The History department offers over fifteen different prizes designed to reward a broad range of undergraduate writing—from senior theses to digital and public history projects to specialized essays in American Indian History and LGBTQ+ History. These prizes are made possible thanks to the tremendous generosity of our alumni and former members of our faculty.

Detailed instructions on how to apply can be found on the Department of History website (https://history.wisc.edu/undergraduate-program/academic-opportunities-student-life/scholarships-awards-and-prizes/). Applications need to be submitted online, via the Wisconsin Scholarship Hub (WISH) (https://wisc.academicworks.com/).

ARCHIVE

ARCHIVE is an award-winning journal of historical work published annually by the UW–Madison chapter of Phi Alpha Theta. See ARCHIVE's website to view past volumes and find out how you can contribute (https://uwarchive.wordpress.com/how-can-i-get-involved/).

PHI ALPHA THETA

Phi Alpha Theta (https://phialphatheta.org/) is a national history honors society whose purpose is to promote the study of history and to bring students, teachers, and writers of history together in intellectual and social ways. See the UW–Madison Lambda Xi chapter's page (https://history.wisc.edu/undergraduate-program/academic-opportunities-student-life/phi-alpha-theta/) for more information.

WISCONSIN HISTORICAL SOCIETY

Scholars and researchers from all over the world come to the Wisconsin Historical Society (https://www.wisconsinhistory.org/) (WHS) to do

historical research—we simply walk across the street to make use of this world-class institution. WHS collections are an amazing resource for our students and are used in a wide range of our courses. History students can also develop internships related to the WHS collections and programs. Students interested in the history of film and television often explore and major in Communication Arts (p. 714) and can also get involved with the Wisconsin Center for Film and Theater Research (http://wcftr.commarts.wisc.edu/).

THE NONVIOLENCE PROJECT

The Nonviolence Project (https://thenonviolenceproject.wisc.edu/) is a comprehensive repository that educates and informs readers on the impact of nonviolent protests all over the world. From environmental issues to racial equality, the project showcases how nonviolence has been used to address many different issues by prominent world leaders and activists. The project aims to answer how and why nonviolence has been an effective sociopolitical tactic across different cultural, geographical, and political landscapes throughout history. The Nonviolence Project employs undergraduate student interns as researchers to help grow the repository of sources and present information to a broad audience.

FREEDOM SEEKERS

Freedom Seekers (https://freedom-seekers.org/) is a community-sourced digital humanities project featuring short histories of enslaved people who seized their liberty during the era of the American Revolution. These short essays are based on original research and analysis of the newspaper advertisements that enslavers used to seek the capture and return of escaped freedom seekers. Timed to coincide with the 250th anniversary of American independence, the project provides an opportunity to think about what freedom meant to different people in early America. Freedom Seekers employs undergraduate student interns (https://freedom-seekers.org/undergraduate-interns/) as researchers to help grow the collection of stories featured on the website.

CENTER FOR CAMPUS HISTORY

The University of Wisconsin–Madison's Rebecca M. Blank Center for Campus History (https://campushistory.wisc.edu/) is an ongoing effort to uncover and give voice to those who experienced, challenged, and overcame prejudice on campus. Undergraduate students have been involved with the Center since its inception as the Public History Project in 2019, working as researchers conducting both archival research and oral history interviews with former students, faculty, and staff.

LANGUAGE AND REGIONAL/ INTERNATIONAL STUDIES

History classes and faculty are at the center of UW–Madison's remarkable collection of resource centers for area studies. The Institute for Regional and International Studies (https://iris.wisc.edu/) is the umbrella organization for UW–Madison's nine area studies programs. Students interested in these areas can combine their History major or certificate with a major in International Studies (p. 990) or another area studies major and certificate (p. 975). UW–Madison also has one of the largest number of languages taught (https://languages.wisc.edu/languages/) in the United States.

PUBLIC HUMANITIES EXCHANGE FOR UNDERGRADUATES (HEX-U)

The Public Humanities Exchange for Undergraduates (https://humanities.wisc.edu/public-humanities/exchange/) (HEX-U) is a high-impact program for undergraduate students at UW–Madison who wish to make meaningful connections between their humanities scholarship and the needs of the local community through new models of social engagement. The program provides training in community partnership, mentoring during project design and implementation, and project funding to small cohorts of undergraduate scholars as they plan and implement creative community projects in partnership with Dane County organizations.

HISTORY, BS

Why study history? (https://history.wisc.edu/undergraduate-program/history-careers/why-history/) The History major is a great option for people who are interested in studying *change*. History asks, "How did the world get to be this way?" and "What factors might influence where the world is heading now?" Studying history helps us understand and grapple with complex questions and dilemmas. Are you interested in technology? Religion? The environment? Human rights? By examining how the past has shaped—and continues to shape—global, national, and local relationships between societies and people, history can help you find an answer. The skills that history students develop are used in a wide range of careers and prepare students for graduate or professional study in fields such as law, business, medicine, public policy, and much more.

The History major can also be combined with any other major in the College of Letters & Science, anything from Astronomy (p. 574) to Zoology (p. 1161). Majors that students most frequently pair with History are Economics (p. 764), English (http://guide.wisc.edu/undergraduate/letters-science/english/), Environmental Studies (p. 797), Journalism (p. 1454), and Political Science (p. 1398). History students can also choose to add certificates in Letters & Science or other colleges, such as certificates in Business (p. 1561) or Education and Educational Services (p. 1888). In addition to these, some of the most common certificates for History students are currently Criminal Justice (p. 636), Global Health (https://guide.wisc.edu/undergraduate/agricultural-life-sciences/nutritional-sciences/global-health-certificate/), European Studies (https://guide.wisc.edu/undergraduate/letters-science/institute-regional-international-studies/european-certificate/), and Digital Studies (p. 740). The History advising team is happy to discuss ways for you to make your intellectual and career goals work as part of a four-year plan (https://guide.wisc.edu/undergraduate/letters-science/history/history-ba/#fouryearplantext).

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are eligible to declare. For information on how to declare, visit Advising & Careers.
Courses required to get in	None
GPA requirements to get in	None
Credits required to get in	None
Other	None

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communication & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. Some courses satisfy more than one L&S degree requirement (visit College of Letters & Science: Requirements (https://guide.wisc.edu/undergraduate/letters-science/#requirementstext) for details).

This major can be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Communication	Complete both: • Part A: one course with the Communication A designation or eligible UW Placement Score; and • Part B: one course with the Communication B designation

Quantitative Reasoning	Complete both: • Part A: one course with the Quantitative Reasoning A designation or eligible UW Placement Score; and • Part B: one course with the Quantitative Reasoning B designation
Ethnic Studies	one 3+ credit course with the Ethnic Studies designation
Language	the third unit of a language other than English
Mathematics	Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.
L&S Breadth: Humanities	Complete 12 credits with the Humanities or Literature designation, which must include at least 6 credits with the Literature designation.
L&S Breadth: Social Sciences	Complete 12 credits with the Social Science designation.
L&S Breadth: Natural Sciences	Complete 12 credits, which must include both: • 6 credits with the Biological Science designation, and • 6 credits with the Physical Science designation.
Liberal Arts and Science (LAS) Coursework	at least 108 credits
Depth of Intermediate/ Advanced Coursework	at least 60 credits at the Intermediate or Advanced level
Major	Declare and complete at least one major.
Total Credits	at least 120 credits
UW-Madison Experience	• 30 credits in residence, overall, and • 30 credits in residence after the 86th credit
Quality of Work	• 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their School/College to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

Students may use courses from History and History of Science to meet the requirements of the History major.[1] A minimum of 30 credits in the major is required, including:

CHRONOLOGICAL BREADTH:

History majors must complete at least one course that deals with the history of Europe and/or the Mediterranean before C.E. 1500 or with the history of Africa or Asia before these areas fell heavily under European influence.

Chronological Breadth Courses

Code	Title	Credits
HISTORY/ CLASSICS 110	The Ancient Mediterranean	4

NOTES ON HISTORY BREADTH REQUIREMENTS

- Breadth courses may be taken in any order.
- Chronological Breadth courses may also count toward a Geographic Breadth category.
- Some courses qualify for more than one Geographic Breadth area, but a course may only count for one Geographic Breadth category for the purposes of meeting the requirement.
- Topics courses (HISTORY 200, HISTORY 201, HISTORY 221, HISTORY 223, HISTORY 225, HISTORY 227, HISTORY 229, HISTORY 271, HISTORY 272, HISTORY 273, HISTORY HIST SCI 280, HISTORY 283, HIST SCI 286, HIST SCI 350 & HISTORY 500) may count for Geographic and/or Chronological Breadth. For topics courses, see the course notes for current breadth information.
- The following courses **may not be used** for breadth in the major: HISTORY 199, HIST SCI 555HISTORY 600, HISTORY 680, HISTORY 681, HIST SCI 681, HISTORY 682, HIST SCI 682, HISTORY 690, HISTORY 691, HIST HIST SCI 699.

HISTORY WRITING AND RESEARCH SEQUENCE:

History majors must complete both of the following:

- Students are encouraged to complete one of HISTORY 201 The Historian's Craft or HIST SCI 211 The Historian's Craft: Science, Medicine, and Technology as early as possible.
- HISTORY 600 Advanced Seminar in History or HIST SCI 555 Undergraduate Seminar in History of Science, to be taken after satisfactory completion of either HISTORY 201 or HIST SCI 211. Enrolling in a HISTORY 600 or HIST SCI 555 seminar requires instructor consent. Available seminars can be found on the history department website (https://history.wisc.edu/history600-seminars/).

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in HISTORY/HISTORY of SCIENCE and all other major courses
- 2.000 GPA on 15 upper-level major credits in residence[2]
- 15 credits HISTORY and/or HISTORY of SCIENCE taken on campus

HONORS IN THE MAJOR

Students may declare Honors in the History Major in consultation with the History undergraduate advisor.

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major in History, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall University GPA
- Earn a 3.500 GPA in all HISTORY and HISTORY of SCIENCE courses and all other major courses
- Complete at least 36 total credits in HISTORY and HISTORY of SCIENCE coursework, 21 of which must be upper-level credits in residence[2]
- Complete at least 15 Honors credits in HISTORY or HISTORY of SCIENCE coursework
- Complete a two-semester Senior Honors Thesis, a piece of original work of approximately forty pages, in either HISTORY 681–HISTORY 682 or HIST SCI 681–HIST SCI 682, taken in conjunction with the HISTORY 680 Honors Thesis Colloquium both semesters. The thesis must be approved by instructors in both the thesis and colloquium courses.

FOOTNOTES

[1] ILS 201 and ILS 202 may also be used to complete the requirements of the History major, including the requirements for Honors in the Major.

[2] Major courses with Intermediate or Advanced Level are counted as upper-level in the History major.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Find and interpret diverse evidence to explain complex changes over time
2. Communicate effectively to a variety of audiences in writing and speech
3. Use an understanding of many perspectives to work with people and solve complex problems
4. Seek to understand differing views and ways of being in the world
5. Identify the skills developed in the study of history and articulate their applicability to a variety of professional and intellectual endeavors

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

First Year

Fall	Credits	Spring	Credits
History Breadth[1]	4	History course for the Ethnic Studies Requirement (complete within 1st 60 credits)[2]	4
Communication Part A (Complete during your first year)	3	Biological Science Breadth[3]	3
Quantitative Reasoning Part A (complete during your first year)	3	Literature Breadth	3
Language (if necessary)	4	Elective or Course for Second Major[4]	4
	14		**14**

Second Year

Fall	Credits	Spring	Credits
HISTORY 201 (counts toward Communication Part B)[5]	4	History Breadth	4
HIST SCI 211 (may be taken instead of History 201)		History Elective	3
Quantitative Reasoning Part B (I/A Comp Sci, Math, or Stats if required for the BS)	3	Physical Science Breadth	3
History Elective or Course for Second Major	3	Elective or Course for Second Major	3
Elective or Course for Second Major	3	Elective or Course for Second Major	3
Elective or Course for Second Major	3		
	16		**16**

Third Year

Fall	Credits	Spring	Credits
Declare the Major (before 86 credits)*		History Breadth	4
History Breadth	3	HISTORY 301 (optional)	1
HISTORY 300[6]	2	Science Breadth	3
I/A Comp Sci, Math, or Stats (if required for the BS)	3	Elective or Course for Second Major	3
Literature Breadth	3	Elective or Course for Second Major	3
Elective or Course for Second Major	4		
	15		**14**

Fourth Year

Fall	Credits	Spring	Credits
Complete Remaining L&S Requirements**		History Elective	4
HISTORY 600[7]	3	Science Breadth	3
HIST SCI 555 (may be taken instead of History 600)		Elective or Course for Second Major	3
Elective or Course for Second Major	4	Elective or Course for Second Major	3
Elective or Course for Second Major	4	Elective or Course for Second Major	3
Elective or Course for Second Major	4		
	15		**16**

Total Credits 120

1 The History Breadth requirements are very flexible. History majors must complete Chronological Breadth (one course) and take at least one course from four of the eight Geographical Breadth categories. A single course may count toward both Chronological and Geographic Breadth, if appropriate. (For example, a course on Ancient Rome would count toward Chronological Breadth and European History.) HISTORY 201 may also count toward History Breadth requirements.

2 Some examples of History courses that count toward the Ethnic Studies Requirement are: HISTORY/CHICLA 152 The United States West Since 1850, HISTORY/ASIAN AM 160 Asian American History: Movement and Dislocation, & HISTORY/JEWISH 213 Jews and American Pop. Culture.

3 Some L&S Breadth requirements will be satisfied with History coursework. History classes will complete the additional Humanities Breadth credits (the Humanities credits that are not Literature) and may also complete Social Science Breadth.

4 History is a flexible major and can be combined with a wide range of other majors and certificates. We encourage students to be thoughtful in how they approach their elective credits, whether that means pursuing an additional major or creating an individual plan of study that draws from multiple disciplines.

5 HISTORY 201 The Historian's Craft or HIST SCI 211 The Historian's Craft: Science, Medicine, and Technology may be taken as soon as you have completed the Communication A requirement. Students should try to complete the Historian's Craft by the end of the second year.

6 History offers two optional careers courses that expose students to, and prepare them for, the wide range of careers pursued by history majors: HISTORY 300 & HISTORY 301. History at Work: Professional Skills of the Major (HISTORY 300) connects students to History alumni in different fields and helps develop essential career skills related to the value of the major. History at Work: History Internship Seminar (HISTORY 301) allows students to receive credit toward their major requirements for work associated with an internship.

[7] HISTORY 600 or HIST SCI 555 may be taken at any point after a student has completed either HISTORY 201 The Historian's Craft or HIST SCI 211 The Historian's Craft: Science, Medicine, and Technology. History 600s and History of Science 555 are offered on a variety of topics every semester and they provide students with the rich experience of a small, faculty-led seminar. They may be taken for credit more than once as long as the topics are different.

* Students must declare a major by the time they reach 86 credits.

** Please refer to the Requirements tab in Guide for College of Letters & Science Breadth and Degree Requirements as well as Residence and Quality of Work requirements for the major.

ADVISING AND CAREERS

ADVISING AND CAREERS

DECLARE OR CANCEL THE HISTORY MAJOR

Students interested in declaring (or cancelling) the History major should fill out the History Major/Certificate Declaration Form (https://history.wisc.edu/undergraduate-program/declaring-the-history-major-or-certificate/). There are no prerequisites for declaring a History major, and students are encouraged to declare as soon as they feel comfortable doing so. All students are strongly encouraged to make an advising appointment after declaring and are also welcome to meet with an advisor before declaring. More information about advising and the major is available below and on the undergraduate section (https://history.wisc.edu/undergraduate-program/) of the department website.

ACADEMIC ADVISING

Students who are declared or interested in the History major have numerous advising resources available to them. The History advising team is comprised of professional and peer advisors who are excited to talk with students about everything from academic planning to professional development for future careers. Information on the history advising team and how to contact an advisor can be found on our website (https://history.wisc.edu/undergraduate-program/undergraduate-advising/). You can set up an appointment with one of our advisors by using the History Department Starfish (https://wisc.starfishsolutions.com/starfish-ops/dl/instructor/serviceCatalog.html?bookmark=service/64599) page.

The History major can also be combined with any other major in the College of Letters & Science, anything from Astronomy (p. 574) to Zoology (p. 1161). Majors that students most frequently pair with History are Economics (p. 764), English (http://guide.wisc.edu/undergraduate/letters-science/english/), Environmental Studies (p. 797), Journalism (p. 1454), and Political Science (p. 1398). History students can also choose to add certificates in Letters & Science or other colleges, such as certificates in Business (p. 1561) or Education and Educational Services (p. 1888). In addition to these, some of the most common certificates for History students are currently Criminal Justice (p. 636), Global Health (https://guide.wisc.edu/undergraduate/agricultural-life-sciences/nutritional-sciences/global-health-certificate/), European Studies (https://guide.wisc.edu/undergraduate/letters-science/institute-regional-international-studies/european-certificate/), and Digital Studies (p. 740). The History advising team is happy to discuss ways for you to make your intellectual and career goals work as part of a four-year plan (https://guide.wisc.edu/undergraduate/letters-science/history/history-ba/#fouryearplantext).

Honors in the Major

The Honors in the Major track in history is intended for students who are eager to experience the excitement of original historical research and who wish to graduate with the best possible undergraduate training in this discipline. Honors in the Major is especially appropriate for students who are considering graduate work in history or who want an especially advanced training in research, reasoning, and writing skills useful to a wide range of career choices. Students in this track write a thesis in their senior year based on their own original historical research. Visit our website (https://history.wisc.edu/undergraduate-program/undergraduate-declaring/honors-in-the-history-major/) for more information on the thesis process and the requirements for Honors in the History Major.

CAREER ADVISING

History is a rigorous but flexible major, and history students are known for being excellent communicators and savvy researchers. Historians are experts in synthesizing disparate pieces of evidence into coherent, persuasive arguments. The real world is filled with disparate facts and incomplete sets of data, so this is a real-world skill that history alumni utilize throughout their entire careers. The department's career advisor, Christina Matta (https://history.wisc.edu/people/matta-christina/), helps History students map out future career plans and connects students to a variety of resources on campus and beyond, including history alumni who volunteer as career mentors (see below for more information).

Alumni of the history department have enjoyed careers in medical research and practice; broadcast and print media; sports management; museums, archives, and libraries; finance and business, and community service and nonprofit organizations—as well as law, academia, and many other fields. The History major provides excellent preparation for the study of law, but our students also go on to study medicine and many other graduate fields. The centers for Pre-Law Advising (https://prelaw.wisc.edu/) and Pre-Health Advising (https://prehealth.wisc.edu/) are especially helpful resources on campus for students interested in those areas of study.

History Careers Course: "History at Work"

History at Work: Professional Skills of the Major (https://history.wisc.edu/courses/undergraduate-courses/history-300-301/) (History 300) is a course intended to help History students understand how their degree applies to the world of work. Students explore how their history skills relate to the needs of professional employers and are guided in the process of finding and obtaining professional internships and jobs. In this course, History students can polish their written and oral communication skills in forms appropriate for professional situations and learn from the experiences of guest speakers from a variety of fields.

Internships

The Department of History recognizes the importance of internships in helping students develop professional skills and explore potential career paths. Positions can vary depending on availability and students' interests, but recent sponsors have included the Wisconsin State Historical Museum, the University of Wisconsin Archives, offices of elected officials in the Wisconsin State Legislature and United States Congress, the Milwaukee Brewers, and Community Shares of Wisconsin, just to name a few! History majors can also get academic credit in conjunction with an internship by taking History 301: History at Work: History Internship Seminar (https://history.wisc.edu/courses/undergraduate-courses/history-300-301/).

Alumni Mentoring

Like internships, networking can be a valuable tool in opening professional doors and learning more about the professional value of the History major. The department often matches students with alumni mentors drawn from our Board of Visitors (https://history.wisc.edu/alumni-and-friends/board-

of-visitors/) and other graduates who can help them get started building a professional network, answer questions about a specific field, provide guidance in applying for jobs or preparing for interviews, and provide general career advice.

Students interested in participating in an internship or talking with an alumni mentor should meet with Christina Matta, the department's undergraduate career advisor, to discuss their interests and possible career goals.

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

THE HISTORY LAB

The History Lab is a resource center for students who are thinking, researching, and writing about the past. Staffed by experienced graduate students from the Department of History, the History Lab offers 40-minute, one-on-one tutoring sessions that help students develop historical questions, conduct research, craft strong arguments and thesis statements, cite evidence properly, and build an effective writing process. Available to all students enrolled in History or History of Science courses, the History Lab is one of only a handful of history-specific writing support centers in the United States. In addition to individualized tutoring, the History Lab provides a range of writing and research resources, and is well-equipped to support students who face challenges as English-language learners.

For more information or to make an appointment, see the History Lab website. (https://history.wisc.edu/undergraduate-program/the-history-lab/)

RESEARCH FELLOWSHIPS AND SCHOLARSHIPS

The Department of History is committed to supporting undergraduate achievement and encourages applications for the various scholarships and research fellowships made possible by the generosity of its donors. Scholarships are designed to reward outstanding History students and are awarded annually. Research fellowships allow undergraduates to pursue in-depth historical research under the guidance of History faculty. These awards help defray research costs such as supplies and travel expenses or pay for living expenses to allow students time to craft their papers and conduct research in UW Libraries.

Detailed instructions on how to apply can be found on the Department of History website (https://history.wisc.edu/undergraduate-program/academic-opportunities-student-life/scholarships-awards-and-prizes/). Applications need to be submitted online, via the Wisconsin Scholarship Hub (WISH) (https://wisc.academicworks.com/).

UNDERGRADUATE WRITING PRIZES

The History department offers over fifteen different prizes designed to reward a broad range of undergraduate writing—from senior theses to digital and public history projects to specialized essays in American Indian History and LGBTQ+ History. These prizes are made possible thanks to the tremendous generosity of our alumni and former members of our faculty.

Detailed instructions on how to apply can be found on the Department of History website (https://history.wisc.edu/undergraduate-program/academic-opportunities-student-life/scholarships-awards-and-prizes/). Applications need to be submitted online, via the Wisconsin Scholarship Hub (WISH) (https://wisc.academicworks.com/).

ARCHIVE

ARCHIVE is an award-winning journal of historical work published annually by the UW–Madison chapter of Phi Alpha Theta. See ARCHIVE's website to view past volumes and find out how you can contribute (https://uwarchive.wordpress.com/how-can-i-get-involved/).

PHI ALPHA THETA

Phi Alpha Theta (https://phialphatheta.org/) is a national history honors society whose purpose is to promote the study of history and to bring students, teachers, and writers of history together in intellectual and social ways. See the UW–Madison Lambda Xi chapter's page (https://history.wisc.edu/undergraduate-program/academic-opportunities-student-life/phi-alpha-theta/) for more information.

WISCONSIN HISTORICAL SOCIETY

Scholars and researchers from all over the world come to the Wisconsin Historical Society (https://www.wisconsinhistory.org/) (WHS) to do

historical research—we simply walk across the street to make use of this world-class institution. WHS collections are an amazing resource for our students and are used in a wide range of our courses. History students can also develop internships related to the WHS collections and programs. Students interested in the history of film and television often explore and major in Communication Arts (p. 714) and can also get involved with the Wisconsin Center for Film and Theater Research (http://wcftr.commarts.wisc.edu/).

THE NONVIOLENCE PROJECT

The Nonviolence Project (https://thenonviolenceproject.wisc.edu/) is a comprehensive repository that educates and informs readers on the impact of nonviolent protests all over the world. From environmental issues to racial equality, the project showcases how nonviolence has been used to address many different issues by prominent world leaders and activists. The project aims to answer how and why nonviolence has been an effective sociopolitical tactic across different cultural, geographical, and political landscapes throughout history. The Nonviolence Project employs undergraduate student interns as researchers to help grow the repository of sources and present information to a broad audience.

FREEDOM SEEKERS

Freedom Seekers (https://freedom-seekers.org/) is a community-sourced digital humanities project featuring short histories of enslaved people who seized their liberty during the era of the American Revolution. These short essays are based on original research and analysis of the newspaper advertisements that enslavers used to seek the capture and return of escaped freedom seekers. Timed to coincide with the 250th anniversary of American independence, the project provides an opportunity to think about what freedom meant to different people in early America. Freedom Seekers employs undergraduate student interns (https://freedom-seekers.org/undergraduate-interns/) as researchers to help grow the collection of stories featured on the website.

CENTER FOR CAMPUS HISTORY

The University of Wisconsin–Madison's Rebecca M. Blank Center for Campus History (https://campushistory.wisc.edu/) is an ongoing effort to uncover and give voice to those who experienced, challenged, and overcame prejudice on campus. Undergraduate students have been involved with the Center since its inception as the Public History Project in 2019, working as researchers conducting both archival research and oral history interviews with former students, faculty, and staff.

LANGUAGE AND REGIONAL/ INTERNATIONAL STUDIES

History classes and faculty are at the center of UW–Madison's remarkable collection of resource centers for area studies. The Institute for Regional and International Studies (https://iris.wisc.edu/) is the umbrella organization for UW–Madison's nine area studies programs. Students interested in these areas can combine their History major or certificate with a major in International Studies (p. 990) or another area studies major and certificate (p. 975). UW–Madison also has one of the largest number of languages taught (https://languages.wisc.edu/languages/) in the United States.

PUBLIC HUMANITIES EXCHANGE FOR UNDERGRADUATES (HEX-U)

The Public Humanities Exchange for Undergraduates (https://humanities.wisc.edu/public-humanities/exchange/) (HEX-U) is a high-impact program for undergraduate students at UW–Madison who wish to make meaningful connections between their humanities scholarship and the needs of the local community through new models of social engagement. The program provides training in community partnership, mentoring during project design and implementation, and project funding to small cohorts of undergraduate scholars as they plan and implement creative community projects in partnership with Dane County organizations.

HISTORY, CERTIFICATE

Why study history? (https://history.wisc.edu/undergraduate-program/history-careers/why-history/) The certificate in History is a great option for people who are interested in studying change (https://history.wisc.edu/undergraduate-program/history-careers/why-history/). History asks, "How did the world get to be this way?" and "What factors might influence where the world is heading now?" Studying history helps us understand and grapple with complex questions and dilemmas. Are you interested in technology? Religion? The environment? Human rights? By examining how the past has shaped—and continues to shape—global, national, and local relationships between societies and people, history can help you find an answer. The skills that history students develop are used in a wide range of careers and prepare students for graduate or professional study in fields such as law, business, medicine, public policy, and much more.

HOW TO GET IN

HOW TO GET IN

There are no prerequisites for declaring the History Certificate, and students are encouraged to declare as soon as they feel comfortable doing so. Students in all UW-Madison schools and colleges may declare the History Certificate. To declare, students should fill out the History Major/Certificate Declaration Form (https://history.wisc.edu/undergraduate-program/declaring-the-history-major-or-certificate/). All students are strongly encouraged to make an advising appointment after declaring and are also welcome to meet with an advisor before declaring. More information about advising and the certificate is available on the undergraduate section (https://history.wisc.edu/undergraduate-program/) of the History Department website. History Majors are not eligible to declare the History Certificate.

REQUIREMENTS

REQUIREMENTS

Students may use courses from HISTORY and HIST SCI to meet the requirements of the History certificate. The certificate requires 15 total credits/5 courses, including:

Code	Title	Credits
History Research and Writing Course (complete one):		**3**
HISTORY 201	The Historian's Craft	
HIST SCI 211	The Historian's Craft: Science, Medicine, and Technology	
(HISTORY 201 or HIST SCI 211 should be completed before the Capstone)		
Elective Coursework		

Any undergraduate courses in HISTORY or HIST SCI may be used to count toward the elective coursework requirement, as well as the following: ILS 201, ILS 202. Students are strongly encouraged to meet with an academic advisor or faculty mentor to select a group of courses that fits well with their interests and fulfills their academic or career goals.		
One Intermediate or Advanced HISTORY or HIST SCI course		3
Two additional courses in HISTORY or HIST SCI at any level		6
Capstone Course		**3**
Complete at least one of the following:		
HISTORY 401	Public History Workshop	
HISTORY 500	Reading Seminar in History	
HIST SCI 555	Undergraduate Seminar in History of Science	
HISTORY 600	Advanced Seminar in History	
Total Credits		**15**

RESIDENCE & QUALITY OF WORK

- At least 12 certificate credits must be completed in residence.
- Minimum 2.000 GPA on all certificate courses.

NOTES

Up to 3 credits awarded for approved examinations (e.g. AP or IB) or a transfer course may count toward elective coursework. The 12-credit residence requirement is meant to encourage students to engage with UW-Madison faculty and advisors and to choose their elective coursework intentionally. Ideally, these courses will complement their major or be related to other intellectual or career interests.

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Pose a historical question and explain its academic and public implications.
2. Present original and coherent findings through clearly written, persuasive arguments and narratives.
3. Examine the context in which primary sources were created, search for chronological and other relationships among them, and assess the sources in light of that knowledge.
4. Identify primary sources available to engage the historical problem under investigation.
5. Use appropriate research procedures and finding aids to find the secondary resources in history and other disciplines available to answer a historical question.
6. Use appropriate presentation formats and platforms to share information with academic and/or public audiences.

ADVISING AND CAREERS

ADVISING AND CAREERS

ACADEMIC ADVISING

Students who are declared or interested in the History certificate have numerous advising resources available to them. The History advising team is comprised of professional and peer advisors who are excited to talk with students about everything from academic planning to professional development for future careers. Information on the History advising team and how to contact an advisor can be found on our website. You can set up an appointment with one of our advisors by using the History Department Starfish (https://wisc.starfishsolutions.com/starfish-ops/dl/instructor/serviceCatalog.html?bookmark=service/64599)page.

CAREER ADVISING

History is a rigorous but flexible certificate, and History students are known for being excellent communicators and savvy researchers. Historians are experts in synthesizing disparate pieces of evidence into coherent, persuasive arguments. The real world is filled with disparate facts and incomplete sets of data, so this is a real-world skill that history alumni utilize throughout their entire careers. The department's career advisor, Christina Matta, helps history students map out future career plans and connects students to a variety of resources on campus and beyond, including history alumni who volunteer as career mentors (see below for more information).

Alumni of the History Department have enjoyed careers in medical research and practice; broadcast and print media; sports management; museums, archives, and libraries; finance and business, and community service and nonprofit organizations—as well as law, academia, and many other fields. History provides excellent preparation for the study of law, but our students also go on to study medicine and many other graduate fields. The centers for Pre-Law Advising and Pre-Health Advising are especially helpful resources on campus for students interested in those areas of study.

HISTORY CAREERS COURSE: "HISTORY AT WORK"

History at Work: Professional Skills of the Major (https://history.wisc.edu/courses/undergraduate-courses/history-300-301/) (History 300) is a course intended to help History students understand how their degree applies to the world of work. Students explore how their history skills relate to the needs of professional employers and are guided in the process of finding and obtaining professional internships and jobs. In this course, History students can polish their written and oral communication skills in forms appropriate for professional situations and learn from the experiences of guest speakers from a variety of fields.

INTERNSHIPS

The Department of History recognizes the importance of internships in helping students develop professional skills and explore potential career paths. Positions can vary depending on availability and students' interests, but recent sponsors have included the Wisconsin State Historical Museum, the University of Wisconsin Archives, offices of elected officials in the Wisconsin State Legislature and United States Congress, the Milwaukee Brewers, and Community Shares of Wisconsin – just to name a few! History certificate students can also get academic credit in conjunction with an internship by taking History 301: History at Work: History Internship

Seminar (https://history.wisc.edu/courses/undergraduate-courses/history-300-301/).

ALUMNI MENTORING

Like internships, networking can be a valuable tool in opening professional doors and learning more about the professional value of the history certificate. The department often matches students with alumni mentors drawn from our Board of Visitors and other graduates who can help them get started building a professional network, answer questions about a specific field, provide guidance in applying for jobs or preparing for interviews, and provide general career advice.

Students interested in participating in an internship or talking with an alumni mentor should meet with Christina Matta, the department's undergraduate career advisor, to discuss their interests and possible career goals.

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

THE HISTORY LAB

The History Lab is a resource center for students who are thinking, researching, and writing about the past. Staffed by experienced graduate students from the Department of History, the History Lab offers 40-minute, one-on-one tutoring sessions that help students develop historical questions, conduct research, craft strong arguments and thesis statements, cite evidence properly, and build an effective writing process. Available to all students enrolled in History or History of Science courses, the History Lab is one of only a handful of history-specific writing support centers in the United States. In addition to individualized tutoring, the History Lab provides a range of writing and research resources, and is well-equipped to support students who face challenges as English-language learners.

For more information or to make an appointment, see the History Lab website. (https://history.wisc.edu/undergraduate-program/the-history-lab/)

RESEARCH FELLOWSHIPS AND SCHOLARSHIPS

The Department of History is committed to supporting undergraduate achievement and encourages applications for the various scholarships and research fellowships made possible by the generosity of its donors. Scholarships are designed to reward outstanding History students and are awarded annually. Research fellowships allow undergraduates to pursue in-depth historical research under the guidance of History faculty. These awards help defray research costs such as supplies and travel expenses or pay for living expenses to allow students time to craft their papers and conduct research in UW Libraries.

Detailed instructions on how to apply can be found on the Department of History website (https://history.wisc.edu/undergraduate-program/academic-opportunities-student-life/scholarships-awards-and-prizes/). Applications need to be submitted online, via the Wisconsin Scholarship Hub (WISH) (https://wisc.academicworks.com/).

UNDERGRADUATE WRITING PRIZES

The History department offers over fifteen different prizes designed to reward a broad range of undergraduate writing—from senior theses to digital and public history projects to specialized essays in American Indian History and LGBTQ+ History. These prizes are made possible thanks to the tremendous generosity of our alumni and former members of our faculty.

Detailed instructions on how to apply can be found on the Department of History website (https://history.wisc.edu/undergraduate-program/academic-opportunities-student-life/scholarships-awards-and-prizes/). Applications need to be submitted online, via the Wisconsin Scholarship Hub (WISH) (https://wisc.academicworks.com/).

ARCHIVE

ARCHIVE is an award-winning journal of historical work published annually by the UW–Madison chapter of Phi Alpha Theta. See ARCHIVE's website

to view past volumes and find out how you can contribute (https://uwarchive.wordpress.com/how-can-i-get-involved/).

PHI ALPHA THETA

Phi Alpha Theta (https://phialphatheta.org/) is a national history honors society whose purpose is to promote the study of history and to bring students, teachers, and writers of history together in intellectual and social ways. See the UW–Madison Lambda Xi chapter's page (https://history.wisc.edu/undergraduate-program/academic-opportunities-student-life/phi-alpha-theta/) for more information.

WISCONSIN HISTORICAL SOCIETY

Scholars and researchers from all over the world come to the Wisconsin Historical Society (https://www.wisconsinhistory.org/) (WHS) to do historical research—we simply walk across the street to make use of this world-class institution. WHS collections are an amazing resource for our students and are used in a wide range of our courses. History students can also develop internships related to the WHS collections and programs. Students interested in the history of film and television often explore and major in Communication Arts (p. 714) and can also get involved with the Wisconsin Center for Film and Theater Research (http://wcftr.commarts.wisc.edu/).

THE NONVIOLENCE PROJECT

The Nonviolence Project (https://thenonviolenceproject.wisc.edu/) is a comprehensive repository that educates and informs readers on the impact of nonviolent protests all over the world. From environmental issues to racial equality, the project showcases how nonviolence has been used to address many different issues by prominent world leaders and activists. The project aims to answer how and why nonviolence has been an effective sociopolitical tactic across different cultural, geographical, and political landscapes throughout history. The Nonviolence Project employs undergraduate student interns as researchers to help grow the repository of sources and present information to a broad audience.

FREEDOM SEEKERS

Freedom Seekers (https://freedom-seekers.org/) is a community-sourced digital humanities project featuring short histories of enslaved people who seized their liberty during the era of the American Revolution. These short essays are based on original research and analysis of the newspaper advertisements that enslavers used to seek the capture and return of escaped freedom seekers. Timed to coincide with the 250th anniversary of American independence, the project provides an opportunity to think about what freedom meant to different people in early America. Freedom Seekers employs undergraduate student interns (https://freedom-seekers.org/undergraduate-interns/) as researchers to help grow the collection of stories featured on the website.

CENTER FOR CAMPUS HISTORY

The University of Wisconsin–Madison's Rebecca M. Blank Center for Campus History (https://campushistory.wisc.edu/) is an ongoing effort to uncover and give voice to those who experienced, challenged, and overcame prejudice on campus. Undergraduate students have been involved with the Center since its inception as the Public History Project in 2019, working as researchers conducting both archival research and oral history interviews with former students, faculty, and staff.

LANGUAGE AND REGIONAL/INTERNATIONAL STUDIES

History classes and faculty are at the center of UW–Madison's remarkable collection of resource centers for area studies. The Institute for Regional and International Studies (https://iris.wisc.edu/) is the umbrella organization for UW–Madison's nine area studies programs. Students interested in these areas can combine their History major or certificate with a major in International Studies (p. 990) or another area studies major and certificate (p. 975). UW–Madison also has one of the largest number of languages taught (https://languages.wisc.edu/languages/) in the United States.

PUBLIC HUMANITIES EXCHANGE FOR UNDERGRADUATES (HEX-U)

The Public Humanities Exchange for Undergraduates (https://humanities.wisc.edu/public-humanities/exchange/) (HEX-U) is a high-impact program for undergraduate students at UW–Madison who wish to make meaningful connections between their humanities scholarship and the needs of the local community through new models of social engagement. The program provides training in community partnership, mentoring during project design and implementation, and project funding to small cohorts of undergraduate scholars as they plan and implement creative community projects in partnership with Dane County organizations.

MEDIEVAL STUDIES, CERTIFICATE

The Medieval Studies certificate offers students interdisciplinary perspectives on the history and culture of Europe and the Mediterranean rim between ca. 300 and 1500. Courses from 18 departments allow students to explore the medieval world from the standpoints of art, visual and material culture, history, law, languages and literature, music, philosophy, religious studies, and the history of science and medicine. The certificate in Medieval Studies is designed to encourage the pursuit of interdisciplinary work across several departments.

The Middle Ages was a dynamic period of transcontinental trade and travel that fostered cultural, technological, and scientific interactions among the kingdoms and city states of Western Europe, the Byzantine (East Roman) Empire, and the Islamic caliphates that eventually encompassed much of Spain, north Africa, and the Middle East. It is also known that the Norse (Vikings) established settlements in North America as early as ca. 1000, some 500 years before Columbus.

In Western Europe, the Middle Ages laid the foundations of constitutional government and modern nation-states, instituted a system of trial by jury, and developed the first universities along with the concept of a liberal-arts curriculum (encompassing both arts and sciences). The period also saw the development of English, Germanic, Scandinavian, and romance languages (Italian, French, Spanish, Portuguese, Romanian), which by the end of the fourteenth century came to eclipse Latin as vehicles for secular poetry and prose. Further east, Greek dominated the territory of the Byzantine Empire, while the foundation of the Kyivan Rus coincided with the development of Cyrillic script used by many Slavic and non-Slavic languages. The Islamic world saw the wide diffusion of Arabic languages and literature, including scientific works which served to mediate knowledge of Greek natural philosophy and medical science to Western Europe.

Other significant cultural developments include the development of the codex, or book, often with elaborate programs of visual imagery and diagrams, the innovation of musical notation and early forms of polyphony, the application of optical science to urban planning and of one-

point perspective to painting (especially in Italy), and the refinement of structural engineering that led to the soaring light-filled architecture of Gothic cathedrals in Western Europe and the expansive centralized domed spaces of the Byzantine Empire and related Orthodox states, as well as the Islamic world.

The program's focus is embodied in the interdisciplinary courses devoted to the history and culture of the Middle Ages that are regularly offered across campus by participating departments and programs. The program cross-lists many of these courses, helps to publicize courses with medieval subject matter that are not permanently cross-listed, and offers opportunities for students to undertake independent study projects with participating faculty members. It also regularly organizes public programming on specific themes with the support of the Anonymous Fund, the Center for the Humanities, the Institute for Research in the Humanities, and affiliated departments and programs.

In addition to departments and programs that regularly offer courses counting towards the Medieval Studies certificate—including Art History, Classical and Ancient Near Eastern Studies, English, French and Italian, Integrated Liberal Studies, German/Nordic/Slavic+ (including Folklore and Scandinavian Studies), History, History of Medicine, History of Science, Jewish Studies, Religious Studies, and Spanish and Portuguese —the following departments and programs occasionally offer courses on medieval topics: African Studies, Asian Languages and Culture, Music, Philosophy, and Political Science.

Like a minor, the certificate documents a student's pursuit of a rigorous course of study in addition to the major(s). It attests to ambitious intellectual goals as well as the ability to imagine historical problems in transnational and transcultural perspectives. As a credential, it demonstrates a capacity for comparative critical thinking and analysis, skills that appeal to a wide range of potential employers.

HOW TO GET IN

HOW TO GET IN

Students interested in working toward the certificate should contact the director of Medieval Studies as early in their degree program as possible. The director serves as the undergraduate advisor for all students pursuing the certificate. For further information see the Medieval Studies website (http://www.medievalstudies.wisc.edu/).

REQUIREMENTS

REQUIREMENTS

The certificate requires the completion of **five courses (15 credits)** in the medieval area, according to the following distributional requirements.

Students interested in working toward the certificate should contact the director of Medieval Studies as early in their degree program as possible. The director serves as the undergraduate advisor for all students pursuing the certificate. For further information see the Medieval Studies website (http://www.medievalstudies.wisc.edu).

Code	Title	Credits
Complete one of the following:		**3-4**
HISTORY 115	Medieval Europe 410-1500	
ILS 201	Western Culture: Science, Technology, Philosophy I	
HIST SCI 201	The Origins of Scientific Thought	
ENGL 241	Literature and Culture I: to the 18th Century	
ART HIST 201	History of Western Art I: From Pyramids to Cathedrals	
Complete two courses from Category A ("The Middle Ages through History and Social Sciences"). [1]		**6**
Complete two courses from Category B ("The Middle Ages through Language, Literature and the Arts"). [1]		**6**
Total Credits		**15**

[1] For a list of which individual courses count toward Category A and which toward Category B, see the course lists below.

RESIDENCE AND QUALITY OF WORK

- At least 8 certificate credits must be completed in residence.
- Minimum 2.000 GPA on all certificate courses.

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Historical knowledge: Acquire knowledge of historical events, social structures, cultural productions, and/or scientific innovation from c. 300-1500; develop an understanding of the relationship between these and present-day institutions, forms of artistic expression, geo-political problems, and environmental and social concerns.
2. Interdisciplinary perspective: Approach problems in the study of the past using sources and methods drawn from more than one traditionally defined academic discipline; achieve an understanding of the inherently interdisciplinary nature of medieval studies.
3. Primary research: Encounter and analyze primary sources—including but not limited to historical documents, religious writings, scientific treatises, literary texts, works of visual art and architecture, material culture, performance texts, and music—to reach an understanding of significant aspects of medieval culture and demonstrate that understanding in an applied format.
4. Critical thinking: Discern and synthesize different perspectives on the Middle Ages; identify and question assumptions about the medieval era; assess evidence and/or evaluate methods for understanding the complexities of the past.

ADVISING AND CAREERS

ADVISING AND CAREERS

Students can obtain advising for the certificate by contacting the certificate director, who serves as the undergraduate advisor for all students pursuing the certificate. For further information see the Medieval Studies website (https://medievalstudies.wisc.edu/certificate/).

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

INFORMATION

DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/CERTIFICATES

- Information Science, BA (p. 964)
- Information Science, BS (p. 970)

INFORMATION SCIENCE, BA

Information Science students study concepts and examine issues at the nexus of people, data, information, and computing. They gain the knowledge and skills to create data-driven technologies and to make them work for real communities. Information Science focuses on the ethical, cultural, and social factors in design and use of information technology-based and data-driven systems. Students become adept in the creation, management, retrieval, and curation of data and information. The major emphasizes designing systems that foster well-being and support the public good.

HOW TO GET IN

HOW TO GET IN

Students must have a 2.000 GPA on coursework counting in the major, and a 2.000 GPA on any upper-level work in the major completed prior to declaration. No specific coursework must be completed to declare. For students below a 2.000 GPA, please contact iSciadvising@ischool.wisc.edu to discuss options and a path to declaring the Information Science major.

It is recommended that students declare the major as early as possible to plan for required coursework. First semester students without a calculated GPA are eligible to declare. For instructions on declaring the Information Science major, please see the Information Science (https://ischool.wisc.edu/programs/information-science-major/) webpage.

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a Bachelor of Arts degree in the College of Letters & Science must complete all of the requirements below. Some courses satisfy more than one L&S degree requirement (visit College of Letters & Science: Requirements (https://guide.wisc.edu/undergraduate/letters-science/#requirementstext) for details).

This major can be paired with either the Bachelor of Arts or Bachelor of Science degree requirements.

BACHELOR OF ARTS DEGREE REQUIREMENTS

Communication	Complete both: • Part A: one course with the Communication A designation or eligible UW Placement Score; and • Part B: one course with the Communication B designation

Quantitative Reasoning	Complete both: • Part A: one course with the Quantitative Reasoning A designation or eligible UW Placement Score; and • Part B: one course with the Quantitative Reasoning B designation
Ethnic Studies	one 3+ credit course with the Ethnic Studies designation
Language	Complete either: • the fourth unit of one language other than English; or • the third unit of one language other than English and the second unit of an additional language.
L&S Breadth: Humanities	Complete 12 credits with the Humanities or Literature designation, which must include at least 6 credits with the Literature designation.
L&S Breadth: Social Sciences	Complete 12 credits with the Social Science designation.
L&S Breadth: Natural Sciences	Complete 12 credits with the Natural Science, Biological Science, or Physical Science designations, which must include both: • one 3+ credit course with the Biological Science designation, and • one 3+ credit course with the Physical Science designation.
Liberal Arts and Science (LAS) Coursework	at least 108 credits
Depth of Intermediate/ Advanced work	at least 60 credits at the Intermediate or Advanced level
Major	Declare and complete at least one major.
Total Credits	at least 120 credits
UW-Madison Experience	• 30 credits in residence, overall; and • 30 credits in residence after the 86th credit
Quality of Work	• 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their School/College to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

Students must complete a minimum of 30 total credits as detailed below.

CORE INFORMATION SCIENCE COURSEWORK

Complete 21 credits of Core Information Science Coursework from these options:

- L I S courses in the Breadth Coursework lists (counts for both Core and Breadth)
- Additional Core L I S Coursework
- COMP SCI 570 (counts for both Core and Breadth)

Breadth Coursework

Complete one course and at least 3 credits from each category. Non-L I S courses completed in each category satisfy breadth and count towards the Approved Electives.

Ethics, Computing & Society

Code	Title	Credits
L I S 201	The Information Society	4

RESIDENCE & QUALITY OF WORK IN THE MAJOR

- Minimum 2.000 GPA in all L I S and major courses
- Minimum 2.000 GPA computed on 15 credits of upper-level work in the major[1]
- Minimum 15 credits in L I S courses taken on the UW-Madison campus[2]

FOOTNOTES

1 All Intermediate or Advanced-level courses are considered upper-level in the major.

2 A course is considered "at UW-Madison" when it is taken on the UW-Madison campus.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Demonstrate understanding of ways in which the policies, ethics, and values associated with information systems can affect society
2. Demonstrate understanding of the relationships between information, cognition, and human social activity
3. Apply design principles and information science concepts to improve information systems and solve problems
4. Apply introductory data analysis and data quality management approaches and communicate results
5. Apply computational tools to accomplish goals and meet human needs
6. Communicate well in oral, written, and visual forms

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

Freshman

Fall	Credits	Spring	Credits
Communications A	3	L I S 201, 350, or 462 (Meets Communications B Requirement)	3-4

	16		**16**

Total Credits 120

ADVISING AND CAREERS

ADVISING AND CAREERS

Students who are interested in information science academic advising for the major should visit the Information School website (https://ischool.wisc.edu/programs/undergraduates/) or contact the advisors by email at iSciAdvising@ischool.wisc.edu.

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

Visit Wisconsin Scholarship Hub (https://wisc.academicworks.com/) to find UW–Madison scholarships and apply online.

Visit the Student Awards page (https://ischool.wisc.edu/student-experience/awards-and-scholarships/master-tuition-funding/student-

awards/) on the Information School website for opportunities available to students studying Information Science.

INFORMATION SCIENCE, BS

Information Science students study concepts and examine issues at the nexus of people, data, information, and computing. They gain the knowledge and skills to create data-driven technologies and to make them work for real communities. Information Science focuses on the ethical, cultural, and social factors in design and use of information technology-based and data-driven systems. Students become adept in the creation, management, retrieval, and curation of data and information. The major emphasizes designing systems that foster well-being and support the public good.

HOW TO GET IN

HOW TO GET IN

Students must have a 2.000 GPA on coursework counting in the major, and a 2.000 GPA on any upper-level work in the major completed prior to declaration. No specific coursework must be completed to declare. For students below a 2.000 GPA, please contact iSciadvising@ischool.wisc.edu to discuss options and a path to declaring the Information Science major.

It is recommended that students declare the major as early as possible to plan for required coursework. First semester students without a calculated GPA are eligible to declare. For instructions on declaring the Information Science major, please see the Information Science (https://ischool.wisc.edu/programs/information-science-major/) webpage.

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communication & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. Some courses satisfy more than one L&S degree requirement (visit College of Letters & Science: Requirements (https://guide.wisc.edu/undergraduate/letters-science/#requirementstext) for details).

This major can be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Communication	Complete both: • Part A: one course with the Communication A designation or eligible UW Placement Score; and • Part B: one course with the Communication B designation
Quantitative Reasoning	Complete both: • Part A: one course with the Quantitative Reasoning A designation or eligible UW Placement Score; and • Part B: one course with the Quantitative Reasoning B designation
Ethnic Studies	one 3+ credit course with the Ethnic Studies designation
Language	the third unit of a language other than English
Mathematics	Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.
L&S Breadth: Humanities	Complete 12 credits with the Humanities or Literature designation, which must include at least 6 credits with the Literature designation.
L&S Breadth: Social Sciences	Complete 12 credits with the Social Science designation.
L&S Breadth: Natural Sciences	Complete 12 credits, which must include both: • 6 credits with the Biological Science designation, and • 6 credits with the Physical Science designation.
Liberal Arts and Science (LAS) Coursework	at least 108 credits
Depth of Intermediate/ Advanced Coursework	at least 60 credits at the Intermediate or Advanced level
Major	Declare and complete at least one major.
Total Credits	at least 120 credits
UW-Madison Experience	• 30 credits in residence, overall, and • 30 credits in residence after the 86th credit
Quality of Work	• 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their School/College to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

Students must complete a minimum of 30 total credits as detailed below.

CORE INFORMATION SCIENCE COURSEWORK

Complete 21 credits of Core Information Science Coursework from these options:

- L I S courses in the Breadth Coursework lists (counts for both Core and Breadth)
- Additional Core L I S Coursework
- COMP SCI 570 (counts for both Core and Breadth)

Breadth Coursework

Complete one course and at least 3 credits from each category. Non-L I S courses completed in each category satisfy breadth and count towards the Approved Electives.

Ethics, Computing & Society

Code	Title	Credits
L I S 201	The Information Society	4
L I S 202	Informational Divides and Differences in a Multicultural Society	3
L I S 220	Digital Footprints: Privacy and Technology	3
L I S/LEGAL ST 460	Surveillance, Privacy, and Police Powers	3
L I S 461	Data and Algorithms: Ethics and Policy	3-4
or L I S 462	Data and Algorithms: Ethics and Policy (Communications Intensive)	
L I S 500	Code and Power	3

ADVISING AND CAREERS

ADVISING AND CAREERS

Students who are interested in information science academic advising for the major should visit the Information School website (https://ischool.wisc.edu/programs/undergraduates/) or contact the advisors by email at iSciAdvising@ischool.wisc.edu.

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

Visit Wisconsin Scholarship Hub (https://wisc.academicworks.com/) to find UW–Madison scholarships and apply online.

Visit the Student Awards page (https://ischool.wisc.edu/student-experience/awards-and-scholarships/master-tuition-funding/student-awards/) on the Information School website for opportunities available to students studying Information Science.

AFRICAN STUDIES, CERTIFICATE

The African Studies Program (https://africa.wisc.edu/) supports research, teaching, and outreach at the University of Wisconsin–Madison, bringing together scholars in multiple disciplines, students, teachers, and community partners to consider all aspects of land and life in Africa. The African Studies Program is a U.S. Department of Education Title VI National Resource Center for Africa (https://iris.wisc.edu/titlevi/), a unit in The International Division, and a member of the campus consortium of internationally oriented programs known as the Institute for Regional and International Studies (http://iris.wisc.edu/).

The program was established in 1961 by an interdisciplinary team of internationally respected scholars including Jan Vasina, Philip Curtin, Frederick Simoons, and Aristride Zolberg. The center continues to enjoy a reputation for excellence, having awarded more degrees to Africa specialists than any other American university. No other university boasts such a depth and range of expertise in Africanist scholarship. Over 70 affiliated faculty offer more than 100 courses in 35 departments around campus. The Department of African Cultural Studies offers students an opportunity to study a number of African languages including Arabic, Hausa, Swahili, Wolof, Yoruba, and Zulu, as well as options for self-directed study of less-commonly taught languages.

Undergraduates from any department can benefit from access to our programs and top-ranked faculty by completing a certificate in African Studies. The certificate is highly interdisciplinary and welcomes students with all academic interests, including the humanities, social sciences, business, health, agriculture, or the environment. What unites certificate students is a shared interest in the people, places, and stories of the continent of Africa.

A certificate in African Studies indicates that a student has acquired an interdisciplinary knowledge about the African continent, its histories, its stories, and its people. African Studies alumni serve in a number of important leadership positions in both the private and public sectors. Former students have gone on to serve as ambassadors, presidential advisors, and leaders of investment firms and Washington think tanks. Many undergraduate certificate students launch their internationally oriented careers by joining the Peace Corps (https://peacecorps.wisc.edu/) after graduation.

The African Studies Program, a regional center within the Institute for Regional and International Studies (https://iris.wisc.edu/), supports and enhances international and global awareness for our students and inspires informed thinking about the complexities of our world. Students connect to international networks and our regional communities through lecture series, film screenings, outreach events, and activities. Students are encouraged to study abroad or do international internships, learn languages, and gain an interdisciplinary grounding in global and regional affairs. We also provide resources and expertise on our world area to other students and educators from kindergarten to graduate school, businesses, the media, the military, the community, and others.

HOW TO GET IN

HOW TO GET IN

Students interested in declaring the undergraduate certificate should contact the African Studies Program undergraduate advisor (advising@africa.wisc.edu).

REQUIREMENTS

REQUIREMENTS

15 credits in African Studies approved courses

At least two SUBJECTs represented: [1]

Code	Title	Credits

[1] No more than two courses from any one SUBJECT may count toward the certificate. A cross-listed course may count in either—but not both—SUBJECTs in which it is cross-listed.

RESIDENCE AND QUALITY OF WORK

- Minimum 2.000 GPA on all certificate courses
- At least 8 certificate credits must be completed in residence

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. (Historical Grounding) understanding the historical, political, and cultural forces and conditions that have given rise to the unity and diversity in the region today.
2. (Multi-disciplinarity) analyzing contemporary political, economic, and cultural realities in the region from at least two disciplinary perspectives, ideally including humanities, social sciences and sometimes natural science approaches.
3. (Depth of knowledge) mastering at the undergraduate generalist level a particular facet of life in the region by taking courses on a particular sub-region or country, or by studying a regional language, or by taking at least two courses on the region in one discipline.

ADVISING AND CAREERS

ADVISING AND CAREERS

Students earning the certificate should visit with the advisor at least once per semester. The African Studies Program advisor (https://africa.wisc.edu/academics/advising/) can assist you in developing your plan of study for the certificate, track progress toward the certificate, explore study abroad and international internship options, and begin the career exploration process. We offer walk-in advising, advising workshops, and scheduled appointments.

We strongly encourage students to enroll in Africa: An Introductory Survey (AFRICAN/AFROAMER/ANTHRO/GEOG/HISTORY/POLI SCI/

SOC 277), to study an African language, and to study abroad (https://studyabroad.wisc.edu/programsearch/?Region=2) in Africa.

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

Information about funding through the African Studies Program is available on our website (https://africa.wisc.edu/academics/acedemics-fellowships-and-awards/). We also encourage our students to explore funding options available through the Institute for Regional and International Studies (IRIS) Awards Office (https://iris.wisc.edu/funding/students/).

EAST ASIAN STUDIES, CERTIFICATE

The certificate in East Asian Studies is offered by the Center for East Asian Studies (https://eastasia.wisc.edu/) (CEAS) and is available to students working toward a baccalaureate degree in any of the University of Wisconsin–Madison schools and colleges, and to University Special students. This certificate meets the needs of students choosing to focus on the East Asian region (China, Korea, Japan, and Tibet) within their primary major, but not wishing to commit to the rigorous language study required by the relevant majors in the Department of Asian Languages and Cultures.

Students select coursework reflecting their interests from myriad classes offered through many university departments and can work toward a variety of undergraduate majors. Upon earning the certificate, this emphasis is noted on the student's transcript. The certificate is of value to students wishing to demonstrate their knowledge of the East Asian region either to potential employers or to graduate schools.

ABOUT CEAS

CEAS began in 1962 as the East Asian Studies program, building on more than 60 years of research and teaching on China, Japan, and Korea at UW–Madison. Over the years it has grown from fewer than a dozen faculty members teaching 30 graduate-level courses to more than 70 faculty members teaching nearly 300 courses at both undergraduate and graduate levels.

CEAS is the focal point connecting East Asia to the University of Wisconsin–Madison. One of UW–Madison's eight federally funded National Resource Centers, CEAS is dedicated to all aspects of research, education, and outreach related to China, Japan, and Korea.

Students interested in more specialized study of the languages and literatures of East Asia, South Asia, or Southeast Asia should see the Department of Asian Languages and Cultures, the Center for South Asia, or the Center for Southeast Asian Studies; those interested in study of languages and cultures of Central Asia should see the Center for Russian, East European, and Central Asian Studies. All questions pertaining to East Asian studies at UW–Madison should be addressed to the Center for East Asian Studies.

HOW TO GET IN

HOW TO GET IN

Students interested in declaring the East Asian Studies certificate should contact the advisor for the program.

Students declared in the Asian Languages and Cultures: East Asian Studies BA/BS/MAJ are not eligible to declare the East Asian Studies certificate.

REQUIREMENTS

REQUIREMENTS

Complete 21 credits representing at least three Subjects, from: [1]

Code	Title	Credits
Core Course		
HISTORY/ASIAN/ POLI SCI 255	Introduction to East Asian Civilizations	3-4

RESIDENCE AND QUALITY OF WORK

- Minimum 2.000 GPA on all certificate courses
- At least 11 certificate credits must be completed in residence

UNDERGRADUATE/SPECIAL STUDENT CERTIFICATE

This certificate is intended to be completed in the context of an undergraduate degree and for those seeking this certificate that is preferred. For students who have substantially completed this certificate at UW–Madison and may need one or two courses to complete the certificate, they may do so immediately after completion of the bachelor's degree by enrolling in the course as a University Special (nondegree) student. The certificate must be completed within a year of completion of the bachelor's degree. Students should keep in mind that University Special students have the last registration priority and that may limit

availability of desired courses. Financial aid is not available when enrolled as a University Special student to complete an undergraduate certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. (Historical Grounding) understanding the historical, political, and cultural forces and conditions that have given rise to the unity and diversity in the region today.
2. (Multi-disciplinarity) analyzing contemporary political, economic, and cultural realities in the region from at least two disciplinary perspectives, ideally including humanities, social sciences and sometimes natural science approaches.
3. (Depth of Knowledge) mastering at the undergraduate generalist level a particular facet of life in the region by taking courses on a particular sub-region or country, or by studying a regional language, or by taking at least two courses on the region in one discipline.

ADVISING AND CAREERS

ADVISING AND CAREERS

Students should contact the certificate advisor with questions regarding courses and requirements.

Students interested in international internships should contact the International Internships Program (http://internships.international.wisc.edu/) office.

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

Please visit our Funding Opportunities page for information on funding available to CEAS students.

Please join the CEAS mailing list (https://explore.wisc.edu/LP=1451/?elqTrackId=cc33c95ab71e4d92821f32fa7eaee9f5) to receive "This Week at CEAS," a weekly newsletter that contains information on events and opportunities related to East Asia.

EUROPEAN STUDIES, CERTIFICATE

The European Studies Program (https://europe.wisc.edu/), in cooperation with the Center for European Studies, the Jean Monnet European Union Center of Excellence (JMEUCE), and the DAAD Center for German and European Studies (CGES), promotes knowledge and understanding of Europe both on and off campus. Established in 1968, the program provides integrated interdisciplinary studies on contemporary Europe for both undergraduate and graduate students. The program brings together scholars on campus interested in different aspects of Europe to discuss topics of mutual interest. More than 30 departments offer courses on Europe (excluding language courses), providing the largest number of courses on any region of the world other than the United States.

The European Studies Program (https://europe.wisc.edu/), a regional center within the Institute for Regional and International Studies (https://iris.wisc.edu/), supports and enhances international and global awareness for our students and inspires informed thinking about the complexities of our world. Students connect to international networks and our regional communities through lecture series, film screenings, outreach events, and activities. Students are encouraged to study abroad or do international internships, learn languages, and gain an interdisciplinary grounding in global and regional affairs. We also provide resources and expertise on our world area to other students and educators from kindergarten to graduate school, businesses, the media, the military, the community, and others.

HOW TO GET IN

HOW TO GET IN

Students interested in declaring the undergraduate certificate should contact the Center for European Studies or the undergraduate advisor.

REQUIREMENTS

REQUIREMENTS

LANGUAGE REQUIREMENT

Students may satisfy the European language requirement by taking college courses, or through high school units. There are two options to complete the requirement—students can either complete:

1. Four units of a single European language
   or
2. Three units of one European language and two units of a second European language.

Fourth, Third, and Second Unit Courses

Code	Title	Credits
Fourth unit courses:		
Courses above fourth semester may used to satisfy this requirement.		
FRENCH 204	Fourth Semester French	
GERMAN 204	Fourth Semester German	
GERMAN 214	Fourth Semester Dutch	
GNS 440	Fourth Semester Turkish	
GREEK 306	Fourth Semester Ancient Greek	
ITALIAN 204	Fourth Semester Italian	
PORTUG 202	Fourth Semester Portuguese	
SCAND ST 202	Second Year Norwegian	
SCAND ST 212	Second Year Swedish	
SCAND ST 222	Second Year Danish	
SPANISH 204	Fourth Semester Spanish	
SLAVIC 208	Fourth Semester Polish	
SLAVIC 218	Fourth Semester Czech	
SLAVIC 252	Fourth Semester Serbo-Croatian	
Third unit courses:		
FRENCH 203	Third Semester French	
GERMAN 203	Third Semester German	
GERMAN 213	Third Semester Dutch	
GNS 439	Third Semester Turkish	
GREEK 305	Third Semester Ancient Greek	
ITALIAN 203	Third Semester Italian	
PORTUG 201	Third Semester Portuguese	
SCAND ST 201	Second Year Norwegian

RESIDENCE AND QUALITY OF WORK

- Minimum 2.500 GPA on all certificate courses.
- At least 11 certificate credits must be completed in residence.

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. (Historical Grounding) understanding the historical, political, and cultural forces and conditions that have given rise to the unity and diversity in the region today.
2. (Multi-disciplinarity) analyzing contemporary political, economic, and cultural realities in the region from at least two disciplinary perspectives, ideally including humanities, social sciences and sometimes natural science approaches.
3. (Depth of knowledge) mastering at the undergraduate generalist level a particular facet of life in the region by taking seven courses on three particular sub-regions or countries or by taking seven courses on the region in more than one discipline
4. (Language knowledge) mastering at undergraduate generalist level a particular facet of life in the region by studying a regional language to the intermediate level.

ADVISING AND CAREERS

ADVISING AND CAREERS

Advising (https://europe.wisc.edu/certificate/) for the certificate is through the Institute for Regional and International Studies (IRIS). The IRIS Assistant Director for Students and Curriculum can assist students in developing a plan of study for the certificate, track progress toward the certificate, explore study abroad and international internship options, and begin the career exploration process. We offer walk-in advising,

advising workshops, and scheduled appointments. We strongly encourage students to begin career exploration early on and to make use of the many resources available on campus.

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

Information about funding through the Center for European Studies is available on our website (http://europe.wisc.edu/outreach-opportunities/). We also encourage our students to explore funding options available through the Institute for Regional and International Studies (IRIS) Awards Office (https://iris.wisc.edu/funding/).

INTERNATIONAL STUDIES, BA

International Studies is an interdisciplinary major with a broad background in international and transnational political, social, economic, commercial, and environmental affairs, together with a comparative study of politics, economics, security, and culture. The goal is to provide students with the necessary tools to understand global processes in their totality and how they are situated and lived in specific regions.

The major provides an integrated program of courses that lays the foundation for professional training in a wide variety of areas. Such a foundation can be invaluable in securing a place in competitive graduate or professional schools, which, in turn, prepare students for government service, or for other careers with an international focus, including those in multinational corporations, international finance, non-governmental organizations, and institutions of teaching and research.

The International Studies major complements numerous majors across campus. Many students choose to double major or enhance their studies with one or more certificates, such as the Global Health certificate or those offered by the area studies centers.

This major is interdisciplinary, offering a wealth of options. Careful planning and consultation with the International Studies advisor is especially important.

OPTIONS IN THE MAJOR

HUMAN RIGHTS AND HUMANITARIANISM

This named option covers the range of laws, norms, and organizations that address the protection of vulnerable populations and ordinary citizens. This named option covers human rights, as they are codified in the Universal Declaration of Human Rights; hence it covers the civil and political rights, from speech, belief, association, and discrimination, to social, economic, and cultural rights, such as the right to education, health, and water, among others. Human Rights and Humanitarianism also encompasses the organizations and institutions that work to protect and advocate for these rights, inclusive of courses on international law, nonprofit management, and non-state actors in global politics as well as those on specialized multilateral organizations that deal with human rights, such as regional organizations and specialized agencies at the United Nations. The named option similarly addresses social movements for change. It addresses the ways in which civilians are protected when thrust into conditions of hardship, including the laws of war, regimes on migration and forced migration, and efforts to address global health disparities.

GLOBAL SECURITY

This named option covers traditional and nontraditional forms of insecurity, disorder, and violent conflict as well as efforts to resolve and manage conflict. The thematic categories include forms of war, including interstate and civil war, as well as forms of political violence against civilians, such as terrorism, genocide, riots, and massacres. Global Security also covers nontraditional forms of insecurity, such as climate change, biothreats, pandemics and other infectious diseases, cyberattacks and cybersecurity, and food security. This named option also encompasses a range of ways to manage these forms of insecurity, including peacekeeping, other multilateral efforts to mediate conflict, counterinsurgency, and post-conflict peacebuilding.

POLITICS AND POLICY IN THE GLOBAL ECONOMY

This named option offers a multidisciplinary survey of international economic and political institutions and transactions, as well as the policy issues pertaining to international commerce and trade, international finance and monetary relations, international macroeconomic policy coordination, U.S. trade imbalances, aid and development, and related environmental and natural resource problems.

CULTURE IN THE AGE OF GLOBALIZATION

In this named option, students investigate crosscultural interactions at different levels: local, national, and transnational. Students engage in such issues as cosmopolitanism; international and global flows of images, ideas, and people; questions of identity; changing assumptions of what it means to be indigenous and foreign; globalization and technology; and the impact of globalization on cultures.

STUDY ABROAD

International Studies and studying abroad are a natural combination. While study abroad is not a requirement for the major, all International Studies students are strongly encouraged to pursue a significant international experience during the course of the undergraduate career. Whether through a study abroad program, an internship, or service learning, the experience of studying or working in a foreign culture is invaluable. Many courses taken abroad will count toward the International Studies major. See the International Studies advisor for specific guidelines. More information about study abroad and internships is available through International Academic Programs (http://www.studyabroad.wisc.edu/).

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to Get in	No application required. All students who meet the requirements listed below are eligible to declare. For information on how to declare, see Advising & Careers.
Courses required to get in	Students must be enrolled in or have completed INTL ST 101 prior to declaring the major.
GPA requirements to get in	None.
Credits required to get in	None.
Other	None.

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.

English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a Bachelor of Arts degree in the College of Letters & Science must complete all of the requirements below. Some courses satisfy more than one L&S degree requirement (visit College of Letters & Science: Requirements (https://guide.wisc.edu/undergraduate/letters-science/#requirementstext) for details).

This major can be paired with either the Bachelor of Arts or Bachelor of Science degree requirements.

BACHELOR OF ARTS DEGREE REQUIREMENTS

Communication	Complete both: • Part A: one course with the Communication A designation or eligible UW Placement Score; and • Part B: one course with the Communication B designation
Quantitative Reasoning	Complete both: • Part A: one course with the Quantitative Reasoning A designation or eligible UW Placement Score; and • Part B: one course with the Quantitative Reasoning B designation
Ethnic Studies	one 3+ credit course with the Ethnic Studies designation
Language	Complete either: • the fourth unit of one language other than English; or • the third unit of one language other than English and the second unit of an additional language.
L&S Breadth: Humanities	Complete 12 credits with the Humanities or Literature designation, which must include at least 6 credits with the Literature designation.
L&S Breadth: Social Sciences	Complete 12 credits with the Social Science designation.
L&S Breadth: Natural Sciences	Complete 12 credits with the Natural Science, Biological Science, or Physical Science designations, which must include both: • one 3+ credit course with the Biological Science designation, and • one 3+ credit course with the Physical Science designation.
Liberal Arts and Science (LAS) Coursework	at least 108 credits
Depth of Intermediate/ Advanced work	at least 60 credits at the Intermediate or Advanced level
Major	Declare and complete at least one major.
Total Credits	at least 120 credits
UW-Madison Experience	• 30 credits in residence, overall; and • 30 credits in residence after the 86th credit
Quality of Work	• 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their School/College to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS OF THE MAJOR

Students must declare the major, complete the common requirements, and the requirements for one of these options (p.) within the international studies major:

- Culture in the Age of Globalization
- Global Security
- Politics and Policy in the Global Economy
- Human Rights and Humanitarianism

A student may not declare or earn more than one major option. The major requires 45 credits total between Foundational Requirements and Named Option Requirements. [1]

FOUNDATIONAL REQUIREMENTS

Code	Title	Credits
International Foundations		
INTL ST 101	Introduction to International Studies	3-4
Economic Foundations (complete one of the following):		**3-8**
ECON 101 & ECON 102	Principles of Microeconomics and Principles of Macroeconomics	
ECON 111	Principles of Economics-Accelerated Treatment	

A A E 101 & ECON 102	Introduction to Agricultural and Applied Economics and Principles of Macroeconomics
POLI SCI 350	International Political Economy
A A E/ ENVIR ST 244	The Environment and the Global Economy
Historical Foundations	**3-4**
INTL ST/ HISTORY 146	A Global History of Now
Regional Foundations	**6-8**
Complete at least one course from "Global South" lists and take either an additional course from "Global South" list or a course from the "Additional Area Studies" List.	
Global South:	
AFRICAN/ AFROAMER/ ANTHRO/ GEOG/HISTORY/ POLI SCI/ SOC 277	Africa: An Introductory Survey
ASIAN/ HISTORY 458	History of Southeast Asia Since 1800
GEOG 355	Africa, South of the Sahara
GEOG 358	Human Geography of Southeast Asia
GNS/ HISTORY 265	An Introduction to Central Asia: From the Silk Route to Afghanistan
HISTORY 139	Introduction to the Modern Middle East
HISTORY 142	History of South Asia to the Present
HISTORY/ INTL ST/ LACIS 242	Modern Latin America
HISTORY/ASIAN/ GEOG/POLI SCI/ SOC 244	Introduction to Southeast Asia: Vietnam to the Philippines
HISTORY/ AFROAMER/ ANTHRO/ C&E SOC/ GEOG/LACIS/ POLI SCI/SOC/ SPANISH 260	Latin America: An Introduction
HISTORY/ ASIAN 341	History of Modern China, 1800-1949
HISTORY/ ASIAN 342	History of the Peoples Republic of China, 1949 to the Present
HISTORY 450	Making of Modern South Asia
INTL ST 266	Introduction to the Middle East
POLI SCI/ASIAN/ HISTORY 255	Introduction to East Asian Civilizations
Additional Area Studies:	
GEOG 340	World Regions in Global Context
GEOG 359	Australia: Environment and Society
HISTORY 120	Europe and the Modern World 1815 to the Present
HISTORY 359	History of Europe Since 1945
HISTORY 410	History of Germany, 1871 to the Present
HISTORY 418	History of Russia
HISTORY/ SCAND ST 432	History of Scandinavia Since 1815
SLAVIC/GEOG/ HISTORY/ POLI SCI 253	Russia: An Interdisciplinary Survey
SLAVIC/GEOG/ HISTORY/ POLI SCI 254	Eastern Europe: An Interdisciplinary Survey
Language Foundations (Complete one):	**3-4**
AFRICAN 329	Fifth Semester Arabic
AFRICAN 343	Fifth Semester Summer Arabic
AFRICAN 435	Fifth Semester Swahili
ASIALANG 301	Fifth Semester Chinese
ASIALANG 303	Fifth Semester Japanese
ASIALANG 305	Fifth Semester Korean
ASIALANG 323	Fifth Semester Filipino
ASIALANG 325	Fifth Semester Hmong
ASIALANG 348	Fifth Semester Indonesian
ASIALANG 329	Fifth Semester Thai
ASIALANG 331	Fifth Semester Vietnamese
ASIALANG 333	Fifth Semester Hindi
ASIALANG 335	Fifth Semester Tibetan
ASIALANG 337	Fifth Semester Persian
ASIALANG 339	Fifth Semester Urdu
ASIALANG 507	Fifth Semester Southeast Asian Language
ASIALANG 517	Fifth Semester Summer Asian Language
ESL 118	Academic Writing II [1]
FRENCH 228	Intermediate Language and Culture
FRENCH 271	Literature, Comics, and Film in French
FRENCH 311	Advanced Composition and Speaking
GERMAN 249	Intermediate German - Speaking and Listening
GERMAN 258	Intermediate German-Reading
GERMAN 262	Intermediate German-Writing
GERMAN 325	Topics in Dutch Literature
GERMAN 337	Advanced Composition & Conversation
GREEK 401	Readings in Greek Literature
GREEK 505	Greek Prose Composition
GREEK 560	Hellenistic Greek
HEBR-MOD/ JEWISH 301	Introduction to Hebrew Literature
HEBR-MOD/ JEWISH 302	Introduction to Hebrew Literature
HEBR-MOD/ JEWISH 401	Topics in Modern Hebrew / Israeli Literature and Culture I
HEBR-MOD/ JEWISH 402	Topics in Modern Hebrew / Israeli Literature and Culture II

HEBR-BIB/ JEWISH 513	Biblical Texts, Poetry
ITALIAN 230	Modern Italian Culture
ITALIAN 311	Advanced Italian Language
ITALIAN 312	Writing Workshop
ITALIAN 321	Studies in Italian Literature and Culture I
ITALIAN 322	Studies in Italian Literature and Culture II
ITALIAN 631	Features in Italian Literature
JEWISH/HEBR-MOD 301	Introduction to Hebrew Literature
LATIN 401	Readings in Latin Literature
PORTUG 225	Third Year Conversation and Composition
SCAND ST 251	Readings in Norwegian Literature
SCAND ST 261	Readings in Swedish Literature
SCAND ST 271	Readings in Danish Literature
SLAVIC 275	Third Year Russian I
SLAVIC 277	Third Year Polish I
SLAVIC 315	Russian Language and Culture I
SPANISH 226	Intermediate Language Practice with Emphasis on Writing and Grammar
SPANISH 311	Advanced Language Practice
Total Credits	**18**

OPTIONS IN THE MAJOR

View as listView as grid

- **INTERNATIONAL STUDIES: CULTURE IN AN AGE OF GLOBALIZATION (P. 996)**
- **INTERNATIONAL STUDIES: GLOBAL SECURITY (P. 1004)**
- **INTERNATIONAL STUDIES: HUMAN RIGHTS AND HUMANITARIANISM (P. 1012)**
- **INTERNATIONAL STUDIES: POLITICS AND POLICY IN THE GLOBAL ECONOMY (P. 1021)**

Each option in the major **requires 27 credits.** This is in addition to completing the foundational requirements. Students complete the option-specific requirements for Core, Issues, and Elective classes.[1]

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all INTL ST courses and courses approved for the major
- 2.000 GPA on 15 Upper-Level major credits, taken in residence [2]
- 15 credits in the major, taken on the UW–Madison campus

HONORS IN THE MAJOR

Students may declare Honors in the International Studies Major in consultation with the International Studies advisor(s). They must declare prior to enrollment in their Senior Honors Thesis (typically second semester of junior year).

REQUIREMENTS FOR HONORS IN THE MAJOR

To earn Honors in the Major in International Studies, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA in major courses
- Complete 16 upper-level major credits, taken for Honors, with individual grades of B or better in each course [2, 3]
- Complete a two-semester Senior Honors Thesis, for a total of 6 credits, or two Senior Seminars, with grades of B or better; choose from:

Code	Title	Credits
Senior Honors Thesis (2 courses):		
AFRICAN 681 & AFRICAN 682	Senior Honors Thesis and Senior Honors Thesis	
ECON 681 & ECON 682	Senior Honors Thesis and Senior Honors Thesis	
FRENCH 681 & FRENCH 682	Senior Honors Thesis and Senior Honors Thesis	
GERMAN 681 & GERMAN 682	Senior Honors Thesis-First Semester and Senior Honors Thesis-Second Semester	
HISTORY 681 & HISTORY 682	Senior Honors Thesis and Senior Honors Thesis	
INTL ST 681 & INTL ST 682	Senior Honors Thesis and Senior Honors Thesis	
POLI SCI 681 & POLI SCI 682	Senior Honors Thesis and Senior Honors Thesis	
PORTUG 681 & PORTUG 682	Senior Honors Thesis and Senior Honors Thesis	
SLAVIC 681 & SLAVIC 682	Senior Honors Thesis and Senior Honors Thesis	
SPANISH 681 & SPANISH 682	Senior Honors Thesis and Senior Honors Thesis	
Senior Seminar (2 courses):		
INTL ST 601	Topics in Global Security	
INTL ST 602	Topics in Politics and Policy in the Global Economy	
INTL ST 603	Topics in Culture in the Age of Globalization	
INTL ST 605	Advanced Topics in Human Rights and Humanitarianism	

FOOTNOTES

[1] A maximum four courses from a single SUBJECT may be applied to the 27 credits in the named option of the major. This excludes INTL ST courses and courses cross-listed in INTL ST. For example: A student with five POLI SCI courses that could apply to the major will see only four of those courses applying in the International Studies major. (However, if one of those POLI SCI courses is also cross-listed in INTL

ST, that course will not count against the limit, and thus, all five POLI SCI courses will apply in the major.) The degree audit (DARS) enforces this limitation.

Though some courses are identified as acceptable for two or more requirements, a course may meet only one requirement within the major. For example, a course that could count in either Option Core or Option Issues will meet only one of those requirements, based on which requirement needs that course to become satisfied. The degree audit (DARS) determines the best scenario.

[2] Major courses designated Intermediate and Advanced level are considered upper-level.

[3] A maximum of two courses and 8 credits from UW–Madison Study Abroad may apply to this requirement.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. (Interdisciplinarity) analyzing contemporary political, economic, security and cultural realities globally from multi-disciplinary perspectives, ideally including humanities, social sciences, humanitarian, and sometimes natural science approaches.
2. (Depth of knowledge) mastering at the undergraduate generalist level major issues related to key themes in International Studies (e.g. culture, global security and political economy) by taking 15 credits in one particular theme area.
3. (Regional (studies) grounding) understanding the social, political, economic and cultural forces and conditions that have given rise to the unity and diversity of a specific region of the world today.
4. (Language knowledge) mastering at the undergraduate generalist level a particular facet of life in one or more region of the world by studying a language to at least the advanced (5th semester) level.
5. (Analytical skills) demonstrating the ability to think critically and analytically, the capacity to write clearly and effectively, and the ability to identify and evaluate research methods and outcomes.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

ADVISING AND CAREERS

ADVISING AND CAREERS

ADVISING STAFF

International Studies students have a wide variety of academic advising and career resources and support. Academic advising is essential to a successful undergraduate experience. For this reason, the International Studies major has professional advisors, a peer advisor, and career advising through L&S SuccessWorks.

We recommend that you meet with your advisor at least once per semester to track progress toward your degree, explore study abroad options, and begin the career exploration process. We offer drop-in advising and scheduled appointments. To learn more about academic

advising information, please visit the IS Major website (https://ismajor.wisc.edu/academic-advising/).

Students should also begin the career advising process early. Students are strongly encouraged to meet with both the International Studies career advisor and SuccessWorks at the College of Letters & Science, and to apply for internship opportunities, both domestically and via the Intern Abroad Program or the Wisconsin in Washington, D.C. Internship Program. The International Studies major also advertises career events across campus that will benefit undergraduate students, hosts career workshops, and has a transition checklist to help students prepare for post-undergraduate life. For more information, please visit our website (https://ismajor.wisc.edu/career-advising/).

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

For information on scholarships and awards through the International Studies major, please visit ismajor.wisc.edu (https://ismajor.wisc.edu) or contact our advisors. Students are also strongly encouraged to contact the Awards Office (https://iris.wisc.edu/funding/) at the Institute for Regional and International Studies to explore multiple international awards and scholarships.

UNDERGRADUATE RESEARCH

The international studies major encourages students to become engaged in undergraduate research. There are numerous programs (https://teachlearn.wisc.edu/undergraduate-research/) that provide research opportunities for undergraduates at UW–Madison, including:

- Hilldale Undergraduate/Faculty Research Fellowships (https://awards.advising.wisc.edu/all-scholarships/hilldale-undergraduatefaculty-research-fellowship/)
- McNair Scholars (https://mcnair.wisc.edu/)
- Summer Research Opportunity Program (https://grad.wisc.edu/apply/prepare/summer-research-opportunity-program/)
- Undergraduate Research Scholars (https://urs.ls.wisc.edu/)
- Wisconsin Idea Fellowship Program (https://morgridge.wisc.edu/get-connected-students/wisconsin-undergraduate-idea-fellowships/)

INTERNATIONAL STUDIES: CULTURE IN AN AGE OF GLOBALIZATION

In this named option, students investigate crosscultural interactions at different levels: local, national, and transnational. Students engage in such issues as cosmopolitanism; international and global flows of images, ideas, and people; questions of identity; changing assumptions of what it means to be indigenous and foreign; globalization and technology; and the impact of globalization on cultures.

REQUIREMENTS

REQUIREMENTS

CULTURE IN AN AGE OF GLOBALIZATION

In addition to the Foundational Requirements of the International Studies major, complete these requirements specific to the Culture in an Age of Globalization Option:

CULTURE IN AN AGE OF GLOBALIZATION CORE

INTERNATIONAL STUDIES: GLOBAL SECURITY

The Global Security named option is being renamed Global Peace and Security. Students will be able to earn a named option in Global Security through the end of Summer 2027. Beginning in Fall 2027, the award will be the named option in Global Peace and Security.

This named option covers traditional and nontraditional forms of insecurity, disorder, and violent conflict as well as efforts to resolve and manage conflict. The thematic categories include forms of war, including interstate and civil war, as well as forms of political violence against civilians, such as terrorism, genocide, riots, and massacres. Global Security also covers nontraditional forms of insecurity, such as climate change, biothreats, pandemics and other infectious diseases, cyberattacks and cybersecurity, and food security. This named option also encompasses a range of ways to manage these forms of insecurity, including peacekeeping, other multilateral efforts to mediate conflict, counterinsurgency, and post-conflict peacebuilding.

REQUIREMENTS

REQUIREMENTS

GLOBAL SECURITY OPTION

In addition to the Foundational Requirements of the International Studies major, complete these requirements specific to the Global Security Option:

GLOBAL SECURITY CORE

Code	Title	Credits
Complete 9 credits from:		**9**

INTERNATIONAL STUDIES: HUMAN RIGHTS AND HUMANITARIANISM

This named option covers the range of laws, norms, and organizations that address the protection of vulnerable populations and ordinary citizens. This named option covers human rights, as they are codified in the Universal Declaration of Human Rights; hence it covers the civil and political rights, from speech, belief, association, and discrimination, to social, economic, and cultural rights, such as the right to education, health, and water, among others. Human Rights and Humanitarianism also encompasses the organizations and institutions that work to protect and advocate for these rights, inclusive of courses on international law, nonprofit management, and non-state actors in global politics as well as

those on specialized multilateral organizations that deal with human rights, such as regional organizations and specialized agencies at the United Nations. The named option similarly addresses social movements for change. It addresses the ways in which civilians are protected when thrust into conditions of hardship, including the laws of war, regimes on migration and forced migration, and efforts to address global health disparities.

REQUIREMENTS

REQUIREMENTS

In addition to the Foundational Requirements of the International Studies major, complete these requirements specific to the Human Rights and Humanitarianism Option:

HUMAN RIGHTS AND HUMANITARIANISM CORE

INTERNATIONAL STUDIES, BS

International Studies is an interdisciplinary major with a broad background in international and transnational political, social, economic, commercial, and environmental affairs, together with a comparative study of politics, economics, security, and culture. The goal is to provide students with the necessary tools to understand global processes in their totality and how they are situated and lived in specific regions.

The major provides an integrated program of courses that lays the foundation for professional training in a wide variety of areas. Such a foundation can be invaluable in securing a place in competitive graduate or professional schools, which, in turn, prepare students for government service, or for other careers with an international focus, including those in multinational corporations, international finance, non-governmental organizations, and institutions of teaching and research.

The International Studies major complements numerous majors across campus. Many students choose to double major or enhance their studies with one or more certificates, such as the Global Health certificate or those offered by the area studies centers.

This major is interdisciplinary, offering a wealth of options. Careful planning and consultation with the International Studies advisor is especially important.

OPTIONS IN THE MAJOR

HUMAN RIGHTS AND HUMANITARIANISM

This named option covers the range of laws, norms, and organizations that address the protection of vulnerable populations and ordinary citizens. This named option covers human rights, as they are codified in the Universal Declaration of Human Rights; hence it covers the civil and political rights, from speech, belief, association, and discrimination, to social, economic, and cultural rights, such as the right to education, health, and water, among others. Human Rights and Humanitarianism also encompasses the organizations and institutions that work to protect and advocate for these rights, inclusive of courses on international law, nonprofit management, and non-state actors in global politics as well as those on specialized multilateral organizations that deal with human rights, such as regional organizations and specialized agencies at the United Nations. The named option similarly addresses social movements for change. It addresses the ways in which civilians are protected when thrust into conditions of hardship, including the laws of war, regimes on migration and forced migration, and efforts to address global health disparities.

GLOBAL SECURITY

This named option covers traditional and nontraditional forms of insecurity, disorder, and violent conflict as well as efforts to resolve and manage conflict. The thematic categories include forms of war, including interstate and civil war, as well as forms of political violence against civilians, such as terrorism, genocide, riots, and massacres. Global Security also covers nontraditional forms of insecurity, such as

climate change, biothreats, pandemics and other infectious diseases, cyberattacks and cybersecurity, and food security. This named option also encompasses a range of ways to manage these forms of insecurity, including peacekeeping, other multilateral efforts to mediate conflict, counterinsurgency, and post-conflict peacebuilding.

POLITICS AND POLICY IN THE GLOBAL ECONOMY

This named option offers a multidisciplinary survey of international economic and political institutions and transactions, as well as the policy issues pertaining to international commerce and trade, international finance and monetary relations, international macroeconomic policy coordination, U.S. trade imbalances, aid and development, and related environmental and natural resource problems.

CULTURE IN THE AGE OF GLOBALIZATION

In this named option, students investigate crosscultural interactions at different levels: local, national, and transnational. Students engage in such issues as cosmopolitanism; international and global flows of images, ideas, and people; questions of identity; changing assumptions of what it means to be indigenous and foreign; globalization and technology; and the impact of globalization on cultures.

STUDY ABROAD

International Studies and studying abroad are a natural combination. While study abroad is not a requirement for the major, all International Studies students are strongly encouraged to pursue a significant international experience during the course of the undergraduate career. Whether through a study abroad program, an internship, or service learning, the experience of studying or working in a foreign culture is invaluable. Many courses taken abroad will count toward the International Studies major. See the International Studies advisor for specific guidelines. More information about study abroad and internships is available through International Academic Programs (http://www.studyabroad.wisc.edu/).

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to Get in	No application required. All students who meet the requirements listed below are eligible to declare. For information on how to declare, see Advising & Careers.
Courses required to get in	Students must be enrolled in or have completed INTL ST 101 prior to declaring the major.
GPA requirements to get in	None.
Credits required to get in	None.
Other	None.

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.

Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. Some courses satisfy more than one L&S degree requirement (visit College of Letters & Science: Requirements (https://guide.wisc.edu/undergraduate/letters-science/#requirementstext) for details).

This major can be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Communication	Complete both: • Part A: one course with the Communication A designation or eligible UW Placement Score; and • Part B: one course with the Communication B designation
Quantitative Reasoning	Complete both: • Part A: one course with the Quantitative Reasoning A designation or eligible UW Placement Score; and • Part B: one course with the Quantitative Reasoning B designation
Ethnic Studies	one 3+ credit course with the Ethnic Studies designation
Language	the third unit of a language other than English
Mathematics	Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.
L&S Breadth: Humanities	Complete 12 credits with the Humanities or Literature designation, which must include at least 6 credits with the Literature designation.
L&S Breadth: Social Sciences	Complete 12 credits with the Social Science designation.
L&S Breadth: Natural Sciences	Complete 12 credits, which must include both: • 6 credits with the Biological Science designation, and • 6 credits with the Physical Science designation.
Liberal Arts and Science (LAS) Coursework	at least 108 credits
Depth of Intermediate/ Advanced Coursework	at least 60 credits at the Intermediate or Advanced level
Major	Declare and complete at least one major.
Total Credits	at least 120 credits
UW-Madison Experience	• 30 credits in residence, overall, and • 30 credits in residence after the 86th credit
Quality of Work	• 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their School/College to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS OF THE MAJOR

Students must declare the major, complete the common requirements, and the requirements for one of these options (p.) within the international studies major:

- Culture in the Age of Globalization
- Global Security
- Politics and Policy in the Global Economy
- Human Rights and Humanitarianism

A student may not declare or earn more than one major option. The major requires 45 credits total between Foundational Requirements and Named Option Requirements. [1]

FOUNDATIONAL REQUIREMENTS

Code	Title	Credits
International Foundations		
INTL ST 101	Introduction to International Studies	3-4
Economic Foundations (complete one of the following):		**3-8**
ECON 101 & ECON 102	Principles of Microeconomics and Principles of Macroeconomics	

ECON 111	Principles of Economics-Accelerated Treatment
A A E 101 & ECON 102	Introduction to Agricultural and Applied Economics and Principles of Macroeconomics
POLI SCI 350	International Political Economy
A A E/ ENVIR ST 244	The Environment and the Global Economy

Historical Foundations **3-4**

INTL ST/ HISTORY 146	A Global History of Now

Regional Foundations **6-8**

Complete at least one course from "Global South" lists and take either an additional course from "Global South" list or a course from the "Additional Area Studies" List.

Global South:

AFRICAN/ AFROAMER/ ANTHRO/ GEOG/HISTORY/ POLI SCI/ SOC 277	Africa: An Introductory Survey
ASIAN/ HISTORY 458	History of Southeast Asia Since 1800
GEOG 355	Africa, South of the Sahara
GEOG 358	Human Geography of Southeast Asia
GNS/ HISTORY 265	An Introduction to Central Asia: From the Silk Route to Afghanistan
HISTORY 139	Introduction to the Modern Middle East
HISTORY 142	History of South Asia to the Present
HISTORY/ INTL ST/ LACIS 242	Modern Latin America
HISTORY/ASIAN/ GEOG/POLI SCI/ SOC 244	Introduction to Southeast Asia: Vietnam to the Philippines
HISTORY/ AFROAMER/ ANTHRO/ C&E SOC/ GEOG/LACIS/ POLI SCI/SOC/ SPANISH 260	Latin America: An Introduction
HISTORY/ ASIAN 341	History of Modern China, 1800-1949
HISTORY/ ASIAN 342	History of the Peoples Republic of China, 1949 to the Present
HISTORY 450	Making of Modern South Asia
INTL ST 266	Introduction to the Middle East
POLI SCI/ASIAN/ HISTORY 255	Introduction to East Asian Civilizations

Additional Area Studies:

GEOG 340	World Regions in Global Context
GEOG 359	Australia: Environment and Society
HISTORY 120	Europe and the Modern World 1815 to the Present
HISTORY 359	History of Europe Since 1945
HISTORY 410	History of Germany, 1871 to the Present
HISTORY 418	History of Russia
HISTORY/ SCAND ST 432	History of Scandinavia Since 1815
SLAVIC/GEOG/ HISTORY/ POLI SCI 253	Russia: An Interdisciplinary Survey
SLAVIC/GEOG/ HISTORY/ POLI SCI 254	Eastern Europe: An Interdisciplinary Survey

Language Foundations (Complete one): **3-4**

AFRICAN 329	Fifth Semester Arabic
AFRICAN 343	Fifth Semester Summer Arabic
AFRICAN 435	Fifth Semester Swahili
ASIALANG 301	Fifth Semester Chinese
ASIALANG 303	Fifth Semester Japanese
ASIALANG 305	Fifth Semester Korean
ASIALANG 323	Fifth Semester Filipino
ASIALANG 325	Fifth Semester Hmong
ASIALANG 348	Fifth Semester Indonesian
ASIALANG 329	Fifth Semester Thai
ASIALANG 331	Fifth Semester Vietnamese
ASIALANG 333	Fifth Semester Hindi
ASIALANG 335	Fifth Semester Tibetan
ASIALANG 337	Fifth Semester Persian
ASIALANG 339	Fifth Semester Urdu
ASIALANG 507	Fifth Semester Southeast Asian Language
ASIALANG 517	Fifth Semester Summer Asian Language
ESL 118	Academic Writing II [1]
FRENCH 228	Intermediate Language and Culture
FRENCH 271	Literature, Comics, and Film in French
FRENCH 311	Advanced Composition and Speaking
GERMAN 249	Intermediate German - Speaking and Listening
GERMAN 258	Intermediate German-Reading
GERMAN 262	Intermediate German-Writing
GERMAN 325	Topics in Dutch Literature
GERMAN 337	Advanced Composition & Conversation
GREEK 401	Readings in Greek Literature
GREEK 505	Greek Prose Composition
GREEK 560	Hellenistic Greek
HEBR-MOD/ JEWISH 301	Introduction to Hebrew Literature
HEBR-MOD/ JEWISH 302	Introduction to Hebrew Literature

HEBR-MOD/ JEWISH 401	Topics in Modern Hebrew / Israeli Literature and Culture I
HEBR-MOD/ JEWISH 402	Topics in Modern Hebrew / Israeli Literature and Culture II
HEBR-BIB/ JEWISH 513	Biblical Texts, Poetry
ITALIAN 230	Modern Italian Culture
ITALIAN 311	Advanced Italian Language
ITALIAN 312	Writing Workshop
ITALIAN 321	Studies in Italian Literature and Culture I
ITALIAN 322	Studies in Italian Literature and Culture II
ITALIAN 631	Features in Italian Literature
JEWISH/HEBR-MOD 301	Introduction to Hebrew Literature
LATIN 401	Readings in Latin Literature
PORTUG 225	Third Year Conversation and Composition
SCAND ST 251	Readings in Norwegian Literature
SCAND ST 261	Readings in Swedish Literature
SCAND ST 271	Readings in Danish Literature
SLAVIC 275	Third Year Russian I
SLAVIC 277	Third Year Polish I
SLAVIC 315	Russian Language and Culture I
SPANISH 226	Intermediate Language Practice with Emphasis on Writing and Grammar
SPANISH 311	Advanced Language Practice
Total Credits	**18**

OPTIONS IN THE MAJOR

View as listView as grid

- **INTERNATIONAL STUDIES: CULTURE IN AN AGE OF GLOBALIZATION (P. 996)**
- **INTERNATIONAL STUDIES: GLOBAL SECURITY (P. 1004)**
- **INTERNATIONAL STUDIES: HUMAN RIGHTS AND HUMANITARIANISM (P. 1012)**
- **INTERNATIONAL STUDIES: POLITICS AND POLICY IN THE GLOBAL ECONOMY (P. 1021)**

Each option in the major **requires 27 credits.** This is in addition to completing the foundational requirements. Students complete the option-specific requirements for Core, Issues, and Elective classes.[1]

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all INTL ST courses and courses approved for the major
- 2.000 GPA on 15 Upper-Level major credits, taken in residence [2]
- 15 credits in the major, taken on the UW–Madison campus

HONORS IN THE MAJOR

Students may declare Honors in the International Studies Major in consultation with the International Studies advisor(s). They must declare prior to enrollment in their Senior Honors Thesis (typically second semester of junior year).

REQUIREMENTS FOR HONORS IN THE MAJOR

To earn Honors in the Major in International Studies, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA in major courses
- Complete 16 upper-level major credits, taken for Honors, with individual grades of B or better in each course [2, 3]
- Complete a two-semester Senior Honors Thesis, for a total of 6 credits, or two Senior Seminars, with grades of B or better; choose from:

Code	Title	Credits
Senior Honors Thesis (2 courses):		
AFRICAN 681 & AFRICAN 682	Senior Honors Thesis and Senior Honors Thesis	
ECON 681 & ECON 682	Senior Honors Thesis and Senior Honors Thesis	
FRENCH 681 & FRENCH 682	Senior Honors Thesis and Senior Honors Thesis	
GERMAN 681 & GERMAN 682	Senior Honors Thesis-First Semester and Senior Honors Thesis-Second Semester	
HISTORY 681 & HISTORY 682	Senior Honors Thesis and Senior Honors Thesis	
INTL ST 681 & INTL ST 682	Senior Honors Thesis and Senior Honors Thesis	
POLI SCI 681 & POLI SCI 682	Senior Honors Thesis and Senior Honors Thesis	
PORTUG 681 & PORTUG 682	Senior Honors Thesis and Senior Honors Thesis	
SLAVIC 681 & SLAVIC 682	Senior Honors Thesis and Senior Honors Thesis	
SPANISH 681 & SPANISH 682	Senior Honors Thesis and Senior Honors Thesis	
Senior Seminar (2 courses):		
INTL ST 601	Topics in Global Security	
INTL ST 602	Topics in Politics and Policy in the Global Economy	
INTL ST 603	Topics in Culture in the Age of Globalization	
INTL ST 605	Advanced Topics in Human Rights and Humanitarianism	

FOOTNOTES

[1] A maximum four courses from a single SUBJECT may be applied to the 27 credits in the named option of the major. This excludes INTL ST

courses and courses cross-listed in INTL ST. For example: A student with five POLI SCI courses that could apply to the major will see only four of those courses applying in the International Studies major. (However, if one of those POLI SCI courses is also cross-listed in INTL ST, that course will not count against the limit, and thus, all five POLI SCI courses will apply in the major.) The degree audit (DARS) enforces this limitation.

Though some courses are identified as acceptable for two or more requirements, a course may meet only one requirement within the major. For example, a course that could count in either Option Core or Option Issues will meet only one of those requirements, based on which requirement needs that course to become satisfied. The degree audit (DARS) determines the best scenario.

[2] Major courses designated Intermediate and Advanced level are considered upper-level.

[3] A maximum of two courses and 8 credits from UW–Madison Study Abroad may apply to this requirement.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. (Interdisciplinarity) analyzing contemporary political, economic, security and cultural realities globally from multi-disciplinary perspectives, ideally including humanities, social sciences, humanitarian, and sometimes natural science approaches.
2. (Depth of knowledge) mastering at the undergraduate generalist level major issues related to key themes in International Studies (e.g. culture, global security and political economy) by taking 15 credits in one particular theme area.
3. (Regional (studies) grounding) understanding the social, political, economic and cultural forces and conditions that have given rise to the unity and diversity of a specific region of the world today.
4. (Language knowledge) mastering at the undergraduate generalist level a particular facet of life in one or more region of the world by studying a language to at least the advanced (5th semester) level.
5. (Analytical skills) demonstrating the ability to think critically and analytically, the capacity to write clearly and effectively, and the ability to identify and evaluate research methods and outcomes.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

Total Credits 120

ADVISING AND CAREERS

ADVISING AND CAREERS

ADVISING STAFF

International Studies students have a wide variety of academic advising and career resources and support. Academic advising is essential to a successful undergraduate experience. For this reason, the International Studies major has professional advisors, a peer advisor, and career advising through L&S SuccessWorks.

We recommend that you meet with your advisor at least once per semester to track progress toward your degree, explore study abroad options, and begin the career exploration process. We offer drop-in advising and scheduled appointments. To learn more about academic advising information, please visit the IS Major website (https://ismajor.wisc.edu/academic-advising/).

Students should also begin the career advising process early. Students are strongly encouraged to meet with both the International Studies career advisor and SuccessWorks at the College of Letters & Science, and to apply for internship opportunities, both domestically and via the Intern Abroad Program or the Wisconsin in Washington, D.C. Internship Program. The International Studies major also advertises career events across campus that will benefit undergraduate students, hosts career workshops, and has a transition checklist to help students prepare for post-undergraduate life. For more information, please visit our website (https://ismajor.wisc.edu/career-advising/).

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

For information on scholarships and awards through the International Studies major, please visit ismajor.wisc.edu (https://ismajor.wisc.edu) or contact our advisors. Students are also strongly encouraged to contact the Awards Office (https://iris.wisc.edu/funding/) at the Institute for Regional and International Studies to explore multiple international awards and scholarships.

UNDERGRADUATE RESEARCH

The international studies major encourages students to become engaged in undergraduate research. There are numerous programs (https://teachlearn.wisc.edu/undergraduate-research/) that provide research opportunities for undergraduates at UW–Madison, including:

- Hilldale Undergraduate/Faculty Research Fellowships (https://awards.advising.wisc.edu/all-scholarships/hilldale-undergraduatefaculty-research-fellowship/)
- McNair Scholars (https://mcnair.wisc.edu/)
- Summer Research Opportunity Program (https://grad.wisc.edu/apply/prepare/summer-research-opportunity-program/)
- Undergraduate Research Scholars (https://urs.ls.wisc.edu/)
- Wisconsin Idea Fellowship Program (https://morgridge.wisc.edu/get-connected-students/wisconsin-undergraduate-idea-fellowships/)

INTERNATIONAL STUDIES: CULTURE IN AN AGE OF GLOBALIZATION

In this named option, students investigate crosscultural interactions at different levels: local, national, and transnational. Students engage in such issues as cosmopolitanism; international and global flows of images, ideas, and people; questions of identity; changing assumptions of what it means to be indigenous and foreign; globalization and technology; and the impact of globalization on cultures.

REQUIREMENTS

REQUIREMENTS

CULTURE IN AN AGE OF GLOBALIZATION

In addition to the Foundational Requirements of the International Studies major, complete these requirements specific to the Culture in an Age of Globalization Option:

CULTURE IN AN AGE OF GLOBALIZATION CORE

INTERNATIONAL STUDIES: GLOBAL SECURITY

The Global Security named option is being renamed Global Peace and Security. Students will be able to earn a named option in Global Security through the end of Summer 2027. Beginning in Fall 2027, the award will be the named option in Global Peace and Security.

This named option covers traditional and nontraditional forms of insecurity, disorder, and violent conflict as well as efforts to resolve and manage conflict. The thematic categories include forms of war, including interstate and civil war, as well as forms of political violence against civilians, such as terrorism, genocide, riots, and massacres. Global Security also covers nontraditional forms of insecurity, such as climate change, biothreats, pandemics and other infectious diseases, cyberattacks and cybersecurity, and food security. This named option also encompasses a range of ways to manage these forms of insecurity, including peacekeeping, other multilateral efforts to mediate conflict, counterinsurgency, and post-conflict peacebuilding.

REQUIREMENTS

REQUIREMENTS

GLOBAL SECURITY OPTION

In addition to the Foundational Requirements of the International Studies major, complete these requirements specific to the Global Security Option:

GLOBAL SECURITY CORE

Code	Title	Credits
Complete 9 credits from:		**9**

INTERNATIONAL STUDIES: HUMAN RIGHTS AND HUMANITARIANISM

This named option covers the range of laws, norms, and organizations that address the protection of vulnerable populations and ordinary citizens. This named option covers human rights, as they are codified in the Universal Declaration of Human Rights; hence it covers the civil and political rights, from speech, belief, association, and discrimination, to social, economic, and cultural rights, such as the right to education, health, and water, among others. Human Rights and Humanitarianism also encompasses the organizations and institutions that work to protect and advocate for these rights, inclusive of courses on international law, nonprofit management, and non-state actors in global politics as well as

those on specialized multilateral organizations that deal with human rights, such as regional organizations and specialized agencies at the United Nations. The named option similarly addresses social movements for change. It addresses the ways in which civilians are protected when thrust into conditions of hardship, including the laws of war, regimes on migration and forced migration, and efforts to address global health disparities.

REQUIREMENTS

REQUIREMENTS

In addition to the Foundational Requirements of the International Studies major, complete these requirements specific to the Human Rights and Humanitarianism Option:

HUMAN RIGHTS AND HUMANITARIANISM CORE

LATIN AMERICAN, CARIBBEAN, AND IBERIAN STUDIES, BA

The Latin American, Caribbean, and Iberian Studies Program is one of the major U.S. centers for research about Latin America.

This major is for those who seek a multidisciplinary education on Latin America, the Caribbean, Spain, and Portugal. It offers a wide range of courses in fields such as anthropology, business, economics, geography, history, journalism, music, political science, sociology, and Spanish and Portuguese. Please note that we periodically offer two indigenous languages, Yucatec Maya or Quechua, as well.

