1

BUSINESS: OPERATIONS AND TECHNOLOGY MANAGEMENT, BBA

LEARNING OUTCOMES

LEARNING OUTCOMES

- 1. Understand how to analyze and evaluate business processes combined with a capability for improving those processes.
- 2. Understand how the effects of increased utilization and variability impact process capacity and flow times, and will be able to suggest approaches to improve system performance.
- 3. Build analytical models to solve business problems.
- Articulate the commonalities and differences between service and manufacturing processes, and be able to manage and make improvements within either context.
- 5. Analyze and implement operational business decisions from both strategic and tactical perspectives.
