Students in the Social Welfare major or the Bachelor of Social Work degree often choose from a variety of certificate programs (https://guide.wisc.edu/explore-majors/#filter=filter_45) available. Common certificates include African American Studies (p. 454), American Indian and Indigenous Studies (p. 469), Business (p. 1561), Chicano/a and Latino/a Studies (https://guide.wisc.edu/undergraduate/letters-science/chicana-chicano-latina-latino-studies/chicana-chicano-latina-latino-studies-certificate/), Criminal Justice (p. 636), Gender and Women's Studies (p. 846), Global Health (p. 164), LGBTQ+ Studies (p. 849), South Asian Studies (p. 1089), and Southeast Asian Studies (p. 1092), among others.

MASTER OF SOCIAL WORK ADVANCED STANDING

Bachelor of Social Work students may be considered for advanced standing if they apply and are accepted to one of the Master of Social Work programs. Advanced standing qualifies a student to exempt out of all or part of their "generalist" year. For more information, please refer to the Advanced Standing page (https://socwork.wisc.edu/programs/advanced-standing-msw/) on the School of Social Work website and the MSW Social Work Advanced Standing, MSW Guide page (https://guide.wisc.edu/graduate/social-work/social-work-advanced-standing-msw/).

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to get in	Application required. Meeting the requirements listed below does not guarantee admission. (https://socwork.wisc.edu/admissions/bsw-application (https://socwork.wisc.edu/admissions/bsw-application/)/)
Courses required to get in	Students are required to complete SOC WORK 205 and SOC WORK 206 prior to applying to the program. Students must have completed or be enrolled in a course that satisfied the BSW's Statistics requirement to be eligible to apply to the program. Visit the "Statistics and Research" section of the Requirements page for a list of approved courses.
GPA required to get in	Minimum 2.500 University GPA, computed on at least 12 credits in-residence at UW–Madison.
Credits required to get in	At least: • 71 total degree credits completed, and • 12 credits completed in-residence at UW–Madison.
Other	Students who apply to the BSW program must be declared in the Social Welfare major. Applications from students who have not yet established residence credit at UW–Madison will not be considered. Students must plan to transfer to UW–Madison at least one semester in advance of applying to the program. Students must submit transcripts from all post-secondary institutions attended. The BSW admissions committee will conduct a holistic review of all prior academic work to help assess readiness for the BSW program.

Semester	Deadline to apply	Decision notification timeline
To apply for a fall start:	Late January	Late February/Early March
To apply for a spring start:	This program does not accept applications to start in the spring.	
To apply for a summer start:	This program does not accept applications to start in the summer.	

Students in the BSW program must be in the College of Letters & Science. Applicants may be enrolled in another School or College, but

must transfer to Letters & Sciences if they are accepted into the BSW program and choose to pursue the degree.

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SOCIAL WORK (BSW)

The Sandra Rosenbaum School of Social Work is a professional school within the College of Letters & Sciences (L&S). The College confers the BSW degree. The BSW is a special degree program; it is not considered a major. The BSW degree is not available to students who intend to earn a degree outside the College of Letters & Science.

Students pursuing a Bachelor of Social Work degree in the College of Letters & Science must complete all of the requirements below. Some courses satisfy more than one L&S degree requirement (visit College of Letters & Science: Requirements (https://guide.wisc.edu/undergraduate/letters-science/#requirementstext) for details).

BACHELOR OF SOCIAL WORK DEGREE REQUIREMENTS

Communication	Complete both: • Part A: one course with the Communication A designation or eligible UW Placement Score; and • Part B: one course with the Communication B designation
Quantitative Reasoning	Complete both: • Part A: one course with the Quantitative Reasoning A designation or eligible UW Placement Score; and • Part B: one course with the Quantitative Reasoning B designation Students complete Quantitative Reasoning B within the requirements of the BSW degree program.
Ethnic Studies	Complete at least 6 credits of coursework with the Ethnic Studies designation.
Language	Complete either: • the fourth unit of one language other than English; or • the complete the third unit of one language other than English and the second unit of an additional language.
Breadth in the Degree: Humanities	Complete 12 credits with the Humanities or Literature designation, which must include at least 6 credits with the Literature designation.
Breadth in the Degree: Social Sciences	Complete 12 credits with the Social Science designation.
Breadth in the Degree: Natural Sciences	Complete 12 credits with the Natural Science, Biological Science, or Physical Science designations, which must include both: • one 3+ credit course with the Biological Science designation, and • one 3+ credit course with the Physical Science designation.
Liberal Arts and Science (LAS) Coursework	at least 108 credits
Depth of Intermediate/ Advanced Coursework	at least 60 credits at the Intermediate or Advanced level
Major	Gain admission to and complete the Bachelor of Social Work degree program.
Total Credits	at least 120 credits
UW-Madison Experience	• 30 credits in residence, overall; and • 30 credits in residence after the 86th credit
Quality of Work	• 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

REQUIREMENTS FOR THE PROGRAM

Complete a minimum of 47 credits, to be attained via the requirements detailed below.

SOCIAL WELFARE POLICY & SERVICES

Code	Title	Credits
Complete both:		
SOC WORK 205	Introduction to the Field of Social Work	4
SOC WORK 206	Introduction to Social Policy	4

SOCIAL SCIENCE CONCENTRATION

Complete **two** Intermediate or Advanced level courses and **at least 6 total credits** with the Social Science Breadth designation from **one** of the following subject areas:

- African American Studies (AFROAMER) (https://guide.wisc.edu/courses/afroamer/)
- American Indian and Indigenous Studies (AMER IND) (https://guide.wisc.edu/courses/amer_ind/)
- Anthropology (ANTHRO) (https://guide.wisc.edu/courses/anthro/)
- Asian American Studies (ASIAN AM) (https://guide.wisc.edu/courses/asian_am/)
- Chicanx/e and Latinx/e Studies (CHICLA) (https://guide.wisc.edu/courses/chicla/)
- Economics (ECON) (https://guide.wisc.edu/courses/econ/)
- Gender and Women's Studies (GEN&WS) (https://guide.wisc.edu/courses/gen_ws/)
- Political Science (POLI SCI) (https://guide.wisc.edu/courses/poli_sci/)
- Psychology (PSYCH) (https://guide.wisc.edu/courses/psych/)
- Sociology (SOC) (https://guide.wisc.edu/courses/soc/)

HUMAN BEHAVIOR & THE SOCIAL ENVIRONMENT

Code	Title	Credits
Complete all:		
SOC WORK 457	Human Behavior and the Environment	3
SOC WORK 612	Psychopathology in Generalist Social Work Practice	2
SOC WORK 640	Diversity, Oppression, and Social Justice in Social Work	3

SOCIAL WORK PRACTICE SEQUENCE

Code	Title	Credits
Complete all:		
SOC WORK 400	Field Practice and Integrative Seminar I [1,4]	4
SOC WORK 401	Field Practice and Integrative Seminar II [1,4]	4
SOC WORK 441	Generalist Practice with Individuals, Families and Groups [6]	3

SOC WORK 442	Generalist Practice with Communities and Organizations [6]	2

STATISTICS AND RESEARCH

Code	Title	Credits
Statistics		
Complete one course from:		3-4
STAT 301	Introduction to Statistical Methods	
or STAT 371	Introductory Applied Statistics for the Life Sciences	
or PSYCH 210	Basic Statistics for Psychology	
or SOC/ C&E SOC 360	Statistics for Sociologists I	
Research		
Complete one course from:		3-4
SOC WORK 650	Methods of Social Work Research	
or PSYCH 225	Research Methods	
or SOC/ C&E SOC 357	Methods of Sociological Inquiry	
Total Credits		**6-8**

ELECTIVES

Complete **two** Intermediate or Advanced level SOC WORK courses and **at least 6 total credits** of Social Work electives. Not all courses in the list below are offered in each semester or year.

List of Social Work Elective Courses

Code	Title	Credits
SOC WORK 316	Power, Possibility, and the Practice of Social Justice	3
SOC WORK 336	Making Sense of Mental Health & Mental Illness	3
SOC WORK 375	Contemporary Issues in Social Welfare	3
SOC WORK 420	Poverty and Social Welfare	3
SOC WORK/ SOC 422	Social Issues in Aging	3
SOC WORK 453	Substance Use Disorders	3
SOC WORK 462	Child Welfare	3
SOC WORK 578	Housing Precarity and Social Policy	4
SOC WORK 623	Interpersonal Violence	3
SOC WORK 627	Sex Trafficking and Sex Trading	2
SOC WORK/ AMER IND 636	Social Work in American Indian Communities: The Indian Child Welfare Act	3
SOC WORK 639	Social Work Practice with LGBTQIA2S+ Individuals and Communities	3
SOC WORK 644	Issues in Developmental Disabilities	3
SOC WORK 646	Child Abuse and Neglect	2
SOC WORK 648	Social Work Practice in Palliative Care	2
SOC WORK 656	Child Welfare Practice in Foster and Kinship Care, Permanency, and Adoption	2
SOC WORK 675	Topics in Contemporary Social Welfare	2-3
SOC WORK 691	Senior Thesis [2]	2
SOC WORK 692	Senior Thesis [2]	2
SOC WORK 699	Directed Study [5]	2-3

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all SOC WORK courses and all major courses (cumulative)
- Minimum 2.000 GPA on 15 upper-level major credits, taken in residence[3]
- 15 credits in SOC WORK, taken on campus

FOOTNOTES

1 BSW students take two semesters (16 hours per week—256 hours/ semester) of field education during their senior year (SOC WORK 400 fall semester, SOC WORK 401 spring semester).

2 Students with an interest in a particular area of study may develop a plan of independent work with the assistance of an interested Social Work faculty member. They may obtain information about instructors and their areas of interest from the School of Social Work website (https://socwork.wisc.edu/directory/). Consent of instructor is required for the noted course offerings in independent work.

3 PSYCH 225, SOC/C&E SOC 357, STAT 301, STAT 371, PSYCH 210, SOC/C&E SOC 360, and all SOC WORK courses designated as Intermediate or Advanced count as upper-level in the major.

4 Please refer to the Advising and Careers tab (https://guide.wisc.edu/undergraduate/letters-science/social-work/social-work-bsw/#advisingandcareerstext) for more information on field education placements.

5 No more than 3 credits of SOC WORK 699 Directed Study may be used toward fulfillment of this requirement.

6 Please refer to the Advising and Careers tab (https://guide.wisc.edu/undergraduate/letters-science/social-work/social-work-bsw/#advisingandcareerstext) for more information on Practice Course sequencing.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Articulate and demonstrate foundational ethical and professional behavior
2. Identify the historical foundations of the US social welfare system and the social work profession.
3. Recognize and engage in foundational practices to advance human rights and social, racial, economic, and environmental justice.
4. Demonstrate foundational knowledge, critical reflection, and analytic skills that inform anti-oppressive and anti-racist practice.
5. Demonstrate a foundational understanding and ability to use research to inform practice and to use practice experiences to inform research.
6. Describe and demonstrate foundational policy practice skills.

7. Describe and demonstrate foundational knowledge and skills in engaging, assessing, intervening, and evaluating practice with individuals, families, groups, organizations, and communities.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

Students wishing to apply to the Bachelor of Social Work (BSW) program (https://socwork.wisc.edu/admissions/bsw-application/) must do so in spring of Junior year.

First Year

Fall	Credits	Spring	Credits
Communication A	3	Ethnic Studies	3-4
Quantitative Reasoning A	3-4	Literature Breadth	4
Biological Science Breadth	3	Physical Science Breadth	3
Language (if needed)	4	Language (if needed)	4
	14		**14**

Second Year

Fall	Credits	Spring	Credits
SOC WORK 205	4	SOC WORK 206	4
Humanities Breadth	4	Communication B	4
Literature Breadth	4	Science Breadth	3
Elective	3	Electives	5
INTER-LS 210[1]	1		
	16		**16**

Third Year

Fall	Credits	Spring	Credits
SOC WORK 640 (fall-only)[2]	3	SOC WORK 457 (spring only)	3
Social Science Concentration[2]	3-4	STAT 301, 371, PSYCH 210, or SOC 360 (also meets Quantitative Reasoning B)	3-4
Science Breadth	3	SOC WORK elective (Intermediate/ Advanced-level)	3-4
Electives (Intermediate/ Advanced-level)	6	Social Science Concentration[2]	3-4
		Elective (Intermediate/ Advanced-level)	3
	15		**15**

Fourth Year

Fall	Credits	Spring	Credits
SOC WORK 400 (fall only)	4	SOC WORK 401 (spring only)	4
SOC WORK 441 (fall only)	3	SOC WORK 612 (spring only)[3]	2
SOC WORK 442 (fall only)	2	SOC WORK 650 (spring only)[3]	3
Electives (Intermediate/ Advanced-level)	6	SOC WORK elective (Intermediate/ Advanced-level)	3-4
		Elective (Intermediate/ Advanced-level)	2-3
	15		**15**

Total Credits 120

Note: SOC WORK 100 is a pre-major elective course that can be taken in the first year, if offered; it is not required for the major.

1 The College encourages students to take INTER-LS 210 in their second year (or anytime); it is recommended but not required.

2 SOC WORK 640 counts towards the BSW ethnic studies requirement, providing three of the six credits needed.

3 SOC WORK 612 and SOC WORK 650 are often available in the summer. Check with an Advisor regarding availability and how summer courses might fit into your schedule.

ADVISING AND CAREERS

ADVISING AND CAREERS

Students interested in either the Social Welfare major or Bachelor of Social Work meet with the Social Work advisors to discuss degree requirements; explore career paths; declare the major; and confer on student issues and concerns. Advisors are an excellent resource for information about campus and community services. Students should see an advisor at least once each semester to review academic progress: socwork.wisc.edu/students/advising (https://socwork.wisc.edu/students/advising/)

Advising appointments for current UW–Madison students are made through Starfish (https://wisc.starfishsolutions.com/starfish-ops/) or by calling 608-263-3660.

Social Work faculty members are available for advice about coursework, research, and the social work profession in general.

FIELD EDUCATION

The Director of Field Education makes final unit placement decisions and field instructors make final agency-placement decisions.

The types of agencies working with the field education program are varied. Field units are organized around a social problem area or a field of practice. Each unit has a range of field placement agencies and settings appropriate to its theme. The emphasis for undergraduate placements is on applying the knowledge and skills of generalist social work practice with systems of all sizes. The focus is on learning and applying analytic and intervention skills within an ethically based, problem-focused approach.

Social Work students should be advised that the Wisconsin Caregiver Law requires a Wisconsin background check (Caregiver Check and Wisconsin Criminal History) for all potential field-education students prior to the field placement. More information regarding this process is available at Field Education (https://socwork.wisc.edu/programs/field-education/) on the Social Work website.

For more information about field units, the agencies they work with, and field course expectations see the Field Education Handbook (https://socwork.wisc.edu/students/resources/#bsw-students). Field unit availability may vary from year to year.

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

CERTIFICATION/LICENSURE

CERTIFICATION/LICENSURE

EXAM PASS RATES

Association of Social Work Boards (https://www.aswb.org/) BSW exam pass rates.

Many students pursuing a BSW will go on to earn a Master in Social Work, which does not require taking the bachelor's level exam. Thus, no data is available from ASWB for UW-Madison attempts in years when the number of students taking the exam is low. As of 2022, ASWB no longer posts national results for repeat exam-takers, only first-time. Exam results nationally, by state, and by institution are publicly available on the ASWB website (https://www.aswb.org/exam/exam-scoring/exam-pass-rates/) for the prior year.

Year of Exam	UW-Madison Graduates: All Attempts	Nationa All Attempt
2024	100	No data
2023	100	No Data
2022	100	No Data
2021	No Data	61
2020	100	61

Year of Exam	UW-Madison Graduates: First Attempt	Nationa First Attemp
2024	100	67
2023	100	68
2022	100	65
2021	No Data	69
2020	100	69

PROFESSIONAL CERTIFICATION/LICENSURE DISCLOSURE (NC-SARA)

The United States Department of Education (via 34 CFR Part 668 (https://www.ecfr.gov/current/title-34/subtitle-B/chapter-VI/part-668/?toc=1)) requires institutions that provide distance education to disclose information for programs leading to professional certification or licensure. The expectation is that institutions will determine whether each applicable academic program meets state professional licensure requirements and provide a general disclosure of such on an official university website.

Professional licensure requirements vary from state-to-state and can change year-to-year; they are established in a variety of state statutes, regulations, rules, and policies; and they center on a range of educational requirements, including degree type, specialized accreditation, total credits, specific courses, and examinations.

UW-Madison has taken reasonable efforts to determine whether this program satisfies the educational requirements for certification/licensure in states where prospective and enrolled students are located and is disclosing that information as follows.

Disclaimer: This information is based on the most recent annual review of state agency certification/licensure data and is subject to change. All students are strongly encouraged to consult with the individual/office listed in the Contact Information box on this page and with the applicable state agency for specific information.

The requirements of this program meet certification/licensure requirements in the following states:

Illinois, Wisconsin

The requirements of this program do not meet certification/licensure requirements in the following states:
Not applicable

Updated: 1 June 2026

ACCREDITATION

ACCREDITATION

Council on Social Work Education (https://www.cswe.org/Accreditation/)

Accreditation status: Accredited. Next accreditation review: 2029.

SOCIAL WORK COMPETENCIES

At the conclusion of the BSW program we expect students to have achieved the following core competencies at a generalist level:

1. Demonstrate ethical and professional behavior
2. Advance human rights and social, racial, economic, and environmental justice
3. Engage anti-racism, diversity, equity, and inclusion (ADEI) in practice
4. Engage in practice-informed research and research-informed practice
5. Engage in policy practice
6. Engage with individuals, families, groups, communities, and organizations
7. Assess individuals, families, groups, communities, and organizations
8. Intervene with individuals, families, groups, communities, and organizations
9. Evaluate practice with individuals, families, groups, communities, and organizations

SCHOOL OF JOURNALISM AND MASS COMMUNICATION

The School of Journalism and Mass Communication in the College of Letters & Science provides students with a connected, collaborative, and inclusive community of passionate communicators and prepares them for careers in a wide variety of fields. Whether they are interested in advertising and public relations, investigative journalism, or magazine publishing, students are equipped with an education grounded in liberal arts and a unique blend of hands-on skills training, theoretical learning, and real-world practice. As a result, graduates leave as skilled communicators, critical thinkers, seasoned problem-solvers, and innovators who are ready to hit the ground running in their careers.

Our undergraduate program prepares students to:

- Inform and persuade audiences with compelling messages, across a variety of contemporary media.
- Think strategically, creatively and critically to solve problems in a professional context.
- Meet the demands of an ever-changing communication industry with a wide variety of practical skills and real-world experience.
- Understand the responsible and ethical use of mass media.
- Appreciate the media's relationship with social, political, legal, and economic systems.
- Develop effective practices to advance inclusion and social justice in media professions and communication research.

CONCENTRATIONS

STRATEGIC COMMUNICATION

Strategic communication informs and persuades audiences to take action. By using written, oral, and visual communication skills, strategic communicators tell the stories of people, brands, and organizations. The Strategic Communication concentration (https://journalism.wisc.edu/undergraduate/strategic-communication/) prepares students for careers in advertising, public relations, media planning, social media, content, digital marketing, creative strategy, and more. Strategic communication is the foundation of brand, political, health, corporate, and financial communications, just to name a few.

JOURNALISM

Journalism informs the public about important issues and events. Through written, oral, and visual communication, multimedia journalists tell the stories that matter most to the audiences they serve. The Journalism concentration (https://journalism.wisc.edu/undergraduate/reporting-multimedia-journalism/) prepares students for careers in print, broadcast, and digital news, investigative journalism, magazine writing, editing and publishing, documentary film, podcasting, and more. Students engage with the practices, ethics, and effects of journalism and its central role in democracy.

CERTIFICATES

In addition to strategic communication and journalism training, the Journalism major offers the flexibility for students to earn certificates and enhance their learning in a specific area of communications. Certificates are a great way to dive deeper in to a particular interest, gain a new perspective on a primary degree, and stand out in future job interviews. The School offers three certificates for any UW–Madison student interested in gaining experience in digital media, data analysis, and sports communication – Digital Media Analytics Certificate (p. 1455), Sports Communication Certificate (p. 1465), and Digital Studies Certificate (p. 740).

PRACTICAL EXPERIENCE: ORGANIZATIONS

The School encourages students to gain practical experience through student organizations, part-time jobs, and internships.

ORGANIZATIONS

Student media include (but are not limited to):

- The Daily Cardinal (https://www.dailycardinal.com/)
- The Badger Herald (https://badgerherald.com/)
- WSUM campus radio (https://wsum.org/)
- Wisconsin Union Directorate Publications (https://union.wisc.edu/get-involved/wud/wud-lit/)

Student organizations related to the school and major include (but are not limited to):

- Public Relations Student Society of America (PRSSA) (https://win.wisc.edu/organization/PRSSA/)

- Advertising Club (https://win.wisc.edu/organization/adclub/)
- The Black Voice (https://win.wisc.edu/organization/blackvoicesuw/)
- Society of Professional Journalists (SPJ) (https://www.spj.org/)
- Association for Women in Communication (AWC) (https://win.wisc.edu/organization/awc/)
- Association for Women in Sports Media (AWSM) (https://win.wisc.edu/organization/awsm/)
- National Association of Black Journalists: UW–Madison (https://nabjwisconsin.wordpress.com/)
- Moda Magazine (https://modamadison.com/)

INTERNSHIPS

Students planning for careers in strategic communication or journalism are encouraged to hold one or more internships in the area of their academic specialization(s).

CAREER SERVICES & ADVISING

One of the major benefits of the School of Journalism and Mass Communication major is access to a dedicated and experienced communications industry career advisor. The School also provides an up-to-date list of job postings on its website. Through our large network of active alumni, relationships with industry professionals, and hands-on skills curriculum, over 90% of our students find jobs within three to six months of graduation.

DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/CERTIFICATES

- Digital Media Analytics, Certificate (p. 1455)
- Journalism, JBA (p. 1456)
- Journalism, JBS (p. 1461)
- Sports Communication, Certificate (p. 1465)

DIGITAL MEDIA ANALYTICS, CERTIFICATE

Develop data-analysis skills and gain a theoretical understanding of how digital media function in contemporary society, particularly within journalism, strategic communication, and mass media contexts.

The certificate in Digital Media Analytics includes a foundational course, a choice of skills courses in statistics, analytics, and communications research, and a wide range of social impacts courses to understand how digital media influences society and behavior. A capstone course in data analysis and visualization completes the certificate.

Any undergraduate student, including those in the Bachelor of Journalism degree program (p. 1456), may earn this certificate to get training in digital media analytics and add this credential for careers in media-related industries like data journalism, data-driven strategic communication (e.g., advertising, public relations, communication campaigns), and data-informed sports communication.

HOW TO GET IN

HOW TO GET IN

The Certificate in Digital Media Analytics will be open to any University of Wisconsin-Madison undergraduate student with a minimum 2.000 University GPA. Students may declare or cancel the certificate at any time by filling out a declaration form available on the SJMC website (https://journalism.wisc.edu/undergraduate/digital-media-analytics-certificate/).

REQUIREMENTS

REQUIREMENTS

The certificate requires a minimum of 12 credits.

RESIDENCE AND QUALITY OF WORK

- At least 7 certificate credits must be completed in residence.
- Minimum 2.000 GPA on all certificate courses.

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Apply fundamental data science concepts and skills to improve the critical understanding of the roles of evolving digital media in journalism, mass communication, strategic communication, and sports communication.
2. Effectively and ethically use digital media to communicate complex data and results to a broad and diverse range of stakeholders.
3. Strategically, creatively and critically use digital media and analytics for compelling data-driven storytelling.
4. Develop an understanding of the key perspectives on the social and media contexts in which digital media operate.
5. Develop effective practices to advance inclusion and social justice in media professions and communication research.

ADVISING AND CAREERS

ADVISING AND CAREERS

The Certificate in Digital Media Analytics encourages students to get involved in related internships and career-building courses related to digital media analytics.

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

JOURNALISM, JBA

The Bachelor of Journalism degree in the College of Letters & Science's School of Journalism and Mass Communication (SJMC) provides you with a connected, collaborative, and inclusive community of passionate communicators and prepares you for careers in a wide variety of fields. Whether you are interested in advertising and public relations, investigative journalism, or magazine publishing, you will be equipped with an education grounded in the liberal arts and a unique blend of hands-on skills training, theoretical learning, and real-world practice. As a result, you will graduate from SJMC and UW–Madison as a skilled communicator, critical thinker, seasoned problem-solver, and innovator who is ready to hit the ground running in your career.

This degree prepares you to:

- inform and persuade audiences with compelling messages, across a variety of contemporary media;
- think strategically, creatively and critically to solve problems in a professional context;
- meet the demands of an ever-changing communication industry with a wide variety of practical skills and real-world experience;
- understand the responsible and ethical use of mass media;
- appreciate the media's relationship with social, political, legal, and economic systems; and
- develop effective practices to advance inclusion and social justice in media professions and communication research.

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to Get in	Application required. Meeting the requirements listed below does not guarantee admission. (https://sjmc.wisc.edu/undergraduate/undergraduate-admissions (https://sjmc.wisc.edu/undergraduate/undergraduate-admissions/)/)
Courses required to get in	Students must complete JOURN 201 by the end of the semester in which they apply.
GPA requirements to get in	None.
Credits required to get in	Students may have earned no more than 16 credits in Journalism (JOURN) courses completed in residence at UW–Madison when applying for admission.
Other	None.

Semester	Deadline to apply	Decision notification timeline
Fall	Early December	Early January
Spring	Early May	Early June
Summer	This program does not accept applications to start in the summer.	

ADMISSION TO THE JOURNALISM DEGREE PROGRAM

Students who wish to declare themselves as degree candidates in journalism must submit an application to the School of Journalism and Mass Communication (SJMC). Prospective degree candidates must present to the school a record of academic achievement, writing ability and extracurricular participation that indicate a probability of success in some field of communication.

The number of students to be admitted in a given semester is subject to change based on the school's capacity to provide adequate access to required courses. Admissions decisions are based on the entire application, with particular emphasis on academic performance and writing ability. The academic advisor conducts one-hour information sessions for applicants each semester, with dates and times listed on the application; these sessions are highly recommended and provide more information for applicants than is possible in a one-on-one advising meeting.

After admission to the school, the student's classification will be changed to JBA or JBS to reflect this change in status.

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.

Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS-JOURNALISM (JBA)

The School of Journalism and Mass Communication is a professional school within the College of Letters & Sciences (L&S). The College confers the Bachelor of Arts—Journalism (JBA) degree. The JBA is a special degree program; it is not a major. The JBA degree is not available to students who intend to earn a degree outside the College of Letters & Science.

Students pursuing a Bachelor of Arts—Journalism (JBA) degree in the College of Letters & Science must complete all of the requirements below. Some courses satisfy more than one L&S degree requirement (visit College of Letters & Science: Requirements (https://guide.wisc.edu/undergraduate/letters-science/#requirementstext) for details).

BACHELOR OF ARTS-JOURNALISM DEGREE REQUIREMENTS

Communication	Complete both: • Part A: one course with the Communication A designation or eligible UW Placement Score; and • Part B: one course with the Communication B designation
Quantitative Reasoning	Complete both: • Part A: one course with the Quantitative Reasoning A designation or eligible UW Placement Score; and • Part B: one course with the Quantitative Reasoning B designation
Ethnic Studies	one 3+ credit course with the Ethnic Studies designation
Language	Complete either: • the fourth unit of one language other than English; or • the third unit of one language other than English and the second unit of an additional language.
L&S Breadth: Humanities	Complete 12 credits with the Humanities or Literature designation, which must include at least 6 credits with the Literature designation.
L&S Breadth: Social Sciences	Complete 12 credits with the Social Science designation.
L&S Breadth: Natural Sciences	Complete 12 credits with the Natural Science, Biological Science, or Physical Science designations, which must include both: • one 3+ credit course with the Biological Science designation, and • one 3+ credit course with the Physical Science designation.
Liberal Arts and Science (LAS) Coursework	at least 108 credits
Depth of Intermediate/Advanced Coursework	at least 60 credits at the Intermediate or Advanced level
Major	Declare and complete at least one major.
Total Credits	at least 120 credits
UW–Madison Experience	• 30 credits in residence, overall; and • 30 credits in residence after the 86th credit
Quality of Work	• 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

REQUIREMENTS FOR THE MAJOR

Students must complete 32 credits in major course work, to include:

INTRODUCTORY REQUIREMENTS

Code	Title	Credits
Introduction to Journalism		
JOURN 201	Introduction to Mass Communication	4
JOURN 202	Mass Communication Practices	6
JOURN 203	Information for Communication	3
Social Science and Humanities		**12**
Intermediate/Advanced courses from at least three distinct Subjects [1]		
Total Credits		**25**

[1] Courses cross-listed in JOURN **may *not* count** toward this requirement.

CONCENTRATIONS

Students must complete one of two concentrations: **Journalism**, which focuses on reporting, or **Strategic Communication**, which focuses on

forms of persuasive communication that includes advertising and public relations). [3]

Journalism

Code	Title	Credits
Journalism Concentration		
JOURN 335	Principles and Practices of Reporting	4
Advanced Reporting - one course:		**4**
JOURN 401	In-Depth Reporting	
JOURN 405	Creative Nonfiction	
JOURN 411	Multimedia Design	
JOURN 417	Magazine Publishing	
JOURN 415	Science and Environmental Journalism	
JOURN 420	Investigative Reporting	
JOURN 425	Video Journalism	
JOURN 426	Community-Based Reporting	
JOURN 455	Emerging Media and the News	
JOURN 456	Long Form Video	
JOURN 457	Storytelling Through Sound	
JOURN 475	Special Topics in Advanced Concepts and Skills [2]	
Total Credits		**8**

Strategic Communication

Code	Title	Credits
Strategic Communications Concentration		
JOURN 345	Principles and Practice of Strategic Communication	4
Advanced Strategic Communication—one course:		**4**
JOURN 411	Multimedia Design	
JOURN 417	Magazine Publishing	
JOURN 445	Creative Campaign Messages	
JOURN 447	Strategic Media Planning	
JOURN 449	Account Planning and Strategy	
JOURN 455	Emerging Media and the News	
JOURN 456	Long Form Video	
JOURN 457	Storytelling Through Sound	
JOURN 463	Digital Media Strategies	
JOURN 464	Public Relations Strategies	
JOURN 465	Social Media Marketing Communications	
JOURN 475	Special Topics in Advanced Concepts and Skills [2]	
Total Credits		**8**

PERSPECTIVES, TOPICS AND ADVANCES

Code	Title	Credits
Perspectives (Two courses):		**8**
JOURN/ HISTORY 560	History of U.S. Media	
JOURN 561	Mass Communication and Society	
JOURN 562	Mass Media and Racial Diversity	
JOURN 563	Law of Mass Communication	
JOURN 564	Media and the Consumer	
JOURN 565	Effects of Mass Communication	
JOURN 566	Communication and Public Opinion	
JOURN 567	Mass Media and Global Communication	
Topics or Advances (1 course):		**3-4**
JOURN/ MARKETNG 605	Digital Brand Building	
JOURN/ COM ARTS/ HDFS 616	Mass Media and Youth	
JOURN 618	Mass Communication and Political Behavior	
JOURN 620	International Communication	
JOURN 649	Brand Strategy in Advertising & Integrated Communications	
JOURN 657	Understanding Research Design & Statistics in Mass Communication	
JOURN 658	Communication Research Methods	
JOURN/ ASIAN AM 662	Mass Media and Minorities	
JOURN 669	Literary Aspects of Journalism	
JOURN 675	Topics in Government and Mass Media	
JOURN 676	Special Topics in Mass Communication	
JOURN/ COM ARTS/ LSC 617	Health Communication in the Information Age	
JOURN 622	The Impact of Emerging Media	
JOURN/L I S 677	Concepts and Tools for Data Analysis and Visualization	
Total Credits		**11-12**

[2] Special Topics courses may count for either concentration, or no concentration, depending on Topic. Consult the advisor for this major to determine eligibility of JOURN 475 to meet a major requirement.

[3] Students planning to complete both concentrations should consult with the undergraduate academic advisor about course availability and planning.

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all JOURN and all major courses
- 2.000 GPA on 15 upper-level major credits, taken in residence [5]
- 15 credits in JOURN, taken on the UW–Madison campus

[5] JOURN 400–699 are upper-level in the major.

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Journalism undergraduate advisor.

HONORS IN THE JOURNALISM MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.400 GPA for all JOURN courses and all courses that count toward the major
- Complete one additional Topics or Advances course, for a total of two Topics or Advances courses
- Earn a grade of B or better in the four Perspectives, Topics and Advances courses
- Complete a two-semesters of Senior Honors Thesis in JOURN 681 and JOURN 682, for a total of 6 credits.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Convey information and express ideas effectively in contemporary media.
2. Understand the responsible and ethical use of mass media.
3. Appreciate the media's relationship with social, political, legal and economic systems.
4. Think strategically, creatively and critically, to solve problems in a professional context.
5. Develop effective practices to advance inclusion and social justice in media professions and communication research.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

First Year

Fall	Credits	Spring	Credits
Communication A	3	JOURN 201	4
Quantitative Reasoning A	3-4	Ethnic Studies	3
Science Breadth	3	Biologial Science Breadth	3
Language (if needed)	4	Language (if needed)	4
	13		**14**

Second Year

Fall	Credits	Spring	Credits
JOURN 202	6	JOURN 335 or 345	4
JOURN 203	3	Literature Breadth	4
Quantitative Reasoning B	3	Physical Science Breadth	3
Social Science Breadth	4	Social Science Breadth	4
		JOURN 601	1
	16		**16**

Third Year

Fall	Credits	Spring	Credits
Journalism or Strategic Communication course	4	Perspectives course	4
Intermediate/Advanced Humanities or Social Science for JBA/JBS	4	Intermediate/Advanced Humanities or Social Science for JBA/JBS	4
Literature Breadth	4	Intermediate/Advanced COMP SCI, MATH, or STAT (if JBS)	3-4
Science Breadth	3	Science Breadth	3
	15		**15**

Fourth Year

Fall	Credits	Spring	Credits
Perspectives course (JOURN 500+)	4	Topics or Advances course (JOURN 600+)	3-4
Intermediate/Advanced Humanities or Social Science for JBA/JBS	4	Electives	11
Intermediate/Advanced COMP SCI, MATH, or STAT (if JBS)	3-4		
Electives	5		
	16		**15**

Total Credits 120

ADVISING AND CAREERS

ADVISING AND CAREERS

ACADEMIC ADVISING

All current UW–Madison undergraduate students interested in the Bachelor of Journalism degree are welcome to schedule an academic advising appointment (https://sjmc.wisc.edu/undergraduate/undergraduate-academic-advising/).

Are you a prospective student? The School of Journalism and Mass Communication welcomes prospective students to take a tour of Vilas Hall and attend our admission information sessions. Learn more about the application process and requirements for admission (https://journalism.wisc.edu/undergraduate/undergraduate-admissions/).

CAREER SERVICES & ADVISING

One of the benefits of the School of Journalism and Mass Communication is access to a dedicated and experienced communications industry career advisor. The School also provides an up-to-date list of job postings (https://journalism.wisc.edu/careers/job-listings/). Through our large network of active alumni, relationships with industry professionals, and hands-on skills curriculum, over 90% of our students find jobs within three to six months of graduation.

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

JOURNALISM, JBS

The Bachelor of Journalism degree in the College of Letters & Science's School of Journalism and Mass Communication (SJMC) provides you with a connected, collaborative, and inclusive community of passionate communicators and prepares you for careers in a wide variety of fields. Whether you are interested in advertising and public relations, investigative journalism, or magazine publishing, you will be equipped with an education grounded in the liberal arts and a unique blend of hands-on skills training, theoretical learning, and real-world practice. As a result, you will graduate from SJMC and UW–Madison as a skilled communicator, critical thinker, seasoned problem-solver, and innovator who is ready to hit the ground running in your career.

This degree prepares you to:

- inform and persuade audiences with compelling messages, across a variety of contemporary media;
- think strategically, creatively and critically to solve problems in a professional context;
- meet the demands of an ever-changing communication industry with a wide variety of practical skills and real-world experience;
- understand the responsible and ethical use of mass media;
- appreciate the media's relationship with social, political, legal, and economic systems; and
- develop effective practices to advance inclusion and social justice in media professions and communication research.

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to Get in	Application required. Meeting the requirements listed below does not guarantee admission. (https://sjmc.wisc.edu/undergraduate/undergraduate-admissions (https://sjmc.wisc.edu/undergraduate/undergraduate-admissions/)/)
Courses required to get in	Students must complete JOURN 201 by the end of the semester in which they apply.
GPA requirements to get in	None.
Credits required to get in	Students may have earned no more than 16 credits in Journalism (JOURN) courses completed in residence at UW–Madison when applying for admission.
Other	None.

Semester	Deadline to apply	Decision notification timeline
Fall	Early December	Early January
Spring	Early May	Early June
Summer	This program does not accept applications to start in the summer.	

ADMISSION TO THE JOURNALISM DEGREE PROGRAM

Students who wish to declare themselves as degree candidates in journalism must submit an application to the School of Journalism and Mass Communication (SJMC). Prospective degree candidates must present to the school a record of academic achievement, writing ability and extracurricular participation that indicate a probability of success in some field of communication.

The number of students to be admitted in a given semester is subject to change based on the school's capacity to provide adequate access to required courses. Admissions decisions are based on the entire application, with particular emphasis on academic performance and writing ability. The academic advisor conducts one-hour information sessions for applicants each semester, with dates and times listed on the application; these sessions are highly recommended and provide more information for applicants than is possible in a one-on-one advising meeting.

After admission to the school, the student's classification will be changed to JBA or JBS to reflect this change in status.

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE-JOURNALISM (JBS)

The School of Journalism and Mass Communication is a professional school within the College of Letters & Sciences (L&S). The College confers the Bachelor of Science—Journalism (JBS) degree. The JBS is a special degree program; it is not a major. The JBS degree is not available to students who intend to earn a degree outside the College of Letters & Science.

Students pursuing a Bachelor of Science—Journalism (JBS) degree in the College of Letters & Science must complete all of the requirements below. Some courses satisfy more than one L&S degree requirement (visit College of Letters & Science: Requirements (https://guide.wisc.edu/undergraduate/letters-science/#requirementstext) for details).

BACHELOR OF SCIENCE-JOURNALISM DEGREE REQUIREMENTS

Communication	Complete both: • Part A: one course with the Communication A designation or eligible UW Placement Score; and • Part B: one course with the Communication B designation
Quantitative Reasoning	Complete both: • Part A: one course with the Quantitative Reasoning A designation or eligible UW Placement Score; and • Part B: one course with the Quantitative Reasoning B designation
Ethnic Studies	one 3+ credit course with the Ethnic Studies designation
Mathematics	Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.
Language	the third unit of one language other than English
L&S Breadth: Humanities	Complete 12 credits with the Humanities or Literature designation, which must include at least 6 credits with the Literature designation.
L&S Breadth: Social Sciences	Complete 12 credits with the Social Science designation.
L&S Breadth: Natural Sciences	Complete 12 credits, which must include both: • 6 credits with the Biological Science designation, and • 6 credits with the Physical Science designation.
Liberal Arts and Science (LAS) Coursework	at least 108 credits
Depth of Intermediate/ Advanced Coursework	at least 60 credits at the Intermediate or Advanced level
Major	Declare and complete at least one major.
Total Credits	at least 120 credits
UW–Madison Experience	• 30 credits in residence, overall, and • 30 credits in residence after the 86th credit
Quality of Work	• 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

REQUIREMENTS FOR THE MAJOR

Students must complete 32 credits in major course work, to include:

INTRODUCTORY REQUIREMENTS

Code	Title	Credits
Introduction to Journalism		
JOURN 201	Introduction to Mass Communication	4
JOURN 202	Mass Communication Practices	6
JOURN 203	Information for Communication	3
Social Science and Humanities		**12**
Intermediate/Advanced courses from at least three distinct Subjects [1]		
Total Credits		**25**

[1] Courses cross-listed in JOURN **may *not* count** toward this requirement.

CONCENTRATIONS

Students must complete one of two concentrations: **Journalism**, which focuses on reporting, or **Strategic Communication**, which focuses on forms of persuasive communication that includes advertising and public relations). [3]

Journalism

Code	Title	Credits
Journalism Concentration		
JOURN 335	Principles and Practices of Reporting	4
Advanced Reporting - one course:		**4**
JOURN 401	In-Depth Reporting	
JOURN 405	Creative Nonfiction	
JOURN 411	Multimedia Design	
JOURN 417	Magazine Publishing	
JOURN 415	Science and Environmental Journalism	
JOURN 420	Investigative Reporting	
JOURN 425	Video Journalism	
JOURN 426	Community-Based Reporting	
JOURN 455	Emerging Media and the News	
JOURN 456	Long Form Video

[2] Special Topics courses may count for either concentration, or no concentration, depending on Topic. Consult the advisor for this major to determine eligibility of JOURN 475 to meet a major requirement.

[3] Students planning to complete both concentrations should consult with the undergraduate academic advisor about course availability and planning.

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all JOURN and all major courses
- 2.000 GPA on 15 upper-level major credits, taken in residence [5]
- 15 credits in JOURN, taken on the UW–Madison campus

[5] JOURN 400–699 are upper-level in the major.

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Journalism undergraduate advisor.

HONORS IN THE JOURNALISM MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.400 GPA for all JOURN courses and all courses that count toward the major
- Complete one additional Topics or Advances course, for a total of two Topics or Advances courses
- Earn a grade of B or better in the four Perspectives, Topics and Advances courses
- Complete a two-semesters of Senior Honors Thesis in JOURN 681 and JOURN 682, for a total of 6 credits.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Convey information and express ideas effectively in contemporary media.
2. Understand the responsible and ethical use of mass media.
3. Appreciate the media's relationship with social, political, legal and economic systems.
4. Think strategically, creatively and critically, to solve problems in a professional context.
5. Develop effective practices to advance inclusion and social justice in media professions and communication research.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

First Year

Fall	Credits	Spring	Credits
Communication A	3	JOURN 201	4
Quantitative Reasoning A	3-4	Ethnic Studies	3
Science Breadth	3	Biologial Science Breadth	3
Language (if needed)	4	Language (if needed)	4
	13		**14**

Second Year

Fall	Credits	Spring	Credits
JOURN 202	6	JOURN 335 or 345	4
JOURN 203	3	Literature Breadth	4
Quantitative Reasoning B	3	Physical Science Breadth	3
Social Science Breadth	4	Social Science Breadth	4
		JOURN 601	1
	16		**16**

Third Year

	16		**15**

Total Credits 120

ADVISING AND CAREERS

ADVISING AND CAREERS

ACADEMIC ADVISING

All current UW–Madison undergraduate students interested in the Bachelor of Journalism degree are welcome to schedule an academic advising appointment (https://sjmc.wisc.edu/undergraduate/undergraduate-academic-advising/).

Are you a prospective student? The School of Journalism and Mass Communication welcomes prospective students to take a tour of Vilas Hall and attend our admission information sessions. Learn more about the application process and requirements for admission (https://journalism.wisc.edu/undergraduate/undergraduate-admissions/).

CAREER SERVICES & ADVISING

One of the benefits of the School of Journalism and Mass Communication is access to a dedicated and experienced communications industry career advisor. The School also provides an up-to-date list of job postings (https://journalism.wisc.edu/careers/job-listings/). Through our large network of active alumni, relationships with industry professionals, and hands-on skills curriculum, over 90% of our students find jobs within three to six months of graduation.

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

SPORTS COMMUNICATION, CERTIFICATE

Sports sit at the heart of UW–Madison culture, and communication plays a central role in the business of sports. The Sports Communication certificate prepares students with real-world skills, hands-on training, and

knowledge for success in the growing and fast-paced professions of sports journalism and sports marketing communication.

This certificate is open to any undergraduate student with an interest in sports reporting, sports marketing, or sports management. Through their coursework, students will learn how to creatively, critically, and responsibly communicate about sports.

The certificate includes a foundational introduction to sports communication; skills courses on writing, reporting, or marketing; and social impacts courses to understand the role that sports plays in societies. You also complete professional development through an internship, field work, or similar hands-on experience.

Many courses offered in this certificate are taught fully online and during the summer, making this a flexible option that fits with many academic plans.

HOW TO GET IN

HOW TO GET IN

The Certificate in Sports Communication will be open to any University of Wisconsin-Madison undergraduate. Students interested in declaring the certificate are not required to meet with the certificate advisor. To declare the certificate, please complete the declaration form at the bottom of this page (https://sjmc.wisc.edu/undergraduate/sports-communication-certificate/).

REQUIREMENTS

REQUIREMENTS

The certificate requires 12 credits as follows:[1]

Code	Title	Credits
Survey Course:		
JOURN 150	Introduction to Sports Communication	3
One Skills course from the following:		**3**
JOURN 350	Sports Marketing Communications	
JOURN 450	Sports Reporting and Writing	
MARKETNG 410	Sports Marketing	
One Social Impacts course from the following:		**3**
HISTORY 136	Sport, Recreation, & Society in the United States	
JOURN 162	Mass Media in Multicultural America	
AMER IND 185	Indigenous Athletes and Sports	
GEOG/ INTL ST 311	The Global Game: Soccer, Politics, and Identity	
COM ARTS 359	Sports Media	
JOURN 651	Communicating Sports Controversies	
One Professional Enrichment course from the following:		**1-3**
INTER-LS 260	Internship in the Liberal Arts and Sciences	
JOURN 601	Colloquium in Professional Communication Careers	
JOURN 697	Internship	
JOURN 699	Directed Study	
COM ARTS 614	Field Experience in Communication	
COM ARTS 615	Second Field Experience in Communication	
Elective credit from any course above to achieve 12 credits		**0-2**
Total Credits		**12**

RESIDENCE AND QUALITY OF WORK

- Minimum 2.000 GPA on all certificate courses.
- At least 6 credits in the certificate must be completed in residence.

[1] Courses taken on a Pass/Fail basis do meet requirements of the certificate.

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Inform and persuade audiences with compelling sports-related messages, across a variety of contemporary media.
2. Think strategically, creatively and critically to solve problems and meet the demands and challenges of informing the public about sports while understanding the norms of amateur and professional sports organizations.
3. Understand the responsible and ethical use of mass media to convey information to sports-interested audiences.
4. Appreciate and articulate the role of sports in culture and society and the media's relationship with that role.

ADVISING AND CAREERS

ADVISING AND CAREERS

Please contact the undergraduate advisor (https://sjmc.wisc.edu/undergraduate/sports-communication-certificate/) for the Sports Communication Certificate, with your questions about courses and requirements.

The Sports Communication Certificate encourages you to gain practical experience through internships and career-building courses (see Certificate Requirements (p.)).

SOCIOLOGY

DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/CERTIFICATES

- Applied Social Research, Certificate (p. 1467)
- Integrated Studies in Science, Engineering, and Society, Certificate (p. 1469)
- Sociology, BA (p. 1471)
- Sociology, BS (p. 1478)

APPLIED SOCIAL RESEARCH, CERTIFICATE

The Certificate in Applied Social Research is designed for students who are interested in answering questions about the social world with qualitative and quantitative data and scientific research methods. This program prepares students for jobs in applied social research and for graduate study. Students gain training in advanced statistics, social science computing, and a variety of research methods. By selecting appropriate electives and internships, students may focus their training on demography, survey research, marketing and communications, criminal justice, health care, education, social services, natural resources, organizations, or personnel and human resources.

HOW TO GET IN

HOW TO GET IN

Students may declare the certificate after completing at least one Introductory Statistics course and at least one Social Science Methods course with a 3.000 GPA. This GPA is computed on all attempts prior to and including the first passed attempt of any eligible course in each group.

Students must meet with either the Sociology undergraduate advisor or the CASR program director to declare the certificate. Appointments may be arranged via email or in Starfish.

Code	Title	Credits
Introductory Statistics		
Complete one of the following:		
SOC/C&E SOC 360	Statistics for Sociologists I (preferred)	4
STAT 301	Introduction to Statistical Methods	3
STAT 240	Data Science Modeling I	4
STAT 324	Introduction to Statistics for Science and Engineering	3
STAT 371	Introductory Applied Statistics for the Life Sciences	3

Capstone		
SOC/C&E SOC 693	Practicum in Analysis and Research	3
Total Credits		**15**

RESIDENCE AND QUALITY OF WORK

- At least 8 certificate credits must be completed in residence.
- Minimum 3.000 GPA on all certificate courses.

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Understand and practice principles of accurate, reproducible social research
2. Evaluate the relative strengths and weaknesses of various social science research methods for addressing different types of research questions
3. Process, manage, and analyze social science data
4. Evaluate the strengths and limitations of data for answering different types of research questions
5. Communicate research findings effectively to a variety of audiences, including applying best practices for data visualization
6. Think critically about ethical questions arising in the conduct of social science and design research according to best ethical practices
7. Articulate relevance of applied social research skills to careers and graduate education

ADVISING AND CAREERS

ADVISING AND CAREERS

Students should consult with the undergraduate advisor in Sociology or the Certificate in Applied Social Research faculty director to declare the certificate.

WHERE CAN I USE SOCIAL RESEARCH SKILLS?

Almost anywhere! Learning social research skills prepares students to pose research questions, understand what kinds of data can answer them, manage and analyze data and have the background to assess its quality. These skills can be deployed in many types of careers. Recent graduates have jobs such as data analyst, associate planner, risk analyst, research associate, study coordinator, and operations data specialist. They work in settings such as research centers, all kinds of business fields, and federal, state and local government offices and nonprofits. Recent graduates also have also pursued masters and doctoral degrees in Sociology and adjacent fields such as public health, policy, law, and medicine.

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

INTEGRATED STUDIES IN SCIENCE, ENGINEERING, AND SOCIETY, CERTIFICATE

NOTICE OF PROGRAM NAME CHANGE

The Certificate in Integrated Studies in Science, Engineering, and Society is being renamed to the Certificate in Science, Technology, and Society. Students can earn a certificate in Studies in Science, Engineering, and Society through the end of summer 2027. Beginning fall 2027, the program awarded will be Certificate in Science, Technology, and Society.

The certificate in Integrated Studies in Science, Engineering, and Society (ISSuES) offers students an opportunity to explore the social sciences and humanities in a way that emphasizes the relationship between science, technology, medicine, engineering, and society. From energy to communications technologies to gene editing to automation, the interplay between researchers, developers, policy makers and the public is constantly shaping and reshaping our world. The certificate allows students to complement their majors with a set of courses aimed at helping them understand how society shapes science and how science shapes society.

Offered by the Holtz Center for Science & Technology Studies, the certificate is highly flexible and is available to all undergraduate students interested in exploring the complex interplay between science, technology, medicine, engineering, and society.

HOW TO GET IN

HOW TO GET IN

The certificate in integrated studies in science, engineering and society (ISSuES) is offered to all undergraduate students. Students should begin the application process by the end of sophomore year, but no later than the end of their junior year.

The first step in applying to the program is to consult with the ISSuES certificate advisor. To make an appointment, please send an email to sts@ssc.wisc.edu.

REQUIREMENTS

REQUIREMENTS

Students must complete at least 12 credits for the ISSuES certificate. Courses taken with the pass/fail grade option do not count toward the certificate's requirements.

RESIDENCE AND QUALITY OF WORK

- Minimum 2.000 GPA on all certificate courses.
- At least 6 certificate credits must be completed in residence.

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Be exposed to the social sciences and humanities and see their relevance to scientific and technological enterprises.
2. Develop the capacity for interdisciplinary, critical thinking about the relationship between science, technology, engineering, medicine and society.

3. Develop a sense of personal and social responsibility for their engineering, scientific or other professional practice.
4. Strengthen written communication skills.

ADVISING AND CAREERS

ADVISING AND CAREERS

ADVISING

To obtain advising assistance, students should consult with the certificate advisor: sts@ssc.wisc.edu.

All UW–Madison undergraduates are encouraged to begin working on their career exploration and preparation soon after arriving on campus. We partner with SuccessWorks at the College of Letters & Science. L&S graduates are in high demand by employers and graduate programs, and the Integrated Studies in Science, Engineering, and Society certificate provides students with a way to integrate their liberal studies with the skills they are developing in their majors. It is important to us that our students are career ready at the time of graduation, and we are committed to your success. Students who have completed the certificate say that it helped them enhance the portfolio of skills they offered to employers and graduate programs by giving them foundations for understanding and communicating effectively about the ethical, policy, design, and other nontechnical aspects of science, engineering, and medicine.

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

SOCIOLOGY, BA

Sociology applies the methods of science to explain social behavior. The interactions of individuals in families, groups, or organizations, and the institutions, social class, or shared beliefs of a common culture are all subjects for sociological research. There are many career opportunities open to people who complete a major in Sociology, including business, counseling and social service, public policy, law, and criminal justice.

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are eligible to declare. For information on how to declare, visit Advising & Careers.
Courses required to get in	None
GPA requirements to get in	None
Credits required to get in	None
Other	None

Students must meet with the undergraduate advisor and review the requirements prior to declaring the major.

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.

Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a Bachelor of Arts degree in the College of Letters & Science must complete all of the requirements below. Some courses satisfy more than one L&S degree requirement (visit College of Letters & Science: Requirements (https://guide.wisc.edu/undergraduate/letters-science/#requirementstext) for details).

This major can be paired with either the Bachelor of Arts or Bachelor of Science degree requirements.

BACHELOR OF ARTS DEGREE REQUIREMENTS

Communication	Complete both: • Part A: one course with the Communication A designation or eligible UW Placement Score; and • Part B: one course with the Communication B designation
Quantitative Reasoning	Complete both: • Part A: one course with the Quantitative Reasoning A designation or eligible UW Placement Score; and • Part B: one course with the Quantitative Reasoning B designation
Ethnic Studies	one 3+ credit course with the Ethnic Studies designation
Language	Complete either: • the fourth unit of one language other than English; or • the third unit of one language other than English and the second unit of an additional language.
L&S Breadth: Humanities	Complete 12 credits with the Humanities or Literature designation, which must include at least 6 credits with the Literature designation.
L&S Breadth: Social Sciences	Complete 12 credits with the Social Science designation.
L&S Breadth: Natural Sciences	Complete 12 credits with the Natural Science, Biological Science, or Physical Science designations, which must include both: • one 3+ credit course with the Biological Science designation, and • one 3+ credit course with the Physical Science designation.

Liberal Arts and Science (LAS) Coursework	at least 108 credits
Depth of Intermediate/ Advanced work	at least 60 credits at the Intermediate or Advanced level
Major	Declare and complete at least one major.
Total Credits	at least 120 credits
UW-Madison Experience	• 30 credits in residence, overall; and • 30 credits in residence after the 86th credit
Quality of Work	• 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their School/College to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

A minimum of 30 credits in SOC courses is required for the basic major. Students are strongly encouraged to complete the Foundation courses as early as possible; these courses are prerequisites for most upper-level SOC courses.

FOUNDATION (CORE)

Code	Title	Credits
Introduction to SOC (1 course)		**3-4**
SOC/ C&E SOC 210	Survey of Sociology	
SOC/ C&E SOC 211	The Sociological Enterprise	
SOC 181	Honors Introductory Seminar-The Sociological Enterprise	
Research Methods [1]		
SOC/C&E SOC 357	Methods of Sociological Inquiry (Research Methods)	3-4
Statistics [2]		
SOC/C&E SOC 360	Statistics for Sociologists I	3-4
or ECON 310	Statistics: Measurement in Economics	
or MATH/ STAT 310	Introduction to Probability and Mathematical Statistics II	
or PSYCH 210	Basic Statistics for Psychology	
or STAT 301	Introduction to Statistical Methods	
or STAT 371	Introductory Applied Statistics for the Life Sciences	
Classical Theory		
SOC/C&E SOC 475	Classical Sociological Theory	3
Total Credits		**12-15**

[1] Students may take methods and statistics in the same semester. If students take methods and statistics in different semesters, we recommend taking methods before statistics as an entry point to the methods and materials of the field.

[2] Statistics courses taken outside of the SOC subject do not count for 30-credits required in the major, nor are they upper level in the major.

DISTRIBUTION

4 courses from at least 2 of these areas:

Methods/Statistics

Code	Title	Credits
SOC 351	Introduction to Survey Methods for Social Research	3
SOC/C&E SOC 361	Statistics for Sociologists II	4
SOC 362	Statistics for Sociologists III	4
SOC/C&E SOC 365	Data Management for Social Science Research	3-4
SOC 375	Introduction to Mathematical Sociology	3
SOC 461	Study Abroad in Additional Methods and Statistics	1-6
SOC/C&E SOC 618	Social Network Analysis	3
SOC 631	Applied Qualitative Methods for Social Science	3-4

Theory

Code	Title	Credits
SOC 462	Study Abroad in Additional Theory	1-6
SOC 476	Contemporary Sociological Theory	3
SOC/ILS/ JEWISH 423	Modern Jewish Thought	3

Deviant Behavior

Code	Title	Credits
SOC 421	Processes of Deviant Behavior	3-4
SOC/ SOC WORK 422	Social Issues in Aging	3
SOC 441	Criminology	3-4
SOC 446	Juvenile Delinquency	3-4
SOC 463	Study Abroad in Deviant Behavior	1-6
SOC/GEN&WS/ LEGAL ST 425	Crime, Gender and Justice	3
SOC/CHICLA/ LEGAL ST 443	Immigration, Crime, and Enforcement	3-4
SOC/CHICLA/ LEGAL ST 440	Ethnicity, Race, and Justice	3-4
SOC/GEN&WS/ LEGAL ST 406	Law, Sexuality, & Society	3-4

Social Psychology

Code	Title	Credits
SOC 444	Social Psychology: A Sociological Perspective	3-4
SOC/PSYCH 453	Human Sexuality	4
SOC 464	Study Abroad in Social Psychology	1-6

SOC/C&E SOC 532	Health Care Issues for Individuals, Families and Society	3
SOC/C&E SOC 533	Public Health in Rural & Urban Communities	3
SOC 535	Talk and Social Interaction	3
SOC 543	Collective Behavior	3
SOC/C&E SOC 573	Community Organization and Change	3
SOC 575	Sociological Perspectives on the Life Course and Aging	3
SOC/AMER IND/ C&E SOC 578	Poverty and Place	3

Social Organization

Code	Title	Credits
SOC 465	Study Abroad in Social Organization	1-6
SOC/CHICLA 470	Sociodemographic Analysis of Mexican Migration	3
SOC/C&E SOC/ URB R PL 617	Community Development	3
SOC 624	Political Sociology	3
SOC 626	Social Movements	3
SOC/C&E SOC 630	Sociology of Developing Societies/ Third World	3
SOC 632	Sociology of Organizations	3-4
SOC 633	Social Stratification	3
SOC 640	Sociology of the Family	3
SOC/LAW/ LEGAL ST 641	Sociology of Law	3-4
SOC/C&E SOC/ URB R PL 645	Modern American Communities	3
SOC 647	Sociology of Sport	3
SOC/ED POL 648	Sociology of Education	3
SOC/C&E SOC 650	Sociology of Agriculture	3
SOC/C&E SOC 652	Sociology of Economic Institutions	3
SOC/HISTORY 670	Capitalism, Socialism, and Democracy in America Since 1890	3-4
SOC 678	Sociology of Persecution	3
SOC/ASIAN 336	Social Change in Contemporary South Korea	3

Demography and Ecology

Code	Title	Credits
SOC 460	Study Abroad in Demography and Ecology	1-6
SOC 575	Sociological Perspectives on the Life Course and Aging	3
SOC 674	Demographic Techniques I	3

Community and Environmental Sociology

Code	Title	Credits
SOC/C&E SOC 533	Public Health in Rural & Urban Communities	3
SOC/C&E SOC/ ENVIR ST 540	Sociology of International Development, Environment, and Sustainability	3
SOC/C&E SOC 541	Environmental Stewardship and Social Justice	3
SOC/C&E SOC 573	Community Organization and Change	3
SOC 575	Sociological Perspectives on the Life Course and Aging	3
SOC/AMER IND/ C&E SOC 578	Poverty and Place	3
SOC/C&E SOC/ URB R PL 617	Community Development	3
SOC/C&E SOC 650	Sociology of Agriculture	3

ELECTIVES

Additional SOC courses to achieve the required 30 credits for the major.[4]

[4] A maximum one introductory course (SOC 181, SOC/C&E SOC 210, SOC/C&E SOC 211) may count toward the 30 required for the major.

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all SOC courses and courses that count toward the major
- 2.000 GPA on 15 upper-level major credits, taken in Residence[5]
- 15 credits in SOC, taken on the UW–Madison campus

[5] SOC courses numbered 300–699 are upper level, except for: C&E SOC/SOC 357, C&E SOC/SOC 360, PSYCH/SOC 453, and SOC 497.

SOCIOLOGY: CONCENTRATION IN ANALYSIS AND RESEARCH OPTION

View as listView as grid

- **SOCIOLOGY: CONCENTRATION IN ANALYSIS AND RESEARCH (P. 1476)**

HONORS IN THE MAJOR

Students may declare Honors in the Sociology Major in consultation with the Sociology undergraduate advisor.

HONORS IN THE SOCIOLOGY MAJOR: REQUIREMENTS

To earn Honors in the Major in Sociology, students must satisfy the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA for all SOC courses, and all courses accepted in the major
- Complete 21 credits, taken for Honors, with individual grades of B or better, to include:

Code	Title	Credits
SOC/C&E SOC 357	Methods of Sociological Inquiry	4
SOC/C&E SOC 475	Classical Sociological Theory	3
SOC 681	Senior Honors Thesis	3
SOC 682	Senior Honors Thesis	3

The remaining Honors credits, to reach the 21 credit minimum, must be in courses numbered 300 or above.

Students may declare the Concentration in Analysis and Research ("CAR"). Speak to the major advisor about this option.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. (Conduct Research and Analyze Data) Sociology encompasses both qualitative and quantitative research methods. Quantitative methods are used in market research, opinion polling, sales, government, and countless other applications and allow researchers to recognize trends and patterns and produce social statistics. Qualitative research skills provide an in depth understanding of interactions, communications, worksite practices, and social worlds. Advanced sociological research methods require graduate#level training beyond the scope of our undergraduate major, but we expect that all undergraduate majors will be able to conduct small-scale research using surveys, interviews, experiments, textual analysis or observations in which they formulate a research question, collect data, analyze results, and draw conclusions.
2. (Critically Evaluate Published Research) Sociology graduates will be able to read and evaluate published research as it appears in academic journals and popular or policy publications. They will be able to identify the research methods used, assess the quality of the sample, assess the quality of measurements and procedures, evaluate the links between the data and the interpretations, identify possible threats to the validity of the results, and provide an overall assessment of the trustworthiness of the research results. They will be able to read and evaluate a set of research articles on the same broad issue and be able to draw summarize the research findings across multiple issue.
3. (Communicate Skillfully) Because the sociology major involves a large amount of reading, writing, and discussion, majors learn how to convey ideas effectively in writing, presentations, and everyday conferences and meetings. Sociology majors write papers and make oral presentations that build arguments and assess evidence in a clear and effective manner.
4. (Critical Thinking about Society and Social Processes) Sociological inquiry involves learning to look beyond the surface of issues to discover the "why" and "how" of social order and structure. Sociology majors develop strong analytical skills and learn to solve problems and identify opportunities. They are able to consider the underlying social mechanisms that may be creating a situation, identify evidence that may adjudicate between alternate explanations for phenomena, and develop proposed policies or action plans in light of theory and data.
5. (See Things from a Global Perspective) Sociologists learn about different cultures, groups, and societies. They examine both variation and universality across places and through history. They are aware of the diversity of backgrounds and experiences among residents of the United States. They understand the ways events and processes in one country are linked to those in other countries.
6. (Prepare for Graduate School and the Job Market) An undergraduate major in sociology provides an excellent foundation for work and graduate study in a wide range of fields including law, business, social work, medicine, policy research, public health, public administration and, of course, sociology. With the aid of faculty and staff, students use their social research skills to identify opportunities for employment or further study , assess their qualifications for these opportunities, and identify strategies for gaining the necessary knowledge and experience to improve their qualifications. Students are encouraged to develop and maintain portfolios of their written work and educational experiences to aid them in preparing applications.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

First Year

Fall	Credits	Spring	Credits
Communication A	3	SOC/C&E SOC 210 or 211	3-4
Quantitative Reasoning A	3	SOC/C&E SOC 357	4
Language (if required)	4	Biological Science Breadth	3
Ethnic Studies (may be taken in the major)	3	Intermediate MATH, COMP SCI or STAT (for BS)	3
Physical Science Breadth	3		
	16		**14**

Second Year

Fall	Credits	Spring	Credits
SOC/C&E SOC 360 (satisfies Quantitative Reasoning B)	4	SOC/C&E SOC 475	3

ADVISING AND CAREERS

ADVISING AND CAREERS

DECLARE OR CANCEL THIS MAJOR

Please follow the process described on the Sociology (https://sociology.wisc.edu/undergraduate-program/majoring-in-sociology/) website.

Students interested in the Sociology major should meet with the undergraduate advisor before they enroll for the second semester of the sophomore year. The undergraduate office's resource center holds detailed information about the major, the department, research interests of Sociology faculty, career opportunities, and student work. Declaration of the major during the sophomore year will give students access to required Sociology courses for fall of the junior year.

ADVISING

This university is a very big place. Even the most well-prepared new students will have moments when they say to themselves, "Uh oh. What have I got myself into going to such a big school? Choosing courses at SOAR was stressful, fun, or both, but after SOAR am I on my own?" The answer is no. Every student has at least one assigned advisor. Over the course of their time at the university, students may have several assigned advisors. That is a good thing; L&S advisors are highly networked, and they always communicate with each other about shared students.

When students read their DARS reports—degree audits that help them find their way to a timely graduation—they can feel overwhelmed; it looks like they need 500 credits to graduate. How can they get all those requirements done? Do Sociology (or Spanish, or English) majors really have to take biology courses?

In the Sociology Department, we take advising very seriously. We encourage our majors to see the advisor at least once every semester. The advisor will help you summarize the degree audit and map your completed coursework onto the goals and timeline for graduation, including the Sociology major and L&S requirements. The Sociology advisor will have departmental or college news about guest speakers, new faculty, new courses, internships, and scholarships. This advisor will also be able to assist in preparation for, and applications to graduate school, and be able to connect students with faculty whose information about various Sociology programs is always the most current. The Sociology advisor will also see freshmen and sophomores exploring the major in Sociology. See academic advising (https://sociology.wisc.edu/undergraduate-program/academic-advising/) for more information.

CAREERS

Sociology majors learn skills that serve them well in many career fields! We offer a number of professional development and career readiness events every semester. Contact the undergraduate advisor to learn more and visit the Sociology career resources page (https://sociology.wisc.edu/undergraduate-program/career-resources-for-undergraduates/).

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

SOCIOLOGY: CONCENTRATION IN ANALYSIS AND RESEARCH

The Concentration in Analysis Research named option in the Sociology major no longer admits new students after Summer 2026 and the program will be discontinued Fall 2027. If you have any questions, please contact the department (see contact box).

The Concentration in Analysis and Research option in the Sociology major is designed for students who do well and are interested in research methods and statistics. This option prepares students for entry-level jobs in applied social research and/or for graduate study. Key features of the concentration include advanced statistics courses, training in social science computing, and research. By selecting appropriate electives and

internships, students may focus their training on demography, survey research, marketing and communications, criminal justice, health care, education, social services, natural resources, organizations, or personnel and human resources.

REQUIREMENTS

REQUIREMENTS

Students pursuing the Sociology: Concentration in Analysis and Research (CAR) option must complete:

- the Foundation (Core), Residence, and Quality of Work requirements of the general Sociology major
- at least 36 credits of coursework in the SOC subject, and
- the Concentration in Analysis and Research requirements detailed below.

ADDITIONAL CAR REQUIREMENTS

Code	Title	Credits
Additional Statistics		
Complete two courses:		
SOC/C&E SOC 361	Statistics for Sociologists II	4
or ECON 410	Introductory Econometrics	
SOC 362	Statistics for Sociologists III	3
or STAT 312	Introduction to Theory and Methods of Mathematical Statistics II	
Data Management		
SOC/C&E SOC 365	Data Management for Social Science Research	3-4
Distribution		
Complete two Research Electives:		6
SOC 351	Introduction to Survey Methods for Social Research	
SOC 375	Introduction to Mathematical Sociology	
SOC 535	Talk and Social Interaction	
SOC 575	Sociological Perspectives on the Life Course and Aging	
SOC/AMER IND/ C&E SOC 578	Poverty and Place	
SOC 633	Social Stratification	
SOC 674	Demographic Techniques I	
MATH 415	Applied Dynamical Systems, Chaos and Modeling	
MATH/I SY E/ OTM/STAT 632	Introduction to Stochastic Processes	
POLI SCI 305	Elections and Voting Behavior	
POLI SCI 515	Public Opinion	
PSYCH 225	Research Methods	
STAT 349	Introduction to Time Series	
STAT 351	Introductory Nonparametric Statistics	
STAT 411	An Introduction to Sample Survey Theory and Methods	
STAT 421	Applied Categorical Data Analysis	
STAT/B M I 642	Statistical Methods for Epidemiology

SOCIOLOGY, BS

Sociology applies the methods of science to explain social behavior. The interactions of individuals in families, groups, or organizations, and the institutions, social class, or shared beliefs of a common culture are all subjects for sociological research. There are many career opportunities open to people who complete a major in Sociology, including business, counseling and social service, public policy, law, and criminal justice.

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are eligible to declare. For information on how to declare, visit Advising & Careers.
Courses required to get in	None
GPA requirements to get in	None
Credits required to get in	None
Other	None

Students must meet with the undergraduate advisor and review the requirements prior to declaring the major.

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.

English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. Some courses satisfy more than one L&S degree requirement (visit College of Letters & Science: Requirements (https://guide.wisc.edu/undergraduate/letters-science/#requirementstext) for details).

This major can be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Communication	Complete both: • Part A: one course with the Communication A designation or eligible UW Placement Score; and • Part B: one course with the Communication B designation
Quantitative Reasoning	Complete both: • Part A: one course with the Quantitative Reasoning A designation or eligible UW Placement Score; and • Part B: one course with the Quantitative Reasoning B designation
Ethnic Studies	one 3+ credit course with the Ethnic Studies designation
Language	the third unit of a language other than English
Mathematics	Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.
L&S Breadth: Humanities	Complete 12 credits with the Humanities or Literature designation, which must include at least 6 credits with the Literature designation.
L&S Breadth: Social Sciences	Complete 12 credits with the Social Science designation.
L&S Breadth: Natural Sciences	Complete 12 credits, which must include both: • 6 credits with the Biological Science designation, and • 6 credits with the Physical Science designation.
Liberal Arts and Science (LAS) Coursework	at least 108 credits
Depth of Intermediate/ Advanced Coursework	at least 60 credits at the Intermediate or Advanced level
Major	Declare and complete at least one major.
Total Credits	at least 120 credits
UW-Madison Experience	• 30 credits in residence, overall, and • 30 credits in residence after the 86th credit
Quality of Work	• 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their School/College to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

A minimum of 30 credits in SOC courses is required for the basic major. Students are strongly encouraged to complete the Foundation courses as early as possible; these courses are prerequisites for most upper-level SOC courses.

FOUNDATION (CORE)

Code	Title	Credits
Introduction to SOC (1 course)		**3-4**
SOC/ C&E SOC 210	Survey of Sociology	
SOC/ C&E SOC 211	The Sociological Enterprise	
SOC 181	Honors Introductory Seminar-The Sociological Enterprise	
Research Methods [1]		
SOC/C&E SOC 357	Methods of Sociological Inquiry (Research Methods)	3-4
Statistics [2]		
SOC/C&E SOC 360	Statistics for Sociologists I	3-4
or ECON 310	Statistics: Measurement in Economics	
or MATH/ STAT 310	Introduction to Probability and Mathematical Statistics II	
or PSYCH 210	Basic Statistics for Psychology	
or STAT 301	Introduction to Statistical Methods	
or STAT 371	Introductory Applied Statistics for the Life Sciences	
Classical Theory		

SOC/C&E SOC 475	Classical Sociological Theory	3
Total Credits		**12-15**

[1] Students may take methods and statistics in the same semester. If students take methods and statistics in different semesters, we recommend taking methods before statistics as an entry point to the methods and materials of the field.

[2] Statistics courses taken outside of the SOC subject do not count for 30-credits required in the major, nor are they upper level in the major.

DISTRIBUTION

4 courses from at least 2 of these areas:

Methods/Statistics

Code	Title	Credits
SOC 351	Introduction to Survey Methods for Social Research	3
SOC/C&E SOC 361	Statistics for Sociologists II	4
SOC 362	Statistics for Sociologists III	4
SOC/C&E SOC 365	Data Management for Social Science Research	3-4
SOC 375	Introduction to Mathematical Sociology	3
SOC 461	Study Abroad in Additional Methods and Statistics	1-6
SOC/C&E SOC 618	Social Network Analysis	3
SOC 631	Applied Qualitative Methods for Social Science	3-4

Theory

Code	Title	Credits
SOC 462	Study Abroad in Additional Theory	1-6
SOC 476	Contemporary Sociological Theory	3
SOC/ILS/ JEWISH 423	Modern Jewish Thought	3

Deviant Behavior

Code	Title	Credits
SOC 421	Processes of Deviant Behavior	3-4
SOC/ SOC WORK 422	Social Issues in Aging	3
SOC 441	Criminology	3-4
SOC 446	Juvenile Delinquency	3-4
SOC 463	Study Abroad in Deviant Behavior	1-6
SOC/GEN&WS/ LEGAL ST 425	Crime, Gender and Justice	3
SOC/CHICLA/ LEGAL ST 443	Immigration, Crime, and Enforcement	3-4
SOC/CHICLA/ LEGAL ST 440	Ethnicity, Race, and Justice	3-4
SOC/GEN&WS/ LEGAL ST 406	Law, Sexuality, & Society	3-4

Social Psychology

Code	Title	Credits
SOC 444	Social Psychology: A Sociological Perspective	3-4
SOC/PSYCH 453	Human Sexuality	4
SOC 464	Study Abroad in Social Psychology	1-6
SOC/C&E SOC 532	Health Care Issues for Individuals, Families and Society	3
SOC/C&E SOC 533	Public Health in Rural & Urban Communities	3
SOC 535	Talk and Social Interaction	3
SOC 543	Collective Behavior	3
SOC/C&E SOC 573	Community Organization and Change	3
SOC 575	Sociological Perspectives on the Life Course and Aging	3
SOC/AMER IND/ C&E SOC 578	Poverty and Place	3

Social Organization

Code	Title	Credits
SOC 465	Study Abroad in Social Organization	1-6
SOC/CHICLA 470	Sociodemographic Analysis of Mexican Migration	3
SOC/C&E SOC/ URB R PL 617	Community Development	3
SOC 624	Political Sociology	3
SOC 626	Social Movements	3
SOC/C&E SOC 630	Sociology of Developing Societies/ Third World	3
SOC 632	Sociology of Organizations	3-4
SOC 633	Social Stratification	3
SOC 640	Sociology of the Family	3
SOC/LAW/ LEGAL ST 641	Sociology of Law	3-4
SOC/C&E SOC/ URB R PL 645	Modern American Communities	3
SOC 647	Sociology of Sport	3
SOC/ED POL 648	Sociology of Education	3
SOC/C&E SOC 650	Sociology of Agriculture	3
SOC/C&E SOC 652	Sociology of Economic Institutions	3
SOC/HISTORY 670	Capitalism, Socialism, and Democracy in America Since 1890	3-4
SOC 678	Sociology of Persecution	3
SOC/ASIAN 336	Social Change in Contemporary South Korea	3

Demography and Ecology

Code	Title	Credits
SOC 460	Study Abroad in Demography and Ecology	1-6
SOC 575	Sociological Perspectives on the Life Course and Aging	3
SOC 674	Demographic Techniques I	3

Community and Environmental Sociology

Code	Title	Credits
SOC/C&E SOC 533	Public Health in Rural & Urban Communities	3

SOC/C&E SOC/ ENVIR ST 540	Sociology of International Development, Environment, and Sustainability	3
SOC/C&E SOC 541	Environmental Stewardship and Social Justice	3
SOC/C&E SOC 573	Community Organization and Change	3
SOC 575	Sociological Perspectives on the Life Course and Aging	3
SOC/AMER IND/ C&E SOC 578	Poverty and Place	3
SOC/C&E SOC/ URB R PL 617	Community Development	3
SOC/C&E SOC 650	Sociology of Agriculture	3

ELECTIVES

Additional SOC courses to achieve the required 30 credits for the major.[4]

[4] A maximum one introductory course (SOC 181, SOC/C&E SOC 210, SOC/C&E SOC 211) may count toward the 30 required for the major.

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in all SOC courses and courses that count toward the major
- 2.000 GPA on 15 upper-level major credits, taken in Residence[5]
- 15 credits in SOC, taken on the UW–Madison campus

[5] SOC courses numbered 300–699 are upper level, except for: C&E SOC/SOC 357, C&E SOC/SOC 360, PSYCH/SOC 453, and SOC 497.

SOCIOLOGY: CONCENTRATION IN ANALYSIS AND RESEARCH OPTION

View as listView as grid

- **SOCIOLOGY: CONCENTRATION IN ANALYSIS AND RESEARCH (P. 1476)**

HONORS IN THE MAJOR

Students may declare Honors in the Sociology Major in consultation with the Sociology undergraduate advisor.

HONORS IN THE SOCIOLOGY MAJOR: REQUIREMENTS

To earn Honors in the Major in Sociology, students must satisfy the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.300 GPA for all SOC courses, and all courses accepted in the major
- Complete 21 credits, taken for Honors, with individual grades of B or better, to include:

Code	Title	Credits
SOC/C&E SOC 357	Methods of Sociological Inquiry	4
SOC/C&E SOC 475	Classical Sociological Theory	3
SOC 681	Senior Honors Thesis	3
SOC 682	Senior Honors Thesis	3

The remaining Honors credits, to reach the 21 credit minimum, must be in courses numbered 300 or above.

Students may declare the Concentration in Analysis and Research ("CAR"). Speak to the major advisor about this option.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. (Conduct Research and Analyze Data) Sociology encompasses both qualitative and quantitative research methods. Quantitative methods are used in market research, opinion polling, sales, government, and countless other applications and allow researchers to recognize trends and patterns and produce social statistics. Qualitative research skills provide an in depth understanding of interactions, communications, worksite practices, and social worlds. Advanced sociological research methods require graduate#level training beyond the scope of our undergraduate major, but we expect that all undergraduate majors will be able to conduct small-scale research using surveys, interviews, experiments, textual analysis or observations in which they formulate a research question, collect data, analyze results, and draw conclusions.
2. (Critically Evaluate Published Research) Sociology graduates will be able to read and evaluate published research as it appears in academic journals and popular or policy publications. They will be able to identify the research methods used, assess the quality of the sample, assess the quality of measurements and procedures, evaluate the links between the data and the interpretations, identify possible threats to the validity of the results, and provide an overall assessment of the trustworthiness of the research results. They will be able to read and evaluate a set of research articles on the same broad issue and be able to draw summarize the research findings across multiple issue.
3. (Communicate Skillfully) Because the sociology major involves a large amount of reading, writing, and discussion, majors learn how to convey ideas effectively in writing, presentations, and everyday conferences and meetings. Sociology majors write papers and make oral presentations that build arguments and assess evidence in a clear and effective manner.
4. (Critical Thinking about Society and Social Processes) Sociological inquiry involves learning to look beyond the surface of issues to discover the "why" and "how" of social order and structure. Sociology majors develop strong analytical skills and learn to solve problems and identify opportunities. They are able to consider the underlying social mechanisms that may be creating a situation, identify evidence that may adjudicate between alternate explanations for phenomena, and develop proposed policies or action plans in light of theory and data.
5. (See Things from a Global Perspective) Sociologists learn about different cultures, groups, and societies. They examine both variation and universality across places and through history. They are aware of the diversity of backgrounds and experiences among residents of the

United States. They understand the ways events and processes in one country are linked to those in other countries.

6. (Prepare for Graduate School and the Job Market) An undergraduate major in sociology provides an excellent foundation for work and graduate study in a wide range of fields including law, business, social work, medicine, policy research, public health, public administration and, of course, sociology. With the aid of faculty and staff, students use their social research skills to identify opportunities for employment or further study , assess their qualifications for these opportunities, and identify strategies for gaining the necessary knowledge and experience to improve their qualifications. Students are encouraged to develop and maintain portfolios of their written work and educational experiences to aid them in preparing applications.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

First Year

ADVISING AND CAREERS

ADVISING AND CAREERS

DECLARE OR CANCEL THIS MAJOR

Please follow the process described on the Sociology (https://sociology.wisc.edu/undergraduate-program/majoring-in-sociology/) website.

Students interested in the Sociology major should meet with the undergraduate advisor before they enroll for the second semester of the sophomore year. The undergraduate office's resource center holds detailed information about the major, the department, research interests of Sociology faculty, career opportunities, and student work. Declaration of the major during the sophomore year will give students access to required Sociology courses for fall of the junior year.

ADVISING

This university is a very big place. Even the most well-prepared new students will have moments when they say to themselves, "Uh oh. What have I got myself into going to such a big school? Choosing courses at SOAR was stressful, fun, or both, but after SOAR am I on my own?" The answer is no. Every student has at least one assigned advisor. Over the course of their time at the university, students may have several assigned advisors. That is a good thing; L&S advisors are highly networked, and they always communicate with each other about shared students.

When students read their DARS reports—degree audits that help them find their way to a timely graduation—they can feel overwhelmed; it looks like they need 500 credits to graduate. How can they get all those requirements done? Do Sociology (or Spanish, or English) majors really have to take biology courses?

In the Sociology Department, we take advising very seriously. We encourage our majors to see the advisor at least once every semester. The advisor will help you summarize the degree audit and map your completed coursework onto the goals and timeline for graduation, including the Sociology major and L&S requirements. The Sociology advisor will have departmental or college news about guest speakers, new faculty, new courses, internships, and scholarships. This advisor will also be able to assist in preparation for, and applications to graduate school, and be able to connect students with faculty whose information about various Sociology programs is always the most current. The Sociology advisor will also see freshmen and sophomores exploring the major in Sociology. See academic advising (https://sociology.wisc.edu/undergraduate-program/academic-advising/) for more information.

CAREERS

Sociology majors learn skills that serve them well in many career fields! We offer a number of professional development and career readiness events every semester. Contact the undergraduate advisor to learn more and visit the Sociology career resources page (https://sociology.wisc.edu/undergraduate-program/career-resources-for-undergraduates/).

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

SOCIOLOGY: CONCENTRATION IN ANALYSIS AND RESEARCH

The Concentration in Analysis Research named option in the Sociology major no longer admits new students after Summer 2026 and the program will be discontinued Fall 2027. If you have any questions, please contact the department (see contact box).

The Concentration in Analysis and Research option in the Sociology major is designed for students who do well and are interested in research methods and statistics. This option prepares students for entry-level jobs in applied social research and/or for graduate study. Key features of the concentration include advanced statistics courses, training in social science computing, and research. By selecting appropriate electives and internships, students may focus their training on demography, survey research, marketing and communications, criminal justice, health care, education, social services, natural resources, organizations, or personnel and human resources.

REQUIREMENTS

Students pursuing the Sociology: Concentration in Analysis and Research (CAR) option must complete:

- the Foundation (Core), Residence, and Quality of Work requirements of the general Sociology major
- at least 36 credits of coursework in the SOC subject, and
- the Concentration in Analysis and Research requirements detailed below.

ADDITIONAL CAR REQUIREMENTS

Code	Title	Credits
Additional Statistics		
Complete two courses:		
SOC/C&E SOC 361	Statistics for Sociologists II	4
or ECON 410	Introductory Econometrics

SPANISH AND PORTUGUESE

The Department of Spanish & Portuguese (http://spanport.wisc.edu/) offers an integrated curriculum in introductory and specialized instruction in Spanish and Portuguese languages, literatures, and linguistics for undergraduates to fulfill major, college, and campus requirements as well as for those seeking fluency and a solid language preparation for other opportunities. The objectives and goals of the undergraduate majors include the skills of advanced proficiency in oral communication and written expression, an understanding of Hispanic and Luso-Brazilian cultures, general familiarity with aspects of Hispanic and Luso-Brazilian literatures, and an understanding of aspects of Ibero-Romance linguistics.

DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/ CERTIFICATES

- Business Spanish, Certificate (p. 1484)
- Portuguese, BA (p. 1486)
- Portuguese, BS (p. 1489)
- Spanish Studies for Business Students, Certificate (p. 1493)
- Spanish, BA (p. 1495)
- Spanish, BS (p. 1499)

BUSINESS SPANISH, CERTIFICATE

Spanish is an official language in 21 countries—with more than 400 million speakers worldwide (projected to be 530 million by 2050), it is the third most widely spoken language after Mandarin and English. In 25 years, the United States could have more Spanish speakers than any other country.

This certificate combines classes in Spanish, cultures of Spanish-speaking populations, and specialized Spanish for business professions. This combination is a good fit for any student who wants the ability to communicate effectively in both written and spoken Spanish and work with other Spanish speakers in their future professional careers.

HOW TO GET IN

HOW TO GET IN

Students may declare the Certificate in Business Spanish while enrolled in or after completing both:

- one Introductory Spanish course
- SPANISH 311 Advanced Language Practice

Students declared in the Spanish major or Certificate in Spanish Studies for Business Students are not eligible to declare the Certificate in Business Spanish.

Code	Title	Credits

Total Credits		**18**

RESIDENCE AND QUALITY OF WORK

- At least 9 certificate credits must be completed in residence
- At least 6 certificate credits must be complete on campus
- Minimum 2.000 GPA on all certificate courses.

FOOTNOTES

[1] Only one of SPANISH/CHICLA 222 or SPANISH 223 may count in the certificate.

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Develop communication skills in Spanish; integrate these skills to exchange and assess ideas effectively and with level-appropriate accuracy; and practice pragmatic, linguistic, and stylistic norms in a formal, professional register of standard Spanish in a variety of written and oral assignments.
2. Acquire specialized vocabulary related to business and commerce; analyze authentic informational, financial, and marketing materials in Spanish; and incorporate the newly-acquired vocabulary and business-related knowledge into their speech and writing.
3. Demonstrate knowledge of Hispanic cultures, including awareness of the social, cultural, and linguistic diversity that characterizes the Spanish-speaking world, as well as familiarity with basic methods of literary, cultural, and/or linguistic analysis.

PORTUGUESE, BA

There are many reasons to learn the language and the culture of Portuguese speakers:

- Portuguese shares some grammar rules, sentence structure, and similar vocabulary words with other Romance languages like French, Spanish, and Italian. Portuguese is an easy and fun language to learn.
- An estimated 1.3 million native Portuguese speakers live in the United States.
- Portuguese is the sixth-most widely spoken language in the world, more than German, French, or Italian. 265 million people speak Portuguese. (https://www.unesco.org/en/days/portuguese-language/) Brazil alone has a population of 205 million. Portuguese is the official language of Portugal, Brazil, Angola, Cape Verde, Guinea-Bissau, Mozambique, São Tomé and Príncipe, East Timor, and is also widely spoken in Equatorial Guinea, Macau (China), and Goa (India).
- Portuguese is a working or official language of important international organizations, such as the African Union, the Community of Portuguese Language Countries, the European Union, Mercosul, the Organization of American States, and the Organization of Ibero-American States.
- To study Portuguese is an asset in today's global economy. For example, Brazil's economy is among the largest in the world.
- The Portuguese novelist José Saramago won the 1998 Nobel Prize for Literature. The music, festivities, culture, and art of the Portuguese-speaking countries are appreciated all over the world.
- Last but not least, Brazil is the only country that has won the FIFA World Cup soccer tournament five times.

HOW TO GET IN

Other	None

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.

Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a Bachelor of Arts degree in the College of Letters & Science must complete all of the requirements below. Some courses satisfy more than one L&S degree requirement (visit College of Letters & Science: Requirements (https://guide.wisc.edu/undergraduate/letters-science/#requirementstext) for details).

This major can be paired with either the Bachelor of Arts or Bachelor of Science degree requirements.

BACHELOR OF ARTS DEGREE REQUIREMENTS

Communication	Complete both: • Part A: one course with the Communication A designation or eligible UW Placement Score; and • Part B: one course with the Communication B designation
Quantitative Reasoning	Complete both: • Part A: one course with the Quantitative Reasoning A designation or eligible UW Placement Score; and • Part B: one course with the Quantitative Reasoning B designation
Ethnic Studies	one 3+ credit course with the Ethnic Studies designation
Language	Complete either: • the fourth unit of one language other than English; or • the third unit of one language other than English and the second unit of an additional language.
L&S Breadth: Humanities	Complete 12 credits with the Humanities or Literature designation, which must include at least 6 credits with the Literature designation.
L&S Breadth: Social Sciences	Complete 12 credits with the Social Science designation.
L&S Breadth: Natural Sciences	Complete 12 credits with the Natural Science, Biological Science, or Physical Science designations, which must include both: • one 3+ credit course with the Biological Science designation, and • one 3+ credit course with the Physical Science designation.
Liberal Arts and Science (LAS) Coursework	at least 108 credits
Depth of Intermediate/Advanced work	at least 60 credits at the Intermediate or Advanced level
Major	Declare and complete at least one major.
Total Credits	at least 120 credits
UW-Madison Experience	• 30 credits in residence, overall; and • 30 credits in residence after the 86th credit
Quality of Work	• 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their School/College to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

25 credits from PORTUG 202-699, to include:

Code	Title	Credits
Portuguese Literature		
PORTUG 221	Introduction to Luso-Brazilian Literatures	4
And complete one of the following:		3
PORTUG 411	Survey of Portuguese Literature before 1825	
PORTUG/ GEN&WS 450	Brazillian Women Writers	
PORTUG/ AFRICAN 451	Lusophone African Literature	
PORTUG 467	Survey of Portuguese Literature since 1825	
PORTUG 468	Survey of Brazilian Literature since 1890	
Portuguese Culture/Civilization (complete one):		**3**
PORTUG 361	Portuguese Civilization	
PORTUG 362	Brazilian Civilization	
PORTUG/ GEN&WS 460	Carmen Miranda	
PORTUG 642	Topics in Luso-Brazilian Culture	
Composition and Conversation (complete two):		**6**
PORTUG 225	Third Year Conversation and Composition	
PORTUG 226	Third Year Conversation and Composition	
PORTUG 311	Fourth Year Composition and Conversation	
PORTUG 312	Fourth Year Composition and Conversation	
Elective Courses from PORTUG 202-699 [1]		**9**
Total Credits		**25**

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in PORTUG and all major courses
- 2.000 GPA on 15 upper-level major credits in residence[2]
- 15 credits in PORTUG, taken at UW–Madison

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Portuguese undergraduate advisor.

HONORS IN THE PORTUGUESE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn 3.500 GPA for all PORTUG courses at or above PORTUG 302, and any course that counts for the major
- Complete at least 16 credits, taken for Honors, with individual grades of B or better, to include:
  - 10 credits from PORTUG 202 to 680, excluding PORTUG 301
  - A two-semester Senior Honors Thesis in PORTUG 681 and PORTUG 682, for a total of 6 credits.

FOOTNOTES

[1] May not include PORTUG 301 which is the equivalent of PORTUG 101 and PORTUG 102.

[2] PORTUG courses with the Advanced level designation are considered upper-level in the major.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Develop communication skills in Portuguese and integrate these skills to exchange and assess ideas effectively and with level-appropriate accuracy in written and spoken Portuguese.
2. Demonstrate understanding of linguistic, pragmatic, sociolinguistic, and stylistic features of written and spoken Portuguese, understand how they influence meaning, and apply these features in level-appropriate ways in writing and speech.
3. Demonstrate knowledge of Lusophone cultures across historical epochs, including awareness of the social, cultural, and linguistic diversity that characterizes the Portuguese-speaking world.
4. Demonstrate familiarity with and apply basic methods of literary and/or linguistic analysis, which for literary analysis includes interpretation of written texts and other forms of artistic/cultural creation, both in and of themselves and in the context of the particular social, cultural, and historical milieus in which they were created.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

First Year

Fall	Credits	Spring	Credits
PORTUG 101	4	PORTUG 102	4
Communication A	3	Ethnic Studies	3

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

PORTUGUESE, BS

There are many reasons to learn the language and the culture of Portuguese speakers:

- Portuguese shares some grammar rules, sentence structure, and similar vocabulary words with other Romance languages like French, Spanish, and Italian. Portuguese is an easy and fun language to learn.

- An estimated 1.3 million native Portuguese speakers live in the United States.
- Portuguese is the sixth-most widely spoken language in the world, more than German, French, or Italian. 265 million people speak Portuguese. (https://www.unesco.org/en/days/portuguese-language/) Brazil alone has a population of 205 million. Portuguese is the official language of Portugal, Brazil, Angola, Cape Verde, Guinea-Bissau, Mozambique, São Tomé and Príncipe, East Timor, and is also widely spoken in Equatorial Guinea, Macau (China), and Goa (India).
- Portuguese is a working or official language of important international organizations, such as the African Union, the Community of Portuguese Language Countries, the European Union, Mercosul, the Organization of American States, and the Organization of Ibero-American States.
- To study Portuguese is an asset in today's global economy. For example, Brazil's economy is among the largest in the world.
- The Portuguese novelist José Saramago won the 1998 Nobel Prize for Literature. The music, festivities, culture, and art of the Portuguese-speaking countries are appreciated all over the world.
- Last but not least, Brazil is the only country that has won the FIFA World Cup soccer tournament five times.

HOW TO GET IN

HOW TO GET IN

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.

Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. Some courses satisfy more than one L&S degree requirement (visit College of Letters & Science: Requirements (https://guide.wisc.edu/undergraduate/letters-science/#requirementstext) for details).

This major can be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Communication	Complete both: • Part A: one course with the Communication A designation or eligible UW Placement Score; and • Part B: one course with the Communication B designation
Quantitative Reasoning	Complete both: • Part A: one course with the Quantitative Reasoning A designation or eligible UW Placement Score; and • Part B: one course with the Quantitative Reasoning B designation
Ethnic Studies	one 3+ credit course with the Ethnic Studies designation
Language	the third unit of a language other than English
Mathematics	Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.
L&S Breadth: Humanities	Complete 12 credits with the Humanities or Literature designation, which must include at least 6 credits with the Literature designation.
L&S Breadth: Social Sciences	Complete 12 credits with the Social Science designation.
L&S Breadth: Natural Sciences	Complete 12 credits, which must include both: • 6 credits with the Biological Science designation, and • 6 credits with the Physical Science designation.
Liberal Arts and Science (LAS) Coursework	at least 108 credits
Depth of Intermediate/Advanced Coursework	at least 60 credits at the Intermediate or Advanced level
Major	Declare and complete at least one major.
Total Credits	at least 120 credits
UW-Madison Experience	• 30 credits in residence, overall, and • 30 credits in residence after the 86th credit
Quality of Work	• 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

SPANISH STUDIES FOR BUSINESS STUDENTS, CERTIFICATE

The Certificate in Spanish Studies for Business Students no longer admits new students after Summer 2025 and the program will be discontinued Fall 2029. Students already admitted may only complete and be awarded this certificate through Summer 2029. If you have any questions, please contact the department (see contact box).

Please see the Business Spanish Certificate (p. 1484) instead.

Spanish is an official language in 21 countries—with more than 400 million speakers worldwide (projected to be 530 million by 2050), it is the third most widely spoken language after Mandarin and English. In 25 years, the United States could have more Spanish speakers than any other country.

This certificate combines classes in Spanish, cultures of Spanish-speaking populations, and specialized Spanish for business professions. This combination is a good fit for any student who wants the ability to communicate effectively in both written and spoken Spanish and work with other Spanish speakers in their future professional careers.

HOW TO GET IN

HOW TO GET IN

The Certificate in Spanish Studies for Business Students no longer admits new students after Summer 2025 and the program will be discontinued Fall 2029. Students already admitted may only complete and be awarded this certificate through Summer 2029. If you have any questions, please contact the department (see contact box).

Students must earn admission to the School of Business to be eligible for the Certificate in Spanish Studies for Business Students. The certificate can be declared in consultation with the Spanish undergraduate advisor.

Students declared in the Certificate in Spanish Studies for Business Students are not eligible to declare the Spanish major.

LEARNING OUTCOMES

1. Develop communication skills in Spanish; integrate these skills to exchange and assess ideas effectively and with level-appropriate accuracy; and practice pragmatic, linguistic and stylistic norms in a formal, professional register of standard Spanish in a variety of written and oral assignments.
2. Acquire specialized vocabulary related to business and commerce; analyze authentic informational, financial and marketing materials in Spanish; and incorporate the newly-acquired vocabulary and business-related knowledge into their speech and writing.
3. Demonstrate knowledge of Hispanic cultures, including awareness of the social, cultural, and linguistic diversity that characterizes the Spanish-speaking world, as well as familiarity with basic methods of literary, cultural and/or linguistic analysis.

ADVISING AND CAREERS

ADVISING AND CAREERS

Please contact the undergraduate advisor (listed in Contact Information) with your questions and visit spanport.wisc.edu/undergrad-advising/ (https://spanport.wisc.edu/undergrad-advising/).

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a

short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

SPANISH, BA

Spanish continues to gain ground as a widely spoken, national and international language, making the ability to communicate effectively in both written and spoken Spanish an invaluable intellectual, social, cultural, and professional resource. Spanish is an official language in 21 countries—with more than 400 million speakers worldwide (projected to be 530 million by 2050), it is the third most widely spoken language after Mandarin and English. In 25 years, the United States could have more Spanish speakers than any other country.

These just a few of the many career paths for which proficiency in spoken and written Spanish can be a valuable asset:

- Bilingual and second language education
- Medical, legal, and business professions
- Journalism
- Travel industry
- Translation
- Interpretation
- Nongovernmental/nonprofit work
- Library science
- Foreign service

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are eligible to declare. For information on how to declare, visit Advising & Careers.
Courses required to get in	None
GPA requirements to get in	None
Credits required to get in	None
Other	None

Students declared in the Spanish major are not eligible to declare the Certificate in Spanish Studies for Business Students or the Certificate in Business Spanish.

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.

Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a Bachelor of Arts degree in the College of Letters & Science must complete all of the requirements below. Some courses satisfy more than one L&S degree requirement (visit College of Letters & Science: Requirements (https://guide.wisc.edu/undergraduate/letters-science/#requirementstext) for details).

This major can be paired with either the Bachelor of Arts or Bachelor of Science degree requirements.

BACHELOR OF ARTS DEGREE REQUIREMENTS

Communication	Complete both: • Part A: one course with the Communication A designation or eligible UW Placement Score; and • Part B: one course with the Communication B designation
Quantitative Reasoning	Complete both: • Part A: one course with the Quantitative Reasoning A designation or eligible UW Placement Score; and • Part B: one course with the Quantitative Reasoning B designation
Ethnic Studies	one 3+ credit course with the Ethnic Studies designation
Language	Complete either: • the fourth unit of one language other than English; or • the third unit of one language other than English and the second unit of an additional language.
L&S Breadth: Humanities	Complete 12 credits with the Humanities or Literature designation, which must include at least 6 credits with the Literature designation.
L&S Breadth: Social Sciences	Complete 12 credits with the Social Science designation.
L&S Breadth: Natural Sciences	Complete 12 credits with the Natural Science, Biological Science, or Physical Science designations, which must include both: • one 3+ credit course with the Biological Science designation, and • one 3+ credit course with the Physical Science designation.
Liberal Arts and Science (LAS) Coursework	at least 108 credits
Depth of Intermediate/Advanced work	at least 60 credits at the Intermediate or Advanced level
Major	Declare and complete at least one major.
Total Credits	at least 120 credits
UW-Madison Experience	• 30 credits in residence, overall; and • 30 credits in residence after the 86th credit
Quality of Work	• 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their School/College to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

FACULTY ENGAGEMENT

At least 6 credits of SPANISH numbered 400 or above must be taken while physically on the UW-Madison campus.

RESIDENCE AND QUALITY OF WORK

- 2.000 GPA in SPANISH and all major courses
- 2.000 GPA on at least 15 credits of upper-level work in the major, taken in residence[1]
- 15 credits in SPANISH, taken on the UW–Madison campus

HONORS IN THE MAJOR

Students may declare Honors in the Major in consultation with the Spanish undergraduate advisor.

HONORS IN THE MAJOR REQUIREMENTS

To earn Honors in the Major, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA for all SPANISH courses numbered 300 and higher
- Complete the following coursework, taken for Honors, with individual grades of B or better:
  - 6 credits, SPANISH 360 to SPANISH 680
  - 3 credits, SPANISH 300 to SPANISH 680
  - A two-semester Senior Honors Thesis in SPANISH 681 and SPANISH 682 for at least 6 credits.[2]

FOOTNOTES

1 Courses numbered above SPANISH 311 Advanced Language Practice are considered upper-level in the major.

2 In certain circumstances (particularly when the student is an Honors candidate in two or more departments), 6 credits in literature, linguistics, or cultural studies in courses numbered 500 and above may be substituted for the Honors Thesis, upon recommendation by the Spanish undergraduate advisor.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Develop communication skills in Spanish and integrate these skills to exchange and assess ideas effectively and with level-appropriate accuracy in written and spoken Spanish.
2. Demonstrate understanding of linguistic, pragmatic, sociolinguistic, and stylistic features of written and spoken Spanish, understand how they influence meaning, and apply these features in level-appropriate ways in writing and speech.
3. Demonstrate knowledge of Hispanic cultures across historical epochs, including awareness of the social, cultural, and linguistic diversity that characterizes the Spanish-speaking world.
4. Demonstrate familiarity with and apply basic methods of literary and/or linguistic analysis, which for literary analysis includes interpretation of written texts and other forms of artistic/cultural creation, both in and of themselves and in the context of the particular social, cultural, and historical milieus in which they were created.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

ADVISING AND CAREERS

ADVISING AND CAREERS

DECLARE OR CANCEL THIS MAJOR

Please follow the process described on the Spanish & Portuguese website (https://spanport.wisc.edu/undergrad-advising/).

ADVISING

Please contact the undergraduate advisor (listed in Contact Information) with your questions and visit spanport.wisc.edu/undergrad-advising/ (https://spanport.wisc.edu/undergrad-advising/).

CAREERS

International Directions Advisor

languages.wisc.edu/make-an-appointment (http://languages.wisc.edu/make-an-appointment/)

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

STATISTICS

DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/CERTIFICATES

- Data Science, BA (p. 1503)

- Data Science, Certificate (p. 1513)
- Statistics, BA (p. 1515)
- Statistics, BS (p. 1520)
- Statistics, Certificate (p. 1525)

DATA SCIENCE, BA

Students in the Data Science major apply computational, mathematical, and statistical thinking to data-rich problems in a wide variety of fields in a responsible and ethical manner. This includes the ability to manage, process, model, gain meaning and knowledge, and present data. Data science is one of the fastest growing career sectors in Wisconsin and across the nation.

By its very nature, the field of data science is one that teaches novel and cutting-edge ways to engage in the "continual sifting and winnowing by which alone the truth can be found."

HOW TO GET IN

HOW TO GET IN

To declare the data science major, students must have:

- Fewer than 86 credits (senior standing)
- Attended a data science major declaration event

Students may declare in their first semester on campus, without an established GPA. However, if courses have been completed at UW-Madison, the following applies:

- At least a 2.000 GPA on coursework that would count in the major
- At least a 2.000 GPA on coursework that would count as upper-level work in the major

or

- At least a 2.000 GPA in these preparatory courses: MATH 96, MATH 112, MATH 113, MATH 114, MATH 211, COMP SCI 200, COMP SCI/E C E 252, COMP SCI 310.

Please see the Data Science major page (https://stat.wisc.edu/undergraduate-data-science-studies/) on the Department of Statistics website for information on how to declare the major and meet with advisors.

Students declared in the Data Science certificate or Statistics Certificate may not declare the Data Science major. Students who wish to declare the Data Science major must first cancel their Data Science and/or Statistics certificate.

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a Bachelor of Arts degree in the College of Letters & Science must complete all of the requirements below. Some courses satisfy more than one L&S degree requirement (visit College of Letters & Science: Requirements (https://guide.wisc.edu/undergraduate/letters-science/#requirementstext) for details).

This major can be paired with either the Bachelor of Arts or Bachelor of Science degree requirements.

BACHELOR OF ARTS DEGREE REQUIREMENTS

Communication	Complete both: • Part A: one course with the Communication A designation or eligible UW Placement Score; and • Part B: one course with the Communication B designation
Quantitative Reasoning	Complete both: • Part A: one course with the Quantitative Reasoning A designation or eligible UW Placement Score; and • Part B: one course with the Quantitative Reasoning B designation
Ethnic Studies	one 3+ credit course with the Ethnic Studies designation
Language	Complete either: • the fourth unit of one language other than English; or • the third unit of one language other than English and the second unit of an additional language.
L&S Breadth: Humanities	Complete 12 credits with the Humanities or Literature designation, which must include at least 6 credits with the Literature designation.
L&S Breadth: Social Sciences	Complete 12 credits with the Social Science designation.

L&S Breadth: Natural Sciences	Complete 12 credits with the Natural Science, Biological Science, or Physical Science designations, which must include both: • one 3+ credit course with the Biological Science designation, and • one 3+ credit course with the Physical Science designation.
Liberal Arts and Science (LAS) Coursework	at least 108 credits
Depth of Intermediate/ Advanced work	at least 60 credits at the Intermediate or Advanced level
Major	Declare and complete at least one major.
Total Credits	at least 120 credits
UW-Madison Experience	• 30 credits in residence, overall; and • 30 credits in residence after the 86th credit
Quality of Work	• 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their School/College to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

FOUNDATIONAL MATH COURSES

Code	Title	Credits
MATH 221	Calculus and Analytic Geometry 1	5
MATH 222	Calculus and Analytic Geometry 2	4
Total Credits		**9**

FOUNDATIONAL DATA SCIENCE COURSES

Code	Title	Credits
Data Modeling: complete both		
STAT 240	Data Science Modeling I	4
STAT 340	Data Science Modeling II	4
Data Programming: complete both		
COMP SCI 220	Data Science Programming I	4
or COMP SCI 300	Programming II	
COMP SCI 320	Data Science Programming II	4
Data Ethics: choose one from the following		
L I S 461	Data and Algorithms: Ethics and Policy	3-4
or E C E/ I SY E 570	Ethics of Data for Engineers	
or L I S 462	Data and Algorithms: Ethics and Policy (Communications Intensive)	
or PHILOS 244	Introductory Artificial Intelligence (AI) and Data Ethics	
Total Credits		**19-20**

ELECTIVES

Students must complete 18 credits of upper-level major electives, including at least one course from each of the following categories: Linear Algebra, Advanced Computing, Statistical Modeling, and Machine Learning, plus additional electives to reach the minimum credits.

Additional courses taken within Advanced Computing, Statistical Modeling, and Machine Learning may count towards other electives.

Students are only allowed to count one course from each of probability (MATH 331, STAT/MATH 309, STAT 311, or STAT/MATH 431), inference (STAT/MATH 310 or STAT 312), and linear algebra (MATH 320, MATH 340, MATH 341, MATH 345, or MATH 375) towards the major.

Linear Algebra

Code	Title	Credits
Choose one from the following:		3
Only one linear algebra course may count towards the data science major		
MATH 320	Linear Algebra and Differential Equations	
MATH 340	Elementary Matrix and Linear Algebra	
MATH 341	Linear Algebra	
MATH 345	Linear Algebra and Optimization	
MATH 375	Topics in Multi-Variable Calculus and Linear Algebra	
Total Credits		**3**

Advanced Computing

Code	Title	Credits
Complete at least one from the following:		3
COMP SCI 400	Programming III	
COMP SCI 412	Introduction to Numerical Methods	
COMP SCI/ MATH 513	Numerical Linear Algebra	
COMP SCI/ MATH 514	Numerical Analysis	
COMP SCI/E C E/ I SY E 524	Introduction to Optimization	
COMP SCI 544	Introduction to Big Data Systems	
COMP SCI 557	Parallel & Throughput- Optimized Programming	
COMP SCI 564	Database Management Systems: Design and Implementation	
COMP SCI 565	Introduction to Data Visualization	
COMP SCI 574	Data Management for Data Science	
COMP SCI/ B M I 576	Introduction to Bioinformatics	
GEOG 573	Advanced Geocomputing and Geospatial Big Data Analytics	

GEOG 574	Geospatial Database Design and Development
MATH 444	Graphs and Networks in Data Science
STAT/ COMP SCI 471	Introduction to Computational Statistics
Total Credits	**3**

Statistical Modeling

Code	Title	Credits
Complete at least one from the following:		3
ACT SCI 657	Risk Analytics	
BOTANY/ PL PATH 563	Phylogenetic Analysis of Molecular Data	
CIV ENGR 516	Hydrologic Data Analysis	
ECON 400	Introduction to Applied Econometrics	
ECON 410	Introductory Econometrics	
ECON 460	Economic Forecasting	
GEOG 560	Advanced Quantitative Methods	
GEOG 579	GIS and Spatial Analysis	
I SY E 575	Introduction to Quality Engineering	
MATH 531	Probability Theory	
MATH/I SY E/ OTM/STAT 632	Introduction to Stochastic Processes	
MATH 635	An Introduction to Brownian Motion and Stochastic Calculus	
SOC/ C&E SOC 361	Statistics for Sociologists II	
SOC 362	Statistics for Sociologists III	
STAT/MATH 309	Introduction to Probability and Mathematical Statistics I	
or STAT 311	Introduction to Theory and Methods of Mathematical Statistics I	
or MATH/ STAT 431	Introduction to the Theory of Probability	
STAT/MATH 310	Introduction to Probability and Mathematical Statistics II	
or STAT 312	Introduction to Theory and Methods of Mathematical Statistics II	
STAT 349	Introduction to Time Series	
STAT 351	Introductory Nonparametric Statistics	
STAT 421	Applied Categorical Data Analysis	
STAT 424	Statistical Experimental Design	
STAT 436	Statistical Data Visualization	
STAT 443	Classification and Regression Trees	
STAT 456	Applied Multivariate Analysis	
STAT 461	Financial Statistics	
STAT 575	Statistical Methods for Spatial Data	
STAT/B M I 620	Statistics in Human Genetics	
Total Credits		**3**

Machine Learning

Code	Title	Credits
Complete at least one from the following:		3
BSE 405	Artificial Intelligence in Agriculture	
CHEM 361	Machine Learning in Chemistry	
COMP SCI/E C E/ M E 532	Matrix Methods in Machine Learning	
COMP SCI/E C E/ M E 539	Introduction to Artificial Neural Networks	
COMP SCI 540	Introduction to Artificial Intelligence	
I SY E 521	Machine Learning in Action for Industrial Engineers	
MATH 535	Mathematical Methods in Data Science	
MATH 616	Data-Driven Dynamical Systems, Stochastic Modeling and Prediction	
PHYSICS 361	Machine Learning in Physics	
STAT 451	Introduction to Machine Learning and Statistical Pattern Classification	
STAT 453	Introduction to Deep Learning and Generative Models	
Total Credits		**3**

Other electives

Code	Title	Credits
For additional electives, complete up to two courses from the list below or additional courses from the required categories above:		6
ACT SCI 655	Health Analytics	
COMP SCI/I SY E/ MATH 425	Introduction to Combinatorial Optimization	
COMP SCI/I SY E/ MATH/STAT 525	Linear Optimization	
COMP SCI/ E C E 533	Image Processing	
COMP SCI 541	Theory & Algorithms for Data Science	
COMP SCI 559	Computer Graphics	
COMP SCI/ B M I 567	Biomedical Image Analysis	
COMP SCI 577	Introduction to Algorithms	
E C E 203	Signals, Information, and Computation	
ECON 315	Data Visualization for Economists	
ECON 570	Fundamentals of Data Analytics for Economists	
ECON 695	Topics in Economic Data Analysis	
F&W ECOL 395	Data and GIS Tools for Ecology	
F&W ECOL 458	Environmental Data Science	
GEN BUS 317	Mathematical Foundations of Business Analytics	
GEOG 378	Introduction to Geocomputing	
GEOG 572	Graphic Design in Cartography	
GEOG 575	Interactive Cartography & Geovisualization	

INFO SYS 423	Digital Platform Analytics
I SY E 323	Operations Research-Deterministic Modeling
I SY E 412	Fundamentals of Industrial Data Analytics
I SY E/M E 512	Inspection, Quality Control and Reliability
I SY E 612	Information Sensing and Analysis for Manufacturing Processes
L I S 407	Data Storytelling with Visualization
L I S 440	Navigating the Data Revolution: Concepts of Data & Information Science
L I S 464	Applied Database Design
L I S 501	Introduction to Text Mining
LSC 460	Social Media Analytics
LSC 660	Data Analysis in Communications Research
MATH 331	Introductory Probability
SOC 351	Introduction to Survey Methods for Social Research
SOC/ C&E SOC 618	Social Network Analysis
SOC/ C&E SOC 693	Practicum in Analysis and Research
SOIL SCI 585	Using R for Soil and Environmental Sciences
STAT 405	Data Science Computing Project
STAT 433	Data Science with R
STAT 441	Advanced Sports Analytics
Total Credits	**6**

RESIDENCE & QUALITY OF WORK

- 2.000 GPA in all major courses
- 2.000 GPA in all upper level work in the major, which includes a Data Ethics course and all Electives courses (i.e. Linear Algebra, Advanced Computing, Statistical Modeling, Machine Learning, and Other electives).
- 15 credits in the major, taken on the UW-Madison campus

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Integrate foundational concepts and tools from mathematics, computer science, and statistics to solve data science problems.
2. Demonstrate competencies with tools and processes necessary for data management and reproducibility.
3. Produce meaning from data employing modeling strategies.
4. Demonstrate critical thinking related to data science concepts and methods.
5. Conduct data science activities aware of and according to policy, privacy, security and ethical considerations.
6. Demonstrate oral, written, and visual communication skills related to data science.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

Freshman

Fall	Credits	Spring	Credits

ADVISING AND CAREERS

ADVISING AND CAREERS

Information on group declaration sessions, individual advising appointments, drop-in advising, and contact information for advisors

is available on our website (https://stat.wisc.edu/undergraduate-data-science-studies/).

WHAT DO DATA SCIENTISTS DO?

Data scientists are trained to manage, process, model, gain meaning and knowledge, and present data. These skills can be employed in a wide variety of different sectors of employment. Examples of interests of our students include finance, banking, sports analytics, marketing, retail, humanities, psychology, biosciences, healthcare, and consulting, just to name a few. Students are encouraged to combine Data Science with majors, certificates, and courses from differing areas to best be able to apply their data science in the area of their choosing.

Data science is one of the fastest-growing areas of jobs in the United States and in Wisconsin. The Occupational Outlook Handbook (OOH) from the Bureau of Labor Statistics (https://www.bls.gov/ooh/math/data-scientists.htm) shows the job growth outlook from 2023 to 2033 for Data Scientists to be 36% (much faster than average).

Some students may want to continue to develop additional advanced data science skills through graduate education.

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

Helpful resources can be found at scholarships (https://financialaid.wisc.edu/types-of-aid/scholarships/) and the Wisconsin Scholarship Hub (https://wisc.academicworks.com/). Additional information specific to Data Science students can be found on our major webpage (https://stat.wisc.edu/undergraduate-data-science-studies/) and opportunities are regularly sent to declared students via our weekly newsletter.

DATA SCIENCE, BS

Students in the Data Science major apply computational, mathematical, and statistical thinking to data-rich problems in a wide variety of fields in a responsible and ethical manner. This includes the ability to manage, process, model, gain meaning and knowledge, and present data. Data science is one of the fastest growing career sectors in Wisconsin and across the nation.

By its very nature, the field of data science is one that teaches novel and cutting-edge ways to engage in the "continual sifting and winnowing by which alone the truth can be found."

HOW TO GET IN

HOW TO GET IN

To declare the data science major, students must have:

- Fewer than 86 credits (senior standing)
- Attended a data science major declaration event

Students may declare in their first semester on campus, without an established GPA. However, if courses have been completed at UW-Madison, the following applies:

- At least a 2.000 GPA on coursework that would count in the major
- At least a 2.000 GPA on coursework that would count as upper-level work in the major

or

- At least a 2.000 GPA in these preparatory courses: MATH 96, MATH 112, MATH 113, MATH 114, MATH 211, COMP SCI 200, COMP SCI/E C E 252, COMP SCI 310.

Please see the Data Science major page (https://stat.wisc.edu/undergraduate-data-science-studies/) on the Department of Statistics website for information on how to declare the major and meet with advisors.

Students declared in the Data Science certificate or Statistics Certificate may not declare the Data Science major. Students who wish to declare the Data Science major must first cancel their Data Science and/or Statistics certificate.

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. Some courses satisfy more than one L&S degree requirement (visit College of Letters & Science: Requirements (https://guide.wisc.edu/undergraduate/letters-science/#requirementstext) for details).

This major can be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Communication	Complete both: • Part A: one course with the Communication A designation or eligible UW Placement Score; and • Part B: one course with the Communication B designation

Quantitative Reasoning	Complete both: • Part A: one course with the Quantitative Reasoning A designation or eligible UW Placement Score; and • Part B: one course with the Quantitative Reasoning B designation
Ethnic Studies	one 3+ credit course with the Ethnic Studies designation
Language	the third unit of a language other than English
Mathematics	Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.
L&S Breadth: Humanities	Complete 12 credits with the Humanities or Literature designation, which must include at least 6 credits with the Literature designation.
L&S Breadth: Social Sciences	Complete 12 credits with the Social Science designation.
L&S Breadth: Natural Sciences	Complete 12 credits, which must include both: • 6 credits with the Biological Science designation, and • 6 credits with the Physical Science designation.
Liberal Arts and Science (LAS) Coursework	at least 108 credits
Depth of Intermediate/ Advanced Coursework	at least 60 credits at the Intermediate or Advanced level
Major	Declare and complete at least one major.
Total Credits	at least 120 credits
UW-Madison Experience	• 30 credits in residence, overall, and • 30 credits in residence after the 86th credit
Quality of Work	• 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their School/College to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

FOUNDATIONAL MATH COURSES

Code	Title	Credits
MATH 221	Calculus and Analytic Geometry 1	5
MATH 222	Calculus and Analytic Geometry 2	4
Total Credits		**9**

FOUNDATIONAL DATA SCIENCE COURSES

Code	Title	Credits
Data Modeling: complete both		
STAT 240	Data Science Modeling I	4
STAT 340	Data Science Modeling II	4
Data Programming: complete both		
COMP SCI 220	Data Science Programming I	4
or COMP SCI 300	Programming II	
COMP SCI 320	Data Science Programming II	4
Data Ethics: choose one from the following		
L I S 461	Data and Algorithms: Ethics and Policy	3-4
or E C E/ I SY E 570	Ethics of Data for Engineers	
or L I S 462	Data and Algorithms: Ethics and Policy (Communications Intensive)	
or PHILOS 244	Introductory Artificial Intelligence (AI) and Data Ethics	
Total Credits		**19-20**

ELECTIVES

Students must complete 18 credits of upper-level major electives, including at least one course from each of the following categories: Linear Algebra, Advanced Computing, Statistical Modeling, and Machine Learning, plus additional electives to reach the minimum credits.

Additional courses taken within Advanced Computing, Statistical Modeling, and Machine Learning may count towards other electives.

Students are only allowed to count one course from each of probability (MATH 331, STAT/MATH 309, STAT 311, or STAT/MATH 431), inference (STAT/MATH 310 or STAT 312), and linear algebra (MATH 320, MATH 340, MATH 341, MATH 345, or MATH 375) towards the major.

Linear Algebra

Code	Title	Credits
Choose one from the following:		3
Only one linear algebra course may count towards the data science major		
MATH 320	Linear Algebra and Differential Equations	
MATH 340	Elementary Matrix and Linear Algebra	
MATH 341	Linear Algebra	
MATH 345	Linear Algebra and Optimization	
MATH 375	Topics in Multi-Variable Calculus and Linear Algebra	
Total Credits		**3**

Advanced Computing

Code	Title	Credits
Complete at least one from the following:		3
COMP SCI 400	Programming III	
COMP SCI 412	Introduction to Numerical Methods	

COMP SCI/ MATH 513	Numerical Linear Algebra
COMP SCI/ MATH 514	Numerical Analysis
COMP SCI/E C E/ I SY E 524	Introduction to Optimization
COMP SCI 544	Introduction to Big Data Systems
COMP SCI 557	Parallel & Throughput- Optimized Programming
COMP SCI 564	Database Management Systems: Design and Implementation
COMP SCI 565	Introduction to Data Visualization
COMP SCI 574	Data Management for Data Science
COMP SCI/ B M I 576	Introduction to Bioinformatics
GEOG 573	Advanced Geocomputing and Geospatial Big Data Analytics
GEOG 574	Geospatial Database Design and Development
MATH 444	Graphs and Networks in Data Science
STAT/ COMP SCI 471	Introduction to Computational Statistics
Total Credits	**3**

Statistical Modeling

Code	Title	Credits
Complete at least one from the following:		3
ACT SCI 657	Risk Analytics	
BOTANY/ PL PATH 563	Phylogenetic Analysis of Molecular Data	
CIV ENGR 516	Hydrologic Data Analysis	
ECON 400	Introduction to Applied Econometrics	
ECON 410	Introductory Econometrics	
ECON 460	Economic Forecasting	
GEOG 560	Advanced Quantitative Methods	
GEOG 579	GIS and Spatial Analysis	
I SY E 575	Introduction to Quality Engineering	
MATH 531	Probability Theory	
MATH/I SY E/ OTM/STAT 632	Introduction to Stochastic Processes	
MATH 635	An Introduction to Brownian Motion and Stochastic Calculus	
SOC/ C&E SOC 361	Statistics for Sociologists II	
SOC 362	Statistics for Sociologists III	
STAT/MATH 309	Introduction to Probability and Mathematical Statistics I	
or STAT 311	Introduction to Theory and Methods of Mathematical Statistics I	
or MATH/ STAT 431	Introduction to the Theory of Probability	
STAT/MATH 310	Introduction to Probability and Mathematical Statistics II	
or STAT 312	Introduction to Theory and Methods of Mathematical Statistics II	
STAT 349	Introduction to Time Series	
STAT 351	Introductory Nonparametric Statistics	
STAT 421	Applied Categorical Data Analysis	
STAT 424	Statistical Experimental Design	
STAT 436	Statistical Data Visualization	
STAT 443	Classification and Regression Trees	
STAT 456	Applied Multivariate Analysis	
STAT 461	Financial Statistics	
STAT 575	Statistical Methods for Spatial Data	
STAT/B M I 620	Statistics in Human Genetics	
Total Credits		**3**

Machine Learning

Code	Title	Credits
Complete at least one from the following:		3
BSE 405	Artificial Intelligence in Agriculture	
CHEM 361	Machine Learning in Chemistry	
COMP SCI/E C E/ M E 532	Matrix Methods in Machine Learning	
COMP SCI/E C E/ M E 539	Introduction to Artificial Neural Networks	
COMP SCI 540	Introduction to Artificial Intelligence	
I SY E 521	Machine Learning in Action for Industrial Engineers	
MATH 535	Mathematical Methods in Data Science	
MATH 616	Data-Driven Dynamical Systems, Stochastic Modeling and Prediction	
PHYSICS 361	Machine Learning in Physics	
STAT 451	Introduction to Machine Learning and Statistical Pattern Classification	
STAT 453	Introduction to Deep Learning and Generative Models	
Total Credits		**3**

Other electives

Code	Title	Credits
For additional electives, complete up to two courses from the list below or additional courses from the required categories above:		6
ACT SCI 655	Health Analytics	
COMP SCI/I SY E/ MATH 425	Introduction to Combinatorial Optimization	
COMP SCI/I SY E/ MATH/STAT 525	Linear Optimization	
COMP SCI/ E C E 533	Image Processing	
COMP SCI 541	Theory & Algorithms for Data Science	
COMP SCI 559	Computer Graphics	
COMP SCI/ B M I 567	Biomedical Image Analysis	

COMP SCI 577	Introduction to Algorithms
E C E 203	Signals, Information, and Computation
ECON 315	Data Visualization for Economists
ECON 570	Fundamentals of Data Analytics for Economists
ECON 695	Topics in Economic Data Analysis
F&W ECOL 395	Data and GIS Tools for Ecology
F&W ECOL 458	Environmental Data Science
GEN BUS 317	Mathematical Foundations of Business Analytics
GEOG 378	Introduction to Geocomputing
GEOG 572	Graphic Design in Cartography
GEOG 575	Interactive Cartography & Geovisualization
INFO SYS 423	Digital Platform Analytics
I SY E 323	Operations Research-Deterministic Modeling
I SY E 412	Fundamentals of Industrial Data Analytics
I SY E/M E 512	Inspection, Quality Control and Reliability
I SY E 612	Information Sensing and Analysis for Manufacturing Processes
L I S 407	Data Storytelling with Visualization
L I S 440	Navigating the Data Revolution: Concepts of Data & Information Science
L I S 464	Applied Database Design
L I S 501	Introduction to Text Mining
LSC 460	Social Media Analytics
LSC 660	Data Analysis in Communications Research
MATH 331	Introductory Probability
SOC 351	Introduction to Survey Methods for Social Research
SOC/ C&E SOC 618	Social Network Analysis
SOC/ C&E SOC 693	Practicum in Analysis and Research
SOIL SCI 585	Using R for Soil and Environmental Sciences
STAT 405	Data Science Computing Project
STAT 433	Data Science with R
STAT 441	Advanced Sports Analytics
Total Credits	**6**

RESIDENCE & QUALITY OF WORK

- 2.000 GPA in all major courses
- 2.000 GPA in all upper level work in the major, which includes a Data Ethics course and all Electives courses (i.e. Linear Algebra, Advanced Computing, Statistical Modeling, Machine Learning, and Other electives).
- 15 credits in the major, taken on the UW-Madison campus

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Integrate foundational concepts and tools from mathematics, computer science, and statistics to solve data science problems.
2. Demonstrate competencies with tools and processes necessary for data management and reproducibility.
3. Produce meaning from data employing modeling strategies.
4. Demonstrate critical thinking related to data science concepts and methods.
5. Conduct data science activities aware of and according to policy, privacy, security and ethical considerations.
6. Demonstrate oral, written, and visual communication skills related to data science.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

ADVISING AND CAREERS

ADVISING AND CAREERS

Information on group declaration sessions, individual advising appointments, drop-in advising, and contact information for advisors is available on our website (https://stat.wisc.edu/undergraduate-data-science-studies/).

WHAT DO DATA SCIENTISTS DO?

Data scientists are trained to manage, process, model, gain meaning and knowledge, and present data. These skills can be employed in a wide variety of different sectors of employment. Examples of interests of our students include finance, banking, sports analytics, marketing, retail, humanities, psychology, biosciences, healthcare, and consulting, just to name a few. Students are encouraged to combine Data Science with majors, certificates, and courses from differing areas to best be able to apply their data science in the area of their choosing.

Data science is one of the fastest-growing areas of jobs in the United States and in Wisconsin. The Occupational Outlook Handbook (OOH) from the Bureau of Labor Statistics (https://www.bls.gov/ooh/math/data-scientists.htm) shows the job growth outlook from 2023 to 2033 for Data Scientists to be 36% (much faster than average).

Some students may want to continue to develop additional advanced data science skills through graduate education.

RESOURCES

- Career Pathways for Statistics and Data Science Canvas Course (https://canvas.wisc.edu/enroll/3JWLRW/)
- Department of Statistics Student Career Resources webpage (https://stat.wisc.edu/student-career-resources/)

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

Helpful resources can be found at scholarships (https://financialaid.wisc.edu/types-of-aid/scholarships/) and the Wisconsin Scholarship Hub (https://wisc.academicworks.com/). Additional information specific to Data Science students can be found on our major webpage (https://stat.wisc.edu/undergraduate-data-science-studies/) and opportunities are regularly sent to declared students via our weekly newsletter.

DATA SCIENCE, CERTIFICATE

Students in the Data Science certificate develop abilities such as data management, reproducibility, modeling strategies, and ethical considerations of data science to be paired with their knowledge gained from their major or domain area. The certificate is a great fit for students who like programming, want to learn data analysis, and seek to be high-end users of data science tools in domain areas. Data science is one of the fastest growing career sectors in Wisconsin and across the nation.

By its very nature, the field of data science is one that teaches novel and cutting-edge ways to engage in the "continual sifting and winnowing by which alone the truth can be found."

HOW TO GET IN

HOW TO GET IN

Students are eligible to declare the certificate at any point in their studies, however they should declare it as early as possible to plan the required coursework. See the departmental website (https://stat.wisc.edu/data-science-certificate/) for information about how to declare.

Students declared in the Data Science major or the Certificate in Engineering Data Analytics are not eligible to declare the Certificate in Data Science.

REQUIREMENTS

REQUIREMENTS

The certificate requires a minimum of 16 credits.

Code	Title	Credits

RESIDENCE AND QUALITY OF WORK

- Minimum 2.000 GPA on all certificate courses
- At least 9 credits must be taken in residence at UW-Madison

FOOTNOTES

[1] COMP SCI 320 may count toward either the Foundation Courses or Fundamental Electives requirement, but not both.

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Apply tools and processes necessary for data management and reproducibility.
2. Produce meaning from data employing modeling strategies.
3. Learn best practices related to data science concepts and methods.
4. Articulate policy, privacy, security and ethical considerations in data science projects.

ADVISING AND CAREERS

ADVISING AND CAREERS

Students who are interested in Data Science academic advising should check out the advising information on our website (https://stat.wisc.edu/data-science-certificate/) or send an email to dscert@stat.wisc.edu.

WHAT DO DATA SCIENTISTS DO?

Data scientists are trained to manage, process, model, gain meaning and knowledge, and present data. These skills can be employed in a wide variety of different sectors of employment. Examples of interests of our students include finance, banking, sports analytics, marketing, retail, humanities, psychology, biosciences, healthcare, and consulting, just to name a few. Students are encouraged to combine Data Science with majors, certificates, and courses from differing areas to best be able to apply their data science in the area of their choosing.

Data science is one of the fastest-growing areas of jobs in the United States and in Wisconsin. The Occupational Outlook Handbook (OOH) from the Bureau of Labor Statistics (https://www.bls.gov/ooh/math/data-scientists.htm) shows the job growth outlook from 2023-33 for Data Scientists to be 36% (much faster than average).

Some students may want to continue to develop additional advanced data science skills through graduate education.

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. STATISTICS, BA

Modern statistics is an exciting subject that affects most aspects of modern living. It has been developed to deal rationally and objectively with the uncertainty that accompanies variation in phenomena as highly complex as the interplay of the many factors that affect our environment. It derives vitality in coping with practical problems arising in all fields of

scientific activity, including the social, business, biological, agricultural, medical, natural, and engineering sciences. Investigators' efforts to learn about a specific phenomenon, be it the response of a patient to a certain medical treatment or the effectiveness of a particular instructional program on a student's learning, are impacted by the presence of natural variation. The field of statistics is concerned with valid and efficient ways to learn more about these phenomena in the presence of such variation. It is an inductive science in which information is extracted from sample data in order to draw inferences. This process most often involves planning experiments or designing studies to ensure that valid answers to questions are obtained from the sample.

HOW TO GET IN

HOW TO GET IN

To declare the statistics major, students should schedule an appointment with a statistics major advisor prior to attaining senior standing (86 credits). Information regarding major declaration and how to schedule an appointment is available on the major webpage (https://stat.wisc.edu/undergraduate-statistics-major/).

Students must have a 2.000 GPA on coursework counting in the major, and a 2.000 GPA on any upper-level work in the major completed prior to declaration. No specific coursework must be completed to declare.

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF ARTS (BA)

Students pursuing a Bachelor of Arts degree in the College of Letters & Science must complete all of the requirements below. Some courses satisfy more than one L&S degree requirement (visit College of Letters & Science: Requirements (https://guide.wisc.edu/undergraduate/letters-science/#requirementstext) for details).

This major can be paired with either the Bachelor of Arts or Bachelor of Science degree requirements.

BACHELOR OF ARTS DEGREE REQUIREMENTS

Communication	Complete both: • Part A: one course with the Communication A designation or eligible UW Placement Score; and • Part B: one course with the Communication B designation
Quantitative Reasoning	Complete both: • Part A: one course with the Quantitative Reasoning A designation or eligible UW Placement Score; and • Part B: one course with the Quantitative Reasoning B designation
Ethnic Studies	one 3+ credit course with the Ethnic Studies designation
Language	Complete either: • the fourth unit of one language other than English; or • the third unit of one language other than English and the second unit of an additional language.
L&S Breadth: Humanities	Complete 12 credits with the Humanities or Literature designation, which must include at least 6 credits with the Literature designation.
L&S Breadth: Social Sciences	Complete 12 credits with the Social Science designation.
L&S Breadth: Natural Sciences	Complete 12 credits with the Natural Science, Biological Science, or Physical Science designations, which must include both: • one 3+ credit course with the Biological Science designation, and • one 3+ credit course with the Physical Science designation.
Liberal Arts and Science (LAS) Coursework	at least 108 credits
Depth of Intermediate/ Advanced work	at least 60 credits at the Intermediate or Advanced level
Major	Declare and complete at least one major.
Total Credits	at least 120 credits
UW-Madison Experience	• 30 credits in residence, overall; and • 30 credits in residence after the 86th credit
Quality of Work	• 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their School/College to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

RESIDENCE & QUALITY OF WORK

- 2.000 GPA in all STAT and major courses
- 2.000 GPA on 15 Upper-Level Major credits, taken In Residence [3]
- 15 credits in STAT courses, taken on the UW-Madison campus

HONORS IN THE MAJOR

Students may declare Honors in the Statistics Major in consultation with the Statistics major advisor(s). To be admitted to the Honors Program in Statistics, students must have declared Statistics, must have a 3.3 University GPA, and must have completed and an Introductory Statistics Course (STAT 240, STAT 301, STAT 324 or STAT 371), STAT/ MATH 309, and STAT 333 or STAT 340 (or other courses with the approval of the advisor) with a GPA of 3.500 or higher in these three classes.

HONORS IN THE STATISTICS MAJOR: REQUIREMENTS

To earn Honors in the Major in Statistics, students must satisfy both the requirements for the major (above) and the following additional requirements:

- Earn a 3.300 University GPA
- Earn a 3.500 GPA for all STAT courses

- Complete two STAT major courses (excluding 699) for a total of 6 Honors credits (https://honors.ls.wisc.edu/earn-honors-credit/) ***or*** complete 18 total credits of electives in the major where 12-18 credits come from the core elective category and 0-6 credits from the domain elective category
- STAT 681 -STAT 682, for a total of 6 credits, under the supervision of a member of the Statistics faculty or 6 credits of pre-approved research credits outside of the Statistics Department.

FOOTNOTES

[1] A grade of C or higher is required for this course to meet the requirement.

[2] STAT 479 and STAT 679 can be repeated for elective credit when enrolled for different topics.

[3] Courses that are considered Upper-Level in the major are STAT 303, STAT 304, STAT 305, STAT/MATH 309, MATH 531, STAT/MATH 310, STAT 311, STAT 312, STAT 333, STAT 340, STAT 349, STAT 351, STAT 360, STAT 405, STAT 411, STAT 421, STAT 424,STAT/MATH 431, STAT 436,STAT 441, STAT 443, STAT 451, STAT 453, STAT 456, STAT 461, STAT/COMP SCI 471, STAT 479, STAT 575, STAT/I SY E/MATH/OTM 632, STAT/B M I 641, STAT/B M I 642, STAT 679,COMP SCI 541 STAT 699, ACT SCI 653, ACT SCI 654, COMP SCI/E C E/M E 532, COMP SCI/E C E 561, ECON 570, GEN BUS 656, GEOG 560, I SY E 521, MATH 635, SOC 362, SOC 375, STAT/COMP SCI/MATH 475, STAT/COMP SCI/I SY E/MATH 525, STAT/B M I 620, STAT/B M I 643

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Frame a scientific question with the appropriate mode of data analysis, to analyze such data correctly, and to summarize and interpret the results in a useful manner. Master a number of key statistical techniques, certainly including significance testing, goodness-of-fit testing, and regression analysis, which are common tools in analyzing data. This will include a careful checking of assumptions that underlie the techniques.
2. Design experiments/studies – in conjunction with scientists proposing the study – that will lead in an efficient manner to the collection of data that can be properly analyzed. Design studies with multiple factors taking variable reduction techniques into account. Interpret and critique designs they encounter in analyzing data.
3. Use tools from mathematical statistics and probability to assess the quality of point estimators, confidence intervals, and hypothesis tests. Demonstrate the skills to connect methods of application to their theoretical underpinnings.
4. Use a statistical language (with emphasis on R) to manipulate data and perform exploratory data analysis using basic statistical methods. Write structured R programs using conditional expressions, loops, and functions and to use regular expressions to extract data from text and make high-level visualizations.
5. Evaluate critically articles that use statistical argumentation. Assess whether or not the statistical arguments have been developed properly and the conclusions are reliable. If the arguments are not properly developed, they will be able to provide specific evidence for this.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This Four-Year Plan is only one way a student may complete an L&S degree with this major. Many factors can affect student degree planning, including placement scores, credit for transferred courses, credits earned by examination, and individual scholarly interests. In addition, many students have commitments (e.g., athletics, honors, research, student organizations, study abroad, work and volunteer experiences) that necessitate they adjust their plans accordingly. Informed students engage in their own unique Wisconsin Experience by consulting their academic advisors, Guide, DARS, and Course Search & Enroll for assistance making and adjusting their plan.

First Year

Fall	Credits	Spring	Credits
Communication A	3	MATH 222	4
MATH 221	5	COMP SCI 200 or 220	3-4
Language	4	Ethnic Studies course	4
Physical Science Breadth	3	Language	4
	15		**15**

Second Year

Fall	Credits	Spring	Credits
MATH 234	4	STAT 303	1
Introductory Statistics course	3-4	STAT 333 or 340	3-4
Communications B	3	INTER-LS 210	1
Social Science Breadth	3	MATH 340 or 341	3
Humanities Breadth	3	Biological Science Breadth	3
		Literature Breadth	3
	16		**14**

Third Year

Fall	Credits	Spring	Credits
STAT/MATH 309	3	STAT/MATH 310	3
STAT 424	3	STAT elective course	3
Social Science Breadth	6	Literature Breadth	3
Humanities Breadth	3	Social Science Breadth	3
		Elective	3
	15		**15**

Fourth Year

Fall	Credits	Spring	Credits
STAT elective course	6	STAT elective course	6
Elective	9	Elective	9
	15		**15**

Total Credits 120

ADVISING AND CAREERS

ADVISING AND CAREERS

Students who are interested in academic advising for the Statistics major should visit the Undergraduate Statistics Advising (https://stat.wisc.edu/

undergraduate-statistics-major/) website or contact the advisor group by email: advising@stat.wisc.edu.

SO WHAT CAN YOU DO WITH A STATISTICS MAJOR AFTER YOU GRADUATE?

Well-trained statisticians are in strong demand and have excellent employment prospects. Statisticians work in industry and business, in government, and in universities and other research institutions.

In most cases, a student who completed the Statistics major can find employment as a quantitative analyst or other "generalist" position. A number of our graduates have been successful following this path. However, in most cases, positions aimed at professional statisticians require a master's degree or PhD. As a professional statistician, typical employment in industry might be as a statistical consultant to biologists, engineers, or other scientists in a research-and-development branch of a large company.

The best place to look for statistics jobs is the American Statistical Association Career Center (http://www.amstat.org/ASA/Your-Career/home.aspx). Consult with a Statistics undergraduate advisor about the best fit for you.

Statistical training is seen as very desirable in many other areas (e.g., agricultural, biological, engineering, and social sciences, business, and economics) where the primary activity may not be statistics. In view of this, statistics may often be a strong choice for a second or additional major.

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

STATISTICS, BS

Modern statistics is an exciting subject that affects most aspects of modern living. It has been developed to deal rationally and objectively with the uncertainty that accompanies variation in phenomena as highly complex as the interplay of the many factors that affect our environment. It derives vitality in coping with practical problems arising in all fields of scientific activity, including the social, business, biological, agricultural, medical, natural, and engineering sciences. Investigators' efforts to learn about a specific phenomenon, be it the response of a patient to a certain medical treatment or the effectiveness of a particular instructional program on a student's learning, are impacted by the presence of natural variation. The field of statistics is concerned with valid and efficient ways to learn more about these phenomena in the presence of such variation. It is an inductive science in which information is extracted from sample data in order to draw inferences. This process most often involves planning experiments or designing studies to ensure that valid answers to questions are obtained from the sample.

HOW TO GET IN

HOW TO GET IN

To declare the statistics major, students should schedule an appointment with a statistics major advisor prior to attaining senior standing (86 credits). Information regarding major declaration and how to schedule an appointment is available on the major webpage (https://stat.wisc.edu/undergraduate-statistics-major/).

Students must have a 2.000 GPA on coursework counting in the major, and a 2.000 GPA on any upper-level work in the major completed prior to declaration. No specific coursework must be completed to declare.

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.

Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

COLLEGE OF LETTERS & SCIENCE DEGREE REQUIREMENTS: BACHELOR OF SCIENCE (BS)

Students pursuing a Bachelor of Science degree in the College of Letters & Science must complete all of the requirements below. Some courses satisfy more than one L&S degree requirement (visit College of Letters & Science: Requirements (https://guide.wisc.edu/undergraduate/letters-science/#requirementstext) for details).

This major can be paired with either the Bachelor of Arts or the Bachelor of Science degree requirements.

BACHELOR OF SCIENCE DEGREE REQUIREMENTS

Communication	Complete both: • Part A: one course with the Communication A designation or eligible UW Placement Score; and • Part B: one course with the Communication B designation
Quantitative Reasoning	Complete both: • Part A: one course with the Quantitative Reasoning A designation or eligible UW Placement Score; and • Part B: one course with the Quantitative Reasoning B designation
Ethnic Studies	one 3+ credit course with the Ethnic Studies designation
Language	the third unit of a language other than English
Mathematics	Complete two courses of 3+ credits at the Intermediate or Advanced level in MATH, COMP SCI, or STAT subjects. A maximum of one course in each of COMP SCI and STAT subjects counts toward this requirement.
L&S Breadth: Humanities	Complete 12 credits with the Humanities or Literature designation, which must include at least 6 credits with the Literature designation.
L&S Breadth: Social Sciences	Complete 12 credits with the Social Science designation.
L&S Breadth: Natural Sciences	Complete 12 credits, which must include both: • 6 credits with the Biological Science designation, and • 6 credits with the Physical Science designation.
Liberal Arts and Science (LAS) Coursework	at least 108 credits

Depth of Intermediate/ Advanced Coursework	at least 60 credits at the Intermediate or Advanced level
Major	Declare and complete at least one major.
Total Credits	at least 120 credits
UW-Madison Experience	• 30 credits in residence, overall, and • 30 credits in residence after the 86th credit
Quality of Work	• 2.000 in all coursework at UW–Madison • 2.000 in Intermediate/Advanced level coursework at UW–Madison

NON–L&S STUDENTS PURSUING AN L&S MAJOR

Non–L&S students who have permission from their School/College to pursue an additional major within L&S only need to fulfill the major requirements. They do not need to complete the L&S Degree Requirements above.

REQUIREMENTS FOR THE MAJOR

MATHEMATICS

Code	Title	Credits
Calculus 1:		**5**
MATH 221	Calculus and Analytic Geometry 1 [1]	
Calculus 2:		
MATH 222	Calculus and Analytic Geometry 2 [1]	
Calculus 3 (Complete one):		**4-5**
MATH 234	Calculus--Functions of Several Variables [1]	
MATH 376	Topics in Multi-Variable Calculus and Differential Equations	
Linear Algebra (Complete one):		**3-5**

ADVISING AND CAREERS

ADVISING AND CAREERS

Students who are interested in academic advising for the Statistics major should visit the Undergraduate Statistics Advising (https://stat.wisc.edu/undergraduate-statistics-major/) website or contact the advisor group by email: advising@stat.wisc.edu.

SO WHAT CAN YOU DO WITH A STATISTICS MAJOR AFTER YOU GRADUATE?

Well-trained statisticians are in strong demand and have excellent employment prospects. Statisticians work in industry and business, in government, and in universities and other research institutions.

In most cases, a student who completed the Statistics major can find employment as a quantitative analyst or other "generalist" position. A number of our graduates have been successful following this path. However, in most cases, positions aimed at professional statisticians require a master's degree or PhD. As a professional statistician, typical employment in industry might be as a statistical consultant to biologists, engineers, or other scientists in a research-and-development branch of a large company.

The best place to look for statistics jobs is the American Statistical Association Career Center (http://www.amstat.org/ASA/Your-Career/home.aspx). Consult with a Statistics undergraduate advisor about the best fit for you.

Statistical training is seen as very desirable in many other areas (e.g., agricultural, biological, engineering, and social sciences, business, and economics) where the primary activity may not be statistics. In view of this, statistics may often be a strong choice for a second or additional major.

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes

into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)
- Make a career advising appointment (https://successworks.wisc.edu/make-an-appointment/)
- Learn about internships and internship funding (https://successworks.wisc.edu/finding-a-job-or-internship/)
- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

STATISTICS, CERTIFICATE

The Statistics certificate is a great fit for students who wish to use statistical principles to solve data problems with a mathematical approach. Students develop knowledge and skills in analytics and statistics, such as understanding how to work with data and applying their analysis within their given major or domain area. Statistics continues to be one of the fastest growing employment sectors in the nation and in Wisconsin and the Statistics certificate will allow a broader range of students to gain these highly desired skills.

Students in the certificate will gain "scientific, professional and technological expertise, and a sense of purpose."

HOW TO GET IN

HOW TO GET IN

Students must have credit for the following to declare the certificate:

Code	Title	Credits
Complete one introductory statistics course		
B M E 325	Applied Statistics for Biomedical Engineers	
ECON 310	Statistics: Measurement in Economics	
I SY E 210	Introduction to Industrial Statistics	
STAT 240	Data Science Modeling I	
STAT 301	Introduction to Statistical Methods	
STAT 324	Introduction to Statistics for Science and Engineering	
STAT 371	Introductory Applied Statistics for the Life Sciences	
Complete one calculus course		
MATH 211	Survey of Calculus 1	
MATH 221	Calculus and Analytic Geometry 1	

Information on how to declare the certificate is available on our website (https://stat.wisc.edu/statistics-certificate/). Students are encouraged to schedule a meeting with a Statistics advisor if they have questions.

Students declared in the Statistics major or Data Science major are not eligible to declare this certificate.

REQUIREMENTS

REQUIREMENTS

The certificate requires a minimum of 13 credits.

Code	Title	Credits
Introductory Statistics (complete one course):		**3-4**
B M E 325	Applied Statistics for Biomedical Engineers	
ECON 310	Statistics: Measurement in Economics	
I SY E 210	Introduction to Industrial Statistics	
STAT 240	Data Science Modeling I	
STAT 301	Introduction to Statistical Methods	
STAT 324	Introduction to Statistics for Science and Engineering	
STAT 371	Introductory Applied Statistics for the Life Sciences	
Statistical Language		**1**
STAT 303	R for Statistics I	
Regression Analysis (complete one course):		**3-4**
STAT 333	Applied Regression Analysis	
STAT 340	Data Science Modeling II	
Probability (complete one course):		**3**
E C E 331	Introduction to Random Signal Analysis and Statistics	
STAT/MATH 309	Introduction to Probability and Mathematical Statistics I	
STAT 311	Introduction to Theory and Methods of Mathematical Statistics I	
MATH 331	Introductory Probability	
STAT/MATH 431	Introduction to the Theory of Probability	
MATH 531	Probability Theory	
Elective, complete at least 3 credits below		**3**
STAT 304	R for Statistics II	
STAT 305	R for Statistics III	
STAT/MATH 310	Introduction to Probability and Mathematical Statistics II	
STAT 312	Introduction to Theory and Methods of Mathematical Statistics II	
STAT 349	Introduction to Time Series	
STAT 351	Introductory Nonparametric Statistics	
STAT 405	Data Science Computing Project	
STAT 411	An Introduction to Sample Survey Theory and Methods	
STAT 421	Applied Categorical Data Analysis	

STAT 424	Statistical Experimental Design
STAT 433	Data Science with R
STAT 436	Statistical Data Visualization
STAT 441	Advanced Sports Analytics
STAT 443	Classification and Regression Trees
STAT 451	Introduction to Machine Learning and Statistical Pattern Classification
STAT 453	Introduction to Deep Learning and Generative Models
STAT 456	Applied Multivariate Analysis
STAT 461	Financial Statistics
STAT/ COMP SCI 471	Introduction to Computational Statistics
STAT 479	Special Topics in Statistics
STAT 575	Statistical Methods for Spatial Data
STAT/B M I 620	Statistics in Human Genetics
STAT/B M I 641	Statistical Methods for Clinical Trials
STAT/B M I 642	Statistical Methods for Epidemiology
Total Credits	**13**

RESIDENCE AND QUALITY OF WORK

- At least 7 certificate credits must be completed in residence
- Minimum 2.000 GPA on all certificate courses

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Frame a scientific question with the appropriate mode of data analysis, analyze such data correctly, and summarize and interpret the results in a useful manner
2. Apply a number of key statistical techniques, including significance testing, goodness-of-fit testing, and regression analysis
3. Use tools from mathematical statistics and probability to assess the quality of point estimators, confidence intervals, and hypothesis tests
4. Apply a statistical language to manipulate data and perform exploratory data analysis using basic statistical methods

ADVISING AND CAREERS

ADVISING AND CAREERS

Students who are interested in Statistics academic advising should check out the advising information on our website (https://stat.wisc.edu/statistics-certificate/) or send an email to statcert@stat.wisc.edu.

ADDITIONAL COURSES

Students should plan to complete an introductory calculus sequence, either:

- MATH 211 Survey of Calculus 1
- MATH 213 Survey of Calculus 2

OR

- MATH 221 Calculus and Analytic Geometry 1
- MATH 222 Calculus and Analytic Geometry 2

OR

- MATH 221 Calculus and Analytic Geometry 1
- MATH 213 Survey of Calculus 2

The first Calculus course must be completed before declaring the certificate (p. 1525). The second course is a requisite for many other courses in the certificate.

STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.

SUCCESSWORKS

SuccessWorks (https://successworks.wisc.edu/) at the College of Letters & Science helps you turn the academic skills learned in your classes into a fulfilling life, guiding you every step of the way to securing jobs, internships, or admission to graduate school.

Through one-on-one career advising, events, and resources, you can explore career options, build valuable internship and research experience, and connect with supportive alumni and employers who open doors of opportunity.

- What you can do with your major (https://successworks.wisc.edu/what-you-can-do-with-your-major/) (Major Skills & Outcomes Sheets)

- Try "Jobs, Internships, & How to Get Them," (https://successworks.wisc.edu/canvas/) an interactive guide in Canvas for enrolled UW–Madison students

GAYLORD NELSON INSTITUTE FOR ENVIRONMENTAL STUDIES

The Institute for Environmental Studies was created in 1970 to promote and enhance interdisciplinary environmental instruction, research, and outreach at UW–Madison. In 2002, it was renamed in honor of former Wisconsin governor and U.S. Senator Gaylord Nelson, the founder of Earth Day and a lifelong champion of environmental stewardship.

The program espouses an integrated approach to learning about the environment. Students are encouraged to consider their interests, strengths, and values beyond the context of their courses and connect the subject of the environment to their other courses as well as their extracurricular experiences. The Nelson Institute is a robust environmental community in which students learn about current environmental issues, and more important, how to link environmental science, policy, literature, art, and philosophy to other fields of study. The focus on the intentional integration of their academic endeavors with their interests, skills, and values provides a powerful source of self-awareness that prepares students for success across a variety of options. Finding one's strength within this interdisciplinary approach affords students access to a wide variety of career settings and postgraduate options.

Approximately 170 faculty members from more than 50 natural and social science, engineering, and humanities departments are affiliated with the Nelson Institute, which offers scores of undergraduate-level courses in cooperation with the university's schools and colleges. The institute offers an undergraduate major and two certificates. The environmental studies major must always be done in tandem with another major on campus. Environmental studies majors have second majors in every school and college on campus, and the student population reflects the interdisciplinary focus of the Nelson Institute and its curricular offerings. All UW–Madison undergraduates are invited to consider the program.

DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/ CERTIFICATES

- Environmental Studies, Certificate (p. 1527)
- Sustainability, Certificate (p. 1534)

ENVIRONMENTAL STUDIES

DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/ CERTIFICATES

- Environmental Studies, Certificate (p. 1527)
- Sustainability, Certificate (p. 1534)

ENVIRONMENTAL STUDIES, CERTIFICATE

WHY CHOOSE AN ENVIRONMENTAL STUDIES CERTIFICATE?

The Environmental Studies Certificate Program allows undergraduate students at UW–Madison to explore the environmental intersections that complement their major but with fewer curricular requirements than the major. Students completing the certificate also benefit from participation in the Nelson academic community and gain invaluable access to a network of multidisciplinary problem-solving colleagues. The certificate program is available only to UW–Madison students pursuing a bachelor's degree through the university's regular academic departments.

Completion of the certificate program is noted on a student's academic transcript.

HOW TO GET IN

HOW TO GET IN

HOW TO DECLARE

Students interested in declaring the environmental studies certificate can email undergrad@nelson.wisc.edu or request a declaration appointment. Information about declaring the certificate can be found at undergraduate advising (https://nelson.wisc.edu/undergraduate/advising.php).

Students who earn an environmental studies certificate may **not** earn the environmental studies major or the sustainability certificate.

REQUIREMENTS

REQUIREMENTS

Students are required to take five courses/15 credits to include two courses in the Foundation section and three courses in the thematic areas. A minimum of 6 credits overall must be intermediate or advanced level. Courses listed under more than one category in the curriculum may be used to satisfy only one category.

ENVIRONMENTAL HUMANITIES/SOCIAL SCIENCE (TAKE ONE COURSE)

Code	Title	Credits
ENVIR ST 112	Environmental Studies: Social Science Perspectives	3
ENVIR ST 113	Environmental Studies: Environmental Humanities	3
ENVIR ST/HIST SCI/ HISTORY 125	Green Screen: Environmental Perspectives through Film	3
ENVIR ST/ GEOG 139	Global Environmental Issues	3
SOC/C&E SOC 140	Introduction to Community and Environmental Sociology	4
ENVIR ST 215	Sustainability	3

ENVIR ST/ART HIST/ GEOG/HISTORY/ LAND ARC 239	Making the American Landscape	3-4
ENVIR ST/A A E 244	The Environment and the Global Economy	4
SOC/C&E SOC/ F&W ECOL 248	Environment, Natural Resources, and Society	3
ENVIR ST/ RELIG ST 270	The Environment: Religion & Ethics	3-4
ENVIR ST/ GEOG 339	Conservation and Climate Change - Local to International Strategies	3-4
ENVIR ST/GEOG/ HISTORY 460	American Environmental History	4
ENVIR ST/ HISTORY 465	Global Environmental History	3-4
ENVIR ST/ CLASSICS 488	Greeks, Romans and the Natural Environment	3

ENVIRONMENTAL PHYSICAL SCIENCE/ BIOLOGICAL SCIENCE (TAKE ONE COURSE)

Code	Title	Credits
ATM OCN 100	Weather and Climate	3
ATM OCN 101	Weather and Climate	4
ENVIR ST/ GEOSCI 106	Environmental Geology	3
GEOSCI 110	Evolution and Extinction	4
PHYSICS 115	Energy and Climate	3
ENVIR ST/ GEOG 120	Introduction to the Earth System	3
CIV ENGR 121	Sustainability Engineering for Non-Engineers	3
ENVIR ST/ILS 126	Principles of Environmental Science	4
ENVIR ST/GEOG 127	Physical Systems of the Environment	4

ENVIR ST/BOTANY/ ZOOLOGY 260	Introductory Ecology	3
SOIL SCI 301	General Soil Science	3
ENVIR ST/ ATM OCN/GEOG/ GEOSCI 335	Climatic Environments of the Past	3
ENVIR ST/ ATM OCN/ GEOG 332	Global Warming: Science and Impacts	3
ENVIR ST 413	Preserving Nature	3
F&W ECOL 550	Forest Ecology	3

THEME

- Students are required to take three courses (min 9 cr.) from the thematic areas listed below.
- Courses may be concentrated in one area or taken in multiple areas.
- Courses taken in the thematic areas cannot also be used in foundation.
- Certificate students may enroll in ENVIR ST 600 Environmental Studies Capstone after students in the major have enrolled, and the capstone course will be allowed to count in the thematic requirement.

Biodiversity

Code	Title	Credits

RESIDENCE AND QUALITY OF WORK

- A minimum of 8 credits must be taken in residence.
- A minimum GPA of 2.0 is required in certificate courses.
- Courses taken on a pass/fail basis will not count toward the certificate.

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Explain the social and historical processes that impact our current environments. Interpret the meanings, values, and aesthetics that are created, shaped, and revealed as humans interact with and modify the environments they inhabit.
2. Explain ecological processes and fundamental principles of environmental sciences relating to humanity's key environmental challenges of the past, present, and future.
3. Analyze and respond to environmental questions by applying interdisciplinary approaches that integrate multiple perspectives, including those from a coordinate major.
4. Recognize through critical thinking a diversity of viewpoints, ethical commitments, and disciplinary approaches to environmental concerns across various scales from the local to the global.
5. Demonstrate excellent reading, writing, communication, and research skills, both individually and in interdisciplinary teams.

ADVISING AND CAREERS

ADVISING AND CAREERS

Environmental studies students are represented in majors across campus and in most undergraduate schools and colleges. Environmental studies certificate students should utilize the career office for their home school as appropriate. All students, not just Letters & Science students, can also benefit from SuccessWorks at the College of Letters & Science.

SUSTAINABILITY, CERTIFICATE

WHY CHOOSE A SUSTAINABILITY CERTIFICATE?

Perhaps the best reason for pursuing a sustainability certificate is a personal interest in learning practical skills to make a difference in the world – in your life, in your job, and in your community. Working toward a certificate offers students the opportunity to pursue interests that complement their major(s). For example, the interdisciplinary nature of sustainability encourages students to consider multiple perspectives. In doing so, this certificate provides a breadth of perspective highly applicable to complex problems, such as those we face in our communities, in our workplaces, and in our personal lives.

The Nelson Institute also offers a major and another certificate:

Environmental Studies Major (p. 797)
Environmental Studies Certificate (p. 1527)

HOW TO GET IN

HOW TO GET IN

HOW TO DECLARE

Students interested in declaring the sustainability certificate can email undergrad@nelson.wisc.edu or request a declaration appointment. Information about declaring the certificate can be found at undergraduate advising (https://nelson.wisc.edu/undergraduate/advising.php).

Students who earn a sustainability certificate may **not** earn the environmental studies certificate or the certificate in engineering for energy sustainability.

REQUIREMENTS

REQUIREMENTS

The certificate requires 15 credits of coursework:

1. at least 2 credits from each of the four main categories:
   a. Environmental Dimension
   b. Social Dimension
   c. Economic Dimension
   d. Systems Dimension
2. Completion of a sustainability-related community service project or seminar:
   a. ENVIR ST 398 Independent Study: Sustainability Community Engagement (1 cr)
   b. 2 credits in ENVIR ST 317 Community Environmental Scholars Program Seminar
   c. ED POL 120 Environmental and Sustainability Education in Wisconsin Policy and Practice (3 cr)
3. Additional credits from any of the course lists to meet the 15 credit minimum.

ENVIRONMENTAL DIMENSION

Complete a minimum of 2 credits from this list.

Code	Title	Credits

RESIDENCE AND QUALITY OF WORK

- A 2.00 GPA in all coursework that counts toward the certificate
- Courses taken on a pass/fail basis will not count toward the certificate.
- A minimum of 8 credits must be taken in residence.

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Identify, critically analyze, and propose solutions to the environmental, social, and economic dimensions of sustainability.
2. Engage in systems thinking and practice so as to address the interrelationships among the three dimensions of sustainability.
3. Develop the capacity for an engaged life in which theory, practice, and reflection are integrated in the pursuit of a more sustainable world.

ADVISING AND CAREERS

ADVISING AND CAREERS

Nelson Institute students are represented in majors across campus and in most undergraduate schools and colleges. Sustainability certificate students should utilize the career office for their home school as appropriate. All students, not just Letters & Science students, can also benefit from SuccessWorks at the College of Letters & Science.

SCHOOL OF BUSINESS

The School of Business (https://business.wisc.edu/) attracts talented, energetic, creative students who are known for their strong work ethic and technical capabilities. Students in the School of Business Undergraduate Program (https://business.wisc.edu/undergraduate/?_ga=1.242357250.1617918104.1481300313) experience innovative coursework directed by leading scholars in business. They have opportunities to connect with outstanding alumni for applied learning, mentoring, and general life-experience lessons. Students also enjoy access to an unlimited array of activities, clubs, and life-changing global experiences.

In 1900, UW–Madison established one of the first six commerce programs in the country, beginning as a department in the College of Letters & Science, and receiving separate school status by a 1944 act of the Wisconsin Legislature. The School is accredited by the Association to Advance Collegiate Schools of Business (AACSB) (http://www.aacsb.edu/), the standard-setting organization for collegiate business education.

BUSINESS EDUCATION FOR A CHANGING WORLD

Today's students aren't just preparing for their first job, they're preparing for a future that doesn't follow a script. From emerging technologies to new ways of working, business is being reshaped by innovation, complexity, and constant change. Employers are not hiring solely for technical skills, they're hiring for curiosity, adaptability, and the confidence to grow through challenge. At the same time, today's students want more than classroom theory, they want purpose, flexibility, and the chance to lead.

The Wisconsin Undergraduate Program (https://business.wisc.edu/undergraduate/) isn't about chasing trends, it's about building transformation into the student experience. At the core is a growth mindset, an evidence-based belief that abilities are developed, not predetermined, and that leadership is learned through experience. Every part of the program is designed to help students stretch, try, reflect, and rise. Whether navigating a team simulation, experimenting with AI, or combining business with fields like public health or environmental science, our students are learning how to learn and how to keep growing.

We've created an experience and curriculum that's deeper and broader. One that begins with self-awareness and culminates in real-world readiness. A launchpad for bold, thoughtful professionals who are trusted to lead, especially when there's no blueprint.

This is more than a degree. It's the knowledge, skills, and mindset that provide a foundation for a lifetime of learning, leading, and building what's next.

ENTERING THE SCHOOL

ENTERING THE SCHOOL

A STUDENT-CENTERED ADMISSIONS PROCESS

The School of Business boasts a student body that is focused and engaged. Our highly talented undergraduate students, in turn, attract recruiting employers who return to Wisconsin year after year to fill internships and full-time positions.

Although admission to the Wisconsin Undergraduate Business Program is selective, we provide a variety of informational and workshop events to help you prepare for the admissions process.

Students may apply and enroll in the residential Undergraduate Business Program through the following pathways:

- Prospective high school students may be considered for Direct Admission to Business based on their application to the University of Wisconsin–Madison. Simply list a Business interest as your top academic area of interest on the University application.
- Current University of Wisconsin–Madison students can participate in a series of preparatory workshops and apply through the spring-term pre-business admissions process.
- Transfer students at University of Wisconsin System campuses or Wisconsin Technical Colleges may apply separately for admission to both the University of Wisconsin–Madison and the School of Business during the spring term for fall enrollment.

Once a student knows they have a Business interest, earlier enrollment in the Undergraduate Business Program is encouraged to maximize the use of resources like advising, career coaching, co-curricular engagement, and other enriching opportunities. The right choice for you depends on your current goals and where you are in your journey to becoming a Business Badger. Prospective/pre-business applicants are encouraged to familiarize themselves with the admissions eligibility policies listed on the Wisconsin BBA Admissions Policies (https://business.wisc.edu/undergraduate/admissions/pre-business-policies/) page.

For more information about these options, including directions for navigating the admissions processes and tips for submitting a competitive application, please visit the Wisconsin BBA Program website (https://business.wisc.edu/undergraduate/admissions/).

Transfer applicants (https://business.wisc.edu/undergraduate/admissions/transfer-students/) should visit the School of Business website to determine which process fits their situation.

Questions along the way? We're here to help. Reach out to a Wisconsin BBA Student Ambassador *(*https://business.wisc.edu/undergraduate/contact/ambassadors/*) or contact the* School of Business Undergraduate Program Office *(*https://business.wisc.edu/undergraduate/contact/*) at 608-890-2490.*

Business Online Undergraduate Programs

Students applying to a School of Business Online Undergraduate Program apply through UW–Madison Online (https://online.wisc.edu/). Students who have earned 12 or more college credits are eligible to apply. For more information, visit the UW–Madison Online admissions website (https://online.wisc.edu/apply/) or email a UW–Madison Online enrollment coach (uwmadisononline@wisc.edu). They are here to help you navigate the application process.

WISCONSIN EXPERIENCE

WISCONSIN EXPERIENCE

School of Business undergraduate students are expected to apply learning inside and outside the traditional classroom in ways that have a positive impact on the world. Known as the Wisconsin Experience, this principle draws upon opportunities ranging from conducting research to embracing entrepreneurship to developing multicultural competence (https://business.wisc.edu/undergraduate/diversity-inclusion/), on campus or through study abroad programs (https://business.wisc.edu/undergraduate/study-abroad/). By applying classroom learning in leadership programs (https://business.wisc.edu/undergraduate/leadership/) or student organizations (https://business.wisc.edu/undergraduate/student-organizations/), you will build your résumé and gain practical experience in using your business skills.

POLICIES AND REGULATIONS

POLICIES AND REGULATIONS

RESIDENTIAL PROGRAM

School of Business students are responsible for being familiar with the policies that affect them. School of Business policy is subject to change, so be sure to review this website for the most up-to-date information. Questions related to policy interpretation can be directed to your academic advisor for clarification. Please note that pre-business students are subject to the academic policies and procedures of their current school/college. **In addition to the academic-related policies below, we strongly encourage prospective/pre-business applicants to review all admission policies listed on the Wisconsin BBA Admission Policies (https://business.wisc.edu/undergraduate/admissions/pre-business-policies/) page.**

COURSES/ENROLLMENT

Student responsibility for enrollment

Each student is responsible for enrolling in classes and verifying their registration. Students are advised to create schedules that ensure satisfactory progress toward degree requirements.

