's disciplinary knowledge, evaluation of the quality of work, or similar judgements. These are the domain of the department faculty.
- Course grades. These can be appealed instead using the L&S Policy for Grade Appeal (https://kb.wisc.edu/ls/22258/).
- Incidents of bias or hate, hostile and intimidating behavior (https://hr.wisc.edu/hib/), or discrimination (Title IX (https://compliance.wisc.edu/titleix/), Office of Compliance (https://compliance.wisc.edu/eo-complaint/formal-investigations/)). Direct these to the linked campus offices appropriate for the incident(s).

### Appeal Process for Graduate Students

A graduate student wishing to appeal an academic decision must follow the process in the order listed below. Note time limits within each step.

1. The student should first seek informal resolution, if possible, by discussing the concern with their academic advisor, the department's Director of Graduate Studies, and/or the department chair.
2. If the program has an appeal policy listed in their graduate program handbook, the student should follow the policy as written, including adhering to any indicated deadlines. In the absence of a specific departmental process, the chair or designee will be the reviewer and decision maker, and the student should submit a written appeal to the chair within 15 business days of the academic decision. The chair or designee will notify the student in writing of their decision.
3. If the departmental process upholds the original decision, the graduate student may next initiate an appeal to L&S. To do so, the student must submit a written appeal to the L&S Assistant Dean for Graduate Student Academic Affairs within 15 business days of notification of the department's decision.
   a. To the fullest extent possible, the written appeal should include, in a single document: a clear and concise statement of the academic decision being appealed, any relevant background on what led to the decision, the specific policies involved, the relief sought, any relevant documentation related to the departmental appeal, and the names and titles of any individuals contributing to or involved in the decision.
   b. The Assistant Dean will work with the Academic Associate Dean of the appropriate division to consider the appeal. They may seek additional information and/or meetings related to the case.
   c. The Assistant Dean and Academic Associate Dean will provide a written decision within 20 business days.
4. If L&S upholds the original decision, the graduate student may appeal to the Graduate School. More information can be found on their

website: Grievances and Appeals (https://grad.wisc.edu/documents/grievances-and-appeals/) (see: Graduate School Appeal Process).

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Articulates, critiques, or elaborates the theories, research methods, and approaches to inquiry or schools of practice in the field of study.
2. Identifies sources and assembles evidence pertaining to questions or challenges in the field of study.
3. Demonstrates understanding of the primary field of study in a historical, social, or global context.
4. Selects and/or utilizes the most appropriate methodologies and practices.
5. Evaluates or synthesizes information pertaining to questions or challenges in the field of study.
6. Communicates clearly in ways appropriate to the field of study.
7. Possesses an advanced competency in a Nordic language and a serviceable master of an additional research language.
8. Recognizes and applies principles of ethical and professional conduct.

# SCANDINAVIAN STUDIES, PHD

The PhD degree is offered in the fields of literature, folklore, and philology. The basic requirements for all students entering the PhD program correspond to the requirements for the MA degree in Scandinavian Studies with concentration in literature, area studies, or philology, as appropriate. Every incoming graduate student should consult with the general graduate advisor upon arrival at UW–Madison. They will discuss the student's academic and career plans, and between them will decide which faculty member will most appropriately act as a committee chair.

Scandinavian Studies is the oldest such department in the Americas, tracing its roots to 1875. Department faculty have received numerous awards and other marks of recognition for their teaching and scholarship. The department offers the master of arts and the doctor of philosophy in Scandinavian Studies. A doctoral minor is also available. The program offers the possibility to attain a broad education in Scandinavian culture that has proven to be extremely useful in students' professional careers. Students will become well-versed in theory and methodology as well as in cultural history. The department possesses particular strengths in Scandinavian literature, Old Norse philology, and Nordic folklore. Within these broader categories, students may pursue interests in such topics as mythology, Sámi studies, saints' lives, modernism, sagas, gender criticism, immigration studies, national identity—to name only a few. Languages offered in the department include Danish, Finnish, Icelandic, Norwegian, Sámi, and Swedish. The department has an excellent record of placing its PhD graduates in good positions in the field.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | January 2 |
| Spring Deadline | This program does not admit in the spring. |
| Summer Deadline | This program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required but may be considered if available. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

Applicants should have an MA in a related field. New PhD students will be expected to acquire competencies equivalent to the MA in Scandinavian Studies, and this will be assessed at the time of the preliminary exam. The application requires a writing sample.

Applicants without an MA should apply to the MA program.

Reentry applicants will need to contact the program before applying for admission.

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program approval, students are allowed to transfer no more than 9 credits of graduate coursework from other institutions. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

With program approval, students are allowed to transfer no more than 9 credits of coursework numbered 300 or above taken as a UW–Madison University Special student. However, these credits are not allowed to count toward the 50% graduate coursework minimum unless numbered 700 or above or are taken to meet the requirements of a capstone certificate and has the "Grad 50%" designation. Coursework earned ten or more years prior to admission to a doctoral degree is not allowed to satisfy requirements.

## PROBATION

If a student at any time fails to meet the criteria for satisfactory progress in the Graduate Program Handbook, they are placed on probation. If, by the end of the following semester, progress has not been brought to a satisfactory level, a committee of three faculty members will be established to determine whether any circumstance exists that prevent the dropping of the student from the program.

## ADVISOR / COMMITTEE

In order to encourage progress toward the degree and to determine the status of a student's program, the department requests an annual activities report from all continuing students to be submitted at the end of January. In the case of first-year students, this report will, of course, only cover work done during the fall semester. A copy of this report will be placed in the student's permanent file. Students are expected to consult regularly on their progress with their advisor.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## L&S POLICY FOR GRADUATE STUDENT ACADEMIC APPEALS

Graduate students have the right to appeal an academic decision related to an L&S graduate program if the student believes that the decision is inconsistent with published policy.

Academic decisions that may be appealed include:

- Dismissal from the graduate program
- Failure to pass a qualifying or preliminary examination
- Failure to achieve satisfactory academic progress
- Academic disciplinary action related to failure to meet professional conduct standards

Issues such as the following cannot be appealed using this process:

- A faculty member declining to serve as a graduate student's advisor.
- Decisions regarding the student's disciplinary knowledge, evaluation of the quality of work, or similar judgements. These are the domain of the department faculty.
- Course grades. These can be appealed instead using the L&S Policy for Grade Appeal (https://kb.wisc.edu/ls/22258/).
- Incidents of bias or hate, hostile and intimidating behavior (https://hr.wisc.edu/hib/), or discrimination (Title IX (https://compliance.wisc.edu/titleix/), Office of Compliance (https://compliance.wisc.edu/eo-complaint/formal-investigations/)). Direct these to the linked campus offices appropriate for the incident(s).

### Appeal Process for Graduate Students

A graduate student wishing to appeal an academic decision must follow the process in the order listed below. Note time limits within each step.

1. The student should first seek informal resolution, if possible, by discussing the concern with their academic advisor, the department's Director of Graduate Studies, and/or the department chair.
2. If the program has an appeal policy listed in their graduate program handbook, the student should follow the policy as written, including adhering to any indicated deadlines. In the absence of a specific departmental process, the chair or designee will be the reviewer and decision maker, and the student should submit a written appeal to the chair within 15 business days of the academic decision. The chair or designee will notify the student in writing of their decision.
3. If the departmental process upholds the original decision, the graduate student may next initiate an appeal to L&S. To do so, the student must submit a written appeal to the L&S Assistant Dean for Graduate Student Academic Affairs within 15 business days of notification of the department's decision.
   a. To the fullest extent possible, the written appeal should include, in a single document: a clear and concise statement of the academic decision being appealed, any relevant background on what led to the decision, the specific policies involved, the relief sought, any relevant documentation related to the departmental appeal, and the names and titles of any individuals contributing to or involved in the decision.
   b. The Assistant Dean will work with the Academic Associate Dean of the appropriate division to consider the appeal. They may seek additional information and/or meetings related to the case.
   c. The Assistant Dean and Academic Associate Dean will provide a written decision within 20 business days.
4. If L&S upholds the original decision, the graduate student may appeal to the Graduate School. More information can be found on their website: Grievances and Appeals (https://grad.wisc.edu/documents/grievances-and-appeals/) (see: Graduate School Appeal Process).

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Articulates research problems, potentials, and limits with respect to theory, knowledge, or practice within the field of study.
2. Formulates ideas, concepts, and techniques beyond the current boundaries of knowledge within the field of study.
3. Creates research and scholarship that makes a substantive contribution.
4. Demonstrates breadth within their learning experiences.
5. Advances contributions of the field of study to society.
6. Communicates complex ideas in a clear and understandable manner.
7. Possesses an advanced competency in a Nordic language and a serviceable mastery of one or more research languages.
8. Fosters ethical and professional conduct.

# SLAVIC LANGUAGES AND LITERATURES, DOCTORAL MINOR

**The Slavic Languages and Literatures doctoral minor no longer admits new students after Summer 2024 and the program will be discontinued Fall 2027.** Students already admitted may only complete and be awarded this minor through Summer 2027. If you have any questions, please contact the department (see contact box).

## ADMISSIONS

# ADMISSIONS

**The Slavic Languages and Literatures doctoral minor no longer admits new students after Summer 2024 and the program will be discontinued Fall 2027.** Students already admitted may only complete and be awarded this minor through Summer 2027. If you have any questions, please contact the department (see contact box).

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any doctoral minor. To apply to this minor, log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. Select the information for the doctoral minor for which you are applying.

## REQUIREMENTS

# REQUIREMENTS

## REQUIRED COURSES

### Doctoral Minor Pathway in Polish [1]

Students complete 12 credits as follows:

| Code | Title | Credits |
|---|---|---|
| **Required** | | |
| SLAVIC 470 | History of Polish Literature until 1863 | 3 |
| SLAVIC 799 | Independent Study | 1-6 |
| SLAVIC 331 | Fourth Year Polish I | 3 |
| or SLAVIC 332 | Fourth Year Polish II | |
| **Total Credits** | | **12** |

[1] These pathways are internal to the program and represent different curricular paths a student can follow to earn this minor. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

# SLAVIC LANGUAGES AND LITERATURES, MA

Slavic languages and literature at the University of Wisconsin–Madison is a national leader of doctoral programs in the field, and welcomes students with a BA/BS or MA who are interested in all areas of Russian and comparative Slavic prose, poetry, drama, and philosophy. The curriculum offers breadth and depth in a variety of areas of Slavic philology, literature, and culture, and is known for offering a balanced approach to training in teaching, writing, and research.

The program is fortunate to count among its faculty specialists in Czech, Polish, Russian, and Serbo-Croatian languages, literature, and culture, award-winning authors and teachers, and members of editorial boards of leading journals and publication series. Information regarding faculty biographical sketches are available on the program website. In addition to their excellence in teaching and research, professors are unparalleled mentors to graduate students. Students work closely with faculty members on writing, teaching, and publishing. Graduate students are expected to produce publishable articles during their graduate careers, and are provided the guidance and feedback to do so.

The department places high expectations on graduate students to achieve and maintain professional-level proficiency in the Russian language in all four modalities: speaking, writing, listening, and reading. All students who are not native speakers of Russian will be tested in those modalities –plus Russian grammar–when they enter the program, and periodically throughout their tenure. Appropriate competency must be demonstrated before receiving a teaching assistantship and before passing from MA to PhD candidacy.

Graduate students in the program receive exceptional training in teaching both language and literature. The department has a thriving undergraduate program in Slavic languages with strong enrollments in language, literature and culture, providing many opportunities for teaching experience, working closely with master teachers among the faculty and academic staff. In addition to teaching assignments in first- through fourth-semester Russian language (and occasionally in other Slavic languages), as well as in the two-semester undergraduate survey of Russian literature course, the department has also instituted an apprenticeship program for adequately prepared graduate students in the teaching of advanced literature and language classes. The program's graduate teaching assistants regularly win prestigious campus awards for their excellence in the classroom.

Please note that the Slavic department does not typically award a terminal MA degree. Rather, the MA is earned as part of studies toward the PhD (p. 980). Students who are admitted already holding an MA in Slavic from another institution are required to complete a qualifying exam no

later than the first semester in residence, or to fulfill all UW–Madison MA requirements as well.

## ADMISSIONS

# ADMISSIONS

This master's program is offered for work leading to the PhD. Students may not apply directly for the master's and should instead see the admissions information for the PhD. (p. 980)

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

Most students receive funding for multiple years in the form of fellowships, teaching assistantships, or project assistantships. These positions include a stipend as well as tuition remission and a generous health plan. Additional hourly employment is also often available.

Students are typically admitted with four- to five-year funding guarantees contingent on satisfactory progress and ability to perform assigned responsibilities well. Funding packages combine fellowships, teaching assistantships, and project assistantships at the level of at least 33%. All such positions include a stipend as well as tuition remission and a generous health plan. Funding beyond the initial guarantee period is often available for one or two years.

See the program website (https://gns.wisc.edu/) and the Graduate School's funding information page (http://grad.wisc.edu/studentfunding/) for more information.

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 21 credits |
| Minimum Graduate Coursework Requirement | 20 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.60 GPA required. |
| Other Grade Requirements | n/a |

| | |
|---|---|
| Assessments and Examinations | Passing grades (no lower than B) on three of the program's six written Foundation examinations in the history of Russian literature courses:<br>• SLAVIC 701<br>• SLAVIC 702<br>• SLAVIC 703<br>• SLAVIC 707<br>• SLAVIC 708<br>• SLAVIC 709<br><br>Exams may be taken irrespective of enrollment in the courses.<br><br>Passing at least three out of five Russian language proficiency examinations in reading, writing, speaking, listening, and grammar. Passing level for the first four exams: Advanced Low on ACTFL scale; passing score for grammar test: 80%.<br><br>A Gateway exercise: the full faculty review of student's progress to date and assessment of potential to succeed in the PhD track is conducted upon the award of the MA. At least one senior faculty member must express willingness ultimately to serve as dissertation advisor. Students who do not pass the Gateway exercise may not continue for PhD. |
| Language Requirements | For Russian language proficiency requirements see "Assessments and Examinations." |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| Students must complete the following course. | | |
| SLAVIC 800 | Proseminar-Slavic Literature and Culture | 1 |
| Students must select at least two of the following: | | 4-5 |
| SLAVIC 801 | Slavic Critical Theory and Practice | |
| SLAVIC 802 | The Structure of Russian | |
| SLAVIC 804 | Methods of Teaching Slavic Languages | |
| **Seminar** | | |
| Students must complete the following courses. | | |
| SLAVIC 900 | Seminar: Slavic Literature and Culture | 3 |
| SLAVIC 900 | Seminar: Slavic Literature and Culture | 3 |
| **Electives** | | **18-19** |
| Students must complete additional courses to meet the minimum credit requirement, choosen in consultation with advisor. Additional enrollments in SLAVIC 900 above the 6-credit requirement may be applied to the electives requirement. | | |
| **Total Credits** | | **30** |

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

Students are not allowed to transfer graduate coursework from other institutions to fulfill degree requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

With program approval, students may transfer up to 7 credits numbered 700 and above taken in the Slavic program while pursuing a UW–Madison undergraduate degree. Undergraduate coursework from other institutions is not allowed. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

With program approval, students may transfer up to 9 credits of coursework numbered 300 or above taken as a UW–Madison University Special student. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

## PROBATION

A semester GPA below 3.25 will result in the student being placed on academic probation. If a semester GPA of 3.25 is not attained during the subsequent semester of full-time enrollment the student may be dismissed from the program.

## ADVISOR / COMMITTEE

All students meet with graduate advisor once a semester (in November and April) to discuss their progress and to plan their coursework for the subsequent semester.

## CREDITS PER TERM ALLOWED

15 credits

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## L&S POLICY FOR GRADUATE STUDENT ACADEMIC APPEALS

Graduate students have the right to appeal an academic decision related to an L&S graduate program if the student believes that the decision is inconsistent with published policy.

Academic decisions that may be appealed include:

- Dismissal from the graduate program
- Failure to pass a qualifying or preliminary examination
- Failure to achieve satisfactory academic progress
- Academic disciplinary action related to failure to meet professional conduct standards

Issues such as the following cannot be appealed using this process:

- A faculty member declining to serve as a graduate student's advisor.
- Decisions regarding the student's disciplinary knowledge, evaluation of the quality of work, or similar judgements. These are the domain of the department faculty.
- Course grades. These can be appealed instead using the L&S Policy for Grade Appeal (https://kb.wisc.edu/ls/22258/).
- Incidents of bias or hate, hostile and intimidating behavior (https://hr.wisc.edu/hib/), or discrimination (Title IX (https://compliance.wisc.edu/titleix/), Office of Compliance (https://compliance.wisc.edu/eo-complaint/formal-investigations/)). Direct these to the linked campus offices appropriate for the incident(s).

### Appeal Process for Graduate Students

A graduate student wishing to appeal an academic decision must follow the process in the order listed below. Note time limits within each step.

1. The student should first seek informal resolution, if possible, by discussing the concern with their academic advisor, the department's Director of Graduate Studies, and/or the department chair.
2. If the program has an appeal policy listed in their graduate program handbook, the student should follow the policy as written, including adhering to any indicated deadlines. In the absence of a specific departmental process, the chair or designee will be the reviewer and decision maker, and the student should submit a written appeal to the chair within 15 business days of the academic decision. The chair or designee will notify the student in writing of their decision.
3. If the departmental process upholds the original decision, the graduate student may next initiate an appeal to L&S. To do so, the student must submit a written appeal to the L&S Assistant Dean for Graduate Student Academic Affairs within 15 business days of notification of the department's decision.
   a. To the fullest extent possible, the written appeal should include, in a single document: a clear and concise statement of the academic decision being appealed, any relevant background on what led to the decision, the specific policies involved, the relief sought, any relevant documentation related to the departmental appeal, and the names and titles of any individuals contributing to or involved in the decision.
   b. The Assistant Dean will work with the Academic Associate Dean of the appropriate division to consider the appeal. They may seek additional information and/or meetings related to the case.
   c. The Assistant Dean and Academic Associate Dean will provide a written decision within 20 business days.
4. If L&S upholds the original decision, the graduate student may appeal to the Graduate School. More information can be found on their website: Grievances and Appeals (https://grad.wisc.edu/documents/grievances-and-appeals/) (see: Graduate School Appeal Process).

## PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

# LEARNING OUTCOMES

## LEARNING OUTCOMES

1. (Critical Thinking and Writing Skills) Demonstrate: analytic, interpretive, and critical thinking skills; knowledge of research protocols; and understanding of the specificity of the literary object as well as its historical and cultural context.
2. Develop broad knowledge of Russian literary history, the major writers and movements, from the origins to the present day. Demonstrate this knowledge in relation to periods and movements, courses in which are offered during their time in the program. These include: Old Russian

Literature; 18th-Century Russian Literature; Romanticism (ca. 1790s to 1840s); Realism (ca. 1840s to 1890s); Modernism (ca. 1890s to 1920s); Soviet, Emigre, and Post-Soviet Periods (ca. 1930s to the present).

3. (Language proficiency) Demonstrate Advanced Russian language proficiency on the ACTFL (American Council on the Teaching of Foreign Languages) scale across three modalities (speaking, listening, reading, or writing). Demonstrate advanced knowledge of the structure of contemporary Russian.
4. Recognize and apply principles of ethical and professional conduct in the context of Slavic studies.

# SLAVIC LANGUAGES AND LITERATURES, PHD

Slavic languages and literature at the University of Wisconsin–Madison is a national leader of doctoral programs in the field, and welcomes students with a BA/BS or MA who are interested in all areas of Russian and comparative Slavic prose, poetry, drama, and philosophy. The curriculum offers breadth and depth in a variety of areas of Slavic philology, literature, and culture, and is known for offering a balanced approach to training in teaching, writing, and research.

The program is fortunate to count among its faculty specialists in Czech, Polish, Russian, and Serbo-Croatian languages, literature, and culture, award-winning authors and teachers, and members of editorial boards of leading journals and publication series. ## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | January 2 |
| Spring Deadline | This program does not admit in the spring. |
| Summer Deadline | This program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required but may be considered if available. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 2 |

For admission to the graduate program, the Slavic department requires the equivalent of a BA degree in Russian and a GPA of at least 3.0 on a 4.0 scale. Applicants who have carried out graduate work at another institution must have a graduate GPA of 3.25. International degree-seeking applicants must prove English proficiency using the Graduate School's requirements (https://grad.wisc.edu/apply/requirements/).

Applicants who have spent at least a semester studying in a Russian-speaking setting are best prepared to continue graduate-level study in Russian. Admitted applicants with deficiencies, especially in Russian, are required to make up such deficiencies.

Applications for admission to the graduate program are accepted at any time, but only complete applications received by the deadline will be considered for fellowships and other forms of funding for the following fall semester. More information regarding graduate program admission may be found on the program website (https://gns.wisc.edu/slavic-graduate-program/#degrees).

If an applicant chooses to submit GRE scores, these should be sent electronically from ETS (use institution code 1846).

Reentry applicants must contact the program before applying for admission.

Note that we do not admit applicants seeking a terminal MA. Prospective students who are interested in a terminal master's degree are encouraged to consider the interdisciplinary master's degree in Russian, East

European, and Central Asian Studies (p. 1152) (REECAS) through the Center for Russia, Eastern Europe and Central Asia (CREECA).

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

Most students receive funding for multiple years in the form of fellowships, teaching assistantships or project assistantships. These positions include a stipend as well as tuition remission and a generous health plan. Additional hourly employment is also often available.

Students are typically admitted with four- to five-year funding guarantees contingent on satisfactory progress and ability to perform assigned responsibilities well. Funding packages combine fellowships, teaching assistantships and project assistantships at the level of at least 33%. All such positions include a stipend as well as tuition remission and a generous health plan. Funding beyond the initial guarantee period is often available for one or two years.

See the program website (https://gns.wisc.edu/) and the Graduate School's funding information page (http://grad.wisc.edu/studentfunding/) for more information.

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 51 credits |
| Minimum Residence Credit Requirement | 36 credits |
| Minimum Graduate Coursework Requirement | 34 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.6 GPA required |
| Other Grade Requirements | n/a |
| Assessments and Examinations | Students must earn passing grades (no lower than B) on all six written Foundation examinations in the history of Russian literature by the end of the sixth semester of coursework This includes those passed as an MA student. For students admitted with MA degree, the same requirements need to be fulfilled by the end of their fourth semester.<br><br>Students must pass all five Russian language proficiency examinations (including those passed as an MA student) by the end of the sixth semester (end of the fourth semester for students admitted with MA degree).<br><br>Students must complete a review of a capstone dossier (all six Foundation examinations and two major seminar papers) by the graduate faculty in the beginning of the seventh semester in the program (fifth semester for students admitted with MA degree).<br><br>Students must pass an oral examination (defense of a dissertation proposal) by the end of the seventh semester in the program (fifth semester for students admitted with MA degree).<br><br>Defense of PhD dissertation. |

| | |
|---|---|
| Language Requirements | For Russian language proficiency requirements see "Assessments and Examinations".<br><br>Students must demonstrate proficiency of language through coursework or placement test/examination. Knowledge equivalent to two years of college-level study of either:<br>• French or German OR<br>• a second Slavic language<br><br>In well-grounded cases, when a different language is necessary for student's research, it may be applied towards fulfillment of the language requirement. A student will submit a respective petition to DGS, which will be discussed and decided upon by all Slavic graduate faculty. |
| Graduate School Breadth Requirement | All doctoral students are required to complete a doctoral minor or graduate/professional certificate. Refer to the Graduate School: Breadth Requirement in Doctoral Training policy: https://policy.wisc.edu/library/UW-1200 (https://policy.wisc.edu/library/UW-1200/). |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Core** | | |
| Students must complete the following courses. | | |
| SLAVIC 800 | Proseminar-Slavic Literature and Culture | 1 |
| SLAVIC 803 | Introduction to Old Church Slavonic and the History of Russian Literary Language | 2 |
| SLAVIC 801 | Slavic Critical Theory and Practice | 3 |
| SLAVIC 802 | The Structure of Russian | 2 |
| SLAVIC 804 | Methods of Teaching Slavic Languages | 2 |
| **Seminar** | | |
| Students must complete the following course. | | |
| SLAVIC 900 | Seminar: Slavic Literature and Culture (taken three times for 3 credits each) | 9 |
| **Breadth** | | **9** |
| **Electives** | | **23** |
| Students must complete additional courses to meet the minimum credit requirement, chosen in consultation with advisor. Additional enrollments of SLAVIC 900 may be applied to satisfy this requirement. | | |
| **Total Credits** | | **51** |

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

Students are generally not allowed to transfer credits earned at other institutions to fulfill degree requirements. Exceptions are students who are admitted to pursue a PhD degree after completing their MA degree at another institution, and who confirmed their MA degree in the department by passing a qualifying examination. Students may transfer up to 15 credits of MA coursework to satisfy PhD degree requirements. Up to 9 credits of prior graduate coursework may be applied towards the breadth requirement (Option B -- Distributed Minor). Coursework earned ten or more years prior to admission to a doctoral degree is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

With program approval, up to 7 credits numbered 700 and above taken in the Slavic department while pursuing a UW–Madison undergraduate degree are allowed to transfer. Undergraduate coursework from other institutions is not allowed. Coursework earned ten or more years prior to admission to a doctoral degree is not allowed to satisfy requirements.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

With program approval, students are allowed to transfer no more than 9 credits of coursework numbered 300 or above taken as a UW–Madison University Special student. However, these credits are not allowed to count toward the 50% graduate coursework minimum unless numbered 700 or above or are taken to meet the requirements of a capstone certificate and has the "Grad 50%" designation. Coursework earned ten or more years prior to admission to a doctoral degree is not allowed to satisfy requirements.

## PROBATION

A semester GPA below 3.25 will result in the student being placed on academic probation. If a semester GPA of 3.25 is not attained during the subsequent semester of full time enrollment the student may be dismissed from the program.

## ADVISOR / COMMITTEE

Prior to being admitted to candidacy, all students meet with graduate advisor once a semester (in November and April) to discuss their progress and to plan their coursework for the subsequent semester.

No later than by the end of their sixth semester students choose their dissertation advisor.

After being admitted to candidacy, all students are required to submit brief written yearly progress reports to their thesis committee by the end of January.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Students must fulfill all coursework requirements and pass oral examination by the end of the seventh semester in the program (fifth semester for students admitted with MA degree).

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## L&S POLICY FOR GRADUATE STUDENT ACADEMIC APPEALS

Graduate students have the right to appeal an academic decision related to an L&S graduate program if the student believes that the decision is inconsistent with published policy.

Academic decisions that may be appealed include:

- Dismissal from the graduate program
- Failure to pass a qualifying or preliminary examination
- Failure to achieve satisfactory academic progress
- Academic disciplinary action related to failure to meet professional conduct standards

Issues such as the following cannot be appealed using this process:

- A faculty member declining to serve as a graduate student's advisor.
- Decisions regarding the student's disciplinary knowledge, evaluation of the quality of work, or similar judgements. These are the domain of the department faculty.
- Course grades. These can be appealed instead using the L&S Policy for Grade Appeal (https://kb.wisc.edu/ls/22258/).
- Incidents of bias or hate, hostile and intimidating behavior (https://hr.wisc.edu/hib/), or discrimination (Title IX (https://compliance.wisc.edu/titleix/), Office of Compliance (https://compliance.wisc.edu/eo-complaint/formal-investigations/)). Direct these to the linked campus offices appropriate for the incident(s).

### Appeal Process for Graduate Students

A graduate student wishing to appeal an academic decision must follow the process in the order listed below. Note time limits within each step.

1. The student should first seek informal resolution, if possible, by discussing the concern with their academic advisor, the department's Director of Graduate Studies, and/or the department chair.
2. If the program has an appeal policy listed in their graduate program handbook, the student should follow the policy as written, including adhering to any indicated deadlines. In the absence of a specific departmental process, the chair or designee will be the reviewer and decision maker, and the student should submit a written appeal to the chair within 15 business days of the academic decision. The chair or designee will notify the student in writing of their decision.
3. If the departmental process upholds the original decision, the graduate student may next initiate an appeal to L&S. To do so, the student must submit a written appeal to the L&S Assistant Dean for Graduate Student Academic Affairs within 15 business days of notification of the department's decision.
   a. To the fullest extent possible, the written appeal should include, in a single document: a clear and concise statement of the academic decision being appealed, any relevant background on what led to the decision, the specific policies involved, the relief sought, any relevant documentation related to the departmental appeal, and the names and titles of any individuals contributing to or involved in the decision.
   b. The Assistant Dean will work with the Academic Associate Dean of the appropriate division to consider the appeal. They may seek additional information and/or meetings related to the case.
   c. The Assistant Dean and Academic Associate Dean will provide a written decision within 20 business days.
4. If L&S upholds the original decision, the graduate student may appeal to the Graduate School. More information can be found on their website: Grievances and Appeals (https://grad.wisc.edu/documents/grievances-and-appeals/) (see: Graduate School Appeal Process).

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. (Critical Thinking and Writing Skills) Demonstrate: analytic, interpretative, and critical thinking skills; knowledge of research protocols; and understanding of the specificity of the literary object as well as its historical and cultural context.
2. (Literature) Develop comprehensive knowledge of Russian literary history, the major writers and movements, from the origins to the present day. Demonstrate this knowledge in relation to the following periods and movements: Old Russian Literature; 18th-Century Russian Literature; Romanticism (ca. 1790s to 1840s); Realism (ca. 1840s to 1890s); Modernism (ca. 1890s to 1920s); Soviet, Emigre, and Post-Soviet Periods (ca. 1930s to the present).
3. (Language proficiency) Demonstrate Advanced Russian language proficiency on the ACTFL (American Council on the Teaching of Foreign Languages) scale across all modalities (speaking, listening, reading, writing). Demonstrate advanced knowledge of the structure of contemporary Russian. Develop, at minimum, reading proficiency in languages essential for research in the field, including a second Slavic language and either French or German.
4. (Ph.D. Minor) Demonstrate intellectual breadth and the ability to synthesize cross-cultural and interdisciplinary perspectives through the completion of a doctoral minor.
5. (Ph.D. Dissertation) A successful Ph.D. candidate will have written a dissertation that synthesizes knowledge of relevant disciplines and develops it to create an original contribution to scholarship. The candidate will be able to present the results of her or his research both to experts in the field as well as to a wider public.
6. (Teacher-Trainer) Demonstrate, both in theory and through instructional practice, foundational knowledge of second-language teaching, including the concepts of proficiency-oriented instruction and communicative language teaching; principles behind the design, integration, and delivery of classroom instruction and appropriate assessment instruments for all four modalities (speaking, listening, reading, writing), structure, and culture.
7. Recognize, apply, and foster principles of ethical and professional conduct in the context of Slavic studies.

- Special Graduate Committee, PhD (p. 1004)

# BIOPHYSICS, DOCTORAL MINOR

Students enrolled in a UW–Madison doctoral program can pursue a doctoral minor in Biophysics. The doctoral minor offers substantial training in Biophysics and can serve as a supplement to training in a broad range of disciplines in which biology, chemistry, physics, and medicine intersect. The Biophysics minor will give students a rigorous understanding of quantitative approaches to biological, physical, and chemical problems in the life sciences. Course offerings that provide pedagogical instruction for Biophysics students form the basis of the Biophysics minor.

## ADMISSIONS

# ADMISSIONS

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any doctoral minor. To apply to this minor, log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. Select the information for the doctoral minor for which you are applying.

| BIOCHEM 601 | Protein and Enzyme Structure and Function | |
| BIOCHEM/ GENETICS/ MICROBIO 612 | Prokaryotic Molecular Biology | |
| BIOCHEM/ GENETICS/ MD GENET 620 | Eukaryotic Molecular Biology | |
| NTP/ NEURODPT 610 | Cellular and Molecular Neuroscience | |
| **Total Credits** | | **9** |

# BIOPHYSICS, MS

The Biophysics Program admits students to the PhD program only; it does not offer admission to a terminal master's degree. A master's degree may be earned under certain circumstances by students enrolled in the PhD program. For more information, see the Biophysics Handbook (http://www.biophysics.wisc.edu/handbook/).

Biophysics is an interdisciplinary PhD program in the biosciences. It brings together students from diverse backgrounds (including biology, biochemistry, chemistry, physics, bioengineering, computational biology, neuroscience, cell biology, and so on) who are interested in research at the intersection of these disciplines.

Our broad interdepartmental program includes nearly 70 faculty trainers (https://biophysics.wisc.edu/labs/) from departments across five schools and colleges at UW–Madison: the College of Letters & Science, the College of Agricultural & Life Sciences, the College of Engineering, the School of Medicine and Public Health, and the School of Pharmacy. This highly collaborative environment provides a wide range of opportunities, including protein structure/function, and engineering; nucleic acid and membrane biophysics; neuroscience; virology; and synthetic and systems biology applied to both bacterial and eukaryotic organisms. These research areas share the goal of understanding biological systems in physical and mechanistic terms, utilizing advanced quantitative instrumental methods, and often integrating computation and machine learning. An overview of our research areas (https://biophysics.wisc.edu/research/) is available on our website.

UW–Madison is a hub of excellence in structural biology, equipped with major facilities, including the National Magnetic Resonance Facility, the CryoEM Research Center, and the Midwest Center for Cryo-Electron Tomography. Trainers at these centers provide outstanding research opportunities for students aiming to become experts in the application and/or development of structural biology.

Furthermore, many other accessible facilities and equipment in our trainers' laboratories offer advanced training in spectroscopy, microscopy, single-molecule imaging, high-throughput methods, Artificial Intelligence, and the integration of experimental and computational techniques used for analyzing and modeling macromolecules and biological systems.

The Biophysics Program houses the Molecular Biophysics Training Program (https://biophysics.wisc.edu/mbtp/) (MBTP), an NIH National Research Service Award (T32) from the National Institute of General Medical Sciences. The MBTP offers fellowships to twelve graduate students each year, funding interdisciplinary training at the intersection of the biological and physical sciences.

Biophysics is a diverse and collaborative scientific community whose goal is to prepare students from diverse academic backgrounds with rigorous interdisciplinary and quantitative training for careers in research and teaching across academia, industry, and other fields. Additionally, the program is flexible in its course requirements, emphasizing excellence in research and allowing coursework selection to be customized to meet a student's specific research interests and needs.

For more information, please visit the Biophysics Graduate Program website (https://biophysics.wisc.edu/).

## ADMISSIONS

# ADMISSIONS

This master's program is offered for work leading to the PhD. Students may not apply directly for the master's, and should instead see the admissions information for the PhD (p. 988).

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business

schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 15 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required.<br>Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | Credits are not counted from courses in which a grade of BC or below is obtained for the Biophysics core courses. In the event of an unsatisfactory grade, the student must repeat the course and obtain a grade of B or better if they want to count the class towards their Biophysics GPA and course requirements. |
| Assessments and Examinations | Students take two rounds of exams in order to achieve dissertator status. At the end of students' second year, they are required to take their written preliminary exam. Once this exam is passed, students must take their preliminary exam by the end of their third year. |
| Language Requirements | No language requirements. |

## REQUIRED COURSES

The following coursework is completed on the way to earning the Biophysics PhD and is the minimum required for the master's:

| Code | Title | Credits |
|---|---|---|
| **Required Courses** | | |
| CHEM 665 | Biophysical Chemistry | 3 |
| CHEM 668 | Biophysical Spectroscopy | 3 |
| **Biophysics Advanced Electives** | | |
| Students must take at least 6 credits of advanced electives from at least two different categories using the following list of classes (alternative classes may be substituted with approval from the Biophysics Program Curriculum Committee): | | 6 |
| *Structure* | | |
| BIOCHEM 601 | Protein and Enzyme Structure and Function | |
| BIOCHEM 625 | Mechanisms of Action of Vitamins and Minerals | |
| CHEM 622 | Organic Analysis | |
| CHEM 675 | Introductory Quantum Chemistry | |
| MICROBIO/ BMOLCHEM 668 | Microbiology at Atomic Resolution | |
| ONCOLOGY 673 | Purification and Characterization of Protein and Protein Complexes | |
| *Modeling & Theory* | | |
| CHEM 661 | Chemical and Statistical Thermodynamics | |
| MATH/B M I/ BIOCHEM/ BMOLCHEM 609 | Mathematical Methods for Systems Biology | |
| *Molecular Biology* | | |
| BIOCHEM/ GENETICS/ MICROBIO 612 | Prokaryotic Molecular Biology | |
| BIOCHEM/ GENETICS/ MD GENET 620 | Eukaryotic Molecular Biology | |
| *Neuroscience* | | |
| NTP/ NEURODPT 610 | Cellular and Molecular Neuroscience | |
| *Spectroscopy & Microscopy* | | |
| BMOLCHEM 700 | Practical Biophysics | |
| B M E/ MED PHYS/ PHMCOL-M/PHYSICS/ RADIOL 619 | Microscopy of Life | |
| B M E 751 | Biomedical Optics and Biophotonics | |
| CHEM 636 | Topics in Chemical Instrumentation: Introduction to NMR | |
| CHEM 860 | Selected Topics in Physical Chemistry (Topic: Spectroscopy of Individual Molecules and Particles) | |
| BIOCHEM 729 | Advanced Topics (Topic: Advanced Topics in NMR) | |
| *Computation, Statistics & Bioinformatics* | | |
| B M I/ COMP SCI 776 | Advanced Bioinformatics | |
| STAT/ F&W ECOL 571 | Statistical Methods for Bioscience I | |
| ONCOLOGY 778 | Bioinformatics for Biologists | |
| **Speciality Courses** | | |

| | |
|---|---|
| To fulfill the remainder of required credits, students can take specialty courses. It is recommended to take courses in areas such as biotechnology, computer science, electrical and computer engineering, molecular biology, or physics. Students should consult with their thesis advisor and thesis committee members about appropriate specialty courses to take pertaining to individual training goals. | 18 |
| **Total Credits** | **30** |

### Biophysics Advanced Electives

To meet the 6-credit minimum, all elective courses must be at least 2 credits. That means that students can, for example, take two 3-credit courses, three 2-credit courses, or one 2-credit and one 4-credit course to satisfy this requirement. The above list of courses were approved as elective course options by the Biophysics Steering Committee. If you are interested in a different course to count as an elective course towards your Biophysics graduate degree, the course needs to be approved by the Curriculum Committee. To request a course approval, please use this form (https://biophysics.wisc.edu/advanced-elective-approval-form/) (you will need a syllabus from the course and a short paragraph detailing why the class is relevant to your research).

## POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

All students are required to have an advisor by the end of their first semester in the program. Thesis committees must be formed prior to their preliminary exam. The committee consists of at least four other faculty members and the student's advisor. After gaining dissertator status, students are required to hold yearly progress report meetings with their committee until graduation.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)

- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances.

## OTHER

Fall semester enrollment only. First semester, program-sponsored lab rotations lead to thesis lab selection and research assistantship through the thesis advisor.

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Articulates, critiques, or elaborates the theories, research methods, and approaches to inquiry or schools of practice in the field of study.
2. Identifies sources and assembles evidence pertaining to questions or challenges in the field of study.
3. Understands the primary field of study in a historical, social or global context.
4. Selects and/or utilizes the most appropriate methodologies and practices.
5. Evaluates or synthesizes information pertaining to questions or challenges in the field of study.
6. Communicates clearly in ways appropriate to the field of study.
7. Recognizes and applies principles of ethical conduct.

# BIOPHYSICS, PHD

Biophysics is an interdisciplinary PhD program in the biosciences. It brings together students from diverse backgrounds (including biology, biochemistry, chemistry, physics, bioengineering, computational biology, neuroscience, cell biology, and so on) who are interested in research at the intersection of these disciplines.

Our broad interdepartmental program includes nearly 70 faculty trainers (https://biophysics.wisc.edu/labs/) from departments across five schools and colleges at UW–Madison: the College of Letters & Science, the College of Agricultural & Life Sciences, the College of Engineering, the School of Medicine and Public Health, and the School of Pharmacy. This highly collaborative environment provides a wide range of opportunities, including protein structure/function, and engineering; nucleic acid and membrane biophysics; neuroscience; virology; and synthetic and systems biology applied to both bacterial and eukaryotic organisms. These research areas share the goal of understanding biological systems in physical and mechanistic terms, utilizing advanced quantitative instrumental methods, and often integrating computation and machine learning. An overview of our research areas (https://biophysics.wisc.edu/research/) is available on our website.

UW–Madison is a hub of excellence in structural biology, equipped with major facilities, including the National Magnetic Resonance Facility, the CryoEM Research Center, and the Midwest Center for Cryo-Electron Tomography. Trainers at these centers provide outstanding research opportunities for students aiming to become experts in the application and/or development of structural biology.

Furthermore, many other accessible facilities and equipment in our trainers' laboratories offer advanced training in spectroscopy, microscopy, single-molecule imaging, high-throughput methods, Artificial Intelligence, and the integration of experimental and computational techniques used for analyzing and modeling macromolecules and biological systems.

The Biophysics Program houses the Molecular Biophysics Training Program (https://biophysics.wisc.edu/mbtp/) (MBTP), an NIH National Research Service Award (T32) from the National Institute of General Medical Sciences. The MBTP offers fellowships to twelve graduate students each year, funding interdisciplinary training at the intersection of the biological and physical sciences.

Biophysics is a diverse and collaborative scientific community whose goal is to prepare students from diverse academic backgrounds with rigorous interdisciplinary and quantitative training for careers in research and teaching across academia, industry, and other fields. Additionally, the program is flexible in its course requirements, emphasizing excellence in research and allowing coursework selection to be customized to meet a student's specific research interests and needs.

For more information, please visit the Biophysics Graduate Program website (https://biophysics.wisc.edu/).

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 1 |
| Spring Deadline | The program does not admit in the spring. |
| Summer Deadline | The program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required but may be considered if available. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

### EVALUATION PHILOSOPHY

The Biophysics Admissions Committee will carefully evaluate the potential of candidates to be successful in the Biophysics program by taking all components of the application into consideration. Applications will be reviewed holistically, and all aspects of training will be taken into account,

including research experience, letters of recommendation, personal statement and academic transcripts.

## APPLICANT CONSIDERATIONS

To qualify for admission to the program, an applicant must complete a bachelor's degree at a recognized, accredited college or university, or a comparable degree from an international institution. Biophysics is a broadly interdisciplinary program. We encourage applications from students from a wide variety of undergraduate training experiences in biology, biochemistry, chemistry, physics, computer science, computational biology, bioengineering, cell and molecular biology, neuroscience, or other biological or medical sciences. A successful candidate will have substantial prior research experience. Some level of experience in one or more of the biological disciplines through coursework or prior research is also highly beneficial.

Biophysics at the University of Wisconsin Madison is committed to building a diverse and inclusive community and strongly encourages candidates from underrepresented groups to apply. Applicants are encouraged to include in their statements information about how their background and life experiences shaped their interests in pursuing a research-oriented career and will make them successful in this program.

## APPLICATION MATERIALS

A complete application (https://grad.wisc.edu/apply/) (Graduate School website) includes:

- A resume or CV.
- Reasons for graduate study (address, in narrative essay form, your research experiences, reasons and goals for graduate study, and how earning a PhD will help you achieve your goals).
- Transcripts must be submitted from each institution that you have attended and listed on your graduate school application (undergraduate and graduate). Records from international institutions must be in the original language with an official English translation. Copies of transcripts must be uploaded to the online application.
- Three letters of recommendation:
  - Qualified references include faculty and/or supervisors, who have familiarity with your intellectual, academic, and research-oriented capabilities, accomplishments, and personality. Recommendations are included as part of your online application.
- A $75 non-refundable application fee. The application fee covers an application to three different graduate programs at UW-Madison. We encourage you to apply for the programs that best encompass your research interests, but you need to keep in mind that you will need to submit all application materials by the first program deadline. The UW Graduate School offers a limited number of application fee grants (https://grad.wisc.edu/apply/fee-grant/) to eligible students.
- Graduate Record Exam (GRE) scores are NOT required as part of the application submitted to the Biophysics Program. You can choose to include scores if you wish, but a lack of scores will not impact consideration of your application.

Candidates must meet the general requirements of the UW–Madison Graduate School, including an undergraduate GPA of 3.0 out of 4.0 in the last 60 semester hours. For more information, please visit the Prospective Students (https://biophysics.wisc.edu/prospective-students/) page on the Biophysics program's website.

# FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

The Biophysics Graduate Degree Program offers a yearly stipend in the form of traineeships or research assistantships to all PhD candidates and assists those with outstanding records in competing for university and national awards (fellowships). The program guarantees a full stipend for all its PhD candidates who remain in good standing. In addition to the stipend, all students receive tuition remission and are eligible for comprehensive health insurance.

# REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 51 credits |
| Minimum Residence Credit Requirement | 32 credits |
| Minimum Graduate Coursework Requirement | 26 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required.<br>Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | Degree requirements are not satisfied from courses in which a grade of BC or below is obtained for the Biophysics core courses. In the event of an unsatisfactory grade, the student must repeat the course and obtain a grade of B or better if they want to count the class towards their degree course requirements. |
| Assessments and Examinations | Students are required to complete an oral preliminary exam. The oral exam should be completed no later than the end of the student's third fall semester in the program. This exam consists of an oral defense of a written research proposal. The format of the research proposal is based on the format for an NIH F31 predoctoral grant application. If the student feels they need more time to complete the oral exam, they must request an extension from the Biophysics Office. |
| Language Requirements | No language requirements. |
| Graduate School Breadth Requirement | No doctoral minor or graduate/professional certificate required. |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Required by the time oral prelim is taken** | | |
| CHEM 665 | Biophysical Chemistry | 3 |
| CHEM 668 | Biophysical Spectroscopy | 3 |
| **Biophysics Advanced Electives** | | |
| Students must take at least 6 credits of advanced electives from at least two different categories using the following list of classes (alternative classes may be substituted with approval from the Biophysics Program Curriculum Committee): | | 6 |
| *Structure* | | |
| BIOCHEM 601 | Protein and Enzyme Structure and Function | |
| BIOCHEM 625 | Mechanisms of Action of Vitamins and Minerals | |
| CHEM 622 | Organic Analysis | |
| CHEM 675 | Introductory Quantum Chemistry | |
| MICROBIO/ BMOLCHEM 668 | Microbiology at Atomic Resolution | |
| ONCOLOGY 673 | Purification and Characterization of Protein and Protein Complexes | |
| *Modeling* | | |
| CHEM 661 | Chemical and Statistical Thermodynamics | |
| MATH/B M I/ BIOCHEM/ BMOLCHEM 609 | Mathematical Methods for Systems Biology | |
| *Molecular Biology* | | |
| BIOCHEM/ GENETICS/ MICROBIO 612 | Prokaryotic Molecular Biology | |
| BIOCHEM/ GENETICS/ MD GENET 620 | Eukaryotic Molecular Biology | |
| *Neuroscience* | | |
| NTP/ NEURODPT 610 | Cellular and Molecular Neuroscience | |
| *Spectroscopy & Microscopy* | | |
| BMOLCHEM 700 | Practical Biophysics | |
| B M E/ MED PHYS/ PHMCOL-M/PHYSICS/ RADIOL 619 | Microscopy of Life | |
| B M E 751 | Biomedical Optics and Biophotonics | |
| CHEM 636 | Topics in Chemical Instrumentation: Introduction to NMR | |
| CHEM 860 | Selected Topics in Physical Chemistry (Topic: Spectroscopy of Individual Molecules and Particles) | |
| BIOCHEM 729 | Advanced Topics (Topic: Advanced Topics in NMR) | |
| *Computation, Statistics & Bioinformatics* | | |
| B M I/ COMP SCI 776 | Advanced Bioinformatics | |
| ONCOLOGY 778 | Bioinformatics for Biologists | |
| STAT/ F&W ECOL 571 | Statistical Methods for Bioscience I | |
| **Ethics Course** | | |
| BIOCHEM 729 | Advanced Topics (Resp Conduct of Research) | 1-3 |
| **Seminar Courses** | | |
| 1st and 2nd year students are required to take CHEM/ BIOCHEM 872 (Topic: Macromolecular and Biophysical Chemistry) each semester during the first two years in the program. 3rd year students are required to take CHEM/ BIOCHEM 872 for one semester (either Fall or Spring) and a different seminar course in the other semester. 4th year and beyond are required to attend four (4) more seminar classes before graduation. These are typically 900-level one-credit courses based on the presentation and discussion of journal articles or individual research. | | 5-9 |
| CHEM/ BIOCHEM 872 | Selected Topics in Macromolecular and Biophysical Chemistry | |

| | |
|---|---|
| **Additional Coursework** | **33-36** |
| *Specialty Courses* | |
| Students can take specialty courses. It is recommended to take courses in areas such as biotechnology, computer science, electrical and computer engineering, molecular biology, or physics. Students should consult with their Thesis Advisor and thesis committee members about appropriate specialty courses to take pertaining to individual training goals. | |
| *Research Credits* | |
| Students are expected to register for 990 research credits every semester. These are the courses in which students will be conducting their independent research. First semester students will register for 990 research credits in the department of the Biophysics Program Director. Once a thesis lab is chosen, these credits will be conducted in the thesis advisor's home department. | |
| **Total Credits** | **51** |

### Advanced Electives Requirement

To meet the 6-credit minimum, all elective courses must be at least 2 credits. That means that students can, for example, take two 3-credit courses, three 2-credit courses, or one 2-credit and one 4-credit course to satisfy this requirement. The above list of courses were approved as elective course options by the Biophysics Steering Committee. If you are interested in a different course to count as an elective course towards your Biophysics graduate degree, the course needs to be approved by the Curriculum Committee. To request a course approval, please use this form (https://biophysics.wisc.edu/advanced-elective-approval-form/) (you will need a syllabus from the course and a short paragraph detailing why the class is relevant to your research).

### Ethics Requirement

Students are required to take an ethics course that covers all of the items considered necessary by the NIH for ethical and professional scientific training. It is strongly recommended that students take the ethics course during their first year. The recommended ethics course is: BIOCHEM 729 Advanced Topics (Responsible Conduct of Research). The Biophysics Program also conducts a mandatory ethics refresher seminar for all students that is held at the end of every spring semester.

## POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

All students are required to have an advisor by the end of their first semester in the program. Thesis committees must be formed at the end of a student's first year in the program. The committee consists of at least four other faculty members and the student's advisor and faculty must represent at least two different departments on campus. After gaining dissertator status, students are required to hold yearly progress report meetings with their committee until graduation.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)

- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

Students should contact the department chair or program director with questions about grievances.

### OTHER

Fall semester enrollment only. First semester, program-sponsored lab rotations lead to thesis lab selection and research assistantship through the thesis advisor.

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Articulates challenges, frontiers and limits with respect to theory, knowledge or practice within the field of study.
2. Formulates ideas, concepts, designs, and/or techniques beyond the current boundaries of knowledge within the field of study.
3. Creates research, scholarship or performance that makes a substantive contribution.
4. Demonstrates breadth within their learning experiences.
5. Communicates complex or ambiguous ideas in a clear and understandable manner.
6. Evaluates the implications of the discipline to broader social concerns.
7. Fosters ethical conduct and professional guidelines.

# CELLULAR AND MOLECULAR BIOLOGY, MS

Students are not admitted into the Cellular and Molecular Biology (CMB) Program for a terminal master's degree. However, a master's degree is officially offered. For more information, see the Cellular and Molecular Biology Handbook (link in Contact Information).

Graduate study in cellular and molecular biology at the University of Wisconsin–Madison is a research-oriented interdisciplinary program leading to the PhD degree. The university has one of the largest and most prestigious biology facilities in the world, well-noted for its cooperation and collaboration across department boundaries. The Cellular and Molecular Biology Program is an important part of that interdepartmental strength, providing students with the opportunity to work with more than 190 faculty members in 40 departments.

A major strength of the program is that it provides the opportunity for groups of investigators to work together on research topics of common interest. Research topic areas, identified as focus groups, are composed of faculty and students studying common research areas. Each group is held together by participation of both students and faculty at regular research presentations and by the participation of faculty on thesis committees of many students in the group. Because of the diverse nature of most research areas and the cross-fertilization among focus groups, many faculty and students participate in the activities of multiple focus groups.

The focus groups are: cancer biology; cell adhesion and cytoskeleton; cellular and molecular metabolism; developmental biology and regenerative medicine; immunology; membrane biology and protein trafficking; molecular and genome biology of microbes; physiology; plant biology; RNA biology; systems biology; transcriptional mechanisms; and virology.

## ADMISSIONS

# ADMISSIONS

This master's program is offered for work leading to the PhD. Students may not apply directly for the master's, and should instead see the admissions information for the PhD. (p. 996)

## FUNDING

## REQUIRED COURSES

All Cellular and Molecular Biology course requirements must be completed by the end of the student's second year, before completing the preliminary exam and obtaining dissertator status.

| Code | Title | Credits |
|---|---|---|
| **Course Requirements** [1] | | |
| Students must complete 11 credits from the following categories. | | 11 |
| *Molecular Biology Core* | | |
| At minimum, complete one of the following: | | |
| BIOCHEM/ GENETICS/ MD GENET 620 | Eukaryotic Molecular Biology | |
| BIOCHEM/ GENETICS/ MICROBIO 612 | Prokaryotic Molecular Biology | |
| ONCOLOGY/ M M & I/ PL PATH 640 | General Virology-Multiplication of Viruses | |
| *Cell Biology Core* | | |
| At minimum, complete one of the following: | | |
| BOTANY 860 | Plant Cell Biology | |
| ZOOLOGY/ NEURODPT 765 | Developmental Neuroscience | |
| PATH 750 | Cellular and Molecular Biology/ Pathology | |
| ONCOLOGY 703 | Carcinogenesis and Tumor Cell Biology | |
| GENETICS/ CRB 710 | Developmental Genetics | |
| GENETICS/ BOTANY/M M & I/ PL PATH 655 | Biology and Genetics of Fungi | |
| *Ethics Core* | | |
| At minimum, complete 1 credit from following: | | |
| BIOCHEM 729 | Advanced Topics | |
| COMP BIO/PATH-BIO 812 | Research Ethics and Career Development | |
| PATH 755 | Responsible Conduct in Research: Research Ethics, Rigor, Reproducibility and Transparency | |
| PHARMACY 800 | Research Ethics: Scientific Integrity and the Responsible Conduct of Research | |
| MED HIST 730 | Topics in Bioethics | |
| *Elective Courses* | | |
| Students may complete elective courses or additional courses from above to satisfy 11-credit course requirement. | | |
| B M E 510 | Introduction to Tissue Engineering | |
| B M E 520 | Stem Cell Bioengineering | |
| B M E 545 | Engineering Extracellular Matrices | |
| B M I/ COMP SCI 576 | Introduction to Bioinformatics | |
| B M I/STAT 541 | Introduction to Biostatistics | |
| B M I 773 | Clinical Research Informatics | |
| B M I/ COMP SCI 775 | Computational Network Biology | |
| B M I/STAT 877 | Statistical Methods for Molecular Biology | |
| BIOCHEM/B M I/ BMOLCHEM/ MATH 609 | Mathematical Methods for Systems Biology | |
| BIOCHEM/ BOTANY 621 | Plant Biochemistry | |
| BIOCHEM/ NUTR SCI 619 | Advanced Nutrition: Intermediary Metabolism of Macronutrients | |
| BIOCHEM 601 | Protein and Enzyme Structure and Function | |
| BIOCHEM/ NUTR SCI 645 | Molecular Control of Metabolism and Metabolic Disease | |

| PATH-BIO 675 | Special Topics |
| ZOOLOGY 604 | Computer-based Gene and Disease/Disorder Research Lab |
| **Research Requirement** | |
| A minimum of 30 credits taken in graduate level courses are required: the 11 above, and the remaining credits can be 990 research credits. | 19 |
| **Total Credits** | **30** |

[1] EXCEPTION: MD/PhD students are only required to take 3 credits from the Core Curriculum or the Elective Courses list.

[2] EXCEPTION: MD/PhD students are not required to take an ethics course because they received this training in their MD courses.

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

On a case by case basis, this program refers to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

On a case by case basis, this program refers to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

On a case by case basis, this program refers to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy

### Credits Earned as a University Special student at UW–Madison

On a case by case basis, this program refers to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

The thesis advisor will assist the graduate student throughout the duration of their studies. Upon choosing a thesis advisor, the student should formulate goals and expectations when starting in a permanent lab home. The student and thesis advisor should work together to ensure that mutual goals and expectations are met. The thesis advisor will monitor and guide the student's progress toward their degree, provide the student with advice about how and when to meet the degree requirements of the program, and help the student decide on appropriate coursework during their studies.

After joining a thesis lab, students are required to form a thesis committee. The purpose of the thesis committee is to: guide the student through the process of earning their degree and meeting all Cellular and Molecular Biology program requirements; assist the student in developing as an independent scientist in the student's area of research; provide the

student with an array of ideas and opportunities regarding the direction of their research and thesis project; and evaluate the student's research proposal, attend curriculum certification, preliminary exam, annual progress report, and thesis defense.

The thesis committee consists of five faculty members, including the thesis advisor. All committee members must be readers when the student defends their dissertation. Three committee members, including the thesis advisor, must be faculty trainers in the Cellular and Molecular Biology program. Two committee members must be outside the student's direct area of expertise.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

### Overview

If a student feels unfairly treated or aggrieved by faculty, staff, or another student, the University offers several avenues to resolve the grievance. Students' concerns about unfair treatment are best handled directly with the person responsible for the objectionable action. If the student is uncomfortable making direct contact with the individual(s) involved, they should contact the advisor or the person in charge of the unit where the action occurred (CMB Program Administration or Chair, Lab Department Administration or Chair, Lab Manager, etc.). Many departments and schools/colleges have established specific procedures for handling such situations; check their web pages for more information. If such procedures exist at the local level, these should be investigated first. For more information, see the Graduate School Academic Policies and Procedures. (http://grad.wisc.edu/acadpolicy/#grievancesandappeals)

### Procedure

Procedures for proper accounting of student grievances within the CMB Program:

- The student is encouraged to speak first with the person toward whom the grievance is directed to see if a situation can be resolved interpersonally at this level.
- Should satisfactory resolution not be achieved, the student should contact the CMB Office and the CMB Program Chair to discuss the grievance. The program will facilitate problem resolution through informal channels and facilitate any complaints or issues of students. The first attempt is to help the student informally address the grievance prior to any formal complaint. Students are also encouraged to talk with their faculty advisor or thesis committee members if appropriate.
- If the issue is not resolved to the student's satisfaction, the student can submit a formal grievance in writing to the CMB Office and CMB Program Chair. The written formal grievance must be submitted within 60 days of the alleged unfair treatment.
- On receipt of a written complaint, a faculty committee will be convened within 10 working days by the CMB Program to manage the grievance. The program faculty committee will obtain a written response from the person toward whom the complaint is directed. This response will be shared with the person filing the grievance.
- Within 10 working days of being convened, the faculty committee will make a decision regarding the grievance. The CMB Program will report on the committee's decision and any action taken by the committee in writing to both the student and the party toward whom the complaint was directed.
- At this point, if either party (the student or the person toward whom the grievance is directed) is unsatisfied with the decision of the faculty committee, the party may file a written appeal within 10 working days of the committee's decision. The appeal will go to the tenure home School/College of the grieving student's primary advisor.

The Graduate School has procedures for students wishing to further appeal a grievance decision made at the school/college level. These policies are described in the Graduate School's Academic Policies and Procedures. (https://grad.wisc.edu/documents/grievances-and-appeals/)

## OTHER

Cellular and Molecular Biology students all earn a stipend that is set by the program each year, and tuition is covered. First year rotating students are funded through the Cellular and Molecular Biology program during the first semester. After the first semester, students are typically funded by their thesis advisor. In some cases, students earn individual fellowships or training grant slots and are funded through these mechanisms. Please contact the Cellular and Molecular Biology program for specific questions about stipend level, etc.

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Gain a broad understanding of the cellular and molecular principles that underlie biological processes.
2. Develop proficiency in a chosen area of cellular and molecular biology.
3. Learn to think critically and problem solve to address research challenges using a broad range of theories, research methods, and approaches to scientific inquiry.
4. Create research and scholarship that makes a substantive contribution to the field of cellular and molecular biology.
5. Experience collaboration with scientists within the lab, the department, the program, the university, and beyond.
6. Clearly and effectively communicate scientific ideas and research to both scientists and non-scientists in written and oral forms.
7. Exhibit and foster ethical and professional conduct.
8. Gain exposure to potential career paths and develop leadership and professional skills that will prepare them for a successful and rewarding career.
9. Develop and apply skills to foster a climate of inclusion for diverse members of the scientific community.

# CELLULAR AND MOLECULAR BIOLOGY, PHD

The graduate program in Cellular and Molecular Biology (CMB) has been a pioneer in graduate education fields of cell biology and molecular biology at the University of Wisconsin–Madison since 1961. The program is research-oriented and interdisciplinary leading to the PhD degree. UW–Madison has one of the largest and most prestigious biology facilities in the world, well-noted for its cooperation and collaboration across department boundaries. Cellular and Molecular Biology (CMB) is an important part of that interdepartmental strength, providing students with the opportunity to work with more than 200 faculty members in 40 departments.

Research and coursework experience allow students to obtain a solid foundation in cell biology and molecular biology that is tailored to their professional objectives. Research focus groups are composed of students and faculty studying a common research area. The focus groups are: cancer biology, cell adhesion and cytoskeleton, cellular and molecular metabolism, developmental biology and regenerative medicine, immunology, membrane biology and protein trafficking, molecular and genome biology of microbes, physiology, plant biology, RNA biology, systems biology, transcriptional mechanisms, and virology.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 1 |
| Spring Deadline | The program does not admit in the spring. |
| Summer Deadline | The program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

Admission to the program is highly competitive. Admission is based on demonstrated ability and interest in biology, chemistry, and the physical sciences; three letters of recommendation; and the personal statement. Previous research experience is required. All application materials must be received by the fall deadline in order to be reviewed by the Cellular and Molecular Biology Admissions Committee. More information about Cellular and Molecular Biology Admissions can be found on the Cellular Molecular Biology website (https://cmb.wisc.edu/admissions/).

## FUNDING

# FUNDING

### GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

### PROGRAM RESOURCES

All students accepted into the PhD degree program receive financial support from Graduate School fellowships, interdepartmental training grants, and/or research assistantships. The program strives to maintain

a nationally competitive stipend. Students are guaranteed a stipend each year in addition to tuition remission. The current stipend rate can be found on the Financial (https://cmb.wisc.edu/financial-health-insurance/) page of the CMB handbook. Graduate students are also eligible for comprehensive health insurance; individual or family coverage is available at a minimal cost. Students are strongly encouraged to apply for a National Science Foundation Graduate Fellowship at the time of application to graduate school and/or during the first or second year on campus.

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 51 credits |
| Minimum Residence Credit Requirement | 32 credits |
| Minimum Graduate Coursework Requirement | 51 credits credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required.<br>Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | n/a |
| Assessments and Examinations | Doctoral students are required to take a comprehensive preliminary/oral examination at the end of their second year. In order to complete their preliminary exam, students must have cleared their record of all Incomplete and Progress grades (other than research and thesis). Deposit of the doctoral dissertation in the Graduate School is required. |
| Language Requirements | No language requirements. |
| Graduate School Breadth Requirement | Doctoral students in the CMB program are not required to complete a doctoral minor or graduate/professional certificate, but may choose to. |

## REQUIRED COURSES

All Cellular and Molecular Biology course requirements must be completed by the end of the student's second year, before completing the preliminary exam and obtaining dissertator status.

| Code | Title | Credits |
|---|---|---|
| **Course Requirements** [1] | | |
| Students must complete 11 credits from the following categories. | | 11 |
| *Molecular Biology Core* | | |
| At minimum, complete one of the following: | | |
| BIOCHEM/ GENETICS/ MD GENET 620 | Eukaryotic Molecular Biology | |
| BIOCHEM/ GENETICS/ MICROBIO 612 | Prokaryotic Molecular Biology | |
| ONCOLOGY/ M M & I/ PL PATH 640 | General Virology-Multiplication of Viruses | |
| *Cell Biology Core* | | |
| At minimum, complete one of the following: | | |
| BOTANY 860 | Plant Cell Biology | |
| ZOOLOGY/ NEURODPT 765 | Developmental Neuroscience | |
| PATH 750 | Cellular and Molecular Biology/ Pathology | |
| ONCOLOGY 703 | Carcinogenesis and Tumor Cell Biology | |
| GENETICS/ CRB 710 | Developmental Genetics | |
| GENETICS/ BOTANY/M M & I/ PL PATH 655 | Biology and Genetics of Fungi | |
| *Ethics Core* | | |
| At minimum, complete 1 credit from following: | | |
| BIOCHEM 729 | Advanced Topics | |
| COMP BIO/PATH-BIO 812 | Research Ethics and Career Development | |

| | |
|---|---|
| PATH 755 | Responsible Conduct in Research: Research Ethics, Rigor, Reproducibility and Transparency |
| PHARMACY 800 | Research Ethics: Scientific Integrity and the Responsible Conduct of Research |
| MED HIST 730 | Topics in Bioethics |
| *Elective Courses* | |
| Students may complete elective courses or additional courses from above to satisfy 11-credit course requirement. | |
| B M E 510 | Introduction to Tissue Engineering |
| B M E 520 | Stem Cell Bioengineering |
| B M E 545 | Engineering Extracellular Matrices |
| B M I/ COMP SCI 576 | Introduction to Bioinformatics |
| B M I/STAT 541 | Introduction to Biostatistics |
| B M I 773 | Clinical Research Informatics |
| B M I/STAT 877 | Statistical Methods for Molecular Biology |
| B M I/ COMP SCI 775 | Computational Network Biology |
| BIOCHEM/B M I/ BMOLCHEM/ MATH 609 | Mathematical Methods for Systems Biology |
| BIOCHEM/ BOTANY 621 | Plant Biochemistry |
| BIOCHEM/ NUTR SCI 619 | Advanced Nutrition: Intermediary Metabolism of Macronutrients |
| BIOCHEM 601 | Protein and Enzyme Structure and Function |
| BOTANY/ ENTOM/ PL PATH 505 | Plant-Microbe Interactions: Molecular and Ecological Aspects |
| BIOCHEM/ NUTR SCI 645 | Molecular Control of Metabolism and Metabolic Disease |
| BMOLCHEM 700 | Practical Biophysics |
| BOTANY/ PL PATH 563 | Phylogenetic Analysis of Molecular Data |
| CRB/ MEDICINE 701 | Cell Signaling and Human Disease |
| CRB 640 | Fundamentals of Stem Cell and Regenerative Biology |
| CRB 670 | Biology of Cardiac Function and Disease |
| CRB 720 | Experimental Approaches to Development and Organogenesis: Methods, Techniques, and Insights |
| F&W ECOL/ STAT 571 | Statistical Methods for Bioscience I |
| PLANTSCI 550 | Molecular Approaches for Crop Improvement |
| GENETICS 588 | Immunogenetics |
| GENETICS/ BIOCHEM 631 | Plant Genetics and Development |
| GENETICS 633 | Population Genetics |
| GENETICS/ MD GENET 662 | Cancer Genetics |
| GENETICS 885 | Advanced Genomic and Proteomic Analysis |
| M M & I/PATH-BIO 528 | Immunology |
| M M & I 677 | Advanced Topics in Medical Microbiology |
| M M & I 740 | Mechanisms of Microbial Pathogenesis |
| MICROBIO 626 | Microbial and Cellular Metabolomics |
| MICROBIO 657 | Bioinformatics for Microbiologists |
| NEURODPT/NTP/ PSYCH 611 | Systems Neuroscience |
| M M & I/PATH-BIO 750 | Host-Parasite Relationships in Vertebrate Viral Disease |
| MICROBIO/ BMOLCHEM 668 | Microbiology at Atomic Resolution |
| NEURODPT/ NTP 610 | Cellular and Molecular Neuroscience |
| ONCOLOGY 675 | Advanced or Special Topics in Cancer Research |
| ONCOLOGY 778 | Bioinformatics for Biologists |
| OPHTHALM 750 | Ocular Diseases of the Mammalian Vision System |
| PATH 751 | Biology of Aging |
| PATH 803 | Pathogenesis of Major Human Diseases |
| PATH 807 | Immunopathology: The Immune System in Health and Disease |
| PATH-BIO 675 | Special Topics |
| ZOOLOGY 604 | Computer-based Gene and Disease/Disorder Research Lab |
| **Research Requirement** | |
| A minimum of 51 credits taken in graduate level courses are required: the 11 above, and the remaining credits can be 990 research credits. | 40 |
| **Total Credits** | **51** |

[1] EXCEPTION: MD/PhD students are only required to take 3 credits from the Core Curriculum or the Elective Courses list.

[2] EXCEPTION: MD/PhD students are not required to take an ethics course because they received this training in their MD courses.

# POLICIES

## GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

On a case-by-case basis, refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

On a case-by-case basis, refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

On a case-by-case basis, refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special student at UW–Madison

On a case-by-case basis, refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

The thesis advisor will assist the graduate student throughout the duration of their PhD studies. Upon choosing a thesis advisor, the student should formulate goals and expectations when starting in a permanent lab home. The student and thesis advisor should work together to ensure that mutual goals and expectations are met. The thesis advisor will monitor and guide the student's progress toward the PhD degree, provide the student with advice about how and when to meet the degree requirements of the program, and help the student decide on appropriate coursework during PhD studies.

After joining a thesis lab, students are required to form a thesis committee. The purpose of the thesis committee is to: guide the student through the process of earning the PhD degree and meeting all Cellular and Molecular Biology program requirements; assist the student in developing as an independent scientist in the student's area of research; provide the student with an array of ideas and opportunities regarding the direction of the research and thesis project; and evaluate the student's research proposal, attend curriculum certification, preliminary exam, annual progress report, and thesis defense.

The thesis committee consists of five faculty members, including the thesis advisor. All committee members must be readers when the student defends their dissertation. Three committee members, including the thesis advisor, must be faculty trainers in the Cellular and Molecular Biology program. Two committee members must be outside the student's direct area of expertise.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

### Overview

If a student feels unfairly treated or aggrieved by faculty, staff, or another student, the University offers several avenues to resolve the grievance. Students' concerns about unfair treatment are best handled directly with the person responsible for the objectionable action. If the student is uncomfortable making direct contact with the individual(s) involved, they should contact the advisor or the person in charge of the unit where the action occurred (CMB Program Administration or Chair, Lab Department Administration or Chair, Lab Manager, etc.). Many departments and schools/colleges have established specific procedures for handling such situations; check their web pages for more information. If such procedures exist at the local level, these should be investigated first. For more information, see the Graduate School Academic Policies and Procedures. (http://grad.wisc.edu/acadpolicy/#grievancesandappeals)

### Procedure

Procedures for proper accounting of student grievances within the CMB Program:

- The student is encouraged to speak first with the person toward whom the grievance is directed to see if a situation can be resolved interpersonally at this level.
- Should satisfactory resolution not be achieved, the student should contact the CMB Office and the CMB Program Chair to discuss the grievance. The program will facilitate problem resolution through informal channels and facilitate any complaints or issues of students. The first attempt is to help the student informally address the grievance prior to any formal complaint. Students are also encouraged to talk with their faculty advisor or thesis committee members if appropriate.
- If the issue is not resolved to the student's satisfaction, the student can submit a formal grievance in writing to the CMB Office and CMB Program Chair. The written formal grievance must be submitted within 60 days of the alleged unfair treatment.
- On receipt of a written complaint, a faculty committee will be convened within 10 working days by the CMB Program to manage the grievance. The program faculty committee will obtain a written response from the person toward whom the complaint is directed. This response will be shared with the person filing the grievance.
- Within 10 working days of being convened, the faculty committee will make a decision regarding the grievance. The CMB Program will report on the committee's decision and any action taken by the committee in writing to both the student and the party toward whom the complaint was directed.
- At this point, if either party (the student or the person toward whom the grievance is directed) is unsatisfied with the decision of the faculty committee, the party may file a written appeal within 10 working days of the committee's decision. The appeal will go to the tenure home School/College of the grieving student's primary advisor.