The Latin American, Caribbean, and Iberian Studies Program (http://lacis.wisc.edu/), a regional center within the Institute for Regional and International Studies (https://iris.wisc.edu/), supports and enhances international and global awareness for our students and inspires informed thinking about the complexities of our world. Students connect to international networks and our regional communities through lecture series, film screenings, outreach events, and activities. Students are encouraged to study abroad or do international internships, learn languages, and gain an interdisciplinary grounding in global and regional affairs. We also provide resources and expertise on our world area to other students and educators from kindergarten to graduate school, businesses, the media, the military, the community, and others.

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are eligible to declare. For information on how to declare, visit Advising & Careers.
Courses required to get in	None
GPA requirements to get in	None
Credits required to get in	None
Other	None

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose

first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a Bachelor of Arts degree in the College of Letters & Science must complete all of the requirements below. Some courses satisfy more than one L&S degree requirement (visit College of Letters & Science: Requirements (https://guide.wisc.edu/undergraduate/letters-science/#requirementstext) for details).

This major can be paired with either the Bachelor of Arts or Bachelor of Science degree requirements.

BACHELOR OF ARTS DEGREE REQUIREMENTS

Communication	Complete both: • Part A: one course with the Communication A designation or eligible UW Placement Score; and • Part B: one course with the Communication B designation
Quantitative Reasoning	Complete both: • Part A: one course with the Quantitative Reasoning A designation or eligible UW Placement Score; and • Part B: one course with the Quantitative Reasoning B designation
Ethnic Studies	one 3+ credit course with the Ethnic Studies designation
Language	Complete either: • the fourth unit of one language other than English; or • the third unit of one language other than English and the second unit of an additional language.

L&S Breadth: Humanities	Complete 12 credits with the Humanities or Literature designation, which must include at least 6 credits with the Literature designation.
L&S Breadth: Social Sciences	Complete 12 credits with the Social Science designation.
L&S Breadth: Natural Sciences	Complete 12 credits with the Natural Science, Biological Science, or Physical Science designations, which must include both: • one 3+ credit course with the Biological Science designation, and • one 3+ credit course with the Physical Science designation.
Liberal Arts and Science (LAS) Coursework	at least 108 credits
Depth of Intermediate/ Advanced work	at least 60 credits at the Intermediate or Advanced level
Major	Declare and complete at least one major.
Total Credits	at least 120 credits
UW-Madison Experience	• 30 credits in residence, overall; and • 30 credits in residence after the 86th credit
Quality of Work	• 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their School/College to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

Code	Title	Credits
Introduction to Latin America (complete one course):		**3**

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all LACIS and major courses
- 2.000 GPA on at least 15 credits of upper-level work (courses with intermediate or advanced designation) in the major, in residence
- 15 credits in LACIS, taken on the UW–Madison campus

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the LACIS undergraduate advisor.

HONORS IN THE LATIN AMERICAN, CARIBBEAN, AND IBERIAN STUDIES MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.400 GPA for all major courses
- Complete 18 credits, taken for Honors, with individual grades of B or better, to include:

Code	Title	Credits
LACIS Introductory Course, taken for Honors (Complete one course)		**3-4**
LACIS 200	Topics in Latin America: Introduction to Contemporary Issues	
LACIS/HISTORY/ INTL ST 242	Modern Latin America	
LACIS/ HISTORY 243	Colonial Latin America: Invasion to Independence	
LACIS/ AFROAMER/ ANTHRO/ C&E SOC/ GEOG/HISTORY/ POLI SCI/SOC/ SPANISH 260	Latin America: An Introduction	
LACIS/CHICLA/ HISTORY/ POLI SCI 268	The U.S. & Latin America from the Colonial Era to the Present: A Critical Survey	
LACIS Seminar, taken for Honors (Complete one course)		**3-4**
LACIS 300	Topics in Latin America: Intermediate Issues and Debates	

LACIS 440	Topics in Latin American, Caribbean, and Iberian Studies (Only courses that count for at least 3 credits will meet this requirement.) [1]	
LACIS 500	Topics in Latin America: Advanced Seminar on Contemporary Issues	
A two-semester Senior Honors Thesis, taken for Honors (Complete both courses)		**6**
LACIS 681	Senior Honors Thesis	
LACIS 682	Senior Honors Thesis	
Additional LACIS courses taken for Honors to achieve 18 credits		

FOOTNOTES

1 Can only meet requirements in multiple sections if the topic title is different

2 Only one Quechua or Yucatec Maya course may be used to meet this requirement (and may not meet both Depth/Interdisciplinary and Language & Cultural Studies requirement)

3 May meet either the Depth/Interdisciplinary or Language & Cultural Studies requirement, but not both.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. (Interdisciplinarity) analyzing contemporary political, economic, and cultural realities in the LACIS regions from multi-disciplinary perspectives, ideally including humanities, social sciences and sometimes natural science approaches.
2. (Depth of knowledge) mastering at the undergraduate expert level a particular disciplinary (e.g. history, anthropology etc.) or topical (e.g. poverty, gender, social justice etc.) theme in the LACIS regions by taking five courses in an area of concentration.
3. (Historical and cultural grounding) understanding the historical, political, and cultural forces and conditions that have given rise to the unity and diversity in LACIS regions today.
4. (Language knowledge) mastering at the undergraduate generalist level a particular facet of life in one or more LACIS regions by studying a foreign language to the advanced (3rd year) level and beyond.
5. (Analytical skills) demonstrating the ability to think critically and analytically, the capacity to write clearly and effectively, and the ability to identify and evaluate research methods and outcomes.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

ADVISING AND CAREERS

ADVISING AND CAREERS

DECLARE OR CANCEL THE MAJOR

Please follow the process described on the LACIS website (https://lacis.wisc.edu/programs/undergraduate-degree/).

Students should contact the LACIS undergraduate advisor with help choosing courses in the major requirements (p.).

Students interested in international internships should contact the International Internships Program (http://internships.international.wisc.edu/) office.

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

Undergraduate students (from any major or discipline) are encouraged to explore funding options available HERE. (https://lacis.wisc.edu/funding/for-undergraduates/)

LATIN AMERICAN, CARIBBEAN, AND IBERIAN STUDIES, BS

The Latin American, Caribbean, and Iberian Studies Program is one of the major U.S. centers for research about Latin America.

This major is for those who seek a multidisciplinary education on Latin America, the Caribbean, Spain, and Portugal. It offers a wide range of courses in fields such as anthropology, business, economics, geography, history, journalism, music, political science, sociology, and Spanish and Portuguese. Please note that we periodically offer two indigenous languages, Yucatec Maya or Quechua, as well.

The Latin American, Caribbean, and Iberian Studies Program (http://lacis.wisc.edu/), a regional center within the Institute for Regional and International Studies (https://iris.wisc.edu/), supports and enhances international and global awareness for our students and inspires informed thinking about the complexities of our world. Students connect to international networks and our regional communities through lecture series, film screenings, outreach events, and activities. Students are encouraged to study abroad or do international internships, learn languages, and gain an interdisciplinary grounding in global and regional affairs. We also provide resources and expertise on our world area to other students and educators from kindergarten to graduate school, businesses, the media, the military, the community, and others.

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are eligible to declare. For information on how to declare, visit Advising & Careers.
Courses required to get in	None
GPA requirements to get in	None
Credits required to get in	None
Other	None

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. Some courses satisfy more than one L&S degree requirement (visit College of Letters & Science: Requirements (https://guide.wisc.edu/undergraduate/letters-science/#requirementstext) for details).

This major can be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Communication	Complete both: • Part A: one course with the Communication A designation or eligible UW Placement Score; and • Part B: one course with the Communication B designation

Quantitative Reasoning	Complete both: • Part A: one course with the Quantitative Reasoning A designation or eligible UW Placement Score; and • Part B: one course with the Quantitative Reasoning B designation
Ethnic Studies	one 3+ credit course with the Ethnic Studies designation
Language	the third unit of a language other than English
Mathematics	Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.
L&S Breadth: Humanities	Complete 12 credits with the Humanities or Literature designation, which must include at least 6 credits with the Literature designation.
L&S Breadth: Social Sciences	Complete 12 credits with the Social Science designation.
L&S Breadth: Natural Sciences	Complete 12 credits, which must include both: • 6 credits with the Biological Science designation, and • 6 credits with the Physical Science designation.
Liberal Arts and Science (LAS) Coursework	at least 108 credits
Depth of Intermediate/ Advanced Coursework	at least 60 credits at the Intermediate or Advanced level
Major	Declare and complete at least one major.
Total Credits	at least 120 credits
UW-Madison Experience	• 30 credits in residence, overall, and • 30 credits in residence after the 86th credit
Quality of Work	• 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their School/College to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

Code	Title	Credits
Introduction to Latin America (complete one course):		**3**

SPANISH/ MEDIEVAL 541	Old Spanish
LACIS Seminar (Complete one course)	**3**
LACIS 440	Topics in Latin American, Caribbean, and Iberian Studies (Only topics offered for at least 3 credits may meet this requirement.) [1]
LACIS 500	Topics in Latin America: Advanced Seminar on Contemporary Issues
LACIS 681	Senior Honors Thesis
LACIS 682	Senior Honors Thesis
Total Credits	**30**

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all LACIS and major courses
- 2.000 GPA on at least 15 credits of upper-level work (courses with intermediate or advanced designation) in the major, in residence
- 15 credits in LACIS, taken on the UW–Madison campus

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the LACIS undergraduate advisor.

HONORS IN THE LATIN AMERICAN, CARIBBEAN, AND IBERIAN STUDIES MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.400 GPA for all major courses
- Complete 18 credits, taken for Honors, with individual grades of B or better, to include:

Code	Title	Credits
LACIS Introductory Course, taken for Honors (Complete one course)		**3-4**
LACIS 200	Topics in Latin America: Introduction to Contemporary Issues	
LACIS/HISTORY/ INTL ST 242	Modern Latin America	
LACIS/ HISTORY 243	Colonial Latin America: Invasion to Independence	
LACIS/ AFROAMER/ ANTHRO/ C&E SOC/ GEOG/HISTORY/ POLI SCI/SOC/ SPANISH 260	Latin America: An Introduction	

LACIS/CHICLA/ HISTORY/ POLI SCI 268	The U.S. & Latin America from the Colonial Era to the Present: A Critical Survey	
LACIS Seminar, taken for Honors (Complete one course)		**3-4**
LACIS 300	Topics in Latin America: Intermediate Issues and Debates	
LACIS 440	Topics in Latin American, Caribbean, and Iberian Studies (Only courses that count for at least 3 credits will meet this requirement.) [1]	
LACIS 500	Topics in Latin America: Advanced Seminar on Contemporary Issues	
A two-semester Senior Honors Thesis, taken for Honors (Complete both courses)		**6**
LACIS 681	Senior Honors Thesis	
LACIS 682	Senior Honors Thesis	
Additional LACIS courses taken for Honors to achieve 18 credits		

FOOTNOTES

1. Can only meet requirements in multiple sections if the topic title is different
2. Only one Quechua or Yucatec Maya course may be used to meet this requirement (and may not meet both Depth/Interdisciplinary and Language & Cultural Studies requirement)
3. May meet either the Depth/Interdisciplinary or Language & Cultural Studies requirement, but not both.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. (Interdisciplinarity) analyzing contemporary political, economic, and cultural realities in the LACIS regions from multi-disciplinary perspectives, ideally including humanities, social sciences and sometimes natural science approaches.
2. (Depth of knowledge) mastering at the undergraduate expert level a particular disciplinary (e.g. history, anthropology etc.) or topical (e.g. poverty, gender, social justice etc.) theme in the LACIS regions by taking five courses in an area of concentration.
3. (Historical and cultural grounding) understanding the historical, political, and cultural forces and conditions that have given rise to the unity and diversity in LACIS regions today.
4. (Language knowledge) mastering at the undergraduate generalist level a particular facet of life in one or more LACIS regions by studying a foreign language to the advanced (3rd year) level and beyond.
5. (Analytical skills) demonstrating the ability to think critically and analytically, the capacity to write clearly and effectively, and the ability to identify and evaluate research methods and outcomes.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

ADVISING AND CAREERS

ADVISING AND CAREERS

DECLARE OR CANCEL THE MAJOR

Please follow the process described on the LACIS website (https://lacis.wisc.edu/programs/undergraduate-degree/).

Students should contact the LACIS undergraduate advisor with help choosing courses in the major requirements (p.).

Students interested in international internships should contact the International Internships Program (http://internships.international.wisc.edu/) office.

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

Undergraduate students (from any major or discipline) are encouraged to explore funding options available HERE. (https://lacis.wisc.edu/funding/for-undergraduates/)

MIDDLE EAST STUDIES, CERTIFICATE

Given the immense importance of the Middle East and North Africa region in shaping contemporary world politics, the Middle East Studies certificate is designed to provide an interdisciplinary perspective of the region's history and contemporary dynamics and their representations across the diaspora. The Middle East Studies certificate offers a unique opportunity for students to develop their interest and knowledge of this region through a wide range of courses taught by UW–Madison professors with great expertise in the fields of political science, history, religious studies, sociology/anthropology, art history, literature, and modern languages.

The Middle East Studies certificate gives students a variety of career opportunities in international affairs, public policy, journalism, governmental institutions, education, public heath, humanitarian organizations, economic development, and security, or going on to graduate school and a career in academia.

The Middle East Studies Program (http://mideast.wisc.edu/), a regional center within the Institute for Regional and International Studies (https://iris.wisc.edu/), supports and enhances international and global awareness for our students and inspires informed thinking about the complexities of our world. Students connect to international networks and our regional communities through lecture series, film screenings, outreach events, and activities. Students are encouraged to study abroad or do international internships, learn languages, and gain an interdisciplinary grounding in global and regional affairs. We also provide resources and expertise on our world area to other students and educators from kindergarten to graduate school, businesses, the media, the military, the community, and others.

HOW TO GET IN

HOW TO GET IN

Students interested in declaring the undergraduate certificate should contact the advisor.

REQUIREMENTS

REQUIREMENTS

18 credits are required, as follows:

CORE COURSE

Complete one core course:

Code	Title	Credits
HISTORY 139	Introduction to the Modern Middle East	3-4
INTL ST 266	Introduction to the Middle East	3

MIDDLE EASTERN LANGUAGE COURSE

One course required from:

Code	Title	Credits
AFRICAN 322	Second Semester Arabic	5
AFRICAN 340	Second Semester Summer Arabic	4
ASIALANG 138	Second Semester Persian	4
GNS 340	Second Semester Turkish	4
HEBR-MOD 102	Second Semester Hebrew	4
HEBR-MOD 311	Second Semester Intensive Modern Hebrew	4

HISTORY AND SOCIAL SCIENCE COURSES

One course required from:

Code	Title	Credits
ANTHRO 322	The Origins of Civilization	3
CURRIC 292	Globalizing Education	3
CLASSICS 308	Sex and Violence in the Ancient Near East	3
CLASSICS 321	The Egyptians: History, Society, and Literature	3
GEOG 307	International Migration, Health, and Human Rights	3
GEOG 340	World Regions in Global Context	3
GEN&WS/ INTL ST 535	Women's Global Health and Human Rights	3
GEN&WS/ POLI SCI 435	Politics of Gender and Women's Rights in the Middle East	3
HISTORY/ CLASSICS 110	The Ancient Mediterranean	4
HISTORY/ RELIG ST 205	The Making of the Islamic World: The Middle East, 500-1500	3-4
HISTORY/ JEWISH 220	Introduction to Modern Jewish History	4
HISTORY/GNS 265	An Introduction to Central Asia: From the Silk Route to Afghanistan	3
HISTORY/ MEDIEVAL/ RELIG ST 309	The Crusades: Christianity and Islam	3-4
INTL ST 401	Topics in Global Security	3-4
JEWISH 225	Jews and Race	3
POLI SCI 320	Governments and Politics of the Middle East and North Africa	3-4
POLI SCI 323	Islam and World Politics	3-4
POLI SCI/ JEWISH 341	Israeli Politics and Society	3-4
POLI SCI 347	Terrorism	3
POLI SCI 370	Islam and Politics	3-4
POLI SCI/ GEN&WS 435	Politics of Gender and Women's Rights in the Middle East	3
POLI SCI 529	Arab-Israeli Conflict	3-4
SPANISH 490	Race, Religion and Ethnicity in the Age of Empire	3

RELIGION AND CULTURE COURSES

One course required from:

Code	Title	Credits
AFRICAN 231	Introduction to Arabic Literary Culture	3
AFRICAN 300	African Literature in Translation	3
AFRICAN/ INTL ST 302	Arabic Literature and Cinema	3
AFRICAN/ASIAN/ RELIG ST 370	Islam: Religion and Culture	3-4

HEBR-MOD/ JEWISH 302	Introduction to Hebrew Literature	3
HEBR-MOD/ JEWISH 401	Topics in Modern Hebrew / Israeli Literature and Culture I	3
HEBR-MOD/ JEWISH 402	Topics in Modern Hebrew / Israeli Literature and Culture II	3
JEWISH/CLASSICS/ LITTRANS/ RELIG ST 227	Introduction to Biblical Literature (in English)	4

RESIDENCE AND QUALITY OF WORK

- At least 9 certificate credits must be completed in residence.
- Minimum 2.000 GPA on all certificate courses.

FOOTNOTES

[1] A maximum of 3 credits of Advanced Language may apply to the certificate.

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. (Historical and Cultural Grounding) understanding the historical, political, and cultural forces and conditions that have given rise to the unity and diversity in the region today.
2. (Multi-disciplinarity) analyzing contemporary political, economic, and cultural realities in the region from at least two disciplinary perspectives, ideally including humanities, social sciences and sometimes natural science approaches.
3. (Depth of knowledge) mastering at the undergraduate generalist level a particular facet of life in the region by taking courses on a particular sub-region or country, or by studying a regional language, or by taking at least two courses on the region in one discipline.

ADVISING AND CAREERS

ADVISING AND CAREERS

Advising for the certificate is run by the Institute for Regional and International Studies (https://iris.wisc.edu/) (IRIS). The IRIS Assistant Director for Students and Curriculum advises the certificate and can assist you in developing your plan of study, track progress toward your certificate, explore study abroad and international internship options, and begin the career exploration process. We offer walk-in advising, advising workshops, and scheduled appointments. We strongly encourage students to begin career exploration early on and to make use of the many resources available on campus.

RESOURCES

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

Information about funding through the Middle East Studies Program is available on our website (https://mideast.wisc.edu/funding-resources/). We also encourage our students to explore funding options available through the Institute for Regional and International Studies (IRIS) Awards Office (https://iris.wisc.edu/funding/).

RUSSIAN, EAST EUROPEAN, AND CENTRAL ASIAN STUDIES, CERTIFICATE

The Certificate in Russian, East European, and Central Asian studies provides students with knowledge of the societies and cultures of the peoples of Eastern Europe and Eurasia, drawing on the disciplines of anthropology, communication arts, economics, folklore, geography, history, language and literature, law, political science, and sociology. The certificate can be a valuable addition to a major in business, economics, education, geography, history, international studies, political science, Slavic languages and literature, and others.

At least two years of a Slavic, East European, or Central Asian language are strongly recommended for the certificate, but are not formally required. Read about the languages (https://languages.wisc.edu/languages/) taught at UW–Madison.

Students may also be interested in the Russian major (p. 915), the Polish major (p. 907), and the Certificate in East Central European Languages, Literatures, and Cultures (p. 890).

The Center for Russia, East Europe, and Central Asia (http://creeca.wisc.edu/), a regional center within the Institute for Regional and International Studies (https://iris.wisc.edu/), supports and enhances international and global awareness for our students and inspires informed thinking about the complexities of our world. Students connect to international networks and our regional communities through lecture series, film screenings, outreach events, and activities. Students are encouraged to study abroad or do international internships, learn languages, and gain an interdisciplinary grounding in global and regional affairs. We also provide resources and expertise on our world area to other students and educators from kindergarten to graduate school, businesses, the media, the military, the community, and others.

HOW TO GET IN

HOW TO GET IN

Students interested in declaring the undergraduate certificate should contact the advisor.

REQUIREMENTS

REQUIREMENTS

Seven courses are required, at least one from each of the following three groups. [1]

INTERDISCIPLINARY COURSES (GROUP 1)

Complete at least one course:

Code	Title	Credits
HISTORY/POLI SCI/GEOG/ SLAVIC 253	Russia: An Interdisciplinary Survey	
HISTORY/POLI SCI/GEOG/ SLAVIC 254	Eastern Europe: An Interdisciplinary Survey	
HISTORY/ GNS 265	An Introduction to Central Asia: From the Silk Route to Afghanistan	

HISTORY AND THE SOCIAL SCIENCES (GROUP 2):

Complete at least one course from any of these areas:

Agricultural and Applied Economics

Code	Title	Credits
A A E/ ENVIR ST 244	The Environment and the Global Economy

RESIDENCE AND QUALITY OF WORK

- Minimum 2.500 GPA on all certificate courses
- At least 11 certificate credits must be completed in residence

FOOTNOTES

[1] A course that is listed in more than one group will only apply to one group. A course that is more than minimally required in one group may apply to a different group.

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. (Regional Understanding) Demonstrate an understanding of the cultural, political, economic, social, and historical factors that have shaped the development of societies in Eurasia, Russia, and East and Central Europe.
2. (Multi-disciplinarity) Analyze the historical, political, economic, social, and cultural realities in the region from at least two disciplinary perspectives, including both humanities and social sciences approaches.

ADVISING AND CAREERS

ADVISING AND CAREERS

Advising for the certificate is administered by the Institute for Regional and International Studies (IRIS). The IRIS Assistant Director for Students and Curriculum can assist you in developing your plan of study for the certificate, track progress toward your certificate, explore study abroad and international internship options, and begin the career-exploration process. We offer walk-in advising, advising workshops, and scheduled appointments. We strongly encourage students to begin career exploration early on and to make use of the many resources available on campus. creeca.wisc.edu/academics/undergraduates (https://creeca.wisc.edu/academics/undergraduates/)

- Language and International Directions Advising (https://languages.wisc.edu/make-an-appointment/) (Language Institute)
- International Internship Program (http://internships.international.wisc.edu/)

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

Information about resources, scholarships, and other funding (https://creeca.wisc.edu/funding/) through the Center for Russia, East Europe, and Central Asia website. We also encourage our students to explore funding options available through the Institute for Regional and International Studies (IRIS) Awards Office (https://iris.wisc.edu/funding/).

SOUTH ASIAN STUDIES, CERTIFICATE

Undergraduates interested in cross-disciplinary study of South Asia—generally defined as the countries of Afghanistan, Bangladesh, Bhutan, India, Nepal, Pakistan, Sri Lanka, and the Tibetan region—may earn a certificate in South Asian Studies. The certificate can be a valuable addition to studies in Anthropology, Archeology, Asian Languages and Cultures, Business, Communications, Economics, Education, Gender and Women's Studies, Geography, History, International Studies, Journalism, Political Science, Zoology, and more. Completion of the certificate provides a concentration in the area through language and interdisciplinary training that provides enhanced career opportunities or increased preparation for graduate study.

The certificate in South Asian Studies can be partially fulfilled through completion of a study abroad program in South Asia administered by International Academic Programs (https://studyabroad.wisc.edu/programsearch/?Region=1).

The Center for South Asia (http://southasia.wisc.edu/), a regional center within the Institute for Regional and International Studies (https://iris.wisc.edu/), supports and enhances international and global awareness for our students and inspires informed thinking about the complexities of our world. Students connect to international networks and our regional communities through lecture series, film screenings, outreach events, and activities. Students are encouraged to study abroad or do international internships, learn languages, and gain an interdisciplinary grounding in global and regional affairs. We also provide resources and expertise on our world area to other students and educators from kindergarten to graduate school, businesses, the media, the military, the community, and others.

HOW TO GET IN

HOW TO GET IN

Students interested in declaring the undergraduate certificate should contact the undergraduate advisor.

Students declared in the Asian Languages and Cultures: South Asian Studies BA/BS/MAJ are not eligible to declare the South Asian Studies certificate.

REQUIREMENTS

REQUIREMENTS

Complete 21 credits, distributed as follows:

INTRODUCTORY COURSE

Select one of these courses:

Code	Title	Credits
ASIAN 100	Gateway to Asia: Special Topics	3-4
ASIAN/ RELIG ST 274	Religion in South Asia	3
HISTORY 142	History of South Asia to the Present	3-4

RESIDENCE AND QUALITY OF WORK

- Minimum 2.750 GPA on all certificate courses.
- At least 11 certificate credits must be completed in residence.

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. (Historical Grounding) understanding the historical, political, and cultural forces and conditions that have given rise to the unity and diversity in the region today.
2. (Multi-disciplinarity) analyzing contemporary political, economic, and cultural realities in the region from at least two disciplinary perspectives, ideally including humanities, social sciences and sometimes natural science approaches.
3. (Depth of knowledge) mastering at the undergraduate generalist level a particular facet of life in the region by taking courses on a particular sub-region or country, or by studying a regional language, or by taking at least two courses on the region in one discipline.

ADVISING AND CAREERS

ADVISING AND CAREERS

Advising for the certificate is administered by the Institute for Regional and International Studies (IRIS). The IRIS assistant director for students and curriculum can assist you in developing your plan of study for the certificate, track progress towards your certificate, explore study abroad and international internship options, and begin the career exploration process. We offer walk-in advising, advising workshops, and scheduled appointments. We strongly encourage students to begin career exploration early on and to make use of the many resources available on campus.

Contact the certificate advisor (https://southasia.wisc.edu/undergraduate-studies/) to create a plan that includes a well-balanced selection of area studies and disciplinary courses and for approval of appropriate introductory and capstone seminar courses.

STUDY ABROAD

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

Information about resources and scholarships through the Center for South Asia is available on our website (http://southasia.wisc.edu/). Please contact the Center for more information about the South Asian Flagship Languages Initiative (SAFLI), the South Asia Summer Language Institute (SASLI), and the Annual Conference on South Asia. We also strongly encourage our students to explore funding options available through the Institute for Regional and International Studies (IRIS) Awards Office (https://iris.wisc.edu/funding/).

SOUTHEAST ASIAN STUDIES, CERTIFICATE

The Southeast Asian Studies certificate meets the needs of students choosing to focus on the Southeast Asia region—Brunei, Cambodia, East Timor, Indonesia, Laos, Malaysia, Myanmar/Burma, Philippines, Singapore, Thailand, Vietnam—but not wishing to commit to the more rigorous language and area studies courses required for the Asian Languages and Cultures major. Students select classes reflecting their interests offered through many university departments and can work toward a variety of undergraduate majors. The certificate is of value to students wishing to demonstrate their knowledge of the Southeast Asian region either to potential employers or to graduate schools.

Students interested in more specialized study of the languages and literature of East Asia, South Asia, or Southeast Asia can consider the Asian Languages and Cultures major (p. 501), the East Asian Studies certificate (p. 978), or the South Asian Studies certificate (p. 1089).

Those interested in the study of languages and cultures of Central Asia can consider the Russian, East European, and Central Asian Studies certificate (p. 1085).

The Center for Southeast Asian Studies (http://seasia.wisc.edu/), a regional center within the Institute for Regional and International Studies (https://iris.wisc.edu/), supports and enhances international and global awareness for our students and inspires informed thinking about the complexities of our world. Students connect to international networks and our regional communities through lecture series, film screenings, outreach events, and activities. Students are encouraged to study abroad or do international internships, learn languages, and gain an interdisciplinary grounding in global and regional affairs. We also provide resources and expertise on our world area to other students and educators from kindergarten to graduate school, businesses, the media, the military, the community, and others.

HOW TO GET IN

HOW TO GET IN

Students interested in declaring the certificate in Southeast Asian studies should contact the program advisor.

Students declared in the Asian Languages and Cultures: Southeast Asian Studies BA/BS/MAJ are not eligible to declare the Southeast Asian Studies certificate.

INTEGRATED LIBERAL STUDIES

DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/CERTIFICATES

- Health and the Humanities, Certificate (p. 1094)
- Integrated Liberal Studies, Certificate (p. 1097)

HEALTH AND THE HUMANITIES, CERTIFICATE

This certificate exposes students to a range of historical, cultural, and philosophical factors that impact health and influence people's decisions about their healthcare. Courses examine aspects of healthcare systems throughout history and the world, and illuminate ways that people's experiences of illness and healthcare implicate far more than biology, such as social, legal, religious, and ethical factors, to support health and wellness.

HOW TO GET IN

HOW TO GET IN

CERTIFICATE DECLARATION REQUIREMENTS

Students who have completed or who are enrolled in a Health and the Humanities Certificate course are eligible to declare the certificate.

Students should declare as early as possible in order to plan the required coursework. Students are encouraged to meet with the Health and the Humanities academic advisor to discuss certificate requirements and ensure it fits with their academic goals.

Students who are ready to declare the certificate may do so via the Health and the Humanities website (https://ils.wisc.edu/health-and-humanities-certificate-overview/health-and-humanities-certificate-how-to-get-in/).

Students who declare the Health and the Humanities Certificate are not eligible to declare the Global Health major or the Global Health Certificate.

REQUIREMENTS

REQUIREMENTS

Students must complete at least 15 credits for the certificate.

CAPSTONE

Complete one of the following Capstone courses.

Code	Title	Credits
Complete one course from:		
DANCE 231	Introduction to Dance/Movement Therapy	3
DANCE 232	Introduction to Dynamics of Dance Therapy	3
ILS/ENGL 525	Health and the Humanities	3
NURSING 511	Community Supports for People with Dementia	3
RP & SE 300	Individuals with Disabilities	3

ELECTIVE (IF NEEDED)

Complete additional coursework to reach 15 credits from any of the courses listed above or ENGL/HIST SCI/MED HIST 599 Directed Study in Health and the Humanities

RESIDENCE AND QUALITY OF WORK

- Minimum 2.000 GPA on all certificate courses
- At least 8 certificate credits must be completed in residence.

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Identify major developments in the history of medicine and the medical profession.
2. Describe how the meaning of "health" has varied over time and space.
3. Comprehend and evaluate complex arguments about politics, values, healthcare, and health in contemporary society.
4. Understand health and illness as grounded in personal experience, develop empathy for others' experiences and use creative means to reflect on those experiences.
5. Develop sensitivity for what health means among differently positioned people (e.g., with respect to race, class, gender, culture, disability, age).

ADVISING AND CAREERS

ADVISING AND CAREERS

The certificate's academic advisor can help you create a meaningful course plan and stay on track as you complete the certificate's courses. Talk with the certificate advisors as early as possible to consult on a variety of topics including declaring the certificate, choosing courses, and other campus resources.

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college

(including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

INTEGRATED LIBERAL STUDIES, CERTIFICATE

The mission of Integrated Liberal Studies (https://ils.wisc.edu/) (ILS) is to provide an integrated and interdisciplinary exploration of human inquiry and expression in scientific, literary, political, economic, historical and artistic thought. The Integrated Liberal Studies curriculum offers a set of related courses specially tailored to meet the breadth requirements of the College of Letters & Science. Integrated Liberal Studies draws exemplary, dynamic faculty from departments across campus to create courses that challenge students with a rigorous program of interdisciplinary study emphasizing critical thinking and judgment rather than passive absorption of information. Although these courses may be taken as single electives, the purpose of the program is to counter the fragmentation of undergraduate education by providing a common ground of learning.

Because ILS courses (https://guide.wisc.edu/courses/ils/) are interdisciplinary, students are encouraged to make connections between the various subject areas that comprise the ILS curriculum. Students encounter the relations between literature and the arts; science, technology, and philosophy; and political, economic, and social thought. The content of the curriculum has been developed in the belief that historical perspective is required for a full understanding of contemporary issues.

We provide a supportive community at the heart of campus and encourage the development of communication, comparative and analytical skills that will enhance every aspect of your personal and professional life. Our students go on to work in a range of fields, including health care, the media, the law, digital development and education.

HOW TO GET IN

HOW TO GET IN

CERTIFICATE DECLARATION REQUIREMENTS

Students are eligible to declare the ILS Certificate at any point in their undergraduate career, and there are no prerequisites for declaring. Students should declare as early as possible in order to plan the required coursework. Students are encouraged to meet with the Integrated Liberal Studies academic advisor to discuss certificate requirements and ensure it fits with their academic goals.

Students who are ready to declare the certificate now may do so via the ILS Website (https://ils.wisc.edu/certificateprogram/).

REQUIREMENTS

REQUIREMENTS

The certificate in Integrated Liberal Studies consists of two Core ILS courses, one additional ILS course, another non-ILS course from an approved list, and the ILS Capstone Integration Seminar.

A total of 15 credits are required, of which 6 are in Core ILS courses, 3 in Integrative Breadth, 3 in Integrative Diversity, and 3 in the Capstone Integration Seminar.

CORE ILS COURSES

Code	Title	Credits
Complete any two of the following core ILS courses:		6
ILS 200	Critical Thinking and Expression	3
ILS 201	Western Culture: Science, Technology, Philosophy I	3
or HIST SCI 201	The Origins of Scientific Thought	
ILS 202	Western Culture: Science, Technology, Philosophy II	3
or HIST SCI 202	The Making of Modern Science	
ILS 203	Western Culture: Literature and the Arts I	3
ILS 204	Western Culture: Literature and the Arts II	3-4
ILS 205	Western Culture: Political, Economic, and Social Thought I	3
ILS 206	Western Culture: Political, Economic, and Social Thought II	3

INTEGRATIVE BREADTH

Code	Title	Credits
Excluding any ILS courses used towards the required Core ILS courses above, complete one additional ILS course from the following:		3
ILS 109	Exploring Interdisciplinary Studies in Literature	3
ILS 110	Exploring Interdisciplinary Studies in the Humanities	3-4

ILS 111	Exploring Interdisciplinary Studies in the Social Sciences	3-4
ILS/ENVIR ST 126	Principles of Environmental Science	4
ILS/ART HIST 150	The End of the World	3
ILS 153	Ways of Knowing in the Sciences	4
ILS 200	Critical Thinking and Expression	3
ILS 201	Western Culture: Science, Technology, Philosophy I	3
or HIST SCI 201	The Origins of Scientific Thought	
ILS 202	Western Culture: Science, Technology, Philosophy II	3
or HIST SCI 202	The Making of Modern Science	
ILS 203	Western Culture: Literature and the Arts I	3
ILS 204	Western Culture: Literature and the Arts II	3-4
ILS 205	Western Culture: Political, Economic, and Social Thought I	3
ILS 206	Western Culture: Political, Economic, and Social Thought II	3
ILS/RELIG ST 234	Genres of Western Religious Writing	3
ILS 253	Literature and Society	3
ILS 254	Literature and Science	3
ILS/ENVIR ST 255	Introduction to Sustainability Science	4
ILS 298	Directed Study	3
ILS 299	Directed Study	3
ILS/AGROECOL/ RELIG ST 304	Plants and Religion	3
ILS/LITTRANS/ SCAND ST 321	Humans and Other Animals in Nordic Literature and Film	3
ILS 325	Topics in Health and the Humanities	3-4
ILS/ITALIAN 350	Rome: Lust for Glory	3-4
ILS/CLASSICS/ GEN&WS/ HIST SCI 355	Sex, Gender, & the History of Medicine	3
ILS/POLI SCI 363	Literature and Politics	3-4
ILS/ITALIAN/ LITTRANS/ POLI SCI 365	Machiavelli and His World	3
ILS/LACIS 367	The Literature of Migration and the Migrant Experience in the Americas	3
ILS 369	Magical Realism and Postmodernity	3
ILS 371	Interdisciplinary Studies in the Arts and Literature	3
ILS 372	Interdisciplinary Studies in the Social Sciences	3
ILS 373	Interdisciplinary Studies in the Humanities	3-4
ILS/JEWISH/ SOC 423	Modern Jewish Thought	3
ILS/POLI SCI 463	Deception and Politics	3-4

CAPSTONE INTEGRATION SEMINAR

Code	Title	Credits
Complete the ILS Capstone Integration Seminar:		3
ILS 400	Capstone Integration Seminar	3

RESIDENCE & QUALITY OF WORK

- 2.000 GPA with all courses taken on graded basis
- 8 credits in the certificate, in residence

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Identify and explain how people make meaning across times, cultures, media, and disciplines.
2. Critically analyze diverse approaches to how people make meaning in the past and present.
3. Recognize and synthesize diverse types of knowledge and disciplinary approaches to how people make meaning.
4. Formulate new questions about and integrate new approaches to how people make meaning.

ADVISING AND CAREERS

ADVISING AND CAREERS

The certificate's academic advisor can help you create a meaningful course plan and stay on track as you complete the certificate's courses. Talk with the certificate advisors as early as possible to consult on a variety of topics including declaring the certificate, choosing courses, and other campus resources.

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

Integrated Liberal Studies scholarships (https://ils.wisc.edu/scholarship-information/)

MEIKLEJOHN TRAVEL AWARD

Up to $1500

Named for Alexander Meiklejohn, founder of the University of Wisconsin Experimental College (1927–32), the forerunner to the ILS program, this prize is intended to help support an ILS student in a university-sponsored or an independent program of education-centered travel or study abroad, taking place during the summer or academic year (or in the United States if the destination is remote from the student's home or the campus).

RUTH KNATZ MEMORIAL PRIZE

Up to $5,000 (based on available funds)

Named for Ruth Knatz Gross Wisnewsky and given by her husband, Edward Wisnewsky, this prize will be given only to a truly outstanding student who:

- is majoring in at least one humanities discipline (including history and history of science, but not social science or science); this means you may be double-majoring in one non-humanities major, but the other must be a humanities major,
- gives promise of making a valuable contribution to the humanities,
- has done exemplary work in their ILS courses,
- has achieved junior or senior standing, and
- has declared, and plans to complete, the ILS certificate.

INTEGRATIVE BIOLOGY

The Department of Integrative Biology is committed to providing the best training and education in the field of biology for UW–Madison undergraduate and graduate students.

With over 40 faculty and affiliated faculty members from several departments across campus, research and education in the Department of Integrative Biology spans all levels of biological organization (from the molecular level to ecosystems), and addresses a wide array of basic and applied research questions.

The Department of Integrative Biology is home to the Biology (L&S), Molecular and Cell Biology, Neurobiology, and Zoology undergraduate majors. Nearly 2,500 students enroll in our introductory biology courses (BIOLOGY/ZOOLOGY 101 Animal Biology and ZOOLOGY/BIOLOGY 102 Animal Biology Laboratory; BOTANY/BIOLOGY/ZOOLOGY 151

Introductory Biology and ZOOLOGY 153 Introductory Biology and ZOOLOGY/BIOLOGY/BOTANY 152 Introductory Biology). Another 1,000 students enroll in a variety of courses in the field of biology.

DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/CERTIFICATES

- Biology, BA (L&S) (p. 1103)
- Biology, BS (L&S) (p. 1118)
- Freshwater and Marine Sciences, Certificate (p. 1133)
- Molecular and Cell Biology, BA (p. 1134)
- Molecular and Cell Biology, BS (p. 1141)
- Neurobiology, BA (p. 1147)
- Neurobiology, BS (p. 1154)
- Zoology, BA (p. 1161)
- Zoology, BS (p. 1166)

BIOLOGY, BA (L&S)

The Biology major is designed for students with broad interests in the biological sciences. It is intended primarily to:

- prepare undergraduates for graduate studies in diverse areas of biology;
- prepare certain preprofessional students (e.g., medicine, veterinary medicine, dentistry) for advanced study in the health professions;
- provide a broad exposure to biology for students who want a general science education as biologists; and
- serve as initial preparation for students who later choose a more specialized major.

The major is offered in both the College of Letters & Science and the College of Agricultural and Life Sciences (p. 96).

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are eligible to declare. For information on how to declare, visit Advising & Careers.
Courses required to get in	None
GPA requirements to get in	None
Credits required to get in	None
Other	None

Students who intend to major in Biology in either the College of Letters and Science (L&S) or the College of Agricultural and Life Sciences (CALS) may not combine this major ("double major") with the Molecular and Cell Biology Major or the Neurobiology Major.

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a Bachelor of Arts degree in the College of Letters & Science must complete all of the requirements below. Some courses satisfy more than one L&S degree requirement (visit College of Letters & Science: Requirements (https://guide.wisc.edu/undergraduate/letters-science/#requirementstext) for details).

This major can be paired with either the Bachelor of Arts or Bachelor of Science degree requirements.

BACHELOR OF ARTS DEGREE REQUIREMENTS

Communication	Complete both: • Part A: one course with the Communication A designation or eligible UW Placement Score; and • Part B: one course with the Communication B designation
Quantitative Reasoning	Complete both: • Part A: one course with the Quantitative Reasoning A designation or eligible UW Placement Score; and • Part B: one course with the Quantitative Reasoning B designation
Ethnic Studies	one 3+ credit course with the Ethnic Studies designation
Language	Complete either: • the fourth unit of one language other than English; or • the third unit of one language other than English and the second unit of an additional language.
L&S Breadth: Humanities	Complete 12 credits with the Humanities or Literature designation, which must include at least 6 credits with the Literature designation.
L&S Breadth: Social Sciences	Complete 12 credits with the Social Science designation.
L&S Breadth: Natural Sciences	Complete 12 credits with the Natural Science, Biological Science, or Physical Science designations, which must include both: • one 3+ credit course with the Biological Science designation, and • one 3+ credit course with the Physical Science designation.
Liberal Arts and Science (LAS) Coursework	at least 108 credits
Depth of Intermediate/ Advanced work	at least 60 credits at the Intermediate or Advanced level
Major	Declare and complete at least one major.
Total Credits	at least 120 credits
UW-Madison Experience	• 30 credits in residence, overall; and • 30 credits in residence after the 86th credit
Quality of Work	• 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their School/College to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

Students must complete a minimum of 31 credits of Biological Science courses within the Introductory Biology, Foundation Course, Upper-Level Breadth in the Major, and Additional Lab or Field Research requirements.

Unless specifically stated otherwise, courses may not be used to meet multiple requirements of the major.

In addition to the standard Biology major, there is a Named Option in Evolutionary Biology. Students may complete only one Biology major/named option and must declare the named option they are pursuing.

CORE REQUIREMENTS

Mathematics and Statistics

Code	Title	Credits
Complete one of the following:		4-5
MATH 221	Calculus and Analytic Geometry 1	
MATH 211	Survey of Calculus 1	
Complete one of the following:		3-4
STAT 240	Data Science Modeling I	
STAT 301	Introduction to Statistical Methods	
STAT 324	Introduction to Statistics for Science and Engineering	
STAT 371	Introductory Applied Statistics for the Life Sciences	
Total Credits		**7-9**

Chemistry

Code	Title	Credits
General Chemistry (Complete one of the following):		5-10
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	
CHEM 109	Advanced General Chemistry	
CHEM 115 & CHEM 116	Chemical Principles I and Chemical Principles II	
Organic Chemistry		
CHEM 343	Organic Chemistry I	3
CHEM 344	Introductory Organic Chemistry Laboratory	2
CHEM 345	Organic Chemistry II	3
Total Credits		**13-18**

Physics

Code	Title	Credits
First Semester Physics (complete one of the following):		4-5
PHYSICS 103	General Physics	
PHYSICS 201	General Physics	
PHYSICS 207	General Physics	
Second Semester Physics (complete one of the following):		4-5
PHYSICS 104	General Physics	
PHYSICS 202	General Physics	
PHYSICS 208	General Physics	
Total Credits		**8-10**

Introductory Biology

Code	Title	Credits
Select one of the following options:		10-13
Option A:		
BIOLOGY/ BOTANY/ ZOOLOGY 151	Introductory Biology	
BIOLOGY/ BOTANY/ ZOOLOGY 152	Introductory Biology	
Option B:		
BIOCORE 381	Evolution, Ecology, and Genetics	
BIOCORE 382	Evolution, Ecology, and Genetics Laboratory	
BIOCORE 383	Cellular Biology	
BIOCORE 384	Cellular Biology Laboratory	
BIOCORE 485	Principles of Physiology	
Option C:		
ZOOLOGY/ BIOLOGY 101	Animal Biology	
ZOOLOGY/ BIOLOGY 102	Animal Biology Laboratory	
BOTANY/ BIOLOGY 130	General Botany	
Total Credits		**10-13**

Foundation Course (complete one of the following):

Students may use BIOCORE 381 and BIOCORE 383 toward ***both*** Introductory Biology ***and*** Foundation.

Code	Title	Credits
BIOCHEM 501	Introduction to Biochemistry	3
BIOCHEM 508	General Biochemistry II	3-4
BIOCORE 381 & BIOCORE 383	Evolution, Ecology, and Genetics and Cellular Biology	6
GENETICS 466	Principles of Genetics	3
GENETICS 468	General Genetics 2	3
MICROBIO 470	Microbial Genetics & Molecular Machines	3

UPPER-LEVEL BREADTH IN THE MAJOR

Minimum of 13 credits required and must include **one approved lab course.** Approved lab courses are identified as approved in parentheses after the course title in the list below. A course taken to meet the Foundation requirement may not also count as Upper-Level Breadth in the Major.

- Complete at least two credits from either category A or B.
- Complete at least two credits from either category C or D.
- Complete at least two credits from an unused category (A, B, C, D or E).

A. Cellular and Molecular Biology

Code	Title	Credits
AN SCI 336	Animal Growth and Development	3
AN SCI 362	Veterinary Genetics	3

ADDITIONAL LAB OR FIELD RESEARCH

In addition to the Lab requirement, complete one of the following requirements:

- Complete one *additional* lab course and at least two credits from categories A–E in the Upper-Level Breadth in the Major course lists, ***or***
- Complete at least two credits of directed study in a biological science discipline, or
- Complete a two-semester thesis in biological science.

Approved Directed Study Courses

To have Directed Study count for the Additional Lab/Field Research requirement, students must first complete an Introductory Biology sequence.

MOL BIOL 681 & MOL BIOL 682	Senior Honors Thesis and Senior Honors Thesis
MOL BIOL 691 & MOL BIOL 692	Senior Thesis and Senior Thesis
NUTR SCI 681 & NUTR SCI 682	Senior Honors Thesis and Senior Honors Thesis
NUTR SCI 691 & NUTR SCI 692	Senior Thesis-Nutrition and Senior Thesis
PATH-BIO 681 & PATH-BIO 682	Senior Honors Thesis I and Senior Honors Thesis II
PL PATH 681 & PL PATH 682	Senior Honors Thesis and Senior Honors Thesis
PLANTSCI 681 & PLANTSCI 682	Senior Honors Thesis and Senior Honors Thesis
SOIL SCI 681 & SOIL SCI 682	Senior Honors Thesis and Senior Honors Thesis
ZOOLOGY 681 & ZOOLOGY 682	Senior Honors Thesis and Senior Honors Thesis
ZOOLOGY 691 & ZOOLOGY 692	Senior Thesis and Senior Thesis

BIOLOGY NAMED OPTION

Instead of completing the requirements above, students may choose to select the named option below.

View as listView as grid

- **BIOLOGY: EVOLUTIONARY BIOLOGY (P. 1126)**

RESIDENCE & QUALITY OF WORK

- 2.000 GPA in all BIOLOGY and major courses
- 2.000 GPA on at least 15 credits of Upper-Level work in the major, in Residence. Foundation and Upper-Level Breadth in the Major are considered Upper-Level for purposes of this requirement.
- 15 credits in the major, taken on the UW–Madison campus

HONORS IN THE MAJOR

Students may declare Honors in the Biology major with permission of the major advisor.

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA in the major
- Complete 13 credits from Foundation and Upper-Level Breadth in the Major requirements, taken for Honors
- Earn a grade of B or better in all courses counting towards Honors in the Major requirements
- Complete an approved two-semester Senior Honors Thesis for a total of 6 credits

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Know and understand core concepts that unify the breadth of biological sciences including: evolution; structure and function; information flow, exchange, and storage; pathways for transformations of energy and matter; and systems.
2. Demonstrate practical skills of a professional biologist including: problem#solving by engaging the process of science; written and verbal proficiency; laboratory skills; quantitative analysis skills; and teamwork skills.
3. Graduates will be able to engage and make broader connections to other scientific disciplines and society.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

Four-year Plans for the Biology major are designed to support biological science major exploration and planning your academic career. Your specific program of study could, and probably will, look different. You should customize the Four-Year Plan to fit your unique interests at UW–Madison. Consult with your advisor about the best plan for you.

SAMPLE BIOLOGY MAJOR FOUR-YEAR PLAN

Freshman

Fall	Credits	Spring	Credits
CHEM 103	4	CHEM 104	5
MATH 221[1]	5	STAT 371[1]	3

INTER-LS 210	1	Elective	2
	15		**15**

Junior

Fall	Credits	Spring	Credits
Foundation Course for Major	3	Upper-Level Breadth in the Major	4
PHYSICS 103	4	PHYSICS 104	4
Social Science Breadth	3	Humanities Breadth	3
Electives	5	Electives	4
Declare the Major			
	15		**15**

Senior

Fall	Credits	Spring	Credits
Upper-Level Breadth in the Major	3	Upper-Level Breadth in the Major	6
Upper-Level Breadth in the Major Lab or Field Research	3	Additional Lab or Field Research	2
Electives	9	Electives	7
	15		**15**

Total Credits 120

1 Follow the guidance of Math placement scores when choosing a Mathematics and/or Statistics course.

2 Students may complete one of three Introductory Biology sequences. See the Requirements tab for more information.

ADVISING AND CAREERS

ADVISING AND CAREERS

DECLARE OR CANCEL THIS MAJOR

Please follow the process described on the Biology Major website (https://biologymajor.wisc.edu/advising/).

ADVISING

In the Biology major, students are assigned to an advisor according to last name. Please visit us here (http://biologymajor.wisc.edu/advising/) to schedule an advising appointment.

Your advisor is here to guide you through the Biology major. We can address your questions and concerns, provide advice, help you create a four-year degree plan that meets your major and professional goals, and connect you to resources. It is important to remember that advising is about the process, and some questions do not have a quick and easy answer. Your advisor will challenge you to self-reflect, to critically think about your goals and strategies, and to develop decision-making skills. For more information about what to expect during your advising appointment, visit UW Undergraduate Advising (https://advising.wisc.edu/advising-101/).

RESEARCH

Students are encouraged to get involved in research in any life-science department. Mentored research can earn course credit or pay, depending on the opportunity. Research opportunities can be identified by inquiring directly (https://wiscience.wisc.edu/resources/undergrad-resources/) with faculty members, reading the *Biology Major Newsletter*, or announcement on the Student Job Center (https://studentjobs.wisc.edu/).

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

BIOLOGY: EVOLUTIONARY BIOLOGY

The Evolutionary Biology Named Option allows Biology majors to concentrate their studies in evolution and to have this reflected on their transcript. Since there is no evolutionary biology major available at UW–Madison, this is the only mechanism to indicate specialization in this rapidly growing and popular field. In taking this named option, students will be able to fulfill their intermediate/advanced biology requirement with courses that emphasize evolutionary biology, ranging from required courses in fundamental evolutionary biology to more advanced optional courses that cover a wide range of evolutionary biology topics. They will also take a seminar course in evolutionary biology.

This is a good fit for students with broad interest in the biological sciences who want to:

- concentrate their biological studies in evolutionary biology;
- prepare for graduate study in evolutionary biology or related fields; or
- prepare for professional studies (e.g. medical school, veterinary school, dentistry).

REQUIREMENTS

REQUIREMENTS FOR THE NAMED OPTION

Students must complete a minimum of 31 credits of Biological Science courses within the Introductory Biology, Foundation Course, Upper-Level Breadth in the Major, Additional Lab or Field Research, and Evolutionary Biology Seminar requirements. Unless specifically stated otherwise, courses may not be used to meet multiple requirements of the major.

CORE REQUIREMENTS

Mathematics and Statistics

Code	Title	Credits
Complete one of the following:		4-5
MATH 221	Calculus and Analytic Geometry 1	
MATH 211	Survey of Calculus 1	
Complete one of the following:		3-4
STAT 240	Data Science Modeling I	
STAT 301	Introduction to Statistical Methods	
STAT 324	Introduction to Statistics for Science and Engineering	
STAT 371	Introductory Applied Statistics for the Life Sciences	
Total Credits		**7-9**

Chemistry

Code	Title	Credits
General Chemistry (Complete one of the following):		5-10
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	
CHEM 109	Advanced General Chemistry	
CHEM 115 & CHEM 116	Chemical Principles I and Chemical Principles II	
Organic Chemistry		
CHEM 343	Organic Chemistry I	3
CHEM 344	Introductory Organic Chemistry Laboratory	2
CHEM 345	Organic Chemistry II	3
Total Credits		**13-18**

Physics

Code	Title	Credits
First Semester Physics (complete one of the following):		4-5
PHYSICS 103	General Physics	
PHYSICS 201	General Physics	
PHYSICS 207	General Physics	
Second Semester Physics (complete one of the following):		4-5
PHYSICS 104	General Physics	
PHYSICS 202	General Physics	
PHYSICS 208	General Physics	
Total Credits		**8-10**

Introductory Biology

Code	Title	Credits
Complete one sequence:		10-13
Option A:		10
BIOLOGY/ BOTANY/ ZOOLOGY 151	Introductory Biology	
BIOLOGY/ BOTANY/ ZOOLOGY 152	Introductory Biology	
Option B:		13
BIOCORE 381	Evolution, Ecology, and Genetics	
BIOCORE 382	Evolution, Ecology, and Genetics Laboratory	
BIOCORE 383	Cellular Biology	
BIOCORE 384	Cellular Biology Laboratory	
BIOCORE 485	Principles of Physiology	
Option C:		10
ZOOLOGY/ BIOLOGY 101	Animal Biology	
ZOOLOGY/ BIOLOGY 102	Animal Biology Laboratory	
BOTANY/ BIOLOGY 130	General Botany	

Foundation Course (complete one of the following):

Students may use BIOCORE 381 and BIOCORE 383 toward both Introductory Biology and Foundation.

Code	Title	Credits
BIOCORE 381 & BIOCORE 383	Evolution, Ecology, and Genetics and Cellular Biology	6
GENETICS 466	Principles of Genetics	3
GENETICS 468	General Genetics 2	3

UPPER-LEVEL BREADTH IN THE MAJOR

Minimum of 13 credits required as follows and must include **one approved lab course.** Approved lab courses are identified as approved in parentheses after the course title in the list below. A course taken to meet the Foundation requirement may not also count as Upper-Level Breadth in the Major.

- Complete the Evolutionary Biology course
- Complete at least two credits from either category A or B.
- Complete at least two credits from category C.
- Complete at least two credits from category D.
- Additional courses needed to reach 13 credits Upper-Level Breadth in the Major may be taken from any category (A, B, C, D, E).

Required Evolutionary Biology Course

ADDITIONAL LAB OR FIELD RESEARCH

In addition to the Lab requirement, complete one of the following requirements:

- Complete one *additional* lab course from categories A–E in the Upper-Level Breadth in the Major course lists, ***or***
- Complete at least 2 credits of directed study in a biological science discipline, or
- Complete a two-semester thesis in biological science.

Approved Directed Study Courses

To have Directed Study count for the Additional Lab/Field Research requirement students must first complete an Introductory Biology sequence.

EVOLUTIONARY BIOLOGY SEMINAR

Code	Title	Credits
BIOLOGY/ GENETICS 522	Communicating Evolutionary Biology	2-3

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all BIOLOGY and major courses
- 2.000 GPA on at least 15 credits of Upper-Level work in the major, in Residence. Foundation and Upper-Level Breadth in the Major courses are considered Upper-Level for purposes of this requirement.
- 15 credits in the major, taken on the UW–Madison campus

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

Four-year Plans for the Biology major are designed to support biological science major exploration and planning your academic career. Your specific program of study could, and probably will, look different. You should customize the Four-Year Plan to fit your unique interests at UW–Madison. Consult with your advisor about the best plan for you.

SAMPLE EVOLUTIONARY BIOLOGY OPTION FOUR-YEAR PLAN

Freshman

Fall	Credits	Spring	Credits
CHEM 103	4	CHEM 104	5
MATH 221[1]	5	STAT 371 or 301[1]	3

Upper-Level Breadth in the Major Lab or Field Research	3	Additional Lab or Field Research	2
Electives	9	Electives	7
	15		**15**

Total Credits 120

1 Follow the guidance of Math placement scores when choosing a Mathematics and/or Statistics course.

2 Students may complete one of three Introductory Biology sequences. See the Requirements tab for more information.

BIOLOGY, BS (L&S)

The Biology major is designed for students with broad interests in the biological sciences. It is intended primarily to:

- prepare undergraduates for graduate studies in diverse areas of biology;
- prepare certain preprofessional students (e.g., medicine, veterinary medicine, dentistry) for advanced study in the health professions;
- provide a broad exposure to biology for students who want a general science education as biologists; and
- serve as initial preparation for students who later choose a more specialized major.

The major is offered in both the College of Letters & Science and the College of Agricultural and Life Sciences (p. 96).

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are eligible to declare. For information on how to declare, visit Advising & Careers.
Courses required to get in	None
GPA requirements to get in	None
Credits required to get in	None
Other	None

Students who intend to major in Biology in either the College of Letters and Science (L&S) or the College of Agricultural and Life Sciences (CALS) may not combine this major ("double major") with the Molecular and Cell Biology Major or the Neurobiology Major.

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. Some courses satisfy more than one L&S degree requirement (visit College of Letters & Science: Requirements (https://guide.wisc.edu/undergraduate/letters-science/#requirementstext) for details).

This major can be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Communication	Complete both: • Part A: one course with the Communication A designation or eligible UW Placement Score; and • Part B: one course with the Communication B designation
Quantitative Reasoning	Complete both: • Part A: one course with the Quantitative Reasoning A designation or eligible UW Placement Score; and • Part B: one course with the Quantitative Reasoning B designation
Ethnic Studies	one 3+ credit course with the Ethnic Studies designation
Language	the third unit of a language other than English
Mathematics	Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.
L&S Breadth: Humanities	Complete 12 credits with the Humanities or Literature designation, which must include at least 6 credits with the Literature designation.
L&S Breadth: Social Sciences	Complete 12 credits with the Social Science designation.
L&S Breadth: Natural Sciences	Complete 12 credits, which must include both: • 6 credits with the Biological Science designation, and • 6 credits with the Physical Science designation.
Liberal Arts and Science (LAS) Coursework	at least 108 credits
Depth of Intermediate/ Advanced Coursework	at least 60 credits at the Intermediate or Advanced level
Major	Declare and complete at least one major.
Total Credits	at least 120 credits
UW-Madison Experience	• 30 credits in residence, overall, and • 30 credits in residence after the 86th credit
Quality of Work	• 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their School/College to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

Students must complete a minimum of 31 credits of Biological Science courses within the Introductory Biology, Foundation Course, Upper-Level Breadth in the Major, and Additional Lab or Field Research requirements. Unless specifically stated otherwise, courses may not be used to meet multiple requirements of the major.

In addition to the standard Biology major, there is a Named Option in Evolutionary Biology. Students may complete only one Biology major/named option and must declare the named option they are pursuing.

CORE REQUIREMENTS

Mathematics and Statistics

Code	Title	Credits
Complete one of the following:		4-5
MATH 221	Calculus and Analytic Geometry 1	
MATH 211	Survey of Calculus 1	
Complete one of the following:		3-4
STAT 240	Data Science Modeling I	
STAT 301	Introduction to Statistical Methods	
STAT 324	Introduction to Statistics for Science and Engineering	
STAT 371	Introductory Applied Statistics for the Life Sciences	
Total Credits		**7-9**

Chemistry

Code	Title	Credits
General Chemistry (Complete one of the following):		5-10
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	
CHEM 109	Advanced General Chemistry	
CHEM 115 & CHEM 116	Chemical Principles I and Chemical Principles II	
Organic Chemistry		
CHEM 343	Organic Chemistry I	3
CHEM 344	Introductory Organic Chemistry Laboratory	2
CHEM 345	Organic Chemistry II	3
Total Credits		**13-18**

Physics

Code	Title	Credits
First Semester Physics (complete one of the following):		4-5
PHYSICS 103	General Physics	
PHYSICS 201	General Physics	
PHYSICS 207	General Physics	
Second Semester Physics (complete one of the following):		4-5
PHYSICS 104	General Physics	
PHYSICS 202	General Physics	
PHYSICS 208	General Physics	
Total Credits		**8-10**

Introductory Biology

Code	Title	Credits
Select one of the following options:		10-13
Option A:		
BIOLOGY/ BOTANY/ ZOOLOGY 151	Introductory Biology	
BIOLOGY/ BOTANY/ ZOOLOGY 152	Introductory Biology	
Option B:		
BIOCORE 381	Evolution, Ecology, and Genetics	
BIOCORE 382	Evolution, Ecology, and Genetics Laboratory	
BIOCORE 383	Cellular Biology	
BIOCORE 384	Cellular Biology Laboratory	
BIOCORE 485	Principles of Physiology	
Option C:		
ZOOLOGY/ BIOLOGY 101	Animal Biology	
ZOOLOGY/ BIOLOGY 102	Animal Biology Laboratory	
BOTANY/ BIOLOGY 130	General Botany	
Total Credits		**10-13**

Foundation Course (complete one of the following):

Students may use BIOCORE 381 and BIOCORE 383 toward ***both*** Introductory Biology ***and*** Foundation.

Code	Title	Credits
BIOCHEM 501	Introduction to Biochemistry	3
BIOCHEM 508	General Biochemistry II	3-4
BIOCORE 381 & BIOCORE 383	Evolution, Ecology, and Genetics and Cellular Biology	6
GENETICS 466	Principles of Genetics	3
GENETICS 468	General Genetics 2	3
MICROBIO 470	Microbial Genetics & Molecular Machines	3

UPPER-LEVEL BREADTH IN THE MAJOR

Minimum of 13 credits required and must include **one approved lab course.** Approved lab courses are identified as approved in parentheses after the course title in the list below. A course taken to meet the Foundation requirement may not also count as Upper-Level Breadth in the Major.

- Complete at least two credits from either category A or B.
- Complete at least two credits from either category C or D.
- Complete at least two credits from an unused category (A, B, C, D or E).

A. Cellular and Molecular Biology

Code	Title	Credits
AN SCI 336	Animal Growth and Development	3
AN SCI 362	Veterinary Genetics	3

ADDITIONAL LAB OR FIELD RESEARCH

In addition to the Lab requirement, complete one of the following requirements:

- Complete one *additional* lab course and at least two credits from categories A–E in the Upper-Level Breadth in the Major course lists, ***or***
- Complete at least two credits of directed study in a biological science discipline, or
- Complete a two-semester thesis in biological science.

Approved Directed Study Courses

To have Directed Study count for the Additional Lab/Field Research requirement, students must first complete an Introductory Biology sequence.

Code	Title	Credits

BIOLOGY NAMED OPTION

Instead of completing the requirements above, students may choose to select the named option below.

View as listView as grid

- **BIOLOGY: EVOLUTIONARY BIOLOGY (P. 1126)**

RESIDENCE & QUALITY OF WORK

- 2.000 GPA in all BIOLOGY and major courses
- 2.000 GPA on at least 15 credits of Upper-Level work in the major, in Residence. Foundation and Upper-Level Breadth in the Major are considered Upper-Level for purposes of this requirement.
- 15 credits in the major, taken on the UW–Madison campus

HONORS IN THE MAJOR

Students may declare Honors in the Biology major with permission of the major advisor.

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA in the major
- Complete 13 credits from Foundation and Upper-Level Breadth in the Major requirements, taken for Honors
- Earn a grade of B or better in all courses counting towards Honors in the Major requirements
- Complete an approved two-semester Senior Honors Thesis for a total of 6 credits

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Know and understand core concepts that unify the breadth of biological sciences including: evolution; structure and function; information flow, exchange, and storage; pathways for transformations of energy and matter; and systems.
2. Demonstrate practical skills of a professional biologist including: problem#solving by engaging the process of science; written and verbal proficiency; laboratory skills; quantitative analysis skills; and teamwork skills.
3. Graduates will be able to engage and make broader connections to other scientific disciplines and society.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

Four-year Plans for the Biology major are designed to support biological science major exploration and planning your academic career. Your specific program of study could, and probably will, look different. You should customize the Four-Year Plan to fit your unique interests at UW–Madison. Consult with your advisor about the best plan for you.

SAMPLE BIOLOGY MAJOR FOUR-YEAR PLAN

Freshman

Fall	Credits	Spring	Credits
CHEM 103	4	CHEM 104	5

PHYSICS 103	4	PHYSICS 104	4
Social Science Breadth	3	Humanities Breadth	3
Electives	5	Electives	4
Declare the Major			
	15		**15**

Senior

Fall	Credits	Spring	Credits
Upper-Level Breadth in the Major	3	Upper-Level Breadth in the Major	6
Upper-Level Breadth in the Major Lab or Field Research	3	Additional Lab or Field Research	2
Electives	9	Electives	7
	15		**15**

Total Credits 120

1 Follow the guidance of Math placement scores when choosing a Mathematics and/or Statistics course.

2 Students may complete one of three Introductory Biology sequences. See the Requirements tab for more information.

ADVISING AND CAREERS

ADVISING AND CAREERS

DECLARE OR CANCEL THIS MAJOR

Please follow the process described on the Biology Major website (https://biologymajor.wisc.edu/advising/).

ADVISING

In the Biology major, students are assigned to an advisor according to last name. Please visit us here (http://biologymajor.wisc.edu/advising/) to schedule an advising appointment.

Your advisor is here to guide you through the Biology major. We can address your questions and concerns, provide advice, help you create a four-year degree plan that meets your major and professional goals, and connect you to resources. It is important to remember that advising is about the process, and some questions do not have a quick and easy answer. Your advisor will challenge you to self-reflect, to critically think about your goals and strategies, and to develop decision-making skills. For more information about what to expect during your advising appointment, visit UW Undergraduate Advising (https://advising.wisc.edu/advising-101/).

RESEARCH

Students are encouraged to get involved in research in any life-science department. Mentored research can earn course credit or pay, depending on the opportunity. Research opportunities can be identified by inquiring directly (https://wiscience.wisc.edu/resources/undergrad-resources/) with faculty members, reading the *Biology Major Newsletter*, or announcement on the Student Job Center (https://studentjobs.wisc.edu/).

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

BIOLOGY: EVOLUTIONARY BIOLOGY

The Evolutionary Biology Named Option allows Biology majors to concentrate their studies in evolution and to have this reflected on their transcript. Since there is no evolutionary biology major available at UW–Madison, this is the only mechanism to indicate specialization in this rapidly growing and popular field. In taking this named option, students will be able to fulfill their intermediate/advanced biology requirement with courses that emphasize evolutionary biology, ranging from required courses in fundamental evolutionary biology to more advanced optional courses that cover a wide range of evolutionary biology topics. They will also take a seminar course in evolutionary biology.

This is a good fit for students with broad interest in the biological sciences who want to:

- concentrate their biological studies in evolutionary biology;
- prepare for graduate study in evolutionary biology or related fields; or
- prepare for professional studies (e.g. medical school, veterinary school, dentistry).

REQUIREMENTS

REQUIREMENTS FOR THE NAMED OPTION

Students must complete a minimum of 31 credits of Biological Science courses within the Introductory Biology, Foundation Course, Upper-Level Breadth in the Major, Additional Lab or Field Research, and Evolutionary Biology Seminar requirements. Unless specifically stated otherwise, courses may not be used to meet multiple requirements of the major.

CORE REQUIREMENTS

Mathematics and Statistics

Code	Title	Credits
Complete one of the following:		4-5
MATH 221	Calculus and Analytic Geometry 1	
MATH 211	Survey of Calculus 1	
Complete one of the following:		3-4
STAT 240	Data Science Modeling I	
STAT 301	Introduction to Statistical Methods	
STAT 324	Introduction to Statistics for Science and Engineering	
STAT 371	Introductory Applied Statistics for the Life Sciences	
Total Credits		**7-9**

Chemistry

Code	Title	Credits
General Chemistry (Complete one of the following):		5-10
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	
CHEM 109	Advanced General Chemistry	
CHEM 115 & CHEM 116	Chemical Principles I and Chemical Principles II	
Organic Chemistry		
CHEM 343	Organic Chemistry I	3
CHEM 344	Introductory Organic Chemistry Laboratory	2
CHEM 345	Organic Chemistry II	3
Total Credits		**13-18**

Physics

Code	Title	Credits
First Semester Physics (complete one of the following):		4-5
PHYSICS 103	General Physics	
PHYSICS 201	General Physics	
PHYSICS 207	General Physics	
Second Semester Physics (complete one of the following):		4-5
PHYSICS 104	General Physics	
PHYSICS 202	General Physics	
PHYSICS 208	General Physics	
Total Credits		**8-10**

Introductory Biology

Code	Title	Credits
Complete one sequence:		10-13
Option A:		10
BIOLOGY/ BOTANY/ ZOOLOGY 151	Introductory Biology	
BIOLOGY/ BOTANY/ ZOOLOGY 152	Introductory Biology	
Option B:		13
BIOCORE 381	Evolution, Ecology, and Genetics	
BIOCORE 382	Evolution, Ecology, and Genetics Laboratory	
BIOCORE 383	Cellular Biology	
BIOCORE 384	Cellular Biology Laboratory	
BIOCORE 485	Principles of Physiology	
Option C:		10
ZOOLOGY/ BIOLOGY 101	Animal Biology	
ZOOLOGY/ BIOLOGY 102	Animal Biology Laboratory	
BOTANY/ BIOLOGY 130	General Botany	

Foundation Course (complete one of the following):

Students may use BIOCORE 381 and BIOCORE 383 toward both Introductory Biology and Foundation.

Code	Title	Credits
BIOCORE 381 & BIOCORE 383	Evolution, Ecology, and Genetics and Cellular Biology	6
GENETICS 466	Principles of Genetics	3
GENETICS 468	General Genetics 2	3

UPPER-LEVEL BREADTH IN THE MAJOR

Minimum of 13 credits required as follows and must include **one approved lab course.** Approved lab courses are identified as approved in parentheses after the course title in the list below. A course taken to meet the Foundation requirement may not also count as Upper-Level Breadth in the Major.

- Complete the Evolutionary Biology course
- Complete at least two credits from either category A or B.
- Complete at least two credits from category C.
- Complete at least two credits from category D.
- Additional courses needed to reach 13 credits Upper-Level Breadth in the Major may be taken from any category (A, B, C, D, E).

Required Evolutionary Biology Course

ADDITIONAL LAB OR FIELD RESEARCH

In addition to the Lab requirement, complete one of the following requirements:

- Complete one *additional* lab course from categories A–E in the Upper-Level Breadth in the Major course lists, ***or***
- Complete at least 2 credits of directed study in a biological science discipline, or
- Complete a two-semester thesis in biological science.

Approved Directed Study Courses

To have Directed Study count for the Additional Lab/Field Research requirement students must first complete an Introductory Biology sequence.

Code	Title	Credits
ANATOMY 699	Independent Study

EVOLUTIONARY BIOLOGY SEMINAR

Code	Title	Credits
BIOLOGY/ GENETICS 522	Communicating Evolutionary Biology	2-3

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all BIOLOGY and major courses
- 2.000 GPA on at least 15 credits of Upper-Level work in the major, in Residence. Foundation and Upper-Level Breadth in the Major courses are considered Upper-Level for purposes of this requirement.
- 15 credits in the major, taken on the UW–Madison campus

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

Four-year Plans for the Biology major are designed to support biological science major exploration and planning your academic career. Your specific program of study could, and probably will, look different. You should customize the Four-Year Plan to fit your unique interests at UW–Madison. Consult with your advisor about the best plan for you.

SAMPLE EVOLUTIONARY BIOLOGY OPTION FOUR-YEAR PLAN

Freshman

Fall	Credits	Spring	Credits
CHEM 103	4	CHEM 104	5
MATH 221[1]	5	STAT 371 or 301[1]	3
Communication A	3	Literature Breadth	3
Social Science Breadth	3	Ethnic Studies/Social Science Breadth	3
	15		**14**

Sophomore

Fall	Credits	Spring	Credits
BIOLOGY/BOTANY/ ZOOLOGY 151[2]	5	BIOLOGY/BOTANY/ ZOOLOGY 152[2]	5

Upper-Level Breadth in the Major Lab or Field Research	3	Additional Lab or Field Research	2
Electives	9	Electives	7
	15		**15**

Total Credits 120

1 Follow the guidance of Math placement scores when choosing a Mathematics and/or Statistics course.

2 Students may complete one of three Introductory Biology sequences. See the Requirements tab for more information.

FRESHWATER AND MARINE SCIENCES, CERTIFICATE

Freshwater and marine ecosystems are vital to human well-being. They support vast biodiversity and provide drinking water, protein, and livelihoods to people worldwide. Both freshwater and marine systems are also highly threatened. Creating a sustainable future will require people with a foundational understanding of these ecosystems.

While many Freshwater and Marine Sciences certificate courses have a strong biological focus, this certificate emphasizes the interdisciplinary nature of the aquatic sciences and incorporates courses that span the physical and biological sciences and their application to real-world problems.

The certificate provides an opportunity for students interested in areas such as environmental science, ecology and evolution, natural resources management, environmental chemistry, public policy, public health, and social justice to incorporate water-related themes into their degree program.

The Freshwater and Marine Sciences certificate is offered by the Department of Integrative Biology in the College of Letters and Sciences, and includes courses (p.) from a broad range of departments including Atmospheric and Oceanic Sciences, Botany, Geoscience, Soil and Environmental Sciences, and Civil and Environmental Engineering.

The certificate is part of the Freshwater Collaborative of Wisconsin (https://freshwater.wisconsin.edu/), a statewide initiative of the Universities of Wisconsin (https://www.wisconsin.edu/).

HOW TO GET IN

HOW TO GET IN

Please follow the process described on the Freshwater and Marine Sciences website (https://integrativebiology.wisc.edu/declaring-advising-and-careers/).

Prerequisites: None.

REQUIREMENTS

REQUIREMENTS

The certificate requires a minimum of 15 credits. Students must complete distinct courses in each requirement; they may not reuse courses to meet multiple requirements. Some courses that count as either Freshwater or Marine appear on both lists, but students must complete a separate course to meet each requirement.

Code	Title	Credits
Core courses: Complete at least 5 credits from this list of courses.		**5**
ZOOLOGY 115	Freshwater: Past, Present, and Future	
ZOOLOGY 304	Marine Biology	
ZOOLOGY/ ENVIR ST 315	Limnology-Conservation of Aquatic Resources	
ZOOLOGY 316	Laboratory for Limnology-Conservation of Aquatic Resources	
ATM OCN/ GEOSCI 105	Survey of Oceanography	
CIV ENGR 311	Hydroscience	
SOIL SCI/ ATM OCN/ BSE 132	Water and People	
Freshwater: Complete one course		**2-3**
ZOOLOGY 115	Freshwater: Past, Present, and Future	
ZOOLOGY 303	Aquatic Invertebrate Biology	
ZOOLOGY/ ENVIR ST 315	Limnology-Conservation of Aquatic Resources	
ZOOLOGY 316	Laboratory for Limnology-Conservation of Aquatic Resources	
ZOOLOGY/ ENVIR ST 510	Ecology of Fishes	
ZOOLOGY/ ENVIR ST 511	Ecology of Fishes Lab	
ATM OCN/BSE/ SOIL SCI 132	Water and People	
ATM OCN 310	Dynamics of the Atmosphere and Ocean I	
BOTANY 330	Algae	
CIV ENGR 311	Hydroscience	
CIV ENGR 415	Hydrology	
CIV ENGR 416	Water Resources Systems Analysis	
CIV ENGR 514	Coastal Engineering	
CIV ENGR 516	Hydrologic Data Analysis	
LAND ARC/ ENVIR ST 361	Wetlands Ecology	
Marine: Complete one course		**2-4**
ZOOLOGY 303	Aquatic Invertebrate Biology	
ZOOLOGY 304	Marine Biology	
ZOOLOGY 320	Field Marine Biology	
ZOOLOGY 333	Marine Ecology	

ZOOLOGY/ ENVIR ST 510	Ecology of Fishes	
ATM OCN/ GEOSCI 105	Survey of Oceanography	
ATM OCN 310	Dynamics of the Atmosphere and Ocean I	
CIV ENGR 514	Coastal Engineering	
Electives to reach 15 credits, any Freshwater or Marine course beyond the minimum requirements counts as electives.		**3-6**
Total Credits		**15**

RESIDENCE AND QUALITY OF WORK

- Minimum 2.000 GPA on all certificate courses
- At least 8 credits must be taken in residence at UW-Madison

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Develop an integrated understanding of the functioning of freshwater and marine ecosystems, with a focus on the integration of physical, chemical, and biological dimensions.
2. Apply a foundational understanding of freshwater and marine ecosystems to addressing current environmental problems.
3. Develop a deeper understanding of interdisciplinary water resource management issues, and to understand their broader societal context.
4. Gain career-relevant, hands-on experiences through field trips, lab analysis, and data collection and analysis.

ADVISING AND CAREERS

ADVISING AND CAREERS

Please follow the process described on the Freshwater and Marine Sciences website (https://integrativebiology.wisc.edu/declaring-advising-and-careers/).

Talk with the certificate advisor (fmsc@ibio.wisc.edu) about selecting courses from the certificate's options to fit your own interests and goals.

Freshwater and Marine Sciences certificate students gain experience that prepares them for graduate study and/or careers such as limnology, water resource management, and marine biology. Career paths include water resources policy and management with local, state, or federal agencies, conservation groups, teaching and academic research, and private industry.

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

MOLECULAR AND CELL BIOLOGY, BA

Molecular and cell biology is the basic science that seeks an understanding of biological processes in terms of the properties and functions of the molecules that make up living cells. The scope of questions addressed in molecular and cell biology ranges from evolution to development to the regulation of gene expression. A career in molecular and cell biology requires a strong background in biology as well as a solid foundation in chemistry, mathematics, and physics.

The Molecular and Cell Biology major has been designed primarily for three groups of students:

1. those who plan to enter a research career in molecular and cell biology or related areas such as biochemistry, genetics, oncology, microbiology, cell biology, or developmental biology;
2. pre-professional students who plan to enter either a research or clinical career in medicine or allied health fields; and

3. students who plan to pursue careers in the biotechnology and pharmaceutical science industries.

Students with other interests are also welcome, of course. Career opportunities for students with an undergraduate degree in molecular and cell biology are amazingly diverse. Graduates of the program have gone into patent law, science journalism, forensics, philosophy, nutrition, genetic counseling, veterinary medicine, anthropology, archeology, marine biology, theology, and much more (https://molecularbio.ls.wisc.edu/wp-content/uploads/sites/290/2024/10/What-you-can-do-with-your-MOLECULAR-CELL-BIOLOGY-major.pdf).

Major requirements have been set to assure a high degree of proficiency in the various areas specified while still allowing as much flexibility as possible for students to individualize their programs. For the undergraduate interested in life sciences, this major uniquely provides access to the extraordinary scope and strength of biology courses and laboratories on the UW–Madison campus.

Students who wish to obtain further information about the program or to declare a Molecular and Cell Biology major should contact the Academic Advisor. (https://molecularbio.ls.wisc.edu/advising/)

UNDERGRADUATE RESEARCH

Undergraduate Molecular and Cell Biology students at UW–Madison are fortunate to have the opportunity to work with some of the world's leading researchers. Many opportunities for laboratory research experience are available on campus for undergraduate students, and this type of experience is strongly encouraged. Such an experience provides students the opportunity to apply what they're learning and complement their knowledge with practical skills. Research experience is highly valued by employers, graduate programs, and professional schools. See the major website (https://molecularbio.ls.wisc.edu/undergraduate-research/) for more information on how to get involved in undergraduate research.

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are eligible to declare. For information on how to declare, visit Advising & Careers.
Courses required to get in	None
GPA requirements to get in	None
Credits required to get in	None
Other	None

Students who intend to major in Molecular and Cell Biology may not combine this major ("double major") with the Biology or Biochemistry majors in either the College of Letters and Science or the College of Agricultural and Life Sciences (CALS).

Students who intend to major in Molecular and Cell Biology may not combine this major ("double major") with the Biology or Biochemistry majors in either the College of Letters and Science or the College of Agricultural and Life Sciences (CALS).

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a Bachelor of Arts degree in the College of Letters & Science must complete all of the requirements below. Some courses satisfy more than one L&S degree requirement (visit College of Letters & Science: Requirements (https://guide.wisc.edu/undergraduate/letters-science/#requirementstext) for details).

This major can be paired with either the Bachelor of Arts or Bachelor of Science degree requirements.

BACHELOR OF ARTS DEGREE REQUIREMENTS

Communication	Complete both: • Part A: one course with the Communication A designation or eligible UW Placement Score; and • Part B: one course with the Communication B designation
Quantitative Reasoning	Complete both: • Part A: one course with the Quantitative Reasoning A designation or eligible UW Placement Score; and • Part B: one course with the Quantitative Reasoning B designation
Ethnic Studies	one 3+ credit course with the Ethnic Studies designation
Language	Complete either: • the fourth unit of one language other than English; or • the third unit of one language other than English and the second unit of an additional language.
L&S Breadth: Humanities	Complete 12 credits with the Humanities or Literature designation, which must include at least 6 credits with the Literature designation.
L&S Breadth: Social Sciences	Complete 12 credits with the Social Science designation.
L&S Breadth: Natural Sciences	Complete 12 credits with the Natural Science, Biological Science, or Physical Science designations, which must include both: • one 3+ credit course with the Biological Science designation, and • one 3+ credit course with the Physical Science designation.
Liberal Arts and Science (LAS) Coursework	at least 108 credits
Depth of Intermediate/Advanced work	at least 60 credits at the Intermediate or Advanced level
Major	Declare and complete at least one major.
Total Credits	at least 120 credits
UW-Madison Experience	• 30 credits in residence, overall; and • 30 credits in residence after the 86th credit
Quality of Work	• 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their School/College to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

MATHEMATICS, CHEMISTRY & PHYSICS

Code	Title	Credits
Mathematics and Statistics		**6-10**
Complete the following:		
MATH 221	Calculus and Analytic Geometry 1	5

Complete one of the following:		
MATH 222	Calculus and Analytic Geometry 2	4
MATH 213	Survey of Calculus 2	3
STAT 240	Data Science Modeling I	4
STAT 301	Introduction to Statistical Methods	3
STAT 371	Introductory Applied Statistics for the Life Sciences	3
General Chemistry—complete one option:		**5-10**
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	9
CHEM 109	Advanced General Chemistry	5
CHEM 115 & CHEM 116	Chemical Principles I and Chemical Principles II (by consent of instructor only)	10
Organic Chemistry -complete the sequence		**8**
CHEM 343	Organic Chemistry I	3
CHEM 344	Introductory Organic Chemistry Laboratory	2
CHEM 345	Organic Chemistry II	3
Physics -Choose a first and a second calculus based physics option OR elementary based physics sequence with additional calculus		**10-12**
Calculus Based Physics: First General Physics Course—complete one class:		
PHYSICS 207	General Physics	5
PHYSICS 201	General Physics	5
PHYSICS 247	A Modern Introduction to Physics	5
Calculus Based Physics: Second General Physics Course – complete one class:		
PHYSICS 208	General Physics	5
PHYSICS 202	General Physics	5
PHYSICS 248	A Modern Introduction to Physics	5
Elementary Based Physics --complete three		
PHYSICS 103	General Physics	4
PHYSICS 104	General Physics	4
MATH 234	Calculus--Functions of Several Variables	4

INTRODUCTORY BIOLOGY

Code	Title	Credits
Complete one option:		**10-13**
Option A:		
ZOOLOGY/ BIOLOGY/ BOTANY 151	Introductory Biology	5
ZOOLOGY/ BIOLOGY/ BOTANY 152	Introductory Biology	5
Option B: [1]		
BIOCORE 381	Evolution, Ecology, and Genetics	3
BIOCORE 382	Evolution, Ecology, and Genetics Laboratory	2
BIOCORE 383	Cellular Biology	3
BIOCORE 384	Cellular Biology Laboratory	2
BIOCORE 485	Principles of Physiology	3
Option C:		
ZOOLOGY/ BIOLOGY 101	Animal Biology	3
ZOOLOGY/ BIOLOGY 102	Animal Biology Laboratory	2
BOTANY/ BIOLOGY 130	General Botany	5

BREADTH COURSEWORK

Code	Title	Credits
Biochemistry -complete one of the following:		
BIOCHEM 501	Introduction to Biochemistry	3
BIOCHEM 507 & BIOCHEM 508	General Biochemistry I and General Biochemistry II	6
Cell Biology		
ZOOLOGY 570	Cell Biology	3
Molecular Biology and Genetics -complete one of the following:		
BIOCORE 381 & BIOCORE 383 & BIOCORE 587	Evolution, Ecology, and Genetics and Cellular Biology and Biological Interactions	9
GENETICS 466	Principles of Genetics	3
GENETICS 467 & GENETICS 468	General Genetics 1 and General Genetics 2	6
MICROBIO 470	Microbial Genetics & Molecular Machines	3

DEPTH COURSEWORK

Code	Title	Credits
Students must complete 6 unique credits of depth coursework. Courses may be concentrated in one area or distributed across multiple areas. [2]		
Biochemistry and Biophysics (no minimum)		
CHEM 575	Advanced Topics in Chemistry	1-4
BIOCHEM/ NUTR SCI 560	Principles of Human Disease and Biotechnology	2
BIOCHEM 601	Protein and Enzyme Structure and Function	2
BIOCHEM/ GENETICS/ MICROBIO 612	Prokaryotic Molecular Biology	3
BIOCHEM/ GENETICS/ MD GENET 620	Eukaryotic Molecular Biology	3
BIOCHEM/ BOTANY 621	Plant Biochemistry	3
BIOCHEM 625	Mechanisms of Action of Vitamins and Minerals	2
BIOCHEM/ NUTR SCI 645	Molecular Control of Metabolism and Metabolic Disease	3
Cellular Systems (no minimum)		
MED PHYS 510	Fundamentals of Cellular, Molecular, and Radiation Biology	3
CRB 670	Biology of Cardiac Function and Disease	3
BOTANY 421	Medical Botany	3

ZOOLOGY 403	Endocrinology	3
ZOOLOGY 444	Neuronal Cell Biology in Health and Disease	2
ZOOLOGY 470	Introduction to Animal Development	3
ZOOLOGY/ PSYCH 523	Neurobiology	3
GENETICS 627	Animal Developmental Genetics	3
ONCOLOGY 401	Introduction to Experimental Oncology	2
PATH-BIO/ M M & I 528	Immunology	3
BIOCORE 587	Biological Interactions	3
NTP/ NEURODPT 610	Cellular and Molecular Neuroscience	4
Genetics (no minimum)		
AN SCI 361	Breeding and Genetics of Livestock and Companion Animals	3
GENETICS 520	Neurogenetics	3
GENETICS/ BIOLOGY 522	Communicating Evolutionary Biology	2-3
GENETICS 527	Developmental Genetics for Conservation and Regeneration	3
GENETICS/ MD GENET 565	Human Genetics	3
GENETICS 588	Immunogenetics	3
GENETICS/ BIOCHEM/ MICROBIO 612	Prokaryotic Molecular Biology	3
GENETICS/ BIOCHEM/ MD GENET 620	Eukaryotic Molecular Biology	3
GENETICS 627	Animal Developmental Genetics	3
GENETICS/ BIOCHEM 631	Plant Genetics and Development	3
GENETICS/ MD GENET 662	Cancer Genetics	3
PLANTSCI 338	Plant Breeding and Biotechnology	3
PLANTSCI 340	Plant Genome Engineering and Editing	3
PLANTSCI 550	Molecular Approaches for Crop Improvement	3
Microbiology and Virology (no minimum)		
MICROBIO 303	Biology of Microorganisms	3
MICROBIO/ BOTANY 335	The Microbiome of Plants, Animals, and Humans	3
MICROBIO 345	Introduction to Disease Biology	3
MICROBIO/ SOIL SCI 425	Environmental Microbiology	3
MICROBIO/ SOIL SCI 523	Soil Microbiology and Biochemistry	3
MICROBIO 526	Physiology of Microorganisms	3
PATH 501	Topics in Environmental Viral Pathogen Surveillance	3
PL PATH 622	Plant-Bacterial Interactions	2-3
BOTANY/ENTOM/ PL PATH 505	Plant-Microbe Interactions: Molecular and Ecological Aspects	3
BIOCHEM/ M M & I 575	Biology of Viruses	2
ONCOLOGY/ M M & I/ PL PATH 640	General Virology-Multiplication of Viruses	3
Quantitative Biology (no minimum)		
MATH/ COMP SCI 240	Introduction to Discrete Mathematics	3
MATH 340	Elementary Matrix and Linear Algebra	3
STAT 303	R for Statistics I	1
STAT 304	R for Statistics II	1
STAT 305	R for Statistics III	1
STAT 333	Applied Regression Analysis	3
STAT 421	Applied Categorical Data Analysis	3
B M E 556	Systems Biology: Mammalian Signaling Networks	3
COMP SCI 300	Programming II	3
COMP SCI 368	Learning a Programming Language	1
COMP SCI 540	Introduction to Artificial Intelligence	3
COMP SCI/ B M I 567	Biomedical Image Analysis	3
COMP SCI/ B M I 576	Introduction to Bioinformatics	3
MICROBIO 657	Bioinformatics for Microbiologists	3

LABORATORY COURSE

Complete 2 credits minimum:

Students who complete at least 4 credits of Directed/Independent study fulfill both the Laboratory Course and Directed/Independent Study requirements

Code	Title	Credits
BIOCHEM 207	Engineering Bacteriophage Laboratory	2
CHEM 327	Fundamentals of Analytical Science	4
CHEM 329	Fundamentals of Analytical Science	4
COMP SCI 220	Data Science Programming I	4
MICROBIO 304	Biology of Microorganisms Laboratory	2
MICROBIO 657	Bioinformatics for Microbiologists	3
MOL BIOL 681	Senior Honors Thesis	3
MOL BIOL 691	Senior Thesis	3
MOL BIOL 699	Directed Studies in Molecular Biology	1-4
PHM SCI 254	Tiny Earth Genomics - Researching Uncultured Antibiotic-Producing Microbes	3
ZOOLOGY 555	Laboratory in Developmental Biology	3

DIRECTED/INDEPENDENT STUDY

Complete 2 credits minimum:

Students who complete at least 4 credits of Directed/Independent study fulfill both the Laboratory Course and Directed/Independent Study requirements

Code	Title	Credits
Directed/Independent Study- This 699 course can be taken in Mol Bio or in the Mentor's department - Subject to MCB approval (inquire with MCB advisor).		
MOL BIOL 699	Directed Studies in Molecular Biology (Or other departments, as applicable)	1-4
Senior Thesis		
MOL BIOL 682	Senior Honors Thesis	3
MOL BIOL 692	Senior Thesis	3

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all Molecular and Cell Biology major courses
- 2.000 GPA on at least 15 credits of upper-level in the major, taken in residence[3]
- 15 credits in Molecular and Cell Biology major courses, taken on the UW–Madison campus

HONORS IN THE MAJOR

Students may declare Honors in the Molecular and Cell Biology major in consultation with the Molecular and Cell Biology undergraduate advisor.

HONORS IN THE MOLECULAR AND CELL BIOLOGY MAJOR REQUIREMENTS

To earn Honors in the Major in Molecular and Cell Biology, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 GPA for all courses accepted in the major
- Complete at least 15 credits of honors courses in the major while in residence at UW-Madison. This requirement can be broken down as indicated below:
  - At least 9 credits from the Breadth and Depth course options in the Molecular and Cell Biology major
  - Complete two semester Senior Honors Thesis, a piece of original research composition.

Code	Title	Credits
MOL BIOL 681	Senior Honors Thesis	3
MOL BIOL 682	Senior Honors Thesis	3

  - Complete one semester of the Molecular and Cell Biology senior honors seminar course.

Code	Title	Credits
MOL BIOL 686	Senior Honors Seminar in Molecular Biology	1

FOOTNOTES

[1] BIOCORE is a competitive honors program and certificate.

[2] Students are encouraged to see their advisor for assistance in choosing depth coursework.

[3] Courses accepted in the major that are Intermediate or Advanced are considered upper-level in this major.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Integrate the energetic and thermodynamic bases of life, with an emphasis on the molecular mechanisms underlying them
2. Integrate the nature of genetic material and its roles in inheritance, evolution, and cellular function
3. Summarize the fundamental relationship between the structure and function of biological macromolecules
4. Summarize the principles of cell structure, function, and biological dynamics
5. Appraise the molecular mechanisms and quantitative principles in biochemistry/physical chemistry, cellular systems, genetics, and microbiology.
6. Develop skills to communicate scientific information in oral and written form
7. Develop the ability to formulate hypotheses and plan, design, and carry out scientific experiments to test them
8. Developing quantitative reasoning skills and the ability to use quantitative approaches to understand basic principles of life.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

Freshman

Fall	Credits	Spring	Credits
Communication A	3	MATH 221	5
Quantitative Reasoning A	3-5	Ethnic Studies	3
CHEM 103	4	CHEM 104	5
Language (if needed)	3-4	Humanities Breadth	2
	15		**15**

Sophomore

Fall	Credits	Spring	Credits
ZOOLOGY/BIOLOGY/ BOTANY 151	5	ZOOLOGY/BIOLOGY/ BOTANY 152	5
CHEM 343	3	CHEM 344	2
Social Science Breadth	3	CHEM 345	3
Humanities Breadth	3	STAT 371	3

Elective	3	Elective	3
	15		**15**

Total Credits 120

[1] INTER-LS 210 L&S Career Development: Taking Initiative is an option, but not required for students pursuing the Molecular and Cell Biology major.

ADVISING AND CAREERS

ADVISING AND CAREERS

You must first make an appointment to meet with a Molecular and Cell Biology advisor. Please find the Molecular and Cell Biology Advisor on Starfish.

Students who intend to major in Molecular and Cell Biology may not combine this major ("double major") with the Biology or Biochemistry majors in either the College of Letters and Science or the College of Agricultural and Life Sciences (CALS).

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

HILLDALE UNDERGRADUATE/FACULTY RESEARCH FELLOWSHIP

The Hilldale Undergraduate/Faculty Research Fellowships (https://awards.advising.wisc.edu/all-scholarships/hilldale-undergraduatefaculty-research-fellowship/) support undergraduate research done in collaboration with UW–Madison faculty or research/instructional academic staff. Approximately 100 Hilldale awards are available each year. The student researcher receives $3,000, and the faculty/staff research advisor receives $1,000 to help offset research costs (e.g., supplies, faculty or student travel related to the project).

HOLSTROM ENVIRONMENTAL RESEARCH FELLOWSHIP

The Holstrom Environmental Research Fellowship (https://awards.advising.wisc.edu/all-scholarships/holstrom-enviromental-research-fellowship/) supports undergraduate research done in collaboration with UW–Madison faculty or research/instructional academic staff. Research proposals must have an environmental focus, and applicants must have at least a junior standing at the time of application. Apply spring semester to fund work on the project during the summer or the following academic year.

SOPHOMORE RESEARCH FELLOWSHIP

Funded by grants from the Brittingham Fund and the Kemper K. Knapp Bequest, the Sophomore Research Fellowships (https://awards.advising.wisc.edu/all-scholarships/sophomore-research-fellowship/) support undergraduate research done in collaboration with UW–Madison faculty or research/instructional academic staff. Approximately 15 awards are available.

UNDERGRADUATE RESEARCH SCHOLARS

The Undergraduate Research Scholars (https://urs.ls.wisc.edu/) (URS) program is dedicated to enhancing the academic experience of UW–Madison students by providing first- and second-year undergraduates with opportunities to earn credit for participating in research and creative work with UW–Madison faculty and staff. The program has been designed to include partnerships between students and mentors, seminars on research-relevant issues, and practice in research/artistic presentations. The many benefits of the program are found in the fluid interaction between these activities.

UNDERGRADUATE SYMPOSIUM

The annual Undergraduate Symposium (https://ugradsymposium.wisc.edu/) showcases undergraduate creativity, achievement, research, service-learning, and community-based research from all areas of study at UW–Madison, including the humanities, fine arts, biological sciences, physical sciences, and social sciences. This past year nearly 700 students presented, displayed, or performed their work for members of the university, the surrounding community, family, and friends.

WISCONSIN IDEA FELLOWSHIPS

Wisconsin Idea Fellowships (https://morgridge.wisc.edu/students/wisconsin-idea-fellowships/) are awarded annually to undergraduate student projects working toward solving a challenge identified along with local or global community partners. Fellowships are awarded to semester-long or year-long projects designed by an undergraduate student (or group of students) in collaboration with a community organization and a UW–Madison faculty or academic staff member.

MOLECULAR AND CELL BIOLOGY, BS

Molecular and cell biology is the basic science that seeks an understanding of biological processes in terms of the properties and functions of the molecules that make up living cells. The scope of questions addressed in molecular and cell biology ranges from evolution to development to the regulation of gene expression. A career in molecular and cell biology requires a strong background in biology as well as a solid foundation in chemistry, mathematics, and physics.

The Molecular and Cell Biology major has been designed primarily for three groups of students:

1. those who plan to enter a research career in molecular and cell biology or related areas such as biochemistry, genetics, oncology, microbiology, cell biology, or developmental biology;
2. pre-professional students who plan to enter either a research or clinical career in medicine or allied health fields; and
3. students who plan to pursue careers in the biotechnology and pharmaceutical science industries.

Students with other interests are also welcome, of course. Career opportunities for students with an undergraduate degree in molecular and cell biology are amazingly diverse. Graduates of the program have gone into patent law, science journalism, forensics, philosophy, nutrition, genetic counseling, veterinary medicine, anthropology, archeology, marine biology, theology, and much more (https://molecularbio.ls.wisc.edu/wp-content/uploads/sites/290/2024/10/What-you-can-do-with-your-MOLECULAR-CELL-BIOLOGY-major.pdf).

Major requirements have been set to assure a high degree of proficiency in the various areas specified while still allowing as much flexibility as possible for students to individualize their programs. For the undergraduate interested in life sciences, this major uniquely provides access to the extraordinary scope and strength of biology courses and laboratories on the UW–Madison campus.

Students who wish to obtain further information about the program or to declare a Molecular and Cell Biology major should contact the Academic Advisor. (https://molecularbio.ls.wisc.edu/advising/)

UNDERGRADUATE RESEARCH

Undergraduate Molecular and Cell Biology students at UW–Madison are fortunate to have the opportunity to work with some of the world's leading researchers. Many opportunities for laboratory research experience are available on campus for undergraduate students, and this type of experience is strongly encouraged. Such an experience provides students the opportunity to apply what they're learning and complement their knowledge with practical skills. Research experience is highly valued by employers, graduate programs, and professional schools. See the major website (https://molecularbio.ls.wisc.edu/undergraduate-research/) for more information on how to get involved in undergraduate research.

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are eligible to declare. For information on how to declare, visit Advising & Careers.
Courses required to get in	None
GPA requirements to get in	None
Credits required to get in	None
Other	None

Students who intend to major in Molecular and Cell Biology may not combine this major (“double major”) with the Biology or Biochemistry majors in either the College of Letters and Science or the College of Agricultural and Life Sciences (CALS).

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. Some courses satisfy more than one L&S degree requirement (visit College of Letters & Science: Requirements (https://guide.wisc.edu/undergraduate/letters-science/#requirementstext) for details).

This major can be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Communication	Complete both: • Part A: one course with the Communication A designation or eligible UW Placement Score; and • Part B: one course with the Communication B designation
Quantitative Reasoning	Complete both: • Part A: one course with the Quantitative Reasoning A designation or eligible UW Placement Score; and • Part B: one course with the Quantitative Reasoning B designation
Ethnic Studies	one 3+ credit course with the Ethnic Studies designation
Language	the third unit of a language other than English
Mathematics	Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.
L&S Breadth: Humanities	Complete 12 credits with the Humanities or Literature designation, which must include at least 6 credits with the Literature designation.
L&S Breadth: Social Sciences	Complete 12 credits with the Social Science designation.

L&S Breadth: Natural Sciences	Complete 12 credits, which must include both: • 6 credits with the Biological Science designation, and • 6 credits with the Physical Science designation.
Liberal Arts and Science (LAS) Coursework	at least 108 credits
Depth of Intermediate/ Advanced Coursework	at least 60 credits at the Intermediate or Advanced level
Major	Declare and complete at least one major.
Total Credits	at least 120 credits
UW-Madison Experience	• 30 credits in residence, overall, and • 30 credits in residence after the 86th credit
Quality of Work	• 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their School/College to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

MATHEMATICS, CHEMISTRY & PHYSICS

Code	Title	Credits
Mathematics and Statistics		**6-10**
Complete the following:		
MATH 221	Calculus and Analytic Geometry 1	5
Complete one of the following:		
MATH 222	Calculus and Analytic Geometry 2	4
MATH 213	Survey of Calculus 2	3
STAT 240	Data Science Modeling I	4
STAT 301	Introduction to Statistical Methods	3
STAT 371	Introductory Applied Statistics for the Life Sciences	3
General Chemistry–complete one option:		**5-10**
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	9
CHEM 109	Advanced General Chemistry	5
CHEM 115 & CHEM 116	Chemical Principles I and Chemical Principles II (by consent of instructor only)	10
Organic Chemistry -complete the sequence		**8**
CHEM 343	Organic Chemistry I	3
CHEM 344	Introductory Organic Chemistry Laboratory	2
CHEM 345	Organic Chemistry II	3
Physics -Choose a first and a second calculus based physics option OR elementary based physics sequence with additional calculus		**10-12**
Calculus Based Physics: First General Physics Course–complete one class:		
PHYSICS 207	General Physics	5
PHYSICS 201	General Physics	5
PHYSICS 247	A Modern Introduction to Physics	5
Calculus Based Physics: Second General Physics Course – complete one class:		
PHYSICS 208	General Physics	5
PHYSICS 202	General Physics	5
PHYSICS 248	A Modern Introduction to Physics	5
Elementary Based Physics --complete three		
PHYSICS 103	General Physics	4
PHYSICS 104	General Physics	4
MATH 234	Calculus--Functions of Several Variables	4

INTRODUCTORY BIOLOGY

Code	Title	Credits
Complete one option:		**10-13**
Option A:		
ZOOLOGY/ BIOLOGY/ BOTANY 151	Introductory Biology	5
ZOOLOGY/ BIOLOGY/ BOTANY 152	Introductory Biology	5
Option B: [1]		
BIOCORE 381	Evolution, Ecology, and Genetics	3
BIOCORE 382	Evolution, Ecology, and Genetics Laboratory	2
BIOCORE 383	Cellular Biology	3
BIOCORE 384	Cellular Biology Laboratory	2
BIOCORE 485	Principles of Physiology	3
Option C:		
ZOOLOGY/ BIOLOGY 101	Animal Biology	3
ZOOLOGY/ BIOLOGY 102	Animal Biology Laboratory	2
BOTANY/ BIOLOGY 130	General Botany	5

BREADTH COURSEWORK

Code	Title	Credits
Biochemistry -complete one of the following:		
BIOCHEM 501	Introduction to Biochemistry	3
BIOCHEM 507 & BIOCHEM 508	General Biochemistry I and General Biochemistry II	6
Cell Biology		
ZOOLOGY 570	Cell Biology	3
Molecular Biology and Genetics -complete one of the following:		

BIOCORE 381 & BIOCORE 383 & BIOCORE 587	Evolution, Ecology, and Genetics and Cellular Biology and Biological Interactions	9
GENETICS 466	Principles of Genetics	3
GENETICS 467 & GENETICS 468	General Genetics 1 and General Genetics 2	6
MICROBIO 470	Microbial Genetics & Molecular Machines	3

DEPTH COURSEWORK

Code	Title	Credits
Students must complete 6 unique credits of depth coursework. Courses may be concentrated in one area or distributed across multiple areas. [2]		
Biochemistry and Biophysics (no minimum)		
CHEM 575	Advanced Topics in Chemistry	1-4
BIOCHEM/ NUTR SCI 560	Principles of Human Disease and Biotechnology	2
BIOCHEM 601	Protein and Enzyme Structure and Function	2
BIOCHEM/ GENETICS/ MICROBIO 612	Prokaryotic Molecular Biology	3
BIOCHEM/ GENETICS/ MD GENET 620	Eukaryotic Molecular Biology	3
BIOCHEM/ BOTANY 621	Plant Biochemistry	3
BIOCHEM 625	Mechanisms of Action of Vitamins and Minerals	2
BIOCHEM/ NUTR SCI 645	Molecular Control of Metabolism and Metabolic Disease	3
Cellular Systems (no minimum)		
MED PHYS 510	Fundamentals of Cellular, Molecular, and Radiation Biology	3
CRB 670	Biology of Cardiac Function and Disease	3
BOTANY 421	Medical Botany	3
ZOOLOGY 403	Endocrinology	3
ZOOLOGY 444	Neuronal Cell Biology in Health and Disease	2
ZOOLOGY 470	Introduction to Animal Development	3
ZOOLOGY/ PSYCH 523	Neurobiology	3
GENETICS 627	Animal Developmental Genetics	3
ONCOLOGY 401	Introduction to Experimental Oncology	2
PATH-BIO/ M M & I 528	Immunology	3
BIOCORE 587	Biological Interactions	3
NTP/ NEURODPT 610	Cellular and Molecular Neuroscience	4
Genetics (no minimum)		
AN SCI 361	Breeding and Genetics of Livestock and Companion Animals	3
GENETICS 520	Neurogenetics	3
GENETICS/ BIOLOGY 522	Communicating Evolutionary Biology	2-3
GENETICS 527	Developmental Genetics for Conservation and Regeneration	3
GENETICS/ MD GENET 565	Human Genetics	3
GENETICS 588	Immunogenetics	3
GENETICS/ BIOCHEM/ MICROBIO 612	Prokaryotic Molecular Biology	3
GENETICS/ BIOCHEM/ MD GENET 620	Eukaryotic Molecular Biology	3
GENETICS 627	Animal Developmental Genetics	3
GENETICS/ BIOCHEM 631	Plant Genetics and Development	3
GENETICS/ MD GENET 662	Cancer Genetics	3
PLANTSCI 338	Plant Breeding and Biotechnology	3
PLANTSCI 340	Plant Genome Engineering and Editing	3
PLANTSCI 550	Molecular Approaches for Crop Improvement	3
Microbiology and Virology (no minimum)		
MICROBIO 303	Biology of Microorganisms	3
MICROBIO/ BOTANY 335	The Microbiome of Plants, Animals, and Humans	3
MICROBIO 345	Introduction to Disease Biology	3
MICROBIO/ SOIL SCI 425	Environmental Microbiology	3
MICROBIO/ SOIL SCI 523	Soil Microbiology and Biochemistry	3
MICROBIO 526	Physiology of Microorganisms	3
PATH 501	Topics in Environmental Viral Pathogen Surveillance	3
PL PATH 622	Plant-Bacterial Interactions	2-3
BOTANY/ENTOM/ PL PATH 505	Plant-Microbe Interactions: Molecular and Ecological Aspects	3
BIOCHEM/ M M & I 575	Biology of Viruses	2
ONCOLOGY/ M M & I/ PL PATH 640	General Virology-Multiplication of Viruses	3
Quantitative Biology (no minimum)		
MATH/ COMP SCI 240	Introduction to Discrete Mathematics	3
MATH 340	Elementary Matrix and Linear Algebra	3
STAT 303	R for Statistics I	1
STAT 304	R for Statistics II	1
STAT 305	R for Statistics III	1
STAT 333	Applied Regression Analysis	3
STAT 421	Applied Categorical Data Analysis	3
B M E 556	Systems Biology: Mammalian Signaling Networks	3
COMP SCI 300	Programming II	3

COMP SCI 368	Learning a Programming Language	1
COMP SCI 540	Introduction to Artificial Intelligence	3
COMP SCI/ B M I 567	Biomedical Image Analysis	3
COMP SCI/ B M I 576	Introduction to Bioinformatics	3
MICROBIO 657	Bioinformatics for Microbiologists	3

LABORATORY COURSE

Complete 2 credits minimum:

Students who complete at least 4 credits of Directed/Independent study fulfill both the Laboratory Course and Directed/Independent Study requirements

Code	Title	Credits
BIOCHEM 207	Engineering Bacteriophage Laboratory	2
CHEM 327	Fundamentals of Analytical Science	4
CHEM 329	Fundamentals of Analytical Science	4
COMP SCI 220	Data Science Programming I	4
MICROBIO 304	Biology of Microorganisms Laboratory	2
MICROBIO 657	Bioinformatics for Microbiologists	3
MOL BIOL 681	Senior Honors Thesis	3
MOL BIOL 691	Senior Thesis	3
MOL BIOL 699	Directed Studies in Molecular Biology	1-4
PHM SCI 254	Tiny Earth Genomics - Researching Uncultured Antibiotic-Producing Microbes	3
ZOOLOGY 555	Laboratory in Developmental Biology	3

DIRECTED/INDEPENDENT STUDY

Complete 2 credits minimum:

Students who complete at least 4 credits of Directed/Independent study fulfill both the Laboratory Course and Directed/Independent Study requirements

Code	Title	Credits
Directed/Independent Study- This 699 course can be taken in Mol Bio or in the Mentor's department - Subject to MCB approval (inquire with MCB advisor).		
MOL BIOL 699	Directed Studies in Molecular Biology (Or other departments, as applicable)	1-4
Senior Thesis		
MOL BIOL 682	Senior Honors Thesis	3
MOL BIOL 692	Senior Thesis	3

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all Molecular and Cell Biology major courses
- 2.000 GPA on at least 15 credits of upper-level in the major, taken in residence[3]
- 15 credits in Molecular and Cell Biology major courses, taken on the UW–Madison campus

HONORS IN THE MAJOR

Students may declare Honors in the Molecular and Cell Biology major in consultation with the Molecular and Cell Biology undergraduate advisor.