The Office of the Registrar publishes university deadlines for adding and dropping individual courses, withdrawing (from all courses), and course options such as pass/fail and audit. Changing enrollment can have consequences for academic standing, tuition, progress toward degree, etc. Students are strongly encouraged to consult with an academic advisor prior to initial enrollment and before making any changes to enrollment.

Progression

To progress in the School of Business Undergraduate Program, the following are expectations of business students following admission:

1. Students are required to take placement exams prior to or during SOAR.
2. Students are expected to submit test credit and transcripts prior to the first day of the fall term. They are highly encouraged to submit as early as possible.
3. GEN BUS 110 must be taken during a student's first fall term in the School of Business.
4. Business students are required to be enrolled in a math course that progresses to Calculus I (MATH 211 or MATH 221) during each enrolled semester until the student has completed the Calculus requirement.
   a. Exception: If a first-year student has placed into Calculus, they can take the course in either the fall or spring term of their first year.
   b. Business students who are pursuing a major with a math requirement beyond Calc I are expected to progress in math until that requirement is complete.
5. Students should complete the Microeconomics requirement within the first 30 credits in residence.

Monitoring and communication

Students are encouraged to regularly check in with their academic advisor each academic year. The School of Business will also monitor the progression expectations outlined above and will contact students who are at risk of extending their timeline to graduation.

Business Credit Limit

Undergraduate students may not take more than 90 credits of School of Business courses.

10-semester rule (reentry and transfer)

Students re-entering after an absence of 10 or more semesters:

A pre-business student seeking admission to the School of Business is responsible for completing all of the current School of Business admission and degree requirements that are in effect at the time of re-entry to UW–Madison.

A business student reentering UW–Madison is responsible for completing all the current School of Business degree requirements that are in effect at the time of reentry to UW–Madison and the School of Business. Students who left the institution as a business student do not need to reapply for admission to the School of Business when they return.

Graduation

The School of Business will graduate a student at the end of the semester (spring, summer, or fall) in which all university, BBA degree, and business major requirements are complete with a cumulative GPA of 2.00 or higher. Graduation will not be postponed for any incomplete School of Business certificate(s) or additional certificate(s) or major(s) outside the School of Business.

Students cannot graduate with a temporary grade (https://registrar.wisc.edu/valid-grades/), such as I or NR, for any requirements.

Speak with the course instructor or your advisor to resolve temporary grades. The date when the outstanding Incompletes (I) are resolved will determine the semester of graduation.

If a student is completing their final coursework while not in residence, the student must notify the School of Business Undergraduate Program when the official transcript has been evaluated by UW–Madison and appears on their record. This allows their DARS to be certified for graduation.

It is the student's responsibility to ensure that graduation requirements have been met. All students should regularly consult their DARS (Degree Audit Reporting System) document in conjunction with their advisor to ensure that all graduation requirements have been met.

No-Credit Courses

The School of Business does not award credit for the following:

- Failed courses (grade of "F")
- Repeated courses (except where a repeat is allowed)
- Courses for which a student may not receive credit because of a previously completed course (as indicated in the Course Search & Enroll App)

Being enrolled in any of the above courses could impact a pre-business student's application to the School of Business. Before enrolling in and taking any of the above courses, please consult your academic advisor.

Part-time Enrollment

To maintain full-time standing, students must be enrolled in 12–18 credits.

Undergraduate students who are considering dropping below full-time (less than 12 credits) are responsible for knowing how part-time status will affect them. Below are some of the more common scenarios to explore before dropping credits:

International Students:

Dropping below full-time as an international student can have serious consequences, up to and including deportation. Please be sure to check with the International Student Services Office before dropping below 12 credits.

Scholarships, Grants, and Other Awards:

Depending on the conditions of the scholarship, a student may be required to be full time in order to remain eligible for an award. Be sure to check the stipulations for any awards you have received.

Financial Aid:

Be sure to check with the Office of Student Financial Aid to find out if being part-time will affect your financial aid package.

Tuition Refunds:

Depending on when the credits are dropped, you may be eligible for a tuition refund. Check the registrar's website for information about refund deadlines.

Athletes:

Varsity athletes are governed by Big Ten and NCAA rules that do not allow them to drop below full time. Be sure to check with your coach and athletic advisor before dropping below 12 credits.

Degree Completion:

Taking fewer credits or courses than anticipated may delay your graduation. Be certain that if you drop a course, you will still be able to complete all required courses within your desired timeline. If you are not sure, please see your academic advisor.

Pass/Fail

Undergraduate business students who are in good academic standing (i.e., not on probation) may take only one (1) course as pass/fail per semester including the summer session. A maximum of 16 total credits may be completed as pass/fail to count toward completion of the 120 degree credits required for the BBA.

The pass/fail privilege is for a non-business elective course. The following courses cannot be taken pass/fail:

- Any business course including business courses taken during study abroad programs
- Any course required for the business major or degree, including all liberal studies requirements as well as business courses that are designated as "meets with" or "cross-listed"

It is the responsibility of the student to check requirements and policies for non-business majors and certificates prior to requesting the pass/fail privilege.

The pass/fail grade will not be included when computing your GPA, but the pass/fail credits with S (Satisfactory) grades will apply toward graduation. S is the grade for A to C; U (Unsatisfactory) is the grade for D and F.

Students must complete a minimum of 12 graded credits each semester in order to be eligible for the dean's list. Courses taken for pass/fail or credit/no credit do not count towards the minimum of 12 graded credits.

In order to apply for the pass/fail privilege, students must submit an online request (https://kb.wisc.edu/7700/) via Student Center. Please disregard the message that says "Reminder - print this form and obtain appropriate signatures." You do not need to do this. Your request is then sent directly to the School of Business Undergraduate Program. You will be notified by email whether or not your request has been approved. Please complete the online pass/fail form by the deadline. See the Office of the Registrar's website (https://registrar.wisc.edu/dates/) for deadline information.

Once the student has submitted the form, the course may not be changed from pass/fail back to a conventionally graded course after the established deadline. Once a pass/fail grade is recorded as S or U, it cannot be changed to a letter grade.

Auditing a Course

Auditing a course allows a student to take a class without the benefit of a grade or credit for a course.

A student who wishes to audit a course is expected to attend classes on a regular basis as an observer. Auditors do not take exams. Auditors will receive a final grade of Satisfactory (S) or No Report (NR), and AU will appear in place of a number of credits. Audit courses carry no academic credit and do not satisfy any degree or major requirements. Also, audit courses do not satisfy any minimum or maximum credits required in each term. Students interested in auditing a course should consult with their academic advisor.

Audits are not free. A course taken for audit costs the same as a course taken for credit. If students are not paying full-time fees, they will be assessed per-credit fees for an audit course.

Information about submitting a formal request to audit a class can be found in this document (https://kb.wisc.edu/7700/) from the Office of the Registrar. The course is offered only on a space-available basis with approvals of both the instructor of the course and the Academic Dean's Office in the School of Business.

Repeating a Course

Students thinking about repeating a course should talk with their advisor. Students must do all the work in the repeated course, including laboratory, attend regularly, participate in class discussions, and take examinations. Students will earn a final grade in the course. The transcript denotes repeated courses with a lowercase 'x' appearing immediately before the course description. Students should know that:

- the original grade still counts in GPA and remains on the transcript;
- credits in the repeated course do not count toward the degree, unless the course was failed the first time;
- grade points in the repeated course count toward calculation of cumulative GPA;
- credits carried on courses being repeated count toward the maximum credits permitted in a semester.

Transfer students must be particularly careful to avoid taking courses on the UW–Madison campus that duplicate courses taken at another school. Credit will not be given twice for the same or similar courses, nor will credit be given for a lower-level course in a sequence if students have already received credit for a higher-level course in that sequence. Students should carefully check the Evaluation of Transfer Credits prepared by Credit Evaluation Services and should consult with their advisor. Duplicate courses may include transfer credits and credit by exam, such as Advanced Placement, coming in as course equivalents.

Residency for Degree

Students admitted to the School of Business Undergraduate Program, including students who transfer from another college or university, must complete a minimum of 30 credits in business courses in residence.

Withdrawal

Withdrawal indicates that a student intends to stop attending all classes for the current term. If a student wishes to drop all of their classes for a particular term after the first day of classes, a student needs to formally withdraw from the semester by submitting the online withdrawal request (https://kb.wisc.edu/registrar/25601/) in the MyUW Student Center. Failure to do so may result in a recording of Failure for all courses and a probationary action. Any student may withdraw with permission and without grades being recorded at any time up to the withdrawal deadline. Students should refer to the enrollment dates and deadlines (https://registrar.wisc.edu/dates/) provided by the Office of the Registrar if they wish to withdraw. The Office of the Registrar provides additional information regarding withdrawal (https://registrar.wisc.edu/withdraw/), including the impacts of withdrawal.

Medical Withdrawal: Students who wish to withdraw as a result of a serious or unexpected physical or mental health condition, a serious or unexpected physical or mental health condition of an immediate family member who requires the student's care, or the death of an immediate family member that completely precludes the student from actively participating as a student can request a partial tuition refund according to the Medical Withdrawal process (https://registrar.wisc.edu/medical-withdrawal/). For further information on medical withdrawals, students should refer to the Medical Withdrawal (https://policy.wisc.edu/library/UW-1084/) policy.

A staff member from the Academic Dean's Office will be in contact with you following the request for a medical withdrawal via Student Center. Medical withdrawals are approved on a case-by-case basis, and medical documentation will be required.

Courses Scheduled for Fewer Than 15 Weeks

Deadlines for sessions and modular courses (https://registrar.wisc.edu/modular/) are listed on the Office of the Registrar's website.

Credit Overload

To obtain special permission for a credit overload, students need to submit a petition for special consideration (https://business.wisc.edu/undergraduate/academic-advising/) and demonstrate that special circumstances are involved.

Students who wish to take more than 18 credits during the fall or spring semester must have earned a minimum of 3.000 cumulative GPA on the UW–Madison campus. Students will not be permitted to carry more than 20 total credits during the fall or spring semester.

Students can take a maximum of 12 credits during the summer session. Please note that there are credit limits by session as well. Students may enroll for one credit per week of instruction (e.g.: a student can earn three credits during a three-week session but needs approval to earn four credits in a three-week session). Students who are seeking a credit overload for the summer session must have earned a minimum of 3.000 cumulative GPA on the UW–Madison campus. Students will not be permitted to carry more than 13 total credits, with approval, during the summer session.

Credit overloads will incur additional tuition costs. Visit Tuition & Fees (https://bursar.wisc.edu/tuition-and-fees/) for more information.

EXAMS

Finals

General Info/Schedule:

Final exam times are automatically assigned for both fall and spring semesters. Final exam times can be found in MyUW.

Student Conflicts:

Students should attempt to avoid having more than two exams within 24 hours. If a student has more than two exams in 24 hours, the instructor may – but is not required to – offer a make-up final exam or allowable alternative. It is the student's responsibility to be aware of their final exam schedule when registering for classes. Therefore, any conflicts should be communicated with instructors far in advance to ensure proper planning for the student and instructor, whether or not exam times can be changed.

More information on the campus policy for final exams can be found here (https://policy.wisc.edu/library/UW-862/).

Midterms

Midterm exams can occur throughout the term and may take place outside of the regularly scheduled class time. More information on the campus policy for evening midterm exams can be found here (https://policy.wisc.edu/library/UW-879/).

GRADES

Academic Probation

Students admitted to the School of Business must maintain all of the following GPA minimums:

- 2.00 cumulative GPA on all UW–Madison coursework
- 2.00 semester GPA for each semester (including summer term)

Students who do not meet these GPA minimums will be assigned an academic action (see below for a list of actions) based on:

1. The student's most recent academic action from a prior term
2. The student's cumulative GPA (including the current term)
3. The student's term GPA for the semester just completed

A student will be cleared of probationary status at the end of the semester when all of the above conditions are met.

Probationary actions

Students will be notified via email of the requirements they must complete as part of their probationary status.

Probation: A student who has a prior academic action of *Good Academic Standing* or who has no prior academic action and who achieves a cumulative or term GPA between 1.000 and 1.999 will be placed on probation.
Continued Probation: A student on Probation whose cumulative GPA remains below 2.000 and whose term GPA for the term just completed is 2.000 or above will be placed on continued probation.
Strict Probation: A student can be placed on *Strict Probation* when they either:

1. Have a prior academic action of *Good Academic Standing* and achieve a term GPA of less than 1.000 in the semester just completed.
2. Have a prior academic action of *Probation* and achieve a term GPA of less than a 2.000 in the semester just completed

Continued Strict Probation: A student on *Strict Probation* whose cumulative GPA remains less than a 2.000 but whose term GPA for the term just completed is 2.000 or above will be placed on *Continued Strict Probation*.
Dropped for one semester (Academic Suspension): A student on *Strict Probation* or *Continued Strict Probation* who earns a term GPA for the term just completed less than 2.000.

Students have the opportunity to appeal the "dropped for one term" status by participating in an appeals process. The School of Business' Academic Dean's Office will notify students by email of the appeals process and timeline.

Students who were dropped for one term may reapply on probationary status (after a one-semester hiatus) if they can demonstrate the ability and desire to devote sufficient energy to scholastic work. To reapply, students may complete a reentry application (https://admissions.wisc.edu/apply-as-a-reentry-student/) through the Office of Admissions and Recruitment.

GPA deficiencies causing probationary status cannot be removed through coursework at another university or through correspondence study.

Dean's List

Business students who achieve a grade point average of 3.75 for any semester in which they complete 12 graded degree credits will have their names on the dean's list. A permanent record of this achievement is entered on the student's transcript. Please note that courses taken for pass/fail or credit/no credit do not count toward the minimum of 12 graded credits. Students with I, P, or U on their grade report will automatically be ineligible for the dean's list. Subsequent academic action may change eligibility.

Grading Policy

School of Business faculty and instructors are required by policy to have clear grading guidelines in their syllabus.

Graduating with Distinction

The Office of the Registrar compiles a preliminary list of business students eligible for distinction. The School of Business Undergraduate Program will notify eligible students via email 2-3 weeks before the commencement ceremony.

Distinction is awarded to graduated business students who meet the following criteria:

- At least sixty (60) credits earned (in residence) at UW–Madison
- A cumulative UW–Madison GPA in the top twenty percent (20%) of the graduating business class

Please note that students on the preliminary list for distinction may or may not receive distinction. The distinction designation is subject to change and is dependent upon the official graduation date (semester), the number of students graduating, and final grade calculations, including last semester and in-progress courses.

Students with distinctive scholastic achievement are eligible to wear a cardinal stole with their commencement attire. The stoles can be obtained from the University Bookstore with a deposit and do not need to be ordered in advance.

"Graduated with Distinction" is notated on official transcripts only.

Incomplete Policy

A grade of Incomplete may be assigned to a student who, because of illness or another unusual and substantiated cause beyond their control, is unable to complete the coursework.

To be eligible for an Incomplete grade, the student must:

- be earning a passing grade to-date in the course,
- and have a limited amount of work to complete by the end of the term.

For a short summary of the policy, see the Enrollment and Records - Incompletes section (p. 30) of Guide.

A request for an incomplete must be initiated before the end of the term, and the instructor and the student must agree on the coursework to be completed and establish a plan for the work to be submitted and graded before or by the deadline noted below. An incomplete is not given to a student who does not attend a final examination unless the student proves to the instructor that they were prevented from attending.

If an undergraduate business student earns an incomplete in a spring or summer term, the work for that course must be completed and a grade change submitted by the Friday of the eighth week of the following fall term. If an undergraduate business student earns an incomplete in a fall term, the work for that course must be completed and a grade change submitted by the Friday of the eighth week of the following spring term.

Probationary status will be applied, when applicable, to business students with an incomplete. The academic action will be based on their GPA without the course that has an incomplete. This is a temporary action that could change once the incomplete is resolved. Please see the "Academic Probation" section for further information on the policy and GPA minimums.

If a student is graduating and has an incomplete in the term they wish to graduate, they will need to complete the work before their degree can be awarded. Finishing up work for an incomplete after the term/semester means that a student will be awarded their degree at the next official graduation date.

MAJOR DECLARATION

School of Business Major

Direct admit business students will declare their business major at SOAR. Direct admit students will have the option to declare a specific business major or remain as Exploring Business at that time. Students who remain as Exploring Business are required to declare a major within the School of Business within their first 30 credits in residence. They are encouraged to meet with their academic advisor and career coach for major exploration guidance.

Business students admitted through the pre-business process will be declared in their selected business major at the time of acceptance into the School. Business students may update their major plan (can declare or cancel any of the business majors offered) by completing the major declaration form (https://bus.wisc.edu/current-student-resources/bba/academic-support-resources/forms/).

Students interested in declaring a certificate offered through the School of Business should follow the procedures outlined on the Certificates page for the appropriate program.

Additional major outside of business

Business students may declare **one** additional major outside the School of Business in the College of Letters & Science (excluding AMEP, Journalism, Landscape Architecture, Social Work, Music: Education BM, and Music: Performance: BM), School of Education (only including Educational Policy Studies, Health Promotion and Health Equity or Theater & Drama), or College of Agricultural and Life Sciences (only including Global Health or Biochemistry). Students who gain approval to complete an additional major in the College of Letters & Science, the School of Education, or the College of Agricultural and Life Sciences must complete major requirements prior to, or concurrently with, their business degree. Students who have fulfilled the degree requirements for the BBA will be graduated, even if the additional major outside the School of Business had not been completed.

To declare a second major:

Students will need to meet with the advisor of their additional major, and the advisor will fill out and submit an additional major declaration form on their behalf. This will be sent to the School of Business Undergraduate Program for approval.

Meet regularly with your School of Business academic advisor and additional major advisor regarding major and/or degree requirements.

To cancel a second major:

Students interested in canceling their additional major will need to make this request through their additional major advisor or department.

COURSES AT OTHER INSTITUTIONS

Common Guidance for Off-Campus Coursework

School of Business undergraduate students are advised to take no more than two courses in their major (or per major if pursuing multiple majors) off-campus, when permitted. This guidance includes courses taken for transfer credit at another accredited institution as well as courses taken on a School of Business or UW–Madison-sponsored study abroad program. The academic departments of the School of Business strongly recommend that all business students complete the core or initial course in their major(s) on campus.

While School of Business undergraduate students are able to take courses off-campus in some circumstances, the School of Business Undergraduate Program reminds students that they should plan to complete all prerequisites for any off-campus course, regardless of its place in the BBA curriculum, prior to taking the course off-campus. Attention to these prerequisites is crucial to ensuring School of Business undergraduate students are prepared for their coursework whether it is taken on or off campus. Advance academic planning is an integral part of a student's success and ability to remain on track to graduate. Students are strongly encouraged to share with their advisor if they plan to enroll in coursework off-campus at any time once they are a UW–Madison student. Advisors assist students in making decisions regarding enrollment in off-campus coursework and share resources with students to ensure that courses will transfer to UW–Madison for degree credit and satisfy the requirement(s) they expect. While students are always encouraged to share this information with their advisor, students are required to gain permission to take courses off-campus in certain circumstances.

Concurrent Enrollment

School of Business students are not allowed to enroll concurrently at other institutions of higher learning during any term in which they are enrolled at UW–Madison (fall, spring) without seeking special permission via the Petition for Special Consideration (https://business.wisc.edu/undergraduate/academic-advising/). This includes enrollment in online, distance education, and physical attendance classes.

Students are permitted to enroll in more than one university during the summer session. However, please be aware that if you are taking a course at another university that begins in the summer and coincides with the fall and/or spring semester, it will fall into this category of concurrent enrollment, regardless of when the course will be completed.

If students are taking a course at another institution of higher learning over UW–Madison's winter break, they do not need to seek permission for concurrent enrollment if the course does not overlap UW–Madison's fall or spring term or if the overlap is two weeks or less. Please note that students may take no more than one course off-campus during winter recess.

If it is discovered that a student violated this policy, this credit will be removed from the student's record. It is the responsibility of the student to verify with their academic advisor that they are not in violation of this policy.

Independent Learning

UW Independent Learning (UW IL) is a branch of UW Extension that offers online and distance learning courses. Courses taken through UW Independent Learning are considered **concurrent enrollment** and require special permission to enroll at any time.

Students interested in taking a course through UW IL should meet with an academic advisor. If the advisor and student agree this is a good option, the student should follow these steps to request permission for concurrent enrollment and request a tuition waiver (if applicable). Forms should be submitted to successandpolicy@wsb.wisc.edu.

- Fill out a **Petition/Special Consideration Request** requesting permission for concurrent enrollment with UW Independent Learning. Be sure to include which class you intend to take.
- Students with full-time status at UW–Madison may request a **tuition waiver** for UW Extension Independent Learning Courses provided that the following conditions are met:

- The student requests the waiver prior to enrolling in the course. Waivers will be reviewed starting 2 weeks before the first day of classes for the semester.
- The student enrolls in the course by the UW-Madison add deadline (the second Friday of the semester).
- The course is taken during the regular academic session.
- The course is completed during the term for which the tuition waiver is requested.
- The student does not exceed 18 credits total between the two campuses.
- The student will not be studying abroad for the entire term for which the tuition waiver is requested.

Students are responsible for the administrative fee for enrolling in a UW-IL course.

The minimum length of time to complete a UW-IL course is typically three months. Students should take this into consideration as they are planning the completion of their degree.

Transfer Credits

UW–Madison students may choose to take courses off campus during the summer or winter session and potentially transfer credit to UW–Madison. The UW–Madison Office of the Registrar handles transfer course equivalencies. Please note that UW–Madison School of Business students may not take courses at another institution during the fall or spring semester if they are concurrently taking courses at UW–Madison (see **concurrent enrollment policy**). Students may take no more than one course off-campus during winter recess. Students interested in earning transfer credit for a **non–UW study abroad program** must work with UW–Madison's International Academic Programs well in advance.

It is highly recommended that students do not take a course unless they know in advance that it will transfer to UW–Madison for credit. The Office of the Registrar provides information regarding how to determine course equivalencies (https://registrar.wisc.edu/transfer-your-credit-to-uw-madison/).

Transfer Credit Process

- Review your DARS report and consult your academic advisor to see what you still need to take and whether the course(s) would be a good option to take at another institution over the summer or winter session. It is not advised to take your business major courses off campus.
- Research course options at the institution where you plan on taking the course(s).
- Determine equivalency using Office of the Registrar resources (https://registrar.wisc.edu/course-equivalency-service/), beginning with Transferology (https://www.transferology.com/state/wisconsin.htm).
- Apply as a “special” or “guest” student at the institution you plan on attending.
- Enroll in the course and pay tuition directly to the institution you are attending.
- After the course is complete, have the institution send an official transcript to the UW–Madison Office of Admissions and Recruitment at 702 West Johnson Street, Suite 1101, Madison, WI 53715-1007 or etranscripts@admissions.wisc.edu.

APPEAL

Academic Policy or Requirement Appeal

If an undergraduate business student wishes to request an exception to a School of Business academic policy or regulation, or a degree or major requirement, they should start by consulting with their academic advisor. They then will need to formally submit their request using the Petition for Special Consideration (https://business.wisc.edu/undergraduate/academic-advising/) form. Exception requests could include dropping a course or withdrawing after the deadline, enrolling in a credit overload, concurrent enrollment, or meeting a requirement with a substitution. Students pursuing one of the business certificate options should utilize the Petition for course or requirement exceptions related to their certificate.

Exceptions to established policies, regulations, and/or program requirements should be rare and will be considered on an individual case-by-case basis. They will be reviewed by the School of Business Undergraduate Program. School of Business Department Chairs will be consulted on major requirement exceptions. Substantial consultation time with faculty, staff, and/or deans may be required, so students should not expect to receive an immediate response.

Grade Appeal

If a student is dissatisfied with a grade received in a School of Business course, the below procedure must be followed should the student wish to appeal the grade. This process should be initiated as soon as possible and no later than one year from when the grade was awarded.

The student will first discuss the grade appeal with the instructor of the course.

If the student and instructor cannot come to an agreement, the student will provide a formal written request for grade appeal to the associate dean in charge of the relevant program. The written request must include the class, instructor, grade received, date and conclusion of the meeting with the instructor, and the specific reason(s) for appealing the grade.

The associate dean will forward the appeal request to the chair of the department that houses the course in question. The department chair will perform the due diligence necessary (including, but limited to, meeting with the instructor and student) to assess the merits of the appeal request and will provide a decision in writing to the associate dean.

The associate dean will communicate the decision to both the student and the instructor.

Should the student wish to appeal the decision further, the associate dean will perform the due diligence necessary (including, but limited to, meeting with the chair, instructor, and student) to assess the merits of the appeal request. The associate dean has the discretion to review not only the process that was undertaken in the first review but also the earlier decision. The associate dean will provide a decision in writing to the chair, instructor, and student. The instructor will take action if needed.

Please note that The Office of Compliance is responsible for investigating allegations of discrimination. If a student is appealing a grade due to alleged discrimination, they should be in contact with the Office of Compliance (https://compliance.wisc.edu/).

ONLINE DEGREE PROGRAM

School of Business students are responsible for being familiar with the policies that affect them. School of Business policy is subject to change, so be sure to review this website for the most up-to-date information. Questions related to policy interpretation can be directed to your academic advisor for clarification. The following policies apply to students pursuing one of the School of Business online degree programs.

COURSES/ENROLLMENT

Program Requirements

When students enter a School of Business online degree program, they are held to the degree requirements described in the most recent Guide. The term of admittance to the online program determines the student's catalog and alternate catalog year, which align with the current BBA requirements for the online program.

10 Semester Rule for Reentry Students

Students re-entering after an absence of 10 or more semesters:

A business student reentering UW–Madison is responsible for completing all the current School of Business degree requirements that are in effect at the time of reentry to UW–Madison and the School of Business. Students who left the institution as a business student do not need to reapply for admission to the School of Business when they return.

Modality

The modality for School of Business online degree program courses is online only. Students in an online program who are enrolled in a class section that is not "Online Only" will be dropped from that class section.

A change of program that requires a change of modality of instruction is not permitted. Should there be compelling extenuating circumstances that justify a change in learning modality option for an individual student, the student may request of change of modality via the Petition for Special Consideration (https://business.wisc.edu/undergraduate/academic-advising/).

Graduation

The School of Business will graduate a student at the end of the semester (spring, summer, or fall) in which all university, BBA degree, and business major requirements are complete with a cumulative GPA of 2.00 or higher.

Students cannot graduate with a temporary grade (https://registrar.wisc.edu/valid-grades/), such as I or NR, for any requirements. Speak with the course instructor or your advisor to resolve temporary grades. The date when the outstanding Incompletes (I) are resolved will determine the semester of graduation.

If a student is completing their final coursework while not in residence, the student must notify the School of Business Undergraduate Program when the official transcript has been evaluated by UW–Madison and appears on their record. This allows their DARS to be certified for graduation.

It is the student's responsibility to ensure that graduation requirements have been met. All students should regularly consult their DARS (Degree Audit Reporting System) document in conjunction with their advisor to ensure that all graduation requirements have been met.

Student Responsibility for Enrollment

Each student is responsible for enrolling in classes and verifying their registration. Students are advised to create schedules that ensure satisfactory progress toward degree requirements.

The Office of the Registrar publishes university deadlines for adding and dropping individual courses, withdrawing (from all courses), and course options such as pass/fail and audit. Please pay special attention to session deadlines (https://registrar.wisc.edu/sessioncodes/). Changing enrollment can have consequences for academic standing, tuition, progress toward degree, etc. Students are strongly encouraged to consult with an academic advisor prior to initial enrollment and before making any changes to enrollment.

No Credit Courses

The School of Business does not award credit for the following:

- Failed courses (grade of "F")
- Repeated courses (except where a repeat is allowed)
- Courses for which a student may not receive credit because of a previously completed course (as indicated in the Course Search & Enroll App)

Before enrolling in and taking any of the above courses, please consult your academic advisor.

Part-time Enrollment

To maintain full-time standing, students must be enrolled in 12–18 credits.

Undergraduate students who are considering dropping below full time (less than 12 credits) are responsible for knowing how part-time status will affect them. Below are some of the more common scenarios to explore before dropping credits:

Scholarships, Grants, and Other Awards:
Depending on the conditions of the scholarship, a student may be required to be full time in order to remain eligible for an award. Be sure to check the stipulations for any awards you have received.

Financial Aid:
Be sure to check with the Office of Student Financial Aid to find out if being part time will affect your financial aid package.

Tuition Refunds:
Depending on when the credits are dropped, you may be eligible for a tuition refund. Check the registrar's website for information about refund deadlines.

Athletes :
Varsity athletes are governed by Big Ten and NCAA rules that do not allow them to drop below full time. Be sure to check with your coach and athletic advisor before dropping below 12 credits.

Degree Completion:
Taking fewer credits or courses than anticipated may delay your graduation. Be certain that if you drop a course, you will still be able to complete all required courses within your desired timeline. If you are not sure, please see your academic advisor.

Pass/Fail

Undergraduate business students who are in good academic standing (i.e., not on probation) may take only one (1) course as pass/fail per semester including the summer session. A maximum of 16 total credits may be completed as pass/fail to count toward completion of the 120 degree credits required for the BBA.

The pass/fail privilege is for a non-business elective course. The following courses cannot be taken pass/fail:

- Any business course including business courses taken during study abroad programs
- Any course required for the business major or degree, including all pre-business and liberal studies requirements as well as business courses that are designated as "meets with" or "cross-listed"

It is the responsibility of the student to check requirements and policies for non-business majors and certificates prior to requesting the pass/fail privilege.

The pass/fail grade will not be included when computing your GPA, but the pass/fail credits with S (Satisfactory) grades will apply toward graduation. S is the grade for A to C; U (Unsatisfactory) is the grade for D and F.

Students must complete a minimum of 12 graded credits each semester in order to be eligible for the dean's list. Courses taken for pass/fail or credit/no credit do not count towards the minimum of 12 graded credits.

In order to apply for the pass/fail privilege, students must submit an online request (https://kb.wisc.edu/7700/) via Student Center. Please disregard the message that says "Reminder - print this form and obtain appropriate signatures." You do not need to do this.

Your request is then sent directly to the School of Business Undergraduate Program Office. You will be notified by email whether or not your request has been approved.

Please complete the online pass/fail form by the deadline. See the Office of the Registrar's website for deadline information (https://registrar.wisc.edu/dates/).

Once the student has submitted the form, the course may not be changed from pass/fail back to a conventionally graded course after the established deadline. Once a pass/fail grade is recorded as S or U, it cannot be changed to a letter grade.

Auditing a Course

Auditing an online degree program course is not permitted.

Repeating a Course

Students thinking about repeating a course should talk with their advisor. Students must do all the work in the repeated course, including laboratory, attend regularly, participate in class discussions, and take examinations. Students will earn a final grade in the course. The transcript denotes repeated courses with a lowercase 'x' appearing immediately before the course description. Students should know that:

- the original grade still counts in GPA and remains on the transcript;
- credits in the repeated course do not count toward the degree unless the course was failed the first time;
- grade points in the repeated course count toward the calculation of cumulative GPA;
- credits carried on courses being repeated count toward the maximum credits permitted in a semester.

Transfer students must be particularly careful to avoid taking courses on the UW–Madison campus that duplicate courses taken at another school. Credit will not be given twice for the same or similar courses, nor will credit be given for a lower-level course in a sequence if students have already received credit for a higher-level course in that sequence. Students should carefully check the Evaluation of Transfer Credits prepared by Credit Evaluation Services and should consult with their advisor. Duplicate courses may include transfer credits and credit by exam, such as Advanced Placement, coming in as course equivalents.

Residency for Degree

Students admitted to the School of Business Undergraduate Program, including students who transfer from another college or university, must complete a minimum of 30 credits in residence.

Withdrawal

Withdrawal indicates that a student intends to stop attending all classes for the current term. If a student wishes to drop all of their classes for a particular term after the first day of classes, a student needs to formally withdraw from the semester by submitting the online withdrawal request (https://kb.wisc.edu/registrar/25601/) in the MyUW Student Center. Failure to do so may result in a recording of Failure for all courses and a probationary action. Any student may withdraw with permission and without grades being recorded at any time up to the withdrawal deadline. Students should refer to the enrollment dates and deadlines (https://registrar.wisc.edu/dates/) provided by the Office of the Registrar if they wish to withdraw. The Office of the Registrar provides additional information regarding withdrawal (https://registrar.wisc.edu/withdraw/), including impacts of withdrawal.

Medical Withdrawal: Students who wish to withdraw as a result of a serious or unexpected physical or mental health condition, a serious or unexpected physical or mental health condition of an immediate family member who requires the student's care, or the death of an immediate family member that completely precludes the student from actively participating as a student can request a partial tuition refund according to the Medical Withdrawal process (https://registrar.wisc.edu/medical-withdrawal/). For further information on medical withdrawals, students should refer to the Medical Withdrawal (https://policy.wisc.edu/library/UW-1084/) policy.
A staff member from the Academic Dean's Office will be in contact with you following the request for a medical withdrawal via Student Center. Medical withdrawals are approved on a case-by-case basis, and medical documentation will be required.

Credit Overload

To obtain special permission for a credit overload, students need to submit a petition for special consideration (https://business.wisc.edu/undergraduate/academic-advising/) and demonstrate that special circumstances are involved.

Students who wish to take more than 18 credits during the fall or spring semester must have earned a minimum of 3.000 cumulative GPA on the UW–Madison campus. Students will not be permitted to carry more than 20 total credits during the fall or spring semester. Online degree students must request a credit overload if they wish to enroll in more than 9 credits during an 8 week session.

Students can take a maximum of 12 credits during the summer session. Please note that there are credit limits by session as well. Students may enroll for one credit per week of instruction (e.g.: a student can earn three credits during a three-week session but needs approval to earn four credits in a three-week session). Students who are seeking a credit overload for the summer session must have earned a minimum of 3.000 cumulative GPA on the UW–Madison campus. Students will not be permitted to carry more than 13 total credits, with approval, during the summer session.

Credit overloads will incur additional tuition costs. Visit Tuition & Fees (https://bursar.wisc.edu/tuition-and-fees/) for more information.

GRADES

Academic Probation

Students admitted to the School of Business must maintain all of the following GPA minimums:

- 2.00 cumulative GPA on all UW–Madison coursework
- 2.00 semester GPA for each semester (including summer term)

Students who do not meet these GPA minimums will be assigned an academic action (see below for list of actions) based on:

1. The student's most recent academic action from a prior term
2. The student's cumulative GPA (including the current term)
3. The student's term GPA for the semester just completed

A student will be cleared of probationary status at the end of the semester when all of the above conditions are met.

Probationary actions

Students will be notified via email of the requirements they must complete as part of their probationary status.

Probation: A student who has a prior academic action of *Good Academic Standing* or who has no prior academic action and who achieves a cumulative or term GPA between 1.000 and 1.999 will be placed on probation.
Continued Probation: A student on Probation whose cumulative GPA remains below 2.000 and whose term GPA for the term just completed is 2.000 or above will be placed on continued probation.
Strict Probation: A student can be placed on *Strict Probation* when they either:

1. Have a prior academic action of *Good Academic Standing* and achieve a term GPA of less than 1.000 in the semester just completed.
2. Have a prior academic action of *Probation* and achieve a term GPA of less than a 2.000 in the semester just completed

Continued Strict Probation: A student on *Strict Probation* whose cumulative GPA remains less than a 2.000 but whose term GPA for the term just completed is 2.000 or above will be placed on *Continued Strict Probation*.
Dropped for one semester (Academic Suspension): A student on *Strict Probation* or *Continued Strict Probation* who earns a term GPA for the term just completed less than 2.000.

Students have the opportunity to appeal the "dropped for one term" status by participating in an appeals process. The School of Business' Academic Dean's Office will notify students by email of the appeals process and timeline.

Students who were dropped for one term may reapply on probationary status (after a one-semester hiatus) if they can demonstrate the ability and desire to devote sufficient energy to scholastic work.
To reapply, students may complete a reentry application (https://admissions.wisc.edu/apply-as-a-reentry-student/) through the Office of Admissions and Recruitment.

GPA deficiencies causing probationary status cannot be removed through coursework at another university or through correspondence study.

Dean's List

Business students who achieve a grade point average of 3.75 for any semester in which they complete 12 graded degree credits will have their names on the dean's list. A permanent record of this achievement is entered on the student's transcript. Please note that courses taken for pass/fail or credit/no credit do not count toward the minimum of 12 graded credits. Students with I, P, or U on their grade report will automatically be ineligible for the dean's list. Subsequent academic action may change eligibility.

Grading Policy

School of Business faculty and instructors are required by policy to have clear grading guidelines in their syllabus.

Graduating with Distinction

The Office of the Registrar compiles a preliminary list of business students eligible for distinction. The School of Business Undergraduate Program will notify eligible students via email 2-3 weeks before the commencement ceremony.

Distinction is awarded to graduated business students who meet the following criteria:

- At least sixty (60) credits earned (in residence) at UW–Madison
- A cumulative UW–Madison GPA in the top twenty percent (20%) of the graduating business class

Please note that students on the preliminary list for distinction may or may not receive distinction. The distinction designation is subject to change and is dependent upon the official graduation date (semester), the number of students graduating, and final grade calculations, including last semester and in-progress courses.

Students with distinctive scholastic achievement are eligible to wear a cardinal stole with their commencement attire. The stoles can be obtained from the University Bookstore with a deposit and do not need to be ordered in advance.

"Graduated with Distinction" is notated on official transcripts only.

Incomplete Policy

A grade of Incomplete may be assigned to a student who, because of illness or another unusual and substantiated cause beyond their control, is unable to complete the coursework.

To be eligible for an Incomplete grade, the student must:

- be earning a passing grade to-date in the course,
- and have a limited amount of work to complete by the end of the term.

For a short summary of the policy, see the Enrollment and Records - Incompletes section (p. 30) of Guide.

A request for an incomplete must be initiated before the end of the term, and the instructor and the student must agree on the coursework to be completed and establish a plan for the work to be submitted and graded before or by the deadline noted below. An incomplete is not given to a student who does not attend from a final examination unless the student proves to the instructor that they were prevented from attending.

If an undergraduate business student earns an incomplete in a spring or summer term, the work for that course must be completed and a grade change submitted by the Friday of the eighth week of the following fall term. If an undergraduate business student earns an incomplete in a fall

term, the work for that course must be completed and a grade change submitted by the Friday of the eighth week of the following spring term.

Probationary status will be applied, when applicable, to business students with an incomplete. The academic action will be based on their GPA without the course that has an incomplete. This is a temporary action that could change once the incomplete is resolved. Please see the "Academic Probation" section for further information on the policy and GPA minimums.

If a student is graduating and has an incomplete in the term they wish to graduate, they will need to complete the work before their degree can be awarded. Finishing up work for an incomplete after the term/semester means that a student will be awarded their degree at the next official graduation date.

MAJOR DECLARATION

School of Business online degree program students can update their business major plan by declaring or canceling any of the online business majors offered through the major declaration form (https://business.wisc.edu/undergraduate/academic-advising/).

School of Business online degree program students cannot pursue business majors or certificates offered within the residential program or declare additional majors or certificates outside of the School of Business.

COURSES AT OTHER INSTITUTIONS

Common Guidance for Off-Campus Coursework

School of Business undergraduate students are advised to take no more than two courses in their major (or per major if pursuing multiple majors) off-campus. This guidance includes courses taken for transfer credit at another institution of higher learning as well as courses taken on a School of Business or UW–Madison-sponsored study abroad program.

While School of Business undergraduate students are able to take courses off-campus, the School of Business Undergraduate Program reminds students that they should plan to complete all prerequisites for any off-campus course, regardless of its place in the BBA curriculum, prior to taking the course off campus. Attention to these prerequisites is crucial to ensuring School of Business undergraduate students are prepared for their coursework whether it is taken on or off campus. Advance academic planning is an integral part of a student's success and ability to remain on track to graduate.

Concurrent Enrollment

Students are strongly encouraged to share with their advisor if they plan to enroll in coursework at another institution at any time once they are a UW–Madison student. Advisors assist students in making decisions regarding enrollment in coursework at a different institution and share resources with students to ensure that courses will transfer to UW–Madison for degree credit and satisfy the requirement(s) they expect. School of Business online degree program students are permitted to enroll concurrently in courses at other institutions while pursuing coursework as a UW-Madison student.

Independent Learning

UW Independent Learning (UW IL) is a branch of UW Extension that offers online and distance learning courses. The minimum length of time to complete a UW-IL course is typically three months. Students should take this into consideration as they are planning the completion of their degree.

Please note that students in the online undergraduate business program do not qualify for a tuition waiver for UW Independent Learning courses.

Transfer Credits

UW–Madison students may choose to take courses off campus during any term and potentially transfer credit to UW–Madison. The UW–Madison Office of the Registrar handles transfer course equivalencies. Students may take no more than one course off-campus during winter recess. Students interested in earning transfer credit for a non–UW study abroad program (https://studyabroad.wisc.edu/nonapproved/) must work with UW–Madison's International Academic Programs well in advance.

It is highly recommended that students do not take a course unless they know in advance that it will transfer to UW–Madison for credit. The Office of the Registrar provides information regarding how to determine course equivalencies (https://registrar.wisc.edu/transfer-your-credit-to-uw-madison/).

Transfer Credit Process

- Review your DARS report and consult your academic advisor to see what you still need to take and whether the course(s) would be a good option to take at another institution over the summer or winter session. It is not advised to take your business major courses off campus.
- Research course options at the institution where you plan on taking the course(s).
- Determine equivalency using Office of the Registrar course equivalency resources (https://registrar.wisc.edu/course-equivalency-service/), beginning with Transferology (https://www.transferology.com/state/wisconsin.htm).
- Apply as a "special" or "guest" student at the institution you plan on attending.
- Enroll in the course and pay tuition directly to the institution you are attending.
- After the course is complete, have the institution send an official transcript to the UW–Madison Office of Admissions and Recruitment at 702 West Johnson Street, Suite 1101, Madison, WI 53715-1007 or etranscripts@admissions.wisc.edu.

APPEAL

Academic Policy or Requirement Appeal

If an undergraduate business student wishes to request an exception to a School of Business academic policy or regulation, or a degree or major requirement, they should start by consulting with their academic advisor. They then will need to formally submit their request using the Petition for Special Consideration (https://buswisc.qualtrics.com/jfe/form/SV_3a4CkoBg7BQhXRr/?_ga=2.2520624.1034170563.1614009576-1842162041.1564425520) form. Exception requests could include dropping a course or withdrawing after the deadline, enrolling in a credit overload, or meeting a requirement with a substitution.

Exceptions to established policies, regulations, and/or program requirements should be rare and will be considered on an individual case-by-case basis. They will be reviewed by the School of Business Undergraduate Program. School of Business Department Chairs will be consulted on major requirement exceptions. Substantial consultation time with faculty, staff, and/or deans may be required, so students should not expect to receive an immediate response.

Grade Appeal

If a student is dissatisfied with a grade received in a School of Business course, the below procedure must be followed should the student wish to

appeal the grade. This process should be initiated as soon as possible and no later than one year from when the grade was awarded.

The student will first discuss the grade appeal with the instructor of the course. If the student and instructor cannot come to an agreement, the student will provide a formal written request for grade appeal to the associate dean in charge of the relevant program. The written request must include the class, instructor, grade received, date and conclusion of the meeting with the instructor, and the specific reason(s) for appealing the grade.

The associate dean will forward the appeal request to the chair of the department that houses the course in question. The department chair will perform the due diligence necessary (including, but limited to, meeting with the instructor and student) to assess the merits of the appeal request and will provide a decision in writing to the associate dean.

The associate dean will communicate the decision to both the student and the instructor.

Should the student wish to appeal the decision further, the associate dean will perform the due diligence necessary (including, but limited to, meeting with the chair, instructor, and student) to assess the merits of the appeal request. The associate dean has the discretion to review not only the process that was undertaken in the first review but also the earlier decision. The associate dean will provide a decision in writing to the chair, instructor, and student. The instructor will take action if needed.

Please note that the Office of Compliance is responsible for investigating allegations of discrimination. If a student is appealing a grade due to alleged discrimination, they should be in contact with the Office of Compliance (https://compliance.wisc.edu/).

REQUIREMENTS

REQUIREMENTS

SCHOOL OF BUSINESS BBA REQUIREMENTS

The Wisconsin Bachelor of Business Administration (BBA) program combines UW–Madison's core general education requirements, broad coverage of core business disciplines, and cutting-edge experiential learning and signature courses to create a strong academic foundation upon which students delve deeply into their majors.

BUSINESS LIBERAL STUDIES

Liberal studies requirements must be completed prior to graduation. **A single course cannot be used to fulfill multiple liberal studies requirements.**

Communication A	Complete either: • one course with the Communication A designation, or • satisfaction of Communication A based on UW Placement Test.
Microeconomics	Complete one: • ECON 101 • ECON 111 • A A E 101
Macroeconomics	Complete either: • ECON 102 • ECON 111
Social Science	One 3+ credit course with the Social Science designation. Courses in or cross-listed with the following subjects do not satisfy this requirement: ACCT I S, ACT SCI, FINANCE, GEN BUS, INFO SYS, INTL BUS, M H R, MARKETNG, OTM, R M I, REAL EST.
Calculus	Complete either: • MATH 211 • MATH 221
Literature	One 3+ credit course with the Literature designation.
Science	6 credits with the Biological, Natural, or Physical Science designations. Courses in or cross-listed with MATH or STAT cannot be used to meet this requirement.
Ethnic Studies	One 3+ credit course with the Ethnic Studies designation.
Humanities	One 3+ credit course with the Humanities designation.
Ethics	Complete one: • PHILOS 241 • PHILOS 243 • PHILOS 244 • PHILOS 341 • PHILOS/ENVIR ST 441 • L I S 461

BUSINESS FUNDAMENTALS

GEN BUS/ DS 240	Human-centered Design and Business	
GEN BUS 250	Sustainable Capitalism	
GEN BUS 265	The Business of Health Care	
GEN BUS 308	Cloud Analytics and Artificial Intelligence Tools for Business	
Total Credits		**5**

BUSINESS GRADUATION REQUIREMENTS

Cumulative Credits	Students must earn 120 degree credits.
Quality of Work	Students must maintain a minimum cumulative grade point average of 2.000.
Residency	Students must complete 30 degree credits in residence at UW–Madison.

SCHOOL OF BUSINESS ONLINE UNDERGRADUATE DEGREE REQUIREMENTS

Students enrolled in a School of Business Online BBA in Business Administration program should follow the degree requirements outlined on their specific program page.
The School of Business offers the following online undergraduate degree programs.

- Business Administration: Human Resources (p. 1585)
- Business Administration: Management (p. 1587)
- Business Administration: Marketing (p. 1620)

RESOURCES

RESOURCES

ACADEMIC ADVISING

As a student in the Wisconsin Business Undergraduate Program, you will work directly with academic advisors who will help you plan your business education every step of the way. The advisors are here to help you explore options, define goals, and accomplish what you set out to achieve during your time as a Business Badger and beyond. Academic advisors also support students in making choices about course enrollment and understanding and interpreting degree requirements and policies.

Advisors in the Wisconsin Business Undergraduate Program work in partnership with you. They give you the tools and support you need to make your own decisions about the course of your education. Your partnership with the advising team begins early in your academic career at the University of Wisconsin–Madison. When you enroll in the UW–Madison, one of your first steps will be to attend Student Orientation, Advising, and Registration (SOAR), where you will have your first meeting with an academic advisor.

Admitted students are welcomed and encouraged to check in with their academic advisor each term. Academic Advising also offers drop-in advising hours daily during the academic year. UW–Madison students who are not yet enrolled in the Wisconsin Business Undergraduate Program but who expect to apply through the pre-business admissions process (https://business.wisc.edu/undergraduate/admissions/current-uw-students/) receive their business advising at the School of Business with pre-business academic advisors.

In addition to providing advising, the School of Business Undergraduate Program serves as the academic dean's office: interpreting policy, administering academic processes, and performing graduation checks for graduating business students. For more information, visit the advising website (https://business.wisc.edu/undergraduate/academic-advising/) or contact Undergraduate Academic Advising in 3150 Grainger Hall; 608-262-0471; wibbaadvising@wsb.wisc.edu (wibbaadvising@bus.wisc.edu).

CAREER DEVELOPMENT

The WSB Career Engagement Team takes a relationship-based approach to working with students throughout the career development process and consults with top employers to facilitate the recruitment, hiring and career readiness of our students. Our Career Forward program offers a variety of services and experiences to admitted undergraduate business, certificate

in business, consulting certificate, and master of accountancy students including 1:1 coaching, career/major pathways exploration and planning, career workshops, interview preparation, career fairs, career treks, case competitions, employer recruiting events, on-campus interviewing, experiential learning opportunities, job shadowing, industry connections, and networking events. We will also coach you through the development of a professional resume, cover letter, networking and interviewing skills and job search, offer and negotiation skills. Through the exploration of your values, strengths, skills and interests, we will help you create a career roadmap and action plan early on in your collegiate experience so that you can participate in experiences both on and off campus to build your skills and readiness for the workplace or graduate study. Career planning is an ongoing process, and we are committed to helping you determine and achieve your immediate career goals and support you in developing the skills to manage a successful career throughout your lifetime.

For more information about Career Engagement resources for students and faculty/staff, please see this page (https://business.wisc.edu/undergraduate/careers/).

LEADERSHIP & ENGAGEMENT

Our Leadership & Engagement office supports over 70 student organizations that are integrated into our leadership framework and corporate partners. Our students develop a leadership style that is grounded in entrepreneurial, inclusive, and tenacious mindsets. Nearly all of our students participate in at least one internship and 40% of our students study abroad. These experiences help students develop intercultural competence that prepares them to be trusted global business leaders. Our network of School of Business Alumni is 40,000 strong—and growing—and fiercely loyal to our students. As students build their Business Badger Experience they are challenged and supported by a team of outstanding faculty and staff.

The Accenture Leadership Center

The Accenture Leadership Center (https://business.wisc.edu/undergraduate/leadership/) (ALC) was one of the first in-house leadership centers at a U.S. business school. Today, it continues to be student-driven and alumni-supported. The center offers a variety of activities, workshops, service opportunities, and leadership training events. WSB undergraduate students graduate with the confidence, self-awareness, and professional skills to lead and inspire others.

School of Business Clubs

There are more than 70 student-run clubs associated with the School of Business. These clubs enable students to connect with peers interested in similar majors or career fields. A business student organization fair is held at the start of each semester where potential new members can meet with representatives of organizations. Our Assistant Director of Leadership & Engagement, along with Student Leadership Program Interns, provide additional support and trainings for business student organization leaders. This support includes financial assistance for any student organization event or trips related to career development.

Personal and Professional Foundations in Business (GEN BUS 110)

Every student admitted to the School of Business takes GEN BUS 110 Personal and Professional Foundations in Business. This 1-credit course helps students explore their leadership style, who they are as individuals, and how they function in team-orientated tasks. The course also provides career foundations such as resume building and introduction of networking at career fairs.

Business Badger Leadership Programs

We provide structured opportunities to help students build their leadership journey, focusing on becoming entrepreneurial, inclusive, and tenacious. All Business Badgers can participate in our series of interactive, skill-building sessions, a variety of experiential learning opportunities and leadership coaching sessions.

Our signature leadership experience, Leadership at Lambeau, is a three-day immersive retreat that takes place at Lambeau Field, home of the Green Bay Packers, where students participate in small- and large-group discussions and activities with business professionals, including members of the Packers organization.

Beyond our structured programs, there are many additional opportunities for students to learn, practice, and develop leadership skills that will benefit them across all business industries. The Leadership & Engagement Team provides helpful guidance so students can chart their own leadership journey.

GLOBAL PROGRAMS

The WSB Global Programs team works to advise students in all phases of study abroad including program selection and preparation, while abroad, and upon return. A study abroad experience (https://business.wisc.edu/undergraduate/ study-abroad/) can complement and enhance every aspect of your business education. This is made possible by partnering with top business schools and study abroad programs across the globe to offer more than 35 business focused study abroad opportunities for students. Over 40 percent of each Wisconsin BBA graduating class studies abroad. These students regularly speak of their experience as professionally rewarding and personally transformative. A study abroad experience can be a great way to demonstrate enhanced autonomy, motivation, organization, worldview, and resilience. You, too, can return from study abroad with a developed set of skills (that employers value!), a new sense of self, and a greater appreciation of cultural differences.

Expanding access to study abroad opportunities is a priority of our team and we work to develop programs in new locations and of different lengths (ranging from one week to an academic year) as well as create scholarships for study abroad.

The School of Business works in close collaboration with the campus-wide study abroad office, International Academic Programs (IAP), to administer study abroad programs geared specifically for undergraduate business students. All approved UW–Madison programs share policies, procedures, and best practices. The UW–Madison Study Abroad website (https://studyabroad.wisc.edu/) highlights the portfolio of business specific programs (https://studyabroad.wisc.edu/programsearch/?advisinglocation=102) as well as other programs that may have a focus outside of, or in addition to, business (e.g. liberal studies, language learning, engineering, or life sciences).

ACCOUNTING AND INFORMATION SYSTEMS

The accounting major allows students to develop strong technical and professional skills to succeed in a dynamic profession. Learn how emerging technologies are changing the landscape of business and gain an appreciation for the global and diverse nature of a career path in accounting. The curriculum covers financial, managerial and cost accounting, accounting systems and emerging technologies, taxation, audit and advisory services. Students will learn to evaluate the economic

transactions on which businesses are built and organize and report the impact of those transactions.

DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/CERTIFICATES

- Accounting Fundamentals, Certificate (p. 1551)
- Accounting, Certificate (p. 1552)
- Business: Accounting, BBA (p. 1553)

ACCOUNTING FUNDAMENTALS, CERTIFICATE

The undergraduate certificate in accounting fundamentals provides non-business students the opportunity to gain accounting knowledge and skills that are fundamental for many careers, but especially for wealth management, financial planning, corporate finance, and other finance-related careers. This certificate allows for a lot of flexibility so that students can customize their coursework to best align with their career interests.

Students who complete the certificate would be prime candidates to continue their study in the MS in Financial Management and Accounting (MS FMA) graduate program, which would expand potential career opportunities. For more information on the MS FMA program, please see the website at https://business.wisc.edu/graduate/masters/financial-management-accounting/ or contact the program director, Brett Killion (bmkillion@wisc.edu).

HOW TO GET IN

HOW TO GET IN

The Accounting Fundamentals Certificate is open to undergraduate students declared in a major outside of the School of Business. Students declared in a major in the School of Business are not eligible for the certificate and should consider the Accounting Certificate. (https://guide.wisc.edu/undergraduate/business/accounting-information-systems/accounting-certificate/)

To declare the Accounting Fundamentals Certificate, complete the declaration form linked within the Contact Information box.

REQUIREMENTS

To be eligible to declare students must meet the following requirements:

- Good academic standing
- Currently enrolled UW–Madison student
- Undergraduate, degree-seeking student (non-business)
- Must be declared in a major at UW Madison

REQUIREMENTS

REQUIREMENTS

The Accounting Fundamentals Certificate consists of 12 credits. Students are also responsible for any pre-requisite courses needed for core or elective courses.

Code	Title	Credits
ACCT I S 100	Introductory Financial Accounting	3
or ACCT I S 300	Accounting Principles	
ACCT I S 211	Introductory Managerial Accounting	3
ACCT I S 301	Financial Reporting I	3
FINANCE/ ECON 300	Introduction to Finance	3
Total Credits		**12**

Residence and Quality of Work Requirements

- Students must take all 12 required credits in residence at UW–Madison. Study abroad courses taken through a UW–Madison-sponsored program will count toward the 12 credits in residence.
- To successfully complete the Accounting Fundamentals Certificate program, students must earn a cumulative grade point average (GPA) of 2.00 or higher across all courses applied to the certificate.
- While students must pass each required course, there is no minimum GPA requirement for individual courses. The cumulative GPA is calculated based on all courses that count toward the certificate.

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Articulate Generally Accepted Accounting Principles (GAAP) (and relevant assumptions, principles, and constraints) utilized to prepare financial statements.
2. Describe management accounting and control systems and their role in the implementation of an organizational strategy.
3. Describe conceptual and quantitative tools that are the foundation of corporate finance.

ADVISING AND CAREERS

ADVISING AND CAREERS

ACADEMIC ADVISING

Certificate students will be assigned to the Business Certificate Advising Committee.

Drop-in advising and scheduled appointments are available to students who are declared in the certificate. Students can schedule their appointments via Starfish.

For more information on accessing academic advising, please see the Academic Advising (https://business.wisc.edu/undergraduate/academic-advising/) page.

Please note enrollment in required courses is subject to availability. As a result, completion of the certificate within an individual student's intended graduation timeline cannot always be guaranteed.

ACCOUNTING, CERTIFICATE

The undergraduate certificate in accounting provides students the opportunity to develop additional expertise in accounting without having to pursue a double major. This certificate is available to all undergraduate students enrolled in the School of Business, with the exception of those students majoring in accounting. This certificate allows for a lot of flexibility so that students can customize their coursework to best complement their current business major. Students who complete this certificate would be good candidates to consider a graduate program in accounting, which could expand potential career opportunities.

HOW TO GET IN

HOW TO GET IN

The Accounting Certificate is open to BBA undergraduate students. Students must be admitted to the School of Business. To find out more about the school's admissions process for undergraduate students, please see Entering the School (https://guide.wisc.edu/undergraduate/business/#enteringtheschooltext). Students may not earn this certificate in conjunction with a BBA in Accounting.

To declare the Accounting Certificate, complete the declaration form linked within the Contact Information box.

REQUIREMENTS

To be eligible to declare students must meet the following requirements:

- Good academic standing
- Currently enrolled UW–Madison student
- Undergraduate, degree-seeking student in the School of Business
- Not pursuing a BBA in Accounting

REQUIREMENTS

REQUIREMENTS

The Accounting Certificate consists of 12 credits (two core courses and an additional 6 credits of elective coursework). Students are also responsible for any pre-requisite courses needed for core or elective courses.

Code	Title	Credits
ACCT I S 301	Financial Reporting I	3
ACCT I S 302	Financial Reporting II	3
ACCT I S Electives: Any courses numbered ACCT I S 303 through ACCT I S 699, except ACCT I S 329 and ACCT I S 401.		6
Total Credits		**12**

RESIDENCY AND QUALITY OF WORK

- Students must take at least 6 of the 12 required credits in residence at UW–Madison. Study abroad courses taken through a UW–Madison-sponsored programs will count toward the number of credits in residence.
- To successfully complete the Accounting Certificate program, students must earn a cumulative grade point average (GPA) of 2.50 or higher across all courses applied to the certificate.
- While students must pass each required course, there is no minimum GPA requirement for individual courses. The cumulative GPA is calculated based on all courses that count toward the certificate.

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Understand the proper presentation, measurement, and reporting financial statement elements and transactions, and the use of financial statement information for analysis purposes.
2. Understand that financial and nonfinancial information serves numerous purposes in an organization, especially in relation to facilitating and influencing decisions.
3. Document, evaluate, and recommend improvements to basic accounting information systems used to control processes and communicate information to be used in financial reporting.
4. Understand the objective of taxes applicable at the federal level, and apply a framework for integrating income tax planning into accounting and business transactions as a foundation for structuring tax efficient business transactions.
5. Gain technical knowledge about how to perform a high-quality audit, and gain familiarity with how independence, objectivity, professional skepticism, and ethical behavior contribute to a high-quality.

ADVISING AND CAREERS

ADVISING AND CAREERS

ACADEMIC ADVISING

Current BBA students who have declared the certificate can receive academic advising from their primary academic advisor.

Drop-in advising and scheduled appointments are available for admitted business students. Students can schedule their appointments via Starfish.

For more information on accessing academic advising, please see the Academic Advising (https://business.wisc.edu/undergraduate/academic-advising/) page.

Please note enrollment in required courses is subject to availability. As a result, completion of the certificate within an individual student's intended graduation timeline cannot always be guaranteed.

CAREER ADVISING

Current BBA students declared in the certificate will also be assigned a career coach.

For more information about accessing career coaching, please see our Career Coaching (https://business.wisc.edu/undergraduate/careers/) page.

BUSINESS: ACCOUNTING, BBA

By pursuing the accounting major (https://business.wisc.edu/undergraduate/majors/accounting/), you will develop strong technical and professional skills to succeed in a dynamic profession. Learn how emerging technologies are changing the landscape of business and gain an appreciation for the global and diverse nature of a career path in accounting.

Topics, skills, and concepts:

- Financial and managerial accounting, cost accounting, accounting systems, emerging technologies, taxation, audit and advisory services.
- Evaluate the economic transactions on which businesses are built, and organize and report the impact of those transactions. Learn to evaluate the tax impact of business decisions.
- Critical analysis, group dynamics, problem solving, and communication skills.

HOW TO GET IN

HOW TO GET IN

CURRENT UW–MADISON STUDENTS

Requirements	Details
How to get in	Application required. Meeting the requirements listed below does not guarantee admission. (https://admissions.wsb.wisc.edu/BbaPreBusiness (https://admissions.wsb.wisc.edu/BbaPreBusiness/))
Courses required to get in	Students are required to complete each of the requirements below. Requirements can be completed via coursework, test credit, transfer work, or placement test (if applicable). Communication A • One course with the Communication A designation Microconomics • ECON 101 • ECON 111 • A A E 101 Calculus, completed or in-progress • MATH 211 • MATH 221 Students who started at UW-Madison before Fall 2026 should refer to their DARS report to confirm course requirements for admission application eligibility.
GPA requirements to get in	Minimum 3.0 UW-Madison GPA.
Credits required to get in	• If you started at UW-Madison as a first-year student, 24 credits completed/in-progress at UW-Madison are required for application. • If you started at UW-Madison as a transfer student, 12 credits completed/in-progress at UW-Madison are required for application. • In-progress course credits towards this minimum must be completed at the end of the spring application term.
Other	• Pre-Business 101 workshop required during the intended application year. • Pre-Business applicants may apply once within their first four terms (Fall/Spring) at UW-Madison, based on enrollment date. There is no credit maximum.

Semester	Deadline to apply	Decision notification timeline
To apply for a fall start	Mid March	On or before July 1st.
To apply for a spring start	This program does not accept applications to start in the spring.	
To apply for a summer start	This program does not accept applications to start in the summer.	

PROSPECTIVE FIRST-YEAR APPLICANTS

All prospective UW–Madison students must apply through the central Office of Admissions and Recruitment (https://www.admissions.wisc.edu/). Prospective high school students may be

considered for direct admission to Business based on their application to the University of Wisconsin-Madison. Simply list a Business interest as your top academic area of interest on the University application.

PROSPECTIVE TRANSFER APPLICANTS

Transfer students at University of Wisconsin System campuses or Wisconsin Technical Colleges may apply separately for admission to both the University of Wisconsin-Madison and the School of Business during the spring term for fall enrollment. Information for prospective transfer students can be found here: https://business.wisc.edu/undergraduate/admissions/transfer-students/.

ADDITIONAL INFORMATION

Students declared in Business: Accounting BBA cannot earn the Certificate in Accounting, Summer Certificate in Business Fundamentals, Certificate in Business, or the Certificate in Entrepreneurship due to curriculum overlap.

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

SCHOOL OF BUSINESS BBA REQUIREMENTS

The Wisconsin Bachelor of Business Administration (BBA) program combines UW–Madison's core general education requirements, broad coverage of core business disciplines, and cutting-edge experiential learning and signature courses to create a strong academic foundation upon which students delve deeply into their majors.

BUSINESS LIBERAL STUDIES

Liberal studies requirements must be completed prior to graduation. **A single course cannot be used to fulfill multiple liberal studies requirements.**

Communication A	Complete either: • one course with the Communication A designation, or • satisfaction of Communication A based on UW Placement Test.
Microeconomics	Complete one: • ECON 101 • ECON 111 • A A E 101
Macroeconomics	Complete either: • ECON 102 • ECON 111
Social Science	One 3+ credit course with the Social Science designation. Courses in or cross-listed with the following subjects do not satisfy this requirement: ACCT I S, ACT SCI, FINANCE, GEN BUS, INFO SYS, INTL BUS, M H R, MARKETNG, OTM, R M I, REAL EST.
Calculus	Complete either: • MATH 211 • MATH 221
Literature	One 3+ credit course with the Literature designation.
Science	6 credits with the Biological, Natural, or Physical Science designations. Courses in or cross-listed with MATH or STAT cannot be used to meet this requirement.
Ethnic Studies	One 3+ credit course with the Ethnic Studies designation.
Humanities	One 3+ credit course with the Humanities designation.
Ethics	Complete one: • PHILOS 241 • PHILOS 243 • PHILOS 244 • PHILOS 341 • PHILOS/ENVIR ST 441 • L I S 461

BUSINESS FUNDAMENTALS

Code	Title	Credits
GEN BUS 106	Foundational Skills for Business Analysis	1
GEN BUS 107	Introduction to Artificial Intelligence in Business	1
GEN BUS 301	Business Law	3
GEN BUS 360	Workplace Writing and Communication	3
ACCT I S 100	Introductory Financial Accounting	3

Business Analytics Sequence

Complete one of the sequence options below. Courses should be taken in subsequent semesters.

Code	Title	Credits
Option 1		
GEN BUS 306 & GEN BUS 307	Business Analytics I and Business Analytics II	6
Option 2 (Required for Actuarial Science Majors):		
MATH 331	Introductory Probability	3
or STAT/MATH 309	Introduction to Probability and Mathematical Statistics I	
GEN BUS 317	Mathematical Foundations of Business Analytics (Recommended for Actuarial Science majors)	3
or STAT/MATH 310	Introduction to Probability and Mathematical Statistics II	
Option 3 (Recommended for Economics Double Majors or Econ Certificate Students):		
ECON 310	Statistics: Measurement in Economics	4
ECON 400	Introduction to Applied Econometrics	4
or ECON 410	Introductory Econometrics	

BUSINESS CORE

Code	Title	Credits
ACCT I S 211	Introductory Managerial Accounting	3
FINANCE/ECON 300	Introduction to Finance	3
MARKETNG 300	Marketing Management	3
M H R 300	Managing Organizations	3
OTM 300	Operations and Supply Chain Management	3
Total Credits		**15**

BUSINESS EXPERIENTIAL LEARNING

Code	Title	Credits
GEN BUS 110	Personal and Professional Foundations in Business	1
GEN BUS 210	Artificial Intelligence Enabled Business Solutions Lab	2
GEN BUS 410	Business Solutions Capstone	3
Total Credits		**6**

BUSINESS SIGNATURE

Code	Title	Credits
Complete one of the following:		3
INFO SYS 322	Introduction to Databases	
INTL BUS 200	International Business	
REAL EST/A A E/ ECON/URB R PL 306	The Real Estate Process	
R M I 300	Principles of Risk Management	
Complete one of the following:		2
GEN BUS/DS 240	Human-centered Design and Business	
GEN BUS 250	Sustainable Capitalism	
GEN BUS 265	The Business of Health Care	
GEN BUS 308	Cloud Analytics and Artificial Intelligence Tools for Business	
Total Credits		**5**

BUSINESS GRADUATION REQUIREMENTS

Cumulative Credits	Students must earn 120 degree credits.
Quality of Work	Students must maintain a minimum cumulative grade point average of 2.000.
Residency	Students must complete 30 degree credits in residence at UW–Madison.

BUSINESS: ACCOUNTING MAJOR REQUIREMENTS

The accounting major is a total of 25-30 credits, distributed as follows:

Code	Title	Credits
ACCT I S 301	Financial Reporting I	3
ACCT I S 302	Financial Reporting II	3
ACCT I S 310	Cost Management Systems	3
ACCT I S 340	Accounting Information Systems	3
ACCT I S 401	Business Organizations and Negotiable Instruments	3
ACCT I S 406	Accounting and Analysis for Reporting Entities	1-6
or ACCT I S 600	Professional Experience in Accounting	
ACCT I S 620	Fundamentals of Taxation	3
ACCT I S 621	Corporate and Advanced Taxation	3
ACCT I S 630	Foundations of Auditing	3
Accounting majors must take a minimum of 18 credits of ACCT I S courses numbered 301 or higher at UW-Madison		
Total Credits		**25-30**

RECOMMENDED ELECTIVES [1]

Code	Title	Credits
ACCT I S 406	Accounting and Analysis for Reporting Entities [2]	3
ACCT I S 600	Professional Experience in Accounting	1-6
ACCT I S 603	Financial Statement Analysis [2]	3
ACCT I S 640	Foundation in Accounting Analytics [2]	3
The following courses are recommended as program electives outside of accounting. The student is encouraged to elect as many as a program will permit.		
FINANCE/ ECON 320	Investment Theory [2]	3
FINANCE 325	Corporation Finance	3
FINANCE 602	Wealth Management & Financial Planning [2]	3
FINANCE 635	Business Valuation [2]	3
FINANCE 650	Mergers and Acquisitions [2]	3
INFO SYS 322	Introduction to Databases	3
M H R 310	Challenges & Solutions in Business Sustainability [2]	3
M H R 617	Diversity in Organizations [2]	3
R M I 300	Principles of Risk Management [2]	3
R M I 650	Sustainability, Environmental and Social Risk Management [2]	3
R M I 660	Risk Analytics and Behavioral Science [2]	3
R M I 670	Data Privacy and Cyber Risk [2]	3

1 Students who are interested in sitting for the CPA Exam may consider taking 1–2 extra accounting courses, as CPA requirements vary from state to state. Further, students interested in sitting for the CPA Exam should take INFO SYS 322, which covers many CPA exam learning objectives.

2 Students interested in pursuing a Graduate Accounting degree from UW-Madison will have the ability to transfer up to 6 credits of undergraduate coursework to their graduate degree. These courses would be eligible to transfer under this policy.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Apply Generally Accepted Accounting Principles (GAAP) (and relevant assumptions, principles, and constraints) to prepare financial statements.
2. Recognize that management accounting and control systems, providing financial and non-financial performance information, are integral to the successful design and implementation of an organizational strategy.
3. Interpret and validate business events and transactions through the lens of business processes and systems.
4. Demonstrate technical competence in income taxation of individuals, partnerships, corporations, and international organizations.
5. Identify the legal implications of their choices and how the law impacts their interactions with others in a business setting.
6. Explain how to complete an audit from beginning to end, applying auditing standards, assessing risk, and gathering evidence.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This page includes four **sample** four-year plans, two plans for students directly admitted into the School of Business from high school and two plans for students not directly admitted from high school. In each of the two sets of plans, the first plan represents the accounting major and the second plan represents the accounting major with the integrated Master of Science in Business: Accounting and Business Analysis (MSABA) degree. We encourage all students to consult with their academic advisor to develop an individualized plan that meets their specific needs.

PLAN 1: ACCOUNTING MAJOR - DIRECT ADMIT

Freshman

Fall	Credits	Spring	Credits
MATH 211 or 221	4-5	ECON 101, 111, or A A E 101	4
Communications A	3	ACCT I S 100	3
Ethnic Studies	3	GEN BUS 107	1
Science	3	Social Science	3
GEN BUS 106	1	Science	3

GEN BUS 110	1 Humanities	3
	15-16	**17**

Sophomore

Fall	Credits	Spring	Credits
ECON 102 or 111	4	ACCT I S 302	3
ACCT I S 211	3	GEN BUS 306	3
ACCT I S 301	3	ACCT I S 310	3
GEN BUS 360	3	MARKETNG 300	3
Elective	2	FINANCE/ECON 300	3
	15		**15**

Junior

Fall	Credits	Spring	Credits
GEN BUS 307	3	ACCT I S 630	3
ACCT I S 620	3	ACCT I S 401	3
M H R 300	3	OTM 300	3
ACCT I S 340	3	Elective	3
GEN BUS 210	2	R M I 300, REAL EST 306, INTL BUS 200, or INFO SYS 322[1]	3
GEN BUS 301	3		
	17		**15**

Senior

Fall	Credits	Spring	Credits
GEN BUS 410	3	ACCT I S 600 or 406[3]	1-6
Literature	3	ACCT I S 621	3
Elective	3	PHILOS 241, 243, 244, 341, 441, or L I S 461 (Ethics)	3-4
Elective[2]	3	Elective	3
GEN BUS 250, 240, 265, or 308 (Take One)	2	Elective	2
	14		**12-18**

Total Credits 120-127

1. Students are highly encouraged to take INFO SYS 322 Introduction to Databases. Material in this course is covered on the Uniform CPA examination.
2. Students are highly encouraged to consider ACCT I S 640 Foundation in Accounting Analytics.
3. We recommend that non-MSABA students complete their internship in the summer.

PLAN 2: ACCOUNTING MAJOR WITH MSABA - DIRECT ADMIT

Freshman

Fall	Credits	Spring	Credits
MATH 211 or 221	4-5	ECON 101, 111, or A A E 101	4
Communications A	3	GEN BUS 107	1

1. Students are highly encouraged to take INFO SYS 322 Introduction to Databases. Material in this course is covered on the Uniform CPA examination.
2. We recommend that MSABA students who complete an internship during the spring semester fulfill these elective credits outside of the spring semester (summer, online, AP credits, etc.).

ADVISING AND CAREERS

ADVISING AND CAREERS

ADVISING

Advising is an integral part of any student's educational journey in the School of Business Undergraduate Program. Starting at Student Orientation, Advising, and Registration (SOAR), we encourage all students to connect with academic advisors. Business academic advisors have a wealth of knowledge about courses on campus, as well as policies and procedures.

Business career coaches help students with career exploration, internships, resumes, job search, interviewing, and more. We encourage students to connect with their career coach once they arrive on campus.

Business academic advisors and career coaches are passionate about student success. Students experiencing academic difficulty or personal

struggles are encouraged to talk to their advisor about how their individual situation may affect their academic performance.

Assigned Academic and Career Coaches

Admitted business students will have one assigned academic advisor. Career coaches are assigned by academic major to be able to provide industry-specific career guidance. If a student has more than one major, they may have more than one assigned career coach. Students can find their assigned advisor and coach by logging into the Starfish portal through MyUW.

For students not yet admitted to the School of Business, there is a team of pre-business advisors available.

Accessing Advising

Drop-in advising and scheduled appointments are available for admitted business students. Pre-business students may also schedule an appointment with a pre-business academic advisor or utilize drop-in academic advising.

For more information on accessing academic advising, please see our Academic Advising page (https://business.wisc.edu/undergraduate/academic-advising/).

For more information on accessing career coaching, please see our Career Coaching page (https://business.wisc.edu/undergraduate/careers/).

*Students may direct questions about the graduate programs to Katharine Widlak (*katharine.widlak@wisc.edu*), director of the MS in Accounting and Business Analysis program, or Brett Killion (*bmkillion@wisc.edu*), director of the MS in Financial Management and Accounting.*

CAREERS

The most common career paths in accounting include public and corporate accounting.

Public accountants work with clients to review or prepare financial documents. All areas of public accounting work together to inspect control processes and determine accuracy of financial information and compliance with laws, regulations, and generally accepted accounting principles. They make recommendations regarding business decisions and company finances. Public accounting includes audit/assurance and tax.

Corporate accountants manage an organization's financials and provide expertise in financial reporting and control to assist management in forming and implementing business strategy. Corporate accounting is a broad term that can include many different functions, such as management accounting, internal audit, and financial analysis.

More information on Career Pathways (https://business.wisc.edu/undergraduate/careers/pathways/).

CERTIFICATION/LICENSURE

CERTIFICATION/LICENSURE

CERTIFIED PUBLIC ACCOUNTANT (CPA)

The state of Wisconsin, and most other states, mandate that candidates for the CPA license must have earned a bachelor's or higher degree and 150 credit hours. There are several degree options for completing these requirements at the University of Wisconsin – Madison, including:

1. Master of Science in Business: Accounting and Business Analysis (https://guide.wisc.edu/graduate/accounting-information-systems/business-accounting-business-analysis-ms/) (MSABA): Students who earn the MS in Business: Accounting and Business Analysis degree will meet the CPA requirements in most states. The MSABA is designed for students with an undergraduate major in accounting.
   a. **Integrated:** Students enrolled in and pursuing an undergraduate accounting major at UW-Madison can declare their candidacy for the integrated MSABA program at any time. The integrated program is designed as a 4+1 program whereby students will earn both a BBA degree with a major in accounting and a Masters of Science in Business: Accounting and Business Analysis. Students with sufficient credits may be able to complete the full program in as little as four years.
   b. **Stand-alone:** Students with, or currently pursuing, a four-year undergraduate business degree with a major in accounting, or equivalent, from an accredited university may pursue the stand-alone MSABA degree. Students should apply for the stand-alone program during their final year of undergraduate studies.
2. **Undergraduate Business Degree with Accounting Major (this program):** Students can meet the eligibility requirements for the CPA exam by completing a 120-credit BBA degree with a major in accounting along with 30-additional credits to meet the 150-credit requirement. Students pursuing this option should carefully consider the CPA eligibility requirements in the state in which they intend to get certified as many states will require additional accounting credits beyond what is included in the BBA accounting major. Students can earn the additional 30-credits as follows:
   a. **Advanced Credits from High School:** College credits earned in high school that are reflected on a student's UW-Madison transcript may count towards the 30-additional credits for CPA eligibility.
   b. **Double Major:** Students may pursue an additional undergraduate major to achieve the additional 30-credits for CPA eligibility.
   c. **Non-accounting Advanced Degree:** Students who earn an undergraduate degree with a major in accounting and any other advanced degree (specialized masters, MBA, Law School, etc.) may be eligible for the CPA exam as long as they have 150-total credits.
   d. **Undergraduate Credits:** Students may earn the additional 30-credits by taking any undergraduate courses at a degree-granting institution.

Please consult the Department of Accounting and Information Systems for additional information.

PROFESSIONAL CERTIFICATION/LICENSURE DISCLOSURE (NC-SARA)

The United States Department of Education (via 34 CFR Part 668 (https://www.ecfr.gov/current/title-34/subtitle-B/chapter-VI/part-668/?toc=1)) requires institutions that provide distance education to disclose information for programs leading to professional certification or licensure. The expectation is that institutions will determine whether each applicable academic program meets state professional licensure requirements and provide a general disclosure of such on an official university website.

Professional licensure requirements vary from state-to-state and can change year-to-year; they are established in a variety of state statutes, regulations, rules, and policies; and they center on a range of educational requirements, including degree type, specialized accreditation, total credits, specific courses, and examinations.

UW-Madison has taken reasonable efforts to determine whether this program satisfies the educational requirements for certification/licensure in states where prospective and enrolled students are located and is disclosing that information as follows.

Disclaimer: This information is based on the most recent annual review of state agency certification/licensure data and is subject to change. All students are strongly encouraged to consult with the individual/office listed in the Contact Information box on this page and with the applicable state agency for specific information.

The requirements of this program meet certification/licensure in the following states:
Wisconsin

The requirements of this program do not meet certification/licensure in the following states:
Not applicable

BUSINESS - SCHOOL-WIDE

DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/CERTIFICATES

- Business Fundamentals, Summer Certificate (p. 1560)
- Business, Certificate (p. 1561)
- Consulting, Certificate (p. 1562)
- International Business, Certificate (p. 1564)

BUSINESS FUNDAMENTALS, SUMMER CERTIFICATE

The Summer Certificate in Business Fundamentals no longer admits new students after Summer 2025 and the program will be discontinued Fall 2029. Students already admitted may only complete and be awarded this certificate through Summer 2029. If you have any questions, please contact the department (see contact box).

The Summer Certificate in Business Fundamentals (https://business.wisc.edu/undergraduate/certificates/summer/) provides basic business education to students pursuing majors outside of the School of Business. The certificate is designed to be completed over multiple summer terms with in-person and online course options, making it a more flexible option for students seeking fundamental business knowledge. Knowledge gained through the Summer Certificate in Business Fundamentals aims to better prepare students for business-related careers upon graduation.

HOW TO GET IN

HOW TO GET IN

The Summer Certificate in Business Fundamentals no longer admits new students after Summer 2025 and the program will be discontinued Fall 2029. Students already admitted may only complete and be awarded this certificate through Summer 2029. If you have any questions, please contact the department (see contact box).

The Summer Certificate in Business Fundamentals is not open to students declared in a major in the School of Business or the Certificate in Business (https://guide.wisc.edu/undergraduate/business/school-wide/business-certificate/).

To declare students must have completed 12 credits in residence at UW-Madison and have earned a minimum GPA of 2.75.

To declare the certificate, go to the Academic Forms (https://business.wisc.edu/undergraduate/academic-advising/#forms/) page and complete the Summer Certificate in Business Fundamentals declaration form.

REQUIREMENTS

REQUIREMENTS

Students are expected to take 9 of the 12 required credits in-residence during the summer term.

REQUIRED COURSES

Code	Title	Credits
ACCT I S 300	Accounting Principles [1]	3
or ACCT I S 100	Introductory Financial Accounting	
Select three of the following:		9
FINANCE/ECON 300	Introduction to Finance	
MARKETNG 300	Marketing Management	
M H R 300	Managing Organizations	
OTM 300	Operations and Supply Chain Management	
R M I 300	Principles of Risk Management	
Total Credits		**12**

[1] Students are strongly encouraged to take ACCT I S 300, unless ACCT I S 100 is required by their major.

QUALITY OF WORK

A minimum 2.000 GPA on required certificate coursework. Completed courses listed within the certificate curriculum, whether or not they meet a specific requirement, are included in the calculation of the GPA.

A minimum grade of C must be earned in each course.

9 of the 12 required credits must be taken in-residence (UW-Madison on-campus, study abroad, or distance courses).

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Describe basic business measurement as conveyed through accounting methods and reports. Read and interpret a balance sheet and income statement.
2. Describe the basic risk and return relationship and the use of diversification to manage overall risk.
3. Identify and describe basic business strategy and processes.
4. Measure and interpret cost benefit analysis including consideration of time value of money concepts.

ADVISING AND CAREERS

ADVISING AND CAREERS

Students who have declared the Summer Certificate in Business Fundamentals will be assigned to the School of Business Certificate Advising Committee.

BUSINESS, CERTIFICATE

The Certificate in Business (https://business.wisc.edu/undergraduate/certificates/business/) (CIB) program provides non-business students the opportunity to earn a concentration in a clearly defined academic program in business. The coursework allows students to develop a foundational understanding of business and apply this to their specific field. In addition to careers related to their own fields, students who earn the certificate have also found job opportunities in management, marketing, and other business fields.

HOW TO GET IN

HOW TO GET IN

The Certificate in Business (CIB) is open to undergraduate students declared in a major outside of the School of Business. To declare, students must have completed 24 credits in residence at UW-Madison or 12 credits in residence for transfer students and have earned a minimum GPA of 3.00.

To declare the CIB, complete the declaration form linked within the Contact Information box.

REQUIREMENTS

To be eligible to declare, students must meet the following requirements:

- 24 degree credits completed in residence at time of declaration (12 degree credits for transfer students)
- 3.00 minimum cumulative GPA at UW-Madison
- Currently enrolled UW–Madison student
- Undergraduate, degree-seeking student (non-business)
- Must be declared in a major at UW Madison

Admitted students will be charged a $150 tuition differential each semester until degree completion/graduation. The tuition differential provides CIB students access to School of Business resources, including career coaches and academic advisors within the Undergraduate Program, as well as a modified priority enrollment for core business courses.

REQUIREMENTS

REQUIREMENTS

The Certificate in Business (CIB) program requires 18 credits of coursework (three core courses and an additional 9 credits of elective coursework).

Students may need to complete pre-requisite courses to enroll in courses listed in the certificate requirements. Completing pre-requisite coursework may result in more than 18 credits to complete the certificate.

REQUIRED COURSES

Code	Title	Credits
Core		
ACCT I S 300	Accounting Principles [1]	3
or ACCT I S 100	Introductory Financial Accounting	
or GEN BUS 310	Fundamentals of Accounting and Finance for Non-Business Majors	
GEN BUS 311	Fundamentals of Management and Marketing for Non-Business Majors	3
or M H R 300	Managing Organizations	
Choose one of the following:		3
FINANCE/ECON 300	Introduction to Finance	
MARKETNG 300	Marketing Management	
OTM 300	Operations and Supply Chain Management	
REAL EST/ A A E/ECON/ URB R PL 306	The Real Estate Process	
R M I 300	Principles of Risk Management	
CIB Elective Coursework		
Elective courses must be School of Business courses (ACCT I S, ACT SCI, FINANCE, GEN BUS, INFO SYS, INTL BUS, M H R, MARKETNG, OTM, REAL EST, or R M I) or courses cross-listed with the School of Business. Courses taken at another institution must be directly equivalent to a UW-Madison business course and title (i.e., not elective credit).		9
Total Credits		**18**

[1] Students are strongly encouraged to take GEN BUS 310 or ACCT I S 300, unless ACCT I S 100 is required by their major. Please note, however, that ACCT I S 100 is a requirement for many other upper-level accounting and finance courses, including FINANCE/ECON 300.

Students planning to take additional accounting or finance courses should consult with the CIB advisor.

Exclusions

The following courses **may not be used** to satisfy the CIB Elective Coursework requirement:

Code	Title	Credits
GEN BUS 110	Personal and Professional Foundations in Business	1
GEN BUS 210	Artificial Intelligence Enabled Business Solutions Lab	2
GEN BUS 310	Fundamentals of Accounting and Finance for Non-Business Majors	3
GEN BUS 311	Fundamentals of Management and Marketing for Non-Business Majors	3
GEN BUS 360	Workplace Writing and Communication	3
GEN BUS 410	Business Solutions Capstone	3

RESIDENCE AND QUALITY OF WORK

- Students must take at least 12 of the 18 required credits in residence at UW–Madison. Study abroad courses taken through a UW–Madison-sponsored program will count toward the 12 credits in residence.
- Students must earn a cumulative GPA of 2.50 or higher across all courses applied to the certificate. While students must pass each required course, there is no minimum GPA requirement for individual courses. The cumulative GPA is calculated based on all courses that count towards the certificate.

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Apply accounting principles to develop decision-useful accounting information that supports implementation of organizational strategy.
2. Know and be able to illustrate how organizational success is a function of strategy, organizational culture, human resource management, leadership, teams, structure, managing change, and entrepreneurship.
3. Identify and describe basic business strategy and processes through variable course options and focus areas including marketing, real estate, risk management, operations and supply chain management, finance, and other key areas in business

ADVISING AND CAREERS

ADVISING AND CAREERS

ACADEMIC ADVISING

Certificate students will be assigned to the Business Certificate Advising Committee.

Drop-in advising and scheduled appointments are available to students who are declared in the certificate. Students can schedule their appointments via Starfish.

For more information on accessing academic advising, please see the Academic Advising (https://business.wisc.edu/undergraduate/academic-advising/) page.

Please note enrollment in required courses is subject to availability. As a result, completion of the certificate within an individual student's intended graduation timeline cannot always be guaranteed.

CAREER ADVISING

Students who have declared the Certificate in Business (CIB) will also be assigned a career coach in the School of Business. Students are encouraged to use their home school/college career services.

For more information about accessing career coaching, please see our Career Coaching (https://business.wisc.edu/undergraduate/careers/) page.

CONSULTING, CERTIFICATE

The Consulting Certificate from the School of Business helps students develop a consultative process and mindset that integrates critical skills in the areas of project management, business communication, advanced analytics and/or strategy and technology.

The Consulting Certificate will prepare students to seek answers to questions in order to define the problem, gather necessary data and information, convert the information into decisions, and successfully communicate that answer in a form appropriate to the audience. Upon completion of the certificate, students will understand how businesses operate, how to communicate successfully with others in business, and will be familiar with the concept of business goals and objectives. This perspective is central to the design and differentiation of our certificate.

The goal of this certificate program is to be an add-on to any undergraduate major at UW–Madison so students can apply their major to the field of consulting.

HOW TO GET IN

HOW TO GET IN

The consulting certificate is open to UW-Madison undergraduate students. To declare the consulting certificate, complete the declaration form linked within the contact information box.

To be eligible to declare, students must meet the following requirements:

- 24 degree credits completed in residence at time of declaration (12 in residence for transfer students)
- 3.00 minimum cumulative GPA at UW-Madison
- Currently enrolled student at UW-Madison
- Undergraduate, degree seeking student

Students may not earn this certificate in conjunction with the exclusively online BBAs in Business Administration-Human Resources, Business Administration-Management, and Business Administration-Marketing.

REQUIREMENTS

REQUIREMENTS

The consulting certificate consists of 13 credits (two core courses, one foundation, one analytical thinking, and one elective course). Students are responsible for any pre-requisite courses needed for selected coursework.

Students must take all 13 credits in residence at UW-Madison. Study abroad courses taken through UW-Madison sponsored programs will count towards the credits in residence.

Required Courses

Code	Title	Credits
Core		
GEN BUS 370	Case Interview Analysis	1
OTM 452	Project Management	3
Consulting Foundation		**3**
Complete one course from the following:		
M H R 412	Management Consulting	
M H R 423	Strategic Management	
OTM 351	Business Process Improvement	
Analytical Thinking		**3**
Complete one course from the list below.		
Additional Coursework		**3**
Complete another Consulting Foundation, Analytical Thinking or Elective Course (listed below).		
Total Credits		**13**

Analytical Thinking Course Options

Code	Title	Credits
ACCT I S 640	Foundation in Accounting Analytics	3
ACT SCI 655	Health Analytics	3
CNSR SCI 301	Consumer Analytics	3
I SY E 412	Fundamentals of Industrial Data Analytics	3
I SY E 516	Introduction to Decision Analysis	3
I SY E 620	Simulation Modeling and Analysis	3
INFO SYS 423	Digital Platform Analytics	3
INFO SYS 352	Digital Strategy	3
L I S 464	Applied Database Design	3
M H R 614	People Analytics	3
OTM 453	Operations Analytics	3
R M I 660	Risk Analytics and Behavioral Science	3

Elective Course Options

Code	Title	Credits
INFO SYS 322	Introduction to Databases	3
I SY E 313	Engineering Economic Analysis	3
I SY E 515	Engineering Management of Continuous Process Improvement	3
I SY E 520	Quality Assurance Systems	3
I SY E 604	Special Topics in Manufacturing and Supply Chain Management	3
M H R 322	Introduction to Entrepreneurship	3
or M H R 422	Advanced Entrepreneurship	
M H R 401	Leading Teams	3
M H R 420	Leading Change in Organizations	3
M H R 628	Negotiations	3
OTM 351	Business Process Improvement	3
OTM/ MARKETNG 421	Fundamentals of Supply Chain Management	3
OTM/ MARKETNG 427	Information Technology in Supply Chains	3
OTM 451	Service Operations Management	3
R M I 650	Sustainability, Environmental and Social Risk Management	3
R M I 655	Risk Financing Techniques	3
R M I 670	Data Privacy and Cyber Risk	3

To successfully complete the Consulting Certificate, students must earn a cumulative grade point average (GPA) of 3.0 or higher across all courses applied to the certificate.

While students must pass each required course, there is no minimum GPA requirement for individual courses. The cumulative GPA is calculated based on all courses that count toward the certificate.

*Please note enrollment in required courses is subject to availability. As a result, completion of the certificate within an individual student's intended graduation timeline cannot always be guaranteed.

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Apply critical thinking skills to complex real-world problems to develop strategies and make actionable recommendations to solve business issues based on a variety of important analytical tools and techniques.
2. Develop case analysis skills in diagnosing business issues and managerial problems, propose workable solutions, and explain and defend solutions.
3. Apply and evaluate project management techniques, and have a basic understanding of the formal and informal tools available to manage time, resources, and stakeholders in executing a project.
4. Develop and practice aspects of successful communication: writing, presenting, and listening. A theoretical foundation provides a method of deep audience analysis; apply that analysis when producing a variety of written genres and when preparing content for formal presentation.

ADVISING AND CAREERS

ADVISING AND CAREERS

ACADEMIC ADVISING

Current BBA students who have declared the certificate can receive academic advising from their primary academic advisor. Certificate students not admitted to the School of Business will be assigned to the Business Certificate Advising Committee.

Drop-in advising and scheduled appointments are available to students who are declared in the certificate. Students can schedule their appointments via Starfish.

For more information on accessing academic advising, please see the Academic Advising (https://business.wisc.edu/undergraduate/academic-advising/) page.

Please note enrollment in required courses is subject to availability. As a result, completion of the certificate within an individual student's intended graduation timeline cannot always be guaranteed.

CAREER ADVISING

All students declared in the certificate will be assigned a career coach in the School of Business. Students are encouraged to use their home school/college career services.

For more information about accessing career coaching, please see our Career Coaching (https://business.wisc.edu/undergraduate/careers/) page.

INTERNATIONAL BUSINESS, CERTIFICATE

The Certificate in International Business helps students develop an understanding of the global macroeconomic environment and the complexities of cross-border transactions. International Business is an interdisciplinary field and courses focus on knowledge acquisition as well as application of concepts. The embedded study abroad requirement helps students develop cross-cultural awareness and skills, and gain a regional perspective that often underpins successful adaptation for local markets.

International business careers span industries and economic sectors, as well as business functions and geographies, and often include domestic positions with global scope. Positions in international business involve strategy, leadership, research, government relations, creativity, technical expertise, and cultural fluency.

HOW TO GET IN

HOW TO GET IN

The International Business Certificate is open to BBA undergraduate students. Students must be admitted to UW–Madison and the School of Business (WSB). To find out more about the school's admissions process for undergraduate students, please see Entering the School (https://guide.wisc.edu/undergraduate/business/#enteringtheschooltext). Students may not earn this certificate in conjunction with the BBA in Business: International Business, and/or the exclusively online BBAs in Business Administration-Human Resources, Business Administration-Management, and Business Administration-Marketing.

To declare the International Business Certificate, complete the declaration form linked within the Contact Information box.

Requirements

To be eligible to declare students must meet the following requirements:

- Good academic standing
- Currently enrolled UW–Madison student
- Undergraduate, degree-seeking student (non-business)
- Must be declared in a major at UW Madison

REQUIREMENTS

REQUIREMENTS

The International Business Certificate consists of 13 credits. Students are also responsible for any pre-requisite courses needed for core or elective courses.

Completion of INTL BUS 200 International Business, a required course for this certificate, satisfies one of the business signature courses needed for the BBA.

Code	Title	Credits
Core		
INTL BUS 200	International Business	3
INTL BUS 450	Study Abroad in International Business (This course must be taken prior to the required study abroad semester. The study abroad requirement must be satisfied through an approved program.)	1
6 Additional Credits of INTL BUS: A maximum of 3 credits of INTL BUS 365 Contemporary Topics can be applied to this 6 credit requirement.		6
Global Interdisciplinary Perspective (choose one)		**3**
ANTHRO 104	Cultural Anthropology and Human Diversity	
GEOG 340	World Regions in Global Context	
INTL ST 101	Introduction to International Studies	
POLI SCI 140	Introduction to International Relations	
Total Credits		**13**

RESIDENCE AND QUALITY OF WORK

- At least 50% of the certificate credits must be earned in residence at UW-Madison as a degree-seeking undergraduate. All certificate courses must be graded; credit/no credit and pass/fail do not qualify.
- To successfully complete the International Business Certificate program, students must earn a cumulative grade point average (GPA) of 2.00 or higher across all courses applied to the certificate.
- While students must pass each required course, there is no minimum GPA requirement for individual courses. The cumulative GPA is calculated based on all courses that count toward the certificate.

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Apply international business theories and concepts to a variety of business situations.
2. Formulate business strategies appropriate to global, regional and local contexts.
3. Demonstrate the skills necessary for successful cross-cultural adaptation into a host country.

ADVISING AND CAREERS

ADVISING AND CAREERS

ACADEMIC ADVISING

Current BBA students who have declared the certificate can receive academic advising from their primary academic advisor.

Drop-in advising and scheduled appointments are available for admitted business students. Students can schedule their appointments via Starfish.

For more information on accessing academic advising, please see the Academic Advising (https://business.wisc.edu/undergraduate/academic-advising/) page.

Please note enrollment in required courses is subject to availability. As a result, completion of the certificate within an individual student's intended graduation timeline cannot always be guaranteed.

CAREER ADVISING

Current BBA students declared in the certificate will also be assigned a career coach.

For more information about accessing career coaching, please see our Career Coaching (https://business.wisc.edu/undergraduate/careers/) page.

CAREERS

The perspective, intercultural awareness, and regional knowledge gained through the study of international business is always relevant, but has greatest career impact several years into one's career. Therefore, the Certificate in International Business is designed to serve as a complement to a business major. International business careers develop after graduates first develop skills and expertise in a functional area of business, which drives initial career placement and advancement.

Careers in international business are not necessarily located overseas or even in major cities. Many positions are in U.S.-based offices or divisions of international firms.

FINANCE

The finance curriculum prepares students for a wide variety of career pathways including corporate finance, the investments and securities industry, the management of financial institutions including banks and insurance companies, and the evolving financial technology sector. The theory of finance and its applications are emphasized. Students learn about: security analysis and valuation, security trading, financial markets and government policies, financial forecasting, capital structure, financial risk management, venture capital, security issuance, international finance and financial technology.

DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/ CERTIFICATES

- Business: Finance, Investment, and Banking, BBA (p. 1565)

BUSINESS: FINANCE, INVESTMENT, AND BANKING, BBA

The finance, investment, and banking (https://business.wisc.edu/undergraduate/majors/finance-investment-banking/) curriculum prepares students for a wide variety of career pathways including corporate finance, the investments and securities industry, the management of financial institutions including banks and insurance companies, and the evolving financial technology sector. The theory of finance and its applications are emphasized. Students learn about security analysis and valuation, security trading, financial markets and government policies, financial forecasting, capital structure, financial risk management, venture capital, security issuance, international finance, and financial technology.

A significant part of the coursework teaches students to understand risk and uncertainty, both at an intuitive level and at a technical level. More important, students learn to construct models of financial decisions—e.g., an investor's portfolio choice problem, the issuance of securities by corporations, and the structure of financial investments by banks.

HOW TO GET IN

HOW TO GET IN

CURRENT UW–MADISON STUDENTS

Requirements	Details
How to get in	Application required. Meeting the requirements listed below does not guarantee admission. (https://admissions.wsb.wisc.edu/BbaPreBusiness (https://admissions.wsb.wisc.edu/BbaPreBusiness/))
Courses required to get in	Students are required to complete each of the requirements below. Requirements can be completed via coursework, test credit, transfer work, or placement test (if applicable). Communication A • One course with the Communication A designation Microconomics • ECON 101 • ECON 111 • A A E 101 Calculus, completed or in-progress • MATH 211 • MATH 221 Students who started at UW-Madison before Fall 2026 should refer to their DARS report to confirm course requirements for admission application eligibility.
GPA requirements to get in	Minimum 3.0 UW-Madison GPA.
Credits required to get in	• If you started at UW-Madison as a first-year student, 24 credits completed/in-progress at UW-Madison are required for application. • If you started at UW-Madison as a transfer student, 12 credits completed/in-progress at UW-Madison are required for application. • In-progress course credits towards this minimum must be completed at the end of the spring application term.
Other	• Pre-Business 101 workshop required during the intended application year. • Pre-Business applicants may apply once within their first four terms (Fall/Spring) at UW-Madison, based on enrollment date. There is no credit maximum.

Semester	Deadline to apply	Decision notification timeline
To apply for a fall start	Mid March	On or before July 1st.
To apply for a spring start	This program does not accept applications to start in the spring.	
To apply for a summer start	This program does not accept applications to start in the summer.	

PROSPECTIVE FIRST-YEAR APPLICANTS

All prospective UW–Madison students must apply through the central Office of Admissions and Recruitment (https://www.admissions.wisc.edu/). Prospective high school students may be considered for direct admission to Business based on their application to the University of Wisconsin-Madison. Simply list a Business interest as your top academic area of interest on the University application.

PROSPECTIVE TRANSFER APPLICANTS

Transfer students at University of Wisconsin System campuses or Wisconsin Technical Colleges may apply separately for admission to both the University of Wisconsin-Madison and the School of Business during the spring term for fall enrollment. Information for prospective transfer students can be found here: https://business.wisc.edu/undergraduate/admissions/transfer-students/.

ADDITIONAL INFORMATION

Students declared in Business: Finance, Investment and Banking cannot earn the Summer Certificate in Business Fundamentals, Certificate in Business, or the Certificate in Entrepreneurship due to curriculum overlap.

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.

Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

SCHOOL OF BUSINESS BBA REQUIREMENTS

The Wisconsin Bachelor of Business Administration (BBA) program combines UW–Madison's core general education requirements, broad coverage of core business disciplines, and cutting-edge experiential learning and signature courses to create a strong academic foundation upon which students delve deeply into their majors.

BUSINESS LIBERAL STUDIES

Liberal studies requirements must be completed prior to graduation. **A single course cannot be used to fulfill multiple liberal studies requirements.**

Communication A	Complete either: • one course with the Communication A designation, or • satisfaction of Communication A based on UW Placement Test.
Microeconomics	Complete one: • ECON 101 • ECON 111 • A A E 101
Macroeconomics	Complete either: • ECON 102 • ECON 111
Social Science	One 3+ credit course with the Social Science designation. Courses in or cross-listed with the following subjects do not satisfy this requirement: ACCT I S, ACT SCI, FINANCE, GEN BUS, INFO SYS, INTL BUS, M H R, MARKETNG, OTM, R M I, REAL EST.
Calculus	Complete either: • MATH 211 • MATH 221
Literature	One 3+ credit course with the Literature designation.
Science	6 credits with the Biological, Natural, or Physical Science designations. Courses in or cross-listed with MATH or STAT cannot be used to meet this requirement.
Ethnic Studies	One 3+ credit course with the Ethnic Studies designation.
Humanities	One 3+ credit course with the Humanities designation.
Ethics	Complete one: • PHILOS 241 • PHILOS 243 • PHILOS 244 • PHILOS 341 • PHILOS/ENVIR ST 441 • L I S 461

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Apply proper controls and best practices in the governance of modern organizations while recognizing the impact of finance on business and society.
2. Explain the workings of financial markets, the role of financial intermediaries, and market mechanisms to create and trade securities.
3. Evaluate the risk and return of financial securities and transactions.
4. Interpret models of asset pricing and demonstrate how to value financial securities.
5. Learn and apply best practices in data-driven decisions about investments, financing and payout policies, corporate restructuring, and risk management.
6. Identify the role of financial technology in shaping the financial system and financial operations.
7. Formulate a comprehensive financial plan for individuals or business entities.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

Please use this recommended course sequencing guide as a reference point as you work with your academic advisor to plan your schedule throughout your BBA experience. This guide is intended for students whose primary major and career interests are in finance. Many business breadth and core finance courses are recommended early on so that students are prepared for the internship interview process which begins as early as sophomore year. There are several factors that may impact your optimal course sequencing plan, so please consult with your academic advisor.

Freshman

Fall	Credits	Spring	Credits

ADVISING AND CAREERS

ADVISING AND CAREERS

ADVISING

Advising is an integral part of any student's educational journey in the School of Business Undergraduate Program. Starting at Student Orientation, Advising, and Registration (SOAR), we encourage all students to connect with academic advisors. Business academic advisors have a wealth of knowledge about courses on campus, as well as policies and procedures.

Business career coaches help students with career exploration, internships, resumes, job search, interviewing, and more. We encourage students to connect with their career coach once they arrive on campus.

Business academic advisors and career coaches are passionate about student success. Students experiencing academic difficulty or personal struggles are encouraged to talk to their advisor about how their individual situation may affect their academic performance.

Assigned Academic and Career Coaches

Admitted business students will have one assigned academic advisor. Career coaches are assigned by academic major to be able to provide industry-specific career guidance. If a student has more than one major, they may have more than one assigned career coach. Students can find their assigned advisor and coach by logging into the Starfish portal through MyUW.

For students not yet admitted to the School of Business, there is a team of pre-business advisors available.

Accessing Advising

Drop-in advising and scheduled appointments are available for admitted business students. Pre-business students may also schedule an appointment with a pre-business academic advisor or utilize drop-in academic advising.

For more information on accessing academic advising, please see our Academic Advising page (https://business.wisc.edu/undergraduate/academic-advising/).

For more information on accessing career coaching, please see our Career Coaching page (https://business.wisc.edu/undergraduate/careers/).

PLANNING FOR THE FINANCE MAJOR

In preparation for completing the major requirements for the Finance major, taking these courses early will help you graduate in a timely fashion.

Code	Title	Credits
Prior to enrolling in FINANCE 325 take:		
ACCT I S 301	Financial Reporting I	3
Prior to enrolling in FINANCE/ECON 320, FINANCE 325, FINANCE 330, or FINANCE 340 plan to take:		
FINANCE/ECON 300	Introduction to Finance	3
MATH 213	Survey of Calculus 2	3
or MATH 222	Calculus and Analytic Geometry 2	
GEN BUS 307	Business Analytics II (can be taken concurrently) [1]	3
Prior to taking upper-level Finance electives (and before senior year), complete the Finance Core:		
FINANCE 305	Financial Markets, Institutions and Economic Activity	3
FINANCE/ECON 320	Investment Theory	3
FINANCE 325	Corporation Finance	3
Prior to graduation, complete one of the following Core Choice courses:		
FINANCE 330	Derivative Securities	3
FINANCE 340	Fixed Income Securities	3
Other guidance:		
If the mathematics requirement has not been completed prior to admission to the School of Business, then you must take MATH 213 or MATH 222 as early as possible.		
Prior to your summer internship it can be useful to complete certain finance electives that match your internship and/or career focus area. Please discuss with your advisor.		

[1] Students pursuing an additional major in Actuarial Science or Economics may opt for a different Business Analytics course. The approved list are detailed on the School of Business Requirements (p. 1548) page.

CAREERS

Finance is the integration of time, returns and risk and how they are interrelated. Two pressing questions in finance are:

- What do I invest in?
- How do I pay for it?

Organizations that focus on finance include banks, credit card companies, insurance companies, consumer finance companies, corporations, stock brokerages, investment funds, government sponsored enterprises, education, and individuals.

Students may pursue careers in many different industries, including but not limited to:

- Commercial and retail banking
- Corporate finance
- Investment banking
- Investment management
- Investment research
- Global markets (sales and trading)
- Financial technology/cryptocurrency
- Wealth management and financial planning

Find more details about these industries on the BBA Finance website (https://business.wisc.edu/undergraduate/majors/finance-investment-banking/).

More information on Career Pathways (https://business.wisc.edu/undergraduate/careers/pathways/).

ACCREDITATION

ACCREDITATION

AACSB International—The Association to Advance Collegiate Schools of Business (http://www.aacsb.edu/)

Accreditation status: Accredited. Next accreditation review: 2026–2027.

INTERNATIONAL BUSINESS

DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/CERTIFICATES

- Business: International Business, BBA (p. 1570)

BUSINESS: INTERNATIONAL BUSINESS, BBA

The Business: International Business, BBA no longer admits new students after Summer 2023 and the program will be discontinued Fall 2028. If you have any questions, please contact the department (see contact box).

Students interested in this area of study should pursue the new Certificate in International Business (p. 1564).

The international business (https://business.wisc.edu/undergraduate/majors/international-business/) major helps students develop an

understanding of the global macroeconomic environment and the complexities of cross-border transactions. International business is an interdisciplinary field and courses focus on knowledge acquisition as well as application of concepts. A selected regional emphasis provides a platform to gain language and area studies knowledge that often underpins successful adaptation for regional and local markets. The embedded study abroad requirement helps students develop cross-cultural awareness and skills.

International business careers span industries and economic sectors, and business functions and geographies, and often include domestic positions with global scope. Positions in international business involve strategy, leadership, research, government relations, creativity, technical expertise, and cultural fluency.

HOW TO GET IN

HOW TO GET IN

The Business: International Business, BBA no longer admits new students after Summer 2023 and the program will be discontinued Fall 2028. If you have any questions, please contact the department (see contact box).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 15) section of the Guide.

General Education
- Breadth–Humanities/Literature/Arts: 6 credits
- Breadth–Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Breadth–Social Studies: 3 credits
- Communication Part A & Part B
- Ethnic Studies
- Quantitative Reasoning Part A & Part B

SCHOOL OF BUSINESS REQUIREMENTS

The Wisconsin Bachelor of Business Administration (BBA) program combines UW–Madison's general liberal education requirements, broad coverage of core business disciplines, and cutting-edge signature courses to create a strong academic foundation upon which students delve deeply into their majors.

Business Core Requirement		
Business Signature Requirement		

BUSINESS: INTERNATIONAL BUSINESS MAJOR REQUIREMENTS

International business responsibilities and careers typically arise after graduates first develop skills in a functional area of business, such as marketing, finance, management and operations. This functional expertise typically drives initial career placement and advancement. Therefore, the international business major must be paired with another major within the School of Business.

Some international business issues are global in nature, but many challenges and opportunities faced by multinational firms are regional and local in nature and often arise due to differences in institutions, politics and cultures among nations. This 'glocal' reality means that international business leaders must possess both global and local awareness. To develop some perspective on regional and local cultural issues, international business majors select a geographic region of emphasis and select language and area studies courses accordingly. Studying abroad on an approved program in the selected region of emphasis for one fall or spring semester is also required for the major.

A student must complete a minimum of 24 credits, distributed as follows:

Code	Title	Credits
Required Course		
INTL BUS 200	International Business	3
International Business Coursework		
Select 9 credits from the following. A minimum of 3 credits must be from the International Business (INTL BUS) department.		9
INTL BUS/ GEN BUS 320	Intercultural Communication in Business	
INTL BUS 365	Contemporary Topics	
INTL BUS/ M H R 403	Global Issues in Management	
INTL BUS/ MARKETNG 420	Global Marketing Strategy	
INTL BUS/ FINANCE 445	Multinational Business Finance	
INTL BUS/A A E/ ECON 462	Latin American Economic Development	
A A E/ INTL ST 373	Globalization, Poverty and Development	
A A E/ INTL ST 374	The Growth and Development of Nations in the Global Economy

ECON 464	International Trade	
ECON 467	International Industrial Organizations	
ECON/A A E 473	Economic Growth and Development in Southeast Asia	
ECON/A A E 474	Economic Problems of Developing Areas	
Global Interdisciplinary Perspective		
Select one course from the following:		3
GEOG 340	World Regions in Global Context	
INTL ST 101	Introduction to International Studies	
ANTHRO 104	Cultural Anthropology and Human Diversity	
POLI SCI 140	Introduction to International Relations	
Coursework in Foreign Language and Area Studies		
Select 9 credits of approved coursework for the specified region (found below)		9
Semester Abroad		
Complete a semester abroad on an approved program within the region of emphasis selected (found below)		
Total Credits		**24**

REGIONS OF EMPHASIS

Students must take 9 credits of language or area studies courses applicable to the region of emphasis. It is recommended to take at least one 3 credit language course applicable to your study abroad destination (unless the official language of that nation is English). Students must also choose a study abroad program that aligns with their region of emphasis.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Know and be able to apply international business theories and concepts to a variety of business situations.
2. Formulate business strategies appropriate to global, regional and local contexts.
3. Know the skills necessary for cross-cultural adaptation and know how to access resources to continue future learning.

ADVISING AND CAREERS

ADVISING AND CAREERS

ADVISING

Advising is an integral part of any student’s educational journey in the School of Business Undergraduate Program. Starting at Student Orientation, Advising, and Registration (SOAR), we encourage all students to connect with academic advisors. Business academic advisors have a wealth of knowledge about courses on campus, as well as policies and procedures.

Business career coaches help students with career exploration, internships, resumes, job search, interviewing, and more. We encourage students to connect with their career coach once they arrive on campus.

Business academic advisors and career coaches are passionate about student success. Students experiencing academic difficulty or personal

struggles are encouraged to talk to their advisor about how their individual situation may affect their academic performance.

Assigned Academic and Career Coaches

Admitted business students will have one assigned academic advisor. Career coaches are assigned by academic major to be able to provide industry-specific career guidance. If a student has more than one major, they may have more than one assigned career coach. Students can find their assigned advisor and coach by logging into the Starfish portal through MyUW.

For students not yet admitted to the School of Business, there is a team of pre-business advisors available.

Accessing Advising

Drop-in advising and scheduled appointments are available for admitted business students. Pre-business students may also schedule an appointment with a pre-business academic advisor or utilize drop-in academic advising.

For more information on accessing academic advising, please see our Academic Advising page (https://business.wisc.edu/undergraduate/academic-advising/).

For more information on accessing career coaching, please see our Career Coaching page (https://business.wisc.edu/undergraduate/careers/).

CAREERS

The perspective, intercultural awareness, and regional knowledge gained through the study of international business is always relevant, but has greatest career impact several years into one's career. Therefore, the international business major is designed to serve as a complement to another business major. International business careers develop after graduates first develop skills and expertise in a functional area of business, which drives initial career placement and advancement.

Careers in international business are not necessarily located overseas or even in major cities. Many positions are in U.S.-based offices or divisions of international firms.

ACCREDITATION

ACCREDITATION

AACSB International—The Association to Advance Collegiate Schools of Business (http://www.aacsb.edu/)

Accreditation status: Accredited. Next accreditation review: 2026-2027.

MANAGEMENT AND HUMAN RESOURCES

Human resource management studies focus on how organizations attract, motivate, develop, and retain employees, and how they interact with organizations representing employees.

Management studies focus on the activities of leadership, power, decision-making, organizational structure and change, strategy and policy, and the integration of organizational functions.

Studies in entrepreneurship are designed for students who are interested in bringing new ideas to the marketplace.

The department of Management and Human Resources offers opportunities within each area of study.

BUSINESS ADMINISTRATION: HUMAN RESOURCES, BBA

Human resources professionals play a crucial role in an organization's success: They attract, motivate, develop and retain employees. If you enjoy a high level of personal interaction and have a healthy amount of empathy and patience, advancing in this field is for you.

In the UW–Madison Online BBA in Human Resources you will learn about leadership, strategy, and decision-making that will land you in a demanding yet rewarding field. Through the highly ranked School of Business, you will gain valuable skills in communication, collaboration, problem solving, research and planning. You will learn to analyze an organization's compensation strategy, discern the best staffing techniques, address challenges facing labor and employment relations, use the best negotiation tactics and design work systems that help employees contribute to an organization's performance.

After you graduate, you'll attract top national employers in a variety of industries, such as finance and insurance, health care and social assistance, professional/scientific/technical services and manufacturing. The BBA in Business Administration: Human Resources offered through UW–Madison Online will equip you for a broad array of careers, from human resources manager to compensation analyst or compliance manager.

HOW TO GET IN

HOW TO GET IN

Students applying to the BBA in Business Administration-Human Resources program apply through UW-Madison Online (https://online.wisc.edu/). UW–Madison Online undergraduate programs are for those applying as transfer students (i.e., those transferring at least 12 college credits). UW-Madison re-entry students may also be considered. For more information, visit the UW-Madison Online admissions website (https://online.wisc.edu/apply/).

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communication & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

SCHOOL OF BUSINESS BBA REQUIREMENTS

The Wisconsin Bachelor of Business Administration (BBA) in Business Administration online degree program combines core general education requirements with a broad coverage of core business disciplines to create a strong academic foundation upon which students delve deeply into their majors.

LIBERAL STUDIES

Liberal studies requirements must be completed prior to graduation.

Communication A	Complete either: • one course with the Communication A designation, or • satisfaction of Communication A based on UW Placement Test.
Microeconomi	Complete one: • ECON 101 • ECON 111 • A A E 101

Macroeconomics	Complete either: • ECON 102 • ECON 111
Social Science	One 3+ credit course with the Social Science designation.
Math	Complete one: • satisfaction of Quantitative Reasoning A based on UW Placement Test • MATH 112 • MATH 113 • MATH 114 • MATH 211 • MATH 213 • MATH 221 • MATH 222
Humanities, Literature and Arts	Two 3+ credit courses with the Humanities or Literature designations.
Science	6 credits with the Biological, Natural, or Physical Science designations. Courses in or cross-listed with MATH or STAT cannot be used to meet this requirement.
Ethnic Studies	One 3+ credit course with the Ethnic Studies designation.
Ethics	Complete one: • PHILOS 241 • PHILOS 243 • PHILOS 244 • PHILOS 341 • PHILOS/ENVIR ST 441 • L I S 461

BUSINESS ADMINISTRATION: MANAGEMENT, BBA

Management studies focus on the activities of leadership, power, decision-making, organizational structure and change, strategy and policy, and the integration of organizational functions. If you aim to be an entrepreneur or advance in a leadership position in a private business, government or nonprofit organization, a BBA in Management is a good fit for you.

Through UW–Madison Online, you'll learn from top faculty in the field. From the highly ranked School of Business, you will gain valuable skills in communication, collaboration, planning, problem solving and building relationships. You will learn to develop successful team structures that maximize performance, design systems to achieve strategic objectives in a global business environment, diagnose problems and design effective interventions, and evaluate an organization to maximize its competitive advantage within an industry.

This degree will prepare you to work for businesses large and small or for yourself as a business owner or entrepreneur. Top industries hiring in this field include finance and insurance, health care and social assistance, professional/scientific/technical services and manufacturing. The BBA in Business Administration: Management, offered fully online, will equip you for a broad array of careers, from business owner to talent acquisition manager or compensation analyst, to name just a few.

BUSINESS LEADERSHIP, CERTIFICATE

The undergraduate certificate in business leadership provides business students with the opportunity to further develop leadership competencies and skills that are critical to any career path. It allows for a lot of flexibility so that students can customize their coursework to best align with their career interests.

HOW TO GET IN

HOW TO GET IN

To declare this certificate, students must be admitted to UW–Madison and the School of Business (WSB). To find out more about the school's admissions process for undergraduate students, please see Entering the School (https://guide.wisc.edu/undergraduate/business/#enteringtheschooltext). Contact the WSB Undergraduate Academic Advising Office listed under the Advising and Careers tab for more information or to declare the certificate.

Students may not earn this certificate in conjunction with the exclusively online BBAs in Business Administration-Human Resources, Business Administration-Management, or Business Administration-Marketing.

REQUIREMENTS

REQUIREMENTS

This certificate requires 12 credits of coursework. A minimum 2.000 GPA must be earned on required certificate coursework. Completed courses listed within the certificate curriculum, whether or not they meet a specific requirement, are included in the calculation of the GPA.

At least 50% of the certificate credits must be earned in residence at UW-Madison as a degree-seeking undergraduate. All certificate courses must be graded; credit/no credit and pass/fail do not qualify.

Total Credits		**12**

Note: Some Entrepreneurial Mindset and Inclusivity course options have prerequisite requirements.

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Define critical terms and theories associated with leadership in organizations.
2. Identify and act upon opportunities by applying entrepreneurial thinking, creative problem-solving, and strategic decision-making to create unique value.
3. Lead groups of people with diverse backgrounds and perspectives in business contexts.
4. Demonstrate adaptability and resilience by navigating setbacks, managing conflict, and maintaining focus under pressure to achieve long-term goals.

ADVISING AND CAREERS

ADVISING AND CAREERS

ACADEMIC ADVISING

Current BBA students who have declared the certificate can receive academic advising from their primary academic advisor.

Drop-in advising and scheduled appointments are available for admitted business students. Students can schedule their appointments via Starfish.

For more information on accessing academic advising, please see the Academic Advising (https://business.wisc.edu/undergraduate/academic-advising/) page.

Please note enrollment in required courses is subject to availability. As a result, completion of the certificate within an individual student's intended graduation timeline cannot always be guaranteed.

CAREER ADVISING

Current BBA students declared in the certificate will also be assigned a career coach.

For more information about accessing career coaching, please see our Career Coaching (https://business.wisc.edu/undergraduate/careers/) page.

BUSINESS: ENTREPRENEURSHIP, BBA

Founded in 1900, the School of Business established one of the first five business programs in the nation. That entrepreneurial spirit remains strong.

As a student in the School of Business, you will find yourself inspired by peers, staff, alumni, business leaders, and world-renowned faculty who are focused, collaborative, and engaged in every aspect of the student experience. You will join a highly-ranked program that equips you to meet both academic and career challenges. Employers value School of Business graduates because of the comprehensive preparation this learning environment provides. Graduates possess highly sought-after general management and specialized expertise in business.

Joining collaborative, inspiring, trustworthy, and progressive School of Business alumni, Business Badger graduates are prepared to lead their organizations to success and transform the world of business. Together Forward!

BACHELOR OF BUSINESS ADMINISTRATION IN BUSINESS: ENTREPRENEURSHIP

The BBA degree in Entrepreneurship (BBAE) prepares students to launch and grow their own ventures, join innovative startups, or work in established organizations that foster an entrepreneurial mindset. Students who pursue the BBAE degree will learn the essential skills and knowledge needed to identify, evaluate, and pursue new business opportunities as well as to manage and lead entrepreneurial teams and organizations. They will be prepared for roles such as a founder, a manager in a growth-oriented company, or a consultant supporting clients developing and de-risking new products and services.

The program is open to students who have completed the pre-business requirements and have been admitted to the School of Business. BBAE students will complete a core curriculum that covers the fundamentals of business, such as accounting, finance, marketing, operations, and strategy. In addition, BBAE students will choose from a variety of electives that focus on different aspects of entrepreneurship, such as creativity, innovation, social entrepreneurship, and venture capital. BBAE students will also have opportunities to participate in experiential learning activities, such as innovation competitions, accelerator programs, supportive student organizations, and more on campus.

The BBAE degree aims to develop students' entrepreneurial mindset and capabilities as well as their professional and ethical values. Students will gain confidence in their ability to generate and implement innovative ideas as well as to overcome challenges and uncertainties in the entrepreneurial process. Students will also develop their communication and collaboration skills as well as an awareness of the social and environmental impact of their entrepreneurial endeavors.

The BBAE degree opens up a wide range of career paths for graduates who aspire to create value and make a difference in the world. Whether they choose to start their own businesses, join existing companies, or work in entrepreneurial organizations, BBAE graduates will be equipped with the skills and knowledge to succeed.

CURRENT UW–MADISON STUDENTS

Requirements	Details
How to get in	Application required. Meeting the requirements listed below does not guarantee admission. (https://admissions.wsb.wisc.edu/BbaPreBusiness (https://admissions.wsb.wisc.edu/BbaPreBusiness/))
Courses required to get in	Students are required to complete each of the requirements below. Requirements can be completed via coursework, test credit, transfer work, or placement test (if applicable). Communication A • One course with the Communication A designation Microconomics • ECON 101 • ECON 111 • A A E 101 Calculus, completed or in-progress • MATH 211 • MATH 221 Students who started at UW-Madison before Fall 2026 should refer to their DARS report to confirm course requirements for admission application eligibility.
GPA requirements to get in	Minimum 3.0 UW-Madison GPA.
Credits required to get in	• If you started at UW-Madison as a first-year student, 24 credits completed/in-progress at UW-Madison are required for application. • If you started at UW-Madison as a transfer student, 12 credits completed/in-progress at UW-Madison are required for application. • In-progress course credits towards this minimum must be completed at the end of the spring application term.
Other	• Pre-Business 101 workshop required during the intended application year. • Pre-Business applicants may apply once within their first four terms (Fall/Spring) at UW-Madison, based on enrollment date. There is no credit maximum.

Semester	Deadline to apply	Decision notification timeline
To apply for a fall start	Mid March	On or before July 1st.
To apply for a spring start	This program does not accept applications to start in the spring.	
To apply for a summer start	This program does not accept applications to start in the summer.	

PROSPECTIVE FIRST-YEAR APPLICANTS

All prospective UW–Madison students must apply through the central Office of Admissions and Recruitment (https://www.admissions.wisc.edu/). Prospective high school students may be

considered for direct admission to Business based on their application to the University of Wisconsin-Madison. Simply list a Business interest as your top academic area of interest on the University application.

PROSPECTIVE TRANSFER APPLICANTS

Transfer students at University of Wisconsin System campuses or Wisconsin Technical Colleges may apply separately for admission to both the University of Wisconsin-Madison and the School of Business during the spring term for fall enrollment. Information for prospective transfer students can be found here: https://business.wisc.edu/undergraduate/admissions/transfer-students/.

ADDITIONAL INFORMATION

Students declared in Business: Entrepreneurship cannot earn the Summer Certificate in Business Fundamentals, Certificate in Business, or the Certificate in Entrepreneurship due to curriculum overlap.

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

SCHOOL OF BUSINESS BBA REQUIREMENTS

The Wisconsin Bachelor of Business Administration (BBA) program combines UW–Madison's core general education requirements, broad coverage of core business disciplines, and cutting-edge experiential learning and signature courses to create a strong academic foundation upon which students delve deeply into their majors.

BUSINESS LIBERAL STUDIES

Liberal studies requirements must be completed prior to graduation. **A single course cannot be used to fulfill multiple liberal studies requirements.**

Communication A	Complete either: • one course with the Communication A designation, or • satisfaction of Communication A based on UW Placement Test.
Microeconomics	Complete one: • ECON 101 • ECON 111 • A A E 101
Macroeconomics	Complete either: • ECON 102 • ECON 111
Social Science	One 3+ credit course with the Social Science designation. Courses in or cross-listed with the following subjects do not satisfy this requirement: ACCT I S, ACT SCI, FINANCE, GEN BUS, INFO SYS, INTL BUS, M H R, MARKETNG, OTM, R M I, REAL EST.
Calculus	Complete either: • MATH 211 • MATH 221
Literature	One 3+ credit course with the Literature designation.
Science	6 credits with the Biological, Natural, or Physical Science designations. Courses in or cross-listed with MATH or STAT cannot be used to meet this requirement.
Ethnic Studies	One 3+ credit course with the Ethnic Studies designation.
Humanities	One 3+ credit course with the Humanities designation.
Ethics	Complete one: • PHILOS 241 • PHILOS 243 • PHILOS 244 • PHILOS 341 • PHILOS/ENVIR ST 441 • L I S 461

BUSINESS FUNDAMENTALS

Code	Title	Credits
GEN BUS 106	Foundational Skills for Business Analysis	1
GEN BUS 107	Introduction to Artificial Intelligence in Business	1

ADVISING AND CAREERS

ADVISING AND CAREERS

ADVISING

Advising is an integral part of any student's educational journey in the School of Business Undergraduate Program. Starting at Student Orientation, Advising, and Registration (SOAR), we encourage all students to connect with academic advisors. Business academic advisors have a wealth of knowledge about courses on campus, as well as policies and procedures.

Business career coaches help students with career exploration, internships, resumes, job search, interviewing, and more. We encourage students to connect with their career coach once they arrive on campus.

Business academic advisors and career coaches are passionate about student success. Students experiencing academic difficulty or personal struggles are encouraged to talk to their advisor about how their individual situation may affect their academic performance.

Assigned Academic and Career Coaches

Admitted business students will have one assigned academic advisor. Career coaches are assigned by academic major to be able to provide industry-specific career guidance. If a student has more than one major, they may have more than one assigned career coach. Students can find their assigned advisor and coach by logging into the Starfish portal through MyUW.

For students not yet admitted to the School of Business, there is a team of pre-business advisors available.

Accessing Advising

Drop-in advising and scheduled appointments are available for admitted business students. Pre-business students may also schedule an appointment with a pre-business academic advisor or utilize drop-in academic advising.

For more information on accessing academic advising, please see our Academic Advising page (https://business.wisc.edu/undergraduate/academic-advising/).

For more information on accessing career coaching, please see our Career Coaching page (https://business.wisc.edu/undergraduate/careers/).

ACCREDITATION

ACCREDITATION

AACSB International—The Association to Advance Collegiate Schools of Business (http://www.aacsb.edu/)

Accreditation status: Accredited. Next accreditation review: 2026–2027.

BUSINESS: HUMAN RESOURCE MANAGEMENT, BBA

Founded in 1900, the School of Business established one of the first five business programs in the nation. That entrepreneurial spirit remains strong.

As a student in the School of Business, you will find yourself inspired by peers, staff, alumni, business leaders, and world-renowned faculty who are focused, collaborative, and engaged in every aspect of the student experience. You will join a highly-ranked program that equips you to meet both academic and career challenges. Employers value School of Business graduates because of the comprehensive preparation this learning environment provides. Graduates possess highly sought-after general management and specialized expertise in business.

Joining collaborative, inspiring, trustworthy, and progressive School of Business alumni, Business Badger graduates are prepared to lead their organizations to success and transform the world of business. Together Forward!

BACHELOR OF BUSINESS ADMINISTRATION IN BUSINESS: HUMAN RESOURCE MANAGEMENT

The BBA in Human Resource Management (BBAHR) degree prepares students to manage and lead the most valuable asset of any organization: its people. Students who pursue the BBAHR degree will learn how to design, implement, and evaluate effective human resource policies and practices that align with the strategic goals and objectives of an organization as well as with the legal and ethical standards of the profession.

The program is open to students who have completed the pre-business requirements and have been admitted to the School of Business. BBAHR students will complete a core curriculum that covers the fundamentals of business, such as accounting, finance, marketing, operations, and strategy. In addition, BBAHR students will choose from a variety of electives that focus on different aspects of human resource management, such as talent acquisition, compensation and benefits, performance management, employee relations, diversity and inclusion,

and organizational development. BBAHR students will also have the opportunity to participate in experiential learning activities, such as case studies, simulations, and applied projects.

The BBAHR degree aims to develop students' knowledge and skills in human resource management as well as their professional and ethical values. Students will gain an understanding of the theories and concepts that underlie human resource management, as well as the practical applications and best practices that are relevant in complex business environments. Students will also develop their communication and collaboration skills along with their critical thinking and problem-solving abilities.

The BBAHR degree opens up a wide range of career paths for graduates who aspire to make a positive impact on the performance and well-being of employees and organizations. Whether they choose to work as human resource generalists or specialists, consultants or analysts, compliance managers or leaders, BBAHR graduates will be equipped with the skills and knowledge to succeed in human resource management.

HOW TO GET IN

HOW TO GET IN

CURRENT UW–MADISON STUDENTS

Requirements	Details
How to get in	Application required. Meeting the requirements listed below does not guarantee admission. (https://admissions.wsb.wisc.edu/BbaPreBusiness (https://admissions.wsb.wisc.edu/BbaPreBusiness/))
Courses required to get in	Students are required to complete each of the requirements below. Requirements can be completed via coursework, test credit, transfer work, or placement test (if applicable). Communication A • One course with the Communication A designation Microconomics • ECON 101 • ECON 111 • A A E 101 Calculus, completed or in-progress • MATH 211 • MATH 221 Students who started at UW-Madison before Fall 2026 should refer to their DARS report to confirm course requirements for admission application eligibility.
GPA requirements to get in	Minimum 3.0 UW-Madison GPA.
Credits required to get in	• If you started at UW-Madison as a first-year student, 24 credits completed/in-progress at UW-Madison are required for application. • If you started at UW-Madison as a transfer student, 12 credits completed/in-progress at UW-Madison are required for application. • In-progress course credits towards this minimum must be completed at the end of the spring application term.
Other	• Pre-Business 101 workshop required during the intended application year. • Pre-Business applicants may apply once within their first four terms (Fall/Spring) at UW-Madison, based on enrollment date. There is no credit maximum.

Semester	Deadline to apply	Decision notification timeline
To apply for a fall start	Mid March	On or before July 1st.
To apply for a spring start	This program does not accept applications to start in the spring.	
To apply for a summer start	This program does not accept applications to start in the summer.	

PROSPECTIVE FIRST-YEAR APPLICANTS

All prospective UW–Madison students must apply through the central Office of Admissions and Recruitment (https://www.admissions.wisc.edu/). Prospective high school students may be considered for direct admission to Business based on their application to the University of Wisconsin-Madison. Simply list a Business interest as your top academic area of interest on the University application.

PROSPECTIVE TRANSFER APPLICANTS

Transfer students at University of Wisconsin System campuses or Wisconsin Technical Colleges may apply separately for admission to both the University of Wisconsin-Madison and the School of Business during the spring term for fall enrollment. Information for prospective transfer students can be found here: https://business.wisc.edu/undergraduate/admissions/transfer-students/.

ADDITIONAL INFORMATION

Students declared in Business: Human Resource Management cannot earn the Summer Certificate in Business Fundamentals, Certificate in Business, or the Certificate in Entrepreneurship due to curriculum overlap.

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communication & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

SCHOOL OF BUSINESS BBA REQUIREMENTS

The Wisconsin Bachelor of Business Administration (BBA) program combines UW–Madison's core general education requirements, broad coverage of core business disciplines, and cutting-edge experiential learning and signature courses to create a strong academic foundation upon which students delve deeply into their majors.

BUSINESS LIBERAL STUDIES

Liberal studies requirements must be completed prior to graduation. **A single course cannot be used to fulfill multiple liberal studies requirements.**

Communication A	Complete either: • one course with the Communication A designation, or • satisfaction of Communication A based on UW Placement Test.
Microeconomics	Complete one: • ECON 101 • ECON 111 • A A E 101
Macroeconomics	Complete either: • ECON 102 • ECON 111
Social Science	One 3+ credit course with the Social Science designation. Courses in or cross-listed with the following subjects do not satisfy this requirement: ACCT I S, ACT SCI, FINANCE, GEN BUS, INFO SYS, INTL BUS, M H R, MARKETNG, OTM, R M I, REAL EST.
Calculus	Complete either: • MATH 211 • MATH 221
Literature	One 3+ credit course with the Literature designation.
Science	6 credits with the Biological, Natural, or Physical Science designations. Courses in or cross-listed with MATH or STAT cannot be used to meet this requirement.
Ethnic Studies	One 3+ credit course with the Ethnic Studies designation.
Humanities	One 3+ credit course with the Humanities designation.

Ethics	Complete one: • PHILOS 241 • PHILOS 243 • PHILOS 244 • PHILOS 341 • PHILOS/ENVIR ST 441 • L I S 461

ADVISING AND CAREERS

ADVISING AND CAREERS

ADVISING

Advising is an integral part of any student's educational journey in the School of Business Undergraduate Program. Starting at Student Orientation, Advising, and Registration (SOAR), we encourage all students to connect with academic advisors. Business academic advisors have a wealth of knowledge about courses on campus, as well as policies and procedures.

Business career coaches help students with career exploration, internships, resumes, job search, interviewing, and more. We encourage students to connect with their career coach once they arrive on campus.

Business academic advisors and career coaches are passionate about student success. Students experiencing academic difficulty or personal struggles are encouraged to talk to their advisor about how their individual situation may affect their academic performance.

Assigned Academic and Career Coaches

Admitted business students will have one assigned academic advisor. Career coaches are assigned by academic major to be able to provide industry-specific career guidance. If a student has more than one major, they may have more than one assigned career coach. Students can find their assigned advisor and coach by logging into the Starfish portal through MyUW.

For students not yet admitted to the School of Business, there is a team of pre-business advisors available.

Accessing Advising

Drop-in advising and scheduled appointments are available for admitted business students. Pre-business students may also schedule an appointment with a pre-business academic advisor or utilize drop-in academic advising.

For more information on accessing academic advising, please see our Academic Advising page (https://business.wisc.edu/undergraduate/academic-advising/).

For more information on accessing career coaching, please see our Career Coaching page (https://business.wisc.edu/undergraduate/careers/).

ACCREDITATION

ACCREDITATION

AACSB International—The Association to Advance Collegiate Schools of Business (http://www.aacsb.edu/)

Accreditation status: Accredited. Next accreditation review: 2026–2027.

BUSINESS: MANAGEMENT AND HUMAN RESOURCES, BBA

The Business: Management and Human Resources, BBA no longer admits new students after Summer 2025 and the program will be discontinued Fall 2029. If you have any questions, please contact the department (see contact box).

Students interested in these areas of study should pursue the new majors: Business: Management (p. 1612), Business: Human Resource Management (p. 1595), and Business: Entrepreneurship (p. 1590).

Students in the Management and Human Resources (https://business.wisc.edu/undergraduate/majors/management-human-resources/) major can choose from various options. Students in human resources study how organizations attract, motivate, develop, and retain employees, and how they interact with organizations representing employees. Management studies focus on the activities of leadership, power, decision-making, organizational structure and change, strategy and policy, and the integration of organizational functions. Studies in entrepreneurship are designed for students who are interested in bringing new ideas to the marketplace.

HOW TO GET IN

HOW TO GET IN

The Business: Management and Human Resources, BBA no longer admits new students after Summer 2025 and the program will be discontinued Fall 2029. If you have any questions, please contact the department (see contact box).

Students wishing to pursue this major on campus must be admitted to the School of Business. Once admitted, students are able to pursue any business major they choose. To find out more about the school's admissions process for undergraduate students, please see Entering the School (p. 1537).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 15) section of the Guide.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B • Ethnic Studies • Quantitative Reasoning Part A & Part B

SCHOOL OF BUSINESS REQUIREMENTS

The Wisconsin Bachelor of Business Administration (BBA) program combines UW–Madison's general liberal education requirements, broad coverage of core business disciplines, and cutting-edge signature courses to create a strong academic foundation upon which students delve deeply into their majors.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. (Human Resources and Management Tracks) Understand that the management of human resources is vital to a successful business strategy and organizational effectiveness.
2. (Human Resources Track) Analyze organization compensation strategy to identify problems and develop solutions that support the organization's strategy.
3. (Human Resources Track) Discern which staffing techniques are poor, fair, and good predictors of employees' future job performance.
4. (Human Resources Track) Identify and address the various challenges currently facing labor and employment relations.

5. (Human Resources Track) Apply appropriate tactics in competitive and cooperative negotiations individually and as part of a negotiation team.
6. (Human Resources Track) Design work systems and roles that allow employees to contribute to organizational performance.
7. (Entrepreneurship Track) Develop innovative solutions to challenging problems and generate economic and socially valuable outcomes.
8. (Entrepreneurship Track) Create, assess, shape, and act on opportunities in a variety of contexts and organizations.
9. (Entrepreneurship Track) Make decisions based on mindfulness of relevant stakeholders, ethical reflections, and an attempt to create and sustain social, environmental, and economic value.
10. (Entrepreneurship Track) Incorporate cultural context and complexities when managing in a global environment.
11. (Entrepreneurship Track) Exercise appropriate leadership, value diverse perspectives, and work collaboratively to accomplish organizational objectives in a dynamic environment.
12. (Management Track) Develop successful team structures that mitigate decision-making pitfalls and interpersonal conflict while maximizing team performance.
13. (Management Track) Design successful organization structures to achieve strategic objectives and execute operational plans within a global business environment.
14. (Management Track) Diagnose management and organizational problems from an internal or external consultant's perspective and design interventions to enhance organizational effectiveness.
15. (Management Track) Evaluate an organization's internal capabilities and external pressures and maximize its competitive advantage within an industry.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This is a **sample** four-year plan for students directly admitted into the School of Business from high school. We encourage all students to consult with their academic advisor to develop an individualized plan that meets their specific needs.

There are three named options for the MHR major from which students must choose. Students may also select any combination of two options. There are six plans below representing these options.

BUSINESS: MANAGEMENT AND HUMAN RESOURCES: HUMAN RESOURCES

The Human Resources named option in the Business: Management and Human Resources, BBA no longer admits new students after Summer 2024 and the program will be discontinued Fall 2028. If you have any questions, please contact the department (see contact box).

Students interested in this area of study should pursue the new Business: Human Resource Management, BBA (p. 1595).

HUMAN RESOURCES OPTION

Students in human resources management study how organizations attract, motivate, develop, and retain employees, and how they interact with organizations representing employees. Topics covered include recruiting, external and internal staffing, compensation theory and administration, performance management, training and development, labor-management relations, and equal employment opportunity. This concentration is pursued by students seeking staff jobs in the human resources department, supervisory and team leader jobs, and entry into management training programs that precede job placement. It is appropriate for those who seek positions in both public and private sector organizations.

REQUIREMENTS

REQUIREMENTS

A student must take a minimum of 12 credits, distributed as follows:

Code	Title	Credits
Core		
M H R 305	Human Resource Management	3

BUSINESS: MANAGEMENT AND HUMAN RESOURCES: MANAGEMENT

The Management named option in the Business: Management and Human Resources, BBA no longer admits new students after Summer 2024 and the program will be discontinued Fall 2028. If you have any questions, please contact the department (see contact box).

Students interested in this area of study should pursue the new Business: Management, BBA (p. 1612).

MANAGEMENT OPTION

This major focuses on the activities of management in organizations. Course material covers leadership, power, decision-making, organizational structure and change, strategy and policy, and the integration of organizational functions (such as marketing and finance). The topics apply to business, government, health care, and other service organizations. This concentration is especially appropriate for students who seek roles as general managers and administrators at all levels of an organization, rather than roles as technical specialists. Students are also helped in developing a long-term perspective of both their own careers and the function of management in organizations and society.

REQUIREMENTS

BUSINESS: MANAGEMENT, BBA

Founded in 1900, the School of Business established one of the first five business programs in the nation. That entrepreneurial spirit remains strong.

As a student in the School of Business, you will find yourself inspired by peers, staff, alumni, business leaders, and world-renowned faculty who are focused, collaborative, and engaged in every aspect of the student experience. You will join a highly-ranked program that equips you to meet both academic and career challenges. Employers value School of Business graduates because of the comprehensive preparation this learning environment provides. Graduates possess highly sought-after general management and specialized expertise in business.

Joining collaborative, inspiring, trustworthy, and progressive School of Business alumni, Business Badger graduates are prepared to lead their organizations to success and transform the world of business. Together Forward!

BACHELOR OF BUSINESS ADMINISTRATION IN BUSINESS: MANAGEMENT

The BBA in Management (BBAM) degree prepares students to plan, organize, direct, and orchestrate the activities and resources of organizations in various industries and sectors. Students who pursue the BBAM degree will learn how to formulate and implement effective strategies that enable organizations to achieve their vision, mission, and objectives as well as to adapt to changing industry conditions and competitive forces.

The program is open to students who have completed the pre-business requirements and have been admitted to the School of Business. BBAM students will complete a core curriculum that covers the fundamentals of business, such as accounting, finance, marketing, operations, and strategy. Additionally, BBAM students will choose from a variety of electives that focus on different aspects of management, such as inclusive leadership, organizational behavior, strategic innovation, organizational change, international business, and social responsibility. BBM students will also have the opportunity to participate in experiential learning activities, such as case competitions, consulting projects, and simulations.

The BBAM degree aims to develop students' knowledge and skills in management as well as their professional and ethical values. Students will gain an understanding of the theories and frameworks that underlie management along with practical tools and techniques that are applicable in diverse organizational contexts. They will have the ability to assess the financial, marketing, and operational implications of organizational strategies, identify and appropriate business value through analysis and action, and communicate ideas and recommendations to others. Students will also develop collaboration skills.

The BBAM degree opens up a wide range of career paths for graduates, including roles involving project management, business development, and strategic or financial analysis where an understanding of an organization's strategy, design, process, culture, and context are desirable. Whether they choose to work as managers or consultants, entrepreneurs or analysts, BBAM graduates will be equipped with the skills and knowledge to lead private businesses, nonprofit organizations, and public-interest agencies.

HOW TO GET IN

HOW TO GET IN

CURRENT UW–MADISON STUDENTS

Requirements	Details
How to get in	Application required. Meeting the requirements listed below does not guarantee admission. (https://admissions.wsb.wisc.edu/BbaPreBusiness (https://admissions.wsb.wisc.edu/BbaPreBusiness/))
Courses required to get in	Students are required to complete each of the requirements below. Requirements can be completed via coursework, test credit, transfer work, or placement test (if applicable). Communication A • One course with the Communication A designation Microconomics • ECON 101 • ECON 111 • A A E 101 Calculus, completed or in-progress • MATH 211 • MATH 221 Students who started at UW-Madison before Fall 2026 should refer to their DARS report to confirm course requirements for admission application eligibility.
GPA requirements to get in	Minimum 3.0 UW-Madison GPA.
Credits required to get in	• If you started at UW-Madison as a first-year student, 24 credits completed/in-progress at UW-Madison are required for application. • If you started at UW-Madison as a transfer student, 12 credits completed/in-progress at UW-Madison are required for application. • In-progress course credits towards this minimum must be completed at the end of the spring application term.

Other	• Pre-Business 101 workshop required during the intended application year. • Pre-Business applicants may apply once within their first four terms (Fall/Spring) at UW-Madison, based on enrollment date. There is no credit maximum.

Semester	Deadline to apply	Decision notification timeline
To apply for a fall start	Mid March	On or before July 1st.
To apply for a spring start	This program does not accept applications to start in the spring.	
To apply for a summer start	This program does not accept applications to start in the summer.	

PROSPECTIVE FIRST-YEAR APPLICANTS

All prospective UW–Madison students must apply through the central Office of Admissions and Recruitment (https://www.admissions.wisc.edu/). Prospective high school students may be considered for direct admission to Business based on their application to the University of Wisconsin-Madison. Simply list a Business interest as your top academic area of interest on the University application.

PROSPECTIVE TRANSFER APPLICANTS

Transfer students at University of Wisconsin System campuses or Wisconsin Technical Colleges may apply separately for admission to both the University of Wisconsin-Madison and the School of Business during the spring term for fall enrollment. Information for prospective transfer students can be found here: https://business.wisc.edu/undergraduate/admissions/transfer-students/.

ADDITIONAL INFORMATION

Students declared in Business: Management cannot earn the Summer Certificate in Business Fundamentals, Certificate in Business, or the Certificate in Entrepreneurship due to curriculum overlap.

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communication & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.

Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

SCHOOL OF BUSINESS BBA REQUIREMENTS

The Wisconsin Bachelor of Business Administration (BBA) program combines UW–Madison's core general education requirements, broad coverage of core business disciplines, and cutting-edge experiential learning and signature courses to create a strong academic foundation upon which students delve deeply into their majors.

BUSINESS LIBERAL STUDIES

Liberal studies requirements must be completed prior to graduation. **A single course cannot be used to fulfill multiple liberal studies requirements.**

Communication A	Complete either: • one course with the Communication A designation, or • satisfaction of Communication A based on UW Placement Test.
Microeconomics	Complete one: • ECON 101 • ECON 111 • A A E 101
Macroeconomics	Complete either: • ECON 102 • ECON 111
Social Science	One 3+ credit course with the Social Science designation. Courses in or cross-listed with the following subjects do not satisfy this requirement: ACCT I S, ACT SCI, FINANCE, GEN BUS, INFO SYS, INTL BUS, M H R, MARKETNG, OTM, R M I, REAL EST.
Calculus	Complete either: • MATH 211 • MATH 221
Literature	One 3+ credit course with the Literature designation.
Science	6 credits with the Biological, Natural, or Physical Science designations. Courses in or cross-listed with MATH or STAT cannot be used to meet this requirement.
Ethnic Studies	One 3+ credit course with the Ethnic Studies designation.
Humanities	One 3+ credit course with the Humanities designation.
Ethics	Complete one: • PHILOS 241 • PHILOS 243 • PHILOS 244 • PHILOS 341 • PHILOS/ENVIR ST 441 • L I S 461

Total Credits		**18**

[1] Only 3 credits can be counted towards the 6 required Elective credits.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Analyze organizational capabilities and external opportunities to develop strategies in pursuit of competitive advantages.
2. Assess and respond to different types of change in the competitive environment (technological, rivals' actions, disruption, etc.) that may affect a firm's strategic position.
3. Develop appropriate tactics in competitive and cooperative negotiations to promote team effectiveness, manage conflict, and support organizational strategies when negotiating with external partners.
4. Develop team norms, routines, and structures to maximize team performance and align with organizational goals and strategies.
5. Diagnose management, organizational, and environmental challenges from a change agent's perspective and design interventions to enhance effectiveness and stakeholder value.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

Students must complete at least 120 total credits to be eligible for graduation.

ADVISING AND CAREERS

ADVISING AND CAREERS

ADVISING

Advising is an integral part of any student's educational journey in the School of Business Undergraduate Program. Starting at Student Orientation, Advising, and Registration (SOAR), we encourage all students to connect with academic advisors. Business academic advisors have a wealth of knowledge about courses on campus, as well as policies and procedures.

Business career coaches help students with career exploration, internships, resumes, job search, interviewing, and more. We encourage students to connect with their career coach once they arrive on campus.

Business academic advisors and career coaches are passionate about student success. Students experiencing academic difficulty or personal struggles are encouraged to talk to their advisor about how their individual situation may affect their academic performance.

Assigned Academic and Career Coaches

Admitted business students will have one assigned academic advisor. Career coaches are assigned by academic major to be able to provide industry-specific career guidance. If a student has more than one major, they may have more than one assigned career coach. Students can find their assigned advisor and coach by logging into the Starfish portal through MyUW.

For students not yet admitted to the School of Business, there is a team of pre-business advisors available.

Accessing Advising

Drop-in advising and scheduled appointments are available for admitted business students. Pre-business students may also schedule an appointment with a pre-business academic advisor or utilize drop-in academic advising.

For more information on accessing academic advising, please see our Academic Advising page (https://business.wisc.edu/undergraduate/academic-advising/).

For more information on accessing career coaching, please see our Career Coaching page (https://business.wisc.edu/undergraduate/careers/).

ACCREDITATION

ACCREDITATION

AACSB International—The Association to Advance Collegiate Schools of Business (http://www.aacsb.edu/)

Accreditation status: Accredited. Next accreditation review: 2026–2027.

ENTREPRENEURSHIP FUNDAMENTALS, CERTIFICATE

The Certificate in Entrepreneurship Fundamentals enables students to supplement their major with coursework that cultivates entrepreneurial skills. The certificate's learning objectives ensure students develop skills necessary for identifying opportunities to launch and/or manage growth in ventures. These skills include strategy, planning, performance measurement, and ethics. While the certificate covers the steps needed to start a new venture, the learning outcomes are equally valuable to students seeking to make contributions through development of new products or services within an existing venture.

HOW TO GET IN

HOW TO GET IN

To declare this certificate, students must be admitted to UW–Madison and the Business Online Undergraduate Program within the School of Business. To find out more about the school's admissions process for undergraduate students, please see Entering the School (https://guide.wisc.edu/undergraduate/business/#enteringtheschooltext). Contact the Wisconsin BBA Advising Center listed under the Advising and Careers tab for more information or to declare the certificate.

REQUIREMENTS

REQUIREMENTS

A minimum 2.5 GPA must be earned on all coursework applied to meet the requirements of the certificate program. At least 50% of the certificate credits must be earned in residence at UW-Madison as a degree-seeking undergraduate.

Code	Title	Credits
ACCT I S 211	Introductory Managerial Accounting	3
M H R 322	Introduction to Entrepreneurship	3
Complete two of the following courses for 6 credits		6
M H R 434	Venture Creation	
MARKETNG 355	Marketing in a Digital Age	
MARKETNG 437	New Product Innovation	
Total Credits		**12**

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Identify business opportunities and creating ventures through market discovery, business model validation, and strategic planning.
2. Apply accounting principles to support organizational strategy, guide performance measurement, and make informed, ethical decisions in a business environment.
3. Define the basic steps taken to start a new venture.

ADVISING AND CAREERS

ADVISING AND CAREERS

ACCESSING ADVISING

Each UW-Madison Online student is assigned an academic advisor. The academic advisor will support the academic and personal success of each student including assisting students as they identify and clarify their educational goals, develop meaningful academic plans, and pursue their own Wisconsin experience.

ENTREPRENEURSHIP, CERTIFICATE

The undergraduate certificate in entrepreneurship (https://business.wisc.edu/undergraduate/certificates/entrepreneurship/) is one of the most popular certificates at UW–Madison. It offers opportunities for **non-business undergraduates** interested in learning the skills for entrepreneurial thinking. These skills are critical both now and in the future if you are starting a new venture, working for a startup, or tackling new ventures within existing organizations. Modern businesses rely heavily on the ability to recognize and seize opportunities. Cutting-edge technologies, innovative business models, and ever-changing market landscapes determine which firms thrive and which do not. Taking initiative, thinking entrepreneurially, and acting upon opportunities are key ingredients of success in this environment.

This certificate program offers a distinct array of courses that combine business entrepreneurship classes with the curricula of several colleges and schools at UW–Madison. Classes in entrepreneurship and related topics provide the skills necessary to succeed throughout a student's career. Student projects outside the classroom with local firms or student ventures provide students with hands-on business experience. This certificate program helps prepare students for roles such as business founder, product manager, engineer/scientist, new product designer, marketing or finance professional, nonprofit administrator, or consultant.

HOW TO GET IN

HOW TO GET IN

The Certificate in Entrepreneurship is open to undergraduate students declared in a major outside of the School of Business. Students declared in a major in the School of Business are not eligible for the certificate and should explore the Business: Entrepreneurship, BBA.

To declare the Certificate in Entrepreneurship, complete the declaration form linked within the Contact Information box.

Requirements

To be eligible to declare students must meet the following requirements:

- Good academic standing
- Currently enrolled UW–Madison student
- Undergraduate, degree-seeking student (non-business)
- Must be declared in a major at UW Madison

REQUIREMENTS

REQUIREMENTS

The Certificate in Entrepreneurship consists of 15 credits (a foundation course, advanced entrepreneurship coursework, and 9 credits of electives). Students are also responsible for any pre-requisite courses needed for advanced entrepreneurship or elective courses. Students are strongly encouraged to participate in related non-credit entrepreneurship immersion experiences such as competitions and student organizations.

FOUNDATION COURSEWORK

Code	Title	Credits
M H R 322	Introduction to Entrepreneurship	3

RESIDENCY AND QUALITY OF WORK

- Students must take at least 9 of the 15 required credits in residence at UW–Madison. Study abroad courses taken through a UW–Madison-sponsored program will count toward the number of credits in residence.
- To successfully complete the Certificate in Entrepreneurship program, students must earn a cumulative grade point average (GPA) of 2.50 or higher across all courses applied to the certificate.
- While students must pass each required course, there is no minimum GPA requirement for individual courses. The cumulative GPA is calculated based on all courses that count toward the certificate.

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Correctly demonstrate knowledge of basic market discovery techniques and apply basic market discovery techniques.
2. Demonstrate proficiency in knowing the basic steps taken to start a new venture.
3. Demonstrate knowledge of career paths in entrepreneurship.

ADVISING AND CAREERS

ADVISING AND CAREERS

ACADEMIC ADVISING

Certificate students will be assigned to the Business Certificate Advising Committee.

Drop-in advising and scheduled appointments are available to students who are declared in the certificate. Students can schedule their appointments via Starfish.

For more information on accessing academic advising, please see the Academic Advising (https://business.wisc.edu/undergraduate/academic-advising/) page.

Please note enrollment in required courses is subject to availability. As a result, completion of the certificate within an individual student's intended graduation timeline cannot always be guaranteed.

MARKETING

Marketing is the dynamic force that bridges organizations and customers, creating vibrant exchanges that drive success. It encompasses the exciting journey of planning, designing, pricing, promoting, and distributing goods and services that meet the evolving needs of both organizations and their customers.

In today's fast-paced global economy, marketing has grown into a critical and comprehensive business function, one that is increasingly shaped by cutting-edge technologies. At the forefront of this transformation is the integration of artificial intelligence (AI), which is revolutionizing how businesses understand consumer behavior, personalize experiences, optimize campaigns, and make data-driven decisions.

Students diving into the world of marketing can explore a wide array of career opportunities, including:

- Advertising, public relations, and communication
- Digital marketing and social media strategy
- Marketing research and analytics
- Merchandising, buying, and planning
- Product and brand management
- Business-to-business (B2B) marketing
- Sales and business development
- Sports marketing and communication
- Supply chain and channel management

Today's marketing professionals must master not only traditional areas like marketing channels, sales management, advertising, and research, but also the emerging tools and techniques powered by AI and data analytics. They must understand the complex motivations of consumers and distributors and translate insights into compelling, tech-enabled marketing strategies.

The marketing program is designed to be broad enough to provide a comprehensive understanding of these areas, yet flexible enough to allow students to focus on their specific interests, including those at the intersection of marketing and AI innovation.

DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/CERTIFICATES

- Business Administration: Marketing, BBA (p. 1619)
- Business: Marketing, BBA (p. 1622)

BUSINESS ADMINISTRATION: MARKETING, BBA

If you're a strategic thinker and a creative problem-solver, then advancing in a career in marketing could be a good choice for you. Marketing is a diverse field that involves in-demand skills desired by top employers, large and small. It's also a growing field, particularly in the digital realm. Successful marketers will be analytical, creative and know how to leverage technology.

The BBA in Business Administration: Marketing, offered fully online, provides a robust foundation in business. From the highly ranked School of Business, you will gain valuable skills in communication, collaboration, creativity, relationship building and planning. You will learn to implement strategies related to product, place/distribution, price and promotion; analyze market segments and generate effective plans; leverage relevant

sources to determine and support marketing actions; and apply analytical rigor to decisions.

Graduates pursue a variety of careers in marketing, including brand/product management, marketing research/analytics, sales management, advertising, business-to-business marketing, digital and social media, consulting, and supply chain management. You could be a product manager, social media strategist or market research analyst, among other dynamic jobs.

HOW TO GET IN

HOW TO GET IN

Students applying to the BBA in Business Administration-Marketing program apply through UW-Madison Online (https://online.wisc.edu/). UW–Madison Online undergraduate programs are for those applying as transfer students (i.e., those transferring at least 12 college credits). UW-Madison re-entry students may also be considered. For more information, visit the UW-Madison Online admissions website (https://online.wisc.edu/apply/).

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

SCHOOL OF BUSINESS BBA REQUIREMENTS

The Wisconsin Bachelor of Business Administration (BBA) in Business Administration online degree program combines core general education requirements with a broad coverage of core business disciplines to create a strong academic foundation upon which students delve deeply into their majors.

LIBERAL STUDIES

Liberal studies requirements must be completed prior to graduation.

Communication A	Complete either: • one course with the Communication A designation, or • satisfaction of Communication A based on UW Placement Test.
Microeconomics	Complete one: • ECON 101 • ECON 111 • A A E 101
Macroeconomics	Complete either: • ECON 102 • ECON 111
Social Science	One 3+ credit course with the Social Science designation.
Math	Complete one: • satisfaction of Quantitative Reasoning A based on UW Placement Test • MATH 112 • MATH 113 • MATH 114 • MATH 211 • MATH 213 • MATH 221 • MATH 222
Humanities, Literature and Arts	Two 3+ credit courses with the Humanities or Literature designations.
Science	6 credits with the Biological, Natural, or Physical Science designations. Courses in or cross-listed with MATH or STAT cannot be used to meet this requirement.
Ethnic Studies	One 3+ credit course with the Ethnic Studies designation.
Ethics	Complete one: • PHILOS 241 • PHILOS 243 • PHILOS 244 • PHILOS 341 • PHILOS/ENVIR ST 441 • L I S 461

BUSINESS GRADUATION REQUIREMENTS

Cumulative Credits	Students must earn 120 degree credits.
Quality of Work	Students must maintain a minimum cumulative grade point average of 2.000.
Residency	Students must complete 30 degree credits in residence at UW–Madison.

BBA IN BUSINESS ADMINISTRATION - MARKETING MAJOR REQUIREMENTS

All Business Administration-Marketing majors must take MARKETNG 300 Marketing Management, which is a Business Core Requirement and a prerequisite for most of the undergraduate marketing courses. The BBA in Business Administration-Marketing major is a total of 15 credits consisting of the following 3 required courses and 6 credits of MARKETNG electives.

Code	Title	Credits
Required Courses		
MARKETNG 305	Consumer Behavior	3
MARKETNG 310	Marketing Research	3
MARKETNG 460	Marketing Strategy	3
Elective Coursework		
Select a minimum of 6 additional MARKETNG credits		6
Total Credits		**15**

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Apply analytical rigor to marketing decisions.
2. Locate, evaluate, and leverage relevant sources to determine and support their marketing actions.
3. Demonstrate the ability to formulate and implement marketing strategies related to product, place/distribution, price, promotion.
4. Demonstrate the ability to evaluate and analyze appropriate market segments and generate effective marketing plans.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This program is designed for transfer students, most of whom will enroll on a part-time basis. As such, there is not a four-year plan for this program. Please refer to the Requirements tab for more information about the curriculum and program plan.

ADVISING AND CAREERS

ADVISING AND CAREERS

ACCESSING ADVISING

Each UW-Madison Online student is assigned an academic advisor. The academic advisor will support the academic and personal success of each student including assisting students as they identify and clarify their educational goals, develop meaningful academic plans, and pursue their own Wisconsin experience.

ACCREDITATION

AACSB International—The Association to Advance Collegiate Schools of Business (http://www.aacsb.edu/)

Accreditation status: Accredited. Next accreditation review: 2026–2027.

BUSINESS: MARKETING, BBA

Dive into the world of marketing - where innovation meets strategy!

In the marketing major, you'll master the core principles of marketing (product, place, price, and promotion) and discover how these elements shape business strategies across industries. Marketing is a dynamic, multi-faceted field that facilitates meaningful exchanges between organizations and customers, and it's evolving rapidly with the rise of artificial intelligence. Today's marketing professionals are at the forefront of applying AI to transform customer insights, personalize experiences, optimize campaigns, and drive strategic decision-making. From predictive analytics to generative content and intelligent automation, AI is reshaping how businesses connect with audiences.

Whether you're interested in global enterprises, start-ups, nonprofits, or public services like healthcare and banking, marketing plays a vital role. You'll explore the art of building strong relationships with customers and channel partners, while developing a diverse skill set that includes qualitative and quantitative analysis, critical thinking, creativity, communication, and problem-solving. Our marketing major provides a robust foundation in marketing principles and offers the flexibility to explore cutting-edge tools and specialized areas that ignite your passion. Ready to shape the future of business? Join us and turn your creativity, strategic thinking, and tech-savvy mindset into a powerful career!

Ready to shape the future of business? Learn more about the marketing major (https://business.wisc.edu/undergraduate/majors/marketing/).

RECOGNITION

The Marketing Department at the School of Business was ranked 6th in the United States by *U.S. News & World Report* for 2025-2026.

HOW TO GET IN

HOW TO GET IN

CURRENT UW–MADISON STUDENTS

Requirements	Details
How to get in	Application required. Meeting the requirements listed below does not guarantee admission. (https://admissions.wsb.wisc.edu/BbaPreBusiness (https://admissions.wsb.wisc.edu/BbaPreBusiness/))
Courses required to get in	Students are required to complete each of the requirements below. Requirements can be completed via coursework, test credit, transfer work, or placement test (if applicable). Communication A • One course with the Communication A designation Microconomics • ECON 101 • ECON 111 • A A E 101 Calculus, completed or in-progress • MATH 211 • MATH 221 Students who started at UW-Madison before Fall 2026 should refer to their DARS report to confirm course requirements for admission application eligibility.
GPA requirements to get in	Minimum 3.0 UW-Madison GPA.

Credits required to get in	• If you started at UW-Madison as a first-year student, 24 credits completed/in-progress at UW-Madison are required for application. • If you started at UW-Madison as a transfer student, 12 credits completed/in-progress at UW-Madison are required for application. • In-progress course credits towards this minimum must be completed at the end of the spring application term.
Other	• Pre-Business 101 workshop required during the intended application year. • Pre-Business applicants may apply once within their first four terms (Fall/Spring) at UW-Madison, based on enrollment date. There is no credit maximum.

Semester	Deadline to apply	Decision notification timeline
To apply for a fall start	Mid March	On or before July 1st.
To apply for a spring start	This program does not accept applications to start in the spring.	
To apply for a summer start	This program does not accept applications to start in the summer.	

PROSPECTIVE FIRST-YEAR APPLICANTS

All prospective UW–Madison students must apply through the central Office of Admissions and Recruitment (https://www.admissions.wisc.edu/). Prospective high school students may be considered for direct admission to Business based on their application to the University of Wisconsin-Madison. Simply list a Business interest as your top academic area of interest on the University application.

PROSPECTIVE TRANSFER APPLICANTS

Transfer students at University of Wisconsin System campuses or Wisconsin Technical Colleges may apply separately for admission to both the University of Wisconsin-Madison and the School of Business during the spring term for fall enrollment. Information for prospective transfer students can be found here: https://business.wisc.edu/undergraduate/admissions/transfer-students/.

ADDITIONAL INFORMATION

Students declared in Business: Marketing cannot earn the Summer Certificate in Business Fundamentals, Certificate in Business, or the Certificate in Entrepreneurship due to curriculum overlap.

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.

English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

SCHOOL OF BUSINESS BBA REQUIREMENTS

The Wisconsin Bachelor of Business Administration (BBA) program combines UW–Madison's core general education requirements, broad coverage of core business disciplines, and cutting-edge experiential learning and signature courses to create a strong academic foundation upon which students delve deeply into their majors.

BUSINESS LIBERAL STUDIES

Liberal studies requirements must be completed prior to graduation. **A single course cannot be used to fulfill multiple liberal studies requirements.**

Communication A	Complete either: • one course with the Communication A designation, or • satisfaction of Communication A based on UW Placement Test.
Microeconomics	Complete one: • ECON 101 • ECON 111 • A A E 101
Macroeconomics	Complete either: • ECON 102 • ECON 111
Social Science	One 3+ credit course with the Social Science designation. Courses in or cross-listed with the following subjects do not satisfy this requirement: ACCT I S, ACT SCI, FINANCE, GEN BUS, INFO SYS, INTL BUS, M H R, MARKETNG, OTM, R M I, REAL EST.
Calculus	Complete either: • MATH 211 • MATH 221
Literature	One 3+ credit course with the Literature designation.
Science	6 credits with the Biological, Natural, or Physical Science designations. Courses in or cross-listed with MATH or STAT cannot be used to meet this requirement.
Ethnic Studies	One 3+ credit course with the Ethnic Studies designation.
Humanities	One 3+ credit course with the Humanities designation.
Ethics	Complete one: • PHILOS 241 • PHILOS 243 • PHILOS 244 • PHILOS 341 • PHILOS/ENVIR ST 441 • L I S 461

BUSINESS GRADUATION REQUIREMENTS

Cumulative Credits	Students must earn 120 degree credits.
Quality of Work	Students must maintain a minimum cumulative grade point average of 2.000.
Residency	Students must complete 30 degree credits in residence at UW–Madison.

BUSINESS: MARKETING MAJOR REQUIREMENTS

All marketing majors must take MARKETNG 300 Marketing Management, which is a business core course and a prerequisite for most of the undergraduate marketing courses. In addition to MARKETNG 300, the major consists of three required marketing courses and a minimum of nine additional MARKETNG credits. These required and elective courses can be taken in any order, with the exception of MARKETNG 460 Marketing Strategy. MARKETNG 460 should be taken after completing MARKETNG 305 Consumer Behavior and MARKETNG 310 Marketing Research and preferably in the final year of the major.

Code	Title	Credits
MARKETNG 305	Consumer Behavior	3
MARKETNG 310	Marketing Research	3
MARKETNG 460	Marketing Strategy	3
Elective Coursework: Select a minimum of 9 additional MARKETNG credits. Students may choose elective coursework that follows a specific "career path".		9
Total Credits		**18**

POTENTIAL MARKETING CAREER GUIDANCE AND CAREER PATHS

For further information on recommended electives and career paths, see the Department of Marketing website linked within the Contact Information box.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Demonstrate the ability to formulate and implement marketing strategies related to product, place/distribution, price, promotion.
2. Demonstrate the ability to evaluate and analyze appropriate market segments and generate effective marketing plans.
3. Locate, evaluate, and leverage relevant sources to determine and support their marketing actions.
4. Apply analytical rigor to marketing decisions.