The Graduate School has procedures for students wishing to further appeal a grievance decision made at the school/college level. These policies are described in the Graduate School's Academic Policies and Procedures. (https://grad.wisc.edu/documents/grievances-and-appeals/)

### OTHER

Cellular and Molecular Biology students all earn a stipend that is set by the program each year, and tuition is covered. First year rotating students are funded through the Cellular and Molecular Biology program during the first semester. After the first semester, students are typically funded by their thesis advisor. In some cases, students earn individual fellowships or training grant slots and are funded through these mechanisms. Contact the Cellular and Molecular Biology program for specific questions about stipend level, etc.

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

### PROGRAM RESOURCES

The CMB program offers and encourages participation in many professional development opportunities. The student-led Professional Development Committee plans events such as visiting speakers, panelists, and an annual mock interview event. The program shares information about alumni and their current employment with CMB students and encourages collaboration between the two groups. At the annual student retreat, students hear a panel featuring CMB alumni working in academic and non-academic positions. Program requirements such as an annual oral presentation and an annual thesis committee meeting foster professional development skills. Students also have opportunities to participate in program governance and leadership roles in other program activities such as advising and orientation, recruiting, admissions, the Diversity, Equity & Inclusion Committee, and the Coordinating Committee. A weekly email newsletter publicizes other relevant upcoming professional development opportunities. More information can be found on the CMB Professional Development page (https://cmb.wisc.edu/professional-development/).

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Gain a broad understanding of the cellular and molecular principles that underlie biological processes.
2. Develop proficiency in a chosen area of cellular and molecular biology.
3. Learn to think critically and problem solve to address research challenges using a broad range of theories, research methods, and approaches to scientific inquiry.
4. Create research and scholarship that makes a substantive contribution to the field of cellular and molecular biology.
5. Experience collaboration with scientists within the lab, the department, the program, the university, and beyond.
6. Clearly and effectively communicate scientific ideas and research to both scientists and non-scientists in written and oral forms.
7. Exhibit and foster ethical and professional conduct.
8. Gain exposure to potential career paths and develop leadership and professional skills that will prepare them for a successful and rewarding career.
9. Develop and apply skills to foster a climate of inclusion for diverse members of the scientific community.

# DISTRIBUTED, DOCTORAL MINOR

The distributed doctoral minor is one option for meeting the Graduate School breadth requirement. Distributed minors are administered by the student's major program advisor. Specific course requirements for the distributed minor must follow the Graduate School policy.

## ADMISSIONS

# ADMISSIONS

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any doctoral minor. To apply to the distributed minor, log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. Select the information for the distributed minor.

## REQUIREMENTS

# REQUIREMENTS

Breadth is a required component of doctoral training at UW–Madison. Given there are multiple paths to breadth, the Graduate School leaves the choice of whether students achieve breadth through a doctoral minor (two options as described below), graduate/professional certificate, or other means up to the specific graduate program. The specific Breadth Requirement Policy, including information on certificates, is found here: https://policy.wisc.edu/library/UW-1200 (https://policy.wisc.edu/library/UW-1200/)

Minor options are as follows:

**Option A** (external): Requires a minimum of 9 credits in a minor program (single disciplinary or multi-disciplinary). Fulfillment of this option requires the approval of the minor program.

**Option B** (distributed): Requires a minimum of 9 credits in one or more programs forming a coherent topic, and can include coursework in the program. Fulfillment of this option requires the approval of the major program.

The Graduate School's minimum course requirements for the minor include:

- An average GPA of 3.00 on all minor coursework;
- Coursework must be graded courses numbered 300 or above; no audits or pass/fail;
- Maximum 3 credits of independent study (e.g., 699, 799, 899, 999);
- Research and thesis cannot be used to satisfy the minor (e.g., 790, 890, 990);
- No more than 5 credits of coursework completed more than 5 years prior to admission to the doctoral program; coursework taken 10 years ago or more may not be used.

# HIGHER EDUCATION TEACHING AND LEARNING, GRADUATE/PROFESSIONAL CERTIFICATE

Completing the Certificate in Higher Education Teaching and Learning represents your commitment to excellence as an educator. This certificate prepares you to become a leader in teaching and learning, promoting inclusive and effective educational experiences at the college level. Through this program, you will gain the skills and confidence needed to thrive as an instructor and mentor, be competitive for faculty positions and other academic roles, and contribute to the advancement of teaching and learning practices in your discipline.

Within this certificate program, you will:

- Build foundational knowledge and skills in evidence-based teaching
- Develop strategies to foster inclusive and equitable learning experiences
- Engage with a community that values teaching and learning in higher education
- Become a more confident and effective instructor and mentor
- Prepare for success in the academic job market

Graduate students in any disciplinary area are encouraged to engage in this certificate program, with or without previous teaching experience.

## ADMISSIONS

# ADMISSIONS

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any graduate/professional certificate. To apply to this certificate, log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. Select the information for the certificate for which you are applying. Professional students in the careers of Law, Medicine, Pharmacy, and Veterinary cannot add the certificate in the Graduate Student Portal, and should contact the program for more information.

Students are encouraged to contact the certificate administrator (info@delta.wisc.edu) as soon as they are interested in the program. Students should add the certificate before completing more than four credits towards the certificate.

## REQUIREMENTS

# REQUIREMENTS

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Core** | | |
| Students must complete the following courses: | | |
| E P D 654 | Teaching in Science and Engineering | 2 |
| or INTEGSCI 650 | College Science Teaching | |
| ELPA 662 | Expeditions in Evidence-based Teaching and Learning | 2 |
| ELPA 663 | Capstone Seminar in Teaching and Learning | 1 |
| **Electives** | | |
| Students must complete at least four credits from the electives course list. Courses outside of this list may be approved by the program. | | 4 |
| **Total Credits** | | **9** |

### Electives

| Code | Title | Credits |
|---|---|---|
| INTEGSCI 640 | Public Service in STEM | 1 |
| INTEGSCI 660 | Research Mentor Training Practicum (students must be concurrently mentoring to take this course) | 1 |

## LEARNING OUTCOMES

## LEARNING OUTCOMES

1. Use principles of backward design to develop and align evidence-based, student-centered learning objectives, assessments, and learning activities for college students.
2. Describe and design approaches to creating a successful learning community among diverse groups of learners.
3. Integrate pedagogical knowledge and skills within disciplinary content knowledge to design effective and inclusive learning experiences for higher education learners.
4. Develop a continuing practice of professional development and reflective growth in evidence-based and inclusive teaching.
5. Demonstrate commitment and knowledge in higher education teaching through creating materials that integrate pedagogical knowledge and skills and align with career(s) of interest.

# SPECIAL GRADUATE COMMITTEE, MA

(via Graduate School Academic Policies & Procedures (https://grad.wisc.edu/acadpolicy/#specialgraduatecommitteedegrees))

The Graduate School can authorize special committees to supervise master's or doctoral programs for students whose needs cannot be met within an established program. Students must first be accepted into a graduate-degree-granting program and establish one semester of full-time graduate work at UW–Madison, and then the faculty advisor should submit a proposal for a special committee degree. Students should check with the Graduate School and the individual faculty member with whom they are interested in working.

Special graduate committee degrees are one-of-a-kind degrees built around unique needs of individual students that cannot be satisfied by approved programs (e.g., by existing major program/minor combinations, joint degrees, distributed minors, etc.) and may permit individual degrees in new and emerging fields or combinations of disciplines. A higher degree of independence is required on the part of the student, since easily available guidance provided by programs is often more difficult to obtain, and there is not the usual collegial group of students in closely related research and coursework.

## ADMISSIONS

## ADMISSIONS

(via Graduate School Academic Policies & Procedures (https://grad.wisc.edu/acadpolicy/#specialgraduatecommitteedegrees))

The master's and doctoral special graduate committee guidelines are:

1. Prospective students who may have an interest in a special graduate committee degree should apply to the degree program that is closest to their program interest.
2. Upon receipt of an application on which a prospective student has expressed interest in a special graduate committee degree, the program will follow all relevant program admission requirements.
3. Students may not be admitted directly to a special graduate committee degree program. They must be accepted for admission by an established department or program and be attending classes at UW–Madison before a proposal for a special graduate committee degree will be considered by the Graduate School.
4. The department or program admitting the student must be prepared to see the student through an established degree program. No commitments are made to provide a special graduate committee degree until after the student is enrolled and the proposal for the special degree and the student's ability at the graduate level have been evaluated and approved.
5. The student's advisor authors and submits the special graduate committee degree proposal on behalf of the student as early in the student's program as possible. Proposals submitted after a substantial portion of the program has been completed will not be accepted. Doctoral proposals must be submitted by the end of the first year of graduate work. Master's proposals must be submitted after the equivalent of the first full-time semester of graduate work. The proposal should consist of the following elements:
   - The reasons the special graduate committee program is needed and an explanation of why the student's needs cannot be met within existing programs.
   - The exact title of the proposed degree program (which should be brief and descriptive).
   - The proposed course and seminar program of graduate work on this campus. Include the course title, program, course number, credits, grade, and semester taken/to be taken.
   - Any specific requirements of the dissertation or thesis (language, equipment, etc.).
   - The nature and scope of preliminary examinations for the doctoral degree, or the examination procedure for the master's degree.
   - The nature of the dissertation or thesis (general subject area).
   - The names of the faculty members who, in addition to the advisor, are willing to share the responsibility of supervising the student's program. Including the advisor, the doctoral degree requires five members (including four UW–Madison graduate faculty members), and the master's degree requires three members (including two UW–Madison graduate faculty members). Approval signatures of the committee members are required on the proposal.
6. The Graduate School will carefully review proposals to determine whether or not the program can be carried out within an established department or program, joint degrees, appropriate use of minors, or other available mechanisms. The suitability and degree of commitment of the committee for the proposed program will be examined.
7. The chairperson of the committee (usually the advisor) should be a member of the program to which the student originally had been admitted. That program should remain the keeper of the student's records and should make all appropriate nominations for financial aid.
8. The Graduate School is concerned about maintaining active participation by all members of special degree committees in the ongoing program of the student and asks the individual members of the committee to assume program responsibilities provided institutionally in a conventional program. Faculty members who are willing to serve on these committees should be prepared to participate fully in all aspects of the student's program from the beginning,

especially where they must provide the necessary expertise in their particular areas of interest.

## REQUIREMENTS

### MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

### MAJOR REQUIREMENTS

Since the curriculum of the special graduate committee degree will vary, students must work closely with their faculty advisor and committee to make sure they are completing all necessary coursework and other requirements.

# SPECIAL GRADUATE COMMITTEE, MS

(via Graduate School Academic Policies & Procedures (https://grad.wisc.edu/acadpolicy/#specialgraduatecommitteedegrees))

The Graduate School can authorize special committees to supervise master's or doctoral programs for students whose needs cannot be met within an established program. Students must first be accepted into a graduate-degree-granting program and establish one semester of full-time graduate work at UW–Madison, and then the faculty advisor should submit a proposal for a special committee degree. # HISTORY

DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

## DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/ PROFESSIONAL CERTIFICATES

- History of Science, Medicine and Technology, Doctoral Minor (p. 1005)
- History of Science, Medicine and Technology, MA (p. 1005)
- History of Science, Medicine and Technology, PhD (p. 1011)
- History, Doctoral Minor (p. 1019)
- History, MA (p. 1019)
- History, PhD (p. 1025)
- Medieval Studies, Doctoral Minor (p. 1031)

# HISTORY OF SCIENCE, MEDICINE AND TECHNOLOGY, DOCTORAL MINOR

Students in other degree programs who wish to pursue a minor in the History of Science, Medicine, and Technology (HSMT) degree program must reach an agreement on an appropriate plan of study with an HSMT faculty member, who serves as the minor advisor. The "Minor Agreement for Non-History Majors" form can be found on the Department of History's website (https://history.wisc.edu/wp-content/uploads/sites/202/2018/07/graduate-minoragreement-nonhistorymajors.pdf), and must be approved by the Graduate Program Manager and the Director of Graduate Studies prior to the beginning of coursework.

ADMISSIONS

## ADMISSIONS

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any doctoral minor. To apply to this minor, log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. Select the information for the doctoral minor for which you are applying.

REQUIREMENTS

## REQUIREMENTS

Credits Required: 9

Any History of Science (HIST SCI) (https://guide.wisc.edu/courses/hist_sci/) courses that fit within the following criteria may be used to fulfill the nine-credit requirement:

- At least 6 credits in graduate seminars, and no more than 3 credits in courses numbered 300-699 without the graduate designation (Grad 50%).
- HIST SCI 990 Research and Thesis may not be used to fulfill the minor requirement.
- The minor field may include up to 3 credits of HIST SCI 999 Independent Work, provided that the student produces at least 15 pages of written work.

# HISTORY OF SCIENCE, MEDICINE AND TECHNOLOGY, MA

One of the oldest, most prestigious academic programs of its kind in the United States, History of Science, Medicine, and Technology (HSMT) draws together faculty members in History and in Medical History and Bioethics (http://medhist.wisc.edu/). Collectively, we offer broad coverage of the field, with expertise that spans Europe, the United States, Africa, and the Caribbean, stretches from the Middle Ages to the recent past, and ranges across the physical, biological, and social sciences to medicine and technology.

Our degree program in the History of Science, Medicine, and Technology is designed to meet the needs of the PhD candidate, and we only offer funding (https://history.wisc.edu/our-graduate-program/prospective-students/funding/) to students who intend to pursue the PhD. However, we welcome applications from students who wish to earn only the MA if they have external funding. Students with doctoral training in one of the health professions may earn an MA in History of Medicine. It is also possible to earn a combined MD/PhD degree through the School of Medicine and Public Health's Medical Scientist Training Program (https://www.med.wisc.edu/education/md-phd/) and the HSMT degree program.

History of Science, Medicine, and Technology at UW–Madison is known for the strength and diversity of its areas of study and its warm, collegial environment. All historical aspects of science, medicine, and technology receive attention—from their internal development to their broader institutional, philosophical, religious, and literary contexts, as well as

their relationships with print culture, visual culture, and material culture. Students and faculty regularly participate in the program's weekly Brown Bag and monthly colloquium series, both of which provide opportunities to present work, discuss professional issues, and engage with a wide range of on-campus and outside speakers.

Graduate students come to the History of Science, Medicine, and Technology degree program from a variety of backgrounds in the sciences and humanities and with diverse professional goals. The program maintains a policy of maximum flexibility and, insofar as possible, tailors the work required for the degree to fit the individual. Students are encouraged to undertake work in related programs such as history, philosophy, science, and technology studies and the various sciences.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(*https://grad.wisc.edu/apply/requirements/*) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 1 |
| Spring Deadline | This program does not admit in the spring. |
| Summer Deadline | This program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

## APPLICATION MATERIALS

To apply, applicants must include the following in the Graduate School's online application (https://grad.wisc.edu/apply/):

### History Supplemental Application

This section of the application asks applicants to provide information about research interests, declare preferred faculty advisors, and outline prior language preparation (if any).

### Writing Sample

Provide a sample that best illustrates the quality of an applicant's written work (optimally no more than 50 pages, double-spaced; maximum file size 6 MB).

### Transcripts

Upload an unofficial copy of transcript from all institutions attended, showing any undergraduate and graduate degrees awarded. If recommended for admission, the Graduate School will ask for official transcripts from each institution.

### CV or Resumé

This should highlight an applicant's accomplishments and qualifications including academic honors or distinctions; professional, research, and/or teaching experience; and any publications.

### Letters of Recommendation

Provide contact information for the three individuals who will furnish recommendations on an applicant's behalf (they will receive an upload link by email). Letter writers need not be historians, but they should be able to speak to an applicant's academic preparation to pursue historical studies at the graduate level.

### Statement of Purpose

The Statement of Purpose (2-3 pages, double-spaced, pdf file format) explains an applicant's reasons for graduate study. It may be the hardest part of the application to write, but it is also the most important. While an applicant will likely include some autobiographical information, its primary purpose is to acquaint us with how an applicant's mind works. We want to know, for example, what kinds of intellectual problems and issues interest an applicant, whose stories intrigue them, what sorts of analytical or narrative approaches they'd like to pursue, which historical writings they admire—and their reasons for these various preferences. Please help us understand the applicant's decision to enter the historical profession and how they see their own role in it. An applicant can feel free to explain how their background and life experiences, including cultural, geographical, financial, educational, or other opportunities or challenges have motivated their decision to pursue a graduate degree at the University of Wisconsin. There is no single right way to approach this part of the application, but we suggest that applicant's bear in mind the usual cautions for personal writing: speak straightforwardly, in their own voice, and write as well as they know how.

## INTERNATIONAL APPLICANTS

All international applicants must also meet the **English Proficiency** requirements (https://grad.wisc.edu/admissions/requirements/) set forth by the Graduate School.

For additional detail about the admissions process, please visit the Prospective Student (https://history.wisc.edu/our-graduate-program/prospective-students/) pages on our website.

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

We offer funding only to students who intend to pursue the PhD—an application for admission to our PhD program, therefore, is an application for funding. We also welcome applications from students who have external funding or are self-funded, including those pursuing the MA only.*

### Multi-year funding package

If you apply to the History of Science, Medicine, and Technology (HSMT) PhD degree program without external or self-funding and are accepted, you will be offered a multi-year support package, which begins in your first year. The details of our support guarantees may vary by funding source, field of study, and other circumstances, and the guarantee is, of course, contingent on satisfactory progress and performance. Most of our support packages offer five years of support and begin with a fellowship year from the UW–Madison Graduate School, generously funded by the Wisconsin Alumni Research Foundation (http://www.warf.org/stewardship/grants-support/current/current-grant.cmsx).

Additional years of guaranteed funding will come from employment as teaching assistants or project assistants or additional fellowships.

### Competing for additional support

All students in good standing can apply for writing prizes, conference travel awards, and supplements to external awards. Once graduate students have passed their preliminary examination and advanced to candidacy, they may apply for various departmental fellowships and research travel funding.

Further funding opportunities are available to students who have reached the advanced stages of dissertation writing. Advanced dissertators may apply for teaching fellowships that give them the opportunity to design and teach an undergraduate course—the Merle Curti Teaching Fellowship (https://history.wisc.edu/our-graduate-program/current-students/funding-opportunities/merle-curti-teaching-fellowship/) (open field), the George L. Mosse Teaching Fellowship in European History (https://mosseprogram.wisc.edu/), and the William J. Courtenay Teaching Fellowship in ancient, medieval, or early modern European history. The William Coleman Dissertation Fellowship in the History of Science (https://history.wisc.edu/our-graduate-program/current-students/funding-opportunities/) supports one semester of advanced dissertation writing, as does the David and Greta Lindberg Distinguished Graduate Fellowship.

In addition, UW–Madison offers a wealth of other opportunities to compete for funding offered, for example, by the International Division (http://international.wisc.edu/funding-your-international-experiences/), the Institute for Research in the Humanities (https://irh.wisc.edu/), and the UW Graduate School (research and conference travel awards (https://grad.wisc.edu/studentfunding/grantscomp/)).

More details on our funding for current/continuing students are available here (https://history.wisc.edu/our-graduate-program/current-students/funding-opportunities/).

* If you wish to apply only for the HSMT MA (also known as the terminal MA) or for the MA in History of Medicine for Health Professionals, please describe your sources of support on the History Supplemental Application. For information on the cost of graduate study at UW–Madison here (https://grad.wisc.edu/admissions/cost/).

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 18 credits |
| Minimum Graduate Coursework Requirement | 22 credits must be completed in graduate-level coursework in the HSMT graduate program. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 (3.25 after 4th semester of full-time study). |
| Other Grade Requirements | n/a |
| Assessments and Examinations | In order to receive the History of Science, Medicine, and Technology MA, students must pass the Second-Year Review (SYR). |

| | |
|---|---|
| Language Requirements | Demonstrate, at a minimum, reading knowledge of at least one language other than English. |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Core** | | |
| HISTORY 701 | History in a Global Perspective | 1 |
| HIST SCI 720 | Proseminar: Historiography and Methods | 3 |
| HISTORY 800 | Research Seminar in History (or an equivalent research seminar) | 3 |
| **Six Distribution Areas** | | |
| Students must complete coursework in each of the following distribution areas. Courses may count towards more than one distribution area. | | 12 |
| *Temporal* | | |
| 1. Pre 1800 | | |
| 2. 1800 to the Present | | |
| *Topical* | | |
| 3. Science/Technology | | |
| 4. Medicine/Public Health | | |

### History of Medicine Pathway [1]

This pathway within the MA degree program is intended for students with doctoral training in one of the health professions who wish to pursue a master's degree in the history of medicine.

| Code | Title | Credits |
|---|---|---|
| **Required Courses** | | |
| HIST SCI 720 | Proseminar: Historiography and Methods | 3 |
| HIST SCI/HISTORY/ MED HIST 508 | Health, Disease and Healing II | 3-4 |
| HIST SCI/ MED HIST 509 | The Development of Public Health in America | 3 |
| STS 901 | Science, Technology and Medicine in Society | 3 |
| **Additional History of Medicine coursework** | | **6** |
| All Medical History Courses (https://guide.wisc.edu/courses/med_hist/) | | |
| **Additional History of Science coursework (numbered 300-600 or above)** | | **3** |
| All History of Science Courses (https://guide.wisc.edu/courses/hist_sci/) | | |
| **Electives** | | **9** |
| **Total Credits** | | **30** |

[1] These pathways are internal to the program and represent different pathways a student can follow to earn this degree. Pathways names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

Total credits transferred for the MA degree may not exceed 6 credits. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements. No credits with a grade below B may be applied toward graduate credit requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

No credits from a previous undergraduate degree are allowed to transfer.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

With program approval, students may transfer up to 9 credits of coursework numbered 300 or above taken as a UW–Madison University Special student. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements. No credits with a grade below B are transferable.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Refer to the Graduate School: Advisor (https://policy.wisc.edu/library/UW-1232/) and Graduate School: Committees (Doctoral/Master's/MFA) (https://policy.wisc.edu/library/UW-1201/) policies.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## L&S POLICY FOR GRADUATE STUDENT ACADEMIC APPEALS

Graduate students have the right to appeal an academic decision related to an L&S graduate program if the student believes that the decision is inconsistent with published policy.

Academic decisions that may be appealed include:

- Dismissal from the graduate program
- Failure to pass a qualifying or preliminary examination
- Failure to achieve satisfactory academic progress
- Academic disciplinary action related to failure to meet professional conduct standards

Issues such as the following cannot be appealed using this process:

- A faculty member declining to serve as a graduate student's advisor.
- Decisions regarding the student's disciplinary knowledge, evaluation of the quality of work, or similar judgements. These are the domain of the department faculty.
- Course grades. These can be appealed instead using the L&S Policy for Grade Appeal (https://kb.wisc.edu/ls/22258/).
- Incidents of bias or hate, hostile and intimidating behavior (https://hr.wisc.edu/hib/), or discrimination (Title IX (https://compliance.wisc.edu/titleix/), Office of Compliance (https://compliance.wisc.edu/eo-complaint/formal-investigations/)). Direct these to the linked campus offices appropriate for the incident(s).

### Appeal Process for Graduate Students

A graduate student wishing to appeal an academic decision must follow the process in the order listed below. Note time limits within each step.

1. The student should first seek informal resolution, if possible, by discussing the concern with their academic advisor, the department's Director of Graduate Studies, and/or the department chair.
2. If the program has an appeal policy listed in their graduate program handbook, the student should follow the policy as written, including adhering to any indicated deadlines. In the absence of a specific departmental process, the chair or designee will be the reviewer and decision maker, and the student should submit a written appeal to the chair within 15 business days of the academic decision. The chair or designee will notify the student in writing of their decision.
3. If the departmental process upholds the original decision, the graduate student may next initiate an appeal to L&S. To do so, the student must submit a written appeal to the L&S Assistant Dean for Graduate Student Academic Affairs within 15 business days of notification of the department's decision.
   a. To the fullest extent possible, the written appeal should include, in a single document: a clear and concise statement of the academic decision being appealed, any relevant background on what led to the decision, the specific policies involved, the relief sought, any relevant documentation related to the departmental appeal, and the names and titles of any individuals contributing to or involved in the decision.
   b. The Assistant Dean will work with the Academic Associate Dean of the appropriate division to consider the appeal. They may seek additional information and/or meetings related to the case.
   c. The Assistant Dean and Academic Associate Dean will provide a written decision within 20 business days.
4. If L&S upholds the original decision, the graduate student may appeal to the Graduate School. More information can be found on their

website: Grievances and Appeals (https://grad.wisc.edu/documents/grievances-and-appeals/) (see: Graduate School Appeal Process).

### OTHER

Part time enrollment is permitted, full time preferred.

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

### PROGRAM RESOURCES

The Department of History is committed to training our students to develop skills required for a variety of careers both in and outside the academy. Although a large network of our alumni teach at colleges and universities in the U.S. and across the world, a number of our PhDs have enjoyed considerable success outside the academy. They include recent graduates who are currently a museum curator, teachers at prestigious preparatory academies, a historian with the U.S. Secretary of Defense's POW/Missing Persons Agency, a CEO of an investment firm, an analyst for a defense contractor, an editor at a small press, and consultants working with non-profits in the human services, education, and public policy fields. In recent years we have undertaken a number of initiatives, detailed below, to broaden the training of our students for a wide array of careers.

Much of the preparation for the job market occurs informally and over the course of the student's graduate career—in the mentoring relationship between faculty advisor and student, in the presentation of student research in department venues, in the student's participation in professional conferences, and in early forms of professional publication. Coursework, such as for the minor requirement or certificates, can be an avenue to expanded competencies. Be sure to explore the Graduate School's resources such as "The Versatile PhD (https://grad.wisc.edu/pd/versatilephd/)" and its Professional Development pages (http://grad.wisc.edu/pd/).

Whatever career paths interest you, we encourage you to plan ahead and discuss your options—early and often—with your faculty advisor(s), with the Director of Graduate Studies, or with the Graduate Coordinator.

#### Professional Development Seminars

The Professional Development topics seminar is offered every semester (see Requirements (p. 1014) for course number). It emphasizes building skills that are valuable both inside and outside the academy, such as managing the writing process, teaching college history, or communicating historical research to a broad, nonspecialist audience. Since it is a topics course, more than one may be offered in a given semester. Recent topics include "Writing for Academy and Beyond," "Digital History," and "On the Job Market."

#### Professional Development Events

Throughout the year, the Graduate Program sponsors various workshops intended to help students negotiate specific milestones of graduate study and to assist them in preparing for and going on the job market as they near completion of the PhD. Our programming currently includes:

#### Preliminary Examination Workshop

This offers a discussion of the various requirements for preliminary examinations: how to assemble committees, compiling reading lists, Graduate School requirements, and more.

#### Curriculum Vitae Workshops

These workshops are designed for students at all levels, ranging from first-year students writing CVs for campus positions to advanced dissertators on the job market.

#### Mock Interviews

The Graduate Program offers a series of opportunities to practice with a committee of our faculty for AHA interviews and on-campus job talks. They are open to a limited number of students who expect to be actively on the job market in the fall.

#### Careers in History Workshops

Our program is committed to helping its graduates seek and secure employment following the completion of their PhDs. Since the financial crisis in 2008, the academic job market has softened markedly. While the Graduate Program continues to provide outstanding preparation for academic jobs, we also encourage our students to think more broadly about their career prospects and the transferability of their skills. As funds permit, we occasionally bring to campus History graduates who are working in the non-profit, private, or public sector to meet with current graduate students and share their experiences. We also offer opportunities to learn best practices for post-doctoral fellowship applications.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Articulates, critiques, or elaborates the theories, research methods, and approaches to inquiry in HSMT.
2. Identifies sources and assembles evidence pertaining to questions or problems in HSMT.
3. Demonstrates understanding of science, medicine, and technology in a range of historical, social, cultural, and global contexts.
4. Chooses the most appropriate methodologies and practices for a chosen research project.
5. Demonstrates the ability to situate a historical question in relation to the existing literature, and to evaluate and synthesize information pertaining to questions or problems in HSMT.
6. Is able to construct a persuasive historical argument that makes an original contribution to historical knowledge.
7. Communicates clearly, in both written and oral form.
8. Recognizes and applies established principles of ethical and professional conduct.

# HISTORY OF SCIENCE, MEDICINE AND TECHNOLOGY, PHD

One of the oldest, most prestigious academic programs of its kind in the United States, History of Science, Medicine, and Technology (HSMT) draws together faculty members in History and in Medical History & Bioethics (http://medhist.wisc.edu/). Collectively, we offer broad coverage of the field, with expertise that spans Europe, the United States, Africa,

and the Caribbean, stretches from the Middle Ages to the recent past, and ranges across the physical, biological, and social sciences to medicine and technology.

Our degree program in the History of Science, Medicine, and Technology is designed to meet the needs of the PhD candidate, and we offer funding (https://history.wisc.edu/our-graduate-program/prospective-students/funding/) only to students who intend to pursue the PhD. However, we also welcome applications from students who wish to earn only the MA if they have external funding. Students with doctoral training in one of the health professions may earn an MA in History of Medicine. It is also possible to earn a combined MD/PhD degree through the School of Medicine & Public Health's Medical Scientist Training Program (https://www.med.wisc.edu/education/md-phd/) and the HSMT degree program.

History of Science, Medicine, and Technology at UW–Madison is known for the strength and diversity of its areas of study and its warm, collegial environment. All historical aspects of science, medicine, and technology receive attention—from their internal development to their broader institutional, philosophical, religious, and literary contexts, as well as their relationships with print culture, visual culture, and material culture. Students and faculty regularly participate in the program's weekly Brown Bag and monthly colloquium series, both of which provide opportunities to present work, discuss professional issues, and engage with a wide range of on-campus and outside speakers.

Graduate students come to the HSMT degree program from a variety of backgrounds in the sciences and humanities and with diverse professional goals. The program maintains a policy of maximum flexibility and, insofar as possible, tailors the work required for the degree to fit the individual. Students are encouraged to undertake work in related programs such as history, philosophy, science and technology studies, and the various sciences. Joint degrees in HSMT and another degree program are also possible (see below). Our graduates pursue research and teaching careers in the history of science, medical history, history of technology, intellectual and cultural history, science in general education programs, science writing, and museum work.

## JOINT PHD IN HISTORY AND HISTORY OF SCIENCE, MEDICINE, AND TECHNOLOGY

Students who wish to obtain a joint PhD in History and the History of Science, Medicine, and Technology are initially admitted to one of the degree programs, and should indicate interest in the joint PhD program at that time. After completion of a master's degree in History or History of Science, Medicine, and Technology, the student applies for admission to the other degree program and, at the same time, to a standing committee of the two programs for admission to the joint program.

Having been admitted to the other degree program and to the joint PhD program, the student then applies to the Graduate School for approval of the joint PhD (see the Graduate School's academic policy regarding joint degrees (http://grad.wisc.edu/acadpolicy/) for more information and deadlines). The student's application to the standing committee should take the same form as required by the Graduate School and should be prepared in close consultation with department faculty/staff.

Students in the joint PhD program are assigned a home degree program and follow the regulations of that degree program with regard to seminar requirements, language requirements, financial aid, and regulations for satisfactory progress. Since the joint PhD meets the doctoral minor requirement of the Graduate School, no formal minor is required of students receiving a joint PhD. However, students who wish to have a minor field recorded on the transcript may complete a regular Option A or Option B minor, or the internal minor of the department.

The joint PhD student's work is supervised by a committee consisting of three faculty members (two from the home degree program). The preliminary examinations test the student's competence in both history and history of science, medicine, and technology, balancing the material and fields between the two departments (e.g. two in each, or three in one and two in the other). The number of prelim fields must equal the number required of students majoring exclusively in history or in history of science, medicine, and technology, plus one. Preparation of the PhD dissertation is guided by the student's supervising committee. Satisfactory completion and defense of the dissertation constitute the final requirements for the joint PhD degree.

## JOINT PHD WITH OTHER DEGREE PROGRAMS

Students in the History of Science, Medicine, and Technology degree program who wish to pursue a joint PhD (one degree, two majors) with another degree program must first be admitted to the other degree program. The proposal for the degree must be approved by the Department of History's Graduate Council before it is submitted to the Graduate School. Students admitted to a joint PhD will satisfy all the normal requirements of their field in History except the minor requirement.

In past years, HSMT students have successfully completed a joint PhD with the Philosophy, Classics, Psychology, History, Chemistry, Mathematics, and Physics degree programs. For more information on joint PhD options, please contact the Graduate Program Manager.

## PROGRAM IN GENDER AND WOMEN'S HISTORY (PGWH)

Working under the supervision of a PGWH faculty member, History of Science, Medicine, and Technology students may organize their studies to emphasize gender, women's history, or sexuality. They meet all their HSMT requirements, take the PGWH core seminar on transnational gender history, and take at least two additional History or HSMT graduate seminars that are gender-specific.

Applicants to the HSMT degree program who wish to be considered for the concentration in gender and women's history should indicate this on their Graduate School application. For more details, see Program in Gender and Women's History (https://history.wisc.edu/fields-programs-and-working-groups/program-in-gender-and-womens-history/) or contact the Graduate Program Manager.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 1 |
| Spring Deadline | This program does not admit in the spring. |
| Summer Deadline | This program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

## APPLICATION MATERIALS

To apply, applicants must include the following in the Graduate School's online application (https://grad.wisc.edu/apply/):

### History Supplemental Application

This section of the application asks applicants to provide information about research interests, declare preferred faculty advisors, and outline prior language preparation (if any).

### Writing Sample

Provide a sample that best illustrates the quality of applicant's written work (optimally no more than 50 pages, double-spaced; maximum file size 6 MB).

### Transcripts

Upload an unofficial copy of transcript from all institutions attended, showing any undergraduate and graduate degrees awarded. If recommended for admission, the Graduate School will ask for official transcripts from each institution.

### CV or Resumé

This should highlight an applicant's accomplishments and qualifications including academic honors or distinctions; professional, research, and/or teaching experience; and any publications.

### Letters of Recommendation

Provide contact information for the three individuals who will furnish recommendations on an applicant's behalf (they will receive an upload link by email). Letter writers need not be historians, but they should be able to speak to an applicant's academic preparation to pursue historical studies at the graduate level.

### Statement of Purpose

The Statement of Purpose (2-3 pages, double-spaced, pdf file format) explains an applicant's reasons for graduate study. It may be the hardest part of the application to write, but it is also the most important. While an applicant will likely include some autobiographical information, its primary purpose is to acquaint us with how an applicant's mind works. We want to know, for example, what kinds of intellectual problems and issues interest the applicant, whose stories intrigue them, what sorts of analytical or narrative approaches they'd like to pursue, which historical writings the applicant admires—and the reasons for these various preferences. Please help us understand the applicant's decision to enter the historical profession and how the applicant sees their own role in it. Applicants can feel free to explain how their background and life experiences, including cultural, geographical, financial, educational, or other opportunities or challenges have motivated their decision to pursue a graduate degree at the University of Wisconsin. There is no single right way to approach this part of the application, but we suggest that the applicant bears in mind the usual cautions for personal writing: speak straightforwardly, in their own voice, and write as well as they know how.

## INTERNATIONAL APPLICANTS

All international applicants must also meet the **English Proficiency** requirements (https://grad.wisc.edu/apply/requirements/) set forth by the Graduate School.

For additional detail about the admissions process, please visit the Prospective Student (https://history.wisc.edu/our-graduate-program/prospective-students/) pages on our website.

# FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

We offer funding only to students who intend to pursue the PhD—an application for admission to our PhD program, therefore, is an application for funding. We also welcome applications from students who have external funding or are self-funded, including those pursuing the MA only.*

### Multi-Year Funding Package

If you apply to the History of Science, Medicine, and Technology (HSMT) PhD degree program without external or self-funding and are accepted, you will be offered a multi-year support package, which begins in your first year. The details of our support guarantees may vary by funding source, field of study, and other circumstances, and the guarantee is, of course, contingent on satisfactory progress and performance. Most of our support packages offer 5 years of support and begin with a fellowship year from the UW–Madison Graduate School, generously funded by the Wisconsin Alumni Research Foundation (http://www.warf.org/stewardship/grants-support/current/current-grant.cmsx).

Additional years of guaranteed funding will come from employment as teaching assistants or project assistants or additional fellowships.

### Competing For Additional Support

All students in good standing can apply for writing prizes, conference travel awards, and supplements to external awards. Once graduate students have passed their preliminary examination and advanced to candidacy, they may apply for various departmental fellowships and research travel funding.

Further funding opportunities are available to students who have reached the advanced stages of dissertation writing. Our advanced dissertators may apply for teaching fellowships that give them the opportunity to design and teach an undergraduate course—the Merle Curti Teaching Fellowship (https://history.wisc.edu/graduate/prospective-

students/funding/merle-curti-teaching-fellowship/) (open field), the George L. Mosse Teaching Fellowship in European History (https://mosseprogram.wisc.edu/teaching/), and the William J. Courtenay Teaching Fellowship in ancient, medieval, or early modern European history. The William Coleman Dissertation Fellowship in the History of Science (https://history.wisc.edu/our-graduate-program/current-students/funding-opportunities/) supports one semester of advanced dissertation writing, as does the David and Greta Lindberg Distinguished Graduate Fellowship. (These fellowships are offered as often as endowment income permits.) Thanks to funding provided by the Doris G. Quinn Foundation (https://dorisgquinnfoundation.org/), we are also pleased to offer a dissertator Fellowship, which supports the final year of dissertation writing in any field.

In addition, UW–Madison offers a wealth of other opportunities to compete for funding offered, for example, by the International Division (http://international.wisc.edu/funding-your-international-experiences/), the Institute for Research in the Humanities (http://irh.wisc.edu), and the UW Graduate School (research and conference travel awards (https://grad.wisc.edu/studentfunding/grantscomp/)).

More details on our funding for current/continuing students are available here (https://history.wisc.edu/our-graduate-program/current-students/funding-opportunities/).

* If you wish to apply only for the HSMT MA (also known as the terminal MA) or for the MA in History of Medicine for Health Professionals, please describe your sources of support on the History Supplemental Application. For information on the cost of graduate study at UW–Madison, see this link (https://grad.wisc.edu/admissions/cost/).

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 51 credits |
| Minimum Residence Credit Requirement | 32 credits |
| Minimum Graduate Coursework Requirement | 26 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.25 GPA required. |
| Other Grade Requirements | n/a |
| Assessments and Examinations | In order to receive the History of Science, Medicine, and Technology PhD, all students must pass the preliminary examination and the PhD dissertation defense. |
| Language Requirements | The program requires proficiency in a language other than English and either a second language or an analytical tool (e.g. statistical methods, visual culture methods, ethnography) prior to taking the preliminary examination. Students working toward a combined MD/PhD only need to demonstrate proficiency in one language.<br><br>If a student chooses the option of an analytical tool, the student must submit a proposal to be approved by the HSMT faculty. Once approved, the student must complete 9 credits appropriate to gaining competency in the use of this analytical tool and earn at least a 3.0 (B or better) in these courses. Students may not use credits taken for the doctoral minor to count towards the required coursework for the analytical tool. |
| Graduate School Breadth Requirement | All doctoral students are required to complete a doctoral minor or graduate/professional certificate. Refer to the Graduate School: Breadth Requirement in Doctoral Training policy: https://policy.wisc.edu/library/UW-1200 (https://policy.wisc.edu/library/UW-1200/). |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Core** | | |
| HISTORY 701 | History in a Global Perspective | 1 |
| HIST SCI 720 | Proseminar: Historiography and Methods | 3 |
| HISTORY 800 | Research Seminar in History | 3 |
| **Six Distribution Areas** | | |
| Students must complete courses in each of the following distribution areas. Courses may fulfill more than one distribution area. | | 12 |

| | |
|---|---|
| *Temporal* | |
| 1. Pre 1800 | |
| 2. 1800 to the Present | |
| *Topical* | |
| 3. Science/Technology | |
| 4. Medicine/Public Health | |
| *Geographic* | |
| 5. Global/Non-Western | |
| 6. Euro-American | |
| **Electives** | |
| Students work with faculty advisors to complete additional elective credits in seminars numbered 700 and above. | 11 |
| **Breadth** | |
| The distributed minor in HSMT requires 12 credits of coursework. An external minor or graduate/professional certificate can require 9 credits or 12 credits depending on the program. | 9-12 |
| **Research** | |
| After passing the preliminary examination, students register for the following course each semester until they deposit their dissertation. | 3-12 |
| HIST SCI 990 Research and Thesis | 1-3 |
| **Total Credits** | **51** |

## Recommended Courses

Students are also recommended to take HIST SCI 999 Independent Work and HISTORY 710 Professional Development Seminar.

## Distribution Areas

### Temporal Distribution Area Courses

| Code | Title | Credits |
|---|---|---|
| **1. Pre 1800** | | |

## History of Medicine Pathway [1]

This pathway is intended for students with doctoral training in one of the health professions.

| Code | Title | Credits |
|---|---|---|
| **Core** | | |
| Students must complete the following courses. | | |
| HIST SCI 720 | Proseminar: Historiography and Methods | 3 |
| HIST SCI/HISTORY/ MED HIST 508 | Health, Disease and Healing II | 3-4 |
| HIST SCI/ MED HIST 509 | The Development of Public Health in America | 3 |
| STS 901 | Science, Technology and Medicine in Society | 3 |
| **Additional History of Medicine Course** | | **3** |
| **Electives** | | |
| Students must complete 9 credits of electives. Medical History (MED HIST) courses satisfy this requirement. | | 9 |
| **Seminars** | | |
| Students must complete two seminars numbered 700 and above. | | |
| **Breadth** | | **9** |
| **Research** | | |
| After passing the preliminary examination, students register for the following course each semester until they deposit their dissertation. | | |
| HISTORY 990 | Research and Thesis | 1-9 |
| **Total Credits** | | **51** |

## Recommended Courses

Students are also recommended to take HISTORY 999 Independent Work and HISTORY 710 Professional Development Seminar.

[1] These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

## GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## PROGRAM RESOURCES

The Department of History is committed to training our students to develop skills required for a variety of careers both in and outside the academy. Although a large network of our alumni teach at colleges and universities in the U.S. and across the world, a number of our PhDs have enjoyed considerable success outside the academy. They include recent graduates who are currently a museum curator, teachers at prestigious preparatory academies, a historian with the U.S. Secretary of Defense's POW/Missing Persons Agency, a CEO of an investment firm, an analyst for a defense contractor, an editor at a small press, and consultants working with non-profits in the human services, education, and public policy fields. In recent years we have undertaken a number of initiatives, detailed below, to broaden the training of our students for a wide array of careers.

Much of the preparation for the job market occurs informally and over the course of the student's graduate career—in the mentoring relationship between faculty advisor and student, in the presentation of student research in department venues, in the student's participation in professional conferences, and in early forms of professional publication. Coursework, such as for the minor requirement or certificates, can be an avenue to expanded competencies. Be sure to explore the Graduate School's resources such as "The Versatile PhD (https://grad.wisc.edu/pd/versatilephd/)" and its Professional Development pages (http://grad.wisc.edu/pd/).

Whatever career paths interest you, we encourage you to plan ahead and discuss your options—early and often—with your faculty advisor(s), with the Director of Graduate Studies, or with the Graduate Program Manager.

### Professional Development Seminars

The Professional Development topics seminar is offered every semester (see Requirements (p. 1014) for course number). It emphasizes building skills that are valuable both inside and outside the academy, such as managing the writing process, teaching college history, or communicating historical research to a broad, nonspecialist audience. Since it is a topics course, more than one may be offered in a given semester. Recent topics include “Writing for Academy and Beyond,” “Digital History,” and “On the Job Market.”

### Professional Development Events

Throughout the year, the Graduate Program sponsors various workshops intended to help students negotiate specific milestones of graduate study and to assist them in preparing for and going on the job market as they near completion of the PhD. Our programming currently includes:

#### Preliminary Examination Workshop

This offers a discussion of the various requirements for preliminary examinations: how to assemble committees, compiling reading lists, Graduate School requirements, and more.

#### Curriculum Vitae Workshops

These workshops are designed for students at all levels, ranging from first-year students writing CVs for campus positions to advanced dissertators on the job market.

#### Mock Interviews

The Graduate Program offers a series of opportunities to practice with a committee of our faculty for AHA interviews and on-campus job talks. They are open to a limited number of students who expect to be actively on the job market in the fall.

#### Careers in History Workshops

Our program is committed to helping its graduates seek and secure employment following the completion of their PhDs. Since the financial crisis in 2008, the academic job market has softened markedly. While the Graduate Program continues to provide outstanding preparation for academic jobs, we also encourage our students to think more broadly about their career prospects and the transferability of their skills. As funds permit, we occasionally bring to campus History graduates who are working in the non-profit, private, or public sector to meet with current graduate students and share their experiences. We also offer opportunities to learn best practices for post-doctoral fellowship applications.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Articulates research problems clearly and understands the limits of current theories, knowledge, or practices within HSMT.
2. Pushes the boundaries of current knowledge in HSMT in formulating research questions, in the selection or use of primary sources, or in interpreting evidence.
3. Demonstrates breadth within their learning experiences.
4. Communicates complex ideas in a clear and understandable manner.
5. Gains appropriate experience relating to designing and teaching university-level courses.
6. Is able to articulate the broader significance of their work and the discipline of HSMT to scholars in other fields or disciplines and to the wider public.
7. Fosters ethical and professional conduct.

## POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School’s Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

Total credits transferred for the PhD requirements, including those approved for the MA, may not exceed 19 credits. No credits earned more than ten years before admission to the PhD program may be used. A

maximum of 5 credits earned between five and ten years before admission to the PhD program may transfer. No credits carrying a grade below B may be applied toward graduate credit requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

No credits from a previous undergraduate degree are allowed to transfer.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

With program approval, students are allowed to transfer no more than 9 credits of coursework numbered 300 or above taken as a University Special student. However, these credits are not allowed to count toward the 50% graduate coursework minimum unless numbered 700 or above or are taken to meet the requirements of a capstone certificate and has the "Grad 50%" designation. Coursework earned ten or more years prior to admission to a doctoral degree is not allowed to satisfy requirements. No credits carrying a grade below B are transferable.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Refer to the Graduate School: Advisor (https://policy.wisc.edu/library/UW-1232/) and Graduate School: Committees (Doctoral/Master's/MFA) (https://policy.wisc.edu/library/UW-1201/) policies.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## L&S POLICY FOR GRADUATE STUDENT ACADEMIC APPEALS

Graduate students have the right to appeal an academic decision related to an L&S graduate program if the student believes that the decision is inconsistent with published policy.

Academic decisions that may be appealed include:

- Dismissal from the graduate program
- Failure to pass a qualifying or preliminary examination
- Failure to achieve satisfactory academic progress
- Academic disciplinary action related to failure to meet professional conduct standards

Issues such as the following cannot be appealed using this process:

- A faculty member declining to serve as a graduate student's advisor.
- Decisions regarding the student's disciplinary knowledge, evaluation of the quality of work, or similar judgements. These are the domain of the department faculty.
- Course grades. These can be appealed instead using the L&S Policy for Grade Appeal (https://kb.wisc.edu/ls/22258/).
- Incidents of bias or hate, hostile and intimidating behavior (https://hr.wisc.edu/hib/), or discrimination (Title IX (https://compliance.wisc.edu/titleix/), Office of Compliance (https://compliance.wisc.edu/eo-complaint/formal-investigations/)). Direct these to the linked campus offices appropriate for the incident(s).

### Appeal Process for Graduate Students

A graduate student wishing to appeal an academic decision must follow the process in the order listed below. Note time limits within each step.

1. The student should first seek informal resolution, if possible, by discussing the concern with their academic advisor, the department's Director of Graduate Studies, and/or the department chair.
2. If the program has an appeal policy listed in their graduate program handbook, the student should follow the policy as written, including adhering to any indicated deadlines. In the absence of a specific departmental process, the chair or designee will be the reviewer and decision maker, and the student should submit a written appeal to the chair within 15 business days of the academic decision. The chair or designee will notify the student in writing of their decision.
3. If the departmental process upholds the original decision, the graduate student may next initiate an appeal to L&S. To do so, the

student must submit a written appeal to the L&S Assistant Dean for Graduate Student Academic Affairs within 15 business days of notification of the department's decision.

a. To the fullest extent possible, the written appeal should include, in a single document: a clear and concise statement of the academic decision being appealed, any relevant background on what led to the decision, the specific policies involved, the relief sought, any relevant documentation related to the departmental appeal, and the names and titles of any individuals contributing to or involved in the decision.
b. The Assistant Dean will work with the Academic Associate Dean of the appropriate division to consider the appeal. They may seek additional information and/or meetings related to the case.
c. The Assistant Dean and Academic Associate Dean will provide a written decision within 20 business days.

4. If L&S upholds the original decision, the graduate student may appeal to the Graduate School. More information can be found on their website: Grievances and Appeals (https://grad.wisc.edu/documents/grievances-and-appeals/) (see: Graduate School Appeal Process).

### OTHER

n/a

# HISTORY, DOCTORAL MINOR

Students in other degree programs who wish to pursue a minor in the History degree program must reach an agreement on an appropriate plan of study with a History faculty member, who serves as the minor advisor. The "Minor Agreement for Non-History Majors" form can be found on the Department of History's website (https://history.wisc.edu/wp-content/uploads/sites/202/2018/07/graduate-minoragreement-nonhistorymajors.pdf), and must be approved by the Graduate Program Manager and the Director of Graduate Studies prior to the beginning of coursework.

## ADMISSIONS

## ADMISSIONS

All Graduate School students must use the Graduate Student Portal in MyUW to add, change, or discontinue any doctoral minor. To apply to this minor, log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. Select the information for the doctoral minor for which you are applying.

## REQUIREMENTS

## REQUIREMENTS

### REQUIRED COURSES

Credits Required: 9

Any HISTORY (https://guide.wisc.edu/courses/history/) courses that fit within the following criteria may be used to fulfill the 9-credit requirement:

- At least 6 credits in graduate seminars, and no more than 3 credits in courses numbered 300-699 without the graduate designation (Grad 50%).
- HISTORY 990 Research and Thesis may not be used to fulfill the minor requirement
- The minor field may include up to 3 credits of HISTORY 999 Independent Work, provided that the student produces at least 15 pages of written work.

# HISTORY, MA

With some 130 graduate students and over 60 faculty members, the Department of History is home to one of the oldest, most distinguished, and most comprehensive graduate programs in the U.S., renowned for its long and valued tradition of collegiality and openness. We offer separate graduate degrees in History and in the History of Science, Medicine, and Technology. Our internationally recognized faculty (https://history.wisc.edu/people-main/faculty-listed-alphabetically/) has been mentoring distinguished historians since 1893 (https://history.wisc.edu/our-graduate-program/doctorates-awarded/).

The degree program in History is designed to meet the needs of the PhD candidate, and we offer funding (https://history.wisc.edu/graduate/prospective-students/funding/) only to students who intend to pursue the PhD. However, we also welcome applications from students who wish to earn only the MA if they have external funding.

Graduate training in the History degree program is organized by primary fields of study. Although most of our students are trained in a single field of study, students whose research interests span more than one field have the option to craft an individual plan of study (https://history.wisc.edu/graduate/individual-plan-of-study/).

We offer the following primary fields (https://history.wisc.edu/fields-programs/) in the History degree program:

- African History
- East Asian History
- European History—Ancient, Medieval, Early Modern, and Modern
- Latin American and Caribbean History
- Middle East and North African History
- South Asian History
- Southeast Asian History
- U.S./North American History

Within their primary field, students also have the opportunity to organize their studies thematically. The faculty's thematic strengths are in the following areas:

- Borderlands and diasporas
- Environmental history
- Gender and Women's History (https://history.wisc.edu/fields-programs-and-working-groups/program-in-gender-and-womens-history/)
- History of Science, Medicine, and Technology (https://history.wisc.edu/fields-programs-and-working-groups/history-of-science-medicine-and-technology/faculty-associates-affiliates/)
- Intellectual and cultural history
- Jewish History (https://history.wisc.edu/fields-programs-and-working-groups/program-in-jewish-history/)
- Labor and political economy
- Race, ethnicity, and indigeneity

- Religion and ritual
- War in Society and Culture (https://history.wisc.edu/fields-programs-and-working-groups/war-in-society-and-culture-program/)

Our faculty train resourceful researchers, committed teachers, and engaged public intellectuals. We offer a rigorous course of study that combines independent and collaborative work and emphasizes scholarly and intellectual connectedness. The department strongly supports the Wisconsin Idea (https://www.wisc.edu/wisconsin-idea/), the principle that education should influence and improve people's lives beyond the university classroom. For more than 100 years, this idea has guided the university's work. Students pursue a variety of careers, both inside and outside the academy.

# OTHER DEGREE OPTIONS INCLUDE:

## BRIDGE PROGRAM WITH UW–MADISON'S DEPARTMENT OF AFRICAN-AMERICAN STUDIES

This academic partnership allows students to complete the MA in African American Studies and the PhD in History. It enables African American Studies students who specialize in History to meet the basic requirements of the History MA while completing a degree in African American Studies. Students may apply simultaneously to the two departments or may apply to the Department of History after they begin their graduate program in the Department of African American Studies, usually in the fall of the first or second MA year.

For details, see The Bridge Program (https://history.wisc.edu/our-graduate-program/bridge-program/) or contact the Graduate Program Manager.

# ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 1 |
| Spring Deadline | This program does not admit in the spring. |
| Summer Deadline | This program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

## APPLICATION MATERIALS

To apply, applicants must include the following in the Graduate School's online application (https://grad.wisc.edu/apply/):

### History Supplemental Application

This section of the application asks applicants to provide information about your research interests, declare your preferred faculty advisors, and outline your prior language preparation (if any).

### Writing Sample

Provide a sample that best illustrates the quality of applicant's written work (optimally no more than 50 pages, double-spaced; maximum file size 6 MB).

### Transcripts

Upload an unofficial copy of transcript from all institutions attended, showing any undergraduate and graduate degrees awarded. If recommended for admisison, the Graduate School will ask for official transcripts from each institution.

### CV or Resumé

This should highlight an applicant's accomplishments and qualifications including academic honors or distinctions; professional, research, and/or teaching experience; and any publications.

### Letters of Recommendation

Provide contact information for the three individuals who will furnish recommendations on an applicant's behalf (they will receive an upload link by email). Letter writers need not be historians, but they should be able to speak to an applicant's academic preparation to pursue historical studies at the graduate level.

### Statement of Purpose

The Statement of Purpose (2-3 pages, double-spaced, pdf file format) explains an applicant's reasons for graduate study. It may be the hardest part of the application to write, but it is also the most important. While an applicant will likely include some autobiographical information, its primary purpose is to acquaint us with how an applicant's mind works. We want to know, for example, what kinds of intellectual problems and issues interest an applicant, whose stories intrigue them, what sorts of analytical or narrative approaches they like to pursue, which historical writings they admire—and the reasons for these various preferences. Please help us understand the applicant's decision to enter the historical profession and how the applicant sees their own role in it. Applicants can feel free to explain how their background and life experiences, including cultural, geographical, financial, educational, or other opportunities or challenges have motivated their decision to pursue a graduate degree at the University of Wisconsin-Madison. There is no single right way to approach this part of the application, but we suggest that applicants bear in mind the usual cautions for personal writing: speak straightforwardly, in their own voice, and write as well as they know how.

## INTERNATIONAL APPLICANTS

All international applicants must also meet the English Proficiency requirements (https://grad.wisc.edu/admissions/requirements/) set forth by the Graduate School.

For additional details about the admissions process, please visit the Prospective Student (https://history.wisc.edu/our-graduate-program/prospective-students/) pages on our website.

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

We offer funding only to students who intend to pursue the PhD—an application for admission to our PhD program, therefore, is an application for funding. We also welcome applications from students who have external funding or are self-funded, including those pursuing the MA only.*

### Multi-year funding package

If you apply to the History PhD degree program without external or self-funding and are accepted, you will be offered a multiyear support package, which begins in your first year. The details of our support guarantees may vary by funding source, field of study, and other circumstances, and the guarantee is, of course, contingent on satisfactory progress and performance. Most of our support packages offer five years of support and begin with a fellowship year from the UW–Madison Graduate School, generously funded by the Wisconsin Alumni Research Foundation (http://www.warf.org/stewardship/grants-support/current/current-grant.cmsx). Our most distinguished packages include two years of fellowships and may also include summer support:

- George L. Mosse fellowships in modern Jewish history, European cultural history, or LGBTQ history—offered annually or as endowment income permits
- Gerda Lerner Fellowship (https://history.wisc.edu/our-graduate-program/prospective-students/funding/) in women's history—offered as funds permit

Additional years of guaranteed funding will come from employment as teaching assistants or project assistants or additional fellowships.

### Competing for additional support

All students in good standing can apply for writing prizes, conference travel awards, and supplements to external awards. Once graduate students have passed their preliminary examination and advanced to candidacy, they may apply for various departmental fellowships and research travel funding.

For students who have reached the advanced stages of dissertation writing, further funding opportunities are available. Our advanced dissertators may apply for teaching fellowships that give them the opportunity to design and teach an undergraduate course—the Merle Curti Teaching Fellowship (https://history.wisc.edu/our-graduate-program/current-students/funding-opportunities/merle-curti-teaching-fellowship/) (any field of study), the George L. Mosse Teaching Fellowship in European History, and the William J. Courtenay Teaching Fellowship in ancient, medieval, or early modern European history. (These fellowships are offered as often as endowment income permits.) Thanks to funding provided by the Doris G. Quinn Foundation (https://dorisgquinnfoundation.org/), we are also pleased to offer a dissertator fellowship, which provides financial support for the final year of dissertation writing in any field.

In addition, UW–Madison offers a wealth of other opportunities to compete for funding offered, for example, by the International Division (http://international.wisc.edu/funding-your-international-experiences/), the Institute for Research in the Humanities (http://irh.wisc.edu), and the UW Graduate School (research and conference travel awards (https://grad.wisc.edu/studentfunding/grantscomp/)).

More details on our funding for current/continuing students are available here (https://history.wisc.edu/our-graduate-program/current-students/funding-opportunities/).

* If you wish to apply only for the History MA (also known as the terminal MA), please describe your sources of support on the History Supplemental Application. For information on the cost of graduate study at UW–Madison, see this link (https://grad.wisc.edu/admissions/cost/).

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |

| | |
|---|---|
| Minimum Residence Credit Requirement | 24 credits |
| Minimum Graduate Coursework Requirement | 22 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 (3.25 after 4th semester of full-time study) |
| Other Grade Requirements | n/a |
| Assessments and Examinations | In order to receive the Master's Degree in History, students must pass the Second-Year Review (SYR). |
| Language Requirements | All students must demonstrate, at a minimum, reading knowledge of at least one language other than English. Each field of study determines which languages may be used to satisfy the language requirement; see below for details. |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Core** | | |
| HISTORY 701 | History in a Global Perspective | 1 |
| HISTORY 800 | Research Seminar in History (or an equivalent research seminar in the student's field of study) [1] | 3 |
| **Electives** | | |
| Work with advisor to complete 26 credits of graduate-level courses | | 26 |
| HISTORY Courses (https://guide.wisc.edu/courses/history/) | | |
| **Total Credits** | | **30** |

[1] Alternative course options: HISTORY 855 Seminar in Japanese History for students studying East Asian History, HISTORY 861 Seminar-The History of Africa for students studying African History.

## ADDITIONAL MA REQUIREMENTS BY FIELD OF STUDY[1]

[1] These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

### African History

Course Requirements: Each student must enroll in a seminar or proseminar (if available) every semester of residence. In their first year, they may enroll in History lecture courses in their area of specialization. Undergraduate lecture courses may not be taken for credit after the first year of graduate study. With approval, students can take African Cultural Studies (AFRICAN (https://guide.wisc.edu/courses/african/)) courses.

Language Requirements: Students must fulfill their MA language requirement with an African language.

### Central Asian History

No special field requirements. Students should choose courses in consultation with their advisor in History (HISTORY (https://guide.wisc.edu/courses/history/)) numbered 300 or above and with the "Grad 50%" designation. The language requirement varies according to the student's research interest.

### East Asian History

Course Requirements: Students must complete four graduate courses in East Asian history. These can be upper-division lecture courses or graduate seminars/colloquia (taken for a minimum of 12 credits). At least two of these courses should be in the major field, and at least one should be outside the major field. NOTE: Students should also begin fulfilling the course requirements that must be completed prior to taking preliminary examination. They are required to take one semester each of Chinese, Japanese, and Korean history. They may fulfill this requirement by taking a graduate seminar or an upper-division lecture course. They may also fulfill the requirement by serving as a TA in either an introductory or upper-division course. Students are also required to take HISTORY 703 History and Theory.

Language Requirements: Students must complete the eighth semester in their main language (Chinese, Japanese, or Korean) by the time they complete the Second-Year Review or their fourth semester of coursework.

### European History

Language Requirements: Students in **Ancient History** must demonstrate proficiency in French, German, Greek, and Latin. **Medieval History** students must demonstrate proficiency in either Latin or Greek and two modern languages, one of which must be German or French. Students in **Modern European History** must demonstrate proficiency in one European language and reading knowledge of a second language other than English.

### Latin American and Caribbean History

Course Requirements: Each student must enroll in a seminar or proseminar (if available) every semester of residence. Other courses will include History (HISTORY (https://guide.wisc.edu/courses/history/)) graduate seminars or similar courses in the culture area of specialization. Undergraduate lecture courses may not be taken for credit unless a faculty advisor or co-advisor approves.

### Middle East and North African History

Proficiency in two languages, at least one of which must be a language of the Middle East or North Africa, is required. There are no other specific special field requirements; students choose courses in consultation with their advisor.

### South Asian History

Course Requirements: Each student must enroll in a seminar or proseminar (if available) every semester of residence. In lieu of a History graduate course, they may substitute an independent study in History or a graduate seminar in another department. In their first year, they may enroll in History lecture courses in their area of specialization. Undergraduate lecture courses may not be taken for credit after the first year of graduate study.

Language Requirements: Students must complete two years of study in one South Asian language (or demonstrate equivalent proficiency by examination).

### Southeast Asian History

Course Requirements: MA students shall take six credits of graduate seminar in Southeast Asian history each academic year or, if not available, substitute credits of independent study with a faculty specialist in Southeast Asian history.

Language Requirements: Students must complete two years of study (or demonstrate equivalent proficiency by examination) in a Southeast Asian language or, with the approval of the Southeast Asian faculty, in a relevant colonial/imperial language.

### United States History

Course Requirements: Students must take:

- The core seminar, HISTORY 900 Introduction to History for U.S. Historians, in the fall semester of their first year. This seminar introduces students to the U.S. History faculty and their fields of research and teaches students the core skills of professional historians.
- Three three-credit seminars that cover a significant portion of the seventeenth and/or eighteenth centuries, the nineteenth century, and the twentieth century, respectively. If a seminar falls into more than one category, the student may choose the single category for which they will receive credit.

In exceptional circumstances, student may, with the consent of their advisor, take up to six credits in upper-level undergraduate courses. The instructors of such courses have the prerogative to refuse admission to graduate students.

Note that prior to completing their preliminary examination, students may use no more than six credits of HISTORY 999 Independent Work to meet the requirements of the major field. Students will probably find it useful to preserve most, if not all, of their six credits of HISTORY 999 for preliminary examination preparation.

### Program in Gender and Women's History Concentration

Course Requirements: Students must meet the requirements of their primary field of study; take HISTORY 752 Seminar in Transnational Gender History; and take at least two additional History graduate seminars that are gender-specific, i.e., that have at least a 50% focus on issues and analyses of gender, women, or sexuality.

## POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special student at UW–Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Refer to the Graduate School: Advisor (https://policy.wisc.edu/library/UW-1232/) and Graduate School: Committees (Doctoral/Master's/MFA) (https://policy.wisc.edu/library/UW-1201/) policies.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)

- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## L&S POLICY FOR GRADUATE STUDENT ACADEMIC APPEALS

Graduate students have the right to appeal an academic decision related to an L&S graduate program if the student believes that the decision is inconsistent with published policy.

Academic decisions that may be appealed include:

- Dismissal from the graduate program
- Failure to pass a qualifying or preliminary examination
- Failure to achieve satisfactory academic progress
- Academic disciplinary action related to failure to meet professional conduct standards

Issues such as the following cannot be appealed using this process:

- A faculty member declining to serve as a graduate student's advisor.
- Decisions regarding the student's disciplinary knowledge, evaluation of the quality of work, or similar judgements. These are the domain of the department faculty.
- Course grades. These can be appealed instead using the L&S Policy for Grade Appeal (https://kb.wisc.edu/ls/22258/).
- Incidents of bias or hate, hostile and intimidating behavior (https://hr.wisc.edu/hib/), or discrimination (Title IX (https://compliance.wisc.edu/titleix/), Office of Compliance (https://compliance.wisc.edu/eo-complaint/formal-investigations/)). Direct these to the linked campus offices appropriate for the incident(s).

### Appeal Process for Graduate Students

A graduate student wishing to appeal an academic decision must follow the process in the order listed below. Note time limits within each step.

1. The student should first seek informal resolution, if possible, by discussing the concern with their academic advisor, the department's Director of Graduate Studies, and/or the department chair.
2. If the program has an appeal policy listed in their graduate program handbook, the student should follow the policy as written, including adhering to any indicated deadlines. In the absence of a specific departmental process, the chair or designee will be the reviewer and decision maker, and the student should submit a written appeal to the chair within 15 business days of the academic decision. The chair or designee will notify the student in writing of their decision.
3. If the departmental process upholds the original decision, the graduate student may next initiate an appeal to L&S. To do so, the student must submit a written appeal to the L&S Assistant Dean for Graduate Student Academic Affairs within 15 business days of notification of the department's decision.
    a. To the fullest extent possible, the written appeal should include, in a single document: a clear and concise statement of the academic decision being appealed, any relevant background on what led to the decision, the specific policies involved, the relief sought, any relevant documentation related to the departmental appeal, and the names and titles of any individuals contributing to or involved in the decision.
    b. The Assistant Dean will work with the Academic Associate Dean of the appropriate division to consider the appeal. They may seek additional information and/or meetings related to the case.
    c. The Assistant Dean and Academic Associate Dean will provide a written decision within 20 business days.
4. If L&S upholds the original decision, the graduate student may appeal to the Graduate School. More information can be found on their website: Grievances and Appeals (https://grad.wisc.edu/documents/grievances-and-appeals/) (see: Graduate School Appeal Process).

## OTHER

# PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

## GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## PROGRAM RESOURCES

The Department of History is committed to training our students to develop skills required for a variety of careers both in and outside the academy. Although a large network of our alumni teach at colleges and universities in the U.S. and across the world, a number of our PhDs have enjoyed considerable success outside the academy. They include recent graduates who are currently a museum curator, teachers at prestigious preparatory academies, a historian with the U.S. Secretary of Defense's POW/Missing Persons Agency, a CEO of an investment firm, an analyst for a defense contractor, an editor at a small press, and consultants working with non-profits in the human services, education, and public policy fields. In recent years we have undertaken a number of initiatives, detailed below, to broaden the training of our students for a wide array of careers.

Much of the preparation for the job market occurs informally and over the course of the student's graduate career—in the mentoring relationship between faculty advisor and student, in the presentation of student research in department venues, in the student's participation in professional conferences, and in early forms of professional publication. Coursework, such as for the minor requirement or certificates, can be an avenue to expanded competencies. Be sure to explore the Graduate School's resources such as "The Versatile PhD (https://grad.wisc.edu/pd/versatilephd/)" and its Professional Development pages (http://grad.wisc.edu/pd/).

Whatever career paths interest you, we encourage you to plan ahead and discuss your options—early and often—with your faculty advisor(s), with the Director of Graduate Studies, or with the Graduate Coordinator.

### Professional Development Seminars ( HISTORY 710)

This topics seminar is offered every semester. It emphasizes building skills that are valuable both inside and outside the academy, such as managing the writing process, teaching college history, or communicating historical research to a broad, non-specialist audience. Since it is a topics course, more than one may be offered in a given semester. Recent topics include

"Writing for Academy and Beyond," "Digital History," and "On the Job Market."

### Professional development events

Throughout the year, the Graduate Program sponsors various workshops intended to help students negotiate specific milestones of graduate study and to assist them in preparing for and going on the job market as they near completion of the PhD. Our programming currently includes:

#### Preliminary Examination Workshop

This offers a discussion of the various requirements for preliminary examinations: how to assemble committees, compiling reading lists, Graduate School requirements, and more.

#### Curriculum Vitae Workshops

These workshops are designed for students at all levels, ranging from first-year students writing CVs for campus positions to advanced dissertators on the job market.

#### Mock Interviews

The Graduate Program offers a series of opportunities to practice with a committee of our faculty for AHA interviews and on-campus job talks. They are open to a limited number of students who expect to be actively on the job market in the fall.

#### Careers in History Workshops

Our program is committed to helping its graduates seek and secure employment following the completion of their PhDs. Since the financial crisis in 2008, the academic job market has softened markedly. While the Graduate Program continues to provide outstanding preparation for academic jobs, we also encourage our students to think more broadly about their career prospects and the transferability of their skills. As funds permit, we occasionally bring to campus History graduates who are working in the non-profit, private, or public sector to meet with current graduate students and share their experiences. We also offer opportunities to learn best practices for post-doctoral fellowship applications.

## LEARNING OUTCOMES

## LEARNING OUTCOMES

1. Articulates and critiques the theories, research methods, and approaches to historical inquiry in the student's primary field of study.
2. Demonstrates understanding of the primary field of study in a historical and global context.
3. Is able to identify and make appropriate use of relevant historical sources.
4. Demonstrates the ability to evaluate and synthesize large bodies of scholarship or evidence.
5. Is able to construct a significant and persuasive historical argument that makes an original contribution to historical knowledge.
6. Communicates complex ideas in a clear and understandable manner.
7. Recognizes and applies established principles of ethical and professional conduct.

# HISTORY, PHD

With some 130 graduate students and over 60 faculty members, the Department of History is home to one of the oldest, most distinguished, and most comprehensive graduate programs in the U.S., renowned for its long and valued tradition of collegiality and openness. We offer separate graduate degrees in History and in the History of Science, Medicine, and Technology. Our internationally recognized faculty (https://history.wisc.edu/people-main/faculty-listed-alphabetically/) has been mentoring distinguished historians since 1893 (https://history.wisc.edu/our-graduate-program/doctorates-awarded/).

