1

BUSINESS: MANAGEMENT, BBA

LEARNING OUTCOMES

LEARNING OUTCOMES

- 1. Analyze organizational capabilities and external opportunities to develop strategies in pursuit of competitive advantages.
- 2. Assess and respond to different types of change in the competitive environment (technological, rivals' actions, disruption, etc.) that may affect a firm's strategic position.
- Develop appropriate tactics in competitive and cooperative negotiations to promote team effectiveness, manage conflict, and support organizational strategies when negotiating with external partners.
- 4. Develop team norms, routines, and structures to maximize team performance and align with organizational goals and strategies.
- Diagnose management, organizational, and environmental challenges from a change agent's perspective and design interventions to enhance effectiveness and stakeholder value.