ADVISING AND CAREERS

ADVISING AND CAREERS

ADVISING

Advising is an integral part of any student's educational journey in the School of Business Undergraduate Program. Starting at Student Orientation, Advising, and Registration (SOAR), we encourage all students to connect with academic advisors. Business academic advisors have a wealth of knowledge about courses on campus, as well as policies and procedures.

Business career coaches help students with career exploration, internships, resumes, job search, interviewing, and more. We encourage students to connect with their career coach once they arrive on campus.

Business academic advisors and career coaches are passionate about student success. Students experiencing academic difficulty or personal struggles are encouraged to talk to their advisor about how their individual situation may affect their academic performance.

Assigned Academic and Career Coaches

Admitted business students will have one assigned academic advisor. Career coaches are assigned by academic major to be able to provide industry-specific career guidance. If a student has more than one major, they may have more than one assigned career coach. Students can find their assigned advisor and coach by logging into the Starfish portal through MyUW.

For students not yet admitted to the School of Business, there is a team of pre-business advisors available.

Accessing Advising

Drop-in advising and scheduled appointments are available for admitted business students. Pre-business students may also schedule an appointment with a pre-business academic advisor or utilize drop-in academic advising.

For more information on accessing academic advising, please see our Academic Advising page (https://business.wisc.edu/undergraduate/academic-advising/).

For more information on accessing career coaching, please see our Career Coaching page (https://business.wisc.edu/undergraduate/careers/).

CAREERS

Unleash the power of marketing! Marketing is the heartbeat of business, driving dynamic exchanges between organizations and customers. It's a critical, ever-evolving field that spans every corner of the business world—from global enterprises to innovative start-ups, and from essential services like healthcare and banking to impactful nonprofits and municipalities. As a marketing student, you'll unlock a world of career possibilities, including: advertising/public relations/communication, digital marketing, general marketing, marketing research/analyst, merchandising/buyer/planner, product/brand management, business-to-business (B2B), sales/business development, sports marketing & communication and supply chain management.

More information on Career Pathways (https://business.wisc.edu/undergraduate/careers/pathways/).

ACCREDITATION

ACCREDITATION

AACSB International—The Association to Advance Collegiate Schools of Business (http://www.aacsb.edu/)

Accreditation status: Accredited. Next accreditation review: 2026–2027.

OPERATIONS AND INFORMATION MANAGEMENT

The Department of Operations and Technology Management administers the operations and technology management major, the information systems major, and the supply chain management major.

The Operations and Technology Management (OTM) major focuses on the design, production, and delivery of products and services to satisfy customer needs. It equips students with the essential tools and strategies to use resources efficiently, make desirable trade-offs, and strategically redesign or restructure operations. OTM majors distinguish themselves by strong analytical and problem-solving capabilities together with the ability to provide high-level managerial insights into value-based service and production management.

Built on a solid foundation of a business and information technology (IT) curriculum, the major in Information Systems delivers a unique blend of business acumen, industry standards, and practical computing instruction. Students enjoy successful placement and satisfying careers because they possess both the in-depth knowledge of business processes and the ability to readily translate business requirements into value-added IT solutions. The curriculum is designed to prepare effective leaders in the design, development, and management of information systems—the lifeblood of a successful business model. Students learn how to use computer technologies to analyze business problems and processes in order to design and implement computer-based information systems which support business operations, decision-making, and planning. Career opportunities exist in management consulting and in industry in the areas of systems development, database administration, network management and as corporate information systems managers.

The field of supply chain management (SCM) is a critical area of competitive advantage for businesses around the world. SCM integrates

business functions concerned with the movement of goods, services, and information along the value chain with the goal of creating value for the end customer. Supply Chain Management majors learn how to develop appropriate strategies through exploration of logistics, routes to market, analytics, sourcing, and IT systems. In today's complex business environment, there is a need to coordinate these supply chain functions not only within the firm, but with business partners and customers.

DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/CERTIFICATES

- Business: Information Systems, BBA (p. 1627)

HOW TO GET IN

HOW TO GET IN

CURRENT UW–MADISON STUDENTS

Requirements	Details
How to get in	Application required. Meeting the requirements listed below does not guarantee admission. (https://admissions.wsb.wisc.edu/BbaPreBusiness (https://admissions.wsb.wisc.edu/BbaPreBusiness/))
Courses required to get in	Students are required to complete each of the requirements below. Requirements can be completed via coursework, test credit, transfer work, or placement test (if applicable). Communication A • One course with the Communication A designation Microconomics • ECON 101 • ECON 111 • A A E 101 Calculus, completed or in-progress • MATH 211 • MATH 221 Students who started at UW-Madison before Fall 2026 should refer to their DARS report to confirm course requirements for admission application eligibility.
GPA requirements to get in	Minimum 3.0 UW-Madison GPA.
Credits required to get in	• If you started at UW-Madison as a first-year student, 24 credits completed/in-progress at UW-Madison are required for application. • If you started at UW-Madison as a transfer student, 12 credits completed/in-progress at UW-Madison are required for application. • In-progress course credits towards this minimum must be completed at the end of the spring application term.
Other	• Pre-Business 101 workshop required during the intended application year. • Pre-Business applicants may apply once within their first four terms (Fall/Spring) at UW-Madison, based on enrollment date. There is no credit maximum.

Semester	Deadline to apply	Decision notification timeline
To apply for a fall start	Mid March	On or before July 1st.
To apply for a spring start	This program does not accept applications to start in the spring.	
To apply for a summer start	This program does not accept applications to start in the summer.	

PROSPECTIVE FIRST-YEAR APPLICANTS

All prospective UW–Madison students must apply through the central Office of Admissions and Recruitment (https://www.admissions.wisc.edu/). Prospective high school students may be

considered for direct admission to Business based on their application to the University of Wisconsin-Madison. Simply list a Business interest as your top academic area of interest on the University application.

PROSPECTIVE TRANSFER APPLICANTS

Transfer students at University of Wisconsin System campuses or Wisconsin Technical Colleges may apply separately for admission to both the University of Wisconsin-Madison and the School of Business during the spring term for fall enrollment. Information for prospective transfer students can be found here: https://business.wisc.edu/undergraduate/admissions/transfer-students/.

ADDITIONAL INFORMATION

Students declared in Business: Information Systems cannot earn the Summer Certificate in Business Fundamentals, Certificate in Business, or the Certificate in Entrepreneurship due to curriculum overlap.

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

SCHOOL OF BUSINESS BBA REQUIREMENTS

The Wisconsin Bachelor of Business Administration (BBA) program combines UW–Madison's core general education requirements, broad coverage of core business disciplines, and cutting-edge experiential learning and signature courses to create a strong academic foundation upon which students delve deeply into their majors.

BUSINESS LIBERAL STUDIES

Liberal studies requirements must be completed prior to graduation. **A single course cannot be used to fulfill multiple liberal studies requirements.**

Communication A	Complete either: • one course with the Communication A designation, or • satisfaction of Communication A based on UW Placement Test.
Microeconomics	Complete one: • ECON 101 • ECON 111 • A A E 101
Macroeconomics	Complete either: • ECON 102 • ECON 111
Social Science	One 3+ credit course with the Social Science designation. Courses in or cross-listed with the following subjects do not satisfy this requirement: ACCT I S, ACT SCI, FINANCE, GEN BUS, INFO SYS, INTL BUS, M H R, MARKETNG, OTM, R M I, REAL EST.
Calculus	Complete either: • MATH 211 • MATH 221
Literature	One 3+ credit course with the Literature designation.
Science	6 credits with the Biological, Natural, or Physical Science designations. Courses in or cross-listed with MATH or STAT cannot be used to meet this requirement.
Ethnic Studies	One 3+ credit course with the Ethnic Studies designation.
Humanities	One 3+ credit course with the Humanities designation.
Ethics	Complete one: • PHILOS 241 • PHILOS 243 • PHILOS 244 • PHILOS 341 • PHILOS/ENVIR ST 441 • L I S 461

ADVISING AND CAREERS

ADVISING AND CAREERS

ADVISING

Advising is an integral part of any student's educational journey in the School of Business Undergraduate Program. Starting at Student Orientation, Advising, and Registration (SOAR), we encourage all students to connect with academic advisors. Business academic advisors have a

wealth of knowledge about courses on campus, as well as policies and procedures.

Business career coaches help students with career exploration, internships, resumes, job search, interviewing, and more. We encourage students to connect with their career coach once they arrive on campus.

Business academic advisors and career coaches are passionate about student success. Students experiencing academic difficulty or personal struggles are encouraged to talk to their advisor about how their individual situation may affect their academic performance.

Assigned Academic and Career Coaches

Admitted business students will have one assigned academic advisor. Career coaches are assigned by academic major to be able to provide industry-specific career guidance. If a student has more than one major, they may have more than one assigned career coach. Students can find their assigned advisor and coach by logging into the Starfish portal through MyUW.

For students not yet admitted to the School of Business, there is a team of pre-business advisors available.

Accessing Advising

Drop-in advising and scheduled appointments are available for admitted business students. Pre-business students may also schedule an appointment with a pre-business academic advisor or utilize drop-in academic advising.

For more information on accessing academic advising, please see our Academic Advising page (https://business.wisc.edu/undergraduate/academic-advising/).

For more information on accessing career coaching, please see our Career Coaching page (https://business.wisc.edu/undergraduate/careers/).

CAREERS

Information systems professionals help clients address some of their most complex business problems through the effective use of technology. They see pathways to solutions of highly complex technical issues and are key leaders in conceptualizing and sourcing the best solutions. Information systems professionals collect, store, and analyze information and data to assist organizations and departments in executing business initiatives and making informed decisions. In addition, they use hardware, software, technology infrastructure combined with input from internal or external clients to develop tools to solve and track business objectives.

For more information about careers in information systems, please visit our Undergraduate Info Systems website (https://business.wisc.edu/undergraduate/majors/information-systems/).

More information on Career Pathways (https://business.wisc.edu/undergraduate/careers/pathways/).

ACCREDITATION

ACCREDITATION

AACSB International—The Association to Advance Collegiate Schools of Business (http://www.aacsb.edu/)

Accreditation status: Accredited. Next accreditation review: 2026–2027.

BUSINESS: OPERATIONS AND TECHNOLOGY MANAGEMENT, BBA

The Operations and Technology Management (https://business.wisc.edu/undergraduate/majors/operations-technology-management/) (OTM) major focuses on the design, creation, and delivery of products and services to satisfy customer needs. It equips students with the essential tools and strategies to use resources efficiently, make necessary trade-offs, and strategically redesign or restructure operations. OTM majors distinguish themselves by strong analytical and problem-solving capabilities together with the ability to provide high-level managerial insights into value-based service and production management.

OTM majors have many career opportunities due to their process orientation and analytical training. They are especially well-equipped for positions in consulting, project management, service operations management, technology management, manufacturing management, and business analytics.

PROSPECTIVE TRANSFER APPLICANTS

Transfer students at University of Wisconsin System campuses or Wisconsin Technical Colleges may apply separately for admission to both the University of Wisconsin-Madison and the School of Business during the spring term for fall enrollment. Information for prospective transfer students can be found here: https://business.wisc.edu/undergraduate/admissions/transfer-students/.

ADDITIONAL INFORMATION

Students declared in Business: Operations and Technology Management cannot earn the Summer Certificate in Business Fundamentals, Certificate in Business, or the Certificate in Entrepreneurship due to curriculum overlap.

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

SCHOOL OF BUSINESS BBA REQUIREMENTS

The Wisconsin Bachelor of Business Administration (BBA) program combines UW–Madison's core general education requirements, broad coverage of core business disciplines, and cutting-edge experiential learning and signature courses to create a strong academic foundation upon which students delve deeply into their majors.

BUSINESS LIBERAL STUDIES

Liberal studies requirements must be completed prior to graduation. **A single course cannot be used to fulfill multiple liberal studies requirements.**

Communication A	Complete either: • one course with the Communication A designation, or • satisfaction of Communication A based on UW Placement Test.
Microeconomics	Complete one: • ECON 101 • ECON 111 • A A E 101
Macroeconomics	Complete either: • ECON 102 • ECON 111
Social Science	One 3+ credit course with the Social Science designation. Courses in or cross-listed with the following subjects do not satisfy this requirement: ACCT I S, ACT SCI, FINANCE, GEN BUS, INFO SYS, INTL BUS, M H R, MARKETNG, OTM, R M I, REAL EST.
Calculus	Complete either: • MATH 211 • MATH 221
Literature	One 3+ credit course with the Literature designation.
Science	6 credits with the Biological, Natural, or Physical Science designations. Courses in or cross-listed with MATH or STAT cannot be used to meet this requirement.
Ethnic Studies	One 3+ credit course with the Ethnic Studies designation.
Humanities	One 3+ credit course with the Humanities designation.
Ethics	Complete one: • PHILOS 241 • PHILOS 243 • PHILOS 244 • PHILOS 341 • PHILOS/ENVIR ST 441 • L I S 461

BUSINESS FUNDAMENTALS

BUSINESS GRADUATION REQUIREMENTS

Cumulative Credits	Students must earn 120 degree credits.
Quality of Work	Students must maintain a minimum cumulative grade point average of 2.000.
Residency	Students must complete 30 degree credits in residence at UW–Madison.

BUSINESS: OPERATIONS AND TECHNOLOGY MANAGEMENT (OTM) MAJOR REQUIREMENTS

It is recommended that the undergraduate core course OTM 300 Operations and Supply Chain Management be taken as early as possible in preparation for this major.

Code	Title	Credits
OTM 351	Business Process Improvement	3
OTM 451	Service Operations Management	3
OTM 452	Project Management	3
OTM 453	Operations Analytics	3
Elective Coursework: Select a minimum of 6 additional credits from OTM and/or INFO SYS.		6
Total Credits		**18**

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Understand how to analyze and evaluate business processes combined with a capability for improving those processes.
2. Understand how the effects of increased utilization and variability impact process capacity and flow times, and will be able to suggest approaches to improve system performance.
3. Build analytical models to solve business problems.
4. Articulate the commonalities and differences between service and manufacturing processes, and be able to manage and make improvements within either context.
5. Analyze and implement operational business decisions from both strategic and tactical perspectives.

ADVISING AND CAREERS

ADVISING AND CAREERS

ADVISING

Advising is an integral part of any student's educational journey in the School of Business Undergraduate Program. Starting at Student Orientation, Advising, and Registration (SOAR), we encourage all students to connect with academic advisors. Business academic advisors have a wealth of knowledge about courses on campus, as well as policies and procedures.

Business career coaches help students with career exploration, internships, resumes, job search, interviewing, and more. We encourage students to connect with their career coach once they arrive on campus.

Business academic advisors and career coaches are passionate about student success. Students experiencing academic difficulty or personal struggles are encouraged to talk to their advisor about how their individual situation may affect their academic performance.

Assigned Academic and Career Coaches

Admitted business students will have one assigned academic advisor. Career coaches are assigned by academic major to be able to provide industry-specific career guidance. If a student has more than one major, they may have more than one assigned career coach. Students can find their assigned advisor and coach by logging into the Starfish portal through MyUW.

For students not yet admitted to the School of Business, there is a team of pre-business advisors available.

Accessing Advising

Drop-in advising and scheduled appointments are available for admitted business students. Pre-business students may also schedule an appointment with a pre-business academic advisor or utilize drop-in academic advising.

For more information on accessing academic advising, please see our Academic Advising page (https://business.wisc.edu/undergraduate/academic-advising/).

For more information on accessing career coaching, please see our Career Coaching page (https://business.wisc.edu/undergraduate/careers/).

CAREERS

All products and services, from cars to surgeries to consulting, are delivered by organized systems. It is the job of operations managers to make sure those activities occur when they are needed, in the right way, with the right quality, and in the right quantity. Operations management designs and oversees the transformation of inputs, such as labor, equipment, facilities, materials, energy, and information, into goods and services for customers. To make this all happen, the operations function is responsible for critical activities such as process design, resource planning, scheduling, and quality management.

Common Career Paths

Process Analysis and Improvement

A process or improvement analyst can serve many roles in an organization. Overall, they facilitate process workflow modeling in order to collaborate on process improvements. They create process documentation and workflows as well as knowledge articles and self-service guidance. A process or improvement analyst may review information and trends at a company to ensure that they are achieving the desired results and that the services are meeting the agreed upon services. They identify issues and risks, as well as bring inconsistencies and problems to the attention of management and then participate in problem resolution. They extract reports and provide a high-level analysis of data for review. They also understand policies and procedures and their impact on workflow.

Project Management

Project managers are responsible for client engagements from the planning phase through implementation and delivery. Project management involves determining the scope of client engagements, allocating resources to implementation teams, and determining effective approaches to work completion. Those working in this area must be able to meet deadlines and to interact extensively with clients, developers, and external departments. A project manager may also be required to design performance and expense comparisons. Above all else, project management is concerned with ensuring accuracy and quality of client deliverables.

Planning and Analytics

Planning and analytics is the forward-looking process of coordinating assets to optimize delivery of goods, services, and information from

supplier to customer, balancing supply and demand. Planning is necessary at just about every stage in the supply chain. Different planning roles include supply chain planner, demand planner, and inventory planner.

Management Consulting – Specialist
Both large and boutique consulting firms hire talent to focus on specific practice areas or industries (i.e., specialists). These firms and their employees provide deep expertise on a particular topic area or industry for their clients. These niche areas require a higher level of expertise and personnel in these areas are usually referred to as SMEs (Subject Matter Experts). Consultants in this pathway have a more focused and specialized path, while still serving a variety of clients. There are many boutique firms that only consult in one of these specialties.

Operations and Process:
Support clients and provide guidance around increasing efficiencies across the entire value chain. This can include cost reduction, operational improvements, optimization of technology or processes, and more.

Supply Chain:
Work on the value delivery chain that encompasses suppliers all the way to customer delivery of the intended products/services. Supply chain management consultants traditionally work on the improvement of some portion of this value chain such as logistics of in-bound freight, or reduction in working capital (inventory) as examples.

General Management
Experience working within the operations function of an organization is excellent preparation for managerial roles within the business from product or process manager through facilities manager through C-level roles such as COO or CEO. This is true in companies that provide services to their customers as well as in firms that make products for their customers. Today's businesses favor leaders with operations experience.

Please visit our website (https://business.wisc.edu/undergraduate/majors/operations-technology-management/) for further details about potential career areas and responsibilities.

More information on Career Pathways (https://business.wisc.edu/undergraduate/careers/pathways/).

ACCREDITATION

ACCREDITATION

AACSB International—The Association to Advance Collegiate Schools of Business (http://www.aacsb.edu/)

Accreditation status: Accredited. Next accreditation review: 2026–2027.

BUSINESS: SUPPLY CHAIN MANAGEMENT, BBA

The field of supply chain management (SCM) is a critical area of competitive advantage for businesses around the world. SCM integrates business functions concerned with the movement of goods, services, and information along the value chain with the goal of creating value for the end customer. SCM is a cross-functional discipline involving many components of business including product development, marketing, demand/supply planning, sourcing, production, inventory, logistics, customer service, and the relationships between businesses and their channels of distribution. In today's complex business environment, there is a need to coordinate these supply chain functions not only within the firm, but with business partners and customers. As a result, SCM is a critical, strategic component of business, and students with SCM education and expertise are in high demand in the marketplace.

The supply chain management major is open to all undergraduate students enrolled in the School of Business and is administered by the Grainger Center for Supply Chain Management at the School of Business. Students will have the opportunity to interact with business leaders, participate in experiential learning and social activities, have access to a global trip/experience, and be eligible for scholarship opportunities from the Grainger Center.

It is important to appreciate SCM from both the theoretical and applied perspectives. Students declared in the supply chain management major will have the opportunity to participate in a large number of speaker events, site visits, and employer networking opportunities. Additionally, students will be eligible to participate in annual global trip opportunities led by the Grainger Center for Supply Chain Management. These trips allow for the exploration of SCM in new and different locations throughout the world.

For questions or additional information about the major in supply chain management, please visit the Grainger Center (https://business.wisc.edu/centers/grainger/) (3450 Grainger Hall).

HOW TO GET IN

HOW TO GET IN

CURRENT UW–MADISON STUDENTS

Requirements	Details
How to get in	Application required. Meeting the requirements listed below does not guarantee admission. (https://admissions.wsb.wisc.edu/BbaPreBusiness (https://admissions.wsb.wisc.edu/BbaPreBusiness/))

Courses required to get in	Students are required to complete each of the requirements below. Requirements can be completed via coursework, test credit, transfer work, or placement test (if applicable). Communication A • One course with the Communication A designation Microconomics • ECON 101 • ECON 111 • A A E 101 Calculus, completed or in-progress • MATH 211 • MATH 221 Students who started at UW-Madison before Fall 2026 should refer to their DARS report to confirm course requirements for admission application eligibility.
GPA requirements to get in	Minimum 3.0 UW-Madison GPA.
Credits required to get in	• If you started at UW-Madison as a first-year student, 24 credits completed/in-progress at UW-Madison are required for application. • If you started at UW-Madison as a transfer student, 12 credits completed/in-progress at UW-Madison are required for application. • In-progress course credits towards this minimum must be completed at the end of the spring application term.
Other	• Pre-Business 101 workshop required during the intended application year. • Pre-Business applicants may apply once within their first four terms (Fall/Spring) at UW-Madison, based on enrollment date. There is no credit maximum.

Semester	Deadline to apply	Decision notification timeline
To apply for a fall start	Mid March	On or before July 1st.
To apply for a spring start	This program does not accept applications to start in the spring.	
To apply for a summer start	This program does not accept applications to start in the summer.	

PROSPECTIVE FIRST-YEAR APPLICANTS

All prospective UW–Madison students must apply through the central Office of Admissions and Recruitment (https://www.admissions.wisc.edu/). Prospective high school students may be considered for direct admission to Business based on their application to the University of Wisconsin-Madison. Simply list a Business interest as your top academic area of interest on the University application.

PROSPECTIVE TRANSFER APPLICANTS

Transfer students at University of Wisconsin System campuses or Wisconsin Technical Colleges may apply separately for admission to both the University of Wisconsin-Madison and the School of Business during the spring term for fall enrollment. Information for prospective transfer students can be found here: https://business.wisc.edu/undergraduate/admissions/transfer-students/.

ADDITIONAL INFORMATION

Students declared in Business: Supply Chain Management cannot earn the Summer Certificate in Business Fundamentals, Certificate in Business, or the Certificate in Entrepreneurship due to curriculum overlap.

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

SCHOOL OF BUSINESS BBA REQUIREMENTS

The Wisconsin Bachelor of Business Administration (BBA) program combines UW–Madison's core general education requirements, broad coverage of core business disciplines, and cutting-edge experiential learning and signature courses to create a strong academic foundation upon which students delve deeply into their majors.

BUSINESS LIBERAL STUDIES

Liberal studies requirements must be completed prior to graduation. **A single course cannot be used to fulfill multiple liberal studies requirements.**

Communication A	Complete either: • one course with the Communication A designation, or • satisfaction of Communication A based on UW Placement Test.
Microeconomics	Complete one: • ECON 101 • ECON 111 • A A E 101
Macroeconomics	Complete either: • ECON 102 • ECON 111
Social Science	One 3+ credit course with the Social Science designation. Courses in or cross-listed with the following subjects do not satisfy this requirement: ACCT I S, ACT SCI, FINANCE, GEN BUS, INFO SYS, INTL BUS, M H R, MARKETNG, OTM, R M I, REAL EST.
Calculus	Complete either: • MATH 211 • MATH 221
Literature	One 3+ credit course with the Literature designation.
Science	6 credits with the Biological, Natural, or Physical Science designations. Courses in or cross-listed with MATH or STAT cannot be used to meet this requirement.
Ethnic Studies	One 3+ credit course with the Ethnic Studies designation.
Humanities	One 3+ credit course with the Humanities designation.
Ethics	Complete one: • PHILOS 241 • PHILOS 243 • PHILOS 244 • PHILOS 341 • PHILOS/ENVIR ST 441 • L I S 461

MARKETNG 437	New Product Innovation	
OTM 451	Service Operations Management	
OTM 453	Operations Analytics	
Total Credits		**18**

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Assess the financial, marketing, and operational implications of fundamental supply chain strategies.
2. Compare how supply chain strategies are applied by examining decisions made in various real-world settings.
3. Create business value through the analysis of appropriate data using statistical and/or optimization techniques.
4. Synthesize supply chain concepts into a business strategy that is implemented through a cross-functional business simulation.
5. Effectively communicate ideas and recommendations to individuals in all functional areas of an organization.
6. Evaluate opportunities and risks necessary to develop effective sourcing strategies.
7. Assess costs and benefits in the formulation of appropriate go-to-market channels to reach desired customer groups.

FOUR-YEAR PLAN

ADVISING AND CAREERS

ADVISING AND CAREERS

ADVISING

Advising is an integral part of any student's educational journey in the School of Business Undergraduate Program. Starting at Student Orientation, Advising, and Registration (SOAR), we encourage all students to connect with academic advisors. Business academic advisors have a wealth of knowledge about courses on campus, as well as policies and procedures.

Business career coaches help students with career exploration, internships, resumes, job search, interviewing, and more. We encourage students to connect with their career coach once they arrive on campus.

Business academic advisors and career coaches are passionate about student success. Students experiencing academic difficulty or personal struggles are encouraged to talk to their advisor about how their individual situation may affect their academic performance.

Assigned Academic and Career Coaches

Admitted business students will have one assigned academic advisor. Career coaches are assigned by academic major to be able to provide industry-specific career guidance. If a student has more than one major, they may have more than one assigned career coach. Students can find their assigned advisor and coach by logging into the Starfish portal through MyUW.

For students not yet admitted to the School of Business, there is a team of pre-business advisors available.

Accessing Advising

Drop-in advising and scheduled appointments are available for admitted business students. Pre-business students may also schedule an appointment with a pre-business academic advisor or utilize drop-in academic advising.

For more information on accessing academic advising, please see our Academic Advising page (https://business.wisc.edu/undergraduate/academic-advising/).

For more information on accessing career coaching, please see our Career Coaching page (https://business.wisc.edu/undergraduate/careers/).

Additional Advising Information for Supply Chain Students

Students are offered a variety of applied learning events, site visits, a Supply Chain Management career fair, as well as a global experience trip. These activities enhance classroom learning and allow students to gain hands-on knowledge about the industry.

In addition to the advising offered through the School of Business, Supply Chain Management students are also offered degree-specific career and academic coaching from the Grainger Center's Assistant Director. It's encouraged that students connect with the Assistant Director every semester, as well as participate in the many events that the Center offers each year.

CAREERS

Students enrolled in the supply chain management major have access to excellent internship opportunities and earn some of the highest salaries at the School of Business. The average full-time salary for members of the graduating class of 2024 with a supply chain management degree was approximately $74,000, while the average monthly internship salary was $3,934.

Some of the companies that recruit supply chain management majors include (but are not limited to):

- Amazon
- BCG
- BP Americas
- Cargill
- Deloitte
- General Mills
- John Deere
- Kimberly-Clark
- Kohler
- Kohl's Department Stores
- Medtronic
- Milwaukee Tool
- Oshkosh
- PepsiCo
- Procter & Gamble
- Rockwell Automation
- SCJohnson
- Target Corporation
- Uline
- W.W. Grainger

Accreditation status: Accredited. Next accreditation review: 2026-2027.

PRODUCT MANAGEMENT, CERTIFICATE

The Product Management Certificate from the School of Business prepares students to contribute to product-driven organizations from day one of their careers. The certificate integrates foundational skills in operations management, consumer behavior, project management, and product strategy.

Product management sits at the intersection of business, technology, and customer insight — and organizations need people at every level who understand how products are built, prioritized, and brought to market. The Product Management Certificate prepares students to work effectively alongside product managers, contribute to cross-functional product teams, and apply a product mindset to roles in marketing, operations, business analysis, and beyond. Upon completion of the certificate, students will understand how successful organizations decide what to build and why, how to translate customer needs into business decisions, and how to collaborate across functions to deliver value to users and the market. This foundation equips graduates to enter the workforce in product-adjacent roles and to pursue product management as a natural future step in their career.

The goal of this certificate program is to be an add-on to any undergraduate major at UW–Madison so students can bring a product perspective to whatever field they enter.

HOW TO GET IN

HOW TO GET IN

The Product Management Certificate is open to undergraduate degree seeking students enrolled at UW Madison. To declare, students must have completed 24 credits in residence at UW-Madison or 12 credits in residence for transfer students and have earned a minimum GPA of 3.00.

To declare the certificate, complete the declaration form linked within the Contact Information box.

Students may not earn this certificate in conjunction with the exclusively online BBAs in Business Administration-Human Resources, Business Administration-Management, or Business Administration-Marketing.

REQUIREMENTS

To be eligible to declare, students must meet the following requirements:

- 24 degree credits completed in residence at time of declaration (12 degree credits for transfer students)
- 3.00 minimum cumulative GPA at UW-Madison
- Currently enrolled UW–Madison student
- Undergraduate, degree-seeking student

REQUIREMENTS

REQUIREMENTS

A minimum 3.0 GPA must be earned on all course work used to meet the requirements of the certificate program. All certificate credits must be earned in residence at UW-Madison.

REQUIRED COURSES

Code	Title	Credits
MARKETNG 305	Consumer Behavior	3
or CNSR SCI 357	Consumer Behavior	
OTM 300	Operations and Supply Chain Management	3
OTM 401	Product Management	3
OTM 452	Project Management	3
Total Credits		**12**

Note: Due to pre-requisites for some of the required courses, total credits to complete the Certificate in Product Management may be more than 12.

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Identify and analyze stakeholder needs and market opportunities, translating insights into actionable business concepts. (Market-Driven Problem Identification)
2. Develop strategies that integrate multiple business considerations and recognize the cross-functional nature of organizational decisions. (Integrative Strategic Thinking)
3. Apply analytical methods to evaluate alternatives and make evidence-based decisions in business contexts. (Evidence-Based Decision-Making)
4. Apply frameworks and processes for managing business initiatives from concept through implementation. (Process Management and Execution)

ADVISING AND CAREERS

ADVISING AND CAREERS

ACADEMIC ADVISING

Current BBA students who have declared the certificate can receive academic advising from their primary academic advisor. Certificate students not admitted to the School of Business will be assigned to the Business Certificate Advising Committee.

Drop-in advising and scheduled appointments are available to students who are declared in the certificate. Students can schedule their appointments via Starfish.

For more information on accessing academic advising, please see the Academic Advising (https://business.wisc.edu/undergraduate/academic-advising/) page.

Please note enrollment in required courses is subject to availability. As a result, completion of the certificate within an individual student's intended graduation timeline cannot always be guaranteed.

CAREER ADVISING

All students declared in the certificate will be assigned a career coach in the School of Business. Students are encouraged to use their home school/college career services.

For more information about accessing career coaching, please see our Career Coaching (https://business.wisc.edu/undergraduate/careers/) page.

REAL ESTATE AND URBAN LAND ECONOMICS

The primary goal of the undergraduate real estate (https://business.wisc.edu/undergraduate/majors/real-estate/) major is to comprehensively underwrite commercial real estate, which is broad-based and follows the education thought leadership of James A. Graaskamp, who expressed that "Real estate should be taught as a process of dynamic interactions rather than functional and historical facts." Underwriting commercial real estate includes the analysis of all property types and the development of residential communities while assessing and managing risk in all aspects of real estate relative to finance, development, valuation, and market analysis. To effectively underwrite commercial real estate, students must be able to identify and synthesize technical or basic skills, conceptual knowledge, critical thinking skills, and understand the real estate landscape to make informed and thoughtful property decisions. Graduates of the real estate major secure employment in a wide range of positions and responsibilities, including real estate private equity investment, commercial real estate lending and valuation, and real estate development, among many other areas including asset/property management and investment sales and brokerage.

HOW TO GET IN

HOW TO GET IN

CURRENT UW–MADISON STUDENTS

Requirements	Details
How to get in	Application required. Meeting the requirements listed below does not guarantee admission. (https://admissions.wsb.wisc.edu/BbaPreBusiness (https://admissions.wsb.wisc.edu/BbaPreBusiness/))
Courses required to get in	Students are required to complete each of the requirements below. Requirements can be completed via coursework, test credit, transfer work, or placement test (if applicable). Communication A • One course with the Communication A designation Microconomics • ECON 101 • ECON 111 • A A E 101 Calculus, completed or in-progress • MATH 211 • MATH 221 Students who started at UW-Madison before Fall 2026 should refer to their DARS report to confirm course requirements for admission application eligibility.
GPA requirements to get in	Minimum 3.0 UW-Madison GPA.
Credits required to get in	• If you started at UW-Madison as a first-year student, 24 credits completed/in-progress at UW-Madison are required for application. • If you started at UW-Madison as a transfer student, 12 credits completed/in-progress at UW-Madison are required for application. • In-progress course credits towards this minimum must be completed at the end of the spring application term.
Other	• Pre-Business 101 workshop required during the intended application year. • Pre-Business applicants may apply once within their first four terms (Fall/Spring) at UW-Madison, based on enrollment date. There is no credit maximum.

Semester	Deadline to apply	Decision notification timeline
To apply for a fall start	Mid March	On or before July 1st.
To apply for a spring start	This program does not accept applications to start in the spring.	
To apply for a summer start	This program does not accept applications to start in the summer.	

PROSPECTIVE FIRST-YEAR APPLICANTS

All prospective UW–Madison students must apply through the central Office of Admissions and Recruitment (https://www.admissions.wisc.edu/). Prospective high school students may be considered for direct admission to Business based on their application to the University of Wisconsin-Madison. Simply list a Business interest as your top academic area of interest on the University application.

PROSPECTIVE TRANSFER APPLICANTS

Transfer students at University of Wisconsin System campuses or Wisconsin Technical Colleges may apply separately for admission to both the University of Wisconsin-Madison and the School of Business during the spring term for fall enrollment. Information for prospective transfer students can be found here: https://business.wisc.edu/undergraduate/admissions/transfer-students/.

ADDITIONAL INFORMATION

Students declared in Business: Real Estate and Urban Land Economics cannot earn the Summer Certificate in Business Fundamentals, Certificate in Business, or the Certificate in Entrepreneurship due to curriculum overlap.

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.

Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

SCHOOL OF BUSINESS BBA REQUIREMENTS

The Wisconsin Bachelor of Business Administration (BBA) program combines UW–Madison's core general education requirements, broad coverage of core business disciplines, and cutting-edge experiential learning and signature courses to create a strong academic foundation upon which students delve deeply into their majors.

BUSINESS LIBERAL STUDIES

Liberal studies requirements must be completed prior to graduation. **A single course cannot be used to fulfill multiple liberal studies requirements.**

Communication A	Complete either: • one course with the Communication A designation, or • satisfaction of Communication A based on UW Placement Test.
Microeconomi	Complete one: • ECON 101 • ECON 111 • A A E 101
Macroeconomics	Complete either: • ECON 102 • ECON 111
Social Science	One 3+ credit course with the Social Science designation. Courses in or cross-listed with the following subjects do not satisfy this requirement: ACCT I S, ACT SCI, FINANCE, GEN BUS, INFO SYS, INTL BUS, M H R, MARKETNG, OTM, R M I, REAL EST.
Calculus	Complete either: • MATH 211 • MATH 221
Literature	One 3+ credit course with the Literature designation.
Science	6 credits with the Biological, Natural, or Physical Science designations. Courses in or cross-listed with MATH or STAT cannot be used to meet this requirement.
Ethnic Studies	One 3+ credit course with the Ethnic Studies designation.
Humanities	One 3+ credit course with the Humanities designation.

Ethics	Complete one: • PHILOS 241 • PHILOS 243 • PHILOS 244 • PHILOS 341 • PHILOS/ENVIR ST 441 • L I S 461

BUSINESS FUNDAMENTALS

URB R PL 601	Site Planning	3

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Assemble and analyze market, linkage, and economic data to make prudent investment decisions.
2. Identify debt and equity capital sources that meet investor risk/return parameters for development, acquisitions, debt and value-add investment opportunities.
3. Responsibly and ethically consider investor, tenant, community, and municipal needs in the development process.
4. Create value in the built environment through developments that are built to scale, affordable, and sustainable.
5. Communicate the merits of real estate projects to investors, community stakeholders, and municipal/publicly elected officials.
6. Provide a network of professionals with cutting-edge perspectives and employment opportunities.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This is a **sample** four-year plan for students directly admitted into the School of Business from high school. We encourage all students to consult with their academic advisor to develop an individualized plan that meets their specific needs.

ADVISING AND CAREERS

ADVISING AND CAREERS

ADVISING

Advising is an integral part of any student's educational journey in the School of Business Undergraduate Program. Starting at Student Orientation, Advising, and Registration (SOAR), we encourage all students to connect with academic advisors. Business academic advisors have a wealth of knowledge about courses on campus, as well as policies and procedures.

Business career coaches help students with career exploration, internships, resumes, job search, interviewing, and more. We encourage students to connect with their career coach once they arrive on campus.

Business academic advisors and career coaches are passionate about student success. Students experiencing academic difficulty or personal struggles are encouraged to talk to their advisor about how their individual situation may affect their academic performance.

Assigned Academic and Career Coaches

Admitted business students will have one assigned academic advisor. Career coaches are assigned by academic major to be able to provide industry-specific career guidance. If a student has more than one major, they may have more than one assigned career coach. Students can find their assigned advisor and coach by logging into the Starfish portal through MyUW.

For students not yet admitted to the School of Business, there is a team of pre-business advisors available.

Accessing Advising

Drop-in advising and scheduled appointments are available for admitted business students. Pre-business students may also schedule an appointment with a pre-business academic advisor or utilize drop-in academic advising.

For more information on accessing academic advising, please see our Academic Advising page (https://business.wisc.edu/undergraduate/academic-advising/).

For more information on accessing career coaching, please see our Career Coaching page (https://business.wisc.edu/undergraduate/careers/).

CAREERS

Real estate as a career encompasses a wide range of activities—from development and construction to financing; from brokerage and leasing to property management; from appraisal and assessment to insurance and regulation; from research to urban planning, government affairs, and more. Job responsibilities vary by function and can be office-based or in the field. Qualifications also vary from licensing and certification to advanced degrees.

Please visit our website (https://business.wisc.edu/undergraduate/majors/real-estate/) to learn more about careers in real estate.

More information on Career Pathways (https://business.wisc.edu/undergraduate/careers/pathways/).

ACCREDITATION

ACCREDITATION

AACSB International—The Association to Advance Collegiate Schools of Business (http://www.aacsb.edu/)

Accreditation status: Accredited. Next accreditation review: 2026–2027.

RISK AND INSURANCE

The Risk and Insurance Department houses two undergraduate majors: Actuarial Science, and Risk Management and Insurance. Both majors prepare students for careers related to the management of risk and the insurance industry, but they develop different skill sets and map into different career pathways. Risk and Insurance Department majors distinguish themselves with strong critical-thinking and analytics skills to complement specific industry expertise and knowledge.

Actuarial science involves the construction and management of insurance and pension systems using knowledge from statistics/data science, mathematics, economics, finance, and computer science. The field of actuarial science centers on data analytics for risk assessment. The curriculum prepares students for careers with insurance companies, consulting firms, healthcare organizations, and government organizations. Courses offered cover the material of the preliminary examinations of the Casualty Actuarial Society and the Society of Actuaries as well as more advanced subjects such as regression analysis, health analytics, and machine learning. While it is not required for students to sit for actuarial exams, more than 90% of our students pass at least two professional exams before they graduate.

The major in risk management and insurance prepares students to identify, analyze, and manage risks that are inherent in the operation of profit and not-for-profit institutions. Besides professional careers in risk management, the major cultivates skills required for challenging opportunities in organizations that accept these risks—private and governmental insurers, as well as brokerage/agency and consulting organizations.

DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/CERTIFICATES

- Business: Actuarial Science, BBA (p. 1648)
- Business: Risk Management and Insurance, BBA (p. 1653)
- Risk Management and Insurance, Certificate (p. 1657)

BUSINESS: ACTUARIAL SCIENCE, BBA

Actuarial science involves the construction and management of insurance and pension systems using knowledge from statistics/data science, mathematics, economics, finance, and computer science. The field of actuarial science centers on data analytics for risk assessment. The Actuarial Science (https://business.wisc.edu/undergraduate/majors/actuarial-science/) major curriculum prepares students for careers with insurance companies, consulting firms, healthcare organizations, and government organizations. Courses offered cover the material of the preliminary examinations of the Casualty Actuarial Society and the Society of Actuaries as well as more advanced subjects such as regression analysis, health analytics, and machine learning. Some of our actuarial courses allow students to earn credit for their professional exams by earning a minimum score in those courses (without taking the professional exam). While it is not required for students to sit for actuarial exams, more than 90% of our students will sit for at least two professional exams before they graduate. The actuarial science major is also a designated STEM (Science, Technology, Engineering & Mathematics) degree.

MISSION

The actuarial science program distinguishes itself through leadership, innovation, community, connections, networks, and recognition of the quality of the faculty, the courses, and the students.

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

SCHOOL OF BUSINESS BBA REQUIREMENTS

The Wisconsin Bachelor of Business Administration (BBA) program combines UW–Madison's core general education requirements, broad coverage of core business disciplines, and cutting-edge experiential learning and signature courses to create a strong academic foundation upon which students delve deeply into their majors.

BUSINESS LIBERAL STUDIES

Liberal studies requirements must be completed prior to graduation. **A single course cannot be used to fulfill multiple liberal studies requirements.**

Communication A	Complete either: • one course with the Communication A designation, or • satisfaction of Communication A based on UW Placement Test.
Microeconomics	Complete one: • ECON 101 • ECON 111 • A A E 101
Macroeconomics	Complete either: • ECON 102 • ECON 111
Social Science	One 3+ credit course with the Social Science designation. Courses in or cross-listed with the following subjects do not satisfy this requirement: ACCT I S, ACT SCI, FINANCE, GEN BUS, INFO SYS, INTL BUS, M H R, MARKETNG, OTM, R M I, REAL EST.
Calculus	Complete either: • MATH 211 • MATH 221
Literature	One 3+ credit course with the Literature designation.
Science	6 credits with the Biological, Natural, or Physical Science designations. Courses in or cross-listed with MATH or STAT cannot be used to meet this requirement.
Ethnic Studies	One 3+ credit course with the Ethnic Studies designation.
Humanities	One 3+ credit course with the Humanities designation.
Ethics	Complete one: • PHILOS 241 • PHILOS 243 • PHILOS 244 • PHILOS 341 • PHILOS/ENVIR ST 441 • L I S 461

BUSINESS FUNDAMENTALS

Code	Title	Credits
GEN BUS 106	Foundational Skills for Business Analysis	1

BUSINESS GRADUATION REQUIREMENTS

Cumulative Credits	Students must earn 120 degree credits.
Quality of Work	Students must maintain a minimum cumulative grade point average of 2.000.
Residency	Students must complete 30 degree credits in residence at UW–Madison.

BUSINESS: ACTUARIAL SCIENCE MAJOR REQUIREMENTS

The following courses are required for actuarial science majors. The Risk and Insurance Department also has course sequence information. Please be aware of stated prerequisites for major courses (including business core courses) that need to be completed before taking the course. Specific prerequisites can be found by clicking on the course number below.

Code	Title	Credits
ACT SCI 300	Probability for Actuaries	1
ACT SCI 303	Theory of Interest	3
ACT SCI 640	Actuarial Statistics for Risk Modeling	4
ACT SCI 650	Fundamentals of Long-Term Actuarial Modeling	3
ACT SCI 652	Fundamentals of Short-Term Actuarial Modeling	3
ACT SCI 651	Advanced Long-Term Actuarial Modeling	3
or ACT SCI 653	Advanced Short-Term Actuarial Modeling	
ACT SCI 654	Regression and Time Series for Actuaries [1]	3
or ACT SCI 655	Health Analytics	
or ACT SCI 657	Risk Analytics	
or GEN BUS 656	Foundations of Statistical Learning for Business Analytics	
Total Credits		**20**

RECOMMENDED ELECTIVES

Code	Title	Credits
MATH 234	Calculus--Functions of Several Variables	4
MATH 340	Elementary Matrix and Linear Algebra	3
R M I 300	Principles of Risk Management	3
FINANCE/ ECON 320	Investment Theory	3
COMP SCI 220	Data Science Programming I [1]	4
STAT 303 & STAT 304 & STAT 305	R for Statistics I and R for Statistics II and R for Statistics III	3

[1] Recommended to take either COMP SCI 220 or the STAT 303, STAT 304, STAT 305 sequence.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Recognize and explain the concept of risk, and apply the knowledge to the development of insurance products that are used to manage risk for the consumer as well as the risk of those products on the insurance organization.
2. Describe the actuarial profession, including the major professional organizations, the professional obligations of being an actuary, and the requirements to obtain and maintain a professional actuarial designation.
3. Demonstrate skills in critical thinking, quantitative analysis, and communication, as well as to develop an appreciation for actuarial theory, research, and the link to practical application.
4. Demonstrate the soft skills of being a professional.
5. Communicate their experiences and inspire others across the WSOB learning community.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This is a **sample** four-year plan for students directly admitted into the School of Business from high school. We encourage all students to consult with their academic advisor to develop an individualized plan that meets their specific needs. Students must complete at least 120 total credits to be eligible for graduation.

ADVISING AND CAREERS

ADVISING AND CAREERS

ADVISING

Advising is an integral part of any student's educational journey in the School of Business Undergraduate Program. Starting at Student Orientation, Advising, and Registration (SOAR), we encourage all students to connect with academic advisors. Business academic advisors have a wealth of knowledge about courses on campus, as well as policies and procedures.

Business career coaches help students with career exploration, internships, resumes, job search, interviewing, and more. We encourage students to connect with their career coach once they arrive on campus.

Business academic advisors and career coaches are passionate about student success. Students experiencing academic difficulty or personal struggles are encouraged to talk to their advisor about how their individual situation may affect their academic performance.

Assigned Academic and Career Coaches

Admitted business students will have one assigned academic advisor. Career coaches are assigned by academic major to be able to provide industry-specific career guidance. If a student has more than one major, they may have more than one assigned career coach. Students can find their assigned advisor and coach by logging into the Starfish portal through MyUW.

For students not yet admitted to the School of Business, there is a team of pre-business advisors available.

Accessing Advising

Drop-in advising and scheduled appointments are available for admitted business students. Pre-business students may also schedule an appointment with a pre-business academic advisor or utilize drop-in academic advising.

For more information on accessing academic advising, please see our Academic Advising page (https://business.wisc.edu/undergraduate/academic-advising/).

For more information on accessing career coaching, please see our Career Coaching page (https://business.wisc.edu/undergraduate/careers/).

Actuarial program faculty offer advising nights every fall semester to help students plan their course sequencing and professional exams.

CAREERS

Actuaries are problem solvers with expertise in understanding and managing financial risk. They use historical information and models to help predict the future. Actuaries may specialize in life and health (risk of illness, disability or death), pensions (develop and analyze retirement programs) or property and casualty (personal property risks and risks associated with businesses).

Some of our actuarial students utilize the analytical and technical skills they learn in the actuarial program and apply those skills to pursue data analytics or data science as a career. They may do this in the risk and insurance industry or in any industry that has the need to analyze, project and make decisions from large amounts of data.

Find out more about common industries and essential skills needed to be an actuary on the Undergraduate Actuarial Science website (https://business.wisc.edu/undergraduate/majors/actuarial-science/).

More information on Career Pathways (https://business.wisc.edu/undergraduate/careers/pathways/).

CERTIFICATION/LICENSURE

CERTIFICATION/LICENSURE

There are several exams and credentials from the Casualty Actuarial Society (http://www.casact.org/) and the Society of Actuaries (https://www.soa.org) that we prepare students to obtain during their undergraduate career. Students are encouraged to pass at least two actuarial exams before graduation in order to obtain an internship and/or job.

PROFESSIONAL CERTIFICATION/LICENSURE DISCLOSURE (NC-SARA)

The United States Department of Education (via 34 CFR Part 668 (https://www.ecfr.gov/current/title-34/subtitle-B/chapter-VI/part-668/?toc=1)) requires institutions that provide distance education to disclose information for programs leading to professional certification or licensure. The expectation is that institutions will determine whether each applicable academic program meets state professional licensure requirements and provide a general disclosure of such on an official university website.

Professional licensure requirements vary from state-to-state and can change year-to-year; they are established in a variety of state statutes, regulations, rules, and policies; and they center on a range of educational requirements, including degree type, specialized accreditation, total credits, specific courses, and examinations.

UW-Madison has taken reasonable efforts to determine whether this program satisfies the educational requirements for certification/licensure in states where prospective and enrolled students are located and is disclosing that information as follows.

Disclaimer: This information is based on the most recent annual review of state agency certification/licensure data and is subject to change. All students are strongly encouraged to consult with the individual/office

listed in the Contact Information box on this page and with the applicable state agency for specific information.

The requirements of this program meet Certification/Licensure in the following states:
Wisconsin

The requirements of this program do not meet Certification/Licensure in the following states:
Not applicable

Updated: 1 June 2026

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

If you are good at math and are interested in pursuing a career as an actuary, apply for our UW-Madison Actuarial Program Scholarship (https://www.actuarialclubuw.org/future-members/).

ACCREDITATION

ACCREDITATION

AACSB International—The Association to Advance Collegiate Schools of Business (http://www.aacsb.edu/)

Accreditation status: Accredited. Next accreditation review: 2026–2027.

BUSINESS: RISK MANAGEMENT AND INSURANCE, BBA

The major in risk management and insurance (https://business.wisc.edu/undergraduate/majors/risk-management-insurance/) prepares students to identify, analyze, and manage risks that are inherent in the operation of profit and not-for-profit institutions. Besides professional careers in risk management, the major cultivates skills required for challenging opportunities in organizations that accept these risks—private and governmental insurers, as well as brokerage/agency and consulting organizations.

The program of study may be structured to aid students seeking professional designations of Chartered Property and Casualty Underwriter (CPCU) and Associate in Risk Management (ARM).

RECOGNITION

Our risk management and insurance undergraduate program is consistently ranked among the leading programs in the U.S. by *U.S. News & World Report*.

RELATED ORGANIZATIONS

Risk Management and Insurance Society (http://www.rmisuw.org/)
Co-Curricular Learning Board (https://business.wisc.edu/faculty-research/risk-insurance/learning-board/)

HOW TO GET IN

HOW TO GET IN

CURRENT UW–MADISON STUDENTS

Requirements	Details
How to get in	Application required. Meeting the requirements listed below does not guarantee admission. (https://admissions.wsb.wisc.edu/BbaPreBusiness (https://admissions.wsb.wisc.edu/BbaPreBusiness/))
Courses required to get in	Students are required to complete each of the requirements below. Requirements can be completed via coursework, test credit, transfer work, or placement test (if applicable). Communication A • One course with the Communication A designation Microconomics • ECON 101 • ECON 111 • A A E 101 Calculus, completed or in-progress • MATH 211 • MATH 221 Students who started at UW-Madison before Fall 2026 should refer to their DARS report to confirm course requirements for admission application eligibility.
GPA requirements to get in	Minimum 3.0 UW-Madison GPA.
Credits required to get in	• If you started at UW-Madison as a first-year student, 24 credits completed/in-progress at UW-Madison are required for application. • If you started at UW-Madison as a transfer student, 12 credits completed/in-progress at UW-Madison are required for application. • In-progress course credits towards this minimum must be completed at the end of the spring application term.
Other	• Pre-Business 101 workshop required during the intended application year. • Pre-Business applicants may apply once within their first four terms (Fall/Spring) at UW-Madison, based on enrollment date. There is no credit maximum.

Semester	Deadline to apply	Decision notification timeline
To apply for a fall start	Mid March	On or before July 1st.
To apply for a spring start	This program does not accept applications to start in the spring.	
To apply for a summer start	This program does not accept applications to start in the summer.	

PROSPECTIVE FIRST-YEAR APPLICANTS

All prospective UW–Madison students must apply through the central Office of Admissions and Recruitment (https://www.admissions.wisc.edu/). Prospective high school students may be considered for direct admission to Business based on their application to the University of Wisconsin-Madison. Simply list a Business interest as your top academic area of interest on the University application.

PROSPECTIVE TRANSFER APPLICANTS

Transfer students at University of Wisconsin System campuses or Wisconsin Technical Colleges may apply separately for admission to both the University of Wisconsin-Madison and the School of Business during the spring term for fall enrollment. Information for prospective transfer students can be found here: https://business.wisc.edu/undergraduate/admissions/transfer-students/.

ADDITIONAL INFORMATION

Students declared in Business: Risk Management and Insurance cannot earn the Summer Certificate in Business Fundamentals, Certificate in Business, or the Certificate in Entrepreneurship due to curriculum overlap.

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

SCHOOL OF BUSINESS BBA REQUIREMENTS

The Wisconsin Bachelor of Business Administration (BBA) program combines UW–Madison's core general education requirements, broad coverage of core business disciplines, and cutting-edge experiential learning and signature courses to create a strong academic foundation upon which students delve deeply into their majors.

BUSINESS LIBERAL STUDIES

Liberal studies requirements must be completed prior to graduation. **A single course cannot be used to fulfill multiple liberal studies requirements.**

Communication A	Complete either: • one course with the Communication A designation, or • satisfaction of Communication A based on UW Placement Test.
Microeconomics	Complete one: • ECON 101 • ECON 111 • A A E 101
Macroeconomics	Complete either: • ECON 102 • ECON 111
Social Science	One 3+ credit course with the Social Science designation. Courses in or cross-listed with the following subjects do not satisfy this requirement: ACCT I S, ACT SCI, FINANCE, GEN BUS, INFO SYS, INTL BUS, M H R, MARKETNG, OTM, R M I, REAL EST.
Calculus	Complete either: • MATH 211 • MATH 221
Literature	One 3+ credit course with the Literature designation.
Science	6 credits with the Biological, Natural, or Physical Science designations. Courses in or cross-listed with MATH or STAT cannot be used to meet this requirement.
Ethnic Studies	One 3+ credit course with the Ethnic Studies designation.
Humanities	One 3+ credit course with the Humanities designation.
Ethics	Complete one: • PHILOS 241 • PHILOS 243 • PHILOS 244 • PHILOS 341 • PHILOS/ENVIR ST 441 • L I S 461

REAL EST 530	Real Estate Investment Analysis	
Total Credits		**15**

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Integrate a holistic risk management process (framework) across all dimensions of an organization, implementing risk management decisions that add value.
2. Use appropriate statistical techniques and data analysis to support risk management decisions.
3. Apply fundamental insurance principles that support economic development through insurance markets.
4. Identify decision-making challenges, and implement strategies to address those challenges, in environments involving risk and uncertainty.
5. Demonstrate strong critical thinking skills as observed through their ability to debate various positions, ask skeptical questions, and probe underlying assumptions.
6. Demonstrate leadership qualities in moving the profession forward.

Total Credits 120-123

1 This requirement is satisfied through the Risk Management and Insurance major requirements.

2 **Complete 6 additional credits of R M I coursework numbered 600 or above, or 3 additional credits of R M I coursework numbered 600 or above and 3 credits of the following**: any ACT SCI course numbered 600 or above, FINANCE 325 Corporation Finance, FINANCE 330 Derivative Securities, OTM/MARKETNG 423 Procurement and Supply Management, ACCT I S 630 Foundations of Auditing, M H R 640 Creative Destruction Lab I, or M H R 641 Creative Destruction Lab II.

ADVISING AND CAREERS

ADVISING AND CAREERS

ADVISING

Advising is an integral part of any student's educational journey in the School of Business Undergraduate Program. Starting at Student Orientation, Advising, and Registration (SOAR), we encourage all students to connect with academic advisors. Business academic advisors have a wealth of knowledge about courses on campus, as well as policies and procedures.

Business career coaches help students with career exploration, internships, resumes, job search, interviewing, and more. We encourage students to connect with their career coach once they arrive on campus.

Business academic advisors and career coaches are passionate about student success. Students experiencing academic difficulty or personal struggles are encouraged to talk to their advisor about how their individual situation may affect their academic performance.

Assigned Academic and Career Coaches

Admitted business students will have one assigned academic advisor. Career coaches are assigned by academic major to be able to provide industry-specific career guidance. If a student has more than one major, they may have more than one assigned career coach. Students can find their assigned advisor and coach by logging into the Starfish portal through MyUW.

For students not yet admitted to the School of Business, there is a team of pre-business advisors available.

Accessing Advising

Drop-in advising and scheduled appointments are available for admitted business students. Pre-business students may also schedule an appointment with a pre-business academic advisor or utilize drop-in academic advising.

For more information on accessing academic advising, please see our Academic Advising page (https://business.wisc.edu/undergraduate/academic-advising/).

For more information on accessing career coaching, please see our Career Coaching page (https://business.wisc.edu/undergraduate/careers/).

CAREERS

Risk professionals identify, develop, and analyze solutions to manage risk (financial, credit, operational, etc.) at both the organizational and consumer level. Effective risk management encompasses all divisions of an organization, allowing the organization to grow safely and to be more resilient. Insurance is a key solution for managing risk and is deployed by risk professionals working as brokers, underwriters, claims adjusters, product developers, and a host of other potential insurance careers.

To learn more about careers in risk management and insurance, please visit the BBA RMI website (https://business.wisc.edu/undergraduate/majors/risk-management-insurance/).

More information on Career Pathways (https://business.wisc.edu/undergraduate/careers/pathways/).

ACCREDITATION

ACCREDITATION

AACSB International—The Association to Advance Collegiate Schools of Business (http://www.aacsb.edu/)

Accreditation status: Accredited. Next accreditation review: 2026–2027.

RISK MANAGEMENT AND INSURANCE, CERTIFICATE

The undergraduate Risk Management and Insurance (RMI) certificate offers non-business undergraduates a focused pathway to develop expertise in identifying, assessing, and mitigating risks across industries. This 12-credit program provides a flexible curriculum to complement students' primary fields of study outside of business. Whether exploring new career paths in risk management, brokerage, or insurance, graduates emerge well-equipped to navigate the complexities of today's risk landscape. With an emphasis on practical skills and industry relevance, the RMI certificate prepares students for success in a variety of professional roles, contributing to both their personal growth and the broader workforce demands of the risk management industry.

HOW TO GET IN

HOW TO GET IN

The certificate is open to undergraduates declared in a major outside of the School of Business who are in good academic standing. Students declared in a major in the School of Business are not eligible for the certificate. To declare the certificate, go to the Academic Forms (https://business.wisc.edu/undergraduate/academic-advising/#forms/) page and complete the Business Major and Certificate Declaration form.

REQUIREMENTS

REQUIREMENTS

A minimum 2.5 GPA must be earned on all coursework applied to meet the requirements of the certificate program. All certificate credits must be earned in residence at UW-Madison.

Code	Title	Credits
R M I 300	Principles of Risk Management	3
Choose one of the following:		3
R M I 640	Management of Insurance Enterprise	
R M I 645	Commercial Insurance	
R M I 655	Risk Financing Techniques	
R M I 660	Risk Analytics and Behavioral Science	
R M I 665	Catastrophe Risk and Reinsurance	
Six additional credits of R M I coursework numbered 600-699		6
Total Credits		**12**

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Integrate a holistic risk management process (framework) across all dimensions of an organization, implementing risk management decisions that add value.
2. Apply fundamental insurance principles that support economic development through insurance markets.
3. Identify decision#making challenges, and use appropriate statistical techniques and data analysis to support risk management decisions.
4. Demonstrate strong critical thinking skills in emerging areas or risk as observed through their ability to debate various positions, ask skeptical questions, and probe underlying assumptions.

ADVISING AND CAREERS

ADVISING AND CAREERS

ACADEMIC ADVISING

Certificate students will be assigned to the Business Certificate Advising Committee.

Drop-in advising and scheduled appointments are available to students who are declared in the certificate. Students can schedule their appointments via Starfish.

For more information on accessing academic advising, please see the Academic Advising (https://business.wisc.edu/undergraduate/academic-advising/) page.

Please note enrollment in required courses is subject to availability. As a result, completion of the certificate within an individual student's intended graduation timeline cannot always be guaranteed.

SCHOOL OF EDUCATION

The School of Education is consistently ranked as one of the best schools of education in the United States, with programs spread across the arts, education, and health.

The fields taught here define the human experience: the arts to inspire creative spirits, education to challenge minds, and health to improve lives.

In addition to our high-quality academic programs, we have a rich legacy of developing outstanding leaders, educators, artists, health care professionals, and scholars.

STUDENT BODY

Each year, about 2,200 undergraduates are enrolled in the School of Education.

While many students pursue teacher certification, a significant number complete programs in the performing and visual arts, human movement, and human services.

We offer a broad array of undergraduate programs, plus 19 certificate programs that reflect the range of disciplines housed in the school.

ACADEMIC DEPARTMENTS

All 10 departments offer courses to undergraduate students. The School's departments include:

- Art (https://art.wisc.edu/)
- Counseling Psychology (http://counselingpsych.education.wisc.edu/)
- Curriculum and Instruction (https://ci.education.wisc.edu/)
- Dance (https://dance.wisc.edu/)
- Educational Leadership and Policy Analysis (http://elpa.education.wisc.edu/)
- Educational Policy Studies (https://eps.education.wisc.edu/)
- Educational Psychology (https://edpsych.education.wisc.edu/)
- Kinesiology (https://kinesiology.education.wisc.edu/)

- Rehabilitation Psychology and Special Education (https://rpse.education.wisc.edu/)
- Theatre and Drama (https://theatre.wisc.edu/)

STUDENT LIFE AND SUPPORT FROM THE START

As an academic home, the School of Education is a source of advising, guidance, support, and a strong sense of community.

Our top priority is student success – from application to graduation. Advisors are with you from day one! Each student is assigned both an academic advisor and a Career Center advisor at summer orientation.

We provide a wide range of resources and support to students throughout their academic journey. Faculty members are also deeply committed to student success and are eager to work closely with them to meet their goals.

While on campus, you will benefit from attending a relatively small school within the larger UW–Madison setting. This environment combines smaller class sizes with world-class resources and connections with your professors and peers.

LEARNING ENVIRONMENT

The School of Education fosters a caring and supportive environment that encourages students to take risks, expand their experiences, and develop into professionals.

Faculty seek committed, creative, and reflective students who are sensitive to differing perspectives.

Throughout your academic career, we encourage you to challenge yourself and grow through volunteer experiences, service learning courses, internships or paid work experiences, and study abroad programs.

- Theatre, Certificate (p. 2008)

ENTERING THE SCHOOL

APPLYING TO UW-MADISON

All prospective UW–Madison students must apply through the central campus Office of Admissions and Recruitment (https://www.admissions.wisc.edu/).

Students who indicate an interest in a School of Education major on their UW–Madison application will be admitted to the School of Education program or pre-program of choice at the point of admission to the university. Considering more than one School of Education major? It's also possible to declare "undecided in the School of Education" when completing the application.

In addition, students may indicate their interest in a School of Education major when registering for the Student Orientation, Advising, and Registration (SOAR) program.

CURRENT UW-MADISON STUDENTS

Students interested in pursuing a School of Education major should consult the program's declaration criteria, which vary by program area. Select the major of interest here (p. 1659), and then look for the How to Get in tab.

REENTRY STUDENTS

Students previously enrolled at UW-Madison who have not attended for a semester or more must complete a reentry application, as outlined by the UW–Madison Office of Admissions and Recruitment (http://www.admissions.wisc.edu). In general, students enrolled in a School of Education program before their absence from UW–Madison will be readmitted to that program, provided they were in good academic standing when they left (i.e., not on probation, strict probation, or dropped by the university). Note: Students seeking readmission to the professional part of their program should be aware of potential qualifications related to their return. See Reentry to Campus After an Absence (p. 1662) for details.

Reentry applicants who were dropped by the university are asked to submit supplemental application materials. Instructions for the

supplemental application are sent after the student has submitted the online reentry application. If an applicant is not in good academic standing the reentry application will be referred to the School of Education Student Services office; students must meet with the designated staff member.

Students previously enrolled in another UW–Madison school or college will not be readmitted directly into a new, School of Education program. They must apply for reentry to the university with another school or college – usually the school or college in which they were previously enrolled. Once readmitted to the university, students may apply to the School of Education program by following the declaration process for that program. Select the major of interest here (p. 1659), and then look for the How to Get in tab.

All prospective School of Education students are strongly encouraged to meet with an advisor in the School of Education Student Services office in advance of their declaration. Consultations are available in person, virtually, or via telephone. To schedule an appointment, off-campus prospective students may complete this request form (https://uwmadison.co1.qualtrics.com/jfe/form/SV_6X8A9Zc5eE8wshU/) or call 608-262-1651. Current students can also schedule an appointment online through the Starfish app (https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/) in MyUW.

WISCONSIN EXPERIENCE

WISCONSIN EXPERIENCE

UW–Madison's vision for the total student experience, the Wisconsin Experience, (https://wisconsinexperience.wisc.edu/about/) combines learning in and out of the classroom. Tied to the Wisconsin Idea (https://www.wisc.edu/wisconsin-idea/) and steeped in long-standing institutional values – the commitment to the truth, shared participation in decision-making, and service to local and global communities – the Wisconsin Experience describes how students develop and integrate these core values across their educational experience.

UW–Madison encourages students to mindfully engage in four core concepts throughout their time on campus.

Empathy & Humility (https://wisconsinexperience.wisc.edu/empathy-and-humility/) - Badgers bring heart – empathy and humility – to everything that we do. It's the very lens of our worldview. We develop and demonstrate a cultural understanding of ourselves and others; we engage locally, nationally, and globally in a respectful and civil manner; and we appreciate and celebrate one another's abilities, views, and accomplishments.

Relentless Curiosity (https://wisconsinexperience.wisc.edu/relentless-curiosity/) - Badgers show relentless curiosity at every step of life's journey. We question things that no one has ever thought to question. We actively learn with expert instructors, scholars, and peers; we engage in creative inquiry, scholarship, and research; we develop resilience; and we foster courage in life and learning.

Intellectual Confidence (https://wisconsinexperience.wisc.edu/intellectual-confidence/) - Badgers fearlessly sift and winnow until we achieve intellectual confidence. At our core, we're learners and teachers. We develop competence, depth, and expertise in a field of study; we integrate ideas and synthesize knowledge across multiple contexts; and we exercise critical thinking and effective communication.

Purposeful Action (https://wisconsinexperience.wisc.edu/purposeful-action/) - Badgers strive to find greater meaning every day through purposeful action. We work for the common good – for something that's bigger than ourselves. We apply knowledge and skills to solve problems; we engage in public service, partner with others, and contribute to the community; and we lead for positive change.

THE WISCONSIN EXPERIENCE IN THE SCHOOL OF EDUCATION

Since its inception the School of Education has embraced the concepts of the Wisconsin Experience, providing opportunities for students to learn in venues beyond the traditional classroom. Some of the activities are listed below; additional activities are listed under each major.

SERVICE LEARNING AND COMMUNITY SERVICE

- Students completing the Adapted Physical Education minor volunteer for a weekend as camp counselors at Camp Courageous (https://campcourageous.org/), working one to one with campers with disabilities. The students provide activities such as a scavenger hunt, support in the pool for aquatic activities, and other adventures like ziplining with their camper.
- RP SE 300 Individuals with Disabilities offers a field-based experience where students work directly or indirectly with individuals with disabilities. Each year, hundreds of students are placed in various community settings across Madison. This experience provides students with valuable, first-hand knowledge of the services and contributions made to support individuals with disabilities, encouraging learning beyond the traditional classroom. These real-world experiences allow students to better understand the community and its needs, extending their education beyond textbooks and lectures.
- As part of required coursework, Art Education students teach art to children and teens in school and community-based settings in three of the four semesters of the program. Some of our most recent partners include:
    - Monroe Street Arts Center (https://www.monroestreetarts.org/)
    - Madison School & Community Recreation (https://www.mscr.org/programs/after-school-camps/elementary-school/elementary-after-school-programs/) (MSCR) art clubs
    - The Wisconsin Art Education Association's Youth Art Month and Visual Arts Classic
    - K-12 fieldwork experiences in private schools like Edgewood, Eagle, and Madison Country Day; public schools in rural, suburban, and urban districts; plus public charter and alternative schools like Shabazz High School and Nuestro Mundo Elementary.

STUDY ABROAD

- The School of Education sponsors a number of summer study abroad (https://global.education.wisc.edu/study-abroad/) opportunities led by SoE instructors. These two or three-week courses make it possible to have a study abroad experience and still have time to work or pursue other activities during the summer. The following programs were offered in 2026:

    - Education, Diversity, and Community in the Galapagos Islands (Ecuador)
    - Disability Rights and Access in Australia
    - Youth, Language, and Experiential Education in the Dominican Republic
    - UW City as Studio: Drawing in Portugal
    - Crossroads of Culture and Health in New Zealand
    - Theatre in London
    - Inclusive Physical Activity and Sports in Ireland
- The art department designates the Santa Reparata Institute for Studio Art (SRISA) (https://studyabroad.wisc.edu/program/?programId=201) program as one that meets the department's philosophy of teaching and learning for Art majors. Located in the heart of Florence, Italy, this English-speaking program allows students to explore the rich tradition of Italian Art and offers the most access to courses that can satisfy art program requirements.

STUDENT ORGANIZATIONS

- Aspiring Educators of Wisconsin (https://win.wisc.edu/organization/aspiringeducators/) is a pre-professional association for those pursuing careers as educators. It provides opportunities to meet other education majors and current teachers, explore cutting-edge issues in education, and interact with the community.
- The Photography Club (https://win.wisc.edu/organization/photographyclub/), AIGA Wisconsin UW-Madison (https://win.wisc.edu/organization/aigauwmadison/) (graphic design), Mad Gaffers (https://win.wisc.edu/organization/madgaffers/) (glassblowing), and Art for Change (activism) are just a few of the available options for art students.
- The Health Promotion/Health Equity Learning Community (HPHE LC) was recently launched with the goal of providing hard-working and dedicated students with support, resources, and opportunities within the health promotion and health equity field. Provided services include a cohort program, internship pools, tutoring services, and networking events.

RESEARCH AND DEPTH OF STUDY

- Students pursuing health-related studies are encouraged to get involved in research. Students have participated in labs such as the Promotion of Health Equity & Adapted Physical Activity (PHEAPA) (https://kinesiology.education.wisc.edu/research/pheapa-lab/) lab or the Pain, Context, and Innovation (https://www.shinyekim.com/) lab. Students also participate in programs run through the Wisconsin Area Health Education Centers (AHEC), such as the Community Health Internship Program (https://ahec.wisc.edu/chip/).
- A new Honors program for Educational Policy Studies majors began in the fall of 2025.
- Each year, Rehabilitation Psychology majors have the exciting opportunity to engage in hands-on learning beyond the classroom by collaborating with faculty and graduate students on research in rehabilitation psychology. Students may contribute to ongoing research projects or receive guidance as they design and launch their own initiatives. The annual Undergraduate Research Symposium offers students a chance to showcase their work, fostering valuable experience in presenting research to the broader community.
- The dance department provides financial awards (https://dance.wisc.edu/admissions-and-aid/scholarships-and-awards/) to encourage students to continue their studies, both nationally and internationally, over the summer. For example, full-tuition scholarships are given to dance majors to study in the summer study program at the Dance Education Lab in New York. One award of full tuition and accommodation is given to a freshman dance major to study at the six-week Perry Mansfield pre-professional summer study program. Students have these, and other opportunities, to make professional connections in the field and in the global dance community.
- The Department of Theatre and Drama offers an Honors option (https://guide.wisc.edu/undergraduate/education/theatre-drama/theatre-drama-bs/#requirementstext) in the major and a named option in Acting (https://guide.wisc.edu/undergraduate/education/theatre-drama/theatre-drama-bs/theatre-drama-acting-bs/).
- Undergraduate awards (https://eps.education.wisc.edu/admissions-and-aid/financial-aid/) in writing, research, and community-based scholarship are sponsored by the educational policy studies department. One such award is the Eric Flanagan Community-Engaged Scholarship Award.

VOLUNTEER OPPORTUNITIES

- One of the UW's most sought-after volunteer experiences, the kinesiology department's Adapted Fitness program offers fitness training and physical activities to community-based clients with a wide variety of permanent and temporary disabilities from heritable disorders, chronic and neurological diseases, and accidental traumas. Students who pursue the Physical Activity for Diverse Abilities Certificate (https://guide.wisc.edu/undergraduate/education/kinesiology/promoting-activity-diverse-abilities-certificate/) receive priority placement for volunteer positions.

INTERNSHIPS AND FIELD PLACEMENTS

- Rehabilitation Psychology (https://guide.wisc.edu/undergraduate/education/rehabilitation-psychology-special-education/rehabilitation-psychology-bse/) majors are required to complete 240 hours of internship in the community, giving them the chance to apply classroom knowledge in real-world settings. These internships allow students to immerse themselves in a variety of environments (https://rpse.education.wisc.edu/current-students/rehabilitation-psychology-internships/) that support people with disabilities, providing hands-on experience in their specific areas of interest. This valuable opportunity allows students to gain experience putting their major to work in the field, while also giving them opportunities to explore future career paths.
- Undergraduates in teacher education programs have multiple field experiences in K-12 schools, culminating in a full-time student teaching experience.
- Art internships provide real-world experience and can often be completed for university credit through enrollment in ART 393 Internships in Art. Students have interned and conducted research at many businesses, institutions, and on-campus locations, including the Madison Children's Museum, Bayview Center for Arts and Education, ArtWrite Collective, Chazen Museum of Art, Museum of Modern Art, Metropolitan Museum

of Art, Monroe Street Arts Center, and the Madison Museum of Contemporary Art.

LEARNING FROM CURRENT PRACTITIONERS

- The art department is unique in its ability to bring in weekly visiting artists through the Art Colloquium (https://art.wisc.edu/public-programs/) series. A professional national or international artist comes to campus to provide an artist's talk, studio visits, and general conversation about art-making with students. Individual courses often bring in visiting artists throughout the semester to provide workshops on unique techniques from those who specialize in particular processes.
- Instructors in the Elementary Education Program bring guests from a variety of community organizations into their classrooms:
    - Teachers, principals, and superintendents from area school districts to share information about school life and provide tips on the interview process to help connect theory to practice
    - PBS Wisconsin to share technology and teaching resources
    - Black Girl Magic to share about programming and pedagogy
    - Out-of-school-time workers from the Goodman Community Center, Lussier Community Center, and Neighborhood House
    - Wisconsin Education Association Council (WEAC) to introduce programs such as "Ambassadors for Equity" and "Early Career Educators"
    - WIDA to introduce English Language Development Standards and to practice administering the ACCESS for ELLs assessment to K-9 students who may need academic English language support
    - School social workers, child psychologists, and other service staff to share information about their roles and resources for future educators

POLICIES AND REGULATIONS

POLICIES AND REGULATIONS

ACADEMIC CONCERNS AND STATUS

Academic Actions and Exceptions

Academic actions and exceptions are used to record a student's progress through the university and to document various administrative and academic situations. Actions can be grouped into two broad categories:

- those that permit exceptions to program requirements and school/university policies *and*
- those that affect a student's standing in the university – e.g., probation or transferring from one program to another.

As the undergraduate dean's office, the School of Education Student Services office is responsible for reviewing, approving, documenting, and sometimes initiating academic actions and exceptions. To be posted to a student's record, exceptions must go through several steps. Exceptions may be initiated either by program faculty/staff or by Student Services staff, who often consult about a specific exception. Once an exception has been approved, it is processed either as an official "Dean's action" or as a DARS exception. Students can find a record of dean's actions on their printed unofficial transcript (also called the student record) or on their DARS report. A DARS exception will be reflected in the individual student's DARS report.

Exceptions to faculty-approved program requirements generally include course substitutions and rarely involve course or program requirement waivers. Exceptions to campus or School policies include permission for adding or dropping a course beyond the deadlines, waiving senior or major residency requirements, extending the deadline for meeting a deficiency or finishing an Incomplete, and permitting students to repeat a course for credit. A request for an exception requires careful consideration from all parties involved. Students should be prepared to explain the reasoning behind a request and offer supporting documentation.

Substantial consultation time with faculty, staff, and/or deans may be required, so students should not expect to receive an immediate answer to a request during the initial appointment.

Academic Standing: Dean's List, Academic Probation, and May Not Continue

To remain in good academic standing in the School of Education, students must earn both a semester grade point average (GPA) and a cumulative grade point average of at least 2.5. Academic standing is not calculated after the completion of summer coursework. While the 2.5 grade point average may not be sufficient to permit students to be considered for admission to their program of choice, it is the minimum required to remain in the School of Education. This may be substantially higher than minimum grade point average requirements in other schools/colleges on campus.

Dean's List

Students have at least a 2.5 cumulative GPA and 3.5 or higher for the semester. Students must have received no incompletes in graded courses, no unreported grades, or end-of-semester academic actions for the semester. Credit/no credit and pass/fail courses are not considered in meeting the requirements for the Dean's List.

Probation

A student's grade point average for a particular semester falls below 2.5, while the cumulative campus GPA remains at or above 2.5. Students must earn a minimum 2.5 grade point average on the next semester's coursework to be removed from probation status.

Strict Probation

Strict Probation occurs when either (1) a student's cumulative GPA falls below a 2.5 OR (2) a student already on probation earns less than a 2.5 grade point average for the subsequent semester. To be in good academic standing, students on strict probation must earn both a 2.5 GPA on the next semester's coursework and also have a cumulative GPA of 2.5 by the end of the next semester. Students on Strict Probation status have an enrollment hold placed on their record for the subsequent semester. These students are not permitted to enroll until they have met with an advisor in the School of Education Student Services office.

Continued Strict Probation

A student already on strict probation obtained a 2.5 GPA or above on the next semester's coursework, but the cumulative GPA is still below 2.5. Once both grade point averages are at or above 2.5, the student will be in good academic standing. Students on Continued Strict Probation status have an enrollment hold placed on their record for

the subsequent semester. These students are not permitted to enroll until they have met with a Student Services advisor.

May Not Continue in the School of Education

Students on strict probation or continued strict probation who earn less than a 2.5 GPA on the next semester's work will receive notice that they may not continue in the School of Education. Students on May Not Continue status who do not seek or are not granted permission to continue may be withdrawn from the university and dropped from courses ("disenrolled"). Students are expected to contact the School of Education Student Services office immediately, to discuss options, including transfer to another school or college on campus, transfer to another university, or withdrawal from UW–Madison.

A chart outlining these different levels of academic standing is available on the School of Education website (https://advising.education.wisc.edu/academic-dean-support/#academic-standing-and-reentry).

Continuation Requirement: Department of Kinesiology

All students admitted to undergraduate programs in the Department of Kinesiology, including Physical Education, must maintain a cumulative grade point average (GPA) of at least 2.75, based on all UW–Madison campus coursework. A student whose GPA falls below 2.75 will be placed on probation for the following semester. If the GPA remains below a 2.75 at the end of the probationary semester, the student will receive a discontinuation letter indicating that they must transfer out of the Department of Kinesiology. A hold will be placed on the student's registration for the second semester following the probationary semester until the transfer is complete. Students in this situation must transfer to another School of Education program, another UW–Madison school/college, to another institution altogether, or must withdraw from the university.

If a student wishes to appeal being discontinued in the department, it must be done in writing to the Chair of the Undergraduate Studies Committee within 30 days of the date of the notification letter. The Undergraduate Studies Committee may request that the student appear in person at an Undergraduate Studies Committee meeting to present the case.

If a negative decision is reached by the Undergraduate Studies Committee, a student may choose to appeal in writing to the Department of Kinesiology Student Affairs Committee within 30 days of the date of the notification.

If a negative decision is reached by the Department's Student Affairs Committee, a student may choose to appeal in writing to the Chair of the Department of Kinesiology within 30 days of the date of the notification.

If a negative decision is reached by the Chair of the Department of Kinesiology, a student may choose to follow the School of Education Grievance Policy.

In the event of a positive decision at any level, the student will be allowed to continue for one semester in order to raise the GPA to 2.75 or higher. A 2.5 cumulative GPA is required to graduate from the Department of Kinesiology.

Grievance Policy in the School of Education

School of Education Grievance Policy and Procedures

The following School of Education Student Grievance Policy and associated procedures are designed for use in response to individual student grievances regarding faculty or staff in the School of Education.

Any individual student who feels they have been treated unfairly by a School of Education faculty or staff member has the right to file a grievance about the treatment and receive a timely response addressing their concerns. Any student, undergraduate or graduate, may use these grievance procedures, except employees whose complaints are covered under other campus policies. The grievance may concern classroom treatment, mentoring or advising, program admission or continuation, course grades (study abroad grade complaints are handled through International Academic Programs (https://studyabroad.wisc.edu/)), or issues not covered by other campus policies or grievance procedures.

> For grievances regarding discrimination based on protected bases (https://compliance.wisc.edu/eo-complaint/) (i.e., race, color, national origin, sex, disability, age, etc.), contact the Office of Compliance (https://compliance.wisc.edu/eo-complaint/).
>
> For grievances or concerns regarding sexual harassment or sexual violence (including sexual assault, dating/domestic violence, stalking, and sexual exploitation), contact the Sexual Misconduct Resource and Response Program (https://compliance.wisc.edu/titleix/) within the Office of Compliance.
>
> For grievances that involve the behavior of a student, contact the Office of Student Conduct and Community Standards in the Dean of Students Office at https://conduct.students.wisc.edu/).

For grievances about, or directed at, faculty or staff in a School of Education department, unit, or program, students should follow these steps:

1. Students are strongly encouraged to first talk with the person against whom the concern is directed. Many issues can be settled informally at this level. If students are unable to resolve concerns directly or without additional support, step 2 or 3 should be pursued.
2. If unresolved after taking or considering step 1:
   a. If the concern is directed against a teaching assistant (TA), and the student is not satisfied, the student should contact the TA's supervisor, who is usually the course professor. The course professor will attempt to resolve the concern informally.
   b. If the concern involves a non-TA instructor, staff member, professor, academic department, or School of Education office or unit, the student should contact the chair of the department or the director of the office or unit, or their designee. The chair or director, or their designee, will attempt to resolve the concern informally. If the concern is about the department chair or office/unit director, the student should consult the School of Education Senior Associate Dean for guidance.
3. If the concern remains unresolved after step 2, the student may submit a formal grievance to the chair or director in writing within 30 business days[1] of the alleged unfair treatment. To the fullest extent possible, a formal written grievance shall contain a clear and concise statement of the issue(s) involved and the relief sought.

4. On receipt of a written grievance, the chair or director will notify the person at whom the grievance is directed with a copy of the written grievance. The person at whom the complaint is directed may submit a written response, which would be shared with the student.
5. On receipt of a written grievance, the chair or director will refer the matter to a department, office, or unit committee comprised of at least two members. The committee may be an existing committee or one constituted for this purpose. The committee, or delegates from the committee, may meet with the parties involved and/or review any material either party shares with the committee.
6. The committee will provide a written description of the facts of the grievance and communicate recommendations to the department chair or office/unit head regarding how the grievance should be handled.
7. The chair or director will offer to meet with the student who made the grievance and also will provide a written decision to the student, including a description of any related action taken by the committee, within 30 business days of receiving the formal grievance.

[1] For the purpose of this policy, business days refers to those days when the University Offices are open and shall not include weekends, university holidays, spring recess, or the period from the last day of exams of fall semester instruction to the first day of spring semester instruction. All time limits may be modified by mutual consent of the parties involved.

If the grievance concerns an undergraduate course grade, the decision of the department chair after reviewing the committee's recommendations is final.

Other types of grievances may be appealed using the following procedures:

1. Both the student who filed the grievance or the person at whom the grievance was directed, if unsatisfied with the decision of the department, office or unit, have five (5) business days from receipt of the decision to contact the Senior Associate Dean, indicating the intention to appeal.
2. A written appeal must be filed with the Senior Associate Dean within 10 business days of the time the appealing party was notified of the initial resolution of the complaint.
3. On receipt of a written appeal, the Senior Associate Dean will convene a sub-committee of the School of Education's Academic Planning Council. This subcommittee may ask for additional information from the parties involved and/or may hold a meeting at which both parties will be asked to speak separately (i.e., not in the room at the same time).
4. The subcommittee will then make a written recommendation to the Dean of the School of Education, or their designee, who will render a decision. The dean or designee's written decision shall be made within 30 business days from the date when the written appeal was filed with the Senior Associate Dean. For undergraduate students, the dean or designee's decision is final.

Further appealing a School of Education decision – *graduate students only*

Graduate students have the option to appeal decisions by the School of Education dean or designee by using the process detailed on the Graduate School's website (https://grad.wisc.edu/documents/grievances-and-appeals/).

Questions about these procedures can be directed to the School of Education Dean's Office, 377 Education Building, 1000 Bascom Mall, 608-262-1763.

Part-Time Enrollment Status

Students who choose part-time enrollment status or who anticipate falling below full-time enrollment status due to dropping a course should consult with an advisor in the School of Education Student Services office. Part-time enrollment may have important implications for any number of issues, including scholarship eligibility, financial aid, visa, and other compliance requirements. It is especially important that athletes and international students consult with Student Services advisors and other advisors if considering part-time enrollment. Students who drop below 12 credits need not leave university housing.

Reentry to Campus after an Absence

Students wishing to reenter UW–Madison after an absence of a semester or more must file a reentry application form. This form is available from the UW–Madison Office of Admissions and Recruitment (https://admissions.wisc.edu/apply-as-a-reentry-student/). If an applicant is not in good academic standing, reentry

requires permission from the School of Education Student Services office; students must meet with the designated staff member.

Students admitted to the professional part of a program may leave UW–Madison for a maximum of two consecutive semesters (excluding summer sessions) and be eligible to reenter directly into the program. Students in this situation are not guaranteed immediate placement in a practicum or student teaching placement upon reentry, and graduation may be delayed because of prior commitments to continuing students. Students who leave the program for more than two consecutive semesters (excluding summer sessions) may be considered for readmission only on an individual basis. Lack of space in a program may preclude readmission directly into a program for any future semester. Given the individual circumstances, a student may be required to reapply to the program altogether.

The general policy above may be modified by any particular program so that the conditions of reentry match the structure of the professional program. Some programs require that students obtain prior approval to interrupt the program sequence. All students intending to be absent should leave with a firm understanding of the conditions guiding their reentry into their professional program. Consult with the appropriate faculty advisor and with the School of Education Student Services office.

Residency (Major & Senior) Requirements

Major Residency

Students must complete at UW–Madison at least 15 credits in upper-level courses in the major. Some programs, e.g., Art, require more credits to meet major residency requirements. Upper-level courses are generally defined as those numbered 300 and above, but this varies by program area. Retroactive credits and credits granted by examination do not count toward the residency requirement.

Senior Residency

Seniors in the School of Education must complete the last 30 credits in residence. Special permission to take a portion of senior work either at another institution or by correspondence (via UW Extension) must be obtained in advance from the School of Education Student Services office. Coursework taken as part of a UW–Madison-sponsored study abroad program does not count against senior residency. Students should discuss senior residency issues with their Student Services advisor. Retroactive credits and credits granted by examination do not count toward the residency requirement.

Excess Cumulative Credits and Satisfactory Progress

Excess Cumulative Credits

Wisconsin resident undergraduates who have accumulated more than 165 completed credits will be assessed a 100% tuition surcharge on credits over 165, as required by the University of Wisconsin–Madison. This policy was effective beginning Spring 2021. See Excess Cumulative Credits (https://kb.wisc.edu/apir/110093/) on Academic Planning and Institutional Research's KnowledgeBase page for more information about this policy and the criteria used in counting cumulative, completed credits. Note: Students who have already been awarded a Bachelor's degree from any accredited institution are exempt from the tuition surcharge. Special students are also exempt.

Satisfactory Progress: Second Degree Candidates and Education Special (non-degree-seeking) Students

The School of Education is enriched by admitting students with a previous degree to our programs. We welcome these students and encourage them to apply to the School. At the same time, admission as a second-degree or Education Special (designated EDS or EDCS) student is a privilege granted by the School of Education. Second-degree and Education Special students are expected to make the same timely progress toward program completion as initial-degree students.

To ensure satisfactory progress, second-degree and Education Special students who are identified to have met any one of the criteria below will be required to confer with her/his program coordinator and the undergraduate academic dean for purposes of developing a formal plan for program completion:

- Student has earned over 200 total credits.
- Student enrolled for two consecutive semesters without completing requirements for the professional program to which the student was initially admitted.
- Student withdrew from classes for two consecutive semesters.
- Student failed to enroll in a required course when it was available, particularly those that are intermittently offered.
- Student engages in other course selection patterns that result in his/her failing to make progress toward completion of the initial program.

Students who do not meet the terms of the plan for program completion may be restricted to enrollment in specific courses or departments, prevented from enrolling entirely, or withdrawn from classes by the academic undergraduate dean after consultation with program faculty. Students may appeal the terms of the plan or any of the dean's actions above under the provisions of the School of Education Grievance Policy.

Withdrawing from UW–Madison

Students wishing to withdraw from the semester in progress must do so through a formal process after reviewing the university policy on Withdrawals (https://registrar.wisc.edu/withdraw/), including the Medical Withdrawal (https://registrar.wisc.edu/medical-withdrawal/). Requests after the first day of the semester and prior to the deadline can be initiated through the Student Center in MyUW. Instructions can be found on this KB page (https://kb.wisc.edu/25601/).

Withdrawing after the deadline (https://registrar.wisc.edu/dates/) requires permission from the School of Education Student Services office. Students must meet with the designated staff member to discuss withdrawal details, supports, and future plans. Students may be asked to provide a written justification for the request and supply medical or other documentation. The decision will be provided via email.

COURSES AND COURSE ENROLLMENT

Attendance Policies

Faculty and instructors may require students to attend scheduled meetings of a class and/or to participate in other course-related activities, including distance activities. Students are responsible for materials presented in such meetings or activities. Because courses are designed and conducted in diverse ways, faculty and instructors are expected to inform students in writing at the beginning of

each course if there are specific expectations for attendance/participation, including whether any component of the grade is based on such attendance/participation.

Auditing a Course

A student may audit a course only if the instructor consents and if no laboratory or performance skills are required. (The second restriction usually prevents students from auditing Dance or Art courses.) Auditors do not participate in classroom discussions or take examinations but are expected to attend with reasonable regularity and do some assigned work.

Audited courses carry no degree credits, are not graded, do not count in determining full-time/part-time load for enrollment certification in an academic term, and do not meet degree requirements for School of Education students. Students interested in auditing a course should confer with their Student Services advisor. The deadline to change a course from credit to audit is the end of the fourth week of classes; no exceptions to this deadline are permitted.

Concurrent Enrollment at Two Institutions

School of Education students may occasionally choose to take courses at another institution — e.g., Madison College or Independent Learning through UW Extension — while enrolling at UW–Madison.

Concurrent enrollment at another institution can impact financial aid, as full-time or part-time student status is usually determined by the credits taken only at UW–Madison. If intending to enroll at UW-Madison for fewer than twelve credits, contact the Office of Student Financial Aid (https://financialaid.wisc.edu/) to discuss combining enrollments when awarding financial aid.

Important Note for International Students: Independent Learning courses do not count toward the minimum credit hours needed to maintain F-1 or J-1 visa status. Contact International Student Services (ISS) (https://iss.wisc.edu/) with questions about maintaining F-1 or J-1 visa status while enrolling in an Independent Learning course. International students should also check with ISS about online course limits (https://iss.wisc.edu/full-time-enrollment/) (number of courses and/or credits) that count toward full-time enrollment.

Credit Overload Permission

Students may carry a maximum of 18 credits per semester without the special permission of an academic dean. School of Education undergraduates wishing to take over 18 credits should complete the Credit Overload Request Form (https://uwmadison.co1.qualtrics.com/jfe/form/SV_a5bKn4mlGaeCnpb/). Students must be in excellent academic standing to be considered for a credit overload, usually a 3.0 cumulative GPA on the UW–Madison campus.

Please note that additional fees are assessed for credit overloads on a per-credit basis.

During summer sessions, students may, as a rule, carry one credit per week of instruction unless special permission is given. The maximum credit load for Education students for the entire summer session is 12. Session-specific limits follow the rule of one credit per week of instruction, except nine credits are allowed in the Eight-Week General Session. Students must obtain permission from an academic dean to carry an overload in any of the summer sessions; start this process by completing the Credit Overload Request Form (https://uwmadison.co1.qualtrics.com/jfe/form/SV_a5bKn4mlGaeCnpb/).

Directed/Independent Study

Directed Study, also called Independent Study, offers the student an opportunity to work with a School of Education faculty member on an individual topic of interest. Most School of Education departments make directed study courses available to students on the basis of the student's preparation and motivation and a faculty member's willingness to accept the student in such an endeavor. Directed Study courses are generally numbered 199, 299, 399, and 699.

This study option is intended primarily for advanced students who have a depth of knowledge in a field, the self-discipline necessary for independent work, and strong motivation to pursue a special project. Some program areas limit the number of Directed Study credits that can be applied to major or minor requirements.

Directed Study is taken as a supplement to, but not as a replacement for, available course offerings. In this way, it may be used to expand areas of particularly strong interest. Extra responsibility is required from the faculty member involved, and no member of the faculty is obligated to accept a proposal for a directed study project. Students should have a well-defined outline of the topic to be studied before discussing the project with a faculty member.

Both the student and instructor must follow UW–Madison's Policy on Directed/Independent Study for Undergraduates (https://kb.wisc.edu/page.php?id=36263). Important components of this document include, but are not limited to:

- The student's responsibility to develop a written study plan, in collaboration and agreement with the instructor, consistent with the responsibilities of the instructor. The study plan will include expectations for learning and student work, the time and place for regular meetings, the number of credits to be earned, and any other issues related to the learning experience.
- Guidelines for assigning the appropriate number of credits to the Directed Study.
- Responsibilities of the Directed Study instructor.
- The approval process for enrolling in a Directed Study after the course add deadline (usually the end of the second week of class in the fall and spring semesters) starts with the completion of the School of Education Undergraduate Academic Policy/Exception Request form (https://uwmadison.co1.qualtrics.com/jfe/form/SV_9n0nBjbkUDyFULY/).

Independent Learning Course Enrollment

Students occasionally elect to take an Independent Learning (https://il.wisconsin.edu/course-catalog/) course through the University of Wisconsin Extension. Many of the courses offered through Independent Learning (IL) can count toward specific degree requirements and students have six months to complete the coursework from the point of registration. Individuals interested in enrolling in an Independent Learning course should note the following important issues:

Course Equivalencies

Independent Learning courses are not automatically transferable as equivalent UW–Madison campus courses — even when the

Independent Learning course carries the same number and title. Use Transferology (https://www.transferology.com/state/wisconsin.htm) to ensure that the Independent Learning course is equivalent to the campus required course. Faculty and dean's offices may have some discretion in permitting courses to count for requirements even when they are not coded as exactly equivalent; students should see their Student Services advisor.

Concurrent Enrollment

UW Extension is an entirely separate institution from UW–Madison. Permission for concurrent enrollment is granted routinely for School of Education students through the School of Education Student Services office. The completed form (https://advising.education.wisc.edu/academic-dean-support/#uw-extension-independent-learning-tuition-waiver) indicates permission for concurrent enrollment and, in some circumstances, provides for a waiver of the tuition for the Independent Learning course (see additional information below). Students should take this form to the School of Education Student Services office, 139 Education Building, 1000 Bascom Mall, and meet with an advisor. The form must be sent to Independent Learning after it has been approved at the School of Education Student Services office.

International Students should contact International Student Services (ISS) (https://iss.wisc.edu/) to confirm that plans for concurrent enrollment, including online and Independent Learning courses, will maintain F-1 or J-1 visa status.

Tuition Waiver

The tuition for an Independent Learning course may be waived with the academic dean's permission, although the student is still responsible for other course enrollment fees. Students are eligible for a tuition waiver if they register for an Independent Learning course during the semester they are concurrently enrolled at UW–Madison. In some cases, students may be allowed to register for Independent Learning classes once they have enrolled in courses for the subsequent semester, linking their Independent Learning registration with the credits for the succeeding semester. Students interested in receiving a full tuition waiver must be enrolled full time (at least 12 credits) at UW–Madison, and have no more than 18 credits after adding the Independent Learning course. Students should see their Student Services advisor for details about Independent Learning options and steps for requesting a waiver. (https://advising.education.wisc.edu/academic-dean-support/#uw-extension-independent-learning-tuition-waiver)

Posting Independent Learning Courses to the UW–Madison Transcript

Independent Learning courses are posted to the campus transcript after staff at the Office of Admissions and Recruitment (http://admissions.wisc.edu) receive the original transcript. An official transcript for an Independent Learning course must be submitted to this office.

Timing for Course Completion and Degree Posting

Independent Learning courses require a substantial time commitment. Students should not plan to begin an Independent Learning course only a few weeks before it must be completed! Perhaps even more important, students completing an Independent Learning course to meet degree requirements during their last semester on campus should be aware that the Independent Learning course must be completed prior to the University's official graduation date for that semester. The completion date listed on the UW Extension transcript must be on or before the UW–Madison degree completion date or the student's degree will be awarded after the subsequent semester. For example, if a student's UW Extension transcript indicates a course completion date of May 25 but the UW–Madison degree completion date is May 23, the student's degree will be posted for the subsequent August graduation date, not for the May graduation day. This can create serious problems for teacher education students hoping to secure a position. For this reason, students completing final degree requirements via Independent Learning should consult carefully with Student Services and Independent Learning staff regarding the timing of their course completion and degree posting.

Late Course Adds or Drops

Course enrollment regulations must be followed when adding and dropping courses. Students are responsible for knowing and complying with the published deadlines; see the Office of the Registrar's website (https://registrar.wisc.edu/dates/) for deadlines. Students are expected to check their academic records routinely to minimize the need for late drops based on enrollment errors.

Late Course Add

Students must obtain instructor/departmental, and dean's approval to add a course after the course add deadline. To initiate this process, complete the SoE Undergraduate Academic Policy/Exception Request form (https://uwmadison.co1.qualtrics.com/jfe/form/SV_9n0nBjbkUDyFULY/).

Late Course Drop

After the drop deadline, courses may be dropped only with permission of the School of Education Student Services office. Permission is granted only in unusual circumstances. Late drops may result in unintended consequences in other areas, e.g., financial aid, scholarship eligibility, and student status (for international students). Requests for backdated drops due to simply missing the campus drop deadlines (https://registrar.wisc.edu/dates/) or to remove a "DR" from the student's record will not be honored.

To initiate the late drop process, students are encouraged to meet with an academic advisor to discuss their circumstances. Students must fill out the SoE Undergraduate Academic Policy/Exception Request form (https://uwmadison.co1.qualtrics.com/jfe/form/SV_9n0nBjbkUDyFULY/) and meet with the Student Success and Support Manager. Students will be required to provide a written justification for the request and may be asked to submit medical or other documentation. The decision will be provided via email.

Repeating Courses

Most courses on the UW–Madison campus may be taken only once for purposes of credit. Some courses may be repeated a limited number of times for credit. Other courses may be repeated an unlimited number of times for credit. When courses are taken more than once, all grades and their associated grade points are included in the cumulative campus grade point average.

Some School of Education professional programs may permit students to retake courses for admission eligibility purposes only. Students should consult Student Services staff with questions regarding repeated courses.

DEGREES, "DOUBLE MAJORS," AND GRADUATION

Additional Major or "Double Major"

School of Education students may be permitted to complete an additional major along with their School of Education degree program. School of Education majors in Educational Policy Studies, Health Promotion and Health Equity, or Theatre and Drama can be declared as additional majors by meeting with the appropriate advisor and completing the request form (https://education.wisc.edu/admissions-aid/undergraduate-admissions/). Other majors in the School of Education can only be added by completing a dual degree, see below.

Education students wishing to complete an additional major housed in another school or college such as the College of Letters & Science must follow the declaration procedures required by the respective school or college. For example, the process for adding another major from the College of Letters & Science typically looks like this :

1. Contact the department that houses the major of interest. Meet with the undergraduate major advisor there, if appropriate. Complete the Major Declaration form and obtain the department's approval to declare the major.
2. The form will be sent to the School of Education Student Services office, 139 Education Building, 1000 Bascom Mall. Student Services staff will take a dean's action to permit the additional major and notify the registrar's office that the request has been approved.

Students will be granted a degree at the end of the fall, spring, or summer semesters in which all School of Education degree requirements are complete. Graduation will **not** be postponed if students have an unfinished additional major or certificate program that is not required for the degree.

Exceptions to the requirements of an additional major or certificate program must be approved by the department and school/college dean's office in which the major or certificate program is located.

Credits-to-Degree

School of Education programs require a minimum of 120 credits in all programs for graduation, although programs may require more. To earn 120 credits in four years (eight semesters), students must average 15 credits per semester. The number of credits carried each semester may depend upon a student's preparation, motivation, course selection, employment, and extracurricular activities.

Degree Audit Reporting System (DARS)

UW–Madison uses "DARS" to document a student's progress toward the completion of their degree, including any additional majors and certificates. A DARS (Degree Audit Reporting System) report shows all the requirements for completing a degree and, against courses that are planned or completed, shows the requirements that have been met, and those that are unmet. A report can offer suggestions about courses that may be taken to meet specific requirements and can assist in the academic planning and enrollment process. Students can access a DARS report in the Course Search & Enroll app or Student Center via My UW.

DARS also has a "what-if" function. This feature makes it possible to request a DARS report as if pursuing another program, major, or certificate. It is an excellent tool if considering a new or additional area of study. School of Education students in a pre-professional classification such as Pre-Elementary (PRE) or Pre-Kinesiology should request a "what if" DARS report of their professional program of interest. For example, Pre-Elementary Education (PRE) students will request Elementary Education K-9; Pre-Kinesiology (PKN) students will request the Kinesiology report. Minors have their own DARS programs and are run separately from the main degree audit.

More information (including tutorials) on how to request and read regular and what-if DARS reports is available under the Resources tab on the Office of the Registrar's website. (https://registrar.wisc.edu/dars/)

DARS is not intended to replace student contact with academic advisors. It creates more time in an advising appointment to discuss course options, research opportunities, graduate school, or issues of personal interest or concern to students.

DARS is used as the document of record for degree program, major, and certificate completion in the School of Education.

Dual Degrees

Students may be permitted to complete two degrees simultaneously. For example, students may complete two degree programs in the School of Education or may choose a degree program in the College of Agricultural and Life Sciences along with their School of Education degree. Not all schools/colleges permit dual degrees – e.g., this is not permitted by the College of Letters & Science or by the College of Engineering. Students must complete the request form (https://uwmadison.co1.qualtrics.com/jfe/form/SV_9n0nBjbkUDyFULY/) and confer with an academic dean regarding the ability and feasibility of completing two degrees programs simultaneously. Students wishing to earn two undergraduate degrees must follow these academic policies:

- If the two degrees to be earned are within the School of Education, at least 30 additional credits and all course and grade point average requirements for the second degree must be completed for the second degree. When the first degree requires 120 credits, a minimum of 150 credits for most majors will be required. The two degree programs must differ sufficiently to permit the total credits to be accumulated. Courses may count toward the fulfillment of both degree programs. Permission to complete two degrees simultaneously requires the academic dean's approval. This approval, and the formal academic action permitting the dual degree work, should be sought as early as possible to ensure that it is feasible to complete both degrees.
- If the two degrees to be earned are from two different schools/colleges (one degree in Education and one degree in another school or college on this campus), the following academic policies shall be followed:
    - Permission to complete two degrees simultaneously requires academic dean's approval from both schools/colleges. Students should see their current dean's office for the required paperwork.
    - Admission into the other school/college shall be based on the admission criteria for that particular school/college and, when necessary, particular program.
    - The two degree programs must differ sufficiently so that the combined total requirements for the two degrees are at least 150 credits.

- The student's program must be reviewed and approved in both colleges before the start of a student's senior year in residence.
- The degree from each college will be awarded simultaneously.
- Exceptions to degree requirements must be taken by staff from the school/college linked to the particular degree.

GRADES AND GRADING

Grading System

See Enrollment and Records (p. 28) for detailed information on the campus grading system, including the list of possible grades and their impact on a student's grade point average.

Credit/No Credit Courses

Courses designated as being offered on a Credit/No Credit basis are indicated on the transcript as either CR, meaning the student earned the credits for which the course was offered, or N, meaning that the student did not earn any credit even though enrolled for the course. Students may not take such courses on any other basis.

"F" Grade Policies

If the course is repeated, the original F will remain on the transcript and will be included in computing the GPA. If a grade of F, N (no credit), or U (unsatisfactory) is received in student teaching or in courses within required practica, the course may be repeated only if the faculty adviser, the supervisor of the practicum or student teaching, and the appropriate associate dean gives approval. A third attempt to register in a course under these conditions is not allowed.

Incompletes

A grade of Incomplete may be assigned to a student who, because of illness or another unusual and substantiated cause beyond their control, is unable to complete the coursework.

To be eligible for a grade of Incomplete, the student must be earning a passing grade to-date in the course and have a limited amount of work to complete by the end of the term.

Deadlines for Resolving Incomplete Grades

- Incomplete grades assigned in spring semester or summer term must be updated on the student record by the Friday of the eighth week of the following fall term.
- Incomplete grades assigned in fall semester must be updated on the student record by the Friday of the eighth week of the following spring term.

If the Incomplete grade is not changed to a final grade by the Friday of the eighth week deadline, the Incomplete grade will be changed (lapsed) to a grade of F or N (for Credit/No Credit courses).

For a short summary of the policy, including the process for extending the time to resolve the incomplete, see the Enrollment and Records - Incompletes section of the Guide (p. 30).

Pass/Fail Grading

All undergraduate students are eligible to take a course on a pass/fail basis if they request the option prior to the deadline and are in good academic standing at the time of the request. Good academic standing for this purpose means that students have a minimum 2.5 cumulative grade-point average based on UW–Madison coursework.

Undergraduates may carry one course on a pass/fail basis per term. (Each year's summer sessions collectively count as a single term.)

Pass/fail can be chosen only for elective courses. Required courses cannot be taken on a pass/fail basis. The School of Education may reject pass/fail requests for non-elective work, but it is the student's responsibility to be sure that the requested course is an elective. Courses taken on a pass/fail basis will not count for non-elective requirements—even if they would normally count toward such requirements.

Students may submit pass/fail requests via their Student Center link from the time that they register until midnight on the Friday at the end of the fourth week of fall and spring semesters. For modular and summer session courses, pass/fail requests must be submitted by midnight Friday of the week in which the session is one-fourth completed. Students may not cancel or add the pass/fail option after the deadline for submitting Pass/Fail Option Forms.

Instructors are not notified when a student elects the pass/fail option (Students can see whether a course is pass/fail in their Student Center). When a course is taken on a pass/fail basis, the instructor reports a letter grade, which is converted by the registrar to an S (satisfactory) or U (unsatisfactory). The grade of S shall be recorded by the registrar in place of instructors' grades of A, AB, B, BC, or C. The grade of U shall be recorded by the registrar in place of instructors' grades of D or F. Neither the S nor the U is used in computing the grade-point average. A student must earn at least a C to receive credit for the course.

Please note that courses completed on a pass/fail basis do not apply toward Liberal Studies, major, minor, or professional education requirements for graduation. Students planning graduate study should not take courses on a pass/fail basis if these are pre-professional requirements for admission to graduate and/or professional programs. Individuals who are undecided about a major should avoid taking a course on a pass/fail basis that might later become a required course needed to complete a major. Students may wish to consult with an advisor before taking a course on a pass/fail basis.

Six-Weeks (Midterm) Grades

Only first-year students receive midterm, or "six-week" grades. Midterm grades (https://registrar.wisc.edu/exam-grading/) for first-year students are prepared at the end of the sixth week of classes and are made available to students in their Student Center in My UW on Monday of the eighth week. An email is sent to all students with six-week grades informing them of their availability in the Student Center.

The midterm grade report provides students with important feedback about course enrollment and performance before the course drop deadline. Students should check their six-week grade report to make sure all courses are listed and grades indicated. An "NW" means that "No Work" has been turned in; students who have been attending the course should contact the instructor immediately. In the case of a course registration problem, students should see their Student Services advisor immediately.

Grades from Transfer Courses

Grades from transfer courses are not posted to the UW–Madison transcript; however, the School of Education uses all attempted transferable coursework to determine program admission eligibility and selection grade point average. Students should be aware

that grades earned at another institution will be included in admission calculations. (Courses for which an "F" is earned do not transfer to UW–Madison.) Students should see their School of Education advisor if they have additional questions about this policy.

PROGRAM ADMISSIONS

Last 60 Credit Rule

Two grade point averages will be calculated to determine candidates' eligibility for programs. GPAs will be calculated using:

1. all transferable college-level coursework attempted, *and*
2. the last 60 credits attempted.

The higher GPA of these two will be used for purposes of determining eligibility. Graded graduate coursework will also be used in all GPA calculations. ("Attempted" coursework indicates coursework for which a grade has been earned.)

The use of the last 60 credits does not supersede other eligibility requirements. For example, when a minimum GPA on prerequisite courses is required, or a minimum major GPA is required to be eligible for admission, all required courses will be used in calculating this GPA. This will include courses taken prior to the last 60 credits. A cumulative GPA, however, will still be calculated based on the last 60 college credits attempted.

Currently, retention and graduation GPAs are based on all credits attempted at UW–Madison as an undergraduate student. If each semester's GPA after admission to the program meets the required GPA for retention, the student will be allowed to continue and complete the program.

This policy does not apply to certification in Music Education, as the degree is granted from the College of Letters and Science, not the School of Education.

Contact the School of Education Student Services office for additional information regarding the interpretation of this policy.

Students with a Previous Degree

A prospective student who already holds an undergraduate degree is admitted to the School of Education as either an Education Special student or a Second Degree student, depending on the academic area of interest and the individual's previous coursework. The term "Special Student" indicates that the student has an interest in pursuing certification in a subject area studied during the initial degree; the student does not receive a second degree for this "certification only" coursework. Second undergraduate degree students are seeking a second degree from the School of Education in an area that is different from the major coursework of the first degree. This degree may or may not include teacher certification. Candidates for limited enrollment programs must meet all admission eligibility requirements for the program and must compete with the eligible applicants for program admission.

Special Students

Applicants must file an undergraduate application with the Office of Admissions and Recruitment (http://admissions.wisc.edu). Education Special students not yet admitted to a professional program are given an EDS classification, are not eligible for financial aid, and enroll last with the other special students on campus. Candidates seeking Special student status in open enrollment programs must obtain written permission for admission from the relevant program coordinator and must submit a professional program application to the School of Education Student Services office. Candidates seeking admission to a limited enrollment program must meet all admission eligibility requirements for the program and must compete with other eligible candidates for program admission. Applicants admitted to a certification professional program become Education Certification Special students (EDCS classification) to distinguish them from Special students not so admitted. Students with an EDCS classification may be eligible for financial aid. Continuing EDCS students may register with undergraduates having junior status.

Second Degree Candidates

Students who wish to earn a second baccalaureate degree in the School of Education must file an undergraduate application with the Office of Admissions and Recruitment (http://admissions.wisc.edu) and must file a professional program application with the School of Education Student Services office. Second-degree students not yet admitted to a professional program are given a pre-professional classification. Second-degree candidates must:

- be seeking a new major that is substantially different from their previous degree work;
- complete at least 15 upper-level credits in the new major;
- complete at least 30 credits beyond their previous coursework.

The determination of whether a student should be admitted as a second degree candidate or Education Special student is made by the faculty advisor in consultation with Student Services staff after analyzing the student's remaining requirements. The faculty advisor will determine the specific remaining requirements for students admitted to a program. In addition to completing the requirements specific to the program(s) of interest, returning students must also complete any relevant campus-wide requirements, complete the requirements specific to individual program areas such as the Environmental Education requirement, and satisfy any high school deficiencies identified at the time of admission to UW–Madison. Students are strongly encouraged to discuss their academic plans with their faculty advisor and must make satisfactory progress toward program completion - see Satisfactory Progress/Excess credits for details.

REQUIREMENTS

REQUIREMENTS

COMMUNICATION: BREADTH AND DEPTH

Courses designated as Communication A (Comm A) and Communication B (Comm B) help students learn how to gather and assess information from a variety of sources and to present different kinds of information, insight, and analysis to diverse audiences. Comm A courses focus on essential communication skills and Comm B courses teach research, writing, and communication skills within a disciplinary area.

Communication A

Complete either:

- one course with the Communication A designation, or
- satisfaction of Communication A based on UW Placement Test.

Communication B
Complete one course with the Communication B designation.

QUANTITATIVE REASONING: BREADTH AND DEPTH
Quantitative Reasoning A courses provide students with foundational skills in mathematics, computer science, statistics or formal logic that are needed for dealing with quantitative information. In Quantitative Reasoning B courses, students use quantitative tools in the context of other disciplines or course material.

Quantitative Reasoning A
Complete either:

- one course with the Quantitative Reasoning A designation, or
- satisfaction of Quantitative Reasoning A based on UW Placement Test.

Quantitative Reasoning B
Complete one course with the Quantitative Reasoning B designation.

SCHOOL OF EDUCATION LIBERAL STUDIES REQUIREMENTS
How Students Meet Requirements
All students are required to complete a minimum of 40 credits of liberal studies coursework. Most liberal studies courses are offered by academic departments in the College of Letters & Science. Each course is assigned a number of designations that provide information about its content. For example, a breadth designation indicates what kind of course it is – a science course, a literature course, etc. Level designations describe how advanced the content of a course is in relation to other courses in the department – elementary, intermediate, or advanced level.

The Liberal Arts and Sciences (LAS) designation identifies courses that contain liberal arts content. These courses are found in many schools and colleges across the campus, including the School of Education. All courses with the LAS designation may be selected to meet the liberal studies requirement. These courses, and those on the fine arts list, are the only School of Education courses that will count toward the requirement.

Details about each course, including breadth, level, and LAS status, can be found in Course Search and Enroll (https://registrar.wisc.edu/course-search-enroll/). Click on the course number to obtain this information. Students can also search for courses meeting specific breadth, level, credits, and other designations using Course Search and Enroll (https://registrar.wisc.edu/course-search-enroll/). School of Education departments with LAS courses include Art, Counseling Psychology, Curriculum and Instruction, Dance, Educational Leadership and Policy Analysis, Educational Policy Studies, Educational Psychology, Kinesiology, Rehabilitation Psychology and Special Education, and Theatre and Drama.

The School of Education's Liberal Studies requirements can be used to satisfy the campus-wide Core General Education requirements. Communication A and B, and Quantitative Reasoning A and B coursework can also be used towards Core General Education and other requirements. Academic advisors can suggest courses that will count in multiple places.

Are you interested in switching to the School of Education? If so, you should run a "what-if" DARS report. (https://kb.wisc.edu/registrar/94068/) It will show how many of these requirements you have already met and are unmet.

Humanities
Complete a minimum of 9 credits, to include:

Literature (minimum of 2 credits)
Any course with the Literature designation.

Fine Arts (minimum of 2 credits)
The courses listed below are approved for the Fine Arts requirement. Additional courses can be considered; students may consult with an advisor in the School of Education Student Services Office.

Code	Title	Credits
AFRICAN/ AFROAMER 220	HipHop, Youth Culture, and Politics in Senegal	3

LITTRANS/ THEATRE 335	In Translation: The Drama of Henrik Ibsen	3-4
Any MUSIC course (https://guide.wisc.edu/courses/music/)		
Any MUS PERF course (https://guide.wisc.edu/courses/mus_perf/)		
Any THEATRE course (https://guide.wisc.edu/courses/theatre/)		

Humanities Elective(s)

Courses to total 9 Humanities credits. Select from:

- Courses with the Humanities or Literature designation.
- Fine Arts courses from the list below.
- Courses with the Language courses designation.
- ENGL 201
- ENGL 207
- COM ARTS 181

Social Studies (Social Science)

Complete a minimum of 9 credits. Select from courses with the Social Science designation.

The following programs have specific requirements:

- Kinesiology: PSYCH 202
- Art Education, Elementary Education, Elementary Education and Special Education, Physical Education, Special Education: POLI SCI 104 or POLI SCI 205

Science

Complete a minimum of 9 credits, including one course designated as a Biological Science course and one designated as a Physical Science course. All students must complete one science course with a laboratory. The lab course can also count toward the Biological or Physical Science requirement if it has the requisite breadth designation.

Biological Science

Any course with the Biological Science designation.

Physical Science

Any course with the Physical Science designation.

Laboratory Science

Most sciences with lab sections are identified as such in Course Search and Enroll (https://registrar.wisc.edu/course-search-enroll/).

In addition to courses with lab sections, the following courses include some lab experience and will meet the lab requirements for students in the School of Education:

Code	Title	Credits
ANTHRO 105	Principles of Biological Anthropology	3
ATM OCN 101	Weather and Climate	4
BOTANY 100	Survey of Botany	3
BOTANY/PL PATH 123	Plants, Parasites, and People	3
FOOD SCI/ MICROBIO 324	Food Microbiology Laboratory	2
GEOSCI 100	Introductory Geology: How the Earth Works	3
PHYSICS 109	Physics in the Arts	3
PLANTSCI 110	Introduction to Plant Science and Technology	4

Science Elective(s)

If needed, complete a course with the Biological, Physical, or Natural Science designation to total 9 Science credits.

Cultural and Historical Studies

Complete three requirements met by separate courses. Any of these courses can also be used to meet other requirements if it has the relevant breadth designation. A single course cannot satisfy more than one of the three Cultural and Historical Studies requirements listed below.

Ethnic Studies (minimum 3 credit course)

The Ethnic Studies requirement is intended to increase understanding of the culture and contributions of persistently marginalized racial or ethnic groups in the United States and to equip students to respond constructively to issues connected with our pluralistic society and global community. Courses that meet this requirement have a specific ethnic studies designation that can be utilized in a course search.

United States or European History (minimum 3 credits)

The courses listed below count toward this requirement. Additional courses can be considered; students may consult with an advisor in the School of Education Student Services office.

Global Perspectives (minimum 3 credits)

Global perspectives courses include courses whose primary emphasis is on:

- cultures whose origins lie outside of the Western tradition, or
- analyzing and interpreting cultural differences through the study of language, gender, race, ethnicity, religion, or class, or
- cultural pluralism within specific geographical areas.

The courses listed below count toward this requirement. Additional courses can be considered; students may consult with an advisor in the School of Education Student Services Office, 139 Education Building.

Liberal Studies Electives

Complete additional liberal studies coursework as needed to reach the required 40 Liberal Studies credits.

Important Notes Regarding the Liberal Studies Electives

- Completion of the Liberal Studies requirements is not a prerequisite to professional program declaration or admission.
- Whether a course can double count toward liberal studies and major requirements varies by program area and will be reflected in a student's DARS report.
- Courses that transfer to UW–Madison as departmental electives (e.g., POLI SCI X10) might meet specific Liberal Studies requirements. Students may consult with an advisor in the School of Education Student Services office to discuss transfer electives that appear to meet specific course requirements.
- While one course may cover two requirements, students must still complete both the 40-credit total and the 9-credit minimum requirements in Humanities, Social Studies (Social Science), and Science. For example, THEATRE/ENGL 120 Introduction to Theatre and Dramatic Literature, a Literature course also on the Fine Arts list, may be used to meet both the specific Fine Arts and Literature requirements of the Humanities area, but a total of 9 credits of Humanities are still required.
- No liberal studies coursework may be taken on a Pass/Fail basis.

Guidelines for Specific Program Areas

Teacher Education Programs

All teacher education students, except those in art education, may apply any appropriate coursework from the major or minor toward the Liberal Studies requirements. Art education students may apply all of the aesthetics credits (usually 14) toward the Liberal Studies requirements, but not courses taken to meet the studio requirements.

Art (BFA and BS)

In general, students may not satisfy Liberal Studies requirements with courses meeting studio or aesthetics requirements. However, Art–BFA candidates may apply 4 aesthetics elective credits toward the Humanities credits.

Kinesiology and Physical Education

Kinesiology and physical education students will meet the Science requirement by completing their required science courses — e.g., biology and chemistry.

Dance (BFA & BS)

Dance and Dance–BFA students may count their required anatomy course as a lab science. In general, Liberal Studies requirements cannot be met with courses taken to meet other program requirements.

Rehabilitation Psychology

In general, rehabilitation psychology students may not satisfy Liberal Studies requirements with courses taken to meet the Related Course Requirements in Rehabilitation Psychology. Courses applied toward the other parts of the Rehab Psych requirements cannot also count toward the 40 Liberal Studies credits. However, if a course is taken to meet any of the three Cultural/Historical Studies requirements, the course content can be used to meet both requirements, but the credits will only count in the Rehabilitation Psychology or Related Course Requirements areas. Once

the required credits have been met, additional coursework in Psychology, Sociology, Social Work, etc. may be applied toward Liberal Studies.

Theatre and Drama
Theatre and drama students can apply major coursework toward the Liberal Studies requirements.

RESOURCES

RESOURCES

SCHOOL OF EDUCATION STUDENT SERVICES

139 Education Building, 1000 Bascom Mall; 608-262-1651

Dedicated to supporting and promoting student success, the School of Education Student Services (https://education.wisc.edu/academics/undergrad-majors/academic-advising/) office coordinates a number of student-related services for prospective and current School of Education students in all programs. Student Services staff provide:

- Academic advising
- Career advising and programming
- Mentoring and advocacy for underrepresented and international students
- Requirement monitoring and help with course selection
- Referrals to other campus resources
- Someone to talk to
- And more!

The UW–Madison School of Education is committed to promoting equity and increasing diversity in its programs. In keeping with this commitment, Student Services staff include advisors with extensive experience assisting underrepresented and international students.

Students in the School of Education are encouraged to make Student Services a vital part of their academic and employment journey. More information about academic and career advising follows.

ACADEMIC ADVISING

139 Education Building, 1000 Bascom Mall; 608-262-1651

Choosing a major and navigating the completion of a degree or certificate can be an exciting process and one that students don't need to figure out on their own. Advisors help you find the right fit and create a unique pathway through your degree.

All students are assigned an academic advisor (https://advising.education.wisc.edu/) from the Student Services office who will provide advising throughout the degree. If desired, appointments can still be made with any advisor on the team. Academic Dean Support (https://advising.education.wisc.edu/academic-dean-support/) staff are also here for you when facing academic or personal challenges. We provide undergraduate School of Education students support, problem-solving, advocacy, resources, and approve exceptions to policies. Program or departmental advisors are also assigned to School of Education students. Plan to utilize your advising team – your academic, career, and program advisors; each advisor has specialized knowledge to help you succeed.

Regular meetings with an academic advisor can help keep you on track to complete your requirements and also help refine your learning goals. Tell us what you are enjoying about your learning, something you want to try out, skills you want to build, and careers that are intriguing to you.

In conversations with your advisor, we/you can:

- Discuss your major, degree requirements, course selection, and career ideas.
- Tell us what you need. We are experts in helping you find campus resources such as tutoring, counseling, advising for pre-health careers, getting involved with student organizations, or acquiring experience in your career interest area.
- Explore studying abroad, working/volunteering and internships, or learning specific skills like a language, communication techniques, or leadership.
- Think expansively! Make the most out of your college experience.

Advising appointments are available in person, virtually, or by phone. Current students schedule appointments using the Starfish app (https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/) in MyUW, by calling 608-262-1651, or in person in 139 Education.

Program advisors help students select and plan a program of study in the major, negotiate issues within the department and, in the case of certification programs, follow their students' progress through their professional coursework.

The divisions between program advising and Student Services advising are flexible. Students are encouraged to consult with all advisors who can help with a situation or answer a question.

CAREER CENTER

181 Education Building, 1000 Bascom Mall; 608-262-1651

As a School of Education student, the experiences and skills you develop through our programs will prepare you for success in a wide variety of career fields.

The Career Center (https://careercenter.education.wisc.edu/) is here to support you every step of the way!

- Meet with a Career & Internship Advisor (https://careercenter.education.wisc.edu/meet-with-us/) during your first year on campus to begin exploring your interests and opportunities. Learn what the possibilities are and start to build your roadmap for success. Current students may schedule career advising appointments through the Starfish app (https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/) in their MyUW accounts.
- Connect with professionals in your desired field(s) for guidance or to gain experience through paid internships (https://careercenter.education.wisc.edu/gain-experience/internships/), work-based learning experiences, or career events (https://careercenter.education.wisc.edu/attend-an-event/). Several on-campus events designed to introduce you to key employers, alumni, and professional contacts are offered each semester.
- Prepare to successfully secure an internship, job, or graduate school admittance through personalized career advising, workshops, for-credit career courses, or online tools (https://careercenter.education.wisc.edu/prepare-apply/) to build a solid resume and cover letter, apply for experiences, interview successfully, and make important career and life decisions.
- Stay connected (https://www.linkedin.com/groups/8489112/) throughout college and post-graduation as you navigate your

professional career; share your experience with future School of Education Badgers!

Internships

The School of Education Career Center actively builds relationships with employers in various fields and geographic locations to offer high-quality, paid internships to our students. Internships are learning experiences designed to apply the concepts learned in your academic program in a workplace setting. These experiences help students confirm their interest in specific career fields, develop important professional skills and connections, and build their resumes as they prepare for future full-time work or graduate school. More about internships as a student in the School of Education is available here (https://careercenter.education.wisc.edu/gain-experience/internships/).

Interested in working abroad? UW's International Internship Program (https://internships.international.wisc.edu/) offers experiences in a wide variety of fields across the world including the arts, education, and health.

STUDENT ORGANIZATIONS

Getting involved early is one of the best ways to make friends, explore your interests, and build valuable skills. UW–Madison offers more than 1,000 student organizations (https://soli.wisc.edu/involvement/#Student-Organizations) across every area of personal and professional interest.

Within the School of Education, you'll find over 10 registered organizations (https://education.wisc.edu/student-life/student-organizations/) spanning the arts, health, and education. These groups offer opportunities to connect with peers who share your passions and to learn from School of Education faculty and staff who serve as advisors and mentors - supporting your growth both inside and outside the classroom.

SCHOLARSHIPS/THE TEACHER PLEDGE/ TEACH GRANTS

Scholarships

The School of Education distributes approximately $2 million in scholarships and financial support to undergraduate students each year, made possible by the generosity of alumni and supporters who believe in our mission.

All undergraduate School of Education students are automatically considered for scholarships each year. This includes current students, transfer students, and students newly declaring a School of Education major. Rather than requiring an application, we we consider information from your student record, such as your major and financial need. Our goal is to make this simple.

First consideration goes to students who have submitted a Free Application for Federal Student Aid (FAFSA) (https://financialaid.wisc.edu/applying/). Other selection priorities include:

- Supporting students with financial need
- Retaining and graduating talented students

A variety of scholarships are available, including 4-year renewable awards for newly admitted high school students and a limited number of 2-year awards for undergraduate students.

For more details, please visit:

- Admitted High School Students Scholarships (https://wisc.academicworks.com/opportunities/94335/) page.
- Undergraduate and Transfer Students Scholarships (https://wisc.academicworks.com/opportunities/94347/) page.

The Teacher Pledge

The UW–Madison School of Education Wisconsin Teacher Pledge is a financial aid program for UW–Madison teacher education students. The Teacher Pledge offers undergraduate and graduate teacher education students up to the cost of in-state tuition, plus testing and licensing fees, in exchange for completing the FAFSA annually and making a commitment to teach in Wisconsin. For each year taught in a PK-12 school in Wisconsin, a portion of the Teacher Pledge loan will be forgiven — reaching 100% forgiveness after a three-to-four-year teaching commitment.

- For general information, visit the Teacher Pledge website (https://tec.education.wisc.edu/teacher-pledge/).
- Check out How to Take the Teacher Pledge (https://tec.education.wisc.edu/teacher-pledge/how-to-take-pledge/) – a checklist that guides students through Teacher Pledge requirements from A to Z, including how to participate.
- For answers to frequently asked questions, check out the Teacher Pledge FAQ. (https://tec.education.wisc.edu/teacher-pledge/faq/)

TEACH Grants

Students willing to teach in high-need teaching fields have received TEACH Grants of up to $4,000 per year for a total of $16,000 over their undergraduate academic career, or $8,000 over their graduate academic career. The officially designated high-need fields vary by state; see the Department of Education website (https://tsa.ed.gov/#/reports) for current information. A state or local education agency (LEA) may also document high-need fields.

Students receiving TEACH Grants must complete a service obligation of four years of teaching full-time in their high-need field in a designated low-income school. This must be accomplished within eight years after completing a teacher preparation program. Low-income schools are defined as public or private nonprofit elementary or secondary schools, or educational service agencies eligible for assistance under Title I of the Elementary and Secondary Education Act. In Wisconsin, more than one thousand schools are designated as low income.

TEACH Grant applicants must attain certain academic eligibility criteria. Candidates must have scored minimally above the 75th percentile on a nationally normed admissions test or have earned a 3.25 minimum cumulative grade point average. Grant recipients must have completed a Free Application for Federal Student Aid (FAFSA) (https://studentaid.gov/) to be eligible; indicate an interest in the TEACH Grant on the FAFSA.

Prior to submitting an application, students are strongly encouraged to learn about the parameters of the TEACH Grant and obtain answers to any related questions. For more information, please visit the Federal Student Aid webpage (https://studentaid.gov/understand-aid/types/grants/teach/).

GLOBAL ENGAGEMENT OFFICE AND STUDY ABROAD

181 Education Building, 1000 Bascom Mall

The Global Engagement Office (GEO) (https://global.education.wisc.edu/) is the School of Education's (SoE) office for SoE-specific global opportunities and curriculum, supporting students, faculty, staff, and international visiting scholars. GEO works within the SoE

and with the broader campus community to facilitate experiences such as study abroad, study away (within the United States and U.S. territories), or international internship opportunities. GEO can help a student navigate these processes. GEO also provides access to resources, information, and opportunities for SoE international students.

Study Abroad, Study Away, and International Internships

GEO works with the International Academic Programs (IAP) (https://studyabroad.wisc.edu/) office (301 Red Gym, 716 Langdon Street, 608-265-6329) to provide all SoE students with opportunities that fit their specific needs. IAP is the central study abroad, study away, and international internship office at UW–Madison. IAP offers over 300 study abroad options in more than 80 countries on six continents. Together, GEO and IAP provide information about academics, funding, and health and safety to make participating in a global opportunity possible for our students.

Global Opportunities and Resources

SoE - IAP Signature Study Abroad or Away Programs

The SoE has developed faculty-led short-term summer and winter break abroad and away opportunities specifically designed for SoE students to earn credits for their field of study. These SoE programs rotate so that eight to twelve are offered annually. For a complete list of programs and dates, visit the GEO website (https://global.education.wisc.edu/study-abroad/).

Help with Course Planning and Timing

Advising and Earning Credit

Many SoE academic departments have created Major Advising Pages (MAPs) (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/). MAPs are a guide to the academic requirements of specific majors in relation to study abroad or study away programs. While some programs include language training, many IAP programs have no language requirement and include courses taught in English.

All courses taken abroad through IAP count as "in-residence" credit, just like taking courses on campus at UW-Madison. In addition to the classroom experience, many students also complete internships and do research, fieldwork, and service learning.

When to Study or Intern Abroad or Study Away

Studying and interning abroad or away is open throughout the undergraduate years. However, for some majors, going early is the best option. For example, in the SoE, teacher education and kinesiology have structured course sequences in the junior and senior years. Studying abroad or away during the first two years may be the best option for students in these program areas.

SoE students, and students pursuing a certificate in the SoE, are encouraged to explore different global experiences early, even during their first or second semester on campus.

Review the MAPs and meet with advisors in the SoE and/or IAP to determine the most suitable time to participate and identify the location that is right for you.

Financing a Study Abroad or Away Experience

Learn more about funding these experiences on the IAP Scholarship webpage (https://studyabroad.wisc.edu/funding/scholarships/) and on the GEO website (https://global.education.wisc.edu/study-abroad/). Working with the IAP, International Internships, Financial Aid, and GEO early allows students to explore many scholarship options. Pre-planning around the costs of studying or interning abroad or away helps make participating a reality. Student financial aid is usually applied to study abroad experiences, and some countries permit students to work while participating in a study abroad program.

International Internships

As a SoE student, you have several avenues for exploring International Internships. You can visit GEO (https://global.education.wisc.edu/) to help you find the right office to connect with, you can meet with the IAP International Internships (https://studyabroad.wisc.edu/intern-abroad/) team, or meet with the SoE Career Center (https://careercenter.education.wisc.edu/) staff to discuss your options.

Students can pursue international internships during the summer months as well as during the semester, if allowed by the student's academic program. The UW Signature Internships, cultivated specifically for UW–Madison undergraduates, can be found in the International Internships database (https://my.studyabroad.wisc.edu/Account/Login/?returnUrl=%2Fiip%2F).

Resources for SoE International Students

GEO holds office hours, hosts events, and provides access to resources both in the SoE and around campus for SoE's international community. All international students have access to GEO's "Resources for SoE International Students" site in Canvas once enrolled at UW–Madison. The information available ranges from academics and registering for classes, to tips on managing the transition to help make Madison feel like home.

UNDERGRADUATE RESEARCH

UW–Madison is a research-rich environment and students are encouraged to participate in the research activities of our world-class faculty and staff. Here are some pathways students use to get involved with research:

Apply to a Structured Program

- Some students get involved in research through a specific program (https://research.wisc.edu/information-for-undergraduate-students/) designed to connect undergraduate students to research. This program may be a scholarship program, or simply provide funding to work on a guided research project. It may provide mentoring related to research methodology and/or require students to enroll in a course for credit. An example of such a program is the Undergraduate Research Scholars (https://urs.ls.wisc.edu/), one of the more popular options available to School of Education students.

Seek out Research Opportunities

- Many students take the initiative and seek out research opportunities on their own. The School of Education Career Center (http://careercenter.education.wisc.edu/) can provide help with writing an inquiry email. Here are a few ways to conduct this search:
- Find information about undergraduate research and fellowship opportunities on the UW Research (https://research.wisc.edu/information-for-undergraduate-students/) website.

- The Office of Experiential Learning (https://experientiallearning.wisc.edu/) helps students to start exploring research opportunities that best align with their interests.
- Find helpful information about undergraduate research experiences in science on the WISCIENCE (https://wiscience.wisc.edu/resources/guide-to-undergraduate-research/) website.
- Find a listing of labs on the Wisconsin Center for Education Research (https://www.wcer.wisc.edu/research/) and departmental websites. The lab descriptions often contain contact information for students interested in getting involved in the lab's activities. The Kinesiology department (https://kinesiology.education.wisc.edu/research/) and the Communication Sciences and Disorders department (https://csd.wisc.edu/research/) are two good examples of how this information is shared. Many School of Education students participate in research through the Department of Educational Psychology.
- The Student Jobs (https://studentjobs.wisc.edu/) website lists some research opportunities.
- Read the online bios of professors to learn about their areas of research. Send an email inquiry. The Center for Pre-Health Advising (https://prehealth.wisc.edu/research-opportunities/) has a helpful email template you may use.
- Ask the professor or TA in a class if they know of any opportunities to become involved with research.

Participate When Enrolled in a Course

- Some courses have research opportunities built into the course itself. For example:
- BIOLOGY/BOTANY/ZOOLOGY 152 has provided students with an option to participate in a mentored research opportunity.
- Students can serve as research participants to earn extra credit in their courses. Students enrolled in Educational Psychology courses, for example, are often provided with such an opportunity.
- Some professors will announce research opportunities through email to their students.

THE CENTER FOR COMMUNITY AND WELL-BEING

159 Education Building, 1000 Bascom Mall

The Center for Community and Well-Being offers events and programs that help build a strong sense of community, that encourage learning and growth, and that foster dialogue and engagement that embraces the nuance and complexity of different perspectives. See the Center's website (https://education.wisc.edu/about/community-well-being/) for more information regarding the Center's activities and programs.

COUNSELING PSYCHOLOGY TRAINING CLINIC

312 Education Building, 1000 Bascom Mall

The Counseling Psychology Training Clinic (CPTC) (https://counselingpsych.education.wisc.edu/clinic-and-outreach/cptc/) is an award-winning training clinic run by the School of Education's Department of Counseling Psychology. The clinic provides high-quality, affordable, and culturally responsive counseling and mental health services to UW–Madison students and members of the community. Clinic staff are trained to assist clients with a variety of concerns including:

- Depression
- Anxiety
- Relationship issues
- Family concerns
- Trauma
- Eating disorders
- Sexual orientation/identity
- Sexuality
- Culture/ethnicity
- Poor concentration
- Grief
- Gender issues
- Anger
- Counseling for gifted and talented students

MARY T. KELLNER TEACHER EDUCATION CENTER

L139 Education Building, 608-262-2997

The Mary T. Kellner Teacher Education Center (https://tec.education.wisc.edu/) supports all prospective, current, and alumni teacher education students across the UW–Madison campus. TEC programming highlights the benefits, importance, and joys of choosing teaching as a career. Our student supports are designed to promote success and cultivate leadership. We coordinate the University of Wisconsin–Madison School of Education Teacher Pledge student financial support program, assist students to achieve and document mastery of teacher education standards, and facilitate all required field experiences. The Mary T. Kellner Teacher Education Center also oversees the statutory requirements for our teacher education programs, including Act 31, which ensures that all preservice teachers learn about the history, culture, and tribal sovereignty of Wisconsin's American Indian communities. The Center is the main point of contact for school district partners, cooperating teachers, and the Wisconsin Department of Public Instruction. In the TEC, we cultivate a community of inquiry and leverage our shared resources to help prepare the excellent educators our Wisconsin PK-12 schools, families, and students deserve.

MERIT (MEDIA, EDUCATION RESOURCES, AND INFORMATION TECHNOLOGY)

301 Teacher Education Building, 608-263-4750

MERIT (https://merit.education.wisc.edu/) offers information and technology services to the School of Education and UW–Madison community partners. MERIT is designed as a collaborative and comprehensive cluster of service and support for the School of Education, UW–Madison, and beyond. Staff play an active role in the design and implementation of programs that connect the K-12 community to UW–Madison.

Some of our services include evaluation and selection of tools for delivery of content, instructional design and consulting for development of online learning, library services, and collections to support practicing teachers (including equipment loans), poster printing, lamination, workshops, and instructional support aimed at adoption of new tools, instructional technologies, and information literacy.

COOPERATIVE CHILDREN'S BOOK CENTER (CCBC)

401 Teacher Education, 608-263-3720

The CCBC (https://ccbc.education.wisc.edu/) is a library of the School of Education that provides education students, faculty, and staff with a noncirculating collection of children's and adolescent literature. The CCBC also serves other adults on campus and across the state who are interested in literature for the young, including Wisconsin teachers and school and public librarians.

This nationally unique library is the primary resource on campus and elsewhere for contemporary books published for children and young adults from preschool through high school ages. CCBC resources include extensive reference materials about literature for the young and a wide range of books for children and adolescents, including a book examination collection of new and recently published books, a comprehensive collection of recommended contemporary books, and historical literature from the 20th century. The CCBC is nationally known for its services related to intellectual freedom and advocacy for diversity in children's and young adult literature. Each year the CCBC compiles and releases statistics documenting the number of children's and young adult books published by and/or about Black, Indigenous, and People of Color (BIPOC), and additional aspects of identity including disability, LGBTQ+, and religion.

As a library of the School of Education, the CCBC is committed to being a vital part of the teacher education experience on campus. The CCBC's noncirculating collection provides immediate access to a wide range of literature for the young. CCBC librarians are available to meet with education students to help them identify children's and adolescent literature to fulfill class assignments, as well as to use in practicum and student teaching classrooms. Librarians are also available to meet with faculty and teaching assistants to discuss children's and young adult literature as it relates to the courses they are teaching.

The CCBC website (https://ccbc.education.wisc.edu/) provides full-text access to many national children's and young adult literature awards and recommended lists as well as specialized bibliographies from CCBC staff. The CCBC offers special events throughout the academic year that provide opportunities to hear from authors and illustrators, as well as to interact with others who are interested in books for children and teens.

HONORS

HONORS

DEAN'S LIST

Students have at least a 2.5 cumulative GPA and 3.5 or higher for the semester. Students must have received no incompletes in graded courses, no unreported grades, or end-of-semester academic actions for the semester. Credit/no credit and pass/fail courses are not considered in meeting the requirements for the Dean's List.

GRADUATING WITH HONORS AND GRADUATING WITH DISTINCTION

Undergraduate students are invited to wear an honors stole at graduation, representing Graduating with Honors, if they have indicated they expect to graduate at the conclusion of the current semester, have a cumulative GPA that places them in the top 20% of students expecting to graduate in their school/college, and have earned at least 60 credits in residence at UW–Madison. Credits in progress in the current semester count toward the 60 credit requirement.

Graduating With Distinction is a separate calculation and is posted to the undergraduate student's transcript after all grades and degrees have been recorded. Students qualify for the Distinction notation if they have received their degree, have a cumulative GPA that places them in the top 20% of degree recipients in their school/college, and have earned at least 60 credits in residence at UW–Madison.

HONORS IN THE MAJOR

Students with majors in Theatre and Drama (p. 1992) and Educational Policy Studies (p. 1861) have an option to complete Honors in the major.

HONORS COLLABORATION WITH THE COLLEGE OF LETTERS & SCIENCE

The School of Education does not currently offer a school-level Honors program. However, through a collaboration between the School of Education and the College of Letters & Science (L&S), students in the School of Education may participate in the L&S Honors Program and have these achievements posted on their transcript.

Three L&S Honors options may be completed by School of Education students.

L&S Honors in the Liberal Arts (HLA)

Students pursuing Honors in the Liberal Arts complete Honors courses in broadly distributed subjects from the humanities, social sciences, and natural sciences. Through Honors coursework, students select enriching academic opportunities and build connections with faculty throughout the completion of their degree.

Courses taken for Honors can also be applied toward other degree requirements. For example, of the 24 required Honors credits:

- At least 6 of the credits must be in courses designated as Humanities (including Literature)
- At least 6 of the credits must be in courses designated as Social Science
- At least 6 of the credits must be in courses designated as Biological, Physical, or Natural Science

These requirements completely overlap with the School of Education liberal studies requirements.

Honors in the Major (HM)

Students completing an *additional* major housed in the College of Letters and Science may choose to complete the Honors requirements of this major. Honors in the Major requirements vary by program, but typically include a cumulative GPA of at least 3.3, a minimum major GPA, Honors coursework in the major, and successful completion of a two-semester senior Honors thesis or other capstone experience.

If Honors courses overlap with School of Education requirements, they can count in both areas.

Comprehensive Honors (both HLA and HM)

Comprehensive Honors, the highest level of Honors achievement, is awarded to students who are admitted to and complete the requirements for both Honors in the Liberal Arts and Honors in the Major.

Full details of requirements, application procedures and policies are available in the Guide (p. 442) and the program's website (http://www.honors.ls.wisc.edu). Students with questions about how L&S Honors

connects with School of Education programs and requirements should consult both L&S Honors and School of Education advisors to plan a course of study.

EDUCATOR LICENSING

EDUCATOR LICENSING

TEACHER LICENSING PROGRAMS

- Art Education - Grades K-12
- Communication Sciences and Disorders (Speech-Language Pathology) - Grades K-12*
- Dance Education - Grades K-12 as an optional minor. Must also be enrolled in Art Education, Elementary Education, Physical Education, or Special Education.
- Elementary Education - Kindergarten – 9th Grade, with optional minors in Early Childhood Education - Birth through Grade 3, and English as a Second Language - Grades K-12
- Elementary Education (Kindergarten – 9th Grade) + Special Education (Kindergarten – 12th Grade)
- English as a Second Language (available with concurrent completion of relevant Elementary or Secondary certification program; add-on option for previously certified teachers is closed to new admissions.)
- Health - Grades K-12. Must also be enrolled in Physical Education.
- Instructional Library Media Specialist - Grades K-12*
- Music Education - Grades K-12
- Physical Education - Grades K-12
- Secondary Education
  - English Grades 4-12/English as a Second Language Grades K-12*
  - Mathematics Grades 4-12/English as a Second Language Grades K-12*
  - Science Grades 4-12/English as a Second Language Grades K-12*
  - Social Studies Grades 4-12/English as a Second Language Grades K-12*
- Special Education
  - Early Childhood Special Education - Birth through Grade 3
  - Special Education Cross Categorical Grades K-12 (bachelor's and master's level program options available)
  - Early Childhood Special Education/Special Education Cross Categorical K-12 Dual Certification (Birth-Grade 12)
  - Elementary Education (Kindergarten – 9th Grade) + Special Education (Kindergarten – 12th Grade)
- World Language Education Grades K-12/English as a Second Language Grades K-12.* World Language license will be awarded in a specific language.

SUPPLEMENTARY TEACHING LICENSING PROGRAMS

- Adaptive Physical Education
- Bilingual/Bicultural Education*
- Reading Teacher* - Closed to new admissions

ART

UNDERGRADUATE DEGREES

- BS–Art (https://guide.wisc.edu/undergraduate/education/art/art-bs/#requirementstext) and BS-Art with Graphic Design option (https://guide.wisc.edu/undergraduate/education/art/art-bs/art-graphic-design-bs/)
- BS–Art Education (https://guide.wisc.edu/undergraduate/education/art/art-education-bs/)
- Bachelor of Fine Arts (BFA) (https://guide.wisc.edu/undergraduate/education/art/art-bfa/) and Bachelor of Fine Arts (BFA) with Graphic Design option (https://guide.wisc.edu/undergraduate/education/art/art-bfa/art-graphic-design-bfa/)

UNDERGRADUATE CERTIFICATES

- Certificate in Art Studio (https://guide.wisc.edu/undergraduate/education/art/art-studio-certificate/)
- Certificate in Graphic Design (https://guide.wisc.edu/undergraduate/education/art/graphic-design-certificate/)

ABOUT

The UW–Madison Department of Art is a national leader in the cultivation and production of creative expression within Art and Design. Art students are presented with a balance of interdisciplinary rigor in studio classes, the importance of a study in liberal arts, and knowledge of art and design movements throughout history. The mission of the art department values the diverse contributions, backgrounds, and experiences that each student brings to the classroom.

For more than a century, the department has nationally set the standard for arts learning by establishing the first glass-blowing lab in the country, 1 of only 5 universities in the nation with a neon program, continually ranking as the #1 printmaking program in the country, and is home to internationally acclaimed faculty members and visiting artists. The diverse faculty work across creative disciplines to help students develop the creative, critical, and technical skills needed for life-long engagement in the visual arts. Faculty prepare students for careers in a broad array of creative fields and/or graduate study.

The art department offers two professional programs, Art and Art Education. Art majors may pursue either the Bachelor of Science degree (p. 1727) or the Bachelor of Fine Arts degree (p. 1704). Art majors wanting to complete a strong emphasis in graphic design may pursue either the Bachelor of Science: Graphic Design (https://guide.wisc.edu/undergraduate/education/art/art-bs/art-graphic-design-bs/) or Bachelor

of Fine Arts: Graphic Design (https://guide.wisc.edu/undergraduate/education/art/art-bfa/art-graphic-design-bfa/) options. Art Education majors (p. 1686) receive the Bachelor of Science–Art Education degree and eligibility to apply for licensure to teach in both elementary and secondary schools. Entrance requirements vary for each program.

The department also offers the Art Studio Certificate (p. 1701) and Graphic Design Certificate (p. 1745). These two programs allow students from across campus, regardless of their major or degree program, to engage in a meaningful and rigorous sequence of coursework. Students should work closely with their major advisor to see how the certificate requirements can fit into their degree plan. Note: Most art courses do not carry the LAS (L&S) designation.

DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/CERTIFICATES

- Art Education, BS (p. 1686)
- Art Studio, Certificate (p. 1701)
- Art, BFA (p. 1704)
- Art, BS (p. 1727)
- Graphic Design, Certificate (p. 1745)

ART EDUCATION, BS

Art education is a perfect choice for students who thrive in creative, collaborative environments. People who choose this meaningful career path love viewing, discussing, and making works of art, and are also passionate about engaging others in these artistic processes.

UW–Madison's art education program provides essential preparation for a variety of careers in art education. Students work directly with children and adolescents in both school and community-based field placements in three of four semesters of the program. They study with outstanding art and education faculty in a range of rigorous and engaging studio, art history, and education courses, while also connecting with Madison's vibrant arts community through field trips and service learning.

Graduates of our program earn a bachelor of science degree, a career-ready Wisconsin teaching license in K–12 art education, and gain the skills, knowledge, and confidence to teach the visual arts in a variety of school and community-based settings. The job market for art educators is incredibly healthy across the nation, and virtually all of our graduates land jobs that match their interests and expertise.

Consult the departmental website (https://art.wisc.edu/undergraduate/undergraduate-degrees/) for additional information about art education. Students intending to teach in Wisconsin may be eligible for the Teacher Pledge (https://tec.education.wisc.edu/teacher-pledge/), an opt-in loan forgiveness program for teacher education students.

Watch what students have to say about being an Art Education major (https://www.youtube.com/watch/?v=wHtc6qSNPho).

HOW TO GET IN

HOW TO GET IN

ART EDUCATION DECLARATION OVERVIEW

Students typically enter UW–Madison as Pre-Art Education students (PAED), spend the first two years completing liberal studies, general education, and foundational studio requirements, and declare Art Education during their sophomore year for their final two years on campus.

On-campus students starting at UW-Madison in other majors can move to Pre-Art Education by completing a Pre-Professional Declaration (http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission/). A GPA of 2.75, based on all UW–Madison coursework or the last 60 credits (p. 1662), is required to transfer into Pre-Art Education. It is not necessary to be a Pre-Art Education student before declaring an Art Education major.

ELIGIBILITY TO DECLARE ART EDUCATION

Art Education currently accepts declarations at any point during the year. The on-campus declaration form is located on the School of Education's Undergraduate Admissions (http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission/) page, along with information about the current eligibility requirements. Students should consult this site prior to submitting a declaration as this information may be modified from one declaration period to the next.

Off-campus students wishing to transfer directly into Art Education should complete the on-campus declaration and must also be admitted to UW-Madison. See Transfer Students and Students with a Bachelor's Degree, below.

Eligibility Requirements:

- Meet with the Art Education advisor Dr. Mary Hoefferle (email her directly to set up an appointment at hoefferle@wisc.edu) or a School of Education Student Services advisor. Email studentservices@education.wisc.edu or call 608-262-1651 to schedule an appointment in Student Services. On-campus students can schedule using Starfish (https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/).
- Earn 40 or more total credits by the end of the semester prior to declaration.
- Complete at least 6 aesthetics credits (such as ART 108 Foundations of Contemporary Art, ART 208 Current Directions in Art and/or art history courses) and 20 studio credits by the end of the declaration semester.
- Earn a minimum 2.75 cumulative GPA based on all college coursework attempted or a 2.75 last 60 credits GPA by the end of the term prior to the declaration semester. This GPA must be maintained at the end of the declaration semester. [1]

[1] Last 60 Credits Rule - Two grade point averages may be calculated to determine a candidate's eligibility to declare. A GPA may be calculated using (1) UW-Madison and all other all transferable college level coursework attempted and (2) the last 60 credits attempted. The higher GPA of these two calculations will be used for determining eligibility. Once declared, students must earn a semester GPA of 2.75 each semester after declaration. More information on this rule is available here (p. 1662).

Students will be provisionally admitted pending the completion of all eligibility requirements by the end of the declaration semester.

TRANSFER STUDENTS AND STUDENTS WITH A PREVIOUS DEGREE

Transfer students and students who already hold a Bachelor's degree must be admitted to UW-Madison to enroll in a School of Education program. Admission to the campus has its own application, admission process, and application deadlines; see Office of Admissions and Recruitment (http://www.admissions.wisc.edu) for campus application information.

Students wishing to enter directly into Art Education should complete both the on-campus declaration and the UW-Madison application. All eligibility requirements must be met. Transfers who do not meet the declaration eligibility criteria will be admitted to UW-Madison with the Pre-Art Education designation.

An applicant with a previous undergraduate degree will be admitted to Art Education as a second degree candidate. Second degree candidates in the School of Education are changing their academic direction and wish to complete a degree that is unrelated to their first. A large number of credits are usually required to complete the new degree requirements and a second degree is awarded upon its completion; more information is available here (p. 1662).

All off-campus students are strongly encouraged to meet with an advisor in the School of Education Student Services office in advance of their declaration. Consultations are available in person, virtually, or via telephone; email soeacademicservices@education.wisc.edu or call 608-262-1651 to schedule an appointment.

BACKGROUND CHECKS

Pursuant to State of Wisconsin law PI 34.018(2), the School of Education is required to administer a background check on all students entering teacher education programs. This check is intended to determine if the applicant has engaged in any behavior that endangers the health, welfare, safety, or education of PK-12 pupils. Local school districts frequently conduct background checks on teacher education students prior to the start of their in-classroom field work, and the Department of Public Instruction (DPI) will also conduct a background check on each applicant for a Wisconsin educator license.

Students should be aware that background checks may be initiated by other agencies or organizations when they are seeking employment or a professional license. School administrators have the authority to determine the appropriateness of a student placement and may choose not to permit a placement based on a student's background check results.

An individual who has been deemed ineligible to participate in field or clinical experiences based on the results of their background check may not be able to complete the requirements for their degree or certification. Students with questions about these processes should contact the Teacher Education Center, tec@education.wisc.edu.

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.

Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

SCHOOL OF EDUCATION DEGREE REQUIREMENTS

COMMUNICATION: BREADTH AND DEPTH

Courses designated as Communication A (Comm A) and Communication B (Comm B) help students learn how to gather and assess information from a variety of sources and to present different kinds of information, insight, and analysis to diverse audiences. Comm A courses focus on essential communication skills and Comm B courses teach research, writing, and communication skills within a disciplinary area.

Communication A	Complete either: • one course with the Communication A designation, or • satisfaction of Communication A based on UW Placement Test.
Communicatio B	One course with the Communication B designation.

QUANTITATIVE REASONING: BREADTH AND DEPTH

Quantitative Reasoning A courses provide students with foundational skills in mathematics, computer science, statistics or formal logic that are needed for dealing with quantitative information. In Quantitative Reasoning B courses, students use quantitative tools in the context of other disciplines or course material.

Quantitative Reasoning A	Complete either: • one course with the Quantitative Reasoning A designation, or • satisfaction of Quantitative Reasoning A based on UW Placement Test.
Quantitative Reasoning B	One course with the Quantitative Reasoning B designation.

LIBERAL STUDIES REQUIREMENTS

All students are required to complete a minimum of 40 credits of Liberal Studies (p. 1670) coursework. This requirement provides an opportunity to do some academic exploration beyond the scope of the major. Students take courses in areas of particular interest and also have an opportunity to sample the wide selection of courses offered across the university. Coursework is required in humanities, social studies (social science), science, and cultural and historical studies. Some elective coursework is also needed to reach the required number of credits.

The School of Education's Liberal Studies requirements can be used to satisfy the campus-wide Core General Education requirements. Communication A and B, and Quantitative Reasoning A and B coursework can also be used towards Core General Education and other requirements. Academic advisors can suggest courses that will count in multiple places.

A basic outline of the liberal studies is included below. Students must consult the detailed version of the requirements (p. 1670) for more information about course selection and how the liberal studies requirements apply to this major.

Are you interested in switching to the School of Education? If so, you should run a "what-if" DARS report. (https://kb.wisc.edu/registrar/94068/) It will show how many of these requirements you have already met and are unmet.

Humanities

Complete a minimum of 9 credits from these categories.

Literature	Complete a course with the Literature designation, minimum of 2 credits
Fine Arts	Complete a minimum of 2 credits from the list of courses below.
Humanities	Courses to total 9 Humanities credits. Select from: • Courses with the Humanities or Literature designation. • Fine Arts courses from the list below. • Courses with the Language courses designation. • ENGL 201 • ENGL 207 • COM ARTS 181

Fine Arts Courses

Code	Title	Credits
AFRICAN/ AFROAMER 220	HipHop, Youth Culture, and Politics in Senegal	3

Social Studies

Social Studies Complete 9 credits with the Social Science designation.

The following programs have specific requirements:

- Kinesiology: PSYCH 202
- Art Education, Elementary Education, Elementary Education and Special Education, Physical Education, Special Education: POLI SCI 104 or 205

Science

Complete a minimum of 9 credits, including Physical and Biological Science. A laboratory science course is also required. The lab course can count toward the Biological or Physical Science requirement if it has the requisite breadth designation.

Physical Science	Complete one course with the Physical Science designation.
Biological Science	Complete one course with the Biological Science designation.
Lab Science	Complete one course with the Biological, Physical, or Natural Science designation with a lab component; see Course Search and Enroll. Additional eligible courses are listed below.
Science Elective(s)	If needed, complete a course with the Biological, Physical, or Natural Science designation to total 9 Science credits.

Laboratory Courses

Code	Title	Credits
ANTHRO 105	Principles of Biological Anthropology	3
ATM OCN 101	Weather and Climate	4

Liberal Studies Electives

Liberal Studies Electives	Complete additional liberal studies coursework as needed to reach the required 40 Liberal Studies credits.

PROGRAM STRUCTURE

The art education program is divided into five areas of study:

- *Liberal studies* courses expose students to a broad range of academic disciplines. The university-wide *General Education* requirements also encourage this breadth of study.
- The *Foundations Program* requires six interrelated studio and aesthetics courses designed to prepare first-year students for further study in studio art and design.
- *Aesthetics* coursework gives students an opportunity to study both the history of art and contemporary developments in the visual arts.
- *Major* requirements offer an in-depth study of studio art.
- *Professional education* coursework includes an examination of the schools' relationship to our society and the processes by which students grow and learn. The *professional sequence* is a three-semester sequence of art education teaching methods coursework and field experiences in schools.

ART FOUNDATIONS PROGRAM

The Art Foundations Program is a series of interrelated studio and lecture courses to be taken by art and art education majors in their first year as preparation for further study in studio art and design. The program addresses the fundamentals of art through investigation of formal, technical and conceptual issues. The drawing, 2D and 3D design, digital media, and art historical lecture classes are designed to expose, broaden, and challenge students' understanding of contemporary art production.

Art foundations classes are meant to be taken concurrently and the information covered in them is interrelated. Students completing the foundations program should enroll in ART 102 2D Foundations, ART 212 Drawing Foundations, and ART 108 Foundations of Contemporary Art for the fall semester and complete ART 104 3D Foundations, ART 107 Introduction to Digital Forms, and ART 208 Current Directions in Art in the spring.

Most freshman art majors complete their foundations courses through participation in the very popular Contemporary Art and Artists First-Year Interest Group (FIG), (https://figs.wisc.edu/) which also creates a network of corresponding experiences and a peer community that will continue throughout the program and often beyond graduation. Students in FIGs enjoy studying with instructors dedicated to serving first year students, the opportunity to integrate related ideas from all three classes, and the ready-made opportunities to form support networks and lasting friendships.

Additional information about the Foundations Program (https://art.wisc.edu/media-disciplines/foundations/) is available on the departmental website.

AESTHETICS REQUIREMENT

Complete four courses focusing on the history of art and contemporary developments in the visual arts.

Code	Title	Credits
ART 108	Foundations of Contemporary Art	3
ART 208	Current Directions in Art	3
ART HIST 202	History of Western Art II: From Renaissance to Contemporary	4
Select one of the following: [1]		3-4
ART HIST 103	Topics in Art History (world art topics)	
ART HIST 104	The Art of Diversity: Race and Representation in the Art and Visual Culture of the United States	
ART HIST 205	Global Arts	
ART HIST/ AFROAMER 241	Introduction to African Art and Architecture	
ART HIST/ AFROAMER 242	Introduction to Afro-American Art	
ART HIST 305	History of Islamic Art and Architecture	
ART HIST 307	From Tomb to Temple: Ancient Chinese Art and Religion in Transition	
ART HIST 308	The Tastes of Scholars and Emperors: Chinese Art in the Later Periods	
ART HIST 354	Cross-Cultural Arts Around the Atlantic Rim: 1800 to the Present	
ART HIST 411	Topics in Asian Art	
ART HIST 412	Topics in African and African Diaspora Art History	
ART HIST/ ASIAN 428	Visual Cultures of India	
ART HIST 440	Art and Power in the Arab World	

[1] Additional art history courses addressing arts from underrepresented cultures will be considered. A course may also count for the global perspectives or ethnic studies requirement if it has that designation.

MAJOR REQUIREMENTS

Students must complete 45 credits of studio art, including the specific requirements below. At least 15 upper-level studio credits must be taken in residence on the UW–Madison campus. Upper-level classes include Art courses numbered 214 and above, excluding ART 236 and ART 338.

Code	Title	Credits
ART 102	2D Foundations	3
ART 104	3D Foundations	3
ART 107	Introduction to Digital Forms	3
ART 212	Drawing Foundations	3
ART 222	Introduction to Painting	3-4
ART 306	Relief Printmaking	3-4
or ART 336	Serigraphy	
ART 214	Sculpture I	3-4
or ART 244	Art Metal I	
ART 224	Ceramics I	4
Digital Media Elective - select one of the following:		
ART 176	Digital Photography for Non-Art Majors	
ART 309	Digital Art and Code	
ART 346	Basic Graphic Design	
ART 348	Introduction to Digital Printmaking	
ART 409	Digital Fabrication Studio	
ART 428	Digital Imaging Studio	
ART 448	Special Topics (digital media topics only)	

Take additional art electives to reach the minimum of 45 credits

PROFESSIONAL EDUCATION REQUIREMENTS

Code	Title	Credits
Foundations of the Profession		**3**
ED POL/ HISTORY 412	History of American Education [1]	3
or ED POL 300	School and Society	
RP & SE 605	Development, Learning and Education Foundations in Special Education	3
Literacy, Including Reading		**3**
CURRIC 305	Integrating the Teaching of Reading with Other Language Arts	3
Special Education		**3**
CURRIC/ RP & SE 506	Strategies for Inclusive Schooling	

[1] Will also fulfill the liberal studies requirement in U.S./European history.

ART EDUCATION REQUIREMENTS

Code	Title	Credits
ART ED 321	Introduction to Teaching Art	2
ART ED 323	Foundations in Art Education	3
ART ED 324	Methods in Art Education	3
ART ED 327	Practicum in Art Education	6
ART ED 425	Seminar in Art Education	2
ART ED 423	Student Teaching in Elementary Art [1]	5
ART ED 424	Student Teaching in Secondary Art [1]	5

[1] Must have a minimum 2.75 GPA in Professional Education and Art Education courses to student teach.

GPA AND OTHER GRADUATION REQUIREMENTS

GRADUATION REQUIREMENTS

Requirements are based on UW–Madison coursework.

- 2.75 minimum cumulative grade point average. This may be modified by the Last 60 Credits Rule (p. 1662).
- 2.75 cumulative grade point average in all major course work.
- 2.75 cumulative grade point average in all upper-level major course work. Art courses numbered 214 and above, excluding ART 236 and ART 338, are considered upper-level courses.
- 2.75 in professional education course work (excluding practicum and student teaching).
- Major Residency. Students must complete a minimum of 15 upper-level studio credits in residence on the UW–Madison campus.
- Senior Residency. Degree candidates must complete their last 30 credits in residence on the UW–Madison campus, excluding retroactive credits and credits granted by examination.
- A minimum of 120 total credits.

DEGREE AUDIT (DARS)

UW–Madison uses "DARS" to document a student's progress toward the completion of their degree, including any additional majors and certificates. A DARS (Degree Audit Reporting System) report shows all the requirements for completing a degree and, against courses that are planned or completed, shows the requirements that have been met, and those that are unmet. A report can offer suggestions about courses that may be taken to meet specific requirements and can assist in the academic planning and enrollment process. Students can access a DARS report in the Course Search & Enroll app or Student Center via My UW.

DARS also has a "what-if" function. This feature makes it possible to request a DARS report as if pursuing another program, major, or certificate. It is an excellent tool if considering a new or additional area of study. School of Education students in a pre-professional classification such as Pre-Elementary (PRE) or Pre-Kinesiology should request a "what if" DARS report of their professional program of interest. For example, Pre-Elementary Education (PRE) students will request Elementary Education K-9; Pre-Kinesiology (PKN) students will request the Kinesiology report. Minors have their own DARS programs and are run separately from the main degree audit.

More information (including tutorials) on how to request and read regular and what-if DARS reports is available under the Resources tab on the Office of the Registrar's website. (https://registrar.wisc.edu/dars/)

DARS is not intended to replace student contact with academic advisors. It creates more time in an advising appointment to discuss course options, research opportunities, graduate school, or issues of personal interest or concern to students.

DARS is used as the document of record for degree program, major, and certificate completion in the School of Education.

ADDITIONAL CERTIFICATION REQUIREMENTS AND APPLYING FOR A LICENSE

In addition to completing UW–Madison's program requirements, students must also complete Wisconsin statutory requirements and certification requirements established by the Wisconsin Department of Public Instruction. Many of these requirements are embedded within the program's requirements and require no additional attention. The endorsement of the program coordinator/faculty is also required to receive certification through UW–Madison.

The State of Wisconsin requires that anyone wishing to teach in a public K–12 setting hold a valid teaching license issued through the Department of Public Instruction. In addition to completing a certification program, students must submit a separate application for this license.

Detailed information about certification requirements and applying for a license is available under Certification/Licensure (p. 1700).

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Identify and explore important eras, developments, movements, and theories in historical and contemporary art practice.
2. Identify and analyze the elements and principles of design in the work of other artists and consistently and effectively employ the elements and principles in their own studio work.
3. Develop technical skill, a personal creative practice, and knowledge of the historical and current practices of at least four separate visual art disciplines, including 2D, 3D, 4D, and graphics areas.
4. Examine best practices (historical and contemporary) in art curriculum planning, instruction and assessment, apply knowledge to k-12 curriculum development, and effectively teach art to diverse populations in community and school-based settings.
5. Meet all School of Education Teacher Education Standards and DPI k-12 art licensure requirements (including child development and learning theories, history of American Education, and the role of art in literacy education).

FOUR-YEAR PLAN

FOUR-YEAR PLAN

Bachelor of Science: Art Education - Sample Four-Year Plan

This four-year sample graduation plan is designed to guide your course selection throughout your academic career; it does not establish a contractual agreement. Use it along with your DARS report, the Guide, and the Course Search and Enroll app to create a four-year plan reflecting your placement scores, incoming credits, and individual interests. Consult with an academic advisor(s) to develop a personalized plan of study and refer to the Guide for a complete list of requirements. You will likely revise your plan several times during your academic career here, based on your activities and changing academic interests.