The degree program in History is designed to meet the needs of the PhD candidate, and we offer funding (https://history.wisc.edu/graduate/prospective-students/funding/) only to students who intend to pursue the PhD. However, we also welcome applications from students who wish to earn only the MA if they have external funding.

Graduate training in the History degree program is organized by primary fields of study. Although most of our students are trained in a single field of study, students whose research interests span more than one field have the option to craft an individual plan of study (https://history.wisc.edu/graduate/individual-plan-of-study/).

We offer the following primary fields (https://history.wisc.edu/fields-programs/) in the History degree program:

- African History
- East Asian History
- European History—Ancient, Medieval, Early Modern, and Modern
- Latin American and Caribbean History
- Middle East and North African History
- South Asian History
- Southeast Asian History
- U.S./North American History

Within their primary field, students also have the opportunity to organize their studies thematically. The faculty's thematic strengths are in the following areas:

- Borderlands and diasporas
- Environmental history
- Gender and Women's History (https://history.wisc.edu/fields-programs-and-working-groups/program-in-gender-and-womens-history/)
- History of Science, Medicine, and Technology (https://history.wisc.edu/fields-programs-and-working-groups/history-of-science-medicine-and-technology/faculty-associates-affiliates/)
- Intellectual and cultural history
- Jewish History (https://history.wisc.edu/fields-programs-and-working-groups/program-in-jewish-history/)
- Labor and political economy
- Race, ethnicity, and indigeneity
- Religion and ritual
- War in Society and Culture (https://history.wisc.edu/fields-programs-and-working-groups/war-in-society-and-culture-program/)

Our faculty train resourceful researchers, committed teachers, and engaged public intellectuals. We offer a rigorous course of study that combines independent and collaborative work and emphasizes scholarly and intellectual connectedness. The department strongly supports the Wisconsin Idea (https://www.wisc.edu/wisconsin-idea/), the principle that education should influence and improve people's lives beyond the university classroom. For more than 100 years, this idea has guided the

university's work. Students pursue a variety of careers, both inside and outside the academy.

# OTHER DEGREE OPTIONS INCLUDE:

## BRIDGE PROGRAM WITH UW–MADISON'S AFRICAN AMERICAN STUDIES

This academic partnership allows students to complete the MA in African American Studies and the PhD in History. It enables African American Studies students who specialize in History to meet the basic requirements of the History MA while completing a degree in African American Studies. Students may apply simultaneously to the two departments or may apply to the Department of History after they begin their graduate program in the Department of African American Studies, usually in the fall of the first or second MA year.

For details, see The Bridge Program (https://history.wisc.edu/our-graduate-program/bridge-program/) or contact the Graduate Program Manager.

## JOINT PHD IN HISTORY AND HISTORY OF SCIENCE

Students who wish to obtain a joint PhD in History and the History of Science, Medicine, and Technology are initially admitted to one of the degree programs, and should indicate interest in the joint PhD program at that time. After completion of a master's degree in History or History of Science, Medicine, and Technology, the student applies for admission to the other degree program and, at the same time, to a standing committee of the two programs for admission to the joint program.

Having been admitted to the other degree program and to the joint PhD program, the student then applies to the Graduate School for approval of the joint PhD (See the Graduate School's academic policy regarding joint degrees (http://grad.wisc.edu/acadpolicy/) for more information and deadlines.) The student's application to the standing committee should take the same form as required by the Graduate School and should be prepared in close consultation with department faculty/staff.

Students in the joint PhD program are assigned a home degree program and follow the regulations of that degree program with regard to seminar requirements, language requirements, financial aid, and regulations for satisfactory progress. Since the joint PhD meets the doctoral minor requirement of the Graduate School, no minor is required for students receiving a joint PhD. However, students who wish to have a minor field recorded on the transcript may complete a regular Option A or Option B minor, or the internal minor of the department.

The joint PhD student's work is supervised by a committee consisting of three faculty members (two from the home degree program). The preliminary examinations test the student's competence in both history and history of science, medicine, and technology, balancing the material and fields between the two departments (e.g. two in each, or three in one and two in the other). The number of prelim fields must equal the number required of students majoring exclusively in History or in History of Science, Medicine, and Technology, plus one. Preparation of the PhD dissertation is guided by the student's supervising committee. Satisfactory completion and defense of the dissertation constitute the final requirements for the joint PhD degree.

## JOINT PHD WITH OTHER DEGREE PROGRAMS

History students who wish to pursue a joint PhD (one degree, two majors) with another degree program must first be admitted to the other degree program. The proposal for the degree must be approved by the Department of History's Graduate Council before it is submitted to the Graduate School. Students admitted to a joint PhD will satisfy all the normal requirements of their field in History except the minor requirement.

For more information on joint PhD options, please contact the graduate program coordinator.

# ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 1 |
| Spring Deadline | This program does not admit in the spring. |
| Summer Deadline | This program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

## APPLICATION MATERIALS

To apply, applicants must include the following in the Graduate School's online application (https://grad.wisc.edu/apply/):

### History Supplemental Application

This section of the application asks applicants to provide information about research interests, declare preferred faculty advisors, and outline prior language preparation (if any).

### Writing Sample

Provide a sample that best illustrates the quality of applicant's written work (optimally no more than 50 pages, double-spaced; maximum file size 6 MB).

### Transcripts
Upload an unofficial copy of transcript from all institutions attended, showing any undergraduate and graduate degrees awarded. If recommended for admission, the Graduate School will ask for transcripts from each institution.

### CV or Resumé
This should highlight an applicant's accomplishments and qualifications including academic honors or distinctions; professional, research, and/or teaching experience; and any publications.

### Letters of Recommendation
Provide contact information for the three individuals who will furnish recommendations on an applicant's behalf (they will receive an upload link by email). Letter writers need not be historians, but they should be able to speak to an applicant's academic preparation to pursue historical studies at the graduate level.

### Statement of Purpose
The Statement of Purpose (2-3 pages, double-spaced, pdf file format) explains an applicant's reasons for graduate study. It may be the hardest part of the application to write, but it is also the most important. While an applicant will likely include some autobiographical information, its primary purpose is to acquaint us with how an applicant's mind works. We want to know, for example, what kinds of intellectual problems and issues interest the applicant, whose stories intrigue them, what sorts of analytical or narrative approaches they'd like to pursue, which historical writings the applicant admires—and their reasons for these various preferences. Please help us understand the applicant's decision to enter the historical profession and how they see their own role in it. Applicants can feel free to explain how their background and life experiences, including cultural, geographical, financial, educational, or other opportunities or challenges have motivated their decision to pursue a graduate degree at the University of Wisconsin-Madison. There is no single right way to approach this part of the application, but we suggest that the applicant bears in mind the usual cautions for personal writing: speak straightforwardly, in their own voice, and write as well as they know how.

## INTERNATIONAL APPLICANTS
All international applicants must also meet the English proficiency requirements (https://grad.wisc.edu/apply/requirements/) set forth by the Graduate School.

For additional detail about the admissions process, please visit the Prospective Student (https://history.wisc.edu/our-graduate-program/prospective-students/) pages on our website.

# FUNDING

# FUNDING
## GRADUATE SCHOOL RESOURCES
The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES
We offer funding only to students who intend to pursue the PhD—an application for admission to our PhD program, therefore, is an application for funding. We also welcome applications from students who have external funding or are self-funded, including those pursuing the MA only.*

### Multi-Year Funding Package
If you apply to the History PhD degree program without external or self-funding and are accepted, you will be offered a multi-year support package, which begins in your first year. The details of our support guarantees may vary by funding source, field of study, and other circumstances, and the guarantee is, of course, contingent on satisfactory progress and performance. Most of our support packages offer five years of support and begin with a fellowship year from the UW–Madison Graduate School, generously funded by the Wisconsin Alumni Research Foundation (http://www.warf.org/stewardship/grants-support/current/current-grant.cmsx). Our most distinguished packages include two years of fellowships and may also include summer support:

- George L. Mosse fellowships (https://history.wisc.edu/our-graduate-program/prospective-students/funding/) in modern Jewish history, European cultural history, or LGBTQ history—offered annually or as endowment income permits
- William J. Courtenay Fellowship in Medieval history—offered as funds permit
- Gerda Lerner Fellowship (https://history.wisc.edu/our-graduate-program/prospective-students/funding/) in women's history—offered as funds permit

Additional years of guaranteed funding will come from employment as teaching assistants or project assistants or additional fellowships.

### Competing for Additional Support
All students in good standing can apply for writing prizes, conference travel awards, and supplements to external awards. Once graduate students have passed their preliminary examination and advanced to candidacy, they may apply for various departmental fellowships and research travel funding.

For students who have reached the advanced stages of dissertation writing, further funding opportunities are available. Our advanced dissertators may apply for teaching fellowships that give them the opportunity to design and teach an undergraduate course – the Merle Curti Teaching Fellowship (https://history.wisc.edu/our-graduate-program/current-students/funding-opportunities/merle-curti-teaching-fellowship/) (any field of study), the George L. Mosse Teaching Fellowship in European History, and the William J. Courtenay Teaching Fellowship in ancient, medieval, or early modern European history. (These fellowships are offered as often as endowment income permits.) Thanks to funding provided by the Doris G. Quinn Foundation (https://dorisgquinnfoundation.org/), we are also pleased to offer a dissertator fellowship, which provides financial support for the final year of dissertation writing in any field.

In addition, UW-Madison offers a wealth of other opportunities to compete for funding offered, for example, by the International Division (http://international.wisc.edu/funding-your-international-experiences/), the Institute for Research in the Humanities (http://irh.wisc.edu), and the UW Graduate School (research and conference travel awards (https://grad.wisc.edu/studentfunding/grantscomp/)).

More details on our funding for current/continuing students are available here (https://history.wisc.edu/our-graduate-program/current-students/funding-opportunities/).

* If you wish to apply only for the History MA (also known as the terminal MA), please describe your sources of support on the History Supplemental Application. For information on the cost of graduate study at UW–Madison, click here (https://grad.wisc.edu/admissions/cost/).

# REQUIREMENTS

## MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

## MAJOR REQUIREMENTS

### MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

#### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

### CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 51 credits |
| Minimum Residence Credit Requirement | 32 credits |
| Minimum Graduate Coursework Requirement | 26 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.25 GPA required. |
| Other Grade Requirements | n/a |
| Assessments and Examinations | In order to receive the History PhD, all students must pass the preliminary exam and the PhD dissertation defense.<br><br>Preliminary Examination: Each field of study has its own exact requirements for prelims, but all include written exams and an oral defense of the student's research proposal and knowledge of the field.<br><br>PhD Dissertation Defense: Two-hour oral exam focusing on the student's written dissertation. |
| Language Requirements | Students must complete the language requirements specific to their field of study prior to taking the preliminary examination. |
| Graduate School Breadth Requirement | All doctoral students are required to complete a doctoral minor or graduate/professional certificate. Refer to the Graduate School: Breadth Requirement in Doctoral Training policy: https://policy.wisc.edu/library/UW-1200 (https://policy.wisc.edu/library/UW-1200/). |

### REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Core** | | |
| HISTORY 701 | History in a Global Perspective | 1 |
| HISTORY 800 | Research Seminar in History (or an equivalent research seminar in the student's field of study) [1] | 3 |
| **Electives** | | |
| Students work with advisor to complete 26 credits of graduate-level courses. | | 26 |
| HISTORY courses (https://guide.wisc.edu/courses/history/) | | |
| **Breadth** | | |
| Students complete either a distributed or an external minor or grad certificate in consultation with faculty advisor(s). | | 9 |
| **Research** | | |
| After passing the preliminary examination, students register for the following course each semester until they deposit their dissertation. | | |
| HISTORY 990 | Research and Thesis | 1-9 |
| **Total Credits** | | **51** |

[1] Alternative course options: HISTORY 855 Seminar in Japanese History for students studying East Asian History, HISTORY 861 Seminar-The History of Africa for students studying African History.

#### Recommended Courses

Students are also recommended to take HISTORY 999 Independent Work and HISTORY 710 Professional Development Seminar.

POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program approval, students are allowed to transfer up to 12 credits of graduate coursework from other institutions.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

On a case-by-case basis, refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

On a case-by-case basis, refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW-Madison

On a case-by-case basis, refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Refer to the Graduate School: Advisor (https://policy.wisc.edu/library/UW-1232/) and Graduate School: Committees (Doctoral/Master's/MFA) (https://policy.wisc.edu/library/UW-1201/) policies.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
- Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## L&S POLICY FOR GRADUATE STUDENT ACADEMIC APPEALS

Graduate students have the right to appeal an academic decision related to an L&S graduate program if the student believes that the decision is inconsistent with published policy.

Academic decisions that may be appealed include:

- Dismissal from the graduate program
- Failure to pass a qualifying or preliminary examination
- Failure to achieve satisfactory academic progress
- Academic disciplinary action related to failure to meet professional conduct standards

Issues such as the following cannot be appealed using this process:

- A faculty member declining to serve as a graduate student's advisor.
- Decisions regarding the student's disciplinary knowledge, evaluation of the quality of work, or similar judgements. These are the domain of the department faculty.
- Course grades. These can be appealed instead using the L&S Policy for Grade Appeal (https://kb.wisc.edu/ls/22258/).
- Incidents of bias or hate, hostile and intimidating behavior (https://hr.wisc.edu/hib/), or discrimination (Title IX (https://compliance.wisc.edu/titleix/), Office of Compliance (https://compliance.wisc.edu/eo-complaint/formal-investigations/)). Direct these to the linked campus offices appropriate for the incident(s).

### Appeal Process for Graduate Students

A graduate student wishing to appeal an academic decision must follow the process in the order listed below. Note time limits within each step.

1. The student should first seek informal resolution, if possible, by discussing the concern with their academic advisor, the department's Director of Graduate Studies, and/or the department chair.
2. If the program has an appeal policy listed in their graduate program handbook, the student should follow the policy as written, including adhering to any indicated deadlines. In the absence of a specific departmental process, the chair or designee will be the reviewer and decision maker, and the student should submit a written appeal to the chair within 15 business days of the academic decision. The chair or designee will notify the student in writing of their decision.
3. If the departmental process upholds the original decision, the graduate student may next initiate an appeal to L&S. To do so, the student must submit a written appeal to the L&S Assistant Dean for Graduate Student Academic Affairs within 15 business days of notification of the department's decision.
    a. To the fullest extent possible, the written appeal should include, in a single document: a clear and concise statement of the academic decision being appealed, any relevant background on what led to the decision, the specific policies involved, the relief sought, any relevant documentation related to the departmental appeal, and the names and titles of any individuals contributing to or involved in the decision.
    b. The Assistant Dean will work with the Academic Associate Dean of the appropriate division to consider the appeal. They may seek additional information and/or meetings related to the case.
    c. The Assistant Dean and Academic Associate Dean will provide a written decision within 20 business days.
4. If L&S upholds the original decision, the graduate student may appeal to the Graduate School. More information can be found on their website: Grievances and Appeals (https://grad.wisc.edu/documents/grievances-and-appeals/) (see: Graduate School Appeal Process).

# PROFESSIONAL DEVELOPMENT

## PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

### PROGRAM RESOURCES

The Department of History is committed to training our students to develop skills required for a variety of careers both in and outside the academy. Although a large network of our alumni teach at colleges and universities in the U.S. and across the world, a number of our PhDs have enjoyed considerable success outside the academy. They include recent graduates who are currently a museum curator, teachers at prestigious preparatory academies, a historian with the U.S. Secretary of Defense's POW/Missing Persons Agency, a CEO of an investment firm, an analyst for a defense contractor, an editor at a small press, and consultants working with non-profits in the human services, education, and public policy fields. In recent years we have undertaken a number of initiatives, detailed below, to broaden the training of our students for a wide array of careers.

Much of the preparation for the job market occurs informally and over the course of the student's graduate career—in the mentoring relationship between faculty advisor and student, in the presentation of student research in department venues, in the student's participation in professional conferences, and in early forms of professional publication. Coursework, such as for the minor requirement or certificates, can be an avenue to expanded competencies. Be sure to explore the Graduate School's resources such as "The Versatile PhD (https://grad.wisc.edu/pd/versatilephd/)" and its Professional Development pages (http://grad.wisc.edu/pd/).

Whatever career paths interest you, we encourage you to plan ahead and discuss your options—early and often—with your faculty advisor(s), with the Director of Graduate Studies, or with the Graduate Coordinator.

#### Professional Development Seminars ( HISTORY 710)

This topics seminar is offered every semester. It emphasizes building skills that are valuable both inside and outside the academy, such as managing the writing process, teaching college history, or communicating historical research to a broad, non-specialist audience. Since it is a topics course, more than one may be offered in a given semester. Recent topics include "Writing for Academy and Beyond," "Digital History," and "On the Job Market."

#### Professional Development Events

Throughout the year, the Graduate Program sponsors various workshops intended to help students negotiate specific milestones of graduate study and to assist them in preparing for and going on the job market as they near completion of the PhD. Our programming currently includes:

##### Preliminary Examination Workshop

This offers a discussion of the various requirements for preliminary examinations: how to assemble committees, compiling reading lists, Graduate School requirements, and more.

##### Curriculum Vitae Workshops

These workshops are designed for students at all levels, ranging from first-year students writing CVs for campus positions to advanced dissertators on the job market.

##### Mock Interviews

The Graduate Program offers a series of opportunities to practice with a committee of our faculty for AHA interviews and on-campus job talks. They are open to a limited number of students who expect to be actively on the job market in the fall.

##### Careers in History Workshops

Our program is committed to helping its graduates seek and secure employment following the completion of their PhDs. Since the financial crisis in 2008, the academic job market has softened markedly. While the Graduate Program continues to provide outstanding preparation for academic jobs, we also encourage our students to think more broadly about their career prospects and the transferability of their skills. As funds permit, we occasionally bring to campus History graduates who are working in the non-profit, private, or public sector to meet with current graduate students and share their experiences. We also offer opportunities to learn best practices for post-doctoral fellowship applications.

# LEARNING OUTCOMES

## LEARNING OUTCOMES

1. Articulates research problems clearly and understands the limits of current theories, knowledge, or practices in the discipline of history.

2. Pushes the boundaries of current historical knowledge in formulating research questions, in the selection or use of primary sources, or in interpreting evidence.
3. Demonstrates breadth of historical and cultural knowledge.
4. Is able to articulate the broader significance of their work to scholars in other fields or disciplines and to the broader public.
5. Is able to design and teach courses at the undergraduate or graduate level.
6. Fosters ethical and professional conduct.

# MEDIEVAL STUDIES, DOCTORAL MINOR

The Minor in Medieval Studies is of interest and use to graduate students seeking to study the Middle Ages in a way that would complement and deepen their study of history, language, literature, art, etc. The program will allow these students to gather the broadly interdisciplinary coursework outside the student's home department or program into a meaningful credential that appears on their transcript.

## ADMISSIONS

## ADMISSIONS

A student should declare their interest to the Director of the Medieval Studies Program before beginning coursework required for the minor. See Contact Box for Director information.

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any doctoral minor. To apply to this minor, log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. Select the information for the doctoral minor for which you are applying.

## REQUIREMENTS

## REQUIREMENTS

### REQUIRED COURSES

To earn a doctoral minor in Medieval Studies, students must complete a minimum of 9 credits from the courses listed below. Other graduate-level courses on medieval topics may be approved for the minor in consultation with the program director.

Students should be aware of the following when selecting courses:

- Courses must have the "Grad 50%" designation.
- At least two different subject listings are required.
- Courses must be from different subject listing than the student's home department or program.

**Course Options**

| Code | Title | Credits |
|---|---|---|
| SCAND ST/ MEDIEVAL 409 | Survey of Old Norse-Icelandic Literature | 3 |
| SCAND ST/ MEDIEVAL 430 | The Vikings | 4 |
| SCAND ST/ MEDIEVAL 444 | Kalevala and Finnish Folk-Lore | 4 |
| ART HIST 715 | Topics in Medieval Art | 3 |
| ENGL 314 | Structure of English | 3 |
| ENGL 417 | History of the English Language | 3 |
| ENGL/ MEDIEVAL 520 | Old English | 3 |
| ENGL/ MEDIEVAL 521 | Advanced Old English Literature | 3 |
| ENGL/ MEDIEVAL 803 | Topics in Medieval Literature | 3 |
| HISTORY/ MEDIEVAL/ RELIG ST 309 | The Crusades: Christianity and Islam | 3-4 |
| HISTORY 417 | History of Russia | 3-4 |
| HISTORY/ LEGAL ST 426 | The History of Punishment | 3-4 |
| HISTORY/ SCAND ST 431 | History of Scandinavia to 1815 | 3 |
| SPANISH/ MEDIEVAL 541 | Old Spanish | 3 |
| HISTORY 805 | Seminar-Medieval History | 1-3 |
| ITALIAN/ MEDIEVAL 659 | Dante's Divina Commedia | 3 |
| ITALIAN/ MEDIEVAL 671 | The 13th Century | 3 |
| LATIN/ MEDIEVAL 563 | Mediaeval Latin | 3 |
| MUSIC 411 | Survey of Music in the Middle Ages | 3 |
| MUSIC 412 | Survey of Music in the Renaissance | 3 |
| GERMAN 650 | History of the German Language | 3 |
| GERMAN/ MEDIEVAL 651 | Introduction to Middle High German | 3 |
| GERMAN/ MEDIEVAL 755 | Old Germanic Languages | 3 |

# HUMAN ECOLOGY - SCHOOL-WIDE

## DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

## DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/ PROFESSIONAL CERTIFICATES

- Human Ecology, Doctoral Minor (p. 1032)
- Human Ecology, MFA (p. 1032)
- Human Ecology, MS (p. 1037)
- Human Ecology, PhD (p. 1043)

# HUMAN ECOLOGY, DOCTORAL MINOR

Any student enrolled in a UW–Madison doctoral program, other than Human Ecology, can pursue a doctoral minor in Human Ecology. The graduate program within the School of Human Ecology (SoHE) provides rich interdisciplinary training and scholarship focused on exploring the human condition and well-being in relation to ecological settings—physical, social, community, and built surroundings. The school's philosophy is that individual development and well-being are promoted through interactions with ecological settings. Research, creativity, teaching, and outreach are directed toward a positive impact on these settings and the patterns of human behavior within them. Faculty members possess expertise in areas as diverse as longitudinal modeling, community-based research, interpretive interviewing, program evaluation, observational methods, survey methodology, action research, and ethnography.

## ADMISSIONS

## ADMISSIONS

Any graduate student outside of the School of Human Ecology interested in pursuing an option A, external doctoral minor (https://policy.wisc.edu/library/UW-1200/), as part of their breadth requirement should complete the SoHE Doctoral Minor Form (https://wisc.pb.unizin.org/sohegrad/part/doctoral-minor-human-ecology/).

All graduate students must utilize the Graduate Student Portal to add, change, or discontinue any doctoral minor. Log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. Select the information for the doctoral minor for which you are applying.

## REQUIREMENTS

## REQUIREMENTS

### GRADE REQUIREMENT

Students must receive a grade of B or better in each course.

### REQUIRED COURSES

The Human Ecology Doctoral Minor requires at least 9 credits taken through a combination of coursework in at least two different School of Human Ecology departments: Civil Society and Community Studies (CSCS) (https://guide.wisc.edu/courses/cscs/); Consumer Science (CNSR SCI) (https://guide.wisc.edu/courses/cnsr_sci/), Design Studies (DS) (https://guide.wisc.edu/courses/ds/), Human Development and Family Studies (HDFS) (https://guide.wisc.edu/courses/hdfs/), and Interdisciplinary–Human Ecology (INTER-HE) (https://guide.wisc.edu/courses/inter_he/). At least 6 of the 9 credits must be in courses numbered at least 700 and above. Human Ecology courses that are cross-listed with another department should be enrolled in through the respective Human Ecology department.

# HUMAN ECOLOGY, MFA

The focus of the MFA degree is on creative performance in design. Its goals are to promote strong and creative conceptual thinking, exploration, interpretation, innovation, and overall excellence in design execution.

Students interested in the MFA should refer to the named option in Design Studies (p. 1033).

## ADMISSIONS

## ADMISSIONS

Students apply to the MFA in Human Ecology through its named option:

- Design Studies (p. 1034)

## FUNDING

## FUNDING

### GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

### PROGRAM RESOURCES

Funding opportunities for Human Ecology graduate students are available and made possible, in large part, by generous donations to SoHE. Every year, these funds are used to fund teaching or project assistantships, award academic excellence scholarships, and provide students doing their master's or doctoral research or final MFA project with conference travel scholarships and graduate research scholarships. See more funding information for the School of Human Ecology on our program website (https://grad.humanecology.wisc.edu/an-overview-of-graduate-funding/) and enrollment requirements for funding eligibility in our handbook (https://wisc.pb.unizin.org/sohegrad/chapter/enrollment-requirements-2/).

## REQUIREMENTS

## MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

## MAJOR REQUIREMENTS

### CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 51 credits |

| | |
|---|---|
| Minimum Residence Credit Requirement | 24 credits |
| Minimum Graduate Coursework Requirement | 26 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | n/a |
| Assessments and Examinations | Required Milestones<br>• Second Year MFA Exhibition<br>• Second Year Reflection<br>• Third Year Thesis Proposal<br>• Third Year MFA Exhibition |

### REQUIRED COURSES

Select a Named Option (p. 1033) for courses required.

## NAMED OPTIONS

A named option is a formally documented sub-major within an academic major program. Named options appear on the transcript with degree conferral. Students pursuing the Master of Fine Arts in Human Ecology must select the following named option:

View as listView as grid

- **HUMAN ECOLOGY: DESIGN STUDIES, MFA (P. 1033)**

## PROFESSIONAL DEVELOPMENT

## PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

### PROGRAM RESOURCES

The School of Human Ecology Graduate Program values the professional development of graduate students and provides financial awards to those who are invited to present at professional conferences/exhibits. The purpose of the support is to encourage participation in professional development, scholarly research, and/or creative endeavor and to help cover expenses not covered by other sources. Students may receive a maximum award of $650 for travel ($750 for international travel) to support conference participation in a single academic year. Students are encouraged to seek conference and travel funding from the Graduate School as a first step and apply for supplemental funds through SoHE as needed.

In addition, each academic department within the School of Human Ecology may offer additional professional development grant opportunities. See Programming (https://grad.wisc.edu/professional-development/#programming) and the Events Calendar (https://grad.wisc.edu/uw-events/) for the most up-to-date information on professional development opportunities.

## LEARNING OUTCOMES

## LEARNING OUTCOMES

1. Articulate challenges, frontiers and limits with respect to theory, knowledge or practice within the area of study.
2. Formulate ideas, concepts, designs, and/or techniques beyond the current boundaries of knowledge within one's area of study.
3. Create research, scholarship or performance that makes a substantive contribution to one's field.
4. Foster ethical conduct and professional guidelines.

## POLICIES

## POLICIES

Students should refer to the named option for policy information:

- Design Studies (https://guide.wisc.edu/graduate/human-ecology-school-wide/human-ecology-mfa/human-ecology-design-studies-mfa/#policiestext)

# HUMAN ECOLOGY: DESIGN STUDIES, MFA

This is the only named option within the Human Ecology, MFA (p. 1032). Students interested in the Human Ecology, MFA should apply directly to this Human Ecology: Design Studies, MFA named option.

The focus of the MFA degree is on creative performance in design. Its goals are to promote strong and creative conceptual thinking, exploration, interpretation, innovation, and overall excellence in design execution.

## SPECIALIZATIONS

Students typically focus their work in one of two general areas:

- *Textile and Fashion Design (TFD):* TFD students focus on the conceptual, technical, and aesthetic possibilities of textiles and clothing.
- *Interior Architecture (IA):* IA students typically concentrate on the innovative application of aesthetic, conceptual, and expressive design strategies in interior environments.

There are many students who may work across these areas or have an even more idiosyncratic integrative focus. In every case, students formulate a plan of study to suit their individual needs.

The course of study requires the completion of a minimum of 60 credits and includes a substantial studio work component. The curriculum seeks to create a foundation with flexibility to fit student needs. Interested students can view course requirements on this page. (p. 1034)

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 1 |
| Spring Deadline | The program does not admit in the spring. |
| Summer Deadline | The program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

The Human Ecology Graduate Program reviews applications once per year after the admissions deadline. The faculty admissions committee reviews all complete applications using holistic admissions criteria. Those selected for an interview will be contacted by email. All admitted students will be invited to attend the Human Ecology Graduate Programs Admitted Student Visit Day held each spring. For more information on the specifics on the timeline, process, and application materials, please see the Human Ecology Admissions Information (https://grad.humanecology.wisc.edu/admissions/) website.

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# NAMED OPTION REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 51 credits |
| Minimum Residence Credit Requirement | 31 credits |
| Minimum Graduate Coursework Requirement | 30 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |

| | |
|---|---|
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/) |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Human Ecology Courses** | | |
| INTER-HE 792 | Theories and Perspectives in Human Ecology | 1 |
| INTER-HE 801 | Special Topics in Human Ecology (Professional Development Seminar) | 1 |
| **Material Culture, History and Criticism** | | |
| Students must complete at least 6 credits in this category. Courses may include, but are not limited to the following list. Students may also select other courses focusing on material culture, history and/or criticism from departments such as: African Cultural Studies African American Studies, American Indian Studies, Art History, Asian Languages & Literature ,Design Studies, Gender & Women's Studies, History, or other departments focusing on material culture, history and/or criticism as determined by the faculty advisor. | | 6 |
| AFROAMER/ ART HIST 801 | Historiography, Theory and Methods in Visual Culture | |
| AFROAMER/ ART HIST 802 | Visual Cultures: Topics in Visual Cultures | |
| ART HIST 603 | Curatorial Studies Colloquium | |
| ART HIST 703 | Curatorial Studies Colloquium | |
| DS 355 | History of Fashion, 1400-Present | |
| DS 421 | History of Architecture and Interiors I: Antiquity through 18th Century | |
| DS 422 | History of Architecture & Interiors II: 19th and 20th Centuries | |
| DS 430 | History of Textiles | |
| DS 501 | Special Topics (History: Object Based Learning) | |
| DS/ANTHRO/ ART HIST/ HISTORY/ LAND ARC 764 | Dimensions of Material Culture | |
| **Design Studies Seminar** | | |
| Students must complete at least 3 credits of the following course. This is fulfilled by taking at least 1 credit per year for all three years of the program. | | 3 |
| DS 920 | Seminar in Design Studies (MFA Studio Colloquium) | |
| **Non-Studio Elective Coursework** | | |
| Students must complete at least 3 credits in this category. The course should be related to the area of research but outside of the arts. Students must choose a course numbered 300 and above outside of the School of Human Ecology. | | 3 |
| **Elective Coursework** | | |
| Students must complete at least 5 credits in this category. Students may select courses numbered 300 and above from within the School of Human Ecology or other departments across campus. | | 5 |
| **Art Colloquium** | | |
| Students must complete at least 6 credits of the following course by taking 1 credit each semester (recommended). | | 6 |
| ART 508 | Colloquium in Art | |
| **General Studio Work** | | |
| Students must complete at least 9 credits to develop a strong foundation in studio-based inquiry and applied scholarship. Choose from any studio course numbered 300 or above from any of the following departments (Art, Communication Arts, Creative Writing, Design Studies, Dance, Landscape Architecture, Music, or Theater); or other studio (applied scholarship) courses as determined by the faculty advisor. | | 9 |
| **Focused Area Studio Work** | | |
| Complete 17 credits, including at least 8 credits must be with the faculty advisor (1-3 credits recommended each semester). Remaining credits may be with the faculty advisor and/or faculty members on the MFA committee. | | 17 |
| DS 990 | Research and Thesis | |
| **Total Credits** | | **51** |

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# NAMED OPTION-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program approval, students are allowed to transfer up to 18 credits of graduate coursework taken at other institutions or as a UW-Madison special student. Prior coursework taken at other institutions may not be used to satisfy the minimum graduate residence credit requirement. Credits earned ten or more years prior to admission to a master's degree are not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

With program approval, students are allowed to transfer up to 9 credits as a University Special student in coursework numbered 300 or above. These credits are not allowed to count toward the 50% graduate coursework minimum unless taken in coursework numbered 700 or above or are taken to meet the requirements of a capstone certificate and has the "Grad 50%" designation. Credits earned ten or more years prior to admission to a master's degree are not allowed to satisfy requirements.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Every graduate student is required to have a faculty advisor. The faculty advisor is also the students committee chair and must be MFA graduate faculty in the Design Studies department. An advisor is a faculty member, or sometimes a committee, from the major department responsible for providing advice regarding graduate studies. An advisor generally serves as the thesis advisor. In many cases, an advisor is assigned to incoming students. Students can be suspended from the Graduate School if they do not have an advisor.

To ensure that students are making satisfactory progress toward a degree, the Graduate School expects them to meet with their advisor on a regular basis.

A committee often accomplishes advising for the students in the early stages of their studies.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

The School of Human Ecology Graduate Program Handbook (https://wisc.pb.unizin.org/sohegrad/chapter/conduct-expectations/) outlines the conduct expectations and grievance process.

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
- Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

# PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

## GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## PROGRAM RESOURCES

The School of Human Ecology Graduate Program values the professional development of graduate students and provides financial awards to those who are invited to present at professional conferences/exhibits. The purpose of the support is to encourage participation in professional development, scholarly research, and/or creative endeavor and to help cover expenses not covered by other sources. Students may receive a maximum award of $650 for travel ($750 for international travel) to support conference participation in a single academic year. Students are encouraged to seek conference and travel funding from the Graduate School as a first step and apply for supplemental funds through SoHE as needed.

In addition, each academic department within the School of Human Ecology may offer additional professional development grant opportunities. See Programming (https://grad.wisc.edu/professional-development/#programming) and the Events Calendar (https://grad.wisc.edu/uw-events/) for the most up-to-date information on professional development opportunities.

# HUMAN ECOLOGY, MS

## SCHOOL OF HUMAN ECOLOGY

The School of Human Ecology has a strong tradition of outreach and counts several faculty members with budgeted extension appointments among its ranks, but all faculty members devote time and resources to ensuring their work benefits others beyond the campus. These efforts reflect the Wisconsin Idea, (http://wisconsinidea.wisc.edu/) the notion that the university's boundaries are those of the state, nation, and beyond. Graduate education at SoHE encompasses this mission by stressing the integration of research with program design and implementation, administration, policy development, and evaluation.

Human ecology is the study of the complex relationships between human beings and their environments. SoHE offers the Human Ecology MS degree with two named options. The Human Ecology named option is the admitting terminal master's degrees. Students enrolled in one of the Human Ecology PhD program named options have the opportunity to earn the Human Ecology MS: Human Ecology Research (p. 1038) degree along the way to the PhD upon successful completion of coursework and research.

### ADMITTING HUMAN ECOLOGY MS OPTION:

- Master of Science in Human Ecology Program (p. 1040)

### NON-ADMITTING HUMAN ECOLOGY MS OPTION (EARNED ON THE WAY TO THE PHD)

- Master of Science in Human Ecology: Human Ecology Research (p. 1038)

## ADMISSIONS

## ADMISSIONS

Students apply to the Master of Science in Human Ecology through one of the named options:

- Human Ecology (p. 1040)
- Human Ecology Research (p. 1038)

## FUNDING

## FUNDING

### GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

### PROGRAM RESOURCES

Funding opportunities for Human Ecology graduate students are available and made possible, in large part, by generous donations to SoHE. Every year, these funds are used to fund teaching or project assistantships, award academic excellence scholarships, and provide students doing their master's or doctoral research or final MFA project with conference travel scholarships and graduate research scholarships. See more funding information for the School of Human Ecology on our program website (https://grad.humanecology.wisc.edu/an-overview-of-graduate-funding/) and enrollment requirements for funding eligibility in our handbook (https://wisc.pb.unizin.org/sohegrad/chapter/enrollment-requirements-2/).

## REQUIREMENTS

## MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

## MAJOR REQUIREMENTS

### CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 32 credits |
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 16 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required.<br>Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | n/a |
| Assessments and Examinations | No additional assessments and examinations. |
| Language Requirements | No language requirements. |

### REQUIRED COURSES

Select a Named Option (p. 1037) for courses required.

## NAMED OPTIONS

A named option is a formally documented sub-major within an academic major program. Named options appear on the transcript with degree conferral. Students pursuing the Master of Science in Human Ecology must select one of the following named options:

View as listView as grid

- **HUMAN ECOLOGY: HUMAN ECOLOGY RESEARCH, MS (P. 1038)**
- **HUMAN ECOLOGY: HUMAN ECOLOGY, MS (P. 1040)**

## POLICIES

# POLICIES

Students should refer to one of the named options for policy information:

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Articulate, critique, or elaborate the theories, research methods, and approaches to inquiry or schools of practice in one's area of study.
2. Identify sources and assemble evidence pertaining to questions or challenges in the area of study.
3. Understand the social, political, ethical, and economic contexts of research and creative scholarship.
4. Compare and contrast multiple paradigms for describing reality (e.g., personal history, world view, philosophic tradition, discipline).
5. Understand the Human Ecology perspective by examining and explaining the relations among humans and their natural, social, and build environments using an interdisciplinary and transdisciplinary lens.
6. Select and/or utilize the most appropriate methodologies and practices.
7. Recognize the nature and significance of diversity as related to one's area of study.
8. Communicate clearly in ways appropriate to a variety of audiences.
9. Recognize and apply principles of ethical conduct.

# HUMAN ECOLOGY: HUMAN ECOLOGY RESEARCH, MS

This is a named option in the Human Ecology MS and is a non-admitting program offered only for current students who were admitted to one of the named options in the PhD in Human Ecology (p. 1043). Students interested in a terminal MS degree in Human Ecology should see the Human Ecology MS: Human Ecology (p. 1040) named option for more information.

## ADMISSIONS

# ADMISSIONS

The Human Ecology MS (named option Human Ecology Research) is offered for work leading to the PhD. Students may not apply directly for this MS named option as it is non-admitting.

Students interested in the MS in Human Ecology should apply to the admitting named option of MS Human Ecology: Human Ecology (https://guide.wisc.edu/graduate/human-ecology-school-wide/human-ecology-ms/human-ecology-human-ecology-ms/).

### MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

#### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

### CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 32 credits |
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 16 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA<br>Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | n/a |
| Assessments and Examinations | Students may complete a thesis, but this is not a requirement of the MS Human Ecology: Human Ecology Research named option. |
| Language Requirements | No language requirements. |

### REQUIRED COURSES

Students must complete the following courses.

| Code | Title | Credits |
|---|---|---|
| **Human Ecology Courses** | | |
| INTER-HE 792 | Theories and Perspectives in Human Ecology | 2 |
| INTER-HE 793 | Research Methods | 3 |
| INTER-HE 801 | Special Topics in Human Ecology (Professional Development Seminar) | 1 |
| **Additional Coursework** | | |
| Students complete additional coursework through a combination of research and coursework selected in consultation with advisor. Courses may be in other subject areas in the School of Human Ecology and/or other related departments. Independent study (699, 999) and research (990) credits may be used to meet the minimum degree credit requirement. | | 26 |
| **Total Credits** | | **32** |

# HUMAN ECOLOGY: HUMAN ECOLOGY, MS

This is a named option in the Human Ecology MS. (p. 1037)

The Master of Science in Human Ecology offers multi-disciplinary coursework that focuses on current theories and strategies for creating, managing, and evaluating settings that promote human and community development. Students are exposed to current research and practice that integrates the promotion of human and family development with perspectives on building effective organizations and sustainable communities. Students create their own "master's specialization" through elective courses and the completion of a real-world capstone project. Specializations are designed so that students can name their expertise to prospective employees.

This program is intended as a terminal, applied degree. Students interested in a PhD, MFA, or other graduate degrees in the School of Human Ecology (https://sohe.wisc.edu/graduate-students/) may apply separately to these programs.

The master's program is geared toward students who are both new to the field and those who have had some direct practice, applied research, educational or advocacy experience. This MS degree can be completed in three semesters of full-time study or four or more semesters if students are part-time. The program prepares students for careers working in a wide range of settings, including:

- Community-based organizations (family support, youth work, community organizing, social justice, intervention and prevention programs, consumer and financial coaching)
- Intermediary and "backbone" organizations (technical assistance providers, philanthropic foundations, applied research and evaluation organizations, capacity building providers, community-based economic development)
- Government agencies (child and family services, public health, legislative support)
- University outreach (Cooperative Extension, community partnerships and coalitions, public service, multicultural offices, academic support, and education)

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 1 |
| Spring Deadline | The program does not admit in the spring. |
| Summer Deadline | The program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

The Human Ecology Graduate Program reviews applications once per year after the admissions deadline. The faculty admissions committee reviews all complete applications using holistic admissions criteria. Those selected for an interview will be contacted by email. All admitted students will be invited to attend the Human Ecology Graduate Programs Admitted Student Visit Day held each spring. For more information on the specifics on the timeline, process, and application materials, please see the Human Ecology Admissions Information (https://grad.humanecology.wisc.edu/admissions/) website.

# PROFESSIONAL DEVELOPMENT

## PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

### PROGRAM RESOURCES

The School of Human Ecology Graduate Program values the professional development of graduate students and provides financial awards to those who are invited to present at professional conferences/exhibits. The purpose of the support is to encourage participation in professional development, scholarly research, and/or creative endeavor and to help cover expenses not covered by other sources. Students may receive a maximum award of $650 for travel ($750 for international travel) to support conference participation in a single academic year. Students are encouraged to seek conference and travel funding from the Graduate School as a first step and apply for supplemental funds through SoHE as needed.

In addition, each academic department within the School of Human Ecology may offer additional professional development grant opportunities. See Programming (https://grad.wisc.edu/professional-development/#programming) and the Events Calendar (https://grad.wisc.edu/uw-events/) for the most up-to-date information on professional development opportunities.

# HUMAN ECOLOGY, PHD

Human ecology is the study of the complex relationships between human beings and their environments. The school offers a doctorate of philosophy within four named options/specializations:

- Civil Society and Community Research (p. 1045) (CSCR)
- Consumer Behavior and Family Economics (p. 1048) (CBFE)
- Design Studies (p. 1052) (DS)
- Human Development and Family Studies (p. 1056) (HDFS)

Each named option has its own faculty, curriculum, requirements and includes a challenging array of coursework along with exciting opportunities for research, outreach, and service consistent with each student's scholarly interests and career aspirations.

Students enrolled in one of the Human Ecology PhD program named options have the opportunity to earn the Human Ecology MS: Human Ecology Research (p. 1038) degree along the way to the PhD upon successful completion of coursework and research.

As part of a Research I institution, SoHE faculty members have national reputations in their fields of study and are highly committed to nurturing future scholars and practitioners. They conduct research and mentor students to address issues that cross disciplinary lines. They work closely with graduate students to create courses of study that match each student's personal and professional goals.

The School of Human Ecology has a strong tradition of outreach and counts several faculty members with budgeted extension appointments among its ranks, but all faculty members devote time and resources to ensuring their work benefits others beyond the campus. These efforts reflect the Wisconsin Idea, (http://wisconsinidea.wisc.edu/) the notion that the university's boundaries are those of the state, nation, and beyond. Graduate education at SoHE encompasses this mission by stressing the integration of research with program design and implementation, administration, policy development, and evaluation.

## ADMISSIONS

# ADMISSIONS

Students interested in the Human Ecology PhD should apply directly to one of the named options:

- Civil Society and Community Research (p. 1046) (CSCR)
- Consumer Behavior and Family Economics (p. 1049) (CBFE)
- Design Studies (p. 1053) (DS)
- Human Development and Family Studies (p. 1056) (HDFS)

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

Funding opportunities for Human Ecology graduate students are available and made possible, in large part, by generous donations to SoHE. Every year, these funds are used to fund teaching or project assistantships, award academic excellence scholarships, and provide students doing their master's or doctoral research or final MFA project with conference travel scholarships and graduate research scholarships. See more funding information for the School of Human Ecology on our program website (https://grad.humanecology.wisc.edu/an-overview-of-graduate-funding/) and enrollment requirements for funding eligibility in our handbook (https://wisc.pb.unizin.org/sohegrad/chapter/enrollment-requirements-2/).

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 51 credits |
| Minimum Residence Credit Requirement | 32 credits |
| Minimum Graduate Coursework Requirement | 26 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | See Named Options for policy information. |
| Other Grade Requirements | n/a |
| Assessments and Examinations | See Named Options for policy information. |
| Language Requirements | n/a |
| Graduate School Breadth Requirement | See Named Options for policy information. |

## REQUIRED COURSES

Select a Named Option (p. 1044) for courses required.

# NAMED OPTIONS

A named option is a formally documented sub-major within an academic major program. Named options appear on the transcript with degree conferral. Students pursuing the PhD in Human Ecology should select one of the following named options:

View as listView as grid

- **HUMAN ECOLOGY: CIVIL SOCIETY AND COMMUNITY RESEARCH, PHD (P. 1045)**
- **HUMAN ECOLOGY: CONSUMER BEHAVIOR AND FAMILY ECONOMICS, PHD (P. 1048)**
- **HUMAN ECOLOGY: DESIGN STUDIES, PHD (P. 1052)**
- **HUMAN ECOLOGY: HUMAN DEVELOPMENT AND FAMILY STUDIES, PHD (P. 1056)**

## POLICIES

# POLICIES

Students should refer to one of the named options for policy information:

- Civil Society and Community Research (p. 1046) (CSCR)
- Consumer Behavior and Family Economics (p. 1049) (CBFE)
- Design Studies (p. 1053) (DS)
- Human Development and Family Studies (p. 1056) (HDFS)

PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

## GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## PROGRAM RESOURCES

The School of Human Ecology Graduate Program values the professional development of graduate students and provides financial awards to those who are invited to present at professional conferences/exhibits. The purpose of the support is to encourage participation in professional development, scholarly research, and/or creative endeavor and to help cover expenses not covered by other sources. Students may receive a maximum award of $650 for travel ($750 for international travel) to support conference participation in a single academic year. LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Articulate challenges, frontiers and limits with respect to theory, knowledge or practice within the area of study.
2. Formulate ideas, concepts, designs, and/or techniques beyond the current boundaries of knowledge within one's area of study.
3. Consider the role of social, political, ethical, and economic contexts of research and creative scholarship in one's area of study.
4. Consider the role of multiple paradigms for describing reality in one's area of study.
5. Contribute to advancing the Human Ecology perspective by reflecting the relations among humans and their natural, social, and built environments and applying an interdisciplinary and/or transdisciplinary lens in one's area of professional practice.
6. Create research, scholarship or performance that makes a substantive contribution to one's field.
7. Reflect the nature and significance of diversity in one's area of professional practice.
8. Communicate complex or ambiguous ideas in a compelling manner to a variety of audiences.
9. Foster ethical conduct and professional guidelines.

# HUMAN ECOLOGY: CIVIL SOCIETY AND COMMUNITY RESEARCH, PHD

This is a named option within the Human Ecology, PhD. (p. 1043)

The Human Ecology PhD named option in Civil Society and Community Research (CSCR) focuses on theoretical foundations of grassroots institutions, nonprofit organizations, voluntary associations, and social networks that strive to benefit the common good. The program emphasizes mixed method inquiries that integrate participatory approaches with advanced quantitative and qualitative analysis. The program prepares students to use the processes of research and outreach to strengthen civil society.

Students enrolled in one of the Human Ecology PhD program named options have the opportunity to earn the Human Ecology MS: Human Ecology Research (p. 1038) degree along the way to the PhD upon successful completion of coursework and research.

The Civil Society and Community Research faculty areas of research include: civil society, the nonprofit sector, civic engagement, developmental psychology, community and organizational development, youth civic engagement, community psychology, applied medical anthropology, sustainability, education, inter-generational partnerships, program evaluation and learning assessment, community–university partnerships, and philanthropy and giving.

The CSCR program is served by a multidisciplinary faculty who are professionally active and have strong records of national and international scholarship. They bring perspectives of many disciplines to their work, including community psychology, developmental psychology, sociology, education, medical and cultural anthropology, transformative evaluation, and community action. Reflecting the multidisciplinary orientation of the program, faculty possess expertise in areas as diverse as longitudinal modeling, interpretive interviewing, mixed methods study designs, various mapping techniques, observational methods, survey methodology, community-based research, and ethnography.

The CSCR program is committed to collaborations between faculty and graduate students in the arenas of research, teaching, and outreach. Current areas of scholarly activity include youth civic engagement, community organizing, inter-generational partnerships, social trust, program evaluation, coalition building, voluntary associations, adult learning, community development, place-based education and stewardship, and social change. Faculty and students not only conduct research in these areas, they affirmatively support policies and programs. The department maintains strong affiliations with the University of Wisconsin–Madison Division of Extension's Department of Youth, Family & Community Development.

Graduates of CSCR are prepared for careers as professors in academic departments of human ecology, community development, community research and action, nonprofit management, community sociology, applied developmental science, and program support services. Students will also be prepared for careers as senior staff in technical assistance organizations, foundations, public agencies, and advocacy/public education units. Others will choose to use their research and consultation skills to support grassroots organizations.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 1 |
| Spring Deadline | This program does not admit in the spring. |
| Summer Deadline | This program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

The Human Ecology Graduate Program reviews applications once per year after the admissions deadline. The faculty admissions committee reviews all complete applications using holistic admissions criteria. Those selected for an interview will be contacted by email. All admitted students will be invited to attend the Human Ecology Graduate Programs Admitted Student Visit Day held each spring. For more information on the specifics on the timeline, process, and application materials, please see the Human Ecology Admissions Information (https://grad.humanecology.wisc.edu/admissions/) website.

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 51 credits |
| Minimum Residence Credit Requirement | 32 credits |
| Minimum Graduate Coursework Requirement | 26 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |

| | |
|---|---|
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | n/a |
| Assessments and Examinations | Doctoral students are required to take a comprehensive preliminary/oral examination after they have cleared their record of all Incomplete and Progress grades (other than research and thesis). Deposit of the doctoral dissertation in the Graduate School is required. |
| Language Requirements | Contact the program for information on any language requirements. |
| Graduate School Breadth Requirement | All doctoral students are required to complete a doctoral minor or graduate/professional certificate. Refer to the Graduate School: Breadth Requirement in Doctoral Training policy: https://policy.wisc.edu/library/UW-1200 (https://policy.wisc.edu/library/UW-1200/). |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Human Ecology Courses** | | |
| INTER-HE 792 | Theories and Perspectives in Human Ecology | 2 |
| INTER-HE 793 | Research Methods | 3 |
| INTER-HE 801 | Special Topics in Human Ecology (Professional Development Seminar) | 1 |
| **Theoretical Foundations** | | |
| CSCS 775 | Building Civil Society | 3 |
| CSCS 785 | Theoretical Foundations of Community Studies | 3 |

| **Methods and Applications of Community-Based Research** | | |
| *Applications of Community-based Research* | | |
| CSCS 811 | Community-Based Research: Theory and Practice | 3 |
| CSCS 812 | Mixed-Methods in Community-Based Research | 3 |
| CSCS 813 | Transformative Evaluation in Practice | 3 |
| *Research Methods* | | |
| Students must complete one course (3 credits each) in each of the following areas for a total of 9 credits in research methods. Suggestions can be found on the CSCR course checklist or other courses may be approved in consultation with the faculty advisor and/or the CSCR Graduate Program Chair (GPC). | | 9 |
| Quantitative Designs & Statistical Methods | | |
| Qualitative Data Collection & Analysis | | |
| Methods Elective | | |
| **Community Innovations for Civil Society** | | |
| CSCS 801 | Special Topics in Civil Society and Community Research (topics vary; select one) | 3 |
| **Breadth Requirement** | | |
| Breadth is a required component of doctoral training at UW–Madison. Students achieve breadth through a doctoral minor (distributed minor or external minor) or a graduate/professional certificate. https://policy.wisc.edu/library/UW-1200 (https://policy.wisc.edu/library/UW-1200/) | | 9 |
| **Research and Thesis** | | |
| CSCS 990 | Research and Thesis | 6 |
| **Total Credits** | | **51** |

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# NAMED OPTION-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program approval, students are allowed to transfer up to 18 credits of graduate coursework taken at other institutions. Prior coursework taken at other institutions may not be used to satisfy the minimum graduate residence credit requirement. Credits earned ten or more years prior to admission to a doctoral degree are not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

With program approval, students are allowed to transfer up to 9 University Special credits in coursework numbered 300 or above. These credits are not allowed to count toward the 50% graduate coursework minimum unless taken in coursework numbered 700 or above or are taken to meet the requirements of a capstone certificate and has the "Grad 50%" designation. Credits earned ten or more years prior to admission to a doctoral degree are not allowed to satisfy requirements.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Every graduate student is required to have an advisor. An advisor is a faculty member, or sometimes a committee, from the major department responsible for providing advice regarding graduate studies. An advisor generally serves as the thesis advisor. In many cases, an advisor is assigned to incoming students. Students can be suspended from the Graduate School if they do not have an advisor.

To ensure that students are making satisfactory progress toward a degree, the Graduate School expects them to meet with their advisor on a regular basis.

A committee often accomplishes advising for the students in the early stages of their studies.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)

# HUMAN ECOLOGY: CONSUMER BEHAVIOR AND FAMILY ECONOMICS, PHD

This is a named option within the Human Ecology, PhD. (p. 1043)

The Department of Consumer Science develops and disseminates information on the ways in which the interactions among consumers, business, and government can enhance the interests and well-being of consumers, families, and communities. The program focuses on various dimensions of well-being including economic/financial security, consumer empowerment, health, food security, housing security, sustainability, and the public policy that affects those dimensions of well-being. The program is interdisciplinary; current faculty have degrees in diverse fields including economics, marketing, sociology, retailing, social work, and consumer science. Some faculty have joint appointments with Cooperative Extension, providing students with opportunities for training in outreach and applied research. PhD students work closely with faculty members, often collaborating on research and outreach programs. All PhD students must complete core courses in consumer behavior, family economics, and research methods.

Students enrolled in one of the Human Ecology PhD program named options have the opportunity to earn the Human Ecology MS: Human Ecology Research (p. 1038) degree along the way to the PhD upon successful completion of coursework and research.

This is a multi-disciplinary degree program. Students will undertake research on consumer decision-making affecting the social and economic well-being of individuals and families. The goal of this program is to prepare students for the following types of job placements:

1. Tenure-track academic faculty positions, primarily in other schools of human ecology, consumer science, or related units;
2. Research administration positions in government, non-tenure academic units, nonprofit organizations, think tanks and related entities; and,
3. Applied consumer research in the public and private sectors, including market research, policy research, and consulting.

## ADMISSIONS

A doctoral minor is not required for the CBFE named option. The policy and methods breadth coursework above has been approved to meet the UW-Madison Graduate School breadth requirement.

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# NAMED OPTION-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program approval, students are allowed to transfer up to 18 credits of graduate coursework taken at other institutions. Prior coursework taken at other institutions may not be used to satisfy the minimum graduate residence credit requirement. Credits earned ten or more years prior to admission to a doctoral degree are not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

With program approval, students are allowed to transfer up to 9 University Special student credits of coursework numbered 300 or above toward the minimum degree credit requirement. These credits are not allowed to satisfy the 50% graduate coursework minimum unless taken in coursework numbered 700 or above or are taken to meet the requirements of a capstone certificate and has the "Grad 50%" designation. Credits earned ten or more years prior to admission to a doctoral degree are not allowed to satisfy requirements.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Every graduate student is required to have an advisor. An advisor is a faculty member, or sometimes a committee, from the major department responsible for providing advice regarding graduate studies. An advisor generally serves as the thesis advisor. In many cases, an advisor is assigned to incoming students. Students can be suspended from the Graduate School if they do not have an advisor.

To ensure that students are making satisfactory progress toward a degree, the Graduate School expects them to meet with their advisor on a regular basis.

A committee often accomplishes advising for the students in the early stages of their studies.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

The School of Human Ecology Graduate Program Handbook (https://wisc.pb.unizin.org/sohegrad/chapter/conduct-expectations/) outlines the conduct expectations and grievance process.

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

# PROFESSIONAL DEVELOPMENT

## PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

### PROGRAM RESOURCES

The School of Human Ecology Graduate Program values the professional development of graduate students and provides financial awards to those who are invited to present at professional conferences/exhibits. The purpose of the support is to encourage participation in professional development, scholarly research, and/or creative endeavor and to help cover expenses not covered by other sources. Students may receive a maximum award of $650 for travel ($750 for international travel) to support conference participation in a single academic year. Students are encouraged to seek conference and travel funding from the Graduate School as a first step and apply for supplemental funds through SoHE as needed.

In addition, each academic department within the School of Human Ecology may offer additional professional development grant opportunities. See Programming (https://grad.wisc.edu/professional-development/#programming) and the Events Calendar (https://grad.wisc.edu/uw-events/) for the most up-to-date information on professional development opportunities.

# HUMAN ECOLOGY: DESIGN STUDIES, PHD

This is a named option within the Human Ecology PhD. (p. 1043)

Within the Design Studies Graduate Program, faculty and students investigate a wide range of subject matter and apply a variety of methods, with the common goal of understanding how design (broadly conceived) relates to, responds to, and affects our lives. The program's graduate faculty is comprised of interdisciplinary scholars, designers, scientists, and artists who mentor and assist graduate students as they build individual programs of study. The Design Studies department offers a doctoral program with the aim of preparing students for professional design careers, specialized research, college teaching, museum or archival work, community engagement, and entrepreneurial endeavors.

Students enrolled in one of the Human Ecology PhD program named options have the opportunity to earn the Human Ecology MS: Human Ecology Research (p. 1038) degree along the way to the PhD upon successful completion of coursework and research.

The Doctor of Philosophy (PhD) in Design Studies is the highest degree in the field of design research and scholarship. The program is grounded in the production of original and rigorous research. Students are encouraged to shape their own approaches as they develop mastery of the research and communication skills necessary to complete their research agendas. Through a combination of core courses, concentrations, major specializations, and minor specializations, students acquire content knowledge, theoretical foundations, and methodological approaches needed for their work. The PhD culminates in the production of a doctoral dissertation that contributes to the knowledge base in the discipline of design. Graduates of the program have demonstrated their leadership in the field of design practice and education in the U.S. and internationally.

The PhD program currently offers two areas of concentration. Within each area, students are expected to build a self-directed but highly coherent curriculum in close consultation with a major faculty advisor. The tracks are:

### Design History (DH Track) [1]

Design History seeks to understand design in its historical context, as both a process and a product. Our program defines design broadly to include architecture, interior design, industrial design, decorative arts, and other areas of material culture. The Design Studies department offers many opportunities for interdisciplinary study on the UW–Madison campus and has strong ties to other disciplines including art history and landscape architecture. Design History PhD students also have access to coursework and faculty members from allied programs, including the Material Culture Studies Certificate and the Buildings–Landscapes–Cultures Program (a

collaborative research degree offered through UW–Madison and UW–Milwaukee).

[1] These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

### Environmental Design Research (EDR Track) [1]

Environmental Design Research addresses the interaction between people and their built, natural, and/or virtual environments with a clear goal to create environments that are sustainable and responsive to human needs. The faculty and graduates of the program have pioneered studies in environment-behavior, evidence-based design, building evaluation, sustainability, aging and environment, children's environment, environments for special population, and emerging technologies and applications of virtual reality.

While drawing from campus-wide resources, the faculty and students in EDR closely work with its allies within the School of Human Ecology, which include community psychologists, developmental psychologists, and scholars from consumer science. EDR students also have the opportunity to work with the Department of Planning and Landscape Architecture, and with the UW–Milwaukee School of Architecture and Urban Planning.

[1] These tracks are internal to the program and represent different pathways a student can follow to earn this degree. Track names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 1 |
| Spring Deadline | The program does not admit in the spring. |
| Summer Deadline | The program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

The Human Ecology Graduate Program reviews applications once per year after the admissions deadline. The faculty admissions committee reviews all complete applications using holistic admissions criteria. Those selected for an interview will be contacted by email. All admitted students will be invited to attend the Human Ecology Graduate Programs Admitted Student Visit Day held each spring. For more information on the specifics on the timeline, process, and application materials, please see the Human Ecology Admissions Information (https://grad.humanecology.wisc.edu/admissions/) website.

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

Funding opportunities for Human Ecology graduate students are available and made possible, in large part, by generous donations to SoHE. Every year, these funds are used to fund teaching or project assistantships, award academic excellence scholarships, and provide students doing their master's or doctoral research or final MFA project with conference travel scholarships and graduate research scholarships. See more funding information for the School of Human Ecology on our program website (https://grad.humanecology.wisc.edu/an-overview-of-graduate-funding/) and enrollment requirements for funding eligibility in our handbook (https://wisc.pb.unizin.org/sohegrad/chapter/enrollment-requirements-2/).

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# NAMED OPTION REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 51 credits |
| Minimum Residence Credit Requirement | 32 credits |
| Minimum Graduate Coursework Requirement | 26 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.30 GPA required. |
| Other Grade Requirements | n/a |
| Assessments and Examinations | Doctoral students are required to take a comprehensive preliminary/oral examination after they have cleared their record of all Incomplete and In Progress grades (other than research and thesis). Deposit of the doctoral dissertation in the Graduate School is required. |
| Language Requirements | Contact the program for information on any language requirements. |
| Graduate School Breadth Requirement | All doctoral students are required to complete a doctoral minor or graduate/professional certificate. Refer to the Graduate School: Breadth Requirement in Doctoral Training policy: https://policy.wisc.edu/library/UW-1200 (https://policy.wisc.edu/library/UW-1200/). |

## REQUIRED COURSES

Students choose a pathway:

- Design History (DH)
- Design Research (DR)

These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

| Code | Title | Credits |
|---|---|---|
| **Human Ecology Core** | | |
| INTER-HE 801 | Special Topics in Human Ecology (Professional Development Seminar) | 1 |
| INTER-HE 792 | Theories and Perspectives in Human Ecology | 2 |
| **Core Courses** | | |
| Complete 3 credits of the following: | | 3 |
| DS 920 | Seminar in Design Studies (DR and DH each have their own section) | |
| *Graduate Seminar* | | |
| Complete 3 credits of the following in consultation with the faculty advisor. | | 3 |
| DS 521 | Environments of Crisis & Design (DR) | |
| DS/ LAND ARC 639 | Culture and Built Environment (DR) | |
| DS/ANTHRO/ ART HIST/ HISTORY/ LAND ARC 764 | Dimensions of Material Culture | |
| *Design Research Methods* | | |
| Complete 3 credits of the following in consultation with the faculty advisor. | | 3 |
| DS 679 | Research Methods in Design (DR) | |
| CNSR SCI 778 | Causal Models in Household and Consumer Research (DR) | |
| NURSING 803 | Quantitative Design and Methods (DR) | |
| NURSING 804 | Qualitative Design and Methods (DR) | |
| ANTHRO 909 | Research Methods and Research Design in Cultural Anthropology (DH) | |
| ART HIST/ AFROAMER 801 | Historiography, Theory and Methods in Visual Culture (DH) | |
| ENVIR ST 922 | Historical and Cultural Methods in Environmental Research (DH) | |
| *Graduate Student Instructor Course* | | |
| Complete 2 credits of the following that focus on teaching, learning, and instructional technology in consultation with the faculty advisor. | | 2 |
| INTEGSCI 660 | Research Mentor Training Practicum | |
| ELPA 662 | Expeditions in Evidence-based Teaching and Learning | |
| ELPA 663 | Capstone Seminar in Teaching and Learning | |
| ELPA 703 | Evaluating and Supporting Quality Classroom Teaching | |
| ELPA 701 | Introduction to Higher and Post-Secondary Education | |
| INTEGSCI 675 | Special Topics | |
| *Qualifying Research Project* | | |
| Complete 3 credits from following: | | 3 |
| DS 999 | Independent Study | |

| | | |
|---|---|---|
| **Breadth** | | |
| Breadth is a required component of doctoral training at UW–Madison. Students achieve breadth through a doctoral minor (distributed minor or external minor) or a graduate/professional certificate. https://policy.wisc.edu/library/UW-1200 (https://policy.wisc.edu/library/UW-1200/) | | 9 |
| **Research and Thesis** | | |
| Complete 10 credits from following: | | 10 |
| DS 990 | Research and Thesis | |
| or DS 999 | Independent Study | |
| **Major Area of Specialization** | | |
| Students must select 15 credits in consultation with the faculty advisor. These can be from Design Studies or other departments across campus. Design Research may consider Statistics, Computer Sciences, Educational Psychology, Human Development & Family Studies, Landscape Architecture, Nursing, Psychology, Public Health, Urban & Regional Planning and relevant area studies programs. Design History may select Anthropology, Art History, Environmental Studies, Gender & Women's Studies, History, History of Science, Library & Information Science, Landscape Architecture, Urban & Regional Planning and any relevant area studies. | | 15 |
| **Total Credits** | | **51** |

# HUMAN ECOLOGY: HUMAN DEVELOPMENT AND FAMILY STUDIES, PHD

This is a named option within the Human Ecology, PhD. (p. 1043)

Human Development and Family Studies (HDFS) offers an interdisciplinary approach to the study of families and individuals across the lifespan with an emphasis on research and its application to practice, programs, and policy.

Students enrolled in one of the Human Ecology PhD program named options have the opportunity to earn the Human Ecology MS: Human Ecology Research (p. 1038) degree along the way to the PhD upon successful completion of coursework and research.

The HDFS graduate program option is served by faculty members who are professionally active with strong records of national and international scholarship. The faculty bring the perspectives of many different disciplines to their work, including psychology, human development and family studies, sociology, education, and psychiatry. Faculty members conduct basic research to understand families and their members and applied research and outreach to promote positive outcomes in human development and family life.

Faculty and graduate students in HDFS collaborate on research and outreach-engagement projects in a wide variety of substantive areas focusing on the well-being of individuals, couples, and families. Current areas of scholarly activity focus on early childhood, couple relationships, contemplative practices, mind-body well-being, parenting, family caregiving, and vulnerable populations (e.g., incarcerated parents, children with autism, and historically under-represented groups).

Reflecting the multidisciplinary orientation of the program, faculty and students employ a wide array of methods in their work. Faculty possess expertise in areas as diverse as multilevel, longitudinal, nonlinear, and dyadic modeling; physiological measurement; program evaluation; observational methods; experimental methods; survey methodology; and community-based research. The program explicitly values both qualitative and quantitative approaches to inquiry.

Central to the mission of the program is the creation, dissemination, and application of scientific knowledge to address real-world problems and issues. Applied work of current faculty and students includes public policy education, community building, outreach education, and prevention programs. This applied work is conducted throughout the state.

There is a demand for professionals trained in research, teaching, and outreach in the areas of human development and family studies in higher education, government, and human and family service programs. Regardless of whether HDFS graduates pursue careers in academic or applied settings, they are prepared for a life of scholarship and service.

Funding opportunities for Human Ecology graduate students are available and made possible, in large part, by generous donations to SoHE. Every year, these funds are used to fund teaching or project assistantships, award academic excellence scholarships, and provide students doing their master's or doctoral research or final MFA project with conference travel scholarships and graduate research scholarships. See more funding information for the School of Human Ecology on our program website (https://grad.humanecology.wisc.edu/an-overview-of-graduate-funding/) and enrollment requirements for funding eligibility in our handbook (https://wisc.pb.unizin.org/sohegrad/chapter/enrollment-requirements-2/).

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# NAMED OPTION REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 51 credits |
| Minimum Residence Credit Requirement | 32 credits |
| Minimum Graduate Coursework Requirement | 26 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | n/a |
| Assessments and Examinations | Doctoral students are required to take a comprehensive preliminary/oral examination after they have cleared their record of all Incomplete and Progress grades (other than research and thesis). Deposit of the doctoral dissertation in the Graduate School is required. |
| Language Requirements | Contact the program for information on any language requirements. |
| Graduate School Breadth Requirement | All doctoral students are required to complete a doctoral minor or graduate/professional certificate. Refer to the Graduate School: Breadth Requirement in Doctoral Training policy: https://policy.wisc.edu/library/UW-1200 (https://policy.wisc.edu/library/UW-1200/). |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Human Ecology Courses** | | |
| INTER-HE 792 | Theories and Perspectives in Human Ecology | 2 |
| INTER-HE 793 | Research Methods | 3 |
| INTER-HE 801 | Special Topics in Human Ecology (Professional Development Seminar) | 1 |
| **Basic Theory Courses** | | |
| HDFS 761 | Childhood and the Family: Prenatal Through Pre-adolescence | 3 |
| HDFS 763 | Aging and the Family: Adolescence Through Later Life | 3 |
| HDFS 865 | Family Theory I (Survey) | 3 |
| **Content Courses** | | |
| Students must complete at least 9 credits in Human Development and Family Studies in content courses. At least 6 credits must be at 700 and above. Independent Study credits do not satisfy content course requirement. There are three main categories and examples of content courses listed below. | | 9 |
| *Family Relationships and Developmental Process* | | |
| HDFS 766 | Current Topics in Human Development and Family Studies (various topics based on faculty expertise and availability) | |
| HDFS 818 | Attachment Theory and Relationships Across the Lifespan | |
| HDFS 869 | Advanced Seminar in Family Stress and Coping | |
| *Policy and Social Determinants of Health* | | |
| HDFS 535 | A Family Perspective in Policymaking | |
| HDFS 765 | Families & Poverty | |
| HDFS 766 | Current Topics in Human Development and Family Studies (Incarceration and the Family; Children with Incarcerated Parents; other topics based on faculty expertise and availability) | |
| *Applied Scholarship* | | |
| HDFS 664 | Proseminar: Human Development and Family Studies | |
| HDFS 766 | Current Topics in Human Development and Family Studies (Professional Grant Writing Skills; Mindfulness Skills; other topics based on faculty expertise and availability) | |
| HDFS 872 | Bridging the Gap Between Research and Action | |
| HDFS/ ED PSYCH/ NURSING/ SOC WORK 880 | Prevention Science | |
| **Research Methods and Design** | | |
| Students must complete 3 additional credits in research methods and design (above and beyond INTER-HE 793 Research Methods) in consultation with the faculty advisor. | | 3 |
| **Statistics** | | |
| Students must complete at least one 3-credit, advanced level statistics course. Consult with advisor to identify a statistics course that fits with area of study. | | 3 |
| **Research & Thesis** | | |
| Students must complete the following course. | | 9 |
| HDFS 990 | Research and Thesis | |
| **Elective** | | **3** |
| **Breadth** | | |
| Breadth is a required component of doctoral training at UW–Madison. Students achieve breadth through a doctoral minor (distributed minor or external minor) or a graduate/professional certificate. https://policy.wisc.edu/library/UW-1200 (https://policy.wisc.edu/library/UW-1200/). | | 9 |
| **Total Credits** | | **51** |

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# NAMED OPTION-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program approval, students are allowed to transfer up to 18 credits of graduate coursework taken at other institutions. Prior coursework taken at other institutions may not be used to satisfy the minimum graduate residence credit requirement. Credits earned ten or more years prior to admission to a doctoral degree are not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

With program approval, students are allowed to transfer up to 9 University Special student credits in coursework numbered 300 or above. These credits are not allowed to count toward the 50% graduate coursework minimum unless taken in coursework numbered 700 or above or taken

to meet the requirements of a capstone certificate and has the "Grad 50%" designation. Credits earned ten or more years prior to admission to a doctoral degree are not allowed to satisfy requirements.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Every graduate student is required to have an advisor. An advisor is a faculty member, or sometimes a committee, from the major department responsible for providing advice regarding graduate studies. An advisor generally serves as the thesis advisor. In many cases, an advisor is assigned to incoming students. Students can be suspended from the Graduate School if they do not have an advisor.