HONORS IN THE MOLECULAR AND CELL BIOLOGY MAJOR REQUIREMENTS

To earn Honors in the Major in Molecular and Cell Biology, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 overall university GPA
- Earn a 3.300 GPA for all courses accepted in the major
- Complete at least 15 credits of honors courses in the major while in residence at UW-Madison. This requirement can be broken down as indicated below:
  - At least 9 credits from the Breadth and Depth course options in the Molecular and Cell Biology major
  - Complete two semester Senior Honors Thesis, a piece of original research composition.

Code	Title	Credits
MOL BIOL 681	Senior Honors Thesis	3
MOL BIOL 682	Senior Honors Thesis	3

  - Complete one semester of the Molecular and Cell Biology senior honors seminar course.

Code	Title	Credits
MOL BIOL 686	Senior Honors Seminar in Molecular Biology	1

FOOTNOTES

1 BIOCORE is a competitive honors program and certificate.
2 Students are encouraged to see their advisor for assistance in choosing depth coursework.
3 Courses accepted in the major that are Intermediate or Advanced are considered upper-level in this major.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Integrate the energetic and thermodynamic bases of life, with an emphasis on the molecular mechanisms underlying them
2. Integrate the nature of genetic material and its roles in inheritance, evolution, and cellular function
3. Summarize the fundamental relationship between the structure and function of biological macromolecules
4. Summarize the principles of cell structure, function, and biological dynamics
5. Appraise the molecular mechanisms and quantitative principles in biochemistry/physical chemistry, cellular systems, genetics, and microbiology.
6. Develop skills to communicate scientific information in oral and written form

7. Develop the ability to formulate hypotheses and plan, design, and carry out scientific experiments to test them
8. Developing quantitative reasoning skills and the ability to use quantitative approaches to understand basic principles of life.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

Freshman

Fall	Credits	Spring	Credits

Total Credits 120

[1] INTER-LS 210 L&S Career Development: Taking Initiative is an option, but not required for students pursuing the Molecular and Cell Biology major.

ADVISING AND CAREERS

ADVISING AND CAREERS

You must first make an appointment to meet with a Molecular and Cell Biology advisor. Please find the Molecular and Cell Biology Advisor on Starfish.

Students who intend to major in Molecular and Cell Biology may not combine this major ("double major") with the Biology or Biochemistry majors in either the College of Letters and Science or the College of Agricultural and Life Sciences (CALS).

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)

- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

HILLDALE UNDERGRADUATE/FACULTY RESEARCH FELLOWSHIP

The Hilldale Undergraduate/Faculty Research Fellowships (https://awards.advising.wisc.edu/all-scholarships/hilldale-undergraduatefaculty-research-fellowship/) support undergraduate research done in collaboration with UW–Madison faculty or research/instructional academic staff. Approximately 100 Hilldale awards are available each year. The student researcher receives $3,000, and the faculty/staff research advisor receives $1,000 to help offset research costs (e.g., supplies, faculty or student travel related to the project).

HOLSTROM ENVIRONMENTAL RESEARCH FELLOWSHIP

The Holstrom Environmental Research Fellowship (https://awards.advising.wisc.edu/all-scholarships/holstrom-enviromental-research-fellowship/) supports undergraduate research done in collaboration with UW–Madison faculty or research/instructional academic staff. Research proposals must have an environmental focus, and applicants must have at least a junior standing at the time of application. Apply spring semester to fund work on the project during the summer or the following academic year.

SOPHOMORE RESEARCH FELLOWSHIP

Funded by grants from the Brittingham Fund and the Kemper K. Knapp Bequest, the Sophomore Research Fellowships (https://awards.advising.wisc.edu/all-scholarships/sophomore-research-fellowship/) support undergraduate research done in collaboration with UW–Madison faculty or research/instructional academic staff. Approximately 15 awards are available.

UNDERGRADUATE RESEARCH SCHOLARS

The Undergraduate Research Scholars (https://urs.ls.wisc.edu/) (URS) program is dedicated to enhancing the academic experience of UW–Madison students by providing first- and second-year undergraduates with opportunities to earn credit for participating in research and creative work with UW–Madison faculty and staff. The program has been designed to include partnerships between students and mentors, seminars on research-relevant issues, and practice in research/artistic presentations. The many benefits of the program are found in the fluid interaction between these activities.

UNDERGRADUATE SYMPOSIUM

The annual Undergraduate Symposium (https://ugradsymposium.wisc.edu/) showcases undergraduate creativity, achievement, research, service-learning, and community-based research from all areas of study at UW–Madison, including the humanities, fine arts, biological sciences, physical sciences, and social sciences. This past year nearly 700 students presented, displayed, or performed their work for members of the university, the surrounding community, family, and friends.

WISCONSIN IDEA FELLOWSHIPS

Wisconsin Idea Fellowships (https://morgridge.wisc.edu/students/wisconsin-idea-fellowships/) are awarded annually to undergraduate student projects working toward solving a challenge identified along with local or global community partners. Fellowships are awarded to semester-long or year-long projects designed by an undergraduate student (or group of students) in collaboration with a community organization and a UW–Madison faculty or academic staff member.

NEUROBIOLOGY, BA

Neuroscience is the scientific study of the central (brain and spinal cord) and peripheral (nerves in body) nervous system. The Neurobiology major provides a rigorous education in neuroscience principles that prepares students for health-related, academic, and careers in health-related and scientific industries. Some of our graduates go on to consulting firms, law school, and nonprofit organizations. UW–Madison has more than 90 faculty engaged in neuroscience research. Undergraduates have access to this research faculty in formal classroom environments and through undergraduate research opportunities. Please see the Neurobiology major (https://neuromajor.wisc.edu) website for more information.
See what graduates of the Neurobiology major are doing now (https://neuromajor.wisc.edu/wp-content/uploads/sites/14/2024/03/Skills-and-Outcomes-NEUROBIOLOGY-major.pdf).

UNDERGRADUATE RESEARCH

Undergraduate Neurobiology students are fortunate to have the opportunity to work with some of the world's leading researchers. Many opportunities for laboratory research experience (https://neuromajor.wisc.edu/research/) are available on campus for undergraduate students, and this type of experience is strongly encouraged. Such an experience provides students the opportunity to apply what they're learning and complement their knowledge with practical skills. Research experience is highly valued by employers, graduate programs, and professional schools.

ABOUT THE CURRICULUM

The curriculum is designed to give students a solid foundation in basic biology, chemistry, physics, and mathematics before going on to study neuroscience at the molecular, cellular, systems, and cognitive levels. It is strongly encouraged that students engage in independent research in a neuroscience laboratory on campus. The Neurobiology Major Steering Committee is committed to increasing opportunities for all students with interests in neuroscience and helping students accomplish their academic goals at UW–Madison. This major is tailored to attract students from a diverse array of backgrounds.

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are eligible to declare. For information on how to declare, visit Advising & Careers.
Courses required to get in	None

GPA requirements to get in	None
Credits required to get in	None
Other	None

Students who intend to major in Neurobiology may not combine this major ("double major") with the Biology major.

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a Bachelor of Arts degree in the College of Letters & Science must complete all of the requirements below. Some courses satisfy more than one L&S degree requirement (visit College of Letters & Science: Requirements (https://guide.wisc.edu/undergraduate/letters-science/#requirementstext) for details).

This major can be paired with either the Bachelor of Arts or Bachelor of Science degree requirements.

BACHELOR OF ARTS DEGREE REQUIREMENTS

Communication	Complete both: • Part A: one course with the Communication A designation or eligible UW Placement Score; and • Part B: one course with the Communication B designation

Quantitative Reasoning	Complete both: • Part A: one course with the Quantitative Reasoning A designation or eligible UW Placement Score; and • Part B: one course with the Quantitative Reasoning B designation
Ethnic Studies	one 3+ credit course with the Ethnic Studies designation
Language	Complete either: • the fourth unit of one language other than English; or • the third unit of one language other than English and the second unit of an additional language.
L&S Breadth: Humanities	Complete 12 credits with the Humanities or Literature designation, which must include at least 6 credits with the Literature designation.
L&S Breadth: Social Sciences	Complete 12 credits with the Social Science designation.
L&S Breadth: Natural Sciences	Complete 12 credits with the Natural Science, Biological Science, or Physical Science designations, which must include both: • one 3+ credit course with the Biological Science designation, and • one 3+ credit course with the Physical Science designation.
Liberal Arts and Science (LAS) Coursework	at least 108 credits
Depth of Intermediate/ Advanced work	at least 60 credits at the Intermediate or Advanced level
Major	Declare and complete at least one major.
Total Credits	at least 120 credits
UW-Madison Experience	• 30 credits in residence, overall; and • 30 credits in residence after the 86th credit
Quality of Work	• 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their School/College to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

MATH, STATISTICS, CHEMISTRY & PHYSICS

Code	Title	Credits
Mathematics -complete one of the following:		**5**
MATH 211	Survey of Calculus 1	
MATH 221	Calculus and Analytic Geometry 1	
Statistics -complete one of the following:		**3**
STAT 371	Introductory Applied Statistics for the Life Sciences	
STAT 340	Data Science Modeling II	
STAT/B M I 541	Introduction to Biostatistics	
General Chemistry -complete one option:		**5-9**
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	
CHEM 109	Advanced General Chemistry	
CHEM 115 & CHEM 116	Chemical Principles I and Chemical Principles II	
Organic Chemistry -complete one of the following:		**3-6**
CHEM 341	Elementary Organic Chemistry	
CHEM 343 & CHEM 345	Organic Chemistry I and Organic Chemistry II	
Physics - Choose a first and second semester physics option		**8-10**
First Semester General Physics Course - complete one course		
PHYSICS 103	General Physics	
PHYSICS 201	General Physics	
PHYSICS 207	General Physics	
PHYSICS 247	A Modern Introduction to Physics	
Second Semester General Physics Course - complete one course		
PHYSICS 104	General Physics	
PHYSICS 202	General Physics	
PHYSICS 208	General Physics	
PHYSICS 248	A Modern Introduction to Physics	
Total Credits		**24-33**

BIOLOGY AND NEUROBIOLOGY

Complete 30 credits from General Biology, Neurobiology, Lab/Research Experience and Additional Elective (if required) sections.

General Biology

Code	Title	Credits
Choose one option:		
Option A, Introductory Biology		*10*
ZOOLOGY/ BIOLOGY/ BOTANY 151	Introductory Biology	
ZOOLOGY/ BIOLOGY/ BOTANY 152	Introductory Biology	
Option B, Biology Core Curriculum		*16-18*
BIOCORE 381	Evolution, Ecology, and Genetics	
BIOCORE 383	Cellular Biology	
BIOCORE 485	Principles of Physiology	
BIOCORE 587	Biological Interactions	
Plus two from:		
BIOCORE 382	Evolution, Ecology, and Genetics Laboratory	
BIOCORE 384	Cellular Biology Laboratory	
BIOCORE 486	Principles of Physiology Laboratory	

Option C, Animal Biology		*10*
ZOOLOGY/ BIOLOGY 101	Animal Biology	
ZOOLOGY/ BIOLOGY 102	Animal Biology Laboratory	
BOTANY/ BIOLOGY 130	General Botany	

Neurobiology

Code	Title	Credits
Required Neurobiology Courses -complete all three		
ZOOLOGY/ PSYCH 523	Neurobiology	3
PSYCH 454	Behavioral Neuroscience	3
ZOOLOGY 500	Undergraduate Neurobiology Seminar	1
Distributed Neuroscience Coursework—complete 3 courses. Only one footnoted course may apply to this requirement.		**9**
ANAT&PHY 335	Physiology [1]	
ANAT&PHY 435	Fundamentals of Human Physiology [1]	
AN SCI/ DY SCI 373	Animal Physiology [1]	
BIOCHEM 501	Introduction to Biochemistry [1]	
BIOCHEM 508	General Biochemistry II [1]	
BIOCHEM/ NUTR SCI 645	Molecular Control of Metabolism and Metabolic Disease [1]	
B M E 520	Stem Cell Bioengineering [1]	
B M E 603	Special Topics in Bioinstrumentation and Medical Devices (Introduction to Neuroengineering)	
CS&D 210	Neural Basis of Communication	
CS&D 503	Neural Mechanisms of Speech, Hearing and Language	
ED PSYCH 326	Mind, Brain and Education	
ED PSYCH 506	Contemporary Issues in Educational Psychology (Brain & Behavioral Development)	
ED PSYCH 506	Contemporary Issues in Educational Psychology (Development Cognitive Neursci)	
ED PSYCH 506	Contemporary Issues in Educational Psychology (Ed Neuroscience and Creativity)	
GENETICS 520	Neurogenetics	
GENETICS/ NEURODPT 650	Functional Genomics of Brain Disorders	
KINES 531	Neural Control of Movement	
MED PHYS 651	Methods for Neuroimaging Research	
NEURODPT 629	Molecular and Cellular Mechanisms of Memory	
NTP/ NEURODPT 610	Cellular and Molecular Neuroscience	
NTP/NEURODPT/ PSYCH 611	Systems Neuroscience	
NTP/ NEURODPT 640	Computational Neuroscience: From Single Cells to Whole Brain Models	
NTP 666	Neuroscience of Consciousness and its Disorders	
NTP 675	Special Topics (Functional Brain Imaging of Cognitive Disorders)	
NTP 675	Special Topics (Molecular Mechanisms of Brain Damage)	
NTP 675	Special Topics (Trauma and Physiology Therapy)	
NTP 675	Special Topics (Neuroendocrinology)	
NTP 675	Special Topics (Brain Mapping in Health and Disease: Applications)	
NTP 677	Basic Sleep Mechanisms and Sleep Disorders: from Neurobiology to Sleep Medicine	
PHM SCI 310	Drugs and Their Actions	
PHM SCI 521	Pharmacology I	
PHM SCI 632	Neuroscience of Psychedelics	
PSYCH 406	Psychology of Perception	
PSYCH 414	Cognitive Psychology	
PSYCH 505	Depth Topic in Biological Science (Cognitive Neuroscience: Bridging Mind and Brain)	
PSYCH 505	Depth Topic in Biological Science (Learning and Decision-Making)	
PSYCH 513	Hormones, Brain, and Behavior	
PSYCH 601	Current Topics in Psychology (Neural Basis of Cognitive Control)	
PSYCH 601	Current Topics in Psychology (Neuropsychology and Development)	
PSYCH 601	Current Topics in Psychology (The Neuropsychology of Vision)	
PSYCH 603	Epigenetics and the Brain	
PSYCH 612	Neuropharmacology	
ZOOLOGY 400	Topics in Biology (Brain Communication & Evolution)	
ZOOLOGY 400	Topics in Biology (Music and the Brain)	
ZOOLOGY 400	Topics in Biology (Neuroscience and Society)	
ZOOLOGY 400	Topics in Biology (Neural Movement Health & Disease)	
ZOOLOGY 400	Topics in Biology (Neuroanatomy and Systems)	
ZOOLOGY 444	Neuronal Cell Biology in Health and Disease	
ZOOLOGY 403	Endocrinology	
ZOOLOGY 470	Introduction to Animal Development [1]	
ZOOLOGY 555	Laboratory in Developmental Biology	

ZOOLOGY 604	Computer-based Gene and Disease/Disorder Research Lab
ZOOLOGY 611	Comparative and Evolutionary Physiology
ZOOLOGY/ ANTHRO/ PSYCH 619	Biology of Mind
ZOOLOGY 620	Neuroethology Seminar
ZOOLOGY 655	Modeling Neurodevelopmental Disease
ZOOLOGY/ NEURODPT/ PSYCH 674	Behavioral Neuroendocrinology Seminar

Lab/Research Experience

Students are only required to take 1 of the 3 options below; Directed Study (recommended), Neuroscience Laboratory Course or Honors/Senior Thesis.

Code	Title	Credits
1. Directed Study—3 credits from: [2]		
ANATOMY 699	Independent Study	
ANESTHES 699	Independent Study	
BIOCHEM 699	Special Problems	
BIOLOGY 699	Directed Studies	
B M E 399	Independent Study	
BMOLCHEM 699	Special Research Problems	
CBE 699	Advanced Independent Studies	
CHEM 699	Directed Study	
COMP BIO 699	Directed Study	
CRB 699	Independent Study	
CS&D 699	Directed Study	
ED PSYCH 470	Research Experience in Educational Psychology	
ED PSYCH 699	Independent Reading Undergrad	
FAM MED 699	Directed Study	
GENETICS 699	Special Problems	
H ONCOL 699	Independent Study in Human Cancer Biology	
KINES 399	Independent Study	
KINES 699	Independent Study	
MED PHYS 699	Independent Reading or Research	
MEDICINE 699	Independent Study	
MED SC-V 669	Small Animal Cardiology Rotation	
M M & I 699	Directed Study	
MOL BIOL 699	Directed Studies in Molecular Biology	
NEURSURG 699	Neurosurgery: Directed in Study in Research	
NEUROL 699	Directed Research in Neurology	
NEURODPT 699	Directed Study	
NUTR SCI 699	Special Problems	
OBS&GYN 699	Directed Study	
ONCOLOGY 699	Special Research Problems	
OPHTHALM 699	Directed Study	
PATH 699	Independent Study	
PATH-BIO 699	Directed Study	
PEDIAT 699	Independent Study	
PHMCOL-M 699	Independent Study	
PHM SCI 699	Advanced Independent Study	
PHYSIOL 699	Independent Work	
POP HLTH 699	Independent Reading	
PSYCH 621	Mentored Research and Seminar	
PSYCH 699	Directed Study	
PSYCHIAT 699	Independent Study	
SURGERY 699	Independent Study	
SURG SCI 699	Directed Study	
ZOOLOGY 699	Directed Studies in Zoology	
2. Neuroscience Laboratory Course—one course:		
ANAT&PHY 435	Fundamentals of Human Physiology	
BIOCORE 486	Principles of Physiology Laboratory	
NTP/ NEURODPT 640	Computational Neuroscience: From Single Cells to Whole Brain Models	
ZOOLOGY 555	Laboratory in Developmental Biology	
ZOOLOGY 604	Computer-based Gene and Disease/Disorder Research Lab	
ZOOLOGY 612	Comparative Physiology Laboratory	
3. Honors/Senior Thesis (two semesters):		
ZOOLOGY 681 & ZOOLOGY 682	Senior Honors Thesis and Senior Honors Thesis	
ZOOLOGY 691 & ZOOLOGY 692	Senior Thesis and Senior Thesis	
B M E 389 & B M E 489	Honors in Research and Honors in Research	

Additional Electives (if needed)

Students may take additional credits from the list of Distributed Neuroscience Coursework, Independent/Directed study, or the following list, to attain 30 credits in the major:

Code	Title	Credits
ANAT&PHY 335	Physiology	
ANAT&PHY 337	Human Anatomy	
ANAT&PHY 338	Human Anatomy Laboratory	
AN SCI 362	Veterinary Genetics	
AN SCI/ DY SCI 434	Reproductive Physiology	
AN SCI 610	Quantitative Genetics	
BIOCHEM 507	General Biochemistry I	
BIOCHEM/ NUTR SCI 510	Nutritional Biochemistry and Metabolism	
BIOCHEM 601	Protein and Enzyme Structure and Function	
BIOCHEM/ GENETICS/ MICROBIO 612	Prokaryotic Molecular Biology	
BIOCHEM/ GENETICS/ MD GENET 620	Eukaryotic Molecular Biology	

BIOCHEM 625	Mechanisms of Action of Vitamins and Minerals
F&W ECOL/ ZOOLOGY 520	Ornithology
GENETICS 466	Principles of Genetics
GENETICS 545	Genetics Laboratory
GENETICS/ MD GENET 565	Human Genetics
GENETICS/ BIOCHEM/ MD GENET 620	Eukaryotic Molecular Biology
KINES 200	Introductory Neuroscience
KINES 227	Introduction to Clinical Anatomy of Human Movement
KINES 314	Physiology of Exercise
M M & I 301	Pathogenic Bacteriology
M M & I 341	Immunology
M M & I/ENTOM/ PATH-BIO/ ZOOLOGY 350	Parasitology
M M & I/ BIOCHEM 575	Biology of Viruses
MICROBIO 303	Biology of Microorganisms
MICROBIO 304	Biology of Microorganisms Laboratory
MICROBIO 450	Diversity, Ecology and Evolution of Microorganisms
MICROBIO 470	Microbial Genetics & Molecular Machines
MICROBIO/ SOIL SCI 523	Soil Microbiology and Biochemistry
MICROBIO 526	Physiology of Microorganisms
MICROBIO 527	Advanced Laboratory Techniques in Microbiology
MICROBIO 551	Capstone Research Project in Microbiology
PATH-BIO/ M M & I 528	Immunology
PL PATH/M M & I/ ONCOLOGY 640	General Virology-Multiplication of Viruses
MICROBIO/ BMOLCHEM 668	Microbiology at Atomic Resolution
NTP/NEURODPT/ PSYCH 611	Systems Neuroscience
NTP 660	Neuroscience & Public Policy Seminar
NUTR SCI 431	Nutrition in the Life Span
NUTR SCI 631	Clinical Nutrition I
ONCOLOGY 401	Introduction to Experimental Oncology
ONCOLOGY/ M M & I/ PL PATH 640	General Virology-Multiplication of Viruses
PHM SCI 558	Laboratory Techniques in Pharmacology and Toxicology
PSYCH 449	Animal Behavior
PSYCH 450	Primate Psychology: Insights into Human Behavior
PSYCH 505	Depth Topic in Biological Science (Comparative Psychology: What Animals Think)
ZOOLOGY/ ANTHRO/ BOTANY 410	Evolutionary Biology
ZOOLOGY 425	Behavioral Ecology
ZOOLOGY 430	Comparative Anatomy of Vertebrates
ZOOLOGY 470	Introduction to Animal Development
ZOOLOGY/ GEOSCI 542	Invertebrate Paleontology
ZOOLOGY 570	Cell Biology

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all major courses
- 2.000 GPA on 15 upper-level major credits, taken in residence[3]
- 15 credits in in the major, taken on the UW–Madison campus

HONORS IN THE MAJOR

Students may declare Honors in the Neurobiology Major in consultation with their Neurobiology undergraduate advisor.

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major in Neurobiology, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA for all major courses
- Complete 14 credits, taken for Honors, with individual grades of B or better, while in residence, to include:
  - Two courses from PSYCH 454, ZOOLOGY/PSYCH 523, and ZOOLOGY 500
  - One course from the Distributed Neuroscience course lists (above), taken for honors credit
  - A two-semester Senior Honors Thesis, for a total of 6 credits, from:

Code	Title	Credits
BIOCHEM 681 & BIOCHEM 682	Senior Honors Thesis and Senior Honors Thesis	
BIOLOGY 681 & BIOLOGY 682	Senior Honors Thesis and Senior Honors Thesis	
B M E 389 & B M E 489	Honors in Research and Honors in Research	
CHEM 681 & CHEM 682	Senior Honors Thesis and Senior Honors Thesis	
CS&D 681 & CS&D 682	Senior Honors Thesis and Senior Honors Thesis	
GENETICS 681 & GENETICS 682	Senior Honors Thesis and Senior Honors Thesis	

H ONCOL 681 & H ONCOL 682	Senior Honors Thesis in Human Oncology 1 and Senior Honors Thesis in Human Oncology 2
NUTR SCI 681 & NUTR SCI 682	Senior Honors Thesis and Senior Honors Thesis
PSYCH 681 & PSYCH 682	Senior Honors Thesis and Senior Honors Thesis
ZOOLOGY 681 & ZOOLOGY 682	Senior Honors Thesis and Senior Honors Thesis

FOOTNOTES

1 Students may apply only one course toward the DNS elective requirement

2 Only Directed Study courses taken **after**—and not concurrent with—the completion of an Introductory Biology sequence are accepted in the major.

3 Courses accepted in the major that are Intermediate or Advanced are considered upper-level in this major.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Demonstrate understanding of basic concepts in biology, chemistry, mathematics, statistics, and physics.
2. Demonstrate understanding of the ionic basis for the neuronal membrane potential and action potential, and as well as the factors that determine neuronal excitability.
3. Demonstrate understanding of the basic mechanisms for synaptic transmission, neurotransmitter release, postsynaptic effects, and modulation of pre- and postsynaptic mechanisms. Predict how specific physiological and pathological conditions alter neuronal function at the cellular and synaptic levels.
4. Differentiate between examples of neuroplasticity at cellular, systems, and organismal levels.
5. Demonstrate understanding of central and peripheral neuroanatomy, basic functions of brain regions, and well-known neural pathways. Predict how localized disruptions of neuronal function alter behavior, motor function, or perception.
6. Demonstrate understanding of basic principles underlying motor function, sensory function (auditory, visual, touch, taste), emotion, autonomic regulation, and higher order cognitive functions (language, memory, attention, decision-making).
7. Demonstrate how experimental tools in neuroscience are used to address experimental questions, such as intra/extracellular recording, molecular biology techniques, immunohistochemical staining, fluorescent and electron microscopy, genetic manipulation, brain imaging, behavioral testing.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

The grid below is a suggested plan for finishing your Neurobiology major in 4 years. Please see an advisor for more information, as you may have completed some of the requirements listed.

Freshman

Fall	Credits	Spring	Credits
Communication A	3	Ethnic Studies	3
Quantitative Reasoning A	3	MATH 221	5
Language (if required)	4	L&S Breadth	3
CHEM 103 or 109	4	CHEM 104	5
	14		**16**

Sophomore

Fall	Credits	Spring	Credits
BIOLOGY/BOTANY/ ZOOLOGY 151[1]	5	BIOLOGY/BOTANY/ ZOOLOGY 152	5
CHEM 343	3	CHEM 345	3
INTER-LS 210 (optional)	1	Social Science Breadth	3
Social Science Breadth	3	PHYSICS 207[2]	5
	12		**16**

Junior

Fall	Credits	Spring	Credits
Declare the Major[3]		PSYCH 454	3-4
ZOOLOGY/PSYCH 523	3	Distributed Neuroscience Course	2-4
STAT 371	3	L&S Breadth	3
L&S Breadth	3	Elective	3
PHYSICS 208	5	Lab Research	3
Lab Research[4]	3		
	17		**16**

Senior

Fall	Credits	Spring	Credits
Distributed Neuroscience Course	3-4	ZOOLOGY 500	1
Social Science Breadth	3	Distributed Neuroscience Course	3
Electives	6	L&S Breadth	3
Lab Research	3	Social Science Breadth	3
		Lab Research	3
	16		**13**

Total Credits 120

1 There are several options for fulfilling the introductory biology requirement. See listed Requirements.

2 There are several options for fulfilling the Physics requirement. See listed Requirements.

3 Students must declare a major by the time they reach 86 credits.

[4] It is recommended that students in the Neurobiology major participate in multiple semesters of research.

ADVISING AND CAREERS

ADVISING AND CAREERS

DECLARE OR CANCEL THIS MAJOR

You must first make an appointment to meet with a Neurobiology advisor; use the Starfish link for the advisor based on your last name.

Students majoring in Neurobiology may not combine this major with the Biology major in either the College of Agricultural and Life Sciences or in the College of Letters and Science.

Students with last names beginning with A-Kh, see Bob Wiedenhoeft.
Students with last names beginning with Ki-N, see Catherine Auger.
Students with last names beginning with O-Z, see India Viola.

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

NEUROBIOLOGY, BS

Neuroscience is the scientific study of the central (brain and spinal cord) and peripheral (nerves in body) nervous system. The Neurobiology major provides a rigorous education in neuroscience principles that prepares students for health-related, academic, and careers in health-related and scientific industries. Some of our graduates go on to consulting firms, law school, and nonprofit organizations. UW–Madison has more than 90 faculty engaged in neuroscience research. Undergraduates have access to this research faculty in formal classroom environments and through undergraduate research opportunities. Please see the Neurobiology major (https://neuromajor.wisc.edu) website for more information.
See what graduates of the Neurobiology major are doing now (https://neuromajor.wisc.edu/wp-content/uploads/sites/14/2024/03/Skills-and-Outcomes-NEUROBIOLOGY-major.pdf).

UNDERGRADUATE RESEARCH

Undergraduate Neurobiology students are fortunate to have the opportunity to work with some of the world's leading researchers. Many opportunities for laboratory research experience (https://neuromajor.wisc.edu/research/) are available on campus for undergraduate students, and this type of experience is strongly encouraged. Such an experience provides students the opportunity to apply what they're learning and complement their knowledge with practical skills. Research experience is highly valued by employers, graduate programs, and professional schools.

ABOUT THE CURRICULUM

The curriculum is designed to give students a solid foundation in basic biology, chemistry, physics, and mathematics before going on to study neuroscience at the molecular, cellular, systems, and cognitive levels. It is strongly encouraged that students engage in independent research in a neuroscience laboratory on campus. The Neurobiology Major Steering Committee is committed to increasing opportunities for all students with interests in neuroscience and helping students accomplish their academic goals at UW–Madison. This major is tailored to attract students from a diverse array of backgrounds.

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are eligible to declare. For information on how to declare, visit Advising & Careers.
Courses required to get in	None
GPA requirements to get in	None
Credits required to get in	None
Other	None

Students who intend to major in Neurobiology may not combine this major ("double major") with the Biology major.

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. Some courses satisfy more than one L&S degree requirement (visit College of Letters & Science: Requirements (https://guide.wisc.edu/undergraduate/letters-science/#requirementstext) for details).

This major can be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Communication	Complete both: • Part A: one course with the Communication A designation or eligible UW Placement Score; and • Part B: one course with the Communication B designation

Quantitative Reasoning	Complete both: • Part A: one course with the Quantitative Reasoning A designation or eligible UW Placement Score; and • Part B: one course with the Quantitative Reasoning B designation
Ethnic Studies	one 3+ credit course with the Ethnic Studies designation
Language	the third unit of a language other than English
Mathematics	Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.
L&S Breadth: Humanities	Complete 12 credits with the Humanities or Literature designation, which must include at least 6 credits with the Literature designation.
L&S Breadth: Social Sciences	Complete 12 credits with the Social Science designation.
L&S Breadth: Natural Sciences	Complete 12 credits, which must include both: • 6 credits with the Biological Science designation, and • 6 credits with the Physical Science designation.
Liberal Arts and Science (LAS) Coursework	at least 108 credits
Depth of Intermediate/ Advanced Coursework	at least 60 credits at the Intermediate or Advanced level
Major	Declare and complete at least one major.
Total Credits	at least 120 credits
UW-Madison Experience	• 30 credits in residence, overall, and • 30 credits in residence after the 86th credit
Quality of Work	• 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their School/College to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

MATH, STATISTICS, CHEMISTRY & PHYSICS

Code	Title	Credits
Mathematics -complete one of the following:		**5**
MATH 211	Survey of Calculus 1	
MATH 221	Calculus and Analytic Geometry 1	
Statistics -complete one of the following:		**3**
STAT 371	Introductory Applied Statistics for the Life Sciences	
STAT 340	Data Science Modeling II	
STAT/B M I 541	Introduction to Biostatistics	
General Chemistry -complete one option:		**5-9**
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	
CHEM 109	Advanced General Chemistry	
CHEM 115 & CHEM 116	Chemical Principles I and Chemical Principles II	
Organic Chemistry -complete one of the following:		**3-6**
CHEM 341	Elementary Organic Chemistry	
CHEM 343 & CHEM 345	Organic Chemistry I and Organic Chemistry II	
Physics - Choose a first and second semester physics option		**8-10**
First Semester General Physics Course - complete one course		
PHYSICS 103	General Physics	
PHYSICS 201	General Physics	
PHYSICS 207	General Physics	
PHYSICS 247	A Modern Introduction to Physics	
Second Semester General Physics Course - complete one course		
PHYSICS 104	General Physics	
PHYSICS 202	General Physics	
PHYSICS 208	General Physics	
PHYSICS 248	A Modern Introduction to Physics	
Total Credits		**24-33**

BIOLOGY AND NEUROBIOLOGY

Complete 30 credits from General Biology, Neurobiology, Lab/Research Experience and Additional Elective (if required) sections.

General Biology

Code	Title	Credits
Choose one option:		
Option A, Introductory Biology		*10*
ZOOLOGY/ BIOLOGY/ BOTANY 151	Introductory Biology	
ZOOLOGY/ BIOLOGY/ BOTANY 152	Introductory Biology	
Option B, Biology Core Curriculum		*16-18*
BIOCORE 381	Evolution, Ecology, and Genetics	
BIOCORE 383	Cellular Biology	
BIOCORE 485	Principles of Physiology	
BIOCORE 587	Biological Interactions	
Plus two from:		
BIOCORE 382	Evolution, Ecology, and Genetics Laboratory	
BIOCORE 384	Cellular Biology Laboratory	
BIOCORE 486	Principles of Physiology Laboratory	
Option C, Animal Biology		*10*
ZOOLOGY/ BIOLOGY 101	Animal Biology	

ZOOLOGY/ BIOLOGY 102	Animal Biology Laboratory
BOTANY/ BIOLOGY 130	General Botany

Neurobiology

Code	Title	Credits
Required Neurobiology Courses -complete all three		
ZOOLOGY/ PSYCH 523	Neurobiology	3
PSYCH 454	Behavioral Neuroscience	3
ZOOLOGY 500	Undergraduate Neurobiology Seminar	1
Distributed Neuroscience Coursework—complete 3 courses. Only one footnoted course may apply to this requirement.		**9**
ANAT&PHY 335	Physiology [1]	
ANAT&PHY 435	Fundamentals of Human Physiology [1]	
AN SCI/ DY SCI 373	Animal Physiology [1]	
BIOCHEM 501	Introduction to Biochemistry [1]	
BIOCHEM 508	General Biochemistry II [1]	
BIOCHEM/ NUTR SCI 645	Molecular Control of Metabolism and Metabolic Disease [1]	
B M E 520	Stem Cell Bioengineering [1]	
B M E 603	Special Topics in Bioinstrumentation and Medical Devices (Introduction to Neuroengineering)	
CS&D 210	Neural Basis of Communication	
CS&D 503	Neural Mechanisms of Speech, Hearing and Language	
ED PSYCH 326	Mind, Brain and Education	
ED PSYCH 506	Contemporary Issues in Educational Psychology (Brain & Behavioral Development)	
ED PSYCH 506	Contemporary Issues in Educational Psychology (Development Cognitive Neursci)	
ED PSYCH 506	Contemporary Issues in Educational Psychology (Ed Neuroscience and Creativity)	
GENETICS 520	Neurogenetics	
GENETICS/ NEURODPT 650	Functional Genomics of Brain Disorders	
KINES 531	Neural Control of Movement	
MED PHYS 651	Methods for Neuroimaging Research	
NEURODPT 629	Molecular and Cellular Mechanisms of Memory	
NTP/ NEURODPT 610	Cellular and Molecular Neuroscience	
NTP/NEURODPT/ PSYCH 611	Systems Neuroscience	
NTP/ NEURODPT 640	Computational Neuroscience: From Single Cells to Whole Brain Models	
NTP 666	Neuroscience of Consciousness and its Disorders	
NTP 675	Special Topics (Functional Brain Imaging of Cognitive Disorders)	
NTP 675	Special Topics (Molecular Mechanisms of Brain Damage)	
NTP 675	Special Topics (Trauma and Physiology Therapy)	
NTP 675	Special Topics (Neuroendocrinology)	
NTP 675	Special Topics (Brain Mapping in Health and Disease: Applications)	
NTP 677	Basic Sleep Mechanisms and Sleep Disorders: from Neurobiology to Sleep Medicine	
PHM SCI 310	Drugs and Their Actions	
PHM SCI 521	Pharmacology I	
PHM SCI 632	Neuroscience of Psychedelics	
PSYCH 406	Psychology of Perception	
PSYCH 414	Cognitive Psychology	
PSYCH 505	Depth Topic in Biological Science (Cognitive Neuroscience: Bridging Mind and Brain)	
PSYCH 505	Depth Topic in Biological Science (Learning and Decision-Making)	
PSYCH 513	Hormones, Brain, and Behavior	
PSYCH 601	Current Topics in Psychology (Neural Basis of Cognitive Control)	
PSYCH 601	Current Topics in Psychology (Neuropsychology and Development)	
PSYCH 601	Current Topics in Psychology (The Neuropsychology of Vision)	
PSYCH 603	Epigenetics and the Brain	
PSYCH 612	Neuropharmacology	
ZOOLOGY 400	Topics in Biology (Brain Communication & Evolution)	
ZOOLOGY 400	Topics in Biology (Music and the Brain)	
ZOOLOGY 400	Topics in Biology (Neuroscience and Society)	
ZOOLOGY 400	Topics in Biology (Neural Movement Health & Disease)	
ZOOLOGY 400	Topics in Biology (Neuroanatomy and Systems)	
ZOOLOGY 444	Neuronal Cell Biology in Health and Disease	
ZOOLOGY 403	Endocrinology	
ZOOLOGY 470	Introduction to Animal Development [1]	
ZOOLOGY 555	Laboratory in Developmental Biology	
ZOOLOGY 604	Computer-based Gene and Disease/Disorder Research Lab	
ZOOLOGY 611	Comparative and Evolutionary Physiology	

ZOOLOGY/ ANTHRO/ PSYCH 619	Biology of Mind
ZOOLOGY 620	Neuroethology Seminar
ZOOLOGY 655	Modeling Neurodevelopmental Disease
ZOOLOGY/ NEURODPT/ PSYCH 674	Behavioral Neuroendocrinology Seminar

Lab/Research Experience

Students are only required to take 1 of the 3 options below; Directed Study (recommended), Neuroscience Laboratory Course or Honors/Senior Thesis.

Code	Title	Credits
1. Directed Study—3 credits from: [2]		
ANATOMY 699	Independent Study	
ANESTHES 699	Independent Study	
BIOCHEM 699	Special Problems	
BIOLOGY 699	Directed Studies	
B M E 399	Independent Study	
BMOLCHEM 699	Special Research Problems	
CBE 699	Advanced Independent Studies	
CHEM 699	Directed Study	
COMP BIO 699	Directed Study	
CRB 699	Independent Study	
CS&D 699	Directed Study	
ED PSYCH 470	Research Experience in Educational Psychology	
ED PSYCH 699	Independent Reading Undergrad	
FAM MED 699	Directed Study	
GENETICS 699	Special Problems	
H ONCOL 699	Independent Study in Human Cancer Biology	
KINES 399	Independent Study	
KINES 699	Independent Study	
MED PHYS 699	Independent Reading or Research	
MEDICINE 699	Independent Study	
MED SC-V 669	Small Animal Cardiology Rotation	
M M & I 699	Directed Study	
MOL BIOL 699	Directed Studies in Molecular Biology	
NEURSURG 699	Neurosurgery: Directed in Study in Research	
NEUROL 699	Directed Research in Neurology	
NEURODPT 699	Directed Study	
NUTR SCI 699	Special Problems	
OBS&GYN 699	Directed Study	
ONCOLOGY 699	Special Research Problems	
OPHTHALM 699	Directed Study	
PATH 699	Independent Study	
PATH-BIO 699	Directed Study	
PEDIAT 699	Independent Study	
PHMCOL-M 699	Independent Study	
PHM SCI 699	Advanced Independent Study	
PHYSIOL 699	Independent Work	
POP HLTH 699	Independent Reading	
PSYCH 621	Mentored Research and Seminar	
PSYCH 699	Directed Study	
PSYCHIAT 699	Independent Study	
SURGERY 699	Independent Study	
SURG SCI 699	Directed Study	
ZOOLOGY 699	Directed Studies in Zoology	
2. Neuroscience Laboratory Course—one course:		
ANAT&PHY 435	Fundamentals of Human Physiology	
BIOCORE 486	Principles of Physiology Laboratory	
NTP/ NEURODPT 640	Computational Neuroscience: From Single Cells to Whole Brain Models	
ZOOLOGY 555	Laboratory in Developmental Biology	
ZOOLOGY 604	Computer-based Gene and Disease/Disorder Research Lab	
ZOOLOGY 612	Comparative Physiology Laboratory	
3. Honors/Senior Thesis (two semesters):		
ZOOLOGY 681 & ZOOLOGY 682	Senior Honors Thesis and Senior Honors Thesis	
ZOOLOGY 691 & ZOOLOGY 692	Senior Thesis and Senior Thesis	
B M E 389 & B M E 489	Honors in Research and Honors in Research	

Additional Electives (if needed)

Students may take additional credits from the list of Distributed Neuroscience Coursework, Independent/Directed study, or the following list, to attain 30 credits in the major:

Code	Title	Credits
ANAT&PHY 335	Physiology	
ANAT&PHY 337	Human Anatomy	
ANAT&PHY 338	Human Anatomy Laboratory	
AN SCI 362	Veterinary Genetics	
AN SCI/ DY SCI 434	Reproductive Physiology	
AN SCI 610	Quantitative Genetics	
BIOCHEM 507	General Biochemistry I	
BIOCHEM/ NUTR SCI 510	Nutritional Biochemistry and Metabolism	
BIOCHEM 601	Protein and Enzyme Structure and Function	
BIOCHEM/ GENETICS/ MICROBIO 612	Prokaryotic Molecular Biology	
BIOCHEM/ GENETICS/ MD GENET 620	Eukaryotic Molecular Biology	
BIOCHEM 625	Mechanisms of Action of Vitamins and Minerals	
F&W ECOL/ ZOOLOGY 520	Ornithology	
GENETICS 466	Principles of Genetics	

GENETICS 545	Genetics Laboratory
GENETICS/ MD GENET 565	Human Genetics
GENETICS/ BIOCHEM/ MD GENET 620	Eukaryotic Molecular Biology
KINES 200	Introductory Neuroscience
KINES 227	Introduction to Clinical Anatomy of Human Movement
KINES 314	Physiology of Exercise
M M & I 301	Pathogenic Bacteriology
M M & I 341	Immunology
M M & I/ENTOM/ PATH-BIO/ ZOOLOGY 350	Parasitology
M M & I/ BIOCHEM 575	Biology of Viruses
MICROBIO 303	Biology of Microorganisms
MICROBIO 304	Biology of Microorganisms Laboratory

MICROBIO/ BMOLCHEM 668	Microbiology at Atomic Resolution
NTP/NEURODPT/ PSYCH 611	Systems Neuroscience
NTP 660	Neuroscience & Public Policy Seminar
NUTR SCI 431	Nutrition in the Life Span
NUTR SCI 631	Clinical Nutrition I
ONCOLOGY 401	Introduction to Experimental Oncology
ONCOLOGY/ M M & I/ PL PATH 640	General Virology-Multiplication of Viruses
PHM SCI 558	Laboratory Techniques in Pharmacology and Toxicology
PSYCH 449	Animal Behavior
PSYCH 450	Primate Psychology: Insights into Human Behavior
PSYCH 505	Depth Topic in Biological Science (Comparative Psychology: What Animals Think)
ZOOLOGY/ ANTHRO/ BOTANY 410	Evolutionary Biology
ZOOLOGY 425	Behavioral Ecology
ZOOLOGY 430	Comparative Anatomy of Vertebrates
ZOOLOGY 470	Introduction to Animal Development
ZOOLOGY/ GEOSCI 542	Invertebrate Paleontology
ZOOLOGY 570	Cell Biology

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all major courses
- 2.000 GPA on 15 upper-level major credits, taken in residence[3]
- 15 credits in in the major, taken on the UW–Madison campus

HONORS IN THE MAJOR

Students may declare Honors in the Neurobiology Major in consultation with their Neurobiology undergraduate advisor.

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major in Neurobiology, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA for all major courses
- Complete 14 credits, taken for Honors, with individual grades of B or better, while in residence, to include:
  - Two courses from PSYCH 454, ZOOLOGY/PSYCH 523, and ZOOLOGY 500
  - One course from the Distributed Neuroscience course lists (above), taken for honors credit
  - A two-semester Senior Honors Thesis, for a total of 6 credits, from:

Code	Title	Credits
BIOCHEM 681 & BIOCHEM 682	Senior Honors Thesis and Senior Honors Thesis	
BIOLOGY 681 & BIOLOGY 682	Senior Honors Thesis and Senior Honors Thesis	
B M E 389 & B M E 489	Honors in Research and Honors in Research	
CHEM 681 & CHEM 682	Senior Honors Thesis and Senior Honors Thesis	
CS&D 681 & CS&D 682	Senior Honors Thesis and Senior Honors Thesis	
GENETICS 681 & GENETICS 682	Senior Honors Thesis and Senior Honors Thesis	
H ONCOL 681 & H ONCOL 682	Senior Honors Thesis in Human Oncology 1 and Senior Honors Thesis in Human Oncology 2	
NUTR SCI 681 & NUTR SCI 682	Senior Honors Thesis and Senior Honors Thesis	

PSYCH 681 & PSYCH 682	Senior Honors Thesis and Senior Honors Thesis
ZOOLOGY 681 & ZOOLOGY 682	Senior Honors Thesis and Senior Honors Thesis

FOOTNOTES

1 Students may apply only one course toward the DNS elective requirement

2 Only Directed Study courses taken **after**—and not concurrent with—the completion of an Introductory Biology sequence are accepted in the major.

3 Courses accepted in the major that are Intermediate or Advanced are considered upper-level in this major.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Demonstrate understanding of basic concepts in biology, chemistry, mathematics, statistics, and physics.
2. Demonstrate understanding of the ionic basis for the neuronal membrane potential and action potential, and as well as the factors that determine neuronal excitability.
3. Demonstrate understanding of the basic mechanisms for synaptic transmission, neurotransmitter release, postsynaptic effects, and modulation of pre- and postsynaptic mechanisms. Predict how specific physiological and pathological conditions alter neuronal function at the cellular and synaptic levels.
4. Differentiate between examples of neuroplasticity at cellular, systems, and organismal levels.
5. Demonstrate understanding of central and peripheral neuroanatomy, basic functions of brain regions, and well-known neural pathways. Predict how localized disruptions of neuronal function alter behavior, motor function, or perception.
6. Demonstrate understanding of basic principles underlying motor function, sensory function (auditory, visual, touch, taste), emotion, autonomic regulation, and higher order cognitive functions (language, memory, attention, decision-making).
7. Demonstrate how experimental tools in neuroscience are used to address experimental questions, such as intra/extracellular recording, molecular biology techniques, immunohistochemical staining, fluorescent and electron microscopy, genetic manipulation, brain imaging, behavioral testing.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

The grid below is a suggested plan for finishing your Neurobiology major in 4 years. Please see an advisor for more information, as you may have completed some of the requirements listed.

Freshman

Fall	Credits	Spring	Credits
Communication A	3	Ethnic Studies	3
Quantitative Reasoning A	3	MATH 221	5
Language (if required)	4	L&S Breadth	3
CHEM 103 or 109	4	CHEM 104	5
	14		**16**

Sophomore

Fall	Credits	Spring	Credits
BIOLOGY/BOTANY/ ZOOLOGY 151[1]	5	BIOLOGY/BOTANY/ ZOOLOGY 152	5
CHEM 343	3	CHEM 345	3
INTER-LS 210 (optional)	1	Social Science Breadth	3
Social Science Breadth	3	PHYSICS 207[2]	5
	12		**16**

Junior

Fall	Credits	Spring	Credits
Declare the Major[3]		PSYCH 454	3-4
ZOOLOGY/PSYCH 523	3	Distributed Neuroscience Course	2-4
STAT 371	3	L&S Breadth	3
L&S Breadth	3	Elective	3
PHYSICS 208	5	Lab Research	3
Lab Research[4]	3		
	17		**16**

Senior

Fall	Credits	Spring	Credits
Distributed Neuroscience Course	3-4	ZOOLOGY 500	1
Social Science Breadth	3	Distributed Neuroscience Course	3
Electives	6	L&S Breadth	3
Lab Research	3	Social Science Breadth	3
		Lab Research	3
	16		**13**

Total Credits 120

1 There are several options for fulfilling the introductory biology requirement. See listed Requirements.

2 There are several options for fulfilling the Physics requirement. See listed Requirements.

3 Students must declare a major by the time they reach 86 credits.

4 It is recommended that students in the Neurobiology major participate in multiple semesters of research.

ADVISING AND CAREERS

ADVISING AND CAREERS

DECLARE OR CANCEL THIS MAJOR

You must first make an appointment to meet with a Neurobiology advisor; use the Starfish link for the advisor based on your last name.

Students majoring in Neurobiology may not combine this major with the Biology major in either the College of Agricultural and Life Sciences or in the College of Letters and Science.

Students with last names beginning with A-Kh, see Bob Wiedenhoeft.
Students with last names beginning with Ki-N, see Catherine Auger.
Students with last names beginning with O-Z, see India Viola.

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

ZOOLOGY, BA

The Zoology major is a gateway to the diverse areas of modern biology with a focus on animal biology. Students can focus on various areas in biological science, including:

- ecology, evolution, and animal behavior;
- anatomy, physiology, and organismal biology;
- and cellular, molecular, and developmental biology.

Students in Zoology learn about aquatic ecosystems, vertebrate anatomy, identifying various birds, and the development of animals.

The department encourages undergraduate participation in research and offers summer research scholarships (https://integrativebiology.wisc.edu/undergraduate-student-scholarships/) to outstanding students.

The Zoology major emphasizes critical thinking and conceptual skills that come from an understanding of how scientific information is obtained and evaluated, and of how this information can be applied to societal issues. The major provides a solid foundation in genetic, cellular, physiological, ecological, and evolutionary principles, and in the related disciplines of chemistry, physics, and mathematics. As a result, the major fosters an understanding of biological complexity including the interrelationships among humans and natural systems.

The unique characteristics of the Zoology major include:

- broad-based, yet integrated training in wide-ranging areas of biology;
- solid foundation of basic principles and processes in biology;
- flexibility and advising needed to allow students to tailor the major to their specific goals; and
- wide range of opportunities for undergraduate involvement in independent research and senior thesis.

The major can be tailored to prepare students for advanced study and careers in many different areas: veterinary medicine; health professions and public health; law; life sciences research in university, government, and industrial settings; education including museum, nature center, secondary and college education; biotechnology; and environmental studies.

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are eligible to declare. For information on how to declare, visit Advising & Careers.
Courses required to get in	None
GPA requirements to get in	None
Credits required to get in	None
Other	None

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communication & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a Bachelor of Arts degree in the College of Letters & Science must complete all of the requirements below. Some courses satisfy more than one L&S degree requirement (visit College of Letters & Science: Requirements (https://guide.wisc.edu/undergraduate/letters-science/#requirementstext) for details).

This major can be paired with either the Bachelor of Arts or Bachelor of Science degree requirements.

BACHELOR OF ARTS DEGREE REQUIREMENTS

Communication	Complete both: • Part A: one course with the Communication A designation or eligible UW Placement Score; and • Part B: one course with the Communication B designation

Quantitative Reasoning	Complete both: • Part A: one course with the Quantitative Reasoning A designation or eligible UW Placement Score; and • Part B: one course with the Quantitative Reasoning B designation
Ethnic Studies	one 3+ credit course with the Ethnic Studies designation
Language	Complete either: • the fourth unit of one language other than English; or • the third unit of one language other than English and the second unit of an additional language.
L&S Breadth: Humanities	Complete 12 credits with the Humanities or Literature designation, which must include at least 6 credits with the Literature designation.
L&S Breadth: Social Sciences	Complete 12 credits with the Social Science designation.
L&S Breadth: Natural Sciences	Complete 12 credits with the Natural Science, Biological Science, or Physical Science designations, which must include both: • one 3+ credit course with the Biological Science designation, and • one 3+ credit course with the Physical Science designation.
Liberal Arts and Science (LAS) Coursework	at least 108 credits
Depth of Intermediate/ Advanced work	at least 60 credits at the Intermediate or Advanced level
Major	Declare and complete at least one major.
Total Credits	at least 120 credits
UW-Madison Experience	• 30 credits in residence, overall; and • 30 credits in residence after the 86th credit
Quality of Work	• 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their School/College to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

MATH, CHEMISTRY & PHYSICS

Code	Title	Credits
Math—complete one:		**4-10**
MATH 112 & MATH 113	College Algebra and Trigonometry	
MATH 114	Precalculus	
MATH 211	Survey of Calculus 1	
Chemistry—complete one:		**5-9**
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	
CHEM 109	Advanced General Chemistry	
Physics—complete one:		**8-10**
PHYSICS 103 & PHYSICS 104	General Physics and General Physics	
PHYSICS 201 & PHYSICS 202	General Physics and General Physics	
PHYSICS 207 & PHYSICS 208	General Physics and General Physics	
Total Credits		**17-29**

BIOLOGY AND ZOOLOGY

Complete 30 credits from the sections below.

Introductory Biology

Code	Title	Credits
Option 1: Introductory Biology		**10**
ZOOLOGY/ BIOLOGY/ BOTANY 151 & ZOOLOGY/ BIOLOGY/ BOTANY 152	Introductory Biology and Introductory Biology	
Option 2: BIOCORE—complete both:		**10**
BIOCORE 381 & BIOCORE 382	Evolution, Ecology, and Genetics and Evolution, Ecology, and Genetics Laboratory	
BIOCORE 383 & BIOCORE 384	Cellular Biology and Cellular Biology Laboratory	
Option 3: Animal Biology [1]		**5**
ZOOLOGY/ BIOLOGY 101 & ZOOLOGY/ BIOLOGY 102	Animal Biology and Animal Biology Laboratory	
Total Credits		**5-10**

[1] BOTANY/BIOLOGY 130 is recommended, but not required for students pursuing Option 3 (Animal Biology).

Electives

Code	Title	Credits
ZOOLOGY 299	Directed Studies in Zoology	
ZOOLOGY 300	Invertebrate Biology and Evolution	
ZOOLOGY 301	Invertebrate Biology and Evolution Lab	
ZOOLOGY/ ENTOM 302	Introduction to Entomology	
ZOOLOGY 303	Aquatic Invertebrate Biology	
ZOOLOGY 304	Marine Biology	
ZOOLOGY/ ENVIR ST 315	Limnology-Conservation of Aquatic Resources	

ZOOLOGY 316	Laboratory for Limnology-Conservation of Aquatic Resources
ZOOLOGY 320	Field Marine Biology
ZOOLOGY 335	Human/Animal Relationships: Biological and Philosophical Issues
ZOOLOGY/ ENTOM/M M & I/ PATH-BIO 350	Parasitology
ZOOLOGY/ ENVIR ST/ F&W ECOL 360	Extinction of Species
ZOOLOGY 370	General Molecular Biology
ZOOLOGY/ ENTOM 371	Medical Entomology: Biology of Vector and Vector-borne Diseases
ZOOLOGY 403	Endocrinology
ZOOLOGY 400	Topics in Biology
ZOOLOGY 401	Topics in Biology
ZOOLOGY 405	Introduction to Museum Studies in the Natural Sciences
ZOOLOGY/ ANTHRO/ BOTANY 410	Evolutionary Biology
ZOOLOGY 415	Genetics of Human History
ZOOLOGY 425	Behavioral Ecology
ZOOLOGY 430	Comparative Anatomy of Vertebrates
ZOOLOGY/ BOTANY 450	Midwestern Ecological Issues: A Case Study Approach
ZOOLOGY/ BOTANY 460	General Ecology
ZOOLOGY 470	Introduction to Animal Development
ZOOLOGY/ BOTANY/ ENTOM 473	Plant-Insect Interactions
ZOOLOGY 500	Undergraduate Neurobiology Seminar
ZOOLOGY/ ENVIR ST 510	Ecology of Fishes
ZOOLOGY/ ENVIR ST 511	Ecology of Fishes Lab
ZOOLOGY/ BOTANY/ ENVIR ST/ F&W ECOL 516	Conservation Biology
ZOOLOGY/ F&W ECOL 520	Ornithology
ZOOLOGY/ F&W ECOL 521	Birds of Southern Wisconsin
ZOOLOGY/ PSYCH 523	Neurobiology
ZOOLOGY/ GEOSCI 542	Invertebrate Paleontology
ZOOLOGY 555	Laboratory in Developmental Biology
ZOOLOGY/ F&W ECOL/ LAND ARC 565	Principles of Landscape Ecology
ZOOLOGY 570	Cell Biology
ZOOLOGY 604	Computer-based Gene and Disease/Disorder Research Lab
ZOOLOGY 611	Comparative and Evolutionary Physiology
ZOOLOGY 612	Comparative Physiology Laboratory
ZOOLOGY/ ANTHRO/ PSYCH 619	Biology of Mind
ZOOLOGY 620	Neuroethology Seminar
ZOOLOGY/ ENTOM/ GENETICS 624	Molecular Ecology
ZOOLOGY 655	Modeling Neurodevelopmental Disease
ZOOLOGY/ F&W ECOL 660	Climate Change Ecology
ZOOLOGY/ BOTANY 672	Historical Ecology
ZOOLOGY/ NEURODPT/ PSYCH 674	Behavioral Neuroendocrinology Seminar
ZOOLOGY 677	Internship in Ecology
ZOOLOGY 681 & ZOOLOGY 682	Senior Honors Thesis and Senior Honors Thesis
ZOOLOGY 691 & ZOOLOGY 692	Senior Thesis and Senior Thesis
ZOOLOGY 698	Directed Study
ZOOLOGY 699	Directed Studies in Zoology
ANAT&PHY 335	Physiology [1]
ANAT&PHY 338	Human Anatomy Laboratory
ANTHRO 444	Primate Nutritional Ecology
ANTHRO 458	Primate Behavioral Ecology
ANTHRO 668	Primate Conservation
BIOCHEM 501	Introduction to Biochemistry
BIOCHEM 507	General Biochemistry I
BOTANY 330	Algae
ENTOM 331	Taxonomy of Mature Insects
ENTOM 450	Basic and Applied Insect Ecology
ENVIR ST/ LAND ARC 361	Wetlands Ecology
ENVIR ST 375	Field Ecology Workshop
F&W ECOL 306	Terrestrial Vertebrates: Life History and Ecology
F&W ECOL/ SURG SCI 548	Diseases of Wildlife
GENETICS 466	Principles of Genetics
GENETICS 545	Genetics Laboratory
MICROBIO 303	Biology of Microorganisms
MICROBIO 304	Biology of Microorganisms Laboratory
MICROBIO 345	Introduction to Disease Biology

M M & I 341	Immunology	
M M & I/PATH-BIO 528	Immunology	
PSYCH 449	Animal Behavior	
PSYCH 450	Primate Psychology: Insights into Human Behavior	
PSYCH 454	Behavioral Neuroscience	
PSYCH 513	Hormones, Brain, and Behavior	
Total Credits		**20-25**

A maximum of 6 credits of approved non-ZOOLOGY subject courses count toward the 30 credits required for the major. Students can take ZOOLOGY/BIOLOGY 101 Animal Biology and ZOOLOGY/BIOLOGY 102 Animal Biology Laboratory for the Introductory Biology requirement is recommended for students who complete this sequence.

[1] Only 3 credits of ANAT&PHY 335 Physiology count toward the 6 credits of approved non-ZOOLOGY subject courses.

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all ZOOLOGY and major courses
- 2.000 GPA on 15 Upper Level major credits, taken in Residence [1]
- 15 credits in ZOOLOGY, or courses that count for the major, taken on the UW–Madison campus

[1] ZOOLOGY 299–699, intermediate/advanced BIOCORE, and courses that count toward the major that have an intermediate/advanced designation are considered Upper Level in the major.

HONORS IN THE ZOOLOGY MAJOR

To earn Honors in the Major in Zoology, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA in all courses that count toward the major
- Complete 12 credits, taken for Honors, with individual grades of B or better. Select 6 credits from ZOOLOGY 300-680 or approved non-ZOOLOGY subject courses (above).
- Complete ZOOLOGY 681 and ZOOLOGY 682, for a total of 6 credits.[1]

[1] A written thesis proposal must be approved by the thesis mentor and a department advisor. While most theses are completed during the fall and spring of a student's senior year, other combinations of terms are possible. More information about the proposal process, timing, and grading of a thesis can be found on the Department of Integrative Biology website.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Connect and describe the concepts that make up the structure and function of all living things through the principles of genetics, cellular biology, and physiology.
2. Demonstrate an understanding of the diversity of life through the principles of evolution.
3. Make connections between organisms, their habitats, and systems through the principles of ecology.
4. Make connections between the biological sciences to humans and ecological systems and appreciate the complexity of these systems.
5. Identify, think through, and solve a problem using quantitative reasoning and critical thinking skills.
6. Develop an ability to plan and carry out scientific experiments by obtaining and evaluating scientific information and effectively communicating information through oral and written presentations.
7. Understand current issues in biology and apply scientific knowledge to societal issues.
8. Make connections between self and natural world, and personal responsibility with social issues.
9. Develop a sense of competence in the field of study through research experiences and written and oral communication of findings.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

Freshman

Fall	Credits	Spring	Credits
CHEM 103 or 109	4-5	CHEM 104	5
MATH 112 or 114	3-5	MATH 113	3
Communication A[1]	3	L&S Breadth	3
Language (if required)	3-4	Social Science Breadth	3
	14		**14**

Sophomore

Fall	Credits	Spring	Credits
ZOOLOGY/BIOLOGY/BOTANY 151[1]	5	ZOOLOGY/BIOLOGY/BOTANY 152 (Satisfies Communication B)[1]	5
Ethnic Studies	3	L&S Breadth	3
INTER-LS 210	1	Social Science Breadth	3
Social Science Breadth	3	Elective	3

Elective	4		
	16		**14**

Junior

Fall	Credits	Spring	Credits
PHYSICS 103, 201, or 207	4-5	PHYSICS 104, 202, or 208	4-5
I/A COMP SCI, MATH, or STAT (if required for the BS)	3-5	I/A COMP SCI, MATH, or STAT (required for the BS)	3-5
I/A ZOOLOGY	3-6	I/A ZOOLOGY	4
Elective	3	L&S Breadth	3
	16		**14**

Senior

Fall	Credits	Spring	Credits
I/A ZOOLOGY	3-4	I/A ZOOLOGY	3-4
Elective	3-4	I/A ZOOLOGY	3-4
L&S Breadth	3	Elective	6
Elective	3-6	Social Science Breadth	3
	17		**15**

Total Credits 120

[1] Students can take ZOOLOGY/BIOLOGY 101 Animal Biology and ZOOLOGY/BIOLOGY 102 Animal Biology Laboratory for the Introductory Biology requirement is recommended for students who complete this sequence.

Student may also satisfy Introductory Biology with BIOCORE. Consult the advisor for the program regarding this option.

ADVISING AND CAREERS

ADVISING AND CAREERS

DECLARE OR CANCEL THIS MAJOR

Please follow the process described on the Zoology Major website (https://integrativebiology.wisc.edu/undergraduate-programs/zoology-major/zoology-undergraduate-major-advising/).

DIRECTED STUDY

The Zoology major is an excellent choice for students interested in an undergraduate research experience.

Directed Studies allows students to gain experience in a wide range of research areas in biology and to learn research techniques that are not easily taught in the classroom. Such experiences allow students to make more informed decisions about their future goals and careers. Before students can enroll in Directed Study, they must set up an appointment with a professor/mentor of their choice.

Students interested in doing in-depth research as undergraduates in an area of interest can elect to do a Senior Thesis or Senior Honors Thesis. Students should contact a department advisor at the beginning of their junior year to explore possible research areas.

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

ZOOLOGY, BS

The Zoology major is a gateway to the diverse areas of modern biology with a focus on animal biology. Students can focus on various areas in biological science, including:

- ecology, evolution, and animal behavior;
- anatomy, physiology, and organismal biology;
- and cellular, molecular, and developmental biology.

Students in Zoology learn about aquatic ecosystems, vertebrate anatomy, identifying various birds, and the development of animals.

The department encourages undergraduate participation in research and offers summer research scholarships (https://integrativebiology.wisc.edu/undergraduate-student-scholarships/) to outstanding students.

The Zoology major emphasizes critical thinking and conceptual skills that come from an understanding of how scientific information is obtained and evaluated, and of how this information can be applied to societal issues.

The major provides a solid foundation in genetic, cellular, physiological, ecological, and evolutionary principles, and in the related disciplines of chemistry, physics, and mathematics. As a result, the major fosters an understanding of biological complexity including the interrelationships among humans and natural systems.

The unique characteristics of the Zoology major include:

- broad-based, yet integrated training in wide-ranging areas of biology;
- solid foundation of basic principles and processes in biology;
- flexibility and advising needed to allow students to tailor the major to their specific goals; and
- wide range of opportunities for undergraduate involvement in independent research and senior thesis.

The major can be tailored to prepare students for advanced study and careers in many different areas: veterinary medicine; health professions and public health; law; life sciences research in university, government, and industrial settings; education including museum, nature center, secondary and college education; biotechnology; and environmental studies.

HOW TO GET IN

HOW TO GET IN

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communication & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.

Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. Some courses satisfy more than one L&S degree requirement (visit College of Letters & Science: Requirements (https://guide.wisc.edu/undergraduate/letters-science/#requirementstext) for details).

This major can be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Communication	Complete both: • Part A: one course with the Communication A designation or eligible UW Placement Score; and • Part B: one course with the Communication B designation
Quantitative Reasoning	Complete both: • Part A: one course with the Quantitative Reasoning A designation or eligible UW Placement Score; and • Part B: one course with the Quantitative Reasoning B designation
Ethnic Studies	one 3+ credit course with the Ethnic Studies designation
Language	the third unit of a language other than English
Mathematics	Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.
L&S Breadth: Humanities	Complete 12 credits with the Humanities or Literature designation, which must include at least 6 credits with the Literature designation.
L&S Breadth: Social Sciences	Complete 12 credits with the Social Science designation.
L&S Breadth: Natural Sciences	Complete 12 credits, which must include both: • 6 credits with the Biological Science designation, and • 6 credits with the Physical Science designation.
Liberal Arts and Science (LAS) Coursework	at least 108 credits
Depth of Intermediate/Advanced Coursework	at least 60 credits at the Intermediate or Advanced level
Major	Declare and complete at least one major.
Total Credits	at least 120 credits
UW-Madison Experience	• 30 credits in residence, overall, and • 30 credits in residence after the 86th credit
Quality of Work	• 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their School/College to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

MATH, CHEMISTRY & PHYSICS

Code	Title	Credits
Math—complete one:		**4-10**
MATH 112 & MATH 113	College Algebra and Trigonometry	
MATH 114	Precalculus	
MATH 211	Survey of Calculus 1	
Chemistry—complete one:		**5-9**

	PSYCH 454	Behavioral Neuroscience
	PSYCH 513	Hormones, Brain, and Behavior
Total Credits		**20-25**

A maximum of 6 credits of approved non-ZOOLOGY subject courses count toward the 30 credits required for the major. Students can take ZOOLOGY/BIOLOGY 101 Animal Biology and ZOOLOGY/ BIOLOGY 102 Animal Biology Laboratory for the Introductory Biology requirement is recommended for students who complete this sequence.

[1] Only 3 credits of ANAT&PHY 335 Physiology count toward the 6 credits of approved non-ZOOLOGY subject courses.

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all ZOOLOGY and major courses
- 2.000 GPA on 15 Upper Level major credits, taken in Residence [1]
- 15 credits in ZOOLOGY, or courses that count for the major, taken on the UW–Madison campus

[1] ZOOLOGY 299–699, intermediate/advanced BIOCORE, and courses that count toward the major that have an intermediate/advanced designation are considered Upper Level in the major.

HONORS IN THE ZOOLOGY MAJOR

To earn Honors in the Major in Zoology, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA in all courses that count toward the major
- Complete 12 credits, taken for Honors, with individual grades of B or better. Select 6 credits from ZOOLOGY 300-680 or approved non-ZOOLOGY subject courses (above).
- Complete ZOOLOGY 681 and ZOOLOGY 682, for a total of 6 credits.[1]

[1] A written thesis proposal must be approved by the thesis mentor and a department advisor. While most theses are completed during the fall and spring of a student's senior year, other combinations of terms are possible. More information about the proposal process, timing, and grading of a thesis can be found on the Department of Integrative Biology website.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Connect and describe the concepts that make up the structure and function of all living things through the principles of genetics, cellular biology, and physiology.
2. Demonstrate an understanding of the diversity of life through the principles of evolution.
3. Make connections between organisms, their habitats, and systems through the principles of ecology.
4. Make connections between the biological sciences to humans and ecological systems and appreciate the complexity of these systems.
5. Identify, think through, and solve a problem using quantitative reasoning and critical thinking skills.
6. Develop an ability to plan and carry out scientific experiments by obtaining and evaluating scientific information and effectively communicating information through oral and written presentations.
7. Understand current issues in biology and apply scientific knowledge to societal issues.
8. Make connections between self and natural world, and personal responsibility with social issues.
9. Develop a sense of competence in the field of study through research experiences and written and oral communication of findings.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage

in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

Freshman

Fall	Credits	Spring	Credits
CHEM 103 or 109	4-5	CHEM 104	5
MATH 112 or 114	3-5	MATH 113	3
Communication A[1]	3	L&S Breadth	3
Language (if required)	3-4	Social Science Breadth	3
	14		**14**

Sophomore

Fall	Credits	Spring	Credits
ZOOLOGY/BIOLOGY/ BOTANY 151[1]	5	ZOOLOGY/BIOLOGY/ BOTANY 152 (Satisfies Communication B)[1]	5
Ethnic Studies	3	L&S Breadth	3
INTER-LS 210	1	Social Science Breadth	3
Social Science Breadth	3	Elective	3
Elective	4		
	16		**14**

Junior

Fall	Credits	Spring	Credits
PHYSICS 103, 201, or 207	4-5	PHYSICS 104, 202, or 208	4-5
I/A COMP SCI, MATH, or STAT (if required for the BS)	3-5	I/A COMP SCI, MATH, or STAT (required for the BS)	3-5
I/A ZOOLOGY	3-6	I/A ZOOLOGY	4
Elective	3	L&S Breadth	3
	16		**14**

Senior

Fall	Credits	Spring	Credits
I/A ZOOLOGY	3-4	I/A ZOOLOGY	3-4
Elective	3-4	I/A ZOOLOGY	3-4
L&S Breadth	3	Elective	6
Elective	3-6	Social Science Breadth	3
	17		**15**

Total Credits 120

[1] Students can take ZOOLOGY/BIOLOGY 101 Animal Biology and ZOOLOGY/BIOLOGY 102 Animal Biology Laboratory for the Introductory Biology requirement is recommended for students who complete this sequence.

Student may also satisfy Introductory Biology with BIOCORE. Consult the advisor for the program regarding this option.

ADVISING AND CAREERS

ADVISING AND CAREERS

DECLARE OR CANCEL THIS MAJOR

Please follow the process described on the Zoology Major website (https://integrativebiology.wisc.edu/undergraduate-programs/zoology-major/zoology-undergraduate-major-advising/).

DIRECTED STUDY

The Zoology major is an excellent choice for students interested in an undergraduate research experience.

Directed Studies allows students to gain experience in a wide range of research areas in biology and to learn research techniques that are not easily taught in the classroom. Such experiences allow students to make more informed decisions about their future goals and careers. Before students can enroll in Directed Study, they must set up an appointment with a professor/mentor of their choice.

Students interested in doing in-depth research as undergraduates in an area of interest can elect to do a Senior Thesis or Senior Honors Thesis. Students should contact a department advisor at the beginning of their junior year to explore possible research areas.

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)

- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

LA FOLLETTE SCHOOL OF PUBLIC AFFAIRS

DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/CERTIFICATES

- Health Policy, Certificate (p. 1172)
- Public Policy, BA (p. 1174)
- Public Policy, BS (p. 1179)
- Public Policy, Certificate (p. 1184)

HEALTH POLICY, CERTIFICATE

The certificate in Health Policy offered through the La Follette School of Public Affairs prepares undergraduate students to navigate and shape health policy in Wisconsin and in the United States. Coursework covers key concepts and contemporary issues relevant to work within the complex world of U.S. health policy. Courses also build familiarity with analytic methods and approaches used to foster evidence-based health policy, focusing especially on policy levers that influence health equity.

UW–Madison graduates occupy a wide range of professional roles in the health sector, such as health care providers, accountants, IT professionals, small business owners, researchers, human resources specialists, engineers, and advocates. Across these roles, a foundational understanding of health policy has emerged as a key professional competency. Recognizing that leaders in this realm must engage diverse perspectives to successfully address complex issues, required courses are designed to foster interdisciplinary discussion and analysis, and a fieldwork experience will deepen learning in a professional setting.

HOW TO GET IN

HOW TO GET IN

No application required. Students declared in the Public Policy major cannot also declare the Certificate in Health Policy. All other students who meet the requirements listed below are eligible to declare. For information on how to declare, see Advising & Careers.

To declare the Certificate in Health Policy through the La Follette School of Public Affairs, students must:

- Hold UW-Madison sophomore standing or above and be in good academic standing, according to the rules of your school or college
- Have completed PUB AFFR 201 or PUB AFFR 281

REQUIREMENTS

REQUIREMENTS

Students must complete a minimum of four courses, one from each area listed below, and a minimum of 12 total credits.

Code	Title	Credits
Introductory Course (complete one):		**3**
PUB AFFR 201	Introduction to Health Policy in the United States	
Analytic Tools for Health Policy (complete one):		**3**
PUB AFFR 281	Discovering What Works in Health Policy	
Internship/Fieldwork Experience (complete at least 3 credits)		**3**
PUB AFFR 327	Administrative Internship	
PUB AFFR 360	Workshop in Health Policy	
PUB AFFR 369	Workshop in Public Policy	
INTL ST 523	Study Abroad: International Internship or Research in the Sciences	
INTER-AG 473	Health Impacts of Unmet Social Needs	
POLI SCI 326	Beyond the Internship: Career Exploration & Development	
Policy Specialization (complete one course from any one area below):		**3**
Social Policy, Human Services, Demography and Health		
PUB AFFR 520	Inequality, Race and Public Policy	
PUB AFFR 523	Policy, Privacy, and Personal Identity in the Postgenomics Era	
AFROAMER/ HIST SCI 275	Science, Medicine, and Race: A History	
AFROAMER/ HIST SCI/ MED HIST 523	Race, American Medicine and Public Health	
ANTHRO 265	Introduction to Culture and Health	
CHICLA/ COUN PSY 331	Immigrant Health and Wellbeing	
COUN PSY/ CHICLA 525	Dimensions of Latin@ Mental Health Services	
COUN PSY 531	Prevention and Intervention in Mental Health Across the Lifespan	
CSCS 410	Human Trafficking: Global and Local Perspectives	
CSCS 470	The Human Rights of Children and Youth: Global and Local Perspectives	
GEN&WS 523	Framing Fatness: Gender, Size, Constructing Health	
GEN&WS 534	Gender, Sexuality, and Reproduction: Public Health Perspectives	
GEN&WS/ INTL ST 535	Women's Global Health and Human Rights	

GEN&WS 538	Special Topics in LGBTQ+ Health
GEOG 307	International Migration, Health, and Human Rights
HDFS/ CNSR SCI 465	Families & Poverty
MED HIST/ HIST SCI/ HISTORY 508	Health, Disease and Healing II
MED HIST/ HIST SCI/ HISTORY 564	Disease, Medicine and Public Health in the History of Latin America and the Caribbean
PHILOS/ MED HIST 505	Justice and Health Care
PSYCH 401	Psychology, Law, and Social Policy
PSYCH 526	The Criminal Mind: Forensic and Psychobiological Perspectives
SOC/ C&E SOC 343	Sociology of Health and Medicine
SOC/ C&E SOC 532	Health Care Issues for Individuals, Families and Society
SOC 575	Sociological Perspectives on the Life Course and Aging
SOC/AMER IND/ C&E SOC 578	Poverty and Place
SOC WORK 206	Introduction to Social Policy
SOC WORK 420	Poverty and Social Welfare
SOC WORK/ SOC 422	Social Issues in Aging

LSC 251	Science, Media and Society
LSC/COM ARTS/ JOURN 617	Health Communication in the Information Age
COM ARTS 318	Introduction to Health Communication
Economics and Health	
ECON/A A E/ ENVIR ST 343	Environmental Economics
A A E 352	Global Health: Economics, Natural Systems, and Policy
ECON/ POP HLTH/ PUB AFFR 548	The Economics of Health Care
ECON 448	Human Resources and Economic Growth
R M I/ECON 530	Insuring Life's Risks: Health, Aging, and Policy
ACT SCI 655	Health Analytics
R M I 660	Risk Analytics and Behavioral Science
Environment and Health	
ENVIR ST/ ATM OCN 355	Introduction to Air Quality
AGROECOL 377	Global Food Production and Health
ENVIR ST/ POP HLTH 471	Introduction to Environmental Health
ENVIR ST/ POP HLTH 502	Air Pollution and Human Health
LAND ARC 321	Environment and Behavior Studio - Designing Health Promoting Environments
Medical Care Systems	
I SY E 417	Health Systems Engineering
MED HIST/ PHILOS 558	Ethical Issues in Health Care
DS 341	Design Thinking for Transformation
Public Health	
HIST SCI/ MED HIST 509	The Development of Public Health in America
NUTR SCI 540	Community Nutrition and Health Equity
SOC/ C&E SOC 533	Public Health in Rural & Urban Communities
C&E SOC/ SOC 532	Health Care Issues for Individuals, Families and Society
MED HIST/ PHILOS 515	Public Health Ethics
Total Credits	**12**

RESIDENCE AND QUALITY OF WORK

- At least 6 certificate credits must be completed in residence.
- Minimum 2.000 GPA on all certificate courses.

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Demonstrate understanding of major underpinnings and challenges of contemporary U.S. health policy, and how to approach issues using a public policy lens.
2. Gain knowledge and demonstrate application of analytical and methodological tools used in the health sector (e.g., policy writing, analysis, familiarity with data used in health policy and clinical research, and quantitative and qualitative methods used in social policy).
3. Demonstrate understanding and application of knowledge regarding a substantive health policy interest of their choice, such as health care policy and innovation, social determinants of health, reproductive health policy, social policy, analysis of health behaviors, and others.
4. Gain applied experience in a setting relevant for navigating, interpreting, and contributing to effective health policy throughout their careers.

ADVISING AND CAREERS

ADVISING AND CAREERS

DECLARE OR CANCEL THIS CERTIFICATE

Please follow the process described on the La Follette School of Public Affairs website (https://lafollette.wisc.edu/academics/undergraduate-certificate-in-health-policy/).

Please visit our undergraduate advising page (https://lafollette.wisc.edu/undergraduate/advising-faq/) to connect with our team.

CAREERS

Health policy issues affect every resident and community in the United States. Because of its complexity, people working in the health sector benefit from understanding specific terminology, issues, and systems involved in policymaking. Through this certificate in Health Policy, students will build the knowledge base for this work while also gaining skills in quantitative analysis, communication, writing, critical thinking, and problem-solving. More and more, employers across the health sector value this combination of skills and insights.

Students interested in health care, advocacy, business, or research will earn a credential highlighting highly sought-after skills that, through the fieldwork component of the certificate, they have applied in the context of real-world practice. Focused on evidence-based health policy and practice, courses help students hone skills to gather data and information from a variety of sources, analyze and synthesize the findings, and communicate key insights using clear, concise communication strategies.

Career development is an integral part of the La Follette School experience, with staff members and alumni eager to support and mentor students with diverse interests. Students benefit from networking opportunities, employer visits, professional development seminars, and other services.

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

PUBLIC POLICY, BA

At the University of Wisconsin-Madison, students majoring in Public Policy study how governments, institutions, and communities identify problems, weigh evidence, and make decisions that affect lives. They ask questions like: What makes a policy effective? Who benefits and who doesn't? How can we use data, dialogue, and diverse perspectives to build better solutions? Through interdisciplinary coursework and hands-on learning, students develop skills in policy analysis, strategic communication, civil discourse, and evidence-based decision-making.

Whether you're passionate about climate justice, education reform, health equity, or economic development, Public Policy's courses give you a framework to understand complex systems and a pathway to lead within them. Students often find the work exciting and transformative—connecting classroom learning to real-world impact through internships, case studies, and collaborative projects.

Studying public policy at UW-Madison means going beyond headlines and soundbites. You'll engage deeply with data, theory, and lived experience. You'll learn to analyze tradeoffs, anticipate unintended consequences, and communicate across differences. You'll be challenged to think critically, act ethically, and lead thoughtfully.

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are eligible to declare. For information on how to declare, visit Advising & Careers.
Courses required to get in	Complete one Core Course: • PUB AFFR 200 • PUB AFFR 230 • PUB AFFR 335 • PUB AFFR 340 or PUB AFFR 240 • PUB AFFR 380

GPA requirements to get in	Earn a 2.000 GPA on all coursework counting in the major, plus any of the following preparatory courses completed prior to declaration: • ECON 101 or A A E 101 • POLI SCI 104, POLI SCI 120, or POLI SCI 140 • STAT 240, ECON 310, POLI SCI 270, PSYCH 210, SOC/C&E SOC 360, STAT 301, STAT 324, or STAT 371 Earn a 2.000 GPA on any upper-level coursework in the major completed prior to declaration.
Credits required to get in	None.
Other	None.

Students declared in the Public Policy certificate or the Health Policy certificate may not be declared in the Public Policy major at the same time. Students who do wish to declare this major must first cancel their declaration in the certificate.

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a Bachelor of Arts degree in the College of Letters & Science must complete all of the requirements below. Some courses satisfy more than one L&S degree requirement (visit College of Letters & Science: Requirements (https://guide.wisc.edu/undergraduate/letters-science/#requirementstext) for details).

This major can be paired with either the Bachelor of Arts or Bachelor of Science degree requirements.

BACHELOR OF ARTS DEGREE REQUIREMENTS

Communication	Complete both: • Part A: one course with the Communication A designation or eligible UW Placement Score; and • Part B: one course with the Communication B designation
Quantitative Reasoning	Complete both: • Part A: one course with the Quantitative Reasoning A designation or eligible UW Placement Score; and • Part B: one course with the Quantitative Reasoning B designation
Ethnic Studies	one 3+ credit course with the Ethnic Studies designation
Language	Complete either: • the fourth unit of one language other than English; or • the third unit of one language other than English and the second unit of an additional language.
L&S Breadth: Humanities	Complete 12 credits with the Humanities or Literature designation, which must include at least 6 credits with the Literature designation.
L&S Breadth: Social Sciences	Complete 12 credits with the Social Science designation.
L&S Breadth: Natural Sciences	Complete 12 credits with the Natural Science, Biological Science, or Physical Science designations, which must include both: • one 3+ credit course with the Biological Science designation, and • one 3+ credit course with the Physical Science designation.
Liberal Arts and Science (LAS) Coursework	at least 108 credits
Depth of Intermediate/ Advanced work	at least 60 credits at the Intermediate or Advanced level
Major	Declare and complete at least one major.
Total Credits	at least 120 credits
UW-Madison Experience	• 30 credits in residence, overall; and • 30 credits in residence after the 86th credit
Quality of Work	• 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their School/College to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

Students must complete 30 credits from the list below:

Code	Title	Credits
Core Courses (complete all)		
PUB AFFR 200	Contemporary Public Policy Issues	3
PUB AFFR 230	Advancing Public Policy in a Divided America	3
PUB AFFR 335	Policy Actors, Institutions, and the Policy Process	3
PUB AFFR 340	Intermediate Evidence-Based Policymaking and Communication	3
or PUB AFFR 240	Evidence-Based Policy Making	
PUB AFFR 380	Analytic Tools for Public Policy	3
Internship Course (complete at least 3 credits)		**3**
PUB AFFR 327	Administrative Internship	
PUB AFFR 369	Workshop in Public Policy	
PUB AFFR 360	Workshop in Health Policy	
INTER-LS 260	Internship in the Liberal Arts and Sciences	
INTL ST 523	Study Abroad: International Internship or Research in the Sciences	
POLI SCI 315	Legislative Internship	
POLI SCI 326	Beyond the Internship: Career Exploration & Development	
Policy Electives		**12**

Total Credits	**30**

RESIDENCE & QUALITY OF WORK

- Minimum 2.000 GPA in all PUB AFFR and major courses
- Minimum 2.000 GPA on at least 15 credits of upper-level work in the major, in residence*
- Minimum 15 credits in PUB AFFR courses taken on the UW-Madison campus

*Upper-level course work is defined as all Intermediate and Advanced courses in the major and electives

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Apply theoretical and empirical frameworks from economics, political science, sociology, public administration, public management, and organizational behavior to analyze public policy issues, using evidence to inform recommendations and policy decisions.
2. Identify interests and roles of governmental and non-governmental institutions and other actors in the policy making process.
3. Practice key principles of policy analysis, public administration, public management, and organizational behavior in addressing complex problems in the public interest.
4. Critically evaluate quantitative and qualitative research, identify its strengths and limitations, and highlight its implications for public policy.
5. Write and communicate clearly and effectively about public policy problems and solutions, using evidence-based strategies to address diverse sets of stakeholders.
6. Work and learn collaboratively across disciplines, effectively anticipating, learning from, and navigating issues where opinions, values, and perspectives often differ or conflict.
7. Serve as skilled leaders across sectors, focused on improving and infusing evidence into decisions regarding public policy.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that

necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

First Year

Fall	Credits	Spring	Credits
POLI SCI 104	3-4	PUB AFFR 200	3
Biological Science Breadth	3	Ethnic Studies	3
Communication A	3	Language Requirement	4
Language Requirement (if needed)	4	Quantitative Reasoning A	4
	14		**14**

Second Year

Fall	Credits	Spring	Credits
PUB AFFR 230	3	PUB AFFR 335	3
ECON 101 or A A E 101	4	STAT 240, ECON 310, POLI SCI 270, PSYCH 210, SOC 360, STAT 301, STAT 324, or STAT 371	4
Literature Breadth	3	Humanities Breadth	3
Physical Science Breadth	3	Literature Breadth	3
Humanities Breadth	3	Elective	3
	16		**16**

Third Year

Fall	Credits	Spring	Credits
PUB AFFR 340 or 240	3	PUB AFFR 380	3

Fourth Year

Fall	Credits	Spring	Credits
PUB AFFR 327, 369, 360, INTER-LS 260, INTL ST 523, POLI SCI 315, or POLI SCI 326	3	Policy Elective (Intermediate or Advanced)	6
Communication B	3	Electives (Intermediate or Advanced)	9
Policy Elective (Intermediate or Advanced)	3		
Elective (Intermediate or Advanced)	6		
	15		**15**

Total Credits 120

ADVISING AND CAREERS

ADVISING AND CAREERS

DECLARE OR CANCEL THIS MAJOR

Please follow the process described on the Public Policy website (https://lafollette.wisc.edu/undergraduate/advising-faq/). We occasionally host group and individual info sessions (https://lafollette.wisc.edu/undergraduate/advising-faq/#sessions) for students considering the major.

ADVISING

Students interested in this major have dedicated guidance from our full-time undergraduate advisors. Flexible advising sessions are conveniently available through the Starfish system, accommodating various time zones and student schedules to ensure every student receives the personalized support they need: Undergraduate Advising and FAQs (https://lafollette.wisc.edu/undergraduate/advising-faq/).

Meeting with your academic advisor is a cornerstone of your success at UW–Madison. Advising is a place to get personalized guidance to make sense of your academic path, avoid hidden pitfalls and chart a plan that actually fits who you are and where you want to go. Advisors help students create a plan to complete more than one major or certificate. They also share information about course content, campus well-being resources, and more.

CAREERS

The La Follette School offers expert support and resources to help students transform their knowledge and skills into success in navigating the internship requirement and the competitive employment market. Students who major in Public Policy enter a wide variety of careers in government agencies, NGOs, consulting, advocacy/government affairs, and business—and many continue to graduate programs in Public Affairs (https://guide.wisc.edu/graduate/lafollette-school-public-affairs/public-affairs-mpa/), International Public Affairs (https://guide.wisc.edu/graduate/lafollette-school-public-affairs/international-public-affairs-mipa/), or law school (https://guide.wisc.edu/law/). Students can find support for internship options, employment preparation, and valuable networking resources on our career page (https://lafollette.wisc.edu/career-development/). Students can also view this online guide (https://publicadministrationpolicy.org/career/#why-choose-a-career-in-public-administration-or-publ...) to explore Careers in Public Administration and Policy. Current students are welcome and encouraged to contact our Career Development and Internship Office: careerdev@lafollette.wisc.edu.

INTERNSHIPS

The La Follette School offers a Handshake Collection of pre-approved internships (https://wisc.joinhandshake.com/edu/collections/26282/) for current students who have declared the Public Policy major.

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format,

language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

WISCONSIN SCHOLARSHIP HUB (HTTPS://WISC.ACADEMICWORKS.COM/)

This is the primary portal for applicants, current students, and everyone looking for scholarship opportunities on campus.

UNDERGRADUATE ACADEMIC AWARDS OFFICE (HTTPS://AWARDS.ADVISING.WISC.EDU/)

We help UW–Madison undergraduates and recent graduates pursue nationally competitive scholarships (https://awards.advising.wisc.edu/scholarships/nationally-competitive/) and campus-wide awards (https://awards.advising.wisc.edu/scholarships/campus-wide/) for research, service, and leadership:

- Find scholarship opportunities that match your goals and interests
- Navigate the scholarship application process
- Review scholarship essays
- Prepare for national scholarship interviews

Contact (https://awards.advising.wisc.edu/schedule-an-appointment/) the Undergraduate Academic Awards Office to schedule an appointment to discuss which opportunities are right for you.

PUBLIC POLICY, BS

At the University of Wisconsin-Madison, students majoring in Public Policy study how governments, institutions, and communities identify problems, weigh evidence, and make decisions that affect lives. They ask questions like: What makes a policy effective? Who benefits and who doesn't? How can we use data, dialogue, and diverse perspectives to build better solutions? Through interdisciplinary coursework and hands-on learning, students develop skills in policy analysis, strategic communication, civil discourse, and evidence-based decision-making.

Whether you're passionate about climate justice, education reform, health equity, or economic development, Public Policy's courses give you a framework to understand complex systems and a pathway to lead within them. Students often find the work exciting and transformative—connecting classroom learning to real-world impact through internships, case studies, and collaborative projects.

Studying public policy at UW-Madison means going beyond headlines and soundbites. You'll engage deeply with data, theory, and lived experience. You'll learn to analyze tradeoffs, anticipate unintended consequences, and communicate across differences. You'll be challenged to think critically, act ethically, and lead thoughtfully.

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are eligible to declare. For information on how to declare, visit Advising & Careers.
Courses required to get in	Complete one Core Course: • PUB AFFR 200 • PUB AFFR 230 • PUB AFFR 335 • PUB AFFR 340 or PUB AFFR 240 • PUB AFFR 380
GPA requirements to get in	Earn a 2.000 GPA on all coursework counting in the major, plus any of the following preparatory courses completed prior to declaration: • ECON 101 or A A E 101 • POLI SCI 104, POLI SCI 120, or POLI SCI 140 • STAT 240, ECON 310, POLI SCI 270, PSYCH 210, SOC/C&E SOC 360, STAT 301, STAT 324, or STAT 371 Earn a 2.000 GPA on any upper-level coursework in the major completed prior to declaration.
Credits required to get in	None.
Other	None.

Students declared in the Public Policy certificate or the Health Policy certificate may not be declared in the Public Policy major at the same

time. Students who do wish to declare this major must first cancel their declaration in the certificate.

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. Some courses satisfy more than one L&S degree requirement (visit College of Letters & Science: Requirements (https://guide.wisc.edu/undergraduate/letters-science/#requirementstext) for details).

This major can be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Communication	Complete both: • Part A: one course with the Communication A designation or eligible UW Placement Score; and • Part B: one course with the Communication B designation

Quantitative Reasoning	Complete both: • Part A: one course with the Quantitative Reasoning A designation or eligible UW Placement Score; and • Part B: one course with the Quantitative Reasoning B designation
Ethnic Studies	one 3+ credit course with the Ethnic Studies designation
Language	the third unit of a language other than English
Mathematics	Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.
L&S Breadth: Humanities	Complete 12 credits with the Humanities or Literature designation, which must include at least 6 credits with the Literature designation.
L&S Breadth: Social Sciences	Complete 12 credits with the Social Science designation.
L&S Breadth: Natural Sciences	Complete 12 credits, which must include both: • 6 credits with the Biological Science designation, and • 6 credits with the Physical Science designation.
Liberal Arts and Science (LAS) Coursework	at least 108 credits
Depth of Intermediate/ Advanced Coursework	at least 60 credits at the Intermediate or Advanced level
Major	Declare and complete at least one major.
Total Credits	at least 120 credits
UW-Madison Experience	• 30 credits in residence, overall, and • 30 credits in residence after the 86th credit
Quality of Work	• 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their School/College to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

Students must complete 30 credits from the list below:

Code	Title	Credits
Core Courses (complete all)		
PUB AFFR 200	Contemporary Public Policy Issues	3
PUB AFFR 230	Advancing Public Policy in a Divided America	3
PUB AFFR 335	Policy Actors, Institutions, and the Policy Process	3

PUBLIC POLICY, CERTIFICATE

The certificate in Public Policy complements majors across campus and extends the La Follette School of Public Affairs' mission of training and mentoring the next generation of leaders in their careers and communities.

The certificate program allows undergraduate students to apply a policy perspective to their chosen major and bolsters their skills for success in the workforce or in their graduate school coursework.

Students build a strong foundation for careers in government, nonprofit organizations, or the private sector. The certificate in Public Policy is ideal for students seeking careers related to key domestic and international issues such as criminal justice, education, energy, environmental studies, finance, transportation, and poverty. It also prepares students to be engaged citizens, ready to use their talents to improve the world around them.

HOW TO GET IN

HOW TO GET IN

No application required. Students declared in the Public Policy major cannot also declare the Certificate in Public Policy. All other students who meet the requirements listed below are eligible to declare. For information on how to declare, see Advising & Careers.

To declare the certificate in public policy through the La Follette School of Public Affairs, students must:

- Hold UW-Madison sophomore standing or above and be in good academic standing, according to the rules of your school or college
- Have completed one of the following courses: PUB AFFR 200, PUB AFFR 240, or PUB AFFR 380

REQUIREMENTS

REQUIREMENTS

Code	Title	Credits
Introductory Course (complete one):		**3**
PUB AFFR 200	Contemporary Public Policy Issues	
Analytical Tools for Policy Design, Implementation, and Evaluation (complete one):		**3**
PUB AFFR 240	Evidence-Based Policy Making

RESIDENCE & QUALITY OF WORK

- At least 6 credits must be completed in residence
- Minimum 2.000 GPA on all certificate courses

[1] Courses taken Pass/Fail do not meet certificate requirements or calculate in the GPA.

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Demonstrate understanding of major current and past public policy debates, and how to approach questions and research with a public policy lens.
2. Gain knowledge and demonstrate application of methodological tools utilized in the public policy arena (e.g., policy memo writing, policy analysis, experience working with administrative data, program evaluation, cost-benefit analysis, performance management).
3. Demonstrate understanding and application of knowledge regarding the substantive policy area of interest of their choice (e.g., education, health, social, environmental, science).
4. Gain practical professional experience in a public policy work setting.

ADVISING AND CAREERS

ADVISING AND CAREERS

DECLARE OR CANCEL THIS MAJOR

Please follow the process described on the La Follette School of Public Affairs website (https://lafollette.wisc.edu/academics/undergraduate-certificate-in-public-policy/).

Looking for Advising?

Please visit our undergraduate advising page (https://lafollette.wisc.edu/undergraduate/advising-faq/) to connect with our team.

SKILLS AND CAREERS

Given the increasing complexity in every realm of public policy, students earning the certificate in Public Policy gain skills in quantitative analysis, communication, writing, critical thinking, and problem-solving that are in demand by more and more employers in almost every sector.

The certificate program focuses on evidence-based practices and provides students with the skills to gather data and information from various sources, analyze and synthesize the findings, and write a clear and concise report to illustrate the main points.

With the focus on evidence-based practices, the Public Policy certificate program provides research and data analysis skills that are transferable to nearly any occupation. Students maximize their electives and earn a credential that highlights these highly sought-after skills in the context of real-world practice.

Career development is an integral part of the La Follette School experience, with staff members and alumni eager to support and mentor students with diverse interests. Students benefit from networking opportunities, employer visits, professional development seminars, and other services.

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

LANGUAGE SCIENCES

DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/ CERTIFICATES

- Linguistics, BA (p. 1187)
- Linguistics, BS (p. 1192)

LINGUISTICS, BA

Linguistics is the scientific study of human language. It investigates the common principles underlying all languages, as well as the organization of particular languages. It is expected that undergraduates with a major in Linguistics will be able to:

- demonstrate a sound knowledge of the fields of phonetics (articulatory and acoustic properties of speech), phonology (the organization of the sound system of languages), morphology (the structure of words), syntax (the structure of sentences), and semantics (the interpretation of structures);
- demonstrate that they are able to analyze data in all these areas of linguistics;
- apply their linguistic training without prejudice, as expected in any science; and
- apply their analytical abilities beyond the study of linguistics.

The Linguistics major emphasizes strong foundational training in the core areas of theoretical linguistics. Students also have access to elective courses (https://langsci.wisc.edu/electives-in-the-major/) in a wide variety of interdisciplinary areas, including first and second language acquisition, psycholinguistics, sociolinguistics, language and data science, historical linguistics, neurolinguistics, and indigenous language documentation and revitalization. Coursework is also available in the linguistics of specific languages or language families, such as American Sign Language (https://langsci.wisc.edu/asl/), Germanic, Spanish and Romance, Chinese, Japanese, and Native American linguistics.

Language Sciences, an interdisciplinary hub for research (https://langsci.wisc.edu/research/) and collaboration, offers the Linguistics major.

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are eligible to declare. For information on how to declare, visit Advising & Careers.
Courses required to get in	None
GPA requirements to get in	None
Credits required to get in	None
Other	None

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a Bachelor of Arts degree in the College of Letters & Science must complete all of the requirements below. Some courses satisfy more than one L&S degree requirement (visit College of Letters & Science: Requirements (https://guide.wisc.edu/undergraduate/letters-science/#requirementstext) for details).

This major can be paired with either the Bachelor of Arts or Bachelor of Science degree requirements.

BACHELOR OF ARTS DEGREE REQUIREMENTS

Communication	Complete both: • Part A: one course with the Communication A designation or eligible UW Placement Score; and • Part B: one course with the Communication B designation
Quantitative Reasoning	Complete both: • Part A: one course with the Quantitative Reasoning A designation or eligible UW Placement Score; and • Part B: one course with the Quantitative Reasoning B designation
Ethnic Studies	one 3+ credit course with the Ethnic Studies designation
Language	Complete either: • the fourth unit of one language other than English; or • the third unit of one language other than English and the second unit of an additional language.
L&S Breadth: Humanities	Complete 12 credits with the Humanities or Literature designation, which must include at least 6 credits with the Literature designation.
L&S Breadth: Social Sciences	Complete 12 credits with the Social Science designation.
L&S Breadth: Natural Sciences	Complete 12 credits with the Natural Science, Biological Science, or Physical Science designations, which must include both: • one 3+ credit course with the Biological Science designation, and • one 3+ credit course with the Physical Science designation.
Liberal Arts and Science (LAS) Coursework	at least 108 credits
Depth of Intermediate/Advanced work	at least 60 credits at the Intermediate or Advanced level
Major	Declare and complete at least one major.
Total Credits	at least 120 credits
UW-Madison Experience	• 30 credits in residence, overall; and • 30 credits in residence after the 86th credit
Quality of Work	• 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their School/College to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

LANGUAGE

Code	Title	Credits
Complete the fourth unit or higher in a foreign language, by course or by examination		0-16
Total Credits		**0-16**

CREDIT REQUIREMENT

Students pursuing the linguistics major must complete 30 credits as follows:

Required Foundational Courses (4 courses)

Code	Title	Credits
LINGUIS 101	Human Language	3
LINGUIS 310	Phonology	3
LINGUIS 322	Morphology	3
LINGUIS 330	Syntax	3
Total Credits		**12**

Advanced Linguistics Coursework (2 courses)

Code	Title	Credits
One 500-level LINGUIS course (choose one of the following):		**3**
LINGUIS 510	Phonological Theories	
LINGUIS 522	Advanced Morphology	
LINGUIS 530	Syntactic Theories	
LINGUIS 571	Structure of a Language	
Capstone course		
LINGUIS 690	Capstone in Linguistics	3
Total Credits		**6**

Electives in the Major (4 courses)

Code	Title	Credits
Complete 4 of the following:		**12**
any LINGUIS course [1]		
AFRICAN 206	Introduction to African Linguistic Practices	
AMER IND/ ANTHRO 314	Indians of North America	
AMER IND/ LINGUIS 371	Survey of North American Indian Languages

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Linguistics Undergraduate Advisor (https://guide.wisc.edu/undergraduate/letters-science/linguistics/linguistics-ba/#advisingandcareerstext).

HONORS IN THE LINGUISTICS MAJOR: REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA for all LINGUIS courses, and all courses accepted in the major
- Complete two LINGUIS courses, taken for Honors, with concurrent 1-credit enrollment in LINGUIS 481 Junior Honors Tutorial or LINGUIS 482 Junior Honors Tutorial, for a total of 2 additional credits. A grade of B or better must be earned in each course taken for honors.
- Complete a two-semester Senior Honors Thesis in LINGUIS 681 Honors Seminar-Senior Thesis and LINGUIS 682 Honors Seminar-Senior Thesis, leading to submission of an acceptable paper, for a total of 6 credits. A grade of B or better must be earned in the thesis project.

Note that Honors tutorial credits and the Senior Honors Thesis do not count toward the 30 credits required for the major in linguistics.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Familiarity with data from a wide range of languages from different language families.
2. Ability to respond to biased views of language in their communities.
3. Knowledge in all core areas of linguistics: Phonetics, phonology, morphology, syntax, and semantics.
4. Sound grasp of linguistic concepts.
5. Sound grasp of linguistic methodology.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

Freshman

Fall	Credits	Spring	Credits
Communication A	3	Ethnic Studies	3
Quantitative Reasoning A	3	4th semester of Language (if needed)[2]	3
3rd semester of Language (if needed)	3	LINGUIS 101	3

	15		**15**

Total Credits 120

1 Linguistics majors will have varying needs for L&S Breadth courses outside the major, depending on which Linguistics major electives they choose. Many Linguistics major electives are Humanities courses, but some are Social Science or Natural Sciences. Consult with your advisor to determine your individual needs.

2 Linguistics majors are required to complete the 4th unit or higher of a language, whether they are doing the BA or the BS degree.

ADVISING AND CAREERS

ADVISING AND CAREERS

DECLARE OR CANCEL THIS MAJOR

Please follow the process described on the Language Sciences website (https://langsci.wisc.edu/advising/).

UNDERGRADUATE ADVISING

Contact the undergraduate advisor (https://langsci.wisc.edu/advising/) via email or using the Starfish app (https://wisc.starfishsolutions.com/starfish-ops/instructor/serviceCatalog.html#/connection/10252/schedule) to set up an appointment. The advisor is happy to meet with students who want to learn more about the major, careers in linguistics, linguistics course selection, and opportunities for participation in research in language sciences. A meeting with the advisor is required to declare the major.

CAREERS OF OUR ALUMNI

Read more about career options for students with the Linguistics major at our career page (https://langsci.wisc.edu/careers/).

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

LINGUISTICS OPPORTUNITY AWARD

The Linguistics Opportunity Award (https://langsci.wisc.edu/scholarships/) provides several scholarships to Linguistics students each year. Awardees are recognized for excellence in linguistics research and academic achievement, outreach and volunteering activities related to language science, and/or relevance of linguistics to their future plans.