ADVISING AND CAREERS

ADVISING AND CAREERS

ART EDUCATION ADVISING

Prospective off-campus and on-campus art education students will meet with the art education program coordinator Dr. Mary Hoefferle, hoefferle@wisc.edu. Students considering art education should contact Dr. Hoefferle as soon as possible. Pre-declaration advising is conducted by the Department of Art and advisors in the School of Education Student Services office, see below.

Current students can schedule an appointment online through the Starfish app (https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/) in MyUW. Appointments can also be made by calling 608-262-1660.

SCHOOL OF EDUCATION ADVISING

Academic Advising in the School of Education

Dedicated to supporting and promoting student success, academic advisors (https://advising.education.wisc.edu/) are here to assist students with the adjustment to college, understanding their degree and career goals, and connecting them to resources. Advisors support prospective and current School of Education students in all programs through:

- Course selection
- Mentoring and advocacy for underrepresented and international students
- Understanding degree requirements and progression
- Interpreting academic policies
- Helping students recognize their strengths and suggesting ways to expand their skills
- Expanding learning through activities such as study abroad, volunteering/work/internship, and by assuming leadership roles

Advising appointments are available in person, virtually, or over the phone. Current students schedule appointments through the Starfish app (https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/) in MyUW. Appointments can also be made by calling 608-262-1651, or in person in Room 139 Education Building.

Academic Dean Support (https://advising.education.wisc.edu/academic-dean-support/) staff are also here for you when facing academic or personal challenges. We provide undergraduate School of Education students support, problem-solving, advocacy, resources, and approve exceptions to policies.

Career Advising in the School of Education

Through individual appointments, events, courses, and online resources, the Career Center provides students and alumni with the tools needed to be successful in their career development.

Career and Internship Advisors are prepared to help students with:

- Exploration of career and academic pathways (https://careercenter.education.wisc.edu/explore-career/)
- Resumes
- Cover letters
- Job/Internship search
- Interview preparation
- Mock interviews
- Graduate school search, applications and decisions
- Negotiating job or internship offers
- Professional networking
- Connecting with employers

Students are encouraged to meet with their Career and Internship Advisor early in their college experience to take full advantage of the resources and support available.

To make an appointment: log into Starfish (https://wisc.starfishsolutions.com/starfish-ops/) from the MyUW dashboard.

For more information, visit the School of Education Career Center website (https://careercenter.education.wisc.edu/) or reach out at career-center@education.wisc.edu.

WISCONSIN EXPERIENCE

WISCONSIN EXPERIENCE

UW–Madison's vision for the total student experience, the Wisconsin Experience (https://wisconsinexperience.wisc.edu/about/), combines learning in and out of the classroom. Tied to the Wisconsin Idea (https://www.wisc.edu/wisconsin-idea/) and steeped in long-standing institutional values — the commitment to the truth, shared participation in decision-making, and service to local and global communities — the Wisconsin Experience describes how students develop and integrate these core values across their educational experience.

UW–Madison encourages students to mindfully engage in four core concepts throughout their time on campus: Empathy & Humility, Relentless Curiosity, Intellectual Confidence, and Purposeful Action (https://wisconsinexperience.wisc.edu/intellectual-confidence/).

Since its inception, the School of Education has embraced the concepts of the Wisconsin Experience, providing opportunities for students to learn in venues beyond the traditional classroom. Our students also independently seek out related activities and experiences, thus creating their own unique Wisconsin Experience.

ART EDUCATION AND THE WISCONSIN EXPERIENCE

Teaching Art

As part of required courses, art education students teach art to children and teens in school and community-based settings in three of the four semesters of the program. Some of our most recent partners include:

- Monroe Street Arts Center (https://www.monroestreetarts.org/)
- Arts and Literature Lab (https://artlitlab.org/)'s Day Off School Art Camps
- Madison School & Community Recreation (https://www.mscr.org/programs/after-school-camps/elementary-school/elementary-after-school-programs/) (MSCR) after school art clubs
- Eagle's Wing Child Care (https://www.housing.wisc.edu/apartments/eagles-wing/)'s after-school programs
- The Wisconsin Art Education Association's Youth Art Month and Visual Arts Classic
- K-12 fieldwork experiences in private schools like Edgewood, Eagle, and Madison Country Day; public schools in rural, suburban, and urban districts; plus public charter and alternative schools like Shabazz High School and Nuestro Mundo Elementary.

Learning from Current Practitioners

In all field placements, art education majors receive support, guidance and advice from veteran art teachers and university supervisors. Many art teachers with specific expertise also join us on campus to lead special-topic workshops such as Integrating Art and Literacy, Adaptive Art, Elementary Classroom Management, and mental health concerns in the high school art classroom.

Paid Work Experience

Art education majors also find valuable, paid work experience in the community as teaching assistants or lead art instructors in organizations like the Wheelhouse Studios (https://union.wisc.edu/events-and-activities/open-art-studio-and-classes/), the Chazen Museum of Art (https://chazen.wisc.edu/), Madison School and Community Recreation (https://www.mscr.org/), Prairie Music & Arts, (https://prairiemusic.org/) and provide one-to-one art tutoring.

Student Organizations

Art education majors join a wide variety of student organizations on campus. Art-related organizations (https://art.wisc.edu/art-at-uw/student-orgs/) include the Mad Gaffers (glass blowing), Fresh Hot Press (printmakers), and the Chazen Art Museum Ambassadors. Aspiring Educators of Wisconsin (https://www.facebook.com/AspiringEducatorsUWMadison/) is an active organization for pre-service teachers in all areas of education.

Exhibiting Artwork

Art education majors also have ample opportunity to submit their artwork for consideration for groups and solo art exhibitions, scholarships and competitions.

Study Abroad

Many art education students study abroad for a semester or a summer as part of their academic plan, taking studio and art history classes in Italy, Cuba, or Portugal.

CERTIFICATION/LICENSURE

CERTIFICATION/LICENSURE

ADDITIONAL CERTIFICATION REQUIREMENTS

In addition to completing UW–Madison's program requirements, certification also requires the completion of Wisconsin statutory requirements related to teacher education and certification requirements established by the Wisconsin Department of Public Instruction. Students must complete all requirements and also obtain the endorsement of the program faculty to receive certification through UW–Madison. For a description of additional certification requirements and information about applying for a license, see the Mary T. Kellner Teacher Education Center (https://tec.education.wisc.edu/current-students/).

APPLYING FOR A TEACHING LICENSE

The State of Wisconsin requires that anyone wishing to teach in a public K–12 setting hold a valid teaching license issued through the Department of Public Instruction. In addition to completing a certification program, students must submit a separate application for this license. Students intending to complete a teacher certification program should monitor program requirements carefully. The Wisconsin Department of Public Instruction (DPI) periodically implements regulations that affect all certification programs; teacher certification candidates are responsible for having up-to-date information about certification requirements.

Licensing Levels

The following undergraduate teacher licensing options are offered at UW–Madison.

- The core Elementary Education licensing level will be Kindergarten through Grade 9. Early Childhood, and English as a

Second Language Kindergarten through Grade 12, can be added to the K-9 option.

- Special Education will offer licensing at the Early Childhood level, Kindergarten through Grade 12 level, and a program option that licenses in both Early Childhood Special Education and K-12 Special Education.
- Students completing the new Elementary Education and Special Education degree will be licensed in both Special Education Kindergarten through Grade 12 and Elementary Education Kindergarten through Grade 9.
- Students in special fields such as Art, Music, and Physical Education will be licensed at the Kindergarten through Grade 12 level. Physical Education students may add K-12 Adaptive Physical Education and/or K-12 Health.

Wisconsin State Licensing

The State of Wisconsin issues an initial teaching license to certified teachers. The current fee is $125. An online license application is available through the Department of Public Instruction (http://dpi.wi.gov/tepdl/elo/). A background check will also be conducted by DPI. Information about fingerprint submission, when necessary, is available through the Department of Public Instruction (http://dpi.wi.gov/tepdl/licensing/fingerprint/electronic-submission/).

Before applying for a license, DPI requires the electronic submission of "Endorsed Candidate for Licensure" (ECL) data by the certifying officer of the institution where the teacher preparation was completed. For UW–Madison teacher certification students the endorsement will come from the School of Education, L139 Education Building, 1000 Bascom Mall. Once this information has been submitted to DPI, students are notified by email that they may begin the application online.

Before endorsing a student, UW–Madison requires that

- all certification requirements are met;
- student teaching is completed;
- final grades are posted and reviewed;
- the degree is posted (https://registrar.wisc.edu/posting-of-degrees/) by the Registrar's Office (which can take up to four to six weeks after the degree conferral date); and
- a recommendation for certification is received from the program faculty.

The Wisconsin Department of Public Instruction may require an additional six to eight weeks for license processing.

Licensing Outside of Wisconsin

To apply for a license in a state other than Wisconsin, first check out the application requirements of that state. The University of Kentucky has a website (https://education.uky.edu/accreditation/certification/states/) that provides links to teacher licensing agencies in all 50 states, the District of Columbia, and Puerto Rico.

Many states have a verification form that needs to be signed by a UW–Madison certification officer. This form verifies that a state-approved licensing program has been completed. These forms should be sent to the School of Education's Mary T. Kellner Teacher Education Center at L139 Education Building, 1000 Bascom Mall, Madison, WI 53706, or by email (educatorlicensing@education.wisc.edu) to be completed. You must complete your personal information on the form before sending it to the Teacher Education Center. If the form requests information about practicum and student teaching assignments (names of schools, grade levels, dates, etc.), this information must also be completed before sending the form to the Teacher Education Center.

PROFESSIONAL CERTIFICATION/LICENSURE DISCLOSURE (NC-SARA)

The United States Department of Education (via 34 CFR Part 668 (https://www.ecfr.gov/current/title-34/subtitle-B/chapter-VI/part-668/?toc=1)) requires institutions that provide distance education to disclose information for programs leading to professional certification or licensure. The expectation is that institutions will determine whether each applicable academic program meets state professional licensure requirements and provide a general disclosure of such on an official university website.

Professional licensure requirements vary from state-to-state and can change year-to-year; they are established in a variety of state statutes, regulations, rules, and policies; and they center on a range of educational requirements, including degree type, specialized accreditation, total credits, specific courses, and examinations.

UW-Madison has taken reasonable efforts to determine whether this program satisfies the educational requirements for certification/licensure in states where prospective and enrolled students are located and is disclosing that information as follows.

Disclaimer: This information is based on the most recent annual review of state agency certification/licensure data and is subject to change. All students are strongly encouraged to consult with the individual/office listed in the Contact Information box on this page and with the applicable state agency for specific information.

The requirements of this program meet certification/licensure requirements in the following states:

Colorado, Illinois, Minnesota, Wisconsin

The requirements of this program do not meet certification/licensure requirements in the following states:

Not applicable

Updated: 1 June 2026

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

Information about scholarships, academic and career advising, study abroad opportunities, student diversity services, and other resources for students in the School of Education can be found on the school's Resources (p. 1680) page.

ART STUDIO, CERTIFICATE

The Certificate in Art Studio allows students from across campus, regardless of their major or degree program, to engage in a structured, meaningful art studio experience. Students should work closely with their major advisor to see how the certificate requirements can fit into their degree plan. Note: Most art courses do not carry the LAS (L&S) designation.

This certificate is designed for students who may not be planning to pursue professional careers in the arts but have a strong interest in a specific discipline and wish to develop their talents, as well as for those who want to complement their major and professional goals with artistic and conceptual skills. No prior coursework in art is required to declare this certificate.

Students select one of four focus areas: 2D, 3D, 4D, or Photography, and complete the courses required of this area of study.

For each option, certificate students complete one course focusing on the historical context of art, one or two courses that provide a foundation for their chosen area, and two or three related electives that allow for the exploration and development of their skills specific to the area of focus. Students interested in graphic design and typography should consider the Graphic Design Certificate (https://guide.wisc.edu/undergraduate/education/art/graphic-design-certificate/), also offered through the Department of Art.

The Art Studio certificate may also appeal to individuals who have already completed a bachelor's degree in art, but now want to complete an emphasis in a different discipline; see the Nondegree/Visiting Student Guide (https://guide.wisc.edu/nondegree/). In these instances, the student will work closely with an advisor in the Department of Art to substitute higher-level courses for the foundational studio courses.

HOW TO GET IN

HOW TO GET IN

DECLARATION PROCESS

Students intending to complete the Art Studio certificate can find the declaration form on the School of Education's Certificate Programs page (https://education.wisc.edu/academics/certificates/). The declaration for this certificate program can be submitted at any time during the academic year.

ELIGIBILITY

Undergraduate students in good academic standing with a cumulative GPA of 2.50 or higher, who are not participating in the Art–BS, Art Education, or Art–BFA degree programs, may declare this certificate. University Special students who have already completed a bachelor's degree are also eligible to complete this certificate.

REQUIREMENTS

REQUIREMENTS

The certificate requires a minimum total of 17–18 credits, depending on the selected area. It is possible to complete the certificate in three semesters, making it a viable option for most students, including transfers.

Select a course of study in one of four focus areas: 2D, 3D, 4D (time-based), or Photography, and complete the required courses. For each option, certificate students complete one course focusing on the historical context of art, one or two courses that provide a foundation for their chosen area, and two or three related electives that allow for the exploration and development of their skills.

HISTORICAL CONTEXT OF ART/DESIGN

Students in all certificate focus areas must complete **one** of the following:

Code	Title	Credits
ART 100	Introduction to Art	3
ART 108	Foundations of Contemporary Art	3
ART 208	Current Directions in Art	3
ART HIST 206	Survey of Photography: 1839 to 1989	3-4

FOCUS AREAS

Focus One: Painting, Drawing, Printmaking

Ideal for the novice artist, as well as for students who want to develop previous skill in the creation of two-dimensional art. Students interested in pursuing this focus area can find more information about painting (https://art.wisc.edu/media-disciplines/drawing-painting/), drawing, (https://art.wisc.edu/media-disciplines/drawing-painting/) and printmaking (http://art.wisc.edu/art/academics/media/printmaking/) on the art department's website.

Code	Title	Credits
Foundations		
Complete one of the following:		
ART 102	2D Foundations	3
ART 112	Drawing for Non-Art Majors	3
Development		
Complete a minimum of three courses from the list.		
ART 212	Drawing Foundations	3
ART 222	Introduction to Painting	4
ART 232	Life Drawing I	4
ART 242	Watercolor I	4
ART 302	Color	4
ART 306	Relief Printmaking	4
ART 307	Making Comics 1	4
ART 312	Intermediate Drawing I	4
ART 316	Lithography	4
ART 322	Intermediate Painting I	4
ART 326	Etching	4
ART 332	Life Drawing II	4
ART 336	Serigraphy	4
ART 342	Watercolor II	4
ART 348	Introduction to Digital Printmaking	4
ART 446	Artists' Books	4
ART 452	Intermediate Painting: New Figuration I	4
ART 506	Advanced Relief Printmaking	4
ART 507	Making Comics 2	4
ART 512	Advanced Drawing I	4
ART 516	Advanced Lithography	3
ART 522	Advanced Painting I	4
ART 526	Advanced Etching/Intaglio	4
ART 532	Advanced Life Drawing I	4
ART 536	Advanced Serigraphy	4
ART 542	Advanced Watercolor I	4

ART 544	Advanced Art Metal I	4
ART 554	Advanced Glassworking	4
ART 614	Advanced Sculpture Workshop 2	3-4
ART 624	Advanced Ceramics II	4
ART 644	Advanced Art Metal II	4

Focus Three: 4D-Digital, Time-based, Performative or Social Practice

Ideal for the novice artist, as well as for students who want to develop previous skill with new art genres. Students interested in pursuing this focus area can find more information about digital media and animation, or performance, video, or social practice on the art department's website (https://art.wisc.edu/media-disciplines/intermedia-arts/).

Code	Title	Credits
Foundations		
Complete the following:		
ART 107	Introduction to Digital Forms	3
Development		
Complete minimum of three courses from list.		
ART 309	Digital Art and Code	4
ART 318	Introduction to Video, Performance & Installation Art	4
ART 338	Service Learning in Art	2
ART 348	Introduction to Digital Printmaking	4
ART 393	Internships in Art	1
ART 409	Digital Fabrication Studio	4
ART 428	Digital Imaging Studio	4
ART 429	3D Digital Studio I	4

Complete the following:		
ART 376	Darkroom Photography	4
ART 476	Intermediate Photography	4
ART 576	Advanced Photography	4

PROGRESS AND COMPLETION REQUIREMENTS

A minimum cumulative GPA of 2.5 must be achieved and maintained across all certificate course work in order to remain in, and successfully complete the certificate. All courses required by the certificate must be taken for a grade; none may be taken on a pass/fail, credit/no credit basis or as an auditor.

At least 12 of the required credits must be completed in residence in the UW–Madison Department of Art. Courses taken in a study abroad program sponsored by UW–Madison do not count toward this residency requirement.

UNDERGRADUATE/SPECIAL STUDENT CERTIFICATE

This certificate may be completed within the context of an undergraduate degree or as a Special student after an undergraduate degree has been awarded from any institution. The certificate may be completed in its entirety while enrolled as a Special student. Candidates are encouraged to

contact the certificate coordinator to discuss course enrollment and the sequencing of certificate requirements.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Correctly identify and explain important eras in historical and contemporary art practice.
2. Develop technical and conceptual skill in studio practice by consistently employing the elements and principles of effective visual art and/or design in their chosen focus area.

ART, BFA

The highly ranked Department of Art's degree programs provide creative students with the critical and artistic skills needed to excel in contemporary and multidisciplinary art and design practices. The art curriculum fosters positive collaboration, the creation of innovative and technically advanced artworks, and encourages the sharing of diverse points of view.

The Bachelor of Fine Arts is the most studio-intensive, professional-level degree for artists and designers. Approximately 44 of the 72 required studio credits are spent in intermediate and advanced-level studio courses, allowing art and design students to graduate with a highly advanced portfolio. Most art majors decide to follow this degree path during their sophomore or junior years. With excellent planning and time management, it can be completed in four years.

All of the degree programs in art feature a rigorous foundation program, a set of six courses that students often complete by participating in the popular Contemporary Art & Artists First-Year Interest Group (https://figs.wisc.edu/what/) (FIG), before branching out into one or more specialized areas (https://art.wisc.edu/media-disciplines/):

- 4D Digital Media
- 4D Video and Performance
- Ceramics
- Drawing/Painting
- Glass/Neon
- Graphic Design
- Metals/Jewelry
- Printmaking/Book Arts
- Photography
- Sculpture
- Wood/Furniture

Potential careers for artists include creative director, content marketing manager, arts administrator, studio manager, glassblower, metal fabricator, carpenter, illustrator, commercial or fine arts photographer, primary/secondary school art teacher, gallerist, or studio artist. Our graduates also work as community arts organizers, user experience designers, technical assistants for major film companies, jewelry designers and fabricators, book designers, museum preparators, and more!

The Department of Art believes that hardworking students who learn to harness and nurture their creative energies today will be the people influencing progress tomorrow. Come join us!

"I did the first-year interest group (FIG) freshman year and it was a great way to find a core group of friends while navigating being away from home for the first time. I had never been around so many art people before, and it was invigorating to be able to share that interest with others who were just as passionate."

– Cam Erhardt, Graphic Design Option (read more (https://education.wisc.edu/news/cam-erhardt-from-the-school-of-educations-art-major/?utm_source=Early_AD&utm_medium=email&utm_campaign=art_majors&utm_id=stu

HOW TO GET IN

HOW TO GET IN

PROGRAM ADMISSION OVERVIEW

Students interested in the Art–BFA degree, or Art-BFA with the Graphic Design named option, initially enroll in the Art–BS degree or Art-BS with the Graphic Design named option while completing prerequisite coursework and establishing other criteria for BFA eligibility. A BFA mentoring meeting to review a portfolio of work is part of the BFA selection process. Students will typically declare the BFA in their junior year and must have attained a minimum of junior standing. For the BFA, a BFA mentoring meeting may be scheduled during the semester that the required courses will be completed. For the BFA: Graphic Design named option, the declaration may be submitted during the semester that the required courses will be completed, with the exception of ART 102 2D Foundations and ART 107 Introduction to Digital Forms, which must be successfully completed.

APPLICATION AND ADMISSION

New freshmen and off-campus transfers are admitted directly to the Art–BS degree program and receive an ART classification. All art degree programs currently admit on-campus students to begin in the fall, spring, and summer. Requirements and selection criteria may be modified from one application/admission period to the next. Potential applicants should consult the School of Education's Undergraduate Admissions (https://education.wisc.edu/admissions-aid/undergraduate-admissions/) page for updates to eligibility requirements prior to submitting an application.

APPLICATION PROCEDURES

Prospective UW–Madison Applicants

The Office of Admissions and Recruitment (http://admissions.wisc.edu/) makes final determinations regarding admission criteria and the status of all applicants. Additional information, including submission guidelines, is available on the How to Apply (https://art.wisc.edu/undergraduate/undergraduate-application/) page of the art department's website.

Current UW–Madison Students

On-campus students interested in pursuing the BFA must first apply to the Art–BS degree program. A meeting with an undergraduate advisor in the Department of Art is required, and can be scheduled using Starfish, (https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/) or by contacting the Department of Art at 608-262-1660. Upon completion of the BFA mentoring meeting (https://art.wisc.edu/undergraduate/undergraduate-degrees/) (see additional details below), students will

complete an application signed by an undergraduate advisor in the Department of Art to move into the BFA program.

Transfer Students

Applicants not already enrolled on the UW–Madison campus must be admissible to the university to enroll in a School of Education program. Admission to UW–Madison requires a separate application and admission process. See UW–Madison Office of Admissions and Recruitment (http://admissions.wisc.edu/) for application information. Note that off-campus transfer students will be held to the UW–Madison admission GPA requirements. BFA candidates cannot transfer directly into the BFA program; instead, they will be admitted to campus as if pursing a BS–Art degree (ART classification) and can apply for the BFA program once enrolled on campus. Transfer students are strongly encouraged to meet with the Department of Art advisor prior to coming to campus; call 608-262-1660 to schedule an appointment. Prospective transfer students are strongly advised to meet with an advisor in the School of Education Student Services office in advance of their application; to schedule, call 608-262-1651.

Students With a Previous Degree

Prospective applicants who already hold an undergraduate degree are strongly encouraged to meet with an advisor in the School of Education Student Services office in advance of their application. Consultations with advisors are available in person or via telephone; to schedule, call 608-262-1651.

Applicants who already hold an undergraduate degree are admitted to the School of Education as either an *Education Special student* or a *second degree student*, depending on their interests and academic background. Admission as an Education Special student indicates that that the student has an interest in pursuing certification in a subject area studied during the initial degree; another degree is not awarded for this "certification only" coursework. Second degree students are seeking a second, unrelated degree from the School of Education, which may, or may not, include teacher certification. Candidates for limited enrollment programs must meet all admission eligibility requirements for the program and must compete with the eligible applicants for program admission. More information is available here (p. 1662).

CRITERIA FOR ADMISSION

- Previous Art–BS or Art-BS Graphic Design named option degree program status.
- Cumulative grade point average of at least a 2.5 based on UW–Madison campus coursework, as modified by the Last 60 Credits Rule (detailed below).
- For the BFA degree and the BFA degree with the Graphic Design named option, successful completion or concurrent enrollment in the following courses:

Code	Title	Credits
ART 102	2D Foundations	3
ART 104	3D Foundations	3
ART 107	Introduction to Digital Forms	3
ART 108	Foundations of Contemporary Art	3
ART 208	Current Directions in Art	3
ART 212	Drawing Foundations	3

One course from each of the following. See Requirements section for course options:

2D Studio
3D Studio
4D Studio
Graphics

- For the Graphic Design named option, must have successfully completed ART 102 2D Foundations and ART 107 Introduction to Digital Forms.
- Minimum 3.0 Art studio course GPA.
- BFA mentoring meeting (https://art.wisc.edu/undergraduate/undergraduate-degrees/).
  - The declaration process includes a portfolio and artist statement that must be submitted only after all prerequisite coursework has been completed or during the semester the courses will be completed. The portfolio must contain images of work completed in college art courses. BFA mentoring meetings are held throughout the academic school year.

Last 60 Credits Rule

Two grade point averages will be calculated to determine candidates' eligibility to programs. GPAs will be calculated using

- all transferable college level coursework attempted, and
- the last 60 credits attempted.

The higher GPA of these two will be used for purposes of determining eligibility. If fewer than 60 credits have been attempted, all credits will be used to calculate the GPA. Graded graduate coursework will also be used in all GPA calculations. ("Attempted" coursework indicates coursework for which a grade has been earned.) For more information on this rule, see this link (p. 1662).

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)

Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

SCHOOL OF EDUCATION DEGREE REQUIREMENTS

COMMUNICATION: BREADTH AND DEPTH

Courses designated as Communication A (Comm A) and Communication B (Comm B) help students learn how to gather and assess information from a variety of sources and to present different kinds of information, insight, and analysis to diverse audiences. Comm A courses focus on essential communication skills and Comm B courses teach research, writing, and communication skills within a disciplinary area.

Communication A	Complete either: • one course with the Communication A designation, or • satisfaction of Communication A based on UW Placement Test.
Communicatio B	One course with the Communication B designation.

QUANTITATIVE REASONING: BREADTH AND DEPTH

Quantitative Reasoning A courses provide students with foundational skills in mathematics, computer science, statistics or formal logic that are needed for dealing with quantitative information. In Quantitative Reasoning B courses, students use quantitative tools in the context of other disciplines or course material.

Quantitative Reasoning A	Complete either: • one course with the Quantitative Reasoning A designation, or • satisfaction of Quantitative Reasoning A based on UW Placement Test.
Quantitative Reasoning B	One course with the Quantitative Reasoning B designation.

LIBERAL STUDIES REQUIREMENTS

All students are required to complete a minimum of 40 credits of Liberal Studies (p. 1670) coursework. This requirement provides an opportunity to do some academic exploration beyond the scope of the major. Students take courses in areas of particular interest and also have an opportunity to sample the wide selection of courses offered across the university. Coursework is required in humanities, social studies (social science), science, and cultural and historical studies. Some elective coursework is also needed to reach the required number of credits.

The School of Education's Liberal Studies requirements can be used to satisfy the campus-wide Core General Education requirements. Communication A and B, and Quantitative Reasoning A and B coursework can also be used towards Core General Education and other requirements. Academic advisors can suggest courses that will count in multiple places.

A basic outline of the liberal studies is included below. Students must consult the detailed version of the requirements (p. 1670) for more information about course selection and how the liberal studies requirements apply to this major.

Are you interested in switching to the School of Education? If so, you should run a "what-if" DARS report. (https://kb.wisc.edu/registrar/94068/) It will show how many of these requirements you have already met and are unmet.

Humanities

Complete a minimum of 9 credits from these categories.

Literature	Complete a course with the Literature designation, minimum of 2 credits
Fine Arts	Complete a minimum of 2 credits from the list of courses below.
Humanities	Courses to total 9 Humanities credits. Select from: • Courses with the Humanities or Literature designation. • Fine Arts courses from the list below. • Courses with the Language courses designation. • ENGL 201 • ENGL 207 • COM ARTS 181

Fine Arts Courses

Code	Title	Credits
AFRICAN/ AFROAMER 220	HipHop, Youth Culture, and Politics in Senegal	3

LITTRANS 234	Soviet Life and Culture Through Literature and Art (from 1917)	3-4
LITTRANS/ FOLKLORE 327	Vampires	3
LITTRANS/ THEATRE 335	In Translation: The Drama of Henrik Ibsen	3-4
Any MUSIC course (https://guide.wisc.edu/courses/music/)		
Any MUS PERF course (https://guide.wisc.edu/courses/mus_perf/)		
Any THEATRE course (https://guide.wisc.edu/courses/theatre/)		

Social Studies

Social Studies Complete 9 credits with the Social Science designation.

The following programs have specific requirements:

- Kinesiology: PSYCH 202
- Art Education, Elementary Education, Elementary Education and Special Education, Physical Education, Special Education: POLI SCI 104 or 205

Science

Complete a minimum of 9 credits, including Physical and Biological Science. A laboratory science course is also required. The lab course can count toward the Biological or Physical Science requirement if it has the requisite breadth designation.

Physical Science	Complete one course with the Physical Science designation.

Biological Science	Complete one course with the Biological Science designation.
Lab Science	Complete one course with the Biological, Physical, or Natural Science designation with a lab component; see Course Search and Enroll. Additional eligible courses are listed below.
Science Elective(s)	If needed, complete a course with the Biological, Physical, or Natural Science designation to total 9 Science credits.

Laboratory Courses

Code	Title	Credits
ANTHRO 105	Principles of Biological Anthropology	3
ATM OCN 101	Weather and Climate	4
BOTANY 100	Survey of Botany	3
BOTANY/PL PATH 123	Plants, Parasites, and People	3
FOOD SCI/ MICROBIO 324	Food Microbiology Laboratory	2
GEOSCI 100	Introductory Geology: How the Earth Works	3
PHYSICS 109	Physics in the Arts	3
PLANTSCI 110	Introduction to Plant Science and Technology	4

Cultural and Historical Studies

Complete three requirements met by separate courses. Any of these courses can also be used to meet other requirements if it has the relevant breadth designation. A single course cannot satisfy more than one of the three Cultural and Historical Studies requirements listed below.

Ethnic Studies	Complete 3 credits with the Ethnic Studies Designation.
United States or European History	Complete 3 credits from the list of courses below.
Global Perspectives	Complete 3 credits from the list of courses below.

United States or European History Courses

Liberal Studies Electives

Liberal Studies Electives	Complete additional liberal studies coursework as needed to reach the required 40 Liberal Studies credits.

PROGRAM STRUCTURE

The Bachelor of Fine Arts (BFA) degree program in art has four components:

- *Liberal studies* courses expose students to a broad range of academic disciplines. The university-wide *General Education* requirements also encourage this breadth of study.
- The *Foundations Program* requires six interrelated studio and aesthetics courses designed to prepare first-year students for further study in studio art and design.
- *Aesthetics* coursework gives students an opportunity to study both the history of art and contemporary developments in the visual arts.
- *Major* requirements permit in-depth studies of studio art. After taking courses in the Foundations area, students complete coursework in each of the four studio areas: 2D, 3D, 4D, and Graphics. BFA students are required to reach an advanced level in two studio disciplines.

ART FOUNDATIONS PROGRAM

The Art Foundations Program is a series of interrelated studio and lecture courses to be taken by art and art education majors in their first year as preparation for further study in studio art and design. The program addresses the fundamentals of art through investigation of formal, technical and conceptual issues. The drawing, 2D and 3D design, digital

media, and art historical lecture classes are designed to expose, broaden, and challenge students' understanding of contemporary art production.

Art Foundations classes are meant to be taken concurrently and the information covered in them is interrelated. Students completing the Foundations Program should enroll in ART 102 2D Foundations, ART 212 Drawing Foundations, and ART 108 Foundations of Contemporary Art for the fall semester and complete ART 104 3D Foundations, ART 107 Introduction to Digital Forms, and ART 208 Current Directions in Art in the spring.

Most freshman art majors complete their foundations courses through participation in the very popular Contemporary Art and Artists First-Year Interest Group (FIG), (https://figs.wisc.edu/) which also creates a network of corresponding experiences and a peer community that will continue throughout the program and often beyond graduation. Students in FIGs enjoy studying with instructors dedicated to serving first year students, the opportunity to integrate related ideas from all three classes, and the ready-made opportunities to form support networks and lasting friendships.

Additional information about the Foundations Program (https://art.wisc.edu/media-disciplines/foundations/) is available on the departmental website.

AESTHETICS REQUIREMENTS

The BFA programs require a total of 18 aesthetics credits, including four required courses. The remaining credits will be met by selecting from a list of aesthetics electives. Liberal studies coursework in fine arts and literature can also can count as aesthetics electives. Additional courses may be approved by the art department advisor.

REQUIRED AESTHETICS COURSES

Code	Title	Credits
ART 108	Foundations of Contemporary Art (component of the Foundations Program)	3
ART 208	Current Directions in Art (component of the Foundations Program)	3
Select two additional courses from the following:		8
ART HIST 201	History of Western Art I: From Pyramids to Cathedrals	
ART HIST 202	History of Western Art II: From Renaissance to Contemporary	
ART HIST 205	Global Arts	
ART 438	History of Graphic Design and Typography [1]	

[1] If taken prior to summer, 2018, ART 438 may count toward either the aesthetics or studio requirements, but not both. Effective summer, 2018, it may only count toward the aesthetics requirement. This course is designed for students pursuing graphic design.

AESTHETICS ELECTIVES

Select from the following to complete the required 18 credits. Liberal studies coursework in fine arts and literature can also double count as aesthetics electives.

MAJOR REQUIREMENTS

The requirements listed here are effective for students admitted to the Art or BFA program effective summer, 2016. Students admitted prior to

this time can find their major requirements listed in previous editions of the *Undergraduate Catalog* and on their DARS reports.

Bachelor of Fine Arts (BFA) Program: Complete a minimum of 72 studio credits, including the specific coursework below. The BFA degree requires 126 total credits. Admission to the BFA program requires the completion of (or concurrent enrollment in) ART 102, ART 104, ART 107, ART 108, ART 208, ART 212, and one course in each of the 2D, 3D, 4D and graphics areas. Students must have a 3.0 GPA in their studio coursework to be considered for the BFA program and have attained a minimum of sophomore standing. Successful participation in a portfolio review is also part of the selection process. Application may be made during the semester that the required courses will be completed. See How to Get In (p. 1704) for details about the application process.

Major residency requirement. The BFA program requires that at least 36 credits of major studio coursework be completed in residence at UW–Madison.

Art and BFA degree students have priority access to studio courses. Note: Some courses are offered for 3 or 4 credits; it is preferred that the course be taken for 4 credits.

REQUIRED STUDIO FOUNDATIONS COURSES

Complete the following:

Code	Title	Credits
ART 102	2D Foundations	3
ART 104	3D Foundations	3
ART 107	Introduction to Digital Forms	3
ART 212	Drawing Foundations	3

REQUIRED STUDIO BREADTH COURSES

Select one course in each of the 2D, 3D, 4D, and Graphics areas. Students will also take ART 508 at least once and complete a 500-level or 600-level art studio course in at least two disciplines. BFA candidates are required to participate in an exhibit and concurrently enroll in a capstone course.

2D Studio

Select one of the following:

Code	Title	Credits
ART 222	Introduction to Painting	3-4
ART 232	Life Drawing I	4
ART 242	Watercolor I	3-4
ART 302	Color	4
ART 312	Intermediate Drawing I	3-4

3D Studio

Select one of the following:

Code	Title	Credits
ART 214	Sculpture I	4
ART 224	Ceramics I	4
ART 244	Art Metal I	3-4
ART 334	Wood Working	3-4
ART 343	Metal Fabrication and Welding in Sculpture	3-4
ART 354	Glassworking	4
ART 454	Neon: Light as Sculpture	4

4D Studio

Select one of the following:

Code	Title	Credits
ART 309	Digital Art and Code	4
ART 318	Introduction to Video, Performance & Installation Art	4
ART 338	Service Learning in Art	2
ART 409	Digital Fabrication Studio	4
ART 428	Digital Imaging Studio	4
ART 429	3D Digital Studio I	4
ART 470	Special Topics in 4D Art	3-4
ART 521	Installations and Environments	4
ART 531	Screen Performance	3-4

Graphics

Select one of the following:

Code	Title	Credits
ART 306	Relief Printmaking	3-4
ART 316	Lithography	4
ART 326	Etching	4
ART 336	Serigraphy	3-4
ART 346	Basic Graphic Design	4
ART 348	Introduction to Digital Printmaking	4
ART 376	Darkroom Photography	4
ART 446	Artists' Books	4

ART COLLOQUIUM

Complete the following:

Code	Title	Credits
ART 508	Colloquium in Art (Students are encouraged to enroll in this visiting artist lecture series multiple times)	1

ADVANCED STUDIO REQUIREMENT

Complete a 500-level or 600-level Art studio course in two disciplines. ART 508, ART 608, and ART 699 will **not** fulfill this requirement.

EXHIBIT PARTICIPATION

BFA students must participate at least once in the department-sponsored exhibit, held in the spring semester. Requires concurrent enrollment in the professional practices/capstone course.

PROFESSIONAL PRACTICES/CAPSTONE COURSE

BFA students must enroll in this course during the required semester of participation in the department-sponsored exhibit. Currently, offered as ART 448 section 10; a unique course number will be forthcoming.

ELECTIVE STUDIO COURSES

Select elective studio courses (https://guide.wisc.edu/courses/art/) to reach the minimum of 72 credits.

AREAS OF CONCENTRATION

Although a specific emphasis is not required, students may wish to develop an area of interest within the requirements of the BFA program. Concentrations in multi-media, 2D studio, 3D studio, and printmaking are some of the available tracks (https://art.wisc.edu/media-disciplines/) listed on the art department's website. Students wishing to concentrate in graphic design should declare the Graphic Design Named Option when eligible.

- **ART: GRAPHIC DESIGN, BFA (P. 1722)**

GPA AND OTHER GRADUATION REQUIREMENTS

GRADUATION REQUIREMENTS

These requirements are based on UW–Madison coursework.

- 2.5 minimum cumulative grade point average. This may be modified by the Last 60 Credits Rule.
- Cumulative major grade point average: 3.0 cumulative grade point average in all major studio coursework.
- Upper-level major coursework: 3.0 cumulative grade point average in all upper-level major coursework (Art courses numbered 214 and above, excluding ART 236 Bascom Course and ART 338 Service Learning in Art).
- Major Residency: Students must complete at least 36 major credits while enrolled in residence on the UW–Madison campus.
- Senior Residency. Degree candidates must complete their last 30 credits in residence on the UW–Madison campus, excluding retroactive credits and credits granted by examination.
- Total Credits: A minimum of 126 credits are required for graduation in the Art–BFA degree program.

DEGREE AUDIT (DARS)

UW–Madison uses "DARS" to document a student's progress toward the completion of their degree, including any additional majors and certificates. A DARS (Degree Audit Reporting System) report shows all the requirements for completing a degree and, against courses that are planned or completed, shows the requirements that have been met, and those that are unmet. A report can offer suggestions about courses that may be taken to meet specific requirements and can assist in the academic planning and enrollment process. Students can access a DARS report in the Course Search & Enroll app or Student Center via My UW.

DARS also has a "what-if" function. This feature makes it possible to request a DARS report as if pursuing another program, major, or certificate. It is an excellent tool if considering a new or additional area of study. School of Education students in a pre-professional classification such as Pre-Elementary (PRE) or Pre-Kinesiology should request a "what if" DARS report of their professional program of interest. For example, Pre-Elementary Education (PRE) students will request Elementary Education K-9; Pre-Kinesiology (PKN) students will request the Kinesiology report. Minors have their own DARS programs and are run separately from the main degree audit.

More information (including tutorials) on how to request and read regular and what-if DARS reports is available under the Resources tab on the Office of the Registrar's website. (https://registrar.wisc.edu/dars/)

DARS is not intended to replace student contact with academic advisors. It creates more time in an advising appointment to discuss course options, research opportunities, graduate school, or issues of personal interest or concern to students.

DARS is used as the document of record for degree program, major, and certificate completion in the School of Education.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Learn the fundamentals of art and design through investigation of form, technology and concept within a cohort of like-minded and diverse artists and designers.
2. Develop skills in research, creative problem solving, and professional practices.
3. Expand knowledge of historical, thematic, critical, and theoretical issues as a means of strengthening verbal and visual vocabulary.
4. Demonstrate a broad understanding of distinct concepts and practices in two-dimensional media, three-dimensional media, four-dimensional media, printmaking, photography, or graphic design media.
5. Demonstrate competency at an advanced level in at least two disciplines of student's choice. (Graphic design named options: one of the two disciplines must be in graphic design.)

FOUR-YEAR PLAN

FOUR-YEAR PLAN

Bachelor of Fine Arts: Art - Sample Four-Year Plan

This four-year sample graduation plan is designed to guide your course selection throughout your academic career; it does not establish a contractual agreement. Use it along with your DARS report, the Guide, and the Course Search and Enroll app to create a four-year plan reflecting your placement scores, incoming credits, and individual interests. Consult with your academic advisor(s) to develop a personalized plan of study and refer to the Guide for a complete list of requirements. You will likely revise your plan several times during your academic career here, based on your activities and changing academic interests.

A minimum of 126 credits are required. Six credits of liberal studies course work must be aesthetics-related and will count toward both liberal studies and aesthetics requirements.

ADVISING AND CAREERS

ADVISING AND CAREERS

ART DEPARTMENT ADVISING

Students declared in the BS–Art or BFA–Art major (including graphic design named options), as well as potential transfers into art, will meet with the undergraduate art program advisor or through email via artadvising@education.wisc.edu.

Prospective freshmen and art studio/graphic design certificate students will meet with the prospective student and certificate advisor or through email via artadvising@education.wisc.edu.

Current Art majors can schedule an appointment online through the Starfish app (https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/) in MyUW. Certificate students can also use the Starfish app (https://wisc.starfishsolutions.com/starfish-ops/dl/instructor/serviceCatalog.html?bookmark=connection/109896) to schedule an appointment. Students are also strongly encouraged to confer with an advisor in the School of Education Student Services office on a regular basis, see below.

SCHOOL OF EDUCATION ADVISING

Academic Advising in the School of Education

Dedicated to supporting and promoting student success, academic advisors (https://advising.education.wisc.edu/) are here to assist students with the adjustment to college, understanding their degree and career goals, and connecting them to resources. Advisors support prospective and current School of Education students in all programs through:

- Course selection
- Mentoring and advocacy for underrepresented and international students
- Understanding degree requirements and progression
- Interpreting academic policies
- Helping students recognize their strengths and suggesting ways to expand their skills
- Expanding learning through activities such as study abroad, volunteering/work/internship, and by assuming leadership roles

Advising appointments are available in person, virtually, or over the phone. Current students schedule appointments through the Starfish app (https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/) in MyUW. Appointments can also be made by calling 608-262-1651, or in person in Room 139 Education Building.

Academic Dean Support (https://advising.education.wisc.edu/academic-dean-support/) staff are also here for you when facing academic or personal challenges. We provide undergraduate School of Education students support, problem-solving, advocacy, resources, and approve exceptions to policies.

Career Advising in the School of Education

Through individual appointments, events, courses, and online resources, the Career Center provides students and alumni with the tools needed to be successful in their career development.

Career and Internship Advisors are prepared to help students with:

- Exploration of career and academic pathways (https://careercenter.education.wisc.edu/explore-career/)
- Resumes
- Cover letters
- Job/Internship search
- Interview preparation
- Mock interviews
- Graduate school search, applications and decisions
- Negotiating job or internship offers
- Professional networking
- Connecting with employers

Students are encouraged to meet with their Career and Internship Advisor early in their college experience to take full advantage of the resources and support available.

To make an appointment: log into Starfish (https://wisc.starfishsolutions.com/starfish-ops/) from the MyUW dashboard.

For more information, visit the School of Education Career Center website (https://careercenter.education.wisc.edu/) or reach out at career-center@education.wisc.edu.

Information about common career pathways, ways to get involved and gain experience, and transferrable skills developed through this major can be found on the School of Education Career Center's Art Pathways (https://careercenter.education.wisc.edu/explore-career/art-career-pathways/) webpage.

WISCONSIN EXPERIENCE

WISCONSIN EXPERIENCE

UW–Madison's vision for the total student experience, the Wisconsin Experience (https://wisconsinexperience.wisc.edu/about/), combines learning in and out of the classroom. Tied to the Wisconsin Idea (https://www.wisc.edu/wisconsin-idea/) and steeped in long-standing institutional values — the commitment to the truth, shared participation in decision-making, and service to local and global communities — the Wisconsin Experience describes how students develop and integrate these core values across their educational experience.

UW–Madison encourages students to mindfully engage in four core concepts throughout their time on campus: Empathy & Humility, Relentless Curiosity, Intellectual Confidence, and Purposeful Action (https://wisconsinexperience.wisc.edu/intellectual-confidence/).

Since its inception, the School of Education has embraced the concepts of the Wisconsin Experience, providing opportunities for students to learn in venues beyond the traditional classroom. Our students also independently seek out related activities and experiences, thus creating their own unique Wisconsin Experience.

ART AND THE WISCONSIN EXPERIENCE

The UW–Madison Art Department provides a wide range of opportunities for students on campus and beyond. Available resources include courses that connect with the community, job opportunities, the chance to show work, and the ability to manage campus student organizations.

Visiting Artists

The art department is unique in its ability to bring in weekly visiting artists through the Art Colloquium (https://art.wisc.edu/public-programs/) series. A professional national or international artist comes to campus to provide an artist's talk, studio visits, and general conversation about art-making with students. Individual courses often bring in visiting artists throughout the semester to provide workshops on unique techniques from those who specialize in particular processes.

Career Advising and Internships

The School of Education Career Center (https://careercenter.education.wisc.edu/) has a designated advisor for art students who can provide connections with hourly campus employment, internships, and career options after graduation. Art advisors host informational town halls for students to learn best practices in art entrepreneurship, applying to graduate programs, and how to get involved in art student organizations. The BFA capstone course also provides detailed instruction in writing a resume, cover letter, grant proposals, residency applications, and portfolio websites.

Service Learning

The art department offers a two-credit Service Learning in the Arts course in which students examine community-based art practices and the roles artists play in fostering civic engagement and cultural development. In partnership with Madison-area art organizations (https://art.wisc.edu/art-at-uw/local-arts/), students apply service-learning principles by creating impactful projects that address identified community needs, integrating academic study with hands-on experience.

Student Organizations

Student organizations are an excellent opportunity for art majors to establish connections with working artists, host workshops for the community, and raise funds for travel. Fresh Hot Press (printmaking), AIGA (graphic design), Mad Gaffers (glassblowing), Mad Metals (Metals), and Art Club are just a few of the art-related options (https://art.wisc.edu/art-at-uw/student-orgs/). Student organizations are led by undergraduates and graduate students, with several using fundraising throughout the year to attend national conferences. Overall, there are multiple ways for undergraduates to refine their professional and technical skills in relation to their future career goals in the arts through student organizations.

Exhibiting Artwork

It is important for any artist to consistently show their work, and the art department does its part to provide this professional development to our students. Undergraduates may reserve one of our three large-scale galleries to install and document their work for future exhibition submissions. During the department's Fall Open House, art student organizations exhibit together in one of its premier galleries. In the spring term, the BFA capstone course culminates in a group exhibition across two galleries, where students develop skills in collaboration, exhibition planning, installation, and lighting. Faculty guide participating students to clearly articulate the concepts and intentions behind their exhibited work. The art department works with students in many ways to help promote their work and develop the skills necessary to establish a thriving career in the world of art.

Study Abroad

The art department designates the Santa Reparata Institute for Studio Art (SRISA) (https://studyabroad.wisc.edu/program/?programId=201) program as one that meets the department's philosophy of teaching and learning for Art majors. Located in the heart of Florence, Italy, this English-speaking program allows students to explore the rich tradition of Italian Art and offers the most access to courses that can satisfy art program requirements. In the summer, two Art faculty lead UW City as Studio: Drawing in Portugal (https://studyabroad.wisc.edu/program/?programId=330421), a three-credit study abroad program. Through visual and drawing skills, students acquire immersive knowledge through their interaction with the city and its natural and built environments as a venue that functions as a "studio."

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

Information related to scholarships, academic and career advising, study abroad opportunities, student well-being, and other resources for students in the School of Education can be found on the School's Resources (p. 1680) page.

ART: GRAPHIC DESIGN, BFA

REQUIREMENTS

REQUIREMENTS

As an inherently interdisciplinary practice, graphic design plays an important role at every level of contemporary culture. Graphic design courses deliver skills and expertise that are in demand for all graphic design and related communications fields. Students develop abilities to think critically while working seamlessly across disciplines. In current and future iterations of the field, graphic designers must function as the "fusion" between art, business, engineering, research, and science.

Graduates of the Graphic Design named option programs will have experienced a range of forms and media that provide professional preparation, as well as the development of unique intellectual and visual voice. Graduating students will also possess the flexibility to adapt to a changing, unpredictable world where the methods of communication will continuously evolve and expand.

The named option requirements listed here are components of the BFA - Art (https://guide.wisc.edu/undergraduate/education/art/art-bfa/#requirementstext) degree requirements.

AESTHETICS REQUIREMENTS - GRAPHIC DESIGN OPTION

The BFA Graphic Design option program requires a total of 18 aesthetics credits, including four required courses. The remaining credits will be met by selecting from a list of aesthetics electives. Additional aesthetics courses may be approved by the art department advisor.

REQUIRED AESTHETICS COURSES

Code	Title	Credits
ART 108	Foundations of Contemporary Art (component of the Foundations Program)	3
ART 208	Current Directions in Art (component of the Foundations Program)	3
ART 438	History of Graphic Design and Typography	3
Select one additional courses from the following:		4
ART HIST 201	History of Western Art I: From Pyramids to Cathedrals	
ART HIST 202	History of Western Art II: From Renaissance to Contemporary	
ART HIST 205	Global Arts	

AESTHETICS ELECTIVES

Select from the following to complete the required 18 credits. Liberal studies coursework in fine arts and literature can also double count as aesthetics electives.

Elective Courses

MAJOR REQUIREMENTS - GRAPHIC DESIGN OPTION

Complete a minimum of 72 studio credits, including the specific coursework below. The BFA degree requires 126 credits. At least 36 credits of major studio coursework be completed in residence at UW–Madison.

Art and BFA degree students have priority access to studio courses. Note: Some courses are offered for 3 or 4 credits; it is preferred that the course be taken for 4 credits.

REQUIRED STUDIO FOUNDATION COURSES - GRAPHIC DESIGN OPTION

Code	Title	Credits
ART 102	2D Foundations	3
ART 104	3D Foundations	3
ART 107	Introduction to Digital Forms	3
ART 212	Drawing Foundations	3

REQUIRED STUDIO BREADTH COURSES - GRAPHIC DESIGN OPTION

Complete one course in each of the Graphic Design, 2D, 3D, and 4D areas. Students will also take ART 508 at least once and complete a 500-level or 600-level art studio course in graphic design and also in another discipline.

Graphic Design

Code	Title	Credits
ART 346	Basic Graphic Design	4

2D Studio

Select one of the following:

Code	Title	Credits
ART 222	Introduction to Painting	3-4
ART 232	Life Drawing I	4
ART 242	Watercolor I	3-4
ART 302	Color	4
ART 312	Intermediate Drawing I	3-4

3D Studio

Select one of the following:

Code	Title	Credits
ART 214	Sculpture I	4
ART 224	Ceramics I	4
ART 244	Art Metal I	3-4
ART 334	Wood Working	3-4
ART 343	Metal Fabrication and Welding in Sculpture	3-4
ART 354	Glassworking	4
ART 454	Neon: Light as Sculpture	4

4D Studio

Select one of the following:

Code	Title	Credits
ART 309	Digital Art and Code	4
ART 318	Introduction to Video, Performance & Installation Art	4
ART 338	Service Learning in Art	2
ART 409	Digital Fabrication Studio	4
ART 428	Digital Imaging Studio	4
ART 429	3D Digital Studio I	4
ART 470	Special Topics in 4D Art	3-4
ART 521	Installations and Environments	4
ART 531	Screen Performance	3-4

VISITING ARTIST LECTURE SERIES - GRAPHIC DESIGN OPTION

Complete the following:

Code	Title	Credits
ART 508	Colloquium in Art (Students are encouraged to enroll in this visiting artist lecture series multiple times)	1

ADDITIONAL STUDIOS - GRAPHIC DESIGN OPTION

Complete at least 20 studio credits of graphic design coursework, **to include at least one 500 or 600 level course**, from the following list:

Code	Title	Credits
ART 333	Intro to Responsive Web Design	4
ART 356	Coding for Graphic Design	4
ART 458	Graphic Design for Branding and Identity	4
ART 463	Information Graphics	4
ART 465	Graphic Design for Packaging	4
ART 467	Graphic Design for Posters	4
ART 525	Advanced Typography	4
ART 546	Graphic Design for Publications	4
ART 556	Graphic Design for Interactive Media	4
ART 558	Product Development for Graphic Design	4
ART 560	Graphic Design Senior Thesis Project and Exhibition	4
ART 563	Graphic Design for Games	4
ART 564	Graphic Design for Accessibility	4
ART 565	Typeface Design	4
ART 568	Motion Typography	4
ART 575	User Experience for Graphic Design	4
ART 656	Design Portfolio and Professional Practice	4

ADVANCED LEVEL COURSE IN A SECOND DISCIPLINE

BFA-Art Graphic Design option students must plan for and complete an advanced-level (500-600) studio course in a secondary discipline of their

choice. Common selections are in digital media, drawing/painting, video, glass, printmaking, and photography.

ELECTIVE STUDIO COURSES

Select additional elective studio courses (https://guide.wisc.edu/courses/art/) to reach the minimum of 72 credits.

GPA AND OTHER GRADUATION REQUIREMENTS

GRADUATION REQUIREMENTS

Requirements are based on UW–Madison coursework.

- 2.5 minimum cumulative grade point average. This may be modified by the Last 60 Credits Rule.
- Cumulative major grade point average: 3.0 cumulative grade point average in all major studio coursework.
- Upper-level major coursework: 3.0 cumulative grade point average in all upper-level major coursework (Art courses numbered 214 and above, excluding ART 236 and ART 338).
- Major Residency: Must complete at least 36 credits of major coursework in the UW-Madison Art Department. All graphic design coursework must be completed in residence.
- Senior Residency: Degree candidates must complete their last 30 credits in residence on the UW–Madison campus, excluding retroactive credits and credits granted by examination.
- Total Credits: A minimum of 126 credits must be completed to earn the BFA degree.

DEGREE AUDIT (DARS)

UW–Madison uses "DARS" to document a student's progress toward the completion of their degree, including any additional majors and certificates. A DARS (Degree Audit Reporting System) report shows all the requirements for completing a degree and, against courses that are planned or completed, shows the requirements that have been met, and those that are unmet. A report can offer suggestions about courses that may be taken to meet specific requirements and can assist in the academic planning and enrollment process. Students can access a DARS report in the Course Search & Enroll app or Student Center via My UW.

DARS also has a "what-if" function. This feature makes it possible to request a DARS report as if pursuing another program, major, or certificate. It is an excellent tool if considering a new or additional area of study. School of Education students in a pre-professional classification such as Pre-Elementary (PRE) or Pre-Kinesiology should request a "what if" DARS report of their professional program of interest. For example, Pre-Elementary Education (PRE) students will request Elementary Education K-9; Pre-Kinesiology (PKN) students will request the Kinesiology report. Minors have their own DARS programs and are run separately from the main degree audit.

More information (including tutorials) on how to request and read regular and what-if DARS reports is available under the Resources tab on the Office of the Registrar's website. (https://registrar.wisc.edu/dars/)

DARS is not intended to replace student contact with academic advisors. It creates more time in an advising appointment to discuss course options, research opportunities, graduate school, or issues of personal interest or concern to students.

DARS is used as the document of record for degree program, major, and certificate completion in the School of Education.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

Bachelor of Fine Arts: Art - Graphic Design Named Option

Sample Four-Year Plan

This four-year sample graduation plan is designed to guide your course selection throughout your academic career; it does not establish a contractual agreement. Use it along with your DARS report, the Guide, and the Course Search and Enroll app to create a four-year plan reflecting your placement scores, incoming credits, and individual interests. Consult with your academic advisor(s) to develop a personalized plan of study and refer to the Guide for a complete list of requirements. You will likely revise your plan several times during your academic career here, based on your activities and changing academic interests.

A minimum of 126 credits are required. Six credits of liberal studies course work must be aesthetics-related and will count toward both liberal studies and aesthetics requirements.

ART, BS

The highly ranked Department of Art's degree programs provide creative students with the critical and artistic skills needed to excel in contemporary and multidisciplinary art and design practices. The art curriculum fosters positive collaboration, the creation of innovative and technically-advanced artworks, and encourages the sharing of diverse points of view.

Approximately 17 of the 45 required studio credits for a Bachelor of Science in Art are spent in intermediate and advanced-level studio courses, allowing students to graduate with a high-intermediate level portfolio. The smaller number of studio credits required in the BS-Art degree affords the flexibility for students to pursue second majors, certificates, or simply take more courses in other areas of academic interest. This degree can be completed in four years.

All degree programs in art feature a rigorous foundation program, a set of six courses that students often complete by participating in the popular Contemporary Art & Artists First-Year Interest Group (https://figs.wisc.edu/what/) (FIG), before branching out into one or more specialized areas (https://art.wisc.edu/media-disciplines/):

- 4D Digital Media
- 4D Video and Performance
- Ceramics
- Drawing/Painting
- Glass/Neon
- Graphic Design
- Metals/Jewelry
- Printmaking/Book Arts
- Photography
- Sculpture
- Wood/Furniture

Potential careers for artists include creative director, content marketing manager, arts administrator, studio manager, glassblower, metal fabricator, carpenter, illustrator, commercial or fine arts photographer, primary/secondary school art teacher, gallerist, or studio artist. Our graduates also work as community arts organizers, user experience designers, technical assistants for major film companies, jewelry designers and fabricators, book designers, museum preparators, and more!

The Department of Art believes that hardworking students who learn to harness and nurture their creative energies today will be the people influencing progress tomorrow. Come join us!

"I came in as a Communication Arts major and knew I wanted to get an Art certificate. Then, through the art classes at UW, I was like, this is where I need to be and went full Art [major] my sophomore year." – Wylie Knight (read more (https://education.wisc.edu/news/wylie-knight-from-the-school-of-educations-art-major/?utm_source=Early_AD&utm_medium=email&utm_campaign=art_majors&utm_id=stu

HOW TO GET IN

HOW TO GET IN

PROGRAM ADMISSION OVERVIEW

The Art–BS degree program currently admits on-campus students to begin in the fall, spring, and summer. Requirements and selection criteria may be modified from one application/admission period to the next. Potential applicants should consult the School of Education's Undergraduate Admissions (https://education.wisc.edu/admissions-aid/undergraduate-admissions/) page for eligibility requirements prior to submitting an application.

ENTERING THE SCHOOL OF EDUCATION

Prospective UW–Madison Applicants

The Office of Admissions and Recruitment (http://admissions.wisc.edu/) makes final determinations regarding admission criteria and status of all applicants. Additional information, including submission guidelines, is available on the How to Apply (https://art.wisc.edu/undergraduate/undergraduate-application/) page of the art department's website.

New and Current UW–Madison Students

New freshmen and off-campus transfers are admitted directly to the Art–BS degree program. Students planning on declaring the Art-BS: Graphic Design named option should first declare Art-BS The successful completion of ART 102 2D Foundations and ART 107 Introduction to Digital Forms is required to declare the named option. All other on-campus students interested in becoming Art students must follow the application procedures outlined below.

Prospective Transfer Students

Applicants not already enrolled on the UW–Madison campus must be admissible to the university to enroll in a School of Education program. Admission to UW–Madison requires a separate application and admission process. See UW–Madison Office of Admissions and Recruitment (http://admissions.wisc.edu/) for application information. BFA candidates cannot transfer directly into the Art–BFA degree program; instead, they will be admitted to campus as if pursuing the Art–BS degree program (ART classification)

and can apply for the BFA program once enrolled on campus. Transfer students are strongly encouraged to meet with the art department advisor prior to coming to campus; call 608-262-1660 to schedule an appointment. Prospective transfer students are strongly advised to meet with an advisor in the School of Education Student Services office in advance of their application; to schedule, call 608-262-1651.

Students With A Previous Degree

Prospective applicants who already hold an undergraduate degree are strongly encouraged to meet with an advisor in the School of Education Student Services office in advance of their application. Consultations with advisors are available in person or via telephone; to schedule, call 608-262-1651.

Applicants who already hold an undergraduate degree are admitted to the School of Education as either an *Education Special student* or a *second degree student*, depending on their interests and academic background. Admission as an Education Special student indicates that that the student has an interest in pursuing certification in a subject area studied during the initial degree; another degree is not awarded for this "certification only" coursework. Second degree students are seeking a second, unrelated degree from the School of Education, which may, or may not, include teacher certification. Candidates for limited enrollment programs must meet all admission eligibility requirements for the program and must compete with the eligible applicants for program admission. More information is available here (p. 1662).

APPLICATION AND ADMISSION

On-campus students should contact an undergraduate advisor in the Department of Art to discuss their interest in pursuing the Art–BS degree program. This meeting is required and can be scheduled using Starfish, (https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/) or by contacting the Department of Art at 608-262-1660. An application to the Art–BS degree program will be completed after this meeting.

Criteria for Admission

- Cumulative grade point average of at least a 2.5 based on UW–Madison campus coursework, as modified by the Last 60 Credits Rule (detailed below).
- If applying for named option in Graphic Design, successful completion of ART 102 2D Foundations and ART 107 Introduction to Digital Forms.
- Filing of all required paperwork, including professional program application (http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission/) and transcripts. Application must be signed by the art department advisor.

Last 60 Credits Rule

Two grade point averages will be calculated to determine candidates' eligibility to programs. GPAs will be calculated using

- all transferable college level coursework attempted, and
- the last 60 credits attempted.

The higher GPA of these two will be used for purposes of determining eligibility. If fewer than 60 credits have been attempted, all credits will be used to calculate the GPA. Graded graduate coursework will also be used in all GPA calculations. ("Attempted" coursework indicates coursework for which a grade has been earned.) For more information on this rule, see this link (p. 1662).

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

SCHOOL OF EDUCATION DEGREE REQUIREMENTS

COMMUNICATION: BREADTH AND DEPTH

Courses designated as Communication A (Comm A) and Communication B (Comm B) help students learn how to gather and assess information from a variety of sources and to present different kinds of information, insight, and analysis to diverse audiences. Comm A courses focus on essential communication skills and Comm B courses teach research, writing, and communication skills within a disciplinary area.

Communication A	Complete either: • one course with the Communication A designation, or • satisfaction of Communication A based on UW Placement Test.
Communication B	One course with the Communication B designation.

QUANTITATIVE REASONING: BREADTH AND DEPTH

Quantitative Reasoning A courses provide students with foundational skills in mathematics, computer science, statistics or formal logic that are needed for dealing with quantitative information. In Quantitative Reasoning B courses, students use quantitative tools in the context of other disciplines or course material.

Quantitative Reasoning A	Complete either: • one course with the Quantitative Reasoning A designation, or • satisfaction of Quantitative Reasoning A based on UW Placement Test.
Quantitative Reasoning B	One course with the Quantitative Reasoning B designation.

LIBERAL STUDIES REQUIREMENTS

All students are required to complete a minimum of 40 credits of Liberal Studies (p. 1670) coursework. This requirement provides an opportunity to do some academic exploration beyond the scope of the major. Students take courses in areas of particular interest and also have an opportunity to sample the wide selection of courses offered across the university. Coursework is required in humanities, social studies (social science), science, and cultural and historical studies. Some elective coursework is also needed to reach the required number of credits.

The School of Education's Liberal Studies requirements can be used to satisfy the campus-wide Core General Education requirements. Communication A and B, and Quantitative Reasoning A and B coursework can also be used towards Core General Education and other requirements. Academic advisors can suggest courses that will count in multiple places.

A basic outline of the liberal studies is included below. Students must consult the detailed version of the requirements (p. 1670) for more information about course selection and how the liberal studies requirements apply to this major.

Are you interested in switching to the School of Education? If so, you should run a "what-if" DARS report. (https://kb.wisc.edu/registrar/94068/) It will show how many of these requirements you have already met and are unmet.

Humanities

Complete a minimum of 9 credits from these categories.

Literature	Complete a course with the Literature designation, minimum of 2 credits
Fine Arts	Complete a minimum of 2 credits from the list of courses below.
Humanities	Courses to total 9 Humanities credits. Select from: • Courses with the Humanities or Literature designation. • Fine Arts courses from the list below. • Courses with the Language courses designation. • ENGL 201 • ENGL 207 • COM ARTS 181

Fine Arts Courses

Code	Title	Credits

LITTRANS/ THEATRE 335	In Translation: The Drama of Henrik Ibsen	3-4
Any MUSIC course (https://guide.wisc.edu/courses/music/)		
Any MUS PERF course (https://guide.wisc.edu/courses/mus_perf/)		
Any THEATRE course (https://guide.wisc.edu/courses/theatre/)		

Social Studies

Social Studies Complete 9 credits with the Social Science designation.

The following programs have specific requirements:

- Kinesiology: PSYCH 202
- Art Education, Elementary Education, Elementary Education and Special Education, Physical Education, Special Education: POLI SCI 104 or 205

Science

Complete a minimum of 9 credits, including Physical and Biological Science. A laboratory science course is also required. The lab course can count toward the Biological or Physical Science requirement if it has the requisite breadth designation.

Physical Science	Complete one course with the Physical Science designation.
Biological Science	Complete one course with the Biological Science designation.
Lab Science	Complete one course with the Biological, Physical, or Natural Science designation with a lab component; see Course Search and Enroll. Additional eligible courses are listed below.
Science Elective(s)	If needed, complete a course with the Biological, Physical, or Natural Science designation to total 9 Science credits.

Laboratory Courses

Code	Title	Credits
ANTHRO 105	Principles of Biological Anthropology	3
ATM OCN 101	Weather and Climate	4
BOTANY 100	Survey of Botany	3
BOTANY/PL PATH 123	Plants, Parasites, and People	3
FOOD SCI/ MICROBIO 324	Food Microbiology Laboratory	2
GEOSCI 100	Introductory Geology: How the Earth Works	3
PHYSICS 109	Physics in the Arts	3
PLANTSCI 110	Introduction to Plant Science and Technology	4

Cultural and Historical Studies

Complete three requirements met by separate courses. Any of these courses can also be used to meet other requirements if it has the relevant breadth designation. A single course cannot satisfy more than one of the three Cultural and Historical Studies requirements listed below.

Ethnic Studies	Complete 3 credits with the Ethnic Studies Designation.
United States or European History	Complete 3 credits from the list of courses below.
Global Perspectives	Complete 3 credits from the list of courses below.

United States or European History Courses

Code	Title	Credits

THEATRE 526	The Theatres of China and Japan	3

Liberal Studies Electives

Liberal Studies Electives	Complete additional liberal studies coursework as needed to reach the required 40 Liberal Studies credits.

PROGRAM STRUCTURE

The bachelor of science (BS) degree program in art has five components:

- *Liberal studies* courses expose students to a broad range of academic disciplines. The university-wide *General Education* requirements also encourage this breadth of study.
- The *Foundations Program* requires six interrelated studio and aesthetics courses designed to prepare first-year students for further study in studio art and design.
- *Aesthetics* coursework gives students an opportunity to study both the history of art and contemporary developments in the visual arts.
- *Major* requirements permit in-depth studies of studio art. After taking courses in the Foundations area, students complete coursework in each of the four studio areas: 2D, 3D, 4D, and Graphics. BS–Art majors are required to reach an advanced level in at least one studio discipline.
- *Electiv*e credits to pursue individual areas of interest, such as a second major or additional studio credits. Many BS–Art students complete an additional major from the College of Letters & Science. Some use this major to complement their art preparation (e.g., focusing on written communication for an eventual career in advertising), or a subject that complements their interest in art. Students interested in medical illustration, for example, may wish to take courses in the biological sciences. Others select majors that reflect interests completely unrelated to art.

ART FOUNDATIONS PROGRAM

The Art Foundations Program is a series of interrelated studio and lecture courses to be taken by art and art education majors in their first year as preparation for further study in studio art and design. The program addresses the fundamentals of art through investigation of formal, technical and conceptual issues. The drawing, 2D and 3D design, digital media, and art historical lecture classes are designed to expose, broaden, and challenge students' understanding of contemporary art production.

Art foundations classes are meant to be taken concurrently and the information covered in them is interrelated. Students completing the Foundations Program should enroll in ART 102 2D Foundations, ART 212 Drawing Foundations, and ART 108 Foundations of Contemporary Art for the fall semester and complete ART 104 3D Foundations, ART 107 Introduction to Digital Forms, and ART 208 Current Directions in Art in the spring.

Most freshman art majors complete their foundations courses through participation in the very popular Contemporary Art and Artists First-Year Interest Group (FIG), (https://figs.wisc.edu/) which also creates a

network of corresponding experiences and a peer community that will continue throughout the program and often beyond graduation. Students in FIGs enjoy studying with instructors dedicated to serving first year students, the opportunity to integrate related ideas from all three classes, and the ready-made opportunities to form support networks and lasting friendships.

Additional information about the Foundations Program (https://art.wisc.edu/media-disciplines/foundations/) is available on the departmental website.

AESTHETICS REQUIREMENTS

Code	Title	Credits
ART 108	Foundations of Contemporary Art (component of the Foundations Program)	3
ART 208	Current Directions in Art (component of the Foundations Program)	3
Select two additional courses from the following:		8
ART HIST 201	History of Western Art I: From Pyramids to Cathedrals	
ART HIST 202	History of Western Art II: From Renaissance to Contemporary	
ART HIST 205	Global Arts	
ART 438	History of Graphic Design and Typography [1]	

[1] If taken prior to summer, 2018, ART 438 may count toward either the aesthetics or studio requirements, but not both. Effective summer, 2018, it may only count toward the aesthetics requirement. This course is designed for students pursuing graphic design.

MAJOR REQUIREMENTS

The requirements listed here are effective for students admitted to the program effective summer 2016. Students admitted prior to this time can find their major requirements listed in previous editions of the *Undergraduate Catalog* and on their DARS reports.

Complete a minimum of 45 studio credits, including the specific coursework below. No more than 58 studio credits will be counted toward the minimum 120 credits required for the BS degree. Thus, if a student wishes to graduate with the minimum of 120 credits, 62 of these credits must be "non-studio" coursework.

Major residency requirement: Students completing the BS degree must complete at least 24 credits of major studio coursework in residence on the UW–Madison campus.

Art and BFA degree students have priority access to studio courses. Note: Some courses are offered for 3 or 4 credits; it is preferred that the course be taken for 4 credits.

REQUIRED STUDIO FOUNDATIONS COURSES

Complete the following:

Code	Title	Credits
ART 102	2D Foundations	3
ART 104	3D Foundations	3
ART 107	Introduction to Digital Forms	3
ART 212	Drawing Foundations	3

REQUIRED STUDIO BREADTH COURSES

Select one course in each of the 2D, 3D, 4D, and Graphics areas. Students will also take ART 508 at least once and complete a 500-level or 600-level art studio course in at least one discipline.

2D Studio

Select one of the following:

Code	Title	Credits
ART 222	Introduction to Painting	3-4
ART 232	Life Drawing I	4
ART 242	Watercolor I	3-4
ART 302	Color	4
ART 312	Intermediate Drawing I	3-4

3D Studio

Select one of the following:

Code	Title	Credits
ART 214	Sculpture I	4
ART 224	Ceramics I	4
ART 244	Art Metal I	3-4
ART 334	Wood Working	3-4
ART 343	Metal Fabrication and Welding in Sculpture	3-4
ART 354	Glassworking	4
ART 454	Neon: Light as Sculpture	4

4D Studio

Select one of the following:

Code	Title	Credits
ART 309	Digital Art and Code	4
ART 318	Introduction to Video, Performance & Installation Art	4
ART 338	Service Learning in Art	2
ART 409	Digital Fabrication Studio	4
ART 428	Digital Imaging Studio	4
ART 429	3D Digital Studio I	4
ART 470	Special Topics in 4D Art	3-4
ART 521	Installations and Environments	4
ART 531	Screen Performance	3-4

Graphics

Select one of the following:

Code	Title	Credits
ART 306	Relief Printmaking	3-4
ART 316	Lithography	4
ART 326	Etching	4
ART 336	Serigraphy	3-4
ART 346	Basic Graphic Design	4
ART 348	Introduction to Digital Printmaking	4

ART 376	Darkroom Photography	4
ART 446	Artists' Books	4

ART COLLOQUIUM

Complete the following:

Code	Title	Credits
ART 508	Colloquium in Art (Students are encouraged to enroll in this visiting artist lecture series multiple times)	1

ADVANCED STUDIO REQUIREMENT

Complete a 500-level or 600-level art studio course in at least one discipline. ART 508, ART 608, and ART 699 will not fulfill this requirement.

ELECTIVE STUDIO COURSES

Select elective studio courses (https://guide.wisc.edu/courses/art/) to reach the minimum of 45 credits.

AREAS OF CONCENTRATION

Although a concentration is not required, students may wish to select a sequence of related courses to develop an area of interest. Concentrations in multi-media, 2D studio, 3D studio, and printmaking are just some of the concentrations (https://art.wisc.edu/media-disciplines/) listed on the art department's website. Students wishing to concentrate in graphic design should declare the Graphic Design Named Option when eligible..

View as listView as grid

- **ART: GRAPHIC DESIGN, BS (P. 1742)**

ELECTIVE COURSEWORK

BS–Art students must complete additional coursework to reach the minimum 120 credits required for the degree. These students must complete a minimum of 62 non-studio credits. Another way of describing this requirement is that only 13 additional studio credits beyond the required 45 credits can count toward the 120 credits. Students interested in completing more than 58 total studio credits may wish to consider the BFA degree program, which requires at least 72 studio credits.

Completing an additional major. Students choosing the BS–Art option often also choose to complete an additional major in the College of Letters & Science. Review Academic Policies and Procedures (p. 1662) to find detailed information about declaring an additional L&S major while a student in the School of Education.

Completing two degree programs. Students also occasionally choose a second degree in another campus school or college. For instance, students may choose an Art degree program as well as a science degree program in the College of Agricultural and Life Sciences. See Academic Policies and Procedures (p. 1662) for more detailed information about the requirements and the approvals necessary to be permitted to complete dual degrees. Important note: Some campus schools/colleges do not permit dual degrees; at the present time this includes the College of Letters & Science and the College of Engineering. These policies do not permit students to complete, for example, an art degree program and a journalism degree program.

Students interested in additional majors or dual degrees should consult carefully with an advisor in the School of Education Student Services office. Students may be referred to the associate dean for additional consultation and approvals.

GPA AND OTHER GRADUATION REQUIREMENTS

GRADUATION REQUIREMENTS

Requirements are based on UW–Madison coursework.

- 2.5 minimum cumulative grade point average. This may be modified by the Last 60 Credits Rule.
- Cumulative major grade point average: 2.5 cumulative grade point average in all major studio coursework.
- Upper-level major coursework: 2.5 cumulative grade point average in all upper-level major coursework (Art courses numbered 214 and above, excluding ART 236 and ART 338).
- Major Residency: Must complete at least 24 credits of major coursework in residence on the UW–Madison campus.
- Senior Residency: Degree candidates must complete their last 30 credits in residence on the UW–Madison campus, excluding retroactive credits and credits granted by examination.
- Total Credits: A minimum of 120 credits to include at least 62 non-studio credits are required for graduation in the Art–BS degree program.

DEGREE AUDIT (DARS)

UW–Madison uses “DARS” to document a student's progress toward the completion of their degree, including any additional majors and certificates. A DARS (Degree Audit Reporting System) report shows all the requirements for completing a degree and, against courses that are planned or completed, shows the requirements that have been met, and those that are unmet. A report can offer suggestions about courses that may be taken to meet specific requirements and can assist in the academic planning and enrollment process. Students can access a DARS report in the Course Search & Enroll app or Student Center via My UW.

DARS also has a "what-if" function. This feature makes it possible to request a DARS report as if pursuing another program, major, or certificate. It is an excellent tool if considering a new or additional area of study. School of Education students in a pre-professional classification such as Pre-Elementary (PRE) or Pre-Kinesiology should request a "what if" DARS report of their professional program of interest. For example, Pre-Elementary Education (PRE) students will request Elementary Education K-9; Pre-Kinesiology (PKN) students will request the Kinesiology report. Minors have their own DARS programs and are run separately from the main degree audit.

More information (including tutorials) on how to request and read regular and what-if DARS reports is available under the Resources tab on the Office of the Registrar’s website. (https://registrar.wisc.edu/dars/)

DARS is not intended to replace student contact with academic advisors. It creates more time in an advising appointment to discuss course options, research opportunities, graduate school, or issues of personal interest or concern to students.

DARS is used as the document of record for degree program, major, and certificate completion in the School of Education.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Learn the fundamentals of art and design through investigation of form, technology and concept within a cohort of like-minded and diverse artists and designers.
2. Develop skills in research, creative problem solving, and professional practices.
3. Expand knowledge of historical, thematic, critical, and theoretical issues as a means of strengthening verbal and visual vocabulary.
4. Demonstrate a broad understanding of distinct concepts and practices in two-dimensional media, three-dimensional media, four-dimensional media, and in a choice of printmaking, photography, or graphic design media.
5. Demonstrate competency at an advanced level in at least one discipline of student's choice. (Graphic design named option: Generate advanced level competency in graphic design.)

FOUR-YEAR PLAN

FOUR-YEAR PLAN

Bachelor of Science in Art: Sample Four-Year Plan

This four-year sample graduation plan is designed to guide your course selection throughout your academic career; it does not establish a contractual agreement. Use it along with your DARS report, the Guide, and the Course Search and Enroll app to create a four-year plan reflecting your placement scores, incoming credits, and individual interests. Consult with your academic advisor(s) to develop a personalized plan of study and refer to the Guide for a complete list of requirements. You will likely revise your plan several times during your academic career here, based on your activities and changing academic interests.

Total Credits 120

[1] At least 62 "non-studio" credits must be taken to complete the BS Art degree. Aesthetics courses are considered to be non-studio. No more than 58 studio credits can be applied toward the 120 credits.

ADVISING AND CAREERS

ADVISING AND CAREERS

ART DEPARTMENT ADVISING

Students declared in the BS–Art or BFA–Art major (including graphic design named options), as well as potential transfers into art, will meet with undergraduate art program advisor A`ha Vuong, ttvuong@wisc.edu, or through artadvising@education.wisc.edu.

Prospective freshmen and art studio/graphic design certificate students will meet with the prospective student and certificate advisor Annmarie Suglio, suglio@wisc.edu, or through artadvising@education.wisc.edu.

Current art majors can schedule an appointment with A`ha online through the Starfish app (https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/) in MyUW. Certificate students can also use the Starfish app (https://wisc.starfishsolutions.com/starfish-ops/dl/instructor/serviceCatalog.html?bookmark=connection/109896) to schedule an appointment with Annmarie. Appointments can also be made via email or by calling 608-262-1660. Students are also strongly encouraged to confer with an advisor in the School of Education Student Services office on a regular basis, see below.

SCHOOL OF EDUCATION ADVISING

Academic Advising in the School of Education

Dedicated to supporting and promoting student success, academic advisors (https://advising.education.wisc.edu/) are here to assist students with the adjustment to college, understanding their degree and career goals, and connecting them to resources. Advisors support prospective and current School of Education students in all programs through:

- Course selection
- Mentoring and advocacy for underrepresented and international students
- Understanding degree requirements and progression
- Interpreting academic policies
- Helping students recognize their strengths and suggesting ways to expand their skills
- Expanding learning through activities such as study abroad, volunteering/work/internship, and by assuming leadership roles

Advising appointments are available in person, virtually, or over the phone. Current students schedule appointments through the Starfish app (https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/) in MyUW. Appointments can also be made by calling 608-262-1651, or in person in Room 139 Education Building.

Academic Dean Support (https://advising.education.wisc.edu/academic-dean-support/) staff are also here for you when facing academic or personal challenges. We provide undergraduate School of Education students support, problem-solving, advocacy, resources, and approve exceptions to policies.

Career Advising in the School of Education

Through individual appointments, events, courses, and online resources, the Career Center provides students and alumni with the tools needed to be successful in their career development.

Career and Internship Advisors are prepared to help students with:

- Exploration of career and academic pathways (https://careercenter.education.wisc.edu/explore-career/)
- Resumes
- Cover letters
- Job/Internship search
- Interview preparation
- Mock interviews
- Graduate school search, applications and decisions
- Negotiating job or internship offers
- Professional networking
- Connecting with employers

Students are encouraged to meet with their Career and Internship Advisor early in their college experience to take full advantage of the resources and support available.

To make an appointment: log into Starfish (https://wisc.starfishsolutions.com/starfish-ops/) from the MyUW dashboard.

For more information, visit the School of Education Career Center website (https://careercenter.education.wisc.edu/) or reach out at career-center@education.wisc.edu.

Information about common career pathways, ways to get involved and gain experience, and transferrable skills developed through this major can be found on the School of Education Career Center's Art Pathways (https://careercenter.education.wisc.edu/explore-career/art-career-pathways/) webpage.

WISCONSIN EXPERIENCE

WISCONSIN EXPERIENCE

UW–Madison's vision for the total student experience, the Wisconsin Experience (https://wisconsinexperience.wisc.edu/about/), combines learning in and out of the classroom. Tied to the Wisconsin Idea (https://www.wisc.edu/wisconsin-idea/) and steeped in long-standing institutional values – the commitment to the truth, shared participation in decision-making, and service to local and global communities – the Wisconsin Experience describes how students develop and integrate these core values across their educational experience.

UW–Madison encourages students to mindfully engage in four core concepts throughout their time on campus: Empathy & Humility, Relentless Curiosity, Intellectual Confidence, and Purposeful Action (https://wisconsinexperience.wisc.edu/intellectual-confidence/).

Since its inception, the School of Education has embraced the concepts of the Wisconsin Experience, providing opportunities for students to learn in venues beyond the traditional classroom. Our students also independently seek out related activities and experiences, thus creating their own unique Wisconsin Experience.

ART AND THE WISCONSIN EXPERIENCE

The UW–Madison art department provides a wide range of opportunities for students on campus and beyond. Available resources include courses that connect with the community, job opportunities, the chance to show work, and the ability to manage campus student organizations.

Visiting Artists

The art department is unique in its ability to bring in weekly visiting artists through the Art Colloquium (https://art.wisc.edu/public-programs/) series. A professional national or international artist comes to campus to provide an artist's talk, studio visits, and general conversation about art-making with students. Individual courses often bring in visiting artists throughout the semester to provide workshops on unique techniques from those who specialize in particular processes.

Career Advising and Internships

The School of Education Career Center (https://careercenter.education.wisc.edu/) has a designated advisor for art students who can provide connections with hourly campus employment, internships, and career options after graduation. Art advisors host informational town halls for students to learn best practices in art entrepreneurship, applying to graduate programs, and how to get involved in Art student organizations. The BFA capstone course also provides detailed instruction in writing a resume, cover letter, grant proposals, residency applications, and portfolio websites.

Service Learning

The art department offers a two-credit Service Learning in the Arts course in which students examine community-based art practices and the roles artists play in fostering civic engagement and cultural development. In partnership with Madison-area art organizations (https://art.wisc.edu/art-at-uw/local-arts/), students apply service-learning principles by creating impactful projects that address identified community needs, integrating academic study with hands-on experience.

Student Organizations

Student organizations are an excellent opportunity for art majors to establish connections with working artists, host workshops for the community, and raise funds for travel. Fresh Hot Press (printmaking), AIGA (graphic design), Mad Gaffers (glassblowing), Mad Metals (Metals), and Art Club are just a few of the art-related options (https://art.wisc.edu/art-at-uw/student-orgs/). Student organizations are led by undergraduates and graduate students, with several using fundraising throughout the year to attend national conferences. Overall, there are multiple ways for undergraduates to refine their professional and technical skills in relation to their future career goals in the arts through student organizations.

Exhibiting Artwork

It is important for any artist to consistently show their work, and the art department does its part to provide this professional development to our students. Undergraduates may reserve one of our three large-scale galleries to install and document their work for future exhibition submissions. During the department's Fall Open House, art student organizations exhibit together in one of its premier galleries. In the spring term, the BFA capstone course culminates in a group exhibition across two galleries, where students develop skills in collaboration, exhibition planning, installation, and lighting. Faculty guide participating students to clearly articulating the concepts and intentions behind their exhibited work. The art department works with students in many ways to help promote their work and develop the skills necessary to establish a thriving career in the world of art.

Study Abroad

The art department designates the Santa Reparata Institute for Studio Art (SRISA) (https://studyabroad.wisc.edu/program/?programId=201) program as one that meets the department's philosophy of teaching and learning for Art majors. Located in the heart of Florence, Italy, this English-speaking program allows students to explore the rich tradition of Italian Art and offers the most access to courses that can satisfy art program requirements. In the summer, two Art faculty lead UW City as Studio: Drawing in Portugal (https://studyabroad.wisc.edu/program/?programId=330421), one of the three-credit study abroad programs. Through visual and drawing skills, students acquire immersive knowledge through their interaction with the city and its natural and built environments as a venue that functions as a "studio."

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

Information related to scholarships, academic and career advising, study abroad opportunities, student well-being, and other resources for students in the School of Education can be found on the School's Resources (p. 1680) page.

ART: GRAPHIC DESIGN, BS

REQUIREMENTS

As an inherently interdisciplinary practice, graphic design plays an important role at every level of contemporary culture. Graphic design courses deliver skills and expertise that are in demand for all graphic design and related communications fields. Students develop abilities to think critically while working seamlessly across disciplines. In current and future iterations of the field, graphic designers must function as the "fusion" between art, business, engineering, research, and science.

Graduates of the Graphic Design named option programs will have experienced a range of forms and media that provides professional preparation, exhibition experience, as well as the development of unique intellectual and visual voice. Graduating students will also possess the flexibility to adapt to a changing, unpredictable world where the methods of communication will continuously evolve and expand.

The named option requirements listed here are components of the BS Art (https://guide.wisc.edu/undergraduate/education/art/art-bs/#requirementstext) degree requirements.

AESTHETICS REQUIREMENTS – GRAPHIC DESIGN OPTION

Code	Title	Credits
ART 108	Foundations of Contemporary Art (component of the Foundations Program)	3
ART 208	Current Directions in Art (component of the Foundations Program)	3
ART 438	History of Graphic Design and Typography	3
Select one additional courses from the following:		4
ART HIST 201	History of Western Art I: From Pyramids to Cathedrals	
ART HIST 202	History of Western Art II: From Renaissance to Contemporary	
ART HIST 205	Global Arts	

MAJOR REQUIREMENTS – GRAPHIC DESIGN OPTION

Complete a minimum of 45 studio credits, including the specific coursework below. No more than 58 studio credits will be counted toward the minimum 120 credits required for the BS degree. Thus, if a student wishes to graduate with the minimum of 120 credits, 62 of these credits must be "non-studio" coursework.

Major residency requirement: Students completing the BS degree must complete at least 24 credits of major studio coursework in residence on the UW–Madison campus. All graphic design coursework must be completed in residence.

Art and BFA degree students have priority access to studio courses. Note: Some courses are offered for 3 or 4 credits; it is preferred that the course be taken for 4 credits.

REQUIRED STUDIO FOUNDATION COURSES – GRAPHIC DESIGN OPTION

Complete the following:

Code	Title	Credits
ART 102	2D Foundations	3
ART 104	3D Foundations	3

ART 107	Introduction to Digital Forms	3
ART 212	Drawing Foundations	3

REQUIRED STUDIO BREADTH COURSES - GRAPHIC DESIGN OPTION

Complete one course in each of the Graphic Design, 2D, 3D, and 4D areas. Students will also take ART 508 at least once and complete a 500-level or 600-level art studio course in graphic design.

Graphic Design

Code	Title	Credits
ART 346	Basic Graphic Design	4

2D Studio

Select one of the following:

Code	Title	Credits
ART 222	Introduction to Painting	3-4
ART 232	Life Drawing I	4
ART 242	Watercolor I	3-4
ART 302	Color	4
ART 312	Intermediate Drawing I	3-4

3D Studio

Select one of the following:

Code	Title	Credits
ART 214	Sculpture I	4
ART 224	Ceramics I	4
ART 244	Art Metal I	3-4
ART 334	Wood Working	3-4
ART 343	Metal Fabrication and Welding in Sculpture	3-4
ART 354	Glassworking	4
ART 454	Neon: Light as Sculpture	4

4D Studio

Select one of the following:

Code	Title	Credits
ART 309	Digital Art and Code	4
ART 318	Introduction to Video, Performance & Installation Art	4
ART 338	Service Learning in Art	2
ART 409	Digital Fabrication Studio	4
ART 428	Digital Imaging Studio	4
ART 429	3D Digital Studio I	4
ART 470	Special Topics in 4D Art	3-4
ART 521	Installations and Environments	4
ART 531	Screen Performance	3-4

VISITING ARTIST LECTURE SERIES - GRAPHIC DESIGN OPTION

Complete the following:

Code	Title	Credits
ART 508	Colloquium in Art (Students are encouraged to enroll in this visiting artist lecture series multiple times)	1

ADDITIONAL STUDIOS - GRAPHIC DESIGN OPTION

Complete 12 Graphic Design elective credits from the following list, **to include at least one 500 or 600 level course.**

Code	Title	Credits
ART 333	Intro to Responsive Web Design	4
ART 356	Coding for Graphic Design	4
ART 458	Graphic Design for Branding and Identity	4
ART 463	Information Graphics	4
ART 465	Graphic Design for Packaging	4
ART 467	Graphic Design for Posters	4
ART 525	Advanced Typography	4
ART 546	Graphic Design for Publications	4
ART 556	Graphic Design for Interactive Media	4
ART 558	Product Development for Graphic Design	4
ART 560	Graphic Design Senior Thesis Project and Exhibition	4
ART 563	Graphic Design for Games	4
ART 564	Graphic Design for Accessibility	4
ART 565	Typeface Design	4
ART 568	Motion Typography	4
ART 575	User Experience for Graphic Design	4
ART 656	Design Portfolio and Professional Practice	4

ELECTIVE STUDIO COURSES

Select additional elective studio courses (https://guide.wisc.edu/courses/art/) to reach the minimum of 45 credits.

GPA AND OTHER GRADUATION REQUIREMENTS

GRADUATION REQUIREMENTS

Requirements are based on UW–Madison coursework.

- 2.5 minimum cumulative grade point average. This may be modified by the Last 60 Credits Rule.
- Cumulative major grade point average: 2.75 cumulative grade point average in all major studio coursework.
- Upper-level major coursework: 2.75 cumulative grade point average in all upper-level major coursework (Art courses numbered 214 and above, excluding ART 236 and ART 338).
- Major Residency: Must complete at least 24 credits of major coursework in the UW-Madison Art Department. All graphic design coursework must be completed in residence.
- Senior Residency: Degree candidates must complete their last 30 credits in residence on the UW–Madison campus, excluding retroactive credits and credits granted by examination.

- Total Credits: A minimum of 120 credits to include at least 62 non-studio credits are required for graduation in the Art–BS degree program.

DEGREE AUDIT (DARS)

UW–Madison uses "DARS" to document a student's progress toward the completion of their degree, including any additional majors and certificates. A DARS (Degree Audit Reporting System) report shows all the requirements for completing a degree and, against courses that are planned or completed, shows the requirements that have been met, and those that are unmet. A report can offer suggestions about courses that may be taken to meet specific requirements and can assist in the academic planning and enrollment process. Students can access a DARS report in the Course Search & Enroll app or Student Center via My UW.

DARS also has a "what-if" function. This feature makes it possible to request a DARS report as if pursuing another program, major, or certificate. It is an excellent tool if considering a new or additional area of study. School of Education students in a pre-professional classification such as Pre-Elementary (PRE) or Pre-Kinesiology should request a "what if" DARS report of their professional program of interest. For example, Pre-Elementary Education (PRE) students will request Elementary Education K-9; Pre-Kinesiology (PKN) students will request the Kinesiology report. Minors have their own DARS programs and are run separately from the main degree audit.

More information (including tutorials) on how to request and read regular and what-if DARS reports is available under the Resources tab on the Office of the Registrar's website. (https://registrar.wisc.edu/dars/)

DARS is not intended to replace student contact with academic advisors. It creates more time in an advising appointment to discuss course options, research opportunities, graduate school, or issues of personal interest or concern to students.

DARS is used as the document of record for degree program, major, and certificate completion in the School of Education.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

Bachelor of Science in Art: Graphic Design Option

Sample Four-Year Plan

This four-year sample graduation plan is designed to guide your course selection throughout your academic career; it does not establish a contractual agreement. Use it along with your DARS report, the Guide, and the Course Search and Enroll app to create a four-year plan reflecting your placement scores, incoming credits, and individual interests. Consult with your academic advisor(s) to develop a personalized plan of study and refer to the Guide for a complete list of requirements. You will likely revise your plan several times during your academic career here, based on your activities and changing academic interests.

Total Credits 120

[1] At least 62 "non-studio" credits must be taken to complete the BS Art degree. Aesthetics courses are considered to be non-studio. No more than 58 studio credits can be applied toward the 120 credits.

GRAPHIC DESIGN, CERTIFICATE

The Graphic Design Certificate allows students from across campus, regardless of their major or degree program, to engage in a meaningful and rigorous sequence of coursework introducing them to the field of graphic design. Students should work closely with their major advisor to see how the certificate requirements can fit into their degree plan. Note: Most art courses do not carry the LAS (L&S) designation.

An inherently interdisciplinary practice, graphic design plays an important role at every level of contemporary culture. Graphic designers function as the "fusion" between art, business, engineering, research, and science fields. Students intending to pursue a sole career in graphic design should instead select the Graphic Design named option in either the BS-Art (https://guide.wisc.edu/undergraduate/education/art/art-bs/#text) or Art BFA (https://guide.wisc.edu/undergraduate/education/art/art-bfa/) degree program. Contact an advisor in the Art Department to explore these majors.

Students must complete a required foundations course with a letter grade of B or higher before being able to declare the certificate.

Due to the required sequencing of courses, a minimum of four semesters (excluding summers) are usually necessary to complete the certificate; please plan accordingly.

HOW TO GET IN

HOW TO GET IN

DECLARATION PROCESS

Students intending to complete the Graphic Design certificate can find the declaration form on the School of Education's Certificate Programs page (https://education.wisc.edu/academics/certificates/). The declaration for this certificate program can be submitted at any time during the academic year. At least four regular (non-summer) semesters remaining after declaring are required to complete the Graphic Design certificate on time.

ELIGIBILITY

Undergraduate students in good academic standing, with a cumulative GPA of 2.50 or higher, and who have completed either ART 102 2D Foundations or ART 107 Introduction to Digital Forms with a grade of B or higher, may declare this certificate. University Special students are also eligible to complete this certificate if they started at UW-Madison and graduated before completing the requirements.

Students participating in the Art–BS, Art Education, or Art–BFA degree programs may not declare this certificate. Auditors are also not eligible.

REQUIREMENTS

REQUIREMENTS

The Graphic Design Certificate requires a minimum of 18 credits as distributed below. At least 12 credits must be completed in residence in the Art Department. Study abroad credits do not count toward the residency requirement.

Completion of the certificate requires a 2.75 grade point average across all certificate coursework.

Code	Title	Credits
To declare the certificate, complete either course with a grade of B or better		
ART 102	2D Foundations (preferred)	3
or ART 107	Introduction to Digital Forms	
After certificate declaration, complete both courses		
ART 346	Basic Graphic Design	4
ART 438	History of Graphic Design and Typography	3
After completing ART 346 and ART 438, complete at least 8 additional credits from the following		**8**
ART 333	Intro to Responsive Web Design	
ART 356	Coding for Graphic Design	
ART 458	Graphic Design for Branding and Identity	
ART 463	Information Graphics	
ART 465	Graphic Design for Packaging	
ART 467	Graphic Design for Posters	
ART 525	Advanced Typography	
ART 546	Graphic Design for Publications	
ART 556	Graphic Design for Interactive Media	
ART 558	Product Development for Graphic Design	
ART 560	Graphic Design Senior Thesis Project and Exhibition	
ART 563	Graphic Design for Games	
ART 564	Graphic Design for Accessibility	
ART 565	Typeface Design	
ART 568	Motion Typography	
ART 575	User Experience for Graphic Design	
Total Credits		**18**

UNDERGRADUATE/SPECIAL STUDENT CERTIFICATE

This certificate is intended to be completed in the context of an undergraduate degree and for those seeking this certificate that is preferred. For students who have substantially completed this certificate at UW–Madison and may need one or two courses to complete the certificate, they may do so immediately after completion of the bachelor's degree by enrolling in the course as a University Special (nondegree) student. The certificate must be completed within a year of completion of the bachelor's degree. Students should keep in mind that University Special students have the last registration priority and that may limit availability of desired courses. Financial aid is not available when enrolled as a University Special student to complete an undergraduate certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Correctly recognize and identify important eras, developments, movements, and theories in historical and contemporary design practice.
2. Recognize, develop and consistently employ the elements and principles of effective graphic design and typography in their own studio work, and will recognize it in the work of other artists.
3. Demonstrate technical and conceptual proficiency and will apply critical thinking skills in order to contextualize their practice in the contemporary design arena.
4. Understand the steps, tools, and skills necessary for participating in professional activities pertaining to graphic design and typography.
5. Develop a strong work ethic driven by both logical and inventive working process.

CURRICULUM AND INSTRUCTION

The Department of Curriculum and Instruction is one of the premier research and teaching departments devoted to understanding the complex world of teaching, learning, curriculum, and policy. Faculty pursue a diverse array of research combining experience in schools with expertise drawn from a range of disciplinary fields. This world-class research is the foundation of its work preparing future teachers and the next generation of educational researchers.

The department offers an undergraduate degree program in Elementary Education (p. 1753). Students interested in Elementary Education can pursue one of five dynamic certification options:

Kindergarten through Ninth Grade (K-9) (p. 1769) **-** Students completing this core program option will be certified to teach general education at the grade levels of K-9 and will also be eligible to teach in a 4K classroom.

- English as a Second Language (ESL) K-12 (p. 1773) and also K-9 (p. 1769) **-** A minor in English as a Second Language can be added to the core K-9 program. Students selecting this combination will be certified to teach general education at the grade levels of K-9 (including eligibility for 4K) and also English as a Second Language in grades K-12.
- Early Childhood Education (ECE) (p. 1751) and also K-9 (p. 1769) **-** A minor in Early Childhood can also be added to the core K-9 program. Students selecting this combination will be certified to teach general education at the grade levels of K-9 (including eligibility for 4K) and also in Early Childhood (birth through grade 3).
- Early Childhood Education (p. 1751), and English as a Second Language K-12 (p. 1773) and K-9 (p. 1769) - Students may opt to complete both the ECE and ESL minors in combination with K-9 certification. Successful students receive certification in all three areas: general education in grades K-9 (including eligibility for 4K), Early Childhood (birth through grade 3), and also English as a Second Language in grades K-12.
- Kindergarten through Ninth Grade and also Special Education K-12 (Dual Certification) (p. 1941) - Students interested in both Elementary and Special Education should investigate the Elementary Education and Special Education degree, housed in the Department of Rehabilitation Psychology and Special Education. Upon completion, students are certified in general education at the grade levels of K-9 (including eligibility for 4K), and also Special Education in grades K-12.

Three certificate programs, Arts and Teaching (p. 1747), Game Design (p. 1777), and Preparing to Teach Abroad (p. 1792), may be completed by undergraduates from across the campus.

DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/CERTIFICATES

Undergraduate programs are offered in the areas listed below. Upon successful completion of a program leading to certification, candidates are certified in their respective subject and grade level and become eligible for a Wisconsin teaching license obtained through the Wisconsin Department of Public Instruction.

Note: Students at UW–Madison become certified to teach secondary English, Mathematics, Science, Social Studies, and World Languages only through graduate-level coursework, not as undergraduates. Information about the Master's degree program is available at UW–Madison Teach (https://uwteach.education.wisc.edu/).

- Arts and Teaching, Certificate (p. 1747)
- Biology, Minor (p. 1748)
- Chemistry, Minor (p. 1750)
- Early Childhood Education, Minor (p. 1751)
- Earth Science, Minor (p. 1752)
- Economics, Minor (p. 1752)
- Elementary Education, BSE (p. 1753)
- English as a Second Language, Minor (p. 1773)
- English Language Arts, Minor (p. 1773)
- English, Minor (p. 1776)
- Game Design, Certificate (p. 1777)
- Geography, Minor (p. 1778)
- History, Minor (p. 1781)
- Mathematics and Science Dual, Minor (p. 1785)
- Mathematics Specialized, Minor (p. 1788)
- Mathematics, Minor (p. 1789)
- Physics, Minor (p. 1789)
- Political Science, Minor (p. 1790)
- Preparing to Teach Abroad, Certificate (p. 1792)
- Psychology, Minor (p. 1794)
- Science Specialized, Minor (p. 1795)
- Social Studies, Minor (p. 1800)
- Sociology, Minor (p. 1809)

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

Information about scholarships, academic and career advising, study abroad opportunities, student diversity services, and other resources for students in the School of Education can be found on the school's Resources (p. 1680) page.

ARTS AND TEACHING, CERTIFICATE

The Certificate in Arts and Teaching is a great opportunity for undergraduate art-makers from all disciplines to incorporate teaching into their professional practice. The teaching artist is a valued professional in a range of learning settings from museums to theatre companies to providing support for school-based arts programs. We are excited to offer undergraduates from across campus the opportunity to learn about theories of teaching and learning, to work alongside future classroom teachers and other arts practitioners, and to get the opportunity to try out teaching artist work in a community-based learning setting. We also strongly encourage future teachers who want to meaningfully incorporate the arts into their teaching practice to be a part of the certificate program.

The program offers a range of experiences in introductory education and arts practice, including a teaching artist practicum. This program is for all student-artists, those who are majoring in the arts and those who practice their art form in their lives outside of the classroom. While you will not earn a teaching license to teach art in schools, the completion of this certificate will likely make you more competitive for jobs that require teaching experience in the arts, including afterschool programs, museum education, non-profit organizations, and private arts studios.

HOW TO GET IN

HOW TO GET IN

All current UW-Madison undergraduates are eligible to complete the Certificate in Arts and Teaching. Students should meet with the certificate advisor to discuss their intention to pursue the certificate. Appointments may be arranged via email. To declare the certificate, students must also complete the declaration form located on the School of Education's Certificate Programs (https://education.wisc.edu/academics/certificates/) page.

REQUIREMENTS

REQUIREMENTS

The Certificate in Arts and Teaching requires the following course distribution for a minimum of 15 credits. At least 8 credits must be completed in residence. Students must complete two required courses, one course in Foundations of Teaching and Learning, and two courses from the Arts listing. Students are encouraged to take Arts courses that will broaden their artistic practice.

Completion of the certificate requires a minimum GPA of 2.0 in certificate coursework.

REQUIRED COURSES

Code	Title	Credits
CURRIC 328	Arts Integration for Teaching and Learning	3
CURRIC 329	Teaching Artist Practicum	3

FOUNDATIONS OF TEACHING AND LEARNING

Select 3 credits from the following:

Code	Title	Credits
CURRIC 209	Digital Media and Literacy	3
CURRIC 305	Integrating the Teaching of Reading with Other Language Arts	3
CURRIC 331	Taking Education Outside of School	3
CURRIC 364	Introduction to Education	3
ED PSYCH 301	How People Learn	3
ED PSYCH 320	Human Development in Infancy and Childhood	2-3
ED POL 200	Race, Ethnicity, and Inequality in American Education	3
ED POL 300	School and Society	3
ED POL 450	Rethinking "After-School" Education	3

ARTS COURSES

Select 6 credits from the following:

Code	Title	Credits
ART 100	Introduction to Art	3
ART 102	2D Foundations	3
ART 104	3D Foundations	3
ART 107	Introduction to Digital Forms	3
ART 108	Foundations of Contemporary Art	3
ART 112	Drawing for Non-Art Majors	3
ART 176	Digital Photography for Non-Art Majors	4
ART 208	Current Directions in Art	3
ART 212	Drawing Foundations	3
ART 214	Sculpture I	4
ART 222	Introduction to Painting	3-4
ART 224	Ceramics I	4
ART/DS 226	Textile Design: Off-Loom Construction	3
ART/DS 229	Textile Design: Weaving I	3
ART 232	Life Drawing I	4
ART 236	Bascom Course	3
ART 242	Watercolor I	3-4
ART 244	Art Metal I	3-4
ART 302	Color	4
ART 306	Relief Printmaking	3-4
ART 307	Making Comics 1	4
ART 309	Digital Art and Code	4

ART 312	Intermediate Drawing I	3-4
ART 314	Sculpture II	4
ART 316	Lithography	4
ART 318	Introduction to Video, Performance & Installation Art	4
ART 322	Intermediate Painting I	4
ART 324	Ceramics II	4
ART 326	Etching	4
ART 332	Life Drawing II	4
ART 334	Wood Working	3-4
ART 336	Serigraphy	3-4
ART 338	Service Learning in Art	2
ART/DANCE 341	Sound Design for the Performing and Visual Arts	3
ART 342	Watercolor II	4
ART 343	Metal Fabrication and Welding in Sculpture	3-4
ART 346	Basic Graphic Design	4
ART 348	Introduction to Digital Printmaking	4
ART 354	Glassworking	4
ART 356	Coding for Graphic Design	4
ART/THEATRE 366	Stage Lighting I	3
ART/THEATRE 372	Set Design I	3
ART 376	Darkroom Photography	4
ART 393	Internships in Art	1

ART ED 323	Foundations in Art Education	3
ART ED 324	Methods in Art Education	3
DANCE 156	Movement as Material Through Improvisation	2
DANCE 131	Somatic Theory and Practices	2
DANCE 157	Introduction to Movement Analysis	2
DANCE 231	Introduction to Dance/Movement Therapy	3
DANCE 373	Introduction to Dance and Community	3
DS 341	Design Thinking for Transformation	3
ENGL 207	Introduction to Creative Writing: Fiction and Poetry Workshop	3
ENGL 307	Creative Writing: Fiction and Poetry Workshop	3
ENGL 407	Creative Writing: Nonfiction Workshop	3
ENGL 408	Creative Writing: Fiction Workshop	3
ENGL 409	Creative Writing: Poetry Workshop	3
M H R/ INTEGART 632	Introduction to Arts Entrepreneurship	3
M H R/ INTEGART 636	Entrepreneurship in Arts & Cultural Organizations	3
MUSIC 151	Basic Concepts of Music Theory	3
MUSIC 240	Interplay between Music, Art, and Society	3
MUSIC 497	Special Topics in Music	1-3
CURRIC/SLAVIC/ THEATRE 362	Drama for Teaching and Learning	3
THEATRE 150	Acting I: Introduction to Acting	3
THEATRE 200	Acting Skills for Life	2
THEATRE 219	Undergraduate Topics inTheatre and Drama	1-3
THEATRE 260	Producing Theatre	3
THEATRE 357	Introduction to Theatre for Cultural and Social Awareness	3

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Gain understanding of the theories of teaching and learning that guide informal learning environments
2. Experience a breadth of artistic practice, including those outside a student's primary artistic discipline
3. Develop a framework for arts teaching in informal learning environments
4. Create an arts program for an informal learning environment that integrates theories of teaching and learning with disciplinary arts practice

BIOLOGY, MINOR

The Biology minor no longer admits new students after Fall 2027 and the program will be discontinued Fall 2029. Students already admitted may only complete and be awarded this minor through Summer 2029. If you have any questions please contact the program.

This minor may only be completed by students admitted to the Elementary Education (p. 1753) or the Elementary Education and Special Education (p. 1941) programs. A minor is not required to complete either program.

Minors provide a depth of study in a particular area of interest and also inform classroom instruction. The completion of a minor is required to teach middle school in some states and may benefit students particularly interested in teaching at this level.

Students may wish to consult with a biology undergraduate advisor (http://biologymajor.wisc.edu/advising/) to discuss course selection and other issues related to this field of study. The Biology Major website (http://biologymajor.wisc.edu/) is also a good resource, providing information about areas of study within biology and upcoming biology-related activities on campus. Biology is offered as a major in both the College of Letters & Science and the College of Agricultural and Life Sciences.

Upon completion, the subject area of the minor will be posted on the UW–Madison transcript. Students will not receive an additional certification or license in the subject area. The Wisconsin Department of Public

Instruction does not offer content licenses in association with the Elementary Education or Special Education teaching licenses.

HOW TO GET IN

HOW TO GET IN

The Biology minor no longer admits new students after Fall 2027 and the program will be discontinued Fall 2029. Students already admitted may only complete and be awarded this minor through Summer 2029. If you have any questions please contact the program.

This minor may only be declared by students completing the Elementary Education or the Elementary Education and Special Education programs. To declare the minor, contact your academic advisor in Education Student Services any time after program admission.

REQUIREMENTS

REQUIREMENTS

The Biology minor requires a minimum of 24 credits. A minimum cumulative grade point average of 2.75 is required, based on all Biology minor coursework taken on the UW–Madison campus. Biocore sequence coursework may also be used to meet these requirements; consult with an advisor in Education Student Services.

Discipline-related course work is also required, but not calculated into the minor credits or GPA.

REQUIRED DISCIPLINE-RELATED COURSES

Code	Title	Credits
Select a minimum of 6 credits in Mathematics (MATH) and/or Statistics (STAT)		
Select one of the following:		5-10
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	
CHEM 109	Advanced General Chemistry	
CHEM 115 & CHEM 116	Chemical Principles I and Chemical Principles II	
Select one of the following:		8-10
PHYSICS 103 & PHYSICS 104	General Physics and General Physics	
PHYSICS 201 & PHYSICS 202	General Physics and General Physics	
PHYSICS 207 & PHYSICS 208	General Physics and General Physics	

MINOR REQUIREMENTS

Introductory Biology

Select one of the following options:

Code	Title	Credits
Option 1: [1]		
BIOLOGY/ ZOOLOGY 101	Animal Biology	3
BIOLOGY/ ZOOLOGY 102	Animal Biology Laboratory	2
BIOLOGY/ BOTANY 130	General Botany	5
Option 2:		
BIOLOGY/BOTANY/ ZOOLOGY 151	Introductory Biology	5
BIOLOGY/BOTANY/ ZOOLOGY 152	Introductory Biology	5

[1] Students earning Advanced Placement (AP) or International Baccalaureate (IB) Biology scores of 4 or above are given credit for BIOLOGY/BOTANY/ZOOLOGY 151 at UW–Madison. This course fulfills the entire 151–152 sequence. Students taking BIOLOGY/BOTANY/ ZOOLOGY 151 coursework at UW–Madison or transfer it from another campus must complete both BIOLOGY/BOTANY/ZOOLOGY 151 and BIOLOGY/BOTANY/ZOOLOGY 152 to complete the 151–152 sequence.

Genetics

Code	Title	Credits
GENETICS 466	Principles of Genetics	3

Electives

Complete biology elective coursework from the approved lists to reach a minimum of 24 credits. The courses must be numbered 300 and above and include at least one course from two of the following three areas: (1) Ecology, Evolution, Genetics, (2) Cell and Molecular Biology, and (3) Physiology. Additional courses may, with the consent of an advisor, be selected to meet the elective requirements.

Area 1: Ecology/Evolution/Genetics

Code	Title	Credits
AN SCI 610	Quantitative Genetics	3
BOTANY 300	Plant Anatomy [1]	4
BOTANY 305	Plant Morphology and Evolution [1]	4
BOTANY 330	Algae	3
BOTANY/ PL PATH 332	Fungi [1]	4
BOTANY 400	Plant Systematics [1]	4
BOTANY 401	Vascular Flora of Wisconsin [1]	4
BOTANY/ F&W ECOL 402	Dendrology: Woody Plant Identification and Ecology [1]	3
BOTANY 403	Field Collections and Identification [1]	1-4
BOTANY 422	Plant Geography	3
BOTANY 455	The Vegetation of Wisconsin [1]	4
BOTANY/ ZOOLOGY 460	General Ecology [1]	4
BOTANY/ PL PATH 563	Phylogenetic Analysis of Molecular Data	3
ZOOLOGY/ ENTOM 302	Introduction to Entomology [1]	4
ZOOLOGY/ ENVIR ST 315	Limnology-Conservation of Aquatic Resources	2
ZOOLOGY 316	Laboratory for Limnology-Conservation of Aquatic Resources [1]	2-3
ZOOLOGY/ENTOM/ M M & I/PATH-BIO 350	Parasitology	3

ZOOLOGY/ ENVIR ST/ F&W ECOL 360	Extinction of Species	3
ZOOLOGY/ ANTHRO/ BOTANY 410	Evolutionary Biology	3
ZOOLOGY 430	Comparative Anatomy of Vertebrates	5
ZOOLOGY/ BOTANY 460	General Ecology [1]	4
ZOOLOGY/ ENVIR ST 510	Ecology of Fishes	3
ZOOLOGY/ ENVIR ST 511	Ecology of Fishes Lab [1]	2
ZOOLOGY/ F&W ECOL 520	Ornithology	3
ZOOLOGY/ F&W ECOL 521	Birds of Southern Wisconsin [1]	3
ENTOM 331	Taxonomy of Mature Insects [1]	4
ENTOM 468	Studies in Field Entomology [1]	3
GENETICS/ MD GENET 565	Human Genetics	3
GENETICS/ BIOCHEM/ MICROBIO 612	Prokaryotic Molecular Biology	3
GENETICS/ BIOCHEM/ MD GENET 620	Eukaryotic Molecular Biology	3
PLANTSCI 501	Principles of Plant Breeding	3
LAND ARC/ ENVIR ST 361	Wetlands Ecology [1]	3
PL PATH 300	Introduction to Plant Pathology [1]	4

[1] Courses are lab or field courses.

Area 2: Cell and Molecular Biology

Code	Title	Credits
MICROBIO 303	Biology of Microorganisms	3
M M & I/PATH-BIO 528	Immunology	3
BOTANY/ PL PATH 563	Phylogenetic Analysis of Molecular Data	3
PL PATH/M M & I/ ONCOLOGY 640	General Virology-Multiplication of Viruses	3
GENETICS/ BIOCHEM/ MICROBIO 612	Prokaryotic Molecular Biology	3
ZOOLOGY 430	Comparative Anatomy of Vertebrates	5
ZOOLOGY 570	Cell Biology	3

Area 3: Physiology

Code	Title	Credits
BOTANY 500	Plant Physiology	3-4
ZOOLOGY 611	Comparative and Evolutionary Physiology	3
ZOOLOGY 612	Comparative Physiology Laboratory [1]	2
ANAT&PHY 335	Physiology [1]	5

[1] Courses are lab or field courses.

CHEMISTRY, MINOR

The Chemistry minor no longer admits new students after Fall 2027 and the program will be discontinued Fall 2029. Students already admitted may only complete and be awarded this minor through Summer 2029. If you have any questions please contact the program.

This minor may only be completed by students admitted to the Elementary Education (p. 1753) or the Elementary Education and Special Education (p. 1941) programs. A minor is not required to complete either program.

Minors provide a depth of study in a particular area of interest and also inform classroom instruction. The completion of a minor is required to teach middle school in some states and may benefit students particularly interested in teaching at this level.

The Department of Chemistry (https://chem.wisc.edu/) is housed in the College of Letters & Science. Students may wish to consult with a chemistry undergraduate advisor (http://www.chem.wisc.edu/content/undergraduate-advising/) to discuss course selection and other issues related to this field of study.

Upon completion, the subject area of the minor will be posted on the UW–Madison transcript. Students will not receive an additional certification or license in the subject area. The Wisconsin Department of Public Instruction does not offer content licenses in association with the Elementary Education or Special Education teaching licenses.

HOW TO GET IN

HOW TO GET IN

The Chemistry minor no longer admits new students after Fall 2027 and the program will be discontinued Fall 2029. Students already admitted may only complete and be awarded this minor through Summer 2029. If you have any questions please contact the program.

This minor may only be declared by students completing the Elementary Education or the Elementary Education and Special Education programs.

To declare the minor, contact your academic advisor in Education Student Services any time after program admission.

PREREQUISITES

While there are no specific course requirements for declaring the minor, students can expect to take some of these courses before being eligible for enrolling in the minor coursework:

Code	Title	Credits
CHEM 341	Elementary Organic Chemistry	3
CHEM 343	Organic Chemistry I	3
MATH 222	Calculus and Analytic Geometry 2	4
PHYSICS 201	General Physics	5

or PHYSICS 207	General Physics	
PHYSICS 247	A Modern Introduction to Physics	5

Prerequisite coursework may be used to meet liberal studies requirements.

REQUIREMENTS

REQUIREMENTS

PREREQUISITE COURSEWORK

Students must complete prerequisite coursework (p. 1750) before enrolling in some of the required courses for minor.

MINOR REQUIREMENTS

A minimum cumulative grade point average of 2.75 is required, based on all chemistry minor coursework taken on the UW–Madison campus.

Complete at least 22 credits, including the following:

Code	Title	Credits
Introductory Chemistry		
Select one of the following:		5-9
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	
CHEM 109	Advanced General Chemistry	
CHEM 115	Chemical Principles I	
Analytical Chemistry		
Select one of the following:		4-5
CHEM 327	Fundamentals of Analytical Science	
CHEM 329	Fundamentals of Analytical Science	
CHEM 116 & CHEM 115	Chemical Principles II and Chemical Principles I	
Organic Chemistry		
Select one of the following options:		7-8
Option 1:		
CHEM 341	Elementary Organic Chemistry	
CHEM 342	Elementary Organic Chemistry Laboratory	
BIOCHEM 501	Introduction to Biochemistry	
Option 2:		
CHEM 343	Organic Chemistry I	
CHEM 344	Introductory Organic Chemistry Laboratory	
CHEM 345	Organic Chemistry II	
Inorganic Chemistry		**4**
CHEM 311	Chemistry Across the Periodic Table	
Physical Chemistry		**3**
CHEM 561	Physical Chemistry I	
or CHEM 665	Biophysical Chemistry	
Electives		
Complete Chemistry electives to total 22 credits [1]		

[1] CHEM 346 Intermediate Organic Chemistry Laboratory is recommended. BIOCHEM 501 Introduction to Biochemistry, CIV ENGR 500 Water Chemistry, CBE 440 Chemical Engineering Materials, CBE 540 Polymer Science and Technology, are also recommended elective options.

EARLY CHILDHOOD EDUCATION, MINOR

Students with a special interest in teaching young children should consider this minor, which leads to certification from birth through grade 3.

Early childhood educators have a unique opportunity to work with young children in their very first schooling experiences. They recognize that young children deserve a welcoming community, space to grow and learn, and deep respect from their teachers.

Students pursuing a minor in Early Childhood Education will take coursework focused on the foundations of early childhood education, asking questions such as "How have ideas about children and childhoods changed around the world and across time?" and "What are children's rights?" They will also take coursework focused on early childhood methods and classroom environments, exploring how they can teach in ways that support play, joy, and belonging across different content areas and in a variety of contexts.

The Early Childhood Education (ECE) minor was designed to be completed in tandem with the Elementary Education (p. 1753) certification program; only students also completing Elementary Education may declare this minor.

"My team of advisors, professors, and classmates has shaped me into an infinitely better student and future teacher than I ever could have imagined. With their consistent support, my passion for the field has only grown exponentially and inspired me to teach in new ways. As a budding educator, I only hope I can cultivate even a fraction of the warmth shown to me here for my students. I wouldn't change my major for the world!" -- Emma Farley, K-9/Early Childhood Education, Educational Policy Studies Certificate

HOW TO GET IN

HOW TO GET IN

This minor may only be declared by students completing the Elementary Education program. The declaration is made at the time of program application.

REQUIREMENTS

REQUIREMENTS

Complete the following course work in addition to the degree requirements of Elementary Education. Certification in Early Childhood Education requires the completion of the Elementary Education degree program. These courses will also fulfill the elective credits required for Elementary Education.

Code	Title	Credits
CURRIC 660	Foundations of Early Childhood Education	3

CURRIC 663	Learning Environments for Initial Education Programs	3
Total Credits		**6**

EARTH SCIENCE, MINOR

The Earth Science minor no longer admits new students after Fall 2027 and the program will be discontinued Fall 2029. Students already admitted may only complete and be awarded this minor through Summer 2029. If you have any questions please contact the program.

This minor may only be completed by students admitted to the Elementary Education (p. 1753) or the Elementary Education and Special Education (p. 1941) programs. A minor is not required to complete either program.

Minors provide a depth of study in a particular area of interest and also inform classroom instruction. The completion of a minor is required to teach middle school in some states and may benefit students particularly interested in teaching at this level.

Students may wish to consult with an advisor in the School of Education Student Services office, 139 Education Building, to discuss course selection and other issues related to this field of study. Current students can schedule a Student Services appointment online through the Starfish app (https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/) in MyUW. Appointments can also be made by calling 608-262-1651, or in person.

Upon completion, the subject area of the minor will be posted on the UW–Madison transcript. Students will not receive an additional certification or license in the subject area. The Wisconsin Department of Public Instruction does not offer content licenses in association with the Elementary Education or Special Education teaching licenses.

HOW TO GET IN

HOW TO GET IN

The Earth Science minor no longer admits new students after Fall 2027 and the program will be discontinued Fall 2029. Students already admitted may only complete and be awarded this minor through Summer 2029. If you have any questions please contact the program.

This minor may only be declared by students completing the Elementary Education or the Elementary Education and Special Education programs. To declare the minor, contact your academic advisor in Education Student Services any time after program admission.

REQUIREMENTS

REQUIREMENTS

Complete a minimum of 24 credits from the following departments: Astronomy (https://guide.wisc.edu/courses/astron/), Atmospheric and Oceanic Sciences (https://guide.wisc.edu/courses/atm_ocn/), Geoscience (https://guide.wisc.edu/courses/geosci/), and Geography (https://guide.wisc.edu/courses/geog/). Only Geography courses designated as Physical Science may be used toward the minor requirements. At least 10 credits of the 24 credits must be numbered 200 or above. A minimum 2.75 grade point average is required, based on all UW–Madison coursework included in this minor.

ECONOMICS, MINOR

The Economics minor no longer admits new students after Fall 2027 and the program will be discontinued Fall 2029. Students already admitted may only complete and be awarded this minor through Summer 2029. If you have any questions please contact the program.

This minor may only be completed by students admitted to the Elementary Education (p. 1753) or the Elementary Education and Special Education (p. 1941) programs. A minor is not required to complete either program.

Minors provide a depth of study in a particular area of interest and also inform classroom instruction. The completion of a minor is required to teach middle school in some states and may benefit students particularly interested in teaching at this level.

The Department of Economics (https://econ.wisc.edu/) is housed in the College of Letters & Science. Students may wish to consult with an economics undergraduate advisor to discuss course selection and other issues related to this field of study. Academic advising (https://econ.wisc.edu/undergraduate/find-academic-advising/) is available in Room 7238 of the Social Science Building. Email: econadvise@ssc.wisc.edu. (econadvise@ssc.wisc.edu)

Upon completion, the subject area of the minor will be posted on the UW–Madison transcript. Students will not receive an additional certification or license in the subject area. The Wisconsin Department of Public Instruction does not offer content licenses in association with the Elementary Education or Special Education teaching licenses.

HOW TO GET IN

HOW TO GET IN

The Economics minor no longer admits new students after Fall 2027 and the program will be discontinued Fall 2029. Students already admitted may only complete and be awarded this minor through Summer 2029. If you have any questions please contact the program.

This minor may only be declared by students completing the Elementary Education or the Elementary Education and Special Education programs. To declare the minor, contact your academic advisor in Education Student Services any time after program admission.

REQUIREMENTS

REQUIREMENTS

The Economics minor requires a minimum of 24 credits. A minimum cumulative grade point average of 2.75 is required, based on all Economics minor coursework taken on the UW–Madison campus.

Students completing the Economics minor will need calculus as a prerequisite to the required minor coursework. Mathematics coursework may be applied toward the liberal studies requirement.

Code	Title	Credits
Introduction to Microeconomics and Macroeconomics		
Complete one of the following:		4-7
ECON 101 & ECON 102	Principles of Microeconomics and Principles of Macroeconomics	
ECON 111	Principles of Economics-Accelerated Treatment	
Intermediate Microeconomic Theory		**3-4**
ECON 301	Intermediate Microeconomic Theory

ECON 522	Law and Economics	
ECON/ POP HLTH/ PUB AFFR 548	The Economics of Health Care	
ECON 664	Issues in International Trade	
ECON 666	Issues in International Finance	
If needed, additional Economics coursework to reach the minimim of 24 credits.		

ELEMENTARY EDUCATION, BSE

Elementary Education graduates receive a bachelor's degree, teacher certification in grades K-9, and an outstanding preparation to enter one of the most important careers ever: teaching children and youth! Our program prides itself on teaching educators to successfully work in a variety of grade levels and subject areas. Post-graduation job placement is exceptionally high.

The Elementary Education professional sequence is a two-year commitment, typically starting in the fall of the junior year, although some courses may be taken in the sophomore year. Coursework and field experiences lead to the capstone experience of student teaching.

Our graduates become teacher leaders committed to teaching all children effectively and advancing social and educational justice through classroom practices, personal interactions, and community engagement. Social justice is at the heart of our program, and our graduates are prepared to navigate the opportunities and complexities of our current educational system while also imagining and innovating beyond it. We teach research-based practices that assist teachers throughout their careers in education.

Students are encouraged to get involved as soon as they arrive on campus, and we have a variety of ways for this to happen. Many education-related courses are open to freshmen and sophomores. The School of Education's Buddy Program, in which new students are paired with a junior or senior in the program, helps students find a supportive community on our Big Ten campus. Many students volunteer in local schools and community organizations, including Schools of Hope (https://schoolsofhope.org/). We also welcome students to join our chapter of Aspiring Educators (https://www.facebook.com/AspiringEducatorsUWMadison/), a pre-professional educators association.

UW–Madison's Elementary Education program educates teachers to recognize, appreciate, and value the wide range of gifts diverse students bring to our increasingly multicultural, complex world. It contends directly with issues of equity in education, and supports teachers in creating classroom conditions where all children can thrive.

See what an Elementary Education professor and teacher candidate have to say about the Elementary Education Program (https://www.youtube.com/watch/?v=uCKP1VGrC3k) at UW–Madison.

CERTIFICATION OPTIONS

The Elementary Education area offers five certification options, giving students many choices as they plan their career paths. All certification options are designed to be completed in four semesters after program admission and some classes may be taken prior to starting the professional sequence. Students declare the Elementary Education major in winter, are admitted to the program and notified in the spring, and begin the four-semester professional sequence in the following fall. Admission to the program is effective in the summer.

Kindergarten through Ninth Grade (p. 1769) - Students completing this core program option will be certified to teach general education at the grade levels of K-9 and will also be eligible to teach in a 4K classroom.

- English as a Second Language (ESL) K-12 (p. 1773) and Kindergarten through Ninth Grade - A minor in English as a

Second Language can be added to the core K-9 program. Students selecting this combination will be certified to teach K-9 and English as a Second Language in grades K-12. Only fluency in English is needed to teach ESL.

- Early Childhood Education (ECE) (p. 1751) and Kindergarten through Ninth Grade - A minor in Early Childhood can also be added to the core K-9 program. Students selecting this combination will be certified to teach K-9 and Early Childhood Education from birth through Grade 3.
- Kindergarten through Ninth Grade, and Early Childhood Education, and English as a Second Language K-12 - Students may opt to complete both the ECE and ESL minors in combination with K-9 certification. Successful students receive certification in all three areas.
- Kindergarten through Ninth Grade and Special Education K-12 (Dual Certification) (p. 1941) - Students interested in both Elementary Education and Special Education should investigate the Elementary Education and Special Education degree housed in the Department of Rehabilitation Psychology and Special Education. Upon completion, students are certified in K-9 general education and Special Education in grades K-12.

THE TEACHER PLEDGE

The School of Education at UW–Madison currently offers a very unique financial opportunity for students in the Elementary Education program, The Teacher Pledge (https://tec.education.wisc.edu/teacher-pledge/). The School pledges to pay the equivalent of in-state tuition and fees for all teacher education students. In return, Elementary Education students pledge to work at a Wisconsin PreK-9 school for three to four years after graduation, depending on the location.

MADISON COLLEGE TRANSFER AGREEMENT

Madison College students should also investigate the transfer agreement (https://tec.education.wisc.edu/become-a-teacher/uw-madison-school-of-education-transfer-agreement/) between Madison College and UW–Madison. Students meeting the requirements of this agreement are guaranteed admission to UW–Madison's School of Education and to Elementary Education.

"The incredible faculty, responsive advisors, and close-knit education peers have truly blossomed my love for education. They have guided me on my professional journey to be a positive role model, a kind and compassionate teacher, and an active contributor to my community. I feel confident and prepared to guide and support future generations of learners thanks to the UW-Madison Elementary Education Program!"

--- Annika Ziperski, K-9/Early Childhood, Educational Policy Studies Certificate

HOW TO GET IN

HOW TO GET IN

Students typically enter UW–Madison as Pre-Elementary Education students (PRE) and spend the first two years completing liberal studies, general education, and some of the professional education requirements. Elementary Education is declared during the sophomore year for the final two years on campus.

On-campus students starting at UW-Madison in other majors can move to Pre-Elementary Education by completing a Pre-Professional Declaration (http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission/). A GPA of 2.50, based on all UW–Madison coursework or the last 60 credits (https://guide.wisc.edu/undergraduate/education/#policiesandregulationstext), is required to transfer into Pre-Elementary Education. It is not necessary to be a Pre-Elementary Education student before declaring the Elementary Education major.

ELIGIBILITY TO DECLARE ELEMENTARY EDUCATION

Elementary Education currently accepts declarations once a year, usually from December 1 – February 1. This period may be extended if additional spaces are available after the initial deadline. The on-campus declaration form is located on the School of Education's Undergraduate Admissions (http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission/) page, along with information about the declaration period, deadline, and current admission requirements. Students should consult this site prior to submitting a declaration, as this information may be modified from one declaration period to the next.

Off-campus students wishing to transfer directly into Elementary Education should complete the on-campus declaration and must also be admitted to UW-Madison. See Transfer Students and Students with a Bachelor's Degree, below.

Elementary Education students are admitted to the program once a year, effective in the summer. Selection is made the previous spring and students begin the four-semester professional sequence in the subsequent fall semester.

Current Eligibility Requirements:

- Earn 40 or more total credits by the end of the fall semester of the declaration year.
- Submit completed program declaration form(s), transcripts, and all other related declaration materials by the declaration deadline specified on the School of Education's Undergraduate Admissions (http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission/) page.
- While no minimum gpa is required to apply for program admission, students should be aware of the 2.75 gpa required for graduation.

Students will be provisionally admitted pending the completion of all eligibility requirements by the end of the spring semester of the declaration year.

TRANSFER STUDENTS AND STUDENTS WITH A PREVIOUS DEGREE

Transfer students and students who already hold a bachelor's degree must be admitted to UW-Madison to enroll in a School of Education program. Admission to the campus has its own application, admission process, and application deadlines; see Office of Admissions and Recruitment (http://www.admissions.wisc.edu) for campus application information.

Students wishing to enter directly into Elementary Education should complete both the on-campus declaration and the UW-Madison application. All eligibility requirements must be met. Transfers who do not meet the declaration eligibility criteria will be admitted to UW-Madison with the Pre-Elementary Education designation.

An applicant with a previous undergraduate degree will be admitted to Elementary Education as a second degree candidate or as a School of Education "Special Student," depending on their academic background.

Second degree candidates in the School of Education are changing their academic direction and wish to complete a degree that is unrelated to their first. A large number of credits are usually required to complete the new degree requirements and a second degree is awarded upon its completion; more information is available here (https://guide.wisc.edu/undergraduate/education/#policiesandregulationstext). Almost all students returning to pursue Elementary Education will be candidates for a second degree.

Admission as an Education Special Student indicates that the student has an interest in pursuing teacher certification in Elementary Education and studied this subject area extensively during their initial degree. This is rarely the case, however. A student enrolls in Elementary Education as a Special Student to complete the requirements that were not taken during the first degree; these are assessed on a case by case basis. Another degree is not awarded for this "certification only" coursework.

All off-campus students are strongly encouraged to meet with an advisor in the School of Education Student Services office in advance of their declaration. Consultations are available in person, virtually, or via telephone; email soeacademicservices@education.wisc.edu or call 608-262-1651 to schedule an appointment.

BACKGROUND CHECKS

Pursuant to State of Wisconsin law PI 34.018(2), the School of Education is required to administer a background check on all students entering teacher education programs. This check is intended to determine if the applicant has engaged in any behavior that endangers the health, welfare, safety, or education of PK-12 pupils. Local school districts frequently conduct background checks on teacher education students prior to the start of their in-classroom field work, and the Department of Public Instruction (DPI) will also conduct a background check on each applicant for a Wisconsin educator license.

Students should be aware that background checks may be initiated by other agencies or organizations when they are seeking employment or a professional license. School administrators have the authority to determine the appropriateness of a student placement and may choose not to permit a placement based on a student's background check results.

An individual who has been deemed ineligible to participate in field or clinical experiences based on the results of their background check may not be able to complete the requirements for their degree or certification. Students with questions about these processes should contact the Teacher Education Center, tec@education.wisc.edu.

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communication & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.

English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

SCHOOL OF EDUCATION DEGREE REQUIREMENTS

COMMUNICATION: BREADTH AND DEPTH

Courses designated as Communication A (Comm A) and Communication B (Comm B) help students learn how to gather and assess information from a variety of sources and to present different kinds of information, insight, and analysis to diverse audiences. Comm A courses focus on essential communication skills and Comm B courses teach research, writing, and communication skills within a disciplinary area.

Communication A	Complete either: • one course with the Communication A designation, or • satisfaction of Communication A based on UW Placement Test.
Communication B	One course with the Communication B designation.

QUANTITATIVE REASONING: BREADTH AND DEPTH

Quantitative Reasoning A courses provide students with foundational skills in mathematics, computer science, statistics or formal logic that are needed for dealing with quantitative information. In Quantitative Reasoning B courses, students use quantitative tools in the context of other disciplines or course material.

Quantitative Reasoning A	Complete either: • one course with the Quantitative Reasoning A designation, or • satisfaction of Quantitative Reasoning A based on UW Placement Test.
Quantitative Reasoning B	One course with the Quantitative Reasoning B designation.

LIBERAL STUDIES REQUIREMENTS

All students are required to complete a minimum of 40 credits of Liberal Studies (p. 1670) coursework. This requirement provides an opportunity to do some academic exploration beyond the scope of the major. Students take courses in areas of particular interest and also have an opportunity to sample the wide selection of courses offered across the university. Coursework is required in humanities, social studies (social science), science, and cultural and historical studies. Some elective coursework is also needed to reach the required number of credits.

The School of Education's Liberal Studies requirements can be used to satisfy the campus-wide Core General Education requirements. Communication A and B, and Quantitative Reasoning A and B coursework can also be used towards Core General Education and other requirements. Academic advisors can suggest courses that will count in multiple places.

A basic outline of the liberal studies is included below. Students must consult the detailed version of the requirements (p. 1670) for more information about course selection and how the liberal studies requirements apply to this major.

Are you interested in switching to the School of Education? If so, you should run a "what-if" DARS report. (https://kb.wisc.edu/registrar/94068/) It will show how many of these requirements you have already met and are unmet.

Humanities

Complete a minimum of 9 credits from these categories.

Literature	Complete a course with the Literature designation, minimum of 2 credits
Fine Arts	Complete a minimum of 2 credits from the list of courses below.
Humanities	Courses to total 9 Humanities credits. Select from: • Courses with the Humanities or Literature designation. • Fine Arts courses from the list below. • Courses with the Language courses designation. • ENGL 201 • ENGL 207 • COM ARTS 181

Fine Arts Courses

Liberal Studies Electives

Liberal Studies Electives	Complete additional liberal studies coursework as needed to reach the required 40 Liberal Studies credits.

PROGRAM STRUCTURE

Students of Elementary Education:

- Are exposed to a broad range of academic disciplines through *liberal studies* course work. The university-wide *General Education* requirements also encourage this breadth of study.
- Examine schools' relationship to society, the development of children and adolescents, and the processes of learning in their *education course work*.
- Study teaching methods and gain experience in schools through supervised field placements during their four-semester *professional sequence*.
- Complete *elective* coursework to reach the minimum of 120 credits required for the degree.

Practicum experiences provide a school-based setting for students to develop their professional and classroom skills. These part-time experiences generally begin a few weeks after the start of the semester and are approximately nine weeks in length. Concurrent registration in methods courses provide students with an opportunity to learn about, and then apply, teaching techniques in a classroom.

The *full-semester student teaching assignment* is the capstone experience of the professional sequence. Through it students expand upon the activities, responsibilities and expectations encountered during the practicum experiences. Student teachers will function as regular staff members in their assigned schools and also attend a seminar on campus one afternoon each week. Student teachers are required to follow the school day, school calendar, vacation days and policies of the school where they work.

PROGRAM OPTIONS - SELECT ONE

View as listView as grid

- **ELEMENTARY EDUCATION: KINDERGARTEN - 9TH GRADE (P. 1769)**

ELECTIVE COURSEWORK

Complete additional courses as necessary to reach the minimum of 120 credits required for the degree.

GPA AND OTHER GRADUATION REQUIREMENTS—REQUIRED FOR ALL PROGRAM OPTIONS

GRADUATION REQUIREMENTS

Students must complete all requirements and also obtain the endorsement of the program faculty to receive certification through UW–Madison. The State of Wisconsin requires that anyone wishing to teach in a public K–12 setting hold a valid teaching license issued through the Department of Public Instruction. In addition to completing a certification program, students must submit a separate application for this license. Requirements below are based on UW–Madison coursework.

- 2.75 cumulative grade point average. This may be modified by the Last 60 Credits Rule (p. 1662).
- 2.75 cumulative grade point average across all professional education courses (excluding practicum and student teaching).
- 2.75 cumulative grade point average in the major.
- 2.75 cumulative grade point average in the minor, if required.
- Minimum 120 credits (degree candidates only).

- Major residency: Degree candidates must complete at least 15 credits of upper-level major coursework (numbered 300–699) in residence on the UW–Madison campus.
- Senior residency: Degree candidates must complete their last 30 credits in residence on the UW–Madison campus. Student teaching and practicum are considered part of the 30 credits.

DEGREE AUDIT REPORTING SYSTEM (DARS)

UW–Madison uses "DARS" to document a student's progress toward the completion of their degree, including any additional majors and certificates. A DARS (Degree Audit Reporting System) report shows all the requirements for completing a degree and, against courses that are planned or completed, shows the requirements that have been met, and those that are unmet. A report can offer suggestions about courses that may be taken to meet specific requirements and can assist in the academic planning and enrollment process. Students can access a DARS report in the Course Search & Enroll app or Student Center via My UW.

DARS also has a "what-if" function. This feature makes it possible to request a DARS report as if pursuing another program, major, or certificate. It is an excellent tool if considering a new or additional area of study. School of Education students in a pre-professional classification such as Pre-Elementary (PRE) or Pre-Kinesiology should request a "what if" DARS report of their professional program of interest. For example, Pre-Elementary Education (PRE) students will request Elementary Education K-9; Pre-Kinesiology (PKN) students will request the Kinesiology report. Minors have their own DARS programs and are run separately from the main degree audit.

More information (including tutorials) on how to request and read regular and what-if DARS reports is available under the Resources tab on the Office of the Registrar's website. (https://registrar.wisc.edu/dars/)

DARS is not intended to replace student contact with academic advisors. It creates more time in an advising appointment to discuss course options, research opportunities, graduate school, or issues of personal interest or concern to students.

DARS is used as the document of record for degree program, major, and certificate completion in the School of Education.

ADDITIONAL CERTIFICATION REQUIREMENTS AND APPLYING FOR A LICENSE

In addition to completing UW–Madison's program requirements, students must also complete Wisconsin statutory requirements and certification requirements established by the Wisconsin Department of Public Instruction. Many of these requirements are embedded within the program's requirements and require no additional attention. The endorsement of the program coordinator/faculty is also required to receive certification through UW–Madison.

The State of Wisconsin requires that anyone wishing to teach in a public K–12 setting hold a valid teaching license issued through the Department of Public Instruction. In addition to completing a certification program, students must submit a separate application for this license.

Detailed information about certification requirements and applying for a license is available under Certification/Licensure. (https://guide.wisc.edu/undergraduate/education/curriculum-instruction/elementary-bse/#certificationlicensuretext)

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Create and implement developmentally appropriate and challenging learning experiences that reflect high expectations for every learner, supporting learners to (1) develop deep understanding of content areas and their connections, and (2) apply understanding in meaningful ways.
2. Select and/or create and sequence individually supportive and challenging learning experiences that reflect knowledge of individual learners, curriculum, pedagogies, and relevance to all learners and their families.
3. Use a variety of teaching strategies, and evidence-based technologies and information resources to engage learners in meaningful learning activities that lead to content knowledge, critical thinking, creativity, innovation, self-evaluation, and self-directed learning. Use evidence to continually evaluate the effectiveness of these practices, and adjust these as needed to improve learner outcomes.
4. Collaborate with others to create supportive, inclusive, linguistically responsive, and safe learning environments that help all learners meet high standards and reach their full potential.
5. Choose, modify, and/or create multiple forms of unbiased formative and summative assessments to measure each learner's progress toward instructional goals. Use assessment data gathered to respond to each learner's strengths and needs in relation to short and long-term goals. Reflect on and justify planning decisions and ground one's justifications in knowledge of learners, development, curriculum, pedagogies, and resources.
6. Use studies completed in science and mathematics, social sciences, the humanities, histories, languages, and the arts to inform and deepen their teaching of content areas and meeting learners' needs.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

Four-year plans related to different certification options are located under the Kindergarten - 9th Grade program option.

ADVISING AND CAREERS

ADVISING AND CAREERS

ELEMENTARY EDUCATION ADVISING

Students not yet admitted to Elementary Education meet with their assigned advisor in the School of Education Student Services office (see below). Students are assigned an additional departmental advisor when admitted to the professional component of their degree program.

SCHOOL OF EDUCATION ADVISING

Academic Advising in the School of Education

Dedicated to supporting and promoting student success, academic advisors (https://advising.education.wisc.edu/) are here to assist students with the adjustment to college, understanding their degree and career goals, and connecting them to resources. Advisors support prospective and current School of Education students in all programs through:

- Course selection
- Mentoring and advocacy for underrepresented and international students
- Understanding degree requirements and progression
- Interpreting academic policies
- Helping students recognize their strengths and suggesting ways to expand their skills
- Expanding learning through activities such as study abroad, volunteering/work/internship, and by assuming leadership roles

Advising appointments are available in person, virtually, or over the phone. Current students schedule appointments through the Starfish app (https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/) in MyUW. Appointments can also be made by calling 608-262-1651, or in person in Room 139 Education Building.

Academic Dean Support (https://advising.education.wisc.edu/academic-dean-support/) staff are also here for you when facing academic or personal challenges. We provide undergraduate School of Education students support, problem-solving, advocacy, resources, and approve exceptions to policies.

Career Advising in the School of Education

Through individual appointments, events, courses, and online resources, the Career Center provides students and alumni with the tools needed to be successful in their career development.

Career and Internship Advisors are prepared to help students with:

- Exploration of career and academic pathways (https://careercenter.education.wisc.edu/explore-career/)
- Resumes
- Cover letters
- Job/Internship search
- Interview preparation
- Mock interviews
- Graduate school search, applications and decisions
- Negotiating job or internship offers
- Professional networking
- Connecting with employers

Students are encouraged to meet with their Career and Internship Advisor early in their college experience to take full advantage of the resources and support available.

To make an appointment: log into Starfish (https://wisc.starfishsolutions.com/starfish-ops/) from the MyUW dashboard.

For more information, visit the School of Education Career Center website (https://careercenter.education.wisc.edu/) or reach out at career-center@education.wisc.edu.

WISCONSIN EXPERIENCE

WISCONSIN EXPERIENCE

UW–Madison's vision for the total student experience, the Wisconsin Experience (https://wisconsinexperience.wisc.edu/about/), combines learning in and out of the classroom. Tied to the Wisconsin Idea (https://www.wisc.edu/wisconsin-idea/) and steeped in long-standing institutional values — the commitment to the truth, shared participation in decision-making, and service to local and global communities — the Wisconsin Experience describes how students develop and integrate these core values across their educational experience.

UW–Madison encourages students to mindfully engage in four core concepts throughout their time on campus: Empathy & Humility, Relentless Curiosity, Intellectual Confidence, and Purposeful Action (https://wisconsinexperience.wisc.edu/intellectual-confidence/).

Since its inception, the School of Education has embraced the concepts of the Wisconsin Experience, providing opportunities for students to learn in venues beyond the traditional classroom. Our students also independently seek out related activities and experiences, thus creating their own unique Wisconsin Experience.

ELEMENTARY EDUCATION AND THE WISCONSIN EXPERIENCE

Support for Freshmen and Transfer Students

UW-Madison offers support systems designed to help students transition from high school to higher education that focus on academic skills, social integration, an introduction to essential campus services, and promoting a feeling of connection to peers and to the university.

- The Wisconsin Experience Seminar is an interactive, discussion-driven 1-credit course offered for freshmen and transfer students that will explore campus resources and opportunities.
- Pathways to Teaching events that delve into the details of what it means to be a K-9 educator.
- Enrollment in Elementary Education courses before officially entering the program junior year, allowing students to connect early on, meeting faculty and their teacher education peers.

Learning from Current Practitioners

Teacher candidates in the Elementary Education program have multiple field experiences in K-9 schools. Students complete two practicum experiences of 120 hours each in a range of grade levels and culminating in a full-time student teaching experience sharing a classroom with a cooperating teacher. The connection between the teacher candidate, their field supervisor, and the cooperating classroom teacher in the Madison-area schools provides a high level of support for our students from the first day forward. Many of our graduates are offered teaching positions by the schools in which they did their fieldwork.

Partnering with Community Organizations

The Elementary Education team partners with non-profit organizations and area businesses. Our teacher candidates:

- Volunteer with Girls on the Run (https://www.girlsontherunscwi.org/), Schools of Hope (https://schoolsofhope.org/), Centro Hispano (https://www.micentro.org/voluntreer/), Madison Literacy Network (https://www.litnetwork.org/volunteer/), and Badger Volunteers - Tutoring and Mentoring (https://morgridge.wisc.edu/get-connected-students/badger-volunteers-math-mentoring-and-tutoring-programs/)
- Work with Madison School and Recreation, the Cooperative Children's Book Center (CCBC) (https://ccbc.education.wisc.edu/), MERIT Library (https://merit.education.wisc.edu/), Badger Precollege (https://precollege.wisc.edu/), and Red Caboose Childcare (https://www.redcaboosechildcare.org/)

- Lead educational events and panels with schools and university faculty
- Intern at the Boys and Girls Club (https://www.bgcdc.org/), Lussier Community Education Center, (https://lcecmadison.org/) and the Goodman Community Center (https://www.goodmancenter.org/); explore more opportunities through the Career Center's Featured Education Internships (https://careercenter.education.wisc.edu/gain-experience/internships/#education-internships) or the International Internship Program (https://internships.international.wisc.edu/)
- Participate in the activities of the Madison Public Libraries (https://www.madisonpubliclibrary.org/), Mentoring Positives (https://mentoringpositives.org/), MYArts (https://madisonyoutharts.org/), and Olbrich Gardens (https://www.olbrich.org/).

For additional experiences, visit the Career Center's Student Jobs and Other Experiences (https://careercenter.education.wisc.edu/gain-experience/#student-jobs-and-other-experiences) page.

Participation with Professional Organizations

Our teacher candidates attend and/or present at educational conferences such as the:

- American Educational Research Association (AERA)
- Teachers of English to Speakers of Other Languages (TESOL)
- National K-8 Literacy and Reading Recovery Conference (LitCon)
- Association for Supervision and Curriculum Development (ASCD)
- National Council of Teachers of Mathematics (NCTM)
- Wisconsin Mathematics Council (WMC)

Guest Speakers

Instructors in the Elementary Education Program bring guests from a variety of community organizations into their classrooms:

- Teachers, principals, and superintendents from area school districts to share information about school life and provide tips on the interview process, helping to connect theory to practice
- PBS Wisconsin to share technology and teaching resources
- Black Girl Magic to share about programming and pedagogy
- Out-of-school-time workers from the Goodman Community Center, Lussier Community Center, and Neighborhood House
- Wisconsin Education Association Council (WEAC) to introduce programs such as “Ambassadors for Equity” and “Early Career Educators”
- WIDA to introduce English Language Development Standards and to practice administering the ACCESS for ELLs assessment to K-9 students who may need academic English language support
- School social workers, child psychologists, and other service staff to share information about their roles and resources for future educators

Seeking Out Community Experiences

We encourage our students to venture outside the classroom and get to know the families and communities of their pupils by attending a community activity such as a worship service, a neighborhood festival, or a community potluck. Students spend time in and around the attendance area of their schools to develop an understanding of the places, people, spaces, and experiences that influence their pupils at home, in their schools, and in their communities.

Field Trips

While completing practicum experiences, students enjoy educational excursions to places in the Madison community such as the Madison Children's Museum (https://madisonchildrensmuseum.org/), the Wisconsin State Historical Society (https://wisconsinhistory.org/), Madison Public Library's Play Lab (https://www.madisonpubliclibrary.org/spaces/playlab/), and on-campus gems like the UW-Madison Geology Museum (https://museum.geoscience.wisc.edu/), Allen Centennial Garden (https://allencentennialgarden.wisc.edu/), and the UW-Madison Arboretum (https://uwarboretum.org/).

Students pursuing a minor in Early Childhood Education also visit a number of different centers and preschools during course field trips, such as Preschool of the Arts, Aldo Leopold Nature Preschool, Eagle's Wing Childcare Center, One City Preschool, and the UW Lab School.

Study Abroad

Teacher candidates are encouraged to explore cultures other than their own by participating in one of the School of Education’s exciting study abroad programs (https://global.education.wisc.edu/study-abroad/). For example, the Curriculum & Instruction department offers a 3-credit, 3-week course in June entitled "Diversity and Community in the Galapagos Islands" (https://www.youtube.com/watch/?v=IC4qVTi8lxw) led by faculty in Elementary Education.

Additional Certifications, Majors, Minors, and Certificates

Many students in the K-9 Elementary Education program also complete programs in other areas of interest. Certification minors in Early Childhood Education and/or English as a Second Language can be combined with the core K-9 program. Popular double majors are in Spanish, Environmental Studies, Educational Policy Studies, Psychology, and History. Students frequently elect to complete certificates in Educational Policy Studies, Disability Rights and Services, Chican@ and Latin@ Studies, and Environmental Studies; popular minors are Social Studies, English Language Arts, Math, and Science. These options complement the skills and knowledge acquired through Elementary Education coursework.

Student Clubs and Organizations

Elementary Education students have multiple opportunities to participate in related organizations and activities such as Aspiring Educators of Wisconsin (https://www.facebook.com/AspiringEducatorsUWMadison/), Qouncil (https://lgbt.wisc.edu/get-involved/student-orgs/#qouncil-student-org-coalition), Diverse Leaders in Education, the Multicultural Student Center (https://msc.wisc.edu/), which houses the Indigenous Student Center, and the UW Game Lab (https://games.education.wisc.edu/lab/).

CERTIFICATION/LICENSURE

CERTIFICATION/LICENSURE

ADDITIONAL CERTIFICATION REQUIREMENTS

In addition to completing UW–Madison's program requirements, certification also requires the completion of Wisconsin statutory requirements related to teacher education and certification requirements established by the Wisconsin Department of Public Instruction. Students must complete all requirements and also obtain the endorsement of

the program faculty to receive certification through UW–Madison. For a description of additional certification requirements and information about applying for a license, see the Mary T. Kellner Teacher Education Center (https://tec.education.wisc.edu/current-students/).

APPLYING FOR A TEACHING LICENSE

The State of Wisconsin requires that anyone wishing to teach in a public K–12 setting hold a valid teaching license issued through the Department of Public Instruction. In addition to completing a certification program, students must submit a separate application for this license. Students intending to complete a teacher certification program should monitor program requirements carefully. The Wisconsin Department of Public Instruction (DPI) periodically implements regulations that affect all certification programs; teacher certification candidates are responsible for having up-to-date information about certification requirements.

Licensing Levels

The following undergraduate teacher licensing options are offered at UW–Madison.

- The core Elementary Education licensing level will be Kindergarten through Grade 9. Early Childhood, and English as a Second Language Kindergarten through Grade 12, can be added to the K-9 option.
- Special Education will offer licensing at the Early Childhood level, Kindergarten through Grade 12 level, and a program option that licenses in both Early Childhood Special Education and K-12 Special Education.
- Students completing the new Elementary Education and Special Education degree will be licensed in both Special Education Kindergarten through Grade 12 and Elementary Education Kindergarten through Grade 9.
- Students in special fields such as Art, Music, and Physical Education will be licensed at the Kindergarten through Grade 12 level. Physical Education students may add K-12 Adaptive Physical Education and/or K-12 Health.

Wisconsin State Licensing

The State of Wisconsin issues an initial teaching license to certified teachers. The current fee is $125. An online license application is available through the Department of Public Instruction (http://dpi.wi.gov/tepdl/elo/). A background check will also be conducted by DPI. Information about fingerprint submission, when necessary, is available through the Department of Public Instruction (http://dpi.wi.gov/tepdl/licensing/fingerprint/electronic-submission/).

Before applying for a license, DPI requires the electronic submission of "Endorsed Candidate for Licensure" (ECL) data by the certifying officer of the institution where the teacher preparation was completed. For UW–Madison teacher certification students the endorsement will come from the School of Education, L139 Education Building, 1000 Bascom Mall. Once this information has been submitted to DPI, students are notified by email that they may begin the application online.

Before endorsing a student, UW–Madison requires that

- all certification requirements are met;
- student teaching is completed;
- final grades are posted and reviewed;
- the degree is posted (https://registrar.wisc.edu/posting-of-degrees/) by the Registrar's Office (which can take up to four to six weeks after the degree conferral date); and
- a recommendation for certification is received from the program faculty.

The Wisconsin Department of Public Instruction may require an additional six to eight weeks for license processing.

Licensing Outside of Wisconsin

To apply for a license in a state other than Wisconsin, first check out the application requirements of that state. The University of Kentucky has a website (https://education.uky.edu/accreditation/certification/states/) that provides links to teacher licensing agencies in all 50 states, the District of Columbia, and Puerto Rico.

Many states have a verification form that needs to be signed by a UW–Madison certification officer. This form verifies that a state-approved licensing program has been completed. These forms should be sent to the School of Education's Mary T. Kellner Teacher Education Center at L139 Education Building, 1000 Bascom Mall, Madison, WI 53706, or by email (educatorlicensing@education.wisc.edu) to be completed. You must complete your personal information on the form before sending it to the Teacher Education Center. If the form requests information about practicum and student teaching assignments (names of schools, grade levels, dates, etc.), this information must also be completed before sending the form to the Teacher Education Center.

PROFESSIONAL CERTIFICATION/LICENSURE DISCLOSURE (NC-SARA)

The United States Department of Education (via 34 CFR Part 668 (https://www.ecfr.gov/current/title-34/subtitle-B/chapter-VI/part-668/?toc=1)) requires institutions that provide distance education to disclose information for programs leading to professional certification or licensure. The expectation is that institutions will determine whether each applicable academic program meets state professional licensure requirements and provide a general disclosure of such on an official university website.

Professional licensure requirements vary from state-to-state and can change year-to-year; they are established in a variety of state statutes, regulations, rules, and policies; and they center on a range of educational requirements, including degree type, specialized accreditation, total credits, specific courses, and examinations.

UW-Madison has taken reasonable efforts to determine whether this program satisfies the educational requirements for certification/licensure in states where prospective and enrolled students are located and is disclosing that information as follows.

Disclaimer: This information is based on the most recent annual review of state agency certification/licensure data and is subject to change. All students are strongly encouraged to consult with the individual/office listed in the Contact Information box on this page and with the applicable state agency for specific information.

The requirements of this program meet certification/licensure requirements in the following states:

Wisconsin

The requirements of this program do not meet certification/licensure requirements in the following states:

Not applicable

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

Information related to scholarships, academic and career advising, study abroad opportunities, student well-being, and other resources for students in the School of Education can be found on the School's Resources (p. 1680) page.

ELEMENTARY EDUCATION: KINDERGARTEN - 9TH GRADE

REQUIREMENTS

REQUIREMENTS

The core program in Elementary Education requires 60 credits of professional coursework in addition to other degree requirements. Students are certified to teach kindergarten through grade 9 (K-9) and can also teach at the 4K level.

The option coursework listed here is one component of the Elementary Education, BSE degree (https://guide.wisc.edu/undergraduate/education/curriculum-instruction/elementary-education-bse/#requirementstext) requirements.

PROFESSIONAL SEQUENCE

The professional coursework was designed to be completed in four semesters, starting in the fall after admission to the program. Each semester of the sequence must be followed sequentially and taken in consecutive semesters unless a modification is approved. Most classes must be taken during specified semesters, while the scheduling of other requirements is more flexible; some may be completed prior to beginning the sequence.

Code	Title	Credits
Semester 1		
CURRIC 312	Foundations of ESL Education	3
CURRIC 319	Pedagogical Content Knowledge for Teaching Elementary Mathematics 1 [1]	3
CURRIC 339	Cultural Foundations of Learning and Development [1]	3
CURRIC/ RP & SE 406	Race, Intersectionality, and Equity in Education [1]	3
ED POL 300 or ED POL/ HISTORY 412	School and Society [2] History of American Education	3
Semester 2		
CURRIC 320	Pedagogical Content Knowledge for Teaching Elementary Mathematics 2 [1]	3
CURRIC 346	Foundations of Language and Reading Instruction in Elementary Education	3
CURRIC 550	Methods, Materials and Activities in Early Childhood Education	3
CURRIC 340	Elementary Education Practicum I	3
Required Program Elective 1 [2]		3
Semester 3		
CURRIC 347	The Teaching of Writing and Other Language Arts	3
CURRIC 370	Teaching Mathematics	3
CURRIC 371	Teaching Social Studies	3
CURRIC 372	Teaching Science	3
CURRIC/ RP & SE 506	Strategies for Inclusive Schooling	3
CURRIC 367	Elementary Education Practicum II	3
Semester 4		
CURRIC 463	Seminar in Elementary Education	2
CURRIC 464 or CURRIC 454	Student Teaching in the Elementary School Student Teaching in the Middle School	10

1 May be taken before semester 1 of the professional sequence, including prior to program admission.

2 May be taken any time before semester 4 of the professional sequence, including prior to program admission. Enrollment in either ED POL 300 or ED POL/HISTORY 412 can follow this schedule.

ELECTIVE COURSES

The professional sequence includes 3 credits selected from the following options. Additional courses that expand a student's skill set or further a student's knowledge as a future teacher may also be considered to meet this requirement. Contact the Elementary Education Program Manager for approval prior to enrolling in additional courses. The frequency in which the listed courses are offered can vary based on teaching schedules as well as student interest.

Elective Course Options

Code	Title	Credits
ART ED 321	Introduction to Teaching Art	2
COMP SCI 402	Introducing Computer Science to K-12 Students	2

RP & SE 300	Individuals with Disabilities	3

CONTENT AREA MINOR (OPTIONAL REQUIREMENT)

Students may elect to complete a minor in one of the following content areas. Minors provide a depth of study in a particular area of interest and also inform classroom instruction. Upon completion, the minor will be posted on the UW-Madison transcript, **but students will not receive an additional certification in the subject area.** The Wisconsin Department of Public Instruction no longer offers content licenses in association with the K-9 educator license.

The completion of a minor is required to teach middle school licensing in some states and may benefit students particularly interested in teaching at this level. Choose from the links below for more details about the requirements of each minor.

Minor Options

- Biology (p. 1748)
- Chemistry (p. 1750)
- Earth Science (p. 1752)
- Economics (p. 1752)
- English (p. 1776)
- English Language Arts (p. 1773)
- Geography (p. 1778)
- History (p. 1781)
- Mathematics (p. 1789)
- Mathematics and Science Dual (p. 1785)
- Mathematics Specialized (p. 1788)
- Physics (p. 1789)
- Political Science (p. 1790)
- Psychology (p. 1794)
- Science Specialized (p. 1795)
- Social Studies (p. 1800)
- Sociology (p. 1809)

ADDITIONAL CERTIFICATION OPTIONS IN ELEMENTARY EDUCATION

Students interested in Early Childhood Education (birth-Grade 3) and/or English as a Second Language (grades K-12) may earn certification in these areas along with the completion of the K-9 program. It is also possible to combine K-9 Elementary Education with K-12 Special Education certification through the completion of the Elementary Education and Special Education (p. 1941) degree.

- The Early Childhood Education (ECE) certification (p. 1751) minor (p. 1751)
- The English as a Second Language (ESL) certification (p. 1773) minor (p. 1773)
- Certification in both Early Childhood Education and English as a Second Language (p. 1770)

FOUR-YEAR PLAN

FOUR-YEAR PLAN

Elementary Education: Sample Four-Year Plans

These sample four-year graduation plans reflect the certification options available to students completing a degree in Elementary Education. A plan is included for:

- Kindergarten-Grade 9 certification
- Kindergarten-Grade 9 certification+ Early Childhood Education certification
- Kindergarten-Grade 9 certification + English as a Second Language certification
- Kindergarten-Grade 9 certification + Early Childhood Education certification + English as a Second Language certification

A four-year plan for the Kindergarten-Grade 9 certification + Special Education Kindergarten-Grade 12 certification is available here (p. 1954). (p. 1954)

Four-year plans are designed to guide your course selection throughout your academic career; they do not establish a contractual agreement.

Use them along with your DARS report and Course Search and Enroll to create a four-year plan reflecting your placement scores, incoming credits, and individual interests. Consult with an academic advisor to develop a personalized plan of study and refer to the Guide for a complete list of requirements. You will likely revise your plan several times during your academic career here, based on your activities and changing academic interests.

2. CURRIC 663 may be taken before semester 4 of the professional sequence, including prior to program admission. ED POL 300 and ED POL/HISTORY 412 may be taken at any time, including prior to program admission.
   A minimum of 120 credits is still required to complete the degree.

ENGLISH AS A SECOND LANGUAGE, MINOR

"Ms. Yang's Class," by Jerry Jordan

Students with an interest in teaching English language learners should consider the English as a Second Language (ESL) minor, which leads to certification in ESL from kindergarten through grade 12. Fluency in English is required to teach ESL in schools, but fluency in a language other than English is not.

Certification in ESL provides a unique opportunity for Elementary Education students to empower every K-9 student, especially multilingual learners, recognizing that building a welcoming environment where every student, regardless of language ability, can thrive. Graduating with the ESL minor enhances a graduate's resume and enriches teaching practice and career prospects.

Students pursuing a minor in English as a Second Language will take coursework focused on the foundations of educating emergent bilinguals in K-12 classrooms. Coursework engages questions such as "How can instruction build from students' existing language resources," and "How can ESL-certified teachers work with families and communities to develop meaningful relationships and support language development in school settings?" Attention is paid to research-based and equitable approaches to second language acquisition, bilingualism and multilingualism, and the expansion of K-12 students' linguistic repertoires

Courses focus on the following topics: ESL methods and classroom environments, language assessment practices, the alignment of English language development standards with disciplinary content standards across school subject areas, and policy frameworks that have shaped ESL and bilingual education in the United States.

The ESL minor was designed to be completed in tandem with the Elementary Education (p. 1753) certification program; only students also completing Elementary Education may declare this minor.

"The University of Wisconsin-Madison School of Education helped me grow not only as a student but as a person. Through supportive faculty from Professors to TAs, meaningful course work, and hands-on experiences, I gained confidence in my voice and abilities. I learned to trust myself as a future educator and advocate and to see challenges as opportunities of growth rather than obstacles. More importantly it gave me the confidence to lead, learn, and belong." -Gabi Mauricio

HOW TO GET IN

HOW TO GET IN

This minor may only be declared by students completing the Elementary Education program. The declaration is made at the time of program application.

REQUIREMENTS

REQUIREMENTS

Complete the following course work in addition to the degree requirements of Elementary Education. Certification in English as a Second Language, Kindergarten through Grade 12 requires the completion of the Elementary Education degree program. These courses will also fulfill the elective credits required for Elementary Education.

Code	Title	Credits
CURRIC 338	Linguistics for Teachers	3
CURRIC 311	Language Acquisition for Multilingual Learners	3
CURRIC 316	ESL/Bilingual Methods	3
Total Credits		**9**

ENGLISH LANGUAGE ARTS, MINOR

This minor may only be completed by students admitted to the Elementary Education (p. 1753) or the Elementary Education and Special Education (p. 1941) programs. A minor is not required to complete either program.

Minors provide a depth of study in a particular area of interest and also inform classroom instruction. The completion of a minor is required to teach middle school in some states and may benefit students particularly interested in teaching at this level.

Students may wish to consult with an advisor in the School of Education Student Services office, 139 Education Building, to discuss course selection and other issues related to this field of study. Current students can schedule a Student Services appointment online through the Starfish app (https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/) in MyUW. Appointments can also be made by calling 608-262-1651, or in person.

Upon completion, the subject area of the minor will be posted on the UW–Madison transcript. Students will not receive an additional certification or license in the subject area. The Wisconsin Department of Public Instruction does not offer content licenses in association with the Elementary Education or Special Education teaching licenses.

HOW TO GET IN

HOW TO GET IN

This minor may only be declared by students completing the Elementary Education or the Elementary Education and Special Education programs. To declare the minor, contact your academic advisor in Education Student Services any time after program admission.

REQUIREMENTS

REQUIREMENTS

The English Language Arts minor requires the completion of 18 credits to include the requirements of each group of courses. A minimum cumulative grade point average of 2.75 is required, based on all UW–Madison coursework included in the minor.

The courses listed here will meet the requirements in each category, but additional courses can be considered.

INTRODUCTORY LITERATURE (3 CREDITS)

Complete one introductory literature course. Courses with a Literature breadth designation from many departments—e.g., African Cultural Studies (https://guide.wisc.edu/courses/african/), Classics (https://guide.wisc.edu/courses/classics/), Comparative Literature (https://guide.wisc.edu/courses/comp_lit/), English (https://guide.wisc.edu/courses/engl/), Folklore (https://guide.wisc.edu/courses/folklore/), or Theatre (https://guide.wisc.edu/courses/theatre/)—may be selected to meet this requirement.

INTERMEDIATE OR ADVANCED LITERATURE (3 CREDITS)

Select one additional literature course at the intermediate or advanced level. Courses with a literature breadth designation from many departments e.g., African Cultural Studies (https://guide.wisc.edu/courses/african/), Classics (https://guide.wisc.edu/courses/classics/), Comparative Literature (https://guide.wisc.edu/courses/comp_lit/), English (https://guide.wisc.edu/courses/engl/), Folklore (https://guide.wisc.edu/courses/folklore/), or Theatre (https://guide.wisc.edu/courses/theatre/)—may be selected to meet this requirement.