To ensure that students are making satisfactory progress toward a degree, the Graduate School expects them to meet with their advisor on a regular basis.

A committee often accomplishes advising for the students in the early stages of their studies.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

The School of Human Ecology Graduate Program Handbook (https://wisc.pb.unizin.org/sohegrad/chapter/conduct-expectations/) outlines the conduct expectations and grievance process.

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## OTHER

# PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

## GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## PROGRAM RESOURCES

The School of Human Ecology Graduate Program values the professional development of graduate students and provides financial awards to those who are invited to present at professional conferences/exhibits. The purpose of the support is to encourage participation in professional development, scholarly research, and/or creative endeavor and to help cover expenses not covered by other sources. Students may receive a maximum award of $650 for travel ($750 for international travel) to support conference participation in a single academic year. Students are encouraged to seek conference and travel funding from the Graduate School as a first step and apply for supplemental funds through SoHE as needed.

In addition, each academic department within the School of Human Ecology may offer additional professional development grant opportunities. See Programming (https://grad.wisc.edu/professional-development/#programming) and the Events Calendar (https://grad.wisc.edu/uw-events/) for the most up-to-date information on professional development opportunities.

# INDUSTRIAL AND SYSTEMS ENGINEERING

## DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

## DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/ PROFESSIONAL CERTIFICATES

- Industrial Engineering, Doctoral Minor (p. 1060)
- Industrial Engineering, MS (p. 1060)
- Industrial Engineering, PhD (p. 1080)

# INDUSTRIAL ENGINEERING, DOCTORAL MINOR

Industrial and systems engineering is an engineering discipline focusing on the design, analysis, improvement and implementation of complex systems that include humans, materials, equipment and other resources. The learning outcome of the doctoral minor is to gain general proficiency and distinctive attainment in one or more concentration areas in industrial and systems engineering, including: decision science and operations research, manufacturing production systems, health systems engineering, and human factors and ergonomics.

## ADMISSIONS

## ADMISSIONS

For admissions or additional information, please contact the ISyE coordinator at iegradadmission@engr.wisc.edu.

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any doctoral minor. To apply to this minor, log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs (https://grad.wisc.edu/documents/change-program/). Select the information for the doctoral minor for which you are applying.

## REQUIREMENTS

## REQUIREMENTS

### GRADE REQUIREMENTS

- A minimum GPA of 3.20 is required for coursework.
- A course with a grade of C or lower cannot be used to satisfy doctoral minor requirements.

### REQUIRED COURSES

Students must complete at least 9 credits of Industrial and Systems Engineering (I SY E (https://guide.wisc.edu/courses/i_sy_e/)) courses numbered 300 or above.

### PRIOR COURSEWORK

Students may transfer up to 3 credits from another university to satisfy minor requirements, subject to the approval of the Academic Affairs Cluster.

# INDUSTRIAL ENGINEERING, MS

The Department of Industrial and Systems Engineering offers a number of master of science (MS) degree programs in Industrial Engineering:

- Industrial Engineering:  Research, MS (p. 1068)
- Industrial Engineering:  Human Factors and Health Systems Engineering, M (p. 1062)S (https://guide.wisc.edu/graduate/industrial-systems-engineering/industrial-engineering-ms/industrial-engineering-human-factors-health-systems-engineering-ms/)
- Industrial Engineering:  Systems Engineering and Analytics, MS (p. 1074)

The Industrial Engineering MS degree with a named option in research takes approximately two years to complete. The program has a significant research component, giving students valuable hands-on research experience with mentoring by faculty in the Department of Industrial and Systems Engineering. This program may require a written thesis and defense.

The Industrial Engineering MS degree with named options in Human Factors and Health Systems Engineering as well as Systems Engineering and Analytics are considered accelerated graduate programs. Each take approximately 16 months to complete, and must be completed within two (2) calendar years. These two programs include only coursework.

All students are mentored by the world-class faculty in the industrial and systems engineering department at UW–Madison. For a list of faculty and their corresponding research interests, please visit our faculty directory (https://engineering.wisc.edu/about/faculty-and-staff-directory/?_dept_dd=industrial-systems-engineering). For more information on research areas see our page on research in Industrial and Systems Engineering (https://engineering.wisc.edu/departments/industrial-systems-engineering/research/).

## ADMISSIONS

## ADMISSIONS

Students apply to the Master of Science in Industrial Engineering through one of the named options:

- Industrial Engineering: Research, MS (https://guide.wisc.edu/graduate/industrial-systems-engineering/industrial-engineering-ms/industrial-engineering-research-ms/)
- Industrial Engineering: Human Factors and Health Systems Engineering, MS (https://guide.wisc.edu/graduate/industrial-systems-engineering/industrial-engineering-ms/industrial-engineering-human-factors-health-systems-engineering-ms/)

- Industrial Engineering: Systems Engineering and Analytics, MS (https://guide.wisc.edu/graduate/industrial-systems-engineering/industrial-engineering-ms/industrial-engineering-systems-engineering-analytics-ms/)

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

Tuition and funding opportunities vary according to the specific MS program. Funding information for each named option program is available on the corresponding pages:

- Industrial Engineering: Research, MS (p. 1069)
- Industrial Engineering: Human Factors and Health Systems Engineering, MS (p. 1064)
- Industrial Engineering: Systems Engineering and Analytics, MS (p. 1076)

Please note that the Human Factors and Health Systems Engineering graduate program, as well as the Systems Engineering and Analytics graduate program, are considered accelerated programs. As such, students enrolled in these programs are ineligible to receive tuition remission for graduate assistantships, per UW-Madison policy.

For more information specific to graduate assistantships within the Department of Industrial and Systems Engineering, please consult the department's graduate program handbook (https://engineering.wisc.edu/isye-grad-handbook/).

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 15 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required.<br>Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | Grades of D received by a candidate in any graduate course will not be counted as satisfying degree requirements. These grades will, however, be counted in the graduate GPA. |
| Assessments and Examinations | None. |
| Language Requirements | No language requirements. |

## REQUIRED COURSES

Select a Named Option (p. 1061) for courses required.

# NAMED OPTIONS

A named option is a formally documented sub-major within an academic major program. Named options appear on the transcript with degree conferral. Students pursuing the Master of Science in Industrial Engineering must select one of the following named options:

View as listView as grid

- **INDUSTRIAL ENGINEERING: HUMAN FACTORS AND HEALTH SYSTEMS ENGINEERING, MS (P. 1062)**
- **INDUSTRIAL ENGINEERING: RESEARCH, MS (P. 1068)**
- **INDUSTRIAL ENGINEERING: SYSTEMS ENGINEERING AND ANALYTICS, MS (P. 1074)**

## POLICIES

# POLICIES

Students should refer to one of the named options for policy information:

- Industrial Engineering: Research, MS (https://guide.wisc.edu/graduate/industrial-systems-engineering/industrial-engineering-ms/industrial-engineering-research-ms/)
- Industrial Engineering: Human Factors and Health Systems Engineering, MS (https://guide.wisc.edu/graduate/industrial-systems-engineering/industrial-engineering-ms/industrial-engineering-human-factors-health-systems-engineering-ms/)
- Industrial Engineering: Systems Engineering and Analytics, MS (https://guide.wisc.edu/graduate/industrial-systems-engineering/

industrial-engineering-ms/industrial-engineering-systems-engineering-analytics-ms/)

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

### PROGRAM RESOURCES

#### The Individual Development Pl (https://grad.wisc.edu/pd/idp/)an (https://grad.wisc.edu/pd/idp/)

An Individual Development Plan helps with self-assessment, planning, and communication:

- An IDP can help you communicate your professional development and career planning needs and intentions to others including your mentor, which can lead to helpful advice and resources.
- You can use the IDP to make sure you and your mentor's expectations are clearly outlined and in agreement so that there are no big surprises, particularly at the end of your training.
- The current job market is challenging and research has shown that individuals who perform structured career planning achieve greater career success and satisfaction.

The onus to engage in the IDP process is on you – although your mentor, PI, or others may encourage and support you in doing so. The IDP itself remains private to you, and you choose which parts to share with which mentors. Through the IDP process, you may decide to identify various mentors to whom you can go for expertise and advice.

#### Engineering Career Services (https://ecs.wisc.edu/)

Julie Rae, Assistant Director for Graduate Student Career Services

Graduate students in all Engineering programs

- Resumes & Cover Letters: https://ecs.wisc.edu/students/resumes-and-cover-letters/
- Job Search Strategies
- Job Offers & Negotiation: https://ecs.wisc.edu/students/offers-and-negotiation/

- Student appointments: Click here (http://go.wisc.edu/ecs-grad-appt/) to schedule an appointment with ECS.

Employer Recruitment List for Industrial Engineering Students: https://ecs.wiscweb.wisc.edu/wp-content/uploads/sites/86/2017/03/IE-Employer-Recruitment-List-17-18.pdf

#### UW Writing Ce (http://writing.wisc.edu/)nter (http://writing.wisc.edu/)

**Location:** 6171 Helen C. White Hall

**Phone:** (608) 263-1992

The UW Writing Center provides free face-to-face and online consultations that focus on a number of different writing scenarios (i.e. drafts of course papers, resumes, reports, application essays, cover letters, theses, etc.). Writing Center instructors will not edit or proofread papers; instead, their goal is to teach students to edit and proofread on their own in order to become better, more confident writers.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Articulates, critiques, or elaborates the theories, research methods, and approaches to inquiry or schools of practice in industrial and systems engineering including areas such as decision science and operations research, quality engineering, manufacturing and health systems, and/or human factors.
2. Identifies sources and assembles evidence pertaining to questions or challenges in industrial and systems engineering.
3. Demonstrates understanding of the industrial and systems engineering field of study in a historical, social, or global context.
4. Selects and/or utilizes the most appropriate industrial and systems engineering methodologies and practices.
5. Evaluates or synthesizes information pertaining to questions or challenges in industrial and systems engineering.
6. Communicates clearly in ways appropriate to industrial and systems engineering.
7. Recognizes and applies principles of ethical and professional conduct.

# INDUSTRIAL ENGINEERING: HUMAN FACTORS AND HEALTH SYSTEMS ENGINEERING, MS

This is a named option course-based program within the Industrial and Systems Engineering MS (p. 1060).

By examining, designing, testing, and evaluating products, environments, and how people interact with them, Human Factors and Health Systems Engineering (https://pdc.wisc.edu/degrees/human-factors-health-systems-engineering/) professionals can create productive, safe, and satisfying environments for humans, and apply industrial and systems engineering tools and approaches to specific health care problems.

# IS THIS PROGRAM RIGHT FOR YOU?

The demand for engineers who can combine a concern for the human component with traditional engineering principles is great. The Human Factors and Health Systems Engineering program provides students content from physical ergonomics, cognitive ergonomics, macroergonomics, and broad issues in health care, including long-term care, prevention, quality improvement, health care financing, and system evaluation.

This program considers human reliability, psychomotor capabilities, and human characteristics in equipment, as an important aspect of equipment design is human-computer interaction. Engineers are concerned with the complex physical relationships between people, machines, job demands, and work methods, design, work quality, and assessment of skill. Also

important are organizational issues such as management approaches, job design, participative problem solving, psychological stress, job satisfaction, performance effectiveness, product/service quality, and quality of work life.

Effective model building requires strong systems analysis skills. While skill in manipulating statistical and mathematical models is essential to an industrial engineer's success, the health systems engineer must also be able to initiate resolutions to strategic problems using knowledge of how organizational decisions are made.

See the Learning Outcomes (p. 1062) for this program.

If you have questions, please contact COE Grad Admissions at iegradadmission@engr.wisc.edu; Subject Line: IE Grad Admissions and I Sy E. Seniors please contact Pam Peterson, prpeterson@wisc.edu. (prpeterson@wisc.edu)

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 15 |
| Spring Deadline | September 1 |
| Summer Deadline | The program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: (https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/)/ |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

## DEADLINES

Please submit all application materials by the fall deadline to ensure full review of your application. Applications submitted after the fall deadline through March 15 will be reviewed if complete and will be considered for admission by the department if space is available. To check if space is available, please email: iegradadmission@engr.wisc.edu. (iegradadmission@engr.wisc.edu)

## ADMISSION

Applicants must first meet all of the requirements of the Graduate School (https://grad.wisc.edu/admissions/requirements/).

- Applicants must also meet department specific requirements as outlined below:
  - BS degree in engineering or related area or equivalent
  - Mathematical Statistics Course (for example, STAT 312 Introduction to Theory and Methods of Mathematical Statistics II or I SY E 210 Introduction to Industrial Statistics)
  - International degree-seeking applicants must prove English proficiency using the Graduate School's requirements (https://grad.wisc.edu/apply/requirements/).
- The Graduate Record Examination (GRE) is not required for this master's program. If GRE scores are submitted, they will not be used in admission decisions.

### UW-Madison Student Applicants Only

UW–Madison undergraduate students applying to this program must submit an unofficial UW transcript.

### UW-Madison Industrial and Systems Engineering (I SY E) Student Applicants Only

**Three letters of recommendation are NOT required for students completing their Industrial Engineering bachelor's degree at UW**. Please note that the application system will still require you to list three individuals as recommenders. You are welcome to list Sinan Tas, Pam Peterson, and Amanda Smith to bypass this requirement.

## HOW TO APPLY

1. **Fill out an online application (https://grad.wisc.edu/apply/) through the Graduate School website. (https://grad.wisc.edu/admissions/faq/)**
2. **List three recommenders and their contact information as part of the online application.** An email will be sent to the recommender, asking that they submit their letter online using the Graduate School's recommendation form. Applicants can log back into their online application to re-send the email request if the recommender loses the email. Letters of recommendation must be submitted electronically.
3. **Submit a Statement of Purpose (https://grad.wisc.edu/prospective/prepare/statement/) with your online application.** In this document, applicants should explain why they want to pursue further education in Industrial and Systems Engineering.
4. **English Proficiency Exam Information:**
   a. All international degree-seeking applicants are required to provide proof of English proficiency.
   b. For more information, visit the the Graduate School Requirements (https://grad.wisc.edu/apply/requirements/)page. Note that exam information must be valid at the start date of the the semester that you are applying for (nonexpired).
5. **GRE Exam Information: (https://www.ets.org/gre/)** The Industrial Engineering graduate program does not require the GRE for this program. If GRE scores are submitted, they will not be used in admission decisions.
6. **Electronically submit one copy of your unofficial transcript with your application.**
   a. Unofficial copies of transcripts are used for departmental review.
   b. When the department recommends an applicant for admission, they will receive an email from the Graduate School requesting official transcripts that will include instructions on how to submit.

   c. Do not send transcripts or any other application materials to gradadmission@engr.wisc.edu.
7. **Upload your resume in your application**.
8. **Pay the Application Fee:** Information about the application fee may be found in the Graduate School FAQs (https://grad.wisc.edu/apply/#FAQ). Fee grants are available through the conditions outlined by the Graduate School (https://grad.wisc.edu/apply/fee-grant/).

Do not send materials/documents to the department or Graduate School until you are recommended for admission. All documents should be uploaded with your application.

## QUESTIONS

Check out the Admissions FAQ (https://grad.wisc.edu/apply/) or contact us at iegradadmission@engr.wisc.edu.

# FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

Tuition information for this program is available here (https://pdc.wisc.edu/degrees/human-factors-health-systems-engineering/). Beginning in the fall semester of 2021, resident and resident reciprocity students are eligible for a tuition scholarship. Details here (https://engineering.wisc.edu/wp-content/uploads/2022/05/Masters-Program-Tuition-CreditFall2021.pdf).

Students enrolled in this program are not eligible to receive tuition remission from graduate assistantship appointments at this institution.

## ADDITIONAL RESOURCES

### Federal Loans

Students who are U.S. citizens or permanent residents may be eligible to receive some level of funding through the federal direct loan program. These loans are available to qualified graduate students who are taking at least four credits during the fall and spring semesters and two credits during summer. Private loans are also available. Learn more about UW (https://financialaid.wisc.edu)–Madison financial aid here. (https://financialaid.wisc.edu)

### International Student Services Funding and Scholarships

For information on international student funding and scholarships, visit the ISS website. (https://iss.wisc.edu/students/new-students/funding-scholarships/)

# REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# NAMED OPTION REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | Yes |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 15 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required.<br>Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | Grades of D received by a candidate in any graduate course will not be counted as satisfying degree requirements. These grades will, however, be counted in the graduate GPA. |
| Assessments and Examinations | None. |

| | |
|---|---|
| Language Requirements | No language requirements. |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Industrial and Systems Engineering (I SY E)** [1] | | |
| Students must complete at least 18 credits in the Industrial and Systems Engineering Department. | | 18 |
| **Electives** | | |
| Electives are chosen in consultation with advisor. | | 12 |
| **Optional Experiential Courses** | | |
| At most, 6 credits total from independent study, research, and internship / co-op courses may be applied towards the degree. | | 0-6 |
| I SY E 699 | Advanced Independent Study | |
| I SY E 790 | Master's Research and Thesis | |
| I SY E 702 | Graduate Cooperative Education Program | |
| **Total Credits** | | **30** |

[1] All credits must be from coursework numbered 300 or higher. Up to 6 credits of coursework numbered 300 to 399 may satisfy degree requirements.

### Fall Potential Courses

| Code | Title | Credits |
|---|---|---|
| I SY E 313 | Engineering Economic Analysis | 3 |
| I SY E/PSYCH 349 | Introduction to Human Factors | 3 |
| I SY E 417 | Health Systems Engineering | 3 |
| I SY E/M E 512 | Inspection, Quality Control and Reliability | 3 |
| I SY E 515 | Engineering Management of Continuous Process Improvement | 3 |
| I SY E 517 | Decision Making in Health Care | 3 |
| I SY E/PSYCH 549 | Human Factors Engineering | 3 |
| I SY E 601 | Special Topics in Industrial Engineering | 1-3 |
| I SY E 602 | Special Topics in Human Factors | 3 |
| I SY E 606 | Special Topics in Healthcare Systems Engineering | 1-3 |
| I SY E 649 | Interactive Data Analytics | 3 |
| I SY E 699 | Advanced Independent Study | 1-5 |

### Spring Potential Courses

| Code | Title | Credits |
|---|---|---|
| I SY E 313 | Engineering Economic Analysis | 3 |
| I SY E/PSYCH 349 | Introduction to Human Factors | 3 |
| I SY E 417 | Health Systems Engineering | 3 |
| I SY E/M E 512 | Inspection, Quality Control and Reliability | 3 |
| I SY E 555 | Human Performance and Accident Causation | 3 |
| I SY E 562 | Human Factors of Data Science and Machine Learning | 3 |
| I SY E/B M E 564 | Occupational Ergonomics and Biomechanics | 3 |
| I SY E 575 | Introduction to Quality Engineering | 3 |
| I SY E 601 | Special Topics in Industrial Engineering | 1-3 |
| I SY E 602 | Special Topics in Human Factors | 3 |
| I SY E 606 | Special Topics in Healthcare Systems Engineering | 1-3 |
| I SY E/B M E 662 | Design and Human Disability and Aging | 3 |

### Summer Potential Courses

| Code | Title | Credits |
|---|---|---|
| I SY E 313 | Engineering Economic Analysis | 3 |
| I SY E/PSYCH 349 | Introduction to Human Factors | 3 |
| I SY E 516 | Introduction to Decision Analysis | 3 |
| I SY E 575 | Introduction to Quality Engineering | 3 |
| I SY E 601 | Special Topics in Industrial Engineering | 1-3 |
| I SY E 602 | Special Topics in Human Factors | 3 |
| I SY E 606 | Special Topics in Healthcare Systems Engineering | 1-3 |
| I SY E 699 | Advanced Independent Study | 1-5 |
| I SY E 702 | Graduate Cooperative Education Program | 1-2 |

### Other Department Suggested Courses

| Code | Title | Credits |
|---|---|---|
| NURSING 761 | Health Program Planning, Evaluation, and Quality Improvement | 3 |
| POP HLTH/ SOC 797 | Introduction to Epidemiology | 3 |
| POP HLTH/ I SY E 875 | Cost Effectiveness Analysis in Health and Healthcare | 3 |
| POP HLTH 876 | Measuring Health Outcomes | 3 |
| OTM 451 | Service Operations Management | 3 |
| OTM 753 | Healthcare Operations Management | 3 |
| OTM 770 | Sustainable Approaches to System Improvement | 4 |
| B M I 773 | Clinical Research Informatics | 3 |
| B M I/ COMP SCI 576 | Introduction to Bioinformatics | 3 |
| B M I/ COMP SCI 776 | Advanced Bioinformatics | 3 |
| COMP SCI/ ED PSYCH/ PSYCH 770 | Human-Computer Interaction | 3 |
| E M A 601 | Special Topics in Engineering Mechanics | 1-3 |
| M H R 412 | Management Consulting | 3 |

### Other Policy

Students in this program may not take courses outside the prescribed curriculum without faculty advisor and program director approval.

Students in this program cannot enroll concurrently in other undergraduate or graduate degree programs.

## POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# NAMED OPTION-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program approval, students may transfer no more than 9 credits of graduate course work taken in a graduate program from other institutions. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

UW-Madison students completing their bachelor's degree in the Industrial and Systems Engineering department may transfer up to 6 credits of coursework numbered 300 or above toward the degree with prior program approval. Undergraduate credits earned at other institutions may transfer. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Per Graduate School: Advisor (https://policy.wisc.edu/library/UW-1232/) policy, every graduate student MUST have a faculty advisor. Students in this program will be advised by the department's Director of Professional Masters Programs. The advisor provides the graduate student with academic guidance regarding their course selection and research oversight in their thesis or project. Graduate students should always seek advice from their advisor and other faculty in their interest area prior to enrolling for courses.

## CREDITS PER TERM ALLOWED

Enrollment of 12 credits is highly recommended.

## TIME LIMITS

This program is designed to be completed in 16 months. Students who have an undergraduate degree from UW-Madison can typically complete the program in 12 months. Internship / CPT work program experience is an optional component to this degree. The ISyE department does not guarantee availability of internship positions. The program must be completed within 24 months.

The student is required to meet their academic advisor during their first semester to discuss and obtain approval of the course plan for the remainder of their program. In situations where the student cannot finish the program in 24 months due to exceptional circumstances, the exception must be requested by the student and approved by the student's academic advisor and the academic affairs committee.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

### Grievance Procedures: Industrial and Systems Engineering

If a graduate student feels unfairly treated or aggrieved by faculty, staff, or another student, the University offers several avenues to resolve the grievance. Student's concerns about unfair treatment are best handled directly with the person responsible for the objectionable action. If the student is uncomfortable making direct contact with the individual(s) involved, they should contact the advisor or the person in charge of the unit where the action occurred (program or department chair, section chair, lab manager, etc). Many departments and schools/colleges have

established specific procedures for handling such situations; check their web pages and published handbooks for information. If such procedures exist at the local level, these should be investigated first. For more information, see the College of Engineering Policies and Procedures (https://engineering.wisc.edu/report-an-incident/academic-grievances-and-complaints/). The Assistant Dean for Graduate Affairs (engr-dean-graduateaffairs@engr.wisc.edu) provides overall leadership for graduate education in the College of Engineering (CoE), and is a point of contact for graduate students who have concerns about education, mentoring, research, or other difficulties.

Procedures for handling graduate student grievances against ISyE faculty, staff, or students:

1. The student is encouraged to speak first with the person toward whom the grievance is directed to see if a situation can be resolved at this level.
2. Should a satisfactory resolution not be achieved, the student should contact the Associate Chair for Graduate Affairs, to discuss the grievance. The Associate Chair will facilitate problem resolution through informal channels and facilitate any complaints or issues of students. The first attempt is to help students informally address the grievance prior to any formal complaint. Students are also encouraged to talk with their faculty advisors regarding concerns or difficulties, if necessary. University resources for sexual harassment, discrimination, disability accommodations, and other related concerns can be found on the UW Office of Compliance website (https://compliance.wisc.edu/).
3. If the issue is not resolved to the student's satisfaction, the student can submit the grievance to the Grievance Advisor, which may be either the Associate Chair for Graduate Affairs or the Department Chair, as chosen by the student. The grievance should be submitted in writing, within 60 calendar days of the alleged unfair treatment.
4. On receipt of a written complaint, the Grievance Advisor will form a faculty committee that will review the complaint and gather further information as necessary from the filer of the complaint and other parties involved (including the party toward whom the complaint is directed).
5. The faculty committee will determine a decision regarding the grievance. The Grievance Advisor will report on the action taken by the committee in writing to both the student and the party toward whom the complaint was directed within 15 working days from the date the complaint was received.
6. At this point, if either party (the student or the person toward whom the grievance is directed) is unsatisfied with the decision of the faculty committee, the party may file a written appeal to the College of Engineering Assistant Dean for Graduate Affairs (engr-dean-graduateaffairs@engr.wisc.edu). Either party has 10 working days to file a written appeal to the School/College.
7. Documentation of the grievance will be stored for at least 7 years. Significant grievances that set a precedent will be stored indefinitely.
8. The Graduate School has procedures for students wishing to appeal a grievance decision made at the school/college level. These policies are described in the Graduate School Academic Policies and Procedures - Grievances & Appeals (https://grad.wisc.edu/documents/grievances-and-appeals/).

## OTHER

### Policies on Program Transfer

- It is not allowed to transfer between the Human Factors and Health Systems Engineering and MSIE research-option programs.
- If a student currently in another graduate program wants to transfer to the course option MSIE they should follow the general application procedure for the course option MSIE program along with submitting an Add/Change of Program, Plan or Named Option Request online through the Graduate School.

### Graduate Assistant Positions

Students are strongly discouraged to pursue positions as Project Assistants, Teaching Assistants or Research Assistants during their time in this program, as the rigor and accelerated nature of this program may not accommodate those work time commitments. Students in this program will not receive the tuition remission that is typically part of the compensation package for a graduate assistantship.

### Continuing to the PhD Program

- Admission and successful completion of the MS program does not imply admittance to the PhD program. Students wishing to take the PhD qualifying exam must first be admitted to the PhD program.
- MS students wishing to continue to the PhD program must have their admission to the PhD program recommended by an Industrial and Systems Engineering faculty member with tenure home in Industrial and Systems Engineering who is willing to serve as the student's PhD advisor. The admission of such students will then be evaluated by the associate chair for graduate affairs or admissions committee using the same evaluation process as for all PhD program applicants.
- To apply to the PhD program, log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. Select the information for the program for which you are applying.

For additional information, please contact iegradadmission@engr.wisc.edu.

# PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

## GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## PROGRAM RESOURCES

### The Individual Development (https://grad.wisc.edu/pd/idp/)Plan (https://grad.wisc.edu/pd/idp/)

An Individual Development Plan helps with self-assessment, planning, and communication:

- An IDP can help you communicate your professional development and career planning needs and intentions to others including your mentor, which can lead to helpful advice and resources.
- You can use the IDP to make sure you and your mentor's expectations are clearly outlined and in agreement so that there are no big surprises, particularly at the end of your training.
- The current job market is challenging and research has shown that individuals who perform structured career planning achieve greater career success and satisfaction.

The onus to engage in the IDP process is on you – although your mentor, PI, or others may encourage and support you in doing so. The IDP itself remains private to you, and you choose which parts to share with which mentors. Through the IDP process, you may decide to identify various mentors to whom you can go for expertise and advice.

### Engineering Career Services (https://ecs.wisc.edu/)

Julie Rae, Assistant Director for Graduate Student Career Services

Graduate students in all Engineering programs

- Resumes & Cover Letters: https://ecs.wisc.edu/students/resumes-and-cover-letters/
- Job Search Strategies
- Job Offers & Negotiation: https://ecs.wisc.edu/students/offers-and-negotiation/
- CPT for Graduate Students: https://ecs.wisc.edu/students/co-op-and-internship/

Employer Recruitment List for Industrial Engineering Students: https://ecs.wiscweb.wisc.edu/wp-content/uploads/sites/86/2017/03/IE-Employer-Recruitment-List-17-18.pdf.

### UW Writing Ce (http://writing.wisc.edu/)nter (http://writing.wisc.edu/)

**Location:** 6171 Helen C. White Hall

**Phone:** (608) 263-1992

The UW Writing Center provides free face-to-face and online consultations that focus on a number of different writing scenarios (i.e. drafts of course papers, resumes, reports, application essays, cover letters, theses, etc.). Writing Center instructors will not edit or proofread papers; instead, their goal is to teach students to edit and proofread on their own in order to become better, more confident writers.

# INDUSTRIAL ENGINEERING: RESEARCH, MS

This is a named option within the Industrial Engineering MS (p. 1060).

The Department of Industrial and Systems Engineering offers this Master of Science (MS) industrial engineering degree with a named option in Research. This degree program takes approximately two years to complete. This program has a significant research component, giving students valuable hands-on research experience with mentoring by faculty in the Department of Industrial and Systems Engineering.

The Department of Industrial and Systems Engineering focuses on four main research areas:

- Operations Research, Optimization, and Analytics (https://engineering.wisc.edu/departments/industrial-systems-engineering/research/operations-research-optimization-and-analytics/)
- Health Systems Engineering (https://engineering.wisc.edu/departments/industrial-systems-engineering/research/health-systems-engineering/)
- Human Factors and Ergonomics (https://engineering.wisc.edu/departments/industrial-systems-engineering/research/human-factors-and-ergonomics/)
- Advanced Manufacturing and Industrial AI (https://engineering.wisc.edu/departments/industrial-systems-engineering/research/advanced-manufacturing-and-production-systems/)

All students are mentored by the world-class faculty in the industrial and systems engineering department at UW–Madison. For a list of industrial and systems engineering faculty along with faculty research interests, please visit our faculty directory. (https://directory.engr.wisc.edu/ie/faculty/) For more information on research areas see our page on research in Industrial and Systems Engineering (https://engineering.wisc.edu/departments/industrial-systems-engineering/research/).

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 1 |
| Spring Deadline | This program does not admit in the spring. |
| Summer Deadline | This program does not admit for the summer. |
| GRE (Graduate Record Examinations) | May be required in certain cases; consult program.* |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: (https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/)/ |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

*See application steps below.

**NOTE: These admissions requirements are only relevant for the MS-Industrial Engineering-Research named option**. You can find the admissions requirements for the Human Factors and Health Systems (p. 1063) and the Systems Engineering and Analytics (p. 1075) named options on their respective pages.

This program offers admitted applicants extraordinary opportunities to pursue a course of study that is customized to the student's interests and ambitions, under the auspices of the foremost experts in their field, in one of the top-ranked industrial and systems engineering departments.

The flexible graduate curricula enable admitted applicants to tailor their degree program to suit their particular needs and career objectives. Concentration areas in industrial and systems engineering includes: Operations Research/Optimization/and Analytics, Health Systems Engineering, Human Factors and Ergonomics, Advanced Manufacturing, and Industrial AI Engineering. Admitted applicants also have opportunities to take graduate courses in any other departments at UW–Madison, which has a comprehensive set of top-ranked graduate and professional programs.

## APPLICATION REQUIREMENTS

Application deadlines are strictly enforced and ALL application materials including transcripts, English proficiency scores MUST be included and submitted by the application deadline.

*Please note our office does not provide feedback to applications as to their potential for admission—please review both the department and Graduate School requirements for admission, and if you feel you meet the necessary criteria for applying, please do so.

1. Applicants must first meet all of the requirements of the Graduate School (https://grad.wisc.edu/acadpolicy/?policy=enrollmentrequirements).
2. Applicants must also meet department specific requirements as outlined below:
   - Bachelor's degree or equivalent
   - Mathematical Statistics course (for example STAT 312)
   - Computer Programming course
   - Three introductory courses in Industrial Engineering, such as: I SY E 313, I SY E 315, I SY E 320, I SY E 323, I SY E/PSYCH 349, I SY E 415, I SY E 417

**Note:** Depending on applicant background, applicants may be deficient in up to two prerequisite courses.

## APPLICATION STEPS

1. Fill out an online application (https://grad.wisc.edu/apply/) through the Graduate School website. (https://grad.wisc.edu/admissions/faq/)
2. **List three recommenders and their contact information as part of the online application.** An email will be sent to the recommender, asking that they submit their letter online using the Graduate School's recommendation form. Applicants can log back into their online application to re-send the email request if the recommender loses the email. Letters of recommendation must be submitted electronically.
3. **Submit a Statement of Purpose (https://grad.wisc.edu/prospective/prepare/statement/) with your online application.** In this document, applicants should explain why they want to pursue further education in ISyE and discuss which UW faculty members they would be interested in doing research with during their graduate study.
4. **Submit English Proficiency Scores:**
   a. All international degree-seeking applicants are required to provide proof of English proficiency.
   b. For more information, visit the the Graduate School Requirements (https://grad.wisc.edu/apply/requirements/)page. Note that exam information must be valid at the start date of the the semester that you are applying for (nonexpired).
5. **Submit GRE Exam Information (https://www.ets.org/gre/) ***
   a. **GRE required if applying for Spring 2027 or Summer 2027 PhD program start.** There are no specific scoring guidelines for the exam as the GRE is only one part of consideration for admission into the program. GRE exam information must be valid at start date of the semester that you are applying for (nonexpired). Please visit here (https://www.ets.org/gre/) for more information on taking the GRE exam. **Please note:** Applicants should plan to take their exam by **December 1** to allow scores to be sent and processed.
   b. **Starting Fall 2027 term**, GRE exam will be considered if available but no longer be required for admission consideration.
6. **Electronically submit one copy of your unofficial transcript with your application.**
   a. Unofficial copies of transcripts are used for departmental review.
   b. When the department recommends an applicant for admission, they will receive an email from the Graduate School requesting official transcripts that will include instructions on how to submit.
   c. Do not send transcripts or any other application materials to gradadmission@engr.wisc.edu.
7. **Upload your resume in your application**.
8. **Pay the Application Fee:** Submission must be accompanied by the one-time application fee. It is non-refundable and can be paid by credit card (Master Card or VISA) or debit/ATM. By state law, this fee can only be waived or deferred through the conditions outlined here by the Graduate School. (https://grad.wisc.edu/apply/fee-grant/)

Do not send materials/documents to the Industrial and Systems Engineering (I SY E) Department or Graduate School until you are recommended for admissions. All documents should be uploaded with your application.

## QUESTIONS

Check out the Admissions FAQ (https://grad.wisc.edu/apply/) or contact us at iegradadmission@engr.wisc.edu.

# FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

### Graduate Assistantships

For information specific to graduate assistantships within the Department of Industrial and Systems Engineering, please consult the department's graduate program handbook (https://engineering.wisc.edu/isye-grad-handbook/).

### Financial Assistance

If you choose to attend UW–Madison and plan to pursue funding on your own, the following sites could be very helpful:

- Graduate School Funding Resources (https://grad.wisc.edu/studentfunding/prospective/)

- Graduate School Costs and Funding (https://grad.wisc.edu/studentfunding/currentstudents/)

## ADDITIONAL RESOURCES

### Federal Loans

Students who are U.S. citizens or permanent residents may be eligible to receive some level of funding through the federal direct loan program. These loans are available to qualified graduate students who are taking at least four credits during the fall and spring semesters and two credits during the summer. Private loans are also available. Learn more about UW (https://financialaid.wisc.edu)–Madison financial aid here. (https://financialaid.wisc.edu)

International Student Services Funding and Scholarships

For information on international student funding and scholarships, visit the ISS website. (https://iss.wisc.edu/students/new-students/funding-scholarships/)

# REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# NAMED OPTION REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 15 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required.<br>Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | Grades of D received by a candidate in any graduate course will not be counted as satisfying degree requirements. These grades will, however, be counted in the graduate GPA. |
| Assessments and Examinations | None. |
| Language Requirements | No language requirements. |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| I SY E courses [1] | | 18 |
| I SY E 790<br>or I SY E 890 | Master's Research and Thesis<br>Pre-Dissertator's Research | 3-6 |
| Electives with advisor approval | | 6-9 |
| **Total Credits** | | **30** |

[1] I SY E 699 Advanced Independent Study may not be used to satisfy degree credit requirements. Students may apply up to 3 credits of I SY E 702 Graduate Cooperative Education Program towards credit requirements.

Students may choose to specialize in one of the below research areas. The program recommends working with your faculty advisors to answer any questions and to form a plan of study.

### Operations Research, Optimization, and Analytics [1]

| Code | Title | Credits |
|---|---|---|
| **Highly Recommended Courses** | | |
| I SY E 516 | Introduction to Decision Analysis | 3 |
| I SY E/COMP SCI/ E C E 524 | Introduction to Optimization | 3 |

[1] These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

[2] Topics vary for this course. Obtain advance approval from your faculty advisor.

## Human Factors and Ergonomics [1]

| Code | Title | Credits |
|---|---|---|
| **Highly Recommended Courses** | | |
| I SY E/COMP SCI/ DS 518 | Wearable Technology | 3 |
| I SY E/PSYCH 549 | Human Factors Engineering | 3 |
| I SY E 552 | Human Factors Engineering Design and Evaluation | 3 |
| I SY E 555 | Human Performance and Accident Causation | 3 |
| I SY E 562 | Human Factors of Data Science and Machine Learning | 3 |
| I SY E/B M E 564 | Occupational Ergonomics and Biomechanics | 3 |
| I SY E 601 | Special Topics in Industrial Engineering [2] | 1-3 |
| I SY E 602 | Special Topics in Human Factors | 3 |
| I SY E/B M E 662 | Design and Human Disability and Aging | 3 |
| I SY E 699 | Advanced Independent Study | 1-5 |
| I SY E/PSYCH 854 | Special Topics in Organization Design | 1-3 |
| I SY E/PSYCH 859 | Special Topics in Human Factors Engineering | 1-3 |
| I SY E 961 | Graduate Seminar in Industrial Engineering | 1-3 |
| CIV ENGR 679 | Special Topics in Transportation and City Planning | 3 |

Various courses count as "Tools and Methods." The HFE faculty group updates the list of "Tools and Methods" courses and advisors decide which set of courses are appropriate for each student. The following are categories of "Tools and Methods": Research Methods, Statistics, Qualitative Research, Biomechanics Methods, and Psychology. Students can work with their faculty advisor for non-I SY E course work.

[1] These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.
[2] Topics vary for this course. Obtain advance approval from your faculty advisor.

### Advanced Manufacturing and Industrial AI [1]

| Code | Title | Credits |

## POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# NAMED OPTION-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

Students in the MS Research program may transfer no more than 9 credits of their previous graduate program from other institutions upon the approval of his/her academic advisor and the associate chair for graduate studies per ISyE Department policy 16.1 (4.9). The transferred credits must have been taken less than 10 years prior to admission to the MS Research program per ISyE Department policy 16.2 (4.6).

### Undergraduate Credits Earned at Other Institutions or UW-Madison

Credits are not allowed for the graduate residence credit requirement, but students can transfer up to 6 credits from another institution or numbered 300 or above from the undergraduate career completed at UW-Madison toward the graduate degree credit requirement. Transfer credits from other institutions must be equivalent to the rigor of UW-Madison courses numbered 300 and above. The 50% graduate coursework requirement can only be met by courses numbered 700 or above. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special student at UW–Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Per the Graduate School: Advisor (https://policy.wisc.edu/library/UW-1232/) policy, every graduate student MUST have a faculty advisor. Graduate students should always seek advice from their advisor and other faculty in their interest area prior to enrolling for courses.

If pursuing a thesis option, students should discuss forming a committee with their advisor, if needed. Refer to the Graduate School: Committees (Doctoral/Master's/MFA) (https://policy.wisc.edu/library/UW-1201/) policy.

Changing advisors during the graduate program may be necessary due to changes in a student's interests or changes in the funding sources for their support. Students should discuss an advisor change with the faculty in their interest area and request a change of advisor with the Industrial and Systems Engineering (ISyE) Graduate Advisor in the Graduate Student Services in first floor Wendt Commons.

## CREDITS PER TERM ALLOWED

Enrollment of 12 credits or less recommended. (Full time status considered 8-12 credits).

## TIME LIMITS

Research-option MS students are expected to complete all degree requirements and graduate within **four semesters** in academic year of full-time enrollment. With student's advisor approval, students are allowed for up to one additional semester (a total of five semesters) to complete their research or thesis work. Extensions beyond five semesters will be considered only on a case-by-case basis, and must be approved by both the student's advisor and the academic affairs committee.

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

### Grievance Procedures: Industrial and Systems Engineering

If a graduate student feels unfairly treated or aggrieved by faculty, staff, or another student, the University offers several avenues to resolve the grievance. Student's concerns about unfair treatment are best handled directly with the person responsible for the objectionable action. If the student is uncomfortable making direct contact with the individual(s) involved, they should contact the advisor or the person in charge of the unit where the action occurred (program or department chair, section chair, lab manager, etc). Many departments and schools/colleges have established specific procedures for handling such situations; check their web pages and published handbooks for information. If such procedures exist at the local level, these should be investigated first. For more information, see the College of Engineering Policies and Procedures (https://www.engr.wisc.edu/academics/student-services/academic-advising/policies-and-procedures/). The Assistant Dean for Graduate Affairs (engr-dean-graduateaffairs@engr.wisc.edu) provides overall leadership for graduate education in the College of Engineering (CoE), and is a point of contact for graduate students who have concerns about education, mentoring, research, or other difficulties.

Procedures for handling graduate student grievances against ISyE faculty, staff, or students:

1. The student is encouraged to speak first with the person toward whom the grievance is directed to see if a situation can be resolved at this level.
2. Should a satisfactory resolution not be achieved, the student should contact the Associate Chair for Graduate Affairs, to discuss the grievance. The Associate Chair will facilitate problem resolution through informal channels and facilitate any complaints or issues of students. The first attempt is to help students informally address the grievance prior to any formal complaint. Students are also encouraged to talk with their faculty advisors regarding concerns or difficulties, if necessary. University resources for sexual harassment, discrimination, disability accommodations, and other related concerns can be found on the UW Office of Compliance website (https://compliance.wisc.edu/).
3. If the issue is not resolved to the student's satisfaction, the student can submit the grievance to the Grievance Advisor, which may be either the Associate Chair for Graduate Affairs or the Department Chair, as chosen by the student. The grievance should be submitted in writing, within 60 calendar days of the alleged unfair treatment.
4. On receipt of a written complaint, the Grievance Advisor will form a faculty committee that will review the complaint and gather further information as necessary from the filer of the complaint and other parties involved (including the party toward whom the complaint is directed).
5. The faculty committee will determine a decision regarding the grievance. The Grievance Advisor will report on the action taken by the committee in writing to both the student and the party toward whom the complaint was directed within 15 working days from the date the complaint was received.
6. At this point, if either party (the student or the person toward whom the grievance is directed) is unsatisfied with the decision of the faculty committee, the party may file a written appeal to the College of Engineering Assistant Dean for Graduate Affairs (engr-dean-graduateaffairs@engr.wisc.edu). Either party has 10 working days to file a written appeal to the School/College.
7. Documentation of the grievance will be stored for at least 7 years. Significant grievances that set a precedent will be stored indefinitely.

The Graduate School has procedures for students wishing to appeal a grievance decision made at the school/college level. These policies are described in the Graduate School Academic Policies and Procedures - Grievances & Appeals (https://grad.wisc.edu/documents/grievances-and-appeals/).

## OTHER

Continuing to the PhD Program:

- Admission and successful completion of the MS program does not imply admittance to the PhD program. Students wishing to take the PhD qualifying exam must first be admitted to the PhD program.
- MS-Industrial and Systems Engineering, Research named option students wishing to continue to the PhD program must have their admission to the PhD program recommended by an Industrial and Systems Engineering faculty member with tenure home in the department who is willing to serve as the student's PhD advisor. The admission of such students will then be evaluated by the associate chair for graduate affairs or admissions committee using the same evaluation process as for all PhD program applicants.
- To apply to the PhD program, log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. Select the information for the program for which you are applying.

For additional information, please contact iegradadmission@engr.wisc.edu.

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

## GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## PROGRAM RESOURCES

### The Individual Development PI (https://grad.wisc.edu/pd/idp/)an (https://grad.wisc.edu/pd/idp/)

An Individual Development Plan helps with self-assessment, planning, and communication:

- An IDP can help you communicate your professional development and career planning needs and intentions to others including your mentor, which can lead to helpful advice and resources.
- You can use the IDP to make sure you and your mentor's expectations are clearly outlined and in agreement so that there are no big surprises, particularly at the end of your training.
- The current job market is challenging and research has shown that individuals who perform structured career planning achieve greater career success and satisfaction.

The onus to engage in the IDP process is on you – although your mentor, PI, or others may encourage and support you in doing so. The IDP itself remains private to you, and you choose which parts to share with which mentors. Through the IDP process, you may decide to identify various mentors to whom you can go for expertise and advice.

### Engineering Career Services (https://ecs.wisc.edu/)

Julie Rae, Assistant Director for Graduate Student Career Services

Graduate students in all Engineering programs

- Resumes & Cover Letters: https://ecs.wisc.edu/students/resumes-and-cover-letters/
- Job Search Strategies
- Job Offers & Negotiation: https://ecs.wisc.edu/students/offers-and-negotiation/
- CPT for Graduate Students: https://ecs.wisc.edu/students/co-op-and-internship/

Employer Recruitment List for Industrial Engineering Students: https://ecs.wiscweb.wisc.edu/wp-content/uploads/sites/86/2017/03/IE-Employer-Recruitment-List-17-18.pdf

### UW Writing Center (http://writing.wisc.edu/)

**Location:** 6171 Helen C. White Hall

**Phone:** (608) 263-1992

The UW Writing Center provides free face-to-face and online consultations that focus on a number of different writing scenarios (i.e. drafts of course papers, resumes, reports, application essays, cover letters, theses, etc.). Writing Center instructors will not edit or proofread papers. Instead, their goal is to teach students to edit and proofread on their own in order to become better, more confident writers.

# INDUSTRIAL ENGINEERING: SYSTEMS ENGINEERING AND ANALYTICS, MS

This is a named option course-based program within the Industrial and Systems Engineering MS (p. 1060).

The program in Systems Engineering and Analytics (https://pdc.wisc.edu/degrees/systems-engineering-analytics/) will train students to recognize, identify, analyze, and solve decision problems arising in the efficient operations of engineering systems. The program focuses on methods and models for data analytics and data-driven decision-making.

# IS THIS PROGRAM RIGHT FOR YOU?

Analytics, and the ability to effectively utilize data, is quickly becoming an important component in engineering decision-making. There is a strong need in the marketplace for people who use analytical tools to transform data into insights for making better decisions. The Systems Engineering and Analytics option within the UW–Madison graduate program in Industrial and Systems Engineering offers students the opportunity to pursue graduate training in this important and emerging area, under the auspices of the foremost experts in their field, in one of the world's top-ranked departments of industrial and systems engineering. (We were ranked 8th in the latest *U.S. News and World Report* rankings). The flexible curricula in Systems Engineering and Analytics enable students to tailor their degree program to suit their particular needs and career objectives.

After completing your degree, you will be able to analyze, process, and build conclusions based on the data you collect in the design, testing, and operations phases of engineering and design processes.

The program includes training in optimization models and methods, applied industrial analytics, simulation modeling and analysis, and courses wherein these analytical and computational tools are applied in an engineering systems setting. These learned skills are now highly sought after in manufacturing, transportation, finance, healthcare, and other industrial sectors.

See the Learning Outcomes (p. 1062) for this program.

If you have questions, please contact COE Grad Admissions at iegradadmission@engr.wisc.edu; Subject Line: IE Grad Admissions and I Sy E. Seniors please contact Pam Peterson, prpeterson@wisc.edu.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 15 |
| Spring Deadline | September 1 |
| Summer Deadline | The program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: (https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/)/ |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

## DEADLINES

Please submit all application materials by the fall deadline to ensure full review of your application. Applications submitted after the fall deadline through March 15 will be reviewed if complete and will be considered for admission by the department if space is available. To check if space is available, please email: iegradadmission@engr.wisc.edu. (iegradadmission@engr.wisc.edu)

## ADMISSION

Applicants must first meet all of the requirements of the Graduate School.

Applicants must also meet department specific requirements as outlined below:

- BS degree in engineering or related area or equivalent
- Mathematical Statistics Course (for example, STAT 312 Introduction to Theory and Methods of Mathematical Statistics II or I SY E 210 Introduction to Industrial Statistics)
- Introduction to Programming Course (for example, COMP SCI 220 Data Science Programming I)
- International degree-seeking applicants must prove English proficiency using the Graduate School's requirements (https://grad.wisc.edu/apply/requirements/).
- The Graduate Record Examination (GRE) is not required for this masters programs in Industrial and Systems Engineering (I Sy E) . If GRE scores are submitted, they will not be used in admission decisions.

### UW-Madison Students Applicants Only

UW–Madison undergraduate students applying to this program must submit a UW transcript, but it may be an unofficial transcript.

### UW-Madison Industrial and Systems Engineering (I SY E) Student Applicants Only

**Three letters of recommendation are NOT required for students completing their Industrial Engineering bachelor's degree at UW.** Please note that the application system will still require you to list three individuals as recommenders. You are welcome to list Sinan Tas, Pam Peterson, and Amanda Smith to bypass this requirement.

## HOW TO APPLY

1. **Fill out an online application (https://grad.wisc.edu/apply/) through the Graduate School website.**
2. **List three recommenders and their contact information as part of the online application.** An email will be sent to the recommender, asking that they submit their letter online using the Graduate School's recommendation form. Applicants can log back into their online application to re-send the email request if the recommender loses the email. Letters of recommendation must be submitted electronically.
3. **Submit a Statement of Purpose (https://grad.wisc.edu/prospective/prepare/statement/) with your online application.** In this document, applicants should explain why they want to pursue further education in Industrial and Systems Engineering.
4. **English Proficiency Exam Information:**
    a. All international degree-seeking applicants are required to provide proof of English proficiency.
    b. For more information, visit the the Graduate School Requirements (https://grad.wisc.edu/apply/requirements/)page. Note that exam information must be valid at the start date of the the semester that you are applying for (nonexpired).
5. **GRE Exam Information: (https://www.ets.org/gre/)** The GRE is not required for this program. If GRE scores are submitted, they will not be used in admission decisions.
6. **Electronically submit one copy of your unofficial transcript with your application.**
    a. Unofficial copies of transcripts are used for departmental review.
    b. When the department recommends an applicant for admission, they will receive an email from the Graduate School requesting official transcripts that will include instructions on how to submit.
    c. Do not send transcripts or any other application materials to gradadmission@engr.wisc.edu.
7. **Upload your resume in your application**.
8. **Pay the Application Fee:** Information about the application fee may be found in the Graduate School FAQs (https://grad.wisc.edu/apply/#FAQ). Fee grants are available through the conditions outlined by the Graduate School (https://grad.wisc.edu/apply/fee-grant/).

Do not send materials/documents to the ISyE department or Graduate School until you are recommended for admission. All documents should be uploaded with your application.

## QUESTIONS

Check out the Admissions FAQ (https://grad.wisc.edu/apply/) or contact us at iegradadmission@engr.wisc.edu.

# FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

Tuition information for this program is available here (https://pdc.wisc.edu/degrees/systems-engineering-analytics/). Beginning in the fall semester of 2021, resident and resident reciprocity students are eligible for a tuition scholarship. Details here (https://engineering.wisc.edu/wp-content/uploads/2025/10/Masters-Program-Tuition-Credit-Spring-2026.pdf).

Students enrolled in this program are not eligible to receive tuition remission from graduate assistantship appointments at this institution.

## ADDITIONAL RESOURCES

### Federal Loans

Students who are U.S. citizens or permanent residents may be eligible to receive some level of funding through the federal direct loan program. These loans are available to qualified graduate students who are taking at least four credits during the fall and spring semesters and two credits during the summer. Private loans are also available. Learn more about UW–Madison financial aid here (https://financialaid.wisc.edu).

### International Student Services Funding and Scholarships

For information on international student funding and scholarships, visit the ISS website. (https://iss.wisc.edu/students/new-students/funding-scholarships/)

# REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# NAMED OPTION REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | Yes |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 15 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required.<br>Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | Grades of D received by a candidate in any graduate course will not be counted as satisfying degree requirements. These grades will, however, be counted in the graduate GPA. |
| Assessments and Examinations | None. |
| Language Requirements | No language requirements. |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Industrial and Systems Engineering (I SY E)** [1] | | |
| Students must complete at least 18 credits in the Industrial and Systems Engineering Department. | | 18 |
| **Electives** | | |
| Electives are chosen in consultation with advisor. | | 12 |
| **Optional Experiential Courses** | | |
| At most, 6 credits total from independent study, research, and internship / co-op courses may be applied towards the degree. | | 0-6 |
| I SY E 699 | Advanced Independent Study | |
| I SY E 790 | Master's Research and Thesis | |

| | | |
|---|---|---|
| I SY E 702 | Graduate Cooperative Education Program | |
| **Total Credits** | | **30** |

[1] All credits must be from coursework numbered 300 or higher. Up to 6 credits of coursework numbered 300 to 399 may satisfy degree requirements.

### Fall Potential Courses

| Code | Title | Credits |
|---|---|---|
| I SY E 313 | Engineering Economic Analysis | 3 |
| I SY E 315 | Production Planning and Control | 3 |
| I SY E 373 | Artificial Intelligence (AI) in Systems | 3 |
| I SY E 415 | Introduction to Manufacturing Systems, Design and Analysis | 3 |
| I SY E 412 | Fundamentals of Industrial Data Analytics | 3 |
| I SY E/COMP SCI/ MATH 425 | Introduction to Combinatorial Optimization | 3 |
| I SY E/M E 510 | Facilities Planning | 3 |
| I SY E/M E 512 | Inspection, Quality Control and Reliability | 3 |
| I SY E 515 | Engineering Management of Continuous Process Improvement | 3 |
| I SY E 517 | Decision Making in Health Care | 3 |
| I SY E 521 | Machine Learning in Action for Industrial Engineers | 3 |
| I SY E/COMP SCI/ E C E 524 | Introduction to Optimization | 3 |
| I SY E 601 | Special Topics in Industrial Engineering | 1-3 |
| I SY E 603 | Special Topics in Engineering Analytics and Operations Research | 1-3 |
| I SY E 604 | Special Topics in Manufacturing and Supply Chain Management | 1-3 |
| I SY E 605 | Computer Integrated Manufacturing | 3 |
| I SY E 624 | Stochastic Modeling Techniques | 3 |
| I SY E 645 | Engineering Models for Supply Chains | 3 |
| I SY E 649 | Interactive Data Analytics | 3 |
| I SY E 699 | Advanced Independent Study | 1-5 |
| I SY E/INFO SYS 722 | Computer-Based Data Management | 3 |

### Spring Potential Courses

| Code | Title | Credits |

### Summer Potential Courses

| Code | Title | Credits |
|---|---|---|
| I SY E 313 | Engineering Economic Analysis | 3 |
| I SY E 516 | Introduction to Decision Analysis | 3 |
| I SY E/COMP SCI/ E C E 524 | Introduction to Optimization | 3 |
| I SY E 575 | Introduction to Quality Engineering | 3 |
| I SY E 601 | Special Topics in Industrial Engineering | 1-3 |
| I SY E 603 | Special Topics in Engineering Analytics and Operations Research | 1-3 |
| I SY E 604 | Special Topics in Manufacturing and Supply Chain Management | 1-3 |
| I SY E/MATH/OTM/ STAT 632 | Introduction to Stochastic Processes | 3 |
| I SY E 699 | Advanced Independent Study | 1-5 |
| I SY E 702 | Graduate Cooperative Education Program | 1-2 |

### Other Policy

Students in this program may not take courses outside the prescribed curriculum without faculty advisor and program director approval. Students in this program cannot enroll concurrently in other undergraduate or graduate degree programs.

## POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures

and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# NAMED OPTION-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program approval, students may transfer no more than 9 credits of graduate course work taken in a graduate program from other institutions. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

UW-Madison students completing their bachelor's degree in the Industrial and Systems Engineering department may transfer up to 6 credits of coursework numbered 300 or above toward the degree with prior program approval. Undergraduate credits earned at other institutions may transfer. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Per the Graduate School: Advisor (https://policy.wisc.edu/library/UW-1232/) policy, (https://policy.wisc.edu/library/UW-1232/) every graduate student MUST have a faculty advisor. Students in this program will be advised by the department's Director of Professional Masters Programs. A faculty advisor provides the graduate student with academic guidance regarding their course selection and research oversight in their thesis or project. Graduate students should always seek advice from their advisor and other faculty in their interest area prior to enrolling for courses.

## CREDITS PER TERM ALLOWED

Enrollment of 12 credits is highly recommended.

## TIME LIMITS

This program is designed to be completed in 16 months. Students who have an undergraduate degree from UW-Madison can typically complete the program in 12 months. Internship / CPT work program experience is an optional component to this degree. The ISyE department does not guarantee availability of internship positions. The program must be completed within 24 months.

The student is required to meet their academic advisor during their first semester to discuss and obtain approval of the course plan for the remainder of their program. In situations that the student cannot finish the program in 24 months due to exceptional circumstances, the exception must be requested by the student and approved by the student's academic advisor and the academic affairs committee.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

### Grievance Procedures: Industrial and Systems Engineering

If a graduate student feels unfairly treated or aggrieved by faculty, staff, or another student, the University offers several avenues to resolve the grievance. Student's concerns about unfair treatment are best handled directly with the person responsible for the objectionable action. If the student is uncomfortable making direct contact with the individual(s) involved, they should contact the advisor or the person in charge of the unit where the action occurred (program or department chair, section chair, lab manager, etc). Many departments and schools/colleges have established specific procedures for handling such situations; check their web pages and published handbooks for information. If such procedures exist at the local level, these should be investigated first. For more information, see the College of Engineering Policies and Procedures (https://engineering.wisc.edu/report-an-incident/academic-grievances-and-complaints/). The Assistant Dean for Graduate Affairs (engr-dean-graduateaffairs@engr.wisc.edu) provides overall leadership for graduate education in the College of Engineering (CoE), and is a point of contact

for graduate students who have concerns about education, mentoring, research, or other difficulties.

Procedures for handling graduate student grievances against ISyE faculty, staff, or students:

1. The student is encouraged to speak first with the person toward whom the grievance is directed to see if a situation can be resolved at this level.
2. Should a satisfactory resolution not be achieved, the student should contact the Associate Chair for Graduate Affairs, to discuss the grievance. The Associate Chair will facilitate problem resolution through informal channels and facilitate any complaints or issues of students. The first attempt is to help students informally address the grievance prior to any formal complaint. Students are also encouraged to talk with their faculty advisors regarding concerns or difficulties, if necessary. University resources for sexual harassment, discrimination, disability accommodations, and other related concerns can be found on the UW Office of Compliance website (https://compliance.wisc.edu/).
3. If the issue is not resolved to the student's satisfaction, the student can submit the grievance to the Grievance Advisor, which may be either the Associate Chair for Graduate Affairs or the Department Chair, as chosen by the student. The grievance should be submitted in writing, within 60 calendar days of the alleged unfair treatment.
4. On receipt of a written complaint, the Grievance Advisor will form a faculty committee that will review the complaint and gather further information as necessary from the filer of the complaint and other parties involved (including the party toward whom the complaint is directed).
5. The faculty committee will determine a decision regarding the grievance. The Grievance Advisor will report on the action taken by the committee in writing to both the student and the party toward whom the complaint was directed within 15 working days from the date the complaint was received.
6. At this point, if either party (the student or the person toward whom the grievance is directed) is unsatisfied with the decision of the faculty committee, the party may file a written appeal to the College of Engineering Assistant Dean for Graduate Affairs (engr-dean-graduateaffairs@engr.wisc.edu). Either party has 10 working days to file a written appeal to the School/College.
7. Documentation of the grievance will be stored for at least 7 years. Significant grievances that set a precedent will be stored indefinitely.
8. The Graduate School has procedures for students wishing to appeal a grievance decision made at the school/college level. These policies are described in the Graduate School Academic Policies and Procedures - Grievances & Appeals (https://grad.wisc.edu/documents/grievances-and-appeals/).

## OTHER

### Continuing to the PhD Program:

- Admission and successful completion of the MS program does not imply admittance to the ISyE PhD program. Students wishing to take the PhD qualifying exam must first be admitted to the PhD program.
- ISyE MS students wishing to continue to the PhD program must have their admission to the PhD program recommended by an ISyE faculty member with tenure home in ISyE who is willing to serve as the student's PhD advisor. The admission of such students will then be evaluated by the associate chair for graduate affairs or admissions committee using the same evaluation process as for all PhD program applicants.
- To apply to the PhD program, log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. Select the information for the program for which you are applying.

For additional information, please contact iegradadmission@engr.wisc.edu

### Graduate Assistant Positions

Students are strongly discouraged to pursue positions as Project Assistants, Teaching Assistants or Research Assistants during their time in this program, as the rigor and accelerated nature of this program may not accommodate those work time commitments. Students in this program will not receive the tuition remission that is typically part of the compensation package for a graduate assistantship.

### Policies on Program Transfer

- It is not allowed to transfer between the Systems Engineering and Analytics and Research named option programs.
- If a student currently in another graduate program wants to transfer to the course option Industrial Engineering, MS they should follow the general application procedure for the course option Industrial Engineering, MS program along with submitting an Add/Change of Program, Plan or Named Option Request online through the Graduate School.

# PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

## GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## PROGRAM RESOURCES

### The Individual Development P (https://grad.wisc.edu/pd/idp/)lan (https://grad.wisc.edu/pd/idp/)

An Individual Development Plan helps with self-assessment, planning, and communication:

- An IDP can help you communicate your professional development and career planning needs and intentions to others including your mentor, which can lead to helpful advice and resources.
- You can use the IDP to make sure you and your mentor's expectations are clearly outlined and in agreement so that there are no big surprises, particularly at the end of your training.
- The current job market is challenging and research has shown that individuals who perform structured career planning achieve greater career success and satisfaction.

The onus to engage in the IDP process is on you – although your mentor, PI, or others may encourage and support you in doing so. The IDP itself remains private to you, and you choose which parts to share with which mentors. Through the IDP process, you may decide to identify various mentors to whom you can go for expertise and advice.

### Engineering Career Services (https://ecs.wisc.edu/)

Julie Rae, Assistant Director for Graduate Student Career Services

Graduate students in all Engineering programs

- Resumes & Cover Letters: https://ecs.wisc.edu/students/resumes-and-cover-letters/
- Job Search Strategies
- Job Offers & Negotiation: https://ecs.wisc.edu/students/offers-and-negotiation/
- CPT for Graduate Students: https://ecs.wisc.edu/students/co-op-and-internship/
- Student appointments: Click here (http://go.wisc.edu/ecs-grad-appt/) to schedule an appointment with ECS.

Employer Recruitment List for Industrial Engineering Students: https://ecs.wiscweb.wisc.edu/wp-content/uploads/sites/86/2017/03/IE-Employer-Recruitment-List-17-18.pdf

### UW Writing Center (http://writing.wisc.edu/)

**Location:** 6171 Helen C. White Hall

**Phone:** (608) 263-1992

The UW Writing Center provides free face-to-face and online consultations that focus on a number of different writing scenarios (i.e. drafts of course papers, resumes, reports, application essays, cover letters, theses, etc.). Writing Center instructors will not edit or proofread papers; instead, their goal is to teach students to edit and proofread on their own in order to become better, more confident writers.

# INDUSTRIAL ENGINEERING, PHD

The Department of Industrial and Systems Engineering offers opportunities for graduate study leading to the master of science and the doctor of philosophy degrees in industrial and systems engineering.

In the PhD program, four areas of specialization are available, each designed to produce graduates capable of leading new and developing areas within industrial and systems engineering. The four areas are: decision science/operations research, health systems, human factors and ergonomics, and manufacturing and production systems.

The specialization in operations research, optimization, and analytics trains students in analytical methodologies useful for solving decision problems, especially problems that involve the allocation of scarce resources, and the design, planning and operation of complex systems. Graduate study focuses on optimization modeling and algorithms, applied probability and stochastic modeling, and decision analysis.

The health systems engineering specialization seeks to train students to look at broad issues in health care, including long-term care, prevention, quality improvement, health care financing, and system evaluation. Understanding how people solve problems is a basic requirement for health systems engineers, who must apply scientific methods in a value-laden setting.

The specialization in human factors and ergonomics is concerned with the quality of work lives, ergonomics, and occupational safety and health for both workers and management. By examining, designing, testing, and evaluating the workplace and how people interact within it, human systems engineers can create productive, safe, and satisfying work environments.

The specialization in advanced manufacturing and industrial AI is intended to provide the skills and knowledge necessary to compete successfully in a manufacturing environment. These skills include knowledge of the theory of manufacturing materials and processes and their control; knowledge of the essentials of manufacturing systems design and analysis; and knowledge of and hands-on experience with modern manufacturing technology.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 1 |
| Spring Deadline | September 1 |
| Summer Deadline | December 1 |
| GRE (Graduate Record Examinations) | May be required in certain cases; consult program.* |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: (https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/)/ |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

*See application steps below.

Applicants from any discipline that provides foundations for research in Industrial and Systems Engineering (ISyE) topics are encouraged to apply. For example, applicants may come from industrial, electrical, or mechanical engineering, or mathematics, statistics, computer science, psychology, or economics. Applicants are strongly advised to review the prerequisites for each area of specialization at the department website (https://engineering.wisc.edu/programs/degrees/industrial-engineering-phd/).

Each application is judged on the basis of previous academic record, Graduate Record Exam (GRE)* scores for the general test, three letters of recommendation, and the statement of purpose. Admission is very competitive and application deadlines are extremely important.

## REENTRY APPLICANTS

Reentry applicants must notify an academic advisor and apply by the following application deadlines for the appropriate term. Read more information about the additional reentry information (https://grad.wisc.edu/admissions/previouslyenrolled/).

Although we accept summer applications, we recommend applying for fall or spring as there are not many courses offered in the summer.

- Fall: December 1
- Spring: September 1

## APPLICATION REQUIREMENTS

Application deadlines are strictly enforced and ALL application materials including transcripts and English proficiency test scores MUST be included and submitted by the application deadline. (Unofficial scores accepted for department review).

*Note that our office does not provide feedback to applicants as to their potential for admission. Applicants should review both the Industrial and Systems Engineering (I SY E) department and Graduate School requirements for admission and if you feel you meet the necessary criteria for applying, please do so.

1. Applicants must first meet all of the minimum requirements (https://grad.wisc.edu/apply/requirements/) of the Graduate School.
2. Applicants must also meet department specific requirements as outlined below:
   a. BS degree or equivalent

## APPLICATION STEPS

1. **Complete an online application (https://grad.wisc.edu/apply/) through the Graduate School website. (https://grad.wisc.edu/admissions/faq/)**
2. **List three recommenders and their contact information as part of the online application.**
   a. An email will be sent to the recommender, asking that they submit their letter online using the Graduate School's recommendation form. Applicants can log back into their online application to re-send the email request if the recommender loses the email. Letters of recommendation must be submitted electronically.
3. **Submit a statement of purpose (https://grad.wisc.edu/prospective/prepare/statement/) with your online application.**
   a. In this document, applicants should explain why they want to pursue further education in Industrial and Systems Engineering (ISyE) and discuss which UW faculty members they would be interested in doing research with during their graduate study.
4. **Submit English Proficiency test scores.**
   a. All international degree-seeking applicants are required to provide proof of English proficiency.
   b. For more information, visit the Graduate School Requirements (https://grad.wisc.edu/apply/requirements/) page. Note that exam information must be valid at the start date of the semester that you are applying for (nonexpired).
5. **Submit * GRE Exam information (https://www.ets.org/gre/)**
   a. **GRE required if applying for Spring or Summer 2027 PhD program start.** There are no specific scoring guidelines for the exam as the GRE is only one part of consideration for admission into the program. GRE exam information must be valid at start date of the semester that you are applying for (nonexpired).
   b. **Starting Fall 2027 term**, GRE exam will be considered if available but no longer be required for admission consideration.
6. **Electronically submit one copy of your unofficial transcript with your application.**
   a. Unofficial copies of transcripts are used for departmental review.
   b. When the department recommends an applicant for admission, they will receive an email from the Graduate School requesting official transcripts that will include instructions on how to submit.
   c. Do not send transcripts or any other application materials to gradadmission@engr.wisc.edu.
7. **Upload your resume in your application**.
8. **Pay the Application Fee.**
   a. Submission must be accompanied by the one-time application fee. It is non-refundable and can be paid by credit card (MasterCard or VISA). By state law, this fee can only be waived or deferred through the conditions outlined here by the Graduate School. (https://grad.wisc.edu/apply/fee-grant/)

Do not send materials/documents to the Industrial and Systems Engineering (I SY E) Department or Graduate School until you are recommended for admissions. All documents should be uploaded with your application.

## QUESTIONS

Check out the Admissions FAQ (https://grad.wisc.edu/apply/) or contact us at iegradadmission@engr.wisc.edu.

# FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## FINANCIAL ASSISTANCE

If you choose to attend UW–Madison and plan to pursue funding on your own, the following sites could be very helpful:

- Graduate School Funding Resources (https://grad.wisc.edu/studentfunding/prospective/)
- Graduate School Costs and Funding (https://grad.wisc.edu/studentfunding/currentstudents/)

## PROGRAM RESOURCES

Students admitted to the graduate program are provided financial support in the form of research assistantships, teaching assistantships, and fellowships. Support is dependent on availability of funds and students maintaining satisfactory progress towards their degree.

For information specific to graduate assistantships within the Department of Industrial and Systems Engineering, please consult the department's graduate program handbook (https://engineering.wisc.edu/isye-grad-handbook/).