The scholarship is funded through generous donations to the Linguistics Fund from alumni and other supporters of our program.

Deadline: January 15, apply through the WiSH portal.

LINGUISTICS, BS

Linguistics is the scientific study of human language. It investigates the common principles underlying all languages, as well as the organization of particular languages. It is expected that undergraduates with a major in Linguistics will be able to:

- demonstrate a sound knowledge of the fields of phonetics (articulatory and acoustic properties of speech), phonology (the organization of the sound system of languages), morphology (the structure of words), syntax (the structure of sentences), and semantics (the interpretation of structures);
- demonstrate that they are able to analyze data in all these areas of linguistics;
- apply their linguistic training without prejudice, as expected in any science; and
- apply their analytical abilities beyond the study of linguistics.

The Linguistics major emphasizes strong foundational training in the core areas of theoretical linguistics. Students also have access to elective courses (https://langsci.wisc.edu/electives-in-the-major/) in a wide variety of interdisciplinary areas, including first and second language acquisition, psycholinguistics, sociolinguistics, language and data science, historical linguistics, neurolinguistics, and indigenous language documentation and revitalization. Coursework is also available in the linguistics of specific languages or language families, such as American Sign Language (https://langsci.wisc.edu/asl/), Germanic, Spanish and Romance, Chinese, Japanese, and Native American linguistics.

Language Sciences, an interdisciplinary hub for research (https://langsci.wisc.edu/research/) and collaboration, offers the Linguistics major.

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are eligible to declare. For information on how to declare, visit Advising & Careers.
Courses required to get in	None
GPA requirements to get in	None
Credits required to get in	None
Other	None

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.

Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. Some courses satisfy more than one L&S degree requirement (visit College of Letters & Science: Requirements (https://guide.wisc.edu/undergraduate/letters-science/#requirementstext) for details).

This major can be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Communication	Complete both: • Part A: one course with the Communication A designation or eligible UW Placement Score; and • Part B: one course with the Communication B designation
Quantitative Reasoning	Complete both: • Part A: one course with the Quantitative Reasoning A designation or eligible UW Placement Score; and • Part B: one course with the Quantitative Reasoning B designation
Ethnic Studies	one 3+ credit course with the Ethnic Studies designation
Language	the third unit of a language other than English
Mathematics	Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.
L&S Breadth: Humanities	Complete 12 credits with the Humanities or Literature designation, which must include at least 6 credits with the Literature designation.
L&S Breadth: Social Sciences	Complete 12 credits with the Social Science designation.
L&S Breadth: Natural Sciences	Complete 12 credits, which must include both: • 6 credits with the Biological Science designation, and • 6 credits with the Physical Science designation.
Liberal Arts and Science (LAS) Coursework	at least 108 credits
Depth of Intermediate/Advanced Coursework	at least 60 credits at the Intermediate or Advanced level
Major	Declare and complete at least one major.
Total Credits	at least 120 credits
UW-Madison Experience	• 30 credits in residence, overall, and • 30 credits in residence after the 86th credit
Quality of Work	• 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their School/College to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

LANGUAGE

Code	Title	Credits
Complete the fourth unit or higher in a foreign language, by course or by examination		0-16
Total Credits		**0-16**

CREDIT REQUIREMENT

Students pursuing the linguistics major must complete 30 credits as follows:

Required Foundational Courses (4 courses)

Code	Title	Credits
LINGUIS 101	Human Language	3
LINGUIS 310	Phonology	3
LINGUIS 322	Morphology	3
LINGUIS 330	Syntax	3
Total Credits		**12**

Advanced Linguistics Coursework (2 courses)

Code	Title	Credits
One 500-level LINGUIS course (choose one of the following):		**3**
LINGUIS 510	Phonological Theories	
LINGUIS 522	Advanced Morphology	
LINGUIS 530	Syntactic Theories	
LINGUIS 571	Structure of a Language	
Capstone course		
LINGUIS 690	Capstone in Linguistics	3
Total Credits		**6**

Electives in the Major (4 courses)

Code	Title	Credits
Complete 4 of the following:		**12**
any LINGUIS course [1]		
AFRICAN 206	Introduction to African Linguistic Practices	
AMER IND/ ANTHRO 314	Indians of North America	
AMER IND/ LINGUIS 371	Survey of North American Indian Languages	
ANTHRO/ LINGUIS 430	Language and Culture	
ASIAN 358	Language in Japanese Society	
ASIAN 432	Introduction to Chinese Linguistics	
ASIAN 434	Introduction to Japanese Linguistics	
ASIAN 631	History of the Chinese Language	
ASIAN 632	Studies in Chinese Linguistics	
ASIAN 633	Chinese Applied Linguistics	
CS&D 110	Introduction to Communicative Disorders	
CS&D 120	Culture, Language, and Communication	
CS&D 201	Anatomy and Physiology of Speech Production	
CS&D 202	Hearing Science	
CS&D 210	Neural Basis of Communication	
CS&D 240	Language Development in Children and Adolescents	
CS&D 303	Speech Acoustics and Perception	
CS&D 315	Phonetics and Phonological Development	
CS&D 440	Child Language Disorders, Assessment and Intervention	
CS&D 503	Neural Mechanisms of Speech, Hearing and Language	
ED POL 205	Language and Social Inequality	
ED POL 595	Language Politics and Education	
ENGL 179	Introduction to Language and Ideology	
ENGL 314	Structure of English	
ENGL 316	English Language Variation in the U.S.	
ENGL 318	Second Language Acquisition	
ENGL 319	Language, Race, and Identity	
ENGL 320	Linguistic Theory and Child Language	
ENGL 412	Bad Grammar and Metalinguistic Awareness	
ENGL 413	English Words: Grammar, Culture, Mind	
ENGL 414	Global Spread of English	
ENGL 415	Introduction to TESOL Methods	
ENGL 416	English in Society	
ENGL 417	History of the English Language	
ENGL 418	Experimental Syntax	
ENGL 420	Topics in English Language and Linguistics	
ENGL 514	English Syntax	
ENGL 516	English Grammar in Use	
FOLKLORE/ L I S 490	Field Methods and the Public Presentation of Folklore	
ITALIAN 340	Structures of Italian	
GERMAN 351	Introduction to German Linguistics	
GERMAN 352	Topics in German Linguistics	
GERMAN 650	History of the German Language	
L I S 501	Introduction to Text Mining	
L I S 640	Topics in Library and Information Studies (Tribal Libraries, Archives, & Museums topic only)	
LINGUIS/ ANTHRO/ FOLKLORE/ INTL ST 211	Global Language Issues	
LINGUIS 213	Topics in Sociolinguistics	
LINGUIS 237	Language in Wisconsin	
LINGUIS 303	Historical Linguistics	
LINGUIS 309	Grammatical Variability of Language	

LINGUIS 340	Semantics
LINGUIS/ AMER IND 371	Survey of North American Indian Languages
LINGUIS 373	Topics in Linguistics
LINGUIS 375	Sign Language Linguistics
LINGUIS 427	Field Methods II
LINGUIS/ ANTHRO 430	Language and Culture
PHILOS 516	Language and Meaning
PSYCH 406	Psychology of Perception
PSYCH 414	Cognitive Psychology
PSYCH 460	Child Development
RELIG ST 201	Religion in/and Everyday Language
SOC 535	Talk and Social Interaction
SPANISH 320	Spanish Phonetics
SPANISH 321	The Structure of Modern Spanish
SPANISH 327	Introduction to Spanish Linguistics
SPANISH 331	Spanish Applied Linguistics
SPANISH/ FRENCH/ ITALIAN/ PORTUG 429	Introduction to the Romance Languages
SPANISH 430	Spanish in the United States
SPANISH 446	Topics in Spanish Linguistics
SPANISH 630	Topics in Hispanic Linguistics
Total Credits	**12**

[1] Except LINGUIS 351, LINGUIS 352, LINGUIS 353, LINGUIS 354, LINGUIS 481, LINGUIS 482, LINGUIS 681, LINGUIS 682.

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all LINGUIS and all major courses
- 2.000 GPA on 15 upper-level major credits, taken in residence[2]
- 15 credits in LINGUIS, taken on the UW–Madison campus

[2] Intermediate and Advanced level LINGUIS courses, LINGUIS 340, LINGUIS 373 and some elective courses from other subjects are upper-level in the major (see list).

Electives from other subjects that are Upper-Level in the Major

Code	Title	Credits
ASIAN 358	Language in Japanese Society	3
ASIAN 432	Introduction to Chinese Linguistics	3
ASIAN 434	Introduction to Japanese Linguistics	3
ASIAN 631	History of the Chinese Language	3
CS&D 201	Anatomy and Physiology of Speech Production	3
CS&D 210	Neural Basis of Communication	3
CS&D 303	Speech Acoustics and Perception	3

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Linguistics Undergraduate Advisor (https://guide.wisc.edu/undergraduate/letters-science/linguistics/linguistics-ba/#advisingandcareerstext).

HONORS IN THE LINGUISTICS MAJOR: REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA for all LINGUIS courses, and all courses accepted in the major
- Complete two LINGUIS courses, taken for Honors, with concurrent 1-credit enrollment in LINGUIS 481 Junior Honors Tutorial or LINGUIS 482 Junior Honors Tutorial, for a total of 2 additional credits. A grade of B or better must be earned in each course taken for honors.
- Complete a two-semester Senior Honors Thesis in LINGUIS 681 Honors Seminar-Senior Thesis and LINGUIS 682 Honors Seminar-Senior Thesis, leading to submission of an acceptable paper, for a total of 6 credits. A grade of B or better must be earned in the thesis project.

Note that Honors tutorial credits and the Senior Honors Thesis do not count toward the 30 credits required for the major in linguistics.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Familiarity with data from a wide range of languages from different language families.
2. Ability to respond to biased views of language in their communities.
3. Knowledge in all core areas of linguistics: Phonetics, phonology, morphology, syntax, and semantics.
4. Sound grasp of linguistic concepts.
5. Sound grasp of linguistic methodology.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

Freshman

Fall	Credits	Spring	Credits
Communication A	3	Ethnic Studies	3
Quantitative Reasoning A	3	4th semester of Language (if needed)[2]	3
3rd semester of Language (if needed)	3	LINGUIS 101	3
L&S Breadth[1]	3	I/A Math, Comp Sci, or Stat (if needed for BS)	3
L&S Breadth	3	L&S Breadth	3
	15		**15**

Sophomore

Fall	Credits	Spring	Credits
Quantitative Reasoning B	3	Communication B	3
LINGUIS 310	3	LINGUIS 322	3
LINGUIS 330	3	Linguistics major elective #1	3
L&S Breadth	3	I/A Math, Comp Sci, or Stat (if needed for BS)	3
Elective	3	L&S Breadth	3
	15		**15**

Junior

Fall	Credits	Spring	Credits
Linguistics 500-level course (take any time in years 3-4)	3	Linguistics major elective #3	3
Linguistics major elective #2	3	L&S Breadth	3
L&S Breadth	3	Electives	9
Electives	6		
	15		**15**

Senior

Fall	Credits	Spring	Credits
Linguistics major elective #4	3	LINGUIS 690	3
Electives	12	Electives	12
	15		**15**

Total Credits 120

1 Linguistics majors will have varying needs for L&S Breadth courses outside the major, depending on which Linguistics major electives they choose. Many Linguistics major electives are Humanities courses, but some are Social Science or Natural Sciences. Consult with your advisor to determine your individual needs.

2 Linguistics majors are required to complete the 4th unit or higher of a language, whether they are doing the BA or the BS degree.

ADVISING AND CAREERS

ADVISING AND CAREERS

DECLARE OR CANCEL THIS MAJOR

Please follow the process described on the Language Sciences website (https://langsci.wisc.edu/advising/).

UNDERGRADUATE ADVISING

Contact the undergraduate advisor (https://langsci.wisc.edu/advising/) via email or using the Starfish app (https://wisc.starfishsolutions.com/starfish-ops/instructor/serviceCatalog.html#/connection/10252/schedule) to set up an appointment. The advisor is happy to meet with students who want to learn more about the major, careers in linguistics, linguistics course selection, and opportunities for participation in research in language sciences. A meeting with the advisor is required to declare the major.

CAREERS OF OUR ALUMNI

Read more about career options for students with the Linguistics major at our career page (https://langsci.wisc.edu/careers/).

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

LINGUISTICS OPPORTUNITY AWARD

The Linguistics Opportunity Award (https://langsci.wisc.edu/scholarships/) provides several scholarships to Linguistics students each year. Awardees are recognized for excellence in linguistics research and academic achievement, outreach and volunteering activities related to language science, and/or relevance of linguistics to their future plans.

The scholarship is funded through generous donations to the Linguistics Fund from alumni and other supporters of our program.

Deadline: January 15, apply through the WiSH portal.

LETTERS & SCIENCE - COLLEGE-WIDE

DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/CERTIFICATES

- Applied Social Science, BLS (p. 1197)
- Biochemistry, BA (L&S) (p. 1200)
- Biochemistry, BS (L&S) (p. 1208)
- College of Letters & Science Honors in the Liberal Arts (p. 1217)
- Individual Major, BA (p. 1217)
- Individual Major, BS (p. 1221)
- Microbiology, BA (L&S) (p. 1224)
- Microbiology, BS (L&S) (p. 1228)

APPLIED SOCIAL SCIENCE, BLS

The Applied Social Science, BLS no longer admits new students after Spring 2024 and the program will be discontinued Fall 2032. If you have any questions, please contact the department (see contact box).

The Major in Applied Social Science (MASS) is completed with the Bachelor of Liberal Studies (BLS) degree. The BLS and MASS are offered fully online and are ideal for returning students with some college credit. UW-Madison Online programs are designed with adult students in mind; they give students the flexibility to earn their degree while still meeting obligations at work and home.

Students in the MASS program will learn about how Social and Behavioral Science apply to their own lives and the world around them. BLS and MASS students will learn about world language study and global issues; understanding and engaging with diverse communities; ethical communication; and broader social issues that shape current events. Applied Social Sciences explores systematic and evidence-based study of the social world, encompassing all of the political, economic, legal, technological, and cultural ideas, structures, and processes that humans create to live together as a society. Social science data, methods, and theories help students understand how social life works to help social life work better.

Applied study across the social sciences, combined with integrated study of the liberal arts and sciences, is an ideal framework for identifying issues, questions, and opportunities that are important to humans, groups, institutions, and society. Students in this program will improve their skills as communicators and as knowledgeable participants in a civil and just society. They will increase their skills and develop their abilities to create and support more effective and equitable solutions to social problems.

HOW TO GET IN

HOW TO GET IN

The Applied Social Science, BLS no longer admits new students after Spring 2024 and the program will be discontinued Fall 2032. If you have any questions, please contact the department (see contact box).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 15) section of the Guide.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B • Ethnic Studies • Quantitative Reasoning Part A & Part B

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF LIBERAL STUDIES (BLS)

BACHELOR OF LIBERAL STUDIES DEGREE REQUIREMENTS

Breadth in the Degree	Complete: • 9 credits of Humanities breadth; and • 9 credits of Social Science breadth; and • 9 credits of Biological, Physical or Natural Science breadth.
BLS Broad Field Requirement	Complete: • 6 credits of Beyond US: Global & Language Study; and • 3 credits of Data Science & Digital Communication; and • 3 credits of Race, Diversity, & Global Issues in Context.
Integrating College, Career, and Liberal Studies	Complete at least 6 credits of Integrating College, Career, and Liberal Studies coursework.
Depth of Intermediate/ Advanced Coursework	Complete at least 30 credits at Intermediate or Advanced level.
Major	Declare and complete at least one major within the BLS degree program.
Elective	Complete elective credits to reach 120 total credits for the degree.
Total Credits	Complete at least 120 credits.
UW-Madison Experience	Complete both: • 30 credits in residence, overall; and • 30 credits in residence after the 86th credit.
Quality of Work	• 2.000 GPA in all coursework at UW–Madison • 2.000 GPA in Intermediate/Advanced level coursework at UW–Madison
Notes	• Eligible courses may apply to multiple requirements unless specifically noted otherwise. • Pass/Fail courses do not meet requirements, but may count as Electives. • Courses with multiple breadth designations may only be used to meet one breadth requirement. • Courses used to meet Communication A and Quantitative Reasoning A may not also be used to meet Breadth Requirements.

BLS Broad Field Requirement

Code	Title	Credits
Beyond US: Global and Language Study (complete at least two):		**6**
GEOG 340	World Regions in Global Context	
LINGUIS/ ANTHRO/ FOLKLORE/INTL ST 211	Global Language Issues	
Data Science and Digital Communication (complete at least one):		**3**
COM ARTS 325	Media and Human Behavior	
JOURN 175	Media Fluency for the Digital Age	
L I S 351	Introduction to Digital Information	
L I S 407	Data Storytelling with Visualization	
L I S 500	Code and Power	
Race, Diversity, and Global Issues in Context (complete at least one):		**3**
HDFS 174	Introduction into Cultural Diversity of Families	
JOURN 162	Mass Media in Multicultural America	
L I S 500	Code and Power	
Total Credits		**12**

Integrating College, Career, and Liberal Studies

Code	Title	Credits
Complete at least 6 credits from:		**6**
INTER-LS 145	How to Succeed in College	
INTER-LS 210	L&S Career Development: Taking Initiative	
INTER-LS 215	Communicating About Careers	
INTER-LS 260	Internship in the Liberal Arts and Sciences	
Total Credits		**6**

REQUIREMENTS FOR THE MAJOR

Complete 30 credits from the following:

Code	Title	Credits
Foundations (complete both):		**6**
INTER-LS 301	Methods in the Applied Social Sciences	
INTER-LS 302	Problems in the Applied Social Sciences	
Integrative Depth (complete 18 credits, including at least one course in each of the four areas below):		**18**
Ethical Communication (complete one):		
PHILOS 243	Ethics in Business	
COM ARTS 325	Media and Human Behavior	
COM ARTS 371	Communication and Conflict Resolution

SOC/ C&E SOC 360	Statistics for Sociologists I	
Social Issues (complete one):		
L I S 440	Navigating the Data Revolution: Concepts of Data & Information Science	
L I S 661	Information Ethics and Policy	
GEOG 307	International Migration, Health, and Human Rights	
LEGAL ST/ POLI SCI 217	Law, Politics and Society	
Capstone (complete both):		**6**
INTER-LS 601	Applied Social Sciences Problem Proposal	
INTER-LS 602	Applied Social Sciences Problem Analysis	
Total Credits		**30**

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all major courses
- 15 upper-level credits, taken in residence[1]
- 15 credit in the major, taken on campus

FOOTNOTES

[1] Upper-level courses in the major are course with the Intermediate or Advanced level designation

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Recognize, reason with, and combine multiple forms of qualitative and quantitative information and data that are common to the social sciences, from diverse perspectives and sources.
2. Critically evaluate and analyze information using a variety of methods common to the social sciences, informed by diverse perspectives.
3. Approach complex social, interpersonal, and institutional issues and opportunities for innovation from multiple perspectives, understanding them in a variety of contexts and from different cultural lenses.
4. Use tools and techniques common to the social sciences to combine their rigorous analysis of relevant evidence to develop and defend creative insights and effective solutions concerning these important issues.
5. Based on an understanding of the varied ways in which people experience social life and social institutions, students will collaborate and communicate proposed solutions effectively and ethically with people from a range of perspectives, cultures, and backgrounds.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This program is designed for transfer students, most of whom will enroll on a part-time basis. As such, there is not a four-year plan for this program. Please refer to the Requirements tab for more information about the curriculum and program plan.

ADVISING AND CAREERS

ADVISING AND CAREERS

ADVISING

Each UW–Madison Online student is assigned an academic and career advisor (https://oss.wisc.edu/about-us/).

CAREERS

Completion of the BLS+MASS complements many career paths. Coursework designed around a liberal arts education provides students with critical thinking, qualitative and quantitative analysis, and communication skills needed in all industries. A focused study of social sciences helps graduates understand:

- how the social world can be understood and explored in a structured and guided way; and
- how the tools used in the study of the social world can help identify issues that need attention and problems that could be solved.

Active engagement in the career development process is a vital component of a student’s personal growth in college and future success as a lifelong learner, professional, and global citizen. Advisors help prepare students for life post-graduation through individual and group advising.

BIOCHEMISTRY, BA (L&S)

The Biochemistry major in the College of Letters & Science no longer admits new students after Summer 2026 and the program will be discontinued Fall 2031. Students interested in Biochemistry can contact the Biochemistry major advisors (https://biochemmicrobio.wisc.edu/advising/) to discuss the College of Agricultural and Life Sciences Biochemistry major. For all other questions please contact CALS Acadmemic Affairs (https://guide.wisc.edu/undergraduate/letters-science/college-wide/biochemistry-ba/academicaffairs@cals.wisc.edu).

Biochemistry is a very broad science that studies the molecules and chemistry of life. Biochemistry focuses on the structure, properties, and interactions of molecules such as proteins, nucleic acids, sugars and lipids. Biochemistry's aim is to understand how these molecules participate in the processes that support the various functions of the living cell. These studies are therefore essential for understanding disease and finding cures, for improving agriculture and the production of food and biofuels, and to produce innovation in biotechnology.

Whereas other biological science majors may focus on cellular, organismal, or population-level biology, biochemistry focuses on processes that occur at the molecular to cellular levels. Therefore, this major has a greater focus on basic and quantitative sciences, such as math and, particularly, on chemistry.

Biochemistry graduates go on to a variety of careers in science and science-related fields. The major is designed to fit the needs of the student who wishes to achieve bachelor's-level training as well as those planning to pursue graduate or professional study. The degree serves as an excellent background for medical school or veterinary school admission, as well as for graduate study in biochemistry or other allied fields (biology, bacteriology, genetics, molecular biology, or oncology).

HOW TO GET IN

HOW TO GET IN

The Biochemistry major in the College of Letters & Science no longer admits new students after Summer 2026 and the program will be discontinued Fall 2031. Students interested in Biochemistry can contact the Biochemistry major advisors (https://biochemmicrobio.wisc.edu/advising/) to discuss the College of Agricultural and Life Sciences Biochemistry major. For all other questions please contact CALS Acadmemic Affairs (https://guide.wisc.edu/undergraduate/letters-science/college-wide/biochemistry-ba/academicaffairs@cals.wisc.edu).

Applicants interested in Biochemistry in the College of Letters & Science (L&S) may want to consider Biochemistry in the College of Agricultural and Life Sciences (CALS). Students who attend the CALS Student Orientation, Advising, and Registration (SOAR) have the option to declare Biochemistry at SOAR.

ADDITIONAL MAJOR IN BIOCHEMISTRY

Current UW-Madison students in other schools and colleges interested in completing an additional ("double") major in Biochemistry should consult with a Biochemistry advisor. Advisor contact information is found on the advising and careers tab.

Students who intend to major in Biochemistry may not combine this major ("double major") with the Molecular and Cell Biology major.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 15) section of the Guide.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B • Ethnic Studies • Quantitative Reasoning Part A & Part B

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.
Language	• Complete the fourth unit of a language other than English; OR • Complete the third unit of a language and the second unit of an additional language other than English.
L&S Breadth	• 12 credits of Humanities, which must include 6 credits of literature; and • 12 credits of Social Science; and • 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.

Liberal Arts and Science Coursework	Complete at least 108 credits.
Depth of Intermediate/ Advanced work	Complete at least 60 credits at the intermediate or advanced level.
Major	Declare and complete at least one major.
Total Credits	Complete at least 120 credits.
UW-Madison Experience	• 30 credits in residence, overall; and • 30 credits in residence after the 86th credit.
Quality of Work	• 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

MATHEMATICS

Mathematics Requirements

Code	Title	Credits
Complete all of the following options:		
MATH 221	Calculus and Analytic Geometry 1	5
MATH 222	Calculus and Analytic Geometry 2	4

CHEMISTRY

General Chemistry

Code	Title	Credits
Complete one sequence:		
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	9
CHEM 109	Advanced General Chemistry	5
CHEM 115 & CHEM 116	Chemical Principles I and Chemical Principles II (satisfies both general and analytical chemistry requirements)	10

Organic Chemistry

Code	Title	Credits
Complete All:		
CHEM 343	Organic Chemistry I	3
CHEM 344	Introductory Organic Chemistry Laboratory	2
CHEM 345	Organic Chemistry II	3

Analytical Chemistry

Code	Title	Credits
Complete one:		
CHEM 327	Fundamentals of Analytical Science	4
CHEM 329	Fundamentals of Analytical Science	4
CHEM 116	Chemical Principles II (satisfies both general and analytical chemistry requirements)	5

Physical Chemistry

Code	Title	Credits
Complete one:		
CHEM 665	Biophysical Chemistry (Recommended)	3
CHEM 561	Physical Chemistry I	3

BIOLOGY

Students must complete either Option A (introductory + upper-level biology), or Option B (biocore), for 16 total credits of biological science coursework.

Option A (Introductory and Upper-Level Biology)

Option A Introductory Biology

Code	Title	Credits
Complete one of the following introductory biology options:		
BIOLOGY/BOTANY/ ZOOLOGY 151 & BIOLOGY/ BOTANY/ ZOOLOGY 152	Introductory Biology and Introductory Biology (recommended)	10
BIOLOGY/ ZOOLOGY 101 & BIOLOGY/ ZOOLOGY 102 & BOTANY/ BIOLOGY 130	Animal Biology and Animal Biology Laboratory and General Botany	10

And Option A Upper-Level Biology

At least 6 credits of upper-level biological science coursework are required (to achieve 16 total credits—more than 6 credits may be required if introductory biology totals less than 10 credits due to transfer credits). Select from the course list below. To see courses offered in specific upcoming semesters, please see the biochemistry website (https://biochem.wisc.edu/undergraduate_program/advanced-biology-courses-undergraduate-program/).

Important: A course may not double count in both the "upper-level biology" and the "biochemistry" requirements for the major. Biochemistry courses on this list can count only for "upper-level biology" if they are above-and-beyond what is needed to fulfill the "biochemistry" portion of the major. For example, if students have taken BIOCHEM 501 (http://guide.wisc.edu/search/?P=BIOCHEM%20501), they will need one advanced biochemistry elective to fulfill the biochemistry requirement, and then any additional biochemistry courses taken can count for upper-level biology.

Code	Title	Credits
AGROECOL 370	Grassland Ecology	3
AGROECOL 377	Global Food Production and Health	3

Option B (Biocore)

Biocore is an honors-level, integrated sequence of lecture and lab courses that covers introductory and intermediate biology topics. Students must apply and be accepted to the program to take BIOCORE classes.

Code	Title	Credits
Complete these lecture courses:		
BIOCORE 381	Evolution, Ecology, and Genetics	3
BIOCORE 383	Cellular Biology	3
BIOCORE 485	Principles of Physiology	3
BIOCORE 587	Biological Interactions	3
Complete two of these lab classes:		4
BIOCORE 382	Evolution, Ecology, and Genetics Laboratory	
BIOCORE 384	Cellular Biology Laboratory	
BIOCORE 486	Principles of Physiology Laboratory	
Total Credits		**16**

PHYSICS (CALCULUS-BASED)

Physics Requirements

Code	Title	Credits
Complete one of the following options: [1]		
PHYSICS 207 & PHYSICS 208	General Physics and General Physics (recommended)	10
PHYSICS 201 & PHYSICS 202	General Physics and General Physics	10

BIOCHEMISTRY

One set of introductory coursework and the capstone course are required, for a total of three BIOCHEM courses.

Introductory Courses

Complete one of the following options.

Code	Title	Credits
Option 1		
BIOCHEM 507 & BIOCHEM 508	General Biochemistry I and General Biochemistry II (recommended)	6-7
Option 2		
BIOCHEM 501	Introduction to Biochemistry	3
And one of the following advanced biochemistry electives:		
BIOCHEM/ NUTR SCI 510	Nutritional Biochemistry and Metabolism	
BIOCHEM/ NUTR SCI 560	Principles of Human Disease and Biotechnology	
BIOCHEM/ M M & I 575	Biology of Viruses	
BIOCHEM 601	Protein and Enzyme Structure and Function	
BIOCHEM/B M I/ BMOLCHEM/ MATH 609	Mathematical Methods for Systems Biology	
BIOCHEM/ GENETICS/ MICROBIO 612	Prokaryotic Molecular Biology	
BIOCHEM/ GENETICS/ MD GENET 620	Eukaryotic Molecular Biology	
BIOCHEM/ BOTANY 621	Plant Biochemistry	
BIOCHEM 625	Mechanisms of Action of Vitamins and Minerals	
BIOCHEM/ GENETICS 631	Plant Genetics and Development	
BIOCHEM/ NUTR SCI 645	Molecular Control of Metabolism and Metabolic Disease	

Capstone

Code	Title	Credits
BIOCHEM 551	Biochemical Methods	4
Total Credits		**4**

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all BIOCHEM and major courses
- 2.000 GPA on at least 15 upper-level major credits in Residence.[2]
- 15 credits in BIOCHEM, taken on campus

[1] Students should consult with their advisor to discuss options if they have credit for PHYSICS 103 (http://guide.wisc.edu/search/?P=PHYSICS%20103) and PHYSICS 104 (http://guide.wisc.edu/search/?P=PHYSICS%20104).

[2] Major courses numbered 300-699 are considered Upper-Level in the major for purposes of this requirement.

HONORS IN THE MAJOR

Students may declare Honors in the Biochemistry Major in consultation with their Biochemistry undergraduate advisor. To be admitted to Honors in the Major in Biochemistry, students must have declared a major in Biochemistry and have a 3.300 overall university GPA.

HONORS IN THE MAJOR IN BIOCHEMISTRY: REQUIREMENTS

To earn honors in the major in biochemistry, students must satisfy the requirements for the major (above) as well as the following requirements. All courses used for honors in the major requirements must receive "B" or better grades to fulfill requirements.

- Earn a 3.300 University GPA
- Earn a 3.300 GPA for all BIOCHEM courses, and all courses accepted in the major
- Complete BIOCHEM 507 and BIOCHEM 508 for Honors
- Complete a two-semester Senior Honors Thesis for 6 credits total
- Complete at least 14 credits of any combination of the following coursework:
  - Honors courses that would fulfill the Biology or Biochemistry requirements in the major (see above)
  - Statistics coursework (can be AP or transfer credit and does not need to be taken for honors): STAT 301, STAT 371, or STAT/ B M I 541
  - Biochemistry elective coursework beyond the major requirements (does not need to be taken for honors): NUTR SCI/ BIOCHEM 510, BIOCHEM/NUTR SCI 560, M M & I/ BIOCHEM 575, BIOCHEM 601, MATH/B M I/ BIOCHEM/BMOLCHEM 609, MICROBIO/BIOCHEM/ GENETICS 612, MD GENET/BIOCHEM/GENETICS 620, BOTANY/BIOCHEM 621, BIOCHEM 625, BIOCHEM/ GENETICS 631, BIOCHEM/NUTR SCI 645
  - Honors coursework in MATH, CHEM, or PHYSICS, from the list below:

Math

Code	Title	Credits
MATH 341	Linear Algebra	3
MATH 375	Topics in Multi-Variable Calculus and Linear Algebra	5
MATH 376	Topics in Multi-Variable Calculus and Differential Equations	5
MATH 521	Analysis I	3
MATH 522	Analysis II	3
MATH 541	Modern Algebra 1	3
MATH 542	Modern Algebra 2	3

Chemistry

Code	Title	Credits
CHEM 109	Advanced General Chemistry	5
CHEM 115	Chemical Principles I	5
CHEM 116	Chemical Principles II	5
CHEM 343	Organic Chemistry I	3
CHEM 345	Organic Chemistry II	3
CHEM 329	Fundamentals of Analytical Science	4
CHEM 547	Advanced Organic Chemistry	3

CHEM 561	Physical Chemistry I	3
CHEM 563	Physical Chemistry Laboratory I	1
CHEM 562	Physical Chemistry II	3
CHEM 564	Physical Chemistry Laboratory II	1
CHEM 665	Biophysical Chemistry	3

Physics

Code	Title	Credits
PHYSICS 201	General Physics	5
PHYSICS 202	General Physics	5
PHYSICS 207	General Physics	5
PHYSICS 208	General Physics	5
PHYSICS 241	Introduction to Modern Physics	3
PHYSICS 247	A Modern Introduction to Physics	5
PHYSICS 248	A Modern Introduction to Physics	5
PHYSICS 249	A Modern Introduction to Physics	4

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. "In residence" credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Identify the fundamental biochemical principles that underlie all biological processes.
2. Communicate biochemical knowledge in both written reports and oral presentations to scientists and non-scientists.
3. Evaluate how biochemistry relates to other scientific disciplines and to contemporary issues in our society.
4. Demonstrate professional and ethical responsibility in scientific research.
5. Design and conduct quantitative experiments and/or interpret data to address a scientific question.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

SAMPLE BIOCHEMISTRY FOUR-YEAR PLAN

Freshman

Fall	Credits	Spring	Credits
CHEM 103 or 109	4-5	CHEM 104 (required if took CHEM 103)	5
MATH 221	5	MATH 222	4
Communications Part A	3	BIOCHEM 207 (recommended elective)	2
BIOCHEM 100[1]	1	Social Science Breadth	3

CHEM 343	3	CHEM 344	2
Literature Breadth	3	CHEM 345	3
Social Science Breadth	3	Ethnic Studies	3
INTER-LS 210 (recommended elective)	1	Social Science Breadth	3
	15		**16**

Junior

Fall	Credits	Spring	Credits
BIOCHEM 507	3	BIOCHEM 508	3-4
PHYSICS 207 or 201	5	PHYSICS 208 or 202	5
Humanities Breadth	3	CHEM 327	4
Electives	4	Literature Breadth	3
	15		**15**

Senior

Fall	Credits	Spring	Credits
CHEM 665 or BIOCHEM 551	3-4	BIOCHEM 551 or CHEM 665	3-4
Upper-Level Biology for major	3	Upper-Level Biology for major	3
Social Science Breadth	3	Humanities Breadth	3
Electives	3	Electives	3
BIOCHEM 691 or 681 (if needed)[3]	3	BIOCHEM 692 or 682 (if needed)	3
	16		**16**

Total Credits 120

[1] First-year students interested in exploring the major can enroll in BIOCHEM 100.

[2] Students may wish to consider pursuing the Biology Core Curriculum (Biocore) Honors certificate. For more details about how BIOCORE coursework can help them meet requirements for this major, see the Requirements page (https://guide.wisc.edu/undergraduate/letters-science/college-wide/biochemistry-bs/#requirementstext). Students should consult with their advisor to identify the biological science sequence that best suits their academic and personal goals.

[3] Senior Thesis, Directed Study, or work experience in laboratory are recommended, but are not required for the major. However, a Senior Honors Thesis is required to earn Honors in the Major.

ADVISING AND CAREERS

ADVISING AND CAREERS

HOW TO DECLARE

If you are interested in exploring or declaring the Biochemistry major, schedule an appointment with a Biochemistry academic advisor usingStarfish.

ACADEMIC ADVISING

Each student is assigned a professional academic advisor who works to understand student goals and helps to craft a path that best suits their needs. Students can learn more about the major and advising support in Biochemistry on the Biochemistry & Microbiology Undergraduate Advising Hub website.

- Schedule an Appointment: Current UW-Madison students can schedule an appointment with a Biochemistry academic advisor using Starfish.
- Send an Email: Reach out to us with brief questions atbiochemmicrobio-advisor@wisc.edu.
- Drop-in Hours: Drop-in advising hours for quick (10–15 minute) questions, on a first-come, first-serve basis, are posted on theBiochemistry / Microbiology Undergraduate Advising Hub website#each semester.

CAREERS IN BIOCHEMISTRY

Biochemistry is a broad science that studies the molecules and chemistry of life and focuses on the structure, properties, and interactions of molecules such as proteins, nucleic acids, sugars and lipids.

Graduates of this program find rewarding, exciting, and professional work across all fields, such as biotechnology, pharmaceuticals, healthcare, life sciences, education, research, graduate school, and so much more. Be sure to check out our "Meet Our Alumni" website!

CAREER SUPPORT

Through events, one-on-one career advising, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

Students should set up their profiles in Handshake (https://wisc.joinhandshake.com/login/) to take care of everything they need to explore career events, manage their campus interviews, and apply to jobs and internships from 200,000+ employers around the country.

All students are welcome to attend events and use resources offered by career services across campus, but appointments should be made with career service advisors in your declared college.

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

WISCONSIN EXPERIENCE

WISCONSIN EXPERIENCE

A RICH HISTORY OF BIOCHEMISTRY

Biochemistry at UW–Madison is consistently ranked as having top undergraduate and graduate programs. Founded in 1883, we are recognized for world-renowned advances in biochemistry, from treatments for heart diseases, nutrient deficiencies, and viruses, to crop breeding and animal husbandry, and more.

COMMUNITY ENGAGEMENT

Our students engage in various activities outside of the classroom:

Biochemistry Student Club

The American Society for Biochemistry and Molecular Biology (ASBMB) UW-Madison Student Chapter is a student organization for students interested in Biochemistry. ASBMB provides information about careers and job opportunities, how to get involved in research, and volunteer and outreach opportunities.

Biochemistry Scholars Program

The Biochemistry Scholars Program provides hands-on research experience to our first-year (freshman) undergraduate majors. Students apply for this program in the Spring of their first-year (freshman) and students who are accepted begin no later than the Fall semester of the same calendar year. In this program, students will participate in one or more research projects for a period of up to three years.

Biochemistry Peer Mentor Program

The Biochemistry Peer Mentor Program is a program that connects first-year and second-year students (mentees) with non-first year students (mentors) in their same major, and works to match mentees and mentors who have like interests and involvements on campus. This program runs each Fall and Spring semester, so students declared in the major should watch their wisc.edu email for invitations.

Biochemistry Engagement Program

The Biochemistry Engagement Program encourages, celebrates, and recognizes the importance of students' involvement within the department. The goal of this program is to engage and integrate undergraduate Biochemistry students into the Biochemistry Department through structured, pre-determined activities that you complete outside of the classroom and in research.

RESEARCH EXPERIENCE

Students are encouraged to get involved in research, whether in the Biochemistry Department or through other life science or chemistry-related departments. Research can be performed for either course credit or pay, depending on the opportunity.

TheBiochemistry website#and the advisors can provide more information on finding research opportunities. Summer funding awards for research are available through the department.

GLOBAL ENGAGEMENT

Biochemistry majors can participate in several international academic experiences including short-term field experiences, summer research opportunities, and semester-long exchange programs at top universities around the world.

You can see more information about planning for a Study Abroad program as a Biochemistry major on the Biochemistry MAPS website, and find specific information about the programs the Biochemistry Department offers on the Biochemistry International Opportunities website.

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

The Department of Biochemistry offers several scholarships (https://biochem.wisc.edu/academics/scholarships-awards/) to students in the Biochemistry major. Awards are given annually and fund undergraduate research, provide travel stipends to Biochemistry students attending professional scientific conferences, or recognize outstanding graduating seniors.

BIOCHEMISTRY, BS (L&S)

The Biochemistry major in the College of Letters & Science no longer admits new students after Summer 2026 and the program will be discontinued Fall 2031. Students interested in Biochemistry can contact the Biochemistry major advisors (https://biochemmicrobio.wisc.edu/advising/) to discuss the College of Agricultural and Life Sciences Biochemistry major. For all other questions please contact CALS Acadmemic Affairs (https://guide.wisc.edu/undergraduate/letters-science/college-wide/biochemistry-bs/academicaffairs@cals.wisc.edu).

Biochemistry is a very broad science that studies the molecules and chemistry of life. Biochemistry focuses on the structure, properties, and interactions of molecules such as proteins, nucleic acids, sugars and lipids. Biochemistry's aim is to understand how these molecules participate in the processes that support the various functions of the living cell. These studies are therefore essential for understanding disease and finding cures, for improving agriculture and the production of food and biofuels, and to produce innovation in biotechnology.

Whereas other biological science majors may focus on cellular, organismal, or population-level biology, biochemistry focuses on processes that occur at the molecular to cellular levels. Therefore, this major has a greater focus on basic and quantitative sciences, such as math and, particularly, on chemistry.

Biochemistry graduates go on to a variety of careers in science and science-related fields. The major is designed to fit the needs of the student who wishes to achieve bachelor's-level training as well as those planning to pursue graduate or professional study. The degree serves as an excellent background for medical school or veterinary school admission, as well as for graduate study in biochemistry or other allied fields (biology, bacteriology, genetics, molecular biology, or oncology).

HOW TO GET IN

HOW TO GET IN

Applicants interested in Biochemistry in the College of Letters & Science (L&S) may want to consider Biochemistry in the College of Agricultural and Life Sciences (CALS). Students who attend the CALS Student Orientation, Advising, and Registration (SOAR) have the option to declare Biochemistry at SOAR.

ADDITIONAL MAJOR IN BIOCHEMISTRY

Current UW-Madison students in other schools and colleges interested in completing an additional ("double") major in Biochemistry should consult with a Biochemistry advisor. Advisor contact information is found on the advising and careers tab.

Students who intend to major in Biochemistry may not combine this major ("double major") with the Molecular and Cell Biology major.

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 15) section of the Guide.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B • Ethnic Studies • Quantitative Reasoning Part A & Part B

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.
Language	Complete the third unit of a language other than English.
L&S Breadth	Complete: • 12 credits of Humanities, which must include at least 6 credits of Literature; and • 12 credits of Social Science; and • 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.
Liberal Arts and Science Coursework	Complete at least 108 credits.
Depth of Intermediate/ Advanced Coursework	Complete at least 60 credits at the Intermediate or Advanced level.
Major	Declare and complete at least one major.
Total Credits	Complete at least 120 credits.
UW-Madison Experience	Complete both: • 30 credits in residence, overall, and • 30 credits in residence after the 86th credit.
Quality of Work	• 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

MATHEMATICS

Mathematics Requirements

Code	Title	Credits
Complete all of the following options:		
MATH 221	Calculus and Analytic Geometry 1	5
MATH 222	Calculus and Analytic Geometry 2	4

CHEMISTRY

General Chemistry

Code	Title	Credits
Complete one sequence:		
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	9
CHEM 109	Advanced General Chemistry	5
CHEM 115 & CHEM 116	Chemical Principles I and Chemical Principles II (satisfies both general and analytical chemistry requirements)	10

Organic Chemistry

Code	Title	Credits
Complete All:		
CHEM 343	Organic Chemistry I	3

CHEM 344	Introductory Organic Chemistry Laboratory	2
CHEM 345	Organic Chemistry II	3

Analytical Chemistry

Code	Title	Credits
Complete one:		
CHEM 327	Fundamentals of Analytical Science	4
CHEM 329	Fundamentals of Analytical Science	4
CHEM 116	Chemical Principles II (satisfies both general and analytical chemistry requirements)	5

Physical Chemistry

Code	Title	Credits
Complete one:		
CHEM 665	Biophysical Chemistry (Recommended)	3
CHEM 561	Physical Chemistry I	3

BIOLOGY

Students must complete either Option A (introductory + upper-level biology), or Option B (biocore), for 16 total credits of biological science coursework.

Option A (Introductory and Upper-Level Biology)

Option A Introductory Biology

Code	Title	Credits
Complete one of the following introductory biology options:		
BIOLOGY/BOTANY/ ZOOLOGY 151 & BIOLOGY/ BOTANY/ ZOOLOGY 152	Introductory Biology and Introductory Biology (recommended)	10
BIOLOGY/ ZOOLOGY 101 & BIOLOGY/ ZOOLOGY 102 & BOTANY/ BIOLOGY 130	Animal Biology and Animal Biology Laboratory and General Botany	10

And Option A Upper-Level Biology

At least 6 credits of upper-level biological science coursework are required (to achieve 16 total credits—more than 6 credits may be required if introductory biology totals less than 10 credits due to transfer credits). Select from the course list below. To see courses offered in specific upcoming semesters, please see the biochemistry website (https://biochem.wisc.edu/undergraduate_program/advanced-biology-courses-undergraduate-program/).

Important: A course may not double count in both the "upper-level biology" and the "biochemistry" requirements for the major. Biochemistry courses on this list can count only for "upper-level biology" if they are above-and-beyond what is needed to fulfill the "biochemistry" portion of the major. For example, if students have taken BIOCHEM 501 (http://guide.wisc.edu/search/?P=BIOCHEM%20501), they will need one advanced biochemistry elective to fulfill the biochemistry requirement, and then any additional biochemistry courses taken can count for upper-level biology.

Code	Title	Credits
AGROECOL 370	Grassland Ecology	3
AGROECOL 377	Global Food Production and Health	3
ANAT&PHY 335	Physiology	5

Option B (Biocore)

Biocore is an honors-level, integrated sequence of lecture and lab courses that covers introductory and intermediate biology topics. Students must apply and be accepted to the program to take BIOCORE classes.

Code	Title	Credits
Complete these lecture courses:		
BIOCORE 381	Evolution, Ecology, and Genetics	3
BIOCORE 383	Cellular Biology	3
BIOCORE 485	Principles of Physiology	3
BIOCORE 587	Biological Interactions	3
Complete two of these lab classes:		4
BIOCORE 382	Evolution, Ecology, and Genetics Laboratory	
BIOCORE 384	Cellular Biology Laboratory	
BIOCORE 486	Principles of Physiology Laboratory	
Total Credits		**16**

PHYSICS (CALCULUS-BASED)

Physics Requirements

Code	Title	Credits
Complete one of the following options: [1]		
PHYSICS 207 & PHYSICS 208	General Physics and General Physics (recommended)	10
PHYSICS 201 & PHYSICS 202	General Physics and General Physics	10

BIOCHEMISTRY

One set of introductory coursework and the capstone course are required, for a total of three BIOCHEM courses.

Introductory Courses

Complete one of the following options.

Code	Title	Credits
Option 1		
BIOCHEM 507 & BIOCHEM 508	General Biochemistry I and General Biochemistry II (recommended)	6-7
Option 2		
BIOCHEM 501	Introduction to Biochemistry	3
And one of the following advanced biochemistry electives:		
BIOCHEM/ NUTR SCI 510	Nutritional Biochemistry and Metabolism	
BIOCHEM/ NUTR SCI 560	Principles of Human Disease and Biotechnology	
BIOCHEM/ M M & I 575	Biology of Viruses	
BIOCHEM 601	Protein and Enzyme Structure and Function	
BIOCHEM/B M I/ BMOLCHEM/ MATH 609	Mathematical Methods for Systems Biology	
BIOCHEM/ GENETICS/ MICROBIO 612	Prokaryotic Molecular Biology	
BIOCHEM/ GENETICS/ MD GENET 620	Eukaryotic Molecular Biology	
BIOCHEM/ BOTANY 621	Plant Biochemistry	
BIOCHEM 625	Mechanisms of Action of Vitamins and Minerals	
BIOCHEM/ GENETICS 631	Plant Genetics and Development	
BIOCHEM/ NUTR SCI 645	Molecular Control of Metabolism and Metabolic Disease	

Capstone

Code	Title	Credits
BIOCHEM 551	Biochemical Methods	4
Total Credits		**4**

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all BIOCHEM and major courses
- 2.000 GPA on at least 15 upper-level major credits in Residence. [2]
- 15 credits in BIOCHEM, taken on campus

[1] Students should consult with their advisor to discuss options if they have credit for PHYSICS 103 (http://guide.wisc.edu/search/?P=PHYSICS%20103) and PHYSICS 104 (http://guide.wisc.edu/search/?P=PHYSICS%20104).

[2] Major courses numbered 300-699 are considered Upper-Level in the major for purposes of this requirement.

HONORS IN THE MAJOR

Students may declare Honors in the Biochemistry Major in consultation with their Biochemistry undergraduate advisor. To be admitted to Honors in the Major in Biochemistry, students must have declared a major in Biochemistry and have a 3.300 overall university GPA.

HONORS IN THE MAJOR IN BIOCHEMISTRY: REQUIREMENTS

To earn honors in the major in biochemistry, students must satisfy the requirements for the major (above) as well as the following requirements. All courses used for honors in the major requirements must receive "B" or better grades to fulfill requirements.

- Earn a 3.300 University GPA
- Earn a 3.300 GPA for all BIOCHEM courses, and all courses accepted in the major
- Complete BIOCHEM 507 and BIOCHEM 508 for Honors
- Complete a two-semester Senior Honors Thesis for 6 credits total
- Complete at least 14 credits of any combination of the following coursework:
  - Honors courses that would fulfill the Biology or Biochemistry requirements in the major (see above)
  - Statistics coursework (can be AP or transfer credit and does not need to be taken for honors): STAT 301, STAT 371, or STAT/B M I 541
  - Biochemistry elective coursework beyond the major requirements (does not need to be taken for honors): NUTR SCI/BIOCHEM 510, BIOCHEM/NUTR SCI 560, M M & I/BIOCHEM 575, BIOCHEM 601, MATH/B M I/BIOCHEM/BMOLCHEM 609, MICROBIO/BIOCHEM/GENETICS 612, MD GENET/BIOCHEM/GENETICS 620, BOTANY/BIOCHEM 621, BIOCHEM 625, BIOCHEM/GENETICS 631, BIOCHEM/NUTR SCI 645
  - Honors coursework in MATH, CHEM, or PHYSICS, from the list below:

Math

Code	Title	Credits
MATH 341	Linear Algebra	3
MATH 375	Topics in Multi-Variable Calculus and Linear Algebra	5
MATH 376	Topics in Multi-Variable Calculus and Differential Equations	5
MATH 521	Analysis I	3
MATH 522	Analysis II	3
MATH 541	Modern Algebra 1	3
MATH 542	Modern Algebra 2	3

Chemistry

Code	Title	Credits
CHEM 109	Advanced General Chemistry	5
CHEM 115	Chemical Principles I	5
CHEM 116	Chemical Principles II	5
CHEM 343	Organic Chemistry I	3
CHEM 345	Organic Chemistry II	3
CHEM 329	Fundamentals of Analytical Science	4
CHEM 547	Advanced Organic Chemistry	3
CHEM 561	Physical Chemistry I	3
CHEM 563	Physical Chemistry Laboratory I	1
CHEM 562	Physical Chemistry II	3
CHEM 564	Physical Chemistry Laboratory II	1
CHEM 665	Biophysical Chemistry	3

Physics

Code	Title	Credits
PHYSICS 201	General Physics	5
PHYSICS 202	General Physics	5
PHYSICS 207	General Physics	5
PHYSICS 208	General Physics	5
PHYSICS 241	Introduction to Modern Physics	3
PHYSICS 247	A Modern Introduction to Physics	5
PHYSICS 248	A Modern Introduction to Physics	5
PHYSICS 249	A Modern Introduction to Physics	4

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Identify the fundamental biochemical principles that underlie all biological processes.
2. Communicate biochemical knowledge in both written reports and oral presentations to scientists and non-scientists.
3. Evaluate how biochemistry relates to other scientific disciplines and to contemporary issues in our society.
4. Demonstrate professional and ethical responsibility in scientific research.
5. Design and conduct quantitative experiments and/or interpret data to address a scientific question.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

SAMPLE BIOCHEMISTRY FOUR-YEAR PLAN

Freshman

Fall	Credits	Spring	Credits
CHEM 103 or 109	4-5	CHEM 104 (required if took CHEM 103)	5
MATH 221	5	MATH 222	4
Communications Part A	3	BIOCHEM 207 (recommended elective)	2
BIOCHEM 100[1]	1	Social Science Breadth	3
	13		**14**

Sophomore

Fall	Credits	Spring	Credits
ZOOLOGY/BIOLOGY/ BOTANY 151[2]	5	ZOOLOGY/BIOLOGY/ BOTANY 152	5
CHEM 343	3	CHEM 344	2
Literature Breadth	3	CHEM 345	3
Social Science Breadth	3	Ethnic Studies	3
INTER-LS 210 (recommended elective)	1	Social Science Breadth	3
	15		**16**

Junior

Fall	Credits	Spring	Credits
BIOCHEM 507	3	BIOCHEM 508	3-4
PHYSICS 207 or 201	5	PHYSICS 208 or 202	5
Humanities Breadth	3	CHEM 327	4
Electives	4	Literature Breadth	3
	15		**15**

Senior

Fall	Credits	Spring	Credits
CHEM 665 or BIOCHEM 551	3-4	BIOCHEM 551 or CHEM 665	3-4
Upper-Level Biology for major	3	Upper-Level Biology for major	3
Social Science Breadth	3	Humanities Breadth	3
Electives	3	Electives	3
BIOCHEM 691 or 681 (if needed)[3]	3	BIOCHEM 692 or 682 (if needed)	3
	16		**16**

Total Credits 120

1 First-year students interested in exploring the major can enroll in BIOCHEM 100.

2 Students may wish to consider pursuing the Biology Core Curriculum (Biocore) Honors certificate. For more details about how BIOCORE coursework can help them meet requirements for this major, see the Requirements page (https://guide.wisc.edu/undergraduate/letters-science/college-wide/biochemistry-bs/#requirementstext). Students should consult with their advisor to identify the biological science sequence that best suits their academic and personal goals.

3 Senior Thesis, Directed Study, or work experience in laboratory are recommended, but are not required for the major. However, a Senior Honors Thesis is required to earn Honors in the Major.

ADVISING AND CAREERS

ADVISING AND CAREERS

HOW TO DECLARE

If you are interested in exploring or declaring the Biochemistry major, schedule an appointment with a Biochemistry academic advisor usingStarfish.

ACADEMIC ADVISING

Each student is assigned a professional academic advisor who works to understand student goals and helps to craft a path that best suits their needs. Students can learn more about the major and advising support in Biochemistry on the Biochemistry & Microbiology Undergraduate Advising Hub website.

- Schedule an Appointment: Current UW-Madison students can schedule an appointment with a Biochemistry academic advisor using Starfish.
- Send an Email: Reach out to us with brief questions atbiochemmicrobio-advisor@wisc.edu.
- Drop-in Hours: Drop-in advising hours for quick (10–15 minute) questions, on a first-come, first-serve basis, are posted on theBiochemistry / Microbiology Undergraduate Advising Hub website#each semester.

CAREERS IN BIOCHEMISTRY

Biochemistry is a broad science that studies the molecules and chemistry of life and focuses on the structure, properties, and interactions of molecules such as proteins, nucleic acids, sugars and lipids.

Graduates of this program find rewarding, exciting, and professional work across all fields, such as biotechnology, pharmaceuticals, healthcare, life sciences, education, research, graduate school, and so much more. Be sure to check out our “Meet Our Alumni” website!

CAREER SUPPORT

Through events, one-on-one career advising, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

Students should set up their profiles in Handshake (https://wisc.joinhandshake.com/login/) to take care of everything they need to explore career events, manage their campus interviews, and apply to jobs and internships from 200,000+ employers around the country.

All students are welcome to attend events and use resources offered by career services across campus, but appointments should be made with career service advisors in your declared college.

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

WISCONSIN EXPERIENCE

WISCONSIN EXPERIENCE
A RICH HISTORY OF BIOCHEMISTRY

Biochemistry at UW–Madison is consistently ranked as having top undergraduate and graduate programs. Founded in 1883, we are recognized for world-renowned advances in biochemistry, from treatments for heart diseases, nutrient deficiencies, and viruses, to crop breeding and animal husbandry, and more.

COMMUNITY ENGAGEMENT

Our students engage in various activities outside of the classroom:

Biochemistry Student Club

The American Society for Biochemistry and Molecular Biology (ASBMB) UW-Madison Student Chapter is a student organization for students interested in Biochemistry. ASBMB provides information about careers and job opportunities, how to get involved in research, and volunteer and outreach opportunities.

Biochemistry Scholars Program

The Biochemistry Scholars Program provides hands-on research experience to our first-year (freshman) undergraduate majors. Students apply for this program in the Spring of their first-year (freshman) and students who are accepted begin no later than the Fall semester of the same calendar year. In this program, students will participate in one or more research projects for a period of up to three years.

Biochemistry Peer Mentor Program

The Biochemistry Peer Mentor Program is a program that connects first-year and second-year students (mentees) with non-first year students (mentors) in their same major, and works to match mentees and mentors who have like interests and involvements on campus. This program runs each Fall and Spring semester, so students declared in the major should watch their wisc.edu email for invitations.

Biochemistry Engagement Program

The Biochemistry Engagement Program encourages, celebrates, and recognizes the importance of students' involvement within the department. The goal of this program is to engage and integrate undergraduate Biochemistry students into the Biochemistry Department through structured, pre-determined activities that you complete outside of the classroom and in research.

RESEARCH EXPERIENCE

Students are encouraged to get involved in research, whether in the Biochemistry Department or through other life science or chemistry-related departments. Research can be performed for either course credit or pay, depending on the opportunity.

TheBiochemistry website#and the advisors can provide more information on finding research opportunities. Summer funding awards for research are available through the department.

GLOBAL ENGAGEMENT

Biochemistry majors can participate in several international academic experiences including short-term field experiences, summer research opportunities, and semester-long exchange programs at top universities around the world.

You can see more information about planning for a Study Abroad program as a Biochemistry major on the Biochemistry MAPS website, and find specific information about the programs the Biochemistry Department offers on the Biochemistry International Opportunities website.

COLLEGE OF LETTERS & SCIENCE HONORS IN THE LIBERAL ARTS

The College of Letters & Science Honors Program provides a community for many of the university's most talented and engaged undergraduates. Students of all backgrounds and academic interests challenge and learn from each other while working closely with faculty members and completing Honors coursework. The Honors Program is home to around 1,500 motivated, curious students, all pursuing one of three degree tracks: Honors in the Liberal Arts, Honors in the Major, or Comprehensive Honors —the highest undergraduate degree awarded by the college. In addition to an enhanced curriculum that offers small, faculty-led courses, the program also offers academic advising services; grants, scholarships, and awards; and many professional development and cocurricular opportunities. Events, term-specific deadlines, and much more can be found on the L&S Honors Program website (http://honors.ls.wisc.edu/). We welcome inquiries via email at honors@honors.ls.wisc.edu. The L&S Honors Program is located in the historic Washburn Observatory at 1401 Observatory Drive in Madison, WI 53706.

HOW TO GET IN

HOW TO GET IN

To become a candidate for the Honors in the Liberal Arts degree, a student must apply directly to the L&S Honors Program. Students follow different application procedures based on whether they are an incoming (non-transfer) student newly admitted to the College of Letters and Science, a transfer student, or a continuing L&S student.

All students admitted to the university and to the College of Letters & Science are invited to apply to be considered for admission to the Honors Program to pursue the Honors in the Liberal Arts degree. Interested incoming students can apply via an online application. L&S admitted students receive an invitation message by email that contains application instructions, and instructions are also on the Honors Program website. Admission to the program is competitive, and space is limited.

Continuing L&S undergraduates and transfer students with a cumulative grade point average of 3.300 or above who are currently enrolled at UW–Madison or who are transferring to UW–Madison from another college or university may apply. Application instructions and decision timelines are available on the Honors Program website (http://honors.ls.wisc.edu/). While continuing or transfer students having 60 or more credits at the time of application to the Honors Program are eligible to pursue the Honors in the Liberal Arts (HLA) degree track, they are encouraged to consider Honors in the Major (HM) as an option (see below), since they may find it difficult to prioritize and complete the HLA degree requirements. Meeting with an Honors advisor can help interested students understand Honors requirements and possible paths forward.

REQUIREMENTS

REQUIREMENTS

Honors in the Liberal Arts requires students earn Honors credits in a breadth of disciplines and is meant to enrich and enhance a student's academic experience outside of the major. Coursework toward Honors in the Liberal Arts should be started as soon as possible and spread throughout a student's undergraduate degree. Students who complete this curriculum build connections with faculty and peers and develop strong skills in communication, critical thinking and complex problem solving, which will serve them well regardless of career path. The specific requirements for the HLA degree are:

- completion of the L&S general degree requirements
- a University GPA of 3.300 or higher at the time of graduation
- completion of at least 24 credits in Honors courses with the Liberal Arts & Science (LAS) designation and with grades of B or better, of which:
  - at least 15 credits must be in courses with the Honors Only or Accelerated Honors designation
  - 6 of the credits must be courses designated as Humanities (may include Literature designation)
  - 6 of the credits must be courses designated as Social Science
  - 6 of the credits must be courses designated as Biological, Physical, or Natural Science

Honors may be earned in any L&S undergraduate degree (Bachelor of Arts; Bachelor of Science; Bachelor of Science–Applied Mathematics, Engineering, and Physics; Bachelor of Arts–Journalism or Bachelor of Science–Journalism; Bachelor of Landscape Architecture; Bachelor of Music; and Bachelor of Social Work). For students who complete the requirements, Honors will appear on diplomas and transcripts (for example, BA with Honors in the Liberal Arts or BS with Honors in the Major).

ADVISING AND CAREERS

ADVISING AND CAREERS

The L&S Honors Program has a team of dedicated academic advisors who accompany and support Honors candidates from the time the students join the Honors Program through their graduation. Advisors help individual students as they navigate a large, complex university, explore diverse educational and cocurricular experiences, and develop and pursue long-term goals. Advising occurs through a variety of formats including small group workshops, individual appointments, drop-in hours, and email. Additional information is available on the Honors Program website (http://honors.ls.wisc.edu/).

The L&S Honors Program encourages our students to begin working on their career exploration and preparation soon after arriving on campus. We partner with the L&S SuccessWorks office to help students leverage the academic skills learned in the major(s) and liberal arts degree, explore and try out different career paths, participate in internships, prepare for the job search and/or graduate school applications, and network with professionals in the field (alumni and employers).

INDIVIDUAL MAJOR, BA

The Individual Major in the College of Letters & Science is a method of fulfilling the major requirement for students whose interests bridge departments and disciplines in ways not accommodated by an existing major. The Individual Major must consist of a coherent pattern of courses in more than one department or recognized interdisciplinary program in

the College of Letters & Science and must be approved by a committee of appropriate faculty from the College of Letters & Science.

Getting approval to pursue an Individual Major is never guaranteed. Thus, students should discuss alternative majors with their academic advisors and be willing to pursue them. Students interested in learning more about the Individual Major should contact L&S Undergraduate Academic Deans' Services to set up an appointment with the coordinator for the Individual Major prior to starting this process.

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to get in	Application required. Meeting the requirements listed below does not guarantee admission.
Courses required to get in	None. Students can use a maximum of two courses completed prior to getting their Individual Major approved as part of their proposed major curriculum.
GPA requirements to get in	Minimum 2.000 University GPA.
Credits required to get in	Students must receive committee approval by the first semester of their Junior year.
Other	To be eligible to apply, students: • must be an L&S degree student, • may not be declared in another major or degree program, and • may not have more than one Individual Major.

Semester	Deadline to apply	Decision notification timeline
To apply for a fall start	Friday of the fourth week of preceding Spring term.	By the end of the eighth week of preceding Spring term.
To apply for a spring start	Friday of the fourth week of preceding Fall term.	By the end of the eighth week of preceding Fall term.
To apply for a summer start	This program does not accept applications to start in the summer.	

APPLYING FOR AN INDIVIDUAL MAJOR

Please see this site for information on how to apply for the individual major: Applying for an L&S Individual Major. (https://kb.wisc.edu/ls/159897/)

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.

English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a Bachelor of Arts degree in the College of Letters & Science must complete all of the requirements below. Some courses satisfy more than one L&S degree requirement (visit College of Letters & Science: Requirements (https://guide.wisc.edu/undergraduate/letters-science/#requirementstext) for details).

This major can be paired with either the Bachelor of Arts or Bachelor of Science degree requirements.

BACHELOR OF ARTS DEGREE REQUIREMENTS

Communication	Complete both: • Part A: one course with the Communication A designation or eligible UW Placement Score; and • Part B: one course with the Communication B designation
Quantitative Reasoning	Complete both: • Part A: one course with the Quantitative Reasoning A designation or eligible UW Placement Score; and • Part B: one course with the Quantitative Reasoning B designation
Ethnic Studies	one 3+ credit course with the Ethnic Studies designation
Language	Complete either: • the fourth unit of one language other than English; or • the third unit of one language other than English and the second unit of an additional language.
L&S Breadth: Humanities	Complete 12 credits with the Humanities or Literature designation, which must include at least 6 credits with the Literature designation.
L&S Breadth: Social Sciences	Complete 12 credits with the Social Science designation.
L&S Breadth: Natural Sciences	Complete 12 credits with the Natural Science, Biological Science, or Physical Science designations, which must include both: • one 3+ credit course with the Biological Science designation, and • one 3+ credit course with the Physical Science designation.
Liberal Arts and Science (LAS) Coursework	at least 108 credits
Depth of Intermediate/ Advanced work	at least 60 credits at the Intermediate or Advanced level
Major	Declare and complete at least one major.
Total Credits	at least 120 credits
UW-Madison Experience	• 30 credits in residence, overall; and • 30 credits in residence after the 86th credit
Quality of Work	• 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their School/College to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

Students are required to complete at least 30 credits after the term in which approval is given, and complete their approved individual major course plan (see below).

DEVELOPING AN INDIVIDUAL MAJOR

The student takes primary responsibility for developing an Individual Major proposal. A well-written proposal must meet the requirements and rigor for a major in the College of Letters & Science; therefore, a proposal must be more than a list of courses that are similar in content area or subject matter. The student proposing an Individual Major must also demonstrate that the proposed Individual Major is not currently available as an option in any of the L&S majors or certificate programs.

Students interested in the Individual Major must meet with an L&S academic dean as part of the process of defining the theme or topic for the Individual Major. The L&S academic dean will provide information and feedback about the construction of the major and how it might relate to other majors in the college as well. Schedule an appointment via the email or telephone number listed in the contact box.

Once a theme or topic has been identified, the student must find a tenured faculty member in the College of Letters & Science who is willing to serve as the Individual Major advisor. This designated faculty advisor will:

- assist the student in constructing the Individual Major proposal by defining the relevant themes, learning objectives, and rationale for the major and by sharpening presentation of the student's proposal;
- assist in the review and selection of courses for the major plan included in the proposal;
- advise the student in course selection if the proposal is approved and, in consultation with the L&S Academic Deans' Services (ADS), track progress toward completion of the major.

Students can use a maximum of two courses completed prior to getting the Individual Major approved as part of their list of courses included in this proposal.

When the proposal is ready, the student is responsible for submitting a full and complete application to L&S Academic Deans' Services. See the How to Get in tab (p. 1218) for deadlines and application information.

A faculty committee will review the proposal and plan of study. The committee may approve the proposal as submitted, recommend modifications, reject the proposal altogether, or reject it with an invitation to revise and resubmit in a later semester. The committee's decision is final.

Students with approved plans who wish to alter their plan of study at a later date must contact L&S Academic Deans' Services to initiate faculty committee review of their proposed changes and rationale for alteration.

HONORS IN THE INDIVIDUAL MAJOR: REQUIREMENTS

To earn Honors in the Individual Major, students must:

- Complete 36 credits toward the Individual Major
- Complete 20 credits, taken for Honors, with individual grades of B or better, toward the Individual Major, to include a two-semester Senior Honors Thesis for a total of 6 credits.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

Due to the nature of the Individual Major, the following four-year plan is meant solely as a guide. Once/if a student is approved to pursue an Individual Major, the student will develop and discuss their four-year plan with their advisor.

First Year

Fall	Credits	Spring	Credits
Communication-A (complete during your first year)	3	Ethnic Studies (complete within your first 60 credits)	3
Quantitative Reasoning-A (complete during your first year)	3-4	Language (if needed)	4
Language (if needed)	4	Elective	3
L&S Breadth	3	L&S Breadth	3
		I/A Comp Sci, Math, or Stats (if required for the BS degree)	4-5
	13		**17**

Second Year

Fall	Credits	Spring	Credits
Quantitative Reasoning-B	3	Communication-B	3
I/A Comp Sci, Math, or Stats (if required for the BS degree)	3-4	INTER-LS 215 (optional)	3
INTER-LS 210 (optional)	1	L&S Breadth	3
L&S Breadth	3	Elective	3
Elective	3	Elective	3
Elective	3		
	16		**15**

Third Year

Approved IM Major Course	3	Approved IM Major Course	3
Elective	3	Elective	3
Elective	3	Elective	3
Elective	3	Elective	2-3
	15		**14**

Total Credits 120

ADVISING AND CAREERS

ADVISING AND CAREERS

Students interested in learning more about the L&S Individual Major should contact L&S Undergraduate Academic Deans' Services to set up an individual appointment with the coordinator for the Individual Major prior to starting this process. The purpose of this meeting is solely to review the details of Individual Major requirements, go over procedures, and determine whether an Individual Major is a viable option based on the student's academic interest and the resources available within the College of Letters & Science. Read more at deans.ls.wisc.edu/policies-forms/individual-major/ (https://deans.ls.wisc.edu/policies-forms/individual-major/).

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

INDIVIDUAL MAJOR, BS

The Individual Major in the College of Letters & Science is a method of fulfilling the major requirement for students whose interests bridge departments and disciplines in ways not accommodated by an existing major. The Individual Major must consist of a coherent pattern of courses in more than one department or recognized interdisciplinary program in the College of Letters & Science and must be approved by a committee of appropriate faculty from the College of Letters & Science.

Getting approval to pursue an Individual Major is never guaranteed. Thus, students should discuss alternative majors with their academic advisors and be willing to pursue them. Students interested in learning more about the Individual Major should contact L&S Undergraduate Academic Deans' Services to set up an appointment with the coordinator for the Individual Major prior to starting this process.

APPLYING FOR AN INDIVIDUAL MAJOR

Please see this site for information on how to apply for the individual major: Applying for an L&S Individual Major. (https://kb.wisc.edu/ls/159897/)

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.

Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. Some courses satisfy more than one L&S degree requirement (visit College of Letters & Science: Requirements (https://guide.wisc.edu/undergraduate/letters-science/#requirementstext) for details).

This major can be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Communication	Complete both: • Part A: one course with the Communication A designation or eligible UW Placement Score; and • Part B: one course with the Communication B designation
Quantitative Reasoning	Complete both: • Part A: one course with the Quantitative Reasoning A designation or eligible UW Placement Score; and • Part B: one course with the Quantitative Reasoning B designation
Ethnic Studies	one 3+ credit course with the Ethnic Studies designation
Language	the third unit of a language other than English
Mathematics	Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.
L&S Breadth: Humanities	Complete 12 credits with the Humanities or Literature designation, which must include at least 6 credits with the Literature designation.
L&S Breadth: Social Sciences	Complete 12 credits with the Social Science designation.
L&S Breadth: Natural Sciences	Complete 12 credits, which must include both: • 6 credits with the Biological Science designation, and • 6 credits with the Physical Science designation.
Liberal Arts and Science (LAS) Coursework	at least 108 credits
Depth of Intermediate/Advanced Coursework	at least 60 credits at the Intermediate or Advanced level
Major	Declare and complete at least one major.
Total Credits	at least 120 credits
UW-Madison Experience	• 30 credits in residence, overall, and • 30 credits in residence after the 86th credit

Quality of Work	• 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their School/College to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

Students are required to complete at least 30 credits after the term in which approval is given, and complete their approved individual major course plan (see below).

DEVELOPING AN INDIVIDUAL MAJOR

The student takes primary responsibility for developing an Individual Major proposal. A well-written proposal must meet the requirements and rigor for a major in the College of Letters & Science; therefore, a proposal must be more than a list of courses that are similar in content area or subject matter. The student proposing an Individual Major must also demonstrate that the proposed Individual Major is not currently available as an option in any of the L&S majors or certificate programs.

Students interested in the Individual Major must meet with an L&S academic dean as part of the process of defining the theme or topic for the Individual Major. The L&S academic dean will provide information and feedback about the construction of the major and how it might relate to other majors in the college as well. Schedule an appointment via the email or telephone number listed in the contact box.

Once a theme or topic has been identified, the student must find a tenured faculty member in the College of Letters & Science who is willing to serve as the Individual Major advisor. This designated faculty advisor will:

- assist the student in constructing the Individual Major proposal by defining the relevant themes, learning objectives, and rationale for the major and by sharpening presentation of the student's proposal;
- assist in the review and selection of courses for the major plan included in the proposal;
- advise the student in course selection if the proposal is approved and, in consultation with the L&S Academic Deans' Services (ADS), track progress toward completion of the major.

Students can use a maximum of two courses completed prior to getting the Individual Major approved as part of their list of courses included in this proposal.

When the proposal is ready, the student is responsible for submitting a full and complete application to L&S Academic Deans' Services. See the How to Get in tab (p. 1218) for deadlines and application information.

A faculty committee will review the proposal and plan of study. The committee may approve the proposal as submitted, recommend modifications, reject the proposal altogether, or reject it with an invitation to revise and resubmit in a later semester. The committee's decision is final.

Students with approved plans who wish to alter their plan of study at a later date must contact L&S Academic Deans' Services to initiate faculty committee review of their proposed changes and rationale for alteration.

HONORS IN THE INDIVIDUAL MAJOR: REQUIREMENTS

To earn Honors in the Individual Major, students must:

- Complete 36 credits toward the Individual Major
- Complete 20 credits, taken for Honors, with individual grades of B or better, toward the Individual Major, to include a two-semester Senior Honors Thesis for a total of 6 credits.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

Due to the nature of the Individual Major, the following four-year plan is meant solely as a guide. Once/if a student is approved to pursue an Individual Major, the student will develop and discuss their four-year plan with their advisor.

First Year

Fall	Credits	Spring	Credits
Communication-A (complete during your first year)	3	Ethnic Studies (complete within your first 60 credits)	3
Quantitative Reasoning-A (complete during your first year)	3-4	Language (if needed)	4
Language (if needed)	4	Elective	3
L&S Breadth	3	L&S Breadth	3
		I/A Comp Sci, Math, or Stats (if required for the BS degree)	4-5
	13		**17**

Second Year

Fall	Credits	Spring	Credits
Quantitative Reasoning-B	3	Communication-B	3
I/A Comp Sci, Math, or Stats (if required for the BS degree)	3-4	INTER-LS 215 (optional)	3
INTER-LS 210 (optional)	1	L&S Breadth	3
L&S Breadth	3	Elective	3
Elective	3	Elective	3
Elective	3		
	16		**15**

Third Year

Fall	Credits	Spring	Credits
L&S Breadth	3	Approved IM Major Course	3
Approved IM Major Course	3	Approved IM Major Course	3
Approved IM Major Course	3	L&S Breadth	3

Elective	3	Elective	3
Elective	3	Elective	3
	15		**15**

Fourth Year

Fall	**Credits**	**Spring**	**Credits**
Approved IM Major Course	3	Approved IM Major Course	3
Approved IM Major Course	3	Approved IM Major Course	3
Elective	3	Elective	3
Elective	3	Elective	3
Elective	3	Elective	2-3
	15		**14**

Total Credits 120

ADVISING AND CAREERS

ADVISING AND CAREERS

Students interested in learning more about the L&S Individual Major should contact L&S Undergraduate Academic Deans' Services to set up an individual appointment with the coordinator for the Individual Major prior to starting this process. The purpose of this meeting is solely to review the details of Individual Major requirements, go over procedures, and determine whether an Individual Major is a viable option based on the student's academic interest and the resources available within the College of Letters & Science. Read more at deans.ls.wisc.edu/policies-forms/individual-major/ (https://deans.ls.wisc.edu/policies-forms/individual-major/).

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

MICROBIOLOGY, BA (L&S)

The Microbiology major in the College of Letters & Science no longer admits new students after Summer 2023 and the program will be discontinued Fall 2027. If you have any questions, please contact the department (see contact box).

Students interested in Microbiology can contact the Microbiology major advisors (biochemmicrobio-advisor@wisc.edu) to discuss the College of Agricultural and Life Sciences Microbiology major (p. 110). For other questions, please contact CALS Academic Affairs (academicaffairs@cals.wisc.edu).

Microbiology, the study of microorganisms, helps us understand our world and solve major problems. Microorganisms, or microbes, were the first life forms on Earth and influence our lives and our planet in innumerable ways. The field of microbiology is constantly expanding as we learn more about the role of microbes in infectious disease, environmental remediation, bioenergy, food safety, antibiotic resistance, biotechnology, and much more. Communities of microbes (or "microbiomes") are critically important in human health, global warming, agricultural yield, criminal justice, economic development, and other issues of national concern.

The Microbiology major, offered by the Department of Bacteriology, is a rigorous path of study, providing a curriculum packed with deep knowledge on broad aspects of microbiology and emphasizing modern laboratory skills. The core courses focus on the diversity, genetics, biochemistry, and physiology of microorganisms. A variety of elective courses provide the opportunity to study environmental microbiology, food microbiology, microbial pathogenesis, immunology, virology, microbiomes, and microbial biotechnology, as well as advanced topics in microbial genetics and physiology. In the instructional laboratory courses, students learn beginning through advanced laboratory techniques – gaining the type of hands-on experiences with modern equipment that employers and graduate schools seek. Additionally, students can conduct mentored and independent research projects in faculty laboratories.

The bachelor's degree provides a strong background in the biological sciences for students planning to enter medical, dental, veterinary, or other professional schools, as well as those planning graduate studies in any branch of microbiology or other biological sciences such as biochemistry, pathology, and molecular or cell biology.

Students who end their training with a bachelor's degree are well-prepared for a variety of career opportunities, including laboratory positions in pharmaceutical firms, biotechnology firms, university laboratories, and government laboratories. They also work as specialists in industrial quality testing and control and as regulatory workers in government agencies and public health laboratories. Exposure to the scientific process as well as

training in microbiology allows microbiology graduates to enter fields as diverse as business, technical service, sales, and technical writing.

HOW TO GET IN

HOW TO GET IN

The Microbiology major in the College of Letters & Science no longer admits new students after Summer 2023 and the program will be discontinued Fall 2027. If you have any questions, please contact the department (see contact box). If you have any questions, please contact the department (see contact box). **Students interested in Microbiology can contact the Microbiology major advisors (biochemmicrobio-advisor@wisc.edu) to discuss the College of Agricultural and Life Sciences Microbiology major (p. 110).**

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 15) section of the Guide.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B • Ethnic Studies • Quantitative Reasoning Part A & Part B

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a bachelor of arts degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either a bachelor of arts or a bachelor of science curriculum.

BACHELOR OF ARTS DEGREE REQUIREMENTS

Mathematics	Complete the University General Education Requirements for Quantitative Reasoning A (QR-A) and Quantitative Reasoning B (QR-B) coursework.
Language	• Complete the fourth unit of a language other than English; OR • Complete the third unit of a language and the second unit of an additional language other than English.
L&S Breadth	• 12 credits of Humanities, which must include 6 credits of literature; and • 12 credits of Social Science; and • 12 credits of Natural Science, which must include one 3+ credit Biological Science course and one 3+ credit Physical Science course.
Liberal Arts and Science Coursework	Complete at least 108 credits.
Depth of Intermediate/ Advanced work	Complete at least 60 credits at the intermediate or advanced level.
Major	Declare and complete at least one major.
Total Credits	Complete at least 120 credits.
UW-Madison Experience	• 30 credits in residence, overall; and • 30 credits in residence after the 86th credit.
Quality of Work	• 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

Code	Title	Credits
Mathematics		
Complete the following:		5
MATH 221	Calculus and Analytic Geometry 1	
Statistics		
Complete one of the following:		3
STAT 371	Introductory Applied Statistics for the Life Sciences (Recommended)	
STAT 301	Introduction to Statistical Methods	
STAT 240	Data Science Modeling I	
General Chemistry		
Complete one of the following:		5-10
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	
CHEM 109	Advanced General Chemistry	
CHEM 115 & CHEM 116	Chemical Principles I and Chemical Principles II	
Organic Chemistry		
Complete ALL of the following:		
CHEM 343	Organic Chemistry I	3

CHEM 344	Introductory Organic Chemistry Laboratory	2
CHEM 345	Organic Chemistry II	3

Biology Foundation

Complete one of the following:		10-13
BIOLOGY/ BOTANY/ ZOOLOGY 151 & BIOLOGY/ BOTANY/ ZOOLOGY 152	Introductory Biology and Introductory Biology	
BIOCORE 381 & BIOCORE 382 & BIOCORE 383 & BIOCORE 384 & BIOCORE 485	Evolution, Ecology, and Genetics and Evolution, Ecology, and Genetics Laboratory and Cellular Biology and Cellular Biology Laboratory and Principles of Physiology	
ZOOLOGY/ BIOLOGY 101 & ZOOLOGY/ BIOLOGY 102 & BOTANY/ BIOLOGY 130	Animal Biology and Animal Biology Laboratory and General Botany	

Physics

Complete one of the following:		8-10
PHYSICS 103 & PHYSICS 104	General Physics and General Physics	
PHYSICS 207 & PHYSICS 208	General Physics and General Physics	
PHYSICS 201 & PHYSICS 202	General Physics and General Physics	

Biochemistry

Complete one of the following:		3-6
BIOCHEM 501	Introduction to Biochemistry	
BIOCHEM 507 & BIOCHEM 508	General Biochemistry I and General Biochemistry II	

Microbiology Courses

Microbiology Core (all required):		
Except where noted, all Microbiology Core courses are offered every fall and spring semester.		
MICROBIO 303	Biology of Microorganisms	3
MICROBIO 304	Biology of Microorganisms Laboratory	2
MICROBIO 305	Critical Analyses in Microbiology	1
MICROBIO 450	Diversity, Ecology and Evolution of Microorganisms (SPRING ONLY)	3
MICROBIO 470	Microbial Genetics & Molecular Machines	3
MICROBIO 526	Physiology of Microorganisms	3
MICROBIO 527	Advanced Laboratory Techniques in Microbiology (FALL ONLY)	2
Microbiology Capstone (required):		
MICROBIO 551	Capstone Research Project in Microbiology (SPRING ONLY)	2

Microbiology Electives

Complete at least 6 credits; at least 3 credits must come from Set A. Not all elective courses are offered every semester.		
Set A:		3-6
MICROBIO/ FOOD SCI 324	Food Microbiology Laboratory	
MICROBIO/ FOOD SCI 325	Food Microbiology	
MICROBIO/ BOTANY 335	The Microbiome of Plants, Animals, and Humans	
MICROBIO 345	Introduction to Disease Biology	
MICROBIO 357	General Bioinformatics for Microbiologists	
MICROBIO/ SOIL SCI 425	Environmental Microbiology	
MICROBIO 520	Planetary Microbiology: What Life Here Tells Us About Life Out There	
MICROBIO/ SOIL SCI 523	Soil Microbiology and Biochemistry	
MICROBIO 525	Field Studies of Planetary Microbiology and Life in the Universe	
MICROBIO/ ONCOLOGY 545	Topics in Biotechnology (topics vary by semester)	
MICROBIO/ BIOCHEM/ GENETICS 612	Prokaryotic Molecular Biology	
MICROBIO 626	Microbial and Cellular Metabolomics	
MICROBIO/ BMOLCHEM 668	Microbiology at Atomic Resolution	
Set B:		0-3
AN SCI/ DY SCI 320	Animal Health and Disease	
BIOCHEM/M M & I 575	Biology of Viruses	
BIOCHEM 601	Protein and Enzyme Structure and Function	
BOTANY 330	Algae	
BOTANY/PL PATH 332	Fungi	
BOTANY/ ENTOM/PL PATH 505	Plant-Microbe Interactions: Molecular and Ecological Aspects	
CHEM 665	Biophysical Chemistry	
COMP SCI/ B M I 576	Introduction to Bioinformatics	
F&W ECOL/SURG SCI 548	Diseases of Wildlife	
FOOD SCI 550	Fermented Foods and Beverages	
M M & I 301	Pathogenic Bacteriology	
M M & I 341	Immunology	
M M & I/ENTOM/ PATH-BIO/ ZOOLOGY 350	Parasitology	
M M & I 554	Emerging Infectious Diseases and Bioterrorism	

ONCOLOGY/ M M & I/ PL PATH 640	General Virology-Multiplication of Viruses
PATH-BIO/ M M & I 528	Immunology
PL PATH 622	Plant-Bacterial Interactions
PL PATH/ BOTANY/ GENETICS/ M M & I 655	Biology and Genetics of Fungi
Total Credits	**64-83**

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all MICROBIO courses and courses approved for the major
- 2.000 GPA on 15 upper-level major credits, in residence[1]
- 15 credits of MICROBIO or courses counting toward the major, taken on campus

[1] MICROBIO 300 through 699 count as upper level in the major, excluding MICROBIO 303 and MICROBIO 304. Intermediate- and advanced-level courses outside of MICROBIO that count for the major are also considered upper level.

HONORS IN THE MAJOR

Students may declare Honors in the Microbiology Major in consultation with the Microbiology undergraduate advisor.

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major in Microbiology, students must satisfy both the requirements for the major (above) and the following requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA for all courses accepted in the major
- MICROBIO 681 and MICROBIO 682 for a total of 6 credits
- 9 credits of Honors course work (with grade B or better) from:

Code	Title	Credits
MICROBIO 303	Biology of Microorganisms	3
MICROBIO 304	Biology of Microorganisms Laboratory	2
MICROBIO/ SOIL SCI 425	Environmental Microbiology	3
MICROBIO 450	Diversity, Ecology and Evolution of Microorganisms	3
MICROBIO 470	Microbial Genetics & Molecular Machines	3
MICROBIO 526	Physiology of Microorganisms	3
PATH-BIO/ M M & I 528	Immunology	3
MICROBIO/ BIOCHEM/ GENETICS 612	Prokaryotic Molecular Biology	3
PL PATH 622	Plant-Bacterial Interactions	2-3
ONCOLOGY/ M M & I/ PL PATH 640	General Virology-Multiplication of Viruses	3
MICROBIO/ BMOLCHEM 668	Microbiology at Atomic Resolution	3

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Develop a fundamental understanding of the principles of microbiology and the necessary skills for a professional career in microbiology.
2. Apply the scientific method to questions. Formulate a hypothesis, gather data, and analyze that data to assess the degree to which their work supports the hypothesis.
3. Demonstrate proficiency in the techniques used in microbiology and an ability to critically analyze data and integrate ideas for problem solving.
4. Access the primary and secondary literature and, in combination with their own findings, effectively communicate their ideas both orally and in written form.
5. Learn about and demonstrate personal and professional ethics.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic

advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

SAMPLE MICROBIOLOGY FOUR-YEAR PLAN

Freshman

Fall	Credits	Spring	Credits
General Chemistry	4-5	General Chem or Electives	5

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B • Ethnic Studies • Quantitative Reasoning Part A & Part B

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. The College of Letters & Science allows this major to be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Mathematics	Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.
Language	Complete the third unit of a language other than English.
L&S Breadth	Complete: • 12 credits of Humanities, which must include at least 6 credits of Literature; and • 12 credits of Social Science; and • 12 credits of Natural Science, which must include 6 credits of Biological Science and 6 credits of Physical Science.
Liberal Arts and Science Coursework	Complete at least 108 credits.
Depth of Intermediate/ Advanced Coursework	Complete at least 60 credits at the Intermediate or Advanced level.
Major	Declare and complete at least one major.
Total Credits	Complete at least 120 credits.
UW-Madison Experience	Complete both: • 30 credits in residence, overall, and • 30 credits in residence after the 86th credit.
Quality of Work	• 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their school/college to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

Code	Title	Credits
Mathematics		
Complete the following:		5
MATH 221	Calculus and Analytic Geometry 1	
Statistics		
Complete one of the following:		3
STAT 371	Introductory Applied Statistics for the Life Sciences (Recommended)	
STAT 301	Introduction to Statistical Methods	
STAT 240	Data Science Modeling I	
General Chemistry		
Complete one of the following:		5-10
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	
CHEM 109	Advanced General Chemistry	
CHEM 115 & CHEM 116	Chemical Principles I and Chemical Principles II	
Organic Chemistry		
Complete ALL of the following:		
CHEM 343	Organic Chemistry I	3
CHEM 344	Introductory Organic Chemistry Laboratory	2
CHEM 345	Organic Chemistry II	3
Biology Foundation		
Complete one of the following:		10-13

BIOLOGY/ BOTANY/ ZOOLOGY 151 & BIOLOGY/ BOTANY/ ZOOLOGY 152	Introductory Biology and Introductory Biology	
BIOCORE 381 & BIOCORE 382 & BIOCORE 383 & BIOCORE 384 & BIOCORE 485	Evolution, Ecology, and Genetics and Evolution, Ecology, and Genetics Laboratory and Cellular Biology and Cellular Biology Laboratory and Principles of Physiology	
ZOOLOGY/ BIOLOGY 101 & ZOOLOGY/ BIOLOGY 102 & BOTANY/ BIOLOGY 130	Animal Biology and Animal Biology Laboratory and General Botany	
Physics		
Complete one of the following:		8-10
PHYSICS 103 & PHYSICS 104	General Physics and General Physics	
PHYSICS 207 & PHYSICS 208	General Physics and General Physics	
PHYSICS 201 & PHYSICS 202	General Physics and General Physics	
Biochemistry		
Complete one of the following:		3-6
BIOCHEM 501	Introduction to Biochemistry	
BIOCHEM 507 & BIOCHEM 508	General Biochemistry I and General Biochemistry II	
Microbiology Courses		
Microbiology Core (all required):		
Except where noted, all Microbiology Core courses are offered every fall and spring semester.		
MICROBIO 303	Biology of Microorganisms	3
MICROBIO 304	Biology of Microorganisms Laboratory	2
MICROBIO 305	Critical Analyses in Microbiology	1
MICROBIO 450	Diversity, Ecology and Evolution of Microorganisms (SPRING ONLY)	3
MICROBIO 470	Microbial Genetics & Molecular Machines	3
MICROBIO 526	Physiology of Microorganisms	3
MICROBIO 527	Advanced Laboratory Techniques in Microbiology (FALL ONLY)	2
Microbiology Capstone (required):		
MICROBIO 551	Capstone Research Project in Microbiology (SPRING ONLY)	2
Microbiology Electives		
Complete at least 6 credits; at least 3 credits must come from Set A. Not all elective courses are offered every semester.		
Set A:		3-6
MICROBIO/ FOOD SCI 324	Food Microbiology Laboratory	
MICROBIO/ FOOD SCI 325	Food Microbiology	
MICROBIO/ BOTANY 335	The Microbiome of Plants, Animals, and Humans	
MICROBIO 345	Introduction to Disease Biology	
MICROBIO 357	General Bioinformatics for Microbiologists	
MICROBIO/ SOIL SCI 425	Environmental Microbiology	
MICROBIO 520	Planetary Microbiology: What Life Here Tells Us About Life Out There	
MICROBIO/ SOIL SCI 523	Soil Microbiology and Biochemistry	
MICROBIO 525	Field Studies of Planetary Microbiology and Life in the Universe	
MICROBIO/ ONCOLOGY 545	Topics in Biotechnology (topics vary by semester)	
MICROBIO/ BIOCHEM/ GENETICS 612	Prokaryotic Molecular Biology	
MICROBIO 626	Microbial and Cellular Metabolomics	
MICROBIO/ BMOLCHEM 668	Microbiology at Atomic Resolution	
Set B:		0-3
AN SCI/ DY SCI 320	Animal Health and Disease	
BIOCHEM/M M & I 575	Biology of Viruses	
BIOCHEM 601	Protein and Enzyme Structure and Function	
BOTANY 330	Algae	
BOTANY/PL PATH 332	Fungi	
BOTANY/ ENTOM/PL PATH 505	Plant-Microbe Interactions: Molecular and Ecological Aspects	
CHEM 665	Biophysical Chemistry	
COMP SCI/ B M I 576	Introduction to Bioinformatics	
F&W ECOL/SURG SCI 548	Diseases of Wildlife	
FOOD SCI 550	Fermented Foods and Beverages	
M M & I 301	Pathogenic Bacteriology	
M M & I 341	Immunology	
M M & I/ENTOM/ PATH-BIO/ ZOOLOGY 350	Parasitology	
M M & I 554	Emerging Infectious Diseases and Bioterrorism	
ONCOLOGY/ M M & I/ PL PATH 640	General Virology-Multiplication of Viruses	
PATH-BIO/ M M & I 528	Immunology	
PL PATH 622	Plant-Bacterial Interactions	

PL PATH/ BOTANY/ GENETICS/ M M & I 655	Biology and Genetics of Fungi	
Total Credits		**64-83**

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all MICROBIO courses and courses approved for the major
- 2.000 GPA on 15 upper-level major credits, in residence[1]
- 15 credits of MICROBIO or courses counting toward the major, taken on campus

[1] MICROBIO 300 through 699 count as upper level in the major, excluding MICROBIO 303 and MICROBIO 304. Intermediate- and advanced-level courses outside of MICROBIO that count for the major are also considered upper level.

HONORS IN THE MAJOR

Students may declare Honors in the Microbiology Major in consultation with the Microbiology undergraduate advisor.

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major in Microbiology, students must satisfy both the requirements for the major (above) and the following requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA for all courses accepted in the major
- MICROBIO 681 and MICROBIO 682 for a total of 6 credits
- 9 credits of Honors course work (with grade B or better) from:

Code	Title	Credits
MICROBIO 303	Biology of Microorganisms	3
MICROBIO 304	Biology of Microorganisms Laboratory	2
MICROBIO/ SOIL SCI 425	Environmental Microbiology	3
MICROBIO 450	Diversity, Ecology and Evolution of Microorganisms	3
MICROBIO 470	Microbial Genetics & Molecular Machines	3
MICROBIO 526	Physiology of Microorganisms	3
PATH-BIO/ M M & I 528	Immunology	3
MICROBIO/ BIOCHEM/ GENETICS 612	Prokaryotic Molecular Biology	3
PL PATH 622	Plant-Bacterial Interactions	2-3
ONCOLOGY/ M M & I/ PL PATH 640	General Virology-Multiplication of Viruses	3
MICROBIO/ BMOLCHEM 668	Microbiology at Atomic Resolution	3

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Develop a fundamental understanding of the principles of microbiology and the necessary skills for a professional career in microbiology.
2. Apply the scientific method to questions. Formulate a hypothesis, gather data, and analyze that data to assess the degree to which their work supports the hypothesis.
3. Demonstrate proficiency in the techniques used in microbiology and an ability to critically analyze data and integrate ideas for problem solving.
4. Access the primary and secondary literature and, in combination with their own findings, effectively communicate their ideas both orally and in written form.
5. Learn about and demonstrate personal and professional ethics.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

SAMPLE MICROBIOLOGY FOUR-YEAR PLAN

Freshman

Fall	Credits	Spring	Credits
General Chemistry	4-5	General Chem or Electives	5
Math	3	Math	3-5
Communication A	3	Foreign Language (if needed)	4
Foreign Language (if needed)	4	Literature Breadth	3
	15		**15**

Sophomore

Fall	Credits	Spring	Credits
CHEM 343	3	CHEM 344	2
Math	3-5	CHEM 345	3
Intro Biology, Semester 1	5	Intro Biology, Semester 2	5
Ethnic Studies/Social Science Breadth	3	Social Science Breadth	3
		Literature Breadth	3
	16		**16**

Junior

Fall	Credits	Spring	Credits
General Physics, Semester 1	4-5	General Physics, Semester 2	4-5
MICROBIO 303	3	MICROBIO 470	3
MICROBIO 304	2	BIOCHEM 501	3
MICROBIO 305	1	Research	1-3
Research	1-3	Social Science Breadth	3

Total Credits 120

ADVISING AND CAREERS

ADVISING AND CAREERS

Current UW–Madison students should use Starfish to schedule an appointment with an advisor in the Biochemistry & Microbiology Undergraduate Advising Hub (http://biochemmicrobio.wisc.edu/).

Prospective/future UW–Madison students should send an email to the Biochemistry & Microbiology Undergraduate Advising Hub (biochemmicrobio-advisor@wisc.edu) to set up an appointment, which can be conducted in person or via phone call.

Read about and explore possible microbiology careers at the American Society for Microbiology website (https://asm.org/careers-professional-development/).

Learn more about health-related careers through the ExploreHealthCareers.org (https://explorehealthcareers.org/) website.

MATHEMATICS

DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/CERTIFICATES

- Applied Mathematics, Engineering, and Physics, BS AMEP (p. 1232)
- Mathematics, BA (p. 1237)
- Mathematics, BS (p. 1261)
- Mathematics, Certificate (p. 1284)

APPLIED MATHEMATICS, ENGINEERING, AND PHYSICS, BS AMEP

This interdisciplinary degree in the physical sciences offers a strong foundation in related areas of engineering sciences, mathematics, and physics for professional work in the field of industrial research and technology. It also provides a foundation for graduate degree work in applied mathematics, engineering sciences, and physics.

The Bachelor of Science—Applied Mathematics, Engineering, and Physics (BS AMEP) is an excellent choice for the student with broad interests in mathematics, physics, and engineering. AMEP emphasizes an integrated mathematics and physics curriculum and balances breadth and depth in the physical sciences in a four-year degree.

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are eligible to declare. For information on how to declare, see Advising & Careers.
Courses required to get in	Complete one Mathematics sequence: • MATH 221, MATH 222, and MATH 234; or • MATH 221, MATH 222, MATH 375, and MATH 376; or • MATH 234 and (MATH 320, MATH 340, MATH 341, or MATH 345) Complete one Physics course: • PHYSICS 247, PHYSICS 207, PHYSICS 201, or E M A 202

GPA requirements to get in	Students must earn: • a minimum 2.500 GPA computed on MATH courses required to get in • a grade of BC or better in the PHYSICS or E M A course required to get in Only courses completed in-residence at UW–Madison are eligible for computation in the GPA or consideration on a graded basis.
Credits required to get in	None.
Other	None.

Students pursuing the BS-AMEP degree are not eligible to declare the following programs:

- Mathematics for Physical and Biological Sciences named option of the Mathematics major
- Mathematics certificate
- Physics certificate

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE-APPLIED MATHEMATICS, ENGINEERING, AND PHYSICS (BS-AMEP)

The Bachelor of Science—Applied Mathematics, Engineering, and Physics is a special degree program; it is not a major. The BS—AMEP degree is not

available to students who intend to earn a degree outside the College of Letters & Science.

Students pursuing a Bachelor of Science—Applied Mathematics, Engineering, and Physics degree in the College of Letters & Science must complete all of the requirements below. Some courses satisfy more than one L&S degree requirement (visit College of Letters & Science: Requirements (https://guide.wisc.edu/undergraduate/letters-science/#requirementstext) for details).

BACHELOR OF SCIENCE - AMEP DEGREE REQUIREMENTS

Communication	Complete both: • Part A: one course with the Communication A designation or eligible UW Placement Score; and • Part B: one course with the Communication B designation
Quantitative Reasoning	Complete both: • Part A: one course with the Quantitative Reasoning A designation or eligible UW Placement Score; and • Part B: one course with the Quantitative Reasoning B designation
Ethnic Studies	one 3+ credit course with the Ethnic Studies designation
Mathematics	Complete the Mathematics requirements of the BS–AMEP program.
Language	the second unit of one language other than English
Liberal Arts and Science Requirement	Complete a minimum of 20 credits in Liberal Arts and Science (LAS) coursework outside the physical and mathematical sciences, including: • at least 12 credits of Humanities and/or Social Science, including at least 6 credits in Humanities and at least 3 credits of Social Science • a maximum of 8 credits of Biological Science • additional eligible coursework to reach 20 total credits. Courses that carry the Physical Science breadth designation, or are listed (or cross-listed) in the MATH or COMP SCI subjects, are not eligible.
Total Credits	at least 125 credits
UW–Madison Experience	• 30 credits in residence, overall, and • 30 credits in residence after the 90th credit
Quality of Work	2.000 in all coursework at UW–Madison

PROGRAM OVERVIEW

A total of at least 125 credits with a minimum GPA of 2.000 is required for this degree plan. Of these credits, at least 83 must be devoted to the Applied Math, Engineering and Physics (AMEP) program requirements. An additional 20 credits must be completed to meet the BS-AMEP's Liberal Arts and Science degree requirement; the balance will complete other degree requirements and electives.

AMEP PROGRAM REQUIREMENTS

FOUNDATIONAL MATHEMATICS

Code	Title	Credits
Single Variable Calculus		
Complete both.		
MATH 221	Calculus and Analytic Geometry 1	5
MATH 222	Calculus and Analytic Geometry 2	4
Multivariable Calculus		
Complete one of the following:		4-10
MATH 234	Calculus--Functions of Several Variables	
MATH 375 & MATH 376	Topics in Multi-Variable Calculus and Linear Algebra and Topics in Multi-Variable Calculus and Differential Equations [1]	
Total Credits		**13-19**

FOUNDATIONAL PHYSICS

Code	Title	Credits
First Introductory Course		
Complete one of the following:		3-5
PHYSICS 247	A Modern Introduction to Physics	
PHYSICS 207	General Physics	
PHYSICS 201	General Physics	
E M A 202	Dynamics	
Second Introductory Course		
Complete one of the following:		5
PHYSICS 248	A Modern Introduction to Physics	
PHYSICS 208	General Physics	
PHYSICS 202	General Physics	
Third Introductory Course		
Complete one of the following:		3-4
PHYSICS 249	A Modern Introduction to Physics	
PHYSICS 241	Introduction to Modern Physics	
PHYSICS 205	Modern Physics for Engineers	
PHYSICS/ E C E 235	Introduction to Solid State Electronics	
Total Credits		**11-14**

CHEMISTRY

Code	Title	Credits
Complete one of the following:		5-9
CHEM 109	Advanced General Chemistry	
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	
CHEM 115	Chemical Principles I	
Total Credits		**5-9**

MATHEMATICS

Complete at least six courses for 18 credits.

Code	Title	Credits
Core: Linear Algebra		
Complete one of the following:		3-5
MATH 320	Linear Algebra and Differential Equations [2]	
MATH 340	Elementary Matrix and Linear Algebra	
MATH 341	Linear Algebra	
MATH 345	Linear Algebra and Optimization	
MATH 375	Topics in Multi-Variable Calculus and Linear Algebra	
Core: Differential Equations		
Complete one of the following:		0-5
MATH 320	Linear Algebra and Differential Equations [2]	
MATH 319	Techniques in Ordinary Differential Equations	
MATH 376	Topics in Multi-Variable Calculus and Differential Equations	
Core: Applied Analysis		
Complete both.		
MATH 321	Applied Mathematical Analysis 1: Vector and Complex Calculus	3
MATH 322	Applied Mathematical Analysis 2: Partial Differential Equations	3
Math Electives		
Complete at least three courses for 9 credits. Select from:		9
MATH 415	Applied Dynamical Systems, Chaos and Modeling	
MATH 421	The Theory of Single Variable Calculus	
MATH/STAT 431	Introduction to the Theory of Probability	
or MATH/STAT 309	Introduction to Probability and Mathematical Statistics I	
MATH 443	Applied Linear Algebra	
MATH/COMP SCI 513	Numerical Linear Algebra	
MATH/COMP SCI 514	Numerical Analysis	
MATH 519	Ordinary Differential Equations	
MATH 521	Analysis I	
MATH 522	Analysis II	
MATH 531	Probability Theory	
MATH 561	Differential Geometry	
MATH 616	Data-Driven Dynamical Systems, Stochastic Modeling and Prediction	
MATH 619	Analysis of Partial Differential Equations	
MATH 623	Complex Analysis	
MATH 627	Introduction to Fourier Analysis	
MATH/I SY E/OTM/STAT 632	Introduction to Stochastic Processes	
Total Credits		**18-25**

PHYSICS

Complete at least five courses for 15 credits.

Code	Title	Credits
Core: Physics		
Complete both.		
PHYSICS 311	Mechanics	3
PHYSICS 322	Electromagnetic Fields	3
Physics Electives		
Remaining courses/credits from any PHYSICS course numbered 307 and above.		9
Total Credits		**15**

ENGINEERING

Code	Title	Credits
Complete 21 credits meeting the following criteria:		21
Must be distinct from any courses used to fulfill math and physics requirements above.		
Selected from the following:		
Biological Systems Engineering (BSE) 300-699		
Biomedical Engineering (B M E) 300-699		
Chemical and Biological Engineering (CBE) 300-699		
Civil and Environmental Engineering (CIV ENGR) 300-699		
Electrical and Computer Engineering (E C E) 300-699		
Engineering Mechanics and Aerospace Engineering (E M A) 300-699		
Engineering Physics (E P) 300-699		
Engineering Professional Development (E P D) 300-699		
Geological Engineering (G L E) 300-699		
Industrial and Systems Engineering (I SY E) 300-699		
Interdisciplinary Courses (Engineering) (INTEREGR) 300-699		
Materials Science and Engineering (M S & E) 300-699		
Mechanical Engineering (M E) 300-699		
Nuclear Engineering (N E) 300-699		
The following courses may contribute up to 6 credits:		
BSE 691	Senior Thesis	
BSE 692	Senior Thesis	
BSE 699	Special Problems	
B M E 399	Independent Study	
CBE 599	Special Problems	
CBE 699	Advanced Independent Studies	
CIV ENGR 489	Honors in Research	
CIV ENGR 699	Independent Study	
E C E 399	Independent Study	
E C E 699	Advanced Independent Study	
E M A 599	Independent Study	
G L E 489	Honors in Research	
G L E 699	Independent Study	
I SY E 699	Advanced Independent Study	
M S & E 699	Independent Study	
M E 491	Mechanical Engineering Projects I	

M E 492	Mechanical Engineering Projects II
M E 699	Advanced Independent Study
N E 699	Advanced Independent Study

LABORATORY EXPERIENCE [3]

Code	Title	Credits
Completed with a minimum of 3 credits selected from the options below.		0-3
The following course applies as 3 credits of lab:		
E M A 422	Aerodynamics Laboratory	
The following courses apply as 2 credits of lab each:		
PHYSICS 307	Intermediate Laboratory-Mechanics and Modern Physics	
PHYSICS 321	Electric Circuits and Electronics	
PHYSICS 325	Optics	
PHYSICS 407	Advanced Laboratory	
PHYSICS 623	Electronic Aids to Measurement	
PHYSICS 625	Applied Optics	
The following courses apply as 1 credit of lab each:		
E C E 270	Circuits Laboratory I	
E M A/M E 307	Mechanics of Materials Lab	

COMPUTATIONAL EXPERIENCE [3]

Code	Title	Credits
Select one of the following:		0-3
COMP SCI 412	Introduction to Numerical Methods	
E P/E M A 471	Intermediate Problem Solving for Engineers	
MATH/ COMP SCI 513	Numerical Linear Algebra	
MATH/ COMP SCI 514	Numerical Analysis	

RESIDENCE AND QUALITY OF WORK

- Minimum 2.000 GPA in AMEP program courses.[4]
- Minimum 2.000 GPA and 15 upper-level AMEP program credits, taken in residence.[4, 5]
- 15 credits in AMEP program courses, taken on the UW–Madison campus.[4]

HONORS IN THE MAJOR

Honors in the Major is not available in Applied Mathematics, Engineering, and Physics.