ENGLISH COMPOSITION (3 CREDITS)

Select one course from the following options:

English Composition Courses

Code	Title	Credits
ENGL 201	Intermediate Composition	3
ENGL 207	Introduction to Creative Writing: Fiction and Poetry Workshop	3
ENGL 307	Creative Writing: Fiction and Poetry Workshop	3
ENGL 400	Advanced Composition	3
ENGL 407	Creative Writing: Nonfiction Workshop	3
ENGL 408	Creative Writing: Fiction Workshop	3
ENGL 409	Creative Writing: Poetry Workshop	3
ENGL 410	Creative Writing: Playwriting Workshop	3
ENGL 508	Creative Writing: Advanced Fiction Workshop	3

ELECTIVES (9 CREDITS)

Select courses from the following options to reach the minimum of 18 credits:

ENGLISH, MINOR

The English minor no longer admits new students after Fall 2027 and the program will be discontinued Fall 2029. Students already admitted may only complete and be awarded this minor through Summer 2029. If you have any questions please contact the program.

This minor may only be completed by students admitted to the Elementary Education (p. 1753) or the Elementary Education and Special Education (p. 1941) programs. A minor is not required to complete either program.

Minors provide a depth of study in a particular area of interest and also inform classroom instruction. The completion of a minor is required to teach middle school in some states and may benefit students particularly interested in teaching at this level.

The Department of English (https://english.wisc.edu/) is housed in the College of Letters & Science. Students may wish to consult with an undergraduate advisor in English (https://english.wisc.edu/undergraduate/undergraduate-advising/) to discuss course selection and other issues related to this field of study.

Upon completion, the subject area of the minor will be posted on the UW–Madison transcript. Students will not receive an additional certification or license in the subject area. The Wisconsin Department of Public Instruction does not offer content licenses in association with the Elementary Education or Special Education teaching licenses.

HOW TO GET IN

HOW TO GET IN

The English minor no longer admits new students after Fall 2027 and the program will be discontinued Fall 2029. Students already admitted may only complete and be awarded this minor through Summer 2029. If you have any questions please contact the program.

This minor may only be declared by students completing the Elementary Education or the Elementary Education and Special Education programs. To declare the minor, contact your academic advisor in Education Student Services any time after program admission.

REQUIREMENTS

REQUIREMENTS

The English minor requires the completion of 24–30 credits to include the coursework listed below. A minimum cumulative grade point average of 2.75 is required, based on all UW–Madison coursework included in the minor.

Note: Six credits of introductory literature must be completed prior to enrolling in coursework required for the English minor. Courses with a Literature breadth designation from many subjects—e.g., Comparative Literature, Classical & Ancient Near Eastern Studies, African Cultural Studies, or Theatre and Drama—may be selected to meet this requirement. Students are encouraged to explore these options, although introductory English department coursework may also be used in this capacity.

Code	Title	Credits
Required Courses		
Complete the following:		
ENGL 241	Literature and Culture I: to the 18th Century	3
ENGL 242	Literature and Culture II: from the 18th Century to the Present	3
ENGL 314	Structure of English (students are encouraged to take this course as early as possible)	3
Children's or Young Adult Literature chosen in consulatation with advisor		3
Shakespeare		
Select one of the following:		3
ENGL 220	Shakespearean Drama	
ENGL 431	Early Works of Shakespeare	
ENGL 432	Later Works of Shakespeare	
Elective		
Select one English department elective numbered 204 and above, except for ENGL 207 and ENGL 236 [1]		
Ethnic Literature		
Select one 3-credit intermediate or advanced ethnic literature course [2]		
Applied English Linguistics		
Select one of the following (listed in order of preference):		3
ENGL 516	English Grammar in Use	
ENGL 417	History of the English Language	
ENGL 316	English Language Variation in the U.S.	
ENGL 416	English in Society	
ENGL 414	Global Spread of English	
Composition for English Teachers		
ENGL 304	History and Theory of Rhetoric and Writing Studies	
Or, select a course in consultation with an advisor in the School of Education Student Services office.		
Additional Credits		
If necessary, select additional coursework to reach the minimum of 24 credits. Introductory literature may be used.		

1 Students considering a Letters & Science English major should select a pre–1800, non-Shakespeare literature course.

2 Search for Intermediate/Advanced–level courses that are designated as both Literature and Ethnic Studies courses in the enrollment application.

GAME DESIGN, CERTIFICATE

WHAT IS GAME DESIGN?

Game Design is the theory and practice of creating games. We focus on games broadly speaking – puzzles, toys, board games, role-playing, sports, or simply not stepping on the cracks in the sidewalk. Making games offers an opportunity for creative expression, for simulating real-world problems, for positive social change, and for communicating complex ideas about systems and processes.

WHAT IS THE GAME DESIGN CERTIFICATE?

The Game Design Certificate is an interdisciplinary program that gives students from a wide variety of backgrounds the chance to make games. The certificate is jointly offered by the departments of Curriculum and Instruction, Art, and Computer Sciences. Certificate students work both independently and in small teams to develop a portfolio of board games, video games, and physical spaces. The certificate focuses on creating, testing, and understanding how to design gameplay to be fun and impactful.

WHAT WILL STUDENTS GAIN?

Students acquire the skills, understanding, and background to create and produce games independently, develop a body of work, and gain critical perspectives on games and game design.

HOW DO I GET INVOLVED?

Interested students may wish to consult with an advisor in the School of Education Student Services office, 139 Education Building, 608-262-1651, or studentservices@wisc.edu (studentservices@education.wisc.edu), to discuss course sequencing, declaring, and other issues related to this field of study. Current students can schedule a Student Services appointment online through the Starfish app (https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/) in MyUW.

HOW TO GET IN

HOW TO GET IN

To be eligible to declare the Game Design Certificate, students must complete two courses prior to submitting a certificate declaration. One course is required of all prospective certificate students:

Code	Title	Credits
CURRIC 357	Game Design I	3

The second course may be selected by the student from the following options:

Code	Title	Credits
ART 107	Introduction to Digital Forms	3
COMP SCI 200	Programming I	3
COMP SCI 220	Data Science Programming I	4
COMP SCI 300	Programming II	3

Students meeting the eligibility criteria who intend to complete the Game Design Certificate may find the declaration form on the School of Education's Certificate Programs (https://education.wisc.edu/academics/certificates/) page. The declaration for this certificate program can be submitted at any time during the calendar year.

REQUIREMENTS

REQUIREMENTS

The Game Design certificate program includes both required and elective coursework for a minimum of 18 credits. All coursework must be taken for a letter grade. At least 10 credits of the certificate must be earned in residence at UW–Madison.

Students must have an overall 2.5 GPA in Game Design Certificate coursework upon completion of the certificate.

Code	Title	Credits
Required Courses		
CURRIC 277	Videogames & Learning	3
or CURRIC 576	Topics in Game Design	
CURRIC 357	Game Design I	3
CURRIC 432	Game Design II	3
ART 107	Introduction to Digital Forms	3
Computer Science Elective		
Select one of the following:		3
COMP SCI 200	Programming I	
COMP SCI 220	Data Science Programming I	
COMP SCI 300	Programming II	
Arts Elective		
Select one of the following:		3-4
ART 428	Digital Imaging Studio	
ART 429	3D Digital Studio I	
ART 529	3D Digital Studio II	
ART 563	Graphic Design for Games	
ART 629	3D Digital Studio III	
THEATRE 230	Environment Design for Games and other Virtual Storytelling Spaces	
Total Credits		**18**

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Utilize the design and technical skills necessary to create games.
2. Discuss the critical and theoretical perspectives necessary to understand the production and reception contexts in/for which they design such games.

GEOGRAPHY, MINOR

The Geography minor no longer admits new students after Fall 2027 and the program will be discontinued Fall 2029. Students already admitted may only complete and be awarded this minor through Summer 2026. If you have any questions please contact the program.

This minor may only be completed by students admitted to the Elementary Education (p. 1753) or the Elementary Education and Special Education (p. 1941) programs. A minor is not required to complete either program.

Minors provide a depth of study in a particular area of interest and also inform classroom instruction. The completion of a minor is required to teach middle school in some states and may benefit students particularly interested in teaching at this level.

Area Studies and Global Systems

Courses focus on the ways in which regions, places, and landscapes have acquired distinctive characteristics and problems as a result of their locations and resource potentials, and of their settlement, appraisal, and use by particular peoples and cultures.

Area Studies and Global Systems course options

Code	Title	Credits
GEOG/ASIAN/ HISTORY/POLI SCI/ SOC 244	Introduction to Southeast Asia: Vietnam to the Philippines	4
GEOG/HISTORY/ POLI SCI/ SLAVIC 253	Russia: An Interdisciplinary Survey	4
GEOG/AFROAMER/ ANTHRO/C&E SOC/ HISTORY/LACIS/ POLI SCI/SOC/ SPANISH 260	Latin America: An Introduction	3-4
GEOG/AFRICAN/ AFROAMER/ ANTHRO/HISTORY/ POLI SCI/SOC 277	Africa: An Introductory Survey	4
GEOG 342	Geography of Wisconsin	3
GEOG 355	Africa, South of the Sahara	3
GEOG/ ENVIR ST 557	Development and Environment in Southeast Asia	3

Cartography and Geographic Information Science

Courses examine the creation and use of maps.

Cartography and Geographic Information Science course options

Code	Title	Credits
GEOG 170	Our Digital Globe: An Overview of GIScience and its Technology	3
GEOG 370	Introduction to Cartography	4
GEOG/ENVIR ST/ G L E/GEOSCI/ LAND ARC 371	Introduction to Environmental Remote Sensing	3
GEOG/CIV ENGR/ ENVIR ST 377	An Introduction to Geographic Information Systems	4
GEOG 378	Introduction to Geocomputing	4
GEOG 379	Geospatial Technologies: Drones, Sensors, and Applications	3
GEOG/ENVIR ST/ LAND ARC/ URB R PL 532	Applications of Geographic Information Systems in Planning	3
GEOG 572	Graphic Design in Cartography	3-4
GEOG 573	Advanced Geocomputing and Geospatial Big Data Analytics	4
GEOG 574	Geospatial Database Design and Development	4
GEOG 575	Interactive Cartography & Geovisualization	4
GEOG 576	Geospatial Web and Mobile Programming	4
GEOG 578	GIS Applications	4
GEOG 579	GIS and Spatial Analysis	4

Methodology

Courses examine the skills, techniques and methodology necessary to conduct geographic investigation.

Methodology course options

Code	Title	Credits
GEOG 170	Our Digital Globe: An Overview of GIScience and its Technology	3
STAT 240	Data Science Modeling I	4

HISTORY, MINOR

This minor may only be completed by students admitted to the Elementary Education (p. 1753) or the Elementary Education and Special Education (p. 1941) programs. A minor is not required to complete either program.

Minors provide a depth of study in a particular area of interest and also inform classroom instruction. The completion of a minor is required to teach middle school in some states and may benefit students particularly interested in teaching at this level.

The Department of History (https://history.wisc.edu/) is housed in the College of Letters & Science. Students may wish to consult with an undergraduate advisor in the department to discuss course selection and other issues related to this field of study.

Students have numerous advising resources available to them, including both professional and peer advisors. Information on the History advising team, how to contact an advisor, how to schedule an appointment, and drop-in advising hours can be found on the departmental website (https://history.wisc.edu/undergraduate-program/undergraduate-advising/). (https://history.wisc.edu/undergraduate-program/undergraduate-advising/)

Upon completion, the subject area of the minor will be posted on the UW–Madison transcript. Students will not receive an additional certification or license in the subject area. The Wisconsin Department of Public Instruction does not offer content licenses in association with the Elementary Education or Special Education teaching licenses.

HOW TO GET IN

HOW TO GET IN

This minor may only be declared by students completing the Elementary Education or the Elementary Education and Special Education programs. To declare the minor, contact your academic advisor in the School of Education Student Services (https://education.wisc.edu/advising-and-careers/) any time after program admission.

REQUIREMENTS

REQUIREMENTS

The History minor requires a minimum of 18 credits. No more than three courses may be numbered below 300. A minimum cumulative grade point average of 2.75 is required, based on all History minor coursework taken on the UW–Madison campus.

Select courses from the following categories. Although courses may be listed multiple times, they may only count once towards the history minor.

EUROPEAN HISTORY (3 CREDITS)

Select one course from the following:

EUROPEAN HISTORY COURSES

Code	Title	Credits
HISTORY/ CLASSICS 110	The Ancient Mediterranean	4
HISTORY 115	Medieval Europe 410-1500	4
HISTORY 119	Europe and the World, 1400-1815	4

MATHEMATICS AND SCIENCE DUAL, MINOR

This minor may only be completed by students admitted to the Elementary Education (p. 1753) or the Elementary Education and Special Education (p. 1941) programs. A minor is not required to complete either program.

Minors provide a depth of study in a particular area of interest and also inform classroom instruction. The completion of a minor is required to teach middle school in some states and may benefit students particularly interested in teaching at this level.

Students may wish to consult with an advisor in the School of Education Student Services office, 139 Education Building, to discuss course

selection and other issues related to this field of study. Current students can schedule a Student Services appointment online through the Starfish app (https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/) in MyUW. Appointments can also be made by calling 608-262-1651, or in person.

Upon completion, the subject area of the minor will be posted on the UW–Madison transcript. Students will not receive an additional certification or license in the subject area. The Wisconsin Department of Public Instruction does not offer content licenses in association with the Elementary Education or Special Education teaching licenses.

HOW TO GET IN

HOW TO GET IN

This minor may only be declared by students completing the Elementary Education or the Elementary Education and Special Education programs. To declare the minor, contact your academic advisor in Education Student Services (https://advising.education.wisc.edu/) any time after program admission.

REQUIREMENTS

REQUIREMENTS

Students in the Mathematics and Science Dual minor will complete courses in both mathematics and science. A minimum cumulative grade point average of 2.75 is required, based on all minor coursework taken on the UW–Madison campus.

Select courses in the following categories:

MATHEMATICS FOUNDATIONS (6 CREDITS)

Complete at least six credits from the following options:

Code	Title	Credits
MATH 221	Calculus and Analytic Geometry 1	5
MATH 222	Calculus and Analytic Geometry 2	4
MATH/ COMP SCI 240	Introduction to Discrete Mathematics	3

INTRODUCTORY STATISTICS (3 CREDITS)

Complete at least three credits from the following:

Code	Title	Credits
STAT 240	Data Science Modeling I	4
STAT 301	Introduction to Statistical Methods	3
STAT 324	Introduction to Statistics for Science and Engineering	3
STAT 371	Introductory Applied Statistics for the Life Sciences	3
PSYCH 210	Basic Statistics for Psychology	3
ED PSYCH 215	Probably Correct: How to Think With Statistics and Data	3

SCIENCE FOUNDATIONS (9 CREDITS)

In consultation with a student services advisor or the Elementary Education Program Manager, choose 9 credits of science across 3 of the 4 focal areas that will address a breadth of scientific disciplinary areas.

Life Sciences

Code	Title	Credits
Courses in BOTANY numbered 677 and below. (https://guide.wisc.edu/courses/botany/)		
Courses in MICROBIO numbered 677 and below. (https://guide.wisc.edu/courses/microbio/)		
Courses in ZOOLOGY numbered 677 and below. (https://guide.wisc.edu/courses/zoology/)		
Courses in F&W ECOL numbered 677 and below. (https://guide.wisc.edu/courses/f_w_ecol/)		

Physical Sciences

Code	Title	Credits
Courses in CHEM numbered 677 and below. (https://guide.wisc.edu/courses/chem/)		
Courses in BIOCHEM numbered 677 and below. (https://guide.wisc.edu/courses/biochem/)		
Courses in PHYSICS numbered 321 and below. (https://guide.wisc.edu/courses/physics/)		

Earth and Space Sciences

Code	Title	Credits
Astronomy		
ASTRON 103	The Evolving Universe: Stars, Galaxies, and Cosmology	3
ASTRON 104	Our Exploration of the Solar System	3
ASTRON 140	Earth 2.0: The Exoplanet Revolution	3
ASTRON 150	Topics in Astronomy	2
ASTRON/ GEOSCI 160	Life in the Universe	2
ASTRON 170	The Dark Side of the Universe: The Great Cosmic Mysteries from Black Holes to Dark Energy	3
ASTRON 199	Directed Study	1-3
ASTRON 200	The Physical Universe	3
ASTRON 202	Introduction to Astronomy Research	1
ASTRON/ HIST SCI 206	History of Astronomy and Cosmology	3
ASTRON 236	The History of Matter in the Universe	3
Courses in ASTRON numbered 200 and above (https://guide.wisc.edu/courses/astron/)		
Atmospheric and Oceanic Studies		
ATM OCN 100	Weather and Climate	3

MATHEMATICS SPECIALIZED, MINOR

This minor may only be completed by students admitted to the Elementary Education (p. 1753) or the Elementary Education and Special Education (p. 1941) programs. A minor is not required to complete either program.

Minors provide a depth of study in a particular area of interest and also inform classroom instruction. The completion of a minor is required to teach middle school in some states and may benefit students particularly interested in teaching at this level.

Students may wish to consult with an advisor in the School of Education Student Services office, 139 Education Building, to discuss course selection and other issues related to this field of study. Current students can schedule a Student Services appointment online through the Starfish app (https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/) in MyUW. Appointments can also be made by calling 608-262-1651, or in person.

Upon completion, the subject area of the minor will be posted on the UW–Madison transcript. Students will not receive an additional certification or license in the subject area. The Wisconsin Department of Public Instruction does not offer content licenses in association with the Elementary Education or Special Education teaching licenses.

HOW TO GET IN

HOW TO GET IN

This minor may only be declared by students completing the Elementary Education or the Elementary Education and Special Education programs. To declare the minor, contact your academic advisor in Education Student Services any time after program admission.

REQUIREMENTS

REQUIREMENTS

Complete a minimum of 18 credits to include the requirements listed below. A minimum cumulative grade point average of 2.75 is required, based on all minor coursework taken on the UW–Madison campus.

Code	Title	Credits
Mathematics Foundations		
Complete at least two courses from the following options:		
MATH 221	Calculus and Analytic Geometry 1	5
MATH 222	Calculus and Analytic Geometry 2	4
MATH/ COMP SCI 240	Introduction to Discrete Mathematics	3
Introductory Statistics		
Complete one of the following:		
STAT 240	Data Science Modeling I	4
STAT 301	Introduction to Statistical Methods	3
STAT 324	Introduction to Statistics for Science and Engineering	3
STAT 371	Introductory Applied Statistics for the Life Sciences	3
ED PSYCH 215	Probably Correct: How to Think With Statistics and Data	3
PSYCH 210	Basic Statistics for Psychology	3
Electives		
Select additional credits from the following options to meet the minium requirement of 18 credits for the minor:		
MATH 234	Calculus--Functions of Several Variables	4
MATH/ COMP SCI 240	Introduction to Discrete Mathematics	3
MATH/STAT 309	Introduction to Probability and Mathematical Statistics I	3
MATH 320	Linear Algebra and Differential Equations	3
or MATH 340	Elementary Matrix and Linear Algebra	
or MATH 345	Linear Algebra and Optimization	
MATH 331	Introductory Probability	3
MATH/STAT 431	Introduction to the Theory of Probability	3
MATH 461	College Geometry I	3
COMP SCI/L I S 102	Introduction to Computing	3
COMP SCI 200	Programming I	3
COMP SCI 220	Data Science Programming I	4

COMP SCI 402	Introducing Computer Science to K-12 Students	2
CURRIC 393	The Teaching of Secondary School Mathematics I	3
CURRIC 394	The Teaching of Secondary School Mathematics II	3
STAT 311	Introduction to Theory and Methods of Mathematical Statistics I	3

MATHEMATICS, MINOR

The Mathematics minor no longer admits new students after Fall 2027 and the program will be discontinued Fall 2029. Students already admitted may only complete and be awarded this minor through Summer 2029. If you have any questions please contact the program.

This minor may only be completed by students admitted to the Elementary Education (p. 1753) or the Elementary Education and Special Education (p. 1941) programs. A minor is not required to complete either program.

Minors provide a depth of study in a particular area of interest and also inform classroom instruction. The completion of a minor is required to teach middle school in some states and may benefit students particularly interested in teaching at this level.

The Department of Mathematics is housed in the College of Letters & Science. Students may wish to consult with an undergraduate advisor in the department to discuss course selection and other issues related to this field of study. The current list of advisors and the schedule of office hours can be found on the departmental advising page (https://www.math.wisc.edu/undergraduate/advising/).

Upon completion, the subject area of the minor will be posted on the UW–Madison transcript. Students will not receive an additional certification or license in the subject area. The Wisconsin Department of Public Instruction does not offer content licenses in association with the Elementary Education or Special Education teaching licenses.

HOW TO GET IN

HOW TO GET IN

The Mathematics minor no longer admits new students after Fall 2027 and the program will be discontinued Fall 2029. Students already admitted may only complete and be awarded this minor through Summer 2029. If you have any questions please contact the program.

This minor may only be declared by students completing the Elementary Education or the Elementary Education and Special Education programs. To declare the minor, contact your academic advisor in Education Student Services any time after program admission.

REQUIREMENTS

REQUIREMENTS

Complete a minimum of 28 credits. A minimum cumulative grade point average of 2.75 is required, based on all UW–Madison coursework included in the minor.

Elementary Education students may also wish to consider the Specialized Mathematics minor, which exchanges some of the higher-level mathematics courses for a broader range of coursework in mathematics, computer sciences, and statistics. A mathematics/science dual minor option is also available.

The first 13 credits of the mathematics minor involves calculus-level coursework. Students may need to complete prerequisite coursework—e.g., MATH 112 College Algebra, MATH 113 Trigonometry—to reach this proficiency level. These preparatory courses may be used to meet the liberal studies requirement, but may not be applied toward the credits required for the mathematics minor.

Code	Title	Credits
MATH 221	Calculus and Analytic Geometry 1	5
MATH 222	Calculus and Analytic Geometry 2	4
MATH 234	Calculus--Functions of Several Variables	4
MATH 340	Elementary Matrix and Linear Algebra	3
STAT 301	Introduction to Statistical Methods	3
MATH 461	College Geometry I	3
MATH 541	Modern Algebra 1	3

Because of prerequisites and scheduling issues, the sequencing of this coursework requires careful planning to be completed in a timely fashion. Students are encouraged to consult with an advisor regarding the appropriate sequencing of these courses.

PHYSICS, MINOR

The Physics minor no longer admits new students after Fall 2027 and the program will be discontinued Fall 2029. Students already admitted may only complete and be awarded this minor through Summer 2029. If you have any questions please contact the program.

This minor may only be completed by students admitted to the Elementary Education (p. 1753) or the Elementary Education and Special Education (p. 1941) programs. A minor is not required to complete either program.

Minors provide a depth of study in a particular area of interest and also inform classroom instruction. The completion of a minor is required to teach middle school in some states and may benefit students particularly interested in teaching at this level.

The Department of Physics (https://www.physics.wisc.edu/) is housed in the College of Letters & Science. Students may wish to consult with an undergraduate advisor (https://www.physics.wisc.edu/undergraduate/contact-us/) in the physics department to discuss course selection and other issues related to this field of study.

Upon completion, the subject area of the minor will be posted on the UW–Madison transcript. Students will not receive an additional certification or license in the subject area. The Wisconsin Department of Public Instruction does not offer content licenses in association with the Elementary Education or Special Education teaching licenses.

HOW TO GET IN

HOW TO GET IN

The Physics minor no longer admits new students after Fall 2027 and the program will be discontinued Fall 2029. Students already admitted may only complete and be awarded this minor through Summer 2029. If you have any questions please contact the program.

This minor may only be declared by students completing the Elementary Education or the Elementary Education and Special Education programs. To declare the minor, contact your academic advisor in Education Student Services any time after program admission.

REQUIREMENTS

REQUIREMENTS

Complete a minimum of 22 credits. A minimum cumulative grade point average of 2.75 is required, based on all physics minor coursework taken on the UW–Madison campus.

INTRODUCTORY REQUIREMENTS

Code	Title	Credits
Select one of the following First Introductory Courses:		**5-6**
PHYSICS 201	General Physics	
PHYSICS 207	General Physics	
PHYSICS 247	A Modern Introduction to Physics [1]	
E M A 201 & E M A 202	Statics and Dynamics	
Select one of the following Second Introductory Courses:		**5**
PHYSICS 202	General Physics	
PHYSICS 208	General Physics	
PHYSICS 248	A Modern Introduction to Physics	
Select one of the following Third Introductory Courses:		**3-4**
PHYSICS 249	A Modern Introduction to Physics	
PHYSICS 205	Modern Physics for Engineers	
PHYSICS/ E C E 235	Introduction to Solid State Electronics	
PHYSICS 241	Introduction to Modern Physics	

[1] Any combination of courses can be used to satisfy the three introductory course requirements, but students may not transfer into the PHYSICS 247, PHYSICS 248, PHYSICS 249 sequence from another introductory sequence.

ADDITIONAL COURSE REQUIREMENTS

Code	Title	Credits
PHYSICS 307	Intermediate Laboratory-Mechanics and Modern Physics	2
PHYSICS 311	Mechanics	3
PHYSICS 321	Electric Circuits and Electronics	4
Select physics electives, if necessary, to total 22 credits		

POLITICAL SCIENCE, MINOR

The Political Science minor no longer admits new students after Fall 2027 and the program will be discontinued Fall 2029. Students already admitted may only complete and be awarded this minor through Summer 2029. If you have any questions please contact the program.

This minor may only be completed by students admitted to the Elementary Education (p. 1753) or the Elementary Education and Special Education (p. 1941) programs. A minor is not required to complete either program.

Minors provide a depth of study in a particular area of interest and also inform classroom instruction. The completion of a minor is required to teach middle school in some states and may benefit students particularly interested in teaching at this level.

The Department of Political Science (https://polisci.wisc.edu/) is housed in the College of Letters & Science. Students may wish to consult with an undergraduate advisor (https://polisci.wisc.edu/advising-and-major-information/#advising) in the department to discuss course selection and other issues related to this field of study.

Upon completion, the subject area of the minor will be posted on the UW–Madison transcript. Students will not receive an additional certification or license in the subject area. The Wisconsin Department of Public Instruction does not offer content licenses in association with the Elementary Education or Special Education teaching licenses.

HOW TO GET IN

HOW TO GET IN

The Political Science minor no longer admits new students after Fall 2027 and the program will be discontinued Fall 2029. Students already admitted may only complete and be awarded this minor through Summer 2029. If you have any questions please contact the program.

This minor may only be declared by students completing the Elementary Education or the Elementary Education and Special Education programs. To declare the minor, contact your academic advisor in Education Student Services any time after program admission.

REQUIREMENTS

REQUIREMENTS

Complete a minimum of 24 credits. A minimum cumulative grade point average of 2.75 is required, based on all Political Science minor coursework taken on the UW–Madison campus.

REQUIRED COURSES

Code	Title	Credits
Complete any Political Science course numbered 100-199 (one course)		3-4
POLI SCI 205	Introduction to State Government	3-4
or POLI SCI 405	State Government and Public Policy	

Research Methods		
Complete one of the following:		3-4
POLI SCI 170	Research Methods in Political Science	
POLI SCI 270	Political Data Science	
POLI SCI 274	Political Choice and Strategy	
POLI SCI 348	Analysis of International Relations	
POLI SCI/ JOURN/ URB R PL 373	Introduction to Survey Research	

DISTRIBUTION REQUIREMENTS

Complete at least one course from each of the four political science groups. Courses taken to meet the requirements above may be applied toward the course distribution.

Political Theory

Code	Title	Credits
POLI SCI 160	Introduction to Political Theory	3-4
POLI SCI 210	Left, Right, and Center	3-4
POLI SCI 360	The Foundations of American Liberal Democracy	3-4

ELECTIVES

Complete additional coursework, if necessary, to reach the minimum of 24 credits.

PREPARING TO TEACH ABROAD, CERTIFICATE

The Certificate in Preparing to Teach Abroad prepares undergraduate students interested in teaching beyond the U.S. to develop essential skills for engaging diverse learners in various educational settings. The program prepares students to teach a variety of subject matters including and beyond academics that revolve around student interests and job-site demands. It fosters skills for working with a wide age range spectrum from children to adults and builds confidence in entering new spaces, asking critical questions, and designing robust lessons that meet expected learning goals. Students will engage with multiple models of culturally

responsive teaching while critically examining challenges to such models in different global contexts.

Through this certificate, students will explore the complexities of formal and informal education beyond U.S. pedagogical frameworks, identifying and analyzing both mainstream and contested narratives about education in non-U.S. settings and their implications for lesson planning. Coursework and field experiences will provide opportunities to:

- Prepare culturally responsive lessons and participate in cross-cultural field experiences, considering the role of power in constructions such as race, gender, disability, socioeconomic status (SES), and language.
- Examine educational thought in both informal and formal education settings, reflecting on how different traditions and systems shape teaching and learning.
- Engage in fieldwork in U.S. settings in person and in non-U.S. settings virtually to reflect on issues of teaching, curriculum, and learning across cultural contexts.
- Analyze power relations in education, paying close attention to colonial legacies, hierarchies, and assumptions about difference that emerge in cross-cultural teaching.

The certificate is open to all domestic and international undergraduate students seeking to develop skills in analyzing cultural contexts, planning instruction, designing curriculum, and teaching in professional communities beyond the U.S. While it does not lead to a K-12 public school teaching license, it enhances competitiveness for international teaching positions and strengthens applications for Fulbright ETA, Peace Corps, international internships, and study abroad programs.

The certificate is also a gateway to post-undergraduate study opportunities in education. Its content is not restricted by state-based teacher education requirements, making it valuable preparation for graduate programs and teaching assistantships in the field of education more broadly.

HOW TO GET IN

HOW TO GET IN

All current UW-Madison undergraduates are eligible to complete the Certificate in Preparing to Teach Abroad. To declare the certificate, students should meet with the Certificate advisor and then visit the School of Education's Certificate Programs (https://education.wisc.edu/academics/certificates/) page to complete the declaration form.

REQUIREMENTS

REQUIREMENTS

The Certificate in Preparing to Teach Abroad requires the following course distribution for a minimum of 15 credits. At least 8 credits must be completed in residence. Completion of the certificate requires a minimum GPA of 2.0 in certificate coursework.

REQUIRED COURSES

Code	Title	Credits
CURRIC 366	Internationalizing Educational Knowledge	3
CURRIC 418	Preparing to Teach Abroad	3
CURRIC 419	Preparing to Teach Abroad Capstone	3

ELECTIVES

The 6 credits of electives can be taken concurrently with required certificate classes. Students can choose to concentrate their electives on the following themes, but are not required to do so. In selecting courses we will encourage students to consider courses both relevant to the areas of interest, but also issues raised in the certificate's required courses. Course selection can be guided in consultation with the certificate advisor.

Focus on School of Education-Oriented Topics

Courses in this section include special education, bilingual education, educational psychology and educational policy studies.

Code	Title	Credits
RP & SE 300	Individuals with Disabilities	3
RP & SE 330	Behavior Analysis: Applications to Persons with Disabilities	3

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Analyze issues of coloniality, power, and difference as they relate to teaching, learning, and curriculum in non-US settings.
2. Examine key cultural, social, and historical relationships to educational knowledges before entering a pedagogical space abroad.
3. Identify curriculum and teaching practices that produce difference and exclusions, focusing on the intersection of transnational and local contexts.
4. Develop culturally responsive practices and pedagogies focused on teaching abroad.
5. Use experiential knowledge of practicum teaching to reflect on pedagogical practices and contextual differences in non-US contexts.

PSYCHOLOGY, MINOR

The Psychology minor no longer admits new students after Fall 2027 and the program will be discontinued Fall 2029. Students already admitted may only complete and be awarded this minor through Summer 2029. If you have any questions please contact the program.

This minor may only be completed by students admitted to the Elementary Education (p. 1753) or the Elementary Education and Special Education (p. 1941) programs. A minor is not required to complete either program.

Minors provide a depth of study in a particular area of interest and also inform classroom instruction. The completion of a minor is required to

teach middle school in some states and may benefit students particularly interested in teaching at this level.

The Department of Psychology (https://psych.wisc.edu/) is housed in the College of Letters & Science. Students interested in completing an additional major in psychology may wish to consult with an undergraduate advisor (https://psych.wisc.edu/undergraduate-program/advising/) in the department to discuss course selection and other issues related to this field of study.

Upon completion, the subject area of the minor will be posted on the UW–Madison transcript. Students will not receive an additional certification or license in the subject area. The Wisconsin Department of Public Instruction does not offer content licenses in association with the Elementary Education or Special Education teaching licenses.

HOW TO GET IN

HOW TO GET IN

The Psychology minor no longer admits new students after Fall 2027 and the program will be discontinued Fall 2029. Students already admitted may only complete and be awarded this minor through Summer 2029. If you have any questions please contact the program.

This minor may only be declared by students completing the Elementary Education or the Elementary Education and Special Education programs. To declare the minor, contact your academic advisor in Education Student Services any time after program admission.

REQUIREMENTS

REQUIREMENTS

Complete a minimum of 26 credits. A minimum cumulative grade point average of 2.75 is required, based on all psychology minor coursework taken at UW–Madison. Students wishing to complete an additional major in psychology through the College of Letters & Science must also complete supporting coursework in introductory biology; see Requirements for the Major (p. 1416).

Code	Title	Credits
PSYCH 202	Introduction to Psychology	3-4
PSYCH 210	Basic Statistics for Psychology	3
PSYCH 225	Research Methods	4
PSYCH 405	Adult Psychopathology	3-4
PSYCH 456	Social Psychology	3-4
PSYCH 403	Psychology of Personality	3
PSYCH 414	Cognitive Psychology	3
Select one of the following:		3-4
PSYCH 449	Animal Behavior	
PSYCH 450	Primate Psychology: Insights into Human Behavior	
PSYCH 454	Behavioral Neuroscience	
Select additional coursework, if necessary, to reach the minimum of 26 credits		

SCIENCE SPECIALIZED, MINOR

This minor may only be completed by students admitted to the Elementary Education (p. 1753) or the Elementary Education and Special Education (p. 1941) programs. A minor is not required to complete either program.

Minors provide a depth of study in a particular area of interest and also inform classroom instruction. The completion of a minor is required to teach middle school in some states and may benefit students particularly interested in teaching at this level.

Students may wish to consult with an advisor in the School of Education Student Services office, 139 Education Building, to discuss course selection and other issues related to this field of study. Current students can schedule a Student Services appointment online through the Starfish app (https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/) in MyUW. Appointments can also be made by calling 608-262-1651, or in person.

Upon completion, the subject area of the minor will be posted on the UW–Madison transcript. Students will not receive an additional certification or license in the subject area. The Wisconsin Department of Public Instruction does not offer content licenses in association with the Elementary Education or Special Education teaching licenses.

HOW TO GET IN

HOW TO GET IN

This minor may only be declared by students completing the Elementary Education or the Elementary Education and Special Education programs. To declare the minor, contact your academic advisor in the School of Education Student Services (https://education.wisc.edu/advising-and-careers/) any time after program admission.

REQUIREMENTS

REQUIREMENTS

In consultation with an SoE Student Services advisor (https://advising.education.wisc.edu/meet-with-us/) or the Elementary Education Program Manager, choose an 18-credit group of courses that will address a breadth of scientific disciplinary areas. These courses must include at least 9 credits in a single focal area and, across the 18 credits, courses from at least 3 of the 4 focal areas which include:

Life Sciences

Code	Title	Credits
Courses in BOTANY numbered 677 and below. (https://guide.wisc.edu/courses/botany/)		
Courses in MICROBIO numbered 677 and below. (https://guide.wisc.edu/courses/microbio/)		
Courses in ZOOLOGY numbered 677 and below. (https://guide.wisc.edu/courses/zoology/)		
Courses in F&W ECOL numbered 677 and below. (https://guide.wisc.edu/courses/f_w_ecol/)		

Physical Sciences

Code	Title	Credits
Courses in CHEM numbered 677 and below. (https://guide.wisc.edu/courses/chem/)		
Courses in BIOCHEM numbered 677 and below. (https://guide.wisc.edu/courses/biochem/)		
Courses in PHYSICS numbered 321 and below. (https://guide.wisc.edu/courses/physics/)		

Earth and Space Sciences

Code	Title	Credits
Astronomy Courses		
ASTRON 103	The Evolving Universe: Stars, Galaxies, and Cosmology	3
ASTRON 104	Our Exploration of the Solar System	3
ASTRON 140	Earth 2.0: The Exoplanet Revolution	3
ASTRON 150	Topics in Astronomy	2
ASTRON/ GEOSCI 160	Life in the Universe	2
ASTRON 170	The Dark Side of the Universe: The Great Cosmic Mysteries from Black Holes to Dark Energy	3
ASTRON 199	Directed Study	1-3
ASTRON 200	The Physical Universe	3
ASTRON 202	Introduction to Astronomy Research	1
ASTRON/ HIST SCI 206	History of Astronomy and Cosmology	3
ASTRON 236	The History of Matter in the Universe	3
ASTRON 310	Stellar Astrophysics	3
ASTRON 320	The Interstellar Medium	3
ASTRON 330	Galaxies	3
ASTRON 335	Cosmology	3
ASTRON 340	Solar System Astrophysics	3
ASTRON 460	Experiences in Astronomical Observing	1
ASTRON 465	Observational Astronomy and Data Analysis	3
ASTRON 500	Techniques of Modern Observational Astrophysics	3
ASTRON 540	Exoplanets	3
ASTRON 620	Seminar in Astrophysical Topics	1-3
Geography Courses		
GEOG/ ENVIR ST 120	Introduction to the Earth System	3
GEOG/ENVIR ST 127	Physical Systems of the Environment	4
GEOG 170	Our Digital Globe: An Overview of GIScience and its Technology	3
GEOG/ENVIR ST/ SOIL SCI 230	Soil: Ecosystem and Resource	3
GEOG/GEOSCI 320	Geomorphology	3
GEOG/ATM OCN/ ENVIR ST 322	Polar Regions and Their Importance in the Global Environment	3
GEOG/ATM OCN/ ENVIR ST 332	Global Warming: Science and Impacts	3
GEOG/ATM OCN/ ENVIR ST/ GEOSCI 335	Climatic Environments of the Past	3
GEOG 370	Introduction to Cartography	4
GEOG/ENVIR ST/ G L E/GEOSCI/ LAND ARC 371	Introduction to Environmental Remote Sensing	3
GEOG/GEOSCI 420	Glacial and Pleistocene Geology	3
GEOG 523	Advanced Paleoecology: Species Responses to Past Environmental Change	3
GEOG/ SOIL SCI 525	Soil Geomorphology	3
GEOG/ SOIL SCI 526	Human Transformations of Earth Surface Processes	3
Geoscience Courses		
GEOSCI 100	Introductory Geology: How the Earth Works	3
GEOSCI/ATM OCN/ ENVIR ST 102	Climate and Climate Change	3
GEOSCI/ ATM OCN 105	Survey of Oceanography	3-4
GEOSCI/ ENVIR ST 106	Environmental Geology	3
GEOSCI 109	Three billion years beneath your feet: Geology of the National Parks	3
GEOSCI 118	Eye in the Sky: Monitoring the Earth by Satellite	1
GEOSCI/ ATM OCN 140	Natural Hazards and Disasters	3
GEOSCI/ ASTRON 160	Life in the Universe	2
GEOSCI 202	Introduction to Geologic Structures	4
GEOSCI 204	Geologic Evolution of the Earth	4
GEOSCI/GEOG 320	Geomorphology	3
GEOSCI 331	Gems: The Science Behind the Sparkle	1-2
GEOSCI/ATM OCN/ ENVIR ST/ GEOG 335	Climatic Environments of the Past	3
GEOSCI/G L E 350	Introduction to Geophysics: The Dynamic Earth	3
GEOSCI/G L E 360	Principles of Mineralogy	3
GEOSCI/G L E 370	Elementary Petrology	3
GEOSCI/ENVIR ST/ G L E/GEOG/ LAND ARC 371	Introduction to Environmental Remote Sensing	3
GEOSCI 375	Principles of Geochemistry	3
GEOSCI 430	Sedimentology and Stratigraphy	3
GEOSCI/G L E 431	Sedimentology & Stratigraphy Lab	1
GEOSCI/CIV ENGR/ ENVIR ST/G L E 444	Practical Applications of GPS Surveying	2
GEOSCI/G L E 455	Structural Geology	4
GEOSCI 456	Geologic Field Methods	2
GEOSCI 457	Conducted Field Trip	2
Atmospheric and Oceanic Sciences Courses		

ATM OCN 100	Weather and Climate	3
ATM OCN 101	Weather and Climate	4
ATM OCN/ ENVIR ST/ GEOSCI 102	Climate and Climate Change	3
ATM OCN/ GEOSCI 105	Survey of Oceanography	3-4
ATM OCN/BSE/ SOIL SCI 132	Water and People	3
ATM OCN/ GEOSCI 140	Natural Hazards and Disasters	3
ATM OCN 141	Natural Hazards of Weather	2
ATM OCN/ ENVIR ST 171	Global Change: Atmospheric Issues and Problems	3
ATM OCN 201	Explorations of Atmospheric and Oceanic Sciences	2-3
ATM OCN 310	Dynamics of the Atmosphere and Ocean I	3
ATM OCN 311	Dynamics of the Atmosphere and Ocean II	3
ATM OCN/ ENVIR ST/ GEOG 322	Polar Regions and Their Importance in the Global Environment	3
ATM OCN 330	Physics of the Atmosphere and Ocean I	3
ATM OCN/ ENVIR ST/ GEOG 332	Global Warming: Science and Impacts	3
ATM OCN/ ENVIR ST/GEOG/ GEOSCI 335	Climatic Environments of the Past	3
ATM OCN 340	Physics of the Atmosphere and Ocean II	3
ATM OCN/ ENVIR ST 355	Introduction to Air Quality	3

SOCIAL STUDIES, MINOR

This minor may only be completed by students admitted to the Elementary Education (p. 1753) or the Elementary Education and Special Education (p. 1941) programs. A minor is not required to complete either program.

Minors provide a depth of study in a particular area of interest and also inform classroom instruction. The completion of a minor is required to teach middle school in some states and may benefit students particularly interested in teaching at this level.

Students may wish to consult with an advisor in the School of Education Student Services office, 139 Education Building, to discuss course selection and other issues related to this field of study. Current students can schedule a Student Services appointment online through the Starfish app (https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/) in MyUW. Appointments can also be made by calling 608-262-1651, or in person.

Upon completion, the subject area of the minor will be posted on the UW–Madison transcript. Students will not receive an additional certification or license in the subject area. The Wisconsin Department of Public Instruction does not offer content licenses in association with the Elementary Education or Special Education teaching licenses.

HOW TO GET IN

HOW TO GET IN

This minor may only be declared by students completing the Elementary Education or the Elementary Education and Special Education programs. To declare the minor, contact your academic advisor in the School of Education Student Services (https://education.wisc.edu/advising-and-careers/) any time after program admission.

REQUIREMENTS

REQUIREMENTS

Complete 18 credits to include the requirements listed below. A minimum 2.75 grade point average is required, based on all UW–Madison course work included in the Social Studies minor. The courses listed here will meet this requirement, but additional courses may be considered. Confer with an advisor in the School of Education Student Services (https://advising.education.wisc.edu/meet-with-us/) office for consideration of additional courses.

Some courses may be listed in multiple categories, but can count in only one.

HISTORY/CIVILIZATIONS

United States or European History (3-4 credits)

Select one course from the following.

United States or European History course options

Code	Title	Credits
African American Studies		
AFROAMER 154	Hip-Hop and Contemporary American Society	3
AFROAMER 156	Black Music and American Cultural History	3
AFROAMER 231	Introduction to African American History	3
AFROAMER 272	Race and American Politics from the New Deal to the New Right	3
AFROAMER/ AFRICAN/HISTORY/ POLI SCI 297	African and African-American Linkages: An Introduction	4
AFROAMER 302	Undergraduate Studies in Afro-American History	3
AFROAMER/ HISTORY 321	African American History Since 1900	3-4
AFROAMER/ HISTORY 322	African American History to 1900	3
AFROAMER/ GEN&WS 323	Gender, Race and Class: Women in U.S. History	3
AFROAMER/ GEN&WS 324	Black Women in America: Reconstruction to the Present	3
AFROAMER/ GEN&WS 326	Race and Gender in Post-World War II U.S. Society	3

ELECTIVES (3 CREDITS)

Choose additional electives to reach the minimum of 18 credits. Electives must be chosen from the courses listed above or from the departments of Economics (https://guide.wisc.edu/courses/econ/), Geography (https://guide.wisc.edu/courses/geog/), History (https://guide.wisc.edu/courses/history/), Political Science (https://guide.wisc.edu/courses/poli_sci/), Psychology (https://guide.wisc.edu/courses/psych/) and Sociology (https://guide.wisc.edu/courses/soc/).

Note: some courses may be listed in multiple categories, but can count in only one category.

SOCIOLOGY, MINOR

The Sociology minor no longer admits new students after Fall 2027 and the program will be discontinued Fall 2029. Students already admitted may only complete and be awarded this minor through Summer 2029. If you have any questions please contact the program.

This minor may only be completed by students admitted to the Elementary Education (p. 1753) or the Elementary Education and Special Education (p. 1941) programs. A minor is not required to complete either program.

Minors provide a depth of study in a particular area of interest and also inform classroom instruction. The completion of a minor is required to teach middle school in some states and may benefit students particularly interested in teaching at this level.

The Department of Sociology (https://sociology.wisc.edu) is housed in the College of Letters & Science. Students may wish to consult with the undergraduate advisor (https://sociology.wisc.edu/undergraduate-program/academic-advising/) in the department to discuss course selection and other issues related to this field of study.

Upon completion, the subject area of the minor will be posted on the UW–Madison transcript. Students will not receive an additional certification or license in the subject area. The Wisconsin Department of Public Instruction does not offer content licenses in association with the Elementary Education or Special Education teaching licenses.

HOW TO GET IN

HOW TO GET IN

The Sociology minor no longer admits new students after Fall 2027 and the program will be discontinued Fall 2029. Students already admitted may only complete and be awarded this minor through Summer 2029. If you have any questions please contact the program.

This minor may only be declared by students completing the K-9 Elementary Education or the Elementary Education and Special Education programs. To declare the minor, contact your academic advisor in Education Student Services any time after program admission.

REQUIREMENTS

REQUIREMENTS

Complete a minimum of 24 credits. A minimum cumulative grade point average of 2.75 is required, based on all Sociology minor coursework taken on the UW–Madison campus.

FOUNDATIONAL CORE COURSES

Introduction

Select one of the following:

Code	Title	Credits
SOC/C&E SOC 210	Survey of Sociology	3-4
SOC/C&E SOC 211	The Sociological Enterprise	3
SOC 181	Honors Introductory Seminar-The Sociological Enterprise	3-4

Research Methods and Statistics

Students may take methods and statistics in the same semester. If students take methods and statistics in different semesters, it is recommended that methods be taken before statistics. This will provide a better entry point to the methods and materials of the field.

Code	Title	Credits
Research Methods		
SOC/C&E SOC 357	Methods of Sociological Inquiry	3-4
Statistics		
Complete one of the following statistics courses:		3-4
SOC/ C&E SOC 360	Statistics for Sociologists I	
ECON 310	Statistics: Measurement in Economics	
MATH/STAT 310	Introduction to Probability and Mathematical Statistics II	
PSYCH 210	Basic Statistics for Psychology	
STAT 301	Introduction to Statistical Methods	
STAT 371	Introductory Applied Statistics for the Life Sciences	

Classical Theory

Code	Title	Credits
SOC/C&E SOC 475	Classical Sociological Theory	3

DISTRIBUTION REQUIREMENTS

Select **at least one course from two of the following groups** of departmental offerings. Courses used to meet the requirements above may not be applied to this requirement. Courses that appear in more than one area may fulfill only one area requirement.

Additional Methods/Statistics

Code	Title	Credits
SOC 351	Introduction to Survey Methods for Social Research	3
SOC/C&E SOC 361	Statistics for Sociologists II	4
SOC 362	Statistics for Sociologists III	4
SOC/C&E SOC 365	Data Management for Social Science Research	3-4
SOC 375	Introduction to Mathematical Sociology	3
SOC 461	Study Abroad in Additional Methods and Statistics [1]	1-6
SOC/C&E SOC 618	Social Network Analysis	3
SOC 631	Applied Qualitative Methods for Social Science	3-4

[1] This course, taken abroad, could be a UW–Madison sociology course in the designated area although it is not a direct equivalent to a departmental offering.

Theory

Code	Title	Credits
SOC/ILS/ JEWISH 423	Modern Jewish Thought	3
SOC 462	Study Abroad in Additional Theory [1]	1-6
SOC 476	Contemporary Sociological Theory	3

[1] This course, taken abroad, could be a UW–Madison sociology course in the designated area although it is not a direct equivalent to a departmental offering.

Deviant Behavior

Code	Title	Credits
SOC/GEN&WS/ LEGAL ST 406	Law, Sexuality, & Society	3-4
SOC 421	Processes of Deviant Behavior	3-4
SOC/ SOC WORK 422	Social Issues in Aging	3
SOC/GEN&WS/ LEGAL ST 425	Crime, Gender and Justice	3
SOC/CHICLA/ LEGAL ST 440	Ethnicity, Race, and Justice	3-4
SOC 441	Criminology	3-4
SOC/CHICLA/ LEGAL ST 443	Immigration, Crime, and Enforcement	3-4
SOC 446	Juvenile Delinquency	3-4
SOC 463	Study Abroad in Deviant Behavior [1]	1-6

[1] This course, taken abroad, could be a UW–Madison sociology course in the designated area although it is not a direct equivalent to a departmental offering.

Social Psychology

Code	Title	Credits
SOC 444	Social Psychology: A Sociological Perspective	3-4
SOC/PSYCH 453	Human Sexuality	4
SOC 464	Study Abroad in Social Psychology [1]	1-6
SOC/C&E SOC 532	Health Care Issues for Individuals, Families and Society	3
SOC/C&E SOC 533	Public Health in Rural & Urban Communities	3
SOC 535	Talk and Social Interaction	3
SOC 543	Collective Behavior	3

SOC/C&E SOC 573	Community Organization and Change	3
SOC 575	Sociological Perspectives on the Life Course and Aging	3
SOC/AMER IND/ C&E SOC 578	Poverty and Place	3

[1] This course, taken abroad, could be a UW–Madison sociology course in the designated area although it is not a direct equivalent to a departmental offering.

Social Organization

Code	Title	Credits
SOC/ASIAN 336	Social Change in Contemporary South Korea	3
SOC 465	Study Abroad in Social Organization [1]	1-6
SOC/CHICLA 470	Sociodemographic Analysis of Mexican Migration	3
SOC/C&E SOC/ URB R PL 617	Community Development	3
SOC 624	Political Sociology	3
SOC 626	Social Movements	3
SOC/C&E SOC 630	Sociology of Developing Societies/ Third World	3
SOC 632	Sociology of Organizations	3-4
SOC 633	Social Stratification	3
SOC 640	Sociology of the Family	3
SOC/LAW/ LEGAL ST 641	Sociology of Law	3-4
SOC/C&E SOC/ URB R PL 645	Modern American Communities	3
SOC 647	Sociology of Sport	3
SOC/ED POL 648	Sociology of Education	3
SOC/C&E SOC 650	Sociology of Agriculture	3
SOC/C&E SOC 652	Sociology of Economic Institutions	3
SOC/HISTORY 670	Capitalism, Socialism, and Democracy in America Since 1890	3-4
SOC 678	Sociology of Persecution	3

[1] This course, taken abroad, could be a UW–Madison sociology course in the designated area although it is not a direct equivalent to a departmental offering.

Demography and Ecology

Code	Title	Credits
SOC 460	Study Abroad in Demography and Ecology [1]	1-6
SOC 575	Sociological Perspectives on the Life Course and Aging	3
SOC 674	Demographic Techniques I	3

[1] This course, taken abroad, could be a UW–Madison sociology course in the designated area although it is not a direct equivalent to a departmental offering.

Community and Environmental Sociology

Code	Title	Credits
SOC/C&E SOC 533	Public Health in Rural & Urban Communities	3
SOC/C&E SOC/ ENVIR ST 540	Sociology of International Development, Environment, and Sustainability	3
SOC/C&E SOC 541	Environmental Stewardship and Social Justice	3
SOC/C&E SOC 573	Community Organization and Change	3
SOC 575	Sociological Perspectives on the Life Course and Aging	3
SOC/AMER IND/ C&E SOC 578	Poverty and Place	3
SOC/C&E SOC/ URB R PL 617	Community Development	3
SOC/C&E SOC 650	Sociology of Agriculture	3

ELECTIVES

Additional coursework, if needed, to reach the minimum of 24 credits.

DANCE

Students who pursue an undergraduate degree in dance gain an in-depth understanding and mastery of dance as an art form and an area of scholarly inquiry. Dance courses focus on the study of various dance techniques and movement practices, dance repertory, performance, improvisation, composition, movement analysis, body studies, dance history, dance and politics, dance and identity, and dance writing. Dance courses at the University of Wisconsin–Madison stress personal creativity, individual growth, strong technical training, and historical, theoretical, and interdisciplinary knowledge.

Two undergraduate options are offered in dance. The Bachelor of Fine Arts - Dance (p. 1814) (BFA) undergraduate degree program in dance is for students with a strong interest and aptitude in dance and/or professional dance theater. The Bachelor of Science–Dance (https://guide.wisc.edu/undergraduate/education/dance/dance-bs/) option is designed for students who wish to combine their interest in dance with other fields of study, or to prepare for graduate work in dance studies or related disciplines. Students are admitted to the degree program in dance by audition (https://dance.wisc.edu/admissions-and-aid/).

The Department of Dance also offers five certificate programs open to students across the campus: a general certificate in Dance (https://guide.wisc.edu/undergraduate/education/dance/dance-certificate/), a certificate in Dance Education (p. 1812), one in Dance Studies (p. 1813), a certificate in Dance/Movement Therapy (https://guide.wisc.edu/undergraduate/education/dance/introductory-studies-dance-movement-therapy-certificate/), and another in Pilates (https://guide.wisc.edu/undergraduate/education/dance/pilates-certificate/).

A teacher certification minor in Dance Education (p. 1812) is also available for students enrolled in another undergraduate teacher education program.

DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/CERTIFICATES

- Dance Education, Certificate (p. 1812)
- Dance Education, Minor (p. 1812)
- Dance Studies, Certificate (p. 1813)
- Dance, BFA (p. 1814)
- Dance, BS (p. 1829)
- Dance, Certificate (p. 1844)
- Introductory Studies in Dance/Movement Therapy, Certificate (p. 1845)
- Pilates, Certificate (p. 1846)

DANCE EDUCATION, CERTIFICATE

The Certificate in Dance Education provides students with specialized knowledge specific to the field of dance education. Students are prepared for a wide variety of careers that involve teaching dance or integrating dance in the classroom.

Careers specific to dance include: teaching in private dance studios, community centers, non-profit organizations, public schools, after school programs, fitness centers, and within professional companies. Careers that are non-specific to dance include: community based programs, physical education, arts education, theatre education, music education, and non-arts education in elementary education and secondary education.

Courses will enhance skills for current dance majors to add pedagogy to their dance understandings and provide dance understandings to students majoring other areas, including elementary education and physical education.

This certificate is also available to individuals who have already completed a bachelor's degree; see the Nondegree/Visiting Student Guide (https://guide.wisc.edu/nondegree/). Current educators wishing to incorporate dance and movement in their classrooms may enroll in this unique opportunity to develop expertise in dance and creative movement for the classroom.

HOW TO GET IN

HOW TO GET IN

All current UW-Madison undergraduates in good academic standing are eligible to complete the Dance Education Certificate. BS, BFA, and Certificate candidates in Dance are eligible for the Dance Education Certificate. University Special students who have previously completed any Bachelor's degree, are also eligible to pursue this certificate.

Students must meet with the Dance Education Certificate Advisor to discuss their intention to pursue the certificate. Appointments may be arranged via email. To declare the certificate, students must also complete the application form located on the School of Education's Certificate Programs (https://education.wisc.edu/academics/certificates/) page.

REQUIREMENTS

REQUIREMENTS

The Certificate in Dance Education requires the following course distribution for a minimum of 14 credits.

Code	Title	Credits
DANCE 156	Movement as Material Through Improvisation	2
DANCE 274	Methods in Dance Education	3
DANCE 373	Introduction to Dance and Community	3
DANCE 374	Teaching Dance	3
DANCE 379	Dance Teaching Practicum	3
Total Credits		**14**

RESIDENCE AND QUALITY OF WORK

- At least 7 credits must be completed in residence.
- Minimum 2.000 GPA on all certificate courses.

UNDERGRADUATE/SPECIAL STUDENT CERTIFICATE

This certificate may be completed within the context of an undergraduate degree or as a Special student after an undergraduate degree has been awarded from any institution. The certificate may be completed in its entirety while enrolled as a Special student. Candidates are encouraged to contact the certificate coordinator to discuss course enrollment and the sequencing of certificate requirements.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Gain a working knowledge of historical and progressive approaches, theories, and methodologies to teaching dance across diverse community settings.
2. Engage with dance and dance education as embodied forms of artistry and vehicles for learning, self discovery, empowerment, and transformation.
3. Analyze dance education in relation to the social and cultural circumstances in which it is embedded.
4. Integrate social-emotional, kinesthetic motor, and cognitive development with trauma-informed and culturally sustaining practices through dance lesson planning, implementation, and ongoing critical assessment.

DANCE EDUCATION, MINOR

The Minor in Dance Education allows students majoring in Art Education, Elementary Education, Elementary Education and Special Education, Physical Education or Special Education to obtain an additional teacher certification in Dance. Courses and field placements provide the

knowledge, skills, and dispositions to teach dance specific classes and integrate dance in other classroom settings.

Students will acquire specialized knowledge specific to the field of dance education, allowing them to teach dance designated courses, run extra-curricular programs, and integrate dance in arts, elementary, physical education and special education classrooms.

HOW TO GET IN

HOW TO GET IN

Upon admission into their undergraduate teacher education degree program in the School of Education, students should meet immediately with the Dance Education Advisor to develop a course completion schedule. Eligible undergraduate teacher education degree programs include: Art Education (https://guide.wisc.edu/undergraduate/education/art/art-education-bs/), Elementary Education (https://guide.wisc.edu/undergraduate/education/curriculum-instruction/elementary-education-bse/), Elementary Education and Special Education (p. 1941), Physical Education (https://guide.wisc.edu/undergraduate/education/kinesiology/physical-education-bs/), and Special Education (https://guide.wisc.edu/undergraduate/education/rehabilitation-psychology-special-education/special-education-bse/).

Students should meet with the Dance Education Advisor to declare the Dance Education minor; see contact Information for details.

REQUIREMENTS

REQUIREMENTS

The minor in Dance Education requires the following course distribution for a total of 14 credits:

Code	Title	Credits
DANCE 156	Movement as Material Through Improvisation	2
DANCE 274	Methods in Dance Education	3
DANCE 373	Introduction to Dance and Community	3
DANCE 374	Teaching Dance	3
DANCE 379	Dance Teaching Practicum	3
Total Credits		**14**

DANCE STUDIES, CERTIFICATE

The Dance Studies Certificate is for any undergraduate student interested in the exploration of dance from an interdisciplinary, academic approach — to understand its political, social, and historical significance. The certificate is designed to enhance a student's main area of study and provide knowledge and skills in the analysis, interpretation, and contextualization of dance and movement in society and culture.

Courses in writing, body studies, history, and theory will prepare students to integrate the physical and theoretical knowledge of dance in written, oral, and embodied forms.

This program was designed for students in a broad range of disciplines including the arts, humanities, and social sciences. Students who wish to integrate dance research into their existing degree program, those considering graduate study in dance studies or a related field in the arts and humanities, including art history, theatre studies, performance studies, or cultural studies, will benefit from this program.

This certificate program is flexible and can be completed primarily through summer coursework. Students can opt to complete the majority of the courses online, primarily in the summers, or through a mix of online and in-person courses in the summers and academic year.

HOW TO GET IN

HOW TO GET IN

All current UW-Madison undergraduates are eligible to complete the Dance Studies Certificate. BS, BFA, and Certificate candidates in Dance are eligible for the Dance Studies Certificate as long as there is zero overlap of coursework. Undergraduate students in good academic standing may declare this certificate. University Special students who started as an undergraduate at UW-Madison, but graduated before completing the requirements are also eligible for this certificate.

Students should meet with the Dance Studies Certificate Advisor to discuss their intention to pursue the certificate. Appointments may be arranged via email. To declare the certificate, students must also complete the application form location on the School of Education's Certificate Programs (https://education.wisc.edu/academics/certificates/) page.

REQUIREMENTS

REQUIREMENTS

The Dance Studies Certificate requires the following course distribution for a minimum of 14 credits. At least 7 credits must be completed in residence. Completion of the certificate requires a minimum GPA of 2.0 in certificate coursework.

FOUNDATIONAL COURSE

All students are required to complete the following:

Code	Title	Credits
DANCE 200	Writing the Moving Body	3

BODY STUDIES

Select 2 credits from the following:

Code	Title	Credits
DANCE 110	Workshop in Dance Activity	1-2
DANCE 101	Social Dance I	1
DANCE 102	Social Dance II	1
DANCE 103	Modern Jazz Dance	1
DANCE 105	Ballet I	1
DANCE 106	Ballet II	1
DANCE 107	Contemporary Dance I	1

DANCE 365	Dance History II: Directions and Issues of Contemporary Dance	3

ETHNIC STUDIES BREADTH

Select 3 credits from the following:

Code	Title	Credits
DANCE/ ASIAN AM 121	Asian American Movement	3
DANCE/ AFROAMER/ MUSIC 318	Cultural Cross Currents: West African Dance/Music in the Americas	3

UNDERGRADUATE/SPECIAL STUDENT CERTIFICATE

This certificate is intended to be completed in the context of an undergraduate degree and for those seeking this certificate that is preferred. For students who have substantially completed this certificate at UW–Madison and may need one or two courses to complete the certificate, they may do so immediately after completion of the bachelor's degree by enrolling in the course as a University Special (nondegree) student. The certificate must be completed within a year of completion of the bachelor's degree. Students should keep in mind that University Special students have the last registration priority and that may limit availability of desired courses. Financial aid is not available when enrolled as a University Special student to complete an undergraduate certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Gain understanding of the main approaches and methodologies of the field of dance studies as an academic approach to dance with an interdisciplinary focus.
2. Engage with dance as a site through which cultural, social, and political identities are constructed, manifested, and negotiated.
3. Analyze dance in relation to the social, cultural, and historical circumstances in which it is embedded.
4. Integrate physical and theoretical knowledge of dance in written, oral, and embodied forms.

DANCE, BFA

Students pursuing the BFA in Dance gain in-depth knowledge of dance as an art form and an area of scholarly inquiry. The degree prepares students for careers in professional dance and provides a foundation for teaching in K-12 and higher education, dance entrepreneurship, dance/movement therapy, Pilates, the health and fitness industry, arts administration, as well as many other fields.

The Bachelor of Fine Arts (BFA) in Dance requires a minimum of 85 major credits and is designed for students who wish to spend more time preparing for a professional career in dance.

A dance degree at UW–Madison offers opportunities to:

- Study with a world-class faculty, with excellent teacher-student ratios.
- Perform frequently in faculty and student-choreographed works, in state-of-the-art facilities.
- Experience an interdisciplinary approach that connects dance to the arts and humanities, as well as the social, biological, physical, and biological social sciences.
- Earn scholarship and award funding for study in the academic year and summer, including departmental awards for honors study.
- Work with nationally and internationally renowned guest artists and master class instructors, such as the Bill T. Jones/Arnie Zane Dance Company, Pilobolus, Meredith Monk, Elizabeth Streb, David Parsons, Sean Curran, Danielle Russo, Carrie Hanson, Joe Goode, Susan Marshall, Kun-Yang Lin, and Tim Miller, Abdel Salaam/Forces of Nature.
- Train intensively in choreography to create solo and group works for performance.

An audition is required to declare a dance degree. Auditions are held in August, November, and February.

The Dance Department also offers five certificates: a general certificate in Dance (https://guide.wisc.edu/undergraduate/education/dance/dance-certificate/), a certificate in Dance Education (p. 1812), one in Dance Studies (p. 1813), a certificate in Dance/Movement Therapy (https://guide.wisc.edu/undergraduate/education/dance/introductory-studies-dance-movement-therapy-certificate/), and another certificate in Pilates (https://guide.wisc.edu/undergraduate/education/dance/pilates-certificate/). A teacher certification minor in Dance Education (p. 1812) is also available for students enrolled in another undergraduate teacher education program.

HOW TO GET IN

HOW TO GET IN

PROGRAM ADMISSION OVERVIEW

All students wishing to major in dance must complete a performance audition to be admitted to the program. Consult the Dance department website (http://www.dance.wisc.edu/dance/admissions/how-to-apply/) for more detailed information about the audition process.

ENTERING THE SCHOOL OF EDUCATION

New and Current UW–Madison Students

On-campus students wishing to be admitted to one of the dance program options must audition and also have earned a minimum 2.5 grade point average. On-campus students should obtain and submit a signed Professional Program Application (http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission/), to the School of Education Student Services office, Room 139 Education Building, 1000 Bascom Mall, at any time during the academic year. The application must be signed by the appropriate dance department advisor.

Prospective Transfer Students

Applicants not already enrolled on the UW–Madison campus must be admissible to the university to enroll in a School of Education program. Admission to UW–Madison requires a separate application and admission process. See UW–Madison Office of Admissions and Recruitment (http://admissions.wisc.edu/) for application information.

Prospective transfer students should meet as early as possible with a dance department advisor and with an advisor in the School of Education Student Services office. Coursework taken at another institution may need to be evaluated by a faculty or staff member in dance. Transfer students must audition to be admitted to one of the dance program options. Prospective transfer students are strongly advised to meet with an advisor in the School of Education Student Services office in advance of their application; to schedule, call 608-262-1651.

Students with a previous degree

Prospective applicants who already hold an undergraduate degree are strongly encouraged to meet with a School of Education advisor in advance of their application. Consultations with advisors are available in person or via telephone; to schedule, call 608-262-1651.

Applicants who already hold an undergraduate degree are admitted to the School of Education as either an *Education Special student* or a *second degree student*, depending on their interests and academic background. Admission as an Education Special student indicates that the student has an interest in pursuing certification in a subject area studied during the initial degree; another degree is not awarded for this "certification only" coursework. Second degree students are seeking a second, unrelated degree from the School of Education, which may, or may not, include teacher certification. Candidates for limited enrollment programs must meet all admission eligibility requirements for the program and must compete with the eligible applicants for program admission. More information is available here (p. 1662).

ADMISSION AND APPLICATION

Criteria for Admission

Requirements and selection criteria may be modified from one application/admission period to the next. Eligibility for consideration:

- The dance department currently admits students to its programs only through a performance audition.
- Cumulative grade point average of at least a 2.50 (on a 4.00 scale).[1]
- On-campus transfer students must have a cumulative grade point average of at least a 2.5 on the UW–Madison campus, as modified by the Last 60 Credits Rule.
- Submission of all required application materials, including the dance program application and any required transcripts.

[1] A comprehensive cumulative GPA of all college-level, transferrable coursework attempted on both the UW–Madison campus coursework and coursework taken at any other colleges or universities may be calculated for the exclusive purpose of establishing an applicant's

eligibility for consideration. Both the comprehensive cumulative GPA and the comprehensive cumulative GPA based on a student's last 60 credits may be calculated. See Last 60 Credits Rule (detailed below). If admitted, students must earn the minimum cumulative GPA for UW–Madison coursework established by their program and the School of Education each semester after admission.

Last 60 Credits Rule
Two grade point averages will be calculated to determine candidates' eligibility to programs. GPAs will be calculated using

- all transferable college level coursework attempted, and
- the last 60 credits attempted.

The higher GPA of these two will be used for purposes of determining eligibility. If fewer than 60 credits have been attempted, all credits will be used to calculate the GPA. Graded graduate coursework will also be used in all GPA calculations. ("Attempted" coursework indicates coursework for which a grade has been earned.) More information on this rule is available here (p. 1662).

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

SCHOOL OF EDUCATION DEGREE REQUIREMENTS

COMMUNICATION: BREADTH AND DEPTH

Courses designated as Communication A (Comm A) and Communication B (Comm B) help students learn how to gather and assess information from a variety of sources and to present different kinds of information, insight, and analysis to diverse audiences. Comm A courses focus on essential communication skills and Comm B courses teach research, writing, and communication skills within a disciplinary area.

Communication A	Complete either: • one course with the Communication A designation, or • satisfaction of Communication A based on UW Placement Test.
Communication B	One course with the Communication B designation.

QUANTITATIVE REASONING: BREADTH AND DEPTH

Quantitative Reasoning A courses provide students with foundational skills in mathematics, computer science, statistics or formal logic that are needed for dealing with quantitative information. In Quantitative Reasoning B courses, students use quantitative tools in the context of other disciplines or course material.

Quantitative Reasoning A	Complete either: • one course with the Quantitative Reasoning A designation, or • satisfaction of Quantitative Reasoning A based on UW Placement Test.
Quantitative Reasoning B	One course with the Quantitative Reasoning B designation.

LIBERAL STUDIES REQUIREMENTS

All students are required to complete a minimum of 40 credits of Liberal Studies (p. 1670) coursework. This requirement provides an opportunity to do some academic exploration beyond the scope of the major. Students take courses in areas of particular interest and also have an opportunity to sample the wide selection of courses offered across the university. Coursework is required in humanities, social studies (social science), science, and cultural and historical studies. Some elective coursework is also needed to reach the required number of credits.

The School of Education's Liberal Studies requirements can be used to satisfy the campus-wide Core General Education requirements. Communication A and B, and Quantitative Reasoning A and B coursework can also be used towards Core General Education and other requirements. Academic advisors can suggest courses that will count in multiple places.

A basic outline of the liberal studies is included below. Students must consult the detailed version of the requirements (p. 1670) for more information about course selection and how the liberal studies requirements apply to this major.

Are you interested in switching to the School of Education? If so, you should run a "what-if" DARS report. (https://kb.wisc.edu/registrar/94068/) It will show how many of these requirements you have already met and are unmet.

Humanities

Complete a minimum of 9 credits from these categories.

Literature	Complete a course with the Literature designation, minimum of 2 credits
Fine Arts	Complete a minimum of 2 credits from the list of courses below.
Humanities	Courses to total 9 Humanities credits. Select from: • Courses with the Humanities or Literature designation. • Fine Arts courses from the list below. • Courses with the Language courses designation. • ENGL 201 • ENGL 207 • COM ARTS 181

Fine Arts Courses

Code	Title	Credits
AFRICAN/ AFROAMER 220	HipHop, Youth Culture, and Politics in Senegal	3
AFRICAN/ AFROAMER 233	Global HipHop and Social Justice	3

Social Studies

Social Studies	Complete 9 credits with the Social Science designation.

The following programs have specific requirements:

- Kinesiology: PSYCH 202
- Art Education, Elementary Education, Elementary Education and Special Education, Physical Education, Special Education: POLI SCI 104 or 205

Science

Complete a minimum of 9 credits, including Physical and Biological Science. A laboratory science course is also required. The lab course can count toward the Biological or Physical Science requirement if it has the requisite breadth designation.

Physical Science	Complete one course with the Physical Science designation.
Biological Science	Complete one course with the Biological Science designation.
Lab Science	Complete one course with the Biological, Physical, or Natural Science designation with a lab component; see Course Search and Enroll. Additional eligible courses are listed below.
Science Elective(s)	If needed, complete a course with the Biological, Physical, or Natural Science designation to total 9 Science credits.

Laboratory Courses

Code	Title	Credits
ANTHRO 105	Principles of Biological Anthropology	3
ATM OCN 101	Weather and Climate	4
BOTANY 100	Survey of Botany	3
BOTANY/PL PATH 123	Plants, Parasites, and People	3
FOOD SCI/ MICROBIO 324	Food Microbiology Laboratory	2
GEOSCI 100	Introductory Geology: How the Earth Works	3
PHYSICS 109	Physics in the Arts	3
PLANTSCI 110	Introduction to Plant Science and Technology	4

Cultural and Historical Studies

Complete three requirements met by separate courses. Any of these courses can also be used to meet other requirements if it has the relevant breadth designation. A single course cannot satisfy more than one of the three Cultural and Historical Studies requirements listed below.

Ethnic Studies	Complete 3 credits with the Ethnic Studies Designation.
United States or European History	Complete 3 credits from the list of courses below.
Global Perspectives	Complete 3 credits from the list of courses below.

Liberal Studies Electives

Liberal Studies Electives	Complete additional liberal studies coursework as needed to reach the required 40 Liberal Studies credits.

PROGRAM STRUCTURE

The BFA degree in Dance has four components:

- *Liberal studies* courses expose students to a broad range of academic disciplines. The university-wide *General Education* requirements also encourage this breadth of study.
- *Discipline-related coursework* provides an interdisciplinary foundation contributing to the performance and understanding of this art form.
- *Major* requirements offer an in-depth study of dance.
- *Elective* credits allow students to pursue areas of interest and complete the minimum number of credits required for the degree.

DISCIPLINE-RELATED REQUIREMENTS

Code	Title	Credits
DANCE 200	Writing the Moving Body	3
Complete one of the following:		2
DANCE 330	Functional Anatomy for Movement Practices	
KINES 227	Introduction to Clinical Anatomy of Human Movement	
ANAT&PHY 338	Human Anatomy Laboratory	

MAJOR REQUIREMENTS

Complete a minimum of 85 credits. At least 15 upper-level major Dance credits (numbered 300 and above) must be taken in residence on the UW–Madison campus.

New first-year Dance–BS and BFA students should expect to register for three 100-level foundational major courses: DANCE 111 Contemporary Dance Technique and Theory I, DANCE 115 Hip-Hop Dance Technique and Theory 1, DANCE 125 Ballet Technique I, and DANCE 162 First Year Workshop for a total of 8 credits. These courses are taken by all dance majors in their first year, regardless of previous dance training and experience. The classes prepare students for advanced study in dance and movement technique. Dance majors are assured enrollment in these courses. DANCE 165 Introduction to the Histories of Dance is also strongly recommended for the first semester; this course will meet the Global Perspectives requirement in liberal studies.

DANCE TECHNIQUE AND THEORY

Contemporary Dance Technique and Theory

Select a minimum of 18 credits from the following; 9 credits must be numbered DANCE 311 Contemporary Dance Technique and Theory V or higher:

Code	Title	Credits
DANCE 111	Contemporary Dance Technique and Theory I	
DANCE 112	Contemporary Dance Technique and Theory II	
DANCE 211	Contemporary Dance Technique and Theory III	
DANCE 212	Contemporary Dance Technique and Theory IV	
DANCE 311	Contemporary Dance Technique and Theory V	
DANCE 312	Contemporary Dance Technique and Theory VI	
DANCE 410	Contemporary Dance Forms	

Ballet Technique

Select a minimum of 14 credits from the following; 10 credits must be numbered DANCE 225 Ballet Technique II or higher:

Code	Title	Credits
DANCE 125	Ballet Technique I	
DANCE 126	Ballet Technique I-B	
DANCE 225	Ballet Technique II	
DANCE 226	Ballet Technique II-B	
DANCE 325	Ballet Technique III	
DANCE 326	Ballet Technique III-B	

Additional Techniques

Select a minimum of 6 credits of the following. Students may also select from Additional Techniques workshops listed under DANCE 110 Workshop in Dance Activity or DANCE 560 Current Topics in Dance: Workshop. Jazz and Ballroom courses do not count toward this requirement.

Code	Title	Credits
DANCE 101	Social Dance I	1
DANCE 102	Social Dance II	1
DANCE 103	Modern Jazz Dance	1
DANCE 110	Workshop in Dance Activity (Sections numbered 010 and above)	1-2

DANCE 110	Workshop in Dance Activity (Hip Hop)	1-2
DANCE 110	Workshop in Dance Activity (Tai Ji)	1-2
DANCE 115	Hip-Hop Dance Technique and Theory 1	1-2
DANCE 118	African Dance	1
DANCE/ ASIAN AM 121	Asian American Movement	3
DANCE/ AFROAMER/ MUSIC 318	Cultural Cross Currents: West African Dance/Music in the Americas	3
DANCE/ AFROAMER/ ASIAN AM/ FOLKLORE 319	Afro Asian Improv: From Hip Hop to Martial Arts Fusion	3

BODY STUDIES

Code	Title	Credits
DANCE 131	Somatic Theory and Practices	2
Select 4 credits of the following:		4
DANCE 110	Workshop in Dance Activity (Yoga)	
DANCE 132	Workshop in Body Studies and Practices	
DANCE 135	Pilates Mat I	
DANCE 235	Pilates Mat II	
DANCE 136	Pilates Equipment I	
DANCE 236	Pilates Equipment II	
DANCE 213	New Movement Techniques	

CRITICAL AND CREATIVE INVESTIGATIONS

Code	Title	Credits
DANCE 140	Dance Production	2
MUSIC 151	Basic Concepts of Music Theory	3
DANCE 156	Movement as Material Through Improvisation	2
DANCE 157	Introduction to Movement Analysis	2
DANCE 162	First Year Workshop	1
DANCE 241	Music Fundamentals for Dancers	3
DANCE 255	Movement Composition for the Performing and Visual Arts	2
DANCE 265	Dance History I: Dance in the Modern Era	3
Design - Complete one of the following:		3-4
DANCE/ART 341	Sound Design for the Performing and Visual Arts	
DANCE 345	Screendance Production	
ART 318	Introduction to Video, Performance & Installation Art	
ART 518	Artist's Video	
ART 531	Screen Performance	
DANCE 355	Dance Composition II	3
DANCE 365	Dance History II: Directions and Issues of Contemporary Dance	3
DANCE 374	Teaching Dance	3
Dance Repertory Theater - Complete 6 credits from the following:		6
DANCE 451	Dance Repertory Theater	
DANCE 452	Dance Repertory Theater	
DANCE 453	Dance Repertory Theater	
DANCE 455	Dance Composition III	2
DANCE 462	Senior Seminar	3

PUBLIC PRESENTATIONS

BFA students must create one solo and one group piece (trio or larger) after the completion of DANCE 255 Movement Composition for the Performing and Visual Arts. These works must be submitted for faculty approval and publicly presented in concert. Senior projects must be presented in an approved public forum.

ELECTIVE CREDITS

Complete additional coursework, if necessary, to reach the minimum of 125 credits. DANCE 165 Introduction to the Histories of Dance is recommended and will meet the Global Perspectives requirement in liberal studies.

GPA AND OTHER GRADUATION REQUIREMENTS

GRADUATION REQUIREMENTS

Requirements are based on UW–Madison coursework.

- 2.75 minimum cumulative grade point average. This may be modified by the Last 60 Credits Rule (p. 1662).
- 2.75 cumulative grade point average in all major coursework
- 2.50 cumulative grade point average in all upper-level major coursework. Dance courses numbered 300 and above are considered to be upper-level courses.
- Major Residency. Students must complete a minimum of 15 upper-level major credits on the UW–Madison campus.
- Senior Residency. Degree candidates must complete their last 30 credits in residence on the UW–Madison campus, excluding retroactive credits and credits granted by examination.
- A minimum of 125 credits are required for graduation.

DEGREE AUDIT REPORTING SYSTEM (DARS)

UW–Madison uses “DARS” to document a student's progress toward the completion of their degree, including any additional majors and certificates. A DARS (Degree Audit Reporting System) report shows all the requirements for completing a degree and, against courses that are planned or completed, shows the requirements that have been met, and those that are unmet. A report can offer suggestions about courses that may be taken to meet specific requirements and can assist in the academic planning and enrollment process. Students can access a DARS report in the Course Search & Enroll app or Student Center via My UW.

DARS also has a "what-if" function. This feature makes it possible to request a DARS report as if pursuing another program, major, or certificate. It is an excellent tool if considering a new or additional area of study. School of Education students in a pre-professional classification such as Pre-Elementary (PRE) or Pre-Kinesiology should request a "what if" DARS report of their professional program of interest. For example, Pre-Elementary Education (PRE) students will request Elementary Education K-9; Pre-Kinesiology (PKN) students will request the Kinesiology report.

Minors have their own DARS programs and are run separately from the main degree audit.

More information (including tutorials) on how to request and read regular and what-if DARS reports is available under the Resources tab on the Office of the Registrar's website. (https://registrar.wisc.edu/dars/)

DARS is not intended to replace student contact with academic advisors. It creates more time in an advising appointment to discuss course options, research opportunities, graduate school, or issues of personal interest or concern to students.

DARS is used as the document of record for degree program, major, and certificate completion in the School of Education.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. (Body Studies and Dance Technique) Demonstration of proficiency in the physical practice of dance.
2. (Writing and Critical Thinking) Examination of global approaches in dance, in historical, cultural, and theoretical contexts.
3. (Making and Sharing Dances) Utilization of tools of craft to engage in critical and creative investigations and assessment.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

Dance: Bachelor of Fine Arts – Sample Four Year Plan

This sample four-year graduation plan is designed to guide your course selection throughout your academic career; it does not establish a contractual agreement. Your actual course of study will be influenced by factors such as when you are eligible to enroll in 200 and 300-level technique classes, casting decisions, and summer course selections. Use this plan along with your DARS report, the Guide, and the Course Search and Enroll app to create a sequence of classes that also reflect your placement scores, incoming credits, and individual interests. Consult with an academic advisor to develop this personalized plan of study and refer to the Guide for a complete list of requirements. You will likely revise your plan several times during your academic career here, based on your activities and changing academic interests.

New first-year Dance–BS and BFA students should expect to register for three 100-level foundational major courses: DANCE 111 Contemporary Dance Technique and Theory I, DANCE 115 Hip-Hop Dance Technique and Theory 1, DANCE 125 Ballet Technique I, and DANCE 162 First Year Workshop for a total of 8 credits. These courses are taken by all dance majors in their first year, regardless of previous dance training and experience. The classes prepare students for advanced study in dance and movement technique. Dance majors are assured enrollment in these courses. DANCE 165 Introduction to the Histories of Dance is also strongly recommended for the first semester; this course will meet the Global Perspectives requirement in liberal studies.

This degree requires a minimum of 125 credits, although additional contemporary dance technique and theory courses are strongly recommended. BFA Dance students must create one Solo and one Group piece (trio or larger) after completion of 255. These works must be faculty approved for public presentation.

Freshman

Fall	Credits	Spring	Credits
DANCE 111	3	Communication A	3
DANCE 115	2	DANCE 112	3
DANCE 125	2	DANCE 126	2

DANCE 462	3	Liberal Studies course work	4
Liberal Studies course work	6		
	16		**15**

Total Credits 125

[1] Some Dance department courses meet both the ethnic studies and additional techniques requirements. If this option is selected, a three-credit liberal studies course must be completed this semester.

ADVISING AND CAREERS

ADVISING AND CAREERS

DANCE DEPARTMENT ADVISING

All Dance degree students receive targeted advising through the department's undergraduate advisor, Karen McShane-Hellenbrand, kamcshan@wisc.edu. Dance Department advising is designed to assist students in choosing classes and evaluating their degree path. This is particularly critical for students pursuing a dance degree and an additional degree program or major.

Students may also meet with advisors in the School of Education Student Services office regarding other course requirements and concerns, see below. Current students can schedule an appointment with a School of Education advisor online through the Starfish app (https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/) in MyUW.

SCHOOL OF EDUCATION ADVISING

Academic Advising in the School of Education

Dedicated to supporting and promoting student success, academic advisors (https://advising.education.wisc.edu/) are here to assist students with the adjustment to college, understanding their degree and career goals, and connecting them to resources. Advisors support prospective and current School of Education students in all programs through:

- Course selection
- Mentoring and advocacy for underrepresented and international students
- Understanding degree requirements and progression
- Interpreting academic policies
- Helping students recognize their strengths and suggesting ways to expand their skills
- Expanding learning through activities such as study abroad, volunteering/work/internship, and by assuming leadership roles

Advising appointments are available in person, virtually, or over the phone. Current students schedule appointments through the Starfish app (https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/) in MyUW. Appointments can also be made by calling 608-262-1651, or in person in Room 139 Education Building.

Academic Dean Support (https://advising.education.wisc.edu/academic-dean-support/) staff are also here for you when facing academic or personal challenges. We provide undergraduate School of Education students support, problem-solving, advocacy, resources, and approve exceptions to policies.

Career Advising in the School of Education

Through individual appointments, events, courses, and online resources, the Career Center provides students and alumni with the tools needed to be successful in their career development.

Career and Internship Advisors are prepared to help students with:

- Exploration of career and academic pathways (https://careercenter.education.wisc.edu/explore-career/)
- Resumes
- Cover letters
- Job/Internship search
- Interview preparation
- Mock interviews
- Graduate school search, applications and decisions
- Negotiating job or internship offers
- Professional networking
- Connecting with employers

Students are encouraged to meet with their Career and Internship Advisor early in their college experience to take full advantage of the resources and support available.

To make an appointment: log into Starfish (https://wisc.starfishsolutions.com/starfish-ops/) from the MyUW dashboard.

For more information, visit the School of Education Career Center website (https://careercenter.education.wisc.edu/) or reach out at career-center@education.wisc.edu.

Information about common career pathways, ways to get involved and gain experience, and transferrable skills developed through this major can be found on the School of Education Career Center's Dance Pathways (https://careercenter.education.wisc.edu/explore-career/dance-career-pathways/) webpage.

WISCONSIN EXPERIENCE

WISCONSIN EXPERIENCE

UW–Madison's vision for the total student experience, the Wisconsin Experience (https://wisconsinexperience.wisc.edu/about/), combines learning in and out of the classroom. Tied to the Wisconsin Idea (https://www.wisc.edu/wisconsin-idea/) and steeped in long-standing institutional values — the commitment to the truth, shared participation in decision-making, and service to local and global communities — the Wisconsin Experience describes how students develop and integrate these core values across their educational experience.

UW–Madison encourages students to mindfully engage in four core concepts throughout their time on campus: Empathy & Humility, Relentless Curiosity, Intellectual Confidence, and Purposeful Action (https://wisconsinexperience.wisc.edu/intellectual-confidence/).

Since its inception, the School of Education has embraced the concepts of the Wisconsin Experience, providing opportunities for students to learn in venues beyond the traditional classroom. Our students also independently seek out related activities and experiences, thus creating their own unique Wisconsin Experience.

DANCE AND THE WISCONSIN EXPERIENCE

The UW–Madison Department of Dance provides students with a wide range of opportunities to perform, work with and learn from national/international guest artists, create and show their own work, conduct their own research, study abroad, volunteer, and connect with the local education community.

Guest Artists

The dance department brings in guest artists-in-residence each year to work directly with students. These professionals are national or international artists who teach master classes, hold auditions, and set works on students for performance in our annual faculty concert. The department also brings in several guest artist teachers throughout the academic year to teach master classes to our students.

Student Performance Opportunities

Dance students have many opportunities to perform in student and faculty choreographed concerts throughout the academic year. Technique and theory courses prepare students with the technical, compositional, and artistic skills for performance in our in-house theater, the H'Doubler Performance Space, in historic Lathrop Hall.

Peer Mentorship

Several volunteer roles are available to students through the department's peer mentor program. Dance Peer Mentors support and encourage new first-year dance degree students in their adjustment to UW–Madison and the Dance department, provide support during incoming student audition days, and serve as role models and advocates for success in the dance degree program.

Study Abroad

The dance department offers a three-credit study abroad program to Greece (https://studyabroad.wisc.edu/program/?programId=330295), as well as summer awards for students to travel and train at the American Dance Festival, Bates Dance Festival, Peridance Contemporary Dance Company, Perry Mansfield, The Ailey School, Seattle Festival of Dance + Improvisation, NYU | Tisch, and the Dance Education Laboratory, among others.

Student Research

In their final year of the degree program, students design and complete their own research projects. Some of the projects include funding to do creative research which culminates in a full-length concert.

Work with the Local Community

The dance department offers courses in dance education and dance movement therapy which include practicum experiences with students in local schools. Students have opportunities to engage preschool and school-aged students in dance for social-emotional, kinesthetic motor, and cognitive development using trauma-informed, culturally-responsive, and student-centered practices.

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

Information related to scholarships, academic and career advising, study abroad opportunities, student well-being, and other resources for students in the School of Education can be found on the School's Resources (p. 1680) page.

ACCREDITATION

ACCREDITATION

National Association of Schools of Dance (https://nasd.arts-accredit.org/)

The University of Wisconsin-Madison is an accredited institutional member of the National Association of School of Dance (NASD). Accreditation status: Accredited. Next accreditation review: 2025-2026.

DANCE, BS

Students pursuing an undergraduate degree in dance gain in-depth knowledge of dance as an art form and an area of scholarly inquiry. The degree provides a foundation for eventual careers in professional dance, dance teaching in K-12 and higher education, dance entrepreneurship, dance/movement therapy, Pilates, the health and fitness industry, arts administration, as well as many other fields.

The Bachelor of Science (BS) degree in Dance requires a minimum of 57 major credits and is designed for students who wish to pursue a degree in dance and another major or degree program in a second area of interest.

A dance degree at UW–Madison offers opportunities to:

- Study with a world-class faculty, with excellent teacher-student ratios.
- Perform frequently in faculty and student-choreographed works, in state-of-the-art facilities.
- Pursue an additional major or degree in a second area of interest.
- Experience an interdisciplinary, rigorous approach that connects dance to the arts and humanities, as well as the social, biological, physical, and biological social sciences.
- Earn scholarship and award funding for study in the academic year and summer, including departmental awards for honors study.
- Work with nationally and internationally renowned guest artists and master class instructors, such as the Bill T. Jones/Arnie Zane Dance Company, Pilobolus, Meredith Monk, Elizabeth Streb, David Parsons, Sean Curran, Danielle Russo, Carrie Hanson, Joe Goode, Susan Marshall, Kun-Yang Lin, and Tim Miller, Abdel Salaam/Forces of Nature.
- Train intensively in choreography to create solo and group works for performance.

An audition is required to declare a dance degree. Auditions are held in August, November, and February.

The dance department also offers five certificates: a general certificate in Dance (p. 1844), a certificate in Dance Education (p. 1812), one in Dance Studies (p. 1813), (p. 1813) a certificate in Dance/Movement Therapy (p. 1845), and another certificate in Pilates (p. 1846). A teacher certification minor in Dance Education (p. 1812) is also available for students enrolled in another undergraduate teacher education program.

HOW TO GET IN

HOW TO GET IN

PROGRAM ADMISSION OVERVIEW

All students wishing to major in dance must complete a performance audition to be admitted to the program. Auditions are held in August, November, and February. Consult the Dance department website (http://www.dance.wisc.edu/dance/admissions/how-to-apply/) for more detailed information about the audition process.

ENTERING THE SCHOOL OF EDUCATION

New and Current UW–Madison Students

On-campus students wishing to be admitted to one of the dance program options must audition and also have earned a minimum 2.5 grade point average. On-campus students should obtain and submit a signed Professional Program Application (http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission/) to the School of Education Student Services office, Room 139 Education Building, 1000 Bascom Mall, at any time during the academic year. The application must be signed by the appropriate dance department advisor.

Prospective Transfer Students

Applicants not already enrolled on the UW–Madison campus must be admissible to the university to enroll in a School of Education program. Admission to UW–Madison requires a separate application and admission process. See UW–Madison Office of Admissions and Recruitment (http://admissions.wisc.edu/) for application information.

Prospective transfer students should meet as early as possible with a dance department advisor and with an advisor in the School of Education Student Services office. Coursework taken at another institution may need to be evaluated by a faculty or staff member in dance. Transfer students must audition to be admitted to one of the dance program options. Prospective transfer students are strongly advised to meet with a Student Services advisor in advance of their application; to schedule, call 608-262-1651.

Students with a Previous Degree

Prospective applicants who already hold an undergraduate degree are strongly encouraged to meet with an advisor in the School of Education Student Services office in advance of their application. Consultations with advisors are available in person or via telephone; to schedule, call 608-262-1651.

Applicants who already hold an undergraduate degree are admitted to the School of Education as either an *Education Special student* or a *second degree student*, depending on their interests and academic background. Admission as an Education Special student indicates that the student has an interest in pursuing certification in a subject area studied during the initial degree; another degree is not awarded for this "certification only" coursework. Second degree students are seeking a second, unrelated degree from the School of Education, which may, or may not, include teacher certification. Candidates for limited enrollment programs must meet all admission eligibility requirements for the program and must compete with the eligible applicants for program admission. More information is available here (p. 1662).

ADMISSION AND APPLICATION

Criteria for Admission

Requirements and selection criteria may be modified from one application/admission period to the next.

Eligibility for consideration:

- The dance department currently admits students to its programs only through a performance audition.
- Cumulative grade point average of at least a 2.50 (on a 4.00 scale).[1]
- Students who have transferred to and are currently enrolled in UW–Madison coursework must have a cumulative grade point average of at least a 2.5 on the UW–Madison campus, as modified by the Last 60 Credits Rule.
- Submission of all required application materials, including the dance program application and any required transcripts.

[1] A comprehensive cumulative GPA of all college-level, transferrable coursework attempted on both the UW–Madison campus coursework and coursework taken at any other colleges or universities may be calculated for the exclusive purpose of establishing an applicant's eligibility for consideration. Both the comprehensive cumulative GPA and the comprehensive cumulative GPA based on a student's last 60 credits may be calculated. See Last 60 Credits Rule (detailed below). If admitted, students must earn the minimum cumulative GPA for UW–Madison coursework established by their program and the School of Education each semester after admission.

Last 60 Credits Rule

Two grade point averages will be calculated to determine candidates' eligibility to programs. GPAs will be calculated using

- all transferable college level coursework attempted, and
- the last 60 credits attempted.

The higher GPA of these two will be used for purposes of determining eligibility. If fewer than 60 credits have been attempted, all credits will be used to calculate the GPA. Graded graduate coursework will also be used in all GPA calculations. ("Attempted" coursework indicates coursework for which a grade has been earned.) More information on this rule is available here (p. 1662).

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communication & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

SCHOOL OF EDUCATION DEGREE REQUIREMENTS

COMMUNICATION: BREADTH AND DEPTH

Courses designated as Communication A (Comm A) and Communication B (Comm B) help students learn how to gather and assess information from a variety of sources and to present different kinds of information, insight, and analysis to diverse audiences. Comm A courses focus on essential communication skills and Comm B courses teach research, writing, and communication skills within a disciplinary area.

Communication A	Complete either: • one course with the Communication A designation, or • satisfaction of Communication A based on UW Placement Test.
Communication B	One course with the Communication B designation.

QUANTITATIVE REASONING: BREADTH AND DEPTH

Quantitative Reasoning A courses provide students with foundational skills in mathematics, computer science, statistics or formal logic that are needed for dealing with quantitative information. In Quantitative Reasoning B courses, students use quantitative tools in the context of other disciplines or course material.

Quantitative Reasoning A	Complete either: • one course with the Quantitative Reasoning A designation, or • satisfaction of Quantitative Reasoning A based on UW Placement Test.
Quantitative Reasoning B	One course with the Quantitative Reasoning B designation.

LIBERAL STUDIES REQUIREMENTS

All students are required to complete a minimum of 40 credits of Liberal Studies (p. 1670) coursework. This requirement provides an opportunity to do some academic exploration beyond the scope of the major. Students take courses in areas of particular interest and also have an opportunity to sample the wide selection of courses offered across the university. Coursework is required in humanities, social studies (social science),

science, and cultural and historical studies. Some elective coursework is also needed to reach the required number of credits.

The School of Education's Liberal Studies requirements can be used to satisfy the campus-wide Core General Education requirements. Communication A and B, and Quantitative Reasoning A and B coursework can also be used towards Core General Education and other requirements. Academic advisors can suggest courses that will count in multiple places.

A basic outline of the liberal studies is included below. Students must consult the detailed version of the requirements (p. 1670) for more information about course selection and how the liberal studies requirements apply to this major.

Are you interested in switching to the School of Education? If so, you should run a "what-if" DARS report. (https://kb.wisc.edu/registrar/94068/) It will show how many of these requirements you have already met and are unmet.

Humanities

Complete a minimum of 9 credits from these categories.

Literature	Complete a course with the Literature designation, minimum of 2 credits
Fine Arts	Complete a minimum of 2 credits from the list of courses below.
Humanities	Courses to total 9 Humanities credits. Select from: • Courses with the Humanities or Literature designation. • Fine Arts courses from the list below. • Courses with the Language courses designation. • ENGL 201 • ENGL 207 • COM ARTS 181

Fine Arts Courses

Code	Title	Credits
AFRICAN/ AFROAMER 220	HipHop, Youth Culture, and Politics in Senegal	3
AFRICAN/ AFROAMER 233	Global HipHop and Social Justice	3

LITTRANS/ FOLKLORE 327	Vampires	3
LITTRANS/ THEATRE 335	In Translation: The Drama of Henrik Ibsen	3-4
Any MUSIC course (https://guide.wisc.edu/courses/music/)		
Any MUS PERF course (https://guide.wisc.edu/courses/mus_perf/)		
Any THEATRE course (https://guide.wisc.edu/courses/theatre/)		

Social Studies

Social Studies	Complete 9 credits with the Social Science designation.

The following programs have specific requirements:

- Kinesiology: PSYCH 202
- Art Education, Elementary Education, Elementary Education and Special Education, Physical Education, Special Education: POLI SCI 104 or 205

Science

Complete a minimum of 9 credits, including Physical and Biological Science. A laboratory science course is also required. The lab course can count toward the Biological or Physical Science requirement if it has the requisite breadth designation.

Physical Science	Complete one course with the Physical Science designation.
Biological Science	Complete one course with the Biological Science designation.
Lab Science	Complete one course with the Biological, Physical, or Natural Science designation with a lab component; see Course Search and Enroll. Additional eligible courses are listed below.
Science Elective(s)	If needed, complete a course with the Biological, Physical, or Natural Science designation to total 9 Science credits.

Laboratory Courses

Code	Title	Credits
ANTHRO 105	Principles of Biological Anthropology	3
ATM OCN 101	Weather and Climate	4
BOTANY 100	Survey of Botany	3
BOTANY/PL PATH 123	Plants, Parasites, and People	3
FOOD SCI/ MICROBIO 324	Food Microbiology Laboratory	2
GEOSCI 100	Introductory Geology: How the Earth Works	3
PHYSICS 109	Physics in the Arts	3
PLANTSCI 110	Introduction to Plant Science and Technology	4

Cultural and Historical Studies

Complete three requirements met by separate courses. Any of these courses can also be used to meet other requirements if it has the relevant breadth designation. A single course cannot satisfy more than one of the three Cultural and Historical Studies requirements listed below.

Ethnic Studies	Complete 3 credits with the Ethnic Studies Designation.
United States or European History	Complete 3 credits from the list of courses below.
Global Perspectives	Complete 3 credits from the list of courses below.

United States or European History Courses

Liberal Studies Electives

Liberal Studies Electives	Complete additional liberal studies coursework as needed to reach the required 40 Liberal Studies credits.

PROGRAM STRUCTURE

The BS degree in dance has four components:

- *Liberal studies* courses expose students to a broad range of academic disciplines. The university-wide *General Education* requirements also encourage this breadth of study.
- *Discipline-related coursework* provides an interdisciplinary foundation contributing to the performance and understanding of this art form.
- *Major* requirements offer an in-depth study of dance.
- *Elective* credits allow students to pursue areas of interest and complete the minimum number of credits required for the degree.

DISCIPLINE-RELATED REQUIREMENTS

Code	Title	Credits
DANCE 200	Writing the Moving Body	3
Choose One:		2
DANCE 330	Functional Anatomy for Movement Practices	
ANAT&PHY 338	Human Anatomy Laboratory	
KINES 227	Introduction to Clinical Anatomy of Human Movement	

MAJOR REQUIREMENTS

Complete a minimum of 57 credits. At least 15 upper-level major Dance credits (numbered 300 and above) must be taken in residence on the UW–Madison campus.

New first-year Dance–BS and BFA students should expect to register for the following 100-level foundational major courses: DANCE 111 Contemporary Dance Technique and Theory I, DANCE 115 Hip-Hop Dance Technique and Theory 1, DANCE 125 Ballet Technique I, and DANCE 162 First Year Workshop for a total of 8 credits. These courses are taken by all dance majors in their first year, regardless of previous dance training and experience. The classes prepare students for advanced study in dance and movement technique. Dance majors are assured enrollment in these courses. DANCE 165 Introduction to the Histories of Dance is also strongly recommended for the first semester; this course will meet the Global Perspectives requirement in liberal studies.

DANCE TECHNIQUE AND THEORY

Contemporary Dance Technique and Theory

Select a minimum of 14 credits from the following; 6 credits must be numbered 211 or higher.

Code	Title	Credits
DANCE 111	Contemporary Dance Technique and Theory I	1-3
DANCE 112	Contemporary Dance Technique and Theory II	1-3
DANCE 211	Contemporary Dance Technique and Theory III	1-3
DANCE 212	Contemporary Dance Technique and Theory IV	1-3
DANCE 311	Contemporary Dance Technique and Theory V	1-3
DANCE 312	Contemporary Dance Technique and Theory VI	1-3
DANCE 410	Contemporary Dance Forms	1-3

Ballet Technique

Select a minimum of 8 credits from the following; 4 credits must be numbered 225 or higher:

Code	Title	Credits
DANCE 125	Ballet Technique I	1-2
DANCE 126	Ballet Technique I-B	1-2
DANCE 225	Ballet Technique II	1-2
DANCE 226	Ballet Technique II-B	1-2
DANCE 325	Ballet Technique III	1-2
DANCE 326	Ballet Technique III-B	1-2

Additional Techniques

Select a minimum of 2 credits. Students may also select from Additional Techniques workshops listed under DANCE 110 Workshop in Dance Activity or DANCE 560 Current Topics in Dance: Workshop. Jazz and Ballroom courses do not count toward this requirement.

Code	Title	Credits
DANCE 101	Social Dance I	1
DANCE 102	Social Dance II	1
DANCE 103	Modern Jazz Dance	1
DANCE 110	Workshop in Dance Activity (Hip Hop)	1-2
DANCE 110	Workshop in Dance Activity (Tai Ji)	1-2
DANCE 110	Workshop in Dance Activity (all sections numbered 010 and above)	1-2
DANCE 115	Hip-Hop Dance Technique and Theory 1	1-2
DANCE 118	African Dance	1
DANCE/ ASIAN AM 121	Asian American Movement	3
DANCE/ AFROAMER/ MUSIC 318	Cultural Cross Currents: West African Dance/Music in the Americas	3
DANCE/ AFROAMER/ ASIAN AM/ FOLKLORE 319	Afro Asian Improv: From Hip Hop to Martial Arts Fusion	3

ADDITIONAL REQUIRED COURSES

Code	Title	Credits
DANCE 131	Somatic Theory and Practices	2
DANCE 140	Dance Production	2
DANCE 156	Movement as Material Through Improvisation	2
DANCE 157	Introduction to Movement Analysis	2
DANCE 162	First Year Workshop	1
DANCE 240	Dance Production Laboratory	1
DANCE 241	Music Fundamentals for Dancers	3
DANCE 255	Movement Composition for the Performing and Visual Arts	2

DANCE 265	Dance History I: Dance in the Modern Era	3
Design - Complete one of:		3-4
DANCE/ART 341	Sound Design for the Performing and Visual Arts	
DANCE 345	Screendance Production	
ART 318	Introduction to Video, Performance & Installation Art	
ART 518	Artist's Video	
ART 531	Screen Performance	
DANCE 365	Dance History II: Directions and Issues of Contemporary Dance	3
DANCE 462	Senior Seminar	3
Select 3 credits from the following:		3
DANCE 355	Dance Composition II	
DANCE 373	Introduction to Dance and Community	
DANCE 374	Teaching Dance	
Select 3 credits from the following:		3
DANCE 451	Dance Repertory Theater	
DANCE 452	Dance Repertory Theater	
DANCE 453	Dance Repertory Theater	

ELECTIVE COURSEWORK

Complete additional coursework, if necessary, to reach the minimum of 124 credits. DANCE 165 Introduction to the Histories of Dance is recommended and will meet the Global Perspectives requirement in liberal studies.

GPA AND OTHER GRADUATION REQUIREMENTS

GRADUATION REQUIREMENTS

Requirements below are based on UW–Madison coursework.

- 2.75 minimum cumulative grade point average. This may be modified by the Last 60 Credits Rule (p. 1662).
- 2.75 cumulative grade point average in all major coursework
- 2.50 cumulative grade point average in all upper-level major coursework. Dance courses numbered 300 and above are considered to be upper-level courses.
- Major Residency. Students must complete a minimum of 15 upper-level major credits on the UW–Madison campus.
- Senior Residency. Degree candidates must complete their last 30 credits in residence on the UW–Madison campus, excluding retroactive credits and credits granted by examination.
- A minimum of 124 credits are required for graduation.

DEGREE AUDIT REPORTING SYSTEM (DARS)

UW–Madison uses "DARS" to document a student's progress toward the completion of their degree, including any additional majors and certificates. A DARS (Degree Audit Reporting System) report shows all the requirements for completing a degree and, against courses that are planned or completed, shows the requirements that have been met, and those that are unmet. A report can offer suggestions about courses that may be taken to meet specific requirements and can assist in the academic planning and enrollment process. Students can access a DARS report in the Course Search & Enroll app or Student Center via My UW.

DARS also has a "what-if" function. This feature makes it possible to request a DARS report as if pursuing another program, major, or certificate. It is an excellent tool if considering a new or additional area of study. School of Education students in a pre-professional classification such as Pre-Elementary (PRE) or Pre-Kinesiology should request a "what if" DARS report of their professional program of interest. For example, Pre-Elementary Education (PRE) students will request Elementary Education K-9; Pre-Kinesiology (PKN) students will request the Kinesiology report. Minors have their own DARS programs and are run separately from the main degree audit.

More information (including tutorials) on how to request and read regular and what-if DARS reports is available under the Resources tab on the Office of the Registrar's website. (https://registrar.wisc.edu/dars/)

DARS is not intended to replace student contact with academic advisors. It creates more time in an advising appointment to discuss course options, research opportunities, graduate school, or issues of personal interest or concern to students.

DARS is used as the document of record for degree program, major, and certificate completion in the School of Education.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. (Body Studies and Dance Technique) Demonstration of proficiency in the physical practice of dance.
2. (Writing and Critical Thinking) Examination of global approaches in dance, in historical, cultural, and theoretical contexts.
3. (Making and Sharing Dances) Utilization of tools of craft to engage in critical and creative investigations and assessment.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

Bachelor of Science: Dance – Sample Four Year Plan

This sample four-year graduation plan is designed to guide your course selection throughout your academic career; it does not establish a contractual agreement. Your actual course of study will be influenced by factors such as when you are eligible to enroll in 200-level technique classes, casting decisions, and summer course selections. Use this plan along with your DARS report, the Guide, and the Course Search and Enroll app to create a sequence of classes that also reflect your placement scores, incoming credits, and individual interests. Consult with an academic advisor to develop this personalized plan of study and refer to the Guide for a complete list of requirements. You will likely revise your plan several times during your academic career here, based on your activities and changing academic interests.

New first-year Dance–BS and BFA students should expect to register for three 100-level foundational major courses: DANCE 111 Contemporary Dance Technique and Theory I, DANCE 115 Hip-Hop Dance Technique and Theory 1, DANCE 125 Ballet Technique I, and DANCE 162 First Year Workshop for a total of 8 credits. These courses are taken by all dance majors in their first year, regardless of previous dance training and

experience. The classes prepare students for advanced study in dance and movement technique. Dance majors are assured enrollment in these courses. DANCE 165 Introduction to the Histories of Dance is also strongly recommended for the first semester; this course will meet the Global Perspectives requirement in liberal studies.

This degree requires a minimum of 124 credits. Contemporary dance technique and theory classes beyond the minimum requirement are strongly recommended and included in this plan as electives. Bachelor of Science - Dance students must present their senior projects in an approved public forum.

ADVISING AND CAREERS

ADVISING AND CAREERS

DANCE DEPARTMENT ADVISING

All Dance degree students receive targeted advising through the department's undergraduate advisor, Karen McShane-Hellenbrand, kamcshan@wisc.edu. Dance department advising is designed to assist students in choosing classes and evaluating their degree path. This is particularly critical for students pursuing a dance degree and an additional degree program or major.

Students may also meet with advisors in the School of Education Student Services office regarding other course requirements and concerns, see below. Current students can schedule an appointment with a School of Education advisor online through the Starfish app (https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/) in MyUW.

SCHOOL OF EDUCATION ADVISING

Academic Advising in the School of Education

Dedicated to supporting and promoting student success, academic advisors (https://advising.education.wisc.edu/) are here to assist students with the adjustment to college, understanding their degree and career goals, and connecting them to resources. Advisors support prospective and current School of Education students in all programs through:

- Course selection
- Mentoring and advocacy for underrepresented and international students
- Understanding degree requirements and progression
- Interpreting academic policies
- Helping students recognize their strengths and suggesting ways to expand their skills
- Expanding learning through activities such as study abroad, volunteering/work/internship, and by assuming leadership roles

Advising appointments are available in person, virtually, or over the phone. Current students schedule appointments through the Starfish app (https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/) in MyUW. Appointments can also be made by calling 608-262-1651, or in person in Room 139 Education Building.

Academic Dean Support (https://advising.education.wisc.edu/academic-dean-support/) staff are also here for you when facing academic or personal challenges. We provide undergraduate School of Education students support, problem-solving, advocacy, resources, and approve exceptions to policies.

Career Advising in the School of Education

Through individual appointments, events, courses, and online resources, the Career Center provides students and alumni with the tools needed to be successful in their career development.

Career and Internship Advisors are prepared to help students with:

- Exploration of career and academic pathways (https://careercenter.education.wisc.edu/explore-career/)
- Resumes
- Cover letters
- Job/Internship search
- Interview preparation
- Mock interviews
- Graduate school search, applications and decisions
- Negotiating job or internship offers
- Professional networking
- Connecting with employers

Students are encouraged to meet with their Career and Internship Advisor early in their college experience to take full advantage of the resources and support available.

To make an appointment: log into Starfish (https://wisc.starfishsolutions.com/starfish-ops/) from the MyUW dashboard.

For more information, visit the School of Education Career Center website (https://careercenter.education.wisc.edu/) or reach out at career-center@education.wisc.edu.

Information about common career pathways, ways to get involved and gain experience, and transferrable skills developed through this major can be found on the School of Education Career Center's Dance Pathways (https://careercenter.education.wisc.edu/explore-career/dance-career-pathways/) webpage.

WISCONSIN EXPERIENCE

WISCONSIN EXPERIENCE

UW–Madison's vision for the total student experience, the Wisconsin Experience (https://wisconsinexperience.wisc.edu/about/), combines learning in and out of the classroom. Tied to the Wisconsin Idea (https://www.wisc.edu/wisconsin-idea/) and steeped in long-standing institutional values — the commitment to the truth, shared participation in decision-making, and service to local and global communities — the Wisconsin Experience describes how students develop and integrate these core values across their educational experience.

UW–Madison encourages students to mindfully engage in four core concepts throughout their time on campus: Empathy & Humility, Relentless Curiosity, Intellectual Confidence, and Purposeful Action (https://wisconsinexperience.wisc.edu/intellectual-confidence/).

Since its inception, the School of Education has embraced the concepts of the Wisconsin Experience, providing opportunities for students to learn in venues beyond the traditional classroom. Our students also independently seek out related activities and experiences, thus creating their own unique Wisconsin Experience.

DANCE AND THE WISCONSIN EXPERIENCE

The UW–Madison Department of Dance provides students with a wide range of opportunities to perform, work with and learn from national/international guest artists, create and show their own work, conduct their own research, study abroad, volunteer, and connect with the local education community.

Guest Artists

The dance department brings in guest artists-in-residence each year to work directly with students. These professionals are national or international artists who teach master classes, hold auditions, and set works on students for performance in our annual faculty concert. The department also brings in several guest artist teachers throughout the academic year to teach master classes to our students.

Student Performance Opportunities

Dance students have many opportunities to perform in student and faculty choreographed concerts throughout the academic year. Technique and theory courses prepare students with the technical, compositional, and artistic skills for performance in our in-house theater, the H'Doubler Performance Space, in historic Lathrop Hall.

Peer Mentorship

Several volunteer roles are available to students through the department's peer mentor program. Dance Peer Mentors support and encourage new first-year dance degree students in their adjustment to UW–Madison and the Dance department, provide support during incoming student audition days, and serve as role models and advocates for success in the dance degree program.

Study Abroad

The dance department offers a three-credit study abroad program to Greece (https://studyabroad.wisc.edu/program/?programId=330295), as well as summer awards for students to travel and train at the American Dance Festival, Bates Dance Festival, Peridance Contemporary Dance Company, Perry Mansfield, The Ailey School, Seattle Festival of Dance + Improvisation, NYU | Tisch, and the Dance Education Laboratory, among others.

Student Research

In their final year of the degree program, students design and complete their own research projects. Some of the projects include funding to do creative research which culminates in a full-length concert.

Work with the Local Community

The dance department offers courses in dance education and dance movement therapy which include practicum experiences with students in local schools. Students have opportunities to engage preschool and school-aged students in dance for social-emotional, kinesthetic motor, and cognitive development using trauma-informed, culturally-responsive, and student-centered practices.

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

Information related to scholarships, academic and career advising, study abroad opportunities, student well-being, and other resources for students in the School of Education can be found on the School's Resources (p. 1680) page.

ACCREDITATION

ACCREDITATION

National Association of Schools of Dance (https://nasd.arts-accredit.org/)

The University of Wisconsin-Madison is an accredited institutional member of the National Association of School of Dance (NASD).

Accreditation status: Accredited. Next accreditation review: 2025-2026.

DANCE, CERTIFICATE

The Dance Certificate is a 19-credit program open to all students. Students who pursue this certificate often have a background in dance, but may not be seeking a degree in dance. Others are beginning dance students.

The program provides a foundation in contemporary dance practice and theory, as well as offering opportunities in a variety of movement, somatic, and creative practice courses including contemporary dance, ballet, movement analysis, improvisation, dance composition, as well as dance history. The certificate also offers students the flexibility of choosing among a wide variety of courses that may interest them, including hip-hop, African, Tai Ji, among others. Students may also participate in performance opportunities if they have an interest in performance.

HOW TO GET IN

HOW TO GET IN

Undergraduate students in good academic standing, with a cumulative GPA of 2.50 or higher, may declare this certificate.

Students must meet with the dance certificate advisor to discuss their intention to pursue the certificate. Students will enroll in two semesters of dance technique and apply for admission to the Dance Certificate at the end of the second semester. Students intending to pursue the Dance Certificate should visit the School of Education's Certificate Programs (https://education.wisc.edu/academics/certificates/) page to complete the declaration form.

REQUIREMENTS

REQUIREMENTS

The Dance Certificate requires the following course distribution for a minimum of 19 credits. At least 10 credits must be completed in residence. Completion of the certificate requires a minimum GPA of 2.0 in certificate coursework.

MOVEMENT TECHNIQUES (8 CREDITS)

Select 8 credits representing 3 different dance forms from the following:

Code	Title	Credits
DANCE 101	Social Dance I	1
DANCE 102	Social Dance II	1
DANCE 103	Modern Jazz Dance	1
DANCE 105	Ballet I	1
DANCE 106	Ballet II	1
DANCE 107	Contemporary Dance I	1
DANCE 108	Contemporary Dance II	1
DANCE 110	Workshop in Dance Activity	1-2
DANCE 111	Contemporary Dance Technique and Theory I	1-3
DANCE 112	Contemporary Dance Technique and Theory II	1-3
DANCE 115	Hip-Hop Dance Technique and Theory 1	1-2
DANCE 118	African Dance	1
DANCE/ ASIAN AM 121	Asian American Movement	3
DANCE 125	Ballet Technique I	1-2
DANCE 126	Ballet Technique I-B	1-2
DANCE 211	Contemporary Dance Technique and Theory III	1-3
DANCE 212	Contemporary Dance Technique and Theory IV	1-3
DANCE 225	Ballet Technique II	1-2
DANCE 226	Ballet Technique II-B	1-2
DANCE 311	Contemporary Dance Technique and Theory V	1-3
DANCE 312	Contemporary Dance Technique and Theory VI	1-3
DANCE 325	Ballet Technique III	1-2
DANCE 326	Ballet Technique III-B	1-2
DANCE 410	Contemporary Dance Forms	1-3
DANCE 560	Current Topics in Dance: Workshop	1-3

ADDITIONAL REQUIRED COURSES (11 CREDITS)

Complete 11 credits representing 4 different requirements from the following options:

Code	Title	Credits
DANCE 131	Somatic Theory and Practices	2
or DANCE 157	Introduction to Movement Analysis	
DANCE 156	Movement as Material Through Improvisation	2-3
or DANCE/ AFROAMER/ ASIAN AM/ FOLKLORE 319	Afro Asian Improv: From Hip Hop to Martial Arts Fusion	
DANCE 255	Movement Composition for the Performing and Visual Arts	2-3
or DANCE 274	Methods in Dance Education	
or DANCE 373	Introduction to Dance and Community	
DANCE 265	Dance History I: Dance in the Modern Era	3
or DANCE/ AFROAMER/ MUSIC 318	Cultural Cross Currents: West African Dance/Music in the Americas	
or DANCE 365	Dance History II: Directions and Issues of Contemporary Dance	

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Demonstration of proficiency in the physical practice of dance.
2. Examination of global approaches in dance, in historical, cultural, and theoretical contexts.
3. Utilization of tools of craft to engage in critical and creative investigations and assessment.

INTRODUCTORY STUDIES IN DANCE/MOVEMENT THERAPY, CERTIFICATE

Dance/movement therapy (DMT) is one of the creative arts therapies. It is a form of psychotherapy that uses movement, both creative and functional, as well as words, to help people – those who are generally healthy as well as those dealing with emotional, mental, or physical problems – to regain a sense of wholeness by experiencing the fundamental unity of body, mind, and spirit. The Introductory Studies in Dance/Movement Therapy Certificate introduces students to the fascinating nonverbal aspects of human communication and its applications to a wide range of other fields such as social work, teaching, occupational therapy, physical therapy, and communication disorders.

Students will also be introduced to the use of movement in the fields of violence prevention, behavior management, and social skills development from a movement or body/mind perspective. Students who complete this certificate are prepared to attend graduate school in the field of dance/movement therapy, a requirement for the professional practice in this field, or to use embodied practices in related fields. In addition, students develop a repertoire of strategies to help cope with the stress and anxiety inherent in college life and develop insights into their own body/mind connections.

This certificate is also available to individuals who have already completed a bachelor's degree; see the Nondegree/Visiting Student Guide (https://guide.wisc.edu/nondegree/).

HOW TO GET IN

HOW TO GET IN

DECLARATION PROCESS

In order to declare the Introductory Studies in Dance/Movement Therapy certificate program a student must complete one of the following courses:

- DANCE 231 Introduction to Dance/Movement Therapy
- DANCE 232 Introduction to Dynamics of Dance Therapy
- DANCE 331 Dynamics of Dance Therapy

Prospective certificate students should meet with the Introductory Studies in Dance/Movement Therapy Certificate advisor to discuss their intentions to pursue the certificate. Students intending to pursue the Introductory Studies in Dance/Movement Therapy Certificate should visit the School of Education's Certificate Programs (https://education.wisc.edu/academics/certificates/) page to complete the declaration form.

REQUIREMENTS

REQUIREMENTS

The Certificate in Introductory Studies in Dance Movement/Therapy requires the following course distribution for a minimum of 19 credits. At least 10 credits must be completed in residence. Completion of the certificate requires a minimum GPA of 2.0 in certificate coursework.

SUPPORTIVE DISCIPLINARY COURSEWORK

Choose a course (3-credit minimum) from the following departments: Counseling Psychology (https://guide.wisc.edu/courses/coun_psy/), Educational Psychology (https://guide.wisc.edu/courses/ed_psych/), Psychology (https://guide.wisc.edu/courses/psych/), Rehabilitation Psychology and Special Education (https://guide.wisc.edu/courses/rp_se/).

BODY STUDIES

Select 2 courses from the following:

Code	Title	Credits
DANCE 131	Somatic Theory and Practices	2
DANCE 156	Movement as Material Through Improvisation	2
DANCE 157	Introduction to Movement Analysis	2

REQUIRED DANCE DEPARTMENT COURSEWORK

All students are required to complete the following:

Code	Title	Credits
DANCE 231	Introduction to Dance/Movement Therapy	3
DANCE 232	Introduction to Dynamics of Dance Therapy	3
DANCE 331	Dynamics of Dance Therapy	3
DANCE 431	Dance Therapy Practicum	3

UNDERGRADUATE/SPECIAL STUDENT CERTIFICATE

This certificate may be completed within the context of an undergraduate degree or as a Special student after an undergraduate degree has been awarded from any institution. The certificate may be completed in its entirety while enrolled as a Special student. Candidates are encouraged to contact the certificate coordinator to discuss course enrollment and the sequencing of certificate requirements.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. (Body Studies) Gain skill in expressing through movement and understanding its connection to emotion.
2. Develop literacy about the field of Dance/Movement Therapy.
3. Practice and practical work in movement analysis as a tool for Dance/Movement Therapy.

PILATES, CERTIFICATE

The Pilates certificate includes coursework in the classic Pilates mat and equipment repertoire, current teaching methods, and functional anatomy. The certificate prepares students to teach Pilates in a studio setting and also creates a practical foundation for those who wish to pursue graduate work in movement-based fields.

This certificate program is open to all interested students and is often pursued by students working toward degrees in dance, kinesiology, athletic training, physical therapy, occupational therapy, or other health/fitness fields.

The curriculum can be completed in two years. Upon completion, students are encouraged to sit for the Pilates Method Alliance certification exam to earn their credentials as nationally certified Pilates teachers.

This certificate is also available to individuals who have already completed a bachelor's degree; see the Nondegree/Visiting Student Guide (https://guide.wisc.edu/nondegree/).

HOW TO GET IN

HOW TO GET IN

All current UW-Madison undergraduates and University Special Students are eligible to complete the Certificate in Pilates.

Students should meet with the Pilates Certificate Coordinator to discuss their intention to pursue the certificate. Appointments may be arranged via email. To declare the certificate, students must also complete the application form (https://education.wisc.edu/academics/certificates/) located on the School of Education's Certificate Programs page.

REQUIREMENTS

REQUIREMENTS

The Pilates certificate requires a minimum of 20 credits.

Code	Title	Credits
DANCE 135	Pilates Mat I	1
DANCE 136	Pilates Equipment I	2
DANCE 235	Pilates Mat II	1
DANCE 236	Pilates Equipment II	2
DANCE 237	Pilates Studio I	3
DANCE 330	Functional Anatomy for Movement Practices	2
DANCE 337	Pilates Studio II	3
DANCE 375	Pilates Teaching Methods	1
DANCE 376	Pilates Teaching I	2
DANCE 476	Pilates Teaching II	3
Total Credits		**20**

UNDERGRADUATE/SPECIAL STUDENT CERTIFICATE

This certificate may be completed within the context of an undergraduate degree or as a Special student after an undergraduate degree has been awarded from any institution. The certificate may be completed in its entirety while enrolled as a Special student. Candidates are encouraged to contact the certificate coordinator to discuss course enrollment and the sequencing of certificate requirements.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. (Pilates Practice - Strength, Focus, Movement Efficiency) Demonstrate proficiency in Pilates exercises, including fundamental exercises and beginner through advanced mat and equipment work. Students will show significant improvement in body awareness, physical skill and strength, and efficient movement patterning.
2. (Pilates Teaching - Safety, Clarity, Communication) Confidently teach one-on-one and group Pilates classes, effectively communicating physical and conceptual ideas about the body to a variety of learning styles, body types and physical backgrounds.
3. (Anatomical Approaches to Pilates) Integrate current anatomical research into practice and teaching, using a variety of somatic approaches to embodying healthy anatomical function.

EDUCATION - SCHOOL-WIDE

DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/CERTIFICATES

- Individual Major, BSE (p. 1846)

INDIVIDUAL MAJOR, BSE

The Individual Major provides undergraduates with an opportunity to develop a unique course of study; one that is interdepartmental and not reflected in existing degree programs. Completion of the Individual Major does not lead to a professional license or certification, although graduates may be interested in pursuing alternative educational careers or graduate work. Graduates earn a BS–Education degree.

HOW TO GET IN

HOW TO GET IN

ADMISSION ELIGIBILITY REQUIREMENTS

To be eligible, applicants must:

- earn a 2.75 cumulative GPA on the UW–Madison campus.[1]
- complete a minimum of 54 credits
- receive approval of major program proposal submitted by the applicant.

[1] For alternative calculation of cumulative GPA, see Last 60 Credits Rule.

Last 60 Credits Rule

Two grade point averages will be calculated to determine candidates' eligibility to the program. GPAs will be calculated using

- all transferable college-level coursework attempted, and
- the last 60 credits attempted.

The higher GPA of these two will be used for purposes of determining eligibility. If fewer than 60 credits have been attempted, all credits will be used to calculate the GPA. Graded graduate coursework will also be used in all GPA calculations. ("Attempted" coursework indicates coursework for which a grade has been earned.) More information on this rule is available here (p. 1662).

APPLICATION PROCEDURES

Once a committee of three persons has been chosen in accord with the guidelines and required courses have been selected, students should proceed as follows:

- Submit an Individual Major in Education proposal form (http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission/).
- Submit the program plan and narrative with the transfer application for associate dean's approval. The three-member committee must sign the proposal in the spaces indicated. Failure to submit a program narrative will void the transfer.

Once an application form has been submitted, changes must be approved by both the chair of the committee and the associate dean. Changes must be recorded on the program plan. If more than two program changes are made, a new application form must be filed by the student.

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communication & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.

English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

SCHOOL OF EDUCATION DEGREE REQUIREMENTS

COMMUNICATION: BREADTH AND DEPTH

Courses designated as Communication A (Comm A) and Communication B (Comm B) help students learn how to gather and assess information from a variety of sources and to present different kinds of information, insight, and analysis to diverse audiences. Comm A courses focus on essential communication skills and Comm B courses teach research, writing, and communication skills within a disciplinary area.

Communication A	Complete either: • one course with the Communication A designation, or • satisfaction of Communication A based on UW Placement Test.
Communication B	One course with the Communication B designation.

QUANTITATIVE REASONING: BREADTH AND DEPTH

Quantitative Reasoning A courses provide students with foundational skills in mathematics, computer science, statistics or formal logic that are needed for dealing with quantitative information. In Quantitative Reasoning B courses, students use quantitative tools in the context of other disciplines or course material.

Quantitative Reasoning A	Complete either: • one course with the Quantitative Reasoning A designation, or • satisfaction of Quantitative Reasoning A based on UW Placement Test.
Quantitative Reasoning B	One course with the Quantitative Reasoning B designation.

LIBERAL STUDIES REQUIREMENTS

All students are required to complete a minimum of 40 credits of Liberal Studies (p. 1670) coursework. This requirement provides an opportunity to do some academic exploration beyond the scope of the major. Students take courses in areas of particular interest and also have an opportunity to sample the wide selection of courses offered across the university. Coursework is required in humanities, social studies (social science), science, and cultural and historical studies. Some elective coursework is also needed to reach the required number of credits.

The School of Education's Liberal Studies requirements can be used to satisfy the campus-wide Core General Education requirements. Communication A and B, and Quantitative Reasoning A and B coursework can also be used towards Core General Education and other requirements. Academic advisors can suggest courses that will count in multiple places.

A basic outline of the liberal studies is included below. Students must consult the detailed version of the requirements (p. 1670) for more information about course selection and how the liberal studies requirements apply to this major.

Are you interested in switching to the School of Education? If so, you should run a "what-if" DARS report. (https://kb.wisc.edu/registrar/94068/) It will show how many of these requirements you have already met and are unmet.

Humanities

Complete a minimum of 9 credits from these categories.

Literature	Complete a course with the Literature designation, minimum of 2 credits
Fine Arts	Complete a minimum of 2 credits from the list of courses below.
Humanities	Courses to total 9 Humanities credits. Select from: • Courses with the Humanities or Literature designation. • Fine Arts courses from the list below. • Courses with the Language courses designation. • ENGL 201 • ENGL 207 • COM ARTS 181

Fine Arts Courses

Code	Title	Credits
AFRICAN/ AFROAMER 220	HipHop, Youth Culture, and Politics in Senegal	3
AFRICAN/ AFROAMER 233	Global HipHop and Social Justice	3
AFROAMER 154	Hip-Hop and Contemporary American Society	3
AFROAMER 156	Black Music and American Cultural History	3
AFROAMER 225	Introduction to African American Dramatic Literature	3
AFROAMER/ ART HIST 241	Introduction to African Art and Architecture	3
AFROAMER/ ART HIST 242	Introduction to Afro-American Art	3
AFROAMER/ GEN&WS 267	Artistic/Cultural Images of Black Women	3
AFROAMER/ DANCE/MUSIC 318	Cultural Cross Currents: West African Dance/Music in the Americas	3
AFROAMER 338	The Black Arts Movement	3
AFROAMER/ GEN&WS 367	Art and Visual Culture: Women of the African Diaspora and Africa	3

AFROAMER/ AFRICAN 413	Contemporary African and Caribbean Drama	3-4

LITTRANS/ THEATRE 335	In Translation: The Drama of Henrik Ibsen	3-4
Any MUSIC course (https://guide.wisc.edu/courses/music/)		
Any MUS PERF course (https://guide.wisc.edu/courses/mus_perf/)		
Any THEATRE course (https://guide.wisc.edu/courses/theatre/)		

Social Studies

Social Studies Complete 9 credits with the Social Science designation.

The following programs have specific requirements:

- Kinesiology: PSYCH 202
- Art Education, Elementary Education, Elementary Education and Special Education, Physical Education, Special Education: POLI SCI 104 or 205

Science

Complete a minimum of 9 credits, including Physical and Biological Science. A laboratory science course is also required. The lab course can count toward the Biological or Physical Science requirement if it has the requisite breadth designation.

Physical Science	Complete one course with the Physical Science designation.
Biological Science	Complete one course with the Biological Science designation.
Lab Science	Complete one course with the Biological, Physical, or Natural Science designation with a lab component; see Course Search and Enroll. Additional eligible courses are listed below.
Science Elective(s)	If needed, complete a course with the Biological, Physical, or Natural Science designation to total 9 Science credits.

Laboratory Courses

Code	Title	Credits
ANTHRO 105	Principles of Biological Anthropology	3
ATM OCN 101	Weather and Climate	4
BOTANY 100	Survey of Botany	3
BOTANY/PL PATH 123	Plants, Parasites, and People	3
FOOD SCI/ MICROBIO 324	Food Microbiology Laboratory	2
GEOSCI 100	Introductory Geology: How the Earth Works	3
PHYSICS 109	Physics in the Arts	3
PLANTSCI 110	Introduction to Plant Science and Technology	4

Cultural and Historical Studies

Complete three requirements met by separate courses. Any of these courses can also be used to meet other requirements if it has the relevant breadth designation. A single course cannot satisfy more than one of the three Cultural and Historical Studies requirements listed below.

Ethnic Studies	Complete 3 credits with the Ethnic Studies Designation.
United States or European History	Complete 3 credits from the list of courses below.
Global Perspectives	Complete 3 credits from the list of courses below.

United States or European History Courses

Code	Title	Credits
AFROAMER 154	Hip-Hop and Contemporary American Society	3
AFROAMER 156	Black Music and American Cultural History	3

Liberal Studies Electives

Liberal Studies Electives	Complete additional liberal studies coursework as needed to reach the required 40 Liberal Studies credits.

PROGRAM STRUCTURE

The Bachelor of Science (BS) degree program with an individual major has three components:

- *Liberal studies* courses expose students to a broad range of academic disciplines. The university-wide *General Education* requirements also encourage this breadth of study.
- *Major* requirements permit in-depth study of a unique area within the School of Education. Students create their own, interdepartmental major following the guidelines established by the school. When completed, the title of the individual major is listed on the student's transcript.
- *Elective* credits make it possible to pursue additional areas of interest and are necessary to reach the minimum of 120 credits required for the degree.

REQUIREMENTS OF THE INDIVIDUAL MAJOR

DEVELOPMENT OF THE MAJOR

Students must have an area of interest that they wish to develop into a 36–42 credit formalized program of study, or major. Advisors in Education Student Services, Room 139 Education Building, 1000 Bascom Mall, 608-262-1651, can discuss students' interests and help frame the written narrative required of the major. Current students can schedule an appointment with an advisor online through the Starfish app (https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/) in MyUW.

Applicants must develop a narrative describing the proposed course of study and its related career goals. Information should be included which will enable a faculty committee to identify the relationship among the proposed program of study, a general interest in education, and career goals. A program title cannot duplicate the existing title of any program at UW–Madison.

SELECTION OF MAJOR COURSEWORK

Select courses that support the program narrative, in consultation with the major advisor; see below. **All courses in the major must be from School of Education course offerings.** All credits in the major must be completed after admission into the program (IME classification).

Additional requirements regarding the major are:

- To ensure depth and breadth of study, no more than two-thirds of the total credits in a major can be taken from any one department (i.e., if a major is 36 credits, no more than 24 credits can be in one department).
- A sequential development of courses must be planned in consultation with the major advisor and committee, and must be approved by the committee. The course sequence must include beginning through advanced levels of work as prescribed by the credit distribution.
- At least 20 of the IME credits must be at the intermediate or advanced levels (generally numbered 300 or above, but this varies in some departments).
- Courses in the School of Education completed prior to admission to the IME classification may not be used toward satisfaction of the 36–42 credits in the major without the faculty committee and associate dean's approval. The credits may count toward the 120 credits required for graduation.
- Degree candidates must complete at least 15 credits of upper-level major coursework in residence on the UW–Madison campus.
- An individual major which essentially parallels an existing departmental major will not be accepted.
- Directed study credits (e.g. 399, 699) are acceptable, but each course must be accompanied by a statement that includes a description of the focus of study, the requirements for successful completion of the credits, and a discussion of the applicability of content to the proposed individual major. Usually no more than 3 credits of

Independent Study will be allowed. Approval of the associate dean is required in order to exceed three credits.

- Students must complete prerequisites for all courses and, in some departments, may be required to complete foundational courses.

SELECTING THE ADVISORY COMMITTEE AND MAJOR ADVISOR

The applicant must create a three-member committee to oversee his or her work. Only assistant, associate, and full professors may serve on the committee; individuals holding such titles as Lecturer or Instructor cannot serve in this capacity. One of the committee members will be selected by the student to be the major advisor. The major advisor must be from a department within the School of Education and from the department in which the majority of courses for the individual major will be taken, i.e., the core area of study. The second faculty member must be from the same department as the major advisor/committee chair. The third faculty member must be from another department in the School of Education in which courses will be taken for the individual major. The associate dean serves as ex officio to the three-member committee and gives final approval to all programs and any exceptions.

ELECTIVE CREDITS

Elective credits make it possible to pursue additional areas of interest. Many students, for example, use their elective credits to complete an additional major from the College of Letters & Science. Some use this second major to complement their individual major, while others select second majors that are completely unrelated to their first. Elective credits are necessary to reach the minimum of 120 credits required for the degree.

GPA AND OTHER GRADUATION REQUIREMENTS

GRADUATION REQUIREMENTS

Graduation requirements are based on UW–Madison coursework. Graduation GPA requirements may be modified by the Last 60 Credits Rule (p. 1662).

- 2.75 cumulative grade point average.
- 2.75 cumulative grade point average across all major coursework
- 2.75 cumulative grade point average across all upper-level (numbered 300 and above) major coursework
- Degree candidates must complete at least 120 total credits.
- Major residency. Degree candidates must complete at least 15 credits of upper-level major coursework in residence on the UW–Madison campus.
- Senior residency. Degree candidates must complete their last 30 credits in residence on the UW–Madison campus.

DEGREE AUDIT (DARS)

UW–Madison uses "DARS" to document a student's progress toward the completion of their degree, including any additional majors and certificates. A DARS (Degree Audit Reporting System) report shows all the requirements for completing a degree and, against courses that are planned or completed, shows the requirements that have been met, and those that are unmet. A report can offer suggestions about courses that may be taken to meet specific requirements and can assist in the academic planning and enrollment process. Students can access a DARS report in the Course Search & Enroll app or Student Center via My UW.

DARS also has a "what-if" function. This feature makes it possible to request a DARS report as if pursuing another program, major, or certificate. It is an excellent tool if considering a new or additional area of study. School of Education students in a pre-professional classification such as Pre-Elementary (PRE) or Pre-Kinesiology should request a "what if" DARS report of their professional program of interest. For example, Pre-Elementary Education (PRE) students will request Elementary Education K-9; Pre-Kinesiology (PKN) students will request the Kinesiology report. Minors have their own DARS programs and are run separately from the main degree audit.

More information (including tutorials) on how to request and read regular and what-if DARS reports is available under the Resources tab on the Office of the Registrar's website. (https://registrar.wisc.edu/dars/)

DARS is not intended to replace student contact with academic advisors. It creates more time in an advising appointment to discuss course options, research opportunities, graduate school, or issues of personal interest or concern to students.

DARS is used as the document of record for degree program, major, and certificate completion in the School of Education.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

Individual Major: Sample Four-Year Plan

This four-year sample graduation plan is designed to guide your course selection throughout your academic career; it does not establish a contractual agreement. Use it along with your DARS report and the Course Guide to create a four-year plan reflecting your placement scores, incoming credits, and individual interests. Consult with an academic advisor to develop a personalized plan of study and refer to the Guide for a complete list of requirements. You will likely revise your plan several times during your academic career here, based on your activities and changing academic interests.

Development of the Major

Students must have an area of interest that they wish to develop into a 36–42 credit formalized program of study, or major. Advisors in the School of Education Student Services office, Room 139 Education Building, 1000 Bascom Mall, 608-262-1651, can discuss your interests and help frame the written narrative required of the major. Current students can schedule an appointment with an advisor online through the Starfish app (https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/) in MyUW.

Applicants must develop a narrative describing the proposed course of study and its related career goals. Information should be included which will enable a faculty committee to identify the relationship among the proposed program of study, a general interest in education, and career goals. All courses in the major must be from School of Education course offerings and all credits in the major must be completed after admission into the major (IME classification). The title of the major cannot duplicate the existing title of any other major or program at UW–Madison. Consult the Guide for more information on creating an individual major and its requirements.

Freshman

Fall	Credits	Spring	Credits
Communication A (fall or spring semester)	3	Communication A (fall or spring semester)	3
Liberal Studies course work	12-15	Ethnic Studies	3
		Quantitative Reasoning A	3
		Liberal Studies course work	6-9
	15		**15**

Sophomore

Fall	Credits	Spring	Credits
Communication B	3	Develop and submit major proposal for approval	
Liberal Studies course work	12	Quantitative Reasoning B	3
		Liberal Studies or General Elective course work	12
	15		**15**

Junior

Fall	Credits	Spring	Credits
Major course work[1]	9-12	Major course work	9-12
Liberal Studies or General Elective course work	3-6	Liberal Studies or General Elective course work	3-6
	15		**15**

Senior

Fall	Credits	Spring	Credits
Major course work (upper level)	9-12	Major course work (upper level)	9-12
Liberal Studies or General Elective course work	3-6	Liberal Studies or General Elective course work	3-6
	15		**15**

Total Credits 120

[1] At least 15 credits of major course work must be upper-level (numbered 300 and above) and taken in residence.

ADVISING AND CAREERS

ADVISING AND CAREERS

ADVISING FOR THE INDIVIDUAL MAJOR

Students interested in the Individual Major should first consult with an advisor in the School of Education Student Services office, see below. Current students can schedule an appointment online through the Starfish app (https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/) in MyUW. Eventually, a committee to oversee the major will be formed and also provide advising in the major.

Academic Advising in the School of Education

Dedicated to supporting and promoting student success, academic advisors (https://advising.education.wisc.edu/) are here to assist students with the adjustment to college, understanding their degree and career goals, and connecting them to resources. Advisors support prospective and current School of Education students in all programs through:

- Course selection
- Mentoring and advocacy for underrepresented and international students
- Understanding degree requirements and progression
- Interpreting academic policies
- Helping students recognize their strengths and suggesting ways to expand their skills
- Expanding learning through activities such as study abroad, volunteering/work/internship, and by assuming leadership roles

Advising appointments are available in person, virtually, or over the phone. Current students schedule appointments through the Starfish app (https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/) in MyUW. Appointments can also be made by calling 608-262-1651, or in person in Room 139 Education Building.

Academic Dean Support (https://advising.education.wisc.edu/academic-dean-support/) staff are also here for you when facing academic or personal challenges. We provide undergraduate School of Education students support, problem-solving, advocacy, resources, and approve exceptions to policies.

Career Advising in the School of Education

Through individual appointments, events, courses, and online resources, the Career Center provides students and alumni with the tools needed to be successful in their career development.

Career and Internship Advisors are prepared to help students with:

- Exploration of career and academic pathways (https://careercenter.education.wisc.edu/explore-career/)
- Resumes
- Cover letters
- Job/Internship search
- Interview preparation
- Mock interviews
- Graduate school search, applications and decisions
- Negotiating job or internship offers
- Professional networking
- Connecting with employers

Students are encouraged to meet with their Career and Internship Advisor early in their college experience to take full advantage of the resources and support available.

To make an appointment: log into Starfish (https://wisc.starfishsolutions.com/starfish-ops/) from the MyUW dashboard.

For more information, visit the School of Education Career Center website (https://careercenter.education.wisc.edu/) or reach out at career-center@education.wisc.edu.

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

Information related to scholarships, academic and career advising, study abroad opportunities, student well-being, and other resources for students in the School of Education can be found on the school's Resources (p. 1680) page.

EDUCATIONAL POLICY STUDIES

The Department of Educational Policy Studies, the #4 ranked education policy department in the nation, deepens and expands the understanding of educational policy and practice, past and present, at local, national, and international levels.

Through eye-opening, challenging coursework, students analyze educational dilemmas, conduct research, and develop skills to shape policy and practice across the globe. Students have opportunities for experiential learning through internships, community-based learning, and study abroad. The department provides a supportive intellectual community with peers and faculty committed to addressing the most pressing issues in education and in society.

Undergraduate courses emphasize the impact of educational programs and policies on equity, justice, educational improvement, and well-being. Course topics include the history, sociology, anthropology, economics, politics, and philosophy of education, comparative and international education, policy and evaluation, and educational equity. The department has strong ties with institutions and scholars in the U.S. and in other countries.

The department offers an undergraduate Bachelor of Science degree program in Educational Policy Studies (https://guide.wisc.edu/undergraduate/education/educational-policy-studies/education-studies-bs/). This program is designed to meet the needs of undergraduate students who are interested in working in domestic and/or global educational policy and practice. A new Honors program in Educational Policy Studies launched in the fall of 2025.

Graduates work as policy researchers, education specialists, program directors, community leaders, and more. Others go on to graduate research and professional degrees in a range of fields.

The department features four certificate programs:

- The popular Educational Policy Studies (EPS) Certificate (https://guide.wisc.edu/undergraduate/education/educational-policy-studies/educational-policy-studies-certificate/) provides students with an understanding of education debates, education policy, and education advocacy; it allows them to develop skills to critically examine policy.
- The Social Justice and Education Certificate (https://guide.wisc.edu/undergraduate/education/educational-policy-studies/social-justice-education-certificate/) provides students with an understanding of the social, political, and economic inequities that shape our schools and broader society, as well as how educators, students, administrators, parents, and community members have sought to interrupt these inequities (historically and in the contemporary period).
- The Global Languages, Cultures, and Education Certificate (https://guide.wisc.edu/undergraduate/education/educational-policy-studies/global-cultures-languages-education-certificate/) examines cultural diversity, social inequality, language policy, and literacy. It provides students with skills to work globally, within and beyond schools, in fields related to language, culture, and education.
- The International Education and Development Certificate (https://guide.wisc.edu/undergraduate/education/educational-policy-studies/international-development-education-certificate/) investigates the complex issues that shape international educational policies, programs, and practices as they address challenges of poverty, inequality, forced migration, sustainability, colonialism, and human rights. Students explore careers in international education development and global service with governmental and non-governmental organizations, educational institutions, and community development organizations.

Many Educational Policy Studies students pursue a second major and/or certificates that complement the skills and knowledge they are gaining via their EPS coursework and experiences.

DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/CERTIFICATES

- Educational Policy Studies, BS (p. 1859)
- Educational Policy Studies, Certificate (p. 1876)
- Global Cultures, Languages, and Education, Certificate (p. 1877)
- International Development and Education, Certificate (p. 1885)
- Social Justice and Education, Certificate (p. 1887)

EDUCATIONAL POLICY STUDIES, BS

The Educational Policy Studies degree program, formerly the Education Studies program, addresses urgent questions related to domestic and global education policy and practice. Majors become thought leaders who engage critically and ethically in educational policy debates and practice. While pursuing Educational Policy Studies, students (https://eps.education.wisc.edu/current-students/student-profiles/):

- Analyze the relationships among education, inequality, and social justice
- Investigate local, national, and global connections between education and other policy areas, including housing, healthcare, migration, justice, political reform, economic development, and foreign policy
- Explore contemporary educational issues from early childhood through K-12, higher education, and the workforce
- Engage in community-based learning, study abroad and study away, career development, internships, and research experiences related to education

- Compete for grants (https://eps.education.wisc.edu/about/student-awards/) for research or applied work and awards (https://eps.education.wisc.edu/about/student-awards/) in writing, research, and community-engaged scholarship
- Acquire qualitative, quantitative, philosophical, and historical research skills to study current issues in education policy and apply knowledge to practice

Through coursework, projects, advising, and independent studies, the Educational Policy Studies major prepares students for work in educational settings such as:

- Governmental agencies
- Non-governmental organizations (both domestic and international)
- Think tanks and policy institutes
- Community organizations
- Corporate, community, and non-traditional educational spaces

Graduates might serve as education and policy analysts, education specialists, policy researchers, education advocates, program directors, community-based educators or youth workers, education trainers, or in other positions of institutional leadership. They will also be well prepared to work in government, education, and social justice-related organizations, or to pursue advanced studies in education, educational policy, and other fields at the master's, professional, and doctoral level.

Graduates will receive a Bachelor of Science degree in Educational Policy Studies from the School of Education. This program does not lead to teacher certification. However, it can enhance and complement teacher preparation programs by teaching students about the relationship between schools and society, youth development, and the foundations of teaching. Students interested in gaining teaching licenses after graduation should connect with the School of Education Student Services (https://education.wisc.edu/academics/undergrad-majors/academic-advising/) office or the School of Education Career Center (https://careercenter.education.wisc.edu/) office on campus to discuss their options.

"There were two classes I took in the same semester that made me switch my major to Educational Policy Studies completely. They were ED POL/HISTORY 412 History of American Education and ED POL 300 School and Society. Ed Pol 412 was about how education came to be from the colonial time period in the United States through the present day. Ed Pol 300 is a class that makes us ask questions like, 'how does our society influence our schools?' and 'how do our schools influence our society?,' all within the context of the United States. Both courses were really interesting to me." – Abby Stoa (read more (https://education.wisc.edu/news/abby-stoa-from-the-school-of-educations-educational-policy-studies-major/?utm_source=Early_AD&utm_medium=email&utm_campaign=EPS_majors&utm_id=student&utm_content=Student_Story))

HOW TO GET IN

HOW TO GET IN

PROGRAM DECLARATION OVERVIEW

The Educational Policy Studies major may be completed either as the primary major or as an additional ("double") major.

Primary Major in Educational Policy Studies

Undergraduate students interested in completing the Bachelor of Science–Educational Policy Studies degree program will fulfill the School of Education's liberal studies and other degree requirements in addition to the 30 credits required for the Educational Policy Studies major.

Additional Major in Educational Policy Studies

Undergraduate students from all schools and colleges on campus (including the School of Education) may declare Educational Policy Studies as an additional major. Students completing Educational Policy Studies as an additional major do not need to complete the School of Education's liberal studies and other degree requirements. For declaration information, go directly to the Additional Major in Educational Policy Studies (p. 1861) section below.

ENTERING THE SCHOOL OF EDUCATION

New and Current UW–Madison Students

Incoming freshmen enter directly into the Bachelor of Science–Educational Policy Studies degree program upon admission to UW–Madison; list Educational Policy Studies as the intended major. No additional declaration to Educational Policy Studies is required. See UW–Madison Office of Admissions and Recruitment (http://admissions.wisc.edu/) for application information.

All other on-campus students will submit a declaration form following a meeting with an advisor in the School of Education Student Services office, 139 Education Building. Call 608-262-1651 or email studentservices@education.wisc.edu, to schedule an appointment; current students can also schedule an appointment online through the Starfish app (https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/) in MyUW.

Prospective Transfer Students

Transfer students must be admissible to the university to enroll in a School of Education degree program. See UW–Madison Office of Admissions and Recruitment (http://admissions.wisc.edu/) for application information. Transfer students enter directly into the Bachelor of Science–Educational Policy Studies degree program upon admission to UW–Madison; list Educational Policy Studies as the intended major. No additional declaration to Educational Policy Studies is required. Prospective transfer students are strongly advised to meet with an advisor in the School of Education Student Services office, 139 Education Building, in advance of their application. Consultations with advisors are available in person, virtually, or via telephone. To schedule, call 608-262-1651 or email studentservices@education.wisc.edu. Requirements and selection criteria may be modified from one declaration period to the next. .

Students With A Previous Degree

Prospective students who already hold an undergraduate degree must be admissible to the university to enroll in a School of Education degree program. See UW–Madison Office of Admissions and Recruitment (http://admissions.wisc.edu/) for application information.

Applicants must also meet the following criteria for admission as a second undergraduate degree candidate in the School of Education. Candidates must:

- be seeking a new major that is substantially different from their previous degree work;
- need to complete at least 15 upper-level credits in the new major;

- need to complete at least 30 credits beyond their previous coursework.

When admitted, second degree candidates enter directly into the Bachelor of Science–Educational Policy Studies degree program. No additional declaration to Educational Policy Studies is required.

Prospective students who already hold an undergraduate degree are strongly encouraged to meet with an advisor in the School of Education Student Services office, 139 Education Building, in advance of their application to UW-Madison. Consultations with advisors are available in person, virtually, or via telephone. To schedule, call 608-262-1651 or email studentservices@education.wisc.edu. (studentservices@education.wisc.edu)

DECLARATION AND ADMISSION

While new first year students and off-campus transfers are admitted directly to the Bachelor of Science–Educational Policy Studies degree program, all other current UW–Madison students seeking to enter the BS–Educational Policy Studies degree program must consult with an advisor in the School of Education Student Services office, 139 Education Building, prior to submitting a declaration form. Current students can schedule an appointment with an advisor online through the Starfish app (https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/) in MyUW. Appointments can also be made through email at studentservices@education.wisc.edu, by calling 608-262-1651, or in person.

Criteria for Admission

Eligibility to declare the Bachelor of Science–Educational Policy Studies degree:

- Cumulative grade point average of at least a 2.5 based on UW–Madison campus coursework, as modified by the Last 60 Credits Rule described below. Note: Students declaring Educational Policy Studies as an additional major are not held to this requirement.
- Submission of all required declaration materials, including program declaration form and transcripts.

Requirements and selection criteria may be modified from one declaration period to the next.

Last 60 Credits Rule

Two grade point averages may be calculated to determine candidates' eligibility to programs. GPAs will be calculated using

- all transferable college level coursework attempted, and
- the last 60 credits attempted.

The higher GPA of these two will be used for purposes of determining eligibility. If fewer than 60 credits have been attempted, all credits will be used to calculate the GPA. Graded graduate coursework will also be used in all GPA calculations. ("Attempted" coursework indicates coursework for which a grade has been earned.) More information on this rule is available here (p. 1662).

ADDITIONAL MAJOR IN EDUCATIONAL POLICY STUDIES

Undergraduate students from all schools and colleges on campus (including the School of Education) may declare Educational Policy Studies as an additional major. Students wishing to declare the additional major must visit an advisor in the School of Education Student Services office, 139 Education Building, to complete the declaration form; call 608-262-1651 or schedule an appointment with an advisor online through the Starfish app (https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/) in MyUW. The declaration must also be approved by the student's home school/college.

An additional major in Educational Policy Studies only requires the completion of the 30 credit major. Students do not need to complete the School of Education's liberal studies and other degree requirements for the additional major. Applicants are not held to the 2.5 cumulative GPA required of students completing the Educational Policy Studies degree program.

Please note that the requirements of the additional major must be completed before or concurrently with the degree program and primary major.

DECLARING HONORS IN THE MAJOR

Students wishing to pursue Honors in Educational Policy Studies must consult with an advisor in the School of Education Student Services office, 139 Education Building, prior to submitting an Honors declaration form. Current students can schedule an appointment with an advisor online through the Starfish app (https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/) in MyUW. Appointments can also be made through email at studentservices@education.wisc.edu, by calling 608-262-1651, or in person.

Criteria for Admission

Admission to Honors in Educational Policy Studies requires that students:

- Be a declared major in Educational Policy Studies. Students may declare the major and Honors at the same time.
- Have a minimum GPA of 3.3
- Have met with a School of Education Advisor regarding Honors in the Major
- Select a research method pathway and *have completed* one prerequisite research course (ED POL 209 or ED POL 308) with a grade of AB or higher
- Submit all required declaration materials, including the Honors declaration form and transcript(s).

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.

Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

SCHOOL OF EDUCATION DEGREE REQUIREMENTS

COMMUNICATION: BREADTH AND DEPTH

Courses designated as Communication A (Comm A) and Communication B (Comm B) help students learn how to gather and assess information from a variety of sources and to present different kinds of information, insight, and analysis to diverse audiences. Comm A courses focus on essential communication skills and Comm B courses teach research, writing, and communication skills within a disciplinary area.

Communication A	Complete either: • one course with the Communication A designation, or • satisfaction of Communication A based on UW Placement Test.
Communicatio B	One course with the Communication B designation.

QUANTITATIVE REASONING: BREADTH AND DEPTH

Quantitative Reasoning A courses provide students with foundational skills in mathematics, computer science, statistics or formal logic that are needed for dealing with quantitative information. In Quantitative Reasoning B courses, students use quantitative tools in the context of other disciplines or course material.

Quantitative Reasoning A	Complete either: • one course with the Quantitative Reasoning A designation, or • satisfaction of Quantitative Reasoning A based on UW Placement Test.
Quantitative Reasoning B	One course with the Quantitative Reasoning B designation.

LIBERAL STUDIES REQUIREMENTS

All students are required to complete a minimum of 40 credits of Liberal Studies (p. 1670) coursework. This requirement provides an opportunity to do some academic exploration beyond the scope of the major. Students take courses in areas of particular interest and also have an opportunity to sample the wide selection of courses offered across the university. Coursework is required in humanities, social studies (social science), science, and cultural and historical studies. Some elective coursework is also needed to reach the required number of credits.

The School of Education's Liberal Studies requirements can be used to satisfy the campus-wide Core General Education requirements. Communication A and B, and Quantitative Reasoning A and B coursework can also be used towards Core General Education and other

requirements. Academic advisors can suggest courses that will count in multiple places.

A basic outline of the liberal studies is included below. Students must consult the detailed version of the requirements (p. 1670) for more information about course selection and how the liberal studies requirements apply to this major.

Are you interested in switching to the School of Education? If so, you should run a "what-if" DARS report. (https://kb.wisc.edu/registrar/94068/) It will show how many of these requirements you have already met and are unmet.

Humanities

Complete a minimum of 9 credits from these categories.

Literature	Complete a course with the Literature designation, minimum of 2 credits
Fine Arts	Complete a minimum of 2 credits from the list of courses below.
Humanities	Courses to total 9 Humanities credits. Select from: • Courses with the Humanities or Literature designation. • Fine Arts courses from the list below. • Courses with the Language courses designation. • ENGL 201 • ENGL 207 • COM ARTS 181

Fine Arts Courses

Code	Title	Credits

Social Studies

Social Studies Complete 9 credits with the Social Science designation.

The following programs have specific requirements:

- Kinesiology: PSYCH 202
- Art Education, Elementary Education, Elementary Education and Special Education, Physical Education, Special Education: POLI SCI 104 or 205

Science

Complete a minimum of 9 credits, including Physical and Biological Science. A laboratory science course is also required. The lab course can count toward the Biological or Physical Science requirement if it has the requisite breadth designation.

Physical Science	Complete one course with the Physical Science designation.
Biological Science	Complete one course with the Biological Science designation.
Lab Science	Complete one course with the Biological, Physical, or Natural Science designation with a lab component; see Course Search and Enroll. Additional eligible courses are listed below.
Science Elective(s)	If needed, complete a course with the Biological, Physical, or Natural Science designation to total 9 Science credits.

Laboratory Courses

Code	Title	Credits
ANTHRO 105	Principles of Biological Anthropology	3
ATM OCN 101	Weather and Climate	4
BOTANY 100	Survey of Botany	3
BOTANY/PL PATH 123	Plants, Parasites, and People	3
FOOD SCI/ MICROBIO 324	Food Microbiology Laboratory	2
GEOSCI 100	Introductory Geology: How the Earth Works	3
PHYSICS 109	Physics in the Arts	3
PLANTSCI 110	Introduction to Plant Science and Technology	4

Cultural and Historical Studies

Complete three requirements met by separate courses. Any of these courses can also be used to meet other requirements if it has the relevant breadth designation. A single course cannot satisfy more than one of the three Cultural and Historical Studies requirements listed below.

Ethnic Studies	Complete 3 credits with the Ethnic Studies Designation.
United States or European History	Complete 3 credits from the list of courses below.
Global Perspectives	Complete 3 credits from the list of courses below.

United States or European History Courses

Liberal Studies Electives

Liberal Studies Electives	Complete additional liberal studies coursework as needed to reach the required 40 Liberal Studies credits.

PROGRAM STRUCTURE

The Educational Policy Studies program has three primary components:

- *Liberal studies* and *general education* courses that expose students to a broad range of academic disciplines.
- *Major* coursework in educational policy studies, including core course, depth, and breadth requirements.
- *Elective* credits to pursue individual areas of interest. Educational Policy Studies majors are encouraged to consider completing complementary coursework in the College of Letters & Science, possibly including an additional major. The structure of the Educational

Policy Studies degree program makes it possible to complete an additional major and still graduate in four years.

MAJOR REQUIREMENTS

The Educational Policy Studies major requires 30 credits, to include core courses (9 credits), information literacy requirement (3 credits), depth requirements (9 credits) and breadth requirements (9 credits).

CORE COURSES, 9 CREDITS

Complete the following:

Code	Title	Credits
ED POL 240	Comparative Education	3
ED POL 300	School and Society	3
ED POL/ HISTORY 412	History of American Education	3

INFORMATION LITERACY REQUIREMENT, 3 CREDITS

Complete a minimum of one course (3 credits) which provides focused attention on developing information literacy in the field of education.

According to the American Library Association, "Information literacy is a set of abilities, requiring individuals to 'recognize when information is needed and have the ability to locate, evaluate, and use effectively the needed information' (American Library Association. Presidential Committee on Information Literacy. (https://www.ala.org/acrl/publications/whitepapers/presidential/)) 'To be information literate, then, one needs skills not only in research but in critical thinking" (American Library Association, 2025 (https://literacy.ala.org/information-literacy/)). "Information Literacy empowers people in all walks of life to seek, evaluate, use and create information effectively to achieve their personal, social, occupational and educational goal." (UNESCO, 2023 (https://www.unesco.org/en/ifap/information-literacy/)).

Code	Title	Credits
ED POL 134	Media Literacy and Misinformation in Education	3
ED POL/ HISTORY 143	History of Race and Inequality in Urban America	3
ED POL 145	Introduction to Education Policy	3
ED POL 209	Introduction to Quantitative Methods in Education Policy	3
ED POL 308	Introduction to Qualitative Research Methods in Education	3

DEPTH REQUIREMENTS, 9 CREDITS

Complete#a minimum of three courses (9 credits) to facilitate in-depth study of education policy and practice. At least one course (3 credits) must be an advanced ED POL course (numbered 500 or above).

Code	Title	Credits
ED POL/ HISTORY 107	The History of the University in the West	3
ED POL 112	Global Education through Film	3
ED POL 120	Environmental and Sustainability Education in Wisconsin Policy and Practice	3
ED POL 123	Education, Technology, and Society: AI, Big Data, and the Digital Divide	3

BREADTH REQUIREMENTS, 9 CREDITS

Code	Title	Credits
Required Breadth Course		
Complete one of the following:		3
ED PSYCH 301	How People Learn	
ED PSYCH 320	Human Development in Infancy and Childhood	
ED PSYCH 321	Human Development in Adolescence	
ED PSYCH 331	Human Development From Childhood Through Adolescence	
Additional Breadth Course Options		
Complete additional coursework (6 credits) NOT selected from Depth Requirements, or from the courses listed below. ED PSYCH 301, 320, 321 and 331 may also count here, but not toward both breadth requirements.		
CURRIC 240	Critical Aspects of Teaching, Schooling, and Education	3
CURRIC/ CHICLA 321	Chicanx/e and Latinx/e Educational Justice	3
CURRIC 331	Taking Education Outside of School	3
CURRIC 366	Internationalizing Educational Knowledge	3
CURRIC/C&E SOC/ ENVIR ST 405	Education for Sustainable Communities	3
ED PSYCH 326	Mind, Brain and Education	3
ED PSYCH 506	Contemporary Issues in Educational Psychology	3
ED PSYCH 541	Applied Behavior Analysis in Classrooms	3
ELPA 640	Legal Rights and Responsibilities for Teachers	1-3
INTER-LS 300	Topics in Teaching and Learning in the Letters, Arts, and Sciences (Understanding and Improving Instruction topic only; other topics require approval)	3

ELECTIVE CREDITS

Complete additional credits to complete the minimum of 120 required for the degree. Educational Policy Studies majors are encouraged to consider completing complementary coursework in the College of Letters & Science, possibly including an additional major. The structure of the Educational Policy Studies degree program makes it possible to complete an additional major and still graduate in four years.

HONORS IN THE MAJOR

Honors in the major is for students who want more in-depth understanding and experiences in educational policy studies, as well as hands-on research experience. Honors in the Major also provides students with opportunities

to develop leadership, writing, and critical thinking skills beneficial to a range of graduate programs and career choices. Honors students in Educational Policy Studies will join a vibrant intellectual community of faculty, staff, and students committed to furthering socially just visions of education to answer the most pressing issues in education and in society.

To be admitted to the program, Honors in Educational Policy Studies students must:

- Be a declared major in Educational Policy Studies,
- Have a minimum GPA of 3.3,
- Have met with a School of Education Advisor regarding Honors in the Major
- Select a research method pathway and *have completed* one prerequisite research course with a grade of AB or higher:

See How to Get in (p. 1860) for more details regarding the Honors declaration process.

EDUCATIONAL POLICY STUDIES HONORS RESEARCH PATHWAY

To earn Honors in the Major, students must satisfy the requirements for the major and the following additional requirements:

- Earn a 3.3 University GPA
- Earn a 3.5 GPA average for all ED POL courses
- Participate in Department research colloquium.
- Complete a two-semester Honors capstone experience, comprising the Honors Capstone class (ED POL 680), and an ED POL course (Qualitative: ED POL 618 or ED POL 580; Quantitative: ED POL 605 or ED POL 688) that offers a mentored research experience.
- Students must receive a B or higher in ED POL 680 in order to receive honors in the major.

Qualitative Research Honors Pathway

Code	Title	Credits
Prerequisite for honors declaration		
ED POL 308	Introduction to Qualitative Research Methods in Education	
Capstone Course		
ED POL 680	Educational Policy Studies Honors Capstone	
Mentored Research Course		
ED POL 618	Advanced Qualitative Research Methods in Education	
or ED POL 580	Participatory and Community-Based Research and Evaluation	

Quantitative Research Honors Pathway

Code	Title	Credits
Prerequisite for honors declaration		
ED POL 209	Introduction to Quantitative Methods in Education Policy	3
Capstone Course		
ED POL 680	Educational Policy Studies Honors Capstone	3
Mentored Research Course		
ED POL 605	Using Secondary Data: Applied Quantitative Analysis	3
or ED POL 688	Introduction to Survey Methods for Education Research	

ADDITIONAL CONSIDERATIONS FOR HONORS IN THE MAJOR

Students may take ED POL 680 before or after their research apprenticeship class. ED POL 680 will only be offered in the Fall semester.

The capstone course will give students an opportunity to develop expertise in existing research on an issue or question of interest to them and complete a capstone project. The capstone course will also help students engage in interdisciplinary conversations, consider pressing issues in education, explore potential professional and academic trajectories, and prepare for future careers and graduate education.

Students may declare the major and honors at the same time and may do so any time in their programs; however, being accepted to into the Honors program is a prerequisite to enrolling in ED POL 680. It is strongly advised that you declare Honors in the major as soon as you that know that you would like to do the program so that you can receive information and opportunities related to honors in the major.

The mentored research course (ED POL 618, ED POL 580, ED POL 605, or ED POL 688) is an opportunity to gain educational research and policy skills appropriate for graduate school or an array of future careers. Students may take ED POL 680 before or after their mentored research class

Honors research will be in the social sciences, either quantitative or qualitative research methods. Educational Policy Studies Honors in the Major cannot currently accommodate student research apprenticeships in philosophy or history. Students interested in writing a historical or philosophical thesis are encouraged to do so through the History and Philosophy departments. Several Educational Policy Studies history and philosophy faculty have served on such committees in the past.

Students may change their intended research pathway (quantitative or qualitative) after being admitted to the Honors program but will still need to complete the appropriate prerequisite for the advanced research methods course (either ED POL 209 or ED POL 308) or receive permission of the instructor and the department chair.

The primary mechanism for students to satisfy the honors colloquium requirement will be the annual EPS Conference, which is typically held in early March. Students who enter the Honors program during or prior to their junior year will be required to attend the EPS Conference in person during that academic year. During their senior year, students pursuing Honors will present their literature review or in-progress research at the EPS Conference via a research poster.

To participate in the poster fair, senior Honors students must prepare and print a research or literature review poster prior to the EPS Conference. They are expected to attend the Conference poster fair in person to discuss their poster with attendees. EPS will provide students with resources for preparing, printing, and presenting a literature review or research poster.

Junior Honors students who are unable to attend the EPS Conference in person may instead attend three EPS Lunch & Learn lectures in person over the course of the academic year.

Senior Honors students who are presenting their research at the EPS Conference will be required to prepare and print a poster even if extenuating circumstances prevent them from attending the Conference

poster fair in person. Posters will again be on display during the May graduation celebration.