## ADDITIONAL RESOURCES

### Federal Loans

Students who are U.S. citizens or permanent residents may be eligible to receive some level of funding through the federal direct loan program. These loans are available to qualified graduate students who are taking at least 4 credits during the fall and spring semesters, and 2 credits during summer. Private loans are also available. Learn more about UW-Madison financial aid here. (https://financialaid.wisc.edu)

### International Student Services Funding and Scholarships

For information on international student funding and scholarships, visit the ISS website. (https://iss.wisc.edu/students/new-students/funding-scholarships/)

# REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 51 credits |
| Minimum Residence Credit Requirement | 32 credits |
| Minimum Graduate Coursework Requirement | 26 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required.<br>Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | Grades of D received by a candidate in any graduate course will not be counted as satisfying degree requirements. These grades will, however, be counted in the graduate GPA.<br><br>Students must earn a grade of B or above in all courses applied toward the program breadth requirement.<br><br>Students must earn a grade of C or better, or a grade of S (satisfactory) if taken on an pass/fail basis, in the colloquium/lecture series (I SY E 961).<br><br>Students in the Human Factors and Ergonomics pathway must receive a grade of AB or better in at least 3 credits in each of the following areas: cognitive ergonomics, sociotechnical systems/macro ergonomics, and physical ergonomics to take the qualifying exam. Refer to pathway for more information. |
| Assessments and Examinations | Qualifying exams, preliminary exams, and a final dissertation defense are required of all students. Details may be found in the program handbook. |
| Language Requirements | No language requirements. |
| Graduate School Breadth Requirement | All doctoral students are required to complete a doctoral minor or graduate/professional certificate. Refer to the Graduate School: Breadth Requirement in Doctoral Training policy: https://policy.wisc.edu/library/UW-1200 (https://policy.wisc.edu/library/UW-1200/).<br><br>The program also has additional breadth requirements. See details below. |

## REQUIRED COURSES

Students choose one of the following Industrial and Systems Engineering (I SY E) research areas (https://engineering.wisc.edu/departments/industrial-systems-engineering/research/) for their PhD program, course and research planning in consultation with their faculty advisor.

Students in the PhD program must complete the following additional program requirements:

### Research Area Breadth Requirement

The purpose of the breadth requirement is to ensure PhD students achieve minimum competence in multiple areas of industrial and systems engineering. Students must take at least two ISyE courses (6 credits) in Methodology[2] and two ISyE courses (6 credits) in Application[3] areas selected by the student and approved by their advisor. Courses used to meet this requirement must be 300 level or higher. A student must receive a grade of B or higher to use a course for this requirement. Courses used to satisfy the breadth requirement must

be completed by end of the semester the student is completing their preliminary examination.

**Graduate School Breadth (Doctoral Minor (https://grad.wisc.edu/documents/minors/) Requirement**)

Students must complete the Graduate School's breadth (minor) requirement by completing a cohesive group of courses outside of the major. These courses should help students in their research preparation. Every student seeking a PhD degree must choose between an Option A minor in another department and an Option B Distributed minor. Students must consult their advisor before deciding how to fulfill this requirement.

## Research Colloquium / Seminar Series Requirement

Students must attend the I SY E 961 Graduate Seminar in Industrial Engineering - ISyE Research Colloquium Series for at least three semesters. Completion of requirement must be approved by the student's faculty advisor when the student submits their PhD Program Preliminary Exam Warrant request.

## Teaching Assistant (TA Requirement)

Recognizing the importance of instructional training to our PhD students, each student in the PhD program is required to serve as a teaching assistant (TA) for at least one semester during their PhD program. TA requirement must be completed prior to requesting of students final PhD degree warrant. Requests for a partial or full waiver of this requirement should be submitted in writing to the Associate Chair for Graduate Studies and will be reviewed by the Academic Affairs Cluster.

| I SY E/ COMP SCI 723 | Dynamic Programming and Associated Topics | 3 |
| I SY E 961 | Graduate Seminar in Industrial Engineering | 3 |

[1] These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

## Health Systems Engineering Pathway [1]

The following is a list of highly recommended courses to complete in this research area.

| Code | Title | Credits |
|---|---|---|
| I SY E 417 | Health Systems Engineering | 3 |
| I SY E 517 | Decision Making in Health Care | 3 |
| I SY E 606 | Special Topics in Healthcare Systems Engineering | 1-3 |
| The following is a list of suggested courses a student may choose to complete in this research area. | | |
| I SY E 412 | Fundamentals of Industrial Data Analytics | 3 |
| I SY E 415 | Introduction to Manufacturing Systems, Design and Analysis | 3 |
| I SY E 521 | Machine Learning in Action for Industrial Engineers | 3 |
| I SY E 555 | Human Performance and Accident Causation | 3 |
| I SY E 575 | Introduction to Quality Engineering | 3 |
| I SY E 601 | Special Topics in Industrial Engineering [2] | 1-3 |
| I SY E 620 | Simulation Modeling and Analysis | 3 |
| I SY E 624 | Stochastic Modeling Techniques | 3 |
| I SY E/ POP HLTH 875 | Cost Effectiveness Analysis in Health and Healthcare | 3 |
| B M I/ COMP SCI 576 | Introduction to Bioinformatics | 3 |
| B M I 773 | Clinical Research Informatics | 3 |

| | | |
|---|---|---|
| B M I/ COMP SCI 776 | Advanced Bioinformatics | 3 |
| I SY E 961 | Graduate Seminar in Industrial Engineering | 3 |

[1] These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

[2] Topics vary for this course. Obtain advance approval from your faculty advisor.

## Advanced Manufacturing and Industrial AI Pathway [1]

The following is a list of courses students may choose to complete in this research area.

| Code | Title | Credits |
|---|---|---|
| **Courses Recommended for Manufacturing Qualifying Exam:** | | |
| I SY E/M E 510 | Facilities Planning | 3 |
| I SY E/M E 512 | Inspection, Quality Control and Reliability | 3 |
| I SY E 605 | Computer Integrated Manufacturing | 3 |
| I SY E 624 | Stochastic Modeling Techniques | 3 |
| I SY E 604 | Special Topics in Manufacturing and Supply Chain Management [2] | 3 |
| or I SY E 645 | Engineering Models for Supply Chains | |
| The following is a list of suggested courses a student may choose to complete in this research area. | | |
| I SY E 412 | Fundamentals of Industrial Data Analytics | 3 |
| I SY E 415 | Introduction to Manufacturing Systems, Design and Analysis | 3 |
| I SY E 515 | Engineering Management of Continuous Process Improvement | 3 |
| I SY E 575 | Introduction to Quality Engineering | 3 |
| I SY E 601 | Special Topics in Industrial Engineering [2] | 1-3 |
| I SY E 603 | Special Topics in Engineering Analytics and Operations Research [2] | 1-3 |
| I SY E 612 | Information Sensing and Analysis for Manufacturing Processes | 3 |
| I SY E 620 | Simulation Modeling and Analysis | 3 |
| I SY E/M E 641 | Design and Analysis of Manufacturing Systems | 3 |
| I SY E 649 | Interactive Data Analytics | 3 |
| I SY E/ COMP SCI 723 | Dynamic Programming and Associated Topics | 3 |
| I SY E 823 | Special Topics in Operations Research [2] | 1-3 |
| I SY E 961 | Graduate Seminar in Industrial Engineering | 3 |

[1] These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

[2] Topics vary for this course. Obtain advance approval from your faculty advisor.

## Human Factors and Ergonomics Pathway [1]

Students in this research area must complete a depth requirement, which includes coursework and exam components. Students may use prior coursework to satisfy the coursework requirement to be eligible for the qualifying exam. HFE PhD students must complete an additional coursework and exam component.

| Code | Title | Credits |
|---|---|---|
| The following is a list of suggested courses a student may choose to complete in this research area. | | |
| I SY E 552 | Human Factors Engineering Design and Evaluation | 3 |
| I SY E 555 | Human Performance and Accident Causation | 3 |
| I SY E 562 | Human Factors of Data Science and Machine Learning | 3 |
| I SY E/B M E 564 | Occupational Ergonomics and Biomechanics | 3 |
| I SY E 601 | Special Topics in Industrial Engineering [2] | 1-3 |
| I SY E 602 | Special Topics in Human Factors [2] | 3 |
| I SY E/B M E 662 | Design and Human Disability and Aging | 3 |
| I SY E 699 | Advanced Independent Study [2] | 1-5 |
| I SY E/PSYCH 854 | Special Topics in Organization Design [2] | 1-3 |
| I SY E/PSYCH 859 | Special Topics in Human Factors Engineering [2] | 1-3 |
| I SY E 961 | Graduate Seminar in Industrial Engineering [2] | 3 |
| CIV ENGR 679 | Special Topics in Transportation and City Planning [2] | 3 |
| Tools and Methods: Various courses in the categories of Research Methods, Statistics, Qualitative Research, Biomechanics Methods, and Psychology count as "Tools and Methods." The Human Factors and Ergonomics faculty group updates the list of "Tools and Methods" courses, and advisors decide which set of courses are appropriate for each student. Work with your faculty advisor regarding non-I SY E course work. | | |

### Human Factors and Ergonomics Course Requirement

| Code | Title | Credits |
|---|---|---|
| To take the qualifying exam, a student will have to have received a grade of AB or better in at least 3 credits in each of the three areas below. Courses taken during undergraduate studies can be used to satisfy this requirement: | | |
| **Cognitive Ergonomics** | | |
| Students must complete one of the following courses. | | 3 |
| I SY E 555 | Human Performance and Accident Causation | |
| I SY E 601 | Special Topics in Industrial Engineering [2] | |
| I SY E 602 | Special Topics in Human Factors [2] | |

| | | |
|---|---|---|
| I SY E 699 | Advanced Independent Study [2] | |
| I SY E/ PSYCH 859 | Special Topics in Human Factors Engineering [2] | |
| **Sociotechnical Systems / Macroergonomics:** | | |
| Students must complete one of the following courses. | | 3 |
| I SY E 555 | Human Performance and Accident Causation | |
| I SY E 601 | Special Topics in Industrial Engineering [2] | |
| I SY E 602 | Special Topics in Human Factors [2] | |
| I SY E 699 | Advanced Independent Study [2] | |
| I SY E/ PSYCH 854 | Special Topics in Organization Design [2] | |
| **Physical Ergonomics** | | |
| Students must complete one of the following courses. | | 3 |
| I SY E 555 | Human Performance and Accident Causation | |
| I SY E/B M E 564 | Occupational Ergonomics and Biomechanics | |
| I SY E/B M E 662 | Design and Human Disability and Aging | |
| I SY E 601 | Special Topics in Industrial Engineering [2] | |
| I SY E 602 | Special Topics in Human Factors [2] | |
| I SY E 699 | Advanced Independent Study [2] | |
| I SY E/ PSYCH 854 | Special Topics in Organization Design [2] | |
| **Seminar / Special Topics in Human Factors** | | |
| HFE 700+ Seminar/Special Topics Course Requirement [3] | | 12 |
| I SY E 961 | Graduate Seminar in Industrial Engineering | 3 |

1 These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

2 Topics vary for this course. Obtain advance approval from your faculty advisor.

3 HFE 700+ Seminar/Special Topics Course Requirement: Prior to completion of the PhD Preliminary Exam (typically 3rd – 4th year of PhD program), Human Factors PhD students must complete at least six seminar / special topics courses totaling a minimum of at least 12 credits.

- All courses must be numbered 700 and above
- At least 3 of the courses must be in the Human Factors and Ergonomics area (totaling in at least 6 credits)
- Students may use courses numbered 700 and above level seminar/special topics courses also as breadth courses if courses are not Human Factors focused
- Other courses may qualify. Students should consult with advisor for approval and if questions. Students may submit courses to the HFE Area Convenor (https://intranet.engineering.wisc.edu/industrial-systems-engineering/current-student-resources/phd-qualifying-exam-policies-and-guidelines/#human-factors-and-ergonomics) for consideration also.

## POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions*

With faculty advisor and the Associate Chair of Graduate Affairs approval, students are allowed to transfer up to 19 credits of graduate coursework from other institutions toward the minimum graduate degree credit requirement and the minimum graduate coursework (50%) requirement. No credits can be counted towards the minimum graduate residence requirement. Coursework earned ten or more years prior to admissions to a doctoral degree is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison*

Credits are not allowed for the graduate residence credit requirement but students can transfer up to 6 credits from another institution or coursework numbered 300 or above from the undergraduate career completed at UW-Madison toward the graduate degree credit requirement. Transfer credits from other institutions must be equivalent to the rigor of UW-Madison courses numbered 300 and above. The 50% graduate coursework requirement can only be met by courses numbered 700 or above. Coursework earned ten or more years prior to admissions to a doctoral degree is not allowed to satisfy requirements.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)*

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison*

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

*Prior coursework may be applied toward the breadth requirement (including courses taken as an undergraduate), but requires program approval and includes a review of the course title and syllabus.

## PROBATION

### Criteria for Satisfactory Progress

- Cumulative and semester GPA of at least 3.0 are required. A graduate course in which a grade of D or below is received will not be counted as credit toward the graduate degree. These courses will be included in the calculation of the DSGPA and DCGPA, however. Thesis research grades must be P or S to be making satisfactory academic progress. The following courses are excluded from GPA calculations for this purpose: English for international students, courses numbered lower

than 300 in any department, courses numbered 300 in the ISyE department.

- All students are admitted as full-time students unless otherwise noted in writing prior to the start of their program. Full-time students are expected to satisfy the Graduate School requirements for full-time status during all regular semesters in residence unless they have already passed the PhD preliminary examination. Students must have prior written approval from the academic affairs cluster to become part-time students. No special credit load requirements are imposed on approved part-time students.
- PhD students must complete qualifying exam, preliminary exam and final defense within the time constraints specified in the section above.
- PhD students are expected to make consistent progress toward their dissertation appropriate for their year of study. Satisfactory research progress is determined by the PhD student's faculty advisor. Unsatisfactory progress will be communicated to the student by their faculty advisor, and can be done via the annual assessment of student progress, by giving the student a grade of "U" in a research course, or by a written letter.
- Graduate students are expected to meet academic and professional conduct standards, as described in the Industrial and Systems Engineering (ISyE) Graduate Handbook. This includes, but is not limited to, behaving in a professionally ethical manner, contributing to a positive work culture, and conducting research ethically.
- Graduate students with assistantship positions (RA, TA, or PA) must adequately perform the responsibilities associated with their position, as determined by the supervisor of the position.

### Procedures in the case a student is not making satisfactory progress

- If a graduate student fails to meet satisfactory progress as defined by any of the criteria outlined above, a review committee will be formed to review the circumstances and the student's record, taking input from the student. The review committee will consist of the student's faculty advisor and two other Industrial and Systems Engineering (ISyE) faculty members appointed by the Associate Chair for Graduate Affairs.
- The review committee will review the student's record and determine if the student is making satisfactory progress. If the student is determined to not be making satisfactory progress, the committee will also decide whether the student should be placed on probation, or in exceptional cases (such as severe professional misconduct or academic misconduct as determined in accordance with UWS 14.04) be immediately removed from the Industrial and Systems Engineering (ISyE) graduate program and have their funding guarantee removed. In case that a student is put on probation, the committee will provide the student with a written explanation of what is required in order for the probation to be lifted, and in what time frame the requirements must be met.
- Failure to qualify for removal from probation after being on probation for a semester will lead to the removal of a PhD student's funding guarantee.
- A request to appeal the review committee decision must be made by the student to the department chair within 10 days of receiving the decision. The appeal will be reviewed by the Academic Affairs Cluster.

### Probation

- The probationary status of each student will be reviewed at the end of each regular semester. A student placed on Probation who fails to qualify for removal of probation at the next review of his or her probationary status will not be permitted to continue graduate studies in the Industrial Engineering Department, and any funding guarantee made to the student by the department is removed.
- At the end of a semester when a student is on probation a committee will determine if the student is qualified for removal of probationary status. The committee will include the Associate Chair for Graduate Affairs and two other faculty members appointed by the Associate Chair.

## ADVISOR / COMMITTEE

Refer to the Graduate School: Advisor (https://policy.wisc.edu/library/UW-1232/) and Graduate School: Committees (Doctoral/Master's/MFA) (https://policy.wisc.edu/library/UW-1201/) policies.

Graduate students should always seek advice from their advisor prior to enrolling for courses.

Many PhD students are assigned a faculty advisor when they are admitted to the program, based on a match between their research interests and those of the assigned advisor. Some PhD students are not initially matched to a faculty advisor for their research when admitted. Such students are advised by the Associate Chair for Graduate Affairs in their first year. During their first year, these students explore research possibilities with different faculty in the department and choose a faculty advisor by the end of the first year.

Changing advisors during the graduate program may be necessary due to changes in a student's interests or changes in the funding sources for their support. Students should discuss an advisor change with the faculty in their interest area and request a change of advisor with the Industrial and Systems Engineering (ISyE) Graduate Advisor in the Graduate Student Services in first floor Wendt Commons.

### PhD Committee

Attainment of a PhD degree requires the preparation of a thesis on a research topic selected by the student and their advisor. Once a research project is selected, the student must choose his or her thesis committee. The Industrial and Systems Engineering (ISyE) Graduate Program requires the thesis committee shall consist of at least four members for the Preliminary Exam Committee and at least four members for the Final Ph.D. Defense Committee including:

- The Committee Chair (the student's primary advisor). The Committee Chair must be an Industrial and Systems Engineering (ISyE) faculty. Emeritus faculty cannot serve as the Committee Chair.
- Three other graduate faculty members or former UW-Madison graduate faculty up to one year after resignation or retirement with two faculty members having their tenure home in Industrial and Systems Engineering (ISyE).
- All Committee members are required to be readers.
- The dissertation committee must consist of at least 4 members and meet the requirements set forth by the Graduate School, including for example, at least one of the members of the committee must be from a UW-Madison program outside the Industrial and Systems Engineering Department.
- Committee members may be from any of the following categories: graduate faculty, faculty from a department without a graduate program, academic staff (including emeritus faculty), visiting faculty, faculty from other institutions, scientists, research associates, and other individuals deemed qualified by the executive committee (or its equivalent).

## CREDITS PER TERM ALLOWED

Enrollment of 12 credits or less recommended. (Full time status considered 8-12 credits).

## DISSERTATION ENROLLMENT

Refer to Graduate School Enrollment Requirement Policy (https://policy.wisc.edu/library/UW-1208/)

PhD Students in dissertator status must enroll in exactly 3 graded graduate credits during the fall and spring semesters. At their discretion, advisors may require 1 credit of 990 or an equivalent research course under their direction included in those 3 credits. It is very important that you speak with your advisor soon to find out if they will require the one credit of research so you can make any desired adjustments to your enrollment during the first week of classes. If your advisor will not require one research credit, you are free to enroll in any three-credit course if it is numbered above 300 and not audited or taken as pass/fail. If your advisor does require the one credit of research, you can choose to take all three credits as research. Or you may take the one credit of research and enroll in a two-credit course or in two, one- credit courses. Note this flexibility does not allow for the addition of a minor or certificate, as dissertators may not pursue an additional academic credential.

## TIME LIMITS

The qualifying examination requirement must be satisfied by the end of the fifth semester of enrollment after entering any UW-Industrial and Systems Engineering (ISyE) graduate program (including UW-Industrial and Systems Engineering (ISyE) masters' programs).

The preliminary exam must be completed within 4 years of entering any Industrial and Systems Engineering (ISyE) graduate program (including UW-Industrial and Systems Engineering (ISyE) masters' programs), and within 3 years of passing the qualifying exam.

The dissertation defense must be completed either within two years after passing the preliminary exam or by the end of the 6th year in the graduate program, whichever is later.

Exceptions to these time limits may be granted by appeal to the Academic Affairs Cluster through a petition process at least two months before the defense.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

### Grievance Procedures: Industrial and Systems Engineering

If a graduate student feels unfairly treated or aggrieved by faculty, staff, or another student, the University offers several avenues to resolve the grievance. Student's concerns about unfair treatment are best handled directly with the person responsible for the objectionable action. If the student is uncomfortable making direct contact with the individual(s) involved, they should contact the advisor or the person in charge of the unit where the action occurred (program or department chair, section chair, lab manager, etc). Many departments and schools/colleges have established specific procedures for handling such situations; check their web pages and published handbooks for information. If such procedures exist at the local level, these should be investigated first. For more information, see the College of Engineering Policies and Procedures (https://engineering.wisc.edu/report-an-incident/academic-grievances-and-complaints/). The Assistant Dean for Graduate Affairs (engr-dean-graduateaffairs@engr.wisc.edu) provides overall leadership for graduate education in the College of Engineering (CoE), and is a point of contact for graduate students who have concerns about education, mentoring, research, or other difficulties.

Procedures for handling graduate student grievances against ISyE faculty, staff, or students:

1. The student is encouraged to speak first with the person toward whom the grievance is directed to see if a situation can be resolved at this level.

2. Should a satisfactory resolution not be achieved, the student should contact the Associate Chair for Graduate Affairs, to discuss the grievance. The Associate Chair will facilitate problem resolution through informal channels and facilitate any complaints or issues of students. The first attempt is to help students informally address the grievance prior to any formal complaint. Students are also encouraged to talk with their faculty advisors regarding concerns or difficulties, if necessary. University resources for sexual harassment, discrimination, disability accommodations, and other related concerns can be found on the UW Office of Compliance website (https://compliance.wisc.edu/).

3. If the issue is not resolved to the student's satisfaction, the student can submit the grievance to the Grievance Advisor, which may be either the Associate Chair for Graduate Affairs or the Department

Chair, as chosen by the student. The grievance should be submitted in writing, within 60 calendar days of the alleged unfair treatment.

4. On receipt of a written complaint, the Grievance Advisor will form a faculty committee that will review the complaint and gather further information as necessary from the filer of the complaint and other parties involved (including the party toward whom the complaint is directed).
5. The faculty committee will determine a decision regarding the grievance. The Grievance Advisor will report on the action taken by the committee in writing to both the student and the party toward whom the complaint was directed within 15 working days from the date the complaint was received.
6. At this point, if either party (the student or the person toward whom the grievance is directed) is unsatisfied with the decision of the faculty committee, the party may file a written appeal to the College of Engineering Assistant Dean for Graduate Affairs (engr-dean-graduateaffairs@engr.wisc.edu). Either party has 10 working days to file a written appeal to the School/College.
7. Documentation of the grievance will be stored for at least 7 years. Significant grievances that set a precedent will be stored indefinitely.
8. The Graduate School has procedures for students wishing to appeal a grievance decision made at the school/college level. These policies are described in the Graduate School Academic Policies and Procedures - Grievances & Appeals (https://grad.wisc.edu/documents/grievances-and-appeals/).

# PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

## GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## PROGRAM RESOURCES

### The Individual Development Pl (https://grad.wisc.edu/pd/idp/)an (https://grad.wisc.edu/pd/idp/)

An Individual Development Plan helps with self-assessment, planning, and communication:

- An IDP can help you communicate your professional development and career planning needs and intentions to others including your mentor, which can lead to helpful advice and resources.
- You can use the IDP to make sure you and your mentor's expectations are clearly outlined and in agreement so that there are no big surprises, particularly at the end of your training.
- The current job market is challenging and research has shown that individuals who perform structured career planning achieve greater career success and satisfaction.

The onus to engage in the IDP process is on you – although your mentor, PI, or others may encourage and support you in doing so. The IDP itself remains private to you, and you choose which parts to share with which mentors. Through the IDP process, you may decide to identify various mentors to whom you can go for expertise and advice.

### Engineering Career Services (https://ecs.wisc.edu/)

Julie Rae, Assistant Director for Graduate Student Career Services

Graduate students in all Engineering programs

### UW Writing Ce (http://writing.wisc.edu/)nter (http://writing.wisc.edu/)

**Location:** 6171 Helen C. White Hall

**Phone:** (608) 263-1992

The UW Writing Center provides free face-to-face and online consultations that focus on a number of different writing scenarios (i.e. drafts of course papers, resumes, reports, application essays, cover letters, theses, etc.). Writing Center instructors will not edit or proofread papers; instead, their goal is to teach students to edit and proofread on their own in order to become better, more confident writers.

# LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Demonstrate an extraordinary, deep understanding of mathematical, scientific, and engineering principles in the field
2. Demonstrate an ability to formulate, analyze, and independently solve advanced engineering problems
3. Apply the relevant scientific and technological advancements, techniques, and engineering tools to address these problems
4. Recognize and apply principles of ethical and professional conduct
5. Demonstrate an ability to synthesize knowledge from a subset of the biological, physical, and/or social sciences to help frame problems critical to the future of their discipline
6. Demonstrate an ability to conduct original research and communicate it to their peers

# INFORMATION SCHOOL

## DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

## DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

- Information, MS (p. 1090)
- Information, PhD (p. 1102)
- Library and Information Studies, MA (p. 1107)
- Print Culture History, Doctoral Minor (p. 1121)

# INFORMATION, MS

The master's degree at the Information School (iSchool) prepares graduates to develop, provide, and assess information and data services that create, collect, organize, store, analyze, find, distribute, and use information and data in a diverse, technological, and global society. The program prepares information professionals to work in three broad, overlapping areas of the information professions.

**User Experience Design:** Graduates obtain employment in user experience design, interaction design, usability testing, systems analysis and project management, IT training, educational technology support, digital asset management and curation, and content management.

**Data Analytics/Data Management:** The Analytics and Data Management concentration will give you a strong foundation in analytical techniques and tools including data mining, data visualization, and applied statistics. You will gain expertise with Python based tools and may gain experience with R software. Additional electives in data governance and text mining are available.

**Human Factors in Cybersecurity:** The Human Factors in Cybersecurity concentration will develop skills in understanding, preventing, and responding to cyber attacks while also providing a strong foundation to understand the role that humans play in cybersecurity and privacy. You will gain expertise in psychology for cybersecurity, cybersecurity usability, data privacy, and cybersecurity for high-risk populations. Additional electives in cyber ethics, and law and governance are available.

Full-time students generally complete the program in three academic semesters with summer work; part-time students complete it in three to four years. Students gain hands-on experience as part of their degree through the school's required internship. Students may choose internship settings based on their career goals.

Students interested in the Master of Science in Information should refer to one of the named options:

- Campus Delivered Program (p. 1091)
- Distance Delivered Program (p. 1095)

## ADMISSIONS

## ADMISSIONS

Students apply to the Master of Science in Information through one of the named options:

- Campus Program (p. 1091)
- Online Program (p. 1095) (suspended, will be discontinued)
- Admission to the named option in Research is only available to students currently enrolled in the PhD in Information (https://guide.wisc.edu/graduate/information/information-phd/).

## FUNDING

## FUNDING

### GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## REQUIREMENTS

## MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

## MAJOR REQUIREMENTS

### CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 15 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |

| | |
|---|---|
| Other Grade Requirements | Within the student's total program, one grade of BC or C is allowable in either a required or elective course if it is balanced by a grade of A or AB earned either prior to or concurrently with the unsatisfactory grade. Students receiving a BC or C move into probationary status. A second grade of BC or C or any grade of D or F will normally result in the student being dropped from the program. In addition, a student's graduate-program cumulative grade point average must be maintained at 3.00 or above. |
| Assessments and Examinations | No formal examination is required. |
| Language Requirements | None. |

### REQUIRED COURSES

Select a Named Option (p. 1091) for courses required.

## NAMED OPTIONS

A named option is a formally documented sub-major within an academic major program. Named options appear on the transcript with degree conferral. Students pursuing the Master of Science in Information must select one of the following named options:

View as listView as grid

- **INFORMATION: CAMPUS PROGRAM, MS (P. 1091)**
- **INFORMATION: ONLINE PROGRAM, MS (P. 1095)**
- **INFORMATION: RESEARCH, MS (P. 1099)**

## POLICIES

## POLICIES

Students should refer to one of the named options for policy information:

- Campus Program (p. 1091)
- Online Program (p. 1095)
- Research (p. 1099)

## PROFESSIONAL DEVELOPMENT

## PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

## LEARNING OUTCOMES

1. Integrate concepts from information/data management, digital technologies and human behavior and cultural practices to help address organizational, community or social challenges
2. Use legal or ethical principles to critique data, artificial intelligence, and information management systems or practices
3. Apply principles of information science to organizational data and information management endeavors
4. Use quantitative analysis methodologies and tools to inform decision making
5. Demonstrate professional communications, teamwork, and awareness of culture competencies

# INFORMATION: CAMPUS PROGRAM, MS

This is a named option within the Master of Science Information (p. 1090).

The master's degree at the Information School (iSchool) prepares graduates to develop, provide, and assess information and data services that create, collect, organize, store, analyze, find, distribute, and use information and data in a diverse, technological, and global society. The program prepares information professionals to work in three broad, overlapping areas of the information professions.

**User Experience Design:** Graduates obtain employment in user experience design, interaction design, usability testing, systems analysis and project management, IT training, educational technology support, digital asset management and curation, and content management.

**Data Analytics/Management:** Graduates obtain employment specializing in management of data and information in a variety of organizations with expertise in in knowledge management, digital asset management, data and information governance, prospect research, systems analysis, records management and compliance, research data management and project management, and database development and management.

**Human Factors in Cybersecurity:** The Human Factors in Cybersecurity concentration will develop skills in understanding, preventing, and responding to cyber attacks while also providing a strong foundation to understand the role that humans play in cybersecurity and privacy. You will gain expertise in psychology for cybersecurity, cybersecurity usability, data privacy, and cybersecurity for high-risk populations. Additional electives in cyber ethics, and law and governance are available.

Full-time students generally complete the program in three academic semesters with summer work; part-time students complete it in three to four years. Students gain hands-on experience as part of their degree through the school's required internship. Students may choose internship settings based on their career goals.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | March 1 |
| Spring Deadline | The program does not admit in the spring. |
| Summer Deadline | This program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 2 |

The MS Information admits students to its master's programs once a year for a start in the fall semester. Fall admissions deadlines are as follows:

- Full consideration deadline for iSchool MS Information scholarships is **December 15**.
- Full consideration deadline for admission is **March 1.**
- Applications submitted after the **fall deadline** are considered on a space available basis.

The UW Madison Graduate School requires a bachelor's degree from a regionally accredited US institution, or a comparable degree from an international institution. A minimum undergraduate grade-point average (GPA) of 3.00 (on a 4.00 scale) in the last 60 earned credit hours is required.

Application evaluation criteria include academic abilities, professional promise, leadership and community engagement. An undergraduate program that includes breadth in liberal arts and sciences is required. Any major is acceptable. Prior work experience related to information and computing professions is useful, but is not required.

## INTERNATIONAL STUDENTS

International degree-seeking applicants must prove English proficient. The Information School follows the Graduate School's rules regarding English proficiency exams. See the Graduate School website (https://grad.wisc.edu/apply/requirements/) for updated information.

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM INFORMATION

Students enrolled in this program are not eligible to receive tuition remission from graduate assistantship appointments at this institution.

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# NAMED OPTION REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |

| | |
|---|---|
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 15 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | Within the student's total program, one grade of BC or C is allowable in either a required or elective course if it is balanced by a grade of A or AB earned either prior to or concurrently with the unsatisfactory grade. Students receiving a BC or C move into probationary status. A second grade of BC or C or any grade of D or F will normally result in the student being dropped from the program. In addition, a student's graduate-program cumulative grade point average must be maintained at 3.00 or above. |
| Assessments and Examinations | No formal examination is required. |
| Language Requirements | None. |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Required Core** | | |
| L I S 615 | Systems Analysis and Project Management for Information Professionals | 3 |
| L I S 751 | Database Design for Information Professionals | 3 |
| L I S/ COM ARTS 705 | Introductory Analytics for Decision Making | 3 |
| L I S/CURRIC 620 | Field Project in Library and Information Agencies | 3 |
| L I S 732 | Strategic Information Services | 3 |
| **Breadth Requirement in Ethics** | | |
| All students must complete at least three credits in ethics from the list below. | | 3 |
| L I S 461 | Data and Algorithms: Ethics and Policy (recommended) | |
| L I S 661 | Information Ethics and Policy | |
| **Concentrations** | | |
| At least 9 credits must be taken from among the following approved courses organized by concentration area. Students may mix and match approved courses from across the two different areas. | | 9 |
| *Concentration Area: User Experience/Interaction Design* [1] | | |
| L I S/ COMP SCI 611 | User Experience Design 1 | |
| L I S/ COMP SCI 612 | User Experience Design 2 | |
| L I S/ COMP SCI 613 | User Experience Design 3 | |
| L I S/ COMP SCI 614 | User Experience Design Capstone | |
| *Concentration Area: Analytics and Data Management* [1] | | |
| L I S 706 | Data Mining Planning and Management | |
| L I S 707 | Data Visualization and Communication for Decision Making | |
| L I S 711 | Data Management for Information Professionals | |
| **Electives** | | |
| Up to 3 credits of electives may be taken from the below approved list. | | 0-3 |
| COMP SCI 319 | Data Science Programming I for Research | |
| COMP SCI 570 | Introduction to Human-Computer Interaction | |
| L I S/AFRICAN/ COM ARTS 444 | Technology and Development in Africa and Beyond | |
| L I S/ LEGAL ST 460 | Surveillance, Privacy, and Police Powers | |
| L I S 500 | Code and Power | |
| L I S 501 | Introduction to Text Mining | |
| L I S 510 | Human Factors in Information Security | |
| L I S/ NURSING 517 | Digital Health: Information and Technologies Supporting Consumers and Patients | |
| L I S 640 | Topics in Library and Information Studies | |
| L I S/ LEGAL ST 645 | Intellectual Freedom | |
| L I S 646 | Introduction to Info Architecture and Interaction Design for the Web | |
| L I S/ LEGAL ST 663 | Introduction to Cyberlaw | |
| L I S 875 | Topics in Information Processing and Retrieval | |
| L I S 999 | Independent Reading and Research | |
| I SY E/ PSYCH 349 | Introduction to Human Factors | |
| I SY E 552 | Human Factors Engineering Design and Evaluation | |
| DS 341 | Design Thinking for Transformation | |
| **Total Credits** | | **30** |

[1] These pathways are internal to the program and represent different curricular paths a student can follow to earn this degree. Pathway names do not appear in the Graduate School admissions application, and they will not appear on the transcript.

Contingent on advisor approval, up to 3 credits of coursework from outside the MS Information approved course list can be taken from other UW-Madison departments while the student is matriculated in the MS Information program.

### MA Library and Information Studies Transfers

The program would accept up to 10 credits (1 semester) from students who begin the MA program but then seek to change to the MS Information program. Courses from outside the MS Information approved course list are subject to approval by the advisor and must not exceed the 9 elective credits allowed within the program.

### Other Policy

Students in this program may not take courses outside the prescribed curriculum without faculty advisor and program director approval. Students in this program cannot enroll concurrently in other undergraduate or graduate degree programs.

## POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# NAMED OPTION-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

The program will not accept credits taken outside of UW-Madison to be used toward the degree.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

The program will allow up to 3 credits of approved MS Information or Computer Science coursework taken as an undergraduate to transfer toward the degree. The coursework must be from the approved MS curriculum or approved by an Information School advisor.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

The program will accept up to 10 credits from the iSchool capstone certificate in Digital User Experience Design (UX) or Analytics for Decision Making, if those credits were earned within ten years of admission to the MS degree. All credits must be part of the UX or Analytics certificates.

The program will allow a maximum of 3 Library and Information Studies (L I S (https://guide.wisc.edu/courses/l_i_s/)) credits from the approved MS Information course list, to be completed as a non-matriculated University Special student before entry into the program.

## PROBATION

Registration is not a guarantee of enrollment under conditions of unsatisfactory progress. Students who fall into unsatisfactory progress will have an academic hold placed on their record; they should discuss clearing the hold with their adviser.

1. Good standing: progressing according to standards.
2. Probation: not progressing according to standards but permitted to enroll; potential loss of scholarships.
3. Unsatisfactory progress: not progressing according to standards; not permitted to enroll, dismissal, leave of absence.

A student may be placed on probation or suspended from the Graduate School for low grades or for failing to resolve incompletes in a timely fashion. In special cases the Graduate School permits students who do not meet these minimum standards to continue on probation upon recommendation and support of their advisor.

See iSchool Student Handbook. (https://uwmadison.box.com/s/pkxe92j1zhcqd6yu7pkqc3z2pws2lpke/)

## ADVISOR / COMMITTEE

All continuing students are required to meet with the staff advisor prior to registering for each semester in order to remove registration holds and ensure timely progress towards degree completion. Students may switch advisors at any time by completing a change of advisor form.

## CREDITS PER TERM ALLOWED

15 credits (however, 12 credits are highly encouraged)

## TIME LIMITS

The maximum period for completion of the MS (under special circumstances) is seven calendar years. Contact the department for more information.

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)

- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## L&S POLICY FOR GRADUATE STUDENT ACADEMIC APPEALS

Graduate students have the right to appeal an academic decision related to an L&S graduate program if the student believes that the decision is inconsistent with published policy.

Academic decisions that may be appealed include:

- Dismissal from the graduate program
- Failure to pass a qualifying or preliminary examination
- Failure to achieve satisfactory academic progress
- Academic disciplinary action related to failure to meet professional conduct standards

Issues such as the following cannot be appealed using this process:

- A faculty member declining to serve as a graduate student's advisor.
- Decisions regarding the student's disciplinary knowledge, evaluation of the quality of work, or similar judgements. These are the domain of the department faculty.
- Course grades. These can be appealed instead using the L&S Policy for Grade Appeal (https://kb.wisc.edu/ls/22258/).
- Incidents of bias or hate, hostile and intimidating behavior (https://hr.wisc.edu/hib/), or discrimination (Title IX (https://compliance.wisc.edu/titleix/), Office of Compliance (https://compliance.wisc.edu/eo-complaint/formal-investigations/)). Direct these to the linked campus offices appropriate for the incident(s).

### Appeal Process for Graduate Students

A graduate student wishing to appeal an academic decision must follow the process in the order listed below. Note time limits within each step.

1. The student should first seek informal resolution, if possible, by discussing the concern with their academic advisor, the department's Director of Graduate Studies, and/or the department chair.
2. If the program has an appeal policy listed in their graduate program handbook, the student should follow the policy as written, including adhering to any indicated deadlines. In the absence of a specific departmental process, the chair or designee will be the reviewer and decision maker, and the student should submit a written appeal to the chair within 15 business days of the academic decision. The chair or designee will notify the student in writing of their decision.
3. If the departmental process upholds the original decision, the graduate student may next initiate an appeal to L&S. To do so, the student must submit a written appeal to the L&S Assistant Dean for Graduate Student Academic Affairs within 15 business days of notification of the department's decision.
   a. To the fullest extent possible, the written appeal should include, in a single document: a clear and concise statement of the academic decision being appealed, any relevant background on what led to the decision, the specific policies involved, the relief sought, any relevant documentation related to the departmental appeal, and the names and titles of any individuals contributing to or involved in the decision.
   b. The Assistant Dean will work with the Academic Associate Dean of the appropriate division to consider the appeal. They may seek additional information and/or meetings related to the case.
   c. The Assistant Dean and Academic Associate Dean will provide a written decision within 20 business days.
4. If L&S upholds the original decision, the graduate student may appeal to the Graduate School. More information can be found on their website: Grievances and Appeals (https://grad.wisc.edu/documents/grievances-and-appeals/) (see: Graduate School Appeal Process).

## PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

# INFORMATION: ONLINE PROGRAM, MS

**The Online Program named option in the Information, MS no longer admits new students after Fall 2026 and the program will be discontinued Fall 2029.** If you have any questions, please contact the department (see contact box).

This is a named option within the Master of Science Information.

The master's degree at the Information School (iSchool) prepares graduates to develop, provide, and assess information and data services that create, collect, organize, store, analyze, find, distribute, and use information and data in a diverse, technological, and global society. The program prepares information professionals to work in three broad, overlapping areas of the information professions.

**User Experience Design:** Graduates obtain employment in user experience design, interaction design, usability testing, systems analysis and project management, IT training, educational technology support, digital asset management and curation, and content management.

**Data Analytics/Data Management:** The Analytics and Data Management concentration will give you a strong foundation in analytical techniques and tools, including data mining, data visualization, and applied statistics. You will gain expertise with Python-based tools and may gain experience with R software. Additional electives in data governance and text mining are available.

**Human Factors in Cybersecurity:** The Human Factors in Cybersecurity concentration will develop skills in understanding, preventing, and responding to cyber attacks while also providing a strong foundation to understand the role that humans play in cybersecurity and privacy. You will gain expertise in psychology for cybersecurity, cybersecurity usability, data

privacy, and cybersecurity for high-risk populations. Additional electives in cyber ethics and law and governance are available.

Full-time students generally complete the program in two academic years with summer work; part-time students complete it in three to four years. Students gain hands-on experience as part of their degree through the school's required internship. Students may choose internship settings based on their career goals.

## ADMISSIONS

# ADMISSIONS

**The Online Program named option in the Information, MS no longer admits new students after Fall 2026 and the program will be discontinued Fall 2029.** If you have any questions, please contact the department (see contact box).

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | March 1 |
| Spring Deadline | The program does not admit in the spring. |
| Summer Deadline | This program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 2 |

The MS Information admits students to its master's programs once a year for a start in the fall semester. Fall admissions deadlines are as follows:

- Full consideration deadline for iSchool MS Information scholarships is **February 15**.
- Full consideration deadline for admission is **March 1**.
- Applications submitted after the **fall deadline** are considered on a space available basis.

The UW Madison Graduate School requires a bachelor's degree from a regionally accredited US institution, or a comparable degree from an international institution. A minimum undergraduate grade-point average (GPA) of 3.00 (on a 4.00 scale) in the last 60 earned credit hours is required.

Application evaluation criteria include academic abilities, professional promise, leadership and community engagement. An undergraduate program that includes breadth in liberal arts and sciences is required. Any major is acceptable. Prior work experience related to information and computing professions is useful, but is not required.

### INTERNATIONAL STUDENTS

International degree-seeking applicants must prove English proficiency. The Information School follows the Graduate School's rules regarding English proficiency exams. See the Graduate School website (https://grad.wisc.edu/apply/requirements/) for updated information.

## FUNDING

# FUNDING

### GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

### PROGRAM INFORMATION

Students enrolled in this program are not eligible to receive tuition remission from graduate assistantship appointments at this institution.

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

### Graduate Credits Earned at Other Institutions

The program will not accept credits taken outside of UW-Madison to be used toward the degree.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

The program will allow up to 3 credits of approved MS Information or Computer Science coursework taken as an undergraduate to transfer toward the degree. The coursework must be from the approved MS curriculum, or approved by an Information School advisor.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

The program will accept up to 10 credits from the iSchool capstone certificate in Digital User Experience Design (UX) or Analytics for Decision Making, if those credits were earned within ten years of admission to the MS degree. All credits must be part of the UX or Analytics certificates.

The program will allow a maximum of 3 Library and Information Sutides (L I S (https://guide.wisc.edu/courses/l_i_s/))credits from the approved MS Information course list, to be completed as a non-matriculated University Special student before entry into the program.

## PROBATION

Registration is not a guarantee of enrollment under conditions of unsatisfactory progress. Students who fall into unsatisfactory progress will have an academic hold placed on their record; they should discuss clearing the hold with their adviser.

1. Good standing: progressing according to standards.
2. Probation: not progressing according to standards but permitted to enroll; potential loss of scholarships.
3. Unsatisfactory progress: not progressing according to standards; not permitted to enroll, dismissal, leave of absence.

A student may be placed on probation or suspended from the Graduate School for low grades or for failing to resolve incompletes in a timely fashion. In special cases the Graduate School permits students who do not meet these minimum standards to continue on probation upon recommendation and support of their advisor.

See iSchool Student Handbook. (https://uwmadison.box.com/s/pkxe92j1zhcqd6yu7pkqc3z2pws2lpke/)

## ADVISOR / COMMITTEE

All continuing students are required to meet with the staff advisor prior to registering for each semester in order to remove registration holds and ensure timely progress towards degree completion. Students may switch advisors at any time by completing a change of advisor form.

## CREDITS PER TERM ALLOWED

15 credits (however, 12 credits are highly encouraged)

## TIME LIMITS

The maximum period for completion of the MS (under special circumstances) is seven calendar years. Contact the department for more information.

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)

- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## L&S POLICY FOR GRADUATE STUDENT ACADEMIC APPEALS

Graduate students have the right to appeal an academic decision related to an L&S graduate program if the student believes that the decision is inconsistent with published policy.

Academic decisions that may be appealed include:

- Dismissal from the graduate program
- Failure to pass a qualifying or preliminary examination
- Failure to achieve satisfactory academic progress
- Academic disciplinary action related to failure to meet professional conduct standards

Issues such as the following cannot be appealed using this process:

- A faculty member declining to serve as a graduate student's advisor.
- Decisions regarding the student's disciplinary knowledge, evaluation of the quality of work, or similar judgements. These are the domain of the department faculty.
- Course grades. These can be appealed instead using the L&S Policy for Grade Appeal (https://kb.wisc.edu/ls/22258/).
- Incidents of bias or hate, hostile and intimidating behavior (https://hr.wisc.edu/hib/), or discrimination (Title IX (https://compliance.wisc.edu/titleix/), Office of Compliance (https://compliance.wisc.edu/eo-complaint/formal-investigations/)). Direct these to the linked campus offices appropriate for the incident(s).

### Appeal Process for Graduate Students

A graduate student wishing to appeal an academic decision must follow the process in the order listed below. Note time limits within each step.

1. The student should first seek informal resolution, if possible, by discussing the concern with their academic advisor, the department's Director of Graduate Studies, and/or the department chair.
2. If the program has an appeal policy listed in their graduate program handbook, the student should follow the policy as written, including adhering to any indicated deadlines. In the absence of a specific departmental process, the chair or designee will be the reviewer and decision maker, and the student should submit a written appeal to the chair within 15 business days of the academic decision. The chair or designee will notify the student in writing of their decision.
3. If the departmental process upholds the original decision, the graduate student may next initiate an appeal to L&S. To do so, the student must submit a written appeal to the L&S Assistant Dean for Graduate Student Academic Affairs within 15 business days of notification of the department's decision.
    a. To the fullest extent possible, the written appeal should include, in a single document: a clear and concise statement of the academic decision being appealed, any relevant background on what led to the decision, the specific policies involved, the relief sought, any relevant documentation related to the departmental appeal, and the names and titles of any individuals contributing to or involved in the decision.
    b. The Assistant Dean will work with the Academic Associate Dean of the appropriate division to consider the appeal. They may seek additional information and/or meetings related to the case.
    c. The Assistant Dean and Academic Associate Dean will provide a written decision within 20 business days.
4. If L&S upholds the original decision, the graduate student may appeal to the Graduate School. More information can be found on their website: Grievances and Appeals (https://grad.wisc.edu/documents/grievances-and-appeals/) (see: Graduate School Appeal Process).

## OTHER

MS Information program students are not permitted to accept appointments that would result in a tuition waiver (TA, RA, PA). Also, students in this program cannot enroll in other graduate programs, nor take courses outside the prescribed curriculum without permission of the advisor.

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

## GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

# INFORMATION: RESEARCH, MS

This program does not directly admit students. It is a degree for students admitted into the PhD Information who leave the PhD program without fulfilling all the PhD requirements but who have completed all requirements for the Masters of Science: Research.

## ADMISSIONS

# ADMISSIONS

The MS (named option Research) is offered for work leading to the PhD. Students may not apply directly for this named option, and should instead see the admissions information for the PhD (https://guide.wisc.edu/graduate/information/information-phd/).

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# NAMED OPTION REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 15 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required.<br>Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | Within the student's total program, one grade of BC or C is allowable in either a required or elective course if it is balanced by a grade of A or AB earned either prior to or concurrently with the unsatisfactory grade. Students receiving a BC or C move into probationary status. A second grade of BC or C or any grade of D or F will normally result in the student being dropped from the program. In addition, a student's graduate-program cumulative grade point average must be maintained at 3.00 or above. |
| Assessments and Examinations | No formal examination is required. |
| Language Requirements | None. |

## REQUIRED COURSES

Students in the MS Information: Research named option must complete any 30 credits from the below list of approved courses.

| Code | Title | Credits |
|---|---|---|
| L I S 910 | Ways of Knowing in Information Studies | 3 |
| L I S 925 | Professional Writing and Reading (PWR) Seminar | 1 |
| L I S 931 | Seminar in Information Policy, Management and Institutions | 3 |
| L I S 940 | Seminar in Information Use and Users in Context | 3 |
| L I S 950 | Seminar in LIS Foundations: Histories, Philosophies and Debates | 3 |
| L I S 975 | Seminar in Information Organization and Access | 3 |
| L I S 603 | Research and Assessment for Information Professionals | 3 |
| COM ARTS 762 | Communication Research Methods | 3 |
| JOURN 658 | Communication Research Methods | 4 |
| L I S/ COM ARTS 705 | Introductory Analytics for Decision Making | 3 |

| L I S 999 | Independent Reading and Research | 1-4 |

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# NAMED OPTION-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

The program will not accept credits taken outside of UW-Madison to be used toward the degree.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

The program will allow up to 3 credits of approved MS Information or Computer Science coursework taken as an undergraduate to transfer toward the degree. The coursework must be from the approved MS curriculum or approved by an Information School advisor.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

With program approval, students are allowed to transfer no more than 9 credits of coursework numbered 300 or above taken as a UW–Madison University Special student. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

## PROBATION

Registration is not a guarantee of enrollment under conditions of unsatisfactory progress. Students who fall into unsatisfactory progress will have an academic hold placed on their record; they should discuss clearing the hold with their adviser.

1. Good standing: progressing according to standards.
2. Probation: not progressing according to standards but permitted to enroll; potential loss of scholarships.
3. Unsatisfactory progress: not progressing according to standards; not permitted to enroll, dismissal, leave of absence.

A student may be placed on probation or suspended from the Graduate School for low grades or for failing to resolve incompletes in a timely fashion. In special cases the Graduate School permits students who do not meet these minimum standards to continue on probation upon recommendation and support of their advisor.

See iSchool Student Handbook (https://uwmadison.box.com/s/pkxe92j1zhcqd6yu7pkqc3z2pws2lpke/). (https://ischool.wisc.edu/current-students/ma-requirements-overview/ma-program-planning-guides/)

## ADVISOR / COMMITTEE

All continuing students are required to meet with the staff advisor prior to registering for each semester in order to remove registration holds and ensure timely progress towards degree completion. Students may switch advisors at any time by completing a change of advisor form.

## CREDITS PER TERM ALLOWED

15 credits (however, 12 credits are highly encouraged)

## TIME LIMITS

The maximum period for completion of the MS (under special circumstances) is seven calendar years. Contact the department for more information.

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)

- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## L&S POLICY FOR GRADUATE STUDENT ACADEMIC APPEALS

Graduate students have the right to appeal an academic decision related to an L&S graduate program if the student believes that the decision is inconsistent with published policy.

Academic decisions that may be appealed include:

- Dismissal from the graduate program
- Failure to pass a qualifying or preliminary examination
- Failure to achieve satisfactory academic progress
- Academic disciplinary action related to failure to meet professional conduct standards

Issues such as the following cannot be appealed using this process:

- A faculty member declining to serve as a graduate student's advisor.
- Decisions regarding the student's disciplinary knowledge, evaluation of the quality of work, or similar judgements. These are the domain of the department faculty.
- Course grades. These can be appealed instead using the L&S Policy for Grade Appeal (https://kb.wisc.edu/ls/22258/).
- Incidents of bias or hate, hostile and intimidating behavior (https://hr.wisc.edu/hib/), or discrimination (Title IX (https://compliance.wisc.edu/titleix/), Office of Compliance (https://compliance.wisc.edu/eo-complaint/formal-investigations/)). Direct these to the linked campus offices appropriate for the incident(s).

### Appeal Process for Graduate Students

A graduate student wishing to appeal an academic decision must follow the process in the order listed below. Note time limits within each step.

1. The student should first seek informal resolution, if possible, by discussing the concern with their academic advisor, the department's Director of Graduate Studies, and/or the department chair.
2. If the program has an appeal policy listed in their graduate program handbook, the student should follow the policy as written, including adhering to any indicated deadlines. In the absence of a specific departmental process, the chair or designee will be the reviewer and decision maker, and the student should submit a written appeal to the chair within 15 business days of the academic decision. The chair or designee will notify the student in writing of their decision.
3. If the departmental process upholds the original decision, the graduate student may next initiate an appeal to L&S. To do so, the student must submit a written appeal to the L&S Assistant Dean for Graduate Student Academic Affairs within 15 business days of notification of the department's decision.
    a. To the fullest extent possible, the written appeal should include, in a single document: a clear and concise statement of the academic decision being appealed, any relevant background on what led to the decision, the specific policies involved, the relief sought, any relevant documentation related to the departmental appeal, and the names and titles of any individuals contributing to or involved in the decision.
    b. The Assistant Dean will work with the Academic Associate Dean of the appropriate division to consider the appeal. They may seek additional information and/or meetings related to the case.
    c. The Assistant Dean and Academic Associate Dean will provide a written decision within 20 business days.
4. If L&S upholds the original decision, the graduate student may appeal to the Graduate School. More information can be found on their website: Grievances and Appeals (https://grad.wisc.edu/documents/grievances-and-appeals/) (see: Graduate School Appeal Process).

# PROFESSIONAL DEVELOPMENT

## PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

# INFORMATION, PHD

The PhD in Information at the UW–Madison Information School (iSchool) cultivates a cooperative, supportive intellectual environment through which highly qualified students pursue doctoral studies. With a breath of faculty expertise, and a flexible curriculum, the iSchool supports computational, social science, and humanities-oriented PhD studies.

PhD students develop close working relationships with faculty members, receive strong and consistent advising, and meet regularly together as a cohort throughout their coursework. The program and its faculty provide structure through which students conduct original research and prepare results for presentation and publication in scholarly conferences and journals. iSchool faculty members work closely with PhD students on joint projects as well as supporting students' independent projects.

As part of an internationally top-ranked research university, the iSchool offers students the opportunity to engage in the rich variety of educational experiences both within the school and in the broader University of Wisconsin–Madison campus.

Admitted students receive financial support including tuition remission, a stipend, and funds for research support including travel. The program encourages students to explore both academic and industry career opportunities.

For more information, including instructions on admissions, please see the iSchool PhD program webpage. (https://ischool.wisc.edu/programs/phd-program/)

To see the research interests and expertise of iSchool faculty members, please refer to the iSchool Faculty Research Page (https://ischool.wisc.edu/faculty-staff-directory/research/).

## RESIDENCE AND COMMUNITY

The iSchool PhD program is a residential program. Students must be able to attend classes in person at UW–Madison for at least three years. Most students continue to live near Madison as they research and write their dissertations. Four to five years of full-time study is typical for students to complete the degree. The school strongly prefers full-time PhD students.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 1 |
| Spring Deadline | The program does not admit in the spring. |
| Summer Deadline | The program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

## APPLICATION REQUIREMENTS

PhD admissions at the Information School requires a GPA of 3.0 (on a 4.0 scale) or better in the last 60 hours of academic credit earned; a detailed written statement of the area of research interest, fit with current faculty and the purpose for pursuing doctoral study; and an interview (usually a phone interview) with the school's PhD committee or other faculty members serving on the committee's behalf. International degree-seeking applicants must prove English proficiency using the Graduate School's requirements (https://grad.wisc.edu/apply/requirements/).

For more information, including detailed instructions for submitting an application, see this link (https://ischool.wisc.edu/programs/phd-program/).

### Grade Point Average (GPA)

Applicants whose GPA falls below the required level must provide other evidence of academic ability. Advice on the type of evidence appropriate to the applicant should be requested from the administrator of the doctoral program.

### Admissions Committee

Applicant qualifications for admission will be reviewed by the School's PhD committee, which will make an admissions recommendation to the director who, in turn, makes a recommendation to the Graduate School.

The criteria used in this review include academic promise, the probability that the School's doctoral program will meet the goals and research interests of the applicant, and that the applicant will be able to complete the program successfully. Under certain circumstances, admission may be approved on a probationary basis or with deficiencies. Students will not normally be permitted to continue longer than the first year on probation. For more information see the PhD program admissions page.

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 51 credits |
| Minimum Residence Credit Requirement | 32 credits |
| Minimum Graduate Coursework Requirement | 26 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.50 GPA required. |
| Other Grade Requirements | To remain in good academic standing within the iSchool PhD program, a student must maintain a 3.5 overall GPA, not carry any incomplete grades in courses (other than 999s) for more than 1 semester and pass all mastery demonstration paper deadlines by appointed deadlines. |
| Assessments and Examinations | Each student is required to fulfill a research and teaching practica (with exceptions for RAs, PA's and TA's). Students will demonstrate mastery of subject areas and research skills through two mastery demonstration papers and a program portfolio. Presentation and successful defense of a program portfolio and preliminary proposal constitutes the preliminary examination. Successful defense of the program portfolio and preliminary proposal constitutes formal acceptance into candidacy for the PhD degree. |
| Language Requirements | No language requirements. Coursework in a foreign language may be required if necessary for completing research activities. |
| Graduate School Breadth Requirement | All doctoral students are required to complete a doctoral minor or graduate/professional certificate. Refer to the Graduate School: Breadth Requirement in Doctoral Training policy: https://policy.wisc.edu/library/UW-1200 (https://policy.wisc.edu/library/UW-1200/). |

## REQUIRED COURSES

Courses numbered 300-600 should be taken sparingly and must be approved by the student's advisor. The minimum credits required include dissertator credits.

| Code | Title | Credits |
|---|---|---|
| **Core Required Courses** | | |
| Students must complete the following courses. | | |
| L I S 910 | Ways of Knowing in Information Studies | 3 |
| L I S 925 | Professional Writing and Reading (PWR) Seminar [1] | 4 |
| **Seminars** | | |
| Students must take a minimum of 6 credits from the list below: | | 6 |
| L I S 931 | Seminar in Information Policy, Management and Institutions | |
| L I S 940 | Seminar in Information Use and Users in Context | |
| L I S 950 | Seminar in LIS Foundations: Histories, Philosophies and Debates | |
| L I S 975 | Seminar in Information Organization and Access | |
| **Research Requirement** | | |
| Students must complete a minimum of 6 credits. | | |
| L I S 990 | Research and Thesis | 1-9 |
| **Breadth Requirements** | | |
| Students must complete 9 credits of breadth requirements, with a minimum of 3 credits in each of 3 breadth areas. | | |
| *Breadth Area 1: Introductory Research Design, Thinking, Methods* | | *3* |
| COM ARTS 762 | Communication Research Methods | |
| JOURN 658 | Communication Research Methods | |
| *Breadth Area 2: Statistics/Numerical Literacy OR Working with Digital Data* | | *3* |
| L I S/ COM ARTS 705 | Introductory Analytics for Decision Making | |
| STAT 371 | Introductory Applied Statistics for the Life Sciences | |
| SOC/ C&E SOC 360 | Statistics for Sociologists I | |
| SOC 362 | Statistics for Sociologists III | |
| ED PSYCH 760 | Statistical Methods Applied to Education I | |
| ED PSYCH 761 | Statistical Methods Applied to Education II | |
| COMP SCI 319 | Data Science Programming I for Research | |
| SOC/ C&E SOC 365 | Data Management for Social Science Research | |
| L I S 768 | Digital Humanities Analytics | |
| ELPA 823 | Data Management for Education Policy Analysis | |
| ED PSYCH 551 | Quantitative Ethnography | |
| STAT 303 | R for Statistics I | |
| STAT 304 | R for Statistics II | |
| STAT 305 | R for Statistics III | |
| *Breadth Area 3: Pedagogy and Teaching* | | *3* |
| L I S 639 | Pedagogical Theory and Practice for Information Professionals | |
| CURRIC 818 | Teaching Controversial Issues | |
| CURRIC 844 | Culturally Relevant Pedagogy | |
| **Specialization** | | |
| Students must complete a minimum of 12 credits in their area of specialization. Courses must be relevant to the student's program of study but may be internal or external to the Information School. Courses should be chosen in consultation with their advisor or the PhD program chair and must meet all Graduate School requirements. | | 12 |
| **Graduate School Breadth** | | |

| | |
|---|---|
| Breadth requires that students take a minimum of 9 credits outside of the Information School. Courses must meet Graduate School breadth requirements. Students interested in an Option A minor should initiate contact and seek approval from the minor department. | 9 |
| **Total Credits** | **51** |

[1] Students must take this 1 credit seminar six times before becoming a dissertator. The seminar provides foundational knowledge for becoming a researcher.

### Students who have previously completed the Library and Information Studies MA or Information MS

Students should work with the PhD program advisor to determine which courses taken as a master's student fulfill requirements for the Information School PhD or would be appropriate electives for the PhD. Not all coursework will be approved. Information School master's degree graduates who are accepted into the Information School PhD program may apply to count up to 10 qualified credits from their Information School master's degree toward their PhD. Qualified courses include Information School PhD seminars (numbered 900), other courses that fulfill PhD program requirements, or approved electives.

### Students who have previously completed another UW-Madison graduate program

Students should work with the PhD program advisor to determine which courses taken as a master's student fulfill requirements for the Information School PhD or would be appropriate electives for the PhD. Not all coursework will be approved.

## POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

Students may transfer up to 9 credits of approved graduate coursework from other institutions. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

A student may request that the Information School PhD program consider up to seven credits numbered 300 or above of undergraduate work completed at UW–Madison towards fulfillment of minimum degree and minor credit requirements. Credits earned at other institutions are not permitted.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

Students are allowed to count up to 9 approved credits of coursework numbered 300 or above taken as a UW–Madison University Special student. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

## PROBATION

Students who fail to meet any of the assessment criteria as described in the Doctoral Program Student Handbook will receive a letter of warning from the PhD program director placing them on probationary status. They will have one additional semester (not including summer) to change their status. If they do not successfully change their status, they will be asked to leave the program. If students do not expect to successfully change their status within the probationary semester, they can request that the PhD committee grant a probation extension; however, an extension will be granted only if the student can prove likelihood of success in the upcoming semester. The student should send a letter asking for an extension and providing evidence of likelihood of success to the PhD program director.

## ADVISOR / COMMITTEE

The Information School PhD Committee serves as the Progress Evaluation Committee for doctoral students. Upon admission, the PhD committee chair serves as the default advisor for all students. At any point, the student may switch to a major professor/advisor based on similarities in research interests.

## CREDITS PER TERM ALLOWED

8 to 12 credits in a regular semester is considered full time at the graduate level. Course load maximums are 15 credits in a regular semester, 12 credits in the summer term and 3 credits in the intersession.

## TIME LIMITS

Completion of the degree should be within a three- to four-year period beyond earning the master's degree.

A candidate for a doctoral degree who fails to take the final oral examination and deposit the dissertation within five years after passing their program portfolio and statement of intent may be required to take additional coursework, redefend their program portfolio and statement of intent, and to be admitted to candidacy a second time.

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)

- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## L&S POLICY FOR GRADUATE STUDENT ACADEMIC APPEALS

Graduate students have the right to appeal an academic decision related to an L&S graduate program if the student believes that the decision is inconsistent with published policy.

Academic decisions that may be appealed include:

- Dismissal from the graduate program
- Failure to pass a qualifying or preliminary examination
- Failure to achieve satisfactory academic progress
- Academic disciplinary action related to failure to meet professional conduct standards

Issues such as the following cannot be appealed using this process:

- A faculty member declining to serve as a graduate student's advisor.
- Decisions regarding the student's disciplinary knowledge, evaluation of the quality of work, or similar judgements. These are the domain of the department faculty.
- Course grades. These can be appealed instead using the L&S Policy for Grade Appeal (https://kb.wisc.edu/ls/22258/).
- Incidents of bias or hate, hostile and intimidating behavior (https://hr.wisc.edu/hib/), or discrimination (Title IX (https://compliance.wisc.edu/titleix/), Office of Compliance (https://compliance.wisc.edu/eo-complaint/formal-investigations/)). Direct these to the linked campus offices appropriate for the incident(s).

### Appeal Process for Graduate Students

A graduate student wishing to appeal an academic decision must follow the process in the order listed below. Note time limits within each step.

1. The student should first seek informal resolution, if possible, by discussing the concern with their academic advisor, the department's Director of Graduate Studies, and/or the department chair.
2. If the program has an appeal policy listed in their graduate program handbook, the student should follow the policy as written, including adhering to any indicated deadlines. In the absence of a specific departmental process, the chair or designee will be the reviewer and decision maker, and the student should submit a written appeal to the chair within 15 business days of the academic decision. The chair or designee will notify the student in writing of their decision.
3. If the departmental process upholds the original decision, the graduate student may next initiate an appeal to L&S. To do so, the student must submit a written appeal to the L&S Assistant Dean for Graduate Student Academic Affairs within 15 business days of notification of the department's decision.
    a. To the fullest extent possible, the written appeal should include, in a single document: a clear and concise statement of the academic decision being appealed, any relevant background on what led to the decision, the specific policies involved, the relief sought, any relevant documentation related to the departmental appeal, and the names and titles of any individuals contributing to or involved in the decision.
    b. The Assistant Dean will work with the Academic Associate Dean of the appropriate division to consider the appeal. They may seek additional information and/or meetings related to the case.
    c. The Assistant Dean and Academic Associate Dean will provide a written decision within 20 business days.
4. If L&S upholds the original decision, the graduate student may appeal to the Graduate School. More information can be found on their website: Grievances and Appeals (https://grad.wisc.edu/documents/grievances-and-appeals/) (see: Graduate School Appeal Process).

## OTHER

A complete set of Information School PhD program policies can be found in the PhD program planning guide on the iSchool PhD program website. (https://ischool.wisc.edu/programs/phd-program/)

# PROFESSIONAL DEVELOPMENT

## PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

# LEARNING OUTCOMES

## LEARNING OUTCOMES

1. Add to existing bodies of theory, scholarship, or scientific knowledge through critique, testing or extension in scholarly output.
2. Demonstrate mastery of statistical, computational, and digital data collection and analysis methodologies.
3. Employ scholarly methodologies and tools appropriate to areas of study to inform research.
4. Demonstrate scholarly communication skills both orally and in writing.
5. Engage in service contributions as appropriate to profession and field of study.
6. Demonstrate teaching skills and experience including cultural competency training.

# LIBRARY AND INFORMATION STUDIES, MA

The ALA-accredited master's degree at the Information School (iSchool) prepares graduates to develop, provide, and assess information services that create, collect, organize, store, analyze, find, distribute, and use information in a diverse, technological, and global society. The program prepares information professionals to work in multiple areas of the information professions, including libraries (public, university and college, youth services, special, and government), archives, digital librarianship (which includes user experience and data analytics/management), and information organization. Students can tailor their program to include other emphases such as Tribal Libraries, Archives and Museums, social justice, and digital humanities.

**Librarianship:** Graduates obtain employment in college and university librarianship, public librarianship, youth and young adult librarianship, electronic collections management, science and health librarianship, research data management, and school library media centers.

**Archives in a Digital Age**: Graduates obtain employment in digital asset management, digital preservation and curation, digital archives, corporate archives, government archives, special collections, and tribal libraries archives and museums.

**Digital Libraries:** Design, develop, and manage information technologies with a focus on the user. Potential jobs include user experience and web design, digital humanities, digital asset management and curation, database and data management, and IT training/instruction.

**Organization of Information:** Graduates obtain employment in metadata management, taxonomy and ontology development and implementation, digital asset management, cataloging, XML and linked data, and database management.

Full-time students generally complete the master's program in two academic years; part-time students complete it in three to four years. Students gain hands-on experience as part of their degree through the school's required field practicum. Students may choose practicum settings based on their career goals.

## NAMED OPTIONS

Students interested in the Master of Arts in Library and Information Studies should refer to one of the named options:

- Campus Program (p. 1109)
- Online Program (p. 1115)

## OPTIONAL SPECIALIZATIONS

The Information School hosts several specializations that require specific coursework from other departments or other requirements.

**Business School Graduate/Professional Certificate in Strategic Innovation:** The Information School offers a specialization in information innovation and organizational change in conjunction with the School of Business graduate/professional certificate (p. 1312) which can be completed as part of the school's MA degree (on-campus program only).

**Certificate in Leadership:** iSchool students can earn the UW–Madison Certificate in Leadership (https://cfli.wisc.edu/leadership-certificate/) as part of their Information School MA degree (on-campus and online programs).

**Double degrees:** The iSchool offers double degrees with the UW Law School, the School of Music, and the Department of Art History. These require separate admissions and additional coursework. (on-campus program only)

**School Library Media Specialist License:** The School Library Media Specialist License in the State of Wisconsin is a stand-alone teaching license. The iSchool MA program can be modified to provide candidates with the educational requirements for the license taken in addition to the MA courses. Candidates already holding a valid Wisconsin teaching license can be endorsed for the School Library Media Specialist through the iSchool MA program. UW–Madison is part of the UW System School Library Education Consortium (UWSSLEC), which is a certification-only program. Because each state has its own regulations for teacher licenses, this specialization is available to Wisconsin residents or those who will be working in Wisconsin schools only.

Online students (distance degree option) should note: Specialized courses in art, music, law, and school library media specialist, as well as courses offered outside the Information School that may be part of concentrations, specializations, or double degrees, are generally not available online. For a distance student with academic background in one of these areas, combining the general Information School degree with the specialized background may be the best preparation.

The Information School master's program is accredited by the American Library Association, recognized by the Wisconsin Division for Libraries, Technology, and Community Learning for certification of public librarians, and recognized by the state's Department of Public Instruction for preparation of school library media specialists.

## ABOUT THE INFORMATION SCHOOL

### PROGRAMS

The UW–Madison Information School, "the iSchool," is a professional school offering several degrees and non-credit education that prepare students for careers in the information professions:

- The iSchool MA degree (https://ischool.wisc.edu/programs/ma-library-information-studies/) is a professional master's that prepares information professionals to work in multiple areas of the information professions, including libraries (public, university and college, youth services, special, and government), archives, digital librarianship (which includes user experience and data analytics/management), and information organization. Students can tailor their program to include other emphases such as Tribal Libraries, Archives and Museums, social justice, and digital humanities.
- The Capstone Certificate in User Experience Design (https://ischool.wisc.edu/programs/uxcapstone/) is an educational credential aimed at working adults who seek further education to advance their careers or move into new fields without the commitment of a full master's degree. See the Capstone Certificate Guide page here (https://guide.wisc.edu/nondegree/capstone/user-experience-design-capstone-certificate/).
- The PhD degree (https://ischool.wisc.edu/programs/phd-program/) provides advanced academic preparation for those wishing to pursue careers in academia, industrial research, or policymaking. See the PhD Guide page here (p. 1102).

- The Undergraduate Digital Studies Certificate (https://guide.wisc.edu/undergraduate/letters-science/communication-arts/digital-studies-certificate/) provides undergraduate coursework in information technologies and society and information management. See the Undergraduate Certificate Guide page here (https://guide.wisc.edu/undergraduate/letters-science/communication-arts/digital-studies-certificate/).
- The iSchool offers non-credit continuing education short courses (https://ischool.wisc.edu/continuing-education/) that help information professionals stay up to date.

### COMMUNITY

The Information School at UW–Madison is well known for its public-good, community-engagement orientation (https://ischool.wisc.edu/slis/community-engagement/). It is home to student organizations that shepherd information-justice projects including the Jail Library Group, the Tribal Library Archives and Museums Group, and the KidsLib and Beyond Group. Student groups at the iSchool (https://ischool.wisc.edu/student-experience/student-organizations/) are very active and organize and sponsor events.

The CDIS Commons Library (https://www.library.wisc.edu/ischool/) The Rebecca M. Blank Commons is a welcoming and inclusive environment that supports the advancement of learning, research, teaching, and outreach across the disciplines of Computer, Data, and Information Sciences with state-of-the-art spaces, services, and resources. The Commons Library features typography and letterpress printing equipment for teaching and learning in book history, book arts, design, art, and making. After completion of training with continued good stewardship of materials, students can operate the press for independent or student org letterpress print projects.