FOOTNOTES

[1] MATH 375 may also be used to fulfill the Linear Algebra requirement below. MATH 376 may be used to fulfill the Differential Equations requirement below.

[2] MATH 320 fulfills both the Linear Algebra and Differential Equations requirements. AMEP students are encouraged to consider the honors version of the course which is taught by AMEP faculty.

[3] Courses used to fulfill this requirement need not be distinct from courses used to fulfill Mathematics, Physics, and Engineering requirements in AMEP.

[4] This includes only those courses which may be used to fulfill Mathematics, Physics, Engineering, Chemistry, Laboratory, and Computational requirements described in the tables above.

[5] A course numbered 300 or above is considered upper-level in the program.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. State, explain and apply principal theorems and techniques of applied mathematics, including (but not limited to) the subject areas of vector and complex calculus, linear algebra, and differential equations.
2. State, explain and apply theory and methods of classical and modern physics such as mechanics (classical, statistical, quantum), electricity, magnetism, thermodynamics, radiation and atomic physics.
3. Develop strategies to synthesize applied mathematics and physical sciences to address engineering problems, with emphasis on problems of current interest.
4. Design and conduct experiments to explore hypotheses regarding science and/or technology and/or engineering problems, and will use mathematics to help interpret experimental results.
5. Work in multidisciplinary groups of mathematicians, physical scientists, and engineers to formulate and solve STEM problems, which includes the creation and evaluation of models for natural phenomena.
6. Through written and oral presentations, students will communicate technical/scientific ideas and results to experts and non-experts.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

PROGRAM EXPECTATIONS

AMEP students come to UW-Madison with a wide range of mathematics preparation. Please see Advising and Careers (https://guide.wisc.edu/undergraduate/letters-science/mathematics/applied-mathematics-engineering-physics-bs-amep/#advisingandcareerstext) for more information and alternative plans.

First Year

Fall	Credits	Spring	Credits
PHYSICS 247	5	Communication A	3
MATH 234	4	MATH 320 (honors)	3
CHEM 109	5	PHYSICS 248	5

Language (if needed)	4	Language (if needed)	4
	18		**15**

Second Year

Fall	**Credits**	**Spring**	**Credits**
MATH 321	3	INTER-LS 210	1

		Electives	3
	15		**15**

Total Credits 125

ADVISING AND CAREERS

ADVISING AND CAREERS

AMEP is math- and physics-intensive and it is important to complete the introductory calculus and physics sequences as early as possible in order to progress to the more challenging core 300-level mathematics and physics courses such as MATH 321 or PHYSICS 311 and PHYSICS 322.

For information about declaration and advising for this special Letters & Science degree program, refer to the AMEP Advising (https://amep.math.wisc.edu/advising/) page.

For information about opportunities related to future careers in Applied Mathematics, Engineering, and Physics, refer to our Research and Internships (https://amep.math.wisc.edu/research-and-internships/) page.

RECOMMENDED ADVANCED COURSES

A number of intermediate and advanced courses are recommended by AMEP advisors for use as electives beyond the core math and physics curricula. Please see our Courses (https://amep.math.wisc.edu/courses/) page for a list of recommended courses.

ALTERNATIVE FOUR-YEAR PLANS

Students in the AMEP program start college with a wide variety of preparations in mathematics. We have examples of some different paths students may take through the degree on the Four-Year Plans (https://amep.math.wisc.edu/four-year-plans/) page of the program website.

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

MATHEMATICS, BA

Mathematics is about understanding the world through studies of quantity, structure, pattern, and change to create logical solutions that make life more meaningful and more beautiful. Mathematics bridges the humanities and the sciences. Its position among the humanities is based on the study of mathematics as one of the liberal arts for more than two thousand years. The natural sciences have invariably turned to mathematics for techniques needed to explore the consequences of scientific theories. In the last few decades, social scientists have increasingly found higher mathematics of value in their training and research. Still an expanding subject, mathematics is a part of more new and challenging frontiers than at any time in its long history, with many new fields, from data science

to quantum computing, requiring new techniques and inspiring ideas for exploration.

The Mathematics major requirements include exposure to at least two areas of advanced mathematics. The program is ideal for any student who has a broad interest in mathematics both pure and applied, and functions well as a standalone or complementary program. The Mathematics major also offers six named options (p. 1241) for students interested in pursuing an applied focus area outside of mathematics as part of their major.

Students interested in Mathematics may also wish to consider the Bachelor of Science–Applied Mathematics, Engineering, and Physics (p. 1232) (BS AMEP).

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are eligible to declare. For information on how to declare, see Advising & Careers.
Courses required to get in	Students must complete preparatory work in Calculus with either: • MATH 221, MATH 222, and MATH 234, or • MATH 375. If Calculus was not taken in-residence at UW–Madison, students must complete a course in Linear Algebra: • MATH 320, MATH 340, MATH 341, or MATH 345.
GPA requirements to get in	Students must earn either: • a minimum 2.500 GPA computed on MATH 221, MATH 222, and MATH 234, or • a grade of BC or better in MATH 375, MATH 320, MATH 340, MATH 341, or MATH 345. Only courses completed in-residence at UW–Madison are eligible for computation in the GPA or consideration on a graded basis.
Credits required to get in	None.
Other	Students may have non-residence credit for the courses required for eligibility. These students should consult with the Mathematics department on an appropriate MATH course to complete in-residence prior to declaring the major. Students must earn a grade of BC or better in that course.

Students who are declared in the Bachelor of Science-Applied Mathematics, Engineering, and Physics degree may not be declared in the Mathematics for Physical and Biological Sciences named option.

Students declared in the Mathematics certificate may not be declared in the Mathematics major at the same time. Students who wish to declare this major must first cancel their declaration in the Mathematics certificate.

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a Bachelor of Arts degree in the College of Letters & Science must complete all of the requirements below. Some courses satisfy more than one L&S degree requirement (visit College of Letters & Science: Requirements (https://guide.wisc.edu/undergraduate/letters-science/#requirementstext) for details).

This major can be paired with either the Bachelor of Arts or Bachelor of Science degree requirements.

BACHELOR OF ARTS DEGREE REQUIREMENTS

Communication	Complete both: • Part A: one course with the Communication A designation or eligible UW Placement Score; and • Part B: one course with the Communication B designation
Quantitative Reasoning	Complete both: • Part A: one course with the Quantitative Reasoning A designation or eligible UW Placement Score; and • Part B: one course with the Quantitative Reasoning B designation
Ethnic Studies	one 3+ credit course with the Ethnic Studies designation
Language	Complete either: • the fourth unit of one language other than English; or • the third unit of one language other than English and the second unit of an additional language.
L&S Breadth: Humanities	Complete 12 credits with the Humanities or Literature designation, which must include at least 6 credits with the Literature designation.
L&S Breadth: Social Sciences	Complete 12 credits with the Social Science designation.
L&S Breadth: Natural Sciences	Complete 12 credits with the Natural Science, Biological Science, or Physical Science designations, which must include both: • one 3+ credit course with the Biological Science designation, and • one 3+ credit course with the Physical Science designation.
Liberal Arts and Science (LAS) Coursework	at least 108 credits
Depth of Intermediate/Advanced work	at least 60 credits at the Intermediate or Advanced level
Major	Declare and complete at least one major.
Total Credits	at least 120 credits
UW-Madison Experience	• 30 credits in residence, overall; and • 30 credits in residence after the 86th credit
Quality of Work	• 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their School/College to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

The requirements below are for the standard Mathematics major. The Mathematics major also offers six named options (p. 1241) for students interested in pursuing an applied focus area outside of mathematics as part of their major.

At least seven MATH courses for at least 21 credits are required for the major as follows:

LINEAR ALGEBRA

Complete one course from the list below. Only one of these courses will be used to fulfill minimum course/credit requirements for the major.

Code	Title	Credits
MATH 341	Linear Algebra	3-5
or MATH 320	Linear Algebra and Differential Equations	
or MATH 340	Elementary Matrix and Linear Algebra	
or MATH 345	Linear Algebra and Optimization	
or MATH 375	Topics in Multi-Variable Calculus and Linear Algebra	

TRANSITION TO ADVANCED MATHEMATICS

Complete one course or sequence from the list below. If a student takes MATH 341 or MATH 375 to complete the Linear Algebra requirement, they may also use that course for this requirement. The course and credits will only count once toward the course/credit requirements for the major.

Code	Title	Credits
MATH 341	Linear Algebra	3-5
or MATH 375	Topics in Multi-Variable Calculus and Linear Algebra	
MATH 421	The Theory of Single Variable Calculus	3
MATH 467	Introduction to Number Theory	3
MATH 321 & MATH 322	Applied Mathematical Analysis 1: Vector and Complex Calculus and Applied Mathematical Analysis 2: Partial Differential Equations	6

ANALYSIS, TOPOLOGY, AND ALGEBRA

Complete two courses from:

Code	Title	Credits
MATH 521	Analysis I	3
MATH 541	Modern Algebra 1	3
MATH 551	Point-Set Topology	3

MATH ELECTIVES

Complete at least seven MATH courses for at least 21 credits to satisfy the overall requirements of the major by choosing additional MATH courses from the lists below. The courses chosen for MATH Electives must be distinct from the courses used for the requirements above.

Complete at least one course for at least three credits from the list of Advanced MATH Electives. The remaining courses required to reach the required minimum courses and credits may be chosen from either the list of Advanced MATH Elective courses or the Additional MATH Electives

Advanced MATH Elective

Code	Title	Credits
MATH/ COMP SCI 513	Numerical Linear Algebra	3
MATH/ COMP SCI 514	Numerical Analysis	3
MATH 519	Ordinary Differential Equations	3
MATH 521	Analysis I	3
MATH 522	Analysis II	3
MATH/COMP SCI/ I SY E/STAT 525	Linear Optimization	3
MATH 531	Probability Theory	3
MATH 535	Mathematical Methods in Data Science	3
MATH 540	Linear Algebra II	3
MATH 541	Modern Algebra 1	3
MATH 542	Modern Algebra 2	3
MATH 551	Point-Set Topology	3
MATH 552	Introduction to Algebraic Topology	3
MATH 561	Differential Geometry	3
MATH 567	Modern Number Theory	3
MATH 570	Fundamentals of Set Theory	3
MATH/PHILOS 571	Mathematical Logic	3
MATH 607	Study Abroad: Proof-based Advanced Mathematics	1-5
MATH/B M I/ BIOCHEM/ BMOLCHEM 609	Mathematical Methods for Systems Biology	3
MATH 616	Data-Driven Dynamical Systems, Stochastic Modeling and Prediction	3
MATH 619	Analysis of Partial Differential Equations	3
MATH 621	Introduction to Manifolds	3
MATH 623	Complex Analysis	3
MATH 627	Introduction to Fourier Analysis	3
MATH 629	Introduction to Measure and Integration	3
MATH/I SY E/OTM/ STAT 632	Introduction to Stochastic Processes	3
MATH 635	An Introduction to Brownian Motion and Stochastic Calculus	3
MATH 681	Senior Honors Thesis	3
MATH 682	Senior Honors Thesis	3
MATH 691	Undergraduate Thesis	2-4
MATH 692	Undergraduate Thesis	2-4
MATH 698	Directed Study	1-3
MATH 699	Directed Study	1-6

Additional MATH Electives

Code	Title	Credits
MATH/STAT 431	Introduction to the Theory of Probability	3
or MATH/ STAT 309	Introduction to Probability and Mathematical Statistics I	
At most one course in Introductory Probability (STAT/ MATH 309 and MATH/STAT 431) may be used to fulfill the course/credit requirements for the major.		
MATH/STAT 310	Introduction to Probability and Mathematical Statistics II	3
MATH 319	Techniques in Ordinary Differential Equations	3

or MATH 376	Topics in Multi-Variable Calculus and Differential Equations	
At most one course in Introductory Differential Equations (MATH 319, MATH 320, and MATH 376) may be used to fulfill the course/credit requirements for the major.		
MATH 321	Applied Mathematical Analysis 1: Vector and Complex Calculus	3
MATH 322	Applied Mathematical Analysis 2: Partial Differential Equations	3
MATH 390	Undergraduate Research with Madison Experimental Mathematics Lab	3
MATH 390 will only count once toward the major requirements.		
MATH 407	Study Abroad: Advanced Mathematics	1-5
MATH 415	Applied Dynamical Systems, Chaos and Modeling	3
MATH 421	The Theory of Single Variable Calculus	3
MATH/COMP SCI/ I SY E 425	Introduction to Combinatorial Optimization	3
MATH/COMP SCI/ E C E 435	Introduction to Cryptography	3
MATH 443	Applied Linear Algebra	3
MATH 444	Graphs and Networks in Data Science	3
MATH 461	College Geometry I	3
MATH 467	Introduction to Number Theory	3
MATH/HIST SCI 473	History of Mathematics	3
MATH/COMP SCI/ STAT 475	Introduction to Combinatorics	3
MATH 490	Undergraduate Seminar	1-3
MATH 491	Topics in Undergraduate Mathematics	3

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all MATH and major courses.
- 2.000 GPA on 15 upper-level major credits, taken in residence.
  - MATH courses numbered 307–699 are considered upper level in the major.
- 15 credits in MATH, taken on the UW–Madison campus.

NAMED OPTIONS

View as listView as grid

- **MATHEMATICS: MATHEMATICS FOR DATA SCIENCE (P. 1243)**
- **MATHEMATICS: MATHEMATICS FOR ECONOMICS AND FINANCE (P. 1246)**
- **MATHEMATICS: MATHEMATICS FOR PROGRAMMING AND COMPUTING (P. 1249)**
- **MATHEMATICS: MATHEMATICS FOR SECONDARY EDUCATION (P. 1251)**
- **MATHEMATICS: MATHEMATICS FOR STATISTICAL ANALYSIS AND RISK ASSESSMENT (P. 1254)**
- **MATHEMATICS: MATHEMATICS FOR THE PHYSICAL AND BIOLOGICAL SCIENCES (P. 1256)**

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Mathematics Honors advisor (https://www.math.wisc.edu/undergraduate/advising/); this should be done by the start of the junior year. Honors in the major is not available in any Named Option program.

HONORS IN THE MATHEMATICS MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the mathematics major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA for all MATH courses, and all courses accepted in the major
- Complete the following courses, with individual grades of B or better:

Code	Title	Credits
Analysis and Algebra		
MATH 521 & MATH 522	Analysis I and Analysis II (Taken for Honors)	
MATH 541 & MATH 542	Modern Algebra 1 and Modern Algebra 2 (Taken for Honors)	
Additional Advanced MATH Courses		
Complete at least two additional courses from MATH 500 through MATH 680 selected in consultation with a Mathematics Honors advisor. These courses must be taken for Honors.		
The following will usually be one of the courses:		
MATH 551	Point-Set Topology	
Complete one Capstone project:		
MATH 681 & MATH 682	Senior Honors Thesis and Senior Honors Thesis (For a total of 6 credits.)	
or		
A sequence of two upper-level mathematics courses approved by a Mathematics Honors advisor		

At least one of the sequences MATH 521-MATH 522 or MATH 541-MATH 542 must be completed prior to enrolling in the Capstone project.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. State, explain, and apply the principal results, definitions, and theorems of a wide collection of mathematical areas including at least one area of advanced undergraduate mathematics.
2. Construct and evaluate mathematical proofs and arguments.
3. Acquire a diverse set of skills and strategies in mathematical reasoning/problem solving.
4. Use mathematics to model and analyze phenomena in other disciplines.
5. Write, explain, and present mathematics to both experts and non--experts.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

MATHEMATICS MAJOR - BACHELOR OF ARTS/SCIENCE DEGREE

Freshman

Fall	Credits	Spring	Credits
MATH 221	5	MATH 222	4

	15		**15**

Total Credits 120

1 Students should declare their major upon the successful completion of this course

2 300/400-level MATH courses are any numbered above 306 excluding MATH 320, MATH 331, MATH 340, MATH 341, MATH 345, MATH 375 and MATH/CURRIC 471.

ADVISING AND CAREERS

ADVISING AND CAREERS

ADVISING

Students who are interested in the Mathematics major should visit a faculty advisor. Information about current advisor availability is on the Math advising page (https://www.math.wisc.edu/undergraduate/advising/).

For advice on college algebra, pre-calculus, and calculus, see the placement advising pages (https://www.math.wisc.edu/undergraduate/placement/) of the department.

Transition Courses

All majors are required to complete at least one of the following as the prerequisite for one or more proof-based 500-level courses required in the major. It is suggested that Mathematics-declared students (and those interested in the major) complete such a course as soon in their academic career as possible.

Code	Title	Credits
MATH 341	Linear Algebra	
or MATH 375	Topics in Multi-Variable Calculus and Linear Algebra	
MATH 321 & MATH 322	Applied Mathematical Analysis 1: Vector and Complex Calculus and Applied Mathematical Analysis 2: Partial Differential Equations	
MATH 421	The Theory of Single Variable Calculus	
MATH 467	Introduction to Number Theory	

Graduate Study

Students preparing for graduate work in mathematics should take the following courses:

Code	Title	Credits
MATH 341	Linear Algebra	3
or MATH 375	Topics in Multi-Variable Calculus and Linear Algebra	
MATH 521	Analysis I	3
MATH 522	Analysis II	3
MATH 541	Modern Algebra 1	3
MATH 542	Modern Algebra 2	3
MATH 551	Point-Set Topology	3
or MATH 561	Differential Geometry	

Select at least two other courses at the 500 level or higher

Students who plan to enter a mathematics PhD program should acquire a reading knowledge of at least one language other than English as early as possible; the most useful languages are French (https://guide.wisc.edu/courses/french/), German (https://guide.wisc.edu/courses/german/), and Russian (https://guide.wisc.edu/courses/slavic/).

CAREERS

In recent years, students graduating with the Mathematics major have obtained employment in a variety of jobs in business, industry, and governmental agencies and also have obtained teaching positions at the secondary school level (such teaching positions normally require teaching certification). Others have continued their education at the graduate level in mathematics and other fields. Departments in a variety of fields that use mathematics, including the social and biological sciences as well as in engineering and the physical sciences, are interested in attracting Mathematics students into their graduate programs. Students with a Mathematics PhD obtain academic positions at the college and university level and nonacademic positions entailing consulting and research. The Mathematics major requirements are flexible enough to allow preparation for various goals.

For information about opportunities related to possible careers with a Mathematics major, refer to our Advising (https://math.wisc.edu/undergraduate/advising/) page under "Career Advising."

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

The Department of Mathematics offers scholarships, awards, and prizes (https://math.wisc.edu/undergraduate/awards/) to students declared in the Mathematics major. Award applications are open during the spring semester so that award recipients may be selected before the end of spring semester and applied to fall enrollment.

Awards vary in scope and criteria. Some awards are open to students who exhibit financial need, while others are granted to students based on academic merit. Other awards are related to undergraduate research. Awards may be open to specific student populations such as early-career majors or those interested in a career as a teacher.

Students declared in the Mathematics major are encouraged to apply for any scholarships for which they meet the qualifications.

MATHEMATICS: MATHEMATICS FOR DATA SCIENCE

The Mathematics major's named options allow students to develop a deep understanding of how the subject relates to other areas of human inquiry. The requirements for these options feature mathematics courses with topics inspired by and commonly applied to problems in these associated fields. Though often paired with a second major in a related area, these programs function well alone and are suited to any mathematics student with a variety of interests. Students interested in a named option are recommended to meet with an advisor to navigate the various plans and courses available to them. Advising information can be found on the BA or BS pages (p. 1242).

The named options do not support Honors in the Major.

REQUIREMENTS

REQUIREMENTS

The Mathematics for Data Science program requires at least 10 courses for at least 30 credits as described below.

CORE MATH REQUIREMENT

Complete at least six MATH courses for at least 18 credits.

Linear Algebra

Complete one course from the list below. Only one of these courses will be used to fulfill minimum course/credit requirements for the major.

Code	Title	Credits
MATH 341	Linear Algebra	3-5
or MATH 320	Linear Algebra and Differential Equations	
or MATH 340	Elementary Matrix and Linear Algebra	
or MATH 345	Linear Algebra and Optimization	
or MATH 375	Topics in Multi-Variable Calculus and Linear Algebra	

Transition to Advanced Mathematics

Complete one course or sequence from the list below. If a student takes MATH 341 or MATH 375 to complete the Linear Algebra requirement, they may also use that course for this requirement. The course and credits will only count once toward the course/credit requirements for the major.

Code	Title	Credits
MATH 341	Linear Algebra	3-5
or MATH 375	Topics in Multi-Variable Calculus and Linear Algebra	
MATH 421	The Theory of Single Variable Calculus	3
MATH 321 & MATH 322	Applied Mathematical Analysis 1: Vector and Complex Calculus and Applied Mathematical Analysis 2: Partial Differential Equations	6

Probability

Complete one course from:

Code	Title	Credits
MATH/STAT 431	Introduction to the Theory of Probability	3
or MATH/ STAT 309	Introduction to Probability and Mathematical Statistics I	
At most one course in Introductory Probability (MATH/ STAT 309 and MATH/STAT 431) may be used to fulfill the course/credit requirements for the major.		
MATH 531	Probability Theory	3

Numerical and Optimization Methods

Complete one course from:

Code	Title	Credits
MATH/ COMP SCI 513	Numerical Linear Algebra	3
MATH/COMP SCI/ I SY E/STAT 525	Linear Optimization	3
MATH/ COMP SCI 514	Numerical Analysis	3
MATH 443	Applied Linear Algebra	3
MATH/COMP SCI/ I SY E 425	Introduction to Combinatorial Optimization	3

Mathematics of Data

Complete one course from:

Code	Title	Credits
MATH 535	Mathematical Methods in Data Science	3

MATH Electives

Complete at least six MATH courses for at least 18 credits to satisfy the overall requirements of the major by choosing additional MATH courses from the lists below.

At least one MATH elective must be chosen from the list of Advanced MATH Elective courses. The remaining courses required to reach the required minimum courses and credits may be chosen from either the list of Advanced MATH Elective courses or the Additional MATH Electives.

Advanced MATH Elective

If a student takes MATH 531 to complete the Probability requirement, they may also use that course for this requirement. If a student takes MATH/COMP SCI 513, MATH/COMP SCI/I SY E/STAT 525, or MATH/ COMP SCI 514 to complete the Numerical and Optimization Methods requirement, they may also use that course for this requirement. In either case, the course and credits will count only once toward the course/credit requirements for the major.

Code	Title	Credits
MATH/ COMP SCI 513	Numerical Linear Algebra	3
MATH/ COMP SCI 514	Numerical Analysis	3
MATH 521	Analysis I	3
MATH/COMP SCI/ I SY E/STAT 525	Linear Optimization	3
MATH 531	Probability Theory	3
MATH 540	Linear Algebra II	3
MATH 616	Data-Driven Dynamical Systems, Stochastic Modeling and Prediction	3
MATH/I SY E/OTM/ STAT 632	Introduction to Stochastic Processes	3

Additional MATH Electives

Code	Title	Credits
MATH/STAT 310	Introduction to Probability and Mathematical Statistics II	3
MATH 321	Applied Mathematical Analysis 1: Vector and Complex Calculus	3
MATH 322	Applied Mathematical Analysis 2: Partial Differential Equations	3
MATH 376	Topics in Multi-Variable Calculus and Differential Equations	5

MATH 421	The Theory of Single Variable Calculus	3
MATH/COMP SCI/ I SY E 425	Introduction to Combinatorial Optimization	3
MATH 443	Applied Linear Algebra	3
MATH 444	Graphs and Networks in Data Science	3

DATA SCIENCE REQUIREMENT

Complete at least four courses for at least 12 credits. Each course that satisfies this requirement must be distinct from those satisfying any part of the Core Math requirement. Courses below may have prerequisites outside of the requirements for this named option.

Data Science Fundamentals

Complete one course from:

Code	Title	Credits
STAT 340	Data Science Modeling II	4
COMP SCI 320	Data Science Programming II	4

Data Science Electives

To reach the 4 courses for at least 12 credits required, students may complete an additional Data Science Fundamentals course, additional courses from the MATH electives lists above, or any of the following courses.

Approved Elective Courses

Code	Title	Credits

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA on all MATH courses and courses eligible for the major.
  - This includes all MATH courses (including those cross-listed with MATH), regardless of appearing in the requirements of the program, and any non-MATH course that meets a requirement in the program.
- 2.000 GPA on at least 15 credits of upper level credit in the major.
  - This includes all MATH courses numbered 307 and above (including those cross-listed with MATH), regardless of appearing in the requirements of the program, and any non-MATH courses that meet a requirement in the program and carry the Advanced level designation.
- 15 credits in MATH in the major taken on the UW-Madison campus.
  - This includes all MATH courses numbered 307 and above (including those cross-listed with MATH), regardless of appearing in the requirements of the program.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

In general, your four year plan in mathematics should be organized along the following sequence:

1. Calculus
2. Linear Algebra
3. Required Transition to Advanced Math course
4. Additional 300/400-level courses as needed
5. Required Advanced MATH course
6. Additional 500/600-level MATH courses

MATHEMATICS: MATHEMATICS FOR ECONOMICS AND FINANCE

The Mathematics major's named options allow students to develop a deep understanding of how the subject relates to other areas of human inquiry. The requirements for these options feature mathematics courses with topics inspired by and commonly applied to problems in these associated fields. Though often paired with a second major in a related area, these programs function well alone and are suited to any mathematics student with a variety of interests. Students interested in a named option are recommended to meet with an advisor to navigate the various plans and courses available to them. Advising information can be found on the BA or BS pages (p. 1242).

The named options do not support Honors in the Major.

REQUIREMENTS

REQUIREMENTS

The Mathematics for Economics and Finance program requires at least 10 courses for at least 30 credits as described below.

CORE MATH REQUIREMENT

Complete at least six MATH courses for at least 18 credits.

Linear Algebra

Complete one course from the list below. Only one of these courses will be used to fulfill minimum course/credit requirements for the major.

Code	Title	Credits
MATH 341	Linear Algebra	3-5
or MATH 320	Linear Algebra and Differential Equations	
or MATH 340	Elementary Matrix and Linear Algebra	
or MATH 345	Linear Algebra and Optimization	
or MATH 375	Topics in Multi-Variable Calculus and Linear Algebra	

Differential Equations

Complete one course from the list below. At most one course in Introductory Differential Equations (MATH 319, MATH 320, and MATH 376) may be used to fulfill the course/credit requirements for the major. If a student takes MATH 320 to complete the Linear Algebra requirement, they may also use that course for this requirement. The course and credits will count only once toward the course/credit requirements for the major.

Code	Title	Credits
MATH 319	Techniques in Ordinary Differential Equations	3
or MATH 320	Linear Algebra and Differential Equations	
or MATH 376	Topics in Multi-Variable Calculus and Differential Equations	
MATH 322	Applied Mathematical Analysis 2: Partial Differential Equations	3
MATH 415	Applied Dynamical Systems, Chaos and Modeling	3
MATH 519	Ordinary Differential Equations	3

Transition to Advanced Mathematics

Complete one course or sequence from the list below. If a student takes MATH 341 or MATH 375 to complete the Linear Algebra requirement, they may also use that course for this requirement. If a student takes MATH 322 to complete the Differential Equations requirement, they may also use that course for this requirement in sequence with MATH 321. In these situations, the course and credits will count only once toward the course/credit requirements for the major.

Code	Title	Credits
MATH 341	Linear Algebra	3-5
or MATH 375	Topics in Multi-Variable Calculus and Linear Algebra	
MATH 421	The Theory of Single Variable Calculus	3
MATH 321 & MATH 322	Applied Mathematical Analysis 1: Vector and Complex Calculus and Applied Mathematical Analysis 2: Partial Differential Equations	6

Analysis

Complete one course from:

Code	Title	Credits
MATH 521	Analysis I	3

MATH Electives

Complete at least six MATH courses for at least 18 credits to satisfy the overall requirements of the major by choosing additional MATH courses from the lists below.

At least one MATH elective must be chosen from the list of Advanced MATH Elective courses. The remaining courses required to reach the required minimum courses and credits may be chosen from either the list of Advanced MATH Elective courses or the Additional MATH Electives.

Advanced MATH Elective

If a student takes MATH 519 to complete the Differential Equations requirement, they may also use that course for this requirement. The course and credits will count only once toward the course/credit requirements for the major.

Code	Title	Credits
MATH/ COMP SCI 513	Numerical Linear Algebra	3
MATH/ COMP SCI 514	Numerical Analysis	3
MATH 519	Ordinary Differential Equations	3
MATH 522	Analysis II	3
MATH/COMP SCI/ I SY E/STAT 525	Linear Optimization	3
MATH 531	Probability Theory	3
MATH 535	Mathematical Methods in Data Science	3
MATH 540	Linear Algebra II	3
MATH 616	Data-Driven Dynamical Systems, Stochastic Modeling and Prediction	3
MATH 619	Analysis of Partial Differential Equations	3
MATH 627	Introduction to Fourier Analysis	3
MATH 629	Introduction to Measure and Integration	3
MATH/I SY E/OTM/ STAT 632	Introduction to Stochastic Processes	3
MATH 635	An Introduction to Brownian Motion and Stochastic Calculus	3

Additional MATH Electives

Code	Title	Credits
MATH/STAT 310	Introduction to Probability and Mathematical Statistics II	3
MATH 321	Applied Mathematical Analysis 1: Vector and Complex Calculus	3
MATH 322	Applied Mathematical Analysis 2: Partial Differential Equations	3
MATH 415	Applied Dynamical Systems, Chaos and Modeling	3
MATH 421	The Theory of Single Variable Calculus	3
MATH/COMP SCI/ I SY E 425	Introduction to Combinatorial Optimization	3
MATH/STAT 431	Introduction to the Theory of Probability	3
or STAT/ MATH 309	Introduction to Probability and Mathematical Statistics I	
At most one course in Introductory Probability (STAT/ MATH 309 and MATH/STAT 431) may be used to fulfill the course/credit requirements for the major.		
MATH 443	Applied Linear Algebra	3
MATH 444	Graphs and Networks in Data Science	3
MATH/COMP SCI/ STAT 475	Introduction to Combinatorics	3

ECONOMICS/FINANCE REQUIREMENT

Complete at least four courses for at least 12 credits. Each course that satisfies this requirement must be distinct from those satisfying any part of the Core Math requirement. Courses below may have prerequisites outside of the requirements for this named option.

Introductory Sequence

Complete one sequence from:

Code	Title	Credits
ECON 311 & ECON 312	Intermediate Microeconomic Theory - Advanced Treatment and Intermediate Macroeconomic Theory - Advanced Treatment	6
ECON 301 & ECON 302	Intermediate Microeconomic Theory and Intermediate Macroeconomic Theory	8
FINANCE/ ECON 300 & FINANCE/ ECON 320	Introduction to Finance and Investment Theory	6

Economics/Finance Electives

To reach the four courses and 12 credits required, students may complete additional courses from the MATH electives lists above or any of the following courses.

Approved Electives

Code	Title	Credits
ECON 400	Introduction to Applied Econometrics	4

ECON 410	Introductory Econometrics	4
ECON/A A E 421	Economic Decision Analysis	4
ECON 435	The Financial System	3
ECON 441	Analytical Public Finance	3-4
ECON 442	Macroeconomic Policy	3-4
ECON 448	Human Resources and Economic Growth	3-4
ECON 450	Wages and the Labor Market	3-4
ECON 455	Behavioral Economics	3-4
ECON 458	Industrial Structure and Competitive Strategy	3
ECON 460	Economic Forecasting	3-4
ECON 461	International Macroeconomics	3-4
ECON 464	International Trade	3-4
ECON 468	Industrial Organization and Imperfect Competition	3-4

Total Credits 120

Students must declare a major by the time they reach Senior standing (86 credits).

Please refer to the Requirements tab in Guide for additional College of Letters & Science Breadth and Degree Requirements as well as Residence and Quality of Work requirements for the major.

1 Students should declare the math major upon successful completion of this course

2 Students may use this elective to take the second prerequisite for their introductory economics/finance sequence: ECON 102, ACCT I S 100, or ACCT I S 300.

3 MATH/STAT 431 or STAT/MATH 309 is recommended since it can be used as the prerequisite for a number of the Economics and Finance courses students can choose in this named option.

MATHEMATICS: MATHEMATICS FOR PROGRAMMING AND COMPUTING

The Mathematics major's named options allow students to develop a deep understanding of how the subject relates to other areas of human inquiry. The requirements for these options feature mathematics courses with topics inspired by and commonly applied to problems in these associated fields. Though often paired with a second major in a related area, these programs function well alone and are suited to any mathematics student with a variety of interests. Students interested in a named option are recommended to meet with an advisor to navigate the various plans and courses available to them. Advising information can be found on the BA or BS pages (p. 1242).

The named options do not support Honors in the Major.

REQUIREMENTS

REQUIREMENTS

The Mathematics for Programming and Computing program requires at least 10 courses for at least 30 credits as described below.

CORE MATH REQUIREMENT

Complete at least six MATH courses for at least 18 credits.

Linear Algebra

Complete one course from the list below. Only one of these courses will be used to fulfill minimum course/credit requirements for the major.

Code	Title	Credits
MATH 341	Linear Algebra	3-5

[1] Students should declare the major upon the successful completion of this course

MATHEMATICS: MATHEMATICS FOR SECONDARY EDUCATION

The Mathematics major's named options allow students to develop a deep understanding of how the subject relates to other areas of human inquiry. The requirements for these options feature mathematics courses with topics inspired by and commonly applied to problems in these associated fields. Though often paired with a second major in a related area, these programs function well alone and are suited to any mathematics student

with a variety of interests. Students interested in a named option are recommended to meet with an advisor to navigate the various plans and courses available to them. Advising information can be found on the BA or BS pages (p. 1242).

The named options do not support Honors in the Major.

REQUIREMENTS

REQUIREMENTS

The Mathematics for Secondary Education program requires at least eight courses for at least 24 credits as described below. Courses below may have prerequisites outside of this program.

Linear Algebra

Complete one course from the list below. Only one of these courses will be used to fulfill minimum course/credit requirements for the major.

Code	Title	Credits
MATH 341	Linear Algebra	3-5
or MATH 320	Linear Algebra and Differential Equations	
or MATH 340	Elementary Matrix and Linear Algebra	
or MATH 345	Linear Algebra and Optimization	
or MATH 375	Topics in Multi-Variable Calculus and Linear Algebra	

Transition to Advanced Mathematics

Complete one course or sequence from the list below. If a student takes MATH 341 or MATH 375 to complete the Linear Algebra requirement, they may also use that course for this requirement. The course and credits will only count once toward the course/credit requirements for the major.

Code	Title	Credits
MATH 341	Linear Algebra	3-5
or MATH 375	Topics in Multi-Variable Calculus and Linear Algebra	
MATH 421	The Theory of Single Variable Calculus	3
MATH 467	Introduction to Number Theory	3
MATH 321 & MATH 322	Applied Mathematical Analysis 1: Vector and Complex Calculus and Applied Mathematical Analysis 2: Partial Differential Equations	6

Analysis

Complete one course from the list below. If a student takes MATH 421 to complete the Transition to Advanced Mathematics requirement, they may also use that course for this requirement. The course and credits will only count once toward the course/credit requirements for the major.

Code	Title	Credits
MATH 421	The Theory of Single Variable Calculus	3
MATH 521	Analysis I	3

Modern Algebra

Complete one course from:

Code	Title	Credits
MATH 540	Linear Algebra II	3
MATH 541	Modern Algebra 1	3

Probability or Combinatorics

Complete one course from:

Code	Title	Credits
MATH/STAT 431	Introduction to the Theory of Probability	3
or MATH/ STAT 309	Introduction to Probability and Mathematical Statistics I	
At most one course in Introductory Probability (MATH/ STAT 309 and MATH/STAT 431) may be used to fulfill the course/credit requirements for the major.		
MATH 444	Graphs and Networks in Data Science	3
MATH/COMP SCI/ STAT 475	Introduction to Combinatorics	3
MATH 531	Probability Theory	3

Statistics

Complete one course from:

Code	Title	Credits
MATH/STAT 310	Introduction to Probability and Mathematical Statistics II	3
STAT 301	Introduction to Statistical Methods	3
STAT 312	Introduction to Theory and Methods of Mathematical Statistics II	3
STAT 324	Introduction to Statistics for Science and Engineering	3
ECON 310	Statistics: Measurement in Economics	4

History of Mathematics

Complete one course from:

Code	Title	Credits
MATH/HIST SCI 473	History of Mathematics	3

Geometry

Complete one course from:

Code	Title	Credits
MATH 461	College Geometry I	3

Capstone Course

Complete one course from:

Code	Title	Credits
MATH/CURRIC 471	Mathematics for Secondary School Teachers	3

Advanced Mathematics

A student must complete at least two MATH courses numbered 500 or higher for this named option. If a student completes the requirements above with fewer such courses, they must complete a course from the list below. This course must be distinct from those used to complete the requirements above.

Approved Electives

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA on all MATH courses and courses eligible for the major.
  - This includes all MATH courses (including those cross-listed with MATH), regardless of appearing in the requirements of the program, and any non-MATH course that meets a requirement in the program.
- 2.000 GPA on at least 15 credits of upper level credit in the major.
  - This includes all MATH courses numbered 307 and above (including those cross-listed with MATH), regardless of appearing in the requirements of the program, and any non-MATH courses that meet a requirement in the program and carry the Advanced level designation.
- 15 credits in MATH in the major taken on the UW-Madison campus.
  - This includes all MATH courses numbered 307 and above (including those cross-listed with MATH), regardless of appearing in the requirements of the program.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

In general, your four year plan in mathematics should be organized along the following sequence:

1. Calculus
2. Linear Algebra
3. Required Transition to Advanced Mathematics course (The four-year plan assumes students will complete this by taking either MATH 341 for Linear Algebra or MATH 421 for Analysis.)
4. Additional 300/400-level level courses as needed
5. Required 500-level Algebra course
6. Additional 500/600-level course

FOOTNOTES

1 Students should declare their major upon the successful completion of this course

2 Taught only in odd-numbered springs. Take spring of junior year if graduating in an even-numbered spring.

MATHEMATICS: MATHEMATICS FOR STATISTICAL ANALYSIS AND RISK ASSESSMENT

The Mathematics major's named options allow students to develop a deep understanding of how the subject relates to other areas of human inquiry. The requirements for these options feature mathematics courses with topics inspired by and commonly applied to problems in these associated fields. Though often paired with a second major in a related area, these programs function well alone and are suited to any mathematics student with a variety of interests. Students interested in a named option are recommended to meet with an advisor to navigate the various plans and courses available to them. Advising information can be found on the BA or BS pages (p. 1242).

The named options do not support Honors in the Major.

REQUIREMENTS

REQUIREMENTS

The Mathematics for Statistical Analysis and Risk Assessment program requires at least 10 courses for at least 30 credits as described below.

CORE MATH REQUIREMENT

Complete at least six MATH courses for at least 18 credits.

Linear Algebra

Complete one course from the list below. Only one of these courses will be used to fulfill minimum course/credit requirements for the major.

Code	Title	Credits
MATH 341	Linear Algebra	3-5
or MATH 320	Linear Algebra and Differential Equations	
or MATH 340	Elementary Matrix and Linear Algebra	
or MATH 345	Linear Algebra and Optimization	
or MATH 375	Topics in Multi-Variable Calculus and Linear Algebra	

Probability

Complete one course from:

Code	Title	Credits
MATH/STAT 431	Introduction to the Theory of Probability	3
or STAT/MATH 309	Introduction to Probability and Mathematical Statistics I	
At most one course in Introductory Probability (STAT/MATH 309 and MATH/STAT 431) may be used to fulfill the course/credit requirements for the major.		
MATH 531	Probability Theory	3

Statistics

Complete one course from the list below. The course has a prerequisite outside of the requirements of this named option.

Code	Title	Credits
MATH/STAT 310	Introduction to Probability and Mathematical Statistics II	3

Transition to Advanced Mathematics

Complete one course or sequence from the list below. If a student takes MATH 341 or MATH 375 to complete the Linear Algebra requirement, they may also use that course for this requirement. The course and credits will only count once toward the course/credit requirements for the major.

Code	Title	Credits
MATH 341	Linear Algebra	3-5
or MATH 375	Topics in Multi-Variable Calculus and Linear Algebra	
MATH 421	The Theory of Single Variable Calculus	3
MATH 321 & MATH 322	Applied Mathematical Analysis 1: Vector and Complex Calculus and Applied Mathematical Analysis 2: Partial Differential Equations	6

Advanced Mathematics Requirement

Complete one course from the list below. If a student takes MATH 531 to complete the Probability requirement, they may also use that course for this requirement. The course and credits will only count once toward the course/credit requirements for the major.

Code	Title	Credits
MATH/COMP SCI 514	Numerical Analysis	3
MATH 521	Analysis I	3
MATH 531	Probability Theory	3
MATH 535	Mathematical Methods in Data Science	3
MATH 540	Linear Algebra II	3

MATH Electives

Complete at least six MATH courses for at least 18 credits to satisfy the overall requirements of the major by choosing additional MATH courses from the lists below.

At least one MATH elective must be chosen from the list of Advanced MATH Elective courses. The course chosen for the Advanced MATH Elective must be distinct from the course used for the Advanced Mathematics requirement.

The remaining courses required to reach the required minimum courses and credits may be chosen from either the list of Advanced MATH Elective courses or the Additional MATH Electives.

Advanced MATH Elective

Code	Title	Credits
MATH/ COMP SCI 513	Numerical Linear Algebra	3
MATH/ COMP SCI 514	Numerical Analysis	3
MATH 519	Ordinary Differential Equations	3
MATH 521	Analysis I	3
MATH 522	Analysis II	3
MATH/COMP SCI/ I SY E/STAT 525	Linear Optimization	3
MATH 531	Probability Theory	3
MATH 535	Mathematical Methods in Data Science	3
MATH 540	Linear Algebra II	3
MATH 541	Modern Algebra 1	3
MATH 542	Modern Algebra 2	3
MATH 616	Data-Driven Dynamical Systems, Stochastic Modeling and Prediction	3
MATH 619	Analysis of Partial Differential Equations	3
MATH 627	Introduction to Fourier Analysis	3
MATH 629	Introduction to Measure and Integration	3
MATH/I SY E/OTM/ STAT 632	Introduction to Stochastic Processes	3
MATH 635	An Introduction to Brownian Motion and Stochastic Calculus	3

Additional MATH Electives

Code	Title	Credits
MATH 319	Techniques in Ordinary Differential Equations	3-5
or MATH 376	Topics in Multi-Variable Calculus and Differential Equations	
At most one course in Introductory Differential Equations (MATH 319, MATH 320, and MATH 376) may be used to fulfill the course/credit requirements for the major.		
MATH 321	Applied Mathematical Analysis 1: Vector and Complex Calculus	3
MATH 322	Applied Mathematical Analysis 2: Partial Differential Equations	3
MATH 415	Applied Dynamical Systems, Chaos and Modeling	3
MATH 421	The Theory of Single Variable Calculus	3
MATH/COMP SCI/ I SY E 425	Introduction to Combinatorial Optimization	3
MATH/COMP SCI/ E C E 435	Introduction to Cryptography	3
MATH 443	Applied Linear Algebra	3
MATH 444	Graphs and Networks in Data Science	3
MATH 467	Introduction to Number Theory	3
MATH/COMP SCI/ STAT 475	Introduction to Combinatorics	3

STATISTICS/RISK REQUIREMENT

Complete at least four courses for at least 12 credits. Each course that satisfies this requirement must be distinct from those satisfying any part of the Core Math requirement. Courses below may have prerequisites outside of the requirements for this named option.

Complete one course or sequence from the list below:

Code	Title	Credits
Actuarial Sciences		
ACT SCI 303	Theory of Interest	3
Statistics		
STAT 333 & STAT 424	Applied Regression Analysis and Statistical Experimental Design	6
Data Science		
STAT 340 & STAT 424	Data Science Modeling II and Statistical Experimental Design	7

Statistics/Risk Electives

To reach the four courses and 12 credits required, students may complete additional courses from the MATH electives lists above or any of the following courses.

Approved Electives

Code	Title	Credits
ACT SCI 650	Fundamentals of Long-Term Actuarial Modeling	3
ACT SCI 651	Advanced Long-Term Actuarial Modeling	3
ACT SCI 652	Fundamentals of Short-Term Actuarial Modeling	3
ACT SCI 653	Advanced Short-Term Actuarial Modeling	3
ACT SCI 654	Regression and Time Series for Actuaries	3
ACT SCI 655	Health Analytics	3
GEN BUS 656	Foundations of Statistical Learning for Business Analytics	3
STAT 349	Introduction to Time Series	3
STAT 351	Introductory Nonparametric Statistics	3
STAT 411	An Introduction to Sample Survey Theory and Methods	3
STAT 421	Applied Categorical Data Analysis	3
STAT 451	Introduction to Machine Learning and Statistical Pattern Classification	3
STAT 453	Introduction to Deep Learning and Generative Models	3
STAT 456	Applied Multivariate Analysis	3
STAT 461	Financial Statistics	3
STAT/COMP SCI 471	Introduction to Computational Statistics	3
STAT/COMP SCI/ MATH 475	Introduction to Combinatorics	3

STAT/COMP SCI/ I SY E/MATH 525	Linear Optimization	3
STAT 575	Statistical Methods for Spatial Data	3
STAT/I SY E/MATH/ OTM 632	Introduction to Stochastic Processes	3
STAT/B M I 641	Statistical Methods for Clinical Trials	3
STAT/B M I 642	Statistical Methods for Epidemiology	3
M E 536	Machine Learning for Data-Driven Engineering Design	3

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA on all MATH courses and courses eligible for the major.
  - This includes all MATH courses (including those cross-listed with MATH), regardless of appearing in the requirements of the program, and any non-MATH course that meets a requirement in the program.
- 2.000 GPA on at least 15 credits of upper level credit in the major.
  - This includes all MATH courses numbered 307 and above (including those cross-listed with MATH), regardless of appearing in the requirements of the program, and any non-MATH courses that meet a requirement in the program and carry the Advanced level designation.
- 15 credits in MATH in the major taken on the UW-Madison campus.
  - This includes all MATH courses numbered 307 and above (including those cross-listed with MATH), regardless of appearing in the requirements of the program.

Total Credits 120

1 Students should declare their major upon the successful completion of this course

2 To enroll in MATH/STAT 310, students must have an introductory statistics course. STAT 324 or STAT 240 are recommended for students in this named option, but STAT 301, STAT 371, and ECON 310 also satisfy the prerequisite.

MATHEMATICS: MATHEMATICS FOR THE PHYSICAL AND BIOLOGICAL SCIENCES

The Mathematics major's named options allow students to develop a deep understanding of how the subject relates to other areas of human inquiry. The requirements for these options feature mathematics courses with topics inspired by and commonly applied to problems in these associated fields. Though often paired with a second major in a related area, these programs function well alone and are suited to any mathematics student

with a variety of interests. Students interested in a named option are recommended to meet with an advisor to navigate the various plans and courses available to them. Advising information can be found on the BA or BS pages (p. 1242).

The named options do not support Honors in the Major.

REQUIREMENTS

REQUIREMENTS

The Mathematics for the Physical and Biological Sciences program requires at least 10 courses for at least 30 credits as described below.

CORE MATH REQUIREMENT

Complete at least six MATH courses for at least 18 credits.

Linear Algebra

Complete one course from the list below. Only one of these courses will be used to fulfill minimum course/credit requirements for the major.

Code	Title	Credits
MATH 341	Linear Algebra	3-5
or MATH 320	Linear Algebra and Differential Equations	
or MATH 340	Elementary Matrix and Linear Algebra	
or MATH 345	Linear Algebra and Optimization	
or MATH 375	Topics in Multi-Variable Calculus and Linear Algebra	

Differential Equations

Complete one course from the list below. At most one course in Introductory Differential Equations (MATH 319, MATH 320, and MATH 376) may be used to fulfill the course/credit requirements for the major. If a student takes MATH 320 to complete the Linear Algebra requirement, they may also use that course for this requirement. The course and credits will count only once toward the course/credit requirements for the major.

Code	Title	Credits
MATH 319	Techniques in Ordinary Differential Equations	3-5
or MATH 320	Linear Algebra and Differential Equations	
or MATH 376	Topics in Multi-Variable Calculus and Differential Equations	
MATH 322	Applied Mathematical Analysis 2: Partial Differential Equations	3
MATH 415	Applied Dynamical Systems, Chaos and Modeling	3
MATH 519	Ordinary Differential Equations	3

Transition to Advanced Mathematics

Complete one course or sequence from the list below. If a student takes MATH 341 or MATH 375 to complete the Linear Algebra requirement, they may also use that course for this requirement. If a student takes MATH 322 to complete the Differential Equations requirement, they may also use that course for this requirement in sequence with MATH 321. In these situations, the course and credits will count only once toward the course/credit requirements for the major.

Code	Title	Credits
MATH 341	Linear Algebra	3-5
or MATH 375	Topics in Multi-Variable Calculus and Linear Algebra	
MATH 421	The Theory of Single Variable Calculus	3
MATH 321 & MATH 322	Applied Mathematical Analysis 1: Vector and Complex Calculus and Applied Mathematical Analysis 2: Partial Differential Equations	6

Advanced Mathematics Requirement

Complete one course from the list below. If a student takes MATH 519 to complete the Differential Equations requirement, they may use that course to complete this requirement as well. The course and credits will count only once toward the course/credit requirements for the major.

Code	Title	Credits
MATH/ COMP SCI 514	Numerical Analysis	3
MATH 519	Ordinary Differential Equations	3
MATH 521	Analysis I	3
MATH 531	Probability Theory	3
MATH 540	Linear Algebra II	3
MATH 541	Modern Algebra 1	3
MATH 551	Point-Set Topology	3
MATH 561	Differential Geometry	3
MATH 619	Analysis of Partial Differential Equations	3
MATH 623	Complex Analysis	3

MATH Electives

Complete at least six MATH courses for at least 18 credits to satisfy the overall requirements of the major by choosing additional MATH courses from the lists below.

At least one MATH elective must be chosen from the list of Advanced MATH Elective courses. The course chosen for the Advanced MATH Elective must be distinct from the course used for the Advanced Mathematics requirement.

The remaining courses required to reach the required minimum courses and credits may be chosen from either the list of Advanced MATH Elective courses or the Additional MATH Electives.

Advanced MATH Elective

Code	Title	Credits

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA for all MATH courses and courses eligible for the major.
  - This includes all MATH courses (including those cross-listed with MATH), regardless of appearing in the requirements of the program, and any non-MATH course that meets a requirement in the program.
- 2.000 GPA on at least 15 credits of upper level credit in the major.
  - This includes all MATH courses numbered 307 and above (including those cross-listed with MATH), regardless of appearing in the requirements of the program, and any non-MATH courses that meet a requirement in the program and carry the Advanced level designation.
- 15 credits in MATH in the major taken on the UW-Madison campus.
  - This includes all MATH courses numbered 307 and above (including those cross-listed with MATH), regardless of appearing in the requirements of the program.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

In general, your four year plan in mathematics should be organized along the following sequence:

1. Calculus
2. Linear Algebra
3. Transition to Advanced Mathematics course (or sequence)
4. Additional 300/400-level courses as needed
5. Required Advanced Math course
6. Additional 500/600-level course(s)

Freshman

Fall	Credits	Spring	Credits
MATH 221	5	MATH 222	4
Literature Breadth	3	Literature Breadth	3
Communication A	3	Ethnic Studies	3
Language (if required)	4	Language (if required)	4
	15		**14**

Sophomore

Fall	Credits	Spring	Credits
MATH 234[1]	4	MATH 321	3
MATH 320	3	Humanities Breadth	3
Humanities Breadth	3	Social Sciences Breadth	3
Communication B	3	Elective	3
Elective	3	Elective	3
	16		**15**

Junior

Fall	Credits	Spring	Credits
300/400-level MATH elective	3	MATH 322	3
PHYSICS 247, 207, 201, or E M A 201	5	PHYSICS 248, 208, or 202	5
Social Sciences Breadth	3	Biological Sciences Breadth	3
Biological Sciences Breadth	3	INTER-LS 210	1
		Elective	3
	14		**15**

Elective	4	Elective	3
Elective	3	Elective	3
	16		**15**

Total Credits 120

FOOTNOTES

[1] Students should declare their major upon the successful completion of this course

MATHEMATICS, BS

Mathematics is about understanding the world through studies of quantity, structure, pattern, and change to create logical solutions that make life more meaningful and more beautiful. Mathematics bridges the humanities and the sciences. Its position among the humanities is based on the study of mathematics as one of the liberal arts for more than two thousand years. The natural sciences have invariably turned to mathematics for techniques needed to explore the consequences of scientific theories. In the last few decades, social scientists have increasingly found higher mathematics of value in their training and research. Still an expanding subject, mathematics is a part of more new and challenging frontiers than at any time in its long history, with many new fields, from data science to quantum computing, requiring new techniques and inspiring ideas for exploration.

The Mathematics major requirements include exposure to at least two areas of advanced mathematics. The program is ideal for any student who has a broad interest in mathematics both pure and applied, and functions well as a standalone or complementary program. The Mathematics major also offers six named options (p. 1264) for students interested in pursuing an applied focus area outside of mathematics as part of their major.

Students interested in Mathematics may also wish to consider the Bachelor of Science—Applied Mathematics, Engineering, and Physics (p. 1232) (BS AMEP).

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are eligible to declare. For information on how to declare, see Advising & Careers.
Courses required to get in	Students must complete preparatory work in Calculus with either: • MATH 221, MATH 222, and MATH 234, or • MATH 375. If Calculus was not taken in-residence at UW–Madison, students must complete a course in Linear Algebra: • MATH 320, MATH 340, MATH 341, or MATH 345.
GPA requirements to get in	Students must earn either: • a minimum 2.500 GPA computed on MATH 221, MATH 222, and MATH 234, or • a grade of BC or better in MATH 375, MATH 320, MATH 340, MATH 341, or MATH 345. Only courses completed in-residence at UW–Madison are eligible for computation in the GPA or consideration on a graded basis.
Credits required to get in	None.
Other	Students may have non-residence credit for the courses required for eligibility. These students should consult with the Mathematics department on an appropriate MATH course to complete in-residence prior to declaring the major. Students must earn a grade of BC or better in that course.

Students who are declared in the Bachelor of Science-Applied Mathematics, Engineering, and Physics degree may not be declared in the Mathematics for Physical and Biological Sciences named option.

Students declared in the Mathematics certificate may not be declared in the Mathematics major at the same time. Students who wish to declare this major must first cancel their declaration in the Mathematics certificate.

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.

Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. Some courses satisfy more than one L&S degree requirement (visit College of Letters & Science: Requirements (https://guide.wisc.edu/undergraduate/letters-science/#requirementstext) for details).

This major can be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Communication	Complete both: • Part A: one course with the Communication A designation or eligible UW Placement Score; and • Part B: one course with the Communication B designation
Quantitative Reasoning	Complete both: • Part A: one course with the Quantitative Reasoning A designation or eligible UW Placement Score; and • Part B: one course with the Quantitative Reasoning B designation
Ethnic Studies	one 3+ credit course with the Ethnic Studies designation
Language	the third unit of a language other than English
Mathematics	Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.
L&S Breadth: Humanities	Complete 12 credits with the Humanities or Literature designation, which must include at least 6 credits with the Literature designation.
L&S Breadth: Social Sciences	Complete 12 credits with the Social Science designation.
L&S Breadth: Natural Sciences	Complete 12 credits, which must include both: • 6 credits with the Biological Science designation, and • 6 credits with the Physical Science designation.
Liberal Arts and Science (LAS) Coursework	at least 108 credits

Depth of Intermediate/ Advanced Coursework	at least 60 credits at the Intermediate or Advanced level
Major	Declare and complete at least one major.
Total Credits	at least 120 credits
UW-Madison Experience	• 30 credits in residence, overall, and • 30 credits in residence after the 86th credit
Quality of Work	• 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their School/College to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

The requirements below are for the standard Mathematics major. The Mathematics major also offers six named options (p. 1264) for students interested in pursuing an applied focus area outside of mathematics as part of their major.

At least seven MATH courses for at least 21 credits are required for the major as follows:

LINEAR ALGEBRA

Complete one course from the list below. Only one of these courses will be used to fulfill minimum course/credit requirements for the major.

Code	Title	Credits
MATH 341	Linear Algebra	3-5
or MATH 320	Linear Algebra and Differential Equations	
or MATH 340	Elementary Matrix and Linear Algebra	
or MATH 345	Linear Algebra and Optimization	
or MATH 375	Topics in Multi-Variable Calculus and Linear Algebra	

TRANSITION TO ADVANCED MATHEMATICS

Complete one course or sequence from the list below. If a student takes MATH 341 or MATH 375 to complete the Linear Algebra requirement, they may also use that course for this requirement. The course and credits will only count once toward the course/credit requirements for the major.

Code	Title	Credits
MATH 341	Linear Algebra	3-5
or MATH 375	Topics in Multi-Variable Calculus and Linear Algebra	
MATH 421	The Theory of Single Variable Calculus	3
MATH 467	Introduction to Number Theory	3
MATH 321 & MATH 322	Applied Mathematical Analysis 1: Vector and Complex Calculus and Applied Mathematical Analysis 2: Partial Differential Equations	6

ANALYSIS, TOPOLOGY, AND ALGEBRA

Complete two courses from:

Code	Title	Credits
MATH 521	Analysis I	3
MATH 541	Modern Algebra 1	3
MATH 551	Point-Set Topology	3

MATH ELECTIVES

Complete at least seven MATH courses for at least 21 credits to satisfy the overall requirements of the major by choosing additional MATH courses from the lists below. The courses chosen for MATH Electives must be distinct from the courses used for the requirements above.

Complete at least one course for at least three credits from the list of Advanced MATH Electives. The remaining courses required to reach the required minimum courses and credits may be chosen from either the list of Advanced MATH Elective courses or the Additional MATH Electives

Advanced MATH Elective

Code	Title	Credits
MATH/ COMP SCI 513	Numerical Linear Algebra	3
MATH/ COMP SCI 514	Numerical Analysis	3
MATH 519	Ordinary Differential Equations	3
MATH 521	Analysis I	3
MATH 522	Analysis II	3
MATH/COMP SCI/ I SY E/STAT 525	Linear Optimization	3
MATH 531	Probability Theory	3
MATH 535	Mathematical Methods in Data Science	3
MATH 540	Linear Algebra II	3
MATH 541	Modern Algebra 1	3
MATH 542	Modern Algebra 2	3
MATH 551	Point-Set Topology	3
MATH 552	Introduction to Algebraic Topology	3
MATH 561	Differential Geometry	3
MATH 567	Modern Number Theory	3
MATH 570	Fundamentals of Set Theory	3
MATH/PHILOS 571	Mathematical Logic	3
MATH 607	Study Abroad: Proof-based Advanced Mathematics	1-5
MATH/B M I/ BIOCHEM/ BMOLCHEM 609	Mathematical Methods for Systems Biology	3
MATH 616	Data-Driven Dynamical Systems, Stochastic Modeling and Prediction	3
MATH 619	Analysis of Partial Differential Equations	3
MATH 621	Introduction to Manifolds	3

MATH 623	Complex Analysis	3
MATH 627	Introduction to Fourier Analysis	3
MATH 629	Introduction to Measure and Integration	3
MATH/I SY E/OTM/ STAT 632	Introduction to Stochastic Processes	3
MATH 635	An Introduction to Brownian Motion and Stochastic Calculus	3
MATH 681	Senior Honors Thesis	3
MATH 682	Senior Honors Thesis	3
MATH 691	Undergraduate Thesis	2-4
MATH 692	Undergraduate Thesis	2-4
MATH 698	Directed Study	1-3
MATH 699	Directed Study	1-6

Additional MATH Electives

Code	Title	Credits
MATH/STAT 431	Introduction to the Theory of Probability	3
or MATH/ STAT 309	Introduction to Probability and Mathematical Statistics I	
At most one course in Introductory Probability (STAT/ MATH 309 and MATH/STAT 431) may be used to fulfill the course/credit requirements for the major.		
MATH/STAT 310	Introduction to Probability and Mathematical Statistics II	3
MATH 319	Techniques in Ordinary Differential Equations	3
or MATH 376	Topics in Multi-Variable Calculus and Differential Equations	
At most one course in Introductory Differential Equations (MATH 319, MATH 320, and MATH 376) may be used to fulfill the course/credit requirements for the major.		
MATH 321	Applied Mathematical Analysis 1: Vector and Complex Calculus	3
MATH 322	Applied Mathematical Analysis 2: Partial Differential Equations	3
MATH 390	Undergraduate Research with Madison Experimental Mathematics Lab	3
MATH 390 will only count once toward the major requirements.		
MATH 407	Study Abroad: Advanced Mathematics	1-5
MATH 415	Applied Dynamical Systems, Chaos and Modeling	3
MATH 421	The Theory of Single Variable Calculus	3
MATH/COMP SCI/ I SY E 425	Introduction to Combinatorial Optimization	3
MATH/COMP SCI/ E C E 435	Introduction to Cryptography	3
MATH 443	Applied Linear Algebra	3
MATH 444	Graphs and Networks in Data Science	3
MATH 461	College Geometry I	3
MATH 467	Introduction to Number Theory	3
MATH/HIST SCI 473	History of Mathematics	3
MATH/COMP SCI/ STAT 475	Introduction to Combinatorics	3
MATH 490	Undergraduate Seminar	1-3
MATH 491	Topics in Undergraduate Mathematics	3

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all MATH and major courses.
- 2.000 GPA on 15 upper-level major credits, taken in residence.
  - MATH courses numbered 307–699 are considered upper level in the major.
- 15 credits in MATH, taken on the UW–Madison campus.

NAMED OPTIONS

View as listView as grid

- **MATHEMATICS: MATHEMATICS FOR DATA SCIENCE (P. 1243)**
- **MATHEMATICS: MATHEMATICS FOR ECONOMICS AND FINANCE (P. 1246)**
- **MATHEMATICS: MATHEMATICS FOR PROGRAMMING AND COMPUTING (P. 1249)**
- **MATHEMATICS: MATHEMATICS FOR SECONDARY EDUCATION (P. 1251)**
- **MATHEMATICS: MATHEMATICS FOR STATISTICAL ANALYSIS AND RISK ASSESSMENT (P. 1254)**
- **MATHEMATICS: MATHEMATICS FOR THE PHYSICAL AND BIOLOGICAL SCIENCES (P. 1256)**

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Mathematics Honors advisor (https://www.math.wisc.edu/undergraduate/advising/); this should be done by the start of the junior year. Honors in the major is not available in any Named Option program.

HONORS IN THE MATHEMATICS MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the mathematics major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA for all MATH courses, and all courses accepted in the major
- Complete the following courses, with individual grades of B or better:

Code	Title	Credits
Analysis and Algebra		
MATH 521 & MATH 522	Analysis I and Analysis II (Taken for Honors)	
MATH 541 & MATH 542	Modern Algebra 1 and Modern Algebra 2 (Taken for Honors)	
Additional Advanced MATH Courses		
Complete at least two additional courses from MATH 500 through MATH 680 selected in consultation with a Mathematics Honors advisor. These courses must be taken for Honors.		
The following will usually be one of the courses:		
MATH 551	Point-Set Topology	
Complete one Capstone project:		
MATH 681 & MATH 682	Senior Honors Thesis and Senior Honors Thesis (For a total of 6 credits.)	
or		
A sequence of two upper-level mathematics courses approved by a Mathematics Honors advisor		

At least one of the sequences MATH 521-MATH 522 or MATH 541-MATH 542 must be completed prior to enrolling in the Capstone project.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. State, explain, and apply the principal results, definitions, and theorems of a wide collection of mathematical areas including at least one area of advanced undergraduate mathematics.
2. Construct and evaluate mathematical proofs and arguments.
3. Acquire a diverse set of skills and strategies in mathematical reasoning/problem solving.
4. Use mathematics to model and analyze phenomena in other disciplines.
5. Write, explain, and present mathematics to both experts and non--experts.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

MATHEMATICS MAJOR – BACHELOR OF ARTS/SCIENCE DEGREE

Elective	3	Elective	3
	15		**15**

Total Credits 120

1. Students should declare their major upon the successful completion of this course
2. 300/400-level MATH courses are any numbered above 306 excluding MATH 320, MATH 331, MATH 340, MATH 341, MATH 345, MATH 375 and MATH/CURRIC 471.

ADVISING AND CAREERS

ADVISING AND CAREERS

ADVISING

Students who are interested in the Mathematics major should visit a faculty advisor. Information about current advisor availability is on

the Math advising page (https://www.math.wisc.edu/undergraduate/advising/).

For advice on college algebra, pre-calculus, and calculus, see the placement advising pages (https://www.math.wisc.edu/undergraduate/placement/) of the department.

Transition Courses

All majors are required to complete at least one of the following as the prerequisite for one or more proof-based 500-level courses required in the major. It is suggested that Mathematics-declared students (and those interested in the major) complete such a course as soon in their academic career as possible.

Code	Title	Credits
MATH 341	Linear Algebra	
or MATH 375	Topics in Multi-Variable Calculus and Linear Algebra	
MATH 321 & MATH 322	Applied Mathematical Analysis 1: Vector and Complex Calculus and Applied Mathematical Analysis 2: Partial Differential Equations	
MATH 421	The Theory of Single Variable Calculus	
MATH 467	Introduction to Number Theory	

Graduate Study

Students preparing for graduate work in mathematics should take the following courses:

Code	Title	Credits
MATH 341	Linear Algebra	3
or MATH 375	Topics in Multi-Variable Calculus and Linear Algebra	
MATH 521	Analysis I	3
MATH 522	Analysis II	3
MATH 541	Modern Algebra 1	3
MATH 542	Modern Algebra 2	3
MATH 551	Point-Set Topology	3
or MATH 561	Differential Geometry	
Select at least two other courses at the 500 level or higher		

Students who plan to enter a mathematics PhD program should acquire a reading knowledge of at least one language other than English as early as possible; the most useful languages are French (https://guide.wisc.edu/courses/french/), German (https://guide.wisc.edu/courses/german/), and Russian (https://guide.wisc.edu/courses/slavic/).

CAREERS

In recent years, students graduating with the Mathematics major have obtained employment in a variety of jobs in business, industry, and governmental agencies and also have obtained teaching positions at the secondary school level (such teaching positions normally require teaching certification). Others have continued their education at the graduate level in mathematics and other fields. Departments in a variety of fields that use mathematics, including the social and biological sciences as well as in engineering and the physical sciences, are interested in attracting Mathematics students into their graduate programs. Students with a Mathematics PhD obtain academic positions at the college and university level and nonacademic positions entailing consulting and research. The Mathematics major requirements are flexible enough to allow preparation for various goals.

For information about opportunities related to possible careers with a Mathematics major, refer to our Advising (https://math.wisc.edu/undergraduate/advising/) page under "Career Advising."

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

The Department of Mathematics offers scholarships, awards, and prizes (https://math.wisc.edu/undergraduate/awards/) to students declared in the Mathematics major. Award applications are open during the spring semester so that award recipients may be selected before the end of spring semester and applied to fall enrollment.

Awards vary in scope and criteria. Some awards are open to students who exhibit financial need, while others are granted to students based

on academic merit. Other awards are related to undergraduate research. Awards may be open to specific student populations such as early-career majors or those interested in a career as a teacher.

Students declared in the Mathematics major are encouraged to apply for any scholarships for which they meet the qualifications.

MATHEMATICS: MATHEMATICS FOR DATA SCIENCE

The Mathematics major's named options allow students to develop a deep understanding of how the subject relates to other areas of human inquiry. The requirements for these options feature mathematics courses with topics inspired by and commonly applied to problems in these associated fields. Though often paired with a second major in a related area, these programs function well alone and are suited to any mathematics student with a variety of interests. Students interested in a named option are recommended to meet with an advisor to navigate the various plans and courses available to them. Advising information can be found on the BA or BS pages (p. 1242).

The named options do not support Honors in the Major.

REQUIREMENTS

REQUIREMENTS

The Mathematics for Data Science program requires at least 10 courses for at least 30 credits as described below.

CORE MATH REQUIREMENT

Complete at least six MATH courses for at least 18 credits.

Linear Algebra

Complete one course from the list below. Only one of these courses will be used to fulfill minimum course/credit requirements for the major.

Code	Title	Credits
MATH 341	Linear Algebra	3-5
or MATH 320	Linear Algebra and Differential Equations	
or MATH 340	Elementary Matrix and Linear Algebra	
or MATH 345	Linear Algebra and Optimization	
or MATH 375	Topics in Multi-Variable Calculus and Linear Algebra	

Transition to Advanced Mathematics

Complete one course or sequence from the list below. If a student takes MATH 341 or MATH 375 to complete the Linear Algebra requirement, they may also use that course for this requirement. The course and credits will only count once toward the course/credit requirements for the major.

Code	Title	Credits
MATH 341	Linear Algebra	3-5
or MATH 375	Topics in Multi-Variable Calculus and Linear Algebra	
MATH 421	The Theory of Single Variable Calculus	3
MATH 321 & MATH 322	Applied Mathematical Analysis 1: Vector and Complex Calculus and Applied Mathematical Analysis 2: Partial Differential Equations	6

Probability

Complete one course from:

Code	Title	Credits
MATH/STAT 431	Introduction to the Theory of Probability	3
or MATH/ STAT 309	Introduction to Probability and Mathematical Statistics I	
At most one course in Introductory Probability (MATH/ STAT 309 and MATH/STAT 431) may be used to fulfill the course/credit requirements for the major.		
MATH 531	Probability Theory	3

Numerical and Optimization Methods

Complete one course from:

Code	Title	Credits
MATH/ COMP SCI 513	Numerical Linear Algebra	3
MATH/COMP SCI/ I SY E/STAT 525	Linear Optimization	3
MATH/ COMP SCI 514	Numerical Analysis	3
MATH 443	Applied Linear Algebra	3
MATH/COMP SCI/ I SY E 425	Introduction to Combinatorial Optimization	3

Mathematics of Data

Complete one course from:

Code	Title	Credits
MATH 535	Mathematical Methods in Data Science	3

MATH Electives

Complete at least six MATH courses for at least 18 credits to satisfy the overall requirements of the major by choosing additional MATH courses from the lists below.

At least one MATH elective must be chosen from the list of Advanced MATH Elective courses. The remaining courses required to reach the required minimum courses and credits may be chosen from either the list of Advanced MATH Elective courses or the Additional MATH Electives.

Advanced MATH Elective

If a student takes MATH 531 to complete the Probability requirement, they may also use that course for this requirement. If a student takes MATH/COMP SCI 513, MATH/COMP SCI/I SY E/STAT 525, or MATH/ COMP SCI 514 to complete the Numerical and Optimization Methods requirement, they may also use that course for this requirement. In either case, the course and credits will count only once toward the course/credit requirements for the major.

Code	Title	Credits
MATH/ COMP SCI 513	Numerical Linear Algebra	3

MATH/ COMP SCI 514	Numerical Analysis	3
MATH 521	Analysis I	3
MATH/COMP SCI/ I SY E/STAT 525	Linear Optimization	3
MATH 531	Probability Theory	3
MATH 540	Linear Algebra II	3
MATH 616	Data-Driven Dynamical Systems, Stochastic Modeling and Prediction	3
MATH/I SY E/OTM/ STAT 632	Introduction to Stochastic Processes	3

Additional MATH Electives

Code	Title	Credits
MATH/STAT 310	Introduction to Probability and Mathematical Statistics II	3
MATH 321	Applied Mathematical Analysis 1: Vector and Complex Calculus	3
MATH 322	Applied Mathematical Analysis 2: Partial Differential Equations	3
MATH 376	Topics in Multi-Variable Calculus and Differential Equations	5
MATH 421	The Theory of Single Variable Calculus	3
MATH/COMP SCI/ I SY E 425	Introduction to Combinatorial Optimization	3
MATH 443	Applied Linear Algebra	3
MATH 444	Graphs and Networks in Data Science	3

DATA SCIENCE REQUIREMENT

Complete at least four courses for at least 12 credits. Each course that satisfies this requirement must be distinct from those satisfying any part of the Core Math requirement. Courses below may have prerequisites outside of the requirements for this named option.

Data Science Fundamentals

Complete one course from:

Code	Title	Credits
STAT 340	Data Science Modeling II	4
COMP SCI 320	Data Science Programming II	4

Data Science Electives

To reach the 4 courses for at least 12 credits required, students may complete an additional Data Science Fundamentals course, additional courses from the MATH electives lists above, or any of the following courses.

Approved Elective Courses

Code	Title	Credits
COMP SCI/E C E/ I SY E 524	Introduction to Optimization	3
COMP SCI/ E C E 533	Image Processing	3
COMP SCI/E C E/ M E 539	Introduction to Artificial Neural Networks	3
COMP SCI 540	Introduction to Artificial Intelligence	3

M E 536	Machine Learning for Data-Driven Engineering Design	3

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA on all MATH courses and courses eligible for the major.
  - This includes all MATH courses (including those cross-listed with MATH), regardless of appearing in the requirements of the program, and any non-MATH course that meets a requirement in the program.
- 2.000 GPA on at least 15 credits of upper level credit in the major.
  - This includes all MATH courses numbered 307 and above (including those cross-listed with MATH), regardless of appearing in the requirements of the program, and any non-MATH courses that meet a requirement in the program and carry the Advanced level designation.
- 15 credits in MATH in the major taken on the UW-Madison campus.
  - This includes all MATH courses numbered 307 and above (including those cross-listed with MATH), regardless of appearing in the requirements of the program.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

In general, your four year plan in mathematics should be organized along the following sequence:

1. Calculus
2. Linear Algebra
3. Required Transition to Advanced Math course
4. Additional 300/400-level courses as needed
5. Required Advanced MATH course
6. Additional 500/600-level MATH courses

Total Credits 120

MATHEMATICS: MATHEMATICS FOR ECONOMICS AND FINANCE

The Mathematics major's named options allow students to develop a deep understanding of how the subject relates to other areas of human inquiry. The requirements for these options feature mathematics courses with topics inspired by and commonly applied to problems in these associated fields. Though often paired with a second major in a related area, these programs function well alone and are suited to any mathematics student with a variety of interests. Students interested in a named option are recommended to meet with an advisor to navigate the various plans and courses available to them. Advising information can be found on the BA or BS pages (p. 1242).

The named options do not support Honors in the Major.

REQUIREMENTS

REQUIREMENTS

The Mathematics for Economics and Finance program requires at least 10 courses for at least 30 credits as described below.

CORE MATH REQUIREMENT

Complete at least six MATH courses for at least 18 credits.

Linear Algebra

Complete one course from the list below. Only one of these courses will be used to fulfill minimum course/credit requirements for the major.

Code	Title	Credits
MATH 341	Linear Algebra	3-5
or MATH 320	Linear Algebra and Differential Equations	
or MATH 340	Elementary Matrix and Linear Algebra	
or MATH 345	Linear Algebra and Optimization	
or MATH 375	Topics in Multi-Variable Calculus and Linear Algebra	

Differential Equations

Complete one course from the list below. At most one course in Introductory Differential Equations (MATH 319, MATH 320, and MATH 376) may be used to fulfill the course/credit requirements for the major. If a student takes MATH 320 to complete the Linear Algebra requirement, they may also use that course for this requirement. The

course and credits will count only once toward the course/credit requirements for the major.

Code	Title	Credits
MATH 319	Techniques in Ordinary Differential Equations	3
or MATH 320	Linear Algebra and Differential Equations	
or MATH 376	Topics in Multi-Variable Calculus and Differential Equations	
MATH 322	Applied Mathematical Analysis 2: Partial Differential Equations	3
MATH 415	Applied Dynamical Systems, Chaos and Modeling	3
MATH 519	Ordinary Differential Equations	3

Transition to Advanced Mathematics

Complete one course or sequence from the list below. If a student takes MATH 341 or MATH 375 to complete the Linear Algebra requirement, they may also use that course for this requirement. If a student takes MATH 322 to complete the Differential Equations requirement, they may also use that course for this requirement in sequence with MATH 321. In these situations, the course and credits will count only once toward the course/credit requirements for the major.

Code	Title	Credits
MATH 341	Linear Algebra	3-5
or MATH 375	Topics in Multi-Variable Calculus and Linear Algebra	
MATH 421	The Theory of Single Variable Calculus	3
MATH 321 & MATH 322	Applied Mathematical Analysis 1: Vector and Complex Calculus and Applied Mathematical Analysis 2: Partial Differential Equations	6

Analysis

Complete one course from:

Code	Title	Credits
MATH 521	Analysis I	3

MATH Electives

Complete at least six MATH courses for at least 18 credits to satisfy the overall requirements of the major by choosing additional MATH courses from the lists below.

At least one MATH elective must be chosen from the list of Advanced MATH Elective courses. The remaining courses required to reach the required minimum courses and credits may be chosen from either the list of Advanced MATH Elective courses or the Additional MATH Electives.

Advanced MATH Elective

If a student takes MATH 519 to complete the Differential Equations requirement, they may also use that course for this requirement. The course and credits will count only once toward the course/credit requirements for the major.

Code	Title	Credits
MATH/ COMP SCI 513	Numerical Linear Algebra	3
MATH/ COMP SCI 514	Numerical Analysis	3
MATH 519	Ordinary Differential Equations	3
MATH 522	Analysis II	3
MATH/COMP SCI/ I SY E/STAT 525	Linear Optimization	3
MATH 531	Probability Theory	3
MATH 535	Mathematical Methods in Data Science	3
MATH 540	Linear Algebra II	3
MATH 616	Data-Driven Dynamical Systems, Stochastic Modeling and Prediction	3
MATH 619	Analysis of Partial Differential Equations	3
MATH 627	Introduction to Fourier Analysis	3
MATH 629	Introduction to Measure and Integration	3
MATH/I SY E/OTM/ STAT 632	Introduction to Stochastic Processes	3
MATH 635	An Introduction to Brownian Motion and Stochastic Calculus	3

Additional MATH Electives

Code	Title	Credits
MATH/STAT 310	Introduction to Probability and Mathematical Statistics II	3
MATH 321	Applied Mathematical Analysis 1: Vector and Complex Calculus	3
MATH 322	Applied Mathematical Analysis 2: Partial Differential Equations	3
MATH 415	Applied Dynamical Systems, Chaos and Modeling	3
MATH 421	The Theory of Single Variable Calculus	3
MATH/COMP SCI/ I SY E 425	Introduction to Combinatorial Optimization	3
MATH/STAT 431	Introduction to the Theory of Probability	3
or STAT/ MATH 309	Introduction to Probability and Mathematical Statistics I	
At most one course in Introductory Probability (STAT/ MATH 309 and MATH/STAT 431) may be used to fulfill the course/credit requirements for the major.		
MATH 443	Applied Linear Algebra	3
MATH 444	Graphs and Networks in Data Science	3
MATH/COMP SCI/ STAT 475	Introduction to Combinatorics	3

ECONOMICS/FINANCE REQUIREMENT

Complete at least four courses for at least 12 credits. Each course that satisfies this requirement must be distinct from those satisfying any part of the Core Math requirement. Courses below may have prerequisites outside of the requirements for this named option.

Introductory Sequence

Complete one sequence from:

Code	Title	Credits
ECON 311 & ECON 312	Intermediate Microeconomic Theory - Advanced Treatment and Intermediate Macroeconomic Theory - Advanced Treatment	6
ECON 301 & ECON 302	Intermediate Microeconomic Theory and Intermediate Macroeconomic Theory	8
FINANCE/ ECON 300 & FINANCE/ ECON 320	Introduction to Finance and Investment Theory	6

Economics/Finance Electives

To reach the four courses and 12 credits required, students may complete additional courses from the MATH electives lists above or any of the following courses.

Approved Electives

Code	Title	Credits
ECON 400	Introduction to Applied Econometrics	4
ECON 410	Introductory Econometrics	4
ECON/A A E 421	Economic Decision Analysis	4
ECON 435	The Financial System	3
ECON 441	Analytical Public Finance	3-4
ECON 442	Macroeconomic Policy	3-4
ECON 448	Human Resources and Economic Growth	3-4
ECON 450	Wages and the Labor Market	3-4
ECON 455	Behavioral Economics	3-4
ECON 458	Industrial Structure and Competitive Strategy	3
ECON 460	Economic Forecasting	3-4
ECON 461	International Macroeconomics	3-4

Total Credits 120

Students must declare a major by the time they reach Senior standing (86 credits).

Please refer to the Requirements tab in Guide for additional College of Letters & Science Breadth and Degree Requirements as well as Residence and Quality of Work requirements for the major.

1 Students should declare the math major upon successful completion of this course

2 Students may use this elective to take the second prerequisite for their introductory economics/finance sequence: ECON 102, ACCT I S 100, or ACCT I S 300.

3 MATH/STAT 431 or STAT/MATH 309 is recommended since it can be used as the prerequisite for a number of the Economics and Finance courses students can choose in this named option.

MATHEMATICS: MATHEMATICS FOR PROGRAMMING AND COMPUTING

The Mathematics major's named options allow students to develop a deep understanding of how the subject relates to other areas of human inquiry. The requirements for these options feature mathematics courses with topics inspired by and commonly applied to problems in these associated fields. Though often paired with a second major in a related area, these programs function well alone and are suited to any mathematics student with a variety of interests. Students interested in a named option are recommended to meet with an advisor to navigate the various plans and courses available to them. Advising information can be found on the BA or BS pages (p. 1242).

The named options do not support Honors in the Major.

REQUIREMENTS

REQUIREMENTS

The Mathematics for Programming and Computing program requires at least 10 courses for at least 30 credits as described below.

CORE MATH REQUIREMENT

Complete at least six MATH courses for at least 18 credits.

Linear Algebra

Complete one course from the list below. Only one of these courses will be used to fulfill minimum course/credit requirements for the major.

Code	Title	Credits
MATH 341	Linear Algebra	3-5
or MATH 320	Linear Algebra and Differential Equations	
or MATH 340	Elementary Matrix and Linear Algebra	
or MATH 345	Linear Algebra and Optimization	
or MATH 375	Topics in Multi-Variable Calculus and Linear Algebra	

Transition to Advanced Mathematics

Complete one course or sequence from the list below. If a student takes MATH 341 or MATH 375 to complete the Linear Algebra requirement, they may also use that course for this requirement. The course and credits will only count once toward the course/credit requirements for the major.

[1] Students should declare the major upon the successful completion of this course

MATHEMATICS: MATHEMATICS FOR SECONDARY EDUCATION

The Mathematics major's named options allow students to develop a deep understanding of how the subject relates to other areas of human inquiry. The requirements for these options feature mathematics courses with topics inspired by and commonly applied to problems in these associated fields. Though often paired with a second major in a related area, these programs function well alone and are suited to any mathematics student with a variety of interests. Students interested in a named option are recommended to meet with an advisor to navigate the various plans and courses available to them. Advising information can be found on the BA or BS pages (p. 1242).

The named options do not support Honors in the Major.

REQUIREMENTS

REQUIREMENTS

The Mathematics for Secondary Education program requires at least eight courses for at least 24 credits as described below. Courses below may have prerequisites outside of this program.

Linear Algebra

Complete one course from the list below. Only one of these courses will be used to fulfill minimum course/credit requirements for the major.

Code	Title	Credits
MATH 341	Linear Algebra	3-5
or MATH 320	Linear Algebra and Differential Equations	
or MATH 340	Elementary Matrix and Linear Algebra	
or MATH 345	Linear Algebra and Optimization	
or MATH 375	Topics in Multi-Variable Calculus and Linear Algebra	

Transition to Advanced Mathematics

Complete one course or sequence from the list below. If a student takes MATH 341 or MATH 375 to complete the Linear Algebra requirement, they may also use that course for this requirement. The course and credits will only count once toward the course/credit requirements for the major.

Code	Title	Credits
MATH 341	Linear Algebra	3-5
or MATH 375	Topics in Multi-Variable Calculus and Linear Algebra	
MATH 421	The Theory of Single Variable Calculus	3
MATH 467	Introduction to Number Theory	3
MATH 321 & MATH 322	Applied Mathematical Analysis 1: Vector and Complex Calculus and Applied Mathematical Analysis 2: Partial Differential Equations	6

Analysis

Complete one course from the list below. If a student takes MATH 421 to complete the Transition to Advanced Mathematics requirement, they may also use that course for this requirement. The course and credits will only count once toward the course/credit requirements for the major.

Code	Title	Credits
MATH 421	The Theory of Single Variable Calculus	3
MATH 521	Analysis I	3

Modern Algebra

Complete one course from:

Code	Title	Credits
MATH 540	Linear Algebra II	3
MATH 541	Modern Algebra 1	3

Probability or Combinatorics

Complete one course from:

Code	Title	Credits
MATH/STAT 431	Introduction to the Theory of Probability	3
or MATH/ STAT 309	Introduction to Probability and Mathematical Statistics I	
At most one course in Introductory Probability (MATH/ STAT 309 and MATH/STAT 431) may be used to fulfill the course/credit requirements for the major.		
MATH 444	Graphs and Networks in Data Science	3
MATH/COMP SCI/ STAT 475	Introduction to Combinatorics	3
MATH 531	Probability Theory	3

Statistics

Complete one course from:

Code	Title	Credits
MATH/STAT 310	Introduction to Probability and Mathematical Statistics II	3
STAT 301	Introduction to Statistical Methods	3
STAT 312	Introduction to Theory and Methods of Mathematical Statistics II	3
STAT 324	Introduction to Statistics for Science and Engineering	3

ECON 310	Statistics: Measurement in Economics	4

History of Mathematics

Complete one course from:

Code	Title	Credits
MATH/HIST SCI 473	History of Mathematics	3

Geometry

Complete one course from:

Code	Title	Credits
MATH 461	College Geometry I	3

Capstone Course

Complete one course from:

Code	Title	Credits
MATH/CURRIC 471	Mathematics for Secondary School Teachers	3

Advanced Mathematics

A student must complete at least two MATH courses numbered 500 or higher for this named option. If a student completes the requirements above with fewer such courses, they must complete a course from the list below. This course must be distinct from those used to complete the requirements above.

Approved Electives

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA on all MATH courses and courses eligible for the major.
  - This includes all MATH courses (including those cross-listed with MATH), regardless of appearing in the requirements of the program, and any non-MATH course that meets a requirement in the program.
- 2.000 GPA on at least 15 credits of upper level credit in the major.
  - This includes all MATH courses numbered 307 and above (including those cross-listed with MATH), regardless of appearing in the requirements of the program, and any non-MATH courses that meet a requirement in the program and carry the Advanced level designation.
- 15 credits in MATH in the major taken on the UW-Madison campus.
  - This includes all MATH courses numbered 307 and above (including those cross-listed with MATH), regardless of appearing in the requirements of the program.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

In general, your four year plan in mathematics should be organized along the following sequence:

1. Calculus
2. Linear Algebra
3. Required Transition to Advanced Mathematics course (The four-year plan assumes students will complete this by taking either MATH 341 for Linear Algebra or MATH 421 for Analysis.)
4. Additional 300/400-level level courses as needed
5. Required 500-level Algebra course
6. Additional 500/600-level course

FOOTNOTES

1. Students should declare their major upon the successful completion of this course
2. Taught only in odd-numbered springs. Take spring of junior year if graduating in an even-numbered spring.

MATHEMATICS: MATHEMATICS FOR STATISTICAL ANALYSIS AND RISK ASSESSMENT

The Mathematics major's named options allow students to develop a deep understanding of how the subject relates to other areas of human inquiry. The requirements for these options feature mathematics courses with topics inspired by and commonly applied to problems in these associated fields. Though often paired with a second major in a related area, these programs function well alone and are suited to any mathematics student with a variety of interests. Students interested in a named option are recommended to meet with an advisor to navigate the various plans and courses available to them. Advising information can be found on the BA or BS pages (p. 1242).

The named options do not support Honors in the Major.

REQUIREMENTS

REQUIREMENTS

The Mathematics for Statistical Analysis and Risk Assessment program requires at least 10 courses for at least 30 credits as described below.

CORE MATH REQUIREMENT

Complete at least six MATH courses for at least 18 credits.

Linear Algebra

Complete one course from the list below. Only one of these courses will be used to fulfill minimum course/credit requirements for the major.

Code	Title	Credits
MATH 341	Linear Algebra	3-5
or MATH 320	Linear Algebra and Differential Equations	
or MATH 340	Elementary Matrix and Linear Algebra	
or MATH 345	Linear Algebra and Optimization	
or MATH 375	Topics in Multi-Variable Calculus and Linear Algebra	

Probability

Complete one course from:

Code	Title	Credits
MATH/STAT 431	Introduction to the Theory of Probability	3
or STAT/MATH 309	Introduction to Probability and Mathematical Statistics I	
At most one course in Introductory Probability (STAT/MATH 309 and MATH/STAT 431) may be used to fulfill the course/credit requirements for the major.		
MATH 531	Probability Theory	3

Statistics

Complete one course from the list below. The course has a prerequisite outside of the requirements of this named option.

Code	Title	Credits
MATH/STAT 310	Introduction to Probability and Mathematical Statistics II	3

Transition to Advanced Mathematics

Complete one course or sequence from the list below. If a student takes MATH 341 or MATH 375 to complete the Linear Algebra requirement, they may also use that course for this requirement. The course and credits will only count once toward the course/credit requirements for the major.

Code	Title	Credits
MATH 341	Linear Algebra	3-5
or MATH 375	Topics in Multi-Variable Calculus and Linear Algebra	
MATH 421	The Theory of Single Variable Calculus	3

MATH 321 & MATH 322	Applied Mathematical Analysis 1: Vector and Complex Calculus and Applied Mathematical Analysis 2: Partial Differential Equations	6

Advanced Mathematics Requirement

Complete one course from the list below. If a student takes MATH 531 to complete the Probability requirement, they may also use that course for this requirement. The course and credits will only count once toward the course/credit requirements for the major.

Code	Title	Credits
MATH/ COMP SCI 514	Numerical Analysis	3
MATH 521	Analysis I	3
MATH 531	Probability Theory	3
MATH 535	Mathematical Methods in Data Science	3
MATH 540	Linear Algebra II	3

MATH Electives

Complete at least six MATH courses for at least 18 credits to satisfy the overall requirements of the major by choosing additional MATH courses from the lists below.

At least one MATH elective must be chosen from the list of Advanced MATH Elective courses. The course chosen for the Advanced MATH Elective must be distinct from the course used for the Advanced Mathematics requirement.

The remaining courses required to reach the required minimum courses and credits may be chosen from either the list of Advanced MATH Elective courses or the Additional MATH Electives.

Advanced MATH Elective

Code	Title	Credits
MATH/ COMP SCI 513	Numerical Linear Algebra	3
MATH/ COMP SCI 514	Numerical Analysis	3
MATH 519	Ordinary Differential Equations	3
MATH 521	Analysis I	3
MATH 522	Analysis II	3
MATH/COMP SCI/ I SY E/STAT 525	Linear Optimization	3
MATH 531	Probability Theory	3
MATH 535	Mathematical Methods in Data Science	3
MATH 540	Linear Algebra II	3
MATH 541	Modern Algebra 1	3
MATH 542	Modern Algebra 2	3
MATH 616	Data-Driven Dynamical Systems, Stochastic Modeling and Prediction	3
MATH 619	Analysis of Partial Differential Equations	3
MATH 627	Introduction to Fourier Analysis	3
MATH 629	Introduction to Measure and Integration	3
MATH/I SY E/OTM/ STAT 632	Introduction to Stochastic Processes	3
MATH 635	An Introduction to Brownian Motion and Stochastic Calculus	3

Additional MATH Electives

Code	Title	Credits
MATH 319	Techniques in Ordinary Differential Equations	3-5
or MATH 376	Topics in Multi-Variable Calculus and Differential Equations	
At most one course in Introductory Differential Equations (MATH 319, MATH 320, and MATH 376) may be used to fulfill the course/credit requirements for the major.		
MATH 321	Applied Mathematical Analysis 1: Vector and Complex Calculus	3
MATH 322	Applied Mathematical Analysis 2: Partial Differential Equations	3
MATH 415	Applied Dynamical Systems, Chaos and Modeling	3
MATH 421	The Theory of Single Variable Calculus	3
MATH/COMP SCI/ I SY E 425	Introduction to Combinatorial Optimization	3
MATH/COMP SCI/ E C E 435	Introduction to Cryptography	3
MATH 443	Applied Linear Algebra	3
MATH 444	Graphs and Networks in Data Science	3
MATH 467	Introduction to Number Theory	3
MATH/COMP SCI/ STAT 475	Introduction to Combinatorics	3

STATISTICS/RISK REQUIREMENT

Complete at least four courses for at least 12 credits. Each course that satisfies this requirement must be distinct from those satisfying any part of the Core Math requirement. Courses below may have prerequisites outside of the requirements for this named option.

Complete one course or sequence from the list below:

Code	Title	Credits
Actuarial Sciences		
ACT SCI 303	Theory of Interest	3
Statistics		
STAT 333 & STAT 424	Applied Regression Analysis and Statistical Experimental Design	6
Data Science		
STAT 340 & STAT 424	Data Science Modeling II and Statistical Experimental Design	7

Statistics/Risk Electives

To reach the four courses and 12 credits required, students may complete additional courses from the MATH electives lists above or any of the following courses.

Approved Electives

Code	Title	Credits
ACT SCI 650	Fundamentals of Long-Term Actuarial Modeling	3
ACT SCI 651	Advanced Long-Term Actuarial Modeling	3
ACT SCI 652	Fundamentals of Short-Term Actuarial Modeling	3
ACT SCI 653	Advanced Short-Term Actuarial Modeling	3
ACT SCI 654	Regression and Time Series for Actuaries	3
ACT SCI 655	Health Analytics	3
GEN BUS 656	Foundations of Statistical Learning for Business Analytics	3
STAT 349	Introduction to Time Series	3
STAT 351	Introductory Nonparametric Statistics	3
STAT 411	An Introduction to Sample Survey Theory and Methods	3
STAT 421	Applied Categorical Data Analysis	3
STAT 451	Introduction to Machine Learning and Statistical Pattern Classification	3
STAT 453	Introduction to Deep Learning and Generative Models	3
STAT 456	Applied Multivariate Analysis	3
STAT 461	Financial Statistics	3
STAT/COMP SCI 471	Introduction to Computational Statistics	3
STAT/COMP SCI/ MATH 475	Introduction to Combinatorics	3
STAT/COMP SCI/ I SY E/MATH 525	Linear Optimization	3
STAT 575	Statistical Methods for Spatial Data	3
STAT/I SY E/MATH/ OTM 632	Introduction to Stochastic Processes	3
STAT/B M I 641	Statistical Methods for Clinical Trials	3
STAT/B M I 642	Statistical Methods for Epidemiology	3
M E 536	Machine Learning for Data-Driven Engineering Design	3

RESIDENCE AND QUALITY OF WORK

Total Credits 120

1 Students should declare their major upon the successful completion of this course

2 To enroll in MATH/STAT 310, students must have an introductory statistics course. STAT 324 or STAT 240 are recommended for students in this named option, but STAT 301, STAT 371, and ECON 310 also satisfy the prerequisite.

MATHEMATICS: MATHEMATICS FOR THE PHYSICAL AND BIOLOGICAL SCIENCES

The Mathematics major's named options allow students to develop a deep understanding of how the subject relates to other areas of human inquiry. The requirements for these options feature mathematics courses with topics inspired by and commonly applied to problems in these associated fields. Though often paired with a second major in a related area, these programs function well alone and are suited to any mathematics student with a variety of interests. Students interested in a named option are recommended to meet with an advisor to navigate the various plans and courses available to them. Advising information can be found on the BA or BS pages (p. 1242).

The named options do not support Honors in the Major.

REQUIREMENTS

REQUIREMENTS

The Mathematics for the Physical and Biological Sciences program requires at least 10 courses for at least 30 credits as described below.

CORE MATH REQUIREMENT

Complete at least six MATH courses for at least 18 credits.

Linear Algebra

Complete one course from the list below. Only one of these courses will be used to fulfill minimum course/credit requirements for the major.

Code	Title	Credits
MATH 341	Linear Algebra	3-5
or MATH 320	Linear Algebra and Differential Equations	
or MATH 340	Elementary Matrix and Linear Algebra	
or MATH 345	Linear Algebra and Optimization	
or MATH 375	Topics in Multi-Variable Calculus and Linear Algebra	

Differential Equations

Complete one course from the list below. At most one course in Introductory Differential Equations (MATH 319, MATH 320, and MATH 376) may be used to fulfill the course/credit requirements for the major. If a student takes MATH 320 to complete the Linear Algebra requirement, they may also use that course for this requirement. The course and credits will count only once toward the course/credit requirements for the major.

Code	Title	Credits
MATH 319	Techniques in Ordinary Differential Equations	3-5
or MATH 320	Linear Algebra and Differential Equations	
or MATH 376	Topics in Multi-Variable Calculus and Differential Equations	
MATH 322	Applied Mathematical Analysis 2: Partial Differential Equations	3
MATH 415	Applied Dynamical Systems, Chaos and Modeling	3
MATH 519	Ordinary Differential Equations	3

Transition to Advanced Mathematics

Complete one course or sequence from the list below. If a student takes MATH 341 or MATH 375 to complete the Linear Algebra requirement, they may also use that course for this requirement. If a student takes MATH 322 to complete the Differential Equations requirement, they may also use that course for this requirement in sequence with MATH 321. In these situations, the course and credits will count only once toward the course/credit requirements for the major.

Code	Title	Credits
MATH 341	Linear Algebra	3-5
or MATH 375	Topics in Multi-Variable Calculus and Linear Algebra	
MATH 421	The Theory of Single Variable Calculus	3
MATH 321 & MATH 322	Applied Mathematical Analysis 1: Vector and Complex Calculus and Applied Mathematical Analysis 2: Partial Differential Equations	6

Advanced Mathematics Requirement

Complete one course from the list below. If a student takes MATH 519 to complete the Differential Equations requirement, they may use that course to complete this requirement as well. The course and credits will count only once toward the course/credit requirements for the major.

Code	Title	Credits
MATH/ COMP SCI 514	Numerical Analysis	3
MATH 519	Ordinary Differential Equations	3
MATH 521	Analysis I	3
MATH 531	Probability Theory	3
MATH 540	Linear Algebra II	3
MATH 541	Modern Algebra 1	3

MATH 551	Point-Set Topology	3
MATH 561	Differential Geometry	3
MATH 619	Analysis of Partial Differential Equations	3
MATH 623	Complex Analysis	3

MATH Electives

Complete at least six MATH courses for at least 18 credits to satisfy the overall requirements of the major by choosing additional MATH courses from the lists below.

At least one MATH elective must be chosen from the list of Advanced MATH Elective courses. The course chosen for the Advanced MATH Elective must be distinct from the course used for the Advanced Mathematics requirement.

The remaining courses required to reach the required minimum courses and credits may be chosen from either the list of Advanced MATH Elective courses or the Additional MATH Electives.

Advanced MATH Elective

Code	Title	Credits

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA for all MATH courses and courses eligible for the major.
  - This includes all MATH courses (including those cross-listed with MATH), regardless of appearing in the requirements of the program, and any non-MATH course that meets a requirement in the program.
- 2.000 GPA on at least 15 credits of upper level credit in the major.
  - This includes all MATH courses numbered 307 and above (including those cross-listed with MATH), regardless of appearing in the requirements of the program, and any non-MATH courses that meet a requirement in the program and carry the Advanced level designation.
- 15 credits in MATH in the major taken on the UW-Madison campus.
  - This includes all MATH courses numbered 307 and above (including those cross-listed with MATH), regardless of appearing in the requirements of the program.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

In general, your four year plan in mathematics should be organized along the following sequence:

1. Calculus
2. Linear Algebra
3. Transition to Advanced Mathematics course (or sequence)
4. Additional 300/400-level courses as needed

5. Required Advanced Math course
6. Additional 500/600-level course(s)

Freshman

Fall	Credits	Spring	Credits
MATH 221	5	MATH 222	4
Literature Breadth	3	Literature Breadth	3
Communication A	3	Ethnic Studies	3
Language (if required)	4	Language (if required)	4
	15		**14**

Sophomore

Fall	Credits	Spring	Credits
MATH 234[1]	4	MATH 321	3
MATH 320	3	Humanities Breadth	3
Humanities Breadth	3	Social Sciences Breadth	3
Communication B	3	Elective	3
Elective	3	Elective	3
	16		**15**

Junior

Fall	Credits	Spring	Credits
300/400-level MATH elective	3	MATH 322	3
PHYSICS 247, 207, 201, or E M A 201	5	PHYSICS 248, 208, or 202	5
Social Sciences Breadth	3	Biological Sciences Breadth	3
Biological Sciences Breadth	3	INTER-LS 210	1
		Elective	3

Total Credits 120

FOOTNOTES

[1] Students should declare their major upon the successful completion of this course

MATHEMATICS, CERTIFICATE

The primary purpose of the Mathematics certificate is to serve those students who wish to enhance their content knowledge in mathematics but are unable to complete the requirements of a second major.

HOW TO GET IN

HOW TO GET IN

Students must meet with a math advisor in order to declare and to discuss course selection. Math advisor information is provided at the math advising page (https://math.wisc.edu/undergraduate/advising/#cert).

Students pursuing the Applied Mathematics, Engineering, and Physics degree program (BS-AMEP) are not eligible to declare the Mathematics certificate.

Students declared in the Mathematics major are not eligible to declare the Mathematics certificate.

REQUIREMENTS

REQUIREMENTS

The certificate requires a minimum of 12 credits which satisfy the requirements below.

Code	Title	Credits
Requirements [1, 2, 3]		
3 credits MATH 400–699		3
9 credits from MATH 307–699		9
Total Credits		**12**

FOOTNOTES

[1] Excluding MATH/CURRIC 471.

[2] **At most one (1)** course each from these groups may apply:
- Linear Algebra: MATH 320, MATH 340, MATH 341, MATH 345 ,MATH 375
- Differential Equations: MATH 319, MATH 320, MATH 376
- Probability: MATH/STAT 309, MATH 331 MATH/STAT 431

[3] MATH 390 will only count once toward the certificate requirements.

RESIDENCE & QUALITY OF WORK

- At least 9 certificate credits must be completed in residence.
- Minimum 2.000 GPA on all certificate courses.

UNDERGRADUATE/SPECIAL STUDENT CERTIFICATE

This certificate is intended to be completed in the context of an undergraduate degree and for those seeking this certificate that is preferred. For students who have substantially completed this certificate at UW–Madison and may need one or two courses to complete the certificate, they may do so immediately after completion of the bachelor's degree by enrolling in the course as a University Special (nondegree) student. The certificate must be completed within a year of completion of the bachelor's degree. Students should keep in mind that University Special students have the last registration priority and that may limit availability of desired courses. Financial aid is not available when enrolled as a University Special student to complete an undergraduate certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. State, explain, and apply the principal results, definitions, and theorems of a wide collection of mathematical areas.
2. Acquire a diverse set of skills and strategies in mathematical reasoning/problem solving.
3. Use mathematics to model and analyze problems in other disciplines.

ADVISING AND CAREERS

ADVISING AND CAREERS

ADVISING

Students who are interested in the Mathematics certificate should visit with the Mathematics certificate advisor or a Mathematics faculty advisor. Information about current advisor availability is on the Math advising page (https://www.math.wisc.edu/undergraduate/advising/).

For advice on college algebra, pre-calculus, and calculus, see the placement advising pages (https://www.math.wisc.edu/undergraduate/placement/) of the department.

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

MEAD WITTER SCHOOL OF MUSIC

The Mead Witter School of Music (https://music.wisc.edu/) is a community of musicians, scholars, and teachers. Since its founding in 1895, the School of Music has lived out a commitment to a student-centered musical education.

As a large department in the College of Letters & Science, we offer flexible programs with innovative and global approaches to music study. Our teaching, research, and performances reflect UW–Madison's progressive history of creating change through innovation and exploration.

ACCREDITATION

We are accredited by the National Association of Schools of Music (NASM) and have been an institutional member of NASM since 1966. NASM is located at 11250 Roger Bacon Dr., Suite 21, Reston, VA 20190, and can be reached by phone at 703-437-0700. nasm.arts-accredit.org (https://nasm.arts-accredit.org/)

FACILITIES

Learn more about our facilities on our website at: music.wisc.edu/facilities (https://music.wisc.edu/facilities/)

CONCERT & EVENTS

We offer concerts and events throughout the year that are open to everyone: music.wisc.edu/events (https://music.wisc.edu/events/)

CHOOSING A MUSIC MAJOR

Mead Witter School of Music offers several degree programs at the undergraduate level. Programs provide a foundation for graduate study and a career in music. We encourage conversations with Mead Witter School of Music professors at any point during your first year as a Music major to learn as much as possible about options that are available.

- The Music major for the **Bachelor of Arts** and **Bachelor of Science** in the College of Letters & Science is an excellent program for students interested in exploring the wide array of course offerings in the college or in two or more majors. Students outside of Letters & Science can earn an additional major in Music with the permission of their home school or college.
- The **Bachelor of Music Performance** is a professional degree in music, with a majority of total coursework within the Mead Witter School of Music. Students in this program are looking for depth in performance study along with a large complement of other musical studies at an advanced level.
- The **Bachelor of Music Education** offers a degree that helps students prepare for the "K-12 Music" teacher certification.

GRADES AND ADVISING

The School of Music is a department of the UW–Madison College of Letters & Science. Information on the grading system and academic

procedures/policies is available in the College of Letters & Science section of this *Guide* under the policies and regulations (http://guide.wisc.edu/undergraduate/letters-science/#policiesandregulationstext) tab.

The undergraduate advisor of the Mead Witter School of Music serves as the advisor for all Music majors. The advisor maintains records and assists students in determining an appropriate course schedule each semester.

MUSIC COURSES AND ENSEMBLES FOR NON–MUSIC MAJORS

The School of Music offers a variety of courses in music theory, history, and literature to all UW–Madison students. Check out Course Search & Enroll (https://enroll.wisc.edu/) each semester to see what is being offered. More information can be found at Mead Witter School of Music - Areas of Study (https://music.wisc.edu/areas-of-study/).

