

GENETICS AND GENOMICS, B.S.

RESOURCES AND SCHOLARSHIPS

Scholarships

Students in the College of Agricultural and Life Sciences receive more than \$1.25 million in scholarships annually. Learn more about college scholarships (<https://cals.wisc.edu/academics/undergraduate-students/financing-your-education/cals-scholarships/>).

The genetics department offers a Genetics and Genomics Excellence in Research Award of up to \$6,000 to support undergraduate research in genetics- and genomics-related areas. There are also scholarships available for students who participate in certain genetics-focused study abroad programs.

Resources

The Center for Pre-Health Advising (<https://prehealth.wisc.edu/>) provides information about health careers including pre-med, pre-nursing, pre-vet, and pre-physical therapy, and offers course suggestions.