GPA AND OTHER GRADUATION REQUIREMENTS

GRADUATION REQUIREMENTS

Based on UW–Madison coursework.

2.5 minimum cumulative grade point average. This may be modified by the Last 60 Credits Rule.

2.5 cumulative major grade point average.

2.5 cumulative grade point average in all upper-level major coursework ("upper-level" defined as numbered 300 and above).

Major Residency: Students must complete at least 15 credits of upper-level major coursework numbered 300 or above in residence on the UW–Madison campus. At least three of these credits must be in an advanced ED POL course numbered 500 and above.

Senior Residency: Degree candidates must complete their last 30 credits in residence on the UW–Madison campus, excluding retroactive credits and credits granted by examination.

Total credits: A minimum of 120 credits are required for graduation.

DEGREE AUDIT REPORTING SYSTEM (DARS)

UW–Madison uses "DARS" to document a student's progress toward the completion of their degree, including any additional majors and certificates. A DARS (Degree Audit Reporting System) report shows all the requirements for completing a degree and, against courses that are planned or completed, shows the requirements that have been met, and those that are unmet. A report can offer suggestions about courses that may be taken to meet specific requirements and can assist in the academic planning and enrollment process. Students can access a DARS report in the Course Search & Enroll app or Student Center via My UW.

DARS also has a "what-if" function. This feature makes it possible to request a DARS report as if pursuing another program, major, or certificate. It is an excellent tool if considering a new or additional area of study. School of Education students in a pre-professional classification such as Pre-Elementary (PRE) or Pre-Kinesiology should request a "what if" DARS report of their professional program of interest. For example, Pre-Elementary Education (PRE) students will request Elementary Education K-9; Pre-Kinesiology (PKN) students will request the Kinesiology report. Minors have their own DARS programs and are run separately from the main degree audit.

More information (including tutorials) on how to request and read regular and what-if DARS reports is available under the Resources tab on the Office of the Registrar's website. (https://registrar.wisc.edu/dars/)

DARS is not intended to replace student contact with academic advisors. It creates more time in an advising appointment to discuss course options, research opportunities, graduate school, or issues of personal interest or concern to students.

DARS is used as the document of record for degree program, major, and certificate completion in the School of Education.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Formulate research-based arguments on topics in education policy using academic literature, including both primary and secondary sources.
2. Critically examine education and its contexts through multiple theoretical perspectives (e.g., sociocultural, economic/political, historical, philosophical).
3. Analyze pressing questions in education using different historical, philosophical, and/or social science research methods.
4. Analyze education issues from diverse perspectives related to forms of social difference (e.g., race, class, nationality, disability, gender, sexuality).
5. Gather information, critically analyze arguments, and thoughtfully communicateresearch-based arguments to a variety of audiences, using different modes of communication.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

Educational Policy Studies: Sample Four-Year Plan

This four-year sample graduation plan is designed to guide your course selection throughout your academic career; it does not establish a contractual agreement. Use it along with your DARS report, the Guide, and the Course Search and Enroll app to create a four-year plan reflecting your placement scores, incoming credits, and individual interests. Consult with an academic advisor to develop a personalized plan of study and refer to the Guide for a complete list of requirements. You will likely revise your plan several times during your academic career here, based on your activities and changing academic interests.

ADVISING AND CAREERS

ADVISING AND CAREERS

EDUCATIONAL POLICY STUDIES ADVISING

Students are advised by staff from the School of Education Student Services office (Room 139 Education Building) at SOAR and during the regular academic year (see below). Admitted students are also assigned a departmental advisor.

SCHOOL OF EDUCATION ADVISING

Academic Advising in the School of Education

Dedicated to supporting and promoting student success, academic advisors (https://advising.education.wisc.edu/) are here to assist students with the adjustment to college, understanding their degree and career goals, and connecting them to resources. Advisors support prospective and current School of Education students in all programs through:

- Course selection
- Mentoring and advocacy for underrepresented and international students
- Understanding degree requirements and progression
- Interpreting academic policies
- Helping students recognize their strengths and suggesting ways to expand their skills
- Expanding learning through activities such as study abroad, volunteering/work/internship, and by assuming leadership roles

Advising appointments are available in person, virtually, or over the phone. Current students schedule appointments through the Starfish app (https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/) in MyUW. Appointments can also be made by calling 608-262-1651, or in person in Room 139 Education Building.

Academic Dean Support (https://advising.education.wisc.edu/academic-dean-support/) staff are also here for you when facing academic or personal challenges. We provide undergraduate School of Education students support, problem-solving, advocacy, resources, and approve exceptions to policies.

Career Advising in the School of Education

Through individual appointments, events, courses, and online resources, the Career Center provides students and alumni with the tools needed to be successful in their career development.

Career and Internship Advisors are prepared to help students with:

- Exploration of career and academic pathways (https://careercenter.education.wisc.edu/explore-career/)
- Resumes
- Cover letters
- Job/Internship search
- Interview preparation
- Mock interviews
- Graduate school search, applications and decisions
- Negotiating job or internship offers
- Professional networking
- Connecting with employers

Students are encouraged to meet with their Career and Internship Advisor early in their college experience to take full advantage of the resources and support available.

To make an appointment: log into Starfish (https://wisc.starfishsolutions.com/starfish-ops/) from the MyUW dashboard.

For more information, visit the School of Education Career Center website (https://careercenter.education.wisc.edu/) or reach out at career-center@education.wisc.edu.

Information about common career pathways, ways to get involved and gain experience, and transferrable skills developed through this major can be found on the School of Education Career Center's Educational Policy Studies Pathways (https://careercenter.education.wisc.edu/explore-career/education-policy-studies-career-pathway/) webpage.

WISCONSIN EXPERIENCE

WISCONSIN EXPERIENCE

UW–Madison's vision for the total student experience, the Wisconsin Experience (https://wisconsinexperience.wisc.edu/about/), combines learning in and out of the classroom. Tied to the Wisconsin Idea (https://www.wisc.edu/wisconsin-idea/) and steeped in long-standing institutional values — the commitment to the truth, shared participation in decision-making, and service to local and global communities — the Wisconsin Experience describes how students develop and integrate these core values across their educational experience.

UW–Madison encourages students to mindfully engage in four core concepts throughout their time on campus: Empathy & Humility, Relentless Curiosity, Intellectual Confidence, and Purposeful Action (https://wisconsinexperience.wisc.edu/intellectual-confidence/).

Since its inception, the School of Education has embraced the concepts of the Wisconsin Experience, providing opportunities for students to learn in venues beyond the traditional classroom. Our students also independently seek out related activities and experiences, thus creating their own unique Wisconsin Experience.

EDUCATIONAL POLICY STUDIES AND THE WISCONSIN EXPERIENCE

Supplemental activities in and beyond the classroom enhance Educational Policy Studies (Ed Pol) coursework to extend what students are learning through course texts and discussions.

Engage with Guest Experts

Many Educational Policy Studies courses feature guest speakers, including prominent scholars from universities across the globe, local educational leaders from community-based organizations and school districts, and educational policymakers. The Department also hosts speakers who highlight cutting-edge research, policy debates, careers, new developments in education (https://eps.education.wisc.edu/about/conferences/), and examples of how educational research informs policy and practice. Students have opportunities to learn from a variety of experts, expand their perspectives, ask questions, and connect.

Honors Program

Students in the Honors program gain more in-depth understanding and experiences in educational policy studies, as well as a hands-on, mentored research experience with faculty. Students also have opportunities to develop leadership, writing, and critical thinking skills beneficial to a range of graduate programs and career choices.

Volunteer, Leadership, and Community-Based Experiences

Educational Policy Studies students often volunteer and assume leadership roles on campus and/or within the broader community. They may take Community-based Learning (CBL) courses in EPS that enable them to integrate what they're learning in the classroom with what they're learning as volunteers in local educational spaces such as schools, the United Way (https://www.unitedwaydanecounty.org/), Centro Hispano (https://www.micentro.org/), Goodman Center (https://www.goodmancenter.org/), and other organizations.

Leadership and Mentoring in the EPS Community

EPS majors develop leadership skills through programs like the EPS Ambassadors Program, in which students advise Educational Policy Studies faculty and staff and recruit new students via course presentations and participation in departmental events. Incoming and transferring Educational Policy Studies majors are invited to participate in our Educational Policy Studies Buddy program, where they will be paired with a Junior or Senior EPS major for guidance and mentorship. Students contribute actively to building a supportive intellectual community in the major.

Career Development and Internships

Our department encourages career development beyond our classrooms by offering internships and courses such as ED POL 202 Careers in Education that prepare EPS majors to pursue careers post-graduation.

Awards

Awards in the EPS program, including the Outstanding Research Paper in Educational Policy Studies Award, the Outstanding Project in Educational Policy Studies Award, and the Eric Flanagan Community-Engaged Scholarship Award, recognize undergraduate excellence.

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

Information related to scholarships, academic and career advising, study abroad opportunities, student well-being, and other resources for students in the School of Education can be found on the school's Resources (p. 1680) page.

EDUCATIONAL POLICY STUDIES, CERTIFICATE

Through the Educational Policy Studies Certificate, students learn about education debates, education policy, and educational advocacy. Courses emphasize the implications of policy decisions for equity, justice, and well-being. Students critically analyze policy issues from multiple perspectives.

Students interested in pursuing this certificate are encouraged to consult with advising staff in the School of Education Student Services office, Room 139 Education Building, 1000 Bascom Mall. Current students can schedule an appointment online through the Starfish app (https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/) in MyUW. Appointments can also be made by calling 608-262-1651, or in person.

The EPS certificate is also available to individuals who have already completed a bachelor's degree; see the Nondegree/Visiting Student Guide (https://guide.wisc.edu/nondegree/).

HOW TO GET IN

HOW TO GET IN

All current UW-Madison undergraduates and University Special Students are eligible to complete the Certificate in Educational Policy Studies. Students must complete at least one Educational Policy Studies (ED POL) (https://guide.wisc.edu/courses/ed_pol/) course with a grade of B or better prior to declaring the certificate program. Students intending to complete the Educational Policy Studies Certificate should visit the

School of Education's Certificate Programs (https://education.wisc.edu/academics/certificates/) page to complete the declaration form.

Students pursuing the Educational Policy Studies major, the Certificate in International Development and Education, the Certificate in Global Cultures, Languages, and Education, and/or the Certificate in Social Justice and Education, are not eligible to complete the Educational Policy Studies certificate.

REQUIREMENTS

REQUIREMENTS

The Certificate in Educational Policy Studies requires the following course distribution for a minimum of 12 credits. At least 6 credits must be completed in residence. Completion of the certificate requires a minimum GPA of 2.0 in certificate coursework.

- Complete a minimum of four Educational Policy Studies courses (https://guide.wisc.edu/courses/ed_pol/) (12 credits).
- Students must take at least one of the following courses:

Code	Title	Credits
ED POL 240	Comparative Education	3
ED POL 300	School and Society	3
ED POL/ HISTORY 412	History of American Education	3

- At least two courses must be numbered 300 or above.

UNDERGRADUATE/SPECIAL STUDENT CERTIFICATE

This certificate may be completed within the context of an undergraduate degree or as a Special student after an undergraduate degree has been awarded from any institution. The certificate may be completed in its entirety while enrolled as a Special student. Candidates are encouraged to contact the certificate coordinator to discuss course enrollment and the sequencing of certificate requirements.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Demonstrate an understanding of the social, cultural, and/or historical contexts of education policy.
2. Examine education policy from multiple theoretical perspectives (e.g., ethical/philosophical, economic/political, etc.).
3. Analyze education policy issues from diverse perspectives related to race, class, and/or gender, and other forms of social difference.

GLOBAL CULTURES, LANGUAGES, AND EDUCATION, CERTIFICATE

The Certificate in Global Cultures, Languages, and Education (GCLE) educates students about global cultural, sociolinguistic, literacy and language policy and planning perspectives.

Students explore key questions about the relationships among cultural diversity, social inequality, and language. Skills are developed to facilitate working globally, within and beyond schools, in the field of culture, communication, and education.

HOW TO GET IN

HOW TO GET IN

All current UW-Madison undergraduates are eligible to complete the Certificate in Global Cultures, Languages, and Education. To declare the certificate, students should visit the School of Education's Certificate Programs (https://education.wisc.edu/academics/certificates/) page to complete the declaration form.

Students pursing the Educational Policy Studies major or the Certificate in Educational Policy Studies are not eligible to complete the Certificate in Global Cultures, Languages, and Education.

REQUIREMENTS

REQUIREMENTS

The Certificate in Global Cultures, Languages, and Education requires the following course distribution for a minimum of 12 credits. At least 6 credits must be completed in residence.

Completion of the certificate requires a minimum GPA of 2.0 in certificate coursework.

REQUIRED COURSE

This course provides students with foundational knowledge about global cultures, languages, and education that they can build from and connect to their other coursework and assignments as part of the certificate.

Code	Title	Credits
ED POL 205	Language and Social Inequality	3

LANGUAGE, CULTURE AND SCHOOLING

Select one of the following courses (3 credits):

Code	Title	Credits
ED POL 240	Comparative Education	3
ED POL/ ANTHRO 570	Anthropology and Education	3
ED POL 595	Language Politics and Education	3
CURRIC 312	Foundations of ESL Education	3

GLOBAL EDUCATION

Select one of the following Global Education courses (3 credits):

Code	Title	Credits
ED POL 112	Global Education through Film	3
ED POL 197	Listening to the Land	3
ED POL/ INTL ST 220	Human Rights and Education	3

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Evaluate the social, cultural, and historical contexts of global language policy and linguistic and cultural practices.
2. Draw from theory and research to analyze and evaluate language policy and practice.
3. Analyze language education policy issues from diverse perspectives related to nationality, race, class, gender, ability, and other forms of social differentiation.

INTERNATIONAL DEVELOPMENT AND EDUCATION, CERTIFICATE

The Certificate in International Development and Education cultivates global education leaders who understand the complex issues that shape international education and are prepared to engage in transforming policy and practice.

Students will explore a range of topics such as: poverty, inequity, sustainability, human rights, and governance; engage in self-reflection about the roles they might play in international development efforts; and learn about international education innovations.

HOW TO GET IN

HOW TO GET IN

All current UW-Madison undergraduates are eligible to complete the Certificate in International Development and Education. Students intending to complete this certificate should visit the School of Education's Certificate Programs (https://education.wisc.edu/academics/certificates/) page to complete the declaration form.

Students pursuing the Educational Policy Studies major or the Certificate in Educational Policy Studies are not eligible to complete the Certificate in International Development and Education.

REQUIREMENTS

REQUIREMENTS

The Certificate in International Development and Education requires the following course distribution for a minimum of 12 credits. At least 6 credits must be completed in residence.

Completion of the certificate requires a minimum GPA of 2. 0 in certificate coursework.

CORE COURSE

This course (3 credits) provides a foundational overview of the field of International Development Education and should be taken as early as possible.

Code	Title	Credits
ED POL 260	Introduction to International Education Development	3

EDUCATION POLICY GLOBAL EDUCATION AND DEVELOPMENT ELECTIVES

Select two courses from the following options (6 credits). These topical courses allow students to explore a key theme (e.g., human rights, climate change, poverty and inequality, health) in International Development Education in greater depth, or to deepen their understanding of the field of International and Comparative Education.

Code	Title	Credits
ED POL 112	Global Education through Film	3
ED POL/ INTL ST 220	Human Rights and Education	3
ED POL 245	Education in East Asia	3
ED POL 320	Climate Change, Sustainability, and Education	3
ED POL/ INTL ST 335	Globalization and Education	3
ED POL 337	Wealth, Poverty and Education	3
ED POL 423	Education for Global Change	3
ED POL 460	Immigration, Education, and Equity	3
ED POL/ ANTHRO 570	Anthropology and Education	3
ED POL 675	Introduction to Comparative and International Education	3

CAMPUS-WIDE INTERNATIONAL DEVELOPMENT AND EDUCATION ELECTIVE

Select one course from the following options (3 credits). These topical courses allow students to explore how key disciplines and fields of study across the campus engage with International Development:

Code	Title	Credits
A A E/INTL ST 373	Globalization, Poverty and Development	3
A A E/INTL ST 374	The Growth and Development of Nations in the Global Economy	3

INTL ST 403	Topics in Culture in the Age of Globalization	3-4
INTL ST/ POLI SCI 431	Contentious Politics	3-4

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Evaluate the social, cultural, and historical contexts of colonialism, imperialism, internationalism, and nongovernmental and state relations that shape the international development and international education fields.
2. Analyze information about international development education problems from diverse disciplinary, methodological, and epistemological perspectives.
3. Analyze international development education from diverse professional roles and perspectives related to nationality, race, class, gender, ability, and other forms of social differentiation.

SOCIAL JUSTICE AND EDUCATION, CERTIFICATE

The Certificate in Social Justice and Education examines equity in educational policy and practice. Students gain a foundational understanding of the social inequities that shape education and broader society. Students also learn how educators, students, administrators, parents, and community members have effectively responded to these inequities.

This certificate prepares UW–Madison students to critically analyze the role education policies and practices play in broader social inequalities and social justice efforts. Students connect course concepts to their own lives as well as to historical and contemporary social and educational issues in the U.S. and/or globally.

HOW TO GET IN

HOW TO GET IN

All current UW-Madison undergraduates are eligible to complete the Certificate in Social Justice and Education. Students intending to complete this certificate should visit the School of Education's Certificate Programs (https://education.wisc.edu/academics/certificates/) page to complete the declaration form.

Students pursuing the Educational Policy Studies major or the Certificate in Educational Policy Studies are not eligible to complete the Certificate in Social Justice and Education.

REQUIREMENTS

REQUIREMENTS

The Certificate in Social Justice and Education requires the following course distribution for a minimum of 12 credits. At least 6 credits must be completed in residence. Completion of the certificate requires a minimum GPA of 2. 0 in certificate coursework.

REQUIRED COURSE

This course provides students with foundational knowledge about social justice in education that they can build from and connect to their other coursework and assignments as part of the certificate.

Code	Title	Credits
ED POL 212	Education for Social Justice	3

ELECTIVE COURSES

Select three additional courses that have a central focus on social justice in education. Two of the three must be in ED POL coursework. These courses meet most or all of the certificate's Learning Outcomes, and enable students to tailor the certificate to their specific topical and disciplinary areas of interest (e.g. historical perspectives on social justice and education, social justice and education in the U.S., comparative/global studies of social justice and education).

Code	Title	Credits

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Identify and describe the relationship between education and social inequality in the U.S. and globally.
2. Draw from theory and research to identify and analyze social inequities that shape education and broader society, as well as how various education stakeholders have responded to these inequities through their social justice efforts.
3. Analyze social justice issues in education from diverse perspectives related to nationality, race, class, gender, ability, and other forms of social differentiation.

EDUCATIONAL PSYCHOLOGY

Although the department does not offer an undergraduate major, students from across the campus may take undergraduate courses from this top-ranked department. Courses are offered in each of the main content areas: human development, learning sciences, and quantitative methods.

The Education and Educational Services (p. 1888) certificate may be completed by undergraduate students from across the campus. This certificate provides a cohesive set of courses for students interested in the many aspects of education, but who choose not to major in education while completing their undergraduate degree. Students interested in child development, neuroscience and the process of learning, or education-related policies, for example, may wish to complement their current major with this substantive program in education.

DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/CERTIFICATES

- Education and Educational Services, Certificate (p. 1888)

EDUCATION AND EDUCATIONAL SERVICES, CERTIFICATE

Education is a topic of widespread interest to UW–Madison students and is one of the hotly contested subjects in today's politics and society. The Education and Educational Services (EES) Certificate provides a cohesive set of courses for undergraduate students interested in the many aspects of education, but who choose not to major in education during their undergraduate degree.

Students interested in child development, neuroscience and the process of learning, or education-related policies, for example, may wish to complement their current major with this substantive program in education. The certificate also provides grounding and learning experiences that will increase access to careers in education. Students completing the certificate may be considering future plans to:

- Enter a post-baccalaureate teacher education program.
- Pursue a graduate program focused on educational services, including programs such as counseling psychology, school psychology, and rehabilitation psychology.
- Complete advanced work in educational psychology or educational administration.
- Begin a career in teaching and learning settings and practices outside the K–12 education system.

This certificate program offers a variety of course options that can be customized to each student's area of interest. It is also available to individuals who have already completed a bachelor's degree; see the Nondegree/Visiting Student Guide (https://guide.wisc.edu/nondegree/).

In addition to reading the information here, students may wish to consult the department's website (https://edpsych.education.wisc.edu/academics/ees-certificate/) or email the EES administrator (ees@education.wisc.edu).

HOW TO GET IN

HOW TO GET IN

All current UW-Madison undergraduates and University Special Students are eligible to complete the Certificate in Education and Educational Services (EES).

Students intending to pursue the Education and Educational Services Certificate should visit the School of Education's Certificate Programs (https://education.wisc.edu/academics/certificates/) page to complete the declaration form. The declaration for this certificate program can be submitted at any time during the calendar year.

Please note: Students completing a course of study designed to lead to teacher certification are not eligible to complete the EES certificate. This also includes School of Education degree students pursuing the education studies or communication sciences and disorders majors. Other students completing a major within the School of Education are limited to 6 credits of overlap between their major and the certificate; that is, no more than 6 credits of coursework used to satisfy requirements for a major within the School of Education may also be counted toward completion of the EES certificate.

REQUIREMENTS

REQUIREMENTS

Requirements of this 15-credit certificate program include both Foundation and Focus coursework. All coursework must be taken for a letter grade (not credit/no-credit or pass/fail) and students must earn at

least a C grade in each course of the certificate. At least 12 credits of the certificate must be earned in residence at UW–Madison.

There is no formal prerequisite structure to the certificate, although students will generally be expected to take CURRIC 240 Critical Aspects of Teaching, Schooling, and Education first, followed by the two remaining Foundation courses and then the two Focus courses.

FOUNDATION COURSES, 9 CREDITS

Code	Title	Credits
Required Foundation Course		**3**
CURRIC 240	Critical Aspects of Teaching, Schooling, and Education

[1] Students may also substitute up to 3 credits of independent study with faculty from the departments of COUN PSY, CURRIC, ELPA, ED POL, ED PSYCH or RP & SE. Independent study work with faculty from other School of Education departments may be considered; contact an advisor in the School of Education Student Services office.

UNDERGRADUATE/SPECIAL STUDENT CERTIFICATE

This certificate may be completed within the context of an undergraduate degree or as a Special student after an undergraduate degree has been awarded from any institution. The certificate may be completed in its entirety while enrolled as a Special student. Candidates are encouraged to contact the certificate coordinator to discuss course enrollment and the sequencing of certificate requirements.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Understand how learning environments and pedagogical practices for students are grounded in concepts and interpretive frameworks provided by disciplines that study human development and learning. Understand both typical and atypical development in relation to education.
2. Understand basic cognitive, social, emotional, and biological bases of teaching and learning.
3. Understand how issues of race, class, gender, cultural, sexual orientation, immigrant status, language background, and disability status interact with various educational contexts to affect learning and its outcomes.
4. Understand how local, state, national, and global social and political contexts differentially affect schooling and its outcomes for students both typical and atypical development in relation to education.
5. Understand the multiple contexts in which education occurs.
6. Understand historical, political, and cultural influences on education and educational institutions.
7. Understand supportive services available to learners in educational contexts and institutions.
8. Be familiar with some of the issues and controversies surrounding the selection of concepts taught, the assumptions associated with content choices, tools of inquiry, and ways of reasoning.
9. Be an informed consumer of educational research and policy prescriptions.

KINESIOLOGY

ABOUT THE KINESIOLOGY DEPARTMENT

Across our undergraduate, graduate, and certificate programs, students learn concepts related to the scientific study of movement behavior, anatomy and physiology, research in kinesiology and fundamentals of exercise. Students learn in classroom, lab, and recreational settings, exploring hands-on ways to apply their studies in health, physical education, and functional performance. Graduates are prepared to take on rewarding careers in a variety of fields, leaving equipped with the knowledge and capabilities to enhance human health, productivity, and quality of life.

Kinesiology students benefit from robust experiences throughout their coursework: learning from award-winning faculty, engaging in fascinating undergraduate research, building connections through embedded engagement within the community, utilizing state-of-the-art fitness testing technology, and developing a foundational knowledge that prepares them to promote health and physical activity throughout the lifespan and across abilities. Each of our academic programs focus on the scientific study of movement behavior, anatomy and physiology, research in kinesiology and fundamentals of exercise, and their application to health, physical education, and functional performance.

UNDERGRADUATE DEGREES

- Kinesiology (p. 1906) - The BS degree in Kinesiology prepares students for graduate or professional study in areas related to physical activity and health.
- Health Promotion and Health Equity (p. 1893) - The BS degree in HPHE is a collaborative undergraduate program broadly designed to provide students with the skills and perspectives to facilitate healthy practices at the individual and societal levels.
- Physical Education (p. 1923) - The BS degree in Physical Education prepares teacher education students to teach physical education in elementary and secondary schools. Students in PE can choose to add a minor in Adapted Physical Education (p. 1890) and/or a minor in Health Education (p. 1892).

UNDERGRADUATE CERTIFICATES

The kinesiology department is home to two certificates in Athletic Healthcare (p. 1891) and Promoting Activity for Diverse Abilities (p. 1939) that are open to both students pursuing kinesiology as well as other majors on campus.

The department also offers courses in health theory, strength and conditioning, and leadership to improve understanding, appreciation, and use of the body in movement and sports. Once declared kinesiology students have had the opportunity to enroll, kinesiology classes are opened to all university students.

DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/ CERTIFICATES

- Adapted Physical Education, Minor (p. 1890)
- Athletic Healthcare, Certificate (p. 1891)
- Health Education, Minor (p. 1892)
- Health Promotion and Health Equity, BS (p. 1893)
- Kinesiology, BS (p. 1906)
- Physical Education, BS (p. 1923)
- Promoting Activity for Diverse Abilities, Certificate (p. 1939)

ADAPTED PHYSICAL EDUCATION, MINOR

Physical Education majors can obtain an additional teacher certification by enrolling in the Adapted Physical Education minor. The Adapted Physical Education (APE) teacher is an educationally trained professional who is able to assess individual students with disabilities and develop, adapt, implement specialized physical education activities, skills, and movement experiences to meet the specific needs of the student with a disability.

The six-course minor is aligned with the Adapted Physical Education National Standards (APENS). These standards are key outcomes the

students will learn and practice within the APE minor. Students nearing the end of their program will have all the requisite knowledge, skills, and dispositions to take the national Certified Adapted Physical Education (CAPE) exam, which is a part of the APEN standards. This additional certification provides specific acknowledgement of the professional skills and training the teacher developed during their course work with individuals with disability in schools.

Once the PE degree requirements are met and the APE program minor requirements are completed, the student is eligible to apply for the State of Wisconsin Adaptive Physical Education (1860) License and thus becomes able to teach APE in the State of Wisconsin in Kindergarten through Grade 12.

All students in physical education teacher education have the option to declare APE as their minor.

HOW TO GET IN

HOW TO GET IN

This minor may only be declared by students completing Physical Education, BSE. The declaration form is located on the School of Education's Undergraduate Admissions (http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission/) page and can be submitted at any time after admission into the program.

ATHLETIC HEALTHCARE, CERTIFICATE

The Certificate in Athletic Healthcare provides a structured undergraduate offering for students with an interest in healthcare for active populations. Students acquire specialized knowledge related to the fields of healthcare, sports medicine, and physically active populations.

The combination of required core courses and elective options makes this certificate appealing to students from a wide array of backgrounds and majors. Students can select elective courses that will be applicable to a variety of career interests; substitutions for the core courses are not allowed.

This program is intended to provide students with meaningful learning experiences and ultimately an advantage in pursuing advanced or professional degrees in a variety of health-related fields.

HOW TO GET IN

HOW TO GET IN

DECLARATION PROCESS

Students must complete KINES 127 Introduction to Athletic Healthcare to apply to the certificate program. Students intending to complete the Athletic Healthcare certificate will find the declaration form on the School of Education's Certificate Programs (https://education.wisc.edu/academics/certificates/) page. The declaration for this certificate program can be submitted at any time during the calendar year.

Students completing a Bachelor of Science degree in Athletic Training may not complete the Certificate in Athletic Healthcare.

REQUIREMENTS

REQUIREMENTS

Requirements of this minimum 14-credit certificate program include both required and elective coursework. All coursework must be taken for a letter grade. Certificate students must earn a minimum grade point average of 2.5 on required certificate coursework. At least 8 credits must be earned in residence at UW–Madison.

CORE COURSES

Complete all of the following:

Code	Title	Credits
KINES 127	Introduction to Athletic Healthcare	2
KINES 227	Introduction to Clinical Anatomy of Human Movement	2
KINES 387	The Young Athlete: Considerations for Exercise, Medicine, and Activity	2
KINES 487	Athletic Healthcare: Contemporary Perspectives	3

BREADTH ELECTIVE COURSES

Complete a minimum of 5 credits from the following:

Code	Title	Credits
C&E SOC/SOC 533	Public Health in Rural & Urban Communities	3
HDFS 262	Development of the Young Child (was 362 prior to fall, 2023)	3
HDFS 263	Development from Adolescence to Old Age (was 363 prior to fall, 2023)	3
KINES 140	Science and Practice of Resistance Training	2
KINES 150	Foundations of Health Behavior and Health Equity	3
KINES 555	Sports Science & Athlete Monitoring	3
NURSING/ SOC WORK 105	Health Care Systems: Interdisciplinary Approach	2

POP HLTH/ C&E SOC 370	Introduction to Public Health	3
RP & SE 125	Health and Rehabilitation Professions	3
RP & SE 310	Positive Psychology and Well Being	3
PSYCH 405	Adult Psychopathology	3-4

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Define Athletic Healthcare and identify components of the healthcare system commonly used in athletic healthcare.
2. Differentiate specific roles of healthcare professions that comprise a interdisciplinary healthcare team.
3. Identify the impact of public health policy on clinical practice in athletic healthcare.
4. Develop practical skills and knowledge that are commonly utilized in an athletic healthcare clinical setting.

HEALTH EDUCATION, MINOR

The Health Education minor provides a great opportunity for students who are passionate about helping others to live healthier lives and also to become health literate. Health minors are willing to tackle universal health challenges and intend to have a real and lasting impact in their communities.

Many graduates with PE certification and the Health Education minor often work in the following positions:

- High School Health Educator
- Middle School Health Educator
- Elementary Health Education Specialist
- Community Health Educator
- District Health Education Coordinator
- Health Promotion Specialist (Schools and/or Community)

UW–Madison students learn and develop a skills-based approach to teaching health education that is grounded in the national health standards. In turn, this framework facilitates instruction in schools for K-12 students. Youth are empowered to practice these skills in their everyday lives, making the connection from theory to practice relevant and applicable.

We are committed to providing quality health instruction to our students, and ultimately to developing health-literate students in schools. To that end, the Health Education minor also includes:

- Placements in urban/suburban/rural, inclusive, and multicultural settings
- Small class sizes and advising groups
- Instruction within the nationally ranked UW–Madison School of Education

Students in Physical Education teacher education or teachers already licensed to teach at an appropriate level in Wisconsin are eligible to complete the Health Education minor.

Graduates are eligible to apply for a Wisconsin teaching license in Health at the Kindergarten through Grade 12 level.

HOW TO GET IN

HOW TO GET IN

Upon admission into their teacher education degree program in the School of Education, students should meet immediately with the Health minor coordinator to develop a course completion schedule.

Students should meet with the Pre-Declaration Physical Education Advisor to declare the Health Education minor; see Contact Information for details.

REQUIREMENTS

REQUIREMENTS

Complete a minimum of 23 credits to include all coursework below. A minimum 2.75 GPA is required, based on all UW–Madison coursework included in the minor requirements.

Students may wish to consult with the Health minor coordinator or advising staff in the School of Education Student Services office, 139 Education Building, 1000 Bascom Mall, 608-262-1651.

Upon acceptance into a major program in the School of Education, students should meet immediately with the Health minor coordinator to work out a schedule for required courses.

CORE REQUIREMENTS (23–24 CREDITS)

Code	Title	Credits
KINES 116	First Aid and Basic Life Support [1]	2
ANAT&PHY 235 or ANAT&PHY 335	Human Physiology and Health Physiology	4
KINES 501	Theory-Based Health Education and Health Promotion Programs	3
KINES 547	Skills for Health: Methods and Practicum of Teaching Health	3
SOC WORK 453	Substance Use Disorders	3
Take one of the following:		3-4
SOC/PSYCH 160	Human Sexuality: Social and Psychological Issues	
PSYCH/SOC 453	Human Sexuality	
KINES 566	Promoting Health in the Community	3
KINES 568	Student Teaching in Health Education [2]	2
Total Credits		**23-24**

[1] Students may exempt from KINES 116 First Aid and Basic Life Support by completing American Red Cross First Aid **AND** either American

Red Cross Basic Life Support or American Red Cross CPR/AED for Professional Rescuers.
If a student wishes to request that a different course (or courses) be considered, contact the Department of Kinesiology undergraduate office PRIOR to enrolling.
Documentation of current First Aid certification must be presented to the Health Education program advisor. If the certification equivalent is used, the minor will require 21-22 credits.

[2] Eligibility for student teaching requires the completion of all courses required for the minor with a minimum GPA of 2.75. Students must also meet the content knowledge requirements for Health Education. A meeting with the Health minor coordinator is required before submitting a student teaching application. Students should bring a current transcript to this meeting. Special arrangements can be made for teachers seeking add-on certification in Health Education.

HEALTH PROMOTION AND HEALTH EQUITY, BS

The Health Promotion and Health Equity (HPHE) major was created through a collaborative effort across the departments of Counseling Psychology, Kinesiology, and Rehabilitation Psychology and Special Education in the School of Education. The Department of Kinesiology is the home of this major; its mission is to research, teach, and apply knowledge related to movement, exercise, and human occupation with the ultimate goal of enhancing human health, productivity, and quality of life.

The program is broadly designed to provide students with the skills and perspectives to facilitate healthy practices at the individual and societal levels. Students will learn about the theoretical, programmatic and empirical foundations of health promotion and health equity interventions and be taught to demonstrate competence in evaluating strengths and weaknesses in health promotion programs.

The coursework will prepare students for emerging career opportunities within community health organizations, hospitals, mental health centers, clinics, schools and universities, businesses and non-profits, governmental health offices, and various other public health-related professions.

"I'm from Madison and became interested in the HPHE program because I knew I wanted to work in the healthcare field, but was not sure in what direction. When I heard about this degree I loved how versatile it was!" –Victoria Ruiz de la Vega (read more (https://education.wisc.edu/news/victoria-ruiz-de-la-vega-from-the-school-of-educations-health-promotion-and-health-equity-major/?utm_source=Early_AD&utm_medium=email&utm_campaign=HPHE_majors&utm_id=student&utm_content=Student_Story))

HOW TO GET IN

HOW TO GET IN

ADMISSION OVERVIEW

Students interested in Health Promotion and Health Equity may complete this major in two ways: (1) by entering the School of Education to complete a Bachelor of Science degree with a major in Health Promotion and Health Equity, or (2) adding the Health Promotion and Health Equity major as an additional major while completing another degree and major on campus. Students selecting the second option should review the Additional Major in Health Promotion and Health Equity (p. 1894) section below.

ENTERING THE SCHOOL OF EDUCATION

New and Current UW–Madison Students

New freshmen and off-campus transfers interested in completing the Bachelor of Science degree with the Health Promotion and Health Equity major are admitted directly to the School of Education and the major upon admission to UW–Madison. Current UW–Madison students wishing to transfer to the School of Education to complete an undergraduate degree with this major must meet with an advisor in the School of Education Student Services office (608-262-1651) or with the Health Promotion and Health Equity advisor (hphe@education.wisc.edu), to transfer and declare the major.

Prospective Transfer Students

Applicants not already enrolled on the UW–Madison campus must be admissible to the university to enroll in a School of Education degree program. Admission to UW–Madison requires a separate application and admission process. See UW–Madison Office of Admissions and Recruitment (http://admissions.wisc.edu/) for application information. Prospective transfer students are advised to meet with an advisor in the School of Education Student Services office in person or by telephone in advance of their application; to schedule, call 608-262-1651.

Students with a Previous Degree

Prospective applicants who already hold an undergraduate degree are strongly encouraged to meet with an advisor in the School of Education Student Services office in advance of their application. Consultations with advisors are available in person or via telephone; to schedule, call 608-262-1651.

Applicants who already hold an undergraduate degree are admitted to the School of Education as a candidate for a second degree upon completion of the admission process. Second degree students are seeking a second degree that is unrelated to their first degree. More information is available here (p. 1662) under the Students with a Previous Degree heading.

APPLICATION AND ADMISSION

New freshmen and off-campus transfers are admitted directly to the Bachelor of Science–Health Promotion and Health Equity degree program. Current UW–Madison students must consult with an advisor in the School of Education Student Services office (608-262-1651) or with the Health Promotion and Health Equity advisor (hphe@education.wisc.edu), to transfer and declare the major.

Note: Requirements and selection criteria may be modified from one application/admission period to the next.

Criteria for Admission

Eligibility for admission consideration to the Bachelor of Science–Health Promotion and Health Equity degree:

- Cumulative grade point average of at least a 2.5 based on UW–Madison campus coursework, as modified by the Last 60 Credits Rule (detailed below).
- Filing of all required paperwork and other application materials, including program application and transcripts.

Last 60 Credits Rule

Two grade point averages may be calculated to determine candidates' eligibility to programs. GPAs will be calculated using

- all transferable college level coursework attempted, and
- the last 60 credits attempted.

The higher GPA of these two will be used for purposes of determining eligibility. If fewer than 60 credits have been attempted, all credits will be used to calculate the GPA. Graded graduate coursework will also be used in all GPA calculations. ("Attempted" coursework indicates coursework for which a grade has been earned.) More information on this rule is available here (p. 1662).

ADDITIONAL MAJOR IN HEALTH PROMOTION AND HEALTH EQUITY

Undergraduate students from all schools and colleges on campus may declare Health Promotion and Health Equity as an additional major.

Students wishing to declare the additional major must meet with an advisor in the School of Education Student Services office (608-262-1651) or with the Health Promotion and Health Equity advisor (hphe@education.wisc.edu), to transfer and declare the major. The declaration must also be approved by the student's home school/college.

Students completing Health Promotion and Health Equity as an additional major do not need to complete the School of Education's liberal studies and other degree requirements unless their primary major is also in the School of Education.

Please note that the requirements of the additional major must be completed before or concurrently with the degree program and primary major.

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

SCHOOL OF EDUCATION DEGREE REQUIREMENTS

COMMUNICATION: BREADTH AND DEPTH

Courses designated as Communication A (Comm A) and Communication B (Comm B) help students learn how to gather and assess information from a variety of sources and to present different kinds of information, insight, and analysis to diverse audiences. Comm A courses focus on essential communication skills and Comm B courses teach research, writing, and communication skills within a disciplinary area.

Communication A	Complete either: • one course with the Communication A designation, or • satisfaction of Communication A based on UW Placement Test.
Communication B	One course with the Communication B designation.

QUANTITATIVE REASONING: BREADTH AND DEPTH

Quantitative Reasoning A courses provide students with foundational skills in mathematics, computer science, statistics or formal logic that are needed for dealing with quantitative information. In Quantitative Reasoning B courses, students use quantitative tools in the context of other disciplines or course material.

Quantitative Reasoning A	Complete either: • one course with the Quantitative Reasoning A designation, or • satisfaction of Quantitative Reasoning A based on UW Placement Test.
Quantitative Reasoning B	One course with the Quantitative Reasoning B designation.

LIBERAL STUDIES REQUIREMENTS

All students are required to complete a minimum of 40 credits of Liberal Studies (p. 1670) coursework. This requirement provides an opportunity to do some academic exploration beyond the scope of the major. Students take courses in areas of particular interest and also have an opportunity to sample the wide selection of courses offered across the university. Coursework is required in humanities, social studies (social science), science, and cultural and historical studies. Some elective coursework is also needed to reach the required number of credits.

The School of Education's Liberal Studies requirements can be used to satisfy the campus-wide Core General Education requirements. Communication A and B, and Quantitative Reasoning A and B coursework can also be used towards Core General Education and other requirements. Academic advisors can suggest courses that will count in multiple places.

A basic outline of the liberal studies is included below. Students must consult the detailed version of the requirements (p. 1670) for more information about course selection and how the liberal studies requirements apply to this major.

Are you interested in switching to the School of Education? If so, you should run a "what-if" DARS report. (https://kb.wisc.edu/registrar/94068/) It will show how many of these requirements you have already met and are unmet.

Humanities

Complete a minimum of 9 credits from these categories.

Literature	Complete a course with the Literature designation, minimum of 2 credits
Fine Arts	Complete a minimum of 2 credits from the list of courses below.
Humanities	Courses to total 9 Humanities credits. Select from: • Courses with the Humanities or Literature designation. • Fine Arts courses from the list below. • Courses with the Language courses designation. • ENGL 201 • ENGL 207 • COM ARTS 181

Fine Arts Courses

Code	Title	Credits
AFRICAN/ AFROAMER 220	HipHop, Youth Culture, and Politics in Senegal	3
AFRICAN/ AFROAMER 233	Global HipHop and Social Justice	3

Any MUS PERF course (https://guide.wisc.edu/courses/mus_perf/)		
Any THEATRE course (https://guide.wisc.edu/courses/theatre/)		

Social Studies

Social Studies	Complete 9 credits with the Social Science designation.

The following programs have specific requirements:

- Kinesiology: PSYCH 202
- Art Education, Elementary Education, Elementary Education and Special Education, Physical Education, Special Education: POLI SCI 104 or 205

Science

Complete a minimum of 9 credits, including Physical and Biological Science. A laboratory science course is also required. The lab course can count toward the Biological or Physical Science requirement if it has the requisite breadth designation.

Physical Science	Complete one course with the Physical Science designation.
Biological Science	Complete one course with the Biological Science designation.
Lab Science	Complete one course with the Biological, Physical, or Natural Science designation with a lab component; see Course Search and Enroll. Additional eligible courses are listed below.
Science Elective(s)	If needed, complete a course with the Biological, Physical, or Natural Science designation to total 9 Science credits.

Laboratory Courses

Code	Title	Credits
ANTHRO 105	Principles of Biological Anthropology	3
ATM OCN 101	Weather and Climate	4
BOTANY 100	Survey of Botany	3
BOTANY/PL PATH 123	Plants, Parasites, and People	3
FOOD SCI/ MICROBIO 324	Food Microbiology Laboratory	2
GEOSCI 100	Introductory Geology: How the Earth Works	3
PHYSICS 109	Physics in the Arts	3
PLANTSCI 110	Introduction to Plant Science and Technology	4

Cultural and Historical Studies

Complete three requirements met by separate courses. Any of these courses can also be used to meet other requirements if it has the relevant breadth designation. A single course cannot satisfy more than one of the three Cultural and Historical Studies requirements listed below.

Ethnic Studies	Complete 3 credits with the Ethnic Studies Designation.
United States or European History	Complete 3 credits from the list of courses below.
Global Perspectives	Complete 3 credits from the list of courses below.

United States or European History Courses

Liberal Studies Electives

Liberal Studies Electives	Complete additional liberal studies coursework as needed to reach the required 40 Liberal Studies credits.

PROGRAM STRUCTURE

The Bachelor of Science (BS) degree program in Heath Promotion and Health Equity has three primary components:

- *Liberal studies* courses expose students to a broad range of academic disciplines. The university-wide *General Education* requirements also encourage this breadth of study.
- *Major requirements* provide an opportunity to study the interrelated areas of physical health, mental health, and disability.
- *Additional electives* to reach the minimum of 120 degree credits. These credits allow students to pursue additional health-related courses, enroll in course work required for admission to graduate-level programs or develop other areas of interest. Health Promotion and Health Equity majors may also use these elective credits to complete an additional major to augment their interest in health or to explore a completely different subject.

MAJOR REQUIREMENTS

Complete a minimum of 40 credits with a 2.5 gpa across all major course work. At least 15 credits of upper-level major course work (courses numbered 300 and above) must be taken in residence with a minimum 2.5 grade point average.

REQUIRED HEALTH PROMOTION CORE, 31 CREDITS

Code	Title	Credits
ANAT&PHY 235	Human Physiology and Health	4
KINES 150	Foundations of Health Behavior and Health Equity	3
KINES 370	Planning, Facilitating & Assessment in Movement and Health Professionals	3

POP HLTH/ C&E SOC 370	Introduction to Public Health	3
PSYCH 202	Introduction to Psychology	3-4

GPA AND OTHER GRADUATION REQUIREMENTS

GRADUATION REQUIREMENTS

These requirements are based on UW–Madison coursework.

- 2.5 minimum cumulative grade point average. This may be modified by the Last 60 Credits Rule.
- Cumulative major grade point average: 2.5 cumulative grade point average in all major course work.
- Upper-level major course work: 2.5 cumulative grade point average in all upper-level (courses numbered 300 and above) major course work.
- Major Residency: Students must complete at least 15 upper level major credits while enrolled in residence on the UW–Madison campus.
- Senior Residency. Degree candidates must complete their last 30 credits in residence on the UW–Madison campus, excluding retroactive credits and credits granted by examination.
- Total Credits: A minimum of 120 credits are required for graduation in the Health Promotion and Health Equity degree program.

DEGREE AUDIT (DARS)

UW–Madison uses "DARS" to document a student's progress toward the completion of their degree, including any additional majors and certificates. A DARS (Degree Audit Reporting System) report shows all the requirements for completing a degree and, against courses that are planned or completed, shows the requirements that have been met, and those that are unmet. A report can offer suggestions about courses that may be taken to meet specific requirements and can assist in the academic planning and enrollment process. Students can access a DARS report in the Course Search & Enroll app or Student Center via My UW.

DARS also has a "what-if" function. This feature makes it possible to request a DARS report as if pursuing another program, major, or certificate. It is an excellent tool if considering a new or additional area of study. School of Education students in a pre-professional classification such as Pre-Elementary (PRE) or Pre-Kinesiology should request a "what if" DARS report of their professional program of interest. For example, Pre-Elementary Education (PRE) students will request Elementary Education K-9; Pre-Kinesiology (PKN) students will request the Kinesiology report. Minors have their own DARS programs and are run separately from the main degree audit.

More information (including tutorials) on how to request and read regular and what-if DARS reports is available under the Resources tab on the Office of the Registrar's website. (https://registrar.wisc.edu/dars/)

DARS is not intended to replace student contact with academic advisors. It creates more time in an advising appointment to discuss course options, research opportunities, graduate school, or issues of personal interest or concern to students.

DARS is used as the document of record for degree program, major, and certificate completion in the School of Education.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Recognize concepts and theories related to health promotion and health equity.
2. Relate the role of social factors in facilitating or hindering health.
3. Evaluate the strengths and weaknesses of health behavior and health equity interventions.
4. Identify links between physiological and psychological health.
5. Interpret and communicate the interaction between personal and environmental determinants of health and well-being.
6. Draw from personal and professional identities to develop socially just practices and to lead effectively within their communities of practice.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

Health Promotion and Health Equity: Sample Four-Year Plan

This sample four-year sample graduation plan is designed to guide your course selection throughout your academic career; it does not establish a contractual agreement. Use it along with your DARS report, the Guide,

and the Course Search and Enroll app to create a four-year plan reflecting your placement scores, incoming credits, and individual interests. Consult with an academic advisor to develop a personalized plan of study and refer to the Guide for a complete list of requirements. You will likely revise your plan several times during your academic career here, based on your activities and changing academic interests.

Freshman

Total Credits 120

Note: The HP & HE major requires 9 credits of elective course work. A number of the course options, e.g., RP & SE 100, RP & SE 121 RP & SE 125; COUN PSY 225, COUN PSY 230; KINES 100, KINES 123; PSYCH 202; NUTR SCI 132, can be taken during the freshmen and sophomore years.

ADVISING AND CAREERS

ADVISING AND CAREERS

HEALTH PROMOTION AND HEALTH EQUITY ADVISING

Students are collaboratively advised by advising staff in the School of Education Student Services office and the department. Students not yet declared in Health Promotion and Health Equity meet with advising staff in the Student Services office, see below, or the departmental advisor. Current students can schedule an appointment online through the Starfish app (https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/) in MyUW.

SCHOOL OF EDUCATION ADVISING

Academic Advising in the School of Education

Dedicated to supporting and promoting student success, academic advisors (https://advising.education.wisc.edu/) are here to assist students with the adjustment to college, understanding their degree and career goals, and connecting them to resources. Advisors support prospective and current School of Education students in all programs through:

- Course selection
- Mentoring and advocacy for underrepresented and international students
- Understanding degree requirements and progression
- Interpreting academic policies
- Helping students recognize their strengths and suggesting ways to expand their skills
- Expanding learning through activities such as study abroad, volunteering/work/internship, and by assuming leadership roles

Advising appointments are available in person, virtually, or over the phone. Current students schedule appointments through the Starfish app (https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/) in MyUW. Appointments can also be made by calling 608-262-1651, or in person in Room 139 Education Building.

Academic Dean Support (https://advising.education.wisc.edu/academic-dean-support/) staff are also here for you when facing academic or personal challenges. We provide undergraduate School of Education students support, problem-solving, advocacy, resources, and approve exceptions to policies.

Career Advising in the School of Education

Through individual appointments, events, courses, and online resources, the Career Center provides students and alumni with the tools needed to be successful in their career development.

Career and Internship Advisors are prepared to help students with:

- Exploration of career and academic pathways (https://careercenter.education.wisc.edu/explore-career/)
- Resumes
- Cover letters
- Job/Internship search
- Interview preparation
- Mock interviews
- Graduate school search, applications and decisions

- Negotiating job or internship offers
- Professional networking
- Connecting with employers

Students are encouraged to meet with their Career and Internship Advisor early in their college experience to take full advantage of the resources and support available.

To make an appointment: log into Starfish (https://wisc.starfishsolutions.com/starfish-ops/) from the MyUW dashboard.

For more information, visit the School of Education Career Center website (https://careercenter.education.wisc.edu/) or reach out at career-center@education.wisc.edu.

Information about common career pathways, ways to get involved and gain experience, and transferrable skills developed through this major can be found on the School of Education Career Center's Health Promotion and Health Equity Pathways (https://careercenter.education.wisc.edu/explore-career/hphe-career-pathways/) webpage.

WISCONSIN EXPERIENCE

WISCONSIN EXPERIENCE

UW–Madison's vision for the total student experience, the Wisconsin Experience (https://wisconsinexperience.wisc.edu/about/), combines learning in and out of the classroom. Tied to the Wisconsin Idea (https://www.wisc.edu/wisconsin-idea/) and steeped in long-standing institutional values — the commitment to the truth, shared participation in decision-making, and service to local and global communities — the Wisconsin Experience describes how students develop and integrate these core values across their educational experience.

UW–Madison encourages students to mindfully engage in four core concepts throughout their time on campus: Empathy & Humility, Relentless Curiosity, Intellectual Confidence, and Purposeful Action (https://wisconsinexperience.wisc.edu/intellectual-confidence/).

Since its inception, the School of Education has embraced the concepts of the Wisconsin Experience, providing opportunities for students to learn in venues beyond the traditional classroom. Our students also independently seek out related activities and experiences, thus creating their own unique Wisconsin Experience.

HEALTH PROMOTION AND HEALTH EQUITY (HPHE) AND THE WISCONSIN EXPERIENCE

Community Engagement and Research Opportunities

Health Promotion and Health Equity majors are encouraged to get involved in research. Students have participated in labs such as the Promotion of Health Equity & Adapted Physical Activity (PHEAPA) (https://kinesiology.education.wisc.edu/research/pheapa-lab/) lab or the Pain, Context, and Innovation (https://www.shinyekim.com/) lab.

Students also participate in programs run through the Wisconsin Area Health Education Centers (AHEC), such as the Community Health Internship Program (https://ahec.wisc.edu/chip/).

Student Organizations

There are numerous campus student organizations (https://win.wisc.edu/) that Health Promotion and Health Equity majors can join to connect with students with similar interests. The Health Promotion and Health Equity Learning Community is an organization led by students in the major; they organize different alumni panels, events, career treks, and study groups for students to connect.

Study Abroad

Health Promotion and Health Equity students can participate in School of Education led study abroad opportunities. These 2-3 week summer courses make it possible for students to have a study abroad experience and still have time to work or pursue other activities during the summer.

Courses currently available to HPHE students include Movement as Medicine in Portugal (https://studyabroad.wisc.edu/program/?programId=330296), Culture and Environment in Exercise Physiology Abroad in New Zealand (https://studyabroad.wisc.edu/program/?programId=330394), and Inclusive Activity and Sports in Ireland (https://studyabroad.wisc.edu/program/?programId=330346). These courses offer unique learning opportunities for students interested in pursuing careers in allied health, fitness and well-being, health education, and public health.

Career Advising and Internships

The School of Education Career Center (https://careercenter.education.wisc.edu/) has a designated advisor for students interested in health careers who can provide connections with hourly campus employment, internships, and career options after graduation. Courses offered in Kinesiology (KINES 110 Exploring Careers in Health and Wellness) and in Rehabilitation Psychology (RP SE 125 Health and Rehabilitation Professions) provide opportunities for students to discover and learn about career pathways they can pursue with their degree with weekly guest speakers from a variety of fields.

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

Information about scholarships, academic and career advising, study abroad opportunities, student well-being, and other resources for students in the School of Education can be found on the school's Resources (p. 1680) page.

KINESIOLOGY, BS

The Kinesiology department's mission is to research, teach, and apply knowledge related to movement, exercise, and human occupation with the ultimate goal of enhancing human health, productivity, and quality of life.

Students in the Kinesiology major take coursework grounded in the basic sciences (e.g., physiology, anatomy, biology) and in kinesiology. Core courses examine how the body responds to physical activity, the role of physiology and psychological factors in exercise, mechanics driving movement, how movement is controlled, learned, and developed over the lifespan, and the role of physical activity in overall health.

The curriculum includes coursework, engaging laboratory research opportunities, and hands-on learning experiences. Additionally, at least 11 credits of electives are required, giving students some flexibility to tailor the program to their specific interests. Examples of elective topics include strength and conditioning, leadership, health theory, athlete monitoring, clinical exercise prescription, and advanced courses in exercise physiology, exercise psychology, and biomechanics.

Kinesiology is a pre-professional program, meaning our coursework prepares our students well for subsequent graduate or professional pursuits in the allied health disciplines. The degree also prepares students for graduate programs in kinesiology and athletic training. Graduating seniors have reported acceptance into the following graduate programs: Doctor of Physical Therapy, Master of Public Health, Doctor of Medicine, Chiropractic School, Clinical Exercise Physiology, Biomedical Engineering, Master in Physician Assistant Studies, Doctor of Occupational Therapy, Master of Science in Exercise Science, Master of Science in Applied Sport and Exercise Psychology, and Dentistry.

Kinesiology graduates also pursue entry-level careers in a wide variety of professions, including in the areas of fitness, home health, and rehabilitation assistance. Recent graduates have reported taking on the following positions in their first year after graduating: strength and conditioning coach, medical scribe, rehabilitation aide, personal trainer, research assistant/specialist, physical therapy aide, nursing home caregiver, group exercise instructor, medical device sales, program facilitator, EKG technician, behavioral technician, project manager, well-being intern, AmeriCorps member, programming administrator, and glacier guide, among others.

HOW TO GET IN

HOW TO GET IN

KINESIOLOGY DECLARATION OVERVIEW

Incoming freshmen typically enter UW–Madison as Pre-Kinesiology students (PKN), spend the first two years completing liberal studies, general education, and Kinesiology prerequisite requirements, and declare the Kinesiology major during their sophomore year for the final two years on campus.

On-campus students starting at UW-Madison in other majors can move to Pre-Kinesiology by completing a Pre-Professional Declaration (http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission/). A GPA of 2.75, based on all UW–Madison coursework or the last 60 credits (p. 1662), is required to transfer into Pre-Kinesiology. It is not necessary to be a Pre-Kinesiology student before declaring Kinesiology.

ELIGIBILITY TO DECLARE KINESIOLOGY

Kinesiology currently accepts declarations once a year, from December 1st through February 1st. The on-campus declaration form is located on the School of Education's Undergraduate Admissions (http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission/) page, along with information about the declaration period, deadline, and current eligibility requirements. Students should consult this site prior to submitting a declaration as this information may be modified from one declaration period to the next.

Off-campus students wishing to transfer directly into Kinesiology should complete the on-campus declaration and must also be admitted to UW-Madison. See Transfer Students and Students with a Bachelor's Degree, below.

Eligibility Requirements:

- Complete the following prerequisite coursework by the end of the spring semester of the declaration year:

Code	Title	Credits
Biology Sequence		
Complete one of the following Biology sequences:		
BIOLOGY/ ZOOLOGY 101 & BIOLOGY/ ZOOLOGY 102	Animal Biology and Animal Biology Laboratory	5
BIOLOGY/BOTANY/ ZOOLOGY 151	Introductory Biology	5
Advanced Placement (AP) Biology exam score of 4 or 5		
International Baccalaureate (IB) Biology exam score of 4 or 5		
Chemistry Sequence		
Complete one of the following Chemistry sequences:		
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	9
CHEM 109	Advanced General Chemistry	5
CHEM 115 & CHEM 116	Chemical Principles I and Chemical Principles II	10
Physics Course		
Complete one of the following Physics courses:		
PHYSICS 103	General Physics	4
PHYSICS 201	General Physics	5
PHYSICS 207	General Physics	5
Kinesiology Course		
KINES 119	Introduction to Kinesiology	2

- Students may complete no more than three of the prerequisite courses during the spring semester of the declaration year. For this purpose CHEM 109 satisfies the full general chemistry requirement and constitutes one course. BIOLOGY/ZOOLOGY 101 and BIOLOGY/ZOOLOGY 102 are counted as two courses in determining eligibility for the program.
- Earn a minimum 2.75 cumulative GPA or a 2.75 cumulative GPA based on the Last 60 Credits Rule by the end of the fall semester of the declaration year.[3]

[3] Last 60 Credits Rule - Two grade point averages may be calculated to determine a candidate's eligibility to declare Kinesiology. A GPA may be calculated using (1) UW-Madison and all other all transferable college level coursework attempted and (2) the last 60 credits attempted. The higher GPA of these two calculations will be used for determining eligibility. Once declared, students must earn a semester GPA of 2.75 each semester after declaration. More information on this rule is available here (p. 1662).

Students will be provisionally admitted in the spring, pending the completion of all prerequisite courses and GPA requirements by the end of the spring semester.

TRANSFER STUDENTS AND STUDENTS WITH A PREVIOUS DEGREE

Transfer students and second degree candidates (students who already hold a Bachelor's degree) must be admitted to UW-Madison to enroll in a School of Education program. Admission to the campus has its own application, admission process, and application deadlines; see Office of

Admissions and Recruitment (http://www.admissions.wisc.edu) for campus application information.

Students wishing to transfer directly into Kinesiology should complete both the on-campus Kinesiology declaration and the UW-Madison application. All eligibility requirements must be met. Other transfer and second degree candidates will be admitted to UW-Madison with the Pre-Kinesiology designation.

Second degree candidates in the School of Education are changing their academic direction and wish to complete a degree that is unrelated to their first. A large number of credits are usually required to complete the new degree requirements and a second undergraduate degree is awarded upon its completion; more information is available here (p. 1662).

Off-campus students are strongly advised to meet with an advisor in the School of Education Student Services office in advance of their declaration. Consultations with advisors are available in person, virtually, or via telephone; email soeacademicservices@education.wisc.edu or call 608-262-1651 to schedule an appointment.

ADVISING AFTER DECLARATION

The Kinesiology department holds mandatory spring orientation sessions for new majors, led by a departmental advisor. The sequencing of coursework and enrollment in Kinesiology courses are addressed at these meetings. Students will be authorized to enroll in Kinesiology courses after the orientation meetings are completed.

After declaration, advising about the major will be provided by the Department of Kinesiology. Majors are required to meet with the departmental advisor at least once per semester. All questions about School of Education and university requirements should be referred to an advisor in the School of Education Student Services office.

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

SCHOOL OF EDUCATION DEGREE REQUIREMENTS

COMMUNICATION: BREADTH AND DEPTH

Courses designated as Communication A (Comm A) and Communication B (Comm B) help students learn how to gather and assess information from a variety of sources and to present different kinds of information, insight, and analysis to diverse audiences. Comm A courses focus on essential communication skills and Comm B courses teach research, writing, and communication skills within a disciplinary area.

Communication A	Complete either: • one course with the Communication A designation, or • satisfaction of Communication A based on UW Placement Test.
Communication B	One course with the Communication B designation.

QUANTITATIVE REASONING: BREADTH AND DEPTH

Quantitative Reasoning A courses provide students with foundational skills in mathematics, computer science, statistics or formal logic that are needed for dealing with quantitative information. In Quantitative Reasoning B courses, students use quantitative tools in the context of other disciplines or course material.

Quantitative Reasoning A	Complete either: • one course with the Quantitative Reasoning A designation, or • satisfaction of Quantitative Reasoning A based on UW Placement Test.
Quantitative Reasoning B	One course with the Quantitative Reasoning B designation.

LIBERAL STUDIES REQUIREMENTS

All students are required to complete a minimum of 40 credits of Liberal Studies (p. 1670) coursework. This requirement provides an opportunity to do some academic exploration beyond the scope of the major. Students take courses in areas of particular interest and also have an opportunity to sample the wide selection of courses offered across the university. Coursework is required in humanities, social studies (social science), science, and cultural and historical studies. Some elective coursework is also needed to reach the required number of credits.

The School of Education's Liberal Studies requirements can be used to satisfy the campus-wide Core General Education requirements. Communication A and B, and Quantitative Reasoning A and B coursework can also be used towards Core General Education and other requirements. Academic advisors can suggest courses that will count in multiple places.

A basic outline of the liberal studies is included below. Students must consult the detailed version of the requirements (p. 1670) for more information about course selection and how the liberal studies requirements apply to this major.

Are you interested in switching to the School of Education? If so, you should run a "what-if" DARS report. (https://kb.wisc.edu/registrar/94068/) It will show how many of these requirements you have already met and are unmet.

Humanities

Complete a minimum of 9 credits from these categories.

Literature	Complete a course with the Literature designation, minimum of 2 credits
Fine Arts	Complete a minimum of 2 credits from the list of courses below.
Humanities	Courses to total 9 Humanities credits. Select from: • Courses with the Humanities or Literature designation. • Fine Arts courses from the list below. • Courses with the Language courses designation. • ENGL 201 • ENGL 207 • COM ARTS 181

Fine Arts Courses

Code	Title	Credits
AFRICAN/ AFROAMER 220	HipHop, Youth Culture, and Politics in Senegal	3
AFRICAN/ AFROAMER 233	Global HipHop and Social Justice	3

LITTRANS/ FOLKLORE 327	Vampires	3
LITTRANS/ THEATRE 335	In Translation: The Drama of Henrik Ibsen	3-4
Any MUSIC course (https://guide.wisc.edu/courses/music/)		
Any MUS PERF course (https://guide.wisc.edu/courses/mus_perf/)		
Any THEATRE course (https://guide.wisc.edu/courses/theatre/)		

Social Studies

Social Studies	Complete 9 credits with the Social Science designation.

The following programs have specific requirements:

- Kinesiology: PSYCH 202
- Art Education, Elementary Education, Elementary Education and Special Education, Physical Education, Special Education: POLI SCI 104 or 205

Science

Complete a minimum of 9 credits, including Physical and Biological Science. A laboratory science course is also required. The lab course can count toward the Biological or Physical Science requirement if it has the requisite breadth designation.

Physical Science	Complete one course with the Physical Science designation.
Biological Science	Complete one course with the Biological Science designation.
Lab Science	Complete one course with the Biological, Physical, or Natural Science designation with a lab component; see Course Search and Enroll. Additional eligible courses are listed below.
Science Elective(s)	If needed, complete a course with the Biological, Physical, or Natural Science designation to total 9 Science credits.

Laboratory Courses

Code	Title	Credits
ANTHRO 105	Principles of Biological Anthropology	3
ATM OCN 101	Weather and Climate	4
BOTANY 100	Survey of Botany	3
BOTANY/PL PATH 123	Plants, Parasites, and People	3
FOOD SCI/ MICROBIO 324	Food Microbiology Laboratory	2
GEOSCI 100	Introductory Geology: How the Earth Works	3
PHYSICS 109	Physics in the Arts	3
PLANTSCI 110	Introduction to Plant Science and Technology	4

Cultural and Historical Studies

Complete three requirements met by separate courses. Any of these courses can also be used to meet other requirements if it has the relevant breadth designation. A single course cannot satisfy more than one of the three Cultural and Historical Studies requirements listed below.

Ethnic Studies	Complete 3 credits with the Ethnic Studies Designation.
United States or European History	Complete 3 credits from the list of courses below.
Global Perspectives	Complete 3 credits from the list of courses below.

United States or European History Courses

Liberal Studies Electives

Liberal Studies Electives	Complete additional liberal studies coursework as needed to reach the required 40 Liberal Studies credits.

PROGRAM STRUCTURE

The Kinesiology program has five components:

- *Liberal studies* courses expose students to a broad range of academic disciplines. The university-wide *General Education* requirements also encourage this breadth of study.
- *Science core* coursework offers in-depth study of the basic sciences and mathematics.
- *Kinesiology core* courses look at how the body responds and adapts to exercise, the role of psychological factors in sports and exercise, mechanics applied to biological systems, and how movement is controlled, learned, and developed over the life span.
- *Advanced coursework in Kinesiology* requires at least 11 credits of Kinesiology electives, thus giving students some flexibility to tailor the program to their specific interests.
- *Elective* classes are generally related to the student's area of study and are taken to reach the minimum of 120 credits.

SCIENCE CORE

Code	Title	Credits
Select one of the following:		5-10
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	
CHEM 109	Advanced General Chemistry	
CHEM 115 & CHEM 116	Chemical Principles I and Chemical Principles II	
Select one of the following:		5
AP or IB Biology score of 4 or above		
BIOLOGY/ ZOOLOGY 101 & BIOLOGY/ ZOOLOGY 102	Animal Biology and Animal Biology Laboratory	
BIOLOGY/ BOTANY/ ZOOLOGY 151	Introductory Biology	
Select one of the following:		4-5
PHYSICS 103	General Physics	
PHYSICS 201	General Physics	
PHYSICS 207	General Physics	
PSYCH 202	Introduction to Psychology	3-4

Code	Title	Credits
Complete one option:		0-10
Placement into MATH 221		
MATH 112 & MATH 113	College Algebra and Trigonometry (or test out of MATH 112 and/or MATH 113)	
MATH 114	Precalculus	
Select one of the following:		3
STAT 371	Introductory Applied Statistics for the Life Sciences	
STAT 301	Introduction to Statistical Methods	
PSYCH 210	Basic Statistics for Psychology	
ANAT&PHY 335	Physiology	5
ANAT&PHY 337	Human Anatomy	3
ANAT&PHY 338	Human Anatomy Laboratory	2

KINESIOLOGY CORE

Code	Title	Credits
KINES 116	First Aid and Basic Life Support [1]	2
KINES 119	Introduction to Kinesiology	2
KINES 314	Physiology of Exercise	4
KINES 318	Biomechanics of Human Movement	3
KINES 330	Research in Kinesiology	2
KINES 350	Introduction to Exercise Psychology	3
KINES 361	Motor Learning and Performance	3
KINES 500	Practicum in Kinesiology [2]	3
Select one of the following:		3
KINES 355	Socio-Cultural Aspects of Physical Activity	
KINES 521	Physical Activity and Health	

KINES 540	Diversity in Health and Physical Activity Settings	
KINES 560	Senior Research Writing in Kinesiology	
KINES 600	Advanced Exercise Psychology	
KINES 614	Biological Factors Influencing Exercise Performance	

[1] Students may exempt from KINES 116 First Aid and Basic Life Support by completing American Red Cross First Aid **AND** either American Red Cross Basic Life Support or American Red Cross CPR/AED for Professional Rescuers.
If a student wishes to request that a different course (or courses) be considered, contact the Department of Kinesiology undergraduate office PRIOR to enrolling.

[2] Criminal background investigations may be conducted for some students, based on the site of the practicum assignment. The cooperating agency to which the student has been assigned will determine if a background check is necessary.

ADVANCED COURSEWORK IN KINESIOLOGY

Select a minimum of 11 credits from the following:

Code	Title	Credits
KINES 214	Culture and Environment in Exercise Physiology Abroad	3
KINES 250	Sedentary Behavior in the U.S. and Abroad	3
KINES 260	Inclusive Physical Activity, Sport & Rehabilitation in Ireland	3
KINES 312	Technology for Physical Activity and Health Professionals	2
KINES 325	Group Development and Behavior Management	3
KINES 360	Lifespan Motor Development	3
KINES 387	The Young Athlete: Considerations for Exercise, Medicine, and Activity	2
KINES 390	Principles of Exercise Leadership	2
KINES 427	Fitness Testing and Exercise Prescription	3
KINES 501	Theory-Based Health Education and Health Promotion Programs	3
KINES 508	Workshop in Kinesiology (Topic: Theories and Strategies for Behavioral Change)	3
KINES 523	Clinical Exercise Testing and Prescription for Health Professionals	3
KINES/ NUTR SCI 525	Nutrition in Physical Activity and Health	3
KINES 527	Principles of Strength and Conditioning	3
KINES 531	Neural Control of Movement	3
KINES 555	Sports Science & Athlete Monitoring	3
KINES 614	Biological Factors Influencing Exercise Performance	3
KINES 615	Laboratory Techniques in Exercise Physiology	2
KINES 618	Biomechanics	2-3

ELECTIVE COURSEWORK

Select additional courses to reach the minimum of 120 credits.

CONTINUATION REQUIREMENT: DEPARTMENT OF KINESIOLOGY

All students admitted to undergraduate programs in the Department of Kinesiology, including Physical Education, must maintain a cumulative grade point average (GPA) of at least 2.75, based on all UW–Madison campus coursework. Consult the School of Education's Academic Policies and Procedures (p. 1662) for additional information about the Continuation requirement.

GPA AND OTHER GRADUATION REQUIREMENTS

GRADUATION REQUIREMENTS

These requirements are based on UW-Madison coursework.

- Must earn a minimum 2.50 cumulative grade point average. Graduation GPA may be modified by the Last 60 Credits Rule (p. 1662).
- Major residency: Students must complete a minimum of 15 credits from the Department of Kinesiology while enrolled on the UW–Madison campus.
- Senior residency: Degree candidates must complete their last 30 credits in residence on the UW–Madison campus, excluding retroactive credits and credits granted by examination.
- Must complete a minimum of 120 credits.

DEGREE AUDIT (DARS)

UW–Madison uses "DARS" to document a student's progress toward the completion of their degree, including any additional majors and certificates. A DARS (Degree Audit Reporting System) report shows all the requirements for completing a degree and, against courses that are planned or completed, shows the requirements that have been met, and those that are unmet. A report can offer suggestions about courses that may be taken to meet specific requirements and can assist in the academic planning and enrollment process. Students can access a DARS report in the Course Search & Enroll app or Student Center via My UW.

DARS also has a "what-if" function. This feature makes it possible to request a DARS report as if pursuing another program, major, or certificate. It is an excellent tool if considering a new or additional area of study. School of Education students in a pre-professional classification such as Pre-Elementary (PRE) or Pre-Kinesiology should request a "what if" DARS report of their professional program of interest. For example, Pre-Elementary Education (PRE) students will request Elementary Education K-9; Pre-Kinesiology (PKN) students will request the Kinesiology report. Minors have their own DARS programs and are run separately from the main degree audit.

More information (including tutorials) on how to request and read regular and what-if DARS reports is available under the Resources tab on the Office of the Registrar's website. (https://registrar.wisc.edu/dars/)

DARS is not intended to replace student contact with academic advisors. It creates more time in an advising appointment to discuss course options, research opportunities, graduate school, or issues of personal interest or concern to students.

DARS is used as the document of record for degree program, major, and certificate completion in the School of Education.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. (Knowledge) Define and explain major concepts across the breadth of kinesiology.
2. (Application) Apply their knowledge related to movement and physical activity techniques and approaches in clinical and applied settings to enhance human health and quality of life.
3. (Critical Thinking) Demonstrate competence in the scientific research process, which includes the ability to consume, analyze, interpret and critically review scientific literature.
4. (Communication) Develop appropriate styles of written and oral communication to use both within and outside of the scientific community.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

Kinesiology: Sample Four-Year Plans

A four-year sample graduation plan is designed to guide your course selection throughout your academic career; it does not establish a contractual agreement. Use it along with your DARS report, the Guide, and the Course Search and Enroll app to create a four-year plan reflecting your placement scores, incoming credits, and individual interests.

There are many ways to complete the degree and course selection should reflect your own situation. Consult with an advisor in Education Student Services, 139 Education Building, to develop a personalized plan of study. You will likely revise your plan several times during your academic career here, based on your activities and changing academic interests.

Three plans are presented below. The first is for students who need to take MATH 112 Algebra, followed by a plan for students testing out it. The third is for students who test into MATH 96.

STARTING WITH MATH 112

Freshman

Fall	Credits	Spring	Credits
Communication A (fall or spring semester)	3	Communication A (fall or spring semester)	3
BIOLOGY/ ZOOLOGY 102[2]	2	KINES 119 (or fall sophomore year)	2
MATH 112 (also meets Quantitative Reasoning A)	3	CHEM 103	4
Liberal Studies course work	7-10	Liberal Studies course work	0-3
		Ethnic Studies	3
		PSYCH 202	3
	15		**15**

Sophomore

Fall	Credits	Spring	Credits
BIOLOGY/ ZOOLOGY 101 or 151[2]	3	PHYSICS 103	4
CHEM 104	5	Choose One: Also Meets Quantitative Reasoning B	3
Liberal Studies course work	2-4	STAT 301	
MATH 113	3	PSYCH 210	
		STAT 371	
		KINES 116	2
		Liberal Studies or General Elective course work	6
	15		**15**

Junior

Fall	Credits	Spring	Credits
KINES 330 or 361	2-3	KINES 361 or 330	2-3
KINES 350 (or Advanced Kines Elective)[1]	3	KINES 314	4

ADVISING AND CAREERS

ADVISING AND CAREERS

KINESIOLOGY ADVISING

Students not yet admitted to Kinesiology meet with an advisor in the School of Education Student Services office, see below. Once admitted to the professional program, students are also advised in the Department of Kinesiology.

SCHOOL OF EDUCATION ADVISING

Academic Advising in the School of Education

Dedicated to supporting and promoting student success, academic advisors (https://advising.education.wisc.edu/) are here to assist students with the adjustment to college, understanding their degree and career goals, and connecting them to resources. Advisors support prospective and current School of Education students in all programs through:

- Course selection
- Mentoring and advocacy for underrepresented and international students
- Understanding degree requirements and progression
- Interpreting academic policies
- Helping students recognize their strengths and suggesting ways to expand their skills
- Expanding learning through activities such as study abroad, volunteering/work/internship, and by assuming leadership roles

Advising appointments are available in person, virtually, or over the phone. Current students schedule appointments through the Starfish app (https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/) in MyUW. Appointments can also be made by calling 608-262-1651, or in person in Room 139 Education Building.

Academic Dean Support (https://advising.education.wisc.edu/academic-dean-support/) staff are also here for you when facing academic or personal challenges. We provide undergraduate School of Education students support, problem-solving, advocacy, resources, and approve exceptions to policies.

Career Advising in the School of Education

Through individual appointments, events, courses, and online resources, the Career Center provides students and alumni with the tools needed to be successful in their career development.

Career and Internship Advisors are prepared to help students with:

- Exploration of career and academic pathways (https://careercenter.education.wisc.edu/explore-career/)
- Resumes
- Cover letters
- Job/Internship search
- Interview preparation
- Mock interviews
- Graduate school search, applications and decisions
- Negotiating job or internship offers
- Professional networking
- Connecting with employers

Students are encouraged to meet with their Career and Internship Advisor early in their college experience to take full advantage of the resources and support available.

To make an appointment: log into Starfish (https://wisc.starfishsolutions.com/starfish-ops/) from the MyUW dashboard.

For more information, visit the School of Education Career Center website (https://careercenter.education.wisc.edu/) or reach out at career-center@education.wisc.edu.

Information about common career pathways, ways to get involved and gain experience, and transferrable skills developed through this major can be

found on the School of Education Career Center's Kinesiology Pathways (https://careercenter.education.wisc.edu/explore-career/kinesiology-career-pathways/) webpage.

WISCONSIN EXPERIENCE

WISCONSIN EXPERIENCE

UW–Madison's vision for the total student experience, the Wisconsin Experience (https://wisconsinexperience.wisc.edu/about/), combines learning in and out of the classroom. Tied to the Wisconsin Idea (https://www.wisc.edu/wisconsin-idea/) and steeped in long-standing institutional values — the commitment to the truth, shared participation in decision-making, and service to local and global communities — the Wisconsin Experience describes how students develop and integrate these core values across their educational experience.

UW–Madison encourages students to mindfully engage in four core concepts throughout their time on campus: Empathy & Humility, Relentless Curiosity, Intellectual Confidence, and Purposeful Action (https://wisconsinexperience.wisc.edu/intellectual-confidence/).

Since its inception, the School of Education has embraced the concepts of the Wisconsin Experience, providing opportunities for students to learn in venues beyond the traditional classroom. Our students also independently seek out related activities and experiences, thus creating their own unique Wisconsin Experience.

KINESIOLOGY AND THE WISCONSIN EXPERIENCE

Research in the Kinesiology Department

Throughout their program, students engage in research opportunities as part of their coursework. Students also have opportunities to serve as research assistants in top research labs within the kinesiology department, participating in research on topics like dementia, adapted fitness, mental health and physical activity, health promotion in rural or under-served communities, cardiovascular activity, injury in sports, epidemiology, exercise and brain health, motor control and behavior, geriatric health, wellness promotion, neural control, and more.

Kinesiology students may apply for available fellowships and financial awards, including the American Physiological Society Summer Undergraduate Research Fellowship.

Participation in Departmental Activities

The kinesiology department provides several leadership opportunities for students at the department level. Undergraduate students serve as representatives in the department Well-Being Committee and Undergraduate Studies Committee, as peer learning facilitators, and can get involved in the KinEqT Mentorship Program.

- The Kinesiology Undergraduate Studies Committee is the formal body that reviews and approves program updates to the undergraduate majors and certificates. Student leaders involved in this committee contribute a current student perspective to programmatic decisions.
- Peer learning facilitators (called Peer Study Group Leaders) hold study groups for current kinesiology students enrolled in either in ANATPHY 335 or ANATPHY 337 and, in turn, earn credit that satisfies their required practicum experience. These student leaders have a weekly meeting with the instructional staff to cover common challenges in the content, develop and lead study sessions to supplement in-class learning, and gain skills and knowledge related to community building, active learning, and peer facilitation.
- The KinEqT mentorship program is organized by kinesiology graduate students to help undergraduate students connect and build community in the department. The program helps facilitate mentorship and access to resources, both academic and professional, between graduate and undergraduate students with underrepresented racial, disability, social class and gender identities, especially those who are underrepresented within the UW-Madison Department of Kinesiology.

Community-Based Learning Experiences

Each major in the kinesiology department has community-based learning experiences built into their curriculum.

One way that Kinesiology majors get involved in the community is through their required practicum course. This course is designed for students to gain professional experience and skills outside of the classroom. In one of their final semesters, students are placed in a relevant setting for their career goals and spend approximately seven hours per week working with these partners. The options for placements include research labs, strength and conditioning settings, peer facilitating or teaching assistants, public health, and community outreach physical activity programs.

Related Student Organizations

The Kinesiology Club, KinEqT Mentorship Program, Leadership in Adapted Fitness, Sports Medicine & Athletic Healthcare Club, Pre-PT club, Students for Rare, an organization that promotes activism for individuals suffering from rare diseases, and Letters of Love, writing positive letters for children in hospitals, are but a few of the organizations of interest to Kinesiology students. Hundreds of health-focused organizations can be found by filtering for the 'Health/Wellness' category within the Wisconsin Involvement Network website.

Many students are interested in pre-health professional clubs, including Pre-PT Club, Pre-OT Club, Aspiring Nurses Association, and the Aspiring PA Association.

Study Abroad Courses

The kinesiology department offers rotating in Portugal, New Zealand, Costa Rica, and Ireland. These 2-3 week courses make it possible for students to have a study abroad experience and still have time to work or pursue other activities during the summer.

- **Movement as Medicine in Portugal** examines the connection between sedentary behavior and health outcomes in Portugal. Participants review definitions and rates of sedentary behavior, physical activity and physical inactivity in the U.S. and across the globe. While in Lisbon, participants hear from local experts and members of the healthcare and educational systems about how physical activity is viewed and promoted across the population. Side trips to relevant local cultural places contribute to the full picture of health in Portugal. An overnight trip to Porto and two additional day trips provide additional opportunities to learn more about local culture and history. Credit is given for KINES 250 or CE SOC 400.
- **Team Building in Costa Rica** was designed to enhance the group development skills of its participants while engaging in activities such as whitewater rafting, ziplining and hiking. It combines a very successful kinesiology course, KINES 325 Group Development and Behavior Management, with a unique cultural opportunity in Costa Rica. Each day provides opportunities to

not only explore the Pura Vida (Pure Life) of Costa Rica, but also to engage in personal reflection. Participants experience the process of growing together as a community and develop skills to create lasting communities in their personal and professional lives. Students earn credit for KINES 325, a required course in the Physical Education program.

- **Inclusive Activity and Sports in Ireland** offers a unique learning opportunity for UW–Madison students interested in pursuing careers in allied health, fitness and well-being, health education, and public health. Ireland has a distinct history, culture, and approach to health and movement. It is in the midst of comprehensive and progressive reforms to their health and social care, with an emphasis on providing better outreach and rehabilitation services for people with disabilities. This course will focus on applying models, research, and best practices in motor control and motor learning to inclusive physical activity, sports, and rehabilitation for individuals with disabilities in Ireland. Students participate in training seminars led by Active Disability Ireland, Sport Ireland in Dublin, and Munster Technological University in Tralee. Included are visits to rehabilitation facilities and community organizations to attend guest lectures from occupational therapists, physical and physiotherapists, athletes with disabilities, and government employees. At the University of Limerick, students learn about bachelor's and graduate degree programs in the health sciences and hear about relevant research in physical activity, sedentary behavior, sport, and health for individuals with diverse abilities. Co-curricular activities provide an opportunity to explore and participate in sports, recreation, and physical activities through the lens of a tourist/participant with disabilities. Credit is given for KINES 260.
- **Crossroads of Culture & Health in New Zealand** is a unique winter program focused on learning specific differences in the physiology of physical activity among New Zealanders. With an emphasis on the physiology of exercise responses, this program is open to students of all majors, but especially those particularly interested in the physiology of health. Explore the interaction between the environment, culture, and human physiology amidst the breathtaking landscapes of New Zealand. Credit is given for KINES 214,

Volunteering

Students have volunteered to work with the Madison Metropolitan School District, Ballroom Basics for Balance (BB4B), as well as adapted fitness, assisted living, and pro bono clinic settings.

Paid Work Experiences Related to Kinesiology

While completing their undergraduate studies, Kinesiology students have found employment in some of the following areas: Physical Therapy Aide, University Health Services Student Health Technician – SH/GYN Clinic, Nuclear Cardiac Stress Testing Intern, UnityPoint Health, Nursing Care Partner, Recreation & Well-being, Nicholas Recreation Center Member Services Supervisor, Badger Sports Camps at UW-Madison, Cardiac Rehab Intern SSM St Mary's Hospital Center of Wellness, Personal Caregiver, and Home Health Aide.

RESOURCES AND SCHOLARSHIPS

Information about scholarships, academic and career advising, study abroad opportunities, services related to student well-being, and other resources for students in the School of Education can be found on the School's Resources (p. 1680) page.

PHYSICAL EDUCATION, BS

Welcome to the Physical Education Teacher Education program! We believe great PE teachers help students grow into healthy, happy, and helpful humans. Our unique PE teacher preparation program has dedicated faculty with decades of experience who are committed to guiding you to be the best teacher you can be.

The Physical Education program is not one of the larger programs in the state, but we think it is one of the best. More than once, a retired Health and Physical Education Curriculum Director from a school district in Wisconsin told us our graduates are better prepared than students coming out of any other program. We feel good about that.

In addition to the Physical Education major, we also offer a minor in Adapted Physical Education (p. 1890) and a minor in Health Education (p. 1892). The Adapted minor is important for teaching at all levels and the Health minor is important for teaching at the secondary level. You can develop the program to fit your needs and graduate with just the Physical Education major, the major and one minor, or the major and both minors.

The UW–Madison School of Education Teacher Pledge (https://tec.education.wisc.edu/teacher-pledge/) can financially support your dreams of becoming a teacher. You pledge to teach in Wisconsin PK-12 schools for 3-4 years after graduation. In return, we pledge to pay the equivalent of in-state tuition and fees, testing, and licensing costs.

We are committed to transforming physical education into a powerful experience in which students develop physical, mental, and social skills for life. To that end, our program includes the following elements:

- Standards-based curriculum models
- Culturally responsive teaching techniques in inclusive and multicultural settings
- Social and emotional learning that incorporates community building and behavior management

Physical Education students also benefit from:

- Nationally and state-recognized faculty and staff members
- Student teaching placements in urban, suburban, or rural settings, depending on the needs of the individual
- Small class sizes and advising groups
- A strong science and technology-based curriculum
- Instruction within the #1 nationally ranked UW–Madison School of Education

From the beginning, you will get to work with students from diverse educational backgrounds, ensuring you will be prepared to thrive in any setting after graduation. We offer many "out-of-the-classroom"

opportunities to strengthen and expand your physical education knowledge, and proudly have a presence in Special Olympics, adapted clubs, and local Boys & Girls Clubs.

You'll also have a chance to study abroad and take our team-building course in Costa Rica! We go every May after the spring semester, and our students learn how to create a safe, inclusive learning community in a unique cultural setting.

Throughout the Physical Education program, you'll observe PE teachers, team teach home-schooled elementary students, and participate in community service opportunities in the Madison area. In your final year at UW, you'll be mentored by veteran PE teachers who use various PE curriculum models: Adventure Learning, Fitness Education, Teaching Games for Understanding, and Sport Education. These invaluable teaching practices will prepare you for the joys and responsibilities of your own PE classroom.

Physical Education students also have the opportunity for professional growth as they earn their degree. Students have given presentations at the Wisconsin, Midwest, and national Society of Health and Physical Educators (SHAPE America) conferences. Several students have recently served in leadership positions at the state and district levels.

The world needs individuals like you who want to make a difference through physical education. We are excited you want to be a part of the movement!

On, Wisconsin!

"I think one of the most impactful and important aspects of this program is how often I go into schools, am involved in volunteer opportunities, and just work directly with students and people with and without disabilities. There's a lot of great opportunities to get involved in hands-on experiences instead of just being in a classroom."
–Lucas Mandel (read more (https://education.wisc.edu/news/lucas-mandel-from-the-school-of-educations-physical-education-major/?utm_source=Early_AD&utm_medium=email&utm_campaign=teaching_phys_majors&utm_id=student&utm_content=Student_Story))

HOW TO GET IN

HOW TO GET IN

PHYSICAL EDUCATION DECLARATION OVERVIEW

Students interested in a degree in Physical Education can enter UW–Madison with a Pre-Physical Education classification. They spend their initial semesters completing liberal studies, general education, and science core requirements.

UW-Madison students who started in another major can move to Pre-Physical Education by completing a Pre-Professional Declaration (http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission/). A GPA of 2.75, based on all UW–Madison coursework or the last 60 credits (p. 1662), is required to transfer into Pre-Physical Education.

It is not necessary to be a Pre-Physical Education student before declaring the Bachelor of Science in Physical Education.

DECLARING BACHELOR OF SCIENCE IN PHYSICAL EDUCATION (BSPE)

On-Campus Students

On-campus students may declare the Bachelor of Science in Physical Education degree at any time, provided they have met the following requirements:

- Have second-year academic standing.
- Earned a minimum 2.75 cumulative GPA (4.00 scale) on all college work attempted, or a 2.75 on the last 60 credits (https://guide.wisc.edu/undergraduate/education/#policiesandregulationstext).
- Have met with a Physical Education or School of Education Student Services advisor who will submit the declaration form; see Contact Information for details.

[1] Last 60 Credits Rule - Two grade point averages may be calculated to determine a candidate's eligibility to declare Physical Education. A GPA may be calculated using (1) UW-Madison and all other all transferable college level coursework attempted and (2) the last 60 credits attempted. The higher GPA of these two calculations will be used for determining eligibility. Once declared, students must earn a semester GPA of 2.75 each semester after declaration. More information on this rule is available here (p. 1662).

Off-Campus Transfers to UW-Madison

Off-campus students wishing to transfer to UW-Madison and declare the Bachelor of Science in Physical Education degree must be admitted to UW-Madison. Admission to the university has its own application, admission process, and application deadlines; see Office of Admissions and Recruitment (http://www.admissions.wisc.edu/) for application information. Students also need to meet with a Physical Education or School of Education Student Services advisor, who will determine if the following eligibility requirements to declare the BSPE degree have been met:

- Have second year academic standing.
- Earned a minimum 2.75 cumulative GPA (4.00 scale) on all college work attempted or 2.75 on the last 60 credits (https://guide.wisc.edu/undergraduate/education/#policiesandregulationstext).

See Contact Information for details. The advisor will submit the declaration form if the student has met the eligibility requirements. Transfer students who do not meet the declaration eligibility requirements may be admitted to UW-Madison with the Pre-Physical Education classification.

Students with a Previous Undergraduate Degree

Students who already hold a Bachelor's degree and wish to become certified to teach Physical Education must be admitted to UW-Madison. Admission to the university has its own application, admission process, and application deadlines; see Office of Admissions and Recruitment (http://www.admissions.wisc.edu) for university application information.

Students need to meet with a Physical Education or School of Education Student Services advisor who will (1) review the student's eligibility to declare the BSPE degree, and (2) discuss their admission status, see below. Eligibility requires that a student has:

- Earned a minimum 2.75 cumulative GPA (4.00 scale) on all college work attempted or 2.75 on the last 60 credits

(https://guide.wisc.edu/undergraduate/education/#policiesandregulationstext).

See Contact Information for details. The advisor will submit the declaration form if the student has met the eligibility requirement.

An applicant with a previous undergraduate degree will be admitted to Physical Education as a second degree candidate or as a School of Education "Special Student," depending on their academic background. *Second degree candidates* in the School of Education are changing their academic direction and wish to complete a degree that is unrelated to their first degree. A large number of credits are usually required to complete the new degree requirements and a second degree is awarded upon its completion; more information is available here (p. 1662).

Admission as an *Education Special Student* indicates that the applicant wishes to pursue teacher certification in Physical Education and studied it extensively during their initial degree. An individual enrolls in Physical Education as a Special Student to complete the requirements that were not taken during the first degree; these are assessed on a case by case basis. Another degree is not awarded for this "certification only" coursework.

All returning students are strongly advised to meet with an advisor in the School of Education Student Services office before applying for admission to UW-Madison. Consultations with advisors are available in person, virtually, or via telephone; email studentservices@education.wisc.edu (soeacademicservices@education.wisc.edu) or call 608-262-1651 to schedule an appointment.

BACKGROUND CHECKS

Pursuant to State of Wisconsin law PI 34.018(2), the School of Education is required to administer a background check on all students entering teacher education programs. This check is intended to determine if the applicant has engaged in any behavior that endangers the health, welfare, safety, or education of PK-12 pupils. Local school districts frequently conduct background checks on teacher education students prior to the start of their in-classroom field work, and the Department of Public Instruction (DPI) will also conduct a background check on each applicant for a Wisconsin educator license.

Students should be aware that background checks may be initiated by other agencies or organizations when they are seeking employment or a professional license. School administrators have the authority to determine the appropriateness of a student placement and may choose not to permit a placement based on a student's background check results.

An individual who has been deemed ineligible to participate in field or clinical experiences based on the results of their background check may not be able to complete the requirements for their degree or certification. Students with questions about these processes should contact the Teacher Education Center, tec@education.wisc.edu.

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.

English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

SCHOOL OF EDUCATION DEGREE REQUIREMENTS

COMMUNICATION: BREADTH AND DEPTH

Courses designated as Communication A (Comm A) and Communication B (Comm B) help students learn how to gather and assess information from a variety of sources and to present different kinds of information, insight, and analysis to diverse audiences. Comm A courses focus on essential communication skills and Comm B courses teach research, writing, and communication skills within a disciplinary area.

Communication A	Complete either: • one course with the Communication A designation, or • satisfaction of Communication A based on UW Placement Test.
Communication B	One course with the Communication B designation.

QUANTITATIVE REASONING: BREADTH AND DEPTH

Quantitative Reasoning A courses provide students with foundational skills in mathematics, computer science, statistics or formal logic that are needed for dealing with quantitative information. In Quantitative Reasoning B courses, students use quantitative tools in the context of other disciplines or course material.

Quantitative Reasoning A	Complete either: • one course with the Quantitative Reasoning A designation, or • satisfaction of Quantitative Reasoning A based on UW Placement Test.
Quantitative Reasoning B	One course with the Quantitative Reasoning B designation.

LIBERAL STUDIES REQUIREMENTS

All students are required to complete a minimum of 40 credits of Liberal Studies (p. 1670) coursework. This requirement provides an opportunity to do some academic exploration beyond the scope of the major. Students take courses in areas of particular interest and also have an opportunity to sample the wide selection of courses offered across the university. Coursework is required in humanities, social studies (social science), science, and cultural and historical studies. Some elective coursework is also needed to reach the required number of credits.

The School of Education's Liberal Studies requirements can be used to satisfy the campus-wide Core General Education requirements. Communication A and B, and Quantitative Reasoning A and B coursework can also be used towards Core General Education and other requirements. Academic advisors can suggest courses that will count in multiple places.

A basic outline of the liberal studies is included below. Students must consult the detailed version of the requirements (p. 1670) for more information about course selection and how the liberal studies requirements apply to this major.

Are you interested in switching to the School of Education? If so, you should run a "what-if" DARS report. (https://kb.wisc.edu/registrar/94068/) It will show how many of these requirements you have already met and are unmet.

Humanities

Complete a minimum of 9 credits from these categories.

Literature	Complete a course with the Literature designation, minimum of 2 credits
Fine Arts	Complete a minimum of 2 credits from the list of courses below.
Humanities	Courses to total 9 Humanities credits. Select from: • Courses with the Humanities or Literature designation. • Fine Arts courses from the list below. • Courses with the Language courses designation. • ENGL 201 • ENGL 207 • COM ARTS 181

Fine Arts Courses

Code	Title	Credits

Social Studies

Social Studies Complete 9 credits with the Social Science designation.

The following programs have specific requirements:

- Kinesiology: PSYCH 202
- Art Education, Elementary Education, Elementary Education and Special Education, Physical Education, Special Education: POLI SCI 104 or 205

Science

Complete a minimum of 9 credits, including Physical and Biological Science. A laboratory science course is also required. The lab course can count toward the Biological or Physical Science requirement if it has the requisite breadth designation.

Physical Science	Complete one course with the Physical Science designation.
Biological Science	Complete one course with the Biological Science designation.
Lab Science	Complete one course with the Biological, Physical, or Natural Science designation with a lab component; see Course Search and Enroll. Additional eligible courses are listed below.
Science Elective(s)	If needed, complete a course with the Biological, Physical, or Natural Science designation to total 9 Science credits.

Laboratory Courses

Code	Title	Credits
ANTHRO 105	Principles of Biological Anthropology	3
ATM OCN 101	Weather and Climate	4
BOTANY 100	Survey of Botany	3
BOTANY/PL PATH 123	Plants, Parasites, and People	3
FOOD SCI/ MICROBIO 324	Food Microbiology Laboratory	2
GEOSCI 100	Introductory Geology: How the Earth Works	3
PHYSICS 109	Physics in the Arts	3
PLANTSCI 110	Introduction to Plant Science and Technology	4

Cultural and Historical Studies

Complete three requirements met by separate courses. Any of these courses can also be used to meet other requirements if it has the relevant breadth designation. A single course cannot satisfy more than one of the three Cultural and Historical Studies requirements listed below.

Ethnic Studies	Complete 3 credits with the Ethnic Studies Designation.
United States or European History	Complete 3 credits from the list of courses below.
Global Perspectives	Complete 3 credits from the list of courses below.

United States or European History Courses

Code	Title	Credits

Liberal Studies Electives

Liberal Studies Electives	Complete additional liberal studies coursework as needed to reach the required 40 Liberal Studies credits.

PROGRAM STRUCTURE

The Physical Education program has six components:

- *Liberal studies* courses expose students to a broad range of academic disciplines. The university-wide *General Education* requirements also encourage this breadth of study.
- *Science Core* coursework offers in-depth study of the basic sciences and mathematics.
- *Kinesiology Core* courses look at how the body responds and adapts to exercise, the role of psychological factors in sports and exercise, mechanics applied to biological systems, and how movement is controlled, learned, and developed over the life span.
- The *Physical Education requirements* focus on advanced study in Physical Education pedagogy, including teaching methods coursework and field experiences in the schools.
- *Education* coursework includes an examination of the school's relationship to our society and also of the processes by which students grow and learn.
- *Elective* coursework is taken to reach the minimum of 120 credits required for the degree.

While not required, teaching certifications in Adapted Physical Education and Health Education are also offered. See Additional Certification Options (p. 1935), below.

SCIENCE AND KINESIOLOGY CORE COURSES

With the exception of KINES 116 First Aid and Basic Life Support and KINES 121 Foundations of Physical Education, Kinesiology coursework must be taken after admission into the professional part of the undergraduate program.

Code	Title	Credits
MATH 112	College Algebra	3
CHEM 108 or CHEM 103	Chemistry in Our World General Chemistry I	5
ANAT&PHY 337	Human Anatomy	3
ANAT&PHY 235	Human Physiology and Health	4
KINES 116	First Aid and Basic Life Support [1]	2
KINES 308	Biomechanics of Physical Activity	2
KINES 314	Physiology of Exercise	4
KINES 361	Motor Learning and Performance	3

[1] Students may exempt from KINES 116 First Aid and Basic Life Support by completing American Red Cross First Aid **AND** either American Red Cross Basic Life Support or American Red Cross CPR/AED for Professional Rescuers, enroll here. (https://www.redcross.org/take-a-class/)
If a student wishes to request that a different course (or courses) be considered, contact the Department of Kinesiology undergraduate office PRIOR to enrolling.

PHYSICAL EDUCATION COURSES

Effective for Fall, 2023 program admission.

Code	Title	Credits
KINES 121	Foundations of Physical Education	2
KINES 315	Assessment and Research in Physical Activity Pedagogy	3
KINES 316	Adapted Physical Activity	3
KINES 325	Group Development and Behavior Management	3
KINES 327	Current Topics in Outdoor Pursuits	1

KINES 353	Health and Physical Education in a Multicultural Society	3
KINES 372	Methods and Practicum of Teaching PK-5 Physical Education	4
KINES 373	Methods and Practicum of Teaching 6-12 Physical Education	4
KINES 478	Elementary School Physical Education Student Teaching	6
KINES 479	Middle School or High School Physical Education Student Teaching	6

PROFESSIONAL EDUCATION COURSES

Code	Title	Credits
Learning (Minimum of 3 credits)		
ED PSYCH 301	How People Learn	3
Foundations of the Profession: (Minimum of 3 credits)		
ED POL 300	School and Society	3
or ED POL/ HISTORY 412	History of American Education	

ADDITIONAL CERTIFICATION OPTIONS

Physical Education students are encouraged to increase their content knowledge and teaching capabilities through additional training. Although not required, teaching certifications are available in Health Education and Adapted Physical Education. Students may pursue more than one additional certification.

- Health Education Minor (p. 1892)
- Adapted Physical Education Minor (p. 1890)

CONTINUATION REQUIREMENT: DEPARTMENT OF KINESIOLOGY

All students admitted to undergraduate programs in the Department of Kinesiology, including Physical Education, must maintain a cumulative grade point average (GPA) of at least 2.75, based on all UW–Madison campus course work. Consult the School of Education's Academic Policies and Procedures (p.) for additional information about the continuation requirement.

GPA AND OTHER GRADUATION REQUIREMENTS

GRADUATION REQUIREMENTS

Based on UW–Madison coursework.

- 2.75 cumulative grade point average. This may be modified by the Last 60 Credits Rule.
- 2.75 cumulative grade point average across all professional education courses (excluding practicum and student teaching).
- 2.75 cumulative grade point average in the major.
- A minimum of 120 credits.
- Major residency: Degree candidates must complete at least 15 credits of upper-level major coursework (numbered 300–699) in residence on the UW–Madison campus.
- Senior residency: Degree candidates must complete their last 30 credits in residence on the UW–Madison campus. Student teaching and practicum are considered part of the 30 credits.

DEGREE AUDIT (DARS)

UW–Madison uses “DARS” to document a student's progress toward the completion of their degree, including any additional majors and certificates. A DARS (Degree Audit Reporting System) report shows all the requirements for completing a degree and, against courses that are planned or completed, shows the requirements that have been met, and those that are unmet. A report can offer suggestions about courses that may be taken to meet specific requirements and can assist in the academic planning and enrollment process. Students can access a DARS report in the Course Search & Enroll app or Student Center via My UW.

DARS also has a "what-if" function. This feature makes it possible to request a DARS report as if pursuing another program, major, or certificate. It is an excellent tool if considering a new or additional area of study. School of Education students in a pre-professional classification such as Pre-Elementary (PRE) or Pre-Kinesiology should request a "what if" DARS report of their professional program of interest. For example, Pre-Elementary Education (PRE) students will request Elementary Education K-9; Pre-Kinesiology (PKN) students will request the Kinesiology report. Minors have their own DARS programs and are run separately from the main degree audit.

More information (including tutorials) on how to request and read regular and what-if DARS reports is available under the Resources tab on the Office of the Registrar’s website. (https://registrar.wisc.edu/dars/)

DARS is not intended to replace student contact with academic advisors. It creates more time in an advising appointment to discuss course options, research opportunities, graduate school, or issues of personal interest or concern to students.

DARS is used as the document of record for degree program, major, and certificate completion in the School of Education.

ADDITIONAL CERTIFICATION REQUIREMENTS AND APPLYING FOR A LICENSE

In addition to completing UW-Madison's program requirements, students must also complete Wisconsin statutory requirements and certification requirements established by the Wisconsin Department of Public Instruction. Many of these requirements are embedded within the program's requirements and require no additional attention. The endorsement of the program coordinator/faculty is also required to receive certification through UW–Madison.

The State of Wisconsin requires that anyone wishing to teach in a public K–12 setting hold a valid teaching license issued through the Department of Public Instruction. In addition to completing a certification program, students must submit a separate application for this license.

Detailed information about certification requirements and applying for a license is available under Certification/Licensure (p. 1938).

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Standard 1: Scientific Foundational Knowledge. Physical education candidates demonstrate an understanding of scientific foundations for the delivery of an effective preK-12 physical education program.
2. Standard 2: Physical Education Foundational Knowledge. Physical education candidates demonstrate an understanding of theoretical foundations for the delivery of an effective preK-12 physical education program.
3. Standard 3: Physical Education Content Knowledge. Physical education candidates understand physical education content, concepts and skills associated with the development of a physically educated student.
4. Standard 4: Planning for Instruction. Physical education candidates plan developmentally appropriate learning experiences aligned with local, state and/or SHAPE America National Standards and Grade-Level Outcomes for K-12 Physical Education.
5. Standard 5: Instructional Delivery and Management. Physical education candidates engage students in meaningful learning experiences through effective use of pedagogical skills. They use communication, feedback, and instructional and managerial skills to enhance student learning.
6. Standard 6: Assessment of Student Learning. Physical education candidates select and implement appropriate assessments to monitor students' progress and guide decision making related to instruction and learning that do not marginalize students.
7. Standard 7: Technology. Physical education candidates select and implement a variety of technologies to enhance learning, as well as personal and professional productivity.
8. Standard 8: Social-Emotional Learning and Trauma Based Practices. Physical education candidates understand and utilize a variety of practices critical to SEL and positive mental health outcomes.
9. Standard 9: Professional Responsibility. Physical education candidates demonstrate behaviors essential to becoming effective professionals.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

Physical Education – Sample Four-Year Plan

This sample four-year sample graduation plan is designed to guide your course selection throughout your academic career; it does not establish a contractual agreement. Use it along with your DARS report, the Guide, and the Course Search and Enroll app to create a four-year plan reflecting your placement scores, incoming credits, and individual interests. Consult with your academic advisor(s) to develop a personalized plan of study and refer to the Guide for a complete list of requirements. You will likely revise your plan several times during your academic career here, based on your activities and changing academic interests.

ADVISING AND CAREERS

ADVISING AND CAREERS

PHYSICAL EDUCATION ADVISING

Prospective off-campus and on-campus Physical Education students will meet with Prof. Michael Norris in the Department of Kinesiology. Students considering this major should schedule an appointment with Dr. Norris as soon as possible. Pre-declaration advising is conducted by the Department of Kinesiology and staff in the School of Education Student Services office, see below.

Students with either a pre-certification (PED) or certification (BSPE) classification are required to meet with their department advisor at least once per semester. Mandatory advising meetings are conducted every semester, just before enrollment begins for the following semester.

Academic Advising in the School of Education

Dedicated to supporting and promoting student success, academic advisors (https://advising.education.wisc.edu/) are here to assist students with the adjustment to college, understanding their degree and career goals, and connecting them to resources. Advisors support prospective and current School of Education students in all programs through:

- Course selection
- Mentoring and advocacy for underrepresented and international students
- Understanding degree requirements and progression
- Interpreting academic policies
- Helping students recognize their strengths and suggesting ways to expand their skills
- Expanding learning through activities such as study abroad, volunteering/work/internship, and by assuming leadership roles

Advising appointments are available in person, virtually, or over the phone. Current students schedule appointments through the Starfish app (https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/) in MyUW. Appointments can also be made by calling 608-262-1651, or in person in Room 139 Education Building.

Academic Dean Support (https://advising.education.wisc.edu/academic-dean-support/) staff are also here for you when facing academic or personal challenges. We provide undergraduate School of Education students support, problem-solving, advocacy, resources, and approve exceptions to policies.

Career Advising in the School of Education

Through individual appointments, events, courses, and online resources, the Career Center provides students and alumni with the tools needed to be successful in their career development.

Career and Internship Advisors are prepared to help students with:

- Exploration of career and academic pathways (https://careercenter.education.wisc.edu/explore-career/)
- Resumes
- Cover letters
- Job/Internship search
- Interview preparation
- Mock interviews
- Graduate school search, applications and decisions
- Negotiating job or internship offers
- Professional networking
- Connecting with employers

Students are encouraged to meet with their Career and Internship Advisor early in their college experience to take full advantage of the resources and support available.

To make an appointment: log into Starfish (https://wisc.starfishsolutions.com/starfish-ops/) from the MyUW dashboard.

For more information, visit the School of Education Career Center website (https://careercenter.education.wisc.edu/) or reach out at career-center@education.wisc.edu.

WISCONSIN EXPERIENCE

WISCONSIN EXPERIENCE

UW–Madison's vision for the total student experience, the Wisconsin Experience (https://wisconsinexperience.wisc.edu/about/), combines learning in and out of the classroom. Tied to the Wisconsin Idea (https://www.wisc.edu/wisconsin-idea/) and steeped in long-standing institutional values — the commitment to the truth, shared participation in decision-making, and service to local and global communities — the Wisconsin Experience describes how students develop and integrate these core values across their educational experience.

UW–Madison encourages students to mindfully engage in four core concepts throughout their time on campus: Empathy & Humility, Relentless Curiosity, Intellectual Confidence, and Purposeful Action (https://wisconsinexperience.wisc.edu/intellectual-confidence/).

Since its inception, the School of Education has embraced the concepts of the Wisconsin Experience, providing opportunities for students to learn in venues beyond the traditional classroom. Our students also independently seek out related activities and experiences, thus creating their own unique Wisconsin Experience.

PHYSICAL EDUCATION AND THE WISCONSIN EXPERIENCE

On-Campus Activities and Experiences

Homeschool Physical Education

Physical Education students in an elementary PE methods course provide an eight-week physical education program for local homeschool students. This experience is a win-win for both groups, as PE students practice their teaching skills while homeschool students get the vital motor and social skill development they need.

Participation in the Virginia Horne Henry PE History Project

Current students met with Physical Education alumni to share stories, learn about the rich program history, and establish new traditions to enhance the program.

Off-Campus Activities and Experience

Camp Courageous

Students completing the Adapted Physical Education minor volunteer for a weekend as camp counselors at Camp Courageous (https://campcourageous.org/), working one to one with campers with disabilities. The students provide activities such as a scavenger hunt, support in the pool for aquatic activities, and other adventures like ziplining with their camper.

Walk for Autism (Fitchburg, WI)

Students enrolled in several Adapted Physical Education minor courses participate in the annual Walk for Autism, hosted by The Autism (https://autismsocietywi.org/) Society of Wisconsin - Madison. (https://autismsocietywi.org/) They help organize equipment and supplies prior to the walk and make posters supporting the children and families participating in the event. All student volunteers are posted around the walking track to guide and cheer on the walkers.

Team Building Activities

In KINES 325 Group Development and Behavior Management, students develop and plan team-building activities. The students then visit a local elementary school to teach these activities and help students develop positive social and emotional skills.

Teaching in Area Schools

Students in physical education courses provide physical education and social skill development in area schools.

Partnering with Boys & Girls Club of Dane County

Physical Education students and staff provide training on the implementation of social and emotional learning for after-school staff.

Volunteering to Support Local Programs

Students volunteer with the Madison School and Community Recreation Department in a variety of sports and activities and assist in numerous

capacities with the Adapted Sports Program at Sun Prairie Area School District.

Multicultural Field Experience

As part of KINES 353 Health and Physical Education in a Multicultural Society, students complete the Multicultural Field Experience in which they work with individuals from a cultural background different than their own. Placements for the MFE have included assisting teachers in school health or physical education classes, volunteering with an after-school program through Madison School and Community Recreation, and supporting a community organization.

Additional Activities and Accomplishments

Student Organizations and Memberships

Students have organized the local Physical Education Club on campus and have memberships with Wisconsin Health and Physical Education.

Additional Certifications

In addition to the Physical Education major, most students also complete the Adapted Physical Education minor and/or the Health Education minor.

State Association Leadership Positions - Wisconsin Health and Physical Education

Several students have served as Future Professionals President and Vice President with Wisconsin Health and Physical Education (WHPE). They have also served as Future Professionals Secretary and Treasurer. Additionally, they have served as the Future Professionals representative on the Leadership Council for the Midwest District of the Society of Health and Physical Educators, the parent body of the WHPE association.

Professional Presentations and Workshops

Students are active participants as presenters at the Wisconsin Health and Physical Education Convention, Best Practices in Health and Physical Education Conference, Society of Health and Physical Educators (SHAPE) Convention, and UW–Madison Undergraduate Symposium. Students also participated in the Society for Public Health Education/CDC sponsored Skills-Based Health Education Workshop implemented by Health Education faculty and students in the spring.

Let's Talk - First Year Teacher Program

Physical Education staff and retirees partner with first-year alums to help them incorporate social and emotional learning across their Physical Education curriculum and provide a place to debrief as they go through their first year or two of teaching.

Study Abroad Courses

- In 2023-2025, the Department of Kinesiology began offering a summer study-abroad course in Costa Rica for PE students. The study abroad was designed to enhance the group development skills of its participants while engaging in various activities to encourage group and team development by white-water rafting, ziplining, and hiking. The course linked to this experience, KINES 325 Group Development and Behavior Management, encourages students to learn and practice social and emotional learning and apply it in a group setting. These outdoor pursuits and group activities provide opportunities for conversations, discussions, and processing. Each day during the trip also provides opportunities to not only explore the Pura Vida (Pure Life) of Costa Rica, but also to engage in personal reflection. Participants experience the process of growing together as a community and develop skills to create lasting communities in their personal and professional lives. Students earn credit for KINES 325, a required course in the Physical Education program.
- Anticipated study abroad destinations include a return to Costa Rica, and also consideration for developing opportunities in Brazil in 2028, or Botswana in 2029.

CERTIFICATION/LICENSURE

CERTIFICATION/LICENSURE

ADDITIONAL CERTIFICATION REQUIREMENTS

In addition to completing UW–Madison's program requirements, certification also requires the completion of Wisconsin statutory requirements related to teacher education and certification requirements established by the Wisconsin Department of Public Instruction. Students must complete all requirements and also obtain the endorsement of the program faculty to receive certification through UW–Madison. For a description of additional certification requirements and information about applying for a license, see the Mary T. Kellner Teacher Education Center (https://tec.education.wisc.edu/current-students/).

PROFESSIONAL CERTIFICATION/LICENSURE DISCLOSURE (NC-SARA)

The United States Department of Education (via 34 CFR Part 668 (https://www.ecfr.gov/current/title-34/subtitle-B/chapter-VI/part-668/?toc=1)) requires institutions that provide distance education to disclose information for programs leading to professional certification or licensure. The expectation is that institutions will determine whether each applicable academic program meets state professional licensure requirements and provide a general disclosure of such on an official university website.

Professional licensure requirements vary from state-to-state and can change year-to-year; they are established in a variety of state statutes, regulations, rules, and policies; and they center on a range of educational requirements, including degree type, specialized accreditation, total credits, specific courses, and examinations.

UW-Madison has taken reasonable efforts to determine whether this program satisfies the educational requirements for certification/licensure in states where prospective and enrolled students are located and is disclosing that information as follows.

Disclaimer: This information is based on the most recent annual review of state agency certification/licensure data and is subject to change. All students are strongly encouraged to consult with the individual/office listed in the Contact Information box on this page and with the applicable state agency for specific information.

The requirements of this program meet certification/licensure requirements in the following states:

Wisconsin

The requirements of this program do not meet certification/licensure requirements in the following states:

Not applicable

Updated: 1 June 2026

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

Information about scholarships, academic and career advising, study abroad opportunities, student well-being, and other resources for students in the School of Education can be found on the School's Resources (p. 1680) page.

PROMOTING ACTIVITY FOR DIVERSE ABILITIES, CERTIFICATE

Are you preparing for a career in healthcare, public health, special education, or fitness and wellness? If you answered "yes," the Promoting Activity for Diverse Abilities (PADA) Certificate is the perfect blend of coursework and experiential learning. Students who have completed the PADA Certificate go on to graduate programs and careers in occupational or physical therapy, speech-language pathology, medicine, nursing, dentistry, counseling, special education, and many other exciting and challenging fields.

The PADA certificate will prepare you with the knowledge and skills to improve the health and well-being of people with disabilities through movement, including physical activity and rehabilitation therapies.

Plus, you'll have an opportunity to gain hands-on experience while developing your pre-professional skills and competencies in the Adapted Fitness Program (https://kinesiology.education.wisc.edu/academics/certificates/adapted-fitness-and-personal-training/) – one of UW's most sought-after volunteer experiences. Adapted Fitness offers inclusive physical activities to adults and children living with a variety of disabilities. PADA students work in teams to problem solve in a care setting, where they develop exercise regimens for their clients, foster adherence to clinician-prescribed therapies, and offer psychosocial support and motivation. Students also learn pre-clinical skills, such as taking basic vitals, using gait belts, performing transfers, assessing measures of fitness, conducting health histories, and much more.

STUDY ABROAD OPPORTUNITY

The Kinesiology Department also offers a short-term, faculty-led summer study abroad course, Inclusive Physical Activity, Sport & Rehabilitation in Ireland (https://studyabroad.wisc.edu/program/?programId=330346). Explore Ireland's progressive health reforms and gain hands-on experience in allied health, disability services, fitness, health education, and public health. Credit is given for KINES 260, an elective for the PADA certificate.

HOW TO GET IN

HOW TO GET IN

The SoE's Undergraduate Academic Advising Services will administer the process that students will use to declare enrollment in the certificate. Students declaring in the Certificate must have a minimum grade point average of 2.50 to be eligible for the certificate to align with the School of Education's requirement for good academic standing. Students intending to complete the Promoting Activity for Diverse Abilities Certificate should visit the School of Education's Certificate Programs (https://education.wisc.edu/academics/certificates/) page to complete the declaration form.

Students declared in the Physical Education BS may not declare the Certificate in Promoting Activity for Diverse Abilities.

REQUIREMENTS

REQUIREMENTS

Students must complete a minimum of 16 total credits. The 10-11 credits of core courses will provide the foundation content and instruction needed to be successful in subsequent certificate courses and will provide an upper-level course focusing on application and mastering knowledge. Students will also complete 5-6 credits of breadth elective courses that span the departments of Kinesiology, Rehabilitation Psychology and Special Education, Dance, and Communication Sciences and Disorders to reach a total of 16 credits. Breadth courses give students from a wide array of backgrounds and majors to select courses that will be applicable to a variety of diverse career interests or the students will also have the ability to choose courses in a more narrowed and detailed focus. Allowing for a set of focused elective choices or range of elective topic areas will be a benefit and a draw to students pursuing a variety of career paths.

Certificate students must earn a minimum grade point average of 2.5 on required certificate coursework. At least 8 credits must be taken in residence.

CORE COURSES

Complete 10-11 credits from the following:

Code	Title	Credits
KINES 225	Introduction to Physical Activity Programming for Diverse Abilities	2
KINES 227	Introduction to Clinical Anatomy of Human Movement	2-3
or ANAT&PHY 337	Human Anatomy	
KINES 516	Physical Activity for Diverse Abilities	3
RP & SE 300	Individuals with Disabilities	3

BREADTH ELECTIVE COURSES

Complete 5-6 credits from the following to reach a total of 16 credits:

Code	Title	Credits
CS&D 110	Introduction to Communicative Disorders	3
CS&D 210	Neural Basis of Communication	3
CS&D 424	Introduction to Sign Language	3
DANCE 231	Introduction to Dance/Movement Therapy	3
DANCE 232	Introduction to Dynamics of Dance Therapy	3
DANCE 331	Dynamics of Dance Therapy	3
KINES 100	Exercise, Nutrition, and Health	2
KINES 150	Foundations of Health Behavior and Health Equity	3

KINES 260	Inclusive Physical Activity, Sport & Rehabilitation in Ireland	3
KINES 360	Lifespan Motor Development	3
KINES 540	Diversity in Health and Physical Activity Settings	3
RP & SE 330	Behavior Analysis: Applications to Persons with Disabilities	3
RP & SE 466	Diversity in Special Education	3

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Demonstrate the ability to increase healthy behaviors and safe activities for persons with diverse abilities.
2. Obtain the skills and knowledge to encourage, empower, and prescribe activity for people who exhibit a wide array of disabling conditions.
3. Identify, create and expand opportunities where larger organizations can create more accessible physical activity programs for those who exhibit diverse abilities.
4. Develop practical skills and knowledge to modify and or adapt activities to minimize the effects of disabling conditions and maximize healthy movement opportunities.

REHABILITATION PSYCHOLOGY AND SPECIAL EDUCATION

The Department of Rehabilitation Psychology and Special Education is dedicated to enhancing the lives of individuals with disabilities and their families. As the only department on campus solely focused on this mission, we prepare students to advocate for the full inclusion of people with disabilities across the lifespan.

The undergraduate programs in Rehabilitation Psychology and Special Education equip students with the knowledge, skills, and experience necessary to support individuals with disabilities across various settings—whether in schools, workplaces, or community-based environments.

The department offers the following undergraduate programs:

- Rehabilitation Psychology (p. 1957) (pre-professional track)
- Special Education (p. 1971), with certification options for:
  - Kindergarten-Grade 12 (p. 1988)
  - Birth-Grade 3 (p. 1985)
  - Birth-Grade 12 (p. 1987)
- Elementary Education and Special Education (p. 1941) - a joint program with the Department of Curriculum and Instruction, leading to certifications in both Special Education (K-12) and Elementary Education (K-9)

Additionally, the department offers a Disability Rights and Services Certificate (p. 1940), available to students pursuing other majors across campus.

DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/CERTIFICATES

- Disability Rights and Services, Certificate (p. 1940)
- Elementary Education and Special Education, BSE (p. 1941)
- Rehabilitation Psychology, BS (p. 1957)
- Special Education, BSE (p. 1971)

DISABILITY RIGHTS AND SERVICES, CERTIFICATE

The Department of Rehabilitation Psychology and Special Education's primary mission is to improve the lives of individuals with disabilities. The Disability Rights and Services Certificate equips undergraduate students with the knowledge, skills, and attitudes needed to support this mission. Upon completion, students will be prepared to advocate for the equity and inclusion of individuals with disabilities in their academic fields and future careers.

This certificate is particularly popular among pre-health students who seek to gain valuable knowledge and skills related to supporting individuals with disabilities. It also serves as an excellent option for students considering graduate studies in education, offering exposure to special education coursework.

STUDY ABROAD OPPORTUNITY

The Department of Rehabilitation Psychology and Special Education offers a short-term, faculty-led, summer study abroad course, Disability Rights and Access in Australia (https://studyabroad.wisc.edu/program/?programId=330353), which can be counted as an elective for the certificate.

HOW TO GET IN

HOW TO GET IN

Students intending to complete the Disability Rights and Services Certificate will find the declaration form on the School of Education's Certificate Programs (https://education.wisc.edu/academics/certificates/) page. The declaration for this certificate program can be submitted at any time during the calendar year.

Please note, students completing a major in Rehabilitation Psychology, Special Education, or Elementary Education and Special Education are not eligible to complete this certificate.

REQUIREMENTS

REQUIREMENTS

Complete a minimum of 12 credits to include at least 6 credits in residence. Completion of the certificate requires a minimum GPA of 2.5 in certificate coursework.

Code	Title	Credits
Required courses		
RP & SE 100	Disability and Society	3
RP & SE 300	Individuals with Disabilities	3
Specialization courses		**6**
RP & SE 121	Disability and Substance Abuse	
RP & SE 125	Health and Rehabilitation Professions	
RP & SE/ LEGAL ST 135	Disability and the Criminal Justice System	
RP & SE 200	Issues in Special Education (only offered as a FIG course)	
RP & SE 210	The Disability Experience (only offered as a FIG course)	
RP & SE 274	Study Abroad in Rehabilitation Psychology and Special Education	
RP & SE 310	Positive Psychology and Well Being	
RP & SE 311	International Perspectives on Disability in Australia	
RP & SE/ COM ARTS/ JOURN 312	Disability and the Media

RP & SE 466	Diversity in Special Education	
RP & SE 500	Rehabilitation-Counseling Psychology: Foundations	
RP & SE 505	Biological, Psychosocial, and Vocational Aspects of Disabilities	
RP & SE 510	Partnering with Families and Other Professionals in Early Childhood Special Education	
Total Credits		**12**

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Identify and analyze societal barriers and supports that affect the lives of people with disabilities.
2. Explore the societal aspects of disabilities, including the culture of disabilities, attitudes toward persons with disabilities, and quality of life issues.
3. Evaluate current approaches, advocacy efforts, and proposed solutions for overcoming barriers experienced by people with disabilities.
4. Use disability as a lens through which to examine broader aspects of history and culture, including power, discrimination, social stigma, social and political activism, media representations, re-appropriation, identity, intersectionality, education, work, and design.

ELEMENTARY EDUCATION AND SPECIAL EDUCATION, BSE

The Elementary Education and Special Education (EESE) program is a unique opportunity for students to pursue licensure in both Elementary Education and Special Education. Successful graduates of the program are certified in general education at the grade levels of K-9 (including eligibility for 4K), and Special Education in grades K-12 (through age 21). Students graduate to a wide range of opportunities in both general and special education classrooms.

The Department of Rehabilitation Psychology and Special Education has a long-standing mission of preparing future leaders who actively improve the lives of people with disabilities. The EESE program is designed to prepare future educators who will promote equity, inclusivity, and accessibility within both general and special education classrooms. Graduates of this program are equipped to create inclusive learning environments where they will holistically identify and address biases and barriers to learning, and strive to meet the needs of all students.

The Elementary Education and Special Education program is a rigorous four-semester course sequence that includes coursework, practicum, and student teaching experiences. Courses include teaching methods in general education classrooms, implementing instructional strategies for helping students with a variety of abilities succeed, creating individualized education programs, as well as assessing learning needs in all core academic areas.

In addition to coursework, students will have hands-on practical experiences in both general and special education classrooms across a range of ages. Students are placed in one general education practicum and student teaching placement, along with one special education practicum and student teaching placement, providing the practical experience needed to successfully teach in a K-9 general education classroom or K-12 special education classroom. Students will learn to effectively work with a diverse student population and to create learning environments that foster academic success and social-emotional development for all students.

THE TEACHER PLEDGE

The School of Education at UW–Madison currently offers a unique financial opportunity for students in the Elementary Education and Special Education program called The Teacher Pledge (https://tec.education.wisc.edu/teacher-pledge/). The School pledges to pay the equivalent of in-state tuition and fees for all teacher education students. In return, students pledge to work at a Wisconsin PreK-12 school for three to four years after graduation.

MADISON COLLEGE TRANSFER AGREEMENT

Madison College students should also investigate the transfer agreement (https://tec.education.wisc.edu/become-a-teacher/uw-madison-school-of-education-transfer-agreement/) between Madison College and UW–Madison. Students meeting the requirements of this agreement are guaranteed admission to UW–Madison's School of Education and to the Elementary and Special Education program.

HOW TO GET IN

HOW TO GET IN

ELEMENTARY EDUCATION AND SPECIAL EDUCATION (EESE) DECLARATION OVERVIEW

Students typically enter UW–Madison as Pre-Elementary Education and Special Education students (PEED designation) and spend the first two years completing liberal studies, general education, and some professional education requirements. EESE is declared during the sophomore year for the final two years on campus.

On-campus students starting at UW-Madison in other majors can move to Pre-Elementary Education and Special Education by completing a Pre-Professional Declaration (http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission/). A GPA of 2.5, based on all UW–Madison coursework or the last 60 credits (p. 1662), is required to transfer into Pre-Elementary Education and Special Education. It is not necessary to be a Pre-Elementary Education and Special Education student before declaring the major.

Note: Students cannot complete the Certificate in Disability Rights and Services, Elementary Education, or Special Education in conjunction with this program.

ELIGIBILITY TO DECLARE ELEMENTARY EDUCATION AND SPECIAL EDUCATION

EESE currently accepts declarations once a year, usually from December 1 – February 1. This period may be extended if additional spaces are available after the initial deadline. The on-campus declaration form is located on the School of Education's Undergraduate Admissions (http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission/) page, along with information about the declaration period, deadline, and current eligibility requirements. Students should consult this site prior to submitting a declaration, as this information may be modified from one declaration year to the next.

Off-campus students wishing to transfer directly into Elementary Education and Special Education should complete the on-campus declaration and must also be admitted to UW-Madison. See Transfer Students and Students with a Previous Degree, below.

Current Eligibility Requirements

- Complete at least 40 transferable college-level credits by the end of the fall semester of the declaration year.
- Successfully complete RP & SE 300 Individuals with Disabilities by the end of the summer of the declaration year.
- Earn a minimum 2.5 grade point average (GPA) on a 4.0 scale on all transferable college-level coursework attempted.[1]
- Submit all program declaration form(s), transcripts, and other related declaration materials by the deadline specified on the School of Education's Undergraduate Admissions (http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission/) page.

[1] Last 60 Credits Rule - Two grade point averages may be calculated to determine a candidate's eligibility to declare. A GPA may be calculated using (1) UW-Madison and all other all transferable college level coursework attempted and (2) the last 60 credits attempted. The higher GPA of these two calculations will be used for determining eligibility. Once declared, students must earn a semester GPA of 2.75 each semester after declaration. More information on this rule is available here (p. 1662).

TRANSFER STUDENTS AND STUDENTS WITH A PREVIOUS DEGREE

Transfer students and students who already hold a bachelor's degree must be admitted to UW-Madison to enroll in a School of Education program. Admission to the campus has its own application, admission process, and application deadlines; see Office of Admissions and Recruitment (http://www.admissions.wisc.edu) for campus application information.

Students wishing to enter directly into Elementary Education and Special Education should complete both the on-campus declaration and the UW-Madison application. All eligibility requirements must be met. Transfers who do not meet the declaration eligibility criteria will be admitted to UW-Madison with the Pre-Elementary Education and Special Education designation.

An applicant with a previous undergraduate degree will be admitted to EESE as a second degree candidate or as a School of Education "Special Student," depending on their academic background.

Second degree candidates in the School of Education are changing their academic direction and wish to complete a degree that is unrelated to their first. A large number of credits are usually required to complete the new degree requirements and a second degree is awarded upon its completion; more information is available here (p. 1662). Most applicants to EESE will be second degree candidates.

In rare cases a student may be admitted as an Education Special Student. Admission with this designation indicates that they have an interest in pursuing teacher certification in Elementary Education and Special Education and have already studied this subject area extensively during their initial degree. A student enrolls as an Education Special Student to complete the requirements that were not taken during the first degree; these are assessed on a case by case basis. Another degree is not awarded for this "certification only" coursework.

All off-campus students are strongly encouraged to meet with an advisor in the School of Education Student Services office in advance of their declaration. Consultations are available in person, virtually,

or via telephone; email studentservices@education.wisc.edu or call 608-262-1651 to schedule an appointment.

BACKGROUND CHECKS

Pursuant to State of Wisconsin law PI 34.018(2), the School of Education is required to administer a background check on all students entering teacher education programs. This check is intended to determine if the applicant has engaged in any behavior that endangers the health, welfare, safety, or education of PK-12 pupils. Local school districts frequently conduct background checks on teacher education students prior to the start of their in-classroom field work, and the Department of Public Instruction (DPI) will also conduct a background check on each applicant for a Wisconsin educator license.

Students should be aware that background checks may be initiated by other agencies or organizations when they are seeking employment or a professional license. School administrators have the authority to determine the appropriateness of a student placement and may choose not to permit a placement based on a student's background check results.

An individual who has been deemed ineligible to participate in field or clinical experiences based on the results of their background check may not be able to complete the requirements for their degree or certification. Students with questions about these processes should contact the Teacher Education Center, tec@education.wisc.edu.

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

SCHOOL OF EDUCATION DEGREE REQUIREMENTS

COMMUNICATION: BREADTH AND DEPTH

Courses designated as Communication A (Comm A) and Communication B (Comm B) help students learn how to gather and assess information from a variety of sources and to present different kinds of information, insight, and analysis to diverse audiences. Comm A courses focus on essential communication skills and Comm B courses teach research, writing, and communication skills within a disciplinary area.

Communication A	Complete either: • one course with the Communication A designation, or • satisfaction of Communication A based on UW Placement Test.
Communication B	One course with the Communication B designation.

QUANTITATIVE REASONING: BREADTH AND DEPTH

Quantitative Reasoning A courses provide students with foundational skills in mathematics, computer science, statistics or formal logic that are needed for dealing with quantitative information. In Quantitative Reasoning B courses, students use quantitative tools in the context of other disciplines or course material.

Quantitative Reasoning A	Complete either: • one course with the Quantitative Reasoning A designation, or • satisfaction of Quantitative Reasoning A based on UW Placement Test.
Quantitative Reasoning B	One course with the Quantitative Reasoning B designation.

LIBERAL STUDIES REQUIREMENTS

All students are required to complete a minimum of 40 credits of Liberal Studies (p. 1670) coursework. This requirement provides an opportunity to do some academic exploration beyond the scope of the major. Students take courses in areas of particular interest and also have an opportunity to sample the wide selection of courses offered across the university. Coursework is required in humanities, social studies (social science), science, and cultural and historical studies. Some elective coursework is also needed to reach the required number of credits.

The School of Education's Liberal Studies requirements can be used to satisfy the campus-wide Core General Education requirements. Communication A and B, and Quantitative Reasoning A and B coursework can also be used towards Core General Education and other requirements. Academic advisors can suggest courses that will count in multiple places.

A basic outline of the liberal studies is included below. Students must consult the detailed version of the requirements (p. 1670) for more information about course selection and how the liberal studies requirements apply to this major.

Are you interested in switching to the School of Education? If so, you should run a "what-if" DARS report. (https://kb.wisc.edu/registrar/94068/) It will show how many of these requirements you have already met and are unmet.

Humanities

Complete a minimum of 9 credits from these categories.

Literature	Complete a course with the Literature designation, minimum of 2 credits
Fine Arts	Complete a minimum of 2 credits from the list of courses below.
Humanities	Courses to total 9 Humanities credits. Select from: • Courses with the Humanities or Literature designation. • Fine Arts courses from the list below. • Courses with the Language courses designation. • ENGL 201 • ENGL 207 • COM ARTS 181

Fine Arts Courses

Code	Title	Credits
AFRICAN/ AFROAMER 220	HipHop, Youth Culture, and Politics in Senegal	3

Social Studies

Social Studies	Complete 9 credits with the Social Science designation.

The following programs have specific requirements:

- Kinesiology: PSYCH 202
- Art Education, Elementary Education, Elementary Education and Special Education, Physical Education, Special Education: POLI SCI 104 or 205

Science

Complete a minimum of 9 credits, including Physical and Biological Science. A laboratory science course is also required. The lab course can count toward the Biological or Physical Science requirement if it has the requisite breadth designation.

Physical Science	Complete one course with the Physical Science designation.
Biological Science	Complete one course with the Biological Science designation.
Lab Science	Complete one course with the Biological, Physical, or Natural Science designation with a lab component; see Course Search and Enroll. Additional eligible courses are listed below.
Science Elective(s)	If needed, complete a course with the Biological, Physical, or Natural Science designation to total 9 Science credits.

Laboratory Courses

Code	Title	Credits
ANTHRO 105	Principles of Biological Anthropology	3
ATM OCN 101	Weather and Climate	4
BOTANY 100	Survey of Botany	3
BOTANY/PL PATH 123	Plants, Parasites, and People	3
FOOD SCI/ MICROBIO 324	Food Microbiology Laboratory	2
GEOSCI 100	Introductory Geology: How the Earth Works	3
PHYSICS 109	Physics in the Arts	3
PLANTSCI 110	Introduction to Plant Science and Technology	4

Cultural and Historical Studies

Complete three requirements met by separate courses. Any of these courses can also be used to meet other requirements if it has the relevant breadth designation. A single course cannot satisfy more than one of the three Cultural and Historical Studies requirements listed below.

Ethnic Studies	Complete 3 credits with the Ethnic Studies Designation.
United States or European History	Complete 3 credits from the list of courses below.
Global Perspectives	Complete 3 credits from the list of courses below.

United States or European History Courses

Liberal Studies Electives

Liberal Studies Electives	Complete additional liberal studies coursework as needed to reach the required 40 Liberal Studies credits.

PROGRAM STRUCTURE

The Elementary Education and Special Education program has four primary components:

- *Liberal studies* courses expose students to a broad range of academic disciplines. The university-wide *General Education* requirements also encourage this breadth of study.
- *Professional education* coursework includes an examination of the schools' relationship to our society and the processes by which students grow and learn.
- *Core Requirements* offer an in-depth study of Elementary Education and Special Education, including a four-semester *professional sequence* of teaching methods coursework and field experience in schools. This sequence is designed so that students can complete the program in four years.
- *Elective* coursework is taken to reach the required minimum of 120 credits.

The Elementary Education and Special Education major requires 70 credits of professional coursework in addition to other degree requirements. RP & SE 300 Individuals with Disabilities must also be completed prior to beginning the professional sequence.

INDIVIDUALS WITH DISABILITIES – PREREQUISITE FOR PROGRAM ADMISSION

This course must be completed by the end of the summer of the application year, before beginning the professional course sequence.

Code	Title	Credits
RP & SE 300	Individuals with Disabilities	3

PROFESSIONAL SEQUENCE

The professional coursework was designed to be completed in four semesters, starting in the fall after admission to the program. Each semester of the sequence must be followed sequentially and taken in consecutive semesters unless a modification is approved. Most classes must be taken during specified semesters, while other requirements may be completed prior to beginning the sequence.

Code	Title	Credits
Semester 1 (Fall)		
CURRIC 319	Pedagogical Content Knowledge for Teaching Elementary Mathematics 1 [1]	3
CURRIC/ RP & SE 406	Race, Intersectionality, and Equity in Education [1]	3
RP & SE 320	Introduction to Teaching in Special Education	3
RP & SE 465	Language and Reading Instruction for Students with Disabilities	3
CURRIC 550	Methods, Materials and Activities in Early Childhood Education	3
RP & SE 605	Development, Learning and Education Foundations in Special Education [1]	3
Semester 2 (Spring)		
CURRIC 320	Pedagogical Content Knowledge for Teaching Elementary Mathematics 2 [1]	3
RP & SE 464	Diagnosis, Assessment, and Instructional Planning in Special Education	3
RP & SE 466	Diversity in Special Education	3
RP & SE 472	Methods in Transition and Vocational Education	3
RP & SE 473	Classroom Management for Inclusive Classrooms	3
RP & SE 480	Practicum in Teaching Literacy: Secondary Special Education (Grades 4-12)	3
Semester 3 (Fall)		
CURRIC 347	The Teaching of Writing and Other Language Arts	3
RP & SE/ CURRIC 365	Teaching Mathematics in Inclusive Settings	3
CURRIC 371	Teaching Social Studies	3
CURRIC 372	Teaching Science	3
RP & SE 515	Access to the General Curriculum for Students with Disabilities	3
CURRIC 373	Elementary Teaching Practicum III	3

Semester 4 (Spring)		
CURRIC 463	Seminar in Elementary Education	1
CURRIC 464	Student Teaching in the Elementary School	7
RP & SE 457	Elementary Education and Special Education Student Teaching Seminar	1
RP & SE 477	Special Education Student Teaching: Elementary (PK - Grade 9)	7
Total Credits		**70**

[1] May be taken before semester 1 of the professional sequence, including prior to program admission.
A minimum of 120 credits is still required to complete the degree.

CONTENT AREA MINOR (OPTIONAL REQUIREMENT)

Students may elect to complete a minor in one of the following content areas. Minors provide a depth of study in a particular area of interest and also inform classroom instruction. Upon completion, the minor will be posted on the UW-Madison transcript, but students will not receive an additional certification in the subject area. The Wisconsin Department of Public Instruction no longer offers content licenses in association with the K-9 educator license.

The completion of a minor is required to teach middle school licensing in some states and may benefit students particularly interested in teaching at this level. See the links below for the requirements of each minor.

Minor Options

- **Biology (p. 1748)**
- **Chemistry (p. 1750)**
- **Earth Science (p. 1752)**
- **Economics (p. 1752)**
- **English (p. 1776)**
- **English Language Arts (p. 1773)**
- **Geography (p. 1778)**
- **History (p. 1781)**
- **Mathematics (p. 1789)**
- **Mathematics and Science Dual (p. 1785)**
- **Mathematics Specialized (p. 1788)**
- **Physics (p. 1789)**
- **Political Science (p. 1790)**
- **Psychology (p. 1794)**
- **Science Specialized (p. 1795)**
- **Social Studies (p. 1800)**
- **Sociology (p. 1809)**

ELECTIVE COURSEWORK

Complete additional courses as necessary to reach the minimum of 120 credits required for the degree.

GPA AND OTHER GRADUATION REQUIREMENTS

GRADUATION REQUIREMENTS

Students must complete all requirements and also obtain the endorsement of the program faculty to receive certification through UW–Madison. The State of Wisconsin requires that anyone wishing to teach in a public K–12 setting hold a valid teaching license issued through the Department of Public Instruction. In addition to completing a certification program, students must submit a separate application for this license. Requirements below are based on UW–Madison coursework.

- 2.75 cumulative grade point average. This may be modified by the Last 60 Credits Rule (p. 1662).
- 2.75 cumulative grade point average across all professional education courses (excluding practicum and student teaching).
- 2.75 cumulative grade point average in the major.
- 2.75 cumulative grade point average in the minor, if required.
- Minimum 120 credits (degree candidates only).
- Major residency: Degree candidates must complete at least 15 credits of upper-level major coursework (numbered 300–699) in residence on the UW–Madison campus.
- Senior residency: Degree candidates must complete their last 30 credits in residence on the UW–Madison campus. Student teaching and practicum are considered part of the 30 credits.

DEGREE AUDIT REPORTING SYSTEM (DARS)

UW–Madison uses “DARS” to document a student's progress toward the completion of their degree, including any additional majors and certificates. A DARS (Degree Audit Reporting System) report shows all the requirements for completing a degree and, against courses that are planned or completed, shows the requirements that have been met, and those that are unmet. A report can offer suggestions about courses that may be taken to meet specific requirements and can assist in the academic planning and enrollment process. Students can access a DARS report in the Course Search & Enroll app or Student Center via My UW.

DARS also has a "what-if" function. This feature makes it possible to request a DARS report as if pursuing another program, major, or certificate. It is an excellent tool if considering a new or additional area of study. School of Education students in a pre-professional classification such as Pre-Elementary (PRE) or Pre-Kinesiology should request a "what if" DARS report of their professional program of interest. For example, Pre-Elementary Education (PRE) students will request Elementary Education K-9; Pre-Kinesiology (PKN) students will request the Kinesiology report. Minors have their own DARS programs and are run separately from the main degree audit.

More information (including tutorials) on how to request and read regular and what-if DARS reports is available under the Resources tab on the Office of the Registrar’s website. (https://registrar.wisc.edu/dars/)

DARS is not intended to replace student contact with academic advisors. It creates more time in an advising appointment to discuss course options, research opportunities, graduate school, or issues of personal interest or concern to students.

DARS is used as the document of record for degree program, major, and certificate completion in the School of Education.

ADDITIONAL CERTIFICATION REQUIREMENTS AND APPLYING FOR A LICENSE

In addition to completing UW–Madison's program requirements, students must also complete Wisconsin statutory requirements and certification requirements established by the Wisconsin Department of Public Instruction. Many of these requirements are embedded within the program's requirements and require no additional attention. The endorsement of the program coordinator/faculty is also required to receive certification through UW–Madison.

The State of Wisconsin requires that anyone wishing to teach in a public K–12 setting hold a valid teaching license issued through the Department of Public Instruction. In addition to completing a certification program, students must submit a separate application for this license.

Detailed information about certification requirements and applying for a license is available under Certification/Licensure. (https://guide.wisc.edu/undergraduate/education/curriculum-instruction/elementary-bse/#certificationlicensuretext)

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Use knowledge of learners and human development to create responsive, inclusive, and respectful learning activities and environments that maximize learners' cognitive, linguistic, social, emotional, and physical development.
2. Use knowledge of learners, contexts, disciplines, pedagogies, and standards to plan and adjust developmentally appropriate and challenging learning activities and assessments.
3. Use knowledge of learners, contexts, disciples, pedagogies, and standards to implement planned and unplanned developmentally appropriate, challenging, and learner-responsive learning activities and maintain safe, inclusive, and respectful learning environments.
4. Create and implement meaningful assessments and use assessment results to inform instruction, communicate with parents and others, and provide feedback to learners to guide their future performance and learning.
5. Exhibit professionalism and adhere to ethical practices as they continue their own development and collaborate with others to improve their profession, school communities, and outcomes for students and families.
6. Use studies completed in science and mathematics, social sciences, the humanities, histories, languages, and the arts to inform and deepen their teaching of content areas and meeting learners' needs.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This four-year sample graduation plan is designed to guide your course selection throughout your academic career; it does not establish a contractual agreement. Use it along with your DARS report and Course Search and Enroll to create a four-year plan reflecting your placement scores, incoming credits, and individual interests. Consult with an academic advisor to develop a personalized plan of study and refer to the Guide for a complete list of requirements. You will likely revise your plan several times during your academic career here, based on your activities and changing academic interests.

Freshman

Total Credits 120

[1] May be taken before semester 1 of the professional sequence, including prior to program admission.
A minimum of 120 credits is still required to complete the degree.

ADVISING AND CAREERS

ADVISING AND CAREERS

ELEMENTARY EDUCATION AND SPECIAL EDUCATION (EESE) ADVISING

Students not yet admitted to EESE meet with their assigned advisor in the School of Education Student Services office (see below). An additional departmental advisor is assigned when admitted to Elementary Education and Special Education.

SCHOOL OF EDUCATION ADVISING

Academic Advising in the School of Education

Dedicated to supporting and promoting student success, academic advisors (https://advising.education.wisc.edu/) are here to assist students with the adjustment to college, understanding their degree and career goals, and connecting them to resources. Advisors support prospective and current School of Education students in all programs through:

- Course selection
- Mentoring and advocacy for underrepresented and international students
- Understanding degree requirements and progression
- Interpreting academic policies
- Helping students recognize their strengths and suggesting ways to expand their skills
- Expanding learning through activities such as study abroad, volunteering/work/internship, and by assuming leadership roles

Advising appointments are available in person, virtually, or over the phone. Current students schedule appointments through the Starfish app (https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/) in MyUW. Appointments can also be made by calling 608-262-1651, or in person in Room 139 Education Building.

Academic Dean Support (https://advising.education.wisc.edu/academic-dean-support/) staff are also here for you when facing academic or personal challenges. We provide undergraduate School of Education students support, problem-solving, advocacy, resources, and approve exceptions to policies.

Career Advising in the School of Education

Through individual appointments, events, courses, and online resources, the Career Center provides students and alumni with the tools needed to be successful in their career development.

Career and Internship Advisors are prepared to help students with:

- Exploration of career and academic pathways (https://careercenter.education.wisc.edu/explore-career/)
- Resumes
- Cover letters
- Job/Internship search
- Interview preparation
- Mock interviews
- Graduate school search, applications and decisions
- Negotiating job or internship offers
- Professional networking
- Connecting with employers

Students are encouraged to meet with their Career and Internship Advisor early in their college experience to take full advantage of the resources and support available.

To make an appointment: log into Starfish (https://wisc.starfishsolutions.com/starfish-ops/) from the MyUW dashboard.

For more information, visit the School of Education Career Center website (https://careercenter.education.wisc.edu/) or reach out at career-center@education.wisc.edu.

WISCONSIN EXPERIENCE

WISCONSIN EXPERIENCE

UW–Madison's vision for the total student experience, the Wisconsin Experience (https://wisconsinexperience.wisc.edu/about/), combines learning in and out of the classroom. Tied to the Wisconsin Idea (https://www.wisc.edu/wisconsin-idea/) and steeped in long-standing institutional values – the commitment to the truth, shared participation in decision-making, and service to local and global communities – the Wisconsin Experience describes how students develop and integrate these core values across their educational experience.

UW–Madison encourages students to mindfully engage in four core concepts throughout their time on campus: Empathy & Humility, Relentless Curiosity, Intellectual Confidence, and Purposeful Action (https://wisconsinexperience.wisc.edu/intellectual-confidence/).

Since its inception, the School of Education has embraced the concepts of the Wisconsin Experience, providing opportunities for students to learn in venues beyond the traditional classroom. Our students also independently seek out related activities and experiences, thus creating their own unique Wisconsin Experience.

ELEMENTARY EDUCATION AND SPECIAL EDUCATION (EESE) AND THE WISCONSIN EXPERIENCE

Community-Based Learning

RP SE 300 Individuals with Disabilities offers a field-based experience where students work directly or indirectly with individuals with disabilities. Each year, hundreds of students are placed in various community settings across Madison. This experience provides students with valuable, first-hand knowledge of the services and contributions made to support individuals with disabilities, encouraging learning beyond the traditional classroom. These real-world experiences allow students to better understand the community and its needs, extending their education beyond textbooks and lectures.

Learning from Current Practitioners

Teacher candidates gain extensive field experience in schools, culminating in a full-time student teaching assignment alongside a cooperating teacher. The strong partnership between the teacher candidate, their field supervisor, and the cooperating teacher in Madison-area schools ensures robust support from day one. Many graduates are offered teaching positions by the schools where they completed their fieldwork.

Guest Speakers

Guest speakers contribute to learning in many of the program's courses, providing insights into the daily lives of individuals with disabilities and

discussing the range of community organizations that support and advocate for them. Through these interactions, students gain a better understanding of how these organizations operate and their broader social impact.

Additionally, a wide range of guest speakers participate in practicum and student teaching seminars. These guests may include school district personnel, parents and family members, teachers, and individuals with disabilities.

Field Experiences

Students in the EESE program engage in multiple field experiences in K-12 schools, culminating in a full-time student teaching assignment. These experiences allow students to apply their classroom learning in real-world educational settings, enhancing their professional development and deepening their learning beyond the classroom.

Clubs and Organizations

Elementary Education an Special Education students have many opportunities to participate in clubs and organizations. Popular options include Special Olympics, Aspiring Educators, and Camp Kesem.

Community Employment

The Department of Rehabilitation Psychology and Special Education has strong connections with the community. Students in the department often find both paid and volunteer opportunities in school and community organizations that serve children with disabilities and their families. Examples include the Schools of Hope Tutoring Program, Madison School and Community Recreation, and Gio's Garden.

Study Abroad

Students are encouraged to explore study abroad opportunities, including popular faculty-led short-term programs hosted by the School of Education. The Department of Rehabilitation Psychology and Special Education offers a popular Disability Rights & Access in Australia (https://studyabroad.wisc.edu/program/?programId=330353) program which provides hands-on learning experiences in a global context. Students are encouraged to explore all available options (https://global.education.wisc.edu/study-abroad/) through the School of Education to enrich their academic journey and gain valuable international perspectives.

CERTIFICATION/LICENSURE

CERTIFICATION/LICENSURE

ADDITIONAL CERTIFICATION REQUIREMENTS

In addition to completing UW–Madison's program requirements, certification also requires the completion of Wisconsin statutory requirements related to teacher education and certification requirements established by the Wisconsin Department of Public Instruction. Students must complete all requirements and also obtain the endorsement of the program faculty to receive certification through UW–Madison. For a description of additional certification requirements and information about applying for a license, see the Mary T. Kellner Teacher Education Center (https://tec.education.wisc.edu/current-students/).

APPLYING FOR A TEACHING LICENSE

The State of Wisconsin requires that anyone wishing to teach in a public K–12 setting hold a valid teaching license issued through the Department of Public Instruction. In addition to completing a certification program, students must submit a separate application for this license. Students intending to complete a teacher certification program should monitor program requirements carefully. The Wisconsin Department of Public Instruction (DPI) periodically implements regulations that affect all certification programs; teacher certification candidates are responsible for having up-to-date information about certification requirements.

Licensing Levels

The following undergraduate teacher licensing options are offered at UW–Madison.

- The core Elementary Education licensing level will be Kindergarten through Grade 9. Early Childhood, and English as a Second Language Kindergarten through Grade 12, can be added to the K-9 option.
- Special Education will offer licensing at the Early Childhood level, Kindergarten through Grade 12 level, and a program option that licenses in both Early Childhood Special Education and K-12 Special Education.
- Students completing the new Elementary Education and Special Education degree will be licensed in both Special Education Kindergarten through Grade 12 and Elementary Education Kindergarten through Grade 9.
- Students in special fields such as Art, Music, and Physical Education will be licensed at the Kindergarten through Grade 12 level. Physical Education students may add K-12 Adaptive Physical Education and/or K-12 Health.

Wisconsin State Licensing

The State of Wisconsin issues an initial teaching license to certified teachers. The current fee is $125. An online license application is available through the Department of Public Instruction (http://dpi.wi.gov/tepdl/elo/). A background check will also be conducted by DPI. Information about fingerprint submission, when necessary, is available through the Department of Public Instruction (http://dpi.wi.gov/tepdl/licensing/fingerprint/electronic-submission/).

Before applying for a license, DPI requires the electronic submission of "Endorsed Candidate for Licensure" (ECL) data by the certifying officer of the institution where the teacher preparation was completed. For UW–Madison teacher certification students the endorsement will come from the School of Education, L139 Education Building, 1000 Bascom Mall. Once this information has been submitted to DPI, students are notified by email that they may begin the application online.

Before endorsing a student, UW–Madison requires that

- all certification requirements are met;
- student teaching is completed;
- final grades are posted and reviewed;
- the degree is posted (https://registrar.wisc.edu/posting-of-degrees/) by the Registrar's Office (which can take up to four to six weeks after the degree conferral date); and
- a recommendation for certification is received from the program faculty.

The Wisconsin Department of Public Instruction may require an additional six to eight weeks for license processing.

Licensing Outside of Wisconsin

To apply for a license in a state other than Wisconsin, first check out the application requirements of that state. The University of Kentucky has a website (https://education.uky.edu/accreditation/certification/

states/) that provides links to teacher licensing agencies in all 50 states, the District of Columbia, and Puerto Rico.

Many states have a verification form that needs to be signed by a UW–Madison certification officer. This form verifies that a state-approved licensing program has been completed. These forms should be sent to the School of Education's Mary T. Kellner Teacher Education Center at L139 Education Building, 1000 Bascom Mall, Madison, WI 53706, or by email (educatorlicensing@education.wisc.edu) to be completed. You must complete your personal information on the form before sending it to the Teacher Education Center. If the form requests information about practicum and student teaching assignments (names of schools, grade levels, dates, etc.), this information must also be completed before sending the form to the Teacher Education Center.

PROFESSIONAL CERTIFICATION/LICENSURE DISCLOSURE (NC-SARA)

The United States Department of Education (via 34 CFR Part 668 (https://www.ecfr.gov/current/title-34/subtitle-B/chapter-VI/part-668/?toc=1)) requires institutions that provide distance education to disclose information for programs leading to professional certification or licensure. The expectation is that institutions will determine whether each applicable academic program meets state professional licensure requirements and provide a general disclosure of such on an official university website.

Professional licensure requirements vary from state-to-state and can change year-to-year; they are established in a variety of state statutes, regulations, rules, and policies; and they center on a range of educational requirements, including degree type, specialized accreditation, total credits, specific courses, and examinations.

UW-Madison has taken reasonable efforts to determine whether this program satisfies the educational requirements for certification/licensure in states where prospective and enrolled students are located and is disclosing that information as follows.

Disclaimer: This information is based on the most recent annual review of state agency certification/licensure data and is subject to change. All students are strongly encouraged to consult with the individual/office listed in the Contact Information box on this page and with the applicable state agency for specific information.

The requirements of this program meet certification/licensure requirements in the following states:

Wisconsin

The requirements of this program do not meet certification/licensure requirements in the following states:

Not applicable

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

Information related to scholarships, academic and career advising, study abroad opportunities, student well-being, and other resources for students in the School of Education can be found on the School's Resources (p. 1680) page.

REHABILITATION PSYCHOLOGY, BS

Rehabilitation Psychology is an academic field designed for students passionate about health and helping professions. Students majoring in Rehabilitation Psychology are dedicated to supporting individuals with chronic illnesses and disabilities, preparing them for careers that improve lives and promote well-being. The curriculum integrates hands-on learning with theoretical knowledge, giving students valuable experience in addressing the real-life challenges faced by individuals with disabilities, as well as the services and supports that can enhance their quality of life.

A standout feature of the program is the required community-based internship, which offers students direct, real-world experience working with individuals with disabilities in a professional setting of their choice. This internship is crucial for helping students gain valuable skills, refine their career goals, and foster connections that often lead to permanent job opportunities. It also serves as an excellent stepping stone for those considering graduate studies.

Upon graduation, students enjoy a wide array of career options. Graduates often pursue roles supporting and advocating for individuals with chronic illnesses and disabilities in the community. Many graduates also continue their education in graduate programs in rehabilitation or mental health counseling, occupational therapy, physical therapy, special education, or other health and human services-related fields.

"I became interested in this program because of my desire to advance health equity and human rights. I am passionate about addressing systemic barriers that impact individuals' access to quality care, particularly for marginalized populations." – Andrew Trampf (read more (https://education.wisc.edu/news/andrew-trampf-from-the-school-of-educations-rehabilitation-psychology-major/?utm_source=Early_AD&utm_medium=email&utm_campaign=RP_majors&utm_id=stu

HOW TO GET IN

HOW TO GET IN

REHABILITATION PSYCHOLOGY DECLARATION

New first-year students and off-campus transfers are admitted directly to the Bachelor of Science–Rehabilitation Psychology degree program.

On-campus students starting at UW-Madison in other majors can declare Rehabilitation Psychology at any time of the year, and at any point in their academic career. First-semester students who have not established a GPA at UW-Madison may declare Rehabilitation Psychology.

Students are strongly encouraged to meet with the department's undergraduate program coordinator or an advisor in the School of Education Student Services office before declaring Rehabilitation Psychology. See the Overview (https://guide.wisc.edu/undergraduate/education/rehabilitation-psychology-special-education/rehabilitation-psychology-bse/) page for contact information.

ELIGIBILITY TO DECLARE REHABILITATION PSYCHOLOGY

The on-campus declaration form is located on the School of Education's Undergraduate Admissions (http://www.education.wisc.edu/soe/

academics/undergraduate-students/academic-program-admission/) page, along with other information about current eligibility requirements and deadlines to declare (if any). Students should consult this site prior to submitting a declaration as this information may be modified from one year to the next.

Off-campus students wishing to transfer directly into Rehabilitation Psychology must be admitted to UW-Madison. See Transfer Students and Students with a Bachelor's Degree, below.

Students may not complete both Rehabilitation Psychology and the Certificate in Disability Rights and Services.

Eligibility Requirements:

- Earn a minimum 2.50 cumulative GPA based on all college coursework attempted or a 2.50 last 60 credits GPA by the end of the term prior to the declaration semester. This GPA must be maintained at the end of the declaration semester. [1]

[1] Last 60 Credits Rule - Two grade point averages may be calculated to determine a candidate's eligibility to declare. A GPA may be calculated using (1) UW-Madison and all other all transferable college level coursework attempted and (2) the last 60 credits attempted. The higher GPA of these two calculations will be used for determining eligibility. Once declared, students must earn a semester GPA of 2.50 each semester after declaration. More information on this rule is available here (p. 1662).

Transfer Students and Students with a Previous Degree

Transfer students and second degree candidates (students who already hold a Bachelor's degree) must be admitted to UW-Madison to enroll in a School of Education program. Admission to the campus has its own application, admission process, and application deadlines; see Office of Admissions and Recruitment (http://www.admissions.wisc.edu) for campus application information.

Second degree candidates in the School of Education are changing their academic direction and wish to complete a degree that is unrelated to their first. A large number of credits are usually required to complete the new degree requirements and a second undergraduate degree is awarded upon its completion; more information is available here (p. 1662).

All off-campus students are strongly advised to meet with an advisor in the School of Education Student Services office in advance of their declaration. Consultations with advisors are available in person, virtually, or via telephone; email studentservices@education.wisc.edu or call 608-262-1651 to schedule an appointment.

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.

English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

SCHOOL OF EDUCATION DEGREE REQUIREMENTS

COMMUNICATION: BREADTH AND DEPTH

Courses designated as Communication A (Comm A) and Communication B (Comm B) help students learn how to gather and assess information from a variety of sources and to present different kinds of information, insight, and analysis to diverse audiences. Comm A courses focus on essential communication skills and Comm B courses teach research, writing, and communication skills within a disciplinary area.

Communication A	Complete either: • one course with the Communication A designation, or • satisfaction of Communication A based on UW Placement Test.
Communication B	One course with the Communication B designation.

QUANTITATIVE REASONING: BREADTH AND DEPTH

Quantitative Reasoning A courses provide students with foundational skills in mathematics, computer science, statistics or formal logic that are needed for dealing with quantitative information. In Quantitative Reasoning B courses, students use quantitative tools in the context of other disciplines or course material.

Quantitative Reasoning A	Complete either: • one course with the Quantitative Reasoning A designation, or • satisfaction of Quantitative Reasoning A based on UW Placement Test.
Quantitative Reasoning B	One course with the Quantitative Reasoning B designation.

LIBERAL STUDIES REQUIREMENTS

All students are required to complete a minimum of 40 credits of Liberal Studies (p. 1670) coursework. This requirement provides an opportunity to do some academic exploration beyond the scope of the major. Students take courses in areas of particular interest and also have an opportunity to sample the wide selection of courses offered across the university. Coursework is required in humanities, social studies (social science), science, and cultural and historical studies. Some elective coursework is also needed to reach the required number of credits.

The School of Education's Liberal Studies requirements can be used to satisfy the campus-wide Core General Education requirements. Communication A and B, and Quantitative Reasoning A and B coursework can also be used towards Core General Education and other requirements. Academic advisors can suggest courses that will count in multiple places.

A basic outline of the liberal studies is included below. Students must consult the detailed version of the requirements (p. 1670) for more information about course selection and how the liberal studies requirements apply to this major.

Are you interested in switching to the School of Education? If so, you should run a "what-if" DARS report. (https://kb.wisc.edu/registrar/94068/) It will show how many of these requirements you have already met and are unmet.

Humanities

Complete a minimum of 9 credits from these categories.

Literature	Complete a course with the Literature designation, minimum of 2 credits
Fine Arts	Complete a minimum of 2 credits from the list of courses below.
Humanities	Courses to total 9 Humanities credits. Select from: • Courses with the Humanities or Literature designation. • Fine Arts courses from the list below. • Courses with the Language courses designation. • ENGL 201 • ENGL 207 • COM ARTS 181

Fine Arts Courses

Social Studies

Social Studies Complete 9 credits with the Social Science designation.

The following programs have specific requirements:

- Kinesiology: PSYCH 202
- Art Education, Elementary Education, Elementary Education and Special Education, Physical Education, Special Education: POLI SCI 104 or 205

Science

Complete a minimum of 9 credits, including Physical and Biological Science. A laboratory science course is also required. The lab course can count toward the Biological or Physical Science requirement if it has the requisite breadth designation.

Physical Science	Complete one course with the Physical Science designation.
Biological Science	Complete one course with the Biological Science designation.
Lab Science	Complete one course with the Biological, Physical, or Natural Science designation with a lab component; see Course Search and Enroll. Additional eligible courses are listed below.
Science Elective(s)	If needed, complete a course with the Biological, Physical, or Natural Science designation to total 9 Science credits.

Laboratory Courses

Code	Title	Credits
ANTHRO 105	Principles of Biological Anthropology	3
ATM OCN 101	Weather and Climate	4

Liberal Studies Electives

Liberal Studies Electives	Complete additional liberal studies coursework as needed to reach the required 40 Liberal Studies credits.

PROGRAM STRUCTURE

The Bachelor of Science (BS) degree program in Rehabilitation Psychology has four components:

- *Liberal studies* courses expose students to a broad range of academic disciplines. The university-wide *General Education* requirements also encourage this breadth of study.
- *Related coursework* comes from departments related to Rehabilitation Psychology—Psychology, Educational Psychology, Sociology, Social Work, and Gender and Women's Studies.
- *Rehabilitation Psychology* coursework offers an in-depth study of working with people with disabilities, including multiple opportunities for supervised field experience. In addition, at least 12 credits of electives in Rehabilitation Psychology are required, giving students some flexibility to tailor the program to their specific interests.
- *Elective* coursework is taken to meet the minimum of 120 credits required for the degree.

RELATED COURSE REQUIREMENTS

PSYCHOLOGY/EDUCATIONAL PSYCHOLOGY

Complete 12 credits selected from Educational Psychology (https://guide.wisc.edu/courses/ed_psych/) and/or Psychology (https://guide.wisc.edu/courses/psych/) to include PSYCH 405 Adult Psychopathology.

SOCIOLOGY/SOCIAL WORK/GENDER AND WOMEN'S STUDIES

Complete 6 credits selected from Sociology (https://guide.wisc.edu/courses/soc/), Social Work (https://guide.wisc.edu/courses/soc_work/), and/or Gender and Women's Studies (https://guide.wisc.edu/courses/gen_ws/). Recommended areas include social disorganization, deviant behavior, alcohol and other drug abuse, community development, and issues in social welfare.

REHABILITATION PSYCHOLOGY COURSE REQUIREMENTS

DIDACTIC CORE

Complete the following 21 credits:

Code	Title	Credits
RP & SE 125	Health and Rehabilitation Professions	3
RP & SE 316	Health Promotion for Individuals with Disability and Chronic Illness	3
RP & SE 325	Self Management of Chronic Illness and Disability	3
RP & SE 500	Rehabilitation-Counseling Psychology: Foundations	3
RP & SE 501	Rehabilitation-Counseling Psychology: Applications	3
RP & SE 505	Biological, Psychosocial, and Vocational Aspects of Disabilities	3
COUN PSY 655	Clinical Communication Skills	3

SUPERVISED FIELD EXPERIENCE

Complete 6 credits of RP & SE 630 Internship in Rehabilitation or Special Education; once in conjunction with RP & SE 501 Rehabilitation-Counseling Psychology: Applications. The remaining 3 credits may be completed in another semester or during the summer.

REHABILITATION PSYCHOLOGY AND SPECIAL EDUCATION ELECTIVES

Complete 12 credits from the following:

Code	Title	Credits
RP & SE 121	Disability and Substance Abuse	3
RP & SE/ LEGAL ST 135	Disability and the Criminal Justice System	3
RP & SE 274	Study Abroad in Rehabilitation Psychology and Special Education	1-3

ELECTIVE COURSEWORK

Complete additional coursework to reach the minimum of 120 credits.

GPA AND OTHER GRADUATION REQUIREMENTS

GRADUATION REQUIREMENTS

Based on UW–Madison coursework.

- 2.50 minimum cumulative grade point average. This may be modified by the Last 60 Credits Rule (p. 1662).
- 2.50 cumulative grade point average in all major coursework. This GPA includes all coursework from the RP & SE department and COUN PSY 655.
- Major Residency. The rehabilitation psychology program requires that students complete 15 credits of the Didactic Core and Supervised Field Experience coursework while in residence on the UW–Madison campus.
- Senior Residency. Degree candidates must complete their last 30 credits in residence on the UW–Madison campus, excluding retroactive credits and credits granted by examination.
- Total Credits. A minimum of 120 degree credits are required for graduation.

DEGREE AUDIT (DARS)

UW–Madison uses "DARS" to document a student's progress toward the completion of their degree, including any additional majors and certificates. A DARS (Degree Audit Reporting System) report shows all the requirements for completing a degree and, against courses that are planned or completed, shows the requirements that have been met, and those that are unmet. A report can offer suggestions about courses that may be taken to meet specific requirements and can assist in the academic planning and enrollment process. Students can access a DARS report in the Course Search & Enroll app or Student Center via My UW.

DARS also has a "what-if" function. This feature makes it possible to request a DARS report as if pursuing another program, major, or certificate. It is an excellent tool if considering a new or additional area of study. School of Education students in a pre-professional classification such as Pre-Elementary (PRE) or Pre-Kinesiology should request a "what if" DARS report of their professional program of interest. For example, Pre-Elementary Education (PRE) students will request Elementary Education K-9; Pre-Kinesiology (PKN) students will request the Kinesiology report. Minors have their own DARS programs and are run separately from the main degree audit.