The School of Music also offers numerous bands, chamber ensembles, choirs, jazz ensembles, operas, and orchestras that are open to all UW–Madison students. Some ensembles require an audition and others do not. Learn more about School of Music ensembles at Student Ensembles (https://music.wisc.edu/ensembles/).

The School of Music has very limited availability for nonmajors to take performance study (lessons) for credit and requires an audition before enrolling. Students interested in performance study should reach out to either the listed course instructor or undergraduate advisor for more information.

SPECIAL STUDENTS

Persons who are interested in courses offered by the School of Music but who are not working toward a UW–Madison degree should contact the Division of Continuing Studies (https://continuingstudies.wisc.edu/), 21 N. Park St., Madison, WI 53715; 608-263-6960. Enrollment is limited to certain music courses.

DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/CERTIFICATES

UNDERGRADUATE DEGREE PROGRAMS

Mead Witter School of Music offers several options for majoring in music. Each requires a performance audition for admission. Continuation to upper-level study in these programs is contingent upon faculty approval and upon specific GPA minimums in several categories. Refer to the Requirements section for each each program.

Bachelor of Music: Performance, with options in Brass, Percussion & Woodwinds, Composition, Guitar, Jazz, Organ, Piano, Strings, or Voice.

Bachelor of Music: Music Education, with options in Choral/General and Instrumental/General.

Bachelor of Arts or **Bachelor of Science,** or Additional Major, with options in performance (including jazz studies), composition, or an individualized music curriculum.

- Music, BA (p. 1286)
- Music, BS (p. 1301)
- Music: Education, BM (p. 1315)
- Music: Performance, BM (p. 1325)

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

SCHOLARSHIPS AND FINANCIAL AID FOR MUSIC STUDENTS

The Mead Witter School of Music is able to offer some scholarships to its applicants based on the quality of the audition performance and the School of Music application. Continuing students are also considered for scholarship based on their progress in the School of Music. Please see the School of Music (https://music.wisc.edu/undergraduate-admissions/) website for more information regarding music scholarships.

Students are also encouraged to fill out the FAFSA and consult the Office of Student Financial Aid (https://financialaid.wisc.edu/) to regarding other available grants and loans.

HIRE A MUSICIAN

The School of Music maintains a blog for posting part-time job opportunities, gigs in the area, and other professional development opportunities at musicgigs.music.wisc.edu (https://musicgigs.music.wisc.edu/).

MUSICIAN HEALTH

For more information on student resources and information on the prevention and treatment of music-related injuries, please check out our musician health page: music.wisc.edu/musician-health (https://music.wisc.edu/musician-health/).

MUSIC, BA

The Mead Witter School of Music offers the Music major for students earning a Bachelor of Arts or Bachelor of Science degree and want to study music in addition to another major. This program has the fewest credit requirements of all the Music programs. Students who have completed this major have gone on to pursue careers in music as well as taking advantage of the skills music taught them to pursue an array of other career paths.

This major offers several options for students including Performance, Composition, or an Individualized Music Curriculum. Students focusing on Jazz Studies can also pursue the Performance option.

FACILITIES

Mead Witter School of Music - Facilities (https://music.wisc.edu/facilities/)

CONCERTS & EVENTS

We offer concerts and events (https://music.wisc.edu/events/) throughout the year that are open to everyone.

HOW TO GET IN

HOW TO GET IN

ADMISSION PROCEDURES

To be admitted to the Mead Witter School of Music a student needs to apply to and be admitted by both UW-Madison and the Mead Witter School of Music:

- Prospective (new or transfer) and re-entry students should apply to UW-Madison through the Office of Admissions and Recruitment (https://admissions.wisc.edu/).
- All students must also complete an application and pass an audition. See the Mead Witter School of Music website (https://music.wisc.edu/undergraduate-admissions/) for more information. Questions about the Music application and audition process should be directed to the Music Undergraduate Audition and Admissions Coordinator (admissions@music.wisc.edu).
- Students declared in the Music major are not eligible to declare Music: Performance or Music: Education.

DECLARING A MUSIC MAJOR

Students admitted to UW-Madison and the Mead Witter School of Music will be declared in their music major or music degree program.

All students must make satisfactory progress, as described below, to continue in their major or degree program. Students not meeting these requirements should meet with the Undergraduate Music Advisor (ugradadvisor@music.wisc.edu) to discuss their options for continuing in the Mead Witter School of Music.

MUSIC MAJOR CONTINUATION REQUIREMENTS

Students must meet all of the requirements below to continue in the program. Students not meeting any one of these requirements will be removed from the program and must choose a new major. Contact the Undergraduate Music Advisor (ugradadvisor@music.wisc.edu) for consideration of extenuating circumstances or if the student is considering a leave of absence (such as family emergency, personal wellness, study abroad, or approved accommodations)

(1) Enrollment Requirements

- Enroll every fall and spring semester in a course that meets the Performance Study Requirements, until that requirement is completed.
- Enroll in MUSIC 121 and MUSIC 171 to begin the music theory/history sequence in the first possible fall semester after declaration.

(2) Performance Study Jury and Progress Report

At least once a year, students must pass a performance jury with their major instrument. The purpose of this jury will be to evaluate performance study progress and to set goals for the coming year. Students who do not pass will receive guidance about making improvements and a warning letter and will have a semester to work with their professor to make improvements needed to remain in the program.

(3) Progression to 400-Level Performance Study

At the end of the fourth semester of enrollment in Performance Study, students will be evaluated for permission to advance to 400-level performance study. Students who do not meet progression requirements to advance to 400-level performance study may be given an additional semester to meet those requirements.

(4) Meet GPA Requirements in three areas:

- 2.000 overall cumulative GPA
- 2.000 cumulative GPA in all MUSIC and MUSIC PERFORMANCE courses
- 2.000 cumulative GPA in music theory (MUSIC 121, MUSIC 171, MUSIC 122, MUSIC 172, MUSIC 221, MUSIC 221 and MUSIC 271) and music history (MUSIC 211 and MUSIC 212)

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a Bachelor of Arts degree in the College of Letters & Science must complete all of the requirements below. Some courses satisfy more than one L&S degree requirement (visit College of Letters & Science: Requirements (https://guide.wisc.edu/undergraduate/letters-science/#requirementstext) for details).

This major can be paired with either the Bachelor of Arts or Bachelor of Science degree requirements.

BACHELOR OF ARTS DEGREE REQUIREMENTS

Communication	Complete both: • Part A: one course with the Communication A designation or eligible UW Placement Score; and • Part B: one course with the Communication B designation
Quantitative Reasoning	Complete both: • Part A: one course with the Quantitative Reasoning A designation or eligible UW Placement Score; and • Part B: one course with the Quantitative Reasoning B designation
Ethnic Studies	one 3+ credit course with the Ethnic Studies designation
Language	Complete either: • the fourth unit of one language other than English; or • the third unit of one language other than English and the second unit of an additional language.
L&S Breadth: Humanities	Complete 12 credits with the Humanities or Literature designation, which must include at least 6 credits with the Literature designation.
L&S Breadth: Social Sciences	Complete 12 credits with the Social Science designation.
L&S Breadth: Natural Sciences	Complete 12 credits with the Natural Science, Biological Science, or Physical Science designations, which must include both: • one 3+ credit course with the Biological Science designation, and • one 3+ credit course with the Physical Science designation.
Liberal Arts and Science (LAS) Coursework	at least 108 credits
Depth of Intermediate/Advanced work	at least 60 credits at the Intermediate or Advanced level
Major	Declare and complete at least one major.
Total Credits	at least 120 credits
UW-Madison Experience	• 30 credits in residence, overall; and • 30 credits in residence after the 86th credit
Quality of Work	• 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their School/College to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

Students must complete the Core Requirements for the Music major (at least 14 credits) and the requirements of one Named Option (at least 30 credits) for at least 44 total credits.

REQUIREMENTS FOR ALL MUSIC MAJOR NAMED OPTIONS

Music Theory and Music History

Students in all named options must complete the core requirements of the Music major.

Code	Title	Credits
Core Requirements		
Complete six courses from:		
MUSIC 121 & MUSIC 171	Musica Practica 1 and Musica Practica: Aural Skills 1	4
MUSIC 122 & MUSIC 172	Musica Practica 2 and Musica Practica: Aural Skills 2	4
MUSIC 211	Survey of the History of Western Music	3
MUSIC 212	Survey of the History of Western Music	3
Total Credits		**14**

HONORS IN THE MAJOR

To participate in the Honors in the Major program, students must:

- Notify the School of Music undergraduate advisor of their intention to become a candidate for Honors in the Major. This will usually occur in the sophomore year.
- Present a minimum cumulative GPA of 3.300 in all courses taken at UW–Madison and maintain this average throughout the degree.
- Present a minimum 3.500 GPA in all music coursework
- Engage a faculty member and plan 12 credits of honors curriculum coursework; submit this plan to the undergraduate music advisor.
- Prior to beginning work on the Senior Honors Thesis sequence, confirm a faculty advisor for this sequence (who may be the same person as for the 12 credits above) and submit a prospectus outlining in detail the planned work including (a) the topic, (b) plans for research, and (c) a clear substantive written component, although it may also include oral and/or performance components. The faculty advisor must sign the prospectus indicating approval.
- Students may also complete Honors in the Major for the Music: Performance and Music: Composition options by completing the requirements for the option in addition to the requirements for Honors in the Major.

To complete and earn Honors in any Music major, students must satisfy the requirements for the major and these additional requirements:

- Earn a minimum 3.300 University GPA
- Earn a minimum 3.500 GPA in the major
- MUSIC 681–MUSIC 682 for a total of 6 credits
- 12 credits of Honors coursework in music: 6 of the 12 credits must be numbered 300 or above and only 6 credits can be taken in any one of the three music areas of theory, history, and instrument performance study/composition study.

[2] A maximum of 16 credits can be taken from courses numbered below 100.

[3] Students who complete MUSIC 122, MUSIC 221, or MUSIC 222 without having taken the earlier courses in the theory sequence, or who achieve advanced placement in theory through department examination, may not be required to complete the prerequisite courses in the theory sequence. However, no retroactive course credit will be granted. All students must complete at least 42 credits in Mead Witter School of Music coursework.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Demonstrate technical proficiency in the major performance medium.
2. Demonstrate the ability to learn independently and collaboratively.
3. Integrate knowledge across domains of music research and applied studies.
4. Demonstrate artistry, creativity, and discipline in preparation and performance.
5. Employ an advanced vocabulary to discuss music verbally and in writing.

FOUR-YEAR PLAN

Each of the options in the Music major has its own four-year plan. Click each option to see its four-year plan.

- Music: Composition (p. 1294)
- Music: Music Studies (p. 1296)
- Music: Performance (p. 1300)

ADVISING AND CAREERS

ADVISING AND CAREERS

ADVISING RESOURCES

All current UW–Madison undergraduate students majoring or interested in majoring in Music are welcome to schedule an advising appointment with the music advisor. Advising appointments can be scheduled using Starfish. (https://wisc.starfishsolutions.com/starfish-ops/dl/instructor/serviceCatalog.html?bookmark=service/79179/schedule)

Questions from current and prospective Music students, or students interested in music classes or ensembles may also be email to the School of Music Undergraduate Advisor at ugradadvisor@music.wisc.edu

The Mead Witter School of Music recommends that Music students meet with their music advisor regularly to discuss their academic plans. School of Music Programs can be highly sequential and include required courses that are offered only one a year or once every other year. Students considering studying abroad are also recommended to meet with their music advisor early to determine the best way of fitting their experience abroad into their graduation plans.

ARE YOU A PROSPECTIVE MUSIC STUDENT?

The Mead Witter School of Music offers the opportunity to audition several times a year. Check out the School of Music website (https://music.wisc.edu/undergraduate-admissions/) for more information about audition information. Prospective music majors are welcome to reach out to the Undergraduate Admissions Coordinator with an questions at: admissions@music.wisc.edu

CAREER RESOURCES

A Music major or degree can offer students many opportunities for careers in music industry and music education, as well as provide valuable skills that can be applied to any career path.

The Mills Music Library (https://researchguides.library.wisc.edu/music_career_resources/) has resources to help musicians with their career search.

There are many campus resources to help students explore, plan for, and start their careers. Students who are undecided about their major plans and career can visit the Career Exploration Center. (https://cec.wisc.edu/) SuccessWorks at the College of Letters & Science (https://successworks.wisc.edu/) offers Music students a wealth of resources to explore career options, build experience, prepare for the job market, and to find a job, internship, or graduate school opportunities. Music majors should be sure to explore the Communications, Media, & the Arts career cluster (https://successworks.wisc.edu/what-are-career-communities/communications-media-and-the-arts/) including signing up for their newsletter.

MUSIC EDUCATION CAREER RESOURCES

Music Education majors are also encouraged to work with the Mary T. Kellner Teacher Education Center (https://tec.education.wisc.edu/) for their licensure process and with the Career Center at the School of Education (https://careercenter.education.wisc.edu/) to assist with their job search.

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

SCHOLARSHIPS AND FINANCIAL AID FOR MUSIC STUDENTS

The Mead Witter School of Music is able to offer some scholarships to its applicants based on the quality of the audition performance and the School of Music application. Continuing students are also considered for scholarship based on their progress in the School of Music. Please see the School of Music (https://music.wisc.edu/undergraduate-admissions/) website for more information regarding music scholarships.

Students are also encouraged to fill out the FAFSA and consult the Office of Student Financial Aid (https://financialaid.wisc.edu/) to regarding other available grants and loans.

HIRE A MUSICIAN

The School of Music maintains a blog for posting part-time job opportunities, gigs in the area, and other professional development opportunities at musicgigs.music.wisc.edu (https://musicgigs.music.wisc.edu/).

MUSICIAN HEALTH

For more information on student resources and information on the prevention and treatment of music-related injuries, please check out our musician health page: music.wisc.edu/musician-health (https://music.wisc.edu/musician-health/).

ACCREDITATION

ACCREDITATION

The University of Wisconsin-Madison is an accredited institutional member of the National Association of Schools of Music (https://nasm.arts-accredit.org/) (NASM) since 1966.

Accreditation status: Accredited. Next accreditation review: 2032-2033

MUSIC: COMPOSITION

REQUIREMENTS

REQUIREMENTS

Students must complete at least 30 total credits in the Composition named option.

COMPOSITION STUDY

Students must complete seven semesters of composition study.

Code	Title	Credits
Composition Study		
Complete four semesters from:		8
MUS PERF 249	Elementary/Intermediate Composition	
or MUS PERF 449	Advanced Composition	
Total Credits		**8**

Code	Title	Credits
Advanced Composition Study		
Complete three semesters from:		6
MUS PERF 449	Advanced Composition	
Total Credits		**6**

MUSIC THEORY AND PIANO SKILLS

Code	Title	Credits
Additional Music Theory		
Complete five courses from:		
MUSIC 221 & MUSIC 271	Musica Practica 3 and Musica Practica: Aural Skills 3	4
MUSIC 222 & MUSIC 272	Musica Practica 4 and Musica Practica: Aural Skills 4	4
MUSIC 523	Orchestration I	3
Piano Proficiency		
Complete one course from:		
MUS PERF 104	Intermediate Class Piano	2
A student may complete a proficiency exam in piano instead of completing this course. Students who pass a proficiency exam must complete additional elective credit to reach the minimum total required for the option.		
Total Credits		**13**

COMPOSITION ELECTIVES

Students must complete additional electives to reach 30 credits in the Composition option.

Code	Title	Credits
Composition Electives		
Complete at least one course for at least 3 credits from:		
MUSIC 621	Renaissance Polyphony	3
MUSIC 622	Baroque Counterpoint	3
MUSIC 623	Form and Analysis	2-3

MUSIC 624	Form and Analysis II	2-3

MUSIC THEORY, HISTORY, AND PIANO SKILLS

Code	Title	Credits
Piano Proficiency		
Complete one course from:		2
MUS PERF 102	Beginning Class Piano	
A student may complete a proficiency exam in piano instead of completing this course. Students who pass a proficiency exam must complete additional elective credit to reach the minimum total required for the option.		
Additional Music Theory		
Complete two courses from:		4-6
MUSIC 221 & MUSIC 271	Musica Practica 3 and Musica Practica: Aural Skills 3	
OR		
MUSIC 229 & MUSIC 331	Jazz Theory & Composition and Jazz Improvisation	
Additional Music History		
Complete one course from:		3
MUSIC 411	Survey of Music in the Middle Ages	
MUSIC 412	Survey of Music in the Renaissance	
MUSIC 413	Survey of Music in the Baroque Era	
MUSIC 414	Survey of Music in the Classic Era	
MUSIC 415	Survey of Music in the Romantic Era	
MUSIC 416	Survey of Music in the Twentieth Century	
MUSIC 417	Jazz Histories	
MUSIC 418	Music and the City	
MUSIC 419	Music in the United States	

MUSIC 423	Contemporary Issues in Popular Music Studies	
MUSIC 511	Historical Performance Practices	
MUSIC 513	Survey of Opera	
Total Credits		**9**

MUSICAL ORGANIZATIONS AND ACCOMPANYING

Code	Title	Credits
Complete six courses from:		6

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

First Year

Fall	Credits	Spring	Credits
Elementary/Intermediate Performance Study	2	Elementary/Intermediate Performance Study	2
Musical Organization/ Accompanying	1	Musical Organization/ Accompanying	1
MUSIC 121 & MUSIC 171	4	MUSIC 122 & MUSIC 172	4

Total Credits 120

MUSIC, BS

The Mead Witter School of Music offers the Music major for students earning a Bachelor of Arts or Bachelor of Science degree and want to study music in addition to another major. This program has the fewest credit requirements of all the Music programs. Students who have completed this major have gone on to pursue careers in music as well as taking advantage of the skills music taught them to pursue an array of other career paths.

This major offers several options for students including Performance, Composition, or an Individualized Music Curriculum. Students focusing on Jazz Studies can also pursue the Performance option.

FACILITIES

Mead Witter School of Music - Facilities (https://music.wisc.edu/facilities/)

CONCERTS & EVENTS

We offer concerts and events (https://music.wisc.edu/events/) throughout the year that are open to everyone.

HOW TO GET IN

HOW TO GET IN

ADMISSION PROCEDURES

To be admitted to the Mead Witter School of Music a student needs to apply to and be admitted by both UW-Madison and the Mead Witter School of Music:

- Prospective (new or transfer) and re-entry students should apply to UW-Madison through the Office of Admissions and Recruitment (https://admissions.wisc.edu/).
- All students must also complete an application and pass an audition. See the Mead Witter School of Music website (https://music.wisc.edu/undergraduate-admissions/) for more information. Questions about the Music application and audition process should be directed to the Music Undergraduate Audition and Admissions Coordinator (admissions@music.wisc.edu).
- Students declared in the Music major are not eligible to declare Music: Performance or Music: Education.

DECLARING A MUSIC MAJOR

Students admitted to UW-Madison and the Mead Witter School of Music will be declared in their music major or music degree program. All students must make satisfactory progress, as described below, to continue in their major or degree program. Students not meeting these requirements should meet with the Undergraduate Music Advisor (ugradadvisor@music.wisc.edu) to discuss their options for continuing in the Mead Witter School of Music.

MUSIC MAJOR CONTINUATION REQUIREMENTS

Students must meet all of the requirements below to continue in the program. Students not meeting any one of these requirements will be removed from the program and must choose a new major. Contact the Undergraduate Music Advisor (ugradadvisor@music.wisc.edu) for consideration of extenuating circumstances or if the student is considering a leave of absence (such as family emergency, personal wellness, study abroad, or approved accommodations)

(1) Enrollment Requirements

- Enroll every fall and spring semester in a course that meets the Performance Study Requirements, until that requirement is completed.
- Enroll in MUSIC 121 and MUSIC 171 to begin the music theory/history sequence in the first possible fall semester after declaration.

(2) Performance Study Jury and Progress Report

At least once a year, students must pass a performance jury with their major instrument. The purpose of this jury will be to evaluate performance study progress and to set goals for the coming year. Students who do not pass will receive guidance about making improvements and a warning letter and will have a semester to work with their professor to make improvements needed to remain in the program.

(3) Progression to 400-Level Performance Study

At the end of the fourth semester of enrollment in Performance Study, students will be evaluated for permission to advance to 400-level performance study. Students who do not meet progression requirements to advance to 400-level performance study may be given an additional semester to meet those requirements.

(4) Meet GPA Requirements in three areas:

- 2.000 overall cumulative GPA
- 2.000 cumulative GPA in all MUSIC and MUSIC PERFORMANCE courses
- 2.000 cumulative GPA in music theory (MUSIC 121, MUSIC 171, MUSIC 122, MUSIC 172, MUSIC 221, MUSIC 221 and MUSIC 271) and music history (MUSIC 211 and MUSIC 212)

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. Some courses satisfy more than one L&S degree requirement (visit College of Letters & Science: Requirements (https://guide.wisc.edu/undergraduate/letters-science/#requirementstext) for details).

This major can be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Communication	Complete both: • Part A: one course with the Communication A designation or eligible UW Placement Score; and • Part B: one course with the Communication B designation

Quantitative Reasoning	Complete both: • Part A: one course with the Quantitative Reasoning A designation or eligible UW Placement Score; and • Part B: one course with the Quantitative Reasoning B designation
Ethnic Studies	one 3+ credit course with the Ethnic Studies designation
Language	the third unit of a language other than English
Mathematics	Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.
L&S Breadth: Humanities	Complete 12 credits with the Humanities or Literature designation, which must include at least 6 credits with the Literature designation.
L&S Breadth: Social Sciences	Complete 12 credits with the Social Science designation.
L&S Breadth: Natural Sciences	Complete 12 credits, which must include both: • 6 credits with the Biological Science designation, and • 6 credits with the Physical Science designation.
Liberal Arts and Science (LAS) Coursework	at least 108 credits
Depth of Intermediate/ Advanced Coursework	at least 60 credits at the Intermediate or Advanced level
Major	Declare and complete at least one major.
Total Credits	at least 120 credits
UW-Madison Experience	• 30 credits in residence, overall, and • 30 credits in residence after the 86th credit
Quality of Work	• 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their School/College to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

Students must complete the Core Requirements for the Music major (at least 14 credits) and the requirements of one Named Option (at least 30 credits) for at least 44 total credits.

REQUIREMENTS FOR ALL MUSIC MAJOR NAMED OPTIONS

Music Theory and Music History

Students in all named options must complete the core requirements of the Music major.

Code	Title	Credits
Core Requirements		
Complete six courses from:		
MUSIC 121 & MUSIC 171	Musica Practica 1 and Musica Practica: Aural Skills 1	4
MUSIC 122 & MUSIC 172	Musica Practica 2 and Musica Practica: Aural Skills 2	4
MUSIC 211	Survey of the History of Western Music	3
MUSIC 212	Survey of the History of Western Music	3

MUS PERF 457	Jazz Composition and Arranging	3
MUS PERF 499	Senior Recital	2

HONORS IN THE MAJOR

To participate in the Honors in the Major program, students must:

- Notify the School of Music undergraduate advisor of their intention to become a candidate for Honors in the Major. This will usually occur in the sophomore year.

- Present a minimum cumulative GPA of 3.300 in all courses taken at UW–Madison and maintain this average throughout the degree.
- Present a minimum 3.500 GPA in all music coursework
- Engage a faculty member and plan 12 credits of honors curriculum coursework; submit this plan to the undergraduate music advisor.
- Prior to beginning work on the Senior Honors Thesis sequence, confirm a faculty advisor for this sequence (who may be the same person as for the 12 credits above) and submit a prospectus outlining in detail the planned work including (a) the topic, (b) plans for research, and (c) a clear substantive written component, although it may also include oral and/or performance components. The faculty advisor must sign the prospectus indicating approval.
- Students may also complete Honors in the Major for the Music: Performance and Music: Composition options by completing the requirements for the option in addition to the requirements for Honors in the Major.

To complete and earn Honors in any Music major, students must satisfy the requirements for the major and these additional requirements:

- Earn a minimum 3.300 University GPA
- Earn a minimum 3.500 GPA in the major
- MUSIC 681–MUSIC 682 for a total of 6 credits
- 12 credits of Honors coursework in music: 6 of the 12 credits must be numbered 300 or above and only 6 credits can be taken in any one of the three music areas of theory, history, and instrument performance study/composition study.

[2] A maximum of 16 credits can be taken from courses numbered below 100.

[3] Students who complete MUSIC 122, MUSIC 221, or MUSIC 222 without having taken the earlier courses in the theory sequence, or who achieve advanced placement in theory through department examination, may not be required to complete the prerequisite courses in the theory sequence. However, no retroactive course credit will be granted. All students must complete at least 42 credits in Mead Witter School of Music coursework.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Demonstrate technical proficiency in the major performance medium.
2. Demonstrate the ability to learn independently and collaboratively.
3. Integrate knowledge across domains of music research and applied studies.
4. Demonstrate artistry, creativity, and discipline in preparation and performance.
5. Employ an advanced vocabulary to discuss music verbally and in writing.

FOUR-YEAR PLAN

Each of the options in the Music major has its own four-year plan. Click each option to see its four-year plan.

- Music: Composition (p. 1294)
- Music: Music Studies (p. 1296)
- Music: Performance (p. 1300)

ADVISING AND CAREERS

ADVISING AND CAREERS

ADVISING RESOURCES

All current UW–Madison undergraduate students majoring or interested in majoring in Music are welcome to schedule an advising appointment with the music advisor. Advising appointments can be scheduled using Starfish. (https://wisc.starfishsolutions.com/starfish-ops/dl/instructor/serviceCatalog.html?bookmark=service/79179/schedule)

Questions from current and prospective Music students, or students interested in music classes or ensembles may also be email to the School of Music Undergraduate Advisor at ugradadvisor@music.wisc.edu

The Mead Witter School of Music recommends that Music students meet with their music advisor regularly to discuss their academic plans. School of Music Programs can be highly sequential and include required courses that are offered only one a year or once every other year. Students considering studying abroad are also recommended to meet with their music advisor early to determine the best way of fitting their experience abroad into their graduation plans.

ARE YOU A PROSPECTIVE MUSIC STUDENT?

The Mead Witter School of Music offers the opportunity to audition several times a year. Check out the School of Music website (https://music.wisc.edu/undergraduate-admissions/) for more information about audition information. Prospective music majors are welcome to reach out to the Undergraduate Admissions Coordinator with an questions at: admissions@music.wisc.edu

CAREER RESOURCES

A Music major or degree can offer students many opportunities for careers in music industry and music education, as well as provide valuable skills that can be applied to any career path.

The Mills Music Library (https://researchguides.library.wisc.edu/music_career_resources/) has resources to help musicians with their career search.

There are many campus resources to help students explore, plan for, and start their careers. Students who are undecided about their major plans and career can visit the Career Exploration Center. (https://cec.wisc.edu/) SuccessWorks at the College of Letters & Science (https://successworks.wisc.edu/) offers Music students a wealth of resources to explore career options, build experience, prepare for the job market, and to find a job, internship, or graduate school opportunities. Music majors should be sure to explore the Communications, Media, & the Arts career cluster (https://successworks.wisc.edu/what-are-career-communities/communications-media-and-the-arts/) including signing up for their newsletter.

MUSIC EDUCATION CAREER RESOURCES

Music Education majors are also encouraged to work with the Mary T. Kellner Teacher Education Center (https://tec.education.wisc.edu/) for their licensure process and with the Career Center at the School of Education (https://careercenter.education.wisc.edu/) to assist with their job search.

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

SCHOLARSHIPS AND FINANCIAL AID FOR MUSIC STUDENTS

The Mead Witter School of Music is able to offer some scholarships to its applicants based on the quality of the audition performance and the School of Music application. Continuing students are also considered for scholarship based on their progress in the School of Music. Please see the School of Music (https://music.wisc.edu/undergraduate-admissions/) website for more information regarding music scholarships.

Students are also encouraged to fill out the FAFSA and consult the Office of Student Financial Aid (https://financialaid.wisc.edu/) to regarding other available grants and loans.

HIRE A MUSICIAN

The School of Music maintains a blog for posting part-time job opportunities, gigs in the area, and other professional development opportunities at musicgigs.music.wisc.edu (https://musicgigs.music.wisc.edu/).

MUSICIAN HEALTH

For more information on student resources and information on the prevention and treatment of music-related injuries, please check out our musician health page: music.wisc.edu/musician-health (https://music.wisc.edu/musician-health/).

ACCREDITATION

ACCREDITATION

The University of Wisconsin-Madison is an accredited institutional member of the National Association of Schools of Music (https://nasm.arts-accredit.org/) (NASM) since 1966.

Accreditation status: Accredited. Next accreditation review: 2032-2033

MUSIC: COMPOSITION

REQUIREMENTS

REQUIREMENTS

Students must complete at least 30 total credits in the Composition named option.

COMPOSITION STUDY

Students must complete seven semesters of composition study.

Code	Title	Credits
Composition Study		
Complete four semesters from:		8
MUS PERF 249	Elementary/Intermediate Composition	
or MUS PERF 449	Advanced Composition	
Total Credits		**8**

Code	Title	Credits
Advanced Composition Study		
Complete three semesters from:		6
MUS PERF 449	Advanced Composition	
Total Credits		**6**

MUSIC THEORY AND PIANO SKILLS

Code	Title	Credits
Additional Music Theory		
Complete five courses from:		
MUSIC 221 & MUSIC 271	Musica Practica 3 and Musica Practica: Aural Skills 3	4
MUSIC 222 & MUSIC 272	Musica Practica 4 and Musica Practica: Aural Skills 4	4
MUSIC 523	Orchestration I	3
Piano Proficiency		
Complete one course from:		
MUS PERF 104	Intermediate Class Piano	2
A student may complete a proficiency exam in piano instead of completing this course. Students who pass a proficiency exam must complete additional elective credit to reach the minimum total required for the option.		
Total Credits		**13**

COMPOSITION ELECTIVES

Students must complete additional electives to reach 30 credits in the Composition option.

Code	Title	Credits
Composition Electives		
Complete at least one course for at least 3 credits from:		
MUSIC 621	Renaissance Polyphony	3
MUSIC 622	Baroque Counterpoint	3
MUSIC 623	Form and Analysis	2-3
MUSIC 624	Form and Analysis II	2-3
MUSIC 40	Wind Ensemble	1
MUSIC 41	Concert Band	1
MUSIC 52	Treble Choir	1
MUSIC 56	Chorale	1

MUSIC: PERFORMANCE

REQUIREMENTS

REQUIREMENTS

REQUIREMENTS FOR THE PERFORMANCE OPTION

Students must complete at least 30 total credits in the Performance named option.

PERFORMANCE STUDY

Students must complete seven semesters and at least 14 credits of performance study in a single instrument group. Concurrent enrollment in the appropriate performing organization, ensemble, or accompanying is required each semester of enrollment in performance study.

Code	Title	Credits
Performance Study		
Complete four semesters in one instrument group:		8
Bass		
MUS PERF 237	Elementary/Intermediate Double Bass	
or MUS PERF 43	Advanced Double Bass	
Bassoon		
MUS PERF 215	Elementary/Intermediate Bassoon	
or MUS PERF 41	Advanced Bassoon	
Cello		
MUS PERF 235	Elementary/Intermediate Cello	
or MUS PERF 43	Advanced Cello	
Clarinet		
MUS PERF 211	Elementary/Intermediate Clarinet	
or MUS PERF 41	Advanced Clarinet	
Euphonium		
MUS PERF 223	Elementary/Intermediate Euphonium	
or MUS PERF 42	Advanced Euphonium	
Flute		
MUS PERF 207	Elementary/Intermediate Flute	
or MUS PERF 40	Advanced Flute	
Guitar		
MUS PERF 240	Elementary/Intermediate Guitar	
or MUS PERF 44	Advanced Guitar	
Harp		
MUS PERF 239	Elementary/Intermediate Harp	
or MUS PERF 43	Advanced Harp	
Horn		
MUS PERF 217	Elementary/Intermediate Horn	
or MUS PERF 41	Advanced Horn	
Jazz		
MUS PERF 241	Elementary/Intermediate Jazz Studio Instruction	
or MUS PERF 44	Advanced Jazz Studio Instruction	
Percussion		
MUS PERF 227	Elementary/Intermediate Percussion	
or MUS PERF 42	Advanced Percussion	
Piano		
MUS PERF 201	Elementary/Intermediate Piano	
or MUS PERF 40	Advanced Piano	
Oboe		
MUS PERF 209	Elementary/Intermediate Oboe	
or MUS PERF 40	Advanced Oboe	
Saxophone		
MUS PERF 213	Elementary/Intermediate Saxophone	
or MUS PERF 413	Advanced Saxophone	
Trombone		
MUS PERF 221	Elementary/Intermediate Trombone	
or MUS PERF 421	Advanced Trombone	
Trumpet		
MUS PERF 219	Elementary/Intermediate Trumpet	
or MUS PERF 419	Advanced Trumpet	
Tuba		
MUS PERF 225	Elementary/Intermediate Tuba	
or MUS PERF 425	Advanced Tuba	
Viola		
MUS PERF 233	Elementary/Intermediate Viola	
or MUS PERF 433	Advanced Viola	
Violin		
MUS PERF 231	Elementary/Intermediate Violin	
or MUS PERF 431	Advanced Violin	
Voice		
MUS PERF 205	Elementary/Intermediate Voice	
or MUS PERF 405	Advanced Voice	
Total Credits		**8**

Code	Title	Credits
Advanced Performance Study		
Complete three semesters in one instrument group:		6
Bass		
MUS PERF 437	Advanced Double Bass	
Bassoon		
MUS PERF 415	Advanced Bassoon	
Cello		
MUS PERF 435	Advanced Cello	
Clarinet		
MUS PERF 411	Advanced Clarinet	
Euphonium		
MUS PERF 423	Advanced Euphonium	
Flute		
MUS PERF 407	Advanced Flute	
Guitar		
MUS PERF 440	Advanced Guitar	
Harp		
MUS PERF 439	Advanced Harp	
Horn		
MUS PERF 417	Advanced Horn	
Jazz		
MUS PERF 441	Advanced Jazz Studio Instruction	
Percussion		
MUS PERF 427	Advanced Percussion	
Piano		
MUS PERF 401	Advanced Piano	
Oboe		
MUS PERF 409	Advanced Oboe	
Saxophone		

MUS PERF 413	Advanced Saxophone
Trombone	
MUS PERF 421	Advanced Trombone
Trumpet	
MUS PERF 419	Advanced Trumpet
Tuba	
MUS PERF 425	Advanced Tuba
Viola	
MUS PERF 433	Advanced Viola
Violin	
MUS PERF 431	Advanced Violin
Voice	
MUS PERF 405	Advanced Voice
Total Credits	**6**

MUSIC THEORY, HISTORY, AND PIANO SKILLS

Code	Title	Credits
Piano Proficiency		
Complete one course from:		2
MUS PERF 102	Beginning Class Piano	
A student may complete a proficiency exam in piano instead of completing this course. Students who pass a proficiency exam must complete additional elective credit to reach the minimum total required for the option.		
Additional Music Theory		
Complete two courses from:		4-6
MUSIC 221 & MUSIC 271	Musica Practica 3 and Musica Practica: Aural Skills 3	
OR		
MUSIC 229 & MUSIC 331	Jazz Theory & Composition and Jazz Improvisation	
Additional Music History		
Complete one course from:		3
MUSIC 411	Survey of Music in the Middle Ages	
MUSIC 412	Survey of Music in the Renaissance	
MUSIC 413	Survey of Music in the Baroque Era	
MUSIC 414	Survey of Music in the Classic Era	
MUSIC 415	Survey of Music in the Romantic Era	
MUSIC 416	Survey of Music in the Twentieth Century	
MUSIC 417	Jazz Histories	
MUSIC 418	Music and the City	
MUSIC 419	Music in the United States	
MUSIC 423	Contemporary Issues in Popular Music Studies	
MUSIC 511	Historical Performance Practices	
MUSIC 513	Survey of Opera	
Total Credits		**9**

MUSICAL ORGANIZATIONS AND ACCOMPANYING

Code	Title	Credits
Complete six courses from:		6
MUSIC 40	Wind Ensemble	
MUSIC 41	Concert Band	
MUSIC 50	Concert Choir	
MUSIC 52	Treble Choir	
MUSIC 56	Chorale	
MUSIC 58	Madrigal Singers	
MUSIC 62	University Symphony Orchestra	
MUSIC 262	Jazz Ensemble	
MUSIC 270	Ensemble-Guitar	
MUS PERF 251	Keyboard Skills (keyboard majors only)	
MUS PERF 242	Accompanying (keyboard majors only)	
MUS PERF 342	Piano Accompanying Lab (keyboard majors only)	
Total Credits		**6**

Code	Title	Credits
Complete one course from:		
MUSIC 40	Wind Ensemble	1
MUSIC 41	Concert Band	1
MUSIC 50	Concert Choir	1
MUSIC 52	Treble Choir	1
MUSIC 56	Chorale	1
MUSIC 58	Madrigal Singers	1
MUSIC 62	University Symphony Orchestra	1
MUSIC 256	University Opera	1-2
MUSIC 257	Opera Workshop	2
MUSIC 262	Jazz Ensemble	1
MUSIC 270	Ensemble-Guitar	1
MUSIC 461	Collegium Musicum	1
MUS PERF 342	Piano Accompanying Lab	1

ELECTIVES

Complete additional coursework to reach 30 total credits in the named option.

Code	Title	Credits
MUSIC 40	Wind Ensemble	1
MUSIC 41	Concert Band	1
MUSIC 50	Concert Choir	1
MUSIC 52	Treble Choir	1

MUS PERF 448	Fourth Year Composition	3
MUS PERF 457	Jazz Composition and Arranging	3

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

First Year

Fall	Credits	Spring	Credits
Elementary/Intermediate Performance Study	2	Elementary/Intermediate Performance Study	2
Musical Organization/ Accompanying	1	Musical Organization/ Accompanying	1
MUSIC 121 & MUSIC 171	4	MUSIC 122 & MUSIC 172	4

	15		**15**

Total Credits 120

MUSIC: EDUCATION, BM

The Bachelor of Music: Education (BM) offers students the opportunity to become licensed music teachers in the State of Wisconsin. The degree is also a good comprehensive performance and music teaching degree that can be excellent preparation for teaching outside of the classroom, for graduate school, or for a career teaching at the college level.

This program offers two options: a specialty in Instrumental Music and a specialty in Choral Music. Regardless of chosen specialty, the BM degree requirements prepare students to teach in all areas of Music (K–12) instruction, including General Music. Upon completion of both the Bachelor of Music: Education and additional statutory and certification requirements, students may choose to apply for a Wisconsin teaching license in Music (K-12). Music Education is a program offered jointly by the School of Music and the School of Education. The Bachelor of Music: Education degree is conferred by the College of Letters & Science; teacher certification is earned through the School of Education.

The Bachelor of Music: Education curricula accomplish several important goals:

- Enable broad teaching certification for music instruction in Wisconsin's elementary and secondary schools, grades K through 12. Students may specialize in vocal or instrumental music, but all students successfully completing the program and additional certification requirements will qualify for certification in Music (K-12) in accordance with Wisconsin's PI 34 requirements as outlined by the Department of Public Instruction.
- Explore popular culture in music education. Graduates will be prepared to teach multiple forms of musical literacy, not just the traditional band, orchestra, and choral curriculum.
- Expand the number of musical styles studied in the curriculum. Students also participate in performance ensembles that reflect the diverse array of musical activities in today's schools.
- Offer an introductory music education class to sophomores prior to admission into the program.
- Provide instruction and experiences so that graduates can teach in culturally responsive ways.

- Increase performance collaboration between students in the instrumental and vocal options.
- Create an interdisciplinary program by including a core set of courses for all Bachelor of Music: Education students.
- Enable potential completion of the undergraduate degree in four years, including the final semester of student teaching.

Although these programs are designed with the goal of preparing teachers to work in K–12 schools, the programs also provide a good preparation for individuals seeking careers in continuing education or music education-related fields outside of the traditional K-12 teaching environment.

HOW TO GET IN

HOW TO GET IN

ADMISSION TO THE BACHELOR OF MUSIC: EDUCATION PROGRAM

To be admitted to the Mead Witter School of Music a student needs to apply to and be admitted by both UW-Madison and the Mead Witter School of Music:

- Prospective (new or transfer) and re-entry students should apply to UW-Madison through the Office of Admissions and Recruitment (https://admissions.wisc.edu/).
- All students must also complete an application and pass an audition. See the Mead Witter School of Music website (https://music.wisc.edu/undergraduate-admissions/) for more information. Questions about the Music application and audition process should be directed to the Music Undergraduate Audition and Admissions Coordinator (admissions@music.wisc.edu).

  Note: Students declared in the Bachelor of Music: Education program are not eligible to declare Music: Performance, or the Music major. Students who are interested in pursuing a second major or certificate outside of music should meet with the Undergraduate Music Advisor to discuss their interests and ways of meeting their educational goals.

DECLARE THE MUSIC EDUCATION PROGRAM

Students admitted to UW-Madison and the Mead Witter School of Music will be declared in their music major or music degree program. All students must make satisfactory progress, as described below, to continue in their major or degree program. Students not meeting these requirements should meet with the Undergraduate Music Advisor (ugradadvisor@music.wisc.edu) to discuss their options for continuing in the Mead Witter School of Music.

MUSIC EDUCATION CONTINUATION REQUIREMENTS

Students must meet all of the requirements below to continue in the program. Students not meeting any one of these requirements may be removed from the program and must choose a new major. Contact the Undergraduate Music Advisor (ugradadvisor@music.wisc.edu) for consideration of extenuating circumstances or if the student is considering a leave of absence (such as family emergency, personal wellness, study abroad, or approved accommodations).

(1) Enrollment Requirements

- Enroll every fall and spring semester in courses that meet the Performance Study Requirements, until those requirements are completed.
- Enroll in MUSIC 121 & MUSIC 171 to begin the music theory/history sequence in the first possible fall semester after declaration.

(2) Performance Study Jury and Progress Report

At least once a year, students must pass a performance jury with their major instrument. The purpose of this jury will be to evaluate performance study progress and to set goals for the coming year. Students who do not pass will receive guidance about making improvements and a warning letter and will have a semester to work with their professor to make improvements needed to remain in the program.

(3) Progression to 400-Level Performance Study

At the end of the fourth semester of enrollment in Performance Study, students will be evaluated for permission to advance to 400-level performance study. Students who do not meet progression requirements to advance to 400-level performance study may be given an additional semester to meet those requirements.

(4) Meet GPA Requirements in three areas:

As part of the Music Education application process, the School of Music requires students to be meeting the following GPA requirements:

- 2.750 overall cumulative GPA
- 3.000 cumulative GPA in all MUSIC and MUSIC PERFORMANCE courses
- 2.500 cumulative GPA in music theory (MUSIC 121, MUSIC 171, MUSIC 122, MUSIC 172, MUSIC 221, MUSIC 271, MUSIC 222, and MUSIC 272) and music history (MUSIC 211 and MUSIC 212)

(5) Music Education Teacher Education Program (METEP) Application, Audition, and Background Check

While enrolled in MUSIC/CURRIC 300, students declared in Music Education will be required to:

- Complete the METEP application
- Pass a music education audition
- Pass a criminal background check
- Meet the GPA Requirements outlined in (4) at the end of the semester of application
- Students must meet all of these requirements before enrolling in a course with field placement requirements (MUSIC/CURRIC 301, MUSIC/CURRIC 302, MUSIC/CURRIC 337, MUSIC/CURRIC 409 and MUSIC/CURRIC 410).

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communication & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF MUSIC (BM)

The Mead Witter School of Music (MWSoM) is a professional school within the College of Letters & Science (L&S). The College confers the Bachelor of Music (BM) degree for two distinct programs within the MWSoM: BM-Performance and BM-Education. The BM is a special degree program; it is not a major. The BM degree is not available to students who intend to earn a degree outside the College of Letters & Science.

Students pursuing a Bachelor of Music degree in the College of Letters & Science must complete all of the requirements below. Some courses satisfy more than one L&S degree requirement (visit College of Letters & Science: Requirements (https://guide.wisc.edu/undergraduate/letters-science/#requirementstext) for details).

BACHELOR OF MUSIC – DEGREE REQUIREMENTS

Communication	Complete both: • Part A: one course with the Communication A designation or eligible UW Placement Score; and • Part B: one course with the Communication B designation
Quantitative Reasoning	Complete both: • Part A: one course with the Quantitative Reasoning A designation or eligible UW Placement Score; and • Part B: one course with the Quantitative Reasoning B designation
Ethnic Studies	one 3+ credit course with the Ethnic Studies designation
Language	Complete the second unit of one language other than English (some Named Options require additional or specific languages).
Breadth in the Degree: Humanities	Complete 6 credits with the Humanities or Literature designation.

Breadth in the Degree: Social Sciences	Complete 3 credits with the Social Science designation.
Breadth in the Degree: Natural Sciences	Complete 4 to 6 credits with the Natural Science, Biological Science, or Physical Science designation, consisting of: • one 4- or 5-credit course with a laboratory component; or • two courses providing a total of 6 credits.
Depth of Intermediate/ Advanced Coursework	at least 60 credits at the Intermediate or Advanced level
Major	Gain admission to and complete one option within the degree program.
Total Credits	at least 120 credits
UW-Madison Experience	• 30 credits in residence, overall; and • 30 credits in residence after the 86th credit
Quality of Work	• 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

REQUIREMENTS FOR THE PROGRAM

The Bachelor of Music: Education program includes core requirements common to both options within the program, as well as specific requirements unique to each option. Requirements common to both options are detailed below. Refer to the Named Options section below for links to the specific requirements of a particular option within the program.

REQUIREMENTS FOR BOTH MUSIC EDUCATION PROGRAM OPTIONS

All students in the Bachelor of Music: Education program must complete the following requirements:

Code	Title	Credits
Music		
Music Theory/Aural Skills		
Complete eight courses and 16 credits from:		16
MUSIC 121 & MUSIC 171	Musica Practica 1 and Musica Practica: Aural Skills 1	
MUSIC 122 & MUSIC 172	Musica Practica 2 and Musica Practica: Aural Skills 2	
MUSIC 221 & MUSIC 271	Musica Practica 3 and Musica Practica: Aural Skills 3	
MUSIC 222 & MUSIC 272	Musica Practica 4 and Musica Practica: Aural Skills 4	
Music History		
Complete two courses from:		6
MUSIC 211	Survey of the History of Western Music	
MUSIC 212	Survey of the History of Western Music	
Cultural Breadth Ensemble		
Complete two courses from:		2
MUSIC 260	Global Hand Drumming Ensemble: Survey of Selected Global Hand Drumming Traditions	
MUSIC 262	Jazz Ensemble	
MUSIC 266	Resistance Music Ensemble	
Keyboard Skills		
Complete at least 4 credits from:		4
MUS PERF 103	Elementary Class Piano	
MUS PERF 104	Intermediate Class Piano	
All students must pass MUS PERF 104 keyboard proficiency. Extra credits earned in reaching proficiency will count as music electives.		
Jazz		
Complete at least 2 credits from:		2
MUS PERF 108	Jazz Class Piano	
or MUSIC 331	Jazz Improvisation	
Global Music Cultures		
Complete at least 3 credits from:		3
MUSIC 102	Jazz in 20th-Century America	
MUSIC/ FOLKLORE 103	Introduction to Music Cultures of the World	
MUSIC 202	Delta Blues	
MUSIC 203	American Ethnicities and Popular Song	
MUSIC 260	Global Hand Drumming Ensemble: Survey of Selected Global Hand Drumming Traditions	
MUSIC 262	Jazz Ensemble	
MUSIC 266	Resistance Music Ensemble	
MUSIC 268	Ensemble-Percussion	
MUSIC/ AFROAMER/ DANCE 318	Cultural Cross Currents: West African Dance/Music in the Americas	
MUSIC 319	Topics in Music and Ethnicity in the United States	
MUSIC 331	Jazz Improvisation	
MUSIC 332	Jazz Improvisation	
MUSIC 405	Seminar: Cultural Study of Music	
AFRICAN/ AFROAMER 233	Global HipHop and Social Justice	
AFROAMER 154	Hip-Hop and Contemporary American Society	
AFROAMER 156	Black Music and American Cultural History	
ANTHRO 340	Music, Race, And Culture in Brazil	
GERMAN 267	Yiddish Song and the Jewish Experience	
JEWISH/ HISTORY 213	Jews and American Pop. Culture	
LITTRANS 233	Russian Life and Culture Through Literature and Art (to 1917)	
LITTRANS 234	Soviet Life and Culture Through Literature and Art (from 1917)	

Conducting		
Complete at least 4 credits from:		4
MUSIC 253	Conducting	
MUSIC 254	Conducting	
Music Education		
Composition, Arrangement, & Orchestration for the Music Teacher		
Complete one course from:		2
MUSIC/ CURRIC 304	Composition, Arrangement, and Orchestration for the Music Teacher	
Teaching Popular Music		
Complete two courses from:		2
MUSIC/ CURRIC 420	Teaching Popular Instrumental Music 1

ELECTIVES FOR THE DEGREE TO REACH 120 CREDITS

In addition to the requirements for the program, students need to earn additional free elective credit to total 120 credits to graduate.

FURTHER DETAILS ON CERTIFICATION REQUIREMENTS

In addition to completing the requirements for the BM: Music Education program, students must also complete the statutory and certification requirements established by PI 34's Administrative Code and enacted by the Wisconsin Department of Public Instruction (DPI). **Completing the requirements for the BM: Music Education degree alone is not sufficient to obtain a music education license in the state of Wisconsin.** For more information see Certification/Licensure page.

NAMED OPTIONS

View as listView as grid

- **MUSIC: EDUCATION: CHORAL/GENERAL, BM (P. 1323)**
- **MUSIC: EDUCATION: INSTRUMENTAL/ GENERAL, BM (P. 1324)**

CHOOSING A MUSIC EDUCATION OPTION

The music education major consists of two main options, both leading to certification at both the elementary and secondary levels. Students choose to complete the certification option in either *General and Instrumental Music* or *General and Choral Music*. The Bachelor of Music: Education degree requires a minimum of 120 credits. The Undergraduate Advisor, supported by the music education faculty, can advise you on which option is most suited to your goals. Information on how to apply to the Music Education program can be found under the "How to Get In" tab.

RESIDENCE & QUALITY OF WORK

- Minimum 2.000 GPA in all MUSIC, MUS PERF, and program courses
- Minimum 2.000 GPA on at least 15 credits of upper-level work in the program, in residence
- 15 credits in MUSIC and/or MUS PERF, taken on the UW–Madison campus

UPPER-LEVEL COURSES

The following courses are approved for upper-level credit in both options of the Bachelor of Music: Education program:

Music

Code	Title	Credits
MUSIC 40	Wind Ensemble	1
MUSIC 41	Concert Band	1
MUSIC 50	Concert Choir	1
MUSIC 52	Treble Choir	1
MUSIC 53	Choral Union	1
MUSIC 55	Masters' Singers	1
MUSIC 56	Chorale	1
MUSIC 58	Madrigal Singers	1

MUSIC 62	University Symphony Orchestra	1
MUSIC 211	Survey of the History of Western Music	3
MUSIC 212	Survey of the History of Western Music	3
MUSIC 221	Musica Practica 3	3
MUSIC 222	Musica Practica 4	3
MUSIC 229	Jazz Theory & Composition	3
MUSIC 252	Introduction to Conducting and Pedagogy	2
MUSIC 253	Conducting	2
MUSIC 254	Conducting	2
MUSIC 256	University Opera	1-2
MUSIC 257	Opera Workshop	2
MUSIC 262	Jazz Ensemble	1
MUSIC 265	Ensemble-Woodwind	1
MUSIC 266	Resistance Music Ensemble	1
MUSIC 267	Ensemble-Brass	1
MUSIC 268	Ensemble-Percussion	1
MUSIC 269	Ensemble-String	1
MUSIC 270	Ensemble-Guitar	1
MUSIC 271	Musica Practica: Aural Skills 3	1
MUSIC 272	Musica Practica: Aural Skills 4	1
MUSIC/CURRIC 301	Music Learning and Teaching 1	2
MUSIC/CURRIC 304	Composition, Arrangement, and Orchestration for the Music Teacher	2
MUSIC 317	Musical Women in Europe and America: Creativity, Performance, and Identity	3
MUSIC/AFROAMER/DANCE 318	Cultural Cross Currents: West African Dance/Music in the Americas	3
MUSIC 319	Topics in Music and Ethnicity in the United States	3

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Demonstrate proficiency in foundational concepts of Pre-K-12 music education: planning, delivering, and assessing music learning experiences to a diverse population of learners.
2. Demonstrate the ability to integrate knowledge in music learning and teaching to bring novel, musical perspectives and solutions to challenging social, musical, and technological challenges in Pre-K-12 music settings.
3. Demonstrate the ability to think critically, musically, and creatively as a music educator to synthesize, analyze, and integrate ideas for decision-making and problem-solving in the best interest of a diverse student population.
4. Demonstrate the ability to communicate effectively with multiple and diverse constituencies (students, parents, colleagues, community) to share knowledge, values, and beliefs regarding music learning and teaching.
5. Develop and demonstrate the professionalism required as a music educator in the field of music education: acting ethically, allowing space for diverse views, recognizing and reducing bias in one's own thinking, and contributing to the profession as a whole.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

Each of the options in the Music: Education, BM has its own four-year plan. Click each option to see its four year plan.

- Music: Education: Choral/General, BM (https://guide.wisc.edu/undergraduate/letters-science/music/music-education-bm/music-education-choral-general-bm/#fouryearplantext)
- Music: Education: Instrumental/General, BM (https://guide.wisc.edu/undergraduate/letters-science/music/music-education-bm/music-education-instrumental-general-bm/#fouryearplantext)

ADVISING AND CAREERS

ADVISING AND CAREERS

ADVISING RESOURCES

All current UW–Madison undergraduate students majoring or interested in majoring in Music are welcome to schedule an advising appointment with the music advisor. Advising appointments can be scheduled using Starfish. (https://wisc.starfishsolutions.com/starfish-ops/dl/instructor/serviceCatalog.html?bookmark=service/79179/schedule)

Questions from current and prospective Music students, or students interested in music classes or ensembles may also be email to the School of Music Undergraduate Advisor at ugradadvisor@music.wisc.edu

The Mead Witter School of Music recommends that Music students meet with their music advisor regularly to discuss their academic plans. School of Music Programs can be highly sequential and include required courses that are offered only one a year or once every other year. Students considering studying abroad are also recommended to meet with their music advisor early to determine the best way of fitting their experience abroad into their graduation plans.

ARE YOU A PROSPECTIVE MUSIC STUDENT?

The Mead Witter School of Music offers the opportunity to audition several times a year. Check out the School of Music website (https://music.wisc.edu/undergraduate-admissions/) for more information about audition information. Prospective music majors are welcome to reach out to the Undergraduate Admissions Coordinator with an questions at: admissions@music.wisc.edu

CAREER RESOURCES

A Music major or degree can offer students many opportunities for careers in music industry and music education, as well as provide valuable skills that can be applied to any career path.

The Mills Music Library (https://researchguides.library.wisc.edu/music_career_resources/) has resources to help musicians with their career search.

There are many campus resources to help students explore, plan for, and start their careers. Students who are undecided about their major plans and career can visit the Career Exploration Center. (https://cec.wisc.edu/) SuccessWorks at the College of Letters & Science (https://successworks.wisc.edu/) offers Music students a wealth of resources to explore career options, build experience, prepare for the job market, and to find a job, internship, or graduate school opportunities. Music majors should be sure to explore the Communications, Media, & the Arts career cluster (https://successworks.wisc.edu/what-are-career-communities/communications-media-and-the-arts/) including signing up for their newsletter.

MUSIC EDUCATION CAREER RESOURCES

Music Education majors are also encouraged to work with the Mary T. Kellner Teacher Education Center (https://tec.education.wisc.edu/) for their licensure process and with the Career Center at the School of Education (https://careercenter.education.wisc.edu/) to assist with their job search.

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a

short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

CERTIFICATION/LICENSURE

CERTIFICATION/LICENSURE

ADDITIONAL CERTIFICATION REQUIREMENTS AND APPLYING FOR A LICENSE

In addition to completing UW–Madison's program requirements, students must also complete Wisconsin statutory requirements and certification requirements established by the Wisconsin Department of Public Instruction (DPI). For additional certification requirements and information about applying for a license, see Teacher Education Center (https://tec.education.wisc.edu/).

Some specific expectations for teaching licensure must be met while taking coursework.

- Multicultural Education and Human Relations: 52 hours of field experience are satisfied for music education students who successfully complete the required two semesters of CURRIC/MUSIC 337 Practicum in Teaching Music.
- Conflict Resolution: Discussions related to conflict resolution are embedded across the CURRIC/MUSIC 300 Principles of Music Education, MUSIC/CURRIC 301 Music Learning and Teaching 1, and MUSIC/CURRIC 302 Music Learning and Teaching 2 in addition to many of the CURRIC, ED PSYCH, and ED POLICY courses.
- American Indian Studies and Education (Wis. Act 31): There are a variety of ways to earn certification. Consult with the MWSOM undergraduate advisor.
- Teacher Performance Assessment conducted by METEP faculty during student teaching semester.

The Department of Public Instruction (DPI) requires higher GPAs for licensure. Students who meet the GPA requirements for the BM: Music Education and not the GPA requirements for licensure will need to work with the Undergraduate Music Advisor, the Music Education Faculty, and the Teacher Education Center to complete alternative work. Requirements for licensure are as follows:

- 3.000 cumulative GPA in all MUSIC and MUSIC PERFORMANCE coursework
- 2.750 cumulative GPA in all UW-Madison coursework

PROFESSIONAL CERTIFICATION/LICENSURE DISCLOSURE (NC-SARA)

The United States Department of Education (via 34 CFR Part 668 (https://www.ecfr.gov/current/title-34/subtitle-B/chapter-VI/part-668/?toc=1)) requires institutions that provide distance education to disclose information for programs leading to professional certification or licensure. The expectation is that institutions will determine whether each applicable academic program meets state professional licensure requirements and provide a general disclosure of such on an official university website.

Professional licensure requirements vary from state-to-state and can change year-to-year; they are established in a variety of state statutes, regulations, rules, and policies; and they center on a range of educational requirements, including degree type, specialized accreditation, total credits, specific courses, and examinations.

UW-Madison has taken reasonable efforts to determine whether this program satisfies the educational requirements for certification/licensure in states where prospective and enrolled students are located and is disclosing that information as follows.

Disclaimer: This information is based on the most recent annual review of state agency certification/licensure data and is subject to change. All students are strongly encouraged to consult with the individual/office listed in the Contact Information box on this page and with the applicable state agency for specific information.

The requirements of this program meet certification/licensure requirements in the following states:

Wisconsin

The requirements of this program do not meet certification/licensure requirements in the following states:

Not applicable

For more information about teacher licensure in Wisconsin and other states please see the Teacher Education Center's website (https://tec.education.wisc.edu/current-students/applying-for-your-wisconsin-license/).

Updated: 1 June 2026

ACCREDITATION

ACCREDITATION

The University of Wisconsin-Madison is an accredited institutional member of the National Association of Schools of Music (https://nasm.arts-accredit.org/) (NASM) since 1966.

Accreditation status: Accredited. Next accreditation review: 2032-2033

MUSIC: PERFORMANCE, BM

The Bachelor of Music: Performance degree offers students the opportunity to focus deeply on music at UW–Madison and pursue a conservatory-style college education. Students have the opportunity to work side-by-side with students in master's and doctoral-level programs. Working collegially in class and studio, making music together on stage and off, and building professional relationships across program boundaries all enable the sharing of expertise, experience, and perspectives and add immeasurably to every student's development. Students in this program have professional interests in solo performance, chamber music performance, orchestra or wind ensemble performance, studio teaching (private or in a college or university), church music, conducting, music technology or production, opera or musical theater, or many combinations of these. Some students may consider this program as preparation for graduate study in music, arts administration, and other areas.

The Music faculty have designed the curricula to include extensive coursework (90 credits) in performance study, chamber and larger ensembles, music theory, music history, repertoire, and pedagogy. Each option has been specifically created to meet the unique needs of your instrument.

A Bachelor of Music: Performance program can be demanding and requires care in taking courses in the proper sequence. Students are encouraged to meet with their music advisor regularly to stay on track. Please refer to the Requirements (p.) and Four-Year Plan (p.) sections for more details.

HOW TO GET IN

HOW TO GET IN

ADMISSION TO THE BACHELOR OF MUSIC: PERFORMANCE PROGRAM

To be admitted to the Mead Witter School of Music a student needs to apply to and be admitted by both UW-Madison and the Mead Witter School of Music:

- Prospective (new or transfer) and re-entry students should apply to UW-Madison through the Office of Admissions and Recruitment (https://admissions.wisc.edu/).

All students must also complete an application and pass an audition. See the Mead Witter School of Music website (https://music.wisc.edu/undergraduate-admissions/) for more information. Questions about the Music application and audition process should be directed to the Music Undergraduate Audition and Admissions Coordinator (admissions@music.wisc.edu).

Note: Students declared in the Bachelor of Music: Performance are not eligible to declare Music: Education, or the Music major. Students who are interested in pursuing a second major or certificate outside of music should meet with the Undergraduate Music Advisor to discuss their interests and ways of meeting their educational goals.

DECLARING THE BACHELOR OF MUSIC: PERFORMANCE PROGRAM

Students admitted to UW-Madison and the Mead Witter School of Music will be declared in their music major or music degree program.

All students must make satisfactory progress, as described below, to continue in their major or degree program. Students not meeting these requirements should meet with the Undergraduate Music Advisor (ugradadvisor@music.wisc.edu) to discuss their options for continuing in the Mead Witter School of Music.

BACHELOR OF MUSIC: PERFORMANCE PROGRAM CONTINUATION REQUIREMENTS

Students must meet all of the requirements below to continue in the program. Students not meeting any one of these requirements may be removed from the program and must choose a new major. Contact the Undergraduate Music Advisor (ugradadvisor@music.wisc.edu) for consideration of extenuating circumstances or if the student is considering a leave of absence (such as family emergency, personal wellness, study abroad, or approved accommodations)

(1) Enrollment Requirements

- Enroll every fall and spring semester in a course that meets the Performance Study Requirements, until that requirement is completed.
- Enroll in MUSIC 121 & MUSIC 171 to begin the music theory/history sequence in the first possible fall semester after declaration.

(2) Performance Study Jury and Progress Report

At least once a year, students must pass a performance jury with their major instrument. The purpose of this jury will be to evaluate performance study progress and to set goals for the coming year. Students who do not pass will receive guidance about making improvements and a warning letter and will have a semester to work with their professor to make improvements needed to remain in the program.

(3) Progression to Four Credit Performance Study

At the end of the second semester of enrollment in Performance Study, students will be evaluated for permission to advance to four credit performance study. Students who do not meet progression requirements to advance to four credit performance study may be given an additional semester to meet those requirements.

(4) Progression to 400-Level Performance Study

At the end of the fourth semester of enrollment in Performance Study, students will be evaluated for permission to advance to 400-level performance study. Students who do not meet progression requirements to advance to 400-level performance study may be given an additional semester to meet those requirements.

(5) Meet GPA Requirements in three areas:

As part of the evaluation for progression to 400-level performance study, the School of Music requires students to be meeting the following GPA requirements:

- 2.750 overall cumulative GPA
- 3.000 cumulative GPA in all MUSIC and MUSIC PERFORMANCE courses
- 2.500 cumulative GPA in music theory (MUSIC 121, MUSIC 171, MUSIC 122, MUSIC 172, MUSIC 221, MUSIC 271, MUSIC 222, and MUSIC 272) and music history (MUSIC 211 and MUSIC 212)

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

COLLEGE OF LETTERS & SCIENCE BREADTH AND DEGREE REQUIREMENTS: BACHELOR OF MUSIC (BM)

The Mead Witter School of Music (MWSoM) is a professional school within the College of Letters & Science (L&S). The College confers the Bachelor of Music (BM) degree for two distinct programs within the MWSoM: BM-Performance and BM-Education. The BM is a special degree program; it is not a major. The BM degree is not available to students who intend to earn a degree outside the College of Letters & Science.

Students pursuing a Bachelor of Music degree in the College of Letters & Science must complete all of the requirements below. Some courses satisfy more than one L&S degree requirement (visit College of Letters & Science: Requirements (https://guide.wisc.edu/undergraduate/letters-science/#requirementstext) for details).

BACHELOR OF MUSIC – DEGREE REQUIREMENTS

Communication	Complete both: • Part A: one course with the Communication A designation or eligible UW Placement Score; and • Part B: one course with the Communication B designation
Quantitative Reasoning	Complete both: • Part A: one course with the Quantitative Reasoning A designation or eligible UW Placement Score; and • Part B: one course with the Quantitative Reasoning B designation
Ethnic Studies	one 3+ credit course with the Ethnic Studies designation
Language	Complete the second unit of one language other than English (some Named Options require additional or specific languages).
Breadth in the Degree: Humanities	Complete 6 credits with the Humanities or Literature designation.
Breadth in the Degree: Social Sciences	Complete 3 credits with the Social Science designation.
Breadth in the Degree: Natural Sciences	Complete 4 to 6 credits with the Natural Science, Biological Science, or Physical Science designation, consisting of: • one 4- or 5-credit course with a laboratory component; or • two courses providing a total of 6 credits.
Depth of Intermediate/ Advanced Coursework	at least 60 credits at the Intermediate or Advanced level
Major	Gain admission to and complete one option within the degree program.
Total Credits	at least 120 credits
UW-Madison Experience	• 30 credits in residence, overall; and • 30 credits in residence after the 86th credit
Quality of Work	• 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

REQUIREMENTS FOR THE PROGRAM

The Bachelor of Music: Performance curriculum includes core requirements common to all options within the program, as well as specific requirements unique to each option. Requirements common to all options are detailed below. Refer to the Named Options section below for links to the specific requirements of a particular option within the program.

REQUIREMENTS FOR ALL MUSIC PERFORMANCE PROGRAM OPTIONS

All students in the Bachelor of Music: Performance program must complete the following requirements:

Code	Title	Credits
Music History		
Survey		
Complete two courses from:		
MUSIC 211	Survey of the History of Western Music	3
MUSIC 212	Survey of the History of Western Music	3
Additional Music History		*6*
Complete 6 credits from:		
MUSIC 405	Seminar: Cultural Study of Music	
MUSIC 411	Survey of Music in the Middle Ages	
MUSIC 412	Survey of Music in the Renaissance	
MUSIC 413	Survey of Music in the Baroque Era	
MUSIC 414	Survey of Music in the Classic Era	
MUSIC 415	Survey of Music in the Romantic Era	
MUSIC 416	Survey of Music in the Twentieth Century	
MUSIC 417	Jazz Histories	
MUSIC 418	Music and the City	
MUSIC 419	Music in the United States	
MUSIC 423	Contemporary Issues in Popular Music Studies	
MUSIC 511	Historical Performance Practices	
MUSIC 513	Survey of Opera	
Core Music Theory		**12**
Complete six courses from:		
MUSIC 121 & MUSIC 171	Musica Practica 1 and Musica Practica: Aural Skills 1	
MUSIC 122 & MUSIC 172	Musica Practica 2 and Musica Practica: Aural Skills 2	
MUSIC 221 & MUSIC 271	Musica Practica 3 and Musica Practica: Aural Skills 3	
Conducting/Pedagogy		
Complete one course from:		
MUSIC 252	Introduction to Conducting and Pedagogy	2
Global Music Cultures		**3**
Complete 3 credits from:		
MUSIC 102	Jazz in 20th-Century America	
MUSIC/ FOLKLORE 103	Introduction to Music Cultures of the World	
MUSIC 202	Delta Blues	
MUSIC 203	American Ethnicities and Popular Song	
MUSIC 260	Global Hand Drumming Ensemble: Survey of Selected Global Hand Drumming Traditions	
MUSIC 262	Jazz Ensemble	
MUSIC 266	Resistance Music Ensemble	
MUSIC 268	Ensemble-Percussion	
MUSIC/ AFROAMER/ DANCE 318	Cultural Cross Currents: West African Dance/Music in the Americas	
MUSIC 319	Topics in Music and Ethnicity in the United States	
MUSIC 331	Jazz Improvisation	
MUSIC 332	Jazz Improvisation	
MUSIC 405	Seminar: Cultural Study of Music	
AFRICAN/ AFROAMER 233	Global HipHop and Social Justice	
AFROAMER 154	Hip-Hop and Contemporary American Society	
AFROAMER 156	Black Music and American Cultural History	
ANTHRO 340	Music, Race, And Culture in Brazil	
GERMAN 267	Yiddish Song and the Jewish Experience	
JEWISH/ HISTORY 213	Jews and American Pop. Culture	
LITTRANS 233	Russian Life and Culture Through Literature and Art (to 1917)	
LITTRANS 234	Soviet Life and Culture Through Literature and Art (from 1917)	
Total Credits		**29**

ELECTIVES FOR ALL MUSIC PERFORMANCE PROGRAM OPTIONS

The following courses have been approved as electives for all options within the Bachelor of Music: Performance program. The minimum number of Elective credits varies between options, but all options accept the list of courses below toward the minimum credits of Electives required within the option.

Code	Title	Credits
MUSIC and MUS PERF Electives		
MUSIC 40	Wind Ensemble	1
MUSIC 41	Concert Band	1
MUSIC 42	Varsity Band	1
MUSIC 50	Concert Choir	1
MUSIC 52	Treble Choir	1
MUSIC 56	Chorale	1
MUSIC 58	Madrigal Singers	1
MUSIC 62	University Symphony Orchestra	1
MUSIC 102	Jazz in 20th-Century America	3
MUSIC/ FOLKLORE 103	Introduction to Music Cultures of the World	3
MUSIC 107	Music & Film	3
MUSIC 202	Delta Blues	3
MUSIC 211	Survey of the History of Western Music	3
MUSIC 212	Survey of the History of Western Music	3
MUSIC 222	Musica Practica 4	3
MUSIC 229	Jazz Theory & Composition	3

MUSIC 253	Conducting	2
MUSIC 254	Conducting	2
MUSIC 256	University Opera	1-2
MUSIC 257	Opera Workshop	2
MUSIC 260	Global Hand Drumming Ensemble: Survey of Selected Global Hand Drumming Traditions	1
MUSIC 262	Jazz Ensemble	1
MUSIC 265	Ensemble-Woodwind	1
MUSIC 266	Resistance Music Ensemble	1
MUSIC 267	Ensemble-Brass	1
MUSIC 268	Ensemble-Percussion	1
MUSIC 269	Ensemble-String	1
MUSIC 270	Ensemble-Guitar	1
MUSIC 272	Musica Practica: Aural Skills 4	1
MUSIC/ CURRIC 300	Principles of Music Education	2
MUSIC/CURRIC 304	Composition, Arrangement, and Orchestration for the Music Teacher	2
MUSIC 317	Musical Women in Europe and America: Creativity, Performance, and Identity	3
MUSIC/AFROAMER/ DANCE 318	Cultural Cross Currents: West African Dance/Music in the Americas	3
MUSIC 319	Topics in Music and Ethnicity in the United States	3
MUSIC 331	Jazz Improvisation	3
MUSIC 332	Jazz Improvisation	3
MUSIC 340	Pedagogy	1-2
MUSIC 346	Repertoire	1-2
MUSIC 405	Seminar: Cultural Study of Music	3
MUSIC 411	Survey of Music in the Middle Ages	3
MUSIC 412	Survey of Music in the Renaissance	3
MUSIC 413	Survey of Music in the Baroque Era	3
MUSIC 414	Survey of Music in the Classic Era	3
MUSIC 415	Survey of Music in the Romantic Era	3
MUSIC 416	Survey of Music in the Twentieth Century	3
MUSIC 417	Jazz Histories	3
MUSIC 418	Music and the City	3
MUSIC 419	Music in the United States	3
MUSIC/CURRIC 420	Teaching Popular Instrumental Music 1	1
MUSIC/CURRIC 421	Teaching Popular Instrumental Music 2	1
MUSIC 422	Fundamentals of Music Production	3
MUSIC 423	Contemporary Issues in Popular Music Studies	3
MUSIC 424	Topics in Vocal Chamber Music	1
MUSIC 461	Collegium Musicum	1
MUSIC 463	Acting for Singers	1
MUSIC 465	Marching Band Techniques	1
MUSIC 466	Diction for Singers	2
MUSIC 467	Language Diction for Singing I	2
MUSIC 468	Language Diction for Singing II	2
MUSIC 497	Special Topics in Music	1-3
MUSIC 499	Directed Study	1-3
MUSIC 502	Figured Bass and Basso Continuo	3
MUSIC 511	Historical Performance Practices	3
MUSIC 513	Survey of Opera	3
MUSIC/ FOLKLORE 515	Proseminar in Ethnomusicology	3
MUSIC 523	Orchestration I	3
MUSIC 540	Advanced Pedagogy	2
MUSIC 541	Seminar in Choral Literature	2
MUSIC 546	String Literature	2
MUSIC 573	Contemporary Chamber Ensemble	1
MUSIC 621	Renaissance Polyphony	3
MUSIC 622	Baroque Counterpoint	3
MUSIC 623	Form and Analysis	2-3
MUSIC 624	Form and Analysis II	2-3
MUSIC 629	Jazz Theory and Analysis	3
MUSIC 681	Senior Honors Thesis	3
MUSIC 682	Senior Honors Thesis	3
MUS PERF 21	Brass Fundamentals	1
MUS PERF 22	Strings Fundamentals	1
MUS PERF 23	Woodwind Fundamentals	1
MUS PERF 27	Fundamentals-Percussion	1
MUS PERF 101	Beginning Class Piano	2
MUS PERF 102	Beginning Class Piano	2
MUS PERF 103	Elementary Class Piano	2
MUS PERF 104	Intermediate Class Piano	2
MUS PERF 108	Jazz Class Piano	2
MUS PERF 143	Introduction to Performance: Voice	1
MUS PERF 144	Vocal Instruction for Non-Voice Majors	1-2
MUS PERF 146	Music Lessons for Non-Majors	1-2
MUS PERF 148	First Year Composition	3
MUS PERF 200	Elementary/Intermediate Piano for Non-Piano Majors	2
MUS PERF 201	Elementary/Intermediate Piano	2-4
MUS PERF 205	Elementary/Intermediate Voice	2-4
MUS PERF 207	Elementary/Intermediate Flute	2-4
MUS PERF 209	Elementary/Intermediate Oboe	2-4
MUS PERF 211	Elementary/Intermediate Clarinet	2-4
MUS PERF 213	Elementary/Intermediate Saxophone	2-4
MUS PERF 215	Elementary/Intermediate Bassoon	2-4
MUS PERF 217	Elementary/Intermediate Horn	2-4
MUS PERF 219	Elementary/Intermediate Trumpet	2-4
MUS PERF 221	Elementary/Intermediate Trombone	2-4
MUS PERF 223	Elementary/Intermediate Euphonium	2-4
MUS PERF 225	Elementary/Intermediate Tuba	2-4
MUS PERF 227	Elementary/Intermediate Percussion	2-4
MUS PERF 231	Elementary/Intermediate Violin	2-4

MUS PERF 233	Elementary/Intermediate Viola	2-4
MUS PERF 235	Elementary/Intermediate Cello	2-4
MUS PERF 237	Elementary/Intermediate Double Bass	2-4
MUS PERF 239	Elementary/Intermediate Harp	2-4
MUS PERF 240	Elementary/Intermediate Guitar	2-4
MUS PERF 241	Elementary/Intermediate Jazz Studio Instruction	2-4
MUS PERF 242	Accompanying	2
MUS PERF 248	Second Year Composition	3
MUS PERF 251	Keyboard Skills	2
MUS PERF 339	Advanced Techniques: Harp	1-2
MUS PERF 342	Piano Accompanying Lab	1
MUS PERF 347	Third Year Composition	3
MUS PERF 348	Third Year Composition	3
MUS PERF 401	Advanced Piano	2-4
MUS PERF 402	Advanced Harpsichord	2-4
MUS PERF 405	Advanced Voice	2-4
MUS PERF 407	Advanced Flute	2-4
MUS PERF 409	Advanced Oboe	2-4
MUS PERF 411	Advanced Clarinet	2-4
MUS PERF 413	Advanced Saxophone	2-4
MUS PERF 415	Advanced Bassoon	2-4
MUS PERF 417	Advanced Horn	2-4
MUS PERF 419	Advanced Trumpet	2-4
MUS PERF 421	Advanced Trombone	2-4
MUS PERF 423	Advanced Euphonium	2-4
MUS PERF 425	Advanced Tuba	2-4
MUS PERF 427	Advanced Percussion	2-4
MUS PERF 431	Advanced Violin	2-4
MUS PERF 433	Advanced Viola	2-4
MUS PERF 435	Advanced Cello	2-4
MUS PERF 437	Advanced Double Bass	2-4
MUS PERF 439	Advanced Harp	2-4
MUS PERF 440	Advanced Guitar	2-4
MUS PERF 441	Advanced Jazz Studio Instruction	2-4
MUS PERF 447	Fourth Year Composition	3
MUS PERF 448	Fourth Year Composition	3
MUS PERF 457	Jazz Composition and Arranging	3
MUS PERF 499	Senior Recital	2

NAMED OPTIONS

Students must select one of the following named options:

View as listView as grid

- **MUSIC: PERFORMANCE: BRASS, PERCUSSION, WOODWINDS, BM (P. 1333)**
- **MUSIC: PERFORMANCE: COMPOSITION, BM (P. 1335)**
- **MUSIC: PERFORMANCE: GUITAR, BM (P. 1336)**
- **MUSIC: PERFORMANCE: JAZZ, BM (P. 1337)**
- **MUSIC: PERFORMANCE: ORGAN, BM (P. 1338)**
- **MUSIC: PERFORMANCE: PIANO, BM (P. 1339)**
- **MUSIC: PERFORMANCE: STRINGS, BM (P. 1340)**
- **MUSIC: PERFORMANCE: VOICE, BM (P. 1341)**

DEGREE PROGRESS

Upon admission as a Music major, all students begin applied study at the 200-level on the major instrument or voice. In the second or third year each student's progress is assessed by the faculty of the relevant performance area. If that assessment indicates that the student is ready, the faculty recommends the student for advanced-level (400-level) study. With a recommendation from the faculty at the end of the second year, and provided the student meets all GPA requirements and completes the first- and second-year courses in music theory and music history, the student may formally declare for the Bachelor of Music: Performance degree.

The minimum GPA requirements that must be met before declaring are as follows:

- Minimum 2.500 GPA in Musica Practica and in music history courses
- Minimum 3.000 GPA in all MUSIC courses
- Minimum 2.750 University GPA (all UW-Madison coursework)

RESIDENCE & QUALITY OF WORK

- Minimum 2.000 GPA in all MUSIC, MUS PERF, and program courses
- Minimum 2.000 GPA on at least 15 credits of upper-level work in the program, in residence
- 15 credits in MUSIC and/or MUSIC PERF, taken on the UW–Madison campus

UPPER-LEVEL COURSES

The following courses are approved for upper-level credit in all options of the Bachelor of Music: Performance program:

Music

Code	Title	Credits
MUSIC 40	Wind Ensemble	1
MUSIC 41	Concert Band	1
MUSIC 50	Concert Choir	1
MUSIC 52	Treble Choir	1
MUSIC 53	Choral Union	1
MUSIC 55	Masters' Singers	1

MUSIC 56	Chorale	1
MUSIC 58	Madrigal Singers	1
MUSIC 62	University Symphony Orchestra	1
MUSIC 211	Survey of the History of Western Music	3
MUSIC 212	Survey of the History of Western Music	3
MUSIC 221	Musica Practica 3	3
MUSIC 222	Musica Practica 4	3
MUSIC 229	Jazz Theory & Composition	3

HONORS IN THE MAJOR

To earn Honors in any music major, students must satisfy the requirements below as well as all other requirements for their music degree and major:

- 6 credits of MUSIC 681 Senior Honors Thesis–MUSIC 682 Senior Honors Thesis
- 12 credits of honors coursework in music: 6 of the 12 credits must be in courses numbered 300 or above and only 6 credits can be taken in any one of the three music areas of theory, history, and performance.

To participate in the Honors in the Major program, students must:

- Notify the School of Music undergraduate advisor of their intention to become a candidate for Honors in the Major. This will usually occur in the sophomore year.
- Present a minimum cumulative GPA of 3.300 in all courses taken at UW–Madison and maintain this average throughout the degree.
- Present a minimum 3.500 GPA in all music coursework and maintain a minimum 3.500 GPA in all music honors coursework.
- Engage a faculty member who will collaborate in planning the 12 credits of honors curriculum coursework; submit this plan to the undergraduate advisor. The course plan may change as students progress through their work.
- Prior to beginning work on the MUSIC 681–MUSIC 682 Senior Honors Thesis sequence, confirm a faculty advisor for this sequence (who may be the same person as for the 12 credits above) and submit a prospectus outlining in detail the planned work including (a) the topic, (b) plans for research, and (c) a clear substantive written component, although it may also include oral and/or performance components. The faculty advisor must sign the prospectus indicating approval.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Develop advanced levels of proficiency in solo, chamber and ensemble performance sufficient to enter music professions or graduate programs.
2. Understand, synthesize and apply foundational concepts of musical study in theory, history and pedagogy.
3. Demonstrate the ability to learn independently and to integrate knowledge across domains of research and applied studies.
4. Communicate verbally, in writing and through public performance, musical ideas and concepts.
5. Demonstrate ability to work collaboratively and professionally in multiple settings.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

FOUR-YEAR PLAN

ADVISING AND CAREERS

ADVISING AND CAREERS

ADVISING RESOURCES

All current UW–Madison undergraduate students majoring or interested in majoring in Music are welcome to schedule an advising appointment with the music advisor. Advising appointments can be scheduled using Starfish. (https://wisc.starfishsolutions.com/starfish-ops/dl/instructor/serviceCatalog.html?bookmark=service/79179/schedule)

Questions from current and prospective Music students, or students interested in music classes or ensembles may also be email to the School of Music Undergraduate Advisor at ugradadvisor@music.wisc.edu

The Mead Witter School of Music recommends that Music students meet with their music advisor regularly to discuss their academic plans. School of Music Programs can be highly sequential and include required courses that are offered only one a year or once every other year. Students considering studying abroad are also recommended to meet with their music advisor early to determine the best way of fitting their experience abroad into their graduation plans.

ARE YOU A PROSPECTIVE MUSIC STUDENT?

The Mead Witter School of Music offers the opportunity to audition several times a year. Check out the School of Music website (https://music.wisc.edu/undergraduate-admissions/) for more information about audition information. Prospective music majors are welcome to reach out to the Undergraduate Admissions Coordinator with an questions at: admissions@music.wisc.edu

CAREER RESOURCES

A Music major or degree can offer students many opportunities for careers in music industry and music education, as well as provide valuable skills that can be applied to any career path.

The Mills Music Library (https://researchguides.library.wisc.edu/music_career_resources/) has resources to help musicians with their career search.

There are many campus resources to help students explore, plan for, and start their careers. Students who are undecided about their major plans and career can visit the Career Exploration Center. (https://cec.wisc.edu/) SuccessWorks at the College of Letters & Science (https://successworks.wisc.edu/) offers Music students a wealth of resources to explore career options, build experience, prepare for the job market, and to find a job, internship, or graduate school opportunities. Music majors should be sure to explore the Communications, Media, & the Arts career cluster (https://successworks.wisc.edu/what-are-career-communities/communications-media-and-the-arts/) including signing up for their newsletter.

MUSIC EDUCATION CAREER RESOURCES

Music Education majors are also encouraged to work with the Mary T. Kellner Teacher Education Center (https://tec.education.wisc.edu/) for their licensure process and with the Career Center at the School of Education (https://careercenter.education.wisc.edu/) to assist with their job search.

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

ACCREDITATION

ACCREDITATION

The University of Wisconsin-Madison is an accredited institutional member of the National Association of Schools of Music (https://nasm.arts-accredit.org/) (NASM) since 1966.

Accreditation status: Accredited. Next accreditation review: 2032-2033

MUSIC: PERFORMANCE: BRASS, PERCUSSION, WOODWINDS, BM

REQUIREMENTS

REQUIREMENTS

Students in the Brass, Percussion, & Woodwinds option must complete the following:

Code	Title	Credits
Applied Study		
Elementary/Intermediate		
Complete 12 credits in one of the following courses:		12
MUS PERF 207	Elementary/Intermediate Flute	
MUS PERF 209	Elementary/Intermediate Oboe	
MUS PERF 211	Elementary/Intermediate Clarinet	
MUS PERF 213	Elementary/Intermediate Saxophone	
MUS PERF 215	Elementary/Intermediate Bassoon	
MUS PERF 217	Elementary/Intermediate Horn	
MUS PERF 219	Elementary/Intermediate Trumpet	
MUS PERF 221	Elementary/Intermediate Trombone	
MUS PERF 223	Elementary/Intermediate Euphonium	
MUS PERF 225	Elementary/Intermediate Tuba	
MUS PERF 227	Elementary/Intermediate Percussion	
Advanced		

Complete 14 credits in one of the following courses:		14
MUS PERF 407	Advanced Flute	
MUS PERF 409	Advanced Oboe	
MUS PERF 411	Advanced Clarinet	
MUS PERF 413	Advanced Saxophone	
MUS PERF 415	Advanced Bassoon	
MUS PERF 417	Advanced Horn	
MUS PERF 419	Advanced Trumpet	
MUS PERF 421	Advanced Trombone	
MUS PERF 423	Advanced Euphonium	
MUS PERF 425	Advanced Tuba	
MUS PERF 427	Advanced Percussion	
Senior Recital		
Complete one course from:		2
MUS PERF 499	Senior Recital	
Advanced Music Theory		
Complete two courses from:		4
MUSIC 222 & MUSIC 272	Musica Practica 4 and Musica Practica: Aural Skills 4	
Keyboard Skills		
All students must pass MUS PERF 104 keyboard proficiency. Extra credits earned in reaching proficiency will count as music electives.		
Complete 4 credits from:		4
MUS PERF 103	Elementary Class Piano	
MUS PERF 104	Intermediate Class Piano	
Large Performance Ensemble		
Complete eight courses from:		8
MUSIC 40	Wind Ensemble	
MUSIC 41	Concert Band	
MUSIC 62	University Symphony Orchestra	
Ensemble		
Complete four courses from:		4
MUSIC 265	Ensemble-Woodwind	
MUSIC 267	Ensemble-Brass	
MUSIC 268	Ensemble-Percussion	
MUSIC 269	Ensemble-String	
MUSIC 461	Collegium Musicum	
Electives		
Complete 13 credits of Electives.		13
Elective credit is earned from courses on the list of electives approved for all options of the Bachelor of Music: Performance program. This list is published in the Requirements section for the program.		
Total Credits		**61**

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

First Year

MUSIC: PERFORMANCE: STRINGS, BM

REQUIREMENTS

REQUIREMENTS

Students in the Strings option must complete the following:

Code	Title	Credits
Applied Study		
Elementary/Intermediate		
Complete 12 credits from one of the following courses:		12
MUS PERF 231	Elementary/Intermediate Violin	
MUS PERF 233	Elementary/Intermediate Viola	
MUS PERF 235	Elementary/Intermediate Cello	
MUS PERF 237	Elementary/Intermediate Double Bass	
MUS PERF 239	Elementary/Intermediate Harp	
Advanced		
Complete 14 credits from one of the following courses:		14
MUS PERF 431	Advanced Violin	
MUS PERF 433	Advanced Viola	
MUS PERF 435	Advanced Cello	
MUS PERF 437	Advanced Double Bass	
MUS PERF 439	Advanced Harp	
Senior Recital		
Complete one course from:		2
MUS PERF 499	Senior Recital	
Advanced Music Theory		
Complete two courses from:		4
MUSIC 222 & MUSIC 272	Musica Practica 4 and Musica Practica: Aural Skills 4	
Keyboard Skills		
All students must pass MUS PERF 104 keyboard proficiency. Extra credits earned in reaching proficiency will count as music electives.		
Complete two courses from:		4
MUS PERF 103	Elementary Class Piano	
MUS PERF 104	Intermediate Class Piano	
Large Performance Ensemble		
Complete eight courses from:		8
MUSIC 62	University Symphony Orchestra	
String Ensemble		
Complete four courses from:		4
MUSIC 269	Ensemble-String	
Ensemble		
Complete four courses from:		4
MUSIC 260	Global Hand Drumming Ensemble: Survey of Selected Global Hand Drumming Traditions	
MUSIC 262	Jazz Ensemble	
MUSIC 265	Ensemble-Woodwind	
MUSIC 267	Ensemble-Brass	
MUSIC 269	Ensemble-String	
MUSIC 268	Ensemble-Percussion	
MUSIC 461	Collegium Musicum	
Pedagogy		
Complete one course from:		2
MUSIC 340	Pedagogy	
Repertoire		
Complete one course from:		2
MUSIC 346	Repertoire	
Electives		
Complete 5 credits of Electives.		5
Elective credit is earned from courses on the list of electives approved for all options of the Bachelor of Music: Performance program. This list is published in the Requirements section for the program.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

MOSSE/WEINSTEIN CENTER FOR JEWISH STUDIES

Founded in 1991, the Mosse/Weinstein Center for Jewish Studies brings together a variety of disciplines to study and interpret Jewish and ancient Israelite history, religion, literature, politics, society, and culture. The center offers a broad selection of courses at all levels, which are cross-listed with other departments, including Classical and Near Eastern Studies, English, Gender and Women's Studies, German/Nordic/Slavic Studies, History, Music, Philosophy, Political Science, Religious Studies, and Sociology.

The Jewish Studies major offers students an in-depth study of 3,500 years of Jewish civilization. The program is interdisciplinary in nature and aims to provide students with a broadly based, rigorous liberal arts education in the field. While learning about Jewish history, religion, language, and culture, students also develop skills in critical thinking, reading, writing, and research—skills that are valuable to a range of career paths.

DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/ CERTIFICATES

- Jewish Studies, BA (p. 1342)
- Jewish Studies, BS (p. 1347)
- Jewish Studies, Certificate (p. 1352)

JEWISH STUDIES, BA

Jewish Studies is a vibrant academic program that allows you to explore Jewish life and civilization through a variety of disciplinary perspectives, including history, sociology, political science, religious thought, literature, and the arts.

As a student in Jewish Studies, you will study the intellectual and cultural values of Jews, their religious beliefs and practices, languages, literary creativity, and participation in the larger societies in which they live. You will sharpen your ability to think critically, read closely, and write effectively. And while learning how Jews have lived, survived, and sometimes flourished, you will gain a deeper comprehension of their rich, varied culture and the world they inhabit.

Whatever your background or previous study, we encourage you to pursue a Jewish Studies major or certificate (https://guide.wisc.edu/undergraduate/letters-science/center-jewish-studies/jewish-studies-certificate/). At the broadest level, Jewish Studies will prompt you to reflect on the meaning of ethnic, racial, and religious identity. By examining one of the world's oldest peoples, you will come to question preconceived notions about Jews and other minorities and to scrutinize popular and political representations of all marginalized groups.

To sample the variety of Jewish Studies offerings, check out our current courses (https://cjs.wisc.edu/courses/).

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are eligible to declare. For information on how to declare, visit Advising & Careers.
Courses required to get in	None
GPA requirements to get in	None
Credits required to get in	None
Other	None

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a Bachelor of Arts degree in the College of Letters & Science must complete all of the requirements below. Some courses satisfy more than one L&S degree requirement (visit College of Letters & Science: Requirements (https://guide.wisc.edu/undergraduate/letters-science/#requirementstext) for details).

This major can be paired with either the Bachelor of Arts or Bachelor of Science degree requirements.

BACHELOR OF ARTS DEGREE REQUIREMENTS

Communication	Complete both: • Part A: one course with the Communication A designation or eligible UW Placement Score; and • Part B: one course with the Communication B designation
Quantitative Reasoning	Complete both: • Part A: one course with the Quantitative Reasoning A designation or eligible UW Placement Score; and • Part B: one course with the Quantitative Reasoning B designation
Ethnic Studies	one 3+ credit course with the Ethnic Studies designation
Language	Complete either: • the fourth unit of one language other than English; or • the third unit of one language other than English and the second unit of an additional language.
L&S Breadth: Humanities	Complete 12 credits with the Humanities or Literature designation, which must include at least 6 credits with the Literature designation.
L&S Breadth: Social Sciences	Complete 12 credits with the Social Science designation.
L&S Breadth: Natural Sciences	Complete 12 credits with the Natural Science, Biological Science, or Physical Science designations, which must include both: • one 3+ credit course with the Biological Science designation, and • one 3+ credit course with the Physical Science designation.
Liberal Arts and Science (LAS) Coursework	at least 108 credits
Depth of Intermediate/ Advanced work	at least 60 credits at the Intermediate or Advanced level
Major	Declare and complete at least one major.
Total Credits	at least 120 credits
UW-Madison Experience	• 30 credits in residence, overall; and • 30 credits in residence after the 86th credit
Quality of Work	• 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their School/College to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

The Jewish Studies major requires 10 courses, totaling at least 30 credits, in 5 areas. Each course may count toward only one required area.

1. One Gateway Course
2. Two courses in Literature, Philosophy, and the Arts
3. Two courses in History and Social Science
4. Four courses in Modern Hebrew at an appropriate level
5. The Core Seminar

GATEWAY COURSE

Complete one Gateway Course.

Code	Title	Credits
JEWISH/ LEGAL ST/ RELIG ST 203	Jewish Law, Business, and Ethics	
JEWISH/ RELIG ST 215	The Sabbath	

LITERATURE, PHILOSOPHY, AND THE ARTS

POLI SCI 529	Arab-Israeli Conflict	
JEWISH 631	Advanced Topics in Jewish History	

LANGUAGE REQUIREMENT

Complete four courses in Modern Hebrew at an appropriate level.

Code	Title	Credits
Modern Hebrew (Complete 4 courses):		
HEBR-MOD 101	First Semester Hebrew	
HEBR-MOD 102	Second Semester Hebrew	
HEBR-MOD 201	Third Semester Hebrew	
HEBR-MOD 202	Fourth Semester Hebrew	
HEBR-MOD/ JEWISH 301	Introduction to Hebrew Literature	
HEBR-MOD/ JEWISH 302	Introduction to Hebrew Literature	
HEBR-MOD/ JEWISH 401	Topics in Modern Hebrew / Israeli Literature and Culture I	
HEBR-MOD/ JEWISH 402	Topics in Modern Hebrew / Israeli Literature and Culture II	

CORE SEMINAR

Complete the Core Seminar.

Code	Title	Credits
JEWISH 350	What Is Jewish Studies?	

NOTE ON DIRECTED STUDY

With prior consent of the undergraduate advisor in Jewish studies and the relevant instructor, students may use one Directed Study course (JEWISH 699) to satisfy a requirement for the major.

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all JEWISH courses and all courses accepted in the major
- 2.000 GPA on 15 upper-level major credits, taken in residence. Upper-level work includes all Intermediate or Advanced level courses in the Jewish Studies major.
- 15 credits in JEWISH, taken on campus

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Jewish Studies undergraduate advisor.

HONORS IN THE JEWISH STUDIES MAJOR: REQUIREMENTS

To earn Honors in the Major students must satisfy both the requirements for the major and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA for all JEWISH courses, and all courses accepted in the major
- Complete at least two courses, taken for Honors, in the major, with grades of B or better in each
- Complete a two-semester Senior Honors Thesis, a piece of original research composition, in JEWISH 681 and JEWISH 682, for a total of 6 credits.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Proficiency in reading, writing, understanding, and conversing in Hebrew or another approved Jewish language, attained through four semesters of study
2. Ability to read Jewish texts closely and to write original, coherent, and compelling arguments that push beyond summary to analysis
3. Knowledge of Jewish civilization, culture, and society in both the past and the present
4. Development, pursuit, and presentation of original research in Jewish studies culminating in a substantive academic paper that utilizes and cites appropriate sources
5. Appreciation for diverse worldviews and value systems, including an understanding of interactions between Jews and non-Jews within the context of minority-majority relationships in Wisconsin, in the United States, and across the globe

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

ADVISING AND CAREERS

ADVISING AND CAREERS

DECLARE OR CANCEL THIS MAJOR

If you are interested in the possibility of declaring a major in Jewish Studies, make an appointment with the undergraduate advisor.

Jewish Studies can prepare one for a variety of career paths. Graduates in Jewish Studies have followed a variety of different career paths, including law, medicine, education, finance, social work, and the nonprofit sector. Jewish Studies students are also well prepared to apply for graduate studies in fields such as law, education, business, and social work, as well as prime candidates for rabbinical or cantorial school, theological studies, and advanced levels of Jewish Studies.

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

JEWISH STUDIES, BS

Jewish Studies is a vibrant academic program that allows you to explore Jewish life and civilization through a variety of disciplinary perspectives, including history, sociology, political science, religious thought, literature, and the arts.

As a student in Jewish Studies, you will study the intellectual and cultural values of Jews, their religious beliefs and practices, languages, literary creativity, and participation in the larger societies in which they live. You will sharpen your ability to think critically, read closely, and write effectively. And while learning how Jews have lived, survived, and sometimes flourished, you will gain a deeper comprehension of their rich, varied culture and the world they inhabit.

Whatever your background or previous study, we encourage you to pursue a Jewish Studies major or certificate (https://guide.wisc.edu/undergraduate/letters-science/center-jewish-studies/jewish-studies-certificate/). At the broadest level, Jewish Studies will prompt you to reflect on the meaning of ethnic, racial, and religious identity. By examining one of the world's oldest peoples, you will come to question preconceived notions about Jews and other minorities and to scrutinize popular and political representations of all marginalized groups.

To sample the variety of Jewish Studies offerings, check out our current courses (https://cjs.wisc.edu/courses/).

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are eligible to declare. For information on how to declare, visit Advising & Careers.
Courses required to get in	None
GPA requirements to get in	None
Credits required to get in	None
Other	None

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose

first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. Some courses satisfy more than one L&S degree requirement (visit College of Letters & Science: Requirements (https://guide.wisc.edu/undergraduate/letters-science/#requirementstext) for details).

This major can be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Communication	Complete both: • Part A: one course with the Communication A designation or eligible UW Placement Score; and • Part B: one course with the Communication B designation
Quantitative Reasoning	Complete both: • Part A: one course with the Quantitative Reasoning A designation or eligible UW Placement Score; and • Part B: one course with the Quantitative Reasoning B designation
Ethnic Studies	one 3+ credit course with the Ethnic Studies designation
Language	the third unit of a language other than English
Mathematics	Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.

L&S Breadth: Humanities	Complete 12 credits with the Humanities or Literature designation, which must include at least 6 credits with the Literature designation.
L&S Breadth: Social Sciences	Complete 12 credits with the Social Science designation.
L&S Breadth: Natural Sciences	Complete 12 credits, which must include both: • 6 credits with the Biological Science designation, and • 6 credits with the Physical Science designation.
Liberal Arts and Science (LAS) Coursework	at least 108 credits
Depth of Intermediate/ Advanced Coursework	at least 60 credits at the Intermediate or Advanced level
Major	Declare and complete at least one major.
Total Credits	at least 120 credits
UW-Madison Experience	• 30 credits in residence, overall, and • 30 credits in residence after the 86th credit
Quality of Work	• 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their School/College to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

The Jewish Studies major requires 10 courses, totaling at least 30 credits, in 5 areas. Each course may count toward only one required area.

1. One Gateway Course
2. Two courses in Literature, Philosophy, and the Arts
3. Two courses in History and Social Science
4. Four courses in Modern Hebrew at an appropriate level
5. The Core Seminar

GATEWAY COURSE

Complete one Gateway Course.

Code	Title	Credits
JEWISH/ LEGAL ST/ RELIG ST 203	Jewish Law, Business, and Ethics	
JEWISH/ RELIG ST 215	The Sabbath	

LITERATURE, PHILOSOPHY, AND THE ARTS

Complete two courses in Literature, Philosophy, and the Arts, at least one of which must fulfill the Jewish Diaspora requirement,

Code	Title	Credits
Jewish Diaspora (complete at least one course):		
JEWISH/ RELIG ST 214	Religion and the First Amendment	
JEWISH 225	Jews and Race	
JEWISH/ GERMAN/ GNS 240	Health and Hotels in Central Europe	
JEWISH/ GERMAN/ LITTRANS 269	Yiddish Literature and Culture in Europe	
JEWISH/ GERMAN/ LITTRANS 279	Yiddish Literature and Culture in America	
JEWISH/ LITTRANS 318	Modern Jewish Literature	
JEWISH/ RELIG ST 340	The American Jewish Life of DNA	
JEWISH/ ENGL 370	Jewish Humor	
JEWISH/ AFRICAN/ MEDIEVAL/ RELIG ST 462	Muslims and Jews	
JEWISH/ GERMAN 510	German-Jewish Culture Since the 18th Century	
JEWISH/ ENGL 539	Jewish Literatures in Diaspora	
Complete any additional Diaspora course from the list above, or any of the following:		
JEWISH/ RELIG ST 215	The Sabbath	
JEWISH/ CLASSICS/ LITTRANS/ RELIG ST 227	Introduction to Biblical Literature (in English)	
JEWISH 230	Elementary Topics in Jewish Literature	
JEWISH 232	Elementary Topics in Jewish Philosophy and the Arts	
JEWISH 236	Bascom Course	
JEWISH/HEBR-MOD 301	Introduction to Hebrew Literature	
JEWISH/HEBR-MOD 302	Introduction to Hebrew Literature

POLI SCI 529	Arab-Israeli Conflict	
JEWISH 631	Advanced Topics in Jewish History	

LANGUAGE REQUIREMENT

Complete four courses in Modern Hebrew at an appropriate level.

Code	Title	Credits
Modern Hebrew (Complete 4 courses):		
HEBR-MOD 101	First Semester Hebrew	
HEBR-MOD 102	Second Semester Hebrew	
HEBR-MOD 201	Third Semester Hebrew	
HEBR-MOD 202	Fourth Semester Hebrew	
HEBR-MOD/JEWISH 301	Introduction to Hebrew Literature	
HEBR-MOD/JEWISH 302	Introduction to Hebrew Literature	
HEBR-MOD/JEWISH 401	Topics in Modern Hebrew / Israeli Literature and Culture I	
HEBR-MOD/JEWISH 402	Topics in Modern Hebrew / Israeli Literature and Culture II	

CORE SEMINAR

Complete the Core Seminar.

Code	Title	Credits
JEWISH 350	What Is Jewish Studies?	

NOTE ON DIRECTED STUDY

With prior consent of the undergraduate advisor in Jewish studies and the relevant instructor, students may use one Directed Study course (JEWISH 699) to satisfy a requirement for the major.

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all JEWISH courses and all courses accepted in the major
- 2.000 GPA on 15 upper-level major credits, taken in residence. Upper-level work includes all Intermediate or Advanced level courses in the Jewish Studies major.
- 15 credits in JEWISH, taken on campus

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Jewish Studies undergraduate advisor.

HONORS IN THE JEWISH STUDIES MAJOR: REQUIREMENTS

To earn Honors in the Major students must satisfy both the requirements for the major and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA for all JEWISH courses, and all courses accepted in the major
- Complete at least two courses, taken for Honors, in the major, with grades of B or better in each
- Complete a two-semester Senior Honors Thesis, a piece of original research composition, in JEWISH 681 and JEWISH 682, for a total of 6 credits.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Proficiency in reading, writing, understanding, and conversing in Hebrew or another approved Jewish language, attained through four semesters of study

2. Ability to read Jewish texts closely and to write original, coherent, and compelling arguments that push beyond summary to analysis
3. Knowledge of Jewish civilization, culture, and society in both the past and the present
4. Development, pursuit, and presentation of original research in Jewish studies culminating in a substantive academic paper that utilizes and cites appropriate sources
5. Appreciation for diverse worldviews and value systems, including an understanding of interactions between Jews and non-Jews within the context of minority-majority relationships in Wisconsin, in the United States, and across the globe

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

First Year

Fall	Credits	Spring	Credits
HEBR-MOD 101	4	HEBR-MOD 102	4

ADVISING AND CAREERS

ADVISING AND CAREERS

DECLARE OR CANCEL THIS MAJOR

If you are interested in the possibility of declaring a major in Jewish Studies, make an appointment with the undergraduate advisor.

Jewish Studies can prepare one for a variety of career paths. Graduates in Jewish Studies have followed a variety of different career paths, including law, medicine, education, finance, social work, and the nonprofit sector. Jewish Studies students are also well prepared to apply for graduate studies in fields such as law, education, business, and social work, as well as prime candidates for rabbinical or cantorial school, theological studies, and advanced levels of Jewish Studies.

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

JEWISH STUDIES, CERTIFICATE

Jewish Studies is a vibrant academic program that allows you to explore Jewish life and civilization through a variety of disciplinary perspectives, including history, sociology, political science, religious thought, literature, and the arts.

As a student in Jewish Studies, you will study the intellectual and cultural values of Jews, their religious beliefs and practices, languages, literary creativity, and participation in the larger societies in which they live. You will sharpen your ability to think critically, read closely, and write effectively. And while learning how Jews have lived, survived, and sometimes flourished, you will gain a deeper comprehension of their rich, varied culture and the world they inhabit.

Whatever your background or previous study, we encourage you to pursue a Jewish Studies major (https://guide.wisc.edu/undergraduate/letters-science/center-jewish-studies/jewish-studies-ba/) or certificate. At the broadest level, Jewish Studies will prompt you to reflect on the meaning of ethnic, racial, and religious identity. By examining one of the world's oldest peoples, you will come to question preconceived notions about Jews and other minorities and to scrutinize popular and political representations of all marginalized groups.

To sample the variety of Jewish Studies offerings, check out our current courses (https://cjs.wisc.edu/courses/).

HOW TO GET IN

HOW TO GET IN

Students interested in a certificate in Jewish Studies should make an appointment with the undergraduate advisor (undergrad-adviser@cjs.wisc.edu) to discuss requirements and courses.

REQUIREMENTS

REQUIREMENTS

The Jewish Studies certificate requires 5 courses, totaling at least 15 credits, in 4 areas (each course may count toward only one required area):

1. two courses in an approved Jewish language;
2. one course in Literature, Philosophy, or the Arts;
3. one course in History or Social Science; and
4. one course in Pre-Modern Jewish History, Culture, or Literature.