### RESEARCH & SCHOLARSHIP

The Information School faculty are known for scholarly work in the areas of:

- Data and information policy and ethics
- User behaviors and literacies
- Print culture
- Library and information technology history
- Electronic publishing
- Information and communications technologies (ICT) and development, and transnational diaspora use of ICT
- The social aspects of ICT
- Medical information and medical information technologies
- Youth and new media

For more information, see the iSchool Research Overview Page. (https://ischool.wisc.edu/faculty-staff-directory/research/)

### RESEARCH COLLABORATIONS

Faculty and staff are widely involved in different research groups on campus. For example, the iSchool is home to the Center for the History of Print and Digital Culture (http://www.wiscprintdigital.org/), a research center focused on authorship, reading, publication, and distribution of print and digital materials. The Information School faculty members are involved with the Holtz Center for Science and Technology Studies, the Digital Humanities Research Network, the HCI+Design Group, the Wisconsin Institute for Discovery, and the Center for Financial Security.

## ADMISSIONS

# ADMISSIONS

- Campus Program (https://guide.wisc.edu/graduate/information/library-information-studies-ma/library-information-studies-campus-delivered-program-ma/)
- Online Program (https://guide.wisc.edu/graduate/information/library-information-studies-ma/library-information-studies-distance-delivered-program-ma/)

## FUNDING

# FUNDING

### GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

### CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 36 credits |
| Minimum Residence Credit Requirement | 30 credits |
| Minimum Graduate Coursework Requirement | 30 credits must be graduate-level coursework. The remaining 6 credits cannot be L I S courses numbered 300-699 without the Grad 50% designation. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required.<br>Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |

| | |
|---|---|
| Other Grade Requirements | Within the student's total program, one grade of BC or C is allowable in either a required or elective course if it is balanced by a grade of A or AB earned prior to or concurrently with the unsatisfactory grade. A second grade of BC or C or any grade of D or F will normally result in the student being dropped from the program. |
| Assessments and Examinations | Candidates must complete a minimum of a 120-hour practicum, and must complete a PLO Assessment. |
| Language Requirements | No language requirements. |

### REQUIRED COURSES

Select a Named Option (p. 1109) for courses required.

## NAMED OPTIONS

A named option is a formally documented sub-major within an academic major program. Named options appear on the transcript with degree conferral. Students pursuing the Master of Arts in Library and Information Studies must select one of the following named options:

View as listView as grid

- **LIBRARY AND INFORMATION STUDIES: CAMPUS PROGRAM, MA (P. 1109)**
- **LIBRARY AND INFORMATION STUDIES: ONLINE PROGRAM, MA (P. 1115)**

## POLICIES

## POLICIES

Students should refer to one of the named options for policy information:

- Campus Program (https://guide.wisc.edu/graduate/information/library-information-studies-ma/library-information-studies-campus-delivered-program-ma/)
- Online Program (https://guide.wisc.edu/graduate/information/library-information-studies-ma/library-information-studies-distance-delivered-program-ma/)

## PROFESSIONAL DEVELOPMENT

## PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

## LEARNING OUTCOMES

1. Demonstrate understanding of societal, legal, policy or ethical information issues.
2. Employ appropriate tools, standards, or best practices to organize information or information carriers for usability and access.
3. Design appropriate research methodologies to assess programs, services, or systems for inquiry or decision-making.
4. Demonstrate understanding of professional competencies important for management of information organizations.
5. Demonstrate competency with information technologies important to the information professions.
6. Apply concepts, principles, or theories learned in courses to field practice, broadly defined via a practicum, applied work experience, or practical course assignments.
7. Demonstrate an understanding of systemic inequalities surrounding information organization, use, services, or professions specifically in relation to privilege and marginalization.

## ACCREDITATION

## ACCREDITATION

American Library Association Committee on Accreditation (http://www.ala.org/aboutala/offices/accreditation/)

Accreditation Status: Accredited. Next Accreditation Review: 2029.

# LIBRARY AND INFORMATION STUDIES: CAMPUS PROGRAM, MA

This is a named option within the Library and Information Studies MA (p. 1107).

The ALA-accredited master's degree at the Information School (iSchool) prepares graduates to develop, provide, and assess information services that create, collect, organize, store, analyze, find, distribute, and use information in a diverse, technological, and global society. The program prepares information professionals to work in multiple areas of the information professions, including libraries (public, university and college, youth services, special, and government), archives, digital librarianship (which includes user experience and data analytics/management), and information organization. Students can tailor their program to include other emphases such as Tribal Libraries, Archives and Museums, social justice, and digital humanities.

**Librarianship:** Graduates obtain employment in college and university librarianship, public librarianship, youth and young adult librarianship, electronic collections management, science and health librarianship, research data management, and school library media centers.

**Archives in a Digital Age**: Graduates obtain employment in digital asset management, digital preservation and curation, digital archives, corporate archives, government archives, special collections, and tribal libraries archives and museums.

**Digital Libraries:** Design, develop, and manage information technologies with a focus on the user. Potential jobs include user experience and web design, digital humanities, digital asset management and curation, database and data management, and IT training/instruction.

**Organization of Information:** Graduates obtain employment in metadata management, taxonomy and ontology development and

implementation, digital asset management, cataloging, XML and linked data, and database management.

Full-time students generally complete the master's program in two academic years; part-time students complete it in three to four years. Students gain hands-on experience as part of their degree through the school's required field practicum. Students may choose practicum settings based on their career goals.

# NAMED OPTIONS

Students interested in the Master of Arts in Library and Information Studies should refer to one of the named options:

- Campus Program (p. 1109)
- Online Program (p. 1115)

# OPTIONAL SPECIALIZATIONS

The Information School hosts several specializations that require specific coursework from other departments or other requirements.

**Business School Graduate/Professional Certificate in Strategic Innovation:** The Information School offers a specialization in information innovation and organizational change in conjunction with the School of Business graduate/professional certificate (p. 1312) which can be completed as part of the school's MA degree (on-campus program only).

**Certificate in Leadership:** iSchool students can earn the UW–Madison Certificate in Leadership (https://cfli.wisc.edu/leadership-certificate/) as part of their Information School MA degree (on-campus and online programs).

**Double degrees:** The iSchool offers double degrees with the UW Law School, the School of Music, and the Department of Art History. These require separate admissions and additional coursework. (on-campus program only)

**School Library Media Specialist License:** The School Library Media Specialist License in the State of Wisconsin is a stand-alone teaching license. The iSchool MA program can be modified to provide candidates with the educational requirements for the license taken in addition to the MA courses. Candidates already holding a valid Wisconsin teaching license can be endorsed for the School Library Media Specialist through the iSchool MA program. UW–Madison is part of the UW System School Library Education Consortium (UWSSLEC), which is a certification-only program. Because each state has its own regulations for teacher licenses, this specialization is available to Wisconsin residents or those who will be working in Wisconsin schools only.

Online students (distance degree option) should note: Specialized courses in art, music, law, and school library media specialist, as well as courses offered outside the Information School that may be part of concentrations, specializations, or double degrees, are generally not available online. For a distance student with academic background in one of these areas, combining the general Information School degree with the specialized background may be the best preparation.

The Information School master's program is accredited by the American Library Association, recognized by the Wisconsin Division for Libraries, Technology, and Community Learning for certification of public librarians, and recognized by the state's Department of Public Instruction for preparation of school library media specialists.

# ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements (https://grad.wisc.edu/apply/requirements/) *of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 15 |
| Spring Deadline | The program does not admit in the spring. |
| Summer Deadline | The program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

The school admits students to its on campus and online master's programs once a year, for fall semester. Priority consideration, including consideration for departmental scholarships, is given to applications received by the fall deadline. Applications are accepted until **March 1.** After March 1, interested applicants should contact the department to ask if a late application can still be considered.

For more information on the Information School MA program, including detailed admissions instructions, read the program admission (https://ischool.wisc.edu/programs/ma-library-information-studies/ma-lis-admission/) page.

The Graduate School requires a bachelor's degree from a regionally accredited US institution, or a comparable degree from an international institution. A minimum undergraduate grade-point average (GPA) of 3.00 (on a 4.00 scale) in the last 60 earned credit hours is required.

Application evaluation criteria include academic abilities, professional promise, leadership and community engagement. An undergraduate program that includes breadth in liberal arts and sciences is required. Any major is acceptable. Prior work experience related to information professions is useful but is not required.

# FUNDING

# FUNDING

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

# REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# NAMED OPTION REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 36 credits |
| Minimum Residence Credit Requirement | 30 credits |
| Minimum Graduate Coursework Requirement | 30 credits must be graduate-level coursework. The remaining 6 credits cannot be L I S courses numbered 300-699 without the Grad 50% designation. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required.<br>Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | Within the student's total program, one grade of BC or C is allowable in either a required or elective course if it is balanced by a grade of A or AB earned prior to or concurrently with the unsatisfactory grade. A second grade of BC or C or any grade of D or F will normally result in the student being dropped from the program. |
| Assessments and Examinations | Candidates must complete a minimum of a 120-hour practicum, and must complete a PLO Assessment. |
| Language Requirements | No language requirements. |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Core** | | |
| All three courses are required; take L I S 602 in first semester and L I S 601 in first or second semester. L I S 603 can be taken at any time. | | 9 |
| L I S 601 | Information: Perspectives and Contexts | |
| L I S 602 | Information: Organization and Search | |
| L I S 603 | Research and Assessment for Information Professionals | |
| **Tier Diversity, Equity and Inclusion (DEI)** | | |
| Complete one of the following courses: | | 3 |
| L I S/AFRICAN/ COM ARTS 444 | Technology and Development in Africa and Beyond | |
| L I S 500 | Code and Power | |
| L I S/ AMER IND 520 | Tribal Libraries, Archives, and Museums (TLAM) History & Context | |
| L I S 629 | Multicultural Literature and Resources for Children and Youth | |
| L I S 640 | Topics in Library and Information Studies (Services to Diverse Populations) | |
| L I S 640 | Topics in Library and Information Studies (Tribal Libraries Archives and Museums) | |
| **Tier Management** | | |
| Complete one of the following courses: | | 3 |
| L I S 654 | Information Services Management | |
| L I S 712 | The Public Library | |
| L I S 722 | College and University Libraries | |
| **Tier Technology** | | |
| Complete one of the following courses: | | 3 |
| L I S 644 | Digital Tools, Trends and Debates | |
| L I S 640 | Topics in Library and Information Studies (Web Development) | |
| L I S 646 | Introduction to Info Architecture and Interaction Design for the Web | |
| L I S 668 | Digital Curation and Collections | |
| L I S 751 | Database Design for Information Professionals | |
| L I S 768 | Digital Humanities Analytics | |
| L I S/CURRIC/ ED PSYCH 803 | Computational Research Methods | |
| **Tier LIS Fundamentals** | | |
| Complete two of the following courses: | | 6 |
| L I S 615 | Systems Analysis and Project Management for Information Professionals | |
| L I S 632 | Metadata Standards and XML | |
| L I S 635 | Reference and Information Service | |
| L I S 639 | Pedagogical Theory and Practice for Information Professionals | |
| L I S 651 | Cataloging and Classification | |
| L I S 655 | Collection Management | |
| L I S/ HISTORY 734 | Introduction to Archives and Records Management | |
| **Capstone** | | **3** |
| L I S/ AMER IND 521 | Tribal Libraries, Archives and Museums (TLAM) Practicum | |
| L I S/CURRIC 620 | Field Project in Library and Information Agencies | |
| L I S 862 | Teaching & Learning Practicum | |
| **PLO Assessment** | | |
| Students are required to complete a PLO Assessment prior to graduation. This is a non-credit bearing requirement. | | 0 |
| **Electives** | | |

| | | |
|---|---|---|
| Suggested courses below are based on potential concentrations. Students do not declare concentrations and may mix and match courses across areas. Students may take up to 6 credits of electives outside of the iSchool. All non-L I S electives must be approved by the student's advisor. | | 9 |
| *Digital Librarianship* | | |
| L I S 646 | Introduction to Info Architecture and Interaction Design for the Web | |
| L I S 615 | Systems Analysis and Project Management for Information Professionals | |
| L I S 500 | Code and Power | |
| L I S 639 | Pedagogical Theory and Practice for Information Professionals | |
| L I S 751 | Database Design for Information Professionals | |
| L I S 668 | Digital Curation and Collections | |
| L I S 640 | Topics in Library and Information Studies (Web Development) | |
| L I S 768 | Digital Humanities Analytics | |
| L I S/ LEGAL ST 460 | Surveillance, Privacy, and Police Powers | |
| L I S 461 | Data and Algorithms: Ethics and Policy | |
| L I S 510 | Human Factors in Information Security | |
| L I S 661 | Information Ethics and Policy | |
| *Archives/Records* | | |
| L I S/ HISTORY 734 | Introduction to Archives and Records Management | |
| L I S 616 | Records Management | |
| L I S 818 | Archives Accessioning and Appraisal | |
| L I S 640 | Topics in Library and Information Studies (Description and Arrangement) | |
| L I S 678 | Preservation and Conservation of Library and Archives Materials | |
| L I S 615 | Systems Analysis and Project Management for Information Professionals | |
| L I S 632 | Metadata Standards and XML | |
| L I S 651 | Cataloging and Classification | |
| L I S 751 | Database Design for Information Professionals | |
| *Public* | | |
| L I S 712 | The Public Library | |
| L I S 635 | Reference and Information Service | |
| L I S 651 | Cataloging and Classification | |
| L I S 655 | Collection Management | |
| L I S 639 | Pedagogical Theory and Practice for Information Professionals | |
| L I S/ NURSING 517 | Digital Health: Information and Technologies Supporting Consumers and Patients | |
| L I S 640 | Topics in Library and Information Studies (Services to Diverse Populations) | |
| L I S 642 | Reading Interests of Adults | |
| L I S 755 | Electronic Resource Management & Licensing | |
| L I S 668 | Digital Curation and Collections | |
| L I S 661 | Information Ethics and Policy | |
| L I S 632 | Metadata Standards and XML | |
| *Youth* | | |
| L I S 622 | Childrens Literature | |
| L I S 629 | Multicultural Literature and Resources for Children and Youth | |
| L I S 631 | Literature and Resources for Youth | |
| L I S 772 | Library Services to Children and Young Adults | |
| L I S 639 | Pedagogical Theory and Practice for Information Professionals | |
| L I S 668 | Digital Curation and Collections | |
| L I S 755 | Electronic Resource Management & Licensing | |
| L I S 661 | Information Ethics and Policy | |
| L I S 655 | Collection Management | |
| L I S 635 | Reference and Information Service | |
| L I S 632 | Metadata Standards and XML | |
| *College and Research Libraries* | | |
| L I S 722 | College and University Libraries | |
| L I S 639 | Pedagogical Theory and Practice for Information Professionals | |
| L I S 635 | Reference and Information Service | |
| L I S 651 | Cataloging and Classification | |
| L I S 632 | Metadata Standards and XML | |
| L I S 640 | Topics in Library and Information Studies (Services to Diverse Populations) | |
| L I S 655 | Collection Management | |
| L I S 661 | Information Ethics and Policy | |
| L I S 668 | Digital Curation and Collections | |
| L I S 755 | Electronic Resource Management & Licensing | |
| *Additional Courses* | | |
| L I S 640 | Topics in Library and Information Studies | |
| L I S 855 | Topics in Information Agency Management | |
| L I S 501 | Introduction to Text Mining | |
| L I S/MUSIC 619 | Music Research Methods and Materials | |
| L I S/ART HIST/ HISTORY/ JOURN 650 | History of Books and Print Culture in Europe and North America | |
| L I S/ LEGAL ST 663 | Introduction to Cyberlaw | |
| L I S/ COM ARTS 705 | Introductory Analytics for Decision Making | |

| | |
|---|---|
| L I S 706 | Data Mining Planning and Management |
| L I S 707 | Data Visualization and Communication for Decision Making |
| L I S 839 | Special Collections |
| L I S 875 | Topics in Information Processing and Retrieval |
| One credit courses are offered every semester under a variety of topics under L I S 640 and L I S 855. | |
| **Total Credits** | **36** |

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# NAMED OPTION-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

Students may transfer up to 6 credits of approved graduate coursework from other institutions. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

With approval, UW–Madison undergraduates accepted into the Information School program may transfer up to 7 graduate iSchool credits (courses in L I S numbered 400 and above) toward their MA degree. With approval, students may transfer up to 7 credits of graduate level credit earned at other institutions during the undergraduate career.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

Students are allowed to transfer up to 6 approved credits of coursework numbered 400 or above taken as a UW–Madison University Special student. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy and iSchool Student Handbook. (https://ischool.wisc.edu/current-students/ma-requirements-overview/ma-program-planning-guides/)

## ADVISOR / COMMITTEE

All continuing students are encouraged to meet with their advisor prior to registering for each semester in order to remove registration holds and ensure timely progress towards degree completion. Students may switch advisors at any time by completing a change of advisor form.

## CREDITS PER TERM ALLOWED

The iSchool recommends 9 credits per semester and a maximum of 4 credits per summer term. 8 to 12 credits in a regular semester is considered full time at the graduate level. Course load maximums are 12 credits in a regular semester, 8 credits in the summer term and 3 credits in the intersession.

## TIME LIMITS

The maximum period for completion of the MA (under special circumstances) is seven calendar years. Contact the department for more information.

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## L&S POLICY FOR GRADUATE STUDENT ACADEMIC APPEALS

Graduate students have the right to appeal an academic decision related to an L&S graduate program if the student believes that the decision is inconsistent with published policy.

Academic decisions that may be appealed include:

- Dismissal from the graduate program
- Failure to pass a qualifying or preliminary examination
- Failure to achieve satisfactory academic progress
- Academic disciplinary action related to failure to meet professional conduct standards

Issues such as the following cannot be appealed using this process:

- A faculty member declining to serve as a graduate student's advisor.
- Decisions regarding the student's disciplinary knowledge, evaluation of the quality of work, or similar judgements. These are the domain of the department faculty.
- Course grades. These can be appealed instead using the L&S Policy for Grade Appeal (https://kb.wisc.edu/ls/22258/).
- Incidents of bias or hate, hostile and intimidating behavior (https://hr.wisc.edu/hib/), or discrimination (Title IX (https://compliance.wisc.edu/titleix/), Office of Compliance (https://compliance.wisc.edu/eo-complaint/formal-investigations/)). Direct these to the linked campus offices appropriate for the incident(s).

### Appeal Process for Graduate Students

A graduate student wishing to appeal an academic decision must follow the process in the order listed below. Note time limits within each step.

1. The student should first seek informal resolution, if possible, by discussing the concern with their academic advisor, the department's Director of Graduate Studies, and/or the department chair.
2. If the program has an appeal policy listed in their graduate program handbook, the student should follow the policy as written, including adhering to any indicated deadlines. In the absence of a specific departmental process, the chair or designee will be the reviewer and decision maker, and the student should submit a written appeal to the chair within 15 business days of the academic decision. The chair or designee will notify the student in writing of their decision.
3. If the departmental process upholds the original decision, the graduate student may next initiate an appeal to L&S. To do so, the student must submit a written appeal to the L&S Assistant Dean for Graduate Student Academic Affairs within 15 business days of notification of the department's decision.
    a. To the fullest extent possible, the written appeal should include, in a single document: a clear and concise statement of the academic decision being appealed, any relevant background on what led to the decision, the specific policies involved, the relief sought, any relevant documentation related to the departmental appeal, and the names and titles of any individuals contributing to or involved in the decision.
    b. The Assistant Dean will work with the Academic Associate Dean of the appropriate division to consider the appeal. They may seek additional information and/or meetings related to the case.
    c. The Assistant Dean and Academic Associate Dean will provide a written decision within 20 business days.
4. If L&S upholds the original decision, the graduate student may appeal to the Graduate School. More information can be found on their website: Grievances and Appeals (https://grad.wisc.edu/documents/grievances-and-appeals/) (see: Graduate School Appeal Process).

# PROFESSIONAL DEVELOPMENT

## PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## ISCHOOL CAREER SERVICES

The iSchool offers career services and resources (https://ischool.wisc.edu/programs/ma-library-information-studies/ma-lis-career-services/) specifically tailored to students in the program, including individual advising, workshops and The iSchool Career Toolkit (https://ischool.wisc.edu/student-experience/career-services/career-toolkit/)website, a curated list of resources for students in the Library and Information Studies field.

# LIBRARY AND INFORMATION STUDIES: ONLINE PROGRAM, MA

This is a named option within the Library and Information Studies MA (p. 1107).

The ALA-accredited master's degree at the Information School (iSchool) prepares graduates to develop, provide, and assess information services that create, collect, organize, store, analyze, find, distribute, and use information in a diverse, technological, and global society. The program prepares information professionals to work in multiple areas of the information professions, including libraries (public, university and college, youth services, special, and government), archives, digital librarianship (which includes user experience and data analytics/management), and information organization. Students can tailor their program to include other emphases such as Tribal Libraries, Archives and Museums, social justice, and digital humanities.

**Librarianship:** Graduates obtain employment in college and university librarianship, public librarianship, youth and young adult librarianship, electronic collections management, science and health librarianship, research data management, and school library media centers.

**Archives in a Digital Age**: Graduates obtain employment in digital asset management, digital preservation and curation, digital archives, corporate archives, government archives, special collections, and tribal libraries archives and museums.

**Digital Libraries:** Design, develop, and manage information technologies with a focus on the user. Potential jobs include user experience and web design, digital humanities, digital asset management and curation, database and data management, and IT training/instruction.

**Organization of Information:** Graduates obtain employment in metadata management, taxonomy and ontology development and implementation, digital asset management, cataloging, XML and linked data, and database management.

Full-time students generally complete the master's program in two academic years; part-time students complete it in three to four years. Students gain hands-on experience as part of their degree through the school's required field practicum. Students may choose practicum settings based on their career goals.

# NAMED OPTIONS

Students interested in the Master of Arts in Library and Information Studies should refer to one of the named options:

- Campus Program (p. 1109)
- Online Program (p. 1115)

# OPTIONAL SPECIALIZATIONS

The Information School hosts several specializations that require specific coursework from other departments or other requirements.

**Business School Graduate/Professional Certificate in Strategic Innovation:** The Information School offers a specialization in information innovation and organizational change in conjunction with the School of Business graduate/professional certificate (p. 1312) which can be completed as part of the school's MA degree (on-campus program only).

**Certificate in Leadership:** iSchool students can earn the UW–Madison Certificate in Leadership (https://cfli.wisc.edu/leadership-certificate/) as part of their Information School MA degree (on-campus and online programs).

**Double degrees:** The iSchool offers double degrees with the UW Law School, the School of Music, and the Department of Art History. These require separate admissions and additional coursework. (on-campus program only)

**School Library Media Specialist License:** The School Library Media Specialist License in the State of Wisconsin is a stand-alone teaching license. The iSchool MA program can be modified to provide candidates with the educational requirements for the license taken in addition to the MA courses. Candidates already holding a valid Wisconsin teaching license can be endorsed for the School Library Media Specialist through the iSchool MA program. UW–Madison is part of the UW System School Library Education Consortium (UWSSLEC), which is a certification-only program. Because each state has its own regulations for teacher licenses, this specialization is available to Wisconsin residents or those who will be working in Wisconsin schools only.

Online students (distance degree option) should note: Specialized courses in art, music, law, and school library media specialist, as well as courses offered outside the Information School that may be part of concentrations, specializations, or double degrees, are generally not available online. For a distance student with academic background in one of these areas, combining the general Information School degree with the specialized background may be the best preparation.

The Information School master's program is accredited by the American Library Association, recognized by the Wisconsin Division for Libraries, Technology, and Community Learning for certification of public librarians, and recognized by the state's Department of Public Instruction for preparation of school library media specialists.

# ABOUT THE INFORMATION SCHOOL

## PROGRAMS

The UW–Madison Information School, "the iSchool," is a professional school offering several degrees and non-credit education that prepare students for careers in the information professions:

- The iSchool MA degree (https://ischool.wisc.edu/programs/ma-library-information-studies/) is a professional master's that prepares information professionals to work in multiple areas of the information professions, including libraries (public, university and college, youth services, special, and government), archives, digital librarianship (which includes user experience and data analytics/management), and information organization. Students can tailor their program to include other emphases such as Tribal Libraries, Archives and Museums, social justice, and digital humanities.
- The Capstone Certificate in User Experience Design (https://ischool.wisc.edu/programs/uxcapstone/) is an educational credential aimed at working adults who seek further education to advance their careers or move into new fields without the commitment of a full master's degree. See the Capstone Certificate Guide page here (https://guide.wisc.edu/nondegree/capstone/user-experience-design-capstone-certificate/).
- The PhD degree (https://ischool.wisc.edu/programs/phd-program/) provides advanced academic preparation for those wishing to pursue careers in academia, industrial research, or policymaking. See the PhD Guide page here (p. 1102).
- The Undergraduate Digital Studies Certificate (https://guide.wisc.edu/undergraduate/letters-science/communication-arts/digital-studies-certificate/) provides undergraduate coursework in information technologies and society and information management. See the Undergraduate Certificate Guide page here (https://guide.wisc.edu/undergraduate/letters-science/communication-arts/digital-studies-certificate/).
- The iSchool offers non-credit continuing education short courses (https://ischool.wisc.edu/continuing-education/) that help information professionals stay up to date.

## COMMUNITY

The Information School at UW–Madison is well known for its public-good, community-engagement orientation (https://ischool.wisc.edu/slis/community-engagement/). It is home to student organizations that shepherd information-justice projects including the Jail Library Group, the Tribal Library Archives and Museums Group, and the KidsLib and Beyond Group. Student groups at the iSchool (https://ischool.wisc.edu/student-experience/student-organizations/) are very active and organize and sponsor events.

The CDIS Commons Library (https://www.library.wisc.edu/ischool/) The Rebecca M. Blank Commons is a welcoming and inclusive environment that supports the advancement of learning, research, teaching, and outreach across the disciplines of Computer, Data, and Information Sciences with state-of-the-art spaces, services, and resources. The Commons Library features typography and letterpress printing equipment for teaching and learning in book history, book arts, design, art, and making. After completion of training with continued good

stewardship of materials, students can operate the press for independent or student org letterpress print projects.

## RESEARCH & SCHOLARSHIP

The Information School faculty are known for scholarly work in the areas of:

- Data and information policy and ethics
- User behaviors and literacies
- Print culture
- Library and information technology history
- Electronic publishing
- Information and communications technologies (ICT) and development, and transnational diaspora use of ICT
- The social aspects of ICT
- Medical information and medical information technologies
- Youth and new media

For more information, see the iSchool Research Overview Page. (https://ischool.wisc.edu/faculty-staff-directory/research/)

## RESEARCH COLLABORATIONS

Faculty and staff are widely involved in different research groups on campus. For example, the iSchool is home to the Center for the History of Print and Digital Culture (http://www.wiscprintdigital.org/), a research center focused on authorship, reading, publication, and distribution of print and digital materials. The Information School faculty members are involved with the Holtz Center for Science and Technology Studies, the Digital Humanities Research Network, the HCI+Design Group, the Wisconsin Institute for Discovery, and the Center for Financial Security.

# ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 15 |
| Spring Deadline | The program does not admit in the spring. |
| Summer Deadline | The program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

The school admits students to its on campus and online master's programs once a year, for fall semester. Priority consideration, including consideration for departmental scholarships, is given to applications received by the fall deadline. Applications are accepted until **March 1.** After March 1, interested applicants should contact the department to ask if a late application can still be considered.

Students from any geographical location (including Madison, Wisconsin) are welcome to apply. Online students cannot take face to face courses.

For more information on the Information School MA program, including detailed admissions instructions, read the program admission (https://ischool.wisc.edu/programs/ma-library-information-studies/ma-lis-admission/) page.

The Graduate School requires a bachelor's degree from a regionally accredited US institution, or a comparable degree from an international institution. A minimum undergraduate grade-point average (GPA) of 3.00 (on a 4.00 scale) in the last 60 earned credit hours is required.

Application evaluation criteria include academic abilities, professional promise, leadership and community engagement. An undergraduate program that includes breadth in liberal arts and sciences is required. Any major is acceptable. Prior work experience related to information professions is useful but is not required.

# FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM INFORMATION

Students enrolled in this program are not eligible to receive tuition remission from graduate assistantship appointments at this institution.

# REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# NAMED OPTION REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| No | No | Yes | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 36 credits |
| Minimum Residence Credit Requirement | 30 credits |
| Minimum Graduate Coursework Requirement | 30 credits must be graduate-level coursework. The remaining 6 credits cannot be L I S courses numbered 300-699 without the Grad 50% designation. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | Within the student's total program, one grade of BC or C is allowable in either a required or elective course if it is balanced by a grade of A or AB earned prior to or concurrently with the unsatisfactory grade. A second grade of BC or C or any grade of D or F will normally result in the student being dropped from the program. |
| Assessments and Examinations | Candidates must complete a minimum of a 120-hour practicum, and must complete a PLO Assessment. |
| Language Requirements | No language requirements. |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Core** | | |
| All three courses are required; take L I S 602 in first semester and L I S 601 in first or second semester. L I S 603 can be taken at any time. | | 9 |
| L I S 601 | Information: Perspectives and Contexts | |
| L I S 602 | Information: Organization and Search | |
| L I S 603 | Research and Assessment for Information Professionals | |
| **Tier Diversity, Equity and Inclusion (DEI)** | | |
| Complete one of the following courses: | | 3 |
| L I S/AFRICAN/ COM ARTS 444 | Technology and Development in Africa and Beyond | |
| L I S 500 | Code and Power | |
| L I S/ AMER IND 520 | Tribal Libraries, Archives, and Museums (TLAM) History & Context | |
| L I S 629 | Multicultural Literature and Resources for Children and Youth | |
| L I S 640 | Topics in Library and Information Studies (Services to Diverse Populations) | |
| L I S 640 | Topics in Library and Information Studies (Tribal Libraries Archives and Museums) | |
| **Tier Management** | | |
| Complete one of the following courses: | | 3 |
| L I S 654 | Information Services Management | |
| L I S 712 | The Public Library | |
| L I S 722 | College and University Libraries | |
| **Tier Technology** | | |
| Complete one of the following courses: | | 3 |
| L I S 644 | Digital Tools, Trends and Debates | |
| L I S 640 | Topics in Library and Information Studies (Web Development) | |
| L I S 646 | Introduction to Info Architecture and Interaction Design for the Web | |
| L I S 668 | Digital Curation and Collections | |
| L I S 751 | Database Design for Information Professionals | |
| L I S 768 | Digital Humanities Analytics | |
| L I S/CURRIC/ ED PSYCH 803 | Computational Research Methods | |
| **Tier L I S Fundamentals** | | |
| Complete two of the following courses: | | 6 |
| L I S 615 | Systems Analysis and Project Management for Information Professionals | |
| L I S 632 | Metadata Standards and XML | |
| L I S 635 | Reference and Information Service | |
| L I S 639 | Pedagogical Theory and Practice for Information Professionals | |
| L I S 651 | Cataloging and Classification | |

| | | |
|---|---|---|
| L I S 655 | Collection Management | |
| L I S/ HISTORY 734 | Introduction to Archives and Records Management | |
| **Capstone** | | **3** |
| L I S/CURRIC 620 | Field Project in Library and Information Agencies | |
| L I S/ AMER IND 521 | Tribal Libraries, Archives and Museums (TLAM) Practicum | |
| **PLO Assessment** | | |
| Students are required to complete a PLO Assessment prior to graduation. This is a non-credit bearing requirement. | | 0 |
| **Electives** | | |
| Suggested courses below are based on potential concentrations. Students do not declare concentrations and may mix and match courses across areas. Students may take up to 6 credits of electives outside of the iSchool. All non-L I S electives must be approved by the student's advisor. | | 9 |
| *Digital Librarianship* | | |
| L I S 646 | Introduction to Info Architecture and Interaction Design for the Web | |
| L I S 615 | Systems Analysis and Project Management for Information Professionals | |
| L I S 500 | Code and Power | |
| L I S 639 | Pedagogical Theory and Practice for Information Professionals | |
| L I S 751 | Database Design for Information Professionals | |
| L I S 668 | Digital Curation and Collections | |
| L I S 640 | Topics in Library and Information Studies (Web Development) | |
| L I S 768 | Digital Humanities Analytics | |
| L I S/ LEGAL ST 460 | Surveillance, Privacy, and Police Powers | |
| L I S 461 | Data and Algorithms: Ethics and Policy | |
| L I S 510 | Human Factors in Information Security | |
| L I S 661 | Information Ethics and Policy | |
| *Archives/Records* | | |
| L I S/ HISTORY 734 | Introduction to Archives and Records Management | |
| L I S 616 | Records Management | |
| L I S 818 | Archives Accessioning and Appraisal | |
| L I S 640 | Topics in Library and Information Studies (Description and Arrangement) | |
| L I S 678 | Preservation and Conservation of Library and Archives Materials | |
| L I S 615 | Systems Analysis and Project Management for Information Professionals | |
| L I S 632 | Metadata Standards and XML | |
| L I S 651 | Cataloging and Classification | |
| L I S 751 | Database Design for Information Professionals | |
| *Public* | | |
| L I S 712 | The Public Library | |
| L I S 635 | Reference and Information Service | |
| L I S 651 | Cataloging and Classification | |
| L I S 655 | Collection Management | |
| L I S 639 | Pedagogical Theory and Practice for Information Professionals | |
| L I S/ NURSING 517 | Digital Health: Information and Technologies Supporting Consumers and Patients | |
| L I S 640 | Topics in Library and Information Studies (Services to Diverse Populations) | |
| L I S 642 | Reading Interests of Adults | |
| L I S 755 | Electronic Resource Management & Licensing | |
| L I S 668 | Digital Curation and Collections | |
| L I S 661 | Information Ethics and Policy | |
| L I S 632 | Metadata Standards and XML | |
| *Youth* | | |
| L I S 622 | Childrens Literature | |
| L I S 629 | Multicultural Literature and Resources for Children and Youth | |
| L I S 631 | Literature and Resources for Youth | |
| L I S 772 | Library Services to Children and Young Adults | |
| L I S 639 | Pedagogical Theory and Practice for Information Professionals | |
| L I S 668 | Digital Curation and Collections | |
| L I S 755 | Electronic Resource Management & Licensing | |
| L I S 661 | Information Ethics and Policy | |
| L I S 655 | Collection Management | |
| L I S 635 | Reference and Information Service | |
| L I S 632 | Metadata Standards and XML | |
| *College and Research Libraries* | | |
| L I S 722 | College and University Libraries | |
| L I S 639 | Pedagogical Theory and Practice for Information Professionals | |
| L I S 635 | Reference and Information Service | |
| L I S 651 | Cataloging and Classification | |

| L I S 668 | Digital Curation and Collections | |
| L I S 755 | Electronic Resource Management & Licensing | |
| *Additional Courses* | | |
| L I S 640 | Topics in Library and Information Studies | |

| | |
|---|---|
| L I S 855 | Topics in Information Agency Management |
| L I S 501 | Introduction to Text Mining |
| L I S/MUSIC 619 | Music Research Methods and Materials |
| L I S/ART HIST/ HISTORY/ JOURN 650 | History of Books and Print Culture in Europe and North America |
| L I S/ LEGAL ST 663 | Introduction to Cyberlaw |
| L I S/ COM ARTS 705 | Introductory Analytics for Decision Making |
| L I S 706 | Data Mining Planning and Management |
| L I S 707 | Data Visualization and Communication for Decision Making |
| L I S 839 | Special Collections |
| L I S 875 | Topics in Information Processing and Retrieval |
| One credit courses are offered every semester under a variety of topics under L I S 640 and L I S 855. | |
| **Total Credits** | **36** |

Students in this program may not take courses outside the prescribed curriculum without faculty advisor and program director approval. Students in this program cannot enroll concurrently in other undergraduate or graduate degree programs.

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# NAMED OPTION-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

Students may transfer up to 6 credits of approved graduate coursework from other institutions. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

With approval, UW–Madison undergraduates accepted into the Information School program may transfer up to 7 graduate iSchool credits (courses in L I S numbered 400 and above) toward their MA degree. With approval, students may transfer up to 7 credits of graduate level credit earned at other institutions during the undergraduate career.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

Students are allowed to transfer up to 6 approved credits of coursework numbered 400 or above taken as a UW–Madison University Special student. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy and iSchool Student Handbook. (https://ischool.wisc.edu/current-students/ma-requirements-overview/ma-program-planning-guides/)

## ADVISOR / COMMITTEE

All continuing students are encouraged to meet with their advisor prior to registering for each semester in order to remove registration holds and ensure timely progress towards degree completion. Students may switch advisors at any time by completing a change of advisor form.

## CREDITS PER TERM ALLOWED

The iSchool recommends 3 to 6 credits per semester for online students. 8 to 12 credits in a regular semester is considered full time at the graduate level.

## TIME LIMITS

The maximum period for completion of the MA (under special circumstances) is seven calendar years. Contact the department for more information.

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)

- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## L&S POLICY FOR GRADUATE STUDENT ACADEMIC APPEALS

Graduate students have the right to appeal an academic decision related to an L&S graduate program if the student believes that the decision is inconsistent with published policy.

Academic decisions that may be appealed include:

- Dismissal from the graduate program
- Failure to pass a qualifying or preliminary examination
- Failure to achieve satisfactory academic progress
- Academic disciplinary action related to failure to meet professional conduct standards

Issues such as the following cannot be appealed using this process:

- A faculty member declining to serve as a graduate student's advisor.
- Decisions regarding the student's disciplinary knowledge, evaluation of the quality of work, or similar judgements. These are the domain of the department faculty.
- Course grades. These can be appealed instead using the L&S Policy for Grade Appeal (https://kb.wisc.edu/ls/22258/).
- Incidents of bias or hate, hostile and intimidating behavior (https://hr.wisc.edu/hib/), or discrimination (Title IX (https://compliance.wisc.edu/titleix/), Office of Compliance (https://compliance.wisc.edu/eo-complaint/formal-investigations/)). Direct these to the linked campus offices appropriate for the incident(s).

### Appeal Process for Graduate Students

A graduate student wishing to appeal an academic decision must follow the process in the order listed below. Note time limits within each step.

1. The student should first seek informal resolution, if possible, by discussing the concern with their academic advisor, the department's Director of Graduate Studies, and/or the department chair.
2. If the program has an appeal policy listed in their graduate program handbook, the student should follow the policy as written, including adhering to any indicated deadlines. In the absence of a specific departmental process, the chair or designee will be the reviewer and decision maker, and the student should submit a written appeal to the chair within 15 business days of the academic decision. The chair or designee will notify the student in writing of their decision.
3. If the departmental process upholds the original decision, the graduate student may next initiate an appeal to L&S. To do so, the student must submit a written appeal to the L&S Assistant Dean for Graduate Student Academic Affairs within 15 business days of notification of the department's decision.
    a. To the fullest extent possible, the written appeal should include, in a single document: a clear and concise statement of the academic decision being appealed, any relevant background on what led to the decision, the specific policies involved, the relief sought, any relevant documentation related to the departmental appeal, and the names and titles of any individuals contributing to or involved in the decision.
    b. The Assistant Dean will work with the Academic Associate Dean of the appropriate division to consider the appeal. They may seek additional information and/or meetings related to the case.
    c. The Assistant Dean and Academic Associate Dean will provide a written decision within 20 business days.
4. If L&S upholds the original decision, the graduate student may appeal to the Graduate School. More information can be found on their website: Grievances and Appeals (https://grad.wisc.edu/documents/grievances-and-appeals/) (see: Graduate School Appeal Process).

# PROFESSIONAL DEVELOPMENT

# ISCHOOL CAREER SERVICES

The iSchool offers career services and resources (https://ischool.wisc.edu/programs/ma-library-information-studies/ma-lis-career-services/) specifically tailored to students in the program, including individual advising, workshops and The iSchool Career Toolkit (https://ischool.wisc.edu/student-experience/career-services/career-toolkit/)website, a curated list of resources for students in the Library and Information Studies field.

## GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

# PRINT CULTURE HISTORY, DOCTORAL MINOR

Since 1980, the field has generated a sizable literature, and with the establishment of this doctoral minor in 1998, the study of print culture history has found an institutional home within the University of Wisconsin–Madison's curricular structure. The Doctoral Minor in Print Culture History gives graduate students opportunities to design a curriculum around the historical study and sociology of books and print culture within their general doctoral studies. The program particularly encourages students to do original archival and special collections work in the extensive relevant holdings of the library systems of the University of Wisconsin–Madison and the Wisconsin Historical Society (http://www.wisconsinhistory.org/).

See the full description of the Doctoral Minor in Print Culture History (http://www.wiscprintdigital.org/ph-d-minor/) on the Center for the History of Print and Digital Culture website for more information.

ADMISSIONS

## ADMISSIONS

The Minor in Print Culture History is an interdisciplinary program functioning under the University of Wisconsin–Madison Graduate School's Option A rules (see the Graduate School Catalog, Minors) (http://guide.wisc.edu/graduate/#doctoralminorstext). To qualify, students will need written approval from their major advisor and from the director of the Doctoral Minor in Print Culture History.

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any doctoral minor. To apply to this minor, log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. Select the information for the doctoral minor for which you are applying.

REQUIREMENTS

## REQUIREMENTS

Like the study of print culture itself, the minor is intentionally flexible and interdisciplinary. Students are required to take a **minimum of 12 credits** in courses whose subjects in some way address print culture, book history, or related topics. Related topics may range from the history of mass communications, cartography, literature, education, consumer movements, and library and information studies, to subjects dealing with gender, race, age, social class, and sexual orientation. Within the 12-credit minor, students are required to take at least **3 credits of seminar studies**. L I S/ ART HIST/HISTORY/JOURN 650 is highly recommended for 3 of the 12 credits toward the minor.

# INSTITUTE FOR CLINICAL AND TRANSLATIONAL RESEARCH

DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

## DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/ PROFESSIONAL CERTIFICATES

- Clinical and Health Informatics, MS (p. 1122)
- Clinical Investigation, Doctoral Minor (p. 1127)
- Clinical Investigation, MS (p. 1127)
- Clinical Investigation, PhD (p. 1132)
- Fundamentals of Clinical Research, Graduate/Professional Certificate (p. 1137)
- Implementation Science and Community Health Outcomes, Graduate/Professional Certificate (p. 1138)

# CLINICAL AND HEALTH INFORMATICS, MS

The online Master of Science degree in Clinical and Health Informatics gives students a solid foundation in healthcare decision-making using methods developed from study of biomedical informatics, healthcare operations management, industrial systems engineering, nursing, pharmacy, and population health.

Based in UW–Madison's Institute for Clinical and Translation Research, this online graduate degree program provides students with an interdisciplinary approach to develop innovative solutions and improve current practices in health policy, clinical practice, data security, and biomedical and health information systems.

The program is designed to serve professionals for clinical or information technology-related work in the healthcare industry. Graduates will be ready to meet the growing workforce demand for informaticists.

Further detail, including tuition and costs, is provided here (https://uwinformatics.wisc.edu/).

ADMISSIONS

## ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | August 1 |
| Spring Deadline | December 15 |
| Summer Deadline | April 15 |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 2 |

### PROGRAM ADMISSION

Applicants to our Master of Science degree program must meet the minimum requirements (https://grad.wisc.edu/apply/requirements/) of

the UW-Madison Graduate School, as well as those of our Clinical and Health Informatics (CHI) program:

- Personal Statement - Tell us more about you, your interest in this profession, and why you wish to earn a graduate degree in Clinical and Health Informatics. You may also note any (or none) of the following information:
  - What will make you successful in graduate program coursework?
  - What challenges do you anticipate facing while being a graduate student? What support might you need?
  - What unusual circumstances would you like considered when faculty review your application? This may include reasons for past academic performance, career changes, life challenges, etc.
- CV/Resume
- 2 letters of recommendation
- Successful completion of a college level statistics course, analytical/computational course, or equivalent work experience

While not required, you will benefit from having:

- work experience in information technology, statistics, computer science, health care, or similar field(s) – or are highly motivated to pursue a career change
- a focused area of interest in informatics, data analytics, clinical care or research, health information technology or similar fields

Contact learn@ictr.wisc.edu if you have any questions, check out the Graduate School's Admissions FAQ (https://grad.wisc.edu/apply/) page, or complete the online application (https://grad.wisc.edu/apply/).

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM INFORMATION

Students enrolled in this program are not eligible to receive tuition remission from graduate assistantship appointments at this institution.

You may, however, qualify for a fee grant for the application fee. https://grad.wisc.edu/apply/fee-grant/

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| No | No | Yes | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirements | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 18 credits |
| Minimum Graduate Coursework Requirement | 15 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | None. |
| Language Requirements | None. |
| Assessments and Examinations | The program assessments are in the form of case study presentations and strategic planning for data analysis and feedback. During the final semester, students complete a final project in the capstone course. The summative project is assessed for meeting required competencies. |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Core** | | |
| B M I 573 | Foundations of Data-Driven Healthcare | 3 |

| | | |

| **Total Credits** | | **30** |

### Other Policy

Students in this program may not take courses outside the prescribed curriculum without faculty advisor and program director approval. Students in this program cannot enroll concurrently in other undergraduate or graduate degree programs.

## POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

If applicable to degree completion, and with program approval, students may transfer no more than 12 credits of graduate coursework from other institutions. Coursework earned ten or more years prior to admission to the master's degree is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

If applicable to degree completion and with program approval, students may transfer 6 credits of coursework from another institution or numbered 300 or above from a UW–Madison undergraduate degree. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

With program approval, students may transfer no more than 12 credits of coursework numbered 300 or above taken as a UW–Madison University Special student. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

An advisor is assigned to incoming students and will work with students individually to ensure they are making satisfactory progress toward a degree.

## CREDITS PER TERM ALLOWED

12 credits

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)

  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## Grievance Policy for Graduate Programs in the School of Medicine and Public Health

Any student in a School of Medicine and Public Health graduate program who feels that they have been treated unfairly in regards to educational decisions and/or outcomes or issues specific to the graduate program, including academic standing, progress to degree, professional activities, appropriate advising, and a program's community standards by a faculty member, staff member, postdoc, or student has the right to complain about the treatment and to receive a prompt hearing of the grievance following these grievance procedures. Any student who discusses, inquiries about, or participates in the grievance procedure may do so openly and shall not be subject to intimidation, discipline, or retaliation because of such activity. Each program's grievance advisor is listed on the "Research" tab of the SMPH intranet (https://intranet.med.wisc.edu/).

### Exclusions

This policy does not apply to employment-related issues for Graduate Assistants in TA, PA and/or RA appointments. Graduate Assistants will utilize the Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/) (GAPP) grievance process to resolve employment-related issues.

This policy does not apply to instances when a graduate student wishes to report research misconduct. For such reports refer to the UW-Madison Policy for Reporting Research Misconduct for Graduate Students and Postdoctoral Research Associates (https://research.wisc.edu/kb-article/?id=84924).

### Requirements for Programs

The School of Medicine and Public Health Office of Basic Research, Biotechnology and Graduate Studies requires that each graduate program designate a grievance advisor, who should be a tenured faculty member, and will request the name of the grievance advisor annually. The program director will serve as the alternate grievance advisor in the event that the grievance advisor is named in the grievance. The program must notify students of the grievance advisor, including posting the grievance advisor's name on the program's Guide page and handbook.

The grievance advisor or program director may be approached for possible grievances of all types. They will spearhead the grievance response process described below for issues specific to the graduate program, including but not limited to academic standing, progress to degree, professional activities, appropriate advising, and a program's community standards. They will ensure students are advised on reporting procedures for other types of possible grievances and are supported throughout the reporting process. Resources (https://grad.wisc.edu/current-students/#reporting-incidents) on identifying and reporting other issues have been compiled by the Graduate School.

### Procedures

1. The student is advised to initiate a written record containing dates, times, persons, and description of activities, and to update this record while completing the procedures described below.
2. If the student is comfortable doing so, efforts should be made to resolve complaints informally between individuals before pursuing a formal grievance.
3. Should a satisfactory resolution not be achieved, the student should contact the program's grievance advisor or program director to discuss the complaint. The student may approach the grievance advisor or program director alone or with a UW-Madison faculty or staff member. The grievance advisor or program director should keep a record of contacts with regards to possible grievances. The first attempt is to help the student informally address the complaint prior to pursuing a formal grievance. The student is also encouraged to talk with their faculty advisor regarding concerns or difficulties.
4. If the issue is not resolved to the student's satisfaction, the student may submit a formal grievance to the grievance advisor or program director in writing, within 60 calendar days from the date the grievant first became aware of, or should have become aware of with the exercise of reasonable diligence, the cause of the grievance. To the fullest extent possible, a grievance shall contain a clear and concise statement of the grievance and indicate the issue(s) involved, the relief sought, the date(s) the incident or violation took place, and any specific policy involved.
5. On receipt of a written grievance, the following steps will occur. The final step must be completed within 30 business days from the date the grievance was received. The program must store documentation of the grievance for seven years. Significant grievances that set a precedent may be stored indefinitely.
    a. The grievance advisor or program director will convene a faculty committee composed of at least three members to manage the grievance. Any faculty member involved in the grievance or who feels that they cannot be impartial may not participate in the committee. Committee composition should reflect diverse viewpoints within the program.
    b. The faculty committee, through the grievance advisor or program director, will obtain a written response from the person or persons toward whom the grievance is directed. The grievance advisor or program director will inform this person that their response will be shared with the student filing the grievance.

c. The grievance advisor or program director will share the response with the student filing the grievance.
d. The faculty committee will make a decision regarding the grievance. The committee's review shall be fair, impartial, and timely. The grievance advisor or program director will report on the action taken by the committee in writing to both the student and the person toward whom the grievance was directed.

6. If either party (the student or the person or persons toward whom the grievance is directed) is unsatisfied with the decision of the program's faculty committee, the party may file a written appeal to the SMPH senior associate dean for basic research, biotechnology and graduate studies within 10 business days from the date of notification of the program's faculty committee. The following steps will occur:
    a. The grievant will be notified in writing, within 5 business days of the written appeal, acknowledging receipt of the formal appeal and establishing a timeline for the review to be completed.
    b. The senior associate dean or their designee may request additional materials and/or arrange meetings with the grievant and/or others. If meetings occur, the senior associate dean or their designee will meet with both the grievant and the person or persons toward whom the grievance is directed.
    c. The senior associate dean or their designee will assemble an ad hoc committee of faculty from outside of the student's graduate program and ask them to prepare a written recommendation on whether to uphold or reverse the decision of the program on the student's initial grievance. The committee may request additional materials and/or arrange meetings with the grievant and/or others. If meetings occur, the committee will meet with both the grievant and the person or persons toward whom the grievance is directed.
    d. The senior associate dean or their designee will make a final decision within 20 business days of receipt of the committee's recommendation.
    e. The SMPH Office of Basic Research, Biotechnology, and Graduate Studies must store documentation of the grievance for seven years. Grievances that set a precedent may be stored indefinitely.
7. The student may file an appeal of the School of Medicine and Public Health decision with the Graduate School. See the Grievances and Appeals section of the Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/documents/grievances-and-appeals/).

**Time Limits**

Steps in the grievance procedures must be initiated and completed within the designated time periods except when modified by mutual consent. If the student fails to initiate the next step in the grievance procedure within the designated time period, the grievance will be considered resolved by the decision at the last completed step.

## OTHER

n/a

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Health: Describe and explain background knowledge of the history, goals, methods and challenges of the major health sciences, including human biology, genomics, clinical and translational science, healthcare delivery, personal health and population health.
2. Information Science and Technology: Demonstrate background knowledge of concepts, terminology, methods and tools of information science and technology for managing and analyzing data, information and knowledge.
3. Social and Behavioral Science: Evaluate the effects of social, behavioral, legal, psychological, management, cognitive, and economic theories, methods, and models applicable to health informatics from multiple levels including individual, social group, and society.
4. Health Information Science and Technology: Determine concepts and recognize tools for managing and analyzing biomedical and health data, information, and knowledge. Key foci include systems design and development, standards, integration, interoperability, and protection of biomedical and health information.
5. Human Factors and Socio-technical Systems: Apply social behavioral theories and human factors engineering to better understand the interaction between users and information technologies within the organizational, social, and physical contexts of their lives, and apply this understanding in information system design.
6. Social and Behavioral Aspects of Health: Evaluate and apply social determinants of health and patient-generated data to analyze problems arising from health or disease, to recognize the implications of these problems on daily activities, and to recognize and/or develop practical solutions to managing these problems.
7. Social, Behavioral, and Information Science and Technology Applied to Health: Appraise the diverse foundation concepts and facets in order to develop integrative approaches to the design, implementation, and evaluation of health informatics solutions.
8. Professionalism: Demonstrate conduct that reflects the aims or qualities that characterize a professional person encompassing especially a defined body of knowledge and skills and their lifelong maintenance as well as adherence to an ethical code.
9. Interprofessional Collaborative Practice: Exhibit behavior that reflects the foundations of values/ethics, roles/responsibilities, interprofessional communication practices, and interprofessional teamwork for team-based practice.
10. Leadership: Demonstrate the following characteristics: credibility, honest, competence, ability to inspire, and ability to formulate and communicate a vision.

# CLINICAL INVESTIGATION, DOCTORAL MINOR

Doctoral students in engineering, nursing, veterinary medicine, and other disciplines can declare a focus in Clinical and Translational Science (https://ictr.wisc.edu/program/graduate-program-in-clinical-investigation/) by earning the doctoral minor in Clinical Investigation to learn about applications of research to clinical disciplines. The minor provides students with foundational training in interdisciplinary clinical research, while emphasizing a scientific area of graduate study.

Students should be aware that:

- No course that counts for the major can also count for the minor. The point of the minor focus is to add breadth to the student's coursework.

**Important Note:** For students who are funded by the TL1 Predoctoral Training Program, the minor requires additional training as described on the TL1 website (https://ictr.wisc.edu/program/tl1-training-awards/).

## ADMISSIONS

## ADMISSIONS

All graduate students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any doctoral minor. To apply to this minor, please log in to MyUW, click on Graduate Student Portal, and then click on Add/Change programs.

Students should also submit a form (https://ictr.wisc.edu/education-training/graduate-programs/) to declare the doctoral minor in Clinical Investigation. The program director will review your application for admittance, and reach out to you if there are any further questions.

## REQUIREMENTS

## REQUIREMENTS

### REQUIRED COURSES

The minor requires 9 credits. Note: For students who are funded by the TL1 Predoctoral Training Program, the minor requires additional training as described on the TL1 website (https://ictr.wisc.edu/program/tl1-training-awards/).

| Code | Title | Credits |
|---|---|---|
| **Introduction Clinical Requirement** | | |
| Students complete the following course: | | |
| B M I/STAT 542 | Introduction to Clinical Trials I | 3 |
| **Clinical Translational Science Requirement** | | |
| To fulfill this requirement, students must complete 3 credits from one of the following courses: | | 3 |
| B M I 544 | Introduction to Clinical and Healthcare Research II | |
| B M I 773 | Clinical Research Informatics | |
| POP HLTH/ SOC 797 | Introduction to Epidemiology | |
| **Research Design Science Requirement** | | |
| To fulfill this requirement, students must complete 3 credits of a clinical translational science, biostatistics, or methods course. Program administrator approval required for alternative courses and must be graduate level ("Grad 50%" designation). Examples of the courses include the following: | | 3 |
| B M I/ POP HLTH 552 | Regression Methods for Population Health | |
| B M I/ POP HLTH 651 | Advanced Regression Methods for Population Health | |
| B M I/STAT 741 | Survival Analysis Theory and Methods | |
| B M I/ COMP SCI 771 | Learning Based Methods for Computer Vision | |
| B M I/COMP SCI/ PSYCH 841 | Computational Cognitive Science | |
| NURSING 804 | Qualitative Design and Methods | |
| ED PSYCH/ COUN PSY/ CURRIC/ ED POL/ELPA/ RP & SE 719 | Introduction to Qualitative Research | |
| ED PSYCH 761 | Statistical Methods Applied to Education II | |
| ED PSYCH 771 | Test Construction | |
| **Total Credits** | | **9** |

# CLINICAL INVESTIGATION, MS

Clinical investigation is a field in which teams of health care professionals, biostatisticians, and others imagine, design, and conduct clinical research, and then take discoveries to human or animal patient populations in the health care system or in communities.

The graduate program in clinical investigation offers a MS degree. The focus of clinical investigation is to provide physicians, clinical scientists, and other health care professionals with the knowledge and skills needed to conduct and translate basic science discoveries into clinical applications through patient (human or animal)–oriented research. The MS program trains students to help move research toward solutions for patient populations more quickly.

Applicants ideally will have a health professional degree (MD, DVM, PharmD, BSN, BSE, MPT, DPT). Clinical Investigation students are unique among UW–Madison graduate students because they enter with a terminal degree (with exceptions) and they are seeking training to apply their work to improving health and(or) healthcare delivery.

The curriculum draws from existing courses in the partner schools and includes new courses developed exclusively for the clinical investigation program. Coursework provides a solid foundation in research methods and analysis, including biostatistics, study design, informatics, and ethical conduct. Through electives and a research requirement, students pursue their own areas of specialization in patient-oriented clinical research.

Representatives from the Schools of Medicine and Public Health, Nursing, Pharmacy, Education, and Veterinary Medicine, and the College of Engineering gathered in 2006 and designed the program. They are

joined by partner Marshfield Clinic as members of the faculty executive committee that guides the program.

The clinical investigation program is housed in the UW Institute for Clinical and Translational Research (ICTR) and is designed in response to a need for clinical research training programs. The ICTR Clinical and Translational Science Award (CTSA) facilitates UW–Madison's ability to offer a spectrum of graduate programs in clinical research. This applied, clinical, and translational graduate program complements the areas of clinical research training by the population health sciences, nursing, and other graduate programs.

The knowledge and skills acquired while earning a degree in clinical investigation can be applied to jobs in academic institutions; private industry, including pharmaceutical companies, insurers, and managed care organizations; government agencies; non-profit organizations; and a range of local to international organizations.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | February 1 |
| Spring Deadline | October 1 |
| Summer Deadline | The program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

The program's faculty executive committee considers all aspects of each application. The applicant must meet the minimum requirements of the Graduate School plus those of the program, listed here:

- Have a focused area of interest in patient-oriented clinical research and a passion for continuing in a career in patient-oriented translational and/or clinical research.
- Ideally have a health professional degree (MD, DVM, PharmD, PhD, BSN, BSE, MPT, DPT).
- Identify a primary advisor to mentor and support the applicant throughout graduate study.

Admission will depend in part on identification of a research program that aligns with an applicant's research interests and career goals, an applicant's fit with the program and likelihood of successfully completing a graduate degree. Identification of a faculty advisor and research area of study is a key consideration in the admissions process but does not guarantee admission.

Acceptance into the program does not assure funding.

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 15 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required.<br>Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | Students must earn a B or above in all core curriculum coursework. |
| Assessments and Examinations | Defense of MS thesis required. The thesis is submitted in writing to the degree committee two weeks prior to the defense date; the thesis is defended verbally during the defense meeting. |
| Language Requirements | No language requirements. |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Core Requirement** | | |
| Students must complete the following courses. | | |
| B M I/STAT 542 | Introduction to Clinical Trials I | 3 |
| POP HLTH/ SOC 797 | Introduction to Epidemiology | 3 |
| NURSING/ MEDICINE/ POP HLTH 705 | Seminar in Interdisciplinary Clinical Research Evidence | 2-3 |
| H ONCOL 750 | Multi-disciplinary Patient-Oriented Research Presentation Skills Seminar | 1 |
| **Biostatistics Requirement** | | |
| To fulfill this requirement, students must complete one of the following courses or sequence: | | 3-4 |
| B M I/STAT 541 | Introduction to Biostatistics | |
| B M I/ POP HLTH 551 | Introduction to Biostatistics for Population Health [1] | |
| B M I 699 | Independent Study [2] | |
| **Clinical Translational Science Requirement** | | |
| To fulfill this requirement, students must complete 3 credits from one of the following courses: | | 3 |
| B M I 544 | Introduction to Clinical and Healthcare Research II | |
| B M I 773 | Clinical Research Informatics | |
| POP HLTH 709 | Translational and Outcomes Research in Health and Health Care | |
| **Research Design Requirement** | | |
| To fulfill this requirement, students must complete 3 credits of a clinical and translational science, biostatistics, or methods course. Program administrator approval required for alternative courses and must be graduate level ("Grad 50%" designation). Examples of courses include the following: | | 3 |
| SOC/ C&E SOC 361 | Statistics for Sociologists II | |
| B M I/ POP HLTH 552 | Regression Methods for Population Health | |
| B M I/ COMP SCI 567 | Biomedical Image Analysis | |
| B M I/ POP HLTH 651 | Advanced Regression Methods for Population Health | |
| B M I/STAT 741 | Survival Analysis Theory and Methods | |
| B M I/ COMP SCI 771 | Learning Based Methods for Computer Vision | |
| B M I/ COMP SCI 775 | Computational Network Biology | |
| B M I/COMP SCI/ PSYCH 841 | Computational Cognitive Science | |
| NURSING 804 | Qualitative Design and Methods | |
| CURRIC/ COUN PSY/ ED POL/ ED PSYCH/ELPA/ RP & SE 719 | Introduction to Qualitative Research | |
| ED PSYCH 761 | Statistical Methods Applied to Education II | |
| ED PSYCH 771 | Test Construction | |
| **Responsible Conduct of Research Requirement** | | |
| To fulfill this requirement, students must complete one of the following courses: | | 1-2 |
| MED PHYS 701 | Ethics and the responsible conduct of research and practice of Medical Physics | |
| PHARMACY 800 | Research Ethics: Scientific Integrity and the Responsible Conduct of Research | |
| NURSING 802 | Ethics and the Responsible Conduct of Research | |
| COMP BIO/PATH-BIO 812 | Research Ethics and Career Development | |
| OBS&GYN 955 | Responsible Conduct of Research for Biomedical Graduate Students | |
| OBS&GYN 956 | Advanced Responsible Conduct of Research for Biomedical Students | |
| **Research or Electives** | | |
| To satisfy the minimum credit requirement, students complete additional courses or research credits (e.g., MED 990) | | 5-11 |
| **Total Credits** | | **30** |

[1] Students who complete this 8-credit sequence are required to take fewer research credits to compensate.

[2] The 1-credit B M I 699 Independent Study is for students with instructor consent who have prior statistics (no biostatistics coursework). Students who take this option must also complete 2 credits of another biostatistics course chosen in consultation with the program faculty director.

## POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

No credits from a UW–Madison or another institution's undergraduate degree may transfer.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

Because the program provides flexibility to clinical professionals who frequently begin their graduate careers part time as Special students, this program refers to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

MS students select their faculty advising (degree) committees by the end of the first year in the program. Students and the advisors who sign the form are asked to meet annually or more.

## CREDITS PER TERM ALLOWED

12 credits

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

### Grievance Policy for Graduate Programs in the School of Medicine and Public Health

Any student in a School of Medicine and Public Health graduate program who feels that they have been treated unfairly in regards to educational decisions and/or outcomes or issues specific to the graduate program, including academic standing, progress to degree, professional activities, appropriate advising, and a program's community standards by a faculty member, staff member, postdoc, or student has the right to complain about the treatment and to receive a prompt hearing of the grievance following these grievance procedures. Any student who discusses, inquiries about, or participates in the grievance procedure may do so openly and shall not be subject to intimidation, discipline, or retaliation because of such activity. Each program's grievance advisor is listed on the "Research" tab of the SMPH intranet (https://intranet.med.wisc.edu/).

**Exclusions**

This policy does not apply to employment-related issues for Graduate Assistants in TA, PA and/or RA appointments. Graduate Assistants will utilize the Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/) (GAPP) grievance process to resolve employment-related issues.

This policy does not apply to instances when a graduate student wishes to report research misconduct. For such reports refer to the UW-Madison Policy for Reporting Research Misconduct for Graduate Students and

Postdoctoral Research Associates (https://research.wisc.edu/kb-article/?id=84924).

**Requirements for Programs**

The School of Medicine and Public Health Office of Basic Research, Biotechnology and Graduate Studies requires that each graduate program designate a grievance advisor, who should be a tenured faculty member, and will request the name of the grievance advisor annually. The program director will serve as the alternate grievance advisor in the event that the grievance advisor is named in the grievance. The program must notify students of the grievance advisor, including posting the grievance advisor's name on the program's Guide page and handbook.

The grievance advisor or program director may be approached for possible grievances of all types. They will spearhead the grievance response process described below for issues specific to the graduate program, including but not limited to academic standing, progress to degree, professional activities, appropriate advising, and a program's community standards. They will ensure students are advised on reporting procedures for other types of possible grievances and are supported throughout the reporting process. Resources (https://grad.wisc.edu/current-students/#reporting-incidents) on identifying and reporting other issues have been compiled by the Graduate School.

**Procedures**

1. The student is advised to initiate a written record containing dates, times, persons, and description of activities, and to update this record while completing the procedures described below.
2. If the student is comfortable doing so, efforts should be made to resolve complaints informally between individuals before pursuing a formal grievance.
3. Should a satisfactory resolution not be achieved, the student should contact the program's grievance advisor or program director to discuss the complaint. The student may approach the grievance advisor or program director alone or with a UW-Madison faculty or staff member. The grievance advisor or program director should keep a record of contacts with regards to possible grievances. The first attempt is to help the student informally address the complaint prior to pursuing a formal grievance. The student is also encouraged to talk with their faculty advisor regarding concerns or difficulties.
4. If the issue is not resolved to the student's satisfaction, the student may submit a formal grievance to the grievance advisor or program director in writing, within 60 calendar days from the date the grievant first became aware of, or should have become aware of with the exercise of reasonable diligence, the cause of the grievance. To the fullest extent possible, a grievance shall contain a clear and concise statement of the grievance and indicate the issue(s) involved, the relief sought, the date(s) the incident or violation took place, and any specific policy involved.
5. On receipt of a written grievance, the following steps will occur. The final step must be completed within 30 business days from the date the grievance was received. The program must store documentation of the grievance for seven years. Significant grievances that set a precedent may be stored indefinitely.
    a. The grievance advisor or program director will convene a faculty committee composed of at least three members to manage the grievance. Any faculty member involved in the grievance or who feels that they cannot be impartial may not participate in the committee. Committee composition should reflect diverse viewpoints within the program.
    b. The faculty committee, through the grievance advisor or program director, will obtain a written response from the person or persons toward whom the grievance is directed. The grievance advisor or program director will inform this person that their response will be shared with the student filing the grievance.
    c. The grievance advisor or program director will share the response with the student filing the grievance.
    d. The faculty committee will make a decision regarding the grievance. The committee's review shall be fair, impartial, and timely. The grievance advisor or program director will report on the action taken by the committee in writing to both the student and the person toward whom the grievance was directed.
6. If either party (the student or the person or persons toward whom the grievance is directed) is unsatisfied with the decision of the program's faculty committee, the party may file a written appeal to the SMPH senior associate dean for basic research, biotechnology and graduate studies within 10 business days from the date of notification of the program's faculty committee. The following steps will occur:
    a. The grievant will be notified in writing, within 5 business days of the written appeal, acknowledging receipt of the formal appeal and establishing a timeline for the review to be completed.
    b. The senior associate dean or their designee may request additional materials and/or arrange meetings with the grievant and/or others. If meetings occur, the senior associate dean or their designee will meet with both the grievant and the person or persons toward whom the grievance is directed.
    c. The senior associate dean or their designee will assemble an ad hoc committee of faculty from outside of the student's graduate program and ask them to prepare a written recommendation on whether to uphold or reverse the decision of the program on the student's initial grievance. The committee may request additional materials and/or arrange meetings with the grievant and/or others. If meetings occur, the committee will meet with both the grievant and the person or persons toward whom the grievance is directed.
    d. The senior associate dean or their designee will make a final decision within 20 business days of receipt of the committee's recommendation.
    e. The SMPH Office of Basic Research, Biotechnology, and Graduate Studies must store documentation of the grievance for seven years. Grievances that set a precedent may be stored indefinitely.
7. The student may file an appeal of the School of Medicine and Public Health decision with the Graduate School. See the Grievances and Appeals section of the Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/documents/grievances-and-appeals/).

**Time Limits**

Steps in the grievance procedures must be initiated and completed within the designated time periods except when modified by mutual consent. If

the student fails to initiate the next step in the grievance procedure within the designated time period, the grievance will be considered resolved by the decision at the last completed step.

### OTHER

Full time PhD students and dual degree students are eligible for NIH funding. Students must obtain a faculty advisor and write a detailed personal statement that demonstrates working knowledge of clinical and/or translational research. No rotations are offered.

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

### PROGRAM RESOURCES

See the ICTR website (https://ictr.wisc.edu/) for more information.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Formulate research questions and address them using rigorous methods to generate reproducible findings that contribute to improving health.
2. Learn from and improve the health of patients through engagement in research that respects the full diversity of the population.
3. Contribute to programs that integrate clinical and translational science across scientific fields, disciplines, and professions to improve the health of patients and communities.
4. Draw on the expertise of collaborators in multiple disciples.
5. Contribute to analysis, interpretation, and reporting research findings through peer-reviewed scientific channels and to the public.
6. Apply and foster professional, ethical, and responsible conduct of research.

# CLINICAL INVESTIGATION, PHD

Clinical investigation is a field in which teams of health care professionals, biostatisticians, and others imagine, design, and conduct clinical research, and then take discoveries to human or animal patient populations in the health care system or in communities.

The focus of the PhD in Clinical Investigation is to enable translational competency among team leaders. In other words, the graduate program trains students to help move research toward solutions for patient populations more quickly. The PhD is one of fewer than 10 offered in the country with this focus.

Applicants ideally will have a health professional degree (MD, DVM, PharmD, BSN, BSE, MPT, DPT). Clinical Investigation students are unique among UW–Madison graduate students because they enter with a terminal degree (with exceptions) and they are seeking training to apply their work to improving health and(or) healthcare delivery.

The graduate program in clinical investigation that offers the PhD is housed in the UW Institute for Clinical and Translational Research (ICTR) and is designed in response to a need for clinical research training programs. The ICTR Clinical and Translational Science Award (CTSA) facilitates UW–Madison's ability to offer a spectrum of graduate programs in clinical research. This applied, clinical, and translational graduate program complements the areas of clinical research training by the population health sciences, nursing, and other graduate programs.

Representatives from the Schools of Medicine and Public Health, Nursing, Pharmacy, Education, and Veterinary Medicine, and the College of Engineering met as a task force in 2006 to design the program. All ICTR academic partners are represented in the curriculum. They are joined by partner Marshfield Clinic as members of the faculty executive committee that guides the program.

The curriculum draws from existing courses in the partner schools and includes new courses developed exclusively for the clinical investigation program. Coursework provides a solid foundation in research methods and analysis, including biostatistics, study design, informatics, and ethical conduct. Through electives and a research requirement, students pursue their own areas of specialization in patient-oriented clinical research.