More information (including tutorials) on how to request and read regular and what-if DARS reports is available under the Resources tab on the Office of the Registrar's website. (https://registrar.wisc.edu/dars/)

DARS is not intended to replace student contact with academic advisors. It creates more time in an advising appointment to discuss course options, research opportunities, graduate school, or issues of personal interest or concern to students.

DARS is used as the document of record for degree program, major, and certificate completion in the School of Education.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Analyze complex social issues using skills gained through the study of communication, quantitative reasoning, humanities, social sciences, natural sciences, ethnic studies, history and global issues.
2. Apply knowledge of models and concepts of disability and chronic illness to education, employment, rehabilitation, and healthcare services.
3. Identify basic theories in the field of psychology and recognize the importance of theoretical foundations in psychology for the study of rehabilitation, disability, and health.
4. Develop knowledge of the health and human services delivery systems and demonstrate pre-professional skills in communication, teamwork, problem solving, and ethical issues through engagement with the healthcare and rehabilitation services professional community.
5. Demonstrate the knowledge and skills necessary for graduate study in a variety of health and human service fields related to disability and rehabilitation or for entry-level positions in disability and related human services agencies.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

Rehabilitation Psychology: Sample Four-Year Plan

This four-year sample graduation plan is designed to guide your course selection throughout your academic career; it does not establish a contractual agreement. Use it along with your DARS report, the Guide, and the Course Search and Enroll app to create a four-year plan reflecting your placement scores, incoming credits, and individual interests. You will likely revise your plan several times during your academic career here, based on your activities and changing academic interests. Consult with an academic advisor to develop a personalized plan of study and refer to the Guide for a complete list of requirements.

ADVISING AND CAREERS

ADVISING AND CAREERS

REHABILITATION PSYCHOLOGY ADVISING

Students not yet admitted to Rehabilitation Psychology will meet with an advisor in the School of Education Student Services office, Room 139 Education Building, 1000 Bascom Mall (see below). An additional faculty advisor will be assigned after declaring Rehabilitation Psychology.

SCHOOL OF EDUCATION ADVISING

Academic Advising in the School of Education

Dedicated to supporting and promoting student success, academic advisors (https://advising.education.wisc.edu/) are here to assist students with the adjustment to college, understanding their degree and career goals, and connecting them to resources. Advisors support prospective and current School of Education students in all programs through:

- Course selection
- Mentoring and advocacy for underrepresented and international students
- Understanding degree requirements and progression
- Interpreting academic policies
- Helping students recognize their strengths and suggesting ways to expand their skills
- Expanding learning through activities such as study abroad, volunteering/work/internship, and by assuming leadership roles

Advising appointments are available in person, virtually, or over the phone. Current students schedule appointments through the Starfish app (https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/) in MyUW. Appointments can also be made by calling 608-262-1651, or in person in Room 139 Education Building.

Academic Dean Support (https://advising.education.wisc.edu/academic-dean-support/) staff are also here for you when facing academic or personal challenges. We provide undergraduate School of Education students support, problem-solving, advocacy, resources, and approve exceptions to policies.

Career Advising in the School of Education

Through individual appointments, events, courses, and online resources, the Career Center provides students and alumni with the tools needed to be successful in their career development.

Career and Internship Advisors are prepared to help students with:

- Exploration of career and academic pathways (https://careercenter.education.wisc.edu/explore-career/)
- Resumes
- Cover letters
- Job/Internship search
- Interview preparation
- Mock interviews

- Graduate school search, applications and decisions
- Negotiating job or internship offers
- Professional networking
- Connecting with employers

Students are encouraged to meet with their Career and Internship Advisor early in their college experience to take full advantage of the resources and support available.

To make an appointment: log into Starfish (https://wisc.starfishsolutions.com/starfish-ops/) from the MyUW dashboard.

For more information, visit the School of Education Career Center website (https://careercenter.education.wisc.edu/) or reach out at career-center@education.wisc.edu.

Information about common career pathways, ways to get involved and gain experience, and transferrable skills developed through this major can be found on the School of Education Career Center's Rehabilitation Psychology Pathways (https://careercenter.education.wisc.edu/explore-career/rehabilitation-psychology-career-pathways/) webpage.

WISCONSIN EXPERIENCE

WISCONSIN EXPERIENCE

UW–Madison's vision for the total student experience, the Wisconsin Experience (https://wisconsinexperience.wisc.edu/about/), combines learning in and out of the classroom. Tied to the Wisconsin Idea (https://www.wisc.edu/wisconsin-idea/) and steeped in long-standing institutional values — the commitment to the truth, shared participation in decision-making, and service to local and global communities — the Wisconsin Experience describes how students develop and integrate these core values across their educational experience.

UW–Madison encourages students to mindfully engage in four core concepts throughout their time on campus: Empathy & Humility, Relentless Curiosity, Intellectual Confidence, and Purposeful Action (https://wisconsinexperience.wisc.edu/intellectual-confidence/).

Since its inception, the School of Education has embraced the concepts of the Wisconsin Experience, providing opportunities for students to learn in venues beyond the traditional classroom. Our students also independently seek out related activities and experiences, thus creating their own unique Wisconsin Experience.

REHABILITATION PSYCHOLOGY AND THE WISCONSIN EXPERIENCE

Undergraduate Research

Each year, students in the major have the exciting opportunity to engage in hands-on learning beyond the classroom by collaborating with faculty and graduate students on research in rehabilitation psychology. Students may contribute to ongoing research projects or receive guidance as they design and launch their own initiatives. The annual Undergraduate Research Symposium offers students a chance to showcase their work, fostering valuable experience in presenting research to the broader community.

Community-Based Learning

RP SE 300 Individuals with Disabilities includes a dynamic field-based component where students gain real-world experience working directly with individuals with disabilities. Hundreds of students are placed annually in diverse community settings across the Madison area. This immersive experience helps students gain invaluable, first-hand knowledge of the services provided to individuals with disabilities.

Guest Speakers

The Rehabilitation Psychology major prioritizes hosting guest speakers in the classroom. These experts share their diverse perspectives on the daily experiences of individuals with disabilities. Students also hear directly from the various community organizations that advocate for and support individuals with disabilities.

Internships

Rehabilitation Psychology majors are required to complete 240 hours of internship in the community, giving them the chance to apply classroom knowledge in real-world settings. These internships allow students to immerse themselves in a variety of environments (https://rpse.education.wisc.edu/current-students/rehabilitation-psychology-internships/) that support people with disabilities, providing hands-on experience in their specific areas of interest. This valuable opportunity allows students to gain experience putting their major to work in the field, while also giving them opportunities to explore future career paths.

Clubs and Organizations

Students actively participate in a wide range of extracurricular clubs and organizations that offer opportunities to learn and grow outside the classroom. Popular options include Badgers for Special Olympics, Best Buddies, Leadership in Adapted Fitness, and Camp Kesem. These clubs foster leadership, advocacy, and service, creating avenues for students to develop skills while making a positive impact in the community.

Study Abroad

Rehabilitation Psychology majors also have the opportunity to broaden their perspectives through study abroad programs. The Department of Rehabilitation Psychology and Special Education hosts a short-term, faculty-led summer study abroad course, Disability Access and Rights in Australia (https://studyabroad.wisc.edu/program/?programId=330353). This unique opportunity allows students to earn credit in their major while learning about issues surrounding disability access, inclusion, and rights globally.

Community Employment

The Department of Rehabilitation Psychology and Special Education, in conjunction with the School of Education's Career Center (https://careercenter.education.wisc.edu/), frequently connects students with part-time employment opportunities in the community. These positions allow students to gain valuable work experience while supporting local agencies or private individuals. This real-world experience further strengthens their understanding of the field and helps them develop the practical skills needed for future careers.

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

Information related to scholarships, academic and career advising, study abroad opportunities, student well-being, and other resources for students in the School of Education can be found on the School's Resources (p. 1680) page.

SPECIAL EDUCATION, BSE

The Bachelor of Science in Special Education is a degree for students who want to work with children and youth, particularly those with disabilities. Graduates of the program have almost 100% job placement, with opportunities in Wisconsin and nationwide.

Students pursuing Special Education can choose from three certification options, all completed in a four-semester sequence that includes coursework, field experiences, and starts each fall.

CERTIFICATION OPTIONS

SPECIAL EDUCATION CROSS-CATEGORICAL K-12 (P. 1988)

This program prepares educators to serve as resources and advocates for individuals with disabilities and their families. Graduates are equipped to lead, collaborate, and work creatively within and outside of schools to create inclusive educational experiences that improve the quality of life for individuals with disabilities and their families. Coursework and field experiences focus on elementary, middle, and high school settings, supporting students with a wide range of abilities, including those with severe disabilities.

EARLY CHILDHOOD SPECIAL EDUCATION (ECSE) (P. 1985)

This certification prepares educators to support young children who have, or are at greater risk of developing, disabilities. The program emphasizes early intervention and collaboration with families, schools, and community organizations. Graduates can work in settings like Early Head Start, Head Start, and childcare centers, in addition to classrooms through grade 3.

EARLY CHILDHOOD SPECIAL EDUCATION AND SPECIAL EDUCATION CROSS-CATEGORICAL K-12 (INCLUDING 4K) (P. 1987)

This combined certification prepares educators to support students with disabilities from birth through grade 12. Students will be certified in both Early Childhood Special Education and Special Education Cross-Categorical K-12.

THE TEACHER PLEDGE

The School of Education at UW–Madison offers a unique financial opportunity for students in the Special Education program called The Teacher Pledge (https://tec.education.wisc.edu/teacher-pledge/). The School pledges to pay the equivalent of in-state tuition and fees for all teacher education students. In return, students pledge to work at a Wisconsin PreK-12 school for three to four years after graduation.

MADISON COLLEGE TRANSFER AGREEMENT

Madison College students should also investigate the transfer agreement (https://tec.education.wisc.edu/become-a-teacher/uw-madison-school-of-education-transfer-agreement/) between Madison College and UW–Madison. Students meeting the requirements of this agreement are guaranteed admission to UW–Madison's School of Education and to Special Education.

HOW TO GET IN

HOW TO GET IN

SPECIAL EDUCATION DECLARATION OVERVIEW

Students typically enter UW–Madison as Pre-Special Education students (PSR) and spend the first two years completing liberal studies, general education, and some professional education requirements. The Special Education major is declared during the sophomore year for the final two years on campus.

On-campus students starting at UW-Madison in other majors can move to Pre-Special Education by completing a Pre-Professional Declaration (http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission/). A GPA of 2.5, based on all UW–Madison coursework or the last 60 credits (p. 1662), is required to transfer into Pre-Special Education. It is not necessary to be a Pre-Special Education student before declaring the major.

Note: Students cannot complete the Certificate in Disability Rights and Services in conjunction with this program.

ELIGIBILITY TO DECLARE SPECIAL EDUCATION

Special Education currently accepts declarations once a year, usually from December 1 – February 1. This period may be extended if additional spaces are available after the initial deadline. The on-campus declaration form is located on the School of Education's Undergraduate Admissions (http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission/) page, along with information about the declaration period, deadline, and current eligibility requirements. Students should consult this site prior to submitting a declaration as this information may be modified from one declaration year to the next.

Off-campus students wishing to transfer directly into Special Education should complete the on-campus declaration and must also be admitted to UW-Madison. See Transfer Students and Students with a Previous Degree, below.

Current Eligibility Requirements

- Complete at least 40 transferable college-level credits by the end of the fall semester of the declaration year.
- Successfully complete RP & SE 300 Individuals with Disabilities by the end of the summer of the declaration year.
- Earn a minimum 2.5 grade point average (GPA) on a 4.0 scale on all transferable college-level coursework attempted.[1]
- Submit all program declaration form(s), transcripts, and other related declaration materials by the deadline specified on the School of Education's Undergraduate Admissions (http://www.education.wisc.edu/soe/academics/undergraduate-students/academic-program-admission/) page.

[1] Last 60 Credits Rule - Two grade point averages may be calculated to determine a candidate's eligibility to declare. A GPA may be calculated using (1) UW-Madison and all other all transferable college level coursework attempted and (2) the last 60 credits attempted. The higher GPA of these two calculations will be used for determining eligibility. Once declared, students must earn a semester GPA of 2.75 each semester after declaration. More information on this rule is available here (p. 1662).

TRANSFER STUDENTS AND STUDENTS WITH A PREVIOUS DEGREE

Transfer students and students who already hold a Bachelor's degree must be admitted to UW-Madison to enroll in a School of Education program. Admission to the campus has its own application, admission process, and application deadlines; see Office of Admissions and Recruitment (http://www.admissions.wisc.edu) for campus application information.

Students wishing to enter directly into Special Education should complete both the on-campus declaration and the UW-Madison application. All eligibility requirements must be met. Transfers who do not meet the declaration eligibility criteria will be admitted to UW-Madison with the Pre-Special Education designation.

An applicant with a previous undergraduate degree will be admitted to Special Education as a second degree candidate or as a School of Education "Special Student," depending on their academic background.

Second degree candidates in the School of Education are changing their academic direction and wish to complete a degree that is unrelated to their first. A large number of credits are usually required to complete the new degree requirements and a second degree is awarded upon its completion; more information is available here (p. 1662). Most applicants to Special Education will be second degree candidates.

In rare cases a student may be admitted as an Education Special Student. Admission with this designation indicates that they have an interest in pursuing teacher certification in Special Education and have already studied this subject area extensively during their initial degree. A student enrolls as an Education Special Student to complete the requirements that were not taken during the first degree; these are assessed on a case by case basis. Another degree is not awarded for this "certification only" coursework.

All off-campus students are strongly encouraged to meet with an advisor in the School of Education Student Services office in advance of their declaration. Consultations are available in person, virtually, or via telephone; email studentservices@education.wisc.edu or call 608-262-1651 to schedule an appointment.

BACKGROUND CHECKS

Pursuant to State of Wisconsin law PI 34.018(2), the School of Education is required to administer a background check on all students entering teacher education programs. This check is intended to determine if the applicant has engaged in any behavior that endangers the health, welfare, safety, or education of PK-12 pupils. Local school districts frequently conduct background checks on teacher education students prior to the start of their in-classroom field work, and the Department of Public Instruction (DPI) will also conduct a background check on each applicant for a Wisconsin educator license.

Students should be aware that background checks may be initiated by other agencies or organizations when they are seeking employment or a professional license. School administrators have the authority to determine the appropriateness of a student placement and may choose not to permit a placement based on a student's background check results.

An individual who has been deemed ineligible to participate in field or clinical experiences based on the results of their background check may not be able to complete the requirements for their degree or certification. Students with questions about these processes should contact the Teacher Education Center, tec@education.wisc.edu.

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

SCHOOL OF EDUCATION DEGREE REQUIREMENTS

COMMUNICATION: BREADTH AND DEPTH

Courses designated as Communication A (Comm A) and Communication B (Comm B) help students learn how to gather and assess information from a variety of sources and to present different kinds of information, insight, and analysis to diverse audiences. Comm A courses focus on essential communication skills and Comm B courses teach research, writing, and communication skills within a disciplinary area.

Communication A	Complete either: • one course with the Communication A designation, or • satisfaction of Communication A based on UW Placement Test.
Communication B	One course with the Communication B designation.

QUANTITATIVE REASONING: BREADTH AND DEPTH

Quantitative Reasoning A courses provide students with foundational skills in mathematics, computer science, statistics or formal logic that are needed for dealing with quantitative information. In Quantitative Reasoning B courses, students use quantitative tools in the context of other disciplines or course material.

Quantitative Reasoning A	Complete either: • one course with the Quantitative Reasoning A designation, or • satisfaction of Quantitative Reasoning A based on UW Placement Test.
Quantitative Reasoning B	One course with the Quantitative Reasoning B designation.

LIBERAL STUDIES REQUIREMENTS

All students are required to complete a minimum of 40 credits of Liberal Studies (p. 1670) coursework. This requirement provides an opportunity to do some academic exploration beyond the scope of the major. Students take courses in areas of particular interest and also have an opportunity to sample the wide selection of courses offered across the university. Coursework is required in humanities, social studies (social science), science, and cultural and historical studies. Some elective coursework is also needed to reach the required number of credits.

The School of Education's Liberal Studies requirements can be used to satisfy the campus-wide Core General Education requirements. Communication A and B, and Quantitative Reasoning A and B coursework can also be used towards Core General Education and other requirements. Academic advisors can suggest courses that will count in multiple places.

A basic outline of the liberal studies is included below. Students must consult the detailed version of the requirements (p. 1670) for more information about course selection and how the liberal studies requirements apply to this major.

Are you interested in switching to the School of Education? If so, you should run a "what-if" DARS report. (https://kb.wisc.edu/registrar/94068/) It will show how many of these requirements you have already met and are unmet.

Humanities

Complete a minimum of 9 credits from these categories.

Literature	Complete a course with the Literature designation, minimum of 2 credits
Fine Arts	Complete a minimum of 2 credits from the list of courses below.
Humanities	Courses to total 9 Humanities credits. Select from: • Courses with the Humanities or Literature designation. • Fine Arts courses from the list below. • Courses with the Language courses designation. • ENGL 201 • ENGL 207 • COM ARTS 181

Social Studies

Social Studies Complete 9 credits with the Social Science designation.

The following programs have specific requirements:

- Kinesiology: PSYCH 202
- Art Education, Elementary Education, Elementary Education and Special Education, Physical Education, Special Education: POLI SCI 104 or 205

Science

Complete a minimum of 9 credits, including Physical and Biological Science. A laboratory science course is also required. The lab course can count toward the Biological or Physical Science requirement if it has the requisite breadth designation.

Physical Science	Complete one course with the Physical Science designation.
Biological Science	Complete one course with the Biological Science designation.
Lab Science	Complete one course with the Biological, Physical, or Natural Science designation with a lab component; see Course Search and Enroll. Additional eligible courses are listed below.
Science Elective(s)	If needed, complete a course with the Biological, Physical, or Natural Science designation to total 9 Science credits.

Laboratory Courses

Code	Title	Credits
ANTHRO 105	Principles of Biological Anthropology	3
ATM OCN 101	Weather and Climate	4
BOTANY 100	Survey of Botany	3
BOTANY/PL PATH 123	Plants, Parasites, and People	3
FOOD SCI/ MICROBIO 324	Food Microbiology Laboratory	2

Liberal Studies Electives

Liberal Studies Electives	Complete additional liberal studies coursework as needed to reach the required 40 Liberal Studies credits.

PROGRAM STRUCTURE

The Special Education program has four primary components:

- *Liberal studies* courses expose students to a broad range of academic disciplines. The university-wide *General Education* requirements also encourage this breadth of study.
- *Professional education* coursework includes an examination of the schools' relationship to our society and the processes by which students grow and learn.
- *Core Requirements* offer an in-depth study of Special Education, including a four-semester *professional sequence* of teaching methods coursework and field experience in schools. This sequence is designed so that students can complete the program in four years.
- *Elective* coursework is taken to reach the required minimum of 120 credits.

SPECIAL EDUCATION OPTIONS - SELECT ONE

View as listView as grid

- **SPECIAL EDUCATION: EARLY CHILDHOOD SPECIAL EDUCATION BIRTH - GRADE 3, BSE (P. 1985)**
- **SPECIAL EDUCATION: EARLY CHILDHOOD SPECIAL EDUCATION/SPECIAL EDUCATION DUAL CERTIFICATION BIRTH-GRADE 12, BSE (P. 1987)**
- **SPECIAL EDUCATION: SPECIAL EDUCATION CROSS CATEGORICAL K-12, BSE (P. 1988)**

ELECTIVE COURSEWORK

Complete additional coursework to reach the minimum of 120 credits.

GPA AND OTHER GRADUATION REQUIREMENTS

GRADUATION REQUIREMENTS

Students must complete all requirements and also obtain the endorsement of the program faculty advisor(s) to receive certification through UW–Madison. The State of Wisconsin requires that anyone

wishing to teach in a public K–12 setting hold a valid teaching license issued through the Department of Public Instruction. In addition to completing a certification program, students must submit a separate application for this license. Requirements below are based on UW–Madison coursework.

- 2.75 cumulative grade point average. This may be modified by the Last 60 Credits Rule (p. 1662).
- 2.75 cumulative grade point average across all professional education courses (excluding practicum and student teaching).
- 2.75 cumulative grade point average in the major.
- Minimum 120 credits (degree candidates only). Most students will need more than the minimum to complete all requirements.
- Major residency: Degree candidates must complete at least 15 credits of upper-level major coursework (numbered 300–699) in residence on the UW–Madison campus.
- Senior residency: Degree candidates must complete their last 30 credits in residence on the UW–Madison campus. Student teaching and practicum are considered part of the 30 credits.

DEGREE AUDIT (DARS)

UW–Madison uses "DARS" to document a student's progress toward the completion of their degree, including any additional majors and certificates. A DARS (Degree Audit Reporting System) report shows all the requirements for completing a degree and, against courses that are planned or completed, shows the requirements that have been met, and those that are unmet. A report can offer suggestions about courses that may be taken to meet specific requirements and can assist in the academic planning and enrollment process. Students can access a DARS report in the Course Search & Enroll app or Student Center via My UW.

DARS also has a "what-if" function. This feature makes it possible to request a DARS report as if pursuing another program, major, or certificate. It is an excellent tool if considering a new or additional area of study. School of Education students in a pre-professional classification such as Pre-Elementary (PRE) or Pre-Kinesiology should request a "what if" DARS report of their professional program of interest. For example, Pre-Elementary Education (PRE) students will request Elementary Education K-9; Pre-Kinesiology (PKN) students will request the Kinesiology report. Minors have their own DARS programs and are run separately from the main degree audit.

More information (including tutorials) on how to request and read regular and what-if DARS reports is available under the Resources tab on the Office of the Registrar's website. (https://registrar.wisc.edu/dars/)

DARS is not intended to replace student contact with academic advisors. It creates more time in an advising appointment to discuss course options, research opportunities, graduate school, or issues of personal interest or concern to students.

DARS is used as the document of record for degree program, major, and certificate completion in the School of Education.

ADDITIONAL CERTIFICATION REQUIREMENTS AND APPLYING FOR A LICENSE

In addition to completing UW-Madison's program requirements, students must also complete Wisconsin statutory requirements and certification requirements established by the Wisconsin Department of Public Instruction. Many of these requirements are embedded within the program's requirements and require no additional attention. The endorsement of the program coordinator/faculty is also required to receive certification through UW–Madison.

The State of Wisconsin requires that anyone wishing to teach in a public K–12 setting hold a valid teaching license issued through the Department of Public Instruction. In addition to completing a certification program, students must submit a separate application for this license.

Detailed information about certification requirements and applying for a license is available under Certification/Licensure. (p. 1984)

LEARNING OUTCOMES

LEARNING OUTCOMES

1. (Professionalism) Adhere to professional ethical standards and conduct her or himself in a courteous and professional manner.
2. (Collaboration and Communication) Collaborate and effectively communicate with students their families, other educators, related service providers and members of the community to address the needs of students with disabilities.
3. (Assessment) Collect information on student backgrounds, learning characteristics and achievement that can be used to determine students' present level of performance and guide instruction.
4. (Special Education Evaluation and Individualized Educational Planning) To the maximum possible the teacher candidate will participate in the Educational Evaluation and Individualized Educational Planning process.
5. (Instructional Planning) Plan instruction that meets the needs of students, is consistent with State and local standards and provides access to the general education curriculum.
6. (Instructional Presentations) Present lessons and units of instruction that gain and maintain student attention and are consistent with students' interests and IEP goals.
7. (Classroom Management) Create and maintain a safe, positive and supportive learning environment that is conducive to learning and the mental health of the students.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

Refer to the available named options for more information on the four-year plans.

ADVISING AND CAREERS

ADVISING AND CAREERS

SPECIAL EDUCATION PROGRAM ADVISING

Students not yet admitted to Special Education meet with their assigned advisor in the School of Education Student Services office, Room 139 Education Building, 1000 Bascom Mall (see below). An additional departmental advisor will be assigned once admitted to the professional component of the degree program.

SCHOOL OF EDUCATION ADVISING

Academic Advising in the School of Education

Dedicated to supporting and promoting student success, academic advisors (https://advising.education.wisc.edu/) are here to assist students with the adjustment to college, understanding their degree and career goals, and connecting them to resources. Advisors support prospective and current School of Education students in all programs through:

- Course selection
- Mentoring and advocacy for underrepresented and international students
- Understanding degree requirements and progression
- Interpreting academic policies
- Helping students recognize their strengths and suggesting ways to expand their skills
- Expanding learning through activities such as study abroad, volunteering/work/internship, and by assuming leadership roles

Advising appointments are available in person, virtually, or over the phone. Current students schedule appointments through the Starfish app (https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/) in MyUW. Appointments can also be made by calling 608-262-1651, or in person in Room 139 Education Building.

Academic Dean Support (https://advising.education.wisc.edu/academic-dean-support/) staff are also here for you when facing academic or personal challenges. We provide undergraduate School of Education students support, problem-solving, advocacy, resources, and approve exceptions to policies.

Career Advising in the School of Education

Through individual appointments, events, courses, and online resources, the Career Center provides students and alumni with the tools needed to be successful in their career development.

Career and Internship Advisors are prepared to help students with:

- Exploration of career and academic pathways (https://careercenter.education.wisc.edu/explore-career/)
- Resumes
- Cover letters
- Job/Internship search
- Interview preparation
- Mock interviews
- Graduate school search, applications and decisions
- Negotiating job or internship offers
- Professional networking
- Connecting with employers

Students are encouraged to meet with their Career and Internship Advisor early in their college experience to take full advantage of the resources and support available.

To make an appointment: log into Starfish (https://wisc.starfishsolutions.com/starfish-ops/) from the MyUW dashboard.

For more information, visit the School of Education Career Center website (https://careercenter.education.wisc.edu/) or reach out at career-center@education.wisc.edu.

ADDITIONAL RESOURCES

Students interested in special education may also want to consult the following resources:

- Read about the relationship between Special Education and regular education programs (https://www.cec.sped.org/Policy-and-Advocacy/CEC-Professional-Policies/Special-Education-in-the-Schools/).
- Watch a Video (https://www.youtube.com/watch/?v=2XsaK3pWyII) describing the work of Special Educators.

WISCONSIN EXPERIENCE

WISCONSIN EXPERIENCE

UW–Madison's vision for the total student experience, the Wisconsin Experience (https://wisconsinexperience.wisc.edu/about/), combines learning in and out of the classroom. Tied to the Wisconsin Idea (https://www.wisc.edu/wisconsin-idea/) and steeped in long-standing institutional values — the commitment to the truth, shared participation in decision-making, and service to local and global communities — the Wisconsin Experience describes how students develop and integrate these core values across their educational experience.

UW–Madison encourages students to mindfully engage in four core concepts throughout their time on campus: Empathy & Humility, Relentless Curiosity, Intellectual Confidence, and Purposeful Action (https://wisconsinexperience.wisc.edu/intellectual-confidence/).

Since its inception, the School of Education has embraced the concepts of the Wisconsin Experience, providing opportunities for students to learn in venues beyond the traditional classroom. Our students also independently seek out related activities and experiences, thus creating their own unique Wisconsin Experience.

SPECIAL EDUCATION AND THE WISCONSIN EXPERIENCE

Community-Based Learning

RP SE 300 Individuals with Disabilities offers a field-based experience where students work directly or indirectly with individuals with disabilities. Each year, hundreds of students are placed in various community settings across Madison. This experience provides students with valuable, first-hand knowledge of the services and contributions made to support individuals with disabilities, encouraging learning beyond the traditional classroom. These real-world experiences allow students to better understand the community and its needs, extending their education beyond textbooks and lectures.

Learning from Current Practitioners

Teacher candidates gain extensive field experience in schools, culminating in a full-time student teaching assignment alongside a cooperating teacher. The strong partnership between the teacher candidate, their field supervisor, and the cooperating teacher in Madison-area schools ensures robust support from day one. Many graduates are offered teaching positions by the schools where they completed their fieldwork.

Guest Speakers

The Special Education major emphasizes bringing guest speakers into the classroom. These experts offer diverse perspectives on the daily experiences of individuals with disabilities. Students also hear directly

from community organizations that advocate for and support people with disabilities.

Additionally, a wide range of guest speakers participate in Special Education practicum and student teaching seminars. These guests may include school district personnel, parents and family members, teachers, and individuals with disabilities.

Field Experiences

Students in our teacher education programs participate in multiple field experiences, including practicum and student teaching, throughout their professional sequence. These hands-on experiences provide students with numerous opportunities to apply what they are learning in the classroom to real-world teaching in schools and communities.

Clubs and Organizations

Special Education students have many opportunities to participate in clubs and organizations. Popular options include Special Olympics, Aspiring Educators, and Camp Kesem.

Additional Majors and Certificates

Many students choose to pair their Special Education program with another major or certificate. Popular second majors include Educational Policy Studies, Spanish, and Psychology, but students can select from a variety of majors and certificates that align with their academic and professional goals.

Community Employment

The Department of Rehabilitation Psychology and Special Education has strong connections with the community. Students in the department often find both paid and volunteer opportunities in school and community organizations that serve children with disabilities and their families. Examples include the Schools of Hope Tutoring Program, Madison School and Community Recreation, and Gio's Garden.

Study Abroad

Special Education students are encouraged to explore study abroad opportunities, including popular faculty-led short-term programs hosted by the School of Education. The Department of Rehabilitation Psychology and Special Education offers a popular Disability Rights & Access in Australia (https://studyabroad.wisc.edu/program/?programId=330353) course which provides hands-on learning experiences in a global context. Students are encouraged to explore all available options (https://global.education.wisc.edu/study-abroad/) through the School of Education to enrich their academic journey and gain valuable international perspectives.

CERTIFICATION/LICENSURE

CERTIFICATION/LICENSURE

ADDITIONAL CERTIFICATION REQUIREMENTS

In addition to completing UW–Madison's program requirements, certification also requires the completion of Wisconsin statutory requirements related to teacher education and certification requirements established by the Wisconsin Department of Public Instruction. Students must complete all requirements and also obtain the endorsement of the program faculty to receive certification through UW–Madison. For a description of additional certification requirements and information about applying for a license, see the Mary T. Kellner Teacher Education Center (https://tec.education.wisc.edu/current-students/).

APPLYING FOR A TEACHING LICENSE

The State of Wisconsin requires that anyone wishing to teach in a public K–12 setting hold a valid teaching license issued through the Department of Public Instruction. In addition to completing a certification program, students must submit a separate application for this license. Students intending to complete a teacher certification program should monitor program requirements carefully. The Wisconsin Department of Public Instruction (DPI) periodically implements regulations that affect all certification programs; teacher certification candidates are responsible for having up-to-date information about certification requirements.

Licensing Levels

The following undergraduate teacher licensing options are offered at UW–Madison.

- The core Elementary Education licensing level will be Kindergarten through Grade 9. Early Childhood, and English as a Second Language Kindergarten through Grade 12, can be added to the K-9 option.
- Special Education will offer licensing at the Early Childhood level, Kindergarten through Grade 12 level, and a program option that licenses in both Early Childhood Special Education and K-12 Special Education.
- Students completing the new Elementary Education and Special Education degree will be licensed in both Special Education Kindergarten through Grade 12 and Elementary Education Kindergarten through Grade 9.
- Students in special fields such as Art, Music, and Physical Education will be licensed at the Kindergarten through Grade 12 level. Physical Education students may add K-12 Adaptive Physical Education and/or K-12 Health.

Wisconsin State Licensing

The State of Wisconsin issues an initial teaching license to certified teachers. The current fee is $125. An online license application is available through the Department of Public Instruction (http://dpi.wi.gov/tepdl/elo/). A background check will also be conducted by DPI. Information about fingerprint submission, when necessary, is available through the Department of Public Instruction (http://dpi.wi.gov/tepdl/licensing/fingerprint/electronic-submission/).

Before applying for a license, DPI requires the electronic submission of "Endorsed Candidate for Licensure" (ECL) data by the certifying officer of the institution where the teacher preparation was completed. For UW–Madison teacher certification students the endorsement will come from the School of Education, L139 Education Building, 1000 Bascom Mall. Once this information has been submitted to DPI, students are notified by email that they may begin the application online.

Before endorsing a student, UW–Madison requires that

- all certification requirements are met;
- student teaching is completed;
- final grades are posted and reviewed;
- the degree is posted (https://registrar.wisc.edu/posting-of-degrees/) by the Registrar's Office (which can take up to four to six weeks after the degree conferral date); and
- a recommendation for certification is received from the program faculty.

The Wisconsin Department of Public Instruction may require an additional six to eight weeks for license processing.

Licensing Outside of Wisconsin

To apply for a license in a state other than Wisconsin, first check out the application requirements of that state. The University of Kentucky has a website (https://education.uky.edu/accreditation/certification/states/) that provides links to teacher licensing agencies in all 50 states, the District of Columbia, and Puerto Rico.

Many states have a verification form that needs to be signed by a UW–Madison certification officer. This form verifies that a state-approved licensing program has been completed. These forms should be sent to the School of Education's Mary T. Kellner Teacher Education Center at L139 Education Building, 1000 Bascom Mall, Madison, WI 53706, or by email (educatorlicensing@education.wisc.edu) to be completed. You must complete your personal information on the form before sending it to the Teacher Education Center. If the form requests information about practicum and student teaching assignments (names of schools, grade levels, dates, etc.), this information must also be completed before sending the form to the Teacher Education Center.

PROFESSIONAL CERTIFICATION/LICENSURE DISCLOSURE (NC-SARA)

The United States Department of Education (via 34 CFR Part 668 (https://www.ecfr.gov/current/title-34/subtitle-B/chapter-VI/part-668/?toc=1)) requires institutions that provide distance education to disclose information for programs leading to professional certification or licensure. The expectation is that institutions will determine whether each applicable academic program meets state professional licensure requirements and provide a general disclosure of such on an official university website.

Professional licensure requirements vary from state-to-state and can change year-to-year; they are established in a variety of state statutes, regulations, rules, and policies; and they center on a range of educational requirements, including degree type, specialized accreditation, total credits, specific courses, and examinations.

UW-Madison has taken reasonable efforts to determine whether this program satisfies the educational requirements for certification/licensure in states where prospective and enrolled students are located and is disclosing that information as follows.

Disclaimer: This information is based on the most recent annual review of state agency certification/licensure data and is subject to change. All students are strongly encouraged to consult with the individual/office listed in the Contact Information box on this page and with the applicable state agency for specific information.

The requirements of this program meet certification/licensure requirements in the following states:

Wisconsin

The requirements of this program do not meet certification/licensure requirements in the following states:

Not applicable

Updated: 1 June 2026

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

Information related to scholarships, academic and career advising, study abroad opportunities, student well-being, and other resources for students in the School of Education can be found on the School's Resources (p. 1680) page.

SPECIAL EDUCATION: EARLY CHILDHOOD SPECIAL EDUCATION BIRTH - GRADE 3, BSE

The Early Childhood Special Education Birth - Grade 3 named option in the Special Education, BSE no longer admits new students after Fall 2028 and the program will be discontinued Fall 2031. If you have any questions, please contact the department.

REQUIREMENTS

REQUIREMENTS

The Early Childhood Special Education option will prepare students to work as educators and early interventionists for children with disabilities from birth through grade 3.

PREREQUISITE FOR PROGRAM ADMISSION

This course must be completed by the end of the summer of the application year and is calculated into the major gpa required for graduation.

Code	Title	Credits
RP & SE 300	Individuals with Disabilities	3

EARLY CHILDHOOD SPECIAL EDUCATION PROFESSIONAL SEQUENCE

Students complete a four-semester sequence of professional courses after admission to the program. Although some requirements may be completed prior to program admission, the remaining professional methods courses and clinical (field) experiences must be followed sequentially and taken in consecutive semesters unless a modification is approved. Class schedules for the professional sequence courses are determined in advance.

Use it along with your DARS report, the Guide, and the Course Search and Enroll app to create a four-year plan reflecting your placement scores, incoming credits, and individual interests. You will likely revise your plan several times during your academic career here, based on your activities and changing academic interests. Consult with an academic advisor to develop a personalized plan of study and refer to the Guide for a complete list of requirements.

If you are interested in completing a study abroad semester, please meet with Kayla Armstrong prior to starting the professional sequence and review the study abroad section of the planning document (https://uwmadison.box.com/s/kcids3uopuacgj5c2qtc8qke6ii6ods8/). Study abroad semesters are usually completed during the fall semester of a student's senior year.

Freshman

Fall	Credits	Spring	Credits
Communication A (fall or spring semester)	3	Communication A (fall or spring semester)	3

	15		**15**

Total Credits 120

[1] Course may be taken prior to scheduled semester, including prior to program admission. A minimum of 120 credits is required to complete the degree.

THEATRE AND DRAMA

A degree in Theatre and Drama from the University of Wisconsin–Madison opens doors to a range of exciting careers in the theatre and entertainment industries, as well as other fields.

The department combines the best of a broad-based undergraduate education with specified training in many aspects of the performing arts - including acting, design, dramaturgy, technology, and theatre engineering. Students learn from faculty and staff who are professional artists, technicians, and scholars working actively in their fields, in an environment that is both supportive and challenging - combining one-on-one mentoring, small classes, and opportunities for applied work in production. Theatre students develop skills in communication, collaboration, and critical thinking, along with cultural and creative competencies which prepare them for successful careers in the professional theatre and entertainment industry, gaming, and education as well as for graduate studies and preparation for such fields as law, communications, business, and more.

The centerpiece of the department's curriculum is its production program, chiefly the University Theatre (UT) program, as well as a Second Stage program supporting experimental and student work. Through a year-round season of productions, the Department of Theatre and Drama's University Theatre serves as a vibrant arena for experiential and collaborative learning, engaging undergraduate students in embodied and hands-on work, allowing them to apply theoretical knowledge in performance, technical theatre, and design for audiences on campus and locally.

Theatre and Drama majors pursue a Bachelor of Science degree (p. 1992) through the School of Education, with the flexibility to informally explore such areas as design, stage management, directing, acting, and theatre technology. The department offers two options within the major, one in Acting (p. 2005) and a new option in Design and Technology (p. 2007). These options provide majors with an opportunity to focus their coursework in specific areas of interest. Upon completion, the option is formally noted on the student's transcript.

For students with a specific interest in acting, the department offers the Acting Option (p. 2005), a highly structured program designed to provide a deeper understanding of the craft and professional skills needed for a career in acting or advanced theatre studies. Students in this option receive personalized mentoring and performance reviews at the end of each semester.

The new Design and Technology Option (p. 2007) offers a focused course of study for students who are particularly interested in the behind-the-scenes aspects of theatremaking such as scenic design, costume design, lighting design, sound design, projection/media design, stage management, and technical direction. Mentorship is a central component of this named option. By allowing students to focus on the visual, technical, and managerial aspects of the Theatre and Drama major, they can combine creative exploration with practical application in both classroom and production settings.

Admission into either option requires the completion of prerequisite coursework and an audition or interview. Contact the departmental advisor for more information regarding this process.

Non-majors who wish to explore theatre in both theory and practice are welcome to enroll in our courses and participate in productions. The Certificate in Theatre (p. 2008) offers students from all disciplines the opportunity to gain a structured and meaningful theatre experience. This certificate has attracted students from a wide variety of fields, including law, business, medicine, art, dance, science, and social work. These students are drawn to theatre for its ability to enhance communication skills, improve problem-solving abilities, and foster visual acumen—skills that are valuable across all professions.

All students are encouraged to participate in University Theatre (UT) productions to gain valuable experience and contribute to the vibrant season of University Theatre.

DEGREES/MAJORS/CERTIFICATES

THEATRE AND DRAMA, BS

A degree in Theatre and Drama from the University of Wisconsin–Madison opens doors to a wide range of careers. The department combines the best of a broad-based undergraduate education with specified training in many aspects of the performing arts - including acting, design, dramaturgy, technology, and theatre engineering.

Students learn from faculty and staff who are professional artists, technicians, and scholars working actively in their fields, in an environment that is both supportive and challenging - combining one-on-one mentoring, small classes, and opportunities for applied work in production. Theatre students develop skills in communication, collaboration, and

critical thinking, along with cultural and creative competencies which prepare them for successful careers in the professional theatre and entertainment industry, gaming, and education as well as for graduate studies and preparation for such fields as law, communications, business, and more.

The centerpiece of the department's curriculum is its production program, chiefly the University Theatre (UT) program, as well as a Second Stage program supporting experimental and student work. Through a year-round season of productions, the Department of Theatre and Drama's University Theatre serves as a vibrant arena for experiential and collaborative learning, engaging undergraduate students in embodied and hands-on work, allowing them to apply theoretical knowledge in performance, technical theatre, and design for audiences on campus and locally.

Our majors complete a Bachelor of Science degree in Theatre and Drama through the School of Education. Students may informally select areas of emphasis such as design, stage management, directing, acting, or theatre technology.

Majors whose primary interest is acting may pursue the Acting Option (p. 2005). This highly structured program of study offers students a deeper practical knowledge and experience of the skills required to pursue professional work as an actor and/or advanced studies in theatre. Students are highly mentored and will benefit from personalized performance reviews with the acting faculty at the end of each semester. Upon completion, this named option will be formally documented on the student's transcript.

The new Design and Technology Option (p. 2007) offers a focused course of study for students who are particularly interested in the behind-the-scenes aspects of theatremaking such as scenic design, costume design, lighting design, sound design, projection/media design, stage management, and technical direction. Mentorship is a central component of this named option. By allowing students to focus on the visual, technical, and managerial aspects of the Theatre and Drama major, this option combines creative exploration with practical application in both classroom and production settings.

HOW TO GET IN

HOW TO GET IN

PROGRAM ADMISSION OVERVIEW

The Theatre and Drama major may be completed either as the primary major or as an additional ("double") major.

Primary Major in Theatre and Drama

Undergraduate students interested in completing the Bachelor of Science–Theatre and Drama degree program will fulfill the School of Education's liberal studies and other degree requirements in addition to the 43 credits required for the Theatre and Drama major.

Additional Major in Theatre and Drama

Undergraduate students from all schools and colleges on campus (including the School of Education) may declare Theatre and Drama as an additional major. Students completing Theatre and Drama as an additional major do not need to complete the School of Education's liberal studies and other degree requirements. For application information, go directly to the Additional Major in Theatre and Drama (p. 1992) section below.

ENTERING THE SCHOOL OF EDUCATION

New and Current UW–Madison Students

Incoming freshmen enter directly into the Bachelor of Science–Theatre and Drama degree program upon admission to UW–Madison; list Theatre and Drama as the intended major. No additional application to Theatre and Drama is required. See UW–Madison Office of Admissions and Recruitment (http://admissions.wisc.edu/) for application information.

All other on-campus students will submit an application following a meeting with the department's academic advisor.

Prospective transfer students

Transfer students must be admissible to the university to enroll in a School of Education degree program. See UW–Madison Office of Admissions and Recruitment (http://admissions.wisc.edu/) for application information. Transfer students enter directly into the Bachelor of Science–Theatre and Drama degree program upon admission to UW–Madison; list Theatre and Drama as the intended major. No additional application to Theatre and Drama is required. Prospective transfer students are strongly encouraged to meet with the Department of Theatre and Drama academic advisor before coming to campus. Coursework taken at another institution may need to be evaluated by the department academic advisor or a faculty member in the Department of Theatre and Drama. Prospective transfer students are also strongly advised to meet with an advisor in the School of Education Student Services office in advance of their application; to schedule, call 608-262-1651.

Students with a previous degree

Prospective students who already hold an undergraduate degree must be admissible to the university to enroll in a School of Education degree program. See UW–Madison Office of Admissions and Recruitment (http://admissions.wisc.edu/) for application information.

Applicants must also meet the following criteria for admission as a second undergraduate degree candidate in the School of Education. Candidates must:

- be seeking a new major that is substantially different from their previous degree work;
- need to complete at least 15 upper-level credits in the new major;
- need to complete at least 30 credits beyond their previous coursework.

When admitted, second degree candidates enter directly into the Bachelor of Science–Theatre and Drama degree program. No additional application to Theatre and Drama is required.

Prospective students who already hold an undergraduate degree are strongly encouraged to meet with the Department of Theatre and Drama academic advisor before coming to campus. Coursework taken at another institution may need to be evaluated by the department academic advisor or a faculty member in the Department of Theatre and Drama. Prospective second degree candidates are also strongly advised to meet with an advisor in the School of Education

Student Services office in advance of their application; to schedule, call 608-262-1651.

APPLICATION AND ADMISSION

While new freshmen and off-campus transfers are admitted directly to the BS–Theatre and Drama degree program, all other current UW–Madison students seeking to enter the BS–Theatre and Drama program must apply for admission to the program. Students must make an appointment with the departmental advisor to complete the declaration form. Requirements and selection criteria may be modified from one application/admission period to the next.

Criteria for Admission

Eligibility for admission consideration to BS–Theatre and Drama:

- Cumulative grade-point average on all transferable college-level coursework of at least a 2.50 (on a 4.00 scale).[1]
- Cumulative grade point average of at least a 2.5 based on UW–Madison campus coursework, as modified by the Last 60 Credits Rule (detailed below).
- Submission of all required application materials, including program application and transcripts.

[1] A comprehensive cumulative GPA of all college-level, transferrable coursework attempted on both the UW–Madison campus coursework and coursework taken at any other colleges or universities may be calculated for the exclusive purpose of establishing an applicant's eligibility for consideration. Both the comprehensive cumulative GPA and the comprehensive cumulative GPA based on a student's last 60 credits may be calculated. See Last 60 Credits Rule (detailed below). If admitted, students must earn the minimum cumulative GPA for UW–Madison coursework established by their program and the School of Education each semester after admission.

Last 60 Credits Rule

Two grade point averages will be calculated to determine candidates' eligibility to programs. GPAs will be calculated using

- all transferable college level coursework attempted, and
- the last 60 credits attempted.

The higher GPA of these two will be used for purposes of determining eligibility. If fewer than 60 credits have been attempted, all credits will be used to calculate the GPA. Graded graduate coursework will also be used in all GPA calculations. ("Attempted" coursework indicates coursework for which a grade has been earned.) More information on this rule is available here (p. 1662).

ADDITIONAL MAJOR IN THEATRE & DRAMA

Undergraduate students from all schools and colleges on campus (including Education) may declare Theatre and Drama as an additional major. Students wishing to declare the additional major must make an appointment with the departmental advisor to complete the declaration form. The declaration must also be approved by the student's home school/college.

Please note that the requirements of the additional major must be completed before or concurrently with the degree program and primary major.

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

SCHOOL OF EDUCATION DEGREE REQUIREMENTS

COMMUNICATION: BREADTH AND DEPTH

Courses designated as Communication A (Comm A) and Communication B (Comm B) help students learn how to gather and assess information from a variety of sources and to present different kinds of information, insight, and analysis to diverse audiences. Comm A courses focus on essential communication skills and Comm B courses teach research, writing, and communication skills within a disciplinary area.

Communication A	Complete either: • one course with the Communication A designation, or • satisfaction of Communication A based on UW Placement Test.
Communication B	One course with the Communication B designation.

QUANTITATIVE REASONING: BREADTH AND DEPTH

Quantitative Reasoning A courses provide students with foundational skills in mathematics, computer science, statistics or formal logic that are needed for dealing with quantitative information. In Quantitative Reasoning B courses, students use quantitative tools in the context of other disciplines or course material.

Quantitative Reasoning A	Complete either: • one course with the Quantitative Reasoning A designation, or • satisfaction of Quantitative Reasoning A based on UW Placement Test.
Quantitative Reasoning B	One course with the Quantitative Reasoning B designation.

LIBERAL STUDIES REQUIREMENTS

All students are required to complete a minimum of 40 credits of Liberal Studies (p. 1670) coursework. This requirement provides an opportunity to do some academic exploration beyond the scope of the major. Students take courses in areas of particular interest and also have an opportunity to sample the wide selection of courses offered across the university. Coursework is required in humanities, social studies (social science), science, and cultural and historical studies. Some elective coursework is also needed to reach the required number of credits.

The School of Education's Liberal Studies requirements can be used to satisfy the campus-wide Core General Education requirements. Communication A and B, and Quantitative Reasoning A and B coursework can also be used towards Core General Education and other requirements. Academic advisors can suggest courses that will count in multiple places.

A basic outline of the liberal studies is included below. Students must consult the detailed version of the requirements (p. 1670) for more information about course selection and how the liberal studies requirements apply to this major.

Are you interested in switching to the School of Education? If so, you should run a "what-if" DARS report. (https://kb.wisc.edu/registrar/94068/) It will show how many of these requirements you have already met and are unmet.

Humanities

Complete a minimum of 9 credits from these categories.

Literature	Complete a course with the Literature designation, minimum of 2 credits
Fine Arts	Complete a minimum of 2 credits from the list of courses below.
Humanities	Courses to total 9 Humanities credits. Select from: • Courses with the Humanities or Literature designation. • Fine Arts courses from the list below. • Courses with the Language courses designation. • ENGL 201 • ENGL 207 • COM ARTS 181

Fine Arts Courses

Code	Title	Credits
AFRICAN/AFROAMER 220	HipHop, Youth Culture, and Politics in Senegal	3

LITTRANS/ THEATRE 335	In Translation: The Drama of Henrik Ibsen	3-4
Any MUSIC course (https://guide.wisc.edu/courses/music/)		
Any MUS PERF course (https://guide.wisc.edu/courses/mus_perf/)		
Any THEATRE course (https://guide.wisc.edu/courses/theatre/)		

Social Studies

Social Studies Complete 9 credits with the Social Science designation.

The following programs have specific requirements:

- Kinesiology: PSYCH 202
- Art Education, Elementary Education, Elementary Education and Special Education, Physical Education, Special Education: POLI SCI 104 or 205

Science

Complete a minimum of 9 credits, including Physical and Biological Science. A laboratory science course is also required. The lab course can count toward the Biological or Physical Science requirement if it has the requisite breadth designation.

Physical Science	Complete one course with the Physical Science designation.
Biological Science	Complete one course with the Biological Science designation.
Lab Science	Complete one course with the Biological, Physical, or Natural Science designation with a lab component; see Course Search and Enroll. Additional eligible courses are listed below.
Science Elective(s)	If needed, complete a course with the Biological, Physical, or Natural Science designation to total 9 Science credits.

Laboratory Courses

Code	Title	Credits
ANTHRO 105	Principles of Biological Anthropology	3
ATM OCN 101	Weather and Climate	4
BOTANY 100	Survey of Botany	3
BOTANY/PL PATH 123	Plants, Parasites, and People	3
FOOD SCI/ MICROBIO 324	Food Microbiology Laboratory	2
GEOSCI 100	Introductory Geology: How the Earth Works	3
PHYSICS 109	Physics in the Arts	3
PLANTSCI 110	Introduction to Plant Science and Technology	4

Cultural and Historical Studies

Complete three requirements met by separate courses. Any of these courses can also be used to meet other requirements if it has the relevant breadth designation. A single course cannot satisfy more than one of the three Cultural and Historical Studies requirements listed below.

Ethnic Studies	Complete 3 credits with the Ethnic Studies Designation.
United States or European History	Complete 3 credits from the list of courses below.
Global Perspectives	Complete 3 credits from the list of courses below.

United States or European History Courses

Liberal Studies Electives

Liberal Studies Electives	Complete additional liberal studies coursework as needed to reach the required 40 Liberal Studies credits.

PROGRAM STRUCTURE

The Bachelor of Science (BS) degree program in Theatre and Drama has three primary components:

- *Liberal studies* courses expose students to a broad range of academic disciplines. The university-wide *General Education* requirements also encourage this breadth of study.
- *Major requirements* permit in-depth studies of theatre and drama.
- *Additional electives* to reach the minimum of 120 degree credits. These credits allow students to pursue individual areas of interest, such as a second major or additional theatre and drama credits. Many BS–Theatre and Drama students complete an additional major from the College of Letters & Science. Some use this major to complement their theatre preparation, while others select majors that reflect interests completely unrelated to theatre.

MAJOR REQUIREMENTS

Complete a minimum of 43 credits. At least 15 credits of upper-level major coursework (courses designated intermediate or advanced, and/or courses numbered 300 or above) must be taken in residence with a minimum 2.5 grade point average.

Code	Title	Credits
THEATRE/ENGL 120	Introduction to Theatre and Dramatic Literature	3
THEATRE 130	Fundamentals of Theatrical Design	3
THEATRE 140	Voice 1: Effective Communication	3
THEATRE 150	Acting I: Introduction to Acting	3
THEATRE 160	Technical Theatre Fundamentals	3
THEATRE 220	Scenic Studio Practicum	1
THEATRE 221	Costume Studio Practicum	1
THEATRE 222	Lighting & Sound Studio Practicum	1
THEATRE 234	Collaborative Problem Solving	3
THEATRE 260	Producing Theatre	3
THEATRE 262	Backstage Practicum	1
THEATRE 357	Introduction to Theatre for Cultural and Social Awareness (Also satisfies ethnic studies requirement.)	3
THEATRE 367	Script Analysis	3
Choose one of the following:		3
THEATRE 324	Traditions in Dramatic Literature	
THEATRE 327	History of Costume for the Stage	

THEATRE 328	Material Culture for Performance Design	
THEATRE 424	Contemporary World Theatre and Dramatic Literature	
THEATRE 431	History of Theatres and Staging	
THEATRE 631	Theories of Acting	
Required Electives - Complete a minimum of 9 credits; 6 credits must be numbered 300 or above. Practicum courses do not count as elective credit.		9
Total Credits		**43**

Electives

Select any Theatre and Drama (https://guide.wisc.edu/courses/theatre/) department courses to total 43 credits. Majors are urged to consult the department academic advisor in selecting courses, especially when building an emphasis in any one area.

NAMED OPTIONS

View as listView as grid

- **THEATRE AND DRAMA: ACTING (P. 2005)**
- **THEATRE AND DRAMA: DESIGN AND TECHNOLOGY (P. 2007)**

HONORS IN THE MAJOR

Students completing the requirements for Honors in the Major engage in valuable preparation for graduate and professional training and learn worthwhile skills that will benefit them in the workplace.

Those students interested in earning Honors in Theatre and Drama should declare their intention to graduate with Honors in the Major at the end of their sophomore year or the beginning of their junior year. The department advisor must be consulted to determine the best way to fulfill the honors requirements and how to make the most out of the experience.

Honors in Theatre and Drama is earned by satisfying both the requirements for the major and these additional requirements:

- Maintain a minimum GPA of 3.5 in major courses and an overall GPA of at least 3.3 in all courses taken at UW–Madison at the time of graduation.
- Complete one of the following courses:

Code	Title	Credits
THEATRE 500	The Business of the Business	3
THEATRE 501	The Business of Acting	3
M H R 320	New Ventures in Business, the Arts and Social Entrepreneurship	3

- Complete the following two-semester senior honors thesis for a total of sic credits. Students must procure a mentor to supervise these two courses and their honors thesis project. This thesis may be a written research thesis, an original work of art, a performance, or other project determined by the student and his/her mentor. All senior honors theses will culminate in an open presentation of their work.

Code	Title	Credits
THEATRE 681	Senior Honors Thesis	3
THEATRE 682	Senior Honors Thesis	3

Students should be aware that some courses are not offered on a regular basis (some are offered every other year, some based on student enrollment in the department, and some based on current staffing.). Please contact the department advisor for information on specific courses and course equivalence.

GPA AND OTHER GRADUATION REQUIREMENTS

GRADUATION REQUIREMENTS

Based on UW–Madison coursework.

- 2.5 minimum cumulative grade point average. This may be modified by the Last 60 Credits Rule.
- 2.5 cumulative major grade point average.
- 2.5 cumulative grade point average in all upper-level major coursework. Upper-level coursework is defined as all intermediate and advanced coursework, and/or at the 300 level or above.
- Major Residency: Students must complete a minimum of 15 credits of upper-level coursework in the major in residence on the UW–Madison campus. Upper-level coursework is defined as all intermediate and advanced coursework, and/or at the 300 level or above.
- Senior Residency: Degree candidates must complete their last 30 credits in residence on the UW–Madison campus, excluding retroactive credits and credits granted by examination.
- Total credits: A minimum of 120 credits are required for graduation in the BS–Theatre and Drama degree program.

DEGREE AUDIT REPORTING SYSTEM (DARS)

UW–Madison uses “DARS” to document a student's progress toward the completion of their degree, including any additional majors and certificates. A DARS (Degree Audit Reporting System) report shows all the requirements for completing a degree and, against courses that are planned or completed, shows the requirements that have been met, and those that are unmet. A report can offer suggestions about courses that may be taken to meet specific requirements and can assist in the academic planning and enrollment process. Students can access a DARS report in the Course Search & Enroll app or Student Center via My UW.

DARS also has a "what-if" function. This feature makes it possible to request a DARS report as if pursuing another program, major, or certificate. It is an excellent tool if considering a new or additional area of study. School of Education students in a pre-professional classification such as Pre-Elementary (PRE) or Pre-Kinesiology should request a "what if" DARS report of their professional program of interest. For example, Pre-Elementary Education (PRE) students will request Elementary Education K-9; Pre-Kinesiology (PKN) students will request the Kinesiology report. Minors have their own DARS programs and are run separately from the main degree audit.

More information (including tutorials) on how to request and read regular and what-if DARS reports is available under the Resources tab on the Office of the Registrar’s website. (https://registrar.wisc.edu/dars/)

DARS is not intended to replace student contact with academic advisors. It creates more time in an advising appointment to discuss course options, research opportunities, graduate school, or issues of personal interest or concern to students.

DARS is used as the document of record for degree program, major, and certificate completion in the School of Education.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Demonstrate the ability to evaluate the art and craft of theatre both critically and conceptually.
2. Demonstrate the ability to interpret and analyze a script as an integral part of the theatrical process.
3. Demonstrate knowledge of theatrical history and literature.
4. Demonstrate competence in effective communication through vocal dynamics, movement, and the sharing of ideas.
5. Demonstrate the ability to problem-solve creatively and generously collaborate as theatre artists.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

Theatre and Drama: Sample Four-Year Plan

This four-year sample graduation plan is designed to guide your course selection throughout your academic career; it does not establish a contractual agreement. Use it along with your DARS report, the Guide, and the Course Search and Enroll app to create a four-year plan reflecting your placement scores, incoming credits, and individual interests. Consult with an academic advisor to develop a personalized plan of study and refer to the Guide for a complete list of requirements. You will likely revise your plan several times during your academic career here, based on your activities and changing academic interests.

ADVISING AND CAREERS

ADVISING AND CAREERS

THEATRE AND DRAMA DEPARTMENTAL ADVISING

Prospective off-campus and on-campus BS–Theatre and Drama students must meet with Audrey Lauren Standish, the department's academic advisor. Students are also strongly encouraged to confer with an advisor in the School of Education Student Services office on a regular basis (see below).

SCHOOL OF EDUCATION ADVISING

Academic Advising in the School of Education

Dedicated to supporting and promoting student success, academic advisors (https://advising.education.wisc.edu/) are here to assist students with the adjustment to college, understanding their degree and career goals, and connecting them to resources. Advisors support prospective and current School of Education students in all programs through:

- Course selection
- Mentoring and advocacy for underrepresented and international students
- Understanding degree requirements and progression
- Interpreting academic policies
- Helping students recognize their strengths and suggesting ways to expand their skills
- Expanding learning through activities such as study abroad, volunteering/work/internship, and by assuming leadership roles

Advising appointments are available in person, virtually, or over the phone. Current students schedule appointments through the Starfish app (https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/) in MyUW. Appointments can also be made by calling 608-262-1651, or in person in Room 139 Education Building.

Academic Dean Support (https://advising.education.wisc.edu/academic-dean-support/) staff are also here for you when facing academic or personal challenges. We provide undergraduate School of Education students support, problem-solving, advocacy, resources, and approve exceptions to policies.

Career Advising in the School of Education

Through individual appointments, events, courses, and online resources, the Career Center provides students and alumni with the tools needed to be successful in their career development.

Career and Internship Advisors are prepared to help students with:

- Exploration of career and academic pathways (https://careercenter.education.wisc.edu/explore-career/)
- Resumes
- Cover letters
- Job/Internship search
- Interview preparation
- Mock interviews
- Graduate school search, applications and decisions
- Negotiating job or internship offers
- Professional networking
- Connecting with employers

Students are encouraged to meet with their Career and Internship Advisor early in their college experience to take full advantage of the resources and support available.

To make an appointment: log into Starfish (https://wisc.starfishsolutions.com/starfish-ops/) from the MyUW dashboard.

For more information, visit the School of Education Career Center website (https://careercenter.education.wisc.edu/) or reach out at career-center@education.wisc.edu.

Information about common career pathways, ways to get involved and gain experience, and transferrable skills developed through this major can be found on the School of Education Career Center's Theatre and Drama Pathways (https://careercenter.education.wisc.edu/explore-career/theatre-and-drama-career-pathways/) webpage.

WISCONSIN EXPERIENCE

WISCONSIN EXPERIENCE

UW–Madison's vision for the total student experience, the Wisconsin Experience (https://wisconsinexperience.wisc.edu/about/), combines learning in and out of the classroom. Tied to the Wisconsin Idea (https://www.wisc.edu/wisconsin-idea/) and steeped in long-standing institutional values — the commitment to the truth, shared participation in decision-making, and service to local and global communities — the Wisconsin Experience describes how students develop and integrate these core values across their educational experience.

UW–Madison encourages students to mindfully engage in four core concepts throughout their time on campus: Empathy & Humility, Relentless Curiosity, Intellectual Confidence, and Purposeful Action (https://wisconsinexperience.wisc.edu/intellectual-confidence/).

Since its inception, the School of Education has embraced the concepts of the Wisconsin Experience, providing opportunities for students to learn in venues beyond the traditional classroom. Our students also independently seek out related activities and experiences, thus creating their own unique Wisconsin Experience.

THEATRE & DRAMA AND THE WISCONSIN EXPERIENCE

The spirit of the Wisconsin Experience and its core values sit at the center of the field of theatre and of all our activities in UW's Department of Theatre and Drama. Theatre is inherently communal and collaborative, engaging audiences from diverse communities to witness live performances reflecting the most important questions of our time. In the Department of Theatre and Drama we seek to embrace these qualities, to train creative, hardworking, ethical, collaborative, interdisciplinary artists, technicians, and scholars — local and global citizens equipped to take on the challenges of the present and future.

We do this through a wide range of opportunities for students on campus and beyond. Available resources include:

- Production opportunities in the University Theatre program with a focus on community engagement, social justice, and ties to the professional theatre community
- Opportunities for student-led work in our season
- Support of student organizations
- Curricular support for production and professional opportunities
- Access to guest artists
- Work with Theatre and Drama faculty and staff research tied to the community

University Theatre

The University Theatre (UT) program engages students on every facet of production, tied to the curriculum across all degree programs. The season is selected with an emphasis on providing students with opportunities to apply their training in design, management, tech, and performance. Community engagement is emphasized, with outreach to campus and local communities and to the professional theatre community through work with guest artists.

UT productions regularly engage with the Odyssey Program and PLACE for student matinees and other programming, with the Interdisciplinary Theatre Studies Program and the Department of African American Studies, support guest artists with the Lorraine Hansberry Fund, and collaborate with the Office of Multicultural Arts Initiatives (OMAI) and the UW Division of the Arts, to name a few.

Second Stage

The Department of Theatre and Drama also regularly supports work generated by students and other arts organizations across campus and from local communities. These projects are supported with the department's resources through an application process each semester.

Student Organizations

Theatre students also have an opportunity to participate in student-run theatre groups. InterMission Theatre (IMT) (https://win.wisc.edu/organization/intermissiontheatre/) empowers students to create

performance art through interdisciplinary collaboration. Saying Theatre (https://win.wisc.edu/organization/sayingtheatre/) presents and promotes Chinese culture through theatre arts.

Community Engaged Coursework

Several required and elective course offerings in Theatre and Drama are tied to the community and theatre professions. These include THEATRE 100 Experiencing Theatre, which exposes students to world class theatre in Madison and globally, guest artists, as well as Theatre for Cultural and Social Awareness (TCSA). (https://theatre.wisc.edu/academics/theatre-for-cultural-and-social-awareness/)

Ties to the Profession

The University of Wisconsin–Madison Department of Theatre and Drama ensures its students are up-to-date with current practices in professional theatre through a number of diverse initiatives. These include inviting industry professionals for class visits, organizing educational trips to companies such as Electronic Theatre Controls, INC. (ETC) to explore advanced technologies and American Players Theatre (APT), and facilitating residencies for professional artists through UT and special initiatives. These opportunities not only enhance students' academic journey but also equip them for prosperous careers in several fields of the theatre and entertainment industry.

Through coursework and practice, UT and Second Stage programming, and engagement in creative and special research projects, students in Theatre and Drama have multiple opportunities to work with faculty and staff who are actively working in their fields on campus, locally, and around the world. Some recent examples include collaborating with the Odyssey Program and the First-Wave Hip-Hop Theatre Program, internships, paid opportunities for research in immersive theatre, designing video games, as well as with professional local theatres and scholarly conferences.

Study Abroad

The UW Theatre in London (https://studyabroad.wisc.edu/program/?programId=330283) program offers students an opportunity to be immersed in Britain's rich tradition of theatre-making. Students engage in class discussions and readings about British theatre, and experience the culture, practice, methods, and results firsthand by attending a variety of productions abroad.

Career Advising and Internships

The School of Education Career Center (https://careercenter.education.wisc.edu/) has a designated advisor for arts students who can provide connections with hourly campus employment, internships, and career options after graduation.

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

Information about scholarships, academic and career advising, study abroad opportunities, student well-being services, and other resources for students in the School of Education can be found on the school's Resources (p. 1680) page.

THEATRE AND DRAMA: ACTING

REQUIREMENTS

REQUIREMENTS

Theatre and Drama majors with a primary interest in acting may audition for the Acting Option. This highly structured program of study offers students a deeper practical knowledge and experience of the skills required to pursue professional work as an actor and/or advanced studies in theatre. These students are highly mentored and will benefit from personalized performance reviews with the acting faculty at the end of each semester.

Admission is by audition only; auditions are announced at the midpoint of each semester. Students must have taken THEATRE 140 Voice 1: Effective Communication , THEATRE 150 Acting I: Introduction to Acting , THEATRE 367 Script Analysis and be enrolled in or have successfully completed THEATRE 250 Fundamentals of Acting before auditioning for the option. Students in the Acting Option are expected to audition for University Theatre (UT) productions to gain experience and support a robust UT season. Actors are encouraged to participate in these faculty-led projects if cast, however students may indicate if they are unable to be cast in a given production for excused academic, personal/family health, and/or financial reasons.

This named option will be formally documented on the student's official transcript. The option coursework listed here is one component of the BS Theatre and Drama (http://guide.wisc.edu/undergraduate/education/theatre-drama/theatre-drama-bs/#requirementstext) degree requirements.

Complete a minimum of 45 credits to include the following:

Code	Title	Credits
Core		
THEATRE/ENGL 120	Introduction to Theatre and Dramatic Literature	3
THEATRE 140	Voice 1: Effective Communication	3
THEATRE 240	Intermediate Voice Training	3
THEATRE 150	Acting I: Introduction to Acting	3
THEATRE 250	Fundamentals of Acting	3
THEATRE 350	Acting Realism	3
THEATRE 262	Backstage Practicum	1
THEATRE 631	Theories of Acting	3
THEATRE 367	Script Analysis	3
THEATRE 342	Fundamentals of Movement for the Stage	3
Choose four of the following:		12
THEATRE 357	Introduction to Theatre for Cultural and Social Awareness	
THEATRE 440	Musical Performance for the Actor	
THEATRE 541	Acting Shakespeare	
THEATRE 352	Auditioning for Stage and Screen	
THEATRE 368	Fundamentals of Directing	

THEATRE 451	Acting for the Camera	
THEATRE 501	The Business of Acting	
Choose one of the following:		3
THEATRE 130	Fundamentals of Theatrical Design	
THEATRE 160	Technical Theatre Fundamentals	
THEATRE 234	Collaborative Problem Solving	
THEATRE 260	Producing Theatre	
THEATRE 364	Makeup for the Theatre	
Choose two of the following:		2
THEATRE 220	Scenic Studio Practicum	
THEATRE 221	Costume Studio Practicum	
THEATRE 222	Lighting & Sound Studio Practicum	
THEATRE 360	Performance in Practice	
If needed, additional Theatre courses to meet minimum of 45 credits		
Total Credits		**45**

FOUR-YEAR PLAN

FOUR-YEAR PLAN

Theatre and Drama Major: Acting Option

Sample Four-Year Plan

This four-year sample graduation plan is designed to guide your course selection throughout your academic career; it does not establish a contractual agreement. Use it along with your DARS report, the Guide, and the Course Search and Enroll app to create a four-year plan reflecting your placement scores, incoming credits, and individual interests. Consult with an academic advisor to develop a personalized plan of study and refer to the Guide for a complete list of requirements. You will likely revise your plan several times during your academic career here, based on your activities and changing academic interests.

Admission to the Acting Option is by audition only; auditions are announced at the midpoint of each semester. Students must have taken THEATRE 140 Voice 1: Effective Communication, THEATRE 150 Acting I: Introduction to Acting, THEATRE 367 Script Analysis, and be enrolled in or have successfully completed THEATRE 250 Fundamentals of Acting before auditioning for the option. Students who qualify for the Acting Option are expected to audition for University Theatre productions and play as cast.

THEATRE AND DRAMA: DESIGN AND TECHNOLOGY

REQUIREMENTS

REQUIREMENTS

Theatre and Drama majors with a primary interest in design and technology apply for the Design & Technology Option. This highly structured program of study offers students a deeper practical knowledge and experience of the skills required to pursue professional work as a designer, technician, and/or advanced studies in theatre. Students are highly mentored and will benefit from personalized performance reviews with the design and technology faculty and staff at the end of each semester.

Admission is by interview only; application interviews are announced at the midpoint each semester and are held at various theatre educational conferences for incoming freshman. Entry into the option occurs either as an incoming freshman, or their interview after completing THEATRE 100, THEATRE 130, THEATRE 160, or THEATRE 262.

Code	Title	Credits

Total Credits 120

THEATRE, CERTIFICATE

The Certificate in Theatre may be completed by any University of Wisconsin–Madison undergraduate student who is not a declared Theatre major. Theatre is a collaborative art form with many varied disciplines and talents working together to create a unified piece of art.

This certificate program offers students the ability to develop knowledge and skills in the theatre discipline. The requirements are designed to be flexible enough for a student to pursue an individual area of interest (for example, in acting, in technical theatre, in costume design, or in stage management), or a combination. Students can shape an individualized plan of study with an advisor, one that supports and/or complements studies in their major or field of study.

HOW TO GET IN

HOW TO GET IN

All current UW-Madison undergraduates are eligible to complete the certificate, with the exception of students completing the Theatre and Drama major.

To declare the certificate, students must meet with the theatre and drama academic advisor to discuss focus paths and to complete the theatre certificate declaration form.

REQUIREMENTS

REQUIREMENTS

The Certificate in Theatre requires a minimum of 16 credits, with at least 8 credits taken in residence. Completion of the certificate requires a minimum GPA of 2.5 in certificate coursework.

Code	Title	Credits
Choose two Foundational courses:		**6**

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Demonstrate basic proficiency in one or more areas of theatre study.
2. Demonstrate understanding of basic theatre concepts and methodology.

SCHOOL OF HUMAN ECOLOGY

Human Ecology is the science of everyday living. The School of Human Ecology at UW–Madison is a place where faculty and staff work closely with students to prepare them for careers that improve the quality of people's lives. Our undergraduate majors are Community and Organizational Development; Consumer Behavior and Marketplace Studies; Design, Innovation, and Society; Human Development and Family Studies; Interior Architecture; Personal Finance; and Textiles and Fashion Design. Each program provides a solid curriculum of both theoretical and practical skills that lead students to thriving careers, a better understanding of people and our world, and a bachelor of science undergraduate degree.

Human Ecology is located in Nancy Nicholas Hall, a beautifully restored building that provides modern classrooms, interactive labs, and studio spaces. Within these walls we connect students to their passions; helping them discover exciting careers and opportunities to make a meaningful impact on individuals, families, and communities. Faculty and staff are dedicated to providing students with solid and meaningful education through coursework, internships, travel, student organizations, community involvement, research, and scholarship.

Learn more about Human Ecology and its majors at humanecology.wisc.edu (https://humanecology.wisc.edu/).

ENTERING THE SCHOOL

ENTERING THE SCHOOL

APPLYING TO UW–MADISON

All prospective UW–Madison students must apply through the central Office of Admissions and Recruitment (https://www.admissions.wisc.edu/).

Students who indicate interest in a Human Ecology major on their UW–Madison application will be admitted to the Human Ecology program or pre-program of choice upon admittance to the university. In addition, students may indicate interest in a Human Ecology major when registering for Student Orientation, Advising, and Registration (SOAR).

VISITING CAMPUS AND HUMAN ECOLOGY

Human Ecology holds monthly visit events for prospective students and their families and guests.

View and register (https://www.admissions.wisc.edu/visitbucky/events.php?etypeid=22) for an upcoming visit event.

If you are unable to attend one of these dates, please contact the Human Ecology Advising and Career Center at 608-262-2608 or advising@sohe.wisc.edu to schedule an appointment.

CURRENT UW–MADISON STUDENTS

Students interested in the Human Ecology majors should refer to the program's "How to Get In" page or the Apply to Human Ecology (https://advising.humanecology.wisc.edu/academics/apply/) page for more information.

REENTERING STUDENTS

Students previously enrolled at the university who have not attended for a semester or more must complete a reentry application as outlined by the UW–Madison Office of Admissions and Recruitment (http://www.admissions.wisc.edu). Students who were enrolled in a School of Human Ecology program before their absence from UW–Madison will be readmitted to that program, provided they were in good academic standing when they left (i.e., not on probation, strict probation, or dropped by the university). Reentry applicants who were dropped by the university are asked to submit supplemental application materials. Instructions for the supplemental application are sent after the student has submitted the online reentry application.

Students who were previously enrolled in another UW–Madison school or college will not be admitted directly to a School of Human Ecology program. They must apply for reentry to the university with another school or college — usually the school or college in which they were previously enrolled. Once readmitted to the university, students may apply to the desired Human Ecology program through the application process for that program. For information about the school's programs and application processes, see Applying to Human Ecology as an On-Campus Student (http://admissions.wisc.edu/apply-as-a-reentry-student/).

It is recommended that students who have been readmitted to a School of Human Ecology program schedule an appointment with an academic advisor in the Advising & Career Center (https://advising.humanecology.wisc.edu/).

WISCONSIN EXPERIENCE

WISCONSIN EXPERIENCE

INTERNSHIPS

Internships are a vital component of student career development and a highly valued part of the undergraduate curriculum in the School of Human Ecology. By bringing classroom theories to life in real-world settings, high-quality internships foster essential professional development. They provide a unique opportunity for students to explore careers related to their major, gain hands-on experience in a field of interest, and understand workplace expectations by performing professional tasks in their chosen field.

For Human Ecology majors, completing an internship is a required part of the undergraduate curriculum. To fulfill this requirement, students must meet the following criteria:

- Enrollment Requirements: Have at least junior standing (54+ credits) and taken INTER-HE 202 (SoHE Career & Leadership Development) before pursuing the internship.
- Time Commitment: Complete a minimum of 150 hours at the internship site to earn 3 academic credits.
- Eligibility & Approval: Secure an internship that is educational in nature, directly related to their major and career goals, and verified and approved by the Advising & Career Center (https://go.wisc.edu/acc_office/).
- Note: Additional course prerequisites may be required for certain Human Ecology majors.

For more information and step-by-step guidance, please visit Human Ecology Internships (https://advising.humanecology.wisc.edu/careers/internship-requirement/).

STUDENT ORGANIZATIONS

To see our active list of Human Ecology Student Orgs and for more information about joining, please visit Human Ecology Student Organizations (https://advising.humanecology.wisc.edu/studentlife/join-a-student-organization/).

Learn more about UW–Madison registered student organizations through the Wisconsin Involvement Network (https://win.wisc.edu/).

POLICIES AND REGULATIONS

POLICIES AND REGULATIONS

ACADEMIC ACTIONS

GRADING AND INCOMPLETES

The School of Human Ecology follows UW–Madison letter grade and notation standards. Please see Valid Grades (https://registrar.wisc.edu/valid-grades/) for notation definitions and standard regulations.

Incompletes. A grade of Incomplete may be assigned to a student who, because of illness or another unusual and substantiated cause beyond their control, is unable to complete the coursework. To be eligible for an Incomplete grade, the student must:

- be earning a passing grade to-date in the course,
- and have a limited amount of work to complete by the end of the term.

For a short summary of the policy, see the Enrollment and Records - Incompletes section of Guide (p. 30).

Students are ineligible for the dean's list for the semester in which a grade of Incomplete is submitted.

ACADEMIC STANDING, PROBATION, AND DROPPED STATUS

- **Good Academic Standing.** Students are in good academic standing if their cumulative and most recent term (Fall, Spring, Summer) GPA are at least a 2.000. First-term students without a UW–Madison GPA are also in Good Academic Standing.
- **Probation.** A student with no previous action who earns a term GPA between 1.000 and 1.999 will be placed on probation.
- **Continued Probation.** A student on probation (or continued probation) whose cumulative GPA remains below 2.000 and whose term GPA is 2.000 or above will be placed on continued probation.

- **Strict Probation.** A student previously in Good Academic Standing with a current term GPA below 1.000 will be placed on strict probation. A student on probation whose term GPA is between 1.500 and 1.999 will be placed on strict probation.
- **Continued Strict Probation.** A student on strict probation or continued strict probation whose cumulative GPA remains below 2.000 but whose term GPA is 2.000 or above will be placed on continued strict probation.
- **Academic Dropped.** A student on probation whose term GPA is less than 1.500 or on strict probation whose term GPA is less than 2.000 will be dropped from the University for one year.

READMISSION AFTER ACADEMIC DROPPED STATUS

The purpose of an academic drop is to prevent students from further damaging their academic record and incurring tuition costs while not successfully earning credits. The expectation is for students to spend the year away from campus to reflect on and resolve the issues that resulted in their poor academic performance. Students who were academically dropped from the university are eligible for readmission consideration after one full calendar year. Students dropped for a third time will not be readmitted.

To reenter the university after one full year, a student must apply for readmission to the School of Human Ecology and for reentry to the university. A student is never guaranteed readmission after being dropped. Readmission is most likely if the student has addressed the issues that contributed to being dropped from the university and has a plan and resources to support a successful return.

To apply for readmission to Human Ecology and the University of Wisconsin–Madison after being dropped, a student must follow these steps:

1. Complete the Human Ecology Readmission Request Form (https://uwmadison.co1.qualtrics.com/jfe/form/SV_8AI4WZBMjVSyMFD/).

To ensure readmission consideration, follow these deadlines:

- Summer or Fall Term – Apply by March 1
- Spring Term – Apply by October 1

2. Complete the university reentry application (https://admissions.wisc.edu/apply-as-a-reentry-student/).

3. Schedule an appointment with a Human Ecology Academic Dean by calling 608-262-2608 or emailing deansservices@sohe.wisc.edu.

- Be prepared to discuss your activities while away from UW, including steps taken to address the circumstances that led to being dropped from UW and transcripts from other institutions that you may have attended while away.
- Use this advising appointment to: (re)establish a relationship with your academic advisor, review your enrollment plan for the term you intend to return, and review your degree completion plan.

When making readmission decisions and assigning any readmission stipulations, the Human Ecology academic dean will consider evidence of a student's readiness to re-enroll at UW, academic activity at other institutions while dropped, and enrollment plans if readmitted. Students who are granted permission for re-entry after academic drop will be readmitted on strict academic probation to the School of Human Ecology.

DECLARING MULTIPLE MAJORS

School of Human Ecology undergraduates can declare an additional undergraduate major in the College of Letters & Science and a limited number of majors in the School of Education and College of Agriculture and Life Sciences. This option is most often referred to as a "Double major" and is not a second or dual degree (see below). The additional major is noted on the student's transcript if all requirements of the second major are completed. School of Human Ecology students must plan to finish all additional academic programs concurrently with their Human Ecology degree.

EARNING DUAL DEGREES

Completing two degrees simultaneously (also referred to as Dual Degrees) is when a student completes two bachelor's degree programs and will receive two undergraduate degrees, as opposed to multiple transcript majors. Students interested in completing dual degrees should consult with their academic advisor early in their academic career and complete a four-year plan to understand the feasibility of completing requirements for both degrees. Earning a dual degree requires students to:

1. Earn an additional 30 credits specific to the second major,
2. Earn a minimum of 150 degree credits to graduate,
3. Complete all curriculum requirements for both degrees,
4. Ensure the two programs are substantially different from each other,
5. Complete coursework in both programs simultaneously,
6. Complete the Dual Degree Policy Request form (https://uwmadison.co1.qualtrics.com/jfe/form/SV_8AI4WZBMjVSyMFD/) and secure Academic Dean's permission.

Students are responsible for any rules or regulations that could potentially impose additional financial responsibilities as a result of pursuing dual degrees. Please note that some campus schools and colleges do not permit dual degrees for their students, thus preventing Human Ecology degree combinations with degrees in these schools and colleges.

Before the start of the senior year in residence, students must meet the criteria for admission to both programs, secure academic dean and department approval to enroll, and the two degree programs' curriculum must differ substantially. Human Ecology curriculum does not substantially differ enough to allow dual degrees with two Human Ecology majors.

The two degrees must be earned from two different schools/colleges at UW–Madison. Admission into the other school/college shall be based on the admission criteria for that school/college. Written admission/Dean's approval to the other school/college must be obtained before pursuing Human Ecology approval.

RESIDENCY REQUIREMENT

School of Human Ecology undergraduate students must earn a minimum of 30-degree credits in residence at UW–Madison. Credits are considered "in residence" if they are earned through UW–Madison course work, including courses taken on a UW–Madison administered study abroad program. Retroactive credits, transfer credits, AP credits, and credits granted by examination are not considered "in residence."

CREDIT OVERLOAD

A full-time student credit load is 12 to 18 credits, with the most typical credit load being 15 to 16 credits per fall/spring semester. A student wishing to enroll in more than 18 credits in a fall/spring semester or 12

credits in the summer must complete a Credit Overload Request (https://uwmadison.co1.qualtrics.com/jfe/form/SV_8AI4WZBMjVSyMFD/) to obtain dean's approval. The maximum credits allowed with Dean's approval for fall/spring term is 21 credits, and summer term is 13 credits. These credit limits are inclusive of credits enrolled in at another institution, which may result in credits not being accepted at UW–Madison if approval is not secured in advance. Students should speak with their academic advisor prior to requesting a credit overload to ensure the overload is necessary and understand the workload and financial implications. Credit overload approvals will be based on prior academic performance and necessity.

PASS/FAIL

The privilege of electing courses on a pass/fail basis is extended to undergraduate students in the school. Students who are in good academic standing (not on probation) may elect one course on a pass/fail basis per term. The summer sessions collectively count as one term. **A course taken pass/fail must be an elective.** A student may **not** take a required course or a prerequisite to a required course under this privilege. A maximum of 16 pass/fail credits may be counted toward a BS degree from the School of Human Ecology. **Courses taken pass/fail will count toward degree credits but will be excluded in the computation of grade point average and honors**.

Requests to take a course under the pass/fail privilege are initiated through the Course Change Request in the MyUW (http://my.wisc.edu) Student Center and must be elected by the noted enrollment Dates and Deadlines (https://registrar.wisc.edu/dates/). After making the request in MyUW, the request is routed to the Advising & Career Center for approval or further communication.

The registrar will convert final grades submitted by the instructor, who is not informed of the student's pass/fail status, to an S (pass) for grades A, AB, B, BC, or C, and to a U (fail) for a grade of D or F. The grade is excluded from the GPA.

CONCURRENT ENROLLMENT

Human Ecology students may enroll in a class(es) at another institution while being enrolled at UW–Madison without special permission but must follow the credit limit and credit overload policies (https://registrar.wisc.edu/credit-load-and-ranges/). Students should consult with their academic advisor, Course Equivalency Service (https://registrar.wisc.edu/course-equivalency-service/), or Transferology (https://kb.wisc.edu/registrar/page.php?id=122108) to confirm the course will transfer to UW–Madison prior to enrolling. Upon completion of the non-UW–Madison courses, students must submit their transcripts with final grades to the Admissions Office (https://registrar.wisc.edu/transfer-your-credit-to-uw-madison/) for evaluation.

- **Concurrent Enrollment at UW Extension/UW Independent Learning:** Students concurrently enrolling in UW Extension/UW Independent Learning (https://uwex.wisconsin.edu/aas/uwex_landing_pages/aas-il-paid_search/?lead_source=PaidSearchGoogle&kw=uw%20independent%20learning&_bt=618815558309&_bm=e&gclid=CjwKCAiAnZCdBhBmEiwA8nDQxYvJ54Vgl9bPDEdjLc-_uPEHB9qU50pglRWR4DvbmHCYbBFy5qwSxoCvaAQAvD_BwE) courses should see more information Independent Learning Tuition Waiver (https://advising.humanecology.wisc.edu/academic-dean-services/#:~:text=UW%2DExtension%20Independent%20Learning%20Tuition%20Waiver).
- **Studying Abroad and Concurrent Enrollment**: Students studying abroad through International Academic Programs (IAP) (https://studyabroad.wisc.edu/) must contact IAP regarding restrictions and tuition rules to concurrent enrollment and the UW Independent Learning waiver. See more information (https://advising.humanecology.wisc.edu/academics/frequently-asked-questions/#studying-abroad) or speak with an academic advisor.

APPEALS

LATE DROP, WITHDRAWAL, OR MEDICAL WITHDRAWAL PETITIONS

Human Ecology students are expected to follow the Dates and Deadlines (https://registrar.wisc.edu/dates/) for adding and dropping courses outlined by the Office of the Registrar. Students considering a change in their enrollment are expected to speak with their academic advisor and take action before published university deadlines.

- **Late Drop -** A course drop is when a student decides to discontinue in one (or more) course(s) while continuing with at least one course in a term. A late drop appeal is when a student is requesting an exception to the drop deadline. It is only in rare non-academic circumstances outside of a student's control that exceptions to the drop deadline policy (https://registrar.wisc.edu/dates/) are approved, and never simply to avoid a poor grade. Students who face significant, unforeseeable circumstances outside of their control that negatively impact their ability to successfully complete a course(s) should schedule an appointment with their academic advisor or Human Ecology Deans' Services (deansservices@sohe.wisc.edu) and complete the Late Add/Drop Petition form (https://uwmadison.co1.qualtrics.com/jfe/form/SV_8AI4WZBMjVSyMFD/).
- **Withdrawal (non-medical)** - Students who do not wish to continue taking classes and drop all of their courses in a term are withdrawing/canceling their enrollment and must follow the Steps to Withdraw (https://kb.wisc.edu/registrar/25601/). Students may choose to withdraw for a variety of personal or financial reasons without dean's permission when processed by the university deadline. Students may be required to complete the Reentry Form (https://admissions.wisc.edu/apply-as-a-reentry-student/) to enroll in a future semester.
- **Medical Withdrawal** - Students who wish to withdraw as a result of a serious or unexpected physical or mental health condition, a serious or unexpected physical or mental health condition of an immediate family member who requires the student's care, or the death of an immediate family member that completely precludes the student from actively participating as a student can request a partial tuition refund according to the Medical Withdrawal process (https://registrar.wisc.edu/medical-withdrawal/). Students requesting a medical withdrawal and refund must complete the Steps to Withdraw (https://kb.wisc.edu/registrar/25601/), meet with Human Ecology Deans' Services (deansservices@sohe.wisc.edu), and provide required documentation within one year of the semester enrolled. Approval will be granted on a case-by-case basis.

A Drop (DR) or Withdrawal (W) transcript notation after the enrollment deadline is a national standard across universities and colleges to indicate when a student makes an enrollment change after the start of the semester, which has no negative impact on a student's academic record. Because students may drop courses for a wide variety of reasons, future employers and graduate/professional programs do not scrutinize or make any assumptions about the merits of a "DR" or "W." It is simply a notation that students have made an enrollment change after the deadline.

APPEAL OF A HUMAN ECOLOGY GRADE

A student who believes a grade received in a Human Ecology course was an error or not consistent with guidelines outlined in the syllabus or campus standards has the right to appeal the grade.

1. The student must first discuss the grade dispute with the instructor of the course.
2. If the student and instructor cannot come to an agreement, the student will provide a formal written grade appeal to the Human Ecology Deans' Services. The written appeal must include the class, instructor, grade received, date and conclusion of the meeting with the instructor, the specific reason(s) for appealing the grade, and telephone number where they can be reached for follow-up. Send to Human Ecology Deans' Services. (deansservices@sohe.wisc.edu)
3. The department chair will perform the due diligence necessary (including, but not limited to, meeting with the instructor and student) to assess the merits of the appeal and will provide a decision in writing to the assistant dean.
4. Should the student wish to further appeal the decision, the Human Ecology Undergraduate Program Council will perform the due diligence necessary (which may include, but is not limited to, meeting with the instructor and department chair and/or student) to assess the merits of the appeal and will provide a decision in writing to the assistant dean.
5. The Human Ecology Undergraduate Program Council appeals decision is final.

APPEAL OF DENIAL OF ADMISSION TO A HUMAN ECOLOGY UNDERGRADUATE MAJOR/CERTIFICATE

This appeal process is for students who were denied admission to a Human Ecology undergraduate program. Students who feel they have a compelling reason to appeal their admissions decision may do so in writing by the deadline indicated in the admission letter. Appeals must satisfy one of the following factors to be considered:

- The student believes a factual error was self-reported on the application or made by the admissions committee during review of the application.
- There is new information regarding academic or non-academic extenuating circumstances.

While admission appeals satisfying the above conditions will be reviewed by the admissions committee, it is important to understand that simply meeting these criteria in no way guarantees acceptance into the program.

Filing an Appeal

1. The student will file a letter of program admission appeal to Human Ecology Dean's Services (deansservices@sohe.wisc.edu), stating the facts of the situation based on one or both of the conditions listed above and include the student's telephone number where they can be reached for follow-up. Any additional documentation or supporting evidence should be titled and attached to the letter of appeal. The deadline by which a student must file an appeal will be written in the denial letter for the undergraduate program in question. For a situation where grades/credits were not posted to a student's record prior to applying to the program, the student record must be complete with grades and credits on the official UW–Madison record by the time the appeal is filed to be considered.
2. The Academic Dean will forward the appeal to the appropriate departmental admissions committee. The admissions committee will perform the due diligence necessary to assess the merits of the new information for the appeal.
3. The Academic Dean will communicate the decision to both the student and departmental admissions committee in writing.
4. Should the student wish to further appeal the decision in the case of extenuating circumstances, the Academic Dean will forward the appeal to the Human Ecology Undergraduate Program Council (UPC). The UPC will perform the due diligence necessary (which may include, but not limited to, meeting with the admissions committee, department chair, and/or student) to assess the merits of the appeal.
5. The Academic Dean will communicate the decision to the student and the admissions committee in writing. The Human Ecology Undergraduate Program Council's (UPC) decision is final.

APPEAL OF BEING DROPPED FROM UW–MADISON FOR ONE YEAR

Human Ecology students who are dropped from the university based on academic performance are permitted to appeal for readmission consideration immediately after being dropped. Students with documentation of special circumstances outside their control, evidence that these circumstances have changed, and realistic strategies in place to improve their academic performance have the greatest likelihood of a successful appeal. Students who do not appeal before the deadline must wait at least one full calendar year before being eligible for readmission consideration.

Filing An Appeal

1. Students wishing to appeal their dropped status must meet with Human Ecology Dean's Services (deansservices@sohe.wisc.edu) and complete the Dropped Status Appeal Form (https://uwmadison.qualtrics.com/SE/?SID=SV_6Lv7QPa3P6Ay7mR) prior to the deadline outlined in their dropped status notification. An Academic Dean will explore with the student the purpose of the drop process and circumstances that led to the drop and provide guidance on writing the appeal.
2. The Dean will submit the appeal, academic transcript, and additional background information to the Human Ecology Undergraduate Program Council (UPC) for review. UPC will make a decision regarding the appeal before the beginning of the next term.
3. The Academic Dean will communicate the appeal decision to the student in writing. If the appeal is granted, the student will be readmitted to the university on strict probation. If the appeal is not granted, the dropped status is upheld, all courses will be administratively dropped, and the student is eligible for readmission consideration **one full calendar year after the dropped date**.

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

SCHOOL OF HUMAN ECOLOGY BS REQUIREMENTS

All Human Ecology majors share the requirements listed below. Each major has additional requirements. A single course can simultaneously count toward university, school, and major requirements if it carries the relevant designations

Human Ecology Breadth	6 credits in the School of Human Ecology (CNSR SCI, CSCS, DS, HDFS, INTER-HE) taken outside of the home department of the major. Excludes INTER-HE 202 or 601.
Communicatio A	Complete either: • one course with the Communication A designation, or • satisfaction of Communication A based on UW Placement Test.
Communication B	One course with the Communication B designation.
Quantitative Reasoning A	Complete either: • one course with the Quantitative Reasoning A designation, or • satisfaction of Quantitative Reasoning A based on UW Placement Test.
Quantitative Reasoning B	One course with the Quantitative Reasoning B designation.
Humanities/ Literature/ Arts	9 credits with the Humanities, Literature, or Language designations.
Social Science	9 credits with the Social Sciences designation.
Natural Science	9 credits with the Biological, Natural, or Physical Science designations.
Ethnic Studies	3 credits with the Ethnic Studies designation.

GRADUATION REQUIREMENTS

Cumulative Credits	Students must earn 120 degree credits.
Quality of Work	Students must maintain a minimum cumulative grade point average of 2.000 to remain in good standing and be eligible for graduation.

Residency	Students must complete 30 degree credits in residence at UW–Madison.

RESOURCES

RESOURCES AND SCHOLARSHIPS

ADVISING & CAREER CENTER

The Advising & Career Center (ACC) fosters undergraduate students' personal, academic, and professional development. Through advising, academic planning, and career education, we support students as they navigate the college experience—from exploring our majors as prospective students to becoming Human Ecology alumni.

Academic Advising

Every Human Ecology student is assigned to an academic advisor in the Advising & Career Center. Human Ecology academic advisors support academic and personal success by partnering with current and prospective Human Ecology students as they identify and clarify their educational goals, develop meaningful academic plans, and pursue their own Wisconsin Experience.

To explore academic advising resources or schedule an appointment with Human Ecology academic advisor, visit Academic Advising in Human Ecology (https://advising.humanecology.wisc.edu/academics/scheduling/).

Career Development

Each Human Ecology student is assigned to a career advisor in the Advising & Career Center. Active engagement in the career development process is a vital component of a student's personal growth in college and future success as a lifelong learner, professional, and global citizen. Human Ecology career advisors help prepare students for life post-graduation through advising and integration of career readiness throughout our curriculum.

To explore career development resources or schedule an appointment with a Human Ecology career advisor, visit Career Development in Human Ecology (https://advising.humanecology.wisc.edu/careers/scheduling/).

SCHOLARSHIPS AND SUPPORT RESOURCES

The School of Human Ecology (SoHE) awards many merit and need-based scholarships each year. Students can learn more about these opportunities on the Human Ecology scholarships webpage (https://humanecology.wisc.edu/academics/scholarships/). To be eligible for these awards, scholarship recipients must be registered as full-time Human Ecology students. For further questions on the scholarship application, please contact the School of Human Ecology Scholarship Coordinator at scholarships@sohe.wisc.edu.

Human Ecology students experiencing personal, academic, or financial challenges should contact SoHE Academic Deans Services (https://advising.humanecology.wisc.edu/academic-dean-services/). Additional campus resources include the Financial Aid Basic Needs website (https://basicneeds.students.wisc.edu), Office of Student Assistance and Support (https://osas.wisc.edu), and University Health Services (https://www.uhs.wisc.edu).

HONORS

HONORS

DEAN'S HONOR LIST

At the end of each semester, the names of all students with a grade point average of 3.75 or higher in at least 12 graded credits for that semester will be included on the Dean's Honor List. A notation of "Dean's Honor List" will be entered on the student's transcript.

GRADUATION WITH DISTINCTION

"Graduation with Distinction" will appear on the transcripts of students who have earned a cumulative grade point average that places them *within the top 20%* of students graduating that term in their school or college with 60 credits or more at the University of Wisconsin–Madison.

Students *in the top 5%* will receive the designation "Graduation with Highest Distinction." The Office of the Registrar determines whether students have met these criteria. Notations citing graduation distinction will be made on the transcript.

CIVIL SOCIETY AND COMMUNITY STUDIES

The Department of Civil Society and Community Studies offers a bachelor of science degree in Community and Organizational Development and a PhD in Human Ecology: Civil Society and Community Research. The Community and Organizational Development major prepares its graduates for careers spanning community and organizational development, nonprofit management, social justice activism, community organizing, social entrepreneurship, corporate social responsibility, higher education, government, social service agencies, and more. It also offers excellent preparation for graduate school in areas such as law, medical and public health advocacy, public policy, human ecology, and more. Academic requirements include specialized emphases in human ecology; general studies in humanities, social sciences, and natural sciences; and coursework focused on community impact and social change processes. Students may also engage in complementary coursework, undergraduate certificates, or additional undergraduate majors.

DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/CERTIFICATES

COMMUNITY AND ORGANIZATIONAL DEVELOPMENT, BS

The Bachelor of Science degree in Community & Organizational Development (https://humanecology.wisc.edu/academics/undergraduate-majors/community-nonprofit-leadership/) prepares students to advance positive change through communities and organizations.

Students tackle community, organizational, and societal challenges in collaboration with their peers and real-world partners, clients, and communities. Through project-based learning, applied research, and internship experiences, students learn how to make a positive human-centered impact on communities and society in meaningful and lasting ways.

The Community & Organizational Development degree allows students to tailor their learning and career pathways. Students are prepared for a variety of careers spanning community and organizational development, nonprofit management, executive leadership, social justice activism, community organizing, social entrepreneurship, corporate social responsibility, higher education, government, philanthropy, social service agencies, and more. For additional information about possible career paths related to this major, check out What can I do with a major in Community & Organizational Development? (https://kb.wisc.edu/sohe/159157/). The Community & Organizational Development degree also offers excellent preparation for graduate school in areas such as law, medical and public health advocacy, public policy, human ecology, and more.

In addition to the hundreds of community-based organizations in the city of Madison, the Center for Nonprofit Studies (CommNS) (https://commnsknowledge.wisc.edu/), housed in the School of Human Ecology, provides students with a hub for community-engaged teaching, research, and outreach focused on advancing the work of the civic and nonprofit sector. Students can participate in innovative non-profit initiatives, network with community and organizational leaders, and attend annual conferences, workshops, and speaker series.

HOW TO GET IN

HOW TO GET IN

CURRENT UW–MADISON STUDENTS

Students within their first 60 GPA credits at UW-Madison

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are able to declare. For information on how to declare, see: https://go.wisc.edu/sohe-declare (https://go.wisc.edu/sohe-declare/).
Courses required to get in	None.
GPA requirements to get in	• First-semester students have no GPA requirement to declare. • Non-first-semester students within the first 60 GPA credits: Minimum 2.750 cumulative GPA based on all UW-Madison coursework.
Credits required to get in	None.
Other	Must be in good academic standing with their current school or college.

All other UW–Madison students (who do not meet the declaration criteria above)

Requirements	Details
How to get in	Application required. Meeting the requirements listed below does not guarantee admission. (https://go.wisc.edu/sohe-apply (https://go.wisc.edu/sohe-apply/))
Courses required to get in	None.

GPA requirements to get in	None.
Credits required to get in	None.
Other	Must be in good academic standing with their current school or college.

Semester	Deadline to apply	Decision notification timeline
To apply for a fall start	The fifth Friday of the term.	Students will be notified about decisions approximately one month after the application deadline.
To apply for a spring start	The fifth Friday of the term.	Students will be notified about decisions approximately one month after the application deadline.
To apply for a summer start	This program does not accept applications to start in the summer.	

PROSPECTIVE UW-MADISON STUDENTS

All prospective UW–Madison students must apply through the central Office of Admissions and Recruitment (https://www.admissions.wisc.edu/).

Students who indicate interest in Community and Organizational Development on their UW–Madison application will be admitted to the major upon admittance to the University. In addition, students may indicate interest in Community and Organizational Development when registering for Student Orientation, Advising, and Registration (SOAR).

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

SCHOOL OF HUMAN ECOLOGY BS REQUIREMENTS

All Human Ecology majors share the requirements listed below. Each major has additional requirements. A single course can simultaneously count toward university, school, and major requirements if it carries the relevant designations

Human Ecology Breadth	6 credits in the School of Human Ecology (CNSR SCI, CSCS, DS, HDFS, INTER-HE) taken outside of the home department of the major. Excludes INTER-HE 202 or 601.
Communication A	Complete either: • one course with the Communication A designation, or • satisfaction of Communication A based on UW Placement Test.
Communication B	One course with the Communication B designation.
Quantitative Reasoning A	Complete either: • one course with the Quantitative Reasoning A designation, or • satisfaction of Quantitative Reasoning A based on UW Placement Test.
Quantitative Reasoning B	One course with the Quantitative Reasoning B designation.
Humanities/ Literature/ Arts	9 credits with the Humanities, Literature, or Language designations.
Social Science	9 credits with the Social Sciences designation.
Natural Science	9 credits with the Biological, Natural, or Physical Science designations.
Ethnic Studies	3 credits with the Ethnic Studies designation.

GRADUATION REQUIREMENTS

Cumulative Credits	Students must earn 120 degree credits.
Quality of Work	Students must maintain a minimum cumulative grade point average of 2.000 to remain in good standing and be eligible for graduation.
Residency	Students must complete 30 degree credits in residence at UW–Madison.

COMMUNITY AND ORGANIZATIONAL DEVELOPMENT REQUIREMENTS

A complete list of requirements is below. Students should follow the curriculum requirements in place at the time they entered the major. This requirement list should be used in combination with a DARS report.

Code	Title	Credits
Statistics		
Select one of the following:		3-4
STAT 301	Introduction to Statistical Methods	
SOC/ C&E SOC 360	Statistics for Sociologists I	
STAT 371	Introductory Applied Statistics for the Life Sciences	
PSYCH 210	Basic Statistics for Psychology	
ECON 310	Statistics: Measurement in Economics	
Community and Organizational Development Core Courses		
CSCS 125	Community and Social Change	3
CSCS 300	Nonprofit Sector: Overview and Foundations	3
CSCS 345	Evaluation and Planning for Community and Nonprofit Organizations	3
CSCS 510	Design & Write Grant Proposals	3
CSCS 570	Community Based Research and Evaluation	3
CSCS 600	Community Leadership Portfolio Capstone	3
Community and Organizational Development Pathways		
Select 9 credits from one of the following depth areas:		9
Community Transformation and Innovation		
CSCS 155	Social Media for Social Justice	
CSCS 255	Introduction to Social Innovation	
CSCS/ AMER IND 330	American Indian Communities: Sovereignty, Struggles, and Successes	
CSCS 410	Human Trafficking: Global and Local Perspectives	
CSCS 455	Entrepreneurialism and Society	
CSCS 470	The Human Rights of Children and Youth: Global and Local Perspectives	
CSCS 500	Global Health and Communities: From Research to Praxis	
CSCS 555	Community and Social Innovation Lab	
Organizational Development		
CSCS 335	Communicating with Key Audiences	
CSCS 400	Philanthropy and Civic Engagement	
CSCS 430	Fundraising & Development for Nonprofit Organizations	
CSCS 460	Civil Society and Community Leadership	
CSCS 530	Purpose-Driven Organizations	
CSCS 542	Nonprofit Board Leadership	
Create Your Own Depth Pathway		
Any CSCS courses not otherwise taken to satisfy the program requirements (https://guide.wisc.edu/courses/cscs/)		
Career Readiness		
CSCS 254	Career Pathways in Community & Organizational Development	1

INTER-HE 202	SoHE Career & Leadership Development	1
INTER-HE 601	Internship	3
Electives		
Select electives to fulfill degree requirement of 120 credits		

LEARNING OUTCOMES

LEARNING OUTCOMES

1. (Ecological perspectives on community and society) Articulate and apply an ecological perspective at discrete levels of analysis (individual, group, community, and society).
2. (Civic literacy and the public sphere) Assess the major trends in civil society recognizing the influence and interconnectedness across the major sectors of society and exhibit strong capacity for sustained, high impact participation in civic life.
3. (Identity, diversity, and social justice) Recognize well-being and social justice as relational and position, applying these principles in community organizing and empowerment.
4. (Organizational management and professional development) Demonstrate entry-level knowledge and skills relevant to nonprofit and community organizations and exhibit the practices of a lifelong learner.
5. (Research, analysis, and communication) Vet and/or generate high quality data, perform relevant analyses, and share results with target audiences using oral, written, and visual communication techniques.
6. (Leadership, ethics, and well-being) Recognize the value of being a reflective, ethical leader who cultivates others' strengths and leadership capabilities, while exhibiting self-care and care for others.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This is a sample four-year plan for Community and Organizational Development. It is intended as a general guide and may not reflect the most current course offerings or requirement designations. We encourage all students to work with their academic advisor to develop an individualized plan and to verify all degree requirements through their DARS report (https://registrar.wisc.edu/dars/).

Freshman

Fall	Credits	Spring	Credits
CSCS 125	3	CSCS 254	1

Total Credits 120-122

ADVISING AND CAREERS

ADVISING AND CAREERS

ADVISING & CAREER CENTER

The Advising & Career Center (ACC) fosters undergraduate students' personal, academic, and professional development. Through advising, academic planning, and career education, we support students as they navigate the college experience—from exploring our majors as prospective students to becoming Human Ecology alumni.

Academic Advising

Each Human Ecology student is assigned to an academic advisor in the Advising & Career Center. Human Ecology academic advisors support academic and personal success by partnering with current and prospective Human Ecology students as they identify and clarify their educational goals, develop meaningful academic plans, and pursue their own Wisconsin Experience.

To explore academic advising resources or schedule an appointment with Human Ecology academic advisor, visit Academic Advising in

Human Ecology (https://advising.humanecology.wisc.edu/academics/scheduling/).

Career Development

Each Human Ecology student is assigned to a career advisor in the Advising & Career Center. Active engagement in the career development process is a vital component of a student's personal growth in college and future success as a lifelong learner, professional, and global citizen. Human Ecology career advisors help prepare students for life post-graduation through advising and integration of career readiness throughout our curriculum.

To explore career development resources or schedule an appointment with a Human Ecology career advisor, visit Career Development in Human Ecology (https://advising.humanecology.wisc.edu/careers/scheduling/).

For information about possible career paths related to this major, check out What Can I Do With A Major In Community Organization & Development? (https://kb.wisc.edu/sohe/159157/)

WISCONSIN EXPERIENCE

WISCONSIN EXPERIENCE

INTERNSHIPS

Internships are a vital component of student career development and a highly valued part of the undergraduate curriculum in the School of Human Ecology. By bringing classroom theories to life in real-world settings, high-quality internships foster essential professional development. They provide a unique opportunity for students to explore careers related to their major, gain hands-on experience in a field of interest, and understand workplace expectations by performing professional tasks in their chosen field.

For Human Ecology majors, completing an internship is a required part of the undergraduate curriculum. To fulfill this requirement, students must meet the following criteria:

- Enrollment Requirements: Have at least junior standing (54+ credits) and taken INTER-HE 202 (SoHE Career & Leadership Development) before pursuing the internship.
- Time Commitment: Complete a minimum of 150 hours at the internship site to earn 3 academic credits.
- Eligibility & Approval: Secure an internship that is educational in nature, directly related to their major and career goals, and verified and approved by the Advising & Career Center (https://go.wisc.edu/acc_office/).
- Note: Additional course prerequisites may be required for certain Human Ecology majors.

For more information and step-by-step guidance, please visit Human Ecology Internships (https://advising.humanecology.wisc.edu/careers/internship-requirement/).

STUDENT ORGANIZATIONS

To see our active list of Human Ecology Student Orgs and for more information about joining, please visit Human Ecology Student Organizations (https://advising.humanecology.wisc.edu/studentlife/join-a-student-organization/).

Learn more about UW–Madison registered student organizations through the Wisconsin Involvement Network (https://win.wisc.edu/).

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

SCHOLARSHIPS

The School of Human Ecology (SoHE) awards many merit and need-based scholarships each year. Students can learn more about these opportunities on the Human Ecology scholarships webpage (https://humanecology.wisc.edu/academics/scholarships/). To be eligible for these awards, scholarship recipients must be registered as full-time Human Ecology students. For further questions on the scholarship application, please contact the School of Human Ecology Scholarship Coordinator at scholarships@sohe.wisc.edu.

SUPPORT RESOURCES

Human Ecology students experiencing personal, academic, or financial challenges should contact SoHE Academic Deans Services (https://advising.humanecology.wisc.edu/academic-dean-services/). Additional campus resources include the Financial Aid Basic Needs website (https://basicneeds.students.wisc.edu/), Office of Student Assistance and Support (https://osas.wisc.edu/), and University Health Services (https://www.uhs.wisc.edu/).

CONSUMER SCIENCE

The Department of Consumer Science studies interactions among consumers, business, and government in order to advance the well-being of consumers, families, and communities. The department is multi-disciplinary, including study in economics, finance, sociology, psychology, marketing, and public affairs. The Department of Consumer Science offers two undergraduate degree programs, Consumer Behavior & Marketplace Studies and Personal Finance. Both programs focus broadly on the economic well-being of consumers and society. The department also offers MS and PhD degrees in Human Ecology: Consumer Behavior and Family Economics.

DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/CERTIFICATES

CONSUMER BEHAVIOR AND MARKETPLACE STUDIES, BS

The Bachelor of Science degree inConsumer Behavior and Marketplace Studies (https://humanecology.wisc.edu/academics/undergraduate-majors/consumer-behavior-marketplace-studies/) integrates research and knowledge from sociology, psychology, marketing, public affairs, economics and finance to understand, develop and improve the global customer experience. Students learn to analyze and solve problems from a people-first, and therefore a consumer-first perspective.

Our experienced faculty guide students through an applied and project-based curriculum that prepares them for careers in a variety of diverse and rapidly growing companies around the world. As a Consumer Behavior and Marketplace Studies major, students will learn to apply both creative and analytical skills to better understand and improve the global customer experience from a human-centered approach. Active student learning is accomplished with the support and guidance of faculty, industry experts, and researchers.

All Human Ecology undergraduate students complete a required internship before graduating, allowing them to further pursue their own personal interests and to further develop a strong portfolio of knowledge and experience that will propel them to launch successful careers.

Students in the major benefit from theKohl's Center for Retailing (https://badgersinretailing.wisc.edu/), housed in the School of Human Ecology. The Center offers opportunities for students to network with industry partners, participate in case competitions, and attend trade shows and industry conferences. Additionally, as aNational Retail Federation University Member (https://nrf.com/membership/nrf-university-membership/) and Fashion Scholarship Fund (https://www.fashionscholarshipfund.org/about/) member, students gain the skills and resources needed for a life-changing career in a dynamic and growing global retail industry.

Potential career areas could be, and are not limited to:

- Consumer Insights and Analytics
- Merchandise Buying and Planning
- Media and Public Relations
- Product Development
- Brand Management
- Advertising, Marketing and Promotions
- Social Media and Content Development
- Corporate Social Responsibility
- Entrepreneurship
- Consulting

For information about possible career paths related to this major, check out What Can I Do With A Major In Consumer Behavior & Marketplace Studies? (https://kb.wisc.edu/images/group402/159229/SoHE_CBMSSkillsSheet_FNL-accessible.pdf)

HOW TO GET IN

HOW TO GET IN

CURRENT UW–MADISON STUDENTS

Students in their first year of enrollment at UW-Madison

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are able to declare. For information on how to declare, see: https://go.wisc.edu/sohe-declare (https://go.wisc.edu/sohe-declare/).
Courses required to get in	None.

GPA requirements to get in	• First-semester students have no GPA requirement to declare. • Non-first-semester students within their first year of enrollment at UW-Madison: Minimum 2.750 cumulative GPA based on all UW-Madison coursework.
Credits required to get in	None.
Other	Must be in good academic standing with their current school or college.

All other students (who do not meet the declaration criteria above)

Requirements	Details
How to get in	Application required. Meeting the requirements listed below does not guarantee admission. (https://go.wisc.edu/sohe-apply (https://go.wisc.edu/sohe-apply/))
Courses required to get in	None.
GPA requirements to get in	None.
Credits required to get in	None.
Other	Must be in good academic standing with their current school or college.

Semester	Deadline to apply	Decision notification timeline
To apply for a fall start	The fifth Friday of the term.	Students will be notified about decisions approximately one month after the application deadline.
To apply for a spring start	The fifth Friday of the term.	Students will be notified about decisions approximately one month after the application deadline.
To apply for a summer start	This program does not accept applications to start in the summer.	

PROSPECTIVE UW-MADISON STUDENTS

All prospective UW–Madison students must apply through the central Office of Admissions and Recruitment (https://www.admissions.wisc.edu/).

Students who indicate interest in Consumer Behavior and Marketplace Studies on their UW–Madison application will be admitted to the major upon admittance to the University. In addition, students may indicate interest in Consumer Behavior and Marketplace Studies when registering for Student Orientation, Advising, and Registration (SOAR).

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

SCHOOL OF HUMAN ECOLOGY BS REQUIREMENTS

All Human Ecology majors share the requirements listed below. Each major has additional requirements. A single course can simultaneously count toward university, school, and major requirements if it carries the relevant designations

Human Ecology Breadth	6 credits in the School of Human Ecology (CNSR SCI, CSCS, DS, HDFS, INTER-HE) taken outside of the home department of the major. Excludes INTER-HE 202 or 601.
Communication A	Complete either: • one course with the Communication A designation, or • satisfaction of Communication A based on UW Placement Test.
Communication B	One course with the Communication B designation.
Quantitative Reasoning A	Complete either: • one course with the Quantitative Reasoning A designation, or • satisfaction of Quantitative Reasoning A based on UW Placement Test.
Quantitative Reasoning B	One course with the Quantitative Reasoning B designation.
Humanities/ Literature/ Arts	9 credits with the Humanities, Literature, or Language designations.
Social Science	9 credits with the Social Sciences designation.
Natural Science	9 credits with the Biological, Natural, or Physical Science designations.
Ethnic Studies	3 credits with the Ethnic Studies designation.

GRADUATION REQUIREMENTS

Cumulative Credits	Students must earn 120 degree credits.
Quality of Work	Students must maintain a minimum cumulative grade point average of 2.000 to remain in good standing and be eligible for graduation.
Residency	Students must complete 30 degree credits in residence at UW–Madison.

CONSUMER BEHAVIOR AND MARKETPLACE STUDIES REQUIREMENTS

A complete list of requirements is below. Students should follow the curriculum requirements in place at the time they entered the major. This requirement list should be used in combination with a DARS report.

Code	Title	Credits
Math		
Select one of the following (or may be satisfied by placement exam):		0-3
MATH 112	College Algebra	
MATH 114	Precalculus	
Statistics		
Select one of the following:		3-4
STAT 301	Introduction to Statistical Methods	
SOC/ C&E SOC 360	Statistics for Sociologists I	
STAT 371	Introductory Applied Statistics for the Life Sciences	
PSYCH 210	Basic Statistics for Psychology	
ECON 310	Statistics: Measurement in Economics	
Economics		
ECON 101	Principles of Microeconomics	4
Consumer Behavior and Marketplace Studies Core Courses		
CNSR SCI 257	Introduction to Retail	2
CNSR SCI 201	Consumer Insights [2]	3
CNSR SCI 175	Introduction to Consumer Finance	3
CNSR SCI 357	Consumer Behavior	3
CNSR SCI 564	Retail Financial Analysis [2]	3
CNSR SCI 555	Consumer Strategy Consulting Practicum [2]	3

Accounting Course		
Select one course from the following:		3
ACCT I S 300	Accounting Principles	
ACCT I S 100	Introductory Financial Accounting	
GEN BUS 310	Fundamentals of Accounting and Finance for Non-Business Majors	
Excel Proficiency		
Select one course from the following:		1-2
GEN BUS 106	Foundational Skills for Business Analysis	
A A E 335	Introduction to Data Analysis using Spreadsheets	
Consumer Behavior and Marketplace Studies Depth		
Select one course from the following:		3
CNSR SCI 301	Consumer Analytics [2]	
CNSR SCI 561	Consumer Engagement Strategies [2]	
CNSR SCI 562	The Global Consumer [2]	
CNSR SCI 567	Product Development Strategies in Retailing [2]	
Consumer Science Depth		
Select 6 credits from the course list below not otherwise taken in the Consumer Behavior and Marketplace Studies Depth category:		6
CNSR SCI/ RELIG ST 173	Consuming Happiness	
CNSR SCI 255	Consumer Financial Services Innovation	
CNSR SCI 273	Finances & Families	
CNSR SCI 301	Consumer Analytics [2]	
CNSR SCI 340	Building Financial Assets and Capability for Vulnerable Families	
CNSR SCI 360	Sustainable and Socially Just Consumption	
CSCS 455	Entrepreneurialism and Society	
CNSR SCI/ HDFS 465	Families & Poverty	
CNSR SCI 477	The Consumer and the Market [2]	
CNSR SCI 501	Special Topics	
CNSR SCI 561	Consumer Engagement Strategies [2]	
CNSR SCI 562	The Global Consumer [2]	
CNSR SCI 567	Product Development Strategies in Retailing [2]	
CNSR SCI 579	Consumer Policy Analysis	
Career Readiness		
CNSR SCI 250	Consumer Marketplace Leadership Symposium [1]	1
INTER-HE 202	SoHE Career & Leadership Development	1
INTER-HE 601	Internship	3
Electives		
Select electives to bring degree credit total to 120		

[1] CNSR SCI 250 Consumer Marketplace Leadership Symposium may be repeated for up to three credits. Credits in addition to the one required credit will be counted as elective credits.

[2] Consider the course prerequisites when planning.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Invoke interdisciplinary and collaborative approaches to understand the interactions between individuals and their social and environmental contexts.
2. Demonstrate the ability to harness, analyze and interpret relevant data for making real world decisions.
3. Acquire professional and life skills related to workplace communication, teamwork, active listening and adapting to technology.
4. Demonstrate an understanding of the global retail industry and how retailers can enhance consumer well-being.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This is a sample four-year plan for Consumer Behavior and Marketplace Studies. It is intended as a general guide and may not reflect the most current course offerings or requirement designations. We encourage all students to work with their academic advisor to develop an individualized plan and to verify all degree requirements through their DARS report (https://registrar.wisc.edu/dars/).

Please note there are several prerequisites required for course sequencing within the major. View prerequisites by clicking on the course links in the plan below. Some examples include:

- Statistics course and Excel proficiency before CNSR SCI 201 Consumer Insights
- Accounting and Excel proficiency before CNSR SCI 564 Retail Financial Analysis
- CNSR SCI 357 Consumer Behavior before CNSR SCI 555 Consumer Strategy Consulting Practicum

Freshman

Fall	Credits	Spring	Credits
CNSR SCI 175	3	CNSR SCI 257	2
MATH 112	3	ECON 101	4
Communication A	3	Human Ecology Breadth	3
Ethnic Studies	3	Communication B	3-4
Science	3	Humanities	3
	15		**15-16**

Sophomore

Fall	Credits	Spring	Credits
CNSR SCI 250	1	INTER-HE 202	1
CNSR SCI 357	3	CNSR SCI 201	3
STAT 301 (or other Statistics course from requirement list)	3	ACCT I S 100	3

GEN BUS 106 or A A E 335 (Excel proficiency)	1-2 Humanities	3
Social Science	3 Science	3
Science	3 Elective	2
	14-15	**15**

Junior

By bringing classroom theories to life in real-world settings, high-quality internships foster essential professional development. They provide a unique opportunity for students to explore careers related to their major, gain hands-on experience in a field of interest, and understand workplace expectations by performing professional tasks in their chosen field.

For Human Ecology majors, completing an internship is a required part of the undergraduate curriculum. To fulfill this requirement, students must meet the following criteria:

- Enrollment Requirements: Have at least junior standing (54+ credits) and taken INTER-HE 202 (SoHE Career & Leadership Development) before pursuing the internship.
- Time Commitment: Complete a minimum of 150 hours at the internship site to earn 3 academic credits.
- Eligibility & Approval: Secure an internship that is educational in nature, directly related to their major and career goals, and verified and approved by the Advising & Career Center (https://go.wisc.edu/acc_office/).
- Note: Additional course prerequisites may be required for certain Human Ecology majors.

For more information and step-by-step guidance, please visit Human Ecology Internships (https://advising.humanecology.wisc.edu/careers/internship-requirement/).

STUDENT ORGANIZATIONS

To see our active list of Human Ecology Student Orgs and for more information about joining, please visit Human Ecology Student Organizations (https://advising.humanecology.wisc.edu/studentlife/join-a-student-organization/).

Learn more about UW–Madison registered student organizations through the Wisconsin Involvement Network (https://win.wisc.edu/).

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

SCHOLARSHIPS

The School of Human Ecology (SoHE) awards many merit and need-based scholarships each year. Students can learn more about these opportunities on the Human Ecology scholarships webpage (https://humanecology.wisc.edu/academics/scholarships/). To be eligible for these awards, scholarship recipients must be registered as full-time Human Ecology students. For further questions on the scholarship application, please contact the School of Human Ecology Scholarship Coordinator at scholarships@sohe.wisc.edu.

SUPPORT RESOURCES

Human Ecology students experiencing personal, academic, or financial challenges should contact SoHE Academic Deans Services (https://advising.humanecology.wisc.edu/academic-dean-services/). Additional campus resources include the Financial Aid Basic Needs website (https://basicneeds.students.wisc.edu/), Office of Student Assistance and Support (https://osas.wisc.edu/), and University Health Services (https://www.uhs.wisc.edu/).

CONSUMER FINANCE AND FINANCIAL PLANNING, BS

The Consumer Finance and Financial Planning, BS no longer admits new students after Spring 2024 and the program will be discontinued Fall 2032. If you have any questions, please contact the department (see contact box).

This program provides an opportunity for students to complete the BS Consumer Finance and Financial Planning degree at a distance. This option is ideal for returning students with some college credits who would like to complete the program in a flexible online format, with no on-campus attendance required. This program is interdisciplinary with an emphasis on financial management and the economic well-being of individuals and families. Topics include financial counseling, coaching, wealth management, financial product development, financial technology, and consumer behavior. Completion of the program and one additional elective course will make graduates eligible to sit for the Certified Financial Planner® (CFP) exam, which Human Ecology students pass well above the national average.

HOW TO GET IN

HOW TO GET IN

The Consumer Finance and Financial Planning, BS no longer admits new students after Spring 2024 and the program will be discontinued Fall 2032. If you have any questions, please contact the department (see contact box).

REQUIREMENTS

UNIVERSITY GENERAL EDUCATION REQUIREMENTS

All undergraduate students at the University of Wisconsin-Madison are required to fulfill a minimum set of common university general education requirements to ensure that every graduate acquires the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. Various schools and colleges will have requirements in addition to the requirements listed below. Consult your advisor for assistance, as needed. For additional information, see the university Undergraduate General Education Requirements (p. 15) section of the Guide.

General Education	• Breadth—Humanities/Literature/Arts: 6 credits • Breadth—Natural Science: 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits • Breadth—Social Studies: 3 credits • Communication Part A & Part B • Ethnic Studies • Quantitative Reasoning Part A & Part B

SCHOOL OF HUMAN ECOLOGY REQUIREMENTS

Code	Title	Credits
Math		
MATH 112	College Algebra	3
Or higher (not MATH 141) unless exempt through placement exam		
Statistics		*3*
STAT 301	Introduction to Statistical Methods	
Arts and Humanities		
Literature		3
Humanities		6
Social Science		
ECON 101	Principles of Microeconomics	4
ECON 102	Principles of Macroeconomics	3-4
Choose any designated Social Science breadth course to bring total credits to 9		3
Physical, Biological, or Natural Science		9
Human Ecology Breadth		*3*

Select one Human Ecology course from CSCS, DS, HDFS, or INTER-HE.	
Total Credits	**37-38**

BACHELOR OF SCIENCE IN CONSUMER FINANCE AND FINANCIAL PLANNING REQUIREMENTS

Core requirements for the major are below. Students should follow the curriculum requirements in place at the time they entered the major. This requirement list should be used in combination with a DARS report. All students declared in the Bachelor of Science in Consumer Finance and Financial Planning major must only take online courses.

Code	Title	Credits
Excel Proficiency		
Select one course from the following:		1-2
GEN BUS 106	Foundational Skills for Business Analysis	
A A E 335	Introduction to Data Analysis using Spreadsheets	
Personal Finance Core		
CNSR SCI 201	Consumer Insights	3
CNSR SCI 275	Introduction to Personal Financial Planning	3
ACCT I S 300	Accounting Principles	3
or ACCT I S 100	Introductory Financial Accounting	
CNSR SCI 357	Consumer Behavior	3
CNSR SCI 477	The Consumer and the Market	3
Financial Planning Courses		
CNSR SCI 627	Advanced Consumer Finance	3
CNSR SCI 635	Estate Planning for Financial Planners	3
CNSR SCI 675	Family Financial Counseling	3
CNSR SCI 665	Household Risk Management	3
Professional Development		
CNSR SCI 251	Financial Services Leadership Symposium [1]	1
INTER-HE 202	SoHE Career & Leadership Development	1
Electives		
Select electives to bring degree credit total to 120 [2]		
Total Credits		**30-31**

[1] CNSR SCI 251 Financial Services Leadership Symposium may be repeated for up to 2 credits. The additional credit will be counted as an elective.

[2] ACCT I S 329 Taxation: Concepts for Business and Personal Planning is a recommended elective for students who want to be eligible to take the Certified Financial Planner (CFP) exam.

UNIVERSITY DEGREE REQUIREMENTS

Total Degree	To receive a bachelor's degree from UW–Madison, students must earn a minimum of 120 degree credits. The requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements.
Residency	Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. "In residence" means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats and credits earned in UW–Madison Study Abroad/Study Away programs.
Quality of Work	Undergraduate students must maintain the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Invoke interdisciplinary and collaborative approaches to understand the interactions between individuals and their social and environmental contexts.
2. Demonstrate the ability to harness, analyze and interpret relevant data for making real world decisions.
3. Acquire professional and life skills related to workplace communication, teamwork, active listening and adapting to technology.
4. Demonstrate an understanding of consumer financial behavior and the role of income, savings, credit, planning, and benefits.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This program is designed for transfer students, most of whom will enroll on a part-time basis. As such, there is not a four-year plan for this program. Please refer to the Requirements tab for more information about the curriculum and program plan.

ADVISING AND CAREERS

ADVISING AND CAREERS

ACADEMIC ADVISING

Each UW–Madison Online student is assigned an academic and career (AC) advisor (https://online.wisc.edu/academic-advisor/). The AC advisor will support the academic and personal success of each student by partnering with SoHE advisors in the Student Academic Affairs & Career Development Office (SAA) to assist students as they identify and clarify their educational goals, develop meaningful academic plans, and pursue their own Wisconsin Experience. To find out about other ways UW–

Madison's campus supports online learners, visit the Academic Support Services page. (https://oss.wisc.edu/support-services/)

CAREER DEVELOPMENT

Active engagement in the career development process is a vital component of a student's personal growth in college and future success as a lifelong learner, professional, and global citizen. AC advisors (https://online.wisc.edu/academic-career-advisor/) help prepare students for life post-graduation through individual and group advising. The Office of Online Student Success (OSS) (https://oss.wisc.edu/) also provides a number of career resources (https://oss.wisc.edu/resumes/) for online learners.

CERTIFICATION/LICENSURE

CERTIFICATION/LICENSURE

Completion of the BS in Consumer Finance and Financial Planning and one additional elective course will make graduates eligible to sit for the Certified Financial Planner® (CFP) exam.

PROFESSIONAL CERTIFICATION/LICENSURE DISCLOSURE (NC-SARA)

The United States Department of Education (via 34 CFR Part 668 (https://www.ecfr.gov/current/title-34/subtitle-B/chapter-VI/part-668/?toc=1)) requires institutions that provide distance education to disclose information for programs leading to professional certification or licensure. The expectation is that institutions will determine whether each applicable academic program meets state professional licensure requirements and provide a general disclosure of such on an official university website.

Professional licensure requirements vary from state-to-state and can change year-to-year; they are established in a variety of state statutes, regulations, rules, and policies; and they center on a range of educational requirements, including degree type, specialized accreditation, total credits, specific courses, and examinations.

UW-Madison has taken reasonable efforts to determine whether this program satisfies the educational requirements for certification/licensure in states where prospective and enrolled students are located and is disclosing that information as follows.

Disclaimer: This information is based on the most recent annual review of state agency certification/licensure data and is subject to change. All students are strongly encouraged to consult with the individual/office listed in the Contact Information box on this page and with the applicable state agency for specific information.

The requirements of this program meet Certification/Licensure in the following states:
Alabama, Alaska, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, Wyoming District of Columbia; American Samoa, Guam, Northern Mariana Islands, Puerto Rico, U.S. Virgin Islands

The requirements of this program do not meet Certification/Licensure in the following states:
Not applicable

CONSUMER MARKETPLACE STUDIES, BS

The Consumer Marketplace Studies, BS no longer admits new students after Spring 2024 and the program will be discontinued Fall 2032. If you have any questions, please contact the department (see contact box).

Consumer Marketplace Studies provides an opportunity for students to complete their degree at a distance. This option is ideal for returning students with some college credits who would like to complete their undergraduate degree in a flexible online format, with no on-campus attendance required. Program emphasis is on researching, understanding, and improving the global customer experience. Topics include retailing, consumer behavior, and consumer research and analysis. Graduates will be prepared to meet industry demand for employees with strong analytic and decision-making skills, who can redefine the way companies empathize and engage with their customers.

HOW TO GET IN

PERSONAL FINANCE, BS

The Bachelor of Science degree in Personal Finance (https://humanecology.wisc.edu/academics/undergraduate-majors/personal-finance/) is an interdisciplinary program with an emphasis on financial management and the economic well-being of individuals and families. The program offers two options: (1) Personal Finance and (2) Financial Planning.

The Bachelor of Science degree in Personal Finance looks at economics from a human-centered perspective, developing financial experts who can help individuals and families live more financially secure lives. Graduates of the program are prepared to work in personal financial planning, wealth management, and financial policy management.

The Personal Finance option has an emphasis on financial product development, financial technologies, and governing/policy-making agencies that impact individuals and families. The coursework is interdisciplinary with an emphasis on financial management, economic and data analysis, and policy development. The Personal Finance option leads to careers in risk management, financial analysis, investment underwriting, banking, financial coaching, community-based financial education, and national policy trends (for example, the Federal Reserve).

The Financial Planning option is registered with the CERTIFIED FINANCIAL PLANNER® Board of Standards (view Financial Planning requirements (https://guide.wisc.edu/undergraduate/human-ecology/consumer-science/personal-finance-bs/personal-finance-financial-planning-bs/#requirementstext)). The coursework is interdisciplinary with an emphasis on financial advising and management to promote the economic well-being of individuals and families. The Financial Planning option is the more traditional personal finance program leading to careers in household financial planning, counseling, coaching, wealth management, and investment analysis and operations. Graduates of the Financial Planning option leave fully prepared to sit for the prestigious CERTIFIED FINANCIAL PLANNER® exam, which our students pass well above the national average.

All Human Ecology undergraduate students complete a required internship before graduating, allowing them to pursue their own personal interests and develop a strong portfolio of skills and references that will propel them to launch successful careers.

HOW TO GET IN

HOW TO GET IN

CURRENT UW–MADISON STUDENTS

Students in their first year of enrollment at UW-Madison

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are able to declare. For information on how to declare, see: https://go.wisc.edu/sohe-declare (https://go.wisc.edu/sohe-declare/).
Courses required to get in	None.
GPA requirements to get in	• First-semester students have no GPA requirement to declare. • Non-first-semester students within their first year of enrollment at UW-Madison: Minimum 2.750 cumulative GPA based on all UW-Madison coursework.
Credits required to get in	None.
Other	Must be in good academic standing with their current school or college.

All other students (who do not meet the declaration criteria above)

Requirements	Details
How to get in	Application required. Meeting the requirements listed below does not guarantee admission. (https://go.wisc.edu/sohe-apply (https://go.wisc.edu/sohe-apply/))
Courses required to get in	None.
GPA requirements to get in	None.
Credits required to get in	None.
Other	Must be in good academic standing with their current school or college.

Semester	Deadline to apply	Decision notification timeline
To apply for a fall start	The fifth Friday of the term.	Students will be notified about decisions approximately one month after the application deadline.
To apply for a spring start	The fifth Friday of the term.	Students will be notified about decisions approximately one month after the application deadline.
To apply for a summer start	This program does not accept applications to start in the summer.	

PROSPECTIVE UW-MADISON STUDENTS

All prospective UW–Madison students must apply through the central Office of Admissions and Recruitment (https://www.admissions.wisc.edu/).

Students who indicate interest in Personal Finance on their UW–Madison application will be admitted to the major upon admittance to the University. In addition, students may indicate interest in Personal Finance when registering for Student Orientation, Advising, and Registration (SOAR).

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

SCHOOL OF HUMAN ECOLOGY BS REQUIREMENTS

All Human Ecology majors share the requirements listed below. Each major has additional requirements. A single course can simultaneously count toward university, school, and major requirements if it carries the relevant designations

Human Ecology Breadth	6 credits in the School of Human Ecology (CNSR SCI, CSCS, DS, HDFS, INTER-HE) taken outside of the home department of the major. Excludes INTER-HE 202 or 601.
Communicatio A	Complete either: • one course with the Communication A designation, or • satisfaction of Communication A based on UW Placement Test.
Communication B	One course with the Communication B designation.
Quantitative Reasoning A	Complete either: • one course with the Quantitative Reasoning A designation, or • satisfaction of Quantitative Reasoning A based on UW Placement Test.

Quantitative Reasoning B	One course with the Quantitative Reasoning B designation.
Humanities/ Literature/ Arts	9 credits with the Humanities, Literature, or Language designations.
Social Science	9 credits with the Social Sciences designation.
Natural Science	9 credits with the Biological, Natural, or Physical Science designations.
Ethnic Studies	3 credits with the Ethnic Studies designation.

GRADUATION REQUIREMENTS

Cumulative Credits	Students must earn 120 degree credits.
Quality of Work	Students must maintain a minimum cumulative grade point average of 2.000 to remain in good standing and be eligible for graduation.
Residency	Students must complete 30 degree credits in residence at UW–Madison.

PERSONAL FINANCE REQUIREMENTS

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Invoke interdisciplinary and collaborative approaches to understand the interactions between individuals and their social and environmental contexts.
2. Demonstrate the ability to harness, analyze and interpret relevant data for making real world decisions.
3. Acquire professional and life skills related to workplace communication, teamwork, active listening and adapting to technology.
4. Demonstrate an understanding of consumer financial behavior and the role of income, savings, credit, planning and benefits.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This is a sample four-year plan for Personal Finance. It is intended as a general guide and may not reflect the most current course offerings or requirement designations. We encourage all students to work with their academic advisor to develop an individualized plan and to verify all degree requirements through their DARS report (https://registrar.wisc.edu/dars/).

Freshman

Fall	Credits	Spring	Credits
MATH 112	3	ECON 101	4
Communication A	3	Human Ecology Breadth	3
Ethnic Studies	3	Communication B	3-4
Science	3	Humanities	3
Elective	2	Science	3
	14		**16-17**

Sophomore

Fall	Credits	Spring	Credits
CNSR SCI 251	1	INTER-HE 202	1
CNSR SCI 275	3	Humanities	3

Total Credits 120-123

ADVISING AND CAREERS

ADVISING AND CAREERS

ADVISING & CAREER CENTER

The Advising & Career Center (ACC) fosters undergraduate students' personal, academic, and professional development. Through advising, academic planning, and career education, we support students as they navigate the college experience—from exploring our majors as prospective students to becoming Human Ecology alumni.

Academic Advising

Each Human Ecology student is assigned to an academic advisor in the Advising & Career Center. Human Ecology academic advisors support academic and personal success by partnering with current and prospective Human Ecology students as they identify and clarify their educational goals, develop meaningful academic plans, and pursue their own Wisconsin Experience.

To explore academic advising resources or schedule an appointment with Human Ecology academic advisor, visit Academic Advising in Human Ecology (https://advising.humanecology.wisc.edu/academics/scheduling/).

Career Development

Each Human Ecology student is assigned to a career advisor in the Advising & Career Center. Active engagement in the career development process is a vital component of a student's personal growth in college and future success as a lifelong learner, professional, and global citizen. Human Ecology career advisors help prepare students for life post-graduation through advising and integration of career readiness throughout our curriculum.

To explore career development resources or schedule an appointment with a Human Ecology career advisor, visit Career Development in Human Ecology (https://advising.humanecology.wisc.edu/careers/scheduling/).

For information about possible career paths related to this major, check out What Can I Do With A Major In Personal Finance? (https://kb.wisc.edu/sohe/159236/)

WISCONSIN EXPERIENCE

WISCONSIN EXPERIENCE

INTERNSHIPS

Internships are a vital component of student career development and a highly valued part of the undergraduate curriculum in the School of Human Ecology. By bringing classroom theories to life in real-world settings, high-quality internships foster essential professional development. They provide a unique opportunity for students to explore careers related to their major, gain hands-on experience in a field of interest, and understand workplace expectations by performing professional tasks in their chosen field.

For Human Ecology majors, completing an internship is a required part of the undergraduate curriculum. To fulfill this requirement, students must meet the following criteria:

- Enrollment Requirements: Have at least junior standing (54+ credits) and taken INTER-HE 202 (SoHE Career & Leadership Development) before pursuing the internship.
- Time Commitment: Complete a minimum of 150 hours at the internship site to earn 3 academic credits.
- Eligibility & Approval: Secure an internship that is educational in nature, directly related to their major and career goals, and verified and approved by the Advising & Career Center (https://go.wisc.edu/acc_office/).
- Note: Additional course prerequisites may be required for certain Human Ecology majors.

For more information and step-by-step guidance, please visit Human Ecology Internships (https://advising.humanecology.wisc.edu/careers/internship-requirement/).

STUDENT ORGANIZATIONS

To see our active list of Human Ecology Student Orgs and for more information about joining, please visit Human Ecology Student Organizations (https://advising.humanecology.wisc.edu/studentlife/join-a-student-organization/).

Learn more about UW–Madison registered student organizations through the Wisconsin Involvement Network (https://win.wisc.edu/).

CERTIFICATION/LICENSURE

CERTIFICATION/LICENSURE

PROFESSIONAL CERTIFICATION/LICENSURE DISCLOSURE (NC-SARA)

The United States Department of Education (via 34 CFR Part 668 (https://www.ecfr.gov/current/title-34/subtitle-B/chapter-VI/part-668/?toc=1)) requires institutions that provide distance education to disclose information for programs leading to professional certification or licensure. The expectation is that institutions will determine whether each applicable academic program meets state professional licensure requirements and provide a general disclosure of such on an official university website.

Professional licensure requirements vary from state-to-state and can change year-to-year; they are established in a variety of state statutes, regulations, rules, and policies; and they center on a range of educational requirements, including degree type, specialized accreditation, total credits, specific courses, and examinations.

UW-Madison has taken reasonable efforts to determine whether this program satisfies the educational requirements for certification/licensure in states where prospective and enrolled students are located and is disclosing that information as follows.

Disclaimer: This information is based on the most recent annual review of state agency certification/licensure data and is subject to change. All students are strongly encouraged to consult with the individual/office listed in the Contact Information box on this page and with the applicable state agency for specific information.

The requirements of this program meet certification/licensure requirements in the following states:
Alabama, Alaska, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, Wyoming District of Columbia; American Samoa, Guam, Northern Mariana Islands, Puerto Rico, U.S. Virgin Islands

The requirements of this program do not meet certification/licensure requirements in the following states:
Not applicable

Updated: 1 June 2026

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

SCHOLARSHIPS

The School of Human Ecology (SoHE) awards many merit and need-based scholarships each year. Students can learn more about these opportunities on the Human Ecology scholarships webpage (https://humanecology.wisc.edu/academics/scholarships/). To be eligible for these awards, scholarship recipients must be registered as full-time Human Ecology students. For further questions on the scholarship application, please contact the School of Human Ecology Scholarship Coordinator at scholarships@sohe.wisc.edu.

SUPPORT RESOURCES

Human Ecology students experiencing personal, academic, or financial challenges should contact SoHE Academic Deans Services (https://advising.humanecology.wisc.edu/academic-dean-services/). Additional campus resources include the Financial Aid Basic Needs website (https://basicneeds.students.wisc.edu/), Office of Student Assistance and Support (https://osas.wisc.edu/), and University Health Services (https://www.uhs.wisc.edu/).

PERSONAL FINANCE: FINANCIAL PLANNING, BS

Within the Personal Finance program, students may choose to complete the Financial Planning option. This Financial Planning option is registered with the Certified Financial Planner® Board of Standards. The coursework is interdisciplinary with an emphasis on financial management and the economic well-being of individuals and families. The Financial Planning option is the more traditional Personal Finance program leading to careers in counseling, coaching, financial planning, and wealth management. Graduates of the Financial Planning option leave fully prepared to sit for the prestigious Certified Financial Planner® exam, which Human Ecology students pass well above the national average

REQUIREMENTS

REQUIREMENTS

Core requirements for the named option are below. Students should follow the curriculum requirements in place at the time they entered the major. This requirement list should be used in combination with a DARS report.

Code	Title	Credits
Math		
Select one of the following (or may be satisfied by placement exam):		0-3
MATH 112	College Algebra	
MATH 114	Precalculus	
Statistics		
Select one of the following:		3-4
STAT 301	Introduction to Statistical Methods	
SOC/ C&E SOC 360	Statistics for Sociologists I	
STAT 371	Introductory Applied Statistics for the Life Sciences	
PSYCH 210	Basic Statistics for Psychology	
ECON 310	Statistics: Measurement in Economics	
Economics		
ECON 101	Principles of Microeconomics	4
ECON 102	Principles of Macroeconomics	3-4
Excel Proficiency		
Select one course from the following:		1-2
GEN BUS 106	Foundational Skills for Business Analysis	
A A E 335	Introduction to Data Analysis using Spreadsheets	
Personal Finance Core		
CNSR SCI 201	Consumer Insights	3
CNSR SCI 275	Introduction to Personal Financial Planning	3
CNSR SCI 355	Financial Coaching	3
ACCT I S 100	Introductory Financial Accounting	3
or ACCT I S 300	Accounting Principles	
Financial Planning Courses		
CNSR SCI 627	Advanced Consumer Finance	3
CNSR SCI 635	Estate Planning for Financial Planners	3
CNSR SCI 645	Retirement Planning for Financial Planners	3
CNSR SCI 675	Family Financial Counseling	3
ACCT I S 329	Taxation: Concepts for Business and Personal Planning	3
CNSR SCI 665	Household Risk Management	3
Career Readiness		
CNSR SCI 251	Financial Services Leadership Symposium [1]	1
INTER-HE 202	SoHE Career & Leadership Development	1
INTER-HE 601	Internship	3
Electives		
Select electives to bring degree credit total to 120		

[1] CNSR SCI 251 Financial Services Leadership Symposium may be repeated for up to 2 credits. The additional credit will be counted as an elective.

DESIGN STUDIES

Design Studies offers multidisciplinary education in design and research of interior design environments, textiles and apparel design, and design as a broader discipline. Students benefit from a broad-based program and faculty specializing in areas such as design visualization, environment and behavior studies, history of interiors and textiles, interior architecture, material culture, textile and apparel design, and textile science.

Three undergraduate degree majors are offered: Interior Architecture; Textiles and Fashion Design; and Design, Innovation, and Society. The department also offers multiple undergraduate certificates in Design Strategy, Material Cultures Studies, and Textiles and Design. There is also a Human Ecology: Design Studies graduate program, offering both an MFA and PhD degrees.

Student internships in the undergraduate majors augment campus course offerings, providing students with unique learning opportunities in their chosen fields. Design Studies majors have access to many design resources; a computer laboratory equipped to support design work; a digital fabrication lab and makerspace, textile studios for sewing, weaving, printing, and more; an interior architecture resource room, the Helen Louise Allen Textile Collection (https://cdmc.wisc.edu/textiles/helen-louise-allen-textile-collection/), the Ruth Davis Design Gallery (https://cdmc.wisc.edu/material-culture/ruth-davis-design-gallery/), the Lynn Mecklenburg Textile Gallery (https://cdmc.wisc.edu/textiles/lynn-mecklenburg-textile-gallery/), and the Nancy M. Bruce Center for Design and Material Culture (https://cdmc.wisc.edu/). In addition, a strong collaborative environment exists for students and faculty interaction with other departments, institutes, and museums on the campus and other design programs within the state and country.

ADVISING & CAREER CENTER

The Advising & Career Center (ACC) fosters undergraduate students' personal, academic, and professional development. Through advising, academic planning, and career education, we support students as they navigate the college experience—from exploring our majors as prospective students to becoming Human Ecology alumni.

Academic Advising

Every Human Ecology student is assigned to an academic advisor in the Advising & Career Center. Human Ecology academic advisors support academic and personal success by partnering with current and prospective Human Ecology students as they identify and clarify their educational goals, develop meaningful academic plans, and pursue their own Wisconsin Experience.

To explore academic advising resources or schedule an appointment with Human Ecology academic advisor, visit Academic Advising in Human Ecology (https://advising.humanecology.wisc.edu/academics/scheduling/).

Career Development

Each Human Ecology student is assigned to a career advisor in the Advising & Career Center. Active engagement in the career development process is a vital component of a student's personal growth in college and future success as a lifelong learner, professional, and global citizen. Human Ecology career advisors help prepare students for life post-graduation through advising and integration of career readiness throughout our curriculum.

To explore career development resources or schedule an appointment with a Human Ecology career advisor, visit Career Development in Human Ecology (https://advising.humanecology.wisc.edu/careers/scheduling/).

SCHOLARSHIPS AND SUPPORT RESOURCES

The School of Human Ecology (SoHE) awards many merit and need-based scholarships each year. Students can learn more about these opportunities on the Human Ecology scholarships webpage (https://humanecology.wisc.edu/academics/scholarships/). To be eligible for these awards, scholarship recipients must be registered as full-time Human Ecology students. For further questions on the scholarship application, please contact the School of Human Ecology Scholarship Coordinator at scholarships@sohe.wisc.edu.

Human Ecology students experiencing personal, academic, or financial challenges should contact SoHE Academic Deans Services (https://advising.humanecology.wisc.edu/academic-dean-services/). Additional campus resources include the Financial Aid Basic Needs website (https://basicneeds.students.wisc.edu), Office of Student Assistance and Support (https://osas.wisc.edu), and University Health Services (https://www.uhs.wisc.edu).

DESIGN STRATEGY, CERTIFICATE

WHAT IS IT ABOUT?

Housed in the School of Human Ecology, the Design Strategy certificate provides undergraduate students from all majors with a hands-on, interdisciplinary approach to problem-solving for strategic change. Through applying Design Thinking techniques and exploring the interconnections between people and built, natural, and financial environments, students will learn to put ideas into action and develop forward-thinking approaches to a variety of issues.

WHAT IS DESIGN STRATEGY?

Design Strategy is a successful approach to problem-solving with a focus on quality of life and sustainable futures. It begins with asking "better" questions as a way to understand the root of the problem and why it is an issue. It is an empathetic, human-centered perspective that uses Design Thinking and draws from historical precedence and current research from a variety of fields to help solve complex and persistent problems.

WHAT WILL STUDENTS GAIN?

Students acquire concrete methodologies that enable them to apply what they have learned in their degree studies in a way that goes beyond the theoretical emphasis of most degree programs. Rather than adding additional expertise and knowledge in a particular field, this certificate gives students ways to apply what they have learned in their majors to real-world problems; in the process, they become confident and creative forward thinkers, who are able to work in interdisciplinary teams.

HOW TO GET IN

HOW TO GET IN

All undergraduate students in good academic standing are eligible to apply for the Design Strategy Certificate. Visit the Apply to Human Ecology page for application information and the October and February deadlines.

REQUIREMENTS

REQUIREMENTS

FOUNDATION

Complete all three foundation courses for eight credits.

Code	Title	Credits
DS/GEN BUS 240	Human-centered Design and Business	2
DS 341	Design Thinking for Transformation	3
CNSR SCI 357	Consumer Behavior	3
or MARKETNG 305	Consumer Behavior	
Total Credits		**8**

ELECTIVES

Complete two elective courses for six credits.

Code	Title	Credits
CNSR SCI 555	Consumer Strategy Consulting Practicum	3
CNSR SCI 561	Consumer Engagement Strategies	3
CNSR SCI 567	Product Development Strategies in Retailing	3
CSCS 125	Community and Social Change	3
CSCS 155	Social Media for Social Justice	3
CSCS 255	Introduction to Social Innovation	3
CSCS 300	Nonprofit Sector: Overview and Foundations	3
CSCS 455	Entrepreneurialism and Society	3
CSCS 530	Purpose-Driven Organizations	3
CSCS 555	Community and Social Innovation Lab	3
DS 521	Environments of Crisis & Design	3
DS 527	Global Artisans	3
DS 620	Visual Thinking for Problem Solving	3
DS 641	Advanced Design Thinking for Transformation	3
HDFS 316	Stress and Resilience in Families Across the Lifespan	3
HDFS 345	Ecology of Child Health and Well-Being	3
HDFS 464	Play-Development and Role Across the Lifespan	3
HDFS/ CNSR SCI 465	Families & Poverty	3
HDFS 469	Family and Community Influences on the Young Child	3
HDFS 517	Couple Relationships	3
HDFS 535	A Family Perspective in Policymaking	3

Students who are also pursuing the Design, Innovation, and Society major may count no more than two courses toward both the major and the Design Strategy Certificate.

Students must earn a minimum 2.000 GPA on required certificate coursework. Completed courses listed within the certificate curriculum, whether or not they meet a specific requirement, are included in the calculation of the GPA.

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Demonstrate an empathetic, life-centered mindset by conducting and interpreting observations, interviews, and related research methods.

2. Apply design-based theories, concepts, and frameworks to reframe complex problems beyond traditional disciplinary approaches.
3. Collaborate effectively in team settings by practicing clear communication, shared decision-making, and collective problem-solving.
4. Analyze complex societal challenges within their broader contexts to identify root causes, relationships, and interdependencies.
5. Generate and communicate multiple ideas by employing divergent thinking, iteration, and visual storytelling techniques.
6. Formulate and evaluate design strategies by aligning human insights, system dynamics, and contextual factors with feasible and impactful actions.

ADVISING AND CAREERS

ADVISING AND CAREERS

DESIGN, INNOVATION, AND SOCIETY, BS

The Bachelor of Science degree in Design, Innovation & Society focuses on developing skill sets in design processes to innovate and solve problems in everyday life. Students will explore the interconnectedness between people, technology, culture, and social change to address today's complex societal issues

Students learn how to leverage the influential role of design through a deeper understanding of social issues, ethical considerations, global perspectives, diverse cultures, sustainability challenges, and value systems. This knowledge is applied to help address complex issues and to envision possibilities for enhancing human life through design.

The program offers three pathways:

- **Design & Technology** pathway examines how innovative technologies enable the ways we communicate, build, and experience the world around us through design
- **Design & Social Change** pathway develops skills to identify opportunities, envision strategies, and create approaches to improve the health, well-being, and sustainability of individuals, communities, and the planet
- **Design & Culture** pathway explores the media, mechanisms, and institutional frameworks for human expression, examining how design influences and is influenced by history, politics, economics, and culture

The program spans diverse design theories, methods, and disciplines. It combines content areas like visual communication, the design process, research methods, and technology, to enable students to collaborate effectively with designers and professionals from various fields.

Graduates gain the skills, tools, methods, and strategies to become future leaders in the expansive field of design.

Required internships (https://advising.humanecology.wisc.edu/careers/internship-requirement/) and collaborative capstone projects provide leadership opportunities, networking, and other career-building experiences.

HOW TO GET IN

HOW TO GET IN

CURRENT UW–MADISON STUDENTS

Students within their first 60 GPA credits at UW-Madison

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are able to declare. For information on how to declare, see: https://go.wisc.edu/sohe-declare (https://go.wisc.edu/sohe-declare/).
Courses required to get in	None.
GPA requirements to get in	• First-semester students have no GPA requirement to declare. • Non-first-semester students within the first 60 GPA credits: Minimum 2.750 cumulative GPA based on all UW-Madison coursework.
Credits required to get in	None.
Other	Must be in good academic standing with their current school or college.

All other students (who do not meet the declaration criteria above)

Requirements	Details
How to get in	Application required. Meeting the requirements listed below does not guarantee admission.(https://go.wisc.edu/sohe-apply (https://go.wisc.edu/sohe-apply/))
Courses required to get in	None.
GPA requirements to get in	None.
Credits required to get in	None.
Other	Must be in good academic standing with their current school or college.

Semester	Deadline to apply	Decision notification timeline
To apply for a fall start	The fifth Friday of the term.	Students will be notified about decisions approximately one month after the application deadline.
To apply for a spring start	The fifth Friday of the term.	Students will be notified about decisions approximately one month after the application deadline.
To apply for a summer start	This program does not accept applications to start in the summer.	

PROSPECTIVE UW-MADISON STUDENTS

All prospective UW–Madison students must apply through the central Office of Admissions and Recruitment (https://www.admissions.wisc.edu/).

Freshmen should declare their intention to pursue Design, Innovation, and Society when they apply for admission to UW–Madison. In addition, students may indicate interest in Design, Innovation, and Society when registering for Student Orientation, Advising, and Registration (SOAR).

ADDITIONAL INFORMATION

Students cannot declare the Certificate in Design Strategy and the Design, Innovation, and Society major.

For transfer students, sequential courses and courses taught only once a year should be taken into account when calculating time toward completion of the degree, as graduation time may be extended.

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

SCHOOL OF HUMAN ECOLOGY BS REQUIREMENTS

All Human Ecology majors share the requirements listed below. Each major has additional requirements. A single course can simultaneously count toward university, school, and major requirements if it carries the relevant designations

Human Ecology Breadth	6 credits in the School of Human Ecology (CNSR SCI, CSCS, DS, HDFS, INTER-HE) taken outside of the home department of the major. Excludes INTER-HE 202 or 601.
Communication A	Complete either: • one course with the Communication A designation, or • satisfaction of Communication A based on UW Placement Test.
Communication B	One course with the Communication B designation.
Quantitative Reasoning A	Complete either: • one course with the Quantitative Reasoning A designation, or • satisfaction of Quantitative Reasoning A based on UW Placement Test.
Quantitative Reasoning B	One course with the Quantitative Reasoning B designation.
Humanities/ Literature/ Arts	9 credits with the Humanities, Literature, or Language designations.
Social Science	9 credits with the Social Sciences designation.
Natural Science	9 credits with the Biological, Natural, or Physical Science designations.
Ethnic Studies	3 credits with the Ethnic Studies designation.

GRADUATION REQUIREMENTS

Cumulative Credits	Students must earn 120 degree credits.
Quality of Work	Students must maintain a minimum cumulative grade point average of 2.000 to remain in good standing and be eligible for graduation.
Residency	Students must complete 30 degree credits in residence at UW–Madison.

DESIGN, INNOVATION, AND SOCIETY REQUIREMENTS

A complete list of requirements is below. Students should follow the curriculum requirements in place at the time they entered the major. This requirement list should be used in combination with a DARS report.

Code	Title	Credits
Design, Innovation, and Society Core Requirements		
DS 120	Design: Fundamentals I	3
DS 123	What is Design?	3
DS 140	Visual Thinking - Form and Space	3

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Integrate thorough understanding of the history and theory of relationships between design and human behavior, with a particular emphasis on human ecology perspectives.
2. Demonstrate the intellectual skills for inquiry, creative thinking, and critical analysis in design and its application to local, national, and global challenges.
3. Demonstrate a range of research skills that will allow them to identify, evaluate, and apply design solutions for the betterment of social, political, economic, cultural, and environmental sectors.
4. Practice excellent communication skills, across a range of formats (eg, written, oral, and visual communications) and target audiences (eg, scholarly, professional, community-engaged communications) that will further understanding and application of the role of design in everyday life.
5. Develop professional skills (eg, teamwork both within and across fields, project management and leadership, representation of skills through portfolio production) to apply design research skills to create new knowledge and solve problems in real world settings.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This is a sample four-year plan for Design, Innovation, and Society. It is intended as a general guide and may not reflect the most current course offerings or requirement designations. We encourage all students to work with their academic advisor to develop an individualized plan and to verify all degree requirements through their DARS report (https://registrar.wisc.edu/dars/).

First Year

Fall	Credits	Spring	Credits
DS 120	3	DS 123	3
Communication A	3	DS 140	3
Science	3	DS 220	3
Elective	3	Communication B	3-4

Humanities	3	Quantitative Reasoning A	3-4
	15		**15-17**

Second Year

Fall	Credits	Spring	Credits
DS 221	3	DS/ANTHRO/ ART HIST/ HISTORY/ LAND ARC 264	4
DS 252	1	INTER-HE 202	1

ADVISING AND CAREERS

ADVISING AND CAREERS

ADVISING & CAREER CENTER

The Advising & Career Center (ACC) fosters undergraduate students' personal, academic, and professional development. Through advising, academic planning, and career education, we support students as they navigate the college experience—from exploring our majors as prospective students to becoming Human Ecology alumni.

Academic Advising

Each Human Ecology student is assigned to an academic advisor in the Advising & Career Center. Human Ecology academic advisors support academic and personal success by partnering with current and prospective Human Ecology students as they identify and clarify their educational goals, develop meaningful academic plans, and pursue their own Wisconsin Experience.

To explore academic advising resources or schedule an appointment with Human Ecology academic advisor, visit Academic Advising in Human Ecology (https://advising.humanecology.wisc.edu/academics/scheduling/).

Career Development

Each Human Ecology student is assigned to a career advisor in the Advising & Career Center. Active engagement in the career development process is a vital component of a student's personal growth in college and future success as a lifelong learner, professional, and global citizen. Human Ecology career advisors help prepare students for life post-graduation through advising and integration of career readiness throughout our curriculum.

To explore career development resources or schedule an appointment with a Human Ecology career advisor, visit Career Development in Human Ecology (https://advising.humanecology.wisc.edu/careers/scheduling/).

For information about possible career paths related to this major, check out What Can I Do With A Major In Design, Innovation, & Society? (https://kb.wisc.edu/sohe/159230/)

WISCONSIN EXPERIENCE

WISCONSIN EXPERIENCE

INTERNSHIPS

Internships are a vital component of student career development and a highly valued part of the undergraduate curriculum in the School of Human Ecology. By bringing classroom theories to life in real-world settings, high-quality internships foster essential professional development. They provide a unique opportunity for students to explore careers related to their major, gain hands-on experience in a field of interest, and understand workplace expectations by performing professional tasks in their chosen field.

For Human Ecology majors, completing an internship is a required part of the undergraduate curriculum. To fulfill this requirement, students must meet the following criteria:

- Enrollment Requirements: Have at least junior standing (54+ credits) and taken INTER-HE 202 (SoHE Career & Leadership Development) before pursuing the internship.
- Time Commitment: Complete a minimum of 150 hours at the internship site to earn 3 academic credits.
- Eligibility & Approval: Secure an internship that is educational in nature, directly related to their major and career goals, and verified and approved by the Advising & Career Center (https://go.wisc.edu/acc_office/).
- Note: Additional course prerequisites may be required for certain Human Ecology majors.

For more information and step-by-step guidance, please visit Human Ecology Internships (https://advising.humanecology.wisc.edu/careers/internship-requirement/).

STUDENT ORGANIZATIONS

To see our active list of Human Ecology Student Orgs and for more information about joining, please visit Human Ecology Student

Organizations (https://advising.humanecology.wisc.edu/studentlife/join-a-student-organization/).

Learn more about UW–Madison registered student organizations through the Wisconsin Involvement Network (https://win.wisc.edu/).

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

SCHOLARSHIPS

The School of Human Ecology (SoHE) awards many merit and need-based scholarships each year. Students can learn more about these opportunities on the Human Ecology scholarships webpage (https://humanecology.wisc.edu/academics/scholarships/). To be eligible for these awards, scholarship recipients must be registered as full-time Human Ecology students. For further questions on the scholarship application, please contact the School of Human Ecology Scholarship Coordinator at scholarships@sohe.wisc.edu.

SUPPORT RESOURCES

Human Ecology students experiencing personal, academic, or financial challenges should contact SoHE Academic Deans Services (https://advising.humanecology.wisc.edu/academic-dean-services/). Additional campus resources include the Financial Aid Basic Needs website (https://basicneeds.students.wisc.edu/), Office of Student Assistance and Support (https://osas.wisc.edu/), and University Health Services (https://www.uhs.wisc.edu/).

INTERIOR ARCHITECTURE, BS

The Bachelor of Science degree in Interior Architecture (https://humanecology.wisc.edu/academics/undergraduate-majors/interior-architecture/) is a four-year professional program accredited by the Council for Interior Design Accreditation (CIDA). The program develops students' creativity in the design and planning of interior spaces by emphasizing the process and communication of design. Students learn the art of design, drawing from physical and social sciences to understand the interaction of people and their environment, along with the history of design. Insight into professional practice is enhanced through internship experiences.

Design Studies faculty are leading scholars in design research with design industry experience developing innovative and creative spaces. Students benefit from faculty's expertise, mentoring, and industry connections.

Through classroom learning, hands-on projects, and internships, students develop verbal and visual communication skills while gaining exposure to both residential and commercial interiors. The program has a competitive admissions process that involves two phases.

Coursework includes everything related to the design process and products, including environment-behavior studies, design visulization, computer drafting and design, 3D modeling, art and art history, business, and engineering. Studio spaces, a resource center containing catalogs and samples, plus a digital fabrication lab and computer laboratory provide physical support for the Interior Architecture student experience.

In preparation for graduation, students develop a professional portfolio to demonstrate their expertise and creativity.

HOW TO GET IN

HOW TO GET IN

CURRENT UW–MADISON STUDENTS

Current UW-Madison students declaring Pre-Interior Architecture

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are able to declare. For information on how to declare, see: https://go.wisc.edu/sohe-declare (https://go.wisc.edu/sohe-declare/).
Courses required to get in	None.
GPA requirements to get in	• First-semester students have no GPA requirement to declare. • Non-first-semester students within the first 60 GPA credits: Minimum 2.75 minimum cumulative GPA is required for declaring the pre-interior architecture major. Eligible students should meet with an advisor to declare as early in their academic career as possible.
Credits required to get in	None.
Other	Must be in good academic standing with their current school or college.

Pre-Interior Architecture students applying to Interior Architecture

Requirements	Details
How to get in	Application required. Meeting the requirements listed below does not guarantee admission.(https://go.wisc.edu/sohe-apply (https://go.wisc.edu/sohe-apply/))
Courses required to get in	• DS 120 • DS 221 • DS 252 • DS 220 (in-progress) • DS 140 (in-progress)
GPA requirements to get in	None.
Credits required to get in	None.
Other	In the case that student interest for spring courses exceeds course capacity, student ranking in fall courses (DS 120, DS 221, and DS 252) and academic performance will be used to determine priority enrollment in the required spring courses. Enrollment in spring courses is not guaranteed and may be limited by permission based on class rankings and academic performance.

Semester	Deadline to apply	Decision notification timeline
To apply for a fall start	Application opens during the latter half of the spring semester and closes in late April.	Decisions will be made once the spring coursework is completed.
To apply for a spring start	This program does not accept applications to start in the spring.	
To apply for a summer start	This program does not accept applications to start in the summer.	

ADDITIONAL INFORMATION

Transfer students may take longer to complete their degree than students entering the program as freshmen, as they too must complete the Courses required to get in, which contain specialized courses that must be taken sequentially.

There are typically 32 available spots each application cycle. This is an industry standard to ensure appropriate student to faculty ratio.

Upon acceptance into the major students must purchase a laptop computer based on minimum hardware specification and software licenses determined by the department and updated regularly. Students also have the option, but are not required, to purchase a laptop computer before acceptance into the program.

PROSPECTIVE UW-MADISON STUDENTS

All prospective UW–Madison students must apply through the central Office of Admissions and Recruitment (https://www.admissions.wisc.edu/).

Freshmen should declare their intention to pursue Interior Architecture when they apply for admission to UW–Madison. In addition, students may indicate interest in Interior Architecture when registering for Student Orientation, Advising, and Registration (SOAR).

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.

Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

SCHOOL OF HUMAN ECOLOGY BS REQUIREMENTS

All Human Ecology majors share the requirements listed below. Each major has additional requirements. A single course can simultaneously count toward university, school, and major requirements if it carries the relevant designations

Human Ecology Breadth	6 credits in the School of Human Ecology (CNSR SCI, CSCS, DS, HDFS, INTER-HE) taken outside of the home department of the major. Excludes INTER-HE 202 or 601.
Communicatio A	Complete either: • one course with the Communication A designation, or • satisfaction of Communication A based on UW Placement Test.
Communication B	One course with the Communication B designation.
Quantitative Reasoning A	Complete either: • one course with the Quantitative Reasoning A designation, or • satisfaction of Quantitative Reasoning A based on UW Placement Test.
Quantitative Reasoning B	One course with the Quantitative Reasoning B designation.
Humanities/ Literature/ Arts	9 credits with the Humanities, Literature, or Language designations.
Social Science	9 credits with the Social Sciences designation.
Natural Science	9 credits with the Biological, Natural, or Physical Science designations.
Ethnic Studies	3 credits with the Ethnic Studies designation.

GRADUATION REQUIREMENTS

Cumulative Credits	Students must earn 120 degree credits.
Quality of Work	Students must maintain a minimum cumulative grade point average of 2.000 to remain in good standing and be eligible for graduation.
Residency	Students must complete 30 degree credits in residence at UW–Madison.

INTERIOR ARCHITECTURE REQUIREMENTS

A complete list of requirements is below. Students should follow the curriculum requirements in place at the time they entered the major. This requirement list should be used in combination with a DARS report.