LANGUAGE REQUIREMENT

Complete two courses in one of the following approved Jewish languages at the appropriate level.

Code	Title	Credits
Biblical Hebrew (Select 2 courses):		
HEBR-BIB 103	Elementary Biblical Hebrew, I	
HEBR-BIB 104	Elementary Biblical Hebrew, II	
HEBR-BIB 323	Intermediate Biblical Hebrew, I	
HEBR-BIB 324	Intermediate Biblical Hebrew, II	
HEBR-BIB/ JEWISH 513	Biblical Texts, Poetry	
HEBR-BIB/ JEWISH 514	Biblical Texts, Poetry	
Modern Hebrew (Select 2 courses):		
HEBR-MOD 101	First Semester Hebrew	
HEBR-MOD 102	Second Semester Hebrew	
HEBR-MOD 201	Third Semester Hebrew	
HEBR-MOD 202	Fourth Semester Hebrew	
HEBR-MOD/ JEWISH 301	Introduction to Hebrew Literature	
HEBR-MOD/ JEWISH 302	Introduction to Hebrew Literature	
HEBR-MOD/ JEWISH 401	Topics in Modern Hebrew / Israeli Literature and Culture I	
HEBR-MOD/ JEWISH 402	Topics in Modern Hebrew / Israeli Literature and Culture II	
Yiddish (Select 2 courses)		
JEWISH/GNS 105	First Semester Yiddish	
JEWISH/GNS 106	Second Semester Yiddish	

LITERATURE, PHILOSOPHY, OR THE ARTS

Complete one course in Literature, Philosophy, or the Arts.

Code	Title	Credits
JEWISH/ LEGAL ST/ RELIG ST 203	Jewish Law, Business, and Ethics	
JEWISH/ RELIG ST 214	Religion and the First Amendment	
JEWISH/ RELIG ST 215	The Sabbath

NOTE ON DIRECTED STUDY

With prior consent of the undergraduate advisor in Jewish Studies and the relevant instructor, students may use one Directed Study course (JEWISH 699 (https://guide.wisc.edu/search/?P=JEWISH%20699)) to satisfy a requirement for the certificate.

RESIDENCE AND QUALITY OF WORK

- Minimum 2.000 GPA in all JEWISH courses and courses approved for the certificate
- 11 credits, counting toward the certificate, taken in residence

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. At least two semesters of reading, understanding and conversing in Hebrew or another approved Jewish language.
2. Honed critical abilities in close reading, interpretation, and written analysis of ancient and modern Jewish texts.
3. Expanded knowledge of Jewish history, culture, philosophy, arts, religious practice, and politics in both the past and present.
4. Disposition of increased appreciation for diverse world views, value systems and interactions between Jews and non-Jews, minorities and majorities, in Wisconsin, the US, and across the globe.

PHILOSOPHY

DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/CERTIFICATES

- Ethics of Data and Artificial Intelligence, Certificate (p. 1355)
- Philosophy, BA (p. 1357)
- Philosophy, BS (p. 1361)

ETHICS OF DATA AND ARTIFICIAL INTELLIGENCE, CERTIFICATE

The issues that most concern society in regards to data, machine learning, and AI are not exclusively computational; instead, they are ethical, social, and political in nature, and they demand understanding from across disciplines, especially humanistic ones.

Experts from all kinds of disciplinary backgrounds—in academia as well as business, policy, and government—are increasingly collaborating on joint projects and beginning to "speak the same language." For students to join such teams tackling ethical issues of data and AI of any kind, they must learn to speak that same language and be equipped with the conceptual resources and interdisciplinary skills necessary for addressing the ethical, legal, and societal implications of AI.

This certificate integrates multiple humanities and social science perspectives, including from philosophy, history, data policy, science and technology studies, and media studies. Students will explore ethically and socially urgent questions like:

- How can we ensure that AI systems assess everyone in a just and unbiased way?
- Is it justifiable to base decisions about individuals on statistical generalizations?
- If AI outputs are not fully explainable, should they still be deployed?
- How important are long-term risks related to the safety of highly sophisticated future AI tools in comparison to other kinds of risks here and now?

HOW TO GET IN

HOW TO GET IN

- Complete one course from Foundation A: Philosophical Reasoning and Writing and one course from Foundation B: Technical Basis with a grade of B or higher in each course. Students having difficulties meeting these requirements should schedule a meeting with a certificate advisor to discuss alternatives.
- To declare, fill out the declaration form on the program website.

REQUIREMENTS

REQUIREMENTS

Students must complete five courses of a minimum of 3 credits each for a minimum of 15 total credits. Students must complete distinct courses in each requirement; they may not reuse courses to meet multiple requirements.

Code	Title	Credits
Foundation A: Philosophical Reasoning and Writing		
Complete one course of at least 3 credits from:		3-4
PHILOS 101	Introduction to Philosophy	
PHILOS 104	Special Topics in Philosophy for Freshmen	
PHILOS 141	The Meaning of Life	
PHILOS 241	Introductory Ethics	
PHILOS 243	Ethics in Business	
PHILOS 244	Introductory Artificial Intelligence (AI) and Data Ethics	
PHILOS 304	Topics in Philosophy: Humanities	
PHILOS 320	Philosophy of Science	
PHILOS 340	19th Century Philosophy: Idealism and Its Critics	
PHILOS 341	Contemporary Moral Issues	
PHILOS/ MED HIST 344	Food Ethics	
Foundation B: Technical Basis		
Complete one course of at least 3 credits from:		3-4
COMP SCI 220	Data Science Programming I	
COMP SCI 540	Introduction to Artificial Intelligence

RESIDENCE AND QUALITY OF WORK

- At least 8 certificate credits must be completed in residence.
- Minimum 2.000 GPA on all certificate courses.

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Interpret complex texts accurately and analyze them logically by identifying explicit and implicit background assumptions, and by understanding which conclusions necessarily follow from them.
2. Communicate precisely and concisely in both writing and speech, in a way that adequately captures ethical nuances and ambiguities arising in AI design and deployment.
3. Gain the basic statistical and/or conceptual tools necessary to grasp the moral, legal, political, or societal issues raised by data science and AI.
4. Identify and evaluate the ethical, legal, and political implications of AI, as well as their historical and societal context.
5. Demonstrate understanding of the distinctive value of humanistic inquiry into AI and data ethics as compared to, and in addition to, technical efforts to better understand and improve AI and other emerging technologies.

ADVISING AND CAREERS

ADVISING AND CAREERS

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)

- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

PHILOSOPHY, BA

Philosophy involves reflection upon and understanding of all phases of human activity. Philosophy especially directs itself to the nature of knowledge and the most basic concepts of human understanding and value: morality, society, art and aesthetic experience, as well as science, politics, and religion.

Philosophy is thus closely involved with other disciplines because, as human activities and quests for knowledge, they and their findings provide the material for philosophical inquiry. The courses (https://guide.wisc.edu/courses/philos/) offered by the department are designed to help students develop their own capacities to reflect intelligently on questions of fundamental and lasting significance.

The Philosophy major is intended to meet the needs of students who:

- wish to use philosophy as the organizing core of a liberal education;
- desire to study philosophy in preparation for graduate work in some other field, such as law, government, or theology;
- plan to major jointly in philosophy and one of the social sciences, natural sciences, or humanities; and
- have a professional interest in philosophy and intend to do graduate work in the subject.

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are eligible to declare. For information on how to declare, visit Advising & Careers.
Courses required to get in	None
GPA requirements to get in	None
Credits required to get in	None
Other	None

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communication & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.

English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a Bachelor of Arts degree in the College of Letters & Science must complete all of the requirements below. Some courses satisfy more than one L&S degree requirement (visit College of Letters & Science: Requirements (https://guide.wisc.edu/undergraduate/letters-science/#requirementstext) for details).

This major can be paired with either the Bachelor of Arts or Bachelor of Science degree requirements.

BACHELOR OF ARTS DEGREE REQUIREMENTS

Communication	Complete both: • Part A: one course with the Communication A designation or eligible UW Placement Score; and • Part B: one course with the Communication B designation
Quantitative Reasoning	Complete both: • Part A: one course with the Quantitative Reasoning A designation or eligible UW Placement Score; and • Part B: one course with the Quantitative Reasoning B designation
Ethnic Studies	one 3+ credit course with the Ethnic Studies designation
Language	Complete either: • the fourth unit of one language other than English; or • the third unit of one language other than English and the second unit of an additional language.
L&S Breadth: Humanities	Complete 12 credits with the Humanities or Literature designation, which must include at least 6 credits with the Literature designation.
L&S Breadth: Social Sciences	Complete 12 credits with the Social Science designation.
L&S Breadth: Natural Sciences	Complete 12 credits with the Natural Science, Biological Science, or Physical Science designations, which must include both: • one 3+ credit course with the Biological Science designation, and • one 3+ credit course with the Physical Science designation.
Liberal Arts and Science (LAS) Coursework	at least 108 credits
Depth of Intermediate/ Advanced work	at least 60 credits at the Intermediate or Advanced level
Major	Declare and complete at least one major.
Total Credits	at least 120 credits
UW-Madison Experience	• 30 credits in residence, overall; and • 30 credits in residence after the 86th credit
Quality of Work	• 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their School/College to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

27 CREDITS AND 8 COURSES IN PHILOS (HTTPS://GUIDE.WISC.EDU/COURSES/PHILOS/)

Code	Title	Credits
Required Courses		
PHILOS 211 or PHILOS 511	Elementary Logic Symbolic Logic	3-4
PHILOS 430	History of Ancient Philosophy	3-4
PHILOS 432	History of Modern Philosophy	3-4
5 advanced PHILOS courses of at least 3 credits from below:		**15**
PHILOS 430	History of Ancient Philosophy	
PHILOS 432	History of Modern Philosophy	
PHILOS 440	Existentialism

PHILOS/ MATH 571	Mathematical Logic
Additional credits—if necessary—to achieve 27 for the major	**3**
Total Credits	**27**

DISTRIBUTION

Of the 27 credits, at least 1 course is required from each category ('Metaphysics and Epistemology' and 'Value Theory'):

Category 'Metaphysics and Epistemology'

Complete one course:

Code	Title	Credits
PHILOS/ RELIG ST 501	Philosophy of Religion	3-4
PHILOS 503	Theory of Knowledge	3
PHILOS 504	Special Topics in the Theory of Knowledge (Bayesian Epistemology)	3
PHILOS 504	Special Topics in the Theory of Knowledge (Epistemic Ideals)	3
PHILOS 516	Language and Meaning	3
PHILOS 520	Philosophy of the Natural Sciences	3
PHILOS 530	Freedom Fate and Choice	3
PHILOS 551	Philosophy of Mind	3
PHILOS 560	Metaphysics	3
PHILOS 562	Special Topics in Metaphysics (Consciousness)	3
PHILOS 567	Topics in Contemporary Philosophy	3

Category 'Value Theory'

Complete one course:

Code	Title	Credits
PHILOS 241	Introductory Ethics	3-4
PHILOS 454	Classical Philosophers (Aristotle's Ethics)	3
PHILOS 541	Modern Ethical Theories	3
PHILOS 549	Great Moral Philosophers	3
PHILOS 555	Political Philosophy	3

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all PHILOS courses and courses that count for the major
- 2.000 GPA on 15 upper-level credits in the major, taken in residence[1]
- 15 credits in PHILOS, taken on campus

HONORS IN THE MAJOR

Students may declare Honors in the Philosophy Major in consultation with the Philosophy undergraduate advisor.

HONORS IN THE PHILOSOPHY MAJOR: REQUIREMENTS

To earn Honors in the Major in Philosophy, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Minimum 3.300 University GPA
- Minimum a 3.500 GPA for all PHILOS and major courses
- One *additional* course from either the Metaphysics and Epistemology or Value Theory categories with a grade of B or better
- PHILOS 681 (for 1-3 credits) and PHILOS 682 (for 3 credits) with a grade of AB or better.[2]

FOOTNOTES

1. Courses between PHILOS 400–699 are considered upper-level in the major.
2. Students will not be permitted to write a Senior Honors Thesis unless they have taken at least one advanced course on the topic on which they will be writing. Credits earned by writing a Senior Honors Thesis will not count toward the 27 minimum credits required for the major.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Ability to think critically about arguments.
2. Ability to interpret complex texts accurately and analyze them logically.
3. Ability to communicate precisely and concisely in both writing and speech.
4. Familiarity with the history of Western philosophy and the major debates withing that tradition.

5. Ability to be engaged citizens who think carefully and well about their responsibilities to others.
6. Ability to exchange reasons about controversial matters respectfully and with the aim of uncovering the truth.
7. Interpretative charity and intellectual honesty, which includes appropriate attribution to others of their ideas, and recognition and frankness about the limitations of one's own ideas.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

First Year

Fall	Credits	Spring	Credits
Communications A	3	Ethnic Sudies	3
PHILOS 101	3-4	Foreign Language (if needed)	4
PHILOS 210	3-4	I/A MATH, STAT or COMP SCI (for BS degree)	3
Physical Science Breadth	3	PHILOS 241	3-4
Foreign Language (if needed)	4	PHILOS 211 (Quantitative Reasoning B)	3-4
	14		**16**

Second Year

Fall	Credits	Spring	Credits
PHILOS 430	3-4	Communication B	4
Literature Breadth	3	PHILOS 432	3-4
Social Science Breadth	4	I/A MATH, STAT, or COMP SCI (for BS degree)	3
INTER-LS 210	1	Social Science Breadth	4
Biological Science Breadth	3		
	15		**15**

Third Year

Fall	Credits	Spring	Credits

PHILOS Electives	3	PHILOS 500+ Electives	3
Electives	12	Electives	12
	15		**15**

Total Credits 120

ADVISING AND CAREERS

ADVISING AND CAREERS

DECLARE OR CANCEL THIS MAJOR

Please follow the process described on the Philosophy website (https://philosophy.wisc.edu/undergraduate-program-2/major-declaration/).

The Department of Philosophy encourages our students to begin working on their career exploration and preparation soon after arriving on campus. Philosophy students develop important and widely marketable skills, like the ability to think critically, communicate clearly, and solve complex problems. This means that having a major in Philosophy provides excellent preparation for a variety of careers.

Studying philosophy can also help you get into graduate school. Philosophy students excel on standardized tests like the GRE, GMAT, and LSAT. They rank first among all majors on the verbal and the analytical sections of the GRE. Philosophy students also tend to do better than just about any other major on the LSAT. With a mean score of just over 157, they are second only to Physics students. When it comes to the GMAT, Philosophy students rank in the top five of all majors, and they consistently have higher scores than Business students (including Management, Finance, Accounting, and Marketing).

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience,

and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

UNDERGRADUATE SCHOLARSHIPS

The Department of Philosophy has received generous support in order to fund two scholarships each academic year (https://philosophy.wisc.edu/undergraduate-program-2/scholarships/).

The **Charles Manthey Winter Philosophy Scholarship** is given to a student majoring in Philosophy who will graduate within the next four terms of the award and who has at least a 3.500 grade point average over the past two terms, and who can demonstrate financial need.

The **Colonel Jerome Ellis Goodrich, USMC (retired), Scholarship** is awarded to an undergraduate student majoring in Philosophy with academic merit and financial need, and who is a U.S. citizen.

Applications for these scholarships are typically due in early April and winners are honored at our annual Awards Banquet in May.

We also have an annual paper prize called the **Temkin Undergraduate Essay Prize in Value Theory**. This prize recognizes an outstanding essay in value theory, where this is construed quite broadly to include topics in political philosophy, philosophy of law, metaethics, applied ethics, etc. Essays are typically submitted in early April and the winner is also honored at our Awards Banquet.

If you have any questions about these scholarships or essay prizes, you may send an email to frontoffice@philosophy.wisc.edu.

PHILOSOPHY, BS

Philosophy involves reflection upon and understanding of all phases of human activity. Philosophy especially directs itself to the nature of knowledge and the most basic concepts of human understanding and value: morality, society, art and aesthetic experience, as well as science, politics, and religion.

Philosophy is thus closely involved with other disciplines because, as human activities and quests for knowledge, they and their findings provide the material for philosophical inquiry. The courses (https://guide.wisc.edu/courses/philos/) offered by the department are designed to help students develop their own capacities to reflect intelligently on questions of fundamental and lasting significance.

The Philosophy major is intended to meet the needs of students who:

- wish to use philosophy as the organizing core of a liberal education;
- desire to study philosophy in preparation for graduate work in some other field, such as law, government, or theology;
- plan to major jointly in philosophy and one of the social sciences, natural sciences, or humanities; and
- have a professional interest in philosophy and intend to do graduate work in the subject.

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)

Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. Some courses satisfy more than one L&S degree requirement (visit College of Letters & Science: Requirements (https://guide.wisc.edu/undergraduate/letters-science/#requirementstext) for details).

This major can be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Communication	Complete both: • Part A: one course with the Communication A designation or eligible UW Placement Score; and • Part B: one course with the Communication B designation
Quantitative Reasoning	Complete both: • Part A: one course with the Quantitative Reasoning A designation or eligible UW Placement Score; and • Part B: one course with the Quantitative Reasoning B designation
Ethnic Studies	one 3+ credit course with the Ethnic Studies designation
Language	the third unit of a language other than English
Mathematics	Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.
L&S Breadth: Humanities	Complete 12 credits with the Humanities or Literature designation, which must include at least 6 credits with the Literature designation.
L&S Breadth: Social Sciences	Complete 12 credits with the Social Science designation.
L&S Breadth: Natural Sciences	Complete 12 credits, which must include both: • 6 credits with the Biological Science designation, and • 6 credits with the Physical Science designation.
Liberal Arts and Science (LAS) Coursework	at least 108 credits
Depth of Intermediate/Advanced Coursework	at least 60 credits at the Intermediate or Advanced level
Major	Declare and complete at least one major.
Total Credits	at least 120 credits
UW-Madison Experience	• 30 credits in residence, overall, and • 30 credits in residence after the 86th credit

Quality of Work	• 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their School/College to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

PHILOS/ RELIG ST 501	Philosophy of Religion	3-4
PHILOS 503	Theory of Knowledge	3
PHILOS 504	Special Topics in the Theory of Knowledge (Bayesian Epistemology)	3
PHILOS 504	Special Topics in the Theory of Knowledge (Epistemic Ideals)	3
PHILOS 516	Language and Meaning	3
PHILOS 520	Philosophy of the Natural Sciences	3
PHILOS 530	Freedom Fate and Choice	3
PHILOS 551	Philosophy of Mind	3
PHILOS 560	Metaphysics	3
PHILOS 562	Special Topics in Metaphysics (Consciousness)	3
PHILOS 567	Topics in Contemporary Philosophy	3

Category 'Value Theory'

Complete one course:

Code	Title	Credits
PHILOS 241	Introductory Ethics	3-4
PHILOS 454	Classical Philosophers (Aristotle's Ethics)	3
PHILOS 541	Modern Ethical Theories	3
PHILOS 549	Great Moral Philosophers	3
PHILOS 555	Political Philosophy	3

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all PHILOS courses and courses that count for the major
- 2.000 GPA on 15 upper-level credits in the major, taken in residence[1]
- 15 credits in PHILOS, taken on campus

HONORS IN THE MAJOR

Students may declare Honors in the Philosophy Major in consultation with the Philosophy undergraduate advisor.

HONORS IN THE PHILOSOPHY MAJOR: REQUIREMENTS

To earn Honors in the Major in Philosophy, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Minimum 3.300 University GPA
- Minimum a 3.500 GPA for all PHILOS and major courses
- One *additional* course from either the Metaphysics and Epistemology or Value Theory categories with a grade of B or better
- PHILOS 681 (for 1-3 credits) and PHILOS 682 (for 3 credits) with a grade of AB or better.[2]

FOOTNOTES

[1] Courses between PHILOS 400–699 are considered upper-level in the major.

[2] Students will not be permitted to write a Senior Honors Thesis unless they have taken at least one advanced course on the topic on which they will be writing. Credits earned by writing a Senior Honors Thesis will not count toward the 27 minimum credits required for the major.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Ability to think critically about arguments.
2. Ability to interpret complex texts accurately and analyze them logically.
3. Ability to communicate precisely and concisely in both writing and speech.
4. Familiarity with the history of Western philosophy and the major debates withing that tradition.
5. Ability to be engaged citizens who think carefully and well about their responsibilities to others.
6. Ability to exchange reasons about controversial matters respectfully and with the aim of uncovering the truth.
7. Interpretative charity and intellectual honesty, which includes appropriate attribution to others of their ideas, and recognition and frankness about the limitations of one's own ideas.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

First Year

Fall	Credits	Spring	Credits
Communications A	3	Ethnic Sudies	3
PHILOS 101	3-4	Foreign Language (if needed)	4
PHILOS 210	3-4	I/A MATH, STAT or COMP SCI (for BS degree)	3
Physical Science Breadth	3	PHILOS 241	3-4
Foreign Language (if needed)	4	PHILOS 211 (Quantitative Reasoning B)	3-4
	14		**16**

Second Year

Fall	Credits	Spring	Credits
PHILOS 430	3-4	Communication B	4
Literature Breadth	3	PHILOS 432	3-4
Social Science Breadth	4	I/A MATH, STAT, or COMP SCI (for BS degree)	3
INTER-LS 210	1	Social Science Breadth	4
Biological Science Breadth	3		
	15		**15**

Third Year

Fall	Credits	Spring	Credits
Metaphysics and Epistemology category course	3-4	Value Theory category course	3-4
Natural Science Breadth	3	PHILOS 400+ Electives	3-4
Literature Breadth	3	Electives	7
Electives	5		
	15		**15**

Fourth Year

Fall	Credits	Spring	Credits
PHILOS Electives	3	PHILOS 500+ Electives	3
Electives	12	Electives	12

Total Credits 120

ADVISING AND CAREERS

ADVISING AND CAREERS

DECLARE OR CANCEL THIS MAJOR

Please follow the process described on the Philosophy website (https://philosophy.wisc.edu/undergraduate-program-2/major-declaration/).

The Department of Philosophy encourages our students to begin working on their career exploration and preparation soon after arriving on campus. Philosophy students develop important and widely marketable skills, like the ability to think critically, communicate clearly, and solve complex

problems. This means that having a major in Philosophy provides excellent preparation for a variety of careers.

Studying philosophy can also help you get into graduate school. Philosophy students excel on standardized tests like the GRE, GMAT, and LSAT. They rank first among all majors on the verbal and the analytical sections of the GRE. Philosophy students also tend to do better than just about any other major on the LSAT. With a mean score of just over 157, they are second only to Physics students. When it comes to the GMAT, Philosophy students rank in the top five of all majors, and they consistently have higher scores than Business students (including Management, Finance, Accounting, and Marketing).

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

UNDERGRADUATE SCHOLARSHIPS

The Department of Philosophy has received generous support in order to fund two scholarships each academic year (https://philosophy.wisc.edu/undergraduate-program-2/scholarships/).

The **Charles Manthey Winter Philosophy Scholarship** is given to a student majoring in Philosophy who will graduate within the next four terms of the award and who has at least a 3.500 grade point average over the past two terms, and who can demonstrate financial need.

The **Colonel Jerome Ellis Goodrich, USMC (retired), Scholarship** is awarded to an undergraduate student majoring in Philosophy with academic merit and financial need, and who is a U.S. citizen.

Applications for these scholarships are typically due in early April and winners are honored at our annual Awards Banquet in May.

We also have an annual paper prize called the **Temkin Undergraduate Essay Prize in Value Theory**. This prize recognizes an outstanding essay in value theory, where this is construed quite broadly to include topics in political philosophy, philosophy of law, metaethics, applied ethics, etc. Essays are typically submitted in early April and the winner is also honored at our Awards Banquet.

If you have any questions about these scholarships or essay prizes, you may send an email to frontoffice@philosophy.wisc.edu.

PHYSICS

DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/CERTIFICATES

- Physics, BA (p. 1365)
- Physics, BS (p. 1372)
- Physics, Certificate (p. 1378)

PHYSICS, BA

Physics is the most fundamental of the sciences, interested in the properties of matter, radiation, and energy in all forms. It provides the underlying framework for other physical sciences and engineering and for understanding physical processes in biological and environmental sciences. The major gives you:

- Intellectual satisfaction: physics satisfies our deep desire to understand how the universe works. Physics is interesting.
- Intellectual challenge: by striving for fundamental understanding, the physicist accepts the challenge to move past a merely descriptive approach of our world and probes deeply into how and why it works.

- Physics produces new technology: today's physics research will become tomorrow's technological advances.
- Technical expertise: physicists exploit forefront technologies in their pursuits.
- Flexibility: in a fast-paced and changing world, it is much more important to have a broad substantive education than to be trained in a specific skill. We teach people how to think, and how to apply and extend what they know to new types of problems.
- Physics is analytical and quantitative: people who can reason analytically and quantitatively are essential for the success of almost any pursuit.

The Physics major provides an overall view of both classical and modern physics with the flexibility to continue learning in fields that interest you. It helps you develop skills in analysis, problem-solving, and quantitative reasoning that will aid you in whatever careers you choose.

What you learn in this major will:

- prepare you for graduate studies for master's or doctoral degrees in experimental or theoretical physics;.
- prepare you for employment in industrial or governmental laboratories;
- provide a broad background for further work in other sciences, such as materials sciences, aerospace, astronomy, computer science, geophysics, meteorology, radiology, medicine, biophysics, engineering, and environmental studies;
- provide a science-oriented education—useful training for some areas of business administration, law, and other fields; and
- provide part of the preparation you need to teach physics. To teach physics in high school, you will also take education courses to become certified. You will need a doctoral degree to become a college or university professor.

Interested in the undergraduate physics program? Check out the Physics undergraduate page (https://www.physics.wisc.edu/academics/undergrads/).

RELATED PROGRAMS

L&S Bachelor of Science in Applied Mathematics, Engineering, and Physics (https://guide.wisc.edu/undergraduate/letters-science/mathematics/applied-mathematics-engineering-physics-bs-amep/) (BS AMEP) in the Guide

L&S Astronomy–Physics major (https://guide.wisc.edu/undergraduate/letters-science/astronomy/astronomy-physics-ba/) in the Guide

EDUCATION–PHYSICS

A student working toward the Bachelor of Science–Education degree may major or minor in physics. Interested students should contact the School of Education (p. 1658).

MEDICAL PHYSICS

A suggested curriculum for students interested in graduate study in Medical Physics is available on the Department of Medical physics webpage (https://www.medphysics.wisc.edu/graduate-program/admissions/#requirements).

HOW TO GET IN

HOW TO GET IN

DECLARING A PHYSICS MAJOR

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are eligible to declare. For information on how to declare, visit the Advising and Careers tab.
Courses required to get in	None
GPA requirements to get in	At least a 2.500 GPA on all MATH and PHYSICS courses, computed on all attempts prior to and including the first passed attempt of any course.
Credits required to get in	None
Other	None

Students pursuing the Physics major are not eligible to declare the Physics certificate.

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)

Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a Bachelor of Arts degree in the College of Letters & Science must complete all of the requirements below. Some courses satisfy more than one L&S degree requirement (visit College of Letters & Science: Requirements (https://guide.wisc.edu/undergraduate/letters-science/#requirementstext) for details).

This major can be paired with either the Bachelor of Arts or Bachelor of Science degree requirements.

BACHELOR OF ARTS DEGREE REQUIREMENTS

Communication	Complete both: • Part A: one course with the Communication A designation or eligible UW Placement Score; and • Part B: one course with the Communication B designation
Quantitative Reasoning	Complete both: • Part A: one course with the Quantitative Reasoning A designation or eligible UW Placement Score; and • Part B: one course with the Quantitative Reasoning B designation
Ethnic Studies	one 3+ credit course with the Ethnic Studies designation
Language	Complete either: • the fourth unit of one language other than English; or • the third unit of one language other than English and the second unit of an additional language.
L&S Breadth: Humanities	Complete 12 credits with the Humanities or Literature designation, which must include at least 6 credits with the Literature designation.
L&S Breadth: Social Sciences	Complete 12 credits with the Social Science designation.
L&S Breadth: Natural Sciences	Complete 12 credits with the Natural Science, Biological Science, or Physical Science designations, which must include both: • one 3+ credit course with the Biological Science designation, and • one 3+ credit course with the Physical Science designation.
Liberal Arts and Science (LAS) Coursework	at least 108 credits
Depth of Intermediate/Advanced work	at least 60 credits at the Intermediate or Advanced level
Major	Declare and complete at least one major.

Total Credits	at least 120 credits
UW-Madison Experience	• 30 credits in residence, overall; and • 30 credits in residence after the 86th credit
Quality of Work	• 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their School/College to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

The physics major requires 35 credits from the following:

Code	Title	Credits
Introductory Physics [1]		
First Introductory Course (complete one): [1]		*5*
PHYSICS 247	A Modern Introduction to Physics (recommended)	
PHYSICS 207	General Physics	
PHYSICS 201	General Physics	
E M A 201 & E M A 202	Statics and Dynamics [2]	
Second Introductory Course (complete one):		*5*
PHYSICS 248	A Modern Introduction to Physics (recommended)	
PHYSICS 208	General Physics	
PHYSICS 202	General Physics	
Third Introductory Course (complete one):		*3-4*
PHYSICS 249	A Modern Introduction to Physics (recommended)	
PHYSICS 205	Modern Physics for Engineers (See advising and careers for more information.)	
PHYSICS/ E C E 235	Introduction to Solid State Electronics (See advising and careers for more information.)	
PHYSICS 241	Introduction to Modern Physics	
Intermediate Mechanics		
PHYSICS 311	Mechanics	3
Electromagnetism (complete one):		**3**
PHYSICS 322	Electromagnetic Fields	
E C E 220 & E C E 320 & E C E 420	Electrodynamics I and Electrodynamics II and Electromagnetic Wave Transmission [3]	
Quantum Mechanics (complete one):		**3**
PHYSICS 448	Atomic and Quantum Physics	
PHYSICS 531	Introduction to Quantum Mechanics	
Laboratory		**4**
Full registered credit per course:		
PHYSICS 307	Intermediate Laboratory-Mechanics and Modern Physics	
PHYSICS 407	Advanced Laboratory	
Two credits apply from each of the following:		
PHYSICS 321	Electric Circuits and Electronics [4]	
PHYSICS 325	Optics [4]	
PHYSICS 623	Electronic Aids to Measurement [4]	
PHYSICS 625	Applied Optics [4]	
ASTRON 465	Observational Astronomy and Data Analysis [5]	
N E 427	Nuclear Instrumentation Laboratory [5]	
N E 428	Nuclear Reactor Laboratory [5]	
One credit applies from each of the following:		
E C E 305	Semiconductor Properties Laboratory [5]	
E C E 313	Optoelectronics Lab [5]	
Advanced Physics Electives		**4-9**
Total Credits		**35**

1 PHYSICS 247/PHYSICS 248/PHYSICS 249 is the introductory course sequence recommended for prospective physics majors, PHYSICS 201/PHYSICS 202/PHYSICS 241 is recommended for engineers, and PHYSICS 207/PHYSICS 208/PHYSICS 241 is intended for life sciences and chemistry majors. Both PHYSICS 201 General Physics/PHYSICS 202 General Physics/PHYSICS 241 Introduction to Modern Physics and PHYSICS 207 General Physics/PHYSICS 208 General Physics/PHYSICS 241 Introduction to Modern Physics are suitable alternatives for physics majors. Although the department recommends following one of these sequences, students are allowed to mix them, with the exception that transfers into the PHYSICS 247/PHYSICS 248/PHYSICS 249 sequence are not permitted.

2 Both courses must be taken and together count 5 credits toward the 35 required for the major. These credits can be counted toward the 35 required for the major only if these courses are used to satisfy this requirement.

3 All three of E C E 220 and E C E 320 and E C E 420 must be taken, and together count 3 credits toward the 35 required for the major. These credits can be counted toward the 35 required for the major only if these courses are used to satisfy this requirement.

4 All four credits for each course count toward 35-credit total.

5 For non-PHYSICS courses, students will receive only the credit applied as lab toward the 35-credit requirement.

ADVANCED PHYSICS ELECTIVE COURSES

Code	Title	Credits
PHYSICS 301	Physics Today (recommended) [6]	1
PHYSICS 307	Intermediate Laboratory-Mechanics and Modern Physics	2
PHYSICS 311	Mechanics	3
PHYSICS 321	Electric Circuits and Electronics	4
PHYSICS 322	Electromagnetic Fields	3
PHYSICS 323	Electromagnetic Fields	3
PHYSICS 325	Optics	4
PHYSICS 361	Machine Learning in Physics	3

PHYSICS 406	Special Topics in Physics	1-4
PHYSICS 407	Advanced Laboratory	2-4
PHYSICS 415	Thermal Physics	3
PHYSICS 448	Atomic and Quantum Physics	3
PHYSICS 449	Atomic and Quantum Physics	3
PHYSICS 498	Directed Study	1-3
PHYSICS 499	Directed Study	1-3
PHYSICS/B M E/ H ONCOL/ MED PHYS 501	Radiation Physics and Dosimetry	3
PHYSICS/E C E/ N E 525	Introduction to Plasmas	3
PHYSICS/E C E/ N E 527	Plasma Confinement and Heating	3
PHYSICS 531	Introduction to Quantum Mechanics	3
PHYSICS 535	Introduction to Particle Physics	3
PHYSICS 545	Introduction to Atomic Structure	3
PHYSICS 551	Solid State Physics	3
PHYSICS 603	Workshop in College Physics Teaching	1-2
PHYSICS 623	Electronic Aids to Measurement	4
PHYSICS 625	Applied Optics	4
PHYSICS 681	Senior Honors Thesis	3
PHYSICS 682	Senior Honors Thesis	3
PHYSICS/ MED PHYS 688	Radiation Production and Detection	4
PHYSICS 691	Senior Thesis	2-3
PHYSICS 692	Senior Thesis	2-3

[6] It is recommended that the student's program include the seminar PHYSICS 301 Physics Today.

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all PHYSICS and all major courses
- 2.000 on at least 15 credits in Upper Level work, taken in residence[7]
- 15 credits in PHYSICS, taken on campus

[7] Courses that meet the Core and Laboratory requirements, and Advanced level PHYSICS courses, count as upper-level in the major.

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with their major advisor and the Honors Program.

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA in all PHYSICS and all major courses
- 12 credits of Honors PHYSICS courses with grades of B or better, to include:
  - PHYSICS 681 - PHYSICS 682, for a total of 6 credits
  - 3 additional credits of Advanced level PHYSICS for Honors, with a grade of B or better
  - 3 credits at any level in PHYSICS for Honors, with a grade of B or better [8]

[8] Note that enrolling in PHYSICS 247/PHYSICS 248/PHYSICS 249 provides honors credit towards Honors in the Major (not at the Advanced level, however).

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Understand basic physical principles.
2. Solve problems proficiently using both quantitative and qualitative applications of these physical principles.
3. Appreciate the excitement of physics and be acquainted with a wide range of research areas in physics.
4. Know how to perform quantitative measurements of physical phenomena and understand the statistical significance of observations made in the presence of statistical and systematic uncertainties.
5. Be prepared for graduate study and/or careers in STEM fields.
6. Communicate effectively with scientific peers and the public, both orally and in writing.
7. Understand their own learning processes and be able to continue to educate themselves after graduation.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

Departmental Expectations

Students should arrange a meeting with a departmental advisor as soon as they are even thinking about a physics major. It is important to get major advising as early as possible.

This is one of many paths through the physics major. For other possibilities and details on math preparation and sequence of courses, see the Advising and Careers page (https://guide.wisc.edu/undergraduate/letters-science/physics/physics-bs/#advisingandcareerstext).

First Year

Fall	Credits	Spring	Credits
MATH 222	4	PHYSICS 247	5
COMP SCI 220	4	MATH 234	4
Communication A	3	Ethnic Studies	3

Language (if needed)	4	Language (if needed)	4
	15		**16**

Second Year

Fall	Credits	Spring	Credits

Total Credits 120

ADVISING AND CAREERS

ADVISING AND CAREERS

DECLARE OR CANCEL THE MAJOR

Follow the process described in the Department of Physics website (https://physics.wisc.edu/undergraduate/).

Talk with a Physics advisor: send an email to physics-advisors@wisc.edu or schedule an appointment through Starfish.

ADVISING FOR ADMITTED STUDENTS

Contact the undergraduate advisor for assistance choosing first-semester courses before enrolling at Student Orientation, Advising, and Registration (SOAR (https://soar.wisc.edu/)).

UNDERGRADUATE RESEARCH

If you are declared in the Physics major and are interested in pursuing a research position with a faculty member or scientist, please schedule an appointment through Starfish with the undergraduate advisor, who will discuss your interests and help you in finding a position.

CAREER EXPLORATION

A good starting point for exploring careers is PHYSICS 301 Physics Today. This course, offered in Spring semesters, includes a weekly talk where a research topic is discussed by one of the Physics or Astronomy faculty.

SuccessWorks has also created the extremely helpful Physics-specific "What Can You Do with Your Major" (https://successworks.wisc.edu/what-you-can-do-with-your-major/) Skills & Outcomes Sheet. Explore the major's transferable skills, alumni job titles, frequent employers of the major, and words of advice from alumni who have found success following their passions.

The Department of Physics website has a current list of research opportunities (https://www.physics.wisc.edu/undergraduate/student-resources/#research-opportunities) with our faculty, and other physics-related student jobs (https://www.physics.wisc.edu/undergraduate/student-resources/#other-job-opportunities) on campus.

TUTORING IN THE PHYSICS LEARNING CENTER

The Physics Learning Center has job opportunities for Physics undergraduates as peer mentor tutors, to help others learn physics and new ways to solve physics problems. Peer mentor tutors lead a learning team twice a week helping students build a conceptual framework to solve a variety of physics problems. The Physics Learning Center strives to create a supportive learning environment to help students gain skills, increase confidence, and meet potential study partners. Learn more about the PLC Peer Mentor Tutor Program (https://plc.physics.wisc.edu/join-us/).

Physics Learning Center

2337/2338 Chamberlin Hall, 1150 University Ave.

RECOMMENDED ADDITIONAL COURSES

MATHEMATICS

Please consult with a Physics advisor before choosing your Mathematics courses.

Specific Mathematics courses are prerequisites for the major's Physics courses. A typical math sequence is: MATH 221 Calculus and Analytic Geometry 1, MATH 222 Calculus and Analytic Geometry 2, MATH 234 Calculus--Functions of Several Variables, MATH 319 Techniques in Ordinary Differential Equations, MATH 340 Elementary Matrix and Linear Algebra, MATH 321 Applied Mathematical Analysis 1: Vector and Complex Calculus, and MATH 322 Applied Mathematical Analysis 2: Partial Differential Equations. MATH 320 Linear Algebra and Differential Equations is an alternative course that Physics students may choose instead of taking both MATH 319 Techniques in Ordinary Differential Equations and MATH 340 Elementary Matrix and Linear Algebra.

Students also majoring in Mathematics may have a different recommended set. We do not recommend the MATH honors sequences for Physics students unless you are considering a second major in Mathematics.

- MATH 221 Calculus and Analytic Geometry 1: A prerequisite for PHYSICS 247 A Modern Introduction to Physics, PHYSICS 207 General Physics, and PHYSICS 201 General Physics.

- MATH 222 Calculus and Analytic Geometry 2: A prerequisite for PHYSICS 247 A Modern Introduction to Physics but can be taken concurrently.

- MATH 234 Calculus--Functions of Several Variables: MATH 234 Calculus--Functions of Several Variables is a prerequisite for PHYSICS 248 A Modern Introduction to Physics but can be taken concurrently. If you are not taking the PHYSICS 247 A Modern Introduction to Physics + PHYSICS 248 A Modern Introduction to Physics + PHYSICS 249 A Modern Introduction to Physics introductory sequence, you will still need this course for PHYSICS 311 Mechanics and PHYSICS 322 Electromagnetic Fields.

- MATH 319 Techniques in Ordinary Differential Equations and MATH 340 Elementary Matrix and Linear Algebra: You are strongly advised to take these courses before you take PHYSICS 311 Mechanics and PHYSICS 322 Electromagnetic Fields .

- MATH 320 Linear Algebra and Differential Equations: This course combines topics from MATH 319 and MATH 340. It is adequate for the rest of our undergraduate physics curriculum but is not recommended for those planning for graduate school. There is an accelerated honors section that thoroughly covers all of the material in MATH 319 and MATH 340. It is more challenging but is a good way to fit in both topics if you are unable to take MATH 319 + MATH 340 before you take PHYSICS 311 or PHYSICS 322.

- MATH 321 Applied Mathematical Analysis 1: Vector and Complex Calculus: For students interested in more abstract math, taking MATH 521 Analysis I would be equivalent. It is recommended that MATH 321 be taken before PHYSICS 322 Electromagnetic Fields but especially before you take either PHYSICS 448 Atomic and Quantum Physics or PHYSICS 531 Introduction to Quantum Mechanics. Students may want to check with the academic advisor before enrolling in this course to confirm they have enough time and attention in a specific term. Students pursuing a Math major may prefer to take MATH 521 Analysis I and to take MATH 623 Complex Analysis later to still be introduced to complex analysis.

- MATH 322 Applied Mathematical Analysis 2: Partial Differential Equations: MATH 321 and MATH 322 are recommended for those planning for graduate school in Physics. Students pursuing a Math major may prefer to take MATH 619 Analysis of Partial Differential Equations for learning partial differential equations.

Computer and Data Science

Computers are fundamental to astronomical research. The most useful language is Python, followed by C or C++. COMP SCI 220 Data Science Programming I is a good starting point for learning Python.

Students interested in data science and machine learning are also recommended to take PHYSICS 361 Machine Learning in Physics.

Chemistry

A college course in chemistry is useful for all Physics students, but not required.

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

Students majoring in Physics may be eligible for department scholarships (https://www.physics.wisc.edu/department/awards/apply/).

PHYSICS CLUB

The University Physics Society (https://win.wisc.edu/organization/physicsclub/), the Physics Club, is a student organization for people interested in physics and related fields.

The Physics Club organizes events such as seminars, tours, trips, and socials for its members. In the the past, we have taken a field trip to Fermilab and have frequently gathered for social events such as ice skating, movie night, and bowling. Physics Club volunteers also offer free drop-in tutoring to students in introductory physics and astronomy classes. In addition, we maintain subscriptions to science-related magazines such as *Scientific American*, *Astronomy*, and *Physics Today*, which are kept in the club's room located at 2328 Chamberlin Hall.

By joining the Physics Club you'll be meeting many physics majors, who are, in general, really cool people to hang out with. If you are thinking about declaring a Physics major, this is the place to come for helpful advice about taking classes and finding an undergraduate job in the Physics Department. If you join, you can get access to the Physics Club room. Joining also adds you to the club email list, so you can be notified about club-sponsored events.

To join, email physics.society.wisc@gmail.com or drop by Room 2328 Chamberlin Hall and pick up a membership form. Turn in a completed form with your annual dues to a Physics Club officer.

GENDER MINORITIES AND WOMEN IN PHYSICS

Gender Minorities and Women in Physics (https://gmawip.physics.wisc.edu/) (GMaWiP) is a student organization open to undergraduates for the support and promotion of gender minorities and women in physics at UW–Madison. We provide both professional development and support for women and gender minorities in physics at every step in their careers by taking concrete actions through career development, mentorship, fellowship, and outreach.

We also advocate for other minorities in physics, including, but not limited to students of color, students with disability status, low-income students, and LGBT+ students. The group hosts social events aimed at building a sense of community among the members.

Undergraduate Mentorship Program

GMaWiP provides a mentorship program for undergraduate students. This program connects the undergraduate with a graduate student who will advise and mentor the undergraduate as they work to obtain their degree. If you are interested in this mentorship program or are interested in getting involved with GMaWiP, please contact the undergraduate advisor.

BLACK AND BROWN IN PHYSICS

Black and Brown in Physics (https://bbip.physics.wisc.edu/) (BBiP) is a student organization that creates a safe and welcoming community for the Black and Brown people within physics and physics-adjacent! BBIP hosts general meetings, heritage-based events, and by inviting Black and Brown physicists, educators, and historians to provide talks for both the organization and the Physics department. To get involved, please email bbipuw@gmail.com.

PHYSICS, BS

Physics is the most fundamental of the sciences, interested in the properties of matter, radiation, and energy in all forms. It provides the underlying framework for other physical sciences and engineering and for understanding physical processes in biological and environmental sciences. The major gives you:

- Intellectual satisfaction: physics satisfies our deep desire to understand how the universe works. Physics is interesting.
- Intellectual challenge: by striving for fundamental understanding, the physicist accepts the challenge to move past a merely descriptive approach of our world and probes deeply into how and why it works.
- Physics produces new technology: today's physics research will become tomorrow's technological advances.
- Technical expertise: physicists exploit forefront technologies in their pursuits.
- Flexibility: in a fast-paced and changing world, it is much more important to have a broad substantive education than to be trained in a specific skill. We teach people how to think, and how to apply and extend what they know to new types of problems.
- Physics is analytical and quantitative: people who can reason analytically and quantitatively are essential for the success of almost any pursuit.

The Physics major provides an overall view of both classical and modern physics with the flexibility to continue learning in fields that interest you. It helps you develop skills in analysis, problem-solving, and quantitative reasoning that will aid you in whatever careers you choose.

What you learn in this major will:

- prepare you for graduate studies for master's or doctoral degrees in experimental or theoretical physics;.
- prepare you for employment in industrial or governmental laboratories;
- provide a broad background for further work in other sciences, such as materials sciences, aerospace, astronomy, computer science, geophysics, meteorology, radiology, medicine, biophysics, engineering, and environmental studies;
- provide a science-oriented education—useful training for some areas of business administration, law, and other fields; and
- provide part of the preparation you need to teach physics. To teach physics in high school, you will also take education courses to become certified. You will need a doctoral degree to become a college or university professor.

Interested in the undergraduate physics program? Check out the Physics undergraduate page (https://www.physics.wisc.edu/academics/undergrads/).

RELATED PROGRAMS

L&S Bachelor of Science in Applied Mathematics, Engineering, and Physics (https://guide.wisc.edu/undergraduate/letters-science/mathematics/applied-mathematics-engineering-physics-bs-amep/) (BS AMEP) in the Guide

L&S Astronomy–Physics major (https://guide.wisc.edu/undergraduate/letters-science/astronomy/astronomy-physics-ba/) in the Guide

EDUCATION–PHYSICS

A student working toward the Bachelor of Science–Education degree may major or minor in physics. Interested students should contact the School of Education (p. 1658).

MEDICAL PHYSICS

A suggested curriculum for students interested in graduate study in Medical Physics is available on the Department of Medical physics webpage (https://www.medphysics.wisc.edu/graduate-program/admissions/#requirements).

HOW TO GET IN

HOW TO GET IN

DECLARING A PHYSICS MAJOR

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are eligible to declare. For information on how to declare, visit the Advising and Careers tab.
Courses required to get in	None
GPA requirements to get in	At least a 2.500 GPA on all MATH and PHYSICS courses, computed on all attempts prior to and including the first passed attempt of any course.
Credits required to get in	None
Other	None

Students pursuing the Physics major are not eligible to declare the Physics certificate.

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. Some courses satisfy more than one L&S degree requirement (visit College of Letters & Science: Requirements (https://guide.wisc.edu/undergraduate/letters-science/#requirementstext) for details).

This major can be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Communication	Complete both: • Part A: one course with the Communication A designation or eligible UW Placement Score; and • Part B: one course with the Communication B designation
Quantitative Reasoning	Complete both: • Part A: one course with the Quantitative Reasoning A designation or eligible UW Placement Score; and • Part B: one course with the Quantitative Reasoning B designation
Ethnic Studies	one 3+ credit course with the Ethnic Studies designation
Language	the third unit of a language other than English
Mathematics	Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.
L&S Breadth: Humanities	Complete 12 credits with the Humanities or Literature designation, which must include at least 6 credits with the Literature designation.
L&S Breadth: Social Sciences	Complete 12 credits with the Social Science designation.
L&S Breadth: Natural Sciences	Complete 12 credits, which must include both: • 6 credits with the Biological Science designation, and • 6 credits with the Physical Science designation.
Liberal Arts and Science (LAS) Coursework	at least 108 credits
Depth of Intermediate/ Advanced Coursework	at least 60 credits at the Intermediate or Advanced level
Major	Declare and complete at least one major.
Total Credits	at least 120 credits
UW-Madison Experience	• 30 credits in residence, overall, and • 30 credits in residence after the 86th credit
Quality of Work	• 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their School/College to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

The physics major requires 35 credits from the following:

Code	Title	Credits
Introductory Physics [1]		
First Introductory Course (complete one): [1]		*5*
PHYSICS 247	A Modern Introduction to Physics (recommended)	
PHYSICS 207	General Physics	
PHYSICS 201	General Physics	
E M A 201 & E M A 202	Statics and Dynamics [2]	
Second Introductory Course (complete one):		*5*
PHYSICS 248	A Modern Introduction to Physics (recommended)	
PHYSICS 208	General Physics	
PHYSICS 202	General Physics	
Third Introductory Course (complete one):		*3-4*
PHYSICS 249	A Modern Introduction to Physics (recommended)	
PHYSICS 205	Modern Physics for Engineers (See advising and careers for more information.)	
PHYSICS/ E C E 235	Introduction to Solid State Electronics (See advising and careers for more information.)	
PHYSICS 241	Introduction to Modern Physics	
Intermediate Mechanics		
PHYSICS 311	Mechanics	3
Electromagnetism (complete one):		**3**
PHYSICS 322	Electromagnetic Fields	
E C E 220 & E C E 320 & E C E 420	Electrodynamics I and Electrodynamics II and Electromagnetic Wave Transmission [3]	
Quantum Mechanics (complete one):		**3**
PHYSICS 448	Atomic and Quantum Physics	
PHYSICS 531	Introduction to Quantum Mechanics	
Laboratory		**4**
Full registered credit per course:		
PHYSICS 307	Intermediate Laboratory-Mechanics and Modern Physics	
PHYSICS 407	Advanced Laboratory	
Two credits apply from each of the following:		

PHYSICS 321	Electric Circuits and Electronics [4]	
PHYSICS 325	Optics [4]	
PHYSICS 623	Electronic Aids to Measurement [4]	
PHYSICS 625	Applied Optics [4]	
ASTRON 465	Observational Astronomy and Data Analysis [5]	
N E 427	Nuclear Instrumentation Laboratory [5]	
N E 428	Nuclear Reactor Laboratory [5]	
One credit applies from each of the following:		
E C E 305	Semiconductor Properties Laboratory [5]	
E C E 313	Optoelectronics Lab [5]	
Advanced Physics Electives		**4-9**
Total Credits		**35**

[1] PHYSICS 247/PHYSICS 248/PHYSICS 249 is the introductory course sequence recommended for prospective physics majors, PHYSICS 201/PHYSICS 202/PHYSICS 241 is recommended for engineers, and PHYSICS 207/PHYSICS 208/PHYSICS 241 is intended for life sciences and chemistry majors. Both PHYSICS 201 General Physics/PHYSICS 202 General Physics/PHYSICS 241 Introduction to Modern Physics and PHYSICS 207 General Physics/PHYSICS 208 General Physics/PHYSICS 241 Introduction to Modern Physics are suitable alternatives for physics majors. Although the department recommends following one of these sequences, students are allowed to mix them, with the exception that transfers into the PHYSICS 247/PHYSICS 248/PHYSICS 249 sequence are not permitted.

[2] Both courses must be taken and together count 5 credits toward the 35 required for the major. These credits can be counted toward the 35 required for the major only if these courses are used to satisfy this requirement.

[3] All three of E C E 220 and E C E 320 and E C E 420 must be taken, and together count 3 credits toward the 35 required for the major. These credits can be counted toward the 35 required for the major only if these courses are used to satisfy this requirement.

[4] All four credits for each course count toward 35-credit total.

[5] For non-PHYSICS courses, students will receive only the credit applied as lab toward the 35-credit requirement.

ADVANCED PHYSICS ELECTIVE COURSES

Code	Title	Credits
PHYSICS 301	Physics Today (recommended) [6]	1
PHYSICS 307	Intermediate Laboratory-Mechanics and Modern Physics	2
PHYSICS 311	Mechanics	3
PHYSICS 321	Electric Circuits and Electronics	4
PHYSICS 322	Electromagnetic Fields	3
PHYSICS 323	Electromagnetic Fields	3
PHYSICS 325	Optics	4
PHYSICS 361	Machine Learning in Physics	3
PHYSICS 406	Special Topics in Physics	1-4
PHYSICS 407	Advanced Laboratory	2-4
PHYSICS 415	Thermal Physics	3
PHYSICS 448	Atomic and Quantum Physics	3
PHYSICS 449	Atomic and Quantum Physics	3
PHYSICS 498	Directed Study	1-3
PHYSICS 499	Directed Study	1-3
PHYSICS/B M E/ H ONCOL/ MED PHYS 501	Radiation Physics and Dosimetry	3
PHYSICS/E C E/ N E 525	Introduction to Plasmas	3
PHYSICS/E C E/ N E 527	Plasma Confinement and Heating	3
PHYSICS 531	Introduction to Quantum Mechanics	3
PHYSICS 535	Introduction to Particle Physics	3
PHYSICS 545	Introduction to Atomic Structure	3
PHYSICS 551	Solid State Physics	3
PHYSICS 603	Workshop in College Physics Teaching	1-2
PHYSICS 623	Electronic Aids to Measurement	4
PHYSICS 625	Applied Optics	4
PHYSICS 681	Senior Honors Thesis	3
PHYSICS 682	Senior Honors Thesis	3
PHYSICS/ MED PHYS 688	Radiation Production and Detection	4
PHYSICS 691	Senior Thesis	2-3
PHYSICS 692	Senior Thesis	2-3

[6] It is recommended that the student's program include the seminar PHYSICS 301 Physics Today.

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all PHYSICS and all major courses
- 2.000 on at least 15 credits in Upper Level work, taken in residence[7]
- 15 credits in PHYSICS, taken on campus

[7] Courses that meet the Core and Laboratory requirements, and Advanced level PHYSICS courses, count as upper-level in the major.

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with their major advisor and the Honors Program.

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA in all PHYSICS and all major courses
- 12 credits of Honors PHYSICS courses with grades of B or better, to include:
  - PHYSICS 681 - PHYSICS 682, for a total of 6 credits
  - 3 additional credits of Advanced level PHYSICS for Honors, with a grade of B or better

- 3 credits at any level in PHYSICS for Honors, with a grade of B or better [8]

[8] Note that enrolling in PHYSICS 247/PHYSICS 248/PHYSICS 249 provides honors credit towards Honors in the Major (not at the Advanced level, however).

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Understand basic physical principles.
2. Solve problems proficiently using both quantitative and qualitative applications of these physical principles.
3. Appreciate the excitement of physics and be acquainted with a wide range of research areas in physics.
4. Know how to perform quantitative measurements of physical phenomena and understand the statistical significance of observations made in the presence of statistical and systematic uncertainties.
5. Be prepared for graduate study and/or careers in STEM fields.
6. Communicate effectively with scientific peers and the public, both orally and in writing.
7. Understand their own learning processes and be able to continue to educate themselves after graduation.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

Departmental Expectations

Students should arrange a meeting with a departmental advisor as soon as they are even thinking about a physics major. It is important to get major advising as early as possible.

This is one of many paths through the physics major. For other possibilities and details on math preparation and sequence of courses, see the Advising and Careers page (https://guide.wisc.edu/undergraduate/letters-science/physics/physics-bs/#advisingandcareerstext).

First Year

Fall	Credits	Spring	Credits
MATH 222	4	PHYSICS 247	5
COMP SCI 220	4	MATH 234	4
Communication A	3	Ethnic Studies	3
Language (if needed)	4	Language (if needed)	4
	15		**16**

Second Year

Fall	Credits	Spring	Credits
PHYSICS 248	5	PHYSICS 249	4
MATH 319	3	PHYSICS 311	3
MATH 340	3	PHYSICS 301	1
INTER-LS 210	1	MATH 321	3
Humanities Breadth	3	Literature Breadth	3
	15		**14**

Third Year

Fall	Credits	Spring	Credits
PHYSICS 307	2	Physics Lab Course	4
PHYSICS 322	3	Physics Elective	3
MATH 322	3	Humanities Breadth	3
Social Science Breadth	3	Social Science Breadth	3
Communication B	3-4	Biological Science Breadth	3
	14		**16**

Fourth Year

Fall	Credits	Spring	Credits
PHYSICS 448	3	PHYSICS 449	3
Physics Elective	3	PHYSICS 415	3
Social Science Breadth	3	Literature Breadth	3
Humanities Breadth	3	Humanities Breadth	3
Biological Science Breadth	3	Social Science Breadth	3
	15		**15**

Total Credits 120

ADVISING AND CAREERS

ADVISING AND CAREERS

DECLARE OR CANCEL THE MAJOR

Follow the process described in the Department of Physics website (https://physics.wisc.edu/undergraduate/).

Talk with a Physics advisor: send an email to physics-advisors@wisc.edu or schedule an appointment through Starfish.

ADVISING FOR ADMITTED STUDENTS

Contact the undergraduate advisor for assistance choosing first-semester courses before enrolling at Student Orientation, Advising, and Registration (SOAR (https://soar.wisc.edu/)).

UNDERGRADUATE RESEARCH

If you are declared in the Physics major and are interested in pursuing a research position with a faculty member or scientist, please schedule an appointment through Starfish with the undergraduate advisor, who will discuss your interests and help you in finding a position.

CAREER EXPLORATION

A good starting point for exploring careers is PHYSICS 301 Physics Today. This course, offered in Spring semesters, includes a weekly talk where a research topic is discussed by one of the Physics or Astronomy faculty.

SuccessWorks has also created the extremely helpful Physics-specific "What Can You Do with Your Major" (https://successworks.wisc.edu/what-you-can-do-with-your-major/) Skills & Outcomes Sheet. Explore the major's transferable skills, alumni job titles, frequent employers of the major, and words of advice from alumni who have found success following their passions.

The Department of Physics website has a current list of research opportunities (https://www.physics.wisc.edu/undergraduate/student-resources/#research-opportunities) with our faculty, and other physics-related student jobs (https://www.physics.wisc.edu/undergraduate/student-resources/#other-job-opportunities) on campus.

TUTORING IN THE PHYSICS LEARNING CENTER

The Physics Learning Center has job opportunities for Physics undergraduates as peer mentor tutors, to help others learn physics and new ways to solve physics problems. Peer mentor tutors lead a learning team twice a week helping students build a conceptual framework to solve a variety of physics problems. The Physics Learning Center strives to create a supportive learning environment to help students gain skills, increase confidence, and meet potential study partners. Learn more about the PLC Peer Mentor Tutor Program (https://plc.physics.wisc.edu/join-us/).

Physics Learning Center

2337/2338 Chamberlin Hall, 1150 University Ave.

RECOMMENDED ADDITIONAL COURSES

MATHEMATICS

Please consult with a Physics advisor before choosing your Mathematics courses.

Specific Mathematics courses are prerequisites for the major's Physics courses. A typical math sequence is: MATH 221 Calculus and Analytic Geometry 1, MATH 222 Calculus and Analytic Geometry 2, MATH 234 Calculus--Functions of Several Variables, MATH 319 Techniques in Ordinary Differential Equations, MATH 340 Elementary Matrix and Linear Algebra, MATH 321 Applied Mathematical Analysis 1: Vector and Complex Calculus, and MATH 322 Applied Mathematical Analysis 2: Partial Differential Equations. MATH 320 Linear Algebra and Differential Equations is an alternative course that Physics students may choose instead of taking both MATH 319 Techniques in Ordinary Differential Equations and MATH 340 Elementary Matrix and Linear Algebra.

Students also majoring in Mathematics may have a different recommended set. We do not recommend the MATH honors sequences for Physics students unless you are considering a second major in Mathematics.

- MATH 221 Calculus and Analytic Geometry 1: A prerequisite for PHYSICS 247 A Modern Introduction to Physics, PHYSICS 207 General Physics, and PHYSICS 201 General Physics.

- MATH 222 Calculus and Analytic Geometry 2: A prerequisite for PHYSICS 247 A Modern Introduction to Physics but can be taken concurrently.

- MATH 234 Calculus--Functions of Several Variables: MATH 234 Calculus--Functions of Several Variables is a prerequisite for PHYSICS 248 A Modern Introduction to Physics but can be taken concurrently. If you are not taking the PHYSICS 247 A Modern Introduction to Physics + PHYSICS 248 A Modern Introduction to Physics + PHYSICS 249 A Modern Introduction to Physics introductory sequence, you will still need this course for PHYSICS 311 Mechanics and PHYSICS 322 Electromagnetic Fields.

- MATH 319 Techniques in Ordinary Differential Equations and MATH 340 Elementary Matrix and Linear Algebra: You are strongly advised to take these courses before you take PHYSICS 311 Mechanics and PHYSICS 322 Electromagnetic Fields .

- MATH 320 Linear Algebra and Differential Equations: This course combines topics from MATH 319 and MATH 340. It is adequate for the rest of our undergraduate physics curriculum but is not recommended for those planning for graduate school. There is an accelerated honors section that thoroughly covers all of the material in MATH 319 and MATH 340. It is more challenging but is a good way to fit in both topics if you are unable to take MATH 319 + MATH 340 before you take PHYSICS 311 or PHYSICS 322.

- MATH 321 Applied Mathematical Analysis 1: Vector and Complex Calculus: For students interested in more abstract math, taking MATH 521 Analysis I would be equivalent. It is recommended that MATH 321 be taken before PHYSICS 322 Electromagnetic Fields but especially before you take either PHYSICS 448 Atomic and Quantum Physics or PHYSICS 531 Introduction to Quantum Mechanics. Students may want to check with the academic advisor before enrolling in this course to confirm they have enough time and attention in a specific term. Students pursuing a Math major may prefer to take MATH 521 Analysis I and to take MATH 623 Complex Analysis later to still be introduced to complex analysis.

- MATH 322 Applied Mathematical Analysis 2: Partial Differential Equations: MATH 321 and MATH 322 are recommended for those planning for graduate school in Physics. Students pursuing a Math major may prefer to take MATH 619 Analysis of Partial Differential Equations for learning partial differential equations.

Computer and Data Science

Computers are fundamental to astronomical research. The most useful language is Python, followed by C or C++. COMP SCI 220 Data Science Programming I is a good starting point for learning Python.

Students interested in data science and machine learning are also recommended to take PHYSICS 361 Machine Learning in Physics.

Chemistry

A college course in chemistry is useful for all Physics students, but not required.

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/

academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

Students majoring in Physics may be eligible for department scholarships (https://www.physics.wisc.edu/department/awards/apply/).

PHYSICS CLUB

The University Physics Society (https://win.wisc.edu/organization/physicsclub/), the Physics Club, is a student organization for people interested in physics and related fields.

The Physics Club organizes events such as seminars, tours, trips, and socials for its members. In the the past, we have taken a field trip to Fermilab and have frequently gathered for social events such as ice skating, movie night, and bowling. Physics Club volunteers also offer free drop-in tutoring to students in introductory physics and astronomy classes. In addition, we maintain subscriptions to science-related magazines such as *Scientific American*, *Astronomy*, and *Physics Today*, which are kept in the club's room located at 2328 Chamberlin Hall.

By joining the Physics Club you'll be meeting many physics majors, who are, in general, really cool people to hang out with. If you are thinking about declaring a Physics major, this is the place to come for helpful advice about taking classes and finding an undergraduate job in the Physics Department. If you join, you can get access to the Physics Club room. Joining also adds you to the club email list, so you can be notified about club-sponsored events.

To join, email physics.society.wisc@gmail.com or drop by Room 2328 Chamberlin Hall and pick up a membership form. Turn in a completed form with your annual dues to a Physics Club officer.

GENDER MINORITIES AND WOMEN IN PHYSICS

Gender Minorities and Women in Physics (https://gmawip.physics.wisc.edu/) (GMaWiP) is a student organization open to undergraduates for the support and promotion of gender minorities and women in physics at UW–Madison. We provide both professional development and support for women and gender minorities in physics at every step in their careers by taking concrete actions through career development, mentorship, fellowship, and outreach.

We also advocate for other minorities in physics, including, but not limited to students of color, students with disability status, low-income students, and LGBT+ students. The group hosts social events aimed at building a sense of community among the members.

Undergraduate Mentorship Program

GMaWiP provides a mentorship program for undergraduate students. This program connects the undergraduate with a graduate student who will advise and mentor the undergraduate as they work to obtain their degree. If you are interested in this mentorship program or are interested in getting involved with GMaWiP, please contact the undergraduate advisor.

BLACK AND BROWN IN PHYSICS

Black and Brown in Physics (https://bbip.physics.wisc.edu/) (BBiP) is a student organization that creates a safe and welcoming community for the Black and Brown people within physics and physics-adjacent! BBIP hosts general meetings, heritage-based events, and by inviting Black and Brown physicists, educators, and historians to provide talks for both the organization and the Physics department. To get involved, please email bbipuw@gmail.com.

PHYSICS, CERTIFICATE

An understanding of the physical universe informs many disciplines. The study of physics is essential to understanding nature and to advancing technology. A certificate in Physics increases the opportunities for students to become better informed on technological issues at the local, state, national, and international levels.

The certificate is designed to serve students majoring in biological fields, Chemistry, or Mathematics, Engineering, Education and other fields who wish to extend their study of physics beyond what may be required or recommended for their major.

HOW TO GET IN

HOW TO GET IN

To declare a certificate in physics, students must fill out a major/certificate declaration form. An undergraduate physics advisor must sign the form. The form to declare the certificate can be obtained at the Physics departmental office. All undergraduate students are eligible to declare the certificate, except those declared in the following majors:

- Physics,
- Astronomy-Physics, and
- Applied Mathematics, Engineering, and Physics (AMEP)

REQUIREMENTS

REQUIREMENTS

The physics certificate requires 18 credits of Intermediate or Advanced-level undergraduate PHYSICS courses, with the following restrictions:

- At least 9 of the credits must be in residence.
- At most one course from each of the three semesters of an introductory sequence can be counted.
- At most 3 credits of directed study can be counted.
- Only graded courses may be used toward the certificate.
- A minimum grade point average of 2.000 is required in all certificate courses.

Code	Title	Credits
First Introductory Course (complete only one):		**5**
PHYSICS 247	A Modern Introduction to Physics (recommended)	
PHYSICS 207	General Physics	
PHYSICS 201	General Physics	
E M A 201 & E M A 202	Statics and Dynamics [1]	
Second Introductory Course (complete only one):		**5**
PHYSICS 248	A Modern Introduction to Physics (recommended) [2]	
PHYSICS 208	General Physics	
PHYSICS 202	General Physics	
Third Introductory Course (complete only one):		**3-4**
PHYSICS 249	A Modern Introduction to Physics (recommended) [2]	
PHYSICS 205	Modern Physics for Engineers	
PHYSICS/ E C E 235	Introduction to Solid State Electronics	
PHYSICS 241	Introduction to Modern Physics	
Directed Study (optional, maximum 3 credits)		**0-3**
PHYSICS 299	Directed Study	
PHYSICS 499	Directed Study	
PHYSICS 681	Senior Honors Thesis	
PHYSICS 682	Senior Honors Thesis	
PHYSICS 691	Senior Thesis	
PHYSICS 692	Senior Thesis	
Additional Intermediate and Advanced PHYSICS courses		**1-5**
PHYSICS/ MED PHYS 265	Introduction to Medical Physics	
PHYSICS 301	Physics Today	
PHYSICS 307	Intermediate Laboratory-Mechanics and Modern Physics	
PHYSICS 311	Mechanics	
PHYSICS 321	Electric Circuits and Electronics	
PHYSICS 322	Electromagnetic Fields	
PHYSICS 323	Electromagnetic Fields	
PHYSICS 325	Optics	
PHYSICS 361	Machine Learning in Physics	
PHYSICS 371	Acoustics for Musicians	
PHYSICS 406	Special Topics in Physics	
PHYSICS 407	Advanced Laboratory	
PHYSICS 415	Thermal Physics	
PHYSICS 448	Atomic and Quantum Physics	
PHYSICS 449	Atomic and Quantum Physics	
PHYSICS/B M E/ H ONCOL/ MED PHYS 501	Radiation Physics and Dosimetry	
PHYSICS/E C E/ N E 525	Introduction to Plasmas	
PHYSICS/E C E/ N E 527	Plasma Confinement and Heating	
PHYSICS 531	Introduction to Quantum Mechanics	
PHYSICS 535	Introduction to Particle Physics	
PHYSICS 545	Introduction to Atomic Structure	
PHYSICS 551	Solid State Physics	
PHYSICS/B M E/ MED PHYS/ PHMCOL-M/ RADIOL 619	Microscopy of Life	
PHYSICS 623	Electronic Aids to Measurement	
PHYSICS 625	Applied Optics	
PHYSICS/ MED PHYS 688	Radiation Production and Detection	
Total Credits		**18**

[1] A maximum of 5 credits from E M A 201 and E M A 202 count toward the 18 credits required for the certificate.

[2] Students may not transfer into the PHYSICS 247 - PHYSICS 248 - PHYSICS 249 sequence from another introductory sequence.

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Understand basic physical principles.
2. Solve problems proficiently using both quantitative and qualitative applications of these physical principles.
3. Know how to perform quantitative measurements of physical phenomena and understand the statistical significance of observations made in the presence of statistical and systematic uncertainties.
4. Be prepared for graduate study and/or careers in STEM fields.

5. Communicate effectively with scientific peers and the public, both orally and in writing.

ADVISING AND CAREERS

ADVISING AND CAREERS

Scheduling an Advising Appointment with a Physics Major Advisor

To meet with a Physics advisor, you may either email physics-advisors@wisc.edu or contact them directly.

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

PLANNING AND LANDSCAPE ARCHITECTURE

DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/CERTIFICATES

- Integrative Design of Built and Natural Environments, Certificate (p. 1380)
- Landscape and Urban Studies, BA (p. 1382)
- Landscape and Urban Studies, BS (p. 1388)
- Landscape Architecture, BLA (p. 1393)

INTEGRATIVE DESIGN OF BUILT AND NATURAL ENVIRONMENTS, CERTIFICATE

The Integrative Design of Built and Natural Environments certificate is focused around an exciting transdisciplinary design approach that relies on design processes and thinking. It integrates spatial data technologies to effectively and efficiently inventory, represent, analyze, evaluate, and communicate planning and design alternatives for landscapes, cities, and regions.

Proactively codesigning and coproducing healthy places comprehends, plans, and acts on social and environmental information and, therefore, a diverse suite of elective courses addresses social and environmental considerations through stakeholder engagement, environmental justice, policy, conservation, and management. Required courses will apply spatial technologies (GIS, Geodesign) to enable collaborations among the design professions (landscape architects, planners, engineers, and scientists and humanists from various disciplines), and community members. This collaborative process will help prepare you to work in interdisciplinary teams and to appreciate diverse perspectives and values while addressing complex problems.

HOW TO GET IN

HOW TO GET IN

Undergraduate students from across campus are encouraged to consider completing the Certificate. To declare the Certificate in Integrative Design of Built and Natural Environments through the Department of Planning and Landscape Architecture, students must have completed at least one class that meets Certificate requirements, or be enrolled in at least one class in the current or upcoming semester that meets Certificate requirements. Students pursuing the program are encouraged to declare as early as possible so that they can best align the coursework with their interests. Students can declare the program by scheduling an appointment with the Department of Planning and Landscape Architecture Undergraduate Academic Advising Manager, or by filling out

the online declaration form on the Department of Planning and Landscape Architecture website.

Students declared in the certificate should plan to complete the program before, or alongside, their degree and major requirements, as they are not able to extend their time on campus to complete a certificate.

REQUIREMENTS

REQUIREMENTS

Students are required to a minimum of 14 credits to include one introductory course, one methods and applications course, and elective courses.

Code	Title	Credits
Introductory Course (complete one)		**2-4**
LAND ARC 311	Introduction to Design Frameworks and Spatial Technologies	
GEOG/ CIV ENGR/ ENVIR ST 377	An Introduction to Geographic Information Systems	
Methods and Applications		**3**
LAND ARC 511	Geodesign Methods and Applications	
Elective Courses		**7-9**
Stakeholder Engagement		
LSC 561	Writing Science for the Public	
LSC 625	Risk Communication	
LSC 250	Research Methods in the Communication Industry	
GEOG/ ENVIR ST 309	People, Land and Food: Comparative Study of Agriculture Systems	
Environmental Justice and Policy		
LAND ARC 363	Earth Partnership: Restoration Education for Equity and Resilience	
AMER IND/ ENVIR ST 306	Indigenous Peoples and the Environment	
AMER IND/ ENVIR ST/ GEOG 345	Caring for Nature in Native North America	
CHICLA/ LEGAL ST/ SOC 440	Ethnicity, Race, and Justice	
CHICLA/ LAND ARC 475	Latino Urbanism: Design and Engagement in the American City	
ENVIR ST 308	Outdoors For All: Inequities in Environmentalism	
GEOG/ URB R PL 305	Introduction to the City	
GEOG/ ENVIR ST 439	US Environmental Policy and Regulation	
GEOG/ ENVIR ST 534	Environmental Governance: Markets, States and Nature	
GEOG/ENVIR ST/ LAND ARC/ URB R PL 532	Applications of Geographic Information Systems in Planning	
GEOG/ ENVIR ST 537	Culture and Environment	
SOC/ C&E SOC 140	Introduction to Community and Environmental Sociology	
URB R PL 512	Gentrification and Urban Restructuring	
Environmental Conservation & Management		
LAND ARC 668	Restoration Ecology	
LAND ARC/ ENVIR ST/ SOIL SCI 695	Applications of Geographic Information Systems in Natural Resources	
A A E/ F&W ECOL 430	Decision Methods for Natural Resource Managers	
BOTANY/ ENVIR ST/ F&W ECOL/ ZOOLOGY 516	Conservation Biology	
C&E SOC/ F&W ECOL/ SOC 248	Environment, Natural Resources, and Society	
C&E SOC/ ENVIR ST/ GEOG 434	People, Wildlife and Landscapes	
ENVIR ST/ GEOG 339	Conservation and Climate Change - Local to International Strategies	
ENVIR ST 413	Preserving Nature	
GEOG/ ENVIR ST 333	Green Urbanism	
GEOG/ ENVIR ST 337	Nature, Power and Society	
GEOG/ AMER IND 410	Critical Indigenous Ecological Knowledges	
GEOG/ART HIST/ ENVIR ST/ HISTORY/ LAND ARC 239	Making the American Landscape	
GEOG 538	The Humid Tropics: Ecology, Subsistence, and Development	
Total Credits		**14**

PASS/FAIL COURSES

Courses taken on a pass/fail basis will not count toward the certificate.

RESIDENCE AND QUALITY OF WORK

- At least 8 certificate credits must be completed in residence
- Minimum 3.000 GPA on all certificate courses

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Demonstrate an understanding of the frameworks and processes involved in integrative design of built and natural environments
2. Understand and demonstrate how to use techniques and research from biological, physical sciences, and social sciences in design, planning, and management contexts to create frameworks and designs
3. Select and evaluate geospatial technologies appropriate for a variety of design, planning, and management contexts
4. Understand and evaluate the role of stakeholder values and ethics in design frameworks relative to design, planning, and management of the built environment within social and natural systems

ADVISING AND CAREERS

ADVISING AND CAREERS

ADVISING

Contact the undergraduate academic advising manager (https://dpla.wisc.edu/academics/undergraduate-programs/landscape-and-urban-studies/#academic-advising) to learn more about the certificate or for guidance as a current certificate student.

CAREERS

The interdisciplinary education provided through the Certificate in Integrative Design of the Built and Natural Environment will make graduates highly sought after by employers in local government, landscape and urban design, environmental science, management, and policy.

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

LANDSCAPE AND URBAN STUDIES, BA

Are you interested in climate justice? Are you interested in inclusive economic development and social justice? Do you want to preserve the beauty in cities and create ecologically sustainable cities? Those are some of the goals you can learn to achieve when you major in Landscape and Urban Studies. You will learn to integrate the biological, physical, and social sciences; humanities; arts; and technology to develop the skills that will help you play an important role in creating a more inclusive and sustainable future.

The major provides students opportunities to specialize in Culture, Health and Community; Restoration and Ecological Design; or Urban Studies. The major also provides students opportunities to explore the design and planning professions. Students who graduate from the major are prepared for starting positions in public or private agencies that oversee conservation, land management, cultural landscape conservation, and planning or for continuing on to graduate school, in particular, professionally accredited programs in Landscape Architecture, Planning, or Environmental Studies. This is the major for people who care about the natural world and human creation by understanding cultural and natural resource protection, green infrastructure, social equity, and policy, and more.

The Landscape and Urban Studies major mixes traditional learning with community-based learning in and out of the classroom. Students are encouraged to take opportunities that supplement classroom learning by engaging in research, study abroad, internships, student clubs, and community interactions. The major engages students in exploring people-place, culture-nature phenomena and how they might, in their professional and personal lives, apply continuous learning to the planning of environments that benefit people, cultures, and the environment at the local, state, national, and global levels.

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are eligible to declare. For information on how to declare, visit Advising & Careers.

Courses required to get in	None
GPA requirements to get in	None
Credits required to get in	None
Other	None

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a Bachelor of Arts degree in the College of Letters & Science must complete all of the requirements below. Some courses satisfy more than one L&S degree requirement (visit College of Letters & Science: Requirements (https://guide.wisc.edu/undergraduate/letters-science/#requirementstext) for details).

This major can be paired with either the Bachelor of Arts or Bachelor of Science degree requirements.

BACHELOR OF ARTS DEGREE REQUIREMENTS

Communication	Complete both: • Part A: one course with the Communication A designation or eligible UW Placement Score; and • Part B: one course with the Communication B designation

Quantitative Reasoning	Complete both: • Part A: one course with the Quantitative Reasoning A designation or eligible UW Placement Score; and • Part B: one course with the Quantitative Reasoning B designation
Ethnic Studies	one 3+ credit course with the Ethnic Studies designation
Language	Complete either: • the fourth unit of one language other than English; or • the third unit of one language other than English and the second unit of an additional language.
L&S Breadth: Humanities	Complete 12 credits with the Humanities or Literature designation, which must include at least 6 credits with the Literature designation.
L&S Breadth: Social Sciences	Complete 12 credits with the Social Science designation.
L&S Breadth: Natural Sciences	Complete 12 credits with the Natural Science, Biological Science, or Physical Science designations, which must include both: • one 3+ credit course with the Biological Science designation, and • one 3+ credit course with the Physical Science designation.
Liberal Arts and Science (LAS) Coursework	at least 108 credits
Depth of Intermediate/ Advanced work	at least 60 credits at the Intermediate or Advanced level
Major	Declare and complete at least one major.
Total Credits	at least 120 credits
UW-Madison Experience	• 30 credits in residence, overall; and • 30 credits in residence after the 86th credit
Quality of Work	• 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their School/College to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

Students interested in the major are required to complete a set of introductory courses, breadth in the major under three categories: Biological and Physical Environment, Social and Cultural Studies and Technology and 18 credits of electives (see an Advisor and the Advising tab for recommended focused elective sets).

Landscape and Urban Studies majors must complete at least 48 credits in the major, including the following:

INTRODUCTORY COURSES

Code	Title	Credits
LAND ARC 211	Shaping the Built Environment	3
URB R PL 215	Welcome to Your Urban Future	3
LAND ARC 250	Survey of Landscape Architecture Design	3
Total Credits		**9**

BIOLOGICAL AND PHYSICAL ENVIRONMENT

Code	Title	Credits
Complete two courses from:		6-9
BOTANY 100	Survey of Botany	
or BOTANY/ BIOLOGY 130	General Botany	
BOTANY/ ENVIR ST/ ZOOLOGY 260	Introductory Ecology	
or BOTANY/ ZOOLOGY 460	General Ecology	
BOTANY/ GEOG 338	Environmental Biogeography	
GEOG/ ENVIR ST 339	Conservation and Climate Change - Local to International Strategies	
PLANTSCI 350	Plants and Human Wellbeing	
SOIL SCI/ ENVIR ST/ GEOG 230	Soil: Ecosystem and Resource	
or SOIL SCI 301	General Soil Science	
Total Credits		**6-9**

SOCIAL AND CULTURAL STUDIES

Code	Title	Credits
Complete two courses from:		6-7
ART HIST 457	History of American Vernacular Architecture and Landscapes	
DS 221	Person and Environment Interactions	
ECON 101	Principles of Microeconomics	
or ECON 111	Principles of Economics-Accelerated Treatment	
ECON/REAL EST/ URB R PL 420	Urban and Regional Economics	
GEOG 104	Introduction to Human Geography	
GEOG/ ENVIR ST 139	Global Environmental Issues	
HISTORY/ ENVIR ST/ GEOG 460	American Environmental History	
LAND ARC 360	Earth Partnership Restoration Education: Indigenous Arts & Sciences	
LAND ARC/ AMER IND 106	Earth Partnership Indigenous Arts and Sciences	
LAND ARC 260	History of Landscape Architecture	

LAND ARC 363	Earth Partnership: Restoration Education for Equity and Resilience
LAND ARC 373	Mindfulness in Restorative Environments
LAND ARC/ ANTHRO/ ART HIST/DS/ HISTORY 264	Dimensions of Material Culture
LAND ARC/ CHICLA 475	Latino Urbanism: Design and Engagement in the American City

URB R PL 611	Urban Design: Theory and Practice
URB R PL/ C&E SOC/ SOC 617	Community Development
Total Credits	**18**

RESIDENCE & QUALITY OF WORK

- 2.000 GPA in all LAND ARC and URB R PL courses and courses that count toward the major
- 2.000 GPA on 15 upper-level credits, taken in Residence
- 15 combined credits in LAND ARC and URB PL, taken on the UW–Madison campus

FOOTNOTES

[1] See an Advisor and the Advising tab for recommended focused elective sets

[2] Intermediate and Advanced level courses accepted in the major are Upper Level

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Demonstrate competence and critical judgment in creatively applying the intellectual and technical skills necessary for site and landscape-scale natural and cultural resource conservation, planning, and management; these skills include cultural, historical and landscape literacy, data collection and analysis, spatial and temporal analysis, multidisciplinary problem-solving approaches and communication skills.
2. Demonstrate critical thinking and the ability to explore ideas and synthesize information, both independently and in collaboration with interdisciplinary team members.
3. Understand, apply and evaluate the principles, theories and research findings underlying at least one of the following advising pathways, Ecological Restoration and Design; Culture, Health, and Community; and Urban Studies.
4. Integrate social, cultural, ecological and technological dimensions in solving design and planning problems concerning the conservation or management of sustainable natural and cultural landscapes.
5. Be able to perform as a member of a public, private or non-profits office or agency in the fields represented within the department.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

First Year

Fall	Credits	Spring	Credits
LAND ARC 250 or 260	3	LAND ARC 211	3
Communications A	3	URB R PL 215	3
Quantitative Reasoning A	3	Biological or Physical Environment (major requirement)	4
Language (if required)	4	Ethnic Studies (complete within your first 60 credits)	3
Physical Science Breadth	3	Quantitative Reasoning B	3

	15		**12**

Total Credits 120

ADVISING AND CAREERS

ADVISING AND CAREERS

DECLARE OR CANCEL THIS MAJOR

Students enrolled in the Landscape and Urban Studies major have three opportunities for advising:

1. The undergraduate academic advising manager (https://dpla.wisc.edu/academics/undergraduate-programs/landscape-and-urban-studies/#academic-advising) assists with general questions about registration, student assistance, and progress in meeting major requirements.
2. Students may choose a faculty advisor (https://dpla.wisc.edu/faculty-instructors/) to assist with guidance specific to the curriculum (e.g. coursework, internships, research) and career opportunities.
3. SuccessWorks offers advice on career paths, networking, and job search preparation.

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

HILLDALE UNDERGRADUATE/FACULTY RESEARCH FELLOWSHIP

The Hilldale Undergraduate/Faculty Research Fellowships (https://awards.advising.wisc.edu/all-scholarships/hilldale-undergraduatefaculty-research-fellowship/)support undergraduate research done in collaboration with UW–Madison faculty or research/instructional academic staff. Approximately 100 Hilldale awards are available each year. The student researcher receives $3,000, and faculty/staff research advisor receives $1,000 to help offset research costs (e.g., supplies, faculty or student travel related to the project).

HOLSTROM ENVIRONMENTAL RESEARCH FELLOWSHIP

The Holstrom Environmental Research Fellowship (https://awards.advising.wisc.edu/all-scholarships/holstrom-enviromental-research-fellowship/) supports undergraduate research done in collaboration with UW–Madison faculty or research/instructional academic staff. Research proposals must have an environmental focus, and applicants must have at least junior standing at the time of application.

UNDERGRADUATE SYMPOSIUM

The annual Undergraduate Symposium (https://ugradsymposium.wisc.edu/) showcases undergraduate creativity, achievement, research, service-learning and community-based research from all areas of study at UW–Madison, including the humanities, fine arts, biological sciences, physical sciences, and social sciences.

UNDERGRADUATE RESEARCH SCHOLARS

The Undergraduate Research Scholars Program (https://urs.ls.wisc.edu/) is dedicated to enhancing the academic experience of UW–Madison students by providing first- and second-year undergraduates with opportunities to earn credit for participating in the research and creative

work with UW–Madison faculty and staff. The program has been designed to include partnerships between students and mentors, seminars on research-relevant issues, and practice in research/artistic presentations. The many benefits of the program are found in the fluid interaction between these activities.

WISCONSIN IDEA FELLOWSHIPS

Wisconsin Idea Fellowships (https://morgridge.wisc.edu/get-connected-students/wisconsin-undergraduate-idea-fellowships/) are awarded annually to undergraduate student projects working towards solving a challenge identified along with local or global community partner. Fellowships are awarded to semester-long or year-long projects designed by an undergraduate student (or group of students) in collaboration with a community organization and a UW–Madison faculty or academic staff member.

LANDSCAPE AND URBAN STUDIES, BS

Are you interested in climate justice? Are you interested in inclusive economic development and social justice? Do you want to preserve the beauty in cities and create ecologically sustainable cities? Those are some of the goals you can learn to achieve when you major in Landscape and Urban Studies. You will learn to integrate the biological, physical, and social sciences; humanities; arts; and technology to develop the skills that will help you play an important role in creating a more inclusive and sustainable future.

The major provides students opportunities to specialize in Culture, Health and Community; Restoration and Ecological Design; or Urban Studies. The major also provides students opportunities to explore the design and planning professions. Students who graduate from the major are prepared for starting positions in public or private agencies that oversee conservation, land management, cultural landscape conservation, and planning or for continuing on to graduate school, in particular, professionally accredited programs in Landscape Architecture, Planning, or Environmental Studies. This is the major for people who care about the natural world and human creation by understanding cultural and natural resource protection, green infrastructure, social equity, and policy, and more.

The Landscape and Urban Studies major mixes traditional learning with community-based learning in and out of the classroom. Students are encouraged to take opportunities that supplement classroom learning by engaging in research, study abroad, internships, student clubs, and community interactions. The major engages students in exploring people-place, culture-nature phenomena and how they might, in their professional and personal lives, apply continuous learning to the planning of environments that benefit people, cultures, and the environment at the local, state, national, and global levels.

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are eligible to declare. For information on how to declare, visit Advising & Careers.
Courses required to get in	None
GPA requirements to get in	None
Credits required to get in	None
Other	None

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. Some courses satisfy more than one L&S degree requirement (visit College of Letters & Science: Requirements (https://guide.wisc.edu/undergraduate/letters-science/#requirementstext) for details).

This major can be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Communication	Complete both: • Part A: one course with the Communication A designation or eligible UW Placement Score; and • Part B: one course with the Communication B designation
Quantitative Reasoning	Complete both: • Part A: one course with the Quantitative Reasoning A designation or eligible UW Placement Score; and • Part B: one course with the Quantitative Reasoning B designation
Ethnic Studies	one 3+ credit course with the Ethnic Studies designation
Language	the third unit of a language other than English
Mathematics	Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.
L&S Breadth: Humanities	Complete 12 credits with the Humanities or Literature designation, which must include at least 6 credits with the Literature designation.
L&S Breadth: Social Sciences	Complete 12 credits with the Social Science designation.
L&S Breadth: Natural Sciences	Complete 12 credits, which must include both: • 6 credits with the Biological Science designation, and • 6 credits with the Physical Science designation.
Liberal Arts and Science (LAS) Coursework	at least 108 credits
Depth of Intermediate/ Advanced Coursework	at least 60 credits at the Intermediate or Advanced level
Major	Declare and complete at least one major.
Total Credits	at least 120 credits
UW-Madison Experience	• 30 credits in residence, overall, and • 30 credits in residence after the 86th credit
Quality of Work	• 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their School/College to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

Students interested in the major are required to complete a set of introductory courses, breadth in the major under three categories: Biological and Physical Environment, Social and Cultural Studies and Technology and 18 credits of electives (see an Advisor and the Advising tab for recommended focused elective sets).

Landscape and Urban Studies majors must complete at least 48 credits in the major, including the following:

INTRODUCTORY COURSES

Code	Title	Credits
LAND ARC 211	Shaping the Built Environment	3
URB R PL 215	Welcome to Your Urban Future	3
LAND ARC 250	Survey of Landscape Architecture Design	3
Total Credits		**9**

BIOLOGICAL AND PHYSICAL ENVIRONMENT

Code	Title	Credits
Complete two courses from:		6-9
BOTANY 100	Survey of Botany	
or BOTANY/ BIOLOGY 130	General Botany	
BOTANY/ ENVIR ST/ ZOOLOGY 260	Introductory Ecology	
or BOTANY/ ZOOLOGY 460	General Ecology	
BOTANY/ GEOG 338	Environmental Biogeography	
GEOG/ ENVIR ST 339	Conservation and Climate Change - Local to International Strategies	
PLANTSCI 350	Plants and Human Wellbeing	
SOIL SCI/ ENVIR ST/ GEOG 230	Soil: Ecosystem and Resource	
or SOIL SCI 301	General Soil Science	
Total Credits		**6-9**

SOCIAL AND CULTURAL STUDIES

Code	Title	Credits
Complete two courses from:		6-7
ART HIST 457	History of American Vernacular Architecture and Landscapes	
DS 221	Person and Environment Interactions	
ECON 101	Principles of Microeconomics	
or ECON 111	Principles of Economics-Accelerated Treatment	
ECON/REAL EST/ URB R PL 420	Urban and Regional Economics	
GEOG 104	Introduction to Human Geography	
GEOG/ ENVIR ST 139	Global Environmental Issues	
HISTORY/ ENVIR ST/ GEOG 460	American Environmental History	
LAND ARC 360	Earth Partnership Restoration Education: Indigenous Arts & Sciences	
LAND ARC/ AMER IND 106	Earth Partnership Indigenous Arts and Sciences	
LAND ARC 260	History of Landscape Architecture	
LAND ARC 363	Earth Partnership: Restoration Education for Equity and Resilience	
LAND ARC 373	Mindfulness in Restorative Environments	
LAND ARC/ ANTHRO/ ART HIST/DS/ HISTORY 264	Dimensions of Material Culture	
LAND ARC/ CHICLA 475	Latino Urbanism: Design and Engagement in the American City	
PLANTSCI 380	Indigenous Foodways: Food and Seed Sovereignty	
POLI SCI 104	Introduction to American Politics and Government	
SOC/ C&E SOC 140	Introduction to Community and Environmental Sociology	
URB R PL/ECON/ REAL EST 420	Urban and Regional Economics	
URB R PL/ LAND ARC 463	Evolution of American Planning	
PUB AFFR 240	Evidence-Based Policy Making	
PUB AFFR 380	Analytic Tools for Public Policy	
Total Credits		**6-7**

TECHNOLOGY

Code	Title	Credits
Complete two courses from:		6-8
LAND ARC 311	Introduction to Design Frameworks and Spatial Technologies	
or GEOG/ CIV ENGR/ ENVIR ST 377	An Introduction to Geographic Information Systems	
LAND ARC 460	Advanced Visual Communication in Landscape Architecture	
LAND ARC 511	Geodesign Methods and Applications	
LAND ARC/ ENVIR ST/GEOG/ URB R PL 532	Applications of Geographic Information Systems in Planning	
LAND ARC/ ENVIR ST/ SOIL SCI 695	Applications of Geographic Information Systems in Natural Resources	
Total Credits		**6-8**

CAPSTONE

Code	Title	Credits
Complete one course from:		3
LAND ARC 668	Restoration Ecology	
URB R PL 595	Landscape and Urban Studies Capstone	
URB R PL 601	Site Planning	
URB R PL 611	Urban Design: Theory and Practice	
Total Credits		**3**

ELECTIVES [1]

Code	Title	Credits
18 credits, chosen from:		18
AGROECOL 370	Grassland Ecology	

ANTHRO/ AMER IND 354	Archaeology of Wisconsin
or AMER IND 250	Indians of Wisconsin
or AMER IND/ C&E SOC/ SOC 578	Poverty and Place

ADVISING AND CAREERS

ADVISING AND CAREERS

DECLARE OR CANCEL THIS MAJOR

Students enrolled in the Landscape and Urban Studies major have three opportunities for advising:

1. The undergraduate academic advising manager (https://dpla.wisc.edu/academics/undergraduate-programs/landscape-and-urban-studies/#academic-advising) assists with general questions about registration, student assistance, and progress in meeting major requirements.
2. Students may choose a faculty advisor (https://dpla.wisc.edu/faculty-instructors/) to assist with guidance specific to the curriculum (e.g. coursework, internships, research) and career opportunities.
3. SuccessWorks offers advice on career paths, networking, and job search preparation.

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

HILLDALE UNDERGRADUATE/FACULTY RESEARCH FELLOWSHIP

The Hilldale Undergraduate/Faculty Research Fellowships (https://awards.advising.wisc.edu/all-scholarships/hilldale-undergraduatefaculty-research-fellowship/)support undergraduate research done in collaboration with UW–Madison faculty or research/instructional academic staff. Approximately 100 Hilldale awards are available each year. The student researcher receives $3,000, and faculty/staff research advisor receives $1,000 to help offset research costs (e.g., supplies, faculty or student travel related to the project).

HOLSTROM ENVIRONMENTAL RESEARCH FELLOWSHIP

The Holstrom Environmental Research Fellowship (https://awards.advising.wisc.edu/all-scholarships/holstrom-enviromental-research-fellowship/) supports undergraduate research done in collaboration with UW–Madison faculty or research/instructional academic staff. Research proposals must have an environmental focus, and applicants must have at least junior standing at the time of application.

UNDERGRADUATE SYMPOSIUM

The annual Undergraduate Symposium (https://ugradsymposium.wisc.edu/) showcases undergraduate creativity, achievement, research, service-learning and community-based research from all areas of study at UW–Madison, including the humanities, fine arts, biological sciences, physical sciences, and social sciences.

UNDERGRADUATE RESEARCH SCHOLARS

The Undergraduate Research Scholars Program (https://urs.ls.wisc.edu/) is dedicated to enhancing the academic experience of UW–Madison students by providing first- and second-year undergraduates with opportunities to earn credit for participating in the research and creative work with UW–Madison faculty and staff. The program has been designed to include partnerships between students and mentors, seminars on research-relevant issues, and practice in research/artistic presentations. The many benefits of the program are found in the fluid interaction between these activities.

WISCONSIN IDEA FELLOWSHIPS

Wisconsin Idea Fellowships (https://morgridge.wisc.edu/get-connected-students/wisconsin-undergraduate-idea-fellowships/) are awarded annually to undergraduate student projects working towards solving a challenge identified along with local or global community partner. Fellowships are awarded to semester-long or year-long projects designed by an undergraduate student (or group of students) in collaboration with a community organization and a UW–Madison faculty or academic staff member.

LANDSCAPE ARCHITECTURE, BLA

Students who enjoy art, science, technology, problem-solving, and design should consider a career in landscape architecture. Graduates with the Bachelor of Landscape Architecture (BLA) influence the design and management of cities, parks, and open spaces. They often advise park managers, citizen groups, landowners, and state agencies. Landscape architects design public and private outdoor spaces, restore and help preserve natural areas, develop and implement regional planning and public policy, and revitalize urban neighborhoods.

The professional Bachelor of Landscape Architecture degree program focuses on form-giving design, design implementation, and professional practice. Emphasis is placed on principles of design theory and process; problem solving in relationship to human needs and aspirations, environmental awareness and stewardship; and on the development of technical proficiencies required of professional practice. Students learn site analysis, graphic communication, design synthesis, construction technology, and the social and environmental factors that are part of design.

The Bachelor of Landscape Architecture degree program provides professional education accredited by the American Society of Landscape Architects (ASLA) (https://www.asla.org/AccreditationLAAB.aspx). Students completing the requirements for this program are granted a BLA degree. Completion of this program is the first step in becoming a licensed landscape architect.

HOW TO GET IN

HOW TO GET IN

Admission to the professional program during the sophomore year, or in the second year of the degree plan, is on a competitive basis.

Students completing the requirements for this program are awarded a BLA degree.

1. **Eligibility for Consideration into the Landscape Architecture Accredited Professional Program.** Eligibility for consideration into the Landscape Architecture Accredited Professional Program depends on fulfillment of these requirements: students apply for formal admission to the program during the spring semester or summer session of each academic year. Selections are made only once a year for the fall semester. The first round of selections takes place in early summer, and the second round in late summer. All students will be notified of their status at least two weeks before the start of the fall semester. Students who plan to complete their prerequisite courses during the summer session must so indicate on their application.

The department will admit up to a maximum of 30 students, as resources permit. Selection will be based on a letter of intent, written by the applicant, which will address their reasons for entering the major, submission of portfolio, and on grades earned in the following two prerequisite courses: LAND ARC 250 **AND** LAND ARC 210 or LAND ARC 366.

2. **AND** the applicant must have completed a minimum of 24 credit hours. University GPA will be considered.
   For more information on the professional design degree program and the application process please go to this link (https://dpla.wisc.edu/).
3. **Selection Policies.** On-campus selections for admission will be made as soon as possible after spring semester grades are received.
4. **Notification of Status.** Applicants who have completed their prerequisite courses at the end of spring semester will be notified of their status between June 1 and July 1 of each year for fall semester admission. Decisions on those applicants completing prerequisites during summer session will be made as soon as grades are received.
5. **Appeal Procedures.** An appeal to the department's curriculum committee may be presented to clarify an error of fact or extenuating circumstances.

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

COLLEGE OF LETTERS AND SCIENCE DEGREE REQUIREMENTS: BACHELOR OF LANDSCAPE ARCHITECTURE (BLA)

The Bachelor of Landscape Architecture is a special degree program; it is not a major. The BLA degree is not available to students who intend to earn a degree outside the College of Letters & Science.

Students pursuing a Bachelor of Landscape Architecture degree in the College of Letters & Science must complete all of the requirements below. Some courses satisfy more than one L&S degree requirement (visit College of Letters & Science: Requirements (https://guide.wisc.edu/undergraduate/letters-science/#requirementstext) for details).

BACHELOR OF LANDSCAPE ARCHITECTURE DEGREE REQUIREMENTS

Communication	Complete both: • Part A: one course with the Communication A designation or eligible UW Placement Score; and • Part B: one course with the Communication B designation
Quantitative Reasoning	Complete both: • Part A: one course with the Quantitative Reasoning A designation or eligible UW Placement Score; and • Part B: one course with the Quantitative Reasoning B designation
Ethnic Studies	one 3+ credit course with the Ethnic Studies designation
Language	Complete the third unit of one language other than English.
Breadth in the Degree: Humanities	Complete 12 credits with the Humanities or Literature designation, which must include at least 6 credits with the Literature designation.
Breadth in the Degree: Social Sciences	Complete 12 credits with the Social Science designation.
Breadth in the Degree: Natural Sciences	Complete 12 credits, which must include both: • 6 credits with the Biological Science designation, and • 6 credits with the Physical Science designation.
Liberal Arts & Science (LAS) Coursework	at least 108 credits
Depth of Intermediate/ Advanced Coursework	at least 60 credits at the Intermediate or Advanced level
Total Credits	at least 120 credits
UW–Madison Experience	• 30 credits in residence, overall, and • 30 credits in residence after the 86th credit
Quality of Work	• 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

REQUIREMENTS FOR THE BLA

Code	Title	Credits
Introduction and Foundation		
LAND ARC 210	Introduction to Landscape Architecture Design Studio	3-4
or LAND ARC 366	Introduction to Architectural and Environmental Design	
LAND ARC 250	Survey of Landscape Architecture Design	3
LAND ARC 260	History of Landscape Architecture	3
Other Required Foundation Courses		
BOTANY 100	Survey of Botany	3-5
or BOTANY/ BIOLOGY 130	General Botany	
BOTANY/ENVIR ST/ ZOOLOGY 260	Introductory Ecology	3
DS 221	Person and Environment Interactions	3
LAND ARC 311	Introduction to Design Frameworks and Spatial Technologies	2
LAND ARC 380	Plants for Ecological Design I	3

LAND ARC 610 & LAND ARC 611	Landscape Architecture Capstone I and Landscape Architecture Capstone II	7
Total Credits		**73-74**

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all LAND ARC courses and courses that count toward the BLA program
- 2.000 GPA on 15 Upper Level credits, taken in Residence [1]
- 15 credits in LAND ARC, taken on the UW–Madison campus

FOOTNOTES

[1] LAND ARC and major courses numbered 500-699 are Upper Level.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Demonstrate competence and critical judgement in applying intellectual and technical skills necessary for site and landscape-scale design, in particular skills of problem-solving using site inventory/ analysis; spatial/temporal analysis; programming; synthesis; oral, written, and visual communication; construction implementation; and post-occupancy evaluation.
2. Demonstrate critical thinking and the ability to explore ideas and synthesize information, both independently and in collaboration with interdisciplinary team members to identify and solve complicated landscape design and planning problems.
3. Understand, apply, and evaluate the principles, theories, and recent research findings in the discipline of landscape architecture.
4. Integrate humanistic, scientific, legal, political, economic, social, ecological, and technological dimensions in solving novel design and planning problems concerning the betterment of rural and urban natural and cultural landscapes.
5. Understand, analyze, and apply design and planning theories and principles to urban and rural landscapes to benefit human living conditions.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic

advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

First Year

Fall	Credits	Spring	Credits
Communication A	3	Quantitative Reasoning A	4
Language (if needed)	4	Ethnic Studies	4
LAND ARC 210	4	BOTANY 100 or 130	3
LAND ARC 250	3	Elective	4
	14		**15**

Second Year

Fall	Credits	Spring	Credits
Quantitative Reasoning B	3	LAND ARC 260	3
LAND ARC 261	4	LAND ARC 321	4
LAND ARC 380	3	LAND ARC 353	3
LAND ARC 311	2	SOIL SCI/ENVIR ST/ GEOG 230 or 301	3
DS 221	3	Electives	2
BOTANY/ENVIR ST/ ZOOLOGY 260	3		
	18		**15**

Third Year

Fall	Credits	Spring	Credits
LAND ARC 354	3	LAND ARC/ ENVIR ST 361, ART 214, ART 521, ART HIST 379, CIV ENGR 392, CIV ENGR 451, 498, DS 579, DS 521, ENVIR ST 306, ENVIR ST 308, ENVIR ST 332, ENVIR ST 337, ENVIR ST 339, ENVIR ST 345, ENVIR ST 430, ENVIR ST 434, ENVIR ST 441, GEOG 410, LAND ARC 363, LAND ARC 373, LAND ARC 475, LAND ARC 525, LAND ARC 581, LAND ARC 590, LAND ARC 668, LAND ARC 677, URB R PL 306, URB R PL 373, URB R PL 411, URB R PL 505, URB R PL 512, URB R PL 550, URB R PL 551, URB R PL 601, or URB R PL 611	3-4
LAND ARC 397	1	LAND ARC 562	4
LAND ARC 460	3	LAND ARC 511	3
LAND ARC 560	4	Physical Science Breadth	3
Electives	3

Fourth Year

Fall	Credits	Spring	Credits
LAND ARC 563	4	LAND ARC 611 (also meets Communications B)	4
LAND ARC 550	3	Electives	11
LAND ARC 610	3		
Literature Breadth	3		
Elective	3		
	16		**15**

Total Credits 120

ADVISING AND CAREERS

Students are assigned to a faculty advisor once they are admitted to the degree. Prospective students should contact the undergraduate academic coordinator (https://dpla.wisc.edu/academics/undergraduate-programs/landscape-and-urban-studies/#academic-advising) for more information.

The BLA degree program provides professional education accredited by the the Landscape Architecture Accreditation Board (LAAB) (https://www.asla.org/AccreditationLAAB.aspx).

Completion of this program is the first step in becoming a licensed landscape architect through the Council of Landscape Architectural Registration Boards (CLARB) (https://www.clarb.org/)

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

CERTIFICATION/LICENSURE

CERTIFICATION/LICENSURE

Landscape Architecture Registration Exam (http://www.clarb.org/)

PROFESSIONAL CERTIFICATION/LICENSURE DISCLOSURE (NC-SARA)

The United States Department of Education (via 34 CFR Part 668 (https://www.ecfr.gov/current/title-34/subtitle-B/chapter-VI/part-668/?toc=1)) requires institutions that provide distance education to disclose information for programs leading to professional certification or licensure. The expectation is that institutions will determine whether each applicable academic program meets state professional licensure requirements and provide a general disclosure of such on an official university website.

Professional licensure requirements vary from state-to-state and can change year-to-year; they are established in a variety of state statutes, regulations, rules, and policies; and they center on a range of educational requirements, including degree type, specialized accreditation, total credits, specific courses, and examinations.

UW-Madison has taken reasonable efforts to determine whether this program satisfies the educational requirements for certification/licensure in states where prospective and enrolled students are located and is disclosing that information as follows.

Disclaimer: This information is based on the most recent annual review of state agency certification/licensure data and is subject to change. All students are strongly encouraged to consult with the individual/office listed in the Contact Information box on this page and with the applicable state agency for specific information.

The requirements of this program meet certification/licensure requirements in the following states:
Wisconsin

The requirements of this program do not meet certification/licensure requirements in the following states:
Not applicable

Updated: 1 June 2026

ACCREDITATION

ACCREDITATION

Landscape Architecture Accreditation Board (https://www.asla.org/AccreditationLAAB.aspx)

Accreditation status: Accredited. Next accreditation review: 2031.