The knowledge and skills acquired while earning a degree in clinical investigation can be applied to jobs in academic institutions; private industry, including pharmaceutical companies, insurers, and managed care organizations; government agencies; non-profit organizations; and a range of local to international organizations.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | February 1 |
| Spring Deadline | October 1 |
| Summer Deadline | The program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |

| | |
|---|---|
| Letters of Recommendation Required | 3 |

The program's faculty executive committee considers all aspects of each application. Applicants must meet the minimum requirements of the Graduate School plus those of the program, listed here:

- Have a focused area of interest in patient-oriented clinical research and a passion for continuing in a career in patient-oriented translational and/or clinical research.
- Ideally have a health professional degree (MD, DVM, PharmD, PhD, BSN, BSE, MPT, DPT).
- Identify a primary advisor to mentor and support the applicant throughout graduate study.

Admission will depend in part on identification of a research program that aligns with an applicant's research interests and career goals, an applicant's fit with the program and likelihood of successfully completing a graduate degree. Identification of a faculty advisor and research area of study is a key consideration in the admissions process but does not guarantee admission.

Acceptance into the program does not assure funding.

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

Prospective PhD students should see the program website (https://ictr.wisc.edu/graduate-program-in-clinical-investigation/) for funding information.

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 51 credits |
| Minimum Residence Credit Requirement | 32 credits |
| Minimum Graduate Coursework Requirement | 26 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required.<br>Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | Students must earn a B or above in all core curriculum coursework. |
| Assessments and Examinations | Oral preliminary exam required.<br><br>Defense of PhD dissertation required. The dissertation is submitted in writing to the degree committee two weeks prior to the defense date, and then defended verbally during the defense meeting. |
| Language Requirements | No language requirements. |
| Graduate School Breadth Requirement | Doctoral students in Clinical Investigation are not required to complete a doctoral minor or graduate/professional certificate. Breadth is achieved in other areas of the curriculum. |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Core** | | |
| Students must complete the following courses. | | |
| B M I/STAT 542 | Introduction to Clinical Trials I | 3 |
| POP HLTH 709 | Translational and Outcomes Research in Health and Health Care | 3 |

| | | |
|---|---|---|
| POP HLTH/ SOC 797 | Introduction to Epidemiology | 3 |
| NURSING/ MEDICINE/ POP HLTH 705 | Seminar in Interdisciplinary Clinical Research Evidence | 2-3 |
| H ONCOL 750 | Multi-disciplinary Patient-Oriented Research Presentation Skills Seminar | 1 |
| **Biostatistics Requirement** | | |
| To fulfill this requirement, students must complete one of the following courses or sequence: | | 3-4 |
| B M I/STAT 541 | Introduction to Biostatistics | |
| B M I/ POP HLTH 551 | Introduction to Biostatistics for Population Health [1] | |
| B M I 699 | Independent Study [2] | |
| **Clinical Translational Science Requirement** | | |
| To fulfill this requirment, students must complete 3 credits from one of the following courses: | | 3 |
| B M I 544 | Introduction to Clinical and Healthcare Research II | |
| B M I 773 | Clinical Research Informatics | |
| **Research Design Requirement** | | |
| To fulfill this requirement, students must complete 6 credits of a clinical and translational science, biostatistics, or methods course. Program administrator approval required for alternative courses and must be graduate level ("Grad 50%" designation). Examples of courses include the following: | | 6 |
| SOC/ C&E SOC 361 | Statistics for Sociologists II | |
| B M I/ POP HLTH 552 | Regression Methods for Population Health | |
| B M I/ POP HLTH 651 | Advanced Regression Methods for Population Health | |
| B M I/STAT 741 | Survival Analysis Theory and Methods | |
| B M I/ COMP SCI 771 | Learning Based Methods for Computer Vision | |
| B M I/ COMP SCI 775 | Computational Network Biology | |
| B M I/COMP SCI/ PSYCH 841 | Computational Cognitive Science | |
| NURSING 804 | Qualitative Design and Methods | |
| CURRIC/ COUN PSY/ ED POL/ ED PSYCH/ELPA/ RP & SE 719 | Introduction to Qualitative Research | |
| ED PSYCH 761 | Statistical Methods Applied to Education II | |
| ED PSYCH 771 | Test Construction | |
| **Grant Writing Requirement** | | |
| To fulfill this requirement, students must complete 1-2 credits of a grant writing course. Program administrator approval required for alternative courses and must be graduate level ("Grad 50%" designation). Examples of courses include the following: | | 1-2 |
| S&A PHM 701 | Grant Writing for Health Services Research | |
| CS&D 900 | Seminar-Speech Science (Topic: Research Career Development Seminar on Grant Writing) | |
| **Responsible Conduct for Research Requirement** | | |
| To fulfill this requirement, students must complete one of the following courses: | | 1-2 |
| MED PHYS 701 | Ethics and the responsible conduct of research and practice of Medical Physics | |
| PHARMACY 800 | Research Ethics: Scientific Integrity and the Responsible Conduct of Research | |
| NURSING 802 | Ethics and the Responsible Conduct of Research | |
| PATH-BIO/ COMP BIO 812 | Research Ethics and Career Development | |
| OBS&GYN 955 | Responsible Conduct of Research for Biomedical Graduate Students | |
| OBS&GYN 956 | Advanced Responsible Conduct of Research for Biomedical Students | |
| **Research or Electives** | | |
| To satisfy the minimum credit requirement, students complete additional courses or research credits (e.g., MED 990) | | 24-27 |
| **Total Credits** | | **51** |

1. Students who complete this 8-credit sequence are required to take fewer research credits to compensate.
2. The 1-credit B M I 699 Independent Study is for students with instructor consent who have prior statistics (no biostatistics coursework). Students who take this option must also complete 2 credits of another biostatistics course chosen in consultation with the program faculty director.

## POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

No credits from a UW–Madison or another institution's undergraduate degree may transfer.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special student at UW–Madison

Because the program provides flexibility to clinical professionals who frequently begin their graduate careers part time as Special students, this program refers to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

PhD students select their faculty advising (degree) committees by the end of the first year in the program. Students and the advisors who sign the Proposed Degree Committee form are asked to meet annually or more; dissertators (post–preliminary exam) twice a year or more.

## CREDITS PER TERM ALLOWED

12 credits

## TIME LIMITS

Doctoral students are expected to pass the final oral examination and deposit the dissertation no later than five years from the date of passing the preliminary examination. The oral examination is the oral defense of the completed dissertation. Full-time students generally complete the dissertation within two years of the preliminary examination. Part-time students may take longer.

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

### Grievance Policy for Graduate Programs in the School of Medicine and Public Health

Any student in a School of Medicine and Public Health graduate program who feels that they have been treated unfairly in regards to educational decisions and/or outcomes or issues specific to the graduate program, including academic standing, progress to degree, professional activities, appropriate advising, and a program's community standards by a faculty member, staff member, postdoc, or student has the right to complain about the treatment and to receive a prompt hearing of the grievance following these grievance procedures. Any student who discusses, inquiries about, or participates in the grievance procedure may do so openly and shall not be subject to intimidation, discipline, or retaliation because of such activity. Each program's grievance advisor is listed on the "Research" tab of the SMPH intranet (https://intranet.med.wisc.edu/).

#### Exclusions

This policy does not apply to employment-related issues for Graduate Assistants in TA, PA and/or RA appointments. Graduate Assistants will utilize the Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/) (GAPP) grievance process to resolve employment-related issues.

This policy does not apply to instances when a graduate student wishes to report research misconduct. For such reports refer to the UW-Madison Policy for Reporting Research Misconduct for Graduate Students and Postdoctoral Research Associates (https://research.wisc.edu/kb-article/?id=84924).

#### Requirements for Programs

The School of Medicine and Public Health Office of Basic Research, Biotechnology and Graduate Studies requires that each graduate program designate a grievance advisor, who should be a tenured faculty member, and will request the name of the grievance advisor annually. The program director will serve as the alternate grievance advisor in the event that the grievance advisor is named in the grievance. The program must notify students of the grievance advisor, including posting the grievance advisor's name on the program's Guide page and handbook.

The grievance advisor or program director may be approached for possible grievances of all types. They will spearhead the grievance response process described below for issues specific to the graduate program, including but not limited to academic standing, progress to degree, professional activities, appropriate advising, and a program's community standards. They will ensure students are advised on reporting procedures

for other types of possible grievances and are supported throughout the reporting process. Resources (https://grad.wisc.edu/current-students/#reporting-incidents) on identifying and reporting other issues have been compiled by the Graduate School.

**Procedures**

1. The student is advised to initiate a written record containing dates, times, persons, and description of activities, and to update this record while completing the procedures described below.
2. If the student is comfortable doing so, efforts should be made to resolve complaints informally between individuals before pursuing a formal grievance.
3. Should a satisfactory resolution not be achieved, the student should contact the program's grievance advisor or program director to discuss the complaint. The student may approach the grievance advisor or program director alone or with a UW-Madison faculty or staff member. The grievance advisor or program director should keep a record of contacts with regards to possible grievances. The first attempt is to help the student informally address the complaint prior to pursuing a formal grievance. The student is also encouraged to talk with their faculty advisor regarding concerns or difficulties.
4. If the issue is not resolved to the student's satisfaction, the student may submit a formal grievance to the grievance advisor or program director in writing, within 60 calendar days from the date the grievant first became aware of, or should have become aware of with the exercise of reasonable diligence, the cause of the grievance. To the fullest extent possible, a grievance shall contain a clear and concise statement of the grievance and indicate the issue(s) involved, the relief sought, the date(s) the incident or violation took place, and any specific policy involved.
5. On receipt of a written grievance, the following steps will occur. The final step must be completed within 30 business days from the date the grievance was received. The program must store documentation of the grievance for seven years. Significant grievances that set a precedent may be stored indefinitely.
    a. The grievance advisor or program director will convene a faculty committee composed of at least three members to manage the grievance. Any faculty member involved in the grievance or who feels that they cannot be impartial may not participate in the committee. Committee composition should reflect diverse viewpoints within the program.
    b. The faculty committee, through the grievance advisor or program director, will obtain a written response from the person or persons toward whom the grievance is directed. The grievance advisor or program director will inform this person that their response will be shared with the student filing the grievance.
    c. The grievance advisor or program director will share the response with the student filing the grievance.
    d. The faculty committee will make a decision regarding the grievance. The committee's review shall be fair, impartial, and timely. The grievance advisor or program director will report on the action taken by the committee in writing to both the student and the person toward whom the grievance was directed.
6. If either party (the student or the person or persons toward whom the grievance is directed) is unsatisfied with the decision of the program's faculty committee, the party may file a written appeal to the SMPH senior associate dean for basic research, biotechnology and graduate studies within 10 business days from the date of notification of the program's faculty committee. The following steps will occur:
    a. The grievant will be notified in writing, within 5 business days of the written appeal, acknowledging receipt of the formal appeal and establishing a timeline for the review to be completed.
    b. The senior associate dean or their designee may request additional materials and/or arrange meetings with the grievant and/or others. If meetings occur, the senior associate dean or their designee will meet with both the grievant and the person or persons toward whom the grievance is directed.
    c. The senior associate dean or their designee will assemble an ad hoc committee of faculty from outside of the student's graduate program and ask them to prepare a written recommendation on whether to uphold or reverse the decision of the program on the student's initial grievance. The committee may request additional materials and/or arrange meetings with the grievant and/or others. If meetings occur, the committee will meet with both the grievant and the person or persons toward whom the grievance is directed.
    d. The senior associate dean or their designee will make a final decision within 20 business days of receipt of the committee's recommendation.
    e. The SMPH Office of Basic Research, Biotechnology, and Graduate Studies must store documentation of the grievance for seven years. Grievances that set a precedent may be stored indefinitely.
7. The student may file an appeal of the School of Medicine and Public Health decision with the Graduate School. See the Grievances and Appeals section of the Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/documents/grievances-and-appeals/).

**Time Limits**

Steps in the grievance procedures must be initiated and completed within the designated time periods except when modified by mutual consent. If the student fails to initiate the next step in the grievance procedure within the designated time period, the grievance will be considered resolved by the decision at the last completed step.

## OTHER

Full-time PhD students and dual degree students are eligible for NIH funding. Students must obtain a faculty advisor, and write a detailed personal statement that demonstrates working knowledge of clinical and/or translational research. No rotations are offered.

# PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

## GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

### PROGRAM RESOURCES

See the ICTR website (https://ictr.wisc.edu/) for more information.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Formulate research questions and address them using rigorous methods to generate reproducible findings that contribute to improving health.
2. Disseminate knowledge through best practices, teaching, and mentoring students/trainees.
3. Learn from and improve the health of patients through design and implementation of research that respects the full diversity of the population.
4. Be prepared to lead programs that integrate clinical and translational science across scientific fields, disciplines, and professions to improve the health of patients and communities.
5. Engage patients and communities to inform research, to advance translational progress, and to produce research outcomes that respects the full diversity of the population.
6. Draw on the expertise of collaborators in multiple disciplines.
7. Analyze, interpret, and report research findings through peer-reviewed scientific channels and to the public.
8. Apply and foster professional, ethical, and responsible conduct of research.

# FUNDAMENTALS OF CLINICAL RESEARCH, GRADUATE/PROFESSIONAL CERTIFICATE

To conduct patient-oriented clinical studies adequately, it is necessary to understand the principles of research design and statistical analysis. With increasing complexities in clinical research, it is imperative that clinical researchers receive a minimum training in clinical research methods. The objective of the certificate in the fundamentals of clinical research is to provide formalized training in clinical research methodology and a practicum in research design and statistical analysis in patient-oriented clinical research. Areas of study include: biostatistics, epidemiology, and clinical trials design and implementation.

## ADMISSIONS

# ADMISSIONS

Applications to the certificate program are considered on a rolling basis. Students in graduate or professional programs at UW–Madison should apply before enrolling for the semester in which they want to start the certificate courses.

Submit the graduate or professional certificate application (https://ictr.wisc.edu/program/fundamentals-of-clinical-research-certificate/).

All forms and materials can be emailed in PDF form (preferred), delivered, or mailed to:

Graduate Program Manager (see contact box for individual contact information)
studentinquiry@ictr.wisc.edu
2112 Health Sciences Learning Center
750 Highland Avenue
Madison, WI 53705

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any graduate/professional certificate. To apply to this certificate, log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. Select the information for the certificate for which you are applying. Professional students in the careers of Law, Medicine, Pharmacy, and Veterinary must contact the Program for information on how to apply.

## REQUIREMENTS

# REQUIREMENTS

### REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Core** | | |
| Students must complete the following courses. | | |
| B M I/STAT 542 | Introduction to Clinical Trials I | 3 |
| POP HLTH/ SOC 797 | Introduction to Epidemiology | 3 |
| **Biostatistics Requirement** | | |
| Students must complete 3-4 credits to fulfill this requirement. Course selections are listed below. | | 3-4 |
| B M I/STAT 541 | Introduction to Biostatistics | |
| B M I 699 | Independent Study [1] | |
| B M I/ POP HLTH 551 | Introduction to Biostatistics for Population Health | |
| **Clinical Translational Science Requirement** | | |
| Students complete 3-credits to fulfill this requirement. Course selections are listed below. | | 3 |
| B M I 544 | Introduction to Clinical and Healthcare Research II | |
| B M I 773 | Clinical Research Informatics | |
| POP HLTH 709 | Translational and Outcomes Research in Health and Health Care | |
| **Total Credits** | | **12** |

[1] The 1-credit B M I 699 is for students with instructor consent who have prior statistics (not biostatistics) coursework. Students who take this option must also complete an additional 2 credits. Consult with certificate program for course options.

For questions, contact the Graduate Program Manager, at studentinquiry@ictr.wisc.edu. (studentinquiry@ictr.wisc.edu)

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Determine when it is appropriate to use a patient-oriented research design to investigate a translational clinical problem.

2. Understand the principles of clinical research design and statistical analysis.
3. Understand the principles of multidisciplinary patient-oriented clinical research protocols.
4. Apply and foster professional, ethical and responsible conduct of clinical research.

# IMPLEMENTATION SCIENCE AND COMMUNITY HEALTH OUTCOMES, GRADUATE/PROFESSIONAL CERTIFICATE

Students who are interested in solving problems in community health, health services, or health policy may want to supplement their training with the Certificate in Implementation Science and Community Health Outcomes.

Current research investments reflect an emphasis on research that looks for ways to translate what has been learned in controlled settings into positive outcomes in clinical practice and community health. This research requires the ability to:

- consider multiple factors that interact to influence a community or organization;
- form and manage research partnerships with communities and organizations;
- evaluate whether a health intervention or prevention method works or will be used; and
- articulate policy implications of health issues and interventions.

The Certificate in Implementation Science and Community Health Outcomes focuses on the development of these skills.

The certificate addresses a well-documented gap in what should be a continuum between basic health and medical research discoveries and the application of those discoveries in clinical and public health practice. To bridge this gap, new discoveries must move beyond efficacy studies to research that tests effectiveness in real-world settings, exploring factors that facilitate or impede positive health outcomes. This research requires engagement among community members, organizations, clinicians, and researchers as partners in the research process and draws on a distinct set of skills. This certificate focuses on the development of skills to engage successfully in clinical and community health outcomes research.

## ADMISSIONS

# ADMISSIONS

## APPLICATION GUIDELINES

The Institute for Clinical and Translational Research (ICTR) is the administrative home of the Certificate in Implementation Science and Community Health Outcomes. Detailed information about the curriculum, admission requirements, application procedures, and student services coordinators is posted on the ICTR website (http://www.ictr.wisc.edu/).

Whether a student enrolls in the graduate/professional certificate or capstone certificate program will depend on their educational goals (course requirements are the same for all).

## PREREQUISITES, APPLICATION AND ENROLLMENT PROCEDURES

Graduate and professional students from any discipline are eligible to apply for enrollment in the graduate/professional certificate program. To be considered for admission, complete the following application procedures.

1. Print and complete the certificate application form (available on the program website (https://ictr.wisc.edu/T2TRCertificate/)).
2. Send the completed application to the Graduate Program Coordinator, 2112J HSLC, University of Wisconsin, Madison, WI 53705; studentinquiry@ictr.wisc.edu.
3. Applications are reviewed on a rolling basis by the certificate advisory committee.
4. Notification of admission to the certificate program: If the student has completed the application procedures described above, notification of the admission decision will be received within three weeks. Students with questions about the status of the application should contact Graduate Program Coordinator at studentinquiry@ictr.wisc.edu.
5. All Graduate School students must also utilize the Graduate Student Portal in MyUW to add, change, or discontinue any graduate/professional certificate. To apply to this certificate, log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. Select the information for this graduate/professional certificate. Professional students in the careers of Law, Medicine, Pharmacy, and Veterinary cannot add the certificate in the Graduate Student Portal, and should contact the program for more information.
6. Once admitted, the certificate advisory committee will review the stated research interests and recommend an advisor. The objective is to match students with an advisor from a discipline other than their own, to expose students to a variety of perspectives. Students will be notified with the name and contact information of their advisor. They should schedule a meeting with the certificate advisor within the first month after being admitted to identify learning and career objectives, and to discuss the program in relation to student goals.

### Note to PhD Students:

PhD students should start the graduate/professional certificate program early enough to be finished before starting the dissertation. Refer to the Graduate School: Dissertator Status (https://policy.wisc.edu/library/UW-1247/) policy.

## REQUIREMENTS

# REQUIREMENTS

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Core Requirement** | | |
| Students must complete the following course. | | |
| POP HLTH 709 | Translational and Outcomes Research in Health and Health Care | 3 |
| **Electives** | | |
| Students must select one course from each of the following areas: | | 5-6 |

| | |
|---|---|
| *Working with Communities and Implementation Science* | |
| COUN PSY 531 | Prevention and Intervention in Mental Health Across the Lifespan |
| CSCS 813 | Transformative Evaluation in Practice |
| DS 679 | Research Methods in Design |
| ED POL/ELPA/ PUB AFFR 765 | Issues in Educational Policy Analysis |
| ED PSYCH 573 | Implementation Science in Community and School Mental Health |
| HDFS 872 | Bridging the Gap Between Research and Action |
| JOURN/ COM ARTS/ LSC 617 | Health Communication in the Information Age |
| HDFS/ ED PSYCH/ NURSING/ SOC WORK 880 | Prevention Science |
| I SY E 417 | Health Systems Engineering |
| I SY E 517 | Decision Making in Health Care |
| NURSING 702 | Health Promotion and Disease Prevention in Diverse Communities |
| NURSING 714 | Advanced Health Systems Leadership and Innovation |
| NURSING 761 | Health Program Planning, Evaluation, and Quality Improvement |
| NURSING 818 | Patient-centered Research |
| OTM 753 | Healthcare Operations Management |
| OTM 758 | Managing Technological and Organizational Change |
| OTM 770 | Sustainable Approaches to System Improvement |
| S&A PHM 652 | Pharmacist Communication: Educational and Behavioral Interventions |
| S&A PHM 704 | Dissemination, Implementation and Sustainment of Change in Health Services Research |
| PHARMACY 608 | Safety and Quality in the Medication Use System |
| PUB AFFR 863 | Health Systems and Policy |
| PUB AFFR 974 | Topics in Public Affairs |
| PUBLHLTH 780 | Evidence-Based Decision-Making |
| SOC/ C&E SOC 573 | Community Organization and Change |
| SOC/C&E SOC/ URB R PL 617 | Community Development |
| *Qualitative Methods Relevant to Implementation Science and Community Outcomes Research* | |

| COUN PSY/ CURRIC/ED POL/ ED PSYCH/ELPA/ RP & SE 788 | Qualitative Research Methods in Education: Field Methods I |
| CURRIC/ COUN PSY/ ED POL/ ED PSYCH/ELPA/ RP & SE 719 | Introduction to Qualitative Research |
| ELPA 824 | Introduction to Qualitative Inquiry in Educational Leadership and Policy Analysis |
| NURSING 804 | Qualitative Design and Methods |
| SOC/ ED POL 955 | Seminar-Qualitative Methodology |
| **Project** | |
| Students work with their certificate advisor to develop an appropriate project. Students will enroll in an independent study course to complete the project. | 2 |
| FAM MED 699 | Directed Study |
| or KINES 699 | Independent Study |
| or SOC WORK 799 | Independent Study |
| or OBS&GYN 699 | Directed Study |
| or NURSING 999 | Advanced Independent Study |
| or I SY E 699 | Advanced Independent Study |
| **Seminar** | |
| Students must select one of the following: | 1-2 |
| COUN PSY 601 | Best Practices in Community-Engaged Scholarship |
| NURSING 590 | Contemporary Practices in Nursing |
| POP HLTH 699 | Independent Reading |
| Presentation/Video Option [1] | |
| **Total Credits** | **11** |

[1] Students enroll in 1 credit of independent study with their certificate advisor. For details about the Presentation/Video Option for the seminar, contact the certificate coordinator.

## Electives

The certificate advisor may help students choose courses to fulfill the two elective areas:

1. Working with Communities and
2. Qualitative Research Methods Relevant to Translational and Outcomes Research.

At least one of the courses must be from outside the student's major. Students may propose to their certificate advisor an alternative course (i.e., not on the list of approved electives) for consideration as elective credit, including a course that also fulfills a requirement for their degree program. For criteria and procedures, see the handbook on the program website (https://ictr.wisc.edu/program/implementation-science-community-health-outcomes-certificate/).

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

### ADDITIONAL RESOURCES AND OPPORTUNITIES

UW Institute for Clinical and Translational Research (https://ictr.wisc.edu/)

Resources to support clinical, translational, and outcomes research

### MENTORING

- Research Mentoring: https://ictr.wisc.edu/research-services/
- The Individual Development Plan for mapping your mentee's (graduate student and postdoc) academic and professional development: http://grad.wisc.edu/pd/idp (http://grad.wisc.edu/pd/idp/)

Qualitative and Mixed Methods Research Resources (https://ictr.wisc.edu/program/qualitative-mixed-method-research-educational-resources/)

HIP Xchange (https://www.hipxchange.org/)

Tools, videos, and data downloads to identify socioeconomic disadvantaged locations, improve patient engagement in research, identify patients with chronic conditions, and more.

Training-grant opportunities (https://ictr.wisc.edu/career-development-awards-2/)

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Develop a research question about a health concern of an actual community.
2. Select an evidence-based approach to addressing the health concern.
3. Involve investigators from two or more disciplines and/or stakeholders from two or more sectors as partners in your project.
4. Demonstrate an understanding of collaboration skills for sustainable partnerships, e.g., benefits to the community partner(s) are built into the project; evidence of partner input to project design.
5. Employ data gathering and analysis methods that respect community partners' organizational culture, values, staffing, and work flow.

## DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

# DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/ PROFESSIONAL CERTIFICATES

- African Studies, Doctoral Minor (p. 1140)
- African Studies, Graduate/Professional Certificate (p. 1142)
- East Asian Studies, Doctoral Minor (p. 1142)
- Global Studies, Doctoral Minor (p. 1144)
- Latin American, Caribbean, and Iberian Studies, Doctoral Minor (p. 1144)
- Latin American, Caribbean, and Iberian Studies, MA (p. 1145)
- Russian, East European and Central Asian Studies, Doctoral Minor (p. 1149)
- Russian, East European and Central Asian Studies, Graduate/Professional Certificate (p. 1149)
- Russian, East European and Central Asian Studies, MA (p. 1152)
- Southeast Asian Studies, Doctoral Minor (p. 1158)
- Southeast Asian Studies, MA (p. 1158)

# AFRICAN STUDIES, DOCTORAL MINOR

The Doctoral Minor in African Studies is for students completing a PhD at the University of Wisconsin–Madison who wish to focus their study on Africa. It requires four courses or seminars in two departments outside the student's major department. The African studies minor is completed under "Minor Option A" of the Graduate School regulations.

# SUGGESTIONS FOR STUDENTS PURSUING THE DOCTORAL MINOR IN AFRICAN STUDIES

- Early Approval of Minor Program: It is the student's responsibility as a graduate student to determine that all courses/seminars being completed are eligible for inclusion in the doctoral minor. Students are encouraged to consult with the African Studies Program advisor before taking courses intended to be included in the minor.
- Language Training: In planning the program, students should bear in mind the strong desirability of attaining competence in an African language. For many kinds of research, ability to use a language as a research tool is indispensable.

- Auditing Courses: In addition to courses and seminars formally taken for credit, students are encouraged to audit additional offerings to develop a broad competence in African studies.

## ADMISSIONS

# ADMISSIONS

- Meet with the African Studies Program advisor. To make an appointment, send an email to the program's Associate Director (see Contact Information).
- All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any doctoral minor. To apply to this minor, log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. Select the information for the doctoral minor for which you are applying.
- After you have completed the preliminary PhD examinations, the African Studies Program director or designate will sign the warrant indicating completion of the minor.

## REQUIREMENTS

# REQUIREMENTS

### GRADE REQUIREMENT

Grade Point Average: A 3.0 grade point average is required for all courses submitted for the minor.

### REQUIRED COURSES

- Complete a minimum of 12 graduate credits from the African Studies Program core curriculum (http://africa.wisc.edu/?page_id=26) in four courses or seminars outside the major field, and from at least two different departments, in consultation with the faculty advisor. (Agricultural and applied economics, and economics courses/seminars are considered to be of one discipline for purposes of the minor.) See list below for example courses. Other courses may be chosen in consultation with the faculty advisor.
- Graduate credit is available only for courses with numbers of 300 or higher and with the graduate designation ("Grad 50%").
- At least one of these four units must be a course or seminar numbered 700 to 999. No thesis or dissertation credits (990) may be used.
- Introductory first-year language courses may not be used for the doctoral minor in African studies even if they are numbered 300 or higher. Language courses may count for the minor only in so far as they do not overlap with departmental language requirements. When a department requires an African language for the PhD, language courses may count toward the minor only above and beyond four semesters of study in one language.
- Include no more than one independent reading and research course in the four courses or seminars submitted.

#### Example Courses

| Code | Title | Credits |
|---|---|---|
| AFROAMER/ AFRICAN 813 | Contemporary African and Caribbean Drama | 3 |
| AFRICAN 321 | First Semester Arabic | 5 |
| AFRICAN 322 | Second Semester Arabic | 5 |

| AFRICAN 926 | Seminar in Research Methods in African Cultural Studies | 3 |
| AFRICAN/ ANTHRO/ECON/ GEOG/HISTORY/ POLI SCI 983 | Interdepartmental Seminar in African Studies Topics | 3 |
| HISTORY 861 | Seminar-The History of Africa | 1-3 |
| ENGL 829 | Topics in Migration and Diaspora (Migration in the Black Diaspora) | 3 |
| INTL ST 620 | Topics in International Studies (Contemporary Issues in Africa) | 1-4 |
| POLI SCI/AFRICAN/ ANTHRO/ ECON/GEOG/ HISTORY 983 | Interdepartmental Seminar in African Studies Topics | 3 |

### SPECIAL CIRCUMSTANCES AND CONDITIONS IN COMPLYING WITH THE DOCTORAL MINOR

- Credits from Other Universities: Courses from other universities that were taken for graduate credit may count toward the minor with approval of the African Studies Program. Normally, only two of the required four courses or seminars may come from outside the University of Wisconsin–Madison. Exceptions may be proposed by petition.
- Courses Taken as an Undergraduate: Courses taken while the candidate was an undergraduate student are not eligible for credit toward the doctoral minor, including courses with graduate-level numbers.

# AFRICAN STUDIES, GRADUATE/PROFESSIONAL CERTIFICATE

The Graduate Certificate in African Studies is awarded to students at the graduate level at the University of Wisconsin–Madison to certify advanced training in African studies. It is awarded by the African Studies Program and the Graduate School.

## ADMISSIONS

## ADMISSIONS

### APPLICATION FOR CERTIFICATE IN AFRICAN STUDIES AT THE GRADUATE LEVEL

- Contact the Associate Director and Advisor.
- All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any graduate/professional certificate. To apply to this certificate, log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. Select the information for the certificate for which you are applying. Professional students in the careers of Law, Medicine, Pharmacy, and Veterinary cannot add the certificate in the Graduate Student Portal, and should contact the program for more information.
- After the student has completed the requirements for the graduate certificate in African studies, the African Studies Program director or designate will inform the major department that the student has earned the certificate.

## FUNDING

## FUNDING

Information about funding through the African Studies Program is available from our website (http://africa.wisc.edu/?page_id=28). We also encourage our students to explore funding options available through the Institute for Regional and International Studies (IRIS) Awards Office (https://iris.wisc.edu/funding/).

## REQUIREMENTS

## REQUIREMENTS

- Complete at least 12 credits of African Studies Program core courses or extended core courses (https://africa.wisc.edu/academics/courses/) taught by an African Studies Program faculty member.
- Graduate credit is available only for courses numbered 300 or higher with the Grad 50% designation.
- Maintain a grade point average of 3.0 (on a 4.0 scale).
- Fulfill the requirements for a master's or doctoral degree at the University of Wisconsin–Madison.
- Include 9 credits outside of the major department. No more than 3 credits will count from the major department.
- Complete at least one graduate-level seminar in African studies with a grade of AB or better. It may be in the major field.

### ADDITIONAL TERMS

- Include no more than 3 credits of directed reading and research or independent reading (AFRICAN 699 Directed Study, AFRICAN 999 Independent Reading and Research). No thesis/dissertation credits (AFRICAN 990 Thesis) may be included.
- Only one course in a single language may satisfy certificate requirements, but two languages courses may be applied if they are in different African languages.
- Note: All African Cultural Studies courses (https://guide.wisc.edu/courses/african/) may satisfy requirements for the graduate certificate within the limits set by the distribution requirements described above.

## LEARNING OUTCOMES

## LEARNING OUTCOMES

1. Regional expertise: advanced knowledge of the societies and cultures of the region through in-depth understanding of the principal historical, social, political, cultural and scientific forces and conditions that have given rise to the unity and diversity in the region today.
2. Multi-disciplinarity: analyzing contemporary political, economic, and cultural realities in the region from at least two disciplinary perspectives, ideally including humanities, social sciences and sometimes natural science approaches.
3. Depth of knowledge: advanced knowledge of particular facets of life in the region by taking courses on particular sub-regions or countries, by studying a regional language, or by taking at least two courses on the region in one discipline
4. Research and methods: Students must demonstrate the ability to conduct interdisciplinary research that shows knowledge of research methodologies, demonstrates analytical skills, and the ability to articulate and elaborate research findings.

# EAST ASIAN STUDIES, DOCTORAL MINOR

The Center for East Asian Studies (https://eastasia.wisc.edu/) (CEAS) is the focal point connecting East Asia to UW-Madison. One of UW-

Madison's eight federally funded National Resource Centers, CEAS is dedicated to all aspects of research, education, and outreach related to China, Japan, and Korea.

CEAS began in 1962 as the East Asian Studies program, building on more than sixty years of research and teaching on China, Japan, and Korea at UW-Madison. Over the years it has grown from fewer than a dozen faculty members teaching 30 graduate-level courses to more than 70 faculty members teaching nearly 300 courses at both undergraduate and graduate levels.

The doctoral minor in East Asian Studies is offered to students who are enrolled in a doctoral program at UW-Madison and are interested in focusing their studies on East Asia. Students interested in obtaining this minor should consult with the Center's Associate Director, who serves as the advisor for the minor in East Asian studies.

## ADMISSIONS

# ADMISSIONS

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any doctoral minor. To apply to this minor, please log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. Select the information for the doctoral minor for which you are applying.

The Associate Director and Advisor will review your application for admittance, and reach out to you if there are any further questions. Please contact the Associate Director and Advisor prior to submitting your application in the Graduate Student Portal.

## REQUIREMENTS

# REQUIREMENTS

## REQUIRED COURSES

Students earning an interdisciplinary PhD Minor in East Asian Studies must complete a minimum of 12 credits in East Asian area studies. These credits must be earned in at least three subject listings other than the student's major department, and courses must contain a minimum of 25 percent East Asian content. Please contact the Center for East Asian Studies for additional guidance on course selection.

# GLOBAL STUDIES, DOCTORAL MINOR

A doctoral minor in global studies will be of interest to doctoral students who plan for careers in public policy, research, and academia, as well as those interested in careers in government, media, and the private and nonprofit sectors. The minor emphasizes systemic approaches to globalization in an interdisciplinary context, thereby distinguishing itself from existing graduate course work in international studies that emphasize specialization in particular areas of the world (e.g., East Asian studies or African studies) or specific aspects of globalization (e.g., global health or global legal studies). The minor is intended to provide doctoral students with an institutional setting to pursue the study of globalization as a complement to their major degree program.

## ADMISSIONS

## ADMISSIONS

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any doctoral minor. To apply to this minor, please log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. The minor coordinator will review your application for admittance, and reach out to you if there are any further questions.

## FUNDING

## FUNDING

### GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

### PROGRAM RESOURCES

The IRIS Awards Office manages its own funding opportunities (Scott Kloeck-Jenson Fellowships, IRIS Graduate Fieldwork Awards, Incubator Grants), coordinates the campus component of a number of external programs (Boren Fellowships, Fulbright U.S. Student Program, Fulbright-Hays DDRA, Luce Scholars Program), coordinates IRIS regional center awards such as the Foreign Language and Area Studies (FLAS) Fellowships, assists students, faculty, and staff in exploring funding options, and much more.

Follow us on X (formerly Twitter) (https://twitter.com/uwiris_awards/) and contact Mark Lilleleht, Assistant Director for Awards, with questions at awards@iris.wisc.edu, 608-265-6070.

## REQUIREMENTS

## REQUIREMENTS

The minor in Global Studies is 12 credits total. Students who minor in global studies will be required to take the core Global Studies Graduate Seminar (INTL ST 720 Global Studies Seminar) and related course work. In addition to the 3-credit Global Studies Graduate Seminar, students must take 9 credits from a list of approved courses. Students must take one course from three of the four categories:

1. Global Culture and Humanity
2. Global Commons
3. World Affairs and the Global Economy
4. Human Security and Global Citizenship

Students should consult with an IRIS advisor (https://iris.wisc.edu/advising/) for course listings within these categories.

# LATIN AMERICAN, CARIBBEAN, AND IBERIAN STUDIES, DOCTORAL MINOR

Candidates for a PhD degree in other departments may obtain this Option A doctoral minor in Latin American, Caribbean, and Iberian Studies. All PhD minor candidates must consult with the program director or associate director at the time they begin their work for the PhD minor. Certification of proficiency in Spanish or Portuguese is required.

## ADMISSIONS

## ADMISSIONS

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any doctoral minor. To apply to this minor, please log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. The advisor will review your application for admittance, and reach out to you if there are any further questions.

## REQUIREMENTS

## REQUIREMENTS

Students take a minimum of 12 credits in graduate courses related to Latin America, the Caribbean, Spain, or Portugal. A list of courses available for LACIS credit is prepared each semester by the program staff. This work is to be done outside the major field of the candidate's doctoral specialization. One course cross-listed with the major may be used for the minor so long as it is not taught by a faculty member from the major department and is not a required course for the major. The LACIS MA may

be used as a PhD minor, as long as the degree program meets the minor requirements.

# LATIN AMERICAN, CARIBBEAN, AND IBERIAN STUDIES, MA

The Latin American, Caribbean, and Iberian Studies (LACIS) Program offers three graduate programs: Master of Arts, a Doctoral Minor, and a Dual Degree in Law and Latin American, Caribbean, and Iberian Studies.

The mission of the graduate program is to provide an interdisciplinary foundation for the study of Latin America, the Caribbean, Spain, and Portugal. The University of Wisconsin–Madison is nationally recognized for excellence in research and teaching on these regions. The LACIS program includes a core faculty of over 100 members and course offerings in close to 40 disciplines and professional schools, including anthropology, business, community and environmental sociology, comparative literature, environmental studies, gender and women's studies, geography, history, law, music, political science, sociology, and population health. Languages offered include Spanish, and Portuguese. Quechua and Yucatec Maya are also offered on a periodic basis.

Many faculty members have received extensive national and international recognition. Detailed faculty research interests and publications can be accessed through Mapping LACIS Research. (https://lacis.wisc.edu/mapping-lacis-research/) UW–Madison also publishes the journal *Luso-Brazilian Review* and holds an annual graduate student conference, *Kaleidoscope*.

While the majority of candidates in the program are from the United States, a significant number are from Latin America, the Caribbean, and Iberia. Funding assistance for candidates specializing in Latin America, the Caribbean, and Iberia includes: Title VI Foreign Language and Area Studies (FLAS) fellowships, the Helen Firstbrook Franklin Fellowship, Advanced Opportunity Fellowship (AOF), teaching assistantships (Intro to Latin American Studies), and the Tinker-Nave Field Grant Program, commonly used for summer research travel. Please contact the program office for more information on funding opportunities (https://lacis.wisc.edu/funding/for-graduates/).

Originally established in the 1930s, the program has a long history of university and federal support. Since 1961, LACIS has been recognized as a National Resource Center (NRC) by the US Department of Education, which provides Title VI support for program activities and for FLAS fellowships. The program has a faculty of extraordinary diversity and across-the-board strength. These strengths encompass not only the classic social science and humanities fields, but also the natural and ecological sciences and the agricultural and professional schools. Not many other universities can compete with the overall range of UW–Madison's faculty expertise in Latin American, Caribbean, and Iberian studies. UW–Madison's general excellence is reflected by its consistent ranking among the top ten graduate universities in the United States.

## DUAL DEGREE PROGRAM

Candidates interested in earning a dual degree in law and Latin American, Caribbean, and Iberian Studies must apply to both programs and must meet the degree requirements for both programs. The dual degree program can be completed in seven semesters. Typically, the student begins the LACIS portion of the program in the second year of law school. More information can be found on the website (https://lacis.wisc.edu/programs/dual-degree-in-law-and-lacis/).

## ADMISSIONS

## ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | January 5 |
| Spring Deadline | October 15 |
| Summer Deadline | The program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

Admission to the master's program is competitive and requires a strong undergraduate academic background, a clear demonstration of interdisciplinary interests, and a strong statement of purpose illustrating the applicant's goals. In addition to the online application, applicants must submit to the program: transcript(s) of all undergraduate work, three letters of recommendation, a statement of reasons for graduate study, and a current CV. Applications must be received by deadline above for the fall semester.

## FUNDING

## FUNDING

### GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

### Tinker Nave Short Term Field Research Grants

Application Deadline: Applications for summer fieldwork are typically due the first Friday in March.

See website (https://lacis.wisc.edu/funding/for-graduates/) for more details.

### Foreign Language and Area Studies Graduate Fellowships (FLAS), (HEA Title VI)

FLAS funding is not currently available. See website (https://flas.wisc.edu/) for more details.

For further information and assistance about financial aid please visit the Office of Student Financial Aid (https://financialaid.wisc.edu/).

# REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 18 credits |
| Minimum Graduate Coursework Requirement | 15 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | n/a |
| Assessments and Examinations | Students must write and defend a paper or optional master's thesis to a three-person committee consisting of the faculty advisor, Latin American, Caribbean, and Iberian Studies director or associate director and one more relevant faculty member. |
| Language Requirements | Candidates must obtain certification of basic proficiency in Spanish or Portuguese or offer proof of proficiency. |

## REQUIRED COURSES

Completion of the degree requires 30 credits of courses with Latin American, Caribbean and Iberian language and area content. At least 50% of course credit must be in courses numbered 700 or above, or that have the graduate designation. Students choose among Latin American, Caribbean, and Iberian Studies' core areas in consultation with the Program Associate Director and their faculty advisor.

| Code | Title | Credits |
|---|---|---|
| **Core Courses** | | |
| Core area courses numbered 300 or above decided in consultation with the Program Associate Director and faculty advisor | | 12 |
| **Complementary Area Coursework** | | |
| Courses numbered 300 or above, or Foreign Language and Area studies approved language courses decided in consultation with the Program Associate Director and faculty advisor | | 12 |
| *Pertinent Research Methods* | | |
| At least 3 credits of complementary coursework in a pertinent research methods course are required. | | |
| *Graduate Seminars* | | |
| At least two seminars (6 credits total) must be included in the complementary coursework, including the following course. | | |
| LACIS/A A E/ ANTHRO/ C&E SOC/ GEOG/HISTORY/ POLI SCI/ PORTUG/SOC/ SPANISH 982 | Interdepartmental Seminar in the Latin-American Area | |
| **Additional Coursework** | | |
| The remaining credits will be completed through additional coursework. Thesis credits may satisfy additional coursework (see below for more information). | | 6 |
| **Total Credits** | | **30** |

### Thesis Credits

Thesis credits may satisfy requirements for additional coursework. **A limit of 6 credits of LACIS 698 Directed Study or LACIS 699 Directed**

**Study can fulfill Latin American, Caribbean, and Iberian Studies coursework.**

## POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program approval, students are allowed to transfer no more than 6 credits of graduate coursework from other institutions.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

No credits from an undergraduate degree are allowed to transfer toward the degree.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

Students are allowed to transfer no more than 6 credits of coursework numbered 300 or above taken as a UW–Madison University Special student. The student would not be allowed to transfer courses toward the 50% graduate coursework minimum unless taken in coursework numbered 700 or above or are taken to meet the requirements of a capstone certificate and has the "Grad 50%" designation.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

1. Good standing (progressing according to standards; any funding guarantee remains in place).
2. Probation (not progressing according to standards but permitted to enroll; loss of funding guarantee; specific plan with dates and deadlines in place in regard to removal of probationary status).
3. Unsatisfactory progress (not progressing according to standards; not permitted to enroll, dismissal, leave of absence or change of advisor or program).

## ADVISOR / COMMITTEE

The program director or associate director will be the formal advisor for all students in the program. In addition, students are expected to work with a faculty advisor to complete a final paper or an optional thesis to be defended to a three member committee.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Candidates are expected to finish the degree in four semesters of full-time study; after four semesters, the student must petition for extension. Time to degree will be customized for students in dual or articulated degree programs. Students must also petition for part-time (fewer than 6 credits per semester) status.

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## L&S POLICY FOR GRADUATE STUDENT ACADEMIC APPEALS

Graduate students have the right to appeal an academic decision related to an L&S graduate program if the student believes that the decision is inconsistent with published policy.

Academic decisions that may be appealed include:

- Dismissal from the graduate program
- Failure to pass a qualifying or preliminary examination
- Failure to achieve satisfactory academic progress

- Academic disciplinary action related to failure to meet professional conduct standards

Issues such as the following cannot be appealed using this process:

- A faculty member declining to serve as a graduate student's advisor.
- Decisions regarding the student's disciplinary knowledge, evaluation of the quality of work, or similar judgements. These are the domain of the department faculty.
- Course grades. These can be appealed instead using the L&S Policy for Grade Appeal (https://kb.wisc.edu/ls/22258/).
- Incidents of bias or hate, hostile and intimidating behavior (https://hr.wisc.edu/hib/), or discrimination (Title IX (https://compliance.wisc.edu/titleix/), Office of Compliance (https://compliance.wisc.edu/eo-complaint/formal-investigations/)). Direct these to the linked campus offices appropriate for the incident(s).

### Appeal Process for Graduate Students

A graduate student wishing to appeal an academic decision must follow the process in the order listed below. Note time limits within each step.

1. The student should first seek informal resolution, if possible, by discussing the concern with their academic advisor, the department's Director of Graduate Studies, and/or the department chair.
2. If the program has an appeal policy listed in their graduate program handbook, the student should follow the policy as written, including adhering to any indicated deadlines. In the absence of a specific departmental process, the chair or designee will be the reviewer and decision maker, and the student should submit a written appeal to the chair within 15 business days of the academic decision. The chair or designee will notify the student in writing of their decision.
3. If the departmental process upholds the original decision, the graduate student may next initiate an appeal to L&S. To do so, the student must submit a written appeal to the L&S Assistant Dean for Graduate Student Academic Affairs within 15 business days of notification of the department's decision.
    a. To the fullest extent possible, the written appeal should include, in a single document: a clear and concise statement of the academic decision being appealed, any relevant background on what led to the decision, the specific policies involved, the relief sought, any relevant documentation related to the departmental appeal, and the names and titles of any individuals contributing to or involved in the decision.
    b. The Assistant Dean will work with the Academic Associate Dean of the appropriate division to consider the appeal. They may seek additional information and/or meetings related to the case.
    c. The Assistant Dean and Academic Associate Dean will provide a written decision within 20 business days.
4. If L&S upholds the original decision, the graduate student may appeal to the Graduate School. More information can be found on their website: Grievances and Appeals (https://grad.wisc.edu/documents/grievances-and-appeals/) (see: Graduate School Appeal Process).

## OTHER

Latin American, Caribbean, and Iberian Studies has a JD/MA dual degree. Contact the program for more information.

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Demonstrate an understanding of the principal historical, societal, scientific and humanist concerns that are rooted in the realities of the broader Latin American, Caribbean and Iberian regions. These include but are not limited to: knowledge of pre-colonial indigenous societal organizations; the experience of colonialism; the biodiversity of the region; and the regions tumultuous social, economic and political trajectory and the specific challenges these have posed for the peoples of the regions. In particular, students should demonstrate an understanding of the unique historical trajectory of these regions as the product of the global confluence of various cultural, social, political and economic influences beginning in the late 15th century. This includes not only the especially profound mutual impact of Iberian colonization of the Americas, but also the larger context of European imperial conflict in the Western Hemisphere, the central place of African slavery in the development of the Atlantic economy, and the significant and multifaceted role that the United States has played in shaping Latin America and the Caribbean. Students should recognize how these histories and contemporary realities impact more specific questions, contemporary or historical, and humanist, social scientific or scientific in nature.
2. Within students' more specific area of interest, they should be able to articulate key theoretical and empirical concerns and identify appropriate theoretical approaches to the problem of interest and identify empirical sources that can help to answer that question or problem.
3. Students should demonstrate proficiency, and preferably advanced language ability, in either Spanish or Portuguese. Additional indigenous language learning, such as Kichwa, Quechua, Quichua and Nahuatil, are also encouraged.
4. Demonstrate the ability to conduct interdisciplinary research that: includes a critical literature review; selects appropriate research methodologies; proposes an appropriate research design to collect, analyze, interpret, and present findings; successfully carries out this research plan.
5. Demonstrate the ability to articulate and elaborate their research findings.
6. Recognize and apply principles of ethical and professional conduct. This includes, in particular, an understanding of the ethics of research and professional activities in cross-cultural contexts.

# RUSSIAN, EAST EUROPEAN AND CENTRAL ASIAN STUDIES, DOCTORAL MINOR

## ADMISSIONS

### ADMISSIONS

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any doctoral minor. To apply to this minor, please log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. The advisor will review your application for admittance, and reach out to you if there are any further questions.

Doctoral students may not earn both the REECAS graduate/professional certificate and the REECAS doctoral minor.

## REQUIREMENTS

### REQUIREMENTS

Recognition of interdisciplinary training at the graduate level can be acquired with a REECAS certificate. Doctoral minor requirements in specific fields can also be fulfilled under the REECAS program. The requirements for a doctoral minor under Option A (external minor) may be satisfied by completing 9 credits of graduate courses in Russian, East European and Central Asian studies. These 9 credits must be distributed over at least two departments outside the student's major department. Students should contact the program office for specific information regarding these requirements.

# RUSSIAN, EAST EUROPEAN AND CENTRAL ASIAN STUDIES, GRADUATE/ PROFESSIONAL CERTIFICATE

The graduate/professional certificate in REECAS provides graduate students with a general background in the areas of anthropology, economics, foreign policy, geography, government and politics, history, language and literature, law, and sociology. It also provides specific knowledge about one of these areas. With its emphasis on interdisciplinary study, a REECAS certificate enhances the training of PhD candidates who wish to teach and do research at the college level, and serves the needs of MA and PhD students who wish to make a career in public service, journalism, library and information studies, or other professions requiring a well-rounded acquaintance with this diverse and highly important area.

## ADMISSIONS

### ADMISSIONS

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any graduate/professional certificate. To apply to this certificate, log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. Select the information for the certificate for which you are applying. Professional students in the careers of Law, Medicine, Pharmacy, and Veterinary cannot add the certificate in the Graduate Student Portal, and should contact the program for more information.

The certificate coordinator will review your application for admittance, and reach out to you if there are any further questions.

## REQUIREMENTS

### REQUIREMENTS

#### REQUIRED COURSES

Students must complete 12 credits in Russian, East European and Central Asian Studies (REECAS) core courses distributed over three distinct subject listings from the lists below. Language classes are not applicable to the 12-credit requirement. All 12 credits must be in REECAS area studies content classes and include:

- At least 6 credits must be graduate-level coursework (i.e., courses numbered 700 or above, or 300 or above with the Grad 50% designation).
- At least one course (3 credits) must be a graduate-level seminar in which a research paper on the region (Russia, East Europe, Central Asia) is written, utilizing original source material in the target language(s).

#### Language Requirement

In addition to the required 12 credits in area studies content classes, students must demonstrate a working knowledge of one of the languages of Russia, Eastern and Central Europe, and/or Eurasia. This requirement may be met through two years of university language study (or the equivalent) in one of the region's languages. At UW-Madison, Kazakh, Persian, Polish, Russian, Turkish, and Ukrainian are offered regularly during the academic year.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Regional expertise: advanced knowledge of the societies and cultures of the region through in-depth understanding of the principal historical, social, political, cultural and scientific forces and conditions that have given rise to the unity and diversity in the region today.
2. Multi-disciplinarity: analyzing contemporary political, economic, and cultural realities in the region from at least two disciplinary perspectives, ideally including humanities, social sciences and sometimes natural science approaches.
3. Depth of knowledge: advanced knowledge of particular facets of life in the region by taking courses on particular sub-regions or countries, by studying a regional language, or by taking at least two courses on the region in one discipline
4. Research and methods: Students must demonstrate the ability to conduct interdisciplinary research that shows knowledge of research methodologies, demonstrates analytical skills, and the ability to articulate and elaborate research findings.

# RUSSIAN, EAST EUROPEAN AND CENTRAL ASIAN STUDIES, MA

The master of arts degree program in Russian, East European and Central Asian studies provides interdisciplinary area studies training for emerging professionals and future leaders in business, development, government, journalism, law, publishing, and the military. The curriculum is designed to promote a broad understanding of the cultural, political, economic, social, and historical factors that have shaped the development of societies in Eurasia, Russia, and Central and Eastern Europe; mastery in Russian, East European, or Central Asian languages at a level necessary for doing advanced research on and professional work in the region; and knowledge of methodological and analytical approaches of different disciplines that will contribute to a better understanding of the region and will prepare students for conducting advanced research. The program requires both area studies and language training.

The MA program is designed to be completed in three semesters, but motivated students who enter with prior language study and commit to intensive summer coursework have the option of completing the course of study within 12 calendar months. Students will work closely with the MA advisor, who serves as their primary graduate studies advisor, to ensure that their course of study is both coherent and sufficiently interdisciplinary.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | January 8 |
| Spring Deadline | The program does not admit in the spring. |
| Summer Deadline | The program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required but may be considered if available. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

Students entering the master's program must have a bachelor's degree from an accredited institution and provide evidence of academic achievement and intellectual ability, including a minimum total grade point average of 3.0 (on a 4.0 scale) and a 3.4 in related area courses and letters of recommendation. There is no minimum admission requirement for language, but students are strongly advised to complete two years of area language study before entering the program.

Applicants for admission to the MA degree program in Russian, East European and Central Asian studies should submit an online application.

The following materials are required:

- Statement of purpose
- Official transcripts from all postsecondary institutions attended
- Three letters of recommendation
- Language questionnaire

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

CREECA is not able to offer a financial guarantee to students but is committed to connecting students with funding opportunities on campus. A limited number of teaching assistantships and project assistantships may be available in CREECA and in specific departments that offer high-enrollment courses on REECAS. Information about these assistantships can be obtained by writing or calling CREECA and the respective departments.

Information on the Foreign Language and Area Studies (FLAS) Fellowships program, funded by the U.S. government, can be found on the FLAS website: Foreign Language & Area Studies (FLAS) Fellowships (http://flas.wisc.edu/).

Students interested in studying Polish may be eligible to apply for a Michael and Emily Lapinski fellowship (https://gns.wisc.edu/lapinski-scholarship/). The annual deadline is March 1. Please contact the Slavic program for more information.

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | Yes |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 15 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required.<br>Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | n/a |
| Assessments and Examinations | Students have the option to complete a thesis. The master's thesis will demonstrate the student's ability to engage in original research in a student's chosen field, including the ability to use original-language material. Contact the program for more information. |
| Language Requirements | Language learning is an integral part of the program, and students will be required to enroll in language courses each term. Students already proficient in their main language will be expected to choose another Slavic or Central Eurasian language for the duration of their program. For degree completion, students must have a minimum of two years of university-level study (or the equivalent) of a regional language with at least three years of study strongly recommended. During the academic year, the program offers Kazakh, Persian, Polish, Russian, Turkish, and Ukrainian.<br><br>Students entering with prior experience in Russian are required to take a pre-program assessment. Students are also required to take a language course each term. See below for more details. |

## REQUIRED COURSES

Students must complete 30 credits of coursework. A minimum of 22 credits must be in area studies (non-language) coursework. Specific requirements are outlined below.

| Code | Title | Credits |
|---|---|---|
| **Russian, East European and Central Asian Studies** | | |
| Five courses in Russian, East European and Central Asian Studies numbered 300 or above. Courses must be distributed over at least three subject listings. At least 50% of the credits must be courses designed for graduate work. Courses with the graduate level coursework ("Grad 50%") designationare identified and searchable in Guide. See the list below for courses. | | 15 |
| **Seminars** | | |
| Two graduate-level seminars (numbered 700-999). Refer to "Seminar Courses" list below. | | 6 |
| Russian, East European and Central Asian Studies MA students are expected to use original language source material in their graduate seminar papers. See lists below for courses. | | |
| **Topics** | | |
| Students must complete the following course: | | |
| SLAVIC 755 | Topics in Slavic Literature (Introduction to Russian, East European, and Central Asian Studies) | 1 |
| **Language Courses** | | |
| Refer to "Language Courses" list for options. | | 8 |
| **Optional Master's Thesis** | | |
| Students may enroll in a 3-credit, faculty-supervised, independent research course in the home department of their advisor. These credits can be applied toward the required 22 non-language credits, but could not take the place of a required graduate-level seminar. | | 0-3 |
| **Total Credits** | | **30** |

## POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program approval, students are allowed to transfer no more than 9 credits of graduate coursework from other institutions. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

With program approval, students are allowed to transfer no more than 9 credits of coursework numbered 300 or above taken as a UW–Madison University Special student. However, these credits are not allowed to count toward the 50% graduate coursework minimum unless numbered 700 or above or are taken to meet the requirements of a capstone certificate and has the "Grad 50%" designation. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Every graduate student is required to have an advisor. To ensure that students are making satisfactory progress toward a degree, the Graduate School expects them to meet with their advisor on a regular basis.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## L&S POLICY FOR GRADUATE STUDENT ACADEMIC APPEALS

Graduate students have the right to appeal an academic decision related to an L&S graduate program if the student believes that the decision is inconsistent with published policy.

Academic decisions that may be appealed include:

- Dismissal from the graduate program
- Failure to pass a qualifying or preliminary examination
- Failure to achieve satisfactory academic progress
- Academic disciplinary action related to failure to meet professional conduct standards

Issues such as the following cannot be appealed using this process:

- A faculty member declining to serve as a graduate student's advisor.
- Decisions regarding the student's disciplinary knowledge, evaluation of the quality of work, or similar judgements. These are the domain of the department faculty.
- Course grades. These can be appealed instead using the L&S Policy for Grade Appeal (https://kb.wisc.edu/ls/22258/).
- Incidents of bias or hate, hostile and intimidating behavior (https://hr.wisc.edu/hib/), or discrimination (Title IX (https://compliance.wisc.edu/titleix/), Office of Compliance (https://compliance.wisc.edu/eo-complaint/formal-investigations/)). Direct these to the linked campus offices appropriate for the incident(s).

### Appeal Process for Graduate Students

A graduate student wishing to appeal an academic decision must follow the process in the order listed below. Note time limits within each step.

1. The student should first seek informal resolution, if possible, by discussing the concern with their academic advisor, the department's Director of Graduate Studies, and/or the department chair.
2. If the program has an appeal policy listed in their graduate program handbook, the student should follow the policy as written, including adhering to any indicated deadlines. In the absence of a specific departmental process, the chair or designee will be the reviewer and

decision maker, and the student should submit a written appeal to the chair within 15 business days of the academic decision. The chair or designee will notify the student in writing of their decision.

3. If the departmental process upholds the original decision, the graduate student may next initiate an appeal to L&S. To do so, the student must submit a written appeal to the L&S Assistant Dean for Graduate Student Academic Affairs within 15 business days of notification of the department's decision.
   a. To the fullest extent possible, the written appeal should include, in a single document: a clear and concise statement of the academic decision being appealed, any relevant background on what led to the decision, the specific policies involved, the relief sought, any relevant documentation related to the departmental appeal, and the names and titles of any individuals contributing to or involved in the decision.
   b. The Assistant Dean will work with the Academic Associate Dean of the appropriate division to consider the appeal. They may seek additional information and/or meetings related to the case.
   c. The Assistant Dean and Academic Associate Dean will provide a written decision within 20 business days.
4. If L&S upholds the original decision, the graduate student may appeal to the Graduate School. More information can be found on their website: Grievances and Appeals (https://grad.wisc.edu/documents/grievances-and-appeals/) (see: Graduate School Appeal Process).

### OTHER

Accelerated language study available during summer. We encourage qualified US citizens and permanent residents to apply for the Foreign Language and Area Studies (FLAS) fellowship through the Center for Russia, East Europe, and Central Asia (CREECA). Foreign Language and Area Studies (FLAS) applications are due on or near February 15 of each year; please check the FLAS website (https://flas.wisc.edu/) for updates. The application form for Foreign Language and Area Studies (FLAS) is separate from the application for admission. We regret that other sources of funding, such as teaching assistantships and project assistantships, are limited.

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Demonstrate an understanding of the cultural, political, economic, social, and historical factors that that have shaped the development of societies in Eurasia, Russia, and East and Central Europe.
2. Articulate, critique, and/or elaborate the theories, research methods, and approaches to inquiry in one or more of the disciplines represented in the interdisciplinary field of Russian, East European, and Central Asian studies (REECAS).
3. Identify sources and assemble evidence pertaining to questions or challenges in REECAS.
4. Demonstrate an understanding of Russian, East European, and Central Asian studies in a historical, social, or global context.
5. Select and utilize appropriate methodologies and practices in one or more of the disciplines represented in the interdisciplinary field of REECAS.
6. Evaluate and synthesize information pertaining to questions or challenges in REECAS and should communicate clearly in written and spoken work in ways appropriate to REECAS.
7. Recognizes and apply principles of ethical and professional conduct in the context of Russian, East European, and Central Asian studies.
8. (Language proficiency) Develop speaking, listening, writing, and reading skills in one or more of the languages of Russia, East and Central Europe, and Central Eurasia, and integrate these skills to communicate in a variety of social and academic situations.

# SOUTHEAST ASIAN STUDIES, DOCTORAL MINOR

## ADMISSIONS

# ADMISSIONS

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any doctoral minor. To apply to this minor, please log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. The minor coordinator will review your application for admittance, and reach out to you if there are any further questions.

The doctoral minor in Southeast Asian studies is offered to students who are enrolled in a doctoral program at the university and are interested in focusing their disciplinary program on Southeast Asia. Students interested in obtaining this minor should first consult with their disciplinary adviser to clarify the type of minor required and then consult with the center's advisor for the minor in Southeast Asian studies.

## REQUIREMENTS

# REQUIREMENTS

The minor requires a minimum of 12 credits in departments outside the student's major and must be approved in advance by the center director in consultation with a faculty associate of the center.

# SOUTHEAST ASIAN STUDIES, MA

The MA degree in Southeast Asian Studies is an interdisciplinary program designed to meet the unique needs of two broad groups of students: those seeking certification of area expertise en route to a disciplinary doctoral degree and those seeking a terminal MA en route to a wide range of careers in Southeast Asia, including employment in business, journalism, and various government and international organizations.

The Center for Southeast Asian Studies administers a formal graduate program in Southeast Asian studies and facilitates interdisciplinary study on Southeast Asia in intercollege, professional, and other degree

programs throughout the university. The Southeast Asian studies program provides students with the opportunity to concentrate their study of this dynamic region in several disciplines and professional areas: anthropology, communications (journalism), development, education, economics, environmental studies, geography, history, linguistics, literature, music and dance (performing arts), political science, public health, religion, sociology, and urban and regional planning, as well as natural resources, business, and law, and public policy. Faculty expertise and library holdings are particularly strong for in-depth study of Cambodia, Indonesia, Laos, Philippines, Thailand, and Vietnam. The goal of the program is to provide students with a strong area and language background on Southeast Asia and to prepare them for a range of academic and professional careers.

Language study is a critical component in area studies, and the center encourages students to develop proficiency in at least one Southeast Asian language. During the academic year, instruction is offered through the Department of Asian Languages and Cultures in five Southeast Asian languages: Filipino (Tagalog), Hmong, Indonesian, Thai, and Vietnamese. Each language is offered at two or more levels of instruction, with advanced readings and literature courses available in Indonesian. The center also facilitates participation in the Southeast Asian Studies Summer Institute (SEASSI), which provides instruction during the summers at multiple levels in eight languages of the region: Burmese, Filipino, Hmong, Indonesian/Malaysian, Javanese, Khmer, Lao, Thai, and Vietnamese, and depending on enrollments, Javanese. Though SEASSI is hosted by the center and based in Madison, it is open to students from anywhere. More information is available on the SEASSI website (http://seassi.wisc.edu/).

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | April 1 for international applicants; June 1 for domestic applicants |
| Spring Deadline | August 1 for international applicants; October 1 for domestic applicants |
| Summer Deadline | The program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

### APPLICATION MATERIALS

The required materials for the online application are:

- Statement of purpose
- Unofficial transcripts of all undergraduate and graduate study
- Three references

Applicants must demonstrate a level of proficiency in a Southeast Asian language equivalent to four semesters of the language. The program will verify proficiency acquired through heritage (nationality) or previous study.

In cases where deficiencies are identified, applicants must complete additional language courses during enrollment (chosen in consultation with advisor). These courses do not satisfy minimum degree requirements.

# FUNDING

### GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

### PROGRAM RESOURCES

Center Field Research Grants (for up to $7,000) are offered for graduate student research on a competitive basis during the summers and supported by the center's Mellon endowment; the competition for these grants takes place in mid-February each year and is intended for research in or about Southeast Asia in all disciplines. See the website (https://seasia.wisc.edu/fellowships-and-financial-aid/) for additional information.

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

### MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 30 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | n/a |
| Assessments and Examinations | To complete the MA program, students must write a research paper on Southeast Asia approved by and under the supervision of their faculty advisor; this paper must then be defended in an oral examination before three faculty members affiliated with the Center (their advisor and two others selected in consultation with their advisor). |
| Language Requirements | Students must demonstrate a level of proficiency in a Southeast Asian language equivalent to having successfully completed four semesters of the language. |

## REQUIRED COURSES

Students must complete thirty credits of area-content coursework (https://seasia.wisc.edu/courses/). Specific course requirements are outlined below.

| Code | Title | Credits |
|---|---|---|
| **Field of Concentration** | | |
| Students must complete 12 credits related to Southeast Asia in one field of concentration. This can be 12 credits from one department or 12 credits from an interdisciplinary field approved by the faculty advisor. See list below for example courses. Other courses may be chosen in consultation with the faculty advisor | | 12 |
| **Two or more Fields Coursework** | | |
| Students must complete the remaining 18 credits in two or more other fields. These courses are chosen in consultation with faculty advisor. | | 18 |
| *Graduate Seminars (6 credits)* | | |
| Students must complete at least 6 credits of graduate seminars. These seminars can be completed within the student's field of concentration, one or more other fields of coursework, or both requirements. | | |
| **Total Credits** | | **30** |

### Example Courses

Please contact the Center for Southeast Asian Studies for additional guidance on course selection.

| Code | Title | Credits |
|---|---|---|
| ANTHRO 310 | Topics in Archaeology (Archaeology of Southeast Asia) | 3 |
| ANTHRO 310 | Topics in Archaeology (Archaeology of Violence and Warfare) | 3 |
| ANTHRO 330 | Topics in Ethnology (Peoples and Cultures of Mainland Southeast Asia) | 3-4 |
| ANTHRO 330 | Topics in Ethnology (Film/Anthropology/Culture) | 3-4 |
| ANTHRO 490 | Undergraduate Seminar (Ancient States and Empires of East and Southeast Asia) | 3 |
| ASIAN 403 | Southeast Asian Literature | 3 |
| ASIAN 630 | Proseminar: Studies in Cultures of Asia | 3 |
| COM ARTS 310 | Topics in Rhetoric and Communication Science (Discourses of Dictators, Demagogues and Extremists) | 3 |
| COM ARTS 470 | Contemporary Political Discourse (Rhetoric of Modern Democratic Revoluations) | 3 |
| HISTORY/ASIAN/ RELIG ST 308 | Introduction to Buddhism | 3-4 |
| HISTORY/ASIAN 319 | The Vietnam Wars | 3-4 |
| HISTORY/ INTL ST 375 | The Cold War - From World War II to End of Soviet Empire | 3-4 |
| HISTORY 755 | Proseminar in Southeast Asian History (Empire and Revolution: US and European Empires in SE Asia) | 1-3 |
| HISTORY 755 | Proseminar in Southeast Asian History (CIA Covert Warfare and Conduct of US Foreign Policy) | 1-3 |

| | | |
|---|---|---|
| HISTORY 755 | Proseminar in Southeast Asian History (U.S. and European Colonialism in Southeast Asia) | 1-3 |

### Advanced Language

Up to 6 credits of Advanced Language (ASIALANG (https://guide.wisc.edu/courses/asialang/) courses) may be applied toward the minimum degree requirements. Interdisciplinary courses may be taken from many departments. All courses applied toward the degree program must have at least 30% Southeast Asian content, demonstrated by lectures and readings, and/or by relevant writing assignments or a research paper.

## POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program approval, students are allowed to transfer no more than 9 credits of graduate coursework from other institutions.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

No credits from an undergraduate degree are allowed to transfer toward the degree.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

With program approval, students are allowed to transfer no more than 9 credits of coursework numbered 300 or above taken as a UW–Madison University Special student.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Every graduate student is required to have an advisor. To ensure that students are making satisfactory progress toward a degree, the Graduate School expects them to meet with their advisor on a regular basis.

An advisor generally serves as the thesis advisor. In many cases, an advisor is assigned to incoming students. Students can be suspended from the Graduate School if they do not have an advisor. An advisor is a faculty member, or sometimes a committee, from the major department responsible for providing advice regarding graduate studies.

A committee often accomplishes advising for the students in the early stages of their studies.

As a multidisciplinary program, the student will not be assigned a faculty advisor until they have decided on the disciplinary approach for their research paper. Until that time, the Graduate Program Advisor (Michael Cullinane) will serve as the student's advisor in completing the program requirements and will assist in the selection of a faculty advisor.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## L&S POLICY FOR GRADUATE STUDENT ACADEMIC APPEALS

Graduate students have the right to appeal an academic decision related to an L&S graduate program if the student believes that the decision is inconsistent with published policy.

Academic decisions that may be appealed include:

- Dismissal from the graduate program
- Failure to pass a qualifying or preliminary examination
- Failure to achieve satisfactory academic progress
- Academic disciplinary action related to failure to meet professional conduct standards

Issues such as the following cannot be appealed using this process:

- A faculty member declining to serve as a graduate student's advisor.
- Decisions regarding the student's disciplinary knowledge, evaluation of the quality of work, or similar judgements. These are the domain of the department faculty.
- Course grades. These can be appealed instead using the L&S Policy for Grade Appeal (https://kb.wisc.edu/ls/22258/).
- Incidents of bias or hate, hostile and intimidating behavior (https://hr.wisc.edu/hib/), or discrimination (Title IX (https://compliance.wisc.edu/titleix/), Office of Compliance (https://compliance.wisc.edu/eo-complaint/formal-investigations/)). Direct these to the linked campus offices appropriate for the incident(s).

### Appeal Process for Graduate Students

A graduate student wishing to appeal an academic decision must follow the process in the order listed below. Note time limits within each step.

1. The student should first seek informal resolution, if possible, by discussing the concern with their academic advisor, the department's Director of Graduate Studies, and/or the department chair.
2. If the program has an appeal policy listed in their graduate program handbook, the student should follow the policy as written, including adhering to any indicated deadlines. In the absence of a specific departmental process, the chair or designee will be the reviewer and decision maker, and the student should submit a written appeal to the chair within 15 business days of the academic decision. The chair or designee will notify the student in writing of their decision.
3. If the departmental process upholds the original decision, the graduate student may next initiate an appeal to L&S. To do so, the student must submit a written appeal to the L&S Assistant Dean for Graduate Student Academic Affairs within 15 business days of notification of the department's decision.
    a. To the fullest extent possible, the written appeal should include, in a single document: a clear and concise statement of the academic decision being appealed, any relevant background on what led to the decision, the specific policies involved, the relief sought, any relevant documentation related to the departmental appeal, and the names and titles of any individuals contributing to or involved in the decision.
    b. The Assistant Dean will work with the Academic Associate Dean of the appropriate division to consider the appeal. They may seek additional information and/or meetings related to the case.
    c. The Assistant Dean and Academic Associate Dean will provide a written decision within 20 business days.
4. If L&S upholds the original decision, the graduate student may appeal to the Graduate School. More information can be found on their website: Grievances and Appeals (https://grad.wisc.edu/documents/grievances-and-appeals/) (see: Graduate School Appeal Process).