Code	Title	Credits
Arts		
Choose one of the following:		3-4
Any Art History course (https://guide.wisc.edu/courses/art_hist/)		
DS/ANTHRO/ ART HIST/ HISTORY/ LAND ARC 264	Dimensions of Material Culture	
Phase One: Design Core		
DS 120	Design: Fundamentals I	3

Electives
Select electives to meet minimum total of 120 degree credits

[1] Design Focus courses are intended to be an opportunity for students to develop more depth and uniqueness to their course of study. See Design Focus course list below. Please work with your Human Ecology academic advisor to seek approval for coursework taken outside of Design Studies.

Design Focus course list

Code	Title	Credits
DS 101	Introduction to Textile Design	3
DS 227	Textile Design: Printing and Dyeing I	3
DS 251	The Science of Textiles - Performance & Properties	3
DS 252	Design Leadership Symposium (May be taken twice)	1
DS/ANTHRO/ ART HIST/HISTORY/ LAND ARC 264	Dimensions of Material Culture	4
DS 341	Design Thinking for Transformation	3
DS 361	Study Abroad: Design Related International Experience	1-6
DS 501	Special Topics (offerings vary by semester)	1-3
DS/COMP SCI/ I SY E 518	Wearable Technology	3
DS 521	Environments of Crisis & Design	3
DS 527	Global Artisans	3
DS 561	Textiles: Specifications and End Use Analysis	3
DS/COMP SCI 579	Virtual Reality	3
DS/LAND ARC 639	Culture and Built Environment	3

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Grounded in the history and theory relevant to the built environment and human behavior.
2. Intellectual skills for inquiry, creative thinking, and critical analysis.
3. Professional skills that prepare them for applying what they have learned to create new knowledge and solve problems in a real world setting.
4. Apply the design process to identify and explore complex problems and generate creative solutions that optimize the human experience within the interior environment. This includes the ability to apply research and the principles and theories of Design to their solutions.
5. Apply their knowledge of building materials and systems, building construction, and industry specific codes, standards and guidelines in order to enhance the health, safety, welfare and performance of building occupants.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This is a sample four-year plan for Interior Architecture. It is intended as a general guide and may not reflect the most current course offerings or requirement designations. We encourage all students to work with their academic advisor to develop an individualized plan and to verify all degree requirements through their DARS report (https://registrar.wisc.edu/dars/).

Freshman

Fall	Credits	Spring	Credits

ADVISING AND CAREERS

ADVISING AND CAREERS

ADVISING & CAREER CENTER

The Advising & Career Center (ACC) fosters undergraduate students' personal, academic, and professional development. Through advising, academic planning, and career education, we support students as they navigate the college experience—from exploring our majors as prospective students to becoming Human Ecology alumni.

Academic Advising

Each Human Ecology student is assigned to an academic advisor in the Advising & Career Center. Human Ecology academic advisors support academic and personal success by partnering with current and prospective Human Ecology students as they identify and clarify their educational goals, develop meaningful academic plans, and pursue their own Wisconsin Experience.

To explore academic advising resources or schedule an appointment with Human Ecology academic advisor, visit Academic Advising in Human Ecology (https://advising.humanecology.wisc.edu/academics/scheduling/).

Career Development

Each Human Ecology student is assigned to a career advisor in the Advising & Career Center. Active engagement in the career development process is a vital component of a student's personal growth in college and future success as a lifelong learner, professional, and global citizen. Human Ecology career advisors help prepare students for life post-graduation through advising and integration of career readiness throughout our curriculum.

To explore career development resources or schedule an appointment with a Human Ecology career advisor, visit Career Development in Human Ecology (https://advising.humanecology.wisc.edu/careers/scheduling/).

For information about possible career paths related to this major, check out What Can I Do With A Major In Interior Architecture? (https://kb.wisc.edu/sohe/159232/)

WISCONSIN EXPERIENCE

WISCONSIN EXPERIENCE

INTERNSHIPS

Internships are a vital component of student career development and a highly valued part of the undergraduate curriculum in the School of Human Ecology. By bringing classroom theories to life in real-world settings, high-quality internships foster essential professional development. They provide a unique opportunity for students to explore careers related to their major, gain hands-on experience in a field of interest, and understand workplace expectations by performing professional tasks in their chosen field.

For Human Ecology majors, completing an internship is a required part of the undergraduate curriculum. To fulfill this requirement, students must meet the following criteria:

- Enrollment Requirements: Have at least junior standing (54+ credits) and taken INTER-HE 202 (SoHE Career & Leadership Development) before pursuing the internship.
- Time Commitment: Complete a minimum of 150 hours at the internship site to earn 3 academic credits.
- Eligibility & Approval: Secure an internship that is educational in nature, directly related to their major and career goals, and verified and approved by the Advising & Career Center (https://go.wisc.edu/acc_office/).
- Note: Additional course prerequisites may be required for certain Human Ecology majors.

For more information and step-by-step guidance, please visit Human Ecology Internships (https://advising.humanecology.wisc.edu/careers/internship-requirement/).

STUDENT ORGANIZATIONS

To see our active list of Human Ecology Student Orgs and for more information about joining, please visit Human Ecology Student Organizations (https://advising.humanecology.wisc.edu/studentlife/join-a-student-organization/).

Learn more about UW–Madison registered student organizations through the Wisconsin Involvement Network (https://win.wisc.edu/).

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

SCHOLARSHIPS

The School of Human Ecology (SoHE) awards many merit and need-based scholarships each year. Students can learn more about these opportunities on the Human Ecology scholarships webpage (https://humanecology.wisc.edu/academics/scholarships/). To be eligible for these awards, scholarship recipients must be registered as full-time Human Ecology students. For further questions on the scholarship application, please contact the School of Human Ecology Scholarship Coordinator at scholarships@sohe.wisc.edu.

SUPPORT RESOURCES

Human Ecology students experiencing personal, academic, or financial challenges should contact SoHE Academic Deans Services (https://advising.humanecology.wisc.edu/academic-dean-services/). Additional campus resources include the Financial Aid Basic Needs website (https://basicneeds.students.wisc.edu/), Office of Student Assistance and Support (https://osas.wisc.edu/), and University Health Services (https://www.uhs.wisc.edu/).

ACCREDITATION

ACCREDITATION

Council for Interior Design Accreditation (https://accredit-id.org/)

Accreditation status: Accredited. Next accreditation review: 2030.

MATERIAL CULTURE STUDIES, CERTIFICATE

The certificate in material culture studies has two interrelated goals. First, students will become acquainted with the field of material culture studies and its methodologies. They will learn what kinds of objects are considered

in the study of material culture (from small, intimate artifacts of daily life to large cultural landscapes) and how scholars and professionals from different fields and in different contexts enlist material culture in their research and activities. They will gain an appreciation for the information artifacts can provide. They will learn the kinds of questions that can be asked of objects and the kind of information that artifacts can show us. They will become familiar with (and able to distinguish between) descriptive and interpretive components of material culture study and gain an awareness of the variety of methods. Second, students will gain an appreciation for the ways that "things" help us to connect to the world and see it in a new way, and the ways "things" give meaning to our lives and the lives of those around us.

HOW TO GET IN

HOW TO GET IN

All undergraduate students in good academic standing are eligible to apply for the Material Culture Studies Certificate. Visit the Apply to Human Ecology (https://humanecology.wisc.edu/academics/undergraduate-admissions/) page for application information and the October and February deadlines.

Students considering declaring the Art History Certificate as well as the Material Culture Certificate may complete both but ***only one course*** may overlap between the two certificates.

REQUIREMENTS

REQUIREMENTS

The Material Culture Studies Certificate requires **13 credits**.

Students must earn a minimum 2.000 GPA on required certificate coursework. Completed courses listed within the certificate curriculum, whether or not they meet a specific requirement, are included in the calculation of the GPA.

Code	Title	Credits
Core		
ART HIST/ANTHRO/ DS/HISTORY/ LAND ARC 264	Dimensions of Material Culture	4
ART HIST 563	Proseminar in Material Culture	3
Electives		
Select at least two elective courses to reach 13 credit minimum:		6
Total Credits		**13**

Students must earn a minimum 2.000 GPA on required certificate coursework. Completed courses listed within the certificate curriculum, whether or not they meet a specific requirement, are included in the calculation of the GPA.

ELECTIVES

- An internship/practicum experience is recommended, but not required.
- Work closely with your certificate advisor and major advisor to ensure that both major and certificate requirements are fulfilled.
- Other traditional disciplinary approaches and content courses may count as electives, but must be approved by the chair of the Material Culture Advisory Committee.

SCAND ST/ FOLKLORE 440	Scandinavian American Folklore	3
THEATRE 327	History of Costume for the Stage	3

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Acquisition of skills to describe and analyze objects of multiple types, scales and media that constitute the material world across time and space.
2. Understanding of the complex and multiple ways that objects and people relate in both the past and in the present using trans-disciplinary perspectives.
3. Ability to interpret and otherwise make meaning from objects using methods and theories from multiple disciplines including but not limited to art history, archaeology, anthropology, design, folklore/ folklife studies, geography, history, literary studies, landscape history, and science studies.
4. Discernment of the importance of materiality and making in the production and shaping of culture.
5. Fluency in using research resources and tools appropriate for specific kinds of objects.
6. Demonstration of particular skills for object-based research projects, as well as online and in-person exhibitions, using objects and collections to prepare students for careers that include positions in museums, archives, and other professional contexts.
7. Coherent presentation of ideas in multiple media (oral, visual, digital, and written).

ADVISING AND CAREERS

ADVISING AND CAREERS

ADVISING & CAREER CENTER

The Advising & Career Center (ACC) fosters undergraduate students' personal, academic, and professional development. Through advising, academic planning, and career education, we support students as they navigate the college experience – from exploring our majors as prospective students to becoming Human Ecology alumni.

ACADEMIC ADVISING

Each Human Ecology student is assigned to an academic advisor in the Advising & Career Center. Human Ecology academic advisors support academic and personal success by partnering with current and prospective Human Ecology students as they identify and clarify their educational goals, develop meaningful academic plans, and pursue their own Wisconsin Experience.

To explore academic advising resources or schedule an appointment with a Human Ecology academic advisor, visit Academic Advising in Human Ecology (https://advising.humanecology.wisc.edu/academics/scheduling/).

Note for students who are thinking about declaring the material culture certificate as well as the art history certificate: undergraduate students may request permission to complete both the material culture certificate and the art history certificate but ***only one course*** *can overlap between the two certificates. Please consult with the Art History undergraduate advisor, Teddy Kaul (*ejkaul@wisc.edu*), with any questions related to the art history certificate.*

CAREER DEVELOPMENT

Each Human Ecology student is assigned to a career advisor in the Advising & Career Center. Active engagement in the career development process is a vital component of a student's personal growth in college and future success as a lifelong learner, professional, and global citizen. Human Ecology career advisors help prepare students for life post-graduation through individual and group advising and integration of career readiness throughout our curriculum.

To explore career development resources or schedule an appointment with a Human Ecology career advisor, visit Career Development in Human Ecology (https://advising.humanecology.wisc.edu/careers/scheduling/).

CAREERS: WHAT CAN MATERIAL CULTURE DO FOR YOU? LIFE-PRACTICE AND CAREERS

Interdisciplinary practice is central to material culture analysis. Significant engagement with material culture can have a noteworthy positive effect on students from a wide range of majors in their preparation for future careers. Understanding principles of design, analyzing the cultural meaning of physical objects, and gaining knowledge of varied systems of making, distributing, and using artifacts and consumer goods throughout history are all broadly applicable learning outcomes. The curricula of the 21st century often place extra value on science and technology, to the detriment of the study of the arts and humanities. The Material Culture Program helps integrate these and other disparate spheres into a university education. One undergraduate student summed it thus:

> I ended up being able to use what I learned in material culture for my research in human computer interaction and design. I think

having a background in material culture strengthened my skills as a user experience designer (which is what I will be doing at Intel after graduation).

Erica Lewis, 2016
Undergraduate certificate student
Engineering/Materials Design

Other material culture certificate holders have gone on to careers in museums, galleries, historic sites, historic preservation, digital media, design practice, universities, and business. Another former student comments:

Having worked in museums large and small, in education, exhibition design and development, collections, and interpretation—I draw on my background in Material Culture on a daily basis. As a historian, the practice of reading and contextualizing objects as primary sources is essential. But even more than an academic approach, the empathy one develops when learning to understand the world through the stuff of daily life is invaluable to the interdisciplinary collaboration of today's workplace.

Anna Altschwager, 2004
Creative Director
Thinkwell Group

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

SCHOLARSHIPS

The School of Human Ecology (SoHE) awards many merit and need-based scholarships each year. Students can learn more about these opportunities on the Human Ecology scholarships webpage (https://humanecology.wisc.edu/academics/scholarships/). To be eligible for these awards, scholarship recipients must be registered as full-time Human Ecology students. For further questions on the scholarship application, please contact the School of Human Ecology Scholarship Coordinator at scholarships@sohe.wisc.edu.

SUPPORT RESOURCES

Human Ecology students experiencing personal, academic, or financial challenges should contact SoHE Academic Deans Services (https://advising.humanecology.wisc.edu/academic-dean-services/). Additional campus resources include the Financial Aid Basic Needs website (https://basicneeds.students.wisc.edu/), Office of Student Assistance and Support (https://osas.wisc.edu/), and University Health Services (https://www.uhs.wisc.edu/).

TEXTILES AND DESIGN, CERTIFICATE

The certificate in textiles and design allows students from any major to gain a fundamental understanding of the creative and innovative application of textiles and visual design. By nature, textiles are interdisciplinary, weaving together art, commerce, history, culture, technology, material culture, and science. Students will develop artistic and technical skills valuable for both pursuing a professional career in the textile industry and nurturing personal creative interests.

The certificate in textiles and design is an opportunity for students from a variety of disciplines to engage in an in-depth exploration of textiles. Studio courses cultivate a rich understanding of the physical and creative interaction of materials, techniques, and concepts: pattern, networks, woven structures, flexible materials, the interaction of multiples, tactility, color, and imagery. Students have the opportunity to be creative in design studios, using both low-tech handmade techniques and complex high-tech computer-generated systems.

The courses offered in this certificate are broad and varied, allowing students to personalize course groupings to best enhance their major and area of interest.

HOW TO GET IN

HOW TO GET IN

All undergraduate students in good academic standing are eligible to apply for the Material Culture Studies Certificate. Visit the Apply to Human Ecology (https://humanecology.wisc.edu/academics/undergraduate-admissions/) page for application information and the October and February deadlines.

REQUIREMENTS

REQUIREMENTS

Code	Title	Credits
Science and Culture		
Select one course:		3
DS 251	The Science of Textiles - Performance & Properties	
DS 355	History of Fashion, 1400-Present	
DS 430	History of Textiles	
DS 561	Textiles: Specifications and End Use Analysis	
Studio		
Select one course:		2-3
DS 101	Introduction to Textile Design	
DS 153	Sewn Construction I	
DS 154	Sewn Construction II	
DS 215	Patternmaking for Accessories	
DS 227	Textile Design: Printing and Dyeing I	
DS 228	Textile Embellishment I	
DS/ART 229	Textile Design: Weaving I	
DS 327	Textile Design: Manual/Computer Generated Imagery and Pattern	
DS 427	Textile Design: Printing and Dyeing II	
DS 429	Textile Design: Weaving II	
DS 451	Color Theory and Technology

DS 570	Design and Fashion Event Management	
Electives		
Other courses from either Science an Culture or Studio lists (above) to reach 12 credits.		7-8
Total Credits		**12**

Students must earn a minimum 2.0 GPA on required certificate coursework. Completed courses listed within the certificate curriculum, whether or not they meet a specific requirement, are included in the calculation of the GPA.

CERTIFICATE COMPLETION REQUIREMENT

This undergraduate certificate must be completed concurrently with the student's undergraduate degree. Students cannot delay degree completion to complete the certificate.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Demonstrate understanding of fiber properties, structure, techniques and construction.
2. Analyze historical, cultural, economic, technological and/or societal role of textiles.
3. Students will develop a sensitivity and awareness of material properties through hands-on learning.
4. Gain understanding of the creative process by envisioning and implementing original projects.

TEXTILES AND FASHION DESIGN, BS

The Bachelor of Science degree in Textiles & Fashion Design (https://humanecology.wisc.edu/academics/undergraduate-majors/textiles-fashion-design/) is a unique program that combines experimentation with materials and techniques with a grounding in history, science, and contemporary design. The heart of the major lies in the hands-on studio courses where students learn to weave, dye, print, construct, pattern, illustrate, design, and innovate. This program nurtures students to become leaders in their chosen fields through responsible, resourceful, and research-driven approaches to design.

Going beyond technique, students are encouraged to intuitively make, analyze, and revise, leading to discovery and creative problem-solving. Special topics focus on environmental, economic, and cultural sustainability, as well as technology and entrepreneurship.

Coursework is enhanced by visiting lecturers, special projects with industry partners, and the on-site Helen Louise Allen Textile Collection. Upper-level students in the major are given the opportunity to professionally present their work to public audiences in an annual student showcase. Through capstone and thesis experiences in the final year, students are given time and mentoring to create and present their own unique body of work.

Our award-winning students are highly creative and superb craftspeople engaged in addressing real-world problems and offering sustainable

solutions. Textile & Fashion Design students realize their creative visions in ways that are socially, culturally, ethically, and environmentally sensitive.

The Textiles & Fashion Design program highlights craft technique as a pathway to creative practice and prepares students for exciting and creative careers in industry, design, and art. While studies can focus on textiles or fashion, students are encouraged to explore both areas. The program emphasizes interdisciplinary partnerships and encourages "learning by doing" in studios, outreach projects, and sustainable practices. Through capstone and thesis experiences in the final year, students are given time and mentoring to create and present their own unique body of work.

OPPORTUNITY WITH THE FASHION INSTITUTE OF TECHNOLOGY

Students looking for additional industry experience can apply to the Fashion Institute of Technology (http://www.fitnyc.edu/) (FIT) in New York City for their senior year. This experience provides students with industry-specific skills which, when paired with the creative liberal arts background, makes our graduates highly desirable and often recruited by industry leaders. Students apply to FIT in their junior year. If accepted, they participate in a visiting student program in one area of focus: Fashion Design, Textile Surface Design, Footwear & Accessories Design, Communication Design Foundation, Advertising and Marketing Communications, Fashion Business Management, Textile Development and Marketing.

Upon graduation, students who attend FIT are awarded a Bachelor of Science degree from the University of Wisconsin–Madison in Textiles & Fashion Design with a named option in FIT. A named option is a formally documented sub-major within an academic major program. Named options appear on the transcript with degree conferral. FIT students also earn an associate of applied science (AAS) degree from FIT. Students attending FIT who are considered Wisconsin non-residents continue to pay out-of-state tuition, even if they reside in the state of New York.

HOW TO GET IN

HOW TO GET IN

CURRENT UW–MADISON STUDENTS

Students within their first 60 GPA credits at UW-Madison

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are able to declare. For information on how to declare, see: https://go.wisc.edu/sohe-declare (https://go.wisc.edu/sohe-declare/).
Courses required to get in	None.
GPA requirements to get in	• First-semester students have no GPA requirement to declare. • Non-first-semester students within the first 60 GPA credits: Minimum 2.750 cumulative GPA based on all UW-Madison coursework.
Credits required to get in	None.
Other	Must be in good academic standing with their current school or college.

All other students (who do not meet the declaration criteria above)

Requirements	Details
How to get in	Application required. Meeting the requirements listed below does not guarantee admission. (https://go.wisc.edu/sohe-apply (https://go.wisc.edu/sohe-apply/))
Courses required to get in	None.
GPA requirements to get in	None.
Credits required to get in	None.
Other	Must be in good academic standing with their current school or college.

Semester	Deadline to apply	Decision notification timeline
To apply for a fall start	The fifth Friday of the term.	Students will be notified about decisions approximately one month after the application deadline.
To apply for a spring start	The fifth Friday of the term.	Students will be notified about decisions approximately one month after the application deadline.
To apply for a summer start	This program does not accept applications to start in the summer.	

Fashion Institute of Technology

Students intending to complete their final year of study at the Fashion Institute of Technology (FIT) must complete an additional application. Only students with a 3.0 or higher GPA in December of their third year in the program are eligible to apply for admission to FIT.

PROSPECTIVE UW-MADISON STUDENTS

All prospective UW–Madison students must apply through the central Office of Admissions and Recruitment (https://www.admissions.wisc.edu/).

Students who indicate interest in Textiles and Fashion Design on their UW–Madison application will be admitted to the major upon admittance to the University. In addition, students may indicate interest in Textiles and Fashion Design when registering for Student Orientation, Advising, and Registration (SOAR).

ADDITIONAL INFORMATION

For transfer students, sequential courses and courses taught only once a year should be taken into account when calculating time toward completion of the degree, as graduation time may be extended.

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

SCHOOL OF HUMAN ECOLOGY BS REQUIREMENTS

All Human Ecology majors share the requirements listed below. Each major has additional requirements. A single course can simultaneously count toward university, school, and major requirements if it carries the relevant designations

Human Ecology Breadth	6 credits in the School of Human Ecology (CNSR SCI, CSCS, DS, HDFS, INTER-HE) taken outside of the home department of the major. Excludes INTER-HE 202 or 601.
Communicatio A	Complete either: • one course with the Communication A designation, or • satisfaction of Communication A based on UW Placement Test.
Communication B	One course with the Communication B designation.
Quantitative Reasoning A	Complete either: • one course with the Quantitative Reasoning A designation, or • satisfaction of Quantitative Reasoning A based on UW Placement Test.

Quantitative Reasoning B	One course with the Quantitative Reasoning B designation.
Humanities/ Literature/ Arts	9 credits with the Humanities, Literature, or Language designations.
Social Science	9 credits with the Social Sciences designation.
Natural Science	9 credits with the Biological, Natural, or Physical Science designations.
Ethnic Studies	3 credits with the Ethnic Studies designation.

GRADUATION REQUIREMENTS

Cumulative Credits	Students must earn 120 degree credits.
Quality of Work	Students must maintain a minimum cumulative grade point average of 2.000 to remain in good standing and be eligible for graduation.
Residency	Students must complete 30 degree credits in residence at UW–Madison.

TEXTILES AND FASHION DESIGN REQUIREMENTS

A complete list of requirements is below. Students should follow the curriculum requirements in place at the time they entered the major. This requirement list should be used in combination with a DARS report.

Code	Title	Credits
Design Core		
DS 101	Introduction to Textile Design	3
DS 120	Design: Fundamentals I	3
DS 150	Visual Thinking - Pixels and Pencils	3
DS 151	Craft & Construction for Garments	3
DS 251	The Science of Textiles - Performance & Properties	3
DS 355	History of Fashion, 1400-Present	3
or DS 430	History of Textiles	
Textiles and Fashion Design Focus Area		
Choose either the Fashion Sequence or the Textiles Sequence		12
Choose 3 additional Textiles & Fashion Design courses for 21 total credits		9
Fashion Sequence (must be taken in this order)		
DS 152	Fashion Design I	
DS 253	Patternmaking for Fashion Design I	
DS 210	Fashion Illustration	
DS 353	Patternmaking for Fashion Design II	
Textiles Sequence		
DS 227	Textile Design: Printing and Dyeing I	
DS 228	Textile Embellishment I	
DS/ART 229	Textile Design: Weaving I	
DS 327	Textile Design: Manual/Computer Generated Imagery and Pattern	
Career Readiness		
DS 252	Design Leadership Symposium	1
INTER-HE 202	SoHE Career & Leadership Development	1
INTER-HE 601	Internship	3
Depth Courses		
Choose 15 credits of depth courses from the areas below:		15
Textiles & Fashion Design Studio Courses		
Choose 9-15 credits from the following courses:		
DS 319	Cloth to Clothing	
DS 341	Design Thinking for Transformation	
DS 427	Textile Design: Printing and Dyeing II	
DS 429	Textile Design: Weaving II	
DS/COMP SCI/ I SY E 518	Wearable Technology	
DS 527	Global Artisans	
DS 528	Experimental Textile Design	
DS 529	Building a Sustainable Creative Practice	
DS 570	Design and Fashion Event Management	
DS 561	Textiles: Specifications and End Use Analysis	
Other Textiles and Fashion Design Courses (courses numbered 300 above)		
Entrepreneurship and Consumer Science Courses		
OPTIONAL - Choose up to 6 credits from the following courses:		
M H R 322	Introduction to Entrepreneurship	
CNSR SCI 257	Introduction to Retail	
CNSR SCI 357	Consumer Behavior	
CNSR SCI 555	Consumer Strategy Consulting Practicum	
CNSR SCI 562	The Global Consumer	
CNSR SCI 567	Product Development Strategies in Retailing	
Capstone Experience		
DS 690	Senior Thesis	3
DS 519	Collection Development	3
or DS 529	Building a Sustainable Creative Practice	

TEXTILES AND FASHION DESIGN: FIT OPTION

View as listView as grid

- **TEXTILES AND FASHION DESIGN: FIT (FASHION INSTITUTE OF TECHNOLOGY) (P. 2057)**

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Have grounding in the history and theory relevant to the human ecological perspective.

2. Have intellectual skills for inquiry, creative thinking, and critical analysis.
3. Have professional skills that prepare them for applying what they have learned to create new knowledge and solve problems in a real world setting.
4. Textiles and Fashion Design students will have the ability to move beyond technique, taking creative risks to develop conceptually cohesive work through advanced knowledge of materials, processes, and an understanding of design principles.
5. Textiles and Fashion Design students will have the ability to participate in professional discussions and critique that are informed by foundational knowledge of fashion and/or textile history, theory, and science.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

This is a sample four-year plan for Textiles & Fashion Design. It is intended as a general guide and may not reflect the most current course offerings or requirement designations. We encourage all students to work with their academic advisor to develop an individualized plan and to verify all degree requirements through their DARS report (https://registrar.wisc.edu/dars/).

Freshman

Fall	Credits	Spring	Credits
DS 101	3	DS 150	3
DS 120	3	DS 152 or 228	3
DS 151	3	Communication B	3-4
Communication A	3	Quantitative Reasoning A	3-4
		Human Ecology Breadth	3
	12		**15-17**

Sophomore

Fall	Credits	Spring	Credits
INTER-HE 202	1	DS 251	3
DS 210 or 229	3	DS 252	1
DS 253 (or Additional Textiles & Fashion Design Course)	3	DS 227 (or Additional Textiles & Fashion Design Course)	3
Social Science	3	Additional Textiles & Fashion Design Course	3
Humanities	3	Social Science	3
Science	3	Ethnic Studies	3
	16		**16**

Junior

Fall	Credits	Spring	Credits	Summer	Credits
DS 327 or 353	3	Depth Course	3	INTER-HE 601	3

ADVISING AND CAREERS

ADVISING AND CAREERS

ADVISING & CAREER CENTER

The Advising & Career Center (ACC) fosters undergraduate students' personal, academic, and professional development. Through advising, academic planning, and career education, we support students as they navigate the college experience—from exploring our majors as prospective students to becoming Human Ecology alumni.

Academic Advising

Each Human Ecology student is assigned to an academic advisor in the Advising & Career Center. Human Ecology academic advisors support academic and personal success by partnering with current and prospective Human Ecology students as they identify and clarify their educational goals, develop meaningful academic plans, and pursue their own Wisconsin Experience.

To explore academic advising resources or schedule an appointment with Human Ecology academic advisor, visit Academic Advising in Human Ecology (https://advising.humanecology.wisc.edu/academics/scheduling/).

Career Development

Each Human Ecology student is assigned to a career advisor in the Advising & Career Center. Active engagement in the career development process is a vital component of a student's personal growth in college and future success as a lifelong learner, professional, and global citizen. Human Ecology career advisors help prepare students for life post-graduation through advising and integration of career readiness throughout our curriculum.

To explore career development resources or schedule an appointment with a Human Ecology career advisor, visit Career Development in Human Ecology (https://advising.humanecology.wisc.edu/careers/scheduling/).

For information about possible career paths related to this major, check out What Can I Do With A Major In Textile & Fashion Design? (https://kb.wisc.edu/sohe/159237/)

WISCONSIN EXPERIENCE

WISCONSIN EXPERIENCE

INTERNSHIPS

Internships are a vital component of student career development and a highly valued part of the undergraduate curriculum in the School of Human Ecology. By bringing classroom theories to life in real-world settings, high-quality internships foster essential professional development. They provide a unique opportunity for students to explore careers related to their major, gain hands-on experience in a field of interest, and understand workplace expectations by performing professional tasks in their chosen field.

For Human Ecology majors, completing an internship is a required part of the undergraduate curriculum. To fulfill this requirement, students must meet the following criteria:

- Enrollment Requirements: Have at least junior standing (54+ credits) and taken INTER-HE 202 (SoHE Career & Leadership Development) before pursuing the internship.
- Time Commitment: Complete a minimum of 150 hours at the internship site to earn 3 academic credits.
- Eligibility & Approval: Secure an internship that is educational in nature, directly related to their major and career goals, and verified and approved by the Advising & Career Center (https://go.wisc.edu/acc_office/).
- Note: Additional course prerequisites may be required for certain Human Ecology majors.

For more information and step-by-step guidance, please visit Human Ecology Internships (https://advising.humanecology.wisc.edu/careers/internship-requirement/).

STUDENT ORGANIZATIONS

To see our active list of Human Ecology Student Orgs and for more information about joining, please visit Human Ecology Student Organizations (https://advising.humanecology.wisc.edu/studentlife/join-a-student-organization/).

Learn more about UW–Madison registered student organizations through the Wisconsin Involvement Network (https://win.wisc.edu/).

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

SCHOLARSHIPS

The School of Human Ecology (SoHE) awards many merit and need-based scholarships each year. Students can learn more about these opportunities on the Human Ecology scholarships webpage (https://humanecology.wisc.edu/academics/scholarships/). To be eligible for these awards, scholarship recipients must be registered as full-time Human Ecology students. For further questions on the scholarship application, please contact the School of Human Ecology Scholarship Coordinator at scholarships@sohe.wisc.edu.

SUPPORT RESOURCES

Human Ecology students experiencing personal, academic, or financial challenges should contact SoHE Academic Deans Services (https://advising.humanecology.wisc.edu/academic-dean-services/). Additional campus resources include the Financial Aid Basic Needs website (https://basicneeds.students.wisc.edu/), Office of Student Assistance and Support (https://osas.wisc.edu/), and University Health Services (https://www.uhs.wisc.edu/).

TEXTILES AND FASHION DESIGN: FIT (FASHION INSTITUTE OF TECHNOLOGY)

For those leaning toward an industry career, the Textiles and Fashion Design program gives students the option to apply to spend their senior year at Fashion Institute of Technology (http://www.fitnyc.edu/) (FIT) in New York City, the hub of the textile and fashion trade. The FIT experience provides students with industry-specific skills which, when paired with the creative liberal arts background, makes our graduates highly desirable and often recruited by industry leaders. Students apply to FIT in their junior year. If accepted by FIT, they participate in a visiting student program in one area of focus: Fashion Design, Textile Surface Design, Footwear & Accessories Design, Communication Design Foundation, Advertising and Marketing Communications, Fashion Business Management, Textile Development and Marketing.

Upon graduation, students who attend FIT are awarded a bachelor of science (BS) degree from the University of Wisconsin–Madison in Textiles and Fashion Design with a named option in FIT. A named option is a formally documented sub-major within an academic major program. Named options appear on the transcript with degree conferral. FIT students also earn an associate of applied science (AAS) degree from FIT. Students attending FIT who are considered Wisconsin non-residents continue to pay out-of-state tuition, even if they reside in the state of New York.

REQUIREMENTS

TEXTILES AND FASHION DESIGN: FIT NAMED OPTION REQUIREMENTS

Core requirements for the named option are below. Students should follow the curriculum requirements in place at the time they entered the major. This requirement list should be used in combination with a DARS report. Students interested in the Fashion Institute of Technology option also need specific coursework in mathematics, art history, and oral communication. Please work with your advisor to ensure you meet those requirements.

Code	Title	Credits
Design Core		
DS 101	Introduction to Textile Design	3

DS 120	Design: Fundamentals I	3
DS 150	Visual Thinking - Pixels and Pencils	3
DS 151	Craft & Construction for Garments	3
DS 251	The Science of Textiles - Performance & Properties	3
DS 355	History of Fashion, 1400-Present	3
or DS 430	History of Textiles	
Textiles and Fashion Design Focus Area		
Choose either the Fashion Sequence or the Textiles Sequence		12
Choose 3 additional Textiles & Fashion Design courses for 21 total credits		9
Fashion Sequence (must be taken in this order)		
DS 152	Fashion Design I	
DS 253	Patternmaking for Fashion Design I	
DS 210	Fashion Illustration	
DS 353	Patternmaking for Fashion Design II	
Textiles Sequence		
DS 227	Textile Design: Printing and Dyeing I	
DS 228	Textile Embellishment I	
DS/ART 229	Textile Design: Weaving I	
DS 327	Textile Design: Manual/Computer Generated Imagery and Pattern	
Career Readiness		
DS 252	Design Leadership Symposium	1
INTER-HE 202	SoHE Career & Leadership Development	1
Fashion Institute of Technology FIT

HUMAN DEVELOPMENT AND FAMILY STUDIES

The Department of Human Development and Family Studies (HDFS) serves undergraduate and graduate students by offering a bachelor of science in Human Development and Family Studies and a PhD in Human Ecology: Human Development and Family Studies. Students and faculty in HDFS are dedicated to improving the quality of life for children, adolescents, and adults by discovering, integrating, applying, and disseminating knowledge about lifespan human development, relationships, families, and communities, all in their larger social contexts. The application of human ecological and interdisciplinary perspectives to solve societal problems and strengthen the well-being of children, adults, and families is a distinctive feature of the department.

Human Development and Family Studies majors have opportunities to work directly with children and families at the renowned Child Development Lab, an onsite laboratory preschool offering applied learning, research and internship opportunities, and classroom observations.

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

ADVISING & CAREER CENTER

The Advising & Career Center (ACC) fosters undergraduate students' personal, academic, and professional development. Through advising, academic planning, and career education, we support students as they navigate the college experience—from exploring our majors as prospective students to becoming Human Ecology alumni.

Academic Advising

Every Human Ecology student is assigned to an academic advisor in the Advising & Career Center. Human Ecology academic advisors support academic and personal success by partnering with current and prospective Human Ecology students as they identify and clarify their educational goals, develop meaningful academic plans, and pursue their own Wisconsin Experience.

To explore academic advising resources or schedule an appointment with Human Ecology academic advisor, visit Academic Advising in Human Ecology (https://advising.humanecology.wisc.edu/academics/scheduling/).

Career Development

Each Human Ecology student is assigned to a career advisor in the Advising & Career Center. Active engagement in the career development process is a vital component of a student's personal growth in college and future success as a lifelong learner, professional, and global citizen. Human Ecology career advisors help prepare students for life post-graduation through advising and integration of career readiness throughout our curriculum.

To explore career development resources or schedule an appointment with a Human Ecology career advisor, visit Career Development in Human Ecology (https://advising.humanecology.wisc.edu/careers/scheduling/).

SCHOLARSHIPS AND SUPPORT RESOURCES

The School of Human Ecology (SoHE) awards many merit and need-based scholarships each year. Students can learn more about these opportunities on the Human Ecology scholarships webpage (https://humanecology.wisc.edu/academics/scholarships/). To be eligible for these awards, scholarship recipients must be registered as full-time Human Ecology students. For further questions on the scholarship application, please contact the School of Human Ecology Scholarship Coordinator at scholarships@sohe.wisc.edu.

Human Ecology students experiencing personal, academic, or financial challenges should contact SoHE Academic Deans Services (https://advising.humanecology.wisc.edu/academic-dean-services/). Additional campus resources include the Financial Aid Basic Needs website (https://basicneeds.students.wisc.edu), Office of Student Assistance and Support (https://osas.wisc.edu), and University Health Services (https://www.uhs.wisc.edu).

HUMAN DEVELOPMENT AND FAMILY STUDIES, BS

The Bachelor of Science degree in Human Development & Family Studies (https://humanecology.wisc.edu/academics/undergraduate-majors/human-development-family-studies/) offers an in-depth education about human development and well-being across the lifespan, with a focus on relational health, including infant mental health, parenting, couples, and other family and social relationships. Students take specialized courses in policymaking, research methods, prevention and intervention, and ethnic/cultural diversity in families.

In addition to high-impact learning experiences and coursework, all students engage in a professional semester-long internship in a community or research setting related to their major and career goals. These settings include mental health organizations, early childhood education centers, healthcare agencies, legislative offices, university advising units, research labs, human resources, criminal justice systems, child and family life education programs, and other community-based organizations.

Human Development & Family Studies offers excellent preparation for students interested in graduate/professional school in areas such as clinical healthcare and public health; counseling and mental health; early childhood, K-12 and higher education; family law; social work and case management; occupational and physical therapy; program evaluation and applied research; and the child life profession.

Human Development & Family Studies students may choose to pursue these additional credentials while completing their degree:

- Certified Family Life Educator credential, provided by the National Council on Family Relations (https://www.ncfr.org/cfle-certification/become-certified/), recognized in the U.S. and Canada for Family Life Education professions
- Infant/Early Childhood Mental Health Endorsement (https://humanecology.wisc.edu/academics/undergraduate-majors/human-development-family-studies/infant-mental-health-imh-endorsement/), provided by the Wisconsin Alliance for Infant Mental Health (https://wiaimh.org/endorsement/), which promotes the social-emotional development of children from newborn to 6 years within the family and community context
- Certified Child Life Specialist (CCLS) (https://advising.humanecology.wisc.edu/careers/child-life/) accredited by the Association of Child Life Professionals (ACLP) (https://www.childlife.org/)

For more information on these credentials, please contact the Advising & Career Center (https://advising.humanecology.wisc.edu/).

HOW TO GET IN

HOW TO GET IN

CURRENT UW–MADISON STUDENTS

Students within their first 60 GPA credits at UW-Madison

Requirements	Details
How to get in	No application required. All students who meet the requirements listed below are able to declare. For information on how to declare, see: https://go.wisc.edu/sohe-declare (https://go.wisc.edu/sohe-declare/).
Courses required to get in	None.
GPA requirements to get in	• First-semester students have no GPA requirement to declare. • Non-first-semester students within the first 60 GPA credits: Minimum 2.750 cumulative GPA based on all UW-Madison coursework.
Credits required to get in	None.
Other	Must be in good academic standing with their current school or college.

All other students (who do not meet the declaration criteria above)

Requirements	Details
How to get in	Application required. Meeting the requirements listed below does not guarantee admission. (https://go.wisc.edu/sohe-apply (https://go.wisc.edu/sohe-apply/))
Courses required to get in	None.
GPA requirements to get in	None.
Credits required to get in	None.
Other	Must be in good academic standing with their current school or college.

Semester	Deadline to apply	Decision notification timeline
To apply for a fall start	The fifth Friday of the term.	Students will be notified about decisions approximately one month after the application deadline.
To apply for a spring start	The fifth Friday of the term.	Students will be notified about decisions approximately one month after the application deadline.
To apply for a summer start	This program does not accept applications to start in the summer.	

PROSPECTIVE UW-MADISON STUDENTS

All prospective UW–Madison students must apply through the central Office of Admissions and Recruitment (https://www.admissions.wisc.edu/).

Students who indicate interest in Human Development and Family Studies on their UW–Madison application will be admitted to the major upon admittance to the University. In addition, students may indicate interest in Human Development and Family Studies when registering for Student Orientation, Advising, and Registration (SOAR).

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

SCHOOL OF HUMAN ECOLOGY BS REQUIREMENTS

All Human Ecology majors share the requirements listed below. Each major has additional requirements. A single course can simultaneously count toward university, school, and major requirements if it carries the relevant designations

Human Ecology Breadth	6 credits in the School of Human Ecology (CNSR SCI, CSCS, DS, HDFS, INTER-HE) taken outside of the home department of the major. Excludes INTER-HE 202 or 601.
Communication A	Complete either: • one course with the Communication A designation, or • satisfaction of Communication A based on UW Placement Test.
Communication B	One course with the Communication B designation.
Quantitative Reasoning A	Complete either: • one course with the Quantitative Reasoning A designation, or • satisfaction of Quantitative Reasoning A based on UW Placement Test.
Quantitative Reasoning B	One course with the Quantitative Reasoning B designation.
Humanities/ Literature/ Arts	9 credits with the Humanities, Literature, or Language designations.
Social Science	9 credits with the Social Sciences designation.
Natural Science	9 credits with the Biological, Natural, or Physical Science designations.
Ethnic Studies	3 credits with the Ethnic Studies designation.

GRADUATION REQUIREMENTS

Cumulative Credits	Students must earn 120 degree credits.
Quality of Work	Students must maintain a minimum cumulative grade point average of 2.000 to remain in good standing and be eligible for graduation.
Residency	Students must complete 30 degree credits in residence at UW–Madison.

HUMAN DEVELOPMENT AND FAMILY STUDIES REQUIREMENTS

A complete list of requirements is below. Students should follow the curriculum requirements in place at the time they entered the major. This requirement list should be used in combination with a DARS report.

Code	Title	Credits
Foundation		
PSYCH 202	Introduction to Psychology	3-4
Human Development in Context		
HDFS 174	Introduction into Cultural Diversity of Families	3
Select one of the following:		3
HDFS 262	Development of the Young Child	
ED PSYCH 320	Human Development in Infancy and Childhood	
PSYCH 460	Child Development	
HDFS 263	Development from Adolescence to Old Age	3
HDFS 316	Stress and Resilience in Families Across the Lifespan	3
HDFS 345	Ecology of Child Health and Well-Being	3
Research Foundations		
Select one of the following:		3-4
HDFS 425	Research Methods in Human Development and Family Studies	
PSYCH 225	Research Methods	

SOC/ C&E SOC 357	Methods of Sociological Inquiry	
Select one of the following:		3
SOC/ C&E SOC 360	Statistics for Sociologists I	
STAT 240	Data Science Modeling I	
STAT 301	Introduction to Statistical Methods	
STAT 324	Introduction to Statistics for Science and Engineering	
STAT 371	Introductory Applied Statistics for the Life Sciences	
PSYCH 210	Basic Statistics for Psychology	
Depth		
Select 9 credits from the following courses. At least 6 credits must be any HDFS course numbered 300 or above that is not already being used to meet other program requirements.		9
Any HDFS courses numbered 300-699 not otherwise included in the program requirements (https://guide.wisc.edu/courses/hdfs/)		
CNSR SCI 273	Finances & Families	
COUN PSY 655	Clinical Communication Skills	
CSCS 500	Global Health and Communities: From Research to Praxis	
ED PSYCH 321	Human Development in Adolescence	
PSYCH 405	Adult Psychopathology	
PSYCH 464	Adult Development and Aging	
RP & SE 310	Positive Psychology and Well Being	
SOC/ C&E SOC 343	Sociology of Health and Medicine	
SOC/PSYCH 453	Human Sexuality	
SOC 575	Sociological Perspectives on the Life Course and Aging	
Application		
Career Readiness & Research		
INTER-HE 202	SoHE Career & Leadership Development	1
HDFS 253	Human Development & Family Studies Leadership Symposium	1

INTER-HE 601	Internship	
HDFS 592	Research Experience in Human Development and Family Studies	
Capstone		
Select one of the following:		3
HDFS 663	Developmental and Family Assessment	
HDFS 535	A Family Perspective in Policymaking	
HDFS 650	Parent Education and Support Programs	
Electives		
Select courses to bring degree credit total to 120		

CHILD DEVELOPMENT: NAMED OPTION

Students may elect to pursue a named option instead of the completing the Human Development and Family Studies requirements listed above.

View as listView as grid

- **HUMAN DEVELOPMENT AND FAMILY STUDIES: CHILD DEVELOPMENT, BS (P. 2064)**

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Apply a developmental lens to describe lifespan human development in context, with emphasis on individual, family and community diversity
2. Apply a relational lens to understand interpersonal and internal family processes (e.g., relational health, parent-child relationships, couple relationships, family health and well-being)
3. Use systems thinking to describe how individuals and families affect and are affected by their social and ecological contexts (e.g., communities, institutions, policies, cultures), with an emphasis on building a more just and equitable society
4. Critically evaluate and ethically apply interdisciplinary social science research to promote health and wellbeing across the lifespan through assessment, prevention, intervention, research, and/or program evaluation
5. Work effectively in a professional setting with individuals from diverse backgrounds, including the exploration of HDFS-relevant professional pathways and the development of broadly applicable professional skills essential to the discipline (e.g., cultural awareness, empathy, self-reflection)

ADVISING AND CAREERS

ADVISING AND CAREERS

ADVISING & CAREER CENTER

The Advising & Career Center (ACC) fosters undergraduate students' personal, academic, and professional development. Through advising, academic planning, and career education, we support students as they navigate the college experience—from exploring our majors as prospective students to becoming Human Ecology alumni.

Academic Advising

Each Human Ecology student is assigned to an academic advisor in the Advising & Career Center. Human Ecology academic advisors support academic and personal success by partnering with current and prospective Human Ecology students as they identify and clarify their educational goals, develop meaningful academic plans, and pursue their own Wisconsin Experience.

To explore academic advising resources or schedule an appointment with Human Ecology academic advisor, visit Academic Advising in Human Ecology (https://advising.humanecology.wisc.edu/academics/scheduling/).

Career Development

Each Human Ecology student is assigned to a career advisor in the Advising & Career Center. Active engagement in the career development process is a vital component of a student's personal growth in college and future success as a lifelong learner, professional, and global citizen. Human Ecology career advisors help prepare students for life post-graduation through advising and integration of career readiness throughout our curriculum.

To explore career development resources or schedule an appointment with a Human Ecology career advisor, visit Career Development in Human Ecology (https://advising.humanecology.wisc.edu/careers/scheduling/).

For information about possible career paths related to this major, check out What Can I Do With A Major In Human Development & Family Studies? (https://kb.wisc.edu/sohe/159231/)

WISCONSIN EXPERIENCE

WISCONSIN EXPERIENCE

INTERNSHIPS

Internships are a vital component of student career development and a highly valued part of the undergraduate curriculum in the School of Human Ecology. By bringing classroom theories to life in real-world settings, high-quality internships foster essential professional development. They provide a unique opportunity for students to explore careers related to their major, gain hands-on experience in a field of interest, and understand workplace expectations by performing professional tasks in their chosen field.

For Human Ecology majors, completing an internship is a required part of the undergraduate curriculum. To fulfill this requirement, students must meet the following criteria:

- Enrollment Requirements: Have at least junior standing (54+ credits) and taken INTER-HE 202 (SoHE Career & Leadership Development) before pursuing the internship.
- Time Commitment: Complete a minimum of 150 hours at the internship site to earn 3 academic credits.
- Eligibility & Approval: Secure an internship that is educational in nature, directly related to their major and career goals, and verified and approved by the Advising & Career Center (https://go.wisc.edu/acc_office/).
- Note: Additional course prerequisites may be required for certain Human Ecology majors.

For more information and step-by-step guidance, please visit Human Ecology Internships (https://advising.humanecology.wisc.edu/careers/internship-requirement/).

STUDENT ORGANIZATIONS

To see our active list of Human Ecology Student Orgs and for more information about joining, please visit Human Ecology Student Organizations (https://advising.humanecology.wisc.edu/studentlife/join-a-student-organization/).

Learn more about UW–Madison registered student organizations through the Wisconsin Involvement Network (https://win.wisc.edu/).

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

SCHOLARSHIPS

The School of Human Ecology (SoHE) awards many merit and need-based scholarships each year. Students can learn more about these opportunities on the Human Ecology scholarships webpage (https://humanecology.wisc.edu/academics/scholarships/). To be eligible for these awards, scholarship recipients must be registered as full-time Human Ecology students. For further questions on the scholarship application, please contact the School of Human Ecology Scholarship Coordinator at scholarships@sohe.wisc.edu.

SUPPORT RESOURCES

Human Ecology students experiencing personal, academic, or financial challenges should contact SoHE Academic Deans Services (https://advising.humanecology.wisc.edu/academic-dean-services/). Additional campus resources include the Financial Aid Basic Needs website (https://basicneeds.students.wisc.edu/), Office of Student Assistance and Support (https://osas.wisc.edu/), and University Health Services (https://www.uhs.wisc.edu/).

HUMAN DEVELOPMENT AND FAMILY STUDIES: CHILD DEVELOPMENT, BS

The Child Development option within the Human Development & Family Studies (HDFS) major offers a focused study of human development and relationships during childhood. It includes foundational HDFS courses as well as specialized advanced courses and applied experiences that are focused on children's development and relationships.

The Child Development option within the HDFS major prepares students for a variety of careers related to the health and well-being of children and their families, including healthcare, mental health, family support services, public policy, and family law. The curriculum of the Child Development track also meets the requirements for pursuing professional credentials, such as the Infant/Early Childhood Mental Health Endorsement® (https://humanecology.wisc.edu/academics/undergraduate-majors/human-development-family-studies/infant-mental-health-imh-endorsement/), an internationally recognized credential for professionals who work with infants, toddlers, and their families, as well as the Certified Family Life Education (CFLE) national credential provided by the National Council on Family Relations (NCFR) (https://www.ncfr.org/cfle-certification/become-certified/) and recognized in the U.S. and Canada for Family Life Education professions.

Students can take advantage of learning opportunities and paid internships offered by centers and initiatives in the School of Human Ecology (SoHE), including the Child Development Lab (https://childdevelopmentlab.wisc.edu/) (CDL), an onsite laboratory preschool supporting applied learning, internships, research, and class observations, and the PELICAN Center (https://humanecology.wisc.edu/pelican-center/), an interdisciplinary coalition of students and professionals working to support children and families through early literacy, child health advocacy, and early relational health. Students who pursue the Child Development track are given priority for CDL and PELICAN Center internships, including those with partners like the Early Childhood Health Consultation and Reach Out and Read Wisconsin.

REQUIREMENTS

REQUIREMENTS

- School of Human Ecology Honors (p. 2068)

INDIVIDUAL MAJOR, BS

The individual major is a program for undergraduate students who want to fulfill a specific academic goal that is not attainable through a combination of existing majors in one or more departments. The major must meet a course of study that involves at least two departments and be targeted at a specific problem or academic interest identified by the student. A student proposal must be submitted and approved by the Human Ecology Undergraduate Program Council. Students are encouraged to begin working with faculty and advisors in the Advising & Career Center by the

end of the sophomore year. Thirty credits must be earned in residence after the term in which the proposal is approved. The major will be guided by a committee of at least three faculty members (with no more than two faculty members from one department).

Individual majors are intended to create a unique program of study that otherwise does not exist on this campus individually or in a combination of majors and certificate programs. Students should carefully explore all University of Wisconsin–Madison majors and certificate programs before pursuing an individual major. A proposal that essentially parallels an existing Human Ecology or campus major will not be approved.

Graduates of the individual major earn a bachelor of science in human ecology. The major will match the approved proposal title, which must have a human ecology focus.

HOW TO GET IN

HOW TO GET IN

CURRENT UW–MADISON STUDENTS

Requirements	Details
How to get in	Application required. Meeting the requirements listed below does not guarantee admission. Please contact the Human Ecology Advising & Career Center for the complete individual major application instructions.
Courses required to get in	None.
GPA requirements to get in	3.50 minimum cumulative GPA.
Credits required to get in	24 credits minimum.
Other	Must be in good academic standing with their current school or college.

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.

Major Declaration	Declare and complete the requirements for at least one major.

SCHOOL OF HUMAN ECOLOGY BS REQUIREMENTS

All Human Ecology majors share the requirements listed below. Each major has additional requirements. A single course can simultaneously count toward university, school, and major requirements if it carries the relevant designations

Human Ecology Breadth	6 credits in the School of Human Ecology (CNSR SCI, CSCS, DS, HDFS, INTER-HE) taken outside of the home department of the major. Excludes INTER-HE 202 or 601.
Communication A	Complete either: • one course with the Communication A designation, or • satisfaction of Communication A based on UW Placement Test.
Communication B	One course with the Communication B designation.
Quantitative Reasoning A	Complete either: • one course with the Quantitative Reasoning A designation, or • satisfaction of Quantitative Reasoning A based on UW Placement Test.
Quantitative Reasoning B	One course with the Quantitative Reasoning B designation.
Humanities/ Literature/ Arts	9 credits with the Humanities, Literature, or Language designations.
Social Science	9 credits with the Social Sciences designation.
Natural Science	9 credits with the Biological, Natural, or Physical Science designations.
Ethnic Studies	3 credits with the Ethnic Studies designation.

GRADUATION REQUIREMENTS

Cumulative Credits	Students must earn 120 degree credits.
Quality of Work	Students must maintain a minimum cumulative grade point average of 2.000 to remain in good standing and be eligible for graduation.
Residency	Students must complete 30 degree credits in residence at UW–Madison.

INDIVIDUAL MAJOR REQUIREMENTS

The student will work with the faculty committee to develop the individual major proposal and select all required courses, the majority of which must be completed in Human Ecology. If the Individual Major is approved by the Human Ecology Undergraduate Program Council, the student will complete all required courses as outlined with the faculty committee.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

There is no standard four-year plan for the Individual Major.

ADVISING AND CAREERS

ADVISING AND CAREERS

Students interested in pursuing an individual major should first meet with a Human Ecology academic advisor to ensure program eligibility and to discuss their area of interest and rationale. Appointments should be made by contacting the Human Ecology Advising & Career Center (https://advising.humanecology.wisc.edu/) at 608-262-2608.

WISCONSIN EXPERIENCE

WISCONSIN EXPERIENCE

INTERNSHIPS

Internships are a vital component of student career development and a highly valued part of the undergraduate curriculum in the School of Human Ecology. By bringing classroom theories to life in real-world settings, high-quality internships foster essential professional development. They provide a unique opportunity for students to explore careers related to their major, gain hands-on experience in a field of interest, and understand workplace expectations by performing professional tasks in their chosen field.

For Human Ecology majors, completing an internship is a required part of the undergraduate curriculum. To fulfill this requirement, students must meet the following criteria:

- Enrollment Requirements: Have at least junior standing (54+ credits) and taken INTER-HE 202 (SoHE Career & Leadership Development) before pursuing the internship.
- Time Commitment: Complete a minimum of 150 hours at the internship site to earn 3 academic credits.
- Eligibility & Approval: Secure an internship that is educational in nature, directly related to their major and career goals, and verified and approved by the Advising & Career Center (https://go.wisc.edu/acc_office/).
- Note: Additional course prerequisites may be required for certain Human Ecology majors.

For more information and step-by-step guidance, please visit Human Ecology Internships (https://advising.humanecology.wisc.edu/careers/internship-requirement/).

STUDENT ORGANIZATIONS

To see our active list of Human Ecology Student Orgs and for more information about joining, please visit Human Ecology Student Organizations (https://advising.humanecology.wisc.edu/studentlife/join-a-student-organization/).

Learn more about UW–Madison registered student organizations through the Wisconsin Involvement Network (https://win.wisc.edu/).

RESOURCES AND SCHOLARSHIPS

RESOURCES AND SCHOLARSHIPS

SCHOLARSHIPS

The School of Human Ecology (SoHE) awards many merit and need-based scholarships each year. Students can learn more about these opportunities on the Human Ecology scholarships webpage (https://humanecology.wisc.edu/academics/scholarships/). To be eligible for these awards, scholarship recipients must be registered as full-time Human Ecology students. For further questions on the scholarship application, please contact the School of Human Ecology Scholarship Coordinator at scholarships@sohe.wisc.edu.

SUPPORT RESOURCES

Human Ecology students experiencing personal, academic, or financial challenges should contact SoHE Academic Deans Services (https://advising.humanecology.wisc.edu/academic-dean-services/). Additional campus resources include the Financial Aid Basic Needs website (https://basicneeds.students.wisc.edu/), Office of Student Assistance and Support (https://osas.wisc.edu/), and University Health Services (https://www.uhs.wisc.edu/).

SCHOOL OF HUMAN ECOLOGY HONORS

The School of Human Ecology Honors program no longer admits new students after Summer 2026 and will be discontinued as of Fall 2027. Students already admitted may only complete and be awarded this credential through Summer 2027. If you have any questions, please contact the school.

The School of Human Ecology Honors Program provides an opportunity for students to pursue coursework in greater depth than is possible in regular courses. The honors program is a school-wide program open to students regardless of major. Honors program members are eligible to enroll in courses offered for honors-only credit, to participate in campus wide activities for honors program students, and to apply for special research-funding opportunities. Upon completion of the honors program requirements and degree requirements, the student will receive an honors degree from the School of Human Ecology. The transcript for a Human Ecology honors student who does not complete all honors degree requirements will have the honors designation next to honors courses completed.

HOW TO GET IN

HOW TO GET IN

The School of Human Ecology Honors program no longer admits new students after Summer 2026 and will be discontinued as of Fall 2027. Students already admitted may only complete and be awarded this credential through Summer 2027. If you have any questions, please contact the school.

Students interested in pursuing the School of Human Ecology Honors Programs should first meet with an academic advisor in the Advising & Career Center. Admission decisions are made by a faculty committee in the appropriate SoHE department and will take into consideration the eligibility criteria listed below and the strength of the written application.

- *Freshmen.* Admission as a newly enrolled freshman requires a 3.3 grade point average or high school class ranking in the top 10% and a composite ACT score of 27 or a combined SAT score of 1100.
- *Continuing Students.* Admission of currently enrolled students requires a minimum 3.3 grade point average. Students, both transfer and those currently enrolled in SoHE, may apply for entrance to the Honors Program in any semester of their undergraduate career after the 3.3 minimum grade point average has been established.

REQUIREMENTS

REQUIREMENTS

In addition to the School of Human Ecology degree requirements, honors program students must:

- Complete a total of at least 24 honors credits, with at least 12 of the honors credits obtained in Human Ecology coursework.
- Maintain a minimum grade point average of 3.3 in all UW-Madison courses to continue in the honors program.
- Receive a grade of B or above in a course to receive honors credit for that course.
- Complete an honors thesis for at least three, but no more than six, senior honors thesis credits. Students are strongly recommended to consider registering for two semesters of senior honors thesis credits for adequate time to plan and complete the senior honors thesis. Senior honors thesis credits may count toward the 12 credits minimum of Human Ecology honors credits.

ADVISING AND CAREERS

ADVISING AND CAREERS

ADVISING & CAREER CENTER

The Advising & Career Center (ACC) fosters undergraduate students' personal, academic, and professional development. Through advising, academic planning, and career education, we support students as they navigate the college experience—from exploring our majors as prospective students to becoming Human Ecology alumni.

Academic Advising

Each Human Ecology student is assigned to an academic advisor in the Advising & Career Center. Human Ecology academic advisors support academic and personal success by partnering with current and prospective Human Ecology students as they identify and clarify their educational goals, develop meaningful academic plans, and pursue their own Wisconsin Experience.

To explore academic advising resources or schedule an appointment with Human Ecology academic advisor, visit Academic Advising in Human Ecology (https://advising.humanecology.wisc.edu/academics/scheduling/).

Career Development

Each Human Ecology student is assigned to a career advisor in the Advising & Career Center. Active engagement in the career development process is a vital component of a student's personal growth in college and future success as a lifelong learner, professional, and global citizen. Human

Ecology career advisors help prepare students for life post-graduation through advising and integration of career readiness throughout our curriculum.

To explore career development resources or schedule an appointment with a Human Ecology career advisor, visit Career Development in Human Ecology (https://advising.humanecology.wisc.edu/careers/scheduling/).

SCHOOL OF NURSING

The School of Nursing (https://nursing.wisc.edu/), established in 1924, is the leading nursing research institution in Wisconsin and a crucial part of the state's health care system.

The school offers a full array of degree programs; the bachelor of science in nursing (BSN), the doctor of nursing practice (DNP), and the doctor of philosophy in nursing (PhD), along with several graduate-level certificate programs.

Undergraduate (BSN) programs include:

- Traditional BSN: a four year program
- Accelerated BSN: a 12-month program for second-degree candidates
- RN to BSN: for registered nurses who hold an associate's degree in nursing and wish to earn the baccalaureate degree.

Additionally, options exist for honors study in the major, as well as joint programs whereby students can earn the master of public health along with the BSN or transition directly to the PhD program via the Early Entry PhD Option.

Student life pairs the educational and social resources of a large, world-class university with a supportive environment at the school. Students receive comprehensive support services related to advising, program planning, clinical placements, career services, financial aid, and post-graduation credentialing.

World-renowned facilities for clinical practice and research are available in and around Madison. These include University of Wisconsin Hospital and Clinics, American Family Children's Hospital, UW Carbone Cancer Center, and William S. Middleton Memorial Veterans Hospital; hospitals and clinics in urban and rural settings; long-term care facilities; schools; and public health agencies. The university's location in Wisconsin's capital offers additional opportunities in state government and policy making.

On campus, Signe Skott Cooper Hall, the home of the School of Nursing's, has state-of-the-art classrooms, simulation labs, meeting and research facilities, and social gathering spaces in an environment dedicated to the health and wellness of students, faculty, staff, and the communities and populations we serve.

The school's mission is to develop nurses leaders, innovators, and advocates for the profession and society through research, education, practice, policy, and outreach.

DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/ CERTIFICATES

- Nursing, BSN (Accelerated Program) (p. 2082)
- Nursing, BSN (Collaborative Program) (p. 2086)

ENTERING THE SCHOOL

ENTERING THE SCHOOL

ADMISSION TO UW–MADISON

All prospective UW–Madison nursing students must apply through the central Office of Admissions and Recruitment (https://www.admissions.wisc.edu/).

Pre-Nursing Freshmen

Students who indicate interest in the nursing major on their UW–Madison application will be admitted to the School of Nursing as pre-nursing (PRN) students. In addition, students may indicate interest in the nursing major when registering for Student Orientation, Advising, and Registration (SOAR). The School of Nursing is the academic home for pre-nursing students, providing orientation, academic advising, academic support. Students complete nursing prerequisite courses and general education requirements in preparation to apply to the nursing major. Most pre-nursing students apply to the nursing major midway through their second year to enter the two-year Traditional BSN program at the start of their third year.

Pre-Nursing Transfers

Students may transfer to UW–Madison as pre-nursing students. As with pre-nursing freshmen, transfer students have an academic home in the School of Nursing as they work to complete prerequisites and general education requirements in preparation to apply to the two-year Traditional BSN program.

Second-degree Candidates

Students seeking to earn a second degree in nursing can apply directly to either the Traditional BSN program or the Accelerated BSN program upon completing necessary admission requirements. Second-degree candidates must be admitted directly into the nursing program; they cannot enter UW–Madison as pre-nursing students.

ADMISSION TO THE NURSING PROGRAM

Traditional BSN

As students complete the requirements to be eligible to apply to the nursing program, they apply to the two-year Traditional BSN program. To be eligible to apply, students must complete the necessary prerequisite courses and have the minimum 2.75 cumulative and prerequisite GPAs; complete details on the Traditional BSN admission requirements and application process can be found at Traditional BSN H (https://guide.wisc.edu/undergraduate/nursing/nursing/nursing-bsn/#howtogetintext)ow to Get In (https://guide.wisc.edu/undergraduate/nursing/nursing/nursing-bsn/#howtogetintext).

Accelerated BSN for Second-Degree Candidates

Second-degree candidates can apply for the Accelerated BSN program. This is a 12-month intensive baccalaureate program that offers the

quickest route to licensure as a registered nurse (RN) for students who have already completed a bachelor's degree or graduate degree in a non-nursing discipline. Students must complete nursing prerequisite courses and the university General Education Requirements, and have the minimum GPAs, to be eligible to apply. Complete details on the accelerated BSN admission requirements and application process can be found at Accelerated BSN H (p. 2082)ow to Get In (https://guide.wisc.edu/undergraduate/nursing/nursing/nursing-accelerated-program-bsn/#howtogetintext).

RN to BSN (Collaborative, BSN@Home)

Registered nurses who have an associate's degree in nursing, equivalent degree, or diploma in nursing from an accredited nursing program can apply to enter the BSN@Home program to earn their bachelor's degree in nursing (BSN). Complete details on the BSN@Home admission requirements and application process can be found at Collaborative BSN (BSN@Home) How to Get In (https://guide.wisc.edu/undergraduate/nursing/nursing/nursing-collaborative-program-bsn/#howtogetintext).

CURRENT UW–MADISON STUDENTS

First semester students without a GPA and other students with at least a 2.75 cumulative and nursing prerequisite GPA may transfer into the School of Nursing as pre-nursing students. Students wishing to declare (change classification) must meet with a pre-nursing academic advisor before the 12th week of the semester in order to be applied to that semester. Requests made after the 12th week will take effect at the start of the following semester.

Students who are not in the School of Nursing may also apply for the Traditional BSN program without being pre-nursing students first. However, students declared as pre-nursing are assigned to pre-nursing advisors and have priority enrollment into select prerequisite courses.

For more information and to request declaration to pre-nursing, students should contact the nursing Office of Academic Affairs at 608-263-5202 or academic.affairs@nursing.wisc.edu.

POLICIES AND REGULATIONS

POLICIES AND REGULATIONS

The students, faculty, administration, and staff of the School of Nursing are part of the University of Wisconsin–Madison's academic community, and as such, are subject to the policies, rules, and regulations of the university. In addition, the school and its respective programs may, as deemed necessary, develop their own policies and procedures to augment those of the university. Following are the specific School of Nursing policies and regulations that expand upon or differ from the policies of the university as a whole.

ACADEMIC STATUS

Academic Actions (Warning, Probation, Drop)

Every student (pre-nursing and nursing) is expected to maintain at least a 2.5 GPA in each term. Students who maintain this average are considered in **good academic standing**. Failure to earn this minimum GPA will result in the academic action of **warning**, **probation**, or **dropped** (academically dismissed). Students must be in good academic standing in order to be eligible for graduation.

If not on warning and:

1. Earns a GPA in a semester of 1.75–2.49 = warning
2. Earns a GPA in a semester session of less than 1.75 = probation

If on warning and:

1. Earns a GPA in a semester of 1.75–2.49 = probation
2. Earns a GPA in a semester of less than 1.75 = dropped from the program

If on probation and:

1. Earns a GPA in a semester of 2.5 or above but cumulative GPA remains under 2.5 = continued probation
2. Earns a GPA in a semester of less than 2.5 or a nursing cumulative GPA below 2.5 = dropped from the program

In addition to the academic actions detailed above, nursing students (Traditional BSN, Accelerated BSN, and Collaborative BSN) are placed on probation if they:

1. Earn a grade of D, F or NC in any NURSING course, and/or
2. Earn a nursing cumulative GPA below 2.5

Good Academic Standing

To be in good academic standing, students must maintain:

- a cumulative GPA of 2.5 or above, and
- a nursing cumulative GPA of 2.5 or above, and
- a GPA of 2.5 or above in the semester just completed

Dean's Honor List

The purpose of the Dean's Honor List is to recognize superior academic achievement of undergraduate students. Students must achieve a minimum GPA of 3.75 on a semester load of not fewer than 12 credits in order to be placed on the Dean's Honor List. A notation of *Dean's Honor List* will appear on the student's grade report and transcript. Students who earn a semester GPA of 3.25–3.74 on 12 or more credits will receive a congratulatory statement on their end-of-semester grade report form.

Graduating with Distinction

Graduation with Distinction will be noted on the transcript of students who earned 60 or more credits at UW–Madison and a GPA that places them in the top 20 percent of those graduating from the School of Nursing that term.

Satisfactory Academic Progress

The Satisfactory Academic Progress Policy for all Nursing programs is designed to promote academic excellence and ensure student support and success, while maintaining the highest standards of nursing education.

Course Repeat: Students who fail to meet the minimum grade required for a course will be required to retake the course during the next term it is offered. Students will work with the Academic Affairs to determine when the course can be taken next and develop a modified progression plan.

Single Course Repeat: A student may repeat a single nursing course only once in their program.

Dismissal: If a student earns a grade of D, F, or NC (no credit) twice in the same nursing course or earns a grade of D, F, or NC in two different nursing courses during their academic program, they will be dismissed from the program.

Appeals Process: If a student believes that extenuating circumstances have contributed to their dismissal from the program, they may follow the established appeals process.

PROGRESSION REQUIREMENTS

At the School of Nursing, we understand that certain circumstances or individual needs may require students to deviate from the standard academic program. This is referred to as "modified progression." Modified progression aims to accommodate specific student needs, exceptions, or unique situations. Our aim is to support students in achieving their educational goals while ensuring their unique needs are accommodated through the modified progression process. Students are encouraged to communicate openly and proactively with academic advisors.

Request for Modified Progression: Students who need a modification to their program's progression may initiate the process by discussing their requirements with their academic advisor, Director of Advising, or the Assistant Dean.

Assessment and Approval: Modified progression plans are carefully assessed, considering the unique needs of the student. The decision to approve or deny the request is based on individual circumstances.

Course Plan Development: If the modified progression is approved, the student will collaborate with the Director of Advising or the Assistant Dean to create a customized course plan. This plan will consider the student's needs, course prerequisites, and available course offerings.

Medical Conditions: In cases where a modified progression plan is necessitated by a medical condition, the plan must consider the student's abilities, as outlined in the School of Nursing's Essential Functional Abilities Standards.

PROFESSIONAL STANDARDS

All School of Nursing faculty, staff, and students are expected to adhere to the highest standards of professional behaviors and ethics. Honesty, integrity, and ethical conduct are central to the practice of professional nursing. Students should conduct themselves according to the standards expected of members of the professional community to which they aspire. The Professional Standards and Behavior Code for Nursing students applies to students whether on campus, in practicums, or in their personal life, as behaviors can significantly impact the School of Nursing program. Inappropriate behavior may be grounds for failure to progress, dismissal, and/or denial of the degree in nursing. Separate and apart from a violation of the Professional Standards and Behavior Code, students may also face University disciplinary action, as noted above, with regard to the same action.

PETITIONS, APPEALS, AND GRIEVANCES PROCEDURES

Section One: Petitions

If a student in the School of Nursing wishes to request an exception to a School of Nursing academic policy or regulation they should first consult their academic advisor. Then, the student must formally submit their request using the Petition for Special Consideration (https://uwmadison.co1.qualtrics.com/jfe/form/SV_07Y6YZUOYXJnQ2O/) form. Exception requests could be related to academics (i.e. dropping a course or withdrawing after the deadline etc), clinicals/compliance (i.e. waiver for specific compliance requirement), or admission to one of the School of Nursing's academic programs.

Exceptions to established policies, regulations, and/or program requirements should be rare and will be considered on an individual case by case basis. They will be reviewed by the School of Nursing's Academic Affairs office. Students will receive communication regarding next step within 10 business days.

Section Two: Appeals

Appeals are limited to requests to continue in the curriculum after being dropped from the program and/or course grade appeals.

Drop Appeals

Any student who feels they should not have been dropped from the program has the right to file an appeal. The appeals procedure is available for students to provide additional information regarding their circumstances which have contributed to their dropped status. The appeal procedure is described below. Throughout the appeal process, the student (hereby referred to as appellant) may be accompanied by a support person.

Course Grade Appeals

A student who believes a grade received in a Nursing course was an error or not consistent with guidelines outlined in the syllabus or campus standards has the right to appeal the grade.

The student should first speak with the course faculty member in an effort to resolve the issue informally. This must be done within 10 business days of the grade posted to the students record. During this informal process both student and faculty may consult with the Associate or Assistant Deans for Academic Affairs to seek resolution of the issue.

If the student remains dissatisfied with the grade, the student has the option to initiate the formal appeal procedure. To do this, the student (hereby referred to as appellant) must submit the appeal, as outlined below.

Filing Appeal

1. The student must submit a petition for special consideration (https://uwmadison.co1.qualtrics.com/jfe/form/SV_07Y6YZUOYXJnQ2O/) form within 10 business days of notification of academic status or grade posting. The appeal must include:
   a. Precise grounds on which the appeal is based.
   b. Circumstances associated with the need to appeal.
   c. Arguments supporting the appeal.
   d. Description of proposed remedial actions to be taken to improve the student's academic performance.
   e. The appellant may also submit letters of support from persons knowledgeable about the appellant's current and/or past academic work and/or other matters related to the appellant's academic performance. Any such letters must be submitted to the Assistant Dean via email by the same deadline.
2. Within 15 business days after receiving the appeal, the Assistant Dean for Academic Affairs will assemble a committee. The committee will review the appeal and related materials, and may request additional information from the appellant and/or request them to appear before the committee. If requested to attend a committee meeting, the appellant may bring a support person to the appeal meeting and must notify the Assistant Dean for Academic affairs at least three business days prior to the meeting. The appellant's chosen support person is limited to providing advice and support to the appellant.
3. Once all committee meetings are complete, the committee will send a written report of the committee's recommendations to the Assistant Dean for Academic Affairs within 15 business days. The Assistant Dean for Academic Affairs will take the committee's recommendation and issue a decision on the appeal. The decision will be communicated

by email to the student within 10 business days after receipt of the committee's recommendation.

4. If the appeal is granted, the Assistant Dean for Academic Affairs, or designee, will discuss with the appellant any stipulations (binding) and recommendations (non-binding) for continuation in the program. If the appeal is denied, the Assistant Dean for Academic Affairs or designee will discuss appropriate next steps with the appellant. If the appeal is denied, the student may choose to appeal the decision; the appeal will be directed to the Associate Dean for Academic Affairs. The written document must include specific justifications regarding the grounds of the appeal, which are limited to:
   a. School policies were incorrectly applied,
   b. Decision is contrary to state or federal law,
   c. Proper appeal procedures were not followed, or
   d. Unfounded, arbitrary, or irrelevant assumptions of fact regarding the appellant's performance were made by the appeals committee. Appellant must also identify specific aspects of the decision that they believe meet the criteria cites as the basis for appeal.

The Assistant Dean for Academic Affairs will provide the Associate Dean for Academic Affairs with a copy of the initial grievance, the committee's recommendation, and the Assistant Dean for Academic Affairs's decision. No new information relevant to the grievance may be introduced to or considered by the Associate Dean for Academic Affairs. The Associate Dean for Academic Affairs shall notify the student and the committee of the decision in writing within 30 business days. The Associate Dean's decision is final.

Section Three: Grievances

The following School of Nursing Student Grievance Policy and associated procedures are designed for use in response to individual student grievances regarding faculty or staff in the School of Nursing.

Any individual student who feels they have been treated unfairly by a School of Nursing faculty or staff member has the right to file a grievance and receive a timely response addressing their concerns. Any student may use these grievance procedures, except student employees whose complaints are covered under other campus policies. The grievance procedure is available to resolve student concerns regarding inequitable treatment that have not been satisfactorily resolved through the informal resolution process or where the student believes that an informal resolution would not be productive. Throughout the grievance process, the student may be accompanied by a support person. The use of this grievance procedure shall not prevent the student from seeking redress through another administrative or legal process.

For grievances regarding discrimination based on protected bases (i.e., race, color, national origin, sex, disability, age, etc.), contact the Office of Compliance (https://compliance.wisc.edu/eo-complaint/).

For grievances or concerns regarding sexual harassment or sexual violence (including sexual assault, dating/domestic violence, stalking and sexual exploitation), contact the Sexual Misconduct Resource and Response Program within the Office of Compliance (https://compliance.wisc.edu/titleix/).

For grievances that involve the behavior of a student, contact the Office of Student Conduct and Community Standards in the Dean of Students Office at https://conduct.students.wisc.edu/.

For grievances about, or directed at, faculty or staff in the School of Nursing, students should follow these steps:

Informal Grievance Resolution

Any student in the School of Nursing who believes they have been treated inequitably is encouraged to resolve the matter informally. The student should first talk with the person or group at whom the grievance is directed in an attempt to resolve the issue informally. The student may contact the Associate Dean for Academic Affairs for assistance in resolving the matter informally. If students are unable to resolve concerns informally, a student may follow the formal grievance procedure.

Formal Grievance Procedure

1. The student must submit a grievance by email to the Associate Dean for Academic Affairs within 15 business days of the alleged unfair treatment. To the fullest extent possible, a formal written grievance needs to contain a clear and concise statement of the issue(s) involved as well as the relief sought.
2. Within 30 business days after receiving the grievance, the Associate Dean for Academic Affairs will arrange for a committee meeting. The committee may request a written response from the person or group at whom the grievance is directed, may ask for additional information from any or all parties involved, may request that the parties involved appear before the committee, and/or may take other steps in attempting to resolve the grievance.
3. Once all committee meetings are complete, the committee will send a written report of the committee's recommendations to the Associate Dean for Academic Affairs.
4. The Associate Dean for Academic Affairs will take the committee's recommendation and issue a decision on the grievance. The decision will be communicated by email to the student within 10 business days after the receipt of the committee's recommendation.
5. If a student chooses to appeal the decision, the appeal will be directed to the Dean of the School of Nursing. The student must submit a written appeal, by email, to the Dean within 10 business days upon being sent the decision from the Associate Dean for Academic Affairs. The written document must include specific justifications regarding the grounds of the appeal. The Associate Dean for Academic Affairs will provide the Dean with a copy of the initial grievance, the committee's recommendation, and the Associate Dean for Academic Affairs' decision. No new information relevant to the grievance may be introduced to or considered by the Dean. The Dean shall notify the student and the committee of the decision by email within 30 business days. The Dean's decision is final.

CLINICAL/EXPERIENTIAL LEARNING COURSES

All nursing students are required to complete credit hours in the clinical setting under the supervision of a nursing professional. In the School of Nursing, the term *experiential learning* is used to describe the clinical course experience. These clinical experiences support the mission of the School of Nursing, integrating practice and coursework, to provide a comprehensive nursing education.

Compliance Requirements

The School of Nursing is committed to ensuring all nursing students are compliant with national and state guidelines for personnel providing nursing care, as well as additional/specific requirements mandated by the school's clinical affiliates as set forth in the clinical affiliation agreements. Therefore, all nursing students are required to be in full adherence to the school's compliance program while enrolled in the nursing program. Students will be held accountable for complying with the clinical eligibility

requirements prior to entering the program and throughout their program of study. All students are required to keep their compliance documents up to date as an essential part of their professional responsibility for patient safety. Review the Nursing Student Compliance Program (https://students.nursing.wisc.edu/clinicals-compliance/compliance/) for complete details.

Clinical Placements

Students are assigned to clinical placement sites based on the School of Nursing's selection of clinical sites specific to the learning objectives of the course, site characteristics, and availability. Students need to be prepared to travel up to 90 miles from the School of Nursing and have varied schedules including evenings, nights and weekends. Clinical shifts may be up to 12 hours long. The School of Nursing secures clinical placements for all students. Students are not allowed to arrange their own clinical placements.

Clinical Hour Completion Within the Term/Rotation

Experiential learning/clinical work required for School of Nursing courses must be completed during the term of enrollment. These official terms and dates are when the faculty have effort allocated to course instruction and also when our clinical partners have agreed to engage with students in clinical rotations. Per the university's Academic Calendar (https://secfac.wisc.edu/academic-calendar/), there are three terms each academic year: fall, spring, and summer. Clinical work and clinical hours must be completed within the term dates. It is not allowed to start clinical work prior to the first day of instruction or to complete clinical work after the last day. Exceptions may be made in the case of extenuating circumstances or if a student is assigned an Incomplete grade for the course. To request an exception to this policy, students must submit a petition for special consideration.

Transportation

The School of Nursing recognizes that students need educational experiences beyond those available in hospitals in Madison, Wisconsin. In answer to this educational need, and in order to secure enough clinical sites for all students, the school places its students in a variety of venues in and beyond Madison. This includes ambulatory sites, clinics, rehabilitation centers, home health agencies, geriatric facilities, school districts, nursing homes, etc. This gives our students comprehensive exposure to a broad range of patients, illness, and care. Nursing students are responsible for arranging their own transportation to and from their clinical sites. Locales may be up to 90 miles from Madison. Therefore, nursing students are required to have (1) a valid driver's license, and (2) individual access to a car. Students are responsible for all transportation costs incurred, including gas and parking fees. Students with extenuating circumstances that have an impact on their clinical transportation options (e.g., driving/medical restrictions) should use the Petition for Special Consideration (https://nursingstudentnet.wiscweb.wisc.edu/wp-content/uploads/sites/222/2017/07/petition-spec-consideration-ug.pdf) to request an accommodation or exception to the transportation policy. There is no guarantee the school will be able to honor such requests/conditions, and exceptions are granted in very rare circumstances.

Uniforms

Nursing students are required to purchase the approved School of Nursing uniform. Lab coats embroidered with the school logo are also required and are worn when students are on their clinical units doing clinical preparation and during most community clinical experiences. In addition to the uniform requirements, there are also professional appearance guidelines (https://students.nursing.wisc.edu/clinicals-compliance/clinical-information/) for students.

Safe Clinical Performance

A student who demonstrates unsafe nursing practice may be dismissed at any time from the clinical area. Unsafe clinical practice is defined as any behavior determined by faculty or a preceptor to be potentially detrimental to the patient or to the healthcare agency. Reports of unsafe clinical performance will be routed through the course professor and/or the course coordinator to the Associate Dean for Academic Affairs who will work with the faculty and student to determine the appropriate outcome, which may include immediate removal from the course and subsequent implications for academic progression.

Student Invasive Procedures

Students may not practice invasive procedures on themselves, other students, faculty, preceptors, staff, and/or any other unauthorized individuals. This includes, but is not limited to, any invasive procedures that require needles, syringes, and/or intravenous supplies; nasogastric tube insertion; catheterization; etc. During some non-invasive experiences, such as physical assessment, listening to a heartbeat, or taking a blood pressure, students may be asked to act as practice participants. If a student has any objection to providing this experience, they should notify the instructor immediately so that an alternate experience can be provided.

COURSES AND ENROLLMENT

Enrollment

The Office of the Registrar publishes university deadlines for adding and dropping individual courses, withdrawing (from all courses), and selection options such as pass/fail and audit. Changing enrollment can have consequences for academic standing, tuition, progress toward degree, etc. Students are strongly encouraged to consult with an academic advisor or the Director of Advising in the School of Nursing prior to initial enrollment and before making any changes to enrollment. Exceptions to or extensions of the university deadlines may only be requested via the Petition for Special Consideration (http://academic.son.wisc.edu/studentnet/forms/petition-spec-consideration-ug.pdf).

Attendance

Students admitted to the School of Nursing are entering a professional program. Commitment to full participation in the learning environment is an essential component of what will become a style of life-long learning. Attendance in nursing courses is a student obligation and students are responsible for attending all classes. Students will not be excused from required coursework for personal/family events, non-emergent medical situations, work obligations, or because of non-compliance. In extraordinary circumstances, an absence may be granted at the discretion of Academic Affairs in the School of Nursing.

Didactic Course Attendance

In most didactic courses, attendance and/or participation are factored into the grading process. Absences may place students in jeopardy of not meeting course learning outcomes and thus successfully completing the course. Students should review each course syllabus for specific policies related to absences.

Experiential Learning Attendance

It is the expectation that students attend all experiential learning activities as clinical learning is essential to the completion of the nursing program. If a student must miss an experiential learning session due to an extraordinary circumstance, a make up experience may be provided/required (see guidelines below). Students should review each course syllabus for specific policies related to absences.

Active-Duty Military Service Attendance

Students who are active-duty military personnel must submit a Military Service Notice Form (https://veterans.wisc.edu/wp-content/uploads/sites/345/2024/05/Military-Service-Notice_Fillable.pdf) to faculty for each enrolled course. Once the form is received, the student and faculty member will meet to discuss appropriate academic accommodations for the course. Accommodations are expected for all course components, including both formative and summative assessments, to support equitable access and academic success.

Intercollegiate Athletic Participation Policy

Students participating in athletics or affiliated activities (including varsity athletes, band members, cheerleaders, and student managers) are required to submit official communication and/or a travel letter to faculty for each enrolled course documenting their involvement in athletic events or competitions. Documentation is also required to be submitted to Academic Affairs. Upon submission, the student and faculty will meet to discuss potential academic accommodations specific to the course. While accommodations cannot be guaranteed, all requests will be thoughtfully reviewed, and reasonable considerations will be made if possible.

Credit/No Credit Grades

Some courses are graded on a Credit/No Credit basis. The transcript for the course will indicate either CR (meaning the student earned credits for the course) or N (meaning the the student did not earn any credit for the class). Students may not take such courses on any other basis.

Concurrent Registration and Enrollment

Students may enroll to earn degree credit concurrently at UW–Madison and any other accredited postsecondary school, including the UW–Extension.

Independent Study

Students interested in an independent study are responsible for identifying their area of interest or question, establishing objectives for their learning experience, and developing a learning contract with the faculty member. All independent studies require the consent of the instructor. Approval forms are available on the School of Nursing website.

Registration Changes

Students are strongly encouraged to consult with an academic advisor or the academic dean in the School of Nursing prior to initial enrollment and before making any changes to enrollment. Exceptions to or extensions of the university deadlines may only be requested via the Petition for Special Consideration (http://academic.son.wisc.edu/studentnet/forms/petition-spec-consideration-ug.pdf).

Reentry

Any student who leaves the School of Nursing and wishes to return after an absence of one semester or more must submit a reentry application with the UW–Madison Office of Admissions and Recruitment. Permission to reenter is dependent on program capacity, previous academic standing, and length of absence. Immediate placement in required nursing courses is not assured. Students seeking reentry to the baccalaureate program who have left on academic action must be reviewed by the Office of Academic Affairs. Students may be required to remediate and/or repeat courses, depending on academic standing or length of time since leaving the program. The remaining program will be planned as considered best for the student and according to the current curriculum.

Withdrawal

A nursing student who needs to withdraw during a term is encouraged to talk with an academic advisor or the Director of Advising prior to completing the withdrawal process. For specific deadlines for withdrawing, see Dates and Deadlines on the Office of the Registrar's website. Exceptions to or extensions of the University deadlines may only be required via the Petition for Special Consideration.

CREDITS

30-Credit residence requirement

All students must complete at least 30 degree credits at UW–Madison.

Credit Load

A full-time program is 12 to 18 credits for fall and spring terms. Students who wish to carry more than 18 credits per semester may submit a Petition for Special Consideration. Students will be assessed additional tuition per credit on credits beyond 18.

Retroactive credits

UW-Madison awards degree credit (called retroactive credit or retro-credit) for language learning to students who meet certain criteria. See Retroactive Language Credit for more information. Retroactive credits will be counted as electives only.

DEGREES

Second Undergraduate Degree

Second undergraduate degree candidates are considered for admission to both pre-nursing and nursing. Students who apply as second undergraduate program candidates must meet the admission and transfer grade point requirements of the university in place at the time they apply for admission. If admitted, an action is taken granting permission to pursue a second degree.

Second Major

Students may request permission to pursue a second major along with the nursing degree. Students must complete the nursing school's Petition for Special Consideration (https://nursingstudentnet.wiscweb.wisc.edu/wp-content/uploads/sites/222/2017/07/petition-spec-consideration-ug.pdf) to make the request.

GRADES

Grading Scale

The school has a standard grading scale in nursing courses that are graded A-F, as noted below. Some Experiential Learning (i.e., clinical) courses are graded Credit/No Credit.

For Traditional and Accelerated BSN students who began their program in May 2025 or before:

A: 94–100
AB: 88–93.99
B: 82–87.99
BC: 76–81.99
C: 70–75.99
D: 65–69.99
F: <65

For Traditional and Accelerated BSN students who began their program fall 2025 or after:

A: 95–100
AB: 89–94.99
B: 84–88.99
BC: 79–83.99
C: 76–78.99
D: 66–75.99
F: <65.99

Minimum Grade Requirement

Admitted nursing students must earn a grade of C (2.0) or higher in each required nursing (NURSING#) course. Students must receive credit (CR) in any clinical course that is offered on a Credit/No Credit basis. Any student who earns a grade below C or does not receive credit for a clinical course must repeat the course and earn a C or higher (or CR in a clinical course) in order to progress in the program.

Pass/Fail

Students in good standing (i.e. not on probation) may take only one (1) course as pass/fail per term. A maximum of 24 credits may be completed as pass/fail. The pass/fail privilege is for elective courses only. The pass/fail grade will not be included when computing a student's GPA. The registrar's office will convert final letter grades reported by the student's instructor to an S (pass) grade if the letter grade is C or higher or to a U (fail) if the final letter grade is below C. Course credits in which a student obtains a U grade cannot be counted toward the minimum of 124 credits required for graduation. Once a pass/fail grade is recorded as S or U, it cannot be changed to a letter grade. Students interested in the pass/fail option must contact their nursing academic advisor to determine eligibility.

Course Audits

A student may audit a course with the approval of the instructor and the Assistant Dean for Academic Affairs. Auditors are expected to attend class with regularity, participate in the class, and complete assigned course work as determined by the instructor, in collaboration with Academic Affairs. Audited courses carry no degree credit and are not graded (the only valid grades for audited courses are S [satisfactory] and NR [no report]). Audited courses do not count toward the minimum number of credits needed for full-time standing for the term but do count toward the term's credit load for fee purposes. Audited courses may affect eligibility for financial aid. Any student receiving financial aid who wishes to audit a course should consult with an advisor in the Office of Student Financial Aid.

REQUIREMENTS

REQUIREMENTS

All BSN students must complete both the BSN General Degree Requirements and Graduation Requirements. To determine which requirements are needed for application eligibility, review the How to Get in section.

BSN GENERAL DEGREE REQUIREMENTS

Chemistry	Complete one: • CHEM 103 • CHEM 108 • CHEM 109
Microbiology	Complete one: • MICROBIO 101 • CHEM 343 • NUTR SCI 332
Anatomy	ANAT&PHY 337
Physiology	Complete either: • ANAT&PHY 235 • ANAT&PHY 335
Psychology	PSYCH 202
Social Science	Complete one: • any 3 credit course in SOC with the Social Science designation (https://guide.wisc.edu/courses/soc (https://guide.wisc.edu/courses/soc/)/) • ANTHRO 100 • ANTHRO 104
Human Growth and Development	Complete one: • HDFS 262 • HDFS 263 • ED PSYCH 320 • ED PSYCH 321 • ED PSYCH 331 • PSYCH 464
Humanities	6 credits with the Humanities, Literature, or Language designation.
Humanities or Social Science	7 credits with the Humanities, Literature, Language, or Social Science designation.
Communicatio A	Complete either: • one course with the Communication A designation, or • satisfaction of Communication A based on UW Placement Test.
Communication B	One course with the Communication B designation.
Quantitative Reasoning A	Complete either: • one course with the Quantitative Reasoning A designation, or • satisfaction of Quantitative Reasoning A based on UW Placement Test.
Quantitative Reasoning B	One course with the Quantitative Reasoning B designation.
Ethnic Studies	One course with the Ethnic Studies designation.

GRADUATION REQUIREMENTS

Cumulative Credits	A cumulative GPA of 2.5 is required to be eligible for graduation.
Quality of Work	Students must earn a C or better in all required NURSING or CNP coursework.
Residency	30 credits of coursework must be completed in-residence.

RESOURCES

RESOURCES

Signe Skott Cooper Hall

The School of Nursing is located in Signe Skott Cooper Hall. The building features world-class technology and innovative educational spaces that will allow the nursing school to address health care's new standard of excellence—high-tech and high-touch methods and practices that result in better patient outcomes.

Office of Academic Affairs

The Office of Academic Affairs functions as the academic dean's office for the School of Nursing. Staff members interpret school regulations,

policies, and program requirements; make exceptions around requirements and deadlines; advise prospective and current students; monitor and support students having academic difficulties; coordinate compliance; facilitate the admissions process; and maintain the official files of students in the school.

Academic and Career Advising

The School of Nursing provides dedicated, professional academic and career advising to undergraduate students in their pre-nursing and nursing years. Detailed information can be found on each individual degree guide page and on the School of Nursing's Student Website (https://students.nursing.wisc.edu/).

Academic Support Services

Career & Student Success (https://students.nursing.wisc.edu/support-assistance/nursing-learning-center/) is available at the School of Nursing. Students can utilize support by Student Success course TAs and peer led study groups.

Student Support Services

Information about student support: academic and non-academic resources, policies, forms, clinicals, and compliance can be found on the School of Nursing's Student Website (https://students.nursing.wisc.edu/).

Student Organizations

The School of Nursing encourages and supports students to pursue their interests and form social networks. Information about nursing specific student organizations can be found on the School of Nursing's Student Website (https://students.nursing.wisc.edu/). You can also find more opportunities by going to the Wisconsin Involvement Network (https://win.wisc.edu/organizations/) page.

Scholarships and Financial Aid

The School of Nursing offers a generous scholarship program to incoming and current School of Nursing students. All School of Nursing applicants and current students are highly encouraged to apply for scholarships.

Applications will be considered for all School of Nursing scholarships depending on a variety of factors, including: academic achievement, financial need, leadership experiences, community involvement, personal qualifications, and career interests.

Students are invited to apply to nursing-specific scholarships, as well as campus-wide or non-nursing scholarships, through the Wisconsin Scholarship Hub or WiSH (http://scholarships.wisc.edu/Scholarships/). For more information, see the School of Nursing website (https://students.nursing.wisc.edu/undergraduate-menu/scholarship-aid/).

In addition, university scholarships, loans, and employment are available through the Office of Student Financial Aid (https://financialaid.wisc.edu/) for additional information about financing your education.

SCHOOL OF NURSING

DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/CERTIFICATES

- Nursing, BSN (p. 2076)
- Nursing, BSN (Accelerated Program) (p. 2082)
- Nursing, BSN (Collaborative Program) (p. 2086)

NURSING, BSN

The Traditional Bachelor of Science in Nursing (TBSN) degree program prepares individuals for careers in professional nursing in hospitals and other health care agencies. This TBSN program provides a foundation for progressing to positions of increased responsibility, leadership, and continued education in graduate programs. Upon successful completion of the program, students receive a bachelor of science in nursing degree from the UW–Madison School of Nursing.

The curriculum includes courses in nursing as well as in liberal arts and sciences. Most students enter UW–Madison as pre-nursing students and spend their first two years completing nursing prerequisite and general education courses. Students apply midway through their sophomore year to start the nursing program once admitted. From there, the two-year nursing component includes lectures, laboratory, and clinical courses. Nursing courses emphasize clinical decision-making and the application of theoretical knowledge. Clinical experiences can be up to 90 miles from Madison and may include ambulatory sites, clinics, hospitals, rehabilitation centers, home health agencies, geriatric facilities, school districts, nursing homes, policy centers, etc. This range of sites and opportunities gives students comprehensive exposure to a broad range of patients, illness, and care in both clinical patient and community health settings. Elective courses in general education and in nursing permit students to pursue individual interests.

HOW TO GET IN

HOW TO GET IN

CURRENT UW-MADISON STUDENTS

Requirements	Details
How to get in	Application required. Meeting the requirements listed below does not guarantee admission. (https://nursing.wisc.edu/undergraduate/bsn-traditional (https://nursing.wisc.edu/undergraduate/bsn-traditional/)/)

Courses required to get in	Students are required to complete a course in each of the seven prerequisites listed below. Requirements can be completed via coursework, test credit, transfer work, or placement exam (if applicable). Chemistry • CHEM 103 • CHEM 108 • CHEM 109 Microbiology • MICROBIO 101 • CHEM 343 • NUTR SCI 332 Human Anatomy • ANAT&PHY 337 Human Physiology • ANAT&PHY 235 • ANAT&PHY 335 Psychology • PSYCH 202 Sociology • Any SOC course that carries a social science designation (https://guide.wisc.edu/courses/soc (https://guide.wisc.edu/courses/soc/)/) • ANTHRO 100 • ANTHRO 104 Human Growth and Development • ED PSYCH 320 • ED PSYCH 321 • ED PSYCH 331 • HDFS 262 • HDFS 263 • PSYCH 460 • PSYCH 464
GPA requirements to get in	At the point of application submission (mid-January): • Earn a "C" or higher in any four of the seven prerequisite courses. • Have a minimum cumulative GPA of 2.75 for all undergraduate courses. • Have a minimum prerequisite GPA of 2.75 for all completed prerequisite courses. Prior to admission (at the conclusion of the spring term): • Earn a "C" or higher in each of the individual seven prerequisite courses • Have a minimum cumulative GPA of 2.75 for all undergraduate courses. • Have a minimum prerequisite GPA of 2.75 for all completed prerequisite courses.
Credits required to get in	At the conclusion of the spring application term, complete at least 54-degree credits.
Other	Have not previously enrolled in a professional Bachelor of Science-Nursing program at another institution.

Semester	Deadline to apply	Decision notification timeline
To apply for a fall start	Mid January	On or before July 1st
To apply for a spring start	This program does not accept applications to start in the spring.	
To apply for a summer start	This program does not accept applications to start in the summer	

Admission to the nursing major is competitive and determined by a comprehensive review of each student's academic preparation and performance, leadership, extracurricular activities and service, health care experience and background, diversity in experience and background, and the quality of application statements/essays.

UPPER DIVISION ADMISSION

Upper division admission is the standard route into the Traditional BSN nursing program. In this model, students enter UW–Madison as pre-nursing students (PRN), they spend the first two years completing general education requirements and nursing prerequisites, and then apply for admission to the nursing program for the final two years on campus.

PROSPECTIVE TRANSFER AND SECOND-DEGREE APPLICANTS

Students transferring to the University of Wisconsin–Madison, as well as students who already have a bachelor's degree and wish to earn a second degree in nursing, also apply to the Traditional BSN program via the Upper Division Admission option. More information on the admission process and requirements for transfer students and second-degree students is available on the School of Nursing website (https://nursing.wisc.edu/undergraduate/bsn/).

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

SCHOOL OF NURSING BSN REQUIREMENTS

All BSN students must complete both the BSN General Degree Requirements and Graduation Requirements. To determine which requirements are needed for application eligibility, review the How to Get in section.

BSN GENERAL DEGREE REQUIREMENTS

Chemistry	Complete one: • CHEM 103 • CHEM 108 • CHEM 109
Microbiology	Complete one: • MICROBIO 101 • CHEM 343 • NUTR SCI 332
Anatomy	ANAT&PHY 337
Physiology	Complete either: • ANAT&PHY 235 • ANAT&PHY 335

Psychology	PSYCH 202
Social Science	Complete one: • any 3 credit course in SOC with the Social Science designation (https://guide.wisc.edu/courses/soc (https://guide.wisc.edu/courses/soc/)/) • ANTHRO 100 • ANTHRO 104
Human Growth and Development	Complete one: • HDFS 262 • HDFS 263 • ED PSYCH 320 • ED PSYCH 321 • ED PSYCH 331 • PSYCH 464
Humanities	6 credits with the Humanities, Literature, or Language designation.
Humanities or Social Science	7 credits with the Humanities, Literature, Language, or Social Science designation.
Communication A	Complete either: • one course with the Communication A designation, or • satisfaction of Communication A based on UW Placement Test.
Communication B	One course with the Communication B designation.
Quantitative Reasoning A	Complete either: • one course with the Quantitative Reasoning A designation, or • satisfaction of Quantitative Reasoning A based on UW Placement Test.
Quantitative Reasoning B	One course with the Quantitative Reasoning B designation.
Ethnic Studies	One course with the Ethnic Studies designation.

GRADUATION REQUIREMENTS

Cumulative Credits	A cumulative GPA of 2.5 is required to be eligible for graduation.
Quality of Work	Students must earn a C or better in all required NURSING or CNP coursework.
Residency	30 credits of coursework must be completed in-residence.

NURSING (TRADITIONAL) MAJOR REQUIREMENTS

A total of 124 credits are required for the Nursing, BSN (Traditional).

MATH

Code	Title	Credits
MATH 112	College Algebra	3

HONORS IN THE MAJOR

First-year Traditional BSN students can apply to the BSN Honors in the Major. Applying to the Nursing Honors in the Major includes completing an essay prompt about how engagement in nursing research would enhance your career. For complete information on how to apply and application details, review the Honors program page. Questions about the application should be directed to Academic Affairs.

HONORS IN THE MAJOR REQUIREMENTS

Complete the following courses in addition to the major requirements.

Code	Title	Credits
NURSING 679	Nursing Honors Research Seminar	2
NURSING 681	Senior Honors Thesis	1-2
NURSING 682	Senior Honors Thesis	1-2

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Promote health and manage illness by providing safe, client-centered, culturally congruent care across the lifespan in a variety of health care settings.
2. Employ professional nursing leadership concepts to address patient care and system needs to promote quality health care outcomes and health equity for all.
3. Make effective use of technology for patient care, education, and management of health information.
4. Understand the roles and scope of practice of disciplines of the health care team and practice as an effective, collaborating member of the interprofessional team.
5. Use knowledge sources effectively to provide evidence-based care.
6. Identify health disparities and advocate for basic essential health services for all.
7. Allocate health care resources to maximize the health care benefit to clients, families, and community.
8. Assume fiscal and ethical responsibility for clinical practice.
9. Function as a member of the nursing profession within the community and the world.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

Below is a sample four-year plan. There are many potential variations of this plan, especially in the pre-nursing years. The degree requires 124 credits minimum which could be more than 15 credits per semester depending on individual situations.

Freshman

Fall	Credits	Spring	Credits
Chemistry and/or Math	3	Chemistry and/or Math	5
PSYCH 202 (or SOC or Human Growth & Development course)	3-4	PSYCH 202 (or SOC or Human Growth & Development course)	3-4
Core General Education Requirements	3	Core General Education Requirements	3
Humanities, or Social Science, or Electives	6	Humanities, or Social Science, or Electives	6

*It is recommended to complete NURSING/SOC WORK 105 before starting the nursing program if possible.

ADVISING AND CAREERS

ADVISING AND CAREERS

The School of Nursing's advising team helps students identify academic pathways and educational goals to aid in developing meaningful plans to ensure academic and career success. We believe that advising is an ongoing, caring, and collaborative relationship between advisor and student that provides meaning, guidance, and support throughout the educational process.

ACADEMIC ADVISING

All students are assigned an academic advisor based on the nursing or pre-nursing program with which they are affiliated. Detailed information on the school's advising structure and staff is available on the School of Nursing's academic advising website. (https://students.nursing.wisc.edu/undergraduate-menu/undergraduate-advising/)

CAREER ADVISING

The School of Nursing offers extensive career advising services which provide resources and strategies for career readiness and licensure

planning. This includes workshops, career fairs, resume review, prospective employment resources, and licensure information. More information about career advising is available on the School of Nursing's career advising website (https://students.nursing.wisc.edu/career-advising/career/).

STUDENT SUPPORT

The School of Nursing offers academic support, leadership & connection, mentorship, and wellness throughout the student experience. Additionally, admitted nursing students have access to onsite UHS mental health services. Information about student support is available on the School of Nursing's student support website. (https://students.nursing.wisc.edu/career-advising/nursing-learning-center/)

CERTIFICATION/LICENSURE

CERTIFICATION/LICENSURE

Earning the bachelor of science in nursing degree is the first step toward becoming a Registered Nurse. Graduates must also take and and pass the National Council Licensure Exam (NCLEX-RN) to receive their nursing license and begin their careers as nurses in hospitals, community health and mental health agencies, industrial health centers, nursing homes, family planning centers, crisis care centers, and beyond. A nursing license gives an individual permission to practice nursing, granted by the state where he or she met the requirements.

The School of Nursing works with students as they complete graduation requirements and the two-step process to register for the NCLEX. Specifically the school verifies graduation and assists students as they register for the exam. Most students take the NCLEX within three months of graduation. More than 90 percent of School of Nursing graduates pass the NCLEX on first attempt.

NCLEX-RN PASS RATES

National Council of State Boards of Nursing NCLEX-RN (https://www.ncsbn.org/nclex.htm)

Year of Exam	UW-Madison Graduates: First Attempt	Nationa First Attemp
April-September 2025	93%	87%
April-September 2024	96%	91%
April-September 2023	96%	81%

Note: UW-Madison BSN Graduates pass rate reflects all UW-Madison Bachelor of Science-Nursing graduates who tested during the April-to-September test period for the first time, including recent and previous graduates.

PROFESSIONAL CERTIFICATION/LICENSURE DISCLOSURE (NC-SARA)

The United States Department of Education (via 34 CFR Part 668 (https://www.ecfr.gov/current/title-34/subtitle-B/chapter-VI/part-668/?toc=1)) requires institutions that provide distance education to disclose information for programs leading to professional certification or licensure.

The expectation is that institutions will determine whether each applicable academic program meets state professional licensure requirements and provide a general disclosure of such on an official university website.

Professional licensure requirements vary from state-to-state and can change year-to-year; they are established in a variety of state statutes, regulations, rules, and policies; and they center on a range of educational requirements, including degree type, specialized accreditation, total credits, specific courses, and examinations.

UW-Madison has taken reasonable efforts to determine whether this program satisfies the educational requirements for certification/licensure in states where prospective and enrolled students are located and is disclosing that information as follows.

Disclaimer: This information is based on the most recent annual review of state agency certification/licensure data and is subject to change. All students are strongly encouraged to consult with the individual/office listed in the Contact Information box on this page and with the applicable state agency for specific information.

The requirements of this program meet certification/licensure requirements in the following states:

Alabama, Alaska, Arizona, Arkansas, Colorado, Connecticut, Delaware, Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, North Carolina, North Dakota, Oklahoma, Ohio, Oregon, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Virginia, West Virginia, Wisconsin, Wyoming, District of Columbia, Guam, Northern Mariana Islands, U.S. Virgin Islands

The requirements of this program do not meet certification/licensure requirements in the following states:

California, New York

Updated: 1 June 2026

RESOURCES AND SCHOLARSHIPS

RESOURCES

Signe Skott Cooper Hall

The School of Nursing is located in Signe Skott Cooper Hall. The building features world-class technology and innovative educational spaces that will allow the nursing school to address health care's new standard of excellence—high-tech and high-touch methods and practices that result in better patient outcomes.

Office of Academic Affairs

The Office of Academic Affairs functions as the academic dean's office for the School of Nursing. Staff members interpret school regulations, policies, and program requirements; make exceptions around requirements and deadlines; advise prospective and current students; monitor and support students having academic difficulties; coordinate compliance; facilitate the admissions process; and maintain the official files of students in the school.

Academic and Career Advising

The School of Nursing provides dedicated, professional academic and career advising to undergraduate students in their pre-nursing and nursing years. Detailed information can be found on each individual degree

guide page and on the School of Nursing's Student Website (https://students.nursing.wisc.edu/).

Academic Support Services
Career & Student Success (https://students.nursing.wisc.edu/support-assistance/nursing-learning-center/) is available at the School of Nursing. Students can utilize support by Student Success course TAs and peer led study groups.

Student Support Services
Information about student support: academic and non-academic resources, policies, forms, clinicals, and compliance can be found on the School of Nursing's Student Website (https://students.nursing.wisc.edu/).

Student Organizations
The School of Nursing encourages and supports students to pursue their interests and form social networks. Information about nursing specific student organizations can be found on the School of Nursing's Student Website (https://students.nursing.wisc.edu/). You can also find more opportunities by going to the Wisconsin Involvement Network (https://win.wisc.edu/organizations/) page.

Scholarships and Financial Aid
The School of Nursing offers a generous scholarship program to incoming and current School of Nursing students. All School of Nursing applicants and current students are highly encouraged to apply for scholarships.

Applications will be considered for all School of Nursing scholarships depending on a variety of factors, including: academic achievement, financial need, leadership experiences, community involvement, personal qualifications, and career interests.

Students are invited to apply to nursing-specific scholarships, as well as campus-wide or non-nursing scholarships, through the Wisconsin Scholarship Hub or WiSH (http://scholarships.wisc.edu/Scholarships/). For more information, see the School of Nursing website (https://students.nursing.wisc.edu/undergraduate-menu/scholarship-aid/).

In addition, university scholarships, loans, and employment are available through the Office of Student Financial Aid (https://financialaid.wisc.edu/) for additional information about financing your education.

ACCREDITATION

ACCREDITATION

The baccalaureate degree program in nursing at the University of Wisconsin - Madison is accredited by the Commission on Collegiate Nursing Education (http://www.ccneaccreditation.org).

Next accreditation review: 2029–2030.

NURSING, BSN (ACCELERATED PROGRAM)

Students who already have a bachelor's degree or higher and are interested in making a career change to nursing can apply to enter this fast-track professional program to earn the Bachelor of Science in Nursing in 12 months. In the Accelerated Bachelor of Science in Nursing (ABSN) program, students complete approximately one credit per week including classroom-based, clinical, and out-of-class hours each week.

For tuition rates, see: https://bursar.wisc.edu/tuition-and-fees (https://bursar.wisc.edu/tuition-and-fees/)

HOW TO GET IN

HOW TO GET IN

SCHOOL OF NURSING ADMISSIONS REQUIREMENTS

Requirements	Details
How to get in	Application required. Meeting the requirements listed below does not guarantee admission. The program requires two applications: one to UW–Madison (https://admissions.wisc.edu/apply-as-a-second-degree-student (https://admissions.wisc.edu/apply-as-a-second-degree-student/)/) and one to the School of Nursing for the Accelerated BSN program (https://nursing.wisc.edu/undergraduate/bsn-accelerated (https://nursing.wisc.edu/undergraduate/bsn-accelerated/)/).

Courses required to get in	Applicants are required to complete a course (or its equivalent) in each of the seven prerequisite areas. Requirements can be completed via coursework, test credit, transfer work, or placement exam (if applicable). Chemistry • CHEM 103 • CHEM 108 • CHEM 109 Microbiology • MICROBIO 101 • CHEM 343 • NUTR SCI 332 Human Anatomy • ANAT&PHY 337 Human Physiology • ANAT&PHY 235 • ANAT&PHY 335 Psychology • PSYCH 202 Sociology • Any SOC course that carries a social science designation (https://guide.wisc.edu/courses/soc (https://guide.wisc.edu/courses/soc/)/) • ANTHRO 100 • ANTHRO 104 Human Growth and Development • ED PSYCH 320 • ED PSYCH 321 • ED PSYCH 331 • HDFS 262 • HDFS 263 • PSYCH 460 • PSYCH 464 The first four prerequisites (science courses) must be completed by the application deadline and within seven years of program start date. The Anatomy and Physiology prerequisite may be satisfied by one stand alone Anatomy course and one stand alone Physiology course or by two semesters of a combined Anatomy and Physiology I and II. The pairing of one combined Anatomy and Physiology course and a stand alone Anatomy or Physiology is not acceptable for this requirement. Additionally, at least two of the following courses must be completed by the application deadline, and all must be completed before the program start date. • one course with the Communication A designation • one course with the Quantitative Reasoning A designation • one course with the Quantitative Reasoning B designation • one course with the Ethnic Studies designation • 6 credits with the Humanities or Literature designations. Note: Applicants do not need to complete a course with the Communication B designation. All prerequisites must be completed before the program start date. Prerequisite equivalency information is available on the BSN Prerequisite Course Equivalencies page (https://nursing.wisc.edu/undergraduate/course-equivalencies (https://nursing.wisc.edu/undergraduate/course-equivalencies/)/).
GPA requirements to get in	At the point of application submission (mid-September): • Have at least a C grade in completed prerequisite courses. • A minimum combined prerequisite GPA of 2.75 on all prerequisites completed at time of application. • A minimum cumulative GPA of 2.75 on all undergraduate college credits. Prior to program start (early May): • Have at least a C grade in each of the individual seven prerequisite courses. • A minimum combined prerequisite GPA of 2.75 on all seven prerequisites. • A minimum cumulative GPA of 2.75 on all prior undergraduate college credits.
Credits required to get in	• Bachelor's degree in a non-nursing field from an accredited institution, completed by the program start date.
Other	• Bachelor's degree in a non-nursing field from an accredited institution, completed by the program start date.

Semester	Deadline to apply	Decision notification timeline
To apply for a fall start	This program does not accept applications to start in the fall	

To apply for a spring start	This program does not accept applications to start in the spring	
To apply for a summer start	Mid-September	On or before December 31

TRANSFER CREDIT EVALUATION

An unofficial transfer credit evaluation to check for completion of the nursing prerequisite courses and the university's General Education Requirements will be completed by the School of Nursing prior to the decision release date. Admission is contingent upon official verification by the UW–Madison Office of Admissions and Recruitment.

REQUIREMENTS

UNIVERSITY AND SCHOOL OF NURSING REQUIREMENTS

The Nursing (Accelerated) BSN is a second degree program. The program may be completed in 12 months. The program requires completion/satisfaction of the admissions and prerequisite requirements (p. 2082), which satisfy the University [insert link for Front Matter] and School of Nursing (p. 2075) requirements.

RESIDENCE AND QUALITY OF WORK

- A cumulative GPA of 2.5 is required for graduation.
- Students must earn a C or better in all NURSING coursework.
- 30 credits of coursework must be completed in-residence.

NURSING (ACCELERATED) BSN MAJOR REQUIREMENTS

The Nursing, BS (Accelerated) program requires 52 credits of Nursing coursework. The credential requires a total of 120 credits to complete the degree with the rest of the credits being satisfied by admissions requirements (first degree completion).

Code	Title	Credits
NURSING 313	Foundations of Nursing Practice	3

NURSING 446	Advanced Experiential Learning II	5
NURSING 447	Scholarship for Evidence-Based Practice	2
NURSING 448	Leadership in the Profession of Nursing	2
Total Credits		**52**

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Promote health and manage illness by providing safe, client-centered, culturally congruent care across the lifespan in a variety of health care settings.
2. Employ professional nursing leadership concepts to address patient care and system needs to promote quality health care outcomes and health equity for all.
3. Make effective use of technology for patient care, education, and management of health information.
4. Understand the roles and scope of practice of disciplines of the health care team and practice as an effective, collaborating member of the interprofessional team.
5. Use knowledge sources effectively to provide evidence-based care.
6. Identify health disparities and advocate for basic essential health services for all.
7. Allocate health care resources to maximize the health care benefit to clients, families, and community.
8. Assume fiscal and ethical responsibility for clinical practice.
9. Function as a member of the nursing profession within the community and the world.

NURSING, BSN (COLLABORATIVE PROGRAM)

The RN to BSN program, called the BSN@Home (http://bsnathome.com/) program, is for Registered Nurses who already have an associate's degree or diploma in nursing and wish to earn the bachelor of science in nursing degree.

The curriculum is designed for working adults. Almost all required coursework is completed online. Students can complete the program in as little as a year and a half.

The BSN@Home program is cooperatively administered by six campuses in the University of Wisconsin System: UW–Madison, UW–Eau Claire, UW–Green Bay, UW–Milwaukee, UW–Oshkosh and UW–Stevens Point. Students typically select their home institution based on proximity. All BSN@Home students are required to complete the same core nursing

curriculum, but specific admission and degree requirements vary among campuses.

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to get in	Application required. Meeting the requirements listed below does not guarantee admission. Complete the UW System Application for admission (https://apply.wisconsin.edu/) by following detailed instructions listed on the website: https://nursing.wisc.edu/undergraduate/bsn-online (https://nursing.wisc.edu/undergraduate/bsn-online/)/.
Courses required to get in	• Associate's Degree in Nursing (ADN), equivalent degree, or Diploma in Nursing from an accredited nursing program • 2 units of a high school language other than English, one course with the second semester Language designation, or 1 unit of high school plus 1 semester of the same language • 3 years of high school math including Algebra, Geometry & College Prep math (or similar courses at the college level)
GPA requirements to get in	• GPA of 2.5 from all college-level coursework
Credits required to get in	• At least 24 transferable (college-level) non-nursing credits in addition to the nursing classes completed in a Associate's Degree in Nursing (ADN), equivalent degree, or Diploma in Nursing from an accredited nursing program
Other	• Reside in one of the 50 states and have a RN license in that state by program start date • A high school transcript showing proof of graduation or GED/HSED certification

Semester	Deadline to apply	Decision notification timeline
To apply for a fall start	March 1	On or before April 30
To apply for a spring start	October 1	On or before December 31
To apply for a summer start	This program does not accept applications to start in the summer	

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.

English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

SCHOOL OF NURSING BSN REQUIREMENTS

All BSN students must complete both the BSN General Degree Requirements and Graduation Requirements. To determine which requirements are needed for application eligibility, review the How to Get in section.

BSN GENERAL DEGREE REQUIREMENTS

Chemistry	Complete one: • CHEM 103 • CHEM 108 • CHEM 109
Microbiology	Complete one: • MICROBIO 101 • CHEM 343 • NUTR SCI 332
Anatomy	ANAT&PHY 337
Physiology	Complete either: • ANAT&PHY 235 • ANAT&PHY 335
Psychology	PSYCH 202
Social Science	Complete one: • any 3 credit course in SOC with the Social Science designation (https://guide.wisc.edu/courses/soc (https://guide.wisc.edu/courses/soc/)/) • ANTHRO 100 • ANTHRO 104
Human Growth and Development	Complete one: • HDFS 262 • HDFS 263 • ED PSYCH 320 • ED PSYCH 321 • ED PSYCH 331 • PSYCH 464
Humanities	6 credits with the Humanities, Literature, or Language designation.
Humanities or Social Science	7 credits with the Humanities, Literature, Language, or Social Science designation.
Communication A	Complete either: • one course with the Communication A designation, or • satisfaction of Communication A based on UW Placement Test.
Communication B	One course with the Communication B designation.
Quantitative Reasoning A	Complete either: • one course with the Quantitative Reasoning A designation, or • satisfaction of Quantitative Reasoning A based on UW Placement Test.
Quantitative Reasoning B	One course with the Quantitative Reasoning B designation.
Ethnic Studies	One course with the Ethnic Studies designation.

GRADUATION REQUIREMENTS

Cumulative Credits	A cumulative GPA of 2.5 is required to be eligible for graduation.
Quality of Work	Students must earn a C or better in all required NURSING or CNP coursework.
Residency	30 credits of coursework must be completed in-residence.

NURSING (COLLABORATIVE) MAJOR REQUIREMENTS

Students may transfer up to 90 credits of coursework (from a two-year or a four-year institution). A total of 120 credits are required for the Nursing, BSN (Collaborative).

NURSING CORE

The following must be completed at UW-Madison (cannot be transferred in).

Code	Title	Credits
CNP 306	Transitions: Practice, Professional and Personal	3
CNP 407	Foundations of Professional Nursing Practice	3
CNP 441	Chronic Care Management	3

CNP 519	Capstone Practicum for Registered Nurses	3
Total Credits		**24**

NURSING TRANSFER CREDITS

Students pursuing a Nursing BSN may transfer in credits from another institution to fulfill some of the requirements of the degree. These transfer

credits are awarded in recognition of an Associate's Degree in Nursing (ADN) or nursing diploma. Students who earned an ADN from a Wisconsin Technical College (1996 or after) receive 30 transfer credits[1]. All other students receive 24 credits.[2]

[1] Transcripted as NURSINGX02 and NURSINGX28.
[2] Transcripted as NURSINGX02 and NURSINGX22.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Promote health and manage illness by providing safe, client-centered, culturally congruent care across the lifespan in a variety of health care settings.
2. Employ professional nursing leadership concepts to address patient care and system needs to promote quality health care outcomes and health equity for all.
3. Make effective use of technology for patient care, education, and management of health information.
4. Understand the roles and scope of practice of disciplines of the health care team and practice as an effective, collaborating member of the interprofessional team.
5. Use knowledge sources effectively to provide evidence-based care.
6. Identify health disparities and advocate for basic essential health services for all.
7. Allocate health care resources to maximize the health care benefit to clients, families, and community.
8. Assume fiscal and ethical responsibility for clinical practice.
9. Function as a member of the nursing profession within the community and the world.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

The Nursing Collaborative program requires a 120 credits. The plan below only outlines nursing specific coursework that must be completed while enrolled in the collaborative program and does not include the additional 96 credits required to graduate.

Semester 1	Credits

Total Credits 24

ADVISING AND CAREERS

ADVISING AND CAREERS

The School of Nursing's advising team helps students identify academic pathways and educational goals to aid in developing meaningful plans to ensure academic and career success. We believe that advising is an ongoing, caring, and collaborative relationship between advisor and student that provides meaning, guidance, and support throughout the educational process.

ACADEMIC ADVISING

All students are assigned an academic advisor based on the nursing or pre-nursing program with which they are affiliated. Detailed information on the school's advising structure and staff is available on the School of Nursing's academic advising website. (https://students.nursing.wisc.edu/undergraduate-menu/undergraduate-advising/)

CAREER ADVISING

The School of Nursing offers extensive career advising services which provide resources and strategies for career readiness and licensure planning. This includes workshops, career fairs, resume review, prospective employment resources, and licensure information. More information about career advising is available on the School of Nursing's career advising website (https://students.nursing.wisc.edu/career-advising/career/).

STUDENT SUPPORT

The School of Nursing offers academic support, leadership & connection, mentorship, and wellness throughout the student experience. Additionally, admitted nursing students have access to onsite UHS mental health services. Information about student support is available on the School of Nursing's student support website. (https://students.nursing.wisc.edu/career-advising/nursing-learning-center/)

RESOURCES AND SCHOLARSHIPS

RESOURCES

Signe Skott Cooper Hall

The School of Nursing is located in Signe Skott Cooper Hall. The building features world-class technology and innovative educational spaces that will allow the nursing school to address health care's new standard of excellence—high-tech and high-touch methods and practices that result in better patient outcomes.

Office of Academic Affairs

The Office of Academic Affairs functions as the academic dean's office for the School of Nursing. Staff members interpret school regulations, policies, and program requirements; make exceptions around requirements and deadlines; advise prospective and current students; monitor and support students having academic difficulties; coordinate compliance; facilitate the admissions process; and maintain the official files of students in the school.

Academic and Career Advising

The School of Nursing provides dedicated, professional academic and career advising to undergraduate students in their pre-nursing and nursing years. Detailed information can be found on each individual degree guide page and on the School of Nursing's Student Website (https://students.nursing.wisc.edu/).

Academic Support Services

Career & Student Success (https://students.nursing.wisc.edu/support-assistance/nursing-learning-center/) is available at the School of Nursing. Students can utilize support by Student Success course TAs and peer led study groups.

Student Support Services

Information about student support: academic and non-academic resources, policies, forms, clinicals, and compliance can be found on the School of Nursing's Student Website (https://students.nursing.wisc.edu/).

Student Organizations

The School of Nursing encourages and supports students to pursue their interests and form social networks. Information about nursing specific student organizations can be found on the School of Nursing's Student Website (https://students.nursing.wisc.edu/). You can also find more opportunities by going to the Wisconsin Involvement Network (https://win.wisc.edu/organizations/) page.

Scholarships and Financial Aid

The School of Nursing offers a generous scholarship program to incoming and current School of Nursing students. All School of Nursing applicants and current students are highly encouraged to apply for scholarships. Applications will be considered for all School of Nursing scholarships depending on a variety of factors, including: academic achievement, financial need, leadership experiences, community involvement, personal qualifications, and career interests.

Students are invited to apply to nursing-specific scholarships, as well as campus-wide or non-nursing scholarships, through the Wisconsin Scholarship Hub or WiSH (http://scholarships.wisc.edu/Scholarships/). For more information, see the School of Nursing website (https://students.nursing.wisc.edu/undergraduate-menu/scholarship-aid/).

In addition, university scholarships, loans, and employment are available through the Office of Student Financial Aid (https://financialaid.wisc.edu/) for additional information about financing your education.

ACCREDITATION

ACCREDITATION

Commission on Collegiate Nursing Education (https://www.aacnnursing.org/ccne-accreditation/)

Accreditation status: Next accreditation review: 2029–2030.

SCHOOL OF PHARMACY

To become a pharmacist, a PharmD (Doctor of Pharmacy) degree is needed. PharmD degrees do not require a bachelor's degree first, but you do need to complete a set of college prerequisite courses and a specific number of college credits to apply to the PharmD degree program.

- For more information on the PharmD degree and program, visit the PharmD section of the Guide (https://guide.wisc.edu/pharmacy/pharmacy-school-wide/pharmacy-dph/).
- If you are a current or prospective UW–Madison undergraduate student, and interested in entering the PharmD program in the future, visit our pre-pharmacy at (https://students.pharmacy.wisc.edu/student-services/sop-advising/pre-pharmacy-uwmadison/)UW (https://students.pharmacy.wisc.edu/student-services/sop-advising/pre-pharmacy-uwmadison/)– (https://students.pharmacy.wisc.edu/student-services/sop-advising/pre-pharmacy-uwmadison/)Madison (https://students.pharmacy.wisc.edu/student-services/sop-advising/pre-pharmacy-uwmadison/) website (https://students.pharmacy.wisc.edu/student-services/sop-advising/pre-pharmacy-uwmadison/) for more information on resources and pre-pharmacy advising available to you.
- If you are a high school student or a first-semester college freshman interested in becoming a pharmacist, learn about our PharmD Early Assurance (https://pharmacy.wisc.edu/academics/pharmd/early-assurance/) program and how you can get conditional admission to UW–Madison's PharmD program.
- For prerequisite and admissions information for all other students, visit the PharmD admissions website (https://pharmacy.wisc.edu/academics/pharmd/admissions/).

If you are interested in a pharmacy or biomedical sciences-related career that does not require a pharmacist license, consider checking out our BS in Pharmacology and Toxicology program described below.

BS IN PHARMACOLOGY AND TOXICOLOGY

The BS in Pharmacology and Toxicology (PharmTox) focuses on the biomedical sciences. **Pharmacology** is concerned with the properties, effects, and mechanisms of action of drugs, and with the interactions between chemical agents and biological systems. **Toxicology**, the science of poisons, combines the elements of biology and chemistry with those of many other disciplines to help us understand the harmful effects of chemicals on living organisms.

A major challenge for the **pharmacologist** is to determine how drugs act. This can be carried out at the subcellular and molecular level, the cellular level, the tissue level, the organ level, or the whole-animal level. Pharmacologists also are concerned with the development of new drugs that produce fewer side effects while curing disease, and provide more effective and/or more rapid treatment of disease in humans or animals.

Toxicologists find scientifically sound answers to questions about chemicals that may potentially threaten our health, about pesticides in the food we eat, pollutants in the air we breathe, chemicals in the water we drink, and toxic waste sites near our homes. Some toxicologists are concerned with determining the cellular mechanisms by which drugs and chemicals produce toxic effects. Many are involved in subspecialty areas in toxicology research, such as reproductive and developmental toxicology, neurotoxicology, immunotoxicology, and inhalation toxicology. Researchers in these areas utilize both laboratory animals and in vitro systems to examine the cellular, biochemical, and molecular processes underlying toxic responses.

BS IN PHARMACEUTICAL SCIENCES

The BS in Pharmaceutical Sciences **is not a major** but is an internal degree granted to current Doctor of Pharmacy (PharmD) students after they complete at least one year of the PharmD program. In order to qualify for the BS in Pharmaceutical Sciences, students must have attended UW–Madison as an undergraduate prior to entering the School of Pharmacy and must meet all degree requirements.

DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/CERTIFICATES

- Pharmaceutical Sciences, BS (p. 2092)
- Pharmacology and Toxicology, BS (p. 2094)

ENTERING THE SCHOOL

ENTERING THE SCHOOL

Admission to either the BS in Pharmacology and Toxicology or the Doctor of Pharmacy program is competitive and selective. Each program requires specific prerequisite coursework as well as a complete admissions application. Completion of required prerequisite coursework does not guarantee admission. Each applicant's admission credentials are considered not only on their own merit, but also in comparison with the credentials of other applicants.

For detailed information on prerequisites and the application for the BS in Pharmacology and Toxicology (PharmTox), see the major's "How to Get In" tab in the (http://guide.wisc.edu/undergraduate/pharmacy/pharmacy/pharmacology-toxicology-bs/#howtogetintext)*Guide*.

Information about the required elements of the application and prerequisites for the PharmD (Doctor of Pharmacy) program can be found on the School of Pharmacy website (https://pharmacy.wisc.edu/programs/pharmd/admissions/).

Most pre-pharmacy students are admitted to UW–Madison as College of Letters & Science students with an intention to pursue a School of Pharmacy program (PharmTox undergraduate degree **and/or** the professional PharmD program). While our School of Pharmacy does not directly admit students from high school, we do offer comprehensive academic, admissions, and career advising to students who have expressed an interest in either of these programs.

The School of Pharmacy also offers an Early Assurance program for high school seniors and first-semester freshmen admitted to a Universities of Wisconsin campus interested in the PharmD program. The Early Assurance program provides conditional admission to UW–Madison's PharmD program. The Early Assurance application is offered through the School of Pharmacy and is separate from the undergraduate application process. Please refer to the Resources (https://guide.wisc.edu/undergraduate/pharmacy/#resourcestext) section to start exploring available resources and opportunities available for pre-School of Pharmacy students at UW–Madison.

POLICIES AND REGULATIONS

POLICIES AND REGULATIONS

For a list of Pharmacology and Toxicology (PharmTox) undergraduate policies, including academic standing and probation policies, please visit the PharmTox Policy Handbook (https://students.pharmacy.wisc.edu/pharm-tox-handbook/).

REQUIREMENTS

SCHOOL OF PHARMACY BS REQUIREMENTS

Communication A	Complete either: • one course with the Communication A designation, or • satisfaction of Communication A based on UW Placement Test.
Communication B	One course with the Communication B designation.
Quantitative Reasoning A	Complete either: • one course with the Quantitative Reasoning A designation, or • satisfaction of Quantitative Reasoning A based on UW Placement Test.
Quantitative Reasoning B	One course with the Quantitative Reasoning B designation.
Ethnic Studies	One course with the Ethnic Studies designation.
Natural Science	6 credits with the Biological, Natural, or Physical Science designations.
Social Science	3 credits with the Social Science designation.
Humanities	6 credits with the Humanities, Literature, or Language designations.

School of Pharmacy BS degrees require the following groups of coursework:

- Core General Education
- School of Pharmacy BS Requirements
- Major/prerequisite requirements

Courses can satisfy multiple requirement groups. For example, courses used to fulfill School of Pharmacy BS requirements can also fulfill major requirements and/or Core GenEd requirements. A course can fulfill multiple School of Pharmacy BS requirements if it carries those designations (e.g. Ethnic Studies and Social Science).

RESOURCES

RESOURCES

ACADEMIC ADVISING

If you're a current UW–Madison undergraduate student, you have access to dedicated, structured pre-pharmacy advising at the School of

Pharmacy. Please choose the School of Pharmacy as your advising group option when you make your SOAR reservation in April. We're here to help you with:

- Career paths related to pharmacy, pharmacology, and toxicology
- Understanding prerequisites and developing a plan for completion
- Accessing courses and guidance on how to sequence classes
- PharmD and PharmTox curriculum and degree options
- Admissions selection criteria
- Application process and components

Who is a pre-pharmacy student? A pre-pharmacy student is anyone who is taking the courses necessary to be considered for admission to the Doctor of Pharmacy (PharmD) professional program and/or the BS in Pharmacology and Toxicology (PharmTox) at the UW–Madison School of Pharmacy. Completion of prerequisite coursework does not guarantee admission as admission is selective and competitive.

How do I get started with pre-pharmacy advising? Schedule your pre-pharmacy advising appointment using the Starfish app (https://wisc.starfishsolutions.com/starfish-ops/) in MyUW. Search for "Kendra Gurnee" to meet with the pre-PharmTox advisor or "Amy Zwaska" to meet with the pre-PharmD advisor. Any UW–Madison student with any major or no major can access our dedicated pre-pharmacy advising services at the School of Pharmacy. Individual appointments are typically scheduled for 30 minutes.

If you experience any trouble with the scheduling process:

- You can get help with Starfish here (https://advising.wisc.edu/facstaff/starfish/starfish-student-resources/).
- You can also contact the School of Pharmacy Student and Academic Affairs Office at 608-262-6234 to set up your advising appointment.

Due to the selective nature of the PharmD and PharmTox admissions processes, interested students are encouraged to meet with School of Pharmacy advisors early and often to explore our programs and get valuable guidance about prerequisites, selection criteria, application timeline/procedures, and career opportunities. We recommend that you meet with your pre-pharmacy advisor at least once per semester.

For more information on preparing for and applying to our programs, visit our admissions resources for PharmD (https://pharmacy.wisc.edu/academics/pharmd/admissions/) and PharmTox (https://pharmacy.wisc.edu/academics/pharm-tox/admissions/).

EARLY ASSURANCE

Early Assurance (https://pharmacy.wisc.edu/academics/pharmd/early-assurance/) offers high school and first-semester college freshmen conditional admission to the UW–Madison PharmD program. Eligible students must be admitted to a Universities of Wisconsin campus and complete the Early Assurance application which is separate from the undergraduate application process.

FINANCIAL AID

Students who seek financial assistance should contact the UW–Madison Office of Student Financial Aid (https://financialaid.wisc.edu/) for financial aid applications and information about scholarships, loans, grants, work-study programs, and student employment.

SCHOOL OF PHARMACY SCHOLARSHIPS

The School of Pharmacy awards a variety of scholarships each year to admitted PharmTox and PharmD students. Awards are based on both academic merit and financial need. Students are invited to apply to School of Pharmacy-specific scholarships, as well as campus-wide or non-Pharmacy scholarships, through the Wisconsin Scholarship Hub (https://wisc.academicworks.com/).

STUDENT ORGANIZATIONS

Students will find many organizations of interest, both in the School and across the UW–Madison campus. The School of Pharmacy student organizations website (https://students.pharmacy.wisc.edu/student-life/student-organizations/) has a comprehensive listing of student organizations and groups that are affiliated with the School.

FACILITIES

The School of Pharmacy is located in Rennebohm Hall on the west side of campus, near University Hospital and Clinics and Health Sciences Learning Center. The School of Pharmacy provides students and faculty with the finest possible physical environment for professional pharmacy and for research in pharmaceutical fields of study.

SCHOOL OF PHARMACY

DEGREES/MAJORS/CERTIFICATES

DEGREES/MAJORS/CERTIFICATES

- Pharmaceutical Sciences, BS (p. 2092)
- Pharmacology and Toxicology, BS (p. 2094)

PHARMACEUTICAL SCIENCES, BS

The BS in Pharmaceutical Sciences **is not a major**, but is a milestone degree granted to current Doctor of Pharmacy (PharmD) students while working toward the PharmD degree. In order to qualify for the BS in Pharmaceutical Sciences, students must have attended UW–Madison prior to entering the School of Pharmacy, and must meet all degree requirements. More detailed information about this degree may be found on the school website (https://students.pharmacy.wisc.edu/student-services/sop-advising/pre-pharmacy-uwmadison/).

Information about our Doctor of Pharmacy program (PharmD) can be found at https://pharmacy.wisc.edu/programs/pharmd/. The PharmD is required to be eligible to take the North American Pharmacist Licensure Examination (NAPLEX) and be registered and licensed as a pharmacist.

Students interested in pursuing an **undergraduate** degree offered by the School of Pharmacy may want to investigate the BS Pharmacology and Toxicology (p. 2094) program. This interdisciplinary major in the biomedical sciences can serve as a foundation for further education in graduate or professional degree programs, or for entry-level scientific employment.

HOW TO GET IN

HOW TO GET IN

The BS in Pharmaceutical Sciences is a non-admitting milestone degree. Students earn this credential once degree requirements have been met while working toward their Doctor of Pharmacy (PharmD) degree. For more information on how to apply, see the Doctor of Pharmacy Program's Admissions (https://pharmacy.wisc.edu/academics/pharmd/admissions/).

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communication & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

SCHOOL OF PHARMACY BS REQUIREMENTS

Communication A	Complete either: • one course with the Communication A designation, or • satisfaction of Communication A based on UW Placement Test.
Communication B	One course with the Communication B designation.
Quantitative Reasoning A	Complete either: • one course with the Quantitative Reasoning A designation, or • satisfaction of Quantitative Reasoning A based on UW Placement Test.
Quantitative Reasoning B	One course with the Quantitative Reasoning B designation.

Ethnic Studies	One course with the Ethnic Studies designation.
Natural Science	6 credits with the Biological, Natural, or Physical Science designations.
Social Science	3 credits with the Social Science designation.
Humanities	6 credits with the Humanities, Literature, or Language designations.

School of Pharmacy BS degrees require the following groups of coursework:

- Core General Education
- School of Pharmacy BS Requirements
- Major/prerequisite requirements

Courses can satisfy multiple requirement groups. For example, courses used to fulfill School of Pharmacy BS requirements can also fulfill major requirements and/or Core GenEd requirements. A course can fulfill multiple School of Pharmacy BS requirements if it carries those designations (e.g. Ethnic Studies and Social Science).

MAJOR REQUIREMENTS

The bachelor's degree will be awarded once all Pharmaceutical Sciences major requirements are met, as well as the university general education requirements and other coursework totaling at least 120 credits.

Code	Title	Credits
PHM SCI 420	Physicochemical Principles of Drug Formulation and Delivery	3
PHM SCI 432	Biochemical Principles of Drug Treatment	3
PHARMACY 423	Pharmacy Integrated Learning Laboratory	1
PHM PRAC 438	Nonprescription Medications and Self-Care	2
PHM PRAC 461	Pathways in Pharmacy Practice	1
PHM PRAC 650	Comprehensive Immunization Delivery	1
PHARMACY 411	Pharmacy in the Health Care System	3
PHM SCI 531	Medicinal Chemistry I	3
PHM SCI 541	Pharmaceutical Calculations, Dispensing and Compounding	3
PHARMACY 434	Pharmaceutical Genetics and Immunology	2
PHARMACY 621	Pharmacokinetics	3
S&A PHM 414	Social and Behavioral Aspects of Pharmacy Practice	3
PHARMACY 426	Introductory Pharmacy Practice Experiences I	1
PHARMACY 462	Professional Development and Engagement 1: Developing Your Professional Identity	1
PHARMACY 435	Pulmonary Science and Therapeutics	2
Total Credits		**32**

ADDITIONAL NOTES

- AP, IB, retro-credits, and credit-granting transfer coursework from other institutions (including coursework completed while in high school) all count toward the elective credit requirement.
- Students must also complete coursework appropriate for admissions to the PharmD program.
- Students earning the BS Pharmaceutical Sciences degree will NOT be able to earn additional majors or undergraduate certificates.

QUALITY OF WORK

- Students must have a minimum 2.000 cumulative grade point average.
- School of Pharmacy academic policies (regarding matters such as academic and professional conduct, academic progress/probation, honor roll, pass/fail registration, and independent study coursework) are found in the PharmD student policy handbook (https://students.pharmacy.wisc.edu/pharmd-handbook/).

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Drug properties: Apply knowledge of the physical, chemical, and pharmacologic, and formulation properties of drugs and influence on drug parameters (such as pharmacology, pharmacodynamics, stability, drug/dose delivery design). Differentiate among the therapeutic classes based on mechanisms of action, clinical use, adverse effects, contraindications, interactions, and dosage forms and regimens.
2. Patient-centered care: Use the pharmacist patient care process (PPCP) to employ personalized medicine and social, behavioral and other evidence-based principles to design and deliver individualized patient-care plans that optimize safety, efficacy, and medication used to improve therapeutic outcomes.
3. Drug kinetics: Design or modify treatment regimens including dose, schedule, and duration using patient-specific or population pharmacokinetic data, plasma concentration-time profile of drugs, and factors that alter them.
4. Pharmaceutical calculations and product processing: Ensure accurate and safe sterile and non-sterile compounding, calculation, labeling, and dispensing of medications.
5. Health equity and inclusion: Identify root causes of health disparities and incorporate principles of cultural and structural humility to promote access, inclusion, and equitable health outcomes.

PHARMACOLOGY AND TOXICOLOGY, BS

Pharmacology and Toxicology (PharmTox) is an undergraduate major offered by the School of Pharmacy, leading to a Bachelor of Science in Pharmacology and Toxicology. This major covers two related biomedical sciences:

- **Pharmacology:** The study of drug actions, including their sites, properties, effects, and mechanisms.
- **Toxicology:** The study of harmful effects of chemicals on humans and animals, including exposure assessment, hazard identification, dose response, and risk characterization.

Both fields integrate various scientific disciplines and use advanced biotechnological methods to understand drug and toxicant actions at the molecular level. The curriculum is multidisciplinary, spanning several biomedical sciences. This major can prepare students for a variety of future careers and paths, including graduate school in the biomedical sciences, health professions like medical or dental school, or to work in the biotech or pharmaceutical industry.

The PharmTox major is a limited enrollment, selective admission major. An application is required along with prerequisite courses - for details, see How to Get In (p. 2095). Pre-PharmTox students are usually enrolled in the College of Letters & Science or the College of Agricultural and Life Sciences during their first two years. Students should stay in contact with the PharmTox advisor to keep up with admission requirements and program updates. Once admitted, the core curriculum takes two years to complete (typically junior and senior years).

For those interested in becoming pharmacists, information about the Doctor of Pharmacy (PharmD) program is available here: https://pharmacy.wisc.edu/programs/pharmd/. The PharmD is required to take the North American Pharmacist Licensure Examination (NAPLEX) and become a registered and licensed pharmacist.

HOW TO GET IN

HOW TO GET IN

Requirements	Details
How to get in	Application required. Meeting the requirements listed below does not guarantee admission. (https://pharmacy.wisc.edu/pharm-tox/admissions (https://pharmacy.wisc.edu/pharm-tox/admissions/)/)
Courses required to get in	Students must complete the following by the end of the summer semester prior to entering the program. Calculus I • MATH 221 General Chemistry (one of) • CHEM 103 and CHEM 104 • CHEM 109 • CHEM 115 Organic Chemistry • CHEM 343 • CHEM 345 • CHEM 344 Introductory Biology (one of) • BIOLOGY/BOTANY/ZOOLOGY 151 and BIOLOGY/BOTANY/ZOOLOGY 152 • BIOLOGY/ZOOLOGY 101, BIOLOGY/ZOOLOGY 102, and BIOLOGY/BOTANY 130 • BIOCORE 381, BIOCORE 382, BIOCORE 383, and BIOCORE 384 Communication A Social Science • Any course with the "Social Science" breadth designation (3 credits)
GPA requirements to get in	None.
Credits required to get in	60 credits must be completed by the end of the summer semester prior to entering the program. AP, IB, retrocredits, and credit-granting transfer coursework from other institutions (including coursework completed while in high school) count.
Other	None.

Semester	Deadline to apply	Decision notification timeline
To apply for a fall start	Early February	End of March
To apply for a spring start	This program does not accept applications to start in the spring.	
To apply for a summer start	This program does not accept applications to start in the summer.	

PROSPECTIVE TRANSFER APPLICANTS

Transfer students apply separately for admission to both the University of Wisconsin-Madison and the Pharmacology and Toxicology program during the spring term for fall enrollment. Information for prospective transfer students can be found on the School of Pharmacy Information for Transfer

Students (https://pharmacy.wisc.edu/pharm-tox/admissions/transfers/) page.

REQUIREMENTS

UNIVERSITY REQUIREMENTS

All undergraduate students must complete both the following Core General Education (Core GenEd) and University Degree and Quality of Work requirements. The requirements below apply to students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution is Summer 2026 or later.

Students whose first term at UW-Madison or whose earliest post-high school college attendance at any institution occurred before Summer 2026 should refer to the archived Guide (https://guide.wisc.edu/archive/) for the requirements that apply to them.

CORE GENERAL EDUCATION (CORE GENED) REQUIREMENTS

Civics & Perspectives	3 credits of Civics & Perspectives coursework.
Communicatio & Literacy	6 credits of Communication & Literacy coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingenglishplacement (https://go.wisc.edu/qualifyingenglishplacement/)
Humanities & Arts	6 credits of Humanities & Arts coursework.
Mathematics & Quantitative Reasoning	6 credits of Mathematics & Quantitative Reasoning coursework. This requirement may be partially satisfied by a qualifying placement test score. More information: https://go.wisc.edu/qualifyingmathplacement (https://go.wisc.edu/qualifyingmathplacement/)
Natural Science & Wellness	Complete both: • 6 credits of Natural Science & Wellness or Natural Science & Wellness + Laboratory coursework. • one course must be in Natural Science & Wellness + Laboratory coursework.
Social & Behavioral Science	3 credits of Social & Behavioral Science coursework.
Total Credits	30 credits.

For more information see the policy (https://policy.wisc.edu/library/UW-1095/).

UNIVERSITY DEGREE AND QUALITY OF WORK REQUIREMENTS

All undergraduate degree recipients must complete the following minimum requirements. Requirements for some programs will exceed these requirements; see program requirements for additional information.

Total Degree	120 degree credits.
Residency	Complete 30 credits in residence. A course is considered "in residence" if it is taken when in undergraduate degree-seeking status and: • is offered by UW-Madison and completed on the UW-Madison campus or at an approved off-site location, or • is offered by UW-Madison in an online or distance format, or is completed during participation in a UW-Madison study abroad/study away program.
Quality of Work	Achieve at least the minimum grade point average specified by the school, college, and/or academic program.
Math	Demonstrate minimal mathematics competence by: • placing above MATH 96, or, • successfully completing MATH 96, or • successfully completing a more advanced mathematics course such as MATH 112, MATH 113, MATH 114, MATH 141, MATH 211, or MATH 221.
English Language	If required to take the UW-Madison English as a Second Language Assessment Test (MSN-ESLAT), demonstrate minimal English language competence by: • earning credit for ESL 118, or • achieving a qualifying MSN-ESLAT placement test score.
Language	Complete one: • 2 high school units of a single language other than English, or • one course with the second semester Language designation.
Major Declaration	Declare and complete the requirements for at least one major.

SCHOOL OF PHARMACY BS REQUIREMENTS

Communication A	Complete either: • one course with the Communication A designation, or • satisfaction of Communication A based on UW Placement Test.
Communicatio B	One course with the Communication B designation.
Quantitative Reasoning A	Complete either: • one course with the Quantitative Reasoning A designation, or • satisfaction of Quantitative Reasoning A based on UW Placement Test.
Quantitative Reasoning B	One course with the Quantitative Reasoning B designation.
Ethnic Studies	One course with the Ethnic Studies designation.
Natural Science	6 credits with the Biological, Natural, or Physical Science designations.
Social Science	3 credits with the Social Science designation.

Humanities	6 credits with the Humanities, Literature, or Language designations.

School of Pharmacy BS degrees require the following groups of coursework:

- Core General Education
- School of Pharmacy BS Requirements
- Major/prerequisite requirements

Courses can satisfy multiple requirement groups. For example, courses used to fulfill School of Pharmacy BS requirements can also fulfill major requirements and/or Core GenEd requirements. A course can fulfill multiple School of Pharmacy BS requirements if it carries those designations (e.g. Ethnic Studies and Social Science).

PREREQUISITES

CALCULUS I

Code	Title	Credits
MATH 221	Calculus and Analytic Geometry 1 [1]	5

[1] MATH 211 Survey of Calculus 1 taken at UW-Madison does not fulfill the Calculus I requirement for this major.

GENERAL AND ORGANIC CHEMISTRY

Code	Title	Credits
Complete one of the following general chemistry options:		
CHEM 103 & CHEM 104	General Chemistry I and General Chemistry II	9
CHEM 109	Advanced General Chemistry	5
CHEM 115	Chemical Principles I	5
Complete all of the following organic chemistry courses:		
CHEM 343	Organic Chemistry I	3
CHEM 345	Organic Chemistry II	3
CHEM 344	Introductory Organic Chemistry Laboratory	2

INTRODUCTORY BIOLOGY

Code	Title	Credits
Complete one of the following options:		
BIOLOGY/BOTANY/ ZOOLOGY 151 & BIOLOGY/ BOTANY/ ZOOLOGY 152	Introductory Biology and Introductory Biology	10
BIOLOGY/ ZOOLOGY 101 & BIOLOGY/ ZOOLOGY 102 & BOTANY/ BIOLOGY 130	Animal Biology and Animal Biology Laboratory and General Botany	10
BIOCORE 381 & BIOCORE 382 & BIOCORE 383 & BIOCORE 384	Evolution, Ecology, and Genetics and Evolution, Ecology, and Genetics Laboratory and Cellular Biology and Cellular Biology Laboratory	10

COMMUNICATION A

The UW–Madison Communication A requirement must be fulfilled.

SOCIAL SCIENCE

Any course with the "Social Science" breadth designation (3 credits).

OTHER COLLEGE COURSES

Sixty (60) credits must be completed by the end of the summer semester prior to entering the program. AP, IB, retrocredits, and credit-granting transfer coursework from other institutions (including coursework completed while in high school) all count toward the 60 credits.

PHARMACOLOGY AND TOXICOLOGY MAJOR REQUIREMENTS

Once you are admitted to the major, it will take two years/four semesters to finish the major/degree requirements. There are no exceptions to shorten this timeline, though you can extend your time if needed. Most of the major-level courses follow a set order due to prerequisites and some classes only being offered in fall or spring. To stay on track, it's very important to follow the four-year plans (https://guide.wisc.edu/undergraduate/pharmacy/pharmacy/pharmacology-toxicology-bs/#fouryearplantext). Missing a critical course could delay graduation.

You may be able to take some major-level courses early if you meet the prerequisites, but this will **not** allow you to graduate in fewer than four semesters after admission.

Some requirements (such as the five elective credits, statistics, genetics, and physics) can be completed anytime, even before you are admitted to the major. The directed/independent study requirement must be completed after you officially start the major (your first fall semester officially declared in the major or later).

DIRECTED/INDEPENDENT STUDY (699), 2 CREDITS

Must be completed after matriculation into the major (i.e. the first fall semester officially declared in the major or any semester after) and have prior approval to meet PharmTox major requirements. Students should not wait until the final semester to try to fulfill this requirement, as it can be difficult to find a research opportunity close to graduation. The research-based directed/independent study (typically a course numbered 699) must be in a biological, chemical, or biomedical sciences department, and can include laboratory-based research, library or literature-based research, or clinical research. Experiences such as peer mentoring or teaching assistance, even if a 699 course is used for credit, cannot fulfill this requirement.

PHYSICS I AND II

Code	Title	Credits
Complete one of the following sequences: (consult with advisor on recommended sequences):		
PHYSICS 103 & PHYSICS 104	General Physics and General Physics	8
PHYSICS 201 & PHYSICS 202	General Physics and General Physics	10

PHYSICS 207 & PHYSICS 208	General Physics and General Physics	10

STATISTICS

Code	Title	Credits
Complete one of the following:		
STAT 240	Data Science Modeling I (recommended only if pursuing an additional major or certificate in Data Science)	4
STAT 301	Introduction to Statistical Methods	3
STAT 371	Introductory Applied Statistics for the Life Sciences (recommended for most students)	3
STAT 324	Introduction to Statistics for Science and Engineering	3

BIOCHEMISTRY

Code	Title	Credits
BIOCHEM 507 & BIOCHEM 508	General Biochemistry I and General Biochemistry II	6

PHYSIOLOGY

Code	Title	Credits
Complete one of the following:		
ANAT&PHY 335	Physiology	5
BIOCORE 485 & BIOCORE 486	Principles of Physiology and Principles of Physiology Laboratory	5

GENETICS

Code	Title	Credits
Complete one of the following:		
GENETICS 466	Principles of Genetics	3
GENETICS 467 & GENETICS 468	General Genetics 1 and General Genetics 2 [1]	6
BIOCORE 381 & BIOCORE 382 & BIOCORE 383 & BIOCORE 384	Evolution, Ecology, and Genetics and Evolution, Ecology, and Genetics Laboratory and Cellular Biology and Cellular Biology Laboratory [2]	10

[1] If students choose GENETICS 467 & GENETICS 468, 3 credits from this sequence will count towards the 5 required elective credits.

[2] Students who have taken BIOCORE for introductory biology will have typically also completed the genetics requirement via BIOCORE courses taken sophomore/second year.

PATHOLOGY

Code	Title	Credits
PATH 404	Pathophysiologic Principles of Human Diseases	3

PHARMACOLOGY AND TOXICOLOGY CORE

Code	Title	Credits
Complete all of the following:		
PHM SCI 558	Laboratory Techniques in Pharmacology and Toxicology	2
PHM SCI 679	Pharmacology and Toxicology Seminar (taken twice) [1]	1
PHM SCI 510	Pharmacology Principles and Applications	2
PHM SCI/ M&ENVTOX/ ONCOLOGY/ PHMCOL-M/ POP HLTH 625	Toxicology I	3
PHM SCI/ M&ENVTOX/PATH/ PHMCOL-M/ POP HLTH 626	Toxicology II	3

[1] Students need to take PHM SCI 679 in both their first and second years in the major in spring semesters (typically junior and senior years); the course is repeatable for degree credit.

ADDITIONAL PHARMACOLOGY

Code	Title	Credits
Complete one of the following:		
BIOCHEM/ NUTR SCI 560	Principles of Human Disease and Biotechnology	2
BOTANY 421	Medical Botany	3
PATH-BIO 307	Superbugs, Sex, & Drugs: Why Modern Medicine Needs Evolutionary Biology	2
PHM SCI 581	Molecular and Cellular Principles in Pharmacology	4
PHM SCI 672	Principles of Pharmaceutical Sciences	3

ELECTIVES IN THE MAJOR

Students must complete at least 5 elective credits in the Pharmacology and Toxicology major from the below list, in any subject. Another option for fulfilling a portion or all of these 5 credits are additional directed/independent study (699) credits beyond the minimum 2 credits required for the major. Additional 699 credits must be approved by the PharmTox program to count towards the elective requirement if they are not done under the same principle investigator that was approved for the original two credits required.

Code	Title	Credits
ANAT&PHY 337	Human Anatomy	3
ANAT&PHY 338	Human Anatomy Laboratory	2
AN SCI/DY SCI 434	Reproductive Physiology	3
BIOCHEM/ NUTR SCI 510	Nutritional Biochemistry and Metabolism	3
BIOCHEM 551	Biochemical Methods	4
BIOCHEM/ M M & I 575	Biology of Viruses	2

BIOCHEM 601	Protein and Enzyme Structure and Function	2
BIOCHEM/ GENETICS/ MICROBIO 612	Prokaryotic Molecular Biology	3
BIOCORE 587	Biological Interactions	3
B M E 430	Biological Interactions with Materials	3
BOTANY/AMER IND/ ANTHRO 474	Ethnobotany	3-4
CHEM 346	Intermediate Organic Chemistry Laboratory	1-2
CHEM 547	Advanced Organic Chemistry	3
CHEM 561	Physical Chemistry I	3
CHEM 562	Physical Chemistry II	3
CHEM 563	Physical Chemistry Laboratory I	1
CHEM 564	Physical Chemistry Laboratory II	1
CHEM 665	Biophysical Chemistry	3
DERM 601	Skin Biology and Skin Diseases	3
ENVIR ST/ POP HLTH 471	Introduction to Environmental Health	3
ENVIR ST/ POP HLTH 502	Air Pollution and Human Health	3
FOOD SCI 550	Fermented Foods and Beverages	2
GENETICS 545	Genetics Laboratory	2
GENETICS 588	Immunogenetics	3
GENETICS/ MD GENET 662	Cancer Genetics	3
M M & I 301	Pathogenic Bacteriology	2
M M & I 341	Immunology	3
M M & I/PATH-BIO 528	Immunology	3
MED PHYS/ H ONCOL 410	Radiobiology	2-3
MICROBIO 303	Biology of Microorganisms	3
MICROBIO 304	Biology of Microorganisms Laboratory	2
MICROBIO 305	Critical Analyses in Microbiology	1
MICROBIO 357	General Bioinformatics for Microbiologists	3
MICROBIO 626	Microbial and Cellular Metabolomics	3
M&ENVTOX/ CIV ENGR/ SOIL SCI 631	Toxicants in the Environment: Sources, Distribution, Fate, & Effects	3
ONCOLOGY 401	Introduction to Experimental Oncology	2
ONCOLOGY/ M M & I/ PL PATH 640	General Virology-Multiplication of Viruses	3
PHM SCI 632	Neuroscience of Psychedelics	3
PSYCH 450	Primate Psychology: Insights into Human Behavior	3-4
PSYCH 454	Behavioral Neuroscience	3-4
PSYCH/ ZOOLOGY 523	Neurobiology	3
SOC WORK 453	Substance Use Disorders	3
ZOOLOGY 425	Behavioral Ecology	3
ZOOLOGY 430	Comparative Anatomy of Vertebrates	5
ZOOLOGY 444	Neuronal Cell Biology in Health and Disease	2
ZOOLOGY 470	Introduction to Animal Development	3
ZOOLOGY 555	Laboratory in Developmental Biology	3
ZOOLOGY 570	Cell Biology	3

QUALITY OF WORK REQUIREMENTS AND PASS/FAIL

Students must have a 2.000 cumulative grade point average at the time of graduation in order to earn a Pharmacology and Toxicology BS degree.

No course that is used for Pharmacology and Toxicology degree requirements may be taken as pass/fail and must be taken for a letter grade (AP, IB, or other test credits or placement exemptions are excluded from this requirement). This includes all prerequisite coursework, major requirements, School of Pharmacy BS requirements, and Core GenEd.

LEARNING OUTCOMES

LEARNING OUTCOMES

1. Demonstrate a knowledge and understanding of the supportive biomedical fields.
2. Demonstrate a knowledge and understanding of Pharmacology.
3. Demonstrate a knowledge and understanding of Toxicology.
4. Understand scientific principles of laboratory design and presentation of scientific data.

FOUR-YEAR PLAN

FOUR-YEAR PLAN

A minimum of 120 credits is required to earn the BS in Pharmacology and Toxicology. Below are sample four-year plans for the Pharmacology and Toxicology major, incorporating both prerequisites and major coursework. They focus on science coursework sequencing and do not take into account factors such as AP or advance standing credits, additional summer courses, study abroad, or preparing for standardized tests like the MCAT or PCAT.

Once students enter the major, it will take 2 years/4 semesters to complete required coursework - there are no exceptions to shorten this timeline. If you want to graduate in 3 or 3.5 years, you will need to apply during your first (freshman) year to be admitted to the major for your second (sophomore) year.

It is **critical** that you talk with your advisor about your tentative plan for course sequences and prerequisites, which courses are offered fall vs. spring vs. summer, etc.

EXAMPLE PLAN: CHEMISTRY 103/104

First Year

Fall	Credits	Spring	Credits
CHEM 103	4	CHEM 104	5
MATH 221	5	STAT 371 or 301	3
Communication A	3	Social Science	3-4
Electives	3-4	Electives	3-4
	15-16		**14-16**

Second Year

Fall	Credits	Spring	Credits
CHEM 343	3	CHEM 345	3
BIOLOGY/BOTANY/ ZOOLOGY 151 (or Biocore)	5	CHEM 344	2
Ethnic Studies	3-4	BIOLOGY/BOTANY/ ZOOLOGY 152 (or Biocore)	5
Electives	3	Humanities	3
		Electives	3
	14-15		**16**

Third Year

Fall	Credits	Spring	Credits
BIOCHEM 507	3	BIOCHEM 508	3
PHM SCI 558	2	PATH 404	3
ANAT&PHY 335 (or Biocore)	5	PHM SCI 679	1
Humanities	3	PHYSICS 103	4
Research (699) credits	2-3	Electives in the Major or add'l research credits	2-3
	15-16		**13-14**

Fourth Year

Fall	Credits	Spring	Credits
PHM SCI/M&ENVTOX/ ONCOLOGY/PHMCOL-M/POP HLTH 625	3	PHM SCI/M&ENVTOX/ PATH/PHMCOL-M/ POP HLTH 626	3
PHYSICS 104	4	PHM SCI 679	1
Additional Pharmacology	2-4	GENETICS 466 (not req. if Biocore taken)	3
Electives in the Major or add'l research credits	2-3	PHM SCI 510	2
Electives	3	Electives	4
	14-17		**13**

Total Credits 114-123

EXAMPLE PLAN: CHEMISTRY 109, BIOLOGY IN FIRST YEAR

First Year

Fall	Credits	Spring	Credits
CHEM 109	5	CHEM 343	3
MATH 221	5	ZOOLOGY/BIOLOGY/ BOTANY 151	5
Communication A	3	Social Science	3-4
Electives	3-4	Electives	3-4
	16-17		**14-16**

Second Year

Fall	Credits	Spring	Credits
ZOOLOGY/BIOLOGY/ BOTANY 152	5	CHEM 344	2
CHEM 345	3	PHYSICS 103	4
Ethnic Studies	3-4	Humanities	3-4
Humanities	3-4	Electives	3-4
	14-16		**12-14**

Third Year

Fall	Credits	Spring	Credits
BIOCHEM 507	3	BIOCHEM 508	3
PHM SCI 558	2	PATH 404	3
ANAT&PHY 335	5	PHM SCI 679	1
Research (699) credits	2	PHM SCI 510	2
Electives	3	Electives in the Major or add'l research credits	2-3
	15		**11-12**

Fourth Year

Fall	Credits	Spring	Credits
PHM SCI/M&ENVTOX/ ONCOLOGY/PHMCOL-M/POP HLTH 625	3	PHM SCI/M&ENVTOX/ PATH/PHMCOL-M/ POP HLTH 626	3
STAT 371	3	PHM SCI 679	1
PHYSICS 104	4	GENETICS 466	3
Electives in the Major or add'l research credits	2-3	Additional Pharmacology	2-4
Electives	3	Electives	3-4
	15-16		**12-15**

Total Credits 109-121

EXAMPLE PLAN: CHEMISTRY 103 IN SPRING OF FIRST YEAR

First Year

Fall	Credits	Spring	Credits
MATH 112	3	CHEM 103	4
Social Science	3-4	MATH 221	5
Communication A	3	Humanities	3-4
Electives	3-4	Electives	3-4
	12-14		**15-17**

Second Year

Fall	Credits	Spring	Credits	Summer	Credits
CHEM 104	5	CHEM 343	3	CHEM 345	3
ZOOLOGY/ BIOLOGY/ BOTANY 151	5	ZOOLOGY/ BIOLOGY/ BOTANY 152	5	CHEM 344	2
Ethnic Studies	3-4	Humanities	3-4		
Electives	3-4	Electives in the Major	3		
	16-18		**14-15**		**5**

Third Year

Fall	Credits	Spring	Credits
BIOCHEM 507	3	BIOCHEM 508	3-4

PHM SCI 558	2	PATH 404	3
ANAT&PHY 335	5	PHM SCI 679	1
STAT 371 or 301	3	PHYSICS 103	4
		Research (699) credits	2
	13		**13-14**

Fourth Year

Fall	Credits	Spring	Credits
PHM SCI/ M&ENVTOX/ ONCOLOGY/ PHMCOL-M/ POP HLTH 625	3	PHM SCI/ M&ENVTOX/ PATH/ PHMCOL-M/ POP HLTH 626	3
PHYSICS 104	4	PHM SCI 679	1
Additional Pharmacology	2-4	PHM SCI 510	2
Electives in the Major or add'l research credits	2-3	GENETICS 466	3
		Electives	3
	11-14		**12**

Total Credits 111-122

ADVISING AND CAREERS

ADVISING AND CAREERS

ADVISING

During their first two college years, pre-PharmTox students are typically in the College of Letters & Science or the College of Agricultural and Life Sciences. This time is spent completing prerequisite courses and preparing to apply to the PharmTox major. Students can request to be assigned to the PharmTox advisor in addition to their primary academic advisor from their current school. They are welcome to meet with the PharmTox advisor at any time for guidance. There is no official "pre-PharmTox" designation or program to declare or be in administratively.

The PharmTox advisor supports both current undergraduates and prospective high school or transfer students interested in the major. High school and transfer students can schedule appointments by calling 608-262-6234 or emailing the advisor, while current UW–Madison students can book their sessions online via Starfish (https://wisc.starfishsolutions.com/starfish-ops/). Advising is also available during SOAR for incoming students, which includes help with curriculum planning and introductions to enrollment tools. The advisor can also connect prospective undergraduates with upperclassmen and alumni who share similar interests.

Once admitted to the major, students will have the PharmTox advisor as their primary academic advisor, ensuring they receive continuous support throughout their academic journey.

CAREERS

Graduates of the program are well-prepared for entry-level scientific jobs in various industries like biotechnology, consumer products, contract research, regulatory affairs, and pharmaceuticals. They can also work in academic research labs or government agencies focused on science, health, or the environment. The program provides a strong foundation for graduate education in pharmacology, toxicology, or other biomedical sciences, as well as for health professions like medical, veterinary, dental, optometry, and public health programs. With the right general education and elective courses, students can also pursue careers in scientific writing, business, regulatory roles, environmental positions, or law school. Graduates are equipped to make significant contributions to human and animal health.

The program has strong connections with its 400+ alumni who are located across the country and the globe. The PharmTox advisor can help students connect with alumni to explore careers and learn about employers.

Available Career Resources

- The PharmTox advisor can assist with resume building, interview preparation, and career exploration, and also gives all PharmTox students access to a virtual career center via Canvas.
- Many L&S and CALS career workshops and fairs are open to all students, including PharmTox students. The Career Exploration Center (https://cec.ccas.wisc.edu/) (CEC) is also available to students who are in the early stages of career exploration, especially those who have lots of ideas or no ideas yet.
- Current students can join the Pharmacology and Toxicology LinkedIn group (https://www.linkedin.com/groups/12266662/) to network with fellow students and alumni.
- Handshake (https://app.joinhandshake.com/auth/?auth=648) features employer job postings specifically available to UW–Madison students and is a great place to browse for internships and full-time jobs. Students can also post resumes and allow employers to contact them regarding potential employment.
- The Center for Prehealth Advising (http://www.prehealth.wisc.edu) assists students with preparing for and applying to professional healthcare programs, including medicine, physical therapy, physician assistant, dentistry, and more.

WISCONSIN EXPERIENCE

WISCONSIN EXPERIENCE

The following opportunities can help students connect with other students interested in pharmacology, toxicology, and other biomedical sciences, build relationships with faculty and staff, and contribute to out-of-classroom learning:

- The program's small size and cohort-based model makes it easy to arrange study groups, tutoring, and social events, and funds can be requested to support these activities.
- Students have access to a student commons, group study rooms, lockers, and a variety of gathering spaces in Rennebohm Hall. Ebling Library, located adjacent to Rennebohm Hall in the Health Sciences Learning Center, serves the School of Pharmacy student body, in addition to that of students from medicine, veterinary medicine, and nursing.
- The School of Pharmacy hosts a variety of student organizations (https://students.pharmacy.wisc.edu/student-life/student-organizations/), several of which are available to PharmTox students. Junior and senior class presidents are elected each year and represent each cohort by providing feedback, as well as serve on various School of Pharmacy committees to represent the PharmTox program.
- Students are required to participate in a scientific research experience for at least one semester after being admitted to the major, though continued research involvement before and after admission to the major is highly encouraged. The WISCIENCE website (https://

wiscience.wisc.edu/resources/undergrad-resources/finding-a-mentor/) has step-by-step information on how to find a research opportunity, and students can also speak with the advisor for additional guidance.

- Study abroad is definitely possible, although a winter session, spring break, or summer session experience fits most easily with the PharmTox curriculum. Visit the Study Abroad Major Advising Page for PharmTox (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/pharmacology-and-toxicology/) to learn more.
- One to two travel awards are given annually to allow seniors to attend a national conference in a field related to pharmacology or toxicology.
- The annual School of Pharmacy research poster session provides students with an opportunity to present their research projects each spring.