POLITICAL SCIENCE

DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/CERTIFICATES

- National Security Studies, Certificate (p. 1398)
- Political Economy, Philosophy, and Politics, Certificate (p. 1400)
- Political Science, BA (p. 1401)
- Political Science, BS (p. 1407)
- Political Science, Certificate (p. 1413)

NATIONAL SECURITY STUDIES, CERTIFICATE

The undergraduate certificate in National Security Studies gives students a structured way to explore how national security decisions are made, who makes them, and what consequences they carry.

Through carefully chosen courses across political science and related fields, students build a foundation in areas like international conflict, diplomacy, military institutions, and decision-making. The goal is not just to learn how the system works, but to understand the tradeoffs, tensions, and real-world stakes behind policy choices.

The certificate is flexible and broadly accessible. It is relevant to students interested in foreign policy, law, public services, and global affairs, and aligns naturally with students in ROTC and military leadership programs. The program emphasizes both the "hard" side of security like military strategy and the equally important political and diplomatic processes that shape when and how force is used.

By the end, students walk away with a clearer lens for making sense of global events and a practical toolkit for careers in government, international organizations, research, and policy work. In a world where security issues rarely stay in neat boxes, this certificate helps students connect the dots across institutions, ideas, and real-world challenges.

HOW TO GET IN

HOW TO GET IN

Students are eligible to declare the National Securities Studies certificate at any time during their studies. Students who intend to declare the certificate must schedule an appointment with a Political Science undergraduate academic advisor. See the contact information box for details.

Students may not declare both the Political Science certificate and the National Security Studies certificate.

REQUIREMENTS

REQUIREMENTS

Students must complete at least 15 credits for the National Security Studies certificate. Students must complete at least one course from each of the Political Science (POLI SCI), History (HISTORY), and ROTC (A F AERO, MIL SCI, or NAV SCI) subjects.

Code	Title	Credits
Introduction to US in the World		
Complete 1 course from:		3-4
POLI SCI 120	Introduction to Comparative Politics	
POLI SCI 140	Introduction to International Relations	
POLI SCI 182	Introduction to Comparative Politics (Honors)	
INTL ST 101	Introduction to International Studies	
The Military		
ROTC Course		
Complete 1 course from:		2-4
A F AERO 401	National Security Affairs	
MIL SCI 401	Leadership and Management	
NAV SCI 402	Naval Leadership and Ethics	
L&S Course		
Complete 1 course from:		3-4
HISTORY 345	Military History of the United States	
HISTORY 428	The American Military Experience Since 1899	
POLI SCI 338	The Civil-Military Paradox in U.S. Politics and Society	
POLI SCI 343	Theories of International Security	
Global Issues and National Security		
Complete 2 courses from:		6-8
HISTORY/ ASIAN 319	The Vietnam Wars	
HISTORY 350	The First World War and the Shaping of Twentieth-Century Europe	
HISTORY/ ASIAN 363	China and World War II in Asia	
HISTORY 434	American Foreign Relations, 1901 to the Present	
POLI SCI 328	Politics of East and Southeast Asia	
POLI SCI 344	The Russian War on Ukraine: Causes and Consequences	
POLI SCI 345	Conflict Resolution	
POLI SCI 347	Terrorism	
POLI SCI 350	International Political Economy	
POLI SCI 354	International Institutions and World Order	
POLI SCI 356	Principles of International Law	
POLI SCI 359	American Foreign Policy	
POLI SCI/ INTL ST 434	The Politics of Human Rights	
POLI SCI 437	Nationalism and Ethnic Conflict	
POLI SCI 529	Arab-Israeli Conflict	
Total Credits		**15**

RESIDENCE AND QUALITY OF WORK

- Minimum 2.000 GPA in all certificate courses.
- At least 11 certificate credits must be completed in residence.

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Analyze the institutions, actors, and processes that shape U.S. national security policy, including the roles of the executive branch, Congress, the military, and intelligence agencies.
2. Demonstrate a nuanced understanding of civil-military relations, including the constitutional foundations, tensions, and collaborative dynamics between military institutions and civilian political leaders.
3. Evaluate contemporary and emerging security threats, such as terrorism, cyber warfare, great power competition, and asymmetric conflict, through the lens of political decision-making and strategic planning.
4. Apply theories and practices of conflict resolution and diplomacy to historical and contemporary case studies in international security, peacebuilding, and crisis negotiation.
5. Critically assess the ethical and philosophical dimensions of leadership, military engagement, and national defense, including debates over just war theory, humanitarian intervention, and the use of force.
6. Integrate interdisciplinary knowledge from political science, international relations, military studies, and related fields to formulate policy-relevant insights and communicate them effectively in both written and oral formats.

ADVISING AND CAREERS

ADVISING AND CAREERS

Talk with the Political Science Academic Program Manager for advising on course selection, questions about declaring, and more.

DECLARE THE CERTIFICATE

Students can declare this certificate by following the process described on the Department of Political Science (https://polisci.wisc.edu/national-security-studies-certificate/) website.

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself,

which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

POLITICAL ECONOMY, PHILOSOPHY, AND POLITICS, CERTIFICATE

The Political Economy, Philosophy, and Politics certificate is rooted in a core insight: social, economic, and political problems have ethical, political, and economic dimensions.

The first program formally combining these three approaches (politics, philosophy, and economics) was created at Oxford University in 1920. It drew on a tradition of inquiry that brought the three perspectives together. Since its creation at Oxford, similar programs have been created at many of the world's leading universities.

If we move from the insight behind the program to what it means in practice, we can see that understanding immigration, for example, requires understanding it from political, economic, and ethical perspectives. In short, understanding the pressing political, economic, or philosophical problems of the day entails seeing them from a perspective that brings together all three disciplines. As a result, the Political Economy, Philosophy, and Politics certificate curriculum brings together faculty and coursework from three different academic departments: Economics, Philosophy, and Political Science. This cross-disciplinary curriculum is important not just for intellectual development, but also for fostering the habits of mind central to democratic citizenship.

HOW TO GET IN

HOW TO GET IN

Students can declare the program via the online declaration form. (https://polisci.wisc.edu/pepp-certificate/)

REQUIREMENTS

REQUIREMENTS

18 credits are required, as follows: [1]

CORE BREADTH

Four courses for 12 credits, one course each from these areas:

Economics

Code	Title	Credits
ECON/HIST SCI 305	Development of Economic Thought	3-4
ECON 330	Money and Banking	4
ECON 340	Microeconomics in Popular Culture	3
ECON 350	The Chinese Economy	3
ECON 435	The Financial System	3
ECON 461	International Macroeconomics	3-4
ECON 464	International Trade	3-4

Philosophy

Code	Title	Credits
PHILOS 341	Contemporary Moral Issues	3-4
PHILOS/ ENVIR ST 441	Environmental Ethics	3-4
PHILOS/ MED HIST 505	Justice and Health Care	3
PHILOS/ MED HIST 515	Public Health Ethics	3
PHILOS/ECON 524	Philosophy and Economics	3
PHILOS 541	Modern Ethical Theories	3
PHILOS 549	Great Moral Philosophers	3
PHILOS 555	Political Philosophy	3

Political Science: Political Theory

Code	Title	Credits
POLI SCI 360	The Foundations of American Liberal Democracy	3-4
POLI SCI 361	Contemporary American Political Thought	3-4
POLI SCI/ILS 363	Literature and Politics	3-4
POLI SCI 364	Christian Political Thought	3-4
POLI SCI 366	Continental Political Thought	3-4
POLI SCI 411	The American Constitution : Powers and Structures of Government	4
POLI SCI/ILS 463	Deception and Politics	3-4

Political Science: Institutions and Political Economy

Code	Title	Credits
POLI SCI 274	Political Choice and Strategy	3-4
POLI SCI 304	The Political Economy of Race in the United States	3-4
POLI SCI 330	Political Economy of Development	3-4
POLI SCI 340	The European Union: Politics and Political Economy	3-4
POLI SCI 350	International Political Economy	3-4
POLI SCI 354	International Institutions and World Order	3-4
POLI SCI 356	Principles of International Law	3-4

ELECTIVE DEPTH COURSE

Take one (1) additional course (3 credits) from the list of courses above in **either** Economics (p. 1400) **or** Philosophy (p. 1400).

CAPSTONE SEMINAR

Code	Title	Credits
POLI SCI 461	Interdisciplinary Seminar in Political Economy, Philosophy, & Politics	3

[1] Courses taken Pass/Fail do not count

RESIDENCE AND QUALITY OF WORK

- Minimum 2.000 GPA in all certificate courses
- At least 9 certificate credits must be completed in residence

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Knowing key concepts and arguments from economics, philosophy, and political science.
2. Synthesizing key arguments and concepts from philosophy, political science, and economics.
3. Applying arguments and concepts from philosophy, political science, and economics to contemporary policy or scholarly debates.

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

POLITICAL SCIENCE, BA

Political science is the systematic study of power. Whether power is exercised formally, as is the case between government and the individual, or informally, as is the case between individuals, it is the systematic study of power relationships that provides the subject matter for the discipline.

There are many approaches to political science: the analysis of governmental structures, influences on voter choice, the relationship between national governments, or the best form of government. Students studying political science develop an understanding of the workings of government and also important skills in critical thinking and analysis. These skills make them ideal candidates for careers in law; in government at the state, national, and international levels; in business; in journalism; and in politics.

WHAT CAREERS DO POLITICAL SCIENCE STUDENTS PURSUE?

Political Science students learn quickly, work well in teams, and have basic understanding of the policy process and the operations of government. Political Science students understand that for every endeavor, no matter how important, there is a mountain of ordinary grunt work that has to be done. Political Science students can be counted on to do the footwork, put in the face time, and endure the slog necessary of everything of consequence.

Political Science students go on to work in all levels of government. Local and state governments have a direct impact on the quality of life of all Americans. Courses on state and urban government, public policy, administrative law, and public administration are especially valuable. Quantitative and statistical skills developed in these courses and applied in internships provide a powerful combination.

Political Science students go on to work in a wide range of International careers, in business, Foreign Service, and nongovernmental organizations. Political Science offers a wide variety of courses in comparative politics, international relations and organizations, public policy, political development, and interest group politics. These courses are often taken in combination with economics, statistics, computer science, and international trade.

Political Science students pursue careers in campaign management, political polling, national political committees, and consulting. They will have taken multiple courses in the American political system, comparative political parties, elections, public opinion, and voting behavior; as well as committing themselves to developing their writing and data analysis. There are over half a million campaigns in the United States annually, and while entry-level jobs have long hours, low pay, and enormous demands, they are places where you can "cut your political teeth." Local campaigns lead to statewide or national campaigns, and then perhaps to consulting and polling if that strikes your interest.

Political Science students have also traditionally gone into law. Some lawyers are litigators while others are employed by corporations, government, and other organizations. Political Science track fits nicely for students seeking law degrees as official credentials to "practice law" and those students who seek a law degree as an additional path to make positive impacts in their professional areas of interest. Some individuals with legal training work in other areas, such as corporate or public management. The department offers a wide variety of political theory, constitutional law, and public policy courses that will help you explore the interaction between law, politics, and society.

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are eligible to declare. For information on how to declare, visit Advising & Careers.
Courses required to get in	None
GPA requirements to get in	None
Credits required to get in	None
Other	None

Students declared in the Political Science certificate may not be declared in the Political Science major at the same time. Students who do wish to declare this major must first cancel their declaration in the certificate.

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a Bachelor of Arts degree in the College of Letters & Science must complete all of the requirements below. Some courses satisfy more than one L&S degree requirement (visit College of Letters & Science: Requirements (https://guide.wisc.edu/undergraduate/letters-science/#requirementstext) for details).

This major can be paired with either the Bachelor of Arts or Bachelor of Science degree requirements.

BACHELOR OF ARTS DEGREE REQUIREMENTS

Communication	Complete both: • Part A: one course with the Communication A designation or eligible UW Placement Score; and • Part B: one course with the Communication B designation
Quantitative Reasoning	Complete both: • Part A: one course with the Quantitative Reasoning A designation or eligible UW Placement Score; and • Part B: one course with the Quantitative Reasoning B designation
Ethnic Studies	one 3+ credit course with the Ethnic Studies designation
Language	Complete either: • the fourth unit of one language other than English; or • the third unit of one language other than English and the second unit of an additional language.
L&S Breadth: Humanities	Complete 12 credits with the Humanities or Literature designation, which must include at least 6 credits with the Literature designation.
L&S Breadth: Social Sciences	Complete 12 credits with the Social Science designation.
L&S Breadth: Natural Sciences	Complete 12 credits with the Natural Science, Biological Science, or Physical Science designations, which must include both: • one 3+ credit course with the Biological Science designation, and • one 3+ credit course with the Physical Science designation.
Liberal Arts and Science (LAS) Coursework	at least 108 credits
Depth of Intermediate/Advanced work	at least 60 credits at the Intermediate or Advanced level
Major	Declare and complete at least one major.
Total Credits	at least 120 credits
UW-Madison Experience	• 30 credits in residence, overall; and • 30 credits in residence after the 86th credit
Quality of Work	• 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their School/College to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

30 credits are required in the following areas:

DISTRIBUTION [1]

Code	Title	Credits
Three courses and three areas required:		**9-12**
International Relations		

POLI SCI 140	Introduction to International Relations
POLI SCI/ CHICLA/ HISTORY/ LACIS 268	The U.S. & Latin America from the Colonial Era to the Present: A Critical Survey
POLI SCI 340	The European Union: Politics and Political Economy
POLI SCI 343	Theories of International Security
POLI SCI 345	Conflict Resolution
POLI SCI 347	Terrorism
POLI SCI 348	Analysis of International Relations
POLI SCI 350	International Political Economy
POLI SCI/ LEGAL ST 352	Transitional Justice in World Politics
POLI SCI 354	International Institutions and World Order
POLI SCI 356	Principles of International Law

POLI SCI/ GEN&WS 435	Politics of Gender and Women's Rights in the Middle East
POLI SCI 437	Nationalism and Ethnic Conflict
POLI SCI/ INTL ST 439	The Comparative Study of Genocide
POLI SCI 342	State-Building: How States Are Formed, Function, and Influence Society
POLI SCI 442	Honors Seminar on State-Building
POLI SCI 529	Arab-Israeli Conflict
POLI SCI 635	Comparative Politics of Sport
POLI SCI 690	Study Abroad Topics in Political Science: Comparative Politics
Total Credits	**9-12**

RESEARCH METHODS

Code	Title	Credits
Complete one course from:		3-4
POLI SCI 170	Research Methods in Political Science	
POLI SCI 270	Political Data Science	
POLI SCI 274	Political Choice and Strategy	
POLI SCI 348	Analysis of International Relations	
POLI SCI/ JOURN/ URB R PL 373	Introduction to Survey Research	
Total Credits		**3-4**

ELECTIVES

Additional POLI SCI courses to attain 30 credits in the major.[2]

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all POLI SCI courses and courses that count toward the major
- 2.000 GPA on 15 upper-level credits in the major, taken in residence[3]
- 15 credits in POLI SCI, taken on campus

HONORS IN THE MAJOR

To declare Honors in the Major, students must have at least one POLI SCI course for Honors, at least a 3.300 University GPA, and meet with the major advisor to discuss the requirements.

To earn Honors in the Major, students must satisfy the requirements for the major (above) *and* these additional requirements:

- Earn a 3.300 or higher University GPA
- Earn 3.500 GPA or higher in all POLI SCI courses
- Complete at least 15 credits in POLI SCI for Honors to include:[4]

Code	Title	Credits
Complete one of these Thesis sequences:		6
POLI SCI 681 & POLI SCI 682	Senior Honors Thesis and Senior Honors Thesis	
POLI SCI 683 & POLI SCI 684	Senior Honors Thesis Seminar and Senior Honors Thesis Seminar	
Additional POLI SCI courses taken for Honors [4]		9
Total Credits		**15**

FOOTNOTES

1 Courses may only meet one Distribution area. A course may meet both a Distribution and the Research Methods requirement, but will only be applied once toward the 30 credits required in the major.

2 No more than 6 total credits of Directed Study (POLI SCI 199, POLI SCI 698, POLI SCI 699) and Internship (POLI SCI 315) may count in the major.

3 POLI SCI courses numbered 300 and higher count as upper-level in the major.

4 A grade of B or higher is required to earn Honors credit.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Develop an understanding of and appreciation for the methods and approaches of diverse subfields in Political Science--#American Politics, Comparative Politics, International Relations, and Political Theory--#and their relevance to important theoretical and pragmatic questions.
2. Analyze different forms and practices of governance both democratic and non#democratic.
3. Argue effectively and defend propositions with intellectual integrity, while considering a range of alternative points of view and evidence.
4. Analyze relations among individuals, civil society, political institutions, and states.
5. Analyze the motivations and consequences of political decision# making and activities.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

First Year

Fall	Credits	Spring	Credits
POLI SCI 104, 120, 140, or 160	3-4	POLI SCI 104, 120, 140, or 160 (complete two)	3-4
Communications A	3	Literature Breadth	3
Quantitative Reasoning A	3	Foreign Language (if needed)	4
Foreign Language (if needed)	4		
	14		**15**

Second Year

Fall	Credits	Spring	Credits
Declare the major		POLI SCI elective	3
POLI SCI/CHICLA 231, 297, or 355 (satisfies Ethnic Studies requirement)	3-4	Communications B	4
POLI SCI 270, 274, or 348 (satisfies Quantitative Reasoning B requirement)	3-4	Physical Science Breadth	3
Biological Science Breadth	3	Literature Breadth	3
I/A COMP SCI, MATH or STAT (if BS)	3	I/A COMP SCI, MATH, or STAT (if BS)	3
INTER-LS 210	1		
	15		**16**

Third Year

Fall	Credits	Spring	Credits
POLI SCI course 300 and above	4	POLI SCI course 300 and above	3
Humanities Breadth	3	Humanities Breadth	3
Science Breadth	3	Science Breadth	3
Elective	4	Elective	6
		Apply for Senior Thesis (optional)[1]	
	14		**15**

Fourth Year

Fall	Credits	Spring	Credits
POLI SCI course 300 and above	4	POLI SCI course 300 and above	6
POLI SCI 681, 683, or 691 (optional)[1]	3-4	POLI SCI 682, 684, or 692 (optional)[1]	3-4
Elective	9	Elective	6
	16		**15**

Total Credits 120

[1] Students wishing to write a senior thesis (with or without Honors) should apply in the spring of their third year.

ADVISING AND CAREERS

ADVISING AND CAREERS

DECLARE OR CANCEL THIS MAJOR

Please follow the process described on the Political Science (https://polisci.wisc.edu/declare-major-2/) website.

ADVISING

The Department of Political Science has academic advisors who are available to meet with you to offer guidance on:

- course selection;
- program planning;
- internship opportunities;
- study abroad programs;
- scholarship opportunities;
- student research interests; and
- transfer and study abroad credits

Information about scheduling appointments can be found here (https://polisci.wisc.edu/advising-and-major-information/#advising). Please note that no advising appointments are scheduled via email.

ENROLLMENT INFORMATION

Political Science students who wish to enroll in the following courses must obtain prior consent/authorization:

- Directed Study
- Thesis
- Proseminars (varies by specific course; check footnotes in the class schedule)
- Specific Topic
- Other advanced-level coursework with consent of the instructor in lieu of other required courses.

Information and course descriptions are posted on the department website prior to each enrollment period. POLI SCI 315 Legislative Internship is available by application only. Specific deadlines will be announced each semester. Students with a classification making them ineligible for certain courses due to retroactive or AP credits may see the instructor for possible permission to enroll on a space available basis. Students who wish to enroll in a course that is closed may use the wait list (https://kb.wisc.edu/15002/) available through Course Search & Enroll. The number of credits for variable credit courses is determined by course format and contact periods for a specific semester as noted in the class schedule. For graduate programs, see the Graduate section of this Guide (https://guide.wisc.edu/graduate/political-science/).

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

POLITICAL SCIENCE, BS

Political science is the systematic study of power. Whether power is exercised formally, as is the case between government and the individual, or informally, as is the case between individuals, it is the systematic study of power relationships that provides the subject matter for the discipline.

There are many approaches to political science: the analysis of governmental structures, influences on voter choice, the relationship between national governments, or the best form of government. Students studying political science develop an understanding of the workings of government and also important skills in critical thinking and analysis. These skills make them ideal candidates for careers in law; in government at the state, national, and international levels; in business; in journalism; and in politics.

WHAT CAREERS DO POLITICAL SCIENCE STUDENTS PURSUE?

Political Science students learn quickly, work well in teams, and have basic understanding of the policy process and the operations of government. Political Science students understand that for every endeavor, no matter how important, there is a mountain of ordinary grunt work that has to be done. Political Science students can be counted on to do the footwork,

put in the face time, and endure the slog necessary of everything of consequence.

Political Science students go on to work in all levels of government. Local and state governments have a direct impact on the quality of life of all Americans. Courses on state and urban government, public policy, administrative law, and public administration are especially valuable. Quantitative and statistical skills developed in these courses and applied in internships provide a powerful combination.

Political Science students go on to work in a wide range of International careers, in business, Foreign Service, and nongovernmental organizations. Political Science offers a wide variety of courses in comparative politics, international relations and organizations, public policy, political development, and interest group politics. These courses are often taken in combination with economics, statistics, computer science, and international trade.

Political Science students pursue careers in campaign management, political polling, national political committees, and consulting. They will have taken multiple courses in the American political system, comparative political parties, elections, public opinion, and voting behavior; as well as committing themselves to developing their writing and data analysis. There are over half a million campaigns in the United States annually, and while entry-level jobs have long hours, low pay, and enormous demands, they are places where you can "cut your political teeth." Local campaigns lead to statewide or national campaigns, and then perhaps to consulting and polling if that strikes your interest.

Political Science students have also traditionally gone into law. Some lawyers are litigators while others are employed by corporations, government, and other organizations. Political Science track fits nicely for students seeking law degrees as official credentials to "practice law" and those students who seek a law degree as an additional path to make positive impacts in their professional areas of interest. Some individuals with legal training work in other areas, such as corporate or public management. The department offers a wide variety of political theory, constitutional law, and public policy courses that will help you explore the interaction between law, politics, and society.

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are eligible to declare. For information on how to declare, visit Advising & Careers.
Courses required to get in	None
GPA requirements to get in	None
Credits required to get in	None
Other	None

Students declared in the Political Science certificate may not be declared in the Political Science major at the same time. Students who do wish to declare this major must first cancel their declaration in the certificate.

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. Some courses satisfy more than one L&S degree requirement (visit College of Letters & Science: Requirements (https://guide.wisc.edu/undergraduate/letters-science/#requirementstext) for details).

This major can be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Communication	Complete both: • Part A: one course with the Communication A designation or eligible UW Placement Score; and • Part B: one course with the Communication B designation
Quantitative Reasoning	Complete both: • Part A: one course with the Quantitative Reasoning A designation or eligible UW Placement Score; and • Part B: one course with the Quantitative Reasoning B designation
Ethnic Studies	one 3+ credit course with the Ethnic Studies designation
Language	the third unit of a language other than English
Mathematics	Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.
L&S Breadth: Humanities	Complete 12 credits with the Humanities or Literature designation, which must include at least 6 credits with the Literature designation.
L&S Breadth: Social Sciences	Complete 12 credits with the Social Science designation.
L&S Breadth: Natural Sciences	Complete 12 credits, which must include both: • 6 credits with the Biological Science designation, and • 6 credits with the Physical Science designation.
Liberal Arts and Science (LAS) Coursework	at least 108 credits
Depth of Intermediate/Advanced Coursework	at least 60 credits at the Intermediate or Advanced level
Major	Declare and complete at least one major.
Total Credits	at least 120 credits
UW-Madison Experience	• 30 credits in residence, overall, and • 30 credits in residence after the 86th credit
Quality of Work	• 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their School/College to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

30 credits are required in the following areas:

DISTRIBUTION [1]

Code	Title	Credits
Three courses and three areas required:		**9-12**
International Relations		
POLI SCI 140	Introduction to International Relations	

POLI SCI/ CHICLA/ HISTORY/ LACIS 268	The U.S. & Latin America from the Colonial Era to the Present: A Critical Survey
POLI SCI 340	The European Union: Politics and Political Economy

POLI SCI 342	State-Building: How States Are Formed, Function, and Influence Society
POLI SCI 442	Honors Seminar on State-Building
POLI SCI 529	Arab-Israeli Conflict
POLI SCI 635	Comparative Politics of Sport
POLI SCI 690	Study Abroad Topics in Political Science: Comparative Politics
Total Credits	**9-12**

RESEARCH METHODS

Code	Title	Credits
Complete one course from:		3-4
POLI SCI 170	Research Methods in Political Science	
POLI SCI 270	Political Data Science	
POLI SCI 274	Political Choice and Strategy	
POLI SCI 348	Analysis of International Relations	
POLI SCI/ JOURN/ URB R PL 373	Introduction to Survey Research	
Total Credits		**3-4**

ELECTIVES

Additional POLI SCI courses to attain 30 credits in the major.[2]

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all POLI SCI courses and courses that count toward the major
- 2.000 GPA on 15 upper-level credits in the major, taken in residence[3]
- 15 credits in POLI SCI, taken on campus

HONORS IN THE MAJOR

To declare Honors in the Major, students must have at least one POLI SCI course for Honors, at least a 3.300 University GPA, and meet with the major advisor to discuss the requirements.

To earn Honors in the Major, students must satisfy the requirements for the major (above) *and* these additional requirements:

- Earn a 3.300 or higher University GPA
- Earn 3.500 GPA or higher in all POLI SCI courses
- Complete at least 15 credits in POLI SCI for Honors to include:[4]

Code	Title	Credits
Complete one of these Thesis sequences:		6
POLI SCI 681 & POLI SCI 682	Senior Honors Thesis and Senior Honors Thesis	
POLI SCI 683 & POLI SCI 684	Senior Honors Thesis Seminar and Senior Honors Thesis Seminar	
Additional POLI SCI courses taken for Honors [4]		9
Total Credits		**15**

FOOTNOTES

1. Courses may only meet one Distribution area. A course may meet both a Distribution and the Research Methods requirement, but will only be applied once toward the 30 credits required in the major.
2. No more than 6 total credits of Directed Study (POLI SCI 199, POLI SCI 698, POLI SCI 699) and Internship (POLI SCI 315) may count in the major.
3. POLI SCI courses numbered 300 and higher count as upper-level in the major.
4. A grade of B or higher is required to earn Honors credit.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Develop an understanding of and appreciation for the methods and approaches of diverse subfields in Political Science--#American Politics, Comparative Politics, International Relations, and Political Theory--#and their relevance to important theoretical and pragmatic questions.
2. Analyze different forms and practices of governance both democratic and non#democratic.
3. Argue effectively and defend propositions with intellectual integrity, while considering a range of alternative points of view and evidence.
4. Analyze relations among individuals, civil society, political institutions, and states.
5. Analyze the motivations and consequences of political decision# making and activities.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

First Year

Fall	Credits	Spring	Credits
POLI SCI 104, 120, 140, or 160	3-4	POLI SCI 104, 120, 140, or 160 (complete two)	3-4
Communications A	3	Literature Breadth	3
Quantitative Reasoning A	3	Foreign Language (if needed)	4
Foreign Language (if needed)	4		
	14		**15**

Second Year

Fall	Credits	Spring	Credits
Declare the major		POLI SCI elective	3
POLI SCI/CHICLA 231, 297, or 355 (satisfies Ethnic Studies requirement)	3-4	Communications B	4
POLI SCI 270, 274, or 348 (satisfies Quantitative Reasoning B requirement)	3-4	Physical Science Breadth	3
Biological Science Breadth	3	Literature Breadth	3
I/A COMP SCI, MATH or STAT (if BS)	3	I/A COMP SCI, MATH, or STAT (if BS)	3
INTER-LS 210	1		
	15		**16**

Third Year

Fall	Credits	Spring	Credits
POLI SCI course 300 and above	4	POLI SCI course 300 and above	3
Humanities Breadth	3	Humanities Breadth	3
Science Breadth	3	Science Breadth	3
Elective	4	Elective	6
		Apply for Senior Thesis (optional)[1]	
	14		**15**

Fourth Year

Fall	Credits	Spring	Credits
POLI SCI course 300 and above	4	POLI SCI course 300 and above	6
POLI SCI 681, 683, or 691 (optional)[1]	3-4	POLI SCI 682, 684, or 692 (optional)[1]	3-4
Elective	9	Elective	6
	16		**15**

Total Credits 120

[1] Students wishing to write a senior thesis (with or without Honors) should apply in the spring of their third year.

ADVISING AND CAREERS

ADVISING AND CAREERS

DECLARE OR CANCEL THIS MAJOR

Please follow the process described on the Political Science (https://polisci.wisc.edu/declare-major-2/) website.

ADVISING

The Department of Political Science has academic advisors who are available to meet with you to offer guidance on:

- course selection;
- program planning;
- internship opportunities;
- study abroad programs;
- scholarship opportunities;
- student research interests; and
- transfer and study abroad credits

Information about scheduling appointments can be found here (https://polisci.wisc.edu/advising-and-major-information/#advising). Please note that no advising appointments are scheduled via email.

ENROLLMENT INFORMATION

Political Science students who wish to enroll in the following courses must obtain prior consent/authorization:

- Directed Study
- Thesis
- Proseminars (varies by specific course; check footnotes in the class schedule)
- Specific Topic
- Other advanced-level coursework with consent of the instructor in lieu of other required courses.

Information and course descriptions are posted on the department website prior to each enrollment period. POLI SCI 315 Legislative Internship is available by application only. Specific deadlines will be announced each semester. Students with a classification making them ineligible for certain courses due to retroactive or AP credits may see the instructor for possible permission to enroll on a space available basis. Students who wish to enroll in a course that is closed may use the wait list (https://kb.wisc.edu/15002/) available through Course Search & Enroll. The number of credits for variable credit courses is determined by course format and contact periods for a specific semester as noted in the class schedule. For graduate programs, see the Graduate section of this Guide (https://guide.wisc.edu/graduate/political-science/).

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

POLITICAL SCIENCE, CERTIFICATE

Political science is the systematic study of power. Whether power is exercised formally, as is the case between government and the individual, or informally, as is the case between individuals, it is the systematic study of power relationships that provides the subject matter for the discipline.

There are many approaches to political science: the analysis of governmental structures, influences on voter choice, the relationship between national governments, or the best form of government. Students studying political science develop an understanding of the workings of government and also important skills in critical thinking and analysis. These skills make them ideal candidates for careers in law; in government at the state, national, and international levels; in business; in journalism; and in politics.

HOW TO GET IN

HOW TO GET IN

DECLARING THE CERTIFICATE

There are no pre-requisites for declaring the Political Science certificate. Students can declare at any time on the our website (https://

polisci.wisc.edu/politicalsciencecertificate/#requirements-and-declaration). Political science majors are not eligible to declare the Political Science certificate.

REQUIREMENTS

REQUIREMENTS

Only 4 credits of Introductory requirement coursework will count in the certificate. Students must take at least one 3 credit Reading and Writing in Political Science course. Students may take more than one Reading and Writing in Political Science course to meet the certificate requirements; additional Reading and Writing in Political Science courses after the first count toward the required Intermediate and Advanced level Elective courses.

Code	Title	Credits
Introductory Course (complete one)		**3-4**
POLI SCI 104	Introduction to American Politics and Government	
POLI SCI 120	Introduction to Comparative Politics	
POLI SCI 140	Introduction to International Relations	
POLI SCI 160	Introduction to Political Theory	
POLI SCI 182	Introduction to Comparative Politics (Honors)	
Reading and Writing in Political Science (complete one)		**3-4**
POLI SCI 206	Introduction to Political Psychology

Total Credits	**16**

RESIDENCE AND QUALITY OF WORK

- Minimum 2.000 GPA in all certificate courses
- At least 12 certificate credits must be completed on campus

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Develop an understanding of and appreciation for the methods and approaches in Political Science and their relevance to important theoretical and pragmatic questions.
2. Analyze different forms and practices of governance both democratic and non#democratic.
3. Argue effectively and defend propositions with intellectual integrity, while considering a range of alternative points of view and evidence.
4. Analyze relations among individuals, civil society, political institutions, and states.
5. Analyze the motivations and consequences of political decision# making and activities.

ADVISING AND CAREERS

ADVISING AND CAREERS

ADVISING

Students who are declared or interested in the Political Science certificate have numerous advising resources available to them. The Political Science advising team is composed of professional and peer advisors who are excited to talk with students about everything from academic planning to professional development for future careers. Information on the advising team, how to contact an advisor, and how to schedule an appointment hours can be found on this website (https://polisci.wisc.edu/politicalsciencecertificate/).

INTERNSHIPS

The Department of Political Science recognizes the importance of internships in helping students develop professional skills and explore potential career paths. Positions can vary depending on availability and students' interests, but recent sponsors have included the Wisconsin State Legislature, the Office of the Governor, Sierra Club, and numerous nonprofit, media, lobbyist, and policy organizations in Wisconsin and throughout the country. Please see our internship board (https://polisci.wisc.edu/internship-board/) for examples of the wide array of opportunities. Political Science certificate students can also get academic credit in conjunction with an internship by taking Legislative Internship (POLI SCI 315).

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format,

language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

PSYCHOLOGY

DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/CERTIFICATES

- Psychology, BA (p. 1416)
- Psychology, BS (p. 1421)

PSYCHOLOGY, BA

The Psychology major focuses on several areas in the field of psychological science: biological, clinical, cognition and cognitive neuroscience, perception, developmental, and social and personality.

Students in the major have opportunities to:

- learn about the multiple content areas of scientific psychology;
- develop the ability to think critically and quantitatively;
- enhance communication skills in the classroom and in writing;
- prepare for the most rigorous graduate and professional programs;
- apply the science of psychology to the well-being of citizens of Wisconsin and the global community.

Some students will go to graduate school and become the next generation of psychological scientists and educators who will create and disseminate new knowledge. Others will choose careers in other areas, including business, medicine, law, education, and counseling. Through its strong interdisciplinary connections with the natural sciences, social sciences, humanities, and medical sciences, scientific psychology is positioned well to influence critical issues for society. Because all courses in psychology emphasize critical thinking and the analysis of research, the Psychology major prepares students to take on the challenges of and fully participate in an increasingly complex, multicultural world.

HOW TO GET IN

HOW TO GET IN

Students who successfully complete PSYCH 202 (or equivalent) with a grade of C or better are eligible to declare the major.[1]

Please refer to the Department website for instructions on how to declare the major (https://psych.wisc.edu/undergraduate-program/major/#declare-the-major).

[1] Equivalents include a score of 4 or higher on the IB Psychology exam or or a score of 4 or 5 on the AP Psychology exam.

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)

Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a Bachelor of Arts degree in the College of Letters & Science must complete all of the requirements below. Some courses satisfy more than one L&S degree requirement (visit College of Letters & Science: Requirements (https://guide.wisc.edu/undergraduate/letters-science/#requirementstext) for details).

This major can be paired with either the Bachelor of Arts or Bachelor of Science degree requirements.

BACHELOR OF ARTS DEGREE REQUIREMENTS

Communication	Complete both: • Part A: one course with the Communication A designation or eligible UW Placement Score; and • Part B: one course with the Communication B designation
Quantitative Reasoning	Complete both: • Part A: one course with the Quantitative Reasoning A designation or eligible UW Placement Score; and • Part B: one course with the Quantitative Reasoning B designation
Ethnic Studies	one 3+ credit course with the Ethnic Studies designation
Language	Complete either: • the fourth unit of one language other than English; or • the third unit of one language other than English and the second unit of an additional language.
L&S Breadth: Humanities	Complete 12 credits with the Humanities or Literature designation, which must include at least 6 credits with the Literature designation.
L&S Breadth: Social Sciences	Complete 12 credits with the Social Science designation.
L&S Breadth: Natural Sciences	Complete 12 credits with the Natural Science, Biological Science, or Physical Science designations, which must include both: • one 3+ credit course with the Biological Science designation, and • one 3+ credit course with the Physical Science designation.
Liberal Arts and Science (LAS) Coursework	at least 108 credits
Depth of Intermediate/Advanced work	at least 60 credits at the Intermediate or Advanced level
Major	Declare and complete at least one major.

Total Credits	at least 120 credits
UW-Madison Experience	• 30 credits in residence, overall; and • 30 credits in residence after the 86th credit
Quality of Work	• 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their School/College to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

The major requires the completion of the six categories below (Foundation, Biology, Breadth, Depth, Capstone and Electives) and a minimum of 30 credits in PSYCH (https://guide.wisc.edu/courses/psych/) coursework.

FOUNDATION

Foundation courses provide a grounding in basic psychological facts and an understanding of the methodologies used to produce those facts. **Foundation courses are required** with ***grades of C or better*** in each course;

Code	Title	Credits
Introductory Psychology—one course: [1]		**3-4**
PSYCH 202	Introduction to Psychology	
Statistics—one course:		**3**
PSYCH 210	Basic Statistics for Psychology	
STAT 324	Introduction to Statistics for Science and Engineering	
STAT 340	Data Science Modeling II	
STAT 371	Introductory Applied Statistics for the Life Sciences	
Research Methods—one course:		**4**
PSYCH 225	Research Methods	

BIOLOGY

Foundational knowledge in biology is critical to the study of psychological science and the understanding of human and animal behavior, as well as the brain sciences.

Code	Title	Credits
Introductory Biology—complete one of following: [2]		
BIOLOGY/ ZOOLOGY 101	Animal Biology	3
BIOLOGY/BOTANY/ ZOOLOGY 151	Introductory Biology	5
BIOCORE 381 & BIOCORE 383	Evolution, Ecology, and Genetics and Cellular Biology	6

BREADTH

Breadth courses familiarize students with the breadth of psychology in the following area groups: Biological, Clinical, Cognitive & Perceptual Science, Development, and Social & Personality. Complete one course from three different area groups for a total of three courses:

Biological

Code	Title	Credits
PSYCH 449	Animal Behavior	3-4
PSYCH 450	Primate Psychology: Insights into Human Behavior	3-4
PSYCH 454	Behavioral Neuroscience	3-4
PSYCH/ ZOOLOGY 523	Neurobiology	3

Clinical

Code	Title	Credits
PSYCH 401	Psychology, Law, and Social Policy	3
PSYCH 405	Adult Psychopathology	3-4

Cognitive and Perceptual Sciences

Code	Title	Credits
PSYCH 406	Psychology of Perception	3-4
PSYCH 414	Cognitive Psychology	3-4

Developmental

Code	Title	Credits
PSYCH 460	Child Development	3-4
PSYCH 462	Adolescent Development	3-4
PSYCH 464	Adult Development and Aging	3

Social and Personality

Code	Title	Credits
PSYCH 403	Psychology of Personality	3
PSYCH/SOC 453	Human Sexuality	4
PSYCH 456	Social Psychology	3-4
PSYCH/ GEN&WS 522	Psychology of Women and Gender	3

DEPTH

Depth courses allow students to engage in depth with material in specific content areas in psychology. Depth courses include both a lecture component and a required discussion/lab section for all students, and they help students develop a deeper understanding of particular areas of psychology. **Two courses** are required:

Code	Title	Credits
PSYCH 501	Depth Topic in Social Science (multiple separate topics offered each semester)	4
PSYCH 502	Cognitive Development	4
PSYCH 503	Social Development	4
PSYCH 505	Depth Topic in Biological Science (multiple separate topics offered each semester)	4
PSYCH 507	Introduction to Clinical Psychology	4
PSYCH 508	Psychology of Human Emotions: From Biology to Culture	4
PSYCH 510	Critical Issues in Child Psychopathology	4
PSYCH 513	Hormones, Brain, and Behavior	4

PSYCH 515	Animal Cognition	4
PSYCH 526	The Criminal Mind: Forensic and Psychobiological Perspectives	4
PSYCH 528	Cultural Psychology	4
PSYCH 532	Psychological Effects of the Internet	4

CAPSTONE

Capstone courses allow students to explore current research in psychology in a seminar setting. **One course** is required:

Code	Title	Credits
PSYCH 601	Current Topics in Psychology (many separate topics each semester)	3
PSYCH 603	Epigenetics and the Brain	3
PSYCH 607	Introduction to Psychotherapy	3
PSYCH 612	Neuropharmacology	3
PSYCH 626	Issues in Prisoner Reentry	3

ELECTIVES

In addition to completion of the courses required above, students must complete at least **3 additional credits** in PSYCH (https://guide.wisc.edu/courses/psych/) in courses numbered **300 and above**. Students may complete any additional PSYCH course(s), including courses from: the Breadth, Depth, or Capstone areas, or directed/independent study and mentored research.

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all PSYCH and major courses
- 2.000 GPA on 15 upper-level major credits, taken in residence [3]
- 15 credits in PSYCH, taken on the UW–Madison campus

HONORS IN THE MAJOR

Students who are declared psychology majors may opt to pursue Honors in the Major. Honors in the Major is especially appropriate for students who want more in-depth exposure and experiences in psychology courses, as well as substantive research involvement in the Department. Honors in the Major also provides opportunities to develop leadership, writing, and critical thinking skills beneficial to a wide range of graduate programs and career choices.

Students must have a minimum GPA of 3.3 within the Psychology major as well as minimum GPA of 3.3 overall, and have met with a Psychology Advisor regarding Honors in the Major in order to declare their intent to complete Honors in the Major in Psychology.

Please refer to the Department website for instructions on how to declare intent to complete honors in the major (https://psych.wisc.edu/undergraduate-program/major/#honors-in-the-major).

HONORS IN THE PSYCHOLOGY MAJOR REQUIREMENTS

To earn Honors in the Major in Psychology, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA in all PSYCH and major courses
- Complete the following courses with Honors and a grade of B or higher:
  - PSYCH 380 (Junior year) or two semesters of PSYCH 686 Senior Thesis Seminar in Psychology (requires Fall and Spring enrollment)
  - Three Psychology Breadth and/or Depth courses OR Two Psychology Breadth and/or Depth courses and one of the following: PSYCH 210 Basic Statistics for Psychology or PSYCH 225 Research Methods
  - A two-semester Senior Honors Thesis in PSYCH 681 and PSYCH 682 for a total of 6 credits.

FOOTNOTES

[1] Equivalents may include credit awarded by appropriate scores on AP, IB, or A-level exams or transfer credit.

[2] A score of 4 or better on the IB Biology exam, or a score of 4 or 5 on the AP Biology exam will satisfy the Introductory Biology requirement.

[3] PSYCH 300–699 are upper-level in the major.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Gain an appreciation for the contributions that psychology is making to our understanding of human and animal behavior.
2. Learn to analyze and construct arguments, define and solve problems, and understand and apply scientific reasoning.
3. Learn to communicate their ideas in a clear, organized, and compelling way.
4. Gain a specific understanding of how to use data and research methodology in their critical thinking.
5. Acquire an appreciation of and respect for individual differences and diversity of experiences and background.
6. Acquire the statistical and research skills used in the behavioral sciences.
7. Have the opportunity to evaluate the diverse professional opportunities in psychology.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

First Year

Fall	Credits	Spring	Credits
Communication A	3	Psych Breadth Course	3
Quantitative Reasoning A	3	ZOOLOGY/ BIOLOGY 101[1]	3

Language (if needed)	3	Ethnic Studies	3
PSYCH 202	3-4	Literature Breadth	3
Physical Science Breadth	3	Electives	3
	15		**15**

Second Year

Fall	Credits	Spring	Credits
Psych Breadth Course	3	PSYCH 210 (satisfies QR-B)[2]	3
Literature Breadth	3	INTER-LS 210 (optional)	1
Physical Science Breadth (if needed)	3	Psych Breadth Course	3
Electives	6	Humanities Breadth	3
		Electives	5
	15		**15**

Third Year

Fall	Credits	Spring	Credits
PSYCH 225 (satisfies Communication B)	4	Psych Depth Course (may be taken in Fourth Year)	4
Humanities Breadth	3	Psych Elective (3 PSYCH elective credits needed)[3]	3
Intermediate/Advanced MATH, COMP SCI, or STAT (if needed for the BS)	3	Electives	8
Electives	5		
	15		**15**

Fourth Year

Fall	Credits	Spring	Credits
Psych Depth Course (Fall and/or Spring)	4	Electives	15
Psych Capstone (Fall or Spring)	3		
Intermediate/Advanced MATH, COMP SCI, or STAT (if needed for the BS)	3		
Electives	5		
	15		**15**

Total Credits 120

1 Other courses satisfy the Biology requirement for this major. Consult the Requirements page and adjust your plan accordingly.

2 Other courses satisfy the Statistics requirement for this major. Consult the Requirements page and adjust your plan accordingly. We recommend a Psych Breadth course before completing the statistics requirement.

3 PSYCH 300-699 are electives in the major.

ADVISING AND CAREERS

ADVISING AND CAREERS

ADVISING

Any current UW–Madison undergraduate student interested in the Psychology major is welcome to schedule an appointment using Starfish (https://wisc.starfishsolutions.com/starfish-ops/dl/instructor/serviceCatalog.html?bookmark=service/64232/schedule) with a Psychology academic advisor.

For more information about psychology advising visit psych.wisc.edu/undergraduate-program/advising (http://psych.wisc.edu/undergraduate-program/advising/).

Are you a prospective student? The Department of Psychology welcomes prospective students to attend our Information Sessions held throughout the year. Please visit the Office of Admissions' Visit Bucky website (https://www.admissions.wisc.edu/visitbucky/) for information on dates and times of our Psychology Major Information Sessions. Read more: psych.wisc.edu/undergraduate-program/prospective-students/ (https://psych.wisc.edu/undergraduate-program/prospective-students/)

CAREERS

Students who major in Psychology enter a wide variety of careers, both with and without education beyond a Bachelor's degree. The American Psychological Association with the Center for Workforce Studies has recent statistics on What do you do with a Psychology degree? CWS Data Tool: Careers in Psychology (https://www.apa.org/workforce/data-tools/careers-psychology/).

There are several campus resources to guide students in their career search. Students who are unsure about their desired major/career are encouraged to visit the Career Exploration Center (https://cec.ccas.wisc.edu/). The SuccessWorks at the College of Letters & Science (https://successworks.wisc.edu/) offers a variety of opportunities ranging from career assessment, resume writing, interviewing techniques, internships, graduate school, and more. Additionally, the Department of Psychology offers career support and resources (https://psych.wisc.edu/undergraduate-program/career-exploration/) for current students who have declared a Psychology major.

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

PSYCHOLOGY, BS

The Psychology major focuses on several areas in the field of psychological science: biological, clinical, cognition and cognitive neuroscience, perception, developmental, and social and personality.

Students in the major have opportunities to:

- learn about the multiple content areas of scientific psychology;
- develop the ability to think critically and quantitatively;
- enhance communication skills in the classroom and in writing;
- prepare for the most rigorous graduate and professional programs;
- apply the science of psychology to the well-being of citizens of Wisconsin and the global community.

Some students will go to graduate school and become the next generation of psychological scientists and educators who will create and disseminate new knowledge. Others will choose careers in other areas, including business, medicine, law, education, and counseling. Through its strong interdisciplinary connections with the natural sciences, social sciences, humanities, and medical sciences, scientific psychology is positioned well to influence critical issues for society. Because all courses in psychology emphasize critical thinking and the analysis of research, the Psychology major prepares students to take on the challenges of and fully participate in an increasingly complex, multicultural world.

HOW TO GET IN

HOW TO GET IN

Students who successfully complete PSYCH 202 (or equivalent) with a grade of C or better are eligible to declare the major.[1]

Please refer to the Department website for instructions on how to declare the major (https://psych.wisc.edu/undergraduate-program/major/#declare-the-major).

[1] Equivalents include a score of 4 or higher on the IB Psychology exam or or a score of 4 or 5 on the AP Psychology exam.

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. Some courses satisfy more than one L&S degree requirement (visit College of Letters & Science: Requirements (https://guide.wisc.edu/undergraduate/letters-science/#requirementstext) for details).

This major can be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Communication	Complete both: • Part A: one course with the Communication A designation or eligible UW Placement Score; and • Part B: one course with the Communication B designation
Quantitative Reasoning	Complete both: • Part A: one course with the Quantitative Reasoning A designation or eligible UW Placement Score; and • Part B: one course with the Quantitative Reasoning B designation
Ethnic Studies	one 3+ credit course with the Ethnic Studies designation
Language	the third unit of a language other than English
Mathematics	Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.
L&S Breadth: Humanities	Complete 12 credits with the Humanities or Literature designation, which must include at least 6 credits with the Literature designation.
L&S Breadth: Social Sciences	Complete 12 credits with the Social Science designation.
L&S Breadth: Natural Sciences	Complete 12 credits, which must include both: • 6 credits with the Biological Science designation, and • 6 credits with the Physical Science designation.
Liberal Arts and Science (LAS) Coursework	at least 108 credits
Depth of Intermediate/ Advanced Coursework	at least 60 credits at the Intermediate or Advanced level
Major	Declare and complete at least one major.
Total Credits	at least 120 credits
UW-Madison Experience	• 30 credits in residence, overall, and • 30 credits in residence after the 86th credit
Quality of Work	• 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their School/College to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

The major requires the completion of the six categories below (Foundation, Biology, Breadth, Depth, Capstone and Electives) and a minimum of 30 credits in PSYCH (https://guide.wisc.edu/courses/psych/) coursework.

FOUNDATION

Foundation courses provide a grounding in basic psychological facts and an understanding of the methodologies used to produce those

facts. **Foundation courses are required** with ***grades of C or better*** in each course;

Code	Title	Credits
Introductory Psychology—one course: [1]		**3-4**
PSYCH 202	Introduction to Psychology	
Statistics—one course:		**3**
PSYCH 210	Basic Statistics for Psychology	
STAT 324	Introduction to Statistics for Science and Engineering	
STAT 340	Data Science Modeling II	
STAT 371	Introductory Applied Statistics for the Life Sciences	
Research Methods—one course:		**4**
PSYCH 225	Research Methods	

BIOLOGY

Foundational knowledge in biology is critical to the study of psychological science and the understanding of human and animal behavior, as well as the brain sciences.

Code	Title	Credits
Introductory Biology—complete one of following: [2]		
BIOLOGY/ ZOOLOGY 101	Animal Biology	3
BIOLOGY/BOTANY/ ZOOLOGY 151	Introductory Biology	5
BIOCORE 381 & BIOCORE 383	Evolution, Ecology, and Genetics and Cellular Biology	6

BREADTH

Breadth courses familiarize students with the breadth of psychology in the following area groups: Biological, Clinical, Cognitive & Perceptual Science, Development, and Social & Personality. Complete one course from three different area groups for a total of three courses:

Biological

Code	Title	Credits
PSYCH 449	Animal Behavior	3-4
PSYCH 450	Primate Psychology: Insights into Human Behavior	3-4
PSYCH 454	Behavioral Neuroscience	3-4
PSYCH/ ZOOLOGY 523	Neurobiology	3

Clinical

Code	Title	Credits
PSYCH 401	Psychology, Law, and Social Policy	3
PSYCH 405	Adult Psychopathology	3-4

Cognitive and Perceptual Sciences

Code	Title	Credits
PSYCH 406	Psychology of Perception	3-4
PSYCH 414	Cognitive Psychology	3-4

Developmental

Code	Title	Credits
PSYCH 460	Child Development	3-4
PSYCH 462	Adolescent Development	3-4
PSYCH 464	Adult Development and Aging	3

Social and Personality

Code	Title	Credits
PSYCH 403	Psychology of Personality	3
PSYCH/SOC 453	Human Sexuality	4
PSYCH 456	Social Psychology	3-4
PSYCH/ GEN&WS 522	Psychology of Women and Gender	3

DEPTH

Depth courses allow students to engage in depth with material in specific content areas in psychology. Depth courses include both a lecture component and a required discussion/lab section for all students, and they help students develop a deeper understanding of particular areas of psychology. **Two courses** are required:

Code	Title	Credits
PSYCH 501	Depth Topic in Social Science (multiple separate topics offered each semester)	4
PSYCH 502	Cognitive Development	4
PSYCH 503	Social Development	4
PSYCH 505	Depth Topic in Biological Science (multiple separate topics offered each semester)	4
PSYCH 507	Introduction to Clinical Psychology	4
PSYCH 508	Psychology of Human Emotions: From Biology to Culture	4
PSYCH 510	Critical Issues in Child Psychopathology	4
PSYCH 513	Hormones, Brain, and Behavior	4
PSYCH 515	Animal Cognition	4
PSYCH 526	The Criminal Mind: Forensic and Psychobiological Perspectives	4
PSYCH 528	Cultural Psychology	4
PSYCH 532	Psychological Effects of the Internet	4

CAPSTONE

Capstone courses allow students to explore current research in psychology in a seminar setting. **One course** is required:

Code	Title	Credits
PSYCH 601	Current Topics in Psychology (many separate topics each semester)	3
PSYCH 603	Epigenetics and the Brain	3
PSYCH 607	Introduction to Psychotherapy	3
PSYCH 612	Neuropharmacology	3
PSYCH 626	Issues in Prisoner Reentry	3

ELECTIVES

In addition to completion of the courses required above, students must complete at least **3 additional credits** in PSYCH (https://guide.wisc.edu/

courses/psych/) in courses numbered **300 and above**. Students may complete any additional PSYCH course(s), including courses from: the Breadth, Depth, or Capstone areas, or directed/independent study and mentored research.

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all PSYCH and major courses
- 2.000 GPA on 15 upper-level major credits, taken in residence [3]
- 15 credits in PSYCH, taken on the UW–Madison campus

HONORS IN THE MAJOR

Students who are declared psychology majors may opt to pursue Honors in the Major. Honors in the Major is especially appropriate for students who want more in-depth exposure and experiences in psychology courses, as well as substantive research involvement in the Department. Honors in the Major also provides opportunities to develop leadership, writing, and critical thinking skills beneficial to a wide range of graduate programs and career choices.

Students must have a minimum GPA of 3.3 within the Psychology major as well as minimum GPA of 3.3 overall, and have met with a Psychology Advisor regarding Honors in the Major in order to declare their intent to complete Honors in the Major in Psychology.

Please refer to the Department website for instructions on how to declare intent to complete honors in the major (https://psych.wisc.edu/undergraduate-program/major/#honors-in-the-major).

HONORS IN THE PSYCHOLOGY MAJOR REQUIREMENTS

To earn Honors in the Major in Psychology, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA in all PSYCH and major courses
- Complete the following courses with Honors and a grade of B or higher:
  - PSYCH 380 (Junior year) or two semesters of PSYCH 686 Senior Thesis Seminar in Psychology (requires Fall and Spring enrollment)
  - Three Psychology Breadth and/or Depth courses OR Two Psychology Breadth and/or Depth courses and one of the following: PSYCH 210 Basic Statistics for Psychology or PSYCH 225 Research Methods
  - A two-semester Senior Honors Thesis in PSYCH 681 and PSYCH 682 for a total of 6 credits.

FOOTNOTES

1 Equivalents may include credit awarded by appropriate scores on AP, IB, or A-level exams or transfer credit.

2 A score of 4 or better on the IB Biology exam, or a score of 4 or 5 on the AP Biology exam will satisfy the Introductory Biology requirement.

3 PSYCH 300–699 are upper-level in the major.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Gain an appreciation for the contributions that psychology is making to our understanding of human and animal behavior.
2. Learn to analyze and construct arguments, define and solve problems, and understand and apply scientific reasoning.
3. Learn to communicate their ideas in a clear, organized, and compelling way.
4. Gain a specific understanding of how to use data and research methodology in their critical thinking.
5. Acquire an appreciation of and respect for individual differences and diversity of experiences and background.
6. Acquire the statistical and research skills used in the behavioral sciences.
7. Have the opportunity to evaluate the diverse professional opportunities in psychology.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

First Year

Fall	Credits	Spring	Credits
Communication A	3	Psych Breadth Course	3
Quantitative Reasoning A	3	ZOOLOGY/ BIOLOGY 101[1]	3
Language (if needed)	3	Ethnic Studies	3
PSYCH 202	3-4	Literature Breadth	3
Physical Science Breadth	3	Electives	3
	15		**15**

Second Year

Fall	Credits	Spring	Credits
Psych Breadth Course	3	PSYCH 210 (satisfies QR-B)[2]	3
Literature Breadth	3	INTER-LS 210 (optional)	1
Physical Science Breadth (if needed)	3	Psych Breadth Course	3
Electives	6	Humanities Breadth	3
		Electives	5
	15		**15**

Third Year

Fall	Credits	Spring	Credits
PSYCH 225 (satisfies Communication B)	4	Psych Depth Course (may be taken in Fourth Year)	4
Humanities Breadth	3	Psych Elective (3 PSYCH elective credits needed)[3]	3
Intermediate/Advanced MATH, COMP SCI, or STAT (if needed for the BS)	3	Electives	8
Electives	5		
	15		**15**

Fourth Year

Fall	Credits	Spring	Credits
Psych Depth Course (Fall and/or Spring)	4	Electives	15
Psych Capstone (Fall or Spring)	3		
Intermediate/Advanced MATH, COMP SCI, or STAT (if needed for the BS)	3		
Electives	5		
	15		**15**

Total Credits 120

1 Other courses satisfy the Biology requirement for this major. Consult the Requirements page and adjust your plan accordingly.

2 Other courses satisfy the Statistics requirement for this major. Consult the Requirements page and adjust your plan accordingly. We recommend a Psych Breadth course before completing the statistics requirement.

3 PSYCH 300-699 are electives in the major.

ADVISING AND CAREERS

ADVISING AND CAREERS

ADVISING

Any current UW–Madison undergraduate student interested in the Psychology major is welcome to schedule an appointment using Starfish (https://wisc.starfishsolutions.com/starfish-ops/dl/instructor/serviceCatalog.html?bookmark=service/64232/schedule) with a Psychology academic advisor.

For more information about psychology advising visit psych.wisc.edu/undergraduate-program/advising (http://psych.wisc.edu/undergraduate-program/advising/).

Are you a prospective student? The Department of Psychology welcomes prospective students to attend our Information Sessions held throughout the year. Please visit the Office of Admissions' Visit Bucky website (https://www.admissions.wisc.edu/visitbucky/) for information on dates and times of our Psychology Major Information Sessions. Read more: psych.wisc.edu/undergraduate-program/prospective-students/ (https://psych.wisc.edu/undergraduate-program/prospective-students/)

CAREERS

Students who major in Psychology enter a wide variety of careers, both with and without education beyond a Bachelor's degree. The American Psychological Association with the Center for Workforce Studies has recent statistics on What do you do with a Psychology degree? CWS Data Tool: Careers in Psychology (https://www.apa.org/workforce/data-tools/careers-psychology/).

There are several campus resources to guide students in their career search. Students who are unsure about their desired major/career are encouraged to visit the Career Exploration Center (https://cec.ccas.wisc.edu/). The SuccessWorks at the College of Letters & Science (https://successworks.wisc.edu/) offers a variety of opportunities ranging from career assessment, resume writing, interviewing techniques, internships, graduate school, and more. Additionally, the Department of Psychology offers career support and resources (https://psych.wisc.edu/undergraduate-program/career-exploration/) for current students who have declared a Psychology major.

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

RELIGIOUS STUDIES

DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/CERTIFICATES

- Religious Studies, BA (p. 1426)
- Religious Studies, BS (p. 1430)
- Religious Studies, Certificate (p. 1435)

RELIGIOUS STUDIES, BA

Religious Studies is an academic discipline that looks at religious phenomena worldwide from different perspectives to understand the many roles that religion plays in human life. To this end, students of religion learn to use a variety of theoretical analyses and methods:

- historical methods to understand how religions develop in time;
- critical literary methods to understand religious ideas;
- aesthetic methods to understand religious art and material culture;
- social-scientific methods to understand the relationship between religion, society and culture.

Religious studies can also engage a variety of professional disciplines in analysis of how religion functions in economic, educational or political contexts, healthcare and scientific research, and others.

Some ways of studying religion emphasize understanding religions on their own terms, other ways use comparative methods to discern differences and similarities between religions. Students of religion also study ways that people use religious resources to make meaning outside the boundaries of religious institutions and identities. Above all, the field of religious studies requires a willingness to explore different ways of interpreting human life and diligent effort to develop understanding of how religious ideas, symbols, rituals and spaces serve as resources for people in a variety of contexts as they make sense of and live out their lives in the world. Thus, the Religious Studies major provides important preparation for thinking, communicating and functioning professionally and personally in a complex, multidimensional world.

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are eligible to declare. For information on how to declare, visit Advising & Careers.
Courses required to get in	None
GPA requirements to get in	None
Credits required to get in	None
Other	None

Students declared in the Religious Studies certificate may not be declared in the Religious Studies major at the same time. Students who do wish to declare this major must first cancel their declaration in the certificate.

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a Bachelor of Arts degree in the College of Letters & Science must complete all of the requirements below. Some courses satisfy more than one L&S degree requirement (visit College of Letters & Science: Requirements (https://guide.wisc.edu/undergraduate/letters-science/#requirementstext) for details).

This major can be paired with either the Bachelor of Arts or Bachelor of Science degree requirements.

BACHELOR OF ARTS DEGREE REQUIREMENTS

Communication	Complete both: • Part A: one course with the Communication A designation or eligible UW Placement Score; and • Part B: one course with the Communication B designation
Quantitative Reasoning	Complete both: • Part A: one course with the Quantitative Reasoning A designation or eligible UW Placement Score; and • Part B: one course with the Quantitative Reasoning B designation
Ethnic Studies	one 3+ credit course with the Ethnic Studies designation
Language	Complete either: • the fourth unit of one language other than English; or • the third unit of one language other than English and the second unit of an additional language.
L&S Breadth: Humanities	Complete 12 credits with the Humanities or Literature designation, which must include at least 6 credits with the Literature designation.
L&S Breadth: Social Sciences	Complete 12 credits with the Social Science designation.
L&S Breadth: Natural Sciences	Complete 12 credits with the Natural Science, Biological Science, or Physical Science designations, which must include both: • one 3+ credit course with the Biological Science designation, and • one 3+ credit course with the Physical Science designation.
Liberal Arts and Science (LAS) Coursework	at least 108 credits
Depth of Intermediate/ Advanced work	at least 60 credits at the Intermediate or Advanced level
Major	Declare and complete at least one major.
Total Credits	at least 120 credits
UW-Madison Experience	• 30 credits in residence, overall; and • 30 credits in residence after the 86th credit
Quality of Work	• 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their School/College to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

Students must complete 30 credits in Religious Studies course work, to include:

Code	Title	Credits
Gateway (Complete one course:)		**3**
RELIG ST 101	Religion in Global Perspective	

RELIG ST 102	Exploring Religion in Sickness and Health	
RELIG ST 103	Exploring Religion and Sexuality

Total Credits		**30**

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all RELIG ST and major courses
- 2.000 GPA on 15 Upper-Level credits for the major, taken in residence[1]
- 15 credits in RELIG ST or the major, taken on campus

[1] Courses counting as upper-level in the major are any RELIG ST courses at the Intermediate or Advanced level.

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Religious Studies undergraduate advisor.

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and these additional requirements:

- Minimum 3.300 University GPA
- Minimum 3.500 GPA in all RELIG ST and all major courses
- Complete 12 credits, taken for Honors, with individual grades of B or better, to include:
  - RELIG ST 600
  - RELIG ST 681 and RELIG ST 682 for at least 6 credits.
  - 3 additional credits of Intermediate or Advanced level RELIG ST and major courses

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Proficiency in close reading, interpretation, and written and oral analysis.
2. Proficiency in accessing, appraising, and utilizing a variety of resources and methods for research across disciplinary lines.
3. Proficiency in categorizing, analyzing and comparing diverse systems of value and belief in a variety of contexts.
4. Global and local religious literacy; identifying, evaluating, and interpreting the interrelationships and impact of religious worldviews and communities in Wisconsin, the United States and globally.
5. Ability to conduct and present sustained research on primary sources using methodologies/analysis of religious studies culminating in the senior capstone project.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

First Year

Fall	Credits	Spring	Credits
RELIG ST 101, 102, 103, 104, or 105	3	RELIG ST course meeting Literature Breadth[1]	3
Communication A	3	RELIG ST elective	3
Quantitative Reasoning A	3-4	Biological Science Breadth	3
Language (if needed)	4	Social Science Breadth	3
Elective	3	Elective	3
	16		**15**

Second Year

Fall	Credits	Spring	Credits
RELIG ST course with Literature Breadth[1]	3	RELIG ST/ILS 234 or 236 (meets Communication B requirement)	3
Quantitative Reasoning B	3	RELIG ST/ FOLKLORE 352 or 403 (meets Ethnic Studies requirement)	3
Social Science Breadth	3	Physical Science Breadth	3
Elective	4	I/A COMP SCI, MATH or STAT (if needed for BS)	3
INTER-LS 210	1	Elective	4
	14		**16**

Third Year

Fall	Credits	Spring	Credits
RELIG ST Elective (numbered 300 or above)	6	RELIG ST Elective (numbered 300 or above)	9
Social Science Breadth	3	Science Breadth	3
I/A COMP SCI, MATH or STAT (if needed for BS)	3	Social Science Breadth	3
Elective	4		
	16		**15**

Fourth Year

Fall	Credits	Spring	Credits
RELIG ST Elective (numbered 300 or above)	3	RELIG ST Electives	6
Science Breadth	3	Elective	9
Electives	4	RELIG ST 600	3
	10		**18**

Total Credits 120

[1] Consult the Course Search & Enroll tool for a comprehensive list of RELIG ST courses designated for Literature Breadth.

ADVISING AND CAREERS

ADVISING AND CAREERS

ADVISING

Students are encouraged to meet with the program's undergraduate advisor early to plan for successful completion and take advantage of opportunities such as Honors, special research, internship, service learning or study abroad opportunities in associate with the major or certificate: religiousstudies.wisc.edu/advising (https://religiousstudies.wisc.edu/advising/)

Because Religious Studies is an interdisciplinary major drawing upon many subject areas, some courses may have requisites that must be fulfilled even though the requisites themselves are not part of the Religious Studies major's courses. Students are responsible for ensuring that they have met all the requisites to enroll in a course. See: Religious Studies courses (https://guide.wisc.edu/courses/relig_st/).

CAREERS

Religious studies engages a variety of professional disciplines and provides important preparation for thinking, communicating, and functioning professionally in a complex, multi-dimensional world.

The Religious Studies program sponsors workshops and other career exploration vehicles, often in collaboration with SuccessWorks at the College of Letters & Science, to aid students in articulating the value of religious studies for their career preparation. Student-developed capstone projects often make specific connections to experiential learning and career preparation in a range of fields. Talk with the undergraduate advisor about possibilities for combining internships and other forms of preprofessional training with the major and certificate.

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

RELIGIOUS STUDIES, BS

Religious Studies is an academic discipline that looks at religious phenomena worldwide from different perspectives to understand the many roles that religion plays in human life. To this end, students of religion learn to use a variety of theoretical analyses and methods:

- historical methods to understand how religions develop in time;
- critical literary methods to understand religious ideas;
- aesthetic methods to understand religious art and material culture;
- social-scientific methods to understand the relationship between religion, society and culture.

Religious studies can also engage a variety of professional disciplines in analysis of how religion functions in economic, educational or political contexts, healthcare and scientific research, and others.

Some ways of studying religion emphasize understanding religions on their own terms, other ways use comparative methods to discern differences and similarities between religions. Students of religion also study ways that people use religious resources to make meaning outside the boundaries of religious institutions and identities. Above all, the field of religious studies requires a willingness to explore different ways of interpreting human life and diligent effort to develop understanding of how religious ideas, symbols, rituals and spaces serve as resources for people in a variety of contexts as they make sense of and live out their lives in the world. Thus, the Religious Studies major provides important preparation for thinking, communicating and functioning professionally and personally in a complex, multidimensional world.

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are eligible to declare. For information on how to declare, visit Advising & Careers.
Courses required to get in	None
GPA requirements to get in	None

Credits required to get in	None
Other	None

Students declared in the Religious Studies certificate may not be declared in the Religious Studies major at the same time. Students who do wish to declare this major must first cancel their declaration in the certificate.

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. Some courses satisfy more than one L&S degree requirement (visit College of Letters & Science: Requirements (https://guide.wisc.edu/undergraduate/letters-science/#requirementstext) for details).

This major can be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Communication	Complete both: • Part A: one course with the Communication A designation or eligible UW Placement Score; and • Part B: one course with the Communication B designation

Quantitative Reasoning	Complete both: • Part A: one course with the Quantitative Reasoning A designation or eligible UW Placement Score; and • Part B: one course with the Quantitative Reasoning B designation
Ethnic Studies	one 3+ credit course with the Ethnic Studies designation
Language	the third unit of a language other than English
Mathematics	Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.
L&S Breadth: Humanities	Complete 12 credits with the Humanities or Literature designation, which must include at least 6 credits with the Literature designation.
L&S Breadth: Social Sciences	Complete 12 credits with the Social Science designation.
L&S Breadth: Natural Sciences	Complete 12 credits, which must include both: • 6 credits with the Biological Science designation, and • 6 credits with the Physical Science designation.
Liberal Arts and Science (LAS) Coursework	at least 108 credits
Depth of Intermediate/Advanced Coursework	at least 60 credits at the Intermediate or Advanced level
Major	Declare and complete at least one major.
Total Credits	at least 120 credits
UW-Madison Experience	• 30 credits in residence, overall, and • 30 credits in residence after the 86th credit
Quality of Work	• 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their School/College to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

Students must complete 30 credits in Religious Studies course work, to include:

Code	Title	Credits
Gateway (Complete one course:)		**3**
RELIG ST 101	Religion in Global Perspective	
RELIG ST 102	Exploring Religion in Sickness and Health	
RELIG ST 103	Exploring Religion and Sexuality

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all RELIG ST and major courses
- 2.000 GPA on 15 Upper-Level credits for the major, taken in residence[1]
- 15 credits in RELIG ST or the major, taken on campus

[1] Courses counting as upper-level in the major are any RELIG ST courses at the Intermediate or Advanced level.

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Religious Studies undergraduate advisor.

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and these additional requirements:

- Minimum 3.300 University GPA
- Minimum 3.500 GPA in all RELIG ST and all major courses
- Complete 12 credits, taken for Honors, with individual grades of B or better, to include:
  - RELIG ST 600
  - RELIG ST 681 and RELIG ST 682 for at least 6 credits.
  - 3 additional credits of Intermediate or Advanced level RELIG ST and major courses

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Proficiency in close reading, interpretation, and written and oral analysis.
2. Proficiency in accessing, appraising, and utilizing a variety of resources and methods for research across disciplinary lines.
3. Proficiency in categorizing, analyzing and comparing diverse systems of value and belief in a variety of contexts.
4. Global and local religious literacy; identifying, evaluating, and interpreting the interrelationships and impact of religious worldviews and communities in Wisconsin, the United States and globally.
5. Ability to conduct and present sustained research on primary sources using methodologies/analysis of religious studies culminating in the senior capstone project.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

First Year

Fall	Credits	Spring	Credits
RELIG ST 101, 102, 103, 104, or 105	3	RELIG ST course meeting Literature Breadth[1]	3
Communication A	3	RELIG ST elective	3
Quantitative Reasoning A	3-4	Biological Science Breadth	3
Language (if needed)	4	Social Science Breadth	3

Elective	3	Elective	3
	16		**15**

Second Year

Fall	Credits	Spring	Credits
RELIG ST course with Literature Breadth[1]	3	RELIG ST/ILS 234 or 236 (meets Communication B requirement)	3
Quantitative Reasoning B	3	RELIG ST/ FOLKLORE 352 or 403 (meets Ethnic Studies requirement)	3
Social Science Breadth	3	Physical Science Breadth	3
Elective	4	I/A COMP SCI, MATH or STAT (if needed for BS)	3
INTER-LS 210	1	Elective	4
	14		**16**

Third Year

Fall	Credits	Spring	Credits
RELIG ST Elective (numbered 300 or above)	6	RELIG ST Elective (numbered 300 or above)	9
Social Science Breadth	3	Science Breadth	3
I/A COMP SCI, MATH or STAT (if needed for BS)	3	Social Science Breadth	3
Elective	4		
	16		**15**

Fourth Year

Fall	Credits	Spring	Credits
RELIG ST Elective (numbered 300 or above)	3	RELIG ST Electives	6
Science Breadth	3	Elective	9
Electives	4	RELIG ST 600	3
	10		**18**

Total Credits 120

[1] Consult the Course Search & Enroll tool for a comprehensive list of RELIG ST courses designated for Literature Breadth.

ADVISING AND CAREERS

ADVISING AND CAREERS

ADVISING

Students are encouraged to meet with the program's undergraduate advisor early to plan for successful completion and take advantage of opportunities such as Honors, special research, internship, service learning or study abroad opportunities in associate with the major or certificate: religiousstudies.wisc.edu/advising (https://religiousstudies.wisc.edu/advising/)

Because Religious Studies is an interdisciplinary major drawing upon many subject areas, some courses may have requisites that must be fulfilled even though the requisites themselves are not part of the Religious Studies major's courses. Students are responsible for ensuring that they have met all the requisites to enroll in a course. See: Religious Studies courses (https://guide.wisc.edu/courses/relig_st/).

CAREERS

Religious studies engages a variety of professional disciplines and provides important preparation for thinking, communicating, and functioning professionally in a complex, multi-dimensional world.

The Religious Studies program sponsors workshops and other career exploration vehicles, often in collaboration with SuccessWorks at the College of Letters & Science, to aid students in articulating the value of religious studies for their career preparation. Student-developed capstone projects often make specific connections to experiential learning and career preparation in a range of fields. Talk with the undergraduate advisor about possibilities for combining internships and other forms of preprofessional training with the major and certificate.

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

RELIGIOUS STUDIES, CERTIFICATE

Religious Studies is an academic discipline that looks at religious phenomena worldwide from different perspectives to understand the many roles that religion plays in human life. To this end, students of religion learn to use a variety of theoretical analyses and methods:

- historical methods to understand how religions develop in time;
- critical literary methods to understand religious ideas;
- aesthetic methods to understand religious art and material culture;
- social-scientific methods to understand the relationship between religion, society and culture.

Religious studies can also engage a variety of professional disciplines in analysis of how religion functions in economic, educational or political contexts, healthcare and scientific research, and others.

Some ways of studying religion emphasize understanding religions on their own terms, other ways use comparative methods to discern differences and similarities between religions. Students of religion also study ways that people use religious resources to make meaning outside the boundaries of religious institutions and identities. Above all, the field of religious studies requires a willingness to explore different ways of interpreting human life and diligent effort to develop understanding of how religious ideas, symbols, rituals and spaces serve as resources for people in a variety of contexts as they make sense of and live out their lives in the world. Thus, the Religious Studies major provides important preparation for thinking, communicating and functioning professionally and personally in a complex, multidimensional world.

HOW TO GET IN

HOW TO GET IN

A certificate in religious studies is available to all undergraduates and special students studying at UW–Madison.

Students who wish to declare their intention to major or earn a certificate in religious studies must meet with the undergraduate advisor during regular office hours or by making an appointment. Students are encouraged to do this early in their academic careers in order to plan for successful completion and take advantage of opportunities such as Honors, special research, internship, service learning, or study abroad opportunities in associate with the major or certificate.

Dr. Corrie Norman is the undergraduate advisor and Honors in the Major advisor. Contact her by email at cenorman@wisc.edu.

Students pursuing the Religious Studies Certificate may not be declared in the Religious Studies major at the same time. Students who do wish to declare this major must first cancel their declaration in the Religious Studies Certificate.

REQUIREMENTS

REQUIREMENTS

To earn the certificate, students must complete 15 credits from:

Code	Title	Credits
Gateway Courses, Select one of the following:		3
RELIG ST 101	Religion in Global Perspective	
RELIG ST 102	Exploring Religion in Sickness and Health	
RELIG ST 103	Exploring Religion and Sexuality	
RELIG ST/ FOLKLORE 104	Sacred Places and Journeys	
RELIG ST 105	Religion and Popular Culture-Local and Global	
Capstone Course:		
RELIG ST 600	Religion in Critical Perspective	3
Additional Courses:		9
Select an additional 9 credits in RELIG ST courses to bring total credits to at least 15 credits. To view additional courses, follow the link below to the Religious Studies course list page in the Guide.		
Religious Studies course offerings (https://guide.wisc.edu/courses/relig_st/)		
Total Credits		**15**

RESIDENCE & QUALITY OF WORK

- Minimum 2.000 GPA in all RELIG ST and certificate courses.
- At least 9 credits for the certificate must be earned in residence.

UNDERGRADUATE/SPECIAL STUDENT CERTIFICATE

This certificate is intended to be completed in the context of an undergraduate degree and for those seeking this certificate that is preferred. For students who have substantially completed this certificate at UW–Madison and may need one or two courses to complete the certificate, they may do so immediately after completion of the bachelor's degree by enrolling in the course as a University Special (nondegree) student. The certificate must be completed within a year of completion of the bachelor's degree. Students should keep in mind that University Special students have the last registration priority and that may limit availability of desired courses. Financial aid is not available when enrolled as a University Special student to complete an undergraduate certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Proficiency in close reading, interpretation, and written and oral analysis.
2. Proficiency in accessing, appraising, and utilizing a variety of resources and methods for research across disciplinary lines.
3. Proficiency in categorizing, analyzing and comparing diverse systems of value and belief in a variety of contexts.
4. Global and local religious literacy; identifying, evaluating, and interpreting the interrelationships and impact of religious worldviews and communities in Wisconsin, the United States and globally.

SANDRA ROSENBAUM SCHOOL OF SOCIAL WORK

Social work's special contribution rests on an established body of knowledge, values and skills pertinent to understanding human relationships and the interaction between people as individuals, in families, groups, organizations, and communities.

Undergraduates in the Sandra Rosenbaum School of Social Work receive a liberal arts education in the social and behavioral sciences and their application to human problems that prepares them to be informed citizens involved in human services or social welfare problems and policies. Students take courses in a variety of social sciences to enable them to view social welfare in its broad social, economic, and political contexts.

Social Work courses (https://guide.wisc.edu/courses/soc_work/) offer a theoretical understanding of social problems and an introduction to practice methods used by social workers. The curriculum covers areas such as aging, family and child welfare, poverty, mental health, developmental disabilities, substance use disorders, diversity, race and ethnicity, criminal justice, oppression and social, economic and environmental justice, and at-risk populations.

MISSION

The mission of the UW–Madison Sandra Rosenbaum School of Social Work is to enhance human well-being and promote human rights and social and economic justice to achieve an equitable, healthy, and productive society. The school aims to:

- create, advance, strengthen, and integrate interdisciplinary knowledge for students and the profession through research, scholarship, teaching, and practice;
- educate students to become highly skilled, culturally competent, and ethical practitioners who will provide effective leadership for the profession of social work within the state of Wisconsin, nationally, and internationally;
- promote change at levels ranging from the individual to national and international policy, including empowering communities and populations that are disadvantaged and developing humane service delivery systems; and
- create and disseminate knowledge regarding the prevention and amelioration of social problems.

UNDERGRADUATE DEGREE PROGRAMS

The Sandra Rosenbaum School of Social Work offers a Bachelor of Social Work (p. 1448) (BSW) degree and a Social Welfare major for the Bachelor of Arts (p. 1438) (BA) or Bachelor of Science (p. 1443) (BS) degrees. All three programs prepare students for further academic study or for employment in selected human service arenas. The Bachelor of Social Work prepares students as beginning-level professional social workers. The Social Welfare major offers an overview of current social problems.

DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/CERTIFICATES

- Aging Studies, Certificate (p. 1437)
- Social Welfare, BA (p. 1438)
- Social Welfare, BS (p. 1443)
- Social Work, BSW (p. 1448)

AGING STUDIES, CERTIFICATE

Elevate your expertise in aging through the certificate in Aging Studies. This certificate addresses the urgent need for professionals trained to support the growing population of older adults and enhance students' marketability in the field. It provides undergraduate students with comprehensive knowledge of the aging process from biological, psychological, and social perspectives. Designed to complement various degree programs, the certificate offers an interdisciplinary approach, allowing students to tailor their studies to their career interests with guidance from academic advisors.

HOW TO GET IN

HOW TO GET IN

Any undergraduate regardless of major or college affiliation may earn this certificate. Students must contact the certificate program advisor to declare the certificate.

RESIDENCE AND QUALITY OF WORK

- Minimum 2.000 GPA in all certificate courses
- At least 6 certificate credits must be completed in residence

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Understand the interdisciplinary nature of aging as a combination of psychological, social, and biological processes.
2. Identify and dispel commonly held myths and stereotypes regarding older adults and aging.
3. Recognize how older adults are impacted by evolving intersecting identities such as age, race, ethnicity, gender, income, class, sexual orientation, and ability.
4. Compare and contrast current theory and research in interdisciplinary gerontology both in the U.S. and globally.
5. Evaluate how individual and compounded biopsychosocial issues can affect an older adult's overall health and wellbeing, as well as those who work with and care for them.

ADVISING AND CAREERS

ADVISING AND CAREERS

Please contact the certificate's academic advisor (aging@socwork.wisc.edu) with your questions and to declare this certificate.

Advising appointments for current UW–Madison students are made through Starfish (https://wisc.starfishsolutions.com/starfish-ops/dl/instructor/serviceCatalog.html?bookmark=connection/6323/schedule) or by calling 608-263-3576.

This certificate will better prepare students to meet the evolving needs and opportunities of an aging society. Students who earn this certificate may consider careers in health care, social services, policy making, and community organizations.

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SOCIAL WELFARE, BA

The Sandra Rosenbaum School of Social Work core mission is to enhance human well-being and promote human rights and social and economic justice for people who are disadvantaged to achieve an equitable, healthy, and productive society. Cultural humility, anti-oppressive practice, and social justice are values central to the profession of social work and our school. Social work seeks to actively confront racism.

Undergraduates in the College of Letters & Science's Sandra Rosenbaum School of Social Work receive a liberal arts education in the social and behavioral sciences and their application to human problems that prepares them to be informed citizens involved in human services or social welfare problems and policies. Students majoring in Social Welfare leverage their understanding of the historical context of social work and the systems and policies that underlie our society and learn strategies to address social, racial, economic, and environmental justice and political contexts. Students take courses in a variety of social sciences to enable them to view social welfare in its broad social, economic, and political contexts. The Social Welfare major offers an overview of current social problems and prepares students for further academic study or for employment in selected human service arenas.

Social work's special contribution rests on an established body of knowledge, values, and skills pertinent to understanding human relationships and the interaction between people as individuals, in families, groups, organizations, and communities. Social work courses offer a theoretical understanding of social problems and an introduction to practice methods used by social workers. The curriculum covers areas such as aging, family and child welfare, poverty, mental health, developmental disabilities, substance use disorders, diversity, race and ethnicity, criminal

justice, oppression and social, economic and environmental justice, and at-risk populations.

Graduates with the Social Welfare major go on to work at nonprofit organizations and federal, state, and local governments. Many go on to complete graduate degrees in Social Work, Counseling, Sociology, Psychology, Gender and Women's Studies, and Law, among other degrees in the social sciences and beyond.

Read more about the School and its mission: socwork.wisc.edu/about (https://socwork.wisc.edu/about/)

CERTIFICATE PROGRAMS

Students in the Social Welfare major or the Bachelor of Social Work degree often choose from a variety of certificate programs (https://guide.wisc.edu/explore-majors/#filter=filter_45) available. Common certificates include African American Studies (p. 454), American Indian and Indigenous Studies (p. 469), Business (p. 1561), Chicano/a and Latino/a Studies (https://guide.wisc.edu/undergraduate/letters-science/chicana-chicano-latina-latino-studies/chicana-chicano-latina-latino-studies-certificate/), Criminal Justice (p. 636), Gender and Women's Studies (p. 846), Global Health (p. 164), LGBTQ+ Studies (p. 849), South Asian Studies (p. 1089), and Southeast Asian Studies (p. 1092), among others.

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are eligible to declare. For information on how to declare, see Advising & Careers.
Courses required to get in	Students who have completed or are enrolled in SOC WORK 205 or SOC WORK 206 are eligible to declare the major.
GPA requirements to get in	None.
Credits required to get in	None.
Other	None.

To declare the major, students should make an appointment (https://socwork.wisc.edu/students/advising/) and meet with one of the social welfare academic advisors at the School of Social Work.

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communication & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.

English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a Bachelor of Arts degree in the College of Letters & Science must complete all of the requirements below. Some courses satisfy more than one L&S degree requirement (visit College of Letters & Science: Requirements (https://guide.wisc.edu/undergraduate/letters-science/#requirementstext) for details).

This major can be paired with either the Bachelor of Arts or Bachelor of Science degree requirements.

BACHELOR OF ARTS DEGREE REQUIREMENTS

Communication	Complete both: • Part A: one course with the Communication A designation or eligible UW Placement Score; and • Part B: one course with the Communication B designation
Quantitative Reasoning	Complete both: • Part A: one course with the Quantitative Reasoning A designation or eligible UW Placement Score; and • Part B: one course with the Quantitative Reasoning B designation
Ethnic Studies	one 3+ credit course with the Ethnic Studies designation
Language	Complete either: • the fourth unit of one language other than English; or • the third unit of one language other than English and the second unit of an additional language.
L&S Breadth: Humanities	Complete 12 credits with the Humanities or Literature designation, which must include at least 6 credits with the Literature designation.
L&S Breadth: Social Sciences	Complete 12 credits with the Social Science designation.
L&S Breadth: Natural Sciences	Complete 12 credits with the Natural Science, Biological Science, or Physical Science designations, which must include both: • one 3+ credit course with the Biological Science designation, and • one 3+ credit course with the Physical Science designation.
Liberal Arts and Science (LAS) Coursework	at least 108 credits
Depth of Intermediate/ Advanced work	at least 60 credits at the Intermediate or Advanced level
Major	Declare and complete at least one major.
Total Credits	at least 120 credits
UW-Madison Experience	• 30 credits in residence, overall; and • 30 credits in residence after the 86th credit
Quality of Work	• 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their School/College to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

Complete a minimum of 32 credits, to be attained via the requirements detailed below.

SOCIAL WELFARE POLICY & SERVICES

Code	Title	Credits
Complete both:		
SOC WORK 205	Introduction to the Field of Social Work	4
SOC WORK 206	Introduction to Social Policy	4

SOCIAL SCIENCE CONCENTRATION

Complete two Intermediate or Advanced level courses and at least 6 total credits with the Social Science Breadth designation from one of the following subject areas:

- African American Studies (AFROAMER) (https://guide.wisc.edu/courses/afroamer/)
- American Indian and Indigenous Studies (AMER IND) (https://guide.wisc.edu/courses/amer_ind/)
- Anthropology (ANTHRO) (https://guide.wisc.edu/courses/anthro/)
- Asian American Studies (ASIAN AM) (https://guide.wisc.edu/courses/asian_am/)
- Chicanx/e and Latinx/e Studies (CHICLA) (https://guide.wisc.edu/courses/chicla/)

- Economics (ECON) (https://guide.wisc.edu/courses/econ/)
- Gender and Women's Studies (GEN&WS) (https://guide.wisc.edu/courses/gen_ws/)
- Political Science (POLI SCI) (https://guide.wisc.edu/courses/poli_sci/)
- Psychology (PSYCH) (https://guide.wisc.edu/courses/psych/)
- Sociology (SOC) (https://guide.wisc.edu/courses/soc/)

HUMAN BEHAVIOR & THE SOCIAL ENVIRONMENT

Code	Title	Credits
Complete both:		
SOC WORK 457	Human Behavior and the Environment	3
SOC WORK 640	Diversity, Oppression, and Social Justice in Social Work	3

STATISTICS & RESEARCH

Code	Title	Credits
Statistics		
Complete one course from:		3-4
STAT 301	Introduction to Statistical Methods (recommended)	
or STAT 371	Introductory Applied Statistics for the Life Sciences	
or PSYCH 210	Basic Statistics for Psychology	
or SOC/ C&E SOC 360	Statistics for Sociologists I	
Research		
Complete one course from:		3-4
SOC WORK 650	Methods of Social Work Research	
or PSYCH 225	Research Methods	
or SOC/ C&E SOC 357	Methods of Sociological Inquiry	
Total Credits		**6-8**

ELECTIVES IN SOCIAL WELFARE

Complete **two** Intermediate or Advanced level SOC WORK courses and **at least 6 total credits** of Social Work electives. Not all courses in the list below are offered in each semester or year.

List of Elective Soc Work Courses

Code	Title	Credits
SOC WORK 316	Power, Possibility, and the Practice of Social Justice	3
SOC WORK 336	Making Sense of Mental Health & Mental Illness	3
SOC WORK 375	Contemporary Issues in Social Welfare	2-3
SOC WORK 420	Poverty and Social Welfare	3
SOC WORK/ SOC 422	Social Issues in Aging	3
SOC WORK 453	Substance Use Disorders	3
SOC WORK 462	Child Welfare	3
SOC WORK 578	Housing Precarity and Social Policy	4
SOC WORK 623	Interpersonal Violence	3
SOC WORK 627	Sex Trafficking and Sex Trading	2
SOC WORK/ AMER IND 636	Social Work in American Indian Communities: The Indian Child Welfare Act	3
SOC WORK 639	Social Work Practice with LGBTQIA2S+ Individuals and Communities	3
SOC WORK 644	Issues in Developmental Disabilities	3
SOC WORK 646	Child Abuse and Neglect	2
SOC WORK 648	Social Work Practice in Palliative Care	2
SOC WORK 656	Child Welfare Practice in Foster and Kinship Care, Permanency, and Adoption	2
SOC WORK 675	Topics in Contemporary Social Welfare	2-3
SOC WORK 691	Senior Thesis [1]	2
SOC WORK 692	Senior Thesis [1]	2
SOC WORK 699	Directed Study [1,2]	2-3

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all SOC WORK and all major courses
- 2.000 GPA on 15 upper-level major credits taken in residence[3]
- 15 credits in SOC WORK, taken on the UW–Madison campus

FOOTNOTES

1. Students with an interest in a particular area of study may develop a plan of independent work with the assistance of an interested Social Work faculty member. They may obtain information about instructors and their areas of interest from the School of Social Work website. Consent of instructor is required for the noted course offerings in independent work.
2. No more than 3 credits of SOC WORK 699 may be used to meet this requirement.
3. PSYCH 225, SOC/C&E SOC 357, STAT 301, STAT 371, PSYCH 210, and SOC/C&E SOC 360, and all SOC WORK courses designated as Intermediate or Advanced level count as upper-level in the major.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Identify the historical foundations of the US social welfare system and the social work profession
2. Recognize human differences and how social welfare systems interact with these differences to shape opportunities and outcomes for individuals, groups, and communities.
3. Demonstrate an ability to critically evaluate research with respect to its relevance, quality, and utility for addressing social welfare issues.
4. Synthesize and communicate knowledge relevant to social welfare issues.
5. Practice self-awareness of one's values, beliefs, and biases regarding the causes and consequences of social welfare issues.

6. Connect awareness of self, systems and social welfare knowledge to promote human dignity and justice.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

Social Welfare majors are encouraged to gain social service experience through volunteer work. See the Social Work advisors or contact the Morgridge Center for Public Service (http://www.morgridge.wisc.edu/), 263-2432, for information on volunteering.

Students wishing to apply to the Bachelor of Social Work (BSW) program must do so in spring of Junior year.

Freshman

Fall	Credits	Spring	Credits
Communication A	3	Communication B	3
Quantitative Reasoning A	3-4	Elective	3
SOC WORK 100[1]	3	Natural Science Breadth (or Physical Science if BS)	3
Language (if needed)	4	Language (if needed)	4
Elective	3	Elective (Intermediate/Advanced-level)	3
	16		**16**

Sophomore

Fall	Credits	Spring	Credits
SOC WORK 205 (can be taken Freshman or Sophomore year)	4	SOC WORK 206 (can be taken Freshman or Sophomore year)	4
Language (if needed)	4	Language (if needed; or Intermediate/Advanced level Comp Sci, Math, Stats if BS)	3-4
Biological Sciences Breadth	3	Physical Science Breadth	3-4
Humanities Breadth	3-4	Literature Breadth	3-4
	14		**14**

Junior

Fall	Credits	Spring	Credits
SOC WORK 640	3	SOC WORK 457	3
STAT 301, 371, PSYCH 210, or SOC 360 (Take STAT 301 or STAT 371 if BS)	3-4	SOC WORK 650, PSYCH 225, or SOC 357[3]	3
Social Science Concentration course[2]	3-4	Literature Breadth	3
Humanities Breadth	3	SOC WORK elective (Intermediate/Advanced level)	2-4
Electives (I/A-level)	3	Social Science Concentration course[2]	3-4
	15		**15**

Senior

Fall	Credits	Spring	Credits
SOC WORK elective (Intermediate/Advanced level)	2-4	SOC WORK elective (Intermediate/Advanced level)	2-4
Natural Science Breadth (or Biological Science if BS)	3	Electives (Intermediate/Advanced level)	3-4
Electives (Intermediate/Advanced level)	3-4	Electives (Intermediate/Advanced level)	3-4
Electives (Intermediate/Advanced level)	3-4	Electives (Intermediate/Advanced level)	3-4
Electives (Intermediate/Advanced level)	3-4	Electives (Intermediate/Advanced level)	3-4
	15		**15**

Total Credits 120

1 Note: SOC WORK 100 is a pre-major elective course that can be taken in the first year, if offered; it is not required for the major.

2 Take two Intermediate or Advanced level courses from one of the following social science departments: African American Studies, American Indian and Indigenous Studies, Anthropology, Asian American Studies, Chicana/o and Latina/o Studies, Economics, Gender and Women's Studies, Political Science, Psychology, Sociology.

3 SOC WORK 650 is often available in the summer. Check with an Advisor for course availability and how summer courses might fit into your schedule.

ADVISING AND CAREERS

ADVISING AND CAREERS

Students interested in either the Social Welfare major or Bachelor of Social Work meet with the Social Work advisors to discuss degree requirements; explore career paths; declare the major; and confer on student issues and concerns. Advisors are an excellent resource for information about campus and community services. Students should see an advisor at least once each semester to review academic progress: socwork.wisc.edu/students/advising (https://socwork.wisc.edu/students/advising/)

Advising appointments for current UW–Madison students are made through Starfish (https://wisc.starfishsolutions.com/starfish-ops/) or by calling 608-263-3660.

Social Work faculty members are available for advice about coursework, research, and the social work profession in general.

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself,

which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

SOCIAL WELFARE, BS

The Sandra Rosenbaum School of Social Work core mission is to enhance human well-being and promote human rights and social and economic justice for people who are disadvantaged to achieve an equitable, healthy, and productive society. Cultural humility, anti-oppressive practice, and social justice are values central to the profession of social work and our school. Social work seeks to actively confront racism.

Undergraduates in the College of Letters & Science's Sandra Rosenbaum School of Social Work receive a liberal arts education in the social and behavioral sciences and their application to human problems that prepares them to be informed citizens involved in human services or social welfare problems and policies. Students majoring in Social Welfare leverage their understanding of the historical context of social work and the systems and policies that underlie our society and learn strategies to address social, racial, economic, and environmental justice and political contexts. Students take courses in a variety of social sciences to enable them to view social welfare in its broad social, economic, and political contexts. The Social Welfare major offers an overview of current social problems and prepares students for further academic study or for employment in selected human service arenas.

Social work's special contribution rests on an established body of knowledge, values, and skills pertinent to understanding human relationships and the interaction between people as individuals, in families, groups, organizations, and communities. Social work courses offer a theoretical understanding of social problems and an introduction to practice methods used by social workers. The curriculum covers areas such as aging, family and child welfare, poverty, mental health, developmental disabilities, substance use disorders, diversity, race and ethnicity, criminal justice, oppression and social, economic and environmental justice, and at-risk populations.

Graduates with the Social Welfare major go on to work at nonprofit organizations and federal, state, and local governments. Many go on to complete graduate degrees in Social Work, Counseling, Sociology, Psychology, Gender and Women's Studies, and Law, among other degrees in the social sciences and beyond.

Read more about the School and its mission: socwork.wisc.edu/about (https://socwork.wisc.edu/about/)

CERTIFICATE PROGRAMS

Students in the Social Welfare major or the Bachelor of Social Work degree often choose from a variety of certificate programs (https://guide.wisc.edu/explore-majors/#filter=filter_45) available. Common certificates include African American Studies (p. 454), American Indian and Indigenous Studies (p. 469), Business (p. 1561), Chicano/a and Latino/a Studies (https://guide.wisc.edu/undergraduate/letters-science/chicana-chicano-latina-latino-studies/chicana-chicano-latina-latino-studies-certificate/), Criminal Justice (p. 636), Gender and Women's Studies (p. 846), Global Health (p. 164), LGBTQ+ Studies (p. 849), South Asian Studies (p. 1089), and Southeast Asian Studies (p. 1092), among others.

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are eligible to declare. For information on how to declare, see Advising & Careers.
Courses required to get in	Students who have completed or are enrolled in SOC WORK 205 or SOC WORK 206 are eligible to declare the major.
GPA requirements to get in	None.
Credits required to get in	None.
Other	None.

To declare the major, students should make an appointment (https://socwork.wisc.edu/students/advising/) and meet with one of the social welfare academic advisors at the School of Social Work.

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. Some courses satisfy more than one L&S degree requirement (visit College of Letters & Science: Requirements (https://guide.wisc.edu/undergraduate/letters-science/#requirementstext) for details).

This major can be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Communication	Complete both: • Part A: one course with the Communication A designation or eligible UW Placement Score; and • Part B: one course with the Communication B designation

Quantitative Reasoning	Complete both: • Part A: one course with the Quantitative Reasoning A designation or eligible UW Placement Score; and • Part B: one course with the Quantitative Reasoning B designation
Ethnic Studies	one 3+ credit course with the Ethnic Studies designation
Language	the third unit of a language other than English
Mathematics	Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.
L&S Breadth: Humanities	Complete 12 credits with the Humanities or Literature designation, which must include at least 6 credits with the Literature designation.
L&S Breadth: Social Sciences	Complete 12 credits with the Social Science designation.
L&S Breadth: Natural Sciences	Complete 12 credits, which must include both: • 6 credits with the Biological Science designation, and • 6 credits with the Physical Science designation.
Liberal Arts and Science (LAS) Coursework	at least 108 credits
Depth of Intermediate/ Advanced Coursework	at least 60 credits at the Intermediate or Advanced level
Major	Declare and complete at least one major.
Total Credits	at least 120 credits
UW-Madison Experience	• 30 credits in residence, overall, and • 30 credits in residence after the 86th credit
Quality of Work	• 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their School/College to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

Complete a minimum of 32 credits, to be attained via the requirements detailed below.

SOCIAL WELFARE POLICY & SERVICES

Code	Title	Credits
Complete both:		
SOC WORK 205	Introduction to the Field of Social Work	4
SOC WORK 206	Introduction to Social Policy	4

SOCIAL SCIENCE CONCENTRATION

Complete two Intermediate or Advanced level courses and at least 6 total credits with the Social Science Breadth designation from one of the following subject areas:

- African American Studies (AFROAMER) (https://guide.wisc.edu/courses/afroamer/)
- American Indian and Indigenous Studies (AMER IND) (https://guide.wisc.edu/courses/amer_ind/)
- Anthropology (ANTHRO) (https://guide.wisc.edu/courses/anthro/)
- Asian American Studies (ASIAN AM) (https://guide.wisc.edu/courses/asian_am/)
- Chicanx/e and Latinx/e Studies (CHICLA) (https://guide.wisc.edu/courses/chicla/)
- Economics (ECON) (https://guide.wisc.edu/courses/econ/)
- Gender and Women's Studies (GEN&WS) (https://guide.wisc.edu/courses/gen_ws/)
- Political Science (POLI SCI) (https://guide.wisc.edu/courses/poli_sci/)
- Psychology (PSYCH) (https://guide.wisc.edu/courses/psych/)
- Sociology (SOC) (https://guide.wisc.edu/courses/soc/)

HUMAN BEHAVIOR & THE SOCIAL ENVIRONMENT

Code	Title	Credits
Complete both:		
SOC WORK 457	Human Behavior and the Environment	3
SOC WORK 640	Diversity, Oppression, and Social Justice in Social Work	3

STATISTICS & RESEARCH

Code	Title	Credits
Statistics		
Complete one course from:		3-4
STAT 301	Introduction to Statistical Methods (recommended)	
or STAT 371	Introductory Applied Statistics for the Life Sciences	
or PSYCH 210	Basic Statistics for Psychology	
or SOC/ C&E SOC 360	Statistics for Sociologists I	
Research		
Complete one course from:		3-4
SOC WORK 650	Methods of Social Work Research	
or PSYCH 225	Research Methods	

	or SOC/ C&E SOC 357	Methods of Sociological Inquiry
Total Credits		**6-8**

ELECTIVES IN SOCIAL WELFARE

Complete **two** Intermediate or Advanced level SOC WORK courses and **at least 6 total credits** of Social Work electives. Not all courses in the list below are offered in each semester or year.

List of Elective Soc Work Courses

Code	Title	Credits
SOC WORK 316	Power, Possibility, and the Practice of Social Justice	3
SOC WORK 336	Making Sense of Mental Health & Mental Illness	3
SOC WORK 375	Contemporary Issues in Social Welfare	2-3
SOC WORK 420	Poverty and Social Welfare	3
SOC WORK/ SOC 422	Social Issues in Aging	3
SOC WORK 453	Substance Use Disorders	3
SOC WORK 462	Child Welfare	3
SOC WORK 578	Housing Precarity and Social Policy	4
SOC WORK 623	Interpersonal Violence	3
SOC WORK 627	Sex Trafficking and Sex Trading	2
SOC WORK/ AMER IND 636	Social Work in American Indian Communities: The Indian Child Welfare Act	3
SOC WORK 639	Social Work Practice with LGBTQIA2S+ Individuals and Communities	3
SOC WORK 644	Issues in Developmental Disabilities	3
SOC WORK 646	Child Abuse and Neglect	2
SOC WORK 648	Social Work Practice in Palliative Care	2
SOC WORK 656	Child Welfare Practice in Foster and Kinship Care, Permanency, and Adoption	2
SOC WORK 675	Topics in Contemporary Social Welfare	2-3
SOC WORK 691	Senior Thesis [1]	2
SOC WORK 692	Senior Thesis [1]	2
SOC WORK 699	Directed Study [1,2]	2-3

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all SOC WORK and all major courses
- 2.000 GPA on 15 upper-level major credits taken in residence[3]
- 15 credits in SOC WORK, taken on the UW–Madison campus

FOOTNOTES

[1] Students with an interest in a particular area of study may develop a plan of independent work with the assistance of an interested Social Work faculty member. They may obtain information about instructors and their areas of interest from the School of Social Work website. Consent of instructor is required for the noted course offerings in independent work.

[2] No more than 3 credits of SOC WORK 699 may be used to meet this requirement.

[3] PSYCH 225, SOC/C&E SOC 357, STAT 301, STAT 371, PSYCH 210, and SOC/C&E SOC 360, and all SOC WORK courses designated as Intermediate or Advanced level count as upper-level in the major.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Identify the historical foundations of the US social welfare system and the social work profession
2. Recognize human differences and how social welfare systems interact with these differences to shape opportunities and outcomes for individuals, groups, and communities.
3. Demonstrate an ability to critically evaluate research with respect to its relevance, quality, and utility for addressing social welfare issues.
4. Synthesize and communicate knowledge relevant to social welfare issues.
5. Practice self-awareness of one's values, beliefs, and biases regarding the causes and consequences of social welfare issues.
6. Connect awareness of self, systems and social welfare knowledge to promote human dignity and justice.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

Social Welfare majors are encouraged to gain social service experience through volunteer work. See the Social Work advisors or contact the Morgridge Center for Public Service (http://www.morgridge.wisc.edu/), 263-2432, for information on volunteering.

Students wishing to apply to the Bachelor of Social Work (BSW) program must do so in spring of Junior year.

Total Credits 120

1 Note: SOC WORK 100 is a pre-major elective course that can be taken in the first year, if offered; it is not required for the major.

2 Take two Intermediate or Advanced level courses from one of the following social science departments: African American Studies, American Indian and Indigenous Studies, Anthropology, Asian American Studies, Chicana/o and Latina/o Studies, Economics, Gender and Women's Studies, Political Science, Psychology, Sociology.

3 SOC WORK 650 is often available in the summer. Check with an Advisor for course availability and how summer courses might fit into your schedule.

ADVISING AND CAREERS

ADVISING AND CAREERS

Students interested in either the Social Welfare major or Bachelor of Social Work meet with the Social Work advisors to discuss degree requirements; explore career paths; declare the major; and confer on student issues and concerns. Advisors are an excellent resource for information about campus and community services. Students should see an advisor at least once each semester to review academic progress: socwork.wisc.edu/students/advising (https://socwork.wisc.edu/students/advising/)

Advising appointments for current UW–Madison students are made through Starfish (https://wisc.starfishsolutions.com/starfish-ops/) or by calling 608-263-3660.

Social Work faculty members are available for advice about coursework, research, and the social work profession in general.

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)

- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

SOCIAL WORK, BSW

Undergraduates in the Sandra Rosenbaum School of Social Work receive a liberal arts education in the social and behavioral sciences and their application to human problems that prepares them to be informed citizens involved in human services or social welfare problems and policies. Students take courses in a variety of social sciences to enable them to view social welfare in its broad social, economic, and political contexts. The Bachelor of Social Work (BSW) degree prepares students as beginning-level professional social workers.

Social work's special contribution rests on an established body of knowledge, values, and skills pertinent to understanding human relationships and the interaction between people as individuals, in families, groups, organizations, and communities. Social Work courses (https://guide.wisc.edu/courses/soc_work/) offer a theoretical understanding of social problems and an introduction to practice methods used by social workers. The curriculum covers such areas as aging, family and child welfare, poverty, mental health, developmental disabilities, substance use disorders, diversity, race and ethnicity, criminal justice, oppression, at-risk populations, and social, economic, and environmental justice.

BACHELOR OF SOCIAL WORK MISSION AND GOALS

Read more about the School and its mission: socwork.wisc.edu/about (https://socwork.wisc.edu/about/)

Guided by the core values of the social work profession and grounded in the generalist practice framework, the Bachelor of Social Work's mission is to provide social work education that will nurture competent, ethical entry-level social work professionals committed to scientific inquiry, evidence-based practice, respect for human diversity, the promotion of human and community well-being, human rights, and social, economic and environmental justice.