# PROFESSIONAL DEVELOPMENT

## PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

# LEARNING OUTCOMES

## LEARNING OUTCOMES

1. Demonstrate knowledge of one or more regions of Southeast Asia, focusing on a research question(s), problem or case study situated within a broader analytic framework and knowledge of the cultures, religions, history, anthropology, geography, economics, literature, and/or languages within scholarship on Southeast Asia.
2. Demonstrate proficiency in reading, speaking, and listening in one or more Southeast Asian languages, at least at the proficiency level of four semesters.
3. Analyze and synthesize information and ideas within the context of interdisciplinary Southeast Asian studies.
4. Understand, respond to, and construct arguments across disciplines relating to the study of Southeast Asia.
5. Apply their knowledge to solutions of intellectual as well as practical problems.
6. Recognize and apply principles of professional and ethical conduct.
7. Conduct academic research using an appropriate range of social scientific and/or humanistic sources, methodologies, and critical theories.
8. Communicate effectively in writing and orally.

# INTEGRATIVE BIOLOGY

- Integrative Biology, Doctoral Minor (p. 1170)
- Integrative Biology, MS (p. 1170)
- Integrative Biology, PhD (p. 1176)

# FRESHWATER AND MARINE SCIENCES, MS

The Freshwater and Marine Sciences (FMS) Graduate Program offers curricula leading to the master of science and doctor of philosophy degrees in freshwater and marine sciences. Interdisciplinary in nature, each individualized program of study provides graduate training in aquatic sciences and integrates related sciences. Students enrolled in the program are advised by faculty in several departments in the College of Letters & Science, the College of Engineering, the College of Agricultural and Life Sciences, and the School of Veterinary Medicine.

UW–Madison is recognized worldwide as a leader in the field of limnology and aquatic ecology. The FMS Program began in 1962 as the oceanography and limnology program. The program combines research and teaching from several fields and departments to develop a greater understanding of aquatic systems—their origins, inhabitants, phenomena, and impact on human life.

The FMS Program emphasizes limnological studies and is based on the premise that limnology and marine sciences are integrated fields requiring a broad base in the fundamental disciplines. Students may specialize in limnology or in marine sciences, or they may focus on processes common to both environments.

Study plans are individually tailored for each student by a guidance and evaluation committee composed of at least three committee members including the major professor, another professor from the major field of interest, and a third from another discipline. The committee guides the student in developing study plans, research, and career goals.

## FACILITIES

Facilities for freshwater and marine research and instruction in the biological, chemical, and physical areas of limnology and marine sciences are available at UW–Madison through the Center for Limnology, the Water Science & Engineering Laboratory, and the departments of faculty participating in the program. The Center for Limnology also maintains a year-round laboratory at Trout Lake. This facility is a well-equipped biological field station in the Northern Highlands lake district of Wisconsin. Several research vessels are available for research on the Great Lakes. Ships belonging to other institutions are used for oceanographic field research.

## ADMISSIONS

### ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | January 1 |
| Spring Deadline | October 1 |
| Summer Deadline | March 17 for international applicants; May 1 for domestic applicants |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

### ADMISSIONS

Given the broad nature of the program, there are no strict prerequisites for admission. Interested applicants should identify and contact potential faculty advisors. Students will be recommended for admission to the Freshwater and Marine Science graduate program if (1) a faculty graduate admission committee has determined the student's application meets all requirements, **and** (2) available funding. Applicants should contact potential faculty advisors by email early in the application process to discuss mutual interests and to determine if the faculty member is actively recruiting graduate students. For a list of all faculty members and their research interests, please see Faculty (https://fms.wisc.edu/faculty-staff/) on the program website.

In addition to the Graduate School application, all applicants must electronically submit at least three letters of recommendation, the supplemental application questions, a personal statement including areas of research interest and the names of prospective faculty advisors, a CV/resume, and unofficial transcripts from all undergraduate and graduate schools attended (official transcripts will be requested if recommended for admission to the program). Most admission decisions will be made, and applicants will be notified, by the end of March.

## FUNDING

### FUNDING

#### GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

#### PROGRAM RESOURCES

Various types of financial assistance programs are available to qualified students in the form of research assistantships, teaching assistantships, fellowships, and special grants. Decisions regarding financial support are based on letters of recommendation, grades, and the matching of interests or experience of the applicant to the research program. For

research assistantships, the applicant's interests and experience must match the needs of the funding project.

| PATH-BIO 990 | Research | |
| PLANTSCI 990 | Research | |
| SOIL SCI 990 | Research | |
| ZOOLOGY 990 | Research | |
| **Graduate Level Coursework** | | |
| At least 50% of credits must be in courses designated as graduate level coursework ("Grad 50%" designation). Common coursework examples include: | | 15 |
| CIV ENGR 415 | Hydrology | |
| CIV ENGR 500 | Water Chemistry | |
| F&W ECOL/ STAT 571 | Statistical Methods for Bioscience I | |
| F&W ECOL/ ZOOLOGY 660 | Climate Change Ecology | |
| F&W ECOL/ ENTOM 711 | Multivariate Analysis of Ecological and Community Data | |
| ZOOLOGY/ ENTOM 540 | Theoretical Ecology | |
| ZOOLOGY/ BOTANY 725 | Ecosystem Concepts | |
| **Total Credits** | | **30** |

POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program approval, students may be allowed to transfer up to 14 credits of graduate coursework from other institutions. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

No undergraduate coursework is allowed to transfer.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

With program approval, students may be allowed to transfer up to 15 credits taken as a UW–Madison University Special student. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

1. Good standing (progressing according to standards; any funding guarantee remains in place).
2. Probation (not progressing according to standards but permitted to enroll; loss of funding guarantee; specific plan with dates and deadlines in place in regard to removal of probationary status).
3. Unsatisfactory progress (not progressing according to standards; not permitted to enroll, dismissal, leave of absence or change of advisor or program).

## ADVISOR / COMMITTEE

All incoming students are assigned an advisor. Students are expected to meet with their advisor on a regular basis.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)

- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## L&S POLICY FOR GRADUATE STUDENT ACADEMIC APPEALS

Graduate students have the right to appeal an academic decision related to an L&S graduate program if the student believes that the decision is inconsistent with published policy.

Academic decisions that may be appealed include:

- Dismissal from the graduate program
- Failure to pass a qualifying or preliminary examination
- Failure to achieve satisfactory academic progress
- Academic disciplinary action related to failure to meet professional conduct standards

Issues such as the following cannot be appealed using this process:

- A faculty member declining to serve as a graduate student's advisor.
- Decisions regarding the student's disciplinary knowledge, evaluation of the quality of work, or similar judgements. These are the domain of the department faculty.

- Course grades. These can be appealed instead using the L&S Policy for Grade Appeal (https://kb.wisc.edu/ls/22258/).
- Incidents of bias or hate, hostile and intimidating behavior (https://hr.wisc.edu/hib/), or discrimination (Title IX (https://compliance.wisc.edu/titleix/), Office of Compliance (https://compliance.wisc.edu/eo-complaint/formal-investigations/)). Direct these to the linked campus offices appropriate for the incident(s).

### Appeal Process for Graduate Students

A graduate student wishing to appeal an academic decision must follow the process in the order listed below. Note time limits within each step.

1. The student should first seek informal resolution, if possible, by discussing the concern with their academic advisor, the department's Director of Graduate Studies, and/or the department chair.
2. If the program has an appeal policy listed in their graduate program handbook, the student should follow the policy as written, including adhering to any indicated deadlines. In the absence of a specific departmental process, the chair or designee will be the reviewer and decision maker, and the student should submit a written appeal to the chair within 15 business days of the academic decision. The chair or designee will notify the student in writing of their decision.
3. If the departmental process upholds the original decision, the graduate student may next initiate an appeal to L&S. To do so, the student must submit a written appeal to the L&S Assistant Dean for Graduate Student Academic Affairs within 15 business days of notification of the department's decision.
    a. To the fullest extent possible, the written appeal should include, in a single document: a clear and concise statement of the academic decision being appealed, any relevant background on what led to the decision, the specific policies involved, the relief sought, any relevant documentation related to the departmental appeal, and the names and titles of any individuals contributing to or involved in the decision.
    b. The Assistant Dean will work with the Academic Associate Dean of the appropriate division to consider the appeal. They may seek additional information and/or meetings related to the case.
    c. The Assistant Dean and Academic Associate Dean will provide a written decision within 20 business days.
4. If L&S upholds the original decision, the graduate student may appeal to the Graduate School. More information can be found on their website: Grievances and Appeals (https://grad.wisc.edu/documents/grievances-and-appeals/) (see: Graduate School Appeal Process).

The FMS Program emphasizes limnological studies and is based on the premise that limnology and marine sciences are integrated fields requiring a broad base in the fundamental disciplines. Students may specialize in limnology or in marine sciences, or they may focus on processes common to both environments.

Study plans are individually tailored for each student by a guidance and evaluation committee composed of at least five faculty members including the major professor. The committee guides the student in developing study plans, research, and career goals.

All PhD candidates are expected to obtain a broad background in aquatic sciences and depth in their research area. The background may include biology, chemistry, data science, geology, physics, or other related fields. The major, by nature of the program, includes advanced courses in several subdisciplines in freshwater and marine sciences.

# FACILITIES

Facilities for freshwater and marine research and instruction in the biological, chemical, and physical areas of limnology and marine sciences are available at UW–Madison through the Center for Limnology, the

Water Science & Engineering Laboratory, and the departments of faculty participating in the program. The Center for Limnology also maintains a year-round laboratory at Trout Lake. This facility is a well-equipped biological field station in the Northern Highlands lake district of Wisconsin. Several research vessels are available for research on the Great Lakes. Ships belonging to other institutions are used for oceanographic field research.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | January 1 |
| Spring Deadline | October 1 |
| Summer Deadline | March 17 for international applicants; May 1 for domestic applicants |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

## ADMISSIONS

Given the broad nature of the program, there are no strict prerequisites for admission. Interested applicants should identify and contact potential faculty advisors. Students will be recommended for admission to the Freshwater and Marine Science graduate program if (1) a faculty graduate admission committee has determined the student's application meets all requirements, and (2) available funding. Applicants should contact potential faculty advisors by email early in the application process to discuss mutual interests and to determine if the faculty member is actively recruiting graduate students. For a list of all faculty members and their research interests, please see Faculty (https://fms.wisc.edu/faculty-staff/) on the program website.

In addition to the Graduate School application, all applicants must electronically submit at least three letters of recommendation, the supplemental application questions, a personal statement including areas of research interest and the names of prospective faculty advisors, a CV/resume, and unofficial transcripts from all undergraduate and graduate schools attended (official transcripts will be requested if recommended for admission to the program). Most admission decisions will be made, and applicants will be notified, by the end of March.

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

Various types of financial assistance programs are available to qualified students in the form of research assistantships, teaching assistantships, fellowships, and special grants. Decisions regarding financial support are based on letters of recommendation, grades, and the matching of interests or experience of the applicant to the research program. For research assistantships, the applicant's interests and experience must match the needs of the funding project.

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 51 credits |
| Minimum Residence Credit Requirement | 32 credits |
| Minimum Graduate Coursework Requirement | 26 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | Students must earn a B or above in all courses applied to degree requirements. |
| Assessments and Examinations | Doctoral students are required to take a comprehensive preliminary exam by the end of their fifth semester of study in the PhD program. A final oral exam of the doctoral dissertation is required. Deposit of the doctoral dissertation in the Graduate School is required. |
| Language Requirements | No language requirements. |
| Graduate School Breadth Requirement | All doctoral students are required to complete a doctoral minor or graduate/professional certificate. Refer to the Graduate School: Breadth Requirement in Doctoral Training policy: https://policy.wisc.edu/library/UW-1200 (https://policy.wisc.edu/library/UW-1200/). |

## REQUIRED COURSES

PhD students in the Freshwater and Marine Sciences (FMS) program must complete courses and seminars to satisfy the minimum credit requirement for the degree. The FMS program does not require specific classes, but instead courses are approved by the student's advisor or advisory committee and depend on the student's research area, interests, and professional goals (below are a list common graduate level courses).

| Code | Title | Credits |
|---|---|---|
| **Breadth** | | **9** |
| **Graduate Seminars** | | |
| Common coursework examples include: | | 3-4 |
| ZOOLOGY/ ATM OCN/ BOTANY/ CIV ENGR/ ENVIR ST/ GEOSCI 911 | Limnology and Marine Science Seminar | |
| ZOOLOGY 955 | Seminar-Limnology | |
| **Research Credits** | | |
| Common coursework examples include: | | 9-12 |
| ATM OCN 990 | Research | |
| BOTANY 995 | Research-Plant Ecology | |
| CIV ENGR 890 | Pre-Dissertator's Research | |
| CIV ENGR 990 | Thesis | |
| ENVIR ST 990 | Research | |
| F&W ECOL 990 | Research and Thesis | |
| GEOSCI 990 | Research | |
| MICROBIO 990 | Research | |
| PATH-BIO 990 | Research | |
| PLANTSCI 990 | Research | |
| SOIL SCI 990 | Research | |
| ZOOLOGY 990 | Research | |
| **Graduate Level Coursework** | | |
| At least 50% of credits must be in courses designated as graduate level coursework ("Grad 50%" designation). Common coursework examples include: | | 26 |
| CIV ENGR 415 | Hydrology | |
| CIV ENGR 500 | Water Chemistry | |
| F&W ECOL/ STAT 571 | Statistical Methods for Bioscience I | |
| F&W ECOL/ ZOOLOGY 660 | Climate Change Ecology | |
| F&W ECOL/ ENTOM 711 | Multivariate Analysis of Ecological and Community Data | |
| ZOOLOGY/ ENTOM 540 | Theoretical Ecology | |
| ZOOLOGY/ BOTANY 725 | Ecosystem Concepts | |
| **Total Credits** | | **51** |

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program approval, students may be allowed to transfer up to 19 credits of graduate coursework from other institutions. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

No undergraduate coursework is allowed to transfer.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

With program approval, students may be allowed to transfer up to 15 credits taken as a UW–Madison University Special student. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

## PROBATION

A semester GPA below 3.000 will result in the student being placed on academic probation. If a semester GPA of 3.000 is not attained during the subsequent semester of enrollment the student may be dismissed from the program or allowed to continue for one additional semester based on advisor appeal to the Graduate School.

## ADVISOR / COMMITTEE

All incoming students are assigned an advisor. Students are expected to meet with their advisor on a regular basis.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

A candidate for a doctoral degree who fails to take the final oral examination and deposit the dissertation within five years after passing the preliminary examination may be required to take another preliminary examination and to be admitted to candidacy a second time.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## L&S POLICY FOR GRADUATE STUDENT ACADEMIC APPEALS

Graduate students have the right to appeal an academic decision related to an L&S graduate program if the student believes that the decision is inconsistent with published policy.

Academic decisions that may be appealed include:

- Dismissal from the graduate program
- Failure to pass a qualifying or preliminary examination
- Failure to achieve satisfactory academic progress
- Academic disciplinary action related to failure to meet professional conduct standards

Issues such as the following cannot be appealed using this process:

- A faculty member declining to serve as a graduate student's advisor.
- Decisions regarding the student's disciplinary knowledge, evaluation of the quality of work, or similar judgements. These are the domain of the department faculty.
- Course grades. These can be appealed instead using the L&S Policy for Grade Appeal (https://kb.wisc.edu/ls/22258/).
- Incidents of bias or hate, hostile and intimidating behavior (https://hr.wisc.edu/hib/), or discrimination (Title IX (https://compliance.wisc.edu/titleix/), Office of Compliance (https://compliance.wisc.edu/eo-complaint/formal-investigations/)). Direct these to the linked campus offices appropriate for the incident(s).

### Appeal Process for Graduate Students

A graduate student wishing to appeal an academic decision must follow the process in the order listed below. Note time limits within each step.

1. The student should first seek informal resolution, if possible, by discussing the concern with their academic advisor, the department's Director of Graduate Studies, and/or the department chair.
2. If the program has an appeal policy listed in their graduate program handbook, the student should follow the policy as written, including adhering to any indicated deadlines. In the absence of a specific departmental process, the chair or designee will be the reviewer and decision maker, and the student should submit a written appeal to the chair within 15 business days of the academic decision. The chair or designee will notify the student in writing of their decision.
3. If the departmental process upholds the original decision, the graduate student may next initiate an appeal to L&S. To do so, the student must submit a written appeal to the L&S Assistant Dean for Graduate Student Academic Affairs within 15 business days of notification of the department's decision.
   a. To the fullest extent possible, the written appeal should include, in a single document: a clear and concise statement of the academic decision being appealed, any relevant background on what led to the decision, the specific policies involved, the relief sought, any relevant documentation related to the departmental appeal, and the names and titles of any individuals contributing to or involved in the decision.
   b. The Assistant Dean will work with the Academic Associate Dean of the appropriate division to consider the appeal. They may seek additional information and/or meetings related to the case.

c. The Assistant Dean and Academic Associate Dean will provide a written decision within 20 business days.

4. If L&S upholds the original decision, the graduate student may appeal to the Graduate School. More information can be found on their website: Grievances and Appeals (https://grad.wisc.edu/documents/grievances-and-appeals/) (see: Graduate School Appeal Process).

### OTHER

n/a

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Articulate challenges, frontiers, and limits with respect to theory, knowledge or practice within relevant areas of freshwater and marine sciences.
2. Formulate ideas, concepts, designs, and/or techniques beyond the current boundaries of knowledge within the students' relevant research field(s).
3. Conduct research that makes a substantive contribution.
4. Demonstrate breadth within freshwater and marine sciences.
5. Communicate complex or ambiguous ideas in a clear and understandable manner.
6. Consider the implications of the discipline to broader societal concerns.
7. Foster ethical conduct and professional guidelines.

# INTEGRATIVE BIOLOGY, DOCTORAL MINOR

## ADMISSIONS

# ADMISSIONS

Graduate students who wish to pursue a doctoral minor in integrative biology should consult a faculty member within the Department of Integrative Biology (their potential minor professor) or the chair of the integrative biology graduate committee.

All Graduate School students must utilize the Graduate Student Portal in MyUW to add, change, or discontinue any doctoral minor. To apply to this minor, log in to MyUW, click on Graduate Student Portal, and then click on Add/Change Programs. Select the information for the doctoral minor for which you are applying.

## REQUIREMENTS

# REQUIREMENTS

Students must complete at least 9 credits in ZOOLOGY (https://guide.wisc.edu/courses/zoology/) while in residence. Courses are selected in consultation with the minor and departmental advisor. Requirements include:

- Complete one seminar course.
- Courses must be graduate-level (numbered 300 and above with the Grad 50% designation)
- ZOOLOGY 698 Directed Study and ZOOLOGY 699 Directed Studies in Zoology do not satisfy doctoral minor requirements.

# INTEGRATIVE BIOLOGY, MS

The Integrative Biology Graduate Program provides training in the following broad subject areas: cellular and molecular biology, developmental biology, neuroscience, physiology, ecology, evolution, and animal behavior. There is great flexibility in our graduate program to serve the diverse scholarly interests and cultures in the Department of Integrative Biology. Each student's course of study is tailored to his or her individual interests, career goals, and needs, and we admit students with diverse academic backgrounds. The path taken by a student results from a deliberative process that involves discussions between the student and the student's advisor and advisory committee.

The Department of Integrative Biology faculty strongly believes that graduate education should be distinguished from undergraduate education in recognition of individuality and emphasis on responsibility in graduate students. This philosophy requires flexibility and is not well served by the imposition of many formal requirements to be met by all students. Rather, more emphasis is placed on the role of advisory committees in devising programs of breadth and depth appropriate for individual students with due regard to areas outside of biology that are important for the student's effectiveness in their chosen field.

The faculty, students, and staff in the Integrative Biology Graduate Program are committed to supporting a diverse, equitable, and inclusive workplace. We believe that each person's identity, background, ethnicity, race, sexual orientation, beliefs, and other experiences fuel the creativity and innovation that are central to scientific discovery.

# FACILITIES

Facilities and staff are available for advanced study in a wide variety of biological fields, including aquatic and terrestrial ecology, conservation biology, cell/molecular/developmental and neurobiology, endocrinology, ethology, genetics, evolution and systematics, comparative physiology, and physiological ecology.

In addition to a broad range of well-equipped laboratories, research facilities include advanced microscopy facilities (http://www.microscopy.wisc.edu/), limnological laboratories on campus (Lake Mendota) and in northern Wisconsin (Trout Lake), the University Arboretum, the Zoological Museum, and a Molecular Systematics Laboratory.

ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 1 |
| Spring Deadline | September 1 |
| Summer Deadline | The program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

Given the broad nature of the program, there are no strict prerequisites for admission. Interested applicants should identify and contact potential faculty advisors. Admission to the graduate program is contingent upon being accepted by an individual faculty advisor. Applicants should contact potential faculty advisors by email early in the application process to discuss mutual interests and to determine if the faculty member is actively recruiting graduate students. For a list of all faculty members and their research interests, please see People (https://integrativebiology.wisc.edu/people/) on the department website.

In addition to the Graduate School application, all applicants must electronically submit at least three letters of recommendation, the supplemental questions, a personal statement including areas of research interest and the names of prospective faculty advisors, a CV/resume, and unofficial transcripts from all undergraduate and graduate schools attended (official transcripts will be requested if recommended for admission to the program). For more specific instructions regarding application requirements, please see Prospective Students (https://integrativebiology.wisc.edu/prospective-graduate-students/) on the department website. Most admission decisions will be made, and applicants will be notified, by the end of March.

FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

Application fee waivers are available to qualified students through the graduate school and can often be made available by the professors in the department. Financial support is available to qualified graduate students in the form of teaching assistantships, research assistantships, and fellowships.

Graduate students who have a teaching or research assistantship of at least a 33% appointment during the fall or spring semester are eligible to receive remission of full tuition. Fellowships that are payrolled through the university and that carry stipends equivalent to at least a 33% research assistantship also qualify for remission of non-resident tuition. Tuition remission is conditionally awarded at the start of the semester based on the expectation that actual earnings during the semester will be at least 33% of the full-time rate.

All students pay segregated fees. The only exception is that fellowships paid through the Graduate School have segregated fees waived in addition to tuition. Segregated fees are used for campus overhead to help pay for the exercise facilities, student unions, student organization funding, etc.

Assistantships and fellowships also provide eligibility for an excellent health insurance program, an extremely valuable benefit that provides single or family coverage that is more comprehensive than individuals can usually purchase on their own. Additionally, assistantships and fellowships provide a stipend for living expenses.

### Teaching Assistantships

The most common source of support is a teaching assistantship. To receive a teaching assistantship, candidates for admission must meet the following requirements:

- evidence (usually from the undergraduate transcript) of an appropriate background in the relevant subject matter of the course(s) to which appointment is being considered;
- evidence (usually from letters of recommendation or verbal communication) of the candidate's potential as a teaching assistant;
- an undergraduate GPA of 3.0 or above (on a 4.0 scale); and
- for students whose native language is not English, evidence of competence in spoken English through the SPEAK test that is administered by UW–Madison. International applicants should note that a TA appointment is not normally possible during the first year of graduate study.

Current students who apply for their first teaching assistantship are also subject to the above criteria, as well as their performance as a graduate student. Reappointment as a teaching assistant depends upon satisfactory

progress as a graduate student, satisfactory performance as a teaching assistant, and completing the Equity/Diversity TA Training.

Teaching assistants may be eligible for UW–Madison teaching awards (https://grad.wisc.edu/taawards/), including the Early Excellence in Teaching Award, Exceptional Service Award, Innovation in Teaching Award, Capstone PhD Teaching Award, and the College of Letters & Science Teaching Fellow Award.

### Research Assistantships

Research assistantships are made possible by grants awarded to faculty for particular research programs. Recipients are selected by the individual professor concerned, and the student's interests and experience must match the needs of the funding project. Availability of research assistantships varies.

### Advanced Opportunity Fellowships

Advanced Opportunity Fellowships (AOF) are granted to the UW–Madison Graduate School by the State of Wisconsin and are combined with other graduate education funds to support the recruitment and retention of highly qualified students in UW–Madison graduate programs. Fellowships are competitive and merit-based. AOF fellowships are paid through the Graduate School by the College of Letters & Science's Community of Graduate Research Scholars (http://ls.wisc.edu/current-students/graduate-students/cgrs/) (CGRS) program.

### External Fellowships

Fellowships from professional societies and outside agencies provide another important source of aid for which students may apply either before or after commencing graduate work at UW–Madison. If necessary, external fellowships can often be supplemented with university funds up to prevailing university fellowship rates.

All qualified students who are U.S. citizens or permanent residents are urged to apply to the National Science Foundation (NSF) Graduate Research Fellowship Program (GRFP). Students apply directly to NSF; the closing date is usually in early November. Please check the NSF (http://www.nsf.gov/) website for the application instructions and deadline.

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 15 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | An average record of B or better in all work taken as a graduate student is required by the Department of Integrative Biology (grades of P and S are for this purpose considered to be satisfactory at the B level; grades of Incomplete are considered for this purpose to be unsatisfactory if they are not removed during the following semester of residence). |
| Assessments and Examinations | In the second semester of the first year, students must complete the Certification of Candidate for a Master's Degree.<br><br>Typically the defense of the master's degree occurs no later than the end of the student's sixth semester. A master's degree warrant must be requested from the department prior to the defense. |
| Language Requirements | To be determined by the advisory committee. |

## REQUIRED COURSES

MS students in Integrative Biology must take courses and seminars to fulfill the minimum credit requirement for the degree. Specific courses (examples are listed below) are approved by the student's advisor or advisory committee and depend on the student's research area, interests, and goals.

| Code | Title | Credits |
|---|---|---|
| **Graduate Level Coursework** | | |
| At least 50% of credits must be with courses designated as graduate level coursework ("Grad 50%" designation). Examples listed below. | | 15 |

| | | |
|---|---|---|
| **Research Credits** | | |
| Complete research credits. | | 6-9 |
| ZOOLOGY 799 | Independent Study | |
| ZOOLOGY 990 | Research | |
| **Additional Electives** | | |
| Complete additional electives consulted by student's advisor | | 6 |
| **Total Credits** | | **30** |

## Common Graduate Level Courses

| Code | Title | Credits |
|---|---|---|
| ANTHRO 458 | Primate Behavioral Ecology | 3 |
| B M I/ COMP SCI 776 | Advanced Bioinformatics | 3 |
| B M I/STAT 877 | Statistical Methods for Molecular Biology | 3 |

# POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program approval, students may be allowed to transfer up to 14 credits of graduate coursework from other institutions. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

No undergraduate coursework is allowed to transfer.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

With program approval, students may be allowed to transfer 15 credits taken as a UW–Madison University Special student. Coursework earned ten or more years prior to admission to a master's degree is not allowed to satisfy requirements.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Every graduate student is required to have an advisor and a committee. To ensure that students are making satisfactory progress toward a degree, every student is required to meet with the advisor and committee annually to review progress. If a progress report has not been filed by April 1, a hold will be placed on student course registration.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

It is expected that a master's student will complete the thesis or research report by the end of the third academic year. If this is not accomplished by the end of the summer following the third academic year, the major professor must present a written statement to the Director of Graduate Studies that explains why the master's degree has not been completed and describes plans that the student and the student's advisory committee have agreed upon to ensure completion, including specific expectations, dates for completion, and consequences should expectations not be met. Continuation in the program beyond four years will be at the discretion of the mentor and advisory committee. Five years is the outside limit by which a student must complete the master's degree.

It is up to the student's committee to determine whether or not a student who has been absent for five or more consecutive years can use that coursework to count toward satisfying degree requirements.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)

- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## L&S POLICY FOR GRADUATE STUDENT ACADEMIC APPEALS

Graduate students have the right to appeal an academic decision related to an L&S graduate program if the student believes that the decision is inconsistent with published policy.

Academic decisions that may be appealed include:

- Dismissal from the graduate program
- Failure to pass a qualifying or preliminary examination
- Failure to achieve satisfactory academic progress
- Academic disciplinary action related to failure to meet professional conduct standards

Issues such as the following cannot be appealed using this process:

- A faculty member declining to serve as a graduate student's advisor.
- Decisions regarding the student's disciplinary knowledge, evaluation of the quality of work, or similar judgements. These are the domain of the department faculty.
- Course grades. These can be appealed instead using the L&S Policy for Grade Appeal (https://kb.wisc.edu/ls/22258/).
- Incidents of bias or hate, hostile and intimidating behavior (https://hr.wisc.edu/hib/), or discrimination (Title IX (https://compliance.wisc.edu/titleix/), Office of Compliance (https://compliance.wisc.edu/eo-complaint/formal-investigations/)). Direct these to the linked campus offices appropriate for the incident(s).

### Appeal Process for Graduate Students

A graduate student wishing to appeal an academic decision must follow the process in the order listed below. Note time limits within each step.

1. The student should first seek informal resolution, if possible, by discussing the concern with their academic advisor, the department's Director of Graduate Studies, and/or the department chair.
2. If the program has an appeal policy listed in their graduate program handbook, the student should follow the policy as written, including adhering to any indicated deadlines. In the absence of a specific departmental process, the chair or designee will be the reviewer and decision maker, and the student should submit a written appeal to the chair within 15 business days of the academic decision. The chair or designee will notify the student in writing of their decision.
3. If the departmental process upholds the original decision, the graduate student may next initiate an appeal to L&S. To do so, the student must submit a written appeal to the L&S Assistant Dean for Graduate Student Academic Affairs within 15 business days of notification of the department's decision.
    a. To the fullest extent possible, the written appeal should include, in a single document: a clear and concise statement of the academic decision being appealed, any relevant background on what led to the decision, the specific policies involved, the relief sought, any relevant documentation related to the departmental appeal, and the names and titles of any individuals contributing to or involved in the decision.
    b. The Assistant Dean will work with the Academic Associate Dean of the appropriate division to consider the appeal. They may seek additional information and/or meetings related to the case.
    c. The Assistant Dean and Academic Associate Dean will provide a written decision within 20 business days.
4. If L&S upholds the original decision, the graduate student may appeal to the Graduate School. More information can be found on their website: Grievances and Appeals (https://grad.wisc.edu/documents/grievances-and-appeals/) (see: Graduate School Appeal Process).

## OTHER

There is great flexibility in our graduate program to serve the diverse scholarly interests and cultures in the Department of Integrative Biology. The path taken by a student results from a deliberative process that involves discussions between the student and the student's advisor and advisory committee. The department's policy is to only accept students that can be financially supported by teaching assistantships, research assistantships, and/or fellowships.

# PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

## GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

## DEPARTMENT RESOURCES

A goal for our graduate program is to provide students in Integrative Biology with diverse training that will prepare them for a range of flexible and sustainable careers (e.g., academia, industry, government, science policy and administration, science commerce, science writing, law, and science education and outreach at all levels). In consultation with their advisor and advisory committee, students can engage in professional development, teaching training (e.g., through the Delta program), internships in industry, science writing, and/or policy, and some earn master's degrees in areas that complement their studies in Integrative Biology (e.g., biostatistics, biotechnology).

# LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Knowledge: Master fundamental skills in at least one of the broad subject areas represented in the Department of Integrative Biology.
2. Research: Students will complete an original research project in one of the broad subject areas represented in the Department of Integrative Biology.
3. Communication: Effectively communicate in writing and orally.
4. Ethical Conduct: Students will have an understanding of professional and ethical responsibility.
5. Career Preparation: Students will be provided with diverse training that will prepare them for a range of flexible and sustainable careers (e.g., academia, industry, government, science policy and administration,

science commerce, science writing, law, and science education and outreach at all levels).

# INTEGRATIVE BIOLOGY, PHD

The Integrative Biology Graduate Program provides training in the following broad subject areas: cellular and molecular biology, developmental biology, neuroscience, physiology, ecology, evolution, and animal behavior. There is great flexibility in our graduate program to serve the diverse scholarly interests and cultures in the Department of Integrative Biology. Each student's course of study is tailored to his or her individual interests, career goals, and needs, and we admit students with diverse academic backgrounds. The path taken by a student results from a deliberative process that involves discussions between the student and the student's advisor and advisory committee.

The Department of Integrative Biology faculty strongly believes that graduate education should be distinguished from undergraduate education in recognition of individuality and emphasis on responsibility in graduate students. This philosophy requires flexibility and is not well served by the imposition of many formal requirements to be met by all students. Rather, more emphasis is placed on the role of advisory committees in devising programs of breadth and depth appropriate for individual students with due regard to areas outside of biology that are important for the student's effectiveness in their chosen field.

The faculty, students, and staff in the Integrative Biology Graduate Program are committed to supporting a diverse, equitable, and inclusive workplace. We believe that each person's identity, background, ethnicity, race, sexual orientation, beliefs, and other experiences fuel the creativity and innovation that are central to scientific discovery.

## JOINT DEGREE

Doctoral students may elect a joint degree (two programs) that combines integrative biology with another biological program. The requirements for such candidates will be determined by the certification committee (which includes members of both programs) in accordance with regulations established by the Graduate School.

## FACILITIES

Facilities and staff are available for advanced study in a wide variety of biological fields including aquatic and terrestrial ecology, conservation biology, cell/molecular/developmental and neurobiology, endocrinology, ethology, genetics, evolution and systematics, comparative physiology, and physiological ecology.

In addition to a broad range of well-equipped laboratories, research facilities include advanced microscopy facilities (http://www.microscopy.wisc.edu/), limnological laboratories on campus (Lake Mendota) and in northern Wisconsin (Trout Lake), the University Arboretum, the Zoological Museum, and a Molecular Systematics Laboratory.

## ADMISSIONS

## ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 1 |
| Spring Deadline | September 1 |
| Summer Deadline | The program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

Given the broad nature of the program, there are no strict prerequisites for admission. Interested applicants should identify and contact potential faculty advisors. Admission to the graduate program is contingent upon being accepted by an individual faculty advisor. Applicants should contact potential faculty advisors by email early in the application process to discuss mutual interests and to determine if the faculty member is actively recruiting graduate students. For a list of all faculty members and their research interests, please see People (https://integrativebiology.wisc.edu/people/) on the department website.

In addition to the Graduate School application, all applicants must electronically submit at least three letters of recommendation, the supplemental questions, a personal statement including areas of research interest and the names of prospective faculty advisors, a CV/resume, and unofficial transcripts from all undergraduate and graduate schools attended (official transcripts will be requested if recommended for admission to the program). For more specific instructions regarding application requirements, please see Prospective Students (https://integrativebiology.wisc.edu/prospective-graduate-students/) on the department website. Most admission decisions will be made, and applicants will be notified, by the end of March.

## FUNDING

## FUNDING

### GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from

the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

Application fee waivers are available to qualified students through the graduate school and can often be made available by the professors in the department. Financial support is available to qualified graduate students in the form of teaching assistantships, research assistantships, and fellowships.

Graduate students who have a teaching or research assistantship of at least a 33% appointment during the fall or spring semester are eligible to receive remission of full tuition. Fellowships that are payrolled through the university and that carry stipends equivalent to at least a 33% research assistantship also qualify for remission of non-resident tuition. Tuition remission is conditionally awarded at the start of the semester based on the expectation that actual earnings during the semester will be at least 33% of the full-time rate.

All students pay segregated fees. The only exception is that fellowships paid through the Graduate School have segregated fees waived in addition to tuition. Segregated fees are used for campus overhead to help pay for the exercise facilities, student unions, student organization funding, etc.

Assistantships and fellowships also provide eligibility for an excellent health insurance program, an extremely valuable benefit that provides single or family coverage that is more comprehensive than individuals can usually purchase on their own. Additionally, assistantships and fellowships provide a stipend for living expenses.

### Teaching Assistantships

The most common source of support is a teaching assistantship. To receive a teaching assistantship, candidates for admission must meet the following requirements:

- evidence (usually from the undergraduate transcript) of an appropriate background in the relevant subject matter of the course(s) to which appointment is being considered;
- evidence (usually from letters of recommendation or verbal communication) of the candidate's potential as a teaching assistant;
- an undergraduate GPA of 3.0 or above (on a 4.0 scale); and
- for students whose native language is not English, evidence of competence in spoken English through the SPEAK test that is administered by UW–Madison. International applicants should note that a TA appointment is not normally possible during the first year of graduate study.

Current students who apply for their first teaching assistantship are also subject to the above criteria, as well as their performance as a graduate student. Reappointment as a teaching assistant depends upon satisfactory progress as a graduate student, satisfactory performance as a teaching assistant, and completing the Equity/Diversity TA Training.

Teaching assistants may be eligible for UW–Madison teaching awards (https://grad.wisc.edu/taawards/), including the Early Excellence in Teaching Award, Exceptional Service Award, Innovation in Teaching Award, Capstone PhD Teaching Award, and the College of Letters & Science Teaching Fellow Award.

### Research Assistantships

Research assistantships are made possible by grants awarded to faculty for particular research programs. Recipients are selected by the individual professor concerned, and the student's interests and experience must match the needs of the funding project. Availability of research assistantships varies.

### Advanced Opportunity Fellowships

Advanced Opportunity Fellowships (AOF) are granted to the UW–Madison Graduate School by the State of Wisconsin and are combined with other graduate education funds to support the recruitment and retention of highly qualified students in UW–Madison graduate programs. Fellowships are competitive and merit-based. AOF fellowships are paid through the Graduate School by the College of Letters & Science's Community of Graduate Research Scholars (http://ls.wisc.edu/current-students/graduate-students/cgrs/) (CGRS) program.

### External Fellowships

Fellowships from professional societies and outside agencies provide another important source of aid for which students may apply either before or after commencing graduate work at UW–Madison. If necessary, external fellowships can often be supplemented with university funds up to prevailing university fellowship rates.

All qualified students who are U.S. citizens or permanent residents are urged to apply to the National Science Foundation (NSF) Graduate Research Fellowship Program (GRFP). Students apply directly to NSF; the closing date is usually in early November. Please check the NSF (http://www.nsf.gov/) website for the application instructions and deadline.

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 51 credits |
| Minimum Residence Credit Requirement | 32 credits |
| Minimum Graduate Coursework Requirement | 26 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.00 GPA required. Refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | An average record of B or better in all work taken as a graduate student is required by the Department of Integrative Biology (grades of P and S are for this purpose considered to be satisfactory at the B level; grades of Incomplete are considered for this purpose to be unsatisfactory if they are not removed during the following semester of residence). |
| Assessments and Examinations | In the second semester of the first year, students must complete the Certification of Candidate for a PhD degree.<br><br>By the end of the fourth semester, students must complete the qualifying examination and return the signed qualifying examination form to the department.<br><br>The preliminary examination (defense of research project) should be completed and the prelim warrant submitted by the end of the sixth semester. Note that in addition to passing the prelim exam, students must have completed 32 credits, clear all Incomplete or Progress grades in nonresearch courses, complete all minor requirements and earn at least a cumulative 3.000 GPA in order to be granted dissertator status. The preliminary defense warrant must be requested from the department.<br><br>Defense of the PhD usually occurs after the tenth semester. A final defense warrant must be requested from the department. |
| Language Requirements | To be determined by the advisory committee. |
| Graduate School Breadth Requirement | All doctoral students are required to complete a doctoral minor or graduate/professional certificate. Refer to the Graduate School: Breadth Requirement in Doctoral Training policy: https://policy.wisc.edu/library/UW-1200 (https://policy.wisc.edu/library/UW-1200/). |

## REQUIRED COURSES

PhD students in Integrative Biology must take courses and seminars to fulfill the minimum credit requirement for the degree. Specific courses (examples are listed below) are approved by the student's advisor or advisory committee and depend on the student's research area, interests, and goals.

| Code | Title | Credits |
|---|---|---|
| **Breadth** | | **9** |
| **Graduate Level Coursework** | | |
| At least 50% of credits (26 for a PhD) must be with courses designed as graduate level coursework ("Grad 50%" designation). | | 26 |
| **Research Credits** | | |
| Complete research credits. | | 12-16 |
| ZOOLOGY 799 | Independent Study (Research credits) | |
| ZOOLOGY 990 | Research | |
| **Total Credits** | | **51** |

### Common Graduate Level Courses

| Code | Title | Credits |
|---|---|---|
| ANTHRO 458 | Primate Behavioral Ecology | 3 |
| B M I/ COMP SCI 776 | Advanced Bioinformatics | 3 |
| B M I/STAT 877 | Statistical Methods for Molecular Biology | 3 |

### Teaching Assistant Requirement

All students are required to serve as a teaching assistant for a minimum of one semester. All students must hold a departmental seminar in which they present their graduate research.

## POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# MAJOR-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

With program approval, students may be allowed to transfer up to 19 credits of graduate coursework from other institutions. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

No undergraduate coursework is allowed to transfer.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special Student at UW–Madison

With program approval, 15 credits taken as a UW–Madison University Special Student are allowed toward minimum coursework requirements. Coursework earned ten years or more prior to admission to a doctoral degree is not allowed to satisfy requirements.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Every graduate student is required to have an advisor and a committee. To ensure that students are making satisfactory progress toward a degree, every student is required to meet with the advisor and committee annually to review progress. If a progress report has not been filed by April 1, a hold will be placed on student course registration.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

It is expected that a PhD student will defend the dissertation by the end of the fifth academic year. If this is not accomplished by the end of the summer following the sixth academic year, the student's mentor must present a written statement to the Director of Graduate Studies that explains why the PhD has not been completed and describes plans that the student and the student's advisory committee have agreed upon to ensure completion, including specific expectations, dates for completion, and consequences should expectations not be met. Continuation in the program beyond eight years will be at the discretion of the mentor and advisory committee. Ten years is the outside limit by which a student must complete the PhD degree.

It is up to the student's committee to determine whether or not a student who has been absent for five or more consecutive years will lose the credit earned before the absence; that coursework may not count toward Graduate School credit requirements.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)
- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## L&S POLICY FOR GRADUATE STUDENT ACADEMIC APPEALS

Graduate students have the right to appeal an academic decision related to an L&S graduate program if the student believes that the decision is inconsistent with published policy.

Academic decisions that may be appealed include:

- Dismissal from the graduate program
- Failure to pass a qualifying or preliminary examination
- Failure to achieve satisfactory academic progress
- Academic disciplinary action related to failure to meet professional conduct standards

Issues such as the following cannot be appealed using this process:

- A faculty member declining to serve as a graduate student's advisor.
- Decisions regarding the student's disciplinary knowledge, evaluation of the quality of work, or similar judgements. These are the domain of the department faculty.
- Course grades. These can be appealed instead using the L&S Policy for Grade Appeal (https://kb.wisc.edu/ls/22258/).
- Incidents of bias or hate, hostile and intimidating behavior (https://hr.wisc.edu/hib/), or discrimination (Title IX (https://compliance.wisc.edu/titleix/), Office of Compliance (https://compliance.wisc.edu/eo-complaint/formal-investigations/)). Direct these to the linked campus offices appropriate for the incident(s).

### Appeal Process for Graduate Students

A graduate student wishing to appeal an academic decision must follow the process in the order listed below. Note time limits within each step.

1. The student should first seek informal resolution, if possible, by discussing the concern with their academic advisor, the department's Director of Graduate Studies, and/or the department chair.
2. If the program has an appeal policy listed in their graduate program handbook, the student should follow the policy as written, including adhering to any indicated deadlines. In the absence of a specific departmental process, the chair or designee will be the reviewer and decision maker, and the student should submit a written appeal to the

chair within 15 business days of the academic decision. The chair or designee will notify the student in writing of their decision.

3. If the departmental process upholds the original decision, the graduate student may next initiate an appeal to L&S. To do so, the student must submit a written appeal to the L&S Assistant Dean for Graduate Student Academic Affairs within 15 business days of notification of the department's decision.
   a. To the fullest extent possible, the written appeal should include, in a single document: a clear and concise statement of the academic decision being appealed, any relevant background on what led to the decision, the specific policies involved, the relief sought, any relevant documentation related to the departmental appeal, and the names and titles of any individuals contributing to or involved in the decision.
   b. The Assistant Dean will work with the Academic Associate Dean of the appropriate division to consider the appeal. They may seek additional information and/or meetings related to the case.
   c. The Assistant Dean and Academic Associate Dean will provide a written decision within 20 business days.
4. If L&S upholds the original decision, the graduate student may appeal to the Graduate School. More information can be found on their website: Grievances and Appeals (https://grad.wisc.edu/documents/grievances-and-appeals/) (see: Graduate School Appeal Process).

### OTHER

There is great flexibility in our graduate program to serve the diverse scholarly interests and cultures in the Department of Integrative Biology. The path taken by a student results from a deliberative process that involves discussions between the student and the student's advisor and advisory committee. The department's policy is to only accept students that can be financially supported by teaching assistantships, research assistantships, and/or fellowships.

## PROFESSIONAL DEVELOPMENT

# PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

### DEPARTMENT RESOURCES

A goal for our graduate program is to provide students in Integrative Biology with diverse training that will prepare them for a range of flexible and sustainable careers (e.g., academia, industry, government, science policy and administration, science commerce, science writing, law, and science education and outreach at all levels). In consultation with their advisor and advisory committee, students can engage in professional development, teaching training (e.g., through the Delta program), internships in industry, science writing, and/or policy, and some earn master's degrees in areas that complement their studies in Integrative Biology (e.g., biostatistics, biotechnology).

## LEARNING OUTCOMES

# LEARNING OUTCOMES

1. Knowledge: Demonstrate academic mastery in at least one of the broad subject areas represented in the Department of Integrative Biology.
2. Research: Students will develop and complete original research that advances a specific field of study within one of the broad subject areas represented in the Department of Integrative Biology.
3. Communication: Effectively communicate to diverse audiences in writing, through oral presentations, and discussions.
4. Teaching: Effectively teach topics or research methods in Cellular and Molecular Biology; Developmental Biology; Neuroscience; Physiology; Ecology; Evolution; or Animal Behavior.
5. Ethical Conduct: Students will have an understanding of professional and ethical responsibility.
6. Career Preparation: Students will be provided with diverse training that will prepare them for a range of flexible and sustainable careers (e.g., academia, industry, government, science policy and administration, science commerce, science writing, law, and science education and outreach at all levels).

# JOURNALISM AND MASS COMMUNICATION

## DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/PROFESSIONAL CERTIFICATES

# DEGREES/MAJORS, DOCTORAL MINORS, GRADUATE/ PROFESSIONAL CERTIFICATES

- Journalism and Mass Communication, MA (p. 1181)
- Mass Communications, Doctoral Minor (p. 1191)
- Mass Communications, PhD (p. 1192)

# JOURNALISM AND MASS COMMUNICATION, MA

Graduate programs in journalism and mass communication are designed for advanced academic preparation in the various fields of mass communication and journalism, and for training in research and teaching.

Students interested in the MA in Journalism and Mass Communication should refer to one of the two named options:

1. Professional MA (p. 1183) prepares students for careers in news and information production. The program provides a mix of practical communication skills, conceptual knowledge of journalism and mass communication, and an area of specialization (credits in multi-media communication and topic specialization).

2. Research MA (p. 1187) focuses on developing skills in mass communication research and typically leads to enrollment in a doctoral program, including our own PhD in Mass Communications (credits in theory and methods).

Both programs offer flexibility. Students, in consultation with their faculty advisors, select coursework based upon their interests and career goals.

# FACILITIES

The Center for Journalism Ethics (https://ethics.journalism.wisc.edu/) advances the ethical standards and practices of democratic journalism through discussion, research, teaching, professional outreach, and newsroom partnerships. Students, faculty, leading journalists and members of the public participate in conferences, workshops, and publications. The center tracks and analyzes ethical issues for all media platforms on its website. The center contributes to the teaching of ethics in the school's curriculum. Students have the opportunity to write for the center's website, cover conferences, and contribute to research.

Founded in 2006, Madison Commons (https://madisoncommons.org/) provides news and information from all of Madison's neighborhoods. It is a collaboration between Madison citizens from every part of the city and faculty and students at SJMC, focusing on coverage of education, food, transportation and neighborhood news. It provides a lab for research on community, civic and public journalism.

The Mass Communication Research Center (https://mcrc.journalism.wisc.edu/) is an interdisciplinary research facility that conducts research into all phases of communication and provides a common meeting ground for scholars with an interest in communication behavior. It also provides an opportunity for graduate students to participate in research programs and to initiate and conduct their own thesis projects.

The Center for Communication and Democracy (https://ccd.journalism.wisc.edu/) is a research and action project at UW–Madison. The goals of the center are to study how citizens can use new communications technologies to advance democratic discussion and civic participation; to explore the relationships between geographic communities and the emerging world of cyberspace; to explore the structural relations among communications and information markets, the civic sector, and government to find relationships necessary to build and sustain a public sphere in communication that is not dominated by the market, while sustaining economic growth and technological innovation; and to ask what government policies are most appropriate for combining the vibrancy of the market with the common needs of citizens in the sphere of communication.

Qualitative Inquiry and Research Group (https://journalism.wisc.edu/graduate/research-centers/) meetings are devoted to providing feedback on pre-circulated graduate student papers, completed or in-progress. Call for paper proposals are sent out at least twice per year.

The Mass Communication History Center (https://journalism.wisc.edu/graduate/research-centers/), a part of the Wisconsin Historical Society, provides scholars access to private collections, papers, and various types of unpublished materials relating to the growth of mass communication in the United States and other parts of the world. The Wisconsin Historical Society also has a large collection of bound and microfilm files of American and foreign newspapers.

## ADMISSIONS

# ADMISSIONS

Students apply to the MA in Journalism and Mass Communication through one of the named options:

- Professional (p. 1183)
- Research (p. 1187)

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM RESOURCES

Graduate students are eligible for a range of financial support, including teaching assistantships, project assistantships, research assistantships, and dissertator scholarships. All applicants (both domestic and international) who are admitted for graduate studies are automatically considered for support. No separate application is required. However, because resources are limited and the number of qualified applicants exceeds the amount of available funds, only a subset of admitted students is guaranteed financial support.

The most common form of financial support for graduate students is teaching assistantships, which are allocated on a long-term guaranteed basis or a short-term yearly basis with no presumption of support the following academic year. Professional track students are considered for scholarships that cover the costs of tuition and most fees. For more information, visit our website (https://journalism.wisc.edu/graduate/financial-aid/).

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# MAJOR REQUIREMENTS

## CURRICULAR REQUIREMENTS

| Requirement | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |

| | |
|---|---|
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 15 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |
| Overall Graduate GPA Requirement | 3.25 GPA required for degree conferral.<br>For academic probation and other grading policies, refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | Students must earn a B or above in all curriculum coursework. |
| Assessments and Examinations | See Named Option for policy information. |
| Language Requirements | No language requirements. |

### REQUIRED COURSES

Select a Named Option (p. 1183) for courses required.

## NAMED OPTIONS

A named option is a formally documented sub-major within an academic major program. Named options appear on the transcript with degree conferral. Students pursuing the MA in Journalism and Mass Communication must select one of the following named options:

View as listView as grid

- **JOURNALISM AND MASS COMMUNICATION: PROFESSIONAL, MA (P. 1183)**
- **JOURNALISM AND MASS COMMUNICATION: RESEARCH, MA (P. 1187)**

## POLICIES

## POLICIES

Students should refer to one of the named options for policy information:

- Professional (p. 1183)
- Research (p. 1187)

## PROFESSIONAL DEVELOPMENT

## PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

### PROGRAM RESOURCES

#### Research Track

We offer one research colloquia (JOURN 901) during the Fall semester where faculty share their research findings and methods and engage students in lively conversations about how to conduct research. We offer a teaching colloquium (JOURN 902) that explores pedagogical principles and applications that prepare students for teaching careers. Teaching assistantships provide hands-on training.

Within our research groups and centers, graduate students work side by side with faculty and with each other, allowing the senior students to mentor younger students and for faculty to mentor students who are not their advisees. Our graduate students organize and host an annual day-long conference where they present their research in a series of panels, and they present their research at conferences around the world.

We offer a series of professional development workshops for graduate students with faculty and alumni panelists. The topics include: navigating the academic job market, exploring the non-academic job market, turning a paper into a presentation, and how to find funding for research.

#### Professional Track

Professional track students attend (JOURN 903), a one-credit colloquium offered in the spring semester, and meet with industry professionals to learn about a variety of jobs and build their networks. Required internships allow students to gain real-world experience while in the program and to build their portfolio. Students work with the career advisor and attend the employer presentations and mock interview sessions. Students attend at least one professional conference during their time in the program.

## LEARNING OUTCOMES

## LEARNING OUTCOMES

1. Attain mastery in an area of the mass communication field.
2. Demonstrate understanding of the primary field of study in a historical, social, psychological, cultural or global context.
3. Develop professional communication skills related to gathering, assessing, compiling and disseminating information, by selecting and/or utilizing the most appropriate methodologies and practices and the evaluation and synthesis of information.
4. Develop in-depth and specialized expertise in a topic of interest. In doing so students will be able to identify sources of information and assemble evidence pertaining to questions in that area.
5. Select and/or utilize the most appropriate professional practices.

# JOURNALISM AND MASS COMMUNICATION: PROFESSIONAL, MA

This is a named option in the Journalism and Mass Communication MA (p. 1181).

The Professional MA program prepares students for careers in news and information production. The program provides a mix of practical communication skills, conceptual knowledge of journalism and mass communication, and an area of specialization.

## ADMISSIONS

# ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 15 |
| Spring Deadline | April 15 |
| Summer Deadline | The program does not admit in the summer. |
| GRE (Graduate Record Examinations) | Not required. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

New students are admitted to the School of Journalism and Mass Communication for the fall semester. A committee of faculty members reviews each application. Among the indicators considered for admission are:

- Quality of an applicant's academic record
- Preparation to pursue an advanced degree
- Clearly defined goals and rationale for graduate education in the field

Applicants must submit the following to the online application:

1. Statement of Purpose (750 words maximum) regarding your educational and career goals and your reasons for selecting this graduate program. Discuss those factors – personal, professional, academic – that have prepared you to pursue a graduate degree. All Professional MA applicants should indicate in some detail what kind of specialty they will seek and why.
2. Supplemental application questions:
   a. How have your background and life experiences, including cultural, geographical, financial, educational, or other opportunities or challenges motivated your decision to pursue a graduate degree at the University of Wisconsin?
3. Unofficial transcripts of prior undergraduate and graduate course completion.
4. Resume.
5. Writing sample in PDF format (25 page maximum). No CDs, DVDs or other material will be accepted or considered. Writing samples could include news stories, blog posts, white papers, reports or portions of an academic paper. Professionally published samples are preferred but not required. Writing samples must be uploaded to the Supplemental Section of the online application.
6. Three letters of recommendation, coming primarily from faculty members who can evaluate your previous academic performance and provide an assessment of your likelihood of success in graduate school. One of the letters may come from an employer or internship supervisor. Letters should come from individuals who have worked directly with you and who are in a position to objectively evaluate your abilities and work productivity.

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM INFORMATION

All applicants who are admitted for graduate studies are automatically considered for scholarship support. No separate application is required.

Our professional master's program does not provide funding guarantees through graduate assistantships, but students may apply for Teaching Assistantships in the department for their second year of the program. This application is open during the Spring semester for students already matriculated in the program.

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# NAMED OPTION REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business

schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirements | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 15 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |

POLICIES

# GRADUATE SCHOOL POLICIES

The Graduate School's Academic Policies and Procedures (https://grad.wisc.edu/acadpolicy/) serve as the official document of record for Graduate School academic and administrative policies and procedures and are updated continuously. Note some policies redirect to entries in the official UW-Madison Policy Library (https://policy.wisc.edu/). Programs may set more stringent policies than the Graduate School. Policies set by the academic degree program can be found below.

# NAMED OPTION-SPECIFIC POLICIES

## PRIOR COURSEWORK

### Graduate Credits Earned at Other Institutions

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Undergraduate Credits Earned at Other Institutions or UW-Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a Professional Student at UW-Madison (Law, Medicine, Pharmacy, and Veterinary careers)

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

### Credits Earned as a University Special student at UW–Madison

Refer to the Graduate School: Transfer Credits for Prior Coursework (https://policy.wisc.edu/library/UW-1216/) policy.

## PROBATION

Refer to the Graduate School: Probation (https://policy.wisc.edu/library/UW-1217/) policy.

## ADVISOR / COMMITTEE

Refer to the Graduate School: Advisor (https://policy.wisc.edu/library/UW-1232/) policy.

## CREDITS PER TERM ALLOWED

15 credit maximum. Refer to the Graduate School: Maximum Credit Loads and Overload Requests (https://policy.wisc.edu/library/UW-1228/) policy.

## TIME LIMITS

Refer to the Graduate School: Time Limits (https://policy.wisc.edu/library/UW-1221/) policy.

## GRIEVANCES AND APPEALS

These resources may be helpful in addressing your concerns:

- Bias or Hate Reporting (https://doso.students.wisc.edu/bias-or-hate-reporting/)
- Graduate Assistantship Policies and Procedures (https://hr.wisc.edu/policies/gapp/#grievance-procedure)
- Hostile and Intimidating Behavior Policies and Procedures (https://hr.wisc.edu/hib/)
  - Office of the Provost for Faculty and Staff Affairs (https://facstaff.provost.wisc.edu/)
- Employee Assistance (http://www.eao.wisc.edu/) (for personal counseling and workplace consultation around communication and conflict involving graduate assistants and other employees, post-doctoral students, faculty and staff)
- Employee Disability Resource Office (https://employeedisabilities.wisc.edu/) (for qualified employees or applicants with disabilities to have equal employment opportunities)
- Graduate School (https://grad.wisc.edu/) (for informal advice at any level of review and for official appeals of program/departmental or school/college grievance decisions)
- Office of Compliance (https://compliance.wisc.edu/) (for class harassment and discrimination, including sexual harassment and sexual violence)
- Office Student Assistance and Support (OSAS) (https://osas.wisc.edu/) (for all students to seek grievance assistance and support)
- Office of Student Conduct and Community Standards (https://conduct.students.wisc.edu/) (for conflicts involving students)
- Ombuds Office for Faculty and Staff (http://www.ombuds.wisc.edu/) (for employed graduate students and post-docs, as well as faculty and staff)

- Title IX (https://compliance.wisc.edu/titleix/) (for concerns about discrimination)

## L&S POLICY FOR GRADUATE STUDENT ACADEMIC APPEALS

Graduate students have the right to appeal an academic decision related to an L&S graduate program if the student believes that the decision is inconsistent with published policy.

Academic decisions that may be appealed include:

- Dismissal from the graduate program
- Failure to pass a qualifying or preliminary examination
- Failure to achieve satisfactory academic progress
- Academic disciplinary action related to failure to meet professional conduct standards

Issues such as the following cannot be appealed using this process:

- A faculty member declining to serve as a graduate student's advisor.
- Decisions regarding the student's disciplinary knowledge, evaluation of the quality of work, or similar judgements. These are the domain of the department faculty.
- Course grades. These can be appealed instead using the L&S Policy for Grade Appeal (https://kb.wisc.edu/ls/22258/).
- Incidents of bias or hate, hostile and intimidating behavior (https://hr.wisc.edu/hib/), or discrimination (Title IX (https://compliance.wisc.edu/titleix/), Office of Compliance (https://compliance.wisc.edu/eo-complaint/formal-investigations/)). Direct these to the linked campus offices appropriate for the incident(s).

### Appeal Process for Graduate Students

A graduate student wishing to appeal an academic decision must follow the process in the order listed below. Note time limits within each step.

1. The student should first seek informal resolution, if possible, by discussing the concern with their academic advisor, the department's Director of Graduate Studies, and/or the department chair.
2. If the program has an appeal policy listed in their graduate program handbook, the student should follow the policy as written, including adhering to any indicated deadlines. In the absence of a specific departmental process, the chair or designee will be the reviewer and decision maker, and the student should submit a written appeal to the chair within 15 business days of the academic decision. The chair or designee will notify the student in writing of their decision.
3. If the departmental process upholds the original decision, the graduate student may next initiate an appeal to L&S. To do so, the student must submit a written appeal to the L&S Assistant Dean for Graduate Student Academic Affairs within 15 business days of notification of the department's decision.
   a. To the fullest extent possible, the written appeal should include, in a single document: a clear and concise statement of the academic decision being appealed, any relevant background on what led to the decision, the specific policies involved, the relief sought, any relevant documentation related to the departmental appeal, and the names and titles of any individuals contributing to or involved in the decision.
   b. The Assistant Dean will work with the Academic Associate Dean of the appropriate division to consider the appeal. They may seek additional information and/or meetings related to the case.
   c. The Assistant Dean and Academic Associate Dean will provide a written decision within 20 business days.
4. If L&S upholds the original decision, the graduate student may appeal to the Graduate School. More information can be found on their website: Grievances and Appeals (https://grad.wisc.edu/documents/grievances-and-appeals/) (see: Graduate School Appeal Process).

# PROFESSIONAL DEVELOPMENT

## PROFESSIONAL DEVELOPMENT

### GRADUATE SCHOOL RESOURCES

Take advantage of the Graduate School's professional development resources (https://grad.wisc.edu/pd/) to build skills, thrive academically, and launch your career.

### PROGRAM INFORMATION

We offer a career colloquium for all professional MA students and require students to complete an internship during their time in the program. Students receive professional coaching in classes and work with our career advisor who provides support for job and internship search and preparation.

# JOURNALISM AND MASS COMMUNICATION: RESEARCH, MA

This is a named option in the Journalism and Mass Communication MA. (p. 1181)

The Research MA program focuses on developing skills in mass communication research and typically leads to enrollment in a doctoral program.

# ADMISSIONS

## ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. ***Applicants must meet* the minimum requirements *(https://grad.wisc.edu/apply/requirements/) of the Graduate School as well as the program(s).*** Once you have researched the graduate program(s) you are interested in, apply online (https://grad.wisc.edu/apply/).

| Requirements | Detail |
|---|---|
| Fall Deadline | December 15 |
| Spring Deadline | The program does not admit in the spring. |
| Summer Deadline | The program does not admit in the summer. |

| | |
|---|---|
| GRE (Graduate Record Examinations) | Not required but may be considered if available. |
| English Proficiency Test | Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/). |
| Other Test(s) (e.g., GMAT, MCAT) | n/a |
| Letters of Recommendation Required | 3 |

New students are admitted to the School of Journalism and Mass Communication for the fall semester. A committee of faculty members reviews each application. Among the indicators considered for admission are:

- Quality of an applicant's academic record
- Preparation to pursue an advanced degree
- Clearly defined goals and rationale for graduate education in the field
- Compatibility of goals with faculty specializations and areas of expertise

Applicants must submit the following to the online application:

1. Statement of Purpose (750 words maximum) regarding your educational and career goals and your reasons for selecting this graduate program. Discuss those factors – personal, professional, academic – that have prepared you to pursue a graduate degree.
2. Supplemental application questions:
   a. How have your background and life experiences, including cultural, geographical, financial, educational, or other opportunities or challenges motivated your decision to pursue a graduate degree at the University of Wisconsin?
   b. Select your top two areas of research interest and up to three faculty members with whom you'd like to work.
3. Unofficial transcripts of prior undergraduate and graduate course completion.
4. Resume or curriculum vitae (CV).
5. Writing sample in PDF format (25 page maximum). The writing sample could include a peer-reviewed article, a conference paper, a seminar paper, a senior or master's thesis, or an article published in the popular press related to your research area of interest. It can be a portion of a paper. Professionally published samples are preferred but not required. Writing samples must be uploaded to the online application.
6. Three letters of recommendation, coming primarily from faculty members who can evaluate your previous academic performance and provide an assessment of your likelihood of success in graduate school. One of the letters may come from an employer or internship supervisor.

## FUNDING

# FUNDING

## GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees (https://bursar.wisc.edu/tuition-and-fees/) associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information (https://grad.wisc.edu/funding/) is available from the Graduate School. Be sure to check with your program for individual policies and restrictions related to funding.

## PROGRAM INFORMATION

All applicants who are admitted for graduate studies are automatically considered for support. No separate application is required.

## REQUIREMENTS

# MINIMUM GRADUATE SCHOOL REQUIREMENTS

Review the Graduate School minimum degree requirements (p. 17) and policies (p. 18), in addition to the program requirements listed below.

# NAMED OPTION REQUIREMENTS

## MODE OF INSTRUCTION

| Face to Face | Evening/ Weekend | Online | Hybrid | Accelerated |
|---|---|---|---|---|
| Yes | No | No | No | No |

### Mode of Instruction Definitions

**Accelerated:** Accelerated programs are offered at a fast pace that condenses the time to completion. Students typically take enough credits aimed at completing the program in a year or two.

**Evening/Weekend:** Courses meet on the UW–Madison campus only in evenings and/or on weekends to accommodate typical business schedules. Students have the advantages of face-to-face courses with the flexibility to keep work and other life commitments.

**Face-to-Face:** Courses typically meet during weekdays on the UW-Madison Campus.

**Hybrid:** These programs combine face-to-face and online learning formats. Contact the program for more specific information.

**Online:** These programs are offered 100% online. Some programs may require an on-campus orientation or residency experience, but the courses will be facilitated in an online format.

## CURRICULAR REQUIREMENTS

| Requirements | Detail |
|---|---|
| Minimum Credit Requirement | 30 credits |
| Minimum Residence Credit Requirement | 16 credits |
| Minimum Graduate Coursework Requirement | 15 credits must be graduate-level coursework. Refer to the Graduate School: Minimum Graduate Coursework (50%) Requirement policy: https://policy.wisc.edu/library/UW-1244 (https://policy.wisc.edu/library/UW-1244/). |

| | |
|---|---|
| Overall Graduate GPA Requirement | 3.25 GPA required for degree conferral. For academic probation and other grading policies, refer to the Graduate School: Grade Point Average (GPA) Requirement policy: https://policy.wisc.edu/library/UW-1203 (https://policy.wisc.edu/library/UW-1203/). |
| Other Grade Requirements | Students must earn a B or above in all curriculum coursework. |
| Assessments and Examinations | Students defend their MA thesis to a committee of three faculty members. |
| Language Requirements | No language requirements. |

## REQUIRED COURSES

| Code | Title | Credits |
|---|---|---|
| **Journalism and Mass Communication** | | |
| In consultation with the faculty advisor, students must complete at least 12 credits of graduate-level JOURN courses ("Grad 50%" designation), including 2 courses numbered 800 or above. The courses listed below are commonly completed by students to satisfy this requirement. | | 12 |
| JOURN/ HISTORY 560 | History of U.S. Media | |
| JOURN 561 | Mass Communication and Society | |
| JOURN 562 | Mass Media and Racial Diversity | |
| JOURN 563 | Law of Mass Communication | |
| JOURN 564 | Media and the Consumer | |
| JOURN 565 | Effects of Mass Communication | |
| JOURN 566 | Communication and Public Opinion | |
| JOURN 567 | Mass Media and Global Communication | |
| JOURN/ COM ARTS/ HDFS 616 | Mass Media and Youth | |
| JOURN/ COM ARTS/ LSC 617 | Health Communication in the Information Age | |
| JOURN 618 | Mass Communication and Political Behavior | |
| JOURN 620 | International Communication | |
| JOURN 622 | The Impact of Emerging Media | |
| JOURN/ ART HIST/ HISTORY/ L I S 650 | History of Books and Print Culture in Europe and North America | |
| JOURN 657 | Understanding Research Design & Statistics in Mass Communication | |
| JOURN 658 | Communication Research Methods | |
| JOURN 675 | Topics in Government and Mass Media | |
| JOURN 676 | Special Topics in Mass Communication | |
| JOURN/L I S 677 | Concepts and Tools for Data Analysis and Visualization | |
| JOURN 801 | Mass Communication and the Individual | |
| JOURN 802 | Mass Communication and Society | |
| JOURN 803 | Mass Communication and Culture | |
| JOURN/ HISTORY 808 | Mass Communication History | |
| JOURN/LSC 811 | Conceptualization and Design of Mass Communication Research | |
| JOURN 812 | Qualitative Communication Research Methods | |
| JOURN 813 | Practicum in Communication Research | |
| JOURN 818 | Computational Approaches to Communication Research | |
| JOURN 821 | Health Communication | |
| JOURN 822 | Global Communication | |
| JOURN/ ENVIR ST/ LSC 823 | Science and Environment Communication | |
| JOURN 824 | Race, Ethnicity and Media | |
| JOURN/LSC 825 | Law and Ethics of Communication and Media | |
| JOURN/LSC 826 | Journalism Theory | |
| JOURN/ GEN&WS 828 | Gender and Sexuality in Mass Communication | |
| JOURN/ POLI SCI 829 | Political Communication | |
| JOURN/LSC 833 | Technology and Society | |
| JOURN 835 | News Framing and Social Protest Movements | |
| JOURN 880 | Topics in Mass Communication | |
| JOURN 901 | Colloquium in Mass Communication | |
| JOURN 902 | Graduate Teaching Colloquium | |
| **Outside of Department** | | |
| In consultation with the faculty advisor, students must complete at least 6 credits in coursework numbered 300 or above outside of the JOURN department. Examples of courses used to satisfy this requirement include the following. | | 6 |
| COM ARTS 903 | Media and Cultural Studies Colloquium | |
| COM ARTS 904 | Communication Science Colloquium | |
| COM ARTS/ CURRIC 914 | How Games Change Us | |
| COM ARTS 970 | Seminar in Communication Science | |
| CSCS 811 | Community-Based Research: Theory and Practice | |
| ED PSYCH/ COUN PSY/ CURRIC/ ED POL/ELPA/ RP & SE 719 | Introduction to Qualitative Research | |
| ED PSYCH 760 | Statistical Methods Applied to Education I | |

| | |
|---|---|
| ED PSYCH 761 | Statistical Methods Applied to Education II |
| ED PSYCH/ COMP SCI/ PSYCH 770 | Human-Computer Interaction |
| GEN&WS 800 | Research Methods in Gender & Women's Studies |
| LSC 700 | Colloquium in Life Sciences Communication |
| LSC 720 | Introduction to Communication Theory and Research |
| LSC 902 | Public Opinion of Life Science Issues |
| LSC 912 | Public Understanding of Politicized Science |
| POLI SCI 813 | Multivariable Statistical Inference for Political Research |
| POLI SCI 821 | Mass Political Behavior |
| POLI SCI 931 | Seminar-Political Theory |
| PSYCH 728 | Classic Issues in Social Psychology |
| PSYCH 752 | Applied Machine Learning for Behavioral Data Science |
| PUB AFFR 974 | Topics in Public Affairs |
| PUBLHLTH 791 | Strategic Health Communication-Theory and Practice |
| SOC 752 | Measurement and Questionnaires for Survey Research |
| STAT 610 | Introduction to Statistical Inference |
| STS 902 | Current Topics in Science and Technology Studies |
| **Additional Courses** | |
| Working with their advisor, students complete additional courses to reach the total credit minimum of 30. | 12 |
| **Total Credits** | **30** |
