

# ART STUDIO, CERTIFICATE

The Certificate in Art Studio allows students from across campus, regardless of their major or degree program, to engage in a structured, meaningful art studio experience. Students should work closely with their major advisor to see how the certificate requirements can fit into their degree plan. **Note: Most art courses do not carry the LAS (L&S) designation.**

This certificate was designed for students who may not have professional ambitions in the arts, but still have an interest in a special discipline and want to develop their talents; previous coursework in art is not required.

The program provides a course of study in four focus areas: 2D, 3D, 4D, or photography. Students select one of these options and complete the courses required of this area of study.

For each option, certificate students complete one course focusing on the historical context of art, one or two courses that provide a foundation for their chosen area, and two related electives that allow for the exploration and development of their skills specific to the area of focus.

Students interested in graphic design and typography should consider the Graphic Design Certificate (<https://guide.wisc.edu/undergraduate/education/art/graphic-design-certificate/>), also offered through the Department of Art.

The Art Studio certificate may also appeal to individuals who have already completed a Bachelor's degree in art, but now want to complete an emphasis in a different discipline; see the Nondegree/Visiting Student Guide (<https://guide.wisc.edu/nondegree/>). In these instances, the student will work closely with an advisor in the Department of Art to substitute higher-level courses for the foundational studio courses.

## HOW TO GET IN

### DECLARATION PROCESS

Students intending to complete the Art Studio certificate can find the declaration form on the School of Education's Certificate Programs page. The declaration for this certificate program can be submitted at any time during the academic year.

### ELIGIBILITY

Undergraduate students in good academic standing with a cumulative GPA of 2.50 or higher, who are not participating in the Art-B.S., Art Education, or Art-BFA degree programs, may declare this certificate. University Special students who have already completed a bachelor's degree are also eligible to complete this certificate.

## REQUIREMENTS

The studio art certificate may be completed by any UW-Madison undergraduate student who is not a declared art major.

Select a course of study in one of four focus areas: 2D, 3D, 4D (time-based), or Photography, and complete the required courses. For each option, certificate students complete one course focusing on the

historical context of art, one or two courses that provide a foundation for their chosen area, and two or three related electives that allow for the exploration and development of their skills.

The certificate requires a minimum total of 17–18 credits, depending on the selected area. A minimum of 12 of these credits must be completed in residence. It is possible to complete the certificate in three semesters, making it a viable option for most students, including transfers.

### HISTORICAL CONTEXT OF ART/ DESIGN

## PROGRESS AND COMPLETION REQUIREMENTS

A minimum cumulative GPA of 2.5 must be achieved and maintained across all certificate course work in order to remain in, and successfully complete the certificate. All courses required by the certificate must be taken for a grade; none may be taken on a pass/fail, credit/no credit basis or as an auditor.

At least 12 of the required credits must be completed in residence in the UW–Madison Department of Art. Courses taken in a study abroad program sponsored by UW–Madison do not count toward this residency requirement.

## UNDERGRADUATE/SPECIAL STUDENT CERTIFICATES

This certificate may be completed within the context of an undergraduate degree or as a Special student after an undergraduate degree has been awarded from any institution. The certificate may be completed in its entirety while enrolled as a Special student. Candidates are encouraged to contact the certificate coordinator to discuss course enrollment and the sequencing of certificate requirements.

### LEARNING OUTCOMES

1. Correctly identify and explain important eras in historical and contemporary art practice.
2. Develop technical and conceptual skill in studio practice by consistently employing the elements and principles of effective visual art and/or design in their chosen focus area.

### PEOPLE

Information about faculty, staff, and other contributors to the Department of Art can be found on the department's website (<https://art.wisc.edu/>).
